U.S. GOVERNMENT PRINTING OFFICE

24–610 WASHINGTON : 2006

To the Congress of the United States:

I am pleased to transmit legislation and supporting documents to implement the United States-Bahrain Free Trade Agreement (the "Agreement"). This Agreement enhances our bilateral relationship with a strategic friend and ally in the Middle East region and will promote economic growth and prosperity in both nations.

In negotiating this Agreement, my Administration was guided by the objectives set out in the Trade Act of 2002. The Agreement reflects my Administration's commitment to opening markets and expanding opportunities for American workers, farmers, ranchers, and businesses. The Agreement will open Bahrain's market for U.S. manufactured goods, agricultural products, and services. As soon as it enters into force, the Agreement will eliminate tariffs on all manufactured goods that the United States sells to Bahrain and immediately remove Bahrain's import duties on over 80 percent of U.S. agricultural products. The Agreement is also one of the most comprehensive ever negotiated to reduce barriers to trade in services and will create new opportunities for U.S. services firms.

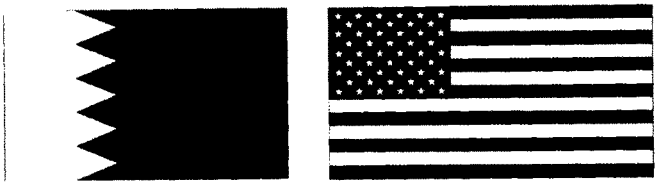

The Agreement contains procedures that will facilitate cooperation between the United States and Bahrain on environmental and labor matters. The labor chapter of the Agreement reinforces Bahrain's recent legislative actions to expand democracy and improve the protection of worker rights, including trade union rights. Provisions in the Agreement requiring effective enforcement of environmental laws will contribute to high levels of environmental protection.

The approval of this Agreement will be another significant step towards creating a Middle East Free Trade Area by 2013. This Agreement offers the United States yet another opportunity to encourage economic reform in a moderate Muslim nation as we have done through our free trade agreements with Jordan and Morocco. Leaders in Bahrain are supporting the pursuit of social and economic reforms in the region, encouraging foreign investment connected to broad-based development, and providing better protection for women and workers. It is strongly in our national interest to embrace and encourage these reforms, and passing this legislation is a crucial step toward that end.

GEORGE W. BUSH.

THE WHITE HOUSE, *November 16, 2005.*

2. The treatment to be accorded by a Party under paragraph 1 means, with respect to a regional level of government, treatment no less favorable than the most favorable treatment that regional level government accords to any like, directly competitive, or substitutable goods, as the case may be, of the Party of which it forms a part.

3. Paragraphs 1 and 2 shall not apply to the measures set out in Annex 2-A.

Section B: Tariff Elimination

ARTICLE 2.3: TARIFF ELIMINATION

1. Except as otherwise provided in this Agreement, neither Party may increase any existing customs duty, or adopt any new customs duty, on an originating good.

2. Except as otherwise provided in this Agreement, each Party shall progressively eliminate its customs duties on originating goods, in accordance with its Schedule to Annex 2-B.

3. On the request of either Party, the Parties shall consult to consider accelerating the elimination of customs duties set out in their Schedules to Annex 2-B. An agreement by the Parties to accelerate the elimination of a customs duty on a good shall supercede any duty rate or staging category determined pursuant to their Schedules to Annex 2-B for that good when approved by each Party in accordance with its applicable legal procedures.

4. For greater certainty, a Party may:

   (a) raise a customs duty back to the level established in its Schedule to Annex 2-B following a unilateral reduction; or

   (b) maintain or increase a customs duty as authorized by the Dispute Settlement Body of the WTO.

Section C: Special Regimes

ARTICLE 2.4: WAIVER OF CUSTOMS DUTIES

1. Neither Party may adopt any new waiver of customs duties, or expand with respect to existing recipients or extend to any new recipient the application of an existing waiver of customs duties, where the waiver is conditioned, explicitly or implicitly, on the fulfillment of a performance requirement.

2. Neither Party may, explicitly or implicitly, condition on the fulfillment of a performance requirement the continuation of any existing waiver of customs duties.

ARTICLE 2.5: TEMPORARY ADMISSION OF GOODS

1. Each Party shall grant duty-free temporary admission for:

(a) professional equipment, including equipment for the press or television, software, and broadcasting and cinematographic equipment, necessary for carrying out the business activity, trade, or profession of a business person who qualifies for temporary entry pursuant to the laws of the importing Party;

(b) goods intended for display or demonstration;

(c) commercial samples and advertising films and recordings; and

(d) goods imported for sports purposes,

regardless of their origin.

2. Each Party shall, at the request of the person concerned and for reasons its customs authority considers valid, extend the time limit for temporary admission beyond the period initially fixed.

3. Neither Party may condition the duty-free temporary admission of a good referred to in paragraph 1, other than to require that the good:

(a) be used solely by or under the personal supervision of a national or resident of the other Party in the exercise of the business activity, trade, profession, or sport of that person;

(b) not be sold or leased while in its territory;

(c) be accompanied by a security in an amount no greater than the charges that would otherwise be owed on entry or final importation, releasable on exportation of the good;

(d) be capable of identification when exported;

(e) be exported on the departure of the person referenced in subparagraph (a), or within such other period related to the purpose of the temporary admission as the Party may establish;

(f) be imported in no greater quantity than is reasonable for its intended use; and

4. If any condition that a Party imposes under paragraph 3 has not been fulfilled, the Party may apply the customs duty and any other charge that would normally be owed on the good.

5. Each Party, through its customs authority, shall adopt procedures providing for the expeditious release of goods admitted under this Article. To the extent possible, these procedures shall provide that when such goods accompany a national or resident of the other Party who is seeking temporary entry, the good shall be released simultaneously with the entry of that national or resident.

6. Each Party shall permit a good temporarily admitted under this Article to be exported through a customs port other than that through which it was admitted.

7. Each Party, through its customs authority, shall relieve the importer or other person responsible for a good admitted under this Article from any liability for failure to export the good on destruction of the good in the presence of the Party's customs authority or presentation of satisfactory proof to its customs authority, in accordance with its law, that the good has been destroyed within the original period fixed for temporary admission or any lawful extension.

8. Subject to Chapter Ten (Cross-Border Trade in Services):

(a) each Party shall allow a container used in international traffic that enters its territory from the territory of the other Party to exit its territory on any route that is reasonably related to the economic and prompt departure of such container;

(b) neither Party may require any bond or impose any penalty or charge solely because of any difference between the port of entry and the port of departure of a container;

(c) neither Party may condition the release of any obligation, including any bond, that it imposes in respect of the entry of a container into its territory on its exit through any particular port of departure; and

(d) neither Party may require that the carrier bringing a container from the territory of the other Party into its territory be the same carrier that takes such container to the territory of the other Party.

ARTICLE 2.6: GOODS RE-ENTERED AFTER REPAIR OR ALTERATION

1. Neither Party may apply a customs duty to a good, regardless of its origin, that re-enters its territory after that good has been exported from its territory to the territory of the other Party for repair or alteration, regardless of whether such repair or alteration could be performed in its territory.

2. Neither Party may apply a customs duty to a good, regardless of its origin, imported temporarily from the territory of the other Party for repair or alteration.

3. For purposes of this Article, **repair or alteration** means restoration, renovation, cleaning, resterilizing, or other operation or process that does not:

(b) transform an unfinished good into a finished good.

ARTICLE 2.7: DUTY-FREE ENTRY OF COMMERCIAL SAMPLES OF NEGLIGIBLE VALUE AND PRINTED ADVERTISING MATERIALS

Each Party shall grant duty-free entry to commercial samples of negligible value, and to printed advertising materials, imported from the territory of the other Party, regardless of their origin, but may require that:

(a) such samples be imported solely for the solicitation of orders for goods, or services provided from the territory, of the other Party or a non-Party; or

(b) such advertising materials be imported in packets that each contain no more than one copy of each such material and that neither such materials nor packets form part of a larger consignment.

Section D: Non-Tariff Measures

ARTICLE 2.8: IMPORT AND EXPORT RESTRICTIONS

1. Except as otherwise provided in this Agreement, neither Party may adopt or maintain any prohibition or restriction on the importation of any good of the other Party or on the exportation or sale for export of any good destined for the territory of the other Party, except in accordance with Article XI of GATT 1994 and its interpretive notes, and to this end Article XI of GATT 1994 and its interpretive notes are incorporated into and made a part of this Agreement, *mutatis mutandis*.[1]

2. The Parties understand that GATT 1994 rights and obligations incorporated by paragraph 1 prohibit, in any circumstances in which any other form of restriction is prohibited, a Party from adopting or maintaining:

(a) export and import price requirements, except as permitted in enforcement of countervailing and antidumping duty orders and undertakings;

(b) measures conditioning the grant of an import license on the fulfillment of a performance requirement; or

(c) voluntary export restraints inconsistent with Article VI of GATT 1994, as implemented under Article 18 of the WTO Agreement on Subsidies and Countervailing Measures and Article 8.1 of the WTO Agreement on Implementation of Article VI of GATT 1994.

3. In the event that a Party adopts or maintains a prohibition or restriction on the importation from or exportation to a non-Party of a good, no provision of this Agreement shall be construed to prevent the Party from:

(a) limiting or prohibiting the importation of the good of the non-Party from the territory of the other Party;

(b) requiring as a condition for exporting the good of the Party to the territory of the other Party, that the good not be re-exported to the non-Party, directly or indirectly, without being consumed in the territory of the other Party.

[1] For greater certainty, paragraph 1 applies to prohibitions or restrictions on the importation of remanufactured products.

4. In the event that a Party adopts or maintains a prohibition or restriction on the importation of a good from a non-Party, the Parties, on the request of either Party, shall consult with a view to avoiding undue interference with or distortion of pricing, marketing, and distribution arrangements in the other Party.

5. Paragraphs 1 through 4 shall not apply to the measures set out in Annex 2-A.

ARTICLE 2.9: ADMINISTRATIVE FEES AND FORMALITIES

1. Each Party shall ensure, in accordance with Article VIII:1 of GATT 1994 and its interpretive notes, that all fees and charges of whatever character (other than import and export duties, charges equivalent to an internal tax or other internal charges applied consistently with Article III:2 of GATT 1994, and antidumping and countervailing duties applied pursuant to a Party's law) imposed on, or in connection with, importation or exportation are limited in amount to the approximate cost of services rendered and do not represent an indirect protection to domestic goods or a taxation of imports or exports for fiscal purposes.

2. Neither Party may require consular transactions, including related fees and charges, in connection with the importation of any good of the other Party.

3. Each Party shall make available on the Internet a current list of the fees and charges it imposes in connection with importation or exportation.

4. The United States shall eliminate its merchandise processing fee on originating goods.

ARTICLE 2.10: EXPORT TAXES

Neither Party may adopt or maintain any tax, duty, or other charge on the export of any good to the territory of other Party, unless the tax, duty, or charge is also adopted or maintained on the good when destined for domestic consumption.

Section E: Agriculture

ARTICLE 2.11: AGRICULTURAL EXPORT SUBSIDIES

1. The Parties share the objective of the multilateral elimination of export subsidies for agricultural goods and shall work together toward an agreement in the WTO to eliminate those subsidies and prevent their reintroduction in any form.

2. Except as provided in paragraph 3, neither Party may introduce or maintain any export subsidy on any agricultural good destined for the territory of the other Party.

3. Where an exporting Party considers that a non-Party is exporting an agricultural good to the territory of the other Party with the benefit of export subsidies, the importing Party shall, on written request of the exporting Party, consult with the exporting Party with a view to agreeing on specific measures that the importing Party may adopt to counter the effect of such subsidized imports. If the importing Party adopts the agreed-on measures, the exporting Party shall refrain from applying any export subsidy to exports of such good to the territory of the importing Party.[2]

[2] For greater certainty, each Party confirms that any measure that it adopts pursuant to this paragraph shall be consistent with the WTO Agreement.

GENERAL NOTES
TARIFF SCHEDULE OF BAHRAIN

1. Relation to the Harmonized Tariff Schedule of the Kingdom of Bahrain. The provisions of this Schedule are generally expressed in terms of the Tariff Schedule of Bahrain, and the interpretation of the provisions of this Schedule, including the product coverage of subheadings of this Schedule, shall be governed by the General Notes, Section Notes, and Chapter Notes of the Tariff Schedule of Bahrain. To the extent that provisions of this Schedule are identical to the corresponding provisions of the Tariff Schedule of Bahrain, the provisions of this Schedule shall have the same meaning as the corresponding provisions of the Tariff Schedule of Bahrain.

2. Base Rates of Duty. The base rates of duty set out in this Schedule reflect the Tariff Schedule of Bahrain MFN rates of duty in effect from January 1, 2003.

3. Staging. In addition to the staging categories listed in Annex 2-B, this Schedule contains staging categories H and I:

(a) duties on goods provided for in the items in staging category H shall remain at base rates during years one through nine. Duties shall be removed, and such goods shall be duty-free, effective January 1 of year ten[1]; and

(b) duties on goods provided for in the items in staging category I shall remain at base rates during years one through nine. Duties shall be removed, and such goods shall be duty-free, effective January 1 of year ten.[2]

[1] Bahrain specifically reserves the right to establish regulatory measures or apply fees or excise charges pertaining to the distribution, sale, or consumption of goods provided for in the items in staging category H, provided that such measures, fees, or charges are not inconsistent with the terms of this Agreement or the WTO Agreement.

[2] For greater certainty. Bahrain may continue to prohibit the importation of goods provided for in the items in staging category I, provided that such prohibition is not inconsistent with the terms of this Agreement or the WTO Agreement.

CHAPTER THREE
TEXTILES AND APPAREL

ARTICLE 3.1: BILATERAL EMERGENCY ACTION

1. If, as a result of the reduction or elimination of a duty under this Agreement, a textile or apparel good benefiting from preferential tariff treatment is being imported into the territory of a Party in such increased quantities, in absolute terms or relative to the domestic market for that good, and under such conditions as to cause serious damage, or actual threat thereof, to a domestic industry producing a like or directly competitive good, the Party may, to the extent and for such time as may be necessary to prevent or remedy such damage and to facilitate adjustment, take emergency action, consisting of an increase in the rate of duty on the good to a level not to exceed the lesser of:

(a) the most-favored-nation ("MFN") applied rate of duty in effect at the time the action is taken; and

(b) the MFN applied rate of duty in effect on the date of entry into force of this Agreement.

2. In determining serious damage, or actual threat thereof, the importing Party:

(a) shall examine the effect of increased imports of the good from the exporting Party on the particular industry, as reflected in changes in such relevant economic variables as output, productivity, utilization of capacity, inventories, market share, exports, wages, employment, domestic prices, profits, and investment, none of which shall necessarily be decisive; and

(b) shall not consider changes in technology or consumer preference as factors supporting a determination of serious damage or actual threat thereof.

3. The importing Party may take an emergency action under this Article only following an investigation by its competent authorities.

4. The importing Party shall deliver to the exporting Party, without delay, written notice of its intent to take emergency action and, on the request of the exporting Party, shall enter into consultations with that Party regarding the matter.

5. An importing Party:

(a) shall not maintain an emergency action for a period exceeding three years;

(b) shall not take or maintain an emergency action against a good beyond ten years after the Party must eliminate customs duties on that good pursuant to this Agreement;

(c) shall not take an emergency action more than once against the same good of the other Party; and

(d) shall, on termination of the emergency action, apply to the good that was subject to the emergency action the rate of duty that would have been in effect but for the action.

6. The importing Party shall provide to the exporting Party mutually agreed trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the emergency action. Such concessions shall be limited to textile and apparel goods, unless the Parties agree otherwise. If the Parties are unable to agree on compensation, the exporting Party may suspend tariff concessions under this Agreement having trade effects substantially equivalent to the trade effects of the emergency action. Such tariff action may be taken against any goods of the importing Party. The exporting Party shall apply the tariff action only for the minimum period necessary to achieve the substantially equivalent trade effects. The importing Party's obligation to provide trade compensation and the exporting Party's right to take tariff action shall terminate when the emergency action terminates.

7. Nothing in this Agreement shall be construed to limit a Party's right to restrain imports of textile and apparel goods in a manner consistent with the Agreement on Textiles and Clothing or the Safeguards Agreement. However, a Party may not take or maintain an emergency action under this Article against a textile or apparel good that is subject, or becomes subject, to a safeguard measure that a Party takes pursuant to either such agreement.

ARTICLE 3.2: RULES OF ORIGIN AND RELATED MATTERS

Application of Chapter Four

1. Except as provided in this Chapter, including its Annexes, Chapter Four (Rules of Origin) applies to textile and apparel goods.

2. For greater certainty, the rules of origin set forth in this Agreement shall not apply in determining the country of origin of a textile or apparel good for non-preferential purposes.

Consultations

3. On the request of either Party, the Parties shall consult to consider whether the rules of origin applicable to a particular textile or apparel good should be revised to address issues of availability of supply of fibers, yarns, or fabrics in the territories of the Parties.

4. In the consultations referred to in paragraph 3, each Party shall consider all data presented by the other Party that demonstrate substantial production in its territory of a particular fiber, yarn, or fabric. The Parties shall consider that there is substantial production if a Party demonstrates that its domestic producers are capable of supplying commercial quantities of the fiber, yarn, or fabric in a timely manner.

5. The Parties shall endeavor to conclude consultations within 60 days after delivery of a request. If the Parties agree in the consultations to revise a rule of origin, the agreement shall supersede that rule of origin when approved by the Parties in accordance with Article 21.2 (Amendments).

De Minimis

6. A textile or apparel good that is not an originating good because certain fibers or yarns used in the production of the component of the good that determines the tariff classification of the good do not undergo an applicable change in tariff classification set out in Annex 3-A, shall nonetheless be considered to be an originating good if the total weight of all such fibers or yarns in that component is not more than seven percent of the total weight of that component. Notwithstanding

the preceding sentence, a good containing elastomeric yarns in the component of the good that determines the tariff classification of the good shall be considered to be an originating good only if such yarns are wholly formed in the territory of a Party.

Treatment of Sets

7. Notwithstanding the specific rules of origin set out in Annex 3-A, textile or apparel goods classified under General Rule of Interpretation 3 of the Harmonized System as goods put up in sets for retail sale shall not be regarded as originating goods unless each of the goods in the set is an originating good or the total value of the non-originating goods in the set does not exceed 10 percent of the value of the set determined for purposes of assessing customs duties.

Preferential Tariff Treatment for Certain Non-Originating Textile and Apparel Goods

8. Subject to paragraph 9, each Party shall accord preferential tariff treatment to the following goods, if they meet the applicable conditions for preferential tariff treatment under this Agreement other than the condition that they be originating goods:

(a) cotton or man-made fiber fabric goods provided for in Chapters 52, 54, 55, 58, and 60 of the Harmonized System that are wholly formed in the territory of a Party from yarn produced or obtained outside the territory of a Party;

(b) cotton or man-made fiber fabric goods provided for in Annex 3-B that are wholly formed in the territory of a Party from yarn spun in the territory of a Party from fiber produced or obtained outside the territory of a Party;

(c) cotton or man-made fiber apparel goods provided for in Chapters 61 or 62 of the Harmonized System that are cut or knit to shape, or both, and sewn or otherwise assembled in the territory of a Party from fabric or yarn produced or obtained outside the territory of a Party; and

(d) cotton or man-made fiber made-up goods provided for in Chapter 63 that are cut or knit to shape, or both, and sewn or otherwise assembled in the territory of a Party from fabric wholly formed in a Party from yarn produced or obtained outside the territory of a Party.

9. The treatment described in paragraph 8 shall be limited to goods imported into the territory of a Party up to an annual total quantity of 65 million square meters equivalent in each of the first ten years after entry into force of this Agreement. Upon the request of an exporting Party, the importing Party shall allocate such quantity among the four categories of goods described in paragraph 8, in accordance with such request. To determine the quantity in square meters equivalent that is charged against the annual quantity, the importing Party shall apply the conversion factors listed in the *Correlation: U.S. Textile and Apparel Category System with the Harmonized Tariff Schedule of the United States of America ("The Textile Correlation")*, 2003, U.S. Department of Commerce, Office of Textiles and Apparel, or successor publication.

10. At the written request of an exporting Party, an importing Party shall require an importer claiming preferential tariff treatment under paragraph 8 to submit to the importing Party a certificate of eligibility. An importing Party shall not accept such a

claim unless the certificate of eligibility is properly completed and signed by an authorized official of the exporting Party and is presented at the time the preferential tariff treatment is claimed.

11. Where an importing Party has reason to question the accuracy of a claim under paragraph 8, or where an importing Party seeks such information in the course of a verification under Article 3.3, it may require an importer claiming preferential tariff treatment for a textile or apparel good under paragraph 8 to prepare, sign, and submit to its competent authority a declaration supporting such a claim for preferential tariff treatment and to provide all pertinent information concerning the production of the good, including:

(a) a description of the good, quantity, invoice numbers, and bills of lading;

(b) a description of the operations performed in the production of the good in the territory of one or both of the Parties;

(c) a reference to the specific provision of paragraph 8 that forms the basis for the claim for preferential tariff treatment; and

(d) a statement as to any fiber, yarn, or fabric of a non-Party and the origin of such materials used in the production of the good.

The importing Party may require the importer to retain all documents relied upon to prepare the declaration for a period of five years.

ARTICLE 3.3: CUSTOMS COOPERATION

1. The Parties shall cooperate for purposes of:

(a) enforcing or assisting in the enforcement of their measures affecting trade in textile or apparel goods;

(b) verifying the accuracy of claims of origin;

(c) enforcing or assisting in the enforcement of measures implementing international agreements affecting trade in textile or apparel goods; and

(d) preventing circumvention of international agreements affecting trade in textile or apparel goods.

2. On the request of the importing Party, the exporting Party shall conduct a verification for purposes of enabling the importing Party to determine that a claim of origin for a textile or apparel good is accurate. The exporting Party shall conduct such a verification, regardless of whether an importer claims preferential tariff treatment for the good. The exporting Party also may conduct such a verification on its own initiative.

3. Where the importing Party has a reasonable suspicion that an exporter or producer of the exporting Party is engaging in unlawful activity relating to trade in textile or apparel goods, the exporting Party shall conduct, on the request of the importing Party, a verification for purposes of enabling the importing Party to determine that the exporter or producer is complying with applicable customs measures regarding trade in textile or apparel goods, including measures that the exporting Party adopts and maintains pursuant to this Agreement and measures of

either Party implementing other international agreements affecting trade in textile or apparel goods, or to determine that a claim of origin regarding textile or apparel goods exported or produced by that enterprise is accurate. For purposes of this paragraph, a **reasonable suspicion of unlawful activity** means a suspicion based on relevant factual information of the type set forth in Article 5.5 (Cooperation) or information that indicates:

(a) circumvention by the exporter or producer of applicable customs measures regarding trade in textile or apparel goods, including measures adopted to implement this Agreement; or

(b) conduct that facilitates the violation of measures relating to any other international agreement regarding trade in textile or apparel goods.

4. The exporting Party, through its competent authorities, shall permit the importing Party, through its competent authorities, to assist in a verification conducted pursuant to paragraph 2 or 3, including by conducting, along with the competent authorities of the exporting Party, visits in the territory of the exporting Party to the premises of an exporter, producer, or any other enterprise involved in the movement of a textile or apparel good from the territory of the exporting Party to the territory of the importing Party. If an exporter, producer, or other enterprise refuses to consent to a visit by the competent authorities of the importing Party, the importing Party may consider that the verification cannot be completed and the determination described in paragraph 2 or 3 cannot be made and may take appropriate action as described in paragraph 8.

5. Each Party shall provide to the other Party, consistent with the Party's law, production, trade, and transit documents and other information necessary for the exporting Party to conduct a verification under paragraph 2 or 3. Each Party shall treat any documents or information exchanged in the course of such a verification in accordance with Article 5.6 (Confidentiality).

6. While a verification is being conducted, the importing Party may, consistent with its law, take appropriate action, which may include suspending the application of preferential tariff treatment to:

(a) the textile or apparel good for which a claim of origin has been made, in the case of a verification under paragraph 2; or

(b) any textile or apparel good exported or produced by the person subject to a verification under paragraph 3, where the reasonable suspicion of unlawful activity relates to that good.

7. The Party conducting a verification under paragraph 2 or 3 shall provide the other Party with a written report on the results of the verification, which shall include all documents and facts supporting any conclusion that the Party reaches.

8. (a) If the importing Party is unable to make the determination described in paragraph 2 within 12 months after its request for a verification, or makes a negative determination, it may, consistent with its law, take appropriate action, including denying preferential tariff treatment to the textile or apparel good subject to the verification, and to similar goods exported or produced by the person that exported or produced the good.

(b) If the importing Party is unable to make a determination described in paragraph 3 within 12 months after its request for a verification, or makes a negative determination, it may, consistent with its law, take

appropriate action, including denying preferential tariff treatment to any textile or apparel good exported or produced by the person subject to the verification.

9. (a) The importing Party may deny preferential tariff treatment or entry under paragraph 8 only after notifying the other Party of its intention to do so.

(b) If the importing Party takes action under paragraph 8 because it is unable to make a determination described in paragraph 2 or 3, it may continue to take appropriate action under paragraph 8 until it receives information sufficient to enable it to make the determination.

10. On the request of either Party, the Parties shall consult to resolve any technical or interpretive difficulties that may arise under this Article or to discuss ways to improve the effectiveness of their cooperative efforts. In addition, either Party may request technical or other assistance from the other Party in implementing this Article. The Party receiving such a request shall make every effort to respond favorably and promptly.

1. For goods covered in this Annex, a good is an originating good if:

   (ii) the good satisfies any other applicable requirements of this Chapter and Chapter Four (Rules of Origin).

2. For purposes of interpreting the rules of origin set out in this Annex:

   (a) the specific rule, or specific set of rules, that applies to a particular heading or subheading is set out immediately adjacent to the heading or subheading;

   (c) a requirement of a change in tariff classification applies only to non-originating materials;

   (d) a good is considered to be "wholly" of a material if the good is made entirely of the material; and

   (e) the following definitions apply:

   chapter means a chapter of the Harmonized System;

   heading means the first four digits in the tariff classification number under the Harmonized System;

CHAPTER FOUR
RULES OF ORIGIN

ARTICLE 4.1: ORIGINATING GOODS

Except as otherwise provided in this Chapter or Chapter Three (Textiles and Apparel), each Party shall provide that a good is an originating good where it is imported directly from the territory of one Party into the territory of other Party, and,

(a) it is a good wholly the growth, product, or manufacture of one or both of the Parties; or

(b) for goods other than those covered by the rules in Annex 3-A or Annex 4-A, the good is a new or different article of commerce that has been grown, produced, or manufactured in the territory of one or both of the Parties; and the sum of (i) the value of materials produced in the territory of one or both of the Parties, plus (ii) the direct costs of processing operations performed in the territory of one or both of the Parties is not less than 35 percent of the appraised value of the good at the time it is imported into the territory of a Party; or

(c) for goods covered by the rules in Annex 3-A or Annex 4-A, the good has satisfied the requirements specified in that Annex.

ARTICLE 4.2: NEW OR DIFFERENT ARTICLE OF COMMERCE

For purposes of this Chapter, **new or different article of commerce** means a good that has been substantially transformed from a good or material that is not wholly the growth, product, or manufacture of one of both of the Parties and that has a new name, character, or use distinct from the good or material from which it was transformed.

ARTICLE 4.3: NON-QUALIFYING OPERATIONS

Each Party shall provide that, for purposes of Article 4.1, no good shall be considered a new or different article of commerce by virtue of having merely undergone (a) simple combining or packaging operations or (b) mere dilution with water or with another substance that does not materially alter the characteristics of the good.

ARTICLE 4.4: CUMULATION

1 Each Party shall provide that direct costs of processing operations performed in the territory of one or both of the Parties as well as the value of materials produced in the territory of one or both of the Parties may be counted without limitation toward satisfying the 35 percent value-content requirement specified in Article 4.1(b).

2. Each Party shall provide that an originating good or a material produced in the territory of one or both of the Parties, incorporated into a good in the territory of the other Party, shall be considered to originate in the territory of the other Party.

3. Each Party shall provide that a good shall originate where the good is grown, produced, or manufactured in the territory of one or both of the Parties by one or more producers, provided that the good satisfies the requirements of Article 4.1 and all other applicable requirements in this Chapter or Chapter Three (Textiles and Apparel).

ARTICLE 4.5: VALUE OF MATERIALS

1. For purposes of this Chapter, each Party shall provide that the value of a material produced in the territory of one or both of the Parties includes:

(a) the price actually paid or payable by the producer of the good for the material;

(b) when not included in the price actually paid or payable by the producer of the good for the material, the freight, insurance, packing, and all other costs incurred in transporting the material to the producer's plant;

(c) the cost of waste or spoilage, less the value of recoverable scrap; and

(d) taxes or customs duties imposed on the material by one or both of the Parties, provided the taxes or customs duties are not remitted upon exportation.

2. Each Party shall provide that where the relationship between the producer of the good and the seller of the material influenced the price actually paid or payable for the material, or where paragraph 1 is otherwise not applicable, the value of the material produced in the territory of one or both of the Parties includes:

(a) all expenses incurred in the growth, production, or manufacture of the material, including general expenses;

(b) a reasonable amount for profit; and

(c) freight, insurance, packing, and all other costs incurred in transporting the material to the producer's plant.

ARTICLE 4.6: DIRECT COSTS OF PROCESSING OPERATIONS

1. For purposes of this Chapter, **direct costs of processing operations** means those costs either directly incurred in, or that can be reasonably allocated to, the growth, production, or manufacture of the good. Such costs include the following, to the extent that they are includable in the appraised value of goods imported into the territory of a Party:

(a) all actual labor costs involved in the growth, production, or manufacture of the specific good, including fringe benefits, on-the-job training, and the cost of engineering, supervisory, quality control, and similar personnel;

(b) tools, dies, molds, and other indirect materials, and depreciation on machinery and equipment that are allocable to the specific good;

(c) research, development, design, engineering, and blueprint costs to the extent that they are allocable to the specific good;

(d) costs of inspecting and testing the specific good; and

(e) costs of packaging the specific good for export to the territory of the other Party.

2. For greater certainty, those items that are not included as direct costs of processing operations are those that are not directly attributable to the good or are not costs of growth, production, or manufacture of the good. These include:

(a) profit; and

(b) general expenses of doing business that are either not allocable to the specific good or are not related to the growth, production, or manufacture of the good, such as administrative salaries, casualty and liability insurance, advertising, and salesmen's salaries, commissions, or expenses.

ARTICLE 4.7: PACKAGING AND PACKING MATERIALS AND CONTAINERS FOR RETAIL SALE AND FOR SHIPMENT

Each Party shall provide that packaging and packing materials and containers in which a good is packaged for retail sale and for shipment, if classified with the good, shall be disregarded in determining whether the good qualifies as an originating good, except that the value of originating packaging and packing materials and containers may be counted toward satisfying, where applicable, the 35 percent value-content requirement specified in Article 4.1(b).

ARTICLE 4.8: INDIRECT MATERIALS

Each Party shall provide that indirect materials shall be disregarded in determining whether the good qualifies as an originating good, except that the cost of such indirect materials may be counted toward satisfying the 35 percent value-content requirement where applicable.

ARTICLE 4.9: TRANSIT AND TRANSSHIPMENT

For purposes of this Chapter, a good shall not be considered to be imported directly from the territory of the other Party if the good undergoes subsequent production, manufacturing, or any other operation outside the territories of the Parties, other than unloading, reloading, or any other operation necessary to preserve it in good condition or to transport the good to the territory of the other Party.

ARTICLE 4.10: IMPORTER REQUIREMENTS

Each Party shall provide that whenever an importer makes a claim for preferential tariff treatment, the importer:

(a) shall be deemed to have certified that such good qualifies for preferential tariff treatment; and

(b) shall submit to the customs authorities of the importing Party, upon request, a declaration setting forth all pertinent information concerning the growth, production, or manufacture of the good. Each Party may require that the information on the declaration should contain at least the following pertinent details:

(i) a description of the good, quantity, invoice numbers, and bills of lading;

(ii) a description of the operations performed in the growth, production, or manufacture of the good in the territory of one or both of the Parties and, where applicable, identification of the direct costs of processing operations;

(iii) a description of any materials used in the growth, production, or manufacture of the good that are wholly the growth, product, or manufacture of one or both of the Parties, and a statement as to the value of such materials;

(iv) a description of the operations performed on, and a statement as to the origin and value of, any foreign materials used in the good that are claimed to have been sufficiently processed in the territory of one or both of the Parties so as to be materials produced in the territory of one or both of the Parties, or are claimed to have undergone an applicable change in tariff classification specified in Annex 3-A or Annex 4-A; and

(v) a description of the origin and value of any foreign materials used in the good that are not claimed to have been substantially transformed in the territory of one or both of the Parties, or are not claimed to have undergone an applicable change in tariff classification specified in Annex 3-A or Annex 4-A.

The importing Party should request a declaration only when that Party has reason to question the accuracy of a deemed certification referred to in subparagraph (a), when that Party's risk assessment procedures indicate that verification of a claim is appropriate, or when the Party conducts a random verification. The importer shall retain the information necessary for the preparation of the declaration for five years from the date of importation of the good.

ARTICLE 4.11: OBLIGATIONS RELATING TO IMPORTATION

1. Each Party shall grant any claim for preferential tariff treatment made in accordance with this Chapter, unless the Party possesses information indicating that the importer's claim fails to comply with any requirement under this Chapter or Chapter Three (Textiles and Apparel).

2. To determine whether a good imported into its territory qualifies for preferential tariff treatment, the importing Party may, through its customs authority, verify the origin.

3. Where a Party denies a claim for preferential tariff treatment, it shall issue a written determination containing findings of fact and the legal basis for its determination. The Party shall issue the determination within a period established under its law.

4. Nothing in this Article shall prevent a Party from taking action under Article 3.3 (Customs Cooperation).

ARTICLE 4.12: CONSULTATIONS AND MODIFICATIONS

1. The Parties shall consult and cooperate to ensure that this Chapter is applied in an effective and uniform manner, in accordance with the objectives of this Agreement.

2. The Parties may establish *ad hoc* working groups, or a subcommittee of the Joint Committee established pursuant to Article 18.2 (Joint Committee), to consider any matter related to this Chapter (including Annex 4-A). On request of a Party, the

Parties may direct a working group or subcommittee to review operation of this Chapter (including Annex 4-A) and develop recommendations for amendments in the light of any pertinent developments, including changes in technology and production processes, and other relevant factors.

ARTICLE 4.13: REGIONAL CUMULATION

At a time to be determined by the Parties, and in the light of their desire to promote regional integration, the Parties shall enter into discussions with a view to deciding the extent to which materials that are products of countries in the region may be counted for purposes of satisfying the origin requirement under this Agreement as a step toward achieving regional integration.

6. Each Party shall make its advance rulings publicly available, subject to confidentiality requirements in its law.

7. If a requester provides false information or omits relevant circumstances or facts in its request for an advance ruling, or does not act in accordance with the

ruling's terms and conditions, the importing Party may apply appropriate measures, including civil, criminal, and administrative penalties or other sanctions.

8. If as a result of the reduction or elimination of a customs duty under this Agreement, an originating good of the other Party is being imported into the territory of a Party in such increased quantities, in absolute terms or relative to domestic production, and under such conditions that the imports of such originating good from the other Party constitute a substantial cause of serious injury, or threat thereof, to a domestic industry producing a like or directly competitive good, the Party may:

(a) suspend the further reduction of any rate of customs duty on the good provided for under this Agreement; or

(b) increase the rate of customs duty on the good to a level not to exceed the lesser of

(i) the most-favored-nation (MFN) applied rate of duty on the good in effect at the time the action is taken, and

(ii) the MFN applied rate of duty on the good in effect on the day immediately preceding the date of entry into force of this Agreement.

ARTICLE 8.2: CONDITIONS AND LIMITATIONS

1. A Party shall notify the other Party in writing on initiation of an investigation described in paragraph 2 and shall consult with the other Party as far in advance of applying a safeguard measure as practicable, with a view to reviewing the information arising from the investigation and exchanging views on the measure.

2. A Party shall apply a safeguard measure only following an investigation by the Party's competent authorities in accordance with Articles 3 and 4.2(c) of the Safeguards Agreement, and to this end, Articles 3 and 4.2(c) of the Safeguards Agreement are incorporated into and made a part of this Agreement, *mutatis mutandis*.

3. In the investigation described in paragraph 2, the Party shall comply with the requirements of Article 4.2(a) of the Safeguards Agreement, and to this end, Article 4.2(a) is incorporated into and made a part of this Agreement, *mutatis mutandis*.

4. Neither Party may apply a safeguard measure against a good:

(a) except to the extent and for such time as may be necessary to prevent or remedy serious injury and to facilitate adjustment;

(b) for a period exceeding three years; or

(c) beyond the expiration of the transition period, except with the consent of the other Party.

5. Neither Party may apply a safeguard measure more than once against the same good.

6. Where the expected duration of the safeguard measure is over one year, the importing Party shall progressively liberalize it at regular intervals.

7. On the termination of the safeguard measure, the rate of customs duty shall be the rate that, according to the Party's Schedule to Annex 2-B (Tariff Elimination), would have been in effect but for the measure.

ARTICLE 8.3: COMPENSATION

A Party applying a safeguard measure shall provide to the other Party mutually agreed trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the measure. If the Parties are unable to agree on compensation within 30 days from the date the Party announces a decision to apply the measure, the other Party may take tariff action having trade effects substantially equivalent to the safeguard measure. The Party shall apply the action only for the minimum period necessary to achieve the substantially equivalent effects and, in any event, only while the safeguard measure is being applied.

ARTICLE 8.4: GLOBAL SAFEGUARD ACTIONS

Each Party retains its rights and obligations under Article XIX of GATT 1994 and the Safeguards Agreement. This Agreement does not confer any additional rights or obligations on the Parties with regard to actions taken under Article XIX of GATT 1994 and the Safeguards Agreement.

serious injury means a significant overall impairment in the position of a domestic industry;

CHAPTER NINE
GOVERNMENT PROCUREMENT

ARTICLE 9.1: SCOPE AND COVERAGE

Application of Chapter

1. This Chapter applies to any measure regarding covered procurement.

2. For purposes of this Chapter, **covered procurement** means a procurement of goods, services, or both:

(a) by any contractual means, including purchase, rental, or lease, with or without an option to buy; build-operate-transfer contracts; and public works concession contracts;

(b) for which the value, as estimated in accordance with paragraphs 5 and 6, as appropriate, equals or exceeds the relevant threshold specified in Annex 9-F;

(c) that is conducted by a procuring entity; and

(d) that is not excluded from coverage by this Agreement.

3. This Chapter does not apply to:

(a) non-contractual agreements or any form of assistance that a Party or a government enterprise provides, including grants, loans, equity infusions, fiscal incentives, subsidies, guarantees, cooperative agreements, and government provision of goods or services to persons or to state, regional, or local governments;

(b) purchases funded by international grants, loans, or other international assistance, where the provision of such assistance is subject to conditions inconsistent with this Chapter;

(c) acquisition of fiscal agency or depository services, liquidation and management services for regulated financial institutions, and sale and distribution services for government debt;

(d) any good or service component of a contract to be awarded by an entity that is not listed in Annex 9-A-1 or 9-A-2; and

(e) the procurement of transportation services that form a part of, or are incidental to, a procurement covered by this Chapter.

Compliance

4. Each Party shall ensure that its procuring entities comply with this Chapter in conducting covered procurement.

Valuation

5. In estimating the value of a procurement for the purpose of ascertaining whether it is a covered procurement, a procuring entity shall:

(a) neither divide a procurement into separate procurements nor use a particular method for estimating the value of the procurement for the purpose of avoiding the application of this Chapter;

(b) take into account all forms of remuneration, including any premiums, fees, commissions, interest, other revenue streams that may be provided for under the contract, and, where the procurement provides for the possibility of option clauses, the total maximum value of the procurement, inclusive of optional purchases; and

(c) without prejudice to paragraph 6, where the procurement is to be conducted in multiple parts, with contracts to be awarded at the same time or over a given period to one or more suppliers, base its calculation of the total maximum value of the procurement over its entire duration.

6. In the case of procurement by lease or rental or procurement that does not specify a total price, the basis for estimating the value of the procurement shall be, with respect to:

(a) a fixed-term contract,

(i) where the term is 12 months or less, the total estimated contract value for the contract's duration, or

(ii) where the term exceeds 12 months, the total estimated contract value, including the estimated residual value; or

(b) a contract for an indefinite period, the estimated monthly installment multiplied by 48. Where there is doubt as to whether the contract is to be a fixed-term contract, a procuring entity shall use the basis for estimating the value of the procurement described in this subparagraph.

ARTICLE 9.2: GENERAL PRINCIPLES

National Treatment and Non-Discrimination

1. With respect to any measure covered by this Chapter, each Party, including its procuring entities, shall accord unconditionally to the goods and services of the other Party and to the suppliers of the other Party offering the goods or services of a Party, treatment no less favorable than the most favorable treatment the Party or the procuring entity accords to its own goods, services, and suppliers.

2. A procuring entity of a Party may not:

(a) treat a locally established supplier less favorably than another locally established supplier on the basis of degree of foreign affiliation or ownership; nor

(b) discriminate against a locally established supplier on the basis that the goods or services offered by that supplier for a particular procurement are goods or services of the other Party.

Rules of Origin

3. For purposes of procurement covered by this Chapter, neither Party may apply rules of origin to goods imported from the other Party that are different from the rules of origin the Party applies in the normal course of trade to imports of the same goods from the other Party.

Offsets

4. A procuring entity may not seek, take account of, impose, or enforce offsets in the qualification and selection of suppliers, goods, or services, in the evaluation of tenders, or in the award of contracts, before or in the course of a covered procurement.

Measures Not Specific to Procurement

5. Paragraphs 1 and 2 do not apply to customs duties or charges of any kind imposed on or in connection with importation, the method of levying such duties and charges, other import regulations or formalities, and measures affecting trade in services other than measures governing covered procurements.

ARTICLE 9.3: PUBLICATION OF PROCUREMENT MEASURES

1. Each Party shall promptly publish laws, regulations, judicial decisions, administrative rulings of general application, and procedures regarding covered procurements, and any changes to such measures, in officially designated electronic or paper media that are widely disseminated and remain readily accessible to the public.

2. Each Party shall, on request by the other Party, promptly provide an explanation relating to any such measure to the requesting Party.

ARTICLE 9.4: PUBLICATION OF NOTICE OF INTENDED PROCUREMENT AND NOTICE OF PLANNED PROCUREMENT

Notice of Intended Procurement

1. For each covered procurement, a procuring entity shall publish a notice inviting interested suppliers to submit tenders ("notice of intended procurement") or, where appropriate, applications for participation in the procurement. The notice shall be published in an electronic or paper medium that is widely disseminated and readily accessible to the public for the entire period established for tendering.

2. A procuring entity shall include the following information in each notice of intended procurement:

(a) the name and address of the procuring entity and other information necessary to contact the procuring entity and obtain all relevant documents relating to the procurement;

(b) a description of the procurement and any conditions for participation;

(c) the time frame for the delivery of goods or services;

(d) the procurement method that will be used; and

(e) the address and the time limit for the submission of tenders, and, where appropriate, any time limit for the submission of an application for participation in a procurement.

Notice of Planned Procurement

3. Each Party shall encourage its procuring entities to publish as early as possible in each fiscal year a notice regarding the procuring entity's procurement plans. The notice should include the subject matter of any planned procurement and

the estimated date of the publication of the notice of intended procurement. Where the notice is published in accordance with Article 9.5.2(a), a procuring entity may apply Article 9.5.2 for the purpose of establishing shorter time limits for tendering for covered procurements.

ARTICLE 9.5: TIME LIMITS FOR TENDERING PROCESS

1. A procuring entity shall prescribe time limits for tendering that allow suppliers sufficient time to prepare and submit responsive tenders, taking into account the nature and complexity of the procurement. Except as provided for in paragraphs 2 and 3, a procuring entity shall provide no less than 40 days from the date of publication of a notice of intended procurement to the deadline for submission of tenders.

2. Under the following circumstances, a procuring entity may establish a time limit for tendering that is less than 40 days, provided that such time limit is sufficiently long to enable suppliers to prepare and submit responsive tenders and is in no case less than ten days:

(a) where the entity has published a separate notice, including a notice of planned procurement under Article 9.4.3, at least 40 days and not more than 12 months in advance, and such separate notice contains a description of the procurement; the time limits for the submission of tenders or, where appropriate, applications for participation in a procurement; and the address from which documents relating to the procurement may be obtained;

(b) where the entity procures commercial goods or services, except that the procuring entity may not rely on this provision if it requires suppliers to satisfy conditions for participation; or

(c) in duly substantiated cases of extreme urgency brought about by events unforeseeable by the procuring entity, such that a 40-day deadline would result in serious adverse consequences to the entity or the relevant Party.

3. When a procuring entity publishes a notice of intended procurement in accordance with Article 9.4 in an electronic medium, the procuring entity may reduce the time limit for submission of a tender or an application for participation in a procurement by up to five days. In no case shall the procuring entity reduce either time limit to less than ten days from the date on which the notice of intended procurement is published.

4. A procuring entity shall require all participating suppliers to submit tenders by a common deadline. For greater certainty, this requirement also applies where:

(a) as a result of a need to amend information provided to suppliers during the procurement process, the procuring entity extends the time limit for qualification or tendering procedures; or

(b) negotiations are terminated and suppliers are permitted to submit new tenders.

ARTICLE 9.6: INFORMATION ON INTENDED PROCUREMENTS

Tender Documentation

1. A procuring entity shall provide to any interested supplier tender documentation that includes all information necessary to permit suppliers to prepare and submit responsive tenders. Unless already provided in the notice of intended procurement, such documentation shall include a complete description of:

(a) the procurement, including the nature, scope, and, where quantifiable, the quantity of the goods or services to be procured and any requirements to be fulfilled, including any technical specifications, conformity certifications, plans, drawings, or instructional materials;

(b) any conditions for participation, including any financial guarantees, information, and documents that suppliers are required to submit;

(c) all criteria, including all cost factors, to be considered in awarding the contract, and the relative importance of such criteria;

(d) the date, time, and place for the opening of tenders; and

(e) any other terms or conditions, including terms of payment, relating to the procurement.

2. A procuring entity shall promptly:

(a) provide, on request, the tender documentation to any supplier participating in the procurement; and

(b) reply to any reasonable request for relevant information by a supplier participating in the procurement, provided that such information does not give that supplier an advantage over its competitors in the procurement.

Technical Specifications

3. A procuring entity may not prepare, adopt, or apply any technical specification or prescribe any conformity assessment procedure with the purpose or the effect of creating unnecessary obstacles to trade between the Parties.

4. In prescribing the technical specifications for the good or service being procured, a procuring entity shall:

(a) specify the technical specification, wherever appropriate, in terms of performance and functional requirements, rather than design or descriptive characteristics; and

(b) base the technical specification on international standards, where such exist and are applicable to the procuring entity, except where the use of an international standard would fail to meet the procuring entity's program requirements or would impose more burdens than the use of a government-unique standard.

5. A procuring entity may not prescribe technical specifications that require or refer to a particular trademark or trade name, patent, copyright, design or type, specific origin, producer, or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that, in such cases, words such as "or equivalent" are included in the tender documentation.

6. A procuring entity may not seek or accept, in a manner that would have the effect of precluding competition, advice that may be used in the preparation or adoption of any technical specification for a specific procurement from a person that may have a commercial interest in that procurement.

7. For greater certainty, this Article is not intended to preclude a procuring entity from preparing, adopting, or applying technical specifications to promote the conservation of natural resources or to protect the environment.

Modifications

8. If, during the course of a procurement, a procuring entity modifies the criteria or technical requirements set out in a notice or tender documentation provided to participating suppliers, or amends or reissues a notice or tender documentation, it shall transmit all such modifications or amended or re-issued notice or tender documentation:

(a) to all the suppliers that are participating at the time the information is amended, if known, and, in all other cases, in the same manner as the original information; and

(b) in adequate time to allow such suppliers to modify and re-submit their tenders, as appropriate.

ARTICLE 9.7: CONDITIONS FOR PARTICIPATION

General Requirements

1. Where a procuring entity requires suppliers to satisfy conditions for participation, the entity shall, subject to the other provisions of this Chapter:

(a) limit any conditions for participation to those that are essential to ensure that the supplier has the legal, commercial, technical, and financial abilities to fulfill the requirements and technical specifications of the procurement;

(b) evaluate the financial, commercial, and technical abilities of a supplier on the basis of its global business activities, including both its activities in the territory of the Party of the supplier, as well as its activities, if any, in the territory of the Party of the procuring entity, and may not impose the condition that, in order for a supplier to participate in a procurement, the supplier has previously been awarded one or more contracts by a procuring entity of that Party or that the supplier has prior work experience in the territory of that Party;

(c) base its determination of whether a supplier has satisfied the conditions for participation solely on the conditions that the procuring entity has specified in advance in notices or tender documentation; and

(d) allow all suppliers that satisfy the conditions for participation to participate in the procurement.

2. Nothing in this Article shall preclude a procuring entity from excluding a supplier from a procurement on grounds such as bankruptcy or false declarations.

3. Where a procuring entity requires suppliers to satisfy conditions for participation, the entity shall publish a notice inviting suppliers to apply for participation. The entity shall publish the notice sufficiently in advance to provide interested suppliers adequate time to prepare and submit responsive applications and for the entity to evaluate and make its determination based on such applications.

Multi-Use Lists

4. A procuring entity may establish a multi-use list provided that the entity annually publishes in a paper or electronic medium, or otherwise makes available continuously in electronic form, a notice inviting interested suppliers to apply for inclusion on the list. The notice shall include:

(a) a description of the goods or services that may be procured using the list;

(b) the conditions for participation to be satisfied by suppliers and the methods that the procuring entity will use to verify a supplier's satisfaction of the conditions;

(c) the name and address of the procuring entity and other information necessary to contact the entity and obtain all relevant documents relating to the list;

(d) the date on which use of the list will terminate, or where a date is not provided, an indication of the method by which advance notice will be given of the termination of use of the list;

(e) any deadlines for submission of applications for inclusion on the list; and

(f) an indication that the list may be used for procurement covered by this Chapter.

5. A procuring entity that maintains a multi-use list shall allow suppliers to apply at any time for inclusion on the list and shall include on the list all suppliers that apply and satisfy the conditions for participation within a reasonably short time after a supplier applies.

Information on Procuring Entity Decisions

6. Where a supplier applies for participation in a covered procurement, or for inclusion on a multi-use list, a procuring entity shall promptly advise such supplier of its decision with respect to its application.

7. Where a procuring entity rejects an application for participation in a covered procurement or for inclusion on a multi-use list, or ceases to recognize a supplier as having satisfied the conditions for participation, the entity shall promptly inform the supplier and, on request of such supplier, promptly provide the supplier a written explanation of the reasons for its decision.

ARTICLE 9.8: TENDERING PROCEDURES

1. A procuring entity shall conduct procurement covered by this Agreement in a manner that is consistent with this Chapter, and, except where specifically provided otherwise in this Chapter, in a transparent and impartial manner and shall permit any interested supplier to submit a tender.

2. Provided that the tendering procedure is not used to avoid competition, to protect domestic suppliers, or in a manner that discriminates against suppliers of the other Party, a procuring entity may contact a supplier or suppliers of its choice and may choose not to apply Articles 9.4 through 9.7 and 9.9.1 through 9.9.6 in any of the following circumstances:

(a) where, in response to a prior notice of intended procurement or invitation to tender,

(i) no tenders were submitted;

(ii) no tenders were submitted that conform to the essential requirements in the tender documentation; or

(iii) no suppliers satisfied the conditions for participation;

and the entity does not substantially modify the essential requirements of the procurement or the conditions for participation;

(b) where the goods or services can be supplied only by a particular supplier and no reasonable alternative or substitute goods or services exist because:

(i) the requirement is for a work of art;

(ii) the procuring entity is obligated to protect patents, copyrights, or other exclusive rights, or proprietary information; or

(iii) there is an absence of competition for technical reasons;

(c) for additional deliveries of goods or services by the original supplier that are intended either as replacement parts, extensions, or continuing services for existing equipment, software, services, or installations, where a change of supplier would compel the procuring entity to procure goods or services that do not meet requirements of interchangeability with existing equipment, software, services, or installations;

(d) for goods purchased on a commodity market;

(e) where a procuring entity procures a prototype or a first good or service that is developed at its request in the course of, and for, a particular contract for research, experiment, study, or original development. When such a contract has been fulfilled, subsequent procurements of goods or services shall be subject to this Chapter; or

(f) in so far as is strictly necessary where, for reasons of extreme urgency brought about by events unforeseeable by the procuring entity, the goods or services could not be obtained in time under procedures consistent with Articles 9.4 through 9.7, and the use of such procedures would result in serious injury to the procuring entity or the relevant Party.

3. For each contract awarded under paragraph 2, a procuring entity shall prepare a written report that includes the name of the procuring entity, the value and kind of goods or services procured, and a statement indicating the circumstances and conditions described in paragraph 2 that justify the use of a limited tendering procedure.

ARTICLE 9.9: TREATMENT OF TENDERS AND AWARDING OF CONTRACTS

Receipt and Opening of Tenders

1. A procuring entity or relevant authority shall receive and open all tenders under procedures that guarantee the fairness and impartiality of the procurement process.

2. A procuring entity or relevant authority shall not penalize any supplier whose tender is received after the time specified for receiving tenders if the delay is due solely to mishandling on the part of the procuring entity or relevant authority.

3. Where a procuring entity or relevant authority provides suppliers with opportunities to correct, or concur in the correction of, unintentional errors of form between the opening of tenders and the awarding of the contract, the procuring entity or relevant authority shall provide the same opportunities to all participating suppliers.

Awarding of Contracts

4. A procuring entity or relevant authority shall require that, in order to be considered for award, a tender:

(a) be submitted in writing by a supplier that has satisfied any conditions for participation; and

(b) at the time of opening, conform to the essential requirements and evaluation criteria specified in the notices and tender documentation.

5. Unless a procuring entity or relevant authority determines that it is not in the public interest to award a contract, it shall award the contract to the supplier that the entity or authority has determined to be fully capable of undertaking the contract and whose tender is either the lowest tender or the tender determined to be the most advantageous solely on the basis of the requirements and evaluation criteria set out in the notices and tender documentation.

6. A procuring entity or relevant authority may not cancel a procurement, or terminate or modify a contract it has awarded, so as to circumvent the obligations of this Chapter.

Information Provided to Suppliers

7. A procuring entity shall promptly inform suppliers that have submitted tenders of its contract award decision. Subject to Article 9.13, a procuring entity, on request of a supplier whose tender was not selected for award, shall provide the supplier the reasons for not selecting its tender and the relative advantages of the tender selected.

Publication of Award Information

8. Not later than 60 days after the award of a contract for a covered procurement, a procuring entity or relevant authority shall publish a notice in an officially designated publication, which may be in an electronic or paper medium. The notice shall include at least the following information about the contract:

(a) the name and address of the procuring entity;

(b) a description of the goods or services procured;

(c) the date of award;

(d) the name and address of the successful supplier;

(e) the contract value; and

(f) the procurement method used and, in cases where a procedure has been used pursuant to Article 9.8.2, a description of the circumstances justifying the procedure used.

Provision of Information to the Other Party

9. On request of the other Party, a Party shall provide information on the tender and evaluation procedures used in the conduct of a covered procurement sufficient to demonstrate that the particular procurement was conducted fairly, impartially, and in accordance with this Chapter. Such information shall include information on the characteristics and relative advantages of the successful tender and on the contract price.

Maintenance of Records

10. A procuring entity or relevant authority shall maintain records and reports of tendering procedures relating to covered procurements, including the reports required by Article 9.8.3, for at least three years after the date a contract is awarded.

ARTICLE 9.10: ENSURING INTEGRITY IN PROCUREMENT PRACTICES

Further to Article 17.5 (Anti-Corruption), each Party shall adopt or maintain procedures to declare ineligible for participation in the Party's procurements, either indefinitely or for a specified time, suppliers that the Party has determined to have engaged in fraudulent or illegal actions in relation to procurement. On request of the other Party, a Party shall identify the suppliers determined to be ineligible under these procedures, and, where appropriate, exchange information regarding those suppliers or the fraudulent or illegal action.

ARTICLE 9.11: DOMESTIC REVIEW OF SUPPLIER CHALLENGES

1. Each Party shall provide timely, effective, transparent, and predictable means for a supplier to challenge the conduct of a covered procurement, without prejudice to that supplier's participation in ongoing or future procurement activities. Each Party shall ensure that its review procedures are made publicly available in writing, and are timely, transparent, effective, and consistent with the principle of due process.

2. Each Party shall establish or designate at least one impartial authority that is independent of the procuring entity that is the subject of the challenge to receive and review challenges that suppliers submit in connection with any covered procurement.

3. Where a body other than an authority referred to in paragraph 2 initially reviews a challenge, the Party shall ensure that the supplier may appeal the initial decision to an impartial administrative or judicial authority that is independent of the procuring entity that is the subject of the challenge.

4. Each Party shall authorize the authority that it establishes or designates under paragraph 2 to take prompt interim measures, pending the resolution of a challenge, to preserve the opportunity to correct potential breaches of this Chapter, including the suspension of the award of a contract or the performance of a contract already awarded. However, in deciding whether to apply an interim measure, each Party may take into account any overriding adverse consequences to the public interest if an interim measure were taken. If a Party decides not to apply an interim measure, it shall provide a written explanation of the grounds for its decision.

5. Each Party shall ensure that the authority that it establishes or designates under paragraph 2 conducts its review in accordance with the following:

(a) a supplier shall be allowed sufficient time to prepare and submit a written challenge, which in no case shall be less than ten days from the time when the basis of the challenge became known or reasonably should have become known to the supplier;

(b) the procuring entity shall be required to respond in writing to the supplier's challenge and provide all relevant documents to the authority;

(c) the supplier that initiates the challenge shall be provided an opportunity to reply to the procuring entity's response before the authority makes a decision on the challenge; and

(d) the authority shall promptly provide decisions relating to a supplier's challenge in writing, with an explanation of the grounds for each decision.

ARTICLE 9.12: MODIFICATIONS AND RECTIFICATIONS TO COVERAGE

1. Either Party may modify its coverage under this Chapter provided that it:

(a) notifies the other Party in writing and the other Party does not object in writing within 30 days after the notification; and

(b) within 30 days after notifying the other Party, offers acceptable compensatory adjustments to the other Party to maintain a level of coverage comparable to that existing before the modification, except as provided in paragraphs 2 and 3.

2. Either Party may make rectifications of a purely formal nature to its coverage under this Chapter, or minor amendments to its Schedule to Annex 9-A-1 or 9-A-2, provided that it notifies the other Party in writing and that the other Party does not object in writing within 30 days after the notification. A Party that makes such a rectification or minor amendment need not offer compensatory adjustments to the other Party.

3. A Party need not offer compensatory adjustments where the Parties agree that the proposed modification covers a procuring entity over which the Party has effectively eliminated its control or influence. Where the Parties do not agree that government control or influence has been effectively eliminated, the objecting Party

may request further information or consultations with a view to clarifying the nature of any government control or influence and reaching agreement on the procuring entity's continued coverage under this Chapter.

4. The Joint Committee established under Chapter Eighteen (Administration of the Agreement) shall adopt any agreed modification, technical rectification, or minor amendment made in accordance with paragraph 1 or 2.

ARTICLE 9.13: NON-DISCLOSURE OF INFORMATION

1. A Party, including its procuring entities, shall not disclose information that is designated as confidential or that is by nature confidential, without the authorization of the persons providing the information. This includes information the disclosure of which would prejudice legitimate commercial interests of a particular person or might prejudice fair competition between suppliers.

2. Nothing in this Chapter shall be construed to require a Party, including its procuring entities, to provide confidential information the disclosure of which would:

(a) impede law enforcement;

(b) prejudice fair competition between suppliers;

(c) prejudice the legitimate commercial interests of particular suppliers or persons, including the protection of intellectual property; or

(e) otherwise be contrary to the public interest.

ARTICLE 9.14: EXCEPTIONS

1. Provided that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination between the Parties where the same conditions prevail or a disguised restriction on trade between the Parties, nothing in this Chapter shall be construed to prevent a Party from adopting or maintaining measures:

(a) necessary to protect public morals, order, or safety;

(b) necessary to protect human, animal, or plant life or health;

(c) necessary to protect intellectual property; or

(d) relating to goods or services of handicapped persons, of philanthropic institutions, or of prison labor.

THRESHOLD ADJUSTMENT FORMULA

1. Where required under Annex 9-A-1 (Central Level of Government Entities) or 9-A-2 (Other Entities), the monetary thresholds shall be adjusted at two-year intervals, with the first adjustment taking effect on January 1, 2006.

2. With regard to the thresholds for all construction services, the United States shall calculate the U.S. dollar value for the threshold every two years, based on the U.S. inflation rate measured by the Producer Price Index for Finished Goods published by the U.S. Bureau of Labor Statistics, using the two-year period that ends on October 31 in the year prior to the adjustment taking effect, and using the following formula:

$$T_0 \times (1 + \Pi_i) = T_1$$

T_0 = threshold value at base period

Π_i = accumulated U.S. inflation rate for the "i"th two-year period

T_1 = new threshold value.

3. The thresholds for goods and services in Annex 9-A-1 (Central Level of Government Entities) and for goods and services procured by List B entities in the U.S. Schedule to Annex 9-A-2 (Other Entities) are conversions into U.S. dollars of the thresholds listed in the U.S. Appendix 1 to the WTO Agreement on Government Procurement, which are set out in Special Drawing Rights (SDRs) and listed below. The United States shall calculate adjustments of these thresholds based on an average of the daily conversion rates of the U.S. dollar in terms of SDRs, published by the IMF in its monthly "International Financial Statistics," for the two-year period preceding October 1 or November 1 of the year before the adjusted thresholds are to take effect:

(a) 130,000 SDRs for goods and services for Annex 9-A-1 entities; and

(b) 400,000 SDRs for goods and services for Annex 9-A-2, List B entities.

4. The United States shall notify Bahrain of the adjusted threshold values in December of the year before the adjusted thresholds take effect.

(b) promptly notify the United States of the value in Bahraini Dinar of the adjusted thresholds.

6. The Parties shall consult if a major change in a Party's currency vis-à-vis the other Party's currency creates a significant problem with regard to the application of this Chapter.

A service supplied in the exercise of governmental authority means any service that is supplied neither on a commercial basis, nor in competition with one or more service suppliers.

The treatment to be accorded by a Party under paragraph 1 means, with respect to a regional level of government, treatment no less favorable than the most favorable treatment accorded, in like circumstances, by that regional level of government to service suppliers of the Party of which it forms a part.

ARTICLE 10.3: MOST-FAVORED-NATION TREATMENT

Each Party shall accord to service suppliers of the other Party treatment no less favorable than that it accords, in like circumstances, to service suppliers of a non-Party.

ARTICLE 10.4: MARKET ACCESS

1. Neither Party may adopt or maintain, either on the basis of a regional subdivision or on the basis of its entire territory, measures that:

(a) impose limitations on:

(ii) the total value of service transactions or assets in the form of numerical quotas or the requirement of an economic needs test;

1. Articles 10.2, 10.3, 10.4, and 10.5 do not apply to:

(a) any existing non-conforming measure that is maintained by a Party at:

[1] This clause does not cover measures of a Party that limit inputs for the supply of services.

(ii) a regional level of government, as set out by that Party in its Schedule to Annex I; or

(iii) a local level of government;

(b) the continuation or prompt renewal of any non-conforming measure referred to in subparagraph (a); or

(c) an amendment to any non-conforming measure referred to in subparagraph (a) to the extent that the amendment does not decrease the conformity of the measure, as it existed immediately before the amendment, with Articles 10.2, 10.3, 10.4, or 10.5.

2. Articles 10.2, 10.3, 10.4, and 10.5 do not apply to any measure that a Party adopts or maintains with respect to sectors, sub-sectors, or activities as set out in its Schedule to Annex II.

3. Annex 10-A sets out specific commitments by the Parties.

ARTICLE 10.7: DOMESTIC REGULATION

1. Where a Party requires authorization for the supply of a service, the Party's competent authorities shall, within a reasonable period after the submission of an application considered complete under its laws and regulations, inform the applicant of the decision concerning the application. At the request of the applicant, the competent authorities of the Party shall provide, without undue delay, information concerning the status of the application. This obligation shall not apply to authorization requirements that are within the scope of Article 10.6.2.

2. With a view to ensuring that measures relating to qualification requirements and procedures, technical standards. and licensing requirements do not constitute unnecessary barriers to trade in services, each Party shall endeavor to ensure, as appropriate for individual sectors, that such measures are:

(a) based on objective and transparent criteria, such as competence and the ability to supply the service;

(b) not more burdensome than necessary to ensure the quality of the service; and

(c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.

3. If the results of the negotiations related to Article VI:4 of GATS (or the results of any similar negotiations undertaken in other multilateral fora in which both Parties participate) enter into effect for both Parties, this Article shall be amended, as appropriate, after consultations between the Parties, to bring those results into effect under this Agreement. The Parties agree to coordinate on such negotiations, as appropriate.

ARTICLE 10.8: TRANSPARENCY IN DEVELOPMENT AND APPLICATION OF REGULATIONS[2]

Further to Chapter 17 (Transparency):

4. To the extent possible, each Party shall allow reasonable time between publication of final regulations relating to the subject matter of this Chapter and their effective date.

For the purposes of the fulfilment, in whole or in part, of its standards or criteria for the authorization, licensing, or certification of services suppliers, and subject to the requirements of paragraph 4, a Party may recognize the education or experience obtained, requirements met, or licenses or certifications granted in a particular country, including the other Party and non-Parties. Such recognition, which may be achieved through harmonization or otherwise, may be based upon an agreement or arrangement with the country concerned or may be accorded autonomously.

2. Where a Party recognizes, autonomously or by agreement or arrangement, the education or experience obtained, requirements met, or licenses or certifications granted in the territory of a non-Party, nothing in Article 10.3 shall be construed to require the Party to accord such recognition to the education or experience obtained, requirements met, or licenses or certifications granted in the territory of the other Party.

3. A Party that is a party to an agreement or arrangement of the type referred to in paragraph 1, whether existing or future, shall afford adequate opportunity for the other Party, if the other Party is interested, to negotiate its accession to such an agreement or arrangement or to negotiate a comparable one with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that education, experience, licenses, or certifications obtained or requirements met in that other Party's territory should be recognized.

4. Neither Party may accord recognition in a manner that would constitute a means of discrimination between countries in the application of its standards or criteria for the authorization, licensing, or certification of services suppliers, or a disguised restriction on trade in services.

5. Annex 10-B applies to measures adopted or maintained by a Party relating to the licensing or certification of professional service suppliers as set out in that Annex.

ARTICLE 10.10: TRANSFERS AND PAYMENTS

1. Each Party shall permit all transfers and payments relating to the cross-border supply of services to be made freely and without delay into and out of its territory.

2. Each Party shall permit such transfers and payments relating to the cross-border supply of services to be made in a freely usable currency at the market rate of exchange prevailing at the time of transfer.

3. Notwithstanding paragraphs 1 and 2, a Party may prevent a transfer or payment through the equitable, non-discriminatory, and good faith application of its law relating to:

(a) bankruptcy, insolvency, or the protection of the rights of creditors;

(b) issuing, trading, or dealing in securities, futures, options, or derivatives;

ARTICLE 10.11: DENIAL OF BENEFITS

2. 3. Each Party shall ensure that, where a Party's monopoly supplier of postal services competes, either directly or through an affiliated company, in the supply of express delivery services outside the scope of its monopoly rights, such supplier does not abuse its monopoly position to act in its territory in a manner inconsistent with the Party's obligations under Articles 10.2, 10.3, or 10.4. The Parties also reaffirm their obligations under Article VIII of GATS.

2. A Party may determine the institutional and juridical form through which the new financial service may be supplied and may require authorization for the supply of the service. Where a Party would permit the new financial service and authorization is required, the decision shall be made within a reasonable time and authorization may only be refused for prudential reasons.

ARTICLE 11.8: SENIOR MANAGEMENT AND BOARDS OF DIRECTORS

1. Neither Party may require financial institutions of the other Party to engage individuals of any particular nationality as senior managerial or other essential personnel.

2. Neither Party may require that more than a minority of the board of directors of a financial institution of the other Party be composed of nationals of the Party, persons residing in the territory of the Party, or a combination thereof.

[2] The Parties understand that nothing in Article 11.6 prevents a financial institution of a Party from applying to the other Party to consider authorizing the supply of a financial service that is supplied in neither Party's territory. Such application shall be subject to the law of the Party to which the application is made and, for greater certainty, shall not be subject to the obligations of Article 11.6.

ARTICLE 11.9: NON-CONFORMING MEASURES

1. Articles 11.2 through 11.5 and 11.8 do not apply to:

(a) any existing non-conforming measure that is maintained by a Party at

(i) the central level of government, as set out by that Party in its Schedule to Annex III;

(ii) a regional level of government, as set out by that Party in its Schedule to Annex III; or

(iii) a local level of government;

(b) the continuation or prompt renewal of any non-conforming measure referred to in subparagraph (a); or

(c) an amendment to any non-conforming measure referred to in subparagraph (a) to the extent that the amendment does not decrease the conformity of the measure, as it existed immediately before the amendment, with Articles 11.2, 11.3, 11.4, or 11.8.[3]

2. Annex 11-B sets out certain specific commitments by each Party.

3. A non-conforming measure set out in a Party's Schedule to Annex I or II as a measure to which Article 10.2 (National Treatment), 10.3 (Most-Favored-Nation Treatment), or 10.4 (Market Access) does not apply shall be treated as a non-conforming measure to which Article 11.2, 11.3, or 11.4, as the case may be, does not apply, to the extent that the measure, sector, sub-sector, or activity set out in the Schedule of non-conforming measures is covered by this Chapter.

ARTICLE 11.10: EXCEPTIONS

1. Notwithstanding any other provision of this Chapter or Chapters Twelve (Telecommunications) or Thirteen (Electronic Commerce), including specifically Article 12.16 (Relationship to Other Chapters), and in addition Article 10.1.3 (Scope and Coverage) with respect to the supply of financial services in the territory of a Party, neither Party shall be prevented from adopting or maintaining measures for prudential reasons,[4] including for the protection of investors, depositors, policy holders, or persons to whom a fiduciary duty is owed by a financial institution or cross-border financial service supplier, or to ensure the integrity and stability of the financial system. Where such measures do not conform with the provisions of this Agreement referred to in this paragraph, they shall not be used as a means of avoiding the Party's commitments or obligations under such provisions.

2. Nothing in this Chapter or Chapters Twelve (Telecommunications) or Thirteen (Electronic Commerce), including specifically Article 12.16 (Relationship to Other Chapters), and in addition Article 10.1.3 (Scope and Coverage) with respect to the supply of financial services in the territory of a Party, applies to non-discriminatory measures of general application taken by any public entity in pursuit of monetary and related credit policies or exchange rate policies. This paragraph shall not affect a Party's obligations under Article 10.10 (Transfers and Payments).

---

[3] For greater certainty, Article 11.5 does not apply to an amendment to any non-conforming measure referred to in subparagraph (a) to the extent that the amendment does not decrease the conformity of the measure, as it existed on the date of entry into force of the Agreement, with Article 11.5.

[4] It is understood that the term "prudential reasons" includes the maintenance of the safety, soundness, integrity, or financial responsibility of individual financial institutions or cross-border financial service suppliers.

3. Notwithstanding Article 10.10 (Transfers and Payments), as incorporated into this Chapter, a Party may prevent or limit transfers by a financial institution or cross-border financial service supplier to, or for the benefit of, an affiliate of or person related to such institution or supplier, through the equitable, non-discriminatory, and good faith application of measures relating to maintenance of the safety, soundness, integrity, or financial responsibility of financial institutions or cross-border financial service suppliers. This paragraph does not prejudice any other provision of this Agreement that permits a Party to restrict transfers.

4. For greater certainty, nothing in this Chapter shall be construed to prevent the adoption or enforcement by a Party of measures necessary to secure compliance with laws or regulations that are not inconsistent with this Chapter, including those relating to the prevention of deceptive and fraudulent practices or to deal with the effects of a default on financial services contracts, subject to the requirement that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination between countries where like conditions prevail, or a disguised restriction on financial institutions of the other Party or cross-border trade in financial services, as covered by this Chapter.

ARTICLE 11.11: TRANSPARENCY

1. The Parties recognize that transparent regulations and policies governing the activities of financial institutions and cross-border financial service suppliers are important in facilitating both access of foreign financial institutions and foreign cross-border financial service suppliers to, and their operations in, each other's market. Each Party commits to promote regulatory transparency in financial services.

2. In lieu of Article 17.1 (Publication), each Party shall, to the extent practicable,

(a) publish in advance any regulations of general application relating to the subject matter of this Chapter that it proposes to adopt; and

(b) provide interested persons and the other Party a reasonable opportunity to comment on such proposed regulations.

3. At the time it adopts final regulations of general application relating to the subject matter of this Chapter, each Party should, to the extent practicable, address in writing substantive comments received from interested persons with respect to the proposed regulations.

4. To the extent practicable, each Party should allow reasonable time between publication of such final regulations and their effective date.

5. Each Party shall ensure that the rules of general application adopted or maintained by self-regulatory organizations of the Party are promptly published or otherwise made available in such a manner as to enable interested persons to become acquainted with them.

6. Each Party shall maintain or establish appropriate mechanisms for responding to inquiries from interested persons regarding measures of general application relating to the subject matter of this Chapter.

7. Each Party's regulatory authorities shall make available to interested persons their requirements, including any documentation required, for completing applications relating to the supply of financial services.

8. On the request of an applicant, a Party's regulatory authority shall inform the applicant of the status of its application. If the authority requires additional information from the applicant, it shall notify the applicant without undue delay.

9. A Party's regulatory authority shall make an administrative decision on a completed application of a financial institution or a cross-border financial service supplier of the other Party relating to the supply of a financial service within 120 days, and shall promptly notify the applicant of the decision. An application shall not be considered complete until all relevant hearings are held and all necessary information is received. Where it is not practicable for a decision to be made within 120 days, the regulatory authority shall notify the applicant without undue delay and shall endeavor to make the decision within a reasonable time thereafter.

ARTICLE 11.12: SELF-REGULATORY ORGANIZATIONS

Where a Party requires a financial institution or a cross-border financial service supplier of the other Party to be a member of, participate in, or have access to a self-regulatory organization to provide a financial service in or into its territory, the Party shall ensure observance of the obligations of Articles 11.2 and 11.3 by such self-regulatory organization.

ARTICLE 11.13: PAYMENT AND CLEARING SYSTEMS

Under terms and conditions that accord national treatment, each Party shall grant financial institutions of the other Party access to payment and clearing systems operated by public entities, and to official funding and refinancing facilities available in the normal course of ordinary business. This paragraph is not intended to confer access to the Party's lender of last resort facilities.

ARTICLE 11.14: DOMESTIC REGULATION

Each Party shall ensure that all measures of general application to which this Chapter applies are administered in a reasonable, objective, and impartial manner.

ARTICLE 11.15: EXPEDITED AVAILABILITY OF INSURANCE SERVICES

The Parties recognize the importance of maintaining and developing regulatory procedures to expedite the offering of insurance services by licensed suppliers.

ARTICLE 11.16: DENIAL OF BENEFITS

1. A Party may deny the benefits of this Chapter to an investor of the other Party that is an enterprise of such other Party and to a financial institution of the other Party that is a BIT investment of that investor if persons of a non-Party own or control the enterprise and the denying Party:

(a) does not maintain diplomatic relations with the non-Party; or

(b) adopts or maintains measures with respect to the non-Party or a person of the non-Party that prohibit transactions with the enterprise or that would be violated or circumvented if the benefits of this Chapter were accorded to the enterprise or the financial institution.

2. A Party may deny the benefits of this Chapter to an investor of the other Party that is an enterprise of such other Party and to a financial institution of the other Party that is a BIT investment of that investor if the enterprise has no substantial business activities in the territory of the other Party and persons of a non-Party, or of the denying Party, own or control the enterprise.

ARTICLE 11.17: INFORMATION REQUIREMENTS

Notwithstanding Articles 11.2 and 11.3, a Party may require a financial institution of the other Party to provide information concerning the financial institution solely for informational or statistical purposes. The Party shall protect any business information that is confidential from any disclosure that would prejudice the competitive position of the financial institution. Nothing in this paragraph shall be construed to prevent a Party from otherwise obtaining or disclosing information in connection with the equitable and good faith application of its law.

ARTICLE 11.18: FINANCIAL SERVICES SUBCOMMITTEE

1. The Parties hereby establish a Financial Services Subcommittee. The principal representative of each Party shall be an official of the Party's authority responsible for financial services set out in Annex 11-D.

2. The Subcommittee shall:

(a) supervise the implementation of this Chapter and its further elaboration; and

(b) consider issues regarding financial services that are referred to it by a Party.

3. The Subcommittee shall meet annually, or as otherwise agreed, to assess the functioning of this Agreement as it applies to financial services. The Subcommittee shall inform the Joint Committee established under Chapter Eighteen (Administration) of the results of each meeting.

ARTICLE 11.19: CONSULTATIONS

1. A Party may request consultations with the other Party regarding any matter arising under this Agreement that affects financial services. The other Party shall give sympathetic consideration to the request. The Parties shall report the results of their consultations to the Financial Services Subcommittee.

2. Consultations under this Article shall include officials of the authorities specified in Annex 11-D.

ARTICLE 11.20: DISPUTE SETTLEMENT

1. Chapter Nineteen (Dispute Settlement) applies as modified by this Article to the settlement of disputes arising under this Chapter.

2. When a Party claims that a dispute arises under this Chapter, Article 19.7 (Establishment of Panel) shall apply, except that:

(a) where the Parties so agree, the panel shall be composed entirely of panelists meeting the qualifications in paragraph 3;

(b) in any other case,

(i) each Party may select panelists meeting the qualifications set out in paragraph 3 or Article 19.7.4 (Establishment of Panel), and

(ii) if the Party complained against invokes Article 11.10, the chair of the panel shall meet the qualifications set out in paragraph 3, unless the Parties agree otherwise.

3. Financial services panelists shall:

(a) have expertise or experience in financial services law or practice, which may include the regulation of financial institutions;

(b) be chosen strictly on the basis of objectivity, reliability, and sound judgment; and

(c) meet the qualifications set out in Article 19.7.4(b) and (c) (Establishment of Panel).

4. Notwithstanding Article 19.11 (Non-Implementation), where a panel finds a measure to be inconsistent with this Agreement and the measure under dispute affects:

(a) only a sector other than the financial services sector, the complaining Party may not suspend benefits in the financial services sector; or

(b) the financial services sector and any other sector, the complaining Party may suspend benefits in the financial services sector that have an effect equivalent to the effect of the measure in the Party's financial services sector.

ANNEX 11-B
SPECIFIC COMMITMENTS

Expedited Availability of Insurance

The Parties understand that Bahrain requires prior product approval before the introduction of new insurance products. The Bahrain Monetary Agency (BMA) shall provide that once an enterprise seeking approval for insurance products files all the required information with the BMA, the BMA shall grant approval or issue disapproval according to its regulations for the sale of the new product within 60 days. The Parties understand that the BMA does not maintain any limitations on the number or frequency of new product introductions.

A Party shall allow a financial institution (other than a trust company), organized outside its territory, to provide investment advice and portfolio management services, excluding (1) custodial services, (2) trustee services, and (3) execution services that are not related to managing a collective investment scheme, to a collective investment scheme located in the Party's territory. Insurance

1. In the context of Bahrain's review of the regulatory framework for the insurance sector, Bahrain shall ensure that any laws, regulations, and rules that are developed as a result of the review will treat enterprises of the United States on a non-discriminatory basis, subject only to any relevant non-conforming measures listed in Bahrain's Schedule to Annex III.

[1] For greater certainty, this subparagraph does not prohibit either Party from requiring a service supplier to obtain a license to supply telecommunications services to third parties.

4. Notwithstanding paragraph 3, a Party may take such measures as are necessary to ensure the security and confidentiality of messages, provided that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination or disguised restriction on trade in services.

ARTICLE 12.3: OBLIGATIONS RELATING TO SUPPLIERS OF PUBLIC TELECOMMUNICATIONS SERVICES[2]

Interconnection

1. (a) Each Party shall ensure that suppliers of public telecommunications services in its territory provide, directly or indirectly, interconnection with suppliers of public telecommunications services of the other Party at reasonable rates.

(b) In carrying out subparagraph (a), each Party shall ensure that suppliers of public telecommunications services in its territory take reasonable steps to protect the confidentiality of commercially sensitive information of, or relating to, suppliers and end-users of public telecommunications services obtained as a result of interconnection arrangements and only use such information for the purpose of providing these services.

---

[2] This Article is subject to Annex 12-A.

[3] This paragraph applies to Bahrain upon a determination by its telecommunications regulatory body that sufficient consumer demand exists for number portability.

[4] Bahrain may exempt commercial mobile services from its obligations under this paragraph.

[5] This Article is subject to Annex 12-B.

(b) the availability of technical interfaces necessary for interconnection.

Competitive Safeguards

2. (a) Each Party shall maintain appropriate measures for the purpose of preventing suppliers that, alone or together, are a major supplier in its territory from engaging in or continuing anti-competitive practices.

(b) does not impose unreasonable or discriminatory conditions or limitations on the resale of such services.[7]

Unbundling of Network Elements

4. Interconnection

5. (a) General Terms and Conditions

Each Party shall ensure that a major supplier in its territory provides interconnection for the facilities and equipment of suppliers of public telecommunications services of the other Party:

---

[6] For purposes of subparagraph (a), wholesale rates set pursuant to a Party's law and regulations shall be considered reasonable.

[7] Where provided in its law or regulations, a Party may prohibit a reseller that obtains, at wholesale rates, a public telecommunications service available at retail to only a limited category of subscribers from offering the service to a different category of subscribers.

(i) at any technically feasible point in the major supplier's network;

(ii) under non-discriminatory terms, conditions (including technical standards and specifications), and rates;

(iii) of a quality no less favorable than that provided by the major supplier for its own like services, for like services of non-affiliated service suppliers, or for its subsidiaries or other affiliates;

(iv) in a timely fashion, and on terms and conditions (including technical standards and specifications), and at cost-oriented rates, that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the suppliers need not pay for network components or facilities that they do not require for the service to be provided; and

(v) on request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

(b) Options for Interconnecting with Major Suppliers

Each Party shall ensure that suppliers of public telecommunications services of the other Party may interconnect their facilities and equipment with those of a major supplier in its territory pursuant to at least one of the following options:

(a) Subject to subparagraphs (b) and (c), each Party shall ensure that a major supplier in its territory provides to suppliers of public telecommunications services of the other Party physical co-location of equipment necessary for interconnection on terms and conditions, and at cost-oriented rates, that are reasonable, non-discriminatory, and transparent.

(b) Where physical co-location is not practical for technical reasons or because of space limitations, each Party shall ensure that a major supplier in its territory:

(i) provides an alternative solution; or

(ii) facilitates virtual co-location,

on terms and conditions, and at cost-oriented rates, that are reasonable, non-discriminatory, and transparent.

(c) Each Party may determine through its law or regulations which premises are subject to subparagraphs (a) and (b).

Each Party shall ensure that any supplier that it authorizes to operate a submarine cable system in its territory as a public telecommunications service accords reasonable and non-discriminatory treatment with respect to access to that system

(including landing facilities) to suppliers of public telecommunications services.

ARTICLE 12.6: CONDITIONS FOR THE SUPPLY OF VALUE-ADDED SERVICES

1. Neither Party may require an enterprise in its territory that it classifies as a supplier of value-added services and that supplies those services to facilities that it does not own to:

(a) supply those services to the public generally;

(b) cost-justify its rates for those services;

(c) file a tariff for those services;

(d) interconnect its networks with any particular customer for the supply of those services; or

(e) conform with any particular standard or technical regulation for interconnection other than for interconnection to a public telecommunications network.

2. Notwithstanding paragraph 1, a Party may take the actions described in paragraph 1 to remedy a practice of a supplier of value-added services that the Party has found in a particular case to be anti-competitive under its law or regulations, or to otherwise promote competition or safeguard the interests of consumers.

ARTICLE 12.7: INDEPENDENT REGULATORY BODIES AND GOVERNMENT OWNERSHIP

1. Each Party shall ensure that its telecommunications regulatory body is separate from, and not accountable to, any supplier of public telecommunications services. To this end, each Party shall ensure that its telecommunications regulatory body does not hold a financial interest or maintain an operating role in any such supplier.

2. Each Party shall ensure that the decisions and procedures of its telecommunications regulatory body are impartial with respect to all interested persons. To this end, each Party shall ensure that any financial interest that it holds in a supplier of public telecommunications services does not influence the decisions and procedures of its telecommunications regulatory body.

3. Neither Party may accord more favorable treatment to a supplier of public telecommunications services or to a supplier of value-added services in its territory than that accorded to a like supplier of the other Party on the basis that the supplier receiving more favorable treatment is owned by the national government of the Party.

4. Each Party shall maintain the absence of or eliminate as soon as feasible national government ownership in any supplier of public telecommunications services. Where a Party has an ownership interest in a supplier of public telecommunications services and intends to reduce or eliminate its interest, it shall notify the other Party of its intention as soon as possible.

1. When a Party requires a supplier of public telecommunications services to have a license, the Party shall make publicly available:

(a) all the licensing criteria and procedures it applies;

2. Each Party shall ensure that, on request, an applicant receives the reasons for its denial of a license.

ARTICLE 12.10: ALLOCATION AND USE OF SCARCE RESOURCES

1. Each Party shall administer its procedures for the allocation and use of scarce telecommunications resources, including frequencies, numbers, and rights of way,[8] in an objective, timely, transparent, and non-discriminatory manner.

2. Each Party shall make publicly available the current state of allocated frequency bands but shall not be required to provide detailed identification of frequencies allocated for specific government uses.

3. A Party's measures allocating and assigning spectrum and managing frequency are not measures that are *per se* inconsistent with Article 10.4 (Market Access). Accordingly, each Party retains the right to establish and apply spectrum and frequency management policies that may have the effect of limiting the number of suppliers of public telecommunications services, provided it does so in a manner consistent with other provisions of this Agreement. This includes the ability to allocate frequency bands, taking into account current and future needs and spectrum availability.

ARTICLE 12.11: ENFORCEMENT

Each Party shall provide its competent authority the authority to enforce the Party's measures relating to the obligations set out in Articles 12.2 through 12.5. Such authority shall include the ability to impose effective sanctions, which may include financial penalties, injunctive relief (on an interim or final basis), or the modification, suspension, and revocation of licenses.

ARTICLE 12.12: RESOLUTION OF TELECOMMUNICATIONS DISPUTES

Further to Articles 17.3 (Administrative Proceedings) and 17.4 (Review and Appeal), each Party shall ensure the following:

Recourse to Telecommunications Regulatory Bodies

[8] With respect to Bahrain's obligations under paragraph 1, "rights of way" means right of use as provided under Chapter 13 of the Telecommunications Law of Bahrain.

(b) suppliers of public telecommunications services of the other Party that have requested interconnection with a major supplier in the Party's territory may seek review, within a reasonable and publicly specified period after the supplier requests interconnection, by its telecommunications regulatory body[9] to resolve disputes regarding the terms, conditions, and rates for interconnection with such major supplier; and

Review and Appeal

(c) any enterprise that is aggrieved or whose interests are adversely affected by a determination or decision of its telecommunications regulatory body may obtain review of the determination or decision by an independent judicial authority or other independent tribunal.

ARTICLE 12.13: TRANSPARENCY OF MEASURES RELATING TO TELECOMMUNICATIONS

Further to Article 17.1 (Publication), each Party shall ensure that:

(a) rulemakings, including the basis for such rulemakings, of its telecommunications regulatory body and end-user tariffs filed with its telecommunications regulatory body are promptly published or otherwise made available to all interested persons;

(b) interested persons are provided with adequate advance public notice of, and the opportunity to comment on, any rulemaking that its telecommunications regulatory body proposes; and

(c) its measures relating to public telecommunications services are made publicly available, including measures relating to:

(i) tariffs and other terms and conditions of service;

(ii) procedures relating to judicial and other adjudicatory proceedings;

(iii) specifications of technical interfaces;

(iv) conditions for attaching terminal or other equipment to the public telecommunications network; and

(v) notification, permit, registration, or licensing requirements, if any.

ARTICLE 12.14: FLEXIBILITY IN THE CHOICE OF TECHNOLOGIES

Neither Party may prevent suppliers of public telecommunications services from having the flexibility to choose the technologies that they use to supply their services, including commercial mobile wireless services, subject to requirements necessary to satisfy legitimate public policy interests.

[9] The United States may comply with this obligation by providing for review by a state regulatory authority.

ARTICLE 12.15: FORBEARANCE

1. The Parties recognize the importance of relying on competitive market forces to provide wide choice in the supply of telecommunications services. To this end, each Party may forbear, to the extent provided for in its law, from applying a regulation to a service that the Party classifies as a public telecommunications service, if its telecommunications regulatory body determines that:

(a) enforcement of the regulation is not necessary to prevent unreasonable or discriminatory practices;

(b) enforcement of the regulation is not necessary for the protection of consumers; and

(c) forbearance is consistent with the public interest, including promoting and enhancing competition between suppliers of public telecommunications services.

2. For greater certainty, each Party shall subject its regulatory body's decision to forebear to judicial review in accordance with subparagraph (c) of Article 12.12.

A Party may derogate from paragraph 5 in relation to its judicial and administrative procedures, including any procedure requiring a national of the other Party to designate for service of process an address in its territory or to appoint an agent in its territory, provided that such derogation:

(a) is necessary to secure compliance with laws and regulations that are not inconsistent with this Chapter; and

(b) is not applied in a manner that would constitute a disguised restriction on trade.

7. Paragraph 5 does not apply to procedures provided in multilateral agreements concluded under the auspices of the World Intellectual Property Organization in relation to the acquisition or maintenance of intellectual property rights.

8. Except as otherwise provided in this Chapter, including Article 14.4.5, this Chapter gives rise to obligations in respect of all subject matter existing at the date of entry into force of this Agreement that is protected on that date in the Party where protection is claimed, or that meets or comes subsequently to meet the criteria for protection under the terms of this Chapter.

[3] For greater certainty, a Party may satisfy the requirement for publication by making it available to the public on the Internet

2. Each Party shall provide that trademarks shall include certification marks. Each Party shall also provide that signs that may serve, in the course of trade, as geographical indications may constitute certification or collective marks.[4]

3. Each Party shall ensure that its measures mandating the use of the term customary in common language as the common name for a good ("common name") including, *inter alia*, requirements concerning the relative size, placement or style of use of the trademark in relation to the common name, do not impair the use or effectiveness of trademarks used in relation to such good.

4. Each Party shall provide that the owner of a registered trademark shall have the exclusive right to prevent all third parties not having the owner's consent from using in the course of trade identical or similar signs, including geographical indications, for goods or services that are related to those goods or services in respect of which the owner's trademark is registered, where such use would result in a likelihood of confusion.

5. Each Party may provide limited exceptions to the rights conferred by a trademark, such as fair use of descriptive terms, provided that such exceptions take account of the legitimate interest of the owner of the trademark and of third parties.

6. Article 6*bis* of the Paris Convention for the Protection of Industrial Property (1967) shall apply, *mutatis mutandis*, to goods or services that are not identical or similar to those identified by a well-known trademark,[5] whether registered or not, provided that use of that trademark in relation to those goods or services would indicate a connection between those goods or services and the owner of the trademark, and provided that the interests of the owner of the trademark are likely to be damaged by such use.

7. Each Party shall provide a system for the registration of trademarks, which shall include:

(a) providing to the applicant a communication in writing, which may be electronic, of the reasons for a refusal to register a trademark;

---

Any sign or combination of signs (such as words - including geographical and personal names, as well as letters, numerals, figurative elements and colors, including single colors), in any form whatsoever, shall be eligible to be a geographical indication.

[5] In determining whether a trademark is well known, the reputation of the trademark need not extend beyond the sector of the public that normally deals with the relevant goods or services.

9. (a) Each Party shall provide that each registration or publication that concerns a trademark application or registration and that indicates goods or services shall indicate the goods or services by their names, grouped according to the classes of the classification established by the *Nice Agreement Concerning the International Classification of Goods and Services for the Purposes of the Registration of Marks* (1979) ("Nice Classification").

(b) Each Party shall provide that goods or services may not be considered as being similar to each other solely on the ground that, in any registration or publication, they appear in the same class of the Nice Classification. Conversely, each Party shall provide that goods or services may not be considered as being dissimilar from each other solely on the ground that, in any registration or publication, they appear in different classes of the Nice Classification.

10. Each Party shall provide that initial registration and each renewal of registration of a trademark shall be for a term of no less than 10 years.

11. Neither Party may require recordation of trademark licenses to establish the validity of the license, to assert any rights in a trademark, or for other purposes.

12. If a Party provides the means to apply for protection or petition for recognition of geographical indications, through a system of protection of trademarks or otherwise, it shall accept those applications and petitions without the requirement for intercession by a Party on behalf of its nationals and shall:

(a) process applications or petitions, as the case may be, for geographical indications with a minimum of formalities.

(b) make the regulations governing filing of such applications or petitions, as the case may be, readily available to the public.

(c) provide that applications or petitions, as the case may be, for geographical indications are published for opposition, and shall provide procedures for opposing geographical indications that are the subject of applications or petitions. Each Party shall also provide procedures to cancel a registration resulting from an application or a petition.

(d) provide that measures governing the filing of applications or petitions for geographical indications set out clearly the procedures for these actions. Such procedures shall include contact information sufficient for applicants and/or petitioners to obtain specific procedural guidance regarding the processing.

13. Each Party shall provide that grounds for refusing protection or recognition of a geographical indication include the following:

(a) the geographical indication is likely to cause confusion with a trademark that is the subject of a good-faith pending application or registration; and

(b) the geographical indication is likely to cause confusion with a pre-existing trademark, the rights to which have been acquired through use in good faith in that Party.

ARTICLE 14.3: DOMAIN NAMES ON THE INTERNET

1. Each Party shall require that the management of its country-code top-level domain (ccTLD) provide an appropriate procedure for the settlement of disputes, based on the principles established in the Uniform Domain-Name Dispute-Resolution Policy (UDRP), in order to address the problem of trademark cyber-piracy.

2. Each Party shall require that the management of its ccTLD provide online public access to a reliable and accurate database of contact information for domain-name registrants.

ARTICLE 14.4: OBLIGATIONS PERTAINING TO COPYRIGHT AND RELATED RIGHTS

1. Each Party shall provide that authors, performers, and producers of phonograms[6] have the right[7] to authorize or prohibit all reproductions of their works, performances, and phonograms[8], in any manner or form, permanent or temporary (including temporary storage in electronic form).

2. Each Party shall provide to authors, performers, and producers of phonograms the right of authorizing the making available to the public of the original and copies of their works, performances, and phonograms through sale or other transfer of ownership.

3. In order to ensure that no hierarchy is established between rights of authors, on the one hand, and rights of performers and producers of phonograms, on the other hand, each Party shall provide that in cases where authorization is needed from both the author of a work embodied in a phonogram and a performer or producer owning rights in the phonogram, the need for the authorization of the author does not cease to exist because the authorization of the performer or producer is also required. Likewise, each Party shall establish that in cases where authorization is needed from both the author of a work embodied in a phonogram and a performer or producer owning rights in the phonogram, the need for the authorization of the performer or producer does not cease to exist because the authorization of the author is also required.

4. Each Party shall provide that, where the term of protection of a work (including a photographic work), performance, or phonogram is to be calculated:

(a) on the basis of the life of a natural person, the term shall be not less than the life of the author and 70 years after the author's death; and

(b) on a basis other than the life of a natural person, the term shall be

(i) not less than 70 years from the end of the calendar year of the first authorized publication of the work, performance, or phonogram, or

[6] References to "authors, performers, and producers of phonograms" refer also to any successors in interest.

[7] With respect to copyrights and related rights in this Chapter, a right to authorize or prohibit or a right to authorize shall be construed to mean an exclusive right.

[8] With respect to copyright and related rights in this Chapter, a "performance" refers to a performance fixed in a phonogram, unless otherwise specified.

(ii) failing such authorized publication within 50 years from the creation of the work, performance or phonogram, not less than 70 years from the end of the calendar year of the creation of the work, performance, or phonogram.

5. Each Party shall apply Article 18 of the Berne Convention (and Article 14.6 of the TRIPS Agreement), *mutatis mutandis*, to the subject matter, rights, and obligations in Articles 14.4 through 14.6.

6. Each Party shall provide that for copyright and related rights, any person acquiring or holding any economic right in a work, performance, or phonogram:

(a) may freely and separately transfer such right by contract; and

(b) by virtue of a contract, including contracts of employment underlying the creation of works, performances, and phonograms, shall be able to exercise those rights in that person's own name and enjoy fully the benefits derived from those rights.

7. (a) In order to provide adequate legal protection and effective legal remedies against the circumvention of effective technological measures that authors, performers, and producers of phonograms use in connection with the exercise of their rights and that restrict unauthorized acts in respect of their works, performances, and phonograms, each Party shall provide that any person who:

(i) circumvents without authority any effective technological measure that controls access to a protected work, performance, phonogram, or other subject matter; or

(ii) manufactures, imports, distributes, offers to the public, provides, or otherwise traffics in devices, products, or components, or offers to the public or provides services, which:

(A) are promoted, advertised, or marketed for the purpose of circumvention of any effective technological measure, or

(B) have only a limited commercially significant purpose or use other than to circumvent any effective technological measure, or

(C) are primarily designed, produced, or performed for the purpose of enabling or facilitating the circumvention of any effective technological measure;

shall be liable and subject to the remedies provided for in Article 14.10.14. Each Party shall provide for criminal procedures and penalties to be applied when any person, other than a nonprofit library, archive, educational institution, or public noncommercial broadcasting entity, is found to have engaged willfully and for purposes of commercial advantage or private financial gain in the above activities.

(b) **Effective technological measure** means any technology, device, or component that, in the normal course of its operation, controls access to a protected work, performance, phonogram, or other subject matter, or protects any copyright or any rights related to copyright.

(c) In implementing subparagraph (a), neither Party is obligated to require that the design of, or the design and selection of parts and components for, a consumer electronics, telecommunications, or computing product provide for a response to any particular technological measure, so long as such product does not otherwise violate any measures implementing subparagraph (a).

(d) Each Party shall provide that a violation of the measures implementing this Article is a separate civil or criminal offence and independent of any infringement that might occur under the Party's law on copyright and related rights.

(e) Each Party shall confine exceptions to measures implementing subparagraph (a) to the following activities, which shall be applied to relevant measures in accordance with subparagraph (f):

(i) noninfringing reverse engineering activities with regard to a lawfully obtained copy of a computer program, carried out in good faith with respect to particular elements of that computer program that have not been readily available to the person engaged in such activity, for the sole purpose of achieving interoperability of an independently created computer program with other programs;

(ii) noninfringing good faith activities, carried out by an appropriately qualified researcher who has lawfully obtained a copy, unfixed performance, or display of a work, performance, or phonogram and who has made a good faith effort to obtain authorization for such activities, to the extent necessary for the sole purpose of identifying and analyzing flaws and vulnerabilities of technologies for scrambling and descrambling of information;

(iii) the inclusion of a component or part for the sole purpose of preventing the access of minors to inappropriate online content in a technology, product, service, or device that itself is not prohibited under the measures implementing subparagraph (a)(ii);

(vi) lawfully authorized activities carried out by government employees, agents, or contractors for the purpose of law enforcement, intelligence, essential security, or similar government activities;

(vii) access by a nonprofit library, archive, or educational institution to a work, performance, or phonogram not otherwise available to it, for the sole purpose of making acquisition decisions; and

(viii) non-infringing uses of a work, performance, or phonogram in a particular class of works, performances, or phonograms when an actual or likely adverse impact on those non-infringing uses is demonstrated in a legislative or administrative proceeding by substantial evidence; provided that any limitation or exception adopted in reliance upon this subparagraph shall have effect for a renewable period of not more than three years from the date of conclusion of such proceeding.

(f) The exceptions to measures implementing subparagraph (a) for the activities set forth in Article 14.4.7(e) may only be applied as follows, and only to the extent that they do not impair the adequacy of legal protection or the effectiveness of legal remedies against the circumvention of effective technological measures:

(i) measures implementing subparagraph (a)(i) may be subject to exceptions and limitations with respect to each activity set forth in subparagraph (e).

(ii) measures implementing subparagraph (a)(ii), as they apply to effective technological measures that control access to a work, performance, or phonogram, may be subject to exceptions and limitations with respect to activities set forth in subparagraph (e)(i), (ii), (iii), (iv), and (vi).

(iii) measures implementing subparagraph (a)(ii), as they apply to effective technological measures that protect any copyright or any rights related to copyright, may be subject to exceptions and limitations with respect to activities set forth in subparagraph (e)(i) and (vi).

8. In order to provide adequate and effective legal remedies to protect rights management information:

(a) Each Party shall provide that any person who without authority, and knowing, or, with respect to civil remedies, having reasonable grounds to know, that it would induce, enable, facilitate, or conceal an infringement of any copyright or related right,

(i) knowingly removes or alters any rights management information;

(ii) distributes or imports for distribution rights management information knowing that the rights management information has been removed or altered without authority; or

(iii) distributes, imports for distribution, broadcasts, communicates, or makes available to the public copies of works, performances, or phonograms, knowing that rights management information has been removed or altered without authority;

shall be liable and subject to the remedies provided for in Article 14.10.15. Each Party shall provide for criminal procedures and penalties to be applied when any person, other than a nonprofit library, archive, educational institution, or public noncommercial broadcasting entity, is found to have engaged willfully and for purposes of commercial advantage or private financial gain in the above activities.

(b) Each Party shall confine exceptions to the obligations in subparagraph (a) to lawfully authorized activities carried out by government employees, agents, or contractors for the purpose of law enforcement, intelligence, essential security, or similar government activities.

(c) **Rights management information** means

(i) information which identifies a work, performance, or phonogram; the author of the work, the performer of the performance, or the producer of the phonogram; or the owner of any right in the work, performance, or phonogram; or

(ii) information about the terms and conditions of the use of the work, performance, or phonogram; or

(iii) any numbers or codes that represent such information;

when any of these items is attached to a copy of the work, performance, or phonogram or appears in conjunction with the communication or making available of a work, performance, or phonogram to the public. Nothing in this paragraph obligates a Party to require the owner of any right in the work, performance, or phonogram to attach rights management information to copies of the work, performance, or phonogram, or to cause rights management information to appear in connection with a communication of the work, performance, or phonogram to the public.

9. Each Party shall issue appropriate laws, orders, regulations, or administrative or executive decrees mandating that its agencies use computer software only as authorized by the right holder. Such measures shall actively regulate the acquisition and management of software for government use.

10. (a) With respect to this Article and Articles 14.5 and 14.6, each Party shall confine limitations or exceptions to exclusive rights to certain special cases that do not conflict with a normal exploitation of the work, performance, or phonogram, and do not unreasonably prejudice the legitimate interests of the right holder.

(b) Notwithstanding subparagraph (a) and Article 6.3(b), neither Party shall permit the retransmission of television signals (whether terrestrial, cable, or satellite) on the Internet without the authorization of the right holder or right holders of the content of the signal and, if any, of the signal.

ARTICLE 14.5: OBLIGATIONS PERTAINING SPECIFICALLY TO COPYRIGHT

Without prejudice to the provisions of Articles 11(1)(ii), 11bis(1)(i) and (ii), 11ter(1)(ii), 14(1)(ii), and 14bis(1) of the Berne Convention, each Party shall provide to authors the exclusive right to authorize or prohibit the communication to the public of their works, by wire or wireless means, including the making available to the public of their works in such a way that members of the public may access these works from a place and at a time individually chosen by them.

ARTICLE 14.6: OBLIGATIONS PERTAINING SPECIFICALLY TO RELATED RIGHTS

1. Each Party shall accord the rights provided for in this Chapter to the performers and producers of phonograms who are nationals of the other Party and to performances or phonograms first published or first fixed in the territory of the other Party. A performance or phonogram shall be considered first published in the territory of the other Party if it is published in that territory within 30 days of its original publication.[9]

2. Each Party shall provide to performers the right to authorize or prohibit (a) the broadcasting and communication to the public of their unfixed performances except where the performance is already a broadcast performance, and (b) the fixation of their unfixed performances.

3. (a) Each Party shall provide to performers and producers of phonograms the right to authorize or prohibit the broadcasting or any communication to the public of their performances or phonograms, by wire or wireless means, including the making available to the public of those performances and phonograms in such a way that members of the public may access them from a place and at a time individually chosen by them.

(b) Notwithstanding subparagraph (a) and Article 14.5.10, the application of this right to analog transmissions and free over-the-air broadcasts, and exceptions or limitations to this right for such activity, shall be a matter of domestic law.

(c) Each Party may adopt limitations to this right in respect of other noninteractive transmissions in accordance with Article 4.4.10, which shall not be prejudicial to the right of the performer or producer of phonograms to obtain equitable remuneration.

4. Neither Party shall subject the enjoyment and exercise of the rights of performers and producers of phonograms provided for in this Chapter to any formality.

5. For purposes of Articles 14.4 and 14.6, the following definitions apply with respect to performers and producers of phonograms:

(a) **performers** means actors, singers, musicians, dancers, and other persons who act, sing, deliver, declaim, play in, interpret, or otherwise perform literary or artistic works or expressions of folklore;

(b) **phonogram** means the fixation of the sounds of a performance or of other sounds, or of a representation of sounds, other than in the form of a fixation incorporated in a cinematographic or other audiovisual work;

(c) **fixation** means the embodiment of sounds, or of the representations thereof, from which they can be perceived, reproduced, or communicated through a device;

(d) **producer of a phonogram** means the person who, or the legal entity which, takes the initiative and has the responsibility for the first fixation of the sounds of a performance or other sounds, or the representations of sounds;

[9] For purposes of this Article, fixation includes the finalization of the master tape or its equivalent.

(e) **publication of a performance or a phonogram** means the offering of copies of the performance or the phonogram to the public, with the consent of the rightholder, and provided that copies are offered to the public in reasonable quantity;

(f) **broadcasting** means the transmission by wireless means or satellite to the public of sounds or sounds and images, or of the representations thereof, including wireless transmission of encrypted signals where the means for decrypting are provided to the public by the broadcasting organization or with its consent; "broadcasting" does not include transmissions over computer networks or any transmissions where the time and place of reception may be individually chosen by members of the public; and

(g) **communication to the public** of a performance or a phonogram means the transmission to the public by any medium, otherwise than broadcasting, of sounds of a performance or the sounds or the representations of sounds fixed in a phonogram. For the purposes of paragraph 3, "communication to the public" includes making the sounds or representations of sounds fixed in a phonogram audible to the public.

ARTICLE 14.7: PROTECTION OF ENCRYPTED PROGRAM-CARRYING SATELLITE SIGNALS

1. Each Party shall make it:

(a) a criminal offense to manufacture, assemble, modify, import, export, sell, lease, or otherwise distribute a tangible or intangible device or system, knowing or having reason to know that the device or system is primarily of assistance in decoding an encrypted program-carrying satellite signal without the authorization of the lawful distributor of such signal; and

(b) a criminal offense willfully to receive or further distribute a program-carrying signal that originated as an encrypted satellite signal knowing that it has been decoded without the authorization of the lawful distributor of the signal.

2. Each Party shall provide for civil remedies, including compensatory damages, for any person injured by any activity described in paragraph 1, including any person that holds an interest in the encrypted programming signal or the content of such signal.

ARTICLE 14.8: PATENTS

1. Each Party may exclude from patentability inventions, the prevention within their territory of the commercial exploitation of which is necessary to protect *ordre public* or morality, including to protect human, animal, or plant life or health or to avoid serious prejudice to the environment, provided that such exclusion is not made merely because the exploitation is prohibited by law. Each Party may also exclude from patentability animals and diagnostic, therapeutic, and surgical procedures for the treatment of humans or animals.

2. Each Party shall make patents available for plant inventions. In addition, the Parties confirm that patents shall be available for any new uses or methods of using a known product, including products to be used for particular medical conditions, subject to the exclusions provided in Article 14.8.1 and the conditions of patentability.

3. Each Party may provide limited exceptions to the exclusive rights conferred by a patent, provided that such exceptions do not unreasonably conflict with a normal exploitation of the patent and do not unreasonably prejudice the legitimate interests of the patent owner, taking account of the legitimate interests of third parties.

4. Each Party shall provide that a patent may be revoked only on grounds that would have justified a refusal to grant the patent. A Party may also provide that fraud, misrepresentation, or inequitable conduct may be the basis for revoking or holding a patent unenforceable. Where a Party provides proceedings that permit a third party to oppose the grant of a patent, a Party shall not make such proceedings available prior to the grant of the patent.

5. Consistent with paragraph 3, if a Party permits a third person to use the subject matter of a subsisting patent solely to support an application for marketing approval of a pharmaceutical product, that Party shall provide that any product produced under such authority shall not be made, used, or sold in the territory of that Party other than to meet requirements for approval to market the product once the patent expires, and if the Party permits exportation, the product shall only be exported outside the territory of that Party for purposes of meeting marketing approval requirements of that Party.

6. (a) Each Party, at the request of the patent owner, shall adjust the term of a patent to compensate for unreasonable delays that occur in granting the patent. For the purposes of this paragraph, an unreasonable delay shall at least include a delay in the issuance of the patent of more than four years from the date of filing of the application in the Party, or two years after a request for examination of the application has been made, whichever is later, provided that periods attributable to actions of the patent applicant need not be included in the determination of such delays.

(b) With respect to any pharmaceutical product that is covered by a patent:

(i) each Party shall make available an extension of the patent term to compensate the patent owner for unreasonable curtailment of the effective patent term as a result of the marketing approval process related to the first commercial use of the product in that Party; and

(ii) where a Party approves the marketing of a new pharmaceutical product on the basis of information concerning the safety or efficacy of a same or a similar product in another territory, such as evidence of prior marketing approval, the Party shall make available an extension of the patent term to compensate the patent owner for unreasonable curtailment of the effective patent term in the Party as a result of the marketing approval process in the other territory and in the Party.

For purposes of this paragraph, **effective patent term** means the period from the date of approval of the product until the original expiration date of the patent.

7. When a Party provides for the grant of a patent on the basis of a patent granted in another territory, that Party, at the request of the patent owner, shall extend the term of a patent granted under such procedure by a period equal to the period of the extension, if any, provided in respect of the patent granted by such other territory.

8. Each Party shall disregard information contained in public disclosures used to determine if an invention is novel or has an inventive step[10] if the public disclosure was (a) made or authorized by, or derived from, the patent applicant and (b) occurs within 12 months prior to the date of filing of the application in the Party.

9. Each Party shall provide patent applicants with at least one opportunity to make amendments, corrections, and observations.

10. Each Party shall provide that a disclosure of a claimed invention is sufficiently clear and complete if it provides information that allows the invention to be made and used by a person skilled in the art, without undue experimentation, as of the filing date.

11. Each Party shall provide that a claimed invention is sufficiently supported by its disclosure if the disclosure reasonably conveys to a person skilled in the art that the applicant was in possession of the claimed invention as of the filing date.

ARTICLE 14.9: MEASURES RELATED TO CERTAIN REGULATED PRODUCTS

1. (a) If a Party requires or permits, as a condition of granting marketing approval for a new pharmaceutical or new agricultural chemical product, the submission of information concerning safety or efficacy of the product, the Party shall not, without the consent of a person that previously submitted such safety or efficacy information to obtain marketing approval in the Party, authorize another to market a same or a similar product based on:

(i) the safety or efficacy information submitted in support of the marketing approval; or

(ii) evidence of the marketing approval;

for at least five years for pharmaceutical products and ten years for agricultural chemical products from the date of marketing approval in the Party.

(b) If a Party requires or permits, in connection with granting marketing approval for a new pharmaceutical or agricultural chemical product, the submission of evidence concerning the safety or efficacy of a product that was previously approved in another territory, such as evidence of prior marketing approval in the other territory, the Party shall not, without the consent of a person that previously submitted the safety or efficacy information to obtain marketing approval in the other territory, authorize another to market a same or a similar product based on:

(i) the safety or efficacy information submitted in support of the prior marketing approval in the other territory; or

[10] For purposes of this Article, the term "inventive step" will be treated as synonymous with the term "non-obvious."

(ii) evidence of prior marketing approval in the other territory;

for at least five years for pharmaceutical products and ten years for agricultural chemical products from the date of marketing approval of the new product in the Party.

(c) For purposes of this Article, a new pharmaceutical product is one that does not contain a chemical entity that has been previously approved in the Party for use in a pharmaceutical product and a new agricultural chemical product is one that contains a chemical entity that has not been previously approved in the Party for use in an agricultural chemical product.

2. (a) If a Party requires or permits, as a condition of granting marketing approval for a pharmaceutical product that includes a chemical entity that has been previously approved for marketing in another pharmaceutical product, the submission of new clinical information, other than information related to bioequivalency, the Party shall not, without the consent of a person that previously submitted such new clinical information to obtain marketing approval in the Party, authorize another to market a same or a similar product based on:

(i) the new clinical information submitted in support of the marketing approval; or

(ii) evidence of the marketing approval based on the new clinical information;

for at least three years from the date of marketing approval in the Party.

(b) If a Party requires or permits, in connection with granting marketing approval for a pharmaceutical product of the type specified in subparagraph (a), the submission of evidence concerning new clinical information for a product that was previously approved based on that new clinical information in another territory, other than evidence of information related to bioequivalency, such as evidence of prior marketing approval based on the new clinical information, the Party shall not, without the consent of the person that previously submitted such new clinical information to obtain marketing approval in the other territory, authorize another to market a same or a similar product based on:

(i) the new clinical information submitted in support of the prior marketing approval in the other territory; or

(ii) evidence of prior marketing approval based on the new clinical information in the other territory;

for at least three years from the date of marketing approval based on the new clinical information in the Party.

(c) If a Party requires or permits, as a condition of granting marketing approval, for a new use, for an agricultural chemical product that has been previously approved in the Party, the submission of safety or efficacy information, the Party shall not, without the consent of a person that previously submitted such safety or efficacy information to obtain marketing approval in the Party, authorize another to market a same or a similar product for that use based on:

(i) the submitted safety or efficacy information; or

(ii) evidence of the marketing approval for that use;

for at least ten years from the date of the original marketing approval of the agricultural chemical product in the Party.

(d) If a Party requires or permits, in connection with granting marketing approval, for a new use, for an agricultural chemical product that has been previously approved in the Party, the submission of evidence concerning the safety or efficacy of a product that was previously approved in another territory for that new use, such as evidence of prior marketing approval for that new use, the Party shall not, without the consent of the person that previously submitted the safety or efficacy information to obtain marketing approval in the other territory, authorize another to market a same or a similar product based on:

(i) the safety or efficacy information submitted in support of the prior marketing approval for that use in the other territory; or

(ii) evidence of prior marketing approval in another territory for that new use

for at least ten years from the date of the original marketing approval granted in the Party.

3. When a product is subject to a system of marketing approval pursuant to paragraph 1 or 2 and is also covered by a patent in the territory of that Party, the Party shall not alter the term of protection that it provides pursuant to paragraphs 1 and 2 in the event that the patent protection terminates on a date earlier than the end of the term of protection specified in paragraphs 1 and 2.

4. Where a Party permits, as a condition of approving the marketing of a pharmaceutical product, persons, other than the person originally submitting safety or efficacy information, to rely on evidence of safety or efficacy information of a product that was previously approved, such as evidence of prior marketing approval in the Party or in another territory, that Party:

(a) shall implement measures in its marketing approval process to prevent such other persons from marketing a product covered by a patent claiming the product or its approved method of use during the term of that patent, unless by consent or acquiescence of the patent owner; and

(b) shall provide that the patent owner shall be notified of the identity of any such other person who requests marketing approval to enter the market during the term of a patent notified to the approving authority as covering that product.

ARTICLE 14.10: ENFORCEMENT OF INTELLECTUAL PROPERTY RIGHTS

General Obligations

1. Each Party shall provide that final judicial decisions or administrative rulings of general applicability pertaining to the enforcement of intellectual property rights shall be in writing and shall state any relevant findings of fact and the reasoning or the legal basis upon which the decisions are based. Each Party shall also provide that such decisions or rulings shall be published,[11] or where such publication is not practicable, otherwise made publicly available, in a national language in such a manner as to enable governments and right holders to become acquainted with them.

2. Each Party shall publicize information on its efforts to provide effective enforcement of intellectual property rights in its civil, administrative and criminal system, including any statistical information that the Party may collect for such purposes. Nothing in this paragraph shall require a Party to disclose confidential information that would impede law enforcement or otherwise be contrary to the public interest or would prejudice the legitimate commercial interests of particular enterprises, public or private.

3. The Parties understand that a decision that a Party makes on the distribution of enforcement resources shall not excuse that Party from complying with the provisions of this Chapter.

4. In civil, administrative, and criminal proceedings involving copyright or related rights, each Party shall provide for a presumption that, in the absence of proof to the contrary, the natural person or legal entity whose name is indicated as the author, producer, performer, or publisher of the work, performance, or phonogram in the usual manner, is the designated right holder in such work, performance, or phonogram. Each Party shall also provide for a presumption that, in the absence of proof to the contrary, the copyright or related right subsists in such subject matter.

Civil and Administrative Procedures and Remedies

5. Each Party shall make available to right holders[12] civil judicial procedures concerning the enforcement of any intellectual property right.

6. Each Party shall provide that:

(a) in civil judicial proceedings, the judicial authorities shall have the authority to order the infringer to pay the right holder:

(i) damages adequate to compensate for the injury the right holder has suffered as a result of the infringement, and

(ii) at least in the case of copyright or related rights infringement and trademark counterfeiting, the profits of the infringer that are attributable to the infringement and are not taken into account in computing the amount of the damages referred to in clause (i).

---

[11] The requirement for publication may be satisfied by making it available to the public on the Internet.

[12] For the purpose of this Article, the term "right holder" shall include exclusive licensees as well as federations and associations having the legal standing and authority to assert such rights; the term "exclusive licensee" shall include the exclusive licensee of any one or more of the exclusive intellectual property rights encompassed in a given intellectual property.

(b) in determining damages, the judicial authorities shall, *inter alia*, consider the value of the infringed-upon good or service, according to the suggested retail price or other legitimate measure of value put forth by the right holder of the infringed-upon good or service.

7. In civil judicial proceedings, each Party shall, at least with respect to works, phonograms, and performances protected by copyright or related rights, and in cases of trademark counterfeiting, establish or maintain a system of pre-established damages, which shall be available upon the election of the right holder and shall function so as to constitute a deterrent to infringements and to compensate fully the right holder for the harm caused by the infringement.

8. Each Party shall provide that its judicial authorities, except in exceptional circumstances, have the authority to order, at the conclusion of the civil judicial proceedings concerning copyright or related rights infringement and trademark infringement, that the prevailing party be awarded payment of court costs or fees and reasonable attorneys' fees by the losing party. Further, each Party shall provide that its judicial authorities, at least in exceptional circumstances, have the authority to order, at the conclusion of civil judicial proceedings concerning patent infringement, that the prevailing party be awarded payment of reasonable attorneys' fees by the losing party.

9. In civil judicial proceedings concerning copyright or related rights infringement and trademark counterfeiting, each Party shall provide that its judicial authorities shall have the authority to order the seizure of suspected infringing goods, any related materials and implements and, at least for trademark counterfeiting, documentary evidence relevant to the infringement.

10. Each Party shall provide that:

(a) in civil judicial proceedings, at the right holder's request, goods that have been found to be pirated or counterfeit shall be destroyed, except in exceptional circumstances;

(b) the authorities shall also have the authority to order that materials and implements that have been used in the manufacture or creation of such pirated or counterfeit goods be, without compensation of any sort, promptly destroyed or, in exceptional circumstances, without compensation of any sort, disposed of outside the channels of commerce in such a manner as to minimize the risks of further infringements; and

(c) in regard to counterfeit trademarked goods, the simple removal of the trademark unlawfully affixed shall not be sufficient to permit the release of goods into the channels of commerce.

11. Each Party shall provide that in civil judicial proceedings, the judicial authorities shall have the authority to order the infringer to provide any information that the infringer possesses regarding any person(s) or entities involved in any aspect of the infringement and regarding the means of production or the distribution channel of such goods or services, including the identification of third parties that are involved in the production and distribution of the infringing goods or services and their channels of distribution, and to provide this information to the right holder.

12. Each Party shall provide that its judicial authorities have the authority to fine or imprison, in appropriate cases, a party to a litigation who fails to abide by valid orders issued by such authorities, and impose sanctions on parties to a litigation, their counsel, experts or other persons subject to the court's jurisdiction, for violation of its orders regarding the protection of confidential information produced or exchanged in a proceeding.

13. To the extent that any civil remedy can be ordered as a result of administrative procedures on the merits of a case, each Party shall provide that such procedures conform to principles equivalent in substance to those set forth in this Chapter.

14. Each Party shall provide for civil remedies against the acts described in Article 14.4.7 and Article 14.4.8. Available civil remedies shall include at least:

(a) provisional measures, including seizure of devices and products suspected of being involved in the prohibited activity;

(b) the opportunity for the right holder to elect between actual damages it suffered (plus any profits attributable to the prohibited activity not taken into account in computing the actual damages) or pre-established damages;

(c) payment to the prevailing right holder of court costs and fees and reasonable attorney's fees by the party engaged in the prohibited conduct at the conclusion of the civil judicial proceedings; and

(d) destruction of devices and products found to be involved in the prohibited activity. No Party shall make damages available against a nonprofit library, archives, educational institution, or public noncommercial broadcasting entity that sustains the burden of proving that such entity was not aware and had no reason to believe that its acts constituted a prohibited activity.

15. In civil judicial proceedings, each Party shall provide that the judicial authorities have the authority to order a party to desist from an infringement, in order, *inter alia*, to prevent the entry into the channels of commerce in their jurisdiction of imported goods that involve the infringement of an intellectual property right immediately after customs clearance of such goods, or to prevent their exportation.

16. In the event that judicial or other authorities appoint experts, technical or otherwise, that must be paid by a party to a litigation, such costs should be closely related, *inter alia*, to the quantity and nature of work to be performed and should not unreasonably deter recourse to such proceedings.

Provisional Measures

17. Parties shall act upon requests for relief *inaudita altera parte* expeditiously and generally execute such requests within 10 days, except in exceptional cases.

18. Each Party shall provide that its judicial authorities have the authority to require the plaintiff to provide any reasonably available evidence in order to satisfy themselves with a sufficient degree of certainty that the plaintiff's right is being infringed or that such infringement is imminent, and to order the plaintiff to provide a reasonable security or equivalent assurance set at a level sufficient to protect the defendant and to prevent abuse, and so as not to unreasonably deter recourse to such procedures.

19. In proceedings concerning the grant of provisional measures in relation to enforcement of a patent, each Party shall provide for a rebuttable presumption that the patent is valid.

Special Requirements Related to Border Measures

20. Each Party shall provide that any right holder initiating procedures for suspension by its competent authorities of the release of suspected counterfeit or confusingly similar trademark goods, or pirated copyright goods[13] into free circulation is required to provide adequate evidence to satisfy the competent authorities that, under the laws of the country of importation, there is *prima facie* an infringement of the right holder's intellectual property right and to supply sufficient information that may reasonably be expected to be within the right holder's knowledge to make the suspected goods reasonably recognizable by its competent authorities. The requirement to provide sufficient information shall not unreasonably deter recourse to these procedures. Each Party shall provide that the application to suspend the release of goods shall remain in force for a period of not less than one year from the date of application, or the period that the good is protected by copyright or the relevant trademark registration is valid, whichever is shorter.

21. Each Party shall provide that its competent authorities have the authority to require an applicant to provide a reasonable security or equivalent assurance sufficient to protect the defendant and the competent authorities and to prevent abuse. Each Party shall provide that such security or equivalent assurance shall not unreasonably deter recourse to these procedures. Each Party may provide that such security may be in the form of a bond conditioned to hold the importer or owner of the imported merchandise harmless from any loss or damage resulting from any suspension of the release of goods in the event the competent authorities determine that the article is not an infringing copy.

22. Where its competent authorities have made a determination that goods are counterfeit or pirated, each Party shall grant its competent authorities the authority to inform the right holder of the names and addresses of the consignor, the importer, and the consignee, and of the quantity of the goods in question.

23. Each Party shall provide that its competent authorities may initiate border measures *ex officio*, with respect to imported, exported, or in transit merchandise, without the need for a formal complaint from a private party or right holder.

24. Each Party shall provide that goods that have been determined to be pirated or counterfeit by the competent authorities shall be destroyed, except in exceptional cases. In regard to counterfeit trademark goods, the simple removal of the trademark unlawfully affixed shall not be sufficient to permit the release of the goods into the channels of commerce. In no event shall the competent authorities be authorized to permit the exportation of counterfeit or pirated goods, nor shall they be authorized to permit such goods to be subject to other customs procedures, except in exceptional circumstances.

---

[13] For the purposes of this paragraphs 20-25:

(a) **counterfeit trademark goods** means any goods, including packaging, bearing without authorization a trademark that is identical to the trademark validly registered in respect of such goods, or that cannot be distinguished in its essential aspects from such a trademark, and that thereby infringes the rights of the owner of the trademark in question under the law of the country of importation;

(b) **pirated copyright goods** means any goods that are copies made without the consent of the right holder or person duly authorized by the right holder in the country of production and that are made directly or indirectly from an article where the making of that copy would have constituted an infringement of a copyright or a related right under the law of the country of importation.

25. Where an application fee or merchandise storage fee is assessed, each Party shall provide that such fee shall not be set at an amount that unreasonably deters recourse to these procedures.

Criminal Procedures and Remedies

26. Each Party shall provide for criminal procedures and penalties to be applied at least in cases of willful trademark counterfeiting or copyright or related rights piracy on a commercial scale. Willful copyright or related rights piracy on a commercial scale includes (i) significant willful infringements of copyright or related rights that have no direct or indirect motivation of financial gain, as well as (ii) willful infringement for purposes of commercial advantage or private financial gain. Willful importation or exportation of counterfeit or pirated goods shall be treated as unlawful activities subject to criminal penalties to the same extent as the trafficking or distribution of such goods in domestic commerce.

27. Specifically, each Party shall provide:

(a) remedies that include sentences of imprisonment as well as monetary fines sufficient to provide a deterrent to future acts of infringement consistent with a policy of removing the monetary incentive of the infringer. Each Party shall further establish policies or guidelines that encourage such fines to be imposed by judicial authorities at levels sufficient to provide a deterrent to future infringements;

(b) that its judicial authorities have the authority to order the seizure of suspected counterfeit or pirated goods, any related materials and implements that have been used in the commission of the offense, any assets traceable to the infringing activity, and any documentary evidence relevant to the offense. Each Party shall provide that items that are subject to seizure pursuant to any such judicial order need not be individually identified so long as they fall within general categories specified in the order;

(c) that its judicial authorities have the authority to order, among other measures, the forfeiture of any assets traceable to the infringing activity and shall, except in exceptional cases, order the forfeiture and destruction of all counterfeit or pirated goods, and, at least with respect to willful copyright or related rights piracy, materials and implements that have been used in the creation of the infringing goods. Each Party shall further provide that such forfeiture and destruction shall occur without compensation of any kind to the defendant; and

(d) That its authorities may initiate legal action *ex officio*, without the need for a formal complaint by a private party or right holder.

28. Each Party shall also provide for criminal procedures and penalties to be applied in the following cases, even absent willful trademark counterfeiting or copyright piracy:

(a) the knowing trafficking in counterfeit labels affixed or designed to be affixed to a phonogram, to a copy of a computer program or to documentation or packaging for a computer program, or to a copy of a motion picture or other audiovisual work; and

(b) the knowing trafficking in counterfeit documentation or packaging for a computer program.

Limitations on Liability for Service Providers

29. For the purpose of providing enforcement procedures that permit effective action against any act of infringement of copyright covered under this Chapter, including expeditious remedies to prevent infringements and criminal and civil remedies, each Party shall provide, consistent with the framework set forth in this Article:

(a) legal incentives for service providers to cooperate with copyright[14] owners in deterring the unauthorized storage and transmission of copyrighted materials; and

(b) limitations in its law regarding the scope of remedies available against service providers for copyright infringements that they do not control, initiate or direct, and that take place through systems or networks controlled or operated by them or on their behalf, as set forth in this subparagraph (b).[15]

(i) These limitations shall preclude monetary relief and provide reasonable restrictions on court-ordered relief to compel or restrain certain actions for the following functions and shall be confined to those functions:[16]

(A) transmitting, routing, or providing connections for material without modification of its content, or the intermediate and transient storage of such material in the course thereof;

(B) caching carried out through an automatic process;

(C) storage at the direction of a user of material residing on a system or network controlled or operated by or for the service provider; and

(D) referring or linking users to an online location by using information location tools, including hyperlinks and directories.

(ii) These limitations shall apply only where the service provider does not initiate the chain of transmission of the material, and does not select the material or its recipients (except to the extent that a function described in clause (i)(D) in itself entails some form of selection).

(iii) Qualification by a service provider for the limitations as to each function in clauses (i)(A) through (i)(D) shall be considered separately from qualification for the limitations as to each other function, in accordance with the conditions for qualification set forth in clauses (iv) – (vii).

---

[14] For purposes of this article, "copyright" shall also include related rights.

[15] It is understood that this subparagraph is without prejudice to the availability of defenses to copyright infringement that are of general applicability.

[16] Either Party may request consultations with the other Party to consider how to address future functions of a similar nature under this paragraph.

(iv) With respect to functions referred to in clause (i)(B), the limitations shall be conditioned on the service provider:

(A) permitting access to cached material in significant part only to users of its system network who have met conditions on user access to that material;

(B) complying with rules concerning the refreshing, reloading, or other updating of the cached material when specified by the person making the material available online in accordance with a generally accepted industry standard data communications protocol for the system or network through which that person makes the material available;

(C) not interfering with technology consistent with industry standards accepted in the territory of each Party used at the originating site to obtain information about the use of the material, and not modifying its content in transmission to subsequent users; and

(D) expeditiously removing or disabling access, on receipt of an effective notification of claimed infringement, to cached material that has been removed or access to which has been disabled at the originating site.

(v) With respect to functions referred to in clauses (i)(C) and (i)(D), the limitations shall be conditioned on the service provider:

(A) not receiving a financial benefit directly attributable to the infringing activity, in circumstances where it has the right and ability to control such activity;

(B) expeditiously removing or disabling access to the material residing on its system or network on obtaining actual knowledge of the infringement or becoming aware of facts or circumstances from which the infringement was apparent, such as through effective notifications of claimed infringement in accordance with clause (ix) and

(C) publicly designating a representative to receive such notifications.

(vi) Eligibility for the limitations in this subparagraph shall be conditioned on the service provider:

(A) adopting and reasonably implementing a policy that provides for termination in appropriate circumstances of the accounts of repeat infringers; and

(B) accommodating and not interfering with standard technical measures accepted in the territory of each Party that protect and identify copyrighted material, that are developed through an open, voluntary process by a broad consensus of copyright owners and service providers, that are available on reasonable and nondiscriminatory terms, and that do not impose substantial costs on service providers or substantial burdens on their systems or networks.

(vii) Eligibility for the limitations in this subparagraph may not be conditioned on the service provider monitoring its service, or affirmatively seeking facts indicating infringing activity, except to the extent consistent with such technical measures.

(viii) If the service provider qualifies for the limitations with respect to the function referred to in clause (i)(A), court-ordered relief to compel or restrain certain actions shall be limited to terminating specified accounts, or to taking reasonable steps to block access to a specific, non-domestic online location. If the service provider qualifies for the limitations with respect to any other function in clause (i), court-ordered relief to compel or restrain certain actions shall be limited to removing or disabling access to the infringing material, terminating specified accounts, and other remedies that a court may find necessary, provided that such other remedies are the least burdensome to the service provider among comparably effective forms of relief. Each Party shall provide that any such relief shall be issued with due regard for the relative burden to the service provider and harm to the copyright owner, the technical feasibility and effectiveness of the remedy and whether less burdensome, comparably effective enforcement methods are available. Except for orders ensuring the preservation of evidence, or other orders having no material adverse effect on the operation of the service provider's communications network, each Party shall provide that such relief shall be available only where the service provider has received notice of the court order proceedings referred to in this subparagraph and an opportunity to appear before the judicial authority.

(ix) For purposes of the notice and take down process for the functions referred to in clauses (i)(C) and (D), each Party shall establish appropriate procedures for effective notifications of claimed infringement, and effective counter-notifications by those whose material is removed or disabled through mistake or misidentification. Each Party shall also provide for monetary remedies against any person who makes a knowing material misrepresentation in a notification or counter-notification that causes injury to any interested party as a result of a service provider relying on the misrepresentation.

(x) If the service provider removes or disables access to material in good faith based on claimed or apparent infringement, each Party shall provide that the service provider shall be exempted from liability for any resulting claims, provided that, in the case of material residing on its system or network, it takes

reasonable steps promptly to notify the person making the material available on its system or network that it has done so and, if such person makes an effective counter-notification and is subject to jurisdiction in an infringement suit, to restore the material online unless the person giving the original effective notification seeks judicial relief within a reasonable time.

(xi) Each Party shall establish an administrative or judicial procedure enabling copyright owners who have given effective notification of claimed infringement to obtain expeditiously from a service provider information in its possession identifying the alleged infringer.

(xii) For purposes of the function referred to in clause (i)(A), service provider means a provider of transmission, routing, or connections for digital online communications without modification of their content between or among points specified by the user of material of the user's choosing, and for purposes of the functions referred to in clauses (i)(B) through (i)(D) service provider means a provider or operator of facilities for online services or network access.

CHAPTER FIFTEEN
LABOR

ARTICLE 15.1: STATEMENT OF SHARED COMMITMENT

1. The Parties reaffirm their obligations as members of the International Labor Organization ("ILO") and their commitments under the *ILO Declaration on Fundamental Principles and Rights at Work and its Follow-up (1998)* ("ILO Declaration"). Each Party shall strive to ensure that such labor principles and the internationally recognized labor rights set forth in Article 15.7 are recognized and protected by its law.

2. Recognizing the right of each Party to establish its own domestic labor standards, and to adopt or modify accordingly its labor laws, each Party shall strive to ensure that its laws provide for labor standards consistent with the internationally recognized labor rights set forth in Article 15.7 and shall strive to improve those standards in that light.

ARTICLE 15.2: APPLICATION AND ENFORCEMENT OF LABOR LAWS

1. (a) Neither Party shall fail to effectively enforce its labor laws, through a sustained or recurring course of action or inaction, in a manner affecting trade between the Parties, after the date of entry into force of this Agreement.

(b) The Parties recognize that each Party retains the right to exercise discretion with respect to investigatory, prosecutorial, regulatory, and compliance matters and to make decisions regarding the allocation of resources to enforcement with respect to other labor matters determined to have higher priority. Accordingly, the Parties understand that a Party is in compliance with subparagraph (a) where a course of action or inaction reflects a reasonable exercise of such discretion, or results from a *bona fide* decision regarding the allocation of resources.

2. Each Party recognizes that it is inappropriate to encourage trade or investment by weakening or reducing the protections afforded in domestic labor laws. Accordingly, each Party shall strive to ensure that it does not waive or otherwise derogate from, or offer to waive or otherwise derogate from, such laws in a manner that weakens or reduces adherence to the internationally recognized labor rights referred to in Article 15.7 as an encouragement for trade with the other Party, or as an encouragement for the establishment, acquisition, expansion, or retention of an investment in its territory.

ARTICLE 15.3: PROCEDURAL GUARANTEES AND PUBLIC AWARENESS

1. Each Party shall ensure that persons with a recognized interest under its law in a particular matter have appropriate access to tribunals for the enforcement of the Party's labor laws. Such tribunals may include administrative, quasi-judicial, judicial, or labor tribunals.

2. Each Party shall ensure that proceedings before such tribunals for the enforcement of its labor laws are fair, equitable, and transparent and, to this end, each Party shall provide that:

(a) such proceedings comply with due process of law;

(b) any hearings in such proceedings are open to the public, except where the administration of justice otherwise requires;

(c) the parties to such proceedings are entitled to support or defend their respective positions, including by presenting information or evidence; and

(d) such proceedings do not entail unreasonable charges or time limits or unwarranted delays.

3. Each Party shall provide that final decisions on the merits of the case in such proceedings are:

(a) in writing and state the reasons on which the decisions are based;

(b) made available without undue delay to the parties to the proceedings and, consistent with its law, to the public; and

(c) based on information or evidence in respect of which the parties were offered the opportunity to be heard.

4. Each Party shall provide, as appropriate, that parties to such proceedings have the right to seek review and, where warranted, correction of final decisions issued in such proceedings.

5. Each Party shall ensure that tribunals that conduct or review such proceedings are impartial and independent and do not have any substantial interest in the outcome of the matter.

6. Each Party shall provide that the parties to such proceedings may seek remedies to ensure the enforcement of their rights under its labor laws. Such remedies may include, as appropriate, orders, compliance agreements, fines, penalties, imprisonment, injunctions, or emergency workplace closures.

7. Each Party shall promote public awareness of its labor laws, including by:

(a) ensuring that information related to its labor laws and enforcement and compliance procedures is publicly available; and

(b) encouraging education of the public regarding its labor laws.

ARTICLE 15.4: INSTITUTIONAL ARRANGEMENTS

1. The Joint Committee established under Chapter Eighteen (Administration of the Agreement) shall consider issues and review activities related to the operation of this Chapter, including the Labor Cooperation Mechanism established under Article 15.5, and the pursuit of the labor objectives of this Agreement. The Joint Committee may establish a Subcommittee on Labor Affairs comprising officials of the labor ministry and other appropriate agencies or ministries of each Party. The Subcommittee shall meet at such times as it deems appropriate to discuss matters related to the operation of this Chapter, and each meeting shall include a public session, unless the Parties agree otherwise.

2. Each Party shall designate an office within its labor ministry that shall serve as a contact point with the other Party and with the public for purposes of implementing this Chapter. Each Party's contact point shall provide for the

submission, receipt, and consideration of public communications on matters related to this Chapter and shall make such communications available to the other Party and, as appropriate, to the public. Each Party shall review such communications, as appropriate, in accordance with domestic procedures.

3. Each Party may convene a national labor advisory committee comprising members of its public, including representatives of its labor and business organizations and other persons, to advise it on the implementation of this Chapter.

4. Each formal decision of the Parties concerning the implementation of this Chapter shall be made public, unless the Parties agree otherwise.

5. The Parties, when they consider it appropriate, shall jointly prepare reports on matters related to the implementation of this Chapter and shall make such reports public.

ARTICLE 15.5: LABOR COOPERATION

Recognizing that cooperation provides enhanced opportunities to promote respect for core labor standards embodied in the ILO Declaration and compliance with *ILO Convention No. 182 Concerning the Prohibition and Immediate Action for the Elimination of the Worst Forms of Child Labour (1999)* ("ILO Convention 182"), and to further advance other common commitments regarding labor matters, the Parties hereby establish a Labor Cooperation Mechanism, as set out in Annex 15-A.

ARTICLE 15.6: LABOR CONSULTATIONS

1. A Party may request consultations with the other Party regarding any matter arising under this Chapter by delivering a written request to the other Party's contact point. Unless the Parties agree otherwise, consultations shall commence within 30 days after a Party delivers a request for consultations to the other Party's contact point designated pursuant to paragraph 2 of Article 15.4.

2. The Parties shall make every attempt to arrive at a mutually satisfactory resolution of the matter and may seek advice or assistance from any person or body they deem appropriate.

3. If the consultations fail to resolve the matter, either Party may request that the Subcommittee on Labor Affairs be convened. The Subcommittee shall convene within 30 days after a Party delivers a request to convene the Subcommittee to the other Party's contact point designated pursuant to paragraph 2 of Article 15.4, unless the Parties agree otherwise. If the Joint Committee has not established the Subcommittee as of the date a Party delivers a request, it shall do so during the 30-day period described in this paragraph. The Subcommittee shall endeavor to resolve the matter expeditiously, including, where appropriate, by consulting governmental or non-governmental experts and having recourse to such procedures as good offices, conciliation, or mediation.

4. If a Party considers that the other Party has failed to carry out its obligations under paragraph 1(a) of Article 15.2, the Party may request consultations under paragraph 1 or pursuant to Article 19.5 (Consultations).

(a) If a Party requests consultations pursuant to Article 19.5 (Consultations) at a time when the Parties are engaged in consultations on the same matter under paragraph 1 or the Subcommittee is endeavoring to resolve the matter under paragraph 3, the Parties shall discontinue their efforts to resolve the matter under this Article. Once consultations have begun under Article 19.5

(Consultations), no consultations on the same matter may be entered into under this Article.

(b) If a Party requests consultations pursuant to Article 19.5 (Consultations) more than 60 days after the delivery of a request for consultations under paragraph 1, the Parties may agree at any time to refer the matter to the Joint Committee pursuant to Article 19.6 (Referral to the Joint Committee).

5. Neither Party may have recourse to dispute settlement under this Agreement for any matter arising under any provision of this Chapter other than paragraph 1(a) of Article 15.2.

ARTICLE 15.7: DEFINITIONS

For purposes of this Chapter:

labor laws means a Party's statutes or regulations,[1] or provisions thereof, that are directly related to the following internationally recognized labor rights:

(a) the right of association;

(b) the right to organize and bargain collectively;

ARTICLE 16.1: LEVELS OF PROTECTION

Recognizing the right of each Party to establish its own levels of domestic environmental protection and environmental development priorities, and to adopt or modify accordingly its environmental laws and policies, each Party shall ensure that those laws and policies provide for and encourage high levels of environmental protection and shall strive to continue to improve those laws and policies.

ARTICLE 16.2: APPLICATION AND ENFORCEMENT OF ENVIRONMENTAL LAWS

1. (a) Neither Party shall fail to effectively enforce its environmental laws, through a sustained or recurring course of action or inaction, in a manner affecting trade between the Parties, after the date of entry into force of this Agreement.

(b) The Parties recognize that each Party retains the right to exercise discretion with respect to investigatory, prosecutorial, regulatory, and compliance matters and to make decisions regarding the allocation of resources to enforcement with respect to other environmental matters determined to have higher priority. Accordingly, the Parties understand that a Party is in compliance with subparagraph (a) where a course of action or inaction reflects a reasonable exercise of such discretion, or results from a *bona fide* decision regarding the allocation of resources.

2. Each Party recognizes that it is inappropriate to encourage trade or investment by weakening or reducing the protections afforded in domestic environmental laws. Accordingly, each Party shall strive to ensure that it does not waive or otherwise derogate from, or offer to waive or otherwise derogate from, such laws in a manner that weakens or reduces the protections afforded in those laws as an encouragement for trade with the other Party, or as an encouragement for the establishment, acquisition, expansion, or retention of an investment in its territory.

ARTICLE 16.3: PROCEDURAL MATTERS

1. Each Party shall ensure that judicial, quasi-judicial, or administrative proceedings are available under its law to sanction or remedy violations of its environmental laws.

(a) Such proceedings shall be fair, equitable, and transparent, and, to this end, shall comply with due process of law and be open to the public (except where the administration of justice otherwise requires).

(b) Each Party shall provide appropriate and effective remedies or sanctions for a violation of its environmental laws that:

(ii) may include compliance agreements, penalties, fines, imprisonment, injunctions, the closure of facilities, and the cost of containing or cleaning up pollution.

2. Each Party shall ensure that interested persons may request the Party's competent authorities to investigate alleged violations of its environmental laws and

that the competent authorities give such requests due consideration in accordance with its law.

ARTICLE 16.4: VOLUNTARY MECHANISMS TO ENHANCE ENVIRONMENTAL PERFORMANCE

1. The Parties recognize that incentives and other flexible and voluntary mechanisms can contribute to the achievement and maintenance of high levels of environmental protection, complementing the procedures set forth in Article 16.3. As appropriate and in accordance with its law, each Party shall encourage the development of such incentives and voluntary mechanisms, which may include:

2. Each Party shall also seek opportunities for its citizens to participate in the development and implementation of cooperative environmental activities, such as through the use of public-private partnerships.

3. The Parties also recognize the ongoing importance of current and future environmental cooperation that may be undertaken outside this Agreement.

4. Each Party shall, as it deems appropriate, share information with the other Party and the public regarding its experience in assessing and taking into account the positive and negative environmental effects of trade agreements and policies.

ARTICLE 16.8: ENVIRONMENTAL CONSULTATIONS

1. A Party may request consultations with the other Party regarding any matter arising under this Chapter by delivering a written request to the contact point designated by the other Party for this purpose. Unless the Parties agree otherwise, consultations shall commence within 30 days after a Party delivers a request.

2. The Parties shall make every attempt to arrive at a mutually satisfactory resolution of the matter and may seek advice or assistance from any person or body they deem appropriate.

The Subcommittee shall convene within 30 days after a Party delivers a written request to the other Party's contact point designated pursuant to paragraph 1, unless the Parties agree otherwise. If the Joint Committee has not established the Subcommittee as of the date a Party delivers a request, it shall do so during the 30-day period described in this paragraph. The Subcommittee shall endeavor to resolve the matter expeditiously, including, where appropriate, by consulting governmental or non-governmental experts and having recourse to such procedures as good offices, conciliation, or mediation.

4. If a Party considers that the other Party has failed to carry out its obligations under paragraph 1(a) of Article 16.2, the Party may request consultations under paragraph 1 or pursuant to Article 19.5 (Consultations).

(a) If a Party requests consultations pursuant to 19.5 (Consultations) at a time when the Parties are engaged in consultations on the same matter under paragraph 1 or the Subcommittee is endeavoring to resolve the matter under paragraph 3, the Parties shall discontinue their efforts to resolve the matter under this Article. Once consultations have begun under 19.5 (Consultations), no consultations on the same matter may be entered into under this Article.

(b) If a Party requests consultations pursuant to 19.5 (Consultations) more than 60 days after delivery of a request for consultations under paragraph 1, the Parties may agree at any time to refer the matter to the Joint Committee pursuant to Article 19.6 (Referral to the Joint Committee).

ARTICLE 16.9: RELATIONSHIP TO ENVIRONMENTAL AGREEMENTS

The Parties recognize that the multilateral environmental agreements to which they are both party play an important role, globally and domestically, in protecting the environment and that their respective implementation of these agreements is critical to achieving the environmental objectives of these agreements.

2. Accordingly, the Parties shall continue to seek means to enhance the mutual supportiveness of the multilateral environmental agreements to which they are both party and the international trade agreements to which they are both party. The Parties shall consult regularly with respect to negotiations in the WTO regarding multilateral environmental agreements.

ARTICLE 16.10: DEFINITIONS

The Parties shall endeavor to agree on the interpretation and application of this Agreement, and shall make every attempt through cooperation and consultations to arrive at a mutually satisfactory resolution of any matter that might affect its operation.

ARTICLE 19.2: SCOPE OF APPLICATION

Except as otherwise provided in this Agreement or as the Parties agree otherwise, this Chapter shall apply with respect to the avoidance or settlement of all disputes between the Parties regarding the interpretation or application of this Agreement or wherever a Party considers that:

(a) a measure of the other Party is inconsistent with its obligations under this Agreement;

(b) the other Party has otherwise failed to carry out its obligations under this Agreement; or

(c) a benefit the Party could reasonably have expected to accrue to it under Chapter Two (National Treatment and Market Access for Goods), Chapter Four (Rules of Origin), Chapter Nine (Government Procurement), Chapter Ten (Cross-Border Trade in Services), or Chapter Fourteen (Intellectual Property Rights) is being nullified or impaired as a result of a measure that is not inconsistent with this Agreement, except that neither Party may invoke this sub-paragraph with respect to a benefit under Chapter Ten (Cross-Border Trade in Services) or Chapter Fourteen (Intellectual Property Rights) if the measure is subject to an exception under Article 20.1 (General Exceptions).

ARTICLE 19.3: ADMINISTRATION OF DISPUTE SETTLEMENT PROCEEDINGS

Each Party shall designate an office that shall be responsible for providing administrative assistance to panels established under Article 19.7. Each Party shall be responsible for the operation and costs of its designated office and shall notify the other Party of its location.

ARTICLE 19.4: CHOICE OF FORUM

1. Where a dispute regarding any matter arises under this Agreement and under the WTO Agreement, or any other agreement to which both Parties are party, the complaining Party may select the forum in which to settle the dispute.

2. The complaining Party shall notify the other Party in writing of its intention to bring a dispute to a particular forum before doing so.

3. Once the complaining Party has selected a particular forum, the forum selected shall be used to the exclusion of other possible fora.

4. For the purposes of this paragraph, a Party shall be deemed to have selected a forum when it has requested the establishment of, or referred a matter to, a dispute settlement panel.

ARTICLE 19.5: CONSULTATIONS

1. Either Party may request consultations with the other Party with respect to any matter described in Article 19.2 by delivering written notification to the other Party. If a Party requests consultations, the other Party shall reply promptly to the request for consultations and enter into consultations in good faith.

2. Each Party shall:

(a) provide sufficient information in the consultations to enable a full examination of how the matter subject to consultations might affect the operation of this Agreement; and

(b) treat any confidential information exchanged in the course of consultations on the same basis as the Party providing the information.

3. Promptly after requesting or receiving a request for consultations pursuant to this Article, each Party shall seek the views of interested parties and other members of the public on the matter in order to draw on a broad range of perspectives.

ARTICLE 19.6: REFERRAL TO THE JOINT COMMITTEE

If the consultations fail to resolve a matter within 60 days of the delivery of a Party's request for consultations under Article 19.5, 20 days where the matter concerns perishable goods, or such other period as the Parties may agree, either Party may refer the matter to the Joint Committee by delivering written notification to the other Party. The Joint Committee shall endeavor to resolve the matter.

ARTICLE 19.7: ESTABLISHMENT OF PANEL

1. If the Joint Committee has not resolved a matter within 60 days after delivery of the notification described in Article 19.6, 30 days where the matter concerns perishable goods, or such other period as the Parties may agree, the complaining Party may refer the matter to a dispute settlement panel by delivering written notification to the other Party.

2. Neither Party may refer a matter concerning a proposed measure to a dispute settlement panel.

3. Unless the Parties agree otherwise:

(a) The panel shall have three members.

(b) Each Party shall appoint one panelist, in consultation with the other Party, within 30 days after the matter has been referred to a panel.

(c) The Parties shall endeavor to agree on a third panelist as chair within 30 days after the second panelist has been appointed. If the Parties are unable to agree on the chair within this period, the Party chosen by lot shall select within five days as chair an individual who is not a national of that Party.

(d) The date of establishment of the panel shall be the date on which the chair is appointed.

4. The panelists chosen pursuant to paragraph 3 shall:

(a) be chosen strictly on the basis of objectivity, reliability, and sound judgment and have expertise or experience in law, international trade, or the resolution of disputes arising under international trade agreements;

(b) be independent of, and not be affiliated with or take instructions from, either Party; and

(c) comply with a code of conduct to be established by the Joint Committee.

In addition, in disputes related to a Party's implementation of Chapter Fifteen (Labor), Chapter Sixteen (Environment), and such other chapters as the Parties may agree, panelists shall have expertise or experience relevant to the subject matter that is under dispute.

5. Panel hearings shall be held at a location determined in accordance with the model rules of procedure.

ARTICLE 19.8: RULES OF PROCEDURE

1. The Parties shall establish by the date of entry into force of this Agreement model rules of procedure, which shall ensure:

(a) a right to at least one hearing before the panel and that, subject to subparagraph (f), such hearings shall be open to the public;

(b) an opportunity for each Party to provide initial and rebuttal submissions;

(c) that each Party's written submissions, written versions of its oral statement, and written responses to a request or questions from the panel shall be public, subject to subparagraph (f);

(d) that the panel shall consider requests from nongovernmental entities located in the Parties' territories to provide written views regarding the dispute that may assist the panel in evaluating the submissions and arguments of the Parties;

(e) a reasonable opportunity for each Party to submit comments on the initial report presented pursuant to Article 19.9.1; and

(f) the protection of confidential information.

2. Unless the Parties agree otherwise, the panel shall follow the model rules of procedure and may, after consulting the Parties, adopt additional rules of procedure not inconsistent with the model rules.

3. On request of a Party, or on its own initiative, the panel may seek information and technical advice from any person or body that it deems appropriate, provided that the Parties so agree and subject to such terms and conditions as the Parties may agree.

ARTICLE 19.9: PANEL REPORT

1. Unless the Parties agree otherwise, the panel shall, within 180 days after the chair is appointed, present to the Parties an initial report containing findings of fact, and its determination as to whether:

(a) the measure at issue is inconsistent with the obligations of this Agreement;

(b) a Party has otherwise failed to carry out its obligations under this Agreement; or

(c) the measure at issue is causing a nullification or impairment in the sense of Article 19.2(c);

as well as any other determination requested by the Parties with regard to the dispute.

2. The panel shall base its report on the relevant provisions of the Agreement and the submissions and arguments of the Parties. The panel may, at the request of the Parties, make recommendations for the resolution of the dispute.

3. After considering any written comments by the Parties on the initial report, the panel may modify its report and make any further examination it considers appropriate.

4. The panel shall present a final report to the Parties within 45 days of presentation of the initial report, unless the Parties agree otherwise. The Parties shall release the final report to the public within 15 days thereafter, subject to the protection of confidential information.

ARTICLE 19.10: IMPLEMENTATION OF THE FINAL REPORT

1. On receipt of the final report of a panel, the Parties shall agree on the resolution of the dispute, which normally shall conform with the determinations and recommendations, if any, of the panel.

2. If, in its final report, the panel determines that a Party has not conformed with its obligations under this Agreement or that a Party's measure is causing nullification or impairment in the sense of Article 19.2(c), the resolution, whenever possible, shall be to eliminate the non-conformity or the nullification or impairment.

ARTICLE 19.11: NON-IMPLEMENTATION

1. If a panel has made a determination of the type described in Article 19.10.2, and the Parties are unable to reach agreement on a resolution pursuant to Article 19.10.1 within 45 days of receiving the final report, or such other period as the Parties agree, the Party complained against shall enter into negotiations with the other Party with a view to developing mutually acceptable compensation.

2. If the Parties:

(a) are unable to agree on compensation within 30 days after the period for developing such compensation has begun, or

(b) have agreed on compensation or on a resolution pursuant to Article 19.10.1 and the complaining Party considers that the other Party has failed to observe the terms of the agreement,

the complaining Party may at any time thereafter provide written notice to the other Party that it intends to suspend the application to the other Party of benefits of equivalent effect. The notice shall specify the level of benefits that the Party proposes to suspend. Subject to paragraph 5, the complaining Party may begin suspending benefits 30 days after the later of the date on which it provides notice under this paragraph or the panel issues its determination under paragraph 3, as the case may be.

3. If the Party complained against considers that:

(a) the level of benefits that the other Party has proposed to be suspended is manifestly excessive; or

(b) it has eliminated the non-conformity or the nullification or impairment that the panel has found,

it may, within 30 days after the complaining Party provides notice under paragraph 2, request that the panel be reconvened to consider the matter. The Party complained against shall deliver its request in writing to the other Party. The panel shall reconvene as soon as possible after delivery of the request and shall present its determination to the Parties within 90 days after it reconvenes to review a request under subparagraph (a) or (b), or within 120 days for a request under subparagraphs (a) and (b). If the panel determines that the level of benefits proposed to be suspended is manifestly excessive, it shall determine the level of benefits it considers to be of equivalent effect.

4. The complaining Party may suspend benefits up to the level the panel has determined under paragraph 3 or, if the panel has not determined the level, the level the Party has proposed to suspend under paragraph 2, unless the panel has determined that the Party complained against has eliminated the non-conformity or the nullification or impairment.

5. The complaining Party may not suspend benefits if, within 30 days after it provides written notice of intent to suspend benefits or, if the panel is reconvened under paragraph 3, within 20 days after the panel provides its determination, the Party complained against provides written notice to the other Party that it will pay an annual monetary assessment. The Parties shall consult, beginning no later than ten days after the Party complained against provides notice, with a view to reaching agreement on the amount of the assessment. If the Parties are unable to reach an agreement within 30 days after consultations begin, the amount of the assessment shall be set at a level, in U.S. dollars, equal to 50 percent of the level of the benefits the panel has determined under paragraph 3 to be of equivalent effect or, if the panel has not determined the level, 50 percent of the level that the complaining Party has proposed to suspend under paragraph 2.

6. Unless the Joint Committee decides otherwise, a monetary assessment shall be paid to the complaining Party in U.S. currency, or in an equivalent amount of Bahraini currency, in equal, quarterly installments beginning 60 days after the Party complained against gives notice that it intends to pay an assessment. Where the circumstances warrant, the Joint Committee may decide that an assessment shall be paid into a fund established by the Joint Committee and expended at the direction of the Joint Committee for appropriate initiatives to facilitate trade between the Parties, including by further reducing unreasonable trade barriers or by assisting a Party in carrying out its obligations under the Agreement.

7. If the Party complained against fails to pay a monetary assessment, the complaining Party may suspend the application to the Party complained against of benefits in accordance with paragraph 4.

8. This Article shall not apply with respect to a matter described in Article 19.12.1.

ARTICLE 19.12: NON-IMPLEMENTATION IN CERTAIN DISPUTES

1. If, in its final report, a panel determines that a Party has not conformed with its obligations under Article 15.2.1(a) (Application and Enforcement of Labor Laws) or Article 16.2.1(a) (Application and Enforcement of Environmental Laws), and the Parties:

(a) are unable to reach agreement on a resolution pursuant to Article 19.10.1 within 45 days of receiving the final report; or

(b) have agreed on a resolution pursuant to Article 19.10.1 and the complaining Party considers that the other Party has failed to observe the terms of the agreement,

the complaining Party may at any time thereafter request that the panel be reconvened to impose an annual monetary assessment on the other Party. The complaining Party shall deliver its request in writing to the other Party. The panel shall reconvene as soon as possible after delivery of the request.

2. The panel shall determine the amount of the monetary assessment in U.S. dollars within 90 days after it reconvenes under paragraph 1. In determining the amount of the assessment, the panel shall take into account:

(a) the bilateral trade effects of the Party's failure to effectively enforce the relevant law;

(b) the pervasiveness and duration of the Party's failure to effectively enforce the relevant law;

(c) the reasons for the Party's failure to effectively enforce the relevant law;

(d) the level of enforcement that could reasonably be expected of the Party given its resource constraints;

(e) the efforts made by the Party to begin remedying the non-enforcement after the final report of the panel; and

(f) any other relevant factors.

The amount of the assessment shall not exceed 15 million U.S. dollars annually, adjusted for inflation as specified in Annex19-A.

3. On the date on which the panel determines the amount of the monetary assessment under paragraph 2, or at any other time thereafter, the complaining Party may provide notice in writing to the Party complained against demanding payment of the monetary assessment. The monetary assessment shall be payable in U.S. currency, or in an equivalent amount of Bahraini currency, in equal, quarterly installments beginning 60 days after the complaining Party provides such notice.

4. Assessments shall be paid into a fund established by the Joint Committee and shall be expended at the direction of the Joint Committee for appropriate labor or environmental initiatives, including efforts to improve or enhance labor or environmental law enforcement, as the case may be, in the territory of the Party complained against, consistent with its law. In deciding how to expend monies paid into the fund, the Joint Committee shall consider the views of interested persons in each Party's territory.

5. If the Party complained against fails to pay a monetary assessment, and if the Party has created and funded an escrow account to ensure payment of any assessments against it, the other Party shall, before having recourse to any other measure, seek to obtain the funds from the account.

6. If the complaining Party cannot obtain the funds from the other Party's escrow account within 30 days of the date on which payment is due, or if the other Party has not created an escrow account, the complaining Party may take other appropriate steps to collect the assessment or otherwise secure compliance. These steps may include suspending tariff benefits under the Agreement as necessary to collect the assessment, while bearing in mind the Agreement's objective of eliminating barriers to bilateral trade and while seeking to avoid unduly affecting parties or interests not party to the dispute.

ARTICLE 19.13: COMPLIANCE REVIEW

1. Without prejudice to the procedures set out in Article 19.11.3, if the Party complained against considers that it has eliminated the non-conformity or the nullification or impairment that the panel has found, it may refer the matter to the panel by providing written notice to the other Party. The panel shall issue its report on the matter within 90 days after the Party complained against provides notice.

2. If the panel decides that the Party complained against has eliminated the non-conformity or the nullification or impairment, the complaining Party shall promptly reinstate any benefits it has suspended under Article 19.11 or 19.12 and the Party complained against shall no longer be required to pay any monetary assessment it has agreed to pay under Article 19.11.5 or that has been imposed on it under Article 19.12.

ARTICLE 19.14: FIVE-YEAR REVIEW

The Joint Committee shall review the operation and effectiveness of Articles 19.11 and 19.12 not later than five years after the Agreement enters into force, or within six months after benefits have been suspended or monetary assessments have been imposed in five proceedings initiated under this Chapter, whichever occurs first.

ARTICLE 19.15: PRIVATE RIGHTS

Neither Party may provide for a right of action under its law against the other Party on the ground that a measure of the other Party is inconsistent with this Agreement.

ANNEX 19-A

1. An annual monetary assessment imposed before December 31, 2005, shall not exceed 15 million U.S. dollars.

2. Beginning January 1, 2006, the 15 million U.S. dollars annual cap shall be adjusted for inflation in accordance with paragraphs 3 through 5.

3. The period used for the accumulated inflation adjustment shall be calendar year 2004 through the most recent calendar year preceding the one in which the assessment is owed.

4. The relevant inflation rate shall be the U.S. inflation rate as measured by the Producer Price Index for Finished Goods published by the U.S. Bureau of Labor Statistics.

5. The inflation adjustment shall be estimated according to the following formula:

$$\$15 \text{ million} \times (1 + \pi_i) = A$$

π_i = accumulated U.S. inflation rate from calendar year 2004 through the most recent calendar year preceding the one in which the assessment is owed.

A = cap for the assessment for the year in question.

(h) to a provision that conditions the receipt, or continued receipt, of an advantage relating to the contributions to, or income of, pension trusts or pension plans on a requirement that the Party maintain continuous jurisdiction over the pension trust or pension plan.

ARTICLE 20.4: DISCLOSURE OF INFORMATION

ANNEX III
NON-CONFORMING MEASURES OF THE UNITED STATES WITH RESPECT TO FINANCIAL SERVICES

Headnotes

1. Commitments in these sub-sectors under the Agreement are undertaken subject to the limitations and conditions set forth in these headnotes and in the Schedule below.

2. National treatment commitments in these subsectors are subject to the following limitations:

(a) National treatment with respect to banking will be provided based upon the foreign bank's "home state" in the United States, as that term is defined under the International Banking Act, where that Act is applicable. A domestic bank subsidiary of a foreign firm will have its own "home state," and national treatment will be provided based upon the subsidiary's home state, as determined under applicable law.[1]

(b) National treatment with respect to insurance financial institutions will be provided according to a non-U.S. insurance financial institution's state of domicile, where applicable, in the United States. State of domicile is defined by individual states, and is generally the state in which an insurer either is incorporated, is organized, or maintains its principal office in the United States.

3. To clarify the U.S. commitment with respect to Article 11.4 Agreement (Market Access for Financial Institutions), juridical persons supplying banking or other financial services (excluding insurance) and constituted under the laws of the United States are subject to non-discriminatory limitations on juridical form.[2]

4. The United States limits its commitments under Article 11.9.1(c) (Non-Conforming Measures) with respect to Article 11.4 (Market Access for Financial Institutions) in the following manner: with respect to banking and other financial services (excluding insurance), Article

[1] Foreign banking organizations are generally subject to geographic and other limitations in the United States on a national treatment basis. Where such limitations do not conform to national treatment, they have been listed as non-conforming measures. For purposes of illustration, under this approach, the following situation does not accord national treatment and would therefore be listed as a non-conforming measure: a foreign bank from a particular home state is accorded less favorable treatment than that accorded to a domestic bank from that state with respect to expansion by branching.

[2] For example, partnerships and sole proprietorships are generally not acceptable juridical forms for depository financial institutions in the United States. This headnote is not itself intended to affect, or otherwise limit, a choice by a financial institution of the other Party between branches or subsidiaries.

11.9.1(c) shall apply only to non-conforming measures relating to Article 11.4 (a) and not to those non-conforming measures relating to Article 11.4(b).

filed with the Commission not earlier than the date which is 9 months, and not later than the date which is 6 months, before the date any action taken under subsection (a) is to terminate, the Commission shall conduct an investigation to determine whether action under this section continues to be necessary to remedy or prevent serious injury and to facilitate adjustment by the domestic industry to import competition and whether there is evidence that the industry is making a positive adjustment to import competition.

(ii) NOTICE AND HEARING.—The Commission shall publish notice of the commencement of any proceeding under this subparagraph in the Federal Register and shall, within a reasonable time thereafter, hold a public hearing at which the Commission shall afford interested parties and consumers an opportunity to be present, to present evidence, and to respond to the presentations of other parties and consumers, and otherwise to be heard.

(2) SERIOUS DAMAGE.—In making a determination under paragraph (1), the President—

(A) shall examine the effect of increased imports on the domestic industry, as reflected in changes in such relevant economic factors as output, productivity, utilization of capacity, inventories, market share, exports, wages, employment, domestic prices, profits, and investment, none of which is necessarily decisive; and

(B) shall not consider changes in technology or consumer preference as factors supporting a determination of serious damage or actual threat thereof.

(b) PROVISION OF RELIEF.—

(1) IN GENERAL.—If a determination under subsection (a) is affirmative, the President may provide relief from imports of the article that is the subject of such determination, as described in paragraph (2), to the extent that the President determines necessary to remedy or prevent the serious damage and to facilitate adjustment by the domestic industry to import competition.

SEC. 323. PERIOD OF RELIEF.

(a) IN GENERAL.—Subject to subsection (b), any import relief that the President provides under subsection (b) of section 322 may not, in the aggregate, be in effect for more than 3 years.

(b) EXTENSION.—If the initial period for any import relief provided under section 322 is less than 3 years, the President may extend the effective period of any import relief provided under that section, subject to the limitation set forth in subsection (a), if the President determines that—

(1) the import relief continues to be necessary to remedy or prevent serious damage and to facilitate adjustment by the domestic industry to import competition; and

(2) there is evidence that the industry is making a positive adjustment to import competition.

SEC. 324. ARTICLES EXEMPT FROM RELIEF.

The President may not provide import relief under this subtitle with respect to any article if—

(1) the article has been subject to import relief under this subtitle after the date on which the Agreement enters into force; or

(2) the article is subject to import relief under chapter 1 of title II of the Trade Act of 1974 (19 U.S.C. 2251 et seq.).

SEC. 325. RATE AFTER TERMINATION OF IMPORT RELIEF.

When import relief under this subtitle is terminated with respect to an article, the rate of duty on that article shall be the rate that would have been in effect, but for the provision of such relief, on the date on which the relief terminates.

SEC. 326. TERMINATION OF RELIEF AUTHORITY.

No import relief may be provided under this subtitle with respect to any article after the date that is 10 years after the date on which duties on the article are eliminated pursuant to the Agreement.

Tab 3: Statement of Administrative Action

THE UNITED STATES-BAHRAIN FREE TRADE AGREEMENT IMPLEMENTATION ACT

STATEMENT OF ADMINISTRATIVE ACTION

This Statement of Administrative Action is submitted to the Congress in compliance with section 2105(a)(1)(C)(ii) of the Bipartisan Trade Promotion Authority Act of 2002 ("TPA Act") and accompanies the implementing bill for the United States-Bahrain Free Trade Agreement ("Agreement"). The bill approves and makes statutory changes necessary or appropriate to implement the Agreement, which the United States Trade Representative signed on September 14, 2004.

This Statement describes significant administrative actions proposed to implement U.S. obligations under the Agreement.

In addition, incorporated into this Statement are two other statements required under section 2105(a) of the TPA Act: (1) an explanation of how the implementing bill and proposed administrative action will change or affect existing law; and (2) a statement setting forth the reasons why the implementing bill and proposed administrative action are necessary or appropriate to carry out the Agreement. The Agreement does not change the provisions of any agreement the United States has previously negotiated with Bahrain.

For ease of reference, this Statement generally follows the organization of the Agreement, with the exception of grouping the general provisions of the Agreement (Chapters One and Seventeen through Twenty-One) at the beginning of the discussion.

For each chapter of the Agreement, the Statement describes the pertinent provisions of the implementing bill, explaining how the bill changes or affects existing law, and stating why those provisions are necessary or appropriate to implement the Agreement. The Statement then describes the administrative action proposed to implement the particular chapter of the Agreement, explaining how the proposed action changes existing administrative practice or authorizes further action and stating why such actions are necessary or appropriate to implement the Agreement.

It should be noted that this Statement does not, for the most part, discuss those many instances in which U.S. law or administrative practice will remain unchanged under the Agreement. In many cases, U.S. laws and regulations are already in conformity with the obligations assumed under the Agreement.

Finally, references in this Statement to particular sections of U.S. statutes are based on those statutes in effect as of the date this Statement was submitted to the Congress.

1. Implementing Bill

a. Congressional Approval

Section 101(a) of the implementing bill provides Congressional approval for the Agreement and this Statement, as required by sections 2103(b)(3) and 2105(a)(1) of the TPA Act.

b. Entry into Force

Article 21.5 of the Agreement requires the United States and Bahrain to exchange written notifications that their respective internal requirements for the entry into force of the Agreement have been fulfilled. The exchange of notifications is a necessary condition for the Agreement's entry into force. Section 101(b) of the implementing bill authorizes the President to exchange notes with Bahrain to provide for entry into force of the Agreement with respect to the United States on or after January 1, 2006. The exchange of notes is conditioned on a determination by the President that Bahrain has taken measures necessary to comply with those of its obligations that are to take effect at the time the Agreement enters into force.

Certain provisions of the Agreement become effective after the Agreement's entry into force. For example, a rule pertaining to international agreements governing intellectual property rights becomes effective with respect to Bahrain no later than one year after the Agreement enters into force. Other provisions relating to customs administration and financial services become effective with respect to Bahrain no later than two years after the Agreement's entry into force. Finally, the transparency provisions of Chapter Seven (Technical Barriers to Trade) become effective with respect to both countries no later than five years after the Agreement's entry into force.

c. Relationship to Federal Law

Section 102(a) of the bill establishes the relationship between the Agreement and U.S. law. The implementing bill, including the authority granted to federal agencies to promulgate implementing regulations, is intended to bring U.S. law fully into compliance with U.S. obligations under the Agreement. The bill accomplishes that objective with respect to federal legislation by amending existing federal statutes that would otherwise be inconsistent with the Agreement and, in certain instances, by creating entirely new provisions of law.

Section 102(a) clarifies that no provision of the Agreement will be given effect under domestic law if it is inconsistent with federal law, including provisions of federal law enacted or amended by the bill. Section 102(a) will not prevent implementation of federal statutes consistent with the Agreement, where permissible under the terms of such statutes. Rather, the section reflects the Congressional view that necessary changes in federal statutes should be specifically enacted rather than provided for in a blanket preemption of federal statutes by the Agreement.

The Administration has made every effort to include all laws in the implementing bill and to identify all administrative actions in this Statement that must be changed in order to conform with the new U.S. rights and obligations arising from the Agreement. Those include both regulations resulting from statutory changes in the bill itself and changes in laws, regulations, rules, and orders that can be implemented without a change in the underlying U.S. statute.

Accordingly, at this time it is the expectation of the Administration that no changes in existing federal law, rules, regulations, or orders other than those specifically indicated in the implementing bill and this Statement will be required to implement the new international obligations that the United States will assume under the Agreement. This is without prejudice to the President's continuing responsibility and authority to carry out U.S. law and agreements. As experience under the Agreement is gained over time, other or different administrative actions may be taken in accordance with applicable law to implement the Agreement. If additional action is called for, the Administration will seek legislation from Congress or, if a change in regulation is required, follow normal agency procedures for amending regulations.

d. Relationship to State Law

The Agreement's rules generally cover state and local laws and regulations, as well as those at the federal level. There are a number of exceptions to, or limitations on, this general rule, however, particularly in the areas of government procurement, labor and environment, and cross-border trade in services and financial services.

The Agreement does not automatically "preempt" or invalidate state laws that do not conform to the Agreement's rules, even if a dispute settlement panel were to find a state measure inconsistent with the Agreement. The United States is free under the Agreement to determine how it will conform with the Agreement's rules at the federal and non-federal levels. The Administration is committed to carrying out U.S. obligations under the Agreement, as they apply to the states, through the greatest possible degree of state-federal consultation and cooperation.

Section 102(b)(1) of the bill makes clear that only the United States is entitled to bring an action in court in the event that there is an unresolved conflict between a state law, or the application of a state law, and the Agreement. The authority conferred on the United States under this paragraph is intended to be used only as a last resort, in the unlikely event that efforts to achieve consistency through consultations do not succeed.

The reference in section 102(b)(2) of the bill to the business of insurance is required by virtue of section 2 of the McCarran-Ferguson Act (15 U.S.C. 1012). That section states that no federal statute shall be construed to supersede any state law regulating or taxing the business of insurance unless the federal statute "specifically relates to the business of insurance." Certain provisions of the Agreement (for example, Chapter Eleven, relating to financial services) do apply to state measures regulating the insurance business, although "grandfathering" provisions in Chapter Eleven exempt existing inconsistent (*i.e.*, "non-conforming") measures.

Given the provision of the McCarran-Ferguson Act, the implementing bill must make specific reference to the business of insurance in order for the Agreement's provisions covering the insurance business to be given effect with respect to state insurance law. Insurance is otherwise treated in the same manner under the Agreement and the implementing bill as other financial services under the Agreement.

e. Private Lawsuits

Section 102(c) of the implementing bill precludes any private right of action or remedy against a federal, state, or local government, or against a private party, based on the provisions of the Agreement. A private party thus could not sue (or defend a suit against) the United States, a state, or a private party on grounds of consistency (or inconsistency) with the Agreement. The provision also precludes a private right of action attempting to require, preclude, or modify federal or state action on grounds such as an allegation that the government is required to exercise discretionary authority or general "public interest" authority under other provisions of law in conformity with the Agreement.

With respect to the states, section 102(c) represents a determination by the Congress and the Administration that private lawsuits are not an appropriate means for ensuring state compliance with the Agreement. Suits of this nature might interfere with the Administration's conduct of trade and foreign relations and with suitable resolution of disagreements or disputes under the Agreement.

Section 102(c) does not preclude any agency of government from considering, or entertaining argument on, whether its action or proposed action is consistent with the Agreement, although any change in agency action would have to be consistent with domestic law.

f. Implementing Regulations

Section 103(a) of the bill provides the authority for new or amended regulations to be issued, and for the President to proclaim actions implementing the provisions of the Agreement, as of the date the Agreement enters into force. Section 103(b) of the bill requires that, whenever possible, all federal regulations required or authorized under the bill and those proposed in this Statement as necessary or appropriate to implement immediately applicable U.S. obligations under the Agreement are to be developed and promulgated within one year of the Agreement's entry into force. In practice, the Administration intends, wherever possible, to amend or issue the other regulations required to implement U.S. obligations under the Agreement at the time the

Agreement enters into force. The process for issuing regulations pursuant to this authority will comply with the requirements of the Administrative Procedures Act, including requirements to provide notice and an opportunity for public comment on such regulations. If issuance of any regulation will occur more than one year after the date provided in section 103(b), the officer responsible for issuing such regulation will notify the relevant committees of both Houses of the delay, the reasons for such delay, and the expected date for issuance of the regulation. Such notice will be provided at least 30 days prior to the end of the one-year period.

g. Dispute Settlement

Section 105(a) of the bill authorizes the President to establish within the Department of Commerce an office responsible for providing administrative assistance to dispute settlement panels established under Chapter Nineteen of the Agreement. This provision enables the United States to implement its obligations under Article 19.3 of the Agreement. This office will not be an "agency" within the meaning of 5 U.S.C. 552, consistent with treatment provided under the United States-CAFTA-DR Free Trade Agreement, the United States-Morocco Free Trade Agreement, the United States-Australia Free Trade Agreement, the United States-Chile Free Trade Agreement, the United States-Singapore Free Trade Agreement, the North American Free Trade Agreement ("NAFTA"), and the United States-Canada Free Trade Agreement. Thus, for example, the office will not be subject to the Freedom of Information Act or the Government in the Sunshine Act. Since they are international bodies, panels established under Chapter Nineteen are not subject to those acts.

Section 105(b) of the bill authorizes the appropriation of funds to support the office established pursuant to section 105(a).

h. Effective Dates

Section 106(b) of the bill provides that the first three sections of the bill as well as Title I of the bill go into effect when the bill is enacted into law.

Section 106(a) provides that the other provisions of the bill and the amendments to other statutes made by the bill take effect on the date on which the Agreement enters into force. Section 106(c) provides that the provisions of the bill and the amendments to other statutes made by the bill will cease to be effective on the date on which the Agreement terminates.

2. Administrative Action

No administrative changes will be necessary to implement Chapters One, Seventeen, Nineteen, Twenty, and Twenty-One.

Article 18.1.1 of the Agreement requires each government to designate a contact point to facilitate bilateral communications regarding the Agreement. The Office of the United States Trade Representative ("USTR") will serve as the U.S. contact point for this purpose. In addition, Article 18.2 establishes a Joint Committee to oversee the implementation of the Agreement and

consider necessary amendments, among other tasks. The United States Trade Representative will represent the United States on the Joint Committee.

Chapter Two (National Treatment and Market Access for Goods)

1. Implementing Bill

a. Proclamation Authority

Section 201(a) of the bill grants the President authority to implement by proclamation U.S. rights and obligations under Chapter Two of the Agreement through the application or elimination of customs duties and tariff-rate quotas ("TRQs"). Section 201(a) authorizes the President to:

- modify or continue any duty;
- keep in place duty-free or excise treatment; or
- impose any duty

that the President determines to be necessary or appropriate to carry out or apply Articles 2.3, 2.5, 2.6, 3.2.8, and 3.2.9, and Annex 2-B of the Agreement.

The proclamation authority with respect to Article 2.3 authorizes the President to provide for the continuation, phase-out, or elimination, according to the Tariff Schedule of the United States to Annex 2-B of the Agreement, of customs duties on imports from Bahrain that meet the Agreement's rules of origin. This proclamation authority also authorizes the President to provide for the implementation and administration of TRQs according to the U.S. Schedule to Annex 2-B of the Agreement.

The proclamation authority with respect to Articles 2.5 and 2.6 authorizes the President to provide for the elimination of duties on particular categories of imports from Bahrain. Article 2.5 pertains to the temporary admission of certain goods, such as commercial samples, goods intended for display at an exhibition, and goods necessary for carrying out the business activity of a person who qualifies for temporary entry into the United States. Article 2.6 pertains to the importation of goods: (1) returned to the United States after undergoing repair or alteration in Bahrain; or (2) sent from Bahrain for repair or alteration in the United States.

The proclamation authority with respect to Articles 3.2.8 and 3.2.9 authorizes the President to provide preferential tariff treatment to certain textile and apparel goods that do not qualify as "originating goods" (*i.e.*, goods that satisfy the Agreement's rules of origin). However, this treatment may be applied only up to annual quantitative limits set forth in those Articles for such goods. While goods subject to this provision may receive preferential tariff treatment, they will remain subject to the U.S. merchandise processing fee when they are

imported. (See item (b) in this section.)

Section 201(a)(2) of the implementing bill requires the President to withdraw beneficiary status under the Generalized System of Preferences program from Bahrain once the Agreement enters into force.

Section 201(b) of the bill authorizes the President, subject to the consultation and layover provisions of section 104 of the bill (described below), to:

- modify or continue any duty;
- modify the staging of any duty elimination under the Agreement pursuant to an agreement with Bahrain under Annex 2-B (*e.g.*, to accelerate the elimination of tariffs under the Agreement);
- keep in place duty-free or excise treatment; or
- impose any duty

by proclamation whenever the President determines it to be necessary or appropriate to maintain the general level of reciprocal and mutually advantageous concessions with respect to Bahrain provided by the Agreement.

Section 104 of the bill sets forth consultation and layover steps that must precede the President's implementation of any duty modification by proclamation. This would include, for example, modifications of duties under section 201(b) of the bill. Under the consultation and layover provisions, the President must obtain the advice of the private sector advisory committees (pursuant to section 135 of the Trade Act of 1974) and the U.S. International Trade Commission ("ITC") on the proposed action. The President must submit a report to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate ("Trade Committees") setting forth the action proposed, the reasons for the proposed action, and the advice of the private sector and the ITC. The bill sets aside a 60-day period following the date of transmittal of the report for the President to consult with the Trade Committees on the action. Following the expiration of the 60-day period, the President may proclaim the action.

The President may initiate the consultation and layover process under section 104 of the bill on enactment of the bill. However, under section 103(a), any modifying proclamation cannot take effect until the Agreement enters into force. In addition to modifications of customs duties, these provisions apply to other Presidential proclamation authority provided in the bill that is subject to consultation and layover, such as authority to implement a proposal to modify the Agreement's specific rules of origin pursuant to an agreement with Bahrain under Article 3.2.3 of the Agreement.

Section 201(c) of the bill provides for the conversion of existing specific or compound

rates of duty for various goods to *ad valorem* rates for purposes of implementing the Agreement's customs duty reductions. (A compound rate of duty for a good would be a rate of duty stated, for example, as the sum of X dollars per kilogram plus Y percent of the value of the good.)

b. Customs User Fees

Section 203 of the bill implements U.S. commitments under Article 2.9.4 of the Agreement, regarding customs user fees on originating goods, by amending section 13031(b) of the Consolidated Omnibus Budget Reconciliation Act of 1985 (19 U.S.C. 58c(b)). The amendment provides for the immediate elimination of the merchandise processing fee for goods qualifying as originating goods under Chapter Four of the Agreement. Customs processing for goods qualifying as originating goods under the Agreement will be financed by money from the General Fund of the Treasury. This is necessary to ensure that the United States complies with obligations under the General Agreement on Tariffs and Trade 1994 by limiting fees charged for the processing of non-originating imports to amounts commensurate with the processing services provided. That is, fees charged on non-originating imports will not be used to finance customs processing for originating imports.

2. Administrative Action

As discussed above, section 201(a) of the bill authorizes the President to proclaim duty-free treatment for certain goods to carry out Article 2.5 (temporary admission of certain goods) and Article 2.6 (repair or alteration of certain goods) of the Agreement. The Secretary of the Treasury will issue regulations to implement the proclamation.

The Administration welcomes the commitment made by the Minister of Finance of Bahrain, in a letter to Ambassador Portman dated September 5, 2005, regarding the efforts of the Kingdom of Bahrain to dismantle its primary boycott of Israel. As part of its annual National Trade Estimates Report, the Administration intends to monitor and report on the efforts of the Kingdom of Bahrain to dismantle its primary boycott of Israel.

Chapter Three (Textiles and Apparel)

1. Implementing Bill

a. Enforcement of Textile and Apparel Rules of Origin

In addition to lowering barriers to bilateral trade in textile and apparel goods, the Agreement includes anti-circumvention provisions designed to ensure the accuracy of claims of origin and to prevent circumvention of laws, regulations, and procedures affecting such trade. Article 3.3 of the Agreement provides for facility inspections, examinations of records, and other forms of verification to determine the accuracy of claims of origin for textile and apparel goods and to determine that exporters and producers are complying with applicable laws, regulations,

and procedures regarding trade in textile and apparel goods.

Under Articles 3.3.2 and 3.3.3, the United States may request that Bahrain conduct a verification, allow the United States to conduct a verification, or collaborate with the United States in conducting a verification with respect to a Bahraini exporter or producer. The object of a verification under Article 3.3.2 is to determine that a claim of origin for a textile or apparel good is accurate. The object of a verification under Article 3.3.3 is to determine that an exporter or producer is complying with applicable customs laws, regulations, and procedures and that claims of origin for textile or apparel goods exported or produced by that person are accurate.

Under Article 3.3.6 of the Agreement, the United States may take appropriate action during a verification, including suspending the application of preferential tariff treatment to textile or apparel goods exported or produced by the person subject to the verification. Under Article 3.3.8, the United States also may take appropriate action if, after 12 months, it is unable to make the requisite determination. In general, there are two situations in which the United States would be unable to make the required determination. One would involve a lack of cooperation on the part of the exporter or producer. The second would occur when the United States has sufficient information, and based on that information determines that: (1) a claim of origin is not accurate; or (2) an exporter or producer is not complying with applicable customs laws, regulations, and procedures, and therefore that claims of origin for textile and apparel goods produced by that person are not accurate.

Under current law, the Secretary of the Treasury may request that Bahraini authorities conduct a verification, allow the United States to conduct a verification, or collaborate with the United States in conducting a verification under Article 3.3 of the Agreement. Section 204(a) authorizes the President to direct the Secretary of the Treasury to take "appropriate action" while a verification requested by the Secretary is being conducted. The purpose of such verification is to determine compliance with applicable customs law or to determine the accuracy of a claim that a particular good is an originating good or a "good of Bahrain." Under section 204(b), such action may include, but is not limited to, suspension of liquidation of entries of textile and apparel goods exported or produced by the person that is the subject of the verification.

Under section 204(c), if the Secretary is unable to confirm within 12 months of making a verification request that a claim of origin for a good is accurate or, more generally, that a Bahraini exporter or producer is complying with applicable customs laws, regulations, and procedures regarding trade in textile or apparel goods, the President may determine what further "appropriate action" to take. Under section 204(d), such further action may include publishing the name and address of the person subject to the verification and, in the case of a verification under Article 3.3.3 of the Agreement, denying preferential tariff treatment under the Agreement to any textile and apparel goods exported or produced by the person subject to the verification, and denying entry of such goods into the United States. In the case of a verification under Article 3.3.2 of the Agreement, the further action referred to in section 204(d) of the bill may include denying preferential tariff treatment to a textile or apparel good for which a claim has been made that is the subject of the verification and denying entry of such a good into the United States. Such further appropriate action may remain in effect until the Secretary receives

information sufficient to make a determination under section 204(a) or until such earlier date as the President may direct.

b. Textile and Apparel Safeguard

Article 3.1 of the Agreement establishes a special procedure and makes remedies available to domestic textile and apparel industries that have sustained or are threatened by serious damage from imports of textile or apparel goods that receive preferential tariff treatment under the Agreement. The Administration does not anticipate that the Agreement will result in damaging increases in textile or apparel imports from Bahrain. Nevertheless, the Agreement's textile and apparel safeguard procedure will ensure that relief is available, if needed.

The safeguard mechanism applies when, as a result of the elimination of a customs duty under the Agreement, textile or apparel goods from Bahrain that receive preferential tariff treatment are being imported into the United States in such increased quantities, in absolute or relative terms, and under such conditions as to cause serious damage or actual threat thereof to a U.S. industry producing like or directly competitive goods. In these circumstances, Article 3.1 permits the United States to increase duties on the imported goods to a level that does not exceed the lesser of the prevailing U.S. normal trade relations (most-favored-nation) ("NTR (MFN)") duty rate for the good or the U.S. NTR (MFN) duty rate in effect on the day before the Agreement entered into force.

Section 301(2) of the bill defines the term "Bahraini textile or apparel article" as an article listed in the Annex to the WTO Agreement on Textiles and Clothing that is also a Bahraini article, as defined in section 301(1).

Subtitle B of Title III of the bill (sections 321 through 328) implements the Agreement's textile and apparel safeguard provisions.

Section 321(a) of the bill provides that an interested party may file with the President a request for a textile or apparel safeguard measure. The President is to review a request initially to determine whether to commence consideration of the request on its merits.

Under section 321(b), if the President determines that the request contains information necessary to warrant consideration on the merits, the President must provide notice in the *Federal Register* stating that the request will be considered and seeking public comments on the request. The notice will contain a summary of the request itself and the dates by which comments and rebuttals must be received. Subject to protection of business confidential information, if any, the full text of the request will be made available on the Department of Commerce, International Trade Administration's website.

If the President determines under section 321 that a request contains the information necessary for it to be considered, then section 322 sets out the procedures to be followed in considering the request. Section 322(a)(1) of the bill provides for the President to determine whether, as a result of the elimination of a duty provided for under the Agreement, a Bahraini

textile or apparel article is being imported into the United States in such increased quantities, in absolute terms or relative to the domestic market for that article, and under such conditions that imports of the article are causing serious damage, or actual threat thereof, to a domestic industry producing an article that is like, or directly competitive with, the imported article. This determination corresponds to the determination required under Article 3.1.1 of the Agreement. Section 322(a)(2) of the bill includes criteria for determining serious damage or actual threat thereof, consistent with Article 3.1.2 of the Agreement.

Section 322(b) of the bill identifies the relief that the President may provide to a U.S. industry that the President determines is facing serious damage or actual threat thereof. Such relief may consist of an increase in duties to the lower of: (1) the NTR (MFN) duty rate in place for the textile or apparel article at the time the relief is granted; or (2) the NTR (MFN) duty rate for that article on the day before the Agreement enters into force.

Section 323 of the bill provides that the maximum period of relief under the textile and apparel safeguard is three years. However, if the initial period of import relief is less than three years, the President may extend the relief (to a maximum aggregate period of three years) if the President determines that continuation is necessary to remedy or prevent serious damage and to facilitate adjustment, and that the domestic industry is, in fact, adjusting to import competition.

Section 324 of the bill provides that relief may not be granted to an article under the textile and apparel safeguard if: (1) relief previously has been granted to that article under the textile and apparel safeguard; or (2) the article is subject, or becomes subject, to a safeguard measure under chapter 1 of title II of the Trade Act of 1974.

Section 325 of the bill provides that on the date of termination of import relief, imports of the textile or apparel article that was subject to the safeguard action will be subject to the rate of duty that would have been in effect on that date in the absence of the relief.

Section 326 of the bill provides that authority to provide relief under the textile and apparel safeguard with respect to any Bahraini article will expire 10 years after duties on the article are eliminated.

Under Article 3.1.6 of the Agreement, if the United States provides relief to a domestic industry under the textile and apparel safeguard, it must provide Bahrain "mutually agreed trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the emergency action." If the United States and Bahrain are unable to agree on trade liberalizing compensation, Bahrain may increase customs duties equivalently on U.S. goods. The obligation to provide compensation terminates upon termination of the safeguard relief.

Section 123 of the Trade Act of 1974 (19 U.S.C. 2133), as amended, authorizes the President to provide trade compensation for global safeguard measures taken pursuant to chapter 1 of title II of the Trade Act of 1974. Section 327 of the implementing bill extends that authority to measures taken pursuant to the Agreement's textile and apparel safeguard provisions.

Finally, section 328 of the bill provides that business confidential information submitted in the course of consideration of a request for a textile or apparel safeguard may not be released absent the consent of the party providing the information. It also provides that a party submitting business confidential information in a textile or apparel safeguard proceeding must submit a non-confidential version of the information or a summary of the information.

2. Administrative Action

a. Enforcement of Textile and Apparel Rules of Origin

Section 204 of the bill governs situations in which U.S. customs officials request that Bahrain initiate verifications regarding enforcement of textile and apparel rules of origin. Following a U.S. request for a verification, the Committee for the Implementation of Textile Agreements ("CITA"), an interagency entity created by Executive Order 11651 that carries out certain textile trade policies for the United States by delegation of authority from the President, may direct U.S. officials to take appropriate action described in section 204(b) of the bill while the verification is being conducted. U.S. customs officials will determine whether the exporter or producer that is subject to the verification is complying with applicable customs rules, and whether statements regarding the origin of textile or apparel goods exported or produced by that firm are accurate. If U.S. customs officials determine that an exporter or producer is not complying with applicable customs rules or that it is making false statements regarding the origin of textile or apparel goods, they will report their findings to CITA. Similarly, if U.S. customs officials are unable to make the necessary determination (*e.g.*, due to lack of cooperation by the exporter or producer), they will report that fact to CITA. CITA may direct U.S. officials to take appropriate action described in section 204(d) in the case of an adverse determination or a report that customs officials are unable to make the necessary determination. If the appropriate action includes denial of preferential tariff treatment or denial of entry, CITA will issue an appropriate directive.

Section 204 of the bill provides the exclusive basis in U.S. law for CITA to direct appropriate action implementing Article 3.3 of the Agreement.

b. Textile and Apparel Safeguard

The function of receiving requests for textile and apparel safeguard measures under section 321 of the bill, making determinations of serious damage or actual threat thereof under section 322(a), and providing relief under section 322(b) will be performed by CITA, pursuant to a delegation of the President's authority under the bill. CITA will issue procedures for requesting such safeguard measures, for making its determinations under section 322(a), and for providing relief under section 322(b).

Chapter Four (Rules of Origin)

1. Implementing Bill

a. General

Section 202 of the implementing bill codifies the general rules of origin set forth in Chapter Four of the Agreement. These rules apply only for the purposes of this bill and for the purposes of implementing the customs duty treatment provided under the Agreement. An originating good of Bahrain for the purposes of this bill would not necessarily be a good of, or import from, Bahrain for the purposes of other U.S. laws or regulations.

For a good entering the United States to qualify as an originating good, it must be imported directly from Bahrain. Additionally, it must be covered by one of three specified categories. First, a good is an originating good if it is "wholly the growth, product, or manufacture of Bahrain or the United States, or both." The term "good wholly the growth, product, or manufacture of Bahrain or the United States, or both" is defined in section 202(i)(3) of the bill and includes, for example, minerals extracted in either country, animals born and raised in either country, and waste and scrap derived from production of goods that takes place in the territory of either or both countries.

The term "good wholly the growth, product, or manufacture of Bahrain or the United States, or both" includes "recovered goods." These are parts resulting from the disassembly of used goods, which are brought into good working condition, in order to be combined with other recovered goods and other materials to form a "remanufactured good." The term "remanufactured good" is separately defined in section 202(i)(9) to mean an industrial good assembled in the territory of Bahrain or the United States that: (1) is entirely or partially comprised of recovered goods; (2) has a similar life expectancy to, and meets similar performance standards as, a like good that is new; and (3) enjoys a factory warranty similar to that of a like good that is new.

Second, a good is an "originating good" if it is a "new or different article of commerce" that has been grown, produced, or manufactured in Bahrain or the United States, or both. Under this category, the sum of: (1) the value of the materials produced in Bahrain or the United States, or both; and (2) the "direct costs of processing operations" performed in Bahrain or the United States, or both, must be at least 35 percent of the appraised value of the good at the time it is entered into the territory of either country. This category does not apply to goods specified in Annex 3-A or Annex 4-A of the Agreement.

This second category incorporates two defined terms. The term "new or different article of commerce" is defined under section 202(i)(7) of the bill as "a good [ ] that has been substantially transformed from a good or material that is not wholly the growth, product, or manufacture of Bahrain or the United States, or both; and [that] has a new name, character, or use distinct from the good or material from which it was transformed." The term "direct costs of processing operations," defined in section 202(i)(1) of the bill, refers to costs directly incurred in,

or that can be reasonably allocated to, the growth, production, or manufacture of a good. It includes a variety of types of costs, such as labor costs, depreciation on machinery or equipment, research and development, inspection costs, and packaging costs, among others.

Third, a good is an "originating good" if it meets the product-specific rules set out in Annex 3-A or Annex 4-A of the Agreement and satisfies all other applicable requirements of section 202. In general, Annex 3-A and Annex 4-A of the Agreement require that non-originating materials used in the production of a good undergo a change in tariff classification, as specified in each Annex, as a result of production occurring entirely in the territory of Bahrain or the United States, or both.

The remainder of section 202 of the implementing bill sets forth specific rules that supplement the rules for qualifying under the second and third categories just described. For example, section 202(e) provides that "[p]ackaging and packing materials and containers for retail sale and shipment shall be disregarded in determining whether a good qualifies as an originating good, except to the extent that the value of such packaging and packing materials and containers has been included in meeting the requirements set forth in subsection (b)(2)." Other provisions in section 202 address valuation of materials and rules regarding indirect materials, transit and transshipment, and a variety of other matters.

b. Proclamation Authority

Section 202(j)(1) of the bill authorizes the President to proclaim the specific rules of origin in Annex 3-A and Annex 4-A of the Agreement, as well as any additional subordinate rules necessary to carry out the customs duty provisions of the bill consistent with the Agreement. In addition, section 202(j)(2) gives authority to the President to modify certain of the Agreement's specific origin rules by proclamation, subject to the consultation and layover provisions of section 104 of the bill. (*See* discussion under item 1.a of Chapter Two, above.)

Various provisions of the Agreement expressly contemplate modifications to the rules of origin. For example, Article 3.2.3 calls for the United States and Bahrain to consult at either country's request to consider whether rules of origin for particular textile or apparel goods should be revised in light of the availability of fibers, yarns, or fabrics in their respective territories. In addition, Article 4.13 provides that, at an appropriate time, the United States and Bahrain will enter into discussions with a view to deciding the extent to which materials that are products of countries in the Middle East or North Africa may be counted for purposes of satisfying the Agreement's rules of origin.

Section 202(j)(2) of the bill expressly limits the President's authority to modify by proclamation specific rules of origin pertaining to textile or apparel goods (listed in Chapters 50 through 63 of the HTS and identified in Annex 3-A of the Agreement). Those rules of origin may be modified by proclamation in only two circumstances: (1) to implement an agreement with Bahrain pursuant to Article 3.2.5 of the Agreement to address the commercial availability of particular fibers, yarns, or fabrics; and (2) to correct typographical, clerical, or other non-substantive technical errors within one year of enactment of the implementing bill.

2. Administrative Action

The rules of origin in Chapter Four of the Agreement are intended to direct the benefits of customs duty elimination under the Agreement principally to firms producing or manufacturing goods in Bahrain and the United States. For this reason, the rules ensure that, in general, a good is eligible for benefits under the Agreement only if it: (1) is wholly grown, produced, or manufactured in one or both countries; (2) has been substantially transformed from a good or material that is not wholly grown, produced, or manufactured in one or both countries; or (3) meets specific "tariff shift" rules identified for particular products.

a. Claims for Preferential Tariff Treatment

Section 205 of the bill authorizes the Secretary of the Treasury to prescribe regulations necessary to carry out the tariff-related provisions of the bill, including the rule of origin provisions. The Department of the Treasury will use this authority in part to promulgate any regulations necessary to implement the Agreement's provisions governing claims for preferential tariff treatment. Under Article 4.10(a) of the Agreement, an importer claiming preferential tariff treatment is deemed to have certified that the good qualifies for such treatment. Under Article 4.10(b), an importer may be requested to explain in a detailed declaration the basis for such a claim. Article 4.11.1 requires that a claim for preferential tariff treatment be granted unless customs officials have information indicating that the importer's claim fails to comply with the Agreement's rules of origin. Article 4.11.3 requires customs officials to provide a written determination, with factual and legal findings, if they deny a claim.

b. Verification

Under Article 4.11.2, customs officials may verify claims that goods imported from Bahrain satisfy the Agreement's rules of origin. Article 3.3 sets out special procedures for verifying claims that textile or apparel goods imported from Bahrain meet the Agreement's origin rules. U.S. officials will carry out verifications under Articles 4.11.2 and 3.3 of the Agreement pursuant to authorities under current law. For example, section 509 of the Tariff Act of 1930 (19 U.S.C. 1509) provides authority to examine records and issue summonses to determine liability for duty and ensure compliance with U.S. customs laws.

Chapter Five (Customs Administration)

1. Implementing Bill

No statutory changes will be required to implement Chapter Five.

2. Administrative Action

a. Inquiry Point

Article 5.1.2 of the Agreement requires each country to designate an inquiry point for inquiries from interested persons on customs matters. The U.S. Bureau of Customs and Border Protection ("BCBP") will serve as the U.S. inquiry point for this purpose. Consistent with Article 5.1.2, the BCBP will post information on the Internet at "www.cbp.gov" concerning how interested persons can make customs-related inquiries.

b. Advance Rulings

Treasury regulations for advance rulings under Article 5.10 of the Agreement (on classification, valuation, duty drawback, qualification as an "originating good," and duty-free treatment of goods returned to the United States after repair or alteration in Bahrain) will parallel in most respects existing regulations in Part 177 of the Customs Regulations for obtaining advance rulings. Consistent with Article 5.10.2 of the Agreement, advance rulings will be required to be issued within 150 days of receipt by customs officials of all information reasonably required to process the application for the ruling.

Chapter Six (Sanitary and Phytosanitary Measures)

No statutory or administrative changes will be required to implement Chapter Six.

Chapter Seven (Technical Barriers to Trade)

1. Implementing Bill

No statutory changes will be required to implement Chapter Seven.

2. Administrative Action

Article 7.7 of the Agreement calls for each government to designate an official to coordinate with interested parties in its territory on bilateral issues and initiatives regarding technical barriers to trade ("TBT"), and to communicate with the other government on such matters. A USTR official responsible for TBT matters or trade relations with Bahrain will serve as the U.S. TBT Chapter Coordinator.

Chapter Eight (Safeguards)

1. Implementing Bill

Subtitle A of Title III of the bill implements in U.S. law the bilateral safeguard provisions set out in Chapter Eight of the Agreement. (As discussed under Chapter Three (Textiles and

Apparel), above, Subtitle B of Title III of the bill implements the textile and apparel safeguard provisions of the Agreement.)

Sections 311 through 316 of the bill authorize the President to suspend duty reductions or impose duties temporarily at NTR (MFN) rates on a "Bahraini article" when, after an investigation, the ITC determines that as a result of the reduction or elimination of a duty under the Agreement, the article is being imported into the United States in such increased quantities and under such conditions as to be a substantial cause of serious injury or threat of serious injury to a domestic industry that produces a like or directly competitive good. The standards and procedures set out in these provisions closely parallel the procedures set out in sections 201 through 204 of the Trade Act of 1974.

Section 301(1) defines the term "Bahraini article" for purposes of the safeguard provisions to mean a good qualifying as an "originating good" under section 202(b) of the bill or a textile or apparel good containing non-originating fabric or yarn that receives preferential tariff treatment under Articles 3.2.8 and 3.2.9 of the Agreement.

Section 311 provides for the filing of petitions with the ITC and for the ITC to conduct bilateral safeguard investigations. Section 311(a) provides that a petition requesting a bilateral safeguard action may be filed by an entity that is "representative of an industry." As under section 202(a)(1) of the Trade Act of 1974, the term "entity" includes a trade association, firm, certified or recognized union, or a group of workers.

Section 311(b) sets out the standard to be used by the ITC in undertaking an investigation and making a determination in bilateral safeguard proceedings.

Section 311(c) makes applicable by reference several provisions of the Trade Act of 1974. These are the definition of "substantial cause" in section 202(b)(1)(B), the factors listed in section 202(c) applied in making determinations, the hearing requirement of section 202(b)(3), and the provisions of section 202(i) permitting confidential business information to be made available under protective order to authorized representatives of parties to a safeguard investigation.

Section 311(d) exempts from investigation under this section a Bahraini article that has been subject to a safeguard measure under Subtitle A of Title III of the bill after the Agreement's entry into force. In other words, a safeguard measure under Subtitle A of Title III of the bill may be applied only once for a particular good.

Section 312(a) establishes deadlines for ITC determinations following an investigation under section 311(b). The ITC must make its injury determination within 120 days of the date on which it initiates an investigation.

Section 312(b) makes applicable the provisions of section 330(d) of the Tariff Act of 1930, which will apply when the ITC Commissioners are equally divided on the question of injury or remedy.

Under section 312(c), if the ITC makes an affirmative injury determination, or a determination that the President may consider to be an affirmative determination under section 312(b), it must find and recommend to the President the amount of import relief that is necessary to remedy or prevent the serious injury and to facilitate the efforts of the domestic industry to make a positive adjustment to import competition. The relief that may be recommended by the ITC is limited to that authorized in section 313(c). Similar to procedures under the global safeguards provisions in current law, section 312(c) of the bill provides that only those members of the ITC who agreed to the affirmative determination under section 312(a) may vote on the recommendation of relief under section 312(c).

Under section 312(d), the ITC is required to transmit a report to the President not later than 30 days after making its injury determination. The ITC's report must include: (1) the ITC's determination under section 312(a) and the reasons supporting it; (2) if the determination under section 312(a) is affirmative or may be considered to be affirmative by the President, any findings and recommendations for import relief and an explanation of the basis for each recommendation; and (3) any dissenting or separate views of ITC Commissioners. Section 312(e) requires the ITC to publish its report promptly and to publish a summary of the report in the *Federal Register*.

Under section 313(a) of the bill, the President is directed, subject to section 313(b), to take action not later than 30 days after receiving a report from the ITC containing an affirmative determination or a determination that the President may consider to be an affirmative determination. The President must provide import relief to the extent that the President determines is necessary to remedy or prevent the injury found by the ITC and to facilitate the efforts of the domestic industry to make a positive adjustment to import competition. Under section 313(b), the President is not required to provide import relief if the President determines that the relief will not provide greater economic and social benefits than costs.

Section 313(c)(1) sets forth the nature of the relief that the President may provide. In general, the President may take action in the form of:

- a suspension of further reductions in the rate of duty to be applied to the articles in question; or

- an increase in the rate of duty on the articles in question to a level that does not exceed the lesser of the existing NTR (MFN) rate or the NTR (MFN) rate of duty imposed on the day before the Agreement entered into force.

Under section 313(c)(2), if the relief the President provides has a duration greater than one year, the relief must be subject to progressive liberalization at regular intervals over the course of its application.

Section 313(d) of the bill provides that the maximum period of import relief under the bilateral safeguard is three years. However, if the initial period of import relief is less than three years, the President may extend the relief (to a maximum aggregate period of three years) if the President determines that continuation of relief is necessary to remedy or prevent serious injury and to facilitate adjustment to import competition, and that there is evidence that the industry is making a positive adjustment to import competition. That determination must follow an affirmative determination by the ITC to the same effect, or a determination that the President may consider to be an affirmative determination.

Section 313(e) specifies the duty rate to be applied to Bahraini articles after termination of a bilateral safeguard action. On the termination of relief, the rate of duty on that article is the rate that would have been in effect, but for the provision of such relief, on the date the relief terminates.

Section 313(f) exempts from relief a Bahraini article that already has been subject to a safeguard measure under Subtitle A of Title III of the bill. In other words, a safeguard measure under Subtitle A may be applied only once for a particular good.

Section 314 provides that the President's authority to take action under the bilateral safeguard provision expires 10 years after the date on which the Agreement enters into force. The President may take action under the bilateral safeguard provision after that period, but only if the President determines that the Government of Bahrain consents.

Section 315 allows the President to provide trade compensation to Bahrain, as required under Article 8.3 of the Agreement, when the United States imposes relief through a bilateral safeguard action. Section 315 provides that for purposes of section 123 of the Trade Act of 1974, which allows the President to provide compensation for global safeguards, any relief provided under section 313 will be treated as an action taken under the global safeguard provisions of U.S. law (sections 201 through 204 of the Trade Act of 1974).

Section 316 amends section 202(a) of the Trade Act of 1974 to provide that the procedures in section 332(g) of the Tariff Act of 1930 with respect to the release of confidential business information are to apply to bilateral safeguard investigations.

The Administration has not provided classified information to the ITC in past safeguard proceedings and does not expect to provide such information in future proceedings. In the unlikely event that the Administration provides classified information to the ITC in such proceedings, that information would be protected from publication in accordance with Executive Order 12958.

2. Administrative Action

No administrative changes will be required to implement Chapter Eight.

Chapter Nine (Government Procurement)

1. Implementing Bill

In order to comply with its obligations under Chapter Nine, the United States must waive the application of certain laws, regulations, procedures, and practices that ordinarily treat foreign goods and services and suppliers of such goods and services less favorably than U.S. goods, services, and suppliers. Section 301(a) of the Trade Agreements Act of 1979 (19 U.S.C. 2511(a)) authorizes the President to waive the application of such laws, regulations, procedures, and practices with respect to "eligible products" of a foreign country designated under section 301(b) of that Act. The President has delegated this authority to the United States Trade Representative. Section 401 of the implementing bill amends the definition of "eligible product" in section 308(4)(A) of the Trade Agreements Act. As amended, section 308(4)(A) will provide that, for a party to a free trade agreement that entered into force for the United States after December 31, 2005 and prior to July 2, 2006, an "eligible product" means "a product or service of that country or instrumentality which is covered under the free trade agreement for procurement by the United States." This amended definition, coupled with the President's exercise of authority under section 301(a) of the Trade Agreements Act as delegated to the United States Trade Representative, will allow for non-discriminatory procurement of products and services of Bahrain and other Parties to free trade agreements that entered into force during the specified time period.

2. Administrative Action

Annex 9-A-1 of the Agreement establishes dollar thresholds for procurements above which U.S. government procuring entities must allow Bahraini suppliers to bid in accordance with the rules set forth in Chapter Nine. USTR will notify the Federal Acquisition Regulation ("FAR") Council of the thresholds that pertain to Bahrain under the Agreement. The FAR Council will then incorporate those thresholds into the FAR.

Chapter Ten (Cross-Border Trade in Services)

No statutory or administrative changes will be required to implement Chapter Ten.

Chapter Eleven (Financial Services)

No statutory or administrative changes will be required to implement Chapter Eleven.

Chapter Twelve (Telecommunications)

No statutory or administrative changes will be required to implement Chapter Twelve.

Chapter Thirteen (Electronic Commerce)

No statutory or administrative changes will be required to implement Chapter Thirteen.

Chapter Fourteen (Intellectual Property Rights)

No statutory or administrative changes will be required to implement Chapter Fourteen.

Chapter Fifteen (Labor)

1. Implementing Bill

No statutory changes will be required to implement Chapter Fifteen.

2. Administrative Action

Article 15.4.2 of the Agreement calls for each country to designate an office to serve as the contact point for implementing the Agreement's labor provisions. The Department of Labor's Bureau of International Labor Affairs will serve as the U.S. contact point for this purpose.

Chapter Sixteen (Environment)

1. Implementing Bill

No statutory changes will be required to implement Chapter Sixteen.

2. Administrative Action

Article 16.8.1 of the Agreement provides that either Party may request consultations with the other concerning any matter arising under the Chapter and contemplates that each Party will designate a contact point to receive such requests. USTR's Office of Environment and Natural Resources will serve as the U.S. contact point for this purpose.

Tab 4: Statement Setting Forth the Reasons of the President Regarding How and to What Extent the Agreement Makes Progress in Achieving the Applicable Purposes, Policies, Objectives, and Priorities of the Act

STATEMENT ON HOW THE UNITED STATES – BAHRAIN FREE TRADE AGREEMENT MAKES PROGRESS IN ACHIEVING THE APPLICABLE PURPOSES, POLICIES, OBJECTIVES, AND PRIORITIES OF THE TRADE ACT OF 2002

A. INTRODUCTION

The United States-Bahrain Free Trade Agreement ("FTA" or "Agreement") makes progress in achieving the applicable purposes, policies, objectives, and priorities of the Bipartisan Trade Promotion Authority Act ("TPA Act"). This Statement describes how and to what extent the applicable purposes, policies, objectives, and priorities are achieved through the Agreement.

Under the Agreement, 100 percent of bilateral trade in consumer and industrial goods will become duty-free immediately upon entry into force of the Agreement. In particular, trade in textile and apparel goods will become duty-free immediately, providing new opportunities for U.S. fiber, yarn, fabric, and apparel exporters. Furthermore, Bahrain will provide immediate duty-free access to U.S. agricultural exports in 98 percent of agricultural tariff lines. Certain sensitive agricultural goods will have longer periods for duty elimination (up to 10 years) in both countries, or will be subject to other provisions, including, in some cases, the application of preferential tariff-rate quotas ("TRQs") during a 10-year transition period by the United States. Bahrain also will substantially reduce barriers to bilateral trade in services, including financial services. The Agreement includes state-of-the-art provisions in such key areas as intellectual property rights, electronic commerce, customs and trade facilitation, dispute settlement, and labor and environmental protection.

The FTA forms an integral part of the Administration's larger strategy of opening markets around the world through global, regional, and bilateral trade and investment initiatives. The Agreement also provides the opportunity to strengthen our economic and political ties with a long-time partner in the Middle East, and is a further step in achieving President Bush's goal of a broader United States-Middle East Free Trade Agreement ("MEFTA") by 2013.

The Agreement meets or exceeds the applicable purposes, policies, objectives, and priorities that the Congress spelled out in the TPA Act. Accordingly, President Bush strongly believes that the Congress should approve the Agreement and enact the legislation needed to implement the Agreement.

B. OVERALL TRADE NEGOTIATING OBJECTIVES

The TPA Act sets out a variety of "overall trade negotiating objectives" that call for future U.S. trade agreements to: (1) open markets by eliminating or reducing barriers to and distortions of trade and creating market opportunities, in particular for small businesses; (2)

further strengthen international trading disciplines; (3) foster economic growth in the United States and globally; and (4) promote environmental and worker rights policies in the context of trade. The Agreement builds on the foundation of existing trade agreements to make substantial progress in achieving each of these objectives.

1. Market Opening

The Agreement will result in substantial market access across almost all economic sectors. For consumer and industrial goods (including textile and apparel goods), tariffs will be eliminated immediately on 100 percent of bilateral trade between the United States and Bahrain. Bahrain maintains an across-the-board tariff of approximately five percent on almost all such goods, though certain goods have tariffs as high as 20 percent. In addition, Bahrain will eliminate tariffs on virtually all U.S. agricultural exports immediately upon entry into force of the Agreement. For both countries, certain sensitive agricultural goods will have longer periods for duty elimination (up to 10 years) or will be subject to other provisions, including, in some cases, the application of TRQs during a 10-year transition period by the United States.

The FTA provides additional market opening in a broad range of service sectors, including express mail delivery, insurance, and financial services. It also opens Bahrain's government procurement market to U.S. suppliers for the first time on transparent and non-discriminatory terms. As Bahrain is not a signatory to the World Trade Organization ("WTO") Agreement on Government Procurement, this constitutes a major benefit of the Agreement.

2. Stronger International Trade Disciplines

The Agreement includes innovative commitments to promote trade in digital products such as software, music, images, videos, and text. It draws from traditional trade principles to fashion customized nondiscrimination rules that will apply specifically to electronic commerce. The FTA prohibits tariffs when digital products are delivered over the Internet.

The Agreement imposes disciplines that proceed from other current agreements so that workers and firms can fully realize the market-opening potential of the Agreement. Thus, the Agreement sets out rules on intellectual property rights ("IPR") that clarify and build on those in the WTO TRIPS Agreement and provide for implementation of more recent World Intellectual Property Organization ("WIPO") treaties on protection of copyright and rights of performers and producers to strengthen enforcement and enhance rules protecting IPR.

The Agreement also includes detailed rules governing telecommunications services, imposing market-opening disciplines that extend beyond those in effect under the WTO. In addition, the FTA contains innovative procedures for settling disputes that may arise under the Agreement, including provisions for monetary assessments to enforce a Party's rights where a dispute settlement panel finds that the other Party has breached its obligations.

3. Foster Economic Growth

U.S. exports to Bahrain have averaged about $435 million per year over the last four years. While that figure is small in comparison to that of other U.S. trading partners, these exports have been concentrated in a narrow range of manufacturing categories: transportation equipment (motor vehicles and airplanes); machinery (other than electrical); computer and electronic products; fabricated metal products; food manufacturing; and chemicals. The removal of tariffs on all industrial goods will boost U.S. competitiveness in Bahrain, especially in the aforementioned product categories. Coupled with the gains expected to result from greater liberalization of trade in services, heightened protection of intellectual property rights, and increased transparency, the FTA is expected to make a positive contribution to U.S. economic welfare and the expansion of global trade.

4. Labor Rights and Environmental Protection

Trade agreements can, and should, complement efforts to protect worker rights and enhance environmental protection. Accordingly, the Agreement includes meaningful commitments by each country on labor and environmental protection.

Both countries reaffirm through the Agreement their respective obligations as members of the International Labor Organization ("ILO") and commitments under the 1998 ILO *Declaration on Fundamental Principles and Rights at Work.* The Agreement commits each country to strive to ensure it does not waive or derogate from its domestic labor laws in a manner that weakens or reduces its adherence to internationally recognized labor rights as an encouragement for trade or investment with the other country. Moreover, while recognizing each Party's right to establish its own labor laws, exercise discretion in investigatory, regulatory, prosecutorial, and compliance matters, and allocate enforcement resources, the Agreement commits both Bahrain and the United States not to fail to effectively enforce domestic labor laws on a sustained or recurring basis in a manner affecting bilateral trade.

Similarly, the FTA commits each country to ensure that its laws and policies provide for high levels of environmental protection and to strive to improve those laws and policies. As is the case for labor law enforcement, the FTA contains a binding commitment that each Party not fail to effectively enforce its domestic environmental laws, while recognizing each Party's right to establish its own environmental laws and exercise discretion in regulatory, prosecutorial, and compliance matters. The Agreement also includes language similar to that on labor rights that requires each country to strive to ensure it does not waive or derogate from its environmental laws in a manner that weakens or reduces protections under those laws in order to seek investment or encourage trade with the other country. Finally, the countries agree to cooperate on an ongoing basis regarding environment matters and to consider establishing further consultative mechanisms to facilitate such cooperation.

C. PRINCIPAL TRADE NEGOTIATING OBJECTIVES

The TPA Act establishes a variety of "principal trade negotiating objectives." The Agreement makes substantial progress toward each of the applicable goals set out in the act.

1. Opening Markets for U.S. Goods

Under the FTA, U.S. exporters will enjoy increased market opportunities and greater certainty regarding the terms for access to Bahrain's market. For example, in addition to cutting tariffs on agricultural goods, the United States and Bahrain will work together on sanitary and phytosanitary ("SPS") matters, with a view to facilitating trade between the countries, while appropriately protecting human, animal, and plant life and health. They will also enhance cooperation on technical regulations, standards, and conformity assessment procedures to prevent unnecessary technical barriers to trade ("TBT") that hinder U.S. companies from taking advantage of open markets.

2. Opening Markets for U.S. Services

The FTA creates new market opportunities in Bahrain for a range of key U.S. services suppliers and will lock in access in sectors where Bahrain's services market is already open. The Agreement includes a market-opening services framework based in substantial part on a trade-liberalizing "negative list" approach. This means that all services sectors are subject to the Agreement's rules unless a country has negotiated a specific exemption in that sector.

The Agreement will either open or lock-in existing significant access to Bahrain's services markets in such priority U.S. services export sectors as financial services, telecommunications, computer and related services, professional services, advertising, audiovisual services, education and training, tourism, construction and engineering, energy services, and environmental services. The Agreement's market-opening provisions are complemented by state-of-the-art rules governing regulatory transparency – rules that are especially important given the highly regulated nature of many services industries.

Under the FTA, Bahrain will afford U.S. services suppliers unimpeded access to another of its key services markets – express delivery. The FTA includes an innovative, comprehensive definition of express delivery services that requires each Party to provide national treatment, most-favored-nation ("MFN") treatment, and additional market access benefits to the other Party's express delivery services. The FTA also addresses the issue of postal monopolies directing revenues derived from monopoly postal services to confer an advantage on express delivery services.

3. Foreign Investment

A principal trade negotiating objective of the United States is to achieve, in agreements with U.S. trading partners, strong and predictable legal frameworks for U.S. investors. In 1999,

the United States and Bahrain negotiated a comprehensive bilateral investment treaty ("BIT"), the *Treaty Between the Government of the United States of America and the Government of the State of Bahrain Concerning the Encouragement and Reciprocal Protection of Investment (1999)*. The BIT was based on the U.S. model for investment agreements and provides both substantially increased protections and improved transparency for U.S. investors in Bahrain. In particular, the BIT: (1) applies to all forms of U.S. investment in Bahrain; (2) requires that covered U.S. investments receive the better of national treatment or MFN treatment provided by Bahrain; (3) prohibits the imposition of performance requirements on covered U.S. investments by Bahrain; (4) allows expropriation of U.S. investments by Bahrain only in accordance with customary international law; and (5) allows U.S. investors to bring disputes with the Bahraini government to binding international arbitration, among other provisions.

Given the comprehensive nature of the BIT and the fact that it was concluded so recently, the Agreement contains no investment chapter. However, certain provisions of Chapter Ten (Cross-Border Trade in Services) extend additional benefits to investors and investments that are covered under the BIT. Chapter Eleven (Financial Services) provides supplementary obligations regarding the treatment of financial institutions.

4. Intellectual Property Rights

The FTA clarifies and builds on existing international standards for the protection and enforcement of intellectual property rights, with an emphasis on new and emerging technologies. The Agreement ensures that Bahrain will provide a high level of IPR protection, similar to that provided under U.S. law. Key provisions of the Agreement, such as those on preventing circumvention of anti-piracy devices and establishing the scope of liability for copying works on the Internet, are modeled on U.S. statutes.

The Agreement includes state-of-the-art protection for trademarks and copyrights as well as expanded protection for patents and undisclosed information.

The FTA requires Bahrain to accede to certain international Internet treaties and to extend its term of protection for copyrighted works. Under the FTA, Bahrain will ensure that copyright owners maintain rights to temporary copies of their works, which is vital for protecting copyrighted music, videos, software, and text from widespread unauthorized sharing over the Internet. The FTA requires Bahrain to direct its agencies to use only legitimate computer software, thus setting a positive example for private users. To prevent piracy of satellite television broadcasts, the Agreement will also require Bahrain to protect encrypted satellite signals as well as the programming those signals carry.

The FTA commits Bahrain to make patent rights available, with certain exceptions, for inventions and provides for the extension of patent terms in the event of unreasonable delays in issuing patents or granting regulatory approval for marketing patented products. The FTA will also require Bahrain to protect test data and other information that pharmaceutical and

agricultural chemical companies submit to government regulators in order to secure regulatory approval for their patented products. Under the Agreement, Bahrain will protect information generated in connection with pharmaceutical and agricultural chemical product approvals for five and 10 years, respectively.

These standards are made more meaningful through requirements for tough enforcement measures and remedies to combat piracy and counterfeiting, including procedures in civil cases for seizure and destruction of pirated and counterfeit products, and the equipment used to produce these products. The FTA also commits Bahrain to ensure that its criminal law enforcement authorities are empowered to seize, forfeit, and destroy counterfeit and pirated goods and, at least with respect to pirated goods, the equipment used to produce them.

5. Transparency

The Agreement recognizes that without a high standard of regulatory transparency, the benefits of market-opening trade commitments can be lost through arbitrary or unfair government regulations. Accordingly, the FTA includes provisions that will ensure that Bahrain observes fundamental transparency principles. Those provisions are set out in a specific Chapter of the Agreement dealing with regulatory transparency as well as in provisions of the Agreement addressing cross-border trade in services, financial services, government procurement, customs administration, telecommunications, TBT, and dispute settlement. The Agreement's principal transparency rules are based on U.S. practice under the Administrative Procedures Act.

Increased transparency is an effective tool in addressing government corruption in international trade. The FTA contains innovative provisions on combating bribery and corruption. Under the Agreement, each country must adopt or maintain prohibitions on bribery in matters affecting international trade and investment, including bribery of foreign officials, and establish criminal penalties for such offenses. In addition, both countries will strive to adopt appropriate measures to protect those who, in good faith, report acts of bribery. The Parties also will work jointly to encourage and support appropriate regional and multilateral initiatives.

6. Regulatory Practices

The FTA addresses regulatory issues directly linked to the Agreement's market-opening provisions. This includes specific provisions in almost all Chapters, including those on telecommunications, cross-border trade in services, government procurement, TBT, SPS, and customs administration. In addition, the Agreement includes commitments on transparency, rights of appeal of administrative decisions, and access to information.

7. Electronic Commerce

Under the FTA, the Parties must apply the principles of national treatment and MFN treatment to trade in electronically transmitted digital products (*e.g.*, computer programs, video,

images, and sound recordings). The FTA includes rules prohibiting duties on electronically transmitted digital products and limiting duties on digital products stored on a carrier medium to a duty based on the value of the carrier medium alone. In so doing, the Agreement creates a strong foundation for wider efforts to bar duties and discriminatory treatment of digital products.

8. Trade in Agricultural Products

The FTA includes several provisions designed to eliminate barriers to trade in agricultural products, while providing reasonable adjustment periods, TRQs, and other mechanisms for producers of import-sensitive agricultural goods. Under the Agreement, which covers all agricultural products, Bahrain will provide immediate duty-free access for U.S. exports in 98 percent of agricultural tariff lines, and will phase out its remaining tariffs within 10 years.

In addition, each Party will eliminate export subsidies on agricultural goods destined for the other country. If a third country subsidizes exports to a Party, the other Party may initiate consultations with the importing Party to develop measures the importing Party may adopt to counteract such subsidies. If the importing Party agrees to such measures, the exporting Party must refrain from applying export subsidies to its exports of the good to the importing Party.

9. Labor Rights and Environmental Protection

Under the Agreement, Bahrain and the United States reaffirm their obligations as members of the ILO and will strive to ensure that their laws provide for labor standards that are consistent with internationally recognized labor rights, as set forth in the Agreement. The Agreement makes clear that it is inappropriate for a Party to waive or derogate from domestic labor laws in a manner that weakens or reduces adherence to internationally recognized labor rights as an encouragement for trade with the other Party or investment in its territory by investors of the other Party. A key element of the Agreement's labor provisions, which is enforceable through the Agreement's dispute settlement procedure, is a commitment by each country not to fail to effectively enforce its labor laws. The FTA defines labor laws specifically to include those related to the prohibition and elimination of the worst forms of child labor. The Agreement also commits Bahrain and the United States to cooperate on labor issues, in part through the Labor Cooperation Mechanism described in an annex to the labor chapter.

Environmental commitments are also included in the core text of the FTA. As is the case for labor rights, a key component of the FTA's environmental provisions is an enforceable commitment by each country that it will not fail to effectively enforce its domestic environmental laws through a sustained or recurring course of action or inaction in a manner affecting bilateral trade. The Agreement also commits Bahrain and the United States to ensure that their domestic laws and policies provide for high levels of environmental protection and to strive to continue to improve these laws and policies. Through the Agreement, Bahrain and the United States expressly recognize that it is inappropriate to waive or derogate from their environmental laws in

a manner that weakens or reduces protections under those laws in order to seek investment or encourage trade with the other country. The Agreement also commits Bahrain and the United States to cooperate on environment issues, in part pursuant to a United States-Bahrain Memorandum of Understanding on Environmental Cooperation.

10. Dispute Settlement

The FTA includes innovative procedures for settling disputes that may arise between the Parties over its implementation. The Agreement's dispute settlement procedures rely principally on consultations and compliance rather than on imposition of trade sanctions or penalties. The procedures set high standards of openness and transparency. The FTA calls for dispute settlement proceedings to be open to the public, for the two countries to release their legal briefs and other filings to the public, and for dispute settlement panels to have the authority to receive submissions from interested non-governmental groups.

The FTA's dispute settlement rules also provide that where a Party is found to be in violation of an obligation under the Agreement, the remedies available to the other Party will be equivalent for disputes involving commercial matters, on the one hand, and disputes involving labor or environmental matters, on the other. The FTA achieves this result through an enforcement mechanism that provides for the use of monetary assessments. That mechanism allows the prevailing Party to suspend tariff benefits under the Agreement if the losing Party fails to pay such an assessment, while bearing in mind the Agreement's objective of eliminating barriers to bilateral trade and while seeking to avoid unduly affecting parties or interests not party to the dispute.

Finally, dispute settlement is available under the Agreement for labor or environmental disputes relating to the Parties' obligations not to fail to effective enforce their labor or environmental laws. If a panel determines that a Party has failed to effectively enforce its labor or environmental laws and the Parties cannot agree on how to resolve the dispute, or the complaining Party believes that the defending Party has failed to implement an agreed resolution, the complaining Party may ask the panel to determine the amount of an annual monetary assessment to be imposed on the defending Party. The Panel will establish the amount of the assessment, subject to a $15 million annual cap, taking into account relevant trade- and non-trade-related factors. The assessment will be paid into a fund for appropriate labor or environmental initiatives in the territory of the defending Party. If the defending Party fails to pay an assessment, the complaining Party may take other appropriate steps, which may include suspending tariff benefits, as necessary, to collect the assessment, again while bearing in mind the Agreement's objective of eliminating barriers to bilateral trade and while seeking to avoid unduly affecting parties or interests not party to the dispute.

11. Trade Remedies

The FTA does not address antidumping or countervailing duty issues. Thus, the Agreement does not affect U.S. rights and obligations regarding these trade remedies as they currently exist under the WTO.

The Agreement includes a bilateral safeguard procedure, similar to the procedures in past U.S. free trade agreements, which will be available to aid domestic industries that sustain or are threatened with serious injury due to increased imports resulting from the phase-out of U.S. import duties under the Agreement. The Agreement also includes a special safeguard to address the possibility that duty elimination under the Agreement could result in damaging levels of textile or apparel imports. The FTA does not affect U.S. rights to take safeguard actions under sections 201 to 201 of the Trade Act of 1974, which implement the WTO Safeguards Agreement and General Agreement on Tariffs and Trade (GATT) 1994.

D. PRIORITIES FOR MAINTAINING GLOBAL COMPETITIVENESS

The TPA Act also calls for the President to promote certain priorities to address and maintain U.S. competitiveness in the global economy. The Agreement makes progress in promoting each of these priorities.

1. Labor Cooperation

The United States and Bahrain are both members of the ILO and have a longstanding cooperative relationship on labor issues. During the negotiations, government labor experts from the two countries consulted on U.S. and Bahraini labor laws and how their respective systems operate. The two Parties will continue to consult and work together to promote respect for the principles embodied in the ILO *Declaration on Fundamental Principles and Rights at Work and its Follow-up* and compliance with ILO *Convention 182 Concerning the Prohibition and Immediate Action for the Elimination of the Worst Forms of Child Labour*. Officials of the U.S. Department of Labor and Bahrain's Ministry of Labor and Social Affairs and other appropriate agencies will participate in these consultations and future cooperation.

2. Domestic Policy Objectives

The FTA fully takes into account critical U.S. domestic policy objectives, such as the need to maintain flexibility in addressing U.S. national security and public health, safety, and consumer interests. The FTA includes a broad set of general policy exceptions for measures governing trade in both goods and services to ensure that the United States remains fully free to safeguard the national and public interest, including specific exceptions for national security, public health and morals, conservation, taxation, and protection of confidential information. The Agreement also avoids disturbing existing state and local governmental measures that might run

counter to the Agreement's services rules by including "grandfather" clauses that exempt those measures from challenge under the Agreement.

3. Multilateral Environmental Agreements and GATT Article XX

As noted in the Administration's environmental review of the FTA, the environment and sustainable development are important concerns for both the United States and Bahrain. The FTA expressly recognizes the importance of multilateral environmental agreements ("MEAs"), including appropriate use of trade measures in such agreements to achieve specific environmental goals. The FTA commits the United States and Bahrain to consult regularly with respect to the ongoing negotiations in the WTO concerning the relationship between MEAs and WTO rules. In addition, the two countries will cooperate in promoting effective implementation of MEAs to which they are both parties.

4. Currency and Exchange Rate Manipulation

Section 2102(c)(12) of the TPA Act states that "[i]n order to address and maintain United States competitiveness in the global economy, the President shall ... seek to establish consultative mechanisms among parties to trade agreements to examine the trade consequences of significant and unanticipated currency movements and to scrutinize whether a foreign government engaged in a pattern of manipulating its currency to promote a competitive advantage in international trade."

The Cross-Border Trade in Services and Financial Services Chapters of the Agreement, along with the BIT, promote and protect the freer international movement of capital and consequently make it more difficult to manipulate exchange rates to achieve levels inconsistent with levels set by market forces.

The currency movements mentioned in section 2102(c)(12) can arise from many conditions, particularly from macroeconomic developments, macroeconomic policy changes or the appearance of new information on fundamental economic conditions. The determination of whether any such movement reflects currency manipulation to promote a competitive advantage in international trade must therefore take into account a broad range of issues, institutions and market developments which will require a review mechanism with a larger scope than any specific trade agreement.

The Secretary of the Treasury is required, under the Omnibus Trade and Competitiveness Act of 1988, to analyze on an annual basis the exchange rate policies of foreign countries, in consultation with the International Monetary Fund ("IMF"), and to consider whether countries manipulate the rate of exchange between their currency and the United States dollar for purposes of preventing effective balance of payments adjustments or gaining an unfair competitive advantage in international trade. Each member of the IMF is obligated, under Article IV of the IMF Articles of Agreement, to avoid manipulation of exchange rates for such purposes.

The Department of the Treasury will ensure that currency movements mentioned in Section 2102(c)(12) are examined in its analysis of exchange rate policies of foreign countries and in consultations with the IMF concerning these policies. The Department of the Treasury will seek to resolve problems of currencies that are considered to be manipulated in the sense of 2102(c)(12) through discussions with the foreign authorities responsible for foreign exchange rate policies.

5. Reporting Requirements

As required under the TPA Act, the Administration has provided a report to the Congress describing Bahrain's laws governing exploitative child labor. In addition, the Administration has reported to the appropriate Congressional committees as required under the TPA Act on: (1) the Administration's environmental review of the Agreement; and (2) its review of the FTA's impact on U.S. employment. The Administration has also provided a meaningful labor rights report on Bahrain, which will be made available to the public. Finally, the Administration has reported, as specified in the TPA Act, on U.S. efforts to establish consultative mechanisms to strengthen Bahrain's capacity to promote respect for core labor standards and to develop and implement standards for the protection of human health based on sound science.

Tab 5: Statement Setting Forth the Reasons of the President Regarding How the Agreement Serves the Interest of U.S. Commerce

STATEMENT OF WHY THE UNITED STATES – BAHRAIN FREE TRADE AGREEMENT IS IN THE INTEREST OF U.S. COMMERCE

INTRODUCTION

President Bush announced the U.S. Government's intention to negotiate a comprehensive free trade agreement ("FTA" or "Agreement") with Bahrain on May 21, 2003. Negotiations for the Agreement began in January 2004, and were completed on May 27, 2004. The Agreement is clearly in the interest of U.S. commerce, as it is groundbreaking in terms of the market access guarantees it secures for trade in both goods and services. Specifically, immediately upon entry into force of the Agreement, 100 percent of bilateral trade in consumer and industrial goods will become duty-free. Bahrain also will provide immediate duty-free access for U.S. agricultural exports in 98 percent of agricultural tariff lines. Additionally, Bahrain has agreed to grant U.S. service providers substantially increased access to its services sectors.

Benefits of the Agreement include:

-Tariff Elimination: One hundred percent of bilateral trade in consumer and industrial products will become duty-free immediately upon entry into force of the Agreement. Bahrain will provide immediate duty-free access for virtually all products in its tariff schedule and will phase out tariffs on the remaining products within 10 years.

-Services Sector Openings: Bahrain will accord substantial market access across its entire services regime, providing among the highest degree of market access of any U.S. free trade agreement negotiated to date.

-Agricultural Market Access: Bahrain will provide immediate duty-free access for U.S. exports in 98 percent of agricultural tariff lines. Tariffs on the remaining products (alcohol and tobacco) will be reduced to zero within 10 years.

-Enhanced Intellectual Property Rights Protection: Bahrain will provide strong protection and enforcement for copyright, patent, and trademark owners and provide intellectual property protection in the digital environment, addressing electronic media and Internet service providers.

-Transparency Measures: Under the Agreement, Bahrain must publish its laws and regulations governing trade. It has also committed, to the extent possible, to publish proposed regulations in advance and provide an opportunity for public comment prior to implementation. Bahrain must also prohibit bribery, including bribery of foreign officials, and establish appropriate criminal penalties to punish violators.

-Customs Cooperation: The Agreement requires Bahrain to take measures that will increase transparency and efficiency in customs administration, including publication of laws and regulations on the Internet and procedural certainty and fairness.

WHY BAHRAIN?

The U.S. private sector supports the Agreement because it levels the playing field, granting U.S. suppliers market access equivalent to that enjoyed by regional Gulf Cooperation Council ("GCC") competitors, and expands access to Bahrain's market for U.S. goods and service providers. The Agreement bolsters economic reforms currently underway in Bahrain and is a further step in achieving President Bush's goal of a broader United States-Middle East Free Trade Agreement ("MEFTA") by 2013. While Bahrain is a relatively small market for U.S. goods and services due to its small population, it is ideally located to serve as a platform from which to enter other markets in the region.

Leveling the Playing Field: Bahrain is a founding member of the GCC (1981) and is part of the GCC Customs Union that was implemented on January 1, 2003. Customs Union members are given preferential, duty-free tariff treatment, while non-GCC countries are subjected to an average tariff of five percent. The United States is currently the second largest source of Bahraini imports behind Saudi Arabia, and the Agreement has the potential to make U.S. goods more competitive with respect to those from Saudi Arabia and other countries in the region due to tariff reductions and enhanced market access.

The Agreement will promote job growth in the United States, workers' rights, and environmental protection. Additionally, Bahrain currently gives GCC countries preferential treatment in establishing services firms, including financial institutions. The Agreement provides for national treatment, granting U.S. firms the right to establish services operations and financial institutions as if they were Bahraini firms, thus bypassing a significant regulatory hurdle.

Economic Reforms: Bahrain is a regional leader in economic reform. In 2003, the Heritage Foundation ranked Bahrain as the world's 16th freest economy – the highest rating in the Arab world. The Agreement is the most recent and important step in Bahrain's efforts to reform its economy, create jobs, and move away from dependence on revenues generated from oil exports.

Bahrain has implemented new regulations making its business environment more attractive to international investors. Foreigners can buy property, enjoy full ownership of their businesses, and remain exempt from both personal and corporate income tax. There are no controls on foreign exchange and investors can repatriate capital, profit, and dividends. The Agreement will reinforce and extend Bahrain's already strong protections for intellectual property rights, modern customs procedures, and the ease with which companies can establish regional operations in Bahrain.

Middle East Free Trade Area: Bahrain is the Arabian Peninsula pillar in a MEFTA, as announced by President Bush in May 2003. MEFTA reflects the Administration's long-term commitment to promoting economic growth, expanding opportunities, and ensuring stability in the region. The region-wide free trade agreement, to be completed by 2013, will provide new export opportunities to U.S. farmers, ranchers, and manufacturers.

Jordan and Israel are already free trade agreement partners, and the Congress approved a free trade agreement with Morocco on July 22, 2004. The President signed the legislation approving and implementing that free trade agreement on August 17, 2004.

LEADING SECTORS FOR U.S. EXPORTS OF NON-TEXTILE INDUSTRIAL GOODS

Tariff Elimination: One hundred percent of bilateral trade in consumer and industrial products will become duty-free immediately upon entry into force of the Agreement. Bahrain will provide immediate duty-free access for virtually all other products as well, and will phase out tariffs on the remaining products within 10 years.

Motor Vehicles and Vehicle Parts

The market for American passenger cars continues to grow in Bahrain. Bahrainis value U.S. cars for their safety, comfort, interior design, and size to accommodate large families. According to the Bahraini General Directorate of Traffic, 251,000 vehicles were registered in Bahrain in 2002; this figure is growing an average rate of 5.3 percent a year. Bahrain currently maintains a five percent tariff on U.S. automobiles, but this tariff will be reduced to zero upon entry into force of the Agreement. This could make American automobiles even more competitive in the Bahraini market.

Asian and Saudi price competition has led U.S. auto parts and accessories producers to focus on certain niche markets for parts and accessories such as brake pads, oil filters, wax, and lubricants, where American products are preferred for their high quality. As with autos, tariffs are currently five percent on these products, but will be reduced to zero upon entry into force of the Agreement. This could make American auto parts and accessories more competitive in the Bahraini market.

Machinery

One of Bahrain's leading imports is machinery. The Kingdom imported approximately $100 million of U.S. manufactured equipment over the last five years. The Agreement eliminates the current five percent tariff on U.S. manufactured equipment and could result in an advantage for U.S. firms over their export competitors in Europe and Asia, who also service the Bahraini market.

Medical Equipment

Bahrain has long depended on U.S. suppliers for medical equipment. Germany, Britain, and Japan are the United States' prime competitors. Bahrain announced in June 2003 that $469 million (or 7.7 percent) of the recently approved 2003-2004 budget will be allocated for health services. Bahrain is encouraging the private sector to enter the health care market and thus share the cost of services in this vital area. It is also drawing up plans to attract international hospitals in a move to promote health tourism in the country. A $45 million private hospital, Bahrain Specialist Hospital, opened in September 2002.

The largest hospital in Bahrain, the state-run Sulmaniya Medical Complex, spent $3.5 million for replacement of medical equipment in 2002. U.S. firms may be able to capitalize on supplying equipment to this sector in the future.

The current tariff on U.S. medical equipment is five percent, but this will be reduced to zero when the Agreement takes effect. This could make U.S. medical equipment exports to Bahrain more competitive than those from Europe and Asia.

Air Conditioning and Refrigeration Equipment

Bahrain's climate requires air conditioning most of the year, due to high temperatures and high humidity. The market for air conditioning and refrigeration equipment is strong, rising from $37 million in 2001 to $41 million in 2002. Leading American brands, highly regarded for their reliability, have traditionally done well in Bahrain. The Embassy estimates that U.S. sales in this sector could increase by as much as 30 to 35 percent due to the recent construction boom in Bahrain, as well as the benefits of the FTA.

Average tariffs on U.S. consumer goods, which include air conditioning and refrigeration equipment, are 4.6 percent. These tariffs will be reduced to zero upon entry into force of the Agreement, which could make U.S. exports more competitive in this sector.

Agricultural Products

U.S. agricultural exports to Bahrain in recent years have ranged from a high of $30 million per year in 2001 to $14 million in 2003. Major exports have included cotton, beef, chicken, snack foods, and other consumer products to serve the tourist industry. Under the Agreement, which covers all agricultural products, Bahrain will provide immediate duty-free access in 98 percent of U.S. agricultural tariff lines. Bahrain's current average bound tariff on agricultural products is 39.9 percent, and the average applied tariff is 3.8 percent. Tariffs on the remaining products (alcohol and tobacco) will be reduced to zero within 10 years.

Although the United States currently enjoys zero tariffs on many products (including beef, wheat, corn, rice, as well as many fruits and vegetables), the Agreement could make other U.S. agricultural products extremely competitive in Bahrain. Growing sectors for exports of U.S. agricultural products to Bahrain include: poultry; meat; dairy products, particularly cheese; snack foods; processed fruits and vegetables; seafood; fruit and vegetable juices; breakfast cereals; beverage bases; and planting seeds. Tariffs on all of these categories of agriculture products will be reduced to zero upon entry into force of the Agreement.

LEADING SECTORS FOR U.S. SERVICE PROVIDERS

Overall, the Agreement is highly beneficial to U.S. service providers. As Bahrain's economy grows, so too will the demand for services in areas such as finance,

telecommunications, architecture, construction, computer services, energy, and others. Bahrain currently has a local presence requirement for non-GCC service providers in most sectors. The Agreement requires this restriction to be phased out within seven years for U.S. service providers (see Annex I of the Agreement for more detail and a list of affected sectors). In the meantime, when the Agreement enters into force, U.S. service providers who are licensed and authorized in the United States to supply services can obtain immediate market access by obtaining renewable, temporary operating licenses from the Bahraini Government. These licenses allow U.S. service providers to bypass local presence requirements until the phase-out of the license requirement is completed.

Financial Services

The Bahraini Financial Services Market: For the past 20 years, Bahrain has served as the principal financial center for the Gulf region, much of the Arab world, and beyond. Financial services now account for upwards of 20 percent of Bahrain's GNP; the country's consolidated balance sheet reported roughly $70 billion in 2003. Bahrain is the fastest growing banking and financial center in the Middle East. While the bilateral investment treaty ("BIT") between the United States and Bahrain ensures U.S. investments national and most-favored-nation ("MFN") treatment in Bahrain's financial services sector, U.S. financial service providers will benefit from the additional market access guarantees provided for in the Agreement. The Agreement locks in U.S. financial institutions' access to the already open financial services sector in Bahrain by guaranteeing their ability to establish institutions on a national treatment basis and compete on an even playing field with domestic and regional counterparts. The financial services transparency provisions ensure that applications from U.S. institutions for new licenses will be decided within 120 days and that those U.S. institutions will be granted the ability to review and comment on proposed financial regulations before they are implemented.

Bahrain's attractiveness as a financial center is based on its established offshore facilities, free foreign exchange movement, tax-free status, stable Bahraini Dinar-USD foreign exchange rate, growing insurance sector, modern telecommunications systems, and prime geographical location among the GCC countries.

Banking and other Financial Services (excluding Insurance): As of March 2003, Bahrain's financial institutions included 23 full commercial banks, three specialized banks, 51 offshore banking units, 36 investment banks, 29 representative offices, 18 investment advisory and other financial services, 17 money changers, and four money brokers.

The Government of Bahrain has identified Islamic banking as one of the main economic growth areas in the coming five years. Islamic banking has similar principles to conventional banks, with the exception that they must conform to Sharia, or Islamic law. Bahrain has 26 Islamic banks, six insurance companies, and 37 mutual funds. Bahrain's claim to be the global hub of Islamic banking is supported by the number of governing institutions it has helped develop and locate in country.

Upon entry into force of the Agreement, the informal moratorium on onshore bank licensing will not be applied to U.S. institutions. The self-regulatory organization provision ensures that national and MFN treatment will be given to U.S. broker/dealers by the Bahrain Stock Exchange ("BSE") within two years after entry into force of the Agreement.

Insurance: The Bahrain Monetary Agency ("BMA"), which has regulatory responsibility for the insurance sector, has been actively upgrading the regulatory framework to develop the country as a regional insurance center. Bahrain's underdeveloped insurance market holds significant profit potential for U.S. investors. Only 150 companies were registered by the BMA's Directorate of Insurance in 2003.

The current moratorium on the issuance of new licenses in the insurance sector will be lifted immediately for U.S. companies in the area of life and medical insurance. The moratorium will be lifted in the non-life insurance market six months after entry into force of the Agreement.

Cross-Border Supply of Insurance and Insurance-Related Services: The Agreement provides that U.S. firms will be able to supply reinsurance, reinsurance brokerage, goods in international transit, consultancy, actuarial, claims settlement and risk assessment services immediately upon entry into force of the Agreement without establishing a commercial presence in Bahrain. One year after entry into force of the Agreement, U.S. firms will be able to supply marine, aviation, and transportation insurance and the brokerage thereof without establishing a commercial presence in Bahrain. These areas are currently closed to U.S. service providers that do not meet the local presence requirement.

Access to these sectors will provide U.S. firms with a significant advantage over their non-U.S. competitors, particularly in the area of maritime, aviation, transportation and goods in international transit, where currently Bahraini law requires that these risks be insured on the Bahraini market.

Potential areas of benefit to U.S. insurance service providers include:

Automobile Insurance: Compulsory automobile insurance and the growing number of motor vehicles in Bahrain are accelerating growth of the industry, contributing more than two-fifths of the insurance industry's total net profits. Under the FTA, U.S. insurance providers will be allowed to participate in this previously restricted market six months after entry into force of the Agreement.

Health Insurance: In February 2002, the Ministry of Health announced a plan to make medical insurance mandatory for all Bahraini residents. If enacted, this could provide potential for growth in this sector. Under the FTA, U.S. insurance providers will be allowed to participate in this previously restricted and growing market immediately upon entry into force of the Agreement.

Life Insurance: Demand for life insurance in Bahrain is rising. According to a Bahrain Ministry of Commerce study, Bahrainis spend more on life insurance than other GCC nationals. Under the FTA, U.S. insurance providers will be allowed to participate in this previously restricted and growing market immediately upon entry into force of the Agreement.

Power and Water

U.S. firms may be able to contribute to the needs of Bahrain's growing power and water sectors. Available freshwater in Bahrain meets current demand, but with virtually no excess capacity. Bahrain has built an extensive power and desalination network, but capacity is limited and constrains short-term industrial growth. Bahrain is seriously considering the privatization of its power and water facilities. Demand for power in Bahrain has been growing at approximately eight percent per year, requiring investment in new power facilities every two to three years.

Bahrain is moving forward on the construction of a completely new power and water generating facility in Hidd. It is expected that the facility will be privately financed and managed, with the Government of Bahrain retaining control of distribution. The plan also calls for the construction of a privately managed 1000 mega-watt power facility known as Al-Azel in Hidd. Power production and management will be handled by a private company, while the government, as in the case of water, will maintain control of distribution.

The FTA may create commercial opportunities for U.S. service providers in the following sectors: consulting, construction, management, logistics, and support. The Agreement eliminates local presence requirements on consultancy and management services within three years and on construction and construction related services within seven years.

These market access benefits would put U.S. firms on a level playing field with GCC competitors and give them a competitive advantage over other foreign service suppliers. The Ministry of Electricity and Water's program to upgrade Bahrain's desalination and effluent treatment infrastructure may also provide potential business opportunities for U.S. companies in these sectors. In addition, the water and power industries require large capital goods inputs. The Agreement provides that tariffs on U.S. goods in these categories will be reduced to zero upon entry into force of the Agreement.

Downstream Aluminum Services

Aluminum Bahrain ("ALBA") is currently expanding its operations in a $1.7 billion project that will result in the second largest smelter in the world after one in Bratsk, Russia. In January 2003, ALBA formally appointed a large U.S. firm as its engineering, procurement, construction and management contractor for the smelter portion of this project. Under this contract, this firm will manage the various contracts and procurements to meet the program and budget targets.

The Agreement eliminates local presence requirements for U.S. firms on sectors related to the aluminum industry such as consultancy and management services within three years, and on construction and construction related services, architectural, and engineering services within seven years. These market access benefits would put U.S. services firms on a level playing field with GCC competitors and at a competitive advantage with respect to other foreign service suppliers. In addition, U.S. firms could supply capital equipment to these projects more cost effectively than competitors, as tariffs on these goods will be reduced to zero upon entry into force of the Agreement.

Telecommunications

Bahrain's telecommunications infrastructure is the most advanced in the region and serves as the impetus for the growth of the Kingdom's information technology ("IT") sector. Bahrain is well positioned geographically to be a gateway between the global IT hubs in Japan and India. As a result of the market access guarantees provided for in the FTA, U.S. firms may be able to take advantage of significant growth that is occurring in the use of mobile phones and the Internet through sales of hardware and providing services.

Bahrain has experienced significant growth in the following sectors, all of which could be of potential interest to U.S firms:

Telecommunications Services: Bahrain has recently opened up its telecommunications sector to competition, and new licenses for a variety of telecom services, including national and international network services, data and Internet services, are expected to be issued later this year. Bahrain allows 100 percent foreign ownership in its telecommunications sector and charges only nominal license fees for the provision of telecommunications services. The number of fixed-line telephones in the country has increased only slightly in recent years and totals 176,000, giving Bahrain a tele-density of 26 percent. In 2003, the number of mobile phone users in Bahrain reached 450,000, up from 389,000 in 2002. Thus, two-thirds of Bahrain's 660,000 people are mobile phone users, the highest level of penetration in the Middle East. The country's impressive per capita GDP rates suggest that prospects are favorable for growth in the broadband access and mobile data markets.

Internet: Use of the Internet in Bahrain has skyrocketed; the number of users now exceeds 200,000. Personal Internet users account for 70 percent and business users make

up 30 percent of the total Internet market. Additional Internet Service Provider ("ISP") licenses are available from the telecommunications regulatory authority.

Information and Computer Technologies: As noted, for the past 20 years, Bahrain has served as the principal financial center of the Persian Gulf and much of the Arab world. The financial services sector is highly computer and technology dependent. In addition, both e-commerce and e-government are increasingly accepted as important tools of effective business strategy and good governance. On September 14, 2002, Bahrain implemented an Electronic Transactions Law, which recognizes the validity of electronic records and signatures.

Tariffs on computers entering Bahrain are currently zero due to Bahrain's commitments under the Information Technology Agreement of the World Trade Organization ("WTO"). However, U.S. computer exports to Bahrain could increase after entry into force of the Agreement as a result of demand for U.S. services in related areas covered in the Agreement, such as e-commerce and financial services. Investment opportunities for U.S. companies in Bahrain's IT sector include consulting, logistics, telecommunications services, electronic commerce, and ISPs. The Agreement provides market access in these sectors on a national treatment basis that was previously unavailable. Bahrain is also an ideal location for high-tech component manufacturing and assembly given the allowance for total foreign ownership of enterprises and the absence of corporate taxes.

Oil and Gas

A non-OPEC member, Bahrain is not a major oil producer or exporter. However, Bahrain's location makes it practical as a regional marketing and support center; the oil-rich Eastern Province of Saudi Arabia is only 25 kilometers away, and other Gulf States are easily reached by sea and air. Despite their limited quantity, Bahrain's oil and gas reserves still play a major role in generating state revenue (roughly 60 percent) and account for about two-thirds of all exports.

U.S. companies are currently in the process of exploring for additional oil deposits off the Bahraini coast, and Bahrain and Qatar signed a preliminary accord to supply Bahrain with Qatar's natural gas through a pipeline. The Agreement provides market access guarantees that may make business in the oil and gas sectors more lucrative for U.S. goods and services suppliers.

The Agreement eliminates local presence requirements for U.S. firms in sectors related to the oil and gas industry, such as consultancy and management services within three years, and on construction and construction related services, architectural, and engineering services within seven years. These market access benefits could put U.S. service providers on a level playing field with GCC competitors and at a competitive advantage with regards to foreign service suppliers. In addition, U.S. firms could supply capital equipment more cost effectively than competitors, as tariffs on these goods will be reduced to zero upon entry into force of the Agreement.

Health Care

As mentioned previously, Bahrain announced in June 2003 that $469 million, or 7.7 percent, of the recently approved 2003-2004 budget would be allocated for health services. Bahrain recognizes that it must take action to address the increased demand for health care services and is seeking alternative financing through private sector investment in health care services, including joint ventures.

The Agreement could make U.S. health care providers extremely competitive in this high growth area. There are currently no local presence requirements for U.S. service providers or unreasonable barriers to entry in this sector. As mentioned previously, tariffs on U.S. medical equipment entering Bahrain will be zero upon entry into force of the Agreement. Zero tariffs coupled with no local presence requirement could make U.S. medical service providers more competitive than their rivals from Europe and Asia.

Education

Bahrain was the first country in the Gulf to establish a system of formal education. According to the United Nations' Human Development Report 2002, Bahrain is the most advanced Arab state with the highest literacy rate in the region at 87.6 percent, compared to the overall the GCC rate of 84.3 percent. State spending on education represents 14.4 percent of entire state expenditures for 2003-2004, and the Ministry of Education accounts for 35 percent of those employed by the government.

Bahrain is home to well-established universities and training institutes and is promoting the country as a regional education and training hub. Growth has been considerable in recent years in this sector. For example, four new private universities have opened since late 2002, and a new university for women opened in the fall of 2004.

Through market access guarantees provided for in the Agreement, U.S. education service providers could take advantage of Bahrain's efforts to further develop the country's already advanced education sector. There are currently no local presence requirements on U.S. service providers of education. However, tariffs on all goods, including educational equipment and materials, will be reduced to zero upon entry into force of the Agreement. Zero tariffs coupled with no local presence requirement could make U.S. education service providers more competitive in Bahrain than others trying to compete in this sector.

Architecture, Engineering & Construction

Market access guarantees in the Agreement provide potential opportunities for U.S. architecture, engineering, and construction firms. Construction projects are part of a push by Bahrain to create new, non-oil-based industries, such as banking and leisure. In early 2002, Bahrain approved a strategic budget of $1.17 billion for development of a number of special infrastructure projects over a four-year period, including a new port and

industrial area in Hidd ($464 million) and new housing ($273 million). Upcoming private sector design and engineering building projects of potential interest include: a $1 billion office/residential project on reclaimed land next to the Manama Port; the $1 billion Amwaj Islands residential project; and the $800 million Durrat Al Bahrain residential complex, set on 20 square kilometers of artificial islands.

The Agreement eliminates local presence requirements for U.S. firms in the consultancy and management services within three years, and on construction and construction related services, architectural, and engineering services within seven years. In addition, tariffs on all goods, including construction related equipment and materials will be reduced to zero upon entry into force of the Agreement. This could make U.S. construction products highly competitive in the Bahraini market. Following is a list of major infrastructure projects being undertaken by Bahrain that U.S. firms could take advantage of by providing goods and services:

Airport: Bahrain International Airport, with a new terminal and boasting more than 35 airlines, is considered a gateway to the region. In 2002, it handled more than 4.2 million passengers, in addition to over 160,000 tons of cargo. Several major infrastructure projects are being planned to expand airport services, with a total budget of $211 million, including a multi-story car park ($115 million) and satellite buildings ($53 million).

Ports: The major seaport of Mina Salman can accommodate vessels up to 65,000 tons, and has a container capacity of 150,000 twenty-foot equivalent units ("TEUs") per year. Although the port is adequate for current volumes of sea-borne freight, Bahrain is starting construction of a new super-port (Khalifa port) at a cost of approximately $350 million. The new port is to have a capacity of 234,000 TEUs per year and will include 1,800 meters of quay with minimum 15 meters draught designed for containers, general cargo, dry bulk and roll-on-roll-off traffic.

Road network: Bahrain has a well-developed road network. Well-lit, multi-lane highways cover the country and the 25-kilometer Bahrain-Saudi Causeway, which opened in November 1986, has created many new commercial opportunities. New construction has begun on a network of futuristic superhighways with a series of flyovers to eliminate bottlenecks on key routes.

Bahrain Financial Harbor: Through the Bahrain Financial Harbor Holding Company, Bahrain is constructing a $1 billion, 470,000 square meter financial center on the Manama Corniche. The project consists of 23 separate development parcels and will house the Bahrain Stock Exchange, brokerage and trading firms, and financial services firms. Service providers will be needed in numerous areas when the financial center is fully operational.

Accounting

Bahrain's vast financial services sector is expected to continue to grow, and with it demand for accounting services. The Agreement eliminates local presence requirements

for U.S. firms in the accounting, financial auditing, and bookkeeping service sectors within seven years.

INVESTMENT

The U.S.-Bahrain Bilateral Investment Treaty: In coordination with ITAC 10 (Services and Financial Industries), and due to the existence of a successful BIT, the United States will rely on the BIT to manage the U.S.- Bahrain investment relationship rather than negotiating an investment chapter as part of the Agreement. ITAC 10 reported, "That agreement (BIT) is a high standard investment agreement which provides key market access commitments and investment protections such as national treatment, expropriation, fair and equitable treatment, full protection and security, transfer of capital, no performance requirements, and investment agreements. All are subject to dispute settlement."

U.S. Direct Investment: U.S. direct investment to Bahrain has increased significantly in recent years, reflecting both growing investor confidence in the country and sustained economic growth. While there was a net outflow of $37 million in U.S. direct investment from Bahrain in 1999, U.S. direct investment to Bahrain increased immediately the next year to $39 million and has increased each year reaching a total of $196 million in 2003.

Portfolio Investment: The BIT ensures that beginning on January 1, 2005, U.S. investors may participate, through their covered investments in Bahrain, in the purchase of shares listed on the BSE on national treatment basis, as well as an MFN basis (*i.e.*, on the same basis as GCC countries).

GOVERNMENT PROCUREMENT

The Agreement provides U.S. firms with non-discriminatory market access to covered government procurement opportunities in Bahrain. Bahrain has agreed to make 30 central government entities, as well as 17 major state-owned enterprises, subject to the obligations of the Agreement. Of particular significance for U.S. suppliers is coverage of Bahrain's Ministries of Defense and Interior, and the state petroleum company BAPCO. The Agreement guarantees U.S. firms transparent, predictable procedures when participating in Bahraini government procurement and significant access to procurements involving state-owned enterprises throughout the Kingdom.

The Agreement prohibits Bahraini government procuring entities from discriminating against U.S. firms, or favoring local (or other GCC) firms when purchasing more than $200,000 in goods or services (threshold drops to $175,000 in two years) or $8 million in construction services (threshold drops to $7,611,532 in two years).

The Agreement also requires national treatment/non-discrimination for U.S. suppliers and eligible goods and services; ensures adequate notice and publication of all procurement information, from general laws and regulations to individual procurement opportunities; prohibits the use of offsets and counter trade requirements; specifies a general time

period of at least 40 days for interested suppliers to submit bids for contracts; disciplines use of limited tendering procedures; and provides impartial and responsive review of any problems that arise in the course of procurement.

INTELLECTUAL PROPERTY RIGHTS

Those U.S. industries concerned with intellectual property rights ("IPR") protection and enforcement have expressed a high level of satisfaction with the IPR protections of the Agreement. Bahrain will protect IPR to a degree unseen in many other developing countries. Some of the highlights for enhanced copyright, trademark, and patent protection and enforcement include:

Copyrights: The Agreement ensures that authors, composers, and other copyright owners have the exclusive right to make their works available online through confirming their rights to temporary copies of their works on computers. This right is important in protecting music, videos, software and text from widespread unauthorized reproduction and distribution via the Internet. Under the Agreement, Bahrain has committed to using only legitimate computer software within the government, thus setting a positive example for private users.

Bahrain is committed to protecting copyrighted works, including phonograms, for extended terms (*i.e.*, life of the author plus 70 years), consistent with U.S. standards and international trends. The Agreement includes strong anti-circumvention provisions, requiring Bahrain to prohibit tampering with encryption technologies (like embedded codes in DVD players) that are designed to enable copyright owners to control reproduction and distribution over the Internet, as well as the manufacture, sale, and importation of devices whose primary purpose is to tamper with encryption technologies The Agreement also requires protection for encrypted program-carrying satellite signals (including the signal itself and the programming), to prevent piracy of satellite television programming.

The Agreement sets out obligations limiting the liability of ISPs in certain circumstances, reflecting the balance struck in the U.S. Digital Millennium Copyright Act between legitimate ISP activity and the secondary infringement of copyrights.

Trademarks: In the FTA, Bahrain reaffirms its obligations under the WTO Agreement on Trade Related Aspects of Intellectual Property ("TRIPS"), and goes beyond those requirements in several key areas. For example, by agreeing to eliminate a requirement that would force U.S. companies to record their trademark licenses in order to establish the validity of their licenses, to assert any rights in a trademark, or for other purposes, Bahrain will eliminate administrative hurdles from the enforcement process, thus enhancing protection for U.S trademark interests and their licensees. In general, stronger trademark protections will aid U.S. companies in Bahrain for which trademark protection and enforcement are essential, including U.S. franchisees and merchandisers.

Patents: U.S. patent owners will receive increased protection in Bahrain as a result of the Agreement, including a provision that will require that the term of patented inventions be adjusted on request to compensate patent owners for unreasonable delays that occur in the granting of patents. The Agreement also provides that for patents covering pharmaceutical products, patent terms will be adjusted to compensate patent owners for unreasonable curtailment of patent term as a result of the marketing approval process. In addition, Bahrain will improve the protection of undisclosed test data. This enhanced protection for commercially valuable and proprietary undisclosed test and other data will translate into increased business opportunities in Bahrain for U.S. pharmaceutical manufacturers.

Enforcement: The Agreement will improve the ability of U.S. businesses to exploit and protect their creative works, brands, and inventions in Bahrain, including by: (1) authorizing Bahrain's law enforcement officials to take action against pirates and counterfeiters without waiting for complaints from right holders; (2) authorizing the award of pre-established damages to right holders, in amounts sufficient to deter future infringement; (3) enabling authorities and right holders to collect the evidence needed to track counterfeit and pirated products to their ultimate source; (4) permitting the seizure, forfeiture, and destruction of not only seized pirated and counterfeit products, but also the equipment and tools used to produce them; and (5) increasing the transparency of decision-making in both administrative and judicial enforcement activities undertaken by Bahrain.

CONCLUSION

As mentioned at the outset, the FTA is groundbreaking in terms of the market access guarantees it secures in both goods and services sectors. Specifically, upon entry into force of the Agreement, one hundred percent of bilateral trade in consumer and industrial goods will be duty-free, and Bahrain will provide immediate duty-free access for U.S. agricultural exports in 98 percent of agricultural tariff lines. Additionally, Bahrain has agreed to grant U.S. service providers substantially increased access to its services sectors. These obligations will have a positive effect on U.S. commercial interests as they will provide greater market access for both goods and services exports. In terms of goods, U.S. firms may see the biggest gains from the FTA in increased exports of automobiles, agricultural goods, air conditioning and refrigeration equipment, and medical equipment, among other sectors. Service providers in the financial services and insurance sectors are guaranteed unprecedented market access, and other service providers will benefit from the timed phase-out of local presence requirements and increased access to government procurement tenders.

Additionally, U.S. commercial interests will benefit from the Agreement, as Bahrain has agreed to implement stronger intellectual property protections, greater customs cooperation, and enhanced transparency and environmental protection measures. Given its comprehensive nature, the Agreement will serve as a model for future U.S. free trade agreements.

Tab 6: Summary of the Agreement

UNITED STATES – BAHRAIN FREE TRADE AGREEMENT

Summary of the Agreement

This summary briefly describes key provisions of the United States-Bahrain Free Trade Agreement ("FTA" or "Agreement").

Preamble and Chapter One: Establishment of a Free Trade Area and Definitions

The Preamble to the Agreement provides the Parties' underlying objectives in entering into the Agreement and provides context to the provisions that follow. Chapter One sets out provisions establishing a free trade area. The Parties affirm their existing rights and obligations under the Marrakesh Agreement Establishing the World Trade Organization ("WTO") and other agreements to which both the United States and Bahrain are party. Chapter One also includes definitions of certain terms that recur in various chapters of the Agreement.

Chapter Two: National Treatment and Market Access for Goods

Chapter Two sets out the Agreement's principal rules governing trade in goods. It requires each Party to treat goods from the other Party in a non-discriminatory manner, provides for the phase-out of tariffs on "originating goods" (as defined in Chapter Four (Rules of Origin)) traded between the two Parties, and requires the elimination of a wide variety of non-tariff barriers that restrict or distort trade flows.

Tariff Elimination. Chapter Two provides rules for the elimination of customs duties on originating goods traded between the Parties no later than 10 years after the Agreement enters into force. The Agreement is comprehensive, containing U.S. and Bahraini elimination commitments on all tariffs. For example, 100 percent of bilateral trade in consumer and industrial goods (including textile and apparel goods) will become duty-free immediately upon the Agreement's entry into force. In addition, Bahrain will provide immediate duty-free access for U.S. agricultural exports in 98 percent of agricultural tariff lines. Certain sensitive agricultural goods in Bahrain and the United States will have longer periods for duty elimination (up to 10 years) or will be subject to other provisions, including, in some cases, the application of transitional preferential tariff-rate quotas ("TRQs") by the United States. Annex 2-B of the Agreement includes detailed provisions on staging of tariff reductions and application of TRQs for certain agricultural goods. Chapter Two also provides that the Parties may agree to speed up tariff phase-outs on a product-by-product basis after the Agreement takes effect.

Temporary Admission. Chapter Two requires the Parties to provide duty-free temporary admission for certain goods without the usual bonding requirement that applies to imports. Such items include professional equipment, goods for display or demonstration, and commercial samples.

Import/Export Restrictions, Fees, and Formalities. The Agreement incorporates the prohibition on import and export restrictions set out in Article XI of the General Agreement on Tariffs and Trade ("GATT") 1994 and specifies that these include: (1) export and import price requirements (except under antidumping and countervailing duty orders); (2) import licensing conditioned on

the fulfillment of a performance requirement; and (3) voluntary export restraints inconsistent with Article VI of GATT 1994. In addition, a Party must limit fees and charges imposed on or in connection with importation or exportation to the approximate cost of services rendered, in accordance with Article VIII of GATT 1994. Finally, the United States has also agreed not to apply its merchandise processing fee on imports of originating goods from Bahrain.

Agricultural Export Subsidies. Chapter Two provides that the Parties will work together in WTO agriculture negotiations to eliminate all forms of agricultural export subsidies. The Chapter further provides that each Party will eliminate export subsidies on agricultural goods destined for the other country. According to Article 2.11, neither Party may introduce or maintain a subsidy on agricultural goods destined for the other Party unless the exporting Party believes that a third country is subsidizing its exports to the other Party. In such a case, the exporting Party may initiate consultations with the importing Party to develop measures the importing Party may adopt to counteract such subsidies. If the importing Party agrees to such measures, the exporting Party must refrain from applying export subsidies to its exports of the good to the importing Party.

Chapter Three: Textiles and Apparel

Chapter Three sets out provisions addressing trade in textile and apparel goods, including an "emergency action" provision, special rules of origin, and customs cooperation provisions aimed at preventing circumvention.

Emergency Actions. To deal with emergency conditions resulting from the elimination or reduction of customs duties, the Agreement includes an "emergency action" provision that permits the importing country temporarily to re-impose normal trade relations (most-favored-nation) ("NTR" ("MFN")) duty rates on imports of textile or apparel goods that cause or threaten serious damage to a domestic industry. Emergency measures may be applied for a maximum aggregate period of three years, and a Party may not apply an emergency measure on a good beyond 10 years after the Party must eliminate duties on that good under the Agreement.

A Party applying an emergency action must provide the other Party with mutually agreed compensation in the form of trade concessions that are substantially equivalent to the increased duties. If the Parties cannot agree on compensation, the exporting Party may raise duties up to NTR (MFN) levels on any goods from the importing Party to achieve trade effects substantially equivalent to the emergency action.

Rules of Origin and Related Matters. Chapter Three includes special rules for determining whether a textile or apparel good is an "originating good," including a *de minimis* exception for non-originating yarns or fibers, a rule for treatment of sets, and consultation provisions. The *de minimis* rule applies to goods that ordinarily would not be considered originating goods because certain of their fibers or yarns do not undergo an applicable change in tariff classification. Under the rule, the Parties will consider a good to be originating if such fibers or yarns constitute seven percent or less of the total weight of the component of the good that determines the tariff classification. This special rule does not apply to elastomeric yarns.

Chapter Three also calls for the United States and Bahrain to provide tariff preference levels ("TPLs") for a limited quantity of specific fabric and apparel goods from non-Party sources. TPL goods will be accorded preferential tariff treatment as if they were originating goods. For the specified fabric, apparel, and made-up goods, TPL status will apply to a maximum of 65 million square meter equivalents for each of the first 10 years after the Agreement's entry into force. After 10 years, TPL status will not be available for such goods.

The Annex to Chapter Three includes specific rules of origin for textile and apparel goods. A textile or apparel good will generally qualify as an "originating good" only if all processing after fiber formation (*i.e.*, yarn-spinning, fabric production, cutting, and assembly) takes place in the territory of one or both of the Parties, or if there is an applicable change in tariff classification under Annex 3-A.

Customs Cooperation. Chapter Three also includes a customs cooperation article that sets out detailed commitments designed to prevent circumvention of the Agreement's rules governing textiles and apparel. The Parties will cooperate in enforcing relevant laws, in ensuring the accuracy of claims of origin, and in preventing circumvention of relevant international agreements. A Party may conduct site visits under certain conditions to verify that circumvention is not occurring, and the other Party must provide information necessary for the visits. An importing Party may respond to circumvention and actions that impede it from detecting circumvention, including by denying preferential tariff treatment under the Agreement to imports of specific textile or apparel goods or to all imports of textile or apparel goods from particular enterprises. Either Party may convene bilateral consultations to resolve technical or interpretive issues that arise under the Chapter's customs cooperation article.

Chapter Four: Rules of Origin

To benefit from various trade preferences provided under the Agreement, including reduced duties, a good must qualify as an "originating good" under the rules of origin set out in Chapters Three (Textiles and Apparel) and Four and Annexes 3-A and 4-A. These rules ensure that the tariff and other benefits of the Agreement accrue primarily to firms that produce or manufacture goods in the two Parties' territories. They are similar in approach to those included in the United States-Morocco, United States-Jordan, and United States-Israel free trade agreements.

Key Concepts. Chapter Four provides general criteria under which a good that has been imported directly from one Party into the other Party may qualify as an "originating good:"

- When the good is wholly grown, produced, or manufactured in one or both of the Parties (*e.g.*, crops grown or minerals extracted in the United States);

- When the good: (1) is not covered by the rules in Annex 3-A or Annex 4-A; (2) is a "new or different article of commerce" that has been grown, produced, or manufactured in the territory of one or both of the Parties; and (3) the sum of (a) the value of materials produced in the territory of one or both of the Parties and (b) the "direct costs of processing operations" performed in the territory of one or both of the Parties is at least 35 percent of the appraised value of the good at the time it is imported into the territory of a Party; or

- When the good is covered by the rules in Annex 3-A or Annex 4-A and meets the requirements of the applicable Annex. (Annex 3-A contains specific rules of origin for textile and apparel goods. Annex 4-A contains specific rules of origin on goods such as citrus juices; dairy products; sugar; sweetened cocoa powder; plastics; ignition wiring sets; and motor vehicle parts.)

Chapter Four defines "new or different article of commerce" as "a good that has been substantially transformed from a good or material that is not wholly the growth, product, or manufacture of one or both of the Parties and that has a new name, character, or use distinct from the good or material from which it was transformed." It defines "direct costs of processing operations" as "those costs either directly incurred in, or that can be reasonably allocated to, the growth, production, or manufacture of the good." Such costs typically include labor costs, depreciation on machinery or equipment, research and development, inspection costs, and packaging costs, among others. They typically do not include profit and general business expenses, such as salaries, insurance, and advertising.

Chapter Four clarifies that a good will not be considered a "new or different article of commerce" merely by virtue of simple combining or packaging operations or mere dilution with water or another substance that does not change the characteristics of the good.

Declarations of Origin. Under the Chapter, importers who wish to claim preferential tariff treatment for particular goods must submit, on the request of the importing Party's customs authorities, a "declaration" providing all pertinent information concerning the production of the good. The Agreement provides that a Party should request a declaration only when it has reason to question the accuracy of a claim of origin or when the Party is conducting a random verification. A Party may only deny preferential treatment in writing and must provide legal and factual findings.

Consultations. Chapter Four calls for the Parties to work together to ensure the effective and uniform application of the Chapter. The Chapter permits the creation of *ad hoc* working groups or a subcommittee of the Joint Committee to discuss necessary amendments or revisions. In addition, Article 4.13 provides that, at an appropriate time, the United States and Bahrain "shall enter into discussions with a view to deciding the extent to which materials that are products of countries in the Middle East or North Africa region may be counted for purposes of satisfying the origin requirement under this Agreement as a step toward achieving regional integration."

Finally, in a separate agreement set out in a side letter regarding Chapter Four, the Parties provide that, for purposes of determining whether a good is a "new or different article of commerce that has been grown, produced, or manufactured" for purposes of Chapter Four, each country is to be guided by the rules of origin set forth in section 102.20 of the United States Customs Regulations (19 CFR 102.20).

Chapter Five: Customs Administration

Chapter Five establishes rules designed to facilitate trade through increased transparency, predictability, and efficiency in each Party's customs procedures. It also provides for cooperation between the Parties on customs matters.

General Principles. The United States and Bahrain will observe certain transparency requirements. The Parties must promptly publish their customs measures on the Internet and, where possible, solicit public comments before introducing or amending their customs regulations. Each Party also must provide written advance rulings, upon request, to its importers and to exporters of the other Party regarding whether a good qualifies as an "originating good" under the Agreement, as well as on other customs matters. The Agreement allows Bahrain up to two years to comply with the provisions relating to advance rulings. In addition, each Party must guarantee importers access to both administrative and judicial review of customs decisions. The Parties also must release goods from customs promptly and expeditiously clear express shipments.

Cooperation. Chapter Five also is designed to enhance customs cooperation. It encourages the Parties to give each other advance notice of customs developments likely to affect the Agreement. The Chapter calls for the Parties to cooperate in securing compliance with each other's customs measures related to the Agreement and to import and export restrictions. It includes specific provisions requiring the Parties to share customs information where a Party has a reasonable suspicion of unlawful activity in connection with goods traded between the two countries.

Chapter Six: Sanitary and Phytosanitary Measures

Chapter Six defines the Parties' obligations to one another regarding sanitary and phytosanitary ("SPS") measures. SPS measures are laws or regulations that protect human, animal, or plant life or health from certain risks, including plant- and animal-borne pests and diseases, additives, contaminants, toxins, or disease-causing organisms in food and beverages.

Under Chapter Six, the Parties affirm their rights and obligations with respect to each other under the WTO Agreement on the Application of Sanitary and Phytosanitary Measures. They also affirm their desire to create a forum through the Joint Committee on SPS matters. However, neither Party may invoke the FTA's dispute settlement procedures for a matter arising under the Chapter. Instead, any SPS dispute between the Parties must be resolved under the applicable WTO agreement(s) and rules.

Chapter Seven: Technical Barriers to Trade

Under Chapter Seven, the Parties will build on WTO rules to promote transparency, accountability, and cooperation between the Parties on standards issues.

Key Concepts. The term "technical barriers to trade" ("TBT") refers to barriers that may arise in preparing, adopting, or applying voluntary product standards, mandatory product standards ("technical regulations"), and procedures used to determine whether a particular good meets such standards ("conformity assessment" procedures).

International Standards. The principles articulated in the WTO TBT Committee Decision on Principles for the Development of International Standards, Guides and Recommendations

emphasize the need for openness and consensus in the development of international standards. Chapter Seven requires the Parties to apply these principles.

Cooperation. Chapter Seven sets out multiple means for cooperation between the Parties to reduce barriers and improve market access. The Chapter specifies that the Office of the United States Trade Representative and Bahrain's Ministry of Commerce will serve as TBT Chapter Coordinators responsible for facilitating this cooperation.

Conformity Assessment. Chapter Seven provides for a dialogue between the Parties on ways to facilitate the acceptance of conformity assessment (*i.e.*, testing to determine whether a product or service meets applicable standards) results. Chapter Seven further provides that, where a Party recognizes conformity assessment bodies in its own territory, it should recognize bodies in the territory of the other Party on the same terms.

Transparency. Chapter Seven contains various transparency obligations, including obligations to: (1) permit persons of the other Party to participate in the development of technical regulations, standards, and conformity assessment procedures on a non-discriminatory basis; (2) transmit regulatory proposals notified under the TBT Agreement directly to the other Party; (3) describe in writing the objectives of and reasons for regulatory proposals; and (4) accept and respond in writing to comments on regulatory proposals. These provisions become effective no later than five years after the Agreement enters into force.

Chapter Eight: Safeguards

Chapter Eight establishes a bilateral safeguard mechanism that will be available to aid domestic industries that sustain or are threatened with serious injury due to increased imports resulting from tariff reductions or elimination under the Agreement. The Chapter does not affect either government's rights or obligations under the WTO's safeguard provisions (global safeguards) or under other WTO trade remedy rules.

Chapter Eight authorizes each Party to impose temporary duties on a good imported from the other Party if, as a result of the reduction or elimination of a duty under the Agreement, the good is being imported in such increased quantities and under such conditions as to constitute a substantial cause of serious injury, or threat of serious injury, to a domestic industry producing a "like" or "directly competitive" good.

Absent agreement by the other Party, a Party may only apply a safeguard measure to a good during the first 10 years that the FTA is in force. A safeguard measure may take one of two forms – a temporary increase in duties to NTR (MFN) levels or a temporary suspension of duty reductions called for under the Agreement. A safeguard measure may last for a maximum aggregate period of three years. If a measure lasts more than one year, the Party must liberalize it at regular intervals. Chapter Eight incorporates by reference certain procedural and substantive investigation requirements of the WTO Agreement on Safeguards.

If a Party imposes a bilateral safeguard measure, Chapter Eight requires it to provide the other Party offsetting trade compensation. If the Parties cannot agree on the amount or nature of the

compensation, the Party entitled to compensation may suspend "substantially equivalent" trade concessions that it has made to the other Party. A Party may not impose a safeguard measure under Chapter Eight more than once on any good. Special safeguard provisions are set out for textile and apparel goods in Chapter Three (Textiles and Apparel).

Global Safeguards. Chapter Eight maintains each Party's right to take action under Article XIX of GATT 1994 and the WTO Agreement on Safeguards against imports from all sources.

Chapter Nine: Government Procurement

Chapter Nine provides comprehensive obligations requiring each Party to apply fair and transparent procurement procedures and rules and prohibiting each government and its procuring entities from discriminating in purchasing practices against goods, services, and suppliers from the other country. The rules of Chapter Nine are broadly based on WTO procurement rules. (Bahrain is not a party to the WTO Agreement on Government Procurement.)

General Principles. Chapter Nine establishes a basic rule of "national treatment," meaning that each Party's procurement rules and the entities applying those rules must treat goods, services, and suppliers of such goods and services from the other Party in a manner that is "no less favorable" than the treatment their domestic counterparts receive. The Chapter similarly bars discrimination against locally established suppliers on the basis of foreign affiliation or ownership. Chapter Nine also provides rules aimed at ensuring a fair and transparent procurement process.

Coverage and Thresholds. Chapter Nine applies to purchases and other means of obtaining goods and services valued above certain monetary thresholds by those government departments, agencies, and enterprises listed in each Party's schedule. Specifically, the Chapter applies to procurements by listed "central" (*i.e.*, Bahraini or U.S. federal) government agencies of goods and services valued at $175,000 or more and construction services valued at $7,611,532 or more.[1] The equivalent thresholds for purchases by "other entities" are $250,000 for goods and services and $9,368,478 for construction services. All thresholds, except the $250,000 threshold, are subject to adjustment for inflation.

Transparency. Chapter Nine establishes rules designed to ensure transparency in procurement procedures. Each Party must publish its laws, regulations, and other measures governing procurement, along with any changes to those measures, and must, upon request, provide an explanation regarding any such measure to the other Party. Procuring entities must publish notices of procurement opportunities in advance. The Chapter also lists minimum information that such notices must include.

Tendering Rules. Chapter Nine provides rules for setting deadlines on "tendering" (bidding on government contracts). It requires procuring entities to give suppliers all the information they need to prepare tenders, including the criteria that procuring entities will use to evaluate tenders.

---

[1] These thresholds are subject to adjustment every two years according to a "Threshold Adjustment Formula" set out in the Annex to Chapter Nine. In addition, as stated in that Annex, there are specific required threshold amounts during the first two years of the Agreement's effectiveness.

Entities must also, where appropriate, base their technical specifications (*i.e.*, detailed descriptions of the goods or services to be procured) on performance-oriented criteria and international standards. Chapter Nine provides that procuring entities may not write technical specifications to favor a particular supplier, good, or service. It also sets out rules that procuring entities must follow when they use limited tendering, *i.e.*, when they limit the set of suppliers that may bid on a contract.

Award Rules. Chapter Nine requires all tenders for a contract must be considered, unless submitted by an otherwise disqualified supplier. The tender must meet the criteria set out in the tender documentation, and procuring entities must base their award of contracts on those criteria. Procuring entities must publish information on awards, including the name of the supplier, a description of the goods or services procured, and the value of the contract. Chapter Nine also calls for each Party to ensure that suppliers may bring challenges against procurement decisions before independent reviewers.

Additional Provisions. Chapter Nine is designed to promote integrity in each Party's procurement practices, including by requiring the Parties to adopt and maintain procedures that disqualify suppliers that a Party has determined to have engaged in fraudulent or illegal action in relation to procurement. It establishes procedures under which a Party may change the extent to which the Chapter applies to its government entities, such as when a Party privatizes an entity whose purchases are covered under the Chapter. It also provides that Parties may adopt or maintain measures necessary to protect: (1) public morals, order, or safety; (2) human, animal, or plant life or health; or (3) intellectual property. Parties may also adopt measures relating to procurement of goods or services of handicapped persons, philanthropic institutions, or prison labor.

Chapter Ten: Cross-Border Trade in Services

Chapter Ten governs measures affecting cross-border trade in services between the United States and Bahrain. Chapter provisions are drawn in part from the services provisions of the NAFTA and the WTO General Agreement on Trade in Services ("GATS"), as well as priorities that have emerged since those agreements.

Key Concepts. Under the Agreement, cross-border trade in services covers the supply of a service:

- from the territory of one Party into the territory of the other (*e.g.*, electronic delivery of services from the United States to Bahrain);
- in the territory of a Party by a person of that Party to a person of the other Party (*e.g.*, a Bahraini company provides services to U.S. visitors in Bahrain); and
- by a national of a Party in the territory of the other Party (*e.g.*, a U.S. lawyer provides legal services in Bahrain).

General Principles. Among Chapter Ten's core obligations are requirements to provide national treatment and MFN treatment to service suppliers of the other Party. Thus, each Party must treat service suppliers of the other Party no less favorably than its own suppliers or those of any other country. This commitment applies to state and local governments as well as the federal government. The Chapter's provisions relate to the rights of existing service suppliers as well as those who seek to supply services, subject to any reservations by either Party. The Chapter also includes a provision prohibiting the Parties from requiring firms to establish a local presence as a condition for supplying a service on a cross-border basis. In addition, certain types of market access restrictions to the supply of services (*e.g.*, rules that limit the number of firms that may offer a particular service or that restrict or require specific types of legal structures or joint ventures with local companies in order to supply a service) are also barred. The Chapter's market access rules apply both to services supplied on a cross-border basis and through local investments pursuant to the Parties' bilateral investment treaty, discussed below.

Sectoral Coverage and Non-Conforming Measures. Chapter Ten applies across virtually all services sectors. The Chapter excludes most financial services and air transportation, although it does apply to specialty air services and aircraft repair and maintenance. Each Party has listed in Annexes those measures in particular sectors for which it negotiated exemptions from the Chapter's core obligations. Any non-conforming aspects of all current U.S. state and local laws and regulations are exempted from these core obligations. A Party may liberalize a measure that it has exempted, but it may not make such measures more restrictive (though certain market access commitments are exempted from this obligation).

Transparency and Domestic Regulation. Provisions on transparency and domestic regulation complement the core rules of Chapter Ten. The transparency rules apply to the development and application of regulations governing services. The Chapter's rules on domestic regulation govern the operation of approval and licensing systems for service suppliers. Like the Chapter's market access rules, its provisions on transparency and domestic regulation cover services supplied both on a cross-border basis and through local investments under the Parties' bilateral investment treaty, discussed below.

Exclusions. Chapter Ten excludes any service supplied "in the exercise of governmental authority," that is, a service that is provided on a non-commercial and non-competitive basis. Chapter Ten also does not generally apply to government subsidies, although the Parties have undertaken a commitment relating to cross-subsidization of express delivery services. The Parties have also negotiated an Annex regarding the regulation of professional services. Under Annex 10-B, the Parties will endeavor to develop mutually acceptable standards and criteria for licensing and certification of professional service suppliers. Such standards and criteria may be developed with regard, among other things, to: (1) accreditation of schools or academic programs; (2) qualifying examinations for licensing; (3) standards of professional conduct and the nature of disciplinary action for non-conformity with those standards; (4) requirements for knowledge of such matters as local laws, regulations, language, geography, or climate; and (5) consumer protection.

Investment. In 1999, the United States and Bahrain negotiated a comprehensive bilateral investment treaty ("BIT"), the *Treaty Between the Government of the United States of America*

and the Government of the State of Bahrain Concerning the Encouragement and Reciprocal Protection of Investment (1999). The BIT was based on the standard U.S. prototype for investment agreements. The BIT: (1) applies to all forms of U.S. investment in Bahrain; (2) requires that covered U.S. investments receive the better of national treatment or MFN treatment provided by Bahrain; (3) prohibits the imposition of performance requirements on covered U.S. investments by Bahrain; (4) allows expropriation of U.S. investments by Bahrain only in accordance with customary international law; and (5) allows U.S. investors to bring disputes with the Bahraini government to binding international arbitration, among other provisions. Because the BIT provides a full range of investment disciplines, the United States and Bahrain did not include an investment chapter in the FTA. However, as noted above, the market access, domestic regulation, and transparency provisions of Chapter Ten govern the treatment of investors and investments in services sectors pursuant to the BIT.

Side Letters. Finally, in side letters to Chapter Ten that are part of the Agreement, the Parties clarify that: (1) Bahrain may prohibit gambling (and the provision of gambling services) and treat it as a criminal offense, consistent with WTO rules; and (2) no provision of the Agreement imposes obligations on the Parties with respect to immigration or – consistent with Chapter Fifteen – the right to secure employment in the territory of a Party.

Chapter Eleven: Financial Services

Chapter Eleven provides rules governing each Party's treatment of financial institutions of the other Party and cross-border trade in financial services.

Key Concepts. The Chapter defines a "financial institution" as any financial intermediary or other institution authorized to do business and regulated or supervised as a financial institution under the law of the Party where it is located. A "financial service" is any service of a financial nature, including, for example, insurance, banking, securities, asset management, financial information and data processing services, and financial advisory services.

General Principles. Chapter Eleven's core obligations parallel those in Chapter Ten (Cross-Border Trade in Services). Specifically, Chapter Eleven imposes rules requiring national treatment and MFN treatment, prohibits certain quantitative restrictions on market access, and bars restrictions on the nationality of senior management. These rules apply to measures affecting financial institutions, including pre-establishment, and to financial service suppliers that are currently supplying or seek to supply on a cross-border basis.

Non-Conforming Measures. Similar to Chapter Ten, each Party has listed in an Annex to Chapter Eleven particular financial services measures for which it has negotiated exemptions from the Chapter's core obligations. Any non-conforming aspects of all current U.S. state and local laws and regulations are exempted from these obligations. A Party may liberalize a measure that it has exempted, but it may not make such measures more restrictive (though certain market access commitments are exempted from this obligation).

Other Provisions. Chapter Eleven includes provisions on transparency, as well as rules regarding "new" financial services, self-regulatory organizations (the Agreement allows Bahrain

up to two years to comply with certain such provisions), and the expedited availability of insurance products.

Relationship to Other Chapters/Agreements. The existing BIT provides U.S. investors in financial institutions in Bahrain with certain benefits not included in the FTA, such as compensation against expropriation, the right to free transfers, and a process for investor-state dispute settlement. Chapter Eleven also incorporates by reference certain provisions of Chapter Ten, such as those relating to denial of benefits and transfers and payments as they relate to cross-border trade.

Side Letters. Finally, side letters to Chapter Eleven that are part of the Agreement contain additional obligations with respect to financial services. In particular, the Parties provide that: (1) in reviewing the regulation of its insurance sector, Bahrain will not fail to permit U.S. insurance suppliers to sell their products through independent agents; (2) a Party may impose registration and other administrative requirements on insurance companies of the other Party, to the extent such requirements are consistent with the Agreement; and (3) the Parties may agree to extend Bahrain's six-month exemption from the obligations of Chapter Eleven (*i.e.*, its non-conforming measure) regarding the market for non-life insurance financial services.

Chapter Twelve: Telecommunications

Chapter Twelve includes disciplines beyond those imposed under Chapter Ten (Cross-Border Trade in Services) and under the BIT on regulatory measures affecting telecommunications trade and investment. Chapter Twelve is designed to ensure that service suppliers of each Party have non-discriminatory access to public telecommunications services in the other country. In addition, the Chapter requires each Party to regulate its dominant telecommunications suppliers in ways that will ensure a level playing field for new entrants from the other Party. Chapter Twelve also seeks to ensure that telecommunications regulations are set by independent regulators applying transparent procedures and is designed to encourage adherence to principles of deregulation and technological neutrality.

Key Concepts. Under Chapter Twelve, a "public telecommunications service" is any telecommunications service that a Party requires to be offered to the public generally. The term includes voice and data transmission services. It does not include the offering of "value-added services" (*e.g.*, services that enable users to create, store, or process information over a network).

Competition. Chapter Twelve establishes rules that reflect the common elements of the Parties' laws promoting competition in telecommunications services. It also provides flexibility to account for changes that may occur through new legislation or regulatory decisions. The Chapter includes commitments by each Party to:

- ensure that all service suppliers of the other Party that seek to access or use a public telecommunications service in the Party's territory can do so on reasonable and non-discriminatory terms (*e.g.*, Bahrain must ensure that its public phone companies do not provide preferential access to Bahraini banks or Internet service providers, to the detriment of U.S. competitors);

- give the other Party's telecommunications suppliers, in particular, the right to interconnect their networks with public networks in its territory at reasonable rates;

- ensure that telecommunications suppliers of the other Party that seek to build physical networks in the Party's territory have access to key physical facilities of dominant carriers, such as buildings, where they can install equipment, thus facilitating cost-effective investment;

- ensure that telecommunications suppliers of the other Party enjoy the right to lease lines to supplement their own networks or, alternatively, purchase telecommunications services from dominant domestic suppliers and resell them in order to build a customer base; and

Regulation. The Chapter also addresses key regulatory concerns that may create barriers to trade and investment in telecommunications services. In particular, the Parties:

- ensure that they will maintain open and transparent telecommunications regulatory regimes, including requirements to publish licensing requirements and criteria and other government measures relating to public telecommunications services;

- will require their telecommunications regulators to explain their rule-making decisions and provide foreign suppliers the right to challenge those decisions;

- may elect to deregulate telecommunications services when competition exists and certain standards are met; and

- may not prevent telecommunications service suppliers from choosing the technologies they consider appropriate for supplying their services, subject to legitimate public policy requirements.

Side Letters. Finally, side letters to Chapter Twelve that are part of the Agreement provide that: (1) the manner through which the Parties expect Bahrain will ensure cost-oriented interconnection levels for international services; and (2) Bahrain's commitment to issue any additional commercial mobile services licenses in a technologically neutral manner.

Chapter Thirteen: Electronic Commerce

Chapter Thirteen establishes rules designed to prohibit discriminatory regulation of electronic trade in digitally encoded products, such as computer programs, video, images, and sound recordings. The Chapter contains state-of-the-art provisions on electronic commerce, similar to those in recent U.S. free trade agreements with Chile, Singapore, Australia, and Morocco.

Customs Duties. Chapter Thirteen provides that a Party may not impose customs duties on digital products of the other Party that are transmitted electronically. The Chapter does not preclude a Party from imposing duties on digital products of the other Party that are fixed on a

carrier medium, provided that the duty is based on the cost or value of that medium alone, rather than the cost or value of the digital content stored on that medium.

Non-Discrimination. Chapter Thirteen requires the Parties to apply the principles of national treatment and MFN treatment to trade in electronically transmitted digital products. In particular, a Party may not treat digital products less favorably because such digital products: (1) have undergone certain specific activities (*e.g.*, creation, production, first sale) in the territory of the other Party; or (2) are associated with certain categories of persons of the other Party (*e.g.*, authors, performers, producers). Nor may a Party treat digital products that have such a nexus to the other Party less favorably than it treats like digital products with such a nexus to a non-Party. These non-discrimination rules do not apply to actions taken in accordance with the non-conforming measures specifically exempted from the rules set out in Chapter Ten (Cross-Border Trade in Services) or Chapter Eleven (Financial Services).

Chapter Fourteen: Intellectual Property Rights

Chapter Fourteen complements and enhances existing international standards for the protection of intellectual property and the enforcement of intellectual property rights, consistent with U.S. law.

General Provisions. Chapter Fourteen calls for the Parties to ratify or accede to certain agreements on intellectual property rights, including the International Convention for the Protection of New Varieties of Plants, the Trademark Law Treaty, the Brussels Convention Relating to the Distribution of Programme-Carrying Satellite Signals (the "Brussels Convention"), the Protocol Relating to the Madrid Agreement Concerning the International Registration of Marks, the Budapest Treaty on the International Recognition of the Deposit of Microorganisms (the "Budapest Treaty"), the Patent Cooperation Treaty, the WIPO Copyright Treaty, and the WIPO Performances and Phonograms Treaty. The United States is already a party to these agreements.

Chapter Fourteen also requires broad application of the principle of national treatment, with only limited exceptions. The general provisions further clarify the coverage of existing subject matter and requirements for publication of all laws, regulations, and procedures relating to the protection and enforcement of intellectual property rights.

Trademarks and Geographical Indications. Chapter Fourteen establishes rules concerning the protection of trademarks and geographical indications. For example, Parties must provide the owner of a registered trademark the exclusive right to prevent its use in the course of trade for related goods and services by any party not having the owner's consent. The Chapter also sets out rules with respect to the registration of trademarks. Each Party must provide protection for trademarks, including protecting preexisting trademarks against infringement by later geographical indications. Furthermore, the Chapter requires that the Parties provide efficient and transparent procedures governing the application for protection of trademarks and geographical indications. The Chapter also provides for rules on domain name management that require a dispute resolution procedure to prevent trademark cyber-piracy.

Copyright and Related Rights. Chapter Fourteen provides for broad protection of copyright and related rights, affirming and building on rights set out in several international agreements. For instance, each Party must provide copyright protection for the life of the author plus 70 years (for works measured by a person's life), or 70 years (for corporate works). The Chapter clarifies that the right to reproduce literary and artistic works, recordings, and performances encompasses temporary copies, an important principle in the digital realm. It also calls for each Party to provide a right of communication to the public, which will further ensure that right holders have the exclusive right to make their works available online. The Chapter specifically requires protection for the rights of performers and producers of phonograms.

To curb copyright piracy, Chapter Fourteen requires the governments to use only legitimate computer software, setting an example for the private sector. The Chapter also includes provisions on anti-circumvention, under which the Parties commit to prohibit tampering with technology used to protect copyrighted works. In addition, Chapter Fourteen sets out obligations with respect to the liability of Internet service providers in connection with copyright infringements that take place over their networks. Finally, recognizing the importance of satellite broadcasts, Chapter Fourteen ensures that each Party will protect encrypted program-carrying satellite signals. It obligates the Parties to extend protection to the signals themselves, as well as to the content contained in the signals.

Patents. Chapter Fourteen also includes a variety of provisions for the protection of patents. The Parties may only exclude inventions from patentability to protect *ordre public* or morality, including to protect human, animal, or plant life or health or to avoid serious prejudice to the environment. The Parties also may exclude from patentability animals and diagnostic, therapeutic, and surgical procedures for the treatment of humans or animals. The Parties also confirm the availability of patents for new uses or methods of using a known product. To guard against arbitrary revocation of patents, each Party must limit the grounds for revoking a patent to the grounds that would have justified a refusal to grant the patent. The Chapter requires the Parties to provide for patent term adjustments to compensate for unreasonable delays that occur while granting the patent, as well as for unreasonable curtailment of the effective patent term as a result of the marketing approval process for pharmaceutical products.

Certain Regulated Products. Chapter Fourteen includes specific measures relating to certain regulated products, specifically pharmaceuticals and agricultural chemicals. Among other things, the Parties must protect test information regarding safety and efficacy submitted in seeking marketing approval for such products by precluding other firms from relying on the information. It provides specific periods for such protection – for example, five years for new pharmaceuticals and 10 years for new agricultural chemicals. It also requires the Parties to adopt measures to prevent the marketing of a pharmaceutical product during the term of a patent covering that product.

Enforcement Provisions. Chapter Fourteen also creates obligations with respect to the enforcement of intellectual property rights. Among these, it requires the Parties, in determining damages, to take into account the value of the legitimate goods as well as the infringer's profits. The Chapter also provides for award of damages based on a fixed range (*i.e.*, "statutory

damages"), on the election of the right holder in cases involving infringement of copyright and related rights and trademark counterfeiting.

Chapter Fourteen provides that the Parties' law enforcement agencies must have authority to seize suspected pirated and counterfeit goods, the equipment used to make or transmit them, and documentary evidence. Each Party must give its courts authority to order the forfeiture and/or destruction of such items. Chapter Fourteen also requires each Party to empower its law enforcement agencies to take enforcement action at the border against pirated or counterfeit goods without waiting for a formal complaint. Chapter Fourteen provides that each Party must apply criminal penalties against counterfeiting and piracy, including end-user piracy.

Transition Periods. All provisions of the Chapter take effect when the Agreement enters into force. However, Bahrain may take up to one year after the Agreement enters into force effect to ratify or accede to: (1) the Brussels Convention; and (2) the Budapest Treaty.

Side Letters. Finally, two side letters to Chapter Fourteen that are part of the Agreement contain additional obligations on the part of Bahrain with respect to intellectual property rights. In particular, Bahrain will adopt further measures: (1) requiring effective written notice to Internet service providers with respect to materials that are claimed to be infringing a copyright; and (2) regarding the manufacture of optical discs, including provisions concerning licensure, registration, record keeping, and inspections, among others.

Chapter Fifteen: Labor

Chapter Fifteen sets out the Parties' commitments regarding trade-related labor rights. As with other recent free trade agreements, this Chapter draws on, but does not replicate, the North American Agreement on Labor Cooperation (the supplemental NAFTA labor agreement) and the labor provisions of the U.S. free trade agreements with Chile, Singapore, and Jordan.

General Principles. Under Chapter Fifteen, the Parties reaffirm their obligations as members of the International Labor Organization ("ILO") and their commitments under the 1998 ILO *Declaration on Fundamental Principles and Rights at Work.* Each Party must strive to ensure that its law recognizes and protects the fundamental labor principles spelled out in the ILO declaration and listed in the Chapter. Each Party also must strive to ensure it does not waive or otherwise derogate from its labor laws to encourage bilateral trade or investment. The Parties also commit to afford procedural guarantees that ensure workers and employers have access to fair, equitable, and transparent procedures for the enforcement of labor laws.

Effective Enforcement. Each Party commits not to fail to effectively enforce its labor laws on a sustained or recurring basis in a manner affecting bilateral trade. The Chapter defines labor laws to include those related to: (1) the right of association; (2) the right to organize and bargain collectively; (3) a prohibition on the use of any form of forced or compulsory labor; (4) labor protections for children and young people, including a minimum age for the employment of children and elimination of the worst forms of child labor; and (5) acceptable conditions of work with respect to minimum wages, hours, and occupational safety and health. While committing each Party to effective labor law enforcement, the Chapter also recognizes each Party's right to

establish its own labor laws, exercise discretion in investigatory, regulatory, prosecutorial, and compliance matters, and allocate enforcement resources. The U.S. commitment includes federal statutes and regulations addressing these areas, but it does not cover state or local labor laws.

Cooperation. Each Party may convene a national labor advisory committee, made up of members of its public, including representatives of labor and business organizations, to advise it on the implementation of the Chapter. Each Party also will designate a contact point for communications with the other Party and the public regarding operation of the Chapter. In addition, the Joint Committee (see Article 18.2) may establish a Subcommittee on Labor Affairs comprising the relevant officials from each Party's labor ministry and other appropriate agencies to discuss the operation of Chapter Fifteen. Meetings of the Subcommittee will normally include a public session.

Finally, the Parties will establish a Labor Cooperation Mechanism to address labor matters of common interest, such as: (1) promoting fundamental rights and their effective application; (2) developing unemployment assistance programs and other social safety net programs; (3) improving working conditions; (4) developing processes for regulating foreign workers; (5) creating alternative forms of labor-management collaboration; (6) eliminating gender discrimination in the employment arena; and (7) utilizing labor statistics.

Consultations and Dispute Settlement. If a Party believes that the other Party is not complying with its obligations, Chapter Fifteen provides for consultations regarding any matter arising under the Chapter, including the opportunity to refer a matter to the Subcommittee on Labor Affairs, if established. If the matter concerns a Party's compliance with the Chapter's effective enforcement obligation, the complaining Party may choose to pursue consultations under Chapter Fifteen or Chapter Nineteen (Dispute Settlement). If a Party chooses to request consultations under Chapter Nineteen, consultations under Chapter Fifteen on the same matter cease. In addition, after 60 days of consultations under Chapter Fifteen, the Parties may agree to refer the matter concerning compliance with the effective enforcement obligation directly to the Joint Committee for resolution under Chapter Nineteen.

Chapter Sixteen: Environment

Chapter Sixteen sets out the Parties' commitments regarding environmental protection. Chapter Sixteen draws on, but does not replicate, the North American Agreement on Environmental Cooperation (the supplemental NAFTA environmental agreement) and the environmental provisions included in U.S. free trade agreements with Chile, Singapore, and Jordan.

General Principles. Each Party commits not to fail to effectively enforce its environmental laws on a sustained or recurring basis in a manner affecting bilateral trade. The Parties must ensure that their laws provide for high levels of environmental protection. Each Party also must strive not to weaken or reduce its environmental laws to encourage bilateral trade or investment. The Chapter also includes commitments to provide certain procedural guarantees that ensure fair, equitable, and transparent proceedings for the administration and enforcement of environmental laws. In addition, the Chapter calls on the Parties to encourage the development of voluntary measures and market-based mechanisms for achieving and maintaining high levels of

environmental protection. The Parties also must ensure that opportunities exist for the public to provide input concerning the implementation of the Chapter.

Cooperation. Chapter Sixteen includes commitments to enhance bilateral cooperation in environmental matters. In particular, the Parties agree to undertake activities pursuant to a United States-Bahrain Memorandum of Understanding on Environmental Cooperation. The Parties also commit to continue to seek means to enhance the mutual benefits of multilateral environmental agreements ("MEAs") and trade agreements to which they are both party, and to consult regularly with respect to the WTO negotiations regarding MEAs.

In addition, at the request of either Party, a Subcommittee on Environmental Affairs will be established to discuss the operation of Chapter Sixteen. The subcommittee will include the relevant officials from each Party's trade and environmental agencies. Meetings of the subcommittee will normally include an open session, and any decisions or reports of the subcommittee concerning implementation of Chapter Sixteen will normally be made public.

Effective Enforcement. The U.S. commitment on enforcement of environmental laws applies to federal environmental statutes and regulations enforceable by the federal government, but it does not cover state or local environmental laws. The Chapter also recognizes the right of each Party to: (1) establish its own environmental laws; (2) exercise discretion in regulatory, prosecutorial, and compliance matters; and (3) allocate enforcement resources.

Consultations and Dispute Settlement. If a Party believes that the other Party is not complying with its obligations under the Chapter, it may convene bilateral consultations and then may refer the matter to the Subcommittee on Environmental Affairs, if it has been established. If the matter concerns a Party's compliance with the Chapter's effective enforcement obligation, the complaining Party may choose to pursue consultations under Chapter Sixteen or Chapter Nineteen (Dispute Settlement). If a Party chooses to request consultations under Chapter Nineteen, consultations under Chapter Sixteen on the same matter cease. In addition, after 60 days of consultations under Chapter Sixteen, the Parties may agree to refer the matter concerning compliance with the effective enforcement obligation directly to the Joint Committee for resolution under Chapter Nineteen.

Chapter Seventeen: Transparency

Chapter Seventeen sets out requirements designed to foster openness, transparency, and fairness in the adoption and application of administrative measures covered by the Agreement. For example, it requires that, to the extent possible, each Party must promptly publish all measures concerning subjects covered by the Agreement and give interested persons a reasonable opportunity to comment. Wherever possible, each Party must provide reasonable notice to the other Party's nationals and enterprises that are directly affected by an administrative proceeding applying measures to particular persons, goods, or services of the other Party. A Party is to afford such persons a reasonable opportunity to present facts and arguments prior to any final administrative action when time, the nature of the process, and the public interest permit. Chapter Seventeen also provides for independent review and appeal of final administrative

actions. Appeal rights must include a reasonable opportunity to present arguments and to obtain a decision based on evidence in the administrative record.

In addition, Chapter Seventeen contains innovative provisions on combating bribery and corruption. Each country must adopt or maintain prohibitions on bribery in matters affecting international trade and investment, including bribery of foreign officials, and establish criminal penalties for such offenses. In addition, both countries will adopt or maintain appropriate measures to protect those who, in good faith, report acts of bribery and will work jointly to encourage and support appropriate regional and multilateral initiatives.

Chapter Eighteen: Administration of the Agreement

Chapter Eighteen requires that each Party designate a contact point to facilitate communication between the Parties on any matter relating to the Agreement. The Chapter also creates a Joint Committee to supervise the implementation and operation of the Agreement and to review the trade relationship between the Parties. Among others, its tasks will be to: (1) facilitate the avoidance and settlement of disputes arising under the Agreement; (2) consider and adopt any amendment or other modification to the Agreement; and (3) consider ways to further enhance trade relations between the Parties. The Joint Committee will convene at least once a year.

Chapter Nineteen: Dispute Settlement

Chapter Nineteen sets out detailed procedures for the resolution of disputes between the Parties over compliance with the Agreement. Those procedures emphasize amicable settlements, relying wherever possible on bilateral cooperation and consultations. When disputes arise under provisions common to the Agreement and other agreements (*e.g.*, the WTO Agreement), the complaining Party may choose the forum for resolving the matter. The selected forum is the exclusive venue for resolving that dispute.

Consultations. Either Party may request consultations on any matter that it believes might affect the operation of the Agreement. After requesting or receiving a request for consultations, each Party must solicit the views of the public on the matter. If the Parties cannot resolve the matter through consultations within 60 days, a Party may refer the matter to the Joint Committee, which will attempt to resolve the dispute.

Panel Procedures. If the Joint Committee cannot resolve the dispute within 60 days after delivery of the request, the complaining Party may refer the matter to a panel comprising independent experts that the Parties select. In disputes related to a Party's enforcement of its labor or environmental laws, panelists must have expertise or experience relevant to the subject matter that is under dispute. The Parties will set rules to protect confidential information, provide for open hearings and public release of submissions, and allow an opportunity for the panel to accept submissions from non-governmental entities in the Parties' territories.

Unless the Parties agree otherwise, a panel is to present its initial report within 180 days after the chair is selected. Once the panel presents its initial report containing findings of fact and a determination on whether a Party has met its obligations, the Parties will have the opportunity to

provide written comments to the panel. When the panel receives these comments, it may reconsider its report and make any further examination that it considers appropriate. Within 45 days after it presents its initial report, the panel will submit its final report. The Parties will then seek to agree on how to resolve the dispute, normally in a way that conforms to the panel's determinations and recommendations. Subject to protection of confidential information, the panel's final report will be made available to the public 15 days after the Parties receive it.

Suspension of Benefits. In disputes involving the Agreement's "commercial" obligations (*i.e.*, obligations other than enforcement of labor and environmental laws), if the Parties cannot resolve the dispute after they receive the panel's final report, the Parties will seek to agree on acceptable trade compensation. If they cannot agree on compensation, or if the complaining Party believes the defending Party has failed to implement an agreed resolution, the complaining Party may provide notice that it intends to suspend trade benefits of equivalent effect.

If the defending Party considers that the proposed level of benefits to be suspended is "manifestly excessive," or believes that it has modified the disputed measure to make it conform to the Agreement, it may request the panel to reconvene and decide the matter. The panel must issue its determination no later than 90 days after the request is made (or 120 days if the panel is reviewing both the level of the proposed suspension and a modification of the measure).

The complaining Party may suspend trade benefits up to the level that the panel sets or, if the panel has not been asked to determine the level, up to the amount that the complaining Party has proposed. The complaining Party cannot suspend benefits, however, if the defending Party provides notice that it will pay an annual monetary assessment to the other Party. The amount of the assessment will be established by agreement of the Parties or, failing that, will be set at 50 percent of the level of trade concessions the complaining Party was authorized to suspend.

Labor and Environment Disputes. Equivalent compliance procedures apply to disputes over a Party's conformity with the labor and environmental law enforcement provisions of the Agreement. If a panel determines that a Party has not met its enforcement obligations and the Parties cannot agree on how to resolve the dispute, or if the complaining Party believes that the defending Party has failed to implement an agreed resolution, the complaining Party may ask the panel to determine the amount of an annual monetary assessment to be imposed on the defending Party. The Panel will establish the amount of the assessment, subject to a $15 million annual cap, taking into account relevant trade- and non-trade-related factors. The assessment will be paid into a fund established by the Joint Committee for appropriate labor or environmental initiatives. If the defending Party fails to pay an assessment, the complaining Party may take other appropriate steps, which may include suspending tariff benefits, as necessary to collect the assessment, while bearing in mind the Agreement's objective of eliminating barriers to bilateral trade and while seeking to avoid unduly affecting parties or interests not party to the dispute.

Compliance Review Mechanism. If, at any time, the defending Party believes it has made changes in its laws or regulations sufficient to comply with its obligations under the Agreement, it may refer the matter to the panel. If the panel agrees, the dispute ends and the complaining Party must withdraw any offsetting measures it has put in place, and the defending country will be relieved of any obligation to pay a monetary assessment.

The Parties will review the operation of the compliance procedures for both commercial and labor and environment disputes either five years after the entry into force of the Agreement or within six months after benefits have been suspended or assessments paid in five proceedings initiated under this Agreement, whichever occurs first.

Chapter Twenty: Exceptions

Chapter Twenty sets out exceptions that apply to the entire Agreement. Article XX of GATT 1994 and its interpretive notes are incorporated into and made part of the Agreement and apply to those Chapters related to treatment of goods. Likewise, for the purposes of Chapters Ten (Cross Border Trade in Services), Twelve (Telecommunications), and Thirteen (Electronic Commerce), GATS Article XIV (including its footnotes) is incorporated into and made part of the Agreement. For both goods and services, the Parties understand that these exceptions include certain environmental measures.

Essential Security. Chapter Twenty allows each Party to take actions it considers necessary to protect its essential security interests.

Taxation. An exception for taxation limits the field of tax measures subject to the Agreement. For example, the exception generally provides that the Agreement does not affect either Party's rights or obligations under any tax convention. The exception sets out certain circumstances under which tax measures are subject to the Agreement's national treatment obligation for goods and national treatment and MFN obligations for services.

Disclosure of Information. The Chapter also provides that a Party may withhold information from the other Party where such disclosure would impede domestic law enforcement or otherwise be contrary to the Party's law protecting personal privacy or the financial affairs and accounts of individual customers of financial institutions.

Chapter Twenty-One: Final Provisions

Chapter Twenty-One provides that the Parties may amend the Agreement subject to applicable domestic procedures. It also provides for consultations if any provision of the WTO Agreement that the Parties have incorporated into the Agreement is amended.

Chapter Twenty-One establishes that any other country or group of countries may become a party to the Agreement on terms and conditions that are agreed upon between the country or countries and the Parties and that are approved according to each country's domestic procedures. The Chapter also permits non-application of the agreement between a Party and a newly acceding country or group of countries. It also provides for the entry into force of the Agreement and for its termination 180 days after a Party provides written notice that it intends to withdraw.
