FOREWORD

The *Congressional Directory* is one of the oldest working handbooks within the United States Government. While there were unofficial directories for Congress in one form or another beginning with the 1st Congress in 1789, the Congressional Directory published in 1847 for the 30th Congress is considered by scholars and historians to be the first official edition because it was the first to be ordered and paid for by Congress. With the addition of biographical sketches of legislators in 1867, the Congressional Directory attained its modern format.

The Congressional Directory is published by the United States Senate in partnership with the Government Printing Office, at the direction of the Joint Committee on Printing under the authority of Title 44, Section 721 of the U.S. Code.
