The primary mission of the Justice Operations, Management, and Accountability (JOMA) Salaries and Expenses appropriation is to support the Attorney General and Department of Justice (DOJ) senior policy officials in managing Department resources and developing policy for legal, law enforcement, and criminal justice activities. JOMA also provides administrative support services to the legal divisions and policy guidance and other support to all Department organizations. Most JOMA offices have significant oversight responsibilities that shape DOJ policy and influence the way the Department works toward meeting each of its strategic goals.

The Justice Information Sharing Technology (JIST) appropriation provides resources to the DOJ Chief Information Officer (CIO) to ensure progress towards the DOJ's strategic goals in supporting agents, attorneys, analysts, and administrative staffs across the world with modern, mission-enabling technologies. The CIO is also responsible for ensuring these and other IT investments align with the DOJ's overall IT strategy, as well as its technical reference, enterprise architectures, and cybersecurity requirements.

*Enterprise Cybersecurity.*—Enhancing the DOJ's cybersecurity posture remains a top and cross-cutting priority for the Department and its leadership, as the DOJ supports a wide range of missions, including national security, law enforcement, and impartial administration of justice. The systems supporting these critical missions must secure sensitive information, enable essential workflows, and protect the integrity of data and information guiding vital decision-making. The DOJ CIO leverages JIST resources to drive continual advances in the Department's cybersecurity architecture, systems and processes to ensure DOJ enterprise and information resources are resilient and secure against a continually evolving threat landscape.

*IT Architecture and Oversight.*—Oversight of the DOJ IT environment by the CIO is vital given the role of technology in supporting and enabling DOJ's varied legal, investigative, and administrative missions. JIST resources fund the CIO's DOJ-wide IT architecture governance and oversight responsibilities, which include IT planning, IT investment management, IT cybersecurity and IT compliance with enterprise architecture (EA) requirements from the Office of Management and Budget (OMB) and the Government Accountability Office, and IT cybersecurity. The OCIO's IT investment management and oversight encompasses Capital Planning and Investment Control, along with the Department Investment Review Council and the Department Investment Review Board, which allows OCIO to ensure alignment of investments across the enterprise and efficient use of resources. These activities comply with the Federal Information Technology Acquisition Reform Act, the Clinger-Cohen Act, OMB Circular A-130, Managing Information as a Strategic Resource, and other applicable laws, regulations, and Executive Orders governing Federal IT management.

*IT Transformation and Innovation Engineering.*—IT transformation is an ongoing commitment of the OCIO to evolve the DOJ's IT environment by driving toward shared commodity infrastructure services and simplified design and implementation of tools to advance the mission while reducing risk and driving efficiency. These efforts allow the DOJ to shift from custom government-owned solutions to advanced industry-leading offerings at competitive pricing. The OCIO recognizes modernization and innovation as an ongoing activity, requiring IT strategies and operating models to adapt as technology changes in order to harness new and innovative technologies that meet DOJ mission requirements. By creating partnerships with DOJ components, Federal agencies, and industry leaders for the exploration of new technologies, the OCIO leads the ideation, design, planning, and execution of enterprise IT innovations to enhance DOJ user experience and enable operations while ensuring alignment with DOJ architectures and strategic priorities. The OCIO also uses technology readiness assessments to evaluate the maturity of technologies and readiness for incorporation into a system, as less-than-ready technologies can be the source of program risks, delays, and cost increases.

The JIST account also includes balances of funding transferred from other accounts for the Tribal Access Program (TAP) and the Department's Spectrum Relocation Fund (SRF) allocation. The TAP funds are earmarked for driving collaboration between the Federal, state, local and tribal criminal justice communities by providing Tribal governments with means to access, enter, and exchange data with national crime information systems. The SRF allocations are governed by the OMB-approved plan for Department-level coordination of vacating auctioned spectrum frequency band and replacing equipment affected by the Advanced Wireless Systems -3 auction.

Section 100054 of the Working Families Tax Cut Act appropriated \$3.33 billion to the Department to support the execution of law enforcement and litigation priorities across multiple DOJ components. These priorities include combating drug trafficking and prosecuting immigration-related matters. Resources are being managed from a centralized DOJ account and allocated to a variety of DOJ components. Reimbursable funding is also provided to this account in support of these purpose areas.

The Executive Office for Immigration Review (EOIR) was created on January 9, 1983 through an internal DOJ reorganization that combined the Board of Immigration Appeals (BIA) with the Immigration Judge function. In addition to establishing EOIR as a separate agency within DOJ, this reorganization made the Immigration Courts independent of the agency charged with enforcement of Federal immigration laws. Under delegated authority from the Attorney General, EOIR conducts immigration court proceedings, appellate reviews, and administrative hearings. The Office of the Chief Administrative Hearing Officer was added in 1987. EOIR is headed by a Director, appointed by the Attorney General, who oversees approximately 75 Immigration Courts nationwide, the BIA, and the headquarters organization located in Falls Church.

The Office of the Inspector General (OIG) was statutorily established in the Department of Justice on April 14, 1989. The OIG investigates alleged violations of criminal and civil laws, regulations, and ethical standards arising from the conduct of the Department's employees. The OIG provides leadership and assists management in promoting integrity, economy, efficiency, and effectiveness within the Department and in its financial, contractual, and grant relationships with others. By statute, the OIG also reports to the Attorney General, the Congress, and the public on a semiannual basis regarding its significant activities.

The Audit Division is responsible for independent audits and reviews of Department organizations, programs, functions, computer security and information technology systems, and financial statement audits. The Audit Division also conducts or reviews external audits of expenditures made under Department contracts, grants, and other agreements.

The Investigations Division investigates allegations of civil rights violations, bribery, fraud, abuse and violations of other laws, rules, and procedures that govern Department employees, contractors, and grantees. This Division also develops these cases for criminal prosecution, civil action, or administrative action. In some instances, the OIG refers allegations to components within the Department and requests notification of their findings and of any disciplinary action taken.

The Evaluation and Inspections Division conducts program and management reviews that involve on-site inspection, statistical analysis, and other techniques to review Department programs and activities and makes recommendations for improvement.

The Oversight and Review Division investigates allegations of significant interest to the American public and the Congress, and of vital importance to the Department.

The Office of the General Counsel provides legal advice to OIG management and staff. It also drafts memoranda on issues of law; prepares administrative subpoenas; represents the OIG in personnel, contractual, ethical, and legal matters; and responds to Freedom of Information Act requests.

The Management and Planning Division provides advice to OIG senior leadership on administrative and fiscal policy, and assists OIG components in the areas of budget formulation and execution, security, personnel, training, travel, procurement, property management, telecommunications, records management, quality assurance, internal controls, and general support.

The Information Technology Division executes the OIG's IT strategic vision and goals by directing technology and business process integration, network administration, implementation of computer hardware and software, cybersecurity, applications development, programming services, policy formulation, and other mission-support activities.

The following Department legal activities are financed from this appropriation:

**Supreme Court Proceedings and Appellate Matters.**—The Office of the Solicitor General conducts substantially all litigation on behalf of the United States and its agencies in the Supreme Court of the United States, approves decisions to appeal and seek further review in cases involving the United States in the lower Federal courts, and supervises the handling of litigation in the Federal appellate courts.

**Criminal Matters.**—The Criminal Division develops, enforces, and supervises the application of all Federal criminal laws, except those specifically assigned to other divisions. The mission of the Criminal Division is to identify and respond to critical and emerging national and international criminal threats, and to lead the enforcement, regulatory, and intelligence communities in a coordinated nationwide response to reduce those threats.

**Claims, Customs, and General Civil Matters.**—The Civil Division represents the Federal Government in civil litigation to defend Federal statutes, regulations, and policies, and to avoid payment of unjustified monetary claims. It also investigates and pursues perpetrators of financial, economic, health care, and other forms of fraud to recover billions of dollars owed to the Federal Government. Examples of non-monetary litigation include the defense of thousands of challenges to immigration enforcement decisions and to Federal activities involving counterterrorism, as well as enforcement of consumer protection laws.

**Environment and Natural Resource Matters.**—The Environment and Natural Resources Division enforces the Nation's civil and criminal environmental laws and defends environmental challenges to Government action. Additionally, the Division represents the United States in virtually all matters concerning the use and development of the Nation's natural resources and public lands, wildlife protection, Indian rights and claims, worker safety, animal welfare, and the acquisition of Federal property.

**Legal Opinions.**—The Office of Legal Counsel provides written opinions and oral advice in response to requests from the Counsel to the President, the various agencies of the Executive Branch, and offices within the Department, including the offices of the Attorney General and Deputy Attorney General.

**Civil Rights Matters.**—This program enforces the Nation's Federal civil rights laws. Through the enforcement of a wide range of anti-discrimination laws, the Division gives meaning to our Nation's promise of equal opportunity. The Division works to uphold and defend the civil and constitutional rights of all individuals, particularly some of the most vulnerable members of our society. The Division enforces Federal statutes that prohibit discrimination and provide a remedy for constitutional violations.

**Office of the Pardon Attorney.**—The Office of the Pardon Attorney (OPA) receives and evaluates clemency petitions for federal crimes and prepares letters of advice for the President for each application with approval from the Deputy Attorney General. In addition, OPA responds to inquiries con-

cerning executive clemency petitions and the clemency process from applicants, their legal representatives, members of the public, and Members of Congress; prepares all necessary documents to affect the President's decision to grant or deny clemency; and provides advisory services to White House Counsel concerning executive clemency procedures.

**Reimbursable Programs.**—This reflects reimbursable funding for the following:

**Civil Division.**—For litigating cases under the National Childhood Vaccine Injury Act, and for litigating a number of extraordinarily large cases on behalf of the United States;

**Criminal Division.**—For activities related to healthcare fraud and drug prosecutions, international training programs, and asset forfeiture related activities;

**Environment and Natural Resources Division.**—From numerous client agencies for personnel, automated litigation support, and litigation consultant services for a variety of environmental, natural resource, land acquisition, and Native American cases, including from the Environmental Protection Agency for Superfund enforcement litigation; and

**Civil Rights Division.**—For activities related to the Division's Complaint Adjudication Office and Health Care Fraud activities.

**Fraud Division.**—The Fraud Division is the newest litigation division in the Department of Justice. Created in 2026, the Fraud Division will become the Department's central focal point to combat the fraud targeting U.S. taxpayer resources. The Fraud Division will enforce the Federal criminal and civil laws against fraud targeting Federal government programs, Federally funded benefits, businesses, nonprofits, and private citizens nationwide.

The Antitrust Division administers and enforces antitrust and related statutes. This program primarily involves the investigation of suspected

violations of the antitrust laws, the conduct of civil and criminal proceedings in the Federal courts, and the maintenance of competitive conditions.

The Department's Antitrust Division and the Federal Trade Commission (FTC) are responsible for reviewing corporate mergers to ensure they do not promote anticompetitive practices. Revenue collected from pre-merger filing fees, known as Hart-Scott-Rodino fees, are collected by the FTC and split evenly between the two agencies. In 2027, the Antitrust Division will continue to collect filing fees for pre-merger notifications and will retain these fees for expenditure in support of its programs.

There are 94 United States Attorneys' Offices located throughout the United States, Puerto Rico, the Virgin Islands, Guam, and the Northern Mariana Islands. The 93 U.S. Attorneys (Guam and the Northern Mariana Islands are under the direction of a single U.S. Attorney) prosecute criminal offenses against the United States, represent the Government in civil actions in which the United States is concerned, and initiate proceedings for the collection of fines, penalties, and forfeitures owed to the United States. Additionally, the Justice Department's reorganization eliminated Community Relations Service (CRS) as a standalone component and realigned it within the Executive Office for U.S. Attorneys. The realignment will ensure the continuation of those minimum CRS statutory functions.

The Federal Government is represented by a United States Marshal in each of the 94 judicial districts. The primary mission of the United States Marshals Service (USMS) is to protect, defend, and enforce the American justice system by securing Federal court facilities and ensuring the safety

UNITED STATES MARSHALS SERVICE—Continued

of judges, court personnel, and the public; apprehending fugitives and non-compliant sex offenders; maintaining custody of Federal prisoners and providing for their security and transportation from arrest to incarceration; ensuring the safety of protected government witnesses and their families; executing Federal warrants and court orders; managing seized assets acquired through illegal means; and providing custody, management, and disposal of forfeited assets. The USMS is the principal support force in the Federal judicial system and an integral part of the Federal law enforcement community.

The USMS derives other Federal funds from the Administrative Office of the U.S. Courts for the Judicial Facility Security Program, the Assets Forfeiture Fund for seized assets management and disposal, and the Fees and Expenses of Witnesses appropriation for security and relocation of protected witnesses. Non-Federal funds are derived from State and local governments for witness protection and the transportation of prisoners pursuant to State writs, as well as fees collected from service of civil process and sales associated with judicial orders.

For 2027, the USMS requests program increases to support the Administration's priorities including enhancements for Judicial Security Protective Operations, Fugitive Task Forces, Protective Equipment Program, Safe Task Forces, Immigration Enforcement, and the Cyclical Replacement of Vehicles.

The Federal Prisoner Detention (FPD) appropriation is responsible for the variable costs associated with the care of Federal detainees in the custody of the USMS. The USMS must ensure the safe, secure, and humane confinement of persons in its custody while allowing unimpeded prisoner transportation operations. The FPD appropriation provides for housing, subsistence, transportation, medical care, and medical guard service of Federal detainees in State, local, and private facilities.

The Federal Government utilizes various methods to house detainees. The USMS acquires detention bed space for Federal detainees through several means, using the most appropriate method to maximize efficiency and effectiveness for the Government:

- Intergovernmental Agreements (IGAs) with State and local jurisdictions, whose excess prison and jail bed capacity is utilized via a negotiated daily rate paid to those jurisdictions;
- Federally-owned and managed detention facilities, where the Government has paid for construction and operation of the facility, funded through the Federal Bureau of Prisons (BOP) appropriation; and
- Private performance-based contract facilities, where an individual daily rate or contract minimum rate is paid.

Over 70 percent of the USMS detainee population that is placed in government facilities will be housed under IGAs.

For 2027, the USMS requests base adjustments to account for changes to the detention population and variable housing, medical care, medical guard, and transportation costs projected to occur during the fiscal year.

The September 11th Victim Compensation Fund (VCF) was created to provide compensation for any individual (or a personal representative of a deceased individual) who suffered physical harm or was killed as a result of the terrorist attacks on September 11, 2001, or the debris removal efforts that took place in the immediate aftermath of those attacks. The VCF was extended on July 29, 2019, with the passage of the Never Forget the Heroes: James Zadroga, Ray Pfeifer, and Luis Alvarez Permanent Authorization of the September 11th Victim Compensation Fund Act, Public Law 116-34. The Act extends the VCF's claim filing deadline to October 1, 2090, and appropriates such funds as may be necessary in each fiscal year through fiscal year 2092 to pay all eligible claims.

The United States Trustee Program (USTP or Program) supervises the administration of bankruptcy cases and private trustees in the Federal Bankruptcy Courts and litigates against fraud and abuse in the system by debtors, creditors, attorneys, bankruptcy petition preparers, and others. The Bankruptcy Judges, U.S. Trustees and Family Farmer Bankruptcy Act of 1986 (P.L. 99-554) expanded the initial pilot Program to a 21 region, nationwide program encompassing 88 judicial districts (bankruptcy cases filed in Alabama and North Carolina are administered by the Administrative Office of the U.S. Courts). The Bankruptcy Abuse Prevention and Consumer Protection Act of 2005 (P.L. 109-8) expanded the Program's responsibilities to include, among other things, means testing, credit counseling/debtor education, and debtor audits. The August 2019 enactment of the Small Business Reorganization Act (P.L. 116-54) gave the Program additional responsibilities regarding small business debtors.

USTP appropriations are offset primarily by revenues deposited into the United States Trustee System Fund from filing fees paid by consumer and business debtors as well as quarterly fees based on disbursements made by most chapter 11 debtors. The February 2026 enactment of the Bankruptcy Administration Improvement Act of 2025 (BAIA 2025, P.L. 119-76)

continued the quarterly fee scheduled enacted in January 2021 (BAIA 2020, P.L. 116-325) from April 1, 2026, through December 31, 2030, with an additional 0.1 percent in the percentage fee paid by larger bankruptcy cases. In addition, the USTP's chapter 7 filing fee allocation was reduced to permanently fund additional chapter 7 private trustee compensation beginning on October 1, 2026. Funding for temporary bankruptcy judgeships was also continued. The law is projected to enable the USTP to offset appropriations through new revenue annually through FY 2030.

The Comprehensive Crime Control Act of 1984 established the Assets Forfeiture Fund (AFF) as a repository for forfeited cash and the proceeds of sales of forfeited property under any law enforced and administered by the Department in accordance with 28 U.S.C. 524(c). Authorities of the AFF have been amended by various public laws enacted since 1984. Under current law, authority to use the AFF for certain investigative expenses shall be specified in annual appropriations acts. Expenses necessary to seize, detain, inventory, safeguard, maintain, advertise, or sell property under seizure are funded through a permanent, indefinite appropriation. In addition, beginning in 1993, other general expenses of managing and operating the asset forfeiture program are paid from the permanent, indefinite portion of the AFF. Once all expenses are covered, the balance is maintained to meet ongoing expenses of the program. Excess unobligated balances may also be allocated by the Attorney General in accordance with 28 U.S.C. 524(c)(8)(E).

The Justice Prisoner Air Transportation System (JPATS) is responsible for transporting the majority of Federal detainees and prisoners in the custody of the United States Marshals Service and the Federal Bureau of Prisons. JPATS transports both pretrial detainees and sentenced prisoners via coordinated air and ground systems while ensuring the safety of the public, Federal employees, and those in custody. JPATS also transports detainees and prisoners on a reimbursable space-available basis for the Department of War, other participating Federal departments, and State and local agencies. Customers are billed based on the number of flight hours and seats used to move their detainees/prisoners.

The Radiation Exposure Compensation Act (RECA) established an administrative claim program as an alternative to litigation for persons who contracted certain illnesses as a result of the United States atmospheric nuclear testing program during the Cold War and associated defense-related uranium extraction. On July 4, 2025, Public Law 119–21 was enacted. Sections 100201–100205 of this law reauthorized RECA until December 31, 2028, added multiple new eligible populations, and created a restitution system for persons who became ill after presumed exposure to the Manhattan Project waste.

For 2027, Interagency Law Enforcement funding is requested directly in the appropriations of its partner DOJ components — the Drug Enforcement Administration, Federal Bureau of Investigation, United States Marshals Service, Bureau of Alcohol, Tobacco, Firearms and Explosives, United States Attorneys, Criminal Division, and National Security Division — to more directly and efficiently control resources that support investigations into drug trafficking and organized crime.

The mission of the Federal Bureau of Investigation (FBI) is to protect the American people and uphold the Constitution of the United States.

The FBI's enterprise strategy includes four priorities to focus efforts across the enterprise: Crush Violent Crime, Defend the Homeland, Rebuild Public Trust, and Drive Fierce Organizational Accountability. The FBI accomplishes these priorities by continuously setting strategic goals and initiatives tied to executive and employee performance, including specific threat mitigation strategies through Integrated Program Management.

The FBI is headed by a Director, who is appointed by the President and confirmed by the Senate. FBI Headquarters, located in Washington, D.C., provides centralized operational, policy, and administrative support to FBI investigations. The FBI operates 56 field offices in major U.S. cities and approximately 350 resident agencies (RAs) throughout the country. RAs are satellite offices that allow the FBI to maintain a presence in and serve local communities. The FBI also operates 62 Legal Attache offices and 34 sub-offices in 80 foreign countries around the world. Finally, the FBI maintains several specialized facilities and analytical centers across the country, such as the Criminal Justice Information Services Division in Clarksburg, WV; the Richard Shelby Center for Innovation and Advanced Training in Huntsville, AL; and the FBI Academy and Laboratory at Quantico, VA.

A number of FBI activities are supported by reimbursable funding streams. The FBI is also authorized to conduct fingerprint and name checks for certain non-Federal agencies.

For 2027, the FBI is requesting \$12.5 billion in Salaries and Expenses funding.

The Drug Enforcement Administration's (DEA) mission is to enforce the controlled substances laws and regulations of the United States. The DEA is advancing its core North Star mission priorities strengthening enforcement; dismantling the Mexican cartels; disrupting chemical supply chains; targeting illicit finance; leading the fight on the cyber and dark web frontlines; building strategic domestic and foreign partnerships; reducing violence and protecting communities; and, prioritizing employee wellness. As the Department's single-mission agency for enforcing the Controlled Substances Act, the DEA plays an integral role in advancing the Administration's priorities as demonstrated by the DEA's enforcement efforts along our borders, particularly the Southern Border, where the Mexican Sinaloa and Jalisco Cartels (Cartel Jalisco Nueva Generacion, or CJNG) actively and continuously introduce fentanyl and other illicit substances into the United States.

The DEA is also actively supporting the Administration's immigration enforcement priorities by participating in the Homeland Security Task Forces (HSTFs) and has deployed Special Agents to Washington, D.C. and Memphis, Tennessee to assist with reducing and preventing violent crime.

The DEA's activities are divided into three decision units:

**Domestic Enforcement:** Through effective enforcement efforts and complementary support functions, the DEA disrupts and dismantles the leadership, command and control, and infrastructure of major drug traffick-

ing syndicates, criminal organizations, and violent drug trafficking groups that threaten the United States. This decision unit contains most of the DEA's S&E resources and staffing, domestic enforcement groups, State and local task forces, Federal and local task forces, intelligence groups, and all the support functions essential to accomplishing the mission domestically.

**International Enforcement:** The DEA works with its foreign counterparts to attack vulnerabilities in the leadership, production, transportation, communications, finance, and distribution sectors of major international drug trafficking organizations. The DEA continues to engage with partners abroad and advance its international enforcement objectives with an emphasis on the Western Hemisphere region.

**State and Local Assistance:** The DEA supports State and local law enforcement with training so that State and local agencies can better address the environmental threat of clandestine laboratories in their communities.

Public Law 102-395 established the Diversion Control Fee Account in 1993. The DEA Diversion Control Program sets fees at a level to ensure the recovery of the full cost of operating the program. By carrying out the mandates of the Controlled Substances Act (CSA), DEA prevents, detects, and investigates the diversion of pharmaceutical controlled substances and listed chemicals from legitimate channels, while ensuring an adequate and uninterrupted supply of pharmaceutical controlled substances and listed chemicals to meet legitimate medical, commercial and scientific needs. The CSA requires manufacturers, distributors, pharmacies, hospitals, practitioners, mid-level practitioners, researchers, teaching institutes, narcotic treatment programs, importers/exporters, and analytical labs to register with the DEA in order to distribute, manufacture, prescribe, dispense, or otherwise handle controlled substances or listed chemicals. The registrant community is the first line of defense against the opioid epidemic now facing the United States. The engagement and education of these community members can help in reducing the overprescribing of opioids and the prevention of abuse and illicit use.

Investigations that the Diversion Control Program conducts fall into two distinct categories: the diversion of legitimately manufactured pharmaceutical controlled substances, and the diversion of listed chemicals (List I and II) used in the illicit manufacture of controlled substances.

Federal Prison Industries, Inc. (FPI) was created by Congress in 1934 and is a wholly-owned Government corporation. Its mission is to protect society and reduce crime by preparing inmates with job training and practical work skills for reentry success. This rehabilitative work program provides products and services primarily to other Federal agencies. FPI's operations are self-sustaining to minimize impacts to taxpayers and are diversified to maximize meaningful inmate employment opportunities and minimize the effects of competition on private industry and labor. FPI provides job and life skills training to inmates, makes prisons and communities safer, allows inmates to meet their financial obligations, and supports local and small businesses through its purchases of materials.

FEDERAL PRISON INDUSTRIES, INCORPORATED—Continued

FPI operates as a revolving fund and does not receive an annual appropriation. The majority of revenues are derived from the sale of products and services to other Federal departments, agencies, and bureaus. Operating expenses such as the cost of raw materials and supplies, inmate wages, staff salaries, and capital expenditures are applied against these revenues resulting in net operating income or loss, which is reapplied toward operating costs for future production. In this regard, FPI makes capital investments in buildings and improvements, machinery, and equipment as necessary to conduct its industrial operations. To increase inmate work opportunities, FPI continues to explore opportunities with commercial customers.

In the Consolidated and Further Continuing Appropriations Act, 2012 (P.L. 112–55), FPI received two authorities to increase inmate employment. The first enables FPI to recapture work that would otherwise be performed outside of the United States, also known as repatriation. The second authorizes FPI to participate in the Prison Industries Enhancement Certification Program, which allows FPI to partner with commercial businesses under a strict set of conditions to manufacture and sell prison-made goods in interstate commerce.

More recently, in December 2018, the First Step Act of 2018 (P.L. 115–391) provided FPI with four additional market authorities to expand inmate employment. These new authorities include the sale of FPI products to public entities for use in correctional institutions; public entities for use in disaster relief or emergency response; the D.C. government; and, except for office furniture, certain IRS-recognized non-profit organizations.

The 2027 Budget requests \$55 million for the Office of Justice Programs (OJP) Research, Evaluation, and Statistics appropriation. This appropriation supports objective and rigorous scientific research, evaluation, and collection and dissemination of statistical data to inform efforts that promote public safety and advance justice. The information and technologies developed through OJP's research and statistical programs improve the efficiency and effectiveness of criminal justice systems and programs at all levels of government.

**Research, Development, and Evaluation Program.**—The 2027 Budget proposes a direct appropriation of \$22 million for the National Institute of Justice (NIJ) to support high-quality research, development, and evaluation in the forensic, social, and physical sciences.

**Criminal Justice Statistics Program.**—The 2027 Budget proposes \$33 million for the Bureau of Justice Statistics (BJS) to carry out national statistical collections supporting data-driven approaches to reduce and prevent crime and to assist state, local and tribal governments in enhancing their statistical capabilities, including improving criminal history records and information systems. Current programs provide statistics on victimization, law enforcement, Federal justice systems, prosecution and adjudication (courts), corrections, and criminal histories and recidivism.

**Research, Evaluation and Statistics Set Aside.**—The 2027 Budget requests a set-aside of up to 2.5 percent for research, evaluation, and statistics. The

RESEARCH, EVALUATION AND STATISTICS—Continued

set-aside amount from OJP discretionary programs supports the base programs for NIJ and BJS.

**Management and Administration.**—The 2027 Budget proposes a total Management and Administration funding level of \$273 million for OJP, supporting 719 total FTE.

The Department's grant components, including OJP, the Office of Community Oriented Policing Services (COPS), and the Office on Violence Against Women (OVW), will be consolidated into one component. This consolidation will create process and cost efficiencies and improve partnerships with State, local, Tribal, and other community stakeholders. The Department continues to plan for and analyze the most effective method to accomplish the consolidation, including the structure and name of the consolidated organization.

The 2027 Budget requests \$1.6 billion for OJP's State and Local Law Enforcement Assistance appropriation. State, local, and tribal law enforcement and criminal justice professionals are responsible for the majority of the Nation's day-to-day crime prevention and control activities. The programs supported by this account support law enforcement efforts to reduce and prevent violent crime; improve law enforcement officer safety and wellness; address drug-related crime and substance abuse; support victims of trafficking and sexual assault, and better coordinate law enforcement efforts at all levels of government. The Budget includes programs such as the following:

**Byrne Justice Assistance Grants (JAG).**—The Byrne Justice Assistance Grants program awards grants to State, local, and tribal governments to support a broad range of activities that prevent and control crime, including: law enforcement operations and programs; prosecution and court programs; prevention and education programs; corrections and community corrections programs; drug treatment programs; and planning, evaluation, and technology improvement programs. The 2027 Budget proposes \$426 million for the JAG appropriation, including \$359 million for the JAG formula program.

**Model City Initiative.**—The 2027 Budget requests \$100 million for the new Model City Initiative (MCI) to bolster DOJ's ongoing efforts to combat violent crime, and provide technology, equipment, staffing, and support to MCI task forces. This initiative enables participating jurisdictions to consult appropriate stakeholders and receive expedited, coordinated assistance from DOJ to enhance local law enforcement strategies and improve their capacity to effectively reduce violent crime.

**Comprehensive Addiction Recovery Act (CARA).**—The Budget requests \$418 million for continued support for programs authorized by the Comprehensive Addiction Recovery Act, including \$189 million for OJP's Comprehensive Opioid, Stimulant, and Substance Use Program (COSSUP), which aims to reduce substance use and address use disorders, while reducing the number of overdose fatalities. The Budget also requests \$89 million for the Drug Court Program, which provides an alternative to incarceration

to addicted offenders who enter the criminal justice system, addressing their addiction through treatment and recovery support services and subsequently reducing recidivism. Other CARA-authorized programs requested in the budget include: Veterans Treatment Courts (\$30 million), Residential Substance Abuse Treatment (\$35 million), Justice and Mental Health Collaborations (\$40 million), and the Prescription Drug Monitoring Program (\$35 million).

**Combating Sexual Assault and Human Trafficking.**—The 2027 Budget invests in programs that assist state, local, and tribal governments in improving their response to sexual assault and eliminating forensic evidence analysis backlogs related to these cases, including \$51.5 million for the Sexual Assault Kit Initiative. The 2027 Budget also requests \$88 million to support human trafficking grant programs, including support for comprehensive and specialized services for human trafficking victims, as well as multidisciplinary taskforces to identify, investigate, and prosecute these types of cases.

The High Intensity Drug Trafficking Areas (HIDTA) program was established by the Anti-Drug Abuse Act of 1988, as amended, to provide assistance to Federal, State, local, and tribal law enforcement entities operating in those areas most adversely affected by drug trafficking. The HIDTA program provides resources to Federal, State, local, and tribal agencies in each HIDTA region to carry out activities that address the specific drug threats of that region. A central feature of the HIDTA program is the discretion granted to HIDTA Executive Boards to design and carry out activities that reflect the specific drug trafficking threats found in each HIDTA region. This discretion ensures that each HIDTA Executive Board can tailor its strategy and initiatives closely to local conditions and can respond quickly to changes in those conditions. Among the types of activities funded by the HIDTA program are: drug enforcement task forces comprised of multiple Federal, State, local, and tribal agencies designed to dismantle and disrupt drug trafficking organizations; multi-agency intelligence centers that provide drug intelligence to HIDTA initiatives and participating agencies; initiatives to establish or improve interoperability of communications and information systems between and among law enforcement agencies; and investments in technology infrastructure.

For 2027, the Budget continues the FY 2026 proposal to transfer management of the HIDTA program from the Office of National Drug Control Policy to OJP to improve coordination with the Department's other drug enforcement efforts.

The COPS Office advances the practice of community policing by the Nation's state and local law enforcement agencies through information sharing and grant resources. COPS develops programs that respond directly to the emerging needs of law enforcement agencies to shift focus from reacting to preventing crime and disorder.

To advance this mission, COPS develops training and technical assistance to enhance law enforcement officers problem-solving and community interaction skills, promotes collaboration between law enforcement and community members to develop innovative initiatives to prevent crime, and provides cost-effective service delivery to grantees to support community policing. COPS awards grants to hire community policing professionals, develop and test innovative policing strategies, and provide training and technical assistance to community members, local government leaders, and all levels of law enforcement. Since 1994, the COPS Office has invested more than \$20 billion to help advance community policing, supporting over 13,000 of the Nation's 18,000 law enforcement agencies.

The Budget requests \$303 million for COPS programs, including \$256 million for the COPS Hiring appropriation. Within this amount, \$164 million is for the COPS Hiring Program; \$34 million is for tribal law enforcement; \$10 million is for Law Enforcement Mental Health and Wellness; \$4 million is for the Tribal Access Program; and \$44 million for the Regional Information Sharing System. The Budget also includes \$12 million for the Police Act Program; and \$35 million for the STOP School Violence Program.

The Department's grant components, including COPS, OJP, and OVW, will be consolidated into one component. This consolidation will create process and cost efficiencies and improve partnerships with State, local, Tribal, and other community stakeholders. The Department continues to plan for and analyze the most effective method to accomplish the consolidation, including the structure and name of the consolidated organization.

The mission of OVW is to provide Federal leadership in developing the Nation's capacity to reduce domestic violence, dating violence, sexual assault, and stalking through the implementation of the Violence Against Women Act.

By forging State, local, and tribal partnerships among police, prosecutors, judges, victim advocates, health care providers, faith leaders, organizations

OFFICE ON VIOLENCE AGAINST WOMEN—Continued

that serve culturally specific and underserved communities and others, OVW grant programs help provide victims with the protection and services they need to pursue safe and healthy lives, while simultaneously enabling communities to hold offenders accountable for their violence.

The 2027 Budget proposes \$539 million for programs administered by OVW to prevent and respond to violence against women, including domestic violence, dating violence, sexual assault, and stalking.

The Department's grant components, including COPS, OJP, and OVW, will be consolidated into one component. This consolidation will create process and cost efficiencies and improve partnerships with State, local, tribal, and other community stakeholders. The Department continues to plan for and analyze the most effective method to accomplish the consolidation, including the structure and name of the consolidated organization.

The 2027 Budget requests \$239 million for OJP's Public Safety Officers' Benefits (PSOB) Program, of which \$204 million is a mandatory appropriation for death benefits and \$34.8 million is a discretionary appropriation for disability and education benefits. This appropriation supports programs that provide benefits to public safety officers who are severely injured in the line of duty and to the families and survivors of public safety officers killed or mortally injured in the line of duty. These programs represent the continuation of a partnership between the Department, national public safety organizations, and public safety agencies at the state, local, and tribal levels. The PSOB program oversees three types of benefits:

The Crime Victims Fund (CVF) provides formula grants to states and territories to support compensation and services for victims of crime. CVF resources also support training, technical assistance, and demonstration grants designed to improve the capabilities and capacity of victims' services providers throughout the Nation. The Fund is financed by collections of fines, penalty assessments, and bond forfeitures from defendants convicted of Federal crimes. The 2027 Budget proposes to provide \$1.9 billion from collections and balances for crime victim compensation, services, and related needs. Of this amount, up to \$95 million is available for the Office for Victims of Crime for Tribal Victims Assistance Grants.
