Introduction

The 2008 *Federal Credit Supplement* provides summary information about Federal direct loan and loan guarantee programs subject to the Federal Credit Reform Act (FCRA) of 1990, as amended by the Balanced Budget Act of 1997. The credit activities of deposit insurance and other insurance programs are exempt from FCRA and do not appear in this *Supplement*.

Tables 1 and 2 provide 2009 and 2010 subsidy rates, obligations/commitments, and average loan size for direct loans and loan guarantees programs, as well as the program's BEA classification under the Budget Enforcement Act (BEA) of 1990 as discretionary or mandatory (see the "Budget System and Concepts" chapter in the *Analytical Perspectives* volume of the 2010 *Budget* for additional information about BEA categories).

Tables 3 and 4 provide information about the major components of 2009 subsidy rates and about the characteristics of direct and guaranteed loans, respectively. Tables 5 and 6 provide the same information for direct and guaranteed loans included in the President's 2010 Budget request. The four components of the subsidy (defaults, net of recoveries; interest; fees; and all other) are reported on a present value basis, the sum of which equals the estimated subsidy rate. Loan characteristics describe the terms of the loan agreement between the borrower and the agency or lender. Except for loan maturity and grace period, which are expressed in years, all characteristics are expressed as a percentage. Grace period may be for repayment of principal and/or interest.

Tables 7 and 8 provide information on the lifetime reestimates of 1992-2008 direct loan and loan guarantee cohorts, by agency, program, bureau and risk category. The tables show, for each cohort, the original subsidy rate used at the point of obligation or commitment, the current reestimated subsidy rate, the breakout between the interest and technical portions of the subsidy reestimate, and the total dollar amount of reestimates. Some cohorts displayed in this year's Supplement have closed, i.e., there are no outstanding direct or guaranteed loans in the cohort and no further activity is expected. These cohorts are identified in a footnote and will not be displayed in future *Supplements*. The printed version of the 2010 *Supplement* contains abbreviated versions of tables 7 and 8, showing only the five most recent cohorts for each program. All cohorts appear for programs that have five or fewer cohorts. The full versions of tables 7 and 8 include all open cohorts for each program, and are available in the electronic version of the *Supplement* at <http://www.budget.gov/budget>.

Tables 9 and 10 show the rate at which the 2010 cohorts of direct loans and guaranteed loans are expected to disburse.

¹ All subsidy rates for Troubled Asset Relief Programs are calculated using the Federal Credit Reform Act discount rate, adjusted for market risk. "Other Section 101" subsidy rate reflects estimated activity; execution rates will be determined at the time of the transactions based on the final terms.

² SSFI total obligations subsequently reduced by \$165 million from level shown in the 2010 Budget to \$69.835 billion, for AIG Financial Product's retention payments made in March 2009.

³ Reflects reserve should additional financial stabilization efforts be necessary. The 2010 Budget does not include a request for funds.

⁴ Does not match the rate published in the 2010 Appendix, but is the correct rate and will be used for execution.

¹ Assumes enactment of HOPE for Homeowners legislative proposal.² All subsidy rates for Troubled Asset Relief Programs are calculated using the Federal Credit Reform Act discount rate, adjusted for market risk. Bank of America asset guarantee estimated subsidy rate reflects requirements under Section 102 of EESA; execution rates will be determined at the time of the transaction based on the final terms. TARP liability for the Citigroup asset guarantee is \$5 billion; the maximum liability for Bank of America is estimated at \$7.5 billion.

* Nonzero amount rounds to zero, based on units for this column.

¹ Lifetime defaults as a percentage of disbursements.² Recoveries as a percentage of lifetime defaults.³ Subsidy estimates are based on total cash receipts curves. Default component includes net expected inflows and outflows where insufficient data is available to identify the source.⁴ Recovery rate includes interest and penalties.⁵ Net present value of certain expected incentives paid to lenders on purchased loans, including rebate of the 1% up front fee and \$75 for each purchased loan. For the Participation, amounts are net of the participant's yield.⁶ Represents defaults net of recoveries.⁷ Assumptions reflect an illustrative example for informational purposes only. The assumptions will be determined at the time of execution, and will reflect the actual terms and conditions.⁸ All subsidy rates for Troubled Asset Relief Programs are calculated using the Federal Credit Reform Act discount rate, adjusted for market risk. Income from warrants and additional notes reflected in the "All other" component of subsidy.⁹ "All other" component of subsidy includes estimates of losses net of dividends and other income.¹⁰ TARP equity purchase programs do not have a maturity.¹¹ Reflects reserve should additional financial stabilization efforts be necessary. The 2010 Budget does not include a request for funds.

* Nonzero amount rounds to zero, based on units for this column.

¹ Lifetime defaults as a percentage of disbursements.² Recoveries as a percentage of lifetime defaults.³ "All other" component of subsidy includes net expected inflows and outflows where insufficient data is available to identify the source.⁴ Recovery rate includes interest and penalties.⁵ Net present value of certain expected incentives paid to lenders on purchased loans, including rebate of the 1% up front fee and \$75 for each purchased loan. For the Participation, amounts are net of the participant's yield.⁶ Assumptions reflect an illustrative example for informational purposes only. The assumptions will be determined at the time of execution, and will reflect the actual terms and conditions.⁷ Does not match the rate published in the 2010 Appendix, but is the correct rate and will be used for execution.⁸ Represents defaults net of recoveries.

¹ Reestimates for some programs did not appear in the 2010 Appendix because they were \$500,000 or less. Information on all cohorts is provided in the electronic version of the Federal Credit Supplement at www.budget.gov/budget.

² Current year reestimates, including interest on reestimates.

³ Total (net cumulative) reestimates, including interest on reestimates.

⁴ Reestimates have not yet been calculated.

⁵ Cohort is closed as of the end of 2008.

⁶ Includes the Stafford, PLUS, Consolidation, and SLS loan programs.

⁷ Breakout between technical and interest reestimates is not available.

⁸ The Secondary Market Guarantee program was brought on budget as subject to the Federal Credit Reform Act in 2004. The 2004 cohort includes activity for all cohorts prior to and including 2004.
