This appropriation funds the construction, replacement, rehabilitation, and expansion of water resources projects whose principal purpose is to provide commercial navigation, flood and storm damage reduction, or aquatic ecosystem restoration benefits to the Nation, and related efforts. The Budget shows all funding provided through the Inland Waterways Trust Fund as well as a portion of the funding from the Harbor Maintenance Trust Fund as transferred to and executed in the Construction account.

This account allocates funds on a performance basis to high-performing projects. The Budget funds those investments within the three main mission areas of the Corps civil works program — commercial navigation, flood and storm damage reduction, and aquatic ecosystem restoration — as well as related efforts (such as hydropower at multi-purpose dams) that provide the best economic, environmental, and public safety returns to the Nation.

This account includes \$75 million for work under the Comprehensive Everglades Restoration Plan (CERP), which represents approximately 7 percent of the total amount in this account and approximately 2 percent of the total amount in the civil works program. Funding CERP at this level would not have a significant impact on the overall civil works program in 2018. Construction account funding for CERP in future years will depend on the availability of funds, so the impact of such future funding on the overall civil works program cannot be determined at this time. Funding for the Department of the Interior (DOI) includes an additional \$8 million for work under CERP. This account also includes approximately \$1 million for other ecosystem restoration work by the Corps in South Florida, including the Everglades ecosystem. Funding for DOI includes \$46 million for such non-CERP work. The Budget for the two agencies includes a total of \$131 million for ecosystem restoration work in South Florida, of which \$83 million is for CERP and \$47 million is for non-CERP work. (P.L. 106–541 Sec. 601)

This appropriation also funds the Corps continuing authorities programs, which involve the planning, design, and construction of smaller projects that do not require specific authorizing legislation.

This appropriation funds inspection, operation, maintenance, and related activities for water resources projects operated and maintained by the Corps. These projects include navigation channels, navigation locks and dams, structures to reduce the risk of flood and storm damage (e.g., levees), and multi-purpose projects, as authorized in River and Harbor, Flood Control, and Water Resources Development Acts and other laws. Key infrastructure that is of central importance to the Nation and the continued safety of the public is given the highest priority for funding in this account. The Budget shows a portion of the funding provided through the Harbor Maintenance Trust Fund as transferred to and executed in the Operation and Maintenance account.

This appropriation funds all of the costs associated with protecting Corps facilities from potential security threats. It also funds the national emergency preparedness program under Executive Order 11490.

The Harbor Maintenance Trust Fund is authorized under the Harbor Maintenance Revenue Act of 1986 (P.L. 99-662, Title XIV), as amended. Revenue is derived from a 0.125 percent ad valorem tax imposed upon commercial users of specified U.S. ports, Saint Lawrence Seaway tolls, and investment interest. The Budget shows all funding provided through the Harbor Maintenance Trust Fund as transferred to and executed in the Construction, Operation and Maintenance, and Mississippi River and Tributaries accounts.

The Harbor Maintenance Revenue Act authorizes expenditures from this fund to finance up to 100 percent of eligible Corps harbor operation and maintenance costs, including the operation and maintenance of Great Lakes navigation projects. The fund fully finances eligible operation and maintenance costs of the Saint Lawrence Seaway Development Corporation. The Water Resources Development Act of 1996 (P.L. 104-303, section 201) authorizes the fund to pay the Federal share of the costs for the construction of dredged material disposal facilities that are necessary for the operation and maintenance of coastal or inland harbors, the dredging and disposal of contaminated sediments that are in or affect the operation and maintenance of Federal navigation channels, the mitigation of impacts resulting from Federal navigation operation and maintenance activities, and the operation and maintenance of dredged material disposal facilities.

The North American Free Trade Agreement Implementation Act (26 U.S.C. 9505(c)(3)) authorizes the fund to pay all expenses of administration incurred by the Department of the Treasury, the Corps, and the Department of Commerce related to the administration of the harbor maintenance tax (under 26 U.S.C. 4461 et seq.), but not in excess of \$5 million for any fiscal year.

In 1998, the U.S. Supreme Court excluded all U.S. exports from the harbor maintenance tax. The Court found that the tax violated Article I,

section 9, clause 5 of the constitution because the value of the cargo, which is the basis for calculating this tax, does not fairly match the use of port services and facilities by exporters.

INLAND WATERWAYS TRUST FUND—Continued

The Inland Waterways Trust Fund is authorized under the Inland Waterways Revenue Act of 1978 (P.L. 95–502), as amended by the Water Resources Development Act of 1986 (P.L. 99–662). The fund is used to pay one-half of the costs associated with the construction, replacement, rehabilitation, and expansion of Federal inland waterways projects, except as otherwise specifically provided for in law. Under current law, revenue is derived from an excise tax imposed on diesel fuel for commercial vessels on most of the inland waterways, plus investment interest. The Budget shows all funding provided through the Inland Waterways Trust Fund as transferred to and executed in the Construction account.

INLAND WATERWAYS TRUST FUND

(Legislative proposal, subject to PAYGO)

This proposal would establish a new user fee to supplement existing revenue from the \$0.29 per gallon diesel fuel tax to finance the users' share of anticipated capital investment projects on the inland waterways. This proposal would raise just over \$1 billion over the 10-year window.

This fund, authorized in the Omnibus Appropriations Act of 1999 (P.L. 105-277), as amended by the Water Resources Development Act of 1999 (P.L. 106-53), supports wildlife habitat restoration efforts undertaken by the State of South Dakota. The establishment of this fund satisfies the Federal obligation under the Fish and Wildlife Coordination Act (16 U.S.C. 1661 et seq.) to mitigate for the loss of habitat due to flooding from the Oahe and Big Bend projects, which the Corps constructed under the Pick-Sloan Missouri River Basin program.
