## THE CAPITOL.

The Capitol is situated in latitude  $38^{\circ} 53' 20.4''$  north and longitude  $77^{\circ} 00' 35.7''$  west from Greenwich. It fronts east, and stands on a plateau eighty-eight feet above the level of the Potomac.

### THE ORIGINAL BUILDING.

The southeast corner-stone of the original building was laid on the 18th of September, 1793, by President Washington, with Masonic ceremonies. It is constructed of sandstone from quarries in Aquia Creek, Virginia. The work was done under the direction of Stephen H. Hallett, James Hoban, George Hadfield, and B. H. Latrobe, architects. The north wing was finished in 1800, and the south wing in 1811. A wooden passage way connected them. On the 24th of August, 1814, the interior of both wings was destroyed by fire, set by the British. The damage to the building was immediately repaired. In 1818 the central portion of the building was commenced, under the architectural superintendence of Charles Bulfinch. The original building was finally completed in 1827. Its cost, including the grading of the grounds, alterations, and repairs, up to 1827, was \$2,433,844.13.

### THE EXTENSIONS.

The corner-stone of the extensions was laid on the 4th of July, 1851, by President Fillmore Daniel Webster officiating as orator. This work was prosecuted under the architectural direction of Thomas U. Walter, till 1865, when he resigned. It was completed under the supervision of Edward Clark, the present Architect of the Capitol. The material used in the walls is white marble from the quarries at Lee, Massachusetts, and that in the column from the quarries at Cockeysville, Maryland. These extensions were first occupied for legislative purposes January 4, 1859.

### DIMENSIONS OF THE BUILDING.

The entire length of the building from north to south is seven hundred and fifty-one feet four inches, and its greatest dimension from east to west three hundred and fifty feet. The area covered by the building is one hundred and fifty-three thousand one hundred and twelve square feet.

### THE DOME.

The dome of the original central building was constructed of wood, covered with copper. This was replaced in 1856 by the present structure of cast-iron. It was completed in 1865. The entire weight of iron used is 8,909,200 pounds.

The dome is crowned by a bronze statue of Freedom, which is nineteen feet six inches high, and weighs 14,985 pounds. It was modeled by Crawford. The height of the dome above the base line of the east front is two hundred and eighty-seven feet five inches. The height from the top of the balustrade of the building is two hundred and seventeen feet eleven inches. The greatest diameter at the base is one hundred and thirty-five feet five inches.

The rotunda is ninety-five feet six inches in diameter, and its height from the floor to the top of the canopy is one hundred and eighty feet three inches.

The Senate Chamber is one hundred and thirteen feet three inches in length by eighty feet three inches in width and thirty-six feet in height. The galleries will accommodate one thousand persons.

The Representatives' Hall is one hundred and thirty-nine feet in length by ninety-three feet in width and thirty-six feet in height.

The room now occupied by the Supreme Court was, until 1859, occupied as the Senate Chamber. Previous to that time the court occupied the room immediately beneath, now used as a law library.

The Library of Congress occupies the entire western projection of the central Capitol building. The original library was commenced in 1800, but was destroyed with the Capitol in 1814 during the war with England. It was afterwards replenished by the purchase of the library belonging to ex-President Jefferson, by Congress, embracing about 7,000 volumes. In 1851 it contained 55,000 volumes, and by an accidental fire in that year the whole collection was destroyed except 20,000 volumes. It was rebuilt in 1852, when \$75,000 was appropriated in one sum to replenish the collection. The new library halls, three in number, are fitted up with ornamental iron cases and iron ceilings, the whole being perfectly fire-proof. The library is recruited by regular appropriations made by Congress, which average about \$11,000 per annum; also by additions received by copyright, by exchanges, and from the Smithsonian Institution. The library of the Smithsonian Institution has now been deposited in the Library of Congress, where it is secured against loss by fire. This collection is especially rich in scientific works, embracing the largest assemblage of the transactions of learned societies which exists in the country. The library was also enriched by the presentation to the Government, in 1882, of the large private library of Dr. Joseph M. Toner, of Washington, numbering over 27,000 volumes, besides nearly as many pamphlets. The donor, whose public spirit is worthy of emulation, adds to the collection annually. The library of copyright books was removed here from the Patent Office in 1870, and all copyrights issued in the United States are now recorded in the books deposited in the office of the Librarian of Congress. The present number of volumes in the whole library, including law books, which are kept in a separate library room under the Supreme Court, is over 680,000, besides about 220,000 pamphlets. A new building to contain its overflowing stores of learning and to afford room for their proper arrangement is in progress of erection, a liberal appropriation having been made by successive Congresses. This collection is very rich in history, political science, jurisprudence, and in books, pamphlets, and periodicals of American publication or relating in any way to America. At the same time the library is a universal one in its range, no department of literature or science being unrepresented. The public are privileged to use the books in the library, while members of Congress and about thirty official members of the Government only can take away books. The library is open every day (Sundays excepted) during the session of Congress, from 9 a. m. to the hour of adjournment. In the recess of Congress it is open between the hours of 9 a. m. and 4 p. m.

## COURT OF CLAIMS.

*Jurisdiction.*—This court was established by act of Congress, February 24, 1855 (10 Stat. L., 612). It has general jurisdiction of all "claims founded upon the Constitution of the United States or any law of Congress, except for pensions, or upon any regulation of an Executive Department, or upon any contract, expressed or implied, with the Government of the United States, or for damages, liquidated or unliquidated, in cases not sounding in tort, in respect of which claims the party would be entitled to redress against the United States, either in a court of law, equity, or admiralty, if the United States were suable, except claims growing out of the late civil war, and commonly known as war claims," and certain rejected claims.

It has jurisdiction also of claims of like character which may be referred to it by any Executive Department, involving disputed facts or controverted questions of law, where the amount in controversy exceeds \$3,000, or where the decision will affect a class of cases or furnish a precedent for the future action of any Executive Department in the adjustment of a class of cases, or where any authority, right, privilege, or exemption is claimed or denied under the Constitution. In all the above-mentioned cases the court, when it finds for the claimant, may enter judgment against the United States, payable out of the public Treasury. An appeal, only upon questions of law, lies to the Supreme Court on the part of the defendants in all cases, and on the part of the claimants when the amount in controversy exceeds \$3,000. The findings of fact by the Court of Claims are final and not subject to review by the Supreme Court.

By the act of March 3, 1883, chapter 116 (22 Stat. L., 485, and 1 Supplement to R. S., 2d ed., p. 403), called the "Bowman act," the head of an Executive Department may refer to the court any "claim or matter" pending in his Department involving controverted questions of fact or law. The court is required to find the facts and its conclusions of law and to report the same to the Department for its guidance and action. The same act authorizes either House of Congress, or any of its committees, to refer to the court any "claim or matter" involving the investigation and determination of facts, the court to find the facts and report the same to Congress for such action thereon as may there be determined. This act is extended by act of March 2, 1887, chapter 359 (24 Stat. L., 505, and 1 Supplement to R. S., 2d ed., p. 559).

There is a statute of limitations which prevents parties from bringing actions on their own motion beyond six years after the cause of action accrued, but the Departments may refer claims at any time, if they were pending therein within the six years. The only limitation under the "Bowman act" is that the court shall have no jurisdiction of any claim barred before the passage of the act by any then existing provision of law.

By act of January 20, 1885 (23 Stat. L., 283, and 1 Supplement to R. S., 2d ed., p. 471), Congress gave to the court jurisdiction over "claims to indemnity upon the French Government arising out of illegal captures, detentions, seizures, condemnations, and confiscations prior to the ratification of the convention between the United States and the French Republic, concluded on the 30th day of September, 1800." The time of filing claims is limited to two years from the passage of the act, and all claims not presented within that time are forever barred. The court finds the facts and the law, and reports the same in each case to Congress.

By act of March 3, 1891, chapter 538 (26 Stat. L., 851, and Supplement to R. S., 2d ed., p. 913), the court is vested with jurisdiction of certain Indian depredation claims.

There are five judges, who sit together in the hearing of cases, the concurrence of three of whom is necessary for the decision of any case.

*Term.*—The court sits at Washington, D. C., in the Department of Justice Building, 1509 Pennsylvania avenue, on the first Monday in December each year, and continues into the following summer and until all cases ready for trial are disposed of. Cases may be commenced and entered at any time, whether the court be in session or not.
