

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

This chapter presents the budget estimates and program justifications for the Department of Housing and Urban Development (HUD). HUD's core mission is to increase homeownership, support community development, and increase access to affordable housing free from discrimination. The 2008 Budget for HUD includes major reform proposals for the Federal Housing Administration (FHA), the Housing Choice Voucher program, and the Community Development Block Grant (CDBG) program. These reforms will enhance the effectiveness of HUD's programs.

The Department continues to emphasize expanding homeownership opportunities for all. Toward that goal, in 2007 FHA will introduce financing options for families who have good credit histories but lack the savings needed for the downpayment on a home, and for families who have impaired credit histories and who would normally be served only by the sub-prime market. Also, the Budget provides nearly \$2 billion for the HOME Investment Partnerships Program, including \$50 million for the American Dream Downpayment Initiative. The improved performance of FHA and other homeownership efforts will help meet the goal of adding 5.5 million new minority homeowners by 2010.

While maintaining a budget-based approach, the 2008 Budget proposes changes to the Housing Choice Voucher Program to give State and local housing authorities more decision-making authority to better address the unique needs of their communities, such as the flexibility to serve more households. The Budget also proposes to update the funding allocation formula to better reflect current needs.

HUD continues to support and improve Public Housing and has initiated the effort to adopt asset-based project management to allow significant improvements and efficiencies. The Budget provides \$4 billion for the Public Housing Operating subsidies and \$2 billion for the Public Housing Capital Fund.

HUD continues to support reduction of over-crowding in Indian country with \$627 million in housing grants. The Budget also continues support for Indian community development.

HUD continues to focus on combating homelessness and eliminating chronic homelessness with \$1.6 billion for Homeless Assistance, including up to \$50 million for a Samaritan initiative to provide supportive housing linked to services for chronically homeless persons. Homeless assistance includes \$25 million for HUD's part in a three-agency faith-based initiative for ex-offender activities.

Funding in the 2008 Budget for the Fair Housing Assistance and Fair Housing Initiatives programs (FHAP and FHIP) will continue to strengthen the ability of public and private fair housing groups, and partnerships between them, to enforce the laws protecting all Americans against illegal housing discrimination. With the publication of the National Discrimination Study, HUD now has the information necessary to improve enforcement, reduce discrimination, and address accessibility issues.

The Community Development Block Grant program, along with other Federal programs for community and economic development, will be reformed in 2008 to increase the focus and effectiveness of Federal efforts to provide adequate economic opportunity in low-income communities. HUD has proposed legislation to revise the CDBG allocation formula to better target needy communities, to provide bonus funds tied to performance, and to make further reforms to increase CDBG's effectiveness.

HUD is one of five Departments that are leading the Federal Government in tapping the potential of faith-based and community organizations to improve housing and help develop communities.

The 2008 Budget includes \$116 million in lead hazard reduction grants to continue the 10-year program to eradicate lead hazards in housing.

To ensure the effective implementation of its programs, the Department's Office of Policy Development and Research (PD&R) will be provided with funds necessary to ensure timely provision of data, provide research and analysis of national housing and economic conditions, and evaluate the performance of programs, consistent with the Government Performance and Results Act of 1994.

The Department will continue the management reform effort initiated in 2001 and undertake further efforts in 2007 and 2008 to refocus HUD on its core mission and key programs as part of a continuing series of planned reforms to improve program performance.

Tenant Based Rental Assistance.—The Tenant-based Rental Assistance program (also known as the Housing Choice Voucher Program) provides approximately 2 million families with subsidies to afford housing in the private market. Congress and the Administration have implemented a number of policy changes over the past several years to assist the most needy families and encourage Public Housing Authorities (PHAs) to spend their allotted funds. For example, the Voucher program no longer funds a set number of units,

but appropriates funds to PHAs on a budget-based system making them more accountable in managing their budgets.

The Budget proposes legislative changes that would: 1) provide incentives for PHAs to spend their funds to maximize assistance; 2) maximize appropriated funds by changing the way funds are allocated to PHAs; and 3) factor unused funds into future allocations. First, the Administration proposes to require administrative fees to be distributed according to the number of families housed. Currently, PHAs receive a flat amount per year for administrative costs based on a distribution that does not provide an incentive to increase the number of families served. Second, the Budget proposes eliminating the cap on the number of families that each PHA can assist, thereby unlocking funds at PHAs that are unable to spend funds beyond their authorized number of units. A new funding allocation formula for PHAs would follow elimination of the cap, and would be based on the level of spending by PHAs over the most recent year. Current funding is based on the higher of a three-month snapshot of PHA's expenditures from summer 2004 or full year expenditures in 2004, which distributes funds across the 2,400 PHAs that administer Vouchers. Third, the Budget proposes to identify and adjust for unspent prior year balances from PHAs. PHAs that end a year with significant unspent balances, despite having been given the opportunity to draw down such balances by providing housing for additional low-income families, would have their funds for the next year reduced. According to HUD, at the end of 2006, over one billion dollars in balances remained in PHA accounts, of which more than half represents balances that could not be spent due to the current cap on the number of units. In addition, in order to encourage the consolidation of small PHAs, a bonus administrative fee will be offered to PHAs that participate in this streamlining effort. Legislation to implement the Administration's reform proposal will be submitted to Congress early in 2007.

HOUSING CERTIFICATE FUND (CANCELLATION)

Of the unobligated balances, including recaptures and carryover, remaining from funds appropriated to the Department of Housing and Urban Development under this heading, the heading "Annual contributions for assisted housing", the heading "Tenant-based rental assistance", and the heading "Project-based rental assistance", for fiscal year 2007 and prior years, \$1,300,000,000 is cancelled, to be effected by the Secretary no later than September 30, 2008: Provided, That, if insufficient funds exist under these headings, the remaining balance may be derived from any other heading under this title: Provided further, That any such balances governed by reallocation provisions under the statute authorizing the program for which the funds were originally appropriated shall be available for the cancellation: Provided further, That any obligated balances of contract authority from fiscal year 1974 and prior that have been terminated shall be cancelled.

The Housing Certificate Fund, until 2005, provided funding to both project-based and tenant-based components of the Section 8 program. Project-based Rental Assistance and Tenant-based Rental Assistance are now separately funded accounts. The Housing Certificate Fund retains and recovers balances from previous years' appropriations. In 2008, a cancellation of \$1.3 billion of those balances is proposed.

Project-based Rental Assistance.—HUD subsidizes rents for approximately 1.3 million families in over 19,000 projects under the Section 8 project-based rent subsidy program. Unlike the tenant-based Section 8 program, subsidies in the project-based program are tied directly to the project. Tenants pay up to 30 percent of income toward the rent with HUD subsidizing the remainder. Rents are adjusted periodically subject to HUD guidelines and approval. The Section 8 project-based program provides essential assistance to maintain the stock of affordable housing for low- and moderate-income families and individuals, many of whom are elderly or disabled. Program activity includes the following:

Contract Renewals.—Original Section 8 assistance contracts were entered into between HUD and project owners for periods of up to 40 years. As contract terms expire they are renewed on an annual funding cycle and additional renewal budget authority is required to maintain the housing stock. Currently, roughly 80 percent of contracts are renewed annually; the other 20 percent of contracts are funded from previously appropriated funds for long-term contracts.

Section 8 Amendments.—A funding amendment to a Section 8 contract is required to maintain the project until its contract expiration date when actual costs incurred exceed the amount of budget authority originally set-aside for the project. These additional costs are proposed to be entirely funded in 2008

by utilizing recoveries of excess balances remaining on expired Section 8 contracts that utilized less than anticipated resources in completing the contract. No new BA is requested in 2008 for Section 8 Amendment activity.

Contract Administrators.—HUD utilizes Performance Based Contract Administrators (PBCAs) to administer and monitor a vast majority of the project-based portfolio. Funding of \$286 million is requested for 2008.

Project-based Tenant Protection.—Voucher assistance is provided to tenants who face dislocation as a result of actions taken by project owners or by HUD that are beyond their control. This occurs as a result of owners opting out of the program or being terminated by HUD. HUD's property disposition activities and prepayment activity under the Preservation program may also lead to Project-Based Tenant Protection requirements. These project-based requirements, which are met through voucher assistance, are funded under the Tenant-Based heading.

Working Capital Fund Transfer.—\$4 million is requested in 2008 to fund development of and modifications to technology systems that service or are related to the programs or activities under this heading.

PUBLIC HOUSING CAPITAL FUND

(INCLUDING TRANSFERS OF FUNDS)

For the Public Housing Capital Fund Program to carry out capital and management activities for public housing agencies, as authorized under section 9 of the United States Housing Act of 1937, as amended (42 U.S.C. 1437g) (the "Act") \$2,024,000,000, to remain available until September 30, 2011: Provided, That notwithstanding any other provision of law or regulation, during fiscal year 2008, the Secretary may not delegate to any Department official other than the Deputy Secretary and the Assistant Secretary for Public and Indian Housing any authority under paragraph (2) of section 9(j) regarding the extension of the time periods under such section: Provided further, That for purposes of such section 9(j), the term "obligate" means, with respect to amounts, that the amounts are subject to a binding agreement that will result in outlays, immediately or in the future: Provided further, That of the total amount provided under this heading, up to \$14,890,000 shall be for carrying out activities under section 9(h) of such Act; \$16,847,000 shall be transferred to the Working Capital Fund; up to \$10,000,000 is to support the costs of administrative and judicial receiverships; and up to \$15,345,000 shall be to support the ongoing Public Housing Financial and Physical Assessment activities of the Real Estate Assessment Center (REAC): Provided further, That no funds may be used under this heading for the purposes specified in section 9(k) of the Act.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109-289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

The Public Housing Capital Fund, a formula-driven program based on estimated need, is designed to respond to the capital and management improvement requirements of public housing.

Of the \$2.02 billion requested for the Public Housing Capital Fund, approximately \$1.96 billion is provided to cover annual accrual needs. Other uses include up to \$15 million for technical assistance, \$17 million for the Working Capital Fund, up to \$15 million for public housing financial and physical assessment support, and up to \$10 million for administrative and judicial receiverships. Funds for the Resident Opportunity and Supportive Services are not requested in 2008 in order to eliminate an unusually large pipeline of unobligated funds. Funds for disaster relief will no longer be requested; the FEMA disaster assistance is available for any needs that are not covered by the required property insurance.

PUBLIC HOUSING OPERATING FUND

For 2008 payments to public housing agencies for the operation and management of public housing, as authorized by section 9(e) of the United States Housing Act of 1937, as amended (42 U.S.C. 1437g(e)), \$4,000,000,000 of which \$5,940,000 shall be for technical assistance related to the transition and implementation of asset-based management in public housing: Provided, That in fiscal year 2008 and all fiscal years hereafter, no amounts under this heading in any appropriations Act may be used for payments to public housing agencies for the costs of operation and management of public housing for any year prior to the current year of such Act: Provided further, That no funds may be used under this heading for the purposes specified in section 9(k) of the United States Housing Act of 1937, as amended.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution

(P.L. 109-289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

Operating subsidies are provided to public housing authorities (PHAs) to assist in funding the operation and maintenance expenses of public housing units in accordance with Section 9(e) of the United States Housing Act of 1937, as amended. The 2008 request proposes a 12 percent increase in operating subsidies. This reflects recognition of higher utility costs as well as providing more funding for day-to-day expenses.

The following tables display the sources of housing authorities' expected revenue and expenditures by category. The distribution is based on historical data reported by housing authorities to HUD on the Statement of Operating Receipts and Expenditures.

Sources of Housing Authorities' Operating Revenue

Category (in millions of dollars)	Annual income	Percent of total
Operating Subsidies	\$4,000	58%
Dwelling Rental	2,522	37%
Investment	114	2%
Other Income	187	3%
Total, Operating Revenue	\$6,823	100%

Operating Subsidies.—Represent HUD's contributions to a housing authority's operating budget. Under the current formula-based approach, HUD sets a formula-determined allowable expense level (AEL) for each PHA and separately computes utility and audit costs. The PHA's dwelling rental income is also projected and the subsidy is the difference between the projected AEL, utility, and audit expenses and projected dwelling rental income. AEL is not based on actual cost data from PHAs. HUD, after consultation with PHAs, has adopted a new operating subsidy formula based on the

PUBLIC HOUSING OPERATING FUND—Continued

previously congressionally sanctioned cost study conducted by the Harvard Graduate School of Design.

Dwelling Rental.—Income derived from tenants' rents.

Investment Income.—Income from interest earned on general fund investments.

Other Income.—Includes income from other sources such as renting rooftop space for signs or broadcasting and from operating services for tenants, such as laundromats or day care centers.

Housing Authorities' Operating Expenditures

Category (in millions of dollars)	Annual expenditures	Percent of total
Utilities	\$1,602	23%
Administration	1,999	29%
General Operating Expenses	565	8%
Maintenance	2,286	34%
Tenant Services	189	3%
Protective Services	182	3%
Total, Operating Expenses	\$6,823	100%

Utilities.—Includes water, sewer, electricity, gas, and fuel.

Administration.—Includes administrative salaries, legal expenses, staff training, travel, accounting fees, auditing fees, sundry, and outside management costs.

General Operating Expenses.—Includes insurance, payments made to local governments in lieu of taxes, terminal leave payments, employees benefit contributions, collection losses, interest on administrative and sundry notes, and other general expenses.

Ordinary Maintenance and Operations.—Consists of expenses for labor, materials, contracts and garbage fees associated with the day-to-day operation of the public housing authority.

Tenant Services.—Covers salaries, recreation, publication, contract costs, training, and other expenses.

Protective Services.—Includes expenses for labor, materials, and contract costs.

Capital Expenditures.—Includes extraordinary maintenance, casualty losses, and property betterments (e.g. roofs and furnaces).

Operating reserves.—Provides working capital funds and is a reserve for emergencies.

Asset-Based Management Technical Assistance.—Provides contracting and consultative services to support PHA's transitioning to project-based accounting and asset-based management.

The Public Housing Drug Elimination Grants program was terminated in the 2002 Budget. The program was found to have limited impact; current regulatory tools, such as tenant screening and eviction, are effective in reducing drug-related crime in public housing; and fighting crime and drugs is not directly related to HUD's core mission—it is the mission of law enforcement and other agencies whose programs help combat illegal drugs and crime in public housing communities. PHAs can supplement other public housing security efforts using operating funds if they choose.

REVITALIZATION OF SEVERELY DISTRESSED PUBLIC HOUSING (HOPE VI)

Of the unobligated balances remaining from funds appropriated in fiscal year 2007 under the heading "Revitalization of Severely Distressed Public Housing (HOPE VI)" for grants to public housing agencies for demolition site revitalization, replacement housing, and tenant-based assistance grants to projects as authorized by section 24 of the United States Housing Act of 1937 as amended, \$99,000,000 is cancelled: Provided, That any remaining unobligated amounts under this heading, including recoveries and carryover, may be used for grants, technical assistance and other eligible activities as provided under this heading, of which up to \$2,000,000 may be used for technical assistance and contract expertise, for grants, contracts or cooperative agreements, including training and cost of necessary travel for participants and employees of the Department: Provided further, That the Department shall recover unexpended obligations from nonperforming grantees as determined by the Secretary from funds appropriated for fiscal year 2001 and prior years under this heading.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109-289, Division B, as amended). The HOPE VI program in coordination with funding from the Public Housing Capital Fund has completed its goal of contributing to the demolition of 100,000 severely distressed public housing units. The HOPE VI program, while completing its goal, was found to be more costly than other programs and slow to complete redevelopments. The budget proposes no additional funds and requests a cancellation of the expected 2007 appropriation, currently estimated at \$99 million.

The remaining balance in this program of over \$1.8 billion at the end of 2006 will spend out over several years as the redevelopment projects are completed. Cumulative results of the HOPE VI program as of March 31, 2006 follow: 63,885 households have been relocated, 78,115 units have been demolished, 50,482 units (new and rehabilitated) have been completed, and 48,012 completed units have been occupied.

In an effort to encourage the completion of delayed HOPE VI projects and to promote the efficient use of funds, the budget proposes that the Department recover unexpended HOPE VI obligations from nonperforming grantees whose funds were appropriated in fiscal year 2001 and prior years. These recovered funds may then be reused for new HOPE VI grants and technical assistance. Grants to Public Housing Authorities that are part of the Moving to Work demonstration and those in receivership will be exempt from these recoveries.

NATIVE AMERICAN HOUSING BLOCK GRANTS—Continued
(INCLUDING TRANSFER OF FUNDS)—Continued

thorized the Native American Housing Block Grant program. This program provides an allocation of funds on a formula basis to Indian tribes and their tribally designated housing entities to help them address housing needs within their communities.

The Native American Housing Block Grant program includes a guaranteed loan provision (Title VI). A guarantee level of \$17 million is proposed for this loan guarantee program for 2008. A primary goal of the Title VI program is to encourage private lenders to provide financing in Indian country. Therefore, the program provides for the federal guarantee of notes or other obligations issued by Indian tribes or tribally designated housing entities for the purpose of financing affordable housing activities described in section 202 of the Act.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the loan guarantees committed in 1998 and beyond (including modifications of guarantees that resulted from obligations in any given year), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

The Hawaiian Homelands Homeownership Act of 2000 (P.L. 106-568) amended the Native American Housing Assistance and Self-Determination Act of 1996 by adding Title VIII, which authorized the Native Hawaiian Housing Block Grant program. This program provides an allocation of funds to assist and promote affordable housing activities to develop, maintain and operate affordable housing for eligible low-income Native Hawaiian families.

It authorizes annual grants to the Department of Hawaiian Home Lands (DHHL) for housing and housing-related assistance, pursuant to an annual housing plan, within the area in which DHHL is authorized to provide that assistance. DHHL uses performance measures and benchmarks that are based on the needs and priorities established in its five- and one-year housing plans.

The Low-Rent Public Housing Loan Fund provides direct Federal loans to fund remaining Public Housing Agency and Indian Housing Authority construction, acquisition, and modernization activities reserved under the Annual Contributions appropriation through 1986. These loans are made by borrowing from the Treasury. Under legislation enacted during 1986 (Public Law 99-272), amounts borrowed from the Treasury are forgiven at the end of each fiscal year and the loans to PHAs/IHAs are forgiven as construction, acquisition, and modernization activities are completed. Under the provisions of this legislation, \$10 million borrowed from the Treasury was forgiven in 2006, \$2 million will be borrowed from the Treasury and forgiven in 2007, and an estimated \$2 million will be borrowed from the Treasury and forgiven in 2008.

Since 1987, new reservations of capital funds for construction, acquisition, and modernization activities have been provided directly from the Public Housing Capital Fund appropriations.

The Housing Opportunities for Persons with AIDS (HOPWA) program provides States and localities with resources and incentives to devise long-term comprehensive strategies for meeting the housing needs of persons with HIV/AIDS and their families. HOPWA funds provide stable housing arrangements, help reduce risks of homelessness and improve access to care for program participants. The requested funding for 2008 will support approximately 67,000 housing units for persons with HIV/AIDS and their families. A legislative proposal to amend the HOPWA authorization language will be transmitted to Congress allowing HUD the oppor-

tunity to update the current program formula. Whereas the current formula distributes formula grant resources by the cumulative number of AIDS cases, the revised formula will account for the present number of people living with AIDS as well as the housing costs in that jurisdiction.

States and metropolitan areas receive 90 percent of funds by formula based on the number of cases of AIDS and, for metropolitan areas, the incidence of AIDS in that area. The final 10 percent is awarded competitively to States, local governments, and private nonprofit entities, including faith-based organizations, for projects of national significance with priority for renewal of the projects providing permanent supportive housing. Awards are also made to States and local governments for projects in jurisdictions that do not qualify for a formula allocation. In addition, \$1.5 million is used for technical assistance to grantees and project sponsors to strengthen management of programs and ensure responsiveness in meeting client needs. Another \$1.5 million is transferred to the Working Capital Fund.

COMMUNITY DEVELOPMENT FUND

The Community Development Block Grant (CDBG) program provides flexible annual formula grants to State and local governments to benefit mainly low- to moderate-income persons. The funding is used for a wide-range of community and economic development activities, such as housing rehabilitation and construction, job creation and retention, public services, and improving public infrastructure.

The Budget will re-propose the CDBG Reform Act, which adopts an improved formula to better target funds to communities with the greatest need and to hold communities accountable for results. The current formula has not been updated in almost 30 years and results in many lower-income communities receiving less assistance than wealthier communities. The reformed program would be designed with a Challenge Grant Fund component, a new allocation formula to better target funds to communities most in need of assistance, and other reforms to achieve greater results and enable communities to focus on addressing deficiencies and opportunities for improvement as noted in the PART analysis. Legislation to authorize these reforms will be transmitted in early 2007.

As part of the reforms, HUD programs such as Brownfields Economic Development Initiative, Community Development Loan Guarantee Program (Section 108), and Rural Housing and Economic Development are proposed for termination. These programs are duplicative—their activities are eligible to be funded by CDBG and other Federal programs.

The Indian Community Development Block Grant program will continue to be funded in this account at \$57 million. This program provides eligible grantees with direct grants for use in developing viable Indian and Alaska Native Communities, including decent housing, a suitable living environment, and economic opportunities, primarily for low and moderate income persons.

The Youthbuild Transfer Act (P.L. 109-281), signed in September 2006, transferred the Youthbuild program from HUD to the Department of Labor, as recommended by the White House Task Force on Disadvantaged Youth, to allow for great-

er coordination of the program with Job Corps and other employment and training programs. Funding for this program in 2007 was included in the budget for the Department of Labor. Youthbuild provides grants to local organizations to provide education and training to disadvantaged youth ages 16–24. In addition to participating in classroom training, young people/participants learn construction skills by helping to build affordable housing.

No funding is requested for Empowerment Zones/Enterprise Communities/Renewal Communities (EZ/EC/RC). No authorization for new grants or tax incentives have been provided for this program since 2001. Prior grants and tax benefits to communities that are still active complement the goals of the proposed Community Development Block Grant program reforms.

The EZ/EC/RC initiative helps revitalize distressed neighborhoods by attracting business development and providing employment opportunities to residents of high poverty urban areas.

The 2008 Budget requests no funding for the Brownfields Economic Development Initiative (BEDI) program. BEDI activities can be funded with Community Development Block Grant (CDBG) funds. The program is proposed to be terminated as a part of the broader CDBG program reforms.

BEDI is a competitive grant program designed to stimulate and promote economic and community development, and is used in conjunction with the Community Development Loan Guarantee program. Brownfields are abandoned, idled, and underused industrial and commercial facilities and land where expansion and redevelopment is burdened by real or potential environmental contamination.

Grants are made in accordance with selection criteria deemed appropriate for brownfield projects, including the extent to which an applicant is currently operating a brownfields program and is working with environmental regulatory agencies, as well as the projected future economic benefits of its development to the community.

The HOME Investment Partnerships Program is authorized by the National Affordable Housing Act (P.L. 101-625). This program provides annual formula grant assistance to States and units of local government to increase homeownership and expand the supply of affordable housing for low to very-low income persons. Eligible activities include acquisition, rehabilitation, and new construction of housing, and tenant-based rental assistance.

In its PART assessment, the HOME program received a "Moderately Effective" rating based on the program's potentially significant impact on affordable housing problems, the progress towards its annual performance goals, and its ability to demonstrate improved efficiency over time. The 2008 Budget supports the PART analysis and will result over time in the production of 91,150 units of affordable housing through new construction, rehabilitation, and/or acquisition. Tenant-based rental assistance will be provided for 18,750 units.

In addition, the \$50 million requested for the American Dream Downpayment Initiative (ADDI) will help expand homeownership opportunities to 6,500 low-income first-time homebuyers and also support expansion of minority homeownership. Legislation to reauthorize ADDI will be submitted in early 2007.

Self-Help Homeownership Opportunity Program (SHOP) funds assist low-income homebuyers willing to contribute "sweat equity" toward the construction of their houses. The funds increase the ability of non-profit organizations to leverage funds from other sources and will produce at least 2,000 new homeownership units. The 2006 PART Assessment found SHOP to be "Effective."

SHOP was previously funded as a set-aside within the Community Development Fund, but became a separate account in 2006. The Budget requests \$40 million for grants to eligible national and regional non-profits and consortia for land acquisition for home siting and improvement of utilities and other site infrastructure, of which, \$990,000 will be used for technical assistance.

In addition, the Budget requests \$30 million for the National Community Development Initiative (NCDI), which is authorized by Section 4 of the HUD Demonstration Act of 1993. These funds are provided to national non-profit intermediaries (Local Initiatives Support Corporation and the Enterprise Community Partners, Inc.) to develop the capacity of community development corporations to undertake community development and affordable housing projects.

The Homeless Assistance Grants account provides funds for the Shelter Plus Care, Supportive Housing, Emergency Shelter Grants, and Section 8 Moderate Rehabilitation Single Room Occupancy programs. These programs, which award funds through the Continuum of Care process, enable localities to shape and implement comprehensive, flexible, coordinated approaches to address the multiple issues of homelessness. Many communities have made great strides in creating comprehensive approaches to ending chronic homelessness through the development of State Interagency Councils and local ten-year plans. Requested funding will be available for a wide range of activities to assist homeless persons and prevent future homelessness. Increased funding will support

the Administration's goal to end chronic homelessness by creating new permanent supportive housing for this population. In addition, the Budget places a major emphasis on permanent housing by requiring 30 percent of funds to be used for this purpose.

The Administration will again propose legislation to combine HUD's three competitive grant programs—Shelter Plus Care, Supportive Housing, and Section 8 Moderate Rehabilitation Single Room Occupancy—into a single program with flexibility to better meet community needs. The new consolidated program will incorporate up to \$50 million for the Samaritan Housing Initiative that will specifically address the supportive housing needs of chronically homeless individuals. The Department continues to pursue expanded interagency efforts to meet the needs of the homeless and to accomplish the Administration's goal of ending chronic homelessness.

Funding is also requested for technical assistance to provide, among other services, needed assistance to grantees to resolve problems that hinder successful project completion and implementation, and for homeless management information systems (HMIS) support, including the continuing operation of tracking systems required by House Report 105-610.

The Budget also includes \$25 million for Reintegration of Ex-Offenders, involving the Departments of Justice, Labor, and Housing and Urban Development, to help individuals exiting prison make a successful transition to community life and long-term employment. Upon enactment, these funds will be transferred to the Department of Labor.

The 2008 Budget requests no funding for the Rural Housing and Economic Development (RHED) program. The program is duplicative particularly with programs provided through the U.S. Department of Agriculture, which manages a portfolio of rural housing and economic development grants programs that vastly exceed HUD's RHED program in terms of programs and services, budget and staffing.

The RHED program was created to encourage innovative approaches to serve the housing and economic development needs of the nation's rural communities.

The Revolving Fund (liquidating programs) was established by the Independent Offices Appropriations Act of 1955 for the efficient liquidation of assets acquired under a number of housing and urban development programs. The operational expenses are financed from repayments of loans and recaptures, therefore no appropriation is requested.

The Section 312 loan program portfolio, which provided first and junior lien financing at below market interest rates for the rehabilitation of homes in low-income neighborhoods, constituted a large portion of the account activities. This program ceased to originate new loans over ten years ago. Since the sale of the Section 312 loan portfolio to the private sector, activity in this account has been considerably reduced.

Guaranteed Loans.—The 2008 Budget requests no funding for the Community Development Loan Guarantee program (Section 108). The program activities can be funded with Community Development Block Grant (CDBG) funds and/or other private financing options, and is proposed to be terminated as a part of the broader CDBG and federal economic development program reforms.

As required by the Federal Credit Reform Act of 1990, this account records the subsidy costs associated with the loan guarantees committed since 1992 (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses for this program. The subsidy amounts are

estimated on a present value basis; the administrative expenses are estimated on a cash basis.

Guaranteed loans.—The Community Development Loan Guarantee program has provided a mechanism for the Federal guarantee of private loans. The financing account shows the status of privately financed guaranteed loan commitments made in and after 1992. No funding is requested for new section 108 loans in 2008. An accompanying liquidating account shows activity for Federal Financing Bank (FFB) direct loan activity obligated prior to July 1, 1986, and any pre-1992 loan guarantee activity.

As required by the Federal Credit Reform Act of 1990, this non-budgetary account records all cash flows to and from the Government resulting from loan guarantees committed in 1992 and beyond (including modifications of loan guarantees that resulted from commitments in any year). The amounts in this account are a means of financing and are not included in the budget totals. As required by the Federal Credit Reform Act of 1990, no administrative expenses can be recorded in the financing account.

Guaranteed loans.—Guaranteed loan assistance under the Community Development Loan Guarantee program is provided to eligible communities to finance economic development activities, housing rehabilitation, development or expansion of public facilities, acquisition of real property, rehabilitation of publicly owned real property, and certain related expenses. Until 1986, the Federal Financing Board (FFB) in the Department of Treasury financed these guaranteed loans. The Consolidated Omnibus Budget Reconciliation Act of 1985 required private financing of all loan guarantees committed after July 1, 1986. The FFB will continue disbursing loans for commitments approved prior to July 1, 1986. The activity shown in the above account reflects privately financed guaranteed loans for which commitments were made prior to 1992.

As required by the Federal Credit Reform Act of 1990, this liquidating account records all cash flows to and from the Government resulting from Federal Financing Bank (FFB) direct loans for which loan guarantees were committed prior to 1992. This account is shown on a cash basis.

This account consolidates activities under the Section 202 Housing for the Elderly Program. It funds capital grants for construction of low-income housing, operating subsidies, conversion of existing properties to assisted living, and service coordinators. For the first time in 2008, the account is displayed as two general activities—“Expansion” and “Rental Assistance Renewal and Operating Expenses”—to provide better information on programmatic functions and resource usage. Expansion funds include capital grants for new unit construction and project rental assistance provided for an initial period to each new project, while Rental Assistance Renewal and Operating Expenses cover the cost of activities associated with existing units and other expenses. Up to \$25 million of 2008 Expansion funds may be used for a demonstration project that leverages additional capital from various sources—such as private investors through tax credits—to support the construction of additional elderly housing units.

The 2008 Budget expands the number of housing units assisted by this program by providing \$415 million to construct approximately 3,000 new units of housing. In addition,

all housing previously supported will continue to receive operating subsidies. Finally, congregate services and other supportive social services for residents, such as benefit counseling, will receive \$71 million, and upgrades of developments to assisted living facilities are funded at \$25 million.

The Housing Counseling Assistance Program provides comprehensive housing counseling services to eligible homeowners and tenants, including home purchase, financial management, and rental counseling. This program has been funded through a set-aside under the HOME program appropriation for the past several years. However, in 2008, it is being proposed as a stand alone account.

The Housing Counseling Assistance Program supports the delivery of a wide variety of housing counseling services to homebuyers, homeowners, low- to moderate-income renters and the homeless. The primary objectives of the program are to expand homeownership opportunities, improve access to affordable housing and aid in HUD's commitment to bridging the gap of homeownership of minorities and other underserved groups in comparison to the National homeownership rate.

The Other Assisted Housing Account contains the programs listed below:

Rent supplement.—Rent supplement assistance payments will continue to be made on behalf of qualified low-income tenants in approximately 17,239 units which have not converted to Section 8.

Section 235.—The Housing and Urban-Rural Recovery Act of 1983 (Public Law 98-181) authorized a restructured Section 235 (Homeownership Assistance) program that provided homeowners a 10-year interest reduction subsidy on their mortgages.

Section 236.—The Housing and Urban Development Act of 1968, as amended, authorizes the Section 236 Rental Housing Assistance Program which subsidizes the monthly mortgage payment that an owner of a rental or cooperative project is required to make. This interest subsidy reduces rents for lower income tenants.

This account includes funding necessary to amend Rent Supplement and Rental Assistance Payment (RAP) contracts in state-aided multifamily housing projects to address cost increases beyond the maximum annual payment limitation previously established for the affected contracts. As some of these rental assistance contracts are terminated due to prepayments or other reasons, remaining balances are recovered. The account includes language to cancel the amounts recovered from projects where rental assistance has been terminated.

The Homeownership and Opportunity for People Everywhere Program provided affordable homeownership opportunities for low-income families. Units were converted to homeownership from public and Indian housing properties in HOPE I, from FHA-insured and Government-held multifamily properties in HOPE II, and from Government-owned or -held single family properties in HOPE III. HOPE Grants were used for property acquisition, rehabilitation, mortgage subsidies, security measures, and technical assistance. In addition, grants have been devoted to counseling and training of residents, and other activities intended to help them become economically self-sufficient homeowners. This schedule reflects the expenditure of prior year balances.

The Interstate Land Sales Full Disclosure Act provides protection to the public with respect to purchase or leases of subdivision lots. Statements of record must be filed with the Secretary before subdivisions with 100 or more lots may be sold in interstate commerce, except when the subdivision is eligible for exemption.

The Secretary is authorized to charge a fee, to be paid by the developer when filing a statement of record. The fee receipts are permanently appropriated and have helped finance a portion of the direct administrative expenses incurred in program operations.

The Housing and Urban Development Act of 1968 authorized the Secretary to establish a revolving fund into which rental collections in excess of the established basic rents for units in Section 236 subsidized projects would be deposited.

The Housing and Community Development Amendment of 1978 authorized the Secretary, subject to approval in appropriation acts, to transfer excess rent collections received after 1978 to the Troubled Projects Operating Subsidy program, renamed the Flexible Subsidy Fund. Prior to that time, collections were used for paying tax and utility increases in Section 236 projects. The Housing and Community Development Act of 1980 amended the 1978 Act by authorizing the transfer of excess rent collections regardless of when collected. This Budget proposes that the resources from the Rental Housing Assistance Fund continue to be transferred to the Flexible Subsidy Fund, with the exception of amounts required to make refunds of excess income remittances as authorized by Public Law 106-569.

The Flexible Subsidy Fund assisted financially troubled subsidized projects under certain FHA authorities. The subsidies were intended to prevent potential losses to the FHA fund resulting from project insolvency and to preserve these projects as a viable source of housing for low and moderate-income tenants. Priority was given to projects with Federal insurance-in-force and then to those with mortgages that had been assigned to the Department of Housing and Urban Development.

The Federal Housing Administration (FHA) provides mortgage insurance to encourage lenders to make credit available to expand homeownership and to serve borrowers for which the conventional market does not adequately provide. These include first-time homebuyers, minorities, lower-income families, and residents of underserved areas (central cities and rural areas).

In 2008, FHA is requesting an aggregate limitation of \$185 billion on loan guarantees and is proposing legislative changes

to reform FHA, including the consolidation of all single family programs under this account.

In 2002, the President issued America's Homeownership Challenge to increase first-time minority homeowners by 5.5 million through 2010. The Budget continues Administration efforts to modernize FHA with proposals for new mortgage products targeted toward families who face the obstacles of having poor credit histories or little savings. These new mortgages will have premiums tied to credit records and the size of downpayments. This will result in more families having access to mortgage financing and will reward families with lower mortgage payments for having good credit histories and saving more for downpayments. The Budget also proposes to increase the FHA single-family loan limit from 87 percent to 100 percent of the conforming loan limit.

Because of adverse loan performance and improved estimation techniques, the baseline credit subsidy rate for FHA's single family program—assuming no programmatic changes—is positive, meaning that total costs exceed receipts on a present value basis, and therefore would require appropriations of credit subsidy budget authority to continue operation. The 2008 baseline includes no budget authority to cover these costs and assumes FHA would use its existing authorities to increase premiums to avoid the need for credit subsidy appropriations. Under the Budget's policy proposals, FHA will be able to set premiums that are based on risk and are sufficient to avoid the need for credit subsidy appropriations. The Budget also proposes to move the Condominium, the Section 203(k) rehabilitation and Home Equity Conversion programs from the General and Special Risk funds to the MMI fund in order to consolidate single-family programs in one fund. The proposal includes a removal of the statutory cap on the number of Home Equity Conversion Mortgages insured by FHA. The effects of these proposals are illustrated in separate schedules published for the MMI and General and Special Risk funds.

As required by the Federal Credit Reform Act of 1990, this account records administrative expenses for this program, as well as the subsidy costs, if any, associated with the loan guarantees committed in 1992 and thereafter. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

As required by the Federal Credit Reform Act of 1990, this non-budgetary account records all cash flows to and from the Government resulting from direct loans obligated in 1992 and thereafter (including modifications of direct loans that resulted from obligations in any year). The amounts in this account are a means of financing and are not included in the budget totals.

The \$50 million in 2008 direct loan limitation in the MMI Fund would permit the Department to use Purchase Money Mortgages (PMMs) to help finance the sale of acquired single family properties. HUD would extend credit for these single-family homes to community nonprofit organizations or local government entities who would be expected to sell the properties to low- and moderate-income buyers. The use of PMMs provides a tool for State and local nonprofit organizations to use in revitalizing communities, and creates enhanced homeownership opportunities for low- and moderate-income families.

In 2002, a new Capital Reserve account was established for the Mutual Mortgage Insurance Fund. Financial reserves, including securities, of the MMI Fund were transferred from the liquidating account to the new Capital Reserve account. In 2003, this new mandatory account started earning interest on Treasury investments, collecting negative subsidy and downward reestimates from the Financing account, and paying upward reestimates. The Liquidating account will now only reflect cashflows related to pre-1992 books of business.

The Federal Housing Administration Fund currently consists of four separate insurance funds.

In order to present more clearly the operations of the various funds, FHA's budget transactions are separated into two major business segments. The basic single-family insurance programs in the Mutual Mortgage Insurance (MMI) fund and the multifamily Cooperative Management Housing Insurance (CMHI) funds form one segment. All other multifamily and other specialized insurance programs in the General Insurance and Special Risk Insurance funds (GI/SRI) form the other segment.

The Federal Credit Reform Act of 1990 creates a structure of three accounts for existing credit program. For each of the FHA business segments (MMI/CMHI and GI/SRI) there is a liquidating account, which records the revenues and costs associated with loan insurance committed prior to October 1, 1991, a financing account which records the revenues and costs associated with commitments to insure loans made after September 30, 1991, and, a program account which records the transactions associated with the program subsidy costs, if any, and the costs of administering the program.

This liquidating account records, for this program, all cash flows to and from the Government resulting from MMI/CMHI loans insured prior to 1992 and is shown on a cash basis. All new activity in this program in 1992 and thereafter (in-

This account includes budget authority for insurance programs requiring positive credit subsidies, as well as for salaries and expenses and other administrative costs for all General and Special Risk Insurance Fund programs.

As required by the Federal Credit Reform Act of 1990, this account records, for the single family, multifamily, hospital, and Title I insurance programs of FHA's General Insurance and Special Risk Insurance Funds, the subsidy costs associated with the loan guarantees committed or direct loans obligated in 1992 and thereafter (including modifications of loan guarantees or direct loans that resulted from obligations or commitments in any year), as well as administrative expenses of these programs. The subsidy amounts are estimated on a present value basis; the administrative expenses are accounted for on a cash basis.

The Budget proposes to increase the FHA multifamily loan limit to account for geographic differences in construction costs and implements a modest administrative premium for multifamily loan guarantees to help offset taxpayer costs for loans to certain developments. The administrative premium will only apply to the 221d4 new construction/substantial rehabilitation program and the apartment refinancing program. The Budget also proposes a consolidation of FHA single-family programs under the Mutual Mortgage Insurance fund, which would shift several programs currently financed through this account, as reflected in separate schedules in this section.

The General Insurance fund provides insurance for a large number of specialized mortgage insurance programs, including insurance of loans for property improvements, cooperatives, condominiums, nursing homes, rental housing and non-profit hospitals.

The Special Risk Insurance fund provides insurance on behalf of mortgagors who otherwise would not be eligible for mortgage insurance. In addition, the fund provides insurance on mortgages covering experimental housing where strict adherence to State or local building regulations is not observed.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, all cash flows to and from the Government resulting from loan guarantees committed and direct loans obligated prior to 1992. This account is shown on a cash basis. New insurance and direct loan activity in 1992 and thereafter in the GI/SRI programs are recorded in corresponding program (86-0200) and financing (86-4077 and 86-4105) accounts.

The Budget proposes to extend restructuring authorities under the Multifamily Assisted Housing Reform and Affordability Act of 1997 to the end of fiscal year 2011.

Note.—Amounts for direct loan obligations reflect reservations of section 202 funds. Loan obligations shown under the program and financing schedule reflect loans that have reached the initial closing stage of processing.

The Housing for the Elderly or Handicapped Fund was established pursuant to section 202 of the Housing Act of 1959, as amended. The fund provided direct loans to nonprofit organizations building and managing housing projects for lower income persons who are elderly or disabled.

Projects included an assured range of necessary services for the occupants of such projects. In addition, the section 8 lower income housing assistance payments program has been used in conjunction with the section 202 program. Applications under the two programs have been processed simultaneously.

The data included in these schedules represent direct loan activities funded under the Housing for the Elderly or Handicapped Loan Fund. Further, activities in support of the needs of the elderly and disabled have been carried out under a grant program funded in the 1991 Appropriations Act (P.L. 101-507) and authorized in the National Affordable Housing Act (P.L. 101-625).

After April 1, 1992, all projects for which there were administrative reservations converted to the capital advance assistance program.

The program and financing schedule for this account summarizes the Federal government's obligations for this loan program.

Financing.—Repayments and interest income from loans continue to be available to pay for commitments of the fund.

The National Manufactured Housing Construction and Safety Standards Act of 1974, as amended by the Manufactured Housing Improvement Act of 2000, authorizes development and enforcement of appropriate standards for the construction, design, and performance of manufactured homes to assure their quality, durability, affordability, and safety. All manufactured homes produced since the standards took effect on June 15, 1976 must comply with Federal construction and safety standards. The States are actively encouraged to participate in the program under compliance plans approved by HUD. New program requirements mandated by the Manufactured Housing Improvement Act of 2000 include procurement of an Administering Organization, formation of a Consensus Committee to recommend revisions to and interpretations of the manufactured housing standards, development and implementation of standards for installation of manufactured housing, and development and implementation of a dispute resolution program.

Fees are charged to the manufacturers for each manufactured home transportable section produced and to any dispute resolution and installation program participant. These fees will be used to fund the costs of all authorized activities necessary for the consensus committee, HUD, and its agents to carry out all aspects of the manufactured housing legislation. Fees are deposited in a trust fund administered by the Department, and a portion of the fee receipts are transferred to the salaries and expenses account to defray the direct administrative expenses of the program.

The Manufactured Housing Improvement Act of 2000 created a Manufactured Housing Fees Trust Fund and made spending subject to appropriations. This account provides spending for activities formerly funded under Manufactured Home Inspection and Monitoring.

GOVERNMENT NATIONAL MORTGAGE ASSOCIATION

The Housing and Urban Development Act of 1968 authorized the Government National Mortgage Association (Ginnie Mae) to guarantee the timely payment of principal and interest on privately issued securities that are backed by pools of FHA, Veterans Affairs (VA) and Rural Housing Service mortgages. The Ginnie Mae guarantee gives lenders access to the capital markets for funds to originate new loans. New FHA and VA loans are currently pooled into Ginnie Mae securities.

Financing.—Ginnie Mae issuers are assessed commitment, guarantee and other fees to cover costs incurred by Ginnie Mae and to fund a reserve against possible future payments under the guarantee.

The Budget proposes to consolidate all administrative spending of the Government National Mortgage Association (GNMA) under this account. This will result in better oversight of spending, allow for more transparent analysis of spending and differentiate between administrative and credit transactions. As a result, spending will increase in this account and decrease in the GNMA Liquidating Account with no net effect on discretionary spending.

The Budget proposes \$45 million for fair housing activities to support efforts to end housing discrimination. Of the amount requested, \$24.8 million is for the Fair Housing Assistance Program (FHAP) and \$20.2 million is for the Fair Housing Initiatives Program (FHIP).

The Fair Housing Assistance Program (FHAP), authorized by Title VIII of the Civil Rights Act of 1968 as amended, provides funding to State and local agencies to assure prompt and effective processing of Title VIII (Civil Rights Act of 1968) complaints. The funding requested for FHAP will support fair housing enforcement by funding State and local fair housing organizations to meet the needs of currently underserved populations. It will also address the persistent high rate of discrimination against minorities as identified by HUD's 2000 Housing Discrimination Study. It is estimated that in 2008 there will be two new State and local agencies with laws equivalent to the Fair Housing Act, increasing the total number to 111 agencies.

The Fair Housing Initiatives Program (FHIP), authorized by the Housing and Community Development Act of 1987, as amended by the Housing and Community Development Act of 1992, provides funding to States and local governments, and public and private non-profit organizations that carry out programs to prevent or eliminate discriminatory housing practices. FHIP also provides funding to programs or activities designed to enforce the rights granted by title VIII of the Civil Rights Act of 1968, or substantially equivalent State and local fair housing laws. In addition, FHIP supports funding for education and outreach programs designed to inform the public concerning rights and obligations under these laws.

Title X of the Housing and Community Development Act of 1992 (Public Law 102-550), known as the Residential Lead-Based Paint Hazard Reduction Act, authorized the Secretary to establish the Lead-Based Paint Hazard Control Grant Program. The primary purpose of the program is to reduce the exposure of young children to lead-based paint and other environmental hazards in their homes.

The program is a major part of a 10-year strategy to eliminate lead poisoning in children. The 2008 Budget includes \$92.6 million for HUD's Lead Hazard Control Program competitive grants and \$2.8 million for operation LEAP. The Technical Support Program is funded at \$8.8 million and the Healthy Homes Initiative is funded at \$11.8 million. Operation LEAP funds will be used to leverage other private and public sector resources for the lead hazard control program. The budget includes a provision that would allow the transfer of unobligated balances from undersubscribed competitive programs to other competitive programs experiencing over-subscription.

The Lead Hazard Control Grant Program provides grants of \$1 million to \$2.5 million to State and local governments and Indian tribes for control of lead-based paint hazards in low-income rental and owner-occupied housing. The grants are also designed to stimulate the development of a housing maintenance and rehabilitation workforce trained in lead-safe work practices and a certified hazard evaluation and control industry. In awarding grants, HUD promotes the use of new, low-cost approaches to hazard control that can be replicated across the nation. Newly-established programmatic efficiency measures, such as mitigation cost estimates, will help HUD determine best practices and maximize resources.

The Healthy Homes Initiative will enable the Department to assess and control housing-related hazards that contribute to childhood diseases and injuries. The initiative will demonstrate and evaluate methods for controlling two or more housing-related diseases through a single intervention. A public education/outreach effort designed to enable the public to prevent children's exposure to hazards will also be conducted through a competitive grant process.

The Office of Healthy Homes and Lead Hazard Control will continue its Technical Support program, which will in-

clude public education; technical assistance for State and local agencies, private property owners, HUD programs and field offices and professional organizations; quality control to ensure that the evaluation and control of lead-based paint hazards is done properly in HUD-assisted housing; and development of standards, technical guidance, regulations and improved testing and hazard control methods.
