# CONGRESSIONAL DIRECTORY

FOR THE USE OF THE UNITED STATES CONGRESS.

By FRANCIS M. COX,

EDITOR AND COMPILER.

SPECIAL EDITION.

CORRECTED TO AUGUST 7, 1893.

WASHINGTON:  
GOVERNMENT PRINTING OFFICE.  
1893.

ENTERED ACCORDING TO ACT OF CONGRESS, IN THE YEAR 1893,

BY F. M. COX,

IN THE OFFICE OF THE LIBRARIAN OF CONGRESS, AT WASHINGTON.

OCT 16 1914

#### NOTE.

The present edition of the Directory will, it is hoped, be found as complete as it is practicable to make it, while complying with the section of law requiring the appearance of the first edition within one week after the opening of the session.

The utmost exertion has been devoted to the ascertainment of the city address of Senators, Members, and Delegates, and to making the table containing the same as complete as possible. The attention of Senators and Members is respectfully directed to this table, and they will confer a favor on the Joint Committee on Printing, and on the editor, by supplying for the next edition any further data germane to this feature of the Directory which they may find wanting.

A number of new biographical sketches of Members whose Congressional service commences with this Congress (which the former editor found it impossible to obtain for the last edition within the limited time allowed him) have been obtained for and appear in this edition. There are also a number of changes and corrections in older biographies, kindly suggested by Senators and Members in response to a circular sent out to this end.

In the matter of more accurately defining the limits of some of the Congressional districts which do not divide upon county lines, some effort has been made at improvement, at the suggestion of Members, in this edition; and this idea will be further pursued in future editions, with the kind coöperation of Members, until, it is hoped, all ambiguity in this respect may be removed.

The Departmental and other data is corrected up to August 7. It will be observed that some changes have been made in the distribution of official duties in the State, Treasury and War Departments.

One new feature appears in this edition. A complete table showing the past Congressional service of Members of the House will be found on page 290. The data therein contained has heretofore, for the most part, been scattered throughout the biographical sketches; it is now accurately given in a condensed form, which will afford a convenient table of reference for the Speaker and others who may desire to inform themselves upon this point.

Since the last adjournment of Congress, one Senator—Mr. Stanford—two Representatives—Messrs. Mutchler, of Pennsylvania, and Enochs, of Ohio, and one member of the Supreme Bench—Mr. Justice Blatchford—have ended their public services in death. Wherever their successors have been elected or appointed, their biographies will appear in their proper place.

It will be the aim of the Joint Committee on Printing, and of the compiler, to make the Directory a perfectly reliable depository of information, and to this end the kind coöperation of Senators, Members, and Delegates is respectfully solicited.

F. M. Cox.

## THE CAPITOL.

The Capitol is situated in latitude  $38^{\circ} 53' 20''$ .4 north and longitude  $77^{\circ} 00' 35''$ .7 west from Greenwich. It fronts east, and stands on a plateau eighty-eight feet above the level of the Potomac.

### THE ORIGINAL BUILDING.

The southeast corner-stone of the original building was laid on the 18th of September, 1793, by President Washington, with Masonic ceremonies. It is constructed of sandstone from quarries in Aquia Creek, Virginia. The work was done under the direction of Stephen H. Hallett, James Hoban, George Hadfield, and B. H. Latrobe, architects. The north wing was finished in 1800, and the south wing in 1811. A wooden passage way connected them. On the 24th of August, 1814, the interior of both wings was destroyed by fire, set by the British. The damage to the building was immediately repaired. In 1818 the central portion of the building was commenced, under the architectural superintendence of Charles Bulfinch. The original building was finally completed in 1827. Its cost, including the grading of the grounds, alterations, and repairs, up to 1827, was \$2,433,844.13.

### THE EXTENSIONS.

The corner-stone of the extensions was laid on the 4th of July, 1851, by President Fillmore, Daniel Webster officiating as orator. This work was prosecuted under the architectural direction of Thomas U. Walter, till 1865, when he resigned. It was completed under the supervision of Edward Clark, the present Architect of the Capitol. The material used in the walls is white marble from the quarries at Lee, Massachusetts, and that in the columns from the quarries at Cockeysville, Maryland. These extensions were first occupied for legislative purposes January 4, 1859.

### DIMENSIONS OF THE BUILDING.

The entire length of the building from north to south is seven hundred and fifty-one feet four inches, and its greatest dimension from east to west three hundred and fifty feet. The area covered by the building is one hundred and fifty-three thousand one hundred and twelve square feet.

### THE DOME.

The dome of the original central building was constructed of wood, covered with copper. This was replaced in 1856 by the present structure of cast-iron. It was completed in 1865. The entire weight of iron used is 8,900,200 pounds.

The dome is crowned by a bronze statue of Freedom, which is nineteen feet six inches high, and weighs 14,085 pounds. It was modeled by Crawford. The height of the dome above the base line of the east front is two hundred and eighty-seven feet five inches. The height from the top of the balustrade of the building is two hundred and seventeen feet eleven inches. The greatest diameter at the base is one hundred and thirty-five feet five inches.

The rotunda is ninety-five feet six inches in diameter, and its height from the floor to the top of the canopy is one hundred and eighty feet three inches.

The Senate Chamber is one hundred and thirteen feet three inches in length by eighty feet three inches in width and thirty-six feet in height. The galleries will accommodate one thousand persons.

The Representatives' Hall is one hundred and thirty-nine feet in length by ninety-three feet in width and thirty-six feet in height.

The room now occupied by the Supreme Court was, until 1859, occupied as the Senate Chamber. Previous to that time the court occupied the room immediately beneath, now used as a law library.

The Library of Congress occupies the entire western projection of the central Capitol building. The original library was commenced in 1800, but was destroyed with the Capitol in 1814 during the war with England. It was afterwards replenished by the purchase of the library belonging to ex-President Jefferson, by Congress, embracing about 7,000 volumes! In 1851 it contained 55,000 volumes, and by an accidental fire in that year the whole collection was destroyed except 20,000 volumes. It was rebuilt in 1852, when \$75,000 was appropriated in one sum to replenish the collection. The new library halls, three in numbers are fitted up with ornamental iron cases and iron ceilings, the whole being perfectly fire-proof. The library is recruited by regular appropriations made by Congress, which average about \$11,000 per annum; also by additions received by copyright, by exchanges, and from the Smithsonian Institution. The library of the Smithsonian Institution has now been deposited in the Library of Congress, where it is secured against loss by fire. This collection is especially rich in scientific works, embracing the largest assemblage of the transactions of learned societies which exists in the country. The library was also enriched by the presentation to the Government, in 1882, of the large private library of Dr. Joseph M. Toner, of Washington, numbering over 27,000 volumes, besides nearly as many pamphlets. The donor, whose public spirit is worthy of emulation, adds to the collection annually. The library of copyright books was removed here from the Patent Office in 1870, and all copyrights issued in the United States are now recorded in the books deposited in the office of the Librarian of Congress. The present number of volumes in the whole library, including law books, which are kept in a separate library room under the Supreme Court, is over 665,000, besides about 220,000 pamphlets. A new building to contain its overflowing stores of learning and to afford room for their proper arrangement is in progress of erection, a liberal appropriation having been made by successive Congresses. This collection is very rich in history, political science, jurisprudence, and in books, pamphlets, and periodicals of American publication or relating in any way to America. At the same time the library is a universal one in its range, no department of literature or science being unrepresented. The public are privileged to use the books in the library, while members of Congress and about thirty official members of the Government only can take away books. The library is open every day (Sundays excepted) during the session of Congress from 9 a. m. to the hour of adjournment. In the recess of Congress it is open between the hours of 9 a. m. and 4 p. m.

It is placed in charge of a Commissioner of Labor, who is directed to acquire and diffuse among the people of the United States useful information on subjects connected with labor in the most general and comprehensive sense of that word, and especially upon its relation to capital, the hours of labor, the earnings of laboring men and women, and the

means of promoting their material, social, intellectual, and moral prosperity. He is also especially charged, in accordance with the general design and duties prescribed by the law, at as early a date as possible and whenever industrial changes shall make it essential, to ascertain the cost of producing articles, at the time dutiable in the United States, in leading countries where such articles are produced, by fully specified units of production, and under a classification showing the different elements of cost of such articles of production, including wages paid in such industries, etc.

It is also the duty of the Commissioner to ascertain and report as to the effect of the customs laws upon the currency and on the agricultural industry, especially as to their effect on the mortgage indebtedness of farmers; what articles are controlled by trusts, or other combinations of capital, business operations, or of labor, and what effect such trusts or other combinations of capital, business operations, or of labor have on production and prices.

The Commissioner is also to establish a system of reports by which, at intervals of not less than two years, he can ascertain the general condition, so far as production is concerned, of the leading industries of the country. He is also especially charged to investigate the causes of, and facts relating to, all controversies and disputes between employers and employés as they may occur, and which may happen to interfere with the welfare of the people of the different States. He may obtain information upon the various subjects committed to him, and, as he may deem desirable, from different foreign countries. He is to make a report annually in writing to the President and Congress of the information collected and collated by him, and he is authorized to make special reports on particular subjects whenever required to do so by the President or either House of Congress, or when he shall think the subject in his charge requires it.

### INTERSTATE COMMERCE COMMISSION.

This Commission, appointed under "An act to regulate commerce," approved February 4, 1887, has authority to inquire into the management of the business of all common carriers who are subject to the provisions of the act. These are all which are "engaged in the transportation of passengers or property wholly by railroad, or partly by railroad and partly by water when both are used, under a common control, management, or arrangement, for a continuous carriage or shipment, from one State or Territory of the United States, or the District of Columbia, to any other State or Territory of the United States, or the District of Columbia, or from any place in the United States to an adjacent foreign country, or from any place in the United States through a foreign country to any other place in the United States, and also in the transportation in like manner of property shipped from any place in the United States to a foreign country and carried from such place to a port of transshipment, or shipped from a foreign country to any place in the United States and carried to such place from a port of entry either in the United States or an adjacent foreign country." It has jurisdiction generally over rates on interstate traffic, to pass upon their reasonableness and justice, to decide questions of unjust discrimination and of undue preference, to prescribe the publicity to be given to joint tariffs, and to institute and carry on proceedings for the enforcement of the provisions of the law. It has power to call for reports; to require the attendance of witnesses and the production of books and papers; to hear complaints made against any such carrier of a violation of the act, and to determine what reparation shall be made to a party wronged; to institute inquiries on its own motion or at the request of State railroad commissions, and to report thereon; and it is required to make an annual report, which shall be transmitted to Congress. It is also empowered in special cases to authorize any such common carrier to charge less for a longer distance than for a shorter over the same line, and to prescribe the extent to which the carrier may be relieved from the "long and short haul clause" of said act. The Commission also appoints a secretary and clerks, whose duties are not specifically defined by the act.

### UNITED STATES CIVIL SERVICE COMMISSION.

The purpose of the civil-service act, as declared in its title, is "to regulate and improve the civil service of the United States." It provides for the appointment of three Commissioners, a Chief Examiner, a Secretary, and other employés, and makes it the duty of the Commission to aid the President as he may request in preparing suitable rules for carrying the act into effect; to make regulations for, and control the examinations provided for, and supervise and control the records of the same; and to make investigations and report upon all matters touching the enforcement and effect of the rules and regulations.

The service classified under the act, and to which it and the rules apply, embraces the Ex-

ecutive Departments at Washington, the Department of Labor, and the Civil Service Commission, the Fish Commission; the customs districts in each of which there are fifty or more employés, eleven in number; the free-delivery post-offices, now six hundred and ten; the Railway Mail Service, the Indian School Service, the employés of the Weather Bureau, including those employed away from Washington, numbering altogether about forty-three thousand places.

### COURT OF CLAIMS.

*Jurisdiction.*—This court was established by act of Congress, February 24, 1855 (10 Stat. L., 612). It has general jurisdiction of all "claims founded upon the Constitution of the United States or any law of Congress, except for pensions, or upon any regulation of an Executive Department, or upon any contract, expressed or implied, with the Government of the United States, or for damages, liquidated or unliquidated, in cases not sounding in tort, in respect of which claims the party would be entitled to redress against the United States, either in a court of law, equity, or admiralty, if the United States were suable, except claims growing out of the late civil war, and commonly known as war claims," and certain rejected claims.

It has jurisdiction also of claims of like character which may be referred to it by any Executive Department, involving disputed facts or controverted questions of law, where the amount in controversy exceeds \$3,000, or where the decision will affect a class of cases or furnish a precedent for the future action of any Executive Department in the adjustment of a class of cases, or where any authority, right, privilege, or exemption is claimed or denied under the Constitution. In all the above-mentioned cases the court, when it finds for the claimant, may enter judgment against the United States, payable out of the public Treasury. An appeal, only upon questions of law, lies to the Supreme Court on the part of the defendants in all cases, and on the part of the claimants when the amount in controversy exceeds \$3,000. The findings of fact by the Court of Claims are final and not subject to review by the Supreme Court.

By the act of March 3, 1883, chapter 116 (22 Stat. L., 485, and 1 Supplement to R. S., 2d ed., p. 403), called the "Bowman act," the head of an Executive Department may refer to the court any "claim or matter" pending in his Department involving controverted questions of fact or law. The court is required to find the facts and its conclusions of law and to report the same to the Department for its guidance and action. The same act authorizes either House of Congress, or any of its committees, to refer to the court any "claim or matter" involving the investigation and determination of facts, the court to find the facts and report the same to Congress for such action thereon as may there be determined. This act is extended by act of March 2, 1887, chapter 359 (24 Stat. L., 505, and 1 Supplement to R. S., 2d ed., p. 559).

There is a statute of limitations which prevents parties from bringing actions on their own motion beyond six years after the cause of action accrued, but the Departments may refer claims at any time, if they were pending therein within the six years. The only limitation under the "Bowman act" is that the court shall have no jurisdiction of any claim barred before the passage of the act by any then existing provision of law.

By act of January 20, 1885 (23 Stat. L., 283, and 1 Supplement to R. S., 2d ed., p. 471), Congress gave to the court jurisdiction over "claims to indemnity upon the French Government arising out of illegal captures, detentions, seizures, condemnations, and confiscations prior to the ratification of the convention between the United States and the French Republic, concluded on the 30th day of September, 1800." The time of filing claims is limited to two years from the passage of the act, and all claims not presented within that time are forever barred. The court finds the facts and the law, and reports the same in each case to Congress.

By act of March 3, 1891, chapter 538 (26 Stat. L., 851, and Supplement to R. S., 2d ed., p. 913), the court is vested with jurisdiction of certain Indian depredation claims.

There are five judges, who sit together in the hearing of cases, the concurrence of three of whom is necessary for the decision of any case.

*Term.*—The court sits at Washington, D. C., in the Department of Justice Building, 1509 Pennsylvania avenue, on the first Monday in December each year, and continues into the following summer and until all cases ready for trial are disposed of. Cases may be commenced and entered at any time, whether the court be in session or not.

### THE GOVERNMENT PRINTING OFFICE.

*The Public Printer.*—The Public Printer has charge of all business relating to the public printing and binding. He appoints the officers and employés of the Government Printing Office, and purchases all necessary machinery and material.

*The Chief Clerk.*—The Chief Clerk has general supervision of the clerks and clerical work of the office. He conducts the correspondence relating to public business, and performs such other duties as may be assigned to him by the Public Printer.

*The Foreman of Printing.*—The Foreman of Printing has charge of all matter which is to be printed. His department consists of the following divisions: The Document, Job, Specification, Press, Folding, Stereotype, and Congressional Record rooms, as well as the various branch offices.

*The Foreman of Binding.*—The Foreman of Binding has charge of the Bindery, in which division all work requiring binding, ruling, or marbling is executed. The binderies of the branch offices are under his supervision.
