

23. FEDERAL DRUG CONTROL FUNDING

In support of the *2014 National Drug Control Strategy* (*Strategy*), the President requests \$25.4 billion in Fiscal Year 2015 to reduce drug use and its consequences in the United States. The *Strategy* represents a 21st century approach to drug policy that outlines innovative policies and programs and recognizes that substance use disorders are not just a criminal justice issue, but also a major public health concern. Decades of research demonstrate that addiction is a disease of the brain - one that can be prevented, treated, and from which people can recover. The *Strategy* lays out an evidence-based plan for real drug policy reform, spanning the spectrum of prevention, early intervention, treatment, recovery support, criminal justice reform, effective law enforcement, and international cooperation.

The Office of National Drug Control Policy (ONDCP) develops the *Strategy* and a consolidated National Drug

Control Program Budget. Program evaluation and performance measurement are important tools for ONDCP in its oversight of Federal agencies – enabling ONDCP to assess the extent to which the *Strategy* is meeting its goals and objectives, and the contributions of drug control agencies. A key performance tool for ONDCP is the Performance Reporting System (PRS), which appraises the performance of the large and complex interagency Federal effort set forth in the *Strategy*. The PRS is essential because it will act as a signal to indicate where the *Strategy* is on track, and when and where further attention, assessment, evaluation, and problem-solving are needed. The first PRS report, which will be released soon, is the first assessment of interagency progress, and will assist in making adjustments to the *Strategy*'s policy and program actions as required to achieve the *Strategy*'s goals and objectives.
