This appropriation funds the construction, replacement, rehabilitation, and expansion of water resources projects whose principal purpose is to provide commercial navigation, flood and storm damage reduction, or aquatic ecosystem restoration benefits to the Nation, and related efforts.

This account allocates funds on a performance basis to high-performing projects. The Budget funds those investments within the three main mission areas of the Corps civil works program—commercial navigation, flood and storm damage reduction, and aquatic ecosystem restoration—as well as related efforts that provide the best economic, environmental, and public safety returns to the Nation.

This account includes \$444 million for work under the Comprehensive Everglades Restoration Plan (CERP), which represents approximately 28 percent of the total amount in this account and approximately 6.7 percent

of the total amount in the civil works program. Funding CERP at this level would not have a significant impact on the overall civil works program in 2026. Construction account funding for CERP in future years will depend on the availability of funds, so the impact of such future funding on the overall civil works program cannot be determined at this time. Funding for the Department of the Interior (DOI) includes an additional \$0 million for work under CERP. This account also includes approximately \$2.0 million for other ecosystem restoration work by the Corps in South Florida, including the Everglades ecosystem. Funding for DOI includes \$39.3 million for such non-CERP work. The Budget for the two agencies includes a total of \$485.3 million for ecosystem restoration work in South Florida, of which \$444 million is for CERP and \$41.3 million is for non-CERP work (P.L. 106–541 section 601).

This appropriation also funds the Corps continuing authorities programs, which involve the planning, design, and construction of smaller projects that do not require specific authorizing legislation.

This revolving fund provides for the acquisition, operation, and maintenance of plant and equipment used by the civil works program and for temporary financing of services chargeable to the civil works program. The fund also initially finances Corps district office operating expenses, which the districts later reimburse with project-specific funds. In addition, payments are made into the fund when other agencies or entities use plant and equipment acquired by the fund.

The Harbor Maintenance Trust Fund is authorized under the Harbor Maintenance Revenue Act of 1986 (P.L. 99-662, Title XIV), as amended. Under current law, revenue is derived from a 0.125 percent ad valorem tax imposed upon commercial users of specified U.S. ports, Saint Lawrence Seaway tolls, and investment interest. The Budget proposes to execute these appropriations within the Harbor Maintenance Trust Fund rather than to transfer and execute them in the Construction, Operation and Maintenance, and Mississippi River and Tributaries accounts.

The Harbor Maintenance Revenue Act authorizes expenditures from this fund to finance up to 100 percent of eligible Corps harbor operation and maintenance costs, including the operation and maintenance of Great Lakes navigation projects. The fund fully finances eligible operation and maintenance costs of the Saint Lawrence Seaway Development Corporation. The Water Resources Development Act of 1996 (P.L. 104-303, section 201) authorizes the fund to pay the Federal share of the costs for the construction of dredged material disposal facilities that are necessary for the operation and maintenance of coastal or inland harbors, the dredging and disposal of contaminated sediments that are in or affect the operation and maintenance of Federal navigation channels, the mitigation of impacts resulting from Federal navigation operation and maintenance activities, and the operation and maintenance of dredged material disposal facilities.

The North American Free Trade Agreement Implementation Act (26 U.S.C. 9505(c)(3)) authorizes the fund to pay all expenses of administration incurred by the Department of the Treasury, the Corps, and the Department of Commerce related to the administration of the harbor maintenance tax (under 26 U.S.C. 4461 et seq.), but not in excess of \$5 million for any fiscal year.

In 1998, the U.S. Supreme Court excluded all U.S. exports from the harbor maintenance tax. The Court found that the tax violated Article I, section 9, clause 5 of the constitution because the value of the cargo, which

is the basis for calculating this tax, does not fairly match the use of port services and facilities by exporters.

The proposed appropriations language for eligible operation and maintenance costs for inland harbors on the lower Mississippi River is intended to only apply to: Helena Harbor, Phillips County, AR; Baton Rouge Harbor, Devil Swamp, LA; Greenville Harbor, MS; Vicksburg Harbor, MS; and Memphis Harbor, McKellar Lake, Memphis, TN.
