

THE UNITED STATES-SINGAPORE FREE TRADE
AGREEMENT

MESSAGE

FROM

THE PRESIDENT OF THE UNITED STATES

TRANSMITTING

A DRAFT OF PROPOSED LEGISLATION AND SUPPORTING DOCUMENTS TO IMPLEMENT THE UNITED STATES-SINGAPORE FREE TRADE AGREEMENT (FTA), PURSUANT TO 19 U.S.C. 3805(a)(1)(A) AND (B)

JULY 16, 2003.—Message and accompanying papers referred to the Committees on Ways and Means and the Judiciary, and ordered to be printed

U.S. GOVERNMENT PRINTING OFFICE

To the Congress of the United States:

I am pleased to transmit legislation and supporting documents to implement the United States-Singapore Free Trade Agreement (FTA). The Agreement will further open Singapore's markets and increase competition and consumer choice. This is America's first FTA with an Asian-Pacific nation, and we hope it will serve as a benchmark for future free trade agreements with other nations in the region. The Agreement will enhance prosperity in the United States and Singapore, serve the interest of expanding U.S. commerce, and advance our overall national interest.

My Administration is strongly committed to securing a level playing field for America's workers, farmers, and businesses. The Congress helped advance that policy by passing Trade Promotion Authority in the Trade Act of 2002 (the "Trade Act"). The Congress can help us take another important step by approving this Agreement and the implementing legislation. Without this Agreement, U.S. workers and businesses could be placed at a competitive disadvantage, because Singapore has signed or is currently working on free trade agreements with Japan, Canada, Australia, Mexico, and India.

In negotiating this FTA, my Administration was guided by the negotiating objectives set out in the Trade Act. The Agreement locks in tariff-free access for all U.S. goods, including textile and agriculture products, and addresses other barriers to trade. It opens opportunities for our services businesses, which now account for nearly 65 percent of our gross domestic product and more than 80 percent of employment in the United States. Through this FTA, Singapore will grant substantial additional market access to U.S. firms across a broad spectrum of services, including banking, insurance, securities and related financial services, express delivery services, professional services, and telecommunications. The Agreement also incorporates commitments on regulatory transparency that will be of special help to services businesses.

This Agreement provides state-of-the-art intellectual property protection, including significant commitments on trade in digital products. It ensures that electronic commerce will stay free of duties and discriminatory rules. In addition, Singapore will accede to international treaties dealing with copyright and access issues for the Internet.

United States citizens and businesses that invest in Singapore will have significant increased protections. This Agreement enhances transparency and openness in order to foster a more secure environment for trade and investment. Furthermore, Singapore will provide U.S. investors with important substantive protections that Singaporean investors already enjoy in the United States.

Singapore and the United States have also agreed to cooperate on the environment and labor issues and to establish mechanisms

to support those efforts. The FTA obligates each country to enforce its own labor and environmental laws and makes clear that domestic labor or environmental protections may not be reduced in order to encourage trade or investment. The Agreement also preserves our right to pursue other legitimate domestic objectives, including the protection of health and safety, consumer interests, and national security.

Trade and openness contribute to development, the rule of law, economic growth, and international cooperation. Singapore is a close partner of the United States, and this Agreement will strengthen those ties.

With the approval of this Agreement and passage of the implementing legislation by the Congress, we will advance U.S. economic, security, and political interests, while encouraging others to work with us to expand free trade around the world.

GEORGE W. BUSH.

THE WHITE HOUSE, *July 15, 2003*.

CHAPTER 3 : RULES OF ORIGIN

SECTION A : ORIGIN DETERMINATION

ARTICLE 3.1 : ORIGINATING GOODS

For purposes of this Agreement, an **originating good** means a good:

- (a) wholly obtained or produced entirely in the territory of one or both of the Parties;
or
- (b) that has satisfied the requirements specified in Annex 3A; or
- (c) otherwise provided as an originating good under this Chapter.

ARTICLE 3.2 : TREATMENT OF CERTAIN PRODUCTS

1. Each Party shall provide that a good listed in Annex 3B is an originating good when imported into its territory from the territory of the other Party.
2. Within six months after entry into force of this Agreement, the Parties shall meet to explore the expansion of the product coverage of Annex 3B. The Parties shall consult regularly to review the operation of this Article and consider the addition of goods to Annex 3B.³⁻¹

ARTICLE 3.3 : DE MINIMIS

1. Each Party shall provide that a good that does not undergo a change in tariff classification pursuant to Annex 3A is nonetheless an originating good if:
 - (a) the value of all non-originating materials used in the production of the good that do not undergo the required change in tariff classification does not exceed 10 percent of the adjusted value of the good; and
 - (b) the good meets all other applicable criteria set forth in this Chapter for qualifying as an originating good.

The value of such non-originating materials shall, however, be included in the value of non-originating materials for any applicable regional value content requirement for the good.

³⁻¹ Such consultations may include meetings of the Joint Committee pursuant to Article 20.1 (Joint Committee).

2. Paragraph 1 does not apply to:

- (a) a non-originating material provided for in chapter 4 of the Harmonized System or in subheading 1901.90 that is used in the production of a good provided for in chapter 4 of the Harmonized System;
- (b) a non-originating material provided for in chapter 4 of the Harmonized System or in subheading 1901.90 that is used in the production of a good provided for in the following provisions: subheadings 1901.10, 1901.20 or 1901.90; heading 2105; or subheadings 2106.90, 2202.90, or 2309.90;
- (c) a non-originating material provided for in heading 0805 or subheadings 2009.11 through 2009.30 that is used in the production of a good provided for in subheadings 2009.11 through 2009.30, or subheadings 2106.90 or 2202.90;
- (d) a non-originating material provided for in chapter 15 of the Harmonized System that is used in the production of a good provided for in headings 1501 through 1508, 1512, 1514 or 1515;
- (e) a non-originating material provided for in heading 1701 that is used in the production of a good provided for in headings 1701 through 1703;
- (f) a non-originating material provided for in chapter 17 of the Harmonized System or heading 1805 that is used in the production of a good provided for in subheading 1806.10;
- (g) a non-originating material provided for in headings 2203 through 2208 that is used in the production of a good provided for in headings 2207 or 2208; and
- (h) a non-originating material used in the production of a good provided for in Chapters 1 through 21 of the Harmonized System unless the non-originating material is provided for in a different subheading than the good for which origin is being determined under this Article.

For purposes of this paragraph, **heading** and **subheading** mean, respectively, a heading and subheading of the Harmonized System.

3. A textile or apparel good provided for in Chapters 50 through 63 of the Harmonized System that is not an originating good, because certain fibers or yarns used in the production of the component of the good that determines the tariff classification of the good do not undergo an applicable change in tariff classification set out in Annex 3A, shall nonetheless be considered to be an originating good if the total weight of all such fibers or yarns in that component is not more than seven percent of the total weight of that component. Notwithstanding the preceding sentence, a textile or apparel good containing elastomeric yarns in the component of the good

that determines the tariff classification of the good shall be an originating good only if such yarns are wholly formed in the territory of a Party.

ARTICLE 3.4 : ACCUMULATION

1. Originating materials from the territory of a Party, used in the production of a good in the territory of the other Party, shall be considered to originate in the territory of the other Party.

Singapore also shall

require each registered enterprise that produces textile or apparel goods to maintain in Singapore records relating to its production capabilities in general, the number of persons it employs, and any other records and information sufficient to allow officials of each Party to verify the enterprise's production and exportation of textile or apparel goods, including:

6. Singapore shall establish and maintain a program to ensure that textile and apparel goods that are imported into or exported from Singapore or that are processed or manipulated in a free trade zone in Singapore en route to the United States are marked with the correct country of origin and that the documents accompanying the goods accurately describe the goods. This program shall provide for:

- (a) immediate referral by Singapore officials of suspected violations of either Party's laws relating to intentional circumvention to the appropriate enforcement authorities; and
- (b) not later than 14 days after the resolution of the matter,⁵⁻¹ issuance by Singapore to the United States of a written report of

ARTICLE 5.4 : COOPERATION

General

1. In furtherance of Article 5.2.1(b), on request, a Party shall, in a manner consistent with its laws and procedures,
 - (a) promptly obtain from an enterprise and provide to the other Party, to the extent available, all correspondence, reports, bills of lading, invoices, order confirmations, and other documents or information, relevant to circumvention, that the requesting Party considers may have taken place; and
 - (b) facilitate the gathering by the other Party's enforcement authorities of information relevant to circumvention, including, as appropriate, by conducting site visits or establishing contacts with persons in the Party's territory.

Any request for cooperation under this Article shall be made in writing and shall include a brief statement of the matter at issue and the cooperation requested.

Site Visits

2. A Party seeking to conduct site visits in the territory of the other Party shall provide a written request to the host Party's competent authority not less than 14 days before the proposed dates of the visits. The request shall identify the number of enterprises to be visited, the proposed dates of the visits, and the reason for the visits, but need not specify the identities of the enterprises to be visited.
3. The competent authority shall be prohibited from informing any person, other than officials of the host Party directly responsible for organizing the site visits, of the request and its contents. The host Party shall prohibit those officials and any other person in its territory from notifying an enterprise in advance of a visit. The responsible officials of the host Party shall seek permission to conduct a site visit from a responsible person at the enterprise at the time of the visit.
4. Responsible officials of the Party seeking to conduct site visits in the territory of the other Party shall conduct such visits together with responsible officials of the host Party and in

accordance with the laws of the host Party. On completion of a site visit, the requesting Party shall brief the responsible officials of the host Party and shall subsequently provide to that Party a written report of the results of the visit. The written report shall include:

5. If the responsible person at an enterprise proposed to be visited denies permission for the site visit to occur:

- (a) the visit shall not occur;
- (b) the host Party shall not issue any visas or export licenses that may be required to accompany textile or apparel goods that the enterprise produces or exports when such goods are exported to the requesting Party, until the host Party determines that the enterprise's production of and capability to produce such goods is consistent with claims that textile or apparel goods it produces or has produced are originating goods or products of the host Party; and
- (c) the requesting Party may deny entry of textile or apparel goods produced or exported by the enterprise until that Party determines that the enterprise's production of and capability to produce such goods is consistent with claims that textile or apparel goods it produces or has produced are originating goods or products of the host Party.

6. Permission for a site visit shall be deemed to have been denied if the enterprise does not allow the responsible officials of the requesting Party access to:

Establishing Facts

7. If a Party suspects that circumvention has occurred, on its request the other Party shall facilitate the gathering of the facts necessary for the requesting Party to determine whether circumvention has occurred. If a Party determines that circumvention has occurred, on its request the other Party shall facilitate the requesting Party's establishment of any additional facts necessary to take enforcement action and to prevent circumvention. This paragraph applies to circumvention or suspected circumvention with regard to importation, exportation, processing or manipulation in a free trade zone, or transshipment.⁵⁻²

8. If a Party requests the other Party to examine transshipped textile or apparel goods, its officials shall endeavor to examine such goods.⁵⁻³

9. When a Party makes a request under paragraph 7 with respect to a particular shipment, it shall, to the extent possible, notify the other Party of: the importer, the exporter, the country of origin, the dates on which the shipment was entered, the port or ports of entry, and the cargo description or Harmonized System subheading of the goods.

ARTICLE 5.5 : ENFORCEMENT

1. In furtherance of Article 5.2.1, each Party shall vigorously investigate claims of violations of laws relating to circumvention and, where appropriate, bring enforcement action to address any such violations.

2. If Singapore discovers conduct by an enterprise that it suspects is a violation of either Party's laws relating to circumvention, and the conduct has not been noted in a report under Article 5.3.4, Singapore shall note the conduct in a report provided to the United States not later than 14 days after the discovery. If Singapore suspects that the conduct noted in a report under

⁵⁻² Singapore shall ensure that its officials have the authority to examine textile and apparel goods imported into Singapore, exported from Singapore, processed or manipulated in a free trade zone, or transshipped in Singapore en route to the United States, to ascertain that these goods correctly identify their country of origin, that the documents accompanying the goods correctly describe the goods, and that information that Singapore officials discover in the course of such examinations may be shared with the United States.

⁵⁻³ With regard to transshipped textile or apparel goods that are not claimed to be originating goods or products of Singapore, and that do not undergo processing or manipulation in a free trade zone, Singapore is not required to take any action other than to share information about such goods with the United States.

either the first sentence of this paragraph or Article 5.3.4 involves intentional circumvention, it shall immediately investigate and report the results of the investigation to the United States within 14 days of the conclusion of the investigation. In that case, Singapore shall also immediately initiate a detailed review of all textile and apparel goods that the enterprise has produced for exportation to the United States or exported to the United States during the six months preceding the date that Singapore discovered the conduct. Singapore shall prepare a report describing the results of that review and shall transmit that report to the United States no later than 60 days after it provides the report called for under the first sentence of this paragraph or under Article 5.3.4. The Parties may agree, in light of the facts of a particular review, to extend this 60-day period.

3. A report describing the results of a review of textile and apparel goods conducted pursuant to paragraph 2 shall include the following:

- (a) the name and address of the enterprise investigated;
- (b) the nature of the suspected violation (for example, failure to maintain adequate production records, or making false statements relating to country of origin or production);

- (d) any penalty imposed or other action taken;
- (e) the identification numbers of the visas or export licenses corresponding to the goods and of all visas or export licenses that Singapore has issued to the enterprise during the 12 months before the date on which the conduct was discovered. If no visa or export license numbers are available, the report shall include the invoice number and date of export for each exportation of goods to the United States;
- (f) the product category, description, and quantity of the goods included in the exportations to the United States; and
- (g) purchase orders, bills of lading, contracts, payment records, invoices, and other records indicating the origin of the goods included in the exportations to the United States, and information identifying the importer of those goods in the United States, if Singapore possesses such information.

4. If Singapore finds that an enterprise has engaged in intentional circumvention, it shall take effective enforcement action, which shall include denying permission for an appropriate period for textile or apparel goods that the enterprise produces or exports to be exported to the United States.

5. (a) If a Party finds that an enterprise in its territory or operating under the Outward Processing Arrangement:

- (i) has failed to maintain or produce records in accordance with the Party's laws adopted or maintained in accordance with this Chapter,⁵⁻⁴ or
- (ii) has engaged in conduct inconsistent with the Party's law that was intended to or did in fact result in circumvention,

and if the Party requires a visa or export license to accompany exportations of textile or apparel goods to the territory of the other Party, then beginning on the date of the finding, the Party shall not issue, for a period at least as long as the applicable period described in paragraph 6, such a visa or export license to the enterprise.

- (b) If the United States finds that an enterprise of Singapore has engaged in intentional circumvention, then beginning on the date of the finding it may deny entry into the United States, during a period no longer than the applicable period described in paragraph 6, of textile or apparel goods that the enterprise has produced or exported.
6. (a) With respect to a first finding under paragraph 5(a) or a first finding under paragraph 5(b), the applicable period is six months.
- (b) With respect to a second finding under paragraph 5(a) or a second finding under paragraph 5(b), the applicable period is two years.
- (c) With respect to any further finding under paragraph 5(a) or 5(b), the applicable period shall be two years, except that where measures a Party imposed with respect to the enterprise as a result of an earlier finding under paragraph 5(a) or 5(b) are still in effect, the applicable period shall be extended by the period remaining before those measures expire.

ARTICLE 5.6 : INFORMATION SHARING

1. Within three months after the date this Chapter takes effect, Singapore shall notify the United States in writing of the names of all registered enterprises. Thereafter, Singapore shall provide the names of any newly registered, de-registered, or re-registered enterprises in written, quarterly updates to the United States.

2. At the time Singapore notifies the United States of a registered enterprise, it shall supply profile information to the United States regarding the enterprise, and shall update the information annually. This information shall include:

2. A Party shall not disclose to a non-Party for law enforcement purposes or in connection with judicial proceedings information relating to intentional circumvention that the other Party has provided to the Party pursuant to Article 5.3, 5.4, 5.5 or 5.6, unless the other Party consents to the disclosure.
3. - (b) If a Party makes public the name of an enterprise as described in sub-paragraph (a) and the finding underlying the disclosure is based on information provided by the other Party pursuant to Article 5.3, 5.4, 5.5 or 5.6, the Party making the disclosure shall not disclose the information provided by the other Party or the fact that it based its finding on information provided by the other Party, unless the other Party consents to the disclosure of such information or such fact.

1. A Party may request consultations with the other Party under this Article, with a view to seeking a mutually satisfactory solution, if it believes that:

- (a) the other Party is not complying with the terms of this Agreement relating to textile and apparel goods;
- (b) circumvention relating to trade between the Parties is occurring; or
- (c) the other Party is failing to effectively enforce its laws regarding circumvention.

Unless the Parties agree otherwise, they shall commence consultations within 30 days of a Party's receipt of a written request by the other Party and conclude consultations within 90 days of the Party's receipt of the written request.

2. If the Parties are unable to reach a mutually satisfactory solution under paragraph 1 and the United States has presented to Singapore clear evidence that circumvention has occurred, the United States may reduce the quantity of textile and apparel goods that may be imported into its territory from Singapore by an amount not to exceed three times the quantity of goods involved in the circumvention. In addition, the United States may revoke any preferential tariff treatment provided pursuant to this Agreement to the goods involved in the circumvention, and deny such treatment, for a period not to exceed four years, to any textile or apparel goods produced by an enterprise found to have engaged in such circumvention, including any successor of the enterprise and any other entity owned or operated by a principal of the enterprise, if such entity, of which that person is a principal, produces textile or apparel goods.⁵⁻⁵

- (a) suspend the further reduction of any rate of duty provided for under this Agreement on the good; or
 - (b) increase the rate of duty on the good to a level not to exceed the lesser of:
 - (i) the most-favored-nation ("MFN") applied rate of duty in effect at the time the action is taken, and
 - (ii) the MFN applied rate of duty in effect on the date of entry into force of this Agreement.
2. In determining serious damage, or actual threat thereof, the Party:
- (a) shall examine the effect of increased imports on the particular industry, as reflected in changes in such relevant economic variables as output, productivity, utilization of capacity, inventories, market share, exports, wages, employment, domestic prices, profits, and investment, none of which is necessarily decisive; and
 - (b) shall not consider changes in technology or consumer preference as factors supporting a determination of serious damage or actual threat thereof.
3. A Party shall deliver without delay written notice of its intent to take action under this Article to the other Party, and shall enter into consultations with that Party.
4. The following conditions and limitations apply to any action taken under paragraph 1:
- (a) no action may be maintained for a period exceeding two years, except that the period may be extended by up to two years if the competent authorities of the Party applying the action determine, in conformity with the procedures set out in this Article, that the action continues to be necessary to prevent or remedy serious damage and to facilitate adjustment by the domestic industry, and that there is evidence that the industry is adjusting;

- (b) no action may be taken by a Party against any particular good of the other Party more than once during the transition period; and
- (c) on termination of the action, the rate of duty shall be the rate that would have been in effect but for the action.

5. The Party taking an action under paragraph 1 shall provide to the Party against whose good the action is taken mutually agreed trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the emergency action. Such concessions shall be limited to textile and apparel goods, unless the Parties otherwise agree. If the Parties concerned are unable to agree on compensation within 30 days in the consultations under paragraph 3, the exporting Party may take action with respect to textile and apparel goods of the other Party that has trade effects substantially equivalent to the action taken under paragraph 1. The Party taking such action shall apply the action only for the minimum period necessary to achieve the substantially equivalent effects. However, the right to take such action shall not be exercised for the first 24 months that the action pursuant to paragraph 1 is in effect, provided that the action pursuant to paragraph 1 has been applied as a result of an absolute increase in imports and that such emergency action conforms to the provisions of this Article.

6. Nothing in this Article shall be construed to affect a Party's rights and obligations under Chapter 7, except that an action under this Article shall be considered a "safeguard measure" for purposes of Article 7.2.7 (Conditions and Limitations). Nothing in Chapter 7 shall be construed to affect a Party's rights and obligations under this Article.

If a Party takes a provisional measure pursuant to Article 7.3, the Party shall also notify the other Party prior to taking such measure, and shall initiate consultations with the other Party immediately after such measure is taken.
2. A Party shall take a measure only following an investigation by that Party's competent authorities in accordance with Articles 3 and 4.2(c) of the WTO Agreement on Safeguards; and to this end, Articles 3 and 4.2(c) of the WTO Agreement on Safeguards are incorporated into and made a part of this Agreement, *mutatis mutandis*.

3. In the investigation described in paragraph 2, a Party shall comply with the requirements of Article 4.2(a) and (b) of the WTO Agreement on Safeguards; and to this end, Article 4.2(a) and (b) are incorporated into and made a part of this Agreement, *mutatis mutandis*.
4. Negative injury determinations shall not be subject to modification, except pursuant to reviews by judicial or administrative tribunals, to the extent provided under domestic legislation.
5. The investigation shall in all cases be completed within one year following its date of institution.
6. No measure may be maintained:
 - (a) except to the extent and for such time as may be necessary to prevent or remedy serious injury and to facilitate adjustment;
 - (b) for a period exceeding two years; except that the period may be extended by up to two years if the competent authorities determine, in conformity with the procedures set out in paragraphs 1 through 5, that the measure continues to be necessary to prevent or remedy serious injury and to facilitate adjustment and that there is evidence that the industry is adjusting; or
 - (c) beyond the expiration of the transition period, except with the consent of the Party against whose originating good the measure is taken.
7. No measure may be applied against the same originating good on which a measure has been taken or that has been subject to any other safeguard measure⁷⁻¹ since the date of entry into force of the Agreement.
8. Where the expected duration of the measure is over one year, the importing Party shall progressively liberalize it at regular intervals during the period of application.
9. Upon the termination of the measure, the rate of customs duty shall be the rate which would have been in effect but for the measure.

ARTICLE 7.3 : PROVISIONAL MEASURES

In critical circumstances where delay would cause damage which it would be difficult to repair, a Party may take a measure described in Article 7.1(a), (b) or (c) on a provisional basis pursuant to a preliminary determination that there is clear evidence that imports from the other Party have increased as the result of the reduction or elimination of a customs duty under this Agreement, and such imports constitute a substantial cause of serious injury, or threat thereof, to the domestic industry. The duration of such provisional measure shall not exceed 200 days, during

⁷⁻¹ The Parties understand that "safeguard measure" does not include antidumping or countervailing measures.

which time the requirements of Articles 7.2.2 and 7.2.3 shall be met. Any tariff increases shall be promptly refunded if the investigation described in Article 7.2.2 does not result in a finding that the requirements of Article 7.1 are met. The duration of any provisional measure shall be counted as part of the period described in Article 7.2.6(b).

ARTICLE 7.4 : COMPENSATION

The Party applying a measure described in Article 7.1 shall provide to the other Party mutually agreed trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the measure. If the Parties are unable to agree on compensation within 30 days in the consultations under Article 7.2, the Party against whose originating good the measure is applied may take action with respect to originating goods of the other Party that has trade effects substantially equivalent to the measure described in Article 7.1. The Party taking such action shall apply the action only for the minimum period necessary to achieve the substantially equivalent effects, and in any event, only while the measure under Article 7.1 is being applied.

ARTICLE 7.5 : GLOBAL SAFEGUARD MEASURES

Each Party retains its rights and obligations under Article XIX of GATT 1994 and the WTO Agreement on Safeguards. This Agreement does not confer any additional rights or obligations on the Parties with regard to global safeguard measures, except that a Party taking a global safeguard measure may exclude imports of an originating good from the other Party if such imports are not a substantial cause of serious injury or threat thereof.

 - (a) based on objective and transparent criteria, such as competence and the ability to supply the service;
 - (b) not more burdensome than necessary to ensure the quality of the service; and
 - (c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.
3. If the results of the negotiations related to Article VI:4 of GATS (or the results of any similar negotiations undertaken in other multilateral fora in which both Parties participate) enter into effect, this Article shall be amended, as appropriate, after consultations between the Parties, to bring those results into effect under this Agreement. 2. Where a Party recognizes, autonomously or by agreement or arrangement, the education or experience obtained, requirements met or licenses or certifications granted in the territory of a non-Party, nothing in Article 8.4 shall be construed to require the Party to accord such recognition to the education or experience obtained, requirements met or licenses or certifications granted in the territory of the other Party.

3. A Party that is a party to an agreement or arrangement of the type referred to in paragraph 1, whether existing or future, shall afford adequate opportunity for the other Party, if the other Party is interested, to negotiate its accession to such an agreement or arrangement or to negotiate comparable ones with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that education, experience, licenses, or certifications obtained or requirements met in that other Party's territory should be recognized.

4. A Party shall not accord recognition in a manner which would constitute a means of discrimination between countries in the application of its standards or criteria for the authorization, licensing or certification of services suppliers, or a disguised restriction on trade in services.

5. Annex 8C applies to measures by a Party relating to the licensing or certification of professional service suppliers as set out in the provisions of that Annex.

- (b) the service is being supplied by an enterprise that has no substantial business activities in the territory of the other Party and it is owned or controlled by persons of a non-Party or the denying Party.

ARTICLE 8.12 : TRANSPARENCY IN DEVELOPMENT AND APPLICATION OF REGULATIONS

⁸⁻⁵ The Parties understand that “regulation” includes regulations establishing or applying to licensing authorization or criteria.

CHAPTER 9 : TELECOMMUNICATIONS**ARTICLE 9.1 : SCOPE AND COVERAGE**

1. This Chapter applies to measures affecting trade in telecommunications services.
2. This Chapter does not apply to any measure adopted or maintained by a Party relating to cable or broadcast distribution of radio or television programming.^{9.1}
3. Nothing in this Chapter shall be construed to:
 - (a) require a Party (or require a Party to compel any enterprise) to establish, construct, acquire, lease, operate, or provide telecommunications transport networks or telecommunications services where such networks or services are not offered to the public generally; or
 - (b) require a Party to compel any enterprise engaged in the cable or broadcast distribution of radio or television programming to make available its cable or broadcast facilities as a public telecommunications transport network, unless a Party specifically designates such facilities as such.

ARTICLE 9.2 : ACCESS TO AND USE OF PUBLIC TELECOMMUNICATIONS TRANSPORT NETWORKS AND SERVICES^{9.2}

1. Each Party shall ensure that enterprises of the other Party have access to and use of any public telecommunications transport network and service, including leased circuits, offered in its territory or across its borders on reasonable, non-discriminatory (including with respect to timeliness), and transparent terms and conditions, including as set out in paragraphs 2 through 4.
2. Each Party shall ensure that such enterprises are permitted to:
 - (a) purchase or lease, and attach terminal or other equipment that interfaces with the public telecommunications network;
 - (b) provide services to individual or multiple end-users over any leased or owned circuit(s);

^{9.1} For greater certainty, Singapore's obligations under this Chapter shall not apply to measures adopted or maintained relating to broadcasting services as defined in Singapore's Schedule to Annex 8B.

^{9.2} This Article does not apply to access to unbundled network elements, including access to leased circuits as an unbundled network element, which is addressed in Article 9.4.3.

- (c) connect leased or owned circuits with public telecommunications transport networks and services in the territory, or across the borders, of that Party, or with circuits leased or owned by another enterprise;

4. Notwithstanding paragraph 3, a Party may take such measures as are necessary to

- (a) ensure the security and confidentiality of messages; or
- (b) protect the privacy of customer proprietary network information;

subject to the requirement that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination or a disguised restriction on trade in services.

ARTICLE 9.3 : INTERCONNECTION WITH SUPPLIERS OF PUBLIC TELECOMMUNICATIONS SERVICES

1. Each Party shall ensure that suppliers of public telecommunications services in its territory provide, directly or indirectly, interconnection with the facilities and equipment of suppliers of public telecommunications services of the other Party.

2. In carrying out paragraph 1, each Party shall ensure that suppliers of public telecommunications services in its territory take reasonable steps to protect the confidentiality of proprietary information of, or relating to, suppliers and end-users of public telecommunications services and only use such information for the purpose of providing public telecommunications services.

81

ARTICLE 9.4 : CONDUCT OF MAJOR SUPPLIERS^{9-3 9-4}

Treatment by Major Suppliers

1. Each Party shall ensure that any major supplier in its territory accords suppliers of public telecommunications services of the other Party treatment no less favorable than such major supplier accords to itself, its subsidiaries, its affiliates, or any non-affiliated service supplier regarding:

- (a) the availability, provisioning, rates, or quality of like public telecommunications services; and
- (b) the availability of technical interfaces necessary for interconnection.

A Party shall assess such treatment on the basis of whether such suppliers of public telecommunications services, subsidiaries, affiliates, and non-affiliated service suppliers are in like circumstances.

Competitive Safeguards

- 2. (a) Each Party shall maintain appropriate measures for the purpose of preventing suppliers of public telecommunications services who, alone or together, are a major supplier in its territory from engaging in or continuing anti-competitive practices.
- (b) For purposes of subparagraph (a), anti-competitive practices include:
 - (i) engaging in anti-competitive cross-subsidization;
 - (ii) using information obtained from competitors with anti-competitive results; and
 - (iii) not making available, on a timely basis, to suppliers of public telecommunications services, technical information about essential facilities and commercially relevant information that is necessary for them to provide public telecommunications services.

⁹⁻³ For the purpose of the United States' obligations, Article 9.4 does not apply to rural telephone companies, as defined in section 3(37) of the Communications Act of 1934, as amended by the Telecommunications Act of 1996, unless a state regulatory authority orders otherwise. Moreover, a state regulatory authority may exempt a rural local exchange carrier, as defined in section 251(f)(2) of the Communications Act of 1934, as amended by the Telecommunications Act of 1996, from the obligations contained in Article 9.4.

⁹⁻⁴ Article 9.4 does not apply to suppliers of commercial mobile services.

Unbundling of Network Elements

3. (a) Recognizing that both Parties currently provide for access to unbundled network elements, each Party shall provide its telecommunications regulatory body the authority to require that major suppliers in its territory provide suppliers of public telecommunications services of the other Party access to network elements on an unbundled basis at terms, conditions, and cost-oriented rates, that are reasonable, non-discriminatory (including with respect to timeliness), and transparent for the supply of public telecommunications services.
- (b) Which network elements will be required to be made available in the territory of a Party, and which suppliers may obtain such elements, shall be determined in accordance with national law and regulation.
- (c) In determining the network elements to be made available, a Party's telecommunications regulatory body shall consider, at a minimum, in accordance with national law and regulation:
 - (i) whether access to such network elements as are proprietary in nature are necessary; and whether the failure to provide access to such network elements would impair the ability of suppliers of public telecommunications services of the other Party to provide the services it seeks to offer; or
 - (ii) whether the network elements can be replicated or obtained from other sources at reasonable rates, such that the unavailability of these network elements from the major supplier will not impair the ability of other suppliers of public telecommunications services to provide a competing service; or
 - (iii) whether the network elements are technically or operationally required for the provision of a competing service; or
 - (iv) other factors as established in national law;
 as that body construes these factors.

4. (a) Each Party shall ensure that major suppliers in its territory provide to suppliers of public telecommunications services of the other Party physical co-location, at premises owned or controlled by the major supplier, of equipment necessary for interconnection or access to unbundled network elements on terms and conditions, and at cost-oriented rates, that are reasonable, non-discriminatory (including with respect to timeliness), and transparent.

- (b) Where physical co-location is not practical for technical reasons or because of space limitations, each Party shall ensure that major suppliers in its territory provide or facilitate virtual co-location on terms and conditions, and at cost-oriented rates, that are reasonable, non-discriminatory (including with respect to timeliness), and transparent.
- (c) Each Party may determine, in accordance with national law and regulation, which premises in its territory shall be subject to subparagraphs (a) and (b)

 - (b) Nothing shall prevent a Party from determining, under its domestic law and regulation, which particular structures owned or controlled by the major suppliers in its territory, are required to be made available in accordance with paragraph (a) provided that this is based on a determination that such structures cannot feasibly

⁹⁻⁵ In the United States, a wholesale rate set pursuant to domestic law and regulation shall be considered to be reasonable for purposes of subparagraph (a). In Singapore, wholesale rates are not required by the telecommunications regulatory body and therefore are not factored into a determination of what is considered to be reasonable for the purposes of subparagraph (a).

⁹⁻⁶ In the United States, a reseller that obtains at wholesale rates a telecommunications service that is available at retail only to a category of subscribers may be prohibited from offering such service to a different category of subscribers. In Singapore, where national law and regulation provides for this, resellers that obtain public telecommunications services available at retail only to a category of subscribers at particular rates may be prohibited from offering such service to a different category of subscribers at that particular rate.

⁹⁻⁷ In the United States, this obligation may not apply to those states that regulate such rates as a matter of state law.

- (iv) in a timely fashion, on terms, conditions, (including technical standards and specifications), and cost-oriented rates, that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the service to be provided; and
- (v) upon request, at points in addition to the network termination points offered to the majority of suppliers of public telecommunications services, subject to charges that reflect the cost of construction of necessary additional facilities.⁹⁻⁸

⁹⁻⁸ These costs may include the cost of physical or virtual co-location referenced in Article 9.4.4.

- (ii) the terms and conditions of an existing interconnection agreement or through negotiation of a new interconnection agreement.

(c) Public Availability of Interconnection Offers

Each Party shall require each major supplier in its territory to make publicly available either a reference interconnection offer or another standard interconnection offer containing the rates, terms, and conditions that the major supplier offers generally to suppliers of public telecommunications services.

- (b) Each Party may determine whether rates for leased circuits services in its territory are reasonable by taking into account the rates of like leased circuits services in comparable markets in other countries.

ARTICLE 9.5 : SUBMARINE CABLE LANDING STATIONS

1. Further to Articles 19.5 (Administrative Proceedings) and 19.6 (Review and Appeal), each Party shall ensure the following:

Recourse to Telecommunications Regulatory Bodies

ARTICLE 9.14 : FORBEARANCE AND MINIMAL REGULATORY ENVIRONMENT

The Parties recognize the importance of relying on market forces to achieve wide choice and efficient supply of telecommunications services. To this end, each Party may forbear from applying regulation to a telecommunications service that such Party classifies, under its laws and

regulations, as a public telecommunications service upon a determination by its telecommunications regulatory body that:

- (a) enforcement of such regulation is not necessary to prevent unreasonable or discriminatory practices;
- (b) enforcement of such regulation is not necessary for the protection of consumers; and
- (c) forbearance is consistent with the public interest, including promoting and enhancing competition among suppliers of public telecommunications services.

A non-conforming measure set out in a Party's Schedule to Annex 8A or 8B as a measure to which Article 8.3 (National Treatment), 8.4 (Most-Favored-Nation Treatment), 8.5 (Market Access), or 15.4 (National Treatment and Most-Favored-Nation Treatment) does not apply shall be treated as a non-conforming measure described in paragraph 1(a) to which Article 10.2, 10.3, or 10.4, as the case may be, does not apply, to the extent that the measure, sector, sub-sector or activity set out in the schedule of non-conforming measures is covered by this Chapter.

ARTICLE 10.10 : EXCEPTIONS

1. Notwithstanding any other provision of this Chapter or Chapters 9 (Telecommunications), 14 (Electronic Commerce), or 15 (Investment), including specifically Article 9.15 (Relationship to Other Chapters), and in addition Article 8.2.2 (Scope and Coverage) with respect to the supply of financial services in the territory of a Party by an investor of the other Party or a covered investment, a Party shall not be prevented from adopting or maintaining measures for prudential reasons,¹⁰⁻⁵ including for the protection of investors,

¹⁰⁻⁵ It is understood that the term "prudential reasons" includes the maintenance of the safety, soundness, integrity or financial responsibility of individual financial institutions or cross-border financial service suppliers.

depositors, policy holders or persons to whom a fiduciary duty is owed by a financial institution or cross-border financial service supplier, or to ensure the integrity and stability of the financial system. Where such measures do not conform with the provisions of this Agreement referred to in this paragraph, they shall not be used as a means of avoiding the Party's commitments or obligations under such provisions.

2. Nothing in this Chapter or Chapters 9 (Telecommunications), 14 (Electronic Commerce), or 15 (Investment), including specifically Article 9.15 (Relationship to Other Chapters), and in addition Article 8.2.2 (Scope and Coverage) with respect to the supply of financial services in the territory of a Party by an investor of the other Party or a covered investment, applies to non-discriminatory measures of general application taken by any public entity in pursuit of monetary and related credit policies or exchange rate policies. This paragraph shall not affect a Party's obligations under Article 8.10 (Transfers and Payments), Article 15.7 (Transfers), or Article 15.8 (Performance Requirements).

3. Notwithstanding Articles 8.10 (Transfers and Payments) and 15.7 (Transfers), as incorporated into this Chapter, a Party may prevent or limit transfers by a financial institution or cross-border financial service supplier to, or for the benefit of, an affiliate of or person related to such institution or supplier, through the equitable, non-discriminatory and good faith application of measures relating to maintenance of the safety, soundness, integrity or financial responsibility of financial institutions or cross-border financial service suppliers. This paragraph does not prejudice any other provision of this Agreement that permits a Party to restrict transfers.

4. For greater certainty, nothing in this Chapter shall be construed to prevent the adoption or enforcement by a Party of measures necessary to secure compliance with laws or regulations that are not inconsistent with this Chapter including those relating to the prevention of deceptive and fraudulent practices or to deal with the effects of a default on financial services contracts, subject to the requirement that such measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination between countries where like conditions prevail, or a disguised restriction on investment in financial institutions or cross-border trade in financial services.

 - (ii) acts solely in accordance with commercial considerations in its purchase or sale of the monopoly good or service in the relevant market, including with regard to price, quality, availability, marketability, transportation, and other terms and conditions of purchase or sale, except to comply with any terms of its designation that are not inconsistent with subparagraph (iii) or (iv);

- (c) with respect to Articles 15.8 and 15.10, all investments in the territory of the Party.

ARTICLE 15.3 : RELATION TO OTHER CHAPTERS

1. In the event of any inconsistency between this Chapter and another Chapter, the other Chapter shall prevail to the extent of the inconsistency.
2. A requirement by a Party that a service provider of the other Party post a bond or other form of financial security as a condition of providing a service into its territory does not of itself make this Chapter applicable to the provision of that cross-border service. This Chapter applies to that Party's treatment of the posted bond or financial security.
3. This Chapter does not apply to measures adopted or maintained by a Party to the extent that they are covered by Chapter 10 (Financial Services).

ARTICLE 15.4 : NATIONAL TREATMENT AND MOST-FAVORED-NATION TREATMENT

1. Each Party shall accord to investors of the other Party treatment no less favorable than that it accords, in like circumstances, to its own investors with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments in its territory. Each Party shall accord to covered investments treatment no less

The treatment each Party shall accord under this paragraph is "national treatment."

2. The concepts of "fair and equitable treatment" and "full protection and security" do not require treatment in addition to or beyond that which is required by that standard, and do not create additional substantive rights.

- (a) The obligation in paragraph 1 to provide "fair and equitable treatment" includes the obligation not to deny justice in criminal, civil, or administrative adjudicatory proceedings in accordance with the principle of due process embodied in the principal legal systems of the world; and

3. A determination that there has been a breach of another provision of this Agreement, or of a separate international agreement, does not establish that there has been a breach of this Article.

4. Without prejudice to paragraph 1 and notwithstanding Article 15.12.5(b), each Party shall accord to investors of the other Party, and to covered investments, non-discriminatory treatment with respect to measures it adopts or maintains relating to losses suffered by investments in its territory owing to armed conflict or civil strife.

5. Paragraph 4 does not apply to existing measures relating to subsidies or grants that would be inconsistent with Article 15.4.1 and 15.4.2 but for Article 15.12.5(b).

- (a) for a public purpose;
- (b) in a non-discriminatory manner;
- (c) on payment of prompt, adequate, and effective compensation in accordance with paragraphs 2, 3, and 4; and
- (d) in accordance with due process of law and Article 15.5.1, 15.5.2, and 15.5.3.

2. Compensation shall:

- (a) be paid without delay;
- (b) be equivalent to the fair market value of the expropriated investment immediately before the expropriatory action was taken (“the date of expropriation”);
- (c) be fully realizable and freely transferable; and

¹⁵⁻⁹ Article 15.6 is to be interpreted in accordance with the letter exchange on customary international law and the letter exchange on expropriation, and is subject to the letter exchange on land expropriation.

- (d) not reflect any change in value occurring because the expropriatory action had become known before the date of expropriation.

3. If the fair market value is denominated in a freely usable currency, the compensation paid shall be no less than the fair market value on the date of expropriation, plus interest at a commercially reasonable rate for that currency, accrued from the date of expropriation until the date of payment.

4. If the fair market value is denominated in a currency that is not freely usable, the compensation paid – converted into the currency of payment at the market rate of exchange prevailing on the date of payment – shall be no less than:

- (a) the fair market value on the date of expropriation, converted into a freely usable currency at the market rate of exchange prevailing on that date, plus
- (b) interest, at a commercially reasonable rate for that freely usable currency, accrued from the date of expropriation until the date of payment.

5. This Article does not apply to the issuance of compulsory licenses granted in relation to intellectual property rights in accordance with the Agreement on Trade-Related Aspects of Intellectual Property Rights (“TRIPS Agreement”), or to the revocation, limitation, or creation of intellectual property rights, to the extent that such issuance, revocation, limitation, or creation is consistent with Chapter 16 (Intellectual Property Rights) of this Agreement.

ARTICLE 15.7 : TRANSFERS¹⁵⁻¹⁰

1. Each Party shall permit all transfers relating to a covered investment to be made freely and without delay into and out of its territory. Such transfers include:

- (a) contributions to capital;
- (b) profits, dividends, capital gains, and proceeds from the sale of all or any part of the covered investment or from the partial or complete liquidation of the covered investment;
- (c) interest, royalty payments, management fees, and technical assistance and other fees;
- (d) payments made under a contract entered into by the investor, or the covered investment, including payments made pursuant to a loan agreement;

¹⁵⁻¹⁰ Article 15.7 is subject to Annex 15A.

- (f) payments arising under Section C.
- 2. Each Party shall permit transfers relating to a covered investment to be made in a freely usable currency at the market rate of exchange prevailing at the time of transfer.
- 3. Each Party shall permit returns in kind relating to a covered investment to be made as authorized or specified in an investment authorization or other written agreement between the Party and a covered investment or an investor of the other Party.

 - (a) bankruptcy, insolvency, or the protection of the rights of creditors;
 - (b) issuing, trading, or dealing in securities, futures, options, or derivatives;
 - (c) financial reporting or record keeping of transfers when necessary to assist law enforcement or financial regulatory authorities;

ARTICLE 15.8 : PERFORMANCE REQUIREMENTS¹⁵⁻¹¹

- 1. Neither Party may impose or enforce any of the following requirements, or enforce any commitment or undertaking, in connection with the establishment, acquisition, expansion, management, conduct, operation, or sale or other disposition of an investment of an investor of a Party or of a non-Party in its territory:
 - (a) to export a given level or percentage of goods or services;
 - (b) to achieve a given level or percentage of domestic content;
 - (c) to purchase, use, or accord a preference to goods produced in its territory, or to purchase goods from persons in its territory;

¹⁵⁻¹¹ Article 15.8 is subject to Annex 15B and Annex 15C.

2. A Party may require that a majority of the board of directors, or any committee thereof, of an enterprise of that Party that is a covered investment, be of a particular nationality, or resident in the territory of the Party, provided that the requirement does not materially impair the ability of the investor of the other Party to exercise control over its investment.

2. Articles 15.4, 15.8, and 15.9 do not apply to any measure that a Party adopts or maintains with respect to sectors, sub-sectors, or activities, as set out in its Schedule to Annex 8B.
3. 2. Notwithstanding Article 15.4, a Party may require an investor of the other Party, or a covered investment, to provide information concerning that investment solely for informational or statistical purposes. The Party shall protect such business information that is confidential from any disclosure that would prejudice the competitive position of the investor or the covered investment. 7. The arbitration rules applicable under paragraph 5, and in effect on the date the claim or claims were submitted to arbitration under this Section, shall govern the arbitration except to the extent modified by this Agreement.
8. The claimant shall provide with the notice of arbitration referred to in paragraph 6:

ARTICLE 15.17 : CONDITIONS AND LIMITATIONS ON CONSENT OF EACH PARTY

1. No claim may be submitted to arbitration under this Section if more than three years have elapsed from the date on which the claimant first acquired, or should have first acquired, knowledge of the breach alleged under Article 15.15.1 and knowledge that the claimant (for claims brought under Article 15.15.1(a)) or the enterprise (for claims brought under Article 15.15.1(b)) has incurred loss or damage.

3. Notwithstanding paragraph 2(b), the claimant (for claims brought under Article 15.15.1(a)) and the claimant or the enterprise (for claims brought under Article 15.15.1(b)) may initiate or continue an action that seeks interim injunctive relief and does not involve the payment of monetary damages before a judicial or administrative tribunal of the respondent, provided that the action is brought for the sole purpose of preserving the claimant's or the enterprise's rights and interests during the pendency of the arbitration.

ARTICLE 15.18 : SELECTION OF ARBITRATORS

1. Unless the disputing parties otherwise agree, the tribunal shall comprise three arbitrators, one arbitrator appointed by each of the disputing parties and the third, who shall be the presiding arbitrator, appointed by agreement of the disputing parties.

2. The Secretary-General shall serve as appointing authority for an arbitration under this Section.

3. If a tribunal has not been constituted within 75 days from the date that a claim is submitted to arbitration under this Section, the Secretary-General, on the request of a disputing party, shall appoint, in his or her discretion, the arbitrator or arbitrators not yet appointed.

4. For purposes of Article 39 of the ICSID Convention and Article 7 of Schedule C to the ICSID Additional Facility Rules, and without prejudice to an objection to an arbitrator on a ground other than nationality:

- (b) a claimant referred to in Article 15.15.1(a) may submit a claim to arbitration under this Section, or continue a claim, under the ICSID Convention or the ICSID Additional Facility Rules, only on condition that the claimant agrees in writing to the appointment of each individual member of the tribunal; and
- (c) a claimant referred to in Article 15.15.1(b) may submit a claim to arbitration under this Section, or continue a claim, under the ICSID Convention or the ICSID

Additional Facility Rules, only on condition that the claimant and the enterprise agree in writing to the appointment of each individual member of the tribunal.

ARTICLE 15.19 : CONDUCT OF THE ARBITRATION

1. The disputing parties may agree on the legal place of any arbitration under the arbitral rules applicable under Article 15.15.5(b), (c), or (d). If the disputing parties fail to reach agreement, the tribunal shall determine the place in accordance with the applicable arbitral rules, provided that the place shall be in the territory of either Party or of a third State that is a party to the New York Convention.
2. The non-disputing Party may make oral and written submissions to the tribunal regarding the interpretation of this Agreement.
3. The tribunal shall have the authority to accept and consider *amicus curiae* submissions from any persons and entities in the territories of the Parties and from interested persons and entities outside the territories of the Parties.
4. Without prejudice to a tribunal's authority to address other objections as a preliminary question, a tribunal shall address and decide as a preliminary question any objection by the respondent that, as a matter of law, a claim submitted is not a claim for which an award in favor of the claimant may be made under Article 15.25.
 - (a) Such objection shall be submitted to the tribunal as soon as possible after the tribunal is constituted, and in no event later than the date the tribunal fixes for the respondent to submit its counter-memorial (or, in the case of an amendment to the notice of arbitration referred to in Article 15.15.6, the date the tribunal fixes for the respondent to submit its response to the amendment).
 - (b) On receipt of an objection under this paragraph, the tribunal shall suspend any proceedings on the merits, establish a schedule for considering the objection consistent with any schedule it has established for considering any other preliminary question, and issue a decision or award on the objection, stating the grounds therefor.
 - (c) In deciding an objection under this paragraph, the tribunal shall assume to be true the claimant's factual allegations in support of any claim in the notice of arbitration (or any amendment thereof) and, in disputes brought under the UNCITRAL Arbitration Rules, the statement of claim referred to in Article 18 of the UNCITRAL Arbitration Rules. The tribunal may also consider any-relevant facts not in dispute.
 - (d) The respondent does not waive any objection as to competence or any argument on the merits merely because the respondent did or did not raise an objection

under this paragraph or make use of the expedited procedure set out in the following paragraph.

5. In the event that the respondent so requests within 45 days after the tribunal is constituted, the tribunal shall decide on an expedited basis an objection under paragraph 4 or any objection that the dispute is not within the tribunal's competence. The tribunal shall suspend any proceedings on the merits and issue a decision or award on the objection(s), stating the grounds therefor, no later than 150 days after the date of the request. However, if a disputing party requests a hearing, the tribunal may take an additional 30 days to issue the decision or award. Regardless of whether a hearing is requested, a tribunal may, on a showing of extraordinary cause, delay issuing its decision or award by an additional brief period of time, which may not exceed 30 days.
6. When it decides a respondent's objection under paragraphs 4 or 5, the tribunal may, if warranted, award to the prevailing disputing party reasonable costs and attorneys' fees incurred in submitting or opposing the objection. In determining whether such an award is warranted, the tribunal shall consider whether either the claimant's claim or the respondent's objection was frivolous, and shall provide the disputing parties a reasonable opportunity to comment.
7. A respondent may not assert as a defense, counterclaim, right of set-off, or for any other reason that the claimant has received or will receive indemnification or other compensation for all or part of the alleged damages pursuant to an insurance or guarantee contract.
8. A tribunal may order an interim measure of protection to preserve the rights of a disputing party, or to ensure that the tribunal's jurisdiction is made fully effective, including an order to preserve evidence in the possession or control of a disputing party or to protect the tribunal's jurisdiction. A tribunal may not order attachment or enjoin the application of a measure alleged to constitute a breach referred to in Article 15.15. For purposes of this paragraph, an order includes a recommendation.
9. (a) In any arbitration conducted under this Section, at the request of a disputing party, a tribunal shall, before issuing an award on liability, transmit its proposed award to the disputing parties and to the non-disputing Party. Within 60 days after the tribunal transmits its proposed award, the disputing parties may submit written comments to the tribunal concerning any aspect of its proposed award. The tribunal shall consider any such comments and issue its award not later than 45 days after the expiration of the 60-day comment period.
- (b) Subparagraph (a) shall not apply in any arbitration conducted pursuant to this Section for which an appeal has been made available pursuant to paragraph 10.
10. If a separate multilateral agreement enters into force as between the Parties that establishes an appellate body for purposes of reviewing awards rendered by tribunals constituted pursuant to international trade or investment arrangements to hear investment disputes, the

Parties shall strive to reach an agreement that would have such appellate body review awards rendered under Article 15.25 of this Section in arbitrations commenced after the appellate body's establishment.

ARTICLE 15.20 : TRANSPARENCY OF ARBITRAL PROCEEDINGS

1. Subject to paragraphs 2 and 4, the respondent shall, after receiving the following documents, promptly transmit them to the non-disputing Party and make them available to the public:

 - (b) the notice of arbitration referred to in Article 15.15.6;
 - (c) pleadings, memorials, and briefs submitted to the tribunal by a disputing party and any written submissions submitted pursuant to Article 15.19.2 and 15.19.3 and Article 15.24;
 - (d) minutes or transcripts of hearings of the tribunal, where available; and
 - (e) orders, awards, and decisions of the tribunal.
2. The tribunal shall conduct hearings open to the public and shall determine, in consultation with the disputing parties, the appropriate logistical arrangements. However, any disputing party that intends to use information designated as protected information in a hearing shall so advise the tribunal. The tribunal shall make appropriate arrangements to protect the information from disclosure.
3. Nothing in this Section requires a respondent to disclose protected information or to furnish or allow access to information that it may withhold in accordance with Article 21.2 (Essential Security) or Article 21.4 (Disclosure of Information).
4. Protected information shall, if such information is submitted to the tribunal, be protected from disclosure in accordance with the following procedures:
 - (a) Subject to paragraph 4(d), neither the disputing parties nor the tribunal shall disclose to the non-disputing Party or to the public any protected information where the disputing party that provided the information clearly designates it in accordance with paragraph 4(b).
 - (b) Any disputing party claiming that certain information constitutes protected information shall clearly designate the information at the time it is submitted to the tribunal.

- (c) A disputing party shall, at the same time that it submits a document containing information claimed to be protected information, submit a redacted version of the document that does not contain the information. Only the redacted version shall be provided to the non-disputing Party and made public in accordance with paragraph 1.
- (d) The tribunal shall decide any objection regarding the designation of information claimed to be protected information. If the tribunal determines that such information was not properly designated, the disputing party that submitted the information may (i) withdraw all or part of its submission containing such information, or (ii) agree to resubmit complete and redacted documents with corrected designations in accordance with the tribunal's determination and paragraph 4(c). In either case, the other disputing party shall, whenever necessary, resubmit complete and redacted documents which either remove the information withdrawn under (i) by the disputing party that first submitted the information or redesignate the information consistent with the designation under (ii) of the disputing party that first submitted the information.

5. Nothing in this Section authorizes a respondent to withhold from the public information required to be disclosed by its laws.

ARTICLE 15.21 : GOVERNING LAW

1. Subject to paragraph 2, a tribunal shall decide the issues in dispute related to an alleged breach of an obligation in Section B in accordance with this Agreement and applicable rules of international law.

2. A decision of the Joint Committee declaring its interpretation of a provision of this Agreement under Article 20.1.2 (Joint Committee) shall be binding on a tribunal established under this Section, and any award must be consistent with that decision.

ARTICLE 15.22 : INTERPRETATION OF ANNEXES

1. Where a respondent asserts as a defense that the measure alleged to be a breach is within the scope of a reservation or exception set out in Annex 8A or Annex 8B, the tribunal shall, on request of the respondent, request the interpretation of the Joint Committee on the issue. The Joint Committee shall issue in writing any decision declaring its interpretation under Article 20.1.2 (Joint Committee) to the tribunal within 60 days of delivery of the request.

2. A decision issued by the Joint Committee under paragraph 1 shall be binding on the tribunal, and any award must be consistent with that decision. If the Joint Committee fails to issue such a decision within 60 days, the tribunal shall decide the issue.

ARTICLE 15.23 : EXPERT REPORTS

Without prejudice to the appointment of other kinds of experts where authorized by the applicable arbitration rules, a tribunal, at the request of a disputing party or, unless the disputing parties disapprove, on its own initiative, may appoint one or more experts to report to it in writing on any factual issue concerning environmental, health, safety, or other scientific matters raised by a disputing party in a proceeding, subject to such terms and conditions as the disputing parties may agree.

ARTICLE 15.24 : CONSOLIDATION

1. Where two or more claims have been submitted separately to arbitration under Article 15.15.1 and the claims have a question of law or fact in common and arise out of the same events or circumstances, any disputing party may seek a consolidation order in accordance with the agreement of all the disputing parties sought to be covered by the order or the terms of paragraphs 2 through 10.
2. A disputing party that seeks a consolidation order under this Article shall deliver, in writing, a request to the Secretary-General and to all the disputing parties sought to be covered by the order and shall specify in the request:
 - (a) the names and addresses of all the disputing parties sought to be covered by the order;
 - (b) the nature of the order sought; and
 - (c) the grounds on which the order is sought.
3. Unless the Secretary-General finds within 30 days after receiving a request under paragraph 2 that the request is manifestly unfounded, a tribunal shall be established under this Article.
4. Unless all the disputing parties sought to be covered by the order otherwise agree, a tribunal established under this Article shall comprise three arbitrators:
 - (a) one arbitrator appointed by agreement of the claimants;
 - (b) one arbitrator appointed by the respondent; and
 - (c) the presiding arbitrator appointed by the Secretary-General, provided, however, that the presiding arbitrator shall not be a national of either Party.
5. If, within 60 days after the Secretary-General receives a request made under paragraph 2, the respondent fails or the claimants fail to appoint an arbitrator in accordance with paragraph 4, the Secretary-General, on the request of any disputing party sought to be covered by the order,

shall appoint the arbitrator or arbitrators not yet appointed. If the respondent fails to appoint an arbitrator, the Secretary-General shall appoint a national of the disputing Party, and if the claimants fail to appoint an arbitrator, the Secretary-General shall appoint a national of the non-disputing Party.

6. Where a tribunal established under this Article is satisfied that two or more claims that have been submitted to arbitration under Article 15.15.1 have a question of law or fact in common, and arise out of the same events or circumstances, the tribunal may, in the interest of fair and efficient resolution of the claims, and after hearing the disputing parties, by order:

- (a) assume jurisdiction over, and hear and determine together, all or part of the claims;
- (b) assume jurisdiction over, and hear and determine one or more of the claims, the determination of which it believes would assist in the resolution of the others; or
- (c) instruct a tribunal previously established under Article 15.18 to assume jurisdiction over, and hear and determine together, all or part of the claims, provided that:
 - (i) that tribunal, at the request of any claimant not previously a disputing party before that tribunal, shall be reconstituted with its original members, except that the arbitrator for the claimants shall be appointed pursuant to paragraphs 4(a) and 5; and
 - (ii) that tribunal shall decide whether any prior hearing shall be repeated.

7. Where a tribunal has been established under this Article, a claimant that has submitted a claim to arbitration under Article 15.15.1 and that has not been named in a request made under paragraph 2 may make a written request to the tribunal that it be included in any order made under paragraph 6, and shall specify in the request:

- (a) the name and address of the claimant;
- (b) the nature of the order sought; and
- (c) the grounds on which the order is sought.

The claimant shall deliver a copy of its request to the Secretary-General.

8. A tribunal established under this Article shall conduct its proceedings in accordance with the UNCITRAL Arbitration Rules, except as modified by this Section.

9. A tribunal established under Article 15.18 shall not have jurisdiction to decide a claim, or a part of a claim, over which a tribunal established or instructed under this Article has assumed jurisdiction.

10. On application of a disputing party, a tribunal established under this Article, pending its decision under paragraph 6, may order that the proceedings of a tribunal established under Article 15.18 be stayed, unless the latter tribunal has already adjourned its proceedings.

ARTICLE 15.25 : AWARDS

1. Where a tribunal makes a final award against a respondent, the tribunal may award, separately or in combination, only:

- (a) monetary damages and any applicable interest; and
- (b) restitution of property, in which case the award shall provide that the respondent may pay monetary damages and any applicable interest in lieu of restitution.

A tribunal may also award costs and attorneys' fees in accordance with this Section and the applicable arbitration rules.

2. Subject to paragraph 1, where a claim is submitted to arbitration under Article 15.15.1(b):

- (a) an award of restitution of property shall provide that restitution be made to the enterprise;

3. A tribunal may not award punitive damages.

4. An award made by a tribunal shall have no binding force except between the disputing parties and in respect of the particular case.

5. Subject to paragraph 6 and the applicable review procedure for an interim award, a disputing party shall abide by and comply with an award without delay.

6. A disputing party may not seek enforcement of a final award until:

- (a) in the case of a final award made under the ICSID Convention,

- (i) 120 days have elapsed from the date the award was rendered and no disputing party has requested revision or annulment of the award; or
 - (ii) revision or annulment proceedings have been completed; and
 - (b) in the case of a final award under the ICSID Additional Facility Rules, the UNCITRAL Arbitration Rules, or the rules selected pursuant to Article 15.15.5(d),
 - (i) 90 days have elapsed from the date the award was rendered and no disputing party has commenced a proceeding to revise, set aside, or annul the award, or
 - (ii) a court has dismissed or allowed an application to revise, set aside, or annul the award and there is no further appeal.
7. Each Party shall provide for the enforcement of an award in its territory.
8. If the respondent fails to abide by or comply with a final award, on delivery of a written notification by the non-disputing Party, a panel shall be established under Article 20.4.4(a) (Additional Dispute Settlement Procedures). The requesting Party may seek in such proceedings:
- (a) a determination that the failure to abide by or comply with the final award is inconsistent with the obligations of this Agreement; and

 - (ii) transfers of proceeds of foreign direct investment by investors of the United States, excluding investments designed with the purpose of gaining direct or indirect access to the financial market; or
 - (iii) payments pursuant to a loan or bond¹⁵⁻¹³ regardless of where it is issued, including inter- and intra-company debt financing between affiliated enterprises, when such payments are made exclusively for the conduct, operation, management, or expansion of such affiliated enterprises, provided that these payments are made in accordance with the maturity date agreed on in the loan or bond agreement.
- (d) Excluding restrictive measures referred to in paragraph 1(c), Singapore shall incur no liability, and shall not be subject to claims, for damages arising from its imposition of restrictive measures with regard to outward payments and transfers that were incurred within one year from the date on which restrictions were imposed, provided that such restrictive measures do not substantially impede transfers.

¹⁵⁻¹³ For greater certainty, payments pursuant to a loan or bond shall exclude capital account transactions relating to inter-bank loans, including loans to or from Singapore licensed banks, merchant banks, or finance companies.

- (e) Claims arising from Singapore's imposition of restrictive measures with regard to outward payments and transfers shall not be subject to Article 15.24 unless Singapore consents.

2. The United States may not request the establishment of an arbitral panel under Chapter 20 (Administration and Dispute Settlement) relating to Singapore's imposition of restrictive measures with regard to outward payments and transfers until one year has elapsed since the measure was adopted. In determining whether compensation is owed or benefits should be suspended, or the level of such compensation or suspension, pursuant to Article 20.6 (Non-Implementation), the aggrieved Party and the panel shall consider whether the restrictive measures were implemented at the request of the International Monetary Fund (IMF).

3. In respect of all categories of intellectual property covered in this Chapter, each Party shall accord to nationals¹⁶⁻² of the other Party treatment no less favorable than it accords to its

¹⁶⁻¹ Singapore is not obligated to give effect to Articles 6 and 7 of the Trademark Law Treaty.

¹⁶⁻² For purposes of Articles 16.1.3 and 16.5.1, a national of a Party shall also mean, in respect of the relevant right, entities located in such Party that would meet the criteria for eligibility for protection provided for in the agreements listed in Article 16.1.2 and the TRIPS Agreement.

own nationals with regard to the protection¹⁶⁻³ and enjoyment of such intellectual property rights and any benefits derived from such rights.¹⁶⁻⁴

4. Each Party may derogate from paragraph 3 in relation to its judicial and administrative procedures, including the designation of an address for service or the appointment of an agent within the jurisdiction of a Party, only where such derogations are necessary to secure compliance with laws and regulations that are not inconsistent with this Chapter and where such practices are not applied in a manner that would constitute a disguised restriction on trade.

5. Paragraphs 3 and 4 do not apply to procedures provided in multilateral agreements concluded under the auspices of WIPO relating to the acquisition or maintenance of intellectual property rights.

6. Except as otherwise provided in this Chapter:

- (a) this Chapter gives rise to obligations in respect of all subject matter existing at the date of entry into force of this Agreement that is protected on that date in the Party where the protection is claimed and/or that meets or comes subsequently to meet the criteria for protection under the terms of this Chapter;
- (b) a Party shall not be required to restore protection to subject matter that on the date of entry into force of this Agreement has fallen into the public domain in the Party where the protection is claimed.

7. This Chapter does not give rise to obligations in respect of acts that occurred before the date of entry into force of this Agreement.

ARTICLE 16.2 : TRADEMARKS, INCLUDING GEOGRAPHICAL INDICATIONS

1. Each Party shall provide that trademarks shall include service marks, collective marks, and certification marks,¹⁶⁻⁵ and may include geographical indications.¹⁶⁻⁶ Neither Party shall

¹⁶⁻³ For the purposes of paragraphs 3 and 4, “protection” shall include matters affecting the availability, acquisition, scope, maintenance, and enforcement of intellectual property rights as well as matters affecting the use of intellectual property rights specifically covered by this Chapter. For the purposes of paragraphs 3 and 4, “protection” shall also include the prohibition on circumvention of effective technological measures pursuant to paragraph 7 of Article 16.4 and the provision concerning rights management information pursuant to paragraph 8 of Article 16.4.

¹⁶⁻⁴ “Benefits derived therefrom” refers to benefits such as levies on blank tapes.

¹⁶⁻⁵ Neither Party is obligated to treat certification marks as a separate category in domestic law, provided that such marks are protected.

require, as a condition of registration, that signs be visually perceptible, but each Party shall make best efforts to register scent marks. Each Party shall afford an opportunity for the registration of a trademark to be opposed.

2. Each Party shall provide that the owner of a registered trademark shall have the exclusive right to prevent all third parties not having the owner's consent from using in the course of trade identical or similar signs, including geographical indications, for goods or services that are related to those in respect of which the trademark is registered, where such use would result in a likelihood of confusion.
3. Each Party may provide limited exceptions to the rights conferred by a trademark, such as fair use of descriptive terms, provided that such exceptions take account of the legitimate interests of the owner of the trademark and of third parties.
4. Article 6*bis* of the Paris Convention for the Protection of Industrial Property (1967) ("Paris Convention") shall apply, *mutatis mutandis*, to goods or services that are not similar to those identified by a well-known trademark, whether registered or not, provided that use of that trademark in relation to those goods or services would indicate a connection between those goods or services and the owner of the trademark and provided that the interests of the owner of the trademark are likely to be damaged by such use.
5. Neither Party shall require recordation of trademark licenses to establish the validity of the license or to assert any rights in a trademark.
6. Pursuant to Article 20 of the TRIPS Agreement, each Party shall ensure that its provisions mandating the use of a term customary in common language as the common name for a product including, *inter alia*, requirements concerning the relative size, placement, or style of use of the trademark in relation to the common name, do not impair the use or effectiveness of a trademark used in relation to such products.¹⁶⁻⁷

ARTICLE 16.3 : DOMAIN NAMES ON THE INTERNET

1. Each Party shall participate in the Governmental Advisory Committee of the Internet Corporation for Assigned Names and Numbers (ICANN), which serves to consider and provide

¹⁶⁻⁶ A geographical indication shall be capable of constituting a trademark to the extent that the geographical indication consists of any sign, or any combination of signs, capable of identifying a good or service as originating in the territory of a Party, or a region or locality in that territory, where a given quality, reputation or other characteristic of the good or service is essentially attributable to its geographical origin.

¹⁶⁻⁷ This provision is not intended to affect the use of common names of pharmaceutical products in prescribing medicine.

advice on the activities of the ICANN as they relate to government concerns, including matters related to intellectual property and the domain name system, as well as to promote responsible country code Top Level Domain (ccTLD) administration, management, and operational practices.

2. Each Party shall require that registrants of domain names in its ccTLD are subject to a dispute resolution procedure, modeled along the same lines as the principles set forth in ICANN Uniform Domain Name Dispute Resolution Policy (ICANN UDRP), to address and resolve disputes related to the bad-faith registration of domain names in violation of trademarks. Each Party shall also ensure that its corresponding ccTLDs provide public access to a reliable and accurate WHOIS® database of domain name registrant contact information.

ARTICLE 16.4 : OBLIGATIONS COMMON TO COPYRIGHT AND RELATED RIGHTS

1. Each Party shall provide that authors, performers, and producers of phonograms and their successors in interest have the right to authorize or prohibit all reproductions, in any manner or form, permanent or temporary (including temporary storage in electronic form).
2.
 - (a) Without prejudice to Articles 11(1)(ii), 11*bis*(1)(i) and (ii), 11*ter*(1)(ii), 14(1)(ii), and 14*bis*(1) of the Berne Convention for the Protection of Literary and Artistic Works (1971) ("Berne Convention"), each Party shall provide to authors, performers, producers of phonograms and their successors in interest the exclusive right to authorize or prohibit the communication to the public of their works, performances, or phonograms, by wire or wireless means, including the making available to the public of their works, performances, and phonograms in such a way that members of the public may access them from a place and at a time individually chosen by them. Notwithstanding paragraph 10, a Party may provide limitations or exceptions to this right in the case of performers and producers of phonograms for analog or digital free over-the-air terrestrial broadcasting and, further, a Party may provide limitations with respect to other non-interactive transmissions, in certain special cases provided that such limitations do not conflict with a normal exploitation of performances or phonograms and do not unreasonably prejudice the interests of such right holders.
 - (b) Neither Party shall permit the retransmission of television signals (whether terrestrial, cable, or satellite) on the Internet without the authorization of the right holder in the subject matter of the signal.
3. Each Party shall provide to authors, performers, producers of phonograms, and their successors in interest the exclusive right of authorizing the making available to the public of the original and copies of their works and phonograms through sale or other transfer of ownership.

4. Each Party shall provide that where the term of protection of a work (including a photographic work), performance, or phonogram is to be calculated:
 - (a) on the basis of the life of a natural person, the term shall be not less than the life of the author and 70 years after the author's death; and
 - (b) on a basis other than the life of a natural person, the term shall be not less than 70 years from the end of the calendar year of the first authorized publication of the work, performance, or phonogram or, failing such authorized publication within 50 years from the creation of the work, performance, or phonogram, not less than 70 years from the end of the calendar year of the creation of the work, performance, or phonogram.
5. Each Party shall apply the provisions of Article 18 of the Berne Convention, *mutatis mutandis*, to the subject matter, rights and obligations in Articles 16.4 and 16.5.
6. Each Party shall provide that for copyright and related rights, any person acquiring or holding any economic right:
 - (a) may freely and separately transfer such right by contract; and
 - (b) by virtue of a contract, including contracts of employment underlying the creation of works and phonograms, shall be able to exercise those rights in its own name and enjoy fully the benefits derived from those rights.
7. (a) In order to provide adequate legal protection and effective legal remedies against the circumvention of effective technological measures that authors, performers, producers of phonograms, and their successors in interest use in connection with the exercise of their rights and that restrict unauthorized acts in respect of their works, performances, and phonograms, each Party shall provide that any person who:
 - (i) knowingly, or having reasonable grounds to know, circumvents without authority any effective technological measure that controls access to a protected work, performance, phonogram, or other subject matter; or
 - (ii) manufactures, imports, distributes, offers to the public, provides, or otherwise traffics in devices, products, or components or offers to the public or provides services, which:
 - (A) are promoted, advertised, or marketed for the purpose of circumvention of any effective technological measure, or
 - (B) have only a limited commercially significant purpose or use other than to circumvent any effective technological measure, or

- (C) are primarily designed, produced, or performed for the purpose of enabling or facilitating the circumvention of any effective technological measure;

shall be liable and subject to the remedies provided for in Article 16.9.5. Each Party shall provide that any person, other than a nonprofit library, archive, educational institution, or public noncommercial broadcasting entity, that is found to have engaged willfully and for purposes of commercial advantage or private financial gain in such activities shall be guilty of a criminal offense.

- (b) For purposes of this paragraph, **effective technological measure** means any technology, device, or component that, in the normal course of its operation, controls access to a protected work, performance, phonogram, or other subject matter, or protects any copyright or any rights related to copyright.
- (c) Paragraph 7(a) obligates each Party to prohibit circumvention of effective technological measures and does not obligate a Party to require that the design of, or the design and selection of parts and components for, a consumer electronics, telecommunications, or computing product provide for a response to any particular technological measure. The absence of a requirement to respond affirmatively shall not constitute a defense to a claim of violation of that Party's measures implementing paragraph 7(a).
- (d) Each Party shall provide that a violation of the law implementing this paragraph is independent of any infringement that might occur under the Party's law on copyright and related rights.
- (e) Each Party shall confine exceptions to the prohibition referred to in paragraph 7(a)(ii) on technology, products, services, or devices that circumvent effective technological measures that control access to, and, in the case of clause (i) below, that protect any of the exclusive rights of copyright or related rights in a protected work, to the following activities, provided that they do not impair the adequacy of legal protection or the effectiveness of legal remedies that the Party provides against the circumvention of effective technological measures:
 - (i) noninfringing reverse engineering activities with regard to a lawfully obtained copy of a computer program, carried out in good faith with respect to particular elements of that computer program that have not been readily available to the person engaged in such activity, for the sole purpose of achieving interoperability of an independently created computer program with other programs;
 - (ii) noninfringing good faith activities, carried out by an appropriately qualified researcher who has lawfully obtained a copy, performance, or

display of a work, and who has made a good faith effort to obtain authorization for such activities, to the extent necessary for the sole purpose of identifying and analyzing flaws and vulnerabilities of technologies for scrambling and descrambling of information;

- (iii) the inclusion of a component or part for the sole purpose of preventing the access of minors to inappropriate online content in a technology, product, service, or device provided that such technology, product, service or device itself is not prohibited under the measures implementing paragraph 7(a)(ii); and
 - (iv) noninfringing good faith activities that are authorized by the owner of a computer, computer system, or computer network for the sole purpose of testing, investigating, or correcting the security of that computer, computer system, or computer network.
- (f) Each Party shall confine exceptions to the prohibited conduct referred to in paragraph 7(a)(i) to the activities listed in paragraph 7(e) and the following activities, provided that such exceptions do not impair the adequacy of legal protection or the effectiveness of legal remedies the Party provides against the circumvention of effective technological measures:
- (i) access by a nonprofit library, archive, or educational institution to a work not otherwise available to it, for the sole purpose of making acquisition decisions;
 - (ii) noninfringing activities for the sole purpose of identifying and disabling a capability to carry out undisclosed collection or dissemination of personally identifying information reflecting the online activities of a natural person in a way that has no other effect on the ability of any person to gain access to any work; and
 - (iii) noninfringing uses of a particular class of works when an actual or likely adverse impact on such noninfringing uses with respect to such particular class of works is credibly demonstrated in a legislative or administrative proceeding, provided that any exception adopted in reliance on this clause shall have effect for a period of not more than four years from the date of conclusion of such proceeding.
- (g) Each Party may also provide exceptions to the prohibited conduct referred to in paragraph 7(a) for lawfully authorized activities carried out by government employees, agents, or contractors for the purpose of law enforcement, intelligence, national defense, essential security, or similar government activities.

8. In order to provide adequate and effective legal remedies to protect rights management information:

- (a) each Party shall provide that any person who without authority, and knowingly, or, with respect to civil remedies, having reasonable grounds to know, that it will induce, enable, facilitate, or conceal an infringement of any copyright or related right,
 - (i) knowingly removes or alters any rights management information;
 - (ii) distributes or imports for distribution rights management information knowing that the rights management information has been altered without authority; or
 - (iii) distributes, imports for distribution, broadcasts, communicates, or makes available to the public copies of works or phonograms, knowing that rights management information has been removed or altered without authority,

shall be liable and subject to the remedies in Article 16.9.5. Each Party shall provide that any person, other than a nonprofit library, archive, educational institution, or public noncommercial broadcasting entity, who is found to have engaged willfully and for purposes of commercial advantage or private financial gain in such activities shall be guilty of a criminal offense.

- (b) For purposes of this paragraph, **rights management information** means information which identifies a work, performance, or phonogram; the author of the work, the performer of the performance, or the producer of the phonogram; or the owner of any right in the work, performance, or phonogram; information about the terms and conditions of the use of the work, performance, or phonogram; and any numbers or codes that represent such information, when any of these items is attached to a copy of the work, performance, or phonogram or appears in conjunction with the communication or making available of a work, performance, or phonogram to the public. Nothing in this paragraph obligates a Party to require the owner of any right in the work, performance, or phonogram to attach rights management information to copies of it or to cause rights management information to appear in connection with a communication of the work, performance, or phonogram to the public.

9. Each Party shall issue appropriate laws, orders, regulations, administrative, or executive decrees mandating that all government agencies use computer software only as authorized by the right holder. Such measures shall actively regulate the acquisition and management of software for such government use, which may take the form of procedures, such as preparing and maintaining inventories of software present on agency computers, and inventories of existing software licenses.

10. Each Party shall confine limitations or exceptions to exclusive rights in Articles 16.4 and 16.5 to certain special cases which do not conflict with a normal exploitation of the work, performance, or phonogram, and do not unreasonably prejudice the legitimate interests of the right holder.

ARTICLE 16.5 : OBLIGATIONS PERTAINING TO RELATED RIGHTS

1. Each Party shall accord the rights provided for in this Chapter to performers and producers of phonograms who are nationals of the other Party and to performances or phonograms first published or fixed in the territory of the other Party. A performance or phonogram shall be considered first published in any Party in which it is published within 30 days of its original publication.¹⁶⁻⁸
2. Each Party shall provide to performers the exclusive right to authorize or prohibit:
 - (a) the communication to the public of their unfixed performances, except where the performance is already a broadcast performance, and
 - (b) the fixation of their unfixed performances.
3. With respect to all rights of performers and producers of phonograms, the enjoyment and exercise of the rights provided for in this Chapter shall not be subject to any formality.
4. For the purposes of this Chapter, the following definitions apply with respect to performers and producers of phonograms:
 - (a) **performers** means actors, singers, musicians, dancers, and other persons who act, sing, deliver, declaim, play in, interpret, or otherwise perform literary or artistic works or expressions of folklore;
 - (b) **phonogram** means the fixation of the sounds of a performance or of other sounds, or of a representation of sounds, other than in the form of a fixation incorporated in a cinematographic or other audiovisual work;¹⁶⁻⁹
 - (c) **fixation** means the embodiment of sounds, or of the representations thereof, from which they can be perceived, reproduced, or communicated through a device;

¹⁶⁻⁸ For the application of paragraph 1 of Article 16.5, fixed means the finalization of the master tape or its equivalent.

¹⁶⁻⁹ The definition of phonogram provided herein does not suggest that rights in the phonogram are in any way affected through their incorporation into a cinematographic or other audiovisual work.

- (d) **producer of a phonogram** means the person, or the legal entity, who or which takes the initiative and has the responsibility for the first fixation of the sounds of a performance or other sounds, or the representations of sounds;
- (e) **publication** of a fixed performance or a phonogram means the offering of copies of the fixed performance or the phonogram to the public, with the consent of the right holder, and provided that copies are offered to the public in reasonable quantity; and
- (f) **broadcasting** means the transmission by wireless means for public reception of sounds or of images and sounds or of the representations thereof; such transmission by satellite is also broadcasting; transmission of encrypted signals is broadcasting where the means for decrypting are provided to the public by the broadcasting organization or with its consent.

ARTICLE 16.6 : PROTECTION OF ENCRYPTED PROGRAM-CARRYING SATELLITE SIGNALS

1. Each Party shall make it:
 - (a) a criminal offense to manufacture, assemble, modify, import, export, sell, lease, or otherwise distribute a tangible or intangible device or system, knowing or having reason to know that the device or system is primarily of assistance in decoding an encrypted program-carrying satellite signal without the authorization of the lawful distributor of such signal;
 - (b) a criminal offense willfully to receive or further distribute an encrypted program-carrying satellite signal that has been decoded without the authorization of the lawful distributor of the signal; and
 - (c) a civil offense to engage in any activity prohibited under subparagraph (a) or (b).
2. Each Party shall provide that any civil offense established under subparagraph (c) shall be actionable by any person that holds an interest in the encrypted program-carrying satellite signal or the content thereof.

ARTICLE 16.7 : PATENTS

1. Each Party shall make patents available for any invention, whether a product or a process, in all fields of technology, provided that the invention is new, involves an inventive step, and is capable of industrial application. For purposes of this Article, a Party may treat the terms "inventive step" and "capable of industrial application" as being synonymous with the terms "non-obvious" and "useful", respectively. Each Party may exclude inventions from patentability only as defined in Articles 27.2 and 27.3(a) of the TRIPS Agreement.

2. Each Party shall provide that patent owners shall also have the right to assign, or transfer by succession, a patent and to conclude licensing contracts. Each Party shall provide a cause of action to prevent or redress the procurement of a patented pharmaceutical product, without the authorization of the patent owner, by a party who knows or has reason to know that such product is or has been distributed in breach of a contract between the right holder and a licensee, regardless of whether such breach occurs in or outside its territory.¹⁶⁻¹⁰ Each Party shall provide that in such a cause of action, notice shall constitute constructive knowledge.

3. Each Party may provide limited exceptions to the exclusive rights conferred by a patent, provided that such exceptions do not unreasonably conflict with a normal exploitation of the patent and do not unreasonably prejudice the legitimate interests of the patent owner, taking account of the legitimate interests of third parties.

4. Each Party shall provide that a patent may only be revoked on grounds that would have justified a refusal to grant the patent, or that pertain to the insufficiency of or unauthorized amendments to the patent specification, non-disclosure or misrepresentation of prescribed, material particulars, fraud, and misrepresentation. Where such proceedings include opposition proceedings, a Party may not make such proceedings available prior to the grant of the patent.

5. If a Party permits the use by a third party of the subject matter of a subsisting patent to support an application for marketing approval of a pharmaceutical product, that Party shall provide that any product produced under such authority shall not be made, used, or sold in the territory of that Party other than for purposes related to meeting requirements for marketing approval, and if the Party permits exportation, the product shall only be exported outside the territory of that Party for purposes of meeting marketing approval requirements of that Party.

6. Neither Party shall permit the use¹⁶⁻¹¹ of the subject matter of a patent without the authorization of the right holder except in the following circumstances:

- (a) to remedy a practice determined after judicial or administrative process to be anti-competitive under the competition laws of the Party;¹⁶⁻¹²

¹⁶⁻¹⁰ A Party may limit such cause of action to cases where the product has been sold or distributed only outside the Party's territory before its procurement inside the Party's territory.

¹⁶⁻¹¹ "Use" in this provision refers to use other than that allowed in paragraph 3.

¹⁶⁻¹² The Parties recognize that an intellectual property right does not necessarily confer market power upon its owner.

- (b) in the case of public non-commercial use or in the case of a national emergency or other circumstances of extreme urgency, provided that:
 - (i) such use is limited to use by the government or third parties authorized by the government;
 - (ii) the patent owner is provided with reasonable and entire compensation for such use and manufacture; and
 - (iii) the Party shall not require the patent owner to transfer undisclosed information or technical "know how" related to a patented invention that has been authorized for use without the consent of the patent owner pursuant to this paragraph.

Where a Party's law allows for such use pursuant to subparagraphs (a) and (b), the Party shall respect the provisions of Article 31 of the TRIPS Agreement.

7. Each Party, at the request of the patent owner, shall extend the term of a patent to compensate for unreasonable delays that occur in granting the patent. For the purposes of this paragraph, an unreasonable delay shall at least include a delay in the issuance of the patent of more than four years from the date of filing of the application with the Party, or two years after a request for examination of the application has been made, whichever is later, provided that periods attributable to actions of the patent applicant need not be included in the determination of such delays.¹⁶⁻¹³

8. Where a Party provides for the grant of a patent on the basis of an examination of the invention conducted in another country, that Party, at the request of the patent owner, may extend the term of a patent for up to five years to compensate for the unreasonable delay that may occur in the issuance of the patent granted by such other country where that country has extended the term of the patent based on such delay.

ARTICLE 16.8 : CERTAIN REGULATED PRODUCTS

1. If a Party requires the submission of information concerning the safety and efficacy of a pharmaceutical or agricultural chemical product prior to permitting the marketing of such product, the Party shall not permit third parties not having the consent of the party providing the information to market the same or a similar product on the basis of the approval granted to the party submitting such information for a period of at least five years from the date of approval for

¹⁶⁻¹³ Periods attributable to actions of the patent applicant shall include such periods of time taken to file prescribed documents relating to the examination as provided in the laws of the Party.

a pharmaceutical product and ten years from the date of approval for an agricultural chemical product.¹⁶⁻¹⁴

2. If a Party provides a means of granting approval to market a product specified in paragraph 1 on the basis of the grant of an approval for marketing of the same or similar product in another country, the Party shall defer the date of any such approval to third parties not having the consent of the party providing the information in the other country for at least five years from the date of approval for a pharmaceutical product and ten years from the date of approval for an agricultural chemical product in the territory of the Party or in the other country, whichever is later.

3. Where a product is subject to a system of marketing approval pursuant to paragraph 1 or 2 and is also subject to a patent in the territory of that Party, the Party shall not alter the term of protection that it provides pursuant to paragraph 1 or 2 in the event that the patent protection terminates on a date earlier than the end of the term of such protection.

4. With respect to any pharmaceutical product that is subject to a patent:

- (a) each Party shall make available an extension of the patent term to compensate the patent owner for unreasonable curtailment of the patent term as a result of the marketing approval process;
- (b) the Party shall provide that the patent owner shall be notified of the identity of any third party requesting marketing approval effective during the term of the patent; and
- (c) the Party shall not grant marketing approval to any third party prior to the expiration of the patent term, unless by consent or with the acquiescence of the patent owner.

ARTICLE 16.9 : ENFORCEMENT OF INTELLECTUAL PROPERTY RIGHTS

General Obligations

1. Each Party shall ensure that in judicial and administrative proceedings for the enforcement of intellectual property rights, decisions on the merits of a case, that under the law or practice of the Party are of general application, shall preferably be in writing and shall state the reasons on which the decisions are based.

¹⁶⁻¹⁴ Where a Party, on the date of its implementation of the TRIPS Agreement, had in place a system for protecting pharmaceutical or agricultural chemical products not involving new chemical entities from unfair commercial use that conferred a different form or period of protection shorter than that specified in paragraph 1 of Article 16.8, that Party may retain such system notwithstanding the obligations of that paragraph.

2. Each Party shall ensure that its laws and regulations, procedures, final judicial decisions, and administrative rulings of general application pertaining to the enforcement of intellectual property rights shall be published, or where such publication is not practicable, made publicly available, in a national language, in such a manner as to enable the other Party and right holders to become acquainted with them. Nothing in this paragraph shall require a Party to disclose confidential information the disclosure of which would impede law enforcement or otherwise be contrary to the public interest or would prejudice the legitimate commercial interests of particular enterprises, public or private.
3. Each Party shall inform the public of its efforts to provide effective enforcement of intellectual property rights in its civil, administrative, and criminal system, including any statistical information that the Party may collect for such purposes.
4. The Parties understand that a decision that a Party makes on the distribution of enforcement resources shall not excuse that Party from complying with this Chapter.
5. Each Party shall provide for civil remedies against the actions described in paragraphs 7 and 8 of Article 16.4. These shall include at least:
 - (a) provisional measures, including seizure of devices and products suspected of being involved in the prohibited activity;
 - (b) the opportunity for the right holder to elect between actual damages it suffered (plus any profits attributable to the prohibited activity not taken into account in computing the actual damages) or pre-established damages;
 - (c) payment to a prevailing right holder of court costs and fees and reasonable attorney's fees by the party engaged in the prohibited conduct at the conclusion of the civil judicial proceeding; and
 - (d) destruction of devices and products found to be involved in the prohibited conduct.
6. In civil, administrative, and criminal proceedings involving copyright or related rights, each Party shall provide for a presumption that, in the absence of proof to the contrary, the natural person or legal entity whose name is indicated as the author, producer, performer, or publisher of the work, performance, or phonogram in the usual manner, is the designated right holder in such work, performance, or phonogram. Each Party shall also provide for a presumption that, in the absence of proof to the contrary, the copyright or related right subsists in such subject matter.

Civil and Administrative Procedures and Remedies for the Enforcement of Intellectual Property Rights

7. Each Party shall make available to right holders¹⁶⁻¹⁵ civil judicial procedures concerning the enforcement of any intellectual property right.
8. Each Party shall provide that in civil judicial proceedings, its judicial authorities shall have the authority, at least with respect to works, phonograms, and performances protected by copyright or related rights, and in cases of trademark infringement, to order the infringer to pay the right holder damages adequate to compensate for the injury the right holder has suffered because of an infringement of that person's intellectual property right by an infringer engaged in infringing activity, as well as the profits of the infringer that are attributable to the infringement and are not taken into account in computing the actual damages. In addition, in determining injury to the right holder, the judicial authorities shall, *inter alia*, consider the value of the infringed-upon good or service, according to the suggested retail price of the legitimate good or service.
9. In civil judicial proceedings, each Party shall, at least with respect to works, phonograms and performances protected by copyright or related rights, and in cases of trademark counterfeiting, establish or maintain pre-established damages that shall be available on the election of the right holder. Each Party shall provide that pre-established damages shall be in an amount sufficiently high to constitute a deterrent to future infringements and with the intent to compensate the right holder for the harm caused by the infringement.
10. Each Party shall provide that its judicial authorities, except in exceptional circumstances, shall have the authority to order, at the conclusion of the civil judicial proceedings concerning copyright or related rights and trademark counterfeiting, that a prevailing right holder shall be paid court costs or fees and reasonable attorneys' fees by the infringing party.
11. In civil judicial proceedings concerning copyright or related rights infringement and trademark counterfeiting, each Party shall provide that its judicial authorities shall have the authority to order the seizure of suspected infringing goods and any related materials and implements used to accomplish the prohibited activity.

¹⁶⁻¹⁵ For the purpose of Article 16.9 concerning the enforcement of intellectual property rights, the term "right holder" shall include exclusive licensees as well as federations and associations having the legal standing to assert such rights; and the term "exclusive licensee" shall include the exclusive licensee of any one or more of the exclusive rights encompassed in a given intellectual property.

12. Each Party shall provide that:

- (a) in civil judicial proceedings, at the right holders request, goods that have been found to be pirated or counterfeit shall be destroyed, except in exceptional cases;
- (b) its judicial authorities have the authority to order that materials and implements which have been used in the creation of the infringing goods be, without compensation of any sort, promptly destroyed or, in exceptional cases, without compensation of any sort, disposed of outside the channels of commerce in such a manner as to minimize the risks of further infringements; and
- (c) in regard to counterfeit trademarked goods, the simple removal of the trademark unlawfully affixed shall not be sufficient to permit the release of goods into the channels of commerce.

13. Each Party shall provide that in civil judicial proceedings, its judicial authorities shall have the authority to order the infringer to identify third parties that are involved in the production and distribution of the infringing goods or services and their channels of distribution and to provide this information to the right holder. Each Party shall provide that its judicial authorities shall have the authority to fine or imprison, in appropriate cases, persons who fail to abide by valid orders issued by such authorities.

Provisional Measures Concerning the Enforcement of Intellectual Property Rights

14. Each Party shall provide that requests for relief *inaudita altera parte* shall be dealt with expeditiously in accordance with the Party's judicial rules.

15. Each Party shall provide that:

- (a) its judicial authorities have the authority to require the plaintiff to provide any reasonably available evidence in order to satisfy themselves with a sufficient degree of certainty that the plaintiff's right is being infringed or that such infringement is imminent, and to order the plaintiff to provide a reasonable security or equivalent assurance set at a level sufficient to protect the defendant and to prevent abuse, and so as not to unreasonably deter recourse to such procedures.
- (b) in the event that its judicial or other authorities appoint experts, technical or otherwise, that must be paid by the plaintiff, such costs should be closely related, *inter alia*, to the quantity of work to be performed and should not unreasonably deter recourse to such relief.

Special Requirements Related to Border Measures Concerning the Enforcement of Intellectual Property Rights

16. Each Party shall provide that any right holder initiating procedures for suspension by the Party's customs authorities of the release of suspected counterfeit trademark or pirated copyright goods¹⁶ into free circulation shall be required to provide adequate evidence to satisfy the competent authorities that, under the law of the importing country, there is *prima facie* an infringement of the right holder's intellectual property right and to supply sufficient information that may reasonably be expected to be within the right holders knowledge to make the suspected goods reasonably recognizable to the customs authorities.

17. Each Party shall provide that its competent authorities shall have the authority to require an applicant to provide a reasonable security or equivalent assurance sufficient to protect the defendant and the competent authorities and to prevent abuse. Each Party shall provide that the security or assurance shall not unreasonably deter recourse to these procedures.

18. Where its competent authorities have made a determination that goods are counterfeit or pirated, the Party shall grant its competent authorities the authority to inform the right holder of the names and addresses of the consignor, the importer, and the consignee, and of the quantity of the goods in question.

19. Each Party shall provide that its competent authorities may initiate border measures *ex officio*, without the need for a formal complaint from a private party or right holder. Such measures shall apply to shipments of pirated and counterfeit goods imported into or exported out of a Party's territory, including shipments consigned to a local party. For transshipped goods that are not consigned to a local party, each Party shall, upon request, endeavor to examine such goods. For products transshipped through the territory of a Party destined for the territory of the other Party, the former shall cooperate to provide all available information to the latter Party to enable effective enforcement against shipments of counterfeit or pirated goods. Each Party shall

¹⁶ For the purposes of this Chapter:

(a) **counterfeit trademark goods** shall mean any goods, including packaging, bearing without authorization a trademark which is identical to the trademark validly registered in respect of such goods, or which cannot be distinguished in its essential aspects from such a trademark, and which thereby infringes the rights of the owner of the trademark in question under the law of the country of importation; and

(b) **pirated copyright goods** shall mean any goods which are copies made without the consent of the right holder or person duly authorized by the right holder in the country of production and which are made directly or indirectly from an article where the making of that copy would have constituted an infringement of a copyright or a related right under the law of the country of importation.

ensure that it has the authority to undertake such cooperation in response to a request by the other Party on counterfeit or pirated goods en route to that other Party.

20. Each Party shall provide that goods that its competent authorities have determined to be pirated or counterfeit shall be destroyed, except in exceptional cases. In regard to counterfeit trademark goods, the simple removal of the trademark unlawfully affixed shall not be sufficient to permit the release of the goods into the channels of commerce. In no event shall the competent authorities be authorized to permit the export of counterfeit or pirated goods.

Criminal Procedures and Remedies for the Enforcement of Intellectual Property Rights

21. Each Party shall provide criminal procedures and penalties to be applied at least in cases of willful trademark counterfeiting or copyright or related rights piracy on a commercial scale. Willful copyright or related rights piracy on a commercial scale includes (i) significant willful infringements of copyright or related rights that have no direct or indirect motivation of financial gain, as well as (ii) willful infringements for purposes of commercial advantage or financial gain.

- (a) Specifically, each Party shall provide:
 - (i) remedies that include imprisonment as well as monetary fines sufficiently high to deter future acts of infringement consistent with a policy of removing the monetary incentive of the infringer. Also, each Party shall encourage its judicial authorities to impose such fines at levels sufficient to provide a deterrent to future infringements;
 - (ii) that its judicial authorities have the authority to order the seizure of suspected counterfeit or pirated goods, any related materials and implements that have been used in the commission of the offense, any assets traceable to the infringing activity, and documentary evidence relevant to the offense that fall within the scope of such order. Items that are subject to seizure pursuant to such order need not be individually identified so long as they fall within general categories specified in the order;
 - (iii) that its judicial authorities shall, except in exceptional cases, order the forfeiture and destruction of all counterfeit or pirated goods, and, at least with respect to willful copyright or related rights piracy, materials and implements that have been used in the creation of the infringing goods. Each Party shall further provide that such forfeiture and destruction shall occur without compensation of any kind to the defendant; and
 - (iv) that its authorities may initiate legal action *ex officio*, without the need for a formal complaint by a private party or right holder.

- (b) Each Party may provide procedures for right holders to initiate private criminal actions. However, these procedures shall not be unduly burdensome or costly for right holders. Each Party shall ensure that non-private criminal actions are the primary means by which it ensures the effective enforcement of its criminal law against willful copyright or related rights piracy. In addition, each Party shall ensure that its competent authorities bring criminal actions, as necessary, to act as a deterrent to further infringements.

Limitations on Liability for Service Providers

- 22. Each Party shall provide, consistent with the framework set forth in Article 16.9:
 - (a) legal incentives for service providers to cooperate with copyright¹⁶⁻¹⁷ owners in deterring the unauthorized storage and transmission of copyrighted materials; and
 - (b) limitations in its law regarding the scope of remedies available against service providers for copyright infringements that they do not control, initiate, or direct, and that take place through systems or networks controlled or operated by them or on their behalf, as set forth in this subparagraph.¹⁶⁻¹⁸
 - (i) These limitations shall preclude monetary relief and provide reasonable restrictions on court-ordered relief to compel or restrain certain actions for the following functions and shall be confined to those functions:¹⁶⁻¹⁹
 - (A) transmitting, routing or providing connections for material without modification of its content, or the intermediate and transient storage of such material in the course thereof;
 - (B) caching carried out through an automatic process;
 - (C) storage at the direction of a user of material residing on a system or network controlled or operated by or for the service provider; and
 - (D) referring or linking users to an online location by using information location tools, including hyperlinks and directories.

¹⁶⁻¹⁷ For purposes of Article 16.9.22, "copyright" shall also include related rights.

¹⁶⁻¹⁸ It is understood that this subparagraph is without prejudice to the availability of defenses to copyright infringement that are of general applicability.

¹⁶⁻¹⁹ Either Party may request consultations with the other Party to consider how to address future functions of a similar nature under this paragraph.

- (ii) These limitations shall apply only where the service provider does not initiate the chain of transmission of the material, and does not select the material or its recipients (except to the extent that a function described in clause (i)(D) in itself entails some form of selection).
- (iii) Qualification by a service provider for the limitations as to each function in clauses (i)(A) through (i)(D) shall be considered separately from qualification for the limitations as to each other function, in accordance with the conditions for qualification set forth in subparagraphs (iv) – (vii).
- (iv) With respect to functions referred to in clause (i)(B), the limitations shall be conditioned on the service provider:
 - (A) permitting access to cached material in significant part only to users of its system or network who have met conditions on user access to that material;
 - (B) complying with rules concerning the refreshing, reloading, or other updating of the cached material when specified by the person making the material available online in accordance with a generally accepted industry standard data communications protocol for the system or network through which that person makes the material available;
 - (C) not interfering with technology consistent with industry standards accepted in the territory of each Party used at the originating site to obtain information about the use of the material, and not modifying its content in transmission to subsequent users; and
 - (D) expeditiously removing or disabling access, on receipt of an effective notification of claimed infringement, to cached material that has been removed or access to which has been disabled at the originating site.
- (v) With respect to functions referred to in clauses (i)(C) and (i)(D), the limitations shall be conditioned on the service provider:
 - (A) not receiving a financial benefit directly attributable to the infringing activity, in circumstances where it has the right and ability to control such activity;
 - (B) expeditiously removing or disabling access to the material residing on its system or network on obtaining actual knowledge of the infringement or becoming aware of facts or circumstances from

which the infringement was apparent, such as through effective notifications of claimed infringement in accordance with subparagraph (ix) and

- (C) publicly designating a representative to receive such notifications.
- (vi) Eligibility for the limitations in this subparagraph shall be conditioned on the service provider:
 - (A) adopting and reasonably implementing a policy that provides for termination in appropriate circumstances of the accounts of repeat infringers; and
 - (B) accommodating and not interfering with standard technical measures accepted in the territory of each Party that protect and identify copyrighted material, that are developed through an open, voluntary process by a broad consensus of copyright owners and service providers, that are available on reasonable and nondiscriminatory terms, and that do not impose substantial costs on service providers or substantial burdens on their systems or networks.
- (vii) Eligibility for the limitations in this subparagraph may not be conditioned on the service provider monitoring its service, or affirmatively seeking facts indicating infringing activity, except to the extent consistent with such technical measures.
- (viii) If the service provider qualifies for the limitations with respect to the functions referred to in clause (i)(A), court-ordered relief to compel or restrain certain actions shall be limited to terminating specified accounts, or to taking reasonable steps to block access to a specific, non-domestic online location. If the service provider qualifies for the limitations with respect to any other function in clause (i), court-ordered relief to compel or restrain certain actions shall be limited to removing or disabling access to the infringing material, terminating specified accounts, and other remedies that a court may find necessary provided that such other remedies are the least burdensome to the service provider among comparably effective forms of relief. Each Party shall provide that any such relief shall be issued with due regard for the relative burden to the service provider and harm to the copyright owner, the technical feasibility and effectiveness of the remedy, and whether less burdensome, comparably effective enforcement methods are available. Except for orders ensuring the preservation of evidence, or other orders having no material adverse effect on the operation of the service providers

communications network, each Party shall provide that such relief shall be available only where the service provider has received notice of the court order proceedings referred to in this subparagraph and an opportunity to appear before the judicial authority.

- (ix) For purposes of the notice and take down process for the functions referred to in clauses (i)(C) and (D), each Party shall establish appropriate procedures for effective notifications of claimed infringement, and effective counter-notifications by those whose material is removed or disabled through mistake or misidentification. Each Party shall also provide for monetary remedies against any person who makes a knowing material misrepresentation in a notification or counter-notification that causes injury to any interested party as a result of a service provider relying on the misrepresentation.
- (x) If the service provider removes or disables access to material in good faith based on claimed or apparent infringement, each Party shall provide that the service provider shall be exempted from liability for any resulting claims, provided that, in the case of material residing on its system or network, it takes reasonable steps promptly to notify the person making the material available on its system or network that it has done so and, if such person makes an effective counter-notification and is subject to jurisdiction in an infringement suit, to restore the material online unless the person giving the original effective notification seeks judicial relief within a reasonable time.
- (xi) Each Party shall establish an administrative or judicial procedure enabling copyright owners who have given effective notification of claimed infringement to obtain expeditiously from a service provider information in its possession identifying the alleged infringer.
- (xii) For purposes of the functions referred to in clause (i)(A), **service provider** means a provider of transmission, routing or connections for digital online communications without modification of their content between or among points specified by the user of material of the users choosing, and for purposes of the functions referred to in clauses (i)(B) through (i)(D) service provider means a provider or operator of facilities for online services or network access.

The Parties reaffirm their obligations as members of the International Labor Organization (ILO¹⁷⁻¹) and their commitments under the ILO Declaration on Fundamental Principles and Rights at Work and its Follow-up.¹⁷⁻¹ Each Party shall strive to ensure that such labor principles and the internationally recognized labor rights set forth in Article 17.7 are recognized and protected by domestic law.
2. Recognizing the right of each Party to establish its own domestic labor standards, and to adopt or modify accordingly its labor laws and regulations, each Party shall strive to ensure that its laws provide for labor standards consistent with the internationally recognized labor rights set forth in Article 17.7 and shall strive to improve those standards in that light.

ARTICLE 17.2 : APPLICATION AND ENFORCEMENT OF LABOR LAWS

1.
 - (a) A Party shall not fail to effectively enforce its labor laws, through a sustained or recurring course of action or inaction, in a manner affecting trade between the Parties, after the date of entry into force of this Agreement.
 - (b) The Parties recognize that each Party retains the right to exercise discretion with respect to investigatory, prosecutorial, regulatory, and compliance matters and to make decisions regarding the allocation of resources to enforcement with respect to other labor matters determined to have higher priorities. Accordingly, the Parties understand that a Party is in compliance with subparagraph (a) where a course of action or inaction reflects a reasonable exercise of such discretion, or results from a *bona fide* decision regarding the allocation of resources.
2. The Parties recognize that it is inappropriate to encourage trade or investment by weakening or reducing the protections afforded in domestic labor laws. Accordingly, each Party shall strive to ensure that it does not waive or otherwise derogate from, or offer to waive or otherwise derogate from, such laws in a manner that weakens or reduces adherence to the internationally recognized labor rights referred to in Article 17.7 as an encouragement for trade with the other Party, or as an encouragement for the establishment, acquisition, expansion, or retention of an investment in its territory.

ARTICLE 17.3 : PROCEDURAL GUARANTEES AND PUBLIC AWARENESS

1. Each Party shall ensure that persons with a legally recognized interest under its law in a particular matter have appropriate access to administrative, quasi-judicial, judicial, or labor tribunals for the enforcement of the Party's labor laws.

¹⁷⁻¹ The Parties recall that paragraph 5 of this ILO Declaration states that labor standards should not be used for protectionist trade purposes.

2. Each Party shall ensure that its administrative, quasi-judicial, judicial, or labor tribunal proceedings for the enforcement of its labor laws are fair, equitable and transparent.

5. Each Party's contact point designated under paragraph 2 shall provide for the submission, receipt, and consideration of public communications on matters related to provisions of this Chapter, and shall make such communications available to the other Party and, as appropriate, to the public. Each Party shall review such communications, as appropriate, in accordance with domestic procedures. The Parties, when they consider it appropriate, shall jointly prepare reports on matters related to the implementation of this Chapter, and shall make such reports public.

ARTICLE 17.5 : LABOR COOPERATION

Recognizing that cooperation provides enhanced opportunities to promote respect for core labor standards embodied in the ILO Declaration on Fundamental Principles and Rights at Work and its Follow-Up and compliance with ILO Convention 182 Concerning the Prohibition and Immediate Action for the Elimination of the Worst Forms of Child Labor, and to further advance other common commitments, the Parties establish a Labor Cooperation Mechanism, as set out in Annex 17A to this Chapter.

2. The Parties shall make every attempt to arrive at a mutually satisfactory resolution of the matter and may seek advice or assistance from any person or body they deem appropriate.
3. If the consultations fail to resolve the matter, either Party may request that the Subcommittee on Labor Affairs be convened. The Subcommittee shall convene within 30 days of a Party's delivery of a request to convene the Subcommittee to the other Party's contact point designated pursuant to Article 17.4.2,¹⁷⁻² unless the Parties otherwise agree. The Subcommittee shall endeavor to resolve the matter expeditiously, including, where appropriate, by consulting governmental or outside experts and having recourse to such procedures as good offices, conciliation, or mediation.
4. If a Party considers that the other Party has failed to carry out its obligations under Article 17.2.1(a), the Party may request consultations pursuant to Article 20.4.2(a) (Additional Dispute Settlement Procedures) or under paragraph 1 of this Article.
 - (a) If a Party requests consultations pursuant to Article 20.4.2(a) at a time when the Parties are engaged in consultations on the same matter under paragraph 1 of this Article or the Subcommittee is endeavoring to resolve the matter under paragraph 3, the Parties shall discontinue their efforts to resolve the matter under this Article. Once consultations have begun under Article 20.4.2(a), no consultations on the same matter may be entered into under this Article.
 - (b) If a Party requests consultations pursuant to Article 20.4.2(a) more than 60 days after the commencement of consultations under paragraph 1, the Parties may agree at any time to refer the matter to the Joint Committee pursuant to Article 20.4.2(a).

In addition to discussions of issues or activities related to the operation of this Chapter that may take place in the Joint Committee established under Article 20.1 (Joint Committee), the Parties shall, at the request of either Party, form a subcommittee consisting of government officials to meet at other times, as they deem appropriate, to discuss matters related to the operation of this Chapter.  - (c) Once the complaining Party has selected a particular forum, the forum selected shall be used to the exclusion of other possible fora.

- (d) The panel shall present a final report to the Parties within 45 days of presentation of the initial report, unless the Parties agree otherwise. The Parties shall release the final report to the public within 15 days thereafter, subject to the protection of confidential information.

ARTICLE 20.5 : IMPLEMENTATION OF THE FINAL REPORT

1. On receipt of the final report of a panel, the Parties shall agree on the resolution of the dispute, which normally shall conform with the determinations and recommendations, if any, of the panel.
2. If, in its final report, the panel determines that a Party has not conformed with its obligations under this Agreement or that a Party's measure is causing nullification or impairment in the sense of Article 20.4.1(c), the resolution, whenever possible, shall be to eliminate the non-conformity or the nullification or impairment.

ARTICLE 20.6 : NON-IMPLEMENTATION

1. If a panel has made a determination of the type described in Article 20.5.2, and the Parties are unable to reach agreement on a resolution pursuant to Article 20.5.1 within 45 days of receiving the final report, or such other period as the Parties agree, the Party complained against shall enter into negotiations with the other Party with a view to developing mutually acceptable compensation.
2. If the Parties:
 - (a) are unable to agree on compensation within 30 days after the period for developing such compensation has begun; or
 - (b) have agreed on compensation or on a resolution pursuant to Article 20.5.1 and the complaining Party considers that the other Party has failed to observe the terms of such agreement,

the complaining Party may at any time thereafter provide written notice to the office designated by the other Party pursuant to Article 20.2.1(a) that it intends to suspend the application to the

other Party of benefits of equivalent effect. The notice shall specify the level of benefits that the Party proposes to suspend. Subject to paragraph 5, the complaining Party may begin suspending benefits 30 days after the later of the date on which it provides notice to the other Party's designated office under this paragraph or the panel issues its determination under paragraph 3, as the case may be.

3. If the Party complained against considers that:
 - (a) the level of benefits that the other Party has proposed to be suspended is manifestly excessive; or
 - (b) it has eliminated the non-conformity or the nullification or impairment that the panel has found,

it may, within 30 days after the complaining Party provides notice under paragraph 2, request that the panel be reconvened to consider the matter. The Party complained against shall deliver its request in writing to the office designated by the other Party pursuant to Article 20.2.1(a). The panel shall reconvene as soon as possible after delivery of the request to the designated office and shall present its determination to the Parties within 90 days after it reconvenes to review a request under subparagraph (a) or (b), or within 120 days for a request under subparagraphs (a) and (b). If the panel determines that the level of benefits proposed to be suspended is manifestly excessive, it shall determine the level of benefits it considers to be of equivalent effect.

4. The complaining Party may suspend benefits up to the level the panel has determined under paragraph 3 or, if the panel has not determined the level, the level the Party has proposed to suspend under paragraph 2, unless the panel has determined that the Party complained against has eliminated the non-conformity or the nullification or impairment.

5. The complaining Party may not suspend benefits if, within 30 days after it provides written notice of intent to suspend benefits or, if the panel is reconvened under paragraph 3, within 20 days after the panel provides its determination, the Party complained against provides written notice to the other Party's office designated pursuant to Article 20.2.1(a) that it will pay an annual monetary assessment. The Parties shall consult, beginning no later than ten days after the Party complained against provides notice, with a view to reaching agreement on the amount of the assessment. If the Parties are unable to reach an agreement within 30 days after consultations begin, the amount of the assessment shall be set at a level, in U.S. dollars, equal to 50 percent of the level of the benefits the panel has determined under paragraph 3 to be of equivalent effect or, if the panel has not determined the level, 50 percent of the level that the complaining Party has proposed to suspend under paragraph 2.

6. Unless the Joint Committee otherwise decides, a monetary assessment shall be paid to the complaining Party in U.S. currency, or in an equivalent amount of Singaporean currency, in equal, quarterly installments beginning 60 days after the Party complained against gives notice that it intends to pay an assessment. Where the circumstances warrant, the Joint Committee may decide that an assessment shall be paid into a fund established by the Joint Committee and

expended at the direction of the Joint Committee for appropriate initiatives to facilitate trade between the Parties, including by further reducing unreasonable trade barriers or by assisting a Party in carrying out its obligations under the Agreement.

7. If the Party complained against fails to pay a monetary assessment, the complaining Party may suspend the application to the Party complained against of benefits in accordance with paragraph 4.

8. This Article shall not apply with respect to a matter described in Article 20.7.1.

ARTICLE 20.7 : NON-IMPLEMENTATION IN CERTAIN DISPUTES

1. If, in its final report, a panel determines that a Party has not conformed with its obligations under Article 17.2.1(a) (Application and Enforcement of Labor Laws) or Article 18.2.1(a) (Application and Enforcement of Environmental Laws), and the Parties:

- (a) are unable to reach agreement on a resolution pursuant to Article 20.5.1 within 45 days of receiving the final report; or
- (b) have agreed on a resolution pursuant to Article 20.5.1 and the complaining Party considers that the other Party has failed to observe the terms of the agreement,

the complaining Party may at any time thereafter request that the panel be reconvened to impose an annual monetary assessment on the other Party. The complaining Party shall deliver its request in writing to the office designated by the other Party pursuant to Article 20.2.1(a). The panel shall reconvene as soon as possible after delivery of the request to the designated office.

2. The panel shall determine the amount of the monetary assessment in U.S. dollars within 90 days after it reconvenes under paragraph 1. In determining the amount of the assessment, the panel shall take into account:

- (a) the bilateral trade effects of the Party's failure to effectively enforce the relevant law;
- (b) the pervasiveness and duration of the Party's failure to effectively enforce the relevant law;
- (c) the reasons for the Party's failure to effectively enforce the relevant law;
- (d) the level of enforcement that could reasonably be expected of the Party given its resource constraints;
- (e) the efforts made by the Party to begin remedying the non-enforcement after the final report of the panel; and
- (f) any other relevant factors.

The amount of the assessment shall not exceed 15 million U.S. dollars annually, adjusted for inflation as specified in Annex 20A.

3. On the date on which the panel determines the amount of the monetary assessment under paragraph 2, or at any other time thereafter, the complaining Party may provide notice in writing to the office designated by the other Party pursuant to Article 20.2.1(a) demanding payment of the monetary assessment. The monetary assessment shall be payable in U.S. currency, or in an equivalent amount of Singaporean currency, in equal, quarterly installments beginning on the later of:

- (a) 60 days after the date on which the panel determines the amount; or
- (b) 60 days after the complaining Party provides the notice described in this paragraph.

4. Assessments shall be paid into a fund established by the Joint Committee and shall be expended at the direction of the Joint Committee for appropriate labor or environmental initiatives, including efforts to improve or enhance labor or environmental law enforcement, as the case may be, in the territory of the Party complained against, consistent with its law. In deciding how to expend monies paid into the fund, the Joint Committee shall consider the views of interested persons in the Parties' territories.

5. If the Party complained against fails to pay a monetary assessment, and if the Party has created and funded an escrow account to ensure payment of any assessments against it, the other Party shall, before having recourse to any other measure, seek to obtain the funds from the account.

6. If the complaining Party cannot obtain the funds from the other Party's escrow account within 30 days of the date on which payment is due, or if the other Party has not created an escrow account, the complaining Party may take other appropriate steps to collect the assessment or otherwise secure compliance. These steps may include suspending tariff benefits under the Agreement as necessary to collect the assessment, while bearing in mind the Agreement's objective of eliminating barriers to bilateral trade and while seeking to avoid unduly affecting parties or interests not party to the dispute.

ARTICLE 20.8 : COMPLIANCE REVIEW

1. Without prejudice to the procedures set out in Article 20.6.3, if the Party complained against considers that it has eliminated the non-conformity or the nullification or impairment that the panel has found, it may refer the matter to the panel by providing written notice to the office designated by the other Party pursuant to Article 20.2.1(a). The panel shall issue its report on the matter within 90 days after the Party complained against provides notice.

2. If the panel decides that the Party complained against has eliminated the non-conformity or the nullification or impairment, the complaining Party shall promptly reinstate any benefits it has suspended under Article 20.6 or 20.7 and the Party complained against shall no longer be

required to pay any monetary assessment it has agreed to pay under Article 20.6.5 or that has been imposed on it under Article 20.7.

ARTICLE 20.9 : FIVE-YEAR REVIEW

The Joint Committee shall review the operation and effectiveness of Articles 20.6 and 20.7 not later than five years after the date of entry into force of this Agreement, or within six months after benefits have been suspended or monetary assessments have been imposed in five proceedings initiated under this Chapter, whichever occurs first.

ARTICLE 20.10 : PRIVATE RIGHTS

Neither Party may provide for a right of action under its domestic law against the other Party on the ground that a measure of the other Party is inconsistent with this Agreement.

4. Subject to paragraph 2:

- (a) Article 8.3 (National Treatment) and Article 10.2 (National Treatment) shall apply to taxation measures on income, capital gains or on the taxable capital of corporations that relate to the purchase or consumption of particular services, except that nothing in this subparagraph shall prevent a Party from conditioning the receipt or continued receipt of an advantage relating to the purchase or consumption of particular services on requirements to provide the service in its territory, and
- (b) Article 15.4 (National and Most-Favored-Nation Treatment), Articles 8.4 (National Treatment) and 8.4 (Most-Favored-Nation Treatment) and Articles 10.2 (National Treatment) and 10.3 (Most-Favored-Nation Treatment) shall apply to all taxation measures, other than those on income, capital gains, or on the taxable capital of corporations, taxes on estates, inheritances, gifts and generation-skipping transfers,

except that nothing in those Articles shall apply:

- (c) to any most-favored-nation obligation with respect to an advantage accorded by a Party pursuant to a tax convention;
- (d) to a non-conforming provision of any existing taxation measure;
- (e) to the continuation or prompt renewal of a non-conforming provision of any existing taxation measure;
- (f) to an amendment to a non-conforming provision of any existing taxation measure to the extent that the amendment does not decrease its conformity, at the time of the amendment, with any of those Articles;
- (g) to the adoption or enforcement of any taxation measure aimed at ensuring the equitable or effective imposition or collection of taxes (as permitted by GATS Article XIV(d)); or
- (h) to a provision that conditions the receipt, or continued receipt of an advantage relating to the contributions to, or income of, a pension trust, fund, or other arrangement to provide pension or similar benefits on a requirement that the Party maintain continuous jurisdiction over such trust, fund, or other arrangement.

5. Subject to paragraph 2 and without prejudice to the rights and obligations of the Parties under paragraph 3, paragraphs 2, 3, and 4 of Article 15.8 (Performance Requirements) shall apply to taxation measures.

6. Article 15.15 (Submission of a Claim to Arbitration) shall apply to a taxation measure alleged to be a breach of an investment agreement or an investment authorization. Articles 15.6 (Expropriation) and 15.15 shall apply to a taxation measure alleged to be an expropriation. However, no investor may invoke Article 15.6 as the basis for a claim where it has been determined pursuant to this paragraph that the measure is not an expropriation. An investor that seeks to invoke Article 15.6 with respect to a taxation measure must first refer to the competent authorities described in paragraph 7, at the time that it gives notice under Article 15.15.2, the issue of whether that taxation measure involves an expropriation. If the competent authorities do not agree to consider the issue or, having agreed to consider it, fail to agree that the measure is not an expropriation within a period of six months of such referral, the investor may submit its claim to arbitration under Article 15.15.4.

7. For purposes of this Article,

(a) **competent authorities** means

- (i) in the case of Singapore, Director (Taxation), Ministry of Finance; and
- (ii) in the case of the United States, the Assistant Secretary of the Treasury (Tax Policy), Department of the Treasury; and

(b) **investment agreement** and **investment authorization** have the meanings ascribed to them in Chapter 15 (Investment).

ARTICLE 21.4 : DISCLOSURE OF INFORMATION

Nothing in this Agreement shall be construed to require a Party to furnish or allow access to confidential information, the disclosure of which would impede law enforcement, or otherwise be contrary to the public interest, or which would prejudice the legitimate commercial interests of particular enterprises, public or private.

ARTICLE 21.5 : ANTI-CORRUPTION

1. Each Party reaffirms its firm existing commitment to the adoption, maintenance, and enforcement of effective measures, including deterrent penalties, against bribery and corruption in international business transactions. The Parties further commit to undertake best efforts to associate themselves with appropriate international anti-corruption instruments and to encourage and support appropriate anti-corruption initiatives and activities in relevant international fora.

2. The Parties shall cooperate to strive to eliminate bribery and corruption and to promote transparency in international trade. They will look for avenues in relevant international fora to address these issues and build upon the potential anti-corruption efforts in these fora.

ARTICLE 21.6 : ACCESSION

1. Any country or group of countries may accede to this Agreement subject to such terms and conditions as may be agreed between such country or countries and the Parties and following approval in accordance with the applicable legal procedures of each country.
2. This Agreement shall not apply as between any Party and any acceding country or group of countries if, at the time of the accession, either does not consent to such accession.

ARTICLE 21.7 : ANNEXES

The Annexes to this Agreement constitute an integral part of this Agreement.

ARTICLE 21.8 : AMENDMENTS

This Agreement may be amended by agreement in writing by the Parties and such amendment shall enter into force after the Parties have exchanged written notification certifying that they have completed necessary internal legal procedures and on such date or dates as may be agreed between them.

ARTICLE 21.9 : ENTRY INTO FORCE AND TERMINATION

1. This Agreement shall come into force 60 days after the date when the Parties have exchanged written notification that their respective internal requirements for the entry into force of this Agreement have been fulfilled, or such other date as the Parties may agree.
2. Either Party may terminate this Agreement by written notification to the other Party, and such termination shall take effect six months after the date of the notification.
3. Within 30 days of delivery of a notification under paragraph 2, either Party may request consultations regarding whether the termination of any provision of this Agreement should take effect at a later date than provided under paragraph 2. Such consultations shall commence within 30 days of a Party's delivery of such request.

IN WITNESS WHEREOF, the undersigned, being duly authorized by their respective Governments, have signed this Agreement.

Done at Washington, in duplicate, this sixth day of May, 2003.

The Honorable
Robert B. Zoellick
United States Trade Representative

Dear Ambassador Zoellick,

In connection with signing on this date of the United States - Singapore Free Trade Agreement (the "Agreement"), I have the honor to confirm the following:

1. Singapore will commit to the recognition of the degree of Doctor of Jurisprudence ("J.D.") or equivalent law degree, conferred by four U.S. law schools for the purposes of admission into the Singapore Bar, based on the following criteria:
 - (a) Such recognition will only be conferred on persons who are Singapore citizens or Singapore Permanent Residents at the time they receive the J.D. or equivalent law degree from one of the four designated U.S. law schools;
 - (b) Such recognition will only apply to a J.D. or equivalent law degree obtained by a full-time internal candidate (as defined in Singapore legislation) after a 3-year course of study, the entire course of which was conducted within the United States;
 - (c) Such recognition will only be conferred on persons who have been ranked by the law school as being amongst the highest 40%, in terms of academic performance, of the total number of law school graduates in the same batch who have been conferred that degree by that law school; and
 - (d) The person seeking recognition must obtain the Diploma in Singapore law conferred by the National University of Singapore, attend and pass the Postgraduate Legal Practice Course organized by the Board of Legal Education, complete the prescribed periods of pupillage, and comply with all other requirements which may be imposed from time to time by Singapore on graduates from non-Singapore law schools provided that such additional requirements does not discriminate against graduates of U.S. law schools vis-à-vis graduates from other non-Singapore law schools.
2. Singapore and the United States (the "Parties") will initiate consultations on the selection of the four law schools prior to the entry into force of the Agreement. The Parties will further consult with a view to expanding the number of U.S. law schools whose J.D. or equivalent law degree is recognized by Singapore.

This side letter is not subject to the dispute settlement provisions of the Agreement.

Sincerely,

A handwritten signature in black ink, appearing to read 'George Yeo', written in a cursive style.

The Honorable
George Yeo
Minister for Trade and Industry

Dear Minister Yeo:

I have the honor to confirm the following understanding reached by the United States and Singapore with respect to the implementation of Chapter 11, Annex 11A of the United States - Singapore Free Trade Agreement (the "Agreement").

Annex 11A, Section IV, paragraph 6 of the Agreement allows a Party to maintain procedures applicable to temporary entry of professionals, such as an attestation of compliance with the Party's labor and immigration laws. The United States intends to require all business persons seeking entry as professionals to the United States under the terms of the Agreement to present an attestation of compliance with certain labor and immigration laws from an employer in the United States. This attestation will initially have the same elements that are currently outlined in Section 212(n)(1)(A) - (D) of the *Immigration and Nationality Act*, 1952, as amended ("INA"). The United States and Singapore agree that neither requiring an attestation of compliance with U.S. labor or immigration laws, nor requiring business persons seeking entry as professionals under the Agreement to comply with the specific elements outlined in Section 212(n)(1)(A) - (D) of the INA constitute a violation under Chapter 11, Annex 11A, Section IV, paragraph 5(a) of the Agreement.

Understanding that the Parties have agreed that changes to a Party's laws, regulations or procedures that do not unduly restrict the rights granted under the Agreement do not violate the Agreement, it is the intention of Singapore to implement the commitments made under Annex 11A under prevailing Singapore laws and procedures. These laws currently are the Immigration Act and Immigration Regulations.

Singapore intends to require business persons seeking entry as professionals under the Agreement to meet certain salary criteria. The United States and Singapore agree that such a requirement does not constitute a violation under Chapter 11, Annex 11A, Section IV, paragraph 5(a) of the Agreement.

I have the honor to propose that this understanding be treated as an integral part of the Agreement.

Sincerely,

Robert B. Zoellick

Dear Mr. Ives:

This letter confirms that the United States and Singapore affirm their right to apply prudential measures regarding the supply of insurance services. In this regard, the Government of Singapore clarifies that, for prudential reasons, its commitments regarding the cross-border supply of MAT intermediation by brokerages in Singapore paragraph 1(e) in Annex 10A is limited by the requirement that the US brokerages can only place MAT insurance with US financial institutions. Singapore would remain open to consulting on this issue.

Dear Mr. Menon:

We have the honor to refer to the United States B Singapore Free Trade Agreement (the "Agreement") signed at Washington, D.C., on May 6, 2003.

During the negotiation of the Agreement, the United States and Singapore (collectively, the "Parties") discussed their approaches to regulation of non-insurance financial services. The Parties agreed that the listing of non-conforming measures in Annex 10B of a Party will reflect to a considerable degree that Party's experience and practice in other international agreements dealing with financial services. The Parties further agreed to attach no significance to the mere fact that one Party has listed such a measure in its Annex 10B and the other Party has not.

The Parties also agreed that, with respect to cross-border trade in non-insurance financial services, including cross-border aspects of portfolio management, and without prejudice to other means of prudential regulation, a Party may require the registration or authorization of the relevant financial institution. The Parties similarly recognize that a Party may also impose such prudential regulation with respect to cross-border trade in insurance services.

We have the honor to propose that this understanding be treated as an integral part of the Agreement.

We would be grateful if you would confirm that this understanding is shared by your government.

Dear Minister Yeo:

I have the honor to refer to Article 15.26(a) (Status of Letter Exchanges) of the United States – Singapore Free Trade Agreement (the “Agreement”) signed at Washington, D.C., on May 6, 2003.

During the negotiation of the Investment Chapter of the Agreement (Chapter 15), the Government of the United States of America and the Government of Singapore (collectively, the “Parties”) discussed the term “customary international law” generally and with specific reference to Articles 15.5 (Minimum Standard of Treatment) and 15.6 (Expropriation). Based on those discussions, I have the honor to confirm the Parties’ shared understanding that customary international law results from a general and consistent practice of States that they follow from a sense of legal obligation. With regard to Article 15.5 (Minimum Standard of Treatment), the customary international law minimum standard of treatment of aliens refers to all customary international law principles that protect the economic rights and interests of aliens.

I have the honor to propose that this understanding be treated as an integral part of the Agreement.

I would be grateful if you would confirm that this understanding is shared by your Government.

Dear Minister Yeo:

I have the honor to refer to the Article 15.26(b) (Status of Letter Exchanges) of the United States – Singapore Free Trade Agreement (the “Agreement”) signed at Washington, D.C., on May 6, 2003.

During the negotiation of the Investment Chapter of the Agreement (Chapter 15), the United States and Singapore (collectively, the “Parties”) discussed Article 15.6.1 (Expropriation) in order to clarify and reaffirm its meaning. Based on those discussions, I have the honor to confirm the Parties’ shared understanding that:

1. Article 15.6.1 (Expropriation) is intended to reflect customary international law concerning the obligation of States with respect to expropriation.
2. An action or a series of actions by a Party cannot constitute an expropriation unless it interferes with a tangible or intangible property right or property interest in an investment.
3. Article 15.6.1 (Expropriation) addresses two situations. The first is direct expropriation, where an investment is nationalized or otherwise directly expropriated through formal transfer of title or outright seizure.
4. The second situation addressed by Article 15.6.1 (Expropriation) is indirect expropriation, where an action or series of actions by a Party has an effect equivalent to direct expropriation without formal transfer of title or outright seizure.

(a) The determination of whether an action or series of actions by a Party, in a specific fact situation, constitutes an indirect expropriation, requires a case-by-case, fact-based inquiry that considers, among other factors:

- (i) the economic impact of the government action, although the fact that an action or series of actions by a Party has an adverse effect on the economic value of an investment, standing alone, does not establish that an indirect expropriation has occurred;

(ii) the extent to which the government action interferes with distinct, reasonable investment-backed expectations; and

(iii) the character of the government action.

(b) Except in rare circumstances, nondiscriminatory regulatory actions by a Party that are designed and applied to protect legitimate public welfare objectives, such as public health, safety, and the environment, do not constitute indirect expropriations.

I have the honor to propose that this understanding be treated as an integral part of the Agreement.

I would be grateful if you would confirm that this understanding is shared by your Government.

2. There shall be recourse to the dispute settlement provisions of Chapters 15 (Investment) and 20 (Administrative and Dispute Settlement) of the Agreement if an investor of the United States or the United States files a claim that Singapore has breached the obligation in paragraph 1 of this letter. 4. In relation to expropriation by Singapore of land of an investor of the United States or a covered investment, Article 15.6 (Expropriation) shall not take effect until three years after the date of entry into force of the Agreement, unless prior to that time Singapore is found to be in breach of the obligation in paragraph 1 of this letter.

Dear Minister Yeo:

I have the honor to confirm the following with regard to the denial of benefits provisions set out in Article 8.11(a), Article 15.11(a), and incorporated by reference in Article 10.1.2(a) of the United States - Singapore Free Trade Agreement (the "Agreement") between our two Governments signed on this day.

United States legislation regarding the imposition of trade and economic sanctions against foreign countries is set out in certain federal statutes passed by the United States Congress. The United States wishes to clarify that such sanctions legislation does not impinge on Singapore's sovereign right to conduct its foreign policy nor does it prohibit companies of foreign countries that are subject to U.S. sanctions from establishing themselves in Singapore.

The United States Department of Treasury's Office of Foreign Assets Control ("OFAC") and the United States Department of Commerce's Bureau of Industry and Security ("BIS") administer the principal U.S. trade and economic sanctions. OFAC administers and enforces economic and trade sanctions against foreign countries, as well as entities and individuals identified on a list of "Specially Designated Nationals". BIS administers and enforces controls on exports and re-exports of dual-use items to certain countries and entities for national security and foreign policy reasons. In addition, individuals and companies subject to export restrictions are identified on "Denied Persons" and "Denied Entities" lists. Comprehensive, up-to-date information on U.S. economic and trade sanctions can be obtained through the OFAC and BIS websites and through publications in the *Federal Register*.

Article 20.3 of the Agreement provides that either Party may request consultations with respect to any matter that it considers might affect the operation of the Agreement, including how the trade and economic sanctions of the other Party might affect the operation of the Agreement.

I trust that this letter provides the assurances that Singapore has sought with regard to the Agreement's denial of benefits provisions.

Sincerely,

 Singapore 079117

Dear Mr. Koh:

I am pleased that our governments have been able to reach agreement on the following principles, with respect to Annex 15-A of the Free Trade Agreement between our Governments signed on this day. It is the intent of both Parties that this letter provide interpretative guidance for any dispute settlement panel that considers any issue addressed in this letter, and that any such panel must decide such issues in accordance with the principles contained herein.

First, without attempting to exhaustively define the term "substantially impede transfers," we agree, as a rebuttable presumption, that restrictive measures on outward payments and transfers will be deemed not to substantially impede transfers, if they are applied on a national treatment and most-favored-nation basis, are price-based, are not confiscatory, do not effectively prohibit or ban transfers over any period of time,¹ do not constitute a dual or multiple exchange rate practice, do not restrict the sale or conversion of the assets to any other asset denominated in Singapore dollars, and do not otherwise interfere with the investor's ability to earn a market rate of return in Singapore on the restricted assets. A measure will not be deemed to substantially impede transfers by virtue of the fact that it relies on approval procedures for outward payments and transfers, provided the approval procedures are based on objective and transparent rules, and investors have an alternative means of making payments and transfers through a price-based mechanism.

Second, if a measure is found to "substantially impede transfers," the investor will have the burden of proving the existence and extent of diminution in its asset value as a consequence of the measure. If an investor can only speculate that the exchange rate would have been more favorable on the date when it was prepared to transfer its funds than when the funds were transferred, and Singapore presents evidence that the exchange rate could have been even less favorable at that time had the measure not been imposed, the investor has not met its burden of proof.

¹⁵⁻¹⁶ Restrictive measures will be deemed not to effectively prohibit or ban transfers if a reasonable investor could have made outward payments and transfers.

Third, if a measure substantially impedes transfers, it shall not prevent investors from earning a market rate of return in Singapore on any restricted assets. The investor, in turn, is obligated to mitigate damages, and cannot recover to the extent it was afforded a reasonable opportunity to mitigate its losses. Moreover, so long as Singapore has afforded investors a reasonable opportunity to mitigate their losses by investing in other Singapore dollar denominated assets during the first year that transfers of any assets are restricted, investors will not be able to recover their alleged opportunity costs from forgoing alternative investments.

I appreciate your assistance and that of your staff in resolving this issue.

Sincerely,

A handwritten signature in black ink, appearing to read "John Taylor". The signature is fluid and cursive, with the first name "John" and last name "Taylor" clearly distinguishable.

The Honorable
Robert B. Zoellick
United States Trade Representative

Dear Ambassador Zoellick:

In connection with the signing on this date of the United States - Singapore Free Trade Agreement (the "Agreement"), I have the honor to confirm the understanding reached, by our two Governments, in relation to Chapter 16 (Intellectual Property Rights) of the Agreement as follows:

1. (a) With respect to criminal proceedings authorized under Section 336 (4) and (7) of the Criminal Procedural Code (Chapter 68), Singapore agrees that a right holder and/or its representative(s):
 - (i) shall be required to indemnify the Government only against compensation, costs, or expenses that are actually incurred or paid by the Government by reason of misrepresentations, and negligent or malicious acts or omissions by the right holder and/or its representative(s) in connection with such criminal proceedings; and
 - (ii) shall be entitled to make application under Section 401(1)(a) of the Criminal Procedure Code (Chapter 68) for an order for the payment by the accused persons of the costs arising from their prosecution where prosecution has resulted in a conviction arising from a full trial and if this has been approved by the Public Prosecutor, who will give serious consideration to the submission.
- (b) In the declaration made by the right holder or its representative to the Singapore Police Force as to disclosure of information pertaining to criminal raids, he or she shall only be required to declare, to the best of their knowledge, that information of such raids has not been disclosed by them to any unauthorized person.

2. Concerning the manufacture of optical discs, Singapore agrees to give effect to the following:

- (a) License:
 - (i) No person shall manufacture in Singapore optical discs, including master discs or stampers used in the manufacture of discs, unless he holds a valid license to do so;
 - (ii) No licensee shall manufacture optical discs in any location other than the licensed premises; and
 - (iii) In granting a license, the competent authority shall assign to the licensee a manufacturer's code (such as the source identification (SID) code currently deployed by optical media industries), and may impose such other conditions as it thinks fit.
- (b) Register: The competent authority shall establish and maintain a register of the licenses granted, which shall be available for public inspection.
- (c) Manufacturer's Code:
 - (i) Every licensee shall ensure that each optical disc manufactured is marked with the manufacturer's code endorsed on his license;¹ and
 - (ii) The standard for marking manufacturer's codes on optical discs shall include both a mould code and a mastering code. Every mould must be engraved with a mould code and every Laser Beam Recorder must be hardwired with a mastering code such that every master/stamper and every disc produced will bear markings identifying the source.
- (d) Records: Every licensee shall maintain complete and accurate records of orders received, customers, suppliers, equipment, and discs manufactured. In addition, every licensee shall keep records on the quantity of optical disc grade polycarbonate received on the licensed premises, the quantity of such material being used for the manufacture of optical discs, the quality of such material being disposed in other manner, and the manner of disposal.
- (e) Inspections: The competent authority shall carry out regular inspections without prior notice to ensure that the regulations and the conditions of the license are complied with, and shall be permitted to seize any items – including equipment – if there is a breach of the regulations or the conditions of the license.

¹ Singapore may provide an exception to this obligation in those cases where each right holder that has a right in the content to be contained on an optical disc expressly requests that no manufacturer's code be marked on the optical disc. Singapore shall provide that before executing such request, the manufacturer shall verify, including through contact with the right holder or its representatives, that any person making such a request owns the rights in question.

Every licensee shall produce its records for and permit inspection by the competent authorities at any time.

(f) Exemplars of Discs: Every licensee shall provide exemplars of discs from each of its manufacturing lines to law-enforcement authorities and right-holder organizations, and permit inspection by right-holder organizations.

(g) Offenses: A person who contravenes the obligations of the regulation or breaches any condition of the license shall be liable for a fine or imprisonment, or both. Except for minor violations, all equipment seized shall be forfeited and any license granted shall be revoked.

(h) Licensing: Singapore shall provide for a system of automatic licensing for the import into or the export from Singapore of "stampers" and "masters" and manufacturing equipment used in connection with the production of optical discs.

3. Pursuant to Article 148 of the Singapore Copyright Act (Cap 63), 1987, as amended, Singapore will discontinue the operation of the compulsory licenses established in Articles 143 through 148 of the Act.

4. Singapore and the United States agree that nothing in paragraphs 1, 2, and 4(c) of Article 16.8 (Certain Regulated Products) shall affect (1) the authority of Singapore to grant an import license for a pharmaceutical product that is in all respects the same as a pharmaceutical product for which a product license (i.e., marketing approval) has been granted, or (2) any exclusive right conferred by a patent in each Party for a pharmaceutical product for which a product license has been granted, should such a patent subsist.

5. With respect to the last sentence in Article 16.9.6 setting forth the obligation to provide for a presumption of subsistence of copyright, Singapore is permitted to implement the obligation with respect to civil cases by providing that if the defendant does not put subsistence of copyright in issue in good faith, subsistence shall stand as proved. If the defendant puts subsistence in issue in good faith, then the plaintiff will be permitted to file an affidavit attesting to the facts of subsistence and, at that point, such subsistence will be presumed, in the absence of proof to the contrary, and without the need for the affiant to be present in court unless the court deems it necessary to order otherwise.

6. To the extent that Singapore permits parallel importation of patented pharmaceutical products without the authorization of the manufacturer, Singapore will have legislation or regulations in place to ensure compliance with product identity, safety, quality, integrity, manufacturing practices, and other relevant requirements related to health and safety. The government shall have adequate provisions for enforcing such requirements.

7. Nothing in this Agreement shall require Singapore to restrict the importation or domestic sale of a device that does not render effective a technological measure whose sole purpose is to control market segmentation for legitimate copies of motion pictures, and is not otherwise a violation of law.

I have the honor to propose that this understanding be treated as an integral part of this Agreement.

I would be grateful if you would confirm that this understanding is shared by your Government.

Sincerely,

George Yeo

United States Trade Representative

Dear Ambassador Zoellick:

In connection with the signing on this date of the United States - Singapore Free Trade Agreement (the "Agreement"), I have the honor to confirm the understanding reached, by our two Governments, in relation to Chapter 16 (Intellectual Property Rights) of the Agreement as follows:

In meeting the obligations of Article 16.9:22(ix), the Government of Singapore agrees to adopt requirements for: (a) effective written notice to service providers with respect to materials that are claimed to be infringing and (b) effective written counter-notification by those whose material is removed or disabled and who claim that it was disabled through mistake or misidentification, as set forth below. Substantial compliance with the elements listed below shall be deemed to be effective written notice or counter-notification.

(a) Model of an effective notice, by a copyright¹ owner or person authorized to act on behalf of an owner of an exclusive right, to a service provider's publicly designated representative²

In order for a notice to a service provider to be compliant with Article 16.9.22(ix), it must be a written or electronic communication that includes substantially the following items:

1. The identity, address, telephone number and electronic mail address of the complaining party (or its authorized agent);
2. Information that is reasonably sufficient to enable the service provider to identify the copyrighted work(s)³ claimed to have been infringed;

¹ All references to copyright in this letter are understood to include related rights, and all references to works are understood to include the subject matter of related rights.

² It is understood that a representative is publicly designated to receive notification on behalf of a service provider if the representative's name, physical and electronic address, and telephone number are posted on a publicly accessible portion of the service provider's website, and also in a public register publicly accessible through the Internet or such other form or manner appropriate for Singapore.

³ If multiple copyrighted works at, or linked to from, a single online site on a system or network controlled or operated by or for the service provider are covered by a single notification, a representative list of such works at, or linked to from, that site may be provided.

3. Information that is reasonably sufficient to permit the service provider to identify and locate the material that is residing on a system or network controlled or operated by it or for it, that is claimed to be infringing or to be the subject of infringing activity and that is to be removed or access to which is to be disabled⁴;
4. Statement that the complaining party has a good faith belief that use of the material in the manner complained of is not authorized by copyright owner, its agent or the law;
5. Statement that the information in the notice is accurate;
6. Statement with sufficient indicia of reliability⁵ (such as a statement under penalty of perjury or equivalent legal sanctions) that the complaining party is the owner of an exclusive right that is allegedly infringed or is authorized to act on the owner's behalf; and
7. The signature of the person giving notice.⁶

(b) Model of an Effective Counter-Notification by a Subscriber⁷ Whose Material Was Removed or Disabled as a Result of Mistake or Misidentification of Material

In order for a counter-notification to a service provider to be compliant with Article 16.9.22 (b) (ix), it must be written or electronic communication that includes substantially the following items:

1. The identity, address, telephone number and electronic mail address of the subscriber;
2. Identification of the material that has been removed or to which access has been disabled;

⁴ In the case of notices regarding an information location tool pursuant to paragraph (b)(i)(D) of Article 16.9.22 information provided must be reasonably sufficient to permit the service provider to locate the reference or link residing on a system or network controlled or operated by or for it, except that in the case of a notice regarding a substantial number of references or links at a single online site residing on a system or network controlled or operated by or for the service provider, a representative list of such references or links at the site may be provided, if accompanied by information sufficient to permit the service provider to locate the references or links.

⁵ To satisfy this requirement the process to be established shall not be costly or cumbersome. An appropriate electronic mechanism shall be used or incorporated in this process.

⁶ A signature transmitted as part of an electronic communication satisfies this requirement.

⁷ All references to "subscriber" in this letter refer to the person whose material has been removed or disabled by a service provider as a result of an effective notice described in paragraph (a) of this letter.

3. Location at which the material appeared before it was removed or access to it was disabled;
4. Statement with sufficient indicia of reliability (such as a statement under penalty of perjury or equivalent legal sanctions) that the subscriber is the supplier of the material and has a good faith belief that the material was removed or disabled as a result of mistake or misidentification of the material;
5. Statement that the subscriber agrees to be subject to orders of any court that has jurisdiction over the place where the subscriber's address is located, or if that address is located outside of the Party's territory, any other court with jurisdiction over any place in the Party's territory in which the service provider may be found, and in which a copyright infringement suit could be brought with respect to the alleged infringement;
6. Statement that the subscriber will accept service of process in any such suit; and
7. The signature of the subscriber.⁸

I have the honor to propose that this understanding be treated as an integral part of this Agreement.

I would be grateful if you would confirm that this understanding is shared by your Government.

Sincerely,

George Yeo

ANNEX 8A
SCHEDULE OF SINGAPORE

Headnotes:

1. Local Presence and National Treatment are separate disciplines and a measure that is only inconsistent with Local Presence need not be reserved against National Treatment.
2. References to CPC codes refer to the provisional CPC codes as used in the Provisional Central Product Classification (Statistical Papers Series M No. 77, Department of International Economic and Social Affairs, Statistical Office of the United Nations, New York, 1991) and are meant to define the scope of the reservation unless otherwise stated.
3. The carve-out for subsidies in the Chapter on Cross-Border Trade in Services includes subsidies or grants provided by a Party to service consumers.
4. The carve-outs for financial services, subsidies, and government procurement in the Chapter on Cross-Border Trade in Services apply equally to the Investment Chapter.
5. Where an inconsistency arises in relation to the interpretation of a reservation, the Description column or portion of the reservation shall prevail to the extent of the inconsistency.
6. For greater certainty, the fact that Singapore has described a measure in the Description element of a Schedule entry does not necessarily mean that, in the absence of such a Schedule entry, the measure would be inconsistent with Singapore's obligations under Chapter 8 (Cross-Border Trade in Services), Chapter 10 (Financial Services), or Chapter 15 (Investment).

Headnotes:

1. Local Presence and National Treatment are separate disciplines and a measure that is only inconsistent with Local Presence need not be reserved against National Treatment.
2. References to CPC codes refer to the provisional CPC codes as used in the Provisional Central Product Classification (Statistical Papers Series M No. 77, Department of International Economic and Social Affairs, Statistical Office of the United Nations, New York, 1991) and are meant to define the scope of the reservation unless otherwise stated.
3. The carve-out for subsidies in the Chapter on Cross-Border Trade in Services includes subsidies or grants provided by a Party to service consumers.
4. The carve-outs for financial services, subsidies, and government procurement in the Chapter on Cross-Border Trade in Services apply equally to the Investment Chapter.
5. Where an inconsistency arises in relation to the interpretation of a reservation, the Description column or portion of the reservation shall prevail to the extent of the inconsistency.
6. For greater certainty, the fact that Singapore has described a measure in the Description element of a Schedule entry does not necessarily mean that, in the absence of such a Schedule entry, the measure would be inconsistent with Singapore's obligations under Chapter 8 (Cross-Border Trade in Services), Chapter 10 (Financial Services), or Chapter 15 (Investment).

Sub-sector	-
Industry Classification	-
Obligations concerned	National Treatment Market Access Local Presence Senior Management and Boards of Directors
Level of Government	Central

Description

Cross-Border Services and Investment:I. Devolution of Services Provided in the Exercise of Governmental Authority

1. Singapore reserves the right to adopt and maintain the following measures solely as part of the act of devolving a service, that it is providing in the exercise of governmental authority* at the time the Agreement enters into force:

- (a) restricting the number of service suppliers;
- (b) allowing an enterprise, wholly or majority owned by the Government of Singapore, to be the sole service supplier or one amongst a limited number of service suppliers;
- (c) imposing restrictions on the composition of Senior Management and Board of Directors;
- (d) requiring local presence; and
- (e) specifying the juridical form of the service supplier(s).

2. To the extent possible, Singapore shall inform the United States of a service that it is providing in the exercise of governmental authority that it intends to devolve. Singapore shall maintain information demonstrating that any service that it devolves was being provided in the exercise of governmental authority as of the date this Agreement enters into force, and upon request, provide this information to the United States prior to devolving any such service.

3. Where devolution is accompanied by a sale of shares or assets to any person, such sale shall be conducted in a manner that does not deny U.S. investors national treatment. For clarity, a sale of shares or assets does not occur when the Government of Singapore wholly owns the shares and assets of an enterprise and then transfers, for a consideration, these shares and assets to a government holding company that it wholly owns.

4. Once any competition is allowed in a devolved service, it shall be permitted on a non-discriminatory basis and no preferential treatment shall be provided to the newly corporatized enterprise except as provided in paragraph 1.

Devolving a service means allowing an enterprise, wholly or majority-owned by the Government of Singapore and organized under the laws of Singapore, to take over and supply on a commercial basis, services that were provided in the exercise of governmental authority as of the date this Agreement enters into force.

If pursuant to Section I. of this reservation, Singapore has devolved a service to an enterprise that it wholly-owns and was organized under the laws of Singapore, and where justified by public health, welfare, safety concerns, or to safeguard the viability of critical economic infrastructure, Singapore reserves the right to adopt and maintain the following measures regarding the sale of any shares in that enterprise or any assets of that enterprise to any person:

II. Divestment of Government Ownership Interests After Devolution

ANNEX 10B

PART I: UNITED STATES SCHEDULE OF NON-CONFORMING MEASURES WITH RESPECT TO BANKING AND OTHER FINANCIAL SERVICES
(EXCLUDING INSURANCE)

A. Headnotes

1. Commitments in these subsectors under the Agreement are undertaken subject to the limitations and conditions set forth in these headnotes and in Section B below.

2. National treatment commitments in these subsectors are subject to the following limitations: National treatment will be provided based upon the foreign bank's "home state" in the United States, as that term is defined under the International Banking Act, where that Act is applicable. A domestic bank subsidiary of a foreign firm will have its own "home state," and national treatment will be provided based upon the subsidiary's home state, as determined under applicable law.¹

3. To clarify the U.S. commitment with respect to Article 10.4 of the Agreement (Market Access), juridical persons supplying banking or other financial services (excluding insurance) and constituted under the laws of the United States are subject to non-discriminatory limitations on juridical form.²

4. The United States undertakes no commitment with respect to any existing non-conforming measures maintained at a regional level.

5. The United States limits its commitment under Article 10.9.1(c) (Non-Conforming Measures) with respect to Article 10.4 (Market Access) in the following manner: Article 10.9.1(c) shall apply only to non-conforming measures relating to 10.4(a) and not to those non-conforming measures relating to Article 10.4(b).

¹ Foreign banking organizations are generally subject to geographic and other limitations in the United States on a national treatment basis. Where such limitations do not conform to national treatment, they have been reserved as market access restrictions. For purposes of illustration, under this approach, the following situation does not accord national treatment and would therefore be scheduled as a limitation: a foreign bank from a particular home state is accorded less favorable treatment than that accorded to a domestic bank from that state with respect to expansion by branching.

² For example, partnerships and sole proprietorships are generally not acceptable juridical forms for depository financial institutions in the United States. This headnote is not itself intended to affect, or otherwise limit, a choice by a financial institution of the other Party between branches or subsidiaries.

ANNEX 10B
SCHEDULE OF SINGAPORE

SECTION A - HEADNOTES

1. Commitments under the Chapter on Financial Services are undertaken subject to the limitations and conditions set forth in these headnotes and the schedule below.

2. To clarify Singapore's commitment with respect to Article 10.4(b) of the Agreement (Market Access for Financial Institutions), juridical persons supplying financial services are subject to non-discriminatory limitations on juridical form.¹

3. (a) Solely in the context of future liberalization of its banking sub-sector and not for purposes of affording protection to local financial institutions within the banking sub-sector, Singapore may impose new non-conforming measures on a most-favored-nation treatment basis. Such measures may include, but are not limited to:

- (i) requirements regarding the composition of boards of directors of banks and finance companies; and
- (ii) limitations on the number of customer service locations of finance companies,

provided that any such non-conforming measure shall not derogate from commitments undertaken by Singapore in its Schedule to Annexes 10B and 10C to liberalize quantitative restrictions on the number of licenses or customer service locations for United States banks or establish time periods for allowing United States banks access to any ATM network in Singapore.

(b) Where a United States financial institution chooses not to participate in a future liberalization described in subparagraph (a), Singapore shall not apply any related new non-conforming measure or take any adverse action with respect to the institution.

(c) If Singapore imposes any new non-conforming measure described in paragraph (a), it will:

- (i) notify the United States of its intent at least three months in advance of implementation of the measure;
- (ii) consult with the United States concerning the measure and give due consideration to the views expressed by the United States in this respect; and

¹ For example, partnerships and sole proprietorships are generally not acceptable juridical forms for depository financial institutions in Singapore. This headnote is not itself intended to affect, or otherwise limit, a choice by a financial institution of the other Party between branches or subsidiaries.

- (iii) make compensatory adjustments to its Schedule to Annex 10B with respect to the same class of financial institutions of the banking sub-sector as are affected by the measure such that the general level of commitments is more favorable to trade in the banking sub-sector than prior to the new measure.²

(d) In connection with the liberalization of the 20% aggregate foreign shareholding limit in finance companies effected on 11 December 2002, Singapore reserves the right to introduce a 12% approval threshold for acquisition of shareholdings or voting control in finance companies. Subparagraph (c) shall not apply to this measure.

4. (a) Singapore reserves the right to require a foreign bank that is systemically important to incorporate within Singapore, provided that such a requirement is applied in a reasonable, objective, and impartial manner. Before imposing such a requirement, Singapore will take into account such factors as the quality of home country regulation and supervision over the bank, degree of protection accorded to depositors in the home country vis-à-vis depositors in Singapore, and the amount of assets held or situated in Singapore.

(b) Singapore shall not impose the requirement described in subparagraph (a) with respect to a foreign bank of the United States, unless it:

- (i) notifies the bank and the United States of its intent at least six months before imposing the requirement;
- (ii) consults with the United States concerning the requirement and gives due consideration to the views expressed by the United States in this respect; and
- (iii) allows the bank a reasonable time to comply with the requirement.

² It is understood that compensatory adjustments shall not be regarded as inadequate solely because the general level of commitments after the introduction of the new measure is not significantly more favorable to trade in the banking sub-sector than prior to the introduction of the measure.

ANNEX 3A
PRODUCT-SPECIFIC RULES OF ORIGIN

Notes:

1. The specific rule, or specific set of rules, that applies to a particular heading (4-digit code), subheading (6-digit code) or split subheading (ex. 6-digit code) is set out immediately adjacent to the heading, subheading or split subheading.
2. Unless otherwise specified in the Annex, a rule applicable to a split subheading shall take precedence over a rule applicable to the subheading which is parent to that split subheading. In turn, a rule applicable to the subheading shall take precedence over a rule applicable to the heading which is parent to the subheading.
3. Reference to weight in the rules for goods provided for in Chapter 1 through 24 of the Harmonized System means dry weight unless otherwise specified in the Harmonized System.
4. A requirement of a change in tariff classification applies only to non-originating materials. The following are exceptions to change in tariff classification rules:
 - (i) agricultural and horticultural goods grown in the territory of a Party shall be treated as originating in the territory of that Party even if they are grown from seed, bulbs, rootstock, cuttings, slips or other live parts of plants imported from a non-Party; and
 - (ii) goods listed below which are exported from the territory of a Party, shall be treated as non-originating:
 - (a) heading 1202, if the goods were not harvested in the territory of a Party,
 - (b) subheading 2008.11, if any material provided for in heading 1202 used in the production of such goods was not harvested in the territory of a Party, or
 - (c) subheading 1806.10 containing 90 percent or more by dry weight of sugar and sugar syrups of subheading 2106.90, if any material provided for in subheading 1701.99 used in the production of such goods is not an originating good.
5. A good of Chapters 1-40 shall not be considered to be originating solely by reason of mere dilution with water or another substance that does not materially alter the characteristics of the good.
6. For purposes of Chapters 27-40, a "chemical reaction" is a process (including a biochemical process) which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule.

The following are not considered to be chemical reactions for the purposes of this definition:

- (a) dissolving in water or other solvents;
- (b) the eliminating of solvents including solvent water; or
- (c) the addition or elimination of water of crystallization.

A chemical reaction as defined above is considered to result in an originating good.

Notwithstanding any of the line-by-line rules, the "chemical reaction" rule may be applied to any good classified in Chapters 28-40.

7. The following definitions apply:

- (a) **Chapter** means a chapter of the Harmonized System;
- (b) **Heading** means the first four digits in the tariff classification number under the Harmonised System;
- (c) **Section** means a section of the Harmonized System;

13 (2) TERMINATION OF EXCLUSION.—An exclu-
14 sion of textile and apparel goods produced or ex-
15 ported by an enterprise under paragraph (1) shall
16 terminate when the President determines that the

5 (1) deny preferential tariff treatment to the
6 goods involved in the circumvention; and

3 the petition.

4 (b) INVESTIGATION AND DETERMINATION.—Upon

8 reduction or elimination of a duty provided for under the
9 Agreement, a Singaporean article is being imported into
10 the United States in such increased quantities, in absolute
11 terms or relative to domestic production, and under such
12 conditions that imports of the Singaporean article con-
13 stitute a substantial cause of serious injury or threat
14 thereof to the domestic industry producing an article that
15 is like, or directly competitive with, the imported article.

16 (c) APPLICABLE PROVISIONS.—The following provi-
17 sions of section 202 of the Trade Act of 1974 (19 U.S.C.

11 (1) of section 330(d) of the Tariff Act of 1930 (19 U.S.C.
12 1330(d)), the Commission shall find, and recommend to
13 the President in the report required under subsection (d),
14 the amount of import relief that is necessary to remedy
15 or prevent the injury found by the Commission in the de-
16 termination and to facilitate the efforts of the domestic
17 industry to make a positive adjustment to import competi-
18 tion. The import relief recommended by the Commission
19 under this subsection shall be limited to the relief de-
20 scribed in section 313(e). Only those members of the Com-
21 mission who voted in the affirmative under subsection (a)
22 are eligible to vote on the proposed action to remedy or

8 (1) the determination made under subsection
9 (a) and an explanation of the basis for the deter-

17 and recommendation referred to in paragraphs (1)
18 and (2).

19 (e) PUBLIC NOTICE.—Upon submitting a report to
20 the President under subsection (d), the Commission shall
21 promptly make public such report (with the exception of
22 information which the Commission determines to be con-

24 lished in the Federal Register.

1 **SEC. 313. PROVISION OF RELIEF.**

2 (a) IN GENERAL.—Not later than the date that is
3 30 days after the date on which the President receives the
4 report of the Commission in which the Commission's de-
5 termination under section 312(a) is affirmative, or which
6 contains a determination under section 312(a) that the
7 President considers to be affirmative under paragraph (1)
8 of section 330(d) of the Tariff Act of 1930 (19 U.S.C.
9 1330(d)(1)), the President, subject to subsection (b), shall
10 provide relief from imports of the article that is the subject
11 of such determination to the extent that the President de-

13 by the Commission and to facilitate the efforts of the do-
14 mestic industry to make a positive adjustment to import
15 competition.

16 (b) EXCEPTION.—The President is not required to
17 provide import relief under this section if the President
18 determines that the provision of the import relief will not
19 provide greater economic and social benefits than costs.

20 (c) NATURE OF RELIEF.—

21 (1) IN GENERAL.—The import relief (including
22 provisional relief) that the President is authorized to
23 provide under this section with respect to imports of
24 an article is as follows:

9 the time the import relief is provided; or

10 (ii) the column 1 general rate of duty
11 imposed under the HTS on like articles on
12 the day before the date on which the
13 Agreement enters into force.

14 (C) In the case of a duty applied on a sea-
15 sonal basis to such article, an increase in the
16 rate of duty imposed on the article to a level
17 that does not exceed the lesser of—

18 (i) the column 1 general rate of duty
19 imposed under the HTS on like articles for
20 the immediately preceding corresponding
21 season; or

22 (ii) the column 1 general rate of duty
23 imposed under the HTS on like articles on
24 the day before the date on which the
25 Agreement enters into force.

1 (2) PROGRESSIVE LIBERALIZATION.—If the pe-

3 section is greater than 1 year, the President shall
4 provide for the progressive liberalization (described
5 in article 7.28 of the Agreement) of such relief at
6 regular intervals during the period of its application.

7 (d) PERIOD OF RELIEF.—

8 (1) IN GENERAL.—Subject to paragraph (2),
9 the import relief that the President is authorized to
10 provide under this section may not exceed 2 years.

11 (2) EXTENSION.—

12 (A) IN GENERAL.—Subject to subpara-
13 graph (C), the President, after receiving an af-
14 firmative determination from the Commission
15 under subparagraph (B), may extend the effec-
16 tive period of any import relief provided under
17 this section if the President determines that—

18 (i) the import relief continues to be
19 necessary to prevent or remedy serious in-
20 jury and to facilitate adjustment; and

21 (ii) there is evidence that the industry
22 is making a positive adjustment to import
23 competition.

24 (B) ACTION BY COMMISSION.—

1 (i) Upon a petition on behalf of the
2 industry concerned, filed with the Commis-
3 sion not earlier than the date which is 9
4 months, and not later than the date which
5 is 6 months, before the date on which any
6 action taken under subsection (a) is to ter-
7 minate, the Commission shall conduct an
8 investigation to determine whether action
9 under this section continues to be nec-
10 essary to remedy or prevent serious injury
11 and whether there is evidence that the in-
12 dustry is making a positive adjustment to
13 import competition.

14 (ii) The Commission shall publish no-
15 tice of the commencement of any pro-
16 ceeding under this subparagraph in the
17 Federal Register and shall, within a rea-
18 sonable time thereafter, hold a public hear-
19 ing at which the Commission shall afford
20 interested parties and consumers an oppor-
21 tunity to be present, to present evidence,
22 and to respond to the presentations of
23 other parties and consumers, and other-
24 wise to be heard.

1 (iii) The Commission shall transmit to
2 the President a report on its investigation
3 and determination under this subpara-
4 graph not later than 60 days before the ac-
5 tion under subsection (a) is to terminate,
6 unless the President specifies a different
7 date.

8 (C) PERIOD OF IMPORT RELIEF.—The ef-
9 fective period of any import relief imposed
10 under this section, including any extensions
11 thereof, may not, in the aggregate, exceed 4
12 years.

13 (e) RATE AFTER TERMINATION OF IMPORT RE-
14 LIEF.—When import relief under this section is termi-
15 nated with respect to an article, the rate of duty on that
16 article shall be the rate that would have been in effect,
17 but for the provision of such relief, on the date the relief
18 terminates.

19 (f) ARTICLES EXEMPT FROM RELIEF.—No import
20 relief may be provided under this section on any article
21 that has been subject to import relief, after the entry into
22 force of the Agreement, under—

13 after the date on which the Agreement enters into force.

14 (b) EXCEPTION.—Import relief may be provided

20 the information necessary for the request to be considered,
21 the President shall cause to be published in the Federal

23 request, and notice seeking public comments regarding the
24 request. The notice shall include the request and the dates
25 by which comments and rebuttals must be received.

1 **SEC. 322. DETERMINATION AND PROVISION OF RELIEF.**

2 (a) DETERMINATION.—

3 (1) IN GENERAL.—Pursuant to a request made
4 by an interested party, the President shall determine
5 whether, as a result of the reduction or elimination
6 of a duty under the Agreement, a Singaporean tex-
7 tile or apparel article is being imported into the
8 United States in such increased quantities, in abso-
9 lute terms or relative to the domestic market for
10 that article, and under such conditions that imports
11 of the article constitute a substantial cause of seri-
12 ous damage, or actual threat thereof, to a domestic
13 industry producing an article that is like, or directly
14 competitive with, the imported article.

15 (2) SERIOUS DAMAGE.—In making a deter-
16 mination under paragraph (1), the President—

17 (A) shall examine the effect of increased
18 imports on the domestic industry, as reflected
19 in changes in such relevant economic factors as
20 output, productivity, utilization of capacity, in-
21 ventories, market share, exports, wages, em-
22 ployment, domestic prices, profits, and invest-
23 ment, none of which is necessarily decisive; and

24 (B) shall not consider changes in tech-
25 nology or consumer preference as factors sup-

1 porting a determination of serious damage or
2 actual threat thereof.

3 (3) SUBSTANTIAL CAUSE.—For purposes of this
4 subsection, the term “substantial cause” means a
5 cause that is important and not less than any other
6 cause.

7 (b) PROVISION OF RELIEF.—

8 (1) IN GENERAL.—If a determination under
9 subsection (a) is affirmative, the President may pro-
10 vide relief from imports of the article that is the
11 subject of such determination, as described in para-
12 graph (2), to the extent that the President deter-
13 mines necessary to remedy or prevent the serious
14 damage and to facilitate adjustment by the domestic
15 industry.

16 (2) NATURE OF RELIEF.—The relief that the
17 President is authorized to provide under this sub-
18 section with respect to imports of an article is—

19 (A) the suspension of any further reduc-
20 tion provided for under Annex 2B of the Agree-
21 ment in the duty imposed on the article; or

22 (B) an increase in the rate of duty im-
23 posed on the article to a level that does not ex-
24 ceed the lesser of—

1 (i) the column 1 general rate of duty
2 imposed under the HTS on like articles at
3 the time the import relief is provided; or

4 (ii) the column 1 general rate of duty
5 imposed under the HTS on like articles on
6 the day before the date on which the
7 Agreement enters into force.

12 (b) EXTENSION.—

13 (1) IN GENERAL.—Subject to paragraph (2),
14 the President may extend the effective period of any
15 import relief provided under this subtitle if the
16 President determines that—

17 (A) the import relief continues to be nec-
18 essary to remedy or prevent serious damage
19 and to facilitate adjustment; and

20 (B) there is evidence that the industry is
21 making a positive adjustment to import com-
22 petition.

23 (2) LIMITATION.—The effective period of any
24 action under this subtitle, including any extensions
25 thereof, may not, in the aggregate, exceed 4 years.

1 **SEC. 324. ARTICLES EXEMPT FROM RELIEF.**

2 The President may not provide import relief under
3 this subtitle with respect to any article if import relief pre-
4 viously has been provided under this subtitle with respect
5 to that article.

6 **SEC. 325. RATE AFTER TERMINATION OF IMPORT RELIEF.**

7 When import relief under this subtitle is terminated
8 with respect to an article, the rate of duty on that article
9 shall be the rate that would have been in effect, but for
10 the provision of such relief, on the date the relief termi-
11 nates.

12 **SEC. 326. TERMINATION OF RELIEF AUTHORITY.**

13 No import relief may be provided under this subtitle
14 with respect to an article after the date that is 10 years
15 after the date on which the provisions of the Agreement
16 relating to trade in textile and apparel goods take effect
17 pursuant to article 5.10 of the Agreement.

18 **SEC. 327. COMPENSATION AUTHORITY.**

19 For purposes of section 123 of the Trade Act of 1974
20 (19 U.S.C. 2133), any import relief provided by the Presi-
21 dent under this subtitle shall be treated as action taken
22 under chapter 1 of title II of such Act.

23 **SEC. 328. BUSINESS CONFIDENTIAL INFORMATION.**

24 The President may not release information which the
25 President considers to be confidential business informa-
26 tion unless the party submitting the confidential business

1 information had notice, at the time of submission, that
2 such information would be released by the President, or
3 such party subsequently consents to the release of the in-
4 formation. To the extent business confidential information
5 is provided, a nonconfidential version of the information
6 shall also be provided, in which the business confidential
7 information is summarized or, if necessary, deleted.

13 initiated under chapter 1 of title II of the Trade Act of
14 1974, the Commission makes an affirmative determination
15 (or a determination which the President may treat as an
16 affirmative determination under such chapter by reason
17 of section 330(d) of the Tariff Act of 1930), the Commis-
18 sion shall also find (and report to the President at the
19 time such injury determination is submitted to the Presi-
20 dent) whether imports of the article from Singapore are
21 a substantial cause of serious injury or threat thereof.

22 (b) PRESIDENTIAL DETERMINATION REGARDING
23 SINGAPOREAN IMPORTS.—In determining the nature and
24 extent of action to be taken under chapter 1 of title II
25 of the Trade Act of 1974, the President shall determine

1 whether imports from Singapore are a substantial cause
2 of the serious injury or threat thereof found by the Com-
3 mission and, if such determination is in the negative, may
4 exclude from such action imports from Singapore.

THE UNITED STATES-SINGAPORE FREE TRADE AGREEMENT
IMPLEMENTATION ACT

STATEMENT OF ADMINISTRATIVE ACTION

This Statement of Administrative Action is submitted to the Congress in compliance with section 2105(a)(1)(C) of the Bipartisan Trade Promotion Authority Act of 2002 ("TPA Act") and accompanies the implementing bill for the United States-Singapore Free Trade Agreement ("Agreement"). The bill approves and makes statutory changes necessary or appropriate to implement the Agreement, which the President signed on May 6, 2003.

This Statement describes significant administrative actions proposed to implement U.S. obligations under the Agreement.

In addition, incorporated into this Statement are two other statements required under section 2105(a) of the TPA Act: (1) an explanation of how the implementing bill and proposed administrative action will change or affect existing law, and (2) a statement setting forth the reasons why the implementing bill and proposed administrative action are necessary or appropriate to carry out the Agreement. The Agreement does not change the provisions of any agreement the United States has previously negotiated with Singapore.

For ease of reference, this Statement generally follows the organization of the Agreement, with the exception of grouping the general provisions of the Agreement (Chapters 1 and 19 through 21) at the beginning of the discussion.

For each chapter of the Agreement, the Statement describes the pertinent provisions of the implementing bill, explaining how the bill changes or affects existing law, and stating why those provisions are necessary or appropriate to implement the Agreement. The Statement then describes the administrative action proposed to implement the particular chapter of the Agreement, explaining how the proposed action changes existing administrative practice and stating why the changes are necessary or appropriate to implement the Agreement.

It should be noted that this Statement does not, for the most part, discuss those many instances in which U.S. law or administrative practice will remain unchanged under the Agreement. In many cases, U.S. laws and regulations are already in conformity with the obligations assumed under the Agreement.

Finally, references in this Statement to particular sections of U.S. statutes are based on those statutes in effect as of the date this Statement was submitted to the Congress.

1. Implementing Bill

a. Congressional Approval

Section 101(a) of the implementing bill provides Congressional approval for the Agreement and this Statement, as required by sections 2103(b)(3) and 2105(a)(1) of the TPA Act.

b. Entry into Force

Article 21.9 of the Agreement requires the United States and Singapore to exchange written notifications that their respective internal requirements for the entry into force of the Agreement have been fulfilled. The exchange of notifications is a necessary condition for the Agreement's entry into force. Section 101(b) of the implementing bill authorizes the President to exchange notes with Singapore to provide for entry into force of the Agreement on or after January 1, 2004. The exchange of notes is conditioned on a determination by the President that Singapore has taken measures necessary to comply with those of its obligations that take effect at the time the Agreement enters into force. Some provisions of the Agreement, such as certain rules pertaining to intellectual property rights, become effective at prescribed times after the Agreement's entry into force.

Article 5.10 of the Agreement contemplates that those provisions of the Agreement pertaining to trade in textile and apparel goods (*i.e.*, Chapter 5, as well as related provisions of other Chapters, including Chapter 2 (market access) and Chapter 3 (rules of origin)), may take effect after the date on which the Agreement enters into force. This article reflects an appreciation that special concerns surround trade in textile and apparel products and that particular care must be taken to ensure that officials have ample authority to detect, deter, and penalize fraudulent claims for preferential tariff treatment under the Agreement in this sector. In light of these concerns, the Agreement commits the two governments to consult for the purpose of ensuring that requisite legislation is in place before the Agreement's textile and apparel provisions take effect.

Before exchanging notes implementing the Agreement's textile and apparel provisions, the Administration will carefully assess whether Singapore has made requisite changes to its customs legislation to ensure that it fully satisfies Singapore's obligations under

Chapter 5 and other pertinent provisions of the Agreement. In making that assessment, the Administration will consult with the Congress and solicit advice from U.S. industry.

c. Relationship to Federal Law

Section 102(a) of the bill establishes the relationship between the Agreement and U.S. law. The implementing bill, including the authority granted to federal agencies to promulgate implementing regulations, is intended to bring U.S. law fully into compliance with U.S. obligations under the Agreement. The bill accomplishes that objective with respect to federal legislation by amending existing federal statutes that would otherwise be inconsistent with the Agreement and, in certain instances, by creating entirely new provisions of law.

Section 102(a) clarifies that no provision of the Agreement will be given effect under domestic law if it is inconsistent with federal law, including provisions of federal law enacted or amended by the bill. Section 102(a) will not prevent implementation of federal statutes consistent with the Agreement, where permissible under the terms of such statutes. Rather, the section reflects the Congressional view that necessary changes in federal statutes should be specifically enacted rather than provided for in a blanket preemption of federal statutes by the Agreement.

The Administration has made every effort to include all laws in the implementing bill and to identify all administrative actions in this Statement that must be changed in order to conform with the new U.S. rights and obligations arising from the Agreement. Those include both regulations resulting from statutory changes in the bill itself and changes in laws, regulations, rules, and orders that can be implemented without a change in the underlying U.S. statute.

Accordingly, at this time it is the expectation of the Administration that no changes in existing federal law, rules, regulations, or orders other than those specifically indicated in the implementing bill and this Statement will be required to implement the new international obligations that the United States will assume under the Agreement. This is without prejudice to the President's continuing responsibility and authority to carry out U.S. law and agreements. As experience under the Agreement is gained over time, other or different administrative actions may be taken in accordance with applicable law to implement the Agreement. If additional action is called for, the Administration would seek legislation from Congress or, if a change in regulation is required, follow normal agency procedures for amending regulations.

d. Relationship to State Law

The Agreement's rules generally cover state and local laws and regulations, as well as those at the federal level. There are a number of exceptions to, or limitations on, this general rule, however, particularly in the areas of government procurement, investment, and trade in services.

The Agreement does not automatically “preempt” or invalidate state laws that do not conform to the Agreement’s rules -- even if a dispute settlement panel were to find a state measure inconsistent with the Agreement. The United States is free under the Agreement to determine how it will conform with the Agreement’s rules at the federal and non-federal level. The Administration is committed to carrying out U.S. obligations under the Agreement, as they apply to the states, through the greatest possible degree of state-federal consultation and cooperation.

Section 102(b)(1) of the bill makes clear that only the United States is entitled to bring an action in court in the event that there is an unresolved conflict between a state law, or the application of a state law, and the Agreement. The authority conferred on the United States under this paragraph is intended to be used only as a “last resort,” in the unlikely event that efforts to achieve consistency through consultations have not succeeded.

The reference in section 102(b)(2) of the bill to the business of insurance is required by virtue of section 2 of the McCarran-Ferguson Act (15 U.S.C. 1012). That section states that no federal statute shall be construed to supersede any state law regulating or taxing the business of insurance unless the federal statute “specifically relates to the business of insurance.” Certain provisions of the Agreement (for example, Chapter 10, relating to financial services) do apply to state measures regulating the insurance business, although “grandfathering” provisions in Chapter 10 exempt existing inconsistent (*i.e.*, “non-conforming”) measures.

Given the provision of the McCarran-Ferguson Act, the implementing act must make specific reference to the business of insurance in order for the Agreement’s provisions covering the insurance business to be given effect with respect to state insurance law. Insurance is otherwise treated in the same manner under the Agreement and the implementing bill as other financial services under the Agreement.

e. Private Lawsuits

Section 102(c) of the implementing bill precludes any private right of action or remedy against a federal, state, or local government, or against a private party, based on the provisions of the Agreement. A private party thus could not sue (or defend a suit against) the United States, a state, or a private party on grounds of consistency (or inconsistency) with the Agreement. The provision also precludes a private right of action attempting to require, preclude, or modify federal or state action on grounds such as an allegation that the government is required to exercise discretionary authority or general “public interest” authority under other provisions of law in conformity with the Agreement.

With respect to the states, section 102(c) represents a determination by the Congress and the Administration that private lawsuits are not an appropriate means for ensuring state compliance with the Agreement. Suits of this nature may interfere with the Administration’s

conduct of trade and foreign relations and with suitable resolution of disagreements or disputes under the Agreement.

Section 102(c) does not preclude a private party from submitting a claim against the United States to arbitration under Chapter 15 (Investment) of the Agreement or seeking to enforce an award against the United States issued pursuant to such arbitration. The provision also would not preclude any agency of government from considering, or entertaining argument on, whether its action or proposed action is consistent with the Agreement, although any change in agency action would have to be consistent with domestic law.

f. Implementing Regulations

Section 104(a) of the bill provides the authority for new or amended regulations to be issued, and for the President to proclaim actions implementing the provisions of the Agreement, as of the date the Agreement enters into force. Section 104(b) of the bill requires that, whenever possible, all federal regulations required or authorized under the bill and those proposed in this Statement as necessary or appropriate to implement immediately applicable U.S. obligations under the Agreement are to be developed and promulgated within one year of the Agreement's entry into force. In practice, the Administration intends, wherever possible, to amend or issue the other regulations required to implement U.S. obligations under the Agreement at the time the Agreement enters into force. The process for issuing regulations pursuant to this authority will comply with the requirements of the Administrative Procedures Act, including requirements to provide notice and an opportunity for public comment on such regulations. If issuance of any regulation will occur more than one year after the date provided in section 104(b), the officer responsible for issuing such regulation will notify the relevant committees of both Houses of the delay, the reasons for such delay, and the expected date for issuance of the regulation. Such notice will be provided at least 30 days prior to the end of the one-year period.

g. Dispute Settlement

Section 105(a) of the bill authorizes the President to establish within the Department of Commerce an office responsible for providing administrative assistance to dispute settlement panels established under Chapter 20 of the Agreement. This provision enables the United States to implement its obligations under Article 20.2.1(a) of the Agreement. This office will not be an "agency" within the meaning of 5 U.S.C. 552, consistent with treatment provided under the North American Free Trade Agreement and the U.S.-Canada Free Trade Agreement. Thus, for example, the office will not be subject to the Freedom of Information Act or the Government in the Sunshine Act. Since they are international bodies, panels established under Chapter 20 are not subject to those acts.

Section 105(b) of the bill authorizes the appropriation of funds to support the office established pursuant to section 105(a).

h. Effective Dates

Section 107(b) of the bill provides that the first three sections of the bill as well as Title I of the bill go into effect when the bill is enacted into law. It also provides that section 205 of the bill, which authorizes special enforcement action relating to trade in textile and apparel goods, takes effect on the date on which the textile and apparel provisions of the Agreement take effect pursuant to Article 5.10 of the Agreement. This anticipates the possibility that the textile and apparel provisions may take effect after the Agreement enters into force, as discussed in item (b) above.

Section 107(a) provides that the other provisions of the bill and the amendments to other statutes made by the bill take effect on the date on which the Agreement enters into force. Section 107(c) provides that the provisions of the bill and the amendments to other statutes made by the bill will cease to be effective on the date on which the Agreement ceases to be in force.

2. Administrative Action

No administrative changes will be necessary to implement Chapter 1 or 21.

Article 19.2.1 of the Agreement requires each government to designate a contact point to facilitate bilateral communications regarding the Agreement. The Office of the United States Trade Representative (USTR) will serve as the U.S. contact point for this purpose.

Before the Agreement enters into force, the United States and Singapore will agree on a "Contingent List" of qualified individuals to chair dispute settlement panels if the FTA partners cannot agree on a chair. USTR will consult with the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate as it develops the Contingent List.

Chapter Two (National Treatment and Market Access for Goods)**1. Implementing Bill****a. Proclamation Authority**

Section 201(a) of the bill grants the President authority to implement by proclamation U.S. rights and obligations under Chapter 2 of the Agreement through the application or elimination of tariffs and tariff rate quotas. Section 201(a) authorizes the President to:

- modify or continue any duty;
- keep in place duty-free or excise treatment; or
- impose any duty

that the President determines to be necessary or appropriate to carry out or apply Articles 2.2, 2.5, 2.6, and 2.12, and Annex 2B of the Agreement.

The proclamation authority with respect to Article 2.2 authorizes the President to provide for the phase-out and elimination, according to the U.S. schedule in Annex 2B, of tariffs on imports from Singapore that meet the Agreement's rules of origin.

The proclamation authority with respect to Articles 2.5 and 2.6 authorizes the President to provide for the elimination of tariffs on particular categories of imports from Singapore. Article 2.5 pertains to the temporary admission of certain goods, such as commercial samples, goods intended for display at an exhibition, and goods necessary for carrying out the business activity of a person who qualifies for temporary entry into the United States. Article 2.6 pertains to the importation of goods (1) that had been exported to Singapore for repair or alteration in Singapore, or (2) that have been imported from Singapore for repair or alteration in the United States.

The proclamation authority with respect to Article 2.12 authorizes the President to provide preferential tariff treatment to certain textile and apparel goods that do not qualify as "originating goods" (*i.e.*, products that satisfy the Agreement's rules of origin). However, this treatment may be applied only up to annual quantitative limits set forth in that article and the treatment will be phased-down and eventually eliminated over a nine-year period. While goods subject to this provision may receive preferential tariff treatment, they will remain subject to the U.S. merchandise processing fee when they are imported. (*See* item (b) in this section.)

Section 201(b) of the bill authorizes the President, subject to the consultation and layover provisions of section 103(a) of the bill, to:

- modify or continue any duty;
- modify the staging of any duty elimination under the Agreement pursuant to an agreement with Singapore under Article 2.2.3;
- keep in place duty-free or excise treatment; or
- impose any duty

by proclamation whenever the President determines it to be necessary or appropriate to maintain the general level of reciprocal and mutually advantageous concessions with respect to Singapore provided by the Agreement.

Section 103(a) of the bill sets forth consultation and layover steps that must precede the President's implementation of any tariff modification by proclamation. This would include, for example, tariff modifications under section 201(b) of the bill. Under the consultation and layover provisions, the President must obtain the advice of the private sector (pursuant to section 135 of the Trade Act of 1974) and the U.S. International Trade Commission (ITC) on the proposed action. The President must submit a report to the House Committee on Ways and Means and the Senate Committee on Finance setting forth the action proposed, the reasons therefor, and the advice of the private sector and the ITC. The bill sets aside a 60-day period following the date of transmittal of the report for the Committees to consult with the President on the action. Following the expiration of the 60-day period, the President may proclaim the action.

The President may initiate the consultation and layover process under section 103(a) of the bill on enactment of the bill, but, under section 104(a), any modifying proclamation cannot take effect until the Agreement enters into force. In addition to tariff modifications, these provisions apply to other Presidential proclamation authority provided in the bill subject to consultation and layover, such as authority to implement a proposal to modify the Agreement's specific rules of origin pursuant to an agreement with Singapore under Article 3.18.4 of the Agreement.

Section 201(c) of the bill provides for the conversion of existing specific or compound rates of duty for various products to *ad valorem* rates for purposes of implementing the Agreement's tariff reductions. (A compound rate of duty for a good would be a rate of duty stated, for example, as the sum of X dollars per kilogram plus Y percent of the value of the good.)

b. Customs User Fee

Section 203 of the bill implements U.S. commitments under Article 2.8 of the Agreement, regarding customs user fees on originating goods, by amending section 13031(b) of the Consolidated Omnibus Budget Reconciliation Act of 1985 (19 U.S.C. 58c). The amendment

provides for the immediate elimination of the merchandise processing fee for goods qualifying as originating goods under Chapter 3 of the Agreement. Processing of goods qualifying as originating goods under the Agreement will be financed by money from the General Fund of the Treasury. This is necessary to ensure that the United States complies with obligations under the General Agreement on Tariffs and Trade 1994 by limiting fees charged for the processing of non-originating imports to amounts commensurate with the processing services provided. That is, fees charged on such non-originating imports will not be used to finance the processing of originating imports.

2. Administrative Action

As discussed above, section 201(a) of the bill authorizes the President to proclaim duty-free treatment for certain goods to carry out Article 2.5 (temporary admission of certain goods) and Article 2.6 (repair or alteration of certain goods) of the Agreement. Implementing the proclamation will require regulations, which will be issued by the Secretary of the Treasury.

Chapter Three (Rules of Origin)**1. Implementing Bill****a. General**

Section 202 of the implementing bill codifies the general rules of origin set forth in Chapter 3 of the Agreement. These rules apply only for the purposes of this bill and for the purposes of implementing the tariff treatment provided under the Agreement. An originating good of Singapore for the purposes of this bill would not necessarily be a product of or import from Singapore for the purposes of other U.S. laws or regulations.

Under the general rules, there are two basic ways for a good of Singapore to qualify as an “originating good,” and therefore be eligible for preferential tariff treatment when it is imported into the United States. First, a good is an originating good if it is “wholly obtained or produced entirely in the territory of Singapore, the United States, or both.” The term “goods wholly obtained or produced entirely in the territory of Singapore, the United States, or both” is defined in section 202(n)(4) of the bill and includes, for example, minerals extracted in either country, products from animals born and raised in either country, and waste and scrap derived from production of goods that takes place in the territory of either or both countries.

The term “goods wholly obtained or produced entirely in the territory of Singapore, the United States, or both” includes “recovered goods.” These are parts resulting from the disassembly of used goods, which are brought into good working condition, in order to be combined with other recovered goods and other materials to form “remanufactured goods.” The term “remanufactured goods” is separately defined to mean goods listed in Annex 3C of the Agreement that (1) are comprised entirely or partially of recovered goods; (2) have the same life expectancy and meet the same performance standards as new goods; and (3) enjoy the same factory warranty as such new goods.

Second, the general rules of origin provide that a good is an “originating good” if those materials used to produce the good that are not themselves originating goods are transformed in such a way as to cause their tariff classification to change or meet other requirements, as specified in Annex 3A of the Agreement.

In addition, Article 3.2 provides that a good listed in Annex 3B of the Agreement is considered to be an “originating good” if it is imported into the territory of the United States from the territory of Singapore. The goods listed in Annex 3B are information technology goods and certain other goods for which the current United States NTR/MFN duty rate is zero. Thus, imports of these goods into the United States would receive duty-free treatment regardless of origin. As “originating goods” under the Agreement, they also will be exempt from the merchandise processing fee. (See discussion under Chapter Two, above.)

The Agreement provides that a product listed in Annex 3B (an Integrated Sourcing Initiative or ISI product) is an “originating good” only if it is shipped from one Agreement Party to the other. If the product is shipped from a non-Agreement party to Singapore – but is not shipped between Singapore and the United States – it does not meet the criteria for treatment as an originating good under the Agreement. The ISI provisions of the Agreement do not affect the applicability of normal rules of origin, except in the limited situation of shipments between Singapore and the United States.

A product on the ISI list that is shipped from a non-Agreement country and used as an input for the manufacture of a final product (such as a machine tool) in Singapore does not count as originating for purposes of a regional value content (RVC) calculation. An ISI material, component, product, or other input does not attain originating status simply by being imported into Singapore or the United States. The only way that the ISI material, component, product, or other input would affect a RVC calculation would be if an ISI product from a non-Agreement party were first shipped to the United States, held there without undergoing any processing that would affect its treatment under the rules of origin, then is shipped to Singapore, and then manufactured there into a non-ISI good without undergoing any intermediate production steps that would affect treatment of the product under the rules of origin.

The remainder of section 202 of the implementing bill sets forth specific rules related to determining whether a good meets the Agreement’s requirements under the second way to qualify as an originating good. For example, section 202(b) provides that a good is not disqualified as an originating good if it contains *de minimis* quantities of non-originating materials that do not undergo a tariff transformation. Section 202(d) implements provisions in Annex 3A of the Agreement that require certain goods to have at least a specified percentage of “regional value content” to qualify as “originating goods.” Section 202(d) prescribes alternative methods for calculating regional value content. Other provisions in section 202 address valuation of materials and determination of the originating or non-originating status of fungible goods and materials.

b. Proclamation Authority

Section 202(o)(1) of the bill authorizes the President to proclaim the specific rules of origin in Annexes 3A, 3B and 3C of the Agreement, as well as any additional subordinate rules necessary to carry out the tariff provisions of the bill consistent with the Agreement. In addition, section 202(o)(2) gives authority to the President to modify certain of the Agreement’s specific origin rules by proclamation, subject to the consultation and layover provisions of section 103(a) of the bill. (See discussion under item 1.a of Chapter Two, above.)

Various provisions of the Agreement expressly contemplate modifications to the rules of origin. Article 3.18.3 calls for the two governments to consider within six months of the Agreement’s entry into force modifying Annex 3A (product-specific rules of origin) and Annex 3C (origin rules for remanufactured goods). In addition, Article 3.18.4(a)(i) calls for the United

States and Singapore to consult at either government's request to consider whether rules of origin for particular textile and apparel goods should be revised in light of the availability of fibers, yarns, or fabrics in their respective territories.

Section 202(o)(2) of the bill expressly limits the President's authority to modify by proclamation specific rules of origin pertaining to textile and apparel goods (listed in Chapters 50 through 63 of Annex 3A of the Agreement). Those rules of origin may be modified by proclamation in only two circumstances: first, to implement an agreement with Singapore pursuant to Article 3.18.4(c) of the Agreement to address commercial availability of particular fibers, yarns, or fabrics; and second, within one year of enactment of the implementing bill, to correct typographical, clerical, or other non-substantive technical errors.

Section 202(o)(2) also precludes the modification by proclamation of provisions of Annex 3B of the Agreement (the ISI provisions).

c. Correction of Invalid Claims

Under Article 3.14.4(a) of the Agreement, neither government may impose a penalty on an importer who makes an invalid claim for preferential tariff treatment under the Agreement if, after discovering that the claim is invalid, the importer promptly and voluntarily corrects the claim and pays any duty owing. Article 3.14.4(b) provides for importers to have at least a one-year grace period after submitting an invalid claim in which to correct it.

Section 204 of the bill implements this requirement for the United States by amending section 592(c) of the Tariff Act of 1930 (19 U.S.C. 1592(c)).

2. Administrative Action

The rules of origin in Chapter 3 of the Agreement are intended to direct the benefits of tariff elimination under the Agreement principally to firms producing or manufacturing goods in Singapore and the United States. For this reason, the rules ensure that, in general, a product is eligible for benefits under the Agreement only if it is (1) wholly produced or obtained in one or both countries, or (2) undergoes both substantial processing and substantial change in one or both countries.

a. Claims for Preferential Tariff Treatment

Section 206 of the bill authorizes the Secretary of the Treasury to prescribe regulations necessary to carry out the tariff-related provisions of the bill, including the rule of origin provisions. The Treasury Department will use this authority in part to promulgate any regulations necessary to implement the Agreement's provisions governing claims for preferential treatment. Under Article 3.13.1 of the Agreement, an importer may claim preferential treatment for particular goods if the importer knows or possesses information that the goods satisfy the

Agreement's rules of origin. Under Article 3.13.2, an importer may be requested to explain in writing the basis for its claim. Article 3.14 requires that a claim for preferential treatment be granted unless customs officials have information that the claim is invalid or the importer fails to satisfy the Agreement's origin rules. Article 3.14 also requires that a written determination, with factual and legal findings, be provided if a claim is denied.

b. Verification

Under Article 3.16, customs officials may use a variety of methods to verify claims that goods imported from Singapore satisfy the Agreement's origin rules. Similarly, Article 3.16 authorizes Singapore's customs authorities to conduct their own verification procedures, including by visiting exporter and producer facilities in the United States. Article 5.4 sets out special procedures for verifying claims that textile and apparel goods imported from Singapore meet the Agreement's rules of origin and for verifying the accuracy of "product of Singapore" markings for such goods.

Current U.S. law provides authority for U.S. customs officials to apply each of the verification procedures listed in Articles 3.16 and 5.4 of the Agreement. For example, section 509 of the Tariff Act of 1930 (19 U.S.C. 1509) provides authority to examine records and issue summonses to determine liability for duty and ensure compliance with U.S. customs laws.

Regulations will be issued as necessary to describe (1) the procedures that U.S. officials will follow in using questionnaires, letters, or visits to conduct an origin verification of a Singaporean exporter or producer, or (2) procedures for notifying the appropriate parties of a determination of origin and for applying that determination to current and future importations of identical goods. The procedures described in Articles 3.16 and 5.4 of the Agreement will be used to verify the applicable rate of customs duty for an "originating good" in accordance with the Agreement's origin rules.

Chapter Four (Customs Administration)**1. Implementing Bill**

No statutory changes will be required to implement Chapter 4.

2. Administrative Action**a. Inquiry Point**

Article 4.1.2 of the Agreement requires each government to designate an inquiry point for inquiries from interested persons on customs matters. The U.S. Bureau of Customs and Border Protection will serve as the U.S. inquiry point for this purpose. Consistent with Article 4.1.2, the U.S. Bureau of Customs and Border Protection will post information on the Internet at "www.cbp.gov" on how interested persons can make customs-related inquiries.

b. Advance Rulings

Treasury regulations for advance rulings under Article 4.3 of the Agreement (on classification, valuation, origin, and qualification as an "originating good") will parallel in most respects existing regulations in Part 177 of the Customs Regulations for obtaining advance rulings. For example, a ruling may be relied on provided that the facts and circumstances represented in the ruling are complete and do not change. The regulations will make provision for modifications and revocations as well as for delaying the effective date of a modification where the firm in question has relied on an existing ruling. Advance rulings under the Agreement will be issued within 120 days of receipt of all information reasonably required to process the application for the ruling.

Chapter Five (Textiles and Apparel)**1. Implementing Bill****a. Enforcement Against Circumvention**

In addition to lowering barriers to trade in textile and apparel goods, the Agreement includes strict anti-circumvention provisions designed to deter false claims that textile and apparel goods are “originating goods” and false marking of such goods as “products of Singapore.” Under Chapter 5 of the Agreement, the United States may impose trade penalties to combat circumvention of customs rules and procedures relating to trade in textile and apparel goods from Singapore. As defined in Article 5.11.1 of the Agreement, “circumvention” means “providing a false declaration or false information for the purpose of, or with the effect of, violating or evading” laws relating to trade in textile or apparel goods.

As set out in Articles 5.4.5, 5.5.5, and 5.8.2 of the Agreement, the United States may respond to circumvention and certain actions that impede the detection of circumvention by excluding textile and apparel shipments from particular producers or exporters, by denying preferential tariff treatment under the Agreement to specific textile or apparel goods, or by limiting imports of textile and apparel goods from Singapore more generally. In particular, the Agreement authorizes the United States to impose sanctions with respect to trade in textile and apparel goods in three circumstances.

First, under Article 5.4.5 of the Agreement, the United States may deny entry to textile or apparel goods produced or exported by a Singaporean enterprise, where a responsible person at that enterprise has refused permission for U.S. officials to conduct a site visit for purposes of verifying origin. The United States may continue to apply this sanction until U.S. officials determine that the enterprise’s production of and capability to produce textile or apparel goods is consistent with claims that textile or apparel goods it produces or has produced are originating goods or products of Singapore.

Second, under Article 5.5.5(b) of the Agreement, the United States may deny entry to textile or apparel goods produced or exported by a Singaporean enterprise, where the United States finds that the enterprise has engaged in intentional circumvention. In the case of an initial finding, this sanction may apply for up to six months. In the case of a second finding, it may apply for up to two years. In the case of a subsequent finding, it may apply for up to two years, starting from the date on which any previous sanction expires.

Third, under Article 5.8.2 of the Agreement, where the United States and Singapore have engaged in consultations on circumvention, the consultations have failed to yield a mutually satisfactory solution, and the United States has presented to Singapore clear evidence that circumvention has occurred, the United States may impose two types of sanctions. It may reduce the quantity of textile and apparel goods imported from Singapore by an amount up to three times

the quantity of goods involved in the circumvention. Additionally, it may deny preferential tariff treatment to the goods involved in the circumvention, and it may deny such treatment (for up to four years) to any textile or apparel goods produced by an enterprise found to have engaged in such circumvention, including any successor of the enterprise and any other entity owned or operated by a principal of the enterprise that produces textile or apparel goods.

Authority to reduce the quantity of textile and apparel goods imported from Singapore in the circumstances described in Article 5.8.2 of the Agreement already exists under current law, in section 204 of the Agricultural Act of 1956 (7 U.S.C. 1854) as amended.

Authority to impose the other textile and apparel sanctions provided for in the Agreement is established in section 205 of the implementing bill. Section 205 provides the President with authority to apply these measures in the circumstances described in Chapter 5 of the Agreement. In particular, the new provision authorizes the President to bar textile and apparel goods from an exporter or producer that has engaged in intentional circumvention or refused permission for U.S. officials to conduct a verification visit at its facilities in Singapore. It also authorizes the President to take action against circumvention that has not been addressed through bilateral cooperation by denying preferential tariff treatment for the goods subject to the circumvention and for other textile and apparel goods produced by the enterprise found to have engaged in the circumvention (as well as any successor enterprise and any other entity owned or operated by a principal of the enterprise, if the principal also is a principal of the other entity).

b. Textile and Apparel Safeguard

Article 5.9 of the Agreement establishes a special procedure and remedies available to domestic textile and apparel industries that have sustained or are threatened by serious damage from imports of textile and apparel goods that enjoy preferential tariff rates under the Agreement. The Administration does not anticipate that the Agreement will result in injurious increases in textile and apparel imports from Singapore. Nevertheless, the Agreement's textile and apparel safeguard procedure will ensure that relief is available if needed.

The safeguard mechanism applies when, as a result of the reduction or elimination of a customs duty under the Agreement, textile or apparel goods from Singapore are being imported into the United States in such increased quantities, in absolute or relative terms, and under such conditions as to constitute a substantial cause of serious damage or actual threat thereof to a U.S. industry producing like or directly competitive products. In these circumstances, Article 5.9 permits the United States to suspend duty reductions on the imported goods or to increase duties on the goods to a level that does not exceed the lesser of the prevailing U.S. normal trade relations/most-favored-nation ("NTR/MFN") duty rate for the good or the U.S. NTR/MFN duty rate in effect at the time the Agreement entered into force.

Subtitle B of Title III of the bill (sections 321 through 328) implements the Agreement's textile and apparel safeguard.

Section 321(a) establishes that an interested party may file with the President a request for a textile and apparel safeguard measure. The President is to review a request initially to determine whether to commence consideration of the request on its merits. If the President determines that the request contains information necessary to warrant consideration on the merits then, under section 321(b), the President must provide notice in the *Federal Register* stating that the request will be considered and seeking public comments on the request. The notice will contain the request itself and the dates by which comments and rebuttals must be received.

If the President considers a request under section 321, section 322(a) of the bill provides for the President to determine, pursuant to a request by an interested party, whether, as a result of the reduction or elimination of a duty provided for under the Agreement, a Singaporean textile or apparel article is being imported into the United States in such increased quantities, in absolute terms or relative to the domestic market for that article, and under such conditions that imports of the article constitute a substantial cause of serious damage or actual threat thereof, to a domestic industry producing an article that is like, or directly competitive with, the imported article. This determination corresponds to the determination required under Article 5.9.1 of the Agreement.

Section 322(a) of the bill includes criteria for determining serious damage or actual threat thereof, consistent with Article 5.9.2 of the Agreement. It also includes a definition of “substantial cause,” consistent with Article 5.9.8(a) of the Agreement.

Section 322(b) of the bill identifies the relief that the President may provide to a U.S. industry that the President determines is facing serious damage or actual threat thereof. Such relief may consist of a suspension of tariff reductions or an increase in tariffs to the lower of: 1) the NTR/MFN duty rate in place for the textile or apparel article at the time the relief is granted; or 2) the NTR/MFN duty rate for that article on the day before the Agreement enters into force.

Section 323 of the bill provides that the initial period of relief under the textile and apparel safeguard shall be no longer than two years. That period may be extended if the President determines that an extension is necessary to remedy or prevent serious damage and to facilitate adjustment, and that the domestic industry is, in fact, adjusting to import competition. The total period of relief, including any extension, may not exceed four years.

Section 324 of the bill provides that relief may not be granted to an article under the textile and apparel safeguard if relief previously has been granted to that article under this safeguard.

Section 325 of the bill provides that the duty rate applicable to a textile or apparel article after a safeguard expires will be the duty rate that would have been in force on that date, but for application of the safeguard.

Section 326 of the bill provides that authority to provide relief under the textile and apparel safeguard will expire ten years after the textile and apparel provisions of the Agreement take effect pursuant to Article 5.10 of the Agreement.

Under Article 5.9.5 of the Agreement, if the United States provides relief to a domestic industry under the textile and apparel safeguard, it must provide Singapore “mutually agreed trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the [safeguard].” If the United States and Singapore are unable to agree on trade liberalizing compensation after 30 days of consultations, Singapore may take countermeasures (*i.e.*, increase tariffs) on U.S. textile and apparel articles. However, Singapore may not exercise that right during the first 24 months that a textile and apparel safeguard measure is in place, provided that measure has been imposed due to an absolute (as opposed to relative) increase in imports of the subject article.

Section 123 of the Trade Act of 1974 (19 U.S.C. 2133), as amended, authorizes the President to provide trade compensation for global safeguard measures taken pursuant to chapter 1 of title II of the Trade Act of 1974. Section 327 of the implementing bill extends that authority to measures taken pursuant to the Agreement’s textile and apparel safeguard provisions.

Finally, section 328 of the bill provides that business confidential information submitted in the course of consideration of a request for a textile and apparel safeguard may not be released absent the consent of the party providing the information. It also provides that a party submitting business confidential information in a textile and apparel safeguard proceeding must submit a non-confidential version of the information or a summary of the information.

2. Administrative Action

a. Enforcement Against Circumvention

The Committee for the Implementation of Textile Agreements (“CITA”), an interagency entity created by Executive Order 11651 that carries out certain textile trade policies for the United States, will exercise the authority to impose sanctions established in section 205 of the implementing bill and in current U.S. law. Where customs officials find that a Singaporean enterprise has engaged in circumvention or failed to cooperate in a verification, they will refer the matter to CITA, which will determine the appropriate response (*e.g.*, denial of preferential tariff treatment, denial of entry, or other sanction authorized under the Agreement and U.S. law), after consultations with the Government of Singapore and instruct U.S. customs officials accordingly.

b. Textile and Apparel Safeguard

The function of receiving requests for textile and apparel safeguard measures under section 321 of the bill, making determinations of serious damage or actual threat thereof under section 322(a), and providing relief under section 322(b) will be performed by CITA, pursuant to a delegation of the President’s authority under the bill.

Chapter Six (Technical Barriers to Trade)**1. Implementing Bill**

No statutory changes will be required to implement Chapter 6.

2. Administrative Action

Article 6.2.2 of the Agreement calls for each government to designate an official to coordinate with interested parties in its territory on bilateral cooperative initiatives regarding technical barriers to trade (“TBT”) and to communicate with the other government on such matters. An official of the Office of the United States Trade Representative responsible for TBT matters or trade relations with Singapore will serve as the U.S. Chapter 6 coordinator.

Article 6.3.1 of the Agreement calls for each government to take steps to implement Phase I and Phase II of the APEC Mutual Recognition Arrangement for Conformity Assessment of Telecommunications Equipment with respect to the other Party. To fulfill U.S. obligations under the article, the Office of the United States Trade Representative will enter into an exchange of letters with the Government of Singapore specifying procedures to be followed for the mutual acceptance of test data from each country.

Chapter Seven (Safeguards)**1. Implementing Bill**

Subtitle A of Title III of the bill implements in U.S. law the bilateral safeguard provisions set out in Chapter 7 of the Agreement. Subtitle C of Title III of the bill implements the global safeguard provisions set out in Chapter 7 of the Agreement. (As discussed under Chapter Five, above, Subtitle B of Title III of the bill implements the textile and apparel safeguard provisions of Chapter 5 of the Agreement.)

a. Bilateral Safeguard Measures

Sections 311 through 316 of the bill authorize the President, after an investigation and affirmative determination by the U.S. International Trade Commission ("ITC"), to suspend duty reductions or impose duties temporarily at NTR/MFN rates on "Singaporean articles" when, as a result of the reduction or elimination of a duty under the Agreement, the article is being imported into the United States in such increased quantities and under such conditions as to be a substantial cause of serious injury or threat of serious injury to a domestic industry that produces a like or directly competitive product. The standards and procedures set out in these provisions closely parallel the procedures set forth in sections 201-204 of the Trade Act of 1974.

Section 301(2) defines the term "Singaporean article" for purposes of the safeguard provisions to mean a good qualifying as an "originating good" under section 202(a) of the bill.

Section 301(3) defines the term "Singaporean textile or apparel article" as an article listed in the Annex to the WTO Agreement on Textiles and Clothing that is also a Singaporean article, as defined in section 301(2).

Section 311 provides for the filing of petitions with the ITC and for the ITC to conduct bilateral safeguards investigations. Section 311(a) provides that a petition requesting a bilateral safeguard action may be filed with the ITC by an entity that is "representative of an industry." As under section 202(a)(1) of the Trade Act of 1974, the term "entity" is defined to include a trade association, firm, certified or recognized union, or a group of workers.

In addition, section 311(a) permits a petitioning entity to request provisional relief as if the petition had been filed under section 202(a) of the Trade Act of 1974.

Section 311(a) requires that any claim of "critical circumstances" with respect to a surge of imports from Singapore be included in the petition for relief. A claim of critical circumstances is a necessary element in a claim for provisional relief under Article 7.3 of the Agreement. It also is a necessary element in a claim for provisional relief under section

202(d)(2) of the Trade Act of 1974, which is made applicable to bilateral safeguards under the Agreement through section 311(c) of the bill.

Section 311(b) sets out the standard to be used by the ITC in undertaking an investigation and making a determination in bilateral safeguard proceedings.

Section 311(c) makes applicable by reference several provisions of the Trade Act of 1974. These are the definition of “substantial cause” in section 202(b)(1)(B), the factors listed in section 202(c) applied in making determinations, the provisional relief provisions in section 202(d), the hearing requirement of section 202(b)(3), and the provisions of section 202(i) permitting confidential business information to be made available under protective order to authorized representatives of parties to a safeguard investigation.

Section 311(d) exempts from investigation under this section Singaporean articles that have been the basis previously for according relief to an industry, after the Agreement’s entry into force, under: the bilateral safeguard provisions; the textile and apparel safeguard provisions set out in Subtitle B of Title III of the bill; the global safeguard provisions in chapter 1 of title II of the Trade Act of 1974; Article 6 of the WTO Agreement on Textiles and Clothing; or Article 5 of the WTO Agreement on Agriculture.

Section 312(a) establishes deadlines for ITC determinations following an investigation under section 311(b). The ITC must make its injury determination within 120 days of the date on which it initiates an investigation (or 180 days if critical circumstances are alleged).

Section 312(b) makes applicable the provisions of section 330(d) of the Tariff Act of 1930, which will apply when the ITC Commissioners are equally divided on the question of injury or remedy.

Under section 312(c), if the ITC makes an affirmative determination under section 312(a), it must find and recommend to the President the amount of import relief that is necessary to remedy or prevent the serious injury and to facilitate the efforts of the domestic industry to make a positive adjustment to import competition. The relief that may be recommended by the ITC is limited to that authorized in section 313(c). Similar to procedures under the global safeguards provisions in current law, section 312(c) of the bill provides that only those members of the ITC who agreed to the affirmative determination under section 312(a) may vote on the recommendation of relief under section 312(c).

Under section 312(d), the ITC is required to transmit a report to the President not later than 30 days after making its injury determination. The ITC’s report must include: the ITC’s determination under section 312(a) and the reasons therefor; if the determination under section 312(a) is affirmative or may be considered to be affirmative by the President, any findings and recommendations for import relief and an explanation of the basis for each recommendation; and

any dissenting or separate views of ITC Commissioners. Section 312(e) requires the ITC to publish its report promptly and to publish a summary of the report in the Federal Register.

Under section 313(a) of the bill, the President is directed, subject to section 313(b), to take action not later than 30 days after receiving a report from the ITC containing an affirmative

determination or a determination that the President may consider to be an affirmative determination. The President must provide import relief to the extent that the President determines is necessary to remedy or prevent the injury found by the ITC and to facilitate the efforts of the domestic industry to make a positive adjustment to import competition. Under section 313(b), the President is not required to provide import relief if the President determines that the relief will not provide greater economic and social benefits than costs.

Section 313(c) sets forth the nature of the relief that the President may provide. In general, the President may take action in the form of:

- a suspension of further reductions in the rate of duty to be applied to the articles in question; or
- an increase in the rate of duty on the articles in question to a level that does not exceed the lesser of the existing NTR/MFN rate or the NTR/MFN rate of duty imposed at the time the Agreement entered into force.

If the relief the President provides has a duration greater than one year, the relief must be subject to progressive liberalization at regular intervals over the course of its application.

Section 313(d) provides that the initial period for import relief under the bilateral safeguard will not exceed two years. The President may extend the period of import relief if the President determines that continuation of relief is necessary to remedy or prevent serious injury and to facilitate adjustment to import competition, and that there is evidence that the industry is making a positive adjustment to import competition. That determination must follow an affirmative determination by the ITC to the same effect. However, the aggregate period of import relief, including extensions, may not exceed four years.

Section 313(e) specifies the duty rate to be applied to Singaporean articles after termination of a bilateral safeguard action. It provides that the rate of duty shall be the rate that would have been in effect on the date of termination of the action, but for the safeguard action.

Section 314 provides that the President's authority to take action under the bilateral safeguards provision expires ten years after the date on which the Agreement enters into force. The President may take action under the bilateral safeguards provision after the ten-year period, but only to the extent the President determines that the Government of Singapore consents.

Section 315 allows the President to provide trade compensation to Singapore, as required under Chapter 7 of the Agreement, when the United States imposes relief through a bilateral safeguard action. Section 315 provides that for purposes of section 123 of the Trade Act of 1974, which allows the President to provide compensation for global safeguards, any relief provided under section 313 will be treated as an action taken under the global safeguard provisions of U.S. law (sections 201-204 of the Trade Act of 1974).

Section 316 amends section 202(a) of the Trade Act of 1974 to provide that the procedures in section 332(g) of the Tariff Act of 1930 with respect to the release of confidential business information are to apply to bilateral safeguard investigations.

The Administration has not provided classified information to the ITC in past safeguard proceedings and does not expect to provide such information in future proceedings. In the unlikely event that the Administration provides classified information to the ITC in such proceedings, that information would be protected from publication in accordance with Executive Order 12958.

b. Global Safeguard Measures

Section 331 of the bill implements the global safeguard provisions of Article 7.5 of the Agreement. It authorizes the President, in granting global import relief under sections 201-204 of the Trade Act of 1974, to exclude imports from Singapore when certain conditions are present.

Section 331(a) requires the ITC to make special findings with respect to imports from Singapore if the ITC makes an affirmative determination in a global safeguard investigation under section 202(b) of the Trade Act of 1974. In that case, the ITC must find and report to the President whether imports from Singapore are a substantial cause of serious injury or threat thereof. Under section 331(b), if the President in turn finds that imports from Singapore are not a substantial cause of serious injury, the President may exclude imports from Singapore from a global safeguard action. The term “imports from Singapore” as used in this section differs from the terms “originating good” and “Singaporean article” used elsewhere in the implementing bill. The Administration intends to interpret “imports from Singapore” in the same manner as it interprets “imports from Jordan” as provided in section 221 of the United States-Jordan Free Trade Area Implementation Act and “imports from a NAFTA country” as provided in section 312 of the North American Free Trade Agreement Implementation Act.

2. Administrative Action

No administrative changes will be required to implement Chapter 7.

Chapter Eight (Cross-Border Trade in Services)

No statutory or administrative changes will be required to implement Chapter 8.

Chapter Nine (Telecommunications)

No statutory or administrative changes will be required to implement Chapter 9.

Chapter Ten (Financial Services)

No statutory or administrative changes will be required to implement Chapter 10.

Chapter Eleven (Temporary Entry of Business Persons)

1. Implementing Bill

Title IV of the bill implements U.S. commitments under Chapter 11 of the Agreement, which governs the temporary entry of business persons. In general, Chapter 11 is consistent with existing provisions of the Immigration and Nationality Act ("INA"). The four categories of persons eligible for admission under the Agreement's expedited procedures correspond to existing INA nonimmigrant and related classifications.

In order to provide for the admission of business visitors and intra-company transferees, no changes in U.S. statutes are required. Limited technical changes are needed to provide for the admission of traders and investors and professionals. Legislation is also required to implement Article 11.4.2 of the Agreement regarding labor disputes.

a. Traders and Investors

Under Section II of Annex 11A of the Agreement, citizens of Singapore are eligible for temporary entry as traders and investors. This category provides for admission under requirements identical to those governing admission under INA section 101(a)(15)(E) (8 U.S.C. 1101(a)(15)(E)), which permits entry for persons to carry on substantial trade in goods or services or to develop and direct investment operations.

Section 101(a)(15)(E) currently conditions admission into the United States upon authorization pursuant to a treaty of commerce and navigation. Since the Agreement is not a treaty of commerce and navigation, and no such treaty exists between the United States and Singapore, legislation is necessary to accord treaty trader and investor status to Singaporean citizens qualifying for entry under Section II.

Section 401 of the bill does not amend section 101(a)(15)(E). Instead, it uses a mechanism similar to that provided in section 341(a) of the North American Free Trade Agreement Implementation Act, which in turn was based upon the Act of June 18, 1954 (68 Stat. 264, 8 U.S.C. 1184a). The Act of June 18, 1954 conferred treaty trader and investor status upon nationals of the Philippines on a basis of reciprocity secured by an agreement entered into by the President of the United States and the President of the Philippines.

b. Professionals

Section 402 of the bill amends paragraph (8) of section 214(g) of the INA, as added by the bill implementing the United States-Chile Free Trade Agreement. New INA section 214(g)(8) lists trade agreements pursuant to which certain aliens are entitled to enter the United States as nonimmigrant professionals. Their status as nonimmigrant professionals and the conditions that apply to that status are described in new INA section 101(a)(15)(H)(i)(b1), also added by the bill implementing the United States-Chile Free Trade Agreement. New INA section

214(g)(8) also identifies annual numerical limits on approvals of initial applications by aliens for admission to the United States under section 101(a)(15)(H)(i)(b1).

Section 402 of the United States-Singapore Free Trade Agreement Implementation bill adds the United States-Singapore Free Trade Agreement to the agreements listed in INA section 214(g)(8). It also adds to INA section 214(g)(8) the annual numerical limit for approvals of initial applications under the United States-Singapore Free Trade Agreement.

What follows is an explanation of the amendments to the INA made by the bill implementing the United States-Chile Free Trade Agreement ("the Chile bill"). This explanation is provided for convenience, in light of the expectation that the bill implementing the United States-Chile Free Trade Agreement will be considered concurrently with the bill implementing the United States-Singapore Free Trade Agreement.

Section 402(a) of the Chile bill amends section 101(a)(15)(H)(i) of the INA (8 U.S.C. 1101(a)(15)(H)(i)), which defines certain categories of persons entitled to enter the United States as nonimmigrant professionals. Section 402(a) of the bill inserts new subclause (b1) into INA section 101(a)(15)(H)(i). Subclause (b1) establishes a new category of aliens entitled to enter the United States temporarily as nonimmigrants. These aliens are citizens of countries with which the United States has entered into free trade agreements listed in INA section 214(g)(8)(A), as amended by the Chile bill, and who seek to come to the United States temporarily to engage in business activities at the professional level. To qualify as a professional for purposes of subclause (b1), a person must be engaged in a specialty occupation requiring (1) theoretical and practical application of a body of specialized knowledge, and (2) attainment of a bachelor's degree or higher degree in the specific specialty (or the equivalent of such a degree) as a minimum for entry into the occupation in the United States. It is intended that the definition of "specialty occupation" in the amendment to the INA made by section 402(a)(1) of the implementing bill will be interpreted in a manner similar to the interpretation of the definition of "specialty occupation" under section 214(i) of the INA.

Entry into the United States under section 101(a)(15)(H)(i)(b1) would be subject to annual numerical limits established by the Secretary of Homeland Security as provided for in the applicable agreement, and as set forth in INA section 214(g)(8)(B), as added by the Chile bill. The Department of Labor will also issue regulations governing temporary entry of professionals under this new provision of law. This amendment to the INA implements Section IV of Annex 11A of the Agreement.

Annual numerical limits under the H-1B program, set forth in INA section 214(g)(1)(A), will be reduced by the annual numerical limits set forth in new INA section 214(g)(8)(B). However, if at the end of a fiscal year the limits under section 214(g)(8)(B) have not been exhausted, the H-1B limit for that fiscal year may be adjusted by the amounts remaining under section 214(g)(8)(B). Visas may be issued under the H-1B program pursuant to such adjustment to persons who applied for H-1B visas in the year for which the adjustment was made. These visas may be issued only during the first 45 days of the next fiscal year.

A person's status under section 101(a)(15)(H)(i)(b1) will be valid for one year at a time, renewable in one-year increments (subject to conditions discussed below concerning the labor attestation made by the alien's employer). Continuation of such status will not count against the applicable numerical limit in INA section 214(g)(8)(B). However, after the fifth extension of an alien's status under section 101(a)(15)(H)(i)(b1), subsequent extensions will count against the H-1B numerical limit set forth in INA section 214(g)(1)(A).

Existing INA section 101(a)(15)(H) also provides for the entry of spouses and children accompanying or following to join business persons entering under new subclause (b1). The purpose of this provision is to grant express authorization for the admission of such persons, but not allow them to be employed in the United States unless they independently meet all applicable INA requirements.

Persons seeking temporary entry into the United States under section 101(a)(15)(H)(i)(b1) will be:

- considered to be seeking nonimmigrant status;
- subject to general requirements relating to admission of nonimmigrants, including those pertaining to the issuance of entry documents and the presumption set out in INA section 214(b) (8 U.S.C. 1184(b)); and
- accorded nonimmigrant status on admission.

This treatment also codifies current practice.

It should be noted that while there are many similarities between the way professionals would be treated under section 101(a)(15)(H)(i)(b1) of the INA, as added by the Chile bill, and the way H-1B professionals are treated, a determination of admissibility under subclause (b1) will neither foreclose nor establish eligibility for entry as an H-1B professional. Further, section 101(a)(15)(H)(i)(b1) does not authorize a professional to establish a business or practice in the United States in which the professional will be self-employed.

Certain provisions of the H-1B program are due to expire at the end of fiscal year 2003. In future legislation, Congress may extend or modify those provisions. It is recognized that, should Congress extend or modify provisions of the H-1B program, it may make corresponding modifications to the amendments to the INA made by the Chile bill, to the extent consistent with the obligations of the United States under the Agreement. In particular, section 402(d) of the Chile bill amends section 214(c) of the INA to establish that any fee charged for issuance of a visa pursuant to the H-1B program will also be charged for issuance of a visa pursuant to INA section 101(a)(15)(H)(i)(b1). Such fees will be used for worker training, scholarships, and other purposes for which H-1B fees are used, as described in INA section 286(s).

c. Numerical Limitations

Paragraph 7 of Section IV of Annex 11A of the Agreement permits the United States to establish an annual numerical limit on temporary entries under the Agreement of Singaporean professionals. Under new paragraph (8) of INA section 214(g) as added by section 402(a) of the Chile bill, the Secretary of Homeland Security will issue regulations establishing annual limits on new admissions of professionals pursuant to INA section 101(a)(15)(W). The bill implementing the United States-Singapore Free Trade Agreement amends INA section 214(g)(8) to establish an annual limit of up to 5,400 new temporary entry applications from Singaporean professionals, as provided in Appendix 11A.3 of the Agreement.

As discussed above, the annual numerical limits applicable under the H-1B program will be adjusted in light of the numerical limits established under INA section 214(g)(8)(B).

d. Labor Attestations

Under an exchange of letters between the United States and Singapore that accompanies the Agreement, the United States may require that an attestation of compliance with labor and immigration laws be made as a condition for the temporary entry of Singaporean professionals. This provision allows U.S. labor and immigration officials to ensure that U.S. employers are not hiring Singaporean professionals as a way to put pressure on U.S. employees to accept lower wages or less favorable terms and conditions of employment.

Section 402(b) of the Chile bill implements an attestation requirement consistent with the exchange of letters between the United States and Singapore. Section 402(b) of the Chile bill amends section 212 of the INA (8 U.S.C. 1182) by adding a new subsection (t) to the end of that section.

INA section 212(t)(1), as added by section 402(b) of the Chile bill, requires a U.S. employer seeking a temporary entry visa for a Singaporean professional to file an attestation with the Secretary of Labor. The attestation will consist of four core elements similar to those required for attestations under the H-1B visa program. *See* 8 U.S.C. 1182(n)(1)(A)-(C). Thus, an employer must attest that:

- It will pay the employee the higher of (a) the actual wage paid to all other individuals with similar experience and qualifications for the specific employment in question, or (b) the prevailing wage level for the occupational classification in the area of employment.
- It will provide working conditions for the employee that will not adversely affect the working conditions of workers similarly employed.
- There is no strike or lockout in the course of a labor dispute in the occupational classification at the place of employment.

- The employer has provided notice of its attestation to its employees' bargaining representative in the occupational classification in the area for which the employee is sought or, absent such a representative, has otherwise notified its employees.

An attestation is required in connection with a professional's initial admission into the United States pursuant to INA section 101(a)(15)(H)(i)(b1). A professional's nonimmigrant status under section 101(a)(15)(H)(i)(b1) is valid for one year at a time, renewable in one year increments. Pursuant to INA section 214(g)(8)(C), as added by the Chile bill, for a professional whose status under section 101(a)(15)(H)(i)(b1) is extended, a new attestation must be filed every three years for the duration of the professional's continuation of nonimmigrant status under section 101(a)(15)(H)(i)(b1).

The remainder of new INA section 212(t) contains provisions for enforcing the labor attestation requirement. Like the contents of the attestation itself, the enforcement requirements are based on requirements under the H-1B visa program.

INA section 212(t)(2)(A) requires an employer to make copies of labor attestations (and such accompanying documents as are necessary) available for public examination at the employer's principal place of business or worksite.

INA section 212(t)(2)(B) requires the Secretary of Labor to compile a list of all labor attestations filed including, with respect to each attestation, the wage rate, number of alien professionals sought for employment, period of intended employment, and date of need. These lists will be available for public examination at the Department of Labor in Washington, D.C.

INA section 212(t)(2)(C) provides that the Secretary of Labor shall accept a labor attestation within seven days of filing and issue the certification necessary for an alien to enter the United States as a nonimmigrant under INA section 101(a)(15)(H)(i)(b1), unless the attestation is incomplete or obviously inaccurate.

INA section 212(t)(3)(A) requires the Secretary of Labor to establish a process for the receipt, investigation, and disposition of complaints respecting an employer's failure to meet a condition specified in a labor attestation or an employer's misrepresentation of material facts in such an attestation. Section 212(t)(3) also sets forth penalties that may be imposed for violation of the labor attestation requirements, including monetary fines and denial of applications for visas under INA section 101(a)(15)(H)(i)(b1) for specified periods.

INA section 212(t)(4) defines certain terms used in INA section 212(t).

e. Labor Disputes

Article 11.4.2 of the Agreement establishes an important safeguard for the domestic labor force in the United States and Singapore, respectively. It permits either government to refuse to issue an immigration document authorizing employment where the temporary entry of a business

person might affect adversely the settlement of a labor dispute or the employment of a person involved in such dispute. Article 11.4.2 thus allows the United States to deny temporary entry to a Singaporean business person whose activities in the United States require employment authorization if admission might interfere with an ongoing labor dispute. If the United States invokes Article 11.4.2, it must inform the business person in writing of the reasons for its action and notify Singapore.

Section 403 of the Chile bill amends INA section 214(j) (8 U.S.C. 1184(j)), designating current subsection (j) as paragraph (1) and inserting a new paragraph (2). The amendment made by the Chile bill, described below, is consistent with Article 11.4.2 of the United States-Singapore Free Trade Agreement. Accordingly, no further amendment is required to implement that provision.

New paragraph (2) of INA section 214(j) provides authority to refuse nonimmigrant classification under specified circumstances to a Singaporean business person seeking to enter the United States under and pursuant to the Agreement. In particular, nonimmigrant classification may be refused if there is a labor dispute affecting the relevant occupational classification at the Singaporean business person's place of employment or intended place of employment in the United States, unless that person establishes, pursuant to regulations issued by the Secretary of Homeland Security after consultations with the Secretary of Labor, that the business person's entry will not adversely affect the settlement of the labor dispute or the employment of any person involved in the labor dispute.

New paragraph (2) also requires the provision of notice to the affected Singaporean business persons and to Singapore of a determination to deny nonimmigrant classification, as required under Article 11.4.3 of the Agreement.

As discussed above, an employer seeking to hire a Singaporean professional under new section 101(a)(15)(H)(i)(b1) of the INA must submit an attestation in compliance with all of the conditions set forth in new section 212(i)(1) of the INA. If the employer is unable to make the necessary attestation, due to a strike or lockout in the professional's occupational classification, then the Singaporean professional will not be admitted to enter the United States under section 101(a)(15)(H)(i)(b1), notwithstanding new INA section 214(j)(2).

INA section 214(j)(2) as inserted by the Chile bill applies only to requests for temporary entry by traders and investors, intra-company transferees, and professionals — *i.e.*, the categories of nonimmigrants that require employment authorization under U.S. law (corresponding to Sections II, III, and IV of Annex 11A of the Agreement). Employment in the U.S. labor market is not permitted for business visitors, as defined in INA section 101(a)(15)(B) (8 U.S.C. 1101(a)(15)(B)) (corresponding to Section I of Annex 11A of the Agreement); violations of status under that provision that involve labor disputes are fully redressable under existing law.

Section 214(j)(2) is similar to existing INA provisions that prohibit admission in certain circumstances where interference with a labor dispute may result. For example, under INA section 212(n)(1)(B) (8 U.S.C. 1182(n)(1)(B)), the U.S. employer sponsoring an alien for

admission must certify that there is no strike or lockout in the occupational classification at the place of employment. Additionally, section 214(j)(2) will supplement INA section 237(a)(1)(C) (8 U.S.C. 1227(a)(1)(C)) and related INA provisions that now authorize deportation of an alien admitted under a particular nonimmigrant category if the alien ceases to perform the type of work permitted under that category or misrepresented the nature of the work at the time of admission. The Department of Labor will provide strike certifications to the Department of Homeland Security, as it has provided to the Immigration and Naturalization Service under existing provisions, pursuant to 8 C.F.R. 214.2(h)(17).

2. Administrative Action

Singapore will be added to the list of countries, maintained by the Department of State, whose citizens are eligible for treaty trader and treaty investor status under INA section 101(a)(15)(E).

With respect to professionals provided for under Section IV of Annex 11A of the Agreement, in all cases where a state license is required to engage in a particular activity in the United States, such professionals will be required to obtain the appropriate state license.

Pursuant to INA section 214(g)(8)(B) as added by section 402(a) of the Chile bill, the Secretary of Homeland Security will issue regulations implementing the numerical limits set forth in Appendix 11A.3 of the Agreement. The Secretary of Labor will issue regulations implementing the labor attestation provisions in new subsection (t) of INA section 212. The

administrative agencies responsible for administering the other amendments to the INA described above will promulgate regulations to implement those amendments.

Article 11.7.1 of the Agreement calls for each government to designate a temporary entry coordinator. The Department of Homeland Security will serve as the U.S. coordinator.

**Chapter Twelve (Anticompetitive Business Conduct,
Designated Monopolies, and Government Enterprises)**

No statutory or administrative changes will be required to implement Chapter 12.

Chapter Thirteen (Government Procurement)

1. Implementing Bill

No statutory changes will be required to implement Chapter 13.

2. Administrative Action

Annex 13A of the Agreement establishes thresholds for procurements above which U.S. Government procuring entities must allow Singaporean suppliers to bid in accordance with the rules set forth in Chapter 13 of the Agreement. These thresholds are lower than the thresholds under the WTO Agreement on Government Procurement (to which both the United States and Singapore are party). The Office of the United States Trade Representative will notify the Federal Acquisition Regulation (FAR) Council of the new thresholds. The FAR Council will then incorporate the new thresholds into the FAR.

Chapter Fourteen (Electronic Commerce)

No statutory or administrative changes will be required to implement Chapter 14.

Chapter Fifteen (Investment)**1. Implementing Bill**

Section 106 of the bill authorizes the United States to use binding arbitration to resolve claims covered by Article 15.15.1(a)(i)(C) or Article 15.15.1(b)(i)(C) of the Agreement. Articles 15.15.1(a)(i)(C) and 15.15.1(b)(i)(C) implicate disputes over government contracts, and section 106 of the bill clarifies that the United States consents to the arbitration of such disputes. No statutory authorization is required for the United States to engage in binding arbitration for other claims covered by Article 15.15. Provisions allowing arbitration of contract claims have regularly been included in U.S. bilateral investment treaties over recent decades.

Section 106 also states that all contracts executed by any agency of the United States on or after the date of entry into force of the Agreement shall contain a clause specifying the law that will apply to resolve any breach of contract claim in the event such a claim is submitted to binding arbitration.

2. Administrative Action

The Administration will examine the need for additional regulatory or other administrative measures that may be necessary to ensure that contracts to which the United States is a party include appropriate choice of law provisions.

Chapter Sixteen (Intellectual Property Rights)

No statutory or administrative changes will be required to implement Chapter 16.

Chapter Seventeen (Labor)

1. **Implementing Bill**

No statutory changes will be required to implement Chapter 17.

2. **Administrative Action**

Article 17.4.2 of the Agreement calls for each government to designate an office to serve as the contact point for implementing the Agreement's labor provisions. The Department of Labor's Bureau of International Affairs will serve as the U.S. contact point for this purpose.

Chapter Eighteen (Environment)

No statutory or administrative changes will be required to implement Chapter 18.

**STATEMENT ON HOW
THE U.S.-SINGAPORE FREE TRADE AGREEMENT
MAKES PROGRESS IN ACHIEVING
U.S. PURPOSES, POLICIES, OBJECTIVES, AND PRIORITIES**

A. INTRODUCTION

The United States-Singapore Free Trade Agreement (FTA) makes progress in achieving the applicable purposes, policies, objectives, and priorities of the Bipartisan Trade Promotion Authority Act (TPA act). This Statement describes how and to what extent the applicable purposes, policies, objectives, and priorities are achieved through the FTA.

The U.S.-Singapore FTA is the first U.S. free trade agreement with an Asian country. In addition to eliminating tariffs on all trade in goods between the United States and Singapore, the agreement will substantially reduce barriers to bilateral trade in services and investment, and includes state-of-the-art provisions addressing such key areas as intellectual property rights, electronic commerce, customs and trade facilitation, dispute settlement, and labor and environmental protection.

Along with the recently signed free trade agreement with Chile, the Singapore FTA is one of the most far-reaching trade and investment agreements the United States has ever concluded. A variety of the agreement's provisions will serve as useful benchmarks for future free trade agreements with other advanced economies in the Asia-Pacific region. The FTA forms an integral part of the Administration's larger strategy of opening markets around the world through global, regional, and bilateral trade and investment initiatives.

The U.S.-Singapore FTA meets or exceeds the applicable purposes, policies, objectives, and priorities that the Congress spelled out in the TPA act. Accordingly, President Bush strongly believes that the Congress should approve the FTA and enact the legislation needed to implement the agreement.

B. OVERALL TRADE NEGOTIATING OBJECTIVES

The TPA act sets out a variety of "overall trade negotiating objectives" that call for future U.S. trade agreements to: (1) open markets by eliminating or reducing barriers to and distortions of trade and creating market opportunities, in particular for small businesses, (2) further strengthen international trading disciplines, (3) foster economic growth in the United States and globally, and (4) promote environmental and worker rights policies in the context of trade. The U.S.-Singapore FTA builds on the foundation of existing trade agreements to make substantial progress in achieving each of these objectives.

1. Market Opening

As soon as the agreement takes effect, Singapore will lock-in zero duty rates across the broad sweep of products that the United States currently exports to Singapore. In the absence of the FTA, Singapore would remain free under World Trade Organization (WTO) rules to impose substantial duties on many of these imports. In addition, the agreement calls for both countries to immediately eliminate existing tariffs on imports of textiles and apparel products that meet the agreement's "yarn-forward" rule of origin. This aspect of the agreement will create new opportunities for U.S. and Singaporean fiber, yarn, fabric, and apparel manufacturing industries.

The agreement's ground-breaking provisions on customs procedures will particularly benefit small businesses. The FTA will facilitate customs processing, which will benefit the many small- and mid-sized U.S. companies that incur significant additional costs due to inefficient customs procedures. Under the agreement, Singapore will provide for administrative and judicial review of customs decisions, employ risk-management systems to facilitate the movement of low-risk goods, and release goods from customs within a period no greater than that required to ensure compliance with its customs laws. Whenever possible, Singapore will release goods within 48 hours of arrival. In addition, Singapore will seek to make all new and amended customs regulations available for public comment before they are promulgated. These commitments will facilitate bilateral trade and ensure the highest possible degree of transparency, with particular benefits for smaller U.S. exporters.

The FTA reflects a substantial advance beyond Singapore's commitments on services trade under the WTO General Agreement on Trade in Services. The agreement guarantees U.S. firms enhanced access to key services markets in Singapore, particularly in the financial services, express delivery, and professional services sectors, and locks in current open access in other key services markets such as telecommunications.

2. Stronger International Trade Disciplines

The FTA establishes innovative, binding rules-of-the-road to protect electronic trade in digital products such as software, music, images, videos, and text. The agreement draws from traditional trade principles to fashion customized nondiscrimination rules that will apply specifically to electronic commerce. These rules will ensure even-handed treatment for U.S. firms that deliver digital products to Singapore via the Internet. The FTA also limits customs duties on digital products imported through conventional means and prohibits tariffs outright when digital products are delivered over the Internet. The agreement's provisions on electronic commerce will serve as a model for progress in this emerging area in future bilateral, regional, and global trade agreements.

The FTA recognizes that workers and firms can fully realize the agreement's market-opening potential only if it imposes disciplines that proceed from those currently in place through other agreements. Thus, the agreement sets out new rules on intellectual property rights (IPR)

that clarify and build on those in the WTO TRIPS agreement to strengthen enforcement and enhance rules for protecting IPR.

The agreement also establishes ground-breaking rules for addressing discriminatory and anticompetitive behavior by firms that are subject to government influence and includes detailed rules governing trade and investment in telecommunications services, imposing market-opening disciplines that extend beyond those in effect under the WTO. The agreement also contains innovative procedures for settling disputes that may arise under the FTA, including provisions for monetary assessments to back up dispute panel decisions.

3. Foster Economic Growth

According to an independent study using the Michigan model of world production and trade to predict certain economic effects of various free trade agreements, the U.S.-Singapore FTA will boost annual global welfare by \$25.1 billion when fully implemented. In absolute terms, most of this positive welfare effect will be enjoyed by the United States (\$17.5 billion, or 0.19 % of GNP). Singapore's annual welfare will increase by \$2.5 billion (3.4 % of GNP). Formal models, such as the Michigan model, however, tend to underestimate the benefits of free trade agreements because their scope is limited (*e.g.*, they fail to assess the impact of rules changes such as improved IPR protection and high product aggregation) and because not all the expected effects of the agreement are necessarily measured (*e.g.*, they fail to estimate or fully estimate dynamic or intermediate growth gains from trade liberalization). It is clear, however, that the agreement will contribute to economic growth in both countries and in global trade.

4. Labor Rights and Environmental Protection

Trade agreements can, and should, complement efforts to protect worker rights and enhance environmental protection. Accordingly, the U.S.-Singapore FTA includes meaningful commitments by each government on labor and environmental protection.

Both governments reaffirm through the agreement their respective obligations as members of the International Labor Organization (ILO) and under the 1998 ILO *Declaration on Fundamental Principles and Rights at Work*. The agreement also commits each government to strive to ensure it does not waive or derogate from its domestic labor laws in a manner that weakens or reduces its adherence to internationally recognized labor rights as an encouragement for trade or investment with the other party. Moreover, while recognizing each party's right to establish its own labor laws, exercise its discretion in investigatory, regulatory, prosecutorial, and compliance matters, and allocate enforcement resources, the agreement commits both Singapore and the United States not to fail to effectively enforce domestic labor laws on a sustained or recurring basis in a manner affecting bilateral trade.

Similarly, the FTA commits each government to ensure that its laws provide for high levels of environmental protection and to strive to improve those levels. As is the case for labor

law enforcement, the FTA contains a binding commitment on effective environmental law enforcement, while recognizing each government's right to establish its own environmental laws, and exercise discretion in regulatory, prosecutorial, and compliance matters. The agreement also includes language similar to that on labor rights that requires each government to strive to ensure it does not waive or derogate from its environmental laws in a manner that weakens or reduces protections under those laws in order to seek investment or encourage trade with the other country. In addition, the FTA includes provisions that will remove barriers to bilateral trade in environmental products and services, with the potential to reduce costs for purchases of pollution abatement and other environmental equipment.

C. PRINCIPAL TRADE NEGOTIATING OBJECTIVES

The TPA act establishes a variety of "principal trade negotiating objectives." The U.S.-Singapore FTA makes substantial progress toward each of the applicable principal goals set out in the act.

1. Opening Markets for U.S. Goods

Although the United States and Singapore generally have a strong bilateral relationship in trade in goods, U.S. exporters will enjoy increased market opportunities and greater certainty under the FTA regarding the terms for continued access to Singapore's vibrant market. While the great bulk of U.S. products currently enter Singapore duty-free, the agreement will immediately lock those zero duties in place. The agreement also commits Singapore to eliminate all its existing tariffs on U.S. products (including on beer and other alcoholic beverages).

The agreement also calls for Singapore and the United States to increase cooperation on technical regulations, standards, and conformity assessment procedures to prevent unnecessary technical barriers to trade that hinder U.S. companies from taking advantage of open markets.

2. Opening Markets for U.S. Services

Singapore is a major consumer of U.S. services. The FTA will reduce barriers and create new market opportunities in Singapore for a range of key U.S. services and will lock in access in sectors where Singapore's services market is already open. The agreement includes a market-opening services framework based in substantial part on a trade-liberalizing "negative list" approach. This means that all services sectors are subject to the agreement's rules unless a government has negotiated a specific exemption in that sector.

The agreement will either open or lock in existing significant access to Singapore's services markets in such priority U.S. services export sectors as financial services, telecommunications, express delivery, computer and related services, distribution services (wholesaling, retailing, franchising), professional services, advertising, audiovisual services, education and training, tourism, construction and engineering, energy services, and

environmental services. The agreement's market-opening provisions are complemented by state-of-the-art rules governing regulatory transparency – rules that are especially important given the highly regulated nature of many services industries.

As a result of the agreement, Singapore will open its market to U.S. firms in a variety of key services sectors where access is currently limited. In the financial services sector, for example, Singapore has traditionally limited the number of foreign banks that can enter Singapore's domestic (as opposed to off-shore) banking sector. Eighteen months after the FTA takes effect, Singapore will lift its ban on new licenses for U.S.-owned full-service banks to operate in Singapore. Singapore will remove its ban on licenses for U.S. banks that provide only "wholesale" (*i.e.*, large-scale) operations within three years. Once the FTA takes effect, U.S. full-service banks will have authority to open 30 "customer service locations" (branch offices or ATM locations) in Singapore, double the number currently allowed. The FTA will require Singapore to entirely eliminate its cap on customer service locations for qualifying U.S. banks in two years.

In addition, locally incorporated, full service U.S. banks will have authority to negotiate access to Singapore's locally-owned ATM networks within 2-1/2 years after the agreement takes effect. All other full-service U.S. banks will have similar rights after four years. This provision of the FTA will allow qualifying U.S. banks to negotiate contracts with local ATM network owners, which could enable their banking customers to use hundreds of existing ATMs in Singapore. Currently, foreign-owned banks are precluded from participating in Singapore's locally-owned ATM networks.

The FTA will also ensure that when U.S. investment firms establish mutual funds in Singapore they can use personnel based in the United States to manage the securities included in those funds. The FTA also commits Singapore to relax its local staffing rules for U.S. asset management and insurance companies that seek to market their investment products under Singapore's mandatory national savings scheme, the Central Provident Fund.

The FTA locks in Singapore's generally open regime for insurance that U.S. firms provide to customers in Singapore through subsidiary or branch offices located there, including life and non-life insurance, reinsurance, insurance intermediation, and insurance auxiliary services. The FTA will provide significant new rights that will allow U.S. insurance companies to provide from the United States to customers in Singapore marine, aviation, and transport insurance (MAT insurance), intermediation of reinsurance and MAT insurance, and insurance auxiliary services. The agreement also ensures that U.S. firms will continue to be able to provide Singapore customers reinsurance services from the United States. The FTA also includes an innovative provision that will allow licensed U.S. insurers to provide new insurance products to their business customers in Singapore without prior regulatory approval.

In the professional services sector, U.S. engineering and architecture firms seeking to establish offices in Singapore will benefit from Singapore's commitment to require that only

51% the directors of these firms must be professionally accredited in Singapore. Currently, two-thirds of board members must be accredited there. The FTA will require Singapore to entirely eliminate local ownership requirements for U.S. land surveying firms by 2004. The FTA will also require Singapore to ease restrictions on U.S. law firms that seek to form joint law practices in Singapore, and to recognize degrees earned from certain U.S. law schools for admission to the Singapore bar.

The FTA guarantees continued, unimpeded access to Singapore's telecommunications market virtually across-the-board to U.S. telecom companies. Under the WTO, Singapore has committed to allow only three foreign telecom providers to participate in just a few of its telecom markets. By contrast, the FTA ensures that all U.S. telecom companies will continue to be free to enter any telecom sector in Singapore, whether by acquiring or building local facilities, linking its U.S. network with a network in Singapore, or leasing lines from firms in Singapore. The FTA commits Singapore's telecom regulatory authorities to use open and transparent administrative procedures, ensure that U.S. firms have fair and non-discriminatory access to public telephone networks, consult with interested parties before issuing regulations, solicit public comments for proposed rules, and publish all pertinent regulations.

Under the FTA, Singapore will also afford U.S. services suppliers unimpeded access to another of its key services markets – express delivery. The FTA includes an innovative, comprehensive definition of express delivery services that ensures that market access restrictions that Singapore includes for its postal sector do not pertain to express delivery services. Representing a further innovation, the agreement requires Singapore to prohibit its postal authority from subsidizing its “express letter” service to give it an unfair commercial advantage in express delivery services.

3. Foreign Investment

The FTA commits Singapore to provide a strong and predictable legal framework for U.S. investors, including direct ownership by U.S. firms of companies, real estate, intellectual property rights, concessions, permits, and debt instruments in Singapore. Except for certain specified exceptions, the FTA will give U.S. investors the opportunity to establish, acquire, and operate investments in Singapore on the same basis as Singaporean investors or other foreign investors – across the full spectrum of economic activity.

Under the agreement, Singapore will provide U.S. investors due process rights, and recourse in the event of expropriations, that are consistent with U.S. legal principles and practice. For example, the FTA includes protection against denials of justice in accordance with the principle of due process embodied in the principal legal systems of the world. The text thus makes explicit that the treatment required by this obligation is grounded in, and does not extend beyond, the due process standards embraced by the United States and other major legal systems of the world.

With regard to recourse in the event of expropriations, the FTA draws heavily from principles developed in U.S. takings law under the Fifth Amendment of the Constitution. The FTA clarifies, for example, that takings are limited to property rights and property interests, not other types of interests, and incorporates tests used by the U.S. Supreme Court to determine whether a regulatory taking has occurred. The expropriation provisions also recognize that, as is the case in U.S. practice, nondiscriminatory regulatory actions designed and applied to protect legitimate public welfare objectives only rarely result in expropriation. While the FTA commits the United States to continue to provide Singapore investors a high level of protection and due process, the agreement gives Singapore firms no greater substantive rights than U.S. companies already enjoy in the United States.

The FTA also commits Singapore not to burden U.S. investors with protectionist “performance requirements” – such as rules requiring investors to buy local products – and ensures that Singapore will allow U.S. investors to transfer funds related to their investments in and out of Singapore.

The agreement includes investor-state arbitration procedures that will provide a fair and expeditious means of addressing disputes. The arbitration provisions incorporate procedures intended to increase public access to information regarding arbitration proceedings. The FTA requires, for example, that all documents in investor-state arbitrations, except for business confidential and other legally confidential information, be made public promptly. In addition, all hearings in arbitration proceedings are to be open to the public. The FTA also gives tribunals the authority to accept *amicus* submissions from the public and includes provisions based on those used in U.S. courts to quickly dispose of frivolous claims.

4. Intellectual Property

The U.S.-Singapore FTA clarifies and builds on existing international standards for the protection and enforcement of intellectual property rights, with an emphasis on new and emerging technologies. The agreement ensures that Singapore will provide a high level of IPR protection similar to that provided under U.S. law. Key provisions of the agreement, such as those on preventing circumvention of anti-piracy devices and establishing the scope of liability for copying works on the Internet, are modeled on U.S. statutes.

The FTA requires Singapore to accede to international Internet treaties and extend its term of protection for copyrighted works. The agreement includes state-of-the-art protection for trademarks and copyrights, as well as expanded protection for patents and undisclosed information.

Under the FTA, Singapore will ensure that copyright owners maintain rights to temporary copies of their works that others have on their computers, which is vital for protecting copyrighted music, videos, software, and text from widespread unauthorized sharing over the Internet. The FTA requires the two governments to use only legitimate computer software, thus

setting a positive example for private users. The FTA will also require Singapore to prohibit, in the absence of the copyright holder's written request, the production of optical discs (CDs, DVDs, and CD-ROMs) that do not contain a source identification code. To prevent piracy of satellite television broadcasts, the agreement will also require Singapore to protect encrypted satellite signals as well as the programming those signals carry.

The FTA commits Singapore to make patent rights available, with certain exceptions, for inventions and provides for extension of the patent term if there are unreasonable delays in issuing the patent or granting regulatory approval for marketing the patented product. The agreement requires Singapore to enable patent owners to prevent unauthorized imports of their patented pharmaceutical products if a contract is breached. The FTA will also require Singapore to protect against unauthorized disclosure or unfair commercial use of test data and other information that pharmaceutical and agricultural chemical companies submit to government regulators in order to secure regulatory approval for their patented products. Under the agreement, Singapore will protect for five years product information generated in connection with pharmaceutical product approvals and will protect similar information for agricultural chemicals for 10 years.

These standards are made more meaningful through requirements for tough penalties to combat piracy and counterfeiting, including, in civil cases, procedures for seizure and destruction of pirated and counterfeit products, the equipment used to produce these products, and a requirement to provide for statutory and actual damages to remedy such practices. The FTA also commits Singapore to ensure that its enforcement authorities are empowered to seize, forfeit, and destroy counterfeit and pirated goods and, at least with respect to pirated goods, the equipment used to produce them. Singapore must also authorize its enforcement officials to act on their own against counterfeit and pirated goods, either by stopping them at the border or initiating criminal cases, without receiving a formal complaint, thus providing more effective enforcement against these products. In addition, Singapore must maintain criminal penalties for circumvention of technology protection measures.

5. Transparency

The agreement recognizes that without a high standard of regulatory transparency, the benefits of market-opening trade and investment commitments can be lost through arbitrary or unfair government regulations. Accordingly, the FTA includes key provisions that will ensure that Singapore observes fundamental transparency principles. Those provisions are set out in a specific chapter of the agreement dealing with regulatory transparency as well as in provisions of the agreement addressing cross-border services, competition, government procurement, customs administration, investment, telecommunications, and dispute settlement. The agreement's principal transparency rules are based on U.S. practice under the Administrative Procedures Act.

Increased transparency is also an effective tool in addressing government corruption in international trade. Under the FTA, the United States and Singapore affirm their commitments to

adopt, maintain, and enforce effective measures against bribery and corruption in international business transactions. The agreement also provides for the two governments to cooperate on these issues and to look for ways to address issues of bribery and corruption through broader international initiatives.

6. Regulatory Practices

The FTA addresses regulatory issues directly linked to the agreement's market-opening provisions. The FTA includes disciplines designed to prevent the possibility that firms in Singapore might fraudulently seek preferential tariff treatment under the agreement for textile products or apparel that do not qualify for this treatment under the FTA's origin rules. To address this possibility, the FTA includes rules requiring Singapore to monitor textiles and apparel production, and includes anti-circumvention commitments by Singapore in customs cooperation and enforcement. The FTA will require Singapore to penalize companies that engage in circumvention and report them to U.S. authorities. The agreement contemplates that U.S. customs officials may visit production facilities in Singapore and bar imports of textile and apparel goods from factories it finds to be circumventing the agreement's origin rules.

The FTA also addresses the issue of government regulation or other government actions that could provide a competitive advantage to domestic enterprises, and specifically to government-influenced enterprises. The government still plays a far-reaching role in Singapore's economy through investments in state-owned enterprises, known in Singapore as government-linked companies (GLCs). The FTA commits Singapore gradually to divest its interest in most GLCs, as market conditions permit. The FTA also offers protection for U.S. firms in their sales to, and purchases from, these companies. In particular, the FTA requires GLCs subject to "effective influence" by Singapore authorities to base their purchase and sales decisions on normal business considerations, to provide non-discriminatory treatment to U.S. goods and firms, and to refrain from anticompetitive practices. The FTA also requires Singapore to enact legislation by January 2005 that will proscribe anticompetitive business conduct and establish an antitrust enforcement authority. These commitments will help guard against anticompetitive business conduct, particularly by government-linked firms, that could prevent U.S. exporters, investors, and service providers from fully realizing the new economic opportunities the FTA will create.

7. Electronic Commerce

The FTA includes ground-breaking rules prohibiting duties on and discrimination against digitally-encoded products transmitted over the Internet, including computer programs, video, images, and sound recordings. The agreement thus creates a strong foundation for wider efforts to bar duties and unfair or discriminatory regulation of electronically-transmitted products. In addition, the agreement calls for Singapore to base any customs duties it applies to digital products imported on physical media (such as DVDs or CD-ROMs) on the value of the media

(e.g., the disc) rather than on the value of the movie, music, or software encoded on the media. That commitment will set a useful precedent for the Asia-Pacific region.

8. Trade in Agricultural Products

Singapore has traditionally been an important market for U.S. agricultural products. The FTA locks in place Singapore's zero duty rates for U.S. farm products and includes trade-enhancing provisions on customs procedures and trade facilitation that will help ensure that the strong bilateral trade relationship in agriculture products will continue to grow.

9. Labor Rights and Environmental Protection

Under the agreement, Singapore and the United States reaffirm their obligations as members of the ILO and will strive to ensure that their domestic laws provide for labor standards that are consistent with internationally recognized labor rights as set forth in the agreement. The agreement makes clear that it is inappropriate to waive or derogate from domestic labor laws in a manner that weakens or reduces adherence to internationally recognized labor rights as an encouragement for trade or investment with the other party. A key element of the agreement's labor provisions, which is enforceable through the agreement's dispute settlement procedure, is a commitment by each government regarding the effective enforcement of its domestic labor laws. The FTA defines labor laws specifically to include those related to the prohibition and elimination of the worst forms of child labor. The agreement also commits Singapore and the United States to cooperate on labor issues and activities.

Environmental commitments are also included in the core text of the FTA. As is the case for labor rights, a key component of FTA's environmental provisions is an enforceable commitment by each government regarding the effective enforcement of its environmental laws. The agreement also commits Singapore and the United States to ensure that their domestic environmental laws provide for high levels of environmental protection and to strive to continue to improve these laws. Through the agreement, Singapore and the United States expressly recognize that it is inappropriate to waive or derogate from their environmental laws in a manner that weakens or reduces protections under those laws in order to seek investment or encourage trade with the other country. In addition, the United States and Singapore will establish, pursuant to a "memorandum of intent" negotiated in parallel with the FTA, a mechanism for developing a joint environmental work plan.

10. Dispute Settlement

The FTA includes innovative procedures for settling disputes that may arise between the two governments over the implementation of the agreement. The agreement's dispute procedures rely principally on consultations and compliance rather than imposition of trade sanctions or penalties. The procedures set new, higher standards of openness and transparency. The FTA calls for dispute settlement proceedings to be open to the public, for the two

governments to release their legal briefs and other filings to the public, and for dispute panels to have authority to receive submissions from interested nongovernmental groups.

The FTA's dispute settlement rules also provide equivalent remedies to enforce panel decisions under the agreement, regardless of whether they address the agreement's commercial, labor, or environmental provisions. The FTA achieves this result through an innovative enforcement mechanism that provides for the use of monetary assessments if a government fails to comply with a panel's decision. Enforcement through the suspension of trade benefits provided under the agreement is also available for all types of disputes. But the agreement is designed to use remedies that will enhance compliance with the agreement, rather than restrict trade, which could adversely affect sectors and consumers that do not have a direct stake in the dispute.

11. Trade Remedies

The FTA does not address antidumping or countervailing duty issues. Thus, the agreement fully preserves U.S. rights and obligations regarding these trade remedies as they currently exist under the WTO.

The agreement includes a bilateral safeguard procedure, similar to those in past U.S. free trade agreements, that will be available to aid domestic industries that sustain or are threatened with serious injury due to increased imports resulting from the phase-out of U.S. import duties under the agreement. The agreement also includes a special safeguard to address the possibility that duty elimination under the agreement could result in damaging levels of textile or apparel imports.

D. PRIORITIES FOR MAINTAINING GLOBAL COMPETITIVENESS

The TPA act also calls for the President to promote certain priorities to address and maintain U.S. competitiveness in the global economy. The United States-Singapore FTA makes progress in promoting each of these priorities.

1. Labor Cooperation

The United States and Singapore are both members of the ILO and have a longstanding cooperative relationship on labor issues. During the negotiations, government labor experts from the two countries consulted on U.S. and Singaporean labor laws and how their respective systems operate. The two governments included a bilateral labor cooperation mechanism in the FTA to promote respect for the principles embodied in the ILO *Declaration on Fundamental Principles and Rights at Work and its Follow-up* and compliance with ILO Convention 182 *Concerning the Prohibition and Immediate Action for the Elimination of the Worst Forms of Child Labor*. The agreement includes a framework for the cooperation mechanism and lists a range of labor activities on which the two governments will collaborate. Officials of the U.S. Department of

Labor and Singapore's Ministry of Labor and other appropriate agencies will participate in this mechanism.

2. Domestic Policy Objectives

The FTA fully takes into account critical U.S. domestic policy objectives, such as the need to maintain flexibility in addressing U.S. national security and public health, safety, and consumer interests. The FTA includes a broad set of general policy exceptions for measures governing both trade in goods and services to ensure that the United States remains fully free to safeguard the national and public interest, including specific exceptions for national security, public health and morals, conservation, taxation, and protection of confidential information. The agreement also avoids disturbing existing state and local governmental measures that might run afoul of the agreement's services and investment rules by including "grandfather" clauses that exempt those measures from challenge under the agreement.

3. Multilateral Environmental Agreements and GATT Article XX

As noted in the Administration's environmental review of the FTA, the environment and sustainable development are important concerns for both the United States and Singapore. The FTA expressly recognizes the importance of multilateral environmental agreements, including appropriate use of trade measures in such agreements to achieve specific environmental goals. The FTA commits the United States and Singapore to consult regularly with respect to the ongoing negotiations in the WTO concerning the relationship between multilateral environmental agreements and WTO rules. In addition, the bilateral environmental cooperation mechanism negotiated in parallel with the FTA will provide further opportunities for the two governments to cooperate in promoting effective implementation of multilateral environmental agreements to which they are both parties.

4. Currency and Exchange Rate Manipulation

The FTA's investment and services rules will promote and protect freer international movement of capital and consequently make it more difficult to manipulate exchange rates to achieve levels inconsistent with levels set by market forces.

Significant and unanticipated currency movements can arise from many conditions, particularly from macroeconomic developments, macroeconomic policy changes, or the appearance of new information on fundamental economic conditions. A determination of whether such movements reflect currency manipulation to promote a competitive advantage in international trade must therefore take into account a broad range of issues, institutions, and market developments that will require a review mechanism with a larger scope than any specific trade agreement.

Under the 1988 Omnibus Trade and Competitiveness Act, the Secretary of the Treasury is required to analyze on an annual basis the exchange rate policies of foreign countries, in consultation with the International Monetary Fund, and consider whether countries manipulate the rate of exchange between their currencies and the United States dollar for purposes of preventing effective balance of payments adjustments or gaining an unfair competitive advantage in international trade. Each member of the International Monetary Fund is obligated, under Article IV of the IMF Articles of Agreement, to avoid manipulation of exchange rates for such purposes. The Department of the Treasury reports semi-annually on its analysis.

The Treasury will ensure that significant and unanticipated currency movements are examined in its reviews of exchange rate policies of foreign countries and in consultations with the IMF concerning these policies. The Department of the Treasury will seek to resolve problems of currencies that are considered to reflect a pattern of currency manipulation to promote a competitive advantage in international trade through discussions with the foreign authorities responsible for foreign exchange rate policies.

5. Reporting Requirements

As required under the TPA act, the Administration has provided a report to the Congress describing Singapore's laws governing exploitative child labor. In addition, the Administration has reported to the appropriate Congressional committees as required under the TPA act on (1) the Administration's environmental review of the agreement and (2) its review of the FTA's impact on U.S. employment. The Administration has also provided a meaningful labor rights report on Singapore, which will also be made available to the public. Finally, the Administration has reported, as specified in the TPA act, on U.S. efforts to establish consultative mechanisms to strengthen Singapore's capacity to promote respect for core labor standards and develop and implement standards for the protection of human health based on sound science.

STATEMENT AS TO HOW THE UNITED STATES-SINGAPORE FREE TRADE AGREEMENT SERVES THE INTERESTS OF UNITED STATES COMMERCE

INTRODUCTION

Singapore is currently the United States' eleventh largest export market. Two-way U.S.-Singapore merchandise trade now exceeds \$38 billion annually, with a \$1.4 billion U.S. surplus, and two-way services trade exceeds \$6 billion, with a \$2.1 billion U.S. surplus. With the implementation of the FTA, this important trade relationship will continue to expand and deepen. Expanding trade is key to the prosperity of both of our countries and serves the interests of American families, workers, consumers, industry, and farmers.

Exports support the jobs of 12 million Americans. Trade is a dynamic part of the U.S. economy, and continuous efforts to open new markets must be part of our strategy to secure new growth and create new jobs.

Trade is critical to the economic growth and strength of the United States and to its leadership in the world. Stable trading relationships promote security and prosperity. This FTA will make the United States more competitive with other countries and regional trading blocks that are making strides in the global market. Asia is one of the United States' largest export markets and includes some of the largest and fastest growing economies in the world. This agreement will help prompt other economies within the region to take steps to liberalize their own trade and investment regimes. Open economies support American jobs and income, broaden the foundations upon which democratic institutions can be constructed, and create incentives to settle problems peacefully. This agreement serves not only U.S. economic interests, but also reflects our political goals, in light of Asia's strategic importance in securing global peace and growth.

The FTA anchors the United States in Southeast Asia and will foster closer economic and political ties with the Association of Southeastern Asian Nations (ASEAN). It will also offer Asian governments strong reason to see the advantage in region-wide trade liberalization, thus expanding U.S. trade opportunities. This agreement promotes the broader U.S. trade agenda by serving as a model, breaking new negotiating ground, and setting high standards for international trade, particularly for future agreements in the region. In October 2002, President Bush announced the Enterprise for ASEAN Initiative (EAI). The EAI offers the prospect of FTAs with individual ASEAN nations, leading to a network of FTAs in the region.

This agreement will support global trade liberalization that both Singapore and the United States value. We remain committed to pursuing trade liberalization bilaterally and regionally as well as multilaterally through the World Trade Organization (WTO). The President's regional and bilateral free trade agenda, combined with a clear commitment to reducing global barriers to trade worldwide through the WTO, will leverage the American economy's size and attractiveness to stimulate competition for openness, moving the world closer, step-by-step, toward the goal of

comprehensive free trade. A free and open trading system is critical for global economic development. As President Bush has pointed out, "Open trade fuels the engines of economic growth that creates new jobs and new income. It applies the power of markets to the needs of the poor. It spurs the process of economic and legal reform. It helps dismantle protectionist bureaucracies that stifle incentive and invite corruption. And open trade reinforces the habits of liberty that sustain democracy over the long term."

America's trade agenda needs to be aligned securely with the values of our society. Trade promotes freedom by supporting the development of the private sector, encouraging the rule of law, spurring economic liberty, and increasing freedom of choice. Trade also serves our security interests in the campaign against terrorism by helping to tackle the global challenges of poverty and privation. Poverty does not cause terrorism, but there is little doubt that poor, fragmented societies can become havens in which terrorists can thrive. By connecting America to peoples beyond our shores, new U.S. trade agreements can also encourage reforms that will help establish the basic building blocks for long-term development in open societies, including: the rule of law, private property rights, competition, sectoral reform and regional integration.

The FTA locks in Singapore's duty-free treatment of our exports, extends that duty-free treatment to the few items on which Singapore assesses customs duties, and will provide phased-in duty-free entry into the United States for Singapore's exports. It contains groundbreaking provisions on transparency in the area of customs procedures and in the broader government-wide regulatory and rule-making process that will promote efficiency and increase fairness, particularly for small businesses. The agreement's investment provisions establish a secure and predictable legal framework for U.S. investors in Singapore. The agreement will provide substantial liberalization in Singapore's services markets, lock in existing commitments on telecommunications and expand access for U.S. financial services providers. The agreement liberalizes access for professional services and distribution services as well.

The FTA is an agreement for the modern economies that Singapore and the United States are developing. As Ambassador Zoellick observed, services are a key feature of a new economy: "Given the fact that both our economies are significant services economies, we think we've broken significant new ground." Trade and investment based on special skills and knowledge form another key element of that new economy, and of the FTA: inventors, performers, authors, and creative enterprises in both countries will benefit from enhanced protection for their intellectual property. The FTA includes state-of-the-art provisions on trade in digital products and electronic commerce and creates incentives for high-tech investment. The agreement provides open and nondiscriminatory treatment for products transmitted electronically.

The FTA also provides a model for addressing issues such as investment and trade-related labor and environment issues and advances environmental protection and worker rights in a credible and responsible manner. Pursuant to this agreement, the United States and Singapore will cooperate bilaterally and regionally to promote environmental protection and the sustainable

use of natural resources; and they will work together to protect the environment in concert with strengthening trade and investment relations.

NEW MARKET OPPORTUNITIES

Tariff Elimination

Although the United States already enjoys duty-free access for almost all products entering Singapore's market, Singapore has committed to eliminating all outstanding tariffs on U.S. products (including beer and other alcohol), as well as binding them at zero percent. Since Singapore's market is mostly duty-free, it was essential to improve market access to Singapore's service sectors and ensure that any non-tariff barriers, such as lack of transparency, anti-competitive behavior, and protectionism do not hinder market access for U.S. exports. For Singapore products entering the U.S. market, duties are phased-out at different stages, with the least sensitive products entering duty-free upon entry into force of the FTA and tariffs on the most sensitive products phased-out over a ten-year period. U.S. affiliates operating in Singapore that depend on cross-border trade in goods will also benefit from the elimination of U.S. tariffs, immediate or in the future. U.S. consumers will also see the benefits of free trade reflected in lower prices for a variety of products, as a reduction in tariffs and increased economies of scale allow manufacturers to cut costs.

Increased Access to Singapore's Services Markets

The United States is today the world's premier producer and exporter of services. Defined broadly, the service sector is by far the largest component of the U.S. economy and accounted for a record 95 million jobs in 2001. Services trade and investment are also critical components of U.S. commerce: U.S. commercial services exports of \$276 billion in 2002 accounted for 28 percent of total U.S. exports for the year, for example, and offset 12 percent of the 2002 U.S. trade deficit in goods. The importance of services trade extends beyond simple trade and investment levels, however: services trade helps to create deeper and more dynamic economic ties between nations and their peoples, for example, as well as expanding the gains from trade and investment in other sectors. The FTA provisions affecting U.S. services providers are thus an essential part of the agreement, adding significant, tangible commercial benefits for U.S. firms and workers in some of the most dynamic areas of economic expansion, trade, and investment.

Today, Singapore offers U.S. services exporters and investors some of their most significant regional opportunities for expanded sales. In 2001, Singapore purchased over \$4 billion in U.S. services, which in recent years have accounted for a stable 20-22 percent of Singapore's total services imports. The FTA's provisions guarantee that U.S. services providers will not be disadvantaged by any future agreements that Singapore may reach with its other trade partners, while at the same time creating substantial new opportunities for U.S. firms to expand their presence in Singapore through exports or investment: in 2000 (the most recent year for data

on sales of services via foreign branches), U.S. firms' combined sales of services in Singapore via exports and local subsidiaries nearly topped the \$10 billion mark.

In recognition of the service sector's dynamic role in the U.S. and Singapore economies, the FTA reflects a different approach to undertaking services commitments than the WTO's General Agreement on Trade in Services, or GATS. The FTA uses a "negative list" approach, which has the potential to provide much greater liberalization and access in many services, particularly in sectors characterized by rapid innovation and development. Notably, this approach to services trade negotiations enjoys strong support from U.S. services industries. The FTA also affords state-of-the-art commercial benefits important to U.S. services firms through other provisions relating to investment and transparency, both discussed below.

Financial Services

Some of the key market access commitments for U.S. businesses are found in Singapore's financial services sectors, such as banking and insurance, which will enjoy significant commercial gains. Eighteen months after the FTA takes effect, Singapore will lift its ban on new licenses for U.S.-owned full-service banks to operate in Singapore. Singapore will remove its ban on licenses for U.S. banks that provide only "wholesale" (*i.e.*, large-scale) operations within three years. Once the FTA takes effect, U.S. full-service banks will have authority to open 30 "customer service locations" (branch offices or ATM locations) in Singapore, double the number currently allowed. The FTA will require Singapore to entirely eliminate its cap on customer service locations for qualifying U.S. banks in two years.

In addition, locally incorporated, full service U.S. banks will have authority to negotiate access to Singapore's locally-owned ATM networks within 2-1/2 years after the agreement takes effect. All other full-service U.S. banks will have similar rights after four years. This provision of the FTA will allow qualifying U.S. banks to negotiate contracts with local ATM network owners, which could enable their banking customers to use hundreds of existing ATMs in Singapore. Currently, foreign-owned banks are precluded from participating in Singapore's locally-owned ATM networks.

The FTA will also ensure that when U.S. investment firms establish mutual funds in Singapore they can use personnel based in the United States to manage the securities included in those funds. The FTA also commits Singapore to relax its local staffing rules for U.S. asset management and insurance companies that seek to market their investment products under Singapore's mandatory national savings scheme, the Central Provident Fund.

The FTA locks in Singapore's generally open regime for insurance that U.S. firms provide to customers in Singapore through subsidiary or branch offices located there, including life and non-life insurance, reinsurance, insurance intermediation, and insurance auxiliary services. The FTA will provide significant new rights that will allow U.S. insurance companies to provide from the United States to customers in Singapore marine, aviation, and transport

insurance ("MAT insurance"), intermediation of reinsurance and MAT insurance, and insurance auxiliary services. The agreement also ensures that U.S. firms will continue to be able to provide Singapore customers reinsurance services from the United States. The FTA also includes an innovative provision that will allow licensed U.S. insurers to provide new insurance products to their business customers in Singapore without prior regulatory approval.

Professional Services

The FTA requires Singapore to ease restrictions on U.S. law firms that seek to form joint law practices in Singapore, and to recognize degrees earned from certain U.S. law schools for admission to the Singapore bar. U.S. engineering and architecture firms seeking to establish offices in Singapore will benefit from Singapore's commitment to require that only 51% of the directors of these firms must be professionally accredited in Singapore. Currently, two-thirds of board members must be accredited there. The FTA will require Singapore to entirely eliminate local ownership requirements for U.S. land surveying firms by 2004.

Telecommunications

U.S. telecom service providers will experience notable benefits under the agreement. In the telecom sector, Singapore's WTO commitment includes a closed list of services and only three basic telecom operators. Under the FTA, the scope of services and number of operators is unlimited. U.S. services firms will enjoy more transparent and non-discriminatory treatment and the right to invest and establish a local presence. Regulatory authorities must use open and transparent administrative procedures, consult with interested parties before issuing regulations, provide advance notice and comment periods for proposed rules, and publish all regulations. Issues such as nondiscriminatory access to networks, transparent rule making by an independent regulator, and adherence to the principles of deregulation and operator choice of technology are addressed in a way that opens Singapore's market, while recognizing the United States' and Singapore's respective right to regulate these sectors.

Express Delivery Services

The FTA includes benefits for U.S. providers of express delivery services and other related services that are part of an integrated express delivery system. In addition to containing important provisions to facilitate customs clearance, which are critical to the efficient operation of express carriers, the FTA carves out express delivery services from Singapore's postal delivery monopoly and prohibits Singapore's postal service from cross-subsidizing express letters.

Temporary Entry of Persons

U.S. businesses face complex, cumbersome and time-consuming requirements to obtain work permits and visas for their workers on short-term assignments to company facilities,

projects or assignments in other countries. In some cases it can take months to obtain the necessary authorizations, thus seriously hampering the ability to perform the necessary work in a timely fashion. The temporary entry provisions address this significant problem. They will greatly facilitate the expanded business travel and economic activity the agreement's implementation will bring about.

The U.S. and Singaporean governments provide for temporary entry of business persons who conduct trade and investment in the two countries. The provisions included in the chapter are intended to allow for the movement of personnel necessary to conduct the business activities permitted under the agreement. Key beneficiaries of temporary entry provisions are:

- after-sales service providers - it is critically important that U.S. manufacturers be able to offer rapid service and warranty repair as well as training on equipment they provide, particularly high-value machinery.
- sales representatives/agents, buyers, market researchers and financial service personnel- such individuals involved in commercial transactions on behalf of companies in the United States have to be able to travel to do their jobs.
- company executives and managerial personnel - a Board Chairman attending meetings in Singapore, a manager engaging in commercial transactions for his or her company, or an intra-company transferee may be able to use the temporary entry provisions.
- professionals: temporary entry provisions allow qualified individuals to enter to provide services covered by the U.S.- Singapore FTA services provisions. The professional will still have to meet any applicable licensing or certification requirements.

WORLD-CLASS PROTECTION FOR INTELLECTUAL PROPERTY

The U.S. competitive edge in many industries depends on strong intellectual property rights (IPR) protection. With better legal tools for enforcing IPRs in Singapore, the FTA could save U.S. companies millions of dollars in lost revenue. Almost every U.S. firm has a patent, a trademark, or a copyrighted computer program, publication, or audio-visual work that is fundamental to its business. Under the U.S. Singapore FTA, all of these forms of intellectual property will be provided world-class standards for protection.

Singapore's commitment to enhance intellectual property protection will also apply in the realm of the Internet, where small and medium sized companies are making phenomenal marketing strides. The FTA provides strong protection for new and emerging technologies and reflects standards of protection similar to those in U.S. laws, thus enhancing the ability of U.S. IPR owners to protect their rights in Singapore. FTA provisions are based on the standards in the WIPO Internet treaties and provisions of the Digital Millennium Copyright Act, which are key for effective implementation and protection of copyrights over the Internet. The FTA also

bolsters domestic procedures for enforcing IPR, including a requirement that Singapore provide criminal penalties for end-user piracy. The agreement also obligates Singapore to adopt measures that prohibit the tampering of technology designed to prevent copyright piracy. The FTA also requires the Parties to extend the minimum term of copyright protection from 50 to 70 years.

The agreement provides for Singapore to recognize U.S. geographical indications as types of trademarks. The FTA commits Singapore to make patent rights available, with certain exceptions, for inventions and provides for extension of the patent term if there are unreasonable delays in issuing the patent or granting regulatory approval for marketing the patented product. The agreement requires Singapore to enable patent owners to prevent unauthorized imports of their patented pharmaceutical products if a contract is breached. The FTA will also require Singapore to protect against unauthorized disclosure or unfair commercial use of test data and other information that pharmaceutical and agricultural chemical companies submit to government regulators in order to secure regulatory approval for their patented products. Under the agreement, Singapore will protect for five years product information generated in connection with pharmaceutical product approvals and will protect similar information for agricultural chemicals for 10 years.

AN AGREEMENT FOR THE DIGITAL AGE

The agreement breaks new ground on issues regarding electronic commerce by establishing for the first time explicit guarantees that the principle of non-discrimination will be applied to digital products delivered electronically (*e.g.*, software, music, videos). It also underscores the principle of avoiding barriers that impede the use of electronic commerce and affirms that service disciplines cover all services delivered electronically. This chapter also prohibits application of tariffs to digital products delivered electronically and where these products are stored on physical media, *e.g.*, on a CD or DVD, tariffs will be assessed on the value of media rather than the content, *i.e.*, the movie or software. This chapter serves as an important model for future free trade agreements by recognizing the importance barrier-free electronic commerce.

A NEW LEVEL OF TRANSPARENCY

Enhanced transparency is another important feature of this FTA that is critical for U.S. exporters and business persons. Smooth and transparent access to Singapore's market is paramount to the welfare and growth of small and medium enterprises (SMEs). Many of the FTA's chapters contain specific provisions to ensure regulatory transparency, *e.g.*, in the chapters on services, financial services, competition, government procurement, customs administration, investment, telecommunications, and dispute settlement. Transparency in regulatory processes is absolutely essential for service industries, because they generally are the most highly regulated. Without a high standard of transparency, the benefits of any trade agreement can be lost in non-transparent and confusing government regulations.

The FTA calls for greater cooperation in the areas of technical regulations, standards, and conformity assessment procedures to avoid an increasingly complex and growing array of technical barriers to trade that hinder U.S. companies from taking advantage of open markets. Although U.S. companies rarely confront transparency problems in Singapore, it is critical to recognize the importance of transparency in all free trade agreements. Improved transparency is an effective deterrent to combat corrupt business practices and provides a fair playing field for U.S. businesses. In addition, the United States and Singapore expressly affirm in the FTA their strong commitments to effective measures against bribery and corruption in international business transactions.

The competition chapter of the FTA is critical for ensuring that SMEs receive equal opportunities to compete in the open market. While Singapore has welcomed foreign investment and treated it fairly since independence, the government has also played a far-reaching role in the economy through investments in state-owned enterprises, known in Singapore as government-linked companies (GLCs). The FTA commits the Singapore Government to divest its interest in most of these GLCs, over time and depending on market condition. The FTA also contains certain protections for U.S. firms relating to sales to, and purchases from, these companies. In particular, the FTA ensures that GLCs, in which the Government of Singapore could have effective influence, act in accordance with commercial considerations and do not discriminate against U.S. goods, services and investments and do not engage in anti-competitive practices. Finally, the FTA commits Singapore to enact a new law by January 2005 that will proscribe anti-competitive business conduct and establish an authority to enforce such laws.

INNOVATIVE CUSTOMS INITIATIVES

The FTA contains specific, concrete obligations on customs procedures. It will facilitate customs processing of goods, which will benefit the many U.S. companies that incur significant additional costs due to inefficient customs procedures in export markets. Singapore has committed: to providing administrative and judicial review of customs decisions; to employing risk-management systems to facilitate the movement of low-risk goods; to providing for the release of goods within a period of time no greater than that required to ensure compliance with its customs laws and, to the extent possible, to allowing goods to be released within 48 hours of arrival; and, to the extent possible, to make all new and amended customs regulations available for public comment prior to promulgation. These commitments will facilitate trade and ensure the highest level of transparency possible for U.S. exporters.

The FTA contains a number of provisions to ensure that the United States and Singapore are the actual beneficiaries of the tariff treatment provided under the agreement. First, the FTA uses strong but simple rules of origin designed to ensure that it is U.S. and Singaporean firms that benefit from the FTA, and that Singapore does not become an indirect export platform to the United States for components originating in nearby Asian countries, countries which impose high tariffs on U.S.-origin goods. Second, the chapter on customs administration improves the exchange of customs information between United States and Singapore authorities, which is also

critical to modern risk management practices. Third, the FTA requires the Parties to provide for civil or administrative penalties and, where appropriate, criminal penalties, for violations of customs laws and regulations governing classification, valuation, country of origin, and eligibility for preferential treatment under the FTA. These provisions will enable U.S. and Singapore customs to combat illegal transshipments of goods, including on products that violate intellectual property rights -- such as pirated compact discs.

The FTA customs provisions are designed to protect the U.S. textile and apparel industry by preventing circumvention and encouraging the use of U.S. fabric. The FTA includes specific rules on monitoring Singapore's production of textiles and apparel, as well as extensive anti-circumvention commitments in areas such as customs cooperation and enforcement. These provisions are designed to ensure that only FTA textiles and apparel receive tariff preferences and that U.S. textile quotas are not circumvented. Singapore is required to penalize companies engaged in such circumvention and to report on such actions to the United States. U.S. authorities are allowed to conduct site visits in Singapore and to deny entry to textile and apparel goods from factories that are circumventing the agreement. The FTA also provides for a textile-specific safeguard to allow the Parties to address damaging imports. In addition, the FTA's yarn-forward rule will promote the U.S. textile industry by providing a strong incentive for apparel companies in the United States and Singapore to use U.S. fabric whenever possible. It could also provide new export opportunities for U.S. manufacturers of fibers, yarn, and fabric.

ENHANCED ENVIRONMENT FOR INVESTMENT

U.S. foreign direct investment in Singapore as of 2001 was more than \$27 billion. Although Singapore has an open investment climate, the FTA provides important protection for U.S. investors. This agreement ensures a secure and predictable legal framework for such investment, including direct ownership of companies, real estate, intellectual property rights, concessions, permits, and debt instruments. Except for certain specified exceptions, the FTA assures U.S. investors opportunities to establish, acquire and operate investments in Singapore on the same basis as Singaporean investors or any other foreign investor. Other rights guaranteed to U.S. investors under the FTA include protections related to expropriation and due process that are consistent with U.S. legal principles and practice, protection against certain performance-related restrictions and requirements, and the right to make international transfers related to an investment. These investor rights are backed by effective and impartial procedures for dispute settlement. The dispute settlement procedures include increased transparency and accountability.

TRANSPARENCY AND DISPUTE SETTLEMENT

The FTA includes extensive transparency commitments in general rule-making and in specific chapters of the agreement. These provisions are set out in a specific chapter of the agreement dealing with regulatory transparency as well as in provisions of the agreement addressing services, competition, government procurement, customs administration, investment, telecommunications, and dispute settlement.

The FTA includes innovative procedures for settling disputes that may arise between the two governments over the implementation of the agreement. The agreement's dispute procedures rely principally on consultations and compliance rather than on the imposition of trade sanctions or penalties. The procedures set new, higher standards of openness and transparency. The FTA calls for dispute settlement proceedings to be open to the public, for the two governments to release their legal briefs and other filings to the public, and for dispute panels to have authority to receive submissions from interested nongovernmental groups.

The FTA's dispute settlement rules also provide equivalent remedies to enforce panel decisions under the agreement, regardless of whether they address the agreement's commercial, labor, or environmental provisions. The FTA achieves this result through an innovative enforcement mechanism that provides for the use of monetary assessments if a government fails to comply with a panel's decision. Enforcement through the suspension of trade benefits provided under the agreement is also available for all types of disputes. The agreement is designed to use remedies that will enhance compliance with the agreement, rather than restrict trade, which could adversely affect sectors and consumers that do not have a direct stake in the dispute.

LABOR AND THE ENVIRONMENT

Free trade promotes free markets, economic growth, expanded employment opportunities, and higher incomes. As countries grow wealthier, their citizens demand better working conditions and a cleaner environment. Economic growth gives governments more resources and incentives to promote and enforce strong standards in these areas. In the FTA, Singapore and the United States reaffirm their obligations as members of the ILO and will strive to ensure that their domestic laws provide for labor standards that are consistent with internationally recognized labor rights as described in the agreement. The agreement makes clear that it is inappropriate to waive or derogate from domestic labor laws in a manner that weakens or reduces adherence to internationally recognized labor rights as an encouragement for trade or investment with the other Party. A key element of the agreement's labor provisions, which is enforceable through the agreement's dispute settlement procedure, is a commitment by each government regarding the effective enforcement of its domestic labor laws. The agreement also commits Singapore and the United States to cooperate on labor issues and activities.

Environmental commitments are also included in the core text of the FTA. The Agreement includes an enforceable commitment by each government regarding the effective enforcement of its environmental laws. The agreement also commits Singapore and the United States to ensure that their domestic environmental laws provide for high levels of environmental protection and to strive to continue to improve these laws. Through the agreement, Singapore and the United States expressly recognize that it is inappropriate to waive or derogate from their environmental laws in a manner that weakens or reduces protections under those laws in order to seek investment or encourage trade with the other country. In addition, the United States and Singapore will establish, pursuant to a "memorandum of intent" negotiated in parallel with the

FTA, a mechanism for developing a joint environmental work plan. This work plan will in turn enhance and create demand for U.S. environmental goods and services.

CONCLUSION

The U.S.-Singapore FTA will economically benefit the United States in numerous ways. It will increase U.S. exports, generate higher paying jobs, improve U.S. competitiveness around the globe, secure a U.S. presence in Southeast Asia, and provide a standard of free trade that encourages a high level of liberalization.

Doing business in Singapore will now be easier, faster, cheaper, and more transparent. The FTA will give U.S. businesses and exporters even more access to Singapore's market, which is a gateway for tapping into one of the world's biggest markets, Southeast Asia. Without the FTA, U.S. businesses will be at a disadvantage as Singapore concludes FTAs with its other trading partners. The FTA will anchor the U.S. economically in a growing, vibrant region, where many opportunities are to be found.

The economic advantages of the FTA are numerous and the opportunity to align our economies with one another should not be missed. Equally important is the political partnership that will be further solidified with a free trade agreement. Singapore's friendship and cooperation are reliable and valuable resources. Clearly, a free trade agreement with Singapore serves our national interest.

U.S.-Singapore Free Trade Agreement ***America's First FTA in the Asia-Pacific Region***

The Free Trade Agreement (FTA) between the United States and the Republic of Singapore will advance the economic interests of the United States and its workers, farmers, consumers and businesses. The agreement is America's first FTA with an Asian-Pacific nation and is the first FTA to be signed since the Congress renewed Trade Promotion Authority in August 2002. It achieves the overall and principal U.S. negotiating objectives that the Congress set out in the Trade Act of 2002, and contains state-of-the-art provisions in areas such as services, intellectual property rights, electronic-commerce, trade facilitation, dispute settlement, and labor and environmental protections. Negotiated over two-and-one-half years, the Agreement contains 21 chapters and is one of the most comprehensive trade agreements that the United States has ever concluded. The Administration believes the FTA could serve as a useful benchmark for future free trade agreements with other advanced economies in the Asia/Pacific region.

Singapore: A Dynamic Market and Strong Partner

Singapore is America's 8th largest export market and 12th largest source of imports (counting the European Union as a single entity), with two-way goods and services trade of nearly \$40 billion. U.S. investment in Singapore is approximately \$27 billion, accounting for more than half of total U.S. manufacturing investment in all of Southeast Asia. Singapore is an outstanding trade and commercial partner and one of the most efficient and open economies in the world. The Administration is confident that the FTA will strengthen an already close commercial relationship with Singapore and will enhance U.S. and Singaporean cooperation in advancing multilateral trade talks in the World Trade Organization (WTO).

A State-of-the-Art Free Trade Agreement

The FTA is a comprehensive and commercially significant agreement. It will substantially improve market access in Singapore for American services providers. It will also lock in favorable treatment for U.S. industrial goods, protect important U.S. intellectual property rights, provide non-discriminatory access to Singapore's government procurement contracts, make regulatory procedures open and transparent, and provide high levels of protection for U.S. investors. The Singapore FTA is an integral part of the Administration's larger strategy for global, regional, and bilateral trade and investment liberalization initiatives.

The United States is currently the largest exporter to Singapore. But without a FTA, the United States could lose competitive opportunities to other suppliers, especially in services trade. Singapore has concluded FTAs with Australia, the European Free Trade Area, Japan, and New Zealand, and is a member of the ASEAN Free Trade Agreement. Singapore is currently working on FTAs with Canada, India and Korea and is included in the ASEAN-China FTA negotiations. American workers and businesses would be at a commercial disadvantage without a similar agreement between the United States and Singapore.

The agreement also helps fulfill a priority of Congress and the Bush Administration by aiding small and mid-sized enterprises (SMEs) that wish to do business with Singapore. The Singapore agreement includes numerous provisions that will reduce non-tariff and other trade barriers of particular concern to small business. For example, the agreement largely eliminates physical presence and local investment requirements; increases the simplicity and transparency of customs and government procurement procedures; facilitates electronic commerce and entry into the services trade; and establishes procedures to address technical barriers to trade.

Major Provisions of the Agreement - Market Access for Services

Singapore is one of the world's most sophisticated services economies, and a services hub for the fast-growing Southeast Asian region. The U.S.-Singapore FTA will accord substantial market access to U.S. firms across the entire spectrum of services, subject to very few exceptions. The FTA uses a so-called "negative list" approach, in which all service sectors are liberalized unless a specific reservation is taken in the Agreement. This technique, which we successfully used in the NAFTA, provides for maximum liberalization of services markets.

Singapore will treat U.S. services suppliers as well as its own suppliers or other foreign suppliers, and U.S. services firms will enjoy fair and non-discriminatory treatment. Such non-discrimination will be achieved through strong disciplines on both cross-border supply of services (such as those delivered electronically, or through the travel of services professionals across borders) as well as the right to invest and establish a local services presence.

Importantly, services market access is supplemented in this FTA by strong and detailed disciplines on regulatory transparency. U.S. services suppliers have found that market access commitments may be less meaningful without parallel commitments by trading partners to regulatory transparency. Under the FTA, Singaporean services regulators must use open and transparent administrative procedures, consult with interested parties before issuing regulations, provide advance notice and comment periods for proposed rules, and publish all regulations.

New market access commitments apply across a broad range of sectors, including, but not limited to, banking, insurance, securities and related services; computer and related services; direct selling; telecommunications services; audiovisual services; construction and engineering; tourism; advertising; express delivery; professional services (architects, engineers, accountants, etc.); distribution services, such as wholesaling, retailing and franchising; adult education and training services; environmental services; and energy services. U.S. firms also have the ability to own equity stakes in entities that may be created if Singapore chooses to privatize certain government-owned services.

Some achievements of the FTA in certain services sectors are highlighted below.

Banking: The financial services chapter includes core obligations of non-discrimination, most-favored nation treatment, and additional market access obligations. Singapore's current ban on new licenses for full-service banks will be lifted within 18 months, and lifted within three years for "wholesale" banks that serve only large transactions.

Licensed full-service banks will be able to offer all their services in Singapore at up to 30 locations in the first year that the agreement is in effect, and at an unlimited number of locations within two years. Locally incorporated subsidiaries of U.S. banks can apply for access to the local Automated Teller Machine (ATM) network within two-and-a-half years, and branches of U.S. banks get access to the ATM network in four years.

Insurance: Under the FTA, U.S. insurance firms will be able to establish subsidiaries, branches or joint ventures. Singapore is expanding the cross-border insurance services it allows, and U.S. firms will be able to sell marine, aviation and transport (MAT) insurance, reinsurance, to provide insurance brokerage of reinsurance and MAT insurance, and to provide insurance auxiliary services. A new principle of expedited availability of insurance services in the FTA means that prior regulatory product approval will not be required for all insurance products other than life insurance, Central Provident Fund related products, and investment-linked products sold to the business community. Expedited procedures will be available in other cases when prior product approval is necessary. The FTA specifies that U.S. financial institutions may offer financial services to citizens participating in Singapore's privatized social security system under more liberal requirements.

Securities and Related Financial Services: The FTA specifies that U.S. firms may provide asset/portfolio management and securities services in Singapore through the establishment of a local office, or by acquisition of local firms. In addition, U.S. firms may supply pension services under Singapore's privatized social security system, with liberalized requirements regarding the number of portfolio managers that must be located in Singapore. And U.S.-based firms may sell portfolio management services via a related institution in Singapore. Under the FTA, Singapore will treat U.S. firms the same as local firms for the cross-border supply of financial information, advisory and data processing services.

Express Delivery Services: The FTA contains important provisions relating to express delivery services. It provides for liberalization of express delivery services and other related services (that are part of an integrated express delivery system) that will allow a more efficient and expedited express delivery business in Singapore. Singapore also commits that it will not allow its postal service to cross-subsidize express letters in an anti-competitive manner with revenues from its monopoly services.

Professional Services: The FTA specifies that Singapore will ease restrictions on U.S. firms creating joint law ventures to practice in Singapore, and will recognize degrees earned from certain U.S. law schools for admission to the Singapore bar. Singapore will reduce onerous requirements on the make-up of boards of directors for architectural and engineering firms. And capital ownership requirements for land surveying services will be eliminated. In addition, the FTA liberalizes the requirements for registration and certification of patent agents. Provisions of the FTA also call for cooperation in developing standards and criteria for licensing and certification of other professional services providers.

Telecommunications: The FTA contains a full range of market access commitments on telecommunications services, consistent with the regulatory regimes of the U.S. and Singapore. For example, users of the public telecommunications network are guaranteed reasonable and non-discriminatory access to the network. This prevents local firms from having preferential or a first right of access to telecommunications networks. The FTA also provides U.S. phone companies with the right to interconnect with networks in Singapore in a timely fashion, on terms, conditions, and cost-oriented rates that are transparent and reasonable. And the FTA grants U.S. firms seeking to build a physical network in Singapore non-discriminatory access to buildings that contain telephone switches and submarine cable heads. U.S. firms will be able to lease lines on non-discriminatory terms and to re-sell telecom services of Singaporean suppliers to build a customer base. Importantly, the FTA includes transparency requirements for the rule-making procedures of Singapore's telecom regulatory authority, and requires publication of inter-connections agreements and service rates. Singapore commits that when competition emerges in a telecom sector, that area will be deregulated. The agreement also specifies that companies, not governments, will make technology choices, particularly for mobile wireless services, thus allowing firms to compete on the basis of technology and innovation, not on government-mandated standards.

Trade in Goods and Agriculture: Tariffs Eliminated

Most U.S. tariffs on Singaporean goods will be eliminated immediately upon entry into force of the Agreement, with remaining tariffs phased out over 3-10 years. Singapore guarantees zero tariffs immediately on all U.S. products.

Textiles and apparel will be duty-free immediately if they meet the Agreement's "yarn-forward" rule of origin, which will promote new opportunities for U.S. and Singaporean fiber, yarn, fabric and apparel manufacturing industries. A limited yearly amount of textiles and apparel containing non-US or non-Singaporean yarns, fibers or fabrics may also qualify for duty-free treatment.

Extensive monitoring and anti-circumvention commitments—such as reporting, licensing, and unannounced factory checks—will ensure that only Singaporean textiles and apparel receive tariff preferences under the Agreement.

Electronic Commerce: Free Trade in the Digital Age

No previous U.S. free trade agreement contains such cutting-edge provisions on digital trade as the proposed FTA with Singapore. The U.S. and Singapore agreed to provisions on electronic commerce that reflect the issue's importance in global trade, and the principle of avoiding barriers that impede the use of electronic commerce.

For example, the Agreement establishes explicit guarantees that the principle of non-discrimination applies to digital products delivered electronically, such as software, music, images, videos, or text. This will provide fair treatment and protection to U.S. firms that deliver such digital products via the Internet. The FTA also establishes a binding prohibition on customs duties charged on digital products delivered electronically. For digital products delivered on hard media (such as a DVD or a CD-ROM), customs duties will be based on the value of the media (e.g., the disc), not on the value of the movie, music or software contained on the disc.

The FTA also affirms that any commitments made related to services also extend to the electronic delivery of such services, such as financial services delivered over the Internet. This sets a very good precedent for U.S. services liberalization efforts in the WTO and in other FTAs.

Investment: Important Protections for U.S. Investors

The Agreement will improve the bilateral investment climate and provide important protections for investors, and is also consistent with the objectives regarding investor-state dispute settlement in the Trade Act. Given the large stock of U.S. investment in Singapore, the protections of the FTA are extremely important and provide assurances for the future growth of two-way investment.

The FTA will provide a secure, predictable legal framework for U.S. investors operating in Singapore. All forms of investment are protected under the Agreement. The Agreement guarantees U.S. investors treatment no less favorable than Singaporean investors or any other foreign investor, except in certain sectors that are specifically exempted. This so-called "negative list" approach is the most comprehensive way to protect the interests of U.S. investors in Singapore.

Among the rights afforded to U.S. investors under the Agreement are the right to make international transfers related to an investment, protections related to expropriation and due process that are consistent with U.S. law, and freedom from certain performance-related restrictions and requirements.

The investor protections are backed by an effective, impartial procedure for dispute settlement that is fully transparent. Submissions to arbitral panels and arbitral hearings will be open to the public, and interested parties will have the opportunity to submit their views.

Intellectual Property Rights (IPR): Setting New High Standards

The U.S.-Singapore FTA provides for a very high level of IPR protection, including state-of-the-art protections for trademarks and digital copyrights, as well as expanded protection for patents and undisclosed information. These are supported by tough penalties for piracy and counterfeiting, including procedures for seizure and destruction of counterfeit products, the equipment used to produce counterfeit products, and the establishment of statutory and actual

damages for violations. Singapore will accede to international Internet treaties, extend the term of protection for copyrighted works, and maintain criminal penalties for circumvention of technology protection measures and for trade in counterfeit goods.

The rising global level of trade in counterfeit goods calls for strong provisions to combat such illegal trade. The FTA gives effect to the trademark law treaty and the joint recommendation on protection of well-known marks, ensuring that all trademarks can be registered in Singapore and that licensees will no longer have to register their trademark licenses to assert their rights in a trademark. More specific information on the Agreement's IPR provisions is below.

Trademarks: The FTA ensures government involvement in resolving disputes between trademarks and Internet domain names, which is important to prevent "cyber-squatting" of trademarked domain names. It applies the important principle of "first-in-time, first-in-right" to trademarks and geographical indicators (place-names) applied to products. This means that the first to file for a trademark is granted the first right to use that name, phrase or geographical place-name. Furthermore, the FTA streamlines the trademark filing process by allowing applicants to use their own national patent/trademark offices for filing trademark applications.

Copyrights: The FTA contains provisions designed to ensure that only authors and other copyright owners have the right to make their works available online. Copyright owners maintain rights to temporary copies of their works on computers, which is important in protecting music, videos, software and text from widespread unauthorized sharing via the Internet. The FTA provides that copyrighted works and phonograms are protected for extended terms, consistent with U.S. standards and international trends. And strong anti-circumvention provisions will help to limit tampering with technologies (like embedded codes on discs) that are designed to prevent piracy and unauthorized distribution over the Internet.

The FTA requires that governments only use legitimate computer software, thus setting a positive example for private users. Singapore agrees to prohibit the production of optical discs (CDs, DVDs or software) without a source identification code, unless the copyright holder authorizes (in writing) such production. And the agreement provides for protection for encrypted program-carrying satellite signals as well as the programming, thus preventing piracy of satellite television programming.

The FTA provides for limited liability for Internet Service Providers (ISPs), reflecting the balance struck in the U.S. Digital Millennium Copyright Act between legitimate ISP activity and the infringement of copyrights.

Patents & Undisclosed Information: Under the provisions of the FTA, a patent term can be extended to compensate for up-front administrative or regulatory delays in granting the original patent, consistent with U.S. practice. The grounds for revoking a patent in Singapore are limited to the same grounds required to originally refuse a patent,

thus protecting against arbitrary revocation. The FTA provides new protections for patents covering biotech plants and animals, and it protects against imports of pharmaceutical products without patent-holder's consent by allowing lawsuits when contracts are breached. Test data and other information submitted to a government for the purpose of product approval will be protected against disclosure or unfair commercial use for a period of 5 years for pharmaceuticals and 10 years for agricultural chemicals. Finally, the FTA contains provisions designed to ensure that government marketing-approval agencies will not grant approval to products that infringe patents.

IPR Enforcement: Singapore has agreed to establish criminal penalties for companies that make pirated copies from legitimate products, and the Singaporean government guarantees in the FTA that it has authority to seize, forfeit and destroy counterfeit and pirated goods and the equipment used to produce them. Under the FTA, IPR laws will be enforced against traded goods, including trans-shipments, to deter violators from using U.S. or Singaporean ports or free-trade zones to traffic in pirated products. Enforcement officials may act on their own authority in border and criminal IPR cases without waiting for the filing of a formal complaint, thus providing more effective enforcement.

The agreement mandates both statutory and actual damages under Singaporean law for IPR violations. This serves as a deterrent against piracy, and provides that monetary damages can be awarded even if actual economic harm (retail value, profits made by violators) cannot be determined.

Competition Policy: Protection Against Anticompetitive Business Conduct, Designated Monopolies and Government Enterprises

The FTA contains provisions to protect U.S. firms against possible anti-competitive behavior. Singapore commits to enact laws proscribing anti-competitive conduct and to create a competition authority commission by January 2005.

Especially important in the case of Singapore is the commitment that Government-Linked-Corporations (GLCs) will operate on a commercial and nondiscriminatory basis. As GLCs account for a significant percentage of Singapore's economic activity, it was important for the U.S. to secure this non-discrimination commitment, and to back it up through dispute settlement provisions. Singapore also agrees to provide annual information on government enterprises with substantial revenues or assets.

Government Procurement: Strong Disciplines

Both Singapore and the United States are members of the WTO Agreement on Government Procurement, but the U.S.-Singapore FTA goes beyond existing WTO obligations. For example, the FTA lowers the monetary thresholds for coverage under government procurement commitments, thereby increasing the number of contracts on which U.S. firms may bid in a manner that is covered by transparent procurement disciplines. In addition, under the FTA Singapore broadens its commitments to non-discrimination in government services

procurements and reinforces its WTO commitments to strong and transparent disciplines on procurement procedures.

As in the services and investment provisions of the Agreement, the government procurement chapter uses a "negative list" approach in which U.S. firms gain nondiscriminatory access unless a sector is specifically excluded in the Agreement.

Customs Procedures and Rules of Origin: Ground-Breaking Provisions

The U.S.-Singapore FTA is one of the first U.S. trade agreements with specific, concrete obligations on how customs procedures are to be applied. Specifically, the Agreement requires transparency and efficiency in customs administration, with commitments on publishing laws and regulations on the Internet, and ensuring procedural certainty and fairness. The Agreement also seeks to facilitate the clearance of express delivery shipments through customs.

Under the FTA, both Parties agree to share information to combat illegal trans-shipment of goods. In addition, the Agreement contains specific language designed to facilitate the clearance through customs of express delivery shipments. Strong but simple rules of origin will ensure that only U.S. and Singaporean goods benefit from the Agreement.

Temporary Entry of Personnel

The Agreement contains provisions for the temporary entry of business visitors, including intra-company transferees and professionals. The Administration believes that the temporary entry provisions strike a careful balance between the needs of the U.S. service industry to provide competitive services while preserving the right of Congress to legislate on immigration policy. Under these provisions, a professional visa category would be established.

Environmental Provisions: Cooperation to Protect the Environment

The FTA fully meets the environmental objectives set out by Congress in TPA. Significantly, environmental obligations are part of the core text of the trade agreement. Both parties commit to ensure that their domestic environmental laws provide for high levels of environmental protection and shall strive to continue to improve such laws. The agreement's text makes clear that it is inappropriate to weaken or reduce domestic environmental protections to encourage trade or investment. A related agreement on environmental cooperation will enhance demand for environmental goods and services.

Reflecting the bipartisan compromise struck in the Trade Act, the FTA requires that Parties shall effectively enforce their own domestic environmental laws, and this obligation is enforceable through the Agreement's dispute settlement procedures.

Labor Provisions: Promotion of Worker Rights

Significantly, labor obligations are part of the core text of the trade agreement. Both parties reaffirm their obligations as members of the International Labor Organization (ILO), and shall strive to ensure that their domestic laws provide for labor standards that are consistent with internationally recognized labor principles. The Agreement makes clear that it is inappropriate to weaken or reduce domestic labor protections to encourage trade or investment.

Reflecting the bipartisan compromise struck in the Trade Act, the Agreement requires that Parties shall effectively enforce their own domestic labor laws, and this obligation is enforceable through the Agreement's dispute settlement procedures.

Dispute Settlement: Innovative New Tools

All core obligations of the Agreement, including labor and environmental provisions, are subject to the dispute settlement provisions of the Agreement. The procedures for dispute panel procedures set new and higher standards of openness and transparency, reflecting the guidance from the Congress in the Trade Act. For example, the Agreement envisions that dispute settlement proceedings will be open to the public, that legal submissions by parties to a dispute will be released to the public, and that interested third parties will have the ability to submit their views to dispute settlement panels.

Dispute settlement procedures in the FTA promote compliance through consultation and trade-enhancing remedies, rather than relying solely on trade sanctions. The FTA dispute settlement procedures also provide for "equivalent" remedies for commercial and labor/environmental disputes. The FTA does this through an innovative new enforcement mechanism that involves the use of monetary assessments to enforce commercial, labor, and environmental obligations of the trade agreement. Suspension of preferential tariff benefits under the Agreement is also available for all disputes, but the mechanism is designed in all cases to seek remedies that will enhance compliance with the obligations of the Agreement, rather than restricting trade and harming "innocent bystanders."

UNITED STATES – SINGAPORE FREE TRADE AGREEMENT

Summary of the Agreement

This summary briefly describes key provisions of the United States – Singapore Free Trade Agreement.

Chapter 1: Establishment of the Free Trade Area and Definitions

Chapter 1 sets out provisions establishing a free trade area, describing the objectives of the Agreement, and providing that the Parties will interpret and apply the Agreement in light of these objectives. The Parties affirm their existing rights and obligations under the Marrakesh Agreement Establishing the World Trade Organization (WTO) and other agreements to which both the United States and Singapore are party. Chapter 1 also defines certain terms that recur in various chapters of the Agreement.

Chapter 2: National Treatment and Market Access for Goods

Chapter 2 sets out the Agreement's principal rules governing trade in goods. It requires each Party to treat products from the other Party in a nondiscriminatory manner, provides for the phase-out of tariffs on "originating goods" (as defined in Chapter 3) traded between the two Parties, and requires the elimination of a wide variety of non-tariff trade barriers that restrict or distort trade flows.

Tariff Elimination. Chapter 2 provides for the elimination of all tariffs on originating goods traded between the Parties. Most tariffs will be eliminated as soon as the Agreement enters into force. The remaining tariffs will be phased out over periods of up to 10 years. The United States has also agreed not to apply its merchandise processing fee on imports of originating goods from Singapore. The chapter also provides that the two Parties may agree to speed up tariff phase-outs on a product-by-product basis after the Agreement takes effect.

Temporary Admission. Chapter 2 requires the Parties to provide duty-free temporary admission for certain products without the usual bonding requirement that applies to imports. Such items include professional equipment, goods for display or demonstration, and commercial samples.

Import/Export Restrictions, Fees, and Formalities. Chapter 2 also prohibits the Parties from imposing export and import price requirements, import licensing conditioned on performance requirements, and voluntary export restraints inconsistent with the WTO General Agreement on Tariffs and Trade 1994 (GATT). In addition, it limits all fees and charges imposed on or in connection with importation or exportation to the approximate cost of services rendered.

Specific Barriers. Singapore will: 1) harmonize its excise taxes on imports of distilled spirits by 2005; 2) allow imports of chewing gum with therapeutic value; and 3) eliminate its ban on imports of satellite dishes.

Apparel. Chapter 2 calls for the United States to provide tariff preferences during the first nine years that the Agreement is in force for specific amounts of certain non-originating apparel from Singapore. These “tariff preference levels” (TPLs) will apply to a limited quantity of cotton and man-made fiber goods cut and sewn in Singapore using fabric or yarn imported from third countries. In the first year after the TPL provisions take effect, TPL status will apply to 25 million square meters of apparel. This quantity will be reduced each year thereafter. The TPL program will terminate nine years after it first takes effect. The United States will phase out duties on TPL imports in five equal annual increments once the TPL program takes effect, with the U.S. duty rate reduced to zero beginning on the first day of the fifth year.

Chapter 3: Rules of Origin

To benefit from various trade preferences provided under the Agreement, including reduced duties, goods must qualify as “originating goods” under the rules of origin set out in Chapter 3 and three related annexes. These rules ensure that the special tariff and other benefits of the Agreement accrue primarily to firms or individuals that produce or manufacture goods in the Parties’ territories.

Key Concepts. Chapter 3 provides four alternative sets of criteria under which a product will generally qualify as an “originating good:”

- when the good is wholly obtained or produced in the territory of one or both of the Parties (for example, crops grown or minerals extracted in the United States);
- when the good is manufactured or assembled from non-originating materials that undergo a specified change in tariff classification in one or both Parties, the good meets any applicable “regional value content” requirement (see below), and the good satisfies all other requirements of Chapter 3;
- when the good is produced in one or both countries entirely from “originating” materials; or
- for certain medical equipment and information technology products listed in Annex 3B (all of which currently enjoy duty-free access to the U.S. market), when the good is shipped from one Party to the other, regardless of where the good was produced.

Chapter 3 and Annex 3A further clarify that simple combining or packaging operations, or mere dilution with water or another substance that does not change the characteristics of the good, will not confer origin.

De Minimis. Even if a good does not undergo a specified change in tariff classification, it will be treated as an originating good if the value of non-originating materials does not exceed 10

percent of the adjusted value of the good, and the good otherwise meets the criteria of the chapter.

Regional Value Content. Some origin rules under the Agreement require that certain goods must meet a regional value content test in order to qualify as “originating,” meaning that a specified percentage of the value of the good must be attributable to originating materials. The Agreement provides two methods for calculating that percentage: the “build-down method” based on the value of non-originating materials used, and the “build-up method” based on the value of originating materials used. Under the Agreement, accessories, spare parts, and tools delivered with a good will be considered part of the material making up the good so long as these items are not separately classified or invoiced and their quantities and values are customary. The *de minimis* rule does not apply in calculating regional value content.

Denial and Correction of Claims. A Party must issue any denials of preferential treatment in writing accompanied by legal and factual findings. Chapter 3 also provides that a Party will not penalize an importer where the importer promptly and voluntarily corrects a claim and pays any duties owed within one year of submission of the claim.

Textile and Apparel Rules of Origin. A textile or apparel product will generally qualify as an “originating good” only if all processing after fiber formation (e.g., yarn-spinning, fabric production, cutting, and assembly) takes place in the territory of one or both of the Parties or if there is an applicable change in tariff classification as specified in Annex 3A.

A special *de minimis* rule applies to certain textile and apparel products. Such products would not ordinarily be considered originating goods because fibers or yarns in their origin-determining components do not undergo an applicable change in tariff classification. Under the special rule, however, the Parties will consider these products to be originating goods if the fibers or yarns in question constitute seven percent or less of the total weight of the component of the good that determines origin. This special rule does not apply to elastomeric yarns.

Consultations. Chapter 3 calls for the Parties to work together to ensure the effective and uniform application of the chapter and the two governments may consider modifying Annexes 3A, 3B, and 3C. Either Party may request consultations in which the Parties will consider whether to modify the chapter’s textile and apparel rules of origin.

Chapter 4: Customs Administration

Chapter 4 establishes rules designed to encourage transparency, predictability, and efficiency in the operation of each Party’s customs procedures and to provide for cooperation between the Parties on customs matters.

General Principles. Chapter 4 commits each Party to observe certain transparency obligations. Each Party must promptly publish its customs measures on the Internet or in print form and,

where possible, will solicit public comments before amending its customs regulations. Each Party will also provide written advance rulings, on request, to its importers and to exporters of the other Party, regarding whether a product qualifies as an “originating good” under the Agreement as well as on other customs matters. Each Party will also guarantee importers access to both administrative and judicial review of customs decisions. The Parties will also release goods from customs promptly and apply expedited procedures for clearing express shipments through customs.

Cooperation. Chapter 4 is also designed to enhance customs cooperation. It encourages the Parties to give each other advance notice of customs developments likely to affect the Agreement. The chapter calls for the Parties to cooperate in securing compliance with each other’s customs measures related to the Agreement and to import and export restrictions. It includes specific provisions calling for the Parties to share customs information where a Party has a reasonable suspicion of unlawful activity in connection with goods traded between the two countries.

Chapter 5: Textiles and Apparel

Chapter 5 sets out detailed commitments designed to prevent circumvention of the Agreement’s rules governing trade in textile and apparel goods. Chapter 5 seeks to ensure that customs officials will have ample authority to detect, deter, and penalize fraudulent claims for preferential tariff treatment in this sector.

Anti-circumvention. The chapter commits each Party to take necessary and appropriate measures to aggressively enforce its laws related to circumvention of textile and apparel import rules, cooperate in the enforcement of the other Party’s laws related to circumvention, and prevent circumvention.

Monitoring. Singapore will establish and maintain monitoring programs designed to enhance the enforcement of its laws relating to trade in textile and apparel goods. In particular, Singapore will:

- monitor imports, exports, and production of textile and apparel goods in its “free trade zones” (special areas designated for favorable treatment under Singapore law);
- institute a comprehensive system of registration, inspection, recordkeeping, and reporting covering all enterprises that produce textile or apparel goods claimed to be “originating goods” under the Agreement or marked as “products of Singapore,” and all enterprises that export such goods to the United States; and
- establish and maintain a program to ensure that goods en route to the United States bear accurate country of origin marking and that the documents accompanying the goods accurately describe the goods.

Cooperation. The Parties will share documents and information relevant to circumvention of their rules governing textile and apparel imports. Each Party will also facilitate efforts by the other Party's law enforcement authorities to gather relevant information, including through site visits under specified conditions.

Enforcement. Chapter 5 commits each Party to investigate vigorously claims of circumvention and, where appropriate, take enforcement action. The chapter commits Singapore to take effective action against enterprises in Singapore that engage in intentional circumvention, including by denying particular exporters or producers permission to ship textile and apparel goods to the United States. If the United States discovers that an enterprise in Singapore is engaged in intentional circumvention, it may temporarily bar imports from the enterprise.

Consultations. Either Party may convene bilateral consultations on circumvention issues. If the United States gives Singapore clear evidence of circumvention and consultations do not yield a mutually satisfactory outcome, the United States may reduce imports from Singapore by up to three times the quantity of the goods involved in the circumvention. The United States may also revoke any preferential treatment afforded the goods involved in the circumvention and temporarily deny entry to goods from the enterprise in question.

Textile Safeguard Actions. Chapter 5 includes a "safeguard" provision to deal with emergency conditions that might result from eliminating tariffs on bilateral trade in textile and apparel goods under the Agreement. The chapter permits the importing country temporarily to suspend duty reductions or to reimpose normal trade relations/most-favored-nation (NTR/MFN) duty rates on imports of textile or apparel goods that cause or threaten serious damage to a domestic industry. Safeguard measures may be imposed for up to four years during the first ten years that the Agreement's textile and apparel provisions are in effect.

Effective Date. Chapter 5 provides that the Agreement's textile and apparel provisions, *i.e.*, Chapter 5 and pertinent provisions of other chapters, including Chapters Two (National Treatment and Market Access for Goods) and Three (Rules of Origin), will take effect after the Parties consult and exchange written notices that legislation needed to implement the chapter is in place.

Chapter 6: Technical Barriers to Trade

Chapter 6 seeks to enhance the Parties' implementation of existing WTO rules on technical barriers to trade. It builds on WTO rules to promote bilateral cooperation in the area of technical regulations, standards, and conformity assessment procedures, with a view toward deepening the understanding of each Party's systems.

Key Concepts. The term "technical barriers to trade" (TBT) refers to barriers that may occur in the context of development, adoption, and application of voluntary product standards, mandatory

product standards, and procedures used to determine whether a particular product meets such standards. The chapter also addresses “conformity assessment,” namely the process for determining whether products fulfill the relevant requirements in a Party’s technical regulations or standards.

Cooperation and Recognition. Chapter 6 encourages the Parties to exchange information on TBT issues, hold consultations to resolve issues, and use international standards as a basis for technical regulations, standards, and conformity assessment procedures. It also encourages the Parties to enhance their cooperation in the context of other agreements, including by implementing with respect to each other the first two phases of the Asia Pacific Economic Cooperation (APEC) mutual recognition arrangement for conformity assessment of telecommunications equipment. Each Party will designate a TBT coordinator to work with domestic firms and groups and the other Party’s coordinator on enhancing bilateral cooperation.

Working Group on Medical Products. Annex 6A establishes a bilateral medical products working group that will be jointly chaired by the U.S. Food and Drug Administration and Singapore’s Health Sciences Authority. The group will provide a forum for cooperation on medical product regulation issues.

Chapter 7: Safeguards

Chapter 7 establishes a bilateral safeguard procedure that will be available to aid domestic industries that sustain or are threatened with serious injury due to increased imports resulting from tariff reductions or elimination under the Agreement. The chapter does not affect either government’s rights or obligations under the WTO’s global safeguard provisions or under other WTO trade remedy rules.

Key Concepts. Chapter 7 authorizes each Party to impose temporary duties on a product imported from the other Party if, as a result of the reduction or elimination of a duty under the Agreement, the product is being imported in such increased quantities and under such conditions as to constitute a substantial cause of serious injury, or threat of serious injury, to a domestic industry producing a “like” or “directly competitive” product.

Specifics. A safeguard measure may be applied only during the Agreement’s ten-year “transition period” for phasing out duties on bilateral trade. A safeguard measure may take one of two forms – a temporary increase in duties to NTR/MFN levels or a temporary suspension of duty reductions called for under the Agreement. In “critical circumstances,” the importing Party may impose provisional relief for up to 200 days while its investigation of the matter is underway.

A bilateral safeguard measure may last for an initial period of two years. A Party may extend it for two more years if the Party determines that the industry is adjusting and the measure remains necessary to facilitate adjustment and prevent or remedy serious injury. If a measure lasts more than one year, the Party must scale it back at regular intervals. Chapter 7 incorporates by

reference certain procedural and substantive investigation requirements of the WTO Agreement on Safeguards.

If a Party imposes a bilateral safeguard measure, Chapter 7 requires it to provide the other Party offsetting trade compensation. If the Parties cannot agree on compensation, the Party entitled to compensation may unilaterally suspend “substantially equivalent” trade concessions that it has made to the other Party.

Global Safeguards. Chapter 7 maintains each country’s right to take remedial action against imports from all sources under GATT Article XIX and the WTO Agreement on Safeguards, without providing additional rights or obligations. A Party may not impose a safeguard measure under Chapter 7 more than once on any product, nor may a Party apply a Chapter 7 measure to a product that the Party has subjected to a safeguard measure under another provision of the Agreement or under a separate agreement. Special safeguard provisions for textile and apparel products appear in Chapter 5 (Textiles and Apparel).

Chapter 8: Cross-Border Trade in Services

Chapter 8 governs measures affecting cross-border trade in services between the United States and Singapore. Certain of its provisions also apply to measures affecting services investments. The chapter is drawn in part from the services provisions of the NAFTA and the WTO General Agreement on Trade in Services (GATS), as well as priorities that have emerged since those agreements.

Key Concepts. Under the Agreement, cross-border trade in services covers supply of a service:

- from the territory of one Party into the territory of another (*e.g.*, electronic delivery of services from the United States to Singapore);
- in the territory of a Party by a person of that Party to a person of the other Party (*e.g.*, a Singaporean company provides services to U.S. visitors in Singapore); and
- by a national of a Party in the territory of another Party (*e.g.*, a U.S. lawyer provides legal services in Singapore).

Chapter 8 should be read together with Chapter 15 (Investment), which establishes rules pertaining to the treatment of service firms that choose to provide their services through a local presence, rather than cross-border. Chapter 8 applies where, for example, a service supplier is temporarily present in the United States or Singapore and does not operate through a local investment.

Core Principles. Among the core obligations in Chapter 8 are requirements to provide national treatment and most-favored-nation treatment to service suppliers of the other Party. Thus, the

chapter requires each Party to treat service suppliers of the other Party no less favorably than its own suppliers. The chapter protects the rights of existing service suppliers as well as those who seek to supply services, subject to any reservations by either Party. The chapter also includes a rule prohibiting the Parties from requiring firms to establish a local presence before they can supply a service. In addition, the chapter seeks to remove market access barriers by barring certain types of restrictions on the supply of services (*e.g.*, rules limiting the number of firms that may offer a particular service or restricting or requiring specific types of legal structures or joint ventures with local companies in order to supply a service). The chapter's market access rules apply both to services supplied on a cross-border basis and through a local investment.

Sectoral Coverage and Non-Conforming Measures. Chapter 8 applies across virtually all services sectors. The chapter excludes financial services except that certain provisions of Chapter 8 apply to investments in unregulated financial services that are covered by Chapter 15 (Investment). In addition, Chapter 8 does not cover air transportation, although it does apply to specialty air services and aircraft repair and maintenance.

Each Party has listed in annexes measures in particular sectors for which it negotiated exemptions from the chapter's core obligations. All existing state and local laws and regulations are exempted from these obligations. Once a Party liberalizes a measure that it has exempted, however, it must thereafter maintain the measure at least at that level of openness.

Transparency and Domestic Regulation. Provisions on transparency and domestic regulation complement the core rules of Chapter 8. The transparency rules apply to the development and application of regulations governing services. The chapter's rules on domestic regulation govern the operation of approval and licensing systems for service suppliers. Like the chapter's market access rules, its provisions on transparency and domestic regulation cover services supplied both on a cross-border basis and through a local investment.

Exclusions. Chapter 8 excludes any service supplied "in the exercise of governmental authority" – that is, a service that is provided on a non-commercial and non-competitive basis. Chapter 8 also does not generally apply to government subsidies, although Singapore has undertaken a commitment relating to cross-subsidization of certain express delivery services.

Chapter 9: Telecommunications

Chapter 9 creates disciplines beyond those imposed under Chapters 8 (Cross-Border Trade in Services) and 15 (Investment) on regulatory measures affecting telecommunications trade and investment between the United States and Singapore. It is designed to ensure that service suppliers of each Party have nondiscriminatory access to public telecommunications networks in the other country. In addition, the chapter requires each Party to regulate its dominant telecommunications suppliers in ways that will ensure a level playing field for new entrants from the other Party.

Chapter 9 also seeks to ensure that telecommunications regulations are set by independent regulators applying transparent procedures, and is designed to encourage adherence to principles of deregulation and technological neutrality. Finally, Chapter 9 improves on work undertaken in the WTO on trade in telecommunications services, where Singapore has committed only to allow only three foreign suppliers to participate in a limited set of its telecommunications markets.

Key Concepts. Under Chapter 9, the term “public telecommunications network” covers the infrastructure used to provide public telecommunications services between defined endpoints. A “public telecommunications service” is any telecommunications service that a Party requires to be offered to the public generally. The term includes voice and data transmission services. It does not include the offering of “information services” (*e.g.*, services that enable users to create, store, or process information over a network).

Competition. Both the U.S. and Singapore regulatory systems provide for open, competitive domestic and cross-border telecommunications markets. Chapter 9 establishes rules that reflect the common elements of these systems. It also provides flexibility to account for changes that may occur through new legislation or regulatory decisions. The chapter includes commitments by each Party to:

- ensure that all service suppliers of the other Party that seek to access or use a public telecommunications network in the Party’s territory can do so on reasonable and nondiscriminatory terms (*e.g.*, Singapore must ensure that its public phone companies do not provide preferential access to Singapore banks or Internet service providers, to the detriment of U.S. competitors);
- give the other Party’s telecommunications suppliers, in particular, the right to interconnect their networks with public networks in the Party’s territory;
- ensure that telecommunications suppliers of the other Party that seek to build physical networks in the Party’s territory have access to key physical facilities, such as buildings, where they can install equipment, thus facilitating cost-effective investment;
- ensure that telecommunications suppliers of the other Party enjoy the right to lease lines to supplement their own networks or, alternatively, purchase telecommunications services from domestic suppliers and resell them in order to build a customer base; and
- impose disciplines on the behavior of “major suppliers” – *i.e.*, companies that, by virtue of their market position or control over certain facilities, can materially affect the terms of participation in the market.

Regulation. The chapter addresses key regulatory concerns that may create barriers to trade and investment in telecommunications services. In particular, the Parties:

- will adopt procedures that will help ensure that they maintain open and transparent telecommunications regulatory regimes, including requirements to publish interconnection agreements and service tariffs;
- will require their telecommunications regulators to explain their rule-making decisions and provide foreign suppliers the right to challenge those decisions;
- may elect to deregulate telecommunications services when competition emerges and certain standards are met; and
- will endeavor to avoid impeding telecommunications suppliers from choosing technologies they consider appropriate for supplying their services.

Privatization. In a letter from Singapore's trade minister signed along with the Agreement, Singapore has committed to establish a plan to divest its majority interest in Singapore's two leading telecommunications firms.

Chapter 10: Financial Services

Chapter 10 provides rules governing each Party's treatment of: 1) financial institutions of the other Party, 2) investors of the other Party, and their investments, in financial institutions, and 3) cross-border trade in financial services.

Key Concepts. The chapter defines a "financial institution" as any financial intermediary or other institution authorized to do business and regulated or supervised as a financial institution under the law of the Party where it is located. A "financial service" is any service of a financial nature, including, for example, insurance, banking, securities, asset management, financial information and data processing services, and financial advisory services.

General Principles. Chapter 10's core obligations parallel those in Chapter 8 (Cross-Border Trade in Services) and 15 (Investment). Thus, Chapter 10 imposes rules requiring national treatment and most-favored-nation treatment, prohibits certain quantitative restrictions on market access, and bars restrictions on the nationality of senior management. As appropriate, these rules apply to measures affecting financial institutions, investors and investments in financial institutions of the other Party, and to services companies that are currently supplying and that seek to supply financial services from one Party's territory to the other's.

Non-Conforming Measures. Similar to Chapters 8 and 15, each Party has listed in an annex to Chapter 10 particular financial services measures for which it negotiated exemptions from the chapter's core obligations. All existing U.S. state and local laws and regulations are exempted from these obligations. Once a Party liberalizes a measure that it has exempted, however, it must thereafter maintain the measure at least at that level of openness.

Other Provisions. Chapter 10 also includes provisions on regulatory transparency, “new” financial services, self-regulatory organizations, and the expedited availability of insurance products.

Relationship to other Chapters. Measures that a Party applies to financial services suppliers of the other Party – other than regulated financial institutions – that make or operate investments in the Party’s territory are covered principally by Chapter 8 and certain provisions of Chapter 15. In particular, the core obligations of the investment chapter apply to such measures, as do the market access, transparency, and domestic regulation provisions of the services chapter. Chapter 10 incorporates by reference certain provisions of Chapter 15, such as those relating to transfers and expropriation.

Chapter 11: Temporary Entry of Business Persons

Chapter 11 calls for each government to facilitate the temporary entry into its territory of business persons of the other Party. The Agreement requires each Party to use transparent criteria and procedures in carrying out its temporary entry rules. At the same time, the rules set out in Chapter 11 respect each Party’s need to ensure border security and protect its domestic labor force and permanent employment.

Key Concepts. Chapter 11 covers temporary entry only. Its provisions do not apply to measures regarding citizenship, permanent residence, or employment on a permanent basis. An annex to Chapter 11 groups business persons into four categories (business visitors, traders and investors, intra-company transferees, and professionals) and identifies the criteria under which the Parties must grant them temporary entry. Each business person meeting these criteria must also be qualified for entry under the Party’s general requirements relating to public health and safety and national security. An annex permits the United States to limit the number of Singaporean professionals entering the United States under the chapter to 5,400 per year. The Parties may require attestations for professionals similar to those required by the United States under the “H-1B” visa program.

General Provisions. To avoid unduly impairing or delaying trade in goods or services or investment activities under the Agreement, the chapter calls on each Party to apply its measures relating to temporary entry expeditiously. Chapter 11 clarifies that merely requiring a visa for admission does not violate this rule. Further, a Party may refuse admission if the temporary entry of the business person might affect adversely the settlement of a labor dispute or the employment of a person involved in such a dispute. In such cases, the Party must provide a written statement of the reasons for the refusal and prompt notification to the other Party.

Other Provisions. Chapter 11 permits recourse to dispute settlement in disputes over a Party’s pattern of practice in carrying out its temporary entry commitments, but not for individual denials of entry. Each Party will establish a group of immigration and other pertinent officials, called a “temporary entry coordinator.” The two coordinators will exchange information and work

together on temporary entry issues of mutual interest. Chapter 11 makes clear that it contains all of the substantive obligations the two Parties have assumed under the Agreement with respect to temporary entry. The chapter does not impose obligations or commitments with respect to subjects covered under other chapters of the Agreement.

Chapter 12: Anticompetitive Business Conduct, Designated Monopolies, and Government Enterprises

Recognizing that anticompetitive practices can restrict bilateral trade and investment, Chapter 12 calls for each government to enact and enforce competition laws and to cooperate on antitrust matters. The chapter also sets out basic procedural safeguards and rules ensuring against harmful conduct by government-designated monopolies as well as special rules covering “government enterprises.”

Antitrust Laws. Chapter 12 requires each Party to adopt or maintain laws prohibiting anticompetitive business conduct and an agency to enforce them. In particular, Singapore has committed to enact general antitrust legislation by January 2005. Each Party will take appropriate enforcement action to address anticompetitive business conduct. Chapter 12 also affirms that each Party’s antitrust enforcement policy is not to discriminate on the basis of nationality.

Procedural Rights. Chapter 12 guarantees basic procedural rights for firms facing antitrust enforcement actions. Each Party will provide such firms a right to be heard and to present evidence before imposing a sanction or remedy, and will ensure that any sanctions or remedies are subject to review by a court or independent tribunal.

Designated Monopolies. Under Chapter 12, whenever a Party gives a private or government-owned entity the sole right to provide or purchase a good or service, the Party must ensure that the entity conducts itself in a manner consistent with commercial considerations, does not discriminate against the other Party’s goods or service suppliers, and does not use its monopoly position to engage in anticompetitive practices in markets outside its monopoly mandate.

Government Enterprises. Chapter 12 sets out obligations regarding each Party’s responsibilities for “government enterprises.” For the United States, this term means companies that the government owns or controls. For Singapore, the term encompasses firms in which the government of Singapore has “effective influence.”

Singapore will ensure that its government enterprises act in accordance with commercial considerations, provide nondiscriminatory treatment to U.S. goods and services suppliers, and refrain from entering into anticompetitive agreements among competitors or engaging in exclusionary practices that reduce competition to the detriment of consumers.

Singapore will publish an annual report detailing its ownership and control of larger government enterprises, and will provide the same information for enterprises of any size upon U.S. request. Singapore will not exercise influence over its government enterprises except in a manner consistent with the Agreement, and will continue to reduce its aggregate ownership and other interests in these enterprises.

For its part, the United States will ensure that its government enterprises accord nondiscriminatory treatment in their sales of goods and services to Singaporean companies.

Cooperation and Consultations. Chapter 12 provides for cooperation between the Parties on competition law and policy developments and furthers transparency by providing for the exchange of publicly available information on antitrust enforcement and on designated monopolies and government enterprises. Each Party may also request consultations to discuss specific issues. Where pertinent in such consultations, Singapore will provide information regarding the steps it plans to take or has taken to address anticompetitive conduct by a government enterprise.

Dispute Settlement. The chapter's provisions requiring the Parties to adopt and enforce antitrust laws are not subject to the Agreement's dispute settlement procedures, nor are the provisions governing cooperation and consultations. By contrast, the chapter's rules addressing conduct by designated monopolies and government enterprises can be enforced through the Agreement's dispute settlement mechanism.

Chapter 13: Government Procurement

Chapter 13 establishes obligations with respect to government purchases that extend beyond those the Parties have undertaken under the WTO Agreement on Government Procurement (GPA), in such areas as thresholds, scope and coverage, and procedures for withdrawing entities from coverage under the chapter when a government's control or influence over them has been eliminated. The chapter also includes many of the fundamental disciplines of the GPA, such as comprehensive rules prohibiting each government from discriminating in its purchasing practices against products, services, and suppliers from the other country and requiring each Party to apply fair and transparent procurement procedures.

General Principles. The chapter incorporates by reference major portions of the GPA, including its basic rules on nondiscrimination and procedural fairness and transparency. The chapter also commits the Parties to cooperate in the ongoing review of the GPA, on procurement matters in APEC, and in WTO negotiations of an agreement on transparency in government procurement.

Coverage and Thresholds. Chapter 13 covers purchases above certain dollar thresholds by government departments and entities that each Party has listed in its relevant GPA schedules. The chapter applies to central (federal) government procurements of goods and services valued at \$56.190 or more and construction services valued at \$6.481,000 or more. The chapter also

applies to certain purchases by 37 state governments listed in the U.S. GPA schedule, namely, procurements of goods and services valued at \$460,000 or more and construction services of \$6,481,000 or more. For government enterprises subject to the Parties' commitments under the GPA, the chapter's thresholds are set at either \$250,000 or \$518,000 for goods and services, and \$6,481,000 for construction services.

Nondiscrimination. Chapter 13 incorporates the GPA's basic rule of "national treatment," meaning that each Party's procurement rules must treat goods, services, and suppliers from the other country in a manner that is "no less favorable" than it treats their domestic counterparts. Chapter 13 also applies GPA rules that bar discrimination against locally established suppliers on the basis of foreign affiliation or ownership. The chapter also incorporates the GPA bar against "offsets," such as local content, licensing, investment, or similar requirements, designed to favor domestic production.

Transparency. Chapter 13 also brings in GPA rules designed to ensure transparency in procurement procedures. Each Party must publish its laws, regulations and other measures governing procurement, along with any changes to those measures. Procuring entities must publish notices of procurement opportunities in advance.

Tendering Rules. Chapter 13 incorporates GPA rules for setting deadlines on "tendering" (bidding on government contracts). It requires procuring entities to give suppliers all the information they need to prepare tenders, including the criteria that procuring entities will use to evaluate tenders. Entities must also, where appropriate, base their technical specifications (*i.e.*, detailed descriptions of the goods or services to be procured) on performance-oriented criteria and international standards. GPA rules incorporated into Chapter 13 also provide that procuring entities may not write technical specifications to favor a particular supplier, good, or service.

Award Rules. The GPA provisions made part of Chapter 13 require that to be considered for award a tender must be made in writing and submitted by a qualified supplier. The tender must meet the criteria set out in the tender documentation, and procuring entities must base their award of contracts on those criteria. Procuring entities must publish information on awards, including the name of the supplier, a description of the goods or services procured, and the value of the contract.

Digital Products. In addition to products that each Party has committed to make subject to the GPA, Chapter 13 covers each government's purchases of electronically transmitted "digital products" of the other Party.

Changes in Coverage. Chapter 13 includes streamlined procedures under which either Party may remove from the chapter's disciplines government entities that a Party has privatized.

Chapter 14: Electronic Commerce

Chapter 14 establishes rules designed to prohibit duties on, and discriminatory regulation of, electronic trade in digitally encoded products, such as computer programs, video, images, and sound recordings. The chapter represents the first U.S. agreement on this subject with a country in the Asia-Pacific region and a major advance over previous understandings on this subject.

Customs Duties. Chapter 14 provides that a Party may not impose customs duties on digital products that are transmitted electronically. Each Party must assess the customs value (and any applicable tariffs) on the medium rather than the content of any digital products imported on a physical medium, such as a compact disc (*i.e.*, on the value of the disc rather than that of the information it contains)

Nondiscrimination. Chapter 14 requires the Parties to apply principles of nondiscrimination to trade in electronically transmitted digital products so that they benefit from the same sorts of principles that govern trade in goods and services. Thus, for example, each Party must refrain from discriminating against electronically transmitted digital products on the ground that they have a nexus to the other Party, either because they have undergone certain specific activities (*e.g.*, creation, production, first sale) there or are associated with certain categories of persons of the other Party (*e.g.*, authors, performers, producers). Nor may a Party provide less favorable treatment to digital products that have a nexus to the other Party than it gives to like digital products that have a nexus to a third country.

Chapter 15: Investment

Chapter 15 establishes rules to protect investors from one Party against unfair or discriminatory government actions when they make or attempt to make investments in the other Party's territory. It reflects traditional standards incorporated in earlier U.S. investment agreements (including those in the North American Free Trade Agreement and U.S. bilateral investment treaties) and in customary international law, and contains several innovative provisions.

Key Concepts. Under Chapter 15, the term "investment" covers all forms of investment, including enterprises, securities, debt, intellectual property rights, concessions, and contracts. It includes both existing and future investments. The term "investor of a Party" encompasses both U.S. and Singaporean nationals as well as firms (including branches) established in one of the Parties.

General Principles. Investors enjoy six basic protections under Part B of Chapter 15: nondiscriminatory treatment relative to domestic investors as well as investors of non-Parties; freedom from "performance requirements"; free transfer of funds related to an investment; protection from expropriation other than in conformity with customary international law; a "minimum standard of treatment" in conformity with customary international law; and the ability to hire key managerial and technical personnel without regard to nationality.

Sectoral Coverage and Non-Conforming Measures. With the exception of investments in or by regulated financial institutions (which are treated in Chapter 10), Chapter 15 generally applies to all sectors, including service sectors. However, each Party has listed in annexes to the chapter particular sectors or measures for which it negotiated an exemption from the chapter's rules relating to national treatment, most-favored-nation treatment, performance requirements, or senior management and boards of directors. All current state and local laws and regulations are exempted from these rules. Once a Party liberalizes a measure that it has exempted, however, it must thereafter maintain the measure at least at that level of openness.

Investor-State Disputes. Chapter 15 provides a mechanism for an investor of a Party to pursue a claim against the other Party. The investor may assert that the Party has breached a substantive obligation under Part B of Chapter 15 or that the Party has breached an investment agreement with, or an investment authorization granted to, the investor or its investment.

Innovative provisions afford public access to information on Chapter 15 investor-State proceedings and ensure proper application of dispute settlement rules. For example, Chapter 15 requires the Parties to make public all documents and hearings, with limited exceptions for business and other legally confidential information, and authorizes tribunals to accept *amicus* submissions from the public. The chapter also includes provisions based on those used in U.S. courts to quickly dispose of frivolous claims. A special annex addressing investor-State procedures provides Singapore limited policy flexibility with respect to certain capital flows it may consider disruptive.

Chapter 16: Intellectual Property Rights

Chapter 16 complements and enhances existing international standards for the protection of intellectual property and the enforcement of intellectual property rights.

General Provisions. The chapter requires Singapore to ratify or accede to several agreements on intellectual property rights, including the International Convention for the Protection of New Varieties of Plants, the Brussels Convention Relating to the Distribution of Programme-Carrying Signals Transmitted by Satellite, and the Patent Cooperation Treaty. The chapter also requires Singapore to give effect to the Trademark Law Treaty. The chapter also includes full national treatment commitments, with no exceptions for digital products. In addition, the chapter requires each Party to publish its laws, regulations, procedures, and decisions concerning the protection or enforcement of intellectual property rights.

Trademarks and Geographical Indications. Chapter 16 imposes rules with respect to the registration of collective, certification, and sound marks, as well as geographical indications and scent marks. The chapter also imposes rules for domain name management that require a dispute resolution procedure to prevent trademark cyber-piracy. Each Party must provide full protection

for trademarks with respect to later geographical indications by providing a “first-in-time, first-in-right” rule for trademarks.

Copyrights and Related Rights. Chapter 16 articulates rights that are unique to the digital age, affirming and building on rights set out in several international agreements, including the WIPO Internet Treaties. For instance, the chapter clarifies that the right to reproduce literary and artistic works, recordings, and performances encompasses temporary copies – an important principle in the digital realm. It also calls for each Party to provide a right of communication to the public, which will ensure that authors have the exclusive right to make their works available online. To curb copyright piracy, Chapter 16 requires the two governments to use only legitimate computer software, setting an example for the private sector. The chapter also includes provisions on anti-circumvention under which the Parties commit to prohibit tampering with technology used by authors to protect copyrighted works. In addition, Chapter 16 sets out obligations with respect to the liability of Internet service providers in connection with copyright infringements that take place over their networks. Each Party must also provide copyright protection for the life of the author plus 70 years (for works measured by a person's life), or 70 years (for corporate works).

Recognizing the importance of satellite broadcasts, Chapter 16 ensures that each Party will protect encrypted program-carrying satellite signals. It obligates the Parties to extend protection to the signals themselves, rather than solely to the content contained in the signals.

Patents and Trade Secrets. Chapter 16 requires patent term extensions to compensate for unreasonable administrative or regulatory delays (including for marketing approval) that occur while granting the patent. The chapter also protects against imports of pharmaceutical products without the patent-holder's consent by allowing lawsuits when contracts are breached. To guard against arbitrary revocation of patents, each Party must limit the grounds for revoking a patent to the grounds that would have justified a refusal to grant the patent. The chapter also limits the exceptions to patent protection. In addition, Chapter 16 offers protection against unfair commercial use of test data that a company submits in seeking marketing approval for certain regulated products. It precludes other firms from relying on the data for specific periods – five years for pharmaceuticals and ten years for agricultural chemicals.

Enforcement Provisions. Chapter 16 imposes obligations with respect to the enforcement of intellectual property rights. Among these, it requires the Parties, in determining damages, to take into account the value of the legitimate goods as well as the infringer's profits. The chapter also provides for damages fixed in advance (i.e., “statutory damages”), at the option of the right holder. Such pre-established damages help to deter piracy by ensuring an appropriate remedy in cases where, for instance, information on actual damages is inadequate.

Chapter 16 provides that the Parties' law enforcement agencies must have authority to seize suspected pirated and counterfeit goods, the equipment used to make or transmit them, and documentary evidence. Each Party must give its courts authority to order the forfeiture and/or destruction of such items. Chapter 16 also requires each Party to empower its law enforcement

agencies to take enforcement action at the border against pirated or counterfeit goods – including those in transit – without waiting for a formal complaint. Chapter 16 provides that each Party must make counterfeiting and piracy subject to criminal penalties. In addition, the chapter specifically requires Singapore to implement rules that will prohibit the production of optical discs (*e.g.*, CDs, DVDs, or software) without source identification codes, unless the copyright holder authorizes the production.

Transition Periods. The chapter takes effect six months after the Agreement enters into force, with short additional transition periods for certain provisions.

Chapter 17: Labor

Chapter 17 sets out the Parties' commitments and undertakings regarding trade-related labor rights. It draws on, but does not replicate, the North American Agreement on Labor Cooperation (the supplemental NAFTA labor agreement) and the labor provisions of the United States-Jordan Free Trade Agreement.

General Principles. Under Chapter 17, the Parties reaffirm their obligations as members of the International Labor Organization (ILO) and under the 1998 ILO *Declaration on Fundamental Principles and Rights at Work*. Each Party must strive to ensure that its domestic law recognizes and protects the fundamental labor principles spelled out in the ILO declaration and listed in the chapter. Each Party must also strive to ensure it does not derogate from or waive the protections of its domestic labor laws to encourage trade with or investment from the other Party. The Parties also commit to afford procedural guarantees that ensure workers and employers have access to fair, equitable, and transparent procedures in the enforcement of labor laws.

Effective Enforcement. Chapter 17 commits each Party not to fail to effectively enforce its labor laws on a sustained or recurring basis in a manner affecting bilateral trade. The chapter defines labor laws to include those related to: 1) the right of association; 2) the right to organize and bargain collectively; 3) a prohibition of forced or compulsory labor; 4) a minimum age for the employment of children and elimination of the worst forms of child labor; and 5) acceptable conditions of work with respect to wages, hours and occupational safety and health. The U.S. commitment includes federal statutes and regulations addressing these areas, but not state or local labor laws. While committing each Party to effective labor law enforcement, the chapter also recognizes each Party's right to establish its own labor laws, exercise discretion in investigatory, regulatory, prosecutorial, and compliance matters, and allocate enforcement resources.

Dispute Settlement. Chapter 17 provides for cooperative consultations if a Party believes that the other Party has violated its labor commitments. If the matter concerns a Party's compliance with the chapter's labor law enforcement provision, the complaining Party may choose to pursue consultations under the labor chapter or Chapter 20 (Administration and Dispute Settlement). After 60 days of consultations under the labor chapter, the Parties may agree to refer the matter

directly to the Agreement's ministerial-level Joint Committee for resolution under the dispute settlement chapter.

Cooperation. The Joint Committee may establish a subcommittee to oversee the chapter's implementation. Each Party will designate a contact point for communications with the other Party and the public regarding the chapter. An annex creates a mechanism for ongoing labor cooperation focusing on the improvement of labor standards, particularly those in the 1998 ILO declaration, and the elimination of the worst forms of child labor.

Chapter 18: Environment

Chapter 18 establishes the Parties' commitments and undertakings regarding environmental protection, and includes several key provisions that parallel those in the Agreement's labor chapter. Chapter 18 draws on, but does not replicate, the North American Agreement on Environmental Cooperation and the environmental provisions of the United States-Jordan Free Trade Agreement.

Like the labor chapter, Chapter 18 includes a commitment on effective law enforcement. It also includes commitments to establish high levels of environmental protection and to strive not to weaken or reduce environmental laws to encourage bilateral trade or investment. It also includes commitments to enhance bilateral cooperation in environmental matters.

General Principles. The Parties must ensure that their laws provide for high levels of environmental protection and strive to improve those levels. They must also strive to ensure they do not waive or derogate from their environmental laws to encourage trade with or investment from the other Party.

Effective Enforcement. Chapter 18 commits each Party not to fail to effectively enforce its environmental laws on a sustained or recurring basis in a manner affecting bilateral trade. The U.S. commitment applies to federal environmental statutes and regulations enforceable in the first instance by the federal government. At the same time, the chapter recognizes the right of each Party to establish its own environmental laws, exercise discretion in regulatory, prosecutorial, and compliance matters, and allocate enforcement resources.

Dispute Settlement. If a Party believes that the other Party is not complying with its obligations, Chapter 18 provides for cooperative consultations. If the matter concerns a Party's compliance with the chapter's environmental law enforcement provision, the complaining Party may choose to pursue consultations under the environment chapter or Chapter 20 (Administration and Dispute Settlement). After 60 days of consultations under the environment chapter, the Parties may agree to refer the matter directly to the Joint Committee for resolution under the dispute settlement chapter.

Cooperation. The Joint Committee may establish a subcommittee to oversee the chapter's implementation. Chapter 18 also includes a commitment to pursue cooperative environmental activities under a bilateral memorandum of intent and includes a recognition of the importance of ongoing environmental cooperation outside the Agreement. The Parties will consult on the outcome of the current WTO negotiations regarding the relationship between the WTO and multilateral environmental agreements.

Chapter 19: Transparency

Chapter 19 sets out requirements designed to foster openness, transparency, and fairness in the adoption and application of administrative measures covered by the Agreement. For example, it requires that to the extent possible each Party must promptly publish all laws, regulations, procedures, and administrative rulings of general application concerning subjects covered by the Agreement, and give interested persons a reasonable opportunity to comment. Wherever possible, each Party must ensure reasonable notice of regulatory proceedings and the opportunity to present facts and arguments. Chapter 19 also provides for independent review and appeal of final administrative actions. Appeal rights must include a reasonable opportunity to present arguments and to obtain a decision based on evidence in the administrative record.

Chapter 20: Administration and Dispute Settlement

Chapter 20 creates a Joint Committee to supervise implementation of the Agreement, assist in the resolution of any disputes that may arise under the Agreement, and consider and adopt amendments to the Agreement. The Committee will be chaired by each government's trade minister and will convene at least once a year.

Chapter 20 also sets out detailed procedures for the resolution of disputes between the Parties over compliance with the Agreement. Those procedures emphasize amicable settlements, relying wherever possible on bilateral cooperation and consultations. When disputes arise under provisions common to the Agreement and other agreements (*e.g.*, the WTO agreements), the complaining government may choose the forum for resolving the matter.

Consultations. Either Party may request consultations on any matter that it believes might affect the operation of the Agreement. If the Parties cannot resolve the matter through consultations within 60 days, a Party may request a meeting of the Joint Committee.

Panel Procedures. If the Joint Committee cannot resolve the dispute within 60 days, the complaining Party may refer the matter to a panel comprising independent experts that the Parties select. The Parties will set rules to protect confidential information, provide for open hearings and public release of submissions, and allow an opportunity for the panel to accept submissions from non-governmental entities in the Parties' territories.

Once the panel presents its initial report containing findings of fact and a determination on whether a Party has met its obligations, the Parties will have the opportunity to provide written comments to the panel. When the panel receives these comments, it may reconsider its report and make any further examination that it considers appropriate. Within 45 days after it presents its initial report, the panel will submit its final report. The Parties will then seek to agree on how to resolve the dispute, normally in a way that conforms to the panel's determinations and recommendations.

Suspension of Benefits. In disputes involving the Agreement's "commercial" obligations (*i.e.*, obligations other than enforcement of labor and environmental laws), if the Parties cannot resolve the dispute after they receive the panel's final report, the Parties will seek to agree on acceptable trade compensation. If they cannot agree on compensation, or if the complaining Party believes the defending Party has failed to implement an agreed resolution, the complaining Party may provide notice that it intends to suspend trade benefits equivalent in effect to those it considers were impaired, or may be impaired, as a result of the disputed measure.

If the defending Party considers that the proposed level of benefits to be suspended is "manifestly excessive," or believes that it has modified the disputed measure to make it conform with the Agreement, it may request the panel to reconvene and decide the matter. The panel must issue its determination no later than 90 days after the request is made (or 120 days if the panel is reviewing both the level of the proposed suspension and a modification of the measure).

The complaining Party may suspend trade benefits up to the level that the panel sets or, if the panel has not been asked to determine the level, up to the amount that the complaining Party has proposed. The complaining Party cannot suspend benefits, however, if the defending Party provides notice that it will pay an annual monetary assessment to the other Party. The amount of the assessment will be established by agreement of the Parties or, failing that, will be set at 50% of the level of trade concessions the complaining Party was authorized to suspend.

Labor and Environment Disputes. Equivalent compliance procedures apply to disputes over a Party's conformity with the labor and environmental law enforcement provisions of the Agreement. If a panel determines that a Party has not met its enforcement obligations and the Parties cannot agree on how to resolve the dispute, or the complaining Party believes that the defending Party has failed to implement an agreed resolution, the complaining Party may ask the panel to determine the amount of an annual monetary assessment to be imposed on the defending Party. The Panel will establish the amount of the assessment, subject to a \$15 million annual cap, taking into account relevant trade- and non-trade-related factors. The assessment will be paid into a fund established by the Joint Committee for appropriate labor or environmental initiatives. If the defending Party fails to pay an assessment or to establish an escrow for paying such an assessment, the complaining Party may take other appropriate steps, which may include suspending tariff benefits.

Compliance Review Mechanism. If, at any time, the defending Party believes it has made changes in its laws or regulations sufficient to comply with its obligations under the Agreement, it may refer the matter to the panel. If the panel agrees, the dispute ends and the complaining Party must withdraw any offsetting measures it has put in place. Concurrently, the defending government will be relieved of any obligation to pay a monetary assessment.

Chapter 21: General and Final Provisions

Chapter 21 sets out general provisions that apply to all or large portions of the Agreement. For example, it incorporates the general exceptions set forth in Article XX of the GATT and Article XIV of the GATS for various chapters. It also sets the terms for the Agreement's entry into force and termination.

Essential Security. Chapter 21 allows each Party to take actions it considers necessary to protect its essential security interests.

Taxation. An exception for taxation limits the field of tax measures subject to the Agreement. For example, the exception generally provides that the Agreement does not affect either Party's rights or obligations under any tax convention. The exception sets out certain circumstances under which tax measures are subject to the Agreement's: 1) national treatment obligation for goods, 2) national treatment and most-favored-nation obligations for services, 3) prohibitions on performance requirements, and 4) expropriation rules.

Disclosure of Information. The chapter also provides that a Party may withhold information from the other where such disclosure would impede domestic law enforcement, otherwise be contrary to the public interest, or prejudice the legitimate commercial interests of particular enterprises.

Corrupt Practices. Under Chapter 21, the Parties pledge to continue to combat bribery and corruption in international business transactions, to work together on anti-corruption issues, and to support relevant initiatives in international fora.

General Provisions. Chapter 21 provides that the annexes are part of the Agreement and that the Parties may amend the Agreement subject to applicable domestic procedures. The chapter also provides for the entry into force of the Agreement and for its termination six months after a Party provides written notice that it intends to withdraw.

MINISTER FOR TRADE AND INDUST
SINGAPORE

May 6, 2003

The Honorable
Robert B. Zoellick
United States Trade Representative

Dear Ambassador Zoellick:

The Singapore Government is committed to the privatization of SingTel and ST Telemedia and to the objective of reducing its existing stakes in these companies to zero, subject to the state of capital markets and the interests of other shareholders. The Singapore Government will thereafter only hold shares in these companies as part of its portfolio investments. For SingTel, the privatization process began in 1993 with the listing of SingTel on the Singapore Stock Exchange. Since then, the Singapore Government has progressively reduced its stake in Sing Tel and currently holds 67.56% of its shares. SingTel has also been listed on the Australian Stock Exchange since September 2001.

The Singapore Government will establish a plan to divest its majority share in SingTel and ST Telemedia. The Singapore Government understands the United States' interest in seeing such divestment completed as soon as feasible.

The Singapore Government exercises no control over the commercial policy of SingTel and ST Telemedia and the Singapore Government does not have veto rights over the key decisions of these companies by way of a 'golden share'. Neither SingTel nor ST Telemedia receives any subsidy from the Singapore Government.

Both SingTel and ST Telemedia are fully subject to the independent regulatory oversight and authority of the Info-communications Development Authority of Singapore (IDA), which is empowered under the Info-communications Development Authority of Singapore Act to ensure that they do not engage in anti-competitive behavior.

Sincerely,

A handwritten signature in dark ink, appearing to read 'George Yeo'.

The Honorable
Tommy Koh
Ambassador-at-Large
Ministry of Foreign Affairs

Dear Ambassador Koh:

During the course of negotiations of Chapter 9 (Telecommunications) of the United States-Singapore Free Trade Agreement (the "Agreement"), Singapore expressed an interest in ensuring that provisions of the Agreement relating to telecommunication regulations address Singapore's interests at both the state and federal level. Although there are several provisions of the Agreement whose application is limited to the federal level, as a matter of practice, such provisions are generally also reflected in state-level regulation. Such provisions include articles 9.4.6(a) (Poles, Ducts and Conduits), 9.6 (Independent Regulation and Privatization), 9.10 (Enforcement), 9.11 (Resolution of Domestic Telecommunications Disputes), and 9.12 (Transparency).

Singapore inquired specifically about the applicability of these articles to California, Connecticut, Massachusetts, New Jersey, New York, Illinois, Florida, and Texas. I am pleased to confirm that the relevant laws, rules and practices of these states are consistent with these specific articles.

Sincerely,

Ralph F. Ives
Assistant U.S. Trade Representative
for Asia, the Pacific and APEC Affairs

The Honorable
Tommy Koh
Ambassador-at-Large
Ministry of Foreign Affairs

Dear Ambassador Koh:

During our discussion of the auto valuation issue at the June 2002 negotiating session, the Singapore team asked that the U.S. delegation convey our concerns in writing. This letter provides a summary of our concerns and seeks Singapore's assurances that such concerns will be remedied.

As the U.S. delegation explained during the June session, the main concerns of the United States with regard to Singapore's auto valuation system are that: (1) it does not use the transaction value as the basis for levying taxes, duties and fees on imported automobiles; and (2) there do not appear to be procedures for meaningful rights of administrative appeal or the right of judicial review. These elements of Singapore's system do not accord with the requirements of the WTO Agreement on Customs Valuation (the "Valuation Agreement") that the transaction value should be the primary basis for customs valuation, that the customs value shall be the price actually paid or payable for goods, and that the legislation of each Member shall provide for rights of administrative appeal and judicial review.

The United States would like to reiterate that with respect to valuation for the purposes of customs, excise and other tax levies by U.S. Customs, goods entering the United States from Singapore will continue to receive full, fair and transparent treatment in accordance with the Valuation Agreement. We ask the same of Singapore with respect to imports of all vehicles, including passenger vehicles.

Sincerely,

Ralph F. Ives
Assistant U.S. Trade Representative
