SBA is authorized to issue bond guarantees to surety companies for construction, service, and supply contracts or work orders, and to reimburse these sureties up to 90 percent of the losses sustained if the contractor defaults. SBA's guarantees provide an incentive for sureties to issue bonds to small contractors who could not otherwise secure them and compete in the contracting industry. It is estimated that there are sufficient funds in reserve to cover the cost of claim defaults in 2022. Therefore, no new appropriated funds are requested in the Budget.

As required by the Federal Credit Reform Act of 1990, as amended, this account records the subsidy costs associated with the direct loans obligated and loan guarantees committed in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of the business loan program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

For 2022, the Budget proposes \$171.3 million in new budget authority for the Business Loans Program account. This includes \$160.3 million in administrative expenses funding; \$5.0 million to help facilitate access to capital to support climate change resiliency and the clean energy economy; and \$6.0 million in credit subsidy for the direct Microloan Program to support a program level of \$110 million. The 2022 Budget requests no subsidy appropriation for SBA's business loan guarantee programs, the 7(a), 504 Certified Development Company (CDC), 504 Debt Refinancing, and Small Business Investment Company (SBIC) programs. The Budget supports a program level of \$30 billion in Section 7(a) loan guarantees that provide general business credit assistance, while waiving upfront fees on SBA Express loans to Veterans. The Budget also proposes a program level of \$7.5 billion for the guaranteed loan program authorized by Section 503 of the Small Business Investment Act of 1958 for long-term, fixed-rate financing and a program level of \$7.5 billion for purposes of refinancing existing commercial mortgage and equipment debt authorized by Section 502(7)(C) of the Small Business Investment Act of 1958. The 2022 Budget continues to support innovative financial instruments through the SBA's SBIC program by providing up to \$4 billion in long-term guaranteed loans to support venture capital investments in small businesses. In addition, the Budget supports a \$13 billion program level for the Secondary Market Guarantee (SMG) program, which allows SBA's fiscal agent to pool the guaranteed portion of 7(a) loans and sell the securities to investors, in turn providing liquidity to participating 7(a) program lenders.

As required by the Federal Credit Reform Act of 1990, as amended, for loans made pursuant to Section 7(b) of the Small Business Act, as amended, this account records the subsidy costs associated with the direct loans obligated in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of the disaster loan program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

Disaster loans made pursuant to Section 7(b) of the Small Business Act provide Federal assistance for non-farm, private sector disaster losses. Through the disaster assistance program, SBA helps homeowners, renters, businesses of all sizes, and non-profit organizations pay for the cost of replacing, rebuilding or repairing property damaged by disasters. The program is the only form of SBA financial assistance not limited to small businesses. The program provides subsidized loans for up to 30 years to borrowers who have incurred uninsured physical losses or economic injury as the result of a disaster. This includes Economic Injury Disaster Loans for COVID-19.

The Budget requests \$143 million in new budget authority for administrative expenses related to major disasters (pursuant to a determination under section 102(2) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act) and \$35 million for administrative expenses related

to non-major disasters and disaster mitigation. This includes \$5 million to help facilitate access to capital to support climate change resiliency and the clean energy economy,
