

§ 3281.1

the production and utilization of separately owned interests in the geothermal resources made subject thereto as a single consolidated unit without regard to separate ownerships and which provides for the allocation of costs and benefits on a basis defined in the agreement or plan.

(b) *Cooperative agreement.* An agreement or plan of development and operations for the production and utilization of geothermal resources made subject thereto in which separate ownership units are independently operated without allocation of production.

(c) *Agreement.* For convenience, the term "agreement" as used in the regulations in this part refers to either a unit or a cooperative agreement as defined in paragraphs (a) and (b) of this section unless otherwise indicated.

(d) *Unit area.* The area described in a unit agreement as constituting the land logically subject to development under such agreement.

(e) *Unitized land.* The part of a unit area committed to a unit agreement.

(f) *Unitized substances.* Deposits of geothermal resources recovered from unitized land by operation under and pursuant to a unit agreement.

(g) *Unit operator.* The person, association, partnership, corporation, or other business entity designated under a unit agreement to conduct operations on unitized land as specified in such agreement.

(h) *Participating area.* That part of the Unit Area which is deemed to be productive from a horizon or deposit and to which production would be allocated in the manner described in the unit agreement assuming that all lands are committed to the unit agreement.

(i) *Working interest.* The interest held in geothermal resources or in lands containing the same by virtue of a lease, operating agreement, fee title, or otherwise, under which, except as otherwise provided in a unit or cooperative agreement, the owner of such interest is vested with the right to explore for, develop, produce, and utilize such resources. The right delegated to the unit operator as such by the unit agreement is not to be regarded as a working interest.

43 CFR Ch. II (10-1-01 Edition)

Subpart 3281—Application for Unit Agreement

§ 3281.1 Preliminary consideration of agreements.

The form of unit agreement set forth in § 3286.1 of this title is acceptable for use in unproved areas. The use of this form is not mandatory, but any proposed departure therefrom should be submitted with the application submitted under § 3281.2 of this title for preliminary consideration and for such revision as may be deemed necessary. In areas proposed for unitization in which a discovery of geothermal resources has been made, or where a cooperative agreement is contemplated, the proposed agreement should be submitted with the application submitted under § 3281.2 of this title for preliminary consideration and for such revision as may be deemed necessary. The proposed form of agreement should be submitted in triplicate and should be plainly marked to identify the proposed variances from the form of agreement set forth in § 3286.1 of this title.

§ 3281.2 Designation of area.

An application for designation of an area as logically subject to development and/or operation under a unit or cooperative agreement may be filed, in triplicate, by any proponent of such an agreement through the authorized officer. Each copy of the application shall be accompanied by a map or diagram on a scale of not less than 1 inch to 1 mile, outlining the area sought to be designated under this section. The Federal, State, and privately owned land should be indicated on said map by distinctive symbols or colors and Federal geothermal leases and lease applications should be identified by serial number. Geological information, including the results of geophysical surveys, and such other information as may tend to show that unitization is necessary and advisable in the public interest should be furnished in triplicate. Geological and geophysical information and data so furnished will not be available for public inspection, as provided by 5 U.S.C. 552(b), without the consent of the proponent. The application and supporting data will be

Bureau of Land Management, Interior

§ 3283.2

considered by the Director and the applicant will be informed of the decision reached. The designation of an area, pursuant to an application filed under this section, shall not create an exclusive right to submit an executed agreement for such area, nor preclude the inclusion of such area or any part thereof in another unit area.

§ 3281.3 Parties to unit or cooperative agreement.

The owners of any rights, title, or interest in the geothermal resources deposits to be developed and operated under an agreement can be regarded as proper parties to a proposed agreement. All such owners must be invited to join as parties to the agreement. If any owner fails or refuses to join the agreement, the proponent of the agreement should declare this to the authorized officer and should submit evidence of efforts made to obtain joinder of such owner and the reasons for non-joinder.

§ 3281.4 State land.

Where State-owned land is to be included in the unit, approval of the agreement by appropriate State officials should be obtained prior to its submission to the Department for approval of the executed agreement. When authorized by the laws of the State in which the unitized land is situated, provisions may be made in the agreement accepting State law, to the extent that they are applicable to non-Federal unitized land.

Subpart 3282—Qualification of Unit Operator

§ 3282.1 Qualifications of unit operator.

A unit operator must qualify as to citizenship in the same manner as those holding interests in geothermal leases issued under the Geothermal Steam Act of 1970. The unit operator may be an owner of a working interest in the unit area or such other party as may be selected by the owners of working interests and approved by the authorized officer. The unit operator shall execute an acceptance of the duties and obligations imposed by the agreement. No designation of, or

change in, a unit operator will become effective unless and until approved by the authorized officer, and no such approval will be granted unless the unit operator is deemed qualified to fulfill the duties and obligations prescribed in the agreement.

Subpart 3283—Filing and Approval of Documents

§ 3283.1 Filing of documents and number of counterparts.

All proposals and supporting papers, instruments and documents submitted under this part shall be filed with the authorized officer, unless otherwise provided in this part or otherwise instructed by the Director.

[48 FR 44793, Sept. 30, 1983]

§ 3283.2 Executed agreement.

(a) Where a duly executed agreement is submitted for Departmental approval, a minimum of 6 signed counterparts shall be filed. The same number of counterparts shall be filed for documents supplementing, modifying or amending an agreement, including change of operator, designation of a new operator and notice of surrender, relinquishment or termination.

(b) The address of each signatory party to the agreement shall be inserted below the party's signature. Each signature shall be attested to by at least 1 witness, if not notarized. Corporate or other signatures made in a representative capacity shall be accompanied by evidence of the authorization of the signatories to act unless such evidence is already a matter of record in the Bureau of Land Management. (The parties may execute any number of counterparts of the agreement with the same force and effect as if all parties signed the same document, or may execute a ratification of consent in a separate instrument with like force and effect.)

(c) Any modification of an approved agreement shall require approval of the Secretary or his/her duly authorized representative under procedures similar to those cited in § 3283.2-1 of this title.
