

DEPARTMENT OF THE INTERIOR

LAND AND MINERALS MANAGEMENT

BUREAU OF LAND MANAGEMENT

The Bureau of Land Management (BLM) is charged with the multiple use management of natural resources on more than 245 million acres of surface estate of public land, about one-eighth of the land in the United States. The BLM also administers approximately 700 million acres of on-shore Federal mineral estate underlying the BLM and other surface ownerships. In addition, the BLM has trust responsibilities on 56 million acres of Indian trust lands for mineral operations and cadastral (land) surveys. The lands managed by the BLM provide important natural resources, recreational and scenic values to the American people, as well as resource commodities and revenue to the Federal Government, States, and counties. It is the mission of the BLM to sustain the health, diversity, and productivity of the public lands for the use and enjoyment of present and future generations.

Federal Funds

MANAGEMENT OF LANDS AND RESOURCES

[(INCLUDING RESCISSION OF FUNDS)]

For necessary expenses for protection, use, improvement, development, disposal, cadastral surveying, classification, acquisition of easements and other interests in lands, and performance of other functions, including maintenance of facilities, as authorized by law, in the management of lands and their resources under the jurisdiction of the Bureau of Land Management, including the general administration of the Bureau, and assessment of mineral potential of public lands pursuant to section 1010(a) of Public Law 96-487 (16 U.S.C. 3150(a)), **[\$1,220,555,000]** \$1,480,334,000, to remain available until September 30, **[2022]** 2023; of which **[\$77,669,000]** \$78,724,000 for annual and deferred maintenance and **[\$115,745,000]** \$152,596,000 for the wild horse and burro program, as authorized by Public Law 92-195 (16 U.S.C. 1331 et seq.), shall remain available until expended: *Provided*, That amounts in the fee account of the BLM Permit Processing Improvement Fund may be used for any bureau-related expenses associated with the processing of oil and gas applications for permits to drill and related use of authorizations.

In addition, \$39,696,000 is for Mining Law Administration program operations, including the cost of administering the mining claim fee program, to remain available until expended, to be reduced by amounts collected by the Bureau and credited to this appropriation from mining claim maintenance fees and location fees that are hereby authorized for fiscal year **[2021]** 2022, so as to result in a final appropriation estimated at not more than **[\$1,220,555,000]** \$1,480,334,000, and \$2,000,000, to remain available until expended, from communication site rental fees established by the Bureau for the cost of administering communication site activities.

[Of the unobligated balances from amounts made available under this heading in fiscal year 2018 or before, \$13,000,000 is permanently rescinded: *Provided*, That no amounts may be rescinded from amounts that were designated by the Congress as an emergency requirement pursuant to the Concurrent Resolution on the Budget or the Balanced Budget and Emergency Deficit Control Act of 1985.] (Department of the Interior, Environment, and Related Agencies Appropriations Act, 2021.)

Land resources.—Provides for the integrated management of public land resources, including forestry, rangeland, and cultural resources, as well as wild horses and burros.

Wildlife and aquatic habitat management.—This activity encompasses programs that provide for the maintenance, improvement, or enhancement of wildlife habitats; the protection, conservation, consultation, recovery, and evaluation of populations and habitats of threatened, endangered and special status animal and plant species; as well as the management of water

MANAGEMENT OF LANDS AND RESOURCES—Continued

resources and riparian and wetlands areas, as part of the management of public lands and ecosystems.

Recreation management.—Provides for management and protection of recreational resource values, designated and potential wilderness areas, visitor services, and collection and expenditure of recreation user fees.

Energy and minerals management.—Provides for the management of: onshore oil, gas, and coal in line with the requirements of Executive Orders 13990 and 14008; renewable energy resources such as wind, solar, and geothermal energy; other leasable minerals and mineral materials activities; and the administration of encumbrances on the mineral estate on Federal and Indian lands. These programs also address needed remediation and reclamation of abandoned or orphaned oil and gas wells on BLM lands. The 2022 Budget continues to fund oil and gas management activities through a combination of direct appropriations and permanent appropriations authorized by the National Defense Authorization Act of 2015.

Realty and ownership management.—Provides for management and non-reimbursable processing of authorizations and compliance for realty actions and rights-of-way (including Alaska), administration of land title records and completion of cadastral surveys on public lands.

Communication site management.—This program grants and administers authorizations for communications sites; develops site management plans to guide users and analyze the impacts of communication structures on the sites and the surrounding lands; and conducts facility compliance inspections. Program costs are expected to be fully offset by site rental fees in 2022.

Resource protection.—Provides for management of the land use planning and National Environmental Policy Act processes, including assessment and monitoring activities. Also ensures the health and safety of users of the public lands through remediation of abandoned mine lands and protection from criminal and other unlawful activities; mitigation of the effects of hazardous material and/or waste and physical safety hazards.

Transportation and facilities management.—Provides for construction and maintenance of administrative and recreation sites, roads, trails, bridges and dams, including compliance with building codes and standards and environmental protection requirements. These funds allow for the systematic management of facilities with critical health and safety concerns, and ensure the protection of natural and cultural resources and the environment. The Bureau of Land Management funds all construction and deferred maintenance projects from this activity, including those on the Oregon and California grant lands.

National Conservation Lands.—Provides for the management of National Monuments, National Conservation Areas, and other Congressional conservation designations in the National Conservation Lands. The program provides for the recurring operational (base) budgets of these units.

Workforce and organizational support.—Provides for the management of bureau business practices, such as human resources, Equal Employment Opportunity, financial resources, procurement, property, information technology, and fixed costs.

Mining law administration.—Provides for exploration and development of minerals on public lands pursuant to the General Mining Law of 1872, including validity examinations, patent application reviews, enforcement of environmental and bonding requirements, and recordation of mining claims. Program costs are expected to be fully offset by claim maintenance and other fees in 2022.

Funding requested in this account will complement the Civilian Climate Corps called for in the President's American Jobs Plan, and will develop the next generation of conservation workers and create a new pathway to good-paying jobs.

Western Oregon resources management.—Provides for the management of approximately 2.4 million acres of lands that are primarily forested ecosystems in western Oregon. These lands support a number of resource activities including timber management, grazing management, and recreation management. In support of these activities, the Bureau of Land Management (BLM) is involved in improving critical watersheds, restoring wildlife and fish habitat, providing recreation opportunities, and preserving cultural resources.

Western Oregon information and resource data systems.—Provides for the acquisition, operation, and maintenance of the automated data support systems and spatial data systems required for management of the Oregon and California programs.

Western Oregon transportation and facilities maintenance.—Provides for annual maintenance activities of the transportation system, office buildings, warehouse and storage structures, shops, greenhouses, and recreation sites necessary to assure public safety and effective management of the lands in western Oregon. The BLM funds deferred maintenance projects on Oregon and California Grant Lands from the Management of Lands and Resources appropriation.

Western Oregon acquisition.—Provides for the necessary acquisition of easements and road-use agreements to facilitate timber sale and administrative site access for general resource management purposes and for monitoring and fee collection of timber hauling on government controlled roads. This activity also provides for transportation planning, survey, and design of access and other resource management roads.

Western Oregon National Conservation Lands.—Provides for the management of National Monuments, National Conservation Areas, and other Congressional conservation designations on the National Conservation

Lands. The program provides for the recurring operational (base) budgets of these National Conservation Lands units.

This appropriation provides for the acquisition of lands or interests in lands, by purchase, easement or exchange, when necessary for public access and recreation use, preservation of open space, resource protection, and/or other purposes related to the management of public lands. Beginning in 2021, BLM land acquisition is funded with permanent appropriations through the Land and Water Conservation Fund. The 2022 budget invests funding in projects that substantially conserve or protect against threats to resources, improve public access to outdoor recreation opportunities, and have strong local partner engagement and support.

This appropriation is derived from a percentage of receipts from grazing of livestock on the public lands and from grazing and mineral leasing receipts on Bankhead-Jones Farm Tenant Act lands transferred from the Department of Agriculture by various Executive Orders. These funds are used for the planning, construction, development, and monitoring of range improvements.

This appropriation is derived from: 1) revenues received to offset administrative and other costs incurred to process applications for rights-of-way, and the monitoring of construction, operation, and termination of rights-of-ways; 2) recovery of costs associated with the adopt-a-horse program; 3) revenues received for rehabilitation of damages to lands, resources, and facilities; 4) fees for processing specified categories of realty actions under the Federal Land Policy and Management Act of 1976; 5) deposits received from contractors in lieu of completing contract requirements such as slash burning and timber extension expenses; 6) fees for costs of reproduction and administrative services involved in providing requested copies of materials; 7) fixed fees for energy and minerals lease applications, assignments, and transfers; 8) costs of processing applications and administering permits, including environmental analysis and monitoring of special recreation permits; and, 9) rents received for permits to conduct filming and photography on public lands that rise above casual use. The Bureau of Land Management will continue to seek new opportunities to recover costs of services provided to benefiting public land users to reduce the need for direct appropriations from the Treasury.

Permanent operating funds accounts include:

Operations and maintenance of quarters.—Funds in this account are used to maintain and repair the Bureau of Land Management (BLM) employee-occupied quarters from which rental charges are collected. Agencies are required to collect rental charges from employees who occupy Government-owned housing and quarters. This housing is provided only in isolated areas or where an employee is required to live on-site at a Federally owned facility or reservation.

Forest ecosystems health and recovery.—The Forest Ecosystems Health and Recovery Fund was established as a permanent appropriation in the FY 1993 Interior Appropriations Act (Public Law 102-381). This authority was subsequently amended to temporarily expand the use of the Fund to cover additional forest health and recovery activities. A five-year reauthorization of the FEHRF was included in the FY 2015 Consolidated and Further Continuing Appropriations Act (Public Law 113-235) and expired at the end of FY 2020. The Consolidated Appropriations Act, 2021 (Public Law 116-260) included a one-year extension of the authority for the FEHRF to continue to be used for the broader forest health and

recovery activities. The FY 2022 President's budget proposes a one-year extension of this authority (through September 30, 2022). Without this reauthorization, funds in the FEHRF could only be used for the limited purposes provided for in the original FEHRF authorization. Funds in this account are derived from revenue generated from the Federal share of receipts from the sale of salvage timber from the Oregon and California grant lands, public domain lands, and Coos Bay Wagon Road lands. Pursuant to Public Law 102–381, as amended, this account was established to allow the BLM to more efficiently and effectively address forest health issues. Funds can be used for other forest health purposes, including vegetation and density control treatments.

Timber sale pipeline restoration fund.—This Fund provides for the deposit and use of fees collected by the BLM for sales of timber authorized by section 2001(k) of Public Law 104–19. Of the total deposited into this account, 75 percent is to be used for the preparation of timber sales to fill the timber pipeline on lands administered by the BLM, and 25 percent is to be used to address recreation projects on the BLM lands.

Stewardship contract product sales.—Stewardship contracting improves, maintains, or restores forest and rangeland health; restores or maintains water quality; improves fish and wildlife habitat; reestablishes native plant species and increases their resilience to insects and disease; and reduces hazardous fuels that pose risks to communities and ecosystem values. With stewardship contracting, the BLM may apply the value of timber or other forest products removed as an offset against the cost of services received, and monies from a contract may be retained by the BLM. These monies are available for expenditure without further appropriation at project sites.

Expenses, road maintenance deposits.—Users of certain roads under the BLM's jurisdiction make deposits for maintenance purposes. Moneys collected are appropriated for necessary road maintenance. Moneys collected on Oregon and California grant lands are available only for those lands (43 U.S.C. 1762(c), 43 U.S.C. 1735(b)).

Federal Lands Recreation Enhancement Act, BLM.—The Federal Lands Recreation Enhancement Act (FLREA) was enacted on December 8, 2004, as part of the Consolidated Appropriations Act for 2005. All recreation fee receipts collected under this authority at BLM sites are deposited in the Recreation Fee account. The BLM returns 100 percent of these receipts back to the site where the fees were generated. The budget proposes appropriations language to extend the program through October 1, 2023.

Operations and acquisitions in Nevada from land sale receipts.—Pursuant to the Southern Nevada Public Land Management Act (SNPLMA) (Public Law 105–263), 85 percent of receipts from sales of public domain lands in southern Nevada are used to acquire environmentally sensitive lands in Nevada; make capital improvements to areas administered by the National Park Service, the U.S. Fish and Wildlife Service and BLM in Clark County, Nevada; develop a multi-species habitat plan in Clark County, Nevada; develop parks, trails and natural areas and implement other conservation initiatives in Clark County, Nevada; and reimburse the BLM for costs incurred arranging sales and exchanges under the Act.

Lincoln County Land Sales Act.—Public Law 106–298 authorizes the Secretary to dispose of certain lands in Lincoln County, Nevada, and distribute the proceeds as follows: five percent to the State of Nevada; 10 percent to the county; and 85 percent to an interest bearing account available for expenditure without further appropriation to be used by the Secretary of the Interior to acquire environmentally sensitive lands in the State of Nevada, for identification and management of unique archaeological resources, for development of a multi-species habitat conservation plan in the county, and for other specified administrative purposes.

White Pine County Land Sales Act.—Public Law 109–432 authorizes the Secretary to dispose of certain lands in White Pine County, Nevada, and to distribute the proceeds as follows: five percent to the State of Nevada; 10 percent to the county; and 85 percent to an account available for expenditure without further appropriation for the management of

archaeological resources, wilderness protection, recreation activities, preparation of a management plan, reimbursement for sale costs, and other purposes.

Leases from Naval Petroleum Reserve No 2.—The 2005 Energy Policy Act established this Fund for environmental investigation and restoration on that site located in Kern County, California. A portion of revenue from new leases on the site is authorized to be deposited to this account. In 2008, it was certified that sufficient funds had been collected to cover the cost of the cleanup and other expenses and no more deposits were to be made to the Fund. New revenue from site operations is distributed under the Mineral Leasing Act.

BLM Permit Processing Improvement Fund.—The 2005 Energy Policy Act, as amended by the National Defense Authorization Act for Fiscal Year 2015, established pilot offices to improve interagency coordination in processing onshore Federal oil and gas permits. Fifty-percent of the rents from non-geothermal onshore mineral leases are authorized to be deposited in this Fund and used to facilitate the BLM oil and gas permit processing in these pilot offices. In addition, in 2016 through 2026, fees collected for processing applications for permits to drill will be deposited to this Fund and available for Federal oil and gas permitting activities.

Federal land disposal.—The Federal Land Transaction Facilitation Act, Public Law 106–248 (114 Stat. 613), provided authority for the BLM to sell public lands classified as suitable for disposal under resource management plans in effect at the time of enactment. This law provided that receipts from such sales could be used to acquire non-Federal lands with significant resource values that fall within the boundaries of areas now managed by the Department of the Interior and the U.S. Forest Service. The Federal Land Transaction Facilitation Act was permanently reauthorized by Public Law 115–141, the 2018 Consolidated Appropriations Act.

Owyhee Land Acquisition Account.—The 2009 Omnibus Public Land Management Act, Public Law 111–11 (123 Stat. 1039), provides that the Secretary may sell public land located within the Boise District of the BLM that, as of July 25, 2000, was identified for disposal in appropriate resource management plans. Amounts in the account shall be available to the Secretary, without further appropriation, to purchase land or interests in land in, or adjacent to certain wilderness areas.

Washington County, Utah Land Acquisition Account.—The 2009 Omnibus Public Land Management Act, Public Law 111–11 (123 Stat. 1091), authorizes the sale of public land located within Washington County, Utah, that, as of July 25, 2000, was identified for disposal in appropriate resource management plans. Amounts in the account shall be available to the Secretary, without further appropriation, to purchase land or interests in land, in or adjacent to certain wilderness areas.

Silver Saddle Endowment Account.—The 2009 Omnibus Public Land Management Act, Public Law 111–11 (123 Stat. 1114), requires Carson City, Nevada to deposit twenty-five percent of the difference between what the Secretary of the Interior and the City paid for the 62-acre Bernhard parcel before the Secretary conveys the land to the City. Amounts deposited in the account shall be available to the Secretary, without further appropriation, for the oversight and enforcement of a certain conservation easement.

Carson City Special Account.—The 2009 Omnibus Public Land Management Act, Public Law 111–11 (123 Stat. 1113), authorizes the sale of 158 acres of public land described in the statute. Five percent of the proceeds are paid to the State of Nevada for use for public education. The remainder is deposited to this account and used to acquire environmentally sensitive land or an interest in environmentally sensitive land in Carson City; to cover the cost of surveys and appraisals; and to reimburse the BLM for administrative expenses.

Ojito Land Acquisition.—The Ojito Wilderness Act authorized the sale of land to the Pueblo Indian Tribe and the purchase of land from willing sellers within the State of New Mexico.

Miscellaneous permanent payments include:

Payments for Oregon and California and Coos Bay Wagon Road grant lands, receipts.—The Secure Rural Schools and Community Self-Determination Act of 2000 (as amended by P.L. 116–93, the Further Consolidated Appropriations Act, 2020), provides annual revenue sharing payments to the 18 O&C counties. These payments are derived from revenues from Federal activities on O&C lands in the previous fiscal year that were not deposited to permanent operating funds, supplemented by amounts from the General Fund when necessary. The reauthorization of these payments by Title III of P.L. 116–93 authorizes SRS payments for 2019 and 2020. In the absence of this authority, eligible counties will receive funds authorized under the 1937 and 1939 statutes. Payments to the Oregon counties under the 1937 statute will be 50 percent of revenues from O&C grant lands. Payments under the 1939 statute are for lost tax revenue in two Oregon counties and are estimated to be 75 percent of all revenues from Coos Bay Wagon Road grant lands.

Payments to States (proceeds of sales).—States are paid five percent of the net proceeds from the sale of public land and public land products (31 U.S.C. 1305).

Payments to States from grazing receipts, etc., public lands outside grazing districts.—States are paid 50 percent of the grazing receipts from public lands outside of grazing districts (43 U.S.C. 315i, 315m).

Payments to States from grazing receipts, etc., public lands within districts.—States are paid 12.5 percent of grazing receipts from public lands inside grazing districts (43 U.S.C. 315b, 315i).

Payments to States from grazing receipts, etc, public lands within grazing districts, miscellaneous.—States are paid specifically determined amounts from grazing receipts derived from miscellaneous lands within grazing districts when payment is not feasible on a percentage basis (43 U.S.C. 315).

Payments to counties, National Grasslands.—Of the revenues received from the use of Bankhead-Jones Act lands administered by the Bureau of Land Management (BLM), 25 percent is paid to the counties in which such lands are situated, for school and road purposes (7 U.S.C. 1012).

Payments to Nevada from receipts on land sales.—Public Law 96–586 authorizes and directs the Secretary to sell not more than 700 acres of public lands per calendar year in and around Las Vegas, Nevada, the proceeds of which are to be used to acquire environmentally sensitive lands in the Lake Tahoe Basin of California and Nevada. Annual revenues are distributed to the State of Nevada (five percent) and the county in which the land is located (10 percent).

Public Law 105–263, as amended by Public Law 107–282, authorizes the disposal through sale of approximately 49,000 acres in Clark County Nevada, the proceeds of which are to be distributed as follows: a) five percent for use in the general education program of the State of Nevada; b) 10 percent for use by the Southern Nevada Water Authority for water treatment and transmission facility infrastructure in Clark County, Nevada; and c) the remaining 85 percent to a special fund administered by the Secretary of the Interior to be used to acquire environmentally sensitive lands in Nevada; make capital improvements to areas administered by the National Park Service, Fish and Wildlife Service, and the BLM in Clark County, Nevada; develop a multi-species habitat plan in Clark County, Nevada; develop parks, trails, and natural areas and implement other conservation initiatives in Clark County, Nevada; and reimburse the BLM for costs incurred arranging sales and exchanges under the Act.

Public Law 106–298 authorizes the sale of certain lands in Lincoln County, Nevada. The proceeds of these sales are to be distributed as follows: a) five percent to the State of Nevada for general education purposes; b) 10 percent to Lincoln County for general purposes with emphasis on supporting schools; and c) the remaining 85 percent to a special fund administered by the Secretary of the Interior to acquire environmentally sensitive lands in the State of Nevada, for identification and management of unique archaeological resources, for development of a multi-species habitat conservation plan in the county, and for other specified administrative purposes.

Cook Inlet Region, Incorporated Account.—This account received funding appropriated by section 9102 of the 1990 Department of Defense Appropriations Act for the acquisition of Federal real properties, improvements on such lands or rights to their use or exploitation, and any personal property related to the land purchased by the Cook Inlet Region, Incorporated as authorized by the provisions of section 12(b) of Public Law 94–204 (43 U.S.C. 1611). The BLM maintains an accounting of the funds used by the Cook Inlet Region, Incorporated to purchase properties.

State 5 Percent Share, Carson City Land Sales.—The 2009 Omnibus Public Land Management Act, Public Law 111–11 (123 Stat. 1113), requires that five percent of proceeds from the sale of 158 acres described in the statute shall be paid to the State of Nevada for general public education purposes.

The Helium Act Amendments of 1960, Public Law 86–777 (50 U.S.C. 167), authorized activities necessary to provide sufficient helium to meet the current and foreseeable future needs of essential government activities. The Helium Privatization Act of 1996 (HPA), Public Law 104–273, provided for the eventual privatization of the program and its functions, specifying that once the helium debt is retired, the Helium Production Fund would be dissolved. The debt was repaid at the beginning of 2014. The Helium Stewardship Act of 2013 (HSA), Public Law 113–40, provided for continued operation of the Helium program while facilitating a gradual exit from the helium market. The Helium program consists of: (a) continued storage and transmission of crude helium; (b) oversight of the production of helium on Federal lands; and (c) administration of in-kind and open market crude helium gas sale programs. To minimize impacts to the helium market, the HSA provides a "glide path" from the sales mandated under HPA, increasing the sales price of helium through an auction mechanism and reducing the total volume of helium sold each year until the amount in storage reaches 3.0 billion cubic feet. At that point, the remaining helium will be reserved for Federal users. Additionally, HSA directs BLM to transfer all assets for disposal to the General Services Administration (GSA) by September 30, 2021. The GSA, following its disposal process, will complete marketing, asset valuation, and dispose of all assets on or before September 30, 2023.

The Bureau of Ocean Energy Management (BOEM) manages the exploration and development of the nation's offshore energy and marine mineral resources on the U.S. Outer Continental Shelf (OCS). BOEM's work supports Administration efforts to create good paying jobs as the Nation transitions to a clean energy future. BOEM oversees development of renewable energy resources such as offshore wind, wave and ocean currents; vast deposits of oil and natural gas; and non-energy minerals. BOEM's goal is to balance economic development, energy security, and environmental protection through responsible and transparent management of offshore resources based on the best available science. To carry out this mission, BOEM: supports renewable energy leasing and development; provides OCS oil and gas planning, leasing and oversight, including inventories of oil and gas reserves, resource and economic evaluation, review and administration of oil and gas exploration and development plans, geological and geophysical (G&G) permitting, and financial assurance and risk management; conveys sand and gravel resources; and conducts National Environmental Policy Act (NEPA) analysis and environmental studies.

The Ocean Energy Management account includes the following budget activities: Renewable Energy, Conventional Energy, Marine Minerals, Environmental Programs, and Executive Direction.

Renewable Energy.—Oversees renewable energy program development and implementation, including: identification of wind energy areas; environmental and compliance work; competitive and noncompetitive leasing actions; review of site assessment plans, and construction and operations plans; and consultation with State and local governments, Federal agencies, and other stakeholders.

Conventional Energy.—Manages OCS oil and gas development in line with the requirements of Executive Orders 13990 and 14008. This includes: developing the National OCS Oil and Gas Leasing Program; implementing the lease sale process; administering leases; protecting the Federal Government from financial risks related to natural resource development; reviewing exploration and development plans and geological and geophysical permit applications; developing and maintaining the OCS cadastre; and conducting technical and economic resource evaluation and fair market value determination.

Marine Minerals.—Manages non-energy minerals on the OCS and conveys, on a noncompetitive basis, the rights to those resources to Federal, State, and local government agencies for shore protection, beach and wetlands restoration projects, or for use in construction projects funded or authorized by the Federal Government. Funding supports mineral resource exploration and leasing activities, coordination with governmental partners, engagement of stakeholders, and scientific research to improve decision making and risk management.

Environmental Programs.—Informs decision-makers and the public about the potential impacts of OCS energy and mineral activities on the marine, coastal, and human environment. Develops the environmental impact statements and environmental assessments needed to consider the potential environmental impacts of proposed actions in accordance with

the National Environmental Protection Act, the OCS Lands Act, and numerous other environmental statutes, regulations, and executive orders. Funding supports scientific research needed to inform policy decisions regarding energy and mineral development on the OCS.

Executive Direction.—Funds bureau-wide leadership, direction, management, coordination, communication strategies, outreach, and regulatory development. This includes budget management, administrative services management, bureau-wide information technology management and governance, congressional and public affairs, policy analysis, regulations, overseeing official documents, international affairs, and Freedom of Information Act activities.

OFFSHORE SAFETY AND ENVIRONMENTAL ENFORCEMENT

[(INCLUDING RESCISSION OF FUNDS)]

For expenses necessary for the regulation of operations related to leases, easements, rights-of-way, and agreements for use for oil and gas, other minerals, energy, and marine-related purposes on the Outer Continental Shelf, as authorized by law; for enforcing and implementing laws and regulations as authorized by law and to the extent provided by Presidential or Secretarial delegation; and for matching grants or cooperative agreements, **[\$150,812,000] \$194,830,000**, of which **[\$120,165,000] \$136,073,000** is to remain available until September 30, **[2022] 2023**, and of which **[\$30,647,000] \$58,757,000** is to remain available until expended, *including \$30,000,000 for offshore decommissioning activities: Provided*, That this total appropriation shall be reduced by amounts collected by the Secretary of the Interior and credited to this appropriation from additions to receipts resulting from increases to lease rental rates in effect on August 5, 1993, and from cost recovery fees from activities conducted by the Bureau of Safety and Environmental Enforcement pursuant to the Outer Continental Shelf Lands Act, including studies, assessments, analysis, and miscellaneous administrative activities: *Provided further*, That the sum herein appropriated shall be reduced as such collections are received during the fiscal year, so as to result in a final fiscal year **[2021] 2022** appropriation estimated at not more than **[\$120,165,000: Provided further**, That of the unobligated balances from amounts made available under this heading, \$10,000,000 is permanently rescinded: *Provided further*, That no amounts may be rescinded from amounts that were designated by the Congress as an emergency requirement pursuant to the Concurrent Resolution on the Budget or the Balanced Budget and Emergency Deficit Control Act of 1985] **\$166,073,000**.

For an additional amount, **[\$43,000,000] \$43,443,000**, to remain available until expended, to be reduced by amounts collected by the Secretary and credited to this appropriation, which shall be derived from non-refundable inspection fees collected in fiscal year **[2021] 2022**, as provided in this Act: *Provided*, That to the extent that amounts realized from such inspection fees exceed **[\$43,000,000] \$43,443,000**, the amounts realized in excess of **[\$43,000,000] \$43,443,000** shall be credited to this appropriation and remain available until expended: *Provided further*, That for fiscal year **[2021] 2022**, not less than 50 percent of the inspection fees expended

by the Bureau of Safety and Environmental Enforcement will be used to fund personnel and mission-related costs to expand capacity and expedite the orderly development, subject to environmental safeguards, of the Outer Continental Shelf pursuant to the Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.), including the review of applications for permits to drill. The Bureau of Safety and Environmental Enforcement (BSEE) was established on October 1, 2011, to ensure the safe and environmentally responsible exploration, development, production, and conservation of the Nation's offshore energy resources. The Bureau continues to improve its mission processes and staff capabilities to keep pace with the continued innovation in Outer Continental Shelf (OCS) energy exploration and production. To fulfill its mission, BSEE must adapt and respond to changes in both the renewable energy and oil and gas sectors throughout the lifecycle of offshore energy development. BSEE is committed to the continual advancement of the effectiveness of its safety management systems program and compliance assurance functions such as the inspection program, enhancing its permitting processes around greater quality assurance and consistency, ensuring high levels of preparedness in the event of oil spills, and addressing requirements for an expanded OCS renewable energy program. BSEE's work supports Administration efforts to create good paying jobs as the Nation transitions to a clean energy future. The Offshore Safety and Environmental Enforcement (OSEE) account is BSEE's primary operating account and funds the following activities: Operations, Safety, and Regulation; Environmental Enforcement; Administrative Operations; Executive Direction; and Offshore Decommissioning.

Operations, Safety, and Regulation.—Funds OCS oil and gas permit application reviews and offshore wind industry submittals; inspections of OCS facilities, including critical high-risk activities; offshore operator oil spill planning and preparedness compliance; investigations; enforcement; audit programs; annual operator performance reviews; verification of oil and gas production levels to help ensure the public receives a fair return; research supporting the analysis of emerging technologies, standards and regulatory review and development activities; and technical training.

Environmental Enforcement.—Funds environmental compliance staff and operational support required to: manage compliance verification and enforcement of environmental standards placed on OCS operations; ensure BSEE's compliance with NEPA, the Endangered Species Act (ESA), and the National Historic Preservation Act (NHPA) for Bureau permitting; conduct specialized inspections of air and water quality requirements, and other environmental mitigation measures; and oversee coordination and engagement for Tribal consultation requirements, and other environmental Acts, regulations, and policies.

Administrative Operations.—Funds general administration programs, equal employment opportunity services, emergency management, finance, human resources, procurement, and information management. BSEE also provides administrative services, such as human resources, procurement, and finance, to the Bureau of Ocean Energy Management (BOEM) and other entities within the Department on a reimbursable basis.

Executive Direction.—Funds bureau-wide leadership, direction, management, coordination, communications strategies, and outreach. This includes functions such as budget, congressional and public affairs, and policy and analysis.

Offshore Decommissioning.—Supports according to regulatory standards, the proper maintenance, monitoring, and decommissioning of orphaned wells, pipelines, and structures left on the OCS for which there is no remaining liable party.

The Oil Pollution Act of 1990 authorizes use of the Oil Spill Liability Trust Fund, established by section 9509 of the Internal Revenue Code of 1986. The Oil Spill Research appropriation is drawn from the Oil Spill Liability Trust Fund and funds: 1) oil spill prevention, abatement, planning, preparedness, and response functions for all facilities seaward of the coastline of the United States that handle, store, or transport oil; 2) oil spill research; and 3) Ohmsett—the National Oil Spill Response Research and Renewable Energy Test Facility.

Environmental protection.—This activity funds functions that directly contribute to ensuring the environment is protected during surface coal mining operations. It also addresses activities to ensure coal operators adequately reclaim the land after mining is completed.

Under this activity, the Office of Surface Mining Reclamation and Enforcement provides grants and support to States to operate enforcement programs on State and private lands under the terms of the Surface Mining Control and Reclamation Act of 1977. This activity also provides for the operation of enforcement programs in States without their own regulatory program and on Federal and Indian lands, as well as Federal oversight of the State regulatory programs.

Technology development and transfer.—This activity provides funding to enhance the technical skills that States and Indian Tribes need to operate their regulatory programs. It provides training and technical tools, such as the Coal Information Management System, to States and Indian Tribes to solve problems related to the environmental effects of coal mining and technical assistance to address specific coal mining issues.

Financial management.—This activity provides resources for managing, accounting, processing collections, and pursuing delinquent civil penalties. This includes developing and maintaining information management systems that support these functions and enhance the agency's ability to deny new mining permits to applicants with unabated State or Federal violations. This activity also includes accounting for and reporting on grants awarded to States and Tribes for regulatory purposes.

Executive direction and administration.—This activity provides funding for executive direction, general administrative support, and the acquisition of certain agency-wide common services, such as rent, telephones, and postage.

Environmental restoration.—This activity funds those functions that contribute to reclaiming lands affected by past coal mining practices. This activity provides discretionary funding for the Federal reclamation program for watershed restoration projects and for the evaluation of State and tribal reclamation programs that now receive mandatory funding for reclamation activities. This activity also provides for the operation of Federal reclamation programs for activities in those States without their own reclamation programs.

Technology development and transfer.—This activity provides funding to enhance the technical skills States and Indian Tribes need to operate their reclamation programs. The Office of Surface Mining Reclamation and Enforcement (OSMRE) provides training and technical assistance on mining and reclamation-related problems.

Financial management.—This activity provides funds to identify, notify, collect, and audit fees from coal operators for the Abandoned Mine Reclamation Fund. The OSMRE seeks to maximize voluntary compliance with the Surface Mining Control and Reclamation Act's reclamation fee provisions. This activity also includes accounting for and reporting on grants awarded to States and Tribes for reclamation activities.

Executive direction and administration.—This activity provides funding for executive direction, general administrative support, and the acquisition of certain agency-wide common services such as rent, telephones, and postage.

Funds in this account support the Administration's efforts to address the needs of coal communities by reclaiming formerly mined lands so that they can be repurposed for beneficial economic uses, providing local, good-paying union jobs for skilled technicians and operators in some of the hardest hit communities in the Nation. The Budget provides an additional \$50 million for the AML Economic Revitalization grant program to support Appalachian States with AML reclamation in conjunction with economic and community development activities.

The Surface Mining Reclamation and Enforcement Act of 1977 (30 U.S.C. 1243), as amended by the Tax Relief and Health Care Act of 2006 (Public Law 109–432) and the Bipartisan Miners Act of 2019 (Division M of Public Law 116–94), authorizes mandatory Treasury payments to three United Mine Workers of America (UMWA) retiree health benefit plans (the Combined Benefit Fund, the 1992 Plan, and the 1993 Plan), to the extent that other Federal funding sources do not meet the plans' expenditure needs, and to the 1974 UMWA Pension Plan, subject to certain limitations. Interest earned on Abandoned Mine Land trust fund balances is available for transfer to cover funding shortfalls in the health benefit plans; unobligated balances in the Fund are used to generate interest for this purpose.

WATER AND SCIENCE

BUREAU OF RECLAMATION

Appropriations to Reclamation are made from the General Fund and from certain special funds in the Treasury. Projects funded from the General Fund include the Colorado River Basin Project and the Colorado River Storage Project, among others. Special funds include the Reclamation Fund, the Central Valley Project Restoration Fund, the Colorado River Dam Fund, and the Recreation, Entrance, and User Fee account. Non-Federal entities also advance funds for operation and maintenance and provide funds under the Contributed Funds Act.

Of the Bureau's special funds, the Reclamation Fund consists of repayments and other revenues from water and power users; receipts from the sale, lease, and rental of Federal lands; and certain oil and mineral revenues. It can finance program activities authorized under "Reclamation Law" that directly benefit the 17 Western States. The Central Valley Project Restoration Fund consists of revenues from project beneficiaries. The Colorado River Dam Fund generates revenue from the sale of Boulder Canyon power.

The Water and Related Resources account supports the development, management, and restoration of water and related resources in the 17 Western States. The account includes funds to operate, maintain, and rehabilitate existing water and power facilities; protect public safety; conduct studies on ways to improve the reliability of water and related resources; and cover expenses associated with Indian water rights settlements. The account will support environmental justice for communities that have been left behind.

Work is done in partnership and cooperation with non-Federal entities and other Federal agencies to reduce conflict, facilitate solutions to complex water issues, and stretch limited water supplies.

WATER AND RELATED RESOURCES

(Legislative proposal, not subject to PAYGO)

The Administration proposes legislation to provide full funding for currently enacted Indian water rights settlements. The Department proposes to reclassify as mandatory funding the amounts necessary to meet Federal commitments for existing enacted Indian water rights settlements. The Budget continues the current discretionary funding for Indian water rights settlements for FY 2022. This reclassification to mandatory funding would take effect for FY 2023 and thereafter.

One of the goals of the President's American Jobs Plan is to make infrastructure more resilient, adapting to climate challenges that we face as a nation. This includes the drought in the western United States. The President's American Jobs Plan provides funding for the western drought crisis by investing in water efficiency and recycling programs, Tribal water settlements, and dam safety.

This fund was established to carry out the provisions of the Central Valley Project Improvement Act—to provide funding from project beneficiaries for habitat restoration, improvement and acquisition, and other fish and wildlife restoration activities in the Central Valley Project area of California. Resources are derived from donations, revenues from voluntary water transfers, and tiered water pricing. The account is also financed through additional mitigation and restoration payments collected on an annual basis from project beneficiaries.

This account receives funding (user fees and repayment receipts) from the Friant Division long-term water contractors and other Federal and non-Federal sources to implement the provisions described in the settlement

for the National Resources Defense Council et al. v. Rodgers lawsuit. The settlement's two primary goals are: 1) to restore and maintain fish populations in "good condition" in the main stem of the San Joaquin River below Friant Dam to the confluence of the Merced River, including naturally reproducing and self-sustaining populations of salmon and other fish; and 2) to reduce or avoid adverse water supply impacts to all of the Friant Division long-term contractors that may result from the Interim Flows and Restoration Flows provided for in the Settlement.

Ongoing construction costs of the Central Arizona project are financed through appropriations transferred to this Fund. Revenues from the operation and repayment, including interest, of project facilities are available without further appropriation. A portion of the revenues from the Boulder Canyon power and Parker-Davis projects are also transferred to this Fund. Use of the revenues are authorized for operation and maintenance expenses, for a share of Colorado River salinity control projects, and for other purposes defined in the Colorado River Basin Project Act as amended by the Arizona Water Settlements Act, Public Law 108-451.

BUREAU OF RECLAMATION LOAN PROGRAM ACCOUNT

Under the Small Reclamation Projects Act, loans and grants can be made to non-Federal organizations for construction of small water resource projects.

As required by the Federal Credit Reform Act of 1990, the Reclamation loan program account records the subsidy costs associated with the direct loans obligated in 1992 and beyond, as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis and the administrative expenses are estimated on a cash basis.

No funds are requested for the Reclamation loan program for direct loans or for loan program administration for 2022.

The Utah Reclamation Mitigation and Conservation account was established under Title IV of Public Law 102–575 for contributions from the State of Utah, the Federal Government (through the Secretary of the Interior and the Western Area Power Administration), and project beneficiaries (the Conservancy District). The requirement for contributions from the State, the Secretary, and the Conservancy District ended in 2001. The requirement for contributions from the Western Area Power Administration ended in 2013. Funds are deposited into the account as principal and may not be expended for any purpose. Interest earned annually on the account is available for expenditure, without further appropriations, by the Utah Reclamation Mitigation and Conservation Commission, which has the option to use the funds for the mitigation, conservation, and enhancement of fish and wildlife and recreational resources, or to reinvest the funds into the account as principal.

The U.S. Geological Survey (USGS) provides research and scientific information to support the mission of the Department of the Interior (Interior) and its science requirements. The USGS also works in collaboration with other Federal, State, tribal, and municipal cooperators to conduct research and provide scientific data and information concerning natural hazards and natural resource issues, including the water, land, geologic, and biological resources of the Nation. The USGS budget continues science programs that generate relevant, objective information for natural resource managers and for communities throughout the Nation and engages in partnerships with universities, research institutions, and major public and private laboratories.

Ecosystems.—The USGS Ecosystems Mission Area is the biological research arm of Interior and provides science to help America achieve sustainable management and conservation of biological resources in wild and urban spaces. Scientists examine the consequences of climate and environmental change, effects of management actions on communities, lands and species, and risks and solutions to harmful invasive species, wildlife diseases, and contaminants in the environment.

Energy and Mineral Resources.—The USGS Energy and Mineral Resources mission area is the Nation's primary source of impartial scientific information on domestic and global geologic resources and the strength of their supply chains. The Nation relies on a variety of energy and mineral resources to power homes and businesses and to manufacture products and technologies from phones to vehicles. The mission area conducts research on the full life cycle of these resources, including the Nation's domestic resources and global trade relationships; carbon storage potential and critical mineral supply chains essential for the transition to clean energy; environmental and socioeconomic effects of geologic resource occurrence, extraction, use, wastes, and demands on water supplies; and supply, demand, and trade of mineral commodities. The science provided by the mission area is used to inform strategic economic, technological, and geopolitical decisions and sustainable natural resource management.

Natural Hazards.—The USGS plays a critical role in providing policy-makers and the public with a clear understanding of potential threats from natural hazards, societal vulnerability to these threats, and strategies for improving resilience to earthquakes, volcanic eruptions, landslides, floods, hurricanes, geomagnetic storms, tsunamis, and wildfires. The USGS Natural Hazards mission area is working with its partners and stakeholders to define and mitigate risks, build understanding of natural hazard processes, and characterize potential impacts on human activity and health, the economy, and the environment. This mission area includes USGS activities that characterize and assess coastal and marine processes, conditions, change, and vulnerability.

Water Resources.—The USGS is the primary Federal science agency providing information about water resources. To fulfill this responsibility,

the USGS Water Resources mission area monitors and assesses the amount and characteristics of the Nation's water resources, assesses sources and behavior of contaminants in the water environment, and develops tools to improve management and understanding of water resources. This work supports Federal, State, tribal, and municipal government decisions in managing water resources for domestic, agricultural, commercial, industrial, recreational, and ecological uses; protects and enhances water resources for human health, aquatic health, and environmental quality; minimizes loss of life and property as a result of water-related natural hazards, such as floods, droughts, and land movement; and contributes to sustainable stewardship and development of the Nation's resources for the benefit of present and future generations.

Core Science Systems.—The USGS Core Science Systems mission area leads the bureau's mission as the civilian mapping agency for the Nation—a 142 year legacy since its establishment in 1879. The USGS conducts detailed surveys and distributes the resulting high-quality and highly-accurate topographic, geologic, hydrographic, and biogeographic maps and remotely-sensed data and analyses to the public. Mapping accuracy enabled by cutting-edge technologies allows precise planning for recreational use on public lands; collaborative conservation with Interior partners; critical minerals assessments; energy development; transportation and pipeline infrastructure projects; urban planning and development; land change and flood prediction at regional, local, and neighborhood scales; emergency response; and hazards mitigation. The USGS Core Science Systems mission area is the Federal steward of this high-quality geospatial and remote sensing data, and provides access to the public through The National Map, the National Land Cover Database, the National Geologic Map Database, the USGS Earth Explorer, and the National Biogeographic Map. The USGS also operates Landsat satellites and data systems necessary to understand, monitor, and detect changes that affect the Nation's natural and agricultural resources, economy, public safety and national security, and historical heritage.

Science Support.—The USGS Science Support program funds essential science leadership as well as critical functions such as: scientific integrity processes; sharing and communicating science findings; purchasing science equipment and field supplies; executing science agreements with partners; contracting for support scientists and researchers; safety training; hazardous waste management; succession planning and execution; and information technology, which supports the scientific process and information management of scientific data. Science Support also provides bureau-wide executive direction and coordination, business administration, and financial management.

Facilities.—The USGS Facilities program provides safe, functional workspace, laboratories, and facilities for the USGS to accomplish its scientific mission. The mission area provides rental payments and operation and maintenance for properties and deferred maintenance and capital improvement for owned assets.

Reimbursable Program.—This program includes reimbursements from non-Federal sources (States, Tribes, and municipalities) for cooperative efforts; proceeds from the sale of copies of photographs and records and the sale of personal property; reimbursements from permittees and licensees of the Federal Energy Regulatory Commission; and reimbursements from foreign countries and international organizations for technical assistance. The USGS also receives reimbursements from other Federal agencies for mission-related work performed at the request of the financing agency.

As part of the President's American Jobs Plan, USGS will increase support for digital high-resolution elevation collection mapping within the 3D Elevation program (3DEP). 3DEP works collaboratively with state and private partners to improve elevation maps of the United States. Improved elevation maps are essential for hazard planning, including informing flood risk or mudslide risk. This improved mapping will support climate resilience as communities plan for infrastructure improvements that will be resilient in the face of a changing climate.

Funds in this account are provided by States, local governments, and private organizations (pursuant to 43 U.S.C. 36c). This appropriation (a permanent, indefinite, special fund) makes these funds available to the U.S. Geological Survey (USGS) to perform the work desired by the contributor and the USGS. Research and development, data collection and analysis, and services are undertaken when such activities are of mutual interest and benefit and assist USGS in accomplishing its mandated purposes.

Ecological Services.—The Service conserves, protects, and enhances fish, wildlife, plants, and their habitat by working with private landowners, States, Tribes, non-governmental organizations, and other Federal agencies. These partnership activities help protect and recover species listed under the Endangered Species Act and work to make the listing of additional species unnecessary. Financial assistance is provided to private landowners to restore or improve habitat for endangered species and other at-risk species. Technical assistance helps prevent or minimize potential conflicts between development projects and imperiled species.

Habitat Conservation.—Through technical and financial assistance, the Service promotes the protection, conservation, and restoration of the Nation's fish and wildlife resources. These conservation activities are accomplished through a voluntary citizen and community based stewardship program with partners on private lands. Conserving the Nation's coastal

RESOURCE MANAGEMENT—Continued

trust resources is accomplished through collaboration with others on public and private lands.

National Wildlife Refuge System.—The Service maintains the National Wildlife Refuge System consisting of 568 refuges, waterfowl production areas in 210 counties managed by 38 wetland management districts, 49 wildlife coordination areas, and seven national monuments. The National Wildlife Refuge System administers this network of lands and waters to conserve and restore fish, wildlife, plants, and their habitats, for the benefit of present and future generations of Americans.

Conservation and Enforcement.—The Service directs and coordinates national migratory bird programs to protect and enhance populations and habitat of more than 1,000 species of birds. Grants and partnerships are key to these programs, such as Joint Ventures that implement the North American Waterfowl Management Plan. The Service Law Enforcement program investigates wildlife crimes, regulates wildlife trade, helps Americans understand and obey wildlife protection laws, and works in partnership with international, State, and Tribal counterparts to conserve wildlife resources. The Service, through the International Affairs Program, works with domestic and international partners to promote a coordinated strategy to protect, restore, and enhance the world's diverse wildlife and their habitats, with a focus on species of international concern.

Fish and Aquatic Conservation.—The Fish and Aquatic Conservation Program consists of a network of 70 National Fish Hatcheries, one historic National Fish Hatchery, six Fish Health Centers, seven Fish Technology Centers, 51 Fish and Wildlife Conservation Offices, and the Aquatic Animal Drug Approval Partnership Program. Working with partners, the program recovers, restores and maintains fish and other aquatic resources at self-sustaining levels; provides technical assistance to States, Tribes and others; and supports Federal mitigation programs for the benefit of the American public.

Cooperative Landscape Conservation.—The Cooperative Landscape Program works with States to deliver conservation on a landscape scale and build collaborative approaches to conservation through coalitions with States and other partners.

Science Support.—Science Support provides funding for applied science directed at high impact questions of concern to management of fish and wildlife resources. This science provides information to inform resource management decisions to best manage species at healthy and sustainable levels.

General Operations.—Funding for the Service's general operations provides policy guidance, program coordination, and administrative services to all of the Fish and Wildlife Service's programs. The funds also support the National Conservation Training Center and projects through the National Fish and Wildlife Foundation to restore and enhance fish and wildlife populations.

Funding requested in this account will complement the Civilian Climate Corps called for in the President's American Jobs Plan, and will develop the next generation of conservation workers and create a new pathway to good-paying jobs.

The Construction activity provides funding for projects that focus on construction and rehabilitation, environmental compliance, pollution abatement, hazardous materials cleanup, and seismic safety for facilities on Fish and Wildlife Service lands. This also includes repair and inspection of the Service's dams and bridges. These projects are needed to accomplish the management objectives and purposes of these structures, protect and enhance natural resources, and fulfill the Service's mission.

The State and Tribal Wildlife Grants program provides funds to States, Commonwealths, the District of Columbia, and Territories primarily through a formula-based apportionment. Additionally, a competitive program uses a merit-based process to fund outcome-oriented, results-based projects. At the discretion of affected States, the competitive program may be used by regional associations of State fish and wildlife agencies. These funds are provided to stabilize, restore, enhance, and protect species and their habitat that are of conservation concern.

Federal Land Acquisition funds are used to protect areas that have native fish or wildlife values and provide natural resource benefits over a broad geographical area. Funds in this account also cover acquisition management activities, such as title fees and land surveys. The U.S. Fish and Wildlife Service places emphasis on acquiring important fish, wildlife, and plant habitat for the conservation of listed endangered and threatened species, implementing the North American Waterfowl Management Plan, and conserving migratory birds of conservation concern. The Federal Land Acquisition program uses alternative and innovative conservation tools, including conservation easements, and implements projects that have the input and participation of the affected local communities and stakeholders. The U.S. Fish and Wildlife Service is not requesting discretionary funding for this account.

The Great American Outdoors Act (P.L. 116-152) makes funds deposited into the Land and Water Conservation Fund available for expenditure without further appropriation or fiscal year limitation while providing that the U.S. Fish and Wildlife Service shall submit to Congress detailed account, program, and project allocations made available under the statute.

Funds deposited into this account include import duties on arms and ammunition and receipts in excess of U.S. Postal Service expenses from the sale of Migratory Bird Hunting and Conservation Stamps, also known as Duck Stamps. These funds are used to acquire land and water for migratory bird refuges and waterfowl production areas. In addition, any funds reverted from the States within the Federal Aid in Wildlife Restoration Fund are available for this purpose. The Federal Duck Stamp Act (P.L. 113–264) increased the price of Duck Stamps from \$15 to \$25, with the \$10 increase to be dedicated to the acquisition of conservation easements for conservation of migratory birds.

Funds deposited into this account include direct appropriations and fines, penalties, and forfeitures collected under the authority of the Migratory Bird Treaty Act (16 U.S.C. 707). The North American Wetlands Conservation Fund supports wetlands conservation projects approved by the Migratory Bird Conservation Commission. Interest on obligations held in the Federal Aid in Wildlife Restoration Fund is also available for this purpose. In addition, a portion of receipts to the Sport Fish Restoration Account is also available for coastal wetlands conservation projects.

These projects help fulfill the habitat protection, restoration, and enhancement goals of the North American Waterfowl Management Plan and the Tripartite Agreement among Mexico, Canada, and the United States. These projects may involve partnerships with public agencies and private entities, with non-Federal matching contributions, for the long-term conservation of habitat for migratory birds and other fish and wildlife, including species that are listed, or are candidates to be listed, under the Endangered Species Act (16 U.S.C. 1531).

Wetlands conservation projects include obtaining a real property interest in lands or waters, including water rights; the restoration, management or enhancement of habitat; and training and development for conservation management in Mexico. Funding may be provided for assistance for wetlands conservation projects in Canada or Mexico.

The Cooperative Endangered Species Conservation Fund provides grants to States and U.S. Territories for species and habitat conservation actions on non-Federal lands, including habitat acquisition, conservation planning, habitat restoration, status surveys, captive propagation and reintroduction, research, and education for species that are listed or are candidates for listing, as threatened or endangered. These activities support recovery efforts and Habitat Conservation Plans in partnership with local governments and other interested parties to protect species. Appropriations to this account have been financed by both the Land and Water Conservation Fund and the Cooperative Endangered Species Conservation Fund. The latter is an unavailable receipt account that receives a transfer from the General Fund of the U.S. Treasury equal to five percent of receipts deposited to the Federal Aid in Wildlife and Sport Fish Restoration accounts plus Lacey Act receipts over \$500,000. Funds made available for grants from the Cooperative Endangered Species Conservation Fund are subject to annual appropriations from Congress. The Great American Outdoors Act, enacted in 2020, provides mandatory funding for this Fund from the Land and Water Conservation Fund. The 2022 President's Budget also includes discretionary appropriations from the Land and Water Conservation Fund to this Fund for land acquisition programs.

The Refuge Revenue Sharing Act (16 U.S.C. 715s) authorizes the Service to make payments to counties in which Fish and Wildlife Service fee lands are located, from the revenues resulting from the sale of products from Service lands, less expenses for producing the revenue and activities related to revenue sharing. The 2022 Budget does not propose to supplement revenues with discretionary funding.

The Federal Lands Recreation Enhancement Act (FLREA) was passed on December 8, 2004, as part of the Omnibus Appropriations bill for 2005. Approximately 164 Fish and Wildlife Service sites collect entrance fees and other receipts. All receipts are deposited into a recreation fee account of which at least 80 percent is returned to the collecting site.

The recreation fee program supports user generated cost recovery for the operation and maintenance of recreation areas, visitor services improvements, and habitat enhancement projects on Federal lands. Fees are used primarily at the site to improve visitor access, enhance public safety and security, address maintenance needs, enhance resource protection, and cover the costs of collection. Recreation fees are often used at Service sites to fund student intern and various youth programs focusing on hunting, fishing, wildlife observation, wildlife photography, environmental education, and environmental interpretation. Section 423 of Division G of the Consolidated Appropriations Act, 2021 (P.L. 116–260) extended FLREA

through 2022. The 2022 budget includes appropriations language to extend FLREA through October 1, 2023.

The Federal Aid in Wildlife Restoration Act (16 U.S.C. 669 et seq.), also known as the Pittman-Robertson Wildlife Restoration Act, created a program to fund the selection, restoration, rehabilitation and improvement of wildlife habitat, hunter education and safety, and wildlife management research. Under the program, States, Puerto Rico, Guam, the Virgin Islands, American Samoa, and the Northern Mariana Islands are allocated funds from an excise tax on sporting arms and ammunition, handguns, and a tax on certain archery equipment. States are reimbursed up to 75 percent of the cost of approved wildlife and hunter education projects.

The Wildlife and Sport Fish Restoration Programs Improvement Act (P.L. 106–408) amends the Pittman-Robertson Wildlife Restoration Act and authorizes a Multistate Conservation Grant Program, as well as the Firearm and Bow Hunter Education and Safety Program that provides grants to the States.

The Target Practice and Marksmanship Training Support Act (P.L. 116–17) amends the Pittman-Robertson Wildlife Restoration Act to define a public target range and offers States alternatives for funding specific activities related to public target ranges.

The Energy Policy Act (P.L. 109–58) amends section 31 of the Outer Continental Shelf (OCS) Lands Act (43 U.S.C. 1356 et seq.) to require that for each of the fiscal years 2007 through 2010, \$250,000,000 in OCS revenues be distributed each year to coastal States that have submitted approved coastal impact assistance plans. The formula for distribution is based on the amount of qualified OCS revenues generated off the coastline of each producing State. In addition, 35 percent of each State's allocable share is to be distributed to coastal political subdivisions based on population, coastline, and distance to applicable OCS leases. In 2011, administration of this program was transferred from the Bureau of Ocean Energy Management, Regulation, and Enforcement to the Fish and Wildlife Service.

Operation and maintenance of quarters.—Revenue from the rental of Government quarters is deposited in this account for use in the operation and maintenance of such quarters for the Fish and Wildlife Service, pursuant to Public Law 98–473, Section 320; 98 Stat. 1874, as amended.

Proceeds from sales, water resources development projects.—Receipts collected from the sale of timber and crops from National Wildlife Refuge System lands leased or licensed from the Department of the Army may be used to pay the costs of production of the timber and crops and for managing wildlife habitat, 16 U.S.C. 460(d).

Lahontan Valley and Pyramid Lake Fish and Wildlife Fund.—Under the Truckee-Carson Pyramid Lake Water Rights Settlement Act, the Lahontan Valley and Pyramid Lake Fish and Wildlife Fund receives revenues and donations from non-Federal parties to support the restoration and enhancement of wetlands in the Lahontan Valley and to restore and protect the Pyramid Lake fishery. Revenues received from the Bureau of Reclamation's Washoe Project in excess of operation and maintenance costs for the Stampede Reservoir are available without further appropriation. Donations made for express purposes and State cost-sharing funds are available without further appropriation. The Secretary of the Interior is also authorized to deposit proceeds from the sale of certain lands and interests in lands into the Pyramid Lake Fish and Wildlife Fund.

Community Partnership Enhancement.—Under the National Wildlife Refuge System Volunteer and Community Partnership Enhancement Act (P.L. 105–242, dated October 5, 1998), the Service is authorized to enter into cooperative agreements with nonprofit organizations, academic institutions, or State and local governments to construct, operate, maintain, or improve refuge facilities and services, and to promote volunteer outreach and education programs.

The Federal Aid in Sport Fish Restoration Act, also known as the Dingell-Johnson Sport Fish Restoration Act (16 U.S.C. 777 et seq.), created a fishery resources, conservation, and restoration program funded by excise taxes on fishing equipment and certain other sport fish related products and fuel.

The Wildlife and Sport Fish Restoration Programs Improvement Act (P.L. 106–408) amends the Dingell-Johnson Sport Fish Restoration Act and authorizes a Multistate Conservation Grant Program. It also provides

SPORT FISH RESTORATION—Continued

funding for several fisheries commissions and the Sport Fishing and Boating Partnership Council.

The Sport Fish Restoration Act specifies that the net deposits made into the Sport Fish Restoration and Boating Safety Trust Fund, minus the distributions for administrative expenses for the Fish and Wildlife Service and the United States Coast Guard, special commissions, and the Boating Council, be distributed to support the following:

The Coastal Wetlands Planning, Protection, and Restoration Act (16 U.S.C. 3951 et seq.).—18.673 percent of net deposits, or amounts collected in small engine fuels excise taxes as provided by 26 U.S.C. 9504(b), whichever is greater, are to be made available and distributed as follows: 70 percent to the U.S. Army Corps of Engineers for priority project and conservation planning activities in Louisiana; 15 percent to the Fish and Wildlife Service for coastal wetlands conservation grants; and 15 percent to the Fish and Wildlife Service for wetlands conservation projects per the North American Wetlands Conservation Act (16 U.S.C. 4407).

Boating Safety Programs.—17.315 percent of net deposits are to be made available to the United States Coast Guard for State recreational boating safety programs.

Boating Infrastructure Improvement.—Four percent of net deposits are to be made available to the Secretary of the Interior to make grants to 1) States, as determined through a competitive award process, for the development and maintenance of facilities for transient non-trailerable recreational vessels 26 feet or longer, or 2) States, Commonwealths, the District of Columbia and Territories, as determined through a competitive award process, to carry out projects for the construction, renovation, operation, and maintenance of pumpout stations and waste reception facilities, as well as for educational programs on proper disposal of sewage. Not more than 75 percent of the four percent shall be available for grants under either of the award processes referenced in this paragraph.

National Outreach and Communications Programs.—Two percent of net deposits are to be made available to the Secretary of the Interior to develop national and State outreach plans to promote safe fishing and boating opportunities and the conservation of aquatic resources.

Grants to States.—58.012 percent of net deposits are provided to the States, Puerto Rico, Guam, the Virgin Islands, American Samoa, the Northern Mariana Islands, and the District of Columbia for up to 75 percent of the cost of approved projects including: research into fisheries problems, surveys and inventories of fish populations, acquisition and improvement of fish habitat, and provision of access for public use and \$3 million is reserved for Multistate Conservation Activities.

The National Park Service administers 423 units and over 85 million acres of land in 50 States, the District of Columbia, Puerto Rico, the U.S. Virgin Islands, Guam, Samoa, and the Northern Marianas. This annual appropriation funds the operation of areas and facilities administered under the National Park System through two budget activities. Funds within this appropriation are available for one year, with the exception of funds for repair and rehabilitation, cyclic maintenance, cooperative restoration of the Everglades, and uses authorized by section 101122 of title 54, United States Code, which are available for two years. The 2022 Budget proposes all appropriations in this account be made available for two years. This account contains reimbursable activity such as recovery of costs associated with special use permits. Funding requested in this account will complement the Civilian Climate Corps called for in the President's American Jobs Plan, and will develop the next generation of conservation workers and create a new pathway to good-paying jobs.

The first activity, Park Management, covers the management and operation of park areas, and is divided into five subactivities that represent functional areas:

Resource stewardship.—Encompasses resource management operations that provide for the protection and preservation of unique natural, cultural, and historical features of units of the National Park System.

Visitor services.—Includes operations that provide orientation, educational, and interpretive programs to enhance the visitor's park experience. It also provides for the efficient management of commercial services for the benefit of visitors and the protection of resources.

Park protection.—Provides for the protection of park resources, visitors, and staff. Funding supports law enforcement operations, including the United States Park Police, that reduce vandalism and other destruction of park resources, safety, and public health operations.

Facility operations and maintenance.—Encompasses the maintenance and protection of buildings, other facilities, lands, and other government investments.

Park support.—Covers the management, supervision, and administrative operations for park areas and partnerships.

The second activity, External Administrative Costs, funds costs which are largely determined by organizations outside the National Park Service and for which funding requirements are less flexible. The requirements for these costs are mandated in accordance with applicable laws. To promote the efficient performance of the National Park Service, these costs are most effectively managed on a centralized basis.

The Visitor Experience Improvements Authority (VEIA) Revolving Fund provides for the administration of commercial services contracts, and related professional services contracts, for the operation and expansion of commercial visitor facilities and visitor services programs. This includes expenses necessary for the management, improvement, enhancement, operation, construction, and maintenance of commercial visitor services facilities. Funds will also be used to make payments for possessory interest and leasehold surrender interest in existing commercial services contracts awarded under separate authorities. VEIA is designated as a revolving fund pursuant to Title VII of the National Park Service Centennial Act of 2016 (P.L. 114-289). The authority provides the National Park Service with the tools to improve commercial visitor facilities and services.

The National Recreation and Preservation appropriation covers a broad range of activities relating to outdoor recreation planning, preservation of natural, cultural and historic resources, and environmental compliance. These programs provide a central point at the Federal level for recreation and preservation planning; the coordination of Federal and State policies, procedures and guidelines; and the administration of technical and financial assistance to international, Federal, State, and local governments and private organizations. The 2 Budget proposes this appropriation be made available for two years. This appropriation is comprised of the following six budget activities:

Natural Programs.—Increases river and trail opportunities through Rivers, Trails, and Conservation Assistance, State and local technical assistance and Chesapeake Bay Gateways and Water Trails grants; creates river conservation and recreational opportunities that are compatible with continuing and future operations of hydropower facilities, fulfills National Park Service responsibilities under the Federal Power Act, and protects park resources through the Hydropower Recreation Assistance Program; manages the National Natural Landmark program; and provides technical assistance to State and local governments and transfers surplus real property to local governments for recreation uses.

Cultural Programs.—Manages the National Register of Historic Places; reviews and certifies applications for Federal Tax Credits for Historic Preservation as a reimbursable activity; conducts cultural resources management planning through the National Historic Landmarks program, the Historic American Buildings Survey, the Historic American Engineering Record and the Historic American Landscapes Survey programs; and advances the application of science and technology in historic preservation and provides information distribution and skills training in the preservation and conservation of the Nation's significant historic and cultural resources through the National Center for Preservation Technology and Training. This program activity also supports the American Battlefield Protection Program Assistance Grants program, the Japanese American Confinement Site Grants program, the Native American Graves Protection and Repatriation Grants program, the 9/11 Memorial Act Grants program, and the American Indian and Native Hawaiian Art & Culture Grants. This activity also includes relevant grant administration funding. .

Environmental Compliance and Review.—Provides review and commentary on environmental impact statements, Federal licensing, permit applications, and other actions that may impact areas of National Park Service jurisdiction.

International Park Affairs.—Coordinates international assistance programs and the exchange and support functions that complement the Service's domestic role.

Heritage Partnership Programs.—Provides financial and technical assistance to Congressionally designated national heritage areas, managed by private or State organizations to promote the conservation of natural, historic, scenic, and cultural resources.

URBAN PARK AND RECREATION FUND

The Urban Park Recreation Recovery Act of 1978 authorizes matching grants and technical assistance to eligible economically distressed urban communities to revitalize and improve recreation opportunities. The program provides direct Federal grants to local governments to rehabilitate existing indoor and outdoor recreation facilities; to demonstrate innovative ways to enhance park and recreation opportunities; and to develop local Recovery Action Plans to identify needs, priorities and strategies for revitalization of the total recreation system. No funds are requested for this program in 2022.

The Construction appropriation provides support to several National Park Service mission goals, including preserving park resources, providing for visitor enjoyment, and improving organizational effectiveness. In addition, this account contains activity related to reimbursable agreements.

The Construction appropriation is composed of five budget activities:

Line item construction.—This activity provides for the construction, rehabilitation, and replacement of facilities needed to accomplish the management objectives approved for each park.

Special programs.—This activity includes Emergency and Unscheduled Projects, Employee Housing, Dam Safety, and Equipment Replacement.

Construction planning.—This activity includes the project planning function to prepare working drawings, specification documents, and contracts needed to construct or rehabilitate National Park Service facilities.

Construction program management and operations.—This activity provides centralized design and engineering management services, as well as contracting services for park construction projects.

Management planning.—Under this activity, funding is used to prepare and update Unit Management Plans. The plans guide National Park Service actions for the protection, use, development, and management of each park unit. Funding also is used to conduct studies of alternatives for the protection of areas that may have potential for addition to the National Park System and for environmental impact planning and compliance.

The Land Acquisition and State Assistance appropriation uses permanent funding derived from the Land and Water Conservation Fund to support National Park Service land acquisition activities and provide grants to States for the purchase and development of land for outdoor recreation activities. The Great American Outdoors Act (P.L. 116–152) makes funds deposited into the Land and Water Conservation Fund available for expenditure without further appropriation or fiscal year limitation while providing that the National Park Service shall submit to Congress detailed account, program and project allocations made available under the statute.

In addition, the Gulf of Mexico Energy Security Act of 2006 (P.L. 109–432) allows a portion of the revenue collected from certain oil and gas leases in the Gulf of Mexico Outer Continental Shelf (OCS) to be deposited to the Land and Water Conservation Fund and distributed to States in accordance with the Land and Water Conservation Act of 1965. The National Park Service portion of the revenue is 12.5 percent of total qualified OCS revenues. These OCS receipts became available for expenditure as mandatory funding beginning in 2009. The Consolidated Appropriations Act, 2021 (P.L. 116–260) permits the use of up to three percent of the amounts authorized to be disbursed for costs of administration per the statute.

The Land Acquisition and State Assistance program is composed of the following budget activities:

Federal land acquisition.—Provides for the acquisition of land and interests in land to preserve and protect, for public use and enjoyment, the historic, scenic, natural, and recreational values of congressionally authorized areas within the National Park System.

State conservation grants.—Provides matching grants to States and local units of government for the acquisition and development of land and facilities that provide the public access to new opportunities to engage in outdoor recreation. The program includes both traditional formula and competitive grant programs for States.

American Battlefield Protection Program.—The American Battlefield Protection Program awards grants for the acquisition, modernization and restoration of American battlefields. The program supports the protection of battlefield lands associated with the Revolutionary War, the Civil War, and the War of 1812 and it aids State and local governments and non-profit organizations acquire or otherwise preserve these important cultural resources for recreational access and education.

The National Park Medical Services Fund was established in the John D. Dingell, Jr. Conservation, Management, and Recreation Act (Public Law 116–9). The Fund consists of fees collected for medical services provided to persons in units of the National Park System or for medical

services provided by National Park Service personnel outside units of the National Park System and donations to the Fund. Amounts deposited into the Fund are available, to the extent provided in advance by Acts of appropriation, for units of the National Park System to provide medical services. Funds may also be used to obtain and improve medical facilities, equipment, vehicles, and other needs as well as prepare needs assessments or other programmatic analyses and management plans for medical services programs.

Recreation Fee Program.—The National Park Service (NPS) and other land management agencies operate a fee program that allows parks and other units to collect admission and user fees in accordance with the Federal Lands Recreation Enhancement Act (FLREA). Section 423 of Division G of the Consolidated Appropriations Act, 2021 (P.L. 116–260) extended FLREA through 2022. The 2022 Budget includes appropriations language to extend authority for FLREA through October 1, 2023.

Net proceeds are used to provide benefits and services to the visitor throughout the National Park System. Up to 80 percent may be retained for use by the collecting park and the remainder retained for discretionary, Service-wide use by the National Park Service Director. Proceeds from the sale of the America the Beautiful passes, which allow access to all public lands that charge fees for a year, are distributed among the Federal land management agencies which offer them for sale, including the National Park Service, the Bureau of Land Management, the U.S. Fish and Wildlife Service, the Bureau of Reclamation, and the U.S. Forest Service, as determined by the Secretaries of the Department of the Interior and the Department of Agriculture in accordance with Public Law 108–447. The National Park Service Centennial Act (P.L. 114–289) established in the National Park Foundation, a Second Century Endowment for NPS projects and activities, funded through offsetting collections from the first \$10 million collected in each fiscal year, generated from the America the Beautiful Senior Pass.

Deed-restricted parks fee program.—Park units where admission fees may not be collected by reason of deed restrictions retain any other recreation fees collected and use them for certain park operation purposes in accordance with Public Law 105–327. This law applies to Great Smoky Mountains National Park, Lincoln Home National Historic Site, and Abraham Lincoln Birthplace National Historic Site.

Transportation systems fund.—Fees charged for public use of transportation services at parks are retained and used by each collecting park for costs associated with the transportation systems in accordance with section 501 of Public Law 105–391.

Payment for tax losses on land acquired for Grand Teton National Park.—Revenues received from fees collected from visitors are used to compensate the State of Wyoming for tax losses on Grand Teton National Park lands (16 U.S.C. 406d–3).

The Historic Preservation Fund appropriation includes grant programs to facilitate the preservation of the Nation's historic and cultural resources. This appropriation provides grants-in-aid to States, Territories, Indian Tribes, and Historically Black Colleges and Universities. Grants-in-aid to States and local governments require a 40 percent funding match; grants to Tribes do not require matching funds. In addition to the traditional grants-in-aid described above, the account includes competitive grant programs. This includes grants for the survey and nomination of properties associated with communities currently underrepresented in the National Register and as National Historic Landmarks, and grants to preserve the sites and stories of the Civil Rights Movement.

Park concessions franchise fees.—Franchise fees for concessioner activities in the National Park System (NPS) are deposited in this account and used for certain park operations activities in accordance with section 407 of Public Law 105-391. By law, 20 percent of franchise fees collected are used to support activities throughout the National Park System and 80 percent are retained and used by each collecting park unit for visitor services and for purposes of funding high-priority and urgently necessary resource management programs and operations. The National Park Service Centennial Act (P.L. 114-289), establishes a new concessions contracting authority within NPS, which is described under the Visitor Experience Improvements Fund account.

Concessions improvement accounts.—National Park Service agreements with private concessioners providing visitor services within national parks can require concessioners to deposit a portion of gross receipts or a fixed sum of money in a separate bank account. A concessioner may expend funds from such an account with the approval of the park superintendent for improvements to facilities that directly support concession visitor services but would not otherwise be funded through the appropriations process. Concessioners do not accrue possessory interests from improvements funded through these accounts.

Park buildings lease and maintenance fund.—Rental payments for leases to use buildings and associated property in the National Park System are deposited in this account and used for infrastructure needs at park units in accordance with section 802 of Public Law 105-391.

Operation and maintenance of quarters.—Revenues from the rental of Government-owned quarters to park employees are deposited in this account and used to operate and maintain the quarters.

Filming and photography special use fees.—In limited circumstances, the National Park Service may issue permits and retain associated fees to use park lands and facilities for commercial filming, still photography, and similar activities.

Contributions to U.S. Park Police annuity benefits.—Necessary costs of benefit payments to annuitants under the pension program for United States Park Police officers hired prior to January 1, 1984, established under Public Law 85-157, are paid from the General Fund of the Treasury to the extent the payments exceed deductions from salaries of active duty employees in the program. Permanent funding for such payments was provided in the Department of the Interior and Related Agencies Appropriations Act, 2002. Before 2002, such payments were funded from appropriations made annually to the National Park Service.

Delaware Water Gap, Route 209 Operations.—The Delaware Water Gap National Recreation Area Improvement Act, section 4(b) of Public Law 109-156, as amended by Public Law 115-101, directs the Department of the Interior to establish a fee and permit program for the use of Highway 209 by commercial vehicles. All fees received are set aside in a special account, and made available for the administration and enforcement of the program, including registering vehicles, issuing permits and vehicle identification stickers, and personnel costs. The FY 2022 Budget proposes further amending section 4(b) of Public Law 109-156 by extending statutory authority through FY 2022.

ADMINISTRATIVE PROVISIONS

(INCLUDING TRANSFER OF FUNDS)

In addition to other uses set forth in section 101917(c)(2) of title 54, United States Code, franchise fees credited to a sub-account shall be available for expenditure by the Secretary, without further appropriation, for use at any unit within the National Park System to extinguish or reduce liability for Possessory Interest or leasehold surrender interest. Such funds may only be used for this purpose to the extent that the benefitting unit anticipated franchise fee receipts over the term of the contract at that unit exceed the amount of funds used to extinguish or reduce liability. Franchise fees at the benefitting unit shall be credited to the sub-account of the originating unit over a period not to exceed the term of a single contract at the benefitting unit, in the amount of funds so expended to extinguish or reduce liability.

For the costs of administration of the Land and Water Conservation Fund grants authorized by section 105(a)(2)(B) of the Gulf of Mexico Energy Security Act of 2006 (Public Law 109–432), the National Park Service may retain up to 3 percent of the amounts which are authorized to be disbursed under such section, such retained amounts to remain available until expended.

National Park Service funds may be transferred to the Federal Highway Administration (FHWA), Department of Transportation, for purposes authorized under 23 U.S.C. 203. Transfers may include a reasonable amount for FHWA administrative support costs. (*Department of the Interior, Environment, and Related Agencies Appropriations Act, 2021.*)

The Operation of Indian Programs appropriation consists of a wide range of services and benefits provided to federally recognized Indian Tribes, Alaska Native groups, and individual American Indians and Alaska Natives, to fulfill Federal trust and treaty responsibilities and support tribal self-determination. The Budget reflects broad increases within this account, including to empower tribal communities, address the impacts of climate change, create economic opportunities, enhance public safety, and advance environmental justice for tribal communities that have been left behind. Funding requested in this account will also complement the Civilian Climate Corps called for in the President's American Jobs Plan, and will develop the next generation of conservation workers and create a new pathway to good-paying jobs.

This account covers expenses associated with the following activities:

Tribal Government.—This activity promotes the sovereignty of federally recognized Indian Tribes by supporting and assisting them in the development and maintenance of strong and stable governments capable of administering quality programs and developing economies. This activity

OPERATION OF INDIAN PROGRAMS—Continued

also provides for the maintenance of Bureau of Indian Affairs (BIA) roads and bridges.

Human Services.—This activity provides funding for social services, welfare assistance, and Indian Child Welfare Act programs. The objective of this activity is to improve the quality of life for individual Indians who live on or near Indian reservations and to help protect children, the elderly, and disabled from abuse and neglect.

Trust: Natural Resources Management.—This activity provides for the management, development, and protection of Indian trust land and natural resource assets and related treaty rights. This activity also provides funding to address the impacts of climate change. Natural resource programs in Indian Country include agriculture, forestry, water, fish, wildlife, and parks, and minerals and mining.

Trust: Real Estate.—This activity promotes cooperative efforts with landowners for the optimal utilization, development, and enhancement of trust and restricted Federal Indian-owned lands. The activity includes general real estate services, probate, land title and records, environmental compliance, and other trust services and rights protection.

Public Safety and Justice.—This activity funds law enforcement activities in Indian Country in over 25 States. Programs under this activity include investigative, police, and detention services; tribal courts; fire protection; implementation of the Violence Against Women Act; and facilities maintenance.

Community and Economic Development.—This activity promotes the economic vitality of American Indians and Alaska Natives through job placement and training, economic development, and community development programs.

Executive Direction and Administrative Services.—This activity supports the management of finance, budget, acquisition, and property functions, as well as information technology resources, personnel services, facilities management, payment of General Services Administration rentals and direct rentals, and intra-governmental payments. Significant portions of Indian Affairs activities are executed under contracts or compacts with federally recognized Indian Tribes to run tribal and Federal programs. Funding also supports BIA or Bureau of Indian Education oversight and technical assistance for these activities in the central and regional offices.

The Contract Support Costs account provides payments to Tribes for the administrative costs associated with executing tribal self-determination contracts and self-governance compacts under the Indian Self-Determination and Education Assistance Act. Payments are available for direct and indirect contract support costs. Indirect contract support costs are those incurred for a Tribe's or tribal organization's common services, including, but not limited to, insurance and audits. Direct contract support costs include program-specific costs such as unemployment taxes and workers compensation insurance. The account also supports costs associated with executing or administering new and/or expanded self-determination contracts. The 2022 Budget proposes to continue to manage this account as an indefinite appropriation to ensure the availability of full funding to meet contract support costs requirements for the fiscal year.

CONTRACT SUPPORT COSTS

(Legislative proposal, not subject to PAYGO)

The 2022 Budget proposes to reclassify Contract Support Costs funding from discretionary to mandatory beginning in 2023. Specifically, the Budget proposes that beginning in 2023, the Indian Affairs Contract Support Costs account will continue to be funded through the Appropriations process but will be reclassified as mandatory funding for the purposes of scoring. This account will continue as an indefinite appropriation to ensure the availability of full funding to meet Contract Support Costs requirements for the fiscal year.

PAYMENTS FOR TRIBAL LEASES

The Payments for Tribal Leases account provides for the reasonable and allowable costs for leases with a Tribe or tribal organization for a building owned or leased by the Tribe or tribal organization used for administration or to deliver services under Section 105(l) of the Indian Self-Determination and Education Assistance Act. The 2022 Budget proposes to continue to manage this account as an indefinite appropriation to ensure the full availability of budget authority needed for such lease agreements. Funding from the account would be used for either Bureau of Indian Affairs or Bureau of Indian Education Section 105(l) lease costs.

PAYMENTS FOR TRIBAL LEASES

(Legislative proposal, not subject to PAYGO)

The 2022 Budget proposes to reclassify Payments for Tribal Leases funding from discretionary to mandatory beginning in 2023. Specifically, the Budget proposes that beginning in 2023, the Indian Affairs Payments

for Tribal Leases account will continue to be funded through the Appropriations process but will be reclassified as mandatory funding for the purposes of scoring. This account will continue as an indefinite appropriation to ensure the availability of full funding to meet Indian Self-Determination and Education Assistance Act Section 105(l) lease requirements for the fiscal year.

CONSTRUCTION

(INCLUDING TRANSFER OF FUNDS)

For construction, repair, improvement, and maintenance of irrigation and power systems, buildings, utilities, and other facilities, including architectural and engineering services by contract; acquisition of lands, and interests in lands; and preparation of lands for farming, and for construction of the Navajo Indian Irrigation Project pursuant to Public Law 87–483; [\$128,818,000] \$187,992,000, to remain available until expended: *Provided*, That such amounts as may be available for the construction of the Navajo Indian Irrigation Project may be transferred to the Bureau of Reclamation: *Provided further*, That any funds provided for the Safety of Dams program pursuant to the Act of November 2, 1921 (25 U.S.C. 13), shall be made available on a nonreimbursable basis: *Provided further*, That this appropriation may be reimbursed from the [Office of the Special Trustee for American Indians] Bureau of Trust Funds Administration appropriation for the appropriate share of construction costs for space expansion needed in agency offices to meet trust reform implementation: *Provided further*, That of the funds made available under this heading, \$10,000,000 shall be derived from the Indian Irrigation Fund established by section 3211 of the WIIN Act (Public Law 114–322; 130 Stat. 1749). This account covers expenses associated with the following authorized activities.

Land settlements:

White Earth Reservation Land Settlement Act (P.L. 99-264).—Funds are used to investigate and verify questionable transfers of land by which individual Indian allottees, or their heirs, were divested of ownership and to achieve the payment of compensation to said allottees or heirs in accordance with the Act. A major portion of work is contracted under Public Law 93-638, as amended, to the White Earth Reservation Business Committee.

Water settlements:

Pechanga Water Rights Settlement (P.L. 114-322).—Funds will be used for payments and projects required by the settlement as authorized by law. The terms and conditions of this settlement were met in 2020.

Montana Water Rights Protection Act. (P.L. 116-260).—Funds will be used for payments to the Selis Qlispe Ksanka Trust Fund authorized by the settlement Act to implement the water rights compact among the Confederated Salish and Kootenai Tribes of the Flathead Indian Reservation, United States, and State of Montana. The Compact includes rehabilitation and modernization of the Flathead Indian Irrigation Project and associated mitigation, reclamation, and restoration activities, among other things. Consistent with P.L. 116-260, appropriated funds will be transferred to the Selis Qlipse Ksanka Trust Fund.

Navajo-Utah Water Right Settlement (P.L. 116-260).—Funds will be used for payments to the Navajo-Utah Settlement Trust Fund as authorized by the settlement Act to implement the Navajo Utah Water Rights Settlement Agreement entered into among the Navajo Nation, United States,

INDIAN LAND AND WATER CLAIM SETTLEMENTS AND MISCELLANEOUS PAYMENTS TO
INDIANS—Continued

and State of Utah. Amounts from the Trust Fund will be used by the Nation for planning, design, construction, operations, and maintenance of Navajo water development projects for domestic municipal water supply, including distribution infrastructure, and agricultural water conservation.

Blackfeet Water Rights Settlement (P.L. 114–322).—Funds will be used for payments and projects required by the settlement as authorized by law.

Truckee-Carson-Pyramid Lake Water Settlement Act (P.L. 101–618).—The Act provides for the settlement of claims of the Pyramid Lake Paiute Tribe (NV). Funds will be used to provide payments to the Truckee-Carson Irrigation District for services provided to implement the settlement. The terms and conditions of this settlement were met in 2020.

INDIAN LAND AND WATER CLAIM SETTLEMENTS AND MISCELLANEOUS PAYMENTS TO
INDIANS

(Legislative proposal, not subject to PAYGO)

The Administration proposes legislation to provide full funding for currently enacted Indian water rights settlements. These enacted settlements improve the quality of life for Tribal members on several Indian reservations by bringing critical infrastructure to provide safe drinking water and support economic development activities, such as the development of hydroelectric power, agriculture improvements, and water marketing.

The Department proposes to reclassify as mandatory funding the amounts necessary to meet Federal commitments for existing enacted Indian water rights settlements in the Indian Land and Water Claim Settlements and Miscellaneous Payments account (14X2303) within the Bureau of Indian Affairs (BIA), with authority to transfer funding to the Bureau of Reclamation as needed. This proposal would provide a comprehensive funding source for enacted settlements that are not fully funded with other sources of funding. For example, BIA has access to mandatory funding for a portion of the Confederated Salish and Kootenai Tribes settlement, but estimates an additional need of \$1.5 billion between FY 2023 and FY 2031 for settlements.

The Budget continues the current discretionary funding for Indian water rights settlements for FY 2022. This reclassification to mandatory funding would take effect for FY 2023 and thereafter meet the gap between existing sources of funding for water rights settlements and the estimated need. Across the Department, this is estimated to be \$2.57 billion from FY 2023–2031.

INDIAN LAND CONSOLIDATION

For the acquisition of fractional interests to further land consolidation as authorized under the Indian Land Consolidation Act Amendments of 2000 (Public Law 106–462), and the American Indian Probate Reform Act of 2004 (Public Law 108–374), \$150,000,000, to remain available until expended: Provided, That any provision of the Indian Land Consolidation Act Amendments of 2000 (Public Law 106–462) that requires or otherwise relates to application of a lien shall not apply to the acquisitions funded herein.

This appropriation was established in 1999 and received appropriations between 1999–2010 to fund a program to consolidate fractional interests in Indian lands. Funds were used to purchase small interests in parcels of land from willing individual Indian landowners and convey those interests to the Tribe on whose reservation the land is located. Current funding activity in this account reflects ongoing legacy activities funded through reimbursable work. This program is authorized under the Indian Land Consolidation Act Amendments of 2000 (P.L. 106–462), the American Indian Probate Reform Act of 2004 (P.L. 108–374) and other authorities.

Indian Land Consolidation.—The 2022 Budget proposes to reestablish the Indian Land Consolidation Program with modifications. The reestablished program will consolidate fractional interests in Indian lands. Funds will be used to purchase small interests in parcels of land from willing individual Indian landowners and convey those interests to the Tribe on whose reservation the land is located. Consolidation of these interests is expected to reduce the Government's cost for managing Indian lands and promote conservation on these lands. This program is authorized under the Indian Land Consolidation Act Amendments of 2000 (P.L. 106–462), the American Indian Probate Reform Act of 2004 (P.L. 108–374), and other authorities. This program is independent of the Land Buy Back Program for Tribal Nations, and any provision of the Indian Land Consolidation Act Amendments of 2000 (P.L. 106–462) that requires or otherwise relates to application of a lien shall not apply to the acquisitions funded by this account.

The Selis-Quispe Ksanka Settlement Trust Fund was established in the Montana Water Rights Protection Act (P.L. 116-260). The Act settles claims to water rights in Montana for the Confederated Salish and Kootenai Tribes of the Flathead Indian Reservation. The Act authorizes annual payments of \$90,000,000 to the Trust Fund out of any Funds in the Treasury not otherwise appropriated starting in fiscal year 2021 through fiscal year 2030 for a total of \$900,000,000. The Act also authorizes discretionary appropriations of \$1,000,000,000 for deposit in the Trust Fund. The 2022 budget request includes funding for this settlement in the Indian Land & Water Claims Settlements and Miscellaneous Payments to Indians account in the Bureau of Indian Affairs. Consistent with P.L. 116-260, appropriated funds will be transferred to the Trust Fund. The Trust Fund includes two accounts: the Salish and Kootenai Compact Account and the Salish and Kootenai Settlement implementation Account. Funds deposited into the account are adjusted to reflect fluctuations in costs occurring after the date of enactment of the act up to the day of deposit to the Fund. The Trust Fund is interest bearing.

ADMINISTRATIVE PROVISIONS

The Bureau of Indian Affairs and the Bureau of Indian Education may carry out the operation of Indian programs by direct expenditure, contracts, cooperative agreements, compacts, and grants, either directly or in cooperation with States and other organizations.

Notwithstanding Public Law 87-279 (25 U.S.C. 15), the Bureau of Indian Affairs may contract for services in support of the management, operation, and maintenance of the Power Division of the San Carlos Irrigation Project.

Notwithstanding any other provision of law, no funds available to the Bureau of Indian Affairs or the Bureau of Indian Education for central office oversight and Executive Direction and Administrative Services (except Executive Direction and Administrative Services funding for Tribal Priority Allocations, regional offices, and facilities operations and maintenance) shall be available for contracts, grants, compacts, or cooperative agreements with the Bureau of Indian Affairs or the Bureau of Indian Education under the provisions of the Indian Self-Determination Act or the Tribal Self-Governance Act of 1994 (Public Law 103-413).

In the event any tribe returns appropriations made available by this Act to the Bureau of Indian Affairs or the Bureau of Indian Education, this action shall not diminish the Federal Government's trust responsibility to that tribe, or the government-to-government relationship between the United States and that tribe, or that tribe's ability to access future appropriations.

Notwithstanding any other provision of law, no funds available to the Bureau of Indian Education, other than the amounts provided herein for assistance to public

schools under 25 U.S.C. 452 et seq., shall be available to support the operation of any elementary or secondary school in the State of Alaska.

No funds available to the Bureau of Indian Education shall be used to support expanded grades for any school or dormitory beyond the grade structure in place or approved by the Secretary of the Interior at each school in the Bureau of Indian Education school system as of October 1, 1995, except that the Secretary of the Interior may waive this prohibition to support expansion of up to one additional grade when the Secretary determines such waiver is needed to support accomplishment of the mission of the Bureau of Indian Education, or more than one grade to expand the elementary grade structure for Bureau-funded schools with a K-2 grade structure on October 1, 1996. Appropriations made available in this or any prior Act for schools funded by the Bureau shall be available, in accordance with the Bureau's funding formula, only to the schools in the Bureau school system as of September 1, 1996, and to any school or school program that was reinstated in fiscal year 2012. Funds made available under this Act may not be used to establish a charter school at a Bureau-funded school (as that term is defined in section 1141 of the Education Amendments of 1978 (25 U.S.C. 2021)), except that a charter school that is in existence on the date of the enactment of this Act and that has operated at a Bureau-funded school before September 1, 1999, may continue to operate during that period, but only if the charter school pays to the Bureau a pro rata share of funds to reimburse the Bureau for the use of the real and personal property (including buses and vans), the funds of the charter school are kept separate and apart from Bureau funds, and the Bureau does not assume any obligation for charter school programs of the State in which the school is located if the charter school loses such funding. Employees of Bureau-funded schools sharing a campus with a charter school and performing functions related to the charter school's operation and employees of a charter school shall not be treated as Federal employees for purposes of chapter 171 of title 28, United States Code.

Notwithstanding any other provision of law, including section 113 of title I of appendix C of Public Law 106-113, if in fiscal year 2003 or 2004 a grantee received indirect and administrative costs pursuant to a distribution formula based on section 5(f) of Public Law 101-301, the Secretary shall continue to distribute indirect and administrative cost funds to such grantee using the section 5(f) distribution formula.

Funds available under this Act may not be used to establish satellite locations of schools in the Bureau school system as of September 1, 1996, except that the Secretary may waive this prohibition in order for an Indian tribe to provide language and cultural immersion educational programs for non-public schools located within the jurisdictional area of the tribal government which exclusively serve tribal members, do not include grades beyond those currently served at the existing Bureau-funded school, provide an educational environment with educator presence and academic facilities comparable to the Bureau-funded school, comply with all applicable Tribal, Federal, or State health and safety standards, and the Americans with Disabilities Act, and demonstrate the benefits of establishing operations at a satellite location in lieu of incurring extraordinary costs, such as for transportation or other impacts to students such as those caused by busing students extended distances: *Provided*, That no funds available under this Act may be used to fund operations, maintenance, rehabilitation, construction, or other facilities-related costs for such assets that are not owned by the Bureau: *Provided further*, That the term "satellite school" means a school location physically separated from the existing Bureau school by more than 50 miles but that forms part of the existing school in all other respects.

Funds made available for Tribal Priority Allocations within Operation of Indian Programs and Operation of Indian Education Programs may be used to execute requested adjustments in tribal priority allocations initiated by an Indian Tribe. (*Department of the Interior, Environment, and Related Agencies Appropriations Act, 2021.*)

The Individual Indian Money Account Litigation Settlement (P.L. 111–291) established a new trust land consolidation Fund for the buy-back and consolidation of fractionated interests in parcels of land from individual Indian landowners. The Fund also covers administrative costs to undertake the process of acquiring fractionated interests and associated trust reform activities not to exceed 15 percent of the Fund. The acquisition of fractionated interests is authorized under the Indian Land Consolidation Act Amendments of 2000 (P.L. 106–462), and the American Indian Probate Reform Act of 2004 (P.L. 108–374). The Settlement provides additional authority for the acquisition of interests held by persons who cannot be located after engaging in extensive efforts to notify them and locate them for a five-year period. The Settlement was finalized on November 24, 2012 and in accordance with the terms of the legislation, these funds remain available for ten years from the date of the Settlement. This account is managed by the Bureau of Trust Funds Administration.

INDIAN EDUCATION SCHOLARSHIP HOLDING FUND

The Individual Indian Money Account Litigation Settlement (P.L. 111–291) established this Fund to provide Indian land owners with an additional incentive to sell their fractionated interests, given that the market value associated with highly fractionated interests would be quite low in many cases. Program contributions reached the maximum of \$60 million in 2017 and were transferred from the Trust Land Consolidation Fund to this Fund for higher education scholarships for American Indians and

Under the Mineral Leasing Act (MLA), States receive fifty percent of Federal revenues generated from mineral production occurring on Federal lands within that State's boundaries. Alaska is the exception, receiving a 90 percent share of receipts from Federal mineral leasing in that State. Separate statutes cover revenue sharing payments from the National Petroleum Reserve-Alaska and the 1002 Area of the Arctic National Wildlife Refuge, where the traditional MLA fifty-percent state share applies. To partially cover the costs of administering the Federal mineral leasing program, the Bipartisan Budget Act of 2013 permanently amended the MLA to deduct two percent from the required payments to States under the Act. These payments are administered by Interior's Office of Natural Resources Revenue.

According to the Flood Control Act of 1936 (33 U.S.C. 701 et seq.), 75 percent of revenue collected in the Treasury from the leasing of lands acquired by the United States for flood control, navigation, and allied purposes, is to be shared with the State in which it was collected. These funds are to be expended as the State legislature may prescribe for the benefit of the public schools and roads in the county from which the revenue was collected, or for defraying other expenses of county government. These expenses include public obligations of levee and drainage districts for flood control and drainage improvements. Payments are administered by Interior's Office of Natural Resources Revenue.

Since May 23, 1908 (16 U.S.C. 499), 25 percent of the revenues collected from onshore mineral leasing and production on national forest lands have been paid to the State in which the national forest resides. A State's payment is based on national forest acreage. Where a national forest is situated in several States, an individual State payment is proportionate to its area within that particular national forest. These payments are administered by Interior's Office of Natural Resources Revenue.

Title IV of the Department of the Interior and Related Agencies Appropriation Act, 1998 (P.L. 105–83) established the Environmental Improvement and Restoration Fund account. As required by law, 50 percent of the principal and 50 percent of the interest from the Alaska Escrow account are deposited into the Environmental Improvement and Restoration Fund. The law requires that the corpus of the Fund be invested. Twenty percent of the interest earned by the Fund is permanently appropriated to the Department of Commerce, and the unappropriated balance of interest remains in the Fund, subject to appropriation. At this time, no budget authority is requested.

ADMINISTRATIVE PROVISIONS

For fiscal year [2021] 2022, up to \$400,000 of the payments authorized by chapter 69 of title 31, United States Code, may be retained for administrative expenses of the Payments in Lieu of Taxes Program: *Provided*, That the amounts provided under this Act specifically for the Payments in Lieu of Taxes program are the only amounts available for payments authorized under chapter 69 of title 31, United States Code: *Provided further*, That in the event the sums appropriated for any fiscal year for payments pursuant to this chapter are insufficient to make the full payments authorized by that chapter to all units of local government, then the payment to each local government shall be made proportionally: *Provided further*, That the Secretary may make adjustments to payment to individual units of local government to correct for prior overpayments or underpayments: *Provided further*, That no payment shall be made pursuant to that chapter to otherwise eligible units of local government if the computed amount of the payment is less than \$100. (*Department of the Interior, Environment, and Related Agencies Appropriations Act, 2021.*)

The Office of the Secretary provides for the administration of the Payments in Lieu of Taxes program, which makes payments to counties and other units of local government for lands within their boundaries administered by the Bureau of Land Management, U.S. Forest Service, the National Park Service, the Fish and Wildlife Service, and certain other agencies. Funding for the program is in a separate account within Department-Wide programs.

INSULAR AFFAIRS

The Secretary of the Interior is charged with the responsibility of promoting the economic and political development of those insular areas which are under U.S. jurisdiction and within the responsibility of the Department of the Interior. The Secretary originates and implements Federal policy for the U.S. territories; guides and coordinates certain operating programs and construction projects; provides information services and technical assistance; coordinates certain Federal programs and services provided to the freely associated states, and participates in foreign policy and defense matters concerning the U.S. territories and the freely associated states.

Federal Funds

TRUST TERRITORY OF THE PACIFIC ISLANDS

Until October 1, 1994, the United States exercised jurisdiction over the Trust Territory of the Pacific Islands according to the terms of the 1947 Trusteeship Agreement between the United States and the Security Council of the United Nations. These responsibilities were carried out by the Department of the Interior.

The Department of the Interior is seeking no additional appropriations for the Trust Territory of the Pacific Islands. Compacts of Free Association have been implemented with the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau.

Remaining funds in the Trust Territory of the Pacific Islands account are being used to improve basic economic information and financial management capabilities in the insular areas; address compact impact related issues; and also for brown tree snake control.

COMPACT OF FREE ASSOCIATION

For grants and necessary expenses, \$8,463,000, to remain available until expended, as provided for in sections 221(a)(2) and 233 of the Compact of Free Association for the Republic of Palau; and section 221(a)(2) of the Compacts of Free Association for the Government of the Republic of the Marshall Islands and the Federated States of Micronesia, as authorized by Public Law 99-658 and Public Law 108-188: *Provided*, That of the funds appropriated under this heading, \$5,000,000 is for deposit into the Compact Trust Fund of the Republic of the Marshall Islands as compensation authorized by Public Law 108-188 for adverse financial and economic impacts. (*Department of the Interior, Environment, and Related Agencies Appropriations Act, 2021.*)

The peoples of the Republic of the Marshall Islands, the Federated States of Micronesia and the Republic of Palau approved Compacts of Free Association negotiated by the United States and their governments. The Compact of Free Association Act of 1985 (P.L. 99–239) constituted the necessary authorizing legislation to make annual payments to the Republic of the Marshall Islands and the Federated States of Micronesia. Payments began in 1987 and continued through 2003 when the original economic assistance package expired. The Compact of Free Association Amendments Act of 2003 (P.L. 108–188), continues financial assistance to the Federated States of Micronesia and the Republic of the Marshall Islands through 2023. The Compact of Free Association for the Republic of Palau was enacted on November 14, 1986 as Public Law 99–658, and was implemented on October 1, 1994. Financial assistance provisions under the Compact of Free Association with the Republic of Palau were set to expire on September 30, 2009, however, under the 2010 Compact Review Agreement (CRA) the United States agreed to provide continued economic assistance to the Government of Palau through 2024.

In 2000, the American Samoa Government (ASG) was authorized to borrow \$18.6 million from the U.S. Treasury in order to reduce significant past due debts to vendors. Repayment of the loan is secured and accomplished with funds, as they become due and payable to ASG from the Escrow Account established under the terms and conditions of the Tobacco Master Settlement Agreement. The ASG agreed to significant financial reforms as a prerequisite to receiving the loan proceeds.

The Indian Gaming Regulatory Act (IGRA) established the National Indian Gaming Commission (NIGC) as an independent Federal regulatory agency within the Department of the Interior. The purpose of the IGRA and the NIGC is to support and promote tribal economic development, self-sufficiency and strong tribal governments through the operation of gaming on Indian lands. The Commission collaborates with Tribes to monitor and regulate gaming activities conducted on Indian Lands to ensure that gaming operations are conducted with integrity and that Tribes are the primary beneficiaries of gaming revenues. IGRA authorizes the Commission to assess and collect fees on tribal gaming revenues to cover agency operating costs.

Public Law 94–565 (31 U.S.C. 6901–07), as amended, authorizes Payments in Lieu of Taxes ("PILT payments") to counties and other units of local government for lands within their boundaries administered by the

Bureau of Land Management, the U.S. Forest Service, the National Park Service, the Fish and Wildlife Service, and certain other agencies. The PILT payment formula is based on a number of factors, including the amount of Federal land within an eligible unit of local government, its population, and certain other Federal payments the local government may receive.

From the inception of the PILT program in 1977 through 2007, PILT funding was subject to annual appropriations. The Emergency Economic Stabilization Act of 2008 provided a five-year (FYs 2008–2012) mandatory funding stream for PILT at the full authorization levels calculated using the existing PILT formula. The Moving Ahead for Progress in the 21st Century Act (P.L. 112–141) extended the mandatory authorization through 2013, and the Agricultural Act of 2014 (P.L. 113–79) extended the mandatory authorization through 2014. The Carl Levin and Howard P. "Buck" McKeon National Defense Authorization Act for Fiscal Year 2015 and the Consolidated and Further Continuing Appropriations Act (P.L. 113–235) extended PILT payment authority through 2015 with a combination of discretionary and mandatory funds. The Consolidated Appropriations Act of 2016 (P.L. 114–113) provided discretionary PILT funding within the Office of the Secretary, Departmental Operations account to extend payment authority through 2016. The Consolidated Appropriations Act, 2017 (P.L. 115–31) provided discretionary PILT funding within Department-wide Programs. Congressional appropriations for 2018 (P.L. 115–141), 2019 (P.L. 116–6), 2020 (P.L. 116–94), and 2021 (P.L. 116–260) each provided PILT funding at the full authorized levels. The 2022 Budget proposes discretionary funding for PILT payments within Department-wide Programs.

The Comprehensive Environmental Response, Compensation and Liability Act, as amended (42 U.S.C. 9601 et seq.) authorizes the President to investigate and clean up releases of hazardous substances. Under Executive Order 12580, the Secretary of the Interior is vested with the authority to address releases or threatened releases of hazardous substances on lands under the Department's jurisdiction, custody or control. The Central Hazardous Materials Fund is used to fund remedial investigations and cleanup of hazardous waste sites on such lands and to enable the Department to pursue potentially responsible parties for recovery of costs. The Fund is authorized to collect and retain within this account amounts recovered from responsible parties.

Under the Natural Resource Damage Assessment and Restoration Fund (Restoration Fund), natural resource damage assessments are performed to provide the basis for claims against responsible parties for the restoration of injured natural resources. Funds are appropriated to conduct damage assessments, provide restoration support, prepare for response to potential inland oil spills, and for program management. In addition, funds will be received for the restoration of damaged resources and other activities and for natural resource damage assessments from responsible parties through cooperative assessment agreements, negotiated settlements, or other legal actions by the Department of the Interior. Responsible parties may also provide in-kind services to restore injured natural resources.

Restoration activities include: 1) the replacement and enhancement of affected resources; 2) acquisition of equivalent resources and services; and, 3) long-term environmental monitoring and research programs directed to the prevention, containment, and amelioration of hazardous substances and oil spill sites.

The Restoration Fund operates as a Department-wide program, incorporating the interdisciplinary expertise of its various bureaus and offices. Natural resource damage assessments and the restoration of injured natural resources are authorized by the Comprehensive Environmental Response, Compensation, and Liability Act, as amended (42 U.S.C. 9601 et seq.), Federal Water Pollution Control Act, as amended (33 U.S.C. 1251 et seq.), the Oil Pollution Act of 1990 (33 U.S.C. 2701 et seq.), and the Act of July 27, 1990 (16 U.S.C. 1911 et seq.). Since 1992, amounts received by the United States and its State and tribal co-trustee partners from responsible parties for restoration or reimbursement in settlement of natural resource damages may be deposited in the Fund and shall accrue interest.

settlements resulting from the 1989 Exxon Valdez oil spill in the Prince William Sound and surrounding areas. Funding from the settlements, including interest, is provided to Federal and State of Alaska natural resource trustee agencies to restore the natural resources and services damaged by the spill. The Exxon Valdez Oil Spill Trustee Council consists of three State and three Federal trustees who oversee restoration of the injured ecosystem through the use of civil settlement funds. The criminal settlement funds are managed separately by the Federal and Alaska State governments, but are coordinated with the Council.

Preparedness.—Funds the non-emergency and predictable aspects of the Department of the Interior's (DOI) wildland fire program, including the initial attack suppression action on wildfires. Preparedness includes readiness, operational planning, oversight, procurement, training, supervision, and deployment of wildland fire suppression personnel and equipment prior to wildland fire occurrence, and rural fire readiness, in which assistance is provided to local cooperators to enhance their capacity to protect remote communities and natural resources. It also includes activities related to program monitoring and evaluation, and integration of fire into land-use planning.

Suppression Operations.—Funds the emergency and unpredictable aspects of DOI's wildland fire management program. Suppression operations include the total spectrum of management actions taken on wildland fires in a safe, cost-effective manner, considering public benefits and values to be protected consistent with resource objectives and land management plans. This activity includes emergency actions taken during and immediately following a wildfire to stabilize the soil and structures to prevent erosion, floods, landslides, and further resource damage. Generally, emergency stabilization actions may be performed within one year of containment of a fire; however, exceptions to this time limit are allowed under certain circumstances. In fiscal years 2010 through 2017, funding for the ten-year average of inflation-adjusted suppression obligations was split between the FLAME Wildfire Suppression Reserve Fund and this appropriation. The 2022 Budget request fully funds suppression operations at the ten-year average of obligations as reported in the 2015 President's Budget, in accordance with the Consolidated Appropriations Act, 2018 (P.L. 115–141). This Act also amended the Balanced Budget and Emergency Deficit Control Act to provide additional new budget authority for fiscal years 2020 through 2027. This additional budget authority is provided in the Wildland Fire Suppression Operations Reserve Fund account, and made available subject to the requirements in P.L. 115–141. This additional new budget authority will help ensure that adequate resources are available to the Departments of the Interior and Agriculture to fight wildland fires, protect communities, and safeguard human life during the most severe wildland fire seasons. The DOI and Forest Service wildland fire management programs will continue to strengthen oversight and accountability of suppression spending and use risk management principles to guide decision-making at the strategic, program, and operational levels.

Fuels Management.—Funds the application of fuels treatments aimed at mitigating risk to communities and their values, including areas in the wildland urban interface. This activity may also conduct treatments that improve the integrity and resilience of our forests and rangelands. The Fuels Management activity will contribute to community adaptation to fire and improve the ability to safely and appropriately respond to wildfire. Funding for the Fuels Management activity covers the planning, operational aspects, and monitoring of fuels treatments. The program will utilize such treatment methods as prescribed fire, mechanical, chemical, and biological treatments or a combination of methods.

Other Operations.—Funds all other aspects of the wildland fire management program, which includes Fire Facilities Construction and Maintenance, Burned Area Rehabilitation, and Joint Fire Science. The Fire Facilities Construction and Maintenance program funds construction and maintenance of facilities to house firefighters and equipment used in wildland firefighting and fuels management activities. The Burned Area Rehabilitation program begins the restoration process for lands and resources damaged by wildland fires that would not return to fire adapted conditions without intervention. Soil stabilization and the introduction of native and other desirable plant species are employed for up to three years, or up to five years under certain circumstances, following containment of a fire to return severely-burned areas to appropriate fire regimes and resource conditions. The Joint Fire Science subactivity funds the Department's share of the Joint Fire Science program, an interagency partnership that sponsors and delivers applied re-

search to assist field managers with fuels treatment, post-fire rehabilitation, smoke management and many other related topics.

FLAME WILDFIRE SUPPRESSION RESERVE FUND

In 2010 through 2017, amounts in the FLAME Fund included the portion of the ten-year average of suppression obligations, adjusted for inflation, intended to support the most severe, complex, and threatening fires. The Secretary is authorized to permit transfers from this account to cover these extreme fire events. The Secretary may also transfer funds in the event DOI has exhausted its suppression resources due to an active fire season. Funds have not been appropriated to the FLAME account since 2017, and remaining FLAME balances were transferred to the Wildland Fire Management account in 2018.

WILDFIRE SUPPRESSION OPERATIONS RESERVE FUND

(INCLUDING TRANSFERS OF FUNDS)

In addition to the amounts provided under the heading "Department of the Interior—Department-Wide Programs—Wildland Fire Management" for wildfire suppression operations, **[\$310,000,000] \$330,000,000**, to remain available until transferred, is additional new budget authority [as specified] *in excess of the average costs for wildfire suppression operations* for purposes of [section 251(b)(2)(F) of the Balanced Budget and Emergency Deficit Control Act of 1985] *a concurrent resolution on the budget: Provided*, That such amounts may be transferred to and merged with amounts made available under the headings "Department of Agriculture—Forest Service—Wildland Fire Management" and "Department of the Interior—Department-Wide Programs—Wildland Fire Management" for wildfire suppression operations in the fiscal year in which such amounts are transferred: *Provided further*, That amounts may be transferred to the "Wildland Fire Management" accounts in the Department of Agriculture or the Department of the Interior only upon the notification

of the House and Senate Committees on Appropriations that all wildfire suppression operations funds appropriated under that heading in this and prior appropriations Acts to the agency to which the funds will be transferred will be obligated within 30 days: *Provided further*, That the transfer authority provided under this heading is in addition to any other transfer authority provided by law: *Provided further*, That, in determining whether all wildfire suppression operations funds appropriated under the heading "Wildland Fire Management" in this and prior appropriations Acts to either the Department of Agriculture or the Department of the Interior will be obligated within 30 days pursuant to the previous proviso, any funds transferred or permitted to be transferred pursuant to any other transfer authority provided by law shall be excluded]. Suppression Operations.—In addition to the amounts provided under the heading "Department of the Interior-Department-Wide Programs-Wildland Fire Management" for wildfire suppression operations, the Consolidated Appropriations Act, 2018 (P.L. 115–141) amended the Balanced Budget and Emergency Deficit Control Act to provide additional budget authority for fiscal years 2020 through 2027. This budget authority is available for fire suppression requirements in a severe fire season when annual appropriations are close to depletion. The additional budget authority will help ensure adequate resources are available to the Departments of the Interior and Agriculture to fight wildland fires, protect communities, and safeguard human life during the most severe wildland fire seasons.

WORKING CAPITAL FUND

For the operation and maintenance of a departmental financial and business management system, information technology improvements of general benefit to the Department, cybersecurity, and the consolidation of facilities and operations throughout the Department, **[\$60,735,000] \$91,436,000**, to remain available until expended: *Provided*, That none of the funds appropriated in this Act or any other Act may be used to establish reserves in the Working Capital Fund account other than for accrued annual leave and depreciation of equipment without prior approval of the Committees on Appropriations of the House of Representatives and the Senate: *Provided further*, That the Secretary of the Interior may assess reasonable charges to State, local, and tribal government employees for training services provided by the National Indian Program Training Center, other than training related to Public Law 93–638: *Provided further*, That the Secretary may lease or otherwise provide space and related facilities, equipment, or professional services of the National Indian Program Training Center to State, local and tribal government employees or persons or organizations engaged in cultural, educational, or recreational activities (as defined in section 3306(a) of title 40, United States Code) at the prevailing rate for similar space, facilities, equipment, or services in the vicinity of the National Indian Program Training Center: *Provided further*, That all funds received pursuant to the two preceding provisos shall be credited to this account, shall be available until expended, and shall be used by the Secretary for necessary expenses of the National Indian Program Training Center: *Provided further*, That the Secretary may enter into grants and cooperative agreements to support the Office of Natural Resource Revenue's collection and disbursement of royalties, fees, and other mineral revenue proceeds,

The Working Capital Fund finances services and activities that can be performed more effectively and efficiently in a centralized manner, including business services provided by the Interior Business Center (IBC). Activities financed through the Fund include information technology and security, systems hosting and help desk services, Departmental news and information, aircraft services, central reproduction, supplies and health services, and safety and health initiatives. Departmental administrative systems hosted through the Fund include the Federal Personnel and Payroll System and the Financial and Business Management System (FBMS). The IBC provides financial management, acquisition, and human resources services as well as payroll services to other agencies as one of the Government-wide shared service providers selected by the Office of Personnel Management. Through the National Indian Program Training Center, a component of Department of the Interior (DOI) University, the Working Capital Fund provides training courses and other services related to Indian culture, law and programs to Federal Government employees. The appropriated portion of the Working Capital Fund includes funding for FBMS operations and maintenance, and activities related to improving the Department's cybersecurity capabilities.

The Great American Outdoors Act (P.L. 116–152) established the National Parks and Public Land Legacy Restoration Fund to reduce deferred maintenance at the Department of the Interior and the U.S. Forest Service. The Fund supports restoration of deteriorating assets through an allocation of 70 percent to the National Park Service, 5 percent to the U.S. Fish and Wildlife Service, 5 percent to the Bureau of Land Management, 5 percent to the Bureau of Indian Education, and 15 percent to the U.S. Forest Service.

NATIONAL PARKS AND PUBLIC LAND LEGACY RESTORATION FUND—Continued

The Fund is supported by the deposit of 50 percent of all Federal energy development revenue from the prior year that would otherwise be credited or deposited as miscellaneous receipts to the Treasury, subject to an annual limit of \$1.9 billion for five years (2021–2025). The Departments of the Interior and Agriculture annually submit projects to Congress, execute projects, and monitor results/program performance. This Fund makes a significant investment in the facilities which support the important missions of the Department of the Interior and the U.S. Forest Service and help maintain America's national treasures for future generations.

The 2022 budget proposes to establish the Energy Community Revitalization Program (ECRP) designed to support Executive Order 14008 and complement the American Jobs Plan. The ECRP will provide grants to States and Tribal communities impacted by abandoned hard rock mining and orphaned oil and gas wells. The program will provide resources to States and Tribes to address the sites where the companies that created them have left and are no longer viable to address the needed cleanup and closure. This program will create jobs in these communities to repair the damage from these legacy activities and in doing so, improve the environment, restore water quality, and make the community safer.

In addition, the ECRP will provide critical funding to the Department of the Interior to address the hundreds of thousands of abandoned hardrock mines and orphan oil and gas wells scattered across Interior managed lands. The Federal program will assist Interior bureaus to inventory, assess, and prioritize these sites for cleanup. The primary focus will be to remediate abandoned mines and identify and plug orphan oil and gas wells posing the highest risks to the environment and physical safety on Department lands. Many of these sites also are associated with cultural and natural resources which need to be evaluated and addressed in a holistic approach.

The President's American Jobs Plan will put the energy industry to work plugging orphan oil and gas wells and cleaning up abandoned mines. Hundreds of thousands of former orphan oil and gas wells and abandoned mines pose serious safety hazards, while also causing ongoing air, water, and other environmental damage. Many of these old wells and mines are located in rural communities that have suffered from years of disinvestment. The plan includes an immediate up-front investment of \$16 billion that will put hundreds of thousands to work in union jobs plugging oil and gas wells and restoring and reclaiming abandoned coal, hardrock, and uranium mines. In addition to creating good jobs in hard-hit communities, this investment will reduce the methane and brine that leaks from these wells, just as we invest in reducing leaks from other sources like aging pipes and distribution systems.

ADMINISTRATIVE PROVISION

There is hereby authorized for acquisition from available resources within the Working Capital Fund, aircraft which may be obtained by donation, purchase, or through available excess surplus property: *Provided*, That existing aircraft being replaced may be sold, with proceeds derived or trade-in value used to offset the purchase price for the replacement aircraft. GENERAL PROVISIONS

(INCLUDING TRANSFERS OF FUNDS)

EMERGENCY TRANSFER AUTHORITY—INTRA-BUREAU

SEC. 101. Appropriations made in this title shall be available for expenditure or transfer (within each bureau or office), with the approval of the Secretary of the Interior, for the emergency reconstruction, replacement, or repair of aircraft, buildings, utilities, or other facilities or equipment damaged or destroyed by fire, flood, storm, or other unavoidable causes: *Provided*, That no funds shall be made available under this authority until funds specifically made available to the Department of the Interior for emergencies shall have been exhausted: *Provided further*, That *it is the sense of the Congress* that all funds used pursuant to this section **[must]** *should* be replenished by a supplemental appropriation, **[which must]** *to* be requested as promptly as possible.

EMERGENCY TRANSFER AUTHORITY—DEPARTMENT-WIDE

SEC. 102. The Secretary of the Interior may authorize the expenditure or transfer of any no year appropriation in this title, in addition to the amounts included in the budget programs of the several agencies, for the suppression or emergency prevention of wildland fires on or threatening lands under the jurisdiction of the Department of the Interior; for the emergency rehabilitation of burned-over lands under its jurisdiction; for emergency actions related to potential or actual earthquakes, floods, volcanoes, storms, or other unavoidable causes; for contingency planning subsequent to actual oil spills; for response and natural resource damage assessment activities related to actual oil spills or releases of hazardous substances into the environment; for the prevention, suppression, and control of actual or potential grasshopper and Mormon cricket outbreaks on lands under the jurisdiction of the Secretary, pursuant to the authority in section 417(b) of Public Law 106-224 (7 U.S.C. 7717(b)); for emergency reclamation projects under section 410 of Public Law 95-87; and shall transfer, from any no year funds available to the Office of Surface Mining Reclamation and Enforcement, such funds as may be necessary to permit assumption of regulatory authority in the event a primacy State is not carrying out the regulatory provisions of the Surface Mining Act: *Provided*, That appropriations made in this title for wildland fire operations shall be available for the payment of obligations incurred during the preceding fiscal year, and for reimbursement to other Federal agencies for destruction of vehicles, aircraft, or other equipment in connection with their use for wildland fire operations, with such reimbursement to be credited to appropriations currently available at the time of receipt thereof: *Provided further*, That for wildland fire operations, no funds shall be made available under this authority until the Secretary determines that funds appropriated for "wildland fire suppression" shall be exhausted within 30 days: *Provided further*, That *it is the sense of the Congress* that all funds used pursuant to this section **[must]** *should* be replenished by a supplemental appropriation, **[which must]** *to* be requested as promptly as possible: *Provided further*, That such replenishment funds shall be used to reimburse, on a pro rata basis, accounts from which emergency funds were transferred.

AUTHORIZED USE OF FUNDS

SEC. 103. Appropriations made to the Department of the Interior in this title shall be available for services as authorized by section 3109 of title 5, United States Code, when authorized by the Secretary of the Interior, in total amount not to exceed \$500,000; purchase and replacement of motor vehicles, including specially equipped law enforcement vehicles; hire, maintenance, and operation of aircraft; hire of passenger motor vehicles; purchase of reprints; payment for telephone service in private residences in the field, when authorized under regulations approved by the Secretary; and the payment of dues, when authorized by the Secretary, for library membership in societies or associations which issue publications to members only or at a price to members lower than to subscribers who are not members.

AUTHORIZED USE OF FUNDS, INDIAN TRUST MANAGEMENT

SEC. 104. Appropriations made in this Act under the headings Bureau of Indian Affairs and Bureau of Indian Education, and [Office of the Special Trustee for American Indians] *Bureau of Trust Funds Administration* and any unobligated balances from prior appropriations Acts made under the same headings shall be available for expenditure or transfer for Indian trust management and reform activities. Total funding for [historical accounting] *settlement support* activities shall not exceed amounts specifically designated in this Act for such purpose. The Secretary shall notify the House and Senate Committees on Appropriations within 60 days of the expenditure or transfer of any funds under this section, including the amount expended or transferred and how the funds will be used.

REDISTRIBUTION OF FUNDS, BUREAU OF INDIAN AFFAIRS

SEC. 105. Notwithstanding any other provision of law, the Secretary of the Interior is authorized to redistribute any Tribal Priority Allocation funds, including tribal base funds, to alleviate tribal funding inequities by transferring funds to address identified, unmet needs, dual enrollment, overlapping service areas or inaccurate distribution methodologies. No tribe shall receive a reduction in Tribal Priority Allocation funds of more than 10 percent in fiscal year [2021] 2022. Under circumstances of dual enrollment, overlapping service areas or inaccurate distribution methodologies, the 10 percent limitation does not apply.

ELLIS, GOVERNORS, AND LIBERTY ISLANDS

SEC. 106. Notwithstanding any other provision of law, the Secretary of the Interior is authorized to acquire lands, waters, or interests therein, including the use of all or part of any pier, dock, or landing within the State of New York and the State of New Jersey, for the purpose of operating and maintaining facilities in the support of transportation and accommodation of visitors to Ellis, Governors, and Liberty Islands, and of other program and administrative activities, by donation or with appropriated funds, including franchise fees (and other monetary consideration), or by exchange; and the Secretary is authorized to negotiate and enter into leases, subleases, concession contracts, or other agreements for the use of such facilities on such terms and conditions as the Secretary may determine reasonable.

OUTER CONTINENTAL SHELF INSPECTION FEES

SEC. 107. (a) In fiscal year [2021] 2022, the Secretary of the Interior shall collect a nonrefundable inspection fee, which shall be deposited in the "Offshore Safety and Environmental Enforcement" account, from the designated operator for facilities subject to inspection under 43 U.S.C. 1348(c).

(b) Annual fees shall be collected for facilities that are above the waterline, excluding drilling rigs, and are in place at the start of the fiscal year. Fees for fiscal year [2021] 2022 shall be—

- (1) [\$10,500] \$11,725 for facilities with no wells, but with processing equipment or gathering lines;
- (2) [\$17,000] \$18,984 for facilities with 1 to 10 wells, with any combination of active or inactive wells; and
- (3) [\$31,500] \$35,176 for facilities with more than 10 wells, with any combination of active or inactive wells.

(c) Fees for drilling rigs shall be assessed for all inspections completed in fiscal year [2021] 2022. Fees for fiscal year [2021] 2022 shall be—

- (1) [\$30,500] \$34,059 per inspection for rigs operating in water depths of 500 feet or more; and
- (2) [\$16,700] \$18,649 per inspection for rigs operating in water depths of less than 500 feet.

(d) Fees for inspection of well operations conducted via non-rig units as outlined in title 30 CFR 250 subparts D, E, F, and Q shall be assessed for all inspections completed in fiscal year 2021. Fees for fiscal year [2021] 2022 shall be—

- (1) \$13,260 per inspection for non-rig units operating in water depths of 2,500 feet or more;
- (2) \$11,530 per inspection for non-rig units operating in water depths between 500 and 2,499 feet; and
- (3) \$4,470 per inspection for non-rig units operating in water depths of less than 500 feet.

(e) The Secretary shall bill designated operators under subsection (b) quarterly, with payment required within 30 days of billing. The Secretary shall bill designated operators under subsection (c) within 30 days of the end of the month in which the inspection occurred, with payment required within 30 days of billing. The Secretary shall bill designated operators under subsection (d) with payment required by the end of the following quarter.

CONTRACTS AND AGREEMENTS FOR WILD HORSE AND BURRO HOLDING FACILITIES

SEC. 108. Notwithstanding any other provision of this Act, the Secretary of the Interior may enter into multiyear cooperative agreements with nonprofit organizations and other appropriate entities, and may enter into multiyear contracts in accordance with the provisions of section 3903 of title 41, United States Code (except that the 5-year term restriction in subsection (a) shall not apply), for the long-term care and

maintenance of excess wild free roaming horses and burros by such organizations or entities on private land. Such cooperative agreements and contracts may not exceed 10 years, subject to renewal at the discretion of the Secretary.

MASS MARKING OF SALMONIDS

SEC. 109. The United States Fish and Wildlife Service shall, in carrying out its responsibilities to protect threatened and endangered species of salmon, implement a system of mass marking of salmonid stocks, intended for harvest, that are released from federally operated or federally financed hatcheries including but not limited to fish releases of coho, chinook, and steelhead species. Marked fish must have a visible mark that can be readily identified by commercial and recreational fishers.

CONTRACTS AND AGREEMENTS WITH INDIAN AFFAIRS

SEC. 110. Notwithstanding any other provision of law, during fiscal year [2021] 2022, in carrying out work involving cooperation with State, local, and tribal governments or any political subdivision thereof, Indian Affairs may record obligations against accounts receivable from any such entities, except that total obligations at the end of the fiscal year shall not exceed total budgetary resources available at the end of the fiscal year.

DEPARTMENT OF THE INTERIOR EXPERIENCED SERVICES PROGRAM

SEC. 111. (a) Notwithstanding any other provision of law relating to Federal grants and cooperative agreements, the Secretary of the Interior is authorized to make grants to, or enter into cooperative agreements with, private nonprofit organizations designated by the Secretary of Labor under title V of the Older Americans Act of 1965 to utilize the talents of older Americans in programs authorized by other provisions of law administered by the Secretary and consistent with such provisions of law.

(b) Prior to awarding any grant or agreement under subsection (a), the Secretary shall ensure that the agreement would not—

- (1) result in the displacement of individuals currently employed by the Department, including partial displacement through reduction of non-overtime hours, wages, or employment benefits;
- (2) result in the use of an individual under the Department of the Interior Experienced Services Program for a job or function in a case in which a Federal employee is in a layoff status from the same or substantially equivalent job within the Department; or
- (3) affect existing contracts for services.

[OBLIGATION OF FUNDS]

[SEC. 112. Amounts appropriated by this Act to the Department of the Interior shall be available for obligation and expenditure not later than 60 days after the date of enactment of this Act.]

[EXTENSION OF AUTHORITIES]

[SEC. 113. (a) Section 708(a) of division II of Public Law 104–333, as amended by Public Law 110–229 section 461, is further amended by striking " \$15,000,000" and inserting " \$17,000,000".

(b) Section 109(a) of title I of Public Law 106–278 is amended by striking " \$10,000,000" and inserting " \$12,000,000".]

SEPARATION OF ACCOUNTS

SEC. [114] 112. Notwithstanding any other provision of law or Federal regulation, federally recognized Indian tribes or authorized tribal organizations that receive Tribally-Controlled School Grants pursuant to Public Law 100–297 may obtain interagency motor vehicles and related services for performance of any activities carried out under such grants to the same extent as if they were contracting under the Indian Self-Determination and Education Assistance Act.

【LONG BRIDGE PROJECT】

【SEC. 120. (a) AUTHORIZATION OF CONVEYANCE.—On request by the State of Virginia or the District of Columbia for the purpose of the construction of rail and other infrastructure relating to the Long Bridge Project, the Secretary of the Interior may convey to the State or the District of Columbia, as applicable, all right, title, and interest of the United States in and to any portion of the approximately 4.4 acres of National Park Service land depicted as "Permanent Impact to NPS Land" on the Map dated May 15, 2020, that is identified by the State or the District of Columbia.

(b) TERMS AND CONDITIONS.—Such conveyance of the National Park Service land under subsection (a) shall be subject to any terms and conditions that the Secretary may require. If such conveyed land is no longer being used for the purposes specified in this section, the lands or interests therein shall revert to the National Park Service after they have been restored or remediated to the satisfaction of the Secretary.

(c) CORRECTIONS.—The Secretary and the State or the District of Columbia, as applicable, by mutual agreement, may—

- (1) make minor boundary adjustments to the National Park Service land to be conveyed to the State or the District of Columbia under subsection (a); and
- (2) correct any minor errors in the Map referred to in subsection (a).

(d) DEFINITIONS.—For purposes of this section:

- (1) LONG BRIDGE PROJECT.—The term "Long Bridge Project" means the rail project, as identified by the Federal Railroad Administration, from Rosslyn (RO) Interlocking in Arlington, Virginia, to L'Enfant (LE) Interlocking in Washington, DC, which includes a bicycle and pedestrian bridge.
- (2) SECRETARY.—The term "Secretary" means the Secretary of the Interior, acting through the Director of the National Park Service.
- (3) STATE.—The term "State" means the State of Virginia.】

DECOMMISSIONING ACCOUNT

SEC. 114. *The fifth and sixth provisos under the amended heading "Royalty and Offshore Minerals Management" for the Minerals Management Service in Public Law 101–512 (104 Stat. 1926, as amended) (43 U.S.C. 1338a) are further amended by striking and replacing them with— "Provided further, That notwithstanding section 3302 of title 31, any moneys hereafter received as a result of the forfeiture of a bond or other security by an Outer Continental Shelf permittee, lessee, or right-of-way holder that does not fulfill the requirements of its permit, lease, or right-of-way or does not comply with the regulations of the Secretary, or as a bankruptcy distribution or settlement associated with such failure or noncompliance, shall be credited to a separate account established in the Treasury for decommissioning activities and shall be available to the Bureau of Ocean Energy Management without further appropriation or fiscal year limitation to cover the cost to the United States of any improvement, protection, rehabilitation, or decommissioning work rendered necessary by the action or inaction that led to the forfeiture or bankruptcy distribution or settlement, to remain available until expended: Provided further, That amounts deposited into the decommissioning account may be allocated to the Bureau of Safety and Environmental Enforcement for such costs: Provided further, That any moneys received for such costs currently held in the Ocean Energy Management account shall be transferred to the decommissioning account: Provided further, That any portion of the moneys so credited shall be returned to the bankruptcy estate, permittee, lessee, or right-of-way holder to the extent that the money is in excess of the amount expended in performing the work necessitated by the action or inaction which led to their receipt or, if the bond or security was forfeited for failure to pay the civil penalty, in excess of the civil penalty imposed."*

INDIAN REORGANIZATION ACT

SEC. 115. (a) Modification.

- (1) In general. *The first sentence of section 19 of the Act of June 18, 1934 (commonly known as the "Indian Reorganization Act") (25 U.S.C. 5129), is amended—*

(A) *by striking "The term" and inserting "Effective beginning on June 18, 1934, the term"; and*

(B) *by striking "any recognized Indian tribe now under Federal jurisdiction" and inserting "any federally recognized Indian tribe".*

GENERAL PROVISIONS—DEPARTMENT OF THE INTERIOR

SEC. 201. (a) None of the funds provided in title II of this Act for Water and Related Resources, or provided by previous or subsequent appropriations Acts to the agencies or entities funded in title II of this Act for Water and Related Resources that remain available for obligation or expenditure in fiscal year **[2021]** 2022, shall be available for obligation or expenditure through a reprogramming of funds that—

(1) initiates or creates a new program, project, or activity;

(2) eliminates a program, project, or activity;

(3) increases funds for any program, project, or activity for which funds have been denied or restricted by this Act, unless **[prior approval is received from]** notice has been transmitted to the Committees on Appropriations of both Houses of Congress;

(4) restarts or resumes any program, project or activity for which funds are not provided in this Act, unless **[prior approval is received from]** notice has been transmitted to the Committees on Appropriations of both Houses of Congress;

(5) transfers funds in excess of the following limits, unless **[prior approval is received from]** notice has been transmitted to the Committees on Appropriations of both Houses of Congress:

(A) 15 percent for any program, project or activity for which \$2,000,000 or more is available at the beginning of the fiscal year; or

(B) \$400,000 for any program, project or activity for which less than \$2,000,000 is available at the beginning of the fiscal year;

(6) transfers more than \$500,000 from either the Facilities Operation, Maintenance, and Rehabilitation category or the Resources Management and Development category to any program, project, or activity in the other category, unless **[prior approval is received from]** notice has been transmitted to the Committees on Appropriations of both Houses of Congress; or

(7) transfers, where necessary to discharge legal obligations of the Bureau of Reclamation, more than \$5,000,000 to provide adequate funds for settled contractor claims, increased contractor earnings due to accelerated rates of operations, and real estate deficiency judgments, unless **[prior approval is received from]** notice has been transmitted to the Committees on Appropriations of both Houses of Congress.

(b) Subsection (a)(5) shall not apply to any transfer of funds within the Facilities Operation, Maintenance, and Rehabilitation category.

(c) For purposes of this section, the term "transfer" means any movement of funds into or out of a program, project, or activity.

(d) The Bureau of Reclamation shall submit reports on a quarterly basis to the Committees on Appropriations of both Houses of Congress detailing all the funds reprogrammed between programs, projects, activities, or categories of funding. The first quarterly report shall be submitted not later than 60 days after the date of enactment of this Act.

SEC. 202. (a) None of the funds appropriated or otherwise made available by this Act may be used to determine the final point of discharge for the interceptor drain for the San Luis Unit until development by the Secretary of the Interior and the State of California of a plan, which shall conform to the water quality standards of the State of California as approved by the Administrator of the Environmental Protection Agency, to minimize any detrimental effect of the San Luis drainage waters.

(b) The costs of the Kesterson Reservoir Cleanup Program and the costs of the San Joaquin Valley Drainage Program shall be classified by the Secretary of the Interior as reimbursable or nonreimbursable and collected until fully repaid pursuant to the "Cleanup Program—Alternative Repayment Plan" and the "SJVD—Alternative Repayment Plan" described in the report entitled "Repayment Report, Kesterson Reservoir Cleanup Program and San Joaquin Valley Drainage Program, February 1995", prepared by the Department of the Interior, Bureau of Reclamation. Any future obligations of funds by the United States relating to, or providing for, drainage service or drainage studies for the San Luis Unit shall be fully reimbursable by San Luis Unit beneficiaries of such service or studies pursuant to Federal reclamation law.

TITLE IV—GENERAL PROVISIONS

(INCLUDING TRANSFERS OF FUNDS)

RESTRICTION ON USE OF FUNDS

SEC. 401. No part of any appropriation contained in this Act shall be available for any activity or the publication or distribution of literature that in any way tends to promote public support or opposition to any legislative proposal on which Congressional action is not complete other than to communicate to Members of Congress as described in 18 U.S.C. 1913.

OBLIGATION OF APPROPRIATIONS

SEC. 402. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

DISCLOSURE OF ADMINISTRATIVE EXPENSES

SEC. 403. The amount and basis of estimated overhead charges, deductions, reserves, or holdbacks, including working capital fund and cost pool charges, from programs, projects, activities and subactivities to support government-wide, departmental, agency, or bureau administrative functions or headquarters, regional, or central operations shall be presented in annual budget justifications and subject to approval by the Committees on Appropriations of the House of Representatives and the Senate. Changes to such estimates shall be presented to the Committees on Appropriations for approval.

MINING APPLICATIONS

SEC. 404. (a) **LIMITATION OF FUNDS.**—None of the funds appropriated or otherwise made available pursuant to this Act shall be obligated or expended to accept or process applications for a patent for any mining or mill site claim located under the general mining laws.

(b) **EXCEPTIONS.**—Subsection (a) shall not apply if the Secretary of the Interior determines that, for the claim concerned: (1) a patent application was filed with the Secretary on or before September 30, 1994; and (2) all requirements established under sections 2325 and 2326 of the Revised Statutes (30 U.S.C. 29 and 30) for vein or lode claims, sections 2329, 2330, 2331, and 2333 of the Revised Statutes (30 U.S.C. 35, 36, and 37) for placer claims, and section 2337 of the Revised Statutes (30 U.S.C. 42) for mill site claims, as the case may be, were fully complied with by the applicant by that date.

(c) **REPORT.**—On September 30, [2022] 2023, the Secretary of the Interior shall file with the House and Senate Committees on Appropriations and the Committee on Natural Resources of the House and the Committee on Energy and Natural Resources of the Senate a report on actions taken by the Department under the plan submitted pursuant to section 314(c) of the Department of the Interior and Related Agencies Appropriations Act, 1997 (Public Law 104–208).

(d) **MINERAL EXAMINATIONS.**—In order to process patent applications in a timely and responsible manner, upon the request of a patent applicant, the Secretary of the Interior shall allow the applicant to fund a qualified third-party contractor to be selected by the Director of the Bureau of Land Management to conduct a mineral examination of the mining claims or mill sites contained in a patent application as set forth in subsection (b). The Bureau of Land Management shall have the sole responsibility to choose and pay the third-party contractor in accordance with the standard procedures employed by the Bureau of Land Management in the retention of third-party contractors.

CONTRACT SUPPORT COSTS, PRIOR YEAR LIMITATION

SEC. 405. Sections 405 and 406 of division F of the Consolidated and Further Continuing Appropriations Act, 2015 (Public Law 113–235) shall continue in effect in fiscal years [2021] 2022 and 2023.

CONTRACT SUPPORT COSTS, FISCAL YEAR 2022 AND 2023 LIMITATION

SEC. 406. Amounts provided by this Act for fiscal years [2021] 2022 and 2023 under the headings "Department of Health and Human Services, Indian Health Service, Contract Support Costs" and "Department of the Interior, Bureau of Indian Affairs and Bureau of Indian Education, Contract Support Costs" are the only amounts available for contract support costs arising out of self-determination or self-governance contracts, grants, compacts, or annual funding agreements for *each* such fiscal year [2021] with the Bureau of Indian Affairs, Bureau of Indian Education, and the Indian Health Service: *Provided*, That such amounts provided by this Act are not available for payment of claims for contract support costs for prior years, or for repayments of payments for settlements or judgments awarding contract support costs for prior years: *Provided further*, That notwithstanding any other provision of law, funds appropriated under the heading *Department of Health and Human Services, Indian Health Service, Contract Support Costs in this or prior Acts shall remain available for disbursement until any claims relating to such amounts and submitted under chapter 71 of title 41, United States Code, are resolved.*

FOREST MANAGEMENT PLANS

SEC. 407. The Secretary of Agriculture shall not be considered to be in violation of subparagraph 6(f)(5)(A) of the Forest and Rangeland Renewable Resources

Planning Act of 1974 (16 U.S.C. 1604(f)(5)(A)) solely because more than 15 years have passed without revision of the plan for a unit of the National Forest System. Nothing in this section exempts the Secretary from any other requirement of the Forest and Rangeland Renewable Resources Planning Act (16 U.S.C. 1600 et seq.) or any other law: *Provided*, That if the Secretary is not acting expeditiously and in good faith, within the funding available, to revise a plan for a unit of the National Forest System, this section shall be void with respect to such plan and a court of proper jurisdiction may order completion of the plan on an accelerated basis.

PROHIBITION WITHIN NATIONAL MONUMENTS

SEC. 408. No funds provided in this Act may be expended to conduct preleasing, leasing and related activities under either the Mineral Leasing Act (30 U.S.C. 181 et seq.) or the Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.) within the boundaries of a National Monument established pursuant to the Act of June 8, 1906 (16 U.S.C. 431 et seq.) as such boundary existed on January 20, 2001, except where such activities are allowed under the Presidential proclamation establishing such monument.

LIMITATION ON TAKINGS

SEC. 409. Unless otherwise provided herein, no funds appropriated in this Act for the acquisition of lands or interests in lands may be expended for the filing of declarations of taking or complaints in condemnation without the approval of the House and Senate Committees on Appropriations: *Provided*, That this provision shall not apply to funds appropriated to implement the Everglades National Park Protection and Expansion Act of 1989, or to funds appropriated for Federal assistance to the State of Florida to acquire lands for Everglades restoration purposes.

PROHIBITION ON NO-BID CONTRACTS

SEC. 410. None of the funds appropriated or otherwise made available by this Act to executive branch agencies may be used to enter into any Federal contract unless such contract is entered into in accordance with the requirements of Chapter 33 of title 41, United States Code, or Chapter 137 of title 10, United States Code, and the Federal Acquisition Regulation, unless—

- (1) Federal law specifically authorizes a contract to be entered into without regard for these requirements, including formula grants for States, or federally recognized Indian tribes;
- (2) such contract is authorized by the Indian Self-Determination and Education Assistance Act (Public Law 93–638, 25 U.S.C. 450 et seq.) or by any other Federal laws that specifically authorize a contract within an Indian tribe as defined in section 4(e) of that Act (25 U.S.C. 450b(e)); or
- (3) such contract was awarded prior to the date of enactment of this Act.

POSTING OF REPORTS

SEC. 411. (a) Any agency receiving funds made available in this Act, shall, subject to subsections (b) and (c), post on the public website of that agency any report required to be submitted by the Congress in this or any other Act, upon the determination by the head of the agency that it shall serve the national interest.

(b) Subsection (a) shall not apply to a report if—

- (1) the public posting of the report compromises national security; or
- (2) the report contains proprietary information.

(c) The head of the agency posting such report shall do so only after such report has been made available to the requesting Committee or Committees of Congress for no less than 45 days.

NATIONAL ENDOWMENT FOR THE ARTS GRANT GUIDELINES

SEC. 412. Of the funds provided to the National Endowment for the Arts—

- (1) The Chairperson shall only award a grant to an individual if such grant is awarded to such individual for a literature fellowship, National Heritage Fellowship, or American Jazz Masters Fellowship.
- (2) The Chairperson shall establish procedures to ensure that no funding provided through a grant, except a grant made to a State or local arts agency, or regional group, may be used to make a grant to any other organization or individual to conduct activity independent of the direct grant recipient. Nothing in this subsection shall prohibit payments made in exchange for goods and services.
- (3) No grant shall be used for seasonal support to a group, unless the application is specific to the contents of the season, including identified programs or projects.

NATIONAL ENDOWMENT FOR THE ARTS PROGRAM PRIORITIES

SEC. 413. (a) In providing services or awarding financial assistance under the National Foundation on the Arts and the Humanities Act of 1965 from funds appropriated under this Act, the Chairperson of the National Endowment for the Arts shall ensure that priority is given to providing services or awarding financial assistance for projects, productions, workshops, or programs that serve underserved populations.

(b) In this section:

- (1) The term "underserved population" means a population of individuals, including urban minorities, who have historically been outside the purview of arts and humanities programs due to factors such as a high incidence of income below the poverty line or to geographic isolation.

(2) The term "poverty line" means the poverty line (as defined by the Office of Management and Budget, and revised annually in accordance with section 673(2) of the Community Services Block Grant Act (42 U.S.C. 9902(2))) applicable to a family of the size involved.

(c) In providing services and awarding financial assistance under the National Foundation on the Arts and Humanities Act of 1965 with funds appropriated by this Act, the Chairperson of the National Endowment for the Arts shall ensure that priority is given to providing services or awarding financial assistance for projects, productions, workshops, or programs that will encourage public knowledge, education, understanding, and appreciation of the arts.

(d) With funds appropriated by this Act to carry out section 5 of the National Foundation on the Arts and Humanities Act of 1965—

(1) the Chairperson shall establish a grant category for projects, productions, workshops, or programs that are of national impact or availability or are able to tour several States;

(2) the Chairperson shall not make grants exceeding 15 percent, in the aggregate, of such funds to any single State, excluding grants made under the authority of paragraph (1);

(3) the Chairperson shall report to the Congress annually and by State, on grants awarded by the Chairperson in each grant category under section 5 of such Act; and

(4) the Chairperson shall encourage the use of grants to improve and support community-based music performance and education.

【NATIONAL ENDOWMENT FOR THE ARTS WAIVERS】

【SEC. 414. Notwithstanding any other provision of law, funds made available under the heading "National Foundation on the Arts and the Humanities—National Endowment for the Arts—Grants and Administration" of this Act and under such heading for fiscal years 2019 and 2020 for grants for the purposes described in section 5(c) of the National Foundation on the Arts and Humanities Act of 1965 (20 U.S.C. 954(c)) may also be used by the recipients of such grants for purposes of the general operations of such recipients.】

【SEC. 415. Notwithstanding any other provision of law, funds made available under the heading "National Foundation on the Arts and the Humanities—National Endowment for the Humanities—Grants and Administration" of this Act and under such heading for fiscal years 2019 and 2020 for grants for the purposes described in section 7(c) and 7(h)(1) of the National Foundation on the Arts and Humanities Act of 1965 may also be used by the recipients of such grants for purposes of the general operations of such recipients.】

STATUS OF BALANCES OF APPROPRIATIONS

SEC. 【416】414. The Department of the Interior, the Environmental Protection Agency, the Forest Service, and the Indian Health Service shall provide the Committees on Appropriations of the House of Representatives and Senate quarterly reports on the status of balances of appropriations including all uncommitted, committed, and obligated funds in each program and activity within 60 days of enactment of this Act.

EXTENSION OF GRAZING PERMITS

SEC. 【417】415. The terms and conditions of section 325 of Public Law 108–108 (117 Stat. 1307), regarding grazing permits issued by the Forest Service on any lands not subject to administration under section 402 of the Federal Lands Policy and Management Act (43 U.S.C. 1752), shall remain in effect for fiscal year 【2021】2022.

FUNDING PROHIBITION

SEC. 【418】416. (a) None of the funds made available in this Act may be used to maintain or establish a computer network unless such network is designed to block access to pornography websites.

(b) Nothing in subsection (a) shall limit the use of funds necessary for any Federal, State, tribal, or local law enforcement agency or any other entity carrying out criminal investigations, prosecution, or adjudication activities.

HUMANE TRANSFER AND TREATMENT OF ANIMALS

SEC. 【419】417. (a) Notwithstanding any other provision of law, the Secretary of the Interior, with respect to land administered by the Bureau of Land Management, or the Secretary of Agriculture, with respect to land administered by the Forest Service (referred to in this section as the "Secretary concerned"), may transfer excess wild horses and burros that have been removed from land administered by the Secretary concerned to other Federal, State, and local government agencies for use as work animals.

(b) The Secretary concerned may make a transfer under subsection (a) immediately on the request of a Federal, State, or local government agency.

(c) An excess wild horse or burro transferred under subsection (a) shall lose status as a wild free-roaming horse or burro (as defined in section 2 of Public Law

92–195 (commonly known as the "Wild Free-Roaming Horses and Burros Act") (16 U.S.C. 1332)).

(d) A Federal, State, or local government agency receiving an excess wild horse or burro pursuant to subsection (a) shall not—

(1) destroy the horse or burro in a manner that results in the destruction of the horse or burro into a commercial product;

(2) sell or otherwise transfer the horse or burro in a manner that results in the destruction of the horse or burro for processing into a commercial product; or

(3) euthanize the horse or burro, except on the recommendation of a licensed veterinarian in a case of severe injury, illness, or advanced age.

(e) Amounts appropriated by this Act shall not be available for—

(1) the destruction of any healthy, unadopted, and wild horse or burro under the jurisdiction of the Secretary concerned (including a contractor); or

(2) the sale of a wild horse or burro that results in the destruction of the wild horse or burro for processing into a commercial product.

USE OF AMERICAN IRON AND STEEL

SEC. 【421】419. (a)

(1) None of the funds made available by a State water pollution control revolving fund as authorized by section 1452 of the Safe Drinking Water Act (42 U.S.C. 300j–12) shall be used for a project for the construction, alteration, maintenance, or repair of a public water system or treatment works unless all of the iron and steel products used in the project are produced in the United States.

(2) In this section, the term "iron and steel" products means the following products made primarily of iron or steel: lined or unlined pipes and fittings, manhole covers and other municipal castings, hydrants, tanks, flanges, pipe clamps and restraints, valves, structural steel, reinforced precast concrete, and construction materials.

(b) Subsection (a) shall not apply in any case or category of cases in which the Administrator of the Environmental Protection Agency (in this section referred to as the "Administrator") finds that—

(1) applying subsection (a) would be inconsistent with the public interest;

(2) iron and steel products are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality; or

(3) inclusion of iron and steel products produced in the United States will increase the cost of the overall project by more than 25 percent.

(c) If the Administrator receives a request for a waiver under this section, the Administrator shall make available to the public on an informal basis a copy of the request and information available to the Administrator concerning the request, and shall allow for informal public input on the request for at least 15 days prior to making a finding based on the request. The Administrator shall make the request and accompanying information available by electronic means, including on the official public Internet Web site of the Environmental Protection Agency.

(d) This section shall be applied in a manner consistent with United States obligations under international agreements.

(e) The Administrator may retain up to 0.25 percent of the funds appropriated in this Act for the Clean and Drinking Water State Revolving Funds for carrying out the provisions described in subsection (a)(1) for management and oversight of the requirements of this section.

LOCAL COOPERATOR TRAINING AGREEMENTS AND TRANSFERS OF EXCESS EQUIPMENT AND SUPPLIES FOR WILDFIRES

SEC. 【422】420. The Secretary of the Interior is authorized to enter into grants and cooperative agreements with volunteer fire departments, rural fire departments, rangeland fire protection associations, and similar organizations to provide for wildland fire training and equipment, including supplies and communication devices. Notwithstanding section 121(c) of title 40, United States Code, or section 521 of title 40, United States Code, the Secretary is further authorized to transfer title to excess Department of the Interior firefighting equipment no longer needed to carry out the functions of the Department's wildland fire management program to such organizations.

[ALLOCATION OF PROJECTS]

[SEC. 434. (a)

(1) Within 45 days of enactment of this Act, the Secretary of the Interior shall allocate amounts available from the National Parks and Public Land Legacy Restoration Fund for fiscal year 2021 pursuant to subsection (c) of section 200402 of title 54, United States Code, and as provided in subsection (e) of such section of such title, to the agencies of the Department of the Interior and the Department of Agriculture specified, in the amounts specified, and for the projects and activities specified in the table titled "Allocation of Funds from the National Parks and Public Land Legacy Restoration Fund—Fiscal Year 2021" in the explanatory statement described in section 4 (in the matter preceding division A of this consolidated Act).

(2) Within 30 days of enactment of this Act, the Secretary of the Interior shall submit to the Committees on Appropriations of the House of Representatives and the Senate project data sheets in the same format and containing the same level of detailed information that is found on such sheets in the Budget Justifications annually submitted by the Department of the Interior with the President's Budget for the Department of the Interior projects specified pursuant to the allocation in subsection (a)(1) and, only 45 days after submission of such sheets, shall the Secretary of the Interior be permitted to obligate amounts that are allocated pursuant to subsection (a)(1).

(3) Within 30 days of enactment of this Act, the Secretary of Agriculture shall submit to the Committees on Appropriations of the House of Representatives and the Senate full detailed project lists that must include a project description, as well as information on region, forest or grassland name, project name, State, Congressional district, fiscal year 2021 non-transportation needed funds, fiscal year 2021 transportation needed funds, and asset type for the Department of Agriculture projects specified pursuant to the allocation in subsection (a)(1) and, only 45 days after submission of such lists, shall the Secretary of Agriculture be permitted to obligate amounts that are allocated pursuant to subsection (a)(1). (b)

(1) Within 45 days of enactment of this Act, the Secretary of the Interior and the Secretary of Agriculture, as appropriate, shall allocate amounts made available for expenditure from the Land and Water Conservation Fund for fiscal year 2021 pursuant to subsection (a) of section 200303 of title 54, United States Code, to the agencies and accounts specified, in the amounts specified, and for the projects and activities specified in the table titled "Allocation of Funds from the Land and Water Conservation Fund—Fiscal Year 2021" in the explanatory statement

described in section 4 (in the matter preceding division A of this consolidated Act).

(2) Within 30 days of enactment of this Act, the Secretary of the Interior and the Secretary of Agriculture shall each submit to the Committees on Appropriations of the House of Representatives and the Senate project data sheets in the same format and containing the same level of detailed information that is found on such sheets as submitted to the Committees pursuant to section 427 of division D of the Further Consolidated Appropriations Act, 2020 (Public Law 116–94) for the projects specified pursuant to the allocation in subsection (b)(1) and, only 45 days after submission of such sheets, shall the Secretary of the Interior and the Secretary of Agriculture, as appropriate, be permitted to obligate amounts that are allocated pursuant to subsection (b)(1).

(c)

(1) Neither the President nor his designee may allocate any amounts that are made available for any fiscal year under subsection (c) of section 200402 of title 54, United States Code, or subsection (a) of section 200303 of title 54, United States Code, other than amounts that are allocated by subsections (a) and (b) of this section of this Act.

(2) If any funds made available by section 200402(c) or section 200303(a) of title 54, United States Code, were allocated or obligated in advance of the enactment of a fiscal year 2021 Act making full-year appropriations for the Department of the Interior, Environment, and Related Agencies, then within 30 days of enactment of this Act, the Office of Management and Budget, in consultation with the Department of the Interior and the Department of Agriculture, shall submit to the Committees on Appropriations of the House of Representatives and the Senate a report from the General Counsel analyzing how the authority in section 200402 and in section 200303 of title 54, United States Code, permitted the Administration to allocate funding for projects for a fiscal year pursuant to those sections, particularly the language in sections 200402(i) and 200303(c)(2), in advance of the date of enactment of such fiscal year 2021 Act.

(d)

(1) Concurrent with the annual budget submission of the President for fiscal year 2022, the Secretary of the Interior and the Secretary of Agriculture shall each submit to the Committees on Appropriations of the House of Representatives and the Senate a list of supplementary allocations for Federal land acquisition and Forest Legacy projects at the National Park Service, the U.S. Fish and Wildlife Service, the Bureau of Land Management, and the U.S. Forest Service that are in addition to the "Submission of Cost Estimates" required by section 200303(c)(1) of title 54, United States Code, that are prioritized and detailed by account, program, and project, and that total no less than half the full amount allocated to each account for that land management Agency under the allocations submitted under section 200303(c)(1) of title 54, United States Code.

(2) The Federal land acquisition and Forest Legacy projects in the "Submission of Cost Estimates" required by section 200303(c)(1) of title 54, United States Code, and on the list of supplementary allocations required by paragraph (1) shall be comprised only of projects for which a willing seller has been identified and for which an appraisal or market research has been initiated.

(3) Concurrent with the annual budget submission of the President for fiscal year 2022, the Secretary of the Interior and the Secretary of Agriculture shall each submit to the Committees on Appropriations of the House of Representatives and the Senate project data sheets in the same format and containing the same level of detailed information that is found on such sheets in the Budget Justifications annually submitted by the Department of the Interior with the President's Budget for the projects in the "Submission of Cost Estimates" required by section 200303(c)(1) of title 54, United States Code, and in the same format and containing the same level of detailed information that is found on such sheets submitted to the Committees pursuant to section 427 of division D of the Further Consolidated Appropriations Act, 2020 (Public Law 116–94) for the list of supplementary allocations required by paragraph (1), and for the projects in the "Submission of Annual List of Projects to Congress" required by section 200402(h) of title 54, United States Code.

(e) The Department of the Interior and the Department of Agriculture shall provide the Committees on Appropriations of the House of Representatives and Senate quarterly reports on the status of balances for amounts allocated pursuant to subsections (a)(1) and (b)(1) of this section, including all uncommitted, committed, and unobligated funds.

(f) Expenditures made or obligations incurred under the heading "United States Fish and Wildlife Service—Land Acquisition" and for the Appraisal and Valuation Services Office under the heading "Departmental Offices—Office of the Secretary—Departmental Operations" pursuant to the Continuing Appropriations Act, 2021 (Public Law 116–159) shall be charged to the applicable appropriation, ac-

count allocation, fund, or authorization pursuant to section 200303 of title 54, United States Code.]

TIMBER SALE REQUIREMENTS

SEC. [435] 430. No timber sale in Alaska's Region 10 shall be advertised if the indicated rate is deficit (defined as the value of the timber is not sufficient to cover all logging and stumpage costs and provide a normal profit and risk allowance under the Forest Service's appraisal process) when appraised using a residual value appraisal. The western red cedar timber from those sales which is surplus to the needs of the domestic processors in Alaska, shall be made available to domestic processors in the contiguous 48 United States at prevailing domestic prices. All additional western red cedar volume not sold to Alaska or contiguous 48 United States domestic processors may be exported to foreign markets at the election of the timber sale holder. [POLICIES RELATING TO BIOMASS ENERGY]

[SEC. 439. To support the key role that forests in the United States can play in addressing the energy needs of the United States, the Secretary of Energy, the Secretary of Agriculture, and the Administrator of the Environmental Protection Agency shall, consistent with their missions, jointly—

(1) ensure that Federal policy relating to forest bioenergy—

(A) is consistent across all Federal departments and agencies; and

(B) recognizes the full benefits of the use of forest biomass for energy, conservation, and responsible forest management; and

(2) establish clear and simple policies for the use of forest biomass as an energy solution, including policies that—

(A) reflect the carbon-neutrality of forest bioenergy and recognize biomass as a renewable energy source, provided the use of forest biomass for energy production does not cause conversion of forests to non-forest use;

(B) encourage private investment throughout the forest biomass supply chain, including in—

(i) working forests;

(ii) harvesting operations;

(iii) forest improvement operations;

(iv) forest bioenergy production;

(v) wood products manufacturing; or

(vi) paper manufacturing;

(C) encourage forest management to improve forest health; and

(D) recognize State initiatives to produce and use forest biomass.]

[SMALL REMOTE INCINERATORS]
