

FINANCING VEHICLES AND THE BOARD OF GOVERNORS OF THE FEDERAL RESERVE

This chapter contains descriptions of, and data on, financing vehicles and the Board of Governors of the Federal Reserve System (Board). The Resolution Funding Corporation provided financing for the Resolution Trust Corporation (RTC) and is subject to the general oversight and direction of the Secretary of the Treasury.

The Board's transactions are not included in the Budget because of its unique status in the conduct of monetary policy. The Board provides data on its administrative budget, which is included here for information. Its budget is not subject to review by the President and is executed and presented here on a calendar-year basis. The previous year's data reflects the final budget, as approved by the Board.

RESOLUTION FUNDING CORPORATION

The Resolution Funding Corporation (REFCORP) is a mixed-ownership Government corporation established by Title V of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 or FIRREA (P.L. 101-73). The sole purpose of REFCORP was to provide financing for the Resolution Trust Corporation (RTC). Pursuant to FIRREA, REFCORP was authorized to issue debentures, bonds, and other obligations, subject to limitations contained in the Act and regulations established by the Thrift Depositor Protection Oversight Board. The proceeds of the debt (less any discount, plus any premium, net of issuance cost) were used solely to purchase nonredeemable capital certificates of RTC or to refund any previously issued obligations.

Until October 29, 1998, REFCORP was subject to the general oversight and direction of the Thrift Depositor Protection Oversight Board. At that time, the Oversight Board was abolished and its authority and duties were transferred to the Secretary of the Treasury. The day-to-day operations of REFCORP are under the management of a three-member Directorate composed of the Chief Executive Officer of the Office of Finance of the Federal Home Loan Banks and two members selected from among the presidents of the 11 Federal Home Loan Banks (FHLBs). Members of the Directorate serve without compensation, and REFCORP is not permitted to have any paid employees.

FIRREA, as amended, and the regulations adopted by the Thrift Depositor Protection Oversight Board and the Secretary of the Treasury required that FHLBs contribute 20 percent of net earnings annually to assist in the payment of interest on bonds issued by REFCORP until such time as the total payments are equivalent to a \$300 million annual annuity with a final maturity date of April 15, 2030. The FHLBs fulfilled this obligation on August 5, 2011. Since then, with the exception of funds derived from the sale of former RTC assets managed by the Federal Deposit Insurance Corporation's Federal Savings and Loan Insurance Corporation (FSLIC) Resolution Fund, only the U.S. Treasury has paid interest on REFCORP's long-term obligations. For details, please see the Payment to the Resolution Funding Corporation account in the Department of the Treasury section of the *Appendix* volume of the Budget.

The Federal Reserve System operates under the provisions of the Federal Reserve Act of 1913, as amended, and other acts of the Congress. To carry out its responsibilities under this Act, the Board of Governors (Board) determines general monetary, credit, and operating policies for the System as a whole and formulates the rules and regulations necessary to carry out the purposes of the Act. The Board's principal duties consist of exerting an influence over credit conditions and supervising the Federal Reserve banks and member banks.

Under the provisions of section 10 of the Federal Reserve Act, the Board levies upon the Federal Reserve banks, in proportion to their capital and surplus, an assessment sufficient to pay its estimated expenses. Also under the Act, the Board determines and prescribes the manner in which its obligations are incurred and its expenses paid. Funds derived from assessments are deposited in the Federal Reserve Bank of Richmond and the Act provides that such funds "not be construed to be Government funds or appropriated moneys." No Government appropriation is required to support operations of the Board.

The Board issues U.S. currency (Federal Reserve notes) and the Reserve Banks distribute currency through depository institutions. The Board incurs costs and assesses the Reserve Banks for these costs related to producing, issuing, and retiring Federal Reserve notes, as well as providing other services. The assessment is allocated based on each Reserve Bank's share of

the number of notes comprising the System's net liability for Federal Reserve notes on December 31 of the prior year. The Board recognizes the assessment in the year in which the associated costs are incurred.

Since 2017, the Board has undertaken a greater role in the currency program, including in research and development and quality assurance. This expanded role is reflected in the reclassification of certain transactions compared to prior years. The information presented pertains to Board operations only, which includes these new programs; expenditures for the currency program costs specific to the work performed by Treasury, including production, issuance and retirement, are not included.

Section 11 of the Federal Reserve Act (as amended) directs the Board to collect assessments, fees, or other charges equal to the total expenses the Board estimates are necessary or appropriate to carry out the supervisory and regulatory responsibilities of the Board for certain bank holding companies and savings and loan holding companies and nonbank financial companies designated for Board supervision by the FSOC. As an agent, the Board does not recognize the supervision and regulation assessments

as revenue nor does the Board use the collections to fund Board expenses; the funds are transferred to the United States Treasury (Treasury).
