¹ The Budget includes a reserve for legislation that reduces costs, expands productive capacity, and reforms the tax system. While the President is committed to reducing the deficit with this legislation, this allowance is shown as deficit neutral to be conservative for purposes of the budget totals. Because discussions with Congress continue, the Budget does not break down the reserve among specific policies or between revenues and outlays.

² The estimated deficit for 2022 is based on partial year actual data and generally incorporates actuals through February. At the time the 2023 Budget was prepared, 2022 appropriations remained incomplete. The baseline reflects annualized continuing appropriations for 2022.

Table S-2. Effect of Budget Proposals on Projected Deficits

(Deficit increases (+) or decreases (–) in billions of dollars)

	2021	2022	2023	2024	2025	2026	2027	2028	2029	2030	2031	2032	Totals

* \$500 million or less

¹ At the time the 2023 Budget was prepared, 2022 appropriations remained incomplete. The baseline reflects annualized continuing appropriations for 2022.² The Budget includes a reserve for legislation that reduces costs, expands productive capacity, and reforms the tax system. While the President is committed to reducing the deficit with this legislation, this allowance is shown as deficit neutral to be conservative for purposes of the budget totals. Because discussions with Congress continue, the Budget does not break down the reserve among specific policies or between revenues and outlays.³ Reflects budget deficit reduction compared to a baseline that does not include the Consolidated Appropriations Act, 2022 (Public Law 117–103), which was enacted after the baseline was finalized. Deficit reduction relative to a baseline that incorporated that legislation would be significantly greater.

¹ Baseline estimates are on the basis of the economic assumptions shown in Table S-9, which incorporate the effects of the Administration's fiscal policies and incorporate certain adjustments described in the "Current Services" chapter of the *Analytical Perspectives* volume. At the time the 2023 Budget was prepared, 2022 appropriations remained incomplete. The baseline reflects annualized continuing appropriations for 2022. See Tables S-7 and S-8 for more information about discretionary funding levels.

*0.05 percent of GDP or less

¹The Budget includes a reserve for legislation that reduces costs, expands productive capacity, and reforms the tax system. While the President is committed to reducing the deficit with this legislation, this allowance is shown as deficit neutral to be conservative for purposes of the budget totals. Because discussions with Congress continue, the Budget does not break down the reserve among specific policies or between revenues and outlays.

Table S-6. Mandatory and Receipt Proposals

(Deficit increases (+) or decreases (–) in millions of dollars)

													Totals	
	2022	2023	2024	2025	2026	2027	2028	2029	2030	2031	2032		2023–2027	2023–2032
Mandatory initiatives and savings:														
Multi-agency proposals:														
Reserve for legislation that reduces costs, expands productive capacity, and reforms the tax system
Transform mental health & substance use disorder coverage and infrastructure:														
Department of Health and Human Services:														
Invest in behavioral health workforce and delivery	750	750	750	750	750	750	750	750	750	750	750	3,750	7,500
Expand and convert Medicaid demonstration programs to improve community behavioral health services into a permanent program	45	1,430	1,960	2,430	2,560	2,750	2,930	3,120	3,320	3,520	8,425	24,065
Establish Medicaid provider capacity grants for mental health & substance use disorder treatment	40	170	1,640	2,340	2,600	710	6,790	7,500
Utilize clinically appropriate criteria for Medicaid behavioral health services	190	200	210	220	230	240	250	270	280	290	1,050	2,380
Establish performance bonus fund to improve behavioral health in Medicaid	500	500	500	500	500	2,500	2,500
Apply the Mental Health Parity and Addiction Equity Act (MHPAEA) to Medicare
Eliminate the 190-day lifetime limit on psychiatric hospital services	30	90	110	110	120	120	130	140	140	150	460	1,140
Revise criteria for psychiatric hospital terminations from Medicare
Modernize Medicare mental health benefits ¹
Require Medicare to cover three behavioral health visits without cost-sharing	100	130	140	150	160	150	170	170	180	520	1,350
Increase access to consumer protections in self-insured non-federal governmental plans
Provide mandatory funding for state enforcement of mental health parity requirements	10	40	25	25	25	125	125
Permanently extend funding for Community Mental Health Centers (CMHCs)	124	289	372	413	413	413	413	413	413	413	1,611	3,676
Department of Labor:														
Authorize the Department of Labor (DOL) to pursue parity violations by entities that provide administrative services to Employee Retirement Income Security Act (ERISA) group health plans
Amend ERISA to allow participants and beneficiaries to recover losses due to parity violations
Authorize DOL to impose civil monetary penalties for MHPAEA noncompliance	–3	–4	–4	–4	–4	–4	–4	–4	–4	–15	–35

¹ Estimates were not available at the time of Budget publication.² The estimates for this proposal include effects on receipts. The receipt effects included in the totals above are as follows:

Improve access to behavioral healthcare in the private insurance market	1,435	1,991	2,089	2,305	2,449	2,564	2,683	2,812	2,948	3,093	10,269	24,369
Require coverage of three primary care visits and three behavioral health visits without cost-sharing	916	1,271	1,335	1,490	1,585	1,657	1,738	1,822	1,909	2,005	6,597	15,728
Allow selective basis boosts for bond-financed Low-Income Housing Credit projects	2	29	140	354	617	895	1,148	1,359	1,561	1,769	1,142	7,874
Make adoption tax credit refundable and allow certain guardianship arrangements to qualify	11	42	42	42	42	42	42	42	42	42	179	389
Capture savings to UI from RESEA allocation adjustment	24	62	115	158	195	225	250	–12	–54	359	963
Establish user fee for Electronic Visa Update System	–47	–52	–58	–64	–72	–79	–88	–108	–118	–130	–293	–816
Fund the Federal Payment Levy Program via collections	22	22	22	22	22	22	22	22	22	22	110	220
Total, receipt effects of mandatory proposals	2,339	3,327	3,632	4,264	4,801	5,296	5,770	6,199	6,352	6,747	18,363	48,727

³ Represents the savings associated with continuing to provide dedicated funding, through a discretionary allocation adjustment, for program integrity activities to confirm program participants remain eligible to receive benefits.⁴ This proposal includes an intragovernmental transfer between the Federal Capital Revolving Fund (FCRF) and the Federal Building Fund (FBF). The collections and spending in the FBF, the receiving account, are not counted for PAYGO purposes because the proposal expects the PAYGO cost to be recorded in the FCRF. The intragovernmental transfers net to zero and are as follows:

* Less than \$500 million.

¹ The 2021 actual level includes changes that occur after appropriations are enacted that are part of budget execution such as transfers, reestimates, and the rebasing as mandatory any changes in mandatory programs (CHIMPs) enacted in appropriations bills. The 2021 levels are adjusted to add back OMB's scoring of CHIMPs enacted in 2021 appropriations Acts for a better illustrative comparison with the 2023 request.

² At the time the 2023 Budget was prepared, 2022 appropriations remained incomplete and the 2022 column reflects at the account level annualized continuing appropriations provided under the Continuing Appropriations Act, 2022 (division A of Public Law 117-43, as amended by division A of Public Law 117-70, division A of Public Law 117-86, and Public Law 117-95; CR). The 2022 column also reflects enacted full-year emergency appropriations enacted in the Disaster Relief Supplemental Appropriations Act, 2022, the Afghanistan Supplemental Appropriations Act, 2022, and the Additional Afghanistan Supplemental Appropriations Act, 2022 (divisions B and C of Public Law 117-43 and division B of Public Law 117-70, respectively).

³ The 2023 Budget was finalized before 2022 appropriations were completed. To allow a high-level comparison of the 2023 Budget with enacted appropriations, this column provides a preliminary summary of 2022 enacted appropriations in the Consolidated Appropriations Act, 2022 (Public Law 117-103; CAA), using the Congressional Budget Office (CBO) estimate of the legislation (see CBO estimate for H.R. 2471, the Consolidated Appropriations Act, 2022 on CBO's website). CBO estimates of IIJA appropriations are not included since OMB includes its own estimate for 2022.

Table S-7. Funding Levels for Appropriated (“Discretionary”) Programs by Category—Continued

(Budget authority in billions of dollars)

-
- ⁴ The 2023 Budget proposes to shift the Indian Health Service (IHS) in HHS as well as contract support costs and 105(l) leases within the Bureau of Indian Programs (BIA) in the Department of the Interior to the mandatory side of the Budget starting in 2023. See the “Budget Process” chapter of the *Analytical Perspectives* volume of the Budget for more information on these proposals.
- ⁵ The 2023 Budget presents funding for anomalous or above-base activities such as emergency requirements, program integrity, disaster relief, wildfire suppression, and 21st Century Cures appropriations outside of base allocations, which is largely consistent with allocation adjustments in the FY 2022 Congressional Budget Resolution (H.Con.Res. 14).
- ⁶ The section presents base discretionary funding by both defense and non-defense and by security and nonsecurity allocations. The definition of security and nonsecurity is the same as the definition specified in the Budget Control Act of 2011 with security including the Departments of Defense, Homeland Security, Veterans Affairs, the National Nuclear Security Administration, the International Budget Function (150), and the Intelligence Community Management Account and with all other discretionary programs in the nonsecurity category. This presentation of discretionary excludes the proposed shifts to mandatory.
- ⁷ The amounts in the 2023 Budget are based on the forthcoming National Security and National Defense strategies and the Department of Defense Future Years Defense Program, which includes a five-year appropriations plan and estimated expenditures necessary to support the programs, projects, and activities of the Department of Defense. After 2027, the Budget mechanically extrapolates the growth rate from the final year of the five-year appropriations plan.
- ⁸ Section 905(c) of division J of the Infrastructure Investment and Jobs Act (Public Law 117-58; IIJA) specified that amounts provided in division J and certain rescissions in section 90007 of IIJA should be considered as emergency discretionary appropriations. The amounts provided as discretionary appropriations in IIJA are summarized here, however, these amounts are kept separate from other discretionary amounts included above that are considered during the regular appropriations process.

Table S–8. 2023 Discretionary Request by Major Agency

(Budget authority in billions of dollars)

	2021	2022	2023	2023 Request Less 2021 Enacted	
	Actual ¹	CR ²	Request	Dollar	Percent

* Less than \$50 million.

¹ The 2021 actual level includes changes that occur after appropriations are enacted that are part of budget execution such as transfers, reestimates, and the rebasing as mandatory any changes in mandatory programs (CHIMPs) enacted in appropriations bills. The 2021 levels are adjusted to add back OMB's scoring of CHIMPs enacted in 2021 appropriations Acts for a better illustrative comparison with the 2023 request.

² At the time the 2023 Budget was prepared, 2022 appropriations remained incomplete and the 2022 column reflects at the account level annualized continuing appropriations provided under the Continuing Appropriations Act, 2022 (division A of Public Law 117-43, as amended by division A of Public Law 117-70, division A of Public Law 117-86, and Public Law 117-95; CR). The 2022 column also reflects enacted full-year emergency appropriations enacted in the Disaster Relief Supplemental Appropriations Act, 2022, the Afghanistan Supplemental Appropriations Act, 2022, and the Additional Afghanistan Supplemental Appropriations Act, 2022 (divisions B and C of Public Law 117-43 and division B of Public Law 117-70, respectively).

³ Funding for Food for Peace Title II Grants is included in the State and International Programs total. Although the funds are appropriated to the Department of Agriculture, the funds are administered by the U.S. Agency for International Development (USAID).

⁴ The Department of Energy base total in 2021 includes an appropriation of \$2.3 billion that had been designated as emergency in Public Law 116-260 since the activities were for regular operations and not emergency purposes.

⁵ Funding from the Hospital Insurance and Supplementary Medical Insurance trust funds for administrative expenses incurred by the Social Security Administration that support the Medicare program are included in the Health and Human Services total and not in the Social Security Administration total.

⁶ The 2023 Budget proposes to shift the Indian Health Service (IHS) in HHS as well as contract support costs and 105(l) leases within the Bureau of Indian Programs (BIA) in DOI to the mandatory side of the Budget starting in 2023. See the "Budget Process" chapter of the *Analytical Perspectives* volume of the Budget for more information on these proposals.

⁷ The State and International Programs total includes funding for the Department of State, USAID, Treasury International, and 11 international agencies while the Treasury total excludes Treasury's International Programs.

⁸ The limitation enacted and proposed in the Justice Department's Crime Victims Fund program and cancellations in the Children's Health Insurance Program in HHS make up the bulk of these offsets.

⁹ The 2023 Budget was finalized before 2022 appropriations were completed. To allow a high-level comparison of the 2023 Budget with enacted appropriations, this memorandum section provides a preliminary summary of 2022 enacted base appropriations in the Consolidated Appropriations Act, 2022 (Public Law 117-103; CAA), using the Congressional Budget Office (CBO) estimate of the legislation (see CBO estimate for H.R. 2471, the Consolidated Appropriations Act, 2022 on CBO's website). This presentation of discretionary excludes the proposed shifts to mandatory.

¹⁰ The definition of security and nonsecurity is the same as the definition specified in the Budget Control Act of 2011 with security including the Departments of Defense, Homeland Security, Veterans Affairs, the National Nuclear Security Administration, the International Budget Function (150), and the Intelligence Community Management Account and with all other discretionary programs in the nonsecurity category.

* \$500 million or less.

¹ A decrease in the Treasury operating cash balance (which is an asset) is a means of financing a deficit and therefore has a negative sign. An increase in checks outstanding (which is a liability) is also a means of financing a deficit and therefore also has a negative sign. More information on the levels and changes to the operating cash balance is available in Chapter 4, "Federal Borrowing and Debt" in the *Analytical Perspectives* volume of the Budget.

² Includes checks outstanding, accrued interest payable on Treasury debt, uninvested deposit fund balances, allocations of special drawing rights, and other liability accounts; and, as an offset, cash and monetary assets (other than the Treasury operating cash balance), other asset accounts, and profit on sale of gold.

³ Consists mainly of debt issued by the Federal Financing Bank (which is not subject to limit), the unamortized discount (less premium) on public issues of Treasury notes and bonds (other than zero-coupon bonds), and the unrealized discount on Government account series securities.

⁴ The statutory debt limit is \$31,381 billion, as enacted on December 16, 2021.

⁵ Treasury securities held by the public and zero-coupon bonds held by Government accounts are almost all measured at sales price plus amortized discount or less amortized premium. Agency debt securities are almost all measured at face value. Treasury securities in the Government account series are otherwise measured at face value less unrealized discount (if any).

⁶ At the end of 2021, the Federal Reserve Banks held \$5,433.2 billion of Federal securities and the rest of the public held \$16,850.9 billion. Debt held by the Federal Reserve Banks is not estimated for future years.

⁷ Treasury's warrants to purchase 79.9 percent of the common stock of the enterprises expire after September 7, 2028. The warrants were valued at \$5 billion at the end of 2021.

⁸ Portions of the notes and warrants issued under the Air carrier worker support program (Payroll support program) are scheduled to expire in 2025, 2026, 2030, and 2031.
