

DEPARTMENT OF TRANSPORTATION

OFFICE OF THE SECRETARY

Federal Funds

RESEARCH AND TECHNOLOGY

For necessary expenses related to the Office of the Assistant Secretary for Research and Technology, \$8,465,109, of which \$2,618,000 shall remain available until September 30, 2020: Provided, That there may be credited to this appropriation, to be available until expended, funds received from States, counties, municipalities, other public authorities, and private sources for expenses incurred for training: Provided further, That any reference in law, regulation, judicial proceedings, or elsewhere to the Research and Innovative Technology Administration shall continue to be deemed to be a reference to the Office of the Assistant Secretary for Research and Technology of the Department of Transportation.

Note.—A full-year 2017 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Further Continuing Appropriations Act, 2017 (P.L. 114–254). The amounts included for 2017 reflect the annualized level provided by the continuing resolution.

The Office of the Assistant Secretary for Research and Technology is responsible for facilitating and reviewing the Department's research, development, and technology portfolio as well as enhancing the data collection and statistical analysis programs to support data-driven decision-making. The Office of the Assistant Secretary for Research and Technology is also responsible for Positioning, Navigation, and Timing (PNT) technology, PNT policy coordination, and spectrum management.

The Office of the Assistant Secretary for Research and Technology oversees and provides direction to the following programs and activities:

The Bureau of Transportation Statistics (BTS) manages and shares statistical knowledge and information on the Nation's transportation systems, including statistics on freight movement, geospatial transportation information, and transportation economics. BTS is funded by an allocation from the Federal Highway Administration's Federal-Aid Highways account.

The University Transportation Centers (UTC) advance U.S. technology and expertise in many transportation-related disciplines through grants for transportation education, research, and technology transfer at university-based centers of excellence. The UTC Program funding is provided to the Office of the Assistant Secretary for Research and Technology through an allocation from the Federal Highway Administration.

The John A. Volpe National Transportation Systems Center (Cambridge, MA) provides expertise in research, analysis, technology deployment, and other technical knowledge to the Department of Transportation (DOT) and non-DOT customers on specific transportation system projects or issues on a fee-for-service basis.

The Transportation Safety Institute (TSI) (Oklahoma City, OK) develops and conducts safety, security, and environmental training, products, and services for both the public and private sector on a fee-for-service and tuition basis.

The Fixing America's Surface Transportation (FAST) Act (Public Law 114–94) was enacted on December 4, 2015. Among the new provisions included in this Act, is the establishment of a new National Surface Transportation and Innovative Finance Bureau (the Bureau) within the Office of the Secretary of Transportation that will align, coordinate, and consolidate aspects of the U.S. Department of Transportation's (USDOT) existing surface transportation innovative finance programs within the new Bureau. The FAST Act calls for the Bureau to fulfill a number of specific responsibilities, including the following: Provide assistance and communicate best practices and financing and funding opportunities to entities eligible under USDOT infrastructure finance programs; Administer the application process for USDOT infrastructure finance programs; Administer the application process for a new Nationally Significant Freight and Highway Projects program; Reduce uncertainty and delays related to environmental reviews and permitting, as well as project delivery and procurement risks and costs for projects financed by the USDOT infrastructure finance programs and the new Nationally Significant Freight and Highways Projects programs; Increase transparency and the public availability of information regarding projects financed by the USDOT infrastructure finance programs and the new Nationally Significant Freight and Highway Projects program; and Promote best practices in procurement for projects financed by the USDOT infrastructure finance programs and the new Nationally Significant Freight and Highway Projects program by developing benchmarks related to procurement. The Bureau will build on a number of actions that USDOT has taken to advance these goals, including the establishment of USDOT's Build America Transportation Investment Center in 2014 as a single point of contact and coordination for states, municipalities and project sponsors looking to utilize federal transportation expertise, apply for federal transportation credit programs, and explore ways to access private capital through public private partnerships. Notably, in their explanatory statement of the FAST Act, Congressional conferees explicitly recognized the accomplishments of the Administration's Build America Investment Initiative to increase infrastructure investment and economic growth. To assist with establishing the Bureau, the FAST Act provides the Secretary with certain authorities to redirect personnel and budgetary resources, if necessary, to support the establishment and effectiveness of the Bureau. These authorities are available for two years, expiring in December 2017. The Administration is proposing extending these authorities to allow full implementation of the Bureau. The FAST Act requires that, within 90 days of enactment and in 90-day intervals thereafter, USDOT report to Congress on how these authorities are being implemented, and any additional legislative actions that may be needed. The Bureau is managed by an Executive Director reporting to the Under Secretary of Transportation for Policy. The FAST Act also established a new Council on Credit and Finance (the Council) chaired by the Deputy Secretary, which is charged with the review and approval of innovative finance applications, making recommendations to the Secretary, and reviewing approved projects on a regular basis. The Council builds on the Credit Council that USDOT had previously established through administrative measures.

The Working Capital Fund finances multidisciplinary research, evaluation, analytical and related activities undertaken at the Volpe Transportation Systems Center (Volpe Center) in Cambridge, MA. The fund is financed through negotiated agreements with other offices within the Office of the Secretary, Departmental operating administrations and other governmental

elements requiring the Center's capabilities. These agreements also define the activities undertaken at the Volpe Center.

This American Recovery and Reinvestment Act of 2009 program provided funding for grant awards to State and local governments or transit agencies on a competitive basis for capital investments in surface transportation infrastructure resulting in a significant impact on the Nation, a metropolitan area or a region. Of the amount appropriated, not to exceed \$200,000,000 could be used to pay the subsidy and administrative costs of projects eligible for federal credit assistance under U.S.C. 23 Chapter 6, the Transportation Infrastructure Finance and Innovation Act. No funding is requested for this program in 2018.

FINANCIAL MANAGEMENT CAPITAL

For necessary expenses for enhancing the Department of Transportation's financial systems and re-engineering business processes, \$3,000,000, to remain available through September 30, 2019.

Note.—A full-year 2017 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Further Continuing Appropriations Act, 2017 (P.L. 114–254). The amounts included for 2017 reflect the annualized level provided by the continuing resolution.

4190 Outlays, net (total)	9	5	3

This appropriation provides funds to enhance DOT's financial systems and to re-engineer business processes. These funds will assist DOT in automating manual processes, improve reporting capabilities and comply with required mandates.

CYBER SECURITY INITIATIVES

For necessary expenses for cyber security initiatives, including necessary upgrades to wide area network and information technology infrastructure, improvement of network perimeter controls and identity management, testing and assessment of information technology against business, security, and other requirements, implementation of Federal cyber security initiatives and information infrastructure enhancements, implementation of enhanced security controls on network devices, and enhancement of cyber security workforce training tools, \$10,000,000, to remain available through September 30, 2019.

Note.—A full-year 2017 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Further Continuing Appropriations Act, 2017 (P.L. 114–254). The amounts included for 2017 reflect the annualized level provided by the continuing resolution.

This appropriation financed the costs for the new Department of Transportation headquarters, which consolidated all operating administrations headquarters functions (except FAA) from various locations into a single state-of-the-art, efficient leased building in the District of Columbia. No funding is requested for this program in 2018.

TRANSPORTATION PLANNING, RESEARCH, AND DEVELOPMENT

For necessary expenses for conducting transportation planning, research, systems development, development activities, and making grants, to remain available until expended, \$8,500,001: Provided, That of such amount, \$1,500,000 shall be for necessary expenses for the Interagency Infrastructure Permitting Improvement Center (IIPIC) to continue reforms to improve interagency coordination and the expediting of projects related to the permitting and environmental review of major transportation infrastructure projects including expenses to develop and deploy information technology tools to track project schedules and metrics and improve the transparency and accountability of the permitting process: Provided further, That there may be transferred to this appropriation, to remain available until expended, amounts transferred from other Federal agencies for expenses incurred under this heading for IIPIC activities not related to transportation infrastructure: Provided further, That the tools and analysis developed by the IIPIC shall be available to other Federal agencies for the permitting and review of major infrastructure projects not related to transportation only to the extent that other Federal agencies provide funding to the Department as provided for under the previous proviso.

Note.—A full-year 2017 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Further Continuing Appropriations Act, 2017 (P.L. 114–254). The amounts included for 2017 reflect the annualized level provided by the continuing resolution.

This appropriation finances research and studies concerned with planning, analysis, and information development needed to support the Secretary's responsibilities in the formulation of national transportation policies and the coordination of national-level transportation planning. Funding also supports departmental leadership in areas such as regulatory modernization, energy conservation, environmental and safety impacts of transportation, aviation economic policy and international transportation issues. The program activities include contracts with other Federal agencies, educational institutions, non-profit research organizations, and private firms. This appropriation also finances the Interagency Infrastructure Permitting Improvement Center, including an online database Permitting Dashboard, to support permitting/environmental review reforms to improve interagency coordination and make the process for federal approval for major infrastructure projects more efficient.

The Federal Aviation Reauthorization Act of 1996 (P.L. 104-264) authorized the collection of user fees for services provided by the Federal Aviation Administration (FAA) to aircraft that neither take off nor land in the United States, commonly known as overflight fees. The Act permanently appropriated the first \$50 million of such fees for the Essential Air Service (EAS) program and rural airport improvements. In addition, the FAA Modernization and Reauthorization Act (P.L. 112-95) requires that, in any fiscal year, overflight fees collected in excess of \$50 million will be available to carry out the EAS program. The 2018 Budget proposes to reform the EAS program and rely only on mandatory funding.

This program provides a thoughtful workforce program that partners with the transportation industry and financial stakeholders with a focus on empowering transportation-related disadvantaged businesses (minority, women-owned, and the Small Business Administration's 8(a) and HUBZone firms). This program provides the opportunity for small, emerging, and disadvantaged business enterprise to access government and private financing programs and learn tools to become risk adverse, build profitable and sustainable businesses, increase access to contracting opportunities, and create pathways to job creation and retention.

Through 1997, the Essential Air Service (EAS) program was funded from the Airport and Airway Trust Fund. Starting in 1998, the Federal Aviation Administration reauthorization funded it as a mandatory program supported by overflight fees under the Essential Air Service and Rural Airport Improvement Fund. In addition to mandatory funding supported by overflight fees, direct appropriations from the Airport and Airway Trust Fund to Payments to Air Carriers have been enacted every year beginning in 2002 to meet the needs of the essential air service program. The 2018 Budget proposes to reform the EAS program; no discretionary funding is requested in 2018.

ADMINISTRATIVE PROVISIONS

SEC. 101. None of the funds made available in this Act to the Department of Transportation may be obligated for the Office of the Secretary of Transportation to approve assessments or reimbursable agreements pertaining to funds appropriated to the modal administrations in this Act, except for activities underway on the date of enactment of this Act, unless such assessments or agreements have completed the normal reprogramming process for Congressional notification.

SEC. 102. Notwithstanding section 3324 of title 31, United States Code, in addition to authority provided by section 327 of title 49, United States Code, the Department's Working Capital Fund is hereby authorized to provide payments in advance to vendors that are necessary to carry out the Federal transit pass transportation fringe benefit program under Executive Order 13150 and section 3049 of Public Law 109–59: Provided, That the Department shall include adequate safeguards in the contract with the vendors to ensure timely and high-quality performance under the contract.

SEC. 103. The Secretary shall post on the Web site of the Department of Transportation a schedule of all meetings of the Credit Council, including the agenda for each meeting, and require the Credit Council to record the decisions and actions of each meeting.

SEC. 104. In addition to authority provided by section 327 of title 49, United States Code, the Department's Working Capital Fund is hereby authorized to provide partial or full payments in advance and accept subsequent reimbursements from all Federal agencies for transit benefit distribution services that are necessary to carry out the Federal transit pass transportation fringe benefit program under Executive Order No. 13150 and section 3049 of Public Law 109–59: Provided, That the Department shall maintain a reasonable operating reserve in the Working Capital Fund, to be expended in advance to provide uninterrupted transit benefits to Government employees, provided that such reserve will not exceed one month of benefits payable: Provided further, that such reserve may be used only for the purpose of providing for the continuation of transit benefits, provided that the Working Capital Fund will be fully reimbursed by each customer agency for the actual cost of the transit benefit.

SEC. 105. The Secretary may transfer to the National Surface Transportation and Innovative Finance Bureau, for the purposes of the Bureau, funds allocated for the administrative cost of processing applications for the programs referred to in 49 U.S.C. 116(d)(1) and funds allocated to any office or office function that the Secretary determines has duties, responsibilities, resources, or expertise that support the purposes of the Bureau: Provided, That any such funds, or portions thereof, transferred to the Bureau may be transferred back to and merged with the original account.

SEC. 106. Section 503(l)(4) of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 823(l)(4)) is amended—

(1) by striking the heading "Safety and operations account" and inserting the heading "National Surface Transportation and Innovative Finance Bureau Account, Office of the Secretary."; and

(2) in subparagraph (A) by striking "the Safety and Operations account of the Federal Railroad Administration" and inserting "the National Surface Transportation and Innovative Finance Bureau account".

Federal Funds

OPERATIONS

(AIRPORT AND AIRWAY TRUST FUND)

For necessary expenses of the Federal Aviation Administration, not otherwise provided for, including operations and research activities related to commercial space transportation, administrative expenses for research and development, establishment of air navigation facilities, the operation (including leasing) and maintenance of aircraft, subsidizing the cost of aeronautical charts and maps sold to the public, lease or purchase of passenger motor vehicles for replacement only, in addition to amounts made available by Public Law 112–95, \$9,890,886,000 of which \$8,100,000,000 shall be derived from the Airport and Airway Trust Fund: Provided, That not later than 60 days after the submission of the President's budget request, the Administrator of the Federal Aviation Administration shall transmit to Congress an annual update to the report submitted to Congress in December 2004 pursuant to section 221 of Public Law 108–176: Provided further, That not later than 60 days after the submission of the President's budget request, the Administrator shall transmit to Congress a companion report that describes a comprehensive strategy for staffing, hiring, and training flight standards and aircraft certification staff in a format similar to the one utilized for the controller staffing plan, including stated attrition estimates and numerical hiring goals by fiscal year: Provided further, That funds may be used to enter into a grant agreement with a nonprofit standard-setting organization to assist in the development of aviation safety standards: Provided further, That none of the funds in this Act shall be available for new applicants for the second career training program: Provided further, That there may be credited to this appropriation, as offsetting collections, funds received from States, counties, municipalities, foreign authorities, other public authorities, and private sources for expenses incurred in the provision of agency services, including receipts for the maintenance and operation of air navigation facilities, and for issuance, renewal or modification of certificates, including airman, aircraft, and repair station certificates, or for tests related thereto, or for processing major repair or alteration forms.

Note.—A full-year 2017 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Further Continuing Appropriations Act, 2017 (P.L. 114-254). The amounts included for 2017 reflect the annualized level provided by the continuing resolution.

For 2018, the Budget requests \$9,891 million for Federal Aviation Administration (FAA) operations. These funds will be used to continue to promote aviation safety and efficiency. The Budget provides funding for the Air Traffic Organization (ATO) which is responsible for managing the air traffic control system. As a performance-based organization, the ATO is designed to provide cost-effective, efficient, and, above all, safe air traffic services. The Budget also funds the Aviation Safety Organization which ensures the safe operation of the airlines and certifies new aviation products. In addition, the request also funds regulation of the commercial space transportation industry, as well as FAA policy oversight and overall management functions.

The Federal Aviation Reauthorization Act of 1996 (P.L. 104–264) authorized the collection of user fees for air traffic control and related services provided by the Federal Aviation Administration to aircraft that neither take off nor land in the United States, commonly known as overflight fees. The Budget estimates that \$119 million in overflight fees will be collected in 2018.

The fund provides direct support for the aviation insurance program (chapter 443 of title 49, U.S. Code). In December 2014, Congress sunset part of the aviation insurance program. Specifically, Congress returned U.S. air carriers to the commercial aviation market for all of their war risk insurance coverage by ending the FAA's authority to provide war risk insurance for a premium. Pursuant to 49 U.S.C. 44305, the FAA may provide insurance without premium at the request of the Secretary of Defense or the head of a department, agency, or instrumentality designated by the President when the Secretary of Defense or the designated head agrees to indemnify the Secretary of Transportation against all losses covered by the insurance. The "non-premium" aviation insurance program is authorized through December 31, 2018.

In 1997, the Federal Aviation Administration (FAA) established a franchise fund to finance operations where the costs for goods and services provided are charged to the users on a fee-for-service basis. The fund improves organizational efficiency and provides better support to FAA's internal and external customers. The activities included in this franchise fund are: training, accounting, travel, duplicating services, multi-media services, information technology, material management (logistics), and aircraft maintenance.

Section 9502 of Title 26, U.S. Code, provides for amounts equivalent to the funds received in the U.S. Treasury for the passenger ticket tax and certain other taxes paid by airport and airway users to be transferred to the Airport and Airway Trust Fund. In turn, appropriations are authorized from this fund to meet obligations for airport improvement grants, Federal Aviation Administration facilities and equipment, research, operations, payment to air carriers, and for the Bureau of Transportation Statistics Office of Airline Information.

The status of the fund is as follows:

GRANTS-IN-AID FOR AIRPORTS
(LIQUIDATION OF CONTRACT AUTHORIZATION)
(LIMITATION ON OBLIGATIONS)
(AIRPORT AND AIRWAY TRUST FUND)

For liquidation of obligations incurred for grants-in-aid for airport planning and development, and noise compatibility planning and programs as authorized under subchapter I of chapter 471 and subchapter I of chapter 475 of title 49, United States Code, and under other law authorizing such obligations; for procurement, installation, and commissioning of runway incursion prevention devices and systems at airports of such title; for grants authorized under section 41743 of title 49, United States Code; and for inspection activities and administration of airport safety programs, including those related to airport operating certificates under section 44706 of title 49, United States Code, \$3,000,000,000, to be derived from the Airport and Airway Trust Fund and to remain available until expended: Provided, That none of the funds under this heading shall be available for the planning or execution of programs the obligations for which are in excess of \$3,350,000,000, in fiscal year 2018, notwithstanding section 47117(g) of title 49, United States Code: Provided further, That none of the funds under this heading shall be available for the replacement of baggage conveyor systems, reconfiguration of terminal baggage areas, or other airport improvements that are necessary to install bulk explosive detection systems: Provided further, That notwithstanding any other provision of law, of funds limited under this heading, not more than \$111,863,000, shall be obligated for administration, not less than \$15,000,000 shall be available for the Airport Cooperative Research Program, and not less than \$33,210,000 shall be available for Airport Technology Research.

Note.—A full-year 2017 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Further Continuing Appropriations Act, 2017 (P.L. 114-254). The amounts included for 2017 reflect the annualized level provided by the continuing resolution.

FACILITIES AND EQUIPMENT
(AIRPORT AND AIRWAY TRUST FUND)
(INCLUDING CANCELLATION)

For necessary expenses, not otherwise provided for, for acquisition, establishment, technical support services, improvement by contract or purchase, and hire of national airspace systems and experimental facilities and equipment, as authorized under part A of subtitle VII of title 49, United States Code, including initial acquisition of necessary sites by lease or grant; engineering and service testing, including construction of test facilities and acquisition of necessary sites by lease or grant; construction and furnishing of quarters and related accommodations for officers and employees of the Federal Aviation Administration stationed at remote localities

where such accommodations are not available; and the purchase, lease, or transfer of aircraft from funds available under this heading, including aircraft for aviation regulation and certification; to be derived from the Airport and Airway Trust Fund, \$2,766,200,000, of which \$483,800,000 shall remain available until September 30, 2018 and \$2,282,400,000 shall remain available until September 30, 2020: Provided, That there may be credited to this appropriation funds received from States, counties, municipalities, other public authorities, and private sources, for expenses incurred in the establishment, improvement, and modernization of national airspace systems: Provided further, That no later than 60 days after the submission of the President's Budget request, the Secretary of Transportation shall transmit to the Congress an investment plan for the Federal Aviation Administration which includes funding for each budget line item for fiscal years 2019 through 2023, with total funding for each year of the plan constrained to the funding targets for those years as estimated and approved by the Office of Management and Budget.

Of the unobligated balances from prior year appropriations available under this heading, \$31,200,000 is hereby permanently cancelled.

Note.—A full-year 2017 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Further Continuing Appropriations Act, 2017 (P.L. 114–254). The amounts included for 2017 reflect the annualized level provided by the continuing resolution.

Funding in this account provides for the deployment of communications, navigation, surveillance, and related capabilities within the National Airspace System (NAS). This includes funding for several activities of the Next Generation Air Transportation System, a joint effort between the Department of Transportation, the National Aeronautics and Space Administration, and the Departments of Defense, Homeland Security, and Commerce to improve the safety, capacity, security, and environmental performance of the NAS. The funding request supports the Federal Aviation Administration's comprehensive plan for modernizing, maintaining, and improving air traffic control and airway facilities services.

RESEARCH, ENGINEERING, AND DEVELOPMENT

(AIRPORT AND AIRWAY TRUST FUND)

For necessary expenses, not otherwise provided for, for research, engineering, and development, as authorized under part A of subtitle VII of title 49, United States Code, including construction of experimental facilities and acquisition of necessary sites by lease or grant, \$150,000,000, to be derived from the Airport and Airway Trust Fund and to remain available until September 30, 2020: Provided, That there may be credited to this appropriation as offsetting collections, funds received from States, counties, municipalities, other public authorities, and private sources, which shall be available for expenses incurred for research, engineering, and development.

Note.—A full-year 2017 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Further Continuing Appropriations Act, 2017 (P.L. 114–254). The amounts included for 2017 reflect the annualized level provided by the continuing resolution.

This account provides funding to conduct research, engineering, and development to improve the national airspace system's capacity and safety, as well as the ability to meet environmental needs. The proposed funding is allocated to the following performance goal areas of the Federal Aviation Administration: improve safety, economic competitiveness, and environmental performance of the National Airspace System. The request includes funding for several research and development activities of the Next Generation Air Transportation System (NextGen), as well as activities related to unmanned aircraft systems.

For 2018, the Budget proposes \$9,891 million for Federal Aviation Administration Operations, of which \$8,100 million would be provided from the Airport and Airway Trust Fund.

ADMINISTRATIVE PROVISIONS

SEC. 110. The Administrator of the Federal Aviation Administration may reimburse amounts made available to satisfy 49 U.S.C. 41742(a)(1) from fees credited under 49 U.S.C. 45303 and any amount remaining in such account at the close of that fiscal year may be made available to satisfy section 41742(a)(1) for the subsequent fiscal year.

SEC. 111. Amounts collected under section 40113(e) of title 49, United States Code, shall be credited to the appropriation current at the time of collection, to be merged with and available for the same purposes of such appropriation.

SEC. 112. None of the funds in this Act shall be available for paying premium pay under subsection 5546(a) of title 5, United States Code, to any Federal Aviation Administration employee unless such employee actually performed work during the time corresponding to such premium pay.

SEC. 113. None of the funds in this Act may be obligated or expended for an employee of the Federal Aviation Administration to purchase a store gift card or gift certificate through use of a Government-issued credit card.

SEC. 114. None of the funds in this Act may be obligated or expended for retention bonuses for an employee of the Federal Aviation Administration without the prior written approval of the Assistant Secretary for Administration of the Department of Transportation.

SEC. 115. Notwithstanding any other transfer restriction under this Act, not to exceed 10 percent of any appropriation made available for the current fiscal year for the Federal Aviation Administration by this Act or provided by previous appropriations Acts may be transferred between such appropriations for the Federal Aviation Administration, but no such appropriation, except as otherwise specifically provided, shall be increased by more than 10 percent by any such transfer: Provided, That funds transferred under this section shall be treated as a reprogramming of funds under section 404 of this Act and shall not be available for obligation unless the Committees on Appropriations of the Senate and the House of Representatives are notified 15 days in advance of such transfer: Provided further, That any transfer from an amount made available for obligation as discretionary grants-in-aid for airports pursuant to section 47117(f) of title 49, United States Code shall be deemed as obligated for grants-in-aid for airports under part B of subtitle VII of title 49, United States Code for the purposes of complying with the limitation on incurring obligations in this appropriations Act or any other appropriations Act under the heading "Grants-in-Aid for Airports."

FEDERAL HIGHWAY ADMINISTRATION

The 2018 Budget, which reflects the third year of the five-year Fixing America's Surface Transportation (FAST) Act, provides the needed funding to improve: the safety, condition and performance of America's roads and bridges; the safety, efficiency, and reliability of the movement of freight; and the regional coordination by Metropolitan Planning Organizations to stimulate economic development.

The 2018 Federal Highway Administration (FHWA) Budget consists of \$45,009 million in budget authority and \$43,190 million in outlays (with both totals excluding transfers from the General Fund).

The table below reflects the budget authority requested for all existing FHWA programs.

[In millions of dollars]			
	2016 actual	2017 est.	2018 est.
Budget Authority:			
Federal-aid highways contract authority (HTF)	43,050	43,954	44,973
Federal-aid subject to limitation	42,361	43,266	44,234
Federal-aid highways exempt from the limitation	689	688	739
Miscellaneous appropriations (TIFIA upward reestimate GF)	216	2	0
Emergency Relief (GF)	0	1,004	0
TIFIA General Fund Program Account Upward Reestimate (GF)	40	3	0
Miscellaneous trust funds (TF)	66	36	36
Total Budget Authority	43,372	44,999	45,009
Total Discretionary	0	1,004	0
Total Mandatory	43,372	43,995	45,009
Obligation Limitation:			
Federal-aid highways (HTF)	42,361	42,280	44,234

Note: Numbers may not add due to rounding. Totals do not include transfers with the Federal Transit Administration and the National Highway Traffic Safety Administration. Federal-aid Highways contract authority reflects sequestration in 2016 and 2017.

FHWA is authorized to receive additional General Fund discretionary funding as needed. In FY 2012, \$1,662 million was enacted to remain available until expended, in FY 2013, \$2,022 million was enacted to remain available until expended, and in FY 2017, \$1,004 million was enacted to remain available until expended, all for necessary expenses resulting from major disasters declared pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.).

No further appropriations are requested for this account in FY 2018.

Funding for this program is used for the necessary expenses relating to construction of, and improvements to, corridors of the Appalachian Development Highway System.

No funding is requested for FY 2018.

STATE INFRASTRUCTURE BANKS

Program and Financing (in millions of dollars)

Identification code 069–0549–0–1–401	2016 actual	2017 est.	2018 est.
Budgetary resources:			
Unobligated balance:			
1000 Unobligated balance brought forward, Oct 1	1	1	1
1930 Total budgetary resources available	1	1	1
Memorandum (non-add) entries:			
1941 Unexpired unobligated balance, end of year	1	1	1
4180 Budget authority, net (total)
4190 Outlays, net (total)

In 1997, FHWA received an appropriation from the General Fund for the State Infrastructure Banks (SIBs) program.

All of the funds have been provided to the States to capitalize the infrastructure banks. Because the funding was provided as grants, and not loans, FHWA will not receive reimbursements of amounts expended for the SIBs program. No new budgetary resources are requested in FY 2018.

HIGHWAY INFRASTRUCTURE INVESTMENT, RECOVERY ACT

Summary of Loan Levels, Subsidy Budget Authority and Outlays by Program (in millions of dollars)

Identification code 069-0504-0-1-401	2016 actual	2017 est.	2018 est.
Direct loan reestimates:			
135001 Tiger TIFIA Direct Loans (ARRA)	-2	-4

Enacted on February 17, 2009, the American Recovery and Reinvestment Act of 2009 (Recovery Act) provided \$27.5 billion from the General Fund to the Federal Highway Administration (FHWA), of which \$26.6 billion was apportioned to States based on formulas described in the Recovery Act and \$0.9 billion was allocated to programs identified in the Recovery Act, including the Indian Reservation Roads Program, Park Roads and Parkway Program, Forest Highway Program, Refuge Roads Program, Disadvantaged Business Enterprise Bonding Assistance, Territorial Highway Program, Puerto Rico Highway Program, and the Ferry Boat Discretionary Program. Administrative oversight funds were available through September 30, 2012 and all other funds were available through September 30, 2010. The FHWA Recovery Act funds have been used to invest in transportation, environmental protection, and other infrastructure that will provide longer term economic benefits to the Nation. The Recovery Act funds augmented existing investments, authorized by the Safe, Accountable, Flexible, Efficient Transportation Equity Act of 2005: A Legacy for Users, enabled States, regional, and local governments to accelerate to completion a number of highway infrastructure projects planned or underway. Since the Recovery Act was enacted in February 2009, more than 42,000 miles of pavement across the United States have been improved. As of September 30, 2015, States have expended 100% of Recovery Act obligations. As of September 30, 2015 Recovery Act funds are cancelled and are no longer available for expenditure. No new budget authority is requested for FY 2018.

4180 Budget authority, net (total)	70,000
4190 Outlays, net (total)	70,000

For 2016, Section 31202 of Public Law 114-94, Fixing America's Surface Transportation (FAST) Act, authorized additional appropriations from the General Fund of the Treasury to the Highway Account and Mass Transit Account of the Highway Trust Fund in the amounts of \$51.9 billion and \$18.1 billion, respectively. This payment was not subject to sequestration,

per OMB A-11 Section 100.15, because the budgetary resources were enacted after the *Joint Committee Reductions for Fiscal Year 2016* was signed.

The Office of the Secretary of Transportation (OST) received appropriations totaling \$1,127 million for TIGER discretionary grants as part of the 2010 and 2011 Department of Transportation (DOT) appropriations acts. The appropriations authorized DOT to pay subsidy and administrative costs, not to exceed \$300 million, of projects eligible for Federal credit assistance under Chapter 6 of Title 23 United States Code. In 2012, \$45 million was provided for TIGER discretionary grants as part of the 2012 DOT appropriation act to pay subsidy and administrative costs.

In 2010, the Congress appropriated \$650 million for the restoration, repair, and construction of highway infrastructure, and other activities eligible under paragraph (b) of section 133 of title 23, United States Code. The authority for this appropriation is Division A, Title I of P.L. 111-117 (Consolidated Appropriations Act, 2010), Section 122 and was available through FY 2012.

No further appropriations are requested in FY 2018.

The Federal-Aid Highway Act of 1968 authorized the establishment of a right-of-way revolving fund. This fund was used to make cash advances to States for the purpose of purchasing right-of-way parcels in advance of highway construction and thereby preventing the inflation of land prices from significantly increasing construction costs. The purchase of right-of-way is an eligible expense of the Federal-Aid Highway program.

This program was terminated by the Transportation Equity Act for the 21st Century of 1998, but will continue to be shown for reporting purposes as loan balances remain outstanding. No new budgetary resources are requested in FY 2018.

The Highway Revenue Act of 1956, as amended, provides for the transfer from the General Fund to the Highway Trust Fund of revenue from the motor fuel tax and certain other taxes paid by highway users. The Secretary of the Treasury estimates the amounts to be transferred. In turn, appropriations are authorized from this fund to meet expenditures for Federal-aid highways and other programs as specified by law. To address long-standing insolvency issues, the 2018 Budget proposes to show a reduction of outlays to only those that can be supported by available revenues over the ten-year window.

The following Status of Funds table presents the status of Highway Trust Fund.

Cash balances.—The Status of Funds table begins with the unexpended balance on a "cash basis" at the start of the year. The table shows the amount of cash invested in Federal securities at par value and the amount of cash on hand, i.e., uninvested balance. Next, the table provides the amounts of cash income and cash outlays during each year to show the cash balance at the end of each year.

Revenues.—The Budget presentation includes estimated receipts from existing Highway Trust Fund excise taxes, which would continue to be deposited into the Highway and Mass Transit Accounts of the Highway Trust Fund in the same manner as current law.

General Fund Transfers.—The Moving Ahead for Progress in the 21st Century Act (Public Law 112–141) authorized transfers into the Highway Trust Fund of \$2.4 billion from the Leaking Underground Storage Tank (LUST) Trust Fund in 2012, \$6.2 billion from the General Fund in 2013, and \$12.6 billion from the General Fund in 2014. The Highway and Transportation Funding Act of 2014 (Public Law 113–159) authorized transfers into the Highway Trust Fund of \$1.0 billion from the LUST Trust Fund in FY 2014, and \$9.8 billion from the General Fund in 2014. The Surface Transportation and Veterans Health Care Choice Improvement Act of 2015 (Public Law 114–41) authorized the transfer into the Highway Trust Fund of \$8.068 billion from the General Fund of the Treasury in 2015. This transfer was not subject to sequestration. The Fixing America's Surface Transportation (FAST) Act (Public Law 114–94) authorized the transfer into the Highway Trust Fund of \$70.0 billion from the General Fund of the Treasury in 2016. This transfer was not subject to sequestration. The FAST Act authorized the transfer of \$100 million into the Highway Trust Fund from the LUST Trust Fund in both FY 2017 and FY 2018. The FY 2017 transfer was subject to sequestration.

FEDERAL-AID HIGHWAYS

LIMITATION ON ADMINISTRATIVE EXPENSES

(HIGHWAY TRUST FUND)

Not to exceed \$442,691,925, together with advances and reimbursements received by the Federal Highway Administration, shall be obligated for necessary expenses for administration and operation of the Federal Highway Administration in accordance with section 104(a) of title 23, United States Code.

Note.—A full-year 2017 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Further Continuing Appropriations Act, 2017 (P.L. 114–254). The amounts included for 2017 reflect the annualized level provided by the continuing resolution.

(LIMITATION ON OBLIGATIONS)

(HIGHWAY TRUST FUND)

Funds available for the implementation or execution of Federal-aid highway and highway safety construction programs authorized under titles 23 and 49, United States Code, and the provisions of the Fixing America's Surface Transportation Act shall not exceed total obligations of \$44,234,212,000 for fiscal year 2018: Provided, That the Secretary may collect and spend fees, as authorized by title 23, United States Code, to cover the costs of services of expert firms, including counsel, in the field of municipal and project finance to assist in the underwriting and servicing of Federal credit instruments and all or a portion of the costs to the Federal Government of servicing such credit instruments: Provided further, That such fees are available until expended to pay for such costs: Provided further, That such amounts are in addition to administrative expenses that are also available for such purpose, and are not subject to any obligation limitation or the limitation on administrative expenses under section 608 of title 23, United States Code.

Note.—A full-year 2017 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Further Continuing

ing Appropriations Act, 2017 (P.L. 114–254). The amounts included for 2017 reflect the annualized level provided by the continuing resolution.

(LIQUIDATION OF CONTRACT AUTHORIZATION)

(HIGHWAY TRUST FUND)

For the payment of obligations incurred in carrying out Federal-aid highway and highway safety construction programs authorized under title 23, United States Code, \$44,973,212,000 derived from the Highway Trust Fund (other than the Mass Transit Account), to remain available until expended.

Note.—A full-year 2017 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Further Continuing Appropriations Act, 2017 (P.L. 114–254). The amounts included for 2017 reflect the annualized level provided by the continuing resolution.

3590 Outlays from new authority	5	7	8

The Federal-aid Highways (FAH) program is designed to aid in the development, operations, and management of an intermodal transportation system that is economically efficient, environmentally sound, provides the foundation for the Nation to compete in the global economy, and moves people and goods safely. All programs included within FAH are proposed to be financed from the Highway Account of the Highway Trust Fund, and most are distributed via apportionments and allocations to States. Liquidating cash appropriations are subsequently requested to fund outlays resulting from obligations incurred under contract authority.

FEDERAL-AID HIGHWAYS—Continued

The Federal Highway Administration's (FHWA) 2018 budget consists of the following programs: Highway Safety Improvement Program; National Highway Freight Program; National Highway Performance Program; Surface Transportation Block Grant Program; Congestion Mitigation and Air Quality Improvement Program; Metropolitan Transportation Planning Program; Federal Lands and Tribal Transportation Programs; Nationally Significant Freight and Highway Projects; Transportation Infrastructure Finance and Innovation Act (TIFIA) Program; Research, Technology and Education Program; and Federal Allocation Programs.

Highway Safety Improvement Program.—The performance-based Highway Safety Improvement Program (\$2.6 billion) provides funding to significantly reduce traffic fatalities and serious injuries on all public roads, including non-State-owned public roads and roads on Tribal land. FHWA, through national leadership and innovation, focuses on improving the safety of roadway infrastructure on all public roads. The program provides a data- and performance-driven strategic approach to improving traffic safety to reduce fatalities and serious injuries. It strengthens coordination among all highway safety modes, including National Highway Traffic Safety Administration (NHTSA) and Federal Motor Carrier Safety Administration (FMCSA), in conjunction with all Department safety initiatives. It continues the requirement that each State utilize a Strategic Highway Safety Plan. This statewide, coordinated safety plan provides a comprehensive framework for establishing statewide goals, objectives, and performance targets while ensuring the effective use of safety-focused funding. The Highway Safety Improvement Program includes a \$235 million targeted set-aside, the Railway-Highway Crossings Program, to fund safety improvements to reduce the number of fatalities, injuries, and crashes at public grade crossings.

National Highway Freight Program.—The National Highway Freight Program (\$1.2 billion), is a formula program established by the FAST Act that will provide States with necessary funds for vital projects that will improve the movement of freight on the National Highway Freight Network, which is comprised of the 41,500-mile Primary Highway Freight System, all other Interstates not on the PHFS, and other State-identified critical rural and urban corridors. The FAST Act requires all States using formula dollars to complete a multimodal State Freight Plan.

National Highway Performance Program.—The National Highway Performance Program (\$23.3 billion) is a formula-based program that focuses significant Federal resources for the following purposes: to support the condition and performance of the National Highway System (NHS); to support the construction of new facilities on the NHS; and to ensure that investments of Federal-aid funds in highway construction support progress toward the achievement of performance targets for the NHS. The program includes performance management features, holds States accountable for achieving performance targets, and provides flexibility to States for making transportation investment decisions. The 220,000-mile NHS is comprised of rural and urban roads serving major population centers, international border crossings, intermodal transportation facilities, and major travel destinations. The NHS includes the Interstate System, all principal arterials, intermodal connectors, and other roads important to mobility, commerce, national defense, and intermodal connectivity. The NHS provides mobility to the vast majority of the Nation's population and almost all of its commerce, supports national defense, and promotes intermodal connectivity.

Surface Transportation Block Grant Program.—The Surface Transportation Block Grant Program (\$11.7 billion) provides flexible funding that may be used by States and localities for projects to preserve and improve the condition and performance on any Federal-aid highway, bridge and safety projects on any public road, and facilities for non-motorized transportation. The flexible nature of this program allows States to direct funding to areas of greatest need while also fostering innovation. This program gives State transportation agencies the ability to target funding to State and local priorities. States will identify projects for funding in consultation

with local transportation officials in rural areas and in cooperation with the Metropolitan Planning Organization (MPO) in metropolitan areas.

Congestion Mitigation and Air Quality Improvement Program.—The Congestion Mitigation and Air Quality (CMAQ) Improvement Program (\$2.4 billion) will help States, local governments, and private-sector sponsors reduce highway congestion and harmful emissions, and assist many areas in reaching attainment of the National Ambient Air Quality Standards (NAAQS). The CMAQ program provides a flexible funding source for State and local governments to fund transportation projects and programs that are designed to help localities meet the requirements of the Clean Air Act and its amendments, and help reduce regional congestion on transportation networks. CMAQ investments support transportation projects that are designed to reduce the emissions from mobile sources in areas that have been designated as in nonattainment or in maintenance of the NAAQS by the Environmental Protection Agency.

Metropolitan Transportation Planning Program.—The Metropolitan Transportation Planning Program (\$343 million) provides funds for use by Metropolitan Planning Organizations (MPOs) for multimodal transportation planning and programming in metropolitan areas. Metropolitan planning activities include: the collection and analysis of data on demographics, trends, and system performance; travel demand and system performance forecasting; identification and prioritization of transportation system improvement needs; and coordination of the planning process and decision-making with the public, elected officials, and stakeholder groups. The planning process will provide consideration for projects that increase safety, support economic vitality, increase accessibility, mobility, and connectivity, protect and enhance the environment, emphasize the preservation of existing infrastructure, and increase security of the transportation system.

Federal Lands and Tribal Transportation Programs.—The Federal Lands and Tribal Transportation Programs (\$1.1 billion) provide funding for transportation projects on Federal and Tribal lands for construction and engineering projects that will: provide multi-modal access to basic community services including safer all-weather access to schools and healthcare facilities for 567 federally-recognized sovereign Tribal governments; improve multi-modal access to recreational areas on federal lands; and expand economic development in and around federal and Tribal lands while preserving the environment and reducing congestion.

Nationally Significant Freight and Highway Projects.—The Nationally Significant Freight and Highway Projects (\$900 million) program is a discretionary grant program, established by the FAST Act, for major freight and highway projects that will improve the safety, efficiency, and reliability of the movement of freight and people. Through the advancement of construction-ready projects, this program will enhance the Nation's freight movement.

Transportation Infrastructure Finance and Innovation Act (TIFIA) Program.—The TIFIA Program (\$285 million) provides contract authority to cover the subsidy cost of providing credit assistance for nationally or regionally significant transportation projects. The TIFIA Program leverages Federal dollars in a time of scarce budgetary resources, facilitating private participation in transportation projects and encouraging innovative financing mechanisms that help advance projects sooner. This program offers flexible repayment terms and attracts private capital to facilitate transportation projects that would otherwise go unfunded.

Research, Technology, and Education Program.—The Research, Technology, and Education (RT&E) Program (\$418 million) provides for a comprehensive, nationally-coordinated research, technology, and education program that will advance the Department of Transportation's goals, while accelerating innovation delivery and technology implementation. FHWA research, development and technology activities include: a highway research and development program; a technology and innovation deployment program; an intelligent transportation systems program; and a training and education program. The RT&E Program supports activities in the areas of safety, infrastructure preservation, operations, environmental sustainability,

and policy. FHWA is in a unique leadership position to identify and address issues that require high-risk, long-term research, and research on emerging issues of national significance. FHWA's leadership role is necessary to build effective partnerships to maximize the investment in the transportation system. The entire innovation lifecycle is covered under the RT&E Program umbrella from agenda setting to the deployment of technologies and innovations.

Federal Allocation Programs.—This categorization consists of funding (\$404 million) for several important programs: Emergency Relief; Territorial and Puerto Rico Highway Program; Construction of Ferry Boats and Ferry Terminal Facilities; On-the-Job Training; Disadvantaged Business Enterprise; and Highway Use Tax Evasion Projects. The Emergency Relief Program has been funded through a recurring annual authorization of \$100 million since 1972. Emergency Relief funding assists Federal, State, Tribal, and local governments with the expense of repairing serious damage to Federal-aid, Tribal, and Federal Lands highways resulting from natural disasters or catastrophic failures. The Territorial and Puerto Rico Highway Program provides funding for critical highway programs in Puerto Rico and the four territories of American Samoa, the Commonwealth of the Northern Mariana Islands, Guam, and the United States Virgin Islands. The Construction of Ferry Boats and Ferry Terminal Facilities program provides funding for the construction of ferry boats and ferry terminal facilities which will improve connectivity between NHS segments, provide travel mode options, and reduce congestion. The On-the-Job Training program provides funding for developing, conducting, and administering surface transportation and technology training, including skill improvement programs and job readiness. The Disadvantaged Business Enterprise program provides funding for developing, conducting, and administering training and assistance programs to increase the proficiency of minority businesses to compete, on an equal basis, for contracts and subcontracts. The Highway Use Tax Evasion Projects program provides funding to the Internal Revenue Service, other Federal agencies, and the States to carry out intergovernmental enforcement efforts along with training and research to reduce evasion of payment of motor fuel and other highway use taxes, which are the principal sources for Federal and State highway funding.

The Miscellaneous Trust Funds account reflects work performed by the Federal Highway Administration (FHWA) on behalf of other entities.

Advances from state cooperating agencies and foreign governments.—Contributions are received from other entities in connection with cooperative engineering, survey, maintenance, and construction projects.

Advances from foreign governments for technical assistance.—FHWA provides technical assistance and acts as agent for the purchase of equipment and materials for carrying out highway programs in foreign countries.

Contributions for highway research programs.—Contributions are received from various sources in support of FHWA transportation research programs. The funds are used primarily in support of pooled-funds projects.

ADMINISTRATIVE PROVISIONS

SEC. 120. (a) For fiscal year 2018, the Secretary of Transportation shall—
(1) not distribute from the obligation limitation for Federal-aid highways—

(A) amounts authorized for administrative expenses and programs by section 104(a) of title 23, United States Code; and

(B) amounts authorized for the Bureau of Transportation Statistics;
(2) not distribute an amount from the obligation limitation for Federal-aid highways that is equal to the unobligated balance of amounts—

(A) made available from the Highway Trust Fund (other than the Mass Transit Account) for Federal-aid highway and highway safety construction programs for previous fiscal years the funds for which are allocated by the Secretary (or apportioned by the Secretary under sections 202 or 204 of title 23, United States Code); and

(B) for which obligation limitation was provided in a previous fiscal year;
(3) determine the proportion that—

(A) the obligation limitation for Federal-aid highways, less the aggregate of amounts not distributed under paragraphs (1) and (2) of this subsection; bears to

(B) the total of the sums authorized to be appropriated for the Federal-aid highway and highway safety construction programs (other than sums authorized to be appropriated for provisions of law described in paragraphs (1) through (11) of subsection (b) and sums authorized to be appropriated for section 119 of title 23, United States Code, equal to the amount referred to in subsection (b)(12) for such fiscal year), less the aggregate of the amounts not distributed under paragraphs (1) and (2) of this subsection;

(4) distribute the obligation limitation for Federal-aid highways, less the aggregate amounts not distributed under paragraphs (1) and (2), for each of the programs (other than programs to which paragraph (1) applies) that are allocated by the Secretary under the Fixing America's Surface Transportation Act and title 23, United States Code, or apportioned by the Secretary under sections 202 or 204 of that title, by multiplying—

(A) the proportion determined under paragraph (3); by

(B) the amounts authorized to be appropriated for each such program for such fiscal year; and

(5) distribute the obligation limitation for Federal-aid highways, less the aggregate amounts not distributed under paragraphs (1) and (2) and the amounts distributed under paragraph (4), for Federal-aid highway and highway safety construction programs that are apportioned by the Secretary under title 23, United States Code (other than the amounts apportioned for the National Highway Performance Program in section 119 of title 23, United States Code, that are exempt from the limitation under subsection (b)(12) and the amounts apportioned under sections 202 and 204 of that title) in the proportion that—

(A) amounts authorized to be appropriated for the programs that are apportioned under title 23, United States Code, to each State for such fiscal year; bears to

(B) the total of the amounts authorized to be appropriated for the programs that are apportioned under title 23, United States Code, to all States for such fiscal year.

(b) EXCEPTIONS FROM OBLIGATION LIMITATION.—The obligation limitation for Federal-aid highways shall not apply to obligations under or for—

(1) section 125 of title 23, United States Code;

(2) section 147 of the Surface Transportation Assistance Act of 1978 (23 U.S.C. 144 note; 92 Stat. 2714);

(3) section 9 of the Federal-Aid Highway Act of 1981 (95 Stat. 1701);

(4) subsections (b) and (j) of section 131 of the Surface Transportation Assistance Act of 1982 (96 Stat. 2119);

(5) subsections (b) and (c) of section 149 of the Surface Transportation and Uniform Relocation Assistance Act of 1987 (101 Stat. 198);

(6) sections 1103 through 1108 of the Intermodal Surface Transportation Efficiency Act of 1991 (105 Stat. 2027);

(7) section 157 of title 23, United States Code (as in effect on June 8, 1998);

(8) section 105 of title 23, United States Code (as in effect for fiscal years 1998 through 2004, but only in an amount equal to \$639,000,000 for each of those fiscal years);

(9) Federal-aid highway programs for which obligation authority was made available under the Transportation Equity Act for the 21st Century (112 Stat. 107) or subsequent Acts for multiple years or to remain available until expended, but only to the extent that the obligation authority has not lapsed or been used;

(10) section 105 of title 23, United States Code (as in effect for fiscal years 2005 through 2012, but only in an amount equal to \$639,000,000 for each of those fiscal years);

(11) section 1603 of SAFETEA-LU (23 U.S.C. 118 note; 119 Stat. 1248), to the extent that funds obligated in accordance with that section were not subject to a limitation on obligations at the time at which the funds were initially made available for obligation; and

(12) section 119 of title 23, United States Code (but, for each of fiscal years 2013 through 2018, only in an amount equal to \$639,000,000).

(c) **REDISTRIBUTION OF UNUSED OBLIGATION AUTHORITY.**—Notwithstanding subsection (a), the Secretary shall, after August 1 of such fiscal year—

(1) revise a distribution of the obligation limitation made available under subsection (a) if an amount distributed cannot be obligated during that fiscal year; and

(2) redistribute sufficient amounts to those States able to obligate amounts in addition to those previously distributed during that fiscal year, giving priority to those States having large unobligated balances of funds apportioned under sections 144 (as in effect on the day before the date of enactment of Public Law 112–141) and 104 of title 23, United States Code.

(d) **APPLICABILITY OF OBLIGATION LIMITATIONS TO TRANSPORTATION RESEARCH PROGRAMS.**—

(1) **IN GENERAL.**—Except as provided in paragraph (2), the obligation limitation for Federal-aid highways shall apply to contract authority for transportation research programs carried out under—

(A) chapter 5 of title 23, United States Code; and

(B) title VI of the Fixing America's Surface Transportation Act.

(2) **EXCEPTION.**—Obligation authority made available under paragraph (1) shall—

(A) remain available for a period of 4 fiscal years; and

(B) be in addition to the amount of any limitation imposed on obligations for Federal-aid highway and highway safety construction programs for future fiscal years.

(e) **REDISTRIBUTION OF CERTAIN AUTHORIZED FUNDS.**—

(1) **IN GENERAL.**—Not later than 30 days after the date of distribution of obligation limitation under subsection (a), the Secretary shall distribute to the States any funds (excluding funds authorized for the program under section 202 of title 23, United States Code) that—

(A) are authorized to be appropriated for such fiscal year for Federal-aid highway programs; and

(B) the Secretary determines will not be allocated to the States (or will not be apportioned to the States under section 204 of title 23, United States Code), and will not be available for obligation, for such fiscal year because of the imposition of any obligation limitation for such fiscal year.

(2) **RATIO.**—Funds shall be distributed under paragraph (1) in the same proportion as the distribution of obligation authority under subsection (a)(5).

(3) **AVAILABILITY.**—Funds distributed to each State under paragraph (1) shall be available for any purpose described in section 133(b) of title 23, United States Code.

SEC. 121. Notwithstanding 31 U.S.C. 3302, funds received by the Bureau of Transportation Statistics from the sale of data products, for necessary expenses incurred pursuant to chapter 63 of title 49, United States Code, may be credited to the Federal-aid highways account for the purpose of reimbursing the Bureau for such expenses: Provided, That such funds shall be subject to the obligation limitation for Federal-aid highway and highway safety construction programs.

SEC. 122. Not less than 15 days prior to waiving, under his or her statutory authority, any Buy America requirement for Federal-aid highways projects, the Secretary of Transportation shall make an informal public notice and comment opportunity on the intent to issue such waiver and the reasons therefor: Provided, That the Secretary shall provide an annual report to the House and Senate Committees on Appropriations on any waivers granted under the Buy America requirements.

SEC. 123. None of the funds made available in this Act to the Department of Transportation may be used to provide credit assistance unless not less than 3 days before any application approval to provide credit assistance under sections 603 and 604 of title 23, United States Code, the Secretary of Transportation provides notification in writing to the following committees: the House and Senate Committees on Appropriations; the Committee on Environment and Public Works and the Committee on Banking, Housing and Urban Affairs of the Senate; and the Committee on Transportation and Infrastructure of the House of Representatives: Provided, That such notification shall include, but not be limited to, the name of the project sponsor; a description of the project; whether credit assistance will be provided as a direct loan, loan guarantee, or line of credit; and the amount of credit assistance.

SEC. 124. (a) A State or territory, as defined in section 165 of title 23, United States Code, may use for any project eligible under section 133(b) of title 23 or section 165 of title 23 and located within the boundary of the State or territory any earmarked amount, and any associated obligation limitation, provided that the Department of Transportation for the State or territory for which the earmarked amount was originally designated or directed notifies the Secretary of Transportation of its intent to use its authority under this section and submits a quarterly report to the Secretary identifying the projects to which the funding would be applied. Notwithstanding the

original period of availability of funds to be obligated under this section, such funds and associated obligation limitation shall remain available for obligation for a period of 3 fiscal years after the fiscal year in which the Secretary of Transportation is notified. The Federal share of the cost of a project carried out with funds made available under this section shall be the same as associated with the earmark.

(b) In this section, the term "earmarked amount" means—

(1) congressionally directed spending, as defined in rule XLIV of the Standing Rules of the Senate, identified in a prior law, report, or joint explanatory statement, which was authorized to be appropriated or appropriated more than 10 fiscal years prior to the current fiscal year, and administered by the Federal Highway Administration; or

(2) a congressional earmark, as defined in rule XXI of the Rules of the House of Representatives identified in a prior law, report, or joint explanatory statement, which was authorized to be appropriated or appropriated more than 10 fiscal years prior to the current fiscal year, and administered by the Federal Highway Administration.

(c) The authority under subsection (a) may be exercised only for those projects or activities that have obligated less than 10 percent of the amount made available for obligation as of October 1 of the current fiscal year, and shall be applied to projects within the same general geographic area within 50 miles for which the funding was designated, except that a State or territory may apply such authority to unexpended balances of funds from projects or activities the State or territory certifies have been closed and for which payments have been made under a final voucher.

(d) The Secretary shall submit consolidated reports of the information provided by the States and territories each quarter to the House and Senate Committees on Appropriations.

FEDERAL MOTOR CARRIER SAFETY ADMINISTRATION

The Federal Motor Carrier Safety Administration (FMCSA) was established within the Department of Transportation by the Motor Carrier Safety Improvement Act of 1999 (P.L. 106–159). Prior to this legislation, motor carrier safety responsibilities were under the jurisdiction of the Federal Highway Administration.

FMCSA's mission is to promote safe commercial motor vehicle operation and reduce truck and bus crashes. The agency accomplishes this mission by reducing fatalities and property losses associated with commercial motor vehicles through education, regulation, enforcement, and research and innovative technology, thereby achieving a safer and more secure transportation environment. FMCSA is also responsible for enforcing Federal motor carrier safety and hazardous materials regulations for all commercial vehicles entering the United States along its southern and northern borders.

Motor Carrier Safety Grants support States to conduct compliance reviews, identify and apprehend traffic violators, conduct roadside inspections, and support safety audits on new entrant carriers. Using take-down funds, the Federal Motor Carrier Safety Administration (FMCSA) also supports States by conducting training for State agency personnel to accomplish motor carrier safety objectives. In addition, FMCSA reviews State commercial driver's license (CDL) oversight activities to prevent unqualified drivers from being issued CDLs, and actively engages with industry and other stakeholders through Innovative Technology programs to improve the safety and productivity of commercial vehicles and drivers. The Motor Carriers Safety Grants account maintains the Agency's individual grants under the Compliance, Safety and Accountability Program.

MOTOR CARRIER SAFETY OPERATIONS AND PROGRAMS

(LIQUIDATION OF CONTRACT AUTHORIZATION)

(LIMITATION ON OBLIGATIONS)

(HIGHWAY TRUST FUND)

For payment of obligations incurred in the implementation, execution and administration of motor carrier safety operations and programs pursuant to section 31110 of title 49, United States Code, as amended by the Fixing America's Surface Transportation Act, \$283,000,000, to be derived from the Highway Trust Fund (other than the Mass Transit Account), together with advances and reimbursements received by the Federal Motor Carrier Safety Administration, the sum of which shall remain available until expended: Provided, That funds available for implementation, execution or administration of motor carrier safety operations and programs authorized under title 49, United States Code, shall not exceed total obligations of \$283,000,000 for "Motor Carrier Safety Operations and Programs" for fiscal year 2018, of which \$9,073,000, to remain available for obligation until September 30, 2020, is for the research and technology program, and of which \$34,824,000, to remain available for obligation until September 30, 2020, is for information management.

Note.—A full-year 2017 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Further Continuing Appropriations Act, 2017 (P.L. 114-254). The Operations and Programs account provides the necessary resources to support program and administrative activities for motor carrier safety. The Federal Motor Carrier Safety Administration (FMCSA) will continue to improve safety and reduce severe and fatal commercial motor vehicles crashes by raising the bar to entry into the commercial motor vehicle industry, by requiring operators to maintain standards to remain in the industry, and by removing high-risk carriers, vehicles, drivers and service providers from operation. Funding supports nationwide motor carrier safety and consumer enforcement efforts, including the continuation of the Compliance, Safety and Accountability Program; regulation and enforcement of movers of household goods, and Federal safety enforcement activities at the borders to ensure that foreign-domiciled carriers entering the U.S. are in compliance with FMCSA Regulations. Resources are also provided to fund regulatory development and implementation, investment in research and technology, and safety outreach and education. The 2018 funding request reflects FMCSA's requirements to fund critical safety and operational facility improvements at border and domestic posts, fund important safety and safety mission support training for FMCSA staff, and to support the effective implementation of FMCSA's programs through the implementation of FMCSA's Program Integration Office.

NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION

The National Highway Traffic Safety Administration (NHTSA) is responsible for motor vehicle safety, highway safety behavioral programs, motor vehicle information, and automobile fuel economy programs. NHTSA is charged with reducing traffic crashes and deaths and injuries resulting from traffic crashes; establishing motor vehicle safety standards for motor vehicles and motor vehicle equipment in interstate commerce; carrying out needed safety research and development; and the operation of the National Driver Register.

The Vehicle Safety programs support activities to reduce highway fatalities, prevent injuries, and reduce their associated economic toll by research into, and implementation of, Federal motor vehicle safety standards. NHTSA's research areas include biomechanics, crash avoidance and mitigation technologies, and vehicle safety issues related to fuel efficiency and alternative fuels. NHTSA's Operation and Research programs fund a broad range of initiatives, including promulgation of Federal motor vehicle safety standards for motor vehicles and safety related equipment; automotive fuel economy standards required by the Energy Policy and Conservation Act, as amended by the Energy Independence and Security Act of 2007; international harmonization of vehicle standards; and consumer information on motor vehicle safety, including the New Car Assessment Program. NHTSA conducts compliance programs for motor vehicle safety and automotive fuel economy standards; investigations of safety-related motor vehicle defects; enforcement of Federal odometer law; support of enforcement of State odometer law; and safety recalls when warranted. Motor vehicle safety research and development supports NHTSA programs through the collection and analysis of crash data to identify safety problems, development of alternative solutions, and assessments of costs, benefits, and effectiveness. Research continues on standards and technologies to improve vehicle crashworthiness and crash avoidance, with emphasis on reducing crashes through vehicle-to-vehicle communication system and active safety technologies.

The 911 Grant Program was authorized by the Next Generation 911 Advancement Act of 2012, which allows eligible entities to utilize funds to implement and operate 911 services and to train public safety personnel. The program is funded by the Public Safety Trust Fund. The authority to expend these funds expires on September 30, 2022.

The Highway Safety Research and Development programs support research, demonstrations, technical assistance, and national leadership for

OPERATIONS AND RESEARCH—Continued

highway safety programs conducted by State and local governments, and various safety associations and organizations. These programs emphasize alcohol and drug countermeasures, driver and passenger occupant protection, traffic enforcement and justice services, emergency medical and trauma care systems, traffic records and licensing, State and community evaluation, motorcycle rider safety, pedestrian and bicycle safety, pupil transportation, young and older driver safety, and development of improved accident investigation procedures.

NHTSA will continue its efforts to further quantify the magnitude and nature of the emerging problem of distracted driving, assess the impact of distraction on driver behavior and driving performance, and inform public attitudes and opinions about distraction. In addition, NHTSA will continue to analyze the impact of product design on the potential for driver distraction, and assess how to effectively manage driver workload to reduce distraction.

NHTSA will continue to operate the National Driver Register's Problem Driver Pointer System, which helps to identify drivers who have been suspended for or convicted of serious traffic offenses, such as driving under the influence of alcohol or other drugs. Finally, NHTSA will improve its vital data collection and analysis which form the basis of its research, rulemaking, and performance measurement activities.

The National Highway Traffic Safety Administration (NHTSA) provides grants to States for activities related to the promotion of highway traffic safety. The Fixing America's Surface Transportation (FAST) Act provided multi-year surface transportation authorization legislation. For the 2018 Budget the agency is projected to receive \$597,629,000 for these grant programs. Under Section 402, the agency supports State highway safety programs, approved by the Secretary, which are designed to reduce traffic accidents and the resulting deaths, injuries and property damage. The agency will continue to implement and promote the use of performance measures and targets as a condition of approval in these programs and to ensure efficient and effective use of funds. NHTSA also will use dedicated funds from the program to support high visibility enforcement campaigns in the States that promote the use of seat belts and the reduction of drunk driving. Under Section 405, the agency will make grant awards to States that focus on specific national priority traffic safety areas aimed at reducing highway deaths and injuries. The agency will make grants to States that develop qualifying plans and complying laws in accordance with the statutory criteria. The focus areas under the grant program include occupant protection, state traffic safety information system improvements, impaired driving countermeasures, distracted driving, motorcyclist safety, state graduated driving licensing and non-motorized safety programs.

ADMINISTRATIVE PROVISIONS

SEC. 140. An additional \$130,000 shall be made available to the National Highway Traffic Safety Administration, out of the amount limited for section 402 of title 23, United States Code, to pay for travel and related expenses for State management reviews and to pay for core competency development training and related expenses for highway safety staff.

SEC. 141. The limitations on obligations for the programs of the National Highway Traffic Safety Administration set in this Act shall not apply to obligations for which obligation authority was made available in previous public laws but only to the extent that the obligation authority has not lapsed or been used.

SEC. 142. None of the funds made available by this Act may be used to obligate or award funds for the National Highway Traffic Safety Administration's National Roadside Survey.

SEC. 143. None of the funds made available by this Act may be used to mandate global positioning system (GPS) tracking in private passenger motor vehicles without providing full and appropriate consideration of privacy concerns under 5 U.S.C. chapter 5, subchapter II.

SAFETY AND OPERATIONS

For necessary expenses of the Federal Railroad Administration, not otherwise provided for, \$199,000,000, of which \$15,900,000 shall remain available until expended.

Note.—A full-year 2017 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Further Continuing Appropriations Act, 2017 (P.L. 114-254). The amounts included for 2017 reflect the annualized level provided by the continuing resolution.

For FY 2016, \$50 million was appropriated under the Railroad Safety Grants heading to be equally distributed to Railroad Safety Infrastructure Improvement Grants and Railroad Safety Technology Grants. The Fixing America's Surface Transportation (FAST) Act of 2015 (P.L. 114-94) repealed the Railroad Safety Infrastructure Improvement Grants program and did not authorize new funding for the Railroad Safety Technology Grants program. No new funds are requested for this account for FY 2018. FRA is requesting funding under the FAST Act authorized Consolidated Rail Infrastructure and Safety Improvements program, which largely encompasses the recipient and project eligibilities contained in the FY 2016 funded program.

RAILROAD RESEARCH AND DEVELOPMENT

For necessary expenses for railroad research and development, \$39,100,000, to remain available until expended.

Note.—A full-year 2017 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Further Continuing Appropriations Act, 2017 (P.L. 114-254). The amounts included for 2017 reflect the annualized level provided by the continuing resolution.

Funding requested in the Railroad Research and Development Program is focused on improving railroad safety. It provides scientific and engineering support for the Federal Railroad Administration's rail safety enforcement and rulemaking efforts. It also identifies and develops emerging technologies for the rail industry to adopt voluntarily. The outcomes of the research and development reduced accidents and incidents. In addition to improving safety, the program contributes significantly towards activities to achieve and maintain a state of good repair and promote job creation and economic growth.

The program focuses on the following areas of research:

Track Program.—Reducing derailments due to track related causes.

Rolling Stock Program.—Reducing derailments due to equipment failures, to minimize the consequences of derailments, and to minimize hazardous material releases.

Train Control and Communication.—Reducing train to train collisions and train collisions with objects on the line and at grade crossings.

Human Factors Program.—Reducing accidents caused by human error.

Railroad System Issues Program.—Prioritizing Research and Development projects on the basis of relevance to safety risk reduction and other DOT goals.

Funds are used to redevelop the Pennsylvania Station in New York City, which involves renovating the James A. Farley Post Office building as Moynihan Station. Funding for this project was included in the Grants to the National Railroad Passenger Corporation appropriation in 1995 through 1997, and the Northeast Corridor Improvement Program in 1998. In 2000, FRA received an advance appropriation of \$20 million for 2001, 2002, and 2003. In 2001, the Congress specified that the \$20 million advance appropriation for the Farley Building be used exclusively for fire and life safety initiatives. In FY 2016, \$40 million was transferred from the Federal Transit Administration's Hurricane Sandy funding into this account for

PENNSYLVANIA STATION REDEVELOPMENT PROJECT—Continued

risk reduction projects at Moynihan Station. No new funds are requested for this account in 2018.

The National Railroad Passenger Corporation (Amtrak) was established in 1970 through the Rail Passenger Service Act. Amtrak is operated and managed as a for-profit corporation. Amtrak is not an agency or instrument of the U.S. Government, although since the railroad's creation FRA has provided it annual grants for operating, capital, and debt service costs.

Prior to 2006, FRA received annual appropriations in this account for grants to Amtrak. However, several one-time appropriations or funding transfers since 2006 have been directed to this account, including \$1.3 billion in funds under the American Recovery and Reinvestment Act of 2009, \$112 million from the Disaster Relief Appropriations Act of FY 2013 (P.L. 113-2) for recovery efforts from Super storm Sandy, and a \$185 million transfer from the Federal Transit Administration for the Hudson Yards disaster resiliency project in New York City. No new funds are requested for this account in fiscal year 2018.

From 2006 to 2016, the Federal Railroad Administration received appropriations to this account to make quarterly grants to the National Railroad Passenger Corporation (Amtrak) for the operation of intercity passenger rail. The FAST Act authorized two new appropriations accounts for Amtrak—Northeast Corridor grants and National Network grants—which first received funding in Fiscal Year 2017. The Administration proposes to continue funding Amtrak under the new FAST Act account structure. No new funds are requested for this account in 2018.

The Fixing America's Surface Transportation Act authorized two new appropriations accounts for the National Railroad Passenger Corporation (Amtrak)—Northeast Corridor Grants and National Network Grants. Funding requested in the National Network Grants to the National Railroad Passenger Corporation account provide capital, operating, and debt service funding for Amtrak activities related to the National Network, which in-

cludes Amtrak's State-Supported services, Long Distance services, and other Amtrak costs not allocated to the Northeast Corridor. The fiscal year 2018 President's Budget proposes to terminate Federal funding for Amtrak's Long Distance services. Amtrak began receiving its annual appropriations from Congress under this account structure in fiscal year 2017.

NORTHEAST CORRIDOR GRANTS TO THE NATIONAL RAILROAD PASSENGER CORPORATION—Continued

The Fixing America's Surface Transportation Act authorized two new appropriations accounts for the National Railroad Passenger Corporation (Amtrak)—Northeast Corridor Grants and National Network Grants. Funding requested in the Northeast Corridor Grants to the National Railroad Passenger Corporation account provide capital, operating, and debt service funding for Amtrak activities related to the Northeast Corridor. Amtrak began receiving its annual appropriations from Congress under this account structure in 2017.

This competitive grant program encourages state participation in passenger rail service. Under this program, a State or States may apply for grants for up to 50 percent of the cost of capital investments necessary to support improved intercity passenger rail service that either requires no operating subsidy or for which the State or States agree to provide any needed operating subsidy. To qualify for funding, States must include intercity passenger rail service as an integral part of statewide transportation planning as required under 23 U.S.C. 135. Additionally, the specific project must be on the Statewide Transportation Improvement Plan at the time of application.

No new funds are requested for this account in fiscal year 2018.

Through this program, FRA provides capital grants to States to invest and improve intercity passenger rail service, including the development of new high-speed rail capacity. Activity in this account includes the \$8 billion provided by the American Recovery and Reinvestment Act of 2009 and an additional \$2.1 billion provided in subsequent enacted appropriations. No new funds are requested for this account for fiscal year 2018.

Prior to 2001, this program provided funds to continue the upgrade of passenger rail service in the corridor between Washington, District of Columbia, and Boston, Massachusetts. For 2016, \$19 million was provided for grants to Amtrak for shared use infrastructure on the Northeast Corridor identified in the Northeast Corridor Infrastructure and Operations Advisory Commission's 5 year capital plan. No new funds are requested for this account for 2018. FRA is requesting funding under the FAST Act authorized Federal-State Partnership for State of Good Repair program, which encompasses the intent of the FY 2016 program and expands eligibility to states and local governments.

4190 Outlays, net (total)	2	3	3

The Railroad Safety Technology Program is a competitive grant program for the deployment of train control technologies to passenger and freight rail carriers, railroad suppliers, and State and local governments. Projects may include the deployment of train control technologies, train control component technologies, processor-based technologies, electronically controlled pneumatic brakes, rail integrity inspection systems, rail integrity warning systems, switch position indicators and monitors, remote control power switch technologies, track integrity circuit technologies, and other new technologies that improve the safety of railroad systems.

FRA has given priority to projects that make technologies interoperable between railroad systems; accelerate the deployment of train control technology on high risk corridors, such as those that have high volumes of hazardous materials shipments, or over which commuter or passenger trains operate; or benefit both passenger and freight safety and efficiency.

No new funds are requested for this account for fiscal year 2018. The FAST Act did not authorize new funding for the Railroad Safety Technology Grants program. FRA is requesting funding under the FAST Act authorized Consolidated Rail Infrastructure and Safety Improvements program, which largely encompasses the recipient and project eligibilities contained in the Railroad Safety Technology Grants program.

FEDERAL-STATE PARTNERSHIP FOR STATE OF GOOD REPAIR

For necessary expenses related to Federal-State Partnership for State of Good Repair Grants as authorized by section 24911 of title 49, United States Code, \$25,945,000, to remain available until expended: Provided, That the Secretary may withhold up to one percent of the amount provided under this heading for the costs of award and project management oversight of grants carried out under section 24911 of title 49, United States Code.

Funding requested in the Federal-State Partnership for State of Good Repair account are intended to reduce the state of good repair backlog on publically-owned or Amtrak-owned infrastructure, equipment and facilities. Eligible activities include capital projects to (1) replace existing assets in-kind or with assets that increase capacity or service levels, (2) ensure that service can be maintained while existing assets are brought into a state of good repair, and (3) bring existing assets into a state of good repair. Eligible recipients include states, local governments and Amtrak. The program was authorized in 2015 by the Fixing America's Surface Transportation Act.

CONSOLIDATED RAIL INFRASTRUCTURE AND SAFETY IMPROVEMENTS

For necessary expenses related to Consolidated Rail Infrastructure and Safety Improvements Grants as authorized by section 24407 of title 49, United States Code, \$25,000,000, to remain available until expended: Provided, That the Secretary may withhold up to one percent of the amount provided under this heading for the costs of award and project management oversight of grants carried out under section 24407 of title 49, United States Code.

Funding requested in the Consolidated Rail Infrastructure and Safety Improvements account are intended to improve the safety, efficiency and reliability of passenger and freight rail systems. Eligible activities include a wide range of freight and passenger rail capital, planning, environmental analyses, research, workforce development and training projects. Eligible recipients include states, local governments, Class II and Class III railroads, Amtrak and other intercity passenger rail operators, rail carriers and equipment manufacturers that partner with an eligible public-sector applicant, the Transportation Research Board, University Transportation Centers, and non-profit rail labor organizations. The program was authorized in 2015 by the Fixing America's Surface Transportation Act.

RAILROAD REHABILITATION AND IMPROVEMENT FINANCING PROGRAM

The Secretary of Transportation is authorized to issue direct loans and loan guarantees pursuant to sections 501 through 504 of the Railroad Revitalization and Regulatory Reform Act of 1976 (Public Law 94-210), as amended, such authority to exist as long as any such direct loan or loan guarantee is outstanding.

Note.—A full-year 2017 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Further Continuing Appropriations Act, 2017 (P.L. 114-254). The amounts included for 2017 reflect the annualized level provided by the continuing resolution.

Summary of Loan Levels, Subsidy Budget Authority and Outlays by Program (in millions of dollars)

Identification code 069-0750-0-1-401	2016 actual	2017 est.	2018 est.
Direct loan levels supportable by subsidy budget authority:			
115001 Railroad Rehabilitation and Improvement Financing Direct Loans	2,469	600	600
Direct loan subsidy (in percent):			
132001 Railroad Rehabilitation and Improvement Financing Direct Loans	0.00	0.00	0.00
Direct loan subsidy outlays:			
134001 Railroad Rehabilitation and Improvement Financing Direct Loans	-3
Direct loan reestimates:			
135001 Railroad Rehabilitation and Improvement Financing Direct Loans	-7	-6

The Transportation Equity Act of the 21st Century of 1998 established the Railroad Rehabilitation and Improvement Financing (RRIF) loan and loan guarantee program. The Safe, Accountable, Flexible, Efficient Transportation Equity Act of 2005: A Legacy for Users, changed the program to allow FRA to issue direct loan and loan guarantees up to \$35,000,000,000, and it required that no less than \$7,000,000,000 be reserved for projects primarily benefiting freight railroads other than Class I carriers. The program was expanded by the Rail Safety Improvement Act of 2008 and again by the Fixing America's Surface Transportation Act in 2015. The funding may be used: (1) to acquire, improve, or rehabilitate intermodal or rail equipment or facilities, including track, components of track, bridges, yards, buildings, or shops; (2) to refinance debt; or (3) to develop and establish new intermodal or railroad facilities, (4) to reimburse

related planning and design expenses; (5) and to finance (by December 2019) certain economic development related to passenger rail stations. For 2016, \$1.96 million was made available to assist Class II and Class III railroads in covering RRIF loan application expenses. No new funds are requested for this account for fiscal year 2018.

ADMINISTRATIVE PROVISIONS

SEC. 150. None of the funds provided to the National Railroad Passenger Corporation may be used to fund any overtime costs in excess of \$35,000 for any individual employee: Provided, That the President of Amtrak may waive the cap set in the previous proviso for specific employees when the President of Amtrak determines such a cap poses a risk to the safety and operational efficiency of the system: Provided further, That the President of Amtrak shall report to the House and Senate Committees on Appropriations each quarter of the calendar year on waivers granted to employees and amounts paid above the cap for each month within such quarter and delineate the reasons each waiver was granted: Provided further, That the President of Amtrak shall report to the House and Senate Committees on Appropriations by March 1, 2018, a summary of all overtime payments incurred by the Corporation for 2017 and the three prior calendar years: Provided further, That such summary shall include the total number of employees that received waivers and the total overtime payments the Corporation paid to those employees receiving waivers for each month for 2017 and for the three prior calendar years.

SEC. 151. Notwithstanding section 1302 of title 40, United States Code, the Federal Railroad Administration may lease to others or enter into contracts, for such consideration, and subject to such terms and conditions, as it determines to be in the best interests of the government, for a term of up to 20 years for the continued operation and maintenance and capital reinvestment of the Transportation Technology Center near Pueblo, Colorado.

FEDERAL TRANSIT ADMINISTRATION

The Federal Transit Administration (FTA) provides grant funding to State and local governments, public and private transit operators and other recipients to enhance public transportation across the United States. FTA programs fund the construction of new public transit systems, purchase and maintain transit vehicles and equipment, subsidize limited public transit operations, support regional transportation planning efforts, and improve technology and service methods critical to the delivery of public transportation. In 2015, a new five year surface transportation authorization law was enacted—Fixing America's Surface Transportation Act or the FAST

Act. The FAST Act provides steady and predictable funding for five years and a renewed focus on reinvesting in and modernizing transit assets to help bring transit systems throughout the country into a state of good repair.

FTA's budget proposal builds on the successes of the previous authorization of MAP-21 and includes new features in the FAST Act. The account structure is generally comparable to FTA's funding under MAP-21, except where Congress consolidated programs in other accounts and moved them into the Transit Formula Grants account. The Administration proposes \$11.2 billion for FTA in 2018. This proposal includes \$9.7 billion to support FTA's base formula programs that provide assistance to transit agencies in both urban and rural areas, with an additional investment in programs improving the state of good repair of rail transit and recapitalizing bus and bus facilities through a new discretionary grant program. The Administration proposes \$1.2 billion in new budget authority for Capital Investment Grants, to support new fixed guideway investments as well as projects aimed at improving or restoring the core capacity of existing fixed guideway systems.

The table below presents actual funding enacted for 2016, 2017 annualized CR, and the requested 2018 funding. Additional detail is provided in the program budget schedules that follow.

[In millions of dollars]			
	2016 Actual	2017 Annualized CR	2018 Request

The Federal Transit Administration's (FTA) Administrative Expenses appropriation provides resources for salaries, benefits, and administrative expenses for 501 full-time equivalents employees (FTEs) to carry out the Agency's stewardship of over \$11.2. billion in Federal funds. Priorities for the 2018 Administrative Expenses appropriation include enhancement of the Office of Safety and Oversight's workforce to strengthen and expand the framework of the robust State Safety Oversight Program and Safety for all modes of transit, including Accident Investigation Oversight; the implementation of the FAST Act to include required rulemakings, policy updates, and strategic planning; the provision of technical assistance to grantees during project development and program implementation; Capital Project Management Oversight and grantee compliance; and support for Transit Asset Management activities, which includes developing objective standards to measure capital asset condition and collecting data on the asset condition of the FTA grantees.

Activities have not been funded in the Job Access and Reverse Commute Grants account since 2005. In 2016, the unobligated balance remaining in this account was permanently rescinded. Urbanized Area formula grants may be used to support job access and reverse commute projects in 2018.

GRANTS TO WASHINGTON METROPOLITAN AREA TRANSIT AUTHORITY

For grants to the Washington Metropolitan Area Transit Authority as authorized under section 601 of division B of Public Law 110-432 (122 Stat. 4847), \$149,714,850, to remain available until expended: Provided, That the Secretary of Transportation shall approve grants for capital and preventive maintenance expenditures for the Washington Metropolitan Area Transit Authority only after receiving and reviewing a request for each specific project: Provided further, That prior to approving such grants, the Secretary shall certify that the Washington Metropolitan Area Transit Authority is making progress to improve its safety management system in response to the Federal Transit Administration's 2015 safety management inspection: Provided further, That prior to approving such grants, the Secretary shall certify that the Washington Metropolitan Area Transit Authority is making progress toward full implementation of the corrective actions identified in the 2014 Financial Management Oversight Review Report: Provided further, That the Secretary shall determine that the Washington Metropolitan Area Transit Authority has placed the highest priority on those investments that will improve the safety of the system before approving such grants: Provided further, That the Secretary, in order to ensure safety throughout the rail system, may waive the requirements of section 601(e)(1) of division B of Public Law 110-432.

Note.—A full-year 2017 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Further Continuing Appropriations Act, 2017 (P.L. 114-254). The amounts included for 2017 reflect the annualized level provided by the continuing resolution.

GRANTS TO WASHINGTON METROPOLITAN AREA TRANSIT AUTHORITY—Continued

The Federal Rail Safety Improvements Act, 2008, (P.L. 110–432, Title VI, Sec. 601), provided authorization for capital and preventive maintenance projects for the Washington Metropolitan Area Transit Authority (WMATA). Funding will help WMATA address its reinvestment and maintenance backlog to improve the safety and reliability of service and to expand existing system capacity to meet growing demand. The Secretary of Transportation shall approve grants for Capital and preventive maintenance expenditures for WMATA only after receiving and reviewing a request for each specific project. The Secretary shall determine that WMATA has placed the highest priority on those investments that will improve the safety of the system before approving such grants. The Secretary in order to ensure safety throughout the rail system, may waive the requirements of section 601(e) (1) of title VI of Public Law 110–432 (112 Stat. 4968).

Initiated within the American Recovery & Reinvestment Act (ARRA) of 2009, this program provided grants to public transit agencies for capital investments to reduce the energy consumption or greenhouse gas emissions of their public transportation operations. Activities have not been funded in this account since 2011. This schedule shows the obligations and outlays of funding made available for this program in fiscal years prior to 2012. In 2018, projects to increase energy efficiency and decrease greenhouse gas emissions can be funded with Urbanized Area Formula grants and Rural Area Formula grants.

CAPITAL INVESTMENT GRANTS

For necessary expenses to carry out 49 U.S.C. 5309, \$1,232,000,000, to remain available until expended.

Note.—A full-year 2017 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Further Continuing Appropriations Act, 2017 (P.L. 114–254). The amounts included for 2017 reflect the annualized level provided by the continuing resolution.

The 2018 Budget request includes \$1.2 billion for the Capital Investment Grants account to increase the capacity of local transit networks and to meet ridership demands in communities across the nation. These objectives of this program are accomplished by supporting the construction of new fixed guideway systems or extensions to fixed guideways, corridor-based bus rapid transit systems, and core capacity improvement projects. These projects include heavy rail, light rail, commuter rail, bus rapid transit, ferries, and streetcar systems. FTA allocates resources to grantees through a multi-year, multi-step competitive process. Prior to funding, each project is required to obtain an acceptable rating under a set of statutorily defined criteria that examine project merit and local financial commitment.

The Public Transportation Emergency Relief Program helps transit agencies restore needed transportation services immediately following disaster events. Both capital and operating costs are eligible for funding following an emergency; however, this program does not replace the Federal Emergency Management Agency's capital assistance program. FTA administers the \$10.9 billion supplemental appropriation (adjusted to \$10.2 billion after sequestration and the transfer of funds to the Office of the In-

PUBLIC TRANSPORTATION EMERGENCY RELIEF PROGRAM—Continued
spectator General and the Federal Railroad Administration) provided by the Disaster Relief Appropriations Act, 2013 (Public Law 113–2) following Hurricane Sandy through this account. The Hurricane Sandy funds are only available for emergency relief, recovery and resiliency projects in the areas impacted by Hurricane Sandy. No funds are requested in this account for 2018.

Beginning in Fiscal Year 2016 activities under this account are carried out under the Transit Formula Grants account of the Highway Trust Fund. The Technical Assistance and Standard Development program enables FTA to provide technical assistance to the public transportation industry and to develop standards for transit service provision, with an emphasis on improving access for all individuals and transportation equity. Through this program, FTA is able to assist grantees to more effectively and effi-

ciently provide public transportation and administer Federal funding in compliance with the law.

The American Recovery and Reinvestment Act of 2009 provided \$6.9 billion to fund transit capital assistance to create jobs to bolster the American economy. Transit capital assistance was provided through urbanized area formula grants, non-urbanized area formula grants, and discretionary Tribal Transit grants. Funds were used for eligible capital projects, preventive maintenance, and to purchase buses and rail rolling stock. Funds were also used for a new discretionary grant program, Transportation Investments in Greenhouse Gas and Energy Reduction, to increase the use of environmentally sustainable operations in the public transportation sector. This schedule shows the obligation and outlay of remaining amounts made available for administration and oversight of these formula apportionments and discretionary grant awards and the associated capital and preventive maintenance projects and vehicle procurements.

FTA's 2018 budget request builds upon the successes of the previous authorization, MAP-21, which provided two years of stable funding for transit programs. The account structure is generally comparable to FTA's funding under MAP-21. The Transit Formula Grants account is funded from the Mass Transit Account of the Highway Trust Fund.

Transit Formula Grants funds can be used for transit capital purposes including bus and rail car purchases, facility repair and construction, as well as maintenance, and where eligible, planning and operating expenses. These funds help existing transit systems provide safe and reliable transportation options, and promote economically vibrant communities. The 2018 Budget request includes \$9.733 billion for Transit Formula Grants. The 2018 formula grant program structure includes:

Urbanized Area Formula.—\$4.727 billion. For formula grants to urbanized areas with populations of 50,000 or more. Funds may be used for any transit capital purpose. Operating costs continue to be eligible expenses for all urban areas under 200,000 in population; and, in certain circumstances, operating costs may be eligible expenses in urban areas with populations over 200,000. Additionally, Urbanized Area grants may be used to support Job Access and Reverse Commute activities.

State of Good Repair Grants.—\$2.594 billion. For a formula-based capital maintenance program to restore and replace aging transportation infrastructure through reinvestment in existing fixed guideway systems and buses on high occupancy vehicle (HOV) lanes.

Rural Area Formula.—\$646 million. For formula grants to provide funds for capital, planning and operating assistance grants for transit service implemented by States in rural areas with populations of less than 50,000. Funding may also be used to support intercity bus service. Additionally, Rural Area grants may be used to support Job Access and Reverse Commute activities. Within this amount, \$30 million in formula funds and \$5 million in discretionary grant funds will support the Public Transportation on Indian Reservations program and \$20 million will support the Appalachian Development Public Transportation Assistance Formula Program.

TRANSIT FORMULA GRANTS—Continued

Growing States and High Density States.—\$553 million. For funds that are divided between the Urban and Rural Area programs based on the legislative funding formula for this program.

Enhanced Mobility of Seniors and Individuals with Disabilities.—\$274 million. Supports local governments and public and private transportation providers that serve special needs of these specific transit-dependent populations beyond traditional public transportation services, including complementary paratransit service.

Bus and Bus Facilities Grants.—\$747 million. For formula funding and discretionary funding to replace, rehabilitate, and purchase buses and related equipment, and to construct bus-related facilities States may use these funds to supplement Urbanized Area and Rural Area formula grant programs. Funding also supports low and zero emission bus and bus facilities.

Bus Testing Facility.—\$3 million. Funding supports a facility where all new bus models purchased using FTA capital assistance will be tested for compliance with performance standards for safety, structural integrity, reliability, performance (including braking performance) maintainability, emissions, noise and fuel economy. FTA must develop a Pass/Fail rating system for buses. FTA grantees will not be able use Federal funds to purchase buses that do not receive a "pass" rating.

Planning Programs.—\$136 million. Funding supports cooperative, continuous, and comprehensive transportation infrastructure investment planning. The program requires that all Metropolitan Planning Organizations (MPOs), and States, develop performance-driven, outcome-based transportation plans.

Transit Oriented Development Pilot.—\$10 million. This pilot program funds planning for projects that support transit-oriented development associated with new fixed-guideway and core capacity improvement projects.

National Transit Institute.—\$5 million. To fund projects that enable FTA to partner with higher education to develop and provide training and educational programs to transit employees and others engaged in providing public transit services.

National Transit Data Base (NTD).—\$4 million. For operation and maintenance of the NTD, a database of nationwide statistics on the transit industry, which FTA is legally required to maintain under 49 U.S.C. 5335(a)(1)(2). NTD data serves as the basis for FTA formula grant apportionments and is used to track the condition and performance of our Nation's transit infrastructure.

Public Transportation Innovation.—\$28 million. This program provides assistance for projects and activities to advance innovative public transportation research, demonstration, deployment and development and testing, evaluating and analyzing low or no emission vehicle components intended for use in low or no emission vehicles.

Technical Assistance and Workforce Development.—\$9 million. This program enables FTA to provide technical assistance to the public transportation industry and to develop standards for transit service provision, with an emphasis on improving access for all individuals and transportation equity. Through this program, FTA is able to assist grantees to more effectively and efficiently provide public transportation and administer federal funding in compliance with the law.

Pilot Program for Enhanced Mobility.—\$3 million. This pilot program assists in financing innovative projects for the transportation disadvantaged that improve the coordination of transportation services and non-emergency medical transportation services.

ADMINISTRATIVE PROVISIONS

SEC. 160. The limitations on obligations for the programs of the Federal Transit Administration shall not apply to any authority under 49 U.S.C. 5338, previously made available for obligation, or to any other authority previously made available for obligation.

SEC. 161. Notwithstanding any other provision of law, funds appropriated or limited by this Act under the heading "Fixed Guideway Capital Investment" of the Federal Transit Administration for projects specified in this Act or identified in reports accompanying this Act not obligated by September 30, 2021, and other recoveries, shall be directed to projects eligible to use the funds for the purposes for which they were originally provided.

SEC. 162. Notwithstanding any other provision of law, any funds appropriated before October 1, 2017, under any section of chapter 53 of title 49, United States Code, that remain available for expenditure, may be transferred to and administered under the most recent appropriation heading for any such section.

SAINT LAWRENCE SEAWAY DEVELOPMENT CORPORATION

Federal Funds

SAINT LAWRENCE SEAWAY DEVELOPMENT CORPORATION

The Saint Lawrence Seaway Development Corporation is hereby authorized to make such expenditures, within the limits of funds and borrowing authority available to the Corporation, and in accord with law, and to make such contracts and commitments without regard to fiscal year limitations as provided by section 104 of the Government Corporation Control Act, as amended, as may be necessary in carrying out the programs set forth in the Corporation's budget for the current fiscal year.

Note.—A full-year 2017 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Further Continuing Appropriations Act, 2017 (P.L. 114-254). The amounts included for 2017 reflect the annualized level provided by the continuing resolution.

The Saint Lawrence Seaway Development Corporation (SLSDC) is a wholly-owned U.S. Government corporation responsible for the operation, maintenance, and development of the U.S. portion of the St. Lawrence Seaway between Montreal and mid-Lake Erie. The SLSDC is also responsible for regional trade and economic development. The St. Lawrence Seaway is a binational waterway and lock transportation system for the efficient and economic movement of commercial cargoes to and from the Great Lakes Region of North America. The SLSDC works with its Canadian counterpart agency (the St. Lawrence Seaway Management Corporation) to ensure the reliability, safety, and security of the locks and waterway and the uninterrupted flow of maritime commerce through the system.

Appropriations from the Harbor Maintenance Trust Fund, and revenues from other non-Federal sources, are used to finance operational and capital asset renewal needs for the U.S. portion of the St. Lawrence Seaway.

Trust Funds

OPERATIONS AND MAINTENANCE

(HARBOR MAINTENANCE TRUST FUND)

For necessary expenses to conduct the operations, maintenance, and capital asset renewal activities of those portions of the St. Lawrence Seaway owned, operated, and maintained by the Saint Lawrence Seaway Development Corporation, \$28,346,012, to be derived from the Harbor Maintenance Trust Fund, pursuant to Public Law 99-662, of which \$9,500,000 for asset renewal activities shall remain available through September 30, 2019.

Note.—A full-year 2017 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Further Continuing Appropriations Act, 2017 (P.L. 114-254). The amounts included for 2017 reflect the annualized level provided by the continuing resolution.

The Pipeline and Hazardous Materials Safety Administration's (PHMSA) Hazardous Materials Safety program is responsible for advancing the flow of commerce and ensuring the safe transportation of hazardous materials. It relies on a comprehensive risk management program to ensure that resources are effectively applied to minimize fatalities and injuries; mitigate the consequences of incidents that occur; and enhance safety through policy and standards development, enforcement and outreach efforts.

The Pipeline and Hazardous Materials Safety Administration (PHMSA) is responsible for overseeing the safe movement of energy products and hazardous materials to market. The Pipeline Safety program oversees the complex network of more than 2.7 million miles of gas and hazardous liquid pipelines within the United States. PHMSA and a network of state staff set safety standards and conduct inspections to help operators deliver product to market uninterrupted by leaks or failures.

The Pipeline Safety program is funded by pipeline operators and a share of fees collected by the Oil Spill Liability Trust Fund.

Federal hazardous materials law (49 U.S.C. 5101 et seq.) established a national registration program for shippers and carriers of hazardous materials. The law established the collection of a fee from each registrant with the fees being used for emergency preparedness planning and training grants; development of training curriculum guidelines for emergency responders and technical assistance to states, political subdivisions, and Native American tribes; publication and distribution of the *Emergency Response Guidebook*; and administrative costs for operating the program.

The Oil Pollution Act of 1990 requires the preparation of spill response plans by operators that store, handle or transport oil to minimize the environmental impact of oil spills and to improve public and private sector response. The Pipeline and Hazardous Materials Safety Administration (PHMSA) reviews response plans submitted by operators of onshore oil pipelines to ensure the plans comply with PHMSA regulations. These plans also must be regularly updated by the operator and submitted for review by PHMSA. PHMSA also seeks to improve oil spill preparedness and response through data analysis, spill monitoring, mapping pipelines in areas unusually sensitive to environmental damage, and advanced technologies to detect and prevent leaks from hazardous liquid pipelines. These and related activities are funded in part by the Oil Spill Liability Trust Fund.

OFFICE OF INSPECTOR GENERAL

Federal Funds

SALARIES AND EXPENSES

For necessary expenses of the Office of the Inspector General to carry out the provisions of the Inspector General Act of 1978, as amended, \$87,305,716: Provided, That the Inspector General shall have all necessary authority, in carrying out the duties specified in the Inspector General Act, as amended (5 U.S.C. App. 3), to investigate allegations of fraud, including false statements to the government (18 U.S.C. 1001), by any person or entity that is subject to regulation by the Department of Transportation.

Note.—A full-year 2017 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Further Continuing Appropriations Act, 2017 (P.L. 114–254). The amounts included for 2017 reflect the annualized level provided by the continuing resolution.

The Department of Transportation (DOT) Inspector General conducts independent audits, investigations and evaluations to promote economy, efficiency and effectiveness in the management and administration of DOT programs and operations, including contracts, grants, and financial management; and to prevent and detect fraud, waste, abuse, and mismanagement in such activities. This appropriation provides funds to enable the Office of the Inspector General to perform these oversight responsibilities in accordance with the Inspector General Act of 1978, as Amended (5 U.S.C. App. 3).

The appropriation for Operations and Training provides funding for staff to administer and direct Maritime Administration operations and programs. Maritime Administration operations includes planning for coordination of U.S. maritime industry activities under emergency conditions; technology assessments calculated to achieve advancements in ship design, construction and operation; and port and intermodal development to increase capacity and mitigate congestion in freight movements.

Maritime training programs include the operation of the U.S. Merchant Marine Academy and financial assistance to the six State Maritime Academies. The Operations and Training Budget request of \$171.8 million includes \$84.4 million for the United States Merchant Marine Academy, \$27.4 million for the State Maritime Academies, and \$60 million for Maritime Operations and Programs.

The National Defense Authorization Act of 2006 authorized the Maritime Administration to make grants for capital and related improvements at eligible shipyard facilities that will foster efficiency, competitive operations, and quality ship construction, repair, and reconfiguration. Grant funds may also be used for maritime training programs to enhance technical skills and operational productivity in communities whose economies are related to or dependent upon the maritime industry.

No new funds are requested for 2018.

The Ship Disposal program provides resources to properly dispose of obsolete government-owned merchant ships maintained by the Maritime Administration in the National Defense Reserve Fleet. The Maritime Administration contracts with domestic shipbreaking firms to dismantle these vessels in accordance with guidelines set forth by the U.S. Environmental Protection Agency. In 2018, the Ship Disposal program requests \$9 million which includes \$6 million to support continued obsolete vessel disposal, and \$3 million for maintaining the N.S. Savannah in protective storage.

The Maritime Security Program provides direct payments to U.S. flag ship operators engaged in foreign commerce to partially offset the higher operating costs of U.S. registry. The purpose of the program is to establish and sustain a fleet of active ships that are privately owned, commercially viable, and militarily useful to meet national defense and other emergency sealift requirements. Participating operators are required to make their ships and commercial transportation resources available upon request by the Secretary of Defense during times of war or national emergency. Commercial transportation resources include ships, logistics management services, port terminal facilities, and U.S. citizen merchant mariners to crew both commercial and government-owned merchant ships. The Maritime Administration requests \$ 210 million for the Maritime Security program.

The Ready Reserve Force (RRF) fleet is comprised of government-owned merchant ships within the National Defense Reserve Fleet that are maintained in an advanced state of surge sealift readiness for the transport of cargo to a given area of operation to satisfy combatant commanders' critical war fighting requirements. Resources for RRF vessel maintenance, activation and operation costs, as well as RRF infrastructure support costs and additional Department of Defense/Navy-sponsored sealift activities and special projects, are provided by reimbursement from the National Defense Sealift Fund.

This fund is authorized for the receipt of sales proceeds from the disposition of obsolete government-owned merchant vessels. The Maritime Administration is authorized to reactivate, maintain, operate, deactivate and dispose government-owned merchant vessels comprising the National

Defense Reserve Fleet (NDRF) and the Ready Reserve Force (RRF), a subset of the NDRF. Resources for RRF vessel maintenance, preservation, activation and operation costs, as well as RRF infrastructure support costs and additional Department of Defense/Navy-sponsored sealift activities and special projects, are provided by transfer from the Department of Defense Operations and Maintenance, Navy account. Through fiscal year 2010, interagency agreement transactions to fund and administer these programs were reflected in this fund. Beginning in fiscal year 2011, these interagency agreement transactions are instead reflected in the RRF account. Direct appropriations for the disposal of obsolete government-owned merchant vessels are provided to the Ship Disposal account.

3590 Outlays from new authority	3	3	

The Maritime Guaranteed Loan (Title XI) program provides for a full faith and credit guarantee of debt obligations issued by U.S. or foreign ship owners to finance or refinance the construction, reconstruction, or reconditioning of U.S. flag vessels or eligible export vessels in U.S. shipyards; or for a full faith and credit guarantee of debt obligations issued by U.S. shipyard owners to finance the modernization of shipbuilding technology at shipyards located in the United States.

As required by the Federal Credit Reform Act of 1990, this account also includes the subsidy costs associated with loan guarantee commitments made in 1992 and subsequent years which are estimated on a present value basis. This program is proposed for elimination in FY 2018 and no program or administrative funds are requested. However, the management of the existing loan portfolio which has \$1.5 billion in loan guarantees and approximately 32 guarantee contracts will be managed under the MARAD Operations & Program account within the Operations & Training appropriation.

ADMINISTRATIVE PROVISIONS

SEC. 170. Notwithstanding any other provision of this Act, in addition to any existing authority, the Maritime Administration is authorized to furnish utilities and services and make necessary repairs in connection with any lease, contract, or occupancy involving Government property under control of the Maritime Administration: Provided, That payments received therefor shall be credited to the appropriation charged with the cost thereof and shall remain available until expended: Provided further, That rental payments under any such lease, contract, or occupancy for items other than such utilities, services, or repairs shall be covered into the Treasury as miscellaneous receipts.

SEC. 171. None of the funds available or appropriated in this Act shall be used by the United States Department of Transportation or the United States Maritime Administration to negotiate or otherwise execute, enter into, facilitate or perform fee-for-service contracts for vessel disposal, scrapping or recycling, unless there is no qualified domestic ship recycler that will pay any sum of money to purchase and scrap or recycle a vessel owned, operated or managed by the Maritime Administration or that is part of the National Defense Reserve Fleet: Provided, That such sales offers must be consistent with the solicitation and provide that the work will be performed in a timely manner at a facility qualified within the meaning of section 3502 of Public Law 106–398: Provided further, That nothing contained herein shall affect the Maritime Administration's authority to award contracts at least cost to the Federal Government and consistent with the requirements of 54 U.S.C. 308704, section 3502, or otherwise authorized under the Federal Acquisition Regulation.

GENERAL PROVISIONS—DEPARTMENT OF TRANSPORTATION

SEC. 180. (a) During the current fiscal year, applicable appropriations to the Department of Transportation shall be available for maintenance and operation of aircraft; hire of passenger motor vehicles and aircraft; purchase of liability insurance for motor vehicles operating in foreign countries on official department business; and uniforms or allowances therefor, as authorized by law (5 U.S.C. 5901–5902).

(b) During the current fiscal year, applicable appropriations to the Department and its operating administrations shall be available for the purchase, acquisition, maintenance, operation, and deployment of unmanned aircraft systems that advance the Department's or its operating administrations' mission.

(c) Any unmanned aircraft system purchased, procured, or contracted for by the Department prior to the enactment of this Act shall be deemed authorized by Congress as if this provision was in effect when the system was purchased, procured or contracted for.

SEC. 181. Appropriations contained in this Act for the Department of Transportation shall be available for services as authorized by 5 U.S.C. 3109, but at rates for individuals not to exceed the per diem rate equivalent to the rate for an Executive Level IV.

SEC. 182. (a) No recipient of funds made available in this Act shall disseminate personal information (as defined in 18 U.S.C. 2725(3)) obtained by a State department of motor vehicles in connection with a motor vehicle record as defined in 18 U.S.C. 2725(1), except as provided in 18 U.S.C. 2721 for a use permitted under 18 U.S.C. 2721.

(b) Notwithstanding subsection (a), the Secretary shall not withhold funds provided in this Act for any grantee if a State is in noncompliance with this provision.

SEC. 183. Funds received by the Federal Highway Administration and Federal Railroad Administration from States, counties, municipalities, other public authorities, and private sources for expenses incurred for training may be credited respect-

ively to the Federal Highway Administration's "Federal-Aid Highways" account and to the Federal Railroad Administration's "Safety and Operations" account, except for State rail safety inspectors participating in training pursuant to 49 U.S.C. 20105.

SEC. 184. None of the funds made available in this Act to the Department of Transportation may be used to make a loan, loan guarantee, line of credit, or grant unless the Secretary of Transportation notifies the House and Senate Committees on Appropriations not less than 3 full business days before any project competitively selected to receive a discretionary grant award, any discretionary grant award, letter of intent, loan commitment, loan guarantee commitment, line of credit commitment, or full funding grant agreement totaling \$1,000,000 or more is announced by the department or its modal administrations from—

- (1) any discretionary grant or federal credit program of the Federal Highway Administration including the emergency relief program;
- (2) the airport improvement program of the Federal Aviation Administration;
- (3) any program of the Federal Railroad Administration;
- (4) any program of the Federal Transit Administration other than the formula grants and fixed guideway modernization programs;
- (5) any program of the Maritime Administration; or
- (6) any funding provided under the headings "National Infrastructure Investments" in this Act:

Provided, That the Secretary gives concurrent notification to the House and Senate Committees on Appropriations for any "quick release" of funds from the emergency relief program: Provided further, That no notification shall involve funds that are not available for obligation.

SEC. 185. Rebates, refunds, incentive payments, minor fees and other funds received by the Department of Transportation from travel management centers, charge card programs, the subleasing of building space, and miscellaneous sources are to be credited to appropriations of the Department of Transportation and allocated to elements of the Department of Transportation using fair and equitable criteria and such funds shall be available until expended.

SEC. 186. Amounts made available in this or any other Act that the Secretary determines represent improper payments by the Department of Transportation to a third-party contractor under a financial assistance award, which are recovered pursuant to law, shall be available—

- (1) to reimburse the actual expenses incurred by the Department of Transportation in recovering improper payments: Provided, That such amounts shall be available until expended; and

- (2) to pay contractors for services provided in recovering improper payments or contractor support in the implementation of the Improper Payments Information Act of 2002: Provided, That amounts in excess of that required for paragraphs (1) and (2)—

(A) shall be credited to and merged with the appropriation from which the improper payments were made, and shall be available for the purposes and period for which such appropriations are available: Provided further, That where specific project or accounting information associated with the improper payment or payments is not readily available, the Secretary may credit an appropriate account, which shall be available for the purposes and period associated with the account so credited; or

(B) if no such appropriation remains available, shall be deposited in the Treasury as miscellaneous receipts: Provided further, That prior to the transfer of any such recovery to an appropriations account, the Secretary shall notify the House and Senate Committees on Appropriations of the amount and reasons for such transfer: Provided further, That for purposes of this section, the term "improper payments" has the same meaning as that provided in section 2(d)(2) of Public Law 107–300.

SEC. 187. Notwithstanding any other provision of law, if any funds provided in or limited by this Act are subject to a reprogramming action that requires notice to be provided to the House and Senate Committees on Appropriations, transmission of said reprogramming notice shall be provided solely to the House and Senate Committees on Appropriations: Provided, That the Secretary of Transportation may provide notice to other congressional committees of the action of the House and Senate Committees on Appropriations on such reprogramming but not sooner than 30 days following the date on which the reprogramming action has been transmitted to the House and Senate Committees on Appropriations.

SEC. 188. Funds appropriated in this Act to the modal administrations may be obligated for the Office of the Secretary for the costs related to assessments or reimbursable agreements only when such amounts are for the costs of goods and services that are purchased to provide a direct benefit to the applicable modal administration or administrations.

SEC. 189. The Secretary of Transportation is authorized to carry out a program that establishes uniform standards for developing and supporting agency transit

pass and transit benefits authorized under section 7905 of title 5, United States Code, including distribution of transit benefits by various paper and electronic media.

GENERAL PROVISIONS—THIS ACT

SEC. 401. None of the funds in this Act shall be used for the planning or execution of any program to pay the expenses of, or otherwise compensate, non-Federal parties intervening in regulatory or adjudicatory proceedings funded in this Act.

SEC. 402. None of the funds appropriated in this Act shall remain available for obligation beyond the current fiscal year, nor may any be transferred to other appropriations, unless expressly so provided herein.

SEC. 403. The expenditure of any appropriation under this Act for any consulting service through a procurement contract pursuant to section 3109 of title 5, United States Code, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order issued pursuant to existing law.

SEC. 404. Except as otherwise provided in this Act, none of the funds provided in this Act, provided by previous appropriations Acts to the agencies or entities funded in this Act that remain available for obligation or expenditure in fiscal year 2018, or provided from any accounts in the Treasury derived by the collection of fees and available to the agencies funded by this Act, shall be available for obligation or expenditure through a reprogramming of funds that—

- (a)(1) creates a new program;
- (2) eliminates a program, project, or activity;
- (3) increases funds or personnel for any program, project, or activity for which funds have been denied or restricted by the Congress;
- (4) proposes to use funds directed for a specific activity in an appropriations law for a different purpose;
- (5) augments existing programs, projects, or activities in excess of \$5,000,000 or 10 percent, whichever is less;
- (6) reduces existing programs, projects, or activities by \$5,000,000 or 10 percent, whichever is less; or
- (7) creates, reorganizes, or restructures a branch, division, office, bureau, board, commission, agency, administration, or department different from the budget justifications submitted to the Committees on Appropriations or the table accompanying the explanatory statement accompanying this Act, whichever is more detailed, unless notification is transmitted to the House and Senate Committees on Appropriations: Provided, That not later than 60 days after the date of enactment of this Act, each agency funded by this Act shall submit a report to the Committees on Appropriations of the Senate and of the House of Representatives to establish the baseline for application of reprogramming and transfer authorities for the current fiscal year: Provided further, That the report shall include—
 - (A) a table for each appropriation with a separate column to display the prior year enacted level, the President's budget request, adjustments made by Congress, adjustments due to enacted rescissions, if appropriate, and the fiscal year enacted level;
 - (B) a delineation in the table for each appropriation and its respective prior year enacted level by object class and program, project, and activity as detailed in the budget appendix for the respective appropriation; and
 - (C) an identification of items of special congressional interest.

SEC. 405. Except as otherwise specifically provided by law, not to exceed 50 percent of unobligated balances remaining available at the end of fiscal year 2018 from appropriations made available for salaries and expenses for fiscal year 2018 in this Act, shall remain available through September 30, 2019, for each such account for the purposes authorized: Provided, That a notification shall be submitted to the House and Senate Committees on Appropriations prior to the expenditure of such funds: Provided further, That these notifications shall be made in compliance with reprogramming guidelines under section 404 of this Act.

SEC. 406. No funds in this Act may be used to support any Federal, State, or local projects that seek to use the power of eminent domain, unless eminent domain is employed only for a public use: Provided, That for purposes of this section, public use shall not be construed to include economic development that primarily benefits private entities: Provided further, That any use of funds for mass transit, railroad, airport, seaport or highway projects, as well as utility projects which benefit or serve the general public (including energy-related, communication-related, water-related and wastewater-related infrastructure), other structures designated for use by the general public or which have other common-carrier or public-utility functions that serve the general public and are subject to regulation and oversight by the government, and projects for the removal of an immediate threat to public health and safety or brownfields as defined in the Small Business Liability Relief and Brownfields Revitalization Act (Public Law 107–118) shall be considered a public use for purposes of eminent domain.

SEC. 407. None of the funds made available in this Act may be transferred to any department, agency, or instrumentality of the United States Government, except pursuant to a transfer made by, or transfer authority provided in, this Act or any other appropriations Act.

SEC. 408. No funds appropriated pursuant to this Act may be expended by an entity unless the entity agrees that in expending the assistance the entity will comply with sections 2 through 4 of the Act of March 3, 1933 (41 U.S.C. 10a–10c, popularly known as the "Buy American Act").

SEC. 409. No funds appropriated or otherwise made available under this Act shall be made available to any person or entity that has been convicted of violating the Buy American Act (41 U.S.C. 10a–10c).

SEC. 410. None of the funds made available in this Act may be used for first-class airline accommodations in contravention of sections 301–10.122 and 301–10.123 of title 41, Code of Federal Regulations.

SEC. 411. None of the funds made available in this Act may be used to send or otherwise pay for the attendance of more than 50 employees of a single agency or department of the United States Government, who are stationed in the United States, at any single international conference unless the relevant Secretary reports to the House and Senate Committees on Appropriations at least 5 days in advance that such attendance is important to the national interest: Provided, That for purposes of this section the term "international conference" shall mean a conference occurring outside of the United States attended by representatives of the United States Government and of foreign governments, international organizations, or nongovernmental organizations.

SEC. 412. None of the funds made available by this Act may be used by the Department of Transportation, the Department of Housing and Urban Development, or any other Federal agency to lease or purchase new light duty vehicles for any executive fleet, or for an agency's fleet inventory, except in accordance with Presidential Memorandum—Federal Fleet Performance, dated May 24, 2011.
