
COMMUNICATION

FROM

THE PRESIDENT OF THE UNITED STATES

TRANSMITTING

SEPTEMBER 3, 2003.—Referred to the Committee on International Relations and ordered to be printed

U.S. GOVERNMENT PRINTING OFFICE
19-011 WASHINGTON : 2003
THE WHITE HOUSE,

Hon. J. DENNIS HASTERT,
Speaker of the House of Representatives,
Washington, DC.

DEAR MR. SPEAKER: I am pleased to transmit to the Congress, consistent with sections 123 and 144 b. of the Atomic Energy Act, as amended (42 U.S.C. 2153 and 2164(b)), the text of the Agreement between the Parties to the North Atlantic Treaty for Co-operation Regarding Atomic Information, including a technical annex and security annex (hereinafter collectively referred to as the ATOMAL Agreement), as a proposed agreement for cooperation within the context of the North Atlantic Treaty Organization (NATO) between the United States of America and each of the following four members of NATO: the Czech Republic, the Republic of Hungary, the Republic of Poland, and Spain, hereinafter the “New Parties.” I am also pleased to transmit my written approval, authorization and determination concerning the ATOMAL Agreement with respect to the New parties. The ATOMAL Agreement entered into force on March 12, 1965, with respect to the United States and the other NATO members at that time. The New Parties have signed this agreement and have indicated their willingness to be bound by it. The ATOMAL Agreement with respect to the New parties meets with requirements of the Atomic Energy Act of 1954, as amended. While the ATOMAL Agreement continues in force with respect to its original parties, for the United States it will not become effective as an agreement for cooperation authorizing the exchange of atomic information with respect to the New Parties until completion of procedures prescribed by sections 123 and 144 b. of the Atomic Energy Act of 1954, as amended.

For more than 35 years, the ATOMAL Agreement has served as the framework within which NATO and the other NATO members party to this agreement have received the information that is necessary to an understanding and knowledge of and participation in the political and strategic consensus upon which the collective military capacity of the Alliance depends. This agreement permits only the transfer of atomic information, not weapons, nuclear material or equipment. Participation in the ATOMAL Agreement will give the Czech Republic, the Republic of Hungary, the Republic of Poland, and Spain the same standing within the Alliance with regard to nuclear matters as that of the other NATO members. This is important for the cohesiveness of the Alliance and will enhance its effectiveness.

I have considered the views and recommendations of the Department of Defense and other interested agencies in reviewing the ATOMAL Agreement and have determined that its performance, including the proposed cooperation and the proposed communica-
tion of Restricted Data thereunder, with respect to the New Parties will promote, and will not constitute an unreasonable risk to, the common defense and security. Accordingly, I have approved the ATOMAL Agreement with respect to the New Parties and authorized the Department of Defense to cooperate with the New Parties in the context of NATO upon satisfaction of the requirements of section 123 of the Atomic Energy Act of 1954, as amended.

In accordance with the Atomic Energy Act of 1954, as amended, I am submitting to each house of Congress an authoritative copy of the ATOMAL Agreement as signed by each of the New Parties, together with a copy of the letter from the Secretary of Defense recommending my approval of the ATOMAL Agreement with respect to the New parties and a copy of my approval letter. The 60-day continuous session period provided for in section 123 begins upon receipt of this submission.

Sincerely,

GEORGE W. BUSH.
THE WHITE HOUSE,

Memorandum for the Secretary of Defense
Subject: Provision of Atomic Information to the Czech Republic, the
Republic of Hungary, the Republic of Poland, and Spain

In your memorandum to me of July 18, 2003, you recommended
that I approve pursuant to sections 123 and 144b. of the Atomic
Energy Act of 1954, as amended, an agreement for cooperation
within the context of the North Atlantic Treaty Organization
(NATO) as between the Government of the United States and the
following four members of NATO: the Czech Republic, the Republic
of Hungary, the Republic of Poland, and Spain, hereinafter the
“New Parties.” The subject agreement is the Agreement between
the Parties to the North Atlantic Treaty for Co-operation Regarding
Atomic Information, including a technical annex and security
annex (hereinafter collectively referred to as the ATOMAL Agree-
ment), which entered into force on March 12, 1965, with respect to
the United States and the other members of NATO at that time.

Having considered your recommendations and the cooperation
provided for in the ATOMAL Agreement with respect to the New
Parties, in accordance with sections 123 and 144b. of the Atomic
Energy Act of 1954, as amended, I hereby:

a. Determine that the performance of the ATOMAL Agreement,
including the proposed cooperation and the proposed communi-
cation of Restricted Data thereunder, with respect to the New Par-
ties, will promote the common defense and security, and will not
constitute an unreasonable risk to those interests.

b. Approve the ATOMAL Agreement with respect to the New
Parties.

c. Authorize the Department of Defense to cooperate with the
New Parties to the ATOMAL Agreement in the context of NATO
upon satisfaction of the requirements of section 123 of the Atomic
Energy Act of 1954, as amended.

GEORGE W. BUSH.
Memorandum for the President
Through: Assistant to the President for National Security Affairs
Subject: Provision of Atomic Information to the Czech Republic, the Republic of Hungary, the Republic of Poland, and Spain

I hereby submit for your consideration and approval pursuant to sections 123 and 144 b. of the Atomic Energy Act of 1954, as amended, an agreement for cooperation authorizing the exchange of atomic information within the context of the North Atlantic Treaty Organization (NATO) as between the United States and the following four members of NATO: the Czech Republic, the Republic of Hungary, the Republic of Poland, and Spain, hereinafter the “New Parties.” The attached Agreement is the Agreement between the Parties to the North Atlantic Treaty for Co-operation Regarding Atomic Information, including a technical annex and a security annex (hereinafter collectively referred to as the ATOMAL Agreement), which entered into force on March 12, 1965, with respect to the United States and the other NATO members at that time. This agreement continues in force with respect to the original parties and is being submitted now only with respect to the New Parties. The ATOMAL Agreement will not become effective as an agreement for cooperation under U.S. law with respect to the New Parties until completion of procedures prescribed by sections 123 and 144 b. of the Atomic Energy Act of 1954, as amended. (One of those prescribed procedures is authorization of execution of the agreement; the ATOMAL Agreement having been executed by the United States in 1964, there is no need to approve its execution by the United States now).

The ATOMAL Agreement authorizes communication by the Government of the United States to NATO and its member states of such atomic information as is determined by the Government of the United States of America to be necessary to:

a. the development of defense plans;
b. the training of personnel in the employment of and defense against atomic weapons and other military applications of atomic energy;
c. the evaluation of the capabilities of potential enemies in the employment of atomic weapons and other military applications of atomic energy; and
d. the development of delivery systems compatible with the atomic weapons which they carry.

“Atomic information” is defined in Article IX of the ATOMAL Agreement as “information which is designated ‘Restricted Data’ or ‘Formerly Restricted Data’ by the Government of the United States of America.” For more than 35 years, the ATOMAL Agreement has served as the framework within which NATO and the other NATO
members party to this agreement have received the information that is necessary to an understanding and knowledge of, and participation in, the political and strategic consensus upon which the collective military capacity of the alliance depends.

No member of NATO may receive atomic information from the United States unless it is also a party to the ATOMAL Agreement. When that agreement was concluded in 1964, all of the members of NATO at that time became parties. The ATOMAL Agreement contains no accession clause. It, in effect, constitutes a bilateral section 144 b. agreement between the United States and each of the other signatories in the context of NATO. Accordingly, signature of the ATOMAL Agreement by any new member of NATO, in effect, would create a new bilateral agreement between the United States and that country that would have to be submitted to Congress in accordance with section 123 as a new agreement for cooperation between the United States and the new member in the context of NATO. Since conclusion of the ATOMAL Agreement in 1964, the Czech Republic, the Republic of Hungary, the Republic of Poland, and Spain have become members of NATO, have now signed that agreement and have indicated their willingness to be bound by it. Their participation in the ATOMAL Agreement will give them the same standing within the alliance with regard to nuclear matters as that of the other members. In order to authorize communication of atomic information to those four countries on the same basis as the original parties to the ATOMAL Agreement, I recommend that you submit to Congress, for a period of sixty days of continuous session pursuant to section 123 of the Act, the ATOMAL Agreement as an agreement for cooperation between the United States and each of the New Parties.

The ATOMAL Agreement, which was in compliance with the substantive requirements of section 123 when it originally entered into force, continues to be in compliance with the substantive requirements of section 123 as it has since been amended. This agreement permits only the transfer of information, not weapons, nuclear material or equipment. Since only atomic information is transferred pursuant to this agreement, the only relevant substantive provision of section 123 relates to restrictions on retransfer of Restricted Data. Section 123 a.(5) of the Atomic Energy Act of 1954, as amended, requires for an agreement for cooperation “a guaranty by the cooperating party that any . . . Restricted Data transferred pursuant to the agreement for cooperation . . . will not be transferred to unauthorized persons or beyond the jurisdiction or control of the cooperating party without the consent of the United States.” This requirement is met in this Agreement by the commitments set forth in the following paragraphs of Article V of the ATOMAL Agreement:

4. Atomic information communicated or exchanged pursuant to this Agreement shall not be communicated or exchanged by the North Atlantic Treaty Organization or persons under its jurisdiction to any unauthorized persons or, except as provided in paragraph 5 of this article, beyond the jurisdiction of that Organization.

5. Unless otherwise specified by the Government of the United States of America, United States atomic information provided to the North Atlantic Treaty Organization may be communicated by
the North Atlantic Treaty Organization to its member states as necessary to carry out functions related to NATO missions, provided that dissemination of such atomic information within such member states is limited to those specific individuals concerned with the NATO missions for which the information is required. Member states agree that atomic information so received from the North Atlantic Treaty Organization or otherwise pursuant to this Agreement will not be transferred to unauthorized persons or beyond the jurisdiction of the recipient member state; however, such information may be communicated to the North Atlantic Treaty Organization or, when authorized by the Government of the United States of America, to other member states requiring the information for functions related to NATO missions.

In the last sentence of paragraph 5, member states agree not to transfer atomic information received pursuant to this agreement to unauthorized persons or beyond the jurisdiction of the recipient member state. Although they additionally are expressly permitted in that sentence to communicate such information to NATO, they may communicate it to other member states only "when authorized by the Government of the United States of America." With respect to NATO, the first sentence of paragraph 5 allows the United States to specify that NATO may not communicate United States atomic information to any particular member state or states. Thus, an effect of paragraph 5 is to allow the United States to specify that no atomic information may be transferred to any member of NATO that is not a party to the ATOMAL Agreement either by NATO or duly authorized member state recipients except with United States authorization. Furthermore, Article VI of the ATOMAL Agreement allows the United States, notwithstanding any other provision of the Agreement, to restrict dissemination of any atomic information that it provides. These provisions meet the requirement of section 123 a.(5) of the Atomic Energy Act, as amended, because the United States can, and must specify that no atomic information may be transferred to any NATO member until it becomes a party to the ATOMAL Agreement. (As noted above, "atomic information" includes both Restricted Data and Formerly Restricted Data.)

The New Parties, in participating with the Government of the United States in NATO, are making substantial and material contributions to the mutual defense and security. It is the view of the Department of Defense that the addition of the New Parties to the ATOMAL Agreement is entirely in accord with the provisions of the Atomic Energy Act of 1954, as amended. It is the considered opinion of the Department of Defense that the performance of the ATOMAL Agreement with the New Parties will promote and will not constitute an unreasonable risk to the common defense and security. Accordingly, in accordance with sections 123 and 144 b. of the Atomic Energy Act of 1954, as amended, I recommend that you sign the determination, approval, and authorization at attachment 1, whereby you:

a. Determine that the performance of the ATOMAL Agreement, including the proposed cooperation and the proposed communication of Restricted Data thereunder, with respect to
the New Parties will promote, and will not constitute an unreasonable risk to, the common defense and security;
b. Approve the ATOMAL Agreement with respect to the New Parties; and
c. Authorize the Department of Defense to cooperate with the New Parties to the ATOMAL Agreement in the context of NATO upon satisfaction of the requirements of section 123 of the Atomic Energy Act of 1954, as amended.
I further recommend that you sign the proposed transmittal to the Congress at Attachment 2. The U.S. Department of State and the U.S. Department of Energy concur in the foregoing recommendations.

Donald H. Rumsfeld.
AGREEMENT BETWEEN THE PARTIES TO THE NORTH ATLANTIC TREATY FOR CO-OPERATION REGARDING ATOMIC INFORMATION

PREAMBLE

The Parties to the North Atlantic Treaty, signed at Washington on 4th April, 1949,

Recognising that their mutual security and defence requires that they be prepared to meet the contingencies of atomic warfare, and

Recognising that their common interest will be advanced by making available to the North Atlantic Treaty Organisation and its member states information pertinent thereto, and

Taking into consideration the United States Atomic Energy Act of 1954, as amended, which was prepared with these purposes in mind,

Acting on their own behalf and on behalf of the North Atlantic Treaty Organisation,

Agree as follows:

ARTICLE I

In accordance with and subject to the requirements of the United States Atomic Energy Act of 1954, as amended, the Government of the United States of America will, while the North Atlantic Treaty Organisation continues to make substantial and material contributions to the mutual defence and security, co-operate by communicating, from time to time, to the North Atlantic Treaty Organisation and its member states, while they continue to make such contributions, atomic information in accordance with the provisions of this Agreement, provided that the Government of the United States of America determines that such co-operation will promote and will not constitute an unreasonable risk to its defence and security.
ARTICLE II

Paralleling the undertaking of the Government of the United States of America under this Agreement, the other member states of the North Atlantic Treaty Organisation will, to the extent they deem necessary, communicate to the North Atlantic Treaty Organization, including its military and civilian elements, and to member states atomic information of their own origin of the same type provided for in this Agreement. The terms and conditions governing these communications by other member states will be the subject of subsequent agreements, but will be the same or similar to the terms and conditions specified in this Agreement.

ARTICLE III

The Government of the United States of America will communicate to the North Atlantic Treaty Organization, including its military and civilian elements, and to member states of the North Atlantic Treaty Organization requiring the atomic information in connection with their functions related to NATO missions, such atomic information as is determined by the Government of the United States of America to be necessary to:

(a) the development of defence plans;

(b) the training of personnel in the employment of and defence against atomic weapons and other military applications of atomic energy;

(c) the evaluation of the capabilities of potential enemies in the employment of atomic weapons and other military applications of atomic energy; and

(d) the development of delivery systems compatible with the atomic weapons which they carry,
ARTICLE IV

1. Co-operation under this Agreement will be carried out by the Government of the United States of America in accordance with its applicable laws.

2. Under this Agreement there will be no transfer by the Government of the United States of America of atomic weapons, non-nuclear parts of atomic weapons, or non-nuclear parts of atomic weapons systems involving Restricted Data.

3. The atomic information communicated by the Government of the United States of America pursuant to this Agreement shall be used exclusively for the preparation or implementation of NATO defence plans and activities and the development of delivery systems in the common interests of the North Atlantic Treaty Organisation.

ARTICLE V

1. Atomic information communicated pursuant to this Agreement shall be accorded full security protection under applicable NATO regulations and procedures, agreed security arrangements, and national legislation and regulations. In no case will the North Atlantic Treaty Organisation or its member states maintain security standards for the safeguarding of atomic information less restrictive than those set forth in the pertinent NATO security regulations and other agreed security arrangements in effect on the date this Agreement comes into force.

2. The establishment and co-ordination of the security programmes in all NATO military and civilian elements will be effected under the authority of the North Atlantic Council in conformity with procedures set forth in agreed security arrangements.
3. Atomic information communicated by the Government of the United States of America pursuant to this Agreement will be made available through channels for communicating atomic information now existing or as may be hereafter agreed.

4. Atomic information communicated or exchanged pursuant to this Agreement shall not be communicated or exchanged by the North Atlantic Treaty Organization or persons under its jurisdiction to any unauthorized persons or, except as provided in paragraph 5 of this article, beyond the jurisdiction of that Organization.

5. Unless otherwise specified by the Government of the United States of America, United States atomic information provided to the North Atlantic Treaty Organization may be communicated by the North Atlantic Treaty Organization to its member states as necessary to carry out functions related to NATO missions, provided that dissemination of such atomic information within such member states is limited to those specific individuals concerned with the NATO missions for which the information is required. Member states agree that atomic information so received from the North Atlantic Treaty Organization or otherwise pursuant to this Agreement will not be transferred to unauthorized persons or beyond the jurisdiction of the recipient member state; however, such information may be communicated to the North Atlantic Treaty Organization or, when authorized by the Government of the United States of America, to other member states requiring the information for functions related to NATO missions.
ARTICLE VI

Other provisions of this Agreement notwithstanding, the Government of the United States of America may stipulate the degree to which any of the atomic information made available by it to the North Atlantic Treaty Organization or member states may be disseminated, may specify the categories of persons who may have access to such information, and may impose such other restrictions on the dissemination of information as it deems necessary.

ARTICLE VII

1. A Party receiving atomic information under this Agreement shall use it for the purposes specified herein only. Any inventions or discoveries resulting from possession of such information on the part of a recipient Party or persons under its jurisdiction shall be made available to the Government of the United States of America for defense purposes without charge in accordance with such arrangements as may be agreed and shall be safeguarded in accordance with the provisions of Article V of this Agreement.

2. The application or use of any information communicated under this Agreement shall be the responsibility of the Party receiving it; the Party communicating the information does not provide any indemnity or warranty with respect to its application or use.

ARTICLE VIII

Nothing in this Agreement shall be considered to supersede or otherwise affect bilateral agreements between Parties to this Agreement providing for co-operation in the exchange of atomic information.
ARTICLE IX

For the purposes of this Agreement:

(a) "Atomic weapon" means any device utilizing atomic energy, exclusive of the means for transporting or propelling the device (where such means is a separable and divisible part of the device), the principal purpose of which is for use as, or for development of, a weapon, a weapon prototype, or a weapon test device.

(b) "Atomic information" to be provided by the Government of the United States of America under this Agreement means information which is designated "Restricted Data" or "Formerly Restricted Data" by the Government of the United States of America.

ARTICLE X

1. This Agreement shall enter into force upon receipt by the Government of the United States of America of notification from all Parties to the North Atlantic Treaty that they are willing to be bound by the terms of this Agreement.

2. The Government of the United States of America will inform all Parties to the North Atlantic Treaty, and will also inform the North Atlantic Treaty Organisation, of each notification and of the entry into force of this Agreement.

3. This Agreement shall remain in force until terminated by unanimous agreement or superseded by another agreement, it being understood, however, that termination of this Agreement as a whole shall not release any Party from the requirements of this Agreement to safeguard information made available pursuant to it.
ARTICLE XI

Notwithstanding the provisions of Article VII(4) of the Agreement between the Parties to the North Atlantic Treaty for Co-operation regarding Atomic Information, signed in Paris on 22nd June, 1949, the present Agreement shall upon its entry into force supersede the above-mentioned Agreement. It being understood, however, that information communicated under that Agreement shall be considered for all purposes to have been communicated under the provisions of this Agreement.

ARTICLE XII

This Agreement shall bear the date on which it is opened for signature and shall remain open for signature until it has been signed by all the States Parties to the North Atlantic Treaty.

In witness whereof the undersigned Representatives have signed the present Agreement on behalf of their respective States, members of the North Atlantic Treaty Organization, and on behalf of the North Atlantic Treaty Organisation.

SECRET TECHNICAL ANNEX TO THE AGREEMENT
BETWEEN THE PARTIES TO THE NORTH ATLANTIC
TREATY FOR CO-OPERATION REGARDING ATOMIC
INFORMATION

The provisions of this Annex implement certain of the
provisions of the Agreement for Co-operation Regarding
Atomic Information made at Paris on 19th September 1974
(hereinafter referred to as the Agreement) of which this
Annex forms an integral part.

SECTION I

Subject to the terms and conditions of the Agreement,
the types of atomic information which the Government of
the United States of America may make available to the
North Atlantic Treaty Organization and its member states
are:

A. As may be necessary for mutual defence planning,
training, and logistical requirements, information concern-
ing the numbers, locations, types, yields, arming, off-load,
command and control, and fusing of those atomic weapons
which can be made available for use by or in support of the
North Atlantic Treaty Organization.

B. Effects to be expected or resulting from the detona-
tion of atomic weapons.

C. Response of structures, equipment, communications
and personnel to the effects of atomic weapons, including
damage or casualty criteria.

D. Methods and procedures for analyses relating to the
effects of atomic weapons.

E. Information on the capabilities of potential enemy
nations for atomic warfare.
SECRET TECHNICAL ANNEX TO THE AGREEMENT
BETWEEN THE PARTIES TO THE NORTH ATLANTIC
TREATY FOR CO-OPERATION REGARDING ATOMIC
INFORMATION

F. Information on atomic weapons and atomic weapons
systems required for attainment of delivery capability with
specified atomic weapons which can be made available for
use by or in support of the North Atlantic Treaty Organiza-
tion, including information required for evaluation of atomic
weapons systems to determine NATO requirements and
strategy.

G. Information regarding delivery systems, including
tactics and techniques and duties of maintenance, assembly,
delivery and launch crews required for attainment of deliv-
ery capability with specified atomic weapons.

H. To the extent that they will influence NATO planning,
the results to be expected from the strategic air offensive.

I. Information required for attainment of compatibility
of specified atomic weapons with specified delivery vehicles.

J. Safety features of specified atomic weapons and of the
operational systems associated with such weapons and infor-
mation necessary and appropriate for salvage and recovery
operations incidental to a weapons accident.

K. Information required in planning for and training of
personnel in the employment of and defence against atomic
weapons and including information concerning:

(1) Military uses of isotopes for medical purposes.

(2) Defence against radiological warfare.

L. Information regarding civil defence against atomic
attacks.
SECRET TECHNICAL ANNEX TO THE AGREEMENT
BETWEEN THE PARTIES TO THE NORTH ATLANTIC
TREATY FOR CO-OPERATION REGARDING ATOMIC
INFORMATION

M. Other information as may be determined by approp-
riate United States Authorities to be necessary for support
of the North Atlantic Treaty Organisation and transferable
under provisions of the Atomic Energy Act of 1954, as
amended, and the Agreement.

SECTION II

No information on other military applications of atomic
energy, military reactors, or naval nuclear propulsion
plants, will be communicated under the Agreement.

CONFIDENTIAL SECURITY ANNEX TO THE AGREEMENT
BETWEEN THE PARTIES TO THE NORTH ATLANTIC TREATY
FOR CO-OPERATION REGARDING ATOMIC INFORMATION

This Annex sets forth the security measures which the North Atlantic Treaty Organization and the member states shall apply to safeguard atomic information made available by the Government of the United States of America to the North Atlantic Treaty Organization and its member states pursuant to the Agreement for Co-operation Regarding Atomic Information done at Paris on 17 November 1949 (referred to hereinafter as "the Agreement") of which this Annex is an integral part. In the event a member of the North Atlantic Treaty Organization other than the Government of the United States of America makes atomic information available pursuant to Article II of the Agreement, such information shall be safeguarded by security measures no less restrictive than those set forth in this Annex.

SECTION I

GENERAL

A. NATO security regulations, no less restrictive than those which are presently set forth in C-M-35(Final) and the Confidential Supplement of 1st January, 1961, thereto, as well as the security measures specified in this Annex, shall be applied by NATO military and civilian elements and by member states to atomic information communicated pursuant to the Agreement.

B. The security programme as implemented by all NATO military and civilian elements and by member states receiving atomic information pursuant to the Agreement shall provide fully for carrying out the security requirements laid down in this Annex.
CONFIDENTIAL SECURITY ANNEX TO THE AGREEMENT
BETWEEN THE PARTIES TO THE NORTH ATLANTIC TREATY
FOR CO-OPERATION REGARDING ATOMIC INFORMATION

C. The Secretary General, acting in the name of the North
Atlantic Council and under its authority, shall be responsible
for supervising the application of the NATO security programme
for the protection of atomic information under the Agreement.
He will ascertain by means of the procedures set forth in
Section II of this Annex that all measures required by the NATO
security programme are taken in NATO civil and military
elements and national civil and military elements to protect
the information exchanged under the Agreement.

D. No individual shall be entitled to access to atomic
information solely by virtue of rank, appointment, or security
clearance.

E. Access to atomic information made available to the
North Atlantic Treaty Organization shall be limited to nationals
of member states of the North Atlantic Treaty Organization who
have been granted security clearances in accordance with
Section II of this Annex and whose responsibilities require access
to the information.

F. Access to atomic information made available to a
member state pursuant to the Agreement shall be limited to
its nationals who have been granted security clearances in
accordance with Section II of this Annex and whose duties require
access in order that the member state can fulfill its responsibili-
ties and commitments to the North Atlantic Treaty Organization.

SECTION II

PERSONNEL SECURITY

A. No individual shall be granted a security clearance for
access to atomic information unless it is determined that
such clearance will not endanger the security of the North
Atlantic Treaty Organization or the national security of the
member states of the North Atlantic Treaty Organization,
CONFIDENTIAL SECURITY ANNEX TO THE AGREEMENT BETWEEN THE PARTIES TO THE NORTH ATLANTIC TREATY FOR CO-OPERATION REGARDING ATOMIC INFORMATION

H. Prior to affording access to atomic information, the determination of eligibility (decision to grant security clearance) for each individual to be afforded such access shall be made by a responsible authority of the government of the individual concerned.

C. The decision as to whether the granting of a security clearance is clearly consistent with the interests of security shall be a determination based on all available information. Prior to this determination, an investigation shall be conducted by a responsible government authority and the information developed shall be reviewed in the light of the principal types of derogatory information which create a question as to an individual's eligibility for security clearance, as these are set forth in Section III of the Confidential Supplement of 1st January, 1961, to C-M(55)14(First).

D. The minimum scope and extent of the investigation shall be in accordance with the standards set out in Section II of the Confidential Supplement to C-M(55)14(First), except that a background investigation shall be required for clearance for access to atomic information classified Secret for individuals other than members of the armed forces or civilian personnel of the military establishments of the member states.

E. Each establishment handling atomic information shall maintain an appropriate record of the clearance of individuals authorized to have access to such information at that establishment. Each clearance shall be reviewed, as the occasion demands, to ensure that it conforms with the current standards applicable to the individual's employment, and shall be re-examined as a matter of priority when information is received which indicates that continued employment involving access to atomic information may no longer be consistent with the interests of security.

F. Effective liaison shall be maintained in each state between the national agencies responsible for national security and the authority responsible for making clearance determinations to assure prompt notification of information with derogatory implications developed subsequent to the grant of security clearance.
CONFIDENTIAL SECURITY ANNEX TO THE AGREEMENT
BETWEEN THE PARTIES TO THE NORTH ATLANTIC TREATY
FOR CO-OPERATION REGARDING ATOMIC INFORMATION

SECTION III

PHYSICAL SECURITY

A. Atomic information shall be protected physically against espionage, sabotage, unauthorized access or any other hostile activity. Such protection shall be commensurate with the importance of the security interest involved.

B. Programmes for physical security of atomic information shall be established so as to assure:

1. Proper protection of atomic information on hand for immediate use, in storage or in transit.

2. The establishment of security areas, with controlled access, when deemed necessary by reason of the sensitivity, character, volume and use of the classified atomic information, and the character and location of the building or buildings involved.

3. A system of controlled access which shall embody procedures for a competent authority to authorize access, accurate methods of personal identification and accountability for identification media; and a means of enforcing limitations on movement within, and access to, security areas.

C. The provisions of paragraph B above will be in addition to the procedures set forth in Section IV of C-16(55):14(1)(b).
CONFIDENTIAL SECURITY ANNEX TO THE AGREEMENT
BETWEEN THE PARTIES TO THE NORTH ATLANTIC TREATY
FOR CO-OPERATION REGARDING ATOMIC INFORMATION

SECTION IV

CONTROL OF ATOMIC INFORMATION

A. Information control programmes shall be maintained which will have for their basic purposes:

1. Control of access,
2. Ready accountability commensurate with the degree of sensitivity,
3. Destruction when no longer needed.

B. Security classifications applied by the Government of the United States of America to atomic information communicated under the Agreement shall be observed at all times; regrading or declassification may be done only with the approval of the Government of the United States of America.

C. Documents containing United States atomic information communicated under the Agreement shall bear NATO markings and a security classification equivalent to that assigned by the Government of the United States of America, followed by the word ATOMIC. In addition, the following marking shall be entered on the document in the language of the document:

"This document contains United States atomic information (Restricted Data or Formerly Restricted Data) made available pursuant to the NATO Agreement for Co-operation Regarding Atomic Information dated , and will be safeguarded accordingly."
CONFIDENTIAL SECURITY ANNEX TO THE AGREEMENT BETWEEN THE PARTIES TO THE NORTH ATLANTIC TREATY FOR CO-OPERATION REGARDING ATOMIC INFORMATION

D. Accountability records shall be maintained for all Top Secret and Secret documents, and for all documents on which special limitations have been placed in accordance with Article VI of the Agreement. These records shall show the identity of all recipients of documents on which special limitations have been placed.

E. Reproductions, including extracts and translations, of documents containing United States atomic information bearing the markings specified in paragraph C above may be made under the following rules:

1. Documents classified Secret and Top Secret may be reproduced only with the prior approval of the Government of the United States of America. Such documents shall bear a suitable notation to this effect, in emergencies when prior approval cannot be obtained in time, this rule may be waived, but the Government of the United States of America shall be so informed by the most expeditious means.

2. Documents classified Confidential may be reproduced only as necessary to meet current requirements.

3. Reproductions, including extracts and translations, shall bear all security markings (including the marking described in paragraph C) found on the original document and shall be placed under the accountability controls applied to the original document. Where paragraphs bear separate classifications, the security classification of documents containing extracted atomic information shall bear the classification of the paragraph with the highest classification from which extracts were taken and where appropriate the marking specified in paragraph C. Accountability controls for extracted atomic information shall be as provided in paragraph D of this Section. Further, such special limitations as may have been placed on the original document shall apply to documents containing the extracts.
CONFIDENTIAL SECURITY ANNEX TO THE AGREEMENT BETWEEN THE PARTIES TO THE NORTH ATLANTIC TREATY FOR CO-OPERATION REGARDING ATOMIC INFORMATION

F. Documents prepared to record atomic information received under the Agreement by oral or visual means shall bear the markings specified in paragraph C above and shall be subject to the rules for accountability and control applicable to the level of classification involved.

SECTION V

CHANNELS OF TRANSMISSION

Communications by the Government of the United States of America of atomic information under the Agreement, including oral and visual communication, shall be through channels now existing or as may be hereafter agreed. To assist the Secretary General in the discharge of his security responsibilities under paragraph C of Section I of the present Annex, the Government of the United States of America shall provide the Secretary General with sufficient information to identify each written communication of atomic information by the Government of the United States of America and each communication authorized by the Government of the United States of America under the Agreement. This information will also be sent to the Standing Group for all communications made to military elements.

SECTION VI

REPORTS

A. Each member state and NATO military and civilian element which receives United States atomic information under the Agreement shall submit by 31st March of each year, utilizing channels now existing or as may be hereafter agreed, through the Secretary General to the Government of the United States of America a report containing the following:

1. A list of all atomic documents received from the Government of the United States of America during the twelve months ending 31st December of the previous year.
CONFIDENTIAL SECURITY ANNEX TO THE AGREEMENT
BETWEEN THE PARTIES TO THE NORTH ATLANTIC TREATY
FOR CO-OPERATION REGARDING ATOMIC INFORMATION

2. A record of the distribution of the documents listed
in paragraph 1 above, and

3. A certification that a physical count has been made
of all atomic documents for which the member state
or NATO military or civilian element is accountable
under the Agreement. The certification shall
include a list of all documents unaccounted for,
with a statement of the results of the investigation
of the loss and the corrective action taken to prevent
a recurrence.

B. If United States atomic information communicated
under the Agreement is compromised by loss of documents or any
other means, an immediate report including all pertinent infor-
mation concerning the compromise shall be made, utilizing
channels now existing or as may be hereafter agreed, to the
Secretary General and the Government of the United States of
America.

SECTION VII
SECURITY EDUCATION

Member states and NATO military and civilian elements
receiving information under the Agreement shall maintain an
adequate programme to assure that all individuals who are
authorized access to atomic information are informed of their
responsibilities to safeguard that information. The programme
shall include a specific initial indoctrination and orientation,
periodic re-emphasis of individual responsibilities and a
termination interview stressing the continuing responsibilities
for protection of atomic information.
CONFIDENTIAL SECURITY ANNEX TO THE AGREEMENT
BETWEEN THE PARTIES TO THE NORTH ATLANTIC TREATY
FOR CO-OPERATION REGARDING ATOMIC INFORMATION

SECTION VII
SECURITY OF CLASSIFIED CONTRACTS

Every classified contract, sub-contract, consultant agreement
or other arrangement entered into by Parties to the Agreement,
the performance of which involves access to atomic information
exchanged under the Agreement, shall contain appropriate
provisions imposing obligations on the private parties involved
to abide by the security arrangements set forth in this Annex.

SECTION IX
CONTINUING REVIEW OF SECURITY SYSTEM

A. It is recognized that effective and prompt implementation
of security policies can be materially advanced through
reciprocal visits of security personnel. It is agreed to continue
a thorough exchange of views relative to security policies,
standards and procedures and to permit United States security
working groups to examine and view at first hand the procedures
and practices of the agencies of the North Atlantic Treaty
Organization and of the agencies of member states responsible
for the protection of documents and information communicated
under the Agreement, such visits to be undertaken with a
view to achieving an understanding of adequacy and reasonable
comparability of the respective security systems.

B. The Secretary General and the Standing Group in the
case of visits to military elements, will be informed of these
visits and reports setting forth pertinent findings of the
United States working groups will be furnished to them
following each visit. All visits to national elements will be
carried out in co-operation with the national security authorities
of the states concerned.
CONFIDENTIAL SECURITY ANNEX TO THE AGREEMENT BETWEEN THE PARTIES TO THE NORTHERN ATLANTIC TREATY FOR CO-OPERATION REGARDING ATOMIC INFORMATION

SECTION X
SECURITY INSPECTIONS

A. Comprehensive security inspection of all NATO military and civilian elements and member nations which have received atomic information under the Agreement shall be made regularly, but not less often than once every twelve months, in accordance with the criteria set forth in Section II, paragraph A of this Annex. These inspections shall be made by the NATO agencies having responsibility for the application of the NATO security programme, using qualified personnel. The Council may, as it considers necessary or desirable, direct special inspections to be made and designate ad hoc inspection teams composed of personnel from NATO civilian and military agencies or other qualified personnel. Visits to military and civilian elements of member states will be co-ordinated with the appropriate national authorities.

B. All phases of the security programme shall be examined and within thirty days after the completion of the inspection a written report shall be submitted to the Secretary General.

C. Copies of these inspection reports shall be made available to the Secretary General and the United States pursuant to the Agreement and, consistent with other provisions thereof and as may be appropriate, to the installation inspected, the national security authority concerned, and the military headquarters.

D. Within thirty days after receipt of the inspection report, the appropriate authorities of the NATO or national element inspected shall forward to the Secretary General a report of action taken to correct all deficiencies listed in the inspection report. After reviewing the inspection reports and the reports of corrective action taken, the Secretary General, acting on behalf of the Council, shall, as appropriate, draw
CONFIDENTIAL SECURITY ANNEX TO THE AGREEMENT BETWEEN THE PARTIES TO THE NORTH ATLANTIC TREATY FOR CO-OPERATION REGARDING ATOMIC INFORMATION

the attention of the national authorities, the Standing Group or the civilian element concerned in whatever further action may be required to meet NATO security criteria and the provisions of this Agreement. Copies of the reports of corrective action as well as copies of any comments forthcoming from the Secretary General in accordance with this paragraph shall be distributed in the same manner as provided in paragraph C of this section for the inspection reports.

E. In the event that a problem regarding corrective action arising from a security inspection remains unresolved after the application of procedures set forth in paragraph D of this section, the Secretary General shall bring the matter to the attention of the Council with a recommendation that an ad hoc inspection team be designated to investigate the problem and report to the Council, which will thereupon take appropriate action.
