**Mine Safety and Health Enforcement.**—This activity uses an integrated approach toward the prevention of mining accidents, injuries, and occupational illnesses, in coal, metal, and nonmetal mines. This includes inspection of mines and other activities as mandated by the Federal Mine Safety and Health Act of 1977 (Mine Act), as amended by the Mine Improvement and New Emergency Response Act of 2006 (MINER Act), special emphasis initiatives that focus on persistent safety and health hazards, promulgation of federal mine safety and health standards, investigation of serious accidents, and on-site education and training. The desired outcome of these enforcement efforts is to prevent death, disease, and injury from mining and promote safe and healthful workplaces for the Nation's miners.

**Office of Standards, Regulations, and Variances.**—This activity develops standards and regulations for the mining industry that protect the safety and health of miners.

**Office of Assessments.**—This activity assesses and collects civil monetary penalties for violations of safety and health standards and manages MSHA's accountability, special enforcement, and investigation functions.

**Educational Policy and Development.**—This activity develops and coordinates MSHA's mine safety and health education and training policies, and provides classroom instruction at the National Mine Health and Safety Academy for MSHA personnel, other governmental personnel, and the mining industry.

**Technical Support.**—This activity applies engineering and scientific expertise through field and laboratory forensic investigations to resolve technical problems associated with implementing the Mine Act and the MINER Act. Technical Support administers a fee program to approve equipment, materials, and explosives for use in mines and performs field and laboratory audits of equipment previously approved by MSHA. It also collects and analyzes data relative to the cause, frequency, and circumstances of mine accidents.

**Program Administration, Evaluation, and Information Resources (PAEIR).**— This activity performs program evaluation, information technology resource management services, and general administrative functions for the agency, and is responsible for meeting performance requirements and developing MSHA's performance plan and Annual Performance Report.

**Program Direction and Support.**—The Program Direction and Support (PDS) activity provides leadership and direction for the various DOL agencies. As part of its responsibilities, the PDS activity oversees a program of analysis and general research on issues affecting America's workforce, and also evaluates the effectiveness of Departmental programs. The PDS activity includes funding for the following organizations: Office of the Secretary; Office of the Deputy Secretary; Office of the Assistant Secretary for Policy; Office of Congressional and Intergovernmental Affairs; Office of Public Affairs; Office of Public Liaison; and the Centers for Faith and Opportunity Initiatives.

**Legal Services.**—The Office of the Solicitor (SOL) provides the Secretary of Labor and departmental program officials with the legal services, including enforcement litigation, required to accomplish the Department's mission. SOL enforces worker protection statutes in Federal courts and other tribunals, including bankruptcy courts and various administrative forums throughout the nation. SOL directly litigates cases under most civil programs under DOL's jurisdiction, including appellate matters, and runs a robust amicus program. SOL works hand-in-hand with DOJ in the few instances where SOL does not have direct litigating authority, and plays a significant role in developing many criminal investigations referred to DOJ and other law enforcement agencies. SOL also supports the Department's enforcement efforts by providing legal advice on individual investigations of labor violations. SOL's legal services are integral to the Department's rulemaking efforts, both in the development and then the defense of rules. SOL provides legal advice to the Department's agencies on a wide range of matters, including orders, written interpretations, and opinions and legislation, as well as legal services to Departmental management with respect to issues like appropriations, procurement, data privacy, FOIA, ethics, and employment law.

**International Labor Affairs.**—The Bureau of International Labor Affairs (ILAB) safeguards dignity at work, both at home and abroad, by strengthening global labor standards; enforcing labor commitments among trading partners; promoting racial and gender equity; and combating international child labor, forced labor, and human trafficking. ILAB combines monitoring and enforcement of labor provisions in U.S. trade agreements and preference programs, bilateral and multilateral engagement, research, and technical cooperation to carry out the international responsibilities of the Department of Labor.

**Administration and Management.**—Exercises leadership in all departmental administrative and management programs and services and ensures efficient and effective operation of Departmental programs; provides policy guidance on matters of personnel management, information resource management and procurement; and provides for consistent and constructive internal labor-management relations throughout the Department.

**Adjudication.**—Renders timely decisions on appeals of claims filed before four different components, which include the Office of Administrative Law Judges, the Administrative Review Board, the Benefits Review Board, and the Employees' Compensation Appeals Board. The Office of Administrative Law Judges also serves as the tribunal of first instance.

**Women's Bureau.**—Serves as the only Federal agency mandated by Congress to work exclusively on issues that affect women in the workplace and to represent the needs of wage-earning women in the public policy process. The Women's Bureau deploys its research, statistics, advocacy and grantmaking capacity to build evidence on best practice policy and programming to improve the employment and economic security of working women and advise the Secretary, the Administration, and colleague DOL agencies on in implementing policy and regulatory regulation impacting issues impacting working women.

**Civil Rights.**—Ensures compliance with certain Federal civil rights statutes and Executive Orders, and their implementing regulations, including Titles VI and VII of the Civil Rights Act of 1964, Sections 504 and 508 of the Rehabilitation Act of 1973, Title II of the Americans with

Disabilities Act of 1990, and Section 188 of the Workforce Innovation and Opportunity Act. These laws apply to and protect Department of Labor (DOL) employees, DOL applicants for employment, and individuals who engage the Nation's workforce programs or otherwise interact with DOL-supported programs and activities.

**Chief Financial Officer.**—Created as a result of the CFO Act of 1990, provides financial management leadership and direction to all DOL program agencies on financial matters arising from legislative and regulatory mandates such as the CFO Act, GMRA, FFMA, FMFIA, Clinger-Cohen, The Reports Consolidation Act, IPIA, Treasury Financial Manual guidance and OMB Circulars.

**Program Evaluation.**—The Office of the Chief Evaluation Officer is charged with coordinating and overseeing rigorous evaluations of the Department of Labor's programs, ensuring high standards in evaluations undertaken and funded by the Department, and in leading implementation of the Department's evidence-building agenda. Through its development and dissemination of rigorous scientific knowledge, the office builds evaluation capacity and expertise to ensure that evaluation and research findings are available and accessible for policy and program decision-makers in a timely and user-friendly way.

Diplomatic Programs (DP) is financed by this appropriation, fees for services, and reimbursements from other agencies (including for administrative and other services provided by the Department of State). As in previous years, two-year funding is requested for this account, except for funds requested for Worldwide Security Protection (WSP), which are to remain available until expended. DP is the Department of State's primary operating account and funds a broad range of activities from policy setting, planning and design, to implementation and operations and maintenance. The 2024 request includes base funding for the State Department operations in Iraq, Pakistan, and other High Threat Posts (HTP) as well as the new Pacific Island posts and the Department's return to Libya.

Funds are requested in the following categories:

**Human Resources.**—This category supports American salaries at overseas and domestic United States diplomatic missions, including Department of State employees carrying out security protection activities. Professional development and training is a continuous process by which the Department ensures that its professionals have the skills, experience and judgment to fulfill its functions at all levels. Training programs are designed to provide employees with the specific functional area and language skills needed for the conduct of foreign relations in the Department and abroad. This activity also supports the management, recruitment, and performance evaluation of Foreign and Civil Service employees (including efforts to attract a diverse applicant pool) and locally employed staff.

**Overseas Programs.**—This category provides funding for the operational programs of all the regional bureaus of the Department of State, which are responsible for managing United States foreign policy through bilateral and multilateral relationships. Funds made available for 2024 will support more than 270 United States embassies, consulates, and other diplomatic posts worldwide. Resources for this activity are used to provide for: the political and economic reporting and analysis of interests to the United States; the representation of U.S. diplomatic and national interests to countries abroad; and the bilateral and multilateral negotiation of U.S. foreign policy objectives, including the hosting of and participation in various international conferences, meetings, and other multilateral activities in the United States and abroad. This activity also encompasses medical programs for the Department of State, the Foreign Service and other U.S. Government departments and agencies overseas. Centralized funding for travel and transportation of effects associated with the assignment, transfer, home leave and separation of the Department's personnel and dependents is also included in this activity.

**Diplomatic Policy and Support.**—This category supports the operational programs of the functional bureaus of the Department of State, which includes providing overall policy direction, coordination, and program management among United States missions abroad in pursuit of regional and global foreign policy objectives, including the hosting of various international conferences and meetings in the United States and abroad. Funds to support the work of the Global Engagement Center (GEC) are also included in this category. The GEC's mission is to direct, lead, synchronize, integrate, and coordinate efforts of the Federal Government to recognize, understand, expose, and counter foreign state and foreign non-state propaganda and disinformation efforts aimed at undermining or influencing the policies, security, or stability of the United States, United States allies, and partner nations. Resources also fund the management of U.S. participation in arms control, nonproliferation, and disarmament negotiations and other verification and compliance activities, in addition to funds otherwise available for such purposes. The information management activity in DP includes resources that are used for the creation, collection, processing, use, storage, and disposition of information required for the formulation and execution of foreign policy and for the conduct of daily business. Components of the information management activity include: telecommunications, information security, information system services, pouch, mail and publishing services for both unclassified and classified information. These activities include domestic and overseas execution of Department programs, such as budget and financial management, contracting and procurement, domestic facilities and vehicles, and rental payments to GSA.

**Security Programs.**—This category provides for the operation of security programs, including for Worldwide Security Protection (WSP) and the Bureau of Diplomatic Security (DS), to protect diplomatic personnel, overseas diplomatic missions, residences, domestic facilities and information. The salaries paid to Department employees who carry out the security protection function worldwide are included in the Human Resources program activity. This activity identifies resources that are used in meeting security and counterterrorism responsibilities, both foreign and domestic. Programs covered in this activity include but are not limited to: security operations; engineering services, which are related to the technical defense of U.S. Government personnel and establishments abroad against electronic and physical attack; homeland security related activities; protection of Department personnel and foreign dignitaries; and physical security operations.

The Department of State continues to seek stable budget authorities to ensure that the Bureau of Consular Affairs (CA) can function as a self-sustaining fee-funded operation for the long-term. The Consular and Border Security Programs account (CBSP) uses revenue from consular fees and surcharges to fund programs and activities, consistent with applicable statutory authorities. These fees and surcharges include Machine Readable Visa (MRV) fees, Western Hemisphere Travel Initiative (WHTI) surcharges, Passport Security surcharges, Immigrant Visa Security surcharges, Diversity Visa Lottery fees, H and L Visa Fraud Prevention and Detection Fees,

## CONSULAR AND BORDER SECURITY PROGRAMS—Continued

Affidavit of Support fees, Expedited Passport Fees (EPF), and use of J Waiver Fees from a Diplomatic Programs account.

The Passport Application and Execution Fees (PAEF) provided in FY 2022 are the only retained fees that are specifically designated by Congress to offset the costs for providing U.S. citizen services overseas. The expenditure authority for PAEF and other fees also reduces the reliance on Machine-Readable Visa (MRV) fees to fund U.S. citizen services and costs while providing critical resilience to fluctuations in demand and temporary revenue authorities. In FY 2024, the Budget requests \$250 million to support critical U.S. citizen services and passport activities using PAEF revenues, offset with a proposed cancellation of \$250 million in other CBSP prior-year balances. The proposal will enable PAEF balances and new receipts to be applied to meet the cost of critical U.S. citizen services and passport activities for which the fee is being charged to the public.

Section 7026(k)(9) of the general provisions provides a permanent extension of the Western Hemisphere Travel Initiative Surcharge. Section 7070 provides for the recovery of costs of consular services not otherwise subject to visa fees and surcharges retained by the Department. Section 7071 provides legislative language expanding the authorities of the Border Crossing Card and Passport Security Surcharge. Finally, Section 7061 provides the ability to use the Fraud Prevention and Detection fees for the costs of providing consular services.

The Department plays a vital role in supporting U.S. citizens through emergency and standard services, issuing millions of secure passports to U.S. citizens domestically at 29 passport facilities and more than 8,000 state and local government facilities and protecting U.S. borders through visa adjudications. Together with the Department of Homeland Security, the Department of Justice, the Intelligence Community, Department of the Treasury, and the law enforcement community, the Department strengthens its layered visa and border security screening system that rests on training, fraud prevention and detection, technological advances, biometric innovations and expanded data sharing. These efforts are only possible building on a strong, stable, and constantly improving base of security, technology, and trained personnel funded by consular fees and surcharges.

This appropriation provides for the implementation of audits, investigations, and inspections of the Department's programs and operations as mandated by the Inspector General Act of 1978, as amended, and the Foreign Service Act of 1980, as amended. The objectives of the Office of the Inspector General (OIG) are to: improve the economy, efficiency, and effectiveness of the Department's operations; detect and prevent fraud, waste, abuse, and mismanagement; and evaluate independently the formulation, applicability, and implementation of security standards at all U.S. diplomatic and consular posts. The OIG also assesses the implementation of U.S. foreign policy, primarily through its inspection of all overseas posts and domestic offices on a cyclical basis. The State Department's Inspector General also serves as Inspector General of the U.S. Agency for Global Media and has partial oversight of Department of State-managed foreign assistance resources, as mandated by law. In addition, this appropriation funds the Office of the Special Inspector General for Afghanistan Reconstruction (SIGAR). SIGAR provides independent oversight of programs and operations funded for the reconstruction of Afghanistan. SIGAR performs this oversight through audits, field inspections and investigations of potential waste, fraud and abuse in coordination with, and receiving the cooperation of, the Inspectors General of the Department of State, Department of Defense and the United States Agency for International Development.

This appropriation provides funding to the Bureau of Educational and Cultural Affairs (ECA) for international exchange programs authorized by the Mutual Educational and Cultural Exchange Act of 1961, as amended, to support U.S. foreign, economic, security policy objectives and to advance U.S. influence overseas. These goals are addressed by building increased mutual understanding through international exchange and professional development activities. Programs under this appropriation include:

**Academic Programs.**—Includes the J. William Fulbright Educational Exchange Program, which provides U.S. and international students, teachers, scholars, and administrators the opportunity to pursue degrees, teach, and conduct research in foreign and U.S. universities. Academic Programs also include English language programming and educational advising services. English language programs help train and develop foreign teachers of English, send Americans overseas to teach English and train instructors, teach English to disadvantaged students, and provide language learning materials and resources. In addition, educational advising programming supports outreach to international students worldwide to assist in applying to U.S. universities. Additional academic programs, such as the Benjamin A. Gilman International Scholarship Program, provide opportunities for American participants with financial needs to study abroad. The American Spaces Program supports more than 600 open-access cultural centers that freely share American books, movies, and programs that demonstrate American values with foreign audiences in more than 140 countries to connect the world with the United States. The Madeleine K. Albright Fellowship Program is for participants from foreign countries focusing on understanding and promoting the core principles of a democratic society.

**Professional/Cultural Exchanges.**—Includes exchanges linking U.S. and foreign participants in multiple fields directly tied to U.S. foreign policy goals. The International Visitor Leadership Program brings thousands of foreign leaders to the United States for intensive short-term professional exchanges to meet and confer with their American counterparts, gaining first-hand knowledge about U.S. society, culture and democratic values. The Citizen Exchanges Program participants partner with an extensive network of organizations and experts from across the United States to conduct professional fellowships and arts, sports, and high school exchange programs focused on current and future leaders. The Citizen Exchanges Program also includes the TechCamp Program, which leverages cutting-edge communications and private sector expertise to build networks of influential activists worldwide to advance shared policies including countering disinformation, supporting good governance, and mitigating violent extremism.

**Youth Leadership Initiatives.**—Includes programs targeting young private, public, and civil sector leaders in Africa, Southeast Asia, and the Americas.

**Program and Performance.**—Includes the U.S. Speakers Program that connects professional foreign audiences with American experts on topics of strategic importance to the United States and collaborates with U.S. embassies and consulates worldwide to develop and implement customized programs. Funds also support opportunities for ECA program alumni to build on participant experiences and maximize the return on investment in people-to-people connections by turning exchange experiences into enduring relationships that are part of a growing network of active alumni associations across the globe, as well as on-going evidence-based program performance measurements and independent evaluations to strengthen ECA's ability to monitor, evaluate, learn, and innovate.

**Exchanges Support.**—Includes all domestic staff, overseas Regional Language Officers, and operational support costs managed by ECA, and provides government-wide exchanges coordination.

Under the direction of the Secretary of State, the overall mission of the Bureau of Overseas Buildings Operations (OBO) is to provide U.S. diplomatic and consular missions abroad with safe, secure, and functional facilities that support the foreign policy objectives of the United States. Specific program functions include: providing guidance to posts, the regional bureaus and other foreign affairs agencies on the renovation, construction and operations of facilities; providing expert space and facilities planning; managing and overseeing the design, construction, and renovation of mission facilities; incorporating security features into overseas and domestic facilities; and ensuring the security of facilities during construction or renovation. In addition, OBO is responsible for establishing standards and policies for overseas housing, developing, in conjunction with posts, effective maintenance programs for post facilities, and monitoring and reporting the inventory of maintenance and backlog requirements. OBO also ensures the safety of the building occupants through the development of fire/life safety and accessibility compliance programs.

In 2024, the Department will manage the twentieth year of the Capital Security Cost Sharing (CSCS) Program. This program has two main goals: accelerating the construction of new safe, secure and functional embassy and consulate compounds, and providing an incentive for all United States Government agencies to right-size their presence overseas through the use of cost-sharing. The \$2.4 billion program includes funding consistent with the Benghazi Accountability Review Board's recommended funding level for the construction of new secure facilities overseas. The 2024 request continues the Maintenance Cost Sharing (MCS) Program to provide critically needed renovation, construction and repair of overseas facilities, to provide adequate working conditions for multi-agency staffs, and protect the U.S. taxpayer investment. Both programs are funded within a combined CSCS-MCS program in FY 2024. Funding sources include ESCM appropriations, interagency contributions, and consular fee revenues.

The objective of the Asset Management Program is to obtain the best use of diplomatic and consular properties overseas through sale of surplus or underutilized properties and reinvestment of the proceeds in properties that provide a greater return to the U.S. Government and/or improve the safety of mission personnel. In lieu of appropriated resources, OBO uses asset sales proceeds for long-term capital investment to minimize the growth of U.S. Government leasehold requirements (through property acquisition) or to address a high-priority need for new construction or fit-out of leased space.

This appropriation also provides for capital expenditures necessary to preserve, maintain, repair, and plan for buildings owned or leased by the Department of State overseas.

For FY 2024, the Budget includes an estimated transfer of \$146 million from this account to the proposed, new Enduring Welcome Administration and Support account, providing consolidated, flexible funding to ensure that we meet our commitment to our Afghan partners who served alongside us in Afghanistan. While the actual transfer will be subject to facility requirements, the transfer shown is the estimated FY 2024 remaining balance of funds previously transferred to this account pursuant to section 122 of the Continuing Appropriations Act, 2023 (Div. A, P.L. 117180).

The current appropriation finances any unfunded liability created by new or liberalized benefits, new groups of beneficiaries, and salary increases. The 2024 permanent appropriation provides a supplemental payment to the fund for disbursements attributable to the Foreign Service Pension System; and unfunded interest along with liability from military service for the Foreign Service Retirement and Disability System. In addition, the appropriation also finances the annual balance of the Foreign Service normal cost not met by employee and employer contributions. The amount of the appropriation is determined by the annual evaluation of the Fund balance derived from current statistical actuarial data, which includes inflationary cost-of-living adjustments.

The Foreign Service National Defined Contributions Fund (FSNDCF) is an after-employment benefit plan for Locally Employed Staff (LE Staff) working for the Department of State and other Foreign Affairs agencies. The purpose of the fund is to accumulate and distribute U.S. Government (USG)-funded contributions for end-of-service benefits for LE Staff in countries where U.S. missions have determined that participation in the local social security system (LSSS) is not in the public interest of the USG. The Department determines which countries are eligible to participate in the fund. Upon separation, payments under this Plan shall be made consistent with the host country law, including any court order affecting payments to participants, unless decided otherwise by the Department.

This fund, which is available without fiscal year limitations and is authorized by sections 13 and 23 of the State Department Basic Authorities Act of 1956 (22 U.S.C. 2684), finances on a reimbursable basis certain administrative services, such as printing and reproduction, editorial material, motor pool, operations and dispatch agencies operations, inter-agency cooperative administrative support services, acquisition services, information technology support, medical services, aviation services, special issuance passport services, and expenses of carrying out the Foreign Missions Act, including any acquisitions of property under the authority of the Foreign Missions Act. Over the last year, the Department has added a new service center for Real Property Management and a new Parking Services cost center under the existing Operations service center.

The International Cooperative Administrative Support Services (ICASS) program was fully implemented in 1998 using the Working Capital Fund. ICASS allows more decision-making and managerial participation by all participating agencies, more equitable cost distribution, and incentives for efficient provision of services. Under ICASS, each agency represented at an overseas post chooses the services it wishes to receive and pays a proportional share of the cost of those services. Working through inter-agency councils at each overseas post, all agencies have a say in determining post administrative budgets and defining service standards, as well as reviewing costs and vendor performance.

The Foreign Service Retirement and Disability Fund (FSRDF) was established in 1924 to provide pensions to retired and disabled members of the Foreign Service. The FSRDF's revenues consist of contributions from active participants and their U.S. Government agency employers; appropriations; and interest on investments. Monthly annuity payments are made to eligible retired employees or their survivors. The FSRDF includes the operations of two separate retirement systems—the Foreign Service Retirement and Disability System (FSRDS) and the Foreign Service Pension System (FPS). This appropriation provides mandatory funding for the Foreign Service Retirement and Disability Fund (FSRDF) as prescribed in the Foreign Service Act of 1980 as authorized in Section(s) 821 and 822.

**Engineering.**—Resources provide for technical engineering guidance and supervision of planning, construction, operation and maintenance, and environmental monitoring and compliance of international projects; studies relating to international problems of a continuing nature; and preliminary surveys and investigations to determine the need for and feasibility of projects for the resolution of international problems arising along the boundary.

This appropriation provides the United States' treaty mandated assessments and expenses to 19 international commissions and organizations including three bilateral commissions (the Great Lakes Fisheries Commission, the International Pacific Halibut Commission, and the Pacific Salmon Commission), nine multilateral bodies, two marine science organizations, one whaling commission, the Arctic Council and the Antarctic Treaty Secretariat, as well as funding regional sea turtle and shark conservation, and travel expenses of non-government U.S. commissioners and their advisors. These commissions and organizations coordinate scientific studies of shared fish stocks and other living marine resources and their habitats and establish common management measures to be implemented by member governments based on their results. Many entities also oversee the allocation of fishing rights to their members. In addition, the Great Lakes Fishery Commission carries out a program to eradicate the invasive, parasitic sea lamprey. The marine science organizations coordinate international research on valuable fisheries, oceanography, and marine ecosystems and the results are publicly disseminated and used to advise member governments on fisheries and marine science policy.

The Global Health Programs account funds health-related foreign assistance for the Department of State (DOS) and the U.S. Agency for International Development (USAID). Global health programs seek to improve health outcomes by increasing impact through strategic integration and coordination; strengthening and leveraging multilateral institutions; encouraging country ownership and investing in country-led plans; building sustainability through health systems strengthening; improving metrics, monitoring and evaluation; and promoting research, development and innovation.

**Global Health Programs-State.**—The Global Health Programs-State (GHP-State) account supports the goal of controlling the HIV/AIDS epidemic through the President's Emergency Plan for AIDS Relief (PEPFAR). The 2024 Budget requests \$6,370.0 million in the GHP-State account for global HIV programming. PEPFAR is led and coordinated by the Office of the Global AIDS Coordinator (S/GAC) in DOS, which draws upon the expertise and experience of other U.S. government partners including USAID, the Department of Health and Human Services, the Department of Defense, and the Peace Corps to align resources, activities, and expertise at the country level in the fight against global AIDS. Programs work through expanded partnerships to build capacity for efficient, effective, innovative, country-led, and sustainable services, and to create a supportive and enabling policy environment for combating HIV/AIDS, including as part of the broader USG and country-level health and development approach. In addition, S/GAC supports strong monitoring evaluation and accountability systems to set benchmarks for outcomes and programmatic efficiencies through regularly assessed planning and reporting processes to ensure goals are being met. PEPFAR programs support strategic, scientifically sound investments to rapidly scale up core HIV/AIDS prevention, care, and treatment interventions within the context of strengthened health systems, particularly in terms of human resources in nations with severe health worker shortages and lack of service delivery capacity. PEPFAR supports the advancement of the Administration's Global Health Worker Initiative as part of strengthening the public health system, and will continue to prioritize support for healthcare workers, who have been critical to the progress made towards HIV epidemic control to date and will be critical to sustaining that progress in the years to come. PEPFAR integrates its efforts with important programs in other areas of global health as well as other areas of development, including the areas of education, gender equity, and economic development. A contribution of \$2,000.0 million to the Global Fund to Fight AIDS, Tuberculosis and Malaria is included in GHP-State for the seventh replenishment, with the United States offering to match \$1 for every \$2 contributed by other donors. \$50 million is requested for a United States contribution to the United Nations Joint Program on HIV/AIDS (UNAIDS) in support of the Sustainable Development Goal 3 to end AIDS by 2030 through strategic direction, normative guidance through WHO, civil society advocacy and technical support. The Administration strongly supports congressional reauthorization of the PEPFAR program during FY 2023 and will work with congressional and other stakeholders to ensure that PEPFAR has the tools it needs to empower countries to reach the 95–95–95 goals and implement the five-year strategy.

The Budget request for GHP-State also includes \$500 million for the Pandemic Fund, which will strengthen global health security and pandemic preparedness and help make the world safer from infectious disease threats. One year after President Biden made the first public pledge at the First Global COVID-19 Summit, the Pandemic Fund was formally launched, and to date has mobilized \$1.6 billion in initial commitments from over two dozen donors, including sovereign nations and philanthropies. Continued U.S. leadership is critical to help mobilize long-term and sustainable resources from other donors, and will help maximize the Fund's goals, which include : 1) Building capacity and demonstrating capability; 2) Fostering cooperation amongst countries globally and regional across sectors and within countries; 3) Incentivizing additional investments in pandemic prevention, preparedness, and response; and 4) Ensuring administrative and operational efficiency of resources.

**Global Health Programs-USAID.**—The 2024 Budget requests \$4,058.0 million in the GHP-USAID account for a comprehensive and integrated approach to prevent child and maternal deaths, combat infectious disease threats, and control the HIV epidemic. This approach strives to maximize impact and to expand its reach by building upon previous investments made through maternal and child health, nutrition, family planning and reproductive health, vulnerable children, tuberculosis, neglected tropical diseases, global health security, the President's Emergency Plan for AIDS Relief, and the President's Malaria Initiative. This approach will continue to save millions of lives while fostering sustainable health care delivery systems that can address the full range of developing country health needs including preparing for, and responding to, the next global disease outbreak or pandemic. USAID, working in partnership with foreign governments, local private sector and non-governmental organizations, and other public-private partnerships, will build capacity, strengthen health systems, and promote sustainable integrated health care for vulnerable populations. The Budget provides \$300 million to support a contribution to Gavi, the Vaccine Alliance. It also provides \$220 million for contributions to multilateral organizations working to enhance global health security, and \$90 million to replenish the Emergency Reserve Fund. It also includes \$10 million for the Health Reserve Fund to support global health activities in challenging environments and countries in crisis, and \$20 million to support the Administration's Global Health Worker Initiative by protecting and expanding the global health workforce and advancing equity and inclusion.

The Complex Crises Fund (CCF) account supports programs to prevent or respond to emerging or unforeseen complex crises overseas. USAID deploys CCF when there is an unanticipated and overwhelming urgent need or window of opportunity where a U.S. Government response will help stem the rise of violent conflict and instability or advance the consolidation of peace and democracy. CCF funding allows the U.S. Government to respond to rapidly changing, complex crises that include a combination of humanitarian, political, and security dimensions and contributes to overarching U.S. foreign policy or national security goals.

The FY 2024 Budget includes a request to establish an Enduring Welcome Administration and Support account. The purpose of this new account is to ensure that we meet our commitment to our Afghan partners who served alongside us in Afghanistan by providing a consolidated, flexible funding source to meet these complex responsibilities through the State-led, whole-of-Government effort known as Enduring Welcome (EW). No new budget authority is requested for this account. FY 2024 will be a transition year to begin funding Enduring Welcome administration and operations using this account upon enactment of legislative authority.

All activities associated with Enduring Welcome in FY 2024 will be funded using appropriations from prior years or transferred to the Department of State for this purpose, which the Budget estimates will total nearly \$3.8 billion in carryover into FY 2024. Of these, about \$2.3 billion will be transferred into the new EW account while approximately \$1.4 billion will remain and be obligated directly from the following accounts: \$370 million in the Diplomatic Programs account, approximately \$890 million in the Emergency Migration and Refugee Assistance account, approximately \$20 million in Emergencies in Diplomatic and Consular Service account, and approximately \$150 million in Embassy Security, Construction, and Maintenance account. In total, the Budget assumes estimated requirements of about \$2.0 billion for EW in FY 2024, including approximately \$587 million in this account and \$1.4 billion in remaining balances in the aforementioned four accounts. The FY 2024 activity represents a current estimate at the time the budget was submitted and is subject to change.

International Narcotics Control and Law Enforcement (INCLE) advances U.S. national security interests by supporting bilateral, regional, and global programs that enable partners and allies to manage and address transnational threats at their source. INCLE programs mitigate security threats posed by all forms of transnational crime, including production and trafficking of narcotics, and strengthen partner countries' criminal justice systems. These programs improve the ability of partner countries to cooperate effectively with U.S. law enforcement, and address the underlying conditions, such as corruption and weak rule of law, that foster state fragility and spur irregular migration to the United States.

The FY 2024 Budget proposes to establish a new Compact Assistance Fund at the Department of State. The account will support the FY 2024 mandatory proposal to amend and extend economic assistance and federal programs and services relating to the Compacts of Free Association (COFAs) currently under negotiation with the Freely Associated States (FAS) of the Marshall Islands, Micronesia, and Palau. The account will be used to manage annual grant funding associated with the COFAs related to economic assistance and for continued U.S. Postal Service (USPS) services to the FAS. The proposal assumes continued implementation of the COFA agreements by the Department of the Interior and dedicated payments to the Postal Service Fund. Estimated outlays for this account entry should be combined with outlays for the Republic of the Marshall Islands Compact and the Federated States of Micronesia Compact, which can be found within the Department of the Interior's Compact of Free Association account.

Established by the Millennium Challenge Act of 2003, the Millennium Challenge Corporation (MCC) partners with low and low-middle income countries to reduce poverty through economic growth. MCC provides large grants to developing countries that meet rigorous standards for good governance, from fighting corruption to respecting democratic rights, as evaluated by MCC's scorecard. MCC takes a business-like approach, with bedrock commitments to data, accountability, and evidence-based decision making. Since its inception, MCC has signed 44 compacts and 30 threshold program agreements, totaling an investment of \$15.3 billion dollars. In addition to providing large grants, MCC works with countries to advance policy and institutional reforms to create the enabling conditions for private sector-led growth. MCC's evidence-based approach leads to compacts that drive partner country ownership, including financial accountability and transparent and fair procurement practices, and measurable development impact to ensure that MCC assistance is used responsibly and effectively. In FY 2024, MCC will build on its rigorous, evidence-based model and will focus on the strategic areas of climate change, inclusion and gender, and sustainable infrastructure investments that are aligned with the Part-

nership for Global Infrastructure and Investment. Focusing on these priority areas will enable MCC to expand impact and further strengthen its ability to deliver on its mission to reduce poverty through sustainable and inclusive economic growth.

The 2024 Budget requests mandatory resources in a new International Infrastructure Fund, to be implemented by MCC and other international agencies, as part of a broader proposal to out-compete China globally. MCC's grant financing of high-quality, sustainable infrastructure stands in contrast to predatory financing from other sources.

The Global Security Contingency Fund (GSCF) permits the Department of State and the Department of Defense to combine resources and expertise to address emergent challenges and opportunities. The GSCF can be used to provide military and other security sector assistance to enhance a country's national-level military or other security forces' capabilities to conduct border and maritime security, internal defense, and counterterrorism operations, or to participate in or support military, stability, or peace support operations, consistent with U.S. foreign policy and national security interests. The GSCF can also be used to provide assistance to the justice sector (including law enforcement and prisons), rule of law programs, and stabilization efforts in cases where civilian providers are challenged in their ability to operate. Assistance programs under this account are collaboratively developed by the Department of State and the Department of Defense. The fund allows direct contributions from each Department to be transferred into the fund for implementation by the most appropriate agency in a given situation, be it State, Defense, the U.S. Agency for International Development, or others. No direct funding is requested in 2024.

This account is shown on a cash basis and reflects the transactions resulting from loans provided to finance sales of defense articles, defense services, and design and construction services to foreign countries and international organizations. No new loan disbursements are made from this account. Certain collections made into this account are made available for default claim payments. The Federal Credit Reform Act (FCRA) provides permanent indefinite authority to cover obligations for default payments if the liquidating account funds are otherwise insufficient. All new foreign military financing credit activity in 1992 and after (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year) is recorded in corresponding program and financing accounts.

The amounts in this account are a means of financing and are not included in budget totals. It is an account established for the debt relief of certain countries as established by Public Law 103-87, Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1994, Section 11, Special Debt Relief for the Poorest, Most Heavily Indebted Countries. The MDRF buys a portfolio of loans from the Foreign Military Loan Liquidating Account, thus transferring the loans from the Liquidating Account to the MDRF Account.

### Clean Technology Fund

The Clean Technology Fund (CTF) was created in 2008 to provide concessional financing to multilateral development bank (MDB) projects or stand-alone projects to support clean technology and energy.

Since its establishment, the CTF has invested over \$5.3 billion in helping emerging markets scale up deployment of clean and energy efficient technologies. Every dollar of financing committed by the CTF is expected to mobilize \$10.50 in co-financing from the MDBs and other public and private actors. The private sector has accounted for the largest share of co-finance: \$3.40 dollars for every \$1 in CTF finance.

The Global Agriculture and Food Security Program (GAFSP) is a multi-donor trust fund dedicated to improving food and nutrition security worldwide. It provides grants to low-income countries to support national agriculture and food security investment plans that governments develop together with farmers, agribusinesses, technical experts, and civil society through a participatory and transparent process. Governments, farmer and producer organizations, and the private sector are in the lead, designing and implementing these projects in partnership with a development agency of their choice.

Launched by the G20 in the wake of the global response to the 2007–08 food price crisis, GAFSP works to build resilient and sustainable agriculture and food systems in the world's poorest countries. GAFSP has provided direct support through projects to more than 16 million rural-dwelling people, including nearly 7 million women. Since 2010, GAFSP has pooled over \$2 billion in donor funds and provided financial and technical resources - grants, technical assistance, concessional loans, blended finance, and advisory services - to demand-driven projects along the food chain, from "farm to table." Of GAFSP's \$2 billion portfolio, 60 percent is dedicated to Africa, 12 percent to East Asia, 11 percent to South Asia, and 8 percent to other countries (e.g. Central Asia and Europe). In 2022, with strong U.S. support, GAFSP issued a Call for Proposals targeting the food security crisis exacerbated by Russia's war on Ukraine.

The 2024 Budget includes \$27 million for multilateral development bank (MDB) trust funds that support investment in infrastructure and resilience. Funding will support initiatives such as the World Bank's Pacific Catastrophe Risk Assessment and Financing Initiative (PCRAFI) and

the African Development Bank's Adaptation Benefits Mechanism (ABM). U.S. participation in such funds enhances standing within the MDBs and allows the U.S. to help shape policies and details of the funds.

PCRAFI is a multi-donor trust fund that supports the Pacific Catastrophe Risk Insurance Company, which offers parametric insurance to Pacific Island countries, to protect them against risk from natural disasters. ABM will de-risk and incentivize loan and equity investments that will serve to enhance resilience in African countries by facilitating payments for adaptation actions. The U.S. would be the catalytic anchor contributor to the ABM, providing the opportunity to shape the details of the fund.

## TREASURY INTERNATIONAL ASSISTANCE PROGRAMS

The 2024 Budget requests \$50 million in additional resources for international financial institutions (IFIs), other international organizations, and financial intermediary funds and trust funds administered through IFIs and other international organizations to meet new and emergent needs. Requested resources will be used to support global macroeconomic and financial stability and international development, and to advance U.S. strategic priorities and leadership, including countering the influence of malignant actors. Funding provided through this account would enable Treasury to implement innovative solutions to address those needs in a timely manner.

### Green Climate Fund

Established in 2010, the Green Climate Fund (GCF) is the world's largest multilateral fund for supporting developing countries in building resilience against weather-related challenges and fostering low-emissions development. The GCF invests in projects in partnership with a broad network of accredited entities, including U.S. private sector companies, and coordinates on projects with international development experts including the U.S. Agency for International Development and U.S. International Development Finance Corporation. The GCF advances its mission by using a range of financial instruments to support its projects and programs to attract private sector investment and foster stronger policy environments in developing countries.

The GCF funds activities across a variety of sectors, including transport, water and other infrastructure, energy generation and efficiency, and land use, including agriculture and forestry. GCF projects have helped to promote energy security and innovation; build resilience against natural disasters; and conserve critical ecosystems in developing countries, particularly the least developed countries, small island developing countries, and African countries. As of December 2022, the GCF has approved 207 projects, using \$11.4 billion in funding and attracting \$31.2 billion in co-financing. Through these investments, the GCF will continue to support development that is sustainable, resilient, and resource-efficient. The FY 2024 Budget requests a total of \$1.6 billion for the GCF: \$800 million in the Department of the Treasury and \$800 million in the Department of State.

### International Bank for Reconstruction and Development

The International Bank for Reconstruction and Development (IBRD) is the arm of the World Bank that provides financing to creditworthy lower middle and middle-income countries to promote inclusive economic growth and reduce poverty. These countries—home to over 70 percent of the world's poor—rely on the IBRD for financial resources and strategic advice to meet their development needs. Working across a range of sectors, including governance, agriculture, sustainable infrastructure, health and nutrition, and education, the IBRD supports long-term human and social development needs which private creditors generally do not finance. During its 2022 fiscal year (July 1, 2021 to June 30, 2022), the IBRD approved \$33 billion in loans and technical assistance. Latin America and the Caribbean received the largest portion of the IBRD's lending at \$8.9 billion (27 percent), followed by the East Asia and Pacific region at \$5.4 billion (16 percent) and the Europe and Central Asia region at \$4.6 billion (14 percent). In FY 2022, IBRD approved over \$8.4 billion in infrastructure financing (25 percent of total approvals) comprised of \$3.1 billion in energy, \$509 million in information and communications technologies, \$3.0 billion in transportation, and \$1.7 billion in water infrastructure.

The United States is and will remain the largest shareholder in the IBRD, and the United States is the only country with veto power over amendments to the Articles of Agreement. The United States share of total voting power will be 15.9 percent after all countries subscribe to their shares under the 2018 capital increase. The next largest countries are Japan, whose share will be 6.8 percent, followed by China, with a 5.5 percent share.

#### Global Environment Facility

The Global Environment Facility (GEF) is one of the largest dedicated funders of projects to improve the global environment. Since its inception, the GEF has provided \$22 billion in grants and blended finance and an additional \$120 billion in co-financing of more than 5,000 projects. The GEF benefits the U.S. economy and environment by addressing many global environmental problems that affect our domestic health, safety, and prosperity, such as by conserving tropical forests, combatting wildlife trafficking, reducing harmful pollution, and conserving fish stocks outside U.S. waters.

#### International Finance Corporation

The International Finance Corporation (IFC) is the private sector arm of the World Bank Group. Established in 1956, it promotes private sector development in developing countries by making loans and equity investments in private sector projects, mobilizing private capital alongside its own resources, and providing advisory and technical assistance services. In its 2022 fiscal year, the IFC made \$12.6 billion in long-term investment commitments from its own resources ("own account") and mobilized an additional \$10.6 billion from other sources for 296 projects in 68 countries. IFC made 28 percent of its long-term, own account commitments to the poorest and most fragile countries (those eligible for funding from the World Bank's IDA) in 2022, up from a baseline of 21 percent in 2018. IFC aims to increase this share to 40 percent by 2030. IFC also made \$9.7 billion in short-term investment commitments in 2022. IFC made long-term commitments across the globe in 2022. The largest recipient regions were East Asia and Pacific at \$3.0 billion (24 percent), Latin America and Caribbean at \$3.2 billion (25 percent), Africa at \$2.6 billion (21 percent), and South Asia at \$1.6 billion (13 percent). The top sectors for IFC long-term investment in 2022 were financial markets at \$6.2 billion (49 percent), infra-

structure at \$1.6 billion (13 percent), and manufacturing at \$1.1 billion (9 percent). IFC spent \$251 million on advisory services in 2022, with IDA countries receiving \$128 million (51 percent).

## International Development Association

The International Development Association (IDA) is the arm of the World Bank Group that supports poverty reduction and development in the world's 74 poorest countries. IDA works across a wide range of sectors including education, health, clean water and sanitation, environment, infrastructure, agriculture, and governance. Because countries receiving IDA financing are too poor and lack creditworthiness to attract sufficient capital to support their significant development needs, they depend on concessional finance—low or no interest loans and grants—to create jobs, build critical infrastructure, improve governance and public service delivery, increase agricultural productivity, increase access to energy, improve job creation and the business environment, and invest in the health and education of future generations. IDA's goal is to help countries reduce poverty and achieve higher levels of growth and institutional capacity. Over time, IDA's support helps countries finance their development needs through domestic revenues and borrowing at non-concessional rates, including through international markets. During the World Bank's 2022 fiscal year (July 1, 2021, to June 30, 2022), IDA supported projects totaling \$37.3 billion, of which, \$27 billion (72 percent) went to countries in Sub-Saharan Africa. Countries in the South Asia region received the second largest amount at \$4 billion (11 percent). As of September 2022, the United States holds the largest percent of total votes in IDA at 9.9 percent, followed by Japan at 8.3 percent and the United Kingdom at 6.8 percent. Voting power distribution fluctuates slightly with each IDA replenishment.

## Multilateral Debt Relief Initiative

Launched in 2006 at the urging of the United States, the Multilateral Debt Relief Initiative (MDRI) provides 100 percent cancellation of eligible debt to the concessional financing windows of the World Bank and the African Development Bank. Countries receive MDRI benefits after completing the reforms under the Heavily Indebted Poor Countries (HIPC) Initiative and demonstrating a track record of improved economic policy performance. The purpose of this debt treatment is to free up more resources in well-performing low-income countries for poverty-reducing expenditures in areas such as health, education, and rural development. In accordance with MDRI rules, donors compensate IDA for the cancelled debt on a dollar-for-dollar basis according to the payment schedules of the original loans. IDA calculates donors' MDRI commitments at the start of each three-year replenishment cycle according to a burden-sharing percentage. Each donor's commitments to MDRI at IDA must be met within the three-year replenishment period to avoid a negative impact on IDA's financial capacity. The U.S. share of the cost of MDRI under IDA-20 is \$650 million.

### Inter-American Development Bank

The Inter-American Development Bank (IDB) is the largest source of development financing for 26 countries in Latin America and the Caribbean, a strategically significant and economically important region for the United States where roughly 144 million people live in poverty. In 2022, the IDB approved \$14.1 billion in financing. The United States is the largest shareholder in the IDB, with 30 percent of total shareholding, enabling the United States to wield significant influence over major decisions about the direction of the IDB.

### Inter-American Investment Corporation (IDB Invest)

The Inter-American Investment Corporation (IIC), colloquially known as IDB Invest, is an arm of the Inter-American Development Bank Group established in 1984. IDB Invest promotes development of the private sector in Latin America and the Caribbean. It is a legally autonomous entity whose resources and management are separate from those of the IDB itself. In 2017, the IIC implemented organizational and operational reforms stemming from the 2016 consolidation of the IDB's private sector financing activities into the IIC. As a result of this consolidation, all of the IDB Group's private sector lending activities, including for small- and medium-sized enterprises and financing for private infrastructure and corporate entities (with the exception of small-scale innovation focused work being done by IDB lab), are now funded by IDB Invest. In 2022, IDB Invest committed approximately \$6.6 billion in short- and long-term financing.

### Asian Development Bank

The Asian Development Bank (AsDB) promotes broad-based sustainable economic growth and development, poverty alleviation, and regional cooperation and integration in the Asia-Pacific region. It has two main financing windows: (1) the Asian Development Bank's Ordinary Capital Resources (OCR), which provides "hard loans" at market-linked rates and "soft loans" to eligible countries at concessional rates; and (2) the Asian Development Fund (AsDF), which provides only grants to the region's poorest countries that are at moderate or high risk of debt distress. Prior to January 2017, when AsDF's equity and lending operations were merged with AsDB's OCR, the AsDF also provided concessional loans.

The AsDB provides long-term loans at market-based rates to 39 low- and middle-income countries that utilize such resources to finance their national economies, build critical infrastructure, and support inclusive growth. AsDB also supports private sector development with technical assistance, loans, guarantees, and direct equity investments in viable private sector projects with strong development impacts. In 2022, AsDB committed \$20.5 billion from its own resources for projects, including grants issued by the Asian Development Fund and Special Funds, and

## CONTRIBUTION TO THE ASIAN DEVELOPMENT FUND—Continued

mobilized another \$11.3 billion in co-financing from official and commercial sources. Through its lending, equity investments, trade finance, and technical assistance, AsDB supports investments in critical infrastructure, the expansion of private enterprise, and sustainable economic growth. Typically, the majority of AsDB assistance is for investments in energy, transportation, agriculture and natural resources, public sector management, water supply, municipal infrastructure, finance, and education. In 2022, the AsDB invested approximately \$6.8 billion in infrastructure, or about 33 percent of total commitments that year. AsDB is financed through capital contributions from donors, income earned on its loan and investment portfolios, and bond issuances.

## Asian Development Fund

AsDF currently provides grants to 13 of the poorest and most vulnerable countries in Asia and the Pacific that face moderate or high risk of debt distress. It focuses on supporting inclusive, sustainable economic growth, as well as regional cooperation and integration. AsDF projects support water, energy, transportation, financial sector deepening, agriculture, and health. AsDF also invests in cross-cutting activities, such as connecting entrepreneurial training with financing for small and medium-sized enterprises. In 2022, AsDF committed a total of \$932 million in sovereign and \$5 million in non-sovereign grants for AsDF-eligible countries. In recent years, the United States has focused attention within AsDF on countries where support aligns with U.S. strategic interests, particularly to support small Pacific island countries.

The African Development Bank Group includes: (1) the African Development Bank (AfDB), which lends at market-linked rates to middle-income African countries and Africa's private-sector; and (2) the African Development Fund (AfDF), which provides grants and concessional loans to the poorest African countries. The AfDF account includes a portion of the U.S. commitment to the Multilateral Debt Relief Initiative (MDRI). In 2022, approximately 18 percent of AfDB and 41 percent of AfDF project approvals were in the infrastructure sector, comprised of investments in transportation, power, water and sanitation, environment, and urban development.

## African Development Bank

The AfDB provides public sector financing at market-linked rates to 20 middle-income African countries and provides loans, equity investments, lines of credit, and guarantees to support private sector investments in all 54 African member countries. In 2022, the AfDB approved \$4.98 billion in financing. 2022 lending activities focused on infrastructure, regional integration, agriculture - including food security - and governance. The United States will remain the largest non-regional shareholder of the AfDB and the third-largest shareholder after Nigeria and Egypt. The United States' shareholding will remain unchanged at 6.4 percent after all countries subscribe to their shares under GCI-VII.

## African Development Fund

The AfDF is the AfDB Group's concessional lending window and traditionally one of the largest official financiers of infrastructure in Sub-Saharan Africa, providing grants and highly concessional loans to the poorest countries in Africa. Some AfDF recipient countries are becoming frontier emerging markets and growing U.S. trading partners. Many other AfDF recipient countries, however, remain fragile and are trapped in conflict and poverty. Most AfDF countries are highly vulnerable to both internal and external shocks. In 2022, the AfDF provided approximately \$2.4 billion in financing, technical assistance, and capacity-building activities to eligible countries. The AfDF also sets aside special funding for regional projects and fragile and transitioning states. In total, approximately half of its resources continue to be directed to fragile states.

**Multilateral Debt Relief Initiative**

Launched in 2006 at the urging of the United States, the Multilateral Debt Relief Initiative (MDRI) provides 100 percent cancellation of eligible debt to the concessional financing windows of the World Bank and the AfDB. Eligible countries receive MDRI benefits after completing the reforms under the HIPC Initiative and demonstrating a track record of improved economic policy performance. The purpose of this debt treatment is to free up more resources in well-performing low-income countries for poverty-reducing expenditures in areas such as health, education, and rural development. In accordance with MDRI rules, donors compensate AfDF for cancelled debt on a dollar-for-dollar basis according to the payment schedules of the original loans. Similar to IDA, AfDF calculates donors' MDRI commitments at the start of each three-year replenishment cycle according to a burden-sharing percentage. Donor commitments must be met within the three-year replenishment period to avoid a negative impact on the AfDF's commitment capacity. The U.S. share of the cost of MDRI under AfDF-16 (2023–2025) is \$98 million.

Created in 1990, the European Bank for Reconstruction and Development (EBRD) supports market-oriented economic reform and democratic pluralism, predominately through private-sector lending and investments. Its original field of operation in the countries of Central and Eastern Europe and the former Soviet Union was expanded in 2012 to aid in the transitions of key countries in the Middle East and North Africa. On April 1, 2022 EBRD Governors voted to suspend access for Russia and Belarus to EBRD resources.

The International Fund for Agricultural Development (IFAD) was established in 1977 as an international financial institution and specialized U.N. agency focused on promoting rural agricultural development and food security in developing countries. IFAD's mandate is to help rural, small-scale producers and subsistence farmers increase their agricultural productivity, incomes, and access to markets as well as to promote job creation and rural economic growth in developing countries, including conflict-affected and fragile areas. In 2022, IFAD approved \$882.3 million in support of 14 new projects, 19 additional financing proposals, and four grants, and its total project portfolio currently amounts to \$8.13 billion. #### Debt Relief and Debt Restructuring

Debt relief and restructuring are fundamental to helping countries stabilize their economies, restart economic growth, and alleviate poverty and instability. Restructuring debt, including with principal haircuts, also allows beneficiary countries to increase poverty reduction expenditures in areas such as health, education, and rural development. The United States regularly provides debt restructuring through the Paris Club, in coordination with other bilateral lenders. However, since the COVID-19 pandemic began, debt burdens for low-income countries have substantially increased. In response, with strong U.S. leadership and support, the G20 and Paris Club developed the Debt Service Suspension Initiative (DSSI) and the G20 Common Framework for Debt Treatments beyond DSSI (Common Framework) as central pillars of the international policy response to the COVID-19 pandemic. The DSSI, which has now ended, provided official bilateral debt service suspension to low-income countries, allowing them to focus on responding to immediate health, economic, and social spending needs related to COVID-19. Recognizing that many countries may need more comprehensive debt treatment to address unsustainable debt and heightened liquidity needs, the G20 and Paris Club in November 2020 also endorsed the Common Framework, which aims to facilitate timely and orderly treatments within the context of an IMF program and fosters fair burden sharing among all official bilateral creditors and comparable treatment from private creditors.

The Tropical Forest and Coral Reef Conservation Act contributes to achieving U.S. Government policy priorities of conserving tropical forests and coral reefs by enabling eligible countries to redirect debt payments to a local conservation fund dedicated to those objectives.

The International Disaster Assistance (IDA) account provides funds to save lives, reduce human suffering, and mitigate and prepare for natural and complex emergencies overseas. Specifically, these funds provide for the management of humanitarian assistance, rehabilitation, disaster risk reduction, transition to development assistance programs, as well as emergency food interventions. Humanitarian relief interventions include, but are not limited to, shelter, emergency health and nutrition, as well as the provision of safe drinking water. Emergency food responses include interventions such as local and regional purchase of food near crises, the provision of U.S. commodities, food vouchers, or cash transfers and complementary activities that support the relief, recovery and resilience of populations affected by food crises. IDA programs target the most vulnerable populations who are affected by disasters and complex crises, including those who are internally displaced and refugees.

The Fund, authorized by section 635(m) of the Foreign Assistance Act of 1961, finances on a reimbursable basis the costs associated with providing administrative support to other agencies under the International Cooperative Administrative Support Services (ICASS) program overseas. Under ICASS, each agency pays a proportional share of the cost of those services they have agreed to receive. Working through inter-agency councils at post, all agencies have a say in determining which services the USAID mission will provide, defining service standards, reviewing costs, and determining funding levels. The Fund is also used for deposit of rebates from the use of Federal credit cards, the deposits then being made available for start-up costs at new ICASS service-provider missions and technical support to missions currently providing services.

## OVERSEAS PRIVATE INVESTMENT CORPORATION PROGRAM ACCOUNT—Continued

modernizes and reforms the U.S. Government's development finance capabilities—primarily the Overseas Private Investment Corporation (OPIC) and the Development Credit Authority (DCA) of the U.S. Agency for International Development (USAID)—into a new agency: the United States International Development Finance Corporation (DFC), which launched on January 2, 2020. DFC continues to finalize the transfer process of OPIC accounts to DFC accounts. Upon completion, all future OPIC activity will be presented in the DFC accounts.

OPIC encouraged the participation of United States private sector capital and skills in the economic and social development of developing countries and emerging market economies. Its credit program provided investment financing through loans and guaranteed loans. As required by the Federal Credit Reform Act of 1990, the Program Account records the subsidy costs associated with the direct loans obligated and loan guarantees committed in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

The FY 2024 request for the U.S. Trade and Development Agency (USTDA) of \$117.5 million will strengthen the Agency's ability to help U.S. companies create jobs through the export of U.S. goods and services for priority development projects in emerging economies. USTDA links U.S. businesses to export opportunities by funding project preparation activities, pilot projects and reverse trade missions that create sustainable infrastructure and foster economic growth in its partner countries. In carrying out its mission, USTDA prioritizes activities where there is a high likelihood for the export of U.S. goods and services that can match the development needs of the Agency's overseas partners.

The size and complexity of DFC's portfolio and its expanded development mandate requires a dedicated OIG. DFC OIG audits, investigations, inspections, and evaluations prevent, detect, and deter fraud, waste, abuse, and mismanagement of DFC investments, projects, systems, employees, and contractors. The OIG also provides advice and assistance to agency management, the DFC Board of Directors, and Congress; and strives to promote efficiency, effectiveness and economy in DFC programs and operations.

The President's Budget requests \$7.200 million for DFC OIG to be funded from the General Fund. This will allow the OIG to independently oversee DFC through audits, investigations, inspections, and evaluations that identify improvements to the management and execution of DFC's operations and programs.

This account transfers funds to the operating expense account for the Peace Corps to finance upward adjustments of recorded obligations because of foreign currency fluctuations. Transfers are made as needed to meet disbursement requirements in excess of funds otherwise available for obligation adjustment. Net gains resulting from favorable exchange rates are returned to this account and are available for subsequent transfer when needed. The account is replenished through the utilization of a special transfer authority that allows the Peace Corps to withdraw unobligated balances from the operating expenses account from prior years as long as the authorized limit of \$5 million is not exceeded at the time of the transfer.

The Inter-American Foundation (IAF) invests directly in community-designed and community-led development across Latin America and the Caribbean to create more prosperous, peaceful, and democratic communities. The agency provides small grants to local leaders, innovators, and entrepreneurs working to address their communities' needs and seize development opportunities. IAF works to address critical issues in the region and advance the inclusion of historically marginalized populations, including women, youth, Indigenous peoples, African descendants, LGBTQI+, and persons with disabilities, in economic and civic life. The IAF's deep ties and more than half a century of expertise working with civil society complement the efforts of other U.S. foreign assistance agencies and advance the strategic, economic, and security interests of the United States.

The United States African Development Foundation (USADF) is a Federally funded public corporation that invest in African grassroots organizations, entrepreneurs, and small- and medium-sized enterprises (SMEs). USADF's investments promote African-designed and African-delivered local economic development by increasing incomes, revenues, and jobs and by creating pathways to prosperity for underserved communities. Working through a community-led development model, USADF provides grant capital of up to \$250K, capacity-building assistance, and convening opportunities to develop, grow, and scale African enterprises and entrepreneurs. These investments improve lives and livelihoods while addressing some of Africa's biggest challenges around food insecurity, insufficient energy access, and unemployment, particularly among women and youth. USADF furthers U.S. priorities in these areas to ensure critical development initiatives enacted by Congress, such as the Global Food Security Act, Electrify Africa Act, and the African Growth and Opportunities Act, extend to rural populations.

The United States is a member of the International Monetary Fund (IMF) through its quota subscription to the IMF, denominated in Special Drawing Rights (SDRs). An IMF member's quota subscription determines the maximum amount of financial resources that the member must commit to the IMF. Under reforms to IMF quotas decided in 2010 and implemented by the IMF in early 2016 after Congress passed the necessary legislation, the U.S. quota at the IMF increased by SDR 40,871,800,000 (approximately \$58 billion using the current exchange rate) and is presently SDR 82,994,200,000 (approximately \$115 billion using the current exchange rate). Quotas are the IMF's first line of financial resources and the main metric used by the IMF to determine members' voting shares and access to IMF financing.

The use of U.S. quota resources at the IMF constitutes an exchange of monetary assets and does not result in budget outlays. When the United States transfers dollars or other reserve assets to the IMF under the U.S. quota subscription, the United States receives an equal, offsetting, and interest-bearing claim on the IMF, which is reflected as an increase in U.S. international monetary reserves. The U.S. reserve position in the IMF is readily available to meet a U.S. balance-of-payments financing need.

See the "Loans to International Monetary Fund" account for additional information about the 2020 "New Arrangements to Borrow" (NAB) Decision.

<b>Memorandum (non-add) entries:</b>			
5116 New Arrangements to Borrow .....	72,192	79,394	79,394

In January 1997, the Executive Board of the IMF approved the creation of the New Arrangements to Borrow (NAB), which is a standing arrangement among certain IMF members to supplement the IMF's quota resources as needed to forestall or cope with an impairment of the international monetary system or to deal with an exceptional situation that poses a threat to the stability of the system. The NAB became effective on November 17, 1998. It is now the second line of defense for IMF resources after a prior arrangement, the General Arrangements to Borrow (GAB), lapsed on December 25, 2018. The amounts authorized for the GAB were also authorized to be used for the NAB.

In 2019, the United States joined other key countries and IMF leadership in advancing a package of actions to maintain the overall level of IMF resources in conjunction with reforms to IMF governance and lending. As part of this package, the IMF and NAB participants agreed to double the size of the NAB, while the IMF reduced its bilateral borrowing agreements by a similar amount. Congress authorized Treasury to double the size of the United States' NAB participation in the 2020 Coronavirus Aid, Relief, and Economic Security (CARES) Act. The new NAB reforms, which include our increased participation, took effect at the IMF in January 2021 and remains in effect until December 31, 2025.

A total of 40 countries and institutions participate in the NAB for a total of SDR 361 billion (about \$515 billion), of which the current U.S. share is approximately SDR 56 billion (about \$80 billion). In order for the IMF to access resources in the NAB, the NAB must be activated pursuant to the procedures set for in the Executive Board decision governing the NAB. The NAB is currently not activated, which means that at present the IMF is relying on quota resources for current financing needs.

With respect to this account, resources provided by the United States under the NAB constitute an exchange of monetary assets and do not result in any budgetary outlays because such transactions result in an equivalent increase in U.S. international reserve assets in the form of an equal, offsetting, interest-bearing claim on the IMF. (See the *Analytical Perspectives* for additional information.)

Contributions to IMF Facilities and Trust Funds

The International Monetary Fund (IMF) maintains several facilities, some in the form of trust funds, to provide assistance to the world's poorest countries. The Poverty Reduction and Growth Trust (PRGT) is the IMF's concessional lending facility for low-income countries (LICs). Through the PRGT, the IMF makes subsidized loans (currently at zero percent interest) to the world's poorest countries in the context of longer-term economic adjustment programs. During the COVID-19 pandemic crisis and following Russia's invasion of Ukraine, the PRGT has provided essential resources to help LICs—which generally lack reliable access to global capital markets and some of which are facing acute balance of payment stresses—respond to the pandemic and the economic spillovers from Russia's war to prevent economic collapse. Since the start of the pandemic, the IMF has lent about \$265 billion to countries in need. Of this amount, the PRGT provided about \$21.5 billion in concessional financing to about 60 poor countries, roughly a fivefold increase in annual lending from the PRGT's pre-pandemic average. A U.S. contribution to the PRGT would help sustain the PRGT with the resources it needs to continue to help countries respond to and recover from the pandemic and mitigate economic scarring, and it would particularly benefit the most vulnerable populations in these countries.

The United States, the IMF, and the rest of the international community are also exploring ways for major economies to provide additional support through the IMF to vulnerable countries in need. The United States has led the design of a proposed new IMF trust fund, the Resilience and Sustainability Trust (RST), which the Executive Board of the IMF approved in April 2022, and which has been in operation since May 2022. The RST provides affordable, long-term financing alongside a regular IMF program for countries facing current or potential balance of payments gaps resulting from reforms taken to improve their resilience to macroeconomic shocks related to pandemics and natural disasters, including through energy security. By providing affordable, longer-term financing alongside regular IMF programs, RST lending will benefit from IMF lending safeguards, including strong governance requirements on borrowers, and will be overseen and approved by the IMF's Executive Board. A U.S. contribution to the RST would help establish the fund with the resources it needs to lend to vulnerable countries.

The Special Defense Acquisition Fund (SDAF) helps expedite the procurement of defense articles for provision to foreign nations and international organizations. The 2024 request reflects \$900 million in new SDAF obligation authority, to be funded by a combination of offsetting collections and previous SDAF procurements, referred to as SDAF reimbursements. In 2024, offsetting collections will be derived from the FMS sales of stock as well as other receipts consistent with section 51(b) of the Arms Export Control Act. The 2024 request will support advance purchases of high-demand equipment that has long procurement lead times, which is often the main limiting factor in our ability to provide coalition partners with critical equipment to make them operationally effective in a timely manner. Improving the mechanism for supporting U.S. partners is a high priority for both the Departments of State and Defense.

The Administration's goal of transitioning to a fully Zero Emission Vehicle (ZEV) federal fleet is being executed by this Program. It oversees the acquisition and deployment of vehicles which are battery electric, plug-in electric hybrid, and hydrogen fuel cell vehicles. It will also ensure to acquire the necessary vehicle charging and refueling infrastructure. These acquisitions are a significant step towards eliminating tailpipe emissions of greenhouse gases (GHG) from DOT's fleet and aligning the fleet operations with the goal of achieving a fully ZEV federal fleet.

The Aviation Manufacturing Jobs Protection (AMJP) Program is a program created in March 2021, under the American Rescue Plan Act. The AMJP Program provided funding to eligible businesses, to pay up to half of their compensation costs for certain categories of employees, for up to six months. In return, businesses had to make several legal commitments, including a commitment not to conduct involuntarily layoffs, furloughs, or reductions in pay or benefits for the covered employees. The statute established a six-month timeframe for DOT to make awards. DOT is continuing to administer the awards made prior to the statutory deadline. The AMJP Program funds expire at the end of 2023.

The Federal Aviation Reauthorization Act of 1996 (P.L. 104–264) authorized the collection of user fees for services provided by the Federal Aviation Administration (FAA) to aircraft that neither take off nor land in the United States, commonly known as overflight fees. The Act permanently appropriated the first \$50 million of such fees for the Essential Air Service (EAS) Program and rural airport improvements. In addition, the FAA Modernization and Reauthorization Act (P.L. 112–95) requires that, in any fiscal year, overflight fees collected in excess of \$50 million will be available to carry out the EAS Program.

The Working Capital Fund finances common administrative services and other services that are centrally performed in the interest of economy and efficiency. The fund is financed through agreements with the Operating Administrations and other customers. In 2024, the Working Capital Fund is projected to obligate nearly \$746 million across DOT, including \$20 million to continue the Department's implementation of a shared services environment for commodity information technology (IT) investments. The IT shared services initiative will modernize IT across DOT and improve mission delivery by consolidating separate, overlapping, and duplicative processes and functions. In 2024, DOT will continue consolidating commodity IT services across Operating Administrations. As a key part of this effort, the Office of the Chief Information Officer will focus on investment-level commodity IT as well as IT security and compliance

Through 1997, the Essential Air Service (EAS) Program was funded from the Airport and Airway Trust Fund. Starting in 1998, the Federal Aviation Administration reauthorization funded it as a mandatory program supported by overflight fees under the EAS and Rural Airport Improvement Fund. In addition to mandatory funding supported by overflight fees, direct appropriations from the Airport and Airway Trust Fund to Payments to Air Carriers have been enacted every year beginning in 2002 to meet the needs of the Essential Air Service Program.

The 2024 Budget requests \$12.741 billion for Federal Aviation Administration (FAA) operations. These funds will be used to continue to promote aviation safety and efficiency. The Budget provides funding for the Air Traffic Organization (ATO) which is responsible for managing the air traffic control system. As a performance-based organization, the ATO is designed to provide cost-effective, efficient, and, above all, safe air traffic services. The Budget also funds the Aviation Safety Organization which ensures the safe operation of the airlines and certifies new aviation products. In addition, the request also funds regulation of the commercial space transportation industry, as well as FAA policy oversight and overall management functions.

The fund provides direct support for the aviation insurance program (chapter 443 of title 49, U.S. Code). In December 2014, the Congress sunset part of the aviation insurance program. Specifically, the Congress returned U.S. air carriers to the commercial aviation market for all of their war risk insurance coverage by ending the FAA's authority to provide war risk insurance for a premium. Pursuant to 49 U.S.C. 44305, the FAA may provide insurance without premium at the request of the Secretary of Defense, or the head of a department, agency, or instrumentality designated by the President, when the Secretary of Defense, or the designated head, agrees to indemnify the Secretary of Transportation against all losses covered by the insurance. The "non-premium" aviation insurance program was authorized through September 30, 2023 in the National Defense Authorization Act for 2020.

In 1997, FHWA received an appropriation from the General Fund for the State Infrastructure Banks (SIBs) program.

All of the funds have been provided to the States to capitalize the infrastructure banks. Because the funding was provided as grants, and not loans, FHWA will not receive reimbursements of amounts expended for the SIBs program. No new budgetary resources are requested in 2024.

The Inflation Reduction Act (IRA) of 2022 (Public Law 117–169) provided a total of \$5.3 billion to this account for three highway programs:

*Neighborhood Access and Equity Grant Program*—\$3.2 billion for projects that reconnect neighborhoods divided by infrastructure, mitigate negative impacts of transportation facilities or construction projects on communities, support equitable transportation planning, and for technical assistance.

*Low-carbon Transportation Materials*—\$2 billion for eligible projects that use low-embodied carbon construction materials and products.

Environmental Review Implementation—\$100 million to facilitate the development and review of environmental review documentation for proposed projects.

The FHWA is not requesting funding for these programs in 2024.

The Federal-Aid Highway Act of 1968 authorized the establishment of a right-of-way revolving fund. This fund was used to make cash advances to States for the purpose of purchasing right-of-way parcels in advance of highway construction and thereby preventing the inflation of land prices from significantly increasing construction costs. The purchase of right-of-way is an eligible expense of the Federal-Aid Highway program.

This program was terminated by the Transportation Equity Act for the 21st Century of 1998, but will continue to be shown for reporting purposes as loan balances remain outstanding. No new budgetary resources are requested in 2024.

The Highway Revenue Act of 1956, as amended, provides for the transfer from the General Fund to the Highway Trust Fund of revenue from the motor fuel tax, and certain other taxes paid by highway users. The Secretary of the Treasury estimates the amounts to be transferred. In turn, appropriations are authorized from this fund to meet expenditures for Federal-aid highways and other programs as specified by law. Per the Cash Management Improvement Act of 1990, this account reflects the net of State interest liability and adjusted Federal interest liability payments to or from States.

The following is the status of Highway Trust Fund.

**Cash balances.**—The Status of Funds table begins with the unexpended balance on a "cash basis" at the start of the year. The table shows the amount of cash invested in Federal securities at par value and the amount of cash on hand (i.e., uninvested balance). Next, the table provides the amounts of cash income and cash outlays during each year to show the cash balance at the end of each year.

**Revenues.**—The Budget presentation includes estimated receipts from existing Highway Trust Fund excise taxes, which would continue to be deposited into the Highway and Mass Transit Accounts of the Highway Trust Fund in the same manner as current law.

**General Fund transfers.** In 2022, the Infrastructure Investment Jobs Act transferred from the General Fund \$90 billion to the Highway Account of the Highway Trust Fund and \$28 billion to the Mass Transit Account of the Highway Trust Fund.

The Federal-aid Highways (FAH) program is designed to aid in the development, operations, and management of an intermodal transportation system. All programs included within the FAH program are financed from the Highway Account of the Highway Trust Fund, and most are distributed via apportionments and allocations to States. Liquidating cash appropriations provide the authority for outlays resulting from obligations of contract authority. The Infrastructure Investment and Jobs Act authorized funding for the FAH program in fiscal years 2022 through 2026. This includes \$60.8 billion in 2024.

(2) not distribute an amount from the obligation limitation for Federal-aid highways that is equal to the unobligated balance of amounts—

(A) made available from the Highway Trust Fund (other than the Mass Transit Account) for Federal-aid highway and highway safety construction programs for previous fiscal years the funds for which are allocated by the Secretary (or apportioned by the Secretary under section 202 or 204 of title 23, United States Code); and

(B) for which obligation limitation was provided in a previous fiscal year;

(3) determine the proportion that—

(4) distribute the obligation limitation for Federal-aid highways, less the aggregate amounts not distributed under paragraphs (1) and (2), for each of the programs (other than programs to which paragraph (1) applies) that are allocated by the Secretary under authorized Federal-aid highway and highway safety

construction programs, or apportioned by the Secretary under section 202 or 204 of title 23, United States Code, by multiplying—

(A) the proportion determined under paragraph (3); by

(B) the amounts authorized to be appropriated for each such program for such fiscal year; and

(5) distribute the obligation limitation for Federal-aid highways, less the aggregate amounts not distributed under paragraphs (1) and (2) and the amounts distributed under paragraph (4), for Federal-aid highway and highway safety construction programs that are apportioned by the Secretary under title 23, United States Code (other than the amounts apportioned for the National Highway Performance Program in section 119 of title 23, United States Code, that are exempt from the limitation under subsection (b)(12) and the amounts apportioned under sections 202 and 204 of that title) in the proportion that—

(d) APPLICABILITY OF OBLIGATION LIMITATIONS TO TRANSPORTATION RESEARCH PROGRAMS.—

(1) IN GENERAL.—Except as provided in paragraph (2), the obligation limitation for Federal-aid highways shall apply to contract authority for transportation research programs carried out under—

(B) title VI of the Fixing America's Surface Transportation Act; and

(C) title III of division A of the Infrastructure Investment and Jobs Act (Public Law 117–58).

(2) EXCEPTION.—Obligation authority made available under paragraph (1) shall—

(A) remain available for a period of 4 fiscal years; and

(B) be in addition to the amount of any limitation imposed on obligations for Federal-aid highway and highway safety construction programs for future fiscal years.

(e) **REDISTRIBUTION OF CERTAIN AUTHORIZED FUNDS.**—

(1) **IN GENERAL.**—Not later than 30 days after the date of distribution of obligation limitation under subsection (a), the Secretary shall distribute to the States any funds (excluding funds authorized for the program under section 202 of title 23, United States Code) that—

(A) are authorized to be appropriated for such fiscal year for Federal-aid highway programs; and

(B) the Secretary determines will not be allocated to the States (or will not be apportioned to the States under section 204 of title 23, United States Code), and will not be available for obligation, for such fiscal year because of the imposition of any obligation limitation for such fiscal year.

(2) **RATIO.**—Funds shall be distributed under paragraph (1) in the same proportion as the distribution of obligation authority under subsection (a)(5).

(3) **AVAILABILITY.**—Funds distributed to each State under paragraph (1) shall be available for any purpose described in section 133(b) of title 23, United States Code.

**SEC. 121.** Notwithstanding 31 U.S.C. 3302, funds received by the Bureau of Transportation Statistics from the sale of data products, for necessary expenses incurred pursuant to chapter 63 of title 49, United States Code, may be credited to the Federal-aid highways account for the purpose of reimbursing the Bureau for such expenses.

**SEC. 122.** Not less than 15 days prior to waiving, under his or her statutory authority, any Buy America requirement for Federal-aid highways projects, the Secretary of Transportation shall make an informal public notice and comment opportunity on the intent to issue such waiver and the reasons therefor: *Provided*, That the Secretary shall post on a website any waivers granted under the Buy America requirements.

**SEC. 123.** None of the funds made available in this Act may be used to make a grant for a project under section 117 of title 23, United States Code, unless the Secretary, at least 60 days before making a grant under that section, provides written notification to the House and Senate Committees on Appropriations of the proposed grant, including an evaluation and justification for the project and the amount of the proposed grant award.

**SEC. 124.** (a) A State or territory, as defined in section 165 of title 23, United States Code, may use for any project eligible under section 133(b) of title 23 or section 165 of title 23 and located within the boundary of the State or territory any earmarked amount, and any associated obligation limitation: *Provided*, That the Department of Transportation for the State or territory for which the earmarked amount was originally designated or directed notifies the Secretary of its intent to use its authority under this section and submits an annual report to the Secretary identifying the projects to which the funding would be applied. Notwithstanding the original period of availability of funds to be obligated under this section, such funds and associated obligation limitation shall remain available for obligation for a period of 3 fiscal years after the fiscal year in which the Secretary is notified. The Federal share of the cost of a project carried out with funds made available under this section shall be the same as associated with the earmark.

(b) In this section, the term "earmarked amount" means—

(1) congressionally directed spending, as defined in rule XLIV of the Standing Rules of the Senate, identified in a prior law, report, or joint explanatory statement, which was authorized to be appropriated or appropriated more than 10 fiscal years prior to the current fiscal year, and administered by the Federal Highway Administration; or

(c) The authority under subsection (a) may be exercised only for those projects or activities that have obligated less than 10 percent of the amount made available for obligation as of October 1 of the current fiscal year, and shall be applied to projects within the same general geographic area within 25 miles for which the funding was designated, except that a State or territory may apply such authority to unexpended balances of funds from projects or activities the State or territory certifies have been closed and for which payments have been made under a final voucher.

(d) The Secretary shall submit consolidated reports of the information provided by the States and territories annually to the House and Senate Committees on Appropriations.

**SEC. 125.** (a) *Of the unallocated and unobligated balances available to the Federal Highway Administration, the following funds are hereby permanently cancelled, subject to subsections (b) and (c), from the following accounts and programs in the specified amounts:*

## FEDERAL MOTOR CARRIER SAFETY ADMINISTRATION

The Federal Motor Carrier Safety Administration (FMCSA) was established within the Department of Transportation by the Motor Carrier Safety Improvement Act of 1999 (P.L. 106–159). Prior to this legislation, motor carrier safety responsibilities were under the jurisdiction of the Federal Highway Administration.

FMCSA's mission is to promote safe commercial motor vehicle operation, and reduce truck and bus crashes. The Agency accomplishes this mission by reducing fatalities and property losses associated with commercial motor vehicles through education, regulation, enforcement, research, and innovative technology, thereby achieving a safer and more secure transportation environment. FMCSA is also responsible for enforcing Federal motor carrier safety and hazardous materials regulations for all commercial vehicles entering the United States along its southern and northern borders.

Motor Carrier Safety Grants provide funding to eligible States so they may conduct compliance reviews, identify and apprehend traffic violators, conduct roadside inspections, and support safety audits on new entrant carriers. FMCSA also supports States by conducting training for State agency personnel to accomplish motor carrier safety objectives. In addition, FMCSA reviews State commercial driver's license (CDL) oversight activities to prevent unqualified drivers from being issued CDLs, and actively engages with industry and other stakeholders through Innovative Technology programs to improve the safety and productivity of commercial vehicles and drivers.

The Operations and Programs account provides the necessary resources to support program and administrative activities for motor carrier safety. The Federal Motor Carrier Safety Administration (FMCSA) will continue to improve safety and reduce severe and fatal commercial motor vehicles crashes by requiring operators to maintain standards to remain in the industry, and by removing high-risk carriers, vehicles, drivers, and service providers from operation. Funding supports Nationwide motor carrier safety and consumer enforcement efforts, including the continuation of the Compliance, Safety and Accountability Program; regulation and enforcement of movers of household goods; and Federal safety enforcement activities at the borders to ensure that foreign-domiciled carriers entering the U.S. are in compliance with FMCSA regulations. Resources are also provided to fund regulatory development and implementation; investment in research and technology with a focus on research regarding highly automated vehicles and related technology; information technology and information management; safety outreach; and education.

The Operations and Programs account provides the necessary resources to support program and administrative activities for motor carrier safety. The Federal Motor Carrier Safety Administration (FMCSA) will continue to improve safety and reduce severe and fatal commercial motor vehicles crashes by requiring operators to maintain standards to remain in the industry, and by removing high-risk carriers, vehicles, drivers, and service providers from operation. Funding supports Nation-wide motor carrier safety and consumer enforcement efforts, including the continuation of the Compliance, Safety and Accountability Program; regulation and enforcement of movers of household goods; and Federal safety enforcement activities at the borders to ensure that foreign-domiciled carriers entering the U.S. are in compliance with FMCSA regulations. Resources are also provided to fund regulatory development and implementation; investment in research and technology with a focus on research regarding highly automated vehicles and related technology; information technology and information management; safety outreach; and education.

The Vehicle Safety programs support activities to reduce highway fatalities, prevent injuries, and reduce their associated economic toll by developing, setting, and enforcing Federal Motor Vehicle Safety Standards and rooting out safety-related defects in motor vehicles and motor vehicle equipment. These programs also set and enforce fuel economy standards for motor vehicles. These activities play a key role in advancing the President's Agenda on climate and energy policy and has significant societal and economic impacts. The National Highway Traffic Safety Administration's (NHTSA) efforts to develop and set new fuel economy standards are guided by the best science and protected by governed processes that ensure the integrity of Federal decision-making. NHTSA supports research into cutting-edge technologies, including complex safety-critical electronic control systems, vehicle cybersecurity, and new and emerging Automated Driving System technologies. Additional research areas include biomechanics, heavy vehicles safety technologies, and vehicle safety issues related to fuel efficiency and alternative fuels. The Operation and Research program supports a broad range of initiatives, including the development of rulemaking and safety standards, such as the motor vehicle fuel economy standards, harmonization efforts with international partners, and modernizing the New Car Assessment Program. This funding also supports compliance programs for motor vehicle safety and fuel economy standards, investigations of safety-related motor vehicle defects, enforcement of Federal odometer law, and oversight of safety recalls. NHTSA also leverages this funding to collect and analyze crash data to identify safety trends and develop countermeasures.

The 911 Grant Program was authorized by the Next Generation 911 Advancement Act of 2012, which allows eligible entities to utilize funds to implement and operate 911 services, and to train public safety personnel. The program helps 911 call centers upgrade to Next Generation 911 (NG911) capabilities, such as providing digital and network capabilities and implementing advanced mapping systems that will make it easier to identify a 911 caller's location. NG911 also helps 911 call centers manage call overloads and funds for training costs directly related to NG911 implementation. The program is funded by the Public Safety Trust Fund. The authority to expend these funds expired on September 30, 2022. The schedule above shows the remaining activity associated with the completed grant program. No new funds are requested for this program in 2024.

Several new initiatives in the Infrastructure Investment and Jobs Act (IIJA) will expand, improve, and enhance NHTSA's crash data program. The funding supports revision of NHTSA's crash data programs to collect information on personal conveyances (scooters, bicycles, etc.) in crashes, update the Model Minimum Uniform Crash Criteria (MMUCC), collect additional data elements related to vulnerable road users, and coordinate with the Centers for Disease Control and Prevention on an implementation plan for States to produce a national database of pedestrian injuries and fatalities. This will allow the agency to identify, analyze, and develop strategies to reduce these crashes. The Crash Investigation Sample System (CISS) will be transformed by increasing the number of sites and adding more researchers which will expand the scope of the study to include all crash types and increase the number of cases. This will enable the agency to make more timely and accurate assessments of automated driving in real-world crash scenarios. While many States are interested in participating in electronic data transfer, and several pilot States are already transferring data successfully, some States crash data systems are not advanced enough to enable full electronic data transfer. Additional IIJA funding will

support a grant program for States to upgrade and standardize their crash data systems to enable electronic collection, intra-State sharing, and transfer to NHTSA; all of which would increase the accuracy, timeliness, and accessibility of the data for all users.

Vehicle Safety and Behavioral Research funding will support increased behavioral safety program efforts including research, communication, evaluation, and national leadership activities. These projects will provide data, analysis, and other insights to inform strategies to combat the risky driving behaviors that have increased during the pandemic and to implement a Safe System Approach. This funding supports data collection on alcohol and drug use, research to develop passive alcohol detection technology, as well as emergency medical services data collection and analysis. The funding will also support state grants to develop and implement processes for informing vehicle owners and lessees of the open recalls. Further, the program will support public education and awareness campaigns such as the risks of speeding, protecting pupil transportation safety and child passenger safety.

Funding also supports additional vehicle safety research, particularly in the critical areas of vehicle electronics and cybersecurity, and automated driving systems. Cutting-edge technologies, including complex safety-critical electronic control systems, vehicle cybersecurity, and new and emerging Automated Driving System technologies will also be evaluated. Additional research areas include biomechanics, heavy vehicles safety technologies, and vehicle safety issues related to fuel efficiency and alternative fuels. NHTSA's research advances vehicle and road user safety by informing the development of regulations and safety standards.

The Highway Safety Research and Development programs support research, demonstrations, evaluation, technical assistance, and national leadership activities for behavioral safety programs conducted by State and local governments, as well as various safety associations and organizations. These programs are designed to provide our State and local partners with the latest tools to combat impaired, distracted, and drowsy driving while encouraging occupant protection, pedestrian and bicycle safety, and development of best practices for emergency medical and trauma care systems as part of a comprehensive highway and traffic safety system. This funding supports the National Driver Register's Problem Driver Pointer System, which helps to identify drivers who have been suspended for or convicted of serious traffic offenses, such as driving under the influence of alcohol or other drugs. Finally, this funding will allow NHTSA to improve its vital data collection and analysis, which drives all of the agency's safety activities.

NHTSA provides grants to States for activities related to highway traffic safety. The State and Community Safety Grants Program (Section 402) supports multi-faceted State highway safety programs designed to reduce traffic crashes and the resulting deaths, injuries, and property damage. The Agency will continue to implement the use of performance measures and data-driven targets as a condition of approval in these programs and to ensure efficient and effective use of funds. NHTSA also will use dedicated funds from the program to support high visibility enforcement campaigns that promote the use of seat belts and the reduction of impaired and distracted driving. The National Priority Safety Programs (Section 405) allow the Agency to make grant awards to States to address national priorities, such as impaired driving, occupant protection, distracted driving, and non-motorized safety, among others.

## FEDERAL RAILROAD ADMINISTRATION

The Federal Railroad Administration (FRA) oversees the safety of the U.S. railroad industry by carrying out a robust regulatory enforcement and technical assistance program. FRA also administers a broad portfolio of grants aimed at improving safety and the condition of the Nation's railroad infrastructure, while enhancing the operating performance of both intercity passenger and freight rail service. Finally, these railroad safety and investment programs are supported by research and development, through which FRA advances technology innovations and new practices to improve rail safety and efficiency.

In 2016, \$50 million was appropriated under the Railroad Safety Grants heading to be equally distributed to Railroad Safety Infrastructure Improvement Grants and Railroad Safety Technology Grants. The Fixing America's Surface Transportation (FAST) Act of 2015 (P.L. 114-94) repealed the Railroad Safety Infrastructure Improvement Grants program and did not authorize new

funding for the Railroad Safety Technology Grants program. No new funds are requested for this account for 2024.

Funding requested in the Railroad Research and Development Program is focused on improving railroad safety. It provides scientific and engineering support for the Federal Railroad Administration's rail safety enforcement and rulemaking efforts. It also identifies and develops emerging technologies for the rail industry to adopt voluntarily. The outcomes of the research and development reduce accidents and incidents. In addition to improving safety, the program contributes significantly towards activities to achieve and maintain a state of good repair, promote job creation and economic growth, and improve energy efficiency and reduce emissions of rail transportation.

The program focuses on the following areas of research:

*Track Program.*—Reducing derailments due to track related causes.

*Rolling Stock Program.*—Reducing derailments due to equipment failures, to minimize the consequences of derailments, and to minimize hazardous material releases.

*Train Control and Communication.*—Reducing train to train collisions and train collisions with objects on the line and at grade crossings.

*Human Factors Program.*—Reducing accidents caused by human error.

*Railroad System Issues Program.*—Prioritizing Research and Development projects on the basis of relevance to safety risk reduction and other DOT goals, energy and emissions research, and workforce development.

The National Railroad Passenger Corporation (Amtrak) was established in 1970 through the Rail Passenger Service Act. Amtrak is operated and managed as a for-profit corporation. Amtrak is not an agency or instrument of the U.S. Government, although, since the railroad's creation Congress has provided annual funding for operating, capital and debt service costs.

Prior to 2006, FRA received annual appropriations in this account for grants to Amtrak. Since then, several one-time appropriations or funding transfers have been directed to this account, including \$1.3 billion in funds under the American Recovery and Reinvestment Act of 2009; \$112 million from the Disaster Relief Appropriations Act of 2013 (P.L. 113–2) for recovery efforts from super storm Sandy; \$185 million transfer from the Federal Transit Administration

## GRANTS TO THE NATIONAL RAILROAD PASSENGER CORPORATION—Continued

for the Hudson Yards disaster resiliency project in New York City; and a \$13 million transfer from the Federal Transit Administration for the Metropolitan Transportation Authority/Long Island Rail Road's River to River Rail Resiliency project in New York City. No new funds are requested for this account for 2024.

## CAPITAL AND DEBT SERVICE GRANTS TO THE NATIONAL RAILROAD PASSENGER CORPORATION

From 2006 to 2016, the Federal Railroad Administration received appropriations to this account to make grants to the National Railroad Passenger Corporation (Amtrak) for capital investments and debt service assistance. The FAST Act authorized two new appropriations accounts for Amtrak—Northeast Corridor grants and National Network grants—which first received funding in 2017. No new funds are requested for this account for 2024.

This competitive grant program encourages State participation in passenger rail service. Under this program, a State or States may apply for grants for up to 50 percent of the cost of capital investments necessary to support improved intercity passenger rail service that either requires no operating subsidy or for which the State or States agree to provide any needed operating subsidy. To qualify for funding, States must include intercity passenger rail service as an integral part of statewide transportation planning as required under 23 U.S.C. 135. Additionally, the specific project must be on the Statewide Transportation Improvement Plan at the time of application. No new funds are requested for this account for 2024.

The Public Transportation Emergency Relief Program helps transit agencies restore needed transportation services immediately following disaster events. Both capital and operating costs are eligible for funding following an emergency; however, this program does not replace the Federal Emergency Management Agency's capital assistance program. FTA administers the \$10.9 billion supplemental appropriation (adjusted to \$10.2 billion after sequestration and the transfer of funds to the Office of the Inspector General and the Federal Railroad Administration) provided by the Disaster Relief Appropriations Act, 2013 (Public Law 113–2) following Hurricane Sandy through this account. The Bipartisan Budget Account of 2018 (Public Law 115–123) also provided \$330 million for eligible capital and operating costs for areas affected by Hurricanes Harvey, Irma, and Maria. The Supplemental Appropriations for Disaster Relief Act, 2019 (Public Law 116–20) also provided \$10.5 million for transit systems affected by major declared disasters occurring in calendar year 2018. The Consolidated Appropriations Act, 2023 (Public Law 117–328) provided \$214 million for transit systems affected by major declared disasters occurring in calendar years 2017, 2020, 2021, and 2022.

For 2024, no resources are requested for this account.

The Infrastructure Investment and Jobs Act (IIJA) of 2021 provided funding for the Natural Gas Distribution Infrastructure Safety and Modernization Grant Program. Grant funds are made available to a municipality or community owned utility (not including for-profit entities) to repair, rehabilitate, or replace its natural gas distribution pipeline system or portions thereof or to acquire equipment to (1) reduce incidents and fatalities and (2) avoid economic losses. With the replacement of legacy gas distribution pipelines, these systems will operate more safely, reduce methane emissions, and will serve as the building blocks of the infrastructure to transport fuels of the future.

PHMSA oversees the safe transportation of energy products and hazardous materials through pipelines. PHMSA's Pipeline Safety program regulates an expansive network of more than 3.4 million miles of gas and hazardous liquid pipelines within the United States, as well as facilities that liquefy natural gas and store natural gas underground. PHMSA establishes and enforces pipeline safety standards and conducts safety inspections in collaboration with State partners to monitor the construction and operating safety of pipelines. The Pipeline Safety program is funded by fees collected from pipeline and underground natural gas storage facility operators, as well as an annual allocation from the Oil Spill Liability Trust Fund.

PHMSA operates a national registration program for shippers and carriers of hazardous materials and collects a fee from each registrant. The fees collected are used for emergency preparedness planning and training grants; publication and distribution of the Emergency Response Guidebook; development of training curriculum guidelines for emergency responders and technical assistance to States, political subdivisions, and Federally-recognized tribes; and administrative costs for these programs.

PHMSA has multiple responsibilities to inspect, investigate failures, regulate, and research hazardous liquid pipelines. In addition, PHMSA collects and reviews oil spill response plans prepared under the Oil Pollution Act of 1990. Operators that store, handle, or transport oil are required to develop response plans to minimize the environmental impact of oil spills and improve incident response. PHMSA reviews these plans to make sure that they are submitted on time, updated regularly, and that they comply with regulations. PHMSA improves oil spill preparedness and incident response through data analysis, inspections, exercises, spill monitoring, pipeline mapping in areas unusually sensitive to environmental damage, and by advancing technologies to detect and prevent leaks from hazardous liquid pipelines. These activities are funded in part by the Oil Spill Liability Trust Fund.

The appropriation for Operations and Training funds the United States Merchant Marine Academy (USMMA) located in Kings Point, New York, as well as headquarters staff to administer and direct Maritime Administration operations and programs including the Maritime Environmental and Technical Assistance program and the United States Marine Highway program.

The USMMA, a Federal service academy and accredited institution of higher education, provides instruction to individuals to prepare them for service in the merchant marine. Funding supports traditional operations of the academic institution, midshipmen training at sea, and capital investments in USMMA campus facilities.

Maritime Administration operations includes planning for coordination of U.S. maritime industry activities under emergency conditions; promotion of efficiency, safety, risk mitigation, environmental stewardship, and maritime industry standards; strategic outreach with maritime stakeholders in education and industry; and port and intermodal development oversight to increase capacity and mitigate congestion in freight movements.

The National Defense Authorization Act of 2006 authorized the Maritime Administration to make grants for capital and related improvements at eligible shipyard facilities that will foster efficiency, competitive operations, and quality ship construction, repair, and reconfiguration. Grant funds may also be used for maritime training programs to enhance technical skills and

operational productivity in communities whose economies are related to or dependent upon the maritime industry.

The Assistance to Small Shipyard program provides grants to small shipyards for capital improvements and training programs.

The Maritime Security Program provides direct payments to U.S. flag ship operators engaged in foreign commerce to partially offset the higher operating costs of U.S. registry. The purpose of the program is to establish and sustain a fleet of active ships that are privately owned, commercially viable, and militarily useful to meet national defense and other emergency sealift requirements. Participating operators are required to make their ships and commercial transportation resources available upon request by the Secretary of Defense during times of war or national emergency. Commercial transportation resources include ships, logistics management services, port terminal facilities, and U.S. citizen merchant mariners to crew both commercial and Government-owned merchant ships. The program will also sustain a base of U.S. Merchant Mariners to support national security requirements during times of urgent need.

Trillions of dollars are accounted for and processed by the Department of the Treasury's information technology (IT) systems and therefore these systems are a constant target for sophisticated threat actors. The Cybersecurity Enhancement Account (CEA) allows Treasury to more proactively and strategically protect Treasury systems against cybersecurity threats. The account supports enterprise-wide services and capabilities. The CEA budgetary resources will be used to address new cybersecurity requirements outlined in Executive Order 14028—*Improving the Nation's Cybersecurity*—and associated guidance at the enterprise level as well as targeted bureau-specific cyber investments.

The Office of Inspector General (OIG) conducts audits and investigations designed to promote integrity, efficiency, and effectiveness in programs and operations within the Department and

across the OIG's jurisdiction, as well as to keep the Secretary and the Congress fully informed of problems and deficiencies in the administration of such programs and operations. The OIG conducts audits and investigations of Treasury programs and operations except those under jurisdictional oversight of the Treasury Inspector General for Tax Administration, the Special Inspector General for the Troubled Asset Relief Program, and the Special Inspector General for Pandemic Recovery. In addition, the Treasury Inspector General functions as Chair of the Council of Inspectors General on Financial Oversight. The Resources and Ecosystems Sustainability, Tourist Opportunities, and Revived Economies of the Gulf Coast States Act tasked the OIG with oversight of all projects, programs, and operations of the Gulf Coast Restoration Trust Fund (Trust Fund), which extends to the Gulf Coast Ecosystem Restoration Council.

The Budget request for the OIG will be used to fund audit, investigative, and mission support activities to meet the requirements of the Inspector General Act, as well as other statutes relating to: 1) cyber threats; 2) Bank Secrecy Act, anti-money laundering, and anti-terrorist financing enforcement; 3) spending transparency and improper payments; 4) administration of the Trust Fund; and 5) pandemic response programs. Specific mandates include audits of the Department's financial statements, compliance with the Federal Information Security Modernization Act of 2014 (FISMA), and actions in implementing cybersecurity information sharing. In its oversight of the Office of the Comptroller of the Currency, OIG conducts material loss reviews of failed national banks and trusts insured by the Federal Deposit Insurance Corporation. With resources available after mandated requirements are met, the OIG will conduct audits and reviews of the Department's highest risk programs and operations. The OIG will also respond to stakeholder requests.

The Office of Audit expects to complete 100 percent of statutory audits by the required deadline and to complete 78 audit products in 2024, as well as provide oversight, on a reimbursable basis, of the State Small Business Credit Initiative and the Small Business Lending Fund.

In 2024, the Office of Investigations will continue to investigate all reports of fraud, waste, abuse, and criminal activity affecting Treasury programs and operations. It will also continue proactive efforts to detect, investigate, and deter electronic crimes and other threats to Treasury's physical and IT critical infrastructure, and will continue current efforts to aggressively investigate, close, and refer cases for criminal prosecution, civil litigation, or corrective administrative action in a timely manner.

This account also supports the oversight of COVID response programs, such as the Coronavirus Relief Fund, Emergency Rental Assistance, and the Homeowner Assistance Fund pursuant to the Coronavirus Aid, Relief, and Economic Security (CARES) Act, Division N of the Consolidated Appropriations Act, 2021, and the American Rescue Plan Act of 2021.

The Treasury Inspector General for Tax Administration (TIGTA), an independent office within the Department of the Treasury, was established by Congress under the Internal Revenue Service (IRS) Restructuring and Reform Act of 1998 (RRA 98). It provides oversight of IRS activities by conducting independent audits, investigations, and inspections and evaluations necessary to prevent and detect waste, fraud, and abuse in IRS programs and operations. TIGTA also identifies and recommends strategies to address IRS management challenges and implement the Department's priorities.

TIGTA's Office of Audit focuses on the major management and performance challenges confronting the IRS by prioritizing statutory audit coverage and audit work in high-risk tax administration areas. Statutory coverage includes audits mandated by RRA 98 and other statutory authorities involving computer security, taxpayer rights and privacy issues. Through its audit programs, TIGTA promotes efficiency and effectiveness in the administration of internal revenue laws. TIGTA is dedicated to the prevention and detection of fraud, waste, and abuse affecting tax administration.

TIGTA's Office of Investigations (OI) concentrates on three areas: 1) employee integrity; 2) employee and infrastructure security; and 3) external attempts to corrupt tax administration. OI's performance model uses a ratio of those investigations that have the greatest impact on IRS' operations and/or the protection of Federal tax administration to the total number of investigations conducted. Investigations in these areas protect IRS personnel, data, and facilities, as well as the public's confidence in the tax system.

TIGTA's Office of Inspections and Evaluations (I&E) identifies opportunities for improvements in IRS and TIGTA programs by performing inspections and evaluations that report timely, useful, and reliable information to decisionmakers and stakeholders. The oversight activities of I&E include inspecting the compliance of the IRS with established system controls and operating procedures, as well as evaluating the Agency's operations for high-risk systemic inefficiencies.

This account also supports the oversight of Economic Impact Payments and other fast and direct relief pursuant to Division N of the Consolidated Appropriations Act, 2021, and the American Rescue Plan Act of 2021, as well as the IRS's implementation of Inflation Reduction Act of 2022.

The Terrorism Risk Insurance Program Reauthorization Act of 2019 (P.L. 116–94) reauthorized and revised the program established by the Terrorism Risk Insurance Act of 2002 (TRIA) (P.L. 107–297). The 2019 Act extended the Terrorism Risk Insurance Program (TRIP) for seven years, through December 31, 2027. The Budget baseline includes the estimated Federal cost of providing payments in connection with terrorism risk insurance losses. There have been no prior payments under the Program. While the Budget does not forecast any specific payment triggering events, the Budget includes estimates representing the weighted average of payments over a full range of possible scenarios, most of which include no notional payment triggering events and some of which include notional triggering events of varying magnitude. Relying upon this methodology, the Budget baseline projects net spending associated with the current reauthorization of \$473 million over the 2024–2033 period. Mechanisms in TRIA result in

Treasury's relative share of any covered losses decreasing over time as premiums in the insurance market increase. The budget estimate reflects this projected decrease in Treasury's share.

The mission of the Treasury Forfeiture Fund (Fund) is to affirmatively influence the consistent and strategic use of asset forfeiture by law enforcement bureaus that participate in the Fund to disrupt and dismantle criminal enterprises. The Fund supports Federal, State, and local law enforcement's use of asset forfeiture to disrupt and deter criminal activity. Proceeds from non-tax forfeitures made by participating bureaus of the Department of the Treasury and the Department of Homeland Security are deposited into the Fund. Such proceeds are available to pay or reimburse certain costs and expenses related to seizures and forfeitures that occur pursuant to laws enforced by the bureaus and other expenses authorized by 31 U.S.C. 9705. Forfeiture proceeds can also be used to fund Federal law enforcement-related activities based on requests from Federal agencies and evaluation by the Secretary of the Treasury.

The Office of Financial Research (OFR) and the Financial Stability Oversight Council (Council), whose expenses are paid for out of the Financial Research Fund, were established under the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Act) (P.L. 111-203).

The OFR was established to serve the Council, its member agencies, and other stakeholders by improving the quality, transparency, and accessibility of financial data and information, by conducting and sponsoring research related to financial stability, and by promoting best practices in risk management. The OFR is an office within the Department of the Treasury.

The Council is comprised of 10 voting members, including the heads of all Federal financial regulators, and five non-voting members. The Secretary of the Treasury serves as Chairperson of the Council. The Council's purpose is to identify risks to the financial stability of the United States, promote market discipline, and respond to emerging threats to the stability of the U.S. financial system.

As required under Section 210(n)(10) of the Act, the Council's expenses also include reimbursement of certain reasonable expenses incurred by the Federal Deposit Insurance Corporation in implementing Orderly Liquidation Authority, provided by Title II of the Act.

Since July 2012, OFR and the Council have been funded through assessments on certain bank holding companies and nonbank financial companies supervised by the Board of Governors. Expenses of the Council are considered expenses of, and are paid by, the OFR. Projected fees and assessments are estimates and may change.

Individual Federal income tax returns include an optional Federal income tax designation of \$3 that an individual may elect to be paid to the Presidential Election Campaign Fund (PECF). The Department of the Treasury collects the income tax designations and makes distributions from the PECF to qualified presidential candidates. Amounts not made available to and used by qualified candidates are transferred to the 10-Year Pediatric Research Initiative Fund, which was established in 2014 by the Gabriella Miller Kids First Research Act.

The Federal Election Commission administers the public funding program, determines which candidates are eligible, the amount to which they are entitled, and audits their use of the funds.

Under the law governing the Exchange Stabilization Fund (ESF), section 10 of the Gold Reserve Act of 1934, as amended, codified at 31 U.S.C. 5302, the Secretary of the Treasury, with the approval of the President, is authorized to deal in gold, foreign exchange, and other instruments of credit and securities, as the Secretary considers necessary, consistent with U.S. obligations in the International Monetary Fund regarding orderly exchange arrangements and a stable system of exchange rates. All earnings and interest accruing to the ESF are available for the purposes thereof. U.S. holdings of Special Drawing Rights (SDRs) are credited to the account of, and administered as part of the fund. By law, the fund is not available to pay administrative expenses.

Since 1934, the principal sources of the fund's income have been earnings on investments held by the fund, including interest earned on fund holdings of U.S. Government securities. In the wake of the COVID-19 pandemic, Treasury used funds in the ESF to invest and provide other support to the Commercial Paper Funding Facility (CPFF) and the Money Market Mutual Fund Liquidity Facility (MMLF) established by the Federal Reserve to enhance liquidity and support the flow of credit to households, and businesses. The investments in these two Federal Reserve facilities were unwound in accordance with their terms in 2021, and the ESF received interest and other earnings from these transactions.

The amounts reflected in 2023 estimates entail only projected net interest earnings on ESF assets. The estimates are subject to considerable variance, depending on changes in the amount and composition of assets and the interest rates applied to investments. In addition, these estimates make no attempt to forecast gains or losses on SDR valuation or foreign currency valuation.

The CARES Act (P.L. 116–136) authorized the Department of the Treasury to make up to \$500 billion in loans and other investments in support of and to provide liquidity to eligible businesses, nonprofits, states, and municipalities impacted by the COVID-19 pandemic. This included investments in facilities established by the Board of Governors of the Federal Reserve System pursuant to Section 13(3) of the Federal Reserve Act to provide liquidity to the financial system. The CARES Act also authorized Treasury to use up to \$46 billion of these funds to make loans to passenger and cargo air carriers, certain other aviation businesses, and businesses critical to maintaining national security. As required by the Federal Credit Reform Act of 1990, as amended, this account records the subsidy costs associated with these loans and investments, which are estimated on a present value basis. The Consolidated Appropriations Act, 2021 (P.L. 116–260) Sec. 1003 rescinded \$478.8 billion in budget authority from this program in 2021 and the Infrastructure Investment and Jobs Act (PL 117–58) Sec. 90007 further rescinded \$1.4 billion in 2022.

The Consolidated Appropriations Act, 2023 (P.L. 117–328) Division LL, Section 102(d) reduced the amounts available for administrative expenses from \$100 million to \$61 million from this account and made remaining balances for this account's administrative expenses also available for expenses necessary for Treasury's administration of other pandemic recovery programs.

The Coronavirus Aid, Relief, and Economic Security Act (P.L. 116-136) Section 4112 (CARES Act), Consolidated Appropriations Act, 2021 (P.L. 116-260) Division N Section 402, and the American Rescue Plan Act of 2021 (P.L. 117-2) Section 7301 each authorized the Secretary of the Treasury to provide financial assistance to the aviation industry for the continued payment of employee wages, salaries, and benefits. The CARES Act provided financial assistance to passenger air carriers, cargo air carriers, and airline contractors. The two subsequent laws provided additional financial assistance only for passenger air carriers and airline contractors. The Infrastructure Investment and Jobs Act (P.L. 117-58) Section 90007 rescinded \$3 billion from CARES Act Section 4120 budget authority, which corresponded with a lack of demand for the program among cargo airlines, as well as \$200 million from the P.L. 116-260 Division N Sec. 411 budget authority.

The Consolidated Appropriations Act, 2023 (P.L. 117-328) Division LL, Section 102(d) reduced the amounts available for administrative expenses from \$100 million to \$67 million from this account and made remaining balances for this account's administrative expenses also available for expenses necessary for Treasury's administration of other pandemic recovery programs.

The Consolidated Appropriations Act, 2021 (P.L. 116–260) Section 421 authorized the Secretary of the Treasury, in consultation with the Secretary of Transportation, to make grants available to eligible providers of transportation services that suffered revenue loss due to the coronavirus pandemic. Eligible companies provided charter, local, commuter, school, and tour bus services. Eligible small passenger vessels (as defined in 46 U.S.C. 85, 116, and 2101) and the pilotage industry were also included.

The Consolidated Appropriations Act, 2023 (P.L. 117–328) Division LL, Section 102(d), made remaining balances for this account's administrative expenses also available for financial assistance to eligible revenue sharing consolidated governments under the Local Assistance and Tribal Consistency Fund (section 605(g) of the Social Security Act, as added by section 103 of Division LL of P.L. 117–328). Remaining balances for this account's administrative expenses are also available for expenses necessary for Treasury's administration of other pandemic recovery programs.

The Special Inspector General for Pandemic Recovery (SIGPR) was established by Section 4018 of the Coronavirus Aid, Relief, and Economic Security (CARES) Act.

SIGPR has the duty to conduct, supervise, and coordinate audits, evaluations, and investigations of the making, purchase, management, and sale of loans, loan guarantees, and other investments made by the Secretary of the Treasury under programs established by the Secretary, as authorized by Section 4018(c) of the CARES Act, and the management by the Secretary of programs, as authorized by Section 4018(c) of the CARES Act.

By express incorporation, SIGPR also has the duties, responsibilities, powers, and authorities granted inspectors general under the Inspector General Act of 1978, including broad subpoena authority.

The role and mission of SIGPR is to safeguard the people's tax dollars appropriated by Congress through the CARES Act. SIGPR strives to ensure that the American taxpayer gets the best return on investment by efficiently rooting out fraud, waste, and abuse. In carrying out its mission, SIGPR's goal is to treat everyone with respect, to operate with the utmost integrity, and to be fair, objective, and independent.

The CARES Act provided an initial appropriation of \$25 million to SIGPR derived from amounts made available under section 4027 and Congress provided additional appropriations in 2022 and 2023. The Budget proposes appropriations language to provide SIGPR an additional \$16 million to carry out section 4018 of the CARES Act. This funding would support SIGPR's audit and investigative services identify waste, fraud, and abuse, protect the integrity of CARES Act funds, and aid in the conviction of perpetrators of unlawful activity, while collecting remuneration for the U.S. Treasury.

The Community Development Financial Institutions (CDFI) Fund promotes economic and community development through investment in and assistance to CDFIs (including community development banks, credit unions, loan funds, and venture capital funds) to expand the availability of financial services and affordable credit for underserved populations and communities. The 2024 Budget provides funding for the CDFI Program, the Healthy Food Financing Initiative, the Native American CDFI Assistance Program, the Bank Enterprise Award Program, and the Small Dollar Loan Program. The Budget proposes to eliminate funding for the AmeriCorps CDFI Economic Mobility Corps program.

The CDFI Fund's Bond Guarantee Program (BGP) was originally authorized in the Small Business Jobs Act of 2010 (P.L. 111–240) to provide a source of long-term capital in low-income and underserved communities. The Budget proposes an annual commitment authority of \$500 million. The Budget also proposes to establish a credit subsidy of up to \$10 million for the Bond Guarantee Program (BGP) to better support long-term financing in underserved communities.

The Consolidated Appropriations Act, 2021 (P. L. 116-260) provided \$3 billion to deliver immediate assistance to CDFIs in communities impacted by the COVID-19 pandemic. In the spring of 2021, the CDFI Fund awarded \$1.25 billion of these funds through its CDFI Rapid Response Program (CDFI RRP), which was designed to quickly deploy capital to CDFIs through a streamlined application and review process.

In 2023, the CDFI Fund will continue implementing P.L. 116-260 through its newly established CDFI Equitable Recovery Program (CDFI ERP) which will award \$1.73 billion in grant funds for CDFIs to expand their lending, grant making, or investment activity in low- or moderate-income minority communities and to minorities that have significant unmet capital or financial service needs.

The Emergency Capital Investment Program (ECIP) invests in either perpetual preferred equity or subordinated debt (with a maturity of fifteen or thirty years) issued by eligible financial institutions consistent with ECIP's terms. Eligible institutions be: 1) Community Development Financial Institutions or Minority Depository Institutions; 2) insured depository institutions, bank or savings and loan holding companies, or federally insured credit unions; and 3) supportive of low- and middle-income communities. Dividend yields or interest paid on ECIP securities decrease when institutions reach lending goals established at the time of their participation. Division N, Section 522 of the Consolidated Appropriations Act, 2021 (P.L. 116–260) established ECIP by amending the Community Development Banking and Financial Institutions Act of 1994 (12 U.S.C. 4701 et seq.) and provided \$9 billion for the program.

The Emergency Economic Stabilization Act of 2008 (EESA) (P.L. 110–343) authorized the establishment of the Troubled Asset Relief Program (TARP) and the Office of Financial Stability (OFS) to purchase and insure certain types of troubled assets for the purpose of providing stability to and preventing disruption in the economy and financial system and protecting taxpayers. The Act gave the Secretary of the Treasury broad and flexible authority to purchase and insure mortgages and other troubled assets, as well as inject capital by taking limited equity positions, as needed to stabilize the financial markets. This account provides for the administrative costs of OFS, which oversees and manages TARP.

The mission of the Office of the Special Inspector General for the Troubled Asset Relief Program (SIGTARP) is to prevent and detect fraud, waste, and abuse in the more than \$442 billion in funds and programs from the Emergency Economic Stabilization Act of 2008 (EESA) (P.L. 110-343) and \$2 billion in funds from the Consolidated Appropriations Act of 2016, and to promote economy, efficiency, effectiveness, and accountability in these economic stability programs. SIGTARP received an initial appropriation of \$50 million in permanent, indefinite budget authority in EESA. The Public-Private Investment Program Improvement and Oversight Act of 2009 (12 U.S.C. 5231a) provided \$15 million in supplemental funding. Since 2010, SIGTARP has received annual appropriations to fund its operations. The Budget estimates that SIGTARP will have sufficient balances to conclude orderly wind down activities in FY2024 and does not request additional funding.

The Small Business Lending Fund (SBLF) was established by the Small Business Jobs Act of 2010 (P.L. 111-240) and is a dedicated investment fund that encourages lending to small businesses by providing capital to qualified community banks and community development loan funds (CDLFs). In total, the SBLF provided \$4.0 billion to 281 community banks and 51 CDLFs in 2011. For institutions that still participate in the program, CDLF securities matured by 2021. As of December 1, 2022, 327 institutions with aggregate investments of \$3.95 billion have fully redeemed their SBLF investments and exited the program. As of September 30, 2022, five institutions remain in the program; two that are operating, two in bankruptcy, and one has been written off. The two banks in operation plan to eventually redeem, but have yet to decide when to purchase their outstanding perpetual preferred shares from Treasury. One of these institutions has partially redeemed \$1.25 million (or 25 percent of its SBLF securities) while continuing to participate in the program. Of the two institutions in bankruptcy, one is a CDLF and the other is a bank. The fifth institution never entered into bankruptcy; however, it is no longer in operation and Treasury has written off the investment.

The Social Impact Partnerships to Pay for Results Act (SIPRA) was included as part of the Bipartisan Budget Act of 2018 (P.L. 115-123). SIPRA created a ten-year \$100 million fund to support social impact partnership projects by State and local governments to encourage new and innovative ways to solve entrenched social problems. The program funds social programs at the State or local level that achieve demonstrable, measurable, and scalable results, by making payment of funds contingent on positive outcomes.

In 2008, under temporary authority granted by section 1117 of the Housing and Economic Recovery Act of 2008 (P.L. 110–289), Treasury entered into agreements with Fannie Mae and Freddie Mac (the GSEs) to purchase senior preferred stock of each GSE and to provide up to \$100 billion when needed to ensure that each company maintains a positive net worth. In May 2009, Treasury increased the Senior Preferred Stock Purchase Agreement (PSPA) funding commitment caps to \$200 billion for each GSE, and in December 2009 Treasury modified the funding commitment caps in the PSPAs to be the greater of \$200 billion or \$200 billion plus cumulative net worth deficits experienced during 2010–2012, less any surplus remaining as of December 31, 2012. Based on the financial results reported by each GSE as of December 31, 2012, and under the terms of the PSPAs, the combined cumulative funding commitment cap for Fannie Mae and Freddie Mac was set at \$445.5 billion. Treasury's authority to purchase obligations or other securities of the GSEs or to increase the funding commitment expired on December 31, 2009. Under the PSPAs, Treasury has maintained the solvency of the GSEs by providing \$191.5 billion of investment to the GSEs. For additional discussion of the GSEs, please see the *Analytical Perspectives* volume of the Budget.

backed securities; the Temporary Credit and Liquidity Program, which provided liquidity to State housing financing agencies (HFAs); and the New Issue Bond Program, which purchased securities backed by new HFA housing bonds was provided in section 1117 of the Housing and Economic Recovery Act of 2008 (P.L. 110–289). As required by the Federal Credit Reform Act of 1990 as amended, this account records the subsidy costs associated with these programs, which are treated as direct loans for budget execution. Established by the Housing and Economic Recovery Act of 2008 (HERA) (P.L. 110-289), the Capital Magnet Fund (CMF) awards grants to CDFIs and qualified non-profit housing organizations to finance affordable housing activities, as well as related economic development activities and community service facilities. Organizations that receive Capital Magnet Fund awards are required to produce housing and community development investments at least ten times the size of the award amount. Funding is provided by the Government-Sponsored Enterprises, Fannie Mae and Freddie Mac, which are required to set aside an amount equal to 4.2 basis points of each dollar of the unpaid principal balance of their total new business purchases and to allocate and transfer those funds to CMF and the Housing Trust Fund. The Budget proposes legislation authorizing the Secretary of the Treasury to administratively amend CMF program requirements, including required leverage ratios and project commitment deadlines, to ensure effective utilization of funds across diverse geographies.

The Federal Crimes Enforcement Network (FinCEN) is the primary Federal regulator for the Bank Secrecy Act (BSA) and is responsible for the regulations and implementation of the non-public database of ownership and/or effective control of firms (i.e. beneficial ownership) pursuant to the Corporate Transparency Act (CTA). In this role, FinCEN safeguards the financial system from illicit use, combats money laundering, and promotes national security through the strategic use of financial authorities and the collection, analysis, and dissemination of financial intelligence. FinCEN carries out its mission by: 1) developing and issuing regulations under the BSA; 2) enforcing compliance with the BSA in partnership with regulatory partners and law enforcement, including responsibilities under the Anti-Money Laundering Act; 3) receiving and maintaining certain types of beneficial ownership and financial transaction data; 4) analyzing and dissemin-

ating financial intelligence for law enforcement purposes; and 5) serving as the U.S. Financial Intelligence Unit (FIU) and maintaining a network of information sharing with over 150 FIU partner countries.

Monetary sanctions collected by the Secretary of the Treasury or the Attorney General under title 31 of the United States Code; Chapter 35 or section 4305 or 4312 of title 50; or the Foreign Narcotics Kingpin Designation Act (21 U.S.C. 1901 et seq.), are deposited into the Fund (unless the Fund balance exceeds \$300,000,000 when the collection is made). However, required deposits into the United States Victims of State Sponsored Terrorism Fund or the Crime Victims Fund are made prior to the deposit of collections into the Financial Integrity Fund. If amounts deposited into the Fund are not sufficient to pay a whistleblower award, an additional amount, corresponding to an unsatisfied balance of a covered sanction, is transferred from the general fund.

The mission of the Fiscal Service is to promote the financial integrity and operational efficiency of the U.S. Government through exceptional accounting, financing, collections, payments, and shared services. The Fiscal Service engages in efforts to streamline the Government's audit processes, and to reduce intra-governmental accounting differences that stand in the way of a clean audit opinion on the Financial Report of the U.S. Government.

The Budget ensures the viability of the Government's National Financial Critical Infrastructure (NFCI) that finances Federal operations, collects revenue, disburses payments, and reports on the Government's financial position. Included in the Budget are resources to improve the accuracy and availability of financial information, implement new, innovative financial practices, strengthen the resiliency of our infrastructure, and enhance the customer value and experience.

Because of Fiscal Service's central role in Government-wide financial operations, the Budget supports Treasury's leadership in transforming Federal financial management to become more efficient, more accurate and deliver better service to citizens.

The Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (the Act) authorized and appropriated to the Secretary of the Treasury such sums as may be necessary to cover interest payments on obligations issued by the Resolution Funding Corporation (REFCORP). REFCORP was established under the Act to raise \$31.2 billion for the Resolution Trust Corporation (RTC) in order to resolve savings institution insolvencies. Bonds issued had a 30 year maturity with the last bond maturing in 2030.

Sources of payment for interest due on REFCORP obligations have included REFCORP investment income, proceeds from the sale of assets or warrants acquired by the RTC, and contributions by the Federal Home Loan Banks. Indefinite, mandatory funds appropriated to the Treasury are primarily used to meet any shortfall.

This account pays interest on the invested balances of guaranteed and direct loan financing accounts. For guaranteed loan financing accounts, balances result when the accounts receive up-front payments and fees to be held in reserve to make payments on defaults. Direct loan financing accounts normally borrow from Treasury to disburse loans and receive interest and principal payments and other payments from borrowers. Because direct loan financing accounts generally repay borrowing from Treasury at the end of the year, they can build up balances of payments received during the year. Interest on invested balances is paid to the financing accounts from the general fund of the Treasury, in accordance with section 505(c) of the Federal Credit Reform Act of 1990.

U.S. Customs and Border Protection, Department of Homeland Security, collects duties assessed pursuant to a countervailing duty order, an antidumping duty order, or a finding under the Antidumping Act of 1921. Under a provision enacted in 2000 CBP, through the Treasury, distributes certain of these duties to affected domestic producers. These distributions provide an additional subsidy to producers that already gain protection from the increased import prices, including tariffs. The authority to distribute assessments on entries made after October 1, 2007,

has been repealed. Assessments on entries made before October 1, 2007, will be disbursed as if the authority had not been repealed. Assessments collected on eligible entries are to be disbursed within 60 days of the end of the fiscal year in which they were collected.

This Fund was established as a permanent, indefinite appropriation in order to maintain adequate funding of the Check Forgery Insurance Fund. The Fund facilitates timely payments for replacement Treasury checks necessitated due to a claim of forgery. The Fund recoups disbursements through reclamations made against banks negotiating forged checks.

To reduce hardships sustained by payees of Government checks that have been stolen and forged, settlement is made in advance of the receipt of funds from the endorser of the checks. If the U.S. Treasury is unable to recover funds through reclamation procedures, the Fund sustains the loss.

Public Law 108–447 expanded the use of the Fund to include payments made via electronic funds transfer. A technical correction to the Fund's statutes to ensure and clarify that the Fund can be utilized as a funding source for relief of administrative disbursing errors was enacted by P.L. 110–161, Division D, section 119.

The Water Resources Development Act of 1999 (P.L. 106–53) established trust funds to provide resources for the restoration of terrestrial wildlife habitat lost from flooding related to the Big Bend and Oahe Dam projects along the Missouri River, as part of the Flood Control Act of 1944.

The funds received annual General Fund appropriations beginning in FY 1999 until they became fully capitalized in FY 2010. Once fully capitalized, the interest earnings accumulated from the inception of the funds and all future earnings are available to pay for terrestrial wildlife restoration projects per the Restoration Plans of the beneficiaries of the trusts, the Cheyenne River Sioux Tribe Terrestrial Wildlife Restoration Trust Fund and the Lower Brule Sioux Tribe Terrestrial Wildlife Restoration Trust Fund.

It will receive 80 percent of the civil and administrative penalties collected after July 6, 2012, from parties responsible for the *Deepwater Horizon* oil spill. Funding will be used by Federal, State, and local governments for activities to restore and protect the ecosystems and economy of the Gulf Coast region, research and monitoring, and related oversight and management responsibilities. The current estimates represent known settlement amounts; additional funds may become available through future court judgments or settlements. BP Exploration & Production Inc. is expected to make annual civil penalty payments through mid–2031 pursuant to a consent decree entered on April 4, 2016 under the Federal Water Pollution Control Act (Clean Water Act).

The Federal Financing Bank (FFB) was created in 1973 to reduce the costs of certain Federal and federally-assisted borrowing and to ensure the coordination of such borrowing from the public in a manner least disruptive to private financial markets and institutions. With the implementation of the Federal Credit Reform Act of 1990 agencies finance such loan programs through direct loan financing accounts that borrow directly from the Treasury. The FFB finances these Federal direct loans to the public which are fully guaranteed by a Federal agency. FFB loans are also used to finance activities of the U.S. Postal Service.

Lending by the FFB may take one of three forms, depending on the authorizing statutes pertaining to a particular agency or program; 1) the FFB may purchase agency financial assets; 2) the FFB may acquire debt securities that the agency is otherwise authorized to issue and 3) the FFB may provide direct loans on behalf of a Federal agency by disbursing loans directly to private borrowers and receiving repayments from the private borrower guaranteed by the agency. Because the law requires that transactions by the FFB be treated as a means of financing agency obligations, the budgetary effect of the third type of transaction is reflected in the Budget in the following sequence: a loan by the FFB to the agency, a loan by the agency to a private borrower, a repayment by a private borrower to the agency, and a repayment by the agency to the FFB.

In 2022, FFB's net inflows were \$65 million. In addition to its authority to borrow from the Treasury (Fiscal Service), the FFB has the statutory authority to borrow up to \$15 billion from other sources. Any such borrowing is exempt from the statutory ceiling on Federal debt. The FFB used this authority most recently in October 2015.

The following tables show (1) the annual net lending by the FFB by agency and program and the amount outstanding at the end of each year and (2) principal repayments from the borrower in excess of principal repaid to the Fiscal Service each year.

The Bureau of Engraving and Printing (BEP) produces and delivers U.S. currency notes for the Federal Reserve System ordered by the Board of Governors of the Federal Reserve and other security products for the Federal Government. BEP began printing currency in 1862 and operates on the basis of authority conferred upon the Secretary of the Treasury by 31 U.S.C. 321(a) (4) to engrave and print currency and other security documents. Operations are financed through a revolving fund established in 1950 in accordance with Public Law 81-656. The fund is reimbursed for direct and indirect costs of operations, including administrative expenses, through product sales. In 1977, Public Law 95-81 authorized BEP to include an amount sufficient to fund capital investment and to meet working capital requirements in the prices charged for products, eliminating the need for appropriations from Congress. In 2019, Public Law 116-6 authorized the use of the revolving fund for acquisition of necessary land for, and construction of, a replacement currency production facility.

The Bureau has three strategic goals: to safely and timely deliver quality products to stakeholders in a cost-effective and environmentally responsible manner; to create innovative designs, processes, and products that exceed stakeholders' expectations and to achieve overall excellence by balanced investment in people, processes, facilities, and technology. Other activities at BEP include engraving plates and dies; manufacturing inks used to print security products; purchasing materials, supplies, equipment; and storing and delivering products in accordance with customer requirements. In addition, BEP provides technical assistance, advice, and production services to other Federal agencies in the development of security documents that require counterfeit deterrent features due to their innate value or other characteristics. BEP supports the Treasury goals to Boost U.S. Economic Growth and Achieve Operational Excellence.

BEP's 2024 priorities include: (1) meeting the needs of the Nation for currency; (2) designing the next family of notes to include security feature development and currency design/development; (3) modernizing facilities, including the new DC Production Facility and Western Currency Facility Expansion; and (4) retooling manufacturing processes with state-of-the-art intaglio printing presses, electronic inspection systems, and finishing equipment. In 2023, the Federal Reserve Board (Board) established a minimum quantity of 4.486 billion notes with a ceiling up to 8.550 billion notes.

The United States Mint mints and issues circulating coins, produces and distributes numismatic items, and provides security and asset protection. Since 1996, the Mint's operations have been funded through the Public Enterprise Fund (PEF) established by section 522 of Public Law 104-52 (31 U.S.C. 5136). The operations of the Mint are divided into two major components, circulating coinage and numismatic products. Finances for the two components are accounted

## UNITED STATES MINT PUBLIC ENTERPRISE FUND—Continued

for separately; Receipts from circulating coinage operations are not used to fund numismatic operations and receipts from numismatic operations are not used to fund circulating coinage operations. The Mint generates revenue through the issuance of circulating coins to the Federal Reserve Banks (FRBs) and the sale of numismatic products to the public and bullion coins to authorized purchasers. The Mint submits annual audited financial statements to the Secretary of the Treasury and to the Congress in support of the operations of the PEF. In 2022, the Mint transferred \$534 million to the General Fund.

**Circulating Coinage.**— This activity funds the minting and issuance of circulating coins to the FRBs in amounts that the Secretary of the Treasury determines are necessary to meet the needs of the United States. The 2023 Budget reflects production volumes that correspond to expected demand and raw materials costs, which are driven by commodity prices and volumes. The Mint receives funds from the Federal Reserve equal to the face value of the circulating coins shipped to the FRB. The Mint is credited with the full cost of producing and distributing the coins that are put into circulation, including the depreciation of manufacturing facilities and equipment. The difference between the face value of the coins and the full cost of producing the coins is called seigniorage, which is a means of financing the deficit and transferred periodically to the General Fund. The annual appropriations bill includes a statutory cap on Mint expenditures on circulating and protection capital investments. The cap for 2024 is \$50 million. The Budget proposes legislation enabling changes to coin metal composition if they: a) reduce cost; b) are seamless; and c) have as minimal an adverse impact as possible on stakeholders and the public.

**Numismatic Items.**— This activity funds the manufacturing of numismatic items, which include collectible coins and sets, medals, bullion coins, and other products for sale to collectors and other members of the public who desire high-quality or investment-grade versions of the Nation's coinage. These products include annual proof and uncirculated sets; investment-grade silver and gold bullion coins; uncirculated silver and gold coins; proof silver, gold, platinum and palladium coins; and commemorative coins and medals that are authorized to commemorate events, individuals, places, or other subjects. Prices for numismatic products are based on the estimated product cost plus a reasonable margin to assure that the numismatic program operates at no net cost to the taxpayer. Similarly, bullion coins are priced based on the market price of the precious metals plus a premium to cover manufacturing, marketing, and distribution costs. Making numismatic products accessible, available, and affordable to Americans who choose to purchase them is the highest priority of the Mint's numismatic operations.

## INTERNAL REVENUE SERVICE

The Internal Revenue Service (IRS) collects the revenue that funds the Government and administers the Nation's tax laws. During 2022, the IRS processed 260 million tax forms and collected \$4.9 trillion in taxes (gross receipts before tax refunds), which is nearly all the revenue that the federal government collects. The IRS taxpayer service program assists millions of taxpayers in understanding and meeting their tax obligations. The IRS tax enforcement and compliance program deters taxpayers inclined to evade their responsibilities while pursuing those who violate tax laws. The 2024 Budget provides \$14.1 billion for the IRS to administer the tax

code and implement key strategic priorities designed to enhance the quality of service provided to the taxpayer.

The Inflation Reduction Act (IRA) (P.L. 117-169) provided robust multi-year funding, which will allow the IRS to significantly improve service to taxpayers, address the tax gap, expand its enforcement reach to address large corporate and global high-net-worth taxpayers, large pass-through entities, and multinational taxpayers, and grant the opportunity to accelerate information technology modernization and digitalization priorities. The IRS is working to implement the wide range of tax law changes in the IRA and is developing plans to implement this funding in the most effective and responsible manner.

**Taxpayer Service Account.**— The Budget includes funding for Taxpayer Services that will allow the IRS to continue delivering services to taxpayers using a variety of in-person, telephone, and web-based methods. These tools help taxpayers understand their obligations, correctly file their returns, and pay taxes due in a timely manner with as little burden as possible. In fiscal year 2022, the IRS processed more than 168 million individual tax returns and issued more than 110 million federal tax refunds totaling more than \$359.5 billion.

**Enforcement Account.**— The Enforcement account funds activities that protect revenue by identifying fraud and preventing issuance of questionable refunds including those related to identity theft; increasing compliance by addressing offshore tax evasion; strengthening examination and collection programs, including return preparer; and addressing compliance issues in the tax-exempt sector. During 2022, the IRS achieved 2,552 criminal investigations completed with a conviction rate of 90.6 percent.

**Operations Support Account.**— The Budget includes funding for the overall planning, direction, operations and critical infrastructure activities, including the IT and cybersecurity that keep tax systems running and protect taxpayer data, the financial management activities that ensure effective stewardship of the Nation's revenues, and the physical infrastructure of IRS facilities. For example, in 2022, the IRS reduced the percentage of aged hardware within the IT environment from 9.3 percent at the end of 2021 to 7.1 percent through refreshing employee workstations, upgrading aged server operating systems and related aged hardware, and phasing out old equipment.

**Business Systems Modernization Account.**— IRS modernization efforts focus on building and deploying advanced information technology systems, processes, and tools to improve efficiency and enhance productivity. Modernizing is necessary to maintain the integrity of the Nation's voluntary tax system and collect trillions of dollars in tax revenue. With improved online services, taxpayers will be able to receive notifications, check their account balance, set up payment plans, and connect with an IRS representative through a single, online session. Other projects will help the IRS manage its caseload, increase the productivity of its workforce, and ensure the security of taxpayer information.

This account provides resources for overall planning, direction, operations, and critical infrastructure activities for the IRS. These activities include IT and cybersecurity that keep tax systems running and protect taxpayer data, the financial management activities that ensure effective stewardship of the nation's revenues, and the physical infrastructure that help IRS employees serve customers in office, campus, and Taxpayer Assistance Center sites. Telecommunications, human resource, and communications infrastructure are also critical components of this appropriation and are vital to maintaining adequate levels of customer service and the post-filing processes necessary for the tax system to properly function.

The Budget proposes mandatory funding for the IRS for 2032 and 2033 to supplement the annual appropriations for the agency's Operations Support account. The proposal would provide \$2.5 billion in 2032 and \$2.6 billion in 2033 to cover extensions of IRA-funded enforcement and compliance initiatives and investments.

## REFUNDABLE SAVERS CREDIT

Section 103 of Division T (referred to as the "SECURE 2.0 Act of 2022") of the Consolidated Appropriations Act, 2023 (P.L. 117–328) added section 6433 to the Internal Revenue Code of 1986 to allow, for taxable years beginning after December 31, 2026, an eligible individual who makes qualified retirement savings contributions a matching contribution equal to a percentage of the qualified retirement savings contributions, up to a maximum matching contribution amount of \$2,000. The applicable percentage for the matching contribution is, in general, 50 percent but is reduced ratably to 0 percent as the taxpayers modified adjusted gross income (modified AGI) increases from \$41,000 to \$71,000 in the case of a married couple filing a joint return or surviving spouse, from \$30,750 to \$53,250 in the case of a head of household filers, and from \$20,500 to \$35,500 in all other cases. The dollar thresholds at which the applicable percentage begins to be reduced are indexed for inflation after 2027. The range over which the applicable percentage is reduced is not indexed for inflation. The matching contribution is allowed as a

credit payable to the applicable retirement savings vehicle of the eligible individual. Matching contributions less than \$100 are treated as a refundable tax credit.

Section 107 of the CHIPS Act of 2022 (P.L. 117–167) added section 48D to the Internal Revenue Code of 1986 to allow eligible taxpayers to claim advanced manufacturing investment credits. This tax credit provides a credit of 25 percent of qualified investments in a facility for which the primary purpose is the manufacturing of semiconductors or equipment to manufacture semiconductors. Taxpayers may elect to receive the amount of this credit as a payment. In general, electing C-corporations are treated as making a payment against tax equal to the amount of the advanced manufacturing investment credit, which may generate an overpayment and result in a refund. Electing partnerships or S corporations receive payments rather than being treated as making a payment.

The American Recovery and Reinvestment Act of 2009 (P.L. 111–5), section 1531, allows State and local governments to issue Build America Bonds through December 31, 2010. These tax credit bonds, which include Recovery Zone Bonds, differ from tax-exempt governmental obligation bonds in two principal ways: 1) interest paid on tax credit bonds is taxable; and 2) a portion of the interest paid on tax credit bonds takes the form of a Federal tax credit. The bond

issuer may elect to receive a direct payment in the amount of the tax credit for obligations issued before January 1, 2011. This account reflects the continuing interest payments over time.

The Earned Income Tax Credit (EITC) was enacted by the Tax Reduction Act of 1975 (P.L. 94–12) and made permanent by the Revenue Act of 1978 (P.L. 95–600). The amount of EITC a taxpayer may receive depends on, among other factors, the number of qualifying children the taxpayer has. The amount of EITC a taxpayer may receive initially increases as the taxpayer earns more income, then remains constant over a range of income, and then decreases as income increases further. The credit phases out based on the greater of (1) earned income and (2) adjusted gross income. As provided by law, there are instances where the EITC exceeds the amount of tax liability owed through the individual income tax system, resulting in a potential refund to the taxpayer.

Sections 9621 through 9626 of the American Rescue Plan Act of 2021, (P.L. 117–2) (American Rescue Plan) modified the EITC. For Tax Year 2021 only, the American Rescue Plan, generally, (i) reduced from 25 to 19 the general minimum age to claim the EITC with no qualifying children (Childless EITC); (ii) eliminated the upper-age limit for the Childless EITC; (iii) increased the credit and phaseout percentages for the Childless EITC; (iv) increased the earned income and phaseout amounts; and (v) allowed individuals to use their earned income from Tax Year 2019 instead of their earned income from Tax Year 2021, if earned income from Tax Year 2021 is less, for purposes of calculating the EITC for Tax Year 2021. The American Rescue Plan also permanently modified the rules, beginning in 2021, regarding, (i) children who fail to meet certain identification requirements; (ii) separated spouses; (iii) the disqualified investment income test; and (iv) the application of the EITC to the U.S. Territories.

The Budget proposes to permanently increase the Earned Income Tax Credit for individuals with no qualifying children. Beginning in tax year 2023, it would (i) increase to 15.3 percent the credit and phaseout percentages for individuals with no qualifying children, (ii) reduce to age 19, in general, the minimum age for eligibility for the credit, and (iii) eliminate the maximum age for eligibility for the credit. For tax year 2023, for individuals with no qualifying children, the earned income amount would be \$10,840, and the phaseout amount would be \$12,820. These dollar amounts would be indexed for inflation thereafter using the Chained Consumer Price Index for All Urban Consumers.

The Child Tax Credit (CTC) was enacted by The Taxpayer Relief Act of 1997 (P.L. 105-34). The Tax Cuts and Jobs Act (P.L. 115-97) (TCJA) increased the credit to \$2,000 per qualifying child under age 17 for tax years 2018-2025. The CTC phases out for higher-income taxpayers with modified AGI in excess of \$400,000 for joint taxpayers, and \$200,000 for other qualifying taxpayers. Taxpayers with insufficient tax liability to claim the entire CTC may receive up to \$1,400 (indexed) per child as a refundable credit, known as the Additional Child Tax Credit (ACTC). TCJA also provided that, in order to receive the CTC and/or ACTC, a taxpayer must include on the tax return a Social Security number for each qualifying child for whom the credit is claimed.

Sections 9611 and 9612 of The American Rescue Plan Act of 2021 (P.L. 117-2) (American Rescue Plan) amended the Internal Revenue Code (Code) to modify the CTC generally for 2021 only. Section 9611 of the American Rescue Plan amended Section 24 of the Code to make the entire amount of the CTC refundable and extended the CTC to cover qualifying children 17 years old and younger. The legislation also increased the amount of the CTC from \$2,000 to \$3,600 for qualifying children under age 6, and to \$3,000 for other qualifying children under age 18. The amount of this increase in the CTC (that is, \$1,600 in the case of qualifying children under age 6 and \$1,000 in the case of other qualifying children under age 18) is reduced by \$50 for each \$1,000 (or fraction thereof) by which the taxpayer's modified adjusted gross income exceeds certain thresholds. These thresholds are (i) \$150,000 for joint filers and surviving spouses, (ii) \$112,500 for heads of household, and (iii) \$75,000 in all other cases. The remainder of the credit phases out as under TCJA. In addition, the American Rescue Plan amended the Code to require advance payments of the CTC to be made periodically throughout 2021, beginning after July 1, based on certain information shown on the taxpayer's 2020 or 2019 tax returns, in an aggregate amount equal to 50 percent of the estimated amount of the taxpayer's refundable

CTC. Section 9612 of the American Rescue Plan amended Section 24 of the Code to remove the requirement for bona fide residents of Puerto Rico to have three qualifying children to claim the CTC. For 2021 and years thereafter, bona fide residents of Puerto Rico need only one qualifying child to claim the CTC. In addition, section 9612 of the American Rescue Plan amended Section 24 of the Code to provide that certain residents of American Samoa, the Commonwealth of the Northern Mariana Islands, Guam, or the U.S. Virgin Islands, may have been eligible to receive from their territory tax agency advance Child Tax Credit payments under the expanded, refundable CTC for 2021.

The Budget proposes, beginning in tax year 2023, to permanently make the Child Tax Credit fully refundable. Beginning in tax year 2024, the entire amount of the Child Tax Credit would be paid in advance through monthly payments. This monthly advance payment program would be extended to Puerto Rico for the first time, as well as any other U.S. territory that elects to establish an advance payment program. In addition, beginning in tax year 2024, the proposal would make eligibility determined on a monthly basis instead of a taxable year basis, would make eligibility based primarily on the source of care rather than on familial relationship, and would provide authority to the Secretary to automatically enroll specified children for the credit. For tax years 2023 through 2025 only, the proposal would increase to age 17 the maximum age an individual may be claimed for the credit and would increase the maximum yearly credit amount to \$3,600 for each specified child under age 6 and to \$3,000 for each other specified child under age 18.

The Health Coverage Tax Credit (HCTC) is a refundable tax credit that pays 72.5% of qualified health insurance premiums for eligible individuals and their families (as provided in Internal Revenue Code 35(a)). Those eligible include certain recipients of Trade Adjustment Assistance (TAA) and beneficiaries of the Pension Benefit Guaranty Corporation who are aged 55 through 64. Individuals cannot claim both HCTC and a premium tax credit or a COBRA credit for the same coverage. The credit can be paid in advance. The HCTC was created in the Trade Act of 2002 (P.L. 107–210), subsequently extended, temporarily eliminated in 2014 (P.L. 112–40, section 241), then later reinstated for 2014 through December 31, 2019 (P.L. 114–27, section 407). The Further Consolidated Appropriations Act, 2020 (P.L. 116–94, div. Q, title I, section 146) extended the credit through December 31, 2020, and the Consolidated Appropriations Act, 2021 (P.L. 116–260, div. EE, title I, section 134) extended the credit through December 31, 2021.

**Employee Retention Credit.**—Section 2301 of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act, P.L. 116–136) created the employee retention credit, a refundable tax credit against certain employment taxes equal to 50 percent of the qualified wages certain businesses and tax-exempt employers pay to employees (up to \$10,000 per employee) after March 12, 2020, and before January 1, 2021. Eligible employers could get immediate access to the credit by reducing employment tax deposits they were otherwise required to make and by requesting an advance of the credit.

Section 206 of the Taxpayer Certainty and Disaster Tax Relief Act of 2020, enacted as Division EE of the Consolidated Appropriations Act, 2021 (P.L. 116–260) amended and made technical changes to section 2301 of the CARES Act retroactive to the section 2301's original effective date including permitting an employer that received a Paycheck Protection Program (PPP) loan to be eligible to claim an employee retention credit under section 2301, provided the wages reported in support of the forgiveness of the PPP loan are not the same wages for which the credit is claimed.

Section 207 of the Taxpayer Certainty and Disaster Tax Relief Act of 2020 extended the employee retention credit to qualified wages paid after December 31, 2020 and before July 1, 2021; increased the maximum credit amount that may be claimed per employee (making it equal to 70 percent of \$10,000 of qualified wages paid to an employee per calendar quarter); limited eligibility for and amount of the credit advance; and expanded the category of employers that may be entitled to claim the credit, among other technical amendments.

Section 9651 of the American Rescue Plan (ARP) Act of 2021 (P.L. 117–2) enacted section 3134 of the Internal Revenue Code of 1986, which extended the availability of the employee retention credit to wages paid after June 30, 2021, and before January 1, 2022. Section 3134 generally maintained the structure of the employee retention credit as provided under section 2301 of the CARES Act, as amended, with certain changes.

Employers in a U.S. Territory that otherwise qualify for the employee retention credit can claim the credit. Payments of wages by employers in U.S. Territories are wages within the meaning of section 3121(a) and therefore employers eligible to claim the credit include employers in the U.S. Territories that pay qualified wages and otherwise meet the requirements for the credit.

Section 80604 of the Infrastructure Investment and Jobs Act of 2021 (P.L. 117–58) amended section 3134 of the Internal Revenue Code to provide that the employee retention credit under section 3134 shall apply only to wages paid after June 30, 2021, and before October 1, 2021 (or, in the case of wages paid by an eligible employer which is a recovery startup business, January 1, 2022).

**Paid Leave Credits.**—Sections 7001 and 7003 of Division G of the Families First Coronavirus Response Act (FFCRA, P.L. 116–127) created refundable tax credits against certain employment taxes for small and midsize employers to reimburse them for the cost of providing required paid sick and family leave wages to their employees for leave related to COVID-19 as set forth under Division E, the Emergency Paid Sick Leave Act (EPSLA) and Division C, the Emergency Family and Medical Leave Expansion Act (Expanded FMLA) of the FFCRA. Sections 7002 and 7004 of the FFCRA created similar credits for certain self-employed persons in similar COVID-related circumstances. An employer is eligible for credits for qualified sick leave wages up to \$511 per day and \$5,110 in the aggregate (for up to 10 days of leave) and up to \$200 per day and \$10,000 in the aggregate (for up to 10 weeks of leave) for qualifying COVID-related leave reasons. Eligible employers could get immediate access to the credit by reducing employment tax deposits they are otherwise required to make and by requesting an advance of the credit. The requirement to provide leave under the EPSLA and Expanded FMLA expired on December 31, 2020, but the credits for paid leave that otherwise would have satisfied the requirements under the EPSLA and Expanded FMLA were later extended through September 30, 2021.

Sections 286, 287 and 288 of the COVID-related Tax Relief Act of 2020, enacted under Division N of the Consolidated Appropriations Act, 2021 (P.L. 116–260) extended the credits for periods of leave from January 1, 2021, through March 31, 2021, and made certain technical improvements to the FFCRA credit provisions.

Section 9641 of the ARP enacted sections 3131, 3132, and 3133 of the Internal Revenue Code to extend the credits through the period from April 1, 2021 through September 30, 2021; expand the category of employers eligible for the credit; reset the limitations on the amount of qualified wages that may be taken into account for purposes of the credits (and increased the aggregate cap for paid family leave wages from \$10,000 to \$12,000); expand the category of qualifying reasons for paid leave wages eligible for the credits (including leave to receive and recover from a COVID-19 vaccine), and make other technical amendments. (Sections 9642 and 9643 of the ARP amended and extended the equivalent tax credits for certain self-employed individuals for April 1, 2021, through September 30, 2021.)

Employers in a U.S. Territory that otherwise qualify for the paid leave credits can claim the credit. Payments of wages by employers in U.S. Territories are wages within the meaning of section 3121(a) and therefore employers eligible to claim the credit include employers in the U.S. Territories that pay qualified wages and otherwise meet the requirements for the credit.

**COBRA Credit.**—Section 9501 of the ARP required certain employers to offer free Consolidated Omnibus Budget Reconciliation Act (COBRA) coverage to certain qualified individuals for periods of coverage from April 1, 2021 through September 30, 2021. The ARP enacted section 6432 of the Internal Revenue Code that provided a refundable tax credit against certain employment taxes to offset the cost of the COBRA coverage. The ARP provision subsidized 100 percent of COBRA premiums for six months for individuals who lost employment involuntarily or had reduced hours.

The Patient Protection and Affordable Care Act (P.L. 111–148), section 1421, allows certain small employers (including small tax-exempt employers) to claim a credit when they pay at least half of the health care premiums for single health insurance coverage for their employees. Small employers can claim the credit for the first two consecutive years of having coverage purchased through the small business health options program. Generally, employers that have no more than 25 full-time equivalent employees and pay wages averaging less than \$50,000 (as adjusted for inflation) per employee per year may qualify for the credit.

PAYMENT WHERE CERTAIN TAX CREDITS EXCEED LIABILITY FOR CORPORATE  
TAX—Continued

This account shows the outlays for the provision that allows certain businesses to accelerate the recognition of a portion of certain other credits in lieu of taking bonus depreciation. The Housing and Economic Recovery Act of 2008 (P.L. 110–289), section 3081, amended section 168(k) of the Internal Revenue Code (Code) to allow certain businesses to accelerate the recognition of a portion of their unused pre-2006 alternative minimum tax (AMT) or research and development (R&D) credits in lieu of taking bonus depreciation. The portion of the unused credit that can be accelerated under this provision is capped at the lesser of \$30 million or 6 percent of eligible AMT and R&D credits. The accelerated credit amount is refundable. The American Recovery and Reinvestment Act of 2009 (P.L. 111–5), section 1201(b), extended this temporary benefit through 2009. The Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010 (P.L. 111–312), section 401(c), extended this temporary benefit through the end of 2012, but only with respect to AMT credits. The American Taxpayer Relief Act of 2012 (P.L. 112–240), section 331(c), extended this temporary benefit through 2013 only with respect to AMT credits. The Tax Increase Prevention Act, Title I—Certain Expiring Provisions (P.L. 113–295), section 125(c), extended this temporary benefit through 2014 only with respect to AMT credits. The Protecting Americans from Tax Hikes (PATH) Act of 2015 (P.L. 114–113), extended this provision through 2015 only with respect to AMT credits. The PATH Act also extended and modified this provision for 2016 through 2019 only with respect to AMT credits.

The Tax Cuts and Jobs Act (P.L. 115–97) (TCJA) repealed the corporate alternative minimum tax. To conform to this repeal, the election to accelerate AMT credits in lieu of taking bonus depreciation was repealed, effective for property placed in service after September 27, 2017. Further, the TCJA amended the AMT credit limitation in section 53 of the Code to allow unused AMT credits to fully offset the regular federal income tax liability for any taxable year beginning after 2017. The TCJA also added section 53(e) to the Code to treat unused AMT credits as refundable for any taxable year beginning after 2017 and before 2022 in an amount equal to 50 percent (100 percent in the case of taxable years beginning in 2021) of the excess of the unused AMT credit as of the beginning of the taxable year over the amount of the credit allowable for the year against regular federal income tax liability. The Coronavirus Aid, Relief, and Economic Security Act (P.L. 116–136) (CARES Act) retroactively amended section 53(e) of the Code to allow unused AMT credits to be fully refunded in tax years beginning in 2018 or 2019. The refundable corporate minimum tax credit claimed under sections 53 and 168(k)(4) of the Code as in effect for taxable years beginning before Jan. 1, 2018, is not direct spending under the Balanced Budget and Deficit Control Act, as amended, and thus is not subject to sequestration.

Section 9631(a) of the American Rescue Plan Act of 2021 (P.L. 117–2) (American Rescue Plan) amended Section 21 of the Internal Revenue Code (Code) to provide special rules for the Child and Dependent Care Tax Credit (CDCTC) solely for Tax Year 2021. Specifically, the American Rescue Plan made the CDCTC fully refundable. In addition, the maximum credit rate of the CDCTC increased from 35 percent to 50 percent. The amount of expenses that are eligible for the CDCTC was increased from \$3,000 to \$8,000 for one qualifying dependent (from \$6,000 to \$16,000 for two or more qualifying dependents). The American Rescue Plan increased the phase-out threshold of the CDCTC from \$15,000 of AGI to \$125,000. The credit rate is phased down, but not below 20 percent, by 1 percentage point for each \$2,000 (or fraction thereof) by which the taxpayer's adjusted gross income (AGI) exceeds this threshold. The American Rescue Plan further phased down the credit rate of 20 percent by 1 percentage point for each \$2,000 (or fraction thereof) by which the taxpayer's AGI exceeds \$400,000. Section 9631(b) of the

American Rescue Plan amended Section 21 of the Code to authorize payments to U.S. Territories with mirror code tax systems and to U.S. Territories with non-mirror code tax systems.

Section 9632(a) of the American Rescue Plan amended Section 129(a)(2) of the Code to increase, for Tax Year 2021 only, the maximum amount of employer-provided dependent care assistance that may be excluded from gross income. The American Opportunity Tax Credit (AOTC) was enacted by the American Recovery and Reinvestment Act of 2009 (Public Law 111–5), was extended temporarily by Public Laws 111–312 and 112–240, and was made permanent by Public Law 114–113. A taxpayer may claim an AOTC of 100 percent of the first \$2,000 of qualified tuition, fees, and course materials paid by the taxpayer for each eligible student and 25 percent of the next \$2,000 of these qualifying expenses. Up to 40 percent of the otherwise eligible credit is refundable. For each eligible student, the AOTC may be claimed for only four years and for only the first four years of post-secondary education. The AOTC phases out for higher income taxpayers as the taxpayer's income increases.

The Patient Protection and Affordable Care Act (PPACA) of 2010 (P.L. 111–148) established the Premium Tax Credit. This credit is an advanceable, refundable tax credit designed to help eligible individuals and families with low or moderate income afford health insurance purchased through a Health Insurance Exchange, beginning in 2014. The credit can be paid in advance to the taxpayer's insurance company to lower the monthly premiums, or it can be claimed when a taxpayer files their income tax return for the year. If the credit is paid in advance, the taxpayer must reconcile the advance credit payments with the actual credit computed on the tax return and repay any excess advance credit payments, subject to certain caps.

The American Rescue Plan Act of 2021 (P.L. 117–2) increased the Premium Tax Credit in three ways. For 2021 and 2022, the legislation increased the Premium Tax Credit for currently eligible individuals and families, providing access to free benchmark plans for those earning 100 to 150 percent of the Federal poverty level, and expanded eligibility to newly include individuals and families with income above 400 percent of the federal poverty level for 2021 and 2022. The Inflation Reduction Act (P.L. 117–169) extended the increased Premium Tax Credit and expanded the eligibility provision through 2025.

This account includes state innovation waiver pass-through payments in lieu of the Premium Tax Credit to qualifying states under section 1332(a)(3) of the PPACA, as well as payments to states under the Basic Health Program established under section 1331 of PPACA.

The Budget makes permanent the Inflation Reduction Act (P.L. 117–169) expansion of health insurance premium tax credits. The proposals also build on existing consumer protections and improve access to behavioral health services by doing the following: require coverage of mental health and substance use disorder benefits for all plans and issuers; require coverage of three primary care visits and three behavioral health visits without cost-sharing; limit utilization management controls for behavioral health; amend the Mental Health Parity and Addiction Equity Act (MHPAEA; P.L. 110–343) to authorize the Treasury and Labor Secretaries to regulate behavioral health network adequacy for all plans and issuers; authorizes the Secretaries to issue regulations with respect to reimbursement rates. The Budget also extends surprise billing protections to ground ambulances and limits cost-sharing for insulin at \$35 per month.

This account reflects the funds that the IRS is allowed to retain and expend for qualified tax collection contracts with private collection agents and the special compliance personnel program. The American Jobs Creation Act of 2004 (P.L. 108–357) allowed the IRS to use private collection contractors to supplement its own collection staff efforts to ensure that all taxpayers pay what they owe. The statute authorized the Treasury to retain and use an amount not in excess of 25 percent of the amount collected under any qualified tax collection contract for payments to private collection agents, and an amount not in excess of 25 percent of the amount collected for enforcement activities of the IRS (26 U.S.C. 6306). The IRS used this authority to contract with several private debt collection agencies starting in 2006. In March 2009, the IRS allowed its private debt collection contracts to expire, thereby administratively terminating the program in accordance with Omnibus Appropriations Act, 2009 Administrative Provisions—Internal Revenue Service, Section 106 (P.L. 111–8). This provision stated that none of the funds made available in this Act may be used to enter into, renew, extend, administer, implement, enforce, or provide oversight of any qualified tax collection contract as defined in section 6306 of the Internal Revenue Code of 1986.

Section 32102(a) of the Fixing America's Surface Transportation Act of 2015 (P.L. 114–94), amended section 6306 of the Internal Revenue Code (IRC) and requires the Secretary of the Treasury to enter into one or more qualified tax collection contracts for the collection of all outstanding inactive tax receivables. These agreements are applicable to tax receivables as identified by the Secretary after December 4, 2015. Section 6306 of the IRC prohibits the payment of fees for all services in excess of 25 percent of the amount collected under a tax collection contract for payments to private collection agents. In addition, up to 25 percent of the amount collected may be used to fund the special compliance personnel program account under section 6307.

Inactive tax receivables, as redefined by the Taxpayer First Act (P.L. 116–25), are defined as any tax receivable: 1) removed from the active inventory for lack of resources or inability to locate the taxpayer; 2) for which more than two years has passed since assessment and no IRS employee has been assigned to collect the receivable; or 3) for which a receivable has been assigned for collection but more than 365 days have passed without interaction with the taxpayer or a third party for purposes of furthering the collection. Tax receivables are defined as any outstanding assessment that the IRS includes in potentially collectible inventory. The Taxpayer First Act also made certain receivables of individual taxpayers ineligible for collection, including

taxpayers whose income substantially consists of disability insurance benefits or supplemental security income benefits or whose adjusted gross income does not exceed 200 percent of the applicable federal poverty level.

As provided by law (26 U.S.C. 7623), the Secretary of the Treasury may make payments to individuals who provide information that leads to the collection of Internal Revenue taxes. The Taxpayer Bill of Rights of 1996 (P.L. 104–168) provides for payments of such sums to individuals from the proceeds of amounts collected by reason of the information provided, and any amount collected shall be available for such payments. This information must lead to the detection of underpayments of taxes, or detection and bringing to trial and punishment of persons guilty of violating the Internal Revenue laws. This provision was further amended by the Tax Relief and Health Care Act of 2006 (P.L. 109–432) to provide for mandatory payments in certain circumstances and to encourage use of the program. A reward payment typically ranges between 15 and 30 percent of the collected proceeds for cases where the amount of collected proceeds exceeds \$2 million. Lower payments are allowed in certain circumstances, including cases in which information is provided that was already available from another source. Section 41108 of the Bipartisan Budget Act of 2018 (P.L. 115–123) expanded the definition of proceeds to include proceeds arising from the laws for which the Internal Revenue Service is authorized to administer, enforce, or investigate. Section 41108 further provides that the expanded definition of proceeds shall be used to determine eligibility for a mandatory award under section 7623(b)(5) and states that the amount of proceeds are to be determined without regard to whether such proceeds are available to the Secretary.

This revolving fund was established pursuant to section 112(a) of the Federal Tax Lien Act of 1966, to serve as the source of financing the redemption of real property by the United States. During the process of collecting unpaid taxes, the Government may place a tax lien on real estate in order to protect the Government's interest and this account provides the resources to administer the program.

**PAYMENT WHERE ADOPTION CREDIT EXCEEDS LIABILITY FOR TAX****(Legislative proposal, subject to PAYGO)**

The Budget proposes to make the adoption credit fully refundable beginning in tax year 2024. In addition, taxpayers with unused carryforward amounts from eligible expenses from earlier adoptions would be able to claim the full amount of any unused carryforward on their 2024 tax return. The proposal would also allow families who enter into a guardianship relationship with a child that meets certain requirements to claim a refundable credit for the expenses related to establishing the guardianship relationship in the year such requirements are satisfied.

The Office of the Comptroller of the Currency (OCC) was created by Congress to charter national banks; oversee a nationwide system of banking institutions; and ensure national banks are safe and sound, competitive and profitable, and capable of serving in the best possible manner the banking needs of their customers. The National Currency Act of 1863 (12 U.S.C. 1 et seq., 12 Stat. 665), rewritten and reenacted as the National Bank Act of 1864, provided for the chartering and supervising functions of the OCC. Income of the OCC is derived principally from assessments paid by national banks and interest on investments in U.S. Government securities. The OCC receives no appropriated funds from Congress.

As of September 30, 2022, the OCC supervised 778 national bank charters, 49 Federal branches of foreign banks, and 257 Federal savings associations. In total, the OCC supervises approximately \$15.9 trillion in financial institution assets.

As of September 30, 2022, the net position of the OCC was \$1,776 million. The OCC allocates a significant portion of the net position to its financial reserves to cover undelivered orders and capital investments. Financial reserves are integral to the effective stewardship of the OCC's resources, and the OCC has a disciplined process for reviewing its reserve balances and allocating funds appropriately to support its ability to accomplish the agency's mission. The OCC's financial reserves are available to reduce the impact on the OCC's operations in the event of a significant fluctuation in revenues or expenses. In 2018, the OCC established a new receivership contingency fund of \$86.6 million within its financial reserves to facilitate the conduct of receiverships of uninsured federal branches or agencies of a foreign banking organization. In 2017, the OCC established a contingency of \$100 million within its reserves to act as receiver of those national trust banks which are not FDIC-insured.
