S. 4624

To amend title XVIII of the Social Security Act to provide for payment for services of radiologist assistants under the Medicare program, and for other purposes.

IN THE SENATE OF THE UNITED STATES

MAY 21, 2026

Mr. BOOZMAN (for himself and Mr. LUJÁN) introduced the following bill;
which was read twice and referred to the Committee on Finance

A BILL

To amend title XVIII of the Social Security Act to provide for payment for services of radiologist assistants under the Medicare program, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Medicare Access to
5 Radiology Care Act of 2026”.

6 **SEC. 2. FINDINGS.**

7 Congress makes the following findings:

1 (1) Radiologist assistants are advanced-level
2 radiographers who are critically important members
3 of the radiologist-led team.

4 (2) Radiologist assistants work strictly under
5 the supervision of a radiologist to promote high
6 standards of patient care by assisting radiologists in
7 the diagnostic and interventional imaging environ-
8 ment.

9 (3) In every jurisdiction authorizing radiologist
10 assistants to practice, they are only permitted to fur-
11 nish services when delegated by and under the su-
12 pervision of a radiologist.

13 (4) Radiologist assistants value their working
14 and professional relationships with radiologists and
15 have never sought, nor do they seek, the ability to
16 practice independent of radiologists.

17 (5) While radiologist assistants perform various
18 valuable professional services and may make and
19 communicate initial observations to the radiologist,
20 radiologist assistants are not qualified to perform in-
21 terpretations (preliminary, final, or otherwise) of any
22 radiological examination.

23 (6) Removing barriers to care rendered by radi-
24 ologist assistants under the supervision of a radiolo-
25 gist will provide value-based, efficient solutions to

1 improve patient outcomes while ensuring patient
2 safety.
