The National Defense Stockpile program is managed under the authority of the Strategic and Critical Materials Stockpiling Act. The purpose of the Stockpile is to decrease or preclude U.S. dependence on foreign sources for supplies of strategic and critical materials in times of national emergency.

Revenues from the sales of excess commodities are either deposited into the National Defense Stockpile Transaction Fund to finance the National Defense Stockpile program or are transferred to the Treasury for specific congressionally-mandated programs or to reduce the deficit.

The Army Working Capital Fund (AWCF) finances industrial and supply operations of the Army. The AWCF finances operating and capital costs (excluding Military Construction) through receipt of funded customer reimbursable orders from appropriated accounts in accordance with 10 U.S.C. 2208. The AWCF uses cost accounting and business management techniques to provide DOD Managers with information that can be used to monitor, control, and minimize the cost of operations.

Section 662 of the National Defense Authorization Act for 1992 and 1993, Public Law 102-190, established the Voluntary Separation Incentive (VSI) Fund to more effectively manage and account for the costs of the Voluntary Separation Incentive program. The VSI program provides annual payments to former active-duty servicemembers who voluntarily left service after serving more than six but less than 20 years. For all members who left service after December 31, 1992, the Department of Defense was required to deposit the total present value of their future VSI benefits into the VSI fund by the time authority to approve VSI benefits ended on December 31, 2001. DOD was also required to cover the unfunded benefits of former members who separated before January 1, 1993 through yearly, actuarially-determined Government contributions from the DOD military personnel appropriations. Permanent authority to make these payments is contained in section 8044 of the 1997 Defense Appropriations Act. The fund also receives interest on its investments.

Section 2350k of U.S.C. Title 10 established a trust fund for cash contributions from any nation in support of relocation of elements of the Armed Forces from or to any location within that nation. The Host Nation Support for Relocation account is financed through these cash contributions and interest accrued on the cash balances. Funds may be used to defray costs incurred in connection with the relocation for which the contribution was made.

The Commissary Surcharge Collections Trust Fund was established in 1992 as a result of the consolidation of Defense Commissaries. The fund pays commissary costs to acquire (including leases), construct, convert, expand, improve, repair, maintain, and equip the physical infrastructure of commissary stores and central processing facilities of the Defense Commissary system. Surcharge funds are also utilized for real property, environmental evaluation, and construction costs including costs for surveys, administration, overhead, planning, and design. Per 10 U.S.C. 2484 the fund may be supplemented with Commissary profit margins resulting from improved management practices and the variable pricing program. The statute (10 U.S.C. 2484) also prescribes costs which may be financed by the fund.

ADMINISTRATIVE PROVISIONS

SEC. 101. None of the funds made available in this title shall be expended for payments under a cost-plus-a-fixed-fee contract for construction, where cost estimates exceed \$25,000, to be performed within the United States, except Alaska, without the specific approval in writing of the Secretary of Defense setting forth the reasons therefor.

SEC. 102. Funds made available in this title for construction shall be available for hire of passenger motor vehicles.

SEC. 103. Funds made available in this title for construction may be used for advances to the Federal Highway Administration, Department of Transportation, for the construction of access roads as authorized by section 210 of title 23, United States Code, when projects authorized therein are certified as important to the national defense by the Secretary of Defense.

SEC. 104. None of the funds made available in this title may be used to begin construction of new bases in the United States for which specific appropriations have not been made.

SEC. 105. None of the funds made available in this title shall be used for purchase of land or land easements in excess of 100 percent of the value as determined by the Army Corps of Engineers or the Naval Facilities Engineering Command, except: (1) where there is a determination of value by a Federal court; (2) purchases negotiated by the Attorney General or the designee of the Attorney General; (3) where the estimated value is less than \$25,000; or (4) as otherwise determined by the Secretary of Defense to be in the public interest.

SEC. 106. None of the funds made available in this title shall be used to: (1) acquire land; (2) provide for site preparation; or (3) install utilities for any family housing, except housing for which funds have been made available in annual Acts making appropriations for military construction.

SEC. 107. None of the funds made available in this title for minor construction may be used to transfer or relocate any activity from one base or installation to another, without prior notification to the Committees on Appropriations of both Houses of Congress.

SEC. 108. None of the funds made available in this title may be used for the procurement of steel for any construction project or activity for which American steel producers, fabricators, and manufacturers have been denied the opportunity to compete for such steel procurement.

SEC. 109. None of the funds available to the Department of Defense for military construction or family housing during the current fiscal year may be used to pay real property taxes in any foreign nation.

SEC. 110. None of the funds made available in this title may be used to initiate a new installation overseas without prior notification to the Committees on Appropriations of both Houses of Congress.

SEC. 111. None of the funds made available in this title for military construction in the United States territories and possessions in the Pacific and on Kwajalein Atoll, or in countries bordering the Arabian Gulf, may be used to award any contract estimated by the Government to exceed \$1,000,000 to a foreign contractor: Provided, That this section shall not be applicable to contract awards for which the lowest responsive and responsible bid of a United States contractor exceeds the lowest responsive and responsible bid of a foreign contractor by greater than 20 percent: Provided further, That this section shall not apply to contract awards for military construction on Kwajalein Atoll for which the lowest responsive and responsible bid is submitted by a Marshallese contractor.

SEC. 112. Funds appropriated to the Department of Defense for construction in prior years shall be available for construction authorized for each such military department by the authorizations enacted into law during the current session of Congress.

SEC. 113. For military construction or family housing projects that are being completed with funds otherwise expired or lapsed for obligation, expired or lapsed funds may be used to pay the cost of associated supervision, inspection, overhead, engineering and design on those projects and on subsequent claims, if any.

SEC. 114. Notwithstanding any other provision of law, any funds made available to a military department or defense agency for the construction of military projects may be obligated for a military construction project or contract, or for any portion of such a project or contract, at any time before the end of the fourth fiscal year after the fiscal year for which funds for such project were made available, if the funds obligated for such project: (1) are obligated from funds available for military construction projects; and (2) do not exceed the amount appropriated for such project, plus any amount by which the cost of such project is increased pursuant to law: Provided, That funds may be obligated under this section at any time before the end of fiscal year 2024 for fiscal year 2017 and 2018 military construction projects for which project authorization has not lapsed or for which authorization is extended for fiscal year 2023 by a National Defense Authorization Act.

(INCLUDING TRANSFER OF FUNDS)

SEC. 115. Subject to 30 days prior notification, or 14 days for a notification provided in an electronic medium pursuant to sections 480 and 2883 of title 10, United States Code, to the Committees on Appropriations of both Houses of Congress, such additional amounts as may be determined by the Secretary of Defense may be transferred to: (1) the Department of Defense Family Housing Improvement Fund from amounts appropriated for construction in "Family Housing" accounts, to be merged with and to be available for the same purposes and for the same period of time as amounts appropriated directly to the Fund; or (2) the Department of Defense Military Unaccompanied Housing Improvement Fund from amounts appropriated for construction of military unaccompanied housing in "Military Construction" accounts, to be merged with and to be available for the same purposes and for the same period of time as amounts appropriated directly to the Fund: Provided, That appropriations made available to the Funds shall be available to cover the costs, as defined in section 502(5) of the Congressional Budget Act of 1974, of direct loans or loan guarantees issued by the Department of Defense pursuant to the provisions of subchapter IV of chapter 169 of title 10, United States Code, pertaining to alternative means of acquiring and improving military family housing, military unaccompanied housing, and supporting facilities.

(INCLUDING TRANSFER OF FUNDS)

SEC. 116. In addition to any other transfer authority available to the Department of Defense, amounts may be transferred from the Department of Defense Base Closure Account to the fund established by section 1013(d) of the Demonstration Cities and Metropolitan Development Act of 1966 (42 U.S.C. 3374) to pay for expenses associated with the Homeowners Assistance Program incurred under 42 U.S.C. 3374(a)(1)(A). Any amounts transferred shall be merged with and be available for the same purposes and for the same time period as the fund to which transferred.

SEC. 117. Notwithstanding any other provision of law, funds made available in this title for operation and maintenance of family housing shall be the exclusive source of funds for repair and maintenance of all family housing units, including general or flag officer quarters: Provided, That not more than \$35,000 per unit may be spent annually for the maintenance and repair of any general or flag officer quarters without 30 days prior notification, or 14 days for a notification provided in an electronic medium pursuant to sections 480 and 2883 of title 10, United States Code, to the Committees on Appropriations of both Houses of Congress, except that an after-the-fact notification shall be submitted if the limitation is exceeded solely due to costs associated with environmental remediation that could not be reasonably anticipated at the time of the budget submission.

SEC. 118. Amounts contained in the Ford Island Improvement Account established by subsection (h) of section 2814 of title 10, United States Code, are appropriated and shall be available until expended for the purposes specified in subsection (i)(1) of such section or until transferred pursuant to subsection (i)(3) of such section.

(INCLUDING TRANSFER OF FUNDS)

SEC. 119. During the 5-year period after appropriations available in this Act to the Department of Defense for military construction and family housing operation and maintenance and construction have expired for obligation, upon a determination that such appropriations will not be necessary for the liquidation of obligations or for making authorized adjustments to such appropriations for obligations incurred during the period of availability of such appropriations, unobligated balances of such appropriations may be transferred into the appropriation "Foreign Currency Fluctuations, Construction, Defense", to be merged with and to be available for the same time period and for the same purposes as the appropriation to which transferred.

(INCLUDING TRANSFER OF FUNDS)

SEC. 120. For the purposes of this Act, the term "congressional defense committees" means the Committees on Armed Services of the House of Representatives and the Senate, the Subcommittee on Military Construction and Veterans Affairs of the Committee on Appropriations of the Senate, and the Subcommittee on Military Construction and Veterans Affairs of the Committee on Appropriations of the House of Representatives.

SEC. 121. Notwithstanding any other provision of law, the Secretary concerned may waive the percentage or dollar cost limitations applicable to military construction projects or military family housing projects: Provided, That such authority to waive cost limitations may not be used with respect to a military construction project with a total authorized cost greater than \$500,000,000 or a military family housing project with a total authorized cost greater than \$500,000,000, if that waiver would increase the project cost by more than 50 percent of the total authorized cost of the project: Provided further, That "Secretary concerned" has the meaning provided for in section 101(a) of title 10, United States Code: Provided further, That the authority provided by this section shall remain available until enactment of a National Defense Authorization Act for Fiscal Year 2023.

TITLE VIII—GENERAL PROVISIONS

SEC. 8001. During the current fiscal year, provisions of law prohibiting the payment of compensation to, or employment of, any person not a citizen of the United States shall not apply to personnel of the Department of Defense: Provided, That salary increases granted to direct and indirect hire foreign national employees of the Department of Defense funded by this Act shall not be at a rate in excess of the percentage increase authorized by law for civilian employees of the Department of Defense whose pay is computed under the provisions of section 5332 of title 5, United States Code, or at a rate in excess of the percentage increase provided by the appropriate host nation to its own employees, whichever is higher: Provided further, That this section shall not apply to Department of Defense foreign service national employees serving at United States diplomatic missions whose pay is set by the Department of State under the Foreign Service Act of 1980: Provided further, That the limitations of this provision shall not apply to foreign national employees of the Department of Defense in the Republic of Turkey.

SEC. 8002. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year, unless expressly so provided herein.

(TRANSFER OF FUNDS)

SEC. 8003. Upon determination by the Secretary of Defense that such action is necessary in the national interest, the Secretary may, with the approval of the Office of Management and Budget, transfer not to exceed \$8,000,000,000 of working capital funds of the Department of Defense or funds made available in this Act to the Department of Defense for military functions (except military construction) between such appropriations or funds or any subdivision thereof, to be merged with and to be available for the same purposes, and for the same time period, as the appropriation or fund to which transferred: Provided, That the Secretary of Defense shall notify the Congress promptly of all transfers made pursuant to this authority or any other authority in this Act: Provided further, That transfers among military personnel appropriations shall not be taken into account for purposes of the limitation on the amount of funds that may be transferred under this section.

SEC. 8004. (a) Not later than 60 days after enactment of this Act, the Department of Defense shall submit a report to the congressional defense committees to establish the baseline for application of reprogramming and transfer authorities for fiscal year 2023: Provided, That the report shall include—

- (1) a table for each appropriation with a separate column to display the President's budget request, adjustments made by Congress, adjustments due to enacted rescissions, if appropriate, and the fiscal year enacted level;
- (2) a delineation in the table for each appropriation both by budget activity and program, project, and activity as detailed in the Budget Appendix; and
- (3) an identification of items of special congressional interest.

(b) Notwithstanding section 8003 of this Act, none of the funds provided in this Act shall be available for reprogramming or transfer until the report identified in subsection (a) is submitted to the congressional defense committees, unless the Secretary of Defense certifies in writing to the congressional defense committees that such reprogramming or transfer is necessary as an emergency requirement: Provided, That this subsection shall not apply to transfers from the following appropriations accounts:

- (1) "Environmental Restoration, Army";
- (2) "Environmental Restoration, Navy";
- (3) "Environmental Restoration, Air Force";
- (4) "Environmental Restoration, Defense-Wide";
- (5) "Environmental Restoration, Formerly Used Defense Sites";
- (6) "Drug Interdiction and Counter-drug Activities, Defense"; and
- (7) "Shipbuilding and Conversion, Navy: Columbia Class Submarine (AP)" and "Shipbuilding and Conversion, Navy: Columbia Class Submarine" for transfers to the National Sea-Based Deterrence Fund, pursuant to 10 U.S.C. 2218a.

(TRANSFER OF FUNDS)

SEC. 8005. During the current fiscal year, cash balances in working capital funds of the Department of Defense established pursuant to section 2208 of title 10, United States Code, may be maintained in only such amounts as are necessary at any time for cash disbursements to be made from such funds: Provided, That transfers may be made between such funds: Provided further, That transfers may be made between working capital funds and the "Foreign Currency Fluctuations, Defense" appropriation and the "Operation and Maintenance" appropriation accounts in such amounts as may be determined by the Secretary of Defense, with the approval of the Office of Management and Budget, except that such transfers may not be made unless the Secretary of Defense has notified the Congress of the proposed transfer: Provided further, That except in amounts equal to the amounts appropriated to working capital funds in this Act, no obligations may be made against a working capital fund to procure or increase the value of war reserve material inventory, unless the Secretary of Defense has notified the Congress prior to any such obligation.

SEC. 8006. Funds appropriated in title III of this Act may be used for multiyear procurement contracts for the following project: Arleigh Burke Class Guided Missile Destroyer.

SEC. 8007. Within the funds appropriated for the operation and maintenance of the Armed Forces, funds are hereby appropriated pursuant to section 401 of title 10, United States Code, for humanitarian and civic assistance costs under chapter 20 of title 10, United States Code. Such funds may also be obligated for humanitarian and civic assistance costs incidental to authorized operations and pursuant to authority granted in section 401 of title 10, United States Code, and these obligations shall be reported as required by section 401(d) of title 10, United States Code: Provided, That funds available for operation and maintenance shall be available for providing humanitarian and similar assistance by using Civic Action Teams in the Trust Territories of the Pacific Islands and freely associated states of Micronesia, pursuant to the Compact of Free Association as authorized by Public Law 99-239: Provided further, That upon a determination by the Secretary of the Army that such action is beneficial for graduate medical education programs conducted at Army medical facilities located in Hawaii, the Secretary of the Army may authorize the provision of medical services at such facilities and transportation to such facilities, on a nonreimbursable basis, for civilian patients from American Samoa, the Commonwealth of the Northern Mariana Islands, the Marshall Islands, the Federated States of Micronesia, Palau, and Guam.

SEC. 8008. (a) During the current fiscal year, the civilian personnel of the Department of Defense may not be managed solely on the basis of any constraint or limitation in terms of man years, end strength, full-time equivalent positions, or maximum number of employees.

(b) Nothing in this section shall be construed to apply to military (civilian) technicians.

SEC. 8009. None of the funds appropriated by this Act shall be available for the basic pay and allowances of any member of the Army participating as a full-time student and receiving benefits paid by the Secretary of Veterans Affairs from the Department of Defense Education Benefits Fund when time spent as a full-time student is credited toward completion of a service commitment: Provided, That this section shall not apply to those members who have reenlisted with this option prior to October 1, 1987: Provided further, That this section applies only to active components of the Army.

(TRANSFER OF FUNDS)

SEC. 8010. (a) Funds appropriated in title III of this Act for the Department of Defense Pilot Mentor-Protege Program may be transferred to any other appropriation contained in this Act solely for the purpose of implementing a Mentor-Protege Program developmental assistance agreement pursuant to section 831 of the National Defense Authorization Act for Fiscal Year 1991 (Public Law 101-510; 10 U.S.C. 2302 note), as amended, under the authority of this provision or any other transfer authority contained in this Act.

SEC. 8011. None of the funds in this Act may be available for the purchase by the Department of Defense (and its departments and agencies) of welded shipboard anchor and mooring chain 4 inches in diameter and under unless the anchor and mooring chain are manufactured in the United States from components which are substantially manufactured in the United States: Provided, That for the purpose of this section, the term "manufactured" shall include cutting, heat treating, quality control, testing of chain and welding (including the forging and shot blasting process): Provided further, That for the purpose of this section substantially all of the components of anchor and mooring chain shall be considered to be produced or manufactured in the United States if the aggregate cost of the components produced or manufactured in the United States exceeds the aggregate cost of the components produced or manufactured outside the United States: Provided further, That when adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis, the Secretary of the Service responsible for the procurement

may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that such an acquisition must be made in order to acquire capability for national security purposes.

SEC. 8012. Funds appropriated by this Act for the Defense Media Activity shall not be used for any national or international political or psychological activities.

SEC. 8013. During the current fiscal year, the Department of Defense is authorized to incur obligations of not to exceed \$350,000,000 for purposes specified in section 2350j(c) of title 10, United States Code, in anticipation of receipt of contributions, only from the Government of Kuwait, under that section: Provided, That, upon receipt, such contributions from the Government of Kuwait shall be credited to the appropriations or fund which incurred such obligations.

SEC. 8014. (a) None of the funds appropriated in this Act are available to establish a new Department of Defense (department) federally funded research and development center (FFRDC), either as a new entity, or as a separate entity administrated by an organization managing another FFRDC, or as a nonprofit membership corporation consisting of a consortium of other FFRDCs and other nonprofit entities.

(b) No member of a Board of Directors, Trustees, Overseers, Advisory Group, Special Issues Panel, Visiting Committee, or any similar entity of a defense FFRDC, and no paid consultant to any defense FFRDC, except when acting in a technical advisory capacity, may be compensated for his or her services as a member of such entity, or as a paid consultant by more than one FFRDC in a fiscal year: Provided, That a member of any such entity referred to previously in this subsection shall be allowed travel expenses and per diem as authorized under the Federal Joint Travel Regulations, when engaged in the performance of membership duties.

(c) Notwithstanding any other provision of law, none of the funds available to the department from any source during the current fiscal year may be used by a defense FFRDC, through a fee or other payment mechanism, for construction of new buildings not located on a military installation, for payment of cost sharing for projects funded by Government grants, for absorption of contract overruns, or for certain charitable contributions, not to include employee participation in community service and/or development.

SEC. 8015. None of the funds appropriated or made available in this Act shall be used to procure carbon, alloy, or armor steel plate for use in any Government-owned facility or property under the control of the Department of Defense which were not melted and rolled in the United States or Canada: Provided, That these procurement restrictions shall apply to any and all Federal Supply Class 9515, American Society of Testing and Materials (ASTM) or American Iron and Steel Institute (AISI) specifications of carbon, alloy or armor steel plate: Provided further, That the Secretary of the military department responsible for the procurement may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis and that such an acquisition must be made in order to acquire capability for national security purposes: Provided further, That these restrictions shall not apply to contracts which are in being as of the date of the enactment of this Act.

SEC. 8016. For the purposes of this Act, the term "congressional defense committees" means the Armed Services Committee of the House of Representatives, the Armed Services Committee of the Senate, the Subcommittee on Defense of the Committee on Appropriations of the Senate, and the Subcommittee on Defense of the Committee on Appropriations of the House of Representatives.

SEC. 8017. During the current fiscal year, the Department of Defense may acquire the modification, depot maintenance and repair of aircraft, vehicles and vessels as well as the production of components and other Defense-related articles, through competition between Department of Defense depot maintenance activities and private firms: Provided, That the Senior Acquisition Executive of the military department or Defense Agency concerned, with power of delegation, shall certify that successful bids include comparable estimates of all direct and indirect costs for both public and private bids.

SEC. 8018. (a)

(1) If the Secretary of Defense, after consultation with the United States Trade Representative, determines that a foreign country which is party to an agreement described in paragraph (2) has violated the terms of the agreement by discriminating against certain types of products produced in the United States that are covered by the agreement, the Secretary of Defense shall rescind the Secretary's blanket waiver of the Buy American Act with respect to such types of products produced in that foreign country.

(2) An agreement referred to in paragraph (1) is any reciprocal defense procurement memorandum of understanding, between the United States and a foreign country pursuant to which the Secretary of Defense has prospectively waived the Buy American Act for certain products in that country.

(b) For purposes of this section, the term "Buy American Act" means chapter 83 of title 41, United States Code.

SEC. 8019. During the current fiscal year, amounts contained in the Department of Defense Overseas Military Facility Investment Recovery Account shall be available until expended for the payments specified by section 2687a(b)(2) of title 10, United States Code.

SEC. 8020. (a) Notwithstanding any other provision of law, the Secretary of the Air Force may convey at no cost to the Air Force, without consideration, to Indian tribes located in the States of Nevada, Idaho, North Dakota, South Dakota, Montana, Oregon, Minnesota, and Washington relocatable military housing units located at Grand Forks Air Force Base, Malmstrom Air Force Base, Mountain Home Air Force Base, Ellsworth Air Force Base, and Minot Air Force Base that are excess to the needs of the Air Force.

(b) The Secretary of the Air Force shall convey, at no cost to the Air Force, military housing units under subsection (a) in accordance with the request for such units that are submitted to the Secretary by the Operation Walking Shield Program on behalf of Indian tribes located in the States of Nevada, Idaho, North Dakota, South Dakota, Montana, Oregon, Minnesota, and Washington. Any such conveyance shall be subject to the condition that the housing units shall be removed within a reasonable period of time, as determined by the Secretary.

(c) The Operation Walking Shield Program shall resolve any conflicts among requests of Indian tribes for housing units under subsection (a) before submitting requests to the Secretary of the Air Force under subsection (b).

(d) In this section, the term "Indian tribe" means any recognized Indian tribe included on the current list published by the Secretary of the Interior under section 104 of the Federally Recognized Indian Tribe Act of 1994 (Public Law 103-454; 108 Stat. 4792; 25 U.S.C. 5131).

SEC. 8021. During the current fiscal year, appropriations which are available to the Department of Defense for operation and maintenance may be used to purchase items having an investment item unit cost of not more than \$350,000: Provided, That, upon determination by the Secretary of Defense that such action is necessary to meet the operational requirements of a Commander of a Combatant Command engaged in contingency operations overseas, such funds may be used to purchase items having an investment item unit cost of not more than \$500,000.

SEC. 8022. None of the funds appropriated by this Act for programs of the Central Intelligence Agency shall remain available for obligation beyond the current fiscal year, except for funds appropriated for the Reserve for Contingencies, which shall remain available until September 30, 2024: Provided, That funds appropriated, transferred, or otherwise credited to the Central Intelligence Agency Central Services Working Capital Fund during this or any prior or subsequent fiscal year shall remain available until expended: Provided further, That any funds appropriated or transferred to the Central Intelligence Agency for advanced research and development acquisition, for agent operations, and for covert action programs authorized by the President under section 503 of the National Security Act of 1947 (50 U.S.C. 3093) shall remain available until September 30, 2024: Provided further, That any funds appropriated or transferred to the Central Intelligence Agency for the construction, improvement, or alteration of facilities, including leased facilities, to be used primarily by personnel of the intelligence community shall remain available until September 30, 2025.

SEC. 8023. (a) None of the funds appropriated in this Act may be expended by an entity of the Department of Defense unless the entity, in expending the funds, complies with the Buy American Act. For purposes of this subsection, the term "Buy American Act" means chapter 83 of title 41, United States Code.

(b) If the Secretary of Defense determines that a person has been convicted of intentionally affixing a label bearing a "Made in America" inscription to any product sold in or shipped to the United States that is not made in America, the Secretary shall determine, in accordance with section 2410f of title 10, United States Code, whether the person should be debarred from contracting with the Department of Defense.

(c) In the case of any equipment or products purchased with appropriations provided under this Act, it is the sense of the Congress that any entity of the Department of Defense, in expending the appropriation, purchase only American-made equipment and products, provided that American-made equipment and products are cost-competitive, quality competitive, and available in a timely fashion.

SEC. 8024. None of the funds appropriated or otherwise made available in this Act may be obligated or expended for assistance to the Democratic People's Republic of Korea unless specifically appropriated for that purpose: Provided, That this restriction shall not apply to any activities incidental to the Defense POW/MIA Accounting Agency mission to recover and identify the remains of United States Armed Forces personnel from the Democratic People's Republic of Korea.

SEC. 8025. Funds appropriated in this Act for operation and maintenance of the Military Departments, Combatant Commands and Defense Agencies shall be available for reimbursement of pay, allowances and other expenses which would otherwise be incurred against appropriations for the National Guard and Reserve when members of the National Guard and Reserve provide intelligence or counter-intelligence support to Combatant Commands, Defense Agencies and Joint Intelligence Activities, including the activities and programs included within the National Intelligence Program and the Military Intelligence Program: Provided, That nothing in this section authorizes deviation from established Reserve and National Guard personnel and training procedures.

SEC. 8026. (a) None of the funds available to the Department of Defense for any fiscal year for drug interdiction or counter-drug activities may be transferred to any other department or agency of the United States except as specifically provided in an appropriations law.

(b) None of the funds available to the Central Intelligence Agency for any fiscal year for drug interdiction or counter-drug activities may be transferred to any other department or agency of the United States except as specifically provided in an appropriations law.

SEC. 8027. None of the funds appropriated by this Act may be used for the procurement of ball and roller bearings other than those produced by a domestic source and of domestic origin: Provided, That the Secretary of the military department responsible for such procurement may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate, that adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis and that such an acquisition must be made in order to acquire capability for national security purposes: Provided further, That this restriction shall not apply to the purchase of "commercial items", as defined by section 103 of title 41, United States Code, except that the restriction shall apply to ball or roller bearings purchased as end items.

SEC. 8028. None of the funds in this Act may be used to purchase any supercomputer which is not manufactured in the United States, unless the Secretary of Defense certifies to the congressional defense committees that such an acquisition must be made in order to acquire capability for national security purposes that is not available from United States manufacturers.

SEC. 8029. Notwithstanding any other provision in this Act, the Small Business Innovation Research program and the Small Business Technology Transfer program set-asides shall be taken proportionally from all programs, projects, or activities to the extent they contribute to the extramural budget. The Secretary of each military department, the Director of each Defense Agency, and the head of each other relevant component of the Department of Defense shall submit to the congressional defense committees, concurrent with submission of the budget justification documents to Congress pursuant to section 1105 of title 31, United States Code, a report with a detailed accounting of the Small Business Innovation Research program and the Small Business Technology Transfer program set-asides taken from programs, projects, or activities within such department, agency, or component during the most recently completed fiscal year.

SEC. 8030. None of the funds available to the Department of Defense under this Act shall be obligated or expended to pay a contractor under a contract with the Department of Defense for costs of any amount paid by the contractor to an employee when—

(1) such costs are for a bonus or otherwise in excess of the normal salary paid by the contractor to the employee; and

(2) such bonus is part of restructuring costs associated with a business combination.

(INCLUDING TRANSFER OF FUNDS)

SEC. 8031. During the current fiscal year, no more than \$30,000,000 of appropriations made in this Act under the heading "Operation and Maintenance, Defense-Wide" may be transferred to appropriations available for the pay of military personnel, to be merged with, and to be available for the same time period as the appropriations to which transferred, to be used in support of such personnel in connection with support and services for eligible organizations and activities outside the Department of Defense pursuant to section 2012 of title 10, United States Code.

SEC. 8032. During the current fiscal year, in the case of an appropriation account of the Department of Defense for which the period of availability for obligation has expired or which has closed under the provisions of section 1552 of title 31, United States Code, and which has a negative unliquidated or unexpended balance, an obligation or an adjustment of an obligation may be charged to any current appropriation account for the same purpose as the expired or closed account if—

(1) the obligation would have been properly chargeable (except as to amount) to the expired or closed account before the end of the period of availability or closing of that account;

(2) the obligation is not otherwise properly chargeable to any current appropriation account of the Department of Defense; and

(3) in the case of an expired account, the obligation is not chargeable to a current appropriation of the Department of Defense under the provisions of section 1405(b)(8) of the National Defense Authorization Act for Fiscal Year 1991, Public Law 101–510, as amended (31 U.S.C. 1551 note): Provided, That in the case of an expired account, if subsequent review or investigation discloses that there was not in fact a negative unliquidated or unexpended balance in the account, any charge to a current account under the authority of this section shall be reversed and recorded against the expired account: Provided further, That the total amount charged to a current appropriation under this section may not exceed an amount equal to 1 percent of the total appropriation for that account.

SEC. 8033. (a) Notwithstanding any other provision of law, the Chief of the National Guard Bureau may permit the use of equipment of the National Guard Distance Learning Project by any person or entity on a space-available, reimbursable basis. The Chief of the National Guard Bureau shall establish the amount of reimbursement for such use on a case-by-case basis.

(b) Amounts collected under subsection (a) shall be credited to funds available for the National Guard Distance Learning Project and be available to defray the costs associated with the use of equipment of the project under that subsection. Such funds shall be available for such purposes without fiscal year limitation.

SEC. 8034. None of the funds appropriated in title IV of this Act may be used to procure end-items for delivery to military forces for operational training, operational use or inventory requirements: Provided, That this restriction does not apply to end-items used in development, prototyping, and test activities preceding and leading to acceptance for operational use: Provided further, That this restriction does not apply to programs funded within the National Intelligence Program: Provided further, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that it is in the national security interest to do so.

SEC. 8035. (a) The Secretary of Defense may, on a case-by-case basis, waive with respect to a foreign country each limitation on the procurement of defense items from foreign sources provided in law if the Secretary determines that the application of the limitation with respect to that country would invalidate cooperative programs entered into between the Department of Defense and the foreign country, or would invalidate reciprocal trade agreements for the procurement of defense items entered into under section 2531 of title 10, United States Code, and the country does not discriminate against the same or similar defense items produced in the United States for that country.

(b) Subsection (a) applies with respect to—

(1) contracts and subcontracts entered into on or after the date of the enactment of this Act; and

(2) options for the procurement of items that are exercised after such date under contracts that are entered into before such date if the option prices are adjusted for any reason other than the application of a waiver granted under subsection (a).

(c) Subsection (a) does not apply to a limitation regarding construction of public vessels, ball and roller bearings, food, and clothing or textile materials as defined by section XI (chapters 50–65) of the Harmonized Tariff Schedule of the United States and products classified under headings 4010, 4202, 4203, 6401 through 6406, 6505, 7019, 7218 through 7229, 7304.41 through 7304.49, 7306.40, 7502 through 7508, 8105, 8108, 8109, 8211, 8215, and 9404.

SEC. 8036. Notwithstanding any other provision of law, funds appropriated in this Act under the heading "Research, Development, Test and Evaluation, Defense-Wide" for any new start advanced concept technology demonstration project or joint capability demonstration project may only be obligated 45 days after a report, including a description of the project, the planned acquisition and transition strategy and its estimated annual and total cost, has been provided in writing to the congressional defense committees: Provided, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying to the congressional defense committees that it is in the national interest to do so.

SEC. 8037. Notwithstanding section 12310(b) of title 10, United States Code, a service member who is a member of the National Guard serving on full-time National Guard duty under section 502(f) of title 32, United States Code, may perform duties in support of the ground-based elements of the National Ballistic Missile Defense System.

SEC. 8038. None of the funds provided in this Act may be used to transfer to any nongovernmental entity ammunition held by the Department of Defense that has a center-fire cartridge and a United States military nomenclature designation of "armor penetrator", "armor piercing (AP)", "armor piercing incendiary (API)", or "armor-piercing incendiary tracer (API-T)", except to an entity performing demilitarization

services for the Department of Defense under a contract that requires the entity to demonstrate to the satisfaction of the Department of Defense that armor piercing projectiles are either: (1) rendered incapable of reuse by the demilitarization process; or (2) used to manufacture ammunition pursuant to a contract with the Department of Defense or the manufacture of ammunition for export pursuant to a License for Permanent Export of Unclassified Military Articles issued by the Department of State.

SEC. 8039. Notwithstanding any other provision of law, the Chief of the National Guard Bureau, or his designee, may waive payment of all or part of the consideration that otherwise would be required under section 2667 of title 10, United States Code, in the case of a lease of personal property for a period not in excess of 1 year to any organization specified in section 508(d) of title 32, United States Code, or any other youth, social, or fraternal nonprofit organization as may be approved by the Chief of the National Guard Bureau, or his designee, on a case-by-case basis.

(INCLUDING TRANSFER OF FUNDS)

SEC. 8040. Of the amounts appropriated in this Act under the heading "Operation and Maintenance, Army", \$158,967,374 shall remain available until expended: Provided, That, notwithstanding any other provision of law, the Secretary of Defense is authorized to transfer such funds to other activities of the Federal Government: Provided further, That the Secretary of Defense is authorized to enter into and carry out contracts for the acquisition of real property, construction, personal services, and operations related to projects carrying out the purposes of this section: Provided further, That contracts entered into under the authority of this section may provide for such indemnification as the Secretary determines to be necessary: Provided further, That projects authorized by this section shall comply with applicable Federal, State, and local law to the maximum extent consistent with the national security, as determined by the Secretary of Defense.

(INCLUDING TRANSFER OF FUNDS)

SEC. 8041. Of the amounts appropriated in this Act under the headings "Procurement, Defense-Wide" and "Research, Development, Test and Evaluation, Defense-Wide", \$500,000,000 shall be for the Israeli Cooperative Programs: Provided, That of this amount, \$80,000,000 shall be for the Secretary of Defense to provide to the Government of Israel for the procurement of the Iron Dome defense system to counter short-range rocket threats, subject to the U.S.-Israel Iron Dome Procurement Agreement, as amended; \$127,000,000 shall be for the Short Range Ballistic Missile Defense (SRBMD) program, including cruise missile defense research and development under the SRBMD program, of which \$40,000,000 shall be for co-production activities of SRBMD systems in the United States and in Israel to meet Israel's defense requirements consistent with each nation's laws, regulations, and procedures, subject to the U.S.-Israeli co-production agreement for SRBMD, as amended; \$80,000,000 shall be for an upper-tier component to the Israeli Missile Defense Architecture, all of which shall be for co-production activities of Arrow 3 Upper Tier systems in the United States and in Israel to meet Israel's defense requirements consistent with each nation's laws, regulations, and procedures, subject to the U.S.-Israeli co-production agreement for Arrow 3 Upper Tier, as amended; and \$173,000,000 shall be for the Arrow System Improvement Program including development of a long range, ground and airborne, detection suite: Provided further, That the transfer authority provided under this provision is in addition to any other transfer authority contained in this Act.

SEC. 8043. Funds appropriated by this Act, or made available by the transfer of funds in this Act, for intelligence activities are deemed to be specifically authorized by the Congress for purposes of section 504 of the National Security Act of 1947 (50 U.S.C. 3094) during fiscal year 2023 until the enactment of the Intelligence Authorization Act for Fiscal Year 2023.

SEC. 8044. The Secretary of Defense may use up to \$650,000,000 of the amounts appropriated or otherwise made available in this Act to the Department of Defense for the rapid acquisition and deployment of supplies and associated support services pursuant to section 806 of the Bob Stump National Defense Authorization Act for Fiscal Year 2003 (Public Law 107–314; 10 U.S.C. 2302 note), but only for the purposes specified in clauses (i), (ii), (iii), and (iv) of subsection (c)(3)(B) of such section and subject to the applicable limits specified in clauses (i), (ii), and (iii) of such subsection and, in the case of clause (iv) of such subsection, subject to a limit of \$50,000,000: Provided, That the Secretary of Defense shall notify the congressional defense committees promptly of all uses of this authority.

SEC. 8045. None of the funds provided in this Act shall be available for integration of foreign intelligence information unless the information has been lawfully collected and processed during the conduct of authorized foreign intelligence activities: Provided, That information pertaining to United States persons shall only be handled in accordance with protections provided in the Fourth Amendment of the United States Constitution as implemented through Executive Order No. 12333.

SEC. 8046. None of the funds appropriated by this Act for programs of the Office of the Director of National Intelligence shall remain available for obligation beyond the current fiscal year, except for funds appropriated for research and technology, which shall remain available until September 30, 2024.

SEC. 8047. For purposes of section 1553(b) of title 31, United States Code, any subdivision of appropriations made in this Act under the heading "Shipbuilding and Conversion, Navy" shall be considered to be for the same purpose as any subdivision under the heading "Shipbuilding and Conversion, Navy" appropriations in any prior fiscal year, and the 1 percent limitation shall apply to the total amount of the appropriation.

SEC. 8048. None of the funds made available by this Act for excess defense articles, assistance under section 333 of title 10, United States Code, or peacekeeping operations for the countries designated annually to be in violation of the standards of the Child Soldiers Prevention Act of 2008 (Public Law 110–457; 22 U.S.C. 2370c–1) may be used to support any military training or operation that includes child soldiers, as defined by the Child Soldiers Prevention Act of 2008, unless such assistance is otherwise permitted under section 404 of the Child Soldiers Prevention Act of 2008.

(INCLUDING TRANSFER OF FUNDS)

SEC. 8049. During the current fiscal year, not to exceed \$11,000,000 from each of the appropriations made in title II of this Act for "Operation and Maintenance, Army", "Operation and Maintenance, Navy", and "Operation and Maintenance, Air Force" may be transferred by the military department concerned to its central fund established for Fisher Houses and Suites pursuant to section 2493(d) of title 10, United States Code.

SEC. 8050. (a) None of the funds appropriated or otherwise made available by this Act may be expended for any Federal contract for an amount in excess of \$1,000,000, unless the contractor agrees not to—

- (1) enter into any agreement with any of its employees or independent contractors that requires, as a condition of employment, that the employee or independent contractor agree to resolve through arbitration any claim under title VII of the Civil Rights Act of 1964 or any tort related to or arising out of sexual assault or harassment, including assault and battery, intentional infliction of emotional distress, false imprisonment, or negligent hiring, supervision, or retention; or
- (2) take any action to enforce any provision of an existing agreement with an employee or independent contractor that mandates that the employee or independent contractor resolve through arbitration any claim under title VII of the Civil Rights Act of 1964 or any tort related to or arising out of sexual assault or harassment, including assault and battery, intentional infliction of emotional distress, false imprisonment, or negligent hiring, supervision, or retention.

(b) None of the funds appropriated or otherwise made available by this Act may be expended for any Federal contract unless the contractor certifies that it requires each covered subcontractor to agree not to enter into, and not to take any action to enforce any provision of, any agreement as described in paragraphs (1) and (2) of subsection (a), with respect to any employee or independent contractor performing work related to such subcontract. For purposes of this subsection, a "covered subcontractor" is an entity that has a subcontract in excess of \$1,000,000 on a contract subject to subsection (a).

(c) The prohibitions in this section do not apply with respect to a contractor's or subcontractor's agreements with employees or independent contractors that may not be enforced in a court of the United States.

(d) The Secretary of Defense may waive the application of subsection (a) or (b) to a particular contractor or subcontractor for the purposes of a particular contract or subcontract if the Secretary or the Deputy Secretary personally determines that the waiver is necessary to avoid harm to national security interests of the United States, and that the term of the contract or subcontract is not longer than necessary to avoid such harm. The determination shall set forth with specificity the grounds for the waiver and for the contract or subcontract term selected, and shall state any alternatives considered in lieu of a waiver and the reasons each such alternative would not avoid harm to national security interests of the United States. The Secretary of Defense shall transmit to Congress, and simultaneously make public, any determination under this subsection not less than 15 business days before the contract or subcontract addressed in the determination may be awarded.

(INCLUDING TRANSFER OF FUNDS)

SEC. 8051. From within the funds appropriated for operation and maintenance for the Defense Health Program in this Act, up to \$168,000,000, shall be available for transfer to the Joint Department of Defense-Department of Veterans Affairs Medical Facility Demonstration Fund in accordance with the provisions of section 1704 of the National Defense Authorization Act for Fiscal Year 2010, Public Law 111–84: Provided, That for purposes of section 1704(b), the facility operations funded are operations of the integrated Captain James A. Lovell Federal Health Care Center, consisting of the North Chicago Veterans Affairs Medical Center, the Navy Ambulatory Care Center, and supporting facilities designated as a combined Federal medical facility as described by section 706 of Public Law 110–417: Provided further, That additional funds may be transferred from funds appropriated for operation and maintenance for the Defense Health Program to the Joint Department of Defense-Department of Veterans Affairs Medical Facility Demonstration Fund upon written notification by the Secretary of Defense to the Committees on Appropriations of the House of Representatives and the Senate.

SEC. 8052. Appropriations available to the Department of Defense may be used for the purchase of heavy and light armored vehicles for the physical security of personnel or for force protection purposes up to a limit of \$450,000 per vehicle, notwithstanding price or other limitations applicable to the purchase of passenger carrying vehicles.

(INCLUDING TRANSFER OF FUNDS)

SEC. 8053. Upon a determination by the Director of National Intelligence that such action is necessary and in the national interest, the Director may, with the approval of the Office of Management and Budget, transfer not to exceed \$1,500,000,000 of the funds made available in this Act for the National Intelligence Program.

SEC. 8054. None of the funds made available in this Act may be used for the purchase or manufacture of a flag of the United States unless such flags are treated as covered items under section 2533a(b) of title 10, United States Code.

SEC. 8055. Of the amounts appropriated in this Act for "Shipbuilding and Conversion, Navy", \$138,000,000, to remain available for obligation until September 30, 2027, may be used for the purchase of two used sealift vessels for the National Defense Reserve Fleet, established under section 11 of the Merchant Ship Sales Act of 1946 (46 U.S.C. 57100): Provided, That such amounts are available for reimbursements to the Ready Reserve Force, Maritime Administration account of the United States Department of Transportation for programs, projects, activities, and expenses related to the National Defense Reserve Fleet: Provided further, That notwithstanding 10 U.S.C. 2218 (National Defense Sealift Fund), none of these funds shall be transferred to the National Defense Sealift Fund for execution.

SEC. 8056. None of the funds made available by this Act may be used by the National Security Agency to—

- (1) conduct an acquisition pursuant to section 702 of the Foreign Intelligence Surveillance Act of 1978 for the purpose of targeting a United States person; or
- (2) acquire, monitor, or store the contents (as such term is defined in section 2510(8) of title 18, United States Code) of any electronic communication of a United States person from a provider of electronic communication services to the public pursuant to section 501 of the Foreign Intelligence Surveillance Act of 1978.

SEC. 8057. Of the amounts appropriated in this Act for "Operation and Maintenance, Navy", \$589,325,000, to remain available until expended, may be used for any purposes related to the National Defense Reserve Fleet established under section 11 of the Merchant Ship Sales Act of 1946 (46 U.S.C. 57100): Provided, That such amounts are available for reimbursements to the Ready Reserve Force, Maritime Administration account of the United States Department of Transportation for pro-

grams, projects, activities, and expenses related to the National Defense Reserve Fleet.

SEC. 8058. (a) None of the funds provided in this Act for the TAO Fleet Oiler program shall be used to award a new contract that provides for the acquisition of the following components unless those components are manufactured in the United States: Auxiliary equipment (including pumps) for shipboard services; propulsion equipment (including engines, reduction gears, and propellers); shipboard cranes; and spreaders for shipboard cranes.

(b) None of the funds provided in this Act for the FFG(X) Frigate program shall be used to award a new contract that provides for the acquisition of the following components unless those components are manufactured in the United States: Air circuit breakers; gyrocompasses; electronic navigation chart systems; steering controls; pumps; propulsion and machinery control systems; totally enclosed lifeboats; auxiliary equipment pumps; shipboard cranes; auxiliary chill water systems; and propulsion propellers: Provided, That the Secretary of the Navy shall incorporate United States manufactured propulsion engines and propulsion reduction gears into the FFG(X) Frigate program beginning not later than with the eleventh ship of the program.

SEC. 8059. None of the funds provided for, or otherwise made available, in this or any other Act, may be obligated or expended by the Secretary of Defense to provide motorized vehicles, aviation platforms, munitions other than small arms and munitions appropriate for customary ceremonial honors, operational military units, or operational military platforms if the Secretary determines that providing such units, platforms, or equipment would undermine the readiness of such units, platforms, or equipment.

SEC. 8060. During fiscal year 2023, the monetary limitation imposed by section 2208(l)(3) of title 10, United States Code may be exceeded by up to \$1,000,000,000.

SEC. 8061. (a) Amounts appropriated under title IV of this Act, as detailed in budget activity eight of the tables in the explanatory statement regarding this Act, may be used for expenses for the agile research, development, test and evaluation, procurement, production, modification, and operation and maintenance of digital Software and Digital Technology Pilot programs designated by the Secretary of Defense or in the explanatory statement accompanying this Act.

(b) Software and Digital Technology Pilot Program requirements eligible for funding under this provision include software, electronic tools, systems, applications, resources, acquisition of services, business process re-engineering activities, functional requirements development, technical evaluations, and other activities in direct support of acquiring, developing, deploying, sustaining, enhancing, and modernizing Software and Digital Technology Pilot Programs.

(c) Additional Software and Digital Technology Pilot Programs may be initiated with prior notification to the congressional defense committees.

(d) Removal from Pilot Programs. A system project participating in a Software and Digital Technology Pilot Program may be removed from such Program if the Project has not been successful in meeting criteria established for such Pilot Program by the Secretary of Defense.

SEC. 8062. Supervision and administration costs and costs for design during construction associated with a construction project funded with appropriations available for operation and maintenance, or the "Counter-ISIS Train and Equip Fund" provided in this Act and executed in direct support of military and stability operations to counter the Islamic State of Iraq and Syria, may be obligated at the time a construction contract is awarded: Provided, That, for the purpose of this section, supervision and administration costs and costs for design during construction include all in-house Government costs.

SEC. 8063. From funds made available in title II of this Act, the Secretary of Defense may purchase for use by military and civilian employees of the Department of Defense in the United States Central Command area of responsibility: (1) passenger motor vehicles up to a limit of \$75,000 per vehicle; and (2) heavy and light armored vehicles for the physical security of personnel or for force protection purposes up to a limit of \$450,000 per vehicle, notwithstanding price or other limitations applicable to the purchase of passenger carrying vehicles.

SEC. 8064. Funds available to the Department of Defense for operation and maintenance may be used, notwithstanding any other provision of law, to provide supplies, services, transportation, including airlift and sealift, and other logistical support to coalition forces supporting military and stability operations to counter the Islamic State of Iraq and Syria: Provided, That the Secretary of Defense shall provide quarterly reports to the congressional defense committees regarding support provided under this section.

SEC. 8065. Of the amounts appropriated in this Act under the heading "Operation and Maintenance, Defense-Wide", for the Defense Security Cooperation Agency, \$300,000,000, to remain available until September 30, 2024, shall be for the Ukraine Security Assistance Initiative: Provided, That such funds shall be available to the Secretary of Defense, with the concurrence of the Secretary of State, to provide as-

sistance, including training; equipment; lethal assistance; logistics support, supplies and services; salaries and stipends; sustainment; and intelligence support to the military and national security forces of Ukraine, and to other forces or groups recognized by and under the authority of the Government of Ukraine, including governmental entities within Ukraine, engaged in resisting Russian aggression against Ukraine, for replacement of any weapons or articles provided to the Government of Ukraine from the inventory of the United States, and to recover or dispose of equipment procured using funds made available in this section in this or prior Acts: Provided further, That such funds may be obligated and expended notwithstanding section 1250 of the National Defense Authorization Act for Fiscal Year 2016 (Public Law 114—92): Provided further, That the Secretary of Defense shall, not less than 15 days prior to obligating funds made available in this section (or if the Secretary of Defense determines, on a case-by-case basis, that extraordinary circumstances exist that impact the national security of the United States, as far in advance as is practicable) notify the congressional defense committees in writing of the details of any such obligation: Provided further, That the Secretary of Defense shall, not more than 60 days after such notification is made, inform such committees if such funds have not been obligated and the reasons therefor: Provided further, That the Secretary of Defense shall consult with such committees in advance of the provision of support provided to other forces or groups recognized by and under the authority of the Government of Ukraine: Provided further, That the United States may accept equipment procured using funds made available in this section in this or prior Acts transferred to the security forces of Ukraine and returned by such forces to the United States: Provided further, That equipment procured using funds made available in this section in this or prior Acts, and not yet transferred to the military or national security forces of Ukraine or to other assisted entities, or returned by such forces or other assisted entities to the United States, may be treated as stocks of the Department of Defense upon written notification to the congressional defense committees: Provided further, That the Secretary of Defense shall provide quarterly reports to the congressional defense committees on the use and status of funds made available in this section.

SEC. 8066. Of the amounts appropriated under the heading "Operation and Maintenance, Defense-Wide", for the Defense Security Cooperation Agency, \$1,392,920,000, to remain available until September 30, 2024, shall be available for International Security Cooperation Programs and other programs to provide support and assistance to foreign security forces or other groups or individuals to conduct, support or facilitate counterterrorism, crisis response, or building partner capacity programs: Provided, That the Secretary of Defense shall, not less than 15 days prior to obligating funds made available in this section, notify the congressional defense committees in writing of the details of any planned obligation: Provided further, That the Secretary of Defense shall provide quarterly reports to the Committees on Appropriations of the House of Representatives and the Senate on the use and status of funds made available in this section.

SEC. 8067. Of the amounts appropriated under the heading "Operation and Maintenance, Defense-Wide", for the Defense Security Cooperation Agency, \$30,000,000, to remain available until September 30, 2024, shall be for payments to reimburse key cooperating nations for logistical, military, and other support, including access, provided to United States military and stability operations to counter the Islamic State of Iraq and Syria: Provided, That such reimbursement payments may be made in such amounts as the Secretary of Defense, with the concurrence of the Secretary of State, and in consultation with the Director of the Office of Management and Budget, may determine, based on documentation determined by the Secretary of Defense to adequately account for the support provided, and such determination is final and conclusive upon the accounting officers of the United States, and 15 days following written notification to the appropriate congressional committees: Provided further, That these funds may be used for the purpose of providing specialized training and procuring supplies and specialized equipment and providing such supplies and loaning such equipment on a non-reimbursable basis to coalition forces supporting United States military and stability operations to counter the Islamic State of Iraq and Syria, and 15 days following written notification to the appropriate congressional committees: Provided further, That the Secretary of Defense shall provide quarterly reports to the Committees on Appropriations of the House of Representatives and the Senate on the use and status of funds made available in this section.

SEC. 8068. Of the amounts appropriated under the heading "Operation and Maintenance, Defense-Wide", for the Defense Security Cooperation Agency, \$520,000,000, to remain available until September 30, 2024, shall be available to reimburse Jordan, Lebanon, Egypt, Tunisia, and Oman under section 1226 of the National Defense Authorization Act for Fiscal Year 2016 (22 U.S.C. 2151 note), for enhanced border security: Provided, That the Secretary of Defense shall, not less than 15 days prior to obligating funds made available in this section, notify the congressional defense committees in writing of the details of any planned obligation

and the nature of the expenses incurred: *Provided further, That the Secretary of Defense shall provide quarterly reports to the Committees on Appropriations of the House of Representatives and the Senate on the use and status of funds made available in this section.*

SEC. 8069. *Equipment procured using funds provided in prior Acts under the heading "Counterterrorism Partnerships Fund" for the program authorized by section 1209 of the Carl Levin and Howard P. "Buck" McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113–291), or under the heading "Iraq Train and Equip Fund" for the program authorized by section 1236 of such Act, and not yet transferred to authorized recipients may be transferred to foreign security forces, irregular forces, groups, or individuals, authorized to receive assistance using amounts provided under the heading "Counter-ISIS Train and Equip Fund" in this Act: Provided, That such equipment may be transferred 15 days following written notification to the congressional defense committees.*

SEC. 8070. *Upon determination by the Secretary of Defense that such action is necessary to address an emergent need related to, or to improve the effectiveness or efficiency of, matters over which the commander of the cyber command has responsibilities under section 167b(d) of title 10, United States Code, the Secretary may, with the approval of the Office of Management and Budget, transfer amounts made available for cyber activities in appropriations in this Act for Operation and Maintenance, Procurement, and Research, Development, Test and Evaluation: Provided, That transfers pursuant to this section shall be made in accordance with section 8003 of this Act, as applicable, except that transfers among appropriations pursuant to this section shall not be taken into account for purposes of the limitation on the amount of funds that may be transferred under section 8003.*

SEC. 8071. *Notwithstanding any provision of this or any prior Act, amounts appropriated for the Space Force in this Act and any prior Acts shall be available for the establishment of field operating agencies for the Space Force.*

(INCLUDING TRANSFER OF FUNDS)

SEC. 8072. *The Secretary of Defense may transfer funds from any available Department of the Navy appropriation to any available Department of the Navy ship construction appropriation for the purpose of liquidating necessary changes resulting from inflation, market fluctuations, or rate adjustments for any ship construction program appropriated in law: Provided, That the Secretary may transfer not to exceed \$100,000,000 under the authority provided by this section: Provided further, That the Secretary may not transfer any funds until 30 days after the proposed transfer has been reported to the Committees on Appropriations of the House of Representatives and the Senate, unless a response from the Committees is received sooner: Provided further, That any funds transferred pursuant to this section shall retain the same period of availability as when originally appropriated: Provided further, That the transfer authority provided by this section is in addition to any other transfer authority contained elsewhere in this Act.*

SEC. 8073. *During the current fiscal year, the Secretary of Defense and Secretaries of the military departments may expend amounts made available for operation and maintenance for any purpose the Secretary concerned determines to be proper with regard to the response to the disruption of the water supply near the Red Hill Bulk Fuel Storage Facility, on Oahu, Hawaii. Such a determination is final and conclusive upon the accounting officers of the United States.*

SEC. 8074. *Subject to the availability of appropriations and notwithstanding section 2306b of title 10, United States Code, the Secretary of the Navy may enter into a contract or contracts for up to 25 Ship to Shore Connector class crafts and associated material for the Ship to Shore Connector program.*

GENERAL PROVISION—THIS TITLE

【SEC. 1301. Notwithstanding any other provision of law, funds provided by this title shall only be for the purposes specified, and shall not be subject to any transfer authority provided by law.】 (*Disaster Relief Supplemental Appropriations Act, 2022.*)

【SEC. 2201. Not later than 30 days after the date of enactment of this Act, and every 30 days thereafter through fiscal year 2022, the Secretary of Defense shall provide a written report to the congressional defense committees describing the execution of funds provided in this title, including the amounts obligated and expended, in total and since the previous report; the nature of the costs incurred or services provided by such funds; and any reimbursements or funds transferred by another Federal agency to the Department of Defense which relates to the purpose of the funds provided by this title.】

【SEC. 2202. Notwithstanding any other provision of law, funds provided by this title shall only be for the purposes specified, and shall not be subject to any transfer authority provided by law.】

【SEC. 2203. The Inspector General of the Department of Defense shall carry out reviews of the activities of the Department of Defense to transport and care for Afghans, including but not limited to, the humane treatment and living conditions of Afghans at any Department of Defense facility; the use of funds by the Department of Defense to support such persons, including the monitoring of potential waste, fraud, or abuse of such funds; and any related issues that the Inspector General may direct: *Provided*, That the Inspector General shall provide to the congressional defense committees periodic updates on such oversight efforts and a written report to such committees not later than 60 days after the date of enactment of this Act.】

【SEC. 2204. Title IX of division C of Public Law 116–260 is amended under the heading "Afghanistan Security Forces Fund" by inserting the following before the penultimate proviso: "*Provided further*, That the Secretary of Defense may obligate and expend funds made available under this heading for costs associated with the termination of contracts previously funded with amounts provided under this heading in prior Acts, and to pay valid invoices in satisfaction of liabilities under such contracts for which the applicable prior appropriation cannot be identified:".】

【SEC. 2205. Not later than 90 days after the date of enactment of this Act, the Secretary of Defense, in consultation with the Service Secretaries and the Commander of United States Central Command, shall submit to the congressional defense committees a report regarding the disposition of United States property, equipment, and supplies, including property, equipment, and supplies provided to the Afghanistan National Security Forces, which were destroyed, taken out of Afghanistan, or remain in Afghanistan in connection with the United States military withdrawal: *Provided*, That such report shall include information on the future plans of the Department of Defense regarding any such items.】 (*Afghanistan Supplemental Appropriations Act, 2022.*)

【SEC. 1101. Not later than 30 days after the date of enactment of this Act, and every 30 days thereafter through fiscal year 2022, the Secretary of Defense shall provide a written report to the congressional defense committees describing the execution of funds provided in this title, including the amounts obligated and expended, in total and since the previous report; the nature of the costs incurred or services provided by such funds; and any reimbursements or funds transferred by another Federal agency to the Department of Defense which relates to the purpose of the funds provided by this title.】

【SEC. 1102. Notwithstanding any other provision of law, funds provided by this title shall only be for the purposes specified, and shall not be subject to any transfer authority provided by law.】 (*Additional Afghanistan Supplemental Appropriations Act, 2022.*)

【SEC. 1501. Each amount appropriated or made available by this Act is in addition to amounts otherwise appropriated for the fiscal year involved.】

【SEC. 1502. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.】

【SEC. 1503. Unless otherwise provided for by this Act, the additional amounts appropriated by this Act to appropriations accounts shall be available under the authorities and conditions applicable to such appropriations accounts for fiscal year 2022.】

【SEC. 1504. Each amount provided by this division is designated by the Congress as being for an emergency requirement pursuant to section 4001(a)(1) and section 4001(b) of S. Con. Res. 14 (117th Congress), the concurrent resolution on the budget for fiscal year 2022.】

【SEC. 1505. Not later than January 15, 2022, the Director of the Office of Management and Budget shall provide to the Committees on Appropriations of the House of Representatives and the Senate a written report on Operation Allies Welcome: *Provided*, That such report shall describe the strategy and transition plan leading to the conclusion of Operation Allies Welcome; a plan, including timeline, for relocating all Afghans currently residing at Department of Defense facilities to longer-term housing; the activities and responsibilities assigned to each Federal agency involved in such strategy and transition plan; and an estimate of the costs from each such agency for carrying out such strategy and transition plan.】 (*Additional Afghanistan Supplemental Appropriations Act, 2022.*)

Grants to local educational agencies.—Funds are allocated via formula for programs that provide academic support to help students in high-poverty schools meet challenging State standards. States assess annually all students in certain grades in at least English language arts, mathematics, and science; develop systems to differentiate among schools on the basis of performance on those assessments and other indicators; provide parents with information on the performance of their child's school; and ensure the development and implementation of support and improvement plans for the lowest-performing schools. The 2023 request would support activities to help school systems address inequities in school funding, including voluntary State school funding equity commissions and voluntary local educational agency equity reviews.

State agency migrant program.—Funds support formula grants to States for educational services to children of migratory farmworkers and fishers, with resources and services for children who have moved within the past 36 months.

State agency neglected, delinquent and at-risk children and youth education program.—Funds support formula grants to States for educational services to neglected or delinquent children and youth in State-run institutions, attending community day programs, and in correctional facilities. The 2023 request would support competitive grants to create and implement innovative strategies for improving the education of foster children and youth.

Special programs for migrant students.—Funds support grants to institutions of higher education and nonprofit organizations that assist migrant

students in earning a high school equivalency certificate or in completing their first year of college.

Comprehensive literacy development grants.—Funds support continuation grants to States to provide targeted, evidence-based literacy interventions in high-need schools. States must award subgrants to local educational agencies (LEAs) to support literacy interventions for children from birth through kindergarten entry and for students from kindergarten through grade 12.

Innovative approaches to literacy.—Funds support competitive grants to LEAs, consortia of LEAs, the Bureau of Indian Education, or national nonprofit organizations, to promote literacy programs that support the development of literacy skills in low-income communities. Grantees would develop and implement school library programs and provide high-quality, developmentally appropriate, and up-to-date reading material to children and adolescents in low-income communities.

Grants to local educational agencies.—The 2023 request includes \$16 billion in mandatory funding that, when combined with \$20.5 billion in discretionary funding, provides \$36.5 billion for the program.

IMPACT AID

For carrying out programs of financial assistance to federally affected schools authorized by title VII of the ESEA, \$1,541,112,000, of which \$1,394,242,000 shall be for basic support payments under section 7003(b), \$48,316,000 shall be for payments for children with disabilities under section 7003(d), \$17,406,000, to remain available through September 30, 2024, shall be for construction under section

7007(b), \$76,313,000 shall be for Federal property payments under section 7002, and \$4,835,000, to remain available until expended, shall be for facilities maintenance under section 7008: Provided, That for purposes of computing the amount of a payment for an eligible local educational agency under section 7003(a) for school year 2022–2023, children enrolled in a school of such agency that would otherwise be eligible for payment under section 7003(a)(1)(B) of such Act, but due to the deployment of both parents or legal guardians, or a parent or legal guardian having sole custody of such children, or due to the death of a military parent or legal guardian while on active duty (so long as such children reside on Federal property as described in section 7003(a)(1)(B)), are no longer eligible under such section, shall be considered as eligible students under such section, provided such students remain in average daily attendance at a school in the same local educational agency they attended prior to their change in eligibility status.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

Impact Aid helps to replace the lost local revenue that would otherwise be available to educate federally connected children. The presence of certain students living on Federal property, such as students who are military dependents or who reside on Indian lands, can place a financial burden on local educational agencies (LEAs) that educate them. The property on which the children live and their parents work is exempt from local property taxes, limiting LEAs' access to a central source of revenue used by most communities to finance education.

Basic support payments.—Payments will be made on behalf of approximately 780,000 federally connected students enrolled in over 1,000 LEAs to assist them in meeting their operation and maintenance costs. Average per-student payments will be approximately \$1,720.

Payments for children with disabilities.—Payments in addition to those provided under the Individuals with Disabilities Education Act (IDEA) will be provided on behalf of approximately 52,000 federally connected students with disabilities in approximately 800 LEAs. Average per-student payments will be approximately \$930.

Facilities maintenance.—Funds will be used to provide emergency repairs for school facilities that serve military dependents and are owned by the Department of Education. Funds will also be used to transfer the facilities to LEAs.

Construction.—Approximately 7 to 8 construction grants will be awarded competitively to the highest-need Impact Aid LEAs for emergency repairs and modernization of school facilities.

Payments for Federal property.—Payments will be made to approximately 200 local educational agencies in which real property owned by the Federal Government represents 10 percent or more of the assessed value of real property in the local educational agency.

SCHOOL IMPROVEMENT PROGRAMS

For carrying out school improvement activities authorized by part B of title I, part A of title II, subpart 1 of part A of title IV, part B of title IV, part B of title V, and parts B and C of title VI of the ESEA; the McKinney-Vento Homeless Assistance Act; section 203 of the Educational Technical Assistance Act of 2002; the Compact of Free Association Amendments Act of 2003; and the Civil Rights Act of 1964, \$5,525,982,000, of which \$3,844,541,000 shall become available on July 1, 2023, and remain available through September 30, 2024, and of which \$1,681,441,000 shall become available on October 1, 2023, and shall remain available through September 30, 2024, for academic year 2023–2024: Provided, That \$378,000,000 shall be for part B of title I: Provided further, That \$1,309,673,000 shall be for part B of title IV: Provided further, That \$37,397,000 shall be for part B of title VI, which may be used for construction, renovation, and modernization of any public elementary school, secondary school, or structure related to a public elementary school or secondary school that serves a predominantly Native Hawaiian student body, and that the 5 percent limitation in section 6205(b) of the ESEA on the use of funds for administrative purposes shall apply only to direct administrative costs: Provided further, That \$36,453,000 shall be for part C of title VI, which shall be awarded on a competitive basis, and may be used for construction, and that the 5 percent limitation in section 6305 of the ESEA on the use of funds for administrative purposes shall apply only to direct administrative costs: Provided further, That \$52,000,000 shall be available to carry out section 203 of the Educational Technical Assistance Act of 2002 and the Secretary shall make such arrangements as determined to be necessary to ensure that the Bureau of Indian Education has access to services provided under this section: Provided further, That \$24,463,218 shall be available to carry out the Supplemental Education Grants program for the Federated States of Micronesia and the Republic of the Marshall Islands: Provided further, That the Secretary may reserve up to 5 percent of the amount referred to in the previous proviso to provide technical assistance in the implementation of these grants: Provided further, That \$202,840,000 shall be for part B of title V: Provided further, That \$1,220,000,000 shall be available for grants under subpart 1 of part A of title IV.

Supporting effective instruction State grants.—Funds support formula grants to States and local educational agencies (LEAs) to improve teacher and principal effectiveness and ensure the equitable distribution of effective and highly effective teachers and principals.

21st century community learning centers.—Funds support formula grants to States for projects that provide the additional time, support, and enrichment activities needed to improve student achievement.

State assessments.—Funds support formula grants to States to develop and implement assessments that are aligned with college- and career-ready academic standards. Funds could also support audits of State and local assessment systems. A portion of the funds support competitive grants for activities to improve State assessment systems.

Education for homeless children and youths.—Funds support formula grants to States to provide educational and support services that enable homeless children and youth to attend and achieve success in school.

Native Hawaiians education.—Funds support competitive grants to public and private entities to develop or operate innovative projects that enhance the educational services provided to Native Hawaiian children and adults.

Alaska Native education.—Funds support competitive grants to Alaska Native organizations and other public and private organizations to develop or operate innovative projects that enhance the educational services provided to Alaska Native children and adults.

Training and advisory services.—Funds support grants to regional equity assistance centers that provide technical assistance upon request to local educational agencies (LEAs) in addressing educational equity related to issues of race, gender, and national origin.

Rural education.—Funds support formula grants under two programs: the Small, Rural School Achievement program and the Rural and Low-Income School program. The Small, Rural School Achievement program provides rural LEAs with small enrollments with additional formula funds. Funds under the Rural and Low-Income School program, which targets rural LEAs that serve concentrations of poor students, are allocated by formula to States, which in turn allocate funds to eligible LEAs.

Supplemental education grants.—Funds support grants to the Federated States of Micronesia and to the Republic of the Marshall Islands in place of grant programs in which those Freely Associated States no longer participate pursuant to the Compact of Free Association Amendments Act of 2003.

Comprehensive centers.—Funds support 22 comprehensive centers that focus on building State capacity to help school districts and schools meet the requirements of the ESEA.

Student support and academic enrichment grants.—Funds support formula grants to improve academic achievement by increasing the capacity of States and LEAs to provide all students with access to a well-rounded education, to improve school conditions for student learning, and to improve the use of technology.

School safety national activities.—Funds support competitive grants and other discretionary activities to foster safe, secure, and supportive school and community environments conducive to teaching and learning; facilitate emergency management and preparedness as well as recovery from traumatic events; increase the availability of school-based mental health service providers for students; prevent drug use and violence by students; and otherwise improve student well-being. These activities include Project Prevent, a program of grants to local educational agencies to help break the cycle of violence in communities with pervasive violence.

Full-service community schools.—Funds support grants to local educational agencies or the Bureau of Indian Education, in partnership with community-based organizations, nonprofit organizations, or other public or private entities, to provide comprehensive and coordinated academic, social, and health services for students, students' family members, and community members that will result in improved educational outcomes for children in neighborhoods with high rates of poverty, childhood obesity, academic failure, and involvement of community members in the justice system.

Promise neighborhoods.—Funds support competitive grants and other activities for projects designed to improve significantly the educational and developmental outcomes of children within the Nation's most distressed communities, by providing children in the community with access to a cradle-through-college-to-career continuum of academic programs and community supports, including effective schools and services. The 2023 request would continue to support the Administration's Community Violence Intervention initiative by giving priority to applicants for Project Prevent, Full Service Community Schools, and Promise Neighborhoods grantees who propose to incorporate strategies into their projects for reducing gun violence through tools other than incarceration.

The Indian Education programs support the efforts of local educational agencies (LEAs), Tribes, and Indian organizations to improve teaching and learning for the Nation's American Indian and Alaska Native children.

Grants to local educational agencies.—Formula grants support LEAs in their efforts to enhance and supplement elementary and secondary school programs that serve Indian students, with the goal of ensuring that such programs assist participating students in meeting the same academic standards as all other students.

Special programs for Indian children.—Funds support awards under the Demonstration Grants authority including for Native Youth Community Projects and projects expanding educational opportunity, as well as professional development grants for training Native American teachers and administrators for employment in school districts that serve a high proportion of Indian students.

National activities.—Funds support research, evaluation, data collection, and related activities, grants for Native language immersion schools and programs, and grants to Tribes to create Tribal educational agencies and to expand the capacity of existing Tribal educational agencies through education administrative planning, development, and coordination.

Tribal education agencies.—Funds support awards to Tribal education agencies to improve educational opportunities and achievement of Indian children and youth.

Education innovation and research.—Funds would support competitive grants for the creation, development, implementation, replication, and scaling up of evidence-based, field-initiated innovations designed to improve student achievement and attainment for high-need students.

Teacher and school leader incentive fund.—Funds would support competitive grants to help eligible entities develop, implement, improve, or expand human capital management systems or performance-based compensation systems in schools served by those entities.

American history and civics.—Funds would support competitive grants to institutions of higher education and other entities with demonstrated expertise to improve the quality of teaching and learning in American history, civics, and government.

Supporting effective educator development (SEED).—Funds would support competitive grants to institutions of higher education, national nonprofit entities, and the BIE to provide educators with evidence-based professional development and to support pathways that allow educators with nontraditional preparation and certification to obtain employment in traditionally underserved local educational agencies.

Charter schools.—Funds would support competitive grants for the opening of new charter schools and the replication and expansion of high-quality charter schools. Funds would also support information dissemination activities and competitive grants to improve charter schools' access to facilities.

Magnet schools.—Funds would support competitive grants to local educational agencies to establish and operate magnet school programs that are part of an approved desegregation plan.

Ready to learn programming.—Funds would support competitive grants to public telecommunications entities to develop and distribute educational video programming and digital content, such as applications and online educational games, for preschool and elementary school children and their parents, caregivers, and teachers to facilitate student academic achievement.

Arts in education.—Funds would support projects and programs to promote arts education for students, including disadvantaged students, through competitive grants to support development and dissemination of instructional materials, programming, and professional development for arts educators.

Javits gifted and talented education.—Funds would support a coordinated program of research, demonstration projects, innovative strategies, and other activities to build and enhance the capacity of elementary and secondary schools to identify gifted and talented students and meet their special educational needs.

Statewide family engagement centers.—Funds would support competitive grants to statewide organizations to carry out parent education and family engagement programs and provide comprehensive technical assistance to State and local educational agencies and organizations that support family-school partnerships.

School leader recruitment and support.—Funds would support grants to improve the recruitment, preparation, placement, support, and retention of effective principals and other school leaders in high-need schools.

REHABILITATIVE SERVICES****Federal Funds****SPECIAL EDUCATION**

For carrying out the Individuals with Disabilities Education Act (IDEA) and the Special Olympics Sport and Empowerment Act of 2004, \$18,130,170,000, of which \$8,410,430,000 shall become available on July 1, 2023, and shall remain available through September 30, 2024, and of which \$9,283,383,000 shall become available on October 1, 2023, and shall remain available through September 30, 2024, for academic year 2023–2024: Provided, That the amount for section 611(b)(2) of the IDEA shall be equal to the lesser of the amount available for that activity during fiscal year 2022, increased by the amount of inflation as specified in section 619(d)(2)(B) of the IDEA, or the percent change in the funds appropriated under section 611(i) of the IDEA, but not less than the amount for that activity during fiscal year 2022: Provided further, That the Secretary shall, without regard to section 611(d) of the IDEA, distribute to all other States (as that term is defined in section 611(g)(2)), subject to the third proviso, any amount by which a State's allocation under section 611, from funds appropriated under this heading, is reduced under section 612(a)(18)(B), according to the following: 85 percent on the basis of the States' relative populations of children aged 3 through 21 who are of the same age as children with disabilities for whom the State ensures the availability of a free appropriate public education under this part, and 15 percent to States on the basis of the States' relative populations of those children who are living in poverty: Provided further, That the Secretary may not distribute any funds under the previous proviso to any State whose reduction in allocation from funds appropriated under this heading made funds available for such a distribution: Provided further, That the States shall allocate such funds distributed under the second proviso to local educational agencies in accordance with section 611(f): Provided further, That the amount by which a State's allocation under section 611(d) of the IDEA is reduced under section 612(a)(18)(B) and the amounts distributed to States under the previous provisos in fiscal year 2012 or any subsequent year shall not be considered in calculating the awards under section 611(d) for fiscal year 2013 or for any subsequent fiscal years: Provided further, That, notwithstanding the provision in section 612(a)(18)(B) regarding the fiscal year in which a State's allocation under section 611(d) is reduced for failure to comply with the requirement of section 612(a)(18)(A), the Secretary may apply the reduction specified in section 612(a)(18)(B) over a period of consecutive fiscal years, not to exceed 5, until the entire reduction is applied: Provided further, That the Secretary may, in any fiscal year in which a State's allocation under section 611 is reduced in accordance with section 612(a)(18)(B), reduce the amount a State may reserve under section 611(e)(1) by an amount that bears the same relation to the maximum amount described in that paragraph as the reduction under section 612(a)(18)(B) bears to the total allocation the State would have received in that fiscal year under section 611(d) in the absence of the reduction: Provided further, That the Secretary shall either reduce the allocation of funds under section 611 for any fiscal year following the fiscal year for which the State fails to comply with the requirement of section 612(a)(18)(A) as authorized by section 612(a)(18)(B), or seek to recover funds under section 452 of the General Education Provisions Act (20 U.S.C. 1234a): Provided further, That the funds reserved under 611(c) of the IDEA may be used to provide technical assistance to States to improve the capacity of the States to meet the data collection requirements of sections 616 and 618 and to administer and carry out other services and activities to improve data collection, coordination, quality, and use under parts B and C of the IDEA: Provided further, That the Secretary may use funds made available for the State Personnel Development Grants program under Part D, subpart 1 of IDEA to evaluate program performance under such subpart: Provided further, That States may use funds reserved for other State-level activities under sections 611(e)(2) and 619(f) of the IDEA to make subgrants to local educational agencies, institutions of higher education, other public agencies, and private non-profit organizations to carry out activities authorized by those sections: Provided further, That, notwithstanding section 643(e)(1) of the IDEA, the Secretary may reserve up to \$200,000,000 of the funds appropriated under Part C of the IDEA to provide

grants to States that are either carrying out the policy described in sections 632(5)(B)(ii) and 635(c) or are serving at-risk infants and toddlers as defined in section 632(1) and 632(5)(B)(i) in order to facilitate the implementation of such policy: Provided further, That, notwithstanding section 643(e)(2)(A) of the IDEA, if 5 or fewer States apply for grants pursuant to section 643(e) of such Act, the Secretary shall provide a grant to each State in an amount equal to the maximum amount described in section 643(e)(2)(B) of such Act: Provided further, That if more than 5 States apply for grants pursuant to section 643(e) of the IDEA, the Secretary shall award funds to those States on the basis of the States' relative populations of infants and toddlers except that no such State shall receive a grant in excess of the amount described in section 643(e)(2)(B) of such Act: Provided further, That States may use funds allotted under section 643(c) of the IDEA to make subgrants to early intervention service providers to carry out activities authorized by section 638 of IDEA: Provided further, That, notwithstanding section 638 of the IDEA, any State receiving a grant under section 633 of the IDEA must reserve not less than ten percent of its award for use in a manner described in a State plan, approved by the Secretary, to ensure equitable access to and participation in Part C services in the State, particularly for populations that have been traditionally underrepresented in the program: Provided further, That, notwithstanding section 632(4)(B) of the IDEA, a State receiving a grant under section 633 of the IDEA may establish a system of payments but may not include in that system family fees or out-of-pocket costs to families for early intervention services: Provided further, That any State seeking to amend its eligibility criteria under section 635(a)(1) of the IDEA in such a way that would have the effect of reducing the number of infants and families who are eligible under Part C must conduct public participation under section 637(a)(8) of the IDEA at least 24 months prior to implementing such a change: Provided further, That, notwithstanding section 638 of the IDEA, a State may use funds it receives under section 633 of the IDEA to offer continued early intervention services to a child who previously received services under Part C of the IDEA from age three until the beginning of the school year following the child's third birthday without regard to the procedures described in section 635(c) of the IDEA: Provided further, That, notwithstanding section 643(c) of the IDEA, the Secretary shall allot, from the funds remaining for each fiscal year after the reservation and payments under subsections (a), (b), and (e) of section 643, to each State (as that term is defined in section 643(c)(4)(B)) according to the following: 85 percent on the basis of the State's relative population of infants and toddlers and 15 percent on the basis of the State's relative population of such children who are living in poverty, except that no State shall receive less than 90 percent of the amount it received in the preceding fiscal year: Provided further, That, notwithstanding section 638 of the IDEA, a State may use funds appropriated under Part C of the IDEA to conduct child find, public awareness and referral activities for an individual who is expected to become a parent of an infant with a disability (as that term is defined in section 632(5)), as established by medical or other records: Provided further, That any State electing to use funds under the preceding proviso shall ensure, that as soon as possible but not later than 45 days after the child's birth, it completes the referral and eligibility process under this part for that child: Provided further, That, notwithstanding section 611 of the IDEA, the Secretary may reserve up to \$5,000,000 to study issues related to the creation and implementation of a comprehensive system of services and supports for children with disabilities from birth through age five.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117-43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

Grants to States.—Formula grants are provided to States to assist them in providing special education and related services to children with disabilities ages 3 through 21.

Preschool grants.—Formula grants provide additional funds to States to further assist them in providing special education and related services to children with disabilities ages 3 through 5 served under the Grants to States program.

The goal of both the Grants to States and the Preschool grants programs is to improve results for children with disabilities by assisting State and local educational agencies (LEAs) to provide children with disabilities with access to high quality education that will help them meet challenging standards and prepare them for employment and independent living. LEAs may reserve up to 15 percent of the funds they receive under Part B of the Individuals with Disabilities Education Act to provide comprehensive coordinated early intervening services to children age 3 through grade 12.

Grants for infants and families.—Formula grants are provided to assist States to implement statewide systems of coordinated, comprehensive, multi-disciplinary interagency programs to provide early intervention services to children with disabilities, birth through age two, and their families. The goal of this program is to help States provide a comprehensive system of early intervention services that will enhance child and family outcomes.

National activities.—Funds are provided for personnel preparation and development, technical assistance, and other activities to support State ef-

Vocational rehabilitation State grants.—The basic State grants program provides Federal matching funds to State vocational rehabilitation (VR) agencies to assist individuals with disabilities to become gainfully employed. Services are tailored to the specific needs of the individual. Priority is given to serving those with the most significant disabilities. In 2021, State VR agencies assisted an estimated 112,445 individuals with disabilities to obtain an employment outcome, about 92 percent of whom were individuals with significant disabilities. VR State Grants is a core program of the workforce development system under the Workforce Innovation and Opportunity Act (WIOA) and a required partner in the one-stop service delivery system for accessing employment and training services. Amendments made by WIOA require State VR agencies to reserve and use at least 15 percent of their Federal grant allotment to support pre-employment transition services for students with disabilities provided in accordance with section 113 of the Rehabilitation Act. Between 1.0 percent and 1.5 percent of the funds appropriated for the VR State grants program must be set aside for the American Indian Vocational Rehabilitation Services Program. The request for the VR State Grants program includes the CPIU adjustment specified in the authorizing statute.

Client assistance State grants.—Formula grants are made to States to provide assistance in informing and advising clients and applicants about benefits available under the Rehabilitation Act and, if requested, to pursue legal or administrative remedies to ensure the protection of the rights of individuals with disabilities.

Supported employment State grants.—Formula grants are made to State VR agencies to provide supported employment services for individuals with the most significant disabilities.

Training.—Grants are made to States and public or nonprofit agencies and organizations, including institutions of higher education, to increase the number of skilled personnel available for employment in the field of rehabilitation and to upgrade the skills of those already employed.

Demonstration and training programs.—Competitive grants and contracts are awarded to expand and improve the provision and effectiveness of programs and services authorized under the Rehabilitation Act or further

the purposes of the Act in promoting the employment and independence of individuals with disabilities in the community. Funds are used to support model demonstrations, technical assistance, and projects designed to improve program performance and the delivery of vocational rehabilitation and independent living services.

Independent living services for older individuals who are blind.—Grants are awarded to States to assist individuals over the age of 55 with severe visual disabilities to adjust to their disability and increase their ability to care for their own needs.

Protection and advocacy of individual rights.—Formula grants are made to State protection and advocacy systems to protect the legal and human rights of individuals with disabilities.

Helen Keller National Center for Deaf-Blind Youths and Adults.—The Center provides services to deaf-blind youths and adults and provides training and technical assistance to professional and allied personnel at its national headquarters center and through its regional representatives and affiliate agencies.

Randolph-Sheppard Vending Facility Program.—The Vending Facility program authorized by the Randolph-Sheppard Act provides persons who are blind with remunerative employment and self-support through the operation of vending facilities on federal and other property. This award would support a technical assistance center to provide training and technical assistance to State licensing agencies and blind vendors.

The 2023 request supports: the production and distribution of free educational materials for students below the college level who are blind; research related to developing and improving products; and advisory services to consumer organizations on the availability and use of materials. In 2021, the portion of the Federal appropriation allocated to educational materials represented approximately 64 percent of the Printing House's total sales. The full 2021 appropriation represented approximately 69 percent of the Printing House's total actual revenue. The 2023 request is expected to be allocated in a similar manner.

This institution provides undergraduate, continuing education, and graduate programs for students who are deaf, hard of hearing, and hearing. The University also conducts basic and applied research and provides public service programs for persons with hearing loss and persons who work with them.

The University operates the Laurent Clerc National Deaf Education Center, which includes elementary and secondary education programs on the main campus of the University serving students who are deaf or hard of hearing. The Kendall Demonstration Elementary School serves students from birth through grade 8, and the Model Secondary School for the Deaf serves high school students in grades 9 through 12. The Clerc Center also develops and disseminates information on effective educational techniques and strategies for teachers and professionals working with students who are deaf or hard of hearing.

In 2021, the appropriation for Gallaudet represented approximately 72 percent of total revenue for the University. Approximately 24 percent of the Federal appropriation was used to support activities at the Clerc Center, which received nearly 100 percent of its revenue through the appropriation. In addition, the University receives other Federal funds such as student financial aid, vocational rehabilitation, Endowment Grant program income,

and competitive grants and contracts. The 2023 request includes funds that may be used for the Endowment Grant program.

Career and Technical Education:

Career and technical education State grants.—Funds support formula grants to States to expand and improve career and technical education (CTE) in high schools, technical schools, and community colleges under the Carl D. Perkins Career and Technical Education Act of 2006, as amended.

Career and technical education national activities.—Funds support research, development, dissemination, evaluation, assessment, capacity building, and technical assistance activities aimed at improving the quality and effectiveness of CTE programs under the Carl D. Perkins Career and Technical Education Act of 2006, as amended. A new career-connected high schools initiative would support competitive grants to consortia of local educational agencies, institutions of higher education, and employers to increase the integration and alignment of the last two years of high school and the first two years of postsecondary education to improve postsecondary and career outcomes for all students, including students of color and students from low-income backgrounds. Key activities would include dual enrollment in postsecondary-level core content and career-connected coursework; work-based learning opportunities connected to programs of study; attainment of in-demand, career-related credentials; high-quality counseling and career-navigation supports; and educator professional development to support effective integration of academic and career-connected instruction across grades 11–14.

Adult Education:

Adult basic and literacy education State grants.—Funds support formula grants to States to help eliminate functional illiteracy among the Nation's adults, to assist adults in obtaining a high school diploma or its equivalent, and to promote family literacy. A portion of the funds is reserved for formula grants to States to provide English literacy and civics education for immigrants and other limited English proficient adults.

Adult education national leadership activities.—Funds support discretionary activities to evaluate the effectiveness of Federal, State, and local adult education programs, to test and demonstrate methods of improving program quality, and to provide technical assistance to States. The 2023 request would support college bridge programs for adults without a high school diploma or its equivalent and activities to reduce equity gaps for disconnected youth without a high school diploma to help them attain a high school diploma or its equivalent.

Aid for Institutional Development:

Strengthening institutions.—Funds support planning and development grants for improving academic programs and financial management at schools that enroll high proportions of disadvantaged students and have low per-student expenditures.

Strengthening tribally controlled colleges and universities.—Discretionary and mandatory funds support grants to American Indian tribally controlled colleges and universities with scarce resources to enable them to improve and expand their capacity to serve students and to strengthen management and fiscal operations.

Strengthening Alaska Native and Native Hawaiian-serving institutions.—Discretionary and mandatory funds support Alaska Native and Native Hawaiian-serving institutions to enable them to improve and expand their capacity to serve students and to strengthen management and fiscal operations.

Strengthening historically Black colleges and universities.—Discretionary and mandatory funds support grants to help historically Black undergraduate institutions to improve and expand their capacity to serve students and to strengthen management and fiscal operations.

Strengthening historically Black graduate institutions.—Funds support grants to historically Black graduate institutions to improve and expand their capacity to serve students and to strengthen management and fiscal operations.

Strengthening predominantly Black institutions.—Discretionary and mandatory funds support grants to predominantly Black institutions to improve and expand their capacity to serve students.

Strengthening Asian American- and Native American Pacific Islander-serving institutions.—Discretionary and mandatory funds support grants to help Asian American and Native American Pacific Islander-serving institutions improve and expand their capacity to serve students and to strengthen management and fiscal operations.

Strengthening Native American-serving nontribal institutions.—Discretionary and mandatory funds support grants to help Native American-serving nontribal institutions improve and expand their capacity to serve students and to strengthen management and fiscal operations.

Minority science and engineering improvement.—Funds support grants to predominantly minority institutions to help them make long-range improvements in science and engineering education and to increase the participation of minorities in scientific and technological careers.

Strengthening HBCU Masters program.—Funds support grants to historically Black institutions to improve graduate education opportunities at the Masters level in scientific disciplines in which African Americans are underrepresented.

Aid for Hispanic-serving Institutions:

Developing Hispanic-serving institutions.—Funds support Hispanic-serving institutions to help them improve and expand their capacity to serve students.

Developing Hispanic-serving institutions STEM and articulation programs.—Mandatory funds support Hispanic-serving institutions to help them improve and expand their capacity to serve students with priority given to applications that propose to increase the number of Hispanics and other low-income students attaining degrees in the fields of science, technology, engineering, or mathematics; and to develop model transfer and articulation agreements between 2-year Hispanic-serving institutions and 4-year institutions in such fields.

Promoting postbaccalaureate opportunities for Hispanic Americans.—Discretionary funds support Hispanic-serving institutions to help them expand and improve postbaccalaureate educational opportunities.

Other Aid for Institutions:

International education and foreign language studies programs.—Funds promote the development and improvement of domestic and overseas international and foreign language programs by providing institutional and fellowship grant funding to strengthen the capability and performance of American education in foreign languages and in area and international studies.

Model transition programs for students with intellectual disabilities into higher education.—Funds support grants to institutions of higher education or consortia of such institutions to create or expand high quality, inclusive model comprehensive transition and postsecondary programs for students with intellectual disabilities.

Tribally controlled postsecondary career and technical institutions.—Funds support the operation and improvement of eligible tribally controlled postsecondary career institutions to ensure continued and expanded educational opportunities for Indian students.

Assistance for Students:

Federal TRIO programs.—Funds support postsecondary education outreach and student support services to help individuals from disadvantaged backgrounds prepare for, enter, and complete college and graduate studies.

Gaining early awareness and readiness for undergraduate programs.—Funds support early college preparation and awareness activities at the State and local levels to ensure that low-income elementary and secondary school students are prepared for and pursue postsecondary education.

Graduate assistance in areas of national need.—Funds support fellowships to graduate students of superior ability who have financial need for study in areas of national need.

Child care access means parents in school.—Funds support a program designed to bolster the participation of low-income parents in postsecondary education through the provision of campus-based child care services.

Fund for the improvement of postsecondary education.—Funds support the development of innovative strategies designed to improve college completion, particularly for high-need students.

Teacher quality partnership.—Funds support grants to partnerships including institutions of higher education and local education agencies, among others, to reform pre-baccalaureate teacher preparation programs or create teacher residency programs in high-need local education agencies.

Hawkins centers of excellence.—Funds support a program designed to increase the talent pool of effective minority educators by expanding and reforming teacher education programs at minority-serving institutions.

Pooled evaluation.—Requested authority would enable the Department to reserve up to 0.5 percent of funding annually appropriated for certain Higher Education Act (HEA) programs for rigorous program evaluation, data collection, and analysis of outcome data.

Howard University is a private, nonprofit institution of higher education consisting of 13 schools and colleges. Federal funds are used to provide partial support for University programs as well as for the Howard University Hospital, a teaching facility. In 2022, the Federal appropriation represented approximately 23 percent of the University's revenue and 10 percent of the Hospital's revenue. The 2023 request is expected to be allocated in a similar manner.

The 2023 request would lift the restrictions that prevent Howard University from accessing the HBCU Capital Financing Program.

COLLEGE HOUSING AND ACADEMIC FACILITIES LOANS PROGRAM

For Federal administrative expenses to carry out activities related to existing facility loans pursuant to section 121 of the HEA, \$298,000.

HISTORICALLY BLACK COLLEGE AND UNIVERSITY CAPITAL FINANCING PROGRAM ACCOUNT

For the cost of guaranteed loans, \$20,150,000, as authorized pursuant to part D of title III of the HEA, which shall remain available through September 30, 2024: Provided, That such costs, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974: Provided further, That these funds are available to subsidize total loan principal, any part of which is to be guaranteed, not to exceed \$752,065,725: Provided further, That these funds may be used to support loans to public and private Historically Black Colleges and Universities without regard to the limitations within section 344(a) of the HEA.

In addition, for administrative expenses to carry out the Historically Black College and University Capital Financing Program entered into pursuant to part D of title III of the HEA, \$528,000.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). As required by the Federal Credit Reform Act of 1990, this account records the subsidy costs associated with the direct loans obligated and loan guarantees committed in 1992 and beyond, as well as any administrative expenses for the College Housing and Academic Facilities Loans (CHAFL) Program and the Historically Black College and University (HBCU) Capital Financing Program. The subsidy amounts are estimated on a present value basis; the administrative expenses are on a cash basis. These programs are administered separately but consolidated in the Budget for presentation purposes.

College housing and academic facilities loans program.—Funds for this activity pay the Federal costs of administering CHAFL, College Housing Loans (CHL), and Higher Education Facilities Loans (HEFL) programs. Prior to 1994, these programs provided financing for the construction, reconstruction, and renovation of housing, academic, and other educational facilities. Although no new loans have been awarded since 1993, the Department of Education will incur costs for administering the outstanding loans through 2030.

Historically Black college and university (HBCU) capital financing program.—The HBCU Capital Financing Program provides HBCUs with access to capital financing for the repair, renovation, and construction of classrooms, libraries, laboratories, dormitories, instructional equipment, and research instrumentation. The authorizing statute gives the Department authority to enter into insurance agreements with a private for-profit Designated Bonding Authority. The bonding authority issues the loans and maintains an escrow account in which five percent of each institution's principal is deposited. The FAFSA Simplification Act, which was included in the Consolidated Appropriations Act, 2021, signed into law in December 2020, provided authority and funding to discharge debts under the HBCU Capital Financing Program. The Department of Education discharged approximately \$1.6 billion of debt provided to HBCUs.

The 2023 request would lift the restrictions that prevent Howard University from accessing the HBCU Capital Financing Program.

As required by the Federal Credit Reform Act of 1990, this non-budgetary account records all cash flows to and from the Federal Government resulting from direct loans obligated in 1996 and beyond. The Federal Financing Bank (FFB) purchases bonds issued by the Historically Black College and University (HBCU) Designated Bonding Authority. Under the policies governing Federal credit programs, bonds purchased by the FFB and supported by the Department of Education with a letter of credit create the equivalent of a Federal direct loan. HBCU bonds are also available for purchase by the private sector, and these will be treated as loan guarantees. However, the Department anticipates that all HBCU loans will be financed by the FFB. The amounts in this account are a means of financing and are not included in the budget totals.

Notes.—Figures include, in all years, institutional matching share of defaulted notes assigned from institutions to the Education Department.

Funding from the Student Financial Assistance account and related matching funds would provide 8.9 million awards totaling more than \$41.2 billion in available aid in award year 2023–2024.

Federal Pell grants.—Pell Grants are the single largest source of grant aid for postsecondary education. Funding for this program is provided from two sources: discretionary and mandatory budget authority provided by the College Cost Reduction and Access Act, as amended, and changes to the Higher Education Act of 1965 made in the Department of Education Appropriations Act of 2021.

In 2023, nearly 6.7 million undergraduates will receive up to \$6,335 from the discretionary award and an additional \$2,335 from the mandatory add-

on to help pay for postsecondary education. Undergraduate students establish eligibility for these grants under award and need determination rules set out in the authorizing statute and annual appropriations act.

The 2023 Budget request includes \$24.3 billion in discretionary funding for Pell Grants in 2023, which, when combined with mandatory funding, will support a projected maximum award of \$8,670.

Federal supplemental educational opportunity grants (SEOG).—Federal funds are awarded by formula to qualifying institutions, which use these funds to award grants to undergraduate students. While institutions have discretion in awarding these funds, they are required to give priority to Pell Grant recipients and other students with exceptional need. The Federal share of these grants cannot exceed 75 percent of the total grant. The 2023 Budget includes \$880 million for SEOG, which would generate \$1.25 billion in aid to nearly 1.7 million students.

Federal work-study.—Federal funds are awarded by formula to qualifying institutions, which provide part-time jobs to eligible undergraduate and graduate students. Hourly earnings under this program must be at least the Federal minimum wage. Federal funding, in most cases, pays 75 percent of a student's hourly wages, with the remaining 25 percent paid by the employer. The Federal Work-Study program also requires participating institutions to use at least seven percent of their total funds for students employed in community service jobs.

The 2023 Budget includes \$1.19 billion for Work-Study, which would generate \$1.21 billion in aid to 620,597 students.

Iraq and Afghanistan service grants.—This program provides non-need-based grants to students whose parent or guardian was a member of the Armed Forces and died in Iraq or Afghanistan as a result of performing military service after September 11, 2001.

Pooled evaluation.—Requested authority in the General Provisions would enable the Department to reserve up to 0.5 percent of funding annually appropriated for certain Higher Education Act (HEA) programs for rigorous program evaluation, data collection, and analysis of outcome data. The authority would not allow the Department to reserve funds appropriated for Pell Grants, but would allow for evaluation of the program with the reserved funds.

Funding tables.—The following tables display student aid funds available, the number of aid awards, average awards, and the unduplicated count of recipients from each Federal student aid program. Loan amounts reflect the amount actually loaned to borrowers, not the Federal cost of these loans. The data in these tables include matching funds wherever appropriate. The 2023 data in these tables reflect the Administration's Budget proposals.

Federal Pell Grants.—The 2023 Budget proposes to increase the mandatory add-on to the maximum Pell Grant from \$1,060 to \$2,335. With the \$900 increase to the discretionary maximum award, the total increase will be \$2,175 and the total maximum Pell Grant will be \$8,670.

STUDENT AID ADMINISTRATION

For Federal administrative expenses to carry out part D of title I, and subparts 1, 3, 9, and 10 of part A, and parts B, C, D, and E of title IV of the HEA, and subpart 1 of part A of title VII of the Public Health Service Act, \$2,654,034,000, to remain available through September 30, 2024.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

The Department of Education manages Federal student aid programs that will provide \$126 billion in new Federal student aid grants and loans (excluding Direct Consolidation Loans) to nearly 9 million students and parents in 2023. The Offices of Postsecondary Education, the Under Secretary, and Federal Student Aid (FSA) are primarily responsible for administering the Federal student financial assistance programs. FSA was created by the Congress in 1998 as a partially independent Performance Based Organization (PBO) with a mandate to improve service to students and other student aid program participants, reduce student aid administration costs, and improve accountability and program integrity.

The TEACH Grant program, authorized by the College Cost Reduction and Access Act of 2007, awards annual grants of up to \$4,000 to full- or part-time undergraduate and graduate students who agree to teach mathematics, science, foreign languages, bilingual education, special education, or reading at a high-poverty school for not less than four years within eight years of graduation. The program began awarding grants in the 2008–2009 award year. Students must have a grade point average of 3.25 or higher to be eligible to receive a grant. Students who fail to fulfill the service requirements must repay the grants, including interest accrued from the time of award.

Because TEACH Grants turn into loans in cases where the service requirements are not fulfilled, for budget and accounting purposes the program is operated consistent with the requirements of the Federal Credit Reform Act of 1990. This program account records subsidy costs reflecting the net present value of the estimated lifetime Federal program costs for grants awarded in a given fiscal year. Under this approach the subsidy cost reflects the cost of grant awards net of expected future repayments for grants that are converted to loans.

The Higher Education Amendments of 1998 clarified that reserve funds held by public and non-profit guaranty agencies participating in the Federal Family Education Loan (FFEL) program are Federal property. These reserves are used to pay default claims from FFEL lenders and fees to support agency efforts to avert defaults. The Federal Government reimburses these reserves for default claim payments. The Consolidated Appropriations Act, 2016, increased guaranty agency reinsurance payments from 95 percent of the face value of loans to 100 percent. The following schedule reflects the balances in these guaranty agency funds.

FEDERAL DIRECT STUDENT LOAN PROGRAM ACCOUNT—Continued

The Federal Government manages two major student loan programs: the Federal Family Education Loan (FFEL) program and the William D. Ford Federal Direct Loan (Direct Loan) program. The Student Aid and Fiscal Responsibility Act eliminated the authorization to originate new FFEL loans; as of July 1, 2010, the Direct Loan program originates all new loans. This narrative outlines the structure of these two programs and provides text tables displaying program cost data; loan volume, subsidy, default, and interest rates; and other descriptive information.

From its inception in 1965 through the end of June 2010, the FFEL program guaranteed almost \$899 billion in loans made to postsecondary students and their parents. Although no new FFEL loans have been originated since July 1, 2010, nearly \$150 billion of outstanding FFEL loans continue to be serviced by lenders, the Department of Education, and guaranty agencies.

Under the Direct Loan program, the Federal Government provides loan capital through the Treasury while the Department of Education loan origination and servicing is handled by private and not-for-profit loan servicers under performance-based contracts with the Department. The Direct Loan program began operation in award year 1994–1995, originating 7 percent of overall loan volume. In 2023, excluding Consolidation Loans, the Direct Loan program will make \$85.01 billion in new loans.

The Direct Loan program currently offers four types of loans: Subsidized Stafford; Unsubsidized Stafford; PLUS; and Consolidation. Loans can be used for qualified educational expenses. Undergraduates with financial need may receive a Subsidized Stafford loan (graduate and professional students are not eligible). The other three loan programs are available to borrowers at all income levels. Interest rates are set annually for loans originated in the upcoming award year based on the 10-year Treasury note; those rates will remain fixed for the life of the loan. For Subsidized Stafford loans available to undergraduates, the interest rate will be equal to the 10-year Treasury note plus 2.05 percent and capped at 8.25 percent. Loans originated in award year 2021–2022 have an interest rate of 3.73 percent. Interest payments for these loans are fully subsidized by the Federal Government while a student is in school and during grace and deferment periods. The interest rate on new Unsubsidized Stafford loans for undergraduate borrowers is the same as that on Subsidized Stafford loans for undergraduates. The Unsubsidized Stafford loan interest rate for graduate and professional students is equal to the 10-year Treasury note plus 3.6 percent and capped at 9.5 percent. Loans originated in award year 2021–2022 have an interest rate of 5.28 percent. The borrower interest rate on PLUS loans to graduate and professional students and parents of undergraduate borrowers is equal to the 10-year Treasury note plus 4.6 percent and capped at 10.5 percent. PLUS loans originated in award year 2021–2022 have an interest rate of 6.28 percent.

Consolidation loans allow borrowers to combine FFEL, Direct Loans, and Perkins Loans, as well as some loans made under the Public Health Service Act. The interest rate for new Consolidation loans equals the weighted average of the interest rate on the loans consolidated, rounded up to the nearest one-eighth of a percent. For most types of Direct Loans, the origination fee is a base rate of 1 percent, but an additional surcharge for sequestration was added in years 2013 to 2021. The base origination fee for PLUS loans is 4 percent, but has included an additional surcharge in years 2013 to 2021. Borrowers may choose from four basic types of repayment plans: standard; graduated; extended (available for qualified borrowers who have outstanding loans of more than \$30,000); and income-driven. FFEL borrowers may change repayment plans annually. Direct Loan borrowers may switch between repayment plans at any time. The maximum repayment period is 10 years for standard and graduated plans, as well as the income-sensitive repayment plan that is available only for FFEL loans. Under the current income-driven administrative Pay As You Earn (PAYE) and statutory Income-Based-Repayment (IBR) plans, for new borrowers after 2014, the repayment period is 20 years. Under the current income-driven administrative REPAYE plan, the repayment period

is 20 or 25 years depending on whether the borrower has any graduate school loans. And, under the extended, former IBR (for borrowers prior to 2014), and income-contingent repayment plans, the maximum time is 25 years. PAYE and IBR require partial financial hardship in order to qualify for reduced payments and borrowers in those plans have their monthly payments capped at the monthly payment of the 10-year Standard plan. At the end of the repayment term, the borrower's remaining balance is forgiven.

Federal student loans have other benefits. For example, Federal student loans can be discharged when borrowers die, become totally and permanently disabled, or, under some circumstances, declare bankruptcy. In addition, there are several loan forgiveness programs. For example, new borrowers after October 1, 1998, who are employed as teachers in schools serving low-income populations for 5 consecutive, complete school years, qualify for up to \$5,000 in loan forgiveness; this benefit is increased to \$17,500 for mathematics, science, and special education teachers considered highly qualified under criteria established in the Elementary and Secondary Education Act. In addition, under the Public Service Loan Forgiveness Program, qualifying borrowers who have worked for 10 years full-time for an eligible public service employer, and made 120 qualifying monthly payments after October 1, 2007 in the standard or income-driven plans can have any remaining loan balance forgiven. This benefit is only available in the Direct Loan program, though FFEL borrowers may receive the benefit by taking out a Direct Consolidation Loan. Forgiveness is available for all Direct Loan borrowers, regardless of when they took out their loans.

On Oct. 6, 2021, the Department of Education announced a pandemic-related waiver to the Public Service Loan Forgiveness program statute. The limited waiver impacted student loan borrowers with Direct Loans, those who have already consolidated into the Direct Loan Program, and those who consolidate into the Direct Loan Program by Oct. 31, 2022. Under the new temporary rules, any prior period of repayment will count as a qualifying payment, regardless of loan program, repayment plan, or whether the payment was made in full or on time.

The following tables display performance indicators and program data, including projected overall Direct Loan and FFEL costs.

¹ Default rates displayed in this table, which reflect projected defaults over the life of a loan cohort, are used in developing program cost estimates. The Department uses other rates based on defaults occurring in the first two years of repayment to determine institutional eligibility to participate in Federal loan programs. (The Higher Education Opportunity Act of 2008 changed this requirement to a three-year rate.) These two- and three-year rates tend to be lower than those included in this table.**Selected Program Costs and Offsets**

¹ For 2021, the rates are current; these include actual executed rates for 2021 and the effects of re-estimates on those rates.

The table above describes Direct Loan costs on a subsidy rate basis: program costs calculated under the Federal Credit Reform Act of 1990 and comparably projected estimates of Federal administrative costs. As with any long-term projection, the comparison is based on assumed future interest rates, borrower characteristics, administrative costs, and other factors over the life of the loan cohort. To the degree actual conditions differ from projections, estimated subsidy rates will change.

The Federal Credit Reform Act of 1990 requires the cost of existing loan cohorts to be reestimated to reflect changes in actual and assumed borrower behavior, interest rates, and other factors. The following table shows the impact of these reestimates in FFEL and Direct Loans.

Loan Disbursement and Subsidy Costs

(in billions of dollars)

	FFEL	Direct Loans
Original Subsidy Costs	+\$77.1	-\$113.0
Cumulative Reestimates	-45.9	+164.3
Net Subsidy Costs	+31.1	+51.3
Total Disbursements	+898.7	+1,849.1

For Direct Loans, the net upward reestimate reflects several assumption updates, including changes to the income-driven repayment plan model. Model assumptions affecting the 2021 cohort were also updated. The Direct Loan upward net reestimate for 2022 is primarily due to updated IDR assumptions and discount rates.

As required by the Federal Credit Reform Act of 1990, this program account records the subsidy costs associated with Federal Family Education Loans (FFEL), formerly guaranteed student loans, committed in 1992 and beyond. Beginning with the 1993 cohort of loans, mandatory administrative costs, specifically contract collection costs, are included in the FFEL subsidy estimates of each year's cohort. Subsidy amounts are estimated on a net present value basis.

A description of the FFEL program and accompanying tables are included under the Federal Direct Student Loan program account.

Consistent with the Consolidated Appropriations Act, 2014 (P.L. 113–76), the Health Education Assistance Loans (HEAL) program was transferred to the Department of Education from the Department of Health and Human Services in 2014. The Department of Education assumed responsibility for the program and the authority to administer, service, collect, and enforce the program.

The HEAL program guarantees loans from private lenders to health professions students to pay for the costs of their training. As required by the Federal Credit Reform Act of 1990, this account records the subsidy costs

associated with HEAL loan guarantees committed in 1992 and beyond (including modifications of HEAL loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of the program.

Research, Statistics, and Assessment:

Research, development, and dissemination.—Funds support a diverse portfolio of research, development, and dissemination activities that provide parents, teachers, and schools with evidence-based information on effective educational practices.

Statistics.—Funds support the Department's statistical data collection activities, which are conducted by the National Center for Education Statistics (NCES). NCES collects, analyzes, and disseminates education statistics at all levels, from preschool through postsecondary and adult education, including statistics on international education activities.

Regional educational laboratories.—Funds support a network of 10 regional laboratories that provide expert advice, including training and technical assistance, to help States and school districts apply proven research findings in their school improvement efforts.

Assessment.—Funds support the ongoing National Assessment of Educational Progress (NAEP) and the National Assessment Governing Board (NAGB). NAEP administers assessments to samples of students in order to gather reliable information about educational attainment in important academic areas. NAGB is responsible for formulating NAEP policy; developing student achievement levels; and selecting, consistent with the requirements of the statute, the subjects to be assessed.

Research in special education.—Funds support research to build the evidence base on improving special education and early intervention services and outcomes for infants, toddlers, and children with disabilities.

Statewide longitudinal data systems.—Funds support competitive grant awards to States to foster the design, development, implementation, and use of longitudinal data systems. In addition, funds would support awards to public and private agencies to improve data coordination, quality, and use at the local, State, and national levels.

Special education studies and evaluations.—Funds support studies, evaluations, and assessments related to the implementation of the Individuals with Disabilities Education Act in order to improve special education and early intervention services and outcomes for infants, toddlers, and children with disabilities.

The Program Administration account includes the direct Federal costs of providing grants and administering early, elementary, and secondary education; Indian education; English language acquisition; higher education; career, technical, and adult education; special education programs; and programs for persons with disabilities. It also supports assessment, statistics, and research activities.

In addition, this account includes the cost of providing centralized support and administrative services, overall policy development, and strategic planning for the Department. Included in the centralized activities are rent and mail services; telecommunications; contractual services; financial management and accounting, including payments to schools, education agencies and other grant recipients, and preparation of auditable financial statements; information technology services and security; personnel management; personnel security; budget formulation and execution; legal services; congressional and public relations; and intergovernmental affairs. Included in this account is the Department of Education's cost to relocate staff and renovate buildings occupied by Department staff.

Also included in this account are contributions from the public. Contributions not designated for a specific purpose are in the account's Gifts and Bequests Miscellaneous Fund.

Reimbursable program.—Reimbursements to this account are for providing administrative services to other agencies.

GENERAL PROVISIONS

SEC. 301. No funds appropriated in this Act may be used to prevent the implementation of programs of voluntary prayer and meditation in the public schools.

(TRANSFER OF FUNDS)

SEC. 302. Not to exceed 1 percent of any discretionary funds (pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985) which are appropriated for the Department of Education in this Act may be transferred between appropriations, but no such appropriation shall be increased by more than 3 percent by any such transfer: Provided, That the transfer authority granted by this section shall not be used to create any new program or to fund any project or activity for which no funds are provided in this Act: Provided further, That the Committees on Appropriations of the House of Representatives and the Senate are notified at least 15 days in advance of any transfer.

SEC. 303. Funds appropriated in this Act and consolidated for evaluation purposes under section 8601(c) of the ESEA shall be available from July 1, 2023, through September 30, 2024.

SEC. 304. (a) An institution of higher education that maintains an endowment fund supported with funds appropriated for title III or V of the HEA for fiscal year 2023 may use the income from that fund to award scholarships to students, subject to the limitation in section 331(c)(3)(B)(i) of the HEA. The use of such income for such purposes, prior to the enactment of this Act, shall be considered to have been an allowable use of that income, subject to that limitation.

(b) Subsection (a) shall be in effect until titles III and V of the HEA are reauthorized.

SEC. 305. Section 114(f) of the HEA (20 U.S.C. 1011c(f)) is amended by striking "2022" and inserting "2023".

SEC. 306. Section 458(a) of the HEA (20 U.S.C. 1087h(a)) is amended in paragraph (4) by striking "2022" and inserting "2023".

(CANCELLATION)

SEC. 307. Of the amounts appropriated under Section 401(b)(7)(A)(iv)(XI) of the Higher Education Act of 1965 (20 U.S.C. 1070a(b)(7)(A)(iv)(XI)) for fiscal year 2023, \$141,000,000 are hereby cancelled.

SEC. 308. Of the amounts made available under this title under the heading "Student Aid Administration", \$2,300,000 may be used by the Secretary of Education to conduct outreach to borrowers of loans made under part D of title IV of the Higher Education Act of 1965 who may intend to qualify for loan cancellation under section 455(m) of such Act (20 U.S.C. 1087e(m)), to ensure that borrowers are meeting the terms and conditions of such loan cancellation: Provided, That the Secretary shall specifically conduct outreach to assist borrowers who would qualify for loan cancellation under section 455(m) of such Act except that the borrower has made some, or all, of the 120 required payments under a repayment plan that is not described under section 455(m)(A) of such Act, to encourage borrowers to enroll in a qualifying repayment plan: Provided further, That the Secretary shall also communicate to all Direct Loan borrowers the full requirements of section 455(m) of such Act and improve the filing of employment certification by providing improved outreach and information such as outbound calls, electronic communications, ensuring prominent access to program requirements and benefits on each servicer's website, and creating an option for all borrowers to complete the entire payment certification process electronically and on a centralized website.

SEC. 309. None of the funds made available by this Act may be used in contravention of section 203 of the Department of Education Organization Act (20 U.S.C. 3413).

(INCLUDING TRANSFER OF FUNDS)

SEC. 310. Notwithstanding any other provision of law, the Secretary may reserve not more than 0.5 percent from any amount made available in this Act for an HEA program, except for any amounts made available for subpart 1 of part A of title IV of the HEA, to carry out rigorous and independent evaluations and to collect and analyze outcome data for any program authorized by the HEA: Provided, That no funds made available in this Act for the "Student Aid Administration" account shall be subject to the reservation under this section: Provided further, That any funds reserved under this section shall be available through September 30, 2023: Provided further, That if, under any other provision of law, funds are authorized to be reserved or used for evaluation activities with respect to a program or project, the Secretary may also reserve funds for such program or project for the purposes described in this section so long as the total reservation of funds for such program or project does not exceed any statutory limits on such reservations: Provided further, That not later than 10 days prior to the initial obligation of funds reserved under this

section, the Secretary shall submit to the Committees on Appropriations of the Senate and the House of Representatives, the Committee on Health, Education, Labor and Pensions of the Senate, and the Committee on Education and Labor of the House of Representatives a plan that identifies the source and amount of funds reserved under this section, the impact on program grantees if funds are withheld for the purposes of this section, and the activities to be carried out with such funds.

NAVAL REACTORS—Continued

Naval Reactors.—This account funds all naval nuclear propulsion work, beginning with reactor technology development and design, continuing through reactor operation and maintenance, and ending with final disposition of naval spent nuclear fuel. These efforts ensure the safe and reliable operation of reactor plants in nuclear-powered submarines and aircraft carriers, enable continued technology development for future generations of nuclear-powered warships, and supports recapitalization of laboratory facilities and environmental remediation of legacy responsibilities. Due to the crucial nature of nuclear reactor work, Naval Reactors is a centrally managed organization. Federal employees oversee and set policies/procedures for developing new reactor plants and operating existing nuclear plants and the facilities that support these plants.

Programs funded within the Weapons Activities appropriation support the Nation's current and future defense posture and its attendant nationwide infrastructure of science, technology, and engineering capabilities. Weapons Activities provides for the maintenance and refurbishment of nuclear weapons to continue sustained confidence in their safety, reliability, and performance; continued investment in scientific, engineering, and manufacturing capabilities to enable certification of the enduring nuclear weapons stockpile; and manufacture of nuclear weapon components. Weapons Activities also provides for continued maintenance and investment in the NNSA nuclear complex to be more responsive and cost effective. The major elements of the program include the following:

Stockpile Management.—Maintains a safe, secure, and effective nuclear weapons stockpile. Activities include extending the expected life of weapons; maintenance, surveillance, assessment, development, and program planning; providing safe and secure dismantlement of nuclear weapons and components; and providing sustainment of needed manufacturing capabilities and capacities, including process improvements and investments focused on increased efficiency of production operations. The FY 2023 Request also includes a new Nuclear Enterprise Assurance (NEA) subprogram, to prevent, detect, and mitigate adversarial subversion risks to the nuclear weapons stockpile and associated design, production, and testing capabilities.

Production Modernization.—Focuses on the production capabilities of nuclear weapons, including primaries, secondaries, and radiation cases, which are critical to weapon performance.

Stockpile Research, Technology, and Engineering.—Provides the foundation for science-based stockpile decisions, tools, and components; focuses on the most pressing investments the nuclear security enterprise requires to meet Department of Defense warhead needs and schedules; and enables assessment and certification capabilities used throughout the enterprise. Provides the knowledge and expertise needed to maintain confidence in the nuclear weapons stockpile without additional explosive nuclear testing.

Infrastructure and Operations.—Provides the funding required to operate and maintain NNSA facilities and support underlying infrastructure and capabilities at the level necessary to deliver mission results in a safe and secure manner. Modernizes NNSA infrastructure through recapitalization and line-item construction projects.

Defense Nuclear Security.—Provides protection for NNSA personnel, facilities, nuclear weapons, and materials from a full spectrum of threats, ranging from minor security incidents to acts of terrorism. Provides funding for key security program areas at all NNSA facilities.

Secure Transportation Asset.—Provides for the safe, secure transport of nuclear weapons, weapon components, and special nuclear materials to meet mission requirements. The Program Direction subprogram provides for the secure transportation workforce, including the Federal agents.

Information Technology and Cybersecurity.—Provides information technology (IT) and cybersecurity services and solutions for the Nuclear Security Enterprise to accomplish its mission goals and objectives. These services and solutions include commodity IT, unified communications, collaboration tools, mission applications, and cybersecurity oversight and tools.

The Defense Nuclear Nonproliferation (DNN) and the Nuclear Counterterrorism and Incident Response (NCTIR) programs are central to the U.S. strategy to reduce global nuclear security risks. These two programs provide policy and technical leadership to prevent or limit the spread of materials, technology, and expertise related to weapons of mass destruction (WMD); develop technologies that detect the proliferation of WMD worldwide; secure or eliminate inventories of nuclear weapons-related materials and

DEFENSE NUCLEAR NONPROLIFERATION

For Department of Energy expenses, including the purchase, construction, and acquisition of plant and capital equipment and other incidental expenses necessary for defense nuclear nonproliferation activities, in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the ac-

infrastructure; and ensure rapid, effective responses to nuclear or radiological incidents and accidents domestically and overseas.

The major elements of the appropriation account include the following:

Material Management and Minimization (M³).—M³ programs reduce and, when possible, eliminate weapons-usable nuclear material around the world to achieve permanent threat reduction. This includes minimizing the civilian use of highly enriched uranium (HEU); removing or eliminating nuclear material internationally; and disposing of excess nuclear material in the United States.

Global Material Security (GMS).—GMS programs prevent terrorists and other actors from obtaining nuclear and radioactive materials to use in an improvised nuclear device or a radiological dispersal device by working domestically and with partner countries to improve the security of vulnerable materials and facilities and to build sustainable capacity to deter, detect, and investigate illicit trafficking of these materials. GMS works with countries in bilateral partnerships, and with and through multilateral partners such as the International Atomic Energy Agency (IAEA) and International Criminal Police Organization (Interpol).

Nonproliferation and Arms Control (NPAC).—NPAC programs strengthen nonproliferation and arms control regimes through technology and tool development combined with policy innovation and implementation to prevent proliferation, support peaceful nuclear uses, and enable detection, monitoring and verification missions. NPAC builds the capacity of the IAEA and partner countries to implement international safeguards obligations; leads domestic and international programs implementing U.S. export control obligations; supports the negotiation and implementation of agreements and associated monitoring regimes; and develops approaches and strategies to address emerging nonproliferation and arms control challenges and opportunities.

Defense Nuclear Nonproliferation Research and Development (DNN R&D).—DNN R&D drives the innovation of national and multi-lateral technical capabilities to detect nuclear detonations; foreign nuclear weapons activities; and the presence, movement, or diversion of special nuclear materials. The program also sustains and develops foundational nonproliferation technical competencies that ensure the technical agility needed to support a broad spectrum of U.S. nonproliferation missions and to anticipate threats and build the human capacity to support these missions into the future. DNN R&D leverages the unique facilities and scientific skills of the Department of Energy, academia, and industry to perform research, conduct technology demonstrations, develop prototypes, and produce and deliver sensors for integration into operational systems.

NNSA Bioassurance Program.—The NNSA Bioassurance Program establishes a national security R&D program to anticipate and detect global biological threats and broaden DOE's role in national biodefense. The NNSA contribution complements DOE's support of other departments and U.S. biodefense strategies and plans. The NNSA Bioassurance program will work in close coordination with the Office of Science (DOE/SC) by integrating NNSA's high-security work with DOE/SC's supported "open" science model. The Program will provide the full spectrum of bioassurance capabilities, informed by national security expertise that is drawn from parallel and analogue work on nuclear threats, risks, export controls and licensing, nonproliferation, detection, and verification.

Nonproliferation Construction.—The Nonproliferation Construction Program supports the construction of projects for the dilute and dispose strategy to fulfill the United States' commitment to dispose of 34 metric tons of surplus U.S. weapon-grade plutonium and remove plutonium from the state of South Carolina. The request will complete the final design review and continue the activities required to achieve CD-2/3, *Approval of Performance Baseline and Start of Construction*, to initiate construction on the Surplus Plutonium Disposition (SPD) project. Using available prior year balances, physical termination activities for the Mixed Oxide Fuel Fabrication project were completed in FY 2021 and closeout activities will be completed in FY 2022.

Nuclear Counterterrorism and Incident Response (NCTIR).—The NCTIR Program applies the unique technical expertise of NNSA's nuclear security enterprise to prepare for, prevent, respond to, mitigate, and recover from nuclear or radiological incidents and accidents worldwide. To that end, NCTIR provides scientific understanding of nuclear threat devices, including potential terrorist and proliferant state nuclear capabilities; informs U.S. and international threat reduction policies and regulations; sustains Nuclear Emergency Support Team (NEST) readiness to respond to nuclear and radiological incidents and accidents at home and overseas; provides targeted training to domestic and international partners on nuclear and radiological emergency preparedness and response; and delivers expert analysis and technical capabilities to support national counterproliferation efforts. NCTIR also provides both the structure and processes to ensure a comprehensive and integrated approach to emergency management and continuity of operations, thereby safeguarding the health and safety of workers and the public, protecting the environment, and enhancing the resilience of the Department and the Nation.

The Defense Environmental Cleanup program is responsible for protecting human health and the environment by identifying and reducing risks, as well as managing waste and facilities, at sites where the Department carried out defense-related nuclear research and production activities. Those activities resulted in radioactive, hazardous, and mixed-waste contamination requiring remediation, stabilization, decontamination and decommissioning, or some other type of cleanup action. The Budget displays the cleanup program by site and activity.

Closure Sites.—Funds post-closure administration costs after the physical completion of cleanup, including costs for contract closeout and litigation support.

Hanford Site.—Funds cleanup and environmental restoration to protect the Columbia River and surrounding communities. The Hanford site cleanup is managed by two Environmental Management (EM) site offices: the Richland Operations Office and the Office of River Protection.

The Richland Office is responsible for cleanup activities on most of the geographic area making up the Hanford site. The primary cleanup focus is decontamination and decommissioning legacy facilities and characterizing and treating contaminated groundwater.

The Office of River Protection is responsible for the safe storage, retrieval, treatment, immobilization, and disposal of approximately 56 million gallons of radioactive waste stored in 177 underground tanks. It is also responsible

for related operation, maintenance, engineering, and construction activities, including those connected to the Waste Treatment and Immobilization Plant being built to solidify the liquid tank waste in a glass form that can be safely stored.

Idaho.—Funds retrieval, treatment, and disposition of nuclear and hazardous wastes and spent nuclear fuel, and legacy site cleanup activities.

NNSA Sites.—Funds the safe and efficient cleanup of the environmental legacy of past operations at National Nuclear Security Administration (NNSA) sites including Nevada National Security Site, Sandia National Laboratories, Lawrence Livermore National Laboratory, Los Alamos National Laboratory and the Separations Process Research Unit. The cleanup strategy follows a risk-informed approach that focuses first on those soil and groundwater contaminant plumes and sources that are the greatest contributors to risk. The overall goal is first to ensure that risks to the public and workers are controlled, then to clean up soil and groundwater using a risk-informed methodology. NNSA is responsible for long-term stewardship of its sites after physical cleanup is completed. Los Alamos legacy cleanup is managed by the EM Los Alamos field office. Funding is included to support the deactivation and decommissioning (D&D) of specific high-risk excess facilities by the Environmental Management program for Lawrence Livermore and Los Alamos National Laboratories.

Oak Ridge.—Funds defense-related cleanup of the three facilities that make up the Oak Ridge site: the East Tennessee Technology Park, the Oak Ridge National Laboratory, and the Y-12 Plant. The overall cleanup strategy is based on surface water considerations, encompassing five distinct watersheds that feed the adjacent Clinch River.

Savannah River Site.—Funds the safe stabilization, treatment, and disposition of legacy nuclear materials, spent nuclear fuel, and waste at the Savannah River site. Key activities include operating the Defense Waste Processing Facility, which is solidifying the high activity liquid waste contained in underground storage tanks, and operation of the Salt Waste Processing Facility, which separates various tank waste components and treats and disposes the low activity liquid waste stream.

Waste Isolation Pilot Plant.—Funds the world's first permitted deep geologic repository for the permanent disposal of radioactive waste, and the Nation's only disposal site for defense-generated transuranic waste. The Waste Isolation Pilot Plant, managed by the Carlsbad Field Office, is an operating facility, supporting the disposal of transuranic waste from waste generator and storage sites across the DOE complex. The Waste Isolation Pilot Plant is crucial to the Department of Energy (DOE) completing its cleanup and closure mission.

Program Direction.—Funds the Federal workforce responsible for the overall direction and administrative support of the EM program, including both Headquarters and field personnel.

Program Support.—Funds management and direction for various cross-cutting EM and DOE initiatives such as science, technology, engineering, and mathematics activities at Minority Serving Institutions and investments in historically underserved communities to support program needs, inter-governmental activities, and analyses and integration activities across DOE in a consistent, responsible, and efficient manner.

Safeguards and Security.—Funds activities to protect against unauthorized access, theft, diversion, loss of custody or destruction of DOE assets, and hostile acts that could cause adverse impacts to fundamental national security or the health and safety of DOE and contractor employees, the public or the environment.

Technology Development and Deployment.—Funds projects managed through Headquarters to address the immediate, near- and long-term technology needs identified by the EM sites, enabling them to accelerate their cleanup schedules, treat orphaned wastes, improve worker safety, and provide technical foundations for the sites' cleanup decisions. These projects focus on maturing and deploying the technologies necessary to accelerate tank waste processing, treatment, and waste loading.

Environment, Health, Safety and Security Mission Support.—The program supports the Department's health, safety, environment, and security programs to enhance productivity while maintaining the highest standards of safe operation, protection of national assets, and environmental sustainability. The program functions include: policy and guidance development and technical assistance; analysis of health, safety, environment, and security performance; nuclear safety; domestic and international health studies; medical screening programs for former workers; Energy Employee Occupational Illness Compensation Program Act support; quality assurance programs; interface with the Defense Nuclear Facilities Safety Board; national security information programs; and security for the Department's facilities and personnel in the National Capital Area.

Enterprise Assessments.—The program supports the Department's independent assessments of security, cybersecurity, emergency management, and environment, safety and health performance; enforcement of worker safety and health, nuclear safety; and classified information security regulations; and implementation of security and safety professional development and training programs.

Specialized Security Activities.—The program supports national security related analyses requiring highly specialized skills and capabilities.

Legacy Management.—The program supports long-term stewardship activities (e.g., groundwater monitoring, disposal cell maintenance, records management, asset management, community outreach and management of natural resources) at sites where active remediation has been completed. In FY 2023, the program will also support strengthening Environmental Justice activities. Lastly, Legacy Management supports post-retirement benefits for former contractor employees.

Hearings and Appeals.—The Office of Hearings and Appeals adjudicates personnel security cases, as well as whistleblower reprisal complaints filed by DOE contractor employees. The office is the appeal authority in various other areas, including Freedom of Information Act and Privacy Act appeals. In addition, the office decides requests for exception from DOE orders, rules, regulations, and is responsible for the DOE's alternative dispute resolution function.

Defense-Related Administrative Support.—Obligations are included for defense-related administrative support that serves to offset costs attributable to the defense-related programs within the Department of Energy that utilize the department-wide services funded by the Departmental Administration account. These include accounting and information technology department-wide services.

The Office of Science (SC) is the nation's largest Federal supporter of basic research in the physical sciences. The SC portfolio has two principal thrusts: direct support of scientific research and direct support of the design, development, construction, and operation of unique, open-access scientific user facilities. SC initiates three new research initiatives to include Energy Earthshots; Funding for Accelerated, Inclusive Research (FAIR); and Accelerate Innovations in Emerging Technologies (Accelerate). The Energy Earthshots initiative will support both small group awards and larger center awards through the Energy Earthshot Research Centers. These centers will bring together multi-investigator, multi-disciplinary teams to address key research challenges at the interface between basic research and applied research and development activities. The FAIR initiative, will target efforts to increase participation and retention of individuals from underrepresented groups in SC research activities. The Accelerate initiative will support scientific research to accelerate the transition of science advances to energy technologies. The request also supports ongoing investments in priority areas including clean energy, microelectronics, critical materials, quantum

information science (QIS), artificial intelligence (AI) and machine learning (ML), and exascale computing.

Advanced Scientific Computing Research.—The Advanced Scientific Computing Research (ASCR) program supports research in applied mathematics and computer science; delivers the most advanced computational scientific applications in partnership with disciplinary science; advances computing and networking capabilities; and develops future generations of computing hardware and tools for science, in partnership with the research community and U.S. industry. The strategy to accomplish this has three thrusts: 1) developing, deploying, and maintaining world-class computing and network facilities for science; 2) advancing research in applied mathematics, computer science and advanced networking; and 3) partnering with other DOE and SC programs to advance the use of its high performance computers to drive scientific advances for the Nation in areas such as clean energy and earth systems modeling. The program supports the development, maintenance, and operation of large high-performance computing and network facilities, including the Leadership Computing Facilities at Oak Ridge and Argonne National Laboratories, the National Energy Research Scientific Computing Facility at Lawrence Berkeley National Laboratory, and the Energy Sciences Network.

SC and the National Nuclear Security Administration (NNSA) continue to partner on the Department's Exascale Computing Initiative (ECI) to overcome key exascale challenges in parallelism, energy efficiency, and reliability, with deployment of the Nation's first exascale system in calendar year 2021 and additional exascale systems in calendar years 2022 and 2023. The ECI focuses on delivering advanced simulation through an exascale-capable computing program, emphasizing sustained performance in science and national security mission applications and increased convergence between exascale, AI, and large-data analytic computing.

Basic Energy Sciences.—The Basic Energy Sciences (BES) program supports fundamental research to understand, predict, and ultimately control matter and energy at the electronic, atomic, and molecular levels to provide the foundations for new energy technologies and to support the Department of Energy (DOE) missions in energy, environment, and national security. The research disciplines that BES supports—condensed matter and materials physics, chemistry, geosciences, and aspects of biosciences are those that discover new materials and design new chemical processes that touch virtually every important aspect of energy resources, production, conversion, transmission, storage, efficiency, and waste mitigation.

BES also manages a research portfolio in accelerator physics, x-ray and neutron detectors, and x-ray-optics to explore technology options for developing the next generations of x-ray and neutron sources. On behalf of DOE, BES manages the DOE Established Program to Stimulate Competitive Research (EPSCoR), which supports early-stage energy research in U.S. states and territories that are historically under-represented in federally-supported research.

BES supports twelve scientific user facilities consisting of a complementary set of intense x-ray sources, neutron sources, and research centers for nanoscale science. BES facilities probe materials and chemical systems with ultrahigh spatial, temporal, and energy resolutions to investigate the critical functions of matter and tackle some of the most challenging science questions and urgent national priorities such as the fight against COVID-19. These facilities undergo continual development and upgrade of capabilities, including fabricating new X-ray and neutron experimental stations, improving core facilities, and providing new stand-alone instruments and capabilities. BES also manages construction projects to build new or upgrade existing facilities to provide world-leading tools and instruments to the scientific community and maintain U.S. leadership in the physical sciences.

Biological and Environmental Research.—The Biological and Environmental Research (BER) program supports fundamental research to understand complex biological, biogeochemical, and physical principles of natural systems at scales extending from the genome of microbes and plants to the environmental and ecological processes at the scale of the planet

Earth. BER's support of basic research will contribute to a future of stable, reliable, and resilient energy sources and infrastructures, that will lead to climate solutions, strengthen economic prosperity and assure environmental justice. BER research in biological systems science uses approaches such as genome sequencing, secure biodesign, proteomics, metabolomics, structural biology, and high-resolution imaging and characterization. Integration of this experimental biological information into computational models for iterative testing and validation advances a predictive understanding of biological systems for use in secure, clean, affordable, and reliable energy for adaptation to industry. New efforts in clean energy bio-based materials and foundational bioenergy research underpin new biotechnology and the bioeconomy.

BER research in Earth and environmental systems science is focused on scientific analysis and modeling of the sensitivity and uncertainty of Earth system predictions to atmospheric, cryospheric, oceanic, and biogeochemical processes, with continued support of the Energy Exascale Earth System Model. New Urban Integrated Field Laboratories combine modeling and observations of emerging energy technologies in urban regions, enabling the evaluation of the societal and environmental impacts of current and future energy policies. Augmented planning and implementation continues for a Climate Resilience Center effort, facilitating translations of BER investments in foundational climate research into actionable solutions for impacted communities and addressing the Administration priorities involving climate solutions and environmental justice. Operations and equipment refresh continue at the three BER scientific user facilities: the Joint Genome Institute, the Atmospheric Radiation Measurement Research Facility, and the Environmental Molecular Sciences Laboratory.

Fusion Energy Sciences.—The Fusion Energy Sciences (FES) program mission is to expand the fundamental understanding of matter at very high temperatures and densities and to build the scientific foundation needed to develop a fusion energy source. This is accomplished through the study of plasma, the fourth state of matter, and how it interacts with its surroundings. High-temperature fusion plasmas at hundreds of millions of degrees are being exploited in the laboratory to become the basis for a future clean energy source. Once developed, fusion energy will provide a clean energy source that is well-suited for on-demand, dispatchable electricity production, supplementing intermittent renewables and fission.

The FES program has four elements: 1) Burning Plasma Science: Foundations—The behavior of magnetically confined fusion plasmas is experimentally explored on the DIII-D National Fusion Facility and the National Spherical Torus Experiment-Upgrade (currently under repair), which are national scientific user facilities. Fusion theory and simulation activities predict and interpret the complex behavior of magnetically-confined plasmas. This element also supports partnerships with the private sector through the Innovation Network for Fusion Energy (INFUSE) program and a new milestone-based cost-share fusion enterprise program. In addition, FES will initiate an inertial fusion energy science and technology program; 2) Burning Plasma Science: Long Pulse—U.S. scientists take advantage of international partnerships to conduct research on overseas tokamaks and stellarators with unique capabilities. The element also supports research to develop the nuclear science and novel materials that can harness the power from a burning plasma and withstand the extreme fusion environment; 3) Burning Plasma Science: High Power—This element supports the U.S. Contributions to the International Thermonuclear Experimental Reactor (ITER) Project, the world's first burning plasma experiment, and the initiation of an ITER Research program; and 4) Discovery Plasma Science—This element supports research in Plasma Science & Technology, including plasma astrophysics, high-energy-density laboratory plasmas (HEDLP), and low-temperature plasmas. Besides ITER, FES also manages construction projects to build new or upgrade existing facilities to provide world-leading tools and instruments to the scientific community and maintain U.S. leadership in several areas. These include the Materials Plasma Exposure eXperiment (MPEx) for fusion materials science and

the Matter in Extreme Conditions (MEC) Petawatt Upgrade at SLAC National Accelerator Laboratory for HEDLP science.

High Energy Physics.—The High Energy Physics (HEP) program supports fundamental research to understand how the universe works by discovering the elementary constituents of matter and energy, probing the interactions among them, and exploring the basic nature of space and time. A world-wide program of particle physics research is underway to discover what lies beyond the Standard Model of particle physics. Five intertwined science drivers of particle physics provide compelling lines of inquiry that show great promise for discovery: 1) use the Higgs boson as a new tool for discovery; 2) pursue the physics associated with neutrino mass; 3) identify the new physics of dark matter; 4) understand cosmic acceleration, dark energy, and inflation; and 5) explore new particles, interactions and physical principles. The program enables scientific discovery through a strategy organized along three frontiers: 1) The Energy Frontier, where researchers accelerate particles to the highest energies and collide them to produce and study the fundamental constituents of matter; 2) The Intensity Frontier, where researchers use a combination of intense particle beams and highly sensitive detectors to make extremely precise measurements of particle properties, to study some of the rarest particle interactions predicted by the Standard Model, and to search for new physics; and 3) The Cosmic Frontier, where researchers seek to reveal the nature of dark matter and dark energy by using naturally occurring particles to explore new phenomena. The highest-energy particles ever observed have come from cosmic sources, and the ancient light from distant galaxies allows scientists to map the distribution of dark matter and perhaps unravel the nature of dark energy. Investments in Theoretical, Computational, and Interdisciplinary Physics provide the framework to explain experimental observations. Advanced Technology Research and Development (R&D) fosters fundamental and innovative research into particle acceleration and detection techniques and instrumentation, supporting the frontiers and enabling future discovery experiments. HEP supports two particle accelerator scientific user facilities. HEP also manages construction projects to build new or upgrade existing facilities, providing world-leading tools and instruments to the particle physics scientific community.

Nuclear Physics.—The mission of the Nuclear Physics (NP) program is to solve an enduring mystery of the universe—what are the basic constituents of matter and how do they interact to form the elements and the properties we observe? To solve this mystery, NP supports research to discover, explore, and understand all forms of nuclear matter, including exotic forms that existed in the first moments after the Big Bang. The goal is new knowledge that can benefit commerce, medicine, and national security. Achieving the goal requires support for advanced tools and the scientists and engineers who use them. NP provides ~95% of the support for basic nuclear physics research in the United States. Experimental approaches use large accelerators at national scientific user facilities to collide particles at nearly the speed of light, producing short-lived forms of nuclear matter for investigation. NP currently operates three national user facilities: the Relativistic Heavy Ion Collider, the Continuous Electron Beam Accelerator Facility, and the Argonne Tandem Linac Accelerator Facility. Also three powerful "microscopes" with complementary "resolving powers", which also produce advanced accelerator technology. Other research attempts to understand the theory of the strong nuclear force via Quantum Chromodynamics (QCD). An exciting vision to which NP researchers are making seminal contributions is quantum computing — future computers capable of solving QCD problems intractable with today's capabilities. To maintain U.S. leadership, the Facility for Rare Isotope Beams (FRIB) will begin operations in FY 2022 and will uniquely afford access to 80% of all isotopes predicted to possibly exist in nature, including over 1,000 never produced on earth. The Electron-Ion Collider (EIC) project is under development; when the EIC is completed in the next decade, it will provide unprecedented capability to discover how the mass of everyday objects is dynamically generated by the interaction of quarks and gluons. A targeted program of fundamental symmetries experiments is ongoing, including transformative

research to determine whether the elusive neutrino particle is its own antiparticle. The National Nuclear Data Center is supported to collect, evaluate, curate, and disseminate nuclear physics data for basic nuclear physics research and applied nuclear technologies.

Isotope R&D and Production.—The DOE Isotope Program (DOE IP) produces critical radioactive and stable isotopes in short supply for the Nation that no domestic entity has the infrastructure or core competency to produce. Isotopes are high-priority commodities of strategic importance for the Nation and are essential in medical diagnosis and treatment, discovery science, national security and preparedness, industrial processes and manufacturing, space exploration and communications, biology, archeology, quantum science, clean energy, environmental science, and other fields. The DOE IP supports high-priority research on innovative and transformative approaches to isotopes production and processing, such as advanced manufacturing, artificial intelligence and machine learning, and robotics. The DOE IP promotes the development of robust, domestic supply chains of strategic isotopes and ensures national preparedness of critical infrastructure to mitigate risks in supply. The program provides mission readiness for the production and processing of radioactive and stable isotopes that are vital to the missions of many Federal agencies including the National Institutes of Health, National Institute of Standards and Technology, Department of Agriculture, Department of Defense, Department of Homeland Security, NNSA, and DOE SC programs. DOE IP continues to work in close collaboration with all federal organizations to develop strategic plans for isotope production and to establish effective communication to better forecast isotope needs and leverage resources. Construction continues for the Stable Isotope Production and Research Center to expand the stable isotope production capability to meet the demands of the Nation and mitigate dependency on stable isotope supply chains from foreign countries. Investments in QIS and Climate/Clean Energy support technology development for isotopes of interest. The DOE Isotope Traineeship advances workforce development in the field of isotope production and processing, promoting a safe, diverse, equitable and inclusive environment.

Accelerator R&D and Production.—Accelerator R&D and Production (ARDAP) supports cross-cutting basic R&D in accelerator science and technology, access to unique SC accelerator R&D infrastructure, workforce development, and public-private partnerships to advance new technologies for use in SC's scientific facilities and in commercial products. ARDAP supports fundamental research, user facility operations, and production of accelerator technologies in industry, with the aim of ensuring SC and broader U.S. Government have the best scientific instruments available. Reducing supply chain risks by re-shoring critical accelerator technologies is a key part of ARDAP's mission. ARDAP supports early-stage translational research to move advanced accelerator technology out of scientific laboratories and into broader applications in industry, environmental cleanup, medicine, and national security.

Workforce Development for Teachers and Scientists.—The Workforce Development for Teachers and Scientists (WDTS) program mission is to help ensure that DOE has a sustained pipeline of science, technology, engineering, and mathematics workers. This is accomplished through support of undergraduate internships, and graduate thesis research and collaborative faculty research opportunities at the DOE laboratories; and annual, nationwide, middle and high-school science competitions culminating in the National Science Bowl in Washington, D.C. These investments help develop the next generation of scientists and engineers.

Science Laboratories Infrastructure.—The Science Laboratories Infrastructure (SLI) program supports scientific and technological innovation at the SC laboratories by funding and sustaining mission-ready infrastructure and fostering safe and environmentally responsible operations. The program provides state-of-the-art facilities and infrastructure that are flexible, reliable, and sustainable in support of scientific discovery. The SLI program also funds Payments in Lieu of Taxes to local communities around the Argonne, Brookhaven, and Oak Ridge National Laboratories. The SLI

program continues to focus on improving infrastructure across the SC national laboratory complex. The FY 2023 request includes funding for eleven on-going SLI construction projects: 1) Princeton Plasma Innovation Center at PPPL; 2) Critical Infrastructure Recovery & Renewal at PPPL; 3) Critical Utilities Rehabilitation Project at BNL; 4) Seismic and Safety Modernization at LBNL; 5) CEBAF Renovation and Expansion at TJNAF; 6) Large Scale Collaboration Center at SLAC; 7) Argonne Utilities Upgrade at ANL; 8) Linear Assets Modernization Project at LBNL; 9) Critical Utilities Infrastructure Revitalization at SLAC; 10) Utilities Infrastructure Project at FNAL; and 11) Biological and Environmental Program Integration Center at LBNL.

Safeguards and Security.—The Safeguards and Security (S&S) program is designed to ensure appropriate security measures are in place to support the SC mission requirement of open scientific research and to protect critical assets within SC laboratories. This is accomplished by providing physical controls that will mitigate possible risks to the laboratories' employees, nuclear and special materials, classified and sensitive information, and facilities. The S&S program also provides funding for cyber security for the laboratories' information technology systems to protect electronic data while enabling the SC mission.

Program Direction.—Science Program Direction supports a highly skilled Federal workforce to develop and oversee SC investments in research and scientific user facilities. SC provides public access to DOE scientific findings to further leverage the Federal science investment and advance the scientific enterprise. SC requires highly skilled scientific and technical program and project managers, as well as experts in areas such as acquisition, finance, legal, construction, and infrastructure management, human resources, and environmental, safety, and health oversight. Oversight of DOE's basic research portfolio, which includes extramural grants and contracts supporting nearly 29,000 researchers located at over 300 institutions and the 17 DOE national laboratories, spanning all fifty states and the District of Columbia and 28 scientific user facilities serving nearly 34,000 users per year, as well as supervision of major construction projects, is a Federal responsibility.

The U.S. Department of Energy's Advanced Research Projects Agency-Energy (ARPA-E) was established by the America COMPETES Act of 2007 (Public Law 110–69), as amended. The mission of ARPA-E is to enhance the economic, climate, and energy security of the United States through the development of advanced technologies that reduce imports of energy from foreign sources; reduce energy-related emissions, including greenhouse gases; improve the energy efficiency of all economic sectors; provide transformative solutions to improve the management, clean-up,

and disposal of radioactive waste and spent nuclear fuel; improve the resilience, reliability, and security of infrastructure to produce, deliver, and store energy; mitigate the causes of, reverse the impact of, adapt to, or increase resilience against climate change; and monitor, analyze, and utilize climate emissions data. ARPA-E is expanding its scope to invest in climate-related innovations necessary to achieve net zero climate-inducing emissions by 2050 and address adaptation and resilience due to a changing climate. ARPA-E will ensure that the United States maintains a technological lead in developing and deploying advanced energy technologies. ARPA-E will identify and promote revolutionary advances in energy and climate-related applied sciences, translating scientific discoveries and cutting-edge inventions into technological innovations. It will also accelerate transformational technological advances in areas where industry by itself is not likely to invest due to technical and financial uncertainty. The role of ARPA-E is not to duplicate DOE's basic research and applied programs but to focus on novel early-stage energy research and development with technology applications that can be meaningfully advanced with a small investment over a defined period of time.

The Office of Nuclear Energy (NE) funds a broad range of research and development (R&D) activities and supports Federal nuclear energy R&D infrastructure. The FY 2023 Budget continues programmatic support for advanced reactor R&D activities; fuel cycle R&D; and the safe, environmentally compliant, and cost-effective operation of the Department's facilities vital to nuclear energy R&D activities.

Directed R&D and University Programs.—This program focuses nuclear energy related research and development activities conducted by small businesses and supports university level engineering and science through competitively awarded university led research and development and infrastructure, universities research reactor fuel services, and scholarships and fellowships.

Reactor Concepts Research, Development and Demonstration.—This program conducts R&D on advanced reactor designs and advanced technologies for light water reactors (LWR).

Fuel Cycle Research and Development.—This program conducts R&D on advanced fuel cycle technologies that have the potential to improve resource utilization and energy generation, reduce waste generation, enhance safety, and mitigate risk of proliferation.

Nuclear Energy Enabling Technologies.—This program conducts R&D and strategic infrastructure investments to develop innovative and crosscutting nuclear energy technologies, including investments in modeling and simulation tools and providing access to unique nuclear energy research capabilities through the Nuclear Science User Facilities (NSUF).

Advanced Reactors Demonstration Program.—This program focuses Departmental and non-Federal resources on the development of commercial

reactor technologies that may be ready for demonstration and deployment in the mid-term.

Versatile Test Reactor Project.—This program will provide the United States with a fast neutron testing capability to support the development of advanced nuclear reactor technologies. The Versatile Test Reactor (VTR) project will provide a leading edge capability for accelerated testing of advanced nuclear fuels, materials, instrumentation, and sensors.

Infrastructure.—This program manages Department of Energy mission critical facilities at the Idaho National Laboratory (INL), creating a safe and compliant status to support the Department's nuclear energy research and development activities, and testing of naval reactor fuels and reactor core components.

Idaho Sitewide Safeguards and Security.—This program supports the INL complex nuclear facility infrastructure and enables R&D in support of multiple program missions.

International Nuclear Energy Cooperation.—This program leads the Department's international engagement for civil nuclear energy, including analysis, development, and coordination activities.

Program Direction.—This program provides the Federal staffing resources and associated costs required to support the overall direction and execution of NE programs.

In FY 2023, NE will continue to support the Civil Nuclear Credit Program, a \$6 billion strategic investment (\$1.2 billion for each of five years) through the Bipartisan Infrastructure Law (BIL), to help preserve the existing U.S. reactor fleet and save thousands of high-paying jobs across the country. Under the new program, owners or operators of commercial U.S. reactors can apply for certification to bid on credits to support their continued operations. An application must demonstrate the reactor is projected to close for economic reasons and that closure will lead to a rise in air pollutants and carbon emissions. The program is available for plants that are certified as safe to continue operations and prioritizes plants that use domestically produced fuel.

ELECTRICITY

For Department of Energy expenses including the purchase, construction, and acquisition of plant and capital equipment, and other expenses necessary for electricity activities in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the acquisition or condemnation of any real property or any facility or for plant or facility acquisition, construction, or ex-

pansion, \$297,386,000, to remain available until expended: *Provided*, That of such amount, \$17,586,000 shall be available until September 30, 2024, for program direction.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

ELECTRICITY

For an additional amount for "Electricity", \$8,100,000,000, to remain available until expended: *Provided*, That of the amount provided under this heading in this Act, \$5,000,000,000 shall be for grants under section 40101 of division D of this Act: *Provided further*, That of the funds in the preceding proviso, \$1,000,000,000, to remain available until expended, shall be made available for fiscal year 2022, \$1,000,000,000, to remain available until expended, shall be made available for fiscal year 2023, \$1,000,000,000, to remain available until expended, shall be made available for fiscal year 2024, \$1,000,000,000, to remain available until expended, shall be made available for fiscal year 2025, and \$1,000,000,000, to remain available until expended, shall be made available for fiscal year 2026: *Provided further*, That of the amount provided under this heading in this Act, \$50,000,000 shall be to carry out the Transmission Facilitation Program, including for any administrative expenses of carrying out the program, as authorized in section 40106(d)(3) of division D of this Act: *Provided further*, That of the funds in the preceding proviso, \$10,000,000, to remain available until expended, shall be made available for fiscal year 2022, \$10,000,000, to remain available until expended, shall be made available for fiscal year 2023, \$10,000,000, to remain available until expended, shall be made available for fiscal year 2024, \$10,000,000, to remain available until expended, shall be made available for fiscal year 2025, and \$10,000,000, to remain available until expended, shall be made available for fiscal year 2026: *Provided further*, That of the amount provided under this heading in this Act and in addition to amounts otherwise made available for this purpose, \$3,000,000,000, to remain available until expended, shall be to carry out activities under the Smart Grid Investment Matching Grant Program, as authorized in section 1306 of the Energy Independence and Security Act of 2007 (42 U.S.C. 17386), as amended by section 40107 of division D of this Act: *Provided further*, That of the funds in the preceding proviso, \$600,000,000, to remain available until expended, shall be made available for fiscal year 2022, \$600,000,000, to remain available until expended, shall be made available for fiscal year 2023, \$600,000,000, to remain available until expended, shall be made available for fiscal year 2024, \$600,000,000, to remain available until expended, shall be made available for fiscal year 2025, and \$600,000,000, to remain available until expended, shall be made available for fiscal year 2026: *Provided further*, That of the amount provided under this heading in this Act, \$50,000,000 shall be to carry out an advanced energy security program to secure energy networks, as authorized under section 40125(d) of division D of this Act: *Provided further*, That not later than 90 days after the date of enactment of this Act, the Secretary of Energy shall submit to the House and Senate Committees on Appropriations and the Senate Committee on Energy and Natural Resources and the House Committee on Energy and Commerce a detailed spend plan for fiscal year 2022: *Provided further*, That for each fiscal year through 2026, as part of the annual budget submission of the President under section 1105(a) of title 31, United States Code, the Secretary of Energy shall submit a detailed spend plan for that fiscal year: *Provided further*, That up to three percent of the amounts made available under this heading in this Act in each of fiscal years 2022 through 2026 shall be for program direction: *Provided further*, That such amount is designated by the Congress as being for an emergency requirement pursuant to section 4112(a) of H. Con. Res. 71 (115th Congress), the concurrent resolution on the budget for fiscal year 2018, and to section 251(b) of the Balanced Budget and Emergency Deficit Control Act of 1985.] (*Infrastructure Investments and Jobs Appropriations Act.*)

The mission of the Office of Electricity (OE) is to drive electric grid modernization and resilience in energy infrastructure. OE leads the Department of Energy's efforts to strengthen, transform, and improve electricity delivery infrastructure so that consumers have access to resilient, secure, and clean sources of energy. OE programs include:

Transmission Reliability and Resilience (TRR).—The TRR program is focused on ensuring the reliability and resilience of the U.S. electric grid through R&D measurement and control of the electricity system, assessing evolving systems needs, identifying pathways to achieve an equitable transition to decarbonization and electrification, and risk assessment to address challenges across integrated energy systems.

Energy Delivery Grid Operations Technology (EDGOT).—EDGOT supports a public private partnership to develop national-scale energy planning and real-time situation awareness capabilities by focusing on de-

veloping large, networked communication and data infrastructure across multiple utility boundaries. EDGOT's North America Energy Resilience Model (NAERM) will help transition the current reactive state-of-practice to a new energy planning, investment, and operation paradigm in which we proactively develop infrastructure investment strategies.

Resilient Distribution Systems (RDS).—The RDS program develops transformative technologies, tools, and techniques to modernize the distribution portion of the electric delivery system. RDS activities will help harness emerging sources of energy for balance, reliability, and control: EVs, connected homes and buildings, increasing distributed solar, and energy storage.

Cyber Resilient and Secure Utility Communications Networks (SecureNet).—SecureNet, called Cyber R&D in the FY 2022 request to Congress, addresses energy sector cybersecurity associated with electricity delivery systems. SecureNet will focus on data and physics to redesign grid architecture that exposes the electricity system to cyber threats and will pursue coordinated engagement with DOE's other cyber-related activities.

Energy Storage.—The Energy Storage program, which is included in the Department's Grand Challenge, helps ensure the stability, reliability, and resilience of electricity infrastructure. The request supports emerging technology efforts focused on ultra-low-cost chemistries; a new GSL fellowship program; and continued development of the Rapid Operational Validation Initiative.

Transformer Resilience and Advanced Components (TRAC).—The TRAC program develops innovations for grid hardware that carries, controls, and converts electricity, helping to achieve decarbonization goals, ensure reliability and resilience of electric infrastructure, adapt the electricity delivery system to the evolution of the electric power grid, and provide the foundation to invigorate domestic transformer manufacturing. The request supports field validation of innovative, flexible, and adaptable prototypes for large power transformers (LPTs), which will promote greater standardization to increase grid resilience. TRAC will also address critical research needs for solid-state power substations (SSPS) with an emphasis on advanced materials, embedded intelligence for equipment monitoring, and validation of prototype converter building blocks.

Advanced Grid Transformation Solutions (AGTS).—AGTS is a new program in FY 2023 to address the pressing need for rapidly validating and deploying new systems by integrating technology suites in pilot environments to drive new technology adoption. AGTS will support integrated pilots to show how new technologies can help achieve stakeholder objectives. For each applied demonstration area, AGTS will consult stakeholders ensure that the project scope and outputs will be immediately useful to targeted decisionmakers.

Defense Critical Energy Infrastructure (DCEI) Energy Mission Assurance.—The DCEI Energy Mission Assurance program was funded in FY 2021 to identify, evaluate, prioritize, and assist in developing executable strategies to ensure that critical national defense and security missions have reliable access to power. In FY 2022, DOE proposed to integrate the functions of the DCEI Energy Mission Assurance program into the Office of Cybersecurity, Energy Security, and Emergency Response's suite of activities.

Transmission Permitting & Technical Assistance (TPTA).—The TPTA program worked with electricity system partners and stakeholders to modernize the grid and ensure adequate transmission capacity across the United States. TPTA activities are transferred to the Grid Deployment Office in FY 2023.

Program Direction.—Program Direction provides for the costs associated with the Federal workforce and contractor services that support OE's mission. These costs include salaries, benefits, travel, training, building occupancy, IT systems, and other related expenses.

The Bipartisan Infrastructure Law (BIL) (Infrastructure Investment and Jobs Act, P.L. 117–58) provides additional resources for OE to advance work in: 1) electric grid resilience, 2) technology deployment for enhancing grid flexibility, and 3) modeling energy infrastructure risk. Budgetary

projections, including program direction and FTE counts, in the OE account reflect execution of BIL programs appropriated to OE but will be executed through OE, the Office of Cybersecurity, Energy Security, and Emergency Response, and the newly established Grid Deployment Office.

The newly created Grid Deployment Office (GDO) within the Office of the Under Secretary for Infrastructure serves as the catalyst for the development of new and upgraded high-capacity electric transmission lines nationwide. GDO works with electricity system partners and stakeholders by providing tools, conducting analyses, and improving decision-making processes to modernize and ensure a clean, reliable, resilient, and equitable grid that achieves 100% carbon-free electricity by 2035. Prior to FY 2023, these activities were funded within Electricity. New activities in FY 2023 include Wholesale Electricity Market Technical Assistance and Grants and Interregional and Offshore Transmission Planning.

Additional funding and FTEs for GDO programs provided in the Bipartisan Infrastructure Law are captured in the budgetary projections in, and will be executed through, the Department's Electricity account.

The Office of Cybersecurity, Energy Security, and Emergency Response (CESER) leads the Department's efforts to secure U.S. energy infrastructure against all hazards, reduce the risks of and impacts from cyber events and other disruptive events, and assists with restoration activities. Programs include:

Risk Management Tools (RMT).—The RMT program seeks to enhance the reliability and resilience of the Nation's energy infrastructure through near- and long-term activities to strengthen energy sector cybersecurity across the Nation. Working closely with the energy sector and our government partners, RMT focuses on enhancing the speed and effectiveness of threat and vulnerability sharing and accelerating technology and tools to mitigate cyber incidents in today's systems and to develop next-generation resilient energy delivery systems while developing analyses to quantify the resulting relative risk reduction.

Response and Restoration (R&R).—The R&R program coordinates a national effort to secure the U.S. energy infrastructure against all hazards, reduce impacts from disruptive events, and assist industry with restoration activities. R&R delivers a range of capabilities including energy sector emergency response and recovery (including emergency response of a cyber nature); near-real-time situational awareness and information sharing about the status of the energy systems to improve risk management; analysis of evolving threats and hazards to energy infrastructure.

Information Sharing, Partnerships and Exercises (ISPE).—The ISPE program supports energy sector security and resilience in coordination with government and industry partners. By seeding public-private partnerships this program will advance the Department's efforts to support State, Local, Tribal, territory and industry in preparing for, mitigating, and recovering from all threats and hazards facing the U.S. energy sector through information sharing, risk assessments, capacity building in planning and resilience, and targeted training and exercises.

Program Direction.—Program Direction provides for the costs associated with the Federal workforce and contractor services that support CESER's mission. These costs include salaries, benefits, travel, training, building occupancy, IT systems, and other related expenses.

The Bipartisan Infrastructure Law (BIL) (Infrastructure Investment and Jobs Act, P.L. 117–58) provides additional resources for CESER to advance work in: 1) a rural and municipal utility advanced cybersecurity grant and technical assistance program, and 2) enhancing grid security.

ENERGY EFFICIENCY AND RENEWABLE ENERGY

For Department of Energy expenses including the purchase, construction, and acquisition of plant and capital equipment, and other expenses necessary for energy efficiency and renewable energy activities in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the acquisition or condemnation of any real property or any facility or for plant or facility acquisition, construction, or expansion, \$4,018,885,000, to remain available until expended: *Provided*, That of such amount, \$224,474,000 shall be available until September 30, 2024, for program direction.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

ENERGY EFFICIENCY AND RENEWABLE ENERGY

For an additional amount for "Energy Efficiency and Renewable Energy", \$16,264,000,000 to remain available until expended: *Provided*, That of the amount provided under this heading in this Act, \$250,000,000 shall be for activities for the Energy Efficiency Revolving Loan Fund Capitalization Grant Program, as authorized under section 40502 of division D of this Act: *Provided further*, That of the amount provided under this heading in this Act, \$40,000,000 shall be for grants for the Energy Auditor Training Grant Program, as authorized under section 40503 of division D of this Act: *Provided further*, That of the amount provided under the heading in this Act, \$225,000,000 shall be for grants for implementing of updated building energy codes, as authorized under section 309 of the Energy Conservation and Production Act (42 U.S.C. 6831 et seq.), as amended by section 40511(a) of division D of this Act: *Provided further*, That of the funds in the preceding proviso, \$45,000,000, to remain available until expended, shall be made available for fiscal year 2022, \$45,000,000, to remain available until expended, shall be made available for fiscal year 2023, \$45,000,000, to remain available until expended, shall be made available for fiscal year 2024, \$45,000,000, to remain available until expended, shall be made available for fiscal year 2025, and \$45,000,000, to remain available until expended, shall be made available for fiscal year 2026: *Provided further*, That of the amount provided under this heading in this Act, \$10,000,000 shall be for Building, Training, and Assessment Centers, as authorized under section 40512 of division D of this Act: *Provided further*, That of the amount provided under this heading in this Act, \$10,000,000 shall be for grants for Career Skills Training, as authorized under section 40513 of division D of this Act: *Provided further*, That of the amount provided under this heading in this Act, \$150,000,000 shall be for activities for Industrial Research and Assessment Centers, as authorized under subsections (a) through (h) of section 457 of the Energy Independence and Security Act of 2007 (42 U.S.C. 17111 et seq.), as amended by section 40521(b) of division D of this Act: *Provided further*, That of the funds in the preceding proviso, \$30,000,000, to remain available until expended, shall be made available for fiscal year 2022, \$30,000,000, to remain available until expended, shall be made available for fiscal year 2023, \$30,000,000, to remain available until expended, shall be made available for fiscal year 2024, \$30,000,000, to remain available until expended, shall be made available for fiscal year 2025, and \$30,000,000, to remain available until expended, shall be made available for fiscal year 2026: *Provided further*, That of the amount provided under this heading in this Act, \$400,000,000 shall be for activities for Implementation Grants for Industrial Research and Assessment Centers, as authorized under section 457(i) of the Energy Independence and Security Act of 2007 (42 U.S.C. 17111 et seq.), as amended by section 40521(b) of division D of this Act: *Provided further*, That of the funds in the preceding two provisos, \$80,000,000, to remain available until expended, shall be made available for fiscal year 2022, \$80,000,000, to remain available until expended, shall be made available for fiscal year 2023, \$80,000,000, to remain available until expended, shall be made available for fiscal year 2024, \$80,000,000, to remain available until expended, shall be made available for fiscal year 2025, and \$80,000,000, to remain available until expended, shall be made available for fiscal year 2026: *Provided further*, That of the amount provided under this heading in this Act, \$50,000,000 shall be for carrying out activities for Manufacturing Leadership, as authorized under section 40534 of division D of this Act: *Provided further*, That of the amount provided under this heading in this Act, \$500,000,000 shall be for grants for Energy Efficiency Improvements and Renewable Energy Improvements at Public School Facilities, as authorized under section 40541 of division D of this Act: *Provided further*, That of the funds in the preceding proviso, \$100,000,000, to remain available until expended, shall be made available for fiscal year 2022, \$100,000,000, to remain available until expended, shall be made available for fiscal year 2023, \$100,000,000, to remain available until expended, shall be made available for fiscal year 2024, \$100,000,000, to remain available until expended, shall be made available for fiscal year 2025, and \$100,000,000, to remain available until expended, shall be made available for fiscal year 2026: *Provided further*, That of the amount provided under this heading in this Act, \$50,000,000 shall be for grants for the Energy Efficiency Materials Pilot Program, as authorized under section 40542 of division D of this Act: *Provided further*, That of the amount provided under this heading in this Act and in addition to amounts otherwise made available for this purpose, \$3,500,000,000 shall be for carrying out activities for the Weatherization Assistance Program, as authorized under part A of title IV of the Energy Conservation and Production Act (42 U.S.C. 6861 et seq.): *Provided further*, That of the amount provided under this heading in this Act and in addition to amounts otherwise made available for this purpose, \$550,000,000 shall be for carrying out activities for the Energy Efficiency and Conservation Block Grant Program, as authorized under

ENERGY EFFICIENCY AND RENEWABLE ENERGY—Continued

section 542(a) of the Energy Independence and Security Act of 2007 (42 U.S.C. 17152(a)): *Provided further*, That of the amount provided under this heading in this Act, \$250,000,000 shall be for grants for the Assisting Federal Facilities with Energy Conservation Technologies Grant Program, as authorized under section 546(b) of the National Energy Conservation Policy Act (42 U.S.C. 8256(b)): *Provided further*, That of the amount provided under this heading in this Act, \$10,000,000 shall be for extended product system rebates, as authorized under section 1005 of the Energy Act of 2020 (42 U.S.C. 6311 note; Public Law 116–260): *Provided further*, That of the amount provided under this heading in this Act, \$10,000,000 shall be for energy efficient transformer rebates, as authorized under section 1006 of the Energy Act of 2020 (42 U.S.C. 6317 note; Public Law 116–260): *Provided further*, That of the amount provided under this heading in this Act, \$3,000,000,000, to remain available until expended, shall be for Battery Material Processing Grants, as authorized under section 40207(b) of division D of this Act: *Provided further*, That of the funds in the preceding proviso, \$600,000,000, to remain available until expended, shall be made available for fiscal year 2022, \$600,000,000, to remain available until expended, shall be made available for fiscal year 2023, \$600,000,000, to remain available until expended, shall be made available for fiscal year 2024, \$600,000,000, to remain available until expended, shall be made available for fiscal year 2025, and \$600,000,000, to remain available until expended, shall be made available for fiscal year 2026: *Provided further*, That of the amount provided under this heading in this Act, \$3,000,000,000 shall be for Battery Manufacturing and Recycling Grants, as authorized under section 40207(c) of division D of this Act: *Provided further*, That of the funds in the preceding proviso, \$600,000,000, to remain available until expended, shall be made available for fiscal year 2022, \$600,000,000, to remain available until expended, shall be made available for fiscal year 2023, \$600,000,000, to remain available until expended, shall be made available for fiscal year 2024, \$600,000,000, to remain available until expended, shall be made available for fiscal year 2025, and \$600,000,000, to remain available until expended, shall be made available for fiscal year 2026: *Provided further*, That of the amount provided under this heading in this Act, \$125,000,000 shall be to carry out activities, as authorized under section 40207(f) of division D of this Act: *Provided further*, That of the amount provided under this heading in this Act, \$10,000,000 shall be for a Lithium-Ion Battery Recycling Prize Competition, as authorized under section 40207(e) of division D of this Act: *Provided further*, That of the amount provided under this heading in this Act, \$200,000,000 shall be for grants for the Electric Drive Vehicle Battery Recycling and Second-Life Applications Program, as authorized under subsection (k) of section 641 of the Energy Independence and Security Act of 2007 (42 U.S.C. 17231), as amended by section 40208(1) of division D of this Act: *Provided further*, That of the funds in the preceding proviso, \$40,000,000, to remain available until expended, shall be made available for fiscal year 2022, \$40,000,000, to remain available until expended, shall be made available for fiscal year 2023, \$40,000,000, to remain available until expended, shall be made available for fiscal year 2024, \$40,000,000, to remain available until expended, shall be made available for fiscal year 2025, and \$40,000,000, to remain available until expended, shall be made available for fiscal year 2026: *Provided further*, That of the amount provided under this heading in this Act, \$750,000,000 shall be for grants for the Advanced Energy Manufacturing and Recycling Grant Program, as authorized under section 40209 of division D of this Act: *Provided further*, That of the funds in the preceding proviso, \$150,000,000, to remain available until expended, shall be made available for fiscal year 2022, \$150,000,000, to remain available until expended, shall be made available for fiscal year 2023, \$150,000,000, to remain available until expended, shall be made available for fiscal year 2024, \$150,000,000, to remain available until expended, shall be made available for fiscal year 2025, and \$150,000,000, to remain available until expended, shall be made available for fiscal year 2026: *Provided further*, That of the amount provided under this heading in this Act, \$500,000,000 shall be for activities for the Clean Hydrogen Manufacturing Recycling Research, Development, and Demonstration Program, as authorized under section 815 of the Energy Policy Act of 2005 (42 U.S.C. 16151 et seq.), as amended by section 40314 of division D of this Act: *Provided further*, That of the funds in the preceding proviso, \$100,000,000, to remain available until expended, shall be made available for fiscal year 2022, \$100,000,000, to remain available until expended, shall be made available for fiscal year 2023, \$100,000,000, to remain available until expended, shall be made available for fiscal year 2024, \$100,000,000, to remain available until expended, shall be made available for fiscal year 2025, and \$100,000,000, to remain available until expended, shall be made available for fiscal year 2026: *Provided further*, That of the amount provided under the heading in this Act, \$1,000,000,000 shall be for activities for the Clean Hydrogen Electrolysis Program, as authorized under section 816 of the Energy Policy Act of 2005 (42 U.S.C. 16151 et seq.), as amended by section 40314 of division D of this Act: *Provided further*, That of the funds in the preceding proviso, \$200,000,000, to remain available until expended,

The Office of Energy Efficiency and Renewable Energy (EERE) accelerates the research, development, demonstration, and deployment (RDD&D) of technologies and solutions to equitably transition America to net-zero greenhouse gas (GHG) emissions economy-wide no later than 2050, creating good paying jobs, and ensuring the clean energy economy benefits all Americans.

To achieve this mission, EERE invests in clean energy technologies that are ready to be demonstrated and deployed, as well as research and development (R&D) activities that advance early stage technologies with a clear path to deployment. EERE's investments focus on five strategic priority areas: decarbonizing the electricity sector, decarbonizing transportation across all modes, decarbonizing energy-intensive industries, reducing the carbon footprint of buildings, and enabling net-zero agricultural production of biofuels.

EERE works in a unified and coordinated way with its state and local partners to accelerate a just, equitable transition to a clean energy economy and ensure that the office's investments benefit everyone, especially those in underserved or pollution over-burdened communities and workers and communities impacted by the energy transition. The office is organized into four pillars, with three technical pillars designed to advance cross-technology solutions, and a Corporate Program pillar that serves as the central organization for all EERE products, services, processes, and systems.

Sustainable Transportation Pillar.—Supports RDD&D efforts to decarbonize transportation across all modes to enable the following: vehicle electrification; commercially viable hydrogen fuel cell trucks; sustainable aviation fuel from biomass; and waste carbon resources and low-GHG options for off-road vehicles, rail, and maritime transport. Many newly-proposed investments in this pillar are directly focused on deployment or demonstration of technology to show viable commercial paths, including a number of programmatic performance milestones by 2030 related to decarbonizing transportation across all modes. The Budget also supports hydrogen use for industrial decarbonization and energy storage, including sustainable biomass to achieve reduced GHG from the agricultural sector.

Renewable Power Pillar.—Supports RDD&D efforts to reduce the costs and accelerate the integration and utilization of renewable energy technologies as part of a reliable, secure, resilient, and fully decarbonized electric system by 2035 and a net zero economy by 2050. This request drives critical cost reductions and technical improvements in wind, solar, geothermal, and water power technologies to increase the penetration of cost-competitive, non-emitting energy generation resources across the country. Renewable Power also provides new research and technologies to facilitate the siting and integration of the high levels of renewable power generation needed to fully decarbonize the power system, and supports the development of diversified, resilient supply chains for all renewable energy technologies to help ensure the long-lasting security of the U.S. energy supply, which will also provide thousands of good-paying jobs for American workers. The Budget also includes funding for a new Solar Manufacturing Accelerator, an initiative that partners the Advanced Manufacturing Office in the Energy Efficiency pillar with the Solar Energy Technology Office intended to diversify and strengthen the supply chain for solar energy technologies, as well as enhance the domestic capability to produce technologically ad-

ENERGY EFFICIENCY AND RENEWABLE ENERGY—Continued

vanced solar energy components that avoid supply chains that may be reliant in part on unethically sourced materials or vulnerable foreign supply chains.

Energy Efficiency Pillar.— Supports RDD&D to decarbonize America's homes, buildings, and industrial facilities while also strengthening U.S. manufacturing competitiveness and producing thousands of good-paying jobs. The request includes increased support for demonstration and deployment, as well as high impact R&D of technologies to increase energy efficiency, improve demand flexibility, and reduce on-site emissions from our nation's 125 million homes and commercial buildings to reduce total emissions by 50 percent by 2030 and net-zero by 2050. It also increases investment in RDD&D across the multiple decarbonization technologies and approaches necessary to achieve net-zero emissions by 2050, including industry-specific decarbonization investments focused on the chemicals, iron and steel, cement, and food products industries. In addition, the request includes significant funding increases for public investment in federal, state, and community programs to accelerate investments in decarbonizing all sectors of the U.S. economy, and initiates funding for the Solar Manufacturing Accelerator initiative in partnership with the Solar Energy Technologies Office in the Renewable Power pillar.

Corporate Programs Pillar.—Supports activities to make EERE more efficient and effective. This pillar identifies ways to strengthen EERE's overall performance, organization, budget, laboratory management, operations, human capital, and project management while achieving significant cost savings. This includes support for program direction (e.g., salaries and benefits, support services, working capital fund, etc.) and facilities and infrastructure as part of EERE's stewardship of the National Renewable Energy Laboratory (e.g., general plant projects, general purpose equipment, safeguards and security, and capacity building for Administration priorities).

Budgetary projections, including program direction and FTE counts, in the EERE account reflect execution of Bipartisan Infrastructure Legislation (BIL) programs appropriated to EERE and executed through EERE and three newly established programs: State and Community Energy Programs; Manufacturing and Energy Supply Chains; and Federal Energy Management Program.

In FY 2023, through the EERE appropriation, \$2.2 Billion of BIL funding is provided to support the following activities: Electric Drive Vehicle Battery Recycling and Second-Life Applications Program; Clean Hydrogen Electrolysis Program; Clean Hydrogen Manufacturing Recycling Research, Development, and Demonstration Program; Maintaining and Enhancing Hydroelectricity Incentives - Section 247 of the Energy Policy Act of 2005; Implementation Grants for Industrial Research and Assessment Centers; Industrial Research and Assessment Centers; Grants for Energy Efficiency Improvement and Renewable Energy Improvements at Public School Facilities; Grants for Updating Building Energy Codes; Advanced Energy Manufacturing and Recycling GrantProgram; Battery Manufacturing and Recycling Grants; and Battery Material Processing Grants.

The newly created Office of Manufacturing and Energy Supply Chains (MESC), within the Office of the Under Secretary for Infrastructure, will train the next generation of energy engineers and conduct energy assessments to identify opportunities to improve productivity and competitiveness, reduce waste, and save energy for small- and medium-sized manufacturers. DOE's Industrial Assessment Centers provide a no-cost assessment, including in-depth evaluations of a facility conducted by engineering faculty with upper class and graduate students from a participating university. This detailed process analysis will generate specific recommendations with estimates of costs, performance, and payback schedules.

These activities were previously funded within Energy Efficiency and Renewable Energy. Additional Bipartisan Infrastructure Law funding and full-time equivalents (FTEs) for the MESC program are captured in the budgetary projections in, and will be executed through, the Department's EERE account.

The newly created Office of State and Community Energy Programs (SCEP), within the Office of the Under Secretary for Infrastructure, supports the transition to an equitable clean energy economy by working with community-level implementation partners and State Energy Offices. SCEP manages the Weatherization Assistance Program (WAP), State Energy Program, Local Government Program, and Build Back Better Challenge Grants. SECP was previously funded within the Office of Energy Efficiency and Renewable Energy (EERE). In FY 2023, WAP will launch a Low-Income Home Energy Assistance Program Advantage (LIHEAP Advantage)

pilot to retrofit and decarbonize LIHEAP beneficiary homes with efficient electric appliances and systems.

These activities were previously funded within EERE. Additional Bipartisan Infrastructure Law funding and FTEs for SCEP are captured in the budgetary projections in, and will be executed through, the Department's EERE account.

FEDERAL ENERGY MANAGEMENT PROGRAM—Continued

The newly created Office of Federal Energy Management Program (FEMP), within the Office of the Under Secretary for Infrastructure, helps Federal agencies meet sustainability goals by providing technical assistance, financial assistance, training, and other resources. FEMP works with stakeholders to enable Federal agencies to identify affordable solutions, facilitate public-private partnerships, and provide energy leadership to the country through government best practices. FEMP was previously funded within the Office of Energy Efficiency and Renewable Energy (EERE). In FY 2023, the program will launch the Net-Zero Labs Initiative to competitively select clean energy deployment and decarbonization projects across the National Laboratories. These investments will create good paying jobs while driving progress toward the Administrations climate goals, including the Presidents goal of 80 percent carbon pollution-free electricity by 2030.

Additional Bipartisan Infrastructure Law funding and FTEs for FEMP are captured in the budgetary projections in, and will be executed through the Department's EERE account.

The Budget proposes a \$1 billion mandatory investment to launch a Global Clean Energy Manufacturing effort that would build resilient supply chains for climate and clean energy equipment through engagement with allies, enabling an effective global response to the climate crisis while creating economic opportunities for the U.S. to increase its share of the global clean technology market.

The mission of the Office of Technology Transitions (OTT) is to expand the commercial and public impact of the Department of Energy's investments. OTT serves a multi-disciplinary role across the Research, Development, Demonstration, and Deployment (RDD&D) continuum to support

the transition of our technologies to the market. OTT does so by providing public-private partnering support, market-informed analytics, and commercial adoption risk assessments. OTT manages DOE's ongoing lab-to-market and other technology commercialization activities, including the statutory Technology Commercialization Fund, the Energy I-Corps, the Energy Program for Innovation Clusters (EPIC), and the Lab Partnering Service. OTT stewards DOE technology transition activities, including policy reform, data collection and analyses, industry stakeholder convenings, and amplification of DOE technology transfer success stories across the DOE—including programs, field offices, and the National Laboratories and Production Facilities—as well as engaging with other Federal agencies to improve awareness of the benefits of engaging the DOE research enterprise.

The FY 2023 request includes funding for the Office of Clean Energy Demonstrations (OCED), which was authorized and established through the Bipartisan Infrastructure Law (BIL). OCED's mission is to deliver clean energy technology demonstration projects at scale in partnership with the private sector to accelerate deployment, market adoption, and the equitable transition to a decarbonized energy system by 2035.

OCED is a technology-neutral office with expertise in large-scale energy project management and finance that leverages the existing technical expertise throughout the Department of Energy (DOE). OCED investments are part of a clear progression and transition between the research, development, and demonstration projects within the DOE technology offices and initial deployments supported by the private sector or DOE Loan Programs Offices, ensuring continuity of DOE support for clean energy technologies and systems. Funding decisions are made to support scalable outcomes leading to commercialization and deployment for greenhouse gas reductions, job creation, and achieving environmental justice and Justice40 Initiative priorities.

In FY 2023, OCED will support new demonstrations related to the integration of renewable and distributed energy systems. The goal of this new investment area is to support demonstration programs to address integration issues of renewable energy onto the transmission and distribution grids. Additionally, OCED will provide additional support for the Advanced Reactor Demonstration Program, as part of DOE's consolidation of support for these demonstration projects into OCED from the Office of Nuclear Energy (NE). This investment will complement the \$2.48 billion provided in BIL to continue these important projects.

In addition to the activities supported through OCED's annual appropriations, the organization will continue to support clean energy demonstrations through its execution of funding provided to OCED in BIL.

Office of Indian Energy Policy and Programs (IE).—Directs, fosters, coordinates, and implements energy planning, education, management, and financial assistance programs that assist Tribes with clean energy development and infrastructure, capacity building, energy costs, and electrification of Indian lands and homes. IE coordinates programmatic activity across the Department related to development of clean energy resources on Indian lands, and works with other Federal government agencies, Indian Tribes, and Tribal organizations to promote Indian energy policies and initiatives. Through financial and technical assistance IE will empower American Indian and Alaskan Native nations to lead the transition to 100% clean energy, seven generation planning, and addressing energy access and energy poverty in Indian Country. A key focus will be on assisting Tribal Colleges and Universities to power their institutions with clean energy.

NON-DEFENSE ENVIRONMENTAL CLEANUP—Continued

The Non-Defense Environmental Cleanup program includes funds to manage and clean up sites used for civilian energy research and non-defense-related activities. These activities resulted in radioactive, hazardous, and mixed waste contamination that requires remediation, stabilization, or some other type of corrective action, as well as the decontamination and decommissioning of former research and production buildings and supporting infrastructure. The budget displays the cleanup program by site and activity.

West Valley Demonstration Project.—Funds waste disposition, building decontamination, and removal of non-essential facilities in the near-term.

Gaseous Diffusion Plants.—Funds surveillance and maintenance of the former Uranium Program facilities and manages legacy polychlorinated biphenyl contamination. The program also includes the operation of two depleted uranium hexafluoride conversion facilities at Paducah, Kentucky, and Portsmouth, Ohio, which are converting the depleted uranium hexafluoride into a more stable form for reuse or disposition.

Fast Flux Test Facility.—Funds the long-term surveillance and maintenance and eventual decontamination and decommissioning of the Fast Flux Test Facility, constructed and operated from the 1960s through 1980s.

Small Sites.—Funds cleanup, closure, and post-closure environmental activities at a number of geographic sites across the nation, including the Energy Technology Engineering Center and Moab, as well as non-defense activities at Idaho. Some sites are associated with other Department of Energy programs, particularly the Office of Science, and will have continuing missions after EM completes the cleanup. Others will transition to the Office of Legacy Management or private-sector entities for post-closure activities.

FOSSIL ENERGY AND CARBON MANAGEMENT

For Department of Energy expenses necessary in carrying out fossil energy and carbon management research and development activities, under the authority of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the acquisition of interest, including defeasible and equitable interests in any real property or any facility or for plant or facility acquisition or expansion, and for conducting inquiries, technological investigations and research concerning the extraction, processing, use, and disposal of mineral substances without objectionable social and environmental costs (30 U.S.C. 3, 1602, and 1603), \$893,160,000, to remain available until expended: *Provided*, That of such amount \$70,291,000 shall be available until September 30, 2024, for program direction.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

FOSSIL ENERGY AND CARBON MANAGEMENT

For an additional amount for "Fossil Energy and Carbon Management", \$7,497,140,781, to remain available until expended: *Provided*, That of the amount provided under this heading in this Act, \$310,140,781 shall be to carry out activities under the Carbon Utilization Program, as authorized in section 969A of the Energy Policy Act of 2005 (42 U.S.C. 16298a), as amended by section 40302 of division D of this Act: *Provided further*, That of the funds in the preceding proviso, \$41,000,000, to remain available until expended, shall be made available for fiscal

year 2022, \$65,250,000, to remain available until expended, shall be made available for fiscal year 2023, \$66,562,500, to remain available until expended, shall be made available for fiscal year 2024, \$67,940,625, to remain available until expended, shall be made available for fiscal year 2025, and \$69,387,656, to remain available until expended, shall be made available for fiscal year 2026: *Provided further*, That of the amount provided under this heading in this Act, \$100,000,000 shall be used to carry out the front-end engineering and design program out activities under the Carbon Capture Technology Program, as authorized in section 962 of the Energy Policy Act of 2005 (42 U.S.C. 16292), as amended by section 40303 of division D of this Act: *Provided further*, That of the funds in the preceding proviso, \$20,000,000, to remain available until expended, shall be made available for fiscal year 2022, \$20,000,000, to remain available until expended, shall be made The Fossil Energy and Carbon Management (FECM) office conducts research, development, demonstration and deployment (RDD&D) that focuses on technologies to reduce carbon emissions and other environmental impacts of fossil fuel production and use, particularly the hardest-to-decarbonize applications in the electricity and industrial sectors. Additionally, the program advances technologies on carbon dioxide (CO2) removal (CDR) to reduce atmospheric and legacy emissions of CO2, and technologies that convert and durably store CO2 into value-added products. FECM recognizes that decarbonization is essential to meeting climate goals—100% carbon pollution free electricity by 2035 and net-zero greenhouse gas emissions economy-wide by 2050. FECM is also committed to improving the conditions of communities impacted by the legacy of fossil fuel use and to supporting a healthy economic transition that accelerates the growth of good-paying jobs.

Program activities funded through this account focus on: 1) demonstrating and deploying point source carbon capture; 2) Reducing methane emissions; 3) advancing carbon dioxide removal, conversion, transport, and storage; 4) advancing critical minerals, rare earth elements, and mine remediation; 5) supporting low-carbon industrial supply chains; 6) increasing efficient use of big data and artificial intelligence; 7) accelerating carbon-neutral hydrogen; 8) addressing the Energy Water Nexus; 9) investing in thoughtful transition strategies. Many of these activities are pursued in partnership with the National Energy Technology Laboratory (NETL), which also receives funding from this account.

This account funds environmental activities at Naval Petroleum Reserve 1 (NPR-1) in California (Elk Hills) and Naval Petroleum Reserve 3 (NPR-3) in Wyoming (Teapot Dome). Following the sale of the Government's interests in NPR-1 in California (Elk Hills), post-sale environmental assessment/remediation activities continue to be required by the legally binding agreements under the Corrective Action Consent Agreement with the State of California Department of Toxic Substances Control (DTSC). Program activities encompass execution of a technical baseline, interim measures, environmental sampling and analysis, corrective measures, waste removal and disposal, and confirmatory sampling. In FY 2023, funding will continue ongoing activities to attain release from the remaining environmental findings related to the sale of NPR-1. On January 30, 2015, the Department finalized the sale of the Teapot Dome Oilfield. The Department continues to oversee post-sale remediation activities and ground water sampling for the closure of the landfill in compliance with National Environmental Policy Act and Wyoming Department of Environmental Quality requirements.

The Strategic Petroleum Reserve (SPR) provides strategic and economic security against foreign and domestic disruptions in oil supplies via an emergency stockpile of crude oil. The program fulfills United States obligations under the International Energy Program, which commits the United States to support the International Energy Agency through its coordinated energy emergency response plans and provides a deterrent against energy supply disruptions. The FY 2023 Budget will support the SPR's operational readiness and drawdown capabilities of 4.4 MB/d. The program will perform cavern wellbore testing and maintenance activities to ensure the availability of the SPR's crude oil inventory. The FY 2023 Budget will continue to fund the Northeast Gasoline Supply Reserve which currently holds one million barrels of refined product in reserve.

The Energy Security and Infrastructure Modernization Fund was established in Section 404 of the Bipartisan Budget Act of 2015 to finance modernization of the Strategic Petroleum Reserve (SPR). Revenue raised through sales of SPR crude oil will support Life Extension Phase 2 project investments needed to ensure the SPR can maintain its operational readiness capability, meet its mission requirements, and operate in an environmentally responsible manner. The CARES Act extended the Department's authority to sell oil in support of modernization from FY 2020 to FY 2022, and DOE conducted its final sale in FY 2021, thus no further appropriations are requested in FY 2023. Funds in the ESIM account will be used for the Life Extension Phase II (LE2) SPR infrastructure modernization project.

The U.S. Energy Information Administration (EIA) is the statistical and analytical agency within the U.S. Department of Energy. EIA collects, analyzes, and disseminates independent and impartial energy information to promote sound policymaking, efficient markets, and public understanding of energy and its interaction with the economy and the environment. As the nation's premier source of energy information, EIA conducts a data collection program covering the full spectrum of energy sources, end uses, and energy flows; generates short- and long-term domestic and international energy forecasts and projections; and performs timely, informative energy analyses. The FY 2023 request enables EIA to continue statistical and analysis activities that produce reports critical to the nation, address emerging information needs such as those identified in the Bipartisan Infrastructure Law (Infrastructure Investment and Jobs Act, P.L. 117-58), and expand EIA's energy consumption survey program to collect new data for the populated U.S. territories.

FEDERAL ENERGY REGULATORY COMMISSION

SALARIES AND EXPENSES

For expenses necessary for the Federal Energy Regulatory Commission to carry out the provisions of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including services as authorized by 5 U.S.C. 3109, official reception and representation expenses not to exceed \$3,000, and the hire of passenger motor vehicles, \$508,400,000, to remain available until expended: Provided, That notwithstanding any other provision of law, not to exceed \$508,400,000 of revenues from fees and annual charges, and other services and collections in fiscal year 2023 shall be retained and used for expenses necessary in this account, and shall remain available until expended: Provided further, That the sum herein appropriated from the general fund shall be reduced as revenues are received during fiscal year 2023 so as to result in a final fiscal year 2023 appropriation from the general fund estimated at not more than \$0.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The Federal Energy Regulatory Commission (FERC or the Commission) is an independent agency that regulates the transmission and wholesale sale of electricity and natural gas in interstate commerce, as well as the transportation of oil by pipelines in interstate commerce. FERC also reviews proposals to build interstate natural gas pipelines, natural gas storage projects, and liquefied natural gas (LNG) terminals, and FERC licenses non-federal hydropower projects. The Commission assists consumers in obtaining reliable, safe, secure, and economically efficient energy services at a reasonable cost through appropriate regulatory and market means, and collaborative efforts. Regulated entities pay fees and charges sufficient to recover the Commission's full cost of operations.

Ensure Just and Reasonable Rates, Terms, and Conditions.—In carrying out its regulatory role, FERC uses a range of ratemaking activities, leveraging both regulatory and market means. FERC establishes and applies rules and policies that will result in just, reasonable, and not unduly discriminatory or preferential rates, terms, and conditions of jurisdictional service. The Commission fulfills this responsibility by determining whether FERC rules and policies need to be added or changed, and by analyzing and acting on filings in a fair, clear, and timely manner.

Oversight, surveillance and enforcement are essential complements to the Commission's approach to ensure that rates, terms and conditions of service are just and reasonable and not unduly discriminatory or preferential. The Federal Power Act and the Natural Gas Act, along with other statutory authorities, gives FERC oversight and enforcement responsibilities that focus on promoting compliance of regulated entities and detecting and deterring market manipulation and other market violations. The Commission assesses compliance and financial filings of regulated entities and monitors market activity and explores potential violations.

Ensure Safe, Reliable, and Secure Infrastructure Consistent with the Public Interest.—The Commission plays an important role to promote infrastructure that is safe and reliable, both physically and cyber-secure, and consistent with the public interest. Infrastructure for which FERC approval is required includes interstate natural gas pipelines and storage projects, LNG facilities, and non-federal hydropower. In addition, the Commission has authority to site electric transmission facilities in certain circumstances. The Commission reviews natural gas and hydropower infrastructure proposals to facilitate benefits to the nation. FERC conducts thorough and timely technical review of applications to construct, operate, or modify natural gas and hydropower infrastructure. The Commission also assesses compliance with environmental mitigation conditions in FERC orders during construction and operation of natural gas and hydropower infrastructure.

The Commission also has an important role in minimizing risks to the public associated with FERC-jurisdictional energy infrastructure. FERC conducts comprehensive and timely inspections of hydropower and LNG facilities to ensure compliance. The Commission protects and improves the reliable and secure operation of the Bulk-Power System through mandatory and enforceable reliability standards. The Commission also protects FERC-jurisdictional energy infrastructure through collaboration and sharing of best practices.

Provide Mission Support through Organizational Excellence.—The public interest is best served when the Commission operates in an efficient, responsive and transparent manner. FERC pursues this by maintaining processes and providing services that enable FERC offices to manage resources effectively and efficiently. The Commission also provides tools and services that equip employees to drive success and accomplish the agency's mission. FERC will continue to make investments in its people, information technology (IT) resources, and facilities.

The Commission promotes transparency and equity, open communication, and a high standard of ethics to facilitate trust and understanding of FERC's activities. FERC supports this by maintaining legal and other processes in accordance with the principles of due process, fairness, and integrity. FERC considers matters involving environmental justice and equity consistent with its statutory authority. In particular, the Commission has a strong

FEDERAL ENERGY REGULATORY COMMISSION—Continued

commitment to working with affected communities, including environmental justice communities and landowners who may be directly impacted by Commission decisions on jurisdictional infrastructure proposals. The Commission also promotes understanding, participation, and engagement with the public, stakeholders, Tribes, and jurisdictional entities. The Commission will increase its engagement with the public through its newly established Office of Public Participation.

Section 136 of the Energy Independence and Security Act of 2007 (EISA) established a direct loan program to support the development of advanced technology vehicles and associated components in the United States, known as the Advanced Technology Vehicles Manufacturing (ATVM) Loan Program. The ATVM Loan Program provides loans to advanced technology vehicle and part manufacturers for the cost of reequipping, expanding, or establishing manufacturing facilities in the United States to produce advanced technology vehicles or qualified components and for associated engineering integration costs.

The Consolidated Security, Disaster, Assistance, and Continuing Appropriation Act of 2009 appropriated \$7.5 billion for credit subsidy costs to support a maximum of \$25 billion in loans under the ATVM Loan Program. Per EISA subsection (d)(1), the full credit subsidy cost must be paid using appropriated funds. Currently, the program has \$17.7 billion in uncommitted loan authority and \$2.4 billion in unobligated credit subsidy available to support new projects.

The Bipartisan Infrastructure Law authorized an expanded scope of advanced technology vehicle modes eligible for ATVM loans, including advanced medium- and heavy-duty vehicles, locomotives, maritime vessels, aircraft, and hyperloop technology. The FY 2023 Budget proposes to enable the use of existing appropriated authority to support projects eligible under the expanded scope.

In FY 2023, LPO requests \$9.8 million to originate ATVM direct loans and monitor the program's growing portfolio. While the FY 2023 Budget Request does not request new loan authority, LPO anticipates utilizing all remaining ATVM loan authority by the end of FY 2023—closing approximately \$5 billion in loans in FY 2022 and \$13 billion in FY 2023.

TITLE 17 INNOVATIVE TECHNOLOGY LOAN GUARANTEE PROGRAM

For the cost of guaranteed loans, \$150,000,000, to remain available until expended, for innovative technology projects as authorized under Title XVII of the Energy Policy Act of 2005: Provided, That such costs, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974: Provided further, That these funds are available in addition to the authority provided in any other Act for the costs to guarantee loans under the heading "Department of Energy—Energy Programs—Title 17 Innovative Technology Loan Guarantee Program": Provided further, That these funds are available to subsidize total loan principal, any part of which is to be guaranteed, not to exceed \$5,000,000,000: Provided further, That such sums as are derived from amounts received from borrowers pursuant to section 1702(b) of the Energy Policy Act of 2005 under this heading in prior Acts, shall be collected in accordance with section 502(7) of the Congressional Budget Act of 1974: Provided further, That for necessary administrative expenses of the Title 17 Innovative Technology Loan Guarantee Program, as authorized, \$66,206,000 is appropriated, to remain available until September 30, 2024: Provided further, That up to \$66,206,000 of fees collected in fiscal year 2023 pursuant to section 1702(h) of the Energy Policy Act of 2005 shall be credited as offsetting collections under this heading and used for necessary administrative expenses in this appropriation and shall remain available until September 30, 2024: Provided further, That to the extent that fees collected in fiscal year 2023 exceed \$66,206,000, those excess amounts shall be credited as offsetting collections under this heading and available in future fiscal years only to the extent provided in advance in appropriations Acts: Provided further, That the sum herein appropriated from the general fund shall be reduced (1) as such fees are received during fiscal year 2023 (estimated at \$48,000,000) and (2) to the extent that any remaining general fund appropriations can be derived from fees collected in previous fiscal years that are not otherwise appropriated, so as to result in a final fiscal year 2023 appropriation from the general fund estimated at \$0: Provided further, That the Department of Energy shall not subordinate any loan obligation to other financing in violation of section 1702 of the Energy Policy Act of 2005 or subordinate any Guaranteed Obligation to any loan or other debt obligations in violation of section 609.10 of title 10, Code of Federal Regulations.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117-43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

The Title 17 Innovative Technology Loan Guarantee Program (Title 17), authorized by the Energy Policy Act of 2005 (EPAct of 2005), as amended, allows the Department of Energy (DOE) to provide loan guarantees for innovative energy projects that avoid, reduce, or sequester air pollutants or anthropogenic emissions of greenhouse gases. Eligible technologies include energy efficient and renewable energy systems; advanced fossil and carbon capture, sequestration, utilization and storage systems; energy storage; virtual power plants; and various other clean energy projects.

Through the Title 17 loan guarantee program, the Loan Programs Office (LPO) provides access to debt capital for high-impact, large-scale infrastructure projects and initial commercializations in the United States. Eligible projects must meet air pollutant or greenhouse gases emissions requirements; employ new or significantly improved technologies compared to commercial technologies in service in the United States at the time the guarantee is issued; and offer a reasonable prospect of repayment of the principal and interest on the guaranteed obligation.

As of January 2022, \$22.4 billion in loan guarantee authority is available to support projects eligible under Section 1703. In addition, \$161 million in appropriated credit subsidy is remaining (from the FY 2011 full-year continuing resolution) that can be used for renewable energy and efficient end-use technology projects.

The Bipartisan Infrastructure Law authorized an expanded scope of projects eligible under Title 17, including domestic critical minerals supply chain and State energy financing institution-backed projects. The FY 2023 Budget proposes to enable the use of existing appropriated authority to support projects eligible under this new authority.

The FY 2023 Budget requests \$150,000,000 for credit subsidy and \$5 billion in loan guarantee authority to support the full range of projects eligible under Title 17. Available loan authority will increase by \$5 billion from \$22.4 billion to \$27.4 billion. The Department expects to obligate approximately \$6 billion of loan authority in FY 2022 and \$4.5 billion of loan authority in FY 2023.

The Budget requests \$66,206,000 for administrative expenses to operate the Title 17 program. The Department estimates that \$48,000,000 will be received from fees pursuant to Section 1702(h) of the Energy Policy Act of 2005 and credited as offsetting collection.

234001 Tribal Energy Loan Guarantees		1	2

The Tribal Energy Loan Guarantee Program (TELGP) provides access to debt capital for tribal ownership of energy projects and activities that support economic development and tribal sovereignty. TELGP is authorized pursuant to section 2602 of the Energy Policy Act of 1992, as amended by the Energy Policy Act of 2005, to make available up to \$2 billion in partial loan guarantees. The Consolidated Appropriations Act, 2017, (H.R. 244,

TRIBAL ENERGY LOAN GUARANTEE PROGRAM—Continued

Public Law 115–31) appropriated \$8.5 million to cover the credit subsidy costs associated with the \$2 billion in available loan authority.

The FY 2023 Budget proposes \$1,860,000 in Administrative Expenses to continue outreach and originating activities and to monitor the expected portfolio of TELGP projects. This funding level allows the Loan Programs Office to help achieve the Administration's objectives of a carbon-pollution free electric sector by 2035 and net-zero emissions, economy-wide, by 2050, supporting placed-based initiatives including energy community and Justice40 investments.

POWER MARKETING ADMINISTRATION**Federal Funds****OPERATION AND MAINTENANCE, SOUTHEASTERN POWER ADMINISTRATION**

For expenses necessary for operation and maintenance of power transmission facilities and for marketing electric power and energy, including transmission wheeling and ancillary services, pursuant to section 5 of the Flood Control Act of 1944 (16 U.S.C. 825s), as applied to the southeastern power area, \$8,173,000, including official reception and representation expenses in an amount not to exceed \$1,500, to remain available until expended: Provided, That notwithstanding 31 U.S.C. 3302 and section 5 of the Flood Control Act of 1944, up to \$8,173,000 collected by the Southeastern Power Administration from the sale of power and related

The Southeastern Power Administration (Southeastern) markets power generated at 22 U.S. Army Corps of Engineers' hydroelectric generating plants in an eleven State area of the Southeast. Power deliveries are made by means of contracting for use of transmission facilities owned by others.

Southeastern sells wholesale power primarily to publicly and cooperatively owned electric distribution utilities. Southeastern does not own or operate any transmission facilities. Its long-term contracts provide for periodic electric rate adjustments to ensure that the Federal Government recovers the costs of operations and the capital invested in power facilities, with interest, in keeping with statutory requirements. As in past years, the budget continues to provide funding for annual expenses and purchase

OPERATION AND MAINTENANCE, SOUTHEASTERN POWER ADMINISTRATION—Continued power and wheeling expenses through discretionary offsetting collections derived from power receipts collected to recover those expenses.

Program Direction.—Provision is made for negotiation and administration of transmission and power contracts, collection of revenues, accounting and budget activities, development of wholesale power rates, amortization of the Federal power investment, energy efficiency and competitiveness program, investigation and planning of proposed water resources projects, scheduling and dispatch of power generation, scheduling storage and release of water, administration of contractual operation requirements, and determination of methods of operating generating plants individually and in coordination with others to obtain maximum utilization of resources.

Purchase Power and Wheeling.—Provision is made for the payment of wheeling fees and for the purchase of electricity in connection with the disposal of power under contracts with utility companies. Customers are encouraged to use alternative funding mechanisms, including customer advances and net billing to finance these activities. Offsetting collections to fund these ongoing operating services are also available up to 53 million in 2022. As of the end of FY 2021, Southeastern's PPW reserve balance was \$27 million.

Funds received from any State, municipality, corporation, association, firm, district, or individual as an advance payment for reimbursable work will be credited to Southeastern's account and remain available until expended.

CONTINUING FUND, SOUTHEASTERN POWER ADMINISTRATION

A continuing fund maintained from receipts from the sale and transmission of electric power in the Southeastern service area is available to defray emergency expenses necessary to ensure continuity of service (16 U.S.C. 825s-2). The fund was last activated in 2018 to finance power purchases associated with heightened demand and cost spikes due to severe cold weather. Consistent with sound business practices, the Southeastern Power

Southwestern Power Administration (Southwestern) operates in a six-state area marketing and delivering renewable hydroelectric power produced at the U.S. Army Corps of Engineers' dams. Southwestern operates and maintains 1,381 miles of high voltage transmission lines, 26 substations/switching stations, associated power system controls, and communication sites. Southwestern also makes modifications and constructs additions to existing facilities.

Southwestern markets and delivers its power at wholesale rates to 78 municipal utilities, 21 rural electric cooperatives, and 3 military installations. In compliance with statutory requirements, Southwestern's power sales contracts provide for periodic rate adjustments to ensure that the Federal Government recovers all costs of operations, other costs allocated to power, and the capital investments in power facilities, with interest. Southwestern is also responsible for scheduling and dispatching power and negotiating power sales contracts to meet changing customer load requirements. As in past years, the budget continues to provide funding for annual expenses and purchase power and wheeling expenses through discretionary offsetting collections derived from power receipts collected to recover those expenses.

Program Direction.—Provides compensation and all related expenses for personnel who market, deliver, operate, and maintain Southwestern's high-voltage interconnected power system and associated facilities, those that perform cyber and physical security roles, and those that administratively support these functions.

Operations and Maintenance.—Provides essential electrical and communications equipment replacements and upgrades, capitalized moveable equipment, technical services, and supplies and materials necessary for the safe, reliable, and cost effective operation and maintenance of the power system.

Purchase Power and Wheeling.—Provides for the purchase and delivery of energy to meet limited peaking power contractual obligations. Federal power receipts and alternative financing methods, including net billing, and customer advances are used to fund system-purchased power support and other contractual services. Southwestern has implemented a Purchase Power and Wheeling (PPW) risk mitigation strategy to ensure continuous operations during periods of significant drought. The strategy was developed consistent with existing authorities, and with the participation and support of Southwestern's power customers. Under this approach, Southwestern retains receipts from the recovery of purchase power and wheeling expenses within the 'up to' amount specified by Congress. The receipts retained are available until expended and are available only for PPW expenses. As of the end of FY 2021, Southwestern's PPW reserve balance was \$86 million. Customers will provide other power resources and/or purchases for the remainder of their firm loads.

¹The FY 2022 and FY 2023 Estimates assume spending authority from offsetting collections equals the 'up to' ceiling and that obligations incurred are the same amount as the spending authority for FY 2023. Actual spending authority from offsetting collections and actual obligations will be dependent upon variability in market prices for PPW and hydrological conditions in Southwestern's region, which vary significantly, are largely unpredictable, and can change quickly.

Construction.—Provides for replacement, addition or upgrade of existing infrastructure to sustain reliable delivery of power to its customers, contain annual maintenance costs, and improve overall efficiency.

Reimbursable Program.—This activity involves services provided by Southwestern to others under various types of reimbursable arrangements.

A continuing fund, maintained from receipts from the sale and transmission of electric power in the Southwestern Power Administration service area, is available permanently for emergency expenses necessary to ensure continuity of electric service and continuous operation of the facilities. The fund is also available on an ongoing basis to pay for purchase power and wheeling expenses when the Administrator determines that such expenses are necessary to meet contractual obligations for the sale and delivery of power during periods of below-average generation (16 U.S.C. 825s-1 as amended further by Public Law 101-101). The fund was last activated in

CONSTRUCTION, REHABILITATION, OPERATION AND MAINTENANCE, WESTERN
AREA POWER ADMINISTRATION

For carrying out the functions authorized by title III, section 302(a)(1)(E) of the Act of August 4, 1977 (42 U.S.C. 7152), and other related activities including conservation and renewable resources programs as authorized, \$299,573,000, including official reception and representation expenses in an amount not to exceed \$1,500, to remain available until expended, of which \$299,573,000 shall be derived from the Department of the Interior Reclamation Fund: Provided, That notwithstanding 31 U.S.C. 3302, section 5 of the Flood Control Act of 1944 (16 U.S.C. 825s), and section 1 of the Interior Department Appropriation Act, 1939 (43 U.S.C. 392a), up to \$200,841,000 collected by the Western Area Power Administration from the sale of power and related services shall be credited to this account as discretionary off-setting collections, to remain available until expended, for the sole purpose of funding the annual expenses of the Western Area Power Administration: Provided further, That the sum herein appropriated for annual expenses shall be reduced as collections are received during the fiscal year so as to result in a final fiscal year 2023 appropriation estimated at not more than \$98,732,000, of which \$98,732,000 is derived from the Reclamation Fund: Provided further, That notwithstanding 31 U.S.C. 3302, up to \$350,083,000 collected by the Western Area Power Administration pursuant to the Flood Control Act of 1944 and the Reclamation Project Act of 1939 to recover purchase power and wheeling expenses shall be credited to this account as offsetting collections, to remain available until expended for the sole purpose of making purchase power and wheeling expenditures: Provided further, That for purposes of this appropriation, annual expenses means expenditures that are generally recovered in the same year that they are incurred (excluding purchase power and wheeling expenses).

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117-43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

CONSTRUCTION, REHABILITATION, OPERATION AND MAINTENANCE, WESTERN
AREA POWER ADMINISTRATION

(INCLUDING TRANSFER OF FUNDS)

For an additional amount for "Construction, Rehabilitation, Operation and Maintenance, Western Area Power Administration", \$500,000,000, to remain available until expended, for the purchase of power and transmission services: Provided, That the amount made available under this heading in this Act shall be derived from the general fund of the Treasury and shall be reimbursable from amounts collected by the Western Area Power Administration pursuant to the Flood Control Act of 1944 and the Reclamation Project Act of 1939 to recover purchase power and wheeling expenses: Provided further, That such amounts as the Administrator, Western Area Power Administration, deems necessary for the same purposes as outlined above may be transferred to Western Area Power Administration's Colorado River Basins Power Marketing Fund account: Provided further, That such amount is designated by the Congress as being for an emergency requirement pursuant to section 4112(a) of H. Con. Res. 71 (115th Congress), the concurrent resolution on the budget for fiscal year 2018, and to section 251(b) of the Balanced Budget and Emergency Deficit Control Act of 1985. The Western Area Power Administration (WAPA) markets electric power in 15 central and western states from federally owned power plants operated primarily by the Bureau of Reclamation, the Army Corps of Engineers, and the International Boundary and Water Commission. WAPA operates and maintains about 17,000 circuit-miles of high-voltage transmission lines, more than 300 substations/switchyards and associated power system controls, and communication and electrical facilities for 15 separate power projects. WAPA also constructs additions and modifications to existing facilities.

In keeping with statutory requirements, WAPA's long-term power contracts allow for periodic rate adjustments to ensure that the Federal Government recovers costs of operations, other costs allocated to power, and the capital investment in power facilities, with interest.

Power is sold to nearly 700 wholesale customers, including DOE's National Labs, more than two dozen U.S. Department of Defense installations, municipalities, cooperatives, irrigation districts, public utility districts, other State and Federal Government agencies, and private utilities. Receipts are deposited in the Reclamation Fund, the Falcon and Amistad Operating and Maintenance Fund, the General Fund, the Colorado River Dam Fund, and the Colorado River Basins Power Marketing Fund.

As in past years, the budget continues to provide funding for annual expenses and purchase power and wheeling expenses through discretionary offsetting collections derived from power receipts collected to recover those expenses.

Systems Operation and Maintenance.—Provides essential electrical and communication equipment replacements and upgrades, capitalized moveable equipment, technical services, and supplies and materials necessary for safe reliable operation and cost-effective maintenance of the power systems.

Purchase Power and Wheeling.—Provision is made for the payment of wheeling fees and for the purchase of electricity in connection with the distribution of power under contracts with utility companies. Customers are encouraged to contract for power and wheeling on their own, or use alternative funding mechanisms, including customer advances, net billing, and bill crediting to finance these activities. Ongoing operating services are also available on a reimbursable basis.

WAPA has implemented a Purchase Power and Wheeling (PPW) risk mitigation strategy to ensure continuous operations during periods of significant drought. The strategy was developed consistent with existing authorities, and with the participation and support of WAPA power customers. Under this approach, WAPA retains receipts from the recovery of purchase power and wheeling expenses within the 'up to' amount specified by Congress. The receipts retained are available until expended, and are available only for purchase power and wheeling expenses. As of the end of FY 2021, WAPA's PPW reserve balance was \$217 million.

System Construction.—WAPA's construction and rehabilitation activity emphasizes replacement and upgrades of existing infrastructure to sustain reliable power delivery to its customers, to contain annual maintenance costs, and to improve overall operational efficiency. WAPA will continue to participate in joint construction projects with customers to encourage more widespread transmission access.

Program Direction.—Provides compensation and all related expenses for the workforce that operates and maintains WAPA's high-voltage interconnected transmission system (systems operation and maintenance program), and those that plan, design, and supervise the construction of replacements, upgrades, and additions (system construction program) to the transmission facilities.

Reimbursable Program.—This program involves services provided by WAPA to others under various types of reimbursable arrangements. WAPA's reimbursable authority and partnerships also support responses to natural disasters - to restore the energy infrastructure and access to power.

WAPA will continue to spend out of the Colorado River Dam Fund for operations and maintenance activities associated with the Boulder Canyon Project via a reimbursable arrangement with the Interior Department's Bureau of Reclamation. The Colorado River Dam Fund is a revolving fund operated by the Bureau of Reclamation. Authority for WAPA to obligate directly from the Colorado River Dam Fund comes from section 104(a) of the Hoover Power Plant Act of 1984.

The Bipartisan Infrastructure Law (BIL) (Infrastructure Investment and Jobs Act, P.L. 117–58) provided WAPA with additional resources for purchase power and wheeling.

The American Recovery and Reinvestment Act of 2009 (the Act) provided Western Area Power Administration (WAPA) borrowing authority for the purpose of constructing, financing, facilitating, planning, operating, maintaining, or studying construction of new or upgraded electric power transmission lines and related facilities with at least one terminus within the area served by WAPA, and for delivering or facilitating the delivery of power generated by renewable energy resources. This authority to borrow from the United States Treasury is available to WAPA on a permanent, indefinite basis, with the amount of borrowing outstanding not to exceed \$3.25 billion at any one time. WAPA established the Transmission Infrastructure Program (TIP) to manage and administer this borrowing authority and its related program requirements.

An emergency fund maintained from receipts from the sale and transmission of electric power is available to defray expenses necessary to ensure continuity of service. The fund was last activated in fiscal year 2010 to repair and replace damaged transmission lines due to severe winter storm conditions.

FALCON AND AMISTAD OPERATING AND MAINTENANCE FUND

For operation, maintenance, and emergency costs for the hydroelectric facilities at the Falcon and Amistad Dams, \$6,330,000, to remain available until expended, and to be derived from the Falcon and Amistad Operating and Maintenance Fund of the Western Area Power Administration, as provided in section 2 of the Act of June 18, 1954 (68 Stat. 255): Provided, That notwithstanding the provisions of that Act and of 31 U.S.C. 3302, up to \$6,102,000 collected by the Western Area Power Administration from the sale of power and related services from the Falcon and Amistad Dams shall be credited to this account as discretionary offsetting collections, to remain available until expended for the sole purpose of funding the annual expenses of the hydroelectric facilities of these Dams and associated Western Area Power Administration activities: Provided further, That the sum herein appropriated for annual expenses shall be reduced as collections are received during the fiscal year so as to result in a final fiscal year 2023 appropriation estimated at not more than \$228,000: Provided further, That for purposes of this appropriation, annual expenses means expenditures that are generally recovered in the same year that they are incurred: Provided further, That for fiscal year 2023, the Administrator of the Western Area Power Administration may accept up to \$1,598,000 in funds contributed by United States power customers of the Falcon and Amistad Dams for deposit into the Falcon and Amistad Operating and Maintenance Fund, and such funds shall be available for the purpose for which contributed in like manner as if said sums had been specifically appropriated for such purpose: Provided further, That any such funds shall be available without further appropriation and without fiscal year limitation for use by the Commissioner of the United States Section of the International Boundary and Water Commission for the sole purpose of operating, maintaining, repairing, rehabilitating, replacing, or upgrading the hydroelectric facilities at these Dams in accordance with agreements reached between the Administrator, Commissioner, and the power customers.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117-43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

Pursuant to section 2 of the Act of June 18, 1954, as amended, Western Area Power Administration is requesting funding for the Falcon and Amistad Operating and Maintenance Fund to defray operations, maintenance, and emergency (OM&E) expenses for the hydroelectric facilities at Falcon and Amistad Dams on the Rio Grande River. Most of these funds will be made available to the United States Section of the International Boundary and Water Commission through a reimbursable agreement. Within the fund, \$200,000 is for an emergency reserve that will remain unobligated unless unanticipated expenses arise. The budget provides funding for annual expenses through discretionary offsetting collections derived from power receipts collected to recover those expenses. The budget also provides authority to use customer advances. The contributed customer funds will finance the capital replacement requirements of the projects.

Western Area Power Administration's (WAPA) operation and maintenance (O&M) and power marketing expenses for the Colorado River Storage Project, the Seedsdakee Project, the Dolores Project, the Olmsted Replacement Project, and the Fort Peck Project are financed from power revenues.

Colorado River Storage Project.—WAPA markets power and operates and maintains the power transmission facilities of the Colorado River Storage Project consisting of four major storage units: Glen Canyon on the Colorado River in Arizona, Flaming Gorge on the Green River in Utah, Navajo on the San Juan River in New Mexico, and the Wayne N. Aspinall unit on the Gunnison River in Colorado.

Seedsdakee Project.—This project includes WAPA's expenses for O&M, power marketing, and transmission of hydroelectric power from the Fontenelle Dam power plant in southwestern Wyoming.

Dolores Project.—This project includes WAPA's expenses for O&M, power marketing, and transmission of hydroelectric power from power plants at McPhee Dam and Towaoc Canal in southwestern Colorado.

Fort Peck Project.—Revenues collected by WAPA are used to defray operation and maintenance and power marketing expenses associated with the power generation and transmission facilities of the Fort Peck Project, and WAPA operates and maintains the transmission system and performs power marketing functions.

Olmsted Replacement Project.—This project includes WAPA's expenses for power marketing of hydroelectric power from the Olmsted Power Plant in Northern Utah.

Equipment, Contracts and Related Expenses.—WAPA operates and maintains approximately 4,000 miles of transmission lines, substations, switchyards, communications, and control equipment associated with this

fund. Wholesale power is provided to utilities over interconnected high-voltage transmission systems. In keeping with statutory requirements, long-term power contracts provide for periodic rate adjustments to ensure that the Federal Government recovers all costs of O&M, and all capital invested in power, with interest. This activity provides for the supplies, materials, services, capital equipment replacements, and additions, including communications and control equipment, purchase power, transmission and wheeling services, and interest payments to the U.S. Treasury.

Program Direction.—The personnel compensation and related expenses for all these activities are quantified under Program Direction.

BONNEVILLE POWER ADMINISTRATION FUND

Expenditures from the Bonneville Power Administration Fund, established pursuant to Public Law 93-454, are approved for the Colville Tribes Residents Fish Hatchery Expansion, Chief Joseph Hatchery Water Quality Project, and Umatilla Hatchery Facility Project, and, in addition, for official reception and representation expenses in an amount not to exceed \$5,000: Provided, That during fiscal year 2023, no new direct loan obligations may be made.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117-43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

Bonneville Power Administration (BPA) is a Federal electric power marketing agency in the Pacific Northwest. BPA markets hydroelectric power from 21 multipurpose water resource projects of the U.S. Army Corps of Engineers and 10 projects of the U.S. Bureau of Reclamation, plus some energy from non-Federal generating projects in the region. These generating resources and BPA's transmission system are operated as an integrated power system with operating and financial results combined and reported as the Federal Columbia River Power System (FCRPS). BPA provides about 50 percent of the region's electric energy supply and about three-fourths of the region's high-voltage electric power transmission capacity.

BPA is responsible for meeting the net firm power requirements of its requesting customers through a variety of means, including energy conservation programs, acquisition of renewable and other resources, and power exchanges with utilities both in and outside the region.

BPA finances its operations with a business-type budget under the Government Corporation Control Act, 31 U.S.C. 9101–10, on the basis of the self-financing authority provided by the Federal Columbia River Transmission System Act of 1974 (Transmission Act) (Public Law 93–454) and the U.S. Treasury borrowing authority provided by the Transmission Act, the Pacific Northwest Electric Power Planning and Conservation Act (Pacific Northwest Power Act) (Public Law 96–501) for energy conservation, renewable energy resources, capital fish facilities, and other purposes, the American Recovery and Reinvestment Act of 2009 (Public Law 111–5), Infrastructure Investment and Jobs Act of 2021 (section 40110) (Public Law 117–58), and other legislation. Authority to borrow from the U.S. Treasury is available to the BPA on a permanent, indefinite basis. The amount of U.S. Treasury borrowing outstanding at any time cannot exceed \$17.70 billion. BPA finances its approximate \$4.4 billion annual cost of operations and investments primarily using power and transmission revenues and loans from the U.S. Treasury.

Operating Expenses—Transmission Services.—Provides for operating over 15,100 circuit miles of high-voltage transmissions lines and 262 substations, and for maintaining the facilities and equipment of the Bonneville transmission system in 2023.

Power Services.—Provides for the planning, contractual acquisition and oversight of reliable, cost effective resources. These resources are needed to serve BPA's portion of the region's forecasted net electric load requirements. This activity also includes protection, mitigation and enhancement of fish and wildlife affected by hydroelectric facilities on the Columbia River and its tributaries in accordance with the Pacific Northwest Power Act. This activity provides for payment of the operation and maintenance (O&M) costs allocated to power the 31 U.S. Army Corps of Engineers and U.S. Bureau of Reclamation hydro projects, amortization on the capital investment in power generating facilities, and irrigation assistance at U.S. Bureau of Reclamation facilities. This activity also provides for the planning, contractual acquisition and oversight of reliable, cost effective conservation. It also provides for extending the benefits of low-cost Federal power to the residential and small farm customers of investor-owned and publicly owned utilities, in accordance with the Pacific Northwest Power Act and for activities of the Pacific Northwest Electric Power and Conservation Planning Council required by the Pacific Northwest Power Act.

Interest.—Provides for payments to the U.S. Treasury for interest on U.S. Treasury borrowings to finance BPA's capital investments under \$17.70 billion of U.S. Treasury borrowing authority provided by the Transmission Act; the Pacific Northwest Power Act for energy conservation, renewable energy resources, capital fish facilities, and other purposes; the American Recovery and Reinvestment Act of 2009; Infrastructure Investment and Jobs Act of 2021, and other legislation. This interest category also includes interest on U.S. Army Corps of Engineers, BPA and U.S. Bureau of Reclamation appropriated debt.

Capital Investments—Transmission Services.—Provides for the planning, design and construction of transmission lines, substation and control system

additions, replacements, and enhancements to the FCRPS transmission system for a reliable, efficient and cost-effective regional transmission system. Provides for planning, design, and construction work to repair or replace existing transmission lines, substations, control systems, and general facilities of the FCRPS transmission system.

Power Services.—Provides for direct funding of additions, improvements, and replacements at existing Federal hydroelectric projects in the Northwest. It also provides for capital investments to implement environmental activities, and protect, mitigate, and enhance fish and wildlife affected by hydroelectric facilities on the Columbia River and its tributaries, in accordance with the Pacific Northwest Power Act. This activity provides for the planning, contractual acquisition and oversight of reliable, cost effective conservation.

Capital Equipment/Capitalized Bond Premium.—Provides for capital information technologies, office furniture and equipment, and software capital development in support of all BPA programs. It also provides for bond premiums incurred for refinancing of bonds.

Total Capital Obligations.—The 2023 capital obligations are estimated to be \$842.5 million.

Contingencies.—Although contingencies are not specifically funded, the need may arise to provide for purchase of power in low-water years; for repair and/or replacement of facilities affected by natural and man-made emergencies, including the resulting additional costs for contracting, construction, and operation and maintenance work; for unavoidable increased costs for the planned program due to necessary but unforeseen adjustments, including engineering and design changes, contractor and other claims and relocations; or for payment of a retrospective premium adjustment in excess nuclear property insurance.

Financing.—The Transmission Act provides for the use by BPA of all receipts, collections, and recoveries in cash from all sources, including the sale of bonds, to finance the annual budget programs of BPA. These receipts result primarily from the sale of power and transmission services. The Transmission Act also provides for authority to borrow from the U.S. Treasury at rates comparable to borrowings at open market rates for similar issues. BPA has \$17.70 billion of U.S. Treasury borrowing authority provided by the Transmission Act; the Pacific Northwest Power Act for energy conservation, renewable energy resources, capital fish facilities, and other purposes; the American Recovery and Reinvestment Act of 2009; Infrastructure Investment and Jobs Act of 2021, and other legislation. At the end of 2021, BPA had outstanding bonds with the U.S. Treasury of \$5,629 million. At the end of 2021, BPA also had \$7,191.1 million of non-Federal debt outstanding, including Energy Northwest bonds. BPA will rely primarily on its U.S. Treasury borrowing authority to finance capital projects, but may also elect to use cash reserves generated by revenues from customers or seek third party financing sources when feasible to finance some of these investments.

In 2021, BPA made payments to the Treasury of \$1,049 million and also expects to make payments of \$935 million in 2022 and \$971 million in 2023. The 2023 payment is expected to be distributed as follows: interest on bonds and appropriations (\$192 million), amortization (\$734 million), and other (\$45 million). BPA also received credits totaling approximately \$111 million applied against its Treasury payments in 2021 of which \$90.6 million reflected amounts diverted to fish mitigation efforts, but not allocable to power, in the Columbia and Snake River systems.

BPA, with input from its stakeholders, considers other strategies to sustain funding for its infrastructure investment requirements as well. BPA's Financial Plan defines strategies and policies for guiding how BPA will manage risk and variability of electricity markets and water years. It also describes how BPA will continue to manage to ensure it meets its Treasury repayment responsibilities.

Direct Loans.—During 2023, no new direct loan obligations may be made.

Operating Results.—Total revenues are forecast at approximately \$3.9 billion in 2023.

BONNEVILLE POWER ADMINISTRATION FUND—Continued

It should be noted that BPA's revenue forecasts are based on several critical assumptions about both the supply of and demand for Federal energy. During the operating year, deviation from the conditions assumed in a rate case may result in a variation in actual revenues of several hundred million dollars from the forecast.

Consistent with Administration policy, BPA will continue to fully recover, from the sale of electric power and transmission, funds sufficient to cover the full cost of Civil Service Retirement System and Post-Retirement Health Benefits for its employees. The entire cost of BPA and the power share of FCRPS U.S. Army Corps of Engineers and U.S. Bureau of Reclamation employees working under the Federal Employees Retirement System is fully recovered in wholesale electric power and transmission rates.

Office of the Secretary (OSE).—Directs and leads the management of the Department and provides policy guidance to line and staff organizations in the accomplishment of DOE's mission. In FY 2023, OSE will stand up a Central Climate Change Coordination team responsible to coordinate activities across DOE and other National Climate Task Force agencies.

Congressional and Intergovernmental Affairs (CI).—Responsible for DOE's liaison, communication, coordinating, directing, and promoting the Department's policies and legislative initiatives with Congress, State, territorial, Tribal and local government officials, and other Federal agencies.

Public Affairs (PA).—Responsible for directing and managing the Department's policies and initiatives with the public, news media, and other stakeholders. PA serves as the Department's chief spokesperson with the news media, shapes initiatives aimed at educating the press and public about DOE issues, builds and maintains the Energy.gov platform.

General Counsel (GC).—Responsible for providing legal services to all Department offices, and for determining the Department's authoritative position on any question of law with respect to all Department offices and programs, except for those belonging exclusively to the Federal Energy Regulatory Commission. GC is responsible for the coordination and clearance of proposed legislation affecting energy policy and Department activities. GC administers and monitors standards of conduct requirements, conducts patent program and intellectual property activities, and coordinates rulemaking actions of the Department with other Federal agencies.

Economic Impact and Diversity (ED).—Develops and executes DOE policies to implement applicable statutes and Executive Orders that impact diversity goals affecting equal employment opportunities, minority businesses, minority educational institutions, and historically underrepresented communities. ED identifies ways of ensuring that underrepresented populations are afforded an opportunity to participate fully in DOE programs. ED serves as central coordinator and departmental subject matter expert on equity and justice across the DOE complex and labs. Additionally, ED's Office of Civil Rights and Diversity will directly oversee Equal Employment Opportunity (EEO) complaint processing for the entire enterprise (except for NNSA), as well as directly overseeing the affirmative employment and diversity and inclusion functions for the entire complex (except for NNSA and the PMAs).

Chief Financial Officer (CFO).—Assures the effective management and financial integrity of DOE programs, activities, and resources by developing, implementing, and monitoring DOE-wide policies and systems in the areas of budget administration, finance and accounting, internal controls and financial policy, corporate financial systems, and strategic planning.

Chief Information Officer (CIO).—Provides advice and assistance to the Secretary and other senior managers to ensure that information technology is acquired and information resources are managed in a manner that complies with Administration policies and procedures and statutory requirements. In FY 2023 significant investments will continue to address Cyber vulnerabilities identified as a result of SolarWinds incident of December 2020, implementation of Executive Order 14028 focusing on zero trust architecture, enhanced logging, security licensing, universal encryption, and multifactor authentication.

Chief Human Capital Officer (HC).—Provides DOE leadership on the impact and use of policies, proposals, programs, partnership agreements and relationships related to all aspects of human capital management. HC seeks solutions that address workforce issues in the areas of recruiting, hiring, motivating, succession planning, competency development, training and learning, retention, and diversity.

Office of Policy (OP).—Serves as the principal policy office advising the Secretary of Energy and performing priority policy analyses across the Department's activities, focused on technology; infrastructure; state, local, and tribal activities; and energy jobs, and Arctic Energy coordination.

International Affairs (IA).—Advises Departmental leadership on strategic implementation of U.S. international energy policy and supports DOE's mission to ensure America's security and prosperity by addressing its energy, environmental, and climate challenges through innovative science and technology solutions. IA develops and leads the Department's bilateral and multilateral R&D cooperation, connecting DOE's program offices to advantageous international relationships. IA is the Department lead on fulfilling the Agency's requirements on the Committee of Foreign Investment in the U.S., including the expanded responsibilities derived from the Foreign Investment Risk Review Modernization Act of 2018. In FY 2023, IA will invest in the Net Zero World Initiative, DOE's signature contribution to the Presidents Build Back Better World Initiative, providing comprehensive technology and investment roadmaps to help key large emitters across the globe achieve net zero emissions by 2050.

Office of Small and Disadvantaged Business Utilization (OSDBU).—Responsible for maximizing contracting and subcontracting opportunities for small businesses interested in doing business with the Department. A primary responsibility of OSDBU is to work in partnership with Departmental program elements to achieve prime and subcontracting small business goals set forth by statute and the U.S. Small Business Administration.

Office of Management (MA).—Provides DOE with centralized direction and oversight for the full range of management, procurement and administrative services. MA is responsible for contract management policy development and oversight, acquisition and contract administration, and delivery of procurement services to DOE headquarters organizations. MA activities include the management of headquarters facilities, Department-wide implementation of Federal sustainability goals, purchase or lease of Zero Emission Vehicles (ZEVs) within agency-owned vehicle fleets or as part of a transition from GSA-leased gas-powered vehicles to GSA-leased ZEVs, and related charging infrastructure and program costs.

Project Management Oversight and Assessment (PM).—Provides DOE corporate oversight, managerial leadership and assistance in developing and implementing DOE-wide policies, procedures, programs, and management systems pertaining to project management, and manages the project management career development program for DOE's Federal Project Directors. PM also provides independent oversight of Environmental Management's portfolio of capital asset projects that are \$100 million or greater, including all activities involved with on-site cost, schedule, technical and management status reviews, as well as analyzing and reporting performance

DEPARTMENTAL ADMINISTRATION—Continued

progress of the projects. PM will also provide cost estimating and program evaluation.

Strategic Partnership Programs (SPP).—Covers the cost of work performed under orders placed with the Department by non-DOE entities that are precluded by law from making advance payments and certain revenue programs. Reimbursement of these costs is made through deposits of offsetting collections to this account.

Office of Technology Transitions (OTT).—Facilitates accessibility of DOE's capabilities and technologies for private sector commercialization. OTT serves a multi-disciplinary role, providing management of DOE's ongoing tech-to-market activities, including the statutory Technology Commercialization Fund. OTT coordinates DOE technology transition activities, including policy reform, data collection and analyses, industry stakeholder convenings, and amplification of DOE technology transfer success stories across the DOE—including programs, field offices, and the National Labs and Production Facilities—as well as engaging with other Federal agencies to improve awareness of the benefits of engaging the DOE research enterprise. In FY 2023, OTT is requested as a separate appropriation.

Artificial Intelligence Technology Office (AITO).—Coordinates Artificial Intelligence capabilities utilization and research throughout the Department.

The Office of Inspector General (OIG) provides Department-wide (including the National Nuclear Security Administration and the Federal Energy Regulatory Commission) audit, inspection, and investigative functions to identify and recommend corrections for management and administrative deficiencies, which create conditions for existing or potential instances of fraud, waste, abuse or violations of law. The audit function provides financial and performance audits of programs and operations. The inspection function provides independent inspection and analysis of the performance of programs and operations. The investigative function provides for the detection and investigation of improper and illegal activities involving programs, personnel, and operations. Through these efforts, the OIG identifies opportunities for cost savings and operational efficiency; identifies programs that are not meeting performance expectations; recovers monies to the Department and the Treasury as a result of civil and criminal prosecutions; and identifies ways to make Departmental programs safer and more secure.

GENERAL PROVISIONS—DEPARTMENT OF ENERGY

SEC. 301. (a) No appropriation, funds, or authority made available by this title for the Department of Energy shall be used to initiate or resume any program, project, or activity or to prepare or initiate Requests For Proposals or similar arrangements (including Requests for Quotations, Requests for Information, and Funding Opportunity Announcements) for a program, project, or activity if the program, project, or activity has not been funded by Congress.

(b)

(1) Unless the Secretary of Energy notifies the Committees on Appropriations of both Houses of Congress at least 3 full business days in advance, none of the funds made available in this title may be used to—

(A) make a grant allocation or discretionary grant award totaling \$1,000,000 or more;

(B) make a discretionary contract award or Other Transaction Agreement totaling \$1,000,000 or more, including a contract covered by the Federal Acquisition Regulation;

(C) issue a letter of intent to make an allocation, award, or Agreement in excess of the limits in subparagraph (A) or (B); or

(D) announce publicly the intention to make an allocation, award, or Agreement in excess of the limits in subparagraph (A) or (B).

(2) The Secretary of Energy shall submit to the Committees on Appropriations of both Houses of Congress within 15 days of the conclusion of each quarter a report detailing each grant allocation or discretionary grant award totaling less than \$1,000,000 provided during the previous quarter.

(3) The notification required by paragraph (1) and the report required by paragraph (2) shall include the recipient of the award, the amount of the award, the fiscal year for which the funds for the award were appropriated, the account and program, project, or activity from which the funds are being drawn, the title of the award, and a brief description of the activity for which the award is made.

(c) The Department of Energy may not, with respect to any program, project, or activity that uses budget authority made available in this title under the heading "Department of Energy—Energy Programs", enter into a multiyear contract, award a multiyear grant, or enter into a multiyear cooperative agreement unless—

(1) the contract, grant, or cooperative agreement is funded for the full period of performance as anticipated at the time of award; or

(2) the contract, grant, or cooperative agreement includes a clause conditioning the Federal Government's obligation on the availability of future year budget authority and the Secretary notifies the Committees on Appropriations of both Houses of Congress at least 3 days in advance.

(d) The amounts made available by this title may be reprogrammed for any program, project, or activity, and the Department shall notify the Committees on Appropriations of both Houses of Congress at least 30 days prior to the use of any proposed reprogramming that would cause any program, project, or activity funding level to increase or decrease by more than \$5,000,000 or 10 percent, whichever is less, during the time period covered by this Act.

(e) None of the funds provided in this title shall be available for obligation or expenditure through a reprogramming of funds that—

(1) creates, initiates, or eliminates a program, project, or activity;

(2) increases funds or personnel for any program, project, or activity for which funds are denied or restricted by this Act; or

(3) reduces funds that are directed to be used for a specific program, project, or activity by this Act.

(f)

(1) The Secretary of Energy may waive any requirement or restriction in this section that applies to the use of funds made available for the Department of Energy if compliance with such requirement or restriction would pose a substantial risk to human health, the environment, welfare, or national security.

(2) The Secretary of Energy shall notify the Committees on Appropriations of both Houses of Congress of any waiver under paragraph (1) as soon as practicable, but not later than 3 days after the date of the activity to which a requirement or restriction would otherwise have applied. Such notice shall include an explanation of the substantial risk under paragraph (1) that permitted such waiver.

(g) The unexpended balances of prior appropriations provided for activities in this Act may be available to the same appropriation accounts for such activities established pursuant to this title. Available balances may be merged with funds in the applicable established accounts and thereafter may be accounted for as one fund for the same time period as originally enacted.

SEC. 302. Funds appropriated by this or any other Act, or made available by the transfer of funds in this Act, for intelligence activities are deemed to be specifically authorized by the Congress for purposes of section 504 of the National Security Act of 1947 (50 U.S.C. 3094) during fiscal year 2023 until the enactment of the Intelligence Authorization Act for fiscal year 2023.

SEC. 303. None of the funds made available in this title shall be used for the construction of facilities classified as high-hazard nuclear facilities under 10 CFR Part 830 unless independent oversight is conducted by the Office of Enterprise Assessments to ensure the project is in compliance with nuclear safety requirements.

SEC. 304. None of the funds made available in this title may be used to approve critical decision-2 or critical decision-3 under Department of Energy Order 413.3B, or any successive departmental guidance, for construction projects where the total project cost exceeds \$100,000,000, until a separate independent cost estimate has been developed for the project for that critical decision.

SEC. 305. Notwithstanding section 161 of the Energy Policy and Conservation Act (42 U.S.C. 6241), upon a determination by the President in this fiscal year that a regional supply shortage of refined petroleum product of significant scope and duration exists, that a severe increase in the price of refined petroleum product will likely result from such shortage, and that a draw down and sale of refined petroleum product would assist directly and significantly in reducing the adverse impact of such shortage, the Secretary of Energy may draw down and sell refined petroleum product from the Strategic Petroleum Reserve. Proceeds from a sale under this section shall be deposited into the SPR Petroleum Account established in section 167 of the Energy Policy and Conservation Act (42 U.S.C. 6247), and such amounts shall be available for obligation, without fiscal year limitation, consistent with that section.

SEC. 306. Subparagraphs (B) and (C) of section 40401(a)(2) of Public Law 117-58, paragraph (3) of section 16512(r) of title 42, United States Code, and section (l) of section 17013 of title 42, United States Code, shall not apply for fiscal year 2023.

TITLE V—GENERAL PROVISIONS

(INCLUDING TRANSFER OF FUNDS)

SEC. 501. None of the funds appropriated by this Act may be used in any way, directly or indirectly, to influence congressional action on any legislation or appropriation matters pending before Congress, other than to communicate to Members of Congress as described in 18 U.S.C. 1913.

SEC. 502. None of the funds made available by this Act may be used in contravention of Executive Order No. 12898 of February 11, 1994 (Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations).

SEC. 503. (a) None of the funds made available in this Act may be used to maintain or establish a computer network unless such network blocks the viewing, downloading, and exchanging of pornography.

(b) Nothing in subsection (a) shall limit the use of funds necessary for any Federal, State, Tribal, or local law enforcement agency or any other entity carrying out criminal investigations, prosecution, or adjudication activities.

SEC. 504. Of the unavailable collections currently in the United States Enrichment Corporation Fund, \$405,421,000 shall be transferred to and merged with the Uranium Enrichment Decontamination and Decommissioning Fund and shall be available only to the extent provided in advance in appropriations Acts.

GENERAL PROVISIONS—DEPARTMENT OF ENERGY

[(INCLUDING TRANSFER OF FUNDS)]

[SEC. 301. Notwithstanding section 3304 of title 5, United States Code, and without regard to the provisions of sections 3309 through 3318 of such title 5, the Secretary of Energy, upon a determination that there is a severe shortage of candidates or a

critical hiring need for particular positions to carry out the Department of Energy activities funded under this title, may, from within the funds provided to the Department of Energy under this title, recruit and directly appoint highly qualified individuals into the competitive service: *Provided*, That such authority shall not apply to positions in the Excepted Service or the Senior Executive Service: *Provided further*, That any action authorized herein shall be consistent with the merit principles of section 2301 of such title 5, and the Department shall comply with the public notice requirements of section 3327 of such title 5: *Provided further*, That the authority under this section shall terminate on September 30, 2027: *Provided further*, That 180 days after the date of enactment of this Act, the Secretary of Energy shall submit to the House and Senate Committees on Appropriations an estimate of the number

of highly qualified individuals it expects to hire under the authority provided in this section.】

【SEC. 302. Up to one-tenth of one percent of each amount appropriated to the Department of Energy in this title may be transferred to "Departmental Administration" to be used for additional management and mission support for funds made available to the Department of Energy in this title in this Act.】

【SEC. 303. One-tenth of one percent of the amounts made available to the Department of Energy under each heading in this title in this Act in each of fiscal years 2022 through 2026 shall be transferred to the Office of the Inspector General of the Department of Energy to oversee the funds made available to the Department of Energy in this title in this Act.】 (*Infrastructure Investments and Jobs Appropriations Act.*)

The Food and Drug Administration (FDA) promotes and protects public health by overseeing the safety, efficacy, quality, and security of human and veterinary drugs, biological products, medical devices, foods, cosmetics, and products that emit radiation. FDA also has responsibility for regulating the manufacturing, marketing, and distribution of tobacco products to protect public health and to reduce tobacco use by minors. FDA advances public health by helping to advance innovations that make medicines more effective, safe, and affordable and by helping the public get the accurate, science-based information they need to use medicines and foods to maintain and improve their health. FDA supports the Nation's counterterrorism capability by ensuring the security of the food supply and by fostering the development of medical products and countermeasures to respond to deliberate and naturally emerging public health threats. The FY 2023 Budget includes \$6.8 billion in total resources for FDA. The Budget invests in priority activities including inspections modernization, critical food safety efforts, medical device cybersecurity, public health employee pay costs, alternative methods to animal testing, and Cancer Moonshot.

The FY 2023 Budget proposes additional resources including an estimated \$550 million for the human generic drug program, \$41 million for biosimilars, \$1.2 billion in prescription drug user fees, and \$248 million in medical device user fees. In FY 2022, Congress will consider proposed legislation to reauthorize PDUFA, MDUFA, GDUFA, and BsUFA. The Budget proposes legislation that authorizes the collection and spending of these fees subject to appropriations. The Budget also includes a legislative proposal to increase the user fee collected in support of the tobacco program

by \$100 million and adds electronic nicotine delivery system manufacturers and importers as entities subject to the user fees.

The FY 2023 Budget includes FDAs contributions to the HHS Pandemic Preparedness Plan, and reflects the activities and corresponding spending amounts needed for FDA to achieve the Departments preparedness vision. The FY 2023 Budget will expand and modernize FDAs regulatory capacity, IT, laboratory infrastructure, including strengthening the personal protective equipment supply chain by building analytics and creating predictive modeling capabilities. FDA will also focus on clinical evaluation of vaccines and therapeutics that target high-profile viral families and speed development of diagnostics, including expansion of test validation capacity and development of common performance standards. The Budget will also support FDAs work with its international partners to strengthen foreign inspections, harmonize premarket review of vaccines, therapeutics, diagnostics and reducing zoonotic pathogen spillover.

FDA INNOVATION ACCOUNT, CURES ACT

(INCLUDING TRANSFER OF FUNDS)

For necessary expenses to carry out the purposes described under section 1002(b)(4) of the 21st Century Cures Act, in addition to amounts available for such purposes under the heading "Salaries and Expenses", \$50,000,000, to remain available until expended: Provided, That amounts appropriated in this paragraph are appropriated pursuant to section 1002(b)(3) of the 21st Century Cures Act, are to be derived from amounts transferred under section 1002(b)(2)(A) of such Act, and may be transferred by the Commissioner of Food and Drugs to the appropriation for "Department of Health and Human Services Food and Drug Administration Salaries and Expenses" solely for the purposes provided in such Act: Provided further, That upon a determination by the Commissioner that funds transferred pursuant to the previous proviso are not necessary for the purposes provided, such amounts may be transferred back to the account: Provided further, That such transfer authority is in addition to any other transfer authority provided by law.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

HEALTH RESOURCES AND SERVICES ADMINISTRATION

Federal Funds

PRIMARY HEALTH CARE

For carrying out titles II and III of the Public Health Service Act (referred to in this Act as the "PHS Act") with respect to primary health care and the Native Hawaiian Health Care Act of 1988, \$1,839,022,000: Provided, That no more than \$1,000,000 shall be available until expended for carrying out the provisions of section 224(o) of the PHS Act: Provided further, That no more than \$120,000,000 shall be available until expended for carrying out subsections (g) through (n) and (q) of section 224 of the PHS Act, and for expenses incurred by the Department of Health and Human Services (referred to in this Act as "HHS") pertaining to administrative claims made under such law.

HEALTH WORKFORCE

For carrying out titles III, VII, and VIII of the PHS Act with respect to the health workforce, sections 1128E and 1921 of the Social Security Act, and the Health Care Quality Improvement Act of 1986, \$1,619,884,000: Provided, That section 751(j)(2) and 762(k) of the PHS Act and the proportional funding amounts in paragraphs (1) through (4) of section 756(f) of the PHS Act shall not apply to funds made available under this heading: Provided further, That for any program operating under section 751 of the PHS Act on or before January 1, 2009, the Secretary of Health and Human Services (referred to in this title as the "Secretary") may hereafter waive any of the requirements contained in sections 751(d)(2)(A) and 751(d)(2)(B) of such Act for the full project period of a grant under such section: Provided further, That fees collected for the disclosure of information under section 427(b) of the Health Care Quality Improvement Act of 1986 and sections 1128E(d)(2) and 1921 of the Social Security Act shall be sufficient to recover the full costs of operating the programs

authorized by such sections and shall remain available until expended for the National Practitioner Data Bank: Provided further, That funds transferred to this account to carry out section 846 and subpart 3 of part D of title III of the PHS Act may be used to make prior year adjustments to awards made under such section and subpart: Provided further, That section 756(c) of the PHS Act shall apply to paragraphs (1) through (4) of section 756(a) of the PHS Act: Provided further, That \$210,000,000 shall remain available until expended for the purposes of providing primary health services, assigning National Health Service Corps ("NHSC") participants to expand the delivery of substance use disorder treatment services, notwithstanding the assignment priorities and limitations under sections 333(a)(1)(D), 333(b), and 333A(a)(1)(B)(ii) of the PHS Act, and making payments under the NHSC Loan Repayment Program under section 338B of such Act: Provided further, That within the amount made available in the previous proviso, \$15,000,000 shall remain available until expended for the purposes of making payments under the NHSC Loan Repayment Program under section 338B of the PHS Act to individuals participating in such program who provide primary health services in Indian Health Service facilities, Tribally-Operated 638 Health Programs, and Urban Indian Health Programs (as those terms are defined by the Secretary), notwithstanding the assignment priorities and limitations under section 333(b) of such Act: Provided further, That within the amount made available in the proviso preceding the previous proviso, \$25,000,000 shall remain available until expended for the purposes of making loan repayment awards to mental and behavioral health providers, including peer support specialists, in accordance with section 338B of the PHS Act, notwithstanding the assignment priorities and limitations under sections 333(a)(1)(D), 333(b), 333A(a)(1)(B)(ii), and 334 of the PHS Act: Provided further, That for purposes of the previous three provisos, section 331(a)(3)(D) of the PHS Act shall be applied as if the term "primary health services" includes clinical substance use disorder treatment services, including those provided by masters level, licensed substance use disorder treatment counselors, and services provided by certified peer support specialists: Provided further, That funds made available under this heading may be used to make grants to establish or expand optional community-based nurse practitioner fellowship programs that are accredited or in the accreditation process, with a preference for those in Federally Qualified Health Centers, for practicing post-graduate nurse practitioners in primary care or behavioral health.

MATERNAL AND CHILD HEALTH

For carrying out titles III, XI, XII, and XIX of the PHS Act with respect to maternal and child health and title V of the Social Security Act, \$1,272,930,000: Provided, That notwithstanding sections 502(a)(1) and 502(b)(1) of the Social Security Act, not more than \$351,116,000 shall be available for carrying out special projects of regional and national significance pursuant to section 501(a)(2) of such Act and \$10,276,000 shall be available for projects described in subparagraphs (A) through (F) of section 501(a)(3) of such Act.

RYAN WHITE HIV/AIDS PROGRAM

For carrying out title XXVI of the PHS Act with respect to the Ryan White HIV/AIDS program, \$2,654,781,000, of which \$2,010,881,000 shall remain available to the Secretary through September 30, 2025, for parts A and B of title XXVI of the PHS Act, and of which not less than \$900,313,000 shall be for State AIDS Drug Assistance Programs under the authority of section 2616 or 311(c) of such Act; and of which \$290,000,000, to remain available until expended, shall be available to the Secretary for carrying out a program of grants and contracts under title XXVI or section 311(c) of such Act focused on ending the nationwide HIV/AIDS epidemic, with any grants issued under such section 311(c) administered in conjunction with title XXVI of the PHS Act, including the limitation on administrative expenses.

HEALTH SYSTEMS

For carrying out titles III and XII of the PHS Act with respect to health care systems, and the Stem Cell Therapeutic and Research Act of 2005, \$94,009,000, of which \$122,000 shall be available until expended for facilities renovations and other facilities-related expenses of the National Hansen's Disease Program.

RURAL HEALTH

For carrying out titles III and IV of the PHS Act with respect to rural health, section 427(a) of the Federal Coal Mine Health and Safety Act of 1969, and sections 711 and 1820 of the Social Security Act, \$373,709,000, of which \$57,509,000 from general revenues, notwithstanding section 1820(j) of the Social Security Act, shall be available for carrying out the Medicare rural hospital flexibility grants program: Provided, That of the funds made available under this heading for Medicare rural hospital flexibility grants, up to \$20,942,000 shall be available for the Small Rural Hospital Improvement Grant Program for quality improvement and adoption of health information technology and up to \$1,000,000 shall be to carry out section 1820(g)(6) of the Social Security Act, with funds provided for grants under section

1820(g)(6) available for the purchase and implementation of telehealth services and other efforts to improve health care coordination for rural veterans between rural providers and the Department of Veterans Affairs electronic health record system: Provided further, That notwithstanding section 338J(k) of the PHS Act, \$12,500,000 shall be available for State Offices of Rural Health: Provided further, That \$12,700,000 shall remain available through September 30, 2025, to support the Rural Residency Development Program.

FAMILY PLANNING

For carrying out the program under title X of the PHS Act to provide for voluntary family planning projects, \$400,000,000: Provided, That amounts provided to said projects under such title shall not be expended for abortions, that all pregnancy counseling shall be nondirective, and that such amounts shall not be expended for any activity (including the publication or distribution of literature) that in any way tends to promote public support or opposition to any legislative proposal or candidate for public office.

HRSA-WIDE ACTIVITIES AND PROGRAM SUPPORT

For carrying out title III of the Public Health Service Act and for cross-cutting activities and program support for activities funded in other appropriations included in this Act for the Health Resources and Services Administration, \$230,709,000, of which \$44,500,000 shall be for expenses necessary for the Office for the Advancement of Telehealth, including grants, contracts, and cooperative agreements for the advancement of telehealth activities: Provided, That funds made available under this heading may be used to supplement program support funding provided under the headings "Primary Health Care", "Health Workforce", "Maternal and Child Health", "Ryan White HIV/AIDS Program", "Health Systems", and "Rural Health".

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117-43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

Resources displayed here support grants and contracts managed by Health Resources and Services Administration (HRSA). These activities include support for Health Centers, treatment and care for those living with HIV/AIDS, health workforce training, maternal and child health care services, promotion of organ and bone marrow donation, rural health activities, and the medical malpractice claims funds, which pay malpractice claims filed against employees of federally-supported health centers and free clinics. HRSA is also responsible for oversight of the 340B Drug Discount Program.

HRSA administers the following revolving loan programs: Health Professions Student Loans (HPSL), Nursing Student Loans (NSL), Primary Care Loans (PCL) and Loans for Disadvantaged Students (LDS). These programs are financed through revolving accounts (Federal Capital Contribution) and do not receive annual appropriations. Through these revolving fund accounts, funds are awarded to institutions that in turn provide loans to individual students. As borrowers pay back loans, the program's revolving account gets replenished, and the collected funds are then used to give out new loans in the following academic years. If the program's revolving account has excess funds that will not be used to provide new loans, these excess funds are returned to HRSA. Funds returned to HRSA are then awarded to programs that are in need of additional funds. The information below reflects Academic Year 2020–2021 data reported in the FY 2021 Annual Operating Report.

The Vaccine Injury Compensation Program was established pursuant to Public Law 99–660 and Public Law 100–203 and serves as a source of funds to pay claims for compensation for vaccine related injury or death. Payment of claims associated with vaccine related injury or death occurring before October 1, 1988, are financed from the General Fund and are reflected in this account. Given sufficient carry-over funds from prior years' appropriations to pay for the balance of the pre–1988 claims yet to be adjudicated, no appropriation is requested to cover payment of pre–1988 claims. By statute, no new claims are accepted for this account. Payment of claims associated with vaccine related injury or death occurring after October 1, 1988, are reflected in the Vaccine Injury Compensation Program trust fund account.

COVERED COUNTERMEASURE PROCESS FUND

For carrying out section 319F-4 of the PHS Act, \$15,000,000, to remain available until expended.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). FUNDING FOR INDIAN HEALTH SERVICES

(Legislative proposal, subject to PAYGO)

The Budget proposes to shift the four IHS accounts from discretionary to mandatory. After FY 2023, IHS funding would grow to keep pace with healthcare costs and population growth and gradually close longstanding service and facility shortfalls. The net score forgoes discretionary funding for mandatory to provide IHS stable and predictable funding.

The Centers for Disease Control and Prevention (CDC) works to protect the health and safety of all Americans. The agency has played a key role in protecting Americans from recent health emergencies including COVID-19, opioid overdose, Zika, and HIN1. Key programs of the CDC include immunization and respiratory diseases; HIV/AIDS, viral hepatitis, STD, and tuberculosis prevention; emerging and zoonotic infectious diseases; chronic disease prevention and health promotion; public health and scientific services; injury prevention and control; environmental health; global health; programs that reduce the occurrence of birth defects and developmental disabilities; public health preparedness and emergency response; and cross-cutting CDC-wide activities and program support, including public health infrastructure. The FY 2023 Budget continues to increase foundational investments in core public health capacities that are essential prepare for and response to public health emergencies and to the effective and efficient functioning of public health system. These include a request for \$600 million for dedicated funding to invest in public health infrastructure and capacity, and \$50 million to support the Center for Forecasting and Outbreak Analytics, which will sustain efforts begun in FY 2021 with COVID-19 emergency supplemental appropriations. The FY 2023 Budget also provides \$310 million for CDC to undertake the fourth year of the Ending the HIV Epidemic in the U.S. initiative, and \$200 million to continue CDC's Public Health Data Modernization efforts. The FY 2023 Budget provides \$353 million for global public health protection activities to protect Americans through partnerships and other activities that support public health capacity improvements in countries at risk for uncontrolled outbreaks of infectious diseases. In addition, the FY 2023 Budget includes several policy proposals to allow CDC to more efficiently respond to public health emergencies, including a proposal to modernize CDC's budget structure by consolidating the existing 13 Treasury accounts, including "Buildings and Facilities", into a single "CDC-Wide Activities and Program Support" account. Nearly all existing budget lines are maintained within the proposed single account structure.

The FY 2023 Budget for CDC establishes a new Vaccines for Adults (VFA) program, which will provide uninsured adults with access to all vaccines recommended by the Advisory Committee on Immunization Practices (ACIP) at no cost. As a complement to the successful Vaccines for Children (VFC) program, the VFA program will reduce disparities in vaccine coverage and promote infrastructure for broad access to routine and outbreak vaccines. The FY 2023 Budget also includes mandatory funding for significant investments in pandemic preparedness and biodefense across HHS, including CDC. These investments will allow CDC to transform medical defenses, ensure situational awareness, strengthen public health systems and build core capabilities.

Buildings and Facilities funds support renovations to existing buildings, as well as repair and improvements (e.g., laboratory ventilation upgrades, structural repairs, roof replacements, and electrical and mechanical repairs) necessary to restore, maintain, and improve CDC's assets. The FY 2023 Budget includes several policy proposals to allow CDC to more efficiently respond to public health emergencies, including a proposal to modernize CDC's budget structure by consolidating the existing 13 Treasury accounts,

including "Buildings and Facilities", into a single "CDC-Wide Activities and Program Support" account.

Implemented in fiscal year 2014, CDC's Working Capital Fund has extended availability and serves as the funding mechanism to finance centralized business services support across CDC. Services rendered under the fund are performed at pre-established rates that are used to cover the full cost of operations and future investments. Contributions are collected for services, thereby creating market-like incentives to maximize efficiency and quality.

HHS, along with CDC, began implementing provisions of the James Zadroga 9/11 Health and Compensation Act of 2010 (P.L. 111–347) on July 1, 2011, to provide monitoring and treatment benefits to eligible responders and survivors. CDC serves as the Program Administrator for the World Trade Center (WTC) Health Program. The WTC Health Program provides quality care for WTC-related health conditions, conducts WTC research, and maintains a health registry to collect data on victims of the September 11, 2001, terrorist attacks. The WTC Health Program has been extended through FY 2090 under the James Zadroga 9/11 Health and Compensation Reauthorization Act of 2015 (P.L. 114–113, Division O, Title III). The amounts included for 2022 and 2023 in the Budget reflect estimated Federal obligations for the WTC Health Program.

This program funds biomedical research and research training. These accounts will continue to be appropriated separately and are displayed in a consolidated format to improve the readability of the presentation. The FY 2023 Budget continues to fund a new Advanced Research Projects Agency for Health within the National Institutes of Health, as first proposed in the FY 2022 Budget. With an initial focus on cancer and other diseases such as diabetes and Alzheimer's, ARPA-H would drive transformational innovation in health research and speed application and implementation of health breakthroughs.

MENTAL HEALTH

For carrying out titles III, V, and XIX of the PHS Act with respect to mental health, and the Protection and Advocacy for Individuals with Mental Illness Act, \$4,182,687,000: Provided further, That notwithstanding section 520A(f)(2) of the

PHS Act, no funds appropriated for carrying out section 520A shall be available for carrying out section 1971 of the PHS Act: Provided further, That in addition to amounts provided herein, \$21,039,000 shall be available under section 241 of the PHS Act to supplement funds otherwise available for mental health activities and to carry out subpart I of part B of title XIX of the PHS Act to fund section 1920(b) technical assistance, national data, data collection and evaluation activities, and further that the total available under this Act for section 1920(b) activities shall not exceed 5 percent of the amounts appropriated for subpart I of part B of title XIX: Provided further, That of the funds made available under this heading for subpart I of part B of title XIX of the PHS Act, not less than 10 percent shall be used to support evidence-based crisis systems: Provided further, That up to 10 percent of the amounts made available to carry out the Children's Mental Health Services program may be used to carry out demonstration grants or contracts for early interventions with persons not more than 25 years of age at clinical high risk of developing a first episode of psychosis: Provided further, That section 520E(b)(2) of the PHS Act shall not apply to funds appropriated in this Act for fiscal year 2023: Provided further, That \$552,500,000 shall be available until September 30, 2024 for grants to communities and community organizations who meet criteria for Certified Community Behavioral Health Clinics pursuant to section 223(a) of Public Law 113–93: Provided further, That none of the funds provided for section 1911 of the PHS Act shall be subject to section 241 of such Act: Provided further, That of the funds made available under this heading, \$21,420,000 shall be to carry out section 224 of the Protecting Access to Medicare Act of 2014 (Public Law 113–93; 42 U.S.C. 290aa 22 note). Provided further, That notwithstanding sections 1911(b) and 1912 of the PHS Act, amounts made available under this heading for subpart I of part B of title XIX of such Act shall also be available to support evidence-based programs that address early intervention and prevention of mental disorders among at-risk children and adults: Provided further, That States shall expend at least 10 percent of the amount each receives for carrying out section 1911 of the PHS Act to support evidence-based programs that address early intervention and prevention of mental disorders for at-risk youth and adults: Provided further, That notwithstanding section 1912 of the PHS Act, the plan described in such section and section 1911(b) of the PHS Act shall also include the evidence-based programs described in the previous proviso pursuant to plan criteria established by the Secretary.

SUBSTANCE USE SERVICES

For carrying out titles III and V of the PHS Act with respect to substance use treatment and title XIX of such Act with respect to substance use treatment and prevention, and the SUPPORT for Patients and Communities Act, \$5,493,243,000: Provided, That \$2,000,000,000 shall be for State Opioid Response Grants for carrying out activities pertaining to opioids and stimulants undertaken by the State agency responsible for administering the substance use prevention and treatment block grant under subpart II of part B of title XIX of the PHS Act (42 U.S.C. 300x–21 et seq.): Provided further, That of such amount \$75,000,000 shall be made available to Indian Tribes or tribal organizations: Provided further, That 15 percent of the remaining amount shall be for the States with the highest mortality rate related to opioid use disorders: Provided further, That of the amounts provided for State Opioid Response Grants not more than 2 percent shall be available for Federal administrative expenses, training, technical assistance, and evaluation: Provided further, That of the amount not reserved by the previous three provisos, the Secretary shall make allocations to States, territories, and the District of Columbia according to a formula using national survey results that the Secretary determines are the most objective and reliable measure of drug use and drug-related deaths: Provided further, That prevention and treatment activities funded through such grants may include education, treatment (including the provision of medication), behavioral health services for individuals in treatment programs, referral to treatment services, recovery support, and medical screening associated with such treatment: Provided further, That each State, as well as the District of Columbia, shall receive not less than \$4,000,000: Provided further, That in addition to amounts provided herein, the following amounts shall be available under section 241 of the PHS Act: (1) \$79,200,000 to supplement funds otherwise available for substance use treatment activities to carry out subpart II of part B of title XIX of the PHS Act to fund section 1935(b) technical assistance, national data, data collection and evaluation activities, and further that the total available under this Act for section 1935(b) activities shall not exceed 5 percent of the amounts appropriated for subpart II of part B of title XIX; and (2) \$2,000,000 to evaluate substance use treatment programs: Provided further, That for purposes of calculating the HIV set-aside under subpart II of part B of title XIX, the rate of cases of HIV shall be used instead of the rate of cases of AIDS: Provided further, That each State that receives funds appropriated under this heading in this Act for carrying out subpart II of part B of title XIX of the PHS Act shall expend not less than 10 percent of such funds for recovery support services: Provided further, That none of the funds provided for section 1921 of the PHS Act or State Opioid Response Grants shall be subject to section 241 of such Act.

SUBSTANCE USE PREVENTION SERVICES

For carrying out titles III and V of the PHS Act with respect to substance use prevention, \$311,912,000.

HEALTH SURVEILLANCE AND PROGRAM SUPPORT

For program support and cross-cutting activities that supplement activities funded under the headings "Mental Health", "Substance Use Services", and "Substance Use Prevention Services" in carrying out titles III, V, and XIX of the PHS Act and the Protection and Advocacy for Individuals with Mental Illness Act in the Substance Use and Mental Health Services Administration, \$149,645,000: Provided, That in addition to amounts provided herein, \$31,428,000 shall be available under section 241 of the PHS Act to supplement funds available to carry out national surveys on drug use and mental health, to collect and analyze program data, and to conduct public awareness and technical assistance activities: Provided further, That, in addition, fees may be collected for the costs of publications, data, data tabulations, and data analysis completed under title V of the PHS Act and provided to a public or private entity upon request, which shall be credited to this appropriation and shall remain available until expended for such purposes: Provided further, That amounts made available in this Act for carrying out section 501(o) of the PHS Act shall remain available through September 30, 2023: Provided further, That funds made available under this heading may be used to supplement program support funding provided under the headings "Mental Health", "Substance Use Services", and "Substance Use Prevention Services".

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

In addition, for carrying out such titles after May 31, 2023, for the last quarter of fiscal year 2023 for unanticipated costs incurred for the current fiscal year, such sums as may be necessary, to remain available until expended.

In addition, for carrying out such titles for the first quarter of fiscal year 2024, \$197,580,474,000, to remain available until expended.

Payment under such title XIX may be made for any quarter with respect to a State plan or plan amendment in effect during such quarter, if submitted in or prior to such quarter and approved in that or any subsequent quarter.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

Medicaid assists States in providing medical care to their low-income populations by granting Federal matching payments under title XIX of the Social Security Act to States with approved plans.

Medicaid estimates assume budget authority for expenses that are incurred but not reported (IBNR).

Authorized as part of title XIX, Vaccines for Children (VFC) finances the purchase of vaccines for low-income, eligible children. VFC is administered by the Centers for Disease Control and Prevention and is funded entirely by the Federal Government.

Part B of title XI of the Social Security Act, as amended by the Peer Review Improvement Act of 1982 (P.L. 97-248), provides the statutory authority for the Medicare Quality Improvement Organization (QIO) Program. The mission of the program is to promote the effectiveness, efficiency, economy, and quality of services delivered to Medicare beneficiaries and to ensure that those services are reasonable and necessary. The program is funded through transfers from the Medicare Hospital Insurance Trust Fund and the Medicare Supplementary Medical Insurance Trust Fund. In FY 2012, a Treasury account specific to the QIO Program was established to improve budgetary operations.

The Balanced Budget Act of 1997 (P.L. 105-33) established the Children's Health Insurance Program (CHIP) under title XXI of the Social Security Act. Title XXI provides Federal matching funds to States to enable them to extend coverage to uninsured children from low-income families. States are able to use title XXI funds for obtaining health benefit coverage for uninsured children through a separate CHIP program, a CHIP Medicaid expansion program, or a combination of both. The Children's Health Insurance Program Reauthorization Act of 2009 (P.L. 111-3, CHIPRA) reauthorized the CHIP program and appropriated funding for CHIP through fiscal year 2013. CHIPRA made some modifications to the program, including increased funding for States and territories, and support for child health quality and outreach activities. CHIPRA also created a contingency fund in a separate account to assist States who project spending above their available allocated CHIP funds. The Patient Protection and Affordable Care Act of 2010 (P.L. 111-148) and the Medicare Access and CHIP Reauthorization Act of 2015 (P.L. 114-10) extended CHIP funding through fiscal year 2015 and 2017, respectively. The HEALTHY KIDS Act (P.L. 115-120) and the Advancing Chronic Care, Extenders, and Social Services Act (P.L. 115-123) extended CHIP funding through fiscal year 2023 and 2027, respectively.

The Center for Medicare and Medicaid Innovation ("Innovation Center") was established by section 1115A of the Social Security Act (as added by section 3021 of the Patient Protection and Affordable Care Act). The Innovation Center is tasked with testing innovative payment and service delivery models to reduce program expenditures while preserving or enhancing the quality of care provided to individuals under Medicare, Medicaid, or the Children's Health Insurance Program (CHIP). The statute provides \$10 billion in mandatory funding for these purposes for fiscal years 2011 through 2019 and each subsequent 10-year fiscal period (beginning with the 10-year fiscal period beginning with fiscal year 2020).

The Children's Health Insurance Program Reauthorization Act of 2009 (P.L. 111–3) established the Child Enrollment Contingency Fund under title XXI of the Social Security Act. Beginning in 2009, a State may qualify for a Contingency Fund payment if it projects a funding shortfall for the fiscal year and if its average monthly child enrollment exceeds its target average number of enrollees for the fiscal year. The Patient Protection and Affordable Care Act of 2010 (P.L. 111–148) and the Medicare Access and CHIP Reauthorization Act of 2015 (P.L. 114–10) extended the Contingency

Fund through fiscal years 2015 and 2017, respectively. The HEALTHY KIDS Act (P.L. 115–120) and the Advancing Chronic Care, Extenders, and Social Services Act (P.L. 115–123) extended the Contingency Fund through FY 2023 and FY 2027, respectively.

The Fund receives an appropriation equal to 20 percent of the CHIP national allotment appropriation under section 2104(a) of the Social Security Act. The Contingency Fund is invested in interest bearing securities of the United States, and the income derived from these investments constitutes a part of the fund.

The Patient Protection and Affordable Care Act (P.L. 111–148) added section 2794 to the Public Health Service Act and provided that the Secretary carry out a program to award grants to States for a five-year period beginning in fiscal year 2010. The program provided \$250 million in grants to help States develop or enhance their current rate review activities from 2010 through 2014, with remaining unobligated balances subsequently available for state implementation of consumer protections and other insurance reform activities consistent with section 2794(c)(2)(B).

This account funded the Pre-Existing Condition Insurance Plan program (PCIP), which made health insurance available to people who had been unable to purchase insurance due to a pre-existing condition. Enrollees paid monthly premiums similar to those charged in the commercial individual market, and the Federal government paid for remaining costs that exceeded enrollee contributions. The funding for this program, including operating costs, was provided in the Patient Protection and Affordable Care Act (P.L. 111–148). The PCIP program ended in fiscal year 2014, and outlays in subsequent fiscal years reflect program close out and claims run out costs, as well as allowable administrative costs in the current year.

Section 1311 of the Patient Protection and Affordable Care Act (P.L. 111–148) provided amounts necessary to enable the Secretary to award grants to States to implement Health Insurance Exchanges beginning no later than March 23, 2011, and allowed for renewal of grants through January 1, 2015. The final round of grants was awarded to States in December 2014. The American Rescue Plan Act of 2021 (P.L. 117–2) created a grant program for state-based Marketplaces established under section 1311(b) of the Patient Protection and Affordable Care Act. \$20 million has been appropriated and is available until September 30, 2022 to enable state-based Marketplaces to modernize or update any system, program, or technology required to be compliant with applicable federal requirements.

The proposals build on existing consumer protections and improve access to behavioral health services by doing the following: requiring coverage of three behavioral health visits and three primary care visits without cost-sharing; limiting utilization management controls for behavioral health; amending MHPAEA to authorize the Secretaries to regulate behavioral health network adequacy for all plans and issuers; and creating a new standard for parity in behavioral health based on comparative analysis of reimbursement rates.

Section 1343 of the Patient Protection and Affordable Care Act (P.L. 111–148) established a permanent risk adjustment program for non-grandfathered plans in the individual and small group markets. Risk adjustment is budget neutral within each state and market, such that charges collected from plans with lower than average actuarial risk are used to make payments to plans with higher than average actuarial risk. Risk adjustment may be operated by a State, or by the Federal government in the event a State chooses not to operate risk adjustment. Payments and charges are made in the year following the plan year for which they are calculated.

Section 1341 of the Patient Protection and Affordable Care Act (P.L. 111–148) established a transitional three-year reinsurance program to minimize the impact of high-cost enrollees in plans in the individual market for plan years 2014, 2015, and 2016. The Centers for Medicare & Medicaid Services assessed contributing entities a per enrollee fee to fund the reinsurance program and made payments to issuers in the individual market for enrollees whose medical costs exceed a certain threshold, up to a reinsurance cap. Reinsurance collections and payments were made in the year following the plan year for which they were applicable. Reinsurance collections ended in FY 2019 and outlays in subsequent fiscal years reflect remaining payments, refunds, and allowable administrative activities.

Section 1322 of the Patient Protection and Affordable Care Act (P.L. 111-148) authorized and appropriated funding for the Consumer Operated and Oriented Plan (CO-OP) Program. The CO-OP Program fosters the creation of qualified nonprofit health insurance issuers that operate with a strong consumer focus to offer qualified health plans in the individual and small group markets in the States. The Secretary awarded loans to qualified nonprofit issuers to fund start-up costs and reserves, which enabled qualified issuers to meet state solvency requirements. The Secretary issued the final round of loans in December 2014.

This proposal provides \$125 million in mandatory funding in FY 2023, available for a period of five fiscal years, for grants to states to enforce mental health parity requirements. This proposal would allow any funds from grants that are not expended by the states at the end of the five fiscal years to remain available to the HHS Secretary to make additional mental health parity grants.

The Budget proposes investments in Medicare that strengthen mental health services, enhance Medicare beneficiary access to vaccines, and address gaps in physician incentive payments. This reflects the combined policy impacts of these investments and is net of premiums and other off-setting collections.

The Health Insurance Portability and Accountability Act of 1996 (P.L. 104–191) established the Health Care Fraud and Abuse Control (HCFAC) account within the Federal Hospital Insurance Trust Fund and appropriated funds from the Trust Fund to the HCFAC account for specified health care fraud and abuse control activities of the Department of Health and Human Services (HHS), the Department of Justice, and other agencies.

The Budget includes a discretionary request for efforts to safeguard Centers for Medicare and Medicaid Services (CMS) program integrity that will supplement other CMS program integrity funds. See additional discussion in the Budget Process chapter in the *Analytical Perspectives* volume.

This schedule reflects the non-PAYGO impacts on Medicare and Medicaid spending resulting from the proposed allocation adjustment to further support the Centers for Medicare and Medicaid Services (CMS) program integrity work. This additional investment results in savings to the Medicare and Medicaid programs. This schedule also reflects the non-PAYGO impacts on Medicare resulting from the proposed allocation adjustment for the Social Security Administration. Please refer to the narrative in the Limitation on Administrative Expenses (Social Security Administration) account for more information.

The TANF Contingency Fund provides a funding reserve of \$608 million to assist states that meet certain criteria related to the state's unemployment rate and Supplemental Nutrition Assistance Program (SNAP) caseload. In order to qualify for contingency funds, States must also meet a higher maintenance-of-effort requirement of 100 percent of historical expenditures. The authorization for the Contingency Fund was most recently extended in the Continuing Appropriations Act of 2022 (P.L. 117-70).

PAYMENTS TO STATES FOR CHILD SUPPORT ENFORCEMENT AND FAMILY SUPPORT PROGRAMS

For carrying out, except as otherwise provided, titles I, IV-D, X, XI, XIV, and XVI of the Social Security Act and the Act of July 5, 1960, \$2,883,000,000, to remain available until expended; and for such purposes for the first quarter of fiscal year 2024, \$1,300,000,000, to remain available until expended.

For carrying out, after May 31 of the current fiscal year, except as otherwise provided, titles I, IV-D, X, XI, XIV, and XVI of the Social Security Act and the Act of July 5, 1960, for the last 3 months of the current fiscal year for unanticipated costs, incurred for the current fiscal year, such sums as may be necessary.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117-43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

For carrying out subsections (b) and (d) of section 2602 of the Low-Income Home Energy Assistance Act of 1981 (42 U.S.C. 8621 et seq.), \$3,975,304,000: Provided, That notwithstanding section 2609A(a) of such Act, not more than \$20,500,000 may be reserved by the Secretary of Health and Human Services for technical assistance, training, and monitoring of program activities for compliance with internal controls, policies and procedures and the Secretary may, in addition to the authorities provided in section 2609A(a)(1), use such funds through contracts with private entities that do not qualify as nonprofit organizations: Provided further, That all but \$760,000,000 of the amount appropriated under this heading shall be allocated as though the total appropriation for such payments for fiscal year 2023 was less than \$1,975,000,000: Provided further, That, after applying all applicable provisions of section 2604 of such Act and the previous proviso, each State or territory that would otherwise receive an allocation that is less than 97 percent of the amount that it received under this heading for fiscal year 2022 from amounts appropriated in the Department of Health and Human Services Appropriations Act for such fiscal year shall have its allocation increased to that 97 percent level, with the portions of other States' and territories' allocations that would exceed 100 percent of the amounts they respectively received in such fashion for fiscal year 2022 being ratably reduced: Provided further, That notwithstanding any provision of the Low-Income Home Energy Assistance Act of 1981 (42 U.S.C. 8621 et seq.), of the amounts received by a State, territory, or Tribe under this heading for fiscal year 2023, not more than 2.7% of such amounts may be used for the activities described in section 2912 of the American Rescue Plan Act of 2021 (Public Law 117–2): Provided further, That of the total amount of funds available to a State, territory, or Tribe for the activities described in section 2912 of the American Rescue Plan Act, not more than 15% of such amounts shall be available for administrative expenses.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

LOW INCOME HOME ENERGY ASSISTANCE

For an additional amount for "Low Income Home Energy Assistance", \$500,000,000, to remain available through September 30, 2026, for making payments under subsection (b) of section 2602 of the Low-Income Home Energy Assistance Act of 1981 (42 U.S.C. 8621 et seq.): Provided, That \$100,000,000, to remain available until September 30, 2026, shall be made available in fiscal year 2022, \$100,000,000, to remain available until September 30, 2026, shall be made available in fiscal year 2023, \$100,000,000, to remain available until September 30, 2026, shall be made available in fiscal year 2024, \$100,000,000, to remain available until September 30, 2026, shall be made available in fiscal year 2025, and \$100,000,000, to remain available until September 30, 2026, shall be made available in fiscal year 2026: Provided further, That, of the amount available for obligation in a fiscal year under this heading in this Act, \$50,000,000 shall be allocated as though the total appropriation for such payments for such fiscal year was less than \$1,975,000,000: Provided further, That such amount is designated by the Congress as being for an emergency requirement pursuant to section 4112(a) of H. Con. Res. 71 (115th Congress), the concurrent resolution on the budget for fiscal year 2018, and to section 251(b) of the Balanced Budget and Emergency Deficit Control Act of 1985. The Budget proposes to increase reimbursement rates for the Prevention Services and Kinship Navigator programs. The Budget also proposes to increase reimbursement rates in the foster care and guardianship assistance programs for children placed with kin and to reduce reimbursement rates for children placed in most congregate care settings. The Budget proposes to increase Chafee funding by \$100 million per year and add flexibilities in the program. Finally, the Budget proposes to amend title IV-E to prohibit states and contractors from discriminating against prospective foster or adoptive parents or children in foster care or being considered for adoption on the basis of their religious beliefs, sexual orientation, gender identity, gender expression, or sex.

The Public Health and Social Services Emergency Fund (PHSSEF) provides resources to support a comprehensive program to prepare for the health and medical consequences of bioterrorism or other public health emergencies. This account includes funding for the Office of the Assistant Secretary for Preparedness and Response (ASPR), as authorized by the Pandemic and All-Hazards Preparedness and Advancing Innovation Act of 2019. Funds will be used for hospital preparedness and other emergency preparedness activities including the National Disaster Medical System and National Biodefense Strategy implementation. The PHSSEF continues to support the advanced development, procurement, and stockpiling of biodefense and pandemic influenza countermeasures.

The PHSSEF also supports the HHS Cybersecurity program, National Security and Strategic Information programs, the U.S. Public Health Service Commissioned Corps, and the Medical Reserve Corps.

Public Law 111–148 established the Patient-Centered Outcomes Research Trust Fund (PCORTF). Beginning in FY 2011, a total of 20 percent of the funds appropriated or credited to the PCORTF was transferred each year to the Department of Health and Human Services (HHS). In FY 2020, PCORTF was extended through FY 2029. As authorized in section 937 of the Public Health Service Act, HHS will disseminate research findings from the Patient-Centered Outcomes Research Institute and other government-funded comparative clinical effectiveness research and coordinate Federal health programs to build research and data capacity for comparative clinical effectiveness research. Transferred funds were distributed to the Secretary of HHS and the Agency for Healthcare Research and Quality to carry out these activities.

The HHS Service and Supply Fund (SSF) provides a wide range of logistical and support services to components of the Department and other Federal agencies. The Program Support Center includes activities, such as personnel and payroll support, information technology, financial management operations, and administrative services, including acquisitions management, building and property management, telecommunication services, medical supplies repackaging and distribution services, and the Federal Occupational Health Service. The Office of the Secretary activities include the Service and Supply Fund Manager's Office, departmental contracts, audit resolutions, Commissioned Corps force management, web management, claims, acquisition integration and modernization, acquisition reform, small business consolidation, grants tracking, the physical security component of the Department's implementation of Homeland Security Presidential Directive 12, and commercial services management.

Most Commissioned Corps officers work for agencies in the Department of Health and Human Services and are reflected in the agencies' personnel summaries. However, some officers are assigned to other Federal agencies. The allocation account section in the following personnel summary shows officers assigned to other agencies, which are paid directly by that agency, either through an allocation account or by directly citing that agency's appropriation.

The mission of the Office of Inspector General (OIG) is to protect the integrity of the U.S. Department of Health and Human Services (HHS) programs and the health and welfare of the people they serve. As established by the Inspector General Act of 1978, OIG is an independent and objective organization that fights fraud, waste, and abuse and promotes efficiency, economy, and effectiveness in HHS programs and operations. OIG works to ensure that Federal dollars are used appropriately and that HHS programs well serve the people that use them. OIG fulfills its mission through a broad range of audits, evaluations, investigations, and enforcement and compliance activities. In addition to discretionary appropriations, OIG receives funds through the Health Care Fraud and Abuse Control (HCFAC) account created by the Health Insurance Portability and Accountability Act of 1996.

GENERAL PROVISIONS

SEC. 201. Funds appropriated in this title shall be available for not to exceed \$50,000 for official reception and representation expenses when specifically approved by the Secretary.

SEC. 202. None of the funds appropriated in this title shall be used to pay the salary of an individual, through a grant or other extramural mechanism, at a rate in excess of Executive Level II: Provided, That this section shall not apply to the Head Start program.

SEC. 203. Notwithstanding section 241(a) of the PHS Act, such portion as the Secretary shall determine, but not more than 2.55 percent, of any amounts appropriated for programs authorized under such Act shall be made available for the evaluation (directly, or by grants or contracts) and the implementation and effectiveness of programs funded in this title.

(TRANSFER OF FUNDS)

SEC. 204. Not to exceed 1 percent of any discretionary funds (pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985) which are appropriated for the current fiscal year for HHS in this Act may be transferred between appropriations, but no such appropriation shall be increased by more than 3 percent by any such transfer: Provided, That the transfer authority granted by this section shall not be used to create any new program or to fund any project or activity for which no funds are provided in this Act: Provided further, That the Committees on Appropriations of the House of Representatives and the Senate are notified at least 15 days in advance of any transfer.

SEC. 205. In lieu of the timeframe specified in section 338E(c)(2) of the PHS Act, terminations described in such section may occur up to 60 days after the effective date of a contract awarded in fiscal year 2023 under section 338B of such Act, or at any time if the individual who has been awarded such contract has not received funds due under the contract.

SEC. 206. None of the funds appropriated in this Act may be made available to any entity under title X of the PHS Act unless the applicant for the award certifies to the Secretary that it encourages family participation in the decision of minors to seek family planning services and that it provides counseling to minors on how to resist attempts to coerce minors into engaging in sexual activities.

SEC. 207. Notwithstanding any other provision of law, no provider of services under title X of the PHS Act shall be exempt from any State law requiring notification or the reporting of child abuse, child molestation, sexual abuse, rape, or incest.

SEC. 208. None of the funds appropriated by this Act (including funds appropriated to any trust fund) may be used to carry out the Medicare Advantage program if the Secretary denies participation in such program to an otherwise eligible entity (including a Provider Sponsored Organization) because the entity informs the Secretary that it will not provide, pay for, provide coverage of, or provide referrals for abortions: Provided, That the Secretary shall make appropriate prospective adjustments to the capitation payment to such an entity (based on an actuarially sound estimate of the expected costs of providing the service to such entity's enrollees): Provided further, That nothing in this section shall be construed to change the Medicare program's coverage for such services and a Medicare Advantage organization described in this section shall be responsible for informing enrollees where to obtain information about all Medicare covered services.

SEC. 209. None of the funds made available in this title may be used, in whole or in part, to advocate or promote gun control.

SEC. 210. *In order for HHS to carry out international health activities, including HIV/AIDS and other infectious disease, chronic and environmental disease, and other health activities abroad during fiscal year 2023:*

(1) *The Secretary may exercise authority equivalent to that available to the Secretary of State in section 2(c) of the State Department Basic Authorities Act of 1956. The Secretary shall consult with the Secretary of State and relevant Chief of Mission to ensure that the authority provided in this section is exercised in a manner consistent with section 207 of the Foreign Service Act of 1980 and other applicable statutes administered by the Department of State.*

(2) *The Secretary is authorized to provide such funds by advance or reimbursement to the Secretary of State as may be necessary to pay the costs of acquisition, lease, alteration, renovation, and management of facilities outside of the United States for the use of HHS. The Department of State shall cooperate fully with the Secretary to ensure that HHS has secure, safe, functional facilities that comply with applicable regulation governing location, setback, and other facilities requirements and serve the purposes established by this Act. The Secretary is authorized, in consultation with the Secretary of State, through grant or cooperative agreement, to make available to public or nonprofit private institutions or agencies in participating foreign countries, funds to acquire, lease, alter, or renovate facilities in those countries as necessary to conduct programs of assistance for international health activities, including activities relating to HIV/AIDS and other infectious diseases, chronic and environmental diseases, and other health activities abroad.*

(3) *The Secretary is authorized to provide to personnel appointed or assigned by the Secretary to serve abroad, allowances and benefits similar to those provided under chapter 9 of title 1 of the Foreign Service Act of 1980, and 22 U.S.C. 4081 through 4086 and subject to such regulations prescribed by the Secretary. The Secretary is further authorized to provide locality-based comparability payments (stated as a percentage) up to the amount of the locality-based comparability payment (stated as a percentage) that would be payable to such personnel under section 5304 of title 5, United States Code if such personnel's official duty station were in the District of Columbia. Leaves of absence for personnel under this subsection shall be on the same basis as that provided under subchapter 1 of chapter 63 of title 5, United States Code, or section 903 of the Foreign Service Act of 1980, to individuals serving in the Foreign Service.*

(TRANSFER OF FUNDS)

SEC. 211. *The Director of the NIH, jointly with the Director of the Office of AIDS Research, may transfer up to 3 percent among institutes and centers from the total amounts identified by these two Directors as funding for research pertaining to the human immunodeficiency virus: Provided, That the Committees on Appropriations of the House of Representatives and the Senate are notified at least 15 days in advance of any transfer.*

(TRANSFER OF FUNDS)

SEC. 212. *Of the amounts made available in this Act for NIH, the amount for research related to the human immunodeficiency virus, as jointly determined by the Director of NIH and the Director of the Office of AIDS Research, shall be made available to the "Office of AIDS Research" account. The Director of the Office of AIDS Research shall transfer from such account amounts necessary to carry out section 2353(d)(3) of the PHS Act.*

SEC. 213. (a) *AUTHORITY.*—Notwithstanding any other provision of law, the Director of NIH ("Director") may use funds authorized under section 402(b)(12) of the PHS Act to enter into transactions (other than contracts, cooperative agreements, or grants) to carry out research identified pursuant to or research and activities described in such section 402(b)(12).

(b) *PEER REVIEW.*—In entering into transactions under subsection (a), the Director may utilize such peer review procedures (including consultation with appropriate scientific experts) as the Director determines to be appropriate to obtain assessments of scientific and technical merit. Such procedures shall apply to such transactions in lieu of the peer review and advisory council review procedures that would otherwise be required under sections 301(a)(3), 405(b)(1)(B), 405(b)(2), 406(a)(3)(A), 492, and 494 of the PHS Act.

(TRANSFER OF FUNDS)

SEC. 214. *Not to exceed 1 percent of funds appropriated by this Act to the offices, institutes, and centers of the National Institutes of Health may be transferred to and merged with funds appropriated under the heading "National Institutes of Health—Buildings and Facilities": Provided, That the use of such transferred funds shall be subject to a centralized prioritization and governance process: Provided further, That the Director of the National Institutes of Health shall notify the Committees on Appropriations of the House of Representatives and the Senate at least 15 days in advance of any such transfer: Provided further, That this transfer authority is in addition to any other transfer authority provided by law.*

(TRANSFER OF FUNDS)

SEC. 215. *Of the amounts made available for NIH, 1 percent of the amount made available for National Research Service Awards ("NRSA") shall be made available to the Administrator of the Health Resources and Services Administration to make NRSA awards for research in primary medical care to individuals affiliated with entities who have received grants or contracts under sections 736, 739, or 747 of the PHS Act, and 1 percent of the amount made available for NRSA shall be made available to the Director of the Agency for Healthcare Research and Quality to make NRSA awards for health service research.*

SEC. 216. (a) *The Biomedical Advanced Research and Development Authority ("BARDA") may enter into a contract, for more than one but no more than 10 program years, for purchase of research services or of security countermeasures, as that term is defined in section 319F-2(c)(1)(B) of the PHS Act (42 U.S.C. 247d-6b(c)(1)(B)), if—*

(1) *funds are available and obligated—*

(A) *for the full period of the contract or for the first fiscal year in which the contract is in effect; and*

(B) *for the estimated costs associated with a necessary termination of the contract; and*

(2) *the Secretary determines that a multi-year contract will serve the best interests of the Federal Government by encouraging full and open competition or promoting economy in administration, performance, and operation of BARDA's programs.*

(b) *A contract entered into under this section—*

(1) *shall include a termination clause as described by subsection (c) of section 3903 of title 41, United States Code; and*

(2) *shall be subject to the congressional notice requirement stated in subsection (d) of such section.*

SEC. 217. *Effective during the period beginning on November 1, 2015 and ending January 1, 2024, any provision of law that refers (including through cross-reference to another provision of law) to the current recommendations of the United States Preventive Services Task Force with respect to breast cancer screening, mammography, and prevention shall be administered by the Secretary involved as if—*

(1) *such reference to such current recommendations were a reference to the recommendations of such Task Force with respect to breast cancer screening, mammography, and prevention last issued before 2009; and*

(2) *such recommendations last issued before 2009 applied to any screening mammography modality under section 1861(jj) of the Social Security Act (42 U.S.C. 1395x(jj)).*

(TRANSFER OF FUNDS)

SEC. 218. *The NIH Director may transfer funds for opioid addiction, opioid alternatives, stimulant misuse and addiction, pain management, and addiction treatment to other Institutes and Centers of the NIH to be used for the same purpose 15 days after notifying the Committees on Appropriations of the House of Representatives and the Senate: Provided, That the transfer authority provided in the previous proviso is in addition to any other transfer authority provided by law.*

SEC. 219. *Funds appropriated in this Act that are available for salaries and expenses of employees of the Department of Health and Human Services shall also be available to pay travel and related expenses of such an employee or of a member of his or her family, when such employee is assigned to duty, in the United States or in a U.S. territory, during a period and in a location that are the subject of a determination of a public health emergency under section 319 of the Public Health Service Act and such travel is necessary to obtain medical care for an illness, injury, or medical condition that cannot be adequately addressed in that location at that time. For purposes of this section, the term "U.S. territory" means Guam, the Commonwealth of Puerto Rico, the Northern Mariana Islands, the Virgin Islands, American Samoa, or the Trust Territory of the Pacific Islands.*

SEC. 220. *The Department of Health and Human Services may accept donations from the private sector, nongovernmental organizations, and other groups independent of the Federal Government for the care of unaccompanied alien children (as defined in section 462(g)(2) of the Homeland Security Act of 2002 (6 U.S.C. 279(g)(2))) in the care of the Office of Refugee Resettlement of the Administration for Children and Families, including monetary donations, medical goods, and services, which may include early childhood developmental screenings, school supplies, toys, clothing, and any other items and services intended to promote the wellbeing of such children.*

SEC. 221. *None of the funds made available in this Act under the heading "Department of Health and Human Services—Administration for Children and Families—Refugee and Entrant Assistance" may be obligated to a grantee or contractor to house unaccompanied alien children (as such term is defined in section 462(g)(2) of the Homeland Security Act of 2002 (6 U.S.C. 279(g)(2))) in any facility that is not State-licensed for the care of unaccompanied alien children, except in the case*

that the Secretary determines that housing unaccompanied alien children in such a facility is necessary on a temporary basis due to an influx of such children or an emergency, provided that—

(1) the terms of the grant or contract for the operations of any such facility that remains in operation for more than six consecutive months shall require compliance with—

(A) the same requirements as licensed placements, as listed in Exhibit 1 of the Flores Settlement Agreement that the Secretary determines are applicable to non-State licensed facilities; and

(B) staffing ratios of one (1) on-duty Youth Care Worker for every eight (8) children or youth during waking hours, one (1) on-duty Youth Care Worker for every sixteen (16) children or youth during sleeping hours, and clinician ratios to children (including mental health providers) as required in grantee cooperative agreements;

(2) the Secretary may grant a 60-day waiver for a contractor's or grantee's non-compliance with paragraph (1) if the Secretary certifies and provides a report to Congress on the contractor's or grantee's good-faith efforts and progress towards compliance;

(3) not more than four consecutive waivers under paragraph (2) may be granted to a contractor or grantee with respect to a specific facility;

(4) ORR shall ensure full adherence to the monitoring requirements set forth in section 5.5 of its Policies and Procedures Guide as of May 15, 2019;

(5) for any such unlicensed facility in operation for more than three consecutive months, ORR shall conduct a minimum of one comprehensive monitoring visit during the first three months of operation, with quarterly monitoring visits thereafter; and

(6) not later than 60 days after the date of enactment of this Act, ORR shall brief the Committees on Appropriations of the House of Representatives and the Senate outlining the requirements of ORR for influx facilities including any requirement listed in paragraph (1)(A) that the Secretary has determined are not applicable to non-State licensed facilities.

SEC. 222. In addition to the existing Congressional notification for formal site assessments of potential influx facilities, the Secretary shall notify the Committees on Appropriations of the House of Representatives and the Senate at least 15 days before operationalizing an unlicensed facility, and shall (1) specify whether the facility is hard-sided or soft-sided, and (2) provide analysis that indicates that, in the absence of the influx facility, the likely outcome is that unaccompanied alien children will remain in the custody of the Department of Homeland Security for longer than 72 hours or that unaccompanied alien children will be otherwise placed in danger. Within 60 days of bringing such a facility online, and monthly thereafter, the Secretary shall provide to the Committees on Appropriations of the House of Representatives and the Senate a report detailing the total number of children in care at the facility, the average length of stay and average length of care of children at the facility, and, for any child that has been at the facility for more than 60 days, their length of stay and reason for delay in release.

SEC. 223. None of the funds made available in this Act may be used to prevent a United States Senator or Member of the House of Representatives from entering, for the purpose of conducting oversight, any facility in the United States used for the purpose of maintaining custody of, or otherwise housing, unaccompanied alien children (as defined in section 462(g)(2) of the Homeland Security Act of 2002 (6 U.S.C. 279(g)(2))), provided that such Senator or Member has coordinated the oversight visit with the Office of Refugee Resettlement not less than two business days in advance to ensure that such visit would not interfere with the operations (including child welfare and child safety operations) of such facility.

SEC. 224. Funds appropriated in this Act that are available for salaries and expenses of employees of the Centers for Disease Control and Prevention shall also be available for the primary and secondary schooling of eligible dependents of personnel stationed in a U.S. territory as defined in section 219 of this Act at costs not in excess of those paid for or reimbursed by the Department of Defense.

(CANCELLATION)

SEC. 225. Of the unobligated balances in the "Nonrecurring Expenses Fund" established in section 223 of division G of Public Law 110–161, \$500,000,000 are hereby permanently cancelled not later than September 30, 2023.

SEC. 226. For purposes of any transfer to appropriations under the heading "Department of Health and Human Services—Office of the Secretary—Public Health and Social Services Emergency Fund", section 204 of this Act shall be applied by substituting "10 percent" for "3 percent".

SEC. 227. For fiscal year 2023, the notification requirements described in sections 1804(a) and 1851(d) of the Social Security Act may be fulfilled by the Secretary in a manner similar to that described in paragraphs (1) and (2) of section 1806(c) of such Act.

SEC. 228.

Section 340B of the Public Health Service Act (42 U.S.C. 256b) is amended

(a) in subsection (a)(5)(C)—

(1) by striking "A covered entity shall permit" and inserting "(i) DUPLICATE DISCOUNTS AND DRUG RESALE. A covered entity shall permit"; and

(2) by inserting at the end the following:

"(ii) USE OF SAVINGS. A covered entity shall permit the Secretary to audit, at the Secretary's expense, the records of the entity to determine how net income from purchases under this section are used by the covered entity."

"(iii) RECORDS RETENTION. Covered entities shall retain such records and provide such records and reports as deemed necessary by the Secretary for carrying out this subparagraph."

(b) by adding at the end the following new subsection:

"(f) REGULATIONS. The Secretary may promulgate such regulations as the Secretary determines appropriate to carry out the provisions of this section."

(INCLUDING TRANSFER OF FUNDS)

SEC. 229. (a) The Secretary may reserve not more than 0.25 percent from each appropriation made in this Act to the accounts of the Administration for Children and Families identified in subsection (b) in order to administer and carry out evaluations of any of the programs or activities that are funded under such accounts. Funds reserved under this section may be transferred to the "Children and Families Services Programs" account for use by the Assistant Secretary for the Administration for Children and Families and shall remain available until expended: Provided, That funds reserved under this section shall not be available for obligation unless the Assistant Secretary submits a plan to the Committees on Appropriations of the House of Representatives and the Senate describing the evaluations to be carried out 15 days in advance of any such transfer.

(b) The accounts referred to in subsection (a) are: "Low Income Home Energy Assistance", "Refugee and Entrant Assistance", "Payments to States for the Child Care and Development Block Grant", and "Children and Families Services Programs".

SEC. 230. (a) PREMIUM PAY AUTHORITY. If services performed by a Department of Health and Human Services employee during a public health emergency declared under section 319 of the Public Health Service Act are determined by the Secretary of Health and Human Services to be primarily related to preparation for, prevention of, or response to such public health emergency, any premium pay that is provided for such services shall be exempted from the aggregate of basic pay and premium pay calculated under section 5547(a) of title 5, United States Code, and any other provision of law limiting the aggregate amount of premium pay payable on a biweekly or calendar year basis.

(b) OVERTIME AUTHORITY. Any overtime that is provided for such services described in subsection (a) shall be exempted from any annual limit on the amount of overtime payable in a calendar or fiscal year.

(c) APPLICABILITY OF AGGREGATE LIMITATION ON PAY. In determining, for purposes of section 5307 of title 5, United States Code, whether an employee's total pay exceeds the annual rate payable under such section, the Secretary of Health and Human Services shall not include pay exempted under this section.

(d) LIMITATION OF PAY AUTHORITY. Pay exempted from otherwise applicable limits under subsection (a) shall not cause the aggregate pay earned for the calendar year in which the exempted pay is earned to exceed the rate of basic pay payable for a position at level II of the Executive Schedule under section 5313 of title 5, United States Code.

(e) DANGER PAY FOR SERVICE IN PUBLIC HEALTH EMERGENCIES. The Secretary of Health and Human Services may grant a danger pay allowance under section 5928 of title 5, United States Code, without regard to the conditions of the first sentence of such section, for work that is performed by a Department of Health and Human Services employee during a public health emergency declared under section 319 of the Public Health Service Act that the Secretary determines is primarily related to preparation for, prevention of, or response to such public health emergency and is performed under conditions that threaten physical harm or imminent danger to the health or well-being of the employee.

(f) EFFECTIVE DATE. This section shall take effect as if enacted on September 30, 2021.

SEC. 231. Section 2813 of the Public Health Service Act (42 U.S.C. 300hh–15) is amended—

(1) by redesignating subsection (i) as subsection (j); and

(2) by inserting after subsection (h) the following new subsection:

"(i) TORT CLAIMS AND WORK INJURY COMPENSATION COVERAGE FOR CORPS VOLUNTEERS.—

"(1) IN GENERAL. If under section 223 and regulations pursuant to such section, and through an agreement entered into in accordance with such regulations, the Secretary accepts, from an individual in the Corps, services for a specified period that are volunteer and without compensation other than

reasonable reimbursement or allowance for expenses actually incurred, such individual shall, during such period, have the coverages described in paragraphs (2) and (3).

"(2) **FEDERAL TORT CLAIMS ACT COVERAGE.** Such individual shall, while performing such services during such period—

"(A) be deemed to be an employee of the Department of Health and Human Services, for purposes of claims under sections 1346(b) and 2672 of title 28, United States Code, for money damages for personal injury, including death, resulting from performance of functions under such agreement; and

"(B) be deemed to be an employee of the Public Health Service performing medical, surgical, dental, or related functions, for purposes of having the remedy provided by such sections of title 28 be exclusive of any other civil action or proceeding by reason of the same subject matter against such individual or against the estate of such individual.

"(3) **COMPENSATION FOR WORK INJURIES.** Such individual shall, while performing such services during such period, be deemed to be an employee of the Department of Health and Human Services, and an injury sustained by such an individual shall be deemed 'in the performance of duty', for purposes of chapter 81 of title 5, United States Code, pertaining to compensation for work injuries."

SEC. 232. Notwithstanding any other provision of law, the Secretary of Health and Human Services may use \$5,000,000 of the amounts appropriated under the heading "Department of Health and Human Services—Office of the Secretary—General Departmental Management" to supplement funds otherwise available to the Secretary for the hire and purchase of zero emission passenger motor vehicles and supporting charging or fueling infrastructure, and to cover other costs related to electrifying the motor vehicle fleet within HHS: Provided, That supporting charging or fueling infrastructure installed in a parking area with such funds shall be deemed personal property under the control and custody of the component of the Department of Health and Human Services managing such parking area.

SEC. 233. Section 402A(d) of the Public Health Service Act (42 U.S.C. 282a(d)) is amended—

(1) in the first sentence by striking "under subsection (a)" and inserting "to carry out this title"; and

(2) in the second sentence by striking "account under subsection (a)(1)".

SEC. 234. The Secretary of Health and Human Services may waive penalties and administrative requirements in title XXVI of the Public Health Service Act for awards under such title from amounts provided under the heading "Department of Health and Human Services—Health Resources and Services Administration" in this or any other appropriations Act for this fiscal year, including amounts made available to such heading by transfer.

SEC. 235. None of the funds made available by this Act from the Federal Hospital Insurance Trust Fund or the Federal Supplemental Medical Insurance Trust Fund, or transferred from other accounts funded by this Act to the "Centers for Medicare and Medicaid Services—Program Management" account, may be used for payments under section 1342(b)(1) of Public Law 111–148 (relating to risk corridors).

SEC. 236. (a) Amounts made available to the Department of Health and Human Services in this or any other Act under the heading "Administration for Children and Families—Refugee and Entrant Assistance" may in this fiscal year and hereafter be used to provide, including through grants, contracts, or cooperative agreements, mental health and other supportive services, including access to legal services, to children, parents, and legal guardians who were separated at the United States-Mexico border between January 20, 2017, and January 20, 2021: Provided, That such services shall also be available to immediate family members of such individuals if such family members are in the United States and in the same household: Provided further, That amounts made available to the Department of Health and Human Services for refugee and entrant assistance activities in any other provision of law may be used to carry out the purposes of this section: Provided further, That the Secretary of Health and Human Services may identify the children, parents, and legal guardians eligible to receive mental health and other supportive services described under this section through reference to the identified members of the classes, and their minor children, in the class-action lawsuits *Ms. J.P. v. Barr* and *Ms. L. v. ICE*; Provided further, the Secretary has sole discretion to identify the individuals who will receive services under this section due to their status as immediate family members residing in the same household of class members or class members' minor children, and such identification shall not be subject to judicial review.

(b) Notwithstanding any other provision of law, in this fiscal year and hereafter, individuals identified in subsection (a), including immediate family members of such individuals residing in the same household if such immediate family members are identified by the Secretary in accordance with such subsection, shall be eligible for resettlement assistance, entitlement programs, and other benefits available to

refugees admitted under section 207 of the Immigration and Nationality Act (8 U.S.C. 1157) to the same extent, and for the same periods of time, as such refugees.

SEC. 237. During this fiscal year, an Operating or Staff Division in HHS may enter into a reimbursable agreement with another major organizational unit within HHS or of another agency under which the ordering agency or unit delegates to the servicing agency or unit the authority and funding to issue a grant or cooperative agreement on its behalf: Provided, That the head of the ordering agency or unit must certify that amounts are available and that the order is in the best interests of the United States Government: Provided further, That funding may be provided by way of advance or reimbursement, as deemed appropriate by the ordering agency or unit, with proper adjustments of estimated amounts provided in advance to be made based on actual costs: Provided further, That an agreement made under this section obligates an appropriation of the ordering agency or unit, including for costs to administer such grant or cooperative agreement, and such obligation shall be deemed to be an obligation for any purpose of law: Provided further, That an agreement made under this section may be performed for a period that extends beyond the current fiscal year.

SEC. 238. Section 317G of the Public Health Service Act (42 U.S.C. 247b–8) is amended by adding at the end the following: "The Secretary may, no later than 120 days after the end of an individual's participation in such a fellowship or training program, and without regard to any provision in title 5 of the United States Code governing appointments in the competitive service, appoint a participant in such a fellowship or training program to a term or permanent position in the Centers for Disease Control and Prevention."

SEC. 239. In the event of a public health emergency declared by the Secretary of Health and Human Services under section 319 of the Public Health Service Act, or where the Secretary determines that there is a significant potential for such an emergency to exist that will affect national security or the health and security of United States citizens domestically or internationally, the Director of the Centers for Disease Control and Prevention may enter into transactions other than contracts, grants, and cooperative agreements that are directly related to preparing for or responding to such emergency or potential emergency.

GENERAL PROVISION—THIS TITLE

【SEC. 2301. (a) Not later than 45 days after the date of enactment of this Act, the Secretary of Health and Human Services, the Secretary of State, and the Secretary of Homeland Security shall jointly submit a strategy on Afghan evacuee resettlement to the appropriate congressional committees and leadership describing agency roles and responsibilities, vetting, immigration status of each Afghan, and anticipated costs associated with implementing such strategy.

(b) DEFINITION OF AFGHAN EVACUEE.—In this section, the term "Afghan evacuee" means a person whose evacuation from Afghanistan to the United States, or a location overseas controlled by the United States, was facilitated by the United States as part of Operation Allies Refuge.】
(Afghanistan Supplemental Appropriations Act, 2022.)

DEPARTMENT OF HOMELAND SECURITY

The Department of Homeland Security's (DHS) mission is to safeguard the American people, our homeland, and our values with honor and integrity. Threats to our safety and security are constantly evolving and require continuous risk assessments and adaptive strategies to effectively address them. The men and women at DHS demonstrate agility and dedication to our mission by protecting our Nation from threats by land, sea, air, and cyber.

As in the 2022 President's Budget, the 2023 President's Budget continues the proposed reorganization of the United States Coast Guard's (USCG) Program, Project, and Activity (PPA) structure. In May 2017, Congress passed the Consolidated Appropriations Act, 2017 reorganizing DHS's appropriations and PPAs into the DHS Common Appropriations Structure (CAS). While USCG adopted the new CAS appropriations, it maintained a Legacy PPA structure. The 2022 President's Budget reorganizes the PPA structure to fully transition USCG to a CAS-aligned PPA structure.

OFFICE OF THE SECRETARY AND EXECUTIVE MANAGEMENT

Federal Funds

OPERATIONS AND SUPPORT

For necessary expenses of the Office of the Secretary and for executive management for operations and support, \$291,180,000; of which \$3,048,000, to remain available until September 30, 2024, shall be for the Medical Information Exchange: Provided, That not to exceed \$30,000 shall be for official reception and representation expenses.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

OPERATIONS AND SUPPORT

For an additional amount for "Operations and Support", \$147,456,000, to remain available until September 30, 2022, for necessary expenses in support of Operation Allies Welcome, including the provision of staffing and support services for Safe Havens: *Provided*, That amounts provided under this heading in this Act may be transferred by the Secretary of Homeland Security to other appropriations in the Department of Homeland Security only for necessary expenses of Operation Allies Welcome and not for any other purpose: *Provided further*, That amounts made available under this heading in this Act shall be available in addition to any other appropriations available for the same purpose, including appropriations available pursuant to the authority of section 506(a)(2) of the Foreign Assistance Act of 1961: *Provided further*, That, beginning not later than January 31, 2022, the Office of the Secretary shall report monthly to the Committees on Appropriations of the Senate and the House of Representatives on the use of transfer authority provided under this heading in this Act. (Additional Afghanistan Supplemental Appropriations Act, 2022.)

The Federal Protective Service (FPS) protects Federal facilities and those who occupy them by conducting law enforcement and protective security services, and leveraging access to the intelligence and information resources of Federal, State, local, tribal, territorial, and private sector partners. FPS conducts Facility Security Assessments and recommends appropriate countermeasures, ensures stakeholder threat awareness training, and oversees a large contract for a Protective Security Officer workforce. These services provide a comprehensive risk-based approach to facility protection that allows FPS to prioritize its operations to prevent, detect, assess, respond to, and disrupt criminal and other incidents that endanger the Federal community.

The Office of Biometric Identity Management (OBIM) provides biometric identification services to help Federal, State, and local government partners identify people accurately to determine if they pose a risk to the United States. This program supplies the technology for collecting and storing biometric data. The program shares information, provides analysis, updates biometric and terrorist watch lists, and ensures the integrity of the data. OBIM is the lead DHS identity management service provider and works to ensure that the Homeland is safe, secure, and resilient. OBIM serves as a single authoritative biometric service provider, with cross-cutting responsibilities to serve DHS Components and other mission partners, such as the Department of Justice, the Department of State, and the Department of Defense; State, local, and tribal law enforcement; the Intelligence Community; and foreign government partners.

The Department of Homeland Security (DHS) and the Working Capital Fund (WCF) Governance Board decided to dissolve the WCF in 2021. This decision was reached after conducting strategic reviews of the WCF

WORKING CAPITAL FUND—Continued

Governance criteria and discussions within the Management Directorate on their business strategy for providing services to their customer base. As a result, no funds are included in the 2023 Budget. All activities were removed from the WCF with base transfers in 2021. DHS Components will transfer funds to the servicing Management lines of business for Fee-for-Service and Government-Wide Mandated Services. The WCF remains in existence to liquidate pre-existing obligations that occurred against the fund and wind down activities.

Analysis and Operations (A&O) provides resources supporting the Office of Intelligence and Analysis (I&A) and the Office of Homeland Security Situational Awareness (OSA), formerly known as the Office of Operations Coordination (OPS). This funding includes both National Intelligence Program (NIP) and non-NIP resources. Even though these two offices are different and distinct in their missions, they work closely together and collaborate with other departmental component agencies and related Federal agencies, as well as State, local, tribal, foreign, and private-sector partners, to improve intelligence analysis, information sharing, incident management support, and situational awareness. I&A's mission is to equip the Homeland Security Enterprise with the timely intelligence and information it needs to keep the homeland safe, secure, and resilient. I&A is the interface between the Intelligence Community (IC) and Federal, State, local, and private sector homeland security partners, providing strategic analyses, warning, and actionable intelligence, ensuring departmental leadership, components, law enforcement, and IC partners have the tools they need to confront and disrupt terrorist threats. I&A's unique mission within the IC blends national intelligence with Department of Homeland Security (DHS) component and other stakeholder source data, providing homeland security-centric analysis. The Under Secretary for Intelligence and Analysis leads (I&A) is the Department's Chief Intelligence Officer responsible for overseeing the DHS Intelligence Enterprise. The Under Secretary is also responsible for implementing the National Strategy on Information Sharing across the Department. The mission of OSA is to provide information sharing, situational awareness, and a common operating picture, enabling execution of the Secretary's responsibilities across the Homeland Security Enterprise. OSA plays a pivotal role in the DHS mission to lead the unified national effort to secure America by facilitating the Secretary's responsibilities across the full spectrum of incident management efforts (i.e., prevention, protection, response and recovery). OSA provides situational awareness, assessments, and facilitates operational information sharing with all DHS components, as well as for Federal, State, local, tribal, private sector, and international partners. OSA supports the DHS mission by partnering with other Homeland Security Enterprise partners and by maintaining 24/7 operation of the National Operations Center (NOC), enabling multi-agency fusion of law enforcement, national intelligence, emergency response, and private sector reporting.

ADMINISTRATIVE PROVISIONS

Sec. 101. (a) The Secretary of Homeland Security shall submit a report not later than October 15, 2023, to the Inspector General of the Department of Homeland Security listing all grants and contracts awarded by any means other than full and open competition during fiscal years 2022 or 2023.

(b) The Inspector General shall review the report required by subsection (a) to assess departmental compliance with applicable laws and regulations and report

the results of that review to the Committees on Appropriations of the Senate and the House of Representatives not later than February 15, 2024.

SEC. 102. Not later than 30 days after the last day of each month, the Chief Financial Officer of the Department of Homeland Security shall submit to the Committees on Appropriations of the Senate and the House of Representatives a monthly budget and staffing report that includes total obligations of the Department for that month and for the fiscal year at the appropriation and program, project, and activity levels, by the source year of the appropriation.

SEC. 103. The Secretary of Homeland Security shall require that all contracts of the Department of Homeland Security that provide award fees link such fees to successful acquisition outcomes, which shall be specified in terms of cost, schedule, and performance.

SEC. 104. (a) The Secretary of Homeland Security, in consultation with the Secretary of the Treasury, shall notify the Committees on Appropriations of the Senate and the House of Representatives of any proposed transfers of funds available under section 9705(g)(4)(B) of title 31, United States Code, from the Department of the Treasury Forfeiture Fund to any agency within the Department of Homeland Security.

(b) None of the funds identified for such a transfer may be obligated until the Committees on Appropriations of the Senate and the House of Representatives are notified of the proposed transfer.

SEC. 105. All official costs associated with the use of Government aircraft by Department of Homeland Security personnel to support official travel of the Secretary and the Deputy Secretary shall be paid from amounts made available for the Office of the Secretary.

SEC. 106. Section 107 of the Department of Homeland Security Appropriations Act, 2018 (division F of Public Law 115–141), related to visa overstay data and border security metrics, shall apply in fiscal year 2023, except that the reference to "this Act" shall be treated as referring to this Act, and the reference to "2017" shall be treated as referring to "2022".

U.S. Customs and Border Protection (CBP) works to secure America's borders, while facilitating legitimate trade and travel. CBP is responsible for inspecting travelers at the land, sea, and air ports-of-entry (POEs) for immigration, customs, and agriculture compliance, as well as interdicting illegal entrants between the POEs. CBP enforces the laws regarding admission of foreign-born persons into the United States; identifies and apprehends aliens; and ensures that all goods and persons entering and exiting the United States do so legally. CBP's over 60,000 highly trained employees ensure that the agency performs its mission with vigilance, integrity, and professionalism.

The Operations and Support appropriation funds necessary operations, mission support, and associated management and administrative costs. Major programs include:

Border Security Operations.—This program funds activities designed to protect the Nation through the coordinated use of Border Patrol Agents, technology, and air and marine forces to detect, interdict, and prevent acts of terrorism and the unlawful movement of people, illegal drugs, and other contraband toward or across the borders of the United States. These activities contribute to securing America's Southwest, Northern, and Coastal borders. Through the coordinated use of operational capabilities and assets of the U.S. Border Patrol and Air and Marine Operations, CBP prevents terrorism and terrorist weapons, illegal aliens, smugglers, narcotics, and other contraband from moving across the borders of the United States.

Trade and Travel Operations.—This program funds the mitigation of terrorist threats and the prevention of contraband from entering the U.S. while facilitating the legal flow of people and trade. CBP achieves this mission by deploying CBP officers to the POEs and by using a combination of technology, intelligence, risk information, targeting, and international cooperation to screen inbound international cargo and travelers and, in targeted border areas, to screen departing export cargo. Additional attention to outbound travel along areas of the Southwest border helps prevent the exit of money and weapons for illegal purposes. CBP has extended a zone of security beyond the United States' physical borders through bilateral cooperation with other nations, private-sector partnerships, expanded targeting, and advance scrutiny of information on people and products coming into the U.S.

Integrated Operations.—This program captures the activities to establish the foundation for an integrated, all-hazards planning framework helping to mitigate routine emergencies, catastrophic events and interruptions of border security operations both at and between the ports of entry. Activities funded in the program operate at the national level and are not limited to a specific geographical area. Integrated Operations include funding for command and control, coordination, occupational health and safety, and information and situational awareness for multiple CBP mission programs.

Mission Support.—This program captures activities that are standardized across the Department of Homeland Security that provide enterprise leadership, management, and/or business administration services and describes the capabilities and activities that support the day-to-day management and back office functions enabling both CBP and the Department to operate efficiently and effectively. Key capabilities include conducting agency planning and performance management; managing finances; managing the agency workforce to include recruiting, hiring, screening, equipping, and training new employees; providing physical and personnel security; acquiring goods and services; managing information technology; managing agency property and assets; managing agency communications; managing legal affairs; and providing general management and administration.

OPERATIONS AND SUPPORT

(Legislative proposal, subject to PAYGO)

The Budget proposes to extend the collection of customs fees established by the Consolidated Omnibus Budget Reconciliation Act of 1985 (COBRA, P.L. 99272), the Merchandise Processing Fee (MPF) established by the Omnibus Reconciliation Act of 1986 (P.L. 99509), and the Express Consignment Courier Facilities (ECCF) fee created under the Trade Act of 2002 (P.L. 107210) beyond their current expiration date of September 30, 2031 to September 30, 2032. The Budget also proposes to make permanent the MPF rate increase (from 0.21 percent ad valorem to 0.3464 percent ad valorem) enacted in Section 503 of the U.S.-Korea Free Trade Agreement Implementation Act (P.L. 11241).

PROCUREMENT, CONSTRUCTION, AND IMPROVEMENTS

For necessary expenses of U.S. Customs and Border Protection for procurement, construction, and improvements, including procurement of marine vessels, aircraft, and unmanned aerial systems, \$440,280,000; of which \$294,921,000 shall remain available until September 30, 2025; and of which \$145,359,000 shall remain available until September 30, 2027.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117-43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

PROCUREMENT, CONSTRUCTION, AND IMPROVEMENTS

■ For an additional amount for "Procurement, Construction, and Improvements", \$100,000,000, to remain available until September 30, 2026, for land port of entry construction, modernization, and sustainment: *Provided*, That not later than 90 days after the date of enactment of this Act, the Department shall submit to the House and Senate Committees on Appropriations a detailed spend plan for the amount made available under this heading in this Act: *Provided further*, That such amount is designated by the Congress as being for an emergency requirement pursuant to section 4112(a) of H. Con. Res. 71 (115th Congress), the concurrent resolution on the budget for fiscal year 2018, and to section 251(b) of the Balanced Budget and Emergency Deficit Control Act of 1985.■ (*Infrastructure Investments and Jobs Appropriations Act*.)

The U.S. Customs and Border Protection (CBP) Procurement, Construction, and Improvements (PC&I) appropriation provides the funds necessary for the planning, operational development, engineering, and purchase of one or more assets prior to sustainment. The funding within this account enables investments in border security technology, aircraft, marine vessels, tactical infrastructure, information technology systems, and other acquisitions. PC&I funding also supports the construction and modernization of critical facilities and associated infrastructure. These investments enable CBP to accomplish its complex mission of protecting the border while facilitating lawful trade, travel, and immigration.

Under Section 481 of the Cross-Border Trade Enhancement Act of 2016 (P.L. 114-279), the Commissioner of Customs and Border Protection (CBP) may approve requests from interested parties to reimburse CBP for enhanced inspectional services. Subjected to limitations, CBP is authorized to receive reimbursement from corporations, Government agencies, and other interested parties for certain inspection services in the air, land, and sea environments at domestic locations. This allows CBP to provide services to requesting parties that it could not provide in the absence of reimbursement. The Enhanced Inspectional Services account is used to manage funds associated with reimbursable agreements with external parties.

Per 48 U.S.C. 740, duties and taxes collected by U.S. Customs and Border Protection (CBP) in the Commonwealth of Puerto Rico are deposited in a mandatory trust called the Puerto Rico Trust Fund (PRTF). CBP is authorized to reimburse costs incurred in performing commercial operations related to duty and tax collections in the Commonwealth with revenues available in PRTF. After recovering the costs of those activities, accounting for any outstanding liabilities (i.e., custodial liabilities, refunds, and draw-back activity), and executing another use of available revenue agreed upon between the Commonwealth and U.S. Immigration and Customs Enforcement, available collections are transferred to Puerto Rico's Treasury (Hacienda) to be expended by the Government of Puerto Rico, as established by law.

The International Registered Traveler Program is authorized under section 565(3)(A) of the Consolidated Appropriations Act of 2008 (P.L. 110-161). U.S. Customs and Border Protection established Global Entry as an international registered traveler program that incorporates technologies, such as biometrics and e-passports, and security threat assessments to expedite screening and processing of international passengers. Global Entry allows expedited clearance for pre-approved and low-risk travelers upon arrival in the United States. The International Registered Traveler account is used to fund Global Entry program activities.

The Implementing Recommendations of the 9/11 Commission Act of 2007 (P.L. 110-53) required the establishment of an electronic authorization system to pre-screen noncitizens prior to arrival in the United States. This mandate was made operational by the creation of the Electronic System for Travel Authorization (ESTA). ESTA operates under informed compliance, requiring all Visa Waiver Program travelers to obtain authorization prior to travel. The Visa Waiver Program allows visitors to travel to the United States for business or pleasure for 90 days or less without obtaining a visa. This account funds the provision and administration of the ESTA system.

The Budget proposes establishing a user fee to cover costs that U.S. Customs and Border Protection incurs to administer the Electronic Visa Update System (EVUS) program. EVUS is an automated system used to determine eligibility to travel to the United States for temporary business or pleasure on a 10-year U.S. visitor visa. EVUS complements the existing visa application process and enhances CBP's ability to make pre-travel admissibility and risk determinations. This account will fund the costs of providing and administering the system.

As the largest investigative arm of the Department of Homeland Security (DHS), U.S. Immigration and Customs Enforcement (ICE) brings a unified and coordinated focus to the enforcement of Federal immigration and customs laws. The President's Budget supports ICE's mission to enforce immigration and customs laws. ICE works to protect the United States and its people by deterring, interdicting, and investigating threats arising from the movement of people and goods into and out of the United States.

The Operations and Support appropriation funds necessary operations, mission support, and associated management and administrative costs. Major programs include:

Homeland Security Investigations (HSI).—Investigates a broad range of domestic and international immigration and customs violations such as human smuggling and trafficking; the smuggling of weapons and other types of contraband including opioids; export enforcement, such as investigating illegal arms exports and exports of dual-use equipment that may threaten national security; financial crimes, such as money laundering, bulk cash smuggling, and other financial crimes; commercial fraud, including intellectual property violations; cybercrimes; child exploitation; identity and immigration benefit fraud; and human rights violations. HSI is also responsible for the collection, analysis, and dissemination of strategic, operational, and tactical intelligence for use by the operational elements of ICE and DHS.

OPERATIONS AND SUPPORT—Continued

Enforcement and Removal Operations (ERO).—Responsible for promoting public safety and national security by identifying, apprehending, and detaining removable noncitizens prior to ensuring their departure from the United States through the fair enforcement of the Nation's immigration laws.

Office of the Principal Legal Advisor.—Serves as the exclusive legal representative for the U.S. Government at immigration court hearings, and provides expert legal counsel to ICE on customs, immigration, labor, and administrative law.

Mission Support.—Manages ICE's financial and human resources, information technology, training for employees and special agents, sensitive property, facilities, and other assets.

The Transportation Security Administration (TSA) protects the Nation's transportation systems to ensure freedom of movement for people and commerce. The Operations and Support appropriation funds necessary operation, mission support, and associated management and administrative costs. Major programs include:

Mission Support.—This program supports headquarters offices, human resources, information technology, and major acquisitions to support those efforts.

Aviation Screening Operations.—This program supports the majority of TSA's frontline operations, and includes funding for the Screening Workforce, the National Explosives Detection Canine Team program, Secure Flight, and programs that support screening capabilities, as well as field support for these efforts. Since 2011, TSA has been performing this function through the use of an intelligence-driven risk-based security approach. Risk-based security increases the overall security effectiveness by focusing security resources on higher-risk and unknown travelers, while expanding the process for low risk and known/trusted travelers.

Other Operations and Enforcement.—This program supports: the Inflight Security program, which includes funding for the Federal Air Marshals Service and Federal Flight Deck Officer and Crew Training; Aviation Regulation, which provides law enforcement and regulatory presence at airports to ensure compliance with required security measures and response to security incidents; Air Cargo, which implements statutory requirement for ensuring the security of transportation systems and passengers when cargo is transported by air; Intelligence and the TSA Operations Center, which provides for the review, synthesis, and analysis of transportation specific intelligence; Surface Programs, which protect the surface transportation system (mass transit, freight rail, pipeline, and maritime modes); and vetting programs, which vet various populations requiring access to the transportation network.

Appropriations in this account are partially offset by revenue from related fees.

The purpose of this Budget proposal is to eliminate the annual mandatory deficit reduction deposit at Treasury from the Passenger Security Fee beginning in fiscal year 2023. The amounts would be added to the fee revenue that is treated as offsetting collections against the TSA annual appropriations that fund the security services for which the fee is collected.

SURFACE TRANSPORTATION SECURITY

The Surface Transportation Security account is a legacy appropriation that supports personnel and resources dedicated to evaluating the risk of terrorist attack on surface transportation modes, assessing the standards and procedures to address those risks, and ensuring compliance with regulations and policies.

The Procurement, Construction, and Improvements (PC&I) Appropriation provides the funds, above certain threshold amounts, necessary for the manufacture, purchase, or enhancement of assets. The funding provides resources to procure and improve equipment and systems that support aviation screening operations, other transportation screening and vetting operations, and other mission support functions. This account includes funding from the Aviation Security Capital Fund (ASCF), which is used for acquisition and installation of checked baggage screening equipment and explosives detection systems, as well as for airport infrastructure modifications.

The Research and Development appropriation funds necessary technology demonstrations and system development in support of TSA's passenger, baggage, and intermodal screening functions. TSA's research and development activities usually involve inter-agency agreements with established research organizations, such as the Department of Homeland Security Science and Technology Directorate, the Department of Energy, the Naval Sea Systems Command, and other federally funded research and development centers. TSA works directly with industry to test and demonstrate the newest security technologies for transportation infrastructure.

The Operations and Support account funds the operations of the Coast Guard as it carries out its duties as a maritime, military, multi-mission operating agency and one of the six Armed Forces. To fulfill its mission, the Coast Guard employs multipurpose vessels, aircraft, and shore units, strategically located along the coasts and inland waterways of the United States. This account funds operations and maintenance of these assets, and sustainment of new and existing Coast Guard programs, projects, activities, and personnel. This account also provides funds for Reserve Training and Environmental Compliance and Restoration.

The Environmental Compliance and Restoration account supports activities to comply with obligations in section 318, chapter 3 of title 14 of the United States Code related to Environmental Compliance and Restoration. This includes environmental cleanup, sustainment, and restoration of current and former contaminated Coast Guard facilities, and engineering remedies for Coast Guard assets, to comply with environmental laws and prevent contamination and environmental damage.

RESERVE TRAINING

The Reserve Training account supports the training of Coast Guard Reserve Forces so they are prepared to provide qualified personnel to augment active duty forces in the event of conflict, national emergency, or natural and manmade disasters. Reservists maintain their readiness through formal training, mobilization exercises, and duty alongside regular Coast Guard members during routine and emergency operations. Reservists will continue to serve as a cost-effective surge force for response to man-made and natural disasters.

PROCUREMENT, CONSTRUCTION, AND IMPROVEMENTS

For necessary expenses of the Coast Guard for procurement, construction, and improvements, including aids to navigation, shore facilities (including facilities at Department of Defense installations used by the Coast Guard), and vessels and aircraft, including equipment related thereto, \$1,654,850,000, to remain available until September 30, 2027; of which \$20,000,000 shall be derived from the Oil Spill Liability Trust Fund to carry out the purposes of section 1012(a)(5) of the Oil Pollution Act of 1990 (33 U.S.C. 2712(a)(5)).

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117-43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

PROCUREMENT, CONSTRUCTION, AND IMPROVEMENTS—Continued

The Procurement, Construction, and Improvements account provides for the acquisition, procurement, construction, rebuilding, and improvement of vessels, aircraft, information management resources, other equipment, shore facilities, and aids to navigation required to execute the Coast Guard's missions and achieve its performance goals. The Coast Guard will continue the recapitalization of boats, major cutters and patrol boats, aircraft, and command, control, communications, computers, intelligence, surveillance and reconnaissance systems. Furthermore, the Coast Guard will continue fleet sustainment projects to enhance and extend the service life of selected existing aircraft and cutters. The Coast Guard will also invest in shore infrastructure as well as repair aging buildings, and other facilities. These vital recapitalization projects will provide the Coast Guard with capabilities necessary to perform its missions.

The Alteration of Bridges account funds the Federal Government's share of costs for altering or removing bridges determined to be unreasonable obstructions to navigation. Under the Truman-Hobbs Act of 1940 (33 U.S.C. 511–523), the Federal Government shares, with the bridge owner, the cost of altering railroad and publicly-owned highway bridges declared by the Coast Guard to be unreasonable obstructions to navigation.

RESEARCH AND DEVELOPMENT

For necessary expenses of the Coast Guard for research and development; and for maintenance, rehabilitation, lease, and operation of facilities and equipment; \$7,476,000, to remain available until September 30, 2025, of which \$500,000 shall be derived from the Oil Spill Liability Trust Fund to carry out the purposes of section 1012(a)(5) of the Oil Pollution Act of 1990 (33 U.S.C. 2712(a)(5)): Provided, That there may be credited to and used for the purposes of this appropriation funds received from State and local governments, other public authorities, private sources, and foreign countries for expenses incurred for research, development, testing, and evaluation.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

The Internal Revenue Code of 1986, as amended by the Transportation Equity Act for the 21st Century and the Safe, Accountable, Flexible, Efficient Transportation Equity Act—A Legacy for Users, provides for the transfer of Highway Trust Fund revenue derived from the motor boat fuel tax and certain other taxes to the Aquatic Resources Trust Fund. In 2005, Title X of P.L. 109–59 changed the name of the Aquatic Resources Trust Fund to the Sport Fish Restoration and Boating Trust Fund. Appropriations are authorized from this fund to meet expenditures for programs specified by law, including sport fish restoration and boating safety activities. Excise tax receipts for the trust fund include motorboat fuel tax receipts, plus receipts from excise taxes on sport fishing equipment, sonar and fish finders, small engine fuels, and import duties on fishing equipment and recreational vessels.

The Boat Safety account provides grants for the development and implementation of a coordinated national recreational boating safety program. Boating safety statistics reflect the success in meeting the program's objectives. Pursuant to 16 U.S.C. 777c, as amended by the Safe, Accountable, Flexible, Efficient Transportation Equity Act—A Legacy for Users (P.L. 109–59), the Boat Safety program receives 18.5 percent of the funds collected in the Sport Fish Restoration and Boating Safety Trust Fund.

The Oil Spill Liability Trust Fund (OSLTF) is used to finance oil pollution prevention and cleanup activities by various Federal agencies. In accordance with the provisions of the Oil Pollution Act of 1990, the Fund may finance annually up to \$50 million of emergency resources and all valid claims from injured parties resulting from oil spills. For Coast Guard, this funds the Trust Fund Share of Expenses and Maritime Oil Spill Programs accounts. The OSLTF is funded by an excise tax on each barrel of oil produced domestically or imported.

The Maritime Oil Spill Programs account provides resources from the Oil Spill Liability Trust Fund for costs associated with the cleanup of oil spills. These include emergency costs associated with oil spill cleanup, funding provided to the Prince William Sound Oil Spill Recovery Institute, and the payment of claims to those who suffer harm from oil spills where the responsible party is not identifiable or is without resources. The claims activity in this account will continue to be funded under separate permanent appropriations and are being displayed in a consolidated format to enhance presentation.

The United States Secret Service has statutory authority to carry out two primary missions: protection of the Nation's leaders and investigation of financial and electronic crimes. The Secret Service protects and investigates threats against the President and Vice President, their families, visiting heads of state and government, and other individuals as directed by the President; protects the White House Complex, Vice President's Residence, foreign missions, and other buildings within Washington, D.C.; and manages the security at designated National Special Security Events. The Secret

Service also investigates violations of laws relating to counterfeiting of obligations and securities of the United States; financial crimes that include, but are not limited to, access device fraud, financial institution fraud, identity theft, and computer fraud; and computer-based attacks on financial, banking, telecommunications, and other critical infrastructure. Within Secret Service, the Operations and Support appropriation funds necessary operations, mission support, and associated management and administration costs.

ADMINISTRATIVE PROVISIONS

SEC. 201. Section 201 of the Department of Homeland Security Appropriations Act, 2018 (division F of Public Law 115–141), related to overtime compensation limitations, shall apply with respect to funds made available in this Act in the same manner as such section applied to funds made available in that Act, except that "fiscal year 2023" shall be substituted for "fiscal year 2018".

SEC. 202. Funding made available under the headings "U.S. Customs and Border Protection—Operations and Support" and "U.S. Customs and Border Protection—Procurement, Construction, and Improvements" shall be available for customs expenses when necessary to maintain operations and prevent adverse personnel actions in Puerto Rico and the U.S. Virgin Islands, in addition to funding provided by sections 740 and 1406i of title 48, United States Code.

SEC. 203. As authorized by section 601(b) of the United States-Colombia Trade Promotion Agreement Implementation Act (Public Law 112–42), fees collected from passengers arriving from Canada, Mexico, or an adjacent island pursuant to section 13031(a)(5) of the Consolidated Omnibus Budget Reconciliation Act of 1985 (19 U.S.C. 58c(a)(5)) shall be available until expended.

SEC. 204. For an additional amount for "U.S. Customs and Border Protection—Operations and Support", \$31,000,000, to remain available until expended, to be reduced by amounts collected and credited to this appropriation in fiscal year 2023 from amounts authorized to be collected by section 286(i) of the Immigration and Nationality Act (8 U.S.C. 1356(i)), section 10412 of the Farm Security and Rural Investment Act of 2002 (7 U.S.C. 8311), and section 817 of the Trade Facilitation and Trade Enforcement Act of 2015 (Public Law 114–125), or other such authorizing language: Provided, That to the extent that amounts realized from such collections exceed \$31,000,000, those amounts in excess of \$31,000,000 shall be credited to this appropriation, to remain available until expended.

SEC. 205. None of the funds made available in this Act for U.S. Customs and Border Protection may be used to prevent an individual not in the business of importing a prescription drug (within the meaning of section 801(g) of the Federal Food, Drug, and Cosmetic Act) from importing a prescription drug from Canada that complies with the Federal Food, Drug, and Cosmetic Act: Provided, That this section shall apply only to individuals transporting on their person a personal-use quantity of the prescription drug, not to exceed a 90-day supply: Provided further, That the prescription drug may not be—

- (1) a controlled substance, as defined in section 102 of the Controlled Substances Act (21 U.S.C. 802); or
- (2) a biological product, as defined in section 351 of the Public Health Service Act (42 U.S.C. 262).

SEC. 206. Notwithstanding any other provision of law, none of the funds provided in this or any other Act shall be used to approve a waiver of the navigation and vessel-inspection laws pursuant to section 501(b) of title 46, United States Code, for the transportation of crude oil distributed from and to the Strategic Petroleum Reserve until the Secretary of Homeland Security, after consultation with the Secretaries of the Departments of Energy and Transportation and representatives from the United States flag maritime industry, takes adequate measures to ensure the use of United States flag vessels: Provided, That the Secretary shall notify the Committees on Appropriations of the Senate and the House of Representatives, the Committee on Commerce, Science, and Transportation of the Senate, and the Committee on Transportation and Infrastructure of the House of Representatives within 2 business days of any request for waivers of navigation and vessel-inspection laws pursuant to section 501(b) of title 46, United States Code, with respect to such transportation, and the disposition of such requests.

SEC. 207. (a) Beginning on the date of enactment of this Act, the Secretary of Homeland Security shall not—

- (1) establish, collect, or otherwise impose any new border crossing fee on individuals crossing the Southern border or the Northern border at a land port of entry; or
- (2) conduct any study relating to the imposition of a border crossing fee.

(b) In this section, the term "border crossing fee" means a fee that every pedestrian, cyclist, and driver and passenger of a private motor vehicle is required to pay for the privilege of crossing the Southern border or the Northern border at a land port of entry.

SEC. 208. Not later than 90 days after the date of enactment of this Act, the Secretary of Homeland Security shall submit an expenditure plan for any amounts made available for "U.S. Customs and Border Protection—Procurement, Construction, and Improvements" in this Act and prior Acts to the Committees on Appropriations of the Senate and the House of Representatives: Provided, That no such amounts provided in this Act may be obligated prior to the submission of such plan.

SEC. 209. Federal funds may not be made available for the construction of fencing—

- (1) within the Santa Ana Wildlife Refuge;
- (2) within the Bentsen-Rio Grande Valley State Park;
- (3) within La Lomita Historical park;
- (4) within the National Butterfly Center;
- (5) within or east of the Vista del Mar Ranch tract of the Lower Rio Grande Valley National Wildlife Refuge; or
- (6) within historic cemeteries.

SEC. 210. Funds made available in this Act may be used to alter operations within the National Targeting Center of U.S. Customs and Border Protection: Provided, That none of the funds provided by this Act, provided by previous appropriations Acts that remain available for obligation or expenditure in fiscal year 2023, or provided from any accounts in the Treasury of the United States derived by the collection of fees available to the components funded by this Act, may be used to reduce planned vetting operations at existing locations unless specifically authorized by a statute enacted after the date of enactment of this Act.

SEC. 211. Without regard to the limitation as to time and condition of section 503(d) of this Act, the Secretary may reprogram within and transfer funds to "U.S. Immigration and Customs Enforcement—Operations and Support" as necessary to ensure the detention of aliens prioritized for removal.

SEC. 212. None of the funds provided under the heading "U.S. Immigration and Customs Enforcement—Operations and Support" may be used to continue a delegation of law enforcement authority authorized under section 287(g) of the Immigration and Nationality Act (8 U.S.C. 1357(g)) if the Department of Homeland Security Inspector General determines that the terms of the agreement governing the delegation of authority have been materially violated.

SEC. 213. (a) None of the funds provided under the heading "U.S. Immigration and Customs Enforcement—Operations and Support" may be used to continue any contract for the provision of detention services if the two most recent overall performance evaluations received by the contracted facility are less than "adequate" or the equivalent median score in any subsequent performance evaluation system.

(b) The performance evaluations referenced in subsection (a) shall be conducted by the U.S. Immigration and Customs Enforcement Office of Professional Responsibility.

SEC. 214. The reports required to be submitted under section 218 of the Department of Homeland Security Appropriations Act, 2020 (division D of Public Law 116–93) shall continue to be submitted with respect to the period beginning 15 days after the date of the enactment of this Act and semimonthly thereafter, and each matter required to be included in such report by such section 218 shall apply in the same manner and to the same extent during the period described in this section, except that for purposes of reports submitted with respect to such period described, the following additional requirements shall be treated as being included as subparagraphs (H) through (J) of paragraph (1) of such section 218—

- (1) the average lengths of stay, including average post-determination length of stay in the case of detainees described in subparagraph (F), for individuals who remain in detention as of the last date of each such reporting period;
- (2) the number who have been in detention, disaggregated by the number of detainees described in subparagraph (F), for each of the following—
 - (A) over 2 years;
 - (B) from over 1 year to 2 years;
 - (C) from over 6 months to 1 year; and
 - (D) for less than 6 months; and
- (3) the number of individuals described in section 115.5 of title 28, Code of Federal Regulations, including the use and duration of solitary confinement for such person.

SEC. 215. The terms and conditions of sections 216 and 217 of the Department of Homeland Security Appropriations Act, 2020 (division D of Public Law 116–93) shall apply to this Act.

SEC. 216. Members of the United States House of Representatives and the United States Senate, including the leadership; the heads of Federal agencies and commissions, including the Secretary, Deputy Secretary, Under Secretaries, and Assistant Secretaries of the Department of Homeland Security; the United States Attorney General, Deputy Attorney General, Assistant Attorneys General, and the United States Attorneys; and senior members of the Executive Office of the President, including the Director of the Office of Management and Budget, shall not be exempt from Federal passenger and baggage screening.

SEC. 217. Any award by the Transportation Security Administration to deploy explosives detection systems shall be based on risk, the airport's current reliance on other screening solutions, lobby congestion resulting in increased security concerns, high injury rates, airport readiness, and increased cost effectiveness.

SEC. 218. Notwithstanding section 44923 of title 49, United States Code, for fiscal year 2023, any funds in the Aviation Security Capital Fund established by section 44923(h) of title 49, United States Code, may be used for the procurement and installation of explosives detection systems or for the issuance of other transaction agreements for the purpose of funding projects described in section 44923(a) of such title.

SEC. 219. Not later than 30 days after the submission of the President's budget proposal, the Administrator of the Transportation Security Administration shall submit to the Committees on Appropriations and Commerce, Science, and Transportation of the Senate and the Committees on Appropriations and Homeland Security in the House of Representatives a single report that fulfills the following requirements:

(1) a Capital Investment Plan that includes a plan for continuous and sustained capital investment in new, and the replacement of aged, transportation security equipment;

(2) the 5-year technology investment plan as required by section 1611 of title XVI of the Homeland Security Act of 2002, as amended by section 3 of the Transportation Security Acquisition Reform Act (Public Law 113–245); and

(3) the Advanced Integrated Passenger Screening Technologies report as required by the Senate Report accompanying the Department of Homeland Security Appropriations Act, 2019 (Senate Report 115–283).

SEC. 220. None of the funds made available by this Act under the heading "Coast Guard—Operations and Support" shall be for expenses incurred for recreational vessels under section 12114 of title 46, United States Code, except to the extent fees are collected from owners of yachts and credited to the appropriation made available by this Act under the heading "Coast Guard—Operations and Support": Provided, That to the extent such fees are insufficient to pay expenses of recreational vessel documentation under such section 12114, and there is a backlog of recreational vessel applications, personnel performing non-recreational vessel documentation functions under subchapter II of chapter 121 of title 46, United States Code, may perform documentation under section 12114.

SEC. 221. Without regard to the limitation as to time and condition of section 503(d) of this Act, after June 30, up to \$10,000,000 may be reprogrammed to or from the Military Pay funding category within "Coast Guard—Operations and Support" in accordance with subsection (a) of section 503 of this Act.

SEC. 222. Notwithstanding any other provision of law, the Commandant of the Coast Guard shall submit to the Committees on Appropriations of the Senate and the House of Representatives a future-years capital investment plan as described in the second proviso under the heading "Coast Guard—Acquisition, Construction, and Improvements" in the Department of Homeland Security Appropriations Act, 2015 (Public Law 114–4), which shall be subject to the requirements in the third and fourth provisos under such heading.

SEC. 223. Of the funds made available for defense-related activities under the heading "Coast Guard—Operations and Support", up to \$190,000,000 that are used for enduring overseas missions in support of the global fight against terror may be reallocated by program, project, and activity, notwithstanding section 503 of this Act.

SEC. 224. None of the funds in this Act shall be used to reduce the Coast Guard's Operations Systems Center mission or its government-employed or contract staff levels.

SEC. 225. None of the funds appropriated by this Act may be used to conduct, or to implement the results of, a competition under Office of Management and Budget Circular A-76 for activities performed with respect to the Coast Guard National Vessel Documentation Center.

SEC. 226. Funds made available in this Act may be used to alter operations within the Civil Engineering Program of the Coast Guard nationwide, including civil engineering units, facilities design and construction centers, maintenance and logistics commands, and the Coast Guard Academy, except that none of the funds provided in this Act may be used to reduce operations within any civil engineering unit unless specifically authorized by a statute enacted after the date of enactment of this Act.

SEC. 227. Amounts deposited into the Coast Guard Housing Fund in fiscal year 2023 shall be available until expended to carry out the purposes of section 2946 of title 14, United States Code, and shall be in addition to funds otherwise available for such purposes.

SEC. 228. The United States Secret Service is authorized to obligate funds in anticipation of reimbursements from executive agencies, as defined in section 105 of title 5, United States Code, for personnel receiving training sponsored by the James J. Rowley Training Center, except that total obligations at the end of the fiscal year

shall not exceed total budgetary resources available under the heading "United States Secret Service—Operations and Support" at the end of the fiscal year.

SEC. 229. None of the funds made available to the United States Secret Service by this Act or by previous appropriations Acts may be made available for the protection of the head of a Federal agency other than the Secretary of Homeland Security: Provided, That the Director of the United States Secret Service may enter into agreements to provide such protection on a fully reimbursable basis.

SEC. 230. For purposes of section 503(a)(3) of this Act, up to \$15,000,000 may be reprogrammed within "United States Secret Service—Operations and Support".

SEC. 231. Funding made available in this Act for "United States Secret Service—Operations and Support" is available for travel of United States Secret Service employees on protective missions without regard to the limitations on such expenditures in this or any other Act if the Director of the United States Secret Service or a designee notifies the Committees on Appropriations of the Senate and the House of Representatives 10 or more days in advance, or as early as practicable, prior to such expenditures.

SEC. 232. Funding made available under the headings "U.S. Customs and Border Protection—Operations and Support" and "U.S. Immigration and Customs Enforcement—Operations and Support" may be used to provide or reimburse third-parties for the provision of COVID-19 testing and shelter for the purpose of voluntary isolation of persons encountered by U.S. Customs and Border Protection after entering the United States along the southwest border and deemed inadmissible under section 212(a) of the Immigration and Nationality Act (8 U.S.C. 1182(a)): Provided, That such testing and shelter shall be provided immediately after such persons leave Department of Homeland Security custody: Provided further, That for purposes of this section, funds may only be used in States or jurisdictions that do not have an agreement with the Federal government for the provision or reimbursement of such services.

SEC. 233. The unobligated balances of amounts specified in subsections (a)(1) through (a)(5) of section 230 of division F of the Consolidated Appropriations Act, 2018 (Public Law 115–141), section 230(a)(1) of division A of the Consolidated Appropriations Act, 2019 (Public Law 116–6), section 209(a)(1) of division D of the Consolidated Appropriations Act, 2020 (Public Law 116–93), and section 210 of division F of the Consolidated Appropriations Act, 2021 (Public Law 116–260) shall, in addition to the purposes for which they were originally appropriated, be available for the construction and improvement of roads along the southwest border, the removal and eradication of vegetation along the southwest border that creates obstacles to the detection of illegal entry, remediation and environmental mitigation, including scientific studies, related to border barrier construction, including barrier construction undertaken by the Department of Defense, and the acquisition and deployment of border security technology at and between ports of entry along the southwest border: Provided, That amounts repurposed by this section shall be in addition to any other amounts made available for such purposes.

SEC. 234. Section 230(b) of division F of the Consolidated Appropriations Act, 2018 (Public Law 115–141), section 230(b) of division A of the Consolidated Appropriations Act, 2019 (Public Law 116–6), and section 209(b) of division D of the Consolidated Appropriations Act, 2020 (Public Law 116–93) shall no longer apply.

SEC. 235. The Secretary of Homeland Security may transfer up to \$225,000,000 in unobligated balances available from prior appropriations Acts under the heading "U.S. Customs and Border Protection—Procurement, Construction, and Improvements" to the Department of the Interior (including any agency or bureau within the Department of the Interior) or the Forest Service within the Department of Agriculture for the execution of environmental and other mitigation projects or activities, including the acquisition of land and scientific studies, related to the construction of border barriers on the southwest border between fiscal year 2017 and fiscal year 2021 by U.S. Customs and Border Protection and the Department of Defense.

Procurement, Construction, and Improvements (PC&I) provides the funds necessary for the manufacture, purchase, or enhancement of one or more assets prior to sustainment. This funding supports the investments needed to enhance the security and resilience of infrastructure against terrorist attacks, cyber events, and natural disasters. Secure and resilient infrastructure is essential for national security, economic vitality, and public health and safety. This includes activities to understand and manage risk from natural disaster.

Federal Assistance provides monetary and non-monetary support to non-Federal Emergency Management Agency (FEMA) entities. Support may be provided in the form of grants or grant agreements, cooperative agreements, non-cash contributions, and other Federal support, but does not include amounts received as reimbursement for services rendered to individuals. Through a variety of programs, FEMA provides for grants, training, exercises, and other support to assist Federal agencies, States, territories, and tribal and local jurisdictions to prevent, protect against, mitigate, respond to, and recover from terrorism and natural disasters.

Grants: FEMA provides State and local preparedness grants that focus on building and sustaining the 32 core capabilities associated with the five mission areas described in the National Preparedness Goal. These grants include: 1) the State Homeland Security Grant Program, including Operation Stonegarden, Tribal Homeland Security Grants, and the Nonprofit Security Grant Program, which supports the implementation of State homeland security strategies to address identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events; 2) the Urban Area Security Initiative, including the Nonprofit Security Grant Program, which addresses the unique risk-driven and capabilities-based planning, organization, equipment, training, and exercise needs of high-threat, high-density urban areas based on capability targets identified during the Threat Hazard Identification and Risk Assessment process; 3) the Transit Security Grant Program for public transportation security assistance and railroad security assistance, which supports owners and operators of transit systems, including intra-city bus, commuter bus, ferries, and all forms of passenger rail, to protect critical surface transportation infrastructure and the traveling public from acts of terrorism and to increase the resilience of transit infrastructure; 4) the Port Security Grant Program, which improves port-wide maritime security risk management, enhances maritime domain awareness, supports maritime security training and exercises, and maintains and/or reestablishes maritime security mitigation protocols that support port recovery and resiliency capabilities; 5) Firefighter Assistance Grants, including the Assistance to Firefighter Grant and the Staffing for Adequate Fire and Emergency Response grants, which provide direct assistance to local fire departments for investments to improve their ability to safeguard the lives of firefighting personnel and members of the public in the event of a terrorist attack or other major incident; 6) Emergency Management Performance Grants, which provides funding on a formula basis to all 56 States and Territories to achieve target levels of capability in catastrophic planning and emergency management; 7) the Flood Hazard Mapping and Risk Analysis program, which drives national actions to reduce flood risk by addressing flood hazard data update needs, supporting local government hazard mitigation planning, and providing the flood risk data needed to manage the NFIP's financial exposure; 8) the Regional

Catastrophic Preparedness Grant program which builds regional capacity to manage catastrophic incidents by improving and expanding collaboration for catastrophic incident preparedness; 9) the High Risk Dam Safety program which provides technical, planning, design, and construction assistance in the form of grants for rehabilitation of eligible high hazard potential dams; 10) the Emergency Food and Shelter grant program which provides funds to nonprofit and governmental organizations at the local level to supplement their programs for emergency food and shelter; and 11) a critical infrastructure cyber grant program to provide financial assistance to public and private entities to implement risk reduction strategies and capabilities to protect critical infrastructure from cyber-attacks.

Education, Training, and Exercises Programs: FEMA provides specialized training to emergency responders and supports development, execution, and evaluation of exercises to test the Nation's preparedness for all hazards. These programs include: 1) the National Exercise Program, which designs, coordinates, conducts, and evaluates exercises that rigorously test the Nation's ability to perform missions and functions that prevent, protect against, respond to, recover from, and mitigate all hazards; 2) the Center for Domestic Preparedness, which provides specialized all-hazards preparedness training to State, local, and tribal emergency responders on skills tied to national priorities, in particular those related to Weapons of Mass Destruction; 3) the Emergency Management Institute, which provides training to Federal, State, local, tribal, volunteer, public, and private sector officials to strengthen emergency management core competencies, knowledge, and skills, thus improving the Nation's capability to prepare for, protect against, respond to, recover from, and mitigate all hazards; 4) the National Domestic Preparedness Consortium, which provides first responders with a comprehensive, all-hazards training program that includes a focus on weapons of mass destruction, Chemical, Biological, Radiological, Nuclear, and Explosive (CBRNE) agents, natural hazards, and natural disasters aimed to improve their capacity to prevent, protect against, respond to, and recover from all hazards events including acts of terrorism; 5) the Continuing Training Grants, which provides funding via cooperative agreements to partners to develop and deliver training to prepare communities to prevent, protect against, mitigate, respond to, and recover from acts to terrorism and natural, man-made, and technological hazards; 6) the Center for Homeland Defense and Security, which develops and offers educational resources to the entire homeland security enterprise; and 7) the U.S. Fire Administration, which promotes fire awareness, safety, and risk reduction across communities and prepares the Nation's first responders through ongoing training in evaluating and minimizing community risk, improving protection of critical infrastructure, and preparing to respond to all-hazard emergencies.

Operations and Support funds the Federal Emergency Management Agency's core mission: development and maintenance of an integrated, nationwide capability to prepare for, mitigate, respond to, and recover from the consequences of terrorist attacks and other major disasters and emergencies, in partnership with other Federal agencies, State, local, tribal, and territorial (SLTT) governments, volunteer organizations, and the private sector. Activities supported by this account incorporate the essential command and control functions, mitigate long-term risks, ensure the continuity and restoration of essential services and functions, and provide leadership to build, sustain, and improve the coordination and delivery of support to citizens and State, local, tribal, and territorial governments.

The Radiological Emergency Preparedness Program assists State, local, and tribal governments in the development of off-site radiological emergency preparedness plans within the emergency planning zones of Nuclear Regulatory Commission (NRC) licensed commercial nuclear power facilities. The fund is financed from fees assessed and collected from the NRC licensees to cover the costs for radiological emergency planning, preparedness, and response activities in the following year, as authorized in the Administrative Provisions, Sec. 308.

Through the Disaster Relief Fund (DRF), the Federal Emergency Management Agency (FEMA) provides a significant portion of the total Federal response to Presidentially-declared major disasters and emergencies that overwhelm State and tribal resources, pursuant to the Robert T. Stafford Disaster Relief and Emergency Act, P.L. 93-288 (as amended), 42 U.S. Code sections 5121-5207. Primary assistance programs include Federal disaster support to individuals and households, public assistance, and hazard mitigation assistance which includes such activities as the repair and restoration of State, local, tribal, territorial, and nonprofit disaster damaged infrastructure, financial assistance to eligible disaster survivors, and funding to rebuild in a way that reduces or mitigates future disaster losses in communities.

The 2023 DRF funds requested under the disaster relief Major Disaster Allocation consist of five principal components: (1) catastrophic obligations; (2) non-catastrophic obligations; (3) recoveries; (4) the set-aside for the Building Resilient Infrastructure in Communities (BRIC) grant program; and (5) a reserve. Funds required for the catastrophic category, defined as events greater than \$500 million, are based on FEMA spend plans for all past declared catastrophic events and do not include funds for new catastrophic events that may occur in 2023. It is assumed that any new catastrophic event in 2023 will be funded through a future supplemental funding request. The non-catastrophic amount is based on an approach that uses the 10-year average for non-catastrophic events to provide a more realistic projection of non-catastrophic needs in 2023.

The DRF base request supports the 10-year average for the costs associated with emergency declarations, pre-disaster surge activities, and fire management assistance grants. The base also includes funds for projected yearly disaster readiness and support activities. The 2023 DRF base requirements will be funded through available carryover balances from 2022.

For activities under the National Flood Insurance Act of 1968 (42 U.S.C. 4001 et seq.), the Flood Disaster Protection Act of 1973 (42 U.S.C. 4001 et seq.), the Biggert-Waters Flood Insurance Reform Act of 2012 (Public Law 112-141, 126 Stat. 916), and the Homeowner Flood Insurance Affordability Act of 2014 (Public Law 113-89; 128 Stat. 1020), \$225,000,000, to remain available until September 30, 2024, which shall be derived from offsetting amounts collected under section 1308(d) of the National Flood Insurance Act of 1968 (42 U.S.C. 4015(d)); of which \$18,500,000 shall be available for mission support associated with flood management; and of which \$206,500,000 shall be available for flood plain management and flood mapping: *Provided*, That any additional fees collected pursuant to section 1308(d) of the National Flood Insurance Act of 1968 (42 U.S.C. 4015(d)) shall be credited as offsetting collections to this account, to be available for flood plain management and flood mapping: *Provided further*, That in fiscal year 2023, no funds shall be available from the National Flood Insurance Fund under section 1310 of the National Flood Insurance Act of 1968 (42 U.S.C. 4017) in excess of—

(1) \$223,770,000 for operating expenses and salaries and expenses associated with flood insurance operations;

(2) \$960,647,000 for commissions and taxes of agents;

(3) such sums as are necessary for interest on Treasury borrowings; and

(4) \$175,000,000, which shall remain available until expended, for flood mitigation actions and for flood mitigation assistance under section 1366 of the National Flood Insurance Act of 1968 (42 U.S.C. 4104c), notwithstanding sections 1366(e) and 1310(a)(7) of such Act (42 U.S.C. 4104c(e), 4017):

Provided further, That the amounts collected under section 102 of the Flood Disaster Protection Act of 1973 (42 U.S.C. 4012a) and section 1366(e) of the National Flood Insurance Act of 1968 (42 U.S.C. 4104c(e)), shall be deposited in the National Flood Insurance Fund to supplement other amounts specified as available for section 1366 of the National Flood Insurance Act of 1968, notwithstanding section 102(f)(8), section 1366(e) of the National Flood Insurance Act of 1968, and paragraphs (1)

through (3) of section 1367(b) of such Act (42 U.S.C. 4012a(f)(8), 4104c(e), 4104d(b)(1)–(3)): *Provided further*, That total administrative costs shall not exceed 4 percent of the total appropriation: *Provided further*, That up to \$5,000,000 is available to carry out section 24 of the Homeowner Flood Insurance Affordability Act of 2014 (42 U.S.C. 4033).

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117-43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

NATIONAL FLOOD INSURANCE FUND

For an additional amount for "National Flood Insurance Fund", \$3,500,000,000, to be derived from the General Fund of the Treasury, to remain available until expended, for flood mitigation actions and for flood mitigation assistance under section 1366 of the National Flood Insurance Act of 1968 (42 U.S.C. 4104c), notwithstanding sections 1366(e), 1310(a)(7), and 1367 of such Act (42 U.S.C. 4104c(e), 4017(a)(7), 4104d), in addition to any other funds available for this purpose: *Provided*, That \$700,000,000, to remain available until expended, shall be made available for fiscal year 2022, \$700,000,000, to remain available until expended, shall be made available for fiscal year 2023, \$700,000,000, to remain available until expended, shall be made available for fiscal year 2024, \$700,000,000, to remain available until expended, shall be made available for fiscal year 2025, and \$700,000,000, to remain available until expended, shall be made available for fiscal year 2026: *Provided further*, That notwithstanding section 1366(d) of the National Flood Insurance Act of 1968 (42 U.S.C. 4104c(d)), the Administrator of the Federal Emergency Management Agency may also use amounts made available under subsection (a) to provide flood mitigation assistance under section 1366 of that Act (42 U.S.C. 4104c) for mitigation activities in an amount up to 90 percent of all eligible costs for a property—

[(1) located within a census tract with a Centers for Disease Control and Prevention Social Vulnerability Index score of not less than 0.5001; or]

[(2) that serves as a primary residence for individuals with a household income of not more than 100 percent of the applicable area median income:]

Provided further, That such amount is designated by the Congress as being for an emergency requirement pursuant to section 4112(a) of H. Con. The Federal Government provides flood insurance through the National Flood Insurance Program (NFIP), which is administered by the Federal Emergency Management Agency (FEMA). Flood insurance is available to homeowners and businesses in communities that have adopted and enforce appropriate floodplain management measures. Coverage is limited to buildings and their contents. At the end of 2021, the program had approximately 4.9 million policies in nearly 22,400 communities with approximately \$1.3 trillion of insurance in force.

The program uses a multi-pronged strategy for reducing future flood damage. The NFIP offers flood mitigation assistance grants for projects that reduce or eliminate the risk of flood damages to buildings insured by the NFIP. In addition, flood mitigation assistance grants targeted toward repetitive and severe repetitive loss properties not only help owners of high-risk property, but through acquisition, relocation, or elevation also reduce the disproportionate drain on the National Flood Insurance Fund these properties cause. FEMA works to ensure that the flood mitigation grant program is closely integrated with other FEMA mitigation grant

programs, resulting in better coordination and communication with State and local governments. Further, through the Community Rating System, FEMA adjusts premium rates to encourage community and State mitigation activities beyond those required by the NFIP. A study conducted in 2014 shows these efforts, in addition to the minimum NFIP requirements for floodplain management, can yield over \$1.9 billion annually in avoided flood claims.

In 2023, FEMA continues to put the NFIP on a more sustainable financial footing by signaling the true cost associated with living in a floodplain, through premium increases for policies which are priced at less than full risk.

NATIONAL FLOOD INSURANCE FUND

(Legislative proposal, not subject to PAYGO)

The purpose of this 2023 Budget proposal is to remedy the recognized need to provide affordable assistance to certain households, which otherwise might not participate at all, as FEMA puts the National Flood Insurance Program (NFIP) on a more sustainable financial footing. The Budget proposal moves this forward by indicating to households the true cost of living in a floodplain. With this information, FEMA will still undertake a targeted means-tested assistance program, which is to offer premium assistance based on income or ability to pay, rather than just location or date of construction. Overall, this proposal is expected to increase the number of policy holders and covered properties, and so help make obtaining and maintaining flood insurance more affordable.

Procurement, Construction, and Improvements (PC&I) provides funds necessary for the Federal Emergency Management Agency's (FEMA) major investments in information technology, communication, facilities, and infrastructure that support operations essential to FEMA's mission. The PC&I appropriation consists of three programs, projects, and activities:

Operational Communications/Information Technology.—The 2023 request includes funding for FEMA's investments in communications infrastructure, IT systems, and equipment that are directly used by field offices and personnel and have multi-mission frontline applications.

Construction and Facility Improvements.—The 2023 request includes funding for major construction and improvements for FEMA's land and facility investments above the real property threshold set for minor construction in Operations and Support and Federal Assistance appropriations.

Mission Support Assets and Infrastructure.—The 2023 request includes funding for the design, implementation, and integration of new solutions for major FEMA systems and data management that support the Agency's mission.

ADMINISTRATIVE PROVISIONS

SEC. 301. Funds made available under the heading "Cybersecurity and Infrastructure Security Agency—Operations and Support" may be made available for the necessary expenses of carrying out the competition specified in section 2(e) of Executive Order No. 13870 (May 2, 2019), including the provision of monetary and non-monetary awards for Federal civilian employees and members of the uniformed services, the necessary expenses for the honorary recognition of any award recipients, and activities to encourage participation in the competition, including promotional items: Provided, That any awards made pursuant to this section shall be of the same type and amount as those authorized under sections 4501 through 4505 of title 5, United States Code.

SEC. 302. Notwithstanding section 2008(a)(12) of the Homeland Security Act of 2002 (6 U.S.C. 609(a)(12)) or any other provision of law, not more than 5 percent of the amount of a grant made available in paragraphs (1) through (4) under "Federal Emergency Management Agency—Federal Assistance", may be used by the grantee for expenses directly related to administration of the grant.

SEC. 303. Except for grants under the Nonprofit Security Grant Program, applications for grants under the heading "Federal Emergency Management Agency—Federal Assistance", for paragraphs (1) through (4), shall be made available to eligible applicants not later than 60 days after the date of enactment of this Act, eligible applicants shall submit applications not later than 80 days after the grant announcement, and the Administrator of the Federal Emergency Management Agency shall act within 65 days after the receipt of an application.

SEC. 304. Under the heading "Federal Emergency Management Agency—Federal Assistance", for grants under paragraphs (1) through (4), (8), and (9), the Administrator of the Federal Emergency Management Agency shall brief the Committees on Appropriations of the Senate and the House of Representatives 5 full business days in advance of announcing publicly the intention of making an award.

SEC. 305. Under the heading "Federal Emergency Management Agency—Federal Assistance", for grants under paragraphs (1) and (2), the installation of communications towers is not considered construction of a building or other physical facility.

SEC. 306. The reporting requirements in paragraphs (1) and (2) under the heading "Federal Emergency Management Agency—Disaster Relief Fund" in the Department of Homeland Security Appropriations Act, 2015 (Public Law 114-4) shall be applied in fiscal year 2023 with respect to budget year 2024 and current fiscal year 2023, respectively—

(1) in paragraph (1) by substituting "fiscal year 2024" for "fiscal year 2016"; and

(2) in paragraph (2) by inserting "business" after "fifth".

SEC. 307. In making grants under the heading "Federal Emergency Management Agency—Federal Assistance", for Staffing for Adequate Fire and Emergency Response grants, the Administrator of the Federal Emergency Management Agency may grant waivers from the requirements in subsections (a)(1)(A), (a)(1)(B), (a)(1)(E), (c)(1), (c)(2), and (c)(4) of section 34 of the Federal Fire Prevention and Control Act of 1974 (15 U.S.C. 2229a).

SEC. 308. The aggregate charges assessed during fiscal year 2023, as authorized in title III of the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 1999 (42 U.S.C. 5196e), shall not be less than 100 percent of the amounts anticipated by the Department of Homeland Security to be necessary for its Radiological Emergency Preparedness Program for the next fiscal year: Provided, That the methodology for assessment and collection of fees shall be fair and equitable and shall reflect costs of providing such services, including administrative costs of collecting such fees: Provided further, That such fees shall be deposited in a Radiological Emergency Preparedness Program account as offsetting collections and will become available for authorized purposes on October 1, 2023, and remain available until expended.

SEC. 309. Any balances of funds appropriated in any prior Act for activities funded by National Predisastr Mitigation Fund under section 203 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5133) (as in effect on the day before the date of enactment of section 1234 of division D of Public Law 115-254) may be transferred to and merged for all purposes with the funds set aside pursuant to subsection (i)(1) of section 203 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5133), as in effect on the date of the enactment of this section.

SEC. 310. In making grants under the heading "Federal Emergency Management Agency—Federal Assistance", for Assistance to Firefighter Grants, the Administrator of the Federal Emergency Management Agency may waive subsection (k) of section 33 of the Federal Fire Prevention and Control Act of 1974 (15 U.S.C. 2229).

SEC. 311. Amounts made available in paragraphs (1) and (2) under the heading "Federal Emergency Management Agency—Federal Assistance" in this title specifically for organizations as described under section 501(c)(3) of the Internal Revenue Code of 1986 and exempt from tax under section 501(a) of such code may be used to award grants to entities otherwise eligible to receive grants under those paragraphs should insufficient qualified applications be received or approved by August 30, 2023: Provided, That no grants may be awarded under this section unless the Committees on Appropriations of the Senate and the House of Representatives are notified at least 5 days in advance of such awards.

The mission of U.S. Citizenship and Immigration Services (USCIS) is to adjudicate and grant immigration and citizenship benefits, provide accurate and useful information to applicants and petitioners, and promote an awareness and understanding of citizenship in support of immigrant integration, while also protecting the integrity of our Nation's immigration system. USCIS approves millions of immigration benefit applications each year, ranging from work authorization and lawful permanent residency to asylum and refugee status. The Budget continues to invest in technology to improve and automate business operations, eliminate paper-based processing, improve information sharing, and enhance USCIS' ability to identify and prevent immigration benefit fraud.

The Budget assumes that USCIS will continue to be funded primarily through fees on the applications and petitions it adjudicates.

Within USCIS' appropriated funding, Operations and Support funds necessary operations, mission support, and associated management and administration costs, including for the E-Verify program, asylum adjudications, support for the refugee program, information technology and cybersecurity, application processing, and backlog reduction efforts.

The U.S. Citizenship and Immigration Services (USCIS) Federal Assistance appropriations provides funding for the Citizenship and Integration Grant Program. The goal of the program is to expand the availability of high-quality citizenship preparation services for lawful permanent residents across the nation and to provide opportunities for lawful permanent residents to gain the knowledge and skills necessary to integrate into the fabric of American society. USCIS awards grant funding on a competitive basis to organizations that provide citizenship preparation and naturalization application services to lawful permanent residents, including former refugees and asylees.

The Federal Law Enforcement Training Centers (FLETC) serves as an interagency law enforcement training organization for over 100 participating organizations, providing the necessary facilities, equipment, and support services to conduct basic, advanced, specialized, and refresher training for Federal law enforcement personnel. FLETC personnel conduct the instructional programs for basic law enforcement recruits and some advanced training based on agency requests. Additionally, FLETC provides advanced training tuition-free, or at a reduced cost, to State, local, rural, tribal, and territorial law enforcement officers at all four of its campuses, through export training deliveries, and through distance learning on a space-available basis. In cooperation with the Department of State, FLETC delivers training at International Law Enforcement Academies (ILEA) in Gaborone, Botswana; Bangkok, Thailand; Budapest, Hungary; Roswell, New Mexico; San Salvador, El Salvador; and the Regional Training Center in Accra, Ghana. Additionally, FLETC holds the Director position managing the ILEAs in Gaborone, Botswana and Budapest, Hungary. FLETC provides other training and assistance internationally in collaboration with and in support of U.S. embassies. FLETC also hosts authorized and vetted international students for training programs at FLETC facilities in the United States on a space-available and fully reimbursable basis.

FLETC's Operations and Support account funds necessary operations, mission support, and associated management and administrative costs. In addition, this account includes the funding and activities that are associated with minor construction, maintenance, and improvement projects.

The Federal Law Enforcement Training Centers' (FLETC) Procurement, Construction, and Improvement (PC&I) account funds the purchase, building, manufacturing, or assemblage of one or more end items that create, extend or enhance FLETC's existing capabilities. Funds provided through this account support the procurement, construction, and/or improvements of personal property end items with an individual cost of \$250,000 or more, and real property end items with an individual cost of \$2 million or more. Language in the President's Budget authorizes FLETC to receive reimbursements in the PC&I account, and also authorizes reimbursements to FLETC from U.S. Government agencies for the construction of special use facilities. The language also authorizes the acquisition of necessary additional real property and facilities, construction and ongoing maintenance, facility improvements and related expenses of the Federal Law Enforcement Training Centers.

The Operations and Support (O&S) appropriation for the Science and Technology Directorate (S&T) provides funding to ensure delivery of advanced technology solutions to Department of Homeland Security (DHS) Components and first responders. This appropriation also supports Systems Engineering, Standards, and Test and Evaluation (T&E) to ensure that S&T and DHS Components develop effective technologies that work in the operational environment. This includes costs necessary for operations and support activities to advance S&T's mission, as well as salaries and benefits, and operating costs for five laboratory facilities.

S&T's Procurement, Construction, & Improvements (PC&I) appropriation supports requirements to ensure laboratory infrastructure remains aligned to S&T mission requirements. PC&I funding allows S&T to make essential investments in construction, expansion, maintenance, modernization, or removal as necessary to support requirements generated by DHS Components. In addition, PC&I funding allows S&T the ability to invest in equipment and information technology to ensure that S&T laboratories maintain accreditation.

The Countering Weapons of Mass Destruction Office's (CWMD) Research and Development account provides funds to identify, explore, and demonstrate new technologies and capabilities that will help enable the Department of Homeland Security and its partners to prevent, protect against, respond to, and mitigate chemical, biological, radiological and nuclear threats and incidents. CWMD works closely with operational customers to ensure the effective transition of new technologies to the field. Funding in this account supports basic, applied, and developmental projects that prioritize the delivery of capability into the hands of the operator.

The Countering Weapons of Mass Destruction Office's (CWMD) Procurement, Construction, and Improvements account provides funds for the acquisition and deployment of nuclear, radiological, chemical, and biological systems to support Department of Homeland Security operational components such as U.S. Customs and Border Protection. CWMD utilizes an integrated lifecycle approach in the management of these systems, and achieves efficiencies through a centralized acquisition process. Funding in this account supports the acquisition and deployment of enhanced Radiation Portal Monitors to begin recapitalization of the fleet; other programs to support scanning of cargo entering the Nation; and procurement of chemical, biological, and radiological equipment that can be carried, worn, or easily moved to support operational end-users.

The Countering Weapons of Mass Destruction Office (CWMD) Federal Assistance account provides the funds for outreach efforts necessary to ensure Federal, State, local, territorial, and tribal (FSLTT) and international partners have the access and resources to support the threat detection mission. FSLTT support is focused on detecting devices or materials prior to their entry into the United States and maximizing the probability of an encounter prior to WMD materials reaching potential targets. The Federal Assistance account provides resources for the Nation's biodetection system. The funds support early warning and preparedness for biological and chemical events.

ADMINISTRATIVE PROVISIONS

SEC. 401. Notwithstanding any other provision of law, funds otherwise made available to U.S. Citizenship and Immigration Services may be used to acquire, operate, equip, and dispose of up to 5 vehicles, for replacement only, for areas where the Administrator of General Services does not provide vehicles for lease: Provided, That the Director of U.S. Citizenship and Immigration Services may authorize employees who are assigned to those areas to use such vehicles to travel between the employees' residences and places of employment.

SEC. 402. None of the funds appropriated by this Act may be used to process or approve a competition under Office of Management and Budget Circular A-76 for services provided by employees (including employees serving on a temporary or term basis) of U.S. Citizenship and Immigration Services of the Department of Homeland Security who are known as Immigration Information Officers, Immigration Service Analysts, Contact Representatives, Investigative Assistants, or Immigration Services Officers.

SEC. 403. The terms and conditions of section 403 of the Department of Homeland Security Appropriations Act, 2020 (division D of Public Law 116–93) shall apply to this Act.

SEC. 404. The Director of the Federal Law Enforcement Training Centers is authorized to distribute funds to Federal law enforcement agencies for expenses incurred participating in training accreditation.

SEC. 405. The Federal Law Enforcement Training Accreditation Board, including representatives from the Federal law enforcement community and non-Federal accreditation experts involved in law enforcement training, shall lead the Federal law enforcement training accreditation process to continue the implementation of measuring and assessing the quality and effectiveness of Federal law enforcement training programs, facilities, and instructors.

SEC. 406. The Director of the Federal Law Enforcement Training Centers may accept transfers to its "Procurement, Construction, and Improvements" account from Government agencies requesting the construction of special use facilities, as authorized by the Economy Act (31 U.S.C. 1535(b)): Provided, That such transfers may include transfers of funds from the Immigration Examinations Fee Account described in section 286(m) of the Immigration and Nationality Act (8 U.S.C. 1356(m)) that the Director of U.S. Citizenship and Immigration Services determines necessary to support U.S. Citizenship and Immigration Services training programs: Provided further, That the Federal Law Enforcement Training Centers maintain administrative control and ownership upon completion of such facilities.

SEC. 407. The functions of the Federal Law Enforcement Training Centers instructor or staff shall be classified as inherently governmental for purposes of the Federal Activities Inventory Reform Act of 1998 (31 U.S.C. 501 note).

SEC. 408. Notwithstanding the seventh proviso under the heading "Immigration and Naturalization Service—Salaries and Expenses" in Public Law 105–119 (relating to FD-258 fingerprint cards), or any other provision of law, funds made available to U.S. Citizenship and Immigration Services by this or any other Act may be used for the collection and use of biometrics taken at a U.S. Citizenship and Immigration Services Application Support Center that is overseen virtually by U.S. Citizenship and Immigration Services personnel using appropriate technology.

SEC. 409. Notwithstanding section 286(n) of the Immigration and Nationality Act (8 U.S.C. 1356(n)), the Director of U.S. Citizenship and Immigration Services may use not more than \$2,500 of amounts deposited in the Immigration Examinations Fee Account for official reception and representation expenses in fiscal year 2023.

GENERAL PROVISIONS

(INCLUDING TRANSFERS OF FUNDS)

SEC. 501. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 502. Subject to the requirements of section 503 of this Act, the unexpended balances of prior appropriations provided for activities in this Act may be transferred to appropriation accounts for such activities established pursuant to this Act, may be merged with funds in the applicable established accounts, and thereafter may be accounted for as one fund for the same time period as originally enacted.

SEC. 503. (a) None of the funds provided by this Act, provided by previous appropriations Acts to the components in or transferred to the Department of Homeland Security that remain available for obligation or expenditure in fiscal year 2023, or provided from any accounts in the Treasury of the United States derived by the collection of fees available to the components funded by this Act, shall be available for obligation or expenditure through a reprogramming of funds that—

(1) creates or eliminates a program, project, or activity, or increases funds for any program, project, or activity for which funds have been denied or restricted by the Congress;

(2) contracts out any function or activity presently performed by Federal employees or any new function or activity proposed to be performed by Federal employees in the President's budget proposal for fiscal year 2023 for the Department of Homeland Security;

(3) augments funding for existing programs, projects, or activities in excess of \$5,000,000 or 10 percent, whichever is less;

(4) reduces funding for any program, project, or activity, or numbers of personnel, by 10 percent or more; or

(5) results from any general savings from a reduction in personnel that would result in a change in funding levels for programs, projects, or activities as approved by the Congress.

(b) Subsection (a) shall not apply if the Committees on Appropriations of the Senate and the House of Representatives are notified at least 15 days in advance of such reprogramming.

(c) Up to 5 percent of any appropriation made available for the current fiscal year for the Department of Homeland Security by this Act or provided by previous appropriations Acts may be transferred between such appropriations if the Committees on Appropriations of the Senate and the House of Representatives are notified at least 30 days in advance of such transfer, but no such appropriation, except as otherwise specifically provided, shall be increased by more than 10 percent by such transfer.

(d) Notwithstanding subsections (a), (b), and (c), no funds shall be reprogrammed within or transferred between appropriations based upon an initial notification provided after June 30, except in extraordinary circumstances that imminently threaten the safety of human life or the protection of property.

(e) The notification thresholds and procedures set forth in subsections (a), (b), (c), and (d) shall apply to any use of deobligated balances of funds provided in previous Department of Homeland Security Appropriations Acts that remain available for obligation in the current year.

(f) Notwithstanding subsection (c), the Secretary of Homeland Security may transfer to the fund established by 8 U.S.C. 1101 note, up to \$20,000,000 from

appropriations available to the Department of Homeland Security: Provided, That the Secretary shall notify the Committees on Appropriations of the Senate and the House of Representatives at least 5 days in advance of such transfer.

SEC. 504. Section 504 of the Department of Homeland Security Appropriations Act, 2017 (division F of Public Law 115–31), related to the operations of a working capital fund, shall apply with respect to funds made available in this Act in the same manner as such section applied to funds made available in that Act: Provided, That funds from such working capital fund may be obligated and expended in anticipation of reimbursements from components of the Department of Homeland Security.

SEC. 505. Except as otherwise specifically provided by law, not to exceed 50 percent of unobligated balances remaining available at the end of fiscal year 2023, as recorded in the financial records at the time of a reprogramming notification, but not later than June 30, 2024, from appropriations for "Operations and Support" for fiscal year 2023 in this Act shall remain available through September 30, 2024, in the account and for the purposes for which the appropriations were provided: Provided, That prior to the obligation of such funds, a notification shall be submitted to the Committees on Appropriations of the Senate and the House of Representatives in accordance with section 503 of this Act.

SEC. 506. Funds made available by this Act for intelligence activities are deemed to be specifically authorized by the Congress for purposes of section 504 of the National Security Act of 1947 (50 U.S.C. 414) during fiscal year 2023 until the enactment of an Act authorizing intelligence activities for fiscal year 2023.

SEC. 507. (a) The Secretary of Homeland Security, or the designee of the Secretary, shall notify the Committees on Appropriations of the Senate and the House of Representatives at least 3 full business days in advance of—

(1) making or awarding a grant allocation or grant in excess of \$1,000,000;

(2) making or awarding a contract, other transaction agreement, or task or delivery order on a Department of Homeland Security multiple award contract, or to issue a letter of intent totaling in excess of \$4,000,000;

(3) awarding a task or delivery order requiring an obligation of funds in an amount greater than \$10,000,000 from multi-year Department of Homeland Security funds;

(4) making a sole-source grant award; or

(5) announcing publicly the intention to make or award items under paragraph (1), (2), (3), or (4), including a contract covered by the Federal Acquisition Regulation.

(b) If the Secretary of Homeland Security determines that compliance with this section would pose a substantial risk to human life, health, or safety, an award may be made without notification, and the Secretary shall notify the Committees on Appropriations of the Senate and the House of Representatives not later than 5 full business days after such an award is made or letter issued.

(c) A notification under this section—

(1) may not involve funds that are not available for obligation; and

(2) shall include the amount of the award; the fiscal year for which the funds for the award were appropriated; the type of contract; and the account from which the funds are being drawn.

SEC. 508. Notwithstanding any other provision of law, no agency shall purchase, construct, or lease any additional facilities, except within or contiguous to existing locations, to be used for the purpose of conducting Federal law enforcement training without advance notification to the Committees on Appropriations of the Senate and the House of Representatives, except that the Federal Law Enforcement Training Centers is authorized to obtain the temporary use of additional facilities by lease, contract, or other agreement for training that cannot be accommodated in existing Centers' facilities.

SEC. 509. None of the funds appropriated or otherwise made available by this Act may be used for expenses for any construction, repair, alteration, or acquisition project for which a prospectus otherwise required under chapter 33 of title 40, United States Code, has not been approved, except that necessary funds may be expended for each project for required expenses for the development of a proposed prospectus.

SEC. 510. Sections 520, 522, and 530 of the Department of Homeland Security Appropriations Act, 2008 (division E of Public Law 110–161; 121 Stat. 2073 and 2074) shall apply with respect to funds made available in this Act in the same manner as such sections applied to funds made available in that Act.

SEC. 511. None of the funds made available in this Act may be used in contravention of the applicable provisions of the Buy American Act: Provided, That for purposes of the preceding sentence, the term "Buy American Act" means chapter 83 of title 41, United States Code.

SEC. 512. None of the funds made available in this Act may be used to amend the oath of allegiance required by section 337 of the Immigration and Nationality Act (8 U.S.C. 1448).

SEC. 513.

(a) None of the funds provided or otherwise made available in this Act shall be available to carry out section 872 of the Homeland Security Act of 2002 (6 U.S.C. 452) unless explicitly authorized by the Congress.

(b) Subsection (a) shall not apply to—

(1) the use of such section 872 to establish an office within the Office of the Secretary that shall, for departmental workforce health and safety, medical, and public health functions and activities—

- (A) develop departmental policies;
- (B) establish standards;
- (C) provide technical assistance and operational support;
- (D) conduct oversight; and
- (E) serve as the primary liaison and coordinator; and

(2) the reallocation to an office established under paragraph (1) of

(A) the position and responsibilities of the Chief Medical Officer and related personnel from the Countering Weapons of Mass Destruction Office;

(B) the personnel, functions, and responsibilities related to departmental workforce health and medical activities from the Under Secretary for Management as authorized in section 710 of the Homeland Security Act, and related safety activities; and

(C) the responsibility of carrying out the program authorized by section 528 of the Homeland Security Act and related personnel.

(c) The Secretary of Homeland Security may transfer funds made available in this Act under the headings "Management Directorate" and "Countering Weapons of Mass Destruction Office" consistent with the establishment of the office and the reallocations of functions, positions, and responsibilities described in subsection (b).

(d) The Secretary shall submit a notification to the Committees on Appropriations of the Senate and the House of Representatives, the Committee on Homeland Security of the House of Representatives, and the Homeland Security and Governmental Affairs Committee of the Senate at least 15 days prior to the establishment of the office described in subsection (b).

(e) The functions of the office described in subsection (b) shall not include chemical, biological, radiological, and nuclear programs of the Countering Weapons of Mass Destruction Office and the transfer of funds described in subsection (c) shall not include funding appropriated for such programs.

SEC. 514. None of the funds made available in this Act may be used for planning, testing, piloting, or developing a national identification card.

SEC. 515. None of the funds made available in this Act may be used for first-class travel by the employees of agencies funded by this Act in contravention of sections 301–10.122 through 301–10.124 of title 41, Code of Federal Regulations.

SEC. 516. None of the funds made available in this Act may be used to employ workers described in section 274A(h)(3) of the Immigration and Nationality Act (8 U.S.C. 1324a(h)(3)).

SEC. 517. Notwithstanding any other provision of this Act, none of the funds appropriated or otherwise made available by this Act may be used to pay award or incentive fees for contractor performance that has been judged to be below satisfactory performance or performance that does not meet the basic requirements of a contract.

SEC. 518. None of the funds appropriated or otherwise made available by this Act may be used by the Department of Homeland Security to enter into any Federal contract unless such contract is entered into in accordance with the requirements of subtitle I of title 41, United States Code, or chapter 137 of title 10, United States Code, and the Federal Acquisition Regulation, unless such contract is otherwise authorized by statute to be entered into without regard to the above referenced statutes.

SEC. 519. (a) None of the funds made available in this Act may be used to maintain or establish a computer network unless such network blocks the viewing, downloading, and exchanging of pornography.

(b) Nothing in subsection (a) shall limit the use of funds necessary for any Federal, State, tribal, or local law enforcement agency or any other entity carrying out criminal investigations, prosecution, or adjudication activities.

SEC. 520. None of the funds made available in this Act may be used by a Federal law enforcement officer to facilitate the transfer of an operable firearm to an individual if the Federal law enforcement officer knows or suspects that the individual is an agent of a drug cartel unless law enforcement personnel of the United States continuously monitor or control the firearm at all times.

SEC. 521. None of the funds made available in this Act may be used to pay for the travel to or attendance of more than 50 employees of a single component of the Department of Homeland Security, who are stationed in the United States, at a single international conference unless the Secretary of Homeland Security, or a designee, determines that such attendance is in the national interest and notifies the Committees on Appropriations of the Senate and the House of Representatives within at least

10 days of that determination and the basis for that determination: Provided, That for purposes of this section the term "international conference" shall mean a conference occurring outside of the United States attended by representatives of the United States Government and of foreign governments, international organizations, or nongovernmental organizations: Provided further, That the total cost to the Department of Homeland Security of any such conference shall not exceed \$500,000: Provided further, That employees who attend a conference virtually without travel away from their permanent duty station within the United States shall not be counted for purposes of this section, and the prohibition contained in this section shall not apply to payments for the costs of attendance for such employees.

SEC. 522. None of the funds made available in this Act may be used to reimburse any Federal department or agency for its participation in a National Special Security Event.

SEC. 523. None of the funds made available to the Department of Homeland Security by this or any other Act may be obligated for any structural pay reform that affects more than 100 full-time positions or costs more than \$5,000,000 in a single year unless it has been explicitly justified to the Congress in budget justification materials and subsequently enacted by Congress, or if not so justified and enacted, before the end of the 30-day period beginning on the date on which the Secretary of Homeland Security submits to Congress a notification that includes—

- (1) the number of full-time positions affected by such change;
- (2) funding required for such change for the current year and through the Future Years Homeland Security Program;
- (3) justification for such change; and
- (4) an analysis of compensation alternatives to such change that were considered by the Department.

SEC. 524. (a) Any agency receiving funds made available in this Act shall, subject to subsections (b) and (c), post on the public website of that agency any report required to be submitted by the Committees on Appropriations of the Senate and the House of Representatives in this Act, upon the determination by the head of the agency that it shall serve the national interest.

(b) Subsection (a) shall not apply to a report if—

- (1) the public posting of the report compromises homeland or national security; or
- (2) the report contains proprietary information.

(c) The head of the agency posting such report shall do so only after such report has been made available to the Committees on Appropriations of the Senate and the House of Representatives for not less than 45 days except as otherwise specified in law.

SEC. 525. (a) Funding provided in this Act for "Operations and Support" may be used for minor procurement, construction, and improvements.

(b) For purposes of subsection (a), "minor" refers to end items with a unit cost of \$250,000 or less for personal property, and \$2,000,000 or less for real property.

SEC. 526. None of the funds made available by this Act may be obligated or expended to implement the Arms Trade Treaty until the Senate approves a resolution of ratification for the Treaty.

SEC. 527. The authority provided by section 532 of the Department of Homeland Security Appropriations Act, 2018 (Public Law 115–141) regarding primary and secondary schooling of dependents shall continue in effect during fiscal year 2023.

SEC. 528. (a) Section 831 of the Homeland Security Act of 2002 (6 U.S.C. 391) shall be applied—

- (1) In subsection (a), by substituting "September 30, 2023," for "September 30, 2017,"; and
- (2) In subsection (c)(1), by substituting "September 30, 2023," for "September 30, 2017".

(b) The Secretary of Homeland Security, under the authority of section 831 of the Homeland Security Act of 2002 (6 U.S.C. 391(a)), may carry out prototype projects under sections 4002 and 4003 of title 10, United States Code, and the Secretary shall perform the functions of the Secretary of Defense as prescribed.

(c) The Secretary of Homeland Security under section 831 of the Homeland Security Act of 2002 (6 U.S.C. 391(d)) may use the definition of nontraditional government contractor as defined in section 4003(e) of title 10, United States Code.

SEC. 529. (a) None of the funds appropriated or otherwise made available to the Department of Homeland Security by this Act may be used to prevent any of the following persons from entering, for the purpose of conducting oversight, any facility operated by or for the Department of Homeland Security used to detain or otherwise house aliens, or to make any temporary modification at any such facility that in any way alters what is observed by a visiting member of Congress or such designated employee, compared to what would be observed in the absence of such modification:

- (1) A Member of Congress.
- (2) An employee of the United States House of Representatives or the United States Senate designated by such a Member for the purposes of this section.

(b) Nothing in this section may be construed to require a Member of Congress to provide prior notice of the intent to enter a facility described in subsection (a) for the purpose of conducting oversight.

(c) With respect to individuals described in subsection (a)(2), the Department of Homeland Security may require that a request be made at least 24 hours in advance of an intent to enter a facility described in subsection (a).

SEC. 530. (a) Except as provided in subsection (b), none of the funds made available in this Act may be used to place restraints on a woman in the custody of the Department of Homeland Security (including during transport, in a detention facility, or at an outside medical facility) who is pregnant or in post-delivery recuperation.

(b) Subsection (a) shall not apply with respect to a pregnant woman if—

(1) an appropriate official of the Department of Homeland Security makes an individualized determination that the woman—

(A) is a serious flight risk, and such risk cannot be prevented by other means; or

(B) poses an immediate and serious threat to harm herself or others that cannot be prevented by other means; or

(2) a medical professional responsible for the care of the pregnant woman determines that the use of therapeutic restraints is appropriate for the medical safety of the woman.

(c) If a pregnant woman is restrained pursuant to subsection (b), only the safest and least restrictive restraints, as determined by the appropriate medical professional treating the woman, may be used. In no case may restraints be used on a woman who is in active labor or delivery, and in no case may a pregnant woman be restrained in a face-down position with four-point restraints, on her back, or in a restraint belt that constricts the area of the pregnancy. A pregnant woman who is immobilized by restraints shall be positioned, to the maximum extent feasible, on her left side.

SEC. 531. (a) None of the funds made available by this Act may be used to destroy any document, recording, or other record pertaining to any—

(1) death of,

(2) potential sexual assault or abuse perpetrated against, or

(3) allegation of abuse, criminal activity, or disruption committed by an individual held in the custody of the Department of Homeland Security.

(b) The records referred to in subsection (a) shall be made available, in accordance with applicable laws and regulations, and Federal rules governing disclosure in litigation, to an individual who has been charged with a crime, been placed into segregation, or otherwise punished as a result of an allegation described in paragraph (3), upon the request of such individual.

SEC. 532. Section 519 of division F of Public Law 114–113, regarding a prohibition on funding for any position designated as a Principal Federal Official, shall apply with respect to any Federal funds in the same manner as such section applied to funds made available in that Act.

SEC. 533. The personnel, supplies, or equipment of any component of the Department of Homeland Security may be deployed to support activities of the Department of Homeland Security related to a significant rise in undocumented migrants at the

southwest border and related activities, and for the enforcement of immigration and customs laws, detention and removals of undocumented migrants crossing the border unlawfully, and investigations without reimbursement as jointly agreed by the detaining components.

SEC. 534. Notwithstanding section 503 of this Act, up to 5 percent of any appropriation made available for the current fiscal year for the Department of Homeland Security by this Act may be transferred to the Department's "Information Technology Modernization Fund", as authorized by section 1077(b)(1) of title X of division A of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91): Provided, That amounts transferred pursuant to this section shall remain available through the end of the third fiscal year after the fiscal year in which the transfer is made: Provided further, That the Committees on Appropriations of the Senate and the House of Representatives shall be notified at least three days in advance of any transfer made pursuant to this section.

SEC. 535. Section 1901(e) of the Homeland Security Act of 2002 (6 U.S.C. 591(e)) is repealed.

GENERAL PROVISION—THIS TITLE

【SEC. 1601. (a) Repayments of the remaining balances of all loans, as of September 30, 2021, by the Federal Emergency Management Agency under section 417 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5184) are hereby cancelled.

(b) Of the unobligated balances available to the Department of Homeland Security for "Federal Emergency Management Agency—Disaster Relief Fund", such sums as are necessary may be transferred to the Disaster Assistance Direct Loan Program Account for carrying out subsection (a).

(c) Each amount repurposed or transferred by this section that was previously designated by the Congress as an emergency requirement or as being for disaster relief pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985 or a concurrent resolution on the budget is designated by the Congress as an emergency requirement pursuant to section 4001(a)(1) and section 4001(b), or as being for disaster relief pursuant to section 4004(b)(6) and section 4005(f), respectively, of S. Con. Res. 14 (117th Congress), the concurrent resolution on the budget for fiscal year 2022.】

(Disaster Relief Supplemental Appropriations Act, 2022.)

GENERAL PROVISION—THIS TITLE

【SEC. 501. One-quarter of one percent of the amounts made available under each heading in this title in this Act in each of fiscal years 2022 through 2026 shall be transferred to the Office of the Inspector General of the Department of the Homeland Security for oversight of funding provided to the Department of Homeland Security in this title in this Act.】 (Infrastructure Investments and Jobs Appropriations Act.)

TENANT-BASED RENTAL ASSISTANCE

For activities and assistance for the provision of tenant-based rental assistance authorized under the United States Housing Act of 1937, as amended (42 U.S.C. 1437 et seq.) (in this title "the Act"), not otherwise provided for, \$28,130,000,000, to remain available until expended, which shall be available on October 1, 2022 (in addition to the \$4,000,000,000 previously appropriated under this heading that shall be available on October 1, 2022), and \$4,000,000,000, to remain available until expended, which shall be available on October 1, 2023: Provided, That the amounts made available under this heading are provided as follows:

(1) \$26,234,000,000 shall be available for renewals of expiring section 8 tenant-based annual contributions contracts (including renewals of enhanced vouchers under any provision of law authorizing such assistance under section 8(t) of the Act) and including renewal of other special purpose incremental vouchers: Provided, That notwithstanding any other provision of law, from amounts provided under this paragraph and any carryover, the Secretary for the calendar year 2023 funding cycle shall provide renewal funding for each public housing agency based on validated voucher management system (VMS) leasing and cost data for the prior calendar year and by applying an inflation factor as established by the Secretary, by notice published in the Federal Register, and by making any necessary adjustments for the costs associated with the first-time renewal of vouchers under this paragraph including tenant protection and Choice Neighborhoods vouchers: Provided further, That costs associated with any forgone increases in tenant rent payments due to the implementation of rent incentives as authorized pursuant to waivers or alternative requirements of the Jobs-Plus initiative as described under the heading "Self-Sufficiency Programs" shall be renewed: Provided further, That the Secretary shall, to the extent necessary to stay within the amount specified under this paragraph (except as otherwise modified under this paragraph), prorate each public housing agency's allocation otherwise established pursuant to this paragraph: Provided further, That except as provided in the following provisos, the entire amount specified under this paragraph (except as otherwise modified under this paragraph) shall be obligated to the public housing agencies based on the allocation and pro rata method described above: Provided further, That the Secretary may extend the notification period with the prior written notification to the House and Senate Committees on Appropriations: Provided further, That public housing agencies participating in the MTW demonstration shall be funded in accordance with the requirements of the MTW demonstration program or their MTW agreements, if any, and shall be subject to the same pro rata adjustments under the previous provisos: Provided further, That the Secretary may offset public housing agencies' calendar year 2023 allocations based on the excess amounts of public housing agencies' net restricted assets accounts, including HUD-held programmatic reserves (in accordance with VMS data in calendar year 2022 that is verifiable and complete), as determined by the Secretary: Provided further, That public housing agencies participating in the MTW demonstration shall also be subject to the offset, as determined by the Secretary, from the agencies' calendar year 2023 MTW funding allocation: Provided further, That the Secretary shall use any offset referred to in the previous two provisos throughout the calendar year to prevent the termination of rental assistance for families as the result of insufficient funding, as determined by the Secretary, to avoid or reduce the proration of renewal funding allocations, and to enable public housing agencies operating their existing housing choice voucher programs with high utilization rates and a demonstrated capacity to serve additional families, as determined by the Secretary, to assist more families: Provided further, That the Secretary may also reallocate authorized units from public housing agencies with a history of significant under-leasing and utilization to public housing agencies that meet the requirements of the previous proviso to receive funds to assist more families and that have under lease all, or nearly all, of their authorized units: Provided further, That such reallocations shall be made in accordance with terms and conditions established by the Secretary by notice: Provided further, That the Secretary may utilize unobligated balances, including recaptures and carryover, remaining from prior year appropriations (excluding special purpose vouchers), notwithstanding the purposes for which such amounts were appropriated, to avoid or reduce the proration of renewal funding allocations: Provided further, That up to \$100,000,000 shall be available only: (1) for adjustments in the allocations for public housing agencies, after application for an adjustment by a public housing agency that experienced a significant increase, as determined by the Secretary, in renewal costs of vouchers resulting from unforeseen circumstances or from portability under section 8(r) of the Act; (2) for vouchers that were not in use

during the previous 12-month period in order to be available to meet a commitment pursuant to section 8(o)(13) of the Act, or an adjustment for a funding obligation not yet expended in the previous calendar year for a MTW-eligible activity to develop affordable housing for an agency added to the MTW demonstration under the expansion authority provided in section 239 of the Transportation, Housing and Urban Development, and Related Agencies Appropriations Act, 2016 (division L of Public Law 114–113); (3) for adjustments for costs associated with HUD-Veterans Affairs Supportive Housing (HUD-VASH) vouchers; (4) for public housing agencies that despite taking reasonable cost savings measures, as determined by the Secretary, would otherwise be required to terminate rental assistance for families as a result of insufficient funding; (5) for adjustments for withheld payments for months in the previous calendar year that were subsequently paid by the public housing agency after the agency's actual costs were validated; and (6) for public housing agencies that have experienced increased costs or loss of units in an area for which the President declared a disaster under title IV of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5170 et seq.): Provided further, That the Secretary shall allocate amounts under the previous proviso based on need, as determined by the Secretary: Provided further, That of the total amount provided under this paragraph, up to \$50,000,000 shall be available to supplement funds transferred from the heading "Public Housing Fund" to fund contracts for properties converting from assistance under Section 9 of the United States Housing Act of 1937 (42 U.S.C. 1437g) under the heading "Rental Assistance Demonstration" in title II of the Transportation, Housing and Urban Development, and Related Agencies Appropriations Act, 2012 (division C of Public Law 112–55) to further long-term financial stability and promote the energy or water efficiency, climate resilience, or preservation of such properties; Provided further, That the amounts under the previous proviso may also be available, without additional competition, for cooperative agreements with Participating Administrative Entities that have been previously or newly selected under section 513(b) of the Multifamily Assisted Housing Reform and Affordability Act of 1997 (42 U.S.C. 1437f note) to provide direct support, including carrying out due diligence and underwriting functions for owners and for technical assistance activities, on conditions established by the Secretary for small properties and owners entering into any conversion contract under the First Component;

(2) \$220,000,000 shall be for section 8 rental assistance for relocation and replacement of housing units that are demolished or disposed of pursuant to section 18 of the Act, conversion of section 23 projects to assistance under section 8, the family unification program under section 8(x) of the Act, relocation of witnesses (including victims of violent crimes) in connection with efforts to combat crime in public and assisted housing pursuant to a request from a law enforcement or prosecution agency, enhanced vouchers under any provision of law authorizing such assistance under section 8(t) of the Act, Choice Neighborhood vouchers, mandatory and voluntary conversions, and tenant protection assistance including replacement and relocation assistance or for project-based assistance to prevent the displacement of unassisted elderly tenants currently residing in section 202 properties financed between 1959 and 1974 that are refinanced pursuant to Public Law 106–569, as amended, or under the authority as provided under this Act: Provided, That up to \$20,000,000 of the amounts made available under this paragraph may be to provide replacement tenant protection assistance to low-income tenants assisted under section 521 of title V of the Housing Act of 1949 (42 U.S.C. 1471 et seq.), upon the determination and referral by the Secretary of the Department of Agriculture that section 521 assistance is no longer available to protect such tenants due to maturity, prepayment, or foreclosure of loans under section 514 or section 515 of such Act (42 U.S.C. 1484 and 1485): Provided further, That when a public housing development is submitted for demolition or disposition under section 18 of the Act, the Secretary may provide section 8 rental assistance when the units pose an imminent health and safety risk to residents: Provided further, That the Secretary may provide section 8 rental assistance from amounts made available under this paragraph for units assisted under a project-based subsidy contract funded under the "Project-Based Rental Assistance" heading under this title where the owner has received a Notice of Default and the units pose an imminent health and safety risk to residents: Provided further, That to the extent that the Secretary determines that such units are not feasible for continued rental assistance payments or transfer of the subsidy contract associated with such units to another project or projects and owner or owners, any remaining amounts associated with such units under such contract shall be recaptured and such recaptured amounts, in an amount equal to the cost of rental assistance provided pursuant to the previous proviso, up to the total amounts recaptured, shall be transferred to and merged with amounts under this paragraph: Provided further, That of the amounts made available under this paragraph, no less than

TENANT-BASED RENTAL ASSISTANCE—Continued

\$5,000,000 may be available to provide tenant protection assistance, not otherwise provided under this paragraph, to residents residing in low vacancy areas and who may have to pay rents greater than 30 percent of household income, as the result of: (A) the maturity of a HUD-insured, HUD-held or section 202 loan that requires the permission of the Secretary prior to loan prepayment; (B) the expiration of a rental assistance contract for which the tenants are not eligible for enhanced voucher or tenant protection assistance under existing law; or (C) the expiration of affordability restrictions accompanying a mortgage or preservation program administered by the Secretary: Provided further, That such tenant protection assistance made available under the previous proviso may be provided under the authority of section 8(i) or section 8(o)(13) of the Act: Provided further, That any tenant protection voucher made available from amounts under this paragraph shall not be reissued by any public housing agency, except the replacement vouchers as defined by the Secretary by notice, when the initial family that received any such voucher no longer receives such voucher, and the authority for any public housing agency to issue any such voucher shall cease to exist: Provided further, That the Secretary may only provide replacement vouchers for units that were occupied within the previous 24 months that cease to be available as assisted housing, subject only to the availability of funds;

(3) \$3,014,000,000 shall be for administrative and other expenses of public housing agencies in administering the section 8 tenant-based rental assistance program, of which up to \$10,000,000 shall be available to the Secretary to allocate to public housing agencies that need additional funds to administer their section 8 programs, including fees associated with section 8 tenant protection rental assistance, the administration of disaster related vouchers, HUD-VASH vouchers, and other special purpose incremental vouchers: Provided, That no less than \$3,004,000,000 of the amount provided in this paragraph shall be allocated to public housing agencies for the calendar year 2023 funding cycle based on section 8(q) of the Act (and related Appropriation Act provisions) as in effect immediately before the enactment of the Quality Housing and Work Responsibility Act of 1998 (Public Law 105–276): Provided further, That if the amounts made available under this paragraph are insufficient to pay the amounts determined under the previous proviso, the Secretary may decrease the amounts allocated to agencies by a uniform percentage applicable to all agencies receiving funding under this paragraph or may, to the extent necessary to provide full payment of amounts determined under the previous proviso, utilize unobligated balances, including recaptures and carryover, remaining from funds appropriated to the Department of Housing and Urban Development under this heading from prior fiscal years, excluding special purpose vouchers, notwithstanding the purposes for which such amounts were appropriated: Provided further, That all public housing agencies participating in the MTW demonstration shall be funded in accordance with the requirements of the MTW demonstration program or their MTW agreements, if any, and shall be subject to the same uniform percentage decrease as under the previous proviso: Provided further, That amounts provided under this paragraph shall be only for activities related to the provision of tenant-based rental assistance authorized under section 8, including related development activities;

(4) \$667,000,000 for the renewal of tenant-based assistance contracts under section 811 of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 8013), including necessary administrative expenses: Provided, That up to \$10,000,000 shall be available only (1) for adjustments in the allocation for public housing agencies, after applications for an adjustment by a public housing agency that experienced a significant increase, as determined by the Secretary, in Mainstream renewal costs resulting from unforeseen circumstances, and (2) for public housing agencies that despite taking reasonable cost saving measures, as determined by the Secretary, would otherwise be required to terminate the rental assistance for Mainstream families as a result of insufficient funding: Provided further, That the Secretary shall allocate amounts under the previous proviso based on need, as determined by the Secretary: Provided further, That upon turnover, section 811 special purpose vouchers funded under this heading in this or prior Acts, or under any other heading in prior Acts, shall be provided to non-elderly persons with disabilities;

(5) Of the amounts provided under paragraph (1) up to \$5,000,000 shall be for rental assistance and associated administrative fees for Tribal HUD-VASH to serve Native American veterans that are homeless or at-risk of homelessness living on or near a reservation or other Indian areas: Provided, That such amount shall be made available for renewal grants to recipients that received assistance under prior Acts under the Tribal HUD-VASH program: Provided further, That the Secretary shall be authorized to specify criteria for renewal grants, including data on the utilization of assistance reported by grant recipients: Provided further, That such assistance shall be administered in accordance with program requirements under the Native American Housing Assistance and Self-Determination Act

of 1996 and modeled after the HUD-VASH program: Provided further, That the Secretary shall be authorized to waive, or specify alternative requirements for any provision of any statute or regulation that the Secretary administers in connection with the use of funds made available under this paragraph (except for requirements related to fair housing, nondiscrimination, labor standards, and the environment), upon a finding by the Secretary that any such waivers or alternative requirements are necessary for the effective delivery and administration of such assistance: Provided further, That grant recipients shall report to the Secretary on utilization of such rental assistance and other program data, as prescribed by the Secretary: Provided further, That the Secretary may reallocate, as determined by the Secretary, amounts returned or recaptured from awards under the Tribal HUD-VASH program under prior Acts to existing recipients under the Tribal HUD-VASH program;

(6) \$1,550,000,000 shall be made available for new incremental voucher assistance under section 8(o) of the Act, to be allocated pursuant to a method, as determined by the Secretary, which may include a formula that may include such factors as severe cost burden, overcrowding, substandard housing for very low-income renters, homelessness, and administrative capacity, where such allocation method shall include both rural and urban areas: Provided, That the Secretary may specify additional terms and conditions to ensure that public housing agencies provide vouchers for use by survivors of domestic violence, dating violence, sexual assault, stalking, or human trafficking, or individuals and families who are homeless, as defined in section 103(a) of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11302(a)), or at risk of homelessness, as defined in section 401(1) of such Act (42 U.S.C. 11360(1));

(7) \$445,000,000 shall be for mobility-related services, as defined by the Secretary, for voucher families with children modeled after services provided in connection with the mobility demonstration authorized under section 235 of division G of the Consolidated Appropriations Act, 2019 (42 U.S.C. 1437f note; Public Law 116–6): Provided, That the Secretary shall make funding available to public housing agencies on a competitive basis and shall give preference to public housing agencies with higher concentrations of voucher families with children residing in high-poverty neighborhoods: Provided further, That the Secretary may recapture from the public housing agencies unused balances based on utilization of such awards and reallocate such amounts to any other public housing agency or agencies based on need for such mobility-related services as identified under such competition; and

(8) the Secretary shall separately track all special purpose vouchers funded under this heading: Provided, That the Secretary may waive, or specify alternative requirements for, any provision of any statute or regulation that the Secretary administers in connection with the use of funds made available for new incremental voucher assistance or renewals for the Mainstream program, the HUD-VASH program (in consultation with the Secretary of the Department of Veterans Affairs), and the family unification program (including the Foster Youth to Independence program) in this and prior Acts (except for requirements related to fair housing, nondiscrimination, labor standards, and the environment), upon a finding by the Secretary that any such waivers or alternative requirements are necessary for the effective delivery and administration of voucher assistance in such respective programs.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

The Budget provides \$32.1 billion for the Tenant-Based Rental Assistance (TBRA) program (also known as the Housing Choice Voucher program), which is the Federal Government's largest income-targeted rental assistance program. The program currently provides housing assistance to around 2.3 million extremely low- to very low-income families to rent decent, safe, and sanitary housing in the private market. About 2,100 state and local Public Housing Authorities (PHAs) administer the Housing Choice Voucher program.

The Budget provides \$26.2 billion in contract renewals to continue to assist families in calendar year 2023. This includes \$50 million for the Rental Assistance Demonstration to further long-term financial stability and promote the energy or water efficiency, climate resilience, or preservation of properties that convert to Project-Based Vouchers.

The Budget includes \$667 million for the renewal of Section 811 mainstream housing vouchers for persons with disabilities, including the first-time renewal of new mainstream vouchers allocated in 2022, and associated administrative fees, as well as a new set-aside to provide adjustments to PHAs as a result of significant increases in mainstream renewal costs resulting from unforeseen circumstances and to prevent the termination of assistance for mainstream families should there be insufficient funding.

The Budget also requests the following: \$3.0 billion in PHA administrative fees to support core functions such as admitting households, conducting housing quality inspections, and completing tenant income certifications; \$220 million for tenant protection vouchers, which are provided to families who may have to relocate due to actions beyond their control, such as a public housing demolition or redevelopment, and when private owners of multi-family developments choose to leave the project-based program or convert to long-term Section 8 contracts, including up to \$20 million that may be used to assist low-income tenants referred by the Secretary of the Department of Agriculture (USDA) when section 521 assistance is no longer available to protect tenants due to the maturity, prepayment, or foreclosure of a section 514 or 515 loan, as part of the Budget's proposal to decouple USDA section 521 rental assistance from section 514 or 515 mortgage loans; and up to \$5 million for the renewal of vouchers by Tribes under the Tribal Housing and Department of Housing and Urban Development and Department of Veterans Affairs Supportive Housing program, to serve Native American veterans who are homeless or at risk of homelessness and living in and around designated tribal areas.

In addition, the Budget includes \$1.6 billion for new incremental vouchers for 200,000 additional households, including those who are experiencing or at risk of homelessness or fleeing or attempting to flee domestic violence, dating violence, sexual assault, stalking, or human trafficking. The Budget also includes \$445 million for Mobility Services, which will provide funding for services to better enable families with children to move to areas of higher opportunity.

HOUSING CERTIFICATE FUND

(INCLUDING CANCELLATIONS)

Unobligated balances, including recaptures and carryover, remaining from funds appropriated to the Department of Housing and Urban Development under this heading, the heading "Annual Contributions for Assisted Housing" and the heading "Project-Based Rental Assistance", for fiscal year 2023 and prior years may be used for renewal of or amendments to section 8 project-based contracts and for performance-based contract administrators, notwithstanding the purposes for which such funds were appropriated: Provided, That any obligated balances of contract authority from fiscal year 1974 and prior fiscal years that have been terminated are hereby permanently cancelled: Provided further, That amounts heretofore recaptured, or recaptured during the current fiscal year, from section 8 project-based contracts from source years fiscal year 1975 through fiscal year 1987 are hereby permanently cancelled, and an amount of additional new budget authority, equivalent to the amount permanently cancelled is hereby appropriated, to remain available until expended, for the purposes set forth under this heading, in addition to amounts otherwise available.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). Until 2005, the Housing Certificate Fund provided funding to both the project-based and tenant-based components of the Section 8 program. Project-Based Rental Assistance (PBRA) and Tenant-Based Rental Assistance are now funded in separate accounts. The Housing Certificate Fund retains and recovers balances from the previous years' appropriations and uses those balances to support PBRA contract renewals, amendments, and administration.

PUBLIC HOUSING FUND

For 2023 payments to public housing agencies for the operation and management of public housing, as authorized by section 9(e) of the United States Housing Act of 1937 (42 U.S.C. 1437g(e)) (the "Act"), and to carry out capital and management activities for public housing agencies, as authorized under section 9(d) of the Act (42 U.S.C. 1437g(d)), \$8,780,000,000, to remain available until September 30, 2026: Provided, That the amounts made available under this heading are provided as follows:

(1) \$5,035,000,000 shall be available to the Secretary to allocate pursuant to the Operating Fund formula at part 990 of title 24, Code of Federal Regulations, for 2023 payments: Provided, That the amount of any forgone increases in tenant rent payments due to the implementation of rent incentives as authorized pursuant to waivers or alternative requirements of the Jobs-Plus initiative as described under the heading "Self-Sufficiency Programs" shall be factored into the PHA's general operating fund eligibility pursuant to such formula;

(2) \$25,000,000 shall be available to the Secretary to allocate pursuant to a need-based application process notwithstanding section 203 of this title and not subject to such Operating Fund formula to public housing agencies that experience, or are at risk of, financial shortfalls, as determined by the Secretary: Provided, That after all such shortfall needs are met, the Secretary may distribute any remaining funds to all public housing agencies on a pro-rata basis pursuant to such Operating Fund formula;

(3) \$3,200,000,000 shall be available to the Secretary to allocate pursuant to the Capital Fund formula at section 905.400 of title 24, Code of Federal Regulations: Provided, That from the funds made available under this paragraph, the Secretary shall provide bonus awards in fiscal year 2023 to public housing agencies that are designated high performers;

(4) \$40,000,000 shall be available for the Secretary to make grants, notwithstanding section 203 of this title, to public housing agencies for emergency capital needs, including safety and security measures necessary to address crime and drug-related activity, as well as needs resulting from unforeseen or unpreventable emergencies and natural disasters excluding Presidentially declared emergencies and natural disasters under the Robert T. Stafford Disaster Relief and Emergency Act (42 U.S.C. 5121 et seq.) occurring in fiscal year 2023: Provided, That of the amount made available under this paragraph, not less than \$20,000,000 shall be for safety and security measures: Provided further, That in addition to the amount in the previous proviso for such safety and security measures, any amounts that remain available, after all applications received on or before September 30, 2024, for emergency capital needs have been processed, shall be allocated to public housing agencies for such safety and security measures;

(5) \$25,000,000 shall be for competitive grants to public housing agencies to evaluate and reduce lead-based paint hazards in public housing by carrying out the activities of risk assessments, abatement, and interim controls (as those terms are defined in section 1004 of the Residential Lead-Based Paint Hazard Reduction Act of 1992 (42 U.S.C. 4851b)): Provided, That for purposes of environmental review, a grant under this paragraph shall be considered funds for projects or activities under title I of the United States Housing Act of 1937 (42 U.S.C. 1437 et seq.) for purposes of section 26 of such Act (42 U.S.C. 1437x) and shall be subject to the regulations implementing such section;

(6) \$60,000,000 shall be available for competitive grants to public housing agencies to evaluate and reduce housing-related hazards including carbon monoxide, radon and mold in public housing: Provided, That for purposes of environmental review, grants under this paragraph shall be considered funds for projects or activities under title I of the United States Housing Act of 1937 (42 U.S.C. 1437 et seq.) for purposes of section 26 of such Act (42 U.S.C. 1437x) and shall be subject to the regulations implementing such section: Provided further, That amounts made available under this paragraph shall be combined with any amounts remaining from amounts made available under this paragraph for Healthy Homes Initiative grants in prior Acts and shall be used in accordance with the purposes and requirements under this paragraph;

(7) \$45,000,000 shall be to support the costs of administrative and judicial receiverships and for competitive grants to PHAs in receivership, designated troubled or substandard, or otherwise at risk, as determined by the Secretary, for costs associated with public housing asset improvement, in addition to other amounts for that purpose provided under any heading under this title;

(8) \$50,000,000 shall be to support ongoing public housing financial and physical assessment activities; and

(9) \$300,000,000 shall be available to improve the energy or water efficiency or climate resilience of public housing, including for competitive grants to public housing agencies for capital improvements to achieve such purposes: Provided, That for purposes of environmental review, grants under this paragraph shall be considered funds for projects or activities under title I of the United States Housing Act of 1937 (42 U.S.C. 1437 et seq.) for purposes of section 26 of such Act (42 U.S.C. 1437x) and shall be subject to the regulations implementing such section: Provided further, That of the amounts made available under this paragraph, up to \$24,000,000 shall be available for utility benchmarking, including research and evaluations, technical assistance, and contracts, of which up to \$9,000,000 may be transferred to and merged with amounts made available under the heading "Information Technology Fund" to develop systems and tools necessary to collect and analyze PHA utility benchmarking data;

Provided further, That notwithstanding any other provision of law or regulation, during fiscal year 2023, the Secretary of Housing and Urban Development may not delegate to any Department official other than the Deputy Secretary and the Assistant Secretary for Public and Indian Housing any authority under paragraph (2) of section 9(j) of the Act regarding the extension of the time periods under such section: Provided further, That for purposes of such section 9(j), the term "obligate" means, with respect to amounts, that the amounts are subject to a binding agreement that will result in outlays, immediately or in the future: Provided further, That a public housing agency may use operating reserve funds or any amounts allocated to such agency pursuant to the Operating or Capital Fund formulas from amounts made available in this and prior Acts for any eligible activities under sections 9(d)(1) and 9(e)(1) of the United States Housing Act of 1937 (42 U.S.C. 1437g(d)(1) and (e)(1)).

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The Budget provides \$8.78 billion for the Public Housing Fund to carry out capital and management activities in the Public Housing program. The budget allocates \$5 billion to Public Housing Agencies (PHAs) for the costs of operating public housing. The Budget includes \$25 million for need-based assistance to PHAs that are at risk of financial shortfalls. The Budget also allocates \$3.2 billion to PHAs for capital needs and modernization. The Budget includes \$40 million available to PHAs for emergency capital needs resulting from emergencies and natural disasters, which includes \$20 million for safety and security measures necessary to address crime and drug-related activity. The Budget includes \$25 million for competitive grants to PHAs to evaluate and reduce lead-based paint hazards in public housing. The Budget also includes \$60 million for competitive grants to public housing agencies to evaluate and reduce housing-based hazards including fire safety, carbon monoxide, radon, and mold. The Budget includes \$45 million to support the costs of administrative and judicial receiverships and for competitive grants to PHAs in receivership, designated troubled or substandard, or otherwise at risk, for costs associated with public housing asset improvement. The Budget also includes \$50 million for ongoing financial and physical assessment activities.

The Budget includes \$276 million for competitive grants for capital improvements to improve energy or water efficiency or climate resilience of public housing. The Budget also includes \$24 million for utility benchmarking, including contract support and technical assistance.

CHOICE NEIGHBORHOODS INITIATIVE

For competitive grants under the Choice Neighborhoods Initiative (subject to section 24 of the United States Housing Act of 1937 (42 U.S.C. 1437v) unless otherwise specified under this heading), for transformation, rehabilitation, and replacement housing needs of both public and HUD-assisted housing and to transform neighborhoods of poverty into functioning, sustainable mixed income neighborhoods with appropriate services, schools, public assets, transportation and access to jobs, \$250,000,000, to remain available until September 30, 2026: Provided, That grant funds may be used for resident and community services, community development, and affordable housing needs in the community, and for conversion of vacant or foreclosed properties to affordable housing: Provided further, That the use of funds made available under this heading shall not be deemed to be for public housing notwithstanding section 3(b)(1) of such Act: Provided further, That grantees shall commit to an additional period of affordability determined by the Secretary of not

fewer than 20 years: Provided further, That the Secretary may specify a period of affordability that is less than 20 years with respect to homeownership units developed with grants from amounts made available under this heading: Provided further, That grantees shall provide a match in State, local, other Federal or private funds: Provided further, That grantees may include local governments, Tribal entities, public housing agencies, and nonprofit organizations: Provided further, That for-profit developers may apply jointly with a public entity: Provided further, That for purposes of environmental review, a grantee shall be treated as a public housing agency under section 26 of the United States Housing Act of 1937 (42 U.S.C. 1437x), and grants made with amounts available under this heading shall be subject to the regulations issued by the Secretary to implement such section: Provided further, That of the amount provided under this heading, not less than \$100,000,000 shall be awarded to public housing agencies: Provided further, That such grantees shall create partnerships with other local organizations, including assisted housing owners, service agencies, and resident organizations: Provided further, That the Secretary shall consult with the Secretaries of Education, Labor, Transportation, Health and Human Services, Agriculture, and Commerce, the Attorney General, and the Administrator of the Environmental Protection Agency to coordinate and leverage other appropriate Federal resources: Provided further, That not more than \$5,000,000 of funds made available under this heading may be provided as grants to undertake comprehensive local planning with input from residents and the community: Provided further, That not more than \$10,000,000 of the funds made available under this heading shall be available, in addition to amounts otherwise available for such purposes, for planning and implementation grants, notwithstanding section 203 of this title, to support the revitalization of communities with public or HUD-assisted housing in close proximity to Superfund sites, notwithstanding the limitation on planning under the previous proviso: Provided further, That communities selected under this program shall not be ineligible for participation in the Choice Neighborhoods Initiative due to their selection under this program: Provided further, That the Secretary shall define eligible activities for such grant assistance, which may include permitting grantees to provide assistance to businesses and nonprofit organizations to carry out economic development and job creation or job retention activities: Provided further, That the Secretary shall be authorized to waive, or specify alternative requirements for any provision of such section 24 that the Secretary administers in connection with the use of funds for this program (except for requirements related to fair housing, nondiscrimination, labor standards, and the environment), upon a finding by the Secretary that any such waivers or alternative requirements are necessary for the effective delivery and administration of such assistance: Provided further, That unobligated balances, including recaptures, remaining from funds appropriated under the heading "Revitalization of Severely Distressed Public Housing (HOPE VI)" in fiscal year 2011 and prior fiscal years may be used for purposes under this heading, notwithstanding the purposes for which such amounts were appropriated: Provided further, That notwithstanding section 24(o) of the United States Housing Act of 1937 (42 U.S.C. 1437v(o)), the Secretary may, until September 30, 2023, obligate any available unobligated balances made available under this heading in this or any prior Act.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117-43, as amended). The Budget requests \$250 million for Choice Neighborhoods to continue the transformation of neighborhoods of concentrated poverty into sustainable, mixed-income neighborhoods with well-functioning services, schools, public assets, transportation, and access to jobs. The goal of the program is to transform distressed neighborhoods and improve the quality of life of current and future residents by coordinating and concentrating neighborhood investments from multiple sources. HUD will allocate up to \$5 million for 10 to 12 Planning Grants and the remaining \$235 million will fund four to six Implementation Grants.

In addition, the Budget includes \$10 million under Choice Neighborhoods to fund the pilot Revitalization and Empowerment of Communities near Contaminated Lands through Assistance, Investment, and Mitigation (RECLAIM) program. The program will support community-driven efforts to revitalize distressed neighborhoods that contain public and/or HUD-assisted housing and are located on or near Superfund sites. RECLAIM leverages a coordinated interagency effort to identify, cleanup, and improve these sites by concentrating Federal resources. HUD will provide planning and implementation grants for pilot communities to improve health and safety, generate economic opportunities, and preserve or create affordable housing.

The HOPE VI program has accomplished its goal of contributing to the demolition of approximately 100,000 severely distressed Public Housing units. The Budget proposes no additional funds for this program. Instead, the Budget builds on the success of HOPE VI with the Choice Neighborhoods program, which makes a broad range of transformative investments in high-poverty neighborhoods where Public Housing and other HUD-assisted housing is located.

SELF-SUFFICIENCY PROGRAMS

For activities and assistance related to Self-Sufficiency Programs, to remain available until September 30, 2026, \$175,000,000: Provided, That the amounts made available under this heading are provided as follows:

(1) \$120,000,000 shall be for the Family Self-Sufficiency program to support family self-sufficiency coordinators under section 23 of the United States Housing Act of 1937 (42 U.S.C. 1437u), to promote the development of local strategies to coordinate the use of assistance under sections 8 and 9 of such Act with public and private resources, and enable eligible families to achieve economic independence and self-sufficiency: Provided, That the Secretary may, by Federal Register notice, waive or specify alternative requirements under subsections (b)(3), (b)(4), (b)(5), or (c)(1) of section 23 of such Act in order to facilitate the operation of a unified self-sufficiency program for individuals receiving assistance under different provisions of such Act, as determined by the Secretary: Provided further, That owners or sponsors of a multifamily property receiving project-based rental assistance under section 8 of such Act may voluntarily make a Family Self-Sufficiency program available to the assisted tenants of such property in accordance with procedures established by the Secretary: Provided further, That such procedures established pursuant to the previous proviso shall permit participating tenants to accrue escrow funds in accordance with section 23(d)(2) of such Act and shall allow owners to use funding from residual receipt accounts to hire coordinators for their own Family Self-Sufficiency program;

(2) \$35,000,000 shall be for the Resident Opportunity and Self-Sufficiency program to provide for supportive services, service coordinators, and congregate services as authorized by section 34 of the United States Housing Act of 1937 (42 U.S.C. 1437z-6) and the Native American Housing Assistance and Self-Determination Act of 1996 (25 U.S.C. 4101 et seq.); and

(3) \$20,000,000 shall be for a Jobs-Plus initiative, modeled after the Jobs-Plus demonstration: Provided, That funding provided under this paragraph shall be available for competitive grants to public housing authorities or owners or sponsors of multifamily properties receiving project-based rental assistance under section 8, that, in partnership with local workforce investment boards established under section 107 of the Workforce Innovation and Opportunity Act of 2014 (29 U.S.C. 3122), and other agencies and organizations provide support to help public housing residents, or tenants residing in units assisted under a project-based section 8 contract (including section 8(o)(13) of the United States Housing Act of 1937), obtain employment or increase earnings, or both: Provided further, That applicants must demonstrate the ability to provide services to such residents or tenants, partner with workforce investment boards, and leverage service dollars: Provided further, That the Secretary may allow public housing agencies to request exemptions from rent and income limitation requirements under sections 3 and 6 of the United States Housing Act of 1937 (42 U.S.C. 1437a, 1437d), as necessary to implement the Jobs-Plus program, on such terms and conditions as the Secretary may approve upon a finding by the Secretary that any such waivers or alternative requirements are necessary for the effective implementation of the Jobs-Plus initiative as a voluntary program for residents: Provided further, That the Secretary shall publish by notice in the Federal Register any waivers or alternative requirements pursuant to the preceding proviso no later than 10 days before the effective date of such notice: Provided further, That the costs of any rent incentives as authorized pursuant to such waivers or alternative requirements shall not be charged against the competitive grant amounts made available under this paragraph.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117-43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

NATIVE AMERICAN PROGRAMS

(INCLUDING CANCELLATIONS)

For activities and assistance authorized under title I of the Native American Housing Assistance and Self-Determination Act of 1996 (NAHASDA) (25 U.S.C. 4111 et seq.), title I of the Housing and Community Development Act of 1974 with respect to Indian tribes (42 U.S.C. 5306(a)(1)), and related training and technical assistance, \$1,000,000,000, to remain available until September 30, 2027: Provided, That the amounts made available under this heading are provided as follows:

(1) \$772,000,000 shall be available for the Native American Housing Block Grants program, as authorized under title I of NAHASDA: Provided, That, notwithstanding NAHASDA, to determine the amount of the allocation under title I of such Act for each Indian tribe, the Secretary shall apply the formula under section 302 of NAHASDA with the need component based on single-race census data and with the need component based on multi-race census data, and the amount of the allocation for each Indian tribe shall be the greater of the two resulting allocation amounts;

(2) \$150,000,000 shall be available for competitive grants under the Native American Housing Block Grants program, as authorized under title I of NAHASDA: Provided, That the Secretary shall obligate such amount for competitive grants to eligible recipients authorized under NAHASDA that apply for funds: Provided further, That in awarding such amount, the Secretary shall consider need and administrative capacity, shall give priority to projects that will spur construction and rehabilitation of housing, and may give priority to projects that improve water or energy efficiency or increase climate or disaster resilience for housing units owned, operated, or assisted by eligible recipients authorized under NAHASDA: Provided further, That any funds transferred for the necessary costs of administering and overseeing the obligation and expenditure of such amounts in prior Acts may also be used for the necessary costs of administering and overseeing such amounts;

(3) \$1,000,000 shall be for the cost of guaranteed notes and other obligations, as authorized by title VI of NAHASDA: Provided, That such costs, including the cost of modifying such notes and other obligations, shall be as defined in section 502 of the Congressional Budget Act of 1974, as amended: Provided further, That funds made available in this and prior Acts for the cost of such guaranteed notes and other obligations, that are unobligated, including recaptures and carryover, are available to subsidize the total principal amount of any notes and other obligations, any part of which is to be guaranteed, not to exceed \$50,000,000, to remain available until September 30, 2024: Provided further, That any remaining loan guarantee limitation authorized for this program in fiscal year 2020 or prior fiscal years is hereby permanently cancelled;

(4) \$70,000,000 shall be available for grants to Indian tribes for carrying out the Indian Community Development Block Grant program under title I of the Housing and Community Development Act of 1974, notwithstanding section 106(a)(1) of such Act, of which, notwithstanding any other provision of law (including section 203 of this Act), up to \$4,000,000 may be used for emergencies that constitute imminent threats to health and safety: Provided, That not to exceed 20 percent of any grant made with funds appropriated under this paragraph shall be expended for planning and management development and administration; and

(5) \$7,000,000, in addition to amounts otherwise available for such purpose, shall be available for providing training and technical assistance to Indian tribes, Indian housing authorities, and tribally designated housing entities, to support the inspection of Indian housing units, contract expertise, and for training and technical assistance related to funding provided under this heading and other headings under this Act for the needs of Native American families and Indian country: Provided, That of the funds made available under this paragraph, not less than \$2,000,000 shall be available for a national organization as authorized under section 703 of NAHASDA (25 U.S.C. 4212): Provided further, That amounts made available under this paragraph may be used, contracted, or competed as determined by the Secretary: Provided further, That notwithstanding the provisions of the Federal Grant and Cooperative Agreements Act of 1977 (31 U.S.C. 6301–6308), the amounts made available under this paragraph may be used by the Secretary to enter into cooperative agreements with public and private organizations, agencies, institutions, and other technical assistance providers to support the administration of negotiated rulemaking under section 106 of NAHASDA (25 U.S.C. 4116), the administration of the allocation formula under section 302 of NAHASDA (25 U.S.C. 4152), and the administration of performance tracking and reporting under section 407 of NAHASDA (25 U.S.C. 4167).

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The Indian Housing Loan Guarantee program (also known as the Section 184 program) provides access to private mortgage financing for Native Americans, Indian Tribes and their tribally-designated housing entities that could otherwise face barriers due to the unique legal status of Indian trust land. The Budget requests \$5.5 million in program funds to support up to \$1.4 billion in new loan guarantees for this program.

The Native Hawaiian Housing Loan Guarantee program (also known as the Section 184A program) provides access to private mortgage financing to Native Hawaiian families who are eligible to reside on Hawaiian home lands and would otherwise face barriers to acquiring such financing because of the unique legal status of the Hawaiian home lands. Since 2017, this program has operated on a negative subsidy basis, but the Budget requests \$28 million in loan guarantee commitment authority to continue supporting these loans.

COMMUNITY PLANNING AND DEVELOPMENT

Federal Funds

COMMUNITY DEVELOPMENT FUND

For carrying out the community development block grant program under title I of the Housing and Community Development Act of 1974, as amended (42 U.S.C. 5301 et seq.) (in this heading "the Act"), \$3,770,000,000, to remain available until September 30, 2025, unless otherwise specified: Provided, That unless explicitly provided for under this heading, not to exceed 20 percent of any grant made with funds made available under this heading shall be expended for planning and management development and administration: Provided further, That a metropolitan city, urban county, unit of general local government, or insular area that directly or indirectly receives funds under this heading may not sell, trade, or otherwise transfer all or any portion of such funds to another such entity in exchange for any other funds, credits, or non-Federal considerations, but shall use such funds for activities eligible under title I of the Act: Provided further, That notwithstanding section 105(e)(1) of the Act, no funds made available under this heading may be provided to a for-profit entity for an economic development project under section 105(a)(17) unless such project has been evaluated and selected in accordance with guidelines required under subsection (e)(2) of section 105: Provided further, That of the amount provided under this heading, \$195,000,000 shall be for up to 100 grants to state and local governments for additional activities under such title I for the identification and removal of barriers to revitalization faced by underserved communities in deteriorating or deteriorated neighborhoods with the greatest need, as determined by the Secretary: Provided further, That the Secretary shall establish by notice a formula identifying the neighborhoods eligible for such additional assistance, based on factors that may include the number or relative share of persons in poverty, the number or relative share of persons in poverty in areas with concentrated poverty or concentrated vacancy, and other factors: Provided further, That a state or local government responsible for carrying out title I activities within the eligible neighborhood shall be given the opportunity to apply for such assistance: Provided further, That such amounts shall not be subject to the limitation in the first proviso: Provided further, That in administering such amounts the Secretary may waive or specify alternative requirements to sections 105 and 106 of the Act (42 U.S.C. 5305 and 5306) except for requirements related to fair housing, nondiscrimination, labor standards, the environment, and requirements that activities benefit persons of low- and moderate-income, upon a finding that such a waiver is necessary to expedite or facilitate the use of such amount: Provided further, That of the amount provided under this heading, \$25,000,000 shall be for activities authorized under section 8071 of the SUPPORT for Patients and Communities Act (Public Law 115-271): Provided further, That the funds allocated pursuant to the preceding proviso shall not adversely affect the amount of any formula assistance received by a State under this heading: Provided further, That the Secretary shall allocate the funds for such activities based on the notice establishing the funding formula published in 84 FR 16027 (April 17, 2019).

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117-43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

COMMUNITY DEVELOPMENT FUND—Continued

COMMUNITY DEVELOPMENT FUND

[(INCLUDING TRANSFERS OF FUNDS)]

For an additional amount for "Community Development Fund", \$5,000,000,000, to remain available until expended, for necessary expenses for activities authorized under title I of the Housing and Community Development Act of 1974 (42 U.S.C. 5301 et seq.) related to disaster relief, long-term recovery, restoration of infrastructure and housing, economic revitalization, and mitigation, in the most impacted and distressed areas resulting from a major disaster that occurred in 2020 or 2021 pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.): *Provided*, That amounts made available under this heading in this Act shall be awarded directly to the State, unit of general local government, or Indian tribe (as such term is defined in section 102 of the Housing and Community Development Act of 1974 (42 U.S.C. 5302)) at the discretion of the Secretary: *Provided further*, That the Secretary shall allocate, using the best available data, an amount equal to the total estimate for unmet needs for qualifying disasters under this heading in this Act: *Provided further*, That any final allocation for the total estimate for unmet need made available under the preceding proviso shall include an additional amount of 15 percent of such estimate for additional mitigation: *Provided further*, That of the amounts made available under this heading in this Act, no less than \$1,610,000,000 shall be allocated for major declared disasters that occurred in 2020 within 30 days of the date of enactment of this Act: *Provided further*, That the Secretary shall not prohibit the use of amounts made available under this heading in this Act for non-Federal share as authorized by section 105(a)(9) of the Housing and Community Development Act of 1974 (42 U.S.C. 5305(a)(9)): *Provided further*, That of the amounts made available under this heading in this Act, grantees may establish grant programs to assist small businesses for working capital purposes to aid in recovery: *Provided further*, That as a condition of drawing funds for any activity other than general administration, the Secretary shall certify in advance that such grantee has in place proficient financial controls and procurement processes and has established adequate procedures to prevent any duplication of benefits as defined by section 312 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5155), to ensure timely expenditure of funds, to maintain comprehensive websites regarding all disaster recovery activities assisted with amounts made available under this heading in this Act, and to detect and prevent waste, fraud, and abuse of funds: *Provided further*, That with respect to any such duplication of benefits, the Secretary shall act in accordance with section 1210 of Public Law 115–254 (132 Stat. 3442) and section 312 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5155): *Provided further*, That the Secretary shall require grantees to maintain on a public website information containing common reporting criteria established by the Department that permits individuals and entities awaiting assistance and the general public to see how all grant funds are used, including copies of all relevant procurement documents, including grantee administrative contracts and details of ongoing procurement processes, as determined by the Secretary: *Provided further*, That prior to the obligation of funds a grantee shall submit a plan to the Secretary for approval detailing the proposed use of all funds, including criteria for eligibility and how the use of these funds will address long-term recovery and restoration of infrastructure and housing, economic revitalization, and mitigation in the most impacted and distressed areas: *Provided further*, That such funds may not be used for activities reimbursable by, or for which funds are made available by, the Federal Emergency Management Agency or the Army Corps of Engineers: *Provided further*, That funds allocated under this heading in this Act shall not be considered relevant to the non-disaster formula allocations made pursuant to section 106 of the Housing and Community Development Act of 1974 (42 U.S.C. 5306): *Provided further*, That a State, unit of general local government, or Indian tribe may use up to 5 percent of its allocation for administrative costs related to a major disaster under this heading in this Act and for the same purposes in prior and future Acts and such amounts shall be available for any eligible administrative costs without regard to a particular disaster: *Provided further*, That in administering the amounts made available under this heading in this Act, the Secretary of Housing and Urban Development may waive, or specify alternative requirements for, any provision of any statute or regulation that the Secretary administers in connection with the obligation by the Secretary or the use by the recipient of these funds (except for requirements related to fair housing, nondiscrimination, labor standards, and the environment), if the Secretary finds that good cause exists for the waiver or alternative requirement and such waiver or alternative requirement would not be inconsistent with the overall purpose of title I of the Housing and Community Development Act of 1974: *Provided further*, That, notwithstanding the preceding proviso, recipients of funds provided under this heading in this Act that use such funds to supplement Federal assistance provided under section 402, 403, 404, 406, 407, 408(c)(4), or 502 of the Robert T. Stafford Disaster Relief and

Emergency Assistance Act (42 U.S.C. 5121 et seq.) may adopt, without review or public comment, any environmental review, approval, or permit performed by a Federal agency, and such adoption shall satisfy the responsibilities of the recipient with respect to such environmental review, approval or permit: *Provided further*, That, notwithstanding section 104(g)(2) of the Housing and Community Development Act of 1974 (42 U.S.C. 5304(g)(2)), the Secretary or a State may, upon receipt of a request for release of funds and certification, immediately approve the release of funds for an activity or project assisted under this heading in this Act if the recipient has adopted an environmental review, approval or permit under the preceding proviso or the activity or project is categorically excluded from review under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.): *Provided further*, That the Secretary shall publish via notice in the Federal Register or on the website of the Department any waiver, or alternative requirement, to any statute or regulation that the Secretary administers pursuant to title I of the Housing and Community Development Act of 1974 no later than 5 days before the effective date of such waiver or alternative requirement: *Provided further*, That the Secretary is authorized to approve the use of amounts made available under this heading in this Act or a prior or future Act for activities authorized under title I of the Housing and Community Development Act of 1974 (42 U.S.C. 5301 et seq.) related to unmet recovery needs in the most impacted and distressed areas resulting from a major disaster in this Act or in a prior or future Act to be used interchangeably and without limitation for the same activities in the most impacted and distressed areas resulting from other major disasters assisted under this Act or a prior or future Act when such areas overlap and when the use of the funds will address unmet recovery needs of both disasters: *Provided further*, That, until the Secretary publishes a Federal Register Notice establishing the requirements for the previous proviso, grantees that received grants under the same heading for 2017, 2018 or 2019 disasters may submit for approval revised plans for the use of funds related to those major disasters to expand the eligible beneficiaries of existing programs contained in such previously approved plans to include those impacted by disasters in 2020 or 2021: *Provided further*, That of the amounts made available under this heading in this Act, up to \$7,000,000 shall be made available for capacity building and technical assistance, including assistance on contracting and procurement, to support States, units of general local government, or Indian tribes, and subrecipients that receive allocations for disaster recovery pursuant to the authority under this heading in this Act and allocations for disaster recovery in any prior or future Acts: *Provided further*, That of the amounts made available under this heading in this Act, up to \$5,500,000 shall be transferred to "Department of Housing and Urban Development—Program Office Salaries and Expenses—Community Planning and Development" for necessary costs, including information technology costs, of administering and overseeing the obligation and expenditure of amounts made available under the heading "Community Development Fund" in this Act or any prior or future Act that makes amounts available for purposes related to major disasters under such heading. The Community Development Fund account contains the following programs:

Community Development Block Grant (CDBG).—The CDBG program provides formula grants to States, local governments, and Insular Areas to benefit mainly low- to moderate-income persons, and support a wide range of community and economic development activities, such as public infrastructure improvements (which account for approximately 36 percent of all CDBG funds), housing rehabilitation and construction (approximately 24 percent of funds), job creation and retention, and public services. After \$7 million is allocated to Insular Areas, seventy percent of CDBG formula grants are distributed to mainly urban areas (entitlement communities), and 30 percent are distributed to States (non-entitlement communities). The Budget requests a total of \$3.77 billion, of which \$3.55 billion is funding for the CDBG program, and \$195 million is for targeted CDBG activities aimed at removing barriers to revitalization in approximately 100 of the most underserved neighborhoods in the United States.

Indian Community Development Block Grant (ICDBG).—The Budget requests ICDBG in the Native American Programs account.

CDBG Disaster Recovery (CDBG-DR).—This account also contains a substantial amount of appropriated CDBG-DR funding provided to communities impacted by major disasters.

Recovery Housing (SUPPORT).—The Budget requests \$25 million for activities authorized under the SUPPORT for Patients and Communities Act. This formula program is allocated to states and the District of Columbia to provide temporary housing for individuals recovering from substance use disorders, including opioids.

COMMUNITY DEVELOPMENT LOAN GUARANTEES PROGRAM ACCOUNT

Subject to section 502 of the Congressional Budget Act of 1974 (2 U.S.C. 661a), during fiscal year 2023, commitments to guarantee loans under section 108 of the Housing and Community Development Act of 1974 (42 U.S.C. 5308), any part of which is guaranteed, shall not exceed a total principal amount of \$300,000,000, notwithstanding any aggregate limitation on outstanding obligations guaranteed in subsection (k) of such section 108: Provided, That the Secretary shall collect fees from borrowers, notwithstanding subsection (m) of such section 108, to result in a

credit subsidy cost of zero for guaranteeing such loans, and any such fees shall be collected in accordance with section 502(7) of the Congressional Budget Act of 1974: Provided further, That such commitment authority funded by fees may be used to guarantee, or make commitments to guarantee, notes or other obligations issued by any State on behalf of non-entitlement communities in the State in accordance with the requirements of such section 108: Provided further, That any State receiving such a guarantee or commitment under the preceding proviso shall distribute all funds subject to such guarantee to the units of general local government in nonentitlement areas that received the commitment.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117-43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

The Budget requests \$1.95 billion for the HOME Investment Partnerships program (HOME). The HOME program provides annual formula grant assistance to States and units of local government to increase the supply of affordable housing and expand homeownership for low-income persons through the acquisition, new construction, and rehabilitation of affordable renter- and owner-occupied housing, as well as the provision of tenant-based rental assistance. Over time, the requested HOME funding is estimated to result in the production of approximately 41,000 units of affordable

housing and support over 15,000 low-income households with tenant-based rental assistance. In addition, the request includes a \$100 million set-aside for a FirstHOME Downpayment initiative to States and insular areas to better ensure sustainable homeownership.

HOMELESS ASSISTANCE GRANTS

For assistance under title IV of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11360 et seq.), \$3,576,000,000, to remain available until September 30, 2025: Provided, That of the amounts made available under this heading—

(1) not less than \$290,000,000 shall be for the Emergency Solutions Grants program authorized under subtitle B of such title IV (42 U.S.C. 11371 et seq.);

(2) up to \$3,197,000,000 shall be for the Continuum of Care program authorized under subtitle C of such title IV (42 U.S.C. 11381 et seq.) and the Rural Housing Stability Assistance programs authorized under subtitle D of such title IV (42 U.S.C. 11408): Provided, That the Secretary shall prioritize funding under the Continuum of Care program to continuums of care that have demonstrated a capacity to reallocate funding from lower performing projects to higher performing projects: Provided further, That the Secretary shall provide incentives to create projects that coordinate with housing providers and healthcare organizations to provide permanent supportive housing and rapid re-housing services: Provided further, That the Secretary may establish by notice an alternative maximum amount for administrative costs related to the requirements described in sections 402(f)(1) and 402(f)(2) of subtitle A of such title IV of no more than 5 percent or \$50,000, whichever is greater, notwithstanding the 3 percent limitation in section 423(a)(10) of such subtitle C: Provided further, That of the amounts made available for the Continuum of Care program under this paragraph, not less than \$52,000,000 shall be for grants for new rapid re-housing projects and supportive service projects providing coordinated entry, and for eligible activities that the Secretary determines to be critical in order to assist survivors of domestic violence, dating violence, sexual assault, stalking, or human trafficking: Provided further, That amounts made available for the Continuum of Care program under this heading in this Act and any remaining unobligated balances from prior Acts may be used to competitively or non-competitively renew or replace grants for youth homeless demonstration projects under the Continuum of Care program, notwithstanding any conflict with the requirements of the Continuum of Care program;

(3) up to \$7,000,000 shall be for the national homeless data analysis project: Provided, That notwithstanding the provisions of the Federal Grant and Cooperative Agreements Act of 1977 (31 U.S.C. 6301–6308), the amounts made available under this paragraph and any remaining unobligated balances under this heading for such purposes in prior Acts may be used by the Secretary to enter into cooperative agreements with such entities as may be determined by the Secretary, including public and private organizations, agencies, and institutions; and

(4) not less than \$82,000,000 shall be to implement projects to demonstrate how a comprehensive approach to serving homeless youth, age 24 and under, in up to 25 communities with a priority for communities with substantial rural populations in up to eight locations, can dramatically reduce youth homelessness: Provided, That of the amount made available under this paragraph, up to \$10,000,000 shall be to provide technical assistance on improving system responses to youth homelessness, and collection, analysis, use, and reporting of data and performance measures under the comprehensive approaches to serve homeless youth, in addition to and in coordination with other technical assistance funds provided under this title: Provided further, That the Secretary may use up to 10 percent of the amount made available under the previous proviso to build the capacity of current technical assistance providers or to train new technical assistance providers with verifiable prior experience with systems and programs for youth experiencing homelessness: Provided further, That youth aged 24 and under seeking assistance under this heading shall not be required to provide third party documentation to establish their eligibility under subsection (a) or (b) of section 103 of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11302) to receive services: Provided further, That unaccompanied youth aged 24 and under or families headed by youth aged 24 and under who are living in unsafe situations may be served by youth-serving providers funded under this heading: Provided further, That persons eligible under section 103(a)(5) of the McKinney-Vento Homeless Assistance Act may be served by any project funded under this heading to provide both transitional housing and rapid re-housing:

Provided, That for all matching funds requirements applicable to funds made available under this heading for this fiscal year and prior fiscal years, a grantee may use (or could have used) as a source of match funds other funds administered by the Secretary and other Federal agencies unless there is (or was) a specific statutory prohibition on any such use of any such funds: Provided further, That

HOMELESS ASSISTANCE GRANTS—Continued

none of the funds made available under this heading shall be available to provide funding for new projects, except for projects created through reallocation, unless the Secretary determines that the continuum of care has demonstrated that projects are evaluated and ranked based on the degree to which they improve the continuum of care's system performance. Provided further, That any unobligated amounts remaining from funds made available under this heading in fiscal year 2012 and prior years for project-based rental assistance for rehabilitation projects with 10-year grant terms may be used for purposes under this heading, notwithstanding the purposes for which such funds were appropriated: Provided further, That unobligated balances, including recaptures and carryover, remaining from funds transferred to or appropriated under this heading in fiscal year 2019 or prior years, except for rental assistance amounts that were recaptured and made available until expended, shall be available for the current purposes authorized under this heading in addition to the purposes for which such funds originally were appropriated.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The Homeless Assistance Grants account provides funds for the Emergency Solutions Grant (ESG) and Continuum of Care (CoC) programs. These programs, which award funds through formula and competitive processes, enable localities to shape and implement comprehensive, flexible, coordinated approaches to address the multiple issues of homelessness, including chronic homelessness, veteran homelessness, and homelessness among families and youth.

The Budget provides a total of \$3.576 billion for a wide range of activities to assist homeless persons and prevent future occurrences of homelessness. The Budget supports \$3.197 billion for the CoC program to fund competitive renewals and new projects for target populations, including not less than \$52 million for rapid re-housing projects and other assistance to serve people fleeing domestic violence, dating violence, sexual assault, stalking, or human trafficking. The Budget also provides \$290 million for ESG formula funding for communities to address emergency needs such as emergency shelter, street outreach, essential services, homelessness prevention, and rapid rehousing; not less than \$82 million to implement projects serving homeless youth; and \$7 million for the National Homeless Data Analysis Project.

HOUSING OPPORTUNITIES FOR PERSONS WITH AIDS

For carrying out the Housing Opportunities for Persons with AIDS program, as authorized by the AIDS Housing Opportunity Act (42 U.S.C. 12901 et seq.), \$455,000,000, to remain available until September 30, 2024, except that amounts allocated pursuant to section 854(c)(5) of such Act shall remain available until September 30, 2025.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

The Budget provides \$455 million for the Housing Opportunities for Persons With AIDS (HOPWA) program. HOPWA funding provides States and localities with resources to devise long-term comprehensive strategies for providing housing and supportive services to meet the housing needs of persons living with HIV/AIDS and their families.

Ninety percent of HOPWA funds is distributed to States and eligible metropolitan areas according to a formula, and the remaining ten percent is awarded competitively to States, local governments, and private nonprofit entities. The HOPWA formula, which was updated in 2016, allocates funds based on cases of persons living with HIV/AIDS and is adjusted for an area's fair market rent and poverty rates to further ensure HOPWA funds are focused on areas that have the most need. The updated formula became effective in 2017 with a five-year stop-loss/stop-gain period and is fully implemented as of fiscal year 2022. HUD continues to work closely with formula grantees through a comprehensive technical assistance initiative to support communities in implementing the local strategies developed during that five-year phase-in period to manage HOPWA formula changes. The Budget also proposes to not prioritize renewals in its competition so that funds are able to better support more evidence-based service delivery models, address current community needs, and fund innovative projects that support the administration's goals of ending the HIV epidemic by 2030.

SELF-HELP AND ASSISTED HOMEOWNERSHIP OPPORTUNITY PROGRAM

For the Self-Help and Assisted Homeownership Opportunity Program, as authorized under section 11 of the Housing Opportunity Program Extension Act of 1996 (42 U.S.C. 12805 note), and for related activities and assistance, \$60,000,000, to remain available until September 30, 2025: Provided, That of the total amount made available under this heading, \$10,000,000 shall be for the Self-Help Homeownership Opportunity Program as authorized under such section 11: Provided further, That of the total amount made available under this heading, \$41,000,000 shall be for the second, third, and fourth capacity building entities specified in section 4(a) of the HUD Demonstration Act of 1993 (42 U.S.C. 9816 note), of which not less than \$5,000,000 shall be for rural capacity building activities: Provided further, That for purposes of awarding grants from amounts provided in the previous proviso, the Secretary may enter into multiyear agreements, as appropriate, subject to the availability of annual appropriations: Provided further, That of the total amount made available under this heading, \$5,000,000 shall be for capacity building by national rural housing organizations having experience assessing national rural conditions and providing financing, training, technical assistance, information, and research to local nonprofit organizations, local governments, and Indian Tribes serving high need rural communities: Provided further, That of the total amount provided under this heading, \$4,000,000, shall be made available for a program to rehabilitate and modify the homes of disabled or low-income veterans, as authorized under section 1079 of Public Law 113–291.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing

Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

The Budget requests \$60 million for the Self-Help and Assisted Homeownership Opportunity Program (SHOP) account. The Budget includes \$10 million for SHOP, as authorized by Section 11 of the Housing Opportunity Program Extension Act of 1996, to award grants to eligible non-profit organizations to assist low-income homebuyers willing to contribute "sweat equity" toward the construction of their houses.

The Budget provides \$41 million for Capacity Building for Community Development and Affordable Housing Program. The program is authorized by Section 4 of the HUD Demonstration Act of 1993 to develop the capacity and ability of community development corporations (CDCs) and community housing organizations (CHDOs) to undertake community development and affordable housing projects and programs.

The Budget provides \$5 million for the Rural Capacity Building Program which awards funds to national organizations to enhance the capacity and ability of local governments, Indian Tribes, housing development organizations, rural CDCs, and rural CHDOs, to carry out community development and affordable housing activities that benefit low- and moderate-income families and persons in rural areas.

Conducted in partnership with the U.S. Department of Veterans Affairs, the Budget includes \$4 million for the Veterans Housing Rehabilitation and Modification Pilot Program to rehabilitate and modify the homes of disabled and low-income veterans.

The Budget does not provide funding for the Rural Housing and Economic Development (RHED) program. RHED was created to support housing and economic development activities in rural communities. The Consolidated Appropriations Act, 2016 (Public Law 114-113) rescinded all unobligated balances of RHED funds remaining in the account as of the end of 2016.

REVOLVING FUND (LIQUIDATING PROGRAMS)

The Revolving Fund (liquidating programs) was established by the Independent Offices Appropriations Act of 1955 for the efficient liquidation of assets acquired under a number of housing and urban development programs, all of which are no longer active. For example, the Section 312 loan program portfolio, which provided first and junior lien financing at below market interest rates for the rehabilitation of homes in low-income neighborhoods, constituted a large portion of the account activities but has not originated new loans for over 20 years. The operational expenses are financed from a permanent, indefinite appropriation to administer the remaining repayments of loans, recaptures, and lien releases in the portfolio. Any remaining unobligated balances in the account are returned to the Treasury annually.

The Housing Trust Fund was authorized by section 1131 of the Housing and Economic Recovery Act of 2008 (Public Law 110-289), which directed the account to be funded from assessments on Fannie Mae and Freddie Mac. The Budget estimates that \$393 million will be allocated in 2023 to the Housing Trust Fund to provide grants to States to increase and preserve the supply of affordable rental housing and homeownership opportunities for extremely low-income families. Funds will be distributed by formula to States to be used primarily for the construction, preservation, and rehabilitation of affordable rental housing for extremely low-income families, with up to ten percent of the funding available for similar eligible activities that support homeownership, and up to ten percent available for grantee administrative costs.

in an interest-bearing residual receipts account and that are in excess of an amount to be determined by the Secretary, shall be remitted to the Department and deposited in this account, to be available until expended: Provided further, That amounts deposited pursuant to the previous proviso shall be available in addition to the amount otherwise provided by this heading for uses authorized under this heading: Provided further, That of the total amount provided under this heading, up to \$50,000,000 shall be available to supplement funds transferred from the heading "Public Housing Fund" to fund contracts for properties converting from assistance under section 9 of the United States Housing Act of 1937 (42 U.S.C. 1437g) under the heading "Rental Assistance Demonstration" in the Department of Housing and Urban Development Appropriations Act, 2012 (title II of division C of Public Law 112–55) to further long-term financial stability and promote the energy or water efficiency, climate resilience, or preservation of such properties: Provided further, That the amounts under the previous proviso may also be available, without additional competition, for cooperative agreements with Participating Administrative Entities that have been previously or newly selected under section 513(b) of the Multifamily Assisted Housing Reform and Affordability Act of 1997 (42 U.S.C. 1437f note) (MAHRAA) to provide direct support, including carrying out due diligence and underwriting functions for owners and for technical assistance activities, on conditions established by the Secretary for small properties and owners entering into any conversion contract under the First Component: Provided further, That of the total amount provided under this heading, up to \$10,000,000 shall be available to supplement funds transferred from the heading "Housing for the Elderly" to fund contracts for properties converting from assistance under section 202(c)(2) of the Housing Act of 1959 (12 U.S.C. 1701q(c)(2)) under the heading "Rental Assistance Demonstration" in the Department of Housing and Urban Development Appropriations Act, 2012 (title II of division C of Public Law 112–55) to further long-term financial stability and promote the energy or water efficiency, climate resilience, or preservation of such properties: Provided further, That the amounts under the previous proviso may also be available, without additional competition, for cooperative agreements with Participating Administrative Entities that have been previously or newly selected under section 513(b) of MAHRAA to provide direct support, including carrying out due diligence and underwriting functions for owners and for technical assistance activities, on conditions established by the Secretary for small properties and owners entering into any conversion contract under the Second Component: Provided further, That of the total amounts provided under this heading, not to exceed \$275,000,000 shall be available for rent adjustments as added by section 234 of this Act, of which no less than \$25,000,000 of such amounts shall be available for adjustments added by section 234(b) necessary to address health and safety deficiencies: Provided further, That up to 2 percent of the total amount made available in the previous proviso shall be for administrative contract costs, including for carrying out due diligence and underwriting functions for evaluating owners' requests and for technical assistance activities: Provided further, That of the total amounts provided under this heading, not to exceed \$31,000,000 shall be available for budget-based adjustments for service coordinators for the elderly: Provided further, That any additional amounts for rent adjustments or supplemental contract funding authorized under the seven previous provisos shall be combined with other amounts obligated to such contracts and the combined total amount shall be available for all purposes under such contracts.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

The Budget requests \$15 billion for Project-Based Rental Assistance (PBRA), of which \$400 million is requested as an advance appropriation to become available in 2024. The PBRA program assists approximately 1.2 million extremely low- to low-income households in obtaining decent, safe, and sanitary housing in private accommodations. PBRA serves families, elderly, and disabled households and provides transitional housing for the homeless through the McKinney-Vento SRO program. Through this funding, the Department of Housing and Urban Development (HUD) supports approximately 17,200 contracts with private owners of multifamily housing by paying the difference between a portion of a household's income and the approved market-based rent for a housing unit. The Budget continues to support the program's calendar year funding cycle and provides 12 months of funding for all contracts.

Program activities include the following:

Contract Renewals and Amendments.—These activities provide funding for HUD to renew expiring contracts and amend contracts that have not expired but require additional funding for HUD to meet remaining payment obligations. Appropriations for these activities are supplemented with recoveries of excess balances remaining on expired contracts that utilized less resources than anticipated during their initial terms. This appropriation includes \$60 million for the Rental Assistance Demonstration to further long-term financial stability and promote the energy or water efficiency or climate resilience of properties converting to project-based assistance.

Contract Administrators.—The Budget requests \$375 million for contract administration. This activity funds the local level administration of the

program through HUD agreements with performance-based contract administrators or other supportive services contractors.

Rent Adjustments for Select Properties.—For at-risk post-Mark to Market Section 8 properties and other PBRA properties with health and safety deficiencies, the budget includes \$275 million to allow budget-based rent adjustments to facilitate rehabilitation and sustainable operation of the properties, consistent with program requirements that the property rents remain at or below comparable market rents.

Service Coordinators.—This budget includes \$31 million to support budget based rent increases to cover the costs of service coordinators to help elderly residents stay healthy and age in place.

HOUSING FOR THE ELDERLY (INCLUDING TRANSFER OF FUNDS)

For capital advances, including amendments to capital advance contracts, for housing for the elderly, as authorized by section 202 of the Housing Act of 1959 (12 U.S.C. 1701q), for project rental assistance for the elderly under section 202(c)(2) of such Act, including amendments to contracts for such assistance and renewal of expiring contracts for such assistance for up to a 5-year term, for senior preservation rental assistance contracts, including renewals, as authorized by section 811(e) of the American Homeownership and Economic Opportunity Act of 2000 (12 U.S.C. 1701q note), and for supportive services associated with the housing, \$966,000,000, to remain available until September 30, 2026: Provided, That of the amount made available under this heading, up to \$120,000,000 shall be for service coordinators and the continuation of existing congregate service grants for residents of assisted housing projects: Provided further, That the Secretary may enter into new project-based subsidy contracts, which shall be renewable under section 524 of the Multifamily Assisted Housing Reform and Affordability Act of 1997, using the resources made available under the heading "Project-Based Rental Assistance" to support projects awarded new capital advance awards: Provided further, That, from amounts made available under this heading for project rental assistance contracts, the Secretary shall transfer to and merge with amounts available under the heading "Project-Based Rental Assistance" an amount equal to the total cost of the new incremental project-based subsidy contracts executed under the authority of the previous proviso: Provided further, That amounts made available under this heading shall be available for Real Estate Assessment Center inspections and inspection-related activities associated with section 202 projects: Provided further, That the Secretary may waive the provisions of section 202 governing the terms and conditions of project rental assistance, except that the initial contract term for such assistance shall not exceed 5 years in duration: Provided further, That upon request of the Secretary, project funds that are held in residual receipts accounts for any project subject to a section 202 project rental assistance contract, and that upon termination of such contract are in excess of an amount to be determined by the Secretary, shall be remitted to the Department and deposited in this account, to remain available until September 30, 2026: Provided further, That amounts deposited in this account pursuant to the previous proviso shall be available, in addition to the amounts otherwise provided by this heading, for the purposes authorized under this heading: Provided further, That unobligated balances, including recaptures and carryover, remaining from funds transferred to or appropriated under this heading shall be available for the current purposes authorized under this heading in addition to the purposes for which such funds originally were appropriated.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The Housing for the Elderly Program (Section 202) supports the construction and operation of supportive housing for very low-income elderly households, including the frail elderly. The Budget provides \$966 million for this program, including \$742 million to renew and amend operating subsidy contracts for existing Section 202 housing including Senior Preservation Rental Assistance Contracts, \$100 million for Capital Advances and new operating subsidy to increase the supply of affordable housing for seniors, \$120 million to support service coordinators who work on-site to help residents obtain critical services, and \$4 million for property inspections and other related expenses.

HOUSING FOR PERSONS WITH DISABILITIES

For capital advances, including amendments to capital advance contracts, for supportive housing for persons with disabilities, as authorized by section 811 of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 8013), for project rental assistance for supportive housing for persons with disabilities under section 811(d)(2) of such Act, for project assistance contracts pursuant to subsection (h) of section 202 of the Housing Act of 1959, as added by section 205(a) of the Housing and Community Development Amendments of 1978 (Public Law 95–557: 92 Stat. 2090), including amendments to contracts for such assistance and renewal of expiring contracts for such assistance for up to a 5-year term, for project rental assistance to State housing finance agencies and other appropriate entities as authorized under section 811(b)(3) of the Cranston-Gonzalez National Affordable Housing Act, and for supportive services associated with the housing for persons with disabilities as authorized by section 811(b)(1) of such Act, \$287,700,000, to remain available until

HOUSING FOR PERSONS WITH DISABILITIES—Continued

September 30, 2026: Provided, That amounts made available under this heading shall be available for Real Estate Assessment Center inspections and inspection-related activities associated with section 811 projects: Provided further, That, upon the request of the Secretary, project funds that are held in residual receipts accounts for any project subject to a section 811 project rental assistance contract, and that upon termination of such contract are in excess of an amount to be determined by the Secretary, shall be remitted to the Department and deposited in this account, to remain available until September 30, 2026: Provided further, That amounts deposited in this account pursuant to the previous proviso shall be available in addition to the amounts otherwise provided by this heading for the purposes authorized under this heading: Provided further, That unobligated balances, including recaptures and carryover, remaining from funds transferred to or appropriated under this heading shall be used for the current purposes authorized under this heading in addition to the purposes for which such funds originally were appropriated.

The Other Assisted Housing Programs account contains the programs listed below:

Rent Supplement.—Rent Supplement assistance payments support assisted units for qualified low-income tenants.

Section 235.—The Housing and Urban-Rural Recovery Act of 1983 (Public Law 98-181) authorized a restructured Section 235 (Homeownership Assistance) program that provided homeowners a ten-year interest reduction subsidy on their mortgages.

Section 236.—The Housing and Urban Development Act of 1968, as amended, authorized the Section 236 Rental Housing Assistance Program, which subsidizes the monthly mortgage payment that an owner of a rental or cooperative project is required to make. This interest subsidy reduces rents for lower income tenants. Some Section 236 properties also have rental assistance contracts with the Department of Housing and Urban Development (HUD) through the Rental Assistance Payment (RAP) program.

In 2019, HUD converted the last remaining Rent Supplement and RAP properties to long-term, project-based Section 8 contracts, using the Rental Assistance Demonstration program.

The Flexible Subsidy Fund assisted financially troubled subsidized projects under certain Federal Housing Administration (FHA) authorities. The subsidies were intended to prevent potential losses to the FHA fund resulting from project insolvency and to preserve these projects as a viable source

of housing for low- and moderate-income tenants. Priority was given to projects with Federal insurance-in-force and then to those with mortgages that had been assigned to the Department.

GREEN AND RESILIENT RETROFIT PROGRAM FOR MULTIFAMILY HOUSING

For a demonstration program to improve the energy or water efficiency or climate resilience of multifamily properties modeled after the Green Retrofit Program for Multifamily Housing, \$250,000,000, to remain available until September 30, 2026: Provided, That such demonstration program amounts shall be for grants or for the cost of direct loans to properties receiving project-based assistance pursuant to section 202 of the Housing Act of 1959 (12 U.S.C. 1701g), section 811 of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 8013), section 811 of the American Homeownership and Economic Opportunity Act of 2000 (12 U.S.C. 1701q note), section 8 of the United States Housing Act of 1937 (42 U.S.C. 1437 et seq.) (excluding section 8(o)(13) of such Act), or properties converting to a project-based subsidy contract under section 8 of the United States Housing Act of 1937 (excluding section 8(o)(13) of such Act) through the Rental Assistance Demonstration: Provided further, That the costs of such loans, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974: Provided further, That the Secretary may subsidize gross obligations for the principal amount of direct loans not to exceed \$400,000,000, to remain available until September 30, 2026: Provided further, That up to \$31,500,000 of the amount made available under this heading shall be for data collection and utility consumption benchmarking of properties eligible for grants or direct loans under this demonstration program, of which \$5,000,000 may be transferred to and merged with amounts made available under the heading "Information Technology Fund" for information technology systems and tools necessary for the collection and analysis of such utility benchmarking data: Provided further, That up to \$11,000,000 of the amount made available under this heading shall be for administrative contract costs for the demonstration program and benchmarking, including for carrying out property and energy or water assessment, due diligence, and underwriting functions for such demonstration program: Provided further, That such amounts may also be available, without additional competition, for cooperative agreements with Participating Administrative Entities that have been previously or newly selected under section

513(b) of the Multifamily Assisted Housing Reform and Affordability Act of 1997 (42 U.S.C. 1437f note) ("MAHRAA") to provide direct support and technical assistance for owners on conditions established by the Secretary for any grant or loan authorized under this heading: Provided further, That grants or loans authorized under this heading may be provided through the policies, procedures, contracts, and transactional infrastructure of the authorized programs administered by the Office of Multifamily Housing Programs, Office of Housing, of the Department of Housing and Urban Development: Provided further, That the Secretary may waive or specify alternative requirements for any provision of any statute or regulation that the Secretary administers in connection with the use of the amounts made available under this heading for the demonstration (except for requirements related to fair housing, nondiscrimination, labor standards, and the environment), upon a finding by the Secretary that such waivers or alternative requirements are necessary to expedite or facilitate the use of such amounts.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117-43, as amended). The Green and Resilient Retrofit Program would provide funding to owners of Multifamily-assisted properties to rehabilitate these properties to be more energy and water efficient, healthier, and more resilient to extreme weather events. This increased investment will improve the stock of affordable housing available to many low- and extremely low-income families, often from marginalized communities. This program would support climate resilience, reduce the likelihood of catastrophic damage from future disasters, reduce energy and water consumption, and improve indoor air quality. The Budget requests \$250 million for grants and loans for properties currently assisted under Project-Based Rental Assistance, Housing for the Elderly, and Housing for Persons with Disabilities, including \$31.5 million for data collection and utility consumption benchmarking of properties across multifamily housing.

The Housing Counseling Assistance Program provides: 1) comprehensive housing counseling services to eligible homeowners and tenants through grants, oversight, and technical assistance; and 2) training to housing counselors and staff of government or non-profit entities that participate in HUD's Housing Counseling program. Eligible Housing Counseling program services include group education and individualized housing counseling on pre- and post-purchase homeownership budgeting and financial management, reverse mortgage counseling, homelessness prevention, rental counseling, and avoiding discrimination, foreclosure, and eviction. The objectives of the Housing Counseling program include overcoming barriers to stable and affordable housing; expanding sustainable homeownership and rental opportunities; preventing foreclosure and eviction; and deterring discrimination, scams, and fraud.

The Budget includes \$65.9 million for this program, of which \$61 million is intended to fund grants to HUD-approved Housing Counseling agencies for direct services and to develop training for HUD-approved housing counselors.

The Federal Housing Administration (FHA) provides mortgage insurance for the purchase, refinance and rehabilitation of single-family homes. FHA mortgage insurance is designed to encourage lenders to make credit available to borrowers whom the conventional market does not adequately serve, including first-time homebuyers, minorities, lower-income families and residents of underserved areas (central cities and rural areas). Historically, FHA has also provided countercyclical support in times of economic crisis. For budgetary purposes, the Mutual Mortgage Insurance (MMI) Fund is separated into three risk categories: forward loans, Home Equity Conversion Mortgages (HECMs), and a proposed Home Equity Accelerator Loan (HEAL) pilot. Forward programs guarantee loans for standard single-family purchases and refinances (Section 203(b) program), home improvements (Section 203(k) program) and condominiums. HECMs, also known as reverse mortgages, enable elderly homeowners to borrow against the equity in their homes without having to make repayments during their lifetime. HEAL, a new positive subsidy pilot, would offer loan products designed to lower barriers to homeownership for first-generation and/or low-wealth first-time homebuyers.

The Budget requests \$165 million for the MMI Program account. This includes \$150 million in administrative expenses to support a range of FHA functions, such as loan underwriting, claims processing and risk

monitoring. Additionally, the Budget provides \$15 million in credit subsidy for the new HEAL pilot.

The Budget also requests a limitation of \$400 billion on loan guarantees for the MMI Fund. The Budget projects insurance of \$225 billion in forward mortgages, \$26.4 billion in HECMs, and \$3.4 billion in HEAL pilot loans, with additional commitment authority available in case these amounts are exceeded during execution.

The Capital Reserve account is the ultimate depository for all net budgetary resources collected by MMI Fund programs. Negative credit subsidy receipts from new loan guarantees and downward reestimates, as well as interest earnings on Treasury investments, are recorded in this account. This account has no authority to obligate funds, but transfers balances of budget authority as necessary to the MMI Program account for the cost

of upward credit subsidy reestimates and the MMI Liquidating account for obligations of that account.
