1 SEC. 2. FINDINGS.

2 Congress makes the following findings:

3 (1) The illicit mining, trafficking, and commer-
 4 cialization of gold in the Western Hemisphere—

5 (A) negatively affects the region’s economic
 6 and social dynamics;

7 (B) strengthens transnational criminal or-
 8 ganizations and other international illicit actors;
 9 and

10 (C) has a deleterious impact on the envi-
 11 ronment, indigenous peoples, and food security.

12 (2) A lack of economic opportunities and the
 13 weak rule of law promote illicit activities, such as il-
 14 licit gold mining, which increases the vulnerability of
 15 individuals in mining areas, including indigenous
 16 communities, which have been subjected to traf-
 17 ficking in persons, other human rights abuses, and
 18 population displacement in relation to mining activ-
 19 ity, particularly in the artisanal and small-scale min-
 20 ing sector.

1 (3) Illicit gold mining in Latin America often
2 involves and benefits transnational criminal organi-
3 zations, drug trafficking organizations, terrorist
4 groups, and other illegal armed groups that extort
5 miners and enter into illicit partnerships with them
6 in order to gain revenue from the illicit activity.

7 (4) Illicit gold supply chains are international in
8 nature and frequently involve—

9 (A) the smuggling of gold and supplies,
10 such as mercury;

11 (B) trade-based money laundering; and

12 (C) other cross-border flows of illicit as-
13 sets.

14 (5) In Latin America, mineral traders and ex-
15 porters, local processors, and shell companies linked
16 to transnational criminal networks and illegally
17 armed groups all play a key role in the trafficking,
18 laundering, and commercialization of illicit gold from
19 the region.

20 (6) According to a report on illegally mined
21 gold in Latin America by the Global Initiative
22 Against Transnational Organized Crime—

23 (A) more than 70 percent of the gold
24 mined in several Latin American countries,

1 such as Colombia, Ecuador, and Peru, is mined
2 through illicit means; and

3 (B) about 80 percent of the gold mined in
4 Venezuela is mined through illicit means and a
5 large percentage of such gold is sold—

6 (i) to Mibiturven, a joint venture op-
7 erated by the Maduro regime composed of
8 Minerven, a gold processor that has been
9 designated by the Office of Foreign Assets
10 Control of the Department of the Treas-
11 ury, pursuant to Executive Order 13850
12 (relating to blocking property of additional
13 persons contributing to the situation in
14 Venezuela), and Marilyns Proje Yatirim,
15 S.A., which is a Turkish company; or

16 (ii) through other trafficking and
17 commercialization networks from which the
18 Maduro regime benefits financially.

19 (7) Illegal armed groups and foreign terrorist
20 organizations, such as the Ejército de Liberación
21 Nacional (National Liberation Army—ELN), work
22 with transnational criminal organizations in Ven-
23 ezuela that participate in the illicit mining, traf-
24 ficking, and commercialization of gold.

1 (8) Transnational criminal organizations based
2 in Venezuela, such as El Tren de Aragua, have ex-
3 panded their role in the illicit mining, trafficking,
4 and commercialization of gold to increase their
5 criminal profits.

6 (9) Nicaragua’s gold exports during 2023 were
7 valued at an estimated \$1,240,000,000, of which—

8 (A) gold valued at an estimated
9 637,000,000 was shipped to the United States;

10 (B) gold valued at an estimated
11 \$353,000,000 was shipped to Canada;

12 (C) gold valued at an estimated
13 \$244,000,000 was shipped to Switzerland; and

14 (D) gold valued at an estimated
15 \$6,560,000 was shipped to Italy.

16 (10) U.S. Customs and Border Protection has
17 recognized that illegal logging is the world’s most
18 profitable natural resource crime and that profits
19 from illegal logging finance illegal mining.

2 (A) produce linkages between ASM miners
3 and illicit actors, prompting some ASM miners
4 to utilize mining practices that are environ-
5 mentally damaging and unsustainable, notably
6 mining or related ore processing practices
7 that—

8 (i) involve the use of elemental mer-
9 cury; or

10 (ii) result in labor, health, environ-
11 mental, and safety code infractions and
12 workplace hazards; and

13 (B) lead some ASM miners to operate in
14 the extralegal or poorly regulated informal sec-
15 tor, and often prevent such miners from im-

19 hance their technical and business capacities,
20 and access finance of fair market prices for
21 their output;

22 (5) mining-related trafficking in persons and
23 forced or coerced labor, including sex work and child
