

119TH CONGRESS
2D SESSION

S. RES. 757

Designating June 11, 2026, as “National Seersucker Day”, designating every subsequent Thursday through the last Thursday in August 2026 as “Seersucker Thursday”, and designating June 2026 as “Seersucker Appreciation Month”.

IN THE SENATE OF THE UNITED STATES

JUNE 8, 2026

Mr. CASSIDY (for himself and Mr. WARNOCK) submitted the following resolution; which was considered and agreed to

RESOLUTION

Designating June 11, 2026, as “National Seersucker Day”, designating every subsequent Thursday through the last Thursday in August 2026 as “Seersucker Thursday”, and designating June 2026 as “Seersucker Appreciation Month”.

Whereas seersucker was introduced to the United States in the South in the middle of the 19th century;

Whereas seersucker suits were popularized in the United States in the early 1900s by New Orleans businessman Joseph Haspel at his Broad Street facility in New Orleans, Louisiana;

Whereas, as a lightweight, hard-wearing fabric, seersucker is mostly worn and enjoyed by the people of the United States during hot summer months;

Whereas former Senator Trent Lott of Mississippi brought Seersucker Thursday to Congress in 1996, and after the day went unobserved in 2012 and 2013, then-Representative Bill Cassidy, with the help of the late Senator Dianne Feinstein, revived the tradition in 2014;

Whereas the Senate will remember the historic service of the late Senator Dianne Feinstein, who shall forever remain a part of this tradition, which Senator Raphael Warnock will continue in her stead;

Whereas the name “seersucker” originates from the Persian phrase “shir-o-shakar”, meaning “milk and sugar”, alluding to the alternating textures of the fabric;

Whereas the seersucker textile is made of cotton, linen, or silk (or combinations thereof), woven on a loom with threads at different tensions, creating alternating stripes of smooth and puckered textures that do not lay flat on one’s skin, which is what makes the fabric so breathable;

Whereas cotton is an important crop that producers in the United States, including 3,500 family farms in Georgia, strive to cultivate in the highest quality; and

Whereas one of the alternating stripes in seersucker is frequently in a color, typically blue, but sometimes gray, green, tan, red, pink, or another color, which, in combination with the white stripes, creates the iconic pattern so well known today: Now, therefore, be it
