The Commission was established in the 400 Years of African-American History Commission Act to coordinate the 400th anniversary of the arrival of the first enslaved Africans in the English colonies. The Commission's purpose is to plan, develop, and carry out programs and activities throughout the United States that recognize and highlight the resilience and cultural contributions of Africans and African Americans over 400 years; acknowledge the impact that slavery and laws that enforced racial discrimination had on the United States; encourage civic, patriotic, historical, educational, artistic, religious, and economic organizations to organize and take part in anniversary activities; assist states, localities, and nonprofit organizations to further the commemoration; and coordinate public scholarly research about the arrival of Africans and their contributions to the United States.

The Architectural and Transportation Barriers Compliance Board (Access Board) was established by section 502 of the Rehabilitation Act of 1973. The Access Board is responsible for developing guidelines under the Americans with Disabilities Act, the Architectural Barriers Act, and the Telecommunications Act. These guidelines ensure that buildings and facilities, transportation vehicles, and telecommunications equipment covered by these laws are readily accessible to and usable by people with disabilities. The Board is also responsible for developing standards under section 508 of the Rehabilitation Act for accessible electronic and information technology used by Federal agencies and standards under section 510 of the Rehabilitation Act for accessible medical diagnostic equipment. In addition, the Access Board enforces the Architectural Barriers Act, and provides training and technical assistance on the guidelines and standards it develops.

The Board also has additional responsibilities under the Help America Vote Act. The Board serves on the Board of Advisors and the Technical Guidelines Development Committee, which helps the Election Assistance Commission develop voluntary guidelines and guidance for voting systems, including accessibility for people with disabilities. In addition, the Board is responsible for promoting accessibility for people with disabilities throughout all segments of society, since this is a statutory purpose for which appropriated funds are used.

The Administrative Conference of the United States is an independent agency that assists the President, the Congress, the Judicial Conference, and Federal agencies in improving the regulatory and legal process through consensus-driven applied research. The Conference analyzes the administrative law process and, among its many activities, issues formal recommendations for improvements that reduce costs to government agencies, promote effective public participation in the rulemaking process, and reduce unnecessary litigation. The Conference is a public-private partnership comprised of senior government officials and private sector leaders in law, business, and academia.

The Alyce Spotted Bear and Walter Soboleff Commission on Native Children was established by Public Law 114-244 to conduct a comprehensive study of Federal, State, local and tribal programs that serve Native children, and to make recommendations on ways those programs can be improved. The Commission's reporting deadline was extended from three years to five years with Public Law 117-41. The Commission received support from Federal agencies, including the Department of the Interior. The Commission is expected to complete its work and sunset by the end of fiscal year 2024. No additional resources are necessary.

The Budget provides \$200 million for Appalachian Regional Commission (ARC), which was established as a Federal-State partnership in 1965 to invest in sustainable economic development in the 423-county Appalachian Region. The Commission is comprised of 13 members representing the States in the region and a Federal Co-Chair, who represents the Federal Government. ARC's mission is to help the Appalachian Region plan and coordinate regional investments and target resources to those communities with the greatest needs by innovating, partnering, and investing to build community capacity and strengthening economic growth. ARC's activities include area development, technical assistance, capacity-building, research, and coordination of regional investments and initiatives. In addition, ARC administers the POWER (Partnerships for Opportunity and Workforce and Economic Revitalization) Initiative, a competitive grant program for communities adversely impacted by the declining use of coal to develop economic diversification activities in emerging opportunity sectors.

The Consumer Financial Protection Bureau (CFPB or Bureau) was established under Title X of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Act) (P.L. 111–203) as an independent bureau in the Federal Reserve System. The Act consolidated authorities previously shared by seven Federal agencies under Federal consumer financial laws into the CFPB and provided the Bureau with additional authorities to conduct rulemaking, supervision, and enforcement. Funding required to support the CFPB's operations is obtained primarily through transfers from the Board of Governors of the Federal Reserve System. Pursuant to the Act, the CFPB is also authorized to collect civil penalties in any judicial or administrative action under Federal consumer financial laws. These amounts are maintained and displayed in a separate account titled "Consumer Financial Civil Penalty Fund."

Pursuant to Title X of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Act) (P.L. 111–203), the Consumer Financial Protection Bureau (CFPB or Bureau) is authorized to collect civil penalties obtained in any judicial or administrative action under Federal consumer financial laws. Per the Act, such funds will be available for payments to the victims of activities for which civil penalties have been imposed under the Federal consumer financial laws. Obligations related to victim compensation are contingent upon identifying the specific victims qualifying for payments. To the extent that such victims cannot be located or such payments are otherwise not practicable, the Bureau may use such funds for the purpose of consumer education and financial literacy programs.

Independent actuarial projections show the CIARDS Fund with an unfunded liability of \$4.5 billion. To ensure that the Fund remains solvent and authorized payments to beneficiaries continue, the Budget proposes \$514 million in 2025. This amount reflects the amortized cost of recapitalizing the CIARDS Fund over twenty years.

Originally established by the Civil Rights Act of 1957, the U.S. Commission on Civil Rights is an independent, bipartisan, fact-finding Federal agency. Its mission is to inform the development of national civil rights policy and enhance enforcement of Federal civil rights laws. The Commission pursues this mission by studying alleged deprivations of voting rights and alleged discrimination based on race, color, religion, sex, age, disability, or national origin, or in the administration of justice. The Commission plays a vital role in advancing civil rights through objective and comprehensive investigation, research, and analysis on issues of fundamental concern to the Federal government and the public. The Commission also supports a network of Advisory Committees, each composed of a diverse group of citizen volunteers, which conduct civil rights research at the State and U.S. Territory levels. The Commission on the Social Status of Black Men and Boys Act established the Commission on the Social Status of Black Men and Boys (CSSBMB) within the U.S. Commission on Civil Rights Office of the Staff Director. The CSSBMB studies and makes recommendations to address social problems affecting black men and boys.

The Committee for Purchase From People Who Are Blind or Severely Disabled (operating as the U.S. AbilityOne Commission, hereafter "Commission") administers the AbilityOne Program under the authority of the Javits-Wagner-O'Day Act of 1971, as amended. The principal objective of AbilityOne is to leverage the purchasing power of the Federal Government to provide employment opportunities for people who are blind or have other significant disabilities. The Commission accomplishes its mission by identifying Government procurement requirements that can create employment opportunities for individuals who are blind or have other significant disabilities. Following opportunities for public comment and after due deliberation, the Commission then places such products and service requirements on the AbilityOne Procurement List, requiring Federal departments and agencies to procure the designated products and services from a network of approximately 420 qualified State and private nonprofit agencies (NPAs) employing people who are blind or have other significant disabilities. The vision of AbilityOne is to remain a trusted source of supply and services for Federal agencies while creating quality employment opportunities across all economic sectors for people who are blind or have significant disabilities. In FY 2023, approximately 36,600 AbilityOne employees earned a combined total of more than \$731,000,000 in wages, with an average hourly wage of \$17.58. The AbilityOne Program continues to emphasize providing employment to veterans, with more than 2,500 employed in direct labor positions. More than 1,600 AbilityOne employees moved into competitive or supported employment in FY 2023 after gaining skills and experience on AbilityOne jobs.

While pursuing its core mission to tap America's underutilized workforce of individuals who are blind or have significant disabilities to deliver high quality, mission-essential products and services to Federal agencies in quality employment opportunities, the Commission is dedicated to effective stewardship and program integrity. The Commission continues to strengthen its Procurement List business processes and to enhance its oversight of AbilityOne Program participants. The resources proposed for 2025 will enable the Commission to meet requirements in the Consolidated Appropriations Act of 2016 for the Commission to (1) staff an Office of Inspector General; (2) establish and administer written agreements governing the Commission's relationship with its designated central nonprofit agencies; and (3) evaluate reports and data from the central nonprofit agencies. Other requirements include implementing recommendations of the 2017 NDAA Section 898 Panel on Department of Defense and AbilityOne Contracting Oversight, Accountability, and Integrity to enhance stewardship, modernize information technology, and increase the Commission's compliance and operations capacity to oversee a national program with more than \$4 billion in annual sales of products and services to the Government.

The mission of the Commodity Futures Trading Commission (CFTC or Commission) is to: foster open, transparent, competitive, and financially sound markets; prevent and deter price manipulation and other disruptions to market integrity; and protect market participants and the public from fraud, exploitation, and abusive practices related to derivatives and other products that are subject to the Commodity Exchange Act (7 U.S.C. 1 et seq.) (CEA). The CEA established a comprehensive regulatory structure to oversee the futures trading complex, commodity options trading, intermediaries, and swap dealer activities.

The Commission's regulatory landscape is continually changing. As a responsible regulator, the CFTC seeks to promote responsible innovation and development that is consistent with its statutory mission to enhance the derivative trading markets. Further, the agency seeks to lower the systemic risk of the futures and swaps markets to the economy and the public.

The markets under the CFTC's regulatory purview are economically significant. In the United States, the markets for futures and options on futures represent trillions of dollars of notional value while the swaps markets represents hundreds of trillions of dollars in notional value.

The Budget proposes legislation authorizing user fees to fund certain Commission activities, as specified by the CFTC, in line with nearly all other Federal financial and banking regulators. Contingent upon enactment of authorizing legislation, the Budget proposes collections of \$25 million to offset a portion of the CFTC's annual appropriation, providing total CFTC funding of \$399 million in 2025. CFTC fees would be designed in a way that supports market access, liquidity, and the efficiency of the Nation's derivatives markets.

In anticipation of large whistleblower awards that could have depleted the Customer Protection Fund, P.L. 117–025 established a separate account in the Treasury for \$10 million dollars for obligations related to the administrative and personnel expenses of the Whistleblower Office and the Office of Customer Education and Outreach. The account can only cover these non-award expenses when there are insufficient unobligated balances of the Customer Protection Fund for whistleblower award(s) that would deplete the fund (or funds balances). Pursuant to P.L. 117–328, an additional \$10 million dollars may be transferred to this account; the initial transfer unobligated balance and additional transfer will remain available until October 1, 2024, at which point they will be returned to the Customer Protection Fund.

awards, finance customer education initiatives, and administer the programs. The Dodd-Frank Act also authorized the Commodity Futures Trading Commission (Commission) to issue rules implementing incentives and protections for whistleblowers and to conduct customer education initiatives designed to help customers protect themselves against fraud and other violations of the CEA.

The Commission deposits monetary sanctions it collects in covered judicial or administrative actions into this revolving fund. The Commission may deposit such sanctions unless the balance in the Fund at the time the sanction is collected exceeds \$100 million. The Commission does not deposit restitution awarded to victims into the Fund.

The Commission is required to submit an annual report on the whistleblower award program and customer education initiatives to the Committee on Agriculture, Nutrition, and Forestry of the Senate and the Committee on Agriculture of the House of Representatives. The report includes: a description of the number of whistleblower awards granted, and the types of cases in which these awards were granted, during the preceding fiscal year; the balance in the Fund; the amounts credited to and paid from the Fund; and a complete set of audited financial statements.

The CPSC is an independent federal regulatory agency with a public health and safety mission to protect the public from unreasonable risks of injury and death from consumer products. CPSC's principal activities include hazard identification and assessment; participating in the development and strengthening of voluntary safety standards and developing mandatory regulations; identifying and interdicting violative consumer products before they enter the United States; enforcing mandatory regulations and removing defective products through compliance activities; and educating consumers, industry, civic leaders, and state, local and foreign governments about safety hazards and programs.

In FY 2025, the CPSC will focus on the highest priority risks to consumers by investigating new, existing, and hidden hazards and enforcing safety requirements in the consumer marketplace, including eCommerce platforms. The CPSC will expand the agency's chronic hazard analysis and standards development capability while continuing to build a robust import surveillance and targeting system to better identify violative products. The 2025 Budget includes legislative proposals to remove barriers to establishing mandatory consumer safety rules; streamline mandatory recalls; facilitate the release of consumer safety information to the public; and increase civil penalties for violations of consumer product safety laws.

ADMINISTRATIVE PROVISION—CONSUMER PRODUCT SAFETY COMMISSION

SEC. 501. During fiscal year 2025, none of the amounts made available by this Act may be used to finalize or implement the Safety Standard for Recreational Off-Highway Vehicles published by the Consumer Product Safety Commission in the Federal Register on November 19, 2014 (79 Fed. Reg. 68964) until after—

(1) the National Academy of Sciences, in consultation with the National Highway Traffic Safety Administration and the Department of Defense, completes a study to determine—

(A) the technical validity of the lateral stability and vehicle handling requirements proposed by such standard for purposes of reducing the risk of Recreational Off-Highway Vehicle (referred to in this section as "ROV") rollovers in the off-road environment, including the repeatability and reproducibility of testing for compliance with such requirements;

(B) the number of ROV rollovers that would be prevented if the proposed requirements were adopted;

(C) whether there is a technical basis for the proposal to provide information on a point-of-sale hangtag about a ROV's rollover resistance on a progressive scale; and

(D) the effect on the utility of ROVs used by the United States military if the proposed requirements were adopted; and

(2) a report containing the results of the study completed under paragraph (1) is delivered to—

(A) the Committee on Commerce, Science, and Transportation of the Senate;

(B) the Committee on Energy and Commerce of the House of Representatives;

(C) the Committee on Appropriations of the Senate; and

(D) the Committee on Appropriations of the House of Representatives.

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

Federal Funds**OPERATING EXPENSES**

For necessary expenses for the Corporation for National and Community Service (referred to in this title as "CNCS") to carry out the Domestic Volunteer Service Act of 1973 (referred to in this title as "1973 Act") and the National and Community Service Act of 1990 (referred to in this title as "1990 Act"), \$1,046,276,000, notwithstanding sections 198B(b)(3), 198S(g), 501(a)(4)(C), and 501(a)(4)(F) of the 1990 Act: Provided, That of the amounts provided under this heading:

(1) up to 1 percent of program grant funds may be used to defray the costs of conducting grant application reviews, including the use of outside peer reviewers and electronic management of the grants cycle;

(2) \$19,538,000 shall be available to provide assistance to State commissions on national and community service, under section 126(a) of the 1990 Act and notwithstanding section 501(a)(5)(B) of the 1990 Act;

(3) \$42,491,000, to remain available until September 30, 2026, shall be available to carry out subtitle E of the 1990 Act;

(4) \$8,558,000 shall be available for expenses authorized under section 501(a)(4)(F) of the 1990 Act, which, notwithstanding the provisions of section 198P shall be awarded by CNCS on a competitive basis; and

(5) \$136,517,000, to remain available until September 30, 2026, shall be used for expenses authorized under Title I of the 1973 Act: Provided further, That for the purposes of carrying out the 1990 Act, satisfying the requirements in section 122(c)(1)(D) may include a determination of need by the local community.

Note.—A full-year 2024 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2024 and Other Extensions Act (Division A of Public Law 118–15, as

The Corporation for National and Community Service (CNCS) provides service opportunities for Americans of all ages through institutions that include: nonprofits, schools, faith-based and other community organizations, and local governments. CNCS is now operating as AmeriCorps, which is a name adopted after extensive consultations with stakeholders to help streamline, align, and strengthen the agency's brand.

AmeriCorps State and National.—With funds channeled through States, Territories, Tribes, and community-based organizations, AmeriCorps grants enable communities to recruit, train, and place AmeriCorps members to serve in the areas of disaster services, economic opportunity, education, environmental stewardship, healthy futures, and veterans and military families, as directed by the Edward M. Kennedy Serve America Act of 2009.

AmeriCorps National Civilian Community Corps.—AmeriCorps NCCC is a ten-month residential national service program for people ages 18 to 24. AmeriCorps NCCC members are deployed to respond to natural disasters and engage in urban and rural development projects across the nation.

AmeriCorps VISTA.—Provides full-time members to community organizations and public agencies working to resolve local poverty-related problems.

State Service Commission Support Grants.—These grants support the operation of State Service Commissions that administer approximately two-thirds of AmeriCorps State and National grant funds.

Retired Senior Volunteer Program.—RSVP grants support volunteers aged 55 and older with service opportunities, including mentoring children and providing independent living services to adults.

Foster Grandparent Program.—Grants provide low-income volunteers age 55 and older with service opportunities to provide one-on-one mentoring and support to at-risk children.

Senior Companion Program.—Grants support low-income volunteers who provide companionship, transportation, help with light chores, and respite to assist seniors and people with disabilities to remain in their own homes.

Innovation, Demonstration, and Assistance.—These initiatives and programs are aimed at incubating new ideas, while expanding proven initiatives that address specific community needs. For example, the Volunteer Generation Fund focuses on strengthening the ability of nonprofits and other organizations to recruit, retain, and manage volunteers.

Evaluation.—This activity supports the design and implementation of research and evaluation studies and facilitates the use of evidence and evaluation by AmeriCorps and national service organizations.

In September 2023, the Administration announced the launch of the American Climate Corps (ACC) to mobilize a new, diverse generation of more than 20,000 clean energy, conservation, and climate resilience workers. The ACC will provide job training and service opportunities on a wide range of projects that tackle climate change. In addition to discretionary resources requested to support this initiative in 2025, the Budget provides \$8 billion in mandatory funding to support an additional 50,000 ACC members annually by 2031. The majority of that funding is reflected in AmeriCorps operating expenses account, and the remainder is included in the National Service Trust to support Segal Education Awards for the new ACC members.

ADMINISTRATIVE PROVISIONS

SEC. 401. CNCS shall make any significant changes to program requirements, service delivery or policy only through public notice and comment rulemaking. For fiscal year 2025, during any grant selection process, an officer or employee of CNCS shall not knowingly disclose any covered grant selection information regarding

such selection, directly or indirectly, to any person other than an officer or employee of CNCS that is authorized by CNCS to receive such information.

SEC. 402. AmeriCorps programs receiving grants under the National Service Trust program shall meet an overall minimum share requirement of 24 percent for the first 3 years that they receive AmeriCorps funding, and thereafter shall meet the overall minimum share requirement as provided in section 2521.60 of title 45, Code of Federal Regulations, without regard to the operating costs match requirement in section 121(e) or the member support Federal share limitations in section 140 of the 1990 Act, and subject to partial waiver consistent with section 2521.70 of title 45, Code of Federal Regulations.

SEC. 403. Donations made to CNCS under section 196 of the 1990 Act for the purposes of financing programs and operations under titles I and II of the 1973 Act or subtitle B, C, D, or E of title I of the 1990 Act shall be used to supplement and not supplant current programs and operations.

SEC. 404. In addition to the requirements in section 146(a) of the 1990 Act, use of an educational award for the purpose described in section 148(a)(4) shall be limited to individuals who are veterans as defined under section 101 of the Act.

SEC. 405. For the purpose of carrying out section 189D of the 1990 Act—

(1) entities described in paragraph (a) of such section shall be considered "qualified entities" under section 3 of the National Child Protection Act of 1993 ("NCPA");

(2) individuals described in such section shall be considered "volunteers" under section 3 of NCPA; and

(3) State Commissions on National and Community Service established pursuant to section 178 of the 1990 Act, are authorized to receive criminal history record information, consistent with Public Law 92–544.

SEC. 406. Notwithstanding sections 139(b), 146 and 147 of the 1990 Act, an individual who successfully completes a term of service of not less than 1,200 hours during a period of not more than one year may receive a national service education award having a value of 70 percent of the value of a national service education award determined under section 147(a) of the Act.

SEC. 407. Section 148(f)(2)(A)(i) of the 1990 Act shall be applied in fiscal year 2025 by substituting "an approved national service position" for "a national service program that receives grants under subtitle C".

SEC. 408. (a) Section 137(a)(5) of the 1990 Act shall be applied in fiscal year 2025 as if the following were inserted before the period: ", or is an alien authorized employment incident to status under paragraph (a) of section 274a.12 of title 8, Code of Federal Regulations (8 CFR 274a.12(a)) or is in possession of a valid employment authorization under paragraph (c) of such section (8 CFR 274a.12(c))".

(b) Section 146(a)(3) of the 1990 Act shall be applied in fiscal year 2025 as if the following were inserted before the period: ", or is an alien authorized employment incident to status under paragraph (a) of section 274a.12 of title 8, Code of Federal Regulations (8 CFR 274a.12(a)) or is in possession of a valid employment authorization under paragraph (c) of such section (8 CFR 274a.12(c))".

(c) Notwithstanding sections 141 and 146 of the 1990 Act, or any other provision of law, a participant in a national service program carried out under the authority of the 1973 Act shall be eligible for the national service educational award described in subtitle D of title I of the 1990 Act if the participant meets the criteria specified in paragraphs (1) through (4) of subsection (a) of section 137 of the 1990 Act.

SEC. 409. (a) There is hereby established in the Treasury of the United States a fund to be known as the "AmeriCorps Nonrecurring Expenses Fund" (the Fund).

(b) The unobligated balances of expired discretionary funds appropriated for this or any succeeding fiscal year from the General Fund of the Treasury to the Corporation for National and Community Service under the headings "Operating Expenses" and "Salaries and Expenses" in this or any other Act may be transferred (not later than the end of the fifth fiscal year after the last fiscal year for which such funds are available for the purposes for which appropriated) into the Fund.

(c) Amounts deposited in the Fund shall be available until expended, and in addition to such other funds as may be available for such purposes, for information technology system modernization and facilities infrastructure improvements, including nonrecurring maintenance, necessary for the operation of the Corporation, subject to approval by the Office of Management and Budget.

(d) Amounts in the Fund may be obligated only after the Committees on Appropriations of the House and Senate are notified at least 15 days in advance of the planned use of funds.

CORPORATION FOR PUBLIC BROADCASTING

Federal Funds

CORPORATION FOR PUBLIC BROADCASTING

For payment to the Corporation for Public Broadcasting ("CPB"), as authorized by the Communications Act of 1934, an amount which shall be available within limitations specified by that Act, for the fiscal year 2027, \$595,000,000: Provided, That none of the funds made available to CPB by this Act shall be used to pay for receptions, parties, or similar forms of entertainment for Government officials or employees: Provided further, That none of the funds made available to CPB by this Act shall be available or used to aid or support any program or activity from which any person is excluded, or is denied benefits, or is discriminated against, on the basis of race, color, national origin, religion, or sex: Provided further, That none of the funds made available to CPB by this Act shall be used to apply any political test or qualification in selecting, appointing, promoting, or taking any other personnel action with respect to officers, agents, and employees of CPB.

In addition, for the costs associated with replacing and upgrading the public broadcasting interconnection system, including the costs of interconnection facilities and operations under subsections (k)(3)(A)(i)(II) and (k)(3)(A)(iv)(I) of section 396 of the Communications Act of 1934, and for other technologies and services that create infrastructure and efficiencies within the public media system, \$60,000,000: Provided, That such amounts shall be in addition to any other funds available for such purposes.

Note.—A full-year 2024 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2024 and Other Extensions Act (Division A of Public Law 118–15, as amended). The amounts included for 2024 reflect the annualized level provided by the continuing resolution.

The Budget proposes an advance appropriation of \$595 million for the Corporation for Public Broadcasting (CPB) for fiscal year 2027. In 1975, Congress first agreed to begin providing CPB with a two-year advance appropriation to support long-range financing planning and to insulate programming decisions. This commitment of future Federal dollars helps leverage investments from other sources and gives producers essential lead time to plan, design, create, and support programming and services. CPB uses funding to provide grants to qualified public television and radio stations to be used at their discretion for purposes related to program production or acquisition, as well as for general operations. CPB also supports the production and acquisition of radio and television programs for national distribution. In addition, CPB assists in the financing of several system-wide activities, including interconnection services and limited technical assistance, research, and planning services to improve systemwide capacity and performance.

The Inspector General Reform Act of 2008 (P.L. 110-409) (codified as amended at 5 U.S.C. 424) created the Council of the Inspectors General on Integrity and Efficiency (CIGIE) to address program integrity, efficiency, and effectiveness issues that transcend individual Government agencies and to increase the professionalism and effectiveness of Office of Inspector General (OIG) staff.

INSPECTORS GENERAL COUNCIL FUND—Continued

Pursuant to 5 U.S.C. 424(c)(3)(B), the revolving fund provides resources for CIGIE activities primarily through interagency funding, which includes member contributions and tuition. Consistent with prior years, CIGIE plans to collect member contributions for 2025 during the second half of 2024, to be used primarily for the CIGIE Training Institute and operations. Just as CIGIE will collect the required member contributions for 2025 from OIGs in the second half of 2024, the Budget includes funds in individual OIG budgets that are dedicated to CIGIE and will be collected in 2025 for use in 2026. The Budget requests additional appropriations in 2025 for mandated activities such as Oversight.gov and to establish a permanent data analytics capability.

The National Capital Revitalization and Self-Government Improvement Act of 1997 established the Court Services and Offender Supervision Agency (CSOSA) for the District of Columbia as an independent Federal agency to perform community supervision of D.C. Code offenders. CSOSA assumed the adult probation function from the D.C. Superior Court and the parole supervision function from the D.C. Board of Parole. The Pretrial Services Agency for the District of Columbia, responsible for supervising pretrial defendants, is an independent entity within CSOSA with its own budget and organizational structure. The mission of CSOSA is to increase public safety, prevent crime, reduce recidivism, and support the fair administration of justice in close collaboration with the community.

The CSOSA appropriation supports the Community Supervision Program and the Pretrial Services Agency.

Community Supervision Program.—This activity provides supervision of adult offenders on probation, parole, or supervised release, consistent with a crime prevention strategy that emphasizes public safety and successful reintegration. The Community Supervision Program employs an integrated system of close supervision, drug testing, graduated sanctions, treatment, transitional housing, and other offender support services, including services from community and faith-based collaborations. The Community Supervision Program also develops and provides the courts and the U.S. Parole Commission with critical information for probation, parole, and supervised release decisions.

Pretrial Services Agency.—This activity assists judicial officers in both the D.C. Superior Court and the U.S. District Court for the District of Columbia by formulating release recommendations and providing supervision and treatment services to defendants that reasonably assure that individuals on conditional release return to court and do not engage in criminal activity pending their trial and/or sentencing. The Pretrial Services Agency is responsible for enforcing conditions of release, conducting drug testing, administering graduated sanctions, referring defendants to treatment and other social services, and reporting to the courts defendants' compliance with their conditions of release.

The Defense Nuclear Facilities Safety Board, an independent, non-regulatory agency within the Executive Branch, is responsible for evaluating the content and implementation of the standards relating to the design, construction, operation, and decommissioning of Department of Energy (DOE) defense nuclear facilities. The Board also reviews the design of new DOE defense nuclear facilities and periodically reviews and monitors construction of such facilities to ensure adequate protection of public and worker health and safety. The Board is also responsible for investigating any event or practice at a defense nuclear facility that has or may adversely affect public health and safety. The Board makes specific recommendations to the Secretary of Energy on measures that should be adopted to protect both public and employee health and safety.

The Budget provides \$30.1 million for the Delta Regional Authority (DRA). Established by Congress in 2000, DRA is a Federal-State collaboration created to address the economic needs of the eight-state or 252 county/parish Mississippi Delta region. DRA's economic development investments, including regional planning, support the creation and sustainability of strong local and regional economies. Leveraging private and non-profit sectors, DRA's strategic investments support projects in the following categories: basic public infrastructure, transportation infrastructure, business development with an emphasis in entrepreneurship, and workforce development, as well as increasing access to quality healthcare.

The Budget provides \$17 million for the Denali Commission. The Denali Commission was established by the Denali Commission Act of 1998 and is composed of seven members including the Federal Co-Chair. Denali's mission is to promote and provide sustainable infrastructure improvement, job training, and other economic development services that improve health, safety, and economic self-sufficiency within rural communities in Alaska and alleviate the long-term economic disparities suffered by Alaska Native communities.

The Budget estimates \$3 million from the Oil Spill Liability Trust Fund for subsequent transfer to the Denali Commission. The Omnibus Consolidated and Emergency Supplemental Appropriations Act of 1999 (P.L. 105-277) established the annual transfer of interest from the investment of the Trans-Alaska Pipeline Liability Fund balance into the Oil Spill Liability Trust Fund for subsequent transfer to the Denali Commission. As required by the Act, the Denali Commission, in consultation with the Coast Guard, developed a program to use these funds to repair or replace bulk fuel storage tanks in Alaska that were not in compliance with Federal law, including the Oil Pollution Act of 1990, or State law.

Under the National Capital Revitalization and Self-Government Improvement Act of 1997, the Federal Government is required to finance the District of Columbia Courts. This payment to the District of Columbia Courts funds the operations of the District of Columbia Court of Appeals, Superior Court, and the Court System, as well as capital improvements.

The Budget provides resources to support the D.C. Courts' core functions, to enhance public security, to strengthen cybersecurity, to maintain recent capital investments, and to enhance case resolution in key areas. In addition, the Budget provides resources for capital improvements necessary to renovate the historic Recorder of Deeds building, to maintain court facilities in Judiciary Square, and to maintain and update technology.

By law, the Courts' annual budget includes estimates of the expenditures for the operations of the District of Columbia Courts prepared by the Joint Committee on Judicial Administration in the District of Columbia and the President's recommendation for funding the District of Columbia Courts. The President's recommended level of \$321.8 million includes \$275.5 million for the District of Columbia Court of Appeals, the Superior Court of the District of Columbia, and the District of Columbia Court System operations and \$46.3 million for capital improvements for District courthouse facilities. Under a separate transmittal to the Congress, the District of Columbia Courts are requesting \$400.5 million: \$279.7 million for operations and \$120.7 million for capital improvements.

Under three Defender Services programs, the District of Columbia Courts appoint and compensate attorneys to represent persons who are financially unable to obtain such representation on their own. The Defender Services programs are the Criminal Justice Act program, which provides court-appointed attorneys to indigent persons who are charged with criminal offenses; the Counsel for Child Abuse and Neglect program, which provides court-appointed attorneys for family proceedings in which child neglect is alleged or where the termination of the parent-child relationship is under consideration and the parent, guardian, or custodian of the child is

indigent; and the Guardianship program, which provides for the representation and protection of mentally incapacitated individuals and minors whose parents are deceased. In addition to legal representation, these programs provide indigent persons with services such as transcripts of court proceedings, expert witness testimony, foreign and sign language interpretation, investigations, and genetic testing. The President's recommended funding level for Defender Services is \$46.0 million, the same as the Courts' request, and includes a one-time cancellation of \$12.0 million in unobligated balances in the account.

The Superior Court of the District of Columbia administers the Crime Victims Compensation Fund, which finances assistance for innocent victims of violent crime, survivors of homicide victims, and dependent family members of homicide victims. The program provides compensation for certain costs related to the crime, such as medical expenses, temporary emergency housing, and funeral expenses. The Fund is financed through assessments imposed in criminal cases, court fines and fees, and a grant from the U.S. Department of Justice. Under the 2002 Supplemental Appropriations Act for Further Recovery From and Response to Terrorist Attacks on the United States (P.L. 107-206), one half of the Fund's unobligated balances at the end of each

year are transferred to the District of Columbia Government for outreach activities designed to increase the number of crime victims who apply for compensation.

The National Capital Revitalization and Self-Government Improvement Act of 1997, as amended, requires the Secretary of the Treasury to make payments at the end of each fiscal year, beginning in 1998, from the General Fund of the Treasury into the District of Columbia Judicial Retirement and Survivors Annuity Fund (Judicial Fund). Annual payments consist of (1) amounts necessary to amortize: the original unfunded liability over 30 years, the net gain or loss (based on experience) over 10 years, and any other changes in actuarial liability over 20 years and (2) amounts necessary to fund the normal cost and administrative expenses for the year. This account receives the annual payments from the General Fund and immediately transfers these amounts into the Judicial Fund.

DISTRICT OF COLUMBIA GENERAL AND SPECIAL PAYMENTS

The District of Columbia receives direct Federal payments for a number of local programs in recognition of the District's unique status as the seat of the Federal Government. These General and Special Payments are separate from and in addition to the District's local budget, which is funded through local revenues.

Federal Funds

FEDERAL PAYMENT FOR RESIDENT TUITION SUPPORT

For a Federal payment to the District of Columbia, to be deposited into a dedicated account, for a nationwide program to be administered by the Mayor, for District of Columbia resident tuition support, \$40,000,000, to remain available until expended: Provided, That such funds,

including any interest accrued thereon, may be used on behalf of eligible District of Columbia residents to pay an amount based upon the difference between in-State and out-of-State tuition at public institutions of higher education, or to pay up to \$2,500 each year at eligible private institutions of higher education: Provided further, That the awarding of such funds may be prioritized on the basis of a resident's academic merit, the income and need of eligible students and such other factors as may be authorized: Provided further, That the District of Columbia government shall maintain a dedicated account for the Resident Tuition Support Program that shall consist of the Federal funds appropriated to the Program in this Act and any subsequent appropriations, any unobligated balances from prior fiscal years, and any interest earned in this or any fiscal year: Provided further, That the account shall be under the control of the District of Columbia Chief Financial Officer, who shall use those funds solely for the purposes of carrying out the Resident Tuition Support Program: Provided further, That the Office of the Chief Financial Officer shall provide a quarterly financial report to the Committees on Appropriations of the House of Representatives and the Senate for these funds showing, by object class, the expenditures made and the purpose therefor.

Note.—A full-year 2024 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2024 and Other Extensions Act (Division A of Public Law 118–15, as amended). The amounts included for 2024 reflect the annualized level provided by the continuing resolution.

The D.C. Tuition Assistance Grant program enables students from the District of Columbia to attend eligible public universities and colleges nationwide at in-state tuition rates. The program also provides grants for students to attend private institutions in the D.C. metropolitan area or private Historically Black Colleges and Universities nationwide, as well as public 2-year community colleges. The Budget proposes to increase the annual and lifetime grant limits, which have not been adjusted since the program's creation, to partially address the increasing costs of higher education.

FEDERAL PAYMENT FOR SCHOOL IMPROVEMENT

For a Federal payment for a school improvement program in the District of Columbia, \$52,500,000, to remain available until expended, for payments authorized under the Scholarships for Opportunity and Results Act (division C of Public Law 112–10): Provided, That, to the extent that funds are available for opportunity scholarships and following the priorities included in section 3006 of such Act, the Secretary of Education shall make scholarships available to students eligible under section 3013(3) of such Act (Public Law 112–10; 125 Stat. 211) including students who were not offered a scholarship during any previous school year: Provided further, That within funds provided for opportunity scholarships up to \$1,750,000 shall be for the activities specified in sections 3007(b) through 3007(d) of the Act and up to \$500,000 shall be for the activities specified in section 3009 of the Act.

The Budget includes \$5 million to fund the D.C. Department of Health's continued efforts to prevent the spread of HIV/AIDS in the District. This funding will allow the District to focus on service saturation in areas of combined high risk and high poverty in order to ensure that ward-level counseling and testing, prevention, and treatment services are readily available and fully utilized. Funding will also be used to bolster social marketing and outreach campaigns for these important public health programs. The Budget also includes \$8 million for the D.C. Water and Sewer Authority to continue implementation of the Combined Sewer Overflow Long-Term Plan, \$2.45 million for the Criminal Justice Coordinating Council, \$0.89 million for judicial commissions, and \$0.6 million for the D.C. National Guard.

FEDERAL PAYMENT FOR EMERGENCY PLANNING AND SECURITY COSTS IN THE DISTRICT OF COLUMBIA

For a Federal payment of necessary expenses, as determined by the Mayor of the District of Columbia in written consultation with the elected county or city officials of surrounding jurisdictions, \$97,000,000, to remain available until expended, for the costs of providing public safety at events related to the presence of the National Capital in the District of Columbia, including support requested by the Director of the United States Secret Service in carrying out protective duties under the direction of the Secretary of Homeland Security, and for the costs of providing support to respond to immediate and specific terrorist threats or attacks in the District of Columbia or surrounding jurisdictions.

The 1990 District of Columbia Appropriations Act established a system "to improve the means by which the District of Columbia (now the District of Columbia Water and Sewer Authority) is paid for water and sanitary sewer services furnished to the Government of the United States or any department, agency, or independent establishment thereof." Each agency is required to pay on a quarterly basis 25 percent of its estimated yearly bill into this account. If an agency fails to pay its obligation on time, the Treasury Department is authorized to pay the full government-wide bill by making up the missed agency payment(s) with a permanent, indefinite appropriation, which must then be reimbursed by the appropriate agency or agencies.

TITLE VIII—GENERAL PROVISIONS—DISTRICT OF COLUMBIA**(INCLUDING TRANSFERS OF FUNDS)**

SEC. 801. *There are appropriated from the applicable funds of the District of Columbia such sums as may be necessary for making refunds and for the payment of legal settlements or judgments that have been entered against the District of Columbia government.*

SEC. 802. *None of the Federal funds provided in this Act shall be used for publicity or propaganda purposes or implementation of any policy including boycott designed to support or defeat legislation pending before Congress or any State legislature.*

SEC. 803. *(a) None of the Federal funds provided under this Act to the agencies funded by this Act, both Federal and District government agencies, that remain available for obligation or expenditure in fiscal year 2025, or provided from any accounts in the Treasury of the United States derived by the collection of fees available to the agencies funded by this Act, shall be available for obligation or expenditures for an agency through a reprogramming of funds which—*

- (1) creates new programs;*
- (2) eliminates a program, project, or responsibility center;*
- (3) establishes or changes allocations specifically denied, limited or increased under this Act;*
- (4) increases funds or personnel by any means for any program, project, or responsibility center for which funds have been denied or restricted;*
- (5) re-establishes any program or project previously deferred through reprogramming;*
- (6) augments any existing program, project, or responsibility center through a reprogramming of funds in excess of \$3,000,000 or 10 percent, whichever is less; or*

(7) increases by 20 percent or more personnel assigned to a specific program, project or responsibility center, unless notification is provided to the Committees on Appropriations of the House of Representatives and the Senate.

(b) The District of Columbia government is authorized to approve and execute reprogramming and transfer requests of local funds under this title through November 7, 2025.

SEC. 804. *None of the Federal funds provided in this Act may be used by the District of Columbia to provide for salaries, expenses, or other costs associated with the offices of United States Senator or United States Representative under section 4(d) of the District of Columbia Statehood Constitutional Convention Initiatives of 1979 (D.C. Law 3–171; D.C. Official Code, sec. 1–123).*

SEC. 805. *Except as otherwise provided in this section, none of the funds made available by this Act or by any other Act may be used to provide any officer or employee of the District of Columbia with an official vehicle unless the officer or employee uses the vehicle only in the performance of the officer's or employee's official duties. For purposes of this section, the term "official duties" does not include travel between the officer's or employee's residence and workplace, except in the case of—*

(1) an officer or employee of the Metropolitan Police Department who resides in the District of Columbia or is otherwise designated by the Chief of the Department;

(2) at the discretion of the Fire Chief, an officer or employee of the District of Columbia Fire and Emergency Medical Services Department who resides in the District of Columbia and is on call 24 hours a day;

(3) at the discretion of the Director of the Department of Corrections, an officer or employee of the District of Columbia Department of Corrections who resides in the District of Columbia and is on call 24 hours a day;

(4) at the discretion of the Chief Medical Examiner, an officer or employee of the Office of the Chief Medical Examiner who resides in the District of Columbia and is on call 24 hours a day;

(5) at the discretion of the Director of the Homeland Security and Emergency Management Agency, an officer or employee of the Homeland Security and Emergency Management Agency who resides in the District of Columbia and is on call 24 hours a day;

(6) the Mayor of the District of Columbia; and

(7) the Chairman of the Council of the District of Columbia.

SEC. 806. *(a) None of the Federal funds contained in this Act may be used by the District of Columbia Attorney General or any other officer or entity of the District government to provide assistance for any petition drive or civil action which seeks to require Congress to provide for voting representation in Congress for the District of Columbia.*

(b) Nothing in this section bars the District of Columbia Attorney General from reviewing or commenting on briefs in private lawsuits, or from consulting with officials of the District government regarding such lawsuits.

SEC. 807. *None of the Federal funds contained in this Act may be used to distribute any needle or syringe for the purpose of preventing the spread of blood borne pathogens in any location that has been determined by the local public health or local law enforcement authorities to be inappropriate for such distribution.*

SEC. 808. *Nothing in this Act may be construed to prevent the Council or Mayor of the District of Columbia from addressing the issue of the provision of contraceptive coverage by health insurance plans, but it is the intent of Congress that any legislation enacted on such issue should include a "conscience clause" which provides exceptions for religious beliefs and moral convictions.*

SEC. 809. *(a) None of the Federal funds contained in this Act may be used to enact or carry out any law, rule, or regulation to legalize or otherwise reduce penalties associated with the possession, use, or distribution of any schedule I substance under the Controlled Substances Act (21 U.S.C. 801 et seq.) or any tetrahydrocannabinols derivative.*

(b) No funds available for obligation or expenditure by the District of Columbia government under any authority may be used to enact any law, rule, or regulation to legalize or otherwise reduce penalties associated with the possession, use, or distribution of any schedule I substance under the Controlled Substances Act (21 U.S.C. 801 et seq.) or any tetrahydrocannabinols derivative for recreational purposes.

SEC. 810. *(a) No later than 30 calendar days after the date of the enactment of this Act, the Chief Financial Officer for the District of Columbia shall submit to the appropriate committees of Congress, the Mayor, and the Council of the District of Columbia, a revised appropriated funds operating budget in the format of the budget that the District of Columbia government submitted pursuant to section 442 of the District of Columbia Home Rule Act (D.C. Official Code, sec. 1–204.42), for all agencies of the District of Columbia government for fiscal year 2025 that is in the total amount of the approved appropriation and that realigns all budgeted data for*

personal services and other-than-personal services, respectively, with anticipated actual expenditures.

(b) This section shall apply only to an agency for which the Chief Financial Officer for the District of Columbia certifies that a reallocation is required to address unanticipated changes in program requirements.

SEC. 811. No later than 30 calendar days after the date of the enactment of this Act, the Chief Financial Officer for the District of Columbia shall submit to the appropriate committees of Congress, the Mayor, and the Council for the District of Columbia, a revised appropriated funds operating budget for the District of Columbia Public Schools that aligns schools budgets to actual enrollment. The revised appropriated funds budget shall be in the format of the budget that the District of Columbia government submitted pursuant to section 442 of the District of Columbia Home Rule Act (D.C. Official Code, sec. 1–204.42).

SEC. 812. (a) Amounts appropriated in this Act as operating funds may be transferred to the District of Columbia's enterprise and capital funds and such amounts, once transferred, shall retain appropriation authority consistent with the provisions of this Act.

(b) The District of Columbia government is authorized to reprogram or transfer for operating expenses any local funds transferred or reprogrammed in this or the four prior fiscal years from operating funds to capital funds, and such amounts, once transferred or reprogrammed, shall retain appropriation authority consistent with the provisions of this Act.

(c) The District of Columbia government may not transfer or reprogram for operating expenses any funds derived from bonds, notes, or other obligations issued for capital projects.

SEC. 813. None of the Federal funds appropriated in this Act shall remain available for obligation beyond the current fiscal year, nor may any be transferred to other appropriations, unless expressly so provided herein.

SEC. 814. Except as otherwise specifically provided by law or under this Act, not to exceed 50 percent of unobligated balances remaining available at the end of fiscal year 2025 from appropriations of Federal funds made available for salaries and expenses for fiscal year 2025 in this Act, shall remain available through September 30, 2026, for each such account for the purposes authorized: Provided, That a notification shall be submitted to the Committees on Appropriations of the House of Representatives and the Senate prior to the expenditure of such funds: Provided further, That these notifications shall be made in compliance with reprogramming guidelines outlined in section 803 of this Act.

SEC. 815. (a)

(1) During fiscal year 2026, during a period in which neither a District of Columbia continuing resolution or a regular District of Columbia appropriation bill is in effect, local funds are appropriated in the amount provided for any project or activity for which local funds are provided in the Act referred to in paragraph (2) (subject to any modifications enacted by the District of Columbia as of the beginning of the period during which this subsection is in effect) at the rate set forth by such Act.

(2) The Act referred to in this paragraph is the Act of the Council of the District of Columbia pursuant to which a proposed budget is approved for fiscal year 2026 which (subject to the requirements of the District of Columbia Home Rule Act) will constitute the local portion of the annual budget for the District of Columbia government for fiscal year 2026 for purposes of section 446 of the District of Columbia Home Rule Act (sec. 1–204.46, D.C. Official Code).

(b) Appropriations made by subsection (a) shall cease to be available—

(1) during any period in which a District of Columbia continuing resolution for fiscal year 2026 is in effect; or

(2) upon the enactment into law of the regular District of Columbia appropriation bill for fiscal year 2026.

(c) An appropriation made by subsection (a) is provided under the authority and conditions as provided under this Act and shall be available to the extent and in the manner that would be provided by this Act.

(d) An appropriation made by subsection (a) shall cover all obligations or expenditures incurred for such project or activity during the portion of fiscal year 2026 for which this section applies to such project or activity.

(e) This section shall not apply to a project or activity during any period of fiscal year 2026 if any other provision of law (other than an authorization of appropriations)—

(1) makes an appropriation, makes funds available, or grants authority for such project or activity to continue for such period; or

(2) specifically provides that no appropriation shall be made, no funds shall be made available, or no authority shall be granted for such project or activity to continue for such period.

(f) Nothing in this section shall be construed to affect obligations of the government of the District of Columbia mandated by other law.

SEC. 816. (a) Section 244 of the Revised Statutes of the United States relating to the District of Columbia (sec. 9–1201.03, D.C. Official Code) does not apply with respect to any railroads installed pursuant to the Long Bridge Project.

(b) In this section, the term "Long Bridge Project" means the project carried out by the District of Columbia and the Commonwealth of Virginia to construct a new Long Bridge adjacent to the existing Long Bridge over the Potomac River, including related infrastructure and other related projects, to expand commuter and regional passenger rail service and to provide bike and pedestrian access crossings over the Potomac River.

SEC. 817. Not later than 45 days after the last day of each quarter, each Federal and District government agency appropriated Federal funds in this Act shall submit to the Committees on Appropriations of the House of Representatives and the Senate a quarterly budget report that includes total obligations of the Agency for that quarter for each Federal funds appropriation provided in this Act, by the source year of the appropriation.

SEC. 818. Except as expressly provided otherwise, any reference to "this Act" contained in this title or in title IV shall be treated as referring only to the provisions of this title or of title IV.

SEC. 819. Section 3 of the District of Columbia College Access Act of 1999 (Public Law 106–98; D.C. Official Code, sec. 38–2702), is amended—

(1) in subsection (a)(2)(A), by striking "\$10,000" and inserting "\$15,000";

(2) in subsection (a)(2)(B), by striking "\$50,000" and inserting "\$75,000";

(3) in subsection (b)(1)(A), by striking the word "and" at the end;

(4) by redesignating subparagraph (B) of paragraph (1) of subsection (b) as subparagraph (C);

(5) by inserting after subparagraph (A) of paragraph (1) of subsection (b) the following new subparagraph:

"(B) After making reductions under subparagraph (A) of this paragraph, ratably reduce the amount of the tuition and fee payments for students receiving more than \$10,000 annually; and"; and

(6) in subsection (b)(1)(C), as so redesignated, by striking "subparagraph (A)" and inserting "subparagraphs (A) and (B)".

The Election Assistance Commission administers grants under the Election Security Grants program. Consistent with the purposes of the Help America Vote Act of 2002, the EAC would award Election Innovation Grants to States and eligible units of local government on a competitive basis for projects which would have significant national, regional, or local impact improving the administration of Federal elections. Eligible uses of funding include capital investment to accelerate modernization of secure voting systems, efforts to expand voter access, including vote-by-mail, voter education, language proficiency, usability, voter technology, and other initiatives to enhance and secure administration of Federal elections that do not meaningfully impair access.

The Equal Employment Opportunity Commission (EEOC) is the Federal agency responsible for enforcement of: Title VII of the Civil Rights Act of 1964, as amended; the Age Discrimination in Employment Act of 1967; the Equal Pay Act of 1963; the Americans with Disabilities Act of 1990 (ADA); the Civil Rights Act of 1991; the Genetic Information Non-Discrimination Act of 2008; the ADA Amendments Act of 2008; the Lilly Ledbetter Fair Pay Act of 2009; the Pregnant Workers Fairness Act; and in the Federal sector only, section 501 of the Rehabilitation Act of 1973. These Acts prohibit employment discrimination based on race, sex, religion, national origin, age, disability status, or genetic information. EEOC is also responsible for carrying out Executive Order 12067, which promotes coordination and minimizes conflict and duplication among Federal agencies that administer statutes or regulations involving employment discrimination.

The 2025 Budget is an opportunity to advance the work the Commission began with the adoption of the Strategic Plan for 2022–2026. The strategic plan establishes a framework for achieving the EEOC's mission to "Prevent and Remedy Unlawful Employment Discrimination and advance equal employment opportunity for all". The plan's strategic goals include: 1) Combat and prevent employment discrimination through strategic application of the EEOC's law enforcement authorities; 2) Prevent employment discrimination and advance equal employment opportunity through education and outreach; and 3) Strive for organizational excellence through our people, practices, and technology. The Budget will permit the EEOC to improve efficiencies through data resource consolidation, promote knowledge sharing, and foster communication to avoid unnecessary duplication of effort and continue its standards of providing quality service to the public through enforcement and prevention activities. The EEOC's enforcement responsibilities are in two areas: The private sector and the Federal sector.

Private Sector.—EEOC addresses equal employment opportunity in several ways. The agency investigates charges alleging employment discrimination; makes findings on the allegations; resolves charges through mediation; negotiates settlement or conciliation; and litigates cases of employment discrimination by enforcing compliance with existing laws and regulations. The priority for agency resources continues to be litigating systemic cases and maintaining a manageable inventory of cases.

PROGRAM ACCOUNT

The Export-Import Bank of the United States is authorized to make such expenditures within the limits of funds and borrowing authority available to such corporation, and in accordance with law, and to make such contracts and commitments without regard to fiscal year limitations, as provided by section 9104 of title 31, United States Code, as may be necessary in carrying out the program for the current fiscal year for such corporation: Provided, That none of the funds available during the current fiscal year may be used to make expenditures, contracts, or commitments for the export of nuclear equipment, fuel, or technology to any country, other than a nuclear-weapon state as defined in Article IX of the Treaty on the Non-Proliferation of Nuclear Weapons eligible to receive economic or military assistance under this Act, that has detonated a nuclear explosive after the date of enactment of this Act.

ADMINISTRATIVE EXPENSES

For administrative expenses to carry out the direct and guaranteed loan and insurance programs, including hire of passenger motor vehicles and services as authorized by section 3109 of title 5, United States Code, and not to exceed \$50,000 for official reception and representation expenses for members of the Board of Directors, not to exceed \$130,100,000, of which up to \$19,515,000 may remain available until September 30, 2026: Provided, That the Export-Import Bank (the Bank) may accept, and use, payment or services provided by transaction participants for legal, financial, or technical services in connection with any transaction for which an application for a loan, guarantee or insurance commitment has been made: Provided further, That notwithstanding chapter 51, subchapter III of chapter 53, and section 5373 of title 5, United States Code, the Board of Directors of the Export-Import Bank of the United States may set an employee's rate of basic pay up to the rate for level III of the Executive Schedule, and this authority may be applied to no more than 35 employees at any point in time and shall remain in effect until September 30, 2025: Provided further, That the Bank shall charge fees for necessary expenses (including special services performed on a contract or fee basis) in connection with the collection of moneys owed the Bank, repossession or sale of pledged collateral or other assets acquired by the Bank in satisfaction of moneys owed the Bank, or the investigation or appraisal of any property, or the evaluation of the legal, financial, or technical aspects of any transaction for which an application for a loan, guarantee or insurance commitment has been made, or systems infrastructure improvements directly supporting transactions: Provided further, That in addition to other funds appropriated for administrative expenses, such fees shall be credited to this account for such purposes, to remain available until expended: Provided further, That of the amounts credited to this account pursuant to the preceding proviso, up to \$1,400,000 may be used for administrative expenses necessary to carry out the activities described in the third proviso under this heading.

PROGRAM BUDGET APPROPRIATIONS

For the cost of direct loans, loan guarantees, insurance, and tied-aid grants as authorized by section 10 of the Export-Import Bank Act of 1945, as amended, not to exceed \$15,000,000, to remain available until September 30, 2027: Provided, That such costs, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974: Provided further, That such funds shall remain available until September 30, 2040, for the disbursement of direct loans, loan guarantees, insurance and tied-aid grants obligated in fiscal years 2025 through 2028.

RECEIPTS COLLECTED

Receipts collected pursuant to the Export-Import Bank Act of 1945 (Public Law 79–173) and the Federal Credit Reform Act of 1990, in an amount not to exceed the amount appropriated herein, shall be credited as offsetting collections to this account: Provided, That the sums herein appropriated from the General Fund shall be reduced on a dollar-for-dollar basis by such offsetting collections so as to result in a final fiscal year appropriation from the General Fund estimated at \$0.

CANCELLATION

Of the unobligated balances available under the heading "Export and Investment Assistance, Export-Import Bank of the United States, Subsidy Appropriation" for tied-aid grants from prior Acts making appropriations for the Department of State foreign operations, and related programs, \$55,130,421 are hereby permanently cancelled.

Note.—A full-year 2024 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2024 and Other Extensions Act (Division A of Public Law 118–15, as amended). The amounts included for 2024 reflect the annualized level provided by the continuing resolution.

The Export-Import Bank of the United States (EXIM or the Bank) is the official export credit agency of the United States. EXIM is an independent, Federal agency that supports American jobs by facilitating the export of U.S. goods and services. To accomplish its objectives, the Bank's authority and resources are used to: assume commercial and political risks that exporters or private institutions are unwilling or unable to undertake; overcome maturity and other limitations in private sector export financing; assist U.S. exporters to meet officially sponsored foreign export credit competition; and provide leadership and guidance in export financing to the U.S. exporting and banking communities and to foreign borrowers. The Bank provides its export credit support through direct loan, loan guarantee, and insurance programs.

The 2025 Budget estimates that the Bank's export credit support will total \$11.3 billion, and operations and programming will be funded entirely by receipts collected from the Bank's users. The Bank estimates it will collect \$328.9 million in 2025 in receipts authorized in 2025 and prior years. Consistent with 31 U.S.C. 1105, these amounts will be used to cover administrative expenses in an amount not to exceed \$130.1 million. Any excess will be deposited in the General Fund of the Treasury. The 2025 Budget requests \$15.0 million in program budget costs.

As required by the Federal Credit Reform Act of 1990, this account records the costs associated with direct loans and direct grants obligated, and loan guarantees and insurance committed in 1992 and beyond, as well as administrative expenses. The credit transactions are estimated on a present value basis; administrative expenses are estimated on a cash basis.

EXIM's liquidating account records all cash flows to and from the Government resulting from all EXIM direct loans obligated and loan guarantees committed prior to 1992. This account is shown on a cash basis and reflects the transactions resulting from loans provided to finance exports. No new loan disbursements are made from this account. Certain collections made into this account are made available for default claim payments. The Federal Credit Reform Act provides permanent indefinite authority to cover obligations for default payments if the liquidating account funds are otherwise insufficient. All new EXIM credit activity in 1992 and after (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year) is recorded in corresponding program and financing accounts.

FARM CREDIT ADMINISTRATION

Federal Funds

LIMITATION ON ADMINISTRATIVE EXPENSES

Not to exceed \$100,425,000 (from assessments collected from farm credit institutions, including the Federal Agricultural Mortgage Corporation) shall be obligated during the current fiscal year for administrative expenses as authorized under 12 U.S.C. 2249: Provided, That this limitation shall not apply to expenses associated with receiverships: Provided further, That the agency may exceed this limitation by up to 10 percent with notification to the Committees on Appropriations of both Houses of Congress: Provided further, That the purposes of section 3.7(b)(2)(A)(i) of the Farm Credit Act of 1971 (12 U.S.C. 2128(b)(2)(A)(i)), the Farm Credit Administration may exempt, an amount in its sole discretion, from the application of the limitation provided in that clause of export loans described in the clause guaranteed or insured in a manner other than described in subclause (II) of the clause.

Note.—A full-year 2024 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2024 and Other Extensions Act (Division A of Public Law 118-15, as amended). The amounts included for 2024 reflect the annualized level provided by the continuing resolution.

The Farm Credit Administration (FCA) is an independent Federal agency that examines and regulates the Farm Credit System (System) for safety and soundness and program compliance. The System is a cooperative agricultural credit system of farm credit banks and associations that lend to farmers, ranchers, and their cooperatives; farm-related businesses; rural homeowners; and rural utilities. FCA also performs the examination and general supervision of Farmer Mac. In addition, FCA will oversee the safety and soundness examinations of the National Consumer Cooperative Bank, which is not a System institution.

As of October 1, 2022, the System was composed of three Farm Credit Banks, one Agricultural Credit Bank, 64 associations, six service corporations, the Federal Farm Credit Banks Funding Corporation, and Farmer Mac.

Assessments based upon estimated administrative expenses are collected from institutions in the System, including Farmer Mac, and are available for administrative expenses. Obligations are incurred within fiscal year budgets approved by the FCA Board. The Inspector General Act of 1978, as amended (IG Act), 5 U.S.C. section 406(g)(1), requires an Inspector General (IG) to include specific information in the budget request that the IG submits to the designated Federal entity to which it reports. To fulfill the requirement of 5 U.S.C. section 406(g)(2) as it pertains to FCA, the FCA Board must in turn include this same information, along with any comments of the IG with respect to the proposal, in the budget request that the Agency submits to the President.

The information that the IG Act requires to be included is provided below:

The aggregate budget request for the Office of Inspector General (OIG) is \$2,310,666.

The amount needed for OIG training is \$35,000.

The amount needed to support the Council of the Inspectors General on Integrity and Efficiency is \$9,206.

The FCA IG's budget request for 2025 is being submitted unchanged by the FCA Board.

The Farm Credit System Insurance Corporation (Corporation) was established to insure the timely payment of principal and interest on insured System debt obligations purchased by investors. The Corporation is managed by a three-member board of directors that consists of the same individuals as the Farm Credit Administration Board. However, the same member may not serve as a chair of both entities. The Corporation derives its revenues from insurance premiums collected from insured System banks and from the investment income earned on its investment portfolio. Insurance premiums are assessed on the System banks based on the level of adjusted insured obligations outstanding at each bank. Congress established a secure base

FARM CREDIT SYSTEM INSURANCE FUND—Continued

amount of 2 percent of adjusted outstanding insured System obligations, or such other amount determined by the Corporation's board of directors to be actuarially sound to maintain in the Insurance Fund. As of September 30, 2023, the Insurance Fund was \$183 million above the 2 percent secure base amount at 2.05 percent. Insurance premium accrual rates are reviewed at least semiannually. For 2023, the board of directors set premium rates at 18 basis points on average adjusted insured debt and continued the assessment of the 10 basis point surcharge on the average principal balance outstanding for nonaccrual loans and other-than-temporarily impaired investments. In February 2024, the Corporation's Board will meet to set insurance premium accrual rates for calendar year 2024.

The Insurance Fund is available for payment of insured System obligations if a System bank defaults on its primary liability. The Insurance Fund is also available to pay the operating costs of the Corporation and to exercise its authority to make loans, borrow, purchase System bank assets or obligations, provide other financial assistance and otherwise act to reduce its exposure to losses.

The Federal Communications Commission (FCC or Commission) works to ensure that rapid and efficient communications are available across the country at a reasonable cost. In support of this mission, the FCC's strategic goals for 2025 are: Pursue a "100 Percent" Broadband Policy; Promote Equity and Inclusion; Empower Consumers; Enhance Public Safety; Advance America's Global Competitiveness and National Security; and Foster Operational Excellence. The 2025 Budget includes an overall request of \$448 million to fund the Commission. Of that amount, the requested funding for the FCC's Inspector General is \$14 million. The Commission is also requesting \$139 million for the Spectrum Auctions Program for 2025.

Pursuant to the Communications Act of 1934, as amended by the Telecommunications Act of 1996 (1996 Act), all telecommunications service providers and certain other providers of telecommunications contribute to the Federal Universal Service Fund (USF) based on a percent-

age of their interstate and international end-user telecommunications revenues. These companies include wireline phone companies, wireless phone companies, paging service companies and certain Voice over Internet Protocol (VoIP) providers. The goals of USF are to increase access to both telecommunications and advanced services, such as high-speed Internet, for all consumers at just, reasonable and affordable rates. The 1996 Act established principles for universal service that specifically focused on increasing access to evolving services for consumers living in rural and insular areas, and for consumers with low incomes. Additional principles called for increased access to high-speed Internet in the nation's schools, libraries and rural health care facilities. The FCC established four programs within the USF to implement the statute. The four programs are: (1) High Cost—ensures consumers in rural, insular, and high cost areas have access to modern communications networks capable of providing voice and broadband service, both fixed and mobile, at rates that are reasonably comparable to those in urban areas; (2) Lifeline (for low-income consumers)—provides a monthly benefit on home or wireless phone and broadband service to eligible households and includes initiatives to expand phone service for residents of Tribal lands; (3) Schools and Libraries (E-rate)—provides funding to schools and libraries to obtain broadband, among other things; and (4) Rural Health Care—provides funding to eligible health care providers for telecommunications and broadband services necessary for the provision of health care. In addition, in 2020 the Commission established the Connected Care Pilot Program, to provide \$100 million in funding for select pilot projects covering 85% of the eligible costs of broadband connectivity, network equipment, and information services necessary to provide connected care services to the intended population over a three year period.

As part of the Americans with Disabilities Act of 1990, Congress amended the Communications Act of 1934 to direct the Federal Communications Commission "to ensure that interstate and intrastate telecommunications relay services (TRS) are available, to the extent possible and in the most efficient manner, to hearing-impaired and speech-impaired individuals in the United States." Section 225 of the Communications Act also directs the Commission to prescribe regulations that "generally provide that costs caused by interstate telecommunications relay services shall be recovered from all subscribers for every interstate service and costs caused by intrastate telecommunications relay service shall be recovered from the intrastate jurisdiction." The shared-funding mechanism requires providers of interstate telecommunications services to contribute to a fund that reimburses TRS providers for the cost of providing interstate TRS and providers of intrastate telecommunications services to contribute to the reimbursement of TRS providers for the cost of providing intrastate TRS. All telecommunications service providers and certain other providers of telecommunications contribute to the TRS Fund based on a percentage of their end-user telecommunications revenues. These companies include, but are not limited to, wireline phone companies, wireless phone companies, paging service companies and certain Voice over Internet Protocol (VoIP) providers.

This program provided direct loans for the purpose of purchasing spectrum licenses at the Federal Communications Commission's auctions. The licenses were purchased on an installment basis, which constitutes an extension of credit. The first year of activity for this program was 1996. As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the direct loans obligated in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis and administrative expenses are estimated on a cash basis. The FCC no longer offers credit terms on purchases through spectrum auctions. Program activity relates to maintenance and close-out of existing loans.

The Affordable Connectivity Program (ACP) is the nation's largest broadband affordability program supporting more than 22 million low-income households with their monthly internet bill, as of December 2023. The Bipartisan Infrastructure Law established the Affordable Connectivity Fund in the amount of \$14.2 billion. Under the ACP, eligible low-income households may receive up to \$30 a month off the cost of their broadband service or up to \$75 off the cost of their monthly broadband service for households on qualifying Tribal lands. Eligible households can also receive a one-time discount of up to \$100 for a laptop, desktop computer, or tablet purchased through a participating provider as long as the household pays a co-pay of more than \$10 but less than \$50 toward the purchase of the device. ACP is the successor program to the \$3.2 billion Emergency Broadband Benefit Program (EBB Program), which was established during the COVID-19 pandemic in the Consolidated Appropriations Act of 2021. Under the EBB Program, eligible low-income households received a discount off the cost of broadband service and certain connected devices during an emergency period relating to the COVID-19 pandemic, and participating providers received a reimbursement for such discounts. The initial \$14.2 billion for ACP is expected to be exhausted by April 2024, and the Administration will work with the Congress to secure additional funding for this important program.

The Secure and Trusted Communications Networks Act of 2019 directed the Commission to establish the Secure and Trusted Communications Networks Reimbursement Program (Reimbursement Program) to reimburse providers of advanced communications service for costs reasonably incurred to remove, replace, and dispose of communications equipment or services in their networks that pose an unacceptable risk to national security. The Consolidated Appropriations Act, 2021 appropriated \$1.9 billion to the Commission to carry out the Secure and Trusted Communications Networks Act of 2019, of which \$1.895 billion was required to be used for the Reimbursement Program, and specified a prioritization scheme for allocating program funds if demand exceeded available funding. Because program demand exceeded available funding, the Bureau was required to implement the prioritization scheme mandated by Congress and prorate allocations to ensure that funding was allocated on an equitable basis. Once funding allocations were approved, program recipients were able to begin submitting reimbursement claim requests for costs actually incurred for the removal, replacement, and disposal of covered communications equipment and services. Program recipients have one year from the Commission's initial distribution of reimbursement funds to that recipient to complete the permanent removal, replacement, and disposal of covered communications equipment or services, unless the Commission determines that a general or individual extension of that deadline is warranted.

Congress established a \$7.171 billion Emergency Connectivity Fund as part of the American Rescue Plan Act of 2021 to help schools and libraries provide eligible equipment (defined as Wi-Fi hotspots, modems, routers, devices that combine a modem and router, and connected devices, such as a laptop, tablet, or similar end-user devices), and broadband connectivity to students, school staff, and library patrons at locations that include locations other than the school or library during the COVID-19 emergency period. The Commission established the Emergency Connectivity Fund Program on May 10, 2021, to reimburse eligible schools and libraries for the costs of eligible equipment and/or services provided to students, school staff, and library patrons with unmet needs during the COVID-19 emergency period. Funding commitments have provided support for over 13 million connected devices and 8 million broadband connections to eligible students, school staff, and library patrons. Consistent with the intended emergency nature of the program and expiration of the public health emergency on May 11, 2023, the Emergency Connectivity Fund program will sunset on June 30, 2024.

ADMINISTRATIVE PROVISIONS

SEC. 510. Section 302 of the Universal Service Antideficiency Temporary Suspension Act is amended by striking "December 31, 2024" each place it appears and inserting "December 31, 2025".

SEC. 511. None of the funds appropriated by this Act may be used by the Federal Communications Commission to modify, amend, or change its rules or regulations for universal service support payments to implement the February 27, 2004, recommendations of the Federal-State Joint Board on Universal Service regarding single connection or primary line restrictions on universal service support payments.

FEDERAL DEPOSIT INSURANCE CORPORATION

The Federal Deposit Insurance Corporation (FDIC) was created by the Banking Act of 1933 to provide protection for bank depositors and to foster sound banking practices. The Federal Deposit Insurance Corporation Improvement Act of 1991 generally requires the FDIC to use the least costly method to resolve failed banks and mandates that the FDIC take prompt corrective action against under-capitalized financial institutions. To protect depositors, the FDIC is authorized to promulgate and enforce rules and regulations relating to the supervision of insured institutions and to perform other regulatory and supervisory duties consistent with its responsibilities as an insurer.

The Financial Institutions Reform, Recovery, and Enforcement Act of 1989 or FIRREA (P.L. 101–73) established the Bank Insurance Fund (BIF), the Savings Association Insurance Fund (SAIF), and the Federal Savings and Loan Insurance Corporation (FSLIC) Resolution Fund (FRF). Under the Deposit Insurance Reform Act of 2005, the BIF and SAIF were merged into a new Deposit Insurance Fund (DIF) in 2006.

The primary purpose of the Deposit Insurance Fund (DIF) is to insure deposits and protect the depositors of failed banking institutions. Under the Deposit Insurance Reform Act of 2005, the FDIC's Bank Insurance Fund (BIF) and its Savings Association Insurance Fund (SAIF) were merged into the new DIF on March 31, 2006. Through the DIF, the FDIC resolves and recovers funds disbursed from the assets of failed institutions. The FDIC is authorized to charge risk-based premiums on member institutions to restore and maintain adequate fund reserves, defined as a designated percentage of estimated insured deposits set by the FDIC before the beginning of each year. The Dodd-Frank Wall Street Reform and Consumer Protection Act (the Act) (P.L. 111–203), enacted July 21, 2010, increased the minimum DIF reserve ratio (ratio of the DIF balance to total insured deposits) to 1.35 percent, up from 1.15 percent. In addition to raising the minimum reserve ratio, the Act also: (1) eliminated the FDIC's requirement to rebate premiums when the reserve ratio is between 1.35 and 1.5 percent; (2) gave the FDIC discretion to suspend or limit rebates when the DIF reserve ratio is at least 1.5 percent, effectively removing the 1.5 percent cap on the DIF; (3) required the FDIC to offset the effect on small insured depositor institutions (defined as banks with assets less than \$10 billion) when setting assessments to raise the reserve ratio from 1.15 to 1.35 percent; and (4) permanently increased the insured deposit level to \$250,000 at banks insured by the FDIC. The FDIC Board has issued a final rule setting a long-term (greater than 10 years) reserve ratio target of 2 percent, with the goal of maintaining a positive fund balance during any future economic crises and maintaining a moderate, steady, long-term assessment rate that provides transparency and predictability to the banking sector. Pursuant to the Act, on September 15, 2020, the FDIC adopted a Restoration Plan to restore the DIF reserve ratio to at least the statutory minimum of 1.35 percent within 8 years after, as of June 30, 2020, the DIF reserve ratio fell to 1.30 percent.

As of September 30, 2023, the DIF balance stood at \$119.3 billion on an accrual basis, measuring expected losses to current balances. This level is equivalent to a reserve ratio of 1.13 percent, a 10 basis point decline from the previous year due largely to the failure of three banks with over \$548 billion in assets. On November 16, 2023, the FDIC issued a final rule to implement a special assessment to recover the DIF's estimated losses associated with uninsured depositors following the closures of Silicon Valley Bank and Signature Bank in connection with a systemic risk determination announced on March 12, 2023. The Budget estimates special assessment collections totaling \$16.3 billion from 2024 to 2026. The special assessments are recorded as an asset in the DIF balance on an accrual basis and are presented in the Budget as offsetting collections in the year they are estimated to be collected. The Budget reflects an adjustment to the unobligated balance carried forward into 2024 of \$16.3 billion to account for special assessments that have not yet been collected. Projected growth in the DIF balance in the Budget reflects projections of bank failures in line with historical experience and assessment revenue required to increase the reserve ratio over time.

In 2023, the Department of the Treasury's Federal Financing Bank (FFB) purchased a \$50 billion note guaranteed by the FDIC in its corporate capacity as deposit insurer and regulator. In 2024, FFB purchased four additional notes guaranteed by the FDIC in its corporate capacity as deposit insurer and regulator for a total of \$43.3 billion. The Budget reflects cash flows related to the FFB-purchased notes, in addition to assessments, recoveries and expenditures of the DIF. Pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985 (P.L. 99–177), disbursements of the FFB with respect to any obligations guaranteed by a Federal agency are treated as a means of financing that agency. Agency-guaranteed transactions are recorded in the agency account that would otherwise be liable for payments to the FFB in the event of a default on a loan made or purchased by the FFB. The FDIC estimates that the FFB will be fully repaid without recourse to FDIC's guarantee and the Budget reflects principal and interest amounts owed to FFB for its means of financing of the FDIC guarantee as offsetting collections in the DIF, with these amounts fully remitted to FFB in the year collected.

The FSLIC Resolution Fund (FRF) is the ultimate successor to FSLIC assets and liabilities from thrift resolutions prior to August 1989. Beginning in August 1989, the Resolution Trust Corporation (RTC) assumed responsibility for the FSLIC's unresolved cases. On December 31, 1995, the RTC was terminated and its assets and liabilities were transferred to FRF.

Funds for FRF operations have come from: 1) income earned on its assets; 2) liquidation proceeds from receiverships; 3) the proceeds of the sale of bonds by the Financing Corporation; and 4) a portion of insurance premiums paid by Savings Association Insurance Fund (SAIF) members prior to 1993. The Financial Institutions Reform, Recovery, and Enforcement Act or

FIRREA (P.L. 101-73) authorizes appropriations to make up for any shortfall. Currently, the FRF consists of two distinct pools of assets and liabilities. One is composed of the assets and liabilities of the FSLIC transferred to the FRF (FRF-FSLIC) and the other is composed of the RTC assets and liabilities (FRF-RTC). The assets of one pool are not available to satisfy obligations of the other. The FRF will continue operations until all of its assets are sold or otherwise liquidated and all its liabilities are satisfied. Any funds remaining in the FRF-FSLIC will be paid to the U.S. Treasury. Any remaining funds of the FRF-RTC will be distributed to the Resolution Funding Corporation to pay interest on its bonds.

Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act (P.L. 111-203) established an Orderly Liquidation Authority (OLA) permitting the appointment of the FDIC as receiver of financial companies whose failure and resolution under otherwise applicable Federal or State law is determined to have serious adverse effects on financial stability in the United States. The Federal Reserve Board and the FDIC, the Securities and Exchange Commission (for brokers or dealers) or the Federal Insurance Office (for insurance companies) must recommend in writing that the Secretary of the Treasury appoint the FDIC as the company's receiver.

ORDERLY LIQUIDATION FUND—Continued

The Secretary of the Treasury must then, in consultation with the President, determine whether seven criteria authorizing the appointment of the FDIC as receiver for the failing financial company have been satisfied, including finding that resolution under otherwise applicable law would have serious adverse effects on financial stability in the United States.

The FDIC's Office of Inspector General (FDIC OIG) is an independent unit within the FDIC that conducts audits, evaluations, and investigations of corporate activities. In addition, the OIG assists the FDIC in preventing and detecting fraud, waste, abuse, and mismanagement. The OIG was established by the FDIC Board pursuant to the Inspector General Act amendments of 1988 (P.L. 100–504). The Resolution Trust Corporation Completion Act (P.L. 103–204), enacted December 17, 1993, provided that the FDIC Inspector General be appointed by the President and confirmed by the Senate. The Completion Act thus added the FDIC to the list of establishments whose OIGs have separate appropriation accounts under Section 1105(a) of Title 31, United States Code, thereby safeguarding FDIC OIG's independence. Assessments paid to the Deposit Insurance Fund (DIF) by insured financial institutions and any other resources of the DIF, administered by the FDIC, fully fund FDIC OIG's appropriation. To the extent that FDIC OIG performs work in connection with the FSLIC Resolution Fund (FRF), the cost of such work is derived from the FRF.

FEDERAL DRUG CONTROL PROGRAMS

Federal Funds

HIGH INTENSITY DRUG TRAFFICKING AREAS PROGRAM

(INCLUDING TRANSFERS OF FUNDS)

For necessary expenses of the Office of National Drug Control Policy's High Intensity Drug Trafficking Areas Program, \$290,200,000, to remain available until September 30, 2026, for drug control activities consistent with the approved strategy for each of the designated High Intensity Drug Trafficking Areas ("HIDTAs"), of which not less than 51 percent shall be transferred to State and local entities for drug control activities and shall be obligated not later than 120 days after enactment of this Act: Provided, That up to 49 percent may be transferred to Federal agencies and departments in amounts determined by the Director of the Office of National Drug Control Policy, of which up to \$4,000,000 may be used for auditing services and associated activities and \$2,000,000 shall be for the Grants Management System for use by the Office of National Drug Control Policy: Provided further, That any unexpended funds obligated prior to fiscal year 2023 may be used for any other approved activities of that HIDTA, subject to reprogramming requirements: Provided further, That the Director shall notify the Committees on Appropriations of the initial allocation of fiscal year 2025 funding among HIDTAs not later than 45 days after enactment of this Act, and shall notify the Committees of planned uses of discretionary HIDTA funding, as determined in consultation with the HIDTA Directors, not later than 90 days after enactment of this Act: Provided further, That upon a determination that all or part of the funds so transferred from this appropriation are not necessary for the purposes provided herein and upon notification to the Committees on Appropriations of the House of Representatives and the Senate, such amounts may be transferred back to this appropriation.

Note.—A full-year 2024 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2024 and Other Extensions Act (Division A of Public Law 118–15, as amended). The amounts included for 2024 reflect the annualized level provided by the continuing resolution.

The High Intensity Drug Trafficking Areas (HIDTA) program was established by the Anti-Drug Abuse Act of 1988, as amended, to provide assistance to Federal, State, local, and tribal law enforcement entities operating in those areas most adversely affected by drug trafficking. The HIDTA program provides resources to Federal, State, local, and tribal agencies in each HIDTA region to carry out activities that address the specific drug threats of that region. A central feature of the HIDTA program is the discretion granted to HIDTA Executive Boards to design and carry out activities that reflect the specific drug trafficking threats found in each HIDTA region. This discretion ensures that each HIDTA Executive Board can tailor its strategy and initiatives closely to local conditions and can respond quickly to changes in those conditions. Among the types of activities funded by the HIDTA program are: drug enforcement task forces comprised of multiple Federal, State, local, and tribal agencies designed to dismantle and disrupt drug trafficking organizations; multi-agency intelligence centers that provide drug intelligence to HIDTA initiatives and participating agencies; initiatives to establish or improve interoperability of communications and information systems between and among law enforcement agencies; and investments in technology infrastructure.

This account is for other drug control activities authorized by the Office of National Drug Control Policy Reauthorization Act of 1998, as amended through Public Law 115-271. The funds appropriated support high-priority drug control programs and may be transferred to drug control agencies. For FY 2025, funds appropriated to this account will be used for the following activities:

Drug Free Communities Support Program.—The Drug Free Communities Support (DFC) Program provides small grants (no more than \$125,000 per year for an initial 5-year period) to established local community drug free coalitions. The grants are awarded competitively to community coalitions that organize multiple sectors of a community to focus on local needs as a means for reducing and/or preventing youth substance use.

Drug Court Training & Technical Assistance.—This funding is provided to further the development and sustainability of drug courts in the United States through the review and dissemination of science-based methods to overcome barriers to drug court sustainability, provide up-to-date guidance and training to practitioners and inter-disciplinary drug court teams to increase drug court participant retention and completion rates, and provide a state-by-state examination of drug courts.

Anti-Doping Activities.—This funding continues the effort to educate athletes on the dangers of drug use and to eliminate illegal drug use in Olympic and associated sports in the United States.

World Anti-Doping Agency (WADA) Dues.—WADA was established in 1999 as an international independent agency composed and funded equally by the sport movement and governments of the world. Its key activities include scientific research, education, development of anti-doping capacities, and monitoring of the World Anti-Doping Code—the document harmonizing anti-doping policies in all sports and all countries. ONDCP represents the United States before the agency and is responsible for the payment of U.S. dues.

Model Acts Program.—This funding provides resources to: (1) advise states on establishing laws and policies to address illicit drug use issues; and (2) revise such model state drug laws and draft supplementary model state laws to take into consideration changes in illicit drug use issues in the state involved.

Sec. 103 of Public Law 114-198 (Community-based coalition enhancement grants to address local drug crises).—This funding provides grants to eligible entities to implement comprehensive community-wide strategies that address local drug crises and emerging drug abuse issues within the area served by the eligible entity.

Policy Research.—This funding provides resources to conduct short-turnaround contract research projects to address specific issues concerning policy and in support of the National Drug Control Strategy.

Performance Audits and Evaluations.—This funding provides resources to support performance audits and evaluations to examine the efficiency and effectiveness of federal efforts and provides an avenue for corrective action if the goals/objectives of the National Drug Control Strategy: Performance Review System and the National Drug Control Strategy Assessment are not being met.

OTHER FEDERAL DRUG CONTROL PROGRAMS—Continued

Evolving and Emerging Drug Threats.—By enacting the Substance Use-Disorder Prevention that Promotes Opioid Recovery and Treatment (SUPPORT) for Patients and Communities Act of 2018, Public Law 115–271, Congress codified its intention for the Federal government to closely monitor evolving and emerging drug threats and to act early in the development of a national trend to prevent such threats from reaching levels seen during the opioid crisis. The SUPPORT Act emerging threats provisions authorize the Director to work with the interagency to identify funding requirements that respond to emerging threats outside of the normal budget development cycles. The funding requested by ONDCP will allow the Administration to provide targeted funding to address designated emerging drug threats as the Administration develops plans to address those threats.

The Federal Financial Institutions Examination Council (the Council) was established in 1979 pursuant to the Financial Institutions Regulatory and Interest Rate Control Act of 1978 (FIRA) (P.L. 95–630). In 1989, pursuant to the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA) (P.L. 101–73), the Appraisal Subcommittee (ASC) was established within the Council. The Council has limited specified responsibilities regarding the ASC.

The Council is a formal interagency body empowered to prescribe uniform principles, standards, and report forms for the Federal examination of financial institutions; to make recommendations to promote uniformity in the supervision of financial institutions; and to conduct examiner training. Council members include a member of the Board of Governors of the Federal Reserve System, the Chairman of the Federal Deposit Insurance Corporation, the Chairman of the National Credit Union Administration, the Comptroller of the Currency, the Director of the Consumer Financial Protection Bureau, and the Chairman of the State Liaison Committee, which is made up of five representatives from state regulatory agencies that supervise financial institutions.

In addition to its responsibilities under FIRA and FIRREA, the Council was given responsibilities by the Housing and Community Development Act of 1980 (P.L. 96–399) and the Economic Growth and Regulatory Paperwork Reduction Act of 1996 (P.L. 104–208).

The Council's resources are provided by its Federal members and other fees and reimbursements.

The Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (P.L. 101–73) established the Appraisal Subcommittee of the Federal Financial Institutions Examination Council (ASC). The ASC is composed of representatives of the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation, the National Credit Union Administration, the Office of the Comptroller of the Currency, the Department of Housing and Urban Development, the Consumer Financial Protection Bureau, and the Federal Housing Finance Agency.

The ASC is charged with ensuring that real estate appraisals used in federally-related transactions are performed in accordance with uniform standards by appraisers certified and licensed by the states. Its responsibilities include: (1) monitoring the requirements established by the states for the certification and licensing of appraisers and the registration and supervision of the operations and activities of appraisal management companies; (2) monitoring the requirements established by the Federal financial institutions' regulatory agencies regarding appraisal standards for federally-related transactions under their jurisdiction; (3) monitoring and reviewing the practices, procedures, activities, and organization of the Appraisal Foundation; (4) maintaining the National Registry of licensed and certified appraisers and appraisal management companies; (5) transmitting an annual report to Congress no later than June 15 of each year; and (6) making grants to the Appraisal Foundation and state appraiser certifying and licensing agencies.

The ASC's activities, including grants awarded to the Appraisal Foundation, were initially funded from a one-time appropriation of \$5 million. These funds were repaid to Treasury in 1998. The ASC is now operating on fee income from (1) appraisal management companies and (2) state-licensed and state-certified real estate appraisers in the National Registry.

The Federal Labor Relations Authority (FLRA) is an independent administrative Federal agency created by Title VII of the Civil Service Reform Act of 1978 (the Statute) with a mission to carry out five statutory responsibilities: 1) determining the appropriateness of units for labor organization representation; 2) resolving complaints of unfair labor practices; 3) adjudicating exceptions to arbitrators' awards; 4) adjudicating legal issues relating to duty to bargain; and 5) resolving impasses during negotiations. All work throughout the agency is undertaken to support a single program—to administer and enforce the Statute by determining the respective rights of employees, agencies, and labor organizations in their relations with one another.

FLRA's authority is divided by law and by delegation among a three-member Authority and an Office of General Counsel, appointed by the President and subject to Senate confirmation; and the Federal Service Impasses Panel, which consists of seven part-time members appointed by the President.

FLRA does not initiate cases. Proceedings before FLRA originate from filings arising through the actions of Federal employees, Federal agencies, or Federal labor organizations. Nationwide, FLRA includes five Regional Offices and a Headquarters site in Washington, D.C.

Authority.—The Authority adjudicates appeals filed by either Federal agencies or Federal labor organizations on negotiability issues, exceptions to arbitration awards, appeals of representation decisions, eligibility of labor organizations for national consultation rights, and unfair labor practice complaints.

Office of the General Counsel.—The General Counsel investigates allegations of unfair labor practices and processes representation petitions. In addition, the General Counsel conducts elections concerning the exclusive recognition of labor organizations and certifies the results of elections.

Federal Service Impasses Panel.—The Panel resolves labor negotiation impasses between Federal agencies and labor organizations.

The Federal Maritime Commission (FMC or Commission) regulates oceanborne transportation in the foreign commerce of the United States. The principal statutes administered by the Commission are codified at 46 U.S.C. 40101–44106 and 46 U.S.C. 3503. The Commission monitors the economic activities of ocean common carriers, marine terminal operators (MTOs), ports, and ocean transportation intermediaries who operate in U.S. foreign commerce to ensure that they maintain just and reasonable practices.

Competition: The Commission reviews competitive activities of common carrier alliances and other agreements among common carriers and/or terminal operators and monitors the international ocean transportation supply chain. The Commission processes and reviews agreements,

service contracts, and service arrangements for compliance with statutory requirements; and reviews common carriers' privately published tariff systems for accessibility, accuracy, and reasonable terms in accordance with its enforcement of 46 U.S.C. Part A - Ocean Shipping.

Enforcement: The Commission maintains an enforcement program designed to investigate and prosecute violations of the law, and to assist regulated entities in achieving compliance. The Commission detects and appropriately remedies malpractices and violations of the prohibited acts set forth in 46 U.S.C. 41101–41109 and investigates complaints about charges assessed by common carriers pursuant to 46 U.S.C. 41310. The Commission also monitors the laws and practices of foreign governments which could have a discriminatory or otherwise adverse impact on shipping conditions in U.S. trades, and imposes remedial action, as appropriate, pursuant to 46 U.S.C. 42101–42109 and 46 U.S.C. 42301–42307 as well as enforces special regulatory requirements applicable to carriers owned or controlled by foreign governments pursuant to 46 U.S.C. 40701–40706.

Public Assistance: The Commission offers a voluntary information dispute resolution program to assist international ocean industry stakeholders with commercial disputes.

Ocean Transportation Intermediaries (OTIs): The Commission issues licenses to qualified OTIs operating in the United States and ensures that U.S. OTIs are bonded or maintain other evidence of financial responsibility pursuant to 46 U.S.C. 40901–40904.

Passenger Vessel Operators: The Commission ensures that passenger vessel operators demonstrate adequate financial responsibility to indemnify passengers in the event of nonperformance of voyages or passenger injury or death pursuant to 46 U.S.C. 44101–44106; and maintain liability insurance in accordance with 46 U.S.C. 3503(b)(1)(C).

The Federal Mediation and Conciliation Service (FMCS) provides assistance to parties in labor disputes in industries affecting commerce through conciliation and mediation.

Dispute Mediation.—FMCS assists labor and management in the mediation and prevention of disputes, other than those involving rail and air transportation, whenever such disputes threaten to cause a substantial interruption of interstate commerce or a major impairment to the national defense. FMCS also makes mediation and conciliation services available to Federal agencies and organizations representing Federal employees in the resolution of negotiation disputes. FMCS provides mandatory mediation and, where necessary, impartial boards of inquiry to assist in resolving labor disputes involving private nonprofit health care institutions. The workload shown below includes assignments in both the private and public sectors. These numbers include collective bargaining and grievance mediation.

DISPUTE MEDIATION WORKLOAD DATA

	2021 actual	2022 actual	2023 actual	2024 est.	2025 est.
Dispute mediation assignments	12,477	12,178	14,396	14,500	14,500
Total active mediations	4,657	4,046	3,716	4,439	4,439

Preventive Mediation, Public Information, and Educational Activities.—Through its preventive mediation program, FMCS initiates and develops labor-management committees, training programs, conferences, and specialized workshops dealing with issues in collective bargaining. Mediators also participate in education, advocacy and outreach activities such as lectures, seminars, and conferences.

Management and Administrative Support.—This activity provides for overall management and administration, policy planning, research and evaluation, and employee development.

Labor-Management Cooperation Project.—The Labor Management Cooperation Act of 1978 (29 U.S.C. 175a) authorizes FMCS to carry out this program of contracts and grants to support the establishment and operation of plant, area, and industry labor-management committees.

Alternative Dispute Resolution (ADR) Projects.—FMCS assists other Federal agencies by providing mediation and technical assistance in the area of ADR. The ADR cases reduce litigation costs and speed Federal processes. FMCS is funded for this work through interagency reimbursable agreements.

The Federal Mine Safety and Health Review Commission reviews and decides contested enforcement actions of the Secretary of Labor under the Federal Mine Safety and Health Act of 1977, as amended by the Mine Improvement and New Emergency Response Act of 2006. The Commission also adjudicates claims by miners and miners' representatives concerning their rights under law. The Commission holds fact-finding hearings and issues orders affirming, modifying, or vacating the Secretary's enforcement actions.

The 2025 Budget requests \$9 million for the Federal Permitting Improvement Steering Council (Permitting Council). This request supports the authorized activities of the Permitting Council established under Title 41 of the Fixing America's Surface Transportation Act (FAST Act) (Public Law 114–94) and made a permanent agency by the Infrastructure Investment and Jobs Act (Public Law 117–58), as well as the authority of the Executive Director to use the Environmental Review Improvement Fund. The Permitting Council leads Government-wide efforts to improve the transparency, predictability, and outcomes of the Federal environmental review and authorization process for qualifying infrastructure projects. Permitting Council members and their respective agencies implement and oversee adherence to the statutory requirements set forth in Title 41 of the FAST Act (FAST-41). Project sponsors seek and obtain FAST-41 coverage which entitles them to coordinated Federal agency action on their project, including developing and implementing comprehensive permitting timetables, coordinated establishment of public and tribal outreach strategies, meaningful project sponsor engagement, identification and implementation of best practices, dispute resolution, and posting and maintaining transparent, publicly accessible permitting timetables on the Federal Permitting Dashboard. Covered projects receive these benefits without modifying or undermining any underlying Federal statutes or regulations, or the status of any mandatory reviews. The Permitting Council also serves as a Federal center for permitting excellence to identify and address common roadblocks and challenges to advancing environmental and permitting review of infrastructure projects. In that capacity, the Permitting Council holistically supports the entire Federal permitting process to advance best practices that facilitate environmental reviews and resolve permitting issues in a timely fashion.

The FTC's mission is to protect consumers and competition by preventing anticompetitive, deceptive, and unfair business practices through law enforcement, advocacy, and education without unduly burdening legitimate business activity. The FTC's mission is based on a vision of a vibrant economy characterized by vigorous competition and consumer access to accurate information.

Protect Consumers.—This goal is to prevent fraud, deception, and unfair business practices in the marketplace. The agency works to accomplish this goal through three objectives: 1) Identify and take actions to address deceptive or unfair practices that harm consumers; 2) Provide the public with knowledge and tools to prevent harm to consumers; and 3) Collaborate with domestic and international partners to enhance consumer protection.

Promote Competition.—This goal is to prevent anticompetitive mergers and other anticompetitive business practices in the marketplace. The agency works to accomplish this goal through three objectives: 1) Identify and take actions to address anticompetitive mergers and practices that harm consumers; 2) Engage in effective research and stakeholder outreach to promote competition, advance its understanding, and create awareness of its benefits to consumers; and 3) Collaborate with domestic partners and international partners to preserve and promote competition.

The 2025 Budget includes a program level for the Commission of \$535 million, funded by \$180.1 million from the General Fund of the U.S. Treasury and offsetting collections from two sources: \$341.9 million from fees for Hart-Scott-Rodino Act premerger notification filings as authorized by 15 U.S.C. 18a and \$13 million from fees sufficient to implement and enforce the Telemarketing Sales Rule, promulgated under the Telemarketing and Consumer Fraud and Abuse Prevention Act (15 U.S.C. 6101 et seq., as amended).

The Resources and Ecosystems Sustainability, Tourist Opportunities, and Revived Economies of the Gulf Coast States Act of 2012, or the RESTORE Act, dedicates 80 percent of any civil and administrative penalties paid under the Clean Water Act by responsible parties in connection with the Deepwater Horizon oil spill to the Gulf Coast Restoration Trust Fund (the Trust Fund). These funds may be used for ecosystem restoration and economic recovery in the Gulf Coast region.

In addition to establishing the Trust Fund, the RESTORE Act established the Gulf Coast Ecosystem Restoration Council (the Council). The Council includes the Governors of the States of Alabama, Florida, Louisiana, Mississippi and Texas and the Secretaries of the U.S. Departments of Agriculture, Army, Commerce, Homeland Security and the Interior, and the Administrator of the U.S. Environmental Protection Agency. The Council has oversight over the expenditure of sixty percent of the funds made available from the Trust Fund. Thirty percent is administered for restoration and protection according to the Comprehensive Plan developed by the Council: *Restoring the Gulf Coast's Ecosystem and Economy*. The other thirty percent is allocated to five Gulf States under the Spill Impact Component according to a formula, established by the Council through regulation, to implement projects and programs detailed in individual State Expenditure Plans that contribute to the overall economic and ecological recovery of the Gulf.

Appropriations in 1975 and 1976, totaling \$30 million, established the Foundation's trust fund. The funds have been invested by the Secretary of the Treasury in U.S. Treasury securities, and the interest earned on these funds is available for carrying out the activities of the Foundation. The Foundation receives appropriations that are deposited in the trust fund and available for obligation.

The Foundation awards scholarships for qualified students who demonstrate outstanding potential for and interest in careers in public service at the local, State, or Federal level or in the non-profit sector. In its annual competition, the Foundation selects up to 65 new Truman Scholars. The maximum award is \$30,000 toward a graduate level degree program.

Scholarship awards.—This activity is comprised of scholarships awarded to cover eligible educational expenses.

Program administration.—This activity covers all costs of operating the program, including annual program announcement, interview and selection of Truman Scholars, calculation and disbursement of scholarship awards, monitoring of student progress, and special services and activities for scholars, including an orientation week for new scholars, a summer education and internship program, and workshops and conferences.

The Institute of Museum and Library Services (IMLS) is the primary source of Federal support for the nation's more than 116,000 libraries and 30,000 museums. Through strategic grantmaking, policy development, research and data collection, and strategic engagement, IMLS supports libraries and museums as community anchors that provide vital learning experiences and broad access to resources, in particular in under-served communities. IMLS provides leadership to help Americans build critical skills such as digital literacy; pursue education and training; access early learning opportunities; and participate in the workforce and civil society. Through its programs of support, including for State Library Administrative Agencies, Native American and Native Alaskan tribes, and Native Hawaiian organizations, IMLS helps ensure that all Americans, wherever located, have access to essential information and educational resources. The Institute's organization, mission, and functions are defined in the Museum and Library Services Act, as amended, Public Law 115–410; the National Museum of African American History and Culture Act, Public Law 108–184; and the National Museum of the American Latino Act, Public Law 116–260, the Consolidated Appropriations Act, 2021.

The Intelligence Community Management Account (ICMA) provides resources that directly support the Director of National Intelligence (DNI) in managing intelligence integration across the Intelligence Community (IC), such as the IC Inspector General, the IC Chief Information Officer, the IC Equal Employment Opportunity Office, the IC Diversity, Equity, Inclusion, and Accessibility Office, the Civil Liberties, Privacy, and Transparency Office and the IC Chief Financial Officer responsible for oversight of the National Intelligence Program annual budget cycle.

The ICMA funds the support functions of the Office of the Director of National Intelligence, including Legislative Affairs, General Counsel, Chief Operating Officer, Strategic Communications, and Military Affairs. ICMA also funds elements of the Policy and Capabilities Directorate which is focused on policy and strategy, acquisitions and procurement, facilities, human capital, domestic engagement, information sharing and data, and science and technology initiatives.

The ICMA also funds select IC elements such as the National Intelligence Council, the President's Daily Briefing Staff, and the National Intelligence University. These elements are the DNI's principal advisory sources in executing their IC-wide management responsibilities and executing their role as advisor to the President. The National Intelligence Council provides analytical support to the DNI and to senior policy makers. The President's Daily Briefing Staff supports the production of the daily intelligence briefing provided to the President and his senior staff. The National Intelligence University is a federal degree-granting institution with a far-reaching mission to educate and prepare intelligence officers to meet current and future challenges to the United States' national security.

The U.S. International Trade Commission (Commission) is an independent, nonpartisan Federal agency with specific responsibilities in investigating, adjudicating, and enforcing certain U.S. trade laws, providing relevant and timely analysis to the President and the Congress on trade issues, and maintaining the Harmonized Tariff Schedule of the United States (HTS).

For FY 2025, the Commission requests an appropriation of \$132 million to support its authorized operations. Pursuant to section 175 of the Trade Act of 1974, the budget estimates for the Commission are transmitted to Congress without revision by the President. The Administration's FY 2025 request for the Commission is \$126.1 million, reflected in the Appendix table and appropriations language.

Although the Commission has one program activity set forth in the Budget of the United States, the Commission's Strategic Plan for FY 2022–2026 sets two strategic goals that cover its programmatic responsibilities: first, to conduct reliable and thorough investigations and, second, to develop sound and informed analyses and determinations. These goals set objectives for the Commission to adhere to as it carries out its three long-standing, statutory mandates. Those mandates are: (1) to investigate and make determinations in proceedings involving imports claimed to injure a domestic industry, violations of U.S. intellectual property rights, or other unfair methods of competition in connection with imported goods; (2) to provide independent analysis and information on tariffs, trade, and competitiveness to the Congress and the President; and (3) to maintain the Harmonized Tariff Schedule of the United States (HTS). The Commission also set a strategic goal to execute and advance organizational excellence. The Commission's objectives under this goal focus on five functional areas—human resources; budget, acquisitions, and finance; information technology; data; and organizational effectiveness.

The Strategic Plan identifies strategic objectives for each strategic goal, strategies to meet these objectives, and specific performance goals. The performance goals provide the basis by which the Commission can assess whether it is making progress toward its strategic objectives.

The Commission makes available its Strategic Plan, Agency Financial Report, Annual Performance Plan, Annual Performance Report, and Budget Justification at https://www.us-itsc.gov/budget_planning_and_organization.

Public Laws 99–500, 101–208, and 102–221 established the James Madison Memorial Fellowship Foundation to operate a fellowship program to encourage graduate study of the framing, principles, and history of the American Constitution. Appropriations of \$10 million in 1988 and 1989 established the Foundation's trust fund. The funds have been invested by the Secretary of the Treasury in U.S. Treasury securities, and the interest earned on these funds is available for carrying out the activities of the Foundation. Funds raised from private sources and the surcharges from commemorative coin sales are also placed in the trust fund.

The Foundation is authorized to award graduate fellowships of up to \$24,000 to high school teachers of American history, American government, and civics. College seniors and recent college graduates who want to become secondary school teachers of these subjects are also eligible.

Fellowship awards.—This activity is comprised of fellowship awards to cover educational expenses. It also supports the Foundation's annual Summer Institute on the U.S. Constitution, which all current fellows are required to attend. The Institute is an intensive educational exper-

ience that will ensure that all fellows know the history of the framing, ratification, and implementation of the U.S. Constitution and the Bill of Rights.

Program administration.—This activity covers the costs of planning, fund-raising, and the operation of the fellowship program.

The Japan-U.S. Friendship Commission was established as an independent Federal Government agency by the United States Congress in 1975 (P.L. 94–118) to strengthen the U.S.-Japan relationship through educational, cultural, and intellectual exchange. It administers a U.S. Government trust fund that originated in connection with the return to the Japanese government of certain U.S. facilities in Okinawa and for postwar U.S. assistance to Japan. The Commission is allowed to make expenditures from the fund in an amount, not to exceed five percent annually of the fund's original principal, to pay Commission expenses and to make grants to support its mission. The Commission is a grant making agency that supports research, education, public affairs and exchange with Japan. Its mission is to support reciprocal people-to-people understanding, and to promote partnerships that advance common interests between Japan and United States.

JAPAN-UNITED STATES FRIENDSHIP TRUST FUND

(Legislative proposal, subject to PAYGO)

The Japan-U.S. Friendship Commission was established with a corpus that relies on investments in U.S. Treasury securities to sustain operations and mission-focused activities. The FY 2025 Budget includes a General Provision that would provide \$33 million to the Trust Fund, enabling continued and strengthened programs that support the organizations and experts across the United States who ensure that our ties with Japan remain vibrant and strong.

The Legal Services Corporation (LSC) distributes appropriated funds to local non-profit organizations that provide free civil legal assistance to people living in poverty, according to locally determined priorities. The Congress chartered the corporation as a private, non-profit entity outside of the Federal Government. Funding for LSC helps ensure that low-income Americans have an opportunity to obtain access to the courts, due process, and fair treatment. LSC operates under rules and requirements set by the LSC Act, 42 U.S.C. 2996–2996l, and by LSC's annual appropriations. The Administrative Provisions would make two changes, which are consistent with the previous three Budgets. First, they would permit LSC recipients to operate with boards of directors that have as few as 33% attorneys without requiring appointment by bar associations and suspend the 60% attorney requirement in the LSC Act. This will greatly improve recipients' ability to have fiscal experts and community representatives on their governing bodies. Second, they would continue to apply the appropriations restrictions on recipients' use of these appropriated funds while permitting recipients to use funds from other sources as intended by those funders.

ADMINISTRATIVE PROVISION—LEGAL SERVICES CORPORATION

None of the funds appropriated in this Act to the Legal Services Corporation shall be expended for any purpose prohibited or limited by, or contrary to any of the provisions of, sections 501, 502, 503, 504, 505, and 506 of Public Law 105–119, and all funds appropriated in this Act to the Legal Services Corporation shall be subject to the same terms and conditions set forth in such sections, except that all references in sections 502 and 503 to 1997 and 1998 shall be deemed to refer instead to 2024 and 2025, respectively.

Section 501 of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1998 (Public Law 105–119) is amended by adding the following new subsection at the end:

"(d) MODIFIED GOVERNING BODY REQUIREMENT.—For purposes of this Act, section 1007(c) of the Legal Services Corporation Act (42 U.S.C. 2996f(c)) shall be applied by substituting "33 percent" for "60 percent".

Section 502(2) of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1996 (Public Law 104–134) is amended by striking subparagraph (B) in its entirety and replacing it with the following:

"(B) is governed by a board of directors or other governing body, 33 percent of which is comprised of attorneys who are members of the bar of a State, as defined in section 1002(8) of the Legal Services Corporation Act (42 U.S.C. 2996a(8)), in which the legal assistance is to be provided."

Section 504 of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1996 (Public Law 104–134) is amended in subsection (a) by striking everything before the first paragraph and inserting the following:

"(a) None of the funds appropriated in this Act to the Legal Services Corporation may be used to provide financial assistance to any person or entity (which may be referred to in this section as a recipient) for any expenditure or activity—".

The Merit Systems Protection Board (MSPB) is an independent agency in the Executive Branch of the Federal Government that serves as the guardian of Federal merit systems. The Board's mission is to protect Federal merit systems and the rights of individuals within those systems. The MSPB accomplishes its mission by: hearing and deciding employee appeals from agency actions; hearing and deciding cases brought by the Office of Special Counsel involving alleged abuses of the merit systems, and other cases arising under the Board's original jurisdiction; conducting studies of the civil service and other merit systems in the Executive Branch to determine whether they are free from prohibited personnel practices; and providing oversight of the significant actions and regulations of the Office of Personnel Management (OPM) to determine whether they are in accord with merit system principles. The MSPB's inception began in 1883, when the Congress passed the Pendleton Act establishing the Civil Service Commission and a merit-based employment system for the Federal Government. The Pendleton Act grew out of the 19th century reform movement to curtail the excesses of political patronage in Government. As the Commission's responsibilities multiplied, a growing consensus emerged that it could not properly and adequately perform managerial and adjudicatory functions simultaneously. Concern over the inherent conflict of interest in the Commission's role as both rule-maker and judge was a principal motivating factor behind the enactment by the Congress of the Civil Service Reform Act of 1978. The Act replaced the Civil Service Commission with three new independent agencies: OPM, the Federal Labor Relations Authority, and MSPB. MSPB assumed the employee appeals functions of the Commission and was given the new responsibilities to perform merit systems studies and to review the significant actions of OPM.

The Trust Fund is invested in Treasury securities with maturities suitable to the needs of the Fund. Interest revenues from the investments fund authorized Education and The University of Arizona partner programming, including the Native American Graduate Fellowships, Parks in Focus, Scholarships, and Udall Center for Studies in Public Policy (Udall center) activities including the Udall Archives.

The Udall Foundation is authorized by 20 U.S.C. 5604(7) to establish training programs for professionals in Native American and Alaska Native health care and public policy; the Udall Foundation provides these programs through the Native Nations Institute for Leadership, Management, and Policy (NNI), a program of the Udall Center. The Native American Congressional Internship Program, comanaged by the Udall Foundation and NNI, is funded through annual appropriations via an NNI set-aside, a portion of which is retained by the Udall Foundation for its direct expenditures on Internship programming. FY 2023 appropriations to the Trust Fund remain available for direct expenditure until expended.

ENVIRONMENTAL DISPUTE RESOLUTION FUND

For payment to the Environmental Dispute Resolution Fund to carry out activities authorized in the Environmental Policy and Conflict Resolution Act of 1998, \$4,044,000, to remain available until expended.

Note.—A full-year 2024 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2024 and Other Extensions Act (Division A of Public Law 118–15, as amended). In 1998, Public Law 105-56 established the U.S. Institute for Environmental Conflict Resolution (U.S. Institute) as a part of the Udall Foundation. The Further Consolidated Appropriations Act, 2020 renamed the U.S. Institute as the John S. McCain III National Center for Environmental Conflict Resolution (National Center) to honor the legacy of Senator John McCain who was instrumental in the establishment of the Udall Foundation and its programs. The National Center's services produce cost savings across the Federal Government by reducing litigation and appeals, minimizing inefficiencies and the waste of agency resources that result from conflict, reducing instances of stalled or delayed environmental projects, avoiding lost economic opportunities, minimizing unnecessary and costly remediation when environmental issues are not dealt with in a timely manner, and avoiding public frustration and lost confidence in the Federal Government. Furthermore, the National Center conducts cost recovery from service fees and the use of contracted private-sector providers to facilitate many additional positive conflict resolution outcomes for the Nation beyond those possible solely from appropriated funding.

The National Capital Planning Commission (NCPC) is the central planning agency for the Federal Government in the National Capital Region. The Commission provides overall planning guidance for Federal land and buildings in the region by reviewing the design of Federal and certain local projects, overseeing long-range planning for future development, and monitoring capital investment by Federal agencies. NCPC will continue to work with the District of Columbia and Federal and regional partners to develop comprehensive policies and planning initiatives that support the Federal interest and contribute to the best urban design, infrastructure, resource, and land-use outcomes for the Region. In addition, NCPC will continue to ensure that all Federal development in the Region meets the highest design standards and will review Federal plans for regional capital improvements. NCPC has also been tasked with the management of the planning contract for the \$8.2 million Pennsylvania Avenue Initiative, which is reflected in the Budget as additional offsetting collections and outlays.

The National Council on Disability (NCD), an independent Federal agency, is composed of nine members appointed by the President and the Congress. Established under the Rehabilitation Act of 1973, as amended by the Workforce Innovation and Opportunity Act, the NCD is respons-

ible for reviewing the Federal Government's laws, programs, and policies which affect people with disabilities. The NCD also makes recommendations on issues affecting individuals with disabilities and their families to the President; the Congress; the Rehabilitation Services Administration; the National Institute on Disability, Independent Living, and Rehabilitation Research; and other Federal Departments and agencies.

The mission of the National Credit Union Administration (NCUA) is to protect the system of cooperative credit and its member-owners through effective chartering, supervision, regulation, and insurance. Credit unions are member-owned, cooperative associations organized for the purpose of promoting thrift and creating a source of credit for members. As of September 30, 2023, there were 2,908 federally-chartered credit unions with total assets of more than \$1 trillion.

NCUA, through its Operating Fund, conducts activities prescribed by the Federal Credit Union Act of 1934, which include: 1) chartering new Federal credit unions; 2) approving field of membership applications of Federal credit unions; 3) promulgating regulations and providing guidance; 4) performing regulatory compliance and safety and soundness examinations; 5) implementing and administering enforcement actions, such as prohibition orders, orders to cease and desist, orders of conservatorship and orders of liquidation; and 6) administering the National Credit Union Share Insurance Fund (SIF), which provides insurance to Federal credit unions (FCUs) and federally-insured state-chartered credit unions (FISCUs).

To better demonstrate how the NCUA's budget is used to achieve its strategic goals, the Operating Fund's obligations by program activity are presented in the same categories shown in the agency's 2022-2026 Strategic Plan. Amounts shown for "Safety and Soundness, and Consumer Protection" correspond to programs that contribute to the NCUA's goal to "Ensure a safe, sound and viable system of cooperative credit that protects consumers." Amounts shown for "Improve Access to Equitable Financial Services" correspond to programs that contribute to the NCUA's goal to "Improve the financial well-being of individuals and communities through access to affordable and equitable financial products and services," which encompasses the NCUA's efforts to increase financial inclusion. Amounts shown for "Mission Support" correspond to programs that contribute to the NCUA's goal to "Maximize organizational performance to enable mission success."

NCUA funds its activities through operating fees levied on all FCUs, and through reimbursements from the SIF, which is funded by FCUs and FISCUs.

The primary purpose of the National Credit Union Share Insurance Fund (SIF) is to provide insurance for deposits of member accounts (also known as insured member shares) for more than 138 million members in federally-chartered credit unions and state-chartered credit unions that qualify for insurance under the Federal Credit Union Act. As of September 30, 2023, 4,645 state and Federal credit unions and 11 corporate credit unions were insured by the SIF, with insured member shares of \$1.7 trillion, an increase of approximately \$23 billion, or 1.3 percent, year-on-year.

Following a cost allocation method that distributes NCUA costs between its insurance and regulatory functions, the SIF reimburses the NCUA Operating Fund for its share of administrative costs. In calendar year 2023, the SIF paid reimbursements of approximately \$220 million to the Operating Fund.

The NCUA Board maintained the SIF's normal operating level at 1.33 percent of insured shares in 2023. The normal operating level is the Fund's equity level above which the Board would be expected to authorize distributions to insured credit unions.

The purpose of the Central Liquidity Facility (CLF), established under Title III of the Federal Credit Union (FCU) Act, is to improve the general financial stability of member credit unions by lending, subject to statutory limitations, to member credit unions experiencing unusual or unexpected liquidity shortfalls. The two primary sources of funds for the CLF are stock subscriptions from member credit unions and access to borrowing from the Federal Financing Bank.

As of September 30, 2023, the borrowing authority of the CLF was \$19.8 billion.

The Community Development Revolving Loan Fund (CDRLF) was established by Congress in 1979 with a \$6 million appropriation to assist credit unions serving low-income communities to: 1) provide financial services to their communities; 2) stimulate economic activities in their communities, resulting in increased income and employment; and 3) operate more efficiently. CDRLF funds a revolving loan program and a technical assistance grant program.

For the revolving loan program, CDRLF had outstanding loans of \$2.75 million as of September 30, 2023. For the 2023 round of technical assistance grants, which are administered on a calendar-year basis, NCUA awarded \$3.5 million in technical assistance grants to help 147 low-income credit unions provide affordable financial services to their members and communities through four focus areas: improving outreach to underserved communities, strengthening digital services and cybersecurity, developing mentoring programs for employees at small and low-income credit unions, and promoting effective training for employees at small and low-income credit unions.

The NEA, established by Congress in 1965, is an independent Federal agency that is the largest funder of the arts and arts education in communities nationwide and a catalyst of public and private support for the arts. The Agency partners closely with the Nation's state and regional arts organizations, as well as with private entities, leveraging resources to provide more arts funding and arts programs across the country. Through its grant awards, strategic partnerships, and honorific awards, the NEA supports learning in and about the arts, celebrating the nation's rich and diverse cultural heritage, and promoting equitable access to the arts in every community in the United States.

The National Foundation on the Arts and the Humanities Act of 1965, as amended, also authorizes the NEA to receive money and other donated property; such gifts may be used, sold, or otherwise disposed of to support arts projects and activities. This presentation includes the Arts and Artifacts Indemnity Fund, which the NEA administers on behalf of the Federal Council on the Arts and the Humanities.

The National Endowment for the Humanities (NEH) serves and strengthens our republic by promoting excellence in the humanities and conveying the lessons of history to all Americans. In 2025, NEH will continue to support partnerships with state humanities councils; the strengthening of humanities teaching and learning in the Nation's schools and institutions of higher education; basic research and original scholarship in the humanities; innovative use of digital information technology; efforts to preserve and increase access to books, U.S. newspapers, documents, and other reference materials; and museum exhibitions, documentary films, radio programming, and reading programs that reach millions of Americans. Support is provided through outright grants, matching grants, and a combination of the two. Eligible applicants include state humanities councils, educational institutions, libraries, archives, museums, historical organizations, and other scholarly and cultural institutions and organizations. Support is also provided to individuals for advanced research and scholarship in the humanities.

The National Labor Relations Board resolves representation disputes in industry and also remedies and prevents specified unfair labor practices by employers or labor organizations. Case intake and additional program statistics appear in the table below.

	2023 actual	2024 est.	2025 est.
Case intake:			
Unfair labor practice cases	19,869	23,209	27,078
Representation cases	2,594	3,035	3,551
Administrative law judges:			
Hearings closed	150	160	170
Decisions issued	135	130	140
Board adjudication:			
Contested Board decisions issued	246	300	300
Regional director decisions	274	283	294
Board decisions requiring court enforcement	44	68	68

Casehandling (formerly Field investigations in 2015 and earlier).—Charges of unfair labor practices and petitions for elections to resolve representation disputes are investigated by regional office personnel. Approximately 90 percent of merit unfair labor practice cases are closed by settlement, dismissal, or withdrawal. The remainder are prepared for public hearing. About 85–90 percent of representation elections are held pursuant to agreement of the parties. The agency strives to maximize the voluntary settlement of all cases and to avoid litigation.

Administrative law judge hearing.—Administrative law judges conduct public hearings in unfair labor practice cases. Their findings and recommendations are set forth in their decisions.

Board adjudication.—In an unfair labor practice case, a judge's decision becomes a Board order if no exceptions are filed. About 30 percent of these decisions become automatic Board orders or are complied with voluntarily. The remainder, with exceptions filed, require a Board decision. In representation cases, regional directors initially decide the issues by Board delegation. The Board itself decides representation issues on referral from regional directors or by granting a request for review of a regional director's decision. The Board also rules on objection and challenge questions in election cases. Unlike other Federal agencies, Board orders are not self-enforcing in the absence of a timely petition to review. If the parties do not voluntarily comply with a Board order involving unfair labor practices, the Board must request that an appellate court enforce the decision.

Internal Review.—Office of the Inspector General.

Mission Support.—Previously spread across other program activities; includes administrative, personnel, and financial management functions conducted in the Headquarters office.

Mediator and alternative dispute resolution (ADR) services.—The National Mediation Board mediates disputes over wages, hours, and working conditions for some 700 rail and air carriers and approximately 650,000 employees in the two industries.

The Board also provides technical assistance to enable labor and industry representatives to explore informally the relevant economic and noneconomic problems that condition collective bargaining in the railroad and airline industries. The Board's ADR program provides collective bargaining training, facilitation, and grievance mediation services to the labor-management community.

Pending, start of year	101	85	82
Received during year	58	40	55
Closed during year	74	43	43

Employee representation.—The Board investigates representation disputes involving the various crafts or classes of railroad and airline employees to determine their choice of representatives for the purpose of collective bargaining.

Closed during year	19	30	27
Pending, end of year	8	6	12
Freedom of Information Act (FOIA) requests received	32	30	23
Investigation cases closed	29	28	21

Emergency disputes.—When the parties fail to resolve their disputes through mediation, they are urged to submit their differences to arbitration. If neither mediation nor voluntary arbitration is successful, the President, when notified of disputes which substantially threaten to interrupt essential service, may appoint emergency boards to investigate and report on the dispute. Such reports usually serve as a basis for resolving the disputes.

	2023 actual	2024 est.	2025 est.
Board created:			
Emergency (sec. 160)	0	1	1
Emergency (sec. 159a)	0	1	1

Arbitration services.—Arbitration is governed by sections 3 and 7 of the Railway Labor Act. Railroad employee grievances resulting from disputes over the interpretation or application of collective bargaining contracts may be brought for settlement to the National Railroad Adjustment Board (NRAB). The divisions of the NRAB are composed of an equal number of carrier and union representatives compensated by the party or parties they represent. Public Law 89-456 provides for the adjustment of disputes involving grievances resulting from interpretation or application of bargaining agreements in the railroad industry and for disputes otherwise referable to the NRAB. In these disputes, the National Mediation Board compensates the neutral party selected to help resolve these grievances.

Administrative direction and support for the public law boards, special boards of adjustment, and the NRAB are provided by Federal employees who are compensated by the National Mediation Board.

The 2025 Budget proposes \$32.100 million for activities for the National Railroad Passenger Corporation (Amtrak) Office of the Inspector General.

In addition to the appropriation amount above, Section 802 of Title VIII of Division J of The Infrastructure Investment and Jobs Act (Pub. L. No. 117–58, Division J, Title VIII, Sec. 802, 135 Stat. 429, 1437 (2021)), as amended by the Consolidated Appropriations Act of 2023 (Pub. L. No. 117–328, Division L, Title I, Sec. 153 (2022)), states that, "Amounts made available to the Secretary of Transportation or to the Federal Railroad Administration in this title in this Act for the costs of award, administration, and project management oversight of financial assistance under the programs that are administered by the Federal Railroad Administration may be transferred to a Financial Assistance Oversight and Technical Assistance account, to remain available until expended, for the necessary expenses to support the award, administration, project management oversight, and technical assistance of programs administered by the Federal Railroad Administration under this Act: Provided, That one-quarter of one percent of the amounts that could be transferred pursuant to the authority in this section in each of 2022 through 2026 shall be transferred to the Office of Inspector General of the Department of Transportation for oversight of funding provided to the Department of Transportation in this title in this Act: Provided further, That one-quarter of one percent of the amounts that could be transferred pursuant to the authority in this section in each of 2022 through 2026 shall be transferred to the National Railroad Passenger Corporation Office of Inspector General for oversight of funding provided to the National Railroad Passenger Corporation in this title in this Act." Based on the amounts made available to Amtrak pursuant to this Act and, in accordance with the calculation under this provision, the amount available to National Railroad Passenger Corporation Office of Inspector General under this provision equates to \$495,000 for 2025

NATIONAL TRANSPORTATION SAFETY BOARD

The National Transportation Safety Board (NTSB) is an independent nonregulatory agency that promotes transportation safety by maintaining independence and objectivity; conducting objective, precise accident investigations and safety studies; performing fair and objective airman and mariner certification appeals; and advocating and promoting NTSB safety recommendations. The NTSB also provides assistance to victims of transportation accidents and their families.

In 2025, the Administration proposes a total funding level of \$150 million for NTSB Salaries and Expenses to allow the NTSB to fulfill its role in improving safety on the Nation's transportation system.

The National Transportation Safety Board is mandated by the Congress to investigate all catastrophic transportation accidents and, therefore, has no control over the frequency of costly accident investigations. The emergency fund provides a funding mechanism by which periodic accident investigation cost fluctuations can be met without delaying critical phases of the investigations. The current balance of \$2 million is sufficient to cover unanticipated costs associated with an increased number of accidents, and thus the Administration does not propose new funding in 2025.

NEIGHBORHOOD REINVESTMENT CORPORATION**Federal Funds****PAYMENT TO THE NEIGHBORHOOD REINVESTMENT CORPORATION**

The Neighborhood Reinvestment Corporation (NRC), doing business as "NeighborWorks America," was established by Federal charter in 1978 as a nonprofit organization to provide financial support, capacity building, technical assistance, and training for affordable housing and community-based revitalization efforts nationwide. NRC receives both Federal and non-Federal funding to finance its program activities. The Budget requests \$168 million for NRC

for its core operations, programs, and grants to its 250 network member organizations and other non-profit organizations and local governments.

Nuclear Reactor Safety.—The U.S. Nuclear Regulatory Commission's (NRC) Nuclear Reactor Safety Program encompasses licensing and overseeing civilian nuclear power reactors and other non-power production or utilization facilities in a manner that adequately protects public health and safety. It also provides reasonable assurance of the security of facilities and protection

against radiological sabotage. This program contributes to the NRC's safety and security strategic goals through the activities of the Operating Reactors and New Reactors Business Lines, which regulate operating and new nuclear reactors to ensure they meet applicable requirements.

Nuclear Materials and Waste Safety.—The Nuclear Materials and Waste Safety Program encompasses the NRC's licensing and oversight of nuclear materials in a manner that adequately protects public health and safety. This program provides assurance of the physical security of the materials and waste and protection against radiological sabotage, theft, or diversion of nuclear materials. Through this program, the NRC regulates uranium processing and fuel facilities; research and pilot facilities; nuclear materials users (medical, industrial, research, and academic); spent fuel storage; spent fuel material transportation and packaging; decontamination and decommissioning of facilities; and low-level and high-level radioactive waste. The program contributes to the NRC's safety and security strategic goals through the activities of the Spent Fuel Storage and Transportation, Nuclear Materials Users, Decommissioning and Low-Level Waste, and Fuel Facilities Business Lines.

Corporate Support.—The NRC's Corporate Support Business Line involves centrally managed activities that are necessary for the agency to accomplish its mission. These activities include acquisitions, administrative services, financial management, human resource management, information technology (IT) / information management (IM), outreach, policy support, and training.

The NRC's Office of the Inspector General (OIG) was established as a statutory entity on April 15, 1989, in accordance with the 1988 amendments to the Inspector General Act, to provide oversight of NRC operations. The Consolidated Appropriations Act of 2014 subsequently authorized the NRC Inspector General to exercise the same authorities concerning Defense Nuclear Facilities Safety Board (DNFSB) operations. The OIG's mission is to provide independent, objective audit and investigative oversight of NRC and DNFSB operations, in order to protect people and the environment.

GENERAL PROVISIONS—INDEPENDENT AGENCIES

SEC. 401. (a) *The amounts made available by this title for the Nuclear Regulatory Commission may be reprogrammed for any program, project, or activity, and the Commission shall notify the Committees on Appropriations of both Houses of Congress at least 30 days prior to the use of any proposed reprogramming that would cause any program funding level to increase or decrease by more than \$500,000 or 10 percent, whichever is less, during the time period covered by this Act.*

(b)

GENERAL PROVISIONS—INDEPENDENT AGENCIES—Continued

(1) *The Nuclear Regulatory Commission may waive the notification requirement in subsection (a) if compliance with such requirement would pose a substantial risk to human health, the environment, welfare, or national security.*

(2) *The Nuclear Regulatory Commission shall notify the Committees on Appropriations of both Houses of Congress of any waiver under paragraph (1) as soon as practicable, but not later than 3 days after the date of the activity to which a requirement or restriction would otherwise have applied. Such notice shall include an explanation of the substantial risk under paragraph (1) that permitted such waiver and shall provide a detailed report to the Committees of such waiver and changes to funding levels to programs, projects, or activities.*

(c) *Except as provided in subsections (a), (b), and (d), the amounts made available by this title for "Nuclear Regulatory Commission—Salaries and Expenses" shall be expended as directed in the explanatory statement accompanying this Act.*

As mandated by the Nuclear Waste Policy Amendments Act of 1987, the Nuclear Waste Technical Review Board (Board) evaluates the technical and scientific validity of activities undertaken by the Department of Energy (DOE) related to the management and disposition of spent nuclear fuel and high-level radioactive waste. The Board's purpose is to provide independent expert advice to DOE and Congress on technical issues and to review DOE's efforts to implement the relevant sections of the Nuclear Waste Policy Act. The Board must report its findings, conclusions, and recommendations to Congress and the Secretary of Energy.

The U.S. Office of Government Ethics (OGE), established by the Ethics in Government Act of 1978, provides overall leadership and oversight of the Executive Branch ethics program designed to prevent and resolve conflicts of interest. OGE's mission is part of the very foundation of public service. The first principle in the Fourteen Principles of Ethical Conduct for Government Officers and Employees provides that, "[p]ublic service is a public trust, requiring employees to place loyalty to the Constitution, the laws and ethical principles above private gain." OGE undertakes this important prevention mission as part of a framework comprising Executive Branch agencies and entities whose work focuses on institutional integrity. Within this framework, the ethics program works to ensure that public servants carry out the governmental responsibilities entrusted to them with impartiality, and that they serve as good stewards of public resources.

To carry out its vital leadership and oversight responsibilities for the Executive Branch ethics program, OGE promulgates, maintains, and advises on enforceable standards of ethical conduct for more than 2.7 million employees in over 140 Executive Branch agencies, including the White House; offers education and training to the more than 5,000 ethics officials Executive Branch-wide; oversees a financial disclosure system that reaches more than 26,000 public and more than 380,000 confidential financial disclosure report filers; operates and maintains *Integrity*, a public financial disclosure management application required by the Representative Louise McIntosh Slaughter Stop Trading on Congressional Knowledge (STOCK) Act; monitors Executive Branch agency ethics programs and senior leaders' compliance with applicable ethics laws and regulations; prepares for presidential transitions and provides assistance to the President and Senate in the presidential appointments process; conducts outreach to the general public, the private sector, and non-governmental organizations; and makes ethics documents publicly available.

The Office of Special Counsel (OSC): 1) investigates Federal employee and applicant allegations of prohibited personnel practices (including reprisal for whistleblowing), and other activities prohibited by civil service law and, when appropriate, prosecutes before the Merit Systems Protection Board; 2) provides a safe channel for whistleblowing by Federal employees and applicants; 3) investigates and enforces the Uniformed Services Employment and Reemployment Rights Act (USERRA); and, 4) advises on and enforces civil provisions of the Hatch Act. OSC may transmit whistleblower allegations to the agency head concerned and require an agency investigation. OSC submits the agency's investigative report to the President and the Congress when appropriate.

OSC received 4,611 new cases in fiscal year (FY) 2023. While this is well below the average number of new cases received annually (over 5,900) in the five years prior to pandemic (FY 2015–FY 2019), it is approximately 21 percent above the average number of cases received during the pandemic (FY 2020–FY 2022). OSC expects this upward trend to continue in FY 2024 and FY 2025, in addition to the record number of favorable outcomes achieved across multiple programmatic units in recent years.

Specifically, OSC achieved 418 favorable actions on prohibited personnel practice cases, the second highest in agency history, and 13 percent above the prior five-year average. OSC also resolved 277 Hatch Act cases, which is 19 percent below the prior two-year average. In addition, OSC issued 41 warning letters and successfully obtained three disciplinary actions against agency officials who committed Hatch Act violations. OSC also assisted 14 service members in asserting their employment and reemployment rights.

Of the 4,611 cases OSC received in FY 2023, 1,237 were new disclosures. This is approximately 13 percent above the average number of new disclosures received from FY 2019 to FY 2022. OSC processed and closed 1,285 disclosures, and referred 70 disclosures of waste, fraud, and abuse to agency heads for investigation. During the last several years, OSC has received numerous whistleblower disclosures from employees at the Department of Veterans Affairs (VA). OSC's work with VA whistleblowers has been featured in the media, and has helped promote accountability and improvements within the VA. OSC continues to receive a disproportionately large number of cases from VA employees and, to address this, has established a streamlined system of managing those cases which includes a monthly status call with the agency regarding pending investigations. Further, OSC continued to use enhanced methods to more efficiently resolve cases through its Alternative Dispute Resolution (ADR) program by completing 26 case mediations in FY 2023.

OSC conducts outreach and education activities on its programmatic areas to inform and train agencies to prevent prohibited personnel practices, whistleblower reprisals, and Hatch Act and USERRA violations, and encourage reporting of claims of waste, fraud, and abuse. In FY 2023, OSC conducted 335 outreach activities throughout the Federal Government, nearly tripling the number from FY 2022.

Case Type:	Cases Received 2023	Cases Resolved 2023
Prohibited personnel practice complaints	3,101	2,879
Hatch Act complaints	263	277

Whistleblower Disclosures	1,237	1,285
USERRA cases	10	14
Totals	4,611	4,455

Just as OSC witnessed in FY 2023, the agency projects case intake levels to increase closer to pre-pandemic levels in FY 2024 and FY 2025. This is anticipated given some of the significant results that the agency has achieved for the American taxpayer in recent years, which has garnered increased media exposure.

Overall, the requested funding for FY 2025 will enable OSC to meet current demands for OSC's services, protect whistleblowers in the VA and other agencies, protect the employment rights of returning service members, and protect the Federal merit system from prohibited personnel and partisan political practices.

Public Law 116–94 authorized the extension of the Patient-Centered Outcomes Research Trust Fund (PCORTF) to receive amounts from general fund appropriations, fees on health insurance and self-insured plans, and interest earned on investments. Amounts appropriated or credited to the PCORTF are available to the Patient-Centered Outcomes Research Institute and the Secretary of Health and Human Services for carrying out part D of Title XI of the Social Security Act and section 937 of the Public Health Service Act, respectively. The PCORTF terminates at the end of FY 2029.

The Budget proposes legislation to provide \$31,700,000 annually for service to the Freely Associated States pursuant to renewed Compacts of Free Association (COFA), subject to ratification, starting in 2024. The Budget also proposes legislation to provide a total of \$493,799,000 for Payment to the Postal Service for past financial losses on mandated services, including \$157,575,000 to reimburse USPS for shortfalls not reimbursed for service to the Freely Associated States pursuant to the current Compacts of Free Association and \$336,224,000 for amounts authorized under the Revenue Forgone Reform Act of 1993 but not appropriated or made available to the Postal Service. The Administration looks forward to working with the Congress to maintain and expand the public services that the Postal Service provides to the American people.

The Postal Reorganization Act of 1970, Public Law 91–375, converted the Post Office Department into the U.S. Postal Service, an independent establishment within the Executive Branch. This legislation reorganized the Postal Service to function in a businesslike manner, though Section 2401 authorized annual appropriations to reimburse the Postal Service for public service costs incurred and for revenue forgone when providing services for free or at reduced rates to groups such as the blind, non-profit organizations, local newspapers, military and overseas voters, and publishers of educational material. The Postal Service commenced operations July 1, 1971. The Agency is charged with providing patrons with reliable mail service at reasonable rates and fees.

The Postal Service is governed by an 11-member Board of Governors, including nine Governors appointed by the President, a Postmaster General who is selected by the Governors, and a Deputy Postmaster General who is selected by the Governors and the Postmaster General.

The activities of the Postal Service are financed from: (1) mail and services revenue; (2) reimbursements from Federal and non-Federal sources; (3) proceeds from borrowing; (4) interest

POSTAL SERVICE FUND—Continued

from U.S. treasury securities and other investments; and (5) appropriations by the Congress. All receipts and deposits are made to the Fund and are available without fiscal year limitation for payment of all expenses incurred, retirement of obligations, investment in capital assets, and investment in obligations and securities. Since 1971, there have been several reforms. Notably, the Omnibus Budget Reconciliation Act of 1989 moved the Postal Service "off-budget" so that, beginning in 1990, the receipts and disbursements of the Fund are not considered as part of the congressional and executive budget process. Annual appropriations to the Postal Service are recorded on-budget in the Payment to the Postal Service Fund. Payments owed by the Postal Service to Office of Personnel Management (OPM) managed accounts are recorded "on budget" in those accounts.

The Revenue Forgone Reform Act of 1993 (Public Law 103–123) amended Section 2401 of the Postal Reorganization Act and replaced the indefinite authorization of appropriations to support reduced rates for non-profits with an authorization of annual appropriations of \$29 million each year from 1994 through 2035. This amount was estimated to compensate for insufficient appropriations for fiscal years 1991 through 1993 and for revenue losses from mandated reductions to postage rates to non-profits through 1998. From 1994 to 2016, the Postal Service received \$562 million in total appropriations under Public Law 103–123. No additional appropriations for this purpose have been enacted since that time (see the Payment to the Postal Service Fund account for additional information on the Budget request for revenue forgone). The Postal Service has continued to receive annual appropriations to reimburse it for free postage for the blind and overseas absentee balloting materials pursuant to Public Law 91–375.

The 2006 Postal Accountability and Enhancement Act (P.L. 109–435) or PAEA made a number of changes affecting the operations and oversight of the Postal Service. The Act provided for separate accounting and reporting for market-dominant products such as First-Class Mail and competitive products such as package delivery. The Act also amended the process for determining rate increases for market-dominant products, in part by imposing a ten-year limit on rate increases linked to the Consumer Price Index for All Urban Consumers (CPI-U). In 2017, the Postal Regulatory Commission announced proposed changes to the rate structure including increases above the cap of the CPI-U. In November 2020, the Postal Regulatory Commission adopted final rules to give the Postal Service greater flexibility in establishing prices for Market Dominant mail products, and in August 2021, the first postage rates using this new market-dominant price flexibility took effect.

PAEA also created the Postal Service Retiree Health Benefits (RHB) Fund, intended to place the Postal Service on a path to fully fund retiree (annuitant) health benefits liabilities. This Fund was to receive from the Postal Service: (1) the pension savings provided to the Postal Service by the Postal Civil Service Retirement System Funding Reform Act of 2003 (P.L. 108–18) that were held in escrow during 2006; (2) a 10-year stream of payments defined within P.L. 109–435 to begin the liquidation of the Postal Service's unfunded liability for post-retirement health benefits; (3) beginning in 2017, payments for the actuarial cost of Postal Service contributions for the post-retirement health benefits for its current employees; (4) beginning in 2017, a 40-year amortization payment to fund any remaining unfunded liabilities associated with post-retirement health benefits of Postal Service employees; and (5) the surplus resources of the Civil Service Retirement and Disability Fund that are not needed to finance future retirement benefits under the Civil Service Retirement System (CSRS) to current or former employees of the Postal Service that are attributable to civilian employment with the Postal Service. After passage in 2006, the Postal Service contributed \$38 billion to the Fund but failed to make required payments each year from FY 2012 through FY 2021, thus steadily increasing the size of the unfunded liability.

P.L. 109–435 also required the Postal Service to begin a 27-year amortization to retire its unfunded liability under the CSRS in 2017. However, the Postal Service has never paid these amortization payments for its unfunded liability to the CSRS. From 2014 through 2021, the Postal Service also failed to make amortization payments related to unfunded liabilities under the Federal Employees Retirement System (FERS). In 2022 and 2023, the Postal Service made partial FERS amortization payments of \$500 million and \$600 million respectively, \$2.7 billion less in total than the payments due for those years. In total, as of September 30, 2023, the Postal Service reported \$22.6 billion in outstanding amounts due to the Office of Personnel Management (OPM) related to CSRS and FERS. In light of the Postal Service's improving financial position, the Budget assumes that the Postal Service will make the annual FERS amortization payments in full beginning in 2025, with a partial payment of \$1 billion being made in 2024. However, the Budget reflects continued default on amortization of the unfunded liability to the CSRS.

The Postal Service Reform Act of 2022 (P.L. 117–108) eliminated the requirement established by PAEA for the Postal Service to begin making payments in 2017 for the actuarial cost of Postal Service contributions for post-retirement benefits of current employees, including any payments owed prior to that date. The PSRA also codified use of the RHB Fund to meet retirement and health care-related operating costs of the Postal Service, among other changes. A new payment mandated by the PSRA, based on the difference between government contributions to be paid from the RHB fund and the net claims costs of individuals provided coverage from the fund, will begin in 2026.

As amended by P.L. 109–435, the Postal Service has statutory borrowing from the Federal Financing Bank (FFB) authority capped at \$15 billion with the annual increase in outstanding debt limited to \$3 billion. As of September 30, 2023, the total debt outstanding to the FFB was \$13.0 billion. Section 6001 of the Coronavirus Aid, Relief and Economic Security (CARES) Act of 2020, P.L. 116–136, provided an additional \$10 billion in borrowing authority to be used exclusively for COVID-19 related operating expenses. Pursuant to Section 801 of the Consolidated Appropriations Act of 2021, P.L. 116–260, no repayment is required for amounts borrowed under the CARES Act.

The U.S. Postal Service Office of Inspector General (USPS OIG) is an independent organization charged with reporting to Congress on the overall efficiency, effectiveness, and economy of Postal Service programs and operations. The USPS OIG meets this responsibility by conducting audits, investigations, and other reviews. The USPS OIG focuses on the prevention, identification, and elimination of: (1) waste, fraud, and abuse; (2) violations of laws, rules, and regulations; and (3) inefficiencies in Postal Service programs and operations.

The Budget proposes \$293,950,000 for USPS OIG's operations.

Pursuant to P.L. 109-435, the 2025 appropriation request of the USPS OIG is \$293,950,000.

Section 603(b)(1) of P.L. 109-435 (Postal Accountability and Enhancement Act) authorizes appropriations for the USPS OIG out of the off-budget Postal Service Fund beginning in 2009. The authorization resulted in the reclassification of USPS OIG spending from off-budget mandatory to off-budget discretionary.

The Intelligence Reform and Terrorism Prevention Act of 2004 (IRTPA) created the Privacy and Civil Liberties Oversight Board (PCLOB). The IRTPA originally placed the Board within the Executive Office of the President. The Implementing Recommendations of the 9/11 Commission Act of 2007 reconstituted the Board as an independent oversight agency within the Executive Branch. All five members of the Board are nominated by the President and confirmed by the Senate for staggered six-year terms. The Board has two main responsibilities: 1) to analyze and review actions the executive branch takes to protect the United States from terrorism, ensuring that the need for such actions is balanced with the need to protect privacy and civil liberties; and 2) to ensure that liberty concerns are appropriately considered in the development and implementation of laws, regulations, and policies related to efforts to protect the Nation against terrorism. The Board is required to report semi-annually on its operations to the U.S. Congress, as well as inform the public of its activities, as appropriate.

The Public Defender Service for the District of Columbia (PDS) is a federally funded, independent organization governed by an eleven-member Board of Trustees. PDS was created in 1970 by a Federal statute (P.L. 91-358; see also D.C. Code Sec. 2-1601, et seq.) to fulfill the constitutional mandate (under *Gideon v. Wainwright*) to provide criminal defense counsel for individuals who cannot afford to hire a lawyer. PDS's mission is to provide and promote quality legal representation for indigent adults and children facing a loss of liberty in the District of Columbia justice system and thereby protect society's interest in the fair administration of justice. PDS specializes in representation in the most complex and resource-intensive criminal and de-

The Puerto Rico Oversight, Management, and Economic Stability Act (P.L. 114-187) created an oversight board that is not a department, agency, establishment, or instrumentality of the Federal Government but is an entity within the territorial government, which is not subject to the supervision or control of any Federal agency. See 42 U.S.C. 2121(c). Although the Board's financing is derived entirely from the territorial government, the flow of funds from the territory to the Board is mandated by Federal law. Because Federal law prescribes the flow of funds to the Board, the Budget reflects the allocation of resources by the territorial government to the new territorial entity with a net zero Federal deficit impact, consistent with long-standing budgetary concepts. Because the Board itself is not a Federal entity, its operations will not be included in the Federal Government's Budget. Data are presented here on a Puerto Rico fiscal year basis (July 1 to June 30).

All railroad retirees receive the equivalent of a Social Security benefit, and they may also receive other add-ons including rail industry pension payments, windfall payments, and supplemental annuities. Social Security benefits for former railroad employees are funded by the Social Security trust funds, and rail industry pension payments are the responsibility of the rail sector.

Under current law, a financial interchange occurs once each year between the Social Security trust funds and the Social Security Equivalent Benefit (SSEB) account. SSEB receives monthly advances from the general fund equal to an estimate of the transfer SSEB would have received for the previous month if the financial interchange transfers were on a monthly basis. Advances from the previous year are repaid annually to the general fund immediately after the financial interchange is received. In 2023, \$5,074 million was advanced and \$4,865 million was repaid.

SECURITIES AND EXCHANGE COMMISSION**Federal Funds****SALARIES AND EXPENSES**

For necessary expenses for the Securities and Exchange Commission, including services as authorized by 5 U.S.C. 3109, the rental of space (to include multiple year leases) in the District of Columbia and elsewhere, and not to exceed \$3,500 for official reception and representation expenses, \$2,594,000,000, to remain available until expended; of which not less than \$21,975,000 shall be for the Office of Inspector General; of which not to exceed \$275,000 shall be available for a permanent secretariat for the International Organization of Securities Commissions; and of which not to exceed \$100,000 shall be available for expenses for consultations and meetings hosted by the Commission with foreign governmental and other regulatory officials, members of their delegations and staffs to exchange views concerning securities matters, such expenses to include necessary logistic and administrative expenses and the expenses of Commission staff and foreign invitees in attendance including: (1) incidental expenses such as meals; (2) travel and transportation; and (3) related lodging or subsistence.

In addition to the foregoing appropriation, for move, replication, and related costs associated with replacement leases for the Commission's office facilities, not to exceed \$8,400,000, to remain available until expended: Provided, That any unobligated balances from funds made available under this heading in prior Acts for replacement leases for the Commission's headquarters and other regional office facilities may be used for such purposes at any Commission office facility, notwithstanding provisos in such Acts limiting use to particular office facilities, and notwithstanding provisos in such Acts requiring that de-obligated amounts derived from the general fund be returned to the general fund or that de-obligated amounts derived from fees or assessments be paid to national securities exchanges and national securities associations in proportion to any fees or assessments paid by such national securities exchange or national securities association.

For purposes of calculating the fee rate under section 31(j) of the Securities Exchange Act of 1934 (15 U.S.C. 78ee(j)) for fiscal year 2025, all amounts appropriated under this heading shall be deemed to be the regular appropriation to the Commission for fiscal year 2025: Provided, That fees and charges authorized by section 31 of the Securities Exchange Act of 1934 (15 U.S.C. 78ee) shall be credited to this account as offsetting collections: Provided further, That not to exceed \$2,594,000,000 of such offsetting collections shall be available until expended for necessary expenses of this account and not to exceed \$8,400,000 of such offsetting collections shall be available until expended for move, replication, and related costs under this heading associated with replacement leases for the Commission's office facilities: Provided further, That the total amount appropriated under this heading from the general fund for fiscal year 2025 shall be reduced as such offsetting fees are received so as to result in a final total fiscal year 2025 appropriation from the general fund estimated at not more than \$0.

Note.—A full-year 2024 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2024 and Other Extensions Act (Division A of Public Law 118–15, as amended). The amounts included for 2024 reflect the annualized level provided by the continuing resolution.

The mission of the Securities and Exchange Commission (SEC) is to: protect investors; maintain fair, orderly, and efficient markets; and facilitate capital formation. The SEC's six major programs include the following:

Enforcement.—The Division of Enforcement investigates and prosecutes civil violations of the Federal securities laws and works closely with the Department of Justice and other law enforcement partners to coordinate and assist in criminal prosecutions.

Examinations.—The Division of Examinations conducts the SEC's examination program to detect violations of the Federal securities laws and evaluate internal compliance controls at securities firms registered with the SEC.

Corporation Finance.—The Division of Corporation Finance selectively reviews company disclosures to ensure that investors have the information necessary to make informed investment decisions and to help deter fraud and misrepresentation in securities transactions.

Trading and Markets.—The Division of Trading and Markets' (TM) mission is to establish and maintain standards for fair, orderly, and efficient markets while fostering investor protection and confidence in the markets. TM oversees the activities of industry self-regulatory organizations, such as the Financial Industry Regulatory Authority, and directly regulates market participants where Commission rulemaking is more effective than self-regulation.

Investment Management.—The Division of Investment Management works to protect investors, promote informed investment decision making, and facilitate appropriate innovation in investment products and services through regulation of the asset management industry.

Economic and Risk Analysis.—The Division of Economic and Risk Analysis integrates financial economics and rigorous data analytics into the core mission of the SEC.

Additional program offices directly support the major programs: the Office of International Affairs, the Office of the Chief Accountant, the Office of Credit Ratings, the Office of Investor Education and Advocacy, the Office of the Investor Advocate, the Office of Administrative Law Judges, the Office of the Advocate for Small Business Capital Formation, the Office of Municipal Securities, and the Strategic Hub for Innovation and Financial Technology.

The SEC is funded through offsetting fees and assessments collected pursuant to section 31 of the Securities Exchange Act of 1934 (15 U.S.C. 78ee) at a rate intended to fully offset the SEC's appropriation.

In addition to amounts requested for operations, the Budget proposes an amount for move, replication, and related costs associated with replacement leases for the Commission's office facilities to remain until expended.

Section 991 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (P.L. 111–203) (the Dodd-Frank Act) amended section 4 of the Securities Exchange Act of 1934 (15 U.S.C. 78d) to establish the Securities and Exchange Commission Reserve Fund. The Reserve Fund is a separate fund in the Treasury from which the Commission may obligate amounts determined necessary to carry out Commission functions. The Reserve Fund provisions took effect on October 1, 2011.

The Reserve Fund is funded by deposits from registration fees collected by the Commission under section 6(b) of the Securities Act of 1933 (15 U.S.C. 77f(b)) and section 24(f) of the Investment Company Act of 1940 (15 U.S.C. 80a–24(f)). In any one fiscal year, the amount deposited in the Reserve Fund may not exceed \$50 million and obligations from the Reserve Fund may not exceed \$100 million. The balance in the Reserve Fund may not exceed \$100 million. Amounts in the Reserve Fund are available until expended. (The remainder of registration fee collections for each fiscal year are deposited in the general fund of the Treasury and are not available for obligation by the Commission.)

Amounts collected and deposited in the Reserve Fund are not subject to appropriation or apportionment. However, the Commission is required to notify the Congress of the amount and purpose of any obligations made utilizing amounts from the Reserve Fund within 10 days.

As part of the Dodd-Frank Wall Street Reform and Consumer Protection Act (P.L. 111-203) (the Dodd-Frank Act), the Congress substantially expanded the Securities and Exchange Commission's (SEC or Commission) authority to pay whistleblower awards and enhanced the anti-retaliation protections available to whistleblowers. The intent is to incentivize submission of high-quality tips by motivating persons with knowledge of possible securities laws violations to assist the Federal Government in identifying and prosecuting individuals who violate the Federal securities laws.

To comply with direction provided in the Dodd-Frank Act, the SEC's Division of Enforcement established an Office of the Whistleblower to administer and enforce the whistleblower award program. The Investor Protection Fund (the Fund), established by the Dodd-Frank Act, provides resources for payments to whistleblowers and for the SEC's Office of the Inspector General Employee Suggestion Program. Deposits into the Fund are comprised of a portion of monetary sanctions collected by the SEC in judicial or administrative actions brought by the Commission under the Federal securities laws that are not added to a disgorgement fund or other fund under section 308 of the Sarbanes-Oxley Act of 2002 (P.L. 107-204), as well as amounts in such funds that will not be distributed to injured investors. No sanction collected by the Commission can be deposited into the Fund if the balance at the time the sanction is collected exceeds \$300 million. No funds have been taken or withheld from harmed investors to pay whistleblower awards. The Commission is required to submit an annual report on the whistleblower award program to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Financial Services of the House of Representatives.

The figures reported for 2024 and 2025 are based on assumptions regarding several variables inherent to litigation and to the Commission's whistleblower award process. Given the potential for significant variation in the payouts and their timing, it is possible that actual payouts will be either significantly higher or significantly lower than these estimates.

SMITHSONIAN INSTITUTION**Federal Funds****SALARIES AND EXPENSES**

For necessary expenses of the Smithsonian Institution, as authorized by law, including research in the fields of art, science, and history; development, preservation, and documentation of the National Collections; presentation of public exhibits and performances; collection, preparation, dissemination, and exchange of information and publications; conduct of education, training, and museum assistance programs; maintenance, alteration, operation, lease agreements of no more than 30 years, and protection of buildings, facilities, and approaches; not to exceed \$100,000 for services as authorized by 5 U.S.C. 3109; and purchase, rental, repair, and cleaning of uniforms for employees, \$960,200,000, to remain available until September 30, 2026, except as otherwise provided herein; of which not to exceed \$27,225,000 for the instrumentation program, collections acquisition, exhibition reinstallation, Smithsonian American Women's History Museum, National Museum of the American Latino, and the repatriation of skeletal remains program shall remain available until expended; and including such funds as may be necessary to support American overseas research centers: Provided, That funds appropriated herein are available for advance payments to independent contractors performing research services or participating in official Smithsonian presentations: Provided further, That the Smithsonian Institution may expend Federal appropriations designated in this Act for lease or rent payments, as rent payable to the Smithsonian Institution, and such rent payments may be deposited into the general trust funds of the Institution to be available as trust funds for expenses associated with the purchase of a portion of the building at 600 Maryland Avenue, SW, Washington, DC, to the extent that federally supported activities will be housed there: Provided further, That the use of such amounts in the general trust funds of the Institution for such purpose shall not be construed as Federal debt service for, a Federal guarantee of, a transfer of risk to, or an obligation of the Federal Government: Provided further, That no appropriated funds may be used directly to service debt which is incurred to finance the costs of acquiring a portion of the building at 600 Maryland Avenue, SW, Washington, DC, or of planning, designing, and constructing improvements to such building: Provided further, That any agreement entered into by the Smithsonian Institution for the sale of its ownership interest, or any portion thereof, in such building so acquired may not take effect until the expiration of a 30 day period which begins on the date on which the Secretary of the Smithsonian submits to the Committees on Appropriations of the House of Representatives and Senate, the Committees on House Administration and Transportation and Infrastructure of the House of Representatives, and the Committee on Rules and Administration of the Senate a report, as outlined in the explanatory statement described in section 4 of the Further Consolidated Appropriations Act, 2020 (Public Law 116-94; 133 Stat. 2536) on the intended sale.

Note.—A full-year 2024 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2024 and Other Extensions Act (Division A of Public Law 118-15, as amended). The Smithsonian Institution conducts research in natural and physical sciences, history and the history of cultures, technology and the arts. The Institution acquires and preserves more than 157 million items of scientific, cultural, and historic importance for reference and study purposes. These resources may be accessed by millions of visitors and researchers worldwide either in person, or increasingly online. Smithsonian's public exhibitions delve into subjects from aeronautics to zoology.

The Institution operates 19 museums and galleries, a zoological park and animal conservation and research center, research facilities, and supporting facilities. The Institution is in early planning stages for two additional museums established by Congress in December 2020.

Included in the presentation of the Salaries and Expenses account are data for the Canal Zone biological area fund. Donations, subscriptions, and fees are appropriated and used to defray part of the expenses of maintaining and operating the Canal Zone biological area (60 Stat. 1101; 20 U.S.C. 79, 79a).

The Budget provides \$20 million for the Southeast Crescent Regional Commission (SCRC). Authorized by P.L. 110–234, SCRC is an economic development partnership of the Federal government and seven state governments in the southeast region of the United States. SCRC serves 428 counties or county equivalents in parts of Alabama, Georgia, Mississippi, North Carolina, South Carolina, Virginia and the entire state of Florida. The mission is to provide a comprehensive approach to alleviate persistent economic distress, by assisting in coordinating efforts to implement programs and projects that drive positive outcomes targeting six strategic goals: (1) critical infrastructure, (2) health and support services access and outcomes, (3) strengthening workforce capacity, (4) fostering entrepreneurial and business development activities, (5) expanding affordable housing stock and access, and (6) promoting environmental conservation, preservation, and access. SCRC is charged with building sustainable communities and strengthening economic growth in its 210,000 square mile footprint, by providing financial investments to build communities, create jobs, and improve the lives of its 51 million residents.

The Surface Transportation Board (STB or Board) is primarily charged with the economic oversight of the nation's freight rail system. The economics of freight rail regulation impact the national transportation network and are important to our nation's economy. For this reason, Congress gave the STB sole jurisdiction over railroad rates, practices, and service. Congress also gave the STB sole jurisdiction over rail mergers and consolidations, abandonments of existing rail lines, and new rail line constructions, exempting STB-approved transactions from federal antitrust laws and state and municipal laws.^[1] The bipartisan Board was established in 1996 as the successor agency to the Interstate Commerce Commission.^[2] The Board was administratively aligned with the Department of Transportation until the enactment of the Surface Transportation Board Reauthorization Act of 2015.^[3]

While a majority of the Board's work involves freight railroads, the STB's involvement with passenger rail matters has increased. The STB also performs certain oversight of the intercity bus industry, non-energy pipelines, household goods carriers tariffs, and rate regulation of non-contiguous domestic water transportation (marine freight shipping involving the mainland United States, Hawaii, Alaska, Puerto Rico, and other U.S. territories and possessions).

2025 Program: The Board requests \$50,646,000 to carry out its mission as directed under the law. This includes a request for \$1,250,000 from offsetting collections of fees as a credit to the appropriation received, to the extent collected.

The STB's 2025 budget request would maintain current operational funding to meet its statutory responsibilities and continue meeting the needs of stakeholders and the public. The funding for personnel includes 10 additional full-time equivalents to assist in carrying out the responsibility of the Board's Office of Passenger Rail, which was formed on October 1, 2022. The Board's non-personnel budget would continue to support several information technology modernization efforts as the agency further leverages cloud-based technologies, as well as continued improvements to the Board's website, data infrastructure, and cybersecurity program. The request would continue to build out the STB's data and analytical capabilities to strengthen the Board's evidence-based decision-making and management of its data. In addition, the agency would continue its innovation and inclusiveness by strengthening and empowering its workforce to help facilitate mission-effectiveness in a hybrid work environment.

The Tennessee Valley Authority (TVA) was created in 1933 as a government-owned corporation charged with the mission to improve the quality of life in the Tennessee Valley through the integrated management of the regions resources. The TVA Act sets forth the agency's purpose: to address the Valley's most important issues in energy, environmental stewardship, and economic development. TVA is currently self-funded, financing its operations almost entirely from revenues and power system financings.

TVA's Power Program. TVA supplies electric power to an area of 80,000 square miles covering parts of the seven Tennessee Valley states, Tennessee, Alabama, Mississippi, Kentucky, Georgia, North Carolina and Virginia. Estimated income from power operations, net of interest charges, depreciation, and other operating expenses, is expected to be \$1.0 billion in 2025 on operating revenues of \$13.4 billion. Power generating facilities are financed from power revenues and power system financings. TVA's power system financings consist primarily of the sale of debt securities and secondarily of alternative forms of financing, such as lease arrangements.

TVA's Non-Power Programs. TVA operates a series of 49 dams and 47 reservoirs to reduce the risk of flooding, enable year-round navigation, supply affordable and reliable electricity, improve water quality and water supply, provide recreational opportunities, stimulate economic growth, and provide other public benefits. TVA is responsible for stewardship activities within the Tennessee Valley that include: water release regulation; maintenance of dam machinery and spillway gates; modifications on navigation locks and associated mooring facilities; improvement of water quality and supply; management of shoreline erosion; regulation of shoreline development along the Tennessee River and its tributaries; planning and management of 293,000 acres of public land; and operation of public recreation areas. These services are funded entirely by TVA's power revenues and its user fees.

Economic Development. TVA is charged with providing the people of the Tennessee Valley region greater opportunities for prosperity. To that end, TVA works to foster capital investment and job growth in the Valley in collaboration with regional, state and local organizations. In fiscal year 2023, TVA worked in partnership with communities and the business sector to spur over \$9 billion in capital investment in the Tennessee Valley region and helped with the creation of over 12,000 new jobs and retention of over 46,000 existing jobs in the Valley.

Strategic Financial Plan. In recent years, notable changes to the environment in which TVA operates have resulted in a number of operational risks emerging for the organization. Such risks include higher load growth in the Valley than previously planned, inflationary pressure, and accelerated decarbonization of the asset portfolio. As a result of these pressures, TVA's debt is projected to increase over the decade as the organization continues its asset transformation to a cleaner, more diverse fleet that can accommodate increasing loads on the system. The TVA Board approved a 4.5% base rate increase to be effective for FY 2024 and may consider future rate increases to adapt to these challenges. Following the completion of its next Integrated Resource Plan, TVA is planning to update its financial plan. TVA remains committed to providing competitive rates and reliable power for all Valley customers.

Financing. Amounts estimated to become available for TVA programs in 2025 are to be derived from operating revenues of \$13.4 billion. The outstanding balance of TVA's bonds, notes, and other evidences of indebtedness is limited by statute and cannot exceed \$30 billion. TVA's outstanding debt and debt-like obligations were \$20.5 billion at the beginning of 2024 and are estimated to be \$25.0 billion by the end of 2025. At the beginning of 2024, TVA had \$1.0 billion in debt-like obligations that was not counted against its statutory debt cap.

Pension Funding. As of September 30, 2023, the funding status of TVA employees defined benefit pension plan (TVARS) was that of an 81% funding ratio and a \$1.9 billion unfunded liability. This compares to a 77% funding ratio and \$2.4 billion unfunded liability in 2022, and a 69% funding ratio and \$4.2 billion unfunded liability in 2021. The increase in funding ratio and decrease in the unfunded liability in 2023 was driven by an increase in the liability discount rate. TVA contributed \$300 million to TVARS and incurred \$155 million in total actuarial costs in 2023. TVARS made \$748 million in payments to beneficiaries and incurred an increase of

\$0.5B, or 6.1%, on plan investments in 2023. TVA is committed to meeting its obligations to current and future retirees and has worked with the TVARS Board in recent years to implement several significant changes to ensure the long-term health of the retirement system.

Operating Results and Financial Conditions. Payments to the Treasury from power proceeds in 2025 are estimated at a \$10 million return on the appropriation investment in the power program. Total capital spending for 2025 is estimated at \$5.7 billion, which in addition to new generation capacity includes approximately \$300 million for environmental projects and \$1.4 billion to maintain TVA's existing generation assets. Total government equity at September 30, 2025, is estimated to be \$1.0 billion more than that at September 30, 2024. This change includes the estimated net income from power operations and payments to the Treasury.

Policy Initiatives. TVA's commitment to service has been demonstrated throughout its history and continues to this day. As part of TVA's ongoing commitments, the organization must continue to focus on serving the Valley in a manner which satisfies the ongoing challenges of providing clean, reliable energy at the lowest feasible rate. In line with TVA's commitment to support these challenges, in January 2023 TVA announced its Record of Decision to retire the two coal-fired units at its Cumberland Fossil Plant by the end of 2026 and 2028, respectively. Also, 2023, TVA announced the retirement of its Bull Run Fossil Plant which will aid in the transition to a cleaner portfolio. In order to support system reliability with growing energy demands and retiring coal assets, in July 2023 TVA brought online a new CT plant at Colbert, AL. TVA will continue to invest in its assets in order to support system reliability. TVA remains committed to serving the Valley and supporting the following initiatives: being a leader in carbon-free energy, continuing to invest in TVA's increasingly clean and diverse energy portfolio, being a leader in innovation and decarbonization solutions, serving Valley communities, promoting inclusion with diversity, and operating with financial strength and stability.

The United States Court of Appeals for Veterans Claims (Court) is a national court of record established by the Veterans Judicial Review Act (Public Law 100-687), Division A (1988) (Act). The Act, as amended, is codified in part at 38 U.S.C. 7251-7299. The Court is located in Washington, D.C., but as a national court may sit anywhere in the United States.

The Court is part of the Federal judicial system and has a permanent authorization for seven judges, one of whom serves as chief judge. Per Public Law 114-315, the Congress temporarily authorized expansion of the Court to nine active judges. Judges are appointed by the President, and with the advice and consent of the Senate, for 15-year terms. The Court is currently staffed with nine active judges. Upon retirement, a judge may choose to be recall eligible, and thus willing to be recalled to service by the chief judge. Currently seven of the Court's ten retired judges are recall eligible and are recalled to service on a rotational basis. Recall-eligible judges may elect full retirement at any time.

The Court has exclusive jurisdiction to review decisions made by the Department of Veterans Affairs Board of Veterans' Appeals (Board) that adversely affect a person's entitlement to Department of Veterans Affairs benefits. This judicial review, although specialized in scope, is the same as that performed by all other United States Courts of Appeals. In cases before it, the Court has the authority to decide all relevant questions of law; to interpret constitutional, statutory, and regulatory provisions; and to determine the meaning or applicability of actions/decisions by the Secretary of Veterans Affairs. The Court may affirm, set aside, reverse, or remand those decisions as appropriate. Additionally, the Court has class action authority, has jurisdiction under 28 U.S.C. 1651 to issue all writs necessary or appropriate in aid of its jurisdiction, and may act on applications under 28 U.S.C. 2412(d), the Equal Access to Justice Act. Certain decisions by the Court are reviewable by the United States Court of Appeals for the Federal Circuit and, if *certiorari* is granted, by the Supreme Court of the United States. For management, administration, and expenditure of funds in areas beyond the bounds of Chapter 72 of Title 38, the Court may exercise the authorities provided for such purposes applicable to other courts as defined in Title 28, U.S. Code.

SALARIES AND EXPENSES—Continued

In 1992, the Congress authorized the Court to transfer funds from its appropriation that year to the Legal Services Corporation (LSC), for the purpose of providing, facilitating, and furnishing legal and other assistance, through grant or contract, to veterans and others seeking recourse in the Court. That program, often referred to as the pro bono representation program, has been ongoing since that time, with LSC responsible for oversight and grant distribution responsibilities. The Appropriations Subcommittees consider LSC's budget request separately from the Court's budget request, although both are submitted together.

The United States Court of Appeals for Veterans Claims Retirement Fund (Retirement Fund or Fund), established under 38 U.S.C. 7298, is used for judges' retired pay and for annuities, refunds, and allowances provided to surviving spouses and dependent children. Participating judges pay 1-percent of their salaries to cover creditable service for retired pay purposes and 2.2-percent of their salaries for survivor annuity purposes. Additional funds needed to cover the unfunded liability may be transferred to the Retirement Fund from the Court's annual appropriation. The Court's contribution to the Fund is estimated annually by an actuarial firm retained by the Court. The Fund is invested solely in government securities.

The Vietnam Education Foundation Act of 2000 (Title II of Public Law 106–554) created the Vietnam Education Foundation (VEF) to administer an international fellowship program under which Vietnamese nationals can undertake graduate and post-graduate level studies in the United States in the sciences (natural, physical, and environmental), mathematics, medicine, and technology, and American citizens can teach in these fields in appropriate Vietnamese institutions of higher education. The Act also authorized the establishment of the Vietnam Debt Repayment Fund, in which all payments (including interest payments) made by the Socialist Republic of Vietnam under the United States-Vietnam debt agreement shall be deposited as offsetting receipts. Beginning in 2002, and in each subsequent year through 2018, \$5 million of the amounts deposited into the fund from USDA and USAID shall be available to VEF for operations and fellowship programs. Beginning in 2015, and in each subsequent year through 2018, the remaining amounts deposited into the fund from USDA and USAID shall be available to support the establishment of an independent, not-for-profit academic institution in the Socialist Republic of Vietnam.

FEDERALLY CREATED NON-FEDERAL ENTITIES

FEDERALLY CREATED NON-FEDERAL ENTITIES

The majority of budgetary accounts are associated with departments or other entities that are clearly Federal agencies. In other cases, budgetary accounts reflect a measure of Governmental activity in the economy, though the activity may have no direct relationship with the United States Treasury. Federally created non-Federal entities may be in the Budget because they were created by Federal law, they have some measure of regulatory or other authority conferred to them by law, or because they serve a public good directed by the Government. The following accounts are each deemed to be budgetary and fulfill the goal of presenting a Budget that is comprehensive of the full range of Federal activities.

The Affordable Housing Program was created by the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA). FIRREA requires each of the Federal Home Loan Banks to contribute 10-percent of its previous year's net earnings to an Affordable Housing Program (AHP) to be used to subsidize the cost of affordable homeownership and rental housing. The Federal Housing Finance Agency (FHFA) regulates the AHP and ensures that the AHP fulfills its mission.

Each Federal Home Loan Bank uses its AHP funding to support rental and owner-occupied housing projects for very low-income and low- or moderate-income households. The Budget proposes to double the statutory Affordable Housing Program (AHP) contribution requirement from 10 percent of annual net income to 20 percent. Such a change could enable the support of approximately 38,000 additional low- or moderate-income households per year.

The Corporation for Travel Promotion (also known as Brand USA) was established by the Travel Promotion Act of 2009 to lead the nation's first global marketing effort to promote the United States as a premier travel destination and to communicate U.S. entry/exit policies and procedures. The public-private partnership, funded through a combination of private sector contributions and Federal matching funds, works closely with the travel industry to encourage increased travel and tourism in the United States.

A surcharge to the Electronic System for Travel Authorization (ESTA) fee that travelers from visa waiver countries pay before arriving in the United States provides Brand USA's Federal matching funds. Authorization to collect the surcharge under the Travel Promotion Act was set to expire September 30, 2020, but was extended to September 30, 2027, in the Brand USA Extension Act (part of the Further Consolidated Appropriations Act, 2020).

The Energy Policy Act of 2005 (P.L. 109–58) authorizes the Federal Energy Regulatory Commission (FERC) to certify an Electric Reliability Organization (ERO) to establish and enforce reliability standards for the electric bulk-power system. These standards include requirements for operating existing bulk-power system facilities, including cybersecurity protection, and design of planned additions or modifications to these facilities to provide for reliable operation, but does not include requirements to construct new transmission or generation capacity. On July 20, 2006, FERC certified the North American Electric Reliability Corporation as the ERO. ERO is funded by fees on end users of the bulk-power system. Since the ERO does not report budget data to Treasury, ERO funding is based on estimates.

The Federal Retirement Thrift Investment Board is responsible for managing the Thrift Savings Fund. Program administration for the Fund is financed from the Fund. Program expenses are funded first from forfeitures and loan fees and then from earnings on all participant and agency contributions to the Fund.

The Thrift Savings Fund is a special tax-deferred savings fund established by the Federal Employees' Retirement System Act of 1986. Due to the fiduciary nature of the Fund, it is not included in the totals of the Federal Budget. Information on the financial status and activities of the Fund follows this account.

INFORMATION SCHEDULES FOR THE THRIFT SAVINGS FUND

The Fund is composed of individual accounts maintained by the Federal Retirement Thrift Investment Board on behalf of the individual participants in the Fund. All Federal civilian employees and members of the uniformed services are eligible to contribute to the Fund. Civilian employees covered by the Federal Employees Retirement System (or equivalent retirement systems) receive an automatic agency 1 percent contribution and matching contributions in accordance with the formulas prescribed by law. Beginning in January 2018, all new members of the uniformed services, and those members of the uniformed services with less than 12 years of service who have made an affirmative election, receive an automatic agency one percent contribution and matching contributions in accordance with the formulas prescribed by law. Employees can invest in five investment funds: a U.S. Government securities investment fund; a fixed income index investment fund; a common stock index investment fund; a small capitalization stock index investment fund; an international stock index investment fund; or in ten life-cycle funds. These funds are composed of varying allocations of the five core investment funds. The allocations are based on the target maturity date of each fund. Beginning June 1, 2022, participants who meet certain criteria also have the option of using a mutual fund window to invest in roughly 4,600 commercially available mutual funds.

The estimated status of the Fund is shown below:

The National Oilheat Research Alliance (NORA) was first authorized by The National Oilheat Research Alliance Act of 2000, as amended in 2014 (P.L. 113-79), and reauthorized by the Agriculture Improvement Act of 2018 (P.L. 115-334) to develop programs and projects and enter into contracts or other agreements to enhance consumer and employee safety and training; to provide for research, development, and demonstration of clean and efficient oilheat fuel utilization equipment; and to educate consumers. NORA is funded via statutorily-mandated fees of \$0.002 on every gallon of heating oil sold, collected at the wholesale level. Since NORA does not report budget data to Treasury, NORA funding is based on estimates.

Note: Because the Public Company Accounting Oversight Board (PCAOB) does not report budgetary data to Treasury, amounts shown above were derived from the PCAOB's financial data, which is based on a calendar year.

The Sarbanes-Oxley Act of 2002 (the Act) (P.L. 107–204), as amended by the Dodd-Frank Wall Street Reform and Consumer Protection Act (P.L. 111–203), established the PCAOB to oversee the audits and auditors of both public companies that are subject to Federal securities laws and broker-dealers registered with the Securities and Exchange Commission (SEC) in order to protect the interests of investors and further the public interest in the preparation of informative, accurate, and independent audit reports.

Funding for the PCAOB comes from registration and annual fees paid by public accounting firms and accounting support fees paid by public companies and SEC-registered broker-dealers. The Act designated the Commission to oversee the PCAOB and specifies that the PCAOB's budget and the accounting support fee be subject to approval by the Commission.

Note: Because the Securities Investor Protection Corporation (SIPC) does not report budgetary data to Treasury, amounts shown above were derived from SIPC's financial data, which is based on a calendar year. Earnings on investments are presented for all three years using an unamortized cost rather than the market value, to comply with OMB Circular A-11 requirements.

SIPC was created by the Securities Investor Protection Act of 1970 (SIPA). Its purpose is to protect customers against loss resulting from broker-dealer failure and, thereby, promote investor confidence in the Nation's securities markets. SIPC is a non-profit membership corporation. Its members are, with some exceptions, all persons registered as brokers or dealers under section 15(b) of the Securities Exchange Act of 1934 and all persons who are members of a national securities exchange. SIPC's funding is derived entirely from assessments on its membership and from interest earned on its investments in U.S. Government securities.

SIPC may borrow up to \$2.5 billion from the U.S. Department of the Treasury, through the Securities and Exchange Commission, in the event that the fund maintained by SIPC is insufficient to satisfy the claims of customers of brokerage firms in SIPA liquidation or for other purposes under the Act. SIPC has not accessed these loans to date and the Budget does not project that SIPC will require use of these loans over the next 10 years.

The Financial Accounting Standards Board (FASB) is an independent, private-sector organization organized in 1973 within the Financial Accounting Foundation (FAF), which is an independent, private-sector, not-for-profit corporation. The FASB consists of a seven-member board, whose members are appointed by the FAF. The FASB was originally designated by the Securities and Exchange Commission (Commission) as the authoritative standard setter for purposes of the Federal securities laws in 1973. In April 2003, the Commission reaffirmed the status of the FASB as a designated private-sector standard setting body pursuant to the Sarbanes-Oxley Act of 2002 (the Act) (P.L. 107–204), stating that the FASB's financial accounting and reporting standards are recognized as "generally accepted" for purposes of the Federal securities laws.

The Act authorizes funding for the standard setting body to be derived from an accounting support fee assessed on public companies, although the FAF has, on a voluntary basis, partially offset the fees that could be assessed pursuant to the Act by payments derived from publication sales and licensing fees. Prior to the Act, the FASB was funded by voluntary contributions from public companies, public accounting firms, and other stakeholders. The standard setting body's accounting support fee is subject to review by the Commission.

The Combined Benefit Fund was established by the Coal Industry Retiree Health Benefit Act of 1992 to take over paying for medical care of retired miners and their dependents who were eligible for health care from the private 1950 and 1974 United Mine Workers of America Benefit Plans. The Fund's trustees represent the United Mine Workers of America and coal companies. The Fund is financed by assessments on current and former signatories to labor agreements with the United Mine Workers; past transfers from the United Mine Workers pension fund; transfers from the Abandoned Mine Land Reclamation fund; and the General Fund of the Treasury.

The 1992 Benefit Plan was established by the Coal Industry Retiree Health Benefit Act of 1992. It pays for health care for those miners who retired between July 21, 1992 and September 30, 1994, and their dependents, who are eligible for benefits under an employer plan and cease to be covered, usually because an employer is out of business. Plan trustees are appointed by the United Mine Workers of America and the Bituminous Coal Operators Association, a coal industry bargaining group. The Plan is supported by signers of the 1988 labor agreement with the United Mine Workers of America; transfers from the Abandoned Mine Land Reclamation fund; and the General Fund of the Treasury.

The 1993 Benefit Plan provides health benefits to certain retired mine workers and disabled mine workers who are not eligible for benefits under the Coal Industry Retiree Health Benefit Act of 1992 and who are not receiving benefits from employers' benefit plans. The 1993 Benefit Plan was established through collective bargaining under the National Bituminous Coal Wage Agreement of 1993. Plan trustees are appointed by the United Mine Workers of America and the Bituminous Coal Operators Association, a coal industry bargaining group. The Plan is financed by signatories to the National Bituminous Coal Wage Agreement; transfers from the Abandoned Mine Land Reclamation fund; and the General Fund of the Treasury.

The 1974 United Mine Workers of America Pension Plan provides pensions to eligible mine workers who retire, to those who become totally disabled as a result of mine accidents, and to the eligible surviving spouses of mine workers. The Bipartisan Miners Act of 2019 (Division M of Public Law 116-94), authorizes mandatory Treasury payments to the 1974 United Mine Workers of America Pension Plan, subject to certain limitations, until the Plans funded percentage reaches 100 percent.
