The final design of the major ITS project shall accommodate the interface requirements and information exchanges as specified in this project

level ITS architecture. If the project final design is inconsistent with the project level ITS architecture, then the project level ITS architecture shall be updated to reflect the changes. The project level ITS architecture is based on the results of the systems engineering analysis, and includes the following:

(1) A description of the scope of the ITS project;

(2) An operational concept that identifies the roles and responsibilities of participating agencies and stakeholders in the operation and implementation of the ITS project;

Subpart A—General

§ 1200.1 Purpose.

This part establishes uniform application, approval, implementation, and closeout procedures for State highway safety programs authorized under 23 U.S.C. 402.

§ 1200.2 Applicability.

The provisions of this part apply to highway safety programs conducted by States under 23 U.S.C. 402.

§ 1200.3 Definitions.

As used in this subchapter—

Approving Official means a Regional Administrator of the National Highway Traffic Safety Administration, with the concurrence of a Division Administrator of the Federal Highway Administration as necessary.

Carry-forward funds means those funds that a State has obligated but not expended in the fiscal year in which they were apportioned, that are being reprogrammed to fund activities in a subsequent fiscal year.

Contract authority means the statutory language that authorizes the agencies to incur an obligation without the need for a prior appropriation or further action from Congress and which, when exercised, creates a binding obligation on the United States for which Congress must make subsequent liquidating appropriations.

Equipment means any tangible personal property acquired for use under the State's approved highway safety program.

FHWA means the Federal Highway Administration.

Fiscal year means the Federal fiscal year, consisting of twelve months beginning each October 1 and ending the following September 30.

Governor means the Governor of any of the fifty States, Puerto Rico, the Virgin Islands, Guam, American Samoa, or the Commonwealth of the Northern Mariana Islands, the Mayor of the District of Columbia, or, for the application of this part to Indians as provided in 23 U.S.C. 402(i), the Secretary of the Interior.

Governor's Representative for Highway Safety means the official appointed by the Governor to implement the State's highway safety program or, for the application of this part to Indians as provided in 23 U.S.C. 402(i), an official of the Bureau of Indian Affairs who is

§ 1200.10

duly designated by the Secretary of the Interior to implement the Indian highway safety program.

NHTSA means the National Highway Traffic Safety Administration.

Program area means a National Priority Program Area identified in §1205.3 of this chapter or a program area identified by the State in the highway safety plan as encompassing a major highway safety problem in the State and for which effective countermeasures have been identified.

Program income means gross income received by the State or any of its subgrantees or contractors that is directly or indirectly generated by a Federally-supported project during the project performance period.

Section 402 means section 402 of title 23 of the United States Code.

State means any of the fifty States of the United States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, or, for the application of this part to Indians as provided in 23 U.S.C. 402(i), the Secretary of the Interior.

Subpart B—Application, Approval, and Funding of the Highway Safety Program

§ 1200.10 Application.

Each fiscal year, a State's application for funds for its highway safety program shall consist of the following components:

(a) A Performance Plan, containing the following elements:

(1) A list of objective and measurable highway safety goals, within the National Priority Program Areas and other program areas, based on highway safety problems identified by the State during the processes under paragraph (a)(2) of this section. Each goal must be accompanied by at least one performance measure that enables the State to track progress, from a specific baseline, toward meeting the goal (e.g., a goal to "increase safety belt use from XX percent in 19__ to YY percent in 20__," using a performance measure of "percent of restrained occupants in front outboard seating positions in passenger motor vehicles").

23 CFR Ch. II (4–1–01 Edition)

(2) A brief description of the processes used by the State to identify its highway safety problems, define its highway safety goals and performance measures, and develop projects and activities to address its problems and achieve its goals. In describing these processes, the State shall identify the participants in the processes (e.g., highway safety committees, community and constituent groups), discuss the strategies for project or activity selection (e.g., constituent outreach, public meetings, solicitation of proposals), and list the information and data sources consulted.

(b) A Highway Safety Plan, approved by the Governor's Representative for Highway Safety, describing the projects and activities the State plans to implement to reach the goals identified in the Performance Plan. The Highway Safety Plan must, at a minimum, describe one year of Section 402 program activities (and may include activities funded from other sources, so long as the source of funding is clearly distinguished).

(c) A Certification Statement, signed by the Governor's Representative for Highway Safety, providing assurances that the State will comply with applicable laws and regulations, financial and programmatic requirements, and in accordance with §1200.11 of this part, the special funding conditions of the Section 402 program.

(d) A Program Cost Summary (HS Form 217 or its electronic equivalent), completed to reflect the State's proposed allocations of funds (including carry-forward funds) by program area, based on the goals identified in the Performance Plan and the projects and activities identified in the Highway Safety Plan. The funding level used shall be an estimate of available funding for the upcoming fiscal year.

[62 FR 34402, June 26, 1997, as amended at 64 FR 40764, July 28, 1999]

§ 1200.11 Special funding conditions.

The State's highway safety program under Section 402 shall be subject to the following conditions, and approval under §1200.13 of this part shall in no event be deemed to waive these conditions:

NHTSA and FHWA, DOT

§ 1200.14

(a) Responsibility of the Governor—The Governor of the State shall be responsible for the administration of the Section 402 program through a State highway safety agency that shall have adequate powers and be suitably equipped and organized to carry out the program.

(b) Participation by Political Subdivisions—Political subdivisions shall be authorized to carry out local highway safety programs, approved by the Governor, as a part of the State highway safety program, and at least 40 percent of all Federal funds provided under this part shall be used by or for the benefit of political subdivisions, in accordance with the provisions of part 1250 of this chapter.

(c) Access for Persons with Disabilities—Adequate and reasonable access shall be provided for the safe and convenient movement of persons with physical disabilities, including those in wheelchairs, across curbs constructed or replaced on or after July 1, 1976, at all pedestrian crosswalks throughout the State.

(d) Use of Safety Belts—Programs shall be provided (which may include financial incentives and disincentives) to encourage the use of safety belts by drivers and passengers in motor vehicles.

(e) Planning and Administration Costs—Funding and matching requirements for planning and administration costs shall be in accordance with the provisions of part 1252 of this chapter.

(f) Purchase and Disposition of Equipment—Major purchases and dispositions of equipment shall require prior approval by the approving official, in accordance with the provisions of § 1200.21(d) of this part.

§ 1200.12 Due date.

Three copies of the application documents identified in §1200.10 of this part must be received by the NHTSA regional office no later than September 1 preceding the fiscal year to which the documents apply. The NHTSA regional office will forward copies to NHTSA headquarters and the FHWA division office. Failure to meet this deadline may result in delayed approval and funding.

§ 1200.13 Approval.

(a) Upon receipt of application documents complying with the provisions of §1200.10 and §1200.11 of this part, the Approving Official will issue a letter of approval to the Governor and the Governor's Representative for Highway Safety.

(b) The approval letter identified in paragraph (a) of this section will contain the following statement:

We have reviewed (STATE)'s _____ fiscal year 19__ Performance Plan, Highway Safety Plan, Certification Statement, and Cost Summary (HS Form 217), as received on (DATE) _____. Based on these submissions, we find your State's highway safety program to be in compliance with the requirements of the Section 402 program. This determination does not constitute an obligation of Federal funds for the fiscal year identified above or an authorization to incur costs against those funds. The obligation of Section 402 program funds will be effected in writing by the NHTSA Administrator at the commencement of the fiscal year identified above. However, Federal funds reprogrammed from the prior-year Highway Safety Program (carry-forward funds) will be available for immediate use by the State on October 1. Reimbursement will be contingent upon the submission of an updated HS Form 217 (or its electronic equivalent), consistent with the requirements of 23 CFR 1200.14(d), within 30 days after either the beginning of the fiscal year identified above or the date of this letter, whichever is later.

(c) If approval is withheld, for reasons of non-compliance with §1200.10 or §1200.11 of this part or other applicable law, the Approving Official shall identify in writing the specific area(s) of non-compliance which formed the basis for withholding approval.

[62 FR 34402, June 26, 1997, as amended at 64 FR 40764, July 28, 1999]

§ 1200.14 Apportionment and obligation of Federal funds.

(a) Except as provided in paragraph (b) of this section, on October 1 of each fiscal year the NHTSA Administrator shall, in writing, distribute funds available for obligation under Section 402 to the States and specify any conditions or limitations imposed by law on the use of the funds.

(b) In the event that authorizations exist but no applicable appropriation act has been enacted by October 1 of a

§ 1200.20

fiscal year the NHTSA and FHWA Administrators shall, in writing, distribute a part of the funds authorized under Section 402 contract authority to ensure program continuity and shall specify any conditions or limitations imposed by law on the use of the funds. Upon appropriation of Section 402 funds, the NHTSA Administrator shall, in writing, promptly adjust the obligation limitation, and specify any conditions or limitations imposed by law on the use of the funds.

(c) The funds distributed under paragraph (a) or (b) of this section shall be available for expenditure by the states to satisfy the Federal share of expenses under the approved highway safety program, and shall constitute a contractual obligation of the Federal Government, subject to any conditions or limitations identified in the distributing document.

(d)(1) Notwithstanding the provisions of paragraph (c) of this section, reimbursement of State expenses shall be contingent upon the submission of an updated HS Form 217 (or its electronic equivalent), within 30 days after either the beginning of the fiscal year or the date of the written approval required under § 1200.13 of this part, whichever is later.

(2) The updated HS Form 217 (or its electronic equivalent) required under paragraph (d)(1) of this section shall reflect the State's allocation of Section 402 funds made available for expenditure during the fiscal year, including known carry-forward funds.

Subpart C—Implementation and Management of the Highway Safety Program

§ 1200.20 General.

Except as otherwise provided in this subpart and subject to the provisions herein, the requirements of 49 CFR part 18 and applicable cost principles govern the implementation and management of State highway safety programs carried out under 23 U.S.C. 402. Cost principles include those referenced in 49 CFR 18.22 and those set forth in applicable Department of

23 CFR Ch. II (4–1–01 Edition)

Transportation, NHTSA, or FHWA Orders.

§ 1200.21 Equipment.

(a) *Title.* Except as provided in paragraphs (e) and (f) of this section, title to equipment acquired under the Section 402 program will vest upon acquisition in the State or its subgrantee, as appropriate.

(b) *Use.* All equipment shall be used for the originally authorized grant purposes for as long as needed for those purposes, as determined by the Approving Official, and neither the State nor any of its subgrantees or contractors shall encumber the title or interest while such need exists.

(c) *Management and disposition.* Subject to the requirement of paragraphs (b), (d), (e) and (f) of this section, States and their subgrantees and contractors shall manage and dispose of equipment acquired under the Section 402 program in accordance with State laws and procedures.

(d) *Major Purchases and dispositions.* All purchases and dispositions of equipment with a useful life of more than one year and an acquisition cost of \$5,000 or more must receive prior written approval from the Approving Official.

(e) *Right to transfer title.* The Approving Official may reserve the right to transfer title to equipment acquired under the Section 402 program to the Federal Government or to a third party when such third party is otherwise eligible under existing statutes. Any such transfer shall be subject to the following requirements:

(1) The equipment shall be identified in the grant or otherwise made known to the State in writing;

(2) The Approving Official shall issue disposition instructions within 120 calendar days after the equipment is determined to be no longer needed in the Section 402 program, in the absence of which the State shall follow the applicable procedures in 49 CFR part 18.

(f) *Federally-owned equipment.* In the event a State or its subgrantee is provided Federally-owned equipment:

(1) Title shall remain vested in the Federal Government;

(2) Management shall be in accordance with Federal rules and procedures, and an annual inventory listing shall be submitted;

(3) The State or its subgrantee shall request disposition instructions from the Approving Official when the item is no longer needed in the Section 402 program.

§ 1200.22 Changes.

States shall provide documentary evidence of any reallocation of funds between program areas by submitting to the NHTSA regional office an amended HS form 217 (or its electronic equivalent), reflecting the changed allocation of funds, within 30 days of implementing the change.

[62 FR 34402, June 26, 1997, as amended at 64 FR 40764, July 28, 1999]

§ 1200.23 Vouchers and project agreements.

Each State shall submit official vouchers for total expenses incurred to the Approving Official. Copies of the project agreement(s) and supporting documentation for the vouchers, and any amendments thereto, shall be made available for review by the Approving Official upon request.

(a) *Content of vouchers.* At a minimum, each voucher shall provide the following information for expenses claimed in each program area:

- (1) Program Area;
- (2) Federal funds obligated;
- (3) Amount of Federal funds allocated to local benefit (provided mid-year (by March 31) and with the final voucher);
- (4) Cumulative Total Cost to Date;
- (5) Cumulative Federal Funds Expended;
- (6) Previous Amount Claimed;
- (7) Amount Claimed this Period;

(b) *Submission requirements.* At a minimum, vouchers shall be submitted to the Approving Official on a quarterly basis, no later than 15 working days after the end of each quarter, except that where a State receives funds by electronic transfer at an annualized rate of one million dollars or more,

vouchers shall be submitted on a monthly basis, no later than 15 working days after the end of each month. Failure to meet these deadlines may result in delayed reimbursement.

§ 1200.24 Program income.

(a) *Inclusions.* Program income includes income from fees for services performed, from the use or rental of real or personal property acquired with grant funds, from the sale of commodities or items fabricated under the grant agreement, and from payments of principal and interest on loans made with grant funds.

(b) *Exclusions.* Program income does not include interest on grant funds, rebates, credits, discounts, refunds, taxes, special assessments, levies, fines, proceeds from the sale of real property or equipment, income from royalties and license fees for copyrighted material, patents, and inventions, or interest on any of these.

(c) *Use of program income.*—(1) *Addition.* Program income shall ordinarily be added to the funds committed to the Highway Safety Plan. Such program income shall be used to further the objectives of the program area under which it was generated.

(2) *Cost sharing or matching.* Program income may be used to meet cost sharing or matching requirements only upon written approval of the Approving Official. Such use shall not increase the commitment of Federal funds.

§ 1200.25 Improvement plan.

If a review of the Annual Report required under § 1200.33 of this part or of other relevant information indicates little or no progress toward meeting State goals, the Approving Official and State officials will jointly develop an improvement plan. This plan will detail strategies, program activities, and funding targets to meet the defined goals.

§ 1200.26 Non-compliance.

Where a State is found to be in non-compliance with the requirements of the Section 402 program or with applicable law, the special conditions for high-risk grantees and the enforcement procedures of 49 CFR part 18, or the sanctions procedures of part 1206 of

§ 1200.27

this chapter, may be applied as appropriate.

§ 1200.27 Appeals.

Review of any written decision by an Approving Official under this part may be obtained by submitting a written appeal of such decision, signed by the Governor's Representative for Highway Safety, to the Approving Official. Such appeal shall be forwarded promptly to the NHTSA Associate Administrator for State and Community Services or the FHWA Regional Administrator with jurisdiction over the specific division, as appropriate. The decision of the NHTSA Associate Administrator or FHWA Regional Administrator shall be final and shall be transmitted to the Governor's Representative for Highway Safety through the cognizant Approving Official.

Subpart D—Closeout

§ 1200.30 Expiration of the right to incur costs.

Unless extended in accordance with the provisions of §1200.31 of this part, the right to incur costs under Section 402 expires on the last day of the fiscal year to which it pertains. The State and its subgrantees and contractors may not incur costs for Federal reimbursement past the expiration date.

§ 1200.31 Extension of the right to incur costs.

Upon written request by the State, specifying the reasons therefor, the Approving Official may extend the right to incur costs for some portion of the State highway safety program by a maximum of 90 days. The approval of any such request for extension shall be in writing, shall specify the new expiration date, and shall be signed by the Approving Official. If an extension is granted, the State and its subgrantees and contractors may continue to incur costs in accordance with the Highway Safety Plan until the new expiration date, and the due dates for other submissions covered by this subpart shall be based upon the new expiration date. However, in no case shall any extension be deemed to authorize the obligation of additional Federal funds beyond those already obligated to the State,

23 CFR Ch. II (4–1–01 Edition)

nor shall any extension be deemed to extend the due date for submission of the Annual Report. Only one extension shall be allowed during each fiscal year.

§ 1200.32 Final voucher.

Each State shall submit a final voucher which satisfies the requirements of §1200.23(a) of this part within 90 days after the expiration of each fiscal year, unless extended in accordance with the provisions of §1200.31 of this part. The final voucher constitutes the final financial reconciliation for each fiscal year.

§ 1200.33 Annual report.

Within 90 days after the end of the fiscal year, each State shall submit an Annual Report. This report shall describe:

(a) The State's progress in meeting its highway safety goals, using performance measures identified in the Performance Plan. Both Baseline and most current level of performance under each measure will be given for each goal.

(b) How the projects and activities funded during the fiscal year contributed to meeting the State's highway safety goals. Where data becomes available, a State should report progress from prior year projects that have contributed to meeting current State highway safety goals.

[62 FR 34402, June 26, 1997, as amended at 64 FR 40764, July 28, 1999]

§ 1200.34 Disposition of unexpended balances.

Any funds which remain unexpended after final reconciliation shall be carried forward, credited to the State's highway safety account for the new fiscal year, and made immediately available for use under the State's new highway safety program, subject to the approval requirements of §1200.13 of this part. Carry-forward funds must be identified by the program area from which they are removed when they are reprogrammed from the previous fiscal year. Once so identified, such funds are available for use without regard to the program area from which they were carried forward, unless specially earmarked by the Congress.

NHTSA and FHWA, DOT

§ 1200.36

§ 1200.35 Post-grant adjustments.

The closeout of a highway safety program in a fiscal year does not affect the ability of NHTSA or FHWA to disallow costs and recover funds on the basis of a later audit or other review or the State's obligation to return any funds due as a result of later refunds, corrections, or other transactions.

§ 1200.36 Continuing requirements.

The following provisions shall have continuing applicability, notwithstanding the closeout of a highway safety program in a fiscal year:

- (a) The requirements governing equipment, as provided in §1200.21 of this part;
- (b) The audit requirements and records retention and access requirements of 49 CFR part 18.

The Administrators shall state the amount of the expected withholding or reduction. The advance notice will normally be sent not later than ninety days prior to final apportionment.

(b) If the Administrators issue an advance notice to a State, based on a preliminary review, the State may, within 30 days of its receipt of the advance notice, submit documentation demonstrating that it is implementing a

highway safety program. Documentation shall be submitted to the Administrator for NHTSA, 400 Seventh Street SW, Washington, D.C. 20590.

person with a blood alcohol concentration (BAC) of 0.08 percent or greater while operating a motor vehicle in the State shall be deemed to have committed a *per se* offense of driving while intoxicated or an equivalent *per se* offense. The law must:

- (a) Apply to all persons;
- (b) Set a blood alcohol concentration of not higher than 0.08 percent as the legal limit;
- (c) Make operating a motor vehicle by an individual at or above the legal limit a *per se* offense;
- (d) Provide for primary enforcement;
- (e) Apply the 0.08 BAC legal limit to the State's criminal code and, if the State has an administrative license suspension or revocation (ALR) law, to its ALR law; and
- (f) Be deemed to be or be equivalent to the standard driving while intoxicated offense in the State.

§ 1225.6 Award procedures.

(a) In each Federal fiscal year, grant funds will be apportioned to eligible States upon submission and approval of the documentation required by §1225.4(a) and subject to the limitations in §1225.4(b). The obligation authority associated with these funds is subject to the limitation on obligations pursuant to section 1102 of TEA 21.

(b) As soon as practicable after the apportionment in a fiscal year, but in no event later than September 30 of the fiscal year, the Governor's Representative for Highway Safety and the Secretary of the State's Department of Transportation for each State that receives an apportionment shall jointly identify, in writing to the appropriate NHTSA Regional Administrator and FHWA Division Administrator, the amounts of the State's apportionment that will be obligated to highway safety program areas and to Federal-aid highway projects.

SOURCE: 56 FR 10329, Mar. 11, 1991, unless otherwise noted.

§ 1235.1 Purpose.

The purpose of this part is to provide guidelines to States for the establishment of a uniform system for handicapped parking for persons with disabilities to enhance access and the safety of persons with disabilities which limit or impair the ability to walk.

§ 1235.2 Definitions.

Terms used in this part are defined as follows:

(a) *International Symbol of Access* means the symbol adopted by Rehabilitation International in 1969 at its Eleventh World Congress on Rehabilitation of the Disabled.

(b) *Persons with disabilities which limit or impair the ability to walk* means persons who, as determined by a licensed physician:

(1) Cannot walk two hundred feet without stopping to rest; or

(2) Cannot walk without the use of, or assistance from, a brace, cane, crutch, another person, prosthetic device, wheelchair, or other assistive device; or

(3) Are restricted by lung disease to such an extent that the person's forced (respiratory) expiratory volume for one second, when measured by spirometry, is less than one liter, or the arterial oxygen tension is less than sixty mm/hg on room air at rest; or

(4) Use portable oxygen; or

(5) Have a cardiac condition to the extent that the person's functional limitations are classified in severity as Class III or Class IV according to

§ 1235.3

standards set by the American Heart Association; or

(6) Are severely limited in their ability to walk due to an arthritic, neurological, or orthopedic condition.

(c) *Special license plate* means a license plate that displays the International Symbol of Access:

(1) In a color that contrasts to the background, and

(2) In the same size as the letters and/or numbers on the plate.

(d) *Removable windshield placard* means a two-sided, hanger-style placard which includes on each side:

(1) The International Symbol of Access, which is at least three inches in height, centered on the placard, and is white on a blue shield;

(2) An identification number;

(3) A date of expiration; and

(4) The seal or other identification of the issuing authority.

(e) *Temporary removable windshield placard* means a two-sided, hanger-style placard which includes on each side:

(1) The International Symbol of Access, which is at least three inches in height, centered on the placard, and is white on a red shield;

(2) An identification number;

(3) A date of expiration; and

(4) The seal or other identification of the issuing authority.

§ 1235.3 Special license plates.

(a) Upon application of a person with a disability which limits or impairs the ability to walk, each State shall issue special license plates for the vehicle which is registered in the applicant's name. The initial application shall be accompanied by the certification of a licensed physician that the applicant meets the §1235.2(b) definition of persons with disabilities which limit or impair the ability to walk. The issuance of a special license plate shall not preclude the issuance of a removable windshield placard.

(b) Upon application of an organization, each State shall issue special license plates for the vehicle registered in the applicant's name if the vehicle is primarily used to transport persons with disabilities which limit or impair the ability to walk. The application shall include a certification by the ap-

23 CFR Ch. II (4-1-01 Edition)

plicant, under criteria to be determined by the State, that the vehicle is primarily used to transport persons with disabilities which limit or impair the ability to walk.

(c) The fee for the issuance of a special license plate shall not exceed the fee charged for a similar license plate for the same class vehicle.

§ 1235.4 Removable windshield placards.

(a) The State system shall provide for the issuance and periodic renewal of a removable windshield placard, upon the application of a person with a disability which limits or impairs the ability to walk. The State system shall require that the issuing authority shall, upon request, issue one additional placard to applicants who do not have special license plates.

(b) The initial application shall be accompanied by the certification of a licensed physician that the applicant meets the §1235.2(b) definition of persons with disabilities which limit or impair the ability to walk.

(c) The State system shall require that the removable windshield placard is displayed in such a manner that it may be viewed from the front and rear of the vehicle by hanging it from the front windshield rearview mirror of a vehicle utilizing a parking space reserved for persons with disabilities. When there is no rearview mirror, the placard shall be displayed on the dashboard.

§ 1235.5 Temporary removable windshield placards.

(a) The State system shall provide for the issuance of a temporary removable windshield placard, upon the application of a person with a disability which limits or impairs the ability to walk. The State system shall require that the issuing authority issue, upon request, one additional temporary removable windshield placard to applicants.

(b) The State system shall require that the application shall be accompanied by the certification of a licensed physician that the applicant meets the §1235.2(b) definition of persons with disabilities which limit or

impair the ability to walk. The certification shall also include the period of time that the physician determines the applicant will have the disability, not to exceed six months.

(c) The State system shall require that the temporary removable windshield placard is displayed in such a manner that it may be viewed from the front and rear of the vehicle by hanging it from the front windshield rearview mirror of a vehicle utilizing a parking space reserved for persons with disabilities. When there is no rearview mirror, the placard shall be displayed on the dashboard.

(d) The State system shall require that the temporary removable windshield placard shall be valid for a period of time for which the physician has determined that the applicant will have the disability, not to exceed six months from the date of issuance.

§ 1235.6 Parking.

Special license plates, removable windshield placards, or temporary removable windshield placards displaying the International Symbol of Access shall be the only recognized means of identifying vehicles permitted to utilize parking spaces reserved for persons with disabilities which limit or impair the ability to walk.

§ 1235.7 Parking space design, construction, and designation.

(a) Each State shall establish design, construction, and designation stand-

ards for parking spaces reserved for persons with disabilities, under criteria to be determined by the State. These standards shall:

(1) Ensure that parking spaces are accessible to, and usable by, persons with disabilities which limit or impair the ability to walk;

(2) Ensure the safety of persons with disabilities which limit or impair the ability to walk who use these spaces and their accompanying accessible routes; and

(3) Ensure uniform sign standards which comply with those prescribed by the "Manual on Uniform Traffic Control Devices for Streets and Highways" (23 CFR part 655, subpart F) to designate parking spaces reserved for persons with disabilities which limit or impair the ability to walk.

(b) The design, construction, and alteration of parking spaces reserved for persons with disabilities for which Federal funds participate must meet the Uniform Federal Accessibility Standards.

§ 1235.8 Reciprocity.

The State system shall recognize removable windshield placards, temporary removable windshield placards and special license plates which have been issued by issuing authorities of other States and countries, for the purpose of identifying vehicles permitted to utilize parking spaces reserved for persons with disabilities which limit or impair the ability to walk.

Subpart A—General

§ 1240.1 Purpose.

This part establishes requirements and procedures governing the allocation of funds to States made under 23 U.S.C. 157(c), based on seat belt use rates.

§ 1240.2 Applicability.

These procedures apply to all allocations of funds to States, based on seat belt use rates, beginning with allocations for fiscal year 1999.

§ 1240.3 Definitions.

As used in this part—

Base seat belt use rate means the highest State seat belt use rate for the

State for any calendar year during the period from 1996 through the calendar year preceding the previous calendar year;

Federal medical savings means the amount of Federal budget savings relating to Federal medical costs (including savings under the Medicare and Medicaid programs under titles XVIII and XIX of the Social Security Act (42 U.S.C.1395 *et seq.*)), as determined under this part;

FHWA means the Federal Highway Administration;

NHTSA means the National Highway Traffic Safety Administration;

Passenger motor vehicle means a passenger car, pickup truck, van, minivan, or sport utility vehicle;

State means any of the fifty States, the District of Columbia, or Puerto Rico.

State seat belt use rate means the seat belt use rate for a State, rounded to the nearest tenth of one percent, after any required weighting, adjustment, or substitution under this part, that is used in determining eligibility for and the amount of an allocation under this part.

Subpart B—Determination of Allocations

§ 1240.10 Identification of eligible States.

(a) On or about September 1, 1998, and each September 1 thereafter, NHTSA will identify, on the basis of seat belt use rates determined, as applicable, under §§1240.11, 1240.12, and 1240.13 of this part—

(1) Each State that had a State seat belt use rate during the previous calendar year and the year preceding the previous calendar year that exceeded the national average seat belt use rate for each of those years; and

(2) Each State that does not meet the requirements of paragraph (a)(1) of this section and that had a State seat belt use rate during the previous calendar year that exceeded the State's base seat belt use rate.

(b) Any seat belt use rate used in making the determinations under this part shall be rounded to the nearest tenth of one percent.

(c) A State identified under paragraph (a)(1) or (a)(2) of this section, and not ineligible under §1240.12(a)(2) of this part, shall receive an allocation of funds reflecting the Federal medical savings, in accordance with the procedures of §§1240.14 and 1240.15 of this part.

§ 1240.11 Determination of State seat belt use rate for calendar years 1996 and 1997.

(a) *Review of State-submitted information.* NHTSA will review available seat belt use rate information submitted by each State for calendar years 1996 and 1997 to determine whether—

(1) Measurements of seat belt use were based on direct observation;

(2) At least 70 percent of observation sites were surveyed during the calendar year for which the seat belt use rate is reported;

(3) All passenger motor vehicles were sampled; and

(4) All front seat outboard occupants in the sampled vehicles were counted.

(b) *Determination of State seat belt use rate.* Seat belt use rate information submitted by a State for calendar year 1996 or 1997 will be—

(1) Accepted as the State seat belt use rate if it satisfies paragraphs (a)(1), (a)(2), (a)(3), and (a)(4) of this section.

(2) Accepted after adjustment in accordance with the procedures of Appendix A of this part, as the State seat belt use rate, if it satisfies paragraphs (a)(1) and (a)(2) of this section, but fails to satisfy paragraph (a)(3) or (a)(4) of this section.

(3) Rejected, and the procedures of Appendix B of this part shall apply, if it fails to satisfy paragraph (a)(1) or (a)(2) of this section.

§ 1240.12 Determination of State seat belt use rate for calendar year 1998 and beyond.

(a) *State seat belt use survey.*

(1) Beginning in calendar year 1998, State seat belt use rates used for determining allocations under this part shall be based on a survey conducted each calendar year by each State that satisfies all the requirements of Part 1340 of this title (the Uniform Criteria for State Observational Surveys of Seat Belt Use).

(2) A State that does not conduct a survey required under paragraph (a)(1) of this section in any calendar year, or that conducts a survey that does not satisfy all the requirements of part 1340 of chapter III of this title, shall be ineligible for an allocation of funds on the basis of both §1240.10(a)(1) and §1240.10(a)(2) of this part during the second and third succeeding fiscal years (e.g., if a State fails to conduct a conforming survey in calendar year 1998, the State is ineligible for an allocation of funds during FY 2000 and FY 2001).

(b) *Submission of survey information.*

(1) Each State shall submit to NHTSA, no later than March 1st after the calendar year during which a survey required under paragraph (a)(1) of this section is conducted, the seat belt use rate determined under the survey, reported as a percentage to one decimal place, accompanied by a survey report, consisting of all documentation identified in §1340.5 of chapter III of this title and summarizing the results of any analyses conducted under the survey.

(2) NHTSA will review a survey report submitted under paragraph (b)(1) of this section to determine whether the survey complies with all the requirements of §1340 of chapter III of this title. Written notice of approval or disapproval of a survey will be sent to the Governor's Representative for Highway Safety within 30 days of receipt of the survey report. Any notice of disapproval will be accompanied by a detailed statement of the reasons for disapproval.

(3) A State may elect to submit a description of its proposed survey methodology, consisting of all documentation identified in §1340.5 (a), (b) and (c)(3) of chapter III of this title for advance review, prior to conducting the survey.

(4) NHTSA will review a proposed survey methodology submitted under paragraph (b)(3) of this section and inform the Governor's Representative for Highway Safety in writing within 30 days of receipt of the proposed methodology whether the survey, if conducted in accordance with the methodology, would comply with all the requirements of §1340 of chapter III of this

§ 1240.13

title. Any notice indicating non-compliance will be accompanied by a detailed statement of the reasons.

(5) A State that submits a description of its proposed survey methodology under paragraph (b)(3) of this section continues to be required to submit all information required under paragraph (b)(1) of this section, after the State conducts its survey, for review under paragraph (b)(2) of this section.

(c) *Submission of Certification—calendar year 1998 surveys.*

(1) A survey conducted by a State in calendar year 1998 shall be deemed to comply with the requirements of §1340 of chapter III of this title, if—

(i) The survey's design was approved by the agency, in writing, on or after June 29, 1992, for the purposes of the grant program authorized under 23 U.S.C. 153;

(ii) The survey design has remained unchanged since the survey was approved (except to the extent that the requirements of paragraph (c)(1)(iii) constitute a change); and

(iii) The survey samples all passenger motor vehicles, measures seat belt use by all front seat outboard occupants in the sampled vehicles, and counts seat belt use only within the calendar year for which the seat belt use rate is reported.

(2) A State that meets the requirements of paragraph (c)(1) of this section shall submit a certification signed by the Governor's Representative for Highway Safety, in the form prescribed in Appendix C of this part, accompanied by the information required under paragraph (b)(1) of this section.

(3) Written notice of acceptance or rejection of a certification will be sent to the Governor's Representative for Highway Safety within 30 days of receipt of the information required under paragraph (c)(2) of this section. Any notice of rejection will be accompanied by a detailed statement of the reasons for rejection.

(d) *Determination of State seat belt use rate.* The seat belt use rate submitted by the State for a calendar year will be accepted as the State seat belt use rate for that calendar year if—

(1) It was determined under a survey whose survey report was approved

23 CFR Ch. II (4-1-01 Edition)

under paragraph (b)(2) of this section; or

(2) For calendar year 1998 only, the State satisfies the requirements of paragraphs (c)(1) and (c)(2) of this section, and its certification is accepted under paragraph (c)(3) of this section.

§ 1240.13 Determination of national average seat belt use rate.

The national average seat belt use rate for a calendar year shall be the sum of the individual State seat belt use rates for all the States, after weighting each individual State seat belt use rate in accordance with the procedures of Appendix D of this part.

§ 1240.14 Determination of Federal medical savings and notification of proposed allocations.

On or about September 1, 1998, and each September 1 thereafter, NHTSA will—

(a) Calculate, in accordance with the procedures in Appendix E of this part, the Federal medical savings and each State's share of those savings, due to the amount by which the State seat belt use rate for the previous calendar year—

(1) Exceeds the national average seat belt use rate for that calendar year, for each State described in §1240.10(a)(1) of this part; or

(2) Exceeds the State's base seat belt use rate, for each State described in §1240.10(a)(2) of this part; and

(b) Notify the States described in §1240.10(c) of this part of their proposed allocations, which shall be equal to the amount of the Federal medical savings calculated under paragraphs (a)(1) and (a)(2) of this section, as applicable, reduced proportionately across all States if the allocations would exceed the total amount authorized for allocation during the fiscal year.

§ 1240.15 Allocations.

(a) Funds allocated under this part shall be available for any projects eligible for assistance under title 23, United States Code.

(b) Not later than 25 days after notification under §1240.14(b) of this part, the Governor's Representative for Highway Safety and the Secretary of

the State's Department of Transportation for each State that receives notification shall jointly identify, in writing to the appropriate NHTSA Regional Administrator and FHWA Division Administrator, the amounts of the State's proposed allocations that will be used in highway safety programs and in Federal-aid highway programs.

(c) On or about October 1, 1998, and each October 1 thereafter, the funds to which a State is entitled under this part will be allocated in the proportions identified by the State under paragraph (b) of this section, reduced proportionately across all States if the allocations would, in the aggregate, exceed total obligation limitations applicable to 23 U.S.C. 157.

(d) Thereafter, each State shall identify specific NHTSA program areas and FHWA projects for which the allocated funds will be used.

APPENDIX A—ADJUSTMENT PROCEDURES FOR STATE-SUBMITTED INFORMATION (CALENDAR YEARS 1996 AND 1997)

A. In States where State-submitted information on seat belt use rates does not include data for Front outboard occupants in passenger motor vehicles (FOPV), an adjustment will be made based on the national ratio of seat belt use rates for FOPV to the seat belt use rate for the group of occupants and vehicles that were included in the State-submitted information. The national seat belt use rates will be derived from the most recent National Occupant Protection Use Survey (NOPUS). For each affected State, the adjustment will be made by dividing the NOPUS seat belt use rate for FOPV by the NOPUS seat belt use rate for the surveyed group, or the seat belt use rate for the closest available group to the surveyed group. The NOPUS seat belt use rate for FOPV will be derived for each affected State by weighting the NOPUS seat belt use rates for passenger cars and for passenger motor vehicles that are not passenger cars (hereafter LTVs) by the relative number of registrations of passenger cars and LTVs in each State. This method will produce a factor which will be multiplied by the State's survey-based seat belt use rate to produce an adjusted seat belt use rate reflecting the required vehicle and occupant population.

B. The process may be expressed mathematically as follows:

$$U_a = U_s((N_{pc} * R_{pc} + N_{ltv} * R_{ltv}) / N_s)$$

Where:

U_a = the adjusted State seat belt use rate
 U_s = the State-submitted seat belt use rate

N_{pc} = the national front outboard passenger car seat belt use rate from NOPUS

N_{ltv} = the national front outboard LTV seat belt use rate from NOPUS

R_{pc} = the portion of State passenger motor vehicle registrations that are passenger cars

R_{ltv} = the portion of State passenger motor vehicle registrations that are LTVs

N_s = the national seat belt use rate for the State-surveyed vehicle and occupant population (or closest available group from NOPUS)

APPENDIX B—PROCEDURES FOR MISSING OR INADEQUATE STATE-SUBMITTED INFORMATION (CALENDAR YEARS 1996 AND 1997)

A. If State-submitted seat belt use rate information is unavailable or inadequate for both calendar years 1996 and 1997, State seat belt use rates for calendar years 1996 and 1997 will be estimated based on seat belt use rates of fatally-injured occupants. Data from the Fatality Analysis Reporting System (FARS) will be translated into estimated observed seat belt use rates using an algorithm that relates historical belt use by fatally-injured occupants to observed use.¹

B. The algorithm is as follows:

$$u = (-.221794 + \sqrt{.049193 + .410769F}) / .456410$$

Where:

u = the estimated observed seat belt use
 F = the seat belt use in potentially fatal crashes

In the above formula, F is calculated as follows:

$$F = (f / (1 - e)) / ((f / (1 - e)) + 1 - f)$$

Where:

F = the seat belt use in potentially fatal crashes

e = State-specific weighted average effectiveness of seat belts in passenger cars and passenger motor vehicles that are not passenger cars

f = State-specific seat belt use rate of fatally-injured occupants of passenger vehicles

C. If State-submitted seat belt use rate information is available for either calendar year 1996 or 1997, but not both, a State seat belt use rate for the year for which information is missing will be estimated by calculating the percent change in the FARS-based observed seat belt use rate (derived from the above algorithm) between the two years. This factor will then be applied to the seat belt use rate from the known year to derive

¹Blincoe, L.J. *Estimating the Benefits of Increased Safety Belt Use*. Washington, DC: U.S. Department of Transportation, NHTSA, DOT HS 808 133, June, 1994.

an estimate of the seat belt use rate for the unknown year.

APPENDIX C—CERTIFICATION (CALENDAR YEAR 1998 SURVEY BASED ON SURVEY APPROVED UNDER 23 U.S.C. 153)

State Certification—Calendar Year 1998 Seat Belt Use Survey

State of _____
 Seat Belt Use Rate Reported for Calendar Year _____ : _____ %.

In accordance with the provisions of 23 CFR 1240.12(c)(2), I hereby certify as follows:

1. The seat belt use rate reported above is based on a survey whose design was approved by NHTSA, in writing, on or after June 29, 1992, under the provisions of the grant program authorized by 23 U.S.C. 153.

2. The survey design has remained unchanged since the survey was approved (except to the extent that the requirements of paragraph 3 constitute a change).

3. The survey samples all passenger motor vehicles (including cars, pickup trucks, vans, minivans, and sport utility vehicles), measures seat belt use by all front outboard occupants in the sampled vehicles, and counts seat belt use completely within the calendar year for which the seat belt use rate is reported.

 Governor's Representative for Highway Safety

 (Date)

APPENDIX D—DETERMINATION OF NATIONAL AVERAGE SEAT BELT USE RATE

A. To determine the national average seat belt use rate in a calendar year, each State seat belt use rate for the calendar year will be weighted to reflect the percentage of total national vehicle miles traveled attributable to that State.

B. If a State seat belt use rate is unavailable for a State during a calendar year (either because the State did not conduct a seat belt use survey or a survey was conducted but does not comply with the Uniform Criteria for State Observational Surveys of Seat Belt Use, 23 CFR Part 1340), NHTSA will calculate a State seat belt use rate, using the last available State seat belt use rate determined under §1240.11 or §1240.12 of this part, as applicable, along with information on seat belt use rates from the FARS, and an algorithm relating FARS seat belt use rates to observed seat belt use rates (see Appendix 1, note). This procedure will produce an estimated State seat belt use rate for the unknown calendar year. The estimated State seat belt use rate will then be weighted in

the manner described in paragraph A of this appendix.

C. The national average seat belt use rate for the calendar year will be determined by adding the weighted State seat belt use rates for each of the States (i.e., the national average seat belt use rate is the weighted average of all the State seat belt use rates).

D. NHTSA may elect to use a seat belt use survey that does not comply with the Uniform Criteria for State Observational Surveys of Seat Belt Use in determining the national average seat belt use rate (even though the State that submitted the survey is ineligible to receive an allocation of funds), if in NHTSA's judgment, the deficiencies in the survey are not so substantial as to render the survey less accurate than the FARS estimate.

APPENDIX E—DETERMINATION OF FEDERAL MEDICAL SAVINGS

A. To determine the savings to the Federal Government from reduced medical costs attributable to seat belt use, NHTSA will first estimate the impact of seat belt use on the number of fatalities and injuries, using methods described in the report "Estimating the Benefits from Increased Safety Belt Use."¹ These methods establish a relationship between the effectiveness of seat belts, current use rates, and existing injury levels to determine the impact of increasing seat belt use on motor vehicle safety. Using these methods, NHTSA will estimate the fatalities prevented and the non-fatal injuries avoided by increased seat belt use.

B. In the 1996 report "The Economic Cost of Motor Vehicle Crashes, 1994,"² NHTSA measured both the medical costs and payment sources for motor vehicle crashes. NHTSA will adjust the national medical cost figures from this report to individual State income levels to reflect local cost levels. These per-case costs will be further adjusted for inflation, using the most recent annual average Consumer Price Index for medical care, and then multiplied by the injuries and fatalities prevented in each State to derive the total medical care savings from increased seat belt use. The Federal portion of these costs will be derived from the best available data found in the same cost report or in other sources, as they may become available.

SUBCHAPTER C—GENERAL PROVISIONS

PART 1250—POLITICAL SUBDIVISION PARTICIPATION IN STATE HIGHWAY SAFETY PROGRAMS

- Sec.
1250.1 Scope.
1250.2 Purpose.
1250.3 Policy.
1250.4 Determining local share.
1250.5 Waivers.

AUTHORITY: 23 U.S.C. 315, 402(b); and delegations of authority at 49 CFR 1.48 and 1.50.

SOURCE: 41 FR 23948, June 14, 1976, unless otherwise noted.

§ 1250.1 Scope.

This part establishes guidelines for the States to assure their meeting the requirements for 40 percent political subdivision participation in State highway safety programs under 23 U.S.C. 402 (b)(1)(C).

§ 1250.2 Purpose.

The purpose of this part is to provide guidelines to determine whether a State is in compliance with the requirement that at least 40 percent of all Federal funds apportioned under 23 U.S.C. 402 will be expended by political subdivisions of such State.

§ 1250.3 Policy.

To assure that the provisions of 23 U.S.C. 402(b)(1)(C) are complied with, the NHTSA and FHWA field offices will:

(a) Prior to approving the State's Annual Work Program (AWP), review the AWP and each of the subelement plans which make up the AWP. The NHTSA Regional Administrator will review the 1½ safety standard areas for which NHTSA is responsible and the FHWA Division Administrator will review the 3½ safety standard areas for which FHWA is responsible. The narrative description for each subelement plan should contain sufficient information to identify the funds to be expended by, or for the benefit of the political subdivisions.

(b) Withhold approval of a State's AWP, as provided in Highway Safety Program Manual volume 103, chapter

III, paragraph 3c, where the program does not provide at least 40 percent of Federal funds for planned local program expenditures.

(c) During the management review of the State's operations, determine if the political subdivisions had an active voice in the initiation, development and implementation of the programs for which such sums were expended.

§ 1250.4 Determining local share.

(a) In determining whether a State meets the requirement that at least 40 percent of Federal 402 funds be expended by political subdivisions, FHWA and NHTSA will apply the 40 percent requirement sequentially to each fiscal year's apportionments, treating all apportionments made from a single fiscal year's authorizations as a single entity for this purpose. Therefore, at least 40 percent of each State's apportionments from each year's authorizations must be used in the highway safety programs of its political subdivisions prior to the period when funds would normally lapse. The 40 percent requirement is applicable to the State's total federally funded safety program irrespective of Standard designation or Agency responsibility.

(b) When Federal funds apportioned under 23 U.S.C. 402 are expended by a political subdivision, such expenditures are clearly part of the local share. Local safety project related expenditures and associated indirect costs, which are reimbursable to the grantee local governments, are classifiable as the local share of Federal funds. Illustrations of such expenditures are the cost incurred by a local government in planning and administration of project related safety activities, driver education activities, traffic court programs, traffic records system improvements, upgrading emergency medical services, pedestrian safety activities, improved traffic enforcement, alcohol countermeasures, highway debris removal programs, pupil transportation programs, accident investigation, surveillance of high accident locations, and traffic engineering services.

§ 1250.5

(c) When Federal funds apportioned under 23 U.S.C. 402 are expended by the State or a State agency for the benefit of a political subdivision, such funds may be considered as part of the local share, provided that the political subdivision benefitted has had an active voice in the initiation, development, and implementation of the programs for which such funds are expended. In no case may the State arbitrarily ascribe State agency expenditures as "benefitting local government." Where political subdivisions have had an active voice in the initiation, development, and implementation of a particular program, and a political subdivision which has not had such active voice agrees in advance of implementation to accept the benefits of the program, the Federal share of the cost of such benefits may be credited toward meeting the 40 percent local participation requirement. Where no political subdivisions have had an active voice in the initiation, development, and implementation of a particular program, but a political subdivision requests the benefits of the program as part of the local government's highway safety program, the Federal share of the cost of such benefits may be credited toward meeting the 40 percent local participation requirement. Evidence of consent and acceptance of the work, goods or services on behalf of the local government must be established and maintained on file by the State, until all funds authorized for a specific year are expended and audits completed.

(d) State agency expenditures which are generally not classified as local are within such standard areas as vehicle inspection, vehicle registration and driver licensing. However, where these Standards provide funding for services such as: driver improvement tasks administered by traffic courts, or where they furnish computer support for local government requests for traffic record searches, these expenditures are classifiable as benefitting local programs.

§ 1250.5 Waivers.

While the 40 percent requirement may be waived in whole or in part by the Secretary or his delegate, it is expected that each State program will generate political subdivision partici-

pation to the extent required by the Act so that requests for waivers will be minimized. Where a waiver is requested, however, it will be documented at least by a conclusive showing of the absence of legal authority over highway safety activities at the political subdivision levels of the State and will recommend the appropriate percentage participation to be applied in lieu of the 40 percent.

SOURCE: 45 FR 59145, Sept. 8, 1980, unless otherwise noted.

§ 1251.1 Purpose.

The purpose of this part is to prescribe the minimum authority and functions of the State Highway Safety Agency established in each State by the Governor under the authority of the Highway Safety Act (23 U.S.C. 402).

§ 1251.2 Policy.

In order for a State to receive funds under the Highway Safety Act, the Governor shall exercise his or her responsibilities through a State Highway Safety Agency that has "adequate powers and is suitably equipped and organized to carry out the program to the satisfaction of the Secretary." 23 U.S.C. 402(b)(1)(A). Accordingly, it is the policy of this part that approval of a State's Highway Safety Plan will depend upon the State's compliance with §§ 1251.3 and 1251.4 of this part.

§ 1251.3 Authority.

Each State Highway Safety Agency shall be authorized to:

(a) Develop and implement a process for obtaining information about the highway safety programs administered by other State and local agencies.

(b) Periodically review and comment to the Governor on the effectiveness of highway safety plans and activities in the State regardless of funding source.

NHTSA and FHWA, DOT

§ 1252.2

(c) Provide or facilitate the provision of technical assistance to other State agencies and political subdivisions to develop highway safety programs.

(d) Provide financial and technical assistance to other State agencies and political subdivisions in carrying out highway safety programs.

§ 1251.4 Functions.

Each State Highway Safety Agency shall:

(a) Develop and prepare the Highway Safety Plan prescribed by volume 102 of the Highway Safety Program Manual (23 CFR 1204.4, Supplement B), based on evaluation of highway accidents and safety problems within the State.

(b) Establish priorities for highway safety programs funded under 23 U.S.C. 402 within the State.

(c) Provide information and assistance to prospective aid recipients on program benefits, procedures for participation, and development of plans.

(d) Encourage and assist local units of government to improve their highway safety planning and administration efforts.

(e) Review the implementation of State and local highway safety plans and programs, regardless of funding source, and evaluate the implementation of those plans and programs funded under 23 U.S.C. 402.

(f) Monitor the progress of activities and the expenditure of section 402 funds contained in the State's approved Highway Safety Plan.

(g) Assure that independent audits are made of the financial operations of the State Highway Safety Agency and of the use of section 402 funds by any subrecipient.

(h) Coordinate the State Highway Safety Agency's Highway Safety Plan with other federally and non-federally supported programs relating to or affecting highway safety.

(i) Assess program performance through analysis of data relevant to highway safety planning.

PART 1252—STATE MATCHING OF PLANNING AND ADMINISTRATION COSTS

Sec.
1252.1 Purpose.

1252.2 Definitions.
1252.3 Applicability.
1252.4 Policy.
1252.5 Procedures.
1252.6 Responsibilities.

SOURCE: 45 FR 47145, July 14, 1980, unless otherwise noted.

§ 1252.1 Purpose.

This part establishes the National Highway Traffic Safety Administration (NHTSA) and the Federal Highway Administration (FHWA) policy on planning and administration (P&A) costs for State highway safety agencies. It defines planning and administration costs, describes the expenditures that may be used to satisfy the State matching requirement, prescribes how the requirement will be met, and when States will have to comply with the requirement.

§ 1252.2 Definitions.

(a) *Fiscal year* means the twelve months beginning each October 1, and ending the following September 30.

(b) *Direct costs* are those costs which can be identified specifically with a particular planning and administration or program activity. The salary of a data analyst on the State highway safety agency staff is an example of a direct cost attributable to P&A. The salary of an emergency medical technician course instructor is an example of direct cost attributable to a program activity.

(c) *Indirect costs* are those costs (1) incurred for a common or joint purpose benefiting more than one program activity and (2) not readily assignable to the program activity specifically benefited. For example, centralized support services such as personnel, procurement, and budgeting would be indirect costs.

(d) *Planning and administration (P&A) costs* are those direct and indirect costs that are attributable to the overall development and management of the Highway Safety Plan. Such costs could include salaries, related personnel benefits, travel expenses, and rental costs.

(e) *Program management costs* are those costs attributable to a program

§ 1252.3

area (e.g., salary of an emergency medical services coordinator, the impact evaluation of an activity, or the travel expenses of a local traffic engineer).

(f) *State highway safety agency* is the agency directly responsible for coordinating the State's highway safety program authorized by 23 U.S.C. 402.

§ 1252.3 Applicability.

The provisions of this part apply to obligations incurred after November 6, 1978, for planning and administration costs under 23 U.S.C. 402.

§ 1252.4 Policy.

Federal participation in P&A activities shall not exceed 50 percent of the total cost of such activities, or the applicable sliding scale rate in accordance with 23 U.S.C. 120. The Federal contribution for P&A activities shall not exceed 10 percent of the total funds the State receives under 23 U.S.C. 402. In accordance with 23 U.S.C. 120(i), the Federal share payable for projects in the Virgin Islands, Guam, American Samoa and the Commonwealth of the Northern Mariana Islands shall be 100 percent. The Indian State, as defined by 23 U.S.C. 402 (d) and (i), is exempt from the provisions of this part. NHTSA funds shall be used only to finance P&A activities attributable to NHTSA programs and FHWA funds shall be used only to finance P&A costs attributable to FHWA programs.

[47 FR 15121, Apr. 8, 1982]

§ 1252.5 Procedures.

(a) P&A tasks and related costs shall be described in the P&A module of the State's Highway Safety Plan. The State's matching share shall be determined on the basis of the total P&A costs in the module. Federal participation shall not exceed 50 percent (or the applicable sliding scale) of the total P&A costs. A State shall not use NHTSA funds to pay more than 50 percent of the P&A costs attributable to NHTSA programs nor use FHWA funds to pay more than 50 percent of the P&A costs attributable to FHWA programs. In addition, the Federal contribution for P&A activities shall not exceed 10 percent of the total funds in the State received under 23 U.S.C. 402.

23 CFR Ch. II (4-1-01 Edition)

(b) FHWA and NHTSA funds may be used to pay for the Federal share of P&A costs up to the amounts determined by multiplying the Federal share by the ratio between the P&A costs attributable to FHWA programs and the P&A costs attributable to NHTSA programs. For example: A State's total P&A costs are \$40,000. The State's share is 50 percent or \$20,000. To pay the remaining \$20,000, the State first ascertains the amount spent out of the total costs for each agency's programs, then applies the ratio between these two amounts to the \$20,000. If \$36,000 of the total costs are spent for NHTSA programs and \$4,000 for FHWA programs, the ratio would be 9/1 and the corresponding allocation of the Federal share would be \$18,000 to NHTSA and \$2,000 to FHWA.

(c) A State at its option may allocate salary and related costs of State highway safety agency employees to one of the following:

(1) The administration and planning functions in the P&A module;

(2) The program management functions in one or more Program modules; or

(3) A combination of administration and planning functions in the P&A module and the program management functions in one or more program modules.

(d) If an employee is principally performing administration and planning functions under a P&A module, the total salary and related costs may be allocated to the P&A module. If the employee is principally performing program management functions under one or more program modules, the total salary and related costs may be charged directly to the appropriate module(s). If an employee is spending time on a combination of administration and planning functions and program management functions, the total salary and related costs may be charged to the appropriate module(s) based on the actual time worked under each module. If the State highway safety agency elects to allocate costs based on actual time spent on an activity, the State highway safety agency must keep accurate time records showing the work activities for each employee. The State's record keeping system

NHTSA and FHWA, DOT

§ 1252.6

must be approved by the appropriate FHWA and NHTSA officials.

(e) Those tasks and related costs contained in the P&A module, not defined as P&A costs under §1252.2(d) of this part, are not subject to the planning and administration cost matching requirement.

[45 FR 47145, July 14, 1980, as amended at 47 FR 15121, Apr. 8, 1982]

§ 1252.6 Responsibilities.

During the Highway Safety Plan approval process, the responsible FHWA and NHTSA officials shall approve a P&A module only if the projected State

expenditure is at least 25 percent (or the appropriate sliding scale rate) of the total P&A costs identified in the module. If a State elects to prorate P&A and program management costs, the appropriate NHTSA and FHWA officials must approve the method that the State highway safety agency will use to record the time spent on these activities. During the process of reimbursement, the responsible FHWA and NHTSA officials shall assure that Federal reimbursement for P&A costs at no time exceeds 75 percent (of the applicable sliding scale rate) of the costs accumulated at the time of reimbursement.

[63 FR 53585, Oct. 6, 1998, as amended at 65 FR 51538, Aug. 24, 2000]

§ 1270.4 Compliance criteria.

(a) To avoid the transfer of funds as specified in § 1270.6 of this part, a State must enact and enforce a law that prohibits the possession of any open alcoholic beverage container, and the consumption of any alcoholic beverage, in the passenger area of any motor vehicle (including possession or consumption by the driver of the vehicle) located on a public highway, or the right-of-way of a public highway, in the State.

(b) The law must apply to:

public highway or the right-of-way of a public highway.

(c) The law must provide for primary enforcement.

(d) *Exceptions.* (1) If a State has in effect a law that makes unlawful the possession of any open alcoholic beverage container and the consumption of any alcoholic beverage in the passenger area of any motor vehicle, but permits the possession of an open alcoholic beverage container in a locked glove compartment, or behind the last upright seat or in an area not normally occupied by the driver or a passenger in a motor vehicle that is not equipped with a trunk, the State shall be deemed to have in effect a law that applies to the passenger area of any vehicle, as provided in paragraph (b)(2) of this section.

(2) If a State has in effect a law that makes unlawful the possession of any open alcoholic beverage container or the consumption of any alcoholic beverage by the driver (but not by a passenger) in the passenger area of a motor vehicle designed, maintained, or used primarily for the transportation of persons for compensation, or in the living quarters of a house coach or house trailer, the State shall be deemed to have in effect a law that applies to all occupants of a motor vehicle, as provided in paragraph (b)(4) of this section.

§ 1270.5 Certification requirements.

(a) Until a State has been determined to be in compliance, or after a State has been determined to be in non-compliance, with the requirements of 23 U.S.C. 154, to avoid the transfer of funds in any fiscal year, beginning with FY 2001, the State shall certify to the Secretary of Transportation, on or before September 30 of the previous fiscal year, that it meets the requirements of 23 U.S.C. 154 and this part.

(b) The certification shall be made by an appropriate State official, and it shall provide that the State has enacted and is enforcing an open container law that conforms to 23 U.S.C. 154 and § 1270.4 of this part.

(1) If the State's open container law is currently in effect and is being enforced, the certification shall be worded as follows:

(Name of certifying official), (position title), of the (State or Commonwealth) of _____, do hereby certify that the (State or Commonwealth) of _____, has enacted and is enforcing a open container law that conforms to the requirements of 23 U.S.C. 154 and 23 CFR 1270.4, (citations to pertinent State statutes, regulations, case law or other binding legal requirements, including definitions, as needed).

(2) If the State's open container law is not currently in effect, but will become effective and be enforced by October 1 of the following fiscal year, the certification shall be worded as follows:

(Name of certifying official), (position title), of the (State or Commonwealth) of _____, do hereby certify that the (State or Commonwealth) of _____, has enacted an open container law that conforms to the requirements of 23 U.S.C. 154 and 23 CFR 1270.4, (citations to pertinent State statutes, regulations, case law or other binding legal requirements, including definitions, as needed), and will become effective and be enforced as of (effective date of the law).

(c) An original and four copies of the certification shall be submitted to the appropriate NHTSA Regional Administrator. Each Regional Administrator will forward the certifications to the appropriate NHTSA and FHWA offices.

(d) Once a State has been determined to be in compliance with the requirements of 23 U.S.C. 154, it is not required to submit additional certifications, except that the State shall promptly submit an amendment or supplement to its certification provided under paragraphs (a) and (b) of this section if the State's open container law changes or the State ceases to enforce such law.

(b) On October 1, 2002, and each October 1 thereafter, if a State does not have in effect or is not enforcing the

§ 1270.7

23 CFR Ch. II (4–1–01 Edition)

law described in §1270.4, the Secretary shall transfer an amount equal to 3 percent of the funds apportioned to the State for that fiscal year under each of 23 U.S.C. 104(b)(1), (b)(3), and (b)(4) to the apportionment of the State under 23 U.S.C. 402.

(c) On October 1, the transfers to Section 402 apportionments will be made based on proportionate amounts from each of the apportionments under Sections 104(b)(1), (b)(3) and (b)(4). Then the State's Department of Transportation will be given until October 30 to notify FHWA, through the appropriate Division Administrator, if they would like to change the distribution among Section 104(b)(1), (b)(3) and (b)(4).

[63 FR 53585, Oct. 6, 1998, as amended at 65 FR 51538, Aug. 24, 2000]

(2) Be directed to State and local law enforcement agencies for enforcement of laws prohibiting driving while intoxicated or driving under the influence and other related laws (including regulations), including the purchase of equipment, the training of officers, and the use of additional personnel for specific alcohol-impaired driving countermeasures, dedicated to enforcement of the laws (including regulations).

(b) States may elect to use all or a portion of the transferred funds for hazard elimination activities eligible under 23 U.S.C. 152.

(c) No later than 60 days after the funds are transferred under §1270.6, the Governor's Representative for Highway Safety and the Secretary of the State's Department of Transportation for each State shall jointly identify, in writing to the appropriate NHTSA Administrator and FHWA Division Administrator, how the funds will be programmed among alcohol-impaired driving programs, hazard elimination programs and planning and administration costs.

(d) The Federal share of the cost of any project carried out with the funds transferred under §1270.6 of this part shall be 100 percent.

(e) The amount to be transferred under §1270.6 of this part may be derived from one or more of the following:

(2) The apportionment of the State under §104(b)(3); or

(3) The apportionment of the State under §104(b)(4).

(f)(1) If any funds are transferred under §1270.6 of this part to the apportionment of a State under Section 402 for a fiscal year, an amount, determined under paragraph (e)(2) of this section, of obligation authority will be distributed for the fiscal year to the State for Federal-aid highways and highway safety construction programs for carrying out projects under Section 402.

(2) The amount of obligation authority referred to in paragraph (e)(1) of this section shall be determined by multiplying:

(i) The amount of funds transferred under §1270.6 of this part to the apportionment of the State under Section 402 for the fiscal year; by

(ii) The ratio that:

(A) The amount of obligation authority distributed for the fiscal year to the State for Federal-aid highways and highway safety construction programs; bears to

(B) The total of the sums apportioned to the State for Federal-aid highways and highway safety construction programs (excluding sums not subject to any obligation limitation) for the fiscal year.

(g) Notwithstanding any other provision of law, no limitation on the total obligations for highway safety programs under Section 402 shall apply to funds transferred under §1270.6 to the apportionment of a State under such section.

§ 1270.8 Procedures affecting States in noncompliance.

(a) Each fiscal year, each State determined to be in noncompliance with 23 U.S.C. 154 and this part, based on NHTSA's and FHWA's preliminary review of its certification, will be advised of the funds expected to be transferred

under §1270.4 from apportionment, as part of the advance notice of apportionments required under 23 U.S.C. 104(e), normally not later than ninety days prior to final apportionment.

(b) If NHTSA and FHWA determine that the State is not in compliance with 23 U.S.C. 154 and this part, based on the agencies' preliminary review, the State may, within 30 days of its receipt of the advance notice of apportionments, submit documentation showing why it is in compliance. Documentation shall be submitted to the appropriate National Highway Traffic Safety Administration Regional office.

(c) Each fiscal year, each State determined not to be in compliance with 23 U.S.C. 154 and this part, based on NHTSA's and FHWA's final determination, will receive notice of the funds being transferred under §1270.6 from apportionment, as part of the certification of apportionments required under 23 U.S.C. 104(e), which normally occurs on October 1 of each fiscal year.

§ 1275.1 Scope.

This part prescribes the requirements necessary to implement Section 164 of Title 23, United States Code, which encourages States to enact and enforce repeat intoxicated driver laws.

§ 1275.2 Purpose.

The purpose of this part is to specify the steps that States must take to avoid the transfer of Federal-aid highway funds for noncompliance with 23 U.S.C. 164.

§ 1275.3 Definitions.

As used in this part:

(a) *Alcohol concentration* means grams of alcohol per 100 milliliters of blood or grams of alcohol per 210 liters of breath.

(b) *Driver's motor vehicle* means a motor vehicle with a title or registration on which the repeat intoxicated driver's name appears.

(c) *Driving while intoxicated* means driving or being in actual physical control of a motor vehicle while having an alcohol concentration above the permitted limit as established by each State, or an equivalent non-BAC intoxicated driving offense.

(d) *Driving under the influence* has the same meaning as "driving while intoxicated."

(e) *Enact and enforce* means the State's law is in effect and the State has begun to implement the law.

(f) *Ignition interlock system* means a State-certified system designed to prevent drivers from starting their car when their breath alcohol concentration is at or above a preset level.

(g) *Impoundment or immobilization* means the removal of a motor vehicle from a repeat intoxicated driver's possession or the rendering of a repeat intoxicated driver's motor vehicle inoperable. For the purpose of this regulation, "impoundment or immobilization" also includes the forfeiture or confiscation of a repeat intoxicated driver's motor vehicle or the revocation or suspension of a repeat intoxicated driver's motor vehicle license plate or registration.

(h) *Imprisonment* means confinement in a jail, minimum security facility, community corrections facility, house arrest with electronic monitoring, inpatient rehabilitation or treatment center, or other facility, provided the individual under confinement is in fact being detained.

(i) *License suspension* means a hard suspension of all driving privileges.

(j) *Motor vehicle* means a vehicle driven or drawn by mechanical power and manufactured primarily for use on public highways, but does not include a vehicle operated solely on a rail line or a commercial vehicle.

§ 1275.4

(k) *Repeat intoxicated driver* means a person who has been convicted of driving while intoxicated or driving under the influence of alcohol more than once in any five-year period.

(l) *Repeat intoxicated driver law* means a State law that imposes the minimum penalties specified in §1275.4 of this part for all repeat intoxicated drivers.

(m) *State* means any of the 50 States, the District of Columbia or the Commonwealth of Puerto Rico.

[63 FR 55802, Oct. 19, 1998, as amended at 65 FR 59124, Oct. 4, 2000]

§ 1275.4 Compliance criteria.

(a) To avoid the transfer of funds as specified in §1275.6 of this part, a State must enact and enforce a law that establishes, as a minimum penalty, that all repeat intoxicated drivers shall:
