TRANSMITTING

FY 2017 BUDGET AMENDMENTS FOR NATIONAL SECURITY ACTIVITIES AT THE DEPARTMENT OF DEFENSE, THE DEPARTMENT OF STATE, AND THE U.S. AGENCY FOR INTERNATIONAL DEVELOPMENT TO FUND OVERSEAS CONTINGENCY OPERATIONS

NOVEMBER 14, 2016.—Referred to the Committee on Appropriations and ordered to be printed

U.S. GOVERNMENT PUBLISHING OFFICE

THE WHITE HOUSE,  
Washington, November 10, 2016.

Hon. PAUL D. RYAN,  
*Speaker of the House of Representatives,*  
*Washington, DC.*

DEAR MR. SPEAKER: I ask the Congress to consider the enclosed Fiscal Year (FY) 2017 Budget amendments for national security activities at the Department of Defense (DOD), the Department of State (State), and the U.S. Agency for International Development (USAID) to fund Overseas Contingency Operations (OCO).

These amendments would provide \$5.8 billion for DOD OCO activities to support the Afghan National Defense and Security Forces, and to degrade and ultimately defeat the Islamic State of Iraq and the Levant (ISIL), including through military operations as part of Operation Inherent Resolve. For State and USAID, a total of \$5.8 billion would support the Administration's counter-ISIL and counterterrorism objectives, including the efforts to implement the diplomatic engagement, governance, and stabilization components of my Administration's counter-ISIL strategy, strengthen embassy security, and respond to relief and recovery needs, as well as provide additional humanitarian assistance for areas liberated from ISIL and other unforeseen needs.

Overall, these amendments would increase the OCO funding requested for FY 2017 by \$11.6 billion, for a total FY 2017 OCO request of \$85.3 billion. Consistent with last year's bipartisan budget agreement, these amendments would provide equal funding increases for defense and non-defense security programs.

The details of these amendments are set forth in the enclosed letter from the Director of the Office of Management and Budget.

While these amendments focus on funding our overseas national security efforts, our efforts here at home are equally important to fighting terrorism and protecting the American people. For this reason, I urge the Congress to fully fund not only the international security needs outlined in this request, but also the domestic security programs included in the FY 2017 Budget. Specifically, the Congress should fund critical cybersecurity programs and ensure the Nation has the resources needed to aggressively counter evolving cybersecurity threats. I also encourage the Congress to provide the resources necessary for the Department of Homeland Security's Transportation Security Administration and its Countering Violent Extremism programs.

Sincerely,

BARACK OBAMA.

[Estimate No. 3, 114th Congress, 2nd Session]

EXECUTIVE OFFICE OF THE PRESIDENT,  
OFFICE OF MANAGEMENT AND BUDGET,  
*Washington, DC, November 10, 2016.*

The PRESIDENT,  
*The White House.*

DEAR MR. PRESIDENT: Submitted for your consideration are amendments to your Fiscal Year (FY) 2017 Budget for national security activities at the Department of Defense (DOD) and the Department of State (State) and U.S. Agency for International Development (USAID), to be designated as Overseas Contingency Operations (OCO).

These amendments would provide the resources needed to continue tailored support to help the Afghan National Defense and Security Forces (ANDSF), and support your comprehensive strategy to degrade, and ultimately defeat, the Islamic State of Iraq and the Levant (ISIL), including military operations associated with Operation Inherent Resolve (OIR). These amendments include an additional \$5.8 billion for DOD OCO funding (for an FY 2017 OCO total of \$64.6 billion) for military operations associated with Afghanistan and OIR; as well as an increase of \$5.8 billion for State and USAID OCO funding (for an FY 2017 OCO total of \$20.7 billion) to support the Administration's counter-ISIL and counterterrorism objectives, including the efforts to implement the diplomatic engagement, governance, and stabilization components of the Administration's counter-ISIL strategy, strengthen embassy security, and respond to relief and recovery needs, as well as to provide additional humanitarian assistance for areas liberated from ISIL and other unforeseen needs.

These amendments include \$2.5 billion for DOD to maintain approximately 8,400 troops in Afghanistan through FY 2017, consistent with your announcement on July 6, 2016. Since the U.S. combat mission in Afghanistan ended in December 2014, the ANDSF have assumed full responsibility for Afghanistan's security nationwide. The ANDSF have grown stronger, but continue to face a determined insurgency. Maintaining a U.S. force posture of approximately 8,400 troops into 2017, together with our 41 allies and partners who together contribute another 6,000 troops, would enable the NATO-led coalition to continue to provide focused assistance on crucial capabilities such as intelligence, logistics, aviation, and command and control. This critical support would help the ANDSF secure their country and prevent Afghanistan from being used as a safe haven for terrorists to attack our Nation. This U.S. force level also preserves the counterterrorism platforms that are central to your post-2016 plan.

This request also includes \$814.5 million to provide essential capabilities to the Afghan Air Force and Special Mission Wing. This

funding would enable DOD to start transitioning Afghanistan's aging and battle-worn fleet of Russian-made helicopters to U.S.-made helicopters. Transitioning to U.S. platforms will ensure that Afghan forces have the necessary tactical capabilities for warfare in the rugged Afghan countryside, as well as uninterrupted access to parts and services to maintain their helicopters. This request also includes funding for additional fixed-wing aircraft that would provide Afghan commanders with close air support capability.

Based on the U.S.-led global coalition's sustained progress in Iraq and Syria, our approach to countering ISIL continues to evolve with emerging requirements and additional funding needs identified subsequent to the FY 2017 OCO request submitted to the Congress in February. The coalition continues to enable local partners to challenge ISIL's territorial control in Iraq and Syria and disrupt its efforts to plan external attacks through the use of precision airstrikes, Special Operations forces, and intelligence collection and exploitation, along with the development of capable local ground forces in Iraq and Syria. To seize the opportunities created by successes in recent months, your military and civilian leaders recommend intensifying our efforts as Iraqi forces begin to engage ISIL forces in Mosul. These amendments request funding for DOD to support a range of military operations against ISIL in the Middle East region, including:

- sustainment of U.S. personnel forward deployed to the U.S. Central Command area of operations, including the additional forces you recently approved, who are providing training, advice, and assistance to partner security forces engaged in the fight against ISIL;
- operations and maintenance costs for air and ground operations;
- enabling activities that support forces and operations, especially the people, platforms, and network capabilities that will allow a surge in intelligence collection, analysis, exploitation, and sharing among coalition partners that is essential to countering not only ISIL's core and branches, but its ability to conduct external operations and extend its influence in cyberspace; and
- stipend support to Kurdish Peshmerga forces in cooperation with the Iraqi government, in order to reinforce the Iraqi Kurds' continued constructive engagement in counter-ISIL operations toward Mosul and respond to economic pressures faced by the Kurdistan Regional Government of Iraq.

The request for State and USAID includes \$5.8 billion to support implementation of the diplomatic engagement, governance, stabilization and other components of the Administration's counter-ISIL and counterterrorism objectives as well as to provide additional humanitarian assistance for areas liberated from ISIL and other unforeseen needs. State and USAID funding would support:

- unexploded ordnance and explosive remnants of war removal in severely contaminated areas that have been liberated from ISIL across Iraq, Syria, and Libya;
- immediate stabilization needs for liberated areas in Iraq, including support for the Funding Facility for Immediate Stabilization in Iraq;

- support for State's Global Engagement Center to strengthen counter-violent extremism communication;
- police training, stabilization and core development work in northern Nigeria and the broader Lake Chad Basin region affected by Boko Haram/ISIL West Africa Province;
- increased diplomatic presence in Somalia, along with enhanced stabilization and governance support to improve community resistance to the influence of extremist groups;
- support for peace processes and emerging countering violent extremism and counterterrorism needs in Africa, Asia, and other crisis areas;
- increased diplomatic movements in and out of Syria, Libya, and Yemen as the security situation on the ground allows;
- longer-term stabilization needs for additional areas liberated from ISIL in the future and other unforeseen needs arising from the historic global refugee crisis, including support for such multilateral funding instruments as the Syria Recovery Trust Fund, the United Nations (UN) Development Program's Funding Facility for Expanded Stabilization, and the UN Stabilization Fund for Libya;
- expanded technical assistance for the transitional government in Libya and support to political processes in Yemen;
- a Relief and Recovery Fund that would provide flexible funding to support a range of additional needs following the counter-ISIL campaign;
- humanitarian assistance for areas liberated from ISIL and other unforeseen needs; and
- a one-time increase for embassy security to accelerate planned construction and security enhancement projects.

Overall, these amendments would increase the OCO funding requested for FY 2017 by \$11.6 billion, for a total FY 2017 OCO request of \$85.3 billion. Consistent with last year's bipartisan budget agreement, these amendments would provide equal funding increases for defense and non-defense security programs.

While these amendments focus on funding our overseas national security efforts, our efforts here at home are equally important to fighting terrorism and protecting the American people. For this reason, the Congress should fully fund domestic security programs, including needs that have arisen since submission of your FY 2017 Budget. While the Congress has supported many of the cybersecurity programs included in the FY 2017 Budget, additional needs remain outstanding in areas such as securing Federal information technology systems, protecting critical infrastructure, and investing in our cybersecurity workforce. In addition, the Department of Homeland Security requires funding for the Transportation Security Administration to maintain its enhanced operational posture and upgrade outdated equipment, and for grant funding and programs that support Countering Violent Extremism efforts. We will work with the Congress to ensure these needs are included in FY 2017 appropriations.

*Recommendation*

I have reviewed these amendments and am satisfied that they are necessary at this time. Therefore, I join the heads of the affected Departments and agencies in recommending that you transmit the amendments to the Congress.

Sincerely,

SHAUN DONOVAN,  
*Director.*

(In the appropriations language under the above heading, delete “\$1,373,010,000” and substitute *\$1,471,510,000*.)

This amendment would provide \$72.0 million to support a Counter Unmanned Aerial Systems capability Joint Urgent Operational Need. Funds would support the integrating, procuring and fielding of networked counter-small unmanned aerial systems at sites in theater within a two-year window.

This amendment would also provide \$26.5 million to support an urgent need in theater for cyber access. Funds would support the acquisition of critical infrastructure to gain cyber operational access and analysis of violent extremist organizations. This amendment would provide funds for classified programs.

(In the appropriations language under the above subheading, delete “\$2,132,249,000” and substitute \$2,878,459,000, and delete “\$1,815,210,000” and substitute \$2,372,810,000.)

This amendment would provide an additional \$746.2 million for Diplomatic and Consular Programs (D&CP) to fund necessary diplomatic engagement expenses to support the counter-ISIL strategy, including expanded personnel support, facility and security resources in key locations, and investment in the platforms that will allow for sustainability of counter-ISIL gains. Given that U.S. Embassies in Libya and Yemen have been on departure status for more than a year, and are operating remotely, and U.S. Embassies in West Africa operate on minimum staffing, this requirement places a premium on building back presence, oversight, and local engagement as quickly as security and resources allow. The D&CP funding includes \$557.6 million for Worldwide Security Protection, which would support increased diplomatic movements and security-related activities within areas impacted by ISIL or other violent extremists. Other D&CP funding would support enhanced public diplomacy and the Global Engagement Center to further counter-ISIL messaging and efforts to counter violent extremism.

(In the appropriations language under the above subheading, delete "\$1,238,800,000" and substitute \$2,262,800,000.)

This amendment would provide an additional \$1.0 billion to support embassy security. Given the additional threats to U.S. diplomatic facilities overseas due to the spread of ISIL and other threats, this funding will enable the Department of State to speed up planned construction and security enhancements including, but not limited to, projects in Kabul, Afghanistan; Mogadishu, Somalia; Nouakchott, Mauritania; N'Djamena, Chad; Erbil, Iraq; Gaziantep, Turkey; and Adana, Turkey.

Revised Request: \$6,132,553,000

(In the appropriations language under the above subheading, delete “\$3,672,153,000” and substitute \$6,132,553,000; after “September 30, 2018” insert , of which \$1,000,000,000 may remain available until September 30, 2019; after “Provided That”, insert such amount may be made available for United States contributions to multilateral trust funds and facilities to support countries and regions affected by the Islamic State of Iraq and the Levant and its affiliates: Provided further, That.)

This amendment would provide an additional \$2.5 billion to support activities to further stabilize the regions and countries affected by ISIL or other violent extremists. Illustrative activities would include but not be limited to providing support to UN stabilization funds, supporting political negotiations and peace processes, countering violent extremism, and returning basic services in newly liberated territories through entities, such as the U.S. Agency for International Development’s Office of Transition Initiatives. Funding would also support counterterrorism activities, efforts to counter violent extremism, and democracy, human rights, and governance programming in global crisis areas. Of this funding, \$1 billion would also support a Relief and Recovery Fund that would provide flexible funding to support a range of additional needs in areas liberated from ISIL control as the counter-ISIL campaign progresses.

GENERAL PROVISIONS

FY 2017 Budget Appendix Page: 354

FY 2017 Pending Request: —

Proposed Amendment: Language

Revised Request: —

(In the appropriations language under the above heading, insert the following new sections immediately after section 8004 and before the opening parenthesis of the bill citation:)

*PERSONAL SERVICES CONTRACTORS*

*SEC. 8005. Funds available in this Act to support counterterrorism and countering violent extremism activities, including counter-ISIL activities may be used to enter into contracts with individuals for the provision of personal services (as described in section 104 of part 37 of title 48, Code of Federal Regulations (48 CFR 37.104)) in the United States or abroad: Provided, That such individuals may not be deemed employees of the United States for the purpose of any law administered by the Office of Personnel Management.*

This amendment would allow the Department of State and the U.S. Agency for International Development to quickly hire additional experts, such as personal security specialists, subject matter experts, and highly skilled technical experts, and other support staff to support Diplomatic Engagement and Foreign Assistance programs.

*DIRECT HIRE AUTHORITY*

*SEC. 8006. Funds available in this Act to support counterterrorism and countering violent extremism activities, including counter-ISIL activities, may be used by the Administrator of the United States Agency for International Development, and Secretary of State to appoint candidates to any time limited position in the competitive service if such an appointment is necessary for such purposes: Provided, That such an appointment may be made, notwithstanding any statutes, rules, and regulations governing appointments in the competitive service: Provided further, That an appointment under this section shall be in accordance with the statutes, rules, and regulations governing appointments in the excepted service.*

This amendment would provide the authority for the Department of State and the U.S. Agency for International Development to quickly and temporarily appoint a limited number of experts, as funded in this Act, to implement counter-ISIL activities.
