The Congressional Accountability Act of 1995 (CAA) established an independent Office of Compliance to apply the rights and protections of the following labor and employment statutes to covered employees within the Legislative Branch: the Fair Labor Standards Act of 1938, Title VII of the Civil Rights Act of 1964, the Americans with Disabilities Act of 1990, the Age Discrimination in Employment Act of 1967, the Family and Medical Leave Act of 1993, the Occupational Safety and Health Act of 1970, chapter 71 of title 5 of the U.S. Code (relating to Federal service labor-management relations), the Employee Polygraph Protection Act of 1988, the Worker Adjustment and Retraining Notification Act, the Rehabilitation Act of 1973, and chapter 43 of title 38 of the U.S. Code (relating to veterans' employment and reemployment). This Act was amended in 1998 to apply the Veterans Employment Opportunities Act. In 2008, the CAA was amended to apply the Genetic Information and Nondiscrimination Act of 2008.

The Office provides employees and employing offices with an independent, neutral dispute resolution process, as an alternative to the court system, through which they may adjudicate claims under the laws applied by the CAA. The Office is headed by a five-member Board of Directors, who are appointed jointly by the House and Senate majority and minority leadership.

AWARDS AND SETTLEMENTS FUNDS

Section 415 of the Congressional Accountability Act (CAA) established "an account of the Office in the Treasury of the United States for the payment of awards and settlements under this Act," and further authorized to be appropriated "such sums as may be necessary to pay such awards and settlements." Section 415 stipulated that awards and settlements under the CAA should only be paid from that account, which was to be kept separate from the operating expenses account of the Office of Compliance.

The Legislative Branch Appropriations Acts have appropriated funds for awards and settlements under the CAA by means of the following language:

Such sums as may be necessary are appropriated to the account described in subsection (a) of section 415 of Public Law 104-1 to pay awards and settlements as authorized under such subsection.

The Congressional Budget Office (CBO) was established as a non-partisan office of Congress by Title II of the Congressional Budget and Impoundment Control Act of 1974 (2 U.S.C. 601 et seq.). CBO provides objective economic and budgetary analysis and information to assist Congress in the fulfillment of its responsibilities. That information includes forecasts of the economy, analyses of economic trends and alternative fiscal policies, long-term projections of federal spending and revenue, and, upon request, studies on budget-related issues. In addition, CBO provides Congress with multi-year cost estimates for reported bills, as well as analyses of the costs of state, local, tribal, or private sector mandates.

The Judiciary Office Building Development Act, Public Law 100-480, among other purposes, authorized the Architect of the Capitol to contract for the design and construction of a building adjacent to Union Station in the District of Columbia to be leased to the Judicial Branch of the United States. This schedule reflects the costs associated with the construction of the building. Costs of construction were financed by an initial \$125 million of Federal agency debt (sales price less unamortized discount) issued in 1989.

Estimates prepared by the Legislative Branch assumed the financial arrangements to be a lease-purchase, which would distribute outlays associated with acquisition of the building over a period of thirty years. However, the arrangements involve Federally guaranteed financing and other characteristics that

make them substantively the same as direct Federal construction, financed by direct Federal borrowing.

Estimates shown are consistent with the requirements of the Budget Enforcement Act and are presented with the agreement of the Budget and Appropriations Committees.

The Office of the Librarian includes the Office of the Chief Financial Officer, the Office of the General Counsel, the Congressional Relations Office, the Office of Contracts and Grants Management, the Office of Communications, the Development Office, and the Office of Special Events and Public Programs.

Library Services.—The mission of Library Services is the acquisition of library materials; cataloging, classification, and preparation of those materials for use; serving the public and maintaining and managing the Library's universal collections, which are the largest and most diverse in the world; and, the preservation of materials for use now and in the future. It also develops, produces, markets, and distributes the Library's cataloging records

and cataloging-related publications, tools, and related resources to other libraries around the world that rely on the Library's standards and technical publications to manage their collections for effective access. Library Services also serves the public and contributes directly to the nation's educational and intellectual life through programs and activities that interpret and promote the Library's resources and the use of its unparalleled collections onsite as well as via the Internet.

Office of Strategic Initiatives.—The Office of Strategic Initiatives (OSI) supports the Library by developing consolidated plans for the Library's digital future, integrating the delivery of digital content and information technology services and infrastructure. Through the balanced use of technology, OSI facilitates achieving the Library's goals by sustaining a forward-looking information technology infrastructure that supports the Library's key business lines and enables constituent interaction. OSI maintains stewardship over the Library's information technology investments and the infrastructure that sustains digital content assets and services. OSI also oversees the Library's national programs for digital content preservation and education outreach. The national preservataion program catalyzes public-private partnership networks to jointly sustain at-risk cultural heritage content. The national education outreach network encourages kindergarten through twelfth grade educational use of the Library's online primary sources.

Law Library.—The Law Library of Congress (LAW) is the world's largest law and legislative library. Its primary mission is to provide the United States Congress, Executive Branch agencies, federal courts, the legal community, and others with legal research and/or reference services in foreign, international, and comparative law. LAW's core research capacity includes foreign and U.S. trained attorneys and librarians. They use LAW's collection of more than 5 million volumes or volume-equivalents of comprehensive legal materials, including nearly 3 million books and periodicals. These cover approximately 240 legal systems and jurisdictions. LAW acquires, maintains, and preserves its collection in both analog and digital formats, and draws on virtual technology to make the collection accessible through various systems and products. The Law Library is the content manager for Congress.gov, which makes federal legislative information freely available to the public, includes full texts of bills, resolutions, the Congressional Record, legislative calendars, committee information, treaties plus a full range of other congressional material. Additional LAW-supported systems and products provide access to historic legislative documents which focus on legal research techniques, events and issues. The Law Library assists Congress and other constituents with the exchange of legal sources online through which foreign legislatures and government agencies and international and multi-national organizations contribute laws, regulations, and related legal materials accessible via the Internet.

Office of Support Operations.—The Office of Support Operations provides centralized leadership and management of essential infrastructure services that support the mission and strategic objectives of the entire Library of Congress. In collaboration with customers, the Office of Support Operations provides services that enable the Library to fulfill its mission through the following program offices: Human Resources Services, Integrated Support Services, the Office of Security and Emergency Preparedness, and the Office of Opportunity, Inclusiveness and Compliance.

Office of the Inspector General.—The Office of the Inspector General (OIG), an independent office within the Library of Congress, has a statutory mandate to provide policy direction for and conduct, supervise, and coordinate performance and financial

audits, administrative and criminal investigations, and other reviews relating to programs and operations of the Library; review and make recommendations on the impact of existing and proposed legislation and Library regulations; recommend policies for, and conduct, supervise, or coordinate other activities carried out or financed by the Library for the purpose of promoting economy and efficiency and preventing and detecting fraud, waste, and abuse in Library programs and operations; coordinate relationships between the Library and other organizations and entities with respect to OIG matters; keep the Librarian and the Congress informed about serious problems relating to the programs and operations of the Library; recommend corrective action and report on the progress made in implementing such corrective actions; and provide leadership and coordination and recommend policies to promote effective management.

The Copyright Office operates the largest database of information in the world for copyright ownership and licensing title, approximately two-thirds of which is funded by fees paid by authors and other copyright owners, and the remainder of which is funded

by appropriated dollars, in the interest of commerce and for the benefit of the general public. The amount requested is more than offset by fees received for services rendered and the value of books and other materials deposited with the Office in accordance with the Copyright Act (17 U.S.C. subsections 407 and 408) and transferred to the Library of Congress. The receipts and obligations for 2013, and estimates for 2014 and 2015 are as follows:

	(Dollars in thousands)	2013 actual	2014 est.	2015 est.
Receipts:				
Offsetting Collections	\$33,194	\$33,444	\$33,582	
Estimated value of materials deposited and transferred to the Library of Congress	\$29,433	\$30,000	\$30,000	
Total Receipts	\$62,627	\$63,444	\$63,582

Registration, recordation, acquisitions, copyright records, public information, and expert advice on copyright issues.—The Copyright Office is responsible for registering copyright claims and renewals, vessel hull designs, and mask works, which relate to an estimated 500,000 copyright registrations in 2015 and 2014 and 496,599 during 2013. Additional responsibilities of the Office include: recording assignments and other copyright-related documents; acquiring books, films, sound recordings, and other works for possible inclusion in Library of Congress collections; creating and making available records of copyright ownership; providing copyright information to the public; and providing expert advice to Congress and executive agencies on copyright policy, piracy, and copyright trade agreements.

Licensing Division.—The Licensing Division handles administrative provisions of copyright statutory licenses and obligations, including those involving secondary transmissions by cable television systems and satellite carriers and the importation, manufacture and distribution of digital audio recording devices and distribution media. The division collects specified royalty fees for distribution to copyright owners upon determinations rendered by the Copyright Royalty Board. The Division also collects receipts from digital audio devices and distributes to the copyright owners through this appropriation after deduction of administrative costs for the Copyright Office Licensing Division and the Copyright Royalty Judges program. Distributions are made in accordance with the schedule established by 17 U.S.C. subsection 1007.

Copyright Royalty Judges (CRJ).—The Copyright Royalty Judges and their staff, who operate under the Librarian of Congress, determine royalty distributions and adjust royalty rates.

The Office of the Superintendent of Documents operates under a separate appropriation that provides funds (salaries and expenses) for: (1) the distribution of certain tangible publications to Members of Congress and other Government agencies, as authorized by law; (2) the distribution of Government publications to designated Federal depository libraries, as authorized by law, including tangible Government information products and online access to about 50 collections of Federal Government information with over 9 million searchable documents via GPO's Federal Digital System (FDsys); (3) the compilation of catalogs and indexes of Government publications, as authorized by law; and (4) the distribution of Federal Government publications to foreign governments in the International Exchange Service. These four functions are related to the publication activity of other agencies and to the demands of the public, Members of Congress, and depository libraries. Consequently, the Office of the Superintendent of Documents can exercise limited control over the volume of work which it may be called upon to perform. Following is a description of these four functions:

Distribution for other Government agencies and Members of Congress (By-Law Distribution).—The Office of Superintendent of Documents maintains mailing lists and mails, at the request of Government agencies and Members of Congress, certain publications specified by public law.

Federal Depository Library Program.—Established by Congress to ensure the American public has access to its Government's information, the Federal Depository Library Program (FDLP) involves the acquisition, format conversion, and distribution of

depository materials and the coordination of Federal depository libraries across the country.

The mission of the FDLP is to disseminate information products from all three branches of the Government to about 1,200 libraries nationwide. Libraries that have been designated as Federal depositories maintain these information products (as provided by GPO) as part of their existing collections and are responsible for assuring that the public has free access to the material provided by the FDLP.

Included in this program is the maintenance and expansion of free, electronic access to information products produced by the Federal Government via FDsys. Electronic information dissemination and access have greatly expanded the number of publications offered to the Federal depository libraries as well as increasing public use of the FDLP content. As the FDLP continues its transition to a primarily electronic program, the costs of the program are increasingly related to identifying, acquiring, cataloging, linking to, authenticating, modernizing, and providing permanent public access to electronic Government information, which involves recurring costs.

Cataloging and indexing.—The Office of Superintendent of Documents is charged with preparing catalogs and indexes of all publications issued by the Federal Government that are not confidential in character. The principal publication is the web-based "Catalog of U.S. Government Publications" (CGP). GPO's goal is to expand the CGP to a more comprehensive title listing of public documents, both historic and electronic, to increase the visibility and use of Government information products.

International exchange.—Under the direction of the Library of Congress (LC), the Superintendent of Documents distributes tangible Government publications to foreign governments that agree to send the United States similar publications of their governments for the LC collections.

By law, GPO's revolving fund is used to finance GPO's printing, print procurement, and sales of Government publications operations. Approximately 70 percent of GPO's printing revenue is from procured printed products and related services for customer agencies. This work is procured through GPO's Customer Services business unit utilizing the private sector printing industry. These printing and printing related requirements are effectively satisfied through this procurement activity because the highly competitive process provides access to the vast resources, expertise, and specialization within the commercial sector at the most cost effective price.

GPO's in-plant facility provides electronic and tangible print products in support of the information and day-to-day business needs of Congress and Federal agencies. GPO produces the *Congressional Record* overnight when Congress is in session, and bills, hearings, documents, reports and committee prints in time to support Congress' legislative needs. Also produced are the *Federal Register*, the *Code of Federal Regulations*, and other key Government documents, such as the annual *U.S. Budget*.

With a few exceptions, the paper used to produce the printed documents by GPO and its contractors meets or exceeds Federal recycled paper requirements and all GPO printing inks are manufactured from vegetable oil in accordance with the Vegetable Ink Printing Act of 1994.

GPO plays a critical role in America's security by producing Secure Federal Credentials, including the U.S Passport for the Department of State and secure credentials, many with "smart card" features combining print and digital security features, for Federal agencies. GPO has produced the U.S. Passport for the Department of State for more than 80 years.

By law, GPO offers Government publications for sale to the public. Thousands of titles are for sale at any given time, including books, CD-ROMs, and other electronic formats. Some titles are available in e-book format. GPO's publications sales program provides the public with a wide variety of low cost consumer-oriented publications as well as Congressional documents and Executive and Judicial publications. Documents can also be ordered through GPO's secure Online Bookstore site at <http://bookstore.gpo.gov>. Free low cost publications are distributed through the Federal Citizen Information Center in Pueblo, CO. GPO also provides publications distribution services for Federal agencies on a reimbursable basis.

(b) in subsection (a) by adding at the end the following new paragraph:

"(3) The Comptroller General shall conduct reviews and prepare reports under this subsection through October 1, 2015."

SEC. 2. FEDERAL GOVERNMENT DETAILS.—

Section 731 of title 31, United States Code, is amended by adding at the end the following new subsection:

"(k) Federal Government Details.—The activities of the Government Accountability Office may, in the reasonable discretion of the Comptroller General, be carried out by receiving details of personnel from other branches or agencies of the Federal Government, on a nonreimbursable basis."

SEC. 3. CENTER FOR AUDIT EXCELLENCE.—

(a) IN GENERAL.—Chapter 7 of title 31, United States Code, is amended by adding at the end the following new subchapter:

"SUBCHAPTER VII—CENTER FOR AUDIT EXCELLENCE

"§ 791. Findings

The Congress finds the following:

(a) The Government Accountability Office is a global leader in developing, applying, and interpreting Government Auditing Standards and other guidance relevant to federal, state, local and international audit institutions.

(b) There is worldwide demand for an organization like the Government Accountability Office to assume a greater leadership role in building institutional auditing capacity and promoting good governance by providing affordable, relevant, and high-quality training, technical assistance, and related products and services to personnel and organizations throughout the domestic and international auditing communities.

(c) The Government Accountability Office is well-positioned to establish a Center for Audit Excellence that will serve not only as a means to improve domestic audit capabilities, but also as a powerful national tool for promoting good governance, political and economic stability, transparency, and accountability around the world.

(d) Because the United States has become increasingly dependent on global supply chains to ensure reliable access to a wide range of essential products, including food, medicine, and advanced technologies, promotion of high-quality audit institutions and governance standards will serve the safety and well-being of the American people.

(e) Such a Center could also provide reciprocal benefits to the Government Accountability Office by enhancing institutional expertise, expanding its domestic and global networks, and strengthening staff experience and professional development.

(f) An appropriately designed and implemented Center could be established with minimal expenditure of appropriated funds, and, once established, operated on a fee-based basis requiring no additional appropriated funds.

"§ 792. Center for Audit Excellence

(a) Establishment of Center.—The Comptroller General shall establish, maintain, and operate a Center for Audit Excellence (hereinafter in this subchapter referred to as the "Center") within the Government Accountability Office, in order to build institutional auditing capacity and promote good governance by providing affordable, relevant, and high-quality training, technical assistance, and related products and services to personnel and organizations from throughout the domestic and international auditing communities. The Center shall be headed by a Director, who shall be appointed by the Comptroller General. The Center shall be designated the "Center for Audit Excellence."

(b) Scope. — The Center may provide training, technical assistance, and related products and services to appropriate personnel and entities from the Federal Government, state, local, territorial and tribal governments, foreign governments, international organizations, and private entities.

(c) Fees—

(1) The Comptroller General may establish, charge, and collect fees for the Center's products and services under subsection (b) on a reimbursable or advance-of-funds basis.

(2) Amounts collected under this subsection (including reimbursements and surcharges deemed necessary by the Comptroller General) shall be deposited to the appropriation currently available to the Government Accountability Office and remain available until expended, without further appropriation, for necessary expenses of the Center and other expenses as described under paragraph (3).

(3) The Comptroller General may designate additional categories of necessary expenses under paragraph (2), subject to a finding that such additional categories of expenses are necessary expenses of the Government Accountability Office.

(4) The Comptroller General shall maintain separate accountability for the fees collected under this subsection.

(d) Personnel—

(1) It is the sense of the Congress that the Center shall be primarily staffed by personnel not otherwise engaged in carrying out the duties and powers of the Government Accountability Office, so as to ensure no negative impact on the ability of the Comptroller General to maintain a consistently high level of service to Congress.

(2) Consistent with paragraph (1), and the authorities of chapter 7 of title 31, United States Code, the Comptroller General may appoint, pay, assign, and remove officers and employees, and procure the services of experts and consultants, such as the Comptroller General decides are necessary to carry out the responsibilities of the Center.

(e) Gifts—

(1) The Comptroller General may accept and use conditional or non-conditional gifts of property, both real and personal, and may accept gifts of services, including from guest lecturers, for otherwise authorized activities of the Center.

(2) The Comptroller General may not accept a gift under this subsection if the Comptroller General determines that the use of the property or services would compromise the integrity or appearance of integrity of a program or individual involved in a program of the Government Accountability Office.

"§ 793. Authorization of Appropriations

There are authorized to be appropriated such amounts as may be necessary to carry out the duties and powers of the Comptroller General under the provisions of this subchapter."

SEC. 4. CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter 7 is amended by adding at the end the following:

"SUBCHAPTER VII—CENTER FOR AUDIT EXCELLENCE

"791. Findings.

"792. Center for Audit Excellence.

"793. Authorization of Appropriations."

The United States Tax Court (referred to herein as the Tax Court or Court) was established in 1969 under Article I of the United States Constitution. The Court's jurisdiction is established by U.S. Code Title 26 (the Internal Revenue Code). The Court is a court of law, which the Supreme Court has said closely resembles the Federal District Courts and solely exercises judicial powers. It is also a court of national jurisdiction and conducts trial sessions in 74 cities throughout the United States.

The Tax Court is independent of the Executive and Legislative Branches. It is not affiliated with the Internal Revenue Service (IRS). It is one of three courts in which taxpayers can bring suit to contest IRS liability determinations, and the only one in which taxpayers can do so without prepaying any portion of the disputed taxes.

By law, the Tax Court is authorized 19 judges who, among themselves, elect one as Chief Judge. Judges are appointed to 15-year terms by the President, by and with the advice and consent of the Senate. Retired (also known as Senior) judges may be recalled by the Chief Judge to perform judicial duties. The Chief Judge is also authorized to appoint special trial judges who have statutory authority to decide several categories of cases, including cases involving up to \$50,000 in dispute per tax year. Decisions by the Tax Court are reviewable by the United States Courts of Appeals and, if *certiorari* is granted, by the Supreme Court.

US-China Economic and Security Review Commission.—Congress created the U.S.-China Economic and Security Review Commission (USCC) in 2000 in the National Defense Authorization Act (Public Law 106-398 as amended by Division P of the Consolidated Appropriations Resolution, 2003 (Public Law 108-7), as amended by Public Law 109-108 (November 10, 2005). The statute gives the Commission the mandate to monitor, investigate, and assess the "national security implications of the bilateral trade and economic relationship between the United States and the People's Republic of China." Its members are appointed by Congressional leaders, and its statutory mandate is to report to Congress on Chinese proliferation practices; the qualitative and quantitative effects of transfers of U.S. economic production activities to China; the effect of China's development on world energy supplies; the access to and use of U.S. capital markets by China; China's regional economic and security impacts; U.S.-China bilateral programs and agreements; China's compliance with its accession agreement to the World Trade Organization; and the implications of China's restrictions on freedom of expression. The Commission reports annually on these issues to the Congress, making recommendations for policy action and legislation when appropriate. In order to obtain new information and perspectives on these issues, the USCC conducts hearings throughout the year and maintains a website containing the records of these proceedings as well as original commissioned research on economic and security matters related to the Commission's statutory mandate.

The Commission is comprised of 12 Commissioners, 3 Commissioners appointed by each leader in the House and Senate, supported by a professional staff numbering approximately 18. The chairmanship of the USCC rotates between a Republican and a Democratic Commissioner upon issuance of each annual report to Congress.

This presentation includes the following:

Commission on Security and Cooperation in Europe.—The Commission on Security and Cooperation in Europe is authorized and directed to monitor the acts of the signatories which reflect compliance with or violation of the articles of the Final Act of the Conference on Security and Cooperation in Europe, with particular regard to the provisions relating to Cooperation in Humanitarian Fields. The law establishing the Commission on Security and Cooperation in Europe also mandated it to monitor and encourage U.S. Government and private activities designed to expand East-West trade and the exchange of people and ideas. The Commission will receive an annual report from the Secretary of State discussing the overall United States policy objectives that are advanced through meetings of decision-making bodies of the Organization for Security and Cooperation in Europe (OSCE), the OSCE implementation review process, and other activities of the OSCE.

Congressional-Executive Commission on the People's Republic of China.—Congress created the Congressional-Executive Commission on the People's Republic of China (CECC) in 2000 by passing Title III of P.L. 106-286, the China Relations Act of 2000. The statute gives the Commission the mandate to monitor the Chinese government's compliance with international human rights standards and to track the development of the rule of law in China. The Commission reports annually on these issues to the President and the Congressional leadership, making recommendations for policy action and legislation when appropriate. The CECC was also charged with creating and maintaining a registry of victims of human rights abuses in China, including prisoners of conscience. The CECC conducts hearings and staff-led issues roundtables throughout the year and maintains a website containing the records of these proceedings, as well as other information about human rights and rule of law issues in China. The CECC seeks to be a resource on these issues for Capitol Hill, the NGO community, the academic world, and the general public.

The Commission comprises nine Senators, nine Members of the House of Representatives, and five Executive Branch officials, supported by a professional staff numbering about 15 people. The chairmanship of the CECC rotates from the Senate to the House in even-numbered Congresses.

Dwight D Eisenhower Memorial Commission.—The Dwight D. Eisenhower Memorial Commission was created by Congress in 1999 by Public Law 106-79. The Commission's congressional mandate is to establish an appropriate, permanent national memorial to Dwight D. Eisenhower, who served as Supreme Commander of the Allied forces in Europe in World War II and subsequently as 34th President of the United States. The Commission's enabling legislation dictates that a memorial should be created to perpetuate his memory and his contributions to the United States. The Commission is bipartisan and consists of 12 members. Four Commissioners are members of the House of Representatives, four are Senators, and four are private citizens appointed by the President. The Commission is led by a World War II combat-decorated veteran: Rocco C. Siciliano and its work on building the memorial since 2001 has

been informed by the active participation of the Eisenhower family, along with input from members of Congress and federal review agencies. In order to build this world-class memorial in the most efficient way possible, the Commission requests these funds in FY 2015.

Capital Construction.—\$19,300,000 for the construction of the memorial.

The Open World Leadership Center, under the direction of its Board of Trustees, supports the identification of emerging leaders from foreign countries selected by the Board of Trustees and oversees the development of an intensive program in the United States to link up to 3,000 participants each year with U.S. counterparts. The Center's mission entails enhancing the understanding and capabilities for cooperation between the United States and participating countries by developing a network of leaders who have gained significant, first-hand exposure to America's democratic, accountable government and its free-market system. The Center has also administered a program to enable cultural

leaders from the Russian Federation to gain exposure to the operations of American cultural institutions.

The Center is authorized to solicit and accept federal and private funds, in addition to receipt of this appropriation, and to invest appropriated funds in par value securities at the U.S. Treasury. The Center is governed by an eleven-member board of trustees, composed of the Librarian of Congress, members of the U.S. Senate and House of Representatives and representatives of the private sector. The Center is authorized to obtain a wide range of administrative support, including space, from the Library of Congress.

FY 2015 funding supports U.S. grants and logistical services for hosting in communities throughout the United States as well as other operating expenses of the Center.
