

A REQUEST FOR SUPPLEMENTAL APPROPRIATIONS
FOR FY 2017

COMMUNICATION

FROM

THE PRESIDENT OF THE UNITED STATES

TRANSMITTING

A REQUEST FOR ADDITIONAL APPROPRIATIONS TO THE DEPARTMENT OF DEFENSE AND THE DEPARTMENT OF HOMELAND SECURITY FOR FISCAL YEAR 2017

MARCH 16, 2017.—Referred to the Committee on Appropriations and ordered to be printed

U.S. GOVERNMENT PUBLISHING OFFICE

THE WHITE HOUSE,
Washington, DC, March 16, 2017.

Hon. PAUL D. RYAN,
Speaker of the House of Representatives,
Washington, DC.

DEAR MR. SPEAKER: I ask the Congress to consider the enclosed appropriations request for Fiscal Year (FY) 2017. The request includes an additional \$30 billion for the Department of Defense (DOD) to rebuild the U.S. Armed Forces and accelerate the campaign to defeat the Islamic State of Iraq and Syria (ISIS), and an additional \$3 billion for the Department of Homeland Security (DHS) for urgent border protection activities.

This appropriations request would provide \$24.9 billion in the DOD base budget for urgent warfighting readiness needs and to begin a sustained effort to rebuild the U.S. Armed Forces. The request seeks to address critical budget shortfalls in personnel, training, maintenance, equipment, munitions, modernization, and infrastructure investment. It represents a critical first step in investing in a larger, more ready, and more capable military force.

The request also includes \$5.1 billion in the Overseas Contingency Operations budget for DOD to accelerate the campaign to defeat ISIS and support Operation Freedom's Sentinel in Afghanistan. This request would enable DOD to pursue a comprehensive strategy to end the threat ISIS poses to the United States.

In addition, this appropriations request would provide an additional \$3 billion for DHS implementation of my executive orders on border security and immigration enforcement. The request would fund efforts to plan, design, and construct a physical wall along the southern border, and make other critical investments in tactical border infrastructure and technology. The request also proposes funding to increase immigration detention capacity, which is necessary to ensure the removal of illegal aliens from the United States. Finally, the request funds new recruiting capacity at DHS so that it may hire additional immigration law enforcement officers and agents.

In conjunction with this request, I recommend that the Congress enact non-defense discretionary reductions of \$18 billion in FY 2017, which would fully offset the amounts proposed for DHS and would offset half of the amounts proposed for DOD.

The details of this proposal are set forth in the enclosed letter from the Director of the Office of Management and Budget.

Sincerely,

DONALD J. TRUMP.

[Estimate No. 1, 115th Cong., 1st Session]

EXECUTIVE OFFICE OF THE PRESIDENT,
OFFICE OF MANAGEMENT AND BUDGET,
Washington, DC, March 14, 2017.

The PRESIDENT,
The White House.

DEAR MR. PRESIDENT: Submitted for your consideration is a request for additional appropriations to address the urgent needs of the Departments of Defense (DOD) and Homeland Security (DHS) in Fiscal Year (FY) 2017. An additional \$24.9 billion is included to address immediate warfighting readiness needs at DOD. An additional \$5.1 billion, to be designated for Overseas Contingency Operations (OCO), is included for DOD to accelerate the campaign to defeat the Islamic State of Iraq and Syria (ISIS) and continue support for Operation Freedom's Sentinel (OFS) in Afghanistan. An additional \$3 billion is requested for DHS to address urgent border protection activities. This request for additional appropriations reflects the Administration's commitment to strengthen our national security by rebuilding the U.S. Armed Forces and protecting our borders.

As the following chart illustrates, together with a recommended reduction of \$18 billion in non-defense discretionary amounts in FY 2017, total funding would increase by \$15 billion.

(FY 2017, amounts in billions)

	Current Law	Request	\$ Change
Defense Base	\$551	\$576	+\$25
Defense OCO	\$65	\$70	+\$5
Nondefense	\$519	\$504	-\$15
DHS request			+\$3
Recommended Reductions			-\$18
Total Change			+\$15

The additional amounts requested for the DOD base budget would provide funding for urgent warfighting readiness needs that are necessary to begin a sustained effort to rebuild the U.S. Armed Forces. The appropriations request seeks to address critical budget shortfalls in personnel, training, maintenance, equipment, munitions, modernization, and infrastructure investment. The request is a first step in investing in a larger, more ready, and more capable force.

The amounts requested for DOD to accelerate the campaign to defeat ISIS and support OFS in Afghanistan are designated as OCO pursuant to section 251(b)(2)(A)(ii) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended. This request would enable DOD to support a comprehensive, whole-of-Government strategy to stop ISIS from posing a threat to the

United States by funding critical efforts to strike ISIS targets, support our partners fighting on the ground, disrupt ISIS’s external operations, and cut off its flows of financing. The request also supports ongoing U.S. efforts through OFS to prevent threats to the U.S. homeland, our allies, and interests abroad from ISIS, al Qaeda, and their affiliated or associated groups. These investments also complement additional U.S. support for the Afghan National Defense and Security Forces requested on November 10, 2016.

The amounts requested for DHS support implementation of your Executive Orders on border security and immigration enforcement. Funds requested for U.S. Customs and Border Protection (CBP) would support high priority tactical infrastructure and border security technology investments, including efforts to plan, design, and construct a physical wall along the southern border. The request also includes funding for DHS components to begin building the administrative capacity necessary to recruit, hire, train, and equip an additional 5,000 Border Patrol agents and 10,000 Immigration and Customs Enforcement (ICE) officers and agents, as you directed. Further, the request proposes funding to increase daily immigration detention capacity to 45,700 detention beds by the end of FY 2017. This additional detention capacity is necessary to implement your policies for removing illegal aliens from the United States by enhancing interior enforcement efforts and ending “catch and release” for those apprehended at the border. Funding proposed for DHS would also be used to establish a real-time border and immigration data integration system within the Office of Immigration Statistics, and for other new border and immigration analyses.

The enclosed materials summarize the proposed amendments to the FY 2017 Budget and requested supplemental appropriations, as well as new legal authorities that the Administration requires to implement these programs.

The major categories of funding—broken out by agency—are highlighted below:

Department of Defense

- \$977 million for military personnel costs, which supports the pay and allowances associated with higher military end-strength levels and the increase to a 2.1 percent military pay raise in 2017, funding for denied healthcare reforms, and adjustments based on execution.
- \$7.2 billion for operations and maintenance to address urgent readiness shortfalls across the joint force, including by funding additional training and facility investment and supporting critical weapons systems. These funds will also improve cyber and intelligence capabilities.
- \$13.5 billion for procurement and modernization, including additional Army Apache and Blackhawk helicopters, F-35 and F/A-18 fighter aircraft, tactical missiles, unmanned aircraft systems, and Terminal High Altitude Area Defense interceptors, and the DDG-51 destroyer that the Congress partially funded in FY 2016.
- \$2.1 billion to accelerate priority research and development efforts, including ballistic missile and air defense, missile defeat, unmanned aircraft systems, next generation fighter air-

craft, electronic warfare, anti-ship and land attack missiles, cyber operations technology, and targeting and strike support for special operations forces.

- \$962 million for the costs of increased supply stocks and critical facility repair and a technical correction to transfer funds from the Operation and Maintenance, Navy account to the Navy's revolving funds account to support national defense sealift vessels and the National Defense Reserve Fleet.

- \$236 million for military construction to complete previously authorized but unfinished projects, such as a weapons storage facility, and for planning and design for critical future projects.

Department of Defense—OCO

- \$1.4 billion to support urgent operational needs associated with the acceleration of Operation Inherent Resolve, DOD's campaign to defeat ISIS. The request includes funding for force protection, precision-guided munitions, intelligence collection, targeting and surveillance, defensive weapons systems, and countermeasures against ISIS's lethal drone program.

- \$2 billion for a flexible fund that would enable DOD to allocate resources in support of the new counter-ISIS strategy to maximize the impact of U.S. counterterrorism activities and operations.

- \$626 million for a new Counter-ISIS Train and Equip Fund, which consolidates DOD's counter-ISIS-related train and equip efforts. The request increases funding for assistance to partners in Iraq and Syria, while also providing the authority for DOD to work with forces fighting ISIS in areas outside Iraq and Syria. The enclosures accompanying this memorandum include proposed legislative language for this fund.

- \$1.1 billion for ongoing U.S. operations in Afghanistan and support to global counterterrorism activities, including resources and equipment to better enable and protect our service members in their fight against terrorist groups such as the Taliban, al Qaeda, its affiliates, and the Islamic State of Iraq and Syria Khorasan. The request also includes planning and design of construction projects in support of Detention Operations at Guantanamo Bay, Cuba.

Department of Homeland Security

- \$11 million for the Office of the Secretary and Executive Management Operations and Support to establish a real-time data integration system that would support immigration enforcement operations, benefits adjudication, policy analysis, accurate data reporting, and for other border and immigration modeling analyses.

- \$286 million for CBP Operations and Support, including \$95 million to support border surge operations, \$65 million to build hiring capacity to recruit and onboard 5,000 Border Patrol agents, \$18 million for project management, oversight, and support for the border wall, \$43 million to enhance situational awareness at the border, and \$64 million for other technology,

equipment, and infrastructure investments that directly contribute to the effectiveness of border security operations.

- \$1.4 billion for CBP Procurement, Construction, and Improvements, including \$999 million for planning, design, and construction of the first installment of the border wall, \$179 million for access roads, gates, and other tactical infrastructure projects, and \$200 million for border security technology deployments.

- \$1.2 billion for ICE Operations and Support, including \$1.15 billion to pay for detention, transportation, and removal of illegal aliens, and for alternatives to detention; \$76 million to build hiring capacity to recruit and onboard 10,000 ICE agents and officers; \$5 million for homeland security investigations intelligence activities; and \$5 million to support the expansion of the Section 287(g) Program.

- \$25 million for Federal Law Enforcement Training Center Operations and Support for the hiring and training of instructors to support law enforcement officer hiring and training within CBP and ICE.

- \$63 million for Federal Law Enforcement Training Center Procurement, Construction, and Improvements for infrastructure investments, including modular dormitory and classroom buildings, which would support law enforcement officer hiring and training at CBP and ICE.

Recommendation

I have reviewed this request and agree that it is necessary at this time. Without additional appropriations, our national security is at risk. This request includes critical resources for rebuilding the U.S. Armed Forces, defeating ISIS, and protecting our borders.

Therefore, I join the heads of the affected departments in recommending you transmit the proposals to the Congress.

Sincerely,

MICK MULVANEY.
Director.

FY 2017 Budget Appendix Page: 333

FY 2017 Pending Request: \$0

Proposed Amendment: \$1,506,400,000

Revised Request: \$1,506,400,000

(In the appropriations language under the above bureau, just after the Bodoni dash and immediately before the heading “Procurement”, insert the above new heading, the new subheading, the following new language, and a new Bodoni dash:)

For the “Counter-Islamic State of Iraq and Syria Train and Equip Fund”, \$1,506,400,000, to remain available until September 30, 2018:

Provided, That such funds shall be available to the Secretary of Defense in coordination with the Secretary of State, to provide assistance, including training; equipment; logistics support, supplies and services; stipends; infrastructure repair and renovation; construction of training facilities; small-scale construction of temporary facilities necessary to meet urgent operational or force protection requirements; and sustainment, to foreign security forces, irregular forces, groups, or individuals participating, or preparing to participate in activities to counter the Islamic State of Iraq and Syria, and their affiliated or associated groups:

Provided further, That these funds may be used, in such amounts as the Secretary of Defense may determine to enhance the border security of nations adjacent to conflict areas, including Jordan and Lebanon, resulting from actions of the Islamic State of Iraq and Syria:

Provided further, That amounts made available under this heading shall be available to provide assistance only for activities in a country designated by the Secretary of Defense, in coordination with the Secretary of State, as having a security mission to counter the Islamic State of Iraq and Syria, and following written notification to the congressional defense committees of such designation:

Provided further, That the Secretary of Defense shall ensure that prior to providing assistance to elements of any forces or individuals, such elements or individuals are appropriately vetted, including at a minimum, assessing such elements for associations with terrorist groups or groups associated with the Government of Iran; and receiving commitments from such elements to promote respect for human rights and the rule of law:

Provided further, That the authority to provide assistance under this heading is in addition to any other authority to provide assistance to foreign nations:

Provided further, That the Secretary of Defense shall, not fewer than 15 days prior to obligating from this appropriation account,

notify the congressional defense committees in writing of the details of any such obligation:

Provided further, That the Secretary of Defense may accept and retain contributions, including assistance in-kind, from foreign governments, including the Government of Iraq and other entities to carry out assistance authorized under this heading:

Provided further, That contributions of funds for the purposes provided herein from any foreign government or other entity may be credited to this Fund, to remain available until expended, and used for such purposes:

Provided further, That the Secretary of Defense may waive a provision of law relating to the acquisition of items and support services or sections 40 and 40A of the Arms Export Control Act (22 U.S.C. 2780 and 2785) if the Secretary determines that such provision of law would prohibit, restrict, delay or otherwise limit the provision of such assistance and a notice of and justification for such waiver is submitted to the congressional defense committees, the Committees on Appropriations and Foreign Relations of the Senate and the Committees on Appropriations and Foreign Affairs of the House of Representatives:

Provided further, That the United States may accept equipment procured using funds provided under this heading, or under the heading, "Iraq Train and Equip Fund" in prior Acts, that was transferred to security forces, irregular forces, or groups participating or preparing to participate in activities to counter the Islamic State of Iraq and Syria and returned by such forces or groups to the United States, may be treated as stocks of the Department of Defense upon written notification to the congressional defense committees:

Provided further, That equipment procured using funds provided under this heading, or under the heading, "Iraq Train and Equip Fund" in prior Acts, and not yet transferred to security forces, irregular forces, or groups participating, or preparing to participate in activities to counter the Islamic State of Iraq and Syria may be treated as stocks of the Department of Defense when determined by the Secretary to no longer be required for transfer to such forces or groups and upon written notification to the congressional defense committees:

Provided further, That the Secretary of Defense shall provide quarterly reports to the congressional defense committees on the use of funds provided under this heading, including, but not limited to, the number of individuals trained, the nature and scope of support and sustainment provided to each group or individual, the area of operations for each group, and the contributions of other countries, groups, or individuals:

Provided further, That such amount is designated by the Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A)(ii) of the Balanced Budget and Emergency Deficit Control Act of 1985.

This amendment formally consolidates and increases the funding requests for the Iraq Train and Equip Fund (ITEF) and the Syria Train and Equip Fund (STEF), creating a new appropriation to provide \$1,506.4 million to support the military and other security forces of or associated with the Government of Iraq's and the vetted

Syrian opposition forces' operations against the Islamic State of Iraq and Syria. Appropriated funds and cash contributions from foreign countries, international organizations, and individuals are deposited into this account for the Department of Defense to provide assistance, including training, equipment, logistics support, supplies and services, stipends, facility and infrastructure repair and renovation, and sustainment.
