The Architectural and Transportation Barriers Compliance Board (Access Board) was established by section 502 of the Rehabilitation Act of 1973. The Access Board is responsible for developing guidelines under the Americans with Disabilities Act, the Architectural Barriers Act, and the Telecommunications Act. These guidelines ensure that buildings and facilities, transportation vehicles, and telecommunications equipment covered by these laws are readily accessible to and usable by people with disabilities. The Board is also responsible for developing standards under section 508 of the Rehabilitation Act for accessible electronic and information technology used by Federal agencies and standards under section 510 of the Rehabilitation Act for accessible medical diagnostic equipment. In addition, the Access Board enforces the Architectural Barriers Act, and provides training and technical assistance on the guidelines and standards it develops.

The Board also has additional responsibilities under the Help America Vote Act. The Board serves on the Board of Advisors and the Technical Guidelines Development Committee, which helps the Election Assistance Commission develop voluntary guidelines and guidance for voting systems, including accessibility for people with disabilities.

The Administrative Conference of the United States is an independent agency that assists the President, the Congress, the Judicial Conference, and Federal agencies in improving the regulatory and legal process through consensus-driven applied research. The Conference analyzes the administrative law process and, among its many activities, issues formal recommendations for improvements that reduce costs to government agencies, promote effective public participation in the rulemaking process, and reduce unnecessary litigation. The Conference is a public-private partnership comprised of senior government officials and private sector leaders in law, business, and academia.

The Appalachian Regional Commission (ARC) was established as a Federal-State partnership in 1965 to invest in sustainable economic development in the 420-county Appalachian Region. The Commission is comprised of 13 members representing the states in the region and a Federal Co-Chairman, who represents the Federal Government. ARC's mission is to help the Appalachian Region plan and coordinate regional investments and target resources to those communities with the greatest needs by innovating, partnering, and investing to build community capacity and strengthening economic growth.

ARC's activities include area development, technical assistance, capacity-building, research, and coordination of regional investments and initiatives. ARC also assists communities through support of 73 multi-county Local Development Districts (LDDs) that assist local governments in implementing economic and community development strategies. In addition, ARC administers a competitive grant program for communities adversely impacted by the declining use of coal to develop economic diversification activities in emerging opportunity sectors.

Salaries and expenses.—In this Federal-State partnership, the Federal Government supports the Federal staff and contributes half of the administrative expenses of a professional staff that works with the States to operate the program. The other half of these non-Federal employee expenses are provided by member States.

The Consumer Financial Protection Bureau (CFPB) was established under Title X of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Act) (P.L. 111–203) as an independent bureau in the Federal Reserve System. The Act consolidated authorities previously shared by seven Federal agencies under Federal consumer financial laws into the CFPB and provided the Bureau with additional authorities to conduct rulemaking, supervision, and enforcement. Funding required to support the CFPB's operations is obtained primarily through transfers from the Board of Governors of the Federal Reserve System. Pursuant to the Act, the CFPB is also authorized to collect civil penalties in any judicial or administrative action under Federal consumer financial laws. These amounts are main-

tained and displayed in a separate account titled "Consumer Financial Civil Penalty Fund."

Independent actuarial projections show the CIARDS Fund with an unfunded liability of \$4.4 billion. To ensure that the Fund remains solvent and authorized payments to beneficiaries continue, the Budget proposes \$514 million in 2020. This amount reflects the amortized cost of recapitalizing the CIARDS Fund over twenty years.

The Chemical Safety and Hazard Investigation Board, as authorized by the Clean Air Act Amendments of 1990, became operational in 1998. It is an independent, non-regulatory agency that promotes chemical safety and accident prevention through investigating chemical accidents; making recommendations for accident prevention; conducting special studies; broadly disseminating its findings to industry and labor organizations; and informing stakeholder discussions on chemical safety and on actions taken by the Environmental Protection Agency, the Department of Labor, and other entities to implement Board recommendations. The President's Budget proposes to eliminate funding for several independent agencies, including the Chemical Safety and Hazard Investigation Board, as part of the Administration's plans to move the Nation towards fiscal responsibility and to redefine the proper role of the Federal Government. The amount requested will fund an orderly closeout of the agency beginning in 2020. As authorized by law, the Board will submit a concurrent request for 2020 to the Congress and OMB.

Originally established by the Civil Rights Act of 1957, the U.S. Commission on Civil Rights is an independent, bipartisan, fact-finding Federal agency. Its mission is to inform the development of national civil rights policy and enhance enforcement of Federal civil rights laws. The Commission pursues this mission by studying alleged deprivations of voting rights and alleged discrimination based on race, color, religion, sex, age, disability, or national origin, or in the administration of justice. The Commission plays a vital role in advancing civil rights through objective and comprehensive investigation, research, and analysis on issues of fundamental concern to the Federal government and the public. The Commission also supports a network of State Advisory Committees, each composed of a diverse group of citizen volunteers, which conduct civil rights research at the State and regional levels.

The Committee for Purchase From People Who Are Blind or Severely Disabled (operating as the U.S. AbilityOne Commission, hereafter "Commission") administers the AbilityOne Program under the authority of the Javits-Wagner-O'Day Act of 1971, as amended. The principal objective of AbilityOne is to leverage the purchasing power of the Federal Government to provide employment opportunities for people who are blind or have other significant disabilities. The Commission accomplishes its mission by identifying Government procurement requirements that can create employment opportunities for individuals who are blind or have other significant disabilities. Following opportunities for public comment and after due deliberation, the Commission then places such products and service requirements on the AbilityOne Procurement List, requiring Federal departments and agencies to procure the designated products and services from a network of 565 qualified State and private nonprofit agencies (NPAs) employing people who are blind or have other significant disabilities. The long-term vision of AbilityOne is to enable people who are blind or have other significant disabilities to achieve their maximum employment potential. In 2017, over 45,000 AbilityOne employees earned a combined total of more than \$615 million in wages, with an average hourly wage of \$13.32. The AbilityOne Program continues to emphasize providing employment to veterans, with approximately 3,000 employed in direct or indirect labor positions, including supervision and management. More than 2,000 AbilityOne employees moved into competitive or supported employment in 2017 after gaining skills and experience on AbilityOne jobs.

While pursuing its core mission to increase employment opportunities for people who are blind or have other significant disabilities, the Commission is dedicated to effective stewardship and program integrity. The Commission continues to strengthen its Procurement List business processes and to enhance its oversight of AbilityOne Program participants. The resources proposed for 2020 will enable the Commission to continue implementing the requirements of the Consolidated Appropriations Act of 2016. These requirements include establishing and staffing an Office of Inspector General for the AbilityOne Program. The requirements also include establishing and administering written agreements that govern the Commission's relationship with its designated central nonprofit agencies, evaluating reports and data from such central nonprofit agencies, and maintaining the Commission's compliance and operations capacity to oversee a national program with \$3.3 billion in annual sales of products and services to the Government.

For necessary expenses to carry out the provisions of the Commodity Exchange Act (7 U.S.C. 1 et seq.), including the purchase and hire of passenger motor vehicles, and the rental of space (to include multiple year leases), in the District of Columbia and elsewhere, \$219,000,000, including not to exceed \$3,000 for official reception and representation expenses, and not to exceed \$25,000 for the expenses for consultations and meetings hosted by the Commission with foreign governmental and other regulatory officials, such expenses to include necessary logistic and administrative expenses and the expenses of Commission staff and foreign invitees in attendance including: (1) incidental expenses such as meals; (2) travel and transportation; and (3) related lodging or subsistence, and of which not less than \$50,000,000, to remain available until September 30, 2021, shall be for the purchase of information technology and of which not less than \$3,386,000 shall be for expenses of the Office of the Inspector General: Provided, That notwithstanding the limitations in 31 U.S.C. 1553, amounts provided under this heading are available for the liquidation of obligations equal to current year payments on leases entered into prior to the date of enactment of this Act: Provided further, That for the purpose of recording and liquidating any lease obligations that should have been recorded and liquidated against accounts closed pursuant to 31 U.S.C. 1552, and consistent with the first preceding proviso, such amounts under this heading shall be transferred to and recorded in a no-year account in the Treasury, which has been established for the sole purpose of recording adjustments for and liquidating such unpaid obligations.

In addition, for move, replication, and related costs associated with replacement leases for the Commission's facilities, not to exceed \$31,000,000, to remain available until expended.

Note.—A full-year 2019 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Continuing Appropriations Act, 2019 (Division C of P.L. 115-245, as amended). The amounts included for 2019 reflect the annualized level provided by the continuing resolution.

The mission of the Commodity Futures Trading Commission (CFTC or Commission) is to: foster open, transparent, competitive, and financially sound markets; prevent and deter price manipulation and other disruptions to market integrity; and protect market participants and the public from fraud, exploitation, and abusive practices related to derivatives and other products that are subject to the Commodity Exchange Act (7 U.S.C. 1 et seq.) (CEA). The CEA established a comprehensive regulatory structure to oversee the futures trading complex, commodity options trading, intermediaries, and swap dealer activities.

The Commission's regulatory landscape is continually changing. As a responsible regulator, the CFTC seeks to promote responsible innovation and development that is consistent with its statutory mission to enhance

COMMODITY FUTURES TRADING COMMISSION—Continued

the derivative trading markets. Further, the agency seeks to lower the systemic risk of the futures and swaps markets to the economy and the public.

The markets under the CFTC's regulatory purview are economically significant. In the United States, the CFTC regulates the markets for futures and options on futures with an estimated notional value of \$26 trillion and the swaps market with an estimated notional value of \$292 trillion.

The Budget proposes legislation authorizing user fees to fund certain Commission activities, as specified by the CFTC, in line with nearly all other Federal financial and banking regulators. Contingent upon enactment of authorizing legislation, the Budget proposes collections of \$65 million to offset a portion of the CFTC's annual appropriation, providing total CFTC funding of \$315 million in FY 2020. CFTC fees would be designed in a way that supports market access, liquidity, and the efficiency of the Nation's derivatives markets.

Of the \$315 million proposed, \$284 million would sustain Commission operations. The remaining \$31 million is associated with the relocation of three regional offices due to lease expirations occurring in FY 2021 and FY 2022. The lease expirations provide the Commission with the opportunity to obtain space through occupancy agreements with the General Services Administration (GSA), rather than executing replacement leases directly. The amount proposed includes costs related to relocation, including build out, furnishings, information technology infrastructure, security-related equipment, logistical support, and appropriate GSA fees. The funds support the current schedule which projects funding for GSA in early FY 2020 for the Kansas City, Chicago, and New York relocations. The \$31 million associated with relocation would not be used for the operations of the Commission.

COMMODITY FUTURES TRADING COMMISSION

(Legislative proposal, not subject to PAYGO)

Contingent upon the enactment of legislation authorizing the Commodity Futures Trading Commission to collect user fees to fund the Commission's activities, an additional \$65,000,000 shall be appropriated from the general fund: Provided, That fees and charges assessed by the Commission shall be credited to this appropriation as offsetting collections: Provided further, That not to exceed \$65,000,000 of such offsetting collections shall be available until expended for necessary expenses of this account: Provided further, That the total amount appropriated under this heading from the general fund for fiscal year 2020 shall be reduced as such offsetting

fees are received so as to result in a final total fiscal year 2020 appropriation from the general fund estimated at not more than \$250,000,000.

Note.—A full-year 2019 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Continuing Appropriations Act, 2019 (Division C of P.L. 115-245, as amended). Section 748 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (P.L. 111-203) (the Dodd-Frank Act) amended the Commodity Exchange Act (7 U.S.C. 1 et seq.) (CEA) to establish the Customer Protection Fund (Fund). The Fund is used to pay whistleblower awards, finance customer education initiatives, and administer the programs. The Dodd-Frank Act also authorized the Commodity Futures Trading Commission (Commission) to issue rules implementing incentives and protections for whistleblowers and to conduct customer education initiatives designed to help customers protect themselves against fraud and other violations of the CEA.

The Commission deposits monetary sanctions it collects in covered judicial or administrative actions into this revolving fund. The Commission may deposit such sanctions unless the balance in the Fund at the time the sanction is collected exceeds \$100 million. The Commission does not deposit restitution awarded to victims into the Fund.

The Commission is required to submit an annual report on the whistleblower award program and customer education initiatives to the Committee on Agriculture, Nutrition, and Forestry of the Senate and the Committee on Agriculture of the House of Representatives. The report includes: a description of the number of whistleblower awards granted, and the types of cases in which these awards were granted, during the preceding fiscal year; the balance in the Fund; the amounts credited to and paid from the Fund; and a complete set of audited financial statements.

The U.S. Consumer Product Safety Commission (CPSC) is an independent federal regulatory agency, created in 1972 by the Consumer Product Safety Act (CPSA). In addition to the CPSA, as amended by the Consumer Product Safety Improvement Act of 2008 (CPSIA), and Public Law 112–28, the CPSC also administers other laws, including the Federal Hazardous Substances Act, the Flammable Fabrics Act, the Child Safety Protection Act, the Poison Prevention Packaging Act, the Refrigerator Safety Act, the Virginia Graeme Baker (VGB) Pool and Spa Safety Act, and the Children's Gasoline Burn Prevention Act. In FY 2020, CPSC will focus on the highest priority risks to consumers, adapt to the consumer marketplace changes resulting from the expansion of e-commerce, continue to emphasize import surveillance to better identify and stop non-compliant or defective products from entering the U.S. market, and expand the data analysis tools, data sources and types used to identify consumer product hazards.

The Corporation for National and Community Service (CNCS) provides service opportunities for Americans of all ages through institutions that include: nonprofits, schools, faith-based and other community organizations, and local governments. The 2020 Budget proposes to eliminate CNCS, as part of the Administration's plans to move the Nation towards fiscal responsibility and to redefine the proper role of the Federal Government. No funds are provided in the 2020 Budget for new grants in programs described in this account.

AmeriCorps State and National.—With funds channeled through States, Territories, Tribes, and community-based organizations, AmeriCorps grants enable communities to recruit, train, and place AmeriCorps members to serve in the areas of disaster services, economic opportunity, education, environmental stewardship, healthy futures, and veterans and military families, as directed by the Edward M. Kennedy Serve America Act of 2009.

AmeriCorps National Civilian Community Corps.—AmeriCorps NCCC is a ten-month residential national service program for people ages 18 to 24. AmeriCorps NCCC members are deployed to respond to natural disasters and engage in urban and rural development projects across the nation.

AmeriCorps VISTA.—Provides full-time members to community organizations and public agencies working to resolve local poverty-related problems.

State Service Commission Support Grants.—These grants support the operation of State Service Commissions that administer approximately two-thirds of AmeriCorps State and National grant funds.

Retired Senior Volunteer Program.—RSVP grants support volunteers aged 55 and older with service opportunities, including mentoring children and providing independent living services to adults.

Foster Grandparent Program.—Grants provide low-income volunteers age 55 and older with service opportunities to provide one-on-one mentoring and support to at-risk children.

Senior Companion Program.—Grants support low-income volunteers who provide companionship, transportation, help with light chores, and respite to assist seniors and people with disabilities to remain in their own homes.

Innovation, Demonstration, and Assistance.—These initiatives and programs are aimed at incubating new ideas, while expanding proven initiatives

that address specific community needs. For example, the Volunteer Generation Fund focuses on strengthening the ability of nonprofits and other organizations to recruit, retain, and manage volunteers.

Evaluation.—This activity supports the design and implementation of research and evaluation studies and facilitates the use of evidence and evaluation by CNCS and national service organizations.

The Budget proposes to eliminate funding for several independent agencies and other federal entities, including the Corporation for Public Broadcasting, as part of the Administration's plan to move the Nation towards fiscal responsibility and to redefine the proper role of the Federal Government. The Budget requests up to \$60 million over two years to conduct an orderly closeout of Federal funding for the Corporation beginning with \$30 million in fiscal year 2020. The request includes funding for personnel, rental, and other necessary close-out costs.

The Inspector General (IG) Reform Act of 2008 (P.L. 110-409) created the Council of the Inspectors General on Integrity and Efficiency (CIGIE) to address program integrity, efficiency, and effectiveness issues that transcend individual Government agencies and to increase the professionalism and effectiveness of IG staff. In 2020, CIGIE estimates that it will need \$9.5 million to continue to support cross-cutting IG activities and train IG staff.

Pursuant to Section 7 of the Inspector General Reform Act of 2008, resources for CIGIE activities are provided through interagency funding, which includes member contributions and tuition. Consistent with prior years, CIGIE plans to collect member contributions for 2020 during the second half of 2019. CIGIE will use \$3.6 million for CIGIE's Training Institute and \$5.9 million for operations. Although CIGIE will collect the required member contributions for 2020 from agency IGs in the second half of 2019, the President's 2020 Budget includes funds in individual IG budgets that are dedicated to CIGIE and will be collected in 2020 for use in 2021.

The National Capital Revitalization and Self-Government Improvement Act of 1997 established the Court Services and Offender Supervision Agency (CSOSA) for the District of Columbia as an independent Federal

FEDERAL PAYMENT TO THE COURT SERVICES AND OFFENDER SUPERVISION AGENCY
FOR THE DISTRICT OF COLUMBIA—Continued

agency to perform community supervision of D.C. Code offenders. CSOSA assumed the adult probation function from the D.C. Superior Court and the parole supervision function from the D.C. Board of Parole. The Pretrial Services Agency for the District of Columbia, responsible for supervising pretrial defendants, is an independent entity within CSOSA with its own budget and organizational structure. The mission of CSOSA is to increase public safety, prevent crime, reduce recidivism, and support the fair administration of justice in close collaboration with the community.

The CSOSA appropriation supports the Community Supervision Program and the Pretrial Services Agency.

Community Supervision Program.—This activity provides supervision of adult offenders on probation, parole, or supervised release, consistent with a crime prevention strategy that emphasizes public safety and successful reintegration. The Community Supervision Program employs an integrated system of close supervision, routine drug testing, graduated sanctions, treatment, transitional housing, and other offender support services, including services from community and faith-based collaborations. The Community Supervision Program also develops and provides the courts and the U.S. Parole Commission with critical information for probation, parole, and supervised release decisions.

Pretrial Services Agency.—This activity assists judicial officers in both the D.C. Superior Court and the U.S. District Court for the District of Columbia by formulating release recommendations and providing supervision and treatment services to defendants that reasonably assure that individuals on conditional release return to court and do not engage in criminal activity pending their trial and/or sentencing. The Pretrial Services Agency is responsible for enforcing conditions of release, conducting drug testing, administering graduated sanctions, referring defendants to treatment and other social services, and reporting to the courts defendants' compliance with their conditions of release. The FY 2020 budget provides resources to modernize the Pretrial Services Agency's mission-critical client management system.

The Defense Nuclear Facilities Safety Board (Board), an independent, non-regulatory agency within the Executive Branch, is responsible for evaluating the content and implementation of the standards relating to the design, construction, operation, and decommissioning of Department of Energy (DOE) defense nuclear facilities. The Board also reviews the design of new DOE defense nuclear facilities and periodically reviews and monitors construction of such facilities to ensure adequate protection of public and worker health and safety. The Board is also responsible for investigating any event or practice at a defense nuclear facility that has or may adversely affect public health and safety. The Board makes specific recommendations to the Secretary of Energy on measures that should be adopted to protect both public and employee health and safety.

The Budget proposes to eliminate funding for several independent agencies, including the Delta Regional Authority. The Budget requests \$2.5 million to conduct an orderly closeout of the agency in fiscal year 2020, which includes sufficient funding for: personnel costs during shutdown activities, including incentive payments to remain during the closeout period; severance or retirement pay; and non-personnel costs associated with the agency's closure such as lease termination, equipment disposal, and compliance with recordkeeping requirements. The Budget also proposes statutory authority to transfer outstanding grant obligations and associated administrative and oversight responsibilities to the Department of Agriculture.

The Omnibus Consolidated and Emergency Supplemental Appropriations Act of 1999 (P.L. 105-277) established the annual transfer of interest from the investment of the Trans-Alaska Pipeline Liability Fund balance into the Oil Spill Liability Trust Fund for subsequent transfer to the Denali Commission. As required by the Act, the Denali Commission, in consultation with the Coast Guard, developed a program to use these funds to repair or replace bulk fuel storage tanks in Alaska that were not in compliance with Federal law, including the Oil Pollution Act of 1990, or State law. Given that the Budget proposes to eliminate the Denali Commission, it also proposes statutory authority to transfer any unobligated and obligated balances from the bulk fuel storage tank program, and associated adminis-

trative and oversight responsibilities, to the Department of Agriculture, and proposes to end transfers of interest to the Denali Commission.

Under the National Capital Revitalization and Self-Government Improvement Act of 1997, the Federal Government is required to finance the District of Columbia Courts. This payment to the District of Columbia Courts funds the operations of the District of Columbia Court of Appeals, Superior Court, and the Court System, as well as capital improvements.

The Budget provides resources to support the D.C. Courts' core functions. In addition, the Budget provides resources for capital improvements necessary to move support functions from off-site leased space to the main court campus, to address fire suppression, egress, and other building code compliance issues in the overcrowded Magistrate Judge offices, and to maintain court facilities in Judiciary Square. The Budget proposes that the D.C. Courts be able to retain fees collected pursuant to bar admissions to finance admissions activities.

By law, the Courts' annual budget includes estimates of the expenditures for the operations of the District of Columbia Courts prepared by the Joint Committee on Judicial Administration in the District of Columbia and the President's recommendation for funding the District of Columbia Courts. The President's recommended level of \$270.7 million includes \$208.1 million for the District of Columbia Court of Appeals, the Superior Court

of the District of Columbia, and the District of Columbia Court System operations and \$62.7 million for capital improvements for District court-house facilities. Under a separate transmittal to the Congress, the District of Columbia Courts are requesting \$342.7 million: \$220.8 million for operations and \$122.0 million for capital improvements.

Under three Defender Services programs, the District of Columbia Courts appoint and compensate attorneys to represent persons who are financially unable to obtain such representation on their own. The Defender Services programs are the Criminal Justice Act program, which provides court-appointed attorneys to indigent persons who are charged with criminal offenses; the Counsel for Child Abuse and Neglect program, which provides court-appointed attorneys for family proceedings in which child neglect is alleged or where the termination of the parent-child relationship is under consideration and the parent, guardian, or custodian of the child is indigent; and the Guardianship program, which provides for the representation and protection of mentally incapacitated individuals and minors whose parents are deceased. In addition to legal representation, these programs provide indigent persons with services such as transcripts of court proceedings, expert witness testimony, foreign and sign language interpretation, investigations, and genetic testing. The President's recommended funding level for Defender Services is \$46.0 million, the same as the Courts' request.

The Superior Court of the District of Columbia administers the Crime Victims Compensation Fund, which finances assistance for innocent victims of violent crime, survivors of homicide victims, and dependent family members of homicide victims. The program provides compensation for certain costs related to the crime, such as medical expenses, temporary emergency housing, and funeral expenses. The Fund is financed through assessments imposed in criminal cases, court fines and fees, and a grant from the U.S. Department of Justice. Under the 2002 Supplemental Appropriations Act for Further Recovery From and Response to Terrorist Attacks on the United States (P.L. 107-206), one half of the Fund's unobligated balances at the end of each year are transferred to the District of Columbia Government for outreach activities designed to increase the number of crime victims who apply for compensation.

The National Capital Revitalization and Self-Government Improvement Act of 1997, as amended, requires the Secretary of the Treasury to make payments at the end of each fiscal year, beginning in 1998, from the General Fund of the Treasury into the District of Columbia Judicial Retirement and Survivors Annuity Fund (Judicial Fund). Annual payments consist of (1) amounts necessary to amortize: the original unfunded liability over 30 years, the net gain or loss (based on experience) over 10 years, and any other changes in actuarial liability over 20 years and (2) amounts necessary to fund the normal cost and administrative expenses for the year. This account receives the annual payments from the General Fund and immediately transfers these amounts into the Judicial Fund.

The D.C. Tuition Assistance Grant program enables students from the District of Columbia to attend eligible public universities and colleges nationwide at in-state tuition rates. The program also provides grants for students to attend private institutions in the D.C. metropolitan area or private Historically Black Colleges and Universities nationwide, as well as public 2-year community colleges. The program's authorization ended in 2012. The 2020 Budget proposes to eliminate the unauthorized program because of a lack of a clear Federal role for supporting the cost of higher education specifically for District residents.

FEDERAL PAYMENT FOR SCHOOL IMPROVEMENT

For a Federal payment for a school improvement program in the District of Columbia, \$90,000,000, to remain available until expended, for payments authorized under the Scholarship for Opportunity and Results Act (division C of Public Law 112-10), as amended: Provided, That, to the extent that funds are available for opportunity scholarships and following the priorities included in section 3006 of such Act, the Secretary of Education shall make scholarships available to students eligible under section 3013(3) of such Act (Public Law 112-10; 125 Stat. 211) including students who were not offered a scholarship during any previous school year: Provided further, That within funds provided for opportunity scholarships up to \$3,200,000 shall be for the activities specified in sections 3007(b) through 3007(d) and 3009 of the Act.

The Budget provides \$90 million to support kindergarten through high school education in the District of Columbia. The Budget continues to support the District's successful three-sector education strategy and includes \$30 million for D.C. public schools for continued support of the District's efforts to transform its public education system into an innovative and high-achieving system that could be used as a model for urban school district reform across the Nation, \$30 million for D.C. charter schools to support facilities and other unmet needs, and \$30 million to support scholarships for low-income students to attend private schools of their

choice and program evaluation for the D.C. Opportunity Scholarship program.

FEDERAL SUPPORT FOR ECONOMIC DEVELOPMENT AND MANAGEMENT REFORMS IN THE DISTRICT

FEDERAL PAYMENT TO THE CRIMINAL JUSTICE COORDINATING COUNCIL

For a Federal payment to the Criminal Justice Coordinating Council, \$1,805,000, to remain available until expended, to support initiatives related to the coordination of Federal and local criminal justice resources in the District of Columbia.

FEDERAL PAYMENT FOR JUDICIAL COMMISSIONS

For a Federal payment, to remain available until September 30, 2021, to the Commission on Judicial Disabilities and Tenure, \$280,000, and for the Judicial Nomination Commission, \$256,000.

FEDERAL PAYMENT FOR THE DISTRICT OF COLUMBIA NATIONAL GUARD

For a Federal payment to the District of Columbia National Guard, \$413,000, to remain available until expended for the Major General David F. Wherley, Jr. District of Columbia National Guard Retention and College Access Program.

FEDERAL PAYMENT FOR TESTING AND TREATMENT OF HIV/AIDS

For a Federal payment to the District of Columbia for the testing of individuals for, and the treatment of individuals with, human immunodeficiency virus and acquired immunodeficiency syndrome in the District of Columbia, \$4,750,000.

Note.—A full-year 2019 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Continuing Appropriations Act, 2019 (Division C of P.L. 115–245, as amended). The Budget includes \$4.75 million to fund the D.C. Department of Health's continued efforts to prevent the spread of HIV/AIDS in the District. This funding will allow the District to focus on service saturation in areas of combined high risk and high poverty in order to ensure that ward-level counseling and testing, prevention, and treatment services are readily available and fully utilized. Funding will also be used to bolster social marketing and outreach campaigns for these important public health programs. The Budget also includes \$1.8 million for the Criminal Justice Coordinating Council, \$0.536 million for judicial commissions, and \$0.413 million for the D.C. National Guard.

FEDERAL PAYMENT FOR EMERGENCY PLANNING AND SECURITY COSTS IN THE DISTRICT OF COLUMBIA

For a Federal payment of necessary expenses, as determined by the Mayor of the District of Columbia in written consultation with the elected county or city officials of surrounding jurisdictions, \$11,400,000, to remain available until expended, for the costs of providing public safety at events related to the presence of the National Capital in the District of Columbia, including support requested by the Director of the United States Secret Service in carrying out protective duties under the direction of the Secretary of Homeland Security, and for the costs of providing support to respond to immediate and specific terrorist threats or attacks in the District of Columbia or surrounding jurisdictions.

The National Capital Revitalization and Self-Government Improvement Act of 1997, as amended, requires the Secretary of the Treasury to make

FEDERAL PAYMENT TO THE DISTRICT OF COLUMBIA PENSION FUND—Continued
payments at the end of each fiscal year from the General Fund of the Treasury into the District of Columbia Federal Pension Fund. This account receives the annual payments from the General Fund and immediately transfers these amounts into the District of Columbia Federal Pension Fund. Annual payments consist of (1) amounts necessary to amortize: the original unfunded liability over 30 years, the net gain or loss (based on experience) over 10 years, and any other changes in actuarial liability over 20 years and (2) amounts necessary to fund administrative expenses for the year.

The 1990 District of Columbia Appropriations Act established a system "to improve the means by which the District of Columbia (now the District of Columbia Water and Sewer Authority) is paid for water and sanitary sewer services furnished to the Government of the United States or any department, agency, or independent establishment thereof." Each agency is required to pay on a quarterly basis 25 percent of its estimated yearly bill into this account. If an agency fails to pay its obligation on time, the Treasury Department is authorized to pay the full government-wide bill by making up the missed agency payment(s) with a permanent, indefinite appropriation, which must then be reimbursed by the appropriate agency or agencies.

TITLE VIII—GENERAL PROVISIONS—DISTRICT OF COLUMBIA

(INCLUDING TRANSFERS OF FUNDS)

SEC. 801. There are appropriated from the applicable funds of the District of Columbia such sums as may be necessary for making refunds and for the payment of legal settlements or judgments that have been entered against the District of Columbia government.

SEC. 802. None of the Federal funds provided in this Act shall be used for publicity or propaganda purposes or implementation of any policy including boycott designed to support or defeat legislation pending before Congress or any State legislature.

SEC. 803. (a) None of the Federal funds provided under this Act to the agencies funded by this Act, both Federal and District government agencies, that remain available for obligation or expenditure in fiscal year 2020, or provided from any accounts in the Treasury of the United States derived by the collection of fees available to the agencies funded by this Act, shall be available for obligation or expenditures for an agency through a reprogramming of funds which—

- (1) creates new programs;
- (2) eliminates a program, project, or responsibility center;
- (3) establishes or changes allocations specifically denied, limited or increased under this Act;
- (4) increases funds or personnel by any means for any program, project, or responsibility center for which funds have been denied or restricted;
- (5) re-establishes any program or project previously deferred through reprogramming;
- (6) augments any existing program, project, or responsibility center through a reprogramming of funds in excess of \$3,000,000 or 10 percent, whichever is less; or
- (7) increases by 20 percent or more personnel assigned to a specific program, project or responsibility center, unless the Committees on Appropriations of the House of Representatives and the Senate are notified in writing 15 days in advance of such reprogramming.

(b) The District of Columbia government is authorized to approve and execute reprogramming and transfer requests of local funds under this title through November 7, 2020.

SEC. 804. None of the Federal funds provided in this Act may be used by the District of Columbia to provide for salaries, expenses, or other costs associated with the offices of United States Senator or United States Representative under section 4(d) of the District of Columbia Statehood Constitutional Convention Initiatives of 1979 (D.C. Law 3–171; D.C. Official Code, sec. 1–123).

SEC. 805. Except as otherwise provided in this section, none of the funds made available by this Act or by any other Act may be used to provide any officer or employee of the District of Columbia with an official vehicle unless the officer or employee uses the vehicle only in the performance of the officer's or employee's official duties. For purposes of this section, the term "official duties" does not include travel between the officer's or employee's residence and workplace, except in the case of—

- (1) an officer or employee of the Metropolitan Police Department who resides in the District of Columbia or is otherwise designated by the Chief of the Department;
- (2) at the discretion of the Fire Chief, an officer or employee of the District of Columbia Fire and Emergency Medical Services Department who resides in the District of Columbia and is on call 24 hours a day;
- (3) at the discretion of the Director of the Department of Corrections, an officer or employee of the District of Columbia Department of Corrections who resides in the District of Columbia and is on call 24 hours a day;
- (4) at the discretion of the Chief Medical Examiner, an officer or employee of the Office of the Chief Medical Examiner who resides in the District of Columbia and is on call 24 hours a day;
- (5) at the discretion of the Director of the Homeland Security and Emergency Management Agency, an officer or employee of the Homeland Security and Emergency Management Agency who resides in the District of Columbia and is on call 24 hours a day;
- (6) the Mayor of the District of Columbia; and
- (7) the Chairman of the Council of the District of Columbia.

SEC. 806. (a) None of the Federal funds contained in this Act may be used by the District of Columbia Attorney General or any other officer or entity of the District government to provide assistance for any petition drive or civil action which seeks to require Congress to provide for voting representation in Congress for the District of Columbia.

(b) Nothing in this section bars the District of Columbia Attorney General from reviewing or commenting on briefs in private lawsuits, or from consulting with officials of the District government regarding such lawsuits.

SEC. 807. None of the Federal funds contained in this Act may be used to distribute any needle or syringe for the purpose of preventing the spread of blood borne pathogens in any location that has been determined by the local public health or local law enforcement authorities to be inappropriate for such distribution.

SEC. 808. Nothing in this Act may be construed to prevent the Council or Mayor of the District of Columbia from addressing the issue of the provision of contraceptive coverage by health insurance plans, but it is the intent of Congress that any legislation enacted on such issue should include a "conscience clause" which provides exceptions for religious beliefs and moral convictions.

SEC. 809. (a) None of the Federal funds contained in this Act may be used to enact or carry out any law, rule, or regulation to legalize or otherwise reduce penalties associated with the possession, use, or distribution of any schedule I substance under the Controlled Substances Act (21 U.S.C. 801 et seq.) or any tetrahydrocannabinols derivative.

(b) None of the funds contained in this Act may be used to enact any law, rule, or regulation to legalize or otherwise reduce penalties associated with the possession, use, or distribution of any schedule I substance under the Controlled Substances Act (21 U.S.C. 801 et seq.) or any tetrahydrocannabinols derivative for recreational purposes.

SEC. 810. None of the funds appropriated under this Act shall be expended for any abortion except where the life of the mother would be endangered if the fetus were carried to term or where the pregnancy is the result of an act of rape or incest.

SEC. 811. (a) No later than 30 calendar days after the date of the enactment of this Act, the Chief Financial Officer for the District of Columbia shall submit to the appropriate committees of Congress, the Mayor, and the Council of the District of Columbia, a revised appropriated funds operating budget in the format of the budget that the District of Columbia government submitted pursuant to section 442 of the District of Columbia Home Rule Act (D.C. Official Code, sec. 1–204.42), for all agencies of the District of Columbia government for fiscal year 2020 that is in the total amount of the approved appropriation and that realigns all budgeted data for personal services and other-than-personal services, respectively, with anticipated actual expenditures.

(b) This section shall apply only to an agency for which the Chief Financial Officer for the District of Columbia certifies that a reallocation is required to address unanticipated changes in program requirements.

SEC. 812. No later than 30 calendar days after the date of the enactment of this Act, the Chief Financial Officer for the District of Columbia shall submit to the appropriate committees of Congress, the Mayor, and the Council for the District of Columbia, a revised appropriated funds operating budget for the District of Columbia Public Schools that aligns schools budgets to actual enrollment. The revised appropriated funds budget shall be in the format of the budget that the District of Columbia government submitted pursuant to section 442 of the District of Columbia Home Rule Act (D.C. Official Code, sec. 1–204.42).

SEC. 813. (a) Amounts appropriated in this Act as operating funds may be transferred to the District of Columbia's enterprise and capital funds and such amounts, once transferred, shall retain appropriation authority consistent with the provisions of this Act.

(b) The District of Columbia government is authorized to reprogram or transfer for operating expenses any local funds transferred or reprogrammed in this or the four prior fiscal years from operating funds to capital funds, and such amounts, once transferred or reprogrammed, shall retain appropriation authority consistent with the provisions of this Act.

(c) The District of Columbia government may not transfer or reprogram for operating expenses any funds derived from bonds, notes, or other obligations issued for capital projects.

SEC. 814. None of the Federal funds appropriated in this Act shall remain available for obligation beyond the current fiscal year, nor may any be transferred to other appropriations, unless expressly so provided herein.

SEC. 815. Except as otherwise specifically provided by law or under this Act, not to exceed 50 percent of unobligated balances remaining available at the end of fiscal year 2020 from appropriations of Federal funds made available for salaries and expenses for fiscal year 2020 in this Act, shall remain available through September 30, 2021, for each such account for the purposes authorized: Provided, That a notification shall be submitted to the Committees on Appropriations of the House of Representatives and the Senate prior to the expenditure of such funds: Provided further, That these notifications shall be made in compliance with reprogramming guidelines outlined in section 803 of this Act.

SEC. 816. (a) During fiscal year 2021, during a period in which neither a District of Columbia continuing resolution or a regular District of Columbia appropriation bill is in effect, local funds are appropriated in the amount provided for any project or activity for which local funds are provided in the Fiscal Year 2021 Budget Request Act of 2020 as submitted to Congress (subject to any modifications enacted by the District of Columbia as of the beginning of the period during which this subsection is in effect) at the rate set forth by such Act.

(b) Appropriations made by subsection (a) shall cease to be available—

(1) during any period in which a District of Columbia continuing resolution for fiscal year 2021 is in effect; or

(2) upon the enactment into law of the regular District of Columbia appropriation bill for fiscal year 2021.

(c) An appropriation made by subsection (a) is provided under the authority and conditions as provided under this Act and shall be available to the extent and in the manner that would be provided by this Act.

(d) An appropriation made by subsection (a) shall cover all obligations or expenditures incurred for such project or activity during the portion of fiscal year 2021 for which this section applies to such project or activity.

(e) This section shall not apply to a project or activity during any period of fiscal year 2021 if any other provision of law (other than an authorization of appropriations)—

(1) makes an appropriation, makes funds available, or grants authority for such project or activity to continue for such period; or

(2) specifically provides that no appropriation shall be made, no funds shall be made available, or no authority shall be granted for such project or activity to continue for such period.

(f) Nothing in this section shall be construed to affect obligations of the government of the District of Columbia mandated by other law.

SEC. 817. Except as expressly provided otherwise, any reference to "this Act" contained in this title or in title IV shall be treated as referring only to the provisions of this title or of title IV.

SEC. 818. None of the funds made available by this Act may be used to carry out the Death with Dignity Act of 2016 (D.C. Law 21–182) or to implement any rule or regulation promulgated to carry out such Act.

SEC. 819. None of the funds made available by this Act may be used to carry out the Reproductive Health Non-Discrimination Amendment Act of 2014 (D.C. Law 20–261) or to implement any rule or regulation promulgated to carry out such Act.

The Election Assistance Commission assists State and local election officials by testing and certifying election equipment, sharing best practices to improve the administration of Federal elections, and providing them with information about the voting system standards established by the Help America Vote Act of 2002 (P.L. 107–252). Of the amounts proposed for 2020, \$1.5 million will be transferred to the National Institute of Standards and Technology to support the Technical Guidelines Development Committee in developing a comprehensive set of testing guidelines for voting system hardware and software.

The Equal Employment Opportunity Commission (EEOC) is the Federal agency responsible for enforcement of: Title VII of the Civil Rights Act of 1964, as amended; the Age Discrimination in Employment Act of 1967; the Equal Pay Act of 1963; the Americans with Disabilities Act of 1990 (ADA); the Civil Rights Act of 1991; the Genetic Information Non-Discrimination Act of 2008; the ADA Amendments Act of 2008; the Lilly Ledbetter Fair Pay Act of 2009; and in the Federal sector only, section 501 of the Rehabilitation Act of 1973. These Acts prohibit employment discrimination based on race, sex, religion, national origin, age, disability status, or genetic information. EEOC is also responsible for carrying out Executive Order 12067, which promotes coordination and minimizes conflict and

The 2020 Budget is an opportunity to advance the work the Commission began with the adoption of the Strategic Plan for 2018–2022. The strategic plan outlines a framework for achieving the EEOC's mission to "Prevent and Remedy Unlawful Employment Discrimination and advance equal opportunity for all in the workplace". The plan's strategic objectives include: 1) Combat and prevent employment discrimination through strategic law enforcement; and 2) Prevent employment discrimination and promote inclusive workplaces through education and outreach. The Budget will permit EEOC to improve efficiencies through data resource consolidation, promote knowledge sharing, and foster communication to avoid unnecessary duplication of effort and continue its standards of providing quality service to the public through enforcement and prevention activities. EEOC's enforcement responsibilities are in two areas: The private sector and the Federal sector.

Private sector.—EEOC addresses equal employment opportunity in several ways. The agency investigates charges alleging employment discrimination; makes findings on the allegations; resolves charges through mediation; negotiates settlement or conciliation; and litigates cases of employment discrimination by enforcing compliance with existing laws and regulations. The priority for agency resources continues to be litigating systemic cases and maintaining a manageable inventory of cases.

PROGRAM ACCOUNT

The Export-Import Bank (the Bank) of the United States is authorized to make such expenditures within the limits of funds and borrowing authority available to such corporation, and in accordance with law, and to make such contracts and commitments without regard to fiscal year limitations, as provided by section 104 of the Government Corporation Control Act, as may be necessary in carrying out the program for the current fiscal year for such corporation: Provided, That none of the funds available during the current fiscal year may be used to make expenditures, contracts, or commitments for the export of nuclear equipment, fuel, or technology to any country, other than a nuclear-weapon state as defined in Article IX of the Treaty on the Non-Proliferation of Nuclear Weapons eligible to receive economic or military assistance under this Act, that has detonated a nuclear explosive after the date of the enactment of this Act.

ADMINISTRATIVE EXPENSES

For administrative expenses to carry out the direct and guaranteed loan and insurance programs, including hire of passenger motor vehicles and services as authorized by section 3109 of title 5, United States Code, and not to exceed \$30,000 for official reception and representation expenses for members of the Board of Directors, not to exceed \$95,500,000 of which up to \$14,325,000 shall remain available until September 30, 2021: Provided, That the Export-Import Bank (the Bank) may accept, and use, payment or services provided by transaction participants for legal, financial, or technical services in connection with any transaction for which an application for a loan, guarantee or insurance commitment has been made: Provided further, That notwithstanding chapter 51, subchapter III of chapter 53, and section 5373 of title 5, United States Code, the Board of Directors of the Export-Import Bank of the United States may set an employee's rate of basic pay up to the rate for level III of the Executive Schedule, and this authority may be applied to no more than 35 employees at any point in time and shall remain in effect until September 30, 2020: Provided further, That the Bank shall charge fees for necessary expenses (including special services performed on a contract or fee basis, but not including other personal services) in connection with the collection of moneys owed the Bank, repossession or sale of pledged collateral or other assets acquired by the Bank in satisfaction of moneys owed the Bank, or the investigation or appraisal of any property, or the evaluation of the legal, financial, or technical aspects of any transaction for which an application for a loan, guarantee or insurance commitment has been made, or systems infrastructure directly supporting transactions: Provided further, That in addition to other funds appropriated for administrative expenses, such fees shall be credited to this account for such purposes, to remain available until expended.

RECEIPTS COLLECTED

Receipts collected pursuant to the Export-Import Bank Act of 1945, as amended, and the Federal Credit Reform Act of 1990, as amended, in an amount not to exceed

EXPORT-IMPORT BANK LOANS PROGRAM ACCOUNT—Continued

the amount appropriated herein, shall be credited as offsetting collections to this account: Provided, That the sums herein appropriated from the General Fund shall be reduced on a dollar-for-dollar basis by such offsetting collections so as to result in a final fiscal year appropriation from the General Fund estimated at \$0.

CANCELLATION

Of the unobligated balances available under the heading "Export and Investment Assistance, Export-Import Bank of the United States, Subsidy Appropriation" for tied-aid grants from prior Acts making appropriations for the Department of State, foreign operations, and related programs, \$106,000,000 are hereby permanently cancelled.

Note.—A full-year 2019 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Continuing Appropriations Act, 2019 (Division C of P.L. 115–245, as amended). The Export-Import Bank of the United States (EXIM or the Bank) is the official export credit agency of the United States. EXIM is an independent, Federal agency that supports American jobs by facilitating the export of U.S. goods and services. To accomplish its objectives, the Bank's authority and resources are used to: assume commercial and political risks that exporters or private institutions are unwilling or unable to undertake; overcome maturity and other limitations in private sector export financing; assist U.S. exporters to meet officially sponsored foreign export credit competition; and provide leadership and guidance in export financing to the U.S. exporting and banking communities and to foreign borrowers. The Bank provides its export credit support through direct loan, loan guarantee, and insurance programs.

The 2020 Budget estimates that the Bank's export credit support will total \$23.0 billion, and will be funded entirely by receipts collected from the Bank's customers. The Bank estimates it will collect \$607.0 million in 2020 in receipts in excess of expected losses on transactions authorized in 2020 and prior years. These amounts will be used to cover administrative expenses in an amount not to exceed \$95.5 million. Any excess will be deposited in the General Fund of the Treasury. The 2020 Budget requests \$0 in subsidy costs and cancels \$106.0 million in the Tied Aid Fund.

As required by the Federal Credit Reform Act of 1990, this account records the subsidy costs associated with direct loans and direct grants obligated, and loan guarantees and insurance committed in 1992 and beyond, as well as administrative expenses. The subsidy amounts are estimated on a present value basis; administrative expenses are estimated on a cash basis.

EXIM's liquidating account records all cash flows to and from the Government resulting from all EXIM direct loans obligated and loan guarantees committed prior to 1992. This account is shown on a cash basis and reflects the transactions resulting from loans provided to finance exports. No new loan disbursements are made from this account. Certain collections made into this account are made available for default claim payments. The Federal Credit Reform Act provides permanent indefinite authority to cover obligations for default payments if the liquidating account funds are otherwise insufficient. All new EXIM credit activity in 1992 and after (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year) is recorded in corresponding program and financing accounts.

The Farm Credit Administration (FCA) is an independent Federal agency that examines and regulates the Farm Credit System (System) for safety and soundness and program compliance. The System is a cooperative agricultural credit system of farm credit banks and associations that lend to farmers, ranchers, and their cooperatives; farm-related businesses; rural homeowners; and rural utilities. FCA also performs the examination and general supervision of Farmer Mac. In addition, FCA examines the National Consumer Cooperative Bank, which is not a System institution.

As of October 1, 2018, the System was composed of three Farm Credit Banks, one Agricultural Credit Bank, 69 associations, five service corporations, the Federal Farm Credit Banks Funding Corporation, and Farmer Mac.

Assessments based upon estimated administrative expenses are collected from institutions in the System, including Farmer Mac, and are available for administrative expenses. Obligations are incurred within fiscal year budgets approved by the FCA Board. Section 6(g)(1) of the Inspector General Act of 1978, as amended, (IG Act) requires an Inspector General (IG) to include specific information in the budget request that the IG submits to its designated Federal entity to which the IG reports. To fulfill the requirement of Section 6(g)(2) of the IG Act as it pertains to FCA, the FCA Board must in turn include this same information in the budget request that the Agency submits to the President.

The information that the IG Act requires to be included is provided below:
The aggregate budget request for the Office of Inspector General (OIG) is \$1,742,065.

The amount needed for OIG training is \$20,000.

The amount needed to support the Council of the Inspectors General on Integrity and Efficiency is \$4,500.

The FCA IG's budget request for 2020 is being submitted unchanged by the FCA Board.

The Farm Credit System Insurance Corporation (Corporation) was established to ensure the timely payment of principal and interest on insured Farm Credit System (System) debt obligations purchased by investors. The Corporation is managed by a three member Board of Directors that consists of the same individuals as the Farm Credit Administration Board. The Corporation derives its revenues from insurance premiums collected from insured System banks and from the investment income earned on its investment portfolio. Insurance premiums are assessed on System banks based on the level of adjusted insured obligations outstanding at each bank. Congress established a secure base amount of 2 percent of adjusted outstanding insured System obligations, or such other amount determined by the Corporation's Board of Directors to be actuarially sound to maintain in the Insurance Fund. After the first three quarters of 2018, the Insurance Fund was \$230 million above the 2 percent secure base amount as of September 30, 2018 at 2.10 percent. For 2018, the Corporation is assessing insurance premiums at 9 basis points on adjusted insured debt obligations and 10 basis points on non-accrual loans and other-than-temporarily impaired investments. Changes to the Corporation's premium authorities were included in the Food, Conservation, and Energy Act of 2008. The authorities changed the assessment base from loans to adjusted insured obligations and raised the assessment limit to 20 basis points, plus an additional 10 basis points on non-accrual loans and other-than-temporarily impaired investments. In January 2019, the Corporation's Board will determine the insurance premium rates for 2019.

The Insurance Fund is available for payment of insured System obligations if a System bank defaults on its primary liability. The Insurance Fund is also available to ensure the retirement of certain eligible borrower stock, and to pay the operating costs of the Corporation. The Corporation can exercise its authority to make loans, borrow, purchase System bank assets or obligations, provide other financial assistance and otherwise act to reduce its exposure to losses.

The Federal Communications Commission (FCC or Commission) works to ensure that rapid and efficient communications are available across the country at a reasonable cost. In support of this mission, the FCC's strategic goals include closing the digital divide, promoting innovation, protecting consumers and public safety, and reforming the FCC's processes to reduce regulatory burdens and make the agency more transparent. The 2020 Budget includes an overall request of \$336 million to fund the Commission. Of that amount, the requested funding for the FCC's Inspector General is \$11 million.

The Commission is also requesting \$133 million for the Spectrum Auctions Program for 2020. The Budget proposes to make additional spectrum available for commercial use via an auction. Additional auction proceeds are expected to exceed \$6 billion through 2029. Additionally, following successful completion of the National Oceanic and Atmospheric Administration (NOAA) Spectrum Pipeline Plan, the Budget proposes that the Commission exercise auction authority to assign spectrum frequencies between 1675–1680 megahertz for wireless broadband use subject to sharing arrangements with Federal weather satellites. The proposal is expected to raise \$600 million in receipts over 10 years.

Pursuant to the Communications Act of 1934, as amended by the Telecommunications Act of 1996 (1996 Act), all telecommunications service providers and certain other providers of telecommunications contribute to the Federal Universal Service Fund (USF) based on a percentage of their interstate and international end-user telecommunications revenues. These companies include wireline phone companies, wireless phone companies, paging service companies and certain Voice over Internet Protocol (VoIP) providers. The goals of USF are to increase access to both telecommunications and advanced services, such as high-speed Internet, for all consumers at just, reasonable and affordable rates. The 1996 Act established principles for universal service that specifically focused on increasing access to evolving services for consumers living in rural and insular areas, and for consumers with low incomes. Additional principles called for increased access to high-speed Internet in the nation's schools, libraries and rural health care facilities. The FCC established four programs within the USF to implement the statute. The four programs are: (1) High Cost—ensures consumers in rural, insular, and high cost areas have access to modern communications networks capable of providing voice and broadband service, both fixed and mobile, at rates that are reasonably comparable to those in urban areas; (2) Lifeline (for low-income consumers)—includes initiatives to expand phone service for residents of Tribal lands and provides a monthly benefit on home or wireless phone and broadband service to eligible households; (3) Schools and Libraries (E-rate)—provides funding to schools and libraries to obtain, among other things, telecommunications services, and broadband; and (4) Rural Health Care—provides funding to eligible health care providers for telecommunications and broadband services necessary for the provision of health care.

This program provided direct loans for the purpose of purchasing spectrum licenses at the Federal Communications Commission's auctions. The li-

censes were purchased on an installment basis, which constitutes an extension of credit. The first year of activity for this program was 1996. As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the direct loans obligated in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis and administrative expenses are estimated on a cash basis. The FCC no longer offers credit terms on purchases through spectrum auctions. Program activity relates to maintenance and close-out of existing loans.

SPECTRUM LICENSE USER FEE

To promote efficient use of the electromagnetic spectrum, the Administration proposes to provide the FCC with new authority to use other economic mechanisms, such as fees, as a spectrum management tool. The FCC would be authorized to set user fees on unauctioned commercial spectrum licenses based on spectrum-management principles. Fees would be phased in over time as part of an ongoing rulemaking process to determine the appropriate application and level for fees. Fee collections are estimated to begin in 2020 and total \$4.0 billion through 2029.

ADMINISTRATIVE PROVISIONS

SEC. 501. Section 302 of the Universal Service Antideficiency Temporary Suspension Act is amended by striking "December 31, 2019", each place it appears and inserting "December 31, 2021".

SEC. 502. None of the funds appropriated by this Act may be used by the Federal Communications Commission to modify, amend, or change its rules or regulations for universal service support payments to implement the February 27, 2004 recommendations of the Federal-State Joint Board on Universal Service regarding single connection or primary line restrictions on universal service support payments.

FEDERAL DEPOSIT INSURANCE CORPORATION

The Federal Deposit Insurance Corporation (FDIC) was created by the Banking Act of 1933 to provide protection for bank depositors and to foster sound banking practices. The Federal Deposit Insurance Corporation Improvement Act of 1991 generally requires the FDIC to use the least costly method to resolve failed banks and mandates that the FDIC take prompt corrective action against under-capitalized financial institutions. To protect depositors, the FDIC is authorized to promulgate and enforce rules and regulations relating to the supervision of insured institutions and to perform other regulatory and supervisory duties consistent with its responsibilities as an insurer.

The Financial Institutions Reform, Recovery, and Enforcement Act of 1989 or FIRREA (P.L. 101-73) established the Bank Insurance Fund (BIF),

the Savings Association Insurance Fund (SAIF), and the Federal Savings and Loan Insurance Corporation (FSLIC) Resolution Fund (FRF). Under the Deposit Insurance Reform Act of 2005, the BIF and SAIF were merged into a new Deposit Insurance Fund (DIF) in 2006.

The primary purpose of the Deposit Insurance Fund (DIF) is to insure deposits and protect the depositors of failed banking institutions. Under the Deposit Insurance Reform Act of 2005, the FDIC's Bank Insurance Fund (BIF) and its Savings Association Insurance Fund (SAIF) were merged into the new DIF on March 31, 2006. Through the DIF, the FDIC resolves and recovers funds disbursed from the assets of failed institutions. The FDIC is authorized to charge risk-based premiums on member institutions to restore and maintain adequate fund reserves, defined as a designated percentage of estimated insured deposits set by the FDIC before the beginning of each year. The Dodd-Frank Wall Street Reform and Consumer Protection Act (the Act) (P.L. 111–203), enacted July 21, 2010, increased the minimum DIF reserve ratio (ratio of the DIF balance to total insured deposits) to 1.35 percent, up from 1.15 percent. In addition to raising the minimum reserve ratio, the Act also: 1) eliminated the FDIC's requirement to rebate premiums when the reserve ratio is between 1.35 and 1.5 percent; 2) gave the FDIC discretion to suspend or limit rebates when the DIF reserve ratio is at least 1.5 percent, effectively removing the 1.5 percent cap on the DIF; 3) required the FDIC to offset the effect on small insured depository institutions (defined as banks with assets less than \$10 billion) when setting assessments to raise the reserve ratio from 1.15 to 1.35 percent; and 4) permanently increased the insured deposit level to \$250,000 at banks insured by the FDIC. The FDIC Board has issued a final rule setting a long-term (greater than 10 years) reserve ratio target of 2 percent, with the goal of maintaining a positive fund balance during any future economic crises and maintaining a moderate, steady, long-term assessment rate that provides transparency and predictability to the banking sector.

As of September 30, 2018, the DIF balance stood at \$100.2 billion on an accrual basis, measuring expected losses to current balances. This level is equivalent to a reserve ratio of 1.36 percent. The growth in the DIF balance reflects projections of bank failures in line with historical experience and assessment revenue required to increase the reserve ratio over time.

Pursuant to the Act, the restoration period for the DIF reserve ratio to reach 1.35 percent was extended to 2020. (Prior to the Act, the DIF reserve ratio was required to reach the minimum target of 1.15 percent by 2016.) The DIF reserve ratio reached the statutorily required level of 1.35 percent by September 30, 2018, in accordance with FDIC regulation.

The FSLIC Resolution Fund (FRF) is the ultimate successor to FSLIC assets and liabilities from thrift resolutions prior to August 1989. Beginning in August 1989, the Resolution Trust Corporation (RTC) assumed responsibility for the FSLIC's unresolved cases. On December 31, 1995, the RTC was terminated and its assets and liabilities were transferred to FRF.

Funds for FRF operations have come from: 1) income earned on its assets; 2) liquidation proceeds from receiverships; 3) the proceeds of the sale of bonds by the Financing Corporation; and 4) a portion of insurance premiums paid by Savings Association Insurance Fund (SAIF) members prior to 1993. The Financial Institutions Reform, Recovery, and Enforcement Act or FIRREA (P.L. 101–73) authorizes appropriations to make up for any shortfall. Currently, the FRF consists of two distinct pools of assets and liabilities. One is composed of the assets and liabilities of the FSLIC transferred to the FRF (FRF-FSLIC) and the other is composed of the RTC assets and liabilities (FRF-RTC). The assets of one pool are not available to satisfy obligations of the other. The FRF will continue operations until all of its assets are sold or otherwise liquidated and all its liabilities are satisfied. Any funds remaining in the FRF-FSLIC will be paid to the U.S. Treasury. Any remaining funds of the FRF-RTC will be distributed to the Resolution Funding Corporation to pay interest on its bonds.

Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act (P.L. 111-203) established an Orderly Liquidation Authority (OLA) permitting the appointment of the FDIC as receiver of financial companies whose failure and resolution under otherwise applicable Federal or State law is determined to have serious adverse effects on financial stability in the United States. The Federal Reserve Board and the FDIC, the Securities and Exchange Commission (for brokers or dealers) or the Federal Insurance Office (for insurance companies) must recommend in writing that the Secretary of the Treasury appoint the FDIC as the company's receiver.

The Secretary of the Treasury must then, in consultation with the President, determine whether seven criteria authorizing the appointment of the FDIC as receiver for the failing financial company have been satisfied,

including finding that resolution under otherwise applicable law would have serious adverse effects on financial stability in the United States.

The FDIC's Office of Inspector General (FDIC OIG) is an independent unit within the FDIC that conducts audits, evaluations, and investigations of corporate activities. In addition, the OIG assists the FDIC in preventing and detecting fraud, waste, abuse, and mismanagement. The OIG was established by the FDIC Board pursuant to the Inspector General Act amendments of 1988 (P.L. 100-504). The Resolution Trust Corporation Completion Act (P.L. 103-204), enacted December 17, 1993, provided that the FDIC Inspector General be appointed by the President and confirmed by the Senate. The Completion Act thus added the FDIC to the list of establishments whose OIGs have separate appropriation accounts under Section 1105(a) of Title 31, United States Code, thereby safeguarding FDIC OIG's independence. Assessments paid to the Deposit Insurance Fund (DIF) by insured financial institutions, and administered by the FDIC, fully fund FDIC OIG's appropriation. To the extent that FDIC OIG performs work in connection with the FSLIC Resolution Fund (FRF), the cost of such work is derived from the FRF.

The High Intensity Drug Trafficking Areas (HIDTA) program was established by the Anti-Drug Abuse Act of 1988 to provide assistance to Federal, State, local, and tribal law enforcement entities operating in those areas most adversely affected by drug trafficking.

For 2020, the Budget proposes to transfer the HIDTA program from the Office of National Drug Control Policy (ONDCP) to the Department of Justice. This proposal will enable ONDCP to focus resources on its core mission: to reduce drug use and its consequences by leading and coordinating the development, implementation, and assessment of U.S. drug policy.

This account is for other drug control activities authorized by the Office of National Drug Control Policy Reauthorization Act of 1998, as amended through Public Law 115–271. The funds appropriated to the program support high-priority drug control programs and may be transferred to drug control agencies.

For 2020, the Budget proposes to transfer the Drug-Free Communities Support Program (DFC) from ONDCP to the Department of Health and Human Services. This proposal will enable ONDCP to focus resources on its core mission: to reduce drug use and its consequences by leading and coordinating the development, implementation, and assessment of U.S. drug policy.

Anti-Doping Efforts, to include World Anti-Doping Agency (WADA) Dues.—This funding continues the effort to educate athletes on the dangers of drug use and to eliminate illegal drug use in Olympic and associated sports in the United States. WADA was established in 1999 as an international independent agency composed and funded equally by the sports movement and governments of the world. Its key activities include scientific research, education, development of anti-doping capacities, and monitoring of the World Anti-Doping Code—the document harmonizing anti-doping policies in all sports and all countries. ONDCP represents the United States before the agency and is responsible for the payment of U.S. dues.

For 2020, ONDCP is proposing to combine grant funding supporting domestic anti-doping activities and WADA dues payments into a single "Anti-Doping Activities" program account. This approach will enable the United States Government to strategically allocate financial resources for these activities to best promote drug-free sport and protect the health of athletes. Consolidating this funding will enable a more rigorous review process for any proposed increases in WADA dues amounts. This will ensure that WADA operates with increased transparency and begins to utilize models of good governance, including addressing potential conflicts of interest and increasing the role of athletes in agency decision-making. The United States will continue to exert its leadership to support only those dues increases that are linked to budgets that are focused on core anti-doping requirements, fiscally necessary, equitable among WADA's stakeholders, and in support of appropriate governance reforms. ONDCP will continue to support WADA's ongoing investigation into state-sponsored doping schemes and its implementation of a revised World Anti-Doping Code in 2020.

The Federal Election Commission is responsible for facilitating transparency in the Federal election process through public disclosure of campaign finance activity and for encouraging voluntary compliance with the Federal Election Campaign Act by providing information and policy guidance

about the Act and Commission regulations to the public, media, political committees, and election officials. The Commission is also responsible for enforcing the Act through audits, investigations, and civil litigation, and for developing the law by administering and interpreting the Act, the Presidential Election Campaign Fund Act, and the Presidential Primary Matching Payment Account Act.

The Commission is authorized to submit, concurrently, budget estimates to the President and the Congress.

The Federal Financial Institutions Examination Council (the Council) was established in 1979 pursuant to the Financial Institutions Regulatory and Interest Rate Control Act of 1978 (FIRA) (P.L. 95-630). In 1989, pursuant to the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA) (P.L. 101-73), the Appraisal Subcommittee (ASC) was established within the Council. The Council has limited specified responsibilities regarding the ASC.

The Council is a formal interagency body empowered to prescribe uniform principles, standards, and report forms for the Federal examination of financial institutions; to make recommendations to promote uniformity in the supervision of financial institutions; and to conduct examiner training. Council members include a member of the Board of Governors of the Federal Reserve System, the Chairman of the Federal Deposit Insurance Corporation, the Chairman of the National Credit Union Administration, the Comptroller of the Currency, the Director of the Consumer Financial Protection Bureau, and the Chairman of the State Liaison Committee, which is made up of five representatives from state regulatory agencies that supervise financial institutions.

In addition to its responsibilities under FIRA and FIRREA, the Council was given responsibilities by the Housing and Community Development Act of 1980 (P.L. 96-399) and the Economic Growth and Regulatory Paperwork Reduction Act of 1996 (P.L. 104-208).

The Budget estimates the Council will spend approximately \$16 million during 2020 from resources provided by its Federal members and other fees and reimbursements.

The Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (P.L. 101–73) established the Appraisal Subcommittee of the Federal Financial Institutions Examination Council (ASC). The ASC is composed of representatives of the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation, the National Credit Union Administration, the Office of the Comptroller of the Currency, the Department of Housing and Urban Development, the Consumer Financial Protection Bureau, and the Federal Housing Finance Agency.

The ASC is charged with ensuring that real estate appraisals used in federally-related transactions are performed in accordance with uniform standards by appraisers certified and licensed by the states. Its responsibilities include: 1) monitoring the requirements established by the states for the certification and licensing of appraisers and the registration and supervision of the operations and activities of appraisal management companies; 2) monitoring the requirements established by the Federal financial institutions' regulatory agencies regarding appraisal standards for federally-related transactions under their jurisdiction; 3) monitoring and reviewing the practices, procedures, activities, and organization of the Appraisal Foundation; 4) maintaining the National Registry of licensed and certified appraisers and appraisal management companies; 5) transmitting an annual report to Congress no later than June 15 of each year; and 6) making grants to the Appraisal Foundation and state appraiser certifying and licensing agencies.

The ASC's activities, including grants awarded to the Appraisal Foundation, were initially funded from a one-time appropriation of \$5 million. These funds were repaid to Treasury in 1998. The ASC is now operating on fee income from 1) appraisal management companies and 2) state-licensed and state-certified real estate appraisers in the National Registry. The Budget projects that the ASC will spend approximately \$4 million in 2019.

The Federal Housing Finance Agency (FHFA) is the regulator of the housing Government-Sponsored Enterprises (GSEs) which include Fannie Mae, Freddie Mac, and the eleven Federal Home Loan Banks. FHFA was established by the Housing and Economic Recovery Act of 2008 (P.L. 110-289) which amended the Federal Housing Enterprise Safety and Soundness Act of 1992. FHFA's strategic goals are: 1) Safe and Sound Housing GSEs; 2) Liquidity, Stability and Access in Housing Finance; and 3) Management of the Enterprises' Ongoing Conservatorships. FHFA receives direct funding for its activities from mandatory assessments on the GSEs.

The Federal Labor Relations Authority (FLRA) is an independent administrative Federal agency created by Title VII of the Civil Service Reform Act of 1978 (the Statute) with a mission to carry out five statutory responsibilities: 1) determining the appropriateness of units for labor organization representation; 2) resolving complaints of unfair labor practices; 3) adjudicating exceptions to arbitrators' awards; 4) adjudicating legal issues relating to duty to bargain; and 5) resolving impasses during negotiations. All

work throughout the agency is undertaken to support a single program—to administer and enforce the Statute by determining the respective rights of employees, agencies, and labor organizations in their relations with one another.

FLRA's authority is divided by law and by delegation among a three-member Authority and an Office of General Counsel, appointed by the President and subject to Senate confirmation; and the Federal Service Impasses Panel, which consists of seven part-time members appointed by the President.

FLRA does not initiate cases. Proceedings before FLRA originate from filings arising through the actions of Federal employees, Federal agencies, or Federal labor organizations. Nationwide, FLRA includes five Regional Offices and a Headquarters site in Washington, D.C.

Authority.—The Authority adjudicates appeals filed by either Federal agencies or Federal labor organizations on negotiability issues, exceptions to arbitration awards, appeals of representation decisions, eligibility of labor organizations for national consultation rights, and unfair labor practice complaints.

Office of the General Counsel.—The General Counsel investigates allegations of unfair labor practices and processes representation petitions. In addition, the General Counsel conducts elections concerning the exclusive recognition of labor organizations and certifies the results of elections.

Federal Service Impasses Panel.—The Panel resolves labor negotiation impasses between Federal agencies and labor organizations.

The Federal Maritime Commission (FMC or Commission) regulates oceanborne transportation in the foreign commerce of the United States. The Commission administers the Shipping Act of 1984 (1984 Act) as amended by the Ocean Shipping Reform Act of 1998 (OSRA); section 19 of the Merchant Marine Act, 1920 (1920 Act); the Foreign Shipping Practices Act of 1988 (FSPA); and Sections 2 and 3 of Public Law 89-777. The Commission monitors the activities of ocean common carriers, marine terminal operators (MTOs), ports, and ocean transportation intermediaries who operate in U.S. foreign commerce to ensure that they maintain just and reasonable practices.

Ocean Transportation Intermediaries (OTIs).—The Commission issues licenses to qualified OTIs operating in the United States and ensures that U.S. OTIs are bonded or maintain other evidence of financial responsibility.

Passenger Vessel Operators.—The Commission ensures that passenger vessel operators demonstrate adequate financial responsibility to indemnify passengers in the event of nonperformance of voyages or passenger injury or death.

Shipping Act Compliance.—The FMC maintains trade monitoring and enforcement programs designed to assist regulated entities in achieving compliance and to detect and appropriately remedy malpractices and violations of the prohibited acts set forth in section 10 of the 1984 Act; offers a dispute resolution program to resolve disputes impeding the transportation of cargo; reviews competitive activities of common carrier alliances and other agreements among common carriers and/or terminal operators; monitors the laws and practices of foreign governments which could have a discriminatory or otherwise adverse impact on shipping conditions in U.S. trades, and imposes remedial action, as appropriate, pursuant to section 19 of the 1920 Act or FSPA; enforces special regulatory requirements applicable to carriers owned or controlled by foreign governments; processes and reviews agreements, service contracts, and service arrangements pursuant to the 1984 Act for compliance with statutory requirements; and reviews common carriers' privately published tariff systems for accessibility, accuracy, and reasonable terms.

The Federal Mediation and Conciliation Service (FMCS) provides assistance to parties in labor disputes in industries affecting commerce through conciliation and mediation.

Dispute Mediation.—FMCS assists labor and management in the mediation and prevention of disputes, other than those involving rail and air transportation, whenever such disputes threaten to cause a substantial interruption of interstate commerce or a major impairment to the national defense. FMCS also makes mediation and conciliation services available to Federal agencies and organizations representing Federal employees in the resolution of negotiation disputes. FMCS provides mandatory mediation and, where necessary, impartial boards of inquiry to assist in resolving labor disputes involving private nonprofit health care institutions. The workload shown below includes assignments in both the private and public sectors. These numbers include collective bargaining and grievance mediation.

Total preventive mediation cases conducted	1,941	1,956	1,815	2,200	2,200

Preventive Mediation, Public Information, and Educational Activities.—Through its preventive mediation program, FMCS initiates and develops labor-management committees, training programs, conferences, and specialized workshops dealing with issues in collective bargaining. Mediators also participate in education, advocacy and outreach activities such as lectures, seminars, and conferences.

Arbitration Services.—FMCS assists parties in disputes by utilizing the arbitration process for the resolution of disputes arising under or in the negotiation of collective bargaining agreements in the private and public sectors.

Management and Administrative Support.—This activity provides for overall management and administration, policy planning, research and evaluation, and employee development.

Labor-Management Cooperation Project.—The Labor Management Cooperation Act of 1978 (29 U.S.C. 175a) authorizes FMCS to carry out this program of contracts and grants to support the establishment and operation of plant, area, and industry labor-management committees.

Alternative Dispute Resolution (ADR) Projects.—FMCS assists other Federal agencies by providing mediation and technical assistance in the area of ADR. The ADR cases reduce litigation costs and speed Federal

processes. FMCS is funded for this work through interagency reimbursable agreements.

The FTC's mission is to protect consumers and competition by preventing anticompetitive, deceptive, and unfair business practices through law enforcement, advocacy, and education without unduly burdening legitimate business activity. The FTC's mission is based on a vision of a vibrant economy characterized by vigorous competition and consumer access to accurate information.

Protect Consumers.—This goal is to prevent fraud, deception, and unfair business practices in the marketplace. The agency works to accomplish this goal through three objectives: 1) Identify and take actions to address deceptive or unfair practices that harm consumers; 2) Provide the public with knowledge and tools to prevent harm to consumers; and 3) Collaborate with domestic and international partners to enhance consumer protection.

Promote Competition.—This goal is to prevent anticompetitive mergers and other anticompetitive business practices in the marketplace. The agency works to accomplish this goal through three objectives: 1) Identify and take actions to address anticompetitive mergers and practices that harm

consumers; 2) Engage in effective research and stakeholder outreach to promote competition, advance its understanding, and create awareness of its benefits to consumers; and 3) Collaborate with domestic partners and international partners to preserve and promote competition.

The 2020 Budget includes a program level for the Commission of \$312.3 million, funded by \$161.3 million from the General Fund of the U.S. Treasury and offsetting collections from two sources: \$136 million from fees for Hart-Scott-Rodino Act premerger notification filings as authorized by 15 U.S.C. 18a and \$15 million from fees sufficient to implement and enforce the Telemarketing Sales Rule, promulgated under the Telemarketing and Consumer Fraud and Abuse Prevention Act (15 U.S.C. 6101 et seq., as amended).

The Resources and Ecosystems Sustainability, Tourist Opportunities, and Revived Economies of the Gulf Coast States Act of 2012, or the RESTORE Act, dedicates 80 percent of any civil and administrative penalties paid under the Clean Water Act by responsible parties in connection with the Deepwater Horizon oil spill to the Gulf Coast Restoration Trust Fund (the Trust Fund). These funds may be used for ecosystem restoration, economic recovery, and tourism promotion in the Gulf Coast region.

In addition to establishing the Trust Fund, the RESTORE Act established the Gulf Coast Ecosystem Restoration Council (the Council). The Council has oversight over the expenditure of sixty percent of the funds made available from the Trust Fund. Thirty percent will be administered for restoration and protection according to the Comprehensive Plan developed by the Council. The other thirty percent will be allocated to the States according to a formula set forth in the RESTORE Act and spent according to individual State expenditure plans to contribute to the overall economic and ecological recovery of the Gulf. The Council includes the Governors of the States of Alabama, Florida, Louisiana, Mississippi and Texas and the Secretaries of the U.S. Departments of Agriculture, Army, Commerce, Homeland Security and the Interior, and the Administrator of the U.S. Environmental Protection Agency.

Public Law 93–642 established the Harry S Truman Scholarship Foundation to operate the scholarship program that is the permanent Federal memorial to the 33rd President of the United States. Appropriations in 1975 and 1976, totaling \$30 million, established the Foundation's trust fund. The funds have been invested by the Secretary of the Treasury in U.S. Treasury securities, and the interest earned on these funds is available for carrying out the activities of the Foundation. For several years, the Foundation has also received appropriations that are deposited in the trust fund and available for obligation. The Budget proposes no new federal funding for the Foundation in FY 2020.

The Foundation awards scholarships for qualified students who demonstrate outstanding potential for and interest in careers in public service at the local, State, or Federal level or in the non-profit sector. In its annual competition, the Foundation selects up to 60 new Truman Scholars. The maximum award is \$30,000 toward a graduate level degree program.

Scholarship awards.—This activity is comprised of scholarships awarded to cover eligible educational expenses.

Program administration.—This activity covers all costs of operating the program, including annual program announcement, interview and selection of Truman Scholars, calculation and disbursement of scholarship awards, monitoring of student progress, and special services and activities for scholars, including an orientation week for new scholars, a summer education and internship program, and workshops and conferences.

Title XV of Public Law 99–498 established the Institute of American Indian and Alaska Native Culture and Arts Development as an independent non-profit educational institution. The mission of the Institute is to serve as a multi-tribal center of higher education for Native Americans and is dedicated to the study, creative application, preservation and care of Indian arts and culture. The Institute is federally chartered and under the direction and control of a Board of Trustees appointed by the President of the United States.

Payment to the Institute.—This activity supports the operations of the Institute.

The Budget proposes to eliminate funding for several independent agencies, including the Institute of Museum and Library Services (IMLS), as part of the Administration's plan to move the Nation towards fiscal responsibility and to redefine the proper role of the Federal Government. The Budget requests \$23,000,000 to conduct an orderly closeout of IMLS beginning in fiscal year 2020.

The Intelligence Community Management Account (ICMA) provides resources that directly support the Director of National Intelligence (DNI) and the Intelligence Community (IC) as a whole in leading intelligence integration, coordinating cross-program activities, and improving budget oversight. The ICMA funds selected oversight elements such as the National Intelligence Council, the President's Daily Briefing Staff, and other enterprise-wide functions.

These oversight elements are the DNI's principal source of advice and assistance in planning and executing his intelligence community management responsibilities. These responsibilities include: developing the National Intelligence Program budget, developing intelligence plans and requirements, and overseeing research and development activities. The National Intelligence Council provides analytical support to the DNI and to national policy makers. The President's Daily Briefing Staff supports the production of the daily intelligence briefing that is provided to the President and his senior staff.

The U.S. International Trade Commission (Commission) is an independent, nonpartisan Federal agency with broad investigative responsibilities on matters of trade. In accordance with its statutory mandate, the Commission investigates and makes determinations in proceedings involving imports claimed to injure a domestic industry or violate U.S. intellectual property rights; provides independent analysis and information on tariffs, trade, and competitiveness; and maintains the U.S. tariff schedule.

For FY 2020, the Commission requests an appropriation of \$101.0 million to support its authorized operations. Pursuant to section 175 of the Trade Act of 1974, the budget estimates for the Commission are transmitted to Congress without revision by the President. The Administration's FY 2020 request for the Commission is \$91.1 million, reflected in the Appendix table and appropriations language.

Although the Commission has one program activity set forth in the Budget of the United States, the Commission's Strategic Plan for FY 2018–2022 sets two strategic goals that cover its programmatic responsibilities. The agency's goal to make sound, objective, and timely determinations in trade remedy proceedings focuses on its import injury and unfair import investigative responsibilities. The agency's goal to produce independent, objective, and timely analysis and information on tariffs, trade, and competitiveness encompasses two areas. First, it focuses on the agency's role to independently provide the highest caliber of information and analysis to U.S. policymakers in a timely manner to assist them when they are securing benefits to the United States in trade negotiations and when they enact legislation or take other policy actions that affect the U.S. economy and industry competitiveness. The Commission's analysis of industry competitiveness has expanded with new responsibilities for evaluating miscellaneous tariff bill (MTB) petitions and making recommendations to Congress under the American Manufacturing Competitiveness Act of 2016 (AMCA). Second, it focuses on the responsibility to maintain the Harmonized Tariff Schedule (HTS) of the United States. The Commission also set a management goal

to efficiently and effectively advance the agency's mission. The agency's focus is on four functional areas—human resources; budget, acquisitions, and finance; information technology; and processes and communications—as they play a critical role in supporting programmatic activities.

The Strategic Plan identifies strategic objectives for each strategic or management goal, strategies to meet these objectives, and specific performance goals. The performance goals provide the basis by which the agency can assess whether it is making progress toward its strategic objectives.

The Commission makes available its Strategic Plan, Agency Financial Report, Annual Performance Plan, Annual Performance Report, and Budget Justification at https://www.usitc.gov/strategic_plan.htm.

Public Laws 99–500, 101–208, and 102–221 established the James Madison Memorial Fellowship Foundation to operate a fellowship program to encourage graduate study of the framing, principles, and history of the American Constitution. Appropriations of \$10 million in 1988 and 1989 established the Foundation's trust fund. The funds have been invested by the Secretary of the Treasury in U.S. Treasury securities, and the interest earned on these funds is available for carrying out the activities of the Foundation. Funds raised from private sources and the surcharges from commemorative coin sales are also placed in the trust fund.

The Foundation is authorized to award graduate fellowships of up to \$24,000 to high school teachers of American history, American government, and social studies. College seniors and recent college graduates who want to become secondary school teachers of these subjects are also eligible.

Fellowship awards.—This activity is comprised of fellowship awards to cover educational expenses. It also supports the Foundation's annual Summer Institute on the U.S. Constitution, which all current fellows are required to attend. The Institute is an intensive educational experience that will ensure that all fellows know the history of the framing, ratification, and implementation of the U.S. Constitution and the Bill of Rights.

Program administration.—This activity covers the costs of planning, fund-raising, and the operation of the fellowship program.

The Japan-U.S. Friendship Commission was established as an independent Federal Government agency by the United States Congress in 1975 (P.L. 94–118) to strengthen the U.S.-Japan relationship through educational, cultural, and intellectual exchange. It administers a U.S. Government trust fund that originated in connection with the return to the Japanese government of certain U.S. facilities in Okinawa and for postwar U.S. assistance to Japan. The Commission is allowed to make expenditures from the fund in an amount, not to exceed five percent annually of the fund's original principal, to pay Commission expenses and to make grants to support its mission. The Commission is a grant making agency that supports research, education, public affairs and exchange with Japan. Its mission is to support reciprocal people-to-people understanding, and to promote partnerships that advance common interests between Japan and United States.

The Merit Systems Protection Board (MSPB) is an independent agency in the executive branch of the Federal Government that serves as the guardian of Federal merit systems. The Board's mission is to protect Federal merit systems and the rights of individuals within those systems. The MSPB accomplishes its mission by: hearing and deciding employee appeals from agency actions; hearing and deciding cases brought by the Office of Special Counsel involving alleged abuses of the merit systems, and other cases arising under the Board's original jurisdiction; conducting studies of the civil service and other merit systems in the executive branch to determine whether they are free from prohibited personnel practices; and providing oversight of the significant actions and regulations of the Office of Personnel Management (OPM) to determine whether they are in accord with merit system principles. The MSPB's inception began in 1883, when the Congress passed the Pendleton Act establishing the Civil Service Commission and a merit-based employment system for the Federal Government. The Pendleton Act grew out of the 19th century reform movement to curtail the excesses of political patronage in Government. As the Commission's responsibilities multiplied, a growing consensus emerged that it could not properly and adequately perform managerial and adjudicatory functions simultaneously. Concern over the inherent conflict of interest in the Commission's role as both rule-maker and judge was a principal motivating factor behind the enactment by the Congress of the Civil Service Reform Act of 1978. The Act replaced the Civil Service Commission with three new independent agencies: OPM, the Federal Labor Relations Authority, and MSPB. MSPB assumed the employee appeals functions of the Commission and was given the new responsibilities to perform merit systems studies and to review the significant actions of OPM.

Federal Funds

MORRIS K. UDALL AND STEWART L. UDALL TRUST FUND

For payment to the Morris K. Udall and Stewart L. Udall Trust Fund, pursuant to the Morris K. Udall and Stewart L. Udall Foundation Act (20 U.S.C. 5601 et seq.), \$1,800,000, to remain available until expended, of which, notwithstanding sections 8 and 9 of such Act: up to \$1,000,000 shall be available to carry out the activities authorized by section 6(7) of Public Law 102–259 and section 817(a) of Public Law 106–568 (20 U.S.C. 5604(7)).

Provided, That all current and previous amounts transferred to the Office of Inspector General of the Department of the Interior will remain available until expended for audits and investigations of the Morris K. Udall and Stewart L. Udall Foundation, consistent with the Inspector General Act of 1978 (5 U.S.C. App.), as amended, and for annual independent financial audits of the Morris K. Udall and Stewart L. Udall Foundation pursuant to the Accountability of Tax Dollars Act of 2002 (Public Law 107–289): Provided further, That previous amounts transferred to the Office of Inspector General of the Department of the Interior may be transferred to the Morris K. Udall and Stewart L. Udall Foundation for annual independent financial audits pursuant to the Accountability of Tax Dollars Act of 2002 (Public Law 107–289).

Note.—A full-year 2019 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Continuing Appropriations Act, 2019 (Division C of P.L. 115–245, as amended). The amounts included for 2019 reflect the annualized level provided by the continuing resolution.

The Morris K. Udall and Stewart L. Udall Fund is invested in Treasury securities with maturities suitable to the needs of the Fund. Interest earnings from the investments are used to carry out the activities of the Udall Foundation. The Foundation is authorized to award scholarships and fellowships and, as required by its enabling legislation, funds specified activities of the Udall Center for Studies in Public Policy, based at the University of Arizona.

The Udall Foundation is authorized by 20 U.S.C. 5604(7) to establish training programs for professionals in Native American and Alaska Native health care and public policy. The Foundation provides these programs through the Native Nations Institute (NNI), which is housed at the University of Arizona and provides Native Americans and Alaska Natives with leadership and management training and assists in policy analysis relevant to tribes.

In 1998, Public Law 105–56 established the U.S. Institute for Environmental Conflict Resolution (U.S. Institute) as a part of the Udall Foundation. The U.S. Institute provides impartial collaboration, consensus-building, and conflict resolution services on a wide range of environmental, natural and cultural resources, Tribal, and public lands issues involving the Federal Government. The U.S. Institute's work enhances project efficiency, reduces costs, increases government capacity to serve citizens, increases the likelihood of avoiding litigation, and delivers better and more durable outcomes. The U.S. Institute's range of services include consultations, assessments, process design, convening, mediation, facilitation, training, stakeholder engagement, and other related collaboration and conflict resolution activities. The U.S. Institute specializes in providing assistance with national and regionally important environmental challenges; multiparty high-conflict cases where an impartial Federal convener is needed to broker participation in a collaborative process or conflict resolution effort; collaborative efforts involving Tribes and Native people, including government-to-government consultation between Tribes and Federal agencies; interagency and interdepartmental collaborations; issues involving multiple levels of government (Federal, State, local, tribal) and the public; issues that require substantive expertise (e.g., National Environmental Policy Act, transportation infrastructure projects, endangered species, cultural resources); and projects that require funding from multiple agencies and/or private organizations.

This appropriation provides for the operation of the Federal Government's archives and records management activities, the preservation of permanently valuable historical records, and their access and use by the public.

Legislative Archives, Presidential Libraries, and Museum Services.—This activity provides for the Center for Legislative Archives and the Office of Presidential Materials, which provide records management services to the Congress and the White House; the Presidential Libraries of fourteen former Presidents; and nationwide education, outreach, and exhibits programs, including the National Archives Museum in Washington, DC.

Citizen Services.—This activity provides for public access to and engagement with permanently valuable Federal Government records by the researcher community and the general public at public research rooms, on-line at www.archives.gov, and through innovative tools and technology to support collaboration with the public.

Agency and Related Services.—This activity provides for the services NARA provides to other Federal agencies, including records management, appropriate declassification of classified national security information, oversight of the classification system and controlled, unclassified information, and improvements to the administration of the Freedom of Information Act by the Office of Government Information Services; the electronic records management activities of the Electronic Records Archives system; and publication of the Federal Register, U.S. Statutes-at-Large, and Presidential Papers.

Facility Operations.—This activity provides for the operations and maintenance of NARA facilities, including interest payments and repayments of principal on debt associated with construction of the National Archives building at College Park, MD. Appropriations for repayments of principal ("redemption of debt") are excluded from NARA budget authority.

Electronic Records Initiative.—This activity provides for expenses necessary to enhance the Federal Government's ability to electronically preserve, manage, and store Government records.

The National Capital Planning Commission (NCPC) is the central planning agency for the Federal Government in the National Capital Region. Through its planning initiatives, policy-making, and review of development proposals, NCPC helps guide Federal development while preserving the Capital City's unique resources. NCPC will continue to work with the District of Columbia and Federal and regional partners to develop compre-

hensive policies and planning initiatives that support the Federal interest and contribute to the best urban design, infrastructure, resource, and land-use outcomes for the Region. In addition, NCPC will continue to ensure that all Federal development in the Region meets the highest design standards and will review Federal plans for regional capital improvements.

The mission of the National Credit Union Administration (NCUA) is to provide, through regulation and supervision, a safe and sound credit union system, which promotes confidence in the national system of cooperative credit. Credit unions are member-owned, cooperative associations organized for the purpose of promoting thrift and creating a source of credit for members. As of September 30, 2018, there were 3,421 federally-chartered credit unions with total assets of more than \$749 billion.

NCUA, through its Operating Fund, conducts activities prescribed by the Federal Credit Union Act of 1934, which include: 1) chartering new Federal credit unions; 2) approving field of membership applications of Federal credit unions; 3) promulgating regulations and providing guidance; 4) performing regulatory compliance and safety and soundness examinations; 5) implementing and administering enforcement actions, such as prohibition orders, orders to cease and desist, orders of conservatorship and orders of liquidation; and 6) administering the National Credit Union Share Insurance Fund (SIF), which provides insurance to Federal credit unions (FCUs) and federally-insured state-chartered credit unions (FISCUs).

To better demonstrate how the NCUA's budget is used to achieve its strategic goals, the Operating Fund's obligations by program activity are presented in new categories in the 2020 Budget. Amounts shown for "Safety and Soundness" correspond to programs that contribute to the NCUA's

goal to "Ensure a Safe and Sound Credit Union System." Amounts shown for "Regulation and Consumer Protection" correspond to programs that contribute to the NCUA's goal to "Provide a Regulatory Framework that is Transparent, Efficient, and Improves Customer Access." Amounts shown for "Mission Support" correspond to programs that contribute to the NCUA's goal to "Maximize Organizational Performance to Enable Mission Success."

NCUA funds its activities through operating fees levied on all FCUs, and through reimbursements from the SIF, which is funded by FCUs and FISCUs.

The primary purpose of the National Credit Union Share Insurance Fund (SIF) is to provide insurance for deposits of member accounts (also known as insured member shares) for over 115 million members in federally-chartered credit unions and state-chartered credit unions that qualify for insurance under the Federal Credit Union Act. As of September 30, 2018, 5,436 state and Federal credit unions were insured by the SIF with insured member shares of \$1.14 trillion—an increase of \$52 billion, or five percent, year-on-year.

Following a cost allocation method that distributes NCUA costs between its insurance and regulatory functions, the SIF reimburses the NCUA Operating Fund for its share of administrative costs. In calendar year 2017, the SIF paid reimbursements of \$190 million to the Operating Fund.

On September 28, 2017, the NCUA Board voted unanimously to close the Temporary Corporate Credit Union Stabilization Fund (TCCUSF) effective October 1, 2017, ahead of its sunset date of June 30, 2021. Pursuant to the Helping Families Save Their Homes Act of 2009 (P.L. 111-22), the TCCUSF's remaining funds, property, and other assets were distributed to the SIF. Through the distribution, the SIF assumed the activities and obligations of the TCCUSF, including NCUA Guaranteed Notes (NGN).

As of September 30, 2018, the outstanding principal balance of the NGNs was \$4.6 billion. This amount represents the maximum potential, but not the expected cost, of future guaranteed payments that NCUA could be required to make under the program. The NCUA currently anticipates \$2.7 billion in NGN guarantee payments to be made through 2021, when the final NGNs mature. NCUA currently estimates that after the NGNs expire,

the amount of receivables stemming from claims on the estates of failed corporate credit unions will be equal to or greater than the amount of guarantee payments paid by the SIF to NGN Trusts.

At its December 2018 meeting, the NCUA Board voted to lower the equity ratio's Normal Operating Level from 1.39 percent to 1.38 percent.

The Temporary Corporate Credit Union Stabilization Fund (TCCUSF) was created by the Helping Families Save Their Homes Act of 2009 (P.L. 111-22). The TCCUSF was established to accrue the losses of corporate credit unions during the 2008 financial crisis and to recover these losses over time through mitigation efforts and assessments on Federally-insured credit unions (FICUs). FICUs paid assessments totaling \$4.8 billion before September 28, 2017, when the NCUA Board voted unanimously to close the Stabilization Fund, effective October 1, 2017. The TCCUSF was closed before its statutory sunset in 2021.

The purpose of the Central Liquidity Facility (CLF), established under Title III of the Federal Credit Union Act, is to improve the general financial stability of member credit unions by lending, subject to statutory limitations, to member credit unions experiencing unusual or unexpected liquidity shortfalls. The two primary sources of funds for the CLF are stock subscriptions from member credit unions and borrowings from the Federal Financing Bank. The borrowing authority of the CLF is limited by statute to 12 times the subscribed capital stock and surplus (retained earnings) which equates to \$7 billion as of September 30, 2018.

The Community Development Revolving Loan Fund (CDRLF) was established by Congress in 1979 with a \$6 million appropriation to assist credit unions serving low-income communities to: 1) provide financial services to their communities; 2) stimulate economic activities in their communities, resulting in increased income and employment; and 3) operate more efficiently. CDRLF funds a revolving loan program and a technical assistance program.

For the revolving loan program, CDRLF had outstanding loans of \$9.7 million (26 loans outstanding to 26 credit unions) as of September 30, 2018. In October 2018, NCUA awarded \$2 million in technical assistance grants to help 203 low-income credit unions improve digital services and security, increase outreach to underserved communities, and train employees.

The Budget does not request CDRLF discretionary appropriations for 2019.

The National Labor Relations Board resolves representation disputes in industry and also remedies and prevents specified unfair labor practices by employers or labor organizations. Case intake and additional program statistics appear in the table below.

	2018 actual	2019 est.	2020 est.
Case intake:			
Unfair labor practice cases	18,871	18,900	18,900
Representation cases	2,090	2,100	2,100

Board decisions requiring court enforcement	52	55	55

Casehandling (formerly Field investigations in 2015 and earlier).—Charges of unfair labor practices and petitions for elections to resolve representation disputes are investigated by regional office personnel. Approximately 90 percent of merit unfair labor practice cases are closed by settlement, dismissal, or withdrawal. The remainder are prepared for public hearing. About 85–90 percent of representation elections are held pursuant to agreement of the parties. The agency strives to maximize the voluntary settlement of all cases and to avoid litigation.

Administrative law judge hearing.—Administrative law judges conduct public hearings in unfair labor practice cases. Their findings and recommendations are set forth in their decisions.

Board adjudication.—In an unfair labor practice case, a judge's decision becomes a Board order if no exceptions are filed. About 30 percent of these decisions become automatic Board orders or are complied with voluntarily. The remainder, with exceptions filed, require a Board decision. In representation cases, regional directors initially decide the issues by Board delegation. The Board itself decides representation issues on referral from regional directors or by granting a request for review of a regional director's decision. The Board also rules on objection and challenge questions in election cases. Unlike other Federal agencies, Board orders are not self-enforcing in the absence of a timely petition to review. If the parties do not voluntarily comply with a Board order involving unfair labor practices, the Board must request that an appellate court enforce the decision.

Internal Review.—Office of the Inspector General.

Mission Support.—Previously spread across other program activities; includes administrative, personnel, and financial management functions conducted in the Headquarters office.

Mediator and alternative dispute resolution (ADR) services.—The National Mediation Board mediates disputes over wages, hours, and working conditions for some 746 rail and air carriers and approximately 795,000 employees in the two industries.

The Board also provides technical assistance to enable labor and industry representatives to explore informally the relevant economic and noneconomic problems that condition collective bargaining in the railroad and airline industries. The Board's ADR program provides collective bargaining training, facilitation, and grievance mediation services to the labor-management community.

Emergency disputes.—When the parties fail to resolve their disputes through mediation, they are urged to submit their differences to arbitration. If neither mediation nor voluntary arbitration is successful, the President, when notified of disputes which substantially threaten to interrupt essential service, may appoint emergency boards to investigate and report on the dispute. Such reports usually serve as a basis for resolving the disputes.

	2018 actual	2019 est.	2020 est.
Board created:			
Emergency (sec. 160)	0	1	1
Emergency (sec. 159a)	0	2	1

Arbitration services.—Arbitration is governed by sections 3 and 7 of the Railway Labor Act. Railroad employee grievances resulting from disputes over the interpretation or application of collective bargaining contracts may be brought for settlement to the National Railroad Adjustment Board (NRAB). The divisions of the NRAB are composed of an equal number of carrier and union representatives compensated by the party or parties they represent. Public Law 89-456 provides for the adjustment of disputes involving grievances resulting from interpretation or application of bargaining agreements in the railroad industry and for disputes otherwise referable to the NRAB. In these disputes, the National Mediation Board compensates the neutral party selected to help resolve these grievances.

Administrative direction and support for the public law boards, special boards of adjustment, and the NRAB are provided by Federal employees who are compensated by the National Mediation Board.

NATIONAL SECURITY COMMISSION ON ARTIFICIAL INTELLIGENCE

Federal Funds**EXPENSES, NATIONAL SECURITY COMMISSION ON ARTIFICIAL INTELLIGENCE**

The National Security Commission on Artificial Intelligence (NSCAI), an independent Federal Agency, is composed of fifteen members appointed by select heads of key cabinet Departments along with key Congressional stakeholders. Established by section 1051 of P.L. 115–232, the NSCAI is responsible for assessing and recommending the competitiveness of the United States in artificial intelligence, machine learning, and other associated technologies, including matters related to national security, defense, public-private partnership and investments. The NSCAI also makes recommendations on the means and methods, international competitiveness, investments and risks, and the means and methods that the United States can leverage going forward to support this evolving technology.

NATIONAL TRANSPORTATION SAFETY BOARD

Federal Funds**SALARIES AND EXPENSES**

For necessary expenses of the National Transportation Safety Board, including hire of passenger motor vehicles and aircraft; services as authorized by 5 U.S.C. 3109, but at rates for individuals not to exceed the per diem rate equivalent to the rate for a GS-15; uniforms, or allowances therefor, as authorized by law (5 U.S.C. 5901–5902), \$110,400,000, of which not to exceed \$2,000 may be used for official reception and representation expenses. The amounts made available to the National Transportation Safety Board in this Act include amounts necessary to make lease payments on an obligation incurred in fiscal year 2001 for a capital lease.

Note.—A full-year 2019 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Continuing Appropriations Act, 2019 (Division C of P.L. 115–245, as amended). The amounts included for 2019 reflect the annualized level provided by the continuing resolution.

The National Transportation Safety Board (NTSB) is an independent nonregulatory agency that promotes transportation safety by maintaining independence and objectivity; conducting objective, precise accident investigations and safety studies; performing fair and objective airman and mariner certification appeals; and advocating and promoting NTSB safety recommendations. The NTSB also provides assistance to victims of transportation accidents and their families.

In 2020, the Administration proposes a total funding level of \$110.4 million for NTSB Salaries and Expenses to allow the NTSB to fulfill its role in improving safety on the Nation's transportation system.

The National Transportation Safety Board is mandated by the Congress to investigate all catastrophic transportation accidents and, therefore, has no control over the frequency of costly accident investigations. The emergency fund provides a funding mechanism by which periodic accident investigation cost fluctuations can be met without delaying critical phases of the investigations. The current balance of \$2 million is sufficient to cover unanticipated costs associated with an increased number of accidents, and thus the Administration does not propose new funding in 2020.

The Budget proposes to eliminate funding for several independent agencies, including the Northern Border Regional Commission (NBRC). The Budget requests \$850,000 to conduct an orderly closeout of the agency in fiscal year 2020, which includes sufficient funding for personnel costs during shutdown activities; for severance or retirement pay; and for non-personnel costs associated with the agency's closure such as lease termination, equipment disposal, and compliance with recordkeeping requirements. The Budget also proposes statutory authority to transfer outstanding grant obligations and associated administrative and oversight responsibilities to the Department of Agriculture.

Nuclear Reactor Safety.—The Nuclear Regulatory Commission (NRC) Nuclear Reactor Safety Program encompasses licensing, regulating, and overseeing civilian nuclear power reactors, research and test reactors, and medical isotope production facilities in a manner that adequately protects public health and safety and the environment. This program also provides reasonable assurance of the security of facilities and protection against radiological sabotage. This program contributes to the NRC's Safety and Security strategic goals through the activities of the Operating Reactors

and New Reactors Business Lines that regulate existing and new nuclear reactors to ensure they meet all applicable requirements.

Nuclear Materials and Waste Safety.—The Nuclear Materials and Safety Program reflects the NRC's effort to license, regulate, and oversee nuclear materials in a manner that adequately protects public health and safety and the environment. This program provides assurance of the physical security of the materials and waste, and protection against radiological sabotage, theft, or diversion of nuclear materials. Through this program, the NRC regulates uranium processing and fuel facilities, research and pilot facilities, nuclear materials users (medical, industrial, research, and academic), spent fuel storage, spent fuel and material transportation and packaging, decontamination and decommissioning of facilities, and low-level and high-level radioactive waste. The program contributes to the NRC's Safety and Security strategic goals through the activities of the Fuel Facilities, Nuclear Materials Users, Spent Fuel Storage and Transportation, Decommissioning and Low-Level Waste, and High-Level Waste Business Lines. The High-Level Waste Business Line supports NRC's licensing proceeding for the proposed deep geologic repository for the disposal of spent nuclear fuel and other high-level radioactive waste at Yucca Mountain, Nevada.

Corporate Support.—The NRC's Corporate Support Business Line involves centrally managed activities that are necessary for agency programs to accomplish the agency's mission and achieve goals. These activities include acquisitions, administrative services, financial management, human resources management, information technology and information management, outreach, policy support, and training.

The NRC's Office of Inspector General (OIG) was established as a statutory entity on April 15, 1989, in accordance with the 1988 amendments to the Inspector General Act. The OIG's mission is to independently and objectively audit and investigate programs and operations to promote effectiveness and efficiency, and to prevent and detect fraud, waste, and abuse. Starting in 2014, the NRC's OIG has exercised the same authorities with respect to the Defense Nuclear Facilities Safety Board per the Consolidated Appropriations Act, 2014.

【SEC. 401. The Nuclear Regulatory Commission shall comply with the July 5, 2011, version of Chapter VI of its Internal Commission Procedures when responding to Congressional requests for information, consistent with Department of Justice guidance for all federal agencies.】

【SEC. 402. (a) The amounts made available by this title for the Nuclear Regulatory Commission may be reprogrammed for any program, project, or activity, and the Commission shall notify the Committees on Appropriations of both Houses of Congress at least 30 days prior to the use of any proposed reprogramming that would cause any program funding level to increase or decrease by more than \$500,000 or 10 percent, whichever is less, during the time period covered by this Act.

(b)(1) The Nuclear Regulatory Commission may waive the notification requirement in subsection (a) if compliance with such requirement would pose a substantial risk to human health, the environment, welfare, or national security.

(2) The Nuclear Regulatory Commission shall notify the Committees on Appropriations of both Houses of Congress of any waiver under paragraph (1) as soon as practicable, but not later than 3 days after the date of the activity to which a requirement or restriction would otherwise have applied. Such notice shall include an explanation of the substantial risk under paragraph (1) that permitted such waiver and shall provide a detailed report to the Committees of such waiver and changes to funding levels to programs, projects, or activities.

(c) Except as provided in subsections (a), (b), and (d), the amounts made available by this title for "Nuclear Regulatory Commission—Salaries and Expenses" shall be expended as directed in the joint explanatory statement accompanying this Act.

(d) None of the funds provided for the Nuclear Regulatory Commission shall be available for obligation or expenditure through a reprogramming of funds that increases funds or personnel for any program, project, or activity for which funds are denied or restricted by this Act.

(e) The Commission shall provide a monthly report to the Committees on Appropriations of both Houses of Congress, which includes the following for each program, project, or activity, including any prior year appropriations—

- (1) total budget authority;
- (2) total unobligated balances; and
- (3) total unliquidated obligations.】

As mandated by the Nuclear Waste Policy Amendments Act of 1987, the Nuclear Waste Technical Review Board (Board) evaluates the technical and scientific validity of all activities undertaken by the Department of Energy (DOE) related to the management and disposition of spent nuclear fuel and high-level radioactive waste. The purpose of the Board is to provide independent expert advice to DOE and the Congress on technical issues and to review DOE's efforts to implement the Nuclear Waste Policy Act. The Board must report its findings, conclusions, and recommendations at least two times per year to the Congress and the Secretary of Energy.

The U.S. Office of Government Ethics (OGE), established by the Ethics in Government Act of 1978, provides overall leadership and oversight of the executive branch ethics program designed to prevent and resolve conflicts of interest. OGE's mission is part of the very foundation of public service. The first principle in the Fourteen Principles of Ethical Conduct for Government Officers and Employees provides that, "[p]ublic service is a public trust, requiring employees to place loyalty to the Constitution, the laws and ethical principles above private gain." OGE undertakes this important prevention mission as part of a framework comprising executive branch agencies and entities whose work focuses on institutional integrity. Within this framework, the ethics program works to ensure that public servants impartially carry out the governmental responsibilities entrusted to them, and that they serve as good stewards of public resources.

To carry out its vital leadership and oversight responsibilities for the executive branch ethics program, OGE promulgates, maintains, and advises on enforceable standards of ethical conduct for the nearly three million employees in over 130 executive branch agencies, including the White House; offers education and training to the more than 5,000 ethics officials executive branch-wide; oversees a financial disclosure system that reaches more than 26,000 public and more than 380,000 confidential financial disclosure report filers; operates and maintains *Integrity*, a public financial disclosure management application required by the Stop Trading on Congressional Knowledge (STOCK) Act of 2012; monitors executive branch agency ethics programs and senior leaders compliance with applicable ethics laws and regulations; prepares for Presidential transitions and provides assistance to the President and Senate in the Presidential appointments process; conducts outreach to the general public, the private sector, and non-governmental organizations; and makes ethics documents publicly available.

The Office of Navajo and Hopi Indian Relocation was established by Public Law 93–531 to plan and conduct relocation activities associated with the settlement of a land dispute in northern Arizona between the two Tribes. Bonuses are paid to clients who volunteered for relocation prior to July 7, 1985. Relocation of clients includes such activities as certification, housing acquisition and construction, and land acquisition. Discretionary funds will be used for activities which will facilitate and expedite the overall relocation effort, and to plan for the orderly closeout of the Office of Navajo and Hopi Indian Relocation.

The Office of Special Counsel (OSC): 1) investigates Federal employee and applicant allegations of prohibited personnel practices (including reprisal for whistleblowing) and other activities prohibited by civil service law and, when appropriate, prosecutes before the Merit Systems Protection Board; 2) provides a safe channel for whistleblowing by Federal employees and applicants; 3) investigates and enforces the Uniform Services Employment and Reemployment Rights Act (USERRA); and 4) advises on and enforces the Hatch Act. OSC may transmit whistleblower allegations to the agency head concerned and require an agency investigation. OSC submits the agency's investigative report to the President and the Congress when appropriate.

In 2018, OSC received 6,015 new cases, an increase of 57 percent over the historical average post–2000, while in 2018 OSC resolved 6,005 matters, an increase of 61 percent over the historical average post–2000 and the second highest total in agency history. Of the new cases received, 4,168 were prohibited personnel practice cases, a 65 percent increase over the historical average post–2000. OSC also obtained a record 314 favorable actions for Federal employees in response to prohibited personnel practice complaints, including 236 favorable actions in response to complaints of reprisal for whistleblowing.

During 2018, OSC received 1,559 new disclosures, a 67 percent increase over the historical average post–2000. OSC processed and closed 1,624 disclosures, and referred 139 disclosures of waste, fraud, and abuse to agency heads for investigation, a new agency record. During the last three years, OSC has received numerous whistleblower disclosures from employees at the Department of Veterans Affairs (VA). OSC's work with VA whistleblowers has been featured in the media, and has helped promote accountability and improvements within VA. OSC continues to receive a disproportionately large number of cases from VA employees, and to address this has established a priority intake system for VA claims.

OSC conducts outreach and education activities on its program areas to inform and train agencies to prevent prohibited personnel practices, whistleblower reprisals, Hatch Act and USERRA violations, and claims of fraud, waste and abuse. In FY OSC conducted 198 outreach activities throughout the Federal Government.

Case Type:	Cases Received 2018	Cases Resolved 2018
Prohibited personnel practice complaints	4,168	4,073
Hatch Act complaints	263	286
Whistleblower disclosures	1,559	1,624
USERRA cases	25	22
Totals	6,015	6,005

For 2019 and 2020, OSC projects intakes for whistleblower disclosure, Hatch Act, and prohibited personnel practice cases to follow recent trends and stabilize at around 6,000 total new cases received each year. OSC's caseload will remain high in light of the ongoing issues at the Department of Veterans Affairs, and the increased media exposure VA whistleblowers and whistleblowers in general are receiving.

Overall, the funding requested for 2020 will enable OSC to meet rising demand for OSC's services, protect the growing number of whistleblowers in the VA and other agencies, protect the employment rights of returning service members, manage continually rising case levels, and protect the Federal merit system from prohibited personnel and political practices.

Public Law 111–148 authorized the establishment of the Patient-Centered Outcomes Research Trust Fund (PCORTF) to receive amounts from general fund appropriations, fees on health insurance and self-insured plans, transfers from the Federal Hospital Insurance and Federal Supplementary Medical Insurance Trust Funds, and interest earned on investments. Amounts appropriated or credited to the PCORTF are available to the Patient-Centered Outcomes Research Institute and the Secretary of Health and Human Services for carrying out part D of Title XI of the Social Security Act and section 937 of the Public Health Service Act, respectively. The PCORTF terminates at the end of FY 2019, and the Budget does not propose to extend it.

The Postal Reorganization Act of 1970, Public Law 91–375, converted the Post Office Department into the U.S. Postal Service (USPS), an independent establishment within the executive branch. The Postal Service commenced operations July 1, 1971. This agency is charged with providing patrons with reliable mail service at reasonable rates and fees.

The U.S. Postal Service is governed by an 11-member Board of Governors, including nine Governors appointed by the President, a Postmaster General who is selected by the Governors, and a Deputy Postmaster General who is selected by the Governors and the Postmaster General.

Since 1971, there have been several Postal reforms. Notably, the Omnibus Budget Reconciliation Act of 1989 moved the Postal Service "off-budget" so that, beginning in 1990, the receipts and disbursements of the Fund are not considered as part of the congressional and executive budget process. More recently, the 2006 Postal Accountability and Enhancement Act (P.L. 109–435) made a number of changes affecting the operations and oversight of the Postal Service. The Act provided for separate accounting and reporting for market-dominant products such as First-Class mail and competitive products such as package delivery. The Act amended the process for determining rate increases for market-dominant products, in part by imposing a limitation on rate increases linked to the Consumer Price Index for All Urban Consumers (CPI-U). In 2017, the Postal Regulatory Commission

announced proposed changes to the rate structure including temporary increases above the CPI-U cap. The changes will not go into effect until after public comment and a final rule. Consequently, they are not included in the Budget's baseline for the Postal Service.

P.L. 109–435 also created the Postal Service Retiree Health Benefits Fund to put the Postal Service on a path that fully funds its substantial retiree (annuitant) health benefits liabilities. This Fund was to receive from the Postal Service: 1) the pension savings provided to the Postal Service by the Postal Civil Service Retirement System Funding Reform Act of 2003 (P.L. 108–18) that were held in escrow during 2006; 2) a 10-year stream of payments defined within P.L. 109–435 to begin the liquidation of the Postal Service's unfunded liability for post-retirement health benefits; 3) beginning in 2017, payments for the actuarial cost of Postal Service contributions for the post-retirement health benefits for its current employees; 4) beginning in 2017, a 40-year amortization payment to fund any remaining unfunded liabilities associated with post-retirement health benefits of USPS employees; and 5) the surplus resources of the Civil Service Retirement and Disability Fund that are not needed to finance future retirement benefits under CSRS to current or former employees of the Postal Service that are attributable to civilian employment with the Postal Service. Since passage in 2006, USPS had contributed over \$50 billion to the Fund but has failed to make required payments each year since FY 2012 steadily increasing the size of the unfunded liability.

Beginning in 2017, P.L. 109–435 also required the Postal Service to begin a 27-year amortization to retire its unfunded liability under the Civil Service Retirement System. In September of 2017, the Postal Service failed to make required payments totaling \$6.9 billion for actuarial normal costs for retiree health and amortization payments for unfunded liabilities in both health and pension accounts. In 2018, the Postal Service again failed to make payments totaling \$6.9 billion.

The activities of the U.S. Postal Service are financed from the following sources: 1) mail and services revenue; 2) reimbursements from Federal and non-Federal sources; 3) proceeds from borrowing; 4) interest from U.S. securities and other investments; and 5) appropriations by the Congress. All receipts and deposits are made to the Postal Service Fund and are available without fiscal year limitation for payment of all expenses incurred, retirement of obligations, investment in capital assets, and investment in obligations and securities.

As amended by P.L. 109–435, the Postal Service has statutory borrowing authority capped at \$15 billion with the annual increase in outstanding debt limited to \$3.0 billion. As of September 30, 2018, the total debt instruments issued and outstanding pursuant to this authority amounted to \$13.2 billion.

The Budget estimates that the Postal Service will have an annual operating deficit of \$7 billion in 2019 and more than \$8 billion in each subsequent year through 2029. Given the Postal Service's history of using defaults to continue operations despite losses, the Budget reflects defaults on required pension and retiree health amortization and normal cost payments to prevent USPS from running unsustainable deficits. See also the Budget Process section of the Analytical Perspectives volume of the Budget.

The Budget proposes reforms based on the recommendations of the President's Task Force on the United States Postal System. The Task Force made recommendations for changes to governance, the Postal Service's Universal Service Obligation, pricing, cost allocation, operating costs, labor model, retiree health benefits, and revenue sources. The Task Force also recommended provisions for strengthening regulatory oversight if USPS is unable to meet its financial commitments. This proposal will restore solvency to the Postal Service and ensure that commitments to current and former employees are funded from business revenues rather than taxpayers.

The Budget proposes operational reforms to reduce costs and improve revenue, including: 1) changes to the rate cap to allow more flexible pricing for both mail and packages that are deemed outside the universal service obligation or "nonessential"; 2) reducing operating costs through changes to delivery processing, mode, and frequency, and increased use of private

sector partners for processing and sortation where appropriate; 3) more closely aligning Postal Service employee wages with those of other Federal employees; and 4) licensing access to the mailbox and providing additional Government services at retail locations.

The Budget also proposes Government-wide reforms to pensions and health insurance costs that are estimated to further reduce USPS operating costs. See the General Services Administration section of the Appendix for more information. In addition, the Budget proposes to re-amortize the payments USPS has not made to OPM for retiree health benefits.

In total, the Budget estimates that these reforms will reduce the unified budget deficit by \$98 billion over 10 years and result in on-budget savings of \$88 billion as the Postal Service resumes statutory payments to on-budget accounts.

U.S. Postal Service Office of Inspector General (OIG) is an independent organization charged with reporting to Congress on the overall efficiency, effectiveness, and economy of Postal Service programs and operations. The OIG meets this responsibility by conducting audits, investigations, and other reviews. The OIG focuses on the prevention, identification, and elimination of 1) waste, fraud, and abuse; 2) violations of laws, rules, and regulations; and 3) inefficiencies in Postal Service programs and operations.

The Budget proposes \$250,000,000 for the 2020 operations of the Office of the Inspector General of the U.S. Postal Service.

Pursuant to P.L. 109–435, the 2020 appropriation request of the Office of Inspector General of the U.S. Postal Service is \$250,000,000.

Section 603(b)(1) of P.L. 109–435 (Postal Accountability and Enhancement Act) authorizes appropriations for the Office of Inspector General out of the off-budget Postal Service Fund beginning in 2009. The authorization resulted in the reclassification of the Office of Inspector General spending from off-budget mandatory to off-budget discretionary.

The Postal Regulatory Commission is an independent agency that has exercised regulatory oversight over the U.S. Postal Service since its creation by the Postal Reorganization Act of 1970. That oversight consisted primarily of conducting public, on-the-record hearings concerning proposed rates, mail classification, and major service changes, and recommended decisions for action to the Postal Service Board of Governors.

The Postal Accountability and Enhancement Act (PAEA, P.L. 109–435) assigned new responsibilities to the Commission, including providing regulatory oversight of the pricing of Postal Service products and services, ensuring Postal Service transparency and accountability, and serving as a forum to act on complaints with postal products and services. The Commission provides leadership and recommends policies that foster a robust and viable postal system.

Pursuant to P.L. 109–435, the 2020 appropriation request of the Postal Regulatory Commission is \$16,615,000. Section 603(a) of PAEA authorizes appropriations for the Commission out of the off-budget Postal Service Fund beginning in 2009. The authorization resulted in the reclassification of the Commission's spending from off-budget mandatory to off-budget discretionary.

The Presidio Trust (Trust) is a wholly-owned Government corporation established by the Omnibus Parks and Public Lands Management Act of 1996 (Public Law 104-333) to manage, improve, maintain and lease property in the Presidio of San Francisco and to operate the Presidio as a self-sustaining part of the national park system. The Trust has jurisdiction over 80% of the Presidio and has successfully converted the historic Army base into a thriving park community that has operated without annual appropriations since 2013. Funds to operate the park and its public programs come from lease revenues and other non-Federally appropriated funding sources. The Presidio of San Francisco is a historic preservation success, and a success for the American taxpayer.

The Intelligence Reform and Terrorism Prevention Act of 2004 (IRTPA) created the Privacy and Civil Liberties Oversight Board (PCLOB). The IRTPA originally placed the Board within the Executive Office of the President. The Implementing Recommendations of the 9/11 Commission Act of 2007 reconstituted the Board as an independent oversight agency within the Executive Branch. All five members of the Board are nominated by the President and confirmed by the Senate for staggered six-year terms. The Board has two main responsibilities: 1) to analyze and review actions the executive branch takes to protect the United States from terrorism, ensuring that the need for such actions is balanced with the need to protect privacy and civil liberties; and 2) to ensure that liberty concerns are appropriately considered in the development and implementation of laws, regulations, and policies related to efforts to protect the Nation against terrorism. The Board is required to report semi-annually on its operations to the U.S. Congress, as well as inform the public of its activities, as appropriate.

The Public Defender Service for the District of Columbia (PDS) is a federally funded, independent organization governed by an eleven-member Board of Trustees. PDS was created in 1970 by a Federal statute (P.L. 91-358; see also D.C. Code Sec. 2-1601, et seq.) to fulfill the constitutional mandate (under *Gideon v. Wainwright*) to provide criminal defense counsel for individuals who cannot afford to hire a lawyer. PDS's mission is to provide and promote quality legal representation for indigent adults and children facing a loss of liberty in the District of Columbia justice system and thereby protect society's interest in the fair administration of justice. PDS specializes in representation in the most complex and resource-intensive criminal and delinquency cases. PDS also represents individuals facing involuntary civil commitment in the District's mental health system and individuals facing parole revocation for D.C. Code offenses.

The Puerto Rico Oversight, Management, and Economic Stability Act (P.L. 114-187) created an oversight board that is not a department, agency, establishment, or instrumentality of the Federal Government but is an entity within the territorial government, which is not subject to the supervision or control of any Federal agency. See 42 U.S.C. § 2121(c). Although the Board's financing is derived entirely from the territorial government, the flow of funds from the territory to the Board is mandated by Federal law. Because Federal law prescribes the flow of funds to the Board, the Budget reflects the allocation of resources by the territorial government to the new territorial entity with a net zero Federal deficit impact, consistent with long-standing budgetary concepts. Because the Board itself is not a Federal entity, its operations will not be included in the Federal Government's Budget. Data are presented here on a Puerto Rico fiscal year basis (July 1 to June 30).

LIMITATION ON ADMINISTRATION—Continued

As shown below, the Board projects this workload will continue to decline as the number of beneficiaries declines.

	1980 act.	1990 act.	2010 act.	2017 act.	2018 act.	2019 est.
Total beneficiaries	1,009,500	894,196	549,154	518,416	513,732	509,500

In recognition of the continuing decline in virtually all its major workloads, the Board will explore and adopt new approaches to improve service to beneficiaries.

The President's Budget includes four (4) legislative proposals: the first legislative proposal is to amend the Railroad Retirement Act to allow the Railroad Retirement Board (RRB) to utilize various hiring authorities available to other Federal agencies. Section 7(b)(9) of the Railroad Retirement Act contains language requiring that all employees of the RRB, except for one assistant for each Board Member, must be hired under the competitive civil service. Elimination of this requirement would enable the RRB to use various hiring authorities offered by the Office of Personnel Management; the second legislative proposal is to amend the Railroad Retirement Act and the Railroad Unemployment Insurance Act to include a felony charge for individuals committing fraud against the Agency. Under this proposal, both the Railroad Retirement Act and the Railroad Unemployment Insurance Act would be amended to include a felony charge similar to violations under 42 U.S.C. 408, 18 U.S.C. 1001, or 18 U.S.C. 287; the third legislative proposal is to amend the Social Security Act to provide access for the Railroad Retirement Board to the National Directory of New Hires and to waive the customary fees for the Railroad Retirement Board; lastly, the fourth legislative proposal is to amend the Railroad Retirement Act to allow the Railroad Retirement Board to utilize student and recent graduate hiring authority available to other Federal agencies.

All railroad retirees receive the equivalent of a social security benefit, and they may also receive other add-ons including rail industry pension payments, windfall payments, and supplemental annuities. Social security benefits for former railroad employees are funded by the social security trust funds, and rail industry pension payments are the responsibility of the rail sector.

Under current law, a financial interchange occurs once each year between the social security trust funds and the social security equivalent benefit (SSEB) account. SSEB receives monthly advances from the general fund equal to an estimate of the transfer SSEB would have received for the previous month if the financial interchange transfers were on a monthly basis. Advances from the previous year are repaid annually to the general fund immediately after the financial interchange is received. In 2018, \$4.104 million was advanced and \$4.091 million was repaid.

The Recovery Accountability and Transparency Board (Board) is an independent Federal agency charged with coordinating and conducting oversight of funds provided under the Disaster Relief Appropriations Act of 2013 and the American Recovery and Reinvestment Act of 2009 in order to detect and prevent fraud, waste, and abuse. The Board also develops and tests information technology resources and oversight mechanisms to enhance transparency of and detect and remediate fraud, waste, and abuse in Federal spending. The Board provides support to the Inspector General

and law enforcement communities. The Board sunset on September 30, 2015.

SECURITIES AND EXCHANGE COMMISSION

Federal Funds

SALARIES AND EXPENSES

For necessary expenses for the Securities and Exchange Commission, including services as authorized by 5 U.S.C. 3109, the rental of space (to include multiple year leases) in the District of Columbia and elsewhere, and not to exceed \$3,500 for official reception and representation expenses, \$1,745,954,305, to remain available until expended; of which not less than \$15,662,339 shall be for the Office of Inspector General; of which not to exceed \$75,000 shall be available for a permanent secretariat for the International Organization of Securities Commissions; and of which not to exceed \$100,000 shall be available for expenses for consultations and meetings hosted by the Commission with foreign governmental and other regulatory officials, members of their delegations and staffs to exchange views concerning securities matters, such expenses to include necessary logistic and administrative expenses and the expenses of Commission staff and foreign invitees in attendance including: (1) incidental expenses such as meals; (2) travel and transportation; and (3) related lodging or subsistence.

In addition to the foregoing appropriation, for move, replication, and related costs associated with a replacement lease for the Commission's New York Regional Office facilities, not to exceed \$10,524,799, to remain available until expended.

For purposes of calculating the fee rate under section 31(j) of the Securities Exchange Act of 1934 (15 U.S.C. 78ee(j)) for fiscal year 2020, all amounts appropriated under this heading shall be deemed to be the regular appropriation to the Commission for fiscal year 2020.

Provided, That fees and charges authorized by section 31 of the Securities Exchange Act of 1934 (15 U.S.C. 78ee) shall be credited to this account as offsetting collections: Provided further, That not to exceed \$1,745,954,305 of such offsetting collections shall be available until expended for necessary expenses of this account and not to exceed \$10,524,799 of such offsetting collections shall be available until expended for move, replication, and related costs under this heading associated with a replacement lease for the Commission's New York Regional Office facilities: Provided further, That the total amount appropriated under this heading from the general fund for fiscal year 2020 shall be reduced as such offsetting fees are received so as to result in a final total fiscal year 2020 appropriation from the general fund estimated at not more than \$0: Provided further, That if any amount of the appropriation for move, replication, and related costs associated with a replacement lease for the Commission's New York Regional Office facilities is subsequently de-obligated by the Commission, such amount that was derived from the general fund shall be returned to the general fund, and such amounts that were derived from fees or assessments collected for such purpose shall be paid to each national securities exchange and national securities association, respectively, in proportion to any fees or assessments paid by such national securities exchange or national securities association under section 31 of the Securities Exchange Act of 1934 (15 U.S.C. 78ee) in fiscal year 2020.

Note.—A full-year 2019 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Continuing Appropriations Act, 2019 (Division C of P.L. 115–245, as amended). The amounts included for 2019 reflect the annualized level provided by the continuing resolution.

The primary mission of the Securities and Exchange Commission (SEC) is to: protect investors; maintain fair, orderly, and efficient markets; and facilitate capital formation. The SEC's six major programs include the following:

Enforcement.—The Division of Enforcement investigates and prosecutes civil violations of the Federal securities laws and works closely with the Department of Justice and other law enforcement partners to coordinate and assist in criminal prosecutions.

Compliance Inspections and Examinations.—The Office of Compliance Inspections and Examinations conducts the SEC's examination program

SALARIES AND EXPENSES—Continued

to detect violations of the Federal securities laws and evaluate internal compliance controls at securities firms registered with the SEC.

Corporation Finance.—The Division of Corporation Finance selectively reviews company disclosures to ensure that investors have the information necessary to make informed investment decisions and to help deter fraud and misrepresentation in securities transactions.

Trading and Markets.—The Division of Trading and Markets' (TM) mission is to establish and maintain standards for fair, orderly, and efficient markets while fostering investor protection and confidence in the markets. TM oversees the activities of industry self-regulatory organizations, such as the Financial Industry Regulatory Authority, and directly regulates market participants where Commission rulemaking is more effective than self-regulation.

Investment Management.—The Division of Investment Management works to protect investors, promote informed investment decision making, and facilitate appropriate innovation in investment products and services through regulation of the asset management industry.

Economic and Risk Analysis.—The Division of Economic and Risk Analysis integrates financial economics and rigorous data analytics into the core mission of the SEC.

Several additional program offices directly support the major programs, including the Office of Investor Education and Advocacy, the Office of the Chief Accountant, and the Office of International Affairs.

The SEC is funded through offsetting fees and assessments collected pursuant to section 31 of the Securities Exchange Act of 1934 (15 U.S.C. 78ee). The Budget proposes \$1.746 billion in collections to fund SEC operations in 2020. Because the SEC's budget is offset by fees, the agency's funding level has no impact on the Federal deficit.

In addition to \$1.746 billion in support of operations, the Budget proposes an amount for move, replication, and related costs associated with a replacement lease for the Commission's New York Regional Office facilities. At this time, this amount is estimated at \$10.5 million. This amount would not be used for the operations of the SEC, and the proposed appropriations language provides a mechanism whereby any unused portion of these funds could be refunded to fee payers (or returned to the general fund of the Treasury) as rapidly as practicable.

Section 991 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (P.L. 111–203) (the Dodd-Frank Act) amended section 4 of the Securities Exchange Act of 1934 (15 U.S.C. 78d) to establish the Securities and Exchange Commission Reserve Fund. The Reserve Fund is a separate fund in the Treasury from which the Commission may obligate amounts determined necessary to carry out Commission functions. The Reserve Fund provisions took effect on October 1, 2011.

The Reserve Fund is funded by deposits from registration fees collected by the Commission under section 6(b) of the Securities Act of 1933 (15 U.S.C. 77f(b)) and section 24(f) of the Investment Company Act of 1940 (15 U.S.C. 80a–24(f)). In any one fiscal year, the amount deposited in the Reserve Fund may not exceed \$50 million and obligations from the Reserve Fund may not exceed \$100 million. The balance in the Reserve Fund may not exceed \$100 million. Amounts in the Reserve Fund are available until expended. (The remainder of registration fee collections for each fiscal year are deposited in the general fund of the Treasury and are not available for obligation by the Commission.)

Amounts collected and deposited in the Reserve Fund are not subject to appropriation or apportionment. However, the Commission is required to notify the Congress of the amount and purpose of any obligations made utilizing amounts from the Reserve Fund within 10 days.

The 2020 Budget proposes to eliminate the Reserve Fund in 2021. Registration fees currently deposited in the Reserve Fund would be redirected to the general fund of the Treasury.

As part of the Dodd-Frank Wall Street Reform and Consumer Protection Act (P.L. 111–203) (the Dodd-Frank Act), the Congress substantially expanded the Securities and Exchange Commission's (SEC or Commission) authority to pay whistleblower awards and enhanced the anti-retaliation protections available to whistleblowers. The intent is to elicit high-quality tips by motivating persons with knowledge of possible securities laws violations to assist the Federal Government in identifying and prosecuting individuals who violate the Federal securities laws.

To comply with direction provided in the Dodd-Frank Act, the SEC's Division of Enforcement established an Office of the Whistleblower to administer and enforce the whistleblower award program. The Investor Protection Fund (the Fund), established by the Dodd-Frank Act, provides resources for payments to whistleblowers and for the SEC's Office of the Inspector General Employee Suggestion Program. Deposits into the Fund are comprised of a portion of monetary sanctions collected by the SEC in judicial or administrative actions brought by the Commission under the Federal securities laws that are not added to a disgorgement fund or other fund under section 308 of the Sarbanes-Oxley Act of 2002 (P.L. 107–204), as well as amounts in such funds that will not be distributed to injured investors. No sanction collected by the Commission can be deposited into the Fund if the balance at the time the sanction is collected exceeds \$300 million. No funds have been taken or withheld from harmed investors to pay whistleblower awards. The Commission is required to submit an annual report on the whistleblower award program to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Financial Services of the House of Representatives.

INVESTOR PROTECTION FUND—Continued

The figures reported for 2019 and 2020 are based on assumptions regarding several variables inherent to litigation and to the Commission's whistleblower award process. Given the potential for significant variation in the payouts and their timing, it is possible that actual payouts will be either significantly higher or significantly lower than these estimates.

The Smithsonian Institution conducts research in natural and physical sciences, history and the history of cultures, technology and the arts. The Institution acquires and preserves more than 155 million items of scientific, cultural, and historic importance for reference and study purposes. These resources may be accessed by millions of visitors and researchers worldwide either in person, or increasingly online. Smithsonian's public exhibitions delve into subjects from aeronautics to zoology.

The Institution operates 19 museums and galleries, a zoological park and animal conservation and research center, research facilities, and supporting facilities.

Included in the presentation of the Salaries and Expenses account are data for the Canal Zone biological area fund. Donations, subscriptions, and fees are appropriated and used to defray part of the expenses of maintaining and operating the Canal Zone biological area (60 Stat. 1101; 20 U.S.C. 79, 79a).

This account provides funding for major new construction projects to support the Smithsonian's existing and future programs in research, collections management, public exhibitions, and education. This account also includes major repairs, revitalization, code compliance changes, minor construction, alterations and modifications, and building system renewals of Smithsonian museum buildings and facilities for storage and conservation of collections, research, and support. The Facilities Capital account also includes planning and design funding related to these activities. The 2020 President's Budget provides funds for critical infrastructure improvements at the National Museum of Natural History, the National Zoological Park and the National Museum of the American Indian facility in New York. Current long-term projects in this account include the Suitland Collections Facility and renovations at the National Air and Space Museum facilities and the Hirshhorn Museum and Sculpture Garden.

The Woodrow Wilson Center facilitates scholarship in the social sciences and humanities and communicates that scholarship to a wide audience within and beyond Washington, D.C. This is accomplished through a resident body of fellowship awardees, conferences, publication, and dialogue. The Budget proposes to eliminate funding for several independent agencies, including the Woodrow Wilson Center. The Budget provides \$8,139 million in FY 2020 to support an orderly transition to privately-funded operations.

The Surface Transportation Board (STB or Board) is charged with the economic oversight of the Nation's freight rail system. The Board's regulatory jurisdiction includes freight railroad rate reasonableness, car service and interchange, mergers and line acquisitions, line constructions, and line abandonments and discontinuances.^[1] While the majority of the Board's work involves freight railroads, the Board also performs certain oversight of passenger rail matters, the intercity bus industry, non-energy pipelines, household goods carriers' tariffs, and rate regulation of non-contiguous domestic water transportation (marine freight shipping involving the mainland United States, Hawaii, Alaska, Puerto Rico, and other U.S. Territories and possessions). The bipartisan Board was established in 1996 as the successor agency to the Interstate Commerce Commission.^[2] The STB was decisionally independent but administratively housed within the Department of Transportation prior to enactment of the Surface Transportation Board Reauthorization Act of 2015 (STB Reauthorization Act).^[3] The STB Reauthorization Act established the STB as a wholly independent agency, expanded its membership from three to five Board members, and provided certain new authority and directives.

2020 Program: The Board requests \$37,100,000 to carry out its mission as directed under the law. Note, the Board seeks the same funding level it requested in its 2019 budget request submitted along with the President's 2019 Budget to the Congress. This includes a request for \$1,250,000 from offsetting collections of user fees as a credit to the appropriation received, to the extent collected.

The STB's 2020 budget request would maintain current operational funding to meet its statutory responsibilities and continue meeting the needs of stakeholders and the public. This level of funding would sustain the personnel and non-personnel investments made in 2018 and 2019 to manage workload and to help modernize the Board's IT infrastructure and improve its cybersecurity posture. Further, the request also seeks resources necessary to help the Board increase efficiencies and modernize its processes.

The Tennessee Valley Authority (TVA) was created in 1933 as a government-owned corporation charged with the mission to improve the quality of life in the Tennessee Valley through the integrated management of the region's resources. The TVA Act sets forth the agency's purpose: to address the Valley's most important issues in energy, environmental stewardship, and economic development. TVA is currently self-funded, financing its operations almost entirely from revenues and power system financings.

TVA's Non-Power Programs.—TVA operates a series of 49 dams and 47 reservoirs to reduce the risk of flooding, enable year-round navigation, supply affordable and reliable electricity, improve water quality and water supply, provide recreational opportunities, stimulate economic growth, and provide other public benefits. TVA is responsible for stewardship activities within the Tennessee Valley that include: water release regulation; maintenance of dam machinery and spillway gates; modifications on nine main and four auxiliary navigation locks and associated mooring facilities; improvement of water quality and supply; management of shoreline erosion; regulation of shoreline development along the Tennessee River and its tributaries; planning and management of 293,000 acres of public land; and operation of public recreation areas. These services are funded entirely by TVA's power revenues and its user fees.

TVA's Power Program.—TVA supplies electric power to an area of 80,000 square miles covering parts of the seven Tennessee Valley States: Tennessee, Alabama, Mississippi, Kentucky, Georgia, North Carolina, and Virginia. Estimated income from power operations, net of interest charges, depreciation, and other operating expenses, is \$1.5 billion in 2020 on operating revenues of \$10.9 billion. Power generating facilities are financed from power revenues and power system financings. TVA's power system financings consist primarily of the sale of debt securities and secondarily of alternative forms of financing, such as lease arrangements.

TVA Policy Initiatives.—TVA is executing a strategic plan to reduce its debt to approximately \$22 billion by 2023. This plan, adopted by the TVA Board as part of its fiscal year 2014 planning cycle, is designed to achieve the strategic debt goal by implementing modest annual base rate actions while focusing on aligning operating and maintenance spending with revenues. TVA also established a goal of reducing operating costs by \$500

million relative to the 2013 budget. TVA exceeded this goal by approximately \$300 million, for a total reduction of \$800 million, and is committed to future continuous improvement initiatives. Additionally, TVA's rate position compared to peers has improved since embarking on the strategic debt reduction plan.

At the same time, TVA has continued to make decisions to move toward an optimized generation fleet as an important part of improving operational performance. TVA has been working for several years toward this balanced portfolio as it provides greater flexibility to generate cleaner, low-cost energy more efficiently from a variety of fuel sources.

During 2018, at the Allen Fossil Plant site in Memphis, TN, TVA completed a natural gas-fired facility which began commercial operations in April 2018. As planned, TVA retired the Allen coal-fired units in March 2018 upon completion of the new natural gas-fired facility. Also, selective catalytic reduction systems became operational in November 2017 at the Gallatin Fossil Plant site in Tennessee, and additional pollution controls became operational by December 2017 on Units 1 and 4 of the Shawnee Fossil Plant in Kentucky. TVA is currently implementing an extended power uprate project at all three units of the Browns Ferry Nuclear Plant. This project is expected to be completed by the end of fiscal year 2019 while providing approximately 465 MW of additional clean, carbon free power to the TVA system.

Economic Development.—TVA is charged with providing the people of the Tennessee Valley region greater opportunities for prosperity. To that end, TVA works to foster capital investment and job growth in the Valley in collaboration with regional, State and local organizations. In 2018, TVA worked in partnership with communities and the business sector to spur \$11.3 billion in capital investment in the Tennessee Valley region and helped attract and retain more than 65,000 jobs.

Financing.—Amounts estimated to become available for TVA programs in 2020 are to be derived from operating revenues of \$10.9 billion. The outstanding balance of TVA's bonds, notes, and other evidences of indebtedness is limited by statute and cannot exceed \$30 billion. TVA's outstanding debt and debt-like obligations were \$24.3 billion at the beginning of 2019 and are estimated to be \$22.3 billion by the end of 2020. At the beginning of 2019, TVA had \$1.6 billion in debt-like obligations that are not counted against its statutory debt cap. In addition, TVA had an unfunded pension liability of \$3.7 billion as of September 30, 2018.

Operating results and financial conditions.—Payments to the Treasury from power proceeds in 2020 are estimated at a \$6 million return on the appropriation investment in the power program. Total capital spending for 2020 is estimated at \$1.9 billion, which in addition to new generation capacity includes approximately \$300 million for environmental projects and \$1.1 billion to maintain TVA's existing generation assets. Total government equity at September 30, 2020, is estimated to be \$1.5 billion more than that at September 30, 2019. This change includes the estimated net income from power operations and payments to the Treasury. As of September 30, 2018, the funding status of TVA employees' defined benefit pension plan (TVARS) increased to a 68% funding ratio with a \$3.7 billion unfunded liability. This compares to a 63% funding ratio and \$4.6 billion unfunded liability in 2017, and a 55% funding ratio and \$5.9 billion unfunded liability in 2016. TVA contributed \$300 million to TVARS, and incurred \$358 million in actuarial costs in 2018. TVARS also made \$719 million in payments to beneficiaries and earned \$454 million, or a 5.5 percent rate of return, on the plan's investments in 2018.

The United States Court of Appeals for Veterans Claims (Court) is a national court of record established by the Veterans Judicial Review Act (Public Law 100-687), Division A (1988) (Act). The Act, as amended, is codified in part at 38 U.S.C. 7251-7299. The Court is located in Washington, D.C., but as a national court may sit anywhere in the United States.

SALARIES AND EXPENSES—Continued

The Court is part of the Federal judicial system and has a permanent authorization for seven judges, one of whom serves as chief judge. Per Public Law 114-315, the Congress has temporarily authorized expansion of the Court to nine active judges. Judges are appointed by the President, by and with the advice and consent of the Senate, for 15-year terms. The Court is currently staffed at nine active judges, with the terms of two of those judges expiring in December 2019. Upon retirement, a judge may choose to be recall eligible, and thus willing to be recalled to service by the chief judge. Currently eight of the Court's ten retired judges are recall eligible and are recalled to service on a rotational basis. Recall-eligible judges may elect full retirement at any time.

The Court has exclusive jurisdiction to review decisions made by the Department of Veterans Affairs Board of Veterans' Appeals (Board) that adversely affect a person's entitlement to Department of Veterans Affairs benefits. This judicial review, although specialized in scope, is the same as that performed by all other United States Courts of Appeals. In cases before it, the Court has the authority to decide all relevant questions of law; to interpret constitutional, statutory, and regulatory provisions; and to determine the meaning or applicability of actions/decisions by the Secretary of Veterans Affairs. The Court may affirm, set aside, reverse, or remand those decisions as appropriate. Additionally, the Court has class action authority, has jurisdiction under 28 U.S.C. 1651 to issue all writs necessary or appropriate in aid of its jurisdiction, and may act on applications under 28 U.S.C. 2412(d), the Equal Access to Justice Act. Certain decisions by the Court are reviewable by the United States Court of Appeals for the Federal Circuit and, if *certiorari* is granted, by the Supreme Court of the United States. For management, administration, and expenditure of funds in areas beyond the bounds of Chapter 72 of Title 38, the Court may exercise the authorities provided for such purposes applicable to other courts as defined in Title 28, U.S. Code.

In 1992, the Congress authorized the Court to transfer funds from its appropriation that year to the Legal Services Corporation (LSC), for the purpose of providing, facilitating, and furnishing legal and other assistance, through grant or contract, to veterans and others seeking recourse in the Court. That program, often referred to as the pro bono representation program, has been ongoing since that time, with LSC responsible for oversight and grant distribution responsibilities. The Appropriations Subcommittees consider LSC's budget request separately from the Court's budget request, although both are submitted together.

The United States Court of Appeals for Veterans Claims Retirement Fund (Retirement Fund or Fund), established under 38 U.S.C. 7298, is used for judges' retired pay and for annuities, refunds, and allowances provided to surviving spouses and dependent children. Participating judges pay 1-percent of their salaries to cover creditable service for retired pay purposes and 2.2-percent of their salaries for survivor annuity purposes. Additional funds needed to cover the unfunded liability may be transferred to the Retirement Fund from the Court's annual appropriation. The Court's contribution to the Fund is estimated annually by an actuarial firm retained by the Court. The Fund is invested solely in government securities.

Created by Congress in 1984, the United States Institute of Peace (USIP) is an independent, nonpartisan institution charged with increasing the nation's capacity to prevent, mitigate, and help resolve international conflict without violence. The Budget proposes to reduce Federal funding for USIP, given its status as an independent nonprofit organization outside the Federal Government, and provides \$19 million to support USIP's core operations and maintenance funding in FY 2020. The Budget assumes that USIP would need to compete for more funding through interagency agreements with other Federal agencies, rather than rely on its direct appropriation as its primary funding source.

The Budget proposes to eliminate funding for several independent agencies, including the U.S. Interagency Council on Homelessness (USICH), as part of the Administration's plans to move the Nation towards fiscal responsibility and to redefine the proper role of the Federal Government. The Budget requests \$730,000 to conduct an orderly closeout of USICH, which includes sufficient funding for closeout activities and payroll liabilities that come due in fiscal year 2020, including severance for USICH staff.

The Vietnam Education Foundation Act of 2000 (Title II of Public Law 106–554) created the Vietnam Education Foundation (VEF) to administer an international fellowship program under which Vietnamese nationals can undertake graduate and post-graduate level studies in the United States in the sciences (natural, physical, and environmental), mathematics,

medicine, and technology, and American citizens can teach in these fields in appropriate Vietnamese institutions of higher education. The Act also authorized the establishment of the Vietnam Debt Repayment Fund, in which all payments (including interest payments) made by the Socialist Republic of Vietnam under the United States-Vietnam debt agreement shall be deposited as offsetting receipts. Beginning in 2002, and in each subsequent year through 2018, \$5 million of the amounts deposited into the fund from USDA and USAID shall be available to VEF for operations and fellowship programs. Beginning in 2015, and in each subsequent year through 2018, the remaining amounts deposited into the fund from USDA and USAID shall be available to support the establishment of an independent, not-for-profit academic institution in the Socialist Republic of Vietnam. In accordance with the legislation governing VEF's operations, VEF is due to sunset in 2018. This schedule reflects the spend-out of prior year funds.

FEDERALLY CREATED NON-FEDERAL ENTITIES

The majority of budgetary accounts are associated with departments or other entities that are clearly Federal agencies. In other cases, budgetary accounts reflect a measure of Governmental activity in the economy, though the activity may have no direct relationship with the United States Treasury. Federally created non-Federal entities may be in the Budget because they were created by Federal law, they have some measure of regulatory or other authority conferred to them by law, or because they serve a public good directed by the Government. The following accounts are each deemed to be budgetary and fulfill the goal of presenting a Budget that is comprehensive of the full range of Federal activities.

The Affordable Housing Program was created by the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA). FIRREA requires each of the Federal Home Loan Banks to contribute 10-percent of its previous year's net earnings to an Affordable Housing Program (AHP) to be used to subsidize the cost of affordable homeownership and rental housing. The Federal Housing Finance Agency (FHFA) regulates the AHP and ensures that the AHP fulfills its mission.

The Corporation for Travel Promotion (also known as Brand USA) was established by the Travel Promotion Act in 2010 to lead the nation's first global marketing effort to promote the United States as a premier travel destination and to communicate U.S. entry/exit policies and procedures. The public-private partnership, funded through a combination of private sector contributions and Federal matching funds, works closely with the travel industry to encourage increased travel and tourism in the United States.

A surcharge to the Electronic System for Traveler Authorization (ESTA) fee that travelers from visa waiver countries pay before arriving in the United States provides Brand USA's Federal matching funds. Authorization to collect the surcharge under the Travel Promotion Act was set to expire September 30, 2015, but was extended to September 30, 2020, in the Travel Promotion, Enhancement, and Modernization Act of 2014 (part of the 2015 Consolidated and Further Continuing Appropriations Act).

The Budget proposes to eliminate funding for the Corporation for Travel Promotion (also known as Brand USA) as part of the Administration's

plans to move the Nation toward fiscal responsibility and to redefine the proper role of the Federal Government. The Budget redirects the Electronic System for Travel Authorization (ESTA) surcharge currently deposited in the Travel Promotion Fund to the ESTA account at Customs and Border Protection.

The Energy Policy Act of 2005 (P.L. 109-58) authorizes the Federal Energy Regulatory Commission (FERC) to certify an Electric Reliability Organization (ERO) to establish and enforce reliability standards for the electric bulk-power system. These standards include requirements for operating existing bulk-power system facilities, including cybersecurity protection, and design of planned additions or modifications to these facilities to provide for reliable operation, but does not include requirements to construct new transmission or generation capacity. On July 20, 2006, FERC certified the North American Electric Reliability Corporation as the ERO. ERO is funded by fees on end users of the bulk-power system. Since the ERO does not report budget data to Treasury, ERO funding is based on estimates.

The Federal Retirement Thrift Investment Board is responsible for managing the Thrift Savings Fund. Program administration for the Fund is financed from the Fund. Program expenses are funded first from forfeitures and loan fees and then from earnings on all participant and agency contributions to the Fund.

The Thrift Savings Fund is a special tax-deferred savings fund established by the Federal Employees' Retirement System Act of 1986. Due to the fiduciary nature of the Fund, it is not included in the totals of the Federal Budget. Information on the financial status and activities of the Fund follows this account.

INFORMATION SCHEDULES FOR THE THRIFT SAVINGS FUND

The Fund is composed of individual accounts maintained by the Federal Retirement Thrift Investment Board on behalf of the individual Federal employee participants in the Fund. All Federal civilian employees and members of the uniformed services are eligible to contribute to the Fund. Civilian employees covered by the Federal Employees Retirement System (or equivalent retirement systems) receive an automatic agency 1 percent contribution and matching contributions in accordance with the formulas prescribed by law. Beginning in January 2018, all new members of the uniformed services, and those members of the uniformed services with less than 12 years of service who have made an affirmative election, will receive an automatic agency one percent contribution and matching contributions in accordance with the formulas prescribed by law. Employees can invest in five investment funds: a U.S. Government securities investment fund; a fixed income index investment fund; a common stock index investment fund; a small capitalization stock index investment fund; an international stock index investment fund; or in five lifecycle funds, which were introduced in August 2005. These funds are composed of varying allocations of the five core investment funds. The allocations are based on the target maturity date of each fund.

The National Oilheat Research Alliance (NORA) was first authorized by The National Oilheat Research Alliance Act of 2000, as amended in 2014 (P.L. 113-79), and reauthorized by the Agriculture Improvement Act of 2018 (P.L. 115-334) to develop programs and projects and enter into contracts or other agreements to enhance consumer and employee safety and training; to provide for research, development, and demonstration of clean and efficient oilheat fuel utilization equipment; and to educate consumers. NORA is funded via statutorily-mandated fees of \$0.002 on every gallon of heating oil sold, collected at the wholesale level. Since NORA does not report budget data to Treasury, NORA funding is based on estimates.

Note: Because the Public Company Accounting Oversight Board (PCAOB) does not report budgetary data to Treasury, amounts shown above were derived from the PCAOB's financial data, which is based on a calendar year.

The Sarbanes-Oxley Act of 2002 (the Act) (P.L. 107–204), as amended by the Dodd-Frank Wall Street Reform and Consumer Protection Act (P.L. 111–203), established the PCAOB to oversee the audits and auditors of both public companies that are subject to Federal securities laws and broker-dealers registered with the Securities and Exchange Commission (SEC) in order to protect the interests of investors and further the public interest in the preparation of informative, accurate, and independent audit reports.

Funding for the PCAOB comes from registration and annual fees paid by public accounting firms and accounting support fees paid by public companies and SEC-registered broker-dealers. The Act designated the Commission to oversee the PCAOB and specifies that the PCAOB's budget and the accounting support fee be subject to approval by the Commission.

Under the Act, monetary penalties collected by the PCAOB shall be used to fund a merit scholarship program, subject to availability in an appropriations Act. The 2020 Budget proposes a general provision in Title VI to

transfer unobligated balances previously made available for this program to the general fund of the Treasury.

Note: Because the Securities Investor Protection Corporation (SIPC) does not report budgetary data to Treasury, amounts shown above were derived from SIPC's financial data, which is based on a calendar year. Starting with the 2020 Budget, earnings on investments are presented for all three years using an unamortized cost rather than the market value, to comply with OMB Circular A-11 requirements.

SIPC was created by the Securities Investor Protection Act of 1970 (SIPA). Its purpose is to protect customers against loss resulting from broker-dealer failure and, thereby, promote investor confidence in the Na-

tion's securities markets. SIPC is a non-profit membership corporation. Its members are, with some exceptions, all persons registered as brokers or dealers under section 15(b) of the Securities Exchange Act of 1934 and all persons who are members of a national securities exchange. SIPC's funding is derived entirely from assessments on its membership and from interest earned on its investments in U.S. Government securities.

SIPC may borrow up to \$2.5 billion from the U.S. Department of the Treasury, through the Securities and Exchange Commission, in the event that the fund maintained by SIPC is insufficient to satisfy the claims of customers of brokerage firms in SIPA liquidation or for other purposes under the Act. SIPC has not accessed these loans to date and the Budget does not project that SIPC will require use of these loans over the next 10 years.

The Financial Accounting Standards Board (FASB) is an independent, private-sector organization organized in 1973 within the Financial Accounting Foundation (FAF), which is an independent, private-sector, not-for-

profit corporation. The FASB consists of a seven-member board, whose members are appointed by the FAF. The FASB was originally designated by the Securities and Exchange Commission (Commission) as the authoritative standard setter for purposes of the Federal securities laws in 1973. In April 2003, the Commission reaffirmed the status of the FASB as a designated private-sector standard setting body pursuant to the Sarbanes-Oxley Act of 2002 (the Act) (P.L. 107-204), stating that the FASB's financial accounting and reporting standards are recognized as "generally accepted" for purposes of the Federal securities laws.

The Act authorizes funding for the standard setting body to be derived from an accounting support fee assessed on public companies, although the FAF has, on a voluntary basis, partially offset the fees that could be assessed pursuant to the Act by payments derived from publication sales and licensing fees. Prior to the Act, the FASB was funded by voluntary contributions from public companies, public accounting firms, and other stakeholders. The standard setting body's accounting support fee is subject to review by the Commission.

The Combined Benefit Fund was established by the Coal Industry Retiree Health Benefit Act of 1992 to take over paying for medical care of retired miners and their dependents who were eligible for health care from the private 1950 and 1974 United Mine Workers of America Benefit Plans. The Fund's trustees represent the United Mine Workers of America and coal companies. The Fund is financed by assessments on current and former signatories to labor agreements with the United Mine Workers; past transfers from the United Mine Workers pension fund; transfers from the Abandoned Mine Land Reclamation fund; and the General Fund of the Treasury.

The 1992 Benefit Plan was established by the Coal Industry Retiree Health Benefit Act of 1992. It pays for health care for those miners who

retired between July 21, 1992 and September 30, 1994, and their dependents, who are eligible for benefits under an employer plan and cease to be covered, usually because an employer is out of business. Plan trustees are appointed by the United Mine Workers of America and the Bituminous Coal Operators Association, a coal industry bargaining group. The Plan is supported by signers of the 1988 labor agreement with the United Mine Workers of America; transfers from the Abandoned Mine Land Reclamation fund; and the General Fund of the Treasury.

The 1993 Benefit Plan provides health benefits to certain retired mine workers and disabled mine workers who are not eligible for benefits under the Coal Industry Retiree Health Benefit Act of 1992 and who are not receiving benefits from employers' benefit plans. The 1993 Benefit Plan was established through collective bargaining under the National Bituminous Coal Wage Agreement of 1993. Plan trustees are appointed by the United Mine Workers of America and the Bituminous Coal Operators Association, a coal industry bargaining group. The Plan is financed by signatories to the National Bituminous Coal Wage Agreement; transfers from the Abandoned Mine Land Reclamation fund; and the General Fund of the Treasury.
