The Budget proposes the creation of a Southwest Border Contingency Fund to assist the Department and its components in preparing for and responding to periods of elevated encounters along the southwest border of the United States. Funding is to be appropriated quarterly if encounters meet predetermined thresholds, with a maximum total appropriation in fiscal year 2025 of \$4.7 billion. Funds are to be transferred to CBP, ICE, and FEMA for border requirements such as: soft-sided facilities, transportation of migrants, medical support costs for migrants, surge staffing, immigration detention beds, Alternatives to Detention, interior processing contractors, and the Shelter and Services Grant Program. Appropriations to the Fund would be categorized as emergency, and funding would be provided with a two-year period of availability to smooth the transition between fiscal years. If encounters rates trigger appropriations to the Fund, amounts will be transferred to CBP, ICE, and FEMA for execution. DHS will not make obligations directly from the Fund.

The Federal Protective Service (FPS) protects Federal facilities and those who occupy them by conducting law enforcement and protective security services, and leveraging access to the intelligence and information resources of Federal, State, local, tribal, territorial, and private sector partners. FPS conducts Facility Security Assessments and recommends appropriate countermeasures, ensures stakeholder threat awareness training, and oversees a large contract for a Protective Security Officer workforce. These services provide a comprehensive risk-based approach to facility protection that allows FPS to prioritize its operations to prevent, detect, assess, respond to, and disrupt criminal and other incidents that endanger the Federal community.

Analysis and Operations (A&O) provides resources supporting the Office of Intelligence and Analysis (I&A) and the Office of Homeland Security Situational Awareness (OSA), formerly known as the Office of Operations Coordination (OPS). This funding includes both National Intelligence Program (NIP) and non-NIP resources. Even though these two offices are different and distinct in their missions, they work closely together and collaborate with other departmental component agencies and related Federal agencies, as well as State, local, tribal, foreign, and private-sector partners, to improve intelligence analysis, information sharing, incident management support, and situational awareness. I&A's mission is to equip the Homeland Security Enterprise with the timely intelligence and information it needs to keep the homeland safe, secure, and resilient. I&A is the interface between the Intelligence Community (IC) and Federal, State, local, and private sector homeland security partners, providing strategic analyses, warning, and actionable intelligence, ensuring departmental leadership, components, law enforcement, and IC partners have the tools they need to confront and disrupt terrorist threats. I&A's unique mission within the IC blends national intelligence with Department of Homeland Security (DHS) component and other stakeholder source data, providing homeland security-centric analysis. The Under Secretary for Intelligence and Analysis leads (I&A) is the Department's Chief Intelligence Officer responsible for overseeing the DHS Intelligence Enterprise. The Under Secretary is also responsible for implementing the National Strategy on Information Sharing across the Department. The mission of OSA is to provide information sharing, situational awareness, and a common operating picture, enabling execution of the Secretary's responsibilities across the Homeland Security Enterprise. OSA plays a pivotal role in the DHS mission to lead the unified national effort to secure America by facilitating the Secretary's responsibilities across the full spectrum of incident management efforts (i.e., prevention, protection, response and recovery). OSA provides situational awareness, assessments, and facilitates operational information sharing with all DHS components, as well as for Federal, State, local, tribal, private sector, and international partners. OSA supports the DHS mission by partnering with other Homeland Security Enterprise partners and by maintaining 24/7 operation of the National Operations Center (NOC), enabling multi-agency fusion of law enforcement, national intelligence, emergency response, and private sector reporting.

U.S. Customs and Border Protection (CBP) works to secure America's borders, while facilitating legitimate trade and travel. CBP is responsible for inspecting travelers at the land, sea, and air ports-of-entry (POEs) for immigration, customs, and agriculture compliance, as well as interdicting illegal entrants between the POEs. CBP enforces the laws regarding admission of foreign-born persons into the United States; identifies and apprehends aliens; and ensures that all goods and persons entering and exiting the United States do so legally. CBP's over 63,000 highly trained employees ensure that the agency performs its mission with vigilance, integrity, and professionalism.

The Operations and Support appropriation funds necessary operations, mission support, and associated management and administrative costs. Major programs include:

Border Security Operations.—This program funds activities designed to protect the Nation through the coordinated use of Border Patrol Agents, technology, and air and marine forces to detect, interdict, and prevent acts of terrorism and the unlawful movement of people, illegal drugs, and other contraband toward or across the borders of the United States. These activities contribute to securing America's Southwest, Northern, and Coastal borders. Through the coordinated use of operational capabilities and assets of the U.S. Border Patrol and Air and Marine Operations, CBP prevents terrorism and terrorist weapons, illegal aliens, smugglers, narcotics, and other contraband from moving across the borders of the United States.

Trade and Travel Operations.—This program funds the mitigation of terrorist threats and the prevention of contraband from entering the U.S. while facilitating the legal flow of people and trade. CBP achieves this mission by deploying CBP officers to the POEs and by using a combination of technology, intelligence, risk information, targeting, and international cooperation to screen inbound international cargo and travelers and, in targeted border areas, to screen departing export cargo. Additional attention to outbound travel along areas of the Southwest border helps prevent the exit of money and weapons for illegal purposes. CBP has extended a zone of security beyond the United States' physical borders through bilateral cooperation with other nations, private-sector partnerships, expanded targeting, and advance scrutiny of information on people and products coming into the U.S.

Integrated Operations.—This program captures the activities to establish the foundation for an integrated, all-hazards planning framework helping to mitigate routine emergencies, catastrophic events and interruptions of border security operations both at and between the ports of entry. Activities funded in the program operate at the national level and are not limited to a specific geographical area. Integrated Operations include funding for command and control, coordination, occupational health and safety, and information and situational awareness for multiple CBP mission programs.

Mission Support.—This program captures activities that are standardized across the Department of Homeland Security that provide enterprise leadership, management, and/or business administration services and describes the capabilities and activities that support the day-to-day management and back office functions enabling both CBP and the Department to operate efficiently and effectively. Key capabilities include conducting agency planning and performance management; managing finances; managing the agency workforce to include recruiting, hiring, screening, equipping, and training new employees; providing physical and personnel security; acquiring goods and services; managing information technology; managing agency property

and assets; managing agency communications; managing legal affairs; and providing general management and administration.

The Budget proposes providing CBP with the authority to recover all costs associated with providing immigration and agriculture services at User Fee Facilities. CBP is charged with enabling legitimate trade and travel through the enforcement of laws and regulations spanning customs, immigration, border security, and agricultural protection at hundreds of locations across

the country. Current legislation authorizes charging a fee for customs services provided at User Fee Facilities; however, there is an increased need for CBP to recoup the costs of immigration and agriculture services that can be clearly segregated from the customs services provided at User Fee Facilities.

(Legislative proposal, subject to PAYGO)

The Budget proposes to extend the collection of customs fees established by the Consolidated Omnibus Budget Reconciliation Act of 1985 (COBRA, P.L. 99–272), the Merchandise Processing Fee (MPF) established by the Omnibus Reconciliation Act of 1986 (P.L. 99–509), and the Express Consignment Courier Facility (ECCF) fee created under the Trade Act of 2002 (P.L. 107–210) beyond their current expiration date of September 30, 2031 to September 30, 2034. The Budget also proposes to make permanent the MPF 0.3464 percent ad valorem rate enacted by the Trade Adjustment Assistance Extension Act of 2011 (P.L. 112–40) and extended by amendments to Section 503 of the U.S.–Korea Free Trade Agreement Implementation Act (P.L. 112–41).

The U.S. Customs and Border Protection (CBP) Procurement, Construction, and Improvements (PC&I) appropriation provides the funds necessary for the planning, operational development, engineering, and purchase of one or more assets prior to sustainment. The funding within this account enables investments in border security technology, aircraft, marine vessels, tactical infrastructure, information technology systems, and other acquisitions. PC&I funding also supports the construction and modernization of critical facilities and associated infrastructure. These investments enable CBP to accomplish its complex mission of protecting the border while facilitating lawful trade, travel, and immigration.

Under Section 481 of the Cross-Border Trade Enhancement Act of 2016 (P.L. 114–279), the Commissioner of Customs and Border Protection (CBP) may approve requests from interested parties to reimburse CBP for enhanced inspectional services. Subjected to limitations, CBP is authorized to receive reimbursement from corporations, Government agencies, and other interested parties for certain inspection services in the air, land, and sea environments at domestic locations. This allows CBP to provide services to requesting parties that it could not provide in the absence of reimbursement. The Enhanced Inspectional Services account is used to manage funds associated with reimbursable agreements with external parties.

Per 48 U.S.C. 740, duties and taxes collected by U.S. Customs and Border Protection (CBP) in the Commonwealth of Puerto Rico are deposited in a mandatory trust called the Puerto Rico Trust Fund (PRTF). CBP is authorized to reimburse costs incurred in performing commercial operations related to duty and tax collections in the Commonwealth with revenues available in PRTF. After recovering the costs of those activities, accounting for any outstanding liabilities (i.e., custodial liabilities, refunds, and drawback activity), and executing another use of available revenue agreed upon between the Commonwealth and U.S. Immigration and Customs Enforcement, available collections are transferred to Puerto Rico's Treasury (Hacienda) to be expended by the Government of Puerto Rico, as established by law.

The International Registered Traveler Program is authorized under section 565(3)(A) of the Consolidated Appropriations Act of 2008 (P.L. 110-161). U.S. Customs and Border Protection established Global Entry as an international registered traveler program that incorporates technologies, such as biometrics and e-passports, and security threat assessments to expedite screening and processing of international passengers. Global Entry allows expedited clearance for pre-approved and low-risk travelers upon arrival in the United States. The International Registered Traveler account is used to fund Global Entry program activities.

The Implementing Recommendations of the 9/11 Commission Act of 2007 (P.L. 110-53) required the establishment of an electronic authorization system to pre-screen noncitizens prior to arrival in the United States. This mandate was made operational by the creation of the Electronic System for Travel Authorization (ESTA). ESTA operates under informed compliance, requiring all Visa Waiver Program travelers to obtain authorization prior to travel. The Visa Waiver Program allows visitors to travel to the United States for business or pleasure for 90 days or less without obtaining a visa. This account funds the provision and administration of the ESTA system.

The Budget proposes establishing a user fee to cover costs that U.S. Customs and Border Protection incurs to administer the Electronic Visa Update System (EVUS) program. EVUS is an automated system used to determine eligibility to travel to the United States for temporary business or pleasure on a 10-year U.S. visitor visa. EVUS complements the existing visa application process and enhances CBP's ability to make pre-travel admissibility and risk determinations. This account will fund the costs of providing and administering the system.

This account expends proceeds from the auction of unclaimed and abandoned goods, authorized by 19 CFR 127.41. Unclaimed merchandise that arrives at a U.S. port, also called General Order (GO) merchandise, is stored by a CBP approved warehouse for 6 months until the merchandise can be sold. During the 6-month period, if an entry is filed and payment is made (applicable duties, taxes, fees, storage charges, and transportation charges), the merchandise is then released from the GO warehouse. If no claim is made after 6 months, the merchandise is considered Abandoned goods and the GO Contractor (hired by CBP) conducts an auction sale.

The Transportation Security Administration (TSA) protects the Nation's transportation systems to ensure freedom of movement for people and commerce. The Operations and Support appropriation funds necessary operation, mission support, and associated management and administrative costs. Major programs include:

Mission Support.—This program supports headquarters offices, human resources, information technology, and major acquisitions to support those efforts.

OPERATIONS AND SUPPORT—Continued

Aviation Screening Operations.—This program supports the majority of TSA's frontline operations, and includes funding for the Screening Workforce, the National Explosives Detection Canine Team program, Secure Flight, and programs that support screening capabilities, as well as field support for these efforts. Since 2011, TSA has been performing this function through the use of an intelligence-driven risk-based security approach. Risk-based security increases the overall security effectiveness by focusing security resources on higher-risk and unknown travelers, while expanding the process for low risk and known/trusted travelers.

Other Operations and Enforcement.—This program supports: the Inflight Security program, which includes funding for the Federal Air Marshals Service and Federal Flight Deck Officer and Crew Training; Aviation Regulation, which provides law enforcement and regulatory presence at airports to ensure compliance with required security measures and response to security incidents; Air Cargo, which implements statutory requirement for ensuring the security of transportation systems and passengers when cargo is transported by air; Intelligence and the TSA Operations Center, which provides for the review, synthesis, and analysis of transportation specific intelligence; Surface Programs, which protect the surface transportation system (mass transit, freight rail, pipeline, and maritime modes); and vetting programs, which vet various populations requiring access to the transportation network.

Appropriations in this account are partially offset by revenue from related fees.

The purpose of this Budget proposal is to eliminate the annual mandatory deficit reduction deposit at Treasury from the Passenger Security Fee beginning in fiscal year 2025. The amounts would be added to the fee revenue that is treated as offsetting collections against the TSA annual appropriations that fund the security services for which the fee is collected.

The Procurement, Construction, and Improvements account provides for the acquisition, procurement, construction, rebuilding, and improvement of vessels, aircraft, information management resources, other equipment, shore facilities, and aids to navigation required to execute the Coast Guard's missions and achieve its performance goals. The Coast Guard will continue the recapitalization of boats, cutters, aircraft, and command, control, communications, computers, cyber, intelligence, surveillance and reconnaissance systems. Furthermore, the Coast Guard will continue fleet sustainment projects to enhance and extend the service life of selected existing aircraft and cutters. The Coast Guard will also invest in shore infrastructure as well as repair aging buildings, and other facilities. These vital recapitalization projects will provide the Coast Guard with capabilities necessary to perform its missions.

The Oil Spill Liability Trust Fund (OSLTF) is used to finance oil pollution prevention and cleanup activities by various Federal agencies. In accordance with the provisions of the Oil Pollution Act of 1990, the Fund may finance annually up to \$50 million of emergency resources and all valid claims from injured parties resulting from oil spills. For Coast Guard, this funds the Trust Fund Share of Expenses and Maritime Oil Spill Programs accounts. The OSLTF is funded by an excise tax on each barrel of oil produced domestically or imported.

The United States Secret Service has statutory authority to carry out two primary missions: protection of the Nation's leaders and investigation of financial and electronic crimes. The Secret Service protects and investigates threats against the President and Vice President, their families, visiting heads of state and government, and other individuals as directed by the President; protects the White House Complex, Vice President's Residence, foreign missions, and other buildings within Washington, D.C.; and manages the security at designated National Special Security Events. The Secret Service also investigates violations of laws relating to counterfeiting of obligations and securities of the United States; financial crimes that include, but are not limited to, access device fraud, financial institution fraud, identity theft, and computer fraud; and computer-based attacks on financial, banking, telecommunications, and other critical infrastructure. Within Secret Service, the Operations and Support appropriation funds necessary operations, mission support, and associated management and administration costs.

Federal Assistance provides monetary and non-monetary support to non-Federal Emergency Management Agency (FEMA) entities. Support may be provided in the form of grants or grant agreements, cooperative agreements, non-cash contributions, and other Federal support, but does not include amounts received as reimbursement for services rendered to individuals. Through a variety of programs, FEMA provides for grants, training, exercises, and other support to assist Federal agencies, States, territories, and tribal and local jurisdictions to prevent, protect against, mitigate, respond to, and recover from terrorism and natural disasters.

Grants: FEMA provides State and local preparedness grants that focus on building and sustaining the 32 core capabilities associated with the five mission areas described in the National Preparedness Goal. These grants include: 1) the State Homeland Security Grant Program, including Operation Stonegarden; 2) the Urban Area Security Initiative; 3) the Transit Security Grant Program for public transportation security assistance and railroad security assistance, which supports owners and operators of transit systems, including intra-city bus, commuter bus, ferries, and all forms of passenger rail, to protect critical surface transportation infrastructure and the traveling public from acts of terrorism and to increase the resilience of transit infrastructure; 4) the Port Security Grant Program, which improves port-wide maritime security risk management, enhances maritime domain awareness, supports maritime security training and exercises, and maintains and/or reestablishes maritime security mitigation protocols that support port recovery and resiliency capabilities; 5) Firefighter Assistance Grants, including the Assistance to Firefighter Grant and the Staffing for Adequate Fire and Emergency Response grants, which provide direct assistance to local fire departments for investments to improve their ability to safeguard the lives of firefighting personnel and members of the public in the event of a terrorist attack or other major incident; 6) Emergency Management Performance Grants, which provides funding on a formula basis to all 56 States and Territories to achieve target levels of capability in catastrophic planning and emergency management; 7) the Flood Hazard Mapping and Risk Analysis program, which drives national actions to reduce flood risk by addressing flood hazard data update needs, supporting local government hazard mitigation planning, and providing the flood risk data needed to manage the NFIP's financial exposure; 8) the Regional Catastrophic Preparedness Grant program which builds regional capacity to manage catastrophic incidents by improving and expanding collaboration for catastrophic incident preparedness; 9) the Tribal Homeland Security Grant Program which provides funding directly to tribal nations to enhance their ability to prevent, protect against, respond to and recover from potential terrorist attacks and other hazards; 10) the Emergency Food and Shelter grant program which provides funds to nonprofit and governmental organizations at the local level to supplement their programs for emergency food and shelter; and 11) the Nonprofit Security Grant Program, which supports the implementation of State homeland security strategies to address identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.

Education, Training, and Exercises Programs: FEMA provides specialized training to emergency responders and supports development, execution, and evaluation of exercises to test the Nation's preparedness for all hazards. These programs include: 1) the National Exercise Program, which designs, coordinates, conducts, and evaluates exercises that rigorously test the Nation's ability to perform missions and functions that prevent, protect against, respond to, recover from, and mitigate all hazards; 2) the Center for Domestic Preparedness, which provides specialized all-hazards preparedness training to State, local, and tribal emergency responders on skills tied to national priorities, in particular those related to Weapons of Mass Destruction; 3) the Emergency Management Institute, which provides training to Federal, State, local, tribal, volunteer, public, and private sector officials to strengthen emergency management core competencies, knowledge, and skills, thus improving the Nation's capability to prepare for, protect against, respond to, recover from, and mitigate all hazards; 4) the National Domestic Preparedness Consortium, which provides first responders with a comprehensive, all-hazards training program that includes a focus on weapons of mass destruction, Chemical, Biological, Radiological, Nuclear, and Explosive (CBRNE) agents, natural hazards, and natural disasters aimed to improve their capacity to prevent, protect against, respond to, and recover from all hazards events including acts of terrorism; 5) the Continuing Training Grants, which provides funding via cooperative agreements to partners to develop and deliver training to prepare communities to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and natural, man-made, and technological hazards; 6) the Center for Homeland Defense and Security, which develops and offers educational resources to the entire homeland security enterprise; and 7) the U.S. Fire Administration, which promotes fire awareness, safety, and risk reduction across communities and prepares the Nation's first responders through ongoing training in evaluating and minimizing community risk, improving protection of critical infrastructure, and preparing to respond to all-hazard emergencies.

Through the Disaster Relief Fund (DRF), the Federal Emergency Management Agency (FEMA) provides a significant portion of the total Federal response to Presidentially-declared major disasters and emergencies that overwhelm State and tribal resources, pursuant to the Robert T. Stafford Disaster Relief and Emergency Act, P.L. 93–288 (as amended), 42 U.S. Code sections 5121–5207. Primary assistance programs include Federal disaster support to individuals and households, public assistance, and hazard mitigation assistance which includes such activities as the repair and restoration of State, local, tribal, territorial, and nonprofit disaster damaged infrastructure, financial assistance to eligible disaster survivors, and funding to rebuild in a way that reduces or mitigates future disaster losses in communities.

The 2025 DRF funds requested under the disaster relief Major Disaster Allocation consist of five principal components: (1) catastrophic obligations; (2) non-catastrophic obligations; (3) recoveries; (4) the set-aside for the Building Resilient Infrastructure in Communities (BRIC) grant program; and (5) a reserve. Funds required for the catastrophic category, defined as events greater than \$500 million, are based on FEMA spend plans for all past declared catastrophic events and do not include funds for new catastrophic events that may occur in 2025. It is assumed that any new catastrophic event in 2025 will be funded through a future supplemental funding request. The non-catastrophic amount is based on an approach that uses the 10-year average for non-catastrophic events to provide a more realistic projection of non-catastrophic needs in 2025.

The DRF base request supports the 10-year average for the costs associated with emergency declarations, pre-disaster surge activities, and fire management assistance grants. The base also includes funds for projected yearly disaster readiness and support activities. The 2025 DRF base requirements will be funded through available carryover balances from 2024.

The Federal Government provides flood insurance through the National Flood Insurance Program (NFIP), which is administered by the Federal Emergency Management Agency (FEMA). Flood insurance is available to homeowners and businesses in communities that have adopted and enforce appropriate floodplain management measures. Coverage is limited to buildings and their contents. At the end of 2023, the program had approximately 4.7 million policies in over 22,600 communities with approximately \$1.3 trillion of insurance in force.

The program uses a multi-pronged strategy for reducing future flood damage. The NFIP offers flood mitigation assistance grants for projects that reduce or eliminate the risk of flood damages to buildings insured by the NFIP. In addition, flood mitigation assistance grants targeted toward

repetitive and severe repetitive loss properties not only help owners of high-risk property, but through acquisition, relocation, or elevation also reduce the disproportionate drain on the National Flood Insurance Fund these properties cause. FEMA works to ensure that the flood mitigation grant program is closely integrated with other FEMA mitigation grant programs, resulting in better coordination and communication with State and local governments. Further, through the Community Rating System, FEMA adjusts premium rates to encourage community and State mitigation activities beyond those required by the NFIP. Structures built to meet or exceed NFIP minimum floodplain management standards incur, at a minimum, 65% less flood damage. NFIP minimum floodplain management standards save the nation, on average, \$2.4 billion in flood losses annually.

FEMA continues to put the NFIP on a more sustainable financial footing by signaling the true cost associated with living in a floodplain, through premium increases for policies which are priced at less than full risk.

The purpose of the 2025 Budget proposal is to establish an affordability program for means-tested assistance to certain households as FEMA puts the National Flood Insurance Program (NFIP) on a more sustainable financial footing. The Budget proposal signals to households the true cost associated with the risk of living in a floodplain while offering premium assistance based on income or ability to pay rather than location or date of construction. Overall, this pro-

posals is expected to increase the number of policy holders and help make obtaining and maintaining flood insurance more affordable for those who qualify.

The purpose of this 2025 Budget proposal is to establish a sound financial framework that provides a sustainable mechanism for financing the NFIP. The Budget proposal increases the financial resiliency of the NFIP and acknowledges that the catastrophic nature of floods cannot be managed in the current paradigm. The proposal eliminates the debt to the U.S. Treasury and establishes equalization payments. The Transmit 2 reflects the interest payments the NFIP would no longer make to Treasury on the NFIP's debt.

The purpose of this 2025 Budget proposal is to establish an affordability program to provide means-tested assistance to certain homeowners as FEMA puts the National Flood Insurance Program (NFIP) on a more sustainable financial footing. The proposal signals to homeowners the true cost associated with the risk of living in a floodplain while offering premium assistance based on income or ability to pay rather than location or date of construction. Overall, this proposal is expected to increase policy holders and make attaining and maintaining flood insurance more affordable for those who are eligible for the means-tested assistance program. As a result of the increase in policy holders, additional revenue will be collected in the NFIP Reserve account.

The purpose of this 2025 Budget proposal is to establish a sound financial framework to provide a sustainable mechanism for financing the NFIP. The Budget proposal increases the financial resiliency of the NFIP and acknowledges that the catastrophic nature of floods cannot be managed in the current paradigm. In this proposal, the Reserve Fund would no longer be used for the annual routine expenses of the program such as paying claims; rather, the funds are saved and accrued to truly build a reserve that is available for catastrophic events.

The mission of U.S. Citizenship and Immigration Services (USCIS) is to adjudicate and grant immigration and citizenship benefits, provide accurate and useful information to applicants and petitioners, and promote an awareness and understanding of citizenship in support of immigrant integration, while also protecting the integrity of our nation's immigration system. USCIS approves millions of immigration benefit applications each year, ranging from work authorization and lawful permanent residence to asylum and refugee status. USCIS' Budget continues to invest in technology to improve and automate business operations, and enhance USCIS' ability to identify and prevent immigration benefit fraud. The Budget also continues to invest in people and continue with the efforts to support the international and refugee affairs mission more effectively in order to serve the public.

The Budget assumes that USCIS will continue to be funded primarily through fees on the applications and petitions it adjudicates.

The U.S. Citizenship and Immigration Services Federal Assistance appropriation provides funding for the Citizenship and Integration Grant Program (CIGP), which awards grants to organizations that help prepare Lawful Permanent Residents (LPRs) for naturalization. The goal of CIGP is to expand the availability of high-quality services throughout the Nation as part of a multifaceted USCIS effort to provide citizenship preparation resources, support, and information to immigrants and immigrant-serving organizations.

The grants aim to promote prospective citizens inclusion into American civic life by funding educational programs designed to increase their knowledge of English, U.S. history, and civics. In addition, through these grant opportunities, USCIS expands the availability of high-quality citizenship preparation services and provides opportunities for immigrants to gain knowledge and training necessary to promote their integration into the fabric of American society. Increased learning opportunities and additional citizenship instruction resources in communities help immigrants gain the tools to become successful citizens and meet their responsibilities as U.S. citizens.

The Immigration Examinations Fee Account (IEFA) is authorized via Sections 286(m), (n), (t), and (u) of the Immigration and Nationality Act (INA) (8 U.S.C. 1356(m), (n), (t), (u)). In addition, section 286(u) of the INA, 8 U.S.C. 1356(u), provides the Secretary with authority to establish and collect a premium fee for the premium processing of certain immigration benefit types. IEFA supports the following activities:

Fees collected with the submission of immigration benefit requests are used to fund the full cost of processing immigration benefit requests, including the cost of providing services without charge to applicants whose fees are waived or to whom a fee exemption applies. Also included are anti-fraud and public safety components, biometric services and responses to Freedom of Information Act (FOIA) requests, along with verification of employment and immigration status. Expenditures from the collection of premium processing fees support the processing of premium processing requests, other costs associated with overheads and the lockbox operations, and otherwise offset the cost of providing adjudications and naturalization services.

The H-1B Nonimmigrant Petitioner Fee Account was established by Section 286(s) of the Immigration and Nationality Act (8 U.S.C. 1356(s)) and amended by the American Competitiveness and Workforce Improvement Act of 1998 (ACWIA), Public Law 105–277, Division C, Title IV, 112 Stat. 2681. The ACWIA fee was reauthorized and made permanent by the L-1 Visa and H-1B Visa Reform Act of 2004 (part of the Consolidated Appropriations Act, 2005, Public Law 108–447, 118 Stat. 2809, 3351–61 (2004)).

The H-1B Account supports activities related to the processing of petitions for nonimmigrant workers in the H-1B visa classification. The H-1B visa program allows U.S. employers to temporarily employ foreign workers in specialty occupations. USCIS receives five (5) percent of the collections generated by these fees to fund USCIS immigration benefit adjudication efforts, while the remaining 95 percent of ACWIA collections are deposited in accounts managed by the Department of Labor (DOL) and the National Science Foundation (NSF).

The Fraud Prevention and Detection Account (FPDA) is authorized via Section 286(v) of the Immigration and Nationality Act (INA) (8 U.S.C. 1356 (v)) and the L-1 Visa and H-1B Visa Reform Act of 2004 (part of Pub. L. 108–447). FDNS leads the Agency's efforts to determine whether individuals or organizations filing for immigration benefits pose a threat to national security, public safety, or the integrity of the Nation's immigration system.

FPDA directly supports U.S. Citizenship and Immigration Services' (USCIS) efforts to strengthen the integrity of the United States immigration system. FPDA resources enable USCIS operations to identify threats to national security and public safety, detect, deter and administratively investigate immigration-related fraud, and remove systemic and other vulnerabilities. USCIS receives one-third of the collections generated by the fees to fund a portion of USCIS fraud detection and prevention efforts.

The EB-5 Reform and Integrity Act of 2022 requires USCIS to establish a special fund in the U.S. Treasury, known as the "EB-5 Integrity Fund" (8 U.S.C. 1153(b)(5)(J)). USCIS collects an annual fee from each designated Regional Center. A fee is also collected for each petition filed under Section 204(a)(1)(H) seeking classification under Section 203(b)(5)(E); this fee is in addition to the fees established for each petition to recover the cost of adjudication under Section 286(m) IEFA and efficient processing under Section 106(b) of the Consolidated Appropriations Act, 2022.

The EB-5 Integrity Fund is used to: Conduct investigations based outside of the United States, including monitoring and investigating program-related events and promotional activities and ensuring that an alien investors funds associated with the aliens investment were obtained from a lawful source and through lawful means; detect and investigate fraud or other crimes; determine whether regional centers, new commercial enterprises, job-creating entities, and alien investors (and their alien spouses and alien children) comply with U.S. immigration laws; conduct audits and site visits; and for other purposes as the Department of Homeland Security (DHS) determines necessary.

The Federal Law Enforcement Training Centers (FLETC) serves as an interagency law enforcement training organization for over 126 partner organizations, providing the necessary facilities, equipment, and support services to conduct basic, advanced, specialized, and refresher training for Federal law enforcement personnel. FLETC personnel conduct the instructional programs for basic law enforcement recruits and some advanced training based on agency requests. Additionally, FLETC provides advanced training tuition-free, or at a reduced cost, to State, local, rural, tribal, and territorial law enforcement officers at all four of its campuses, through export training deliveries, and through distance learning on a space-available basis. In cooperation with the Department of State, FLETC delivers training at International Law Enforcement Academies (ILEA) in Gaborone, Botswana; Bangkok, Thailand; Budapest, Hungary; Roswell, New Mexico; San Salvador, El Salvador; and the Regional Training Center in Accra, Ghana. Currently, FLETC holds the Director positions managing the ILEAs in Budapest, Hungary, and Roswell, New Mexico. FLETC provides other training and assistance internationally in support of ILEA training operations and U.S. Embassy law enforcement training initiatives. FLETC hosts authorized and vetted international students for training programs at FLETC training delivery points in the United States on a space-available and fully reimbursable basis.

FLETC's Operations and Support account funds necessary operational, mission support, and associated management and administrative costs. In addition, this account includes the funding and activities that are associated with minor construction, maintenance, and improvement projects.
