THE DIRECTOR

The President

The White House

Submitted for your consideration is a request to make available emergency appropriations for the Federal Emergency Management Agency (FEMA). Your approval of this request would make available previously appropriated funds to FEMA in order to provide a community disaster loan to the North Coast Railroad Authority (NCRA).

Public Law 103-327, the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, FY 1995, provided a \$12,500,000 contingent emergency appropriation for the community disaster loan program, authorized under section 417 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act. The availability of these funds was made contingent upon the President submitting a budget request to the Congress and designating the entire amount requested as an emergency requirement. None of the \$12,500,000 has yet been designated as an emergency requirement and made available. Of the total available, \$537,223 is now requested to enable FEMA to make a loan to the NCRA in the amount of \$615,658 at the 1996 budget execution subsidy rate of 87.26 percent. The NCRA, which is an eligible applicant under section 417 of the Stafford Act, suffered a loss of revenue due to damages from a winter storm that struck the northern coast of California in early 1993.

I recommend that you designate this request as an emergency funding requirement in accordance with section 251(b)(2)(D)(i) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended.

I have carefully reviewed this proposal and am satisfied that it is necessary at this time. Therefore, I join the Director of the Federal Emergency Management Agency in recommending that you make the requested funds available by signing the enclosed letter to the Speaker of the House of Representatives. No further congressional action will be required.

Sincerely,

Alice M. Rivlin
Director

Title VI, Emergency Supplemental Appropriations, contained in Public Law 103-327, the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, FY 1995, provided \$12.5 million for the community disaster loan program (section 417 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act). The availability of these funds was made contingent upon the President submitting a budget request to the Congress and designating the entire amount requested as an emergency requirement. None of the \$12.5 million has yet been designated as an emergency requirement and made available.

At this time, \$537,223 in subsidy budget authority is required to enable the Federal Emergency Management Agency to provide a community disaster loan to the North Coast Railroad Authority (NCRA) in the amount of \$615,658. The NCRA, which is an eligible applicant under section 417 of the Stafford Act, suffered a loss of revenue due to damages from a winter storm that struck the northern coast of California in early 1993 (for which a Presidential disaster declaration was made on February 2, 1993).
