

837.271-3 Guidelines for use of contracts for management and professional services.

(a) Contracts are appropriate when:

(1) Unusual or peak workloads occur that cannot be accomplished by Government personnel.

(2) Work involved is of an intermittent, occasional, or one-time nature for which the hiring of Government personnel is not feasible.

(3) They result in a more economical method of performing the work (see OMB Circular No. A-76, revised.)

(b) Contracts are inappropriate (improper or illegal) when:

(1) The service involves exercising a Governmental judgment; i.e., managing programs requiring value judgments; selection of priorities; direction of Federal employees; and all regulatory responsibilities.

(2) An employer-employee relationship would be established or involved.

(3) They circumvent personnel salary or ceiling limitations.

Subpart 837.70—Mortuary Services**837.7001 General.**

This subpart establishes the policies and procedures governing the procurement of funeral and burial services for deceased beneficiaries of the Department of Veterans Affairs, as provided in 38 U.S.C. 903.

837.7002 List of qualified funeral directors.

Contracting officers will establish, in coordination with cognizant Medical Administration Service personnel, a list of funeral directors capable of performing the burial services specified in 837.7003. The contracting officer will attempt to establish a commitment to perform these services within the statutory limitation of \$300. Each funeral director must be fully licensed in the

jurisdiction in which the business operates. If there has been no prior experience with the funeral director which would ensure the adequacy of the funeral director's services and casket, arrangements will be made prior to contract negotiation to inspect the premises and the casket to be provided, and to check with the local business bureau and/or Chamber of Commerce.

837.7003 Funeral authorization.

(a) When a veteran dies while receiving care in a Department of Veterans Affairs health care facility or in a non-Department of Veterans Affairs institution at Department of Veterans Affairs expense, and the decedent's remains are unclaimed, the Chief, Medical Administration Service, will forward to the Chief, Supply Service, a properly executed VA Form 10-2065, Funeral Arrangements, requesting that funeral and burial services for the deceased be procured. Burial will be made in the nearest National Cemetery having available grave space.

(b) The contracting officer will enter into negotiations with local funeral directors to procure a complete funeral and burial service within the statutory allowance of \$300. This service will consist of and will be specified on the purchase order, VA Form 90-2138, Order for Supplies or Services, as follows:

(1) Preparation of the body, embalming.

(2) Clothing.

(3) Casket. (The casket, as a minimum, will be constructed from thick, strong particle board and must be of sufficient strength to support the weight of an adult human body. Cardboard or press paper or similar materials are not acceptable).

(4) Securing all necessary permits.

(5) Ensuring that a United States Flag (provided the funeral director in accordance with Veterans Health Services and Research Administration Manual M-1, Part I, paragraph 14.40) accompanies the casket to place of burial.

(c) An additional allowance for transportation of the body to the place of burial is provided in 38 U.S.C. 903(a)(2). This allowance will cover the transpor-

tation cost of shipment of the body by common carrier or by hearse from the VA facility to the funeral home and to the place of burial, any charges for an outside (shipment) box, and the charges for securing all necessary permits for removal or shipment of the body. These costs are not chargeable against the \$300 allowance.

(d) In accordance with Veterans Health Services and Research Administration Manual M-1, Part I, paragraph 14.37, the contracting officer will designate the Chief, Medical Administration Service, or representative, to be responsible for the medical inspection of the mortuary services performed and inspection of the merchandise furnished. This designee will also be responsible for certifying receipt on the receiving report.

(e) The Chief, Supply Services, will assist the Chief, Medical Administration Service, in developing the local procedures specified in Veterans Health Services and Research Administration Manual M-1, Part I, paragraph 14.37c.

(b) When a full and complete funeral and burial service as prescribed in 837.7003 cannot be obtained by the contracting officer within the statutory allowance, he/she will, prior to taking any further action, secure from the facility director a written determination that the disposition of the remains must be accomplished by the Department of Veterans Affairs as an administrative necessity. The facility director will also authorize in writing the expenditure of such additional funds as may be necessary for this purpose. The amount of these additional funds will be held to the minimum, keeping in
