LETTER OF TRANSMITTAL

THE WHITE HOUSE, *November 13, 2006.*

To the Senate of the United States:

With a view to receiving the advice and consent of the Senate to ratification, I transmit herewith the Geneva Act of the Hague Agreement Concerning the International Registration of Industrial Designs (the “Agreement”), adopted in Geneva on July 2, 1999, and signed by the United States on July 6, 1999. I also transmit, for the information of the Senate, a report of the Department of State with respect to the Agreement.

This Agreement promotes the ability of U.S. design owners to protect their industrial designs by allowing them to obtain multinational design protection through a single deposit procedure. Under the Agreement, U.S. design owners would be able to file for design registration in any number of the Contracting Parties with a single standardized application in English at either the U.S. Patent and Trademark Office or at the International Bureau of the World Intellectual Property Organization (WIPO). Similarly, renewal of a design registration in each Contracting Party may be made by filing a single request along with payment of the appropriate fees at the International Bureau of WIPO. This Agreement should make access to international protection of industrial designs more readily available to U.S. businesses.

In the event that the Senate provides its consent to ratify the Agreement, the United States would not deposit its instrument of ratification until the necessary implementing legal structure has been established domestically.

I recommend that the Senate give early and favorable consideration to this Agreement and give its advice and consent to its ratification, subject to the declarations described in the accompanying report of the Department of State.

GEORGE W. BUSH.

LETTER OF SUBMITTAL

DEPARTMENT OF STATE,
Washington, April 14, 2006.

The PRESIDENT,
The White House.

THE PRESIDENT: I have the honor hereby to submit to you, with a view to its transmittal to the Senate for advice and consent to ratification, the Geneva Act of the Hague Agreement Concerning the International Registration of Industrial Designs (hereinafter the "Agreement"), adopted at Geneva, July 2, 1999. This treaty was adopted under the auspices of the World Intellectual Property Organization ("WIPO") with the objective of simplifying the process of seeking protection for designs in multiple countries.

The Agreement traces its roots to the Hague Agreement Concerning the International Deposit of Industrial Designs done at The Hague, Netherlands, on November 6, 1925, which entered into force in 1928, and was revised numerous times. For the 42 current member states of the Hague Union, these existing agreements facilitate the obtainment of intellectual property protection for industrial designs by allowing multinational patent protection in a number of countries through a single "international deposit" procedure. However, these Acts did not meet the needs of nations, such as the United States, that review each application individually. This Agreement allows the United States to partake in the benefits of facilitating multinational design protection for applicants while continuing its system of individual review.

The Department of Commerce and the Office of the United States Trade Representative join the Department of State in requesting that the Geneva Act of the Hague Agreement Concerning the International Registration of Industrial Designs be transmitted to the Senate for its advice and consent to ratification as soon as possible, subject to the declarations described in the enclosed document.

Respectfully submitted.

CONDOLEEZZA RICE.

Enclosure: Key Provisions of the Geneva Act of the Hague Agreement Concerning the International Registration of Industrial Designs.

KEY PROVISIONS OF THE GENEVA ACT OF THE HAGUE AGREEMENT
CONCERNING THE INTERNATIONAL REGISTRATION OF INDUSTRIAL
DESIGNS

THE OPERATION OF THE TREATY

The Agreement will permit a U.S. design applicant to file for protection in any of the Contracting Parties, including the United States, by filing a single standardized application in English. Pursuant to Articles 3 and 4(1) of the Agreement, any person who is a national of or is domiciled in the United States may file an international design application with the United States Patent and Trademark Office (USPTO) or directly with the International Bureau (IB) of the World Intellectual Property Organization (WIPO). The filing date of the international design application is the date that the application is received by either the IB or the USPTO (Article 9(1) and Rule 13(3)).

The USPTO must transmit any application to the IB within one month from the date on which the USPTO receives it. If, however, a security clearance is required by law, then the USPTO can notify the Director General of WIPO (Director General) as to this fact, and the USPTO has six months to transmit the application to the IB.

Article 5(1) sets forth the mandatory requirements as to the contents of an international design application. Article 5(2) provides additional mandatory contents as to Contracting Parties that have an intellectual property office that is an Examining Office, such as the USPTO.

The Agreement also provides a basis for rights of priority with regard to international design applications filed under the Agreement. Article 6(1) states that the application may contain a declaration under Article 4 of the Paris Convention for the Protection of Industrial Property (1967) claiming the priority of one or more earlier applications filed in or for any country party to the Paris Convention or any member of the World Trade Organization. Article 6(2) provides that an international design application is deemed, as from its filing date and regardless of its subsequent fate, equivalent to a regular filing within the meaning of Article 4 of the Paris Convention. Thereby, international design applications under the Agreement may serve as a basis for claiming priority in a national or regional application.

Article 7 states that the fees shall include a designation fee for each designated Contracting Party. However, any Contracting Party, such as the United States, whose Office is an Examining Office, may declare that the prescribed designation fees be replaced by an individual designation fee, which may be payable in two parts.

According to Article 10(1) and Rule 15 of the Agreement, the IB will register each design that is the subject of an international design application immediately upon receipt by the IB of the application. The general rule under Article 10(2) is that the date of the international registration will be the filing date of the application, provided it is complete and complies with the mandatory requirements of the Agreement. Pursuant to Article 9(3) and Rule 14, if the application contains any of the following missing parts or irregularities, the date of the international registration is the date on which the correction is received by the IB: (1) the application is not in a prescribed language (English or French); (2) the application lacks any indication that registration under the Agreement is sought; (3) the application is missing indications allowing the identity of the applicant to be established; (4) the application lacks a reproduction, or a specimen, as required; or (5) the application does not contain the designation of at least one Contracting Party. If an irregularity is discovered other than the five listed above, the international registration date is the filing date, provided that the irregularity is corrected within the prescribed time limit of three months. If not corrected within the time limit, the application is considered abandoned. However, pursuant to Article 8(2)(b), if the irregularity relates to additional elements that may be required by an Examining Office, or to a special requirement notified to the Director General by a Contracting Party, and the applicant has not complied within the prescribed time limit of three months, the application is merely deemed not to contain the designation of the concerned Contracting Party.

In accordance with Article 10(3) and Rule 17, the IB will normally publish the international registration within six months of the registration date, unless the applicant requests that the publication be made immediately after the registration. Article 11 (1) and Rule 16(1) provide that applicants may also request deferment of publication, which shall be granted for a period of less than 30 months from the filing date if such deferment is allowed by the laws of all the Contracting Parties designated in an application. Article 11 (1)(b) provides that where a Contracting Party does not provide for the deferment of the publication of an industrial design, as is the case in the United States, the Contracting Party shall notify the Director General of that fact in a declaration.

Pursuant to Article 12(1), the USPTO may refuse registration, in whole or in part, of the international registration, when the conditions for the grant of protection under the laws of the United States are not met. Under Article 12(2), the refusal shall be communicated by the USPTO to the IB within the prescribed period of six months from the date on which the IB sends to the USPTO a copy of the publication of the international registration, as set forth in Rule 18(1)(a). However, the USPTO, as an Examining Office, may notify the Director General that the period for refusal for the United States shall be 12 months.

According to Article 14(2) and Rule 18(1), if the USPTO does not communicate a notification of refusal, the international registration will have the same effect as a grant of protection for the industrial design under the laws of the United States at the latest on the last day of the period in which USPTO could have transmitted a notice

VIII

of refusal to the IB. However, if the USPTO unintentionally does not communicate a notice of refusal within that time period, the USPTO may notify the IB and communicate the decision to the holder of the international registration promptly thereafter (Rule 18(1)(c)(ii)).

Article 14(1) provides that the international registration has the same effect in the USPTO as a regularly-filed application for the grant of protection of the design under U.S. law. The applicant has the same remedies as if the design had been the subject of a U.S. national application. Under Article 12(4), the USPTO may withdraw a notification of refusal, in whole or in part, at any time. However, in that case, a grant of protection will ensue from the latest date on which the refusal was withdrawn (see Article 14(2)(b)).

Article 15 provides that invalidation by the competent authorities in a designated Contracting Party may not be pronounced without the right holder having, in good time, the opportunity to defend his rights. Additionally, in the United States, the USPTO must, where it is aware of the invalidation, notify the IB. Article 16 provides that the IB must record changes of ownership and other matters regarding international registrations and that such changes are to have the same effect as if the recording had been made in the Office of the concerned Contracting Party.

Pursuant to Article 17, an international registration shall be effected for a term of five years from the date of international registration. Registrations may be renewed for additional terms of five years. As long as they are renewed according to Article 17(2), Article 17(3) provides that protection shall not terminate before 15 years from the date of international registration. Renewal requires the payment of fees as specified in Rule 24.

Article 19 sets forth provisions regarding a common patent office being substituted for national offices when a group of member states agrees to unify domestic legislation on designs.

Article 20 of the Agreement provides that the Contracting Parties shall be members of the “same Union as the States party to the 1934 Act or the 1960 Act,” and Article 21(1) of the Act provides that the Contracting Parties shall be members “of the same Assembly as the States bound by Article 2 of the Complementary Act of 1967.”

Article 21(2) sets forth the tasks to be performed by the Assembly. These tasks include: dealing with all matters concerning maintenance and development of the Union and the implementation of the Agreement; exercising rights and performing such tasks as are specifically conferred upon it or assigned to it under this Agreement or the Complementary Act of 1967; giving directions to the Director General concerning preparations for conferences of revision and deciding on the convocation of any such conference; amending the Regulations; giving the Director General all necessary instructions concerning matters within the competence of the Union; adopting the biennial budget and financial regulations of the Union; establishing committees and working groups as appropriate; and determining which States and organizations shall be admitted to its meetings as observers.

Article 21(4) sets forth the general voting procedures in the Assembly. Each Contracting Party that is a state shall have one vote

and shall vote only in its own name. Any Contracting Party that is an intergovernmental organization may vote in place of its member states, with a number of votes equal to the number of its member states that are party to the Agreement, but no such organization may participate in the vote if anyone of its member states exercises its right to vote, and vice versa.

Article 21(5) provides that subject to Articles 24(2) and 26(2), the decisions of the Assembly require two-thirds of the votes cast (abstentions do not count as votes). However, as is common practice in multilateral intellectual property treaties that include provisions for an assembly to facilitate treaty implementation, certain provisions of the Agreement may be amended by a super-majority of the Assembly, without the need for a revision conference. In particular, proposals for the adoption of any amendment to Articles 21, 22, 23, and 26 may be submitted by any Contracting Party or the Director General. Adoption of amendments to those Articles requires a three-fourths majority, except that amendments to Articles 21 and 26(2) shall require a four-fifths majority. Pursuant to Article 26(3), any such amendment enters into force one month after the Director General receives written notifications of acceptance from three-fourths of those Contracting Parties, which, at the time the amendment was adopted, were members of the Assembly and had the right to vote on the amendment. Pursuant to Article 26(3)(c), any such amendment that enters into force will bind all the States and intergovernmental organizations that are Contracting Parties to the Agreement.

Article 22 details the duties of the International Bureau of WIPO as they relate to the Agreement. Pursuant to Article 22(5)(c), the Director General and persons designated by the Director General shall take part, without the right to vote, in discussions at any revision conference.

Pursuant to Article 23 of the Agreement, the budget of the Union will include income and expenses proper to the Union and its contribution to the budget of expenses to the Unions administered by WIPO. Its budget will be established with due regard to the requirements of coordination with the budgets of the other WIPO Unions. The finances of the Union include a working capital fund, established pursuant to Article 23(5), which will be constituted by the excess receipts and, if such excess does not suffice, by a single payment made by each member of the Union.

The USPTO is expected to incur some initial costs for items such as new forms and other updates of procedures in order to allow for appropriate processing of international design applications under the Agreement. However, the Agreement authorizes the United States to set an individual designation fee payable in two parts that will be equivalent to the filing and issue fees currently charged with respect to a regular United States design application. The substantive requirements of chapter 16 of title 35 of the United States Code, which currently defines the substantive requirements for the patenting of designs, will also apply to international design applications. Therefore, these fees should cover the cost of processing applications filed under the Agreement. Much of the examination of an international design application will be the same as that of a regular national application for design patent.

IMPLEMENTING LEGISLATION

In the event that the Senate provides its advice and consent to ratify this Agreement, the United States would not deposit its instrument of ratification until the necessary implementing legal structure had been established domestically, so as to ensure that the United States was capable of complying with the provisions of this Agreement. Such implementation requirements include the enactment of legislation, and the promulgation of new regulations by the USPTO.

DECLARATIONS TO ACCOMPANY UNITED STATES RATIFICATION

The Agreement contemplates that Contracting Parties may make declarations with respect to certain articles. The Department of State recommends that the United States ratification to the Agreement be accompanied by nine declarations, pursuant to Agreement Articles 5(2)(a), 7(2), 11(1)(b), 13(1), 16(2), and 17(3)(c), and Agreement Rules 8(1), 13(4) and 18(1)(b).

The first listed declaration, authorized under Article 5(2)(a), permits the USPTO, as an Examining Office under the Agreement, to declare those additional elements listed in Article 5(2)(b), which it requires be included in an application for grant of protection of the design. Current United States statutes and regulations governing the protection of design patents require: indications concerning the identity of the creator of the industrial design that is the subject of the application (35 U.S.C. 114, 37 CFR 1.63(a)(3)); a brief description of the reproduction or of the characteristic features of the industrial design (35 U.S.C. 112, 1st paragraph; 37 CFR 1.154(b)(5)); and a claim (35 USC 111). In addition, Rule 11(3) of the Agreement requires that a Party making a declaration under Article 5(2)(a) to the effect that a claim is required must specify in its declaration the exact wording of the required claim (as found in 37 CFR 1.153(a)).

The USPTO has ascertained that a declaration is necessary to ensure that its substantive examination of industrial designs is maintained. Accordingly, the Department of State recommends that the following declaration be included in the U.S. instrument of ratification:

Pursuant to Article 5(2)(a) and Rule 11(3) of the Agreement, the United States declares that it is an Examining Office under the Agreement whose law requires that an application for the grant of protection to an industrial design contain: (i) indications concerning the identity of the creator of the industrial design that is the subject of the application; (ii) a brief description of the reproduction or of the characteristic features of the industrial design that is the subject of the application; and (iii) a claim. The specific wording of the claim shall be in formal terms to the ornamental design for the article (specifying name of article) as shown, or as shown and described.

The second declaration, authorized under Article 7(2), authorizes a Party whose office is an Examining Office (such as USPTO) to declare that its individual designation fee, whose amount is to be

indicated in the declaration and can be changed in future declarations, shall replace the designation fee prescribed in the Regulations of the Agreement. In addition, Rule 12(3) provides that a declaration made pursuant to Article 7(2) may also specify that the individual designation fee be payable in two parts. The first part would be paid at the time of filing and the second part would be paid at a later date determined by the law of the Contracting Party.

The USPTO has determined that such a declaration is necessary in order to keep its fees for processing international design applications filed under the Agreement the same as those for regularly filed national design applications. Further, it is necessary to have the fee payable in two parts in order to maintain USPTO's current fee practice that comprises a filing fee, due at the time of filing of the application, and an issue fee, due before the patent is to be granted. Accordingly, the Department of State recommends that the following declaration be included in the U.S. instrument of ratification:

Pursuant to Article 7(2) and Rule 12(3) of the Agreement, the United States declares that, as an Examining Office under the Agreement, the prescribed designation fee referred to in Article 7(1) of the Agreement shall be replaced by an individual designation fee, that is payable in a first part at filing and a second part payable upon allowance of the application. The current amount of the designation fee is US\$790, payable in a first part of US\$330 at filing and a second part of US\$460 upon allowance of the application. However, for those entities that qualify for "small entity" status within the meaning of section 41(h) of title 35 of the United States Code and section 3 of the Small Business Act, the amount of the individual designation fee is US\$395, payable in a first part of US\$165 and a second part of US\$230. In addition, these amounts are subject to future changes upon which notification to the Director General will be made in future declarations as authorized in Article 7(2) of the Agreement.

The third declaration, authorized by Article 11(1)(b) of the Agreement, allows the USPTO to notify the Director General that its law does not provide for deferment of publications under the Agreement. The USPTO has ascertained that such a declaration is necessary in order to prohibit deferments of publication of international design registrations designating the United States under the Agreement. Accordingly, the Department of State recommends that the U.S. instrument of ratification be accompanied by the following declaration:

Pursuant to Article 11(1)(b) of the Agreement, the United States declares that the law of the United States does not provide for the deferment of the publication of an industrial design.

The fourth declaration, authorized under Article 13(1) of the Agreement, authorizes the USPTO to maintain its restriction of allowing only one independent and distinct design to be claimed in

a single application. The USPTO has ascertained that such a declaration is necessary so that the USPTO may maintain its practice of issuing one patent for one design, which is defined by a single claim. Accordingly, the Department of State recommends that the following declaration be included in the U.S. instrument of ratification:

Pursuant to Article 13(1) of the Agreement, the United States declares that its laws require that only one independent and distinct design may be claimed in a single application.

The fifth declaration, authorized by Article 16(2) of the Agreement, allows the USPTO to refuse the effect of recordings regarding change of ownership in the international registration until the USPTO receives assignment statements or documents. This would allow the USPTO to maintain its current practice of requiring that a statement to the effect that a conveyance has been made be submitted to the USPTO and be made available to the public. Under U.S. patent law, if such an assignment is not recorded within three months, the transfer is void against subsequent bona fide purchasers or mortgagees. This protects subsequent purchasers by allowing them to view the contents of any agreement that purports to transfer ownership.

The USPTO has ascertained that such a declaration is necessary in order to maintain its current practice of requiring that assignment documents be provided to the USPTO before they are given effect. Accordingly, the Department of State recommends that the United States instrument of ratification be accompanied by the following declaration:

Pursuant to Article 16(2) of the Agreement, the United States declares that a recording by the International Bureau under Article 16(1)(i) of the Agreement shall not have effect in the United States until the USPTO has received the statements or documents recorded thereby.

The sixth declaration is mandated by Article 17(3)(c) of the Agreement. That Article requires that each Contracting Party notify the Director General as to the maximum duration of protection provided for by its law. Accordingly, the Department of State recommends that the U.S. instrument of ratification be accompanied by the following declaration:

Pursuant to Article 17(3)(c) of the Agreement, the United States declares that the maximum duration of protection for designs provided for by its law is 15 years from grant.

The seventh declaration, authorized by Rule 8(1)(a) of the Agreement, allows the USPTO to continue its practice of requiring that an application for the protection of an industrial design be filed in the name of the creator of the design. In addition, Rule 8(1)(b) states that any declaration pursuant to Rule 8(1)(a) specify the form and mandatory contents of any statement or document required for the purposes of that rule.

The USPTO has determined that such a declaration is necessary in order to maintain its current examination practice of requiring

XIII

that the applicant for protection of an industrial design be the creator of that design. Accordingly, the Department of State recommends that the United States instrument of ratification be accompanied by the following declaration:

Pursuant to Rule 8(1) of the Agreement, the United States declares that the law of the United States requires that an application for protection of an industrial design be filed in the name of the creator of the industrial design. The specific form and mandatory contents of a statement required for the purposes of Rule 8(2) of the Agreement are contained in section 1.63 of title 37 of the Code of Federal Regulations of the United States.

The eighth declaration, authorized by Rule 13(4) of the Agreement, allows the USPTO to notify the Director General that the law of the United States requires a security clearance and that the period of one month identified in Rule 13(3) for the Office of a Contracting Party to forward an application to the IB, shall be replaced by a period of six months. This will allow for time to complete the security review of the applications currently required by 35 U.S.C. 181, *et seq.*

The USPTO has ascertained that a declaration is necessary in order to ensure that international design applications can be reviewed for secrecy and security purposes. Accordingly, the Department of State recommends that the following declaration be included in the U.S. instrument of ratification:

Pursuant to Rule 13(4) of the Agreement, the United States declares that the period of one month referred to in Rule 13(3) of the Agreement shall be replaced by a period of six months as to the United States in light of the security clearance required by United States law.

The ninth declaration, authorized by Rule 18(1)(b), allows the USPTO, as an Examining Office, to notify the Director General that the period of six months for notification of refusal referred to in Rule 18(1)(a) shall be replaced by a period of 12 months as to the United States. The USPTO has ascertained that such a declaration is necessary in order to maintain the integrity of its substantive examination procedures for applications filed under the Agreement. Accordingly, the Department of State recommends that the following declaration be included in the U.S. instrument of ratification:

Pursuant to Rule 18(1)(b), the United States declares that the period of six months referred to in Rule 18(1)(a) of the Agreement shall be replaced by a period of twelve months with respect to the United States, as the Office of the United States is an Examining Office under the Agreement.”

Article 1

Nationals of any of the contracting countries, as well as persons who, upon the territory of the restricted Union, have satisfied the conditions of Article 3 of the General Convention, may, in all the other contracting countries, secure protection for their industrial designs by means of an international deposit made at the International Bureau of Industrial Property at Berne.

Article 2

(1) The international deposit shall include designs, either in the form of the industrial product for which they are intended, or in the form of a drawing, a photograph, or any other adequate graphic representation of the said design.

(2) The articles submitted shall be accompanied by an application for international deposit, in duplicate, containing, in French, the particulars specified in the Regulations.

Article 3

(1) As soon as the International Bureau receives an application for international deposit it shall record the application in a special Register and shall publish it, sending free of charge to each Office the desired number of copies of the periodical journal in which it publishes such records.

(2) Deposits shall be kept in the archives of the International Bureau.

Article 4

(1) Any person making an international deposit of an industrial design shall, in the absence of proof to the contrary, be deemed to be the owner of the work.

(2) International deposit is purely declaratory. The deposit, as such, shall have in the contracting countries the same effect as if the designs had been deposited there direct on the date of the international deposit, subject however to the special rules established by this Agreement.

(3) The publicity mentioned in the foregoing Article shall be deemed in all the contracting countries to be sufficient, and no other publicity may be required of the depositor, apart from any formalities to be complied with for the exercise of rights in accordance with the domestic law.

(4) The right of priority established by Article 4 of the General Convention shall be guaranteed to every design which has been the subject of an international deposit, without requiring compliance with any of the formalities prescribed in the said Article.

Article 5

The contracting countries agree not to require designs which have been the subject of an international deposit to bear any compulsory marking. They shall not cause the designs to lapse either by reason of non-exploitation or as a result of the introduction of articles similar to those protected.

Article 6

(1) The international deposit may consist of either a single design or several, the number thereof being stated in the application.

(2) Such deposit may be made under open cover or under sealed cover. In particular, there shall be accepted as a means of deposit under sealed cover double envelopes having a perforated control number (Soleau system) or any other system for ensuring identification.

(3) The maximum dimensions of covers or packets eligible for deposit shall be fixed by the Regulations.

Article 7

The duration of international protection is fixed at fifteen years from the date of deposit at the International Bureau at Berne; this term is divided into two periods, namely, one period of five years and one period of ten years.

Article 8

During the first period of protection, deposits shall be accepted either under open cover or under sealed cover; during the second period of protection, they shall be accepted only under open cover.

Article 9

During the first period, deposits under sealed cover may be opened at the request of the depositor or of a competent court; upon expiration of the first period, they shall, with a view to transition to the second period, be opened upon application for prolongation.

Article 10

In the course of the first six months of the fifth year of the first period, the International Bureau shall give unofficial notice of expiration to the depositor of the design.

Article 11

(1) When the depositor desires to secure extension of the protection by transition to the second period he shall, before the expiration of the first period, file with the International Bureau an application for prolongation.

(2) The International Bureau shall open the package, if sealed, shall publish in its journal notice of the prolongation granted, and shall notify all Offices thereof by sending to each the desired number of copies of the said journal.

Article 12

Designs forming the subject of deposits which have not been prolonged, as well as those in respect of which protection has expired, shall, upon the request of the proprietors and at their expense, be returned to them as they stand. If unclaimed, they shall be destroyed at the end of two years.

Article 13

(1) Depositors may, at any time, renounce their deposit, either wholly or in part, by means of a declaration addressed to the International Bureau; the Bureau shall give such declaration the publicity referred to in Article 3.

(2) Renunciation shall entail the return of the deposit to the depositor, at his expense.

Article 14

If a court or any other competent authority orders the communication to it of a secret design, the International Bureau, when duly required, shall open the deposited package, shall extract therefrom the requested design, and shall remit it to the authority so requiring. Similar communication shall take place on request in the case of an unsealed design. The article thus communicated shall be returned in the shortest possible time and reincorporated in the sealed package or in the envelope, as the case may be. Such transactions may be subject to a fee, which shall be fixed by the Regulations.

Article 15

The fees for an international deposit and for the prolongation thereof, which shall be paid before registration of the deposit or of the prolongation can be proceeded with, shall be as follows:

1. for a single design, and in respect of the first period of five years: 5 francs;
2. for a single design, upon expiration of the first period and in respect of the duration of the second period of ten years: 10 francs;
3. for a multiple deposit, and in respect of the first period of five years: 10 francs;
4. for a multiple deposit, upon expiration of the first period and in respect of the duration of the second period of ten years: 50 francs.

Article 16

The net annual proceeds from fees shall be divided, as provided in Article 8 of the Regulations, among the contracting countries by the International Bureau, after deduction of the common expenses necessitated by the implementation of this Agreement.

Article 17

(1) The International Bureau shall record in its Registers all changes affecting the proprietorship of designs which are notified to it by the parties concerned; it shall publish them in its journal and shall announce them to all Offices by sending to each the desired number of copies of the said journal.

(2) These transactions may be subject to a fee, which shall be fixed by the Regulations.

(3) The proprietor of an international deposit may assign the rights in respect of part only of the designs included in a multiple deposit or in respect of one or several of the contracting countries only; but, in such cases, if the deposit has been made under sealed cover, the International Bureau shall open the package before recording the transfer in its Registers.

Article 18

(1) The International Bureau shall deliver to any person, upon application, and on payment of a fee fixed by the Regulations, an abstract of the entries in the Register in connection with any given design.

(2) Such abstract may, if the design lends itself thereto, be accompanied by a copy or a reproduction of the design, which has been supplied to the International Bureau and which the latter shall certify as being in conformity with the article deposited under open cover. If the Bureau is not in possession of such copies or reproductions, it shall have them made, on the request of interested parties and at their expense.

Article 19

The archives of the International Bureau, in so far as they contain unsealed deposits, shall be accessible to the public. Any person may inspect them, in the presence of an official, or may obtain from the Bureau written information on the contents of the Register, subject to payment of fees to be fixed by the Regulations.

Article 20

The details of the application of this Agreement shall be determined by Regulations the provisions of which may, at any time, be amended with the common consent of the Offices of the contracting countries.

Article 21

The provisions of this Agreement offer only a minimum of protection; they shall not preclude the claiming of the application of wider provisions that may be enacted by the domestic legislation of a contracting country, nor shall they prejudice the application of the provisions of the Berne Convention, as revised in 1928, relating to the protection of artistic works and works of art applied to industry.

Article 22

(1) Countries members of the Union which are not party to this Agreement may accede thereto at their request and in the manner prescribed by Articles 16 and 16bis of the General Convention.

(2) Notification of accession shall, of itself, ensure, upon the territory of the acceding country, the benefits of the foregoing provisions to industrial designs which, at the time of accession, are the subject of international deposit.

(3) However, any country may, in acceding to this Agreement, declare that application of this Act shall be limited to designs deposited from the date on which its accession becomes effective.

(4) In the case of denunciation of this Agreement, Article 17bis of the General Convention shall apply. International designs deposited up to the date on which denunciation becomes effective shall continue, throughout the period of international protection, to enjoy in the denouncing country, as well as in all other countries of the restricted Union, the same protection as if they had been deposited direct in such Countries.

Article 23

(1) This Agreement shall be ratified and ratifications shall be deposited at London not later than July 1, 1938.

(2) It shall enter into force, between the countries which have ratified it, one month after that date, and shall have the same force and duration as the General Convention.

(3) This Act shall, as regards the relations between the countries which have ratified it, replace the Hague Agreement of 1925. However, the latter shall remain in force as regards the relations with countries which have not ratified this Act.

Protocol: Possible Application of the 1960 Act by a Contracting State to International Deposits Originating in That State

Article 1

(1) The contracting States constitute a Special Union for the international deposit of industrial designs.

(2) Only States members of the International Union for the Protection of Industrial Property may become party to this Agreement.

Article 2

For the purposes of this Agreement:

“1925 Agreement” shall mean the Hague Agreement concerning the International Deposit of Industrial Designs of November 6, 1925;

“1934 Agreement” shall mean the Hague Agreement concerning the International Deposit of Industrial Designs of November 6, 1925, as revised at London on June 2, 1934;

“this Agreement” or “the present Agreement” shall mean the Hague Agreement concerning the International Deposit of Industrial Designs as established by the present Act;

“Regulations” shall mean the Regulations for carrying out this Agreement;

“International Bureau” shall mean the International Bureau of Intellectual Property;

“international deposit” shall mean a deposit made at the International Bureau;

“national deposit” shall mean a deposit made at the national Office of a contracting State;

“multiple deposit” shall mean a deposit including several designs;

“State of origin of an international deposit” shall mean the contracting State in which the applicant has a real and effective industrial or commercial establishment or, if the applicant has such establishments in several contracting States, the contracting State which he has indicated in his application; if the applicant has no such establishment in any contracting State, the contracting State in which he has his domicile; if he has no domicile in a contracting State, the contracting State of which he is a national;

“State having a novelty examination” shall mean a contracting State the domestic law of which provides for a system which involves a preliminary *ex officio* search and examination by its national Office as to the novelty of each deposited design.

Article 3

Nationals of contracting States and persons who, without being nationals of any contracting State, are domiciled or have a real and effective industrial or commercial establishment in the territory of a contracting State may deposit designs at the International Bureau.

Article 4

(1) International deposit may be made at the International Bureau:

1. direct, or
2. through the intermediary of the national Office of a contracting State if the law of that State so permits.

(2) The domestic law of any contracting State may require that international deposits of which it is deemed to be the State of origin shall be made through its national Office. Non-compliance with this requirement shall not prejudice the effects of the international deposit in the other contracting States.

Article 5

(1) The international deposit shall consist of an application and one or more photographs or other graphic representations of the design, and shall involve payment of the fees prescribed by the Regulations.

(2) The application shall contain:

1. a list of the contracting States in which the applicant requests that the international deposit shall have effect;
2. the designation of the article or articles in which it is intended to incorporate the design;
3. if the applicant wishes to claim the priority provided for in Article 9, an indication of the date, the State, and the number of the deposit giving rise to the right of priority;
4. such other particulars as the Regulations may prescribe.

(3) (a) In addition, the application may contain:

1. a short description of characteristic features of the design;
2. a declaration as to who is the true creator of the design;
3. a request for deferment of publication as provided in Article 6(4).

(b) The application may be accompanied also by samples or models of the article or articles incorporating the design.

(4) A multiple deposit may include several designs intended to be incorporated in articles included in the same class of the International Design Classification referred to in Article 21(2), item 4.

Article 6

(1) The International Bureau shall maintain the International Design Register and shall register international deposits therein.

(2) The international deposit shall be deemed to have been made on the date on which the International Bureau received the application in due form, the fees payable with the application, and the photograph or photographs or other graphic representations of the design, or, if the International Bureau received them on different dates, on the last of these dates. The registration shall bear the same date.

(3) (a) For each international deposit, the International Bureau shall publish in a periodical bulletin:

1. reproductions in black and white or, at the request of the applicant, in color of the deposited photographs or other graphic representations;
2. the date of the international deposit;
3. the particulars prescribed by the Regulations.

(b) The International Bureau shall send the periodical bulletin to the national Offices as soon as possible.

(4) (a) The publication referred to in paragraph (3)(a) shall, at the request of the applicant, be deferred for such period as he may request. The said period may not exceed twelve months from the date of the international deposit. However, if priority is claimed, the starting date of such period shall be the priority date.

(b) At any time during the period referred to in subparagraph (a), the applicant may request immediate publication or may withdraw his deposit. Withdrawal of the deposit may be limited to one or a few only of the contracting States and, in the case of a multiple deposit, to some only of the designs included therein.

(c) If the applicant fails to pay within the proper time the fees payable before the expiration of the period referred to in subparagraph (a), the International Bureau shall cancel the deposit and shall not effect the publication referred to in paragraph (3)(a).

(d) Until the expiration of the period referred to in subparagraph (a), the International Bureau shall keep in confidence the registration of deposits made subject to deferred publication, and the public shall have no access to any documents or articles concerning such deposits. These provisions shall apply without limitation as to time if the applicant has withdrawn his deposit before the expiration of the said period.

(5) Except as provided in paragraph (4), the Register and all documents and articles filed with the International Bureau shall be open to inspection by the public.

Article 7

(1) (a) A deposit registered at the International Bureau shall have the same effect in each of the contracting States designated by the applicant in his application as if all the formalities required by the domestic law for the grant of protection had been complied with by the applicant and as if all administrative acts required to that end had been accomplished by the Office of such State.

(b) Subject to the provisions of Article 11, the protection of designs the deposit of which has been registered at the International Bureau is governed in each contracting State by those provisions of the domestic law which are applicable in that State to designs for which protection has been claimed on the basis of a national deposit and in respect of which all formalities and administrative acts have been complied with and accomplished.

(2) An international deposit shall have no effect in the State of origin if the laws of that State so provide.

Article 8

(1) Notwithstanding the provisions of Article 7, the national Office of a contracting State whose domestic law provides that the national Office may, on the basis of an administrative *ex officio* examination or pursuant to an opposition by a third party, refuse protection shall, in case of refusal, notify the International Bureau within six months that the design does not meet the requirements of its domestic law other than the formalities and administrative acts referred to in Article 7(1). If no such refusal is notified within a period of six months the international deposit shall become effective in that State as

from the date of that deposit. However, in a contracting State having a novelty examination, the international deposit, while retaining its priority, shall, if no refusal is notified within a period of six months, become effective from the expiration of the said period unless the domestic law provides for an earlier date for deposits made with its national Office.

(2) The period of six months referred to in paragraph (1) shall be computed from the date on which the national Office receives the issue of the periodical bulletin in which the registration of the international deposit has been published. The national Office shall communicate that date to any person so requesting.

(3) The applicant shall have the same remedies against the refusal of the national Office referred to in paragraph (1) as if he had deposited his design in that Office; in any case, the refusal shall be subject to a request for re-examination or appeal. Notification of such refusal shall indicate:

1. the reasons for which it has been found that the design does not meet the requirements of the domestic law;
2. the date referred to in paragraph (2);
3. the time allowed for a request for re-examination or appeal;
4. the authority to which such request or appeal may be addressed.

(4) (a) The national Office of a contracting State whose domestic law contains provisions of the kind referred to in paragraph (1) requiring a declaration as to who is the true creator of the design or a description of the design may provide that, upon request and within a period of not less than sixty days from the dispatch of such a request by the said Office, the applicant shall file in the language of the application filed with the International Bureau:

1. a declaration as to who is the true creator of the design;
2. a short description emphasizing the essential characteristic features of the design as shown by the photographs or other graphic representations.

(b) No fees shall be charged by a national Office in connection with the filing of such declarations or descriptions, or for their possible publication by that national Office.

(5) (a) Any contracting State whose domestic law contains provisions of the kind referred to in paragraph (1) shall notify the International Bureau accordingly.

(b) If, under its legislation, a contracting State has several systems for the protection of designs one of which provides for novelty examination, the provisions of this Agreement concerning States having a novelty examination shall apply only to the said system.

Article 9

If the international deposit of a design is made within six months of the first deposit of the same design in a State member of the International Union for the Protection of Industrial Property, and if priority is claimed for the international deposit, the priority date shall be that of the first deposit.

Article 10

(1) An international deposit may be renewed every five years by payment only, during the last year of each period of five years, of the renewal fees prescribed by the Regulations.

(2) Subject to the payment of a surcharge fixed by the Regulations, a period of grace of six months shall be granted for renewal of the international deposit.

(3) At the time of paying the renewal fees, the international deposit number must be indicated and also, if renewal is not to be effected for all the contracting States for which the deposit is about to expire, those of the contracting States for which the renewal is to be effected.

(4) Renewal may be limited to some only of the designs included in a multiple deposit.

(5) The International Bureau shall record and publish renewals.

Article 11

(1) (a) The term of protection granted by a contracting State to designs which have been the subject of an international deposit shall not be less than:

1. ten years from the date of the international deposit if the deposit has been renewed;
2. five years from the date of the international deposit in the absence of renewal.

(b) However, if, under the provisions of the domestic law of a contracting State having a novelty examination, protection commences at a date later than that of the international deposit, the minimum terms provided for in subparagraph (a) shall be computed from the date at which protection commences in that State. The fact that the international deposit is not renewed or is renewed only once shall in no way affect the minimum terms of protection thus defined.

(2) If the domestic law of a contracting State provides, in respect of designs which have been the subject of a national deposit, for protection whose duration, with or without renewal, is longer than ten years, protection of the same duration shall, on the basis of the international deposit and its renewals, be granted in that State to designs which have been the subject of an international deposit.

(3) A contracting State may, under its domestic law, limit the term of protection of designs which have been the subject of an international deposit to the terms provided for in paragraph (1).

(4) Subject to the provisions of paragraph (1)(b), protection in a contracting State shall terminate at the date of expiration of the international deposit, unless the domestic law of that State provides that protection shall continue after the date of expiration of the international deposit.

Article 12

(1) The International Bureau shall record and publish changes affecting ownership of a design which is the subject of an international deposit in force. It is understood that transfer of ownership may be limited to the rights arising from the international deposit in one or a few only of the contracting States and, in the case of a multiple deposit, to some only of the designs included therein.

(2) The recording referred to in paragraph (1) shall have the same effect as if it had been made in the national Offices of the contracting States.

Article 13

(1) The owner of an international deposit may, by means of a declaration addressed to the International Bureau, renounce his rights in respect of all or some only of the contracting States and, in the case of a multiple deposit, in respect of some only of the designs included therein.

(2) The International Bureau shall record and publish such declaration.

Article 14

(1) No contracting State may, as a condition of recognition of the right to protection, require that the article incorporating the design bear a sign or notice concerning the deposit of the design.

(2) If the domestic law of a contracting State provides for a notice on the article for any other purpose, such State shall regard such requirement as satisfied if all the articles offered to the public with the authorization of the owner of the rights in the design, or the tags attached to such articles, bear the international design notice.

(3) The international design notice shall consist of the symbol © (a capital D in a circle) accompanied by:

1. the year of the international deposit and the name, or the usual abbreviation of the name, of the depositor, or
2. the number of the international deposit.

(4) The mere appearance of the international design notice on the article or the tags shall in no case be interpreted as implying a waiver of protection by virtue of copyright or on any other grounds, whenever, in the absence of such notice, such protection may be claimed.

Article 15

(1) The fees prescribed by the Regulations shall consist of:

1. fees for the International Bureau;
2. fees for the contracting States designated by the applicant, namely:

(a) a fee for each contracting State;

(b) a fee for each contracting State having a novelty examination and requiring the payment of a fee for such examination.

(2) Any fees paid in respect of one and the same deposit for a contracting State under paragraph (1), item 2(a), shall be deducted from the amount of the fee referred to in paragraph (1), item 2(b), if the latter fee becomes payable for the same State.

Article 16

(1) The fees for contracting States referred to in Article 15(1), item 2, shall be collected by the International Bureau and paid over annually to the contracting States designated by the applicant.

(2) (a) Any contracting State may notify the International Bureau that it waives its right to the supplementary fees referred to in Article 15(1), item 2(a), in respect of international deposits of which any other contracting State making a similar waiver is deemed to be the State of origin.

(b) Such State may make a similar waiver in respect of international deposits of which it is itself deemed to be the State of origin.

Article 17

The Regulations shall govern the details concerning the implementation of this Agreement and in particular:

1. the languages and the number of copies in which the application for deposit must be filed, and the data to be supplied in the application;
2. the amounts and the dates and method of payment of the fees for the International Bureau and for the States, including the limits imposed on the fee for contracting States having a novelty examination;
3. the number, size, and other characteristics, of the photographs or other graphic representations of each design deposited;
4. the length of the description of characteristic features of the design;
5. the limits within which and conditions under which samples or models of the articles incorporating the design may accompany the application;
6. the number of designs that may be included in a multiple deposit and other conditions governing multiple deposits;

7. all matters relating to the publication and distribution of the periodical bulletin referred to in Article 6(3)(a), including the number of copies of the bulletin which shall be given free of charge to the national Offices and the number of copies which may be sold at a reduced price to such Offices;

8. the procedure for notification by contracting States of any refusal provided for under Article 8(1), and the procedure for communication and publication of such refusals by the International Bureau;

9. the conditions for recording and publication by the International Bureau of the changes affecting the ownership of a design referred to in Article 12(1), and for the renunciations referred to in Article 13;

10. the disposal of documents and articles concerning deposits for which the possibility of renewal has ceased to exist.

Article 18

The provisions of this Agreement shall not preclude the making of a claim to the benefit of any greater protection which may be granted by domestic legislation in a contracting State, nor shall they affect in any way the protection accorded to works of art and works of applied art by international copyright treaties and conventions.

Articles 19 to 22

[Repealed by Article 7(2) of the Complementary Act of Stockholm (1967)]

Article 23

(1) This Agreement shall remain open for signature until December 31, 1961.

(2) It shall be ratified and the instruments of ratification shall be deposited with the Government of the Netherlands.

Article 24

(1) States members of the International Union for the Protection of Industrial Property which have not signed this Agreement may accede thereto.

(2) Such accessions shall be notified through diplomatic channels to the Director General, and by the latter to the Governments of all contracting States.

Article 25

(1) Each contracting State undertakes to provide for the protection of industrial designs and to adopt, in accordance with its constitution, the measures necessary to ensure the application of this Agreement.

(2) At the time a contracting State deposits its instrument of ratification or accession, it must be in a position under its domestic law to give effect to the provisions of this Agreement.

Article 26

(1) This Agreement shall enter into force one month after the date on which the Director General has dispatched a notification to the contracting States of the deposit of ten instruments of ratification or accession, at least four of which are those of States which, at the date of the present Agreement, are not party either to the 1925 Agreement or to the 1934 Agreement.

(2) Thereafter, the deposit of instruments of ratification and accession shall be notified to the contracting States by the Director General. Such ratifications and accessions shall become effective one month after the date of the dispatch of such notification unless, in the case of accession, a later date is indicated in the instrument of accession.

Article 27

Any contracting State may at any time notify the Director General that this Agreement shall also apply to all or part of those territories for the external relations of which it is responsible. Thereupon, the Director General shall communicate such notification to the contracting States and the Agreement shall apply also to the said territories one month after the dispatch of the communication by the Director General to the contracting States unless a later date is indicated in the notification.

Article 28

(1) Any contracting State may, by notification addressed to the Director General, denounce this Agreement in its own name and on behalf of all or part of the territories designated in the notification under Article 27. Such notification shall take effect one year after its receipt by the Director General.

(2) Denunciation shall not relieve any contracting State of its obligations under this Agreement in respect of designs deposited at the International Bureau prior to the date on which the denunciation takes effect.

Article 29

(1) This Agreement shall be submitted to revision with a view to the introduction of amendments designed to improve the protection resulting from the international deposit of designs.

(2) Revision conferences shall be called at the request of not less than one-half of the contracting States.

(1) This Agreement alone shall be applicable as regards the mutual relations of States party to both the present Agreement and the 1925 Agreement or the 1934 Agreement. However, such States shall, in their mutual relations, apply the 1925 Agreement or the 1934 Agreement, as the case may be, to designs deposited at the International Bureau prior to the date on which the present Agreement becomes applicable as regards their mutual relations.

(2) (a) Any State party to both the present Agreement and the 1925 Agreement shall continue to apply the 1925 Agreement in its relations with States party only to the 1925 Agreement, unless the said State has denounced the 1925 Agreement.

(b) Any State party to both the present Agreement and the 1934 Agreement shall continue to apply the 1934 Agreement in its relations with States party only to the 1934 Agreement, unless the said State has denounced the 1934 Agreement.

Article 32

(1) Signature and ratification of, or accession to, the present Agreement by a State party, at the date of this Agreement, to the 1925 Agreement or the 1934 Agreement shall be deemed to include signature and ratification of, or accession to, the Protocol annexed to the present Agreement, unless such State makes an express declaration to the contrary at the time of signing or depositing its instrument of accession.

(2) Any contracting State having made the declaration referred to in paragraph (1), or any other contracting State not party to the 1925 Agreement or the 1934 Agreement, may sign or accede to the Protocol annexed to this Agreement. At the time of signing or depositing its instrument of accession, it may declare that it does not consider itself bound by the provisions of paragraphs (2)(a) or (2)(b) of the Protocol; in such case, the other States party to the Protocol shall be under no obligation to apply, in their relations with that State, the provisions mentioned in such declaration. The provisions of Articles 23 to 28 inclusive shall apply by analogy.

Article 33

This Act shall be signed in a single copy which shall be deposited in the archives of the Government of the Netherlands. A certified copy shall be transmitted by the latter to the Government of each State which has signed or acceded to this Agreement.

PROTOCOL*

States party to this Protocol have agreed as follows:

(1) The provisions of this Protocol shall apply to designs which have been the subject of an international deposit and of which one of the States party to this Protocol is deemed to be the State of origin.

(2) In respect of designs referred to in paragraph (1), above:

(a) the term of protection granted by States party to this Protocol to the designs referred to in paragraph (1) shall not be less than fifteen years from the date provided for in paragraphs (1)(a) or (1)(b), as the case may be, of Article 11;

Article 1

(1) Over and above the fees established in Article 15 of the Hague Agreement as revised at London, the following additional fees shall be payable in respect of the transactions hereinafter specified, that is to say:

1. for the deposit of a single design and in respect of the first period of five years: 20 Swiss francs;
2. for the deposit of a single design, upon expiration of the first period and in respect of the duration of the second period of ten years: 40 Swiss francs;
3. for a multiple deposit and in respect of the first period of five years: 50 Swiss francs;
4. for a multiple deposit, upon expiration of the first period and in respect of the duration of the second period of ten years: 200 Swiss francs.

(2) If the fees prescribed in Article 15.2 and Article 15.4 of the Hague Agreement as revised at London have been paid after the date of this Act but before its entry into force--the latter being determined for each State in accordance with the provisions of paragraphs 7(2) and 7(3) where the first period of protection expires after such entry into force, the person making the deposit must pay the additional prolongation fee specified in items (1)2 and (1)4 of this Article. Upon entry into force of this Act, the International Bureau shall advise the depositors concerned that they must pay the additional fee within a period of six months from the receipt of such notice. If payment is not effected within such period the prolongation shall be deemed to be null and the reference thereto shall be deleted from the Register. In such case, the fee for prolongation already paid shall be refunded.

Article 2

Additional fees of 20 Swiss francs or 10 Swiss francs shall likewise be payable in respect of every other transaction provided for by the Hague Agreement as revised at London and for which the Regulations of the said Agreement prescribe a fee of 5 Swiss francs or 2.50 Swiss francs.

Article 3

(1) The fees prescribed in Articles 1 and 2 of this Act may be modified on the proposal of the International Bureau or of the Swiss Government, in accordance with the procedure hereinafter defined.

(2) Such proposals shall be communicated to the Offices of States party to this Act, which shall communicate their views to the International Bureau within a period of six months. If, after that period, a modification of a fee is adopted by a majority of the said Offices without giving rise to any opposition, such modification shall enter into force on the first day of the month following the date of dispatch of the notification thereof by the International Bureau to the aforesaid Offices.

Article 4

(1) There shall be established from the excess receipts derived from the application of the additional fees a reserve fund not exceeding 50,000 Swiss francs.

(2) When the reserve fund has reached this amount, any further excess receipts shall be distributed among the States party to this Act in proportion to the number of designs deposited by their nationals, or by the other persons referred to in Article 1 of the Hague Agreement as revised at London.

Article 5

For such time as all countries members of the Union created by the Hague Agreement as revised at London are not party to this Act or to the Hague Agreement of November 28, 1960, the International Bureau shall draw up separate accounts for countries which are party to this Act and for those which are party only to the Hague Agreement as revised at London.

Article 6

(1) This Act shall remain open for signature until March 31, 1962.

(3) As regards States which deposit their instruments of ratification subsequently to the deposit of the second such instrument of ratification as is mentioned in the preceding paragraph, this Act shall enter into force upon expiration of a period of one month from the date of dispatch by the Government of the Swiss Confederation to the contracting States of the notification of the deposit of the instrument of ratification concerned.

Article 8

This Act shall be signed in a single copy and shall be deposited in the archives of the Government of the Principality of Monaco. A certified copy thereof shall be sent by the latter to each of the Governments of the countries of the Hague Union.

Article 11 *Deferment of Publication*

(1) [*Provisions of Laws of Contracting Parties Concerning Deferment of Publication*] (a) Where the law of a Contracting Party provides for the deferment of the publication of an industrial design for a period which is less than the prescribed period, that Contracting Party shall, in a declaration, notify the Director General of the allowable period of deferment.

(b) Where the law of a Contracting Party does not provide for the deferment of the publication of an industrial design, the Contracting Party shall, in a declaration, notify the Director General of that fact.

(2) [*Deferment of Publication*] Where the international application contains a request for deferment of publication, the publication shall take place,

(i) where none of the Contracting Parties designated in the international application has made a declaration under paragraph (1), at the expiry of the prescribed period or,

(ii) where any of the Contracting Parties designated in the international application has made a declaration under paragraph (1)(a), at the expiry of the period notified in such declaration or, where there is more than one such designated Contracting Party, at the expiry of the shortest period notified in their declarations.

(3) [*Treatment of Requests for Deferment Where Deferment Is Not Possible Under Applicable Law*] Where deferment of publication has been requested and any of the Contracting Parties designated in the international application has made a declaration under paragraph (1)(b) that deferment of publication is not possible under its law,

(i) subject to item (ii), the International Bureau shall notify the applicant accordingly; if, within the prescribed period, the applicant does not, by notice in writing to the International Bureau, withdraw the designation of the said Contracting Party, the International Bureau shall disregard the request for deferment of publication;

(ii) where, instead of containing reproductions of the industrial design, the international application was accompanied by specimens of the industrial design, the International Bureau shall disregard the designation of the said Contracting Party and shall notify the applicant accordingly.

(4) [*Request for Earlier Publication or for Special Access to the International Registration*] (a) At any time during the period of deferment applicable under paragraph (2), the holder may request publication of any or all of the industrial designs that are the subject of the international registration, in which case the period of deferment in respect of such industrial design or designs shall be considered to have expired on the date of receipt of such request by the International Bureau.

(b) The holder may also, at any time during the period of deferment applicable under paragraph (2), request the International Bureau to provide a third party specified by the holder with an extract from, or to allow such a party access to, any or all of the industrial designs that are the subject of the international registration.

(5) [*Renunciation and Limitation*] (a) If, at any time during the period of deferment applicable under paragraph (2), the holder renounces the international registration in respect of all the designated Contracting Parties, the industrial design or designs that are the subject of the international registration shall not be published.

(b) If, at any time during the period of deferment applicable under paragraph (2), the holder limits the international registration, in respect of all of the designated Contracting Parties, to one or some of the industrial designs that are the subject of the international registration, the other industrial design or designs that are the subject of the international registration shall not be published.

(6) [*Publication and Furnishing of Reproductions*] (a) At the expiration of any period of deferment applicable under the provisions of this Article, the International Bureau shall, subject to the payment of the prescribed fees, publish the international registration. To the extent that the holder does not do so, the international registration shall be canceled and publication shall not take place.

Article 12
Refusal

(1) *[Right to Refuse]* The Office of any designated Contracting Party may, where the conditions for the grant of protection under the law of that Contracting Party are not met in respect of any or all of the industrial designs that are the subject of an international registration, refuse the effects, in part or in whole, of the international registration in the territory of the said Contracting Party, provided that no Office may refuse the effects, in part or in whole, of any international registration on the ground that requirements relating to the form or contents of the international application that are provided for in this Act or the Regulations or are additional to, or different from, those requirements have not been satisfied under the law of the Contracting Party concerned.

(2) *[Notification of Refusal]* (a) The refusal of the effects of an international registration shall be communicated by the Office to the International Bureau in a notification of refusal within the prescribed period.

(b) Any notification of refusal shall state all the grounds on which the refusal is based.

(3) *[Transmission of Notification of Refusal; Remedies]* (a) The International Bureau shall, without delay, transmit a copy of the notification of refusal to the holder.

(b) The holder shall enjoy the same remedies as if any industrial design that is the subject of the international registration had been the subject of an application for the grant of protection under the law applicable to the Office that communicated the refusal. Such remedies shall at least consist of the possibility of a re-examination or a review of the refusal or an appeal against the refusal.

(4)² *[Withdrawal of Refusal]* Any refusal may be withdrawn, in part or in whole, at any time by the Office that communicated it.

Article 13

Special Requirements Concerning Unity of Design

(1) *[Notification of Special Requirements]* Any Contracting Party whose law, at the time it becomes party to this Act, requires that designs that are the subject of the same application conform to a requirement of unity of design, unity of production or unity of use, or belong to the same set or composition of items, or that only one independent and distinct design may be claimed in a single application, may, in a declaration, notify the Director General accordingly. However, no such declaration shall affect the right of an applicant to include two or more industrial designs in an international application in accordance with Article 5(4), even if the application designates the Contracting Party that has made the declaration.

(2) *[Effect of Declaration]* Any such declaration shall enable the Office of the Contracting Party that has made it to refuse the effects of the international registration pursuant to Article 12(1) pending compliance with the requirement notified by that Contracting Party.

² When adopting Article 12(4), Article 14(2)(b) and Rule 18(4), the Diplomatic Conference understood that a withdrawal of refusal by an Office that has communicated a notification of refusal may take the form of a statement to the effect that the Office concerned has decided to accept the effects of the international registration in respect of the industrial designs, or some of the industrial designs, to which the notification of refusal related. It was also understood that an Office may, within the period allowed for communicating a notification of refusal, send a statement to the effect that it has decided to accept the effects of the international registration even where it has not communicated such a notification of refusal.

(3) *[Further Fees Payable on Division of Registration]* Where, following a notification of refusal in accordance with paragraph (2), an international registration is divided before the Office concerned in order to overcome a ground of refusal stated in the notification, that Office shall be entitled to charge a fee in respect of each additional international application that would have been necessary in order to avoid that ground of refusal.

Article 14

Effects of the International Registration

(1) *[Effect as Application Under Applicable Law]* The international registration shall, from the date of the international registration, have at least the same effect in each designated Contracting Party as a regularly-filed application for the grant of protection of the industrial design under the law of that Contracting Party.

(2) *[Effect as Grant of Protection Under Applicable Law]* (a) In each designated Contracting Party the Office of which has not communicated a refusal in accordance with Article 12, the international registration shall have the same effect as a grant of protection for the industrial design under the law of that Contracting Party at the latest from the date of expiration of the period allowed for it to communicate a refusal or, where a Contracting Party has made a corresponding declaration under the Regulations, at the latest at the time specified in that declaration.

(b)³ Where the Office of a designated Contracting Party has communicated a refusal and has subsequently withdrawn, in part or in whole, that refusal, the international registration shall, to the extent that the refusal is withdrawn, have the same effect in that Contracting Party as a grant of protection for the industrial design under the law of the said Contracting Party at the latest from the date on which the refusal was withdrawn.

³ See footnote relating to Article 12(4).

(c) The effect given to the international registration under this paragraph shall apply to the industrial design or designs that are the subject of that registration as received from the International Bureau by the designated Office or, where applicable, as amended in the procedure before that Office.

(3) [*Declaration Concerning Effect of Designation of Applicant's Contracting Party*] (a) Any Contracting Party whose Office is an Examining Office may, in a declaration, notify the Director General that, where it is the applicant's Contracting Party, the designation of that Contracting Party in an international registration shall have no effect.

(b) Where a Contracting Party having made the declaration referred to in subparagraph (a) is indicated in an international application both as the applicant's Contracting Party and as a designated Contracting Party, the International Bureau shall disregard the designation of that Contracting Party.

Article 15 *Invalidation*

(1) [*Requirement of Opportunity of Defense*] Invalidation, by the competent authorities of a designated Contracting Party, of the effects, in part or in whole, in the territory of that Contracting Party, of the international registration may not be pronounced without the holder having, in good time, been afforded the opportunity of defending his rights.

(2) [*Notification of Invalidation*] The Office of the Contracting Party in whose territory the effects of the international registration have been invalidated shall, where it is aware of the invalidation, notify it to the International Bureau.

(2) [*Effect of Recording in International Register*] Any recording referred to in items (i), (ii), (iv), (v), (vi) and (vii) of paragraph (1) shall have the same effect as if it had been made in the Register of the Office of each of the Contracting Parties concerned, except that a Contracting Party may, in a declaration, notify the Director General that a recording referred to in item (i) of paragraph (1) shall not have that effect in that Contracting Party until the Office of that Contracting Party has received the statements or documents specified in that declaration.

(3) [*Fees*] Any recording made under paragraph (1) may be subject to the payment of a fee.

(4) [*Publication*] The International Bureau shall publish a notice concerning any recording made under paragraph (1). It shall send a copy of the publication of the notice to the Office of each of the Contracting Parties concerned.

Where it is paid directly to the Office concerned, the Office shall notify the International Bureau accordingly and the International Bureau shall record any such notification in the International Register. Where it is paid through the International Bureau, the International Bureau shall record the payment in the International Register and notify the Office concerned accordingly.

(d) Where the second part of the individual designation fee is not paid within the applicable period, the Office concerned shall notify the International Bureau and request the International Bureau to cancel the international registration in the International Register with respect to the Contracting Party concerned.
