1 **SEC. 2. PURPOSES.**

2 The purposes of this Act are as follows:

3 (1) To better ensure delivery of high-quality
4 special education and related services to children
5 and youth who are blind or visually impaired, deaf,
6 hard of hearing, deafdisabled, or deafblind through
7 specialized instructional services and methodologies
8 designed to meet their unique language and learning
9 needs.

10 (2) To better ensure delivery of high-quality
11 early intervention services to children and youth who
12 are deaf, hard of hearing, deafdisabled, or deafblind,
13 and their families, through specialized services and
14 methodologies designed to meet their unique lan-
15 guage and other developmental needs.

16 (3) To foster the proliferation of research sup-
17 porting the development and evaluation of effective
18 and innovative assessments and instructional meth-
19 odologies consonant with the unique learning needs

1 of children and youth who are blind or visually im-
2 paired.

3 (4) To enhance accountability for the provision
4 of such services.

5 (5) To support the development of personnel
6 serving children and youth who are blind or visually
7 impaired, deaf, hard of hearing, deafdisabled, or
8 deafblind.

9 **SEC. 3. FINDINGS.**

10 Congress finds the following:

11 (1) When American author, Mark Twain, im-
12 mortalized Helen Keller’s teacher, Anne Sullivan
13 Macy, with the moniker “the miracle worker”, his
14 words, though meant as praise, reflect the mis-
15 conception that educating individuals with disabili-
16 ties is a nearly insurmountable task requiring ex-
17 traordinary feats performed by gifted and saintly
18 persons. Rather, the work of teaching children with
19 disabilities can and does occur when committed and
20 qualified but everyday special educators are properly
21 prepared and supported to practice their professions.
22 Yet, the educational systems within which they act
23 must also be held accountable for results.

24 (2) In 1817, Thomas Hopkins Gallaudet and a
25 deaf teacher, Laurent Clerc, opened the first school

1 in the United States for deaf students—the Amer-
2 ican School for the Deaf—with young Alice Cogswell
3 as its first pupil. Ultimately the school grew into a
4 national institution and the mother of many other
5 schools. As Alice demonstrated, deaf, hard of hear-
6 ing, or deafdisabled children can learn and achieve
7 to high levels when they have full access to language,
8 are taught by professionals with specialized training,
9 and have access to educational placements that rec-
10 ognize and provide for their language, social-emo-
11 tional, and academic needs.

12 (3) Deaf, hard of hearing, and deafdisabled
13 children who are identified early and receive appro-
14 priate early intervention from specialized, qualified
15 providers achieve higher academic and language out-
16 comes. However, as of the date of enactment of this
17 Act, early intervention services often are limited to
18 one language, many children are lost to follow up,
19 and there are severe shortages of specialized early
20 intervention professionals, resulting in many deaf,
21 hard of hearing, and deafdisabled children not
22 reaching their appropriate milestones and experi-
23 encing language deprivation, impacting their full
24 lives.

1 (4) Research demonstrates that children and
2 youth who are blind or visually impaired are among
3 the highest performing students with disabilities in
4 terms of academic achievement, and yet they are
5 among the least employed, even after successful ac-
6 complishment of postsecondary academic objectives.

7 (5) Likewise, children and youth who are
8 deafblind have the same capacity to learn and
9 achieve as any other children. However, they must
10 have ongoing access to the same environmental and
11 educational information that their sighted and hear-
12 ing peers can access automatically. These children
13 require direct learning experiences, including hands-
14 on experiences and intense involvement in edu-
15 cational routines and activities. They must receive
16 specialized direct instruction in their accessible lan-
17 guage in a range of academic and functional areas.

18 (6) Children and youth who are deaf, hard of
19 hearing, deafdisabled, or deafblind require more lan-
20 guage access and support to acquire skills than they
21 are, as of the date of enactment of this Act, pre-
22 dominantly receiving in local school districts strug-
23 gling to find qualified personnel, so that such indi-
24 viduals risk experiencing language deprivation. It
25 has been the Department of Education's position

1 since 1992 that “[a]ny educational setting that does
2 not meet the communication and related needs of a
3 child who is deaf does not allow for the provision of
4 [a Free Appropriate Public Education] and cannot
5 be considered the [Least Restrictive Environment]
6 for that child”.

7 (7) Moreover, a principal way that sighted and
8 hearing children and youth acquire knowledge and
9 skills is through incidental learning, naturally ob-
10 serving others and the environment. Deficits in inci-
11 dental learning leave children and youth with sen-
12 sory disabilities behind in an array of skill areas. In
13 addition to core academics, deaf, hard of hearing,
14 and deafdisabled children and youth, for example,
15 must also receive specialized instruction and services
16 designed to maximize their capacity to learn effec-
17 tively and live productively and independently. Simi-
18 larly, children and youth who are blind or visually
19 impaired must also receive instruction in the ex-
20 panded core curriculum, a comprehensive array of
21 specialized instruction and services maximizing the
22 capacity of children and youth who are blind or vis-
23 ually impaired to learn effectively and live produc-
24 tively and independently.

1 (8) The widespread use by States of the Indi-
2 viduals with Disabilities Education Act's disability
3 categories has led to a sizable undercount of children
4 and youth with sensory disabilities and, con-
5 sequently, a lack of recognition of the extent of the
6 systemic need for the delivery of appropriate instruc-
7 tional services meeting their unique needs. This oc-
8 curs in large measure because children and youth
9 with sensory disabilities who also have additional
10 disabilities are frequently formally classified as hav-
11 ing multiple disabilities. Consequently, their vision,
12 hearing, or concomitant vision and hearing disabil-
13 ities and related support needs are not fully ac-
14 knowledgeed.

15 (9) It also must be acknowledged and recog-
16 nized that the population of deaf, hard of hearing,
17 or deafdisabled children and youth is inherently di-
18 verse, with 55 percent or more being children of
19 color. In contrast, less than 10 percent of personnel,
20 including teachers of deaf, hard of hearing, or
21 deafdisabled children and youth, and interpreters,
22 are people of color.

23 (10) Qualified teachers of the deafblind are
24 needed to assist children and youth who are
25 deafblind in schools and school-related activities.

1 Also needed are qualified interveners, who work one-
2 to-one with children and youth who are deafblind
3 and who have training and specialized skills in
4 deafblindness. Intervenors play a critical role in the
5 provision of a Free and Appropriate Public Edu-
6 cation for children and youth who are deafblind, be-
7 cause they provide access to the information needed
8 for learning and conceptual understanding, facilitate
9 communication development, and promote social and
10 emotional well-being.

11 (11) A national resource in blindness and visual
12 impairment is needed—

13 (A) to supplement the work of State and
14 local educational agencies through student en-
15 richment activities;

16 (B) to support teachers of children and
17 youth who are blind or visually impaired and
18 related services personnel through state-of-the-
19 art continuing education opportunities; and

20 (C) to spur the further advancement of in-
21 structional services for children and youth who
22 are blind or visually impaired through scientific
23 research and evidence-based best practices.

24 **SEC. 4. DEFINITIONS.**

25 For purposes of this Act:

1 (1) The term “deafblind”, when applied to an
2 individual, means the individual has concomitant
3 hearing and visual impairments, the combination of
4 which—

5 (A) prevents access to information;

6 (B) causes severe communication chal-
7 lenges;

8 (C) interferes with social and emotional
9 well-being; and

10 (D) impacts other developmental areas in a
11 manner that adversely affect a child’s edu-
12 cational performance (including children who
13 are deafblind with additional disabilities).

14 (2) The term “deafdisabled”, when applied to
15 an individual, means the individual is deaf and also
16 has at least one other disability, but excludes indi-
17 viduals who are deafblind.

13 OF HEARING, OR DEAFDISABLED REGARDLESS OF CLAS-
14 SIFICATION.—Section 612(a)(3) (20 U.S.C. 1412(a)(3)) is
15 amended at the end by adding the following:

16 “(C) SERVING CHILDREN WHO ARE DEAF,
17 HARD OF HEARING, OR DEAFDISABLED.—When
18 a State classifies children by disability, the
19 State, in complying with subsection (a)—

20 “(i) identifies, locates and evaluates
21 children who are deaf, hard of hearing, or
22 deafdisabled who are, or may be, classified
23 in a disability category other than deaf,
24 hard of hearing, or deafdisabled;

1 “(ii) provides (without prejudice to
2 such classification) special education and
3 related services to such children, including
4 the specific services determined appro-
5 priate based on proper evaluation as would
6 be provided to children classified in the
7 State as deaf or hard of hearing; and

8 “(iii) ceases to use vague other termi-
9 nology, such as ‘hearing impaired’, ‘section
10 504 student’, or ‘having a communication
11 disorder’.”.

13 618 (20 U.S.C. 1418) is amended—

14 (1) by striking subsection (a)(1)(A)(iii) and in-
15 serting the following:

16 “(iii) In separate classes, separate schools
17 or facilities, or public or private residential fa-
18 cilities, with the exception of deaf, hard of hear-
19 ing, deafdisabled, and deafblind students due to
20 their being low-incidence and benefiting from
21 specialized language instruction and access.”;

22 (2) in subsection (c), by inserting “and funding
23 to appropriate entities” after “States”; and

24 (3) by adding at the end the following:

1 “(e) ACCOUNTING FOR CHILDREN WHO ARE DEAF,
 2 HARD OF HEARING, OR DEAFDISABLED.—In addition to
 3 the other data collection and reporting requirements of
 4 this section and subject to such provisions, the State and
 5 the Secretary of the Interior shall, with respect to children
 6 classified in a disability category other than hearing im-
 7 pairment or deafness, include the number and percentage
 8 of such children in each disability category who are also
 9 deaf, hard of hearing, or deafdisabled and their avenue
 10 of access to American Sign Language, whether it be via
 11 an interpreter, a teacher of the deaf, or expressly waived
 12 by the parents.”.

13 (c) CHILD WITH A DISABILITY.—Section
 14 602(3)(A)(i) (20 U.S.C. 1401(3)(A)(i)) is amended—

15 (1) by inserting “who is deaf, hard of hearing,
 16 or deafdisabled or” before “with intellectual disabil-
 17 ities,”; and

18 (2) by striking “hearing impairments (including
 19 deafness),”.

20 **SEC. 102. STATE PLANS.**

21 Section 612 (20 U.S.C. 1412) is amended by adding
 22 at the end the following:

23 “(g) ADDENDUM CONCERNING CHILDREN WHO ARE
 24 DEAF, HARD OF HEARING, OR DEAFDISABLED.—

1 “(1) IN GENERAL.—Notwithstanding the provi-
2 sions of subsection (c), a State shall not be deter-
3 mined to be in compliance with this section unless,
4 not later than 2 years after the date of the enact-
5 ment of the Alice Cogswell and Anne Sullivan Macy
6 Act, the State files with the Secretary a written ad-
7 dendum to the plan required by this section describ-
8 ing how the State ensures that—

9 “(A) children who are deaf, hard of hear-
10 ing, or deafdisabled (regardless of the State’s
11 use of disability categories or the extent to
12 which deaf or hard of hearing children may be
13 classified in disability categories other than
14 hearing impairment or deafness) are evaluated
15 by qualified professionals, using valid and reli-
16 able assessments, for such children’s need for
17 instruction and services meeting their unique
18 language, literacy, academic, social and related
19 learning needs, including instruction which may
20 be needed by children without disabilities or
21 with other disabilities but which must be spe-
22 cifically designed, modified, or delivered to meet
23 the unique language and academic and related
24 learning needs of children who are deaf, hard of
25 hearing, or deafdisabled;

1 “(B) there is sufficient availability of per-
2 sonnel within the State qualified to provide the
3 evaluation and instruction described in subpara-
4 graph (A) to all children within the State re-
5 quiring such instruction; and

6 “(C) all children who are deaf, hard of
7 hearing, or deafdisabled within the State who
8 need special education and related services re-
9 ceive instruction in American Sign Language
10 unless expressly waived by the child’s parents
11 and are not being served solely in accordance
12 with section 504 of the Rehabilitation Act of
13 1973 (29 U.S.C. 794).

14 “(2) CONTENTS.—In preparing the addendum
15 described in paragraph (1), the State shall—

16 “(A) specifically address how the State
17 meets the needs of deaf, hard of hearing, and
18 deafdisabled students to support appropriate,
19 measurable progress in language development,
20 including American Sign Language and written
21 language with or without speech therapy, and
22 including the provision of school-related oppor-
23 tunities for direct interactions with peers and
24 professional personnel in the child’s language
25 and opportunities for direct instruction in the

child’s language, as well as instruction in audiology, age-appropriate career education, language, social skills, functional skills for academic success, self-determination and advocacy (including preparation for transition to work or higher education), social emotional skills, technology, and support for the student through family education; and

“(B) consult with individuals and organizations with expertise in the education of children who are deaf, hard of hearing, or deafdisabled, including parents, schools for the deaf, consumer and advocacy organizations, State commissions of the deaf, researchers, teachers of students who are deaf, hard of hearing, or deafdisabled and others the State may identify.”.

“(A) IN GENERAL.—In conducting the assessments prescribed in paragraph (3)(B), chil-

dren who are deaf, hard of hearing, or deafdisabled shall be evaluated on language proficiency levels, including expressive, receptive, and pragmatic skills, and ability to access grade level content in the student's primary language, including American Sign Language, and if appropriate, written language with or without visual supports or hearing assistance technology. Determination of the need for special education and related services shall include evaluation of such children's unique learning needs, including opportunities for direct language access, without an intermediary such as an interpreter, with peers and professionals in the child's primary language, including American Sign Language and, if appropriate, spoken language with or without visual supports, and instruction which may be needed by students without disabilities or with other disabilities but which must be specifically designed, modified, or delivered to meet the unique linguistic needs of students who are deaf, hard of hearing, or deafdisabled.

“(B) CONTENT OF EVALUATIONS.—The evaluations described in subparagraph (A) shall,

1 at a minimum, include evaluations assessing the
 2 need for services and settings to assist the child
 3 in developing or maintaining age-appropriate
 4 milestones in the child’s primary language, in-

2 modifications.”; and

3 (2) by adding at the end the following:

4 “(iii) RULE REGARDING A SCHOOL
5 FOR THE DEAF.—If a student is placed at
6 a school for the deaf, the school may pro-
7 vide documentation of how its teachers are
8 trained specifically to educate deaf and
9 hard of hearing students, and as a result,
10 will not be required to provide individual-
11 ized education plans unless the student is
12 deafdisabled.”.

24 FOR CERTAIN STUDENTS.—In carrying out the re-
25 sponsibilities of this subsection, the Secretary shall

1 specifically monitor compliance with sections
2 612(a)(3), 612(a)(5), 614(b), and clauses (iii) and

15 abilities for special education and related serv-
16 ices. Such continuum shall include instruction
17 in regular classes, specialized classes, special-
18 ized schools, home instruction, and instruction
19 in hospitals and institutions, and shall make
20 provision for supplementary services (such as a
21 resource room or itinerant instruction) to be
22 provided in conjunction with regular class place-
23 ment.”.

 2 amended by adding at the end the following:

3 “(E) MAINTAINING A CONTINUUM OF
 4 PLACEMENT OPTIONS.—For purposes of sub-
 5 paragraph (A), a State’s closure of a specialized
 6 school serving children who are blind or a spe-
 7 cial school serving children who are deaf (or the
 8 consolidation or merger of such school with an-
 9 other school), shall be considered a reduction of
 10 the State’s financial support for special edu-
 11 cation and related services resulting in a failure
 12 to meet a condition on receipt of assistance
 13 under this part.”.
