

§ 3600.0-4

be made from any lands in any national park or national monument or from any Indian lands or lands set aside or held for the use or benefit of Indians including lands over which jurisdiction has been transferred to the Department of the Interior by Executive order for the use of Indians.

(4) Authority for the Secretary of the Interior, in his discretion to permit the free use of mineral materials by any Federal or State government agency, unit or subdivision, including municipalities, or any nonprofit association or corporation. The Materials Act *does not* permit these materials to be used for commercial or industrial purposes, resale or barter.

(b) Section 302 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1732) directs the Secretary:

(1) To manage public lands under the principles of multiple use and sustained yield in accordance with the land use plans developed under the Act (see subpart 1601 of this title).

(2) To regulate, through easements, permits, leases, licenses, published rules or other instruments deemed appropriate, the use, occupancy and development of public lands.

(3) To prevent unnecessary and undue degradation of the public lands.

(c) Section 2 of the Act of September 28, 1962 (76 Stat. 652) requires the Secretary of the Interior to provide by regulation that limited quantities of petrified wood may be removed without charges from public lands which he shall specify. Section 2 of the above Act applies to the same public lands as the Act of July 31, 1947, as amended (30 U.S.C. 601, 602). Specifically excluded are lands in any national park, or national monument, or any Indian lands.

(d) Section 304(b) of the Federal Land Policy and Management Act of 1975 (43 U.S.C. 1734) and the Independent Offices Appropriations Act of 1952 (31 U.S.C. 483a) provide authorities for the collection of fees and the reimbursement of costs by the government.

§ 3600.0-4 Policy.

It is the policy of the Bureau of Land Management to permit the disposal of mineral material resources under the Bureau's jurisdiction at fair market value while ensuring that adequate

43 CFR Ch. II (10-1-01 Edition)

measures are taken to protect the environment and minimize damage to public health and safety during the authorized exploration for and the removal of such minerals. No mineral material shall be disposed of if the Secretary determines that the aggregate damage to public lands and resources would exceed the benefits to be derived from the proposed sale or free use.

§ 3600.0-5 Definitions.

As used in this group, the term:

(a) *Bureau* means Bureau of Land Management, Department of the Interior.

(b) *Director* means the Director of the Bureau of Land Management.

(c) *Permittee* means any person, corporation, partnership and association, Federal, or State agency, unit, or subdivision, including municipalities, and non-profit organization or corporation or other entity that has been issued a contract or a free-use permit for the removal of mineral materials from the public lands.

(d) *Authorized officer* means any employee of the Bureau of Land Management who has been delegated the authority to perform the duties described in this part.

(e) *Mineral material* includes, but is not limited to, *common varieties* of sand, stone, gravel, pumice, pumicite, cinders, clay and other mineral materials and petrified wood.

(f) *Public lands* means any lands and interest in lands owned by the United States and administered by the Secretary of the Interior through the Bureau of Land Management without regard to how the United States acquired ownership, except lands held for the benefit of Indians, Aleuts, and Eskimos.

(g) *Community pit* means a site from which nonexclusive disposals of mineral materials can be made. The establishment of a community pit, when noted on the appropriate Bureau of Land Management records or posted on the ground, constitutes a superior right to remove material as against any subsequent claim or entry of the lands.

(h) *Common use area* means a generally broad geographic area from

Bureau of Land Management, Interior

§ 3601.1-2

which nonexclusive disposals of mineral materials can be made, with only negligible surface disturbance. The establishment of a common use area does not create a superior right to remove material as against any subsequent claim or entry of the lands.

(i) *Performance bond* means a bond to ensure compliance with the terms of the contract and reclamation of the site as required by the authorized officer.

(j) *Act* means the Material Act of July 31, 1947, as amended, (30 U.S.C. 601, *et seq.*).

(k) *Unnecessary or undue degradation* means surface disturbance greater than what would normally result when an activity is being accomplished by a prudent operator in usual, customary, and proficient operations of similar character and taking into consideration the effects of operations on other resources and land uses, including those resources and uses outside the area of operations. Unnecessary and undue degradation may involve failure to initiate and complete reasonable mitigation measures, including reclamation of disturbed area; creation of a nuisance; or failure to comply with applicable environmental protection statutes and regulations.

§ 3600.0-8 Public availability of information.

(a) All data and information concerning Federal and Indian minerals submitted under this part 3600 and parts 3610 and 3620 of this chapter are subject to part 2 of this title. Part 2 of this title includes the regulations of the Department of the Interior covering the public disclosure of data and information contained in Department of the Interior records. Certain mineral information not protected from public disclosure under part 2 of this title may be made available for inspection without a Freedom of Information Act (FOIA) (5 U.S.C. 552) request.

(b) When you submit data and information under this part 3600 and parts 3610 and 3620 of this chapter that you believe to be exempt from disclosure to the public, you must clearly mark each page that you believe includes confidential information. BLM will keep all data and information confidential

to the extent allowed by § 2.13(c) of this title.

33. Section 3602.2 is amended by removing the last two sentences of paragraph (a), and adding a sentence in their place to read as follows:

[63 FR 52954, Oct. 1, 1998]

Subpart 3601—Limitations

§ 3601.1 Limitations; disposal of mineral materials.

§ 3601.1-1 Valid existing rights and unpatented mining claims.

(a) Mineral material disposals may not be made by the authorized officer from public lands where:

- (1) There are any unpatented mining claims which have not been cancelled by appropriate legal proceeding;
- (2) Expressly prohibited by law.

§ 3601.1-2 Authorization to use lands subject to material sales contracts and free use permits.

(a) The permittee under contract of sale or permit for free use shall, unless otherwise provided, have the right to:

- (1) Extract, remove, process and stockpile the material until the termination of the contract regardless of any subsequent appropriation under the provisions of the general land laws; and
- (2) Use and occupy the described lands if it is determined by the authorized officer to be necessary for fulfillment of the contract until termination of that contract.

(b) The permittee shall be subject to the continuing rights of the United States to issue leases, permits and licenses for the use and occupancy of the lands, provided that this authorized use does not endanger or materially interfere with the production or removal of materials under contract.

(c) Any person that has a subsequent settlement, location, lease, sale or other appropriation under the general land laws, including the mineral leasing and mining law on lands covered by a material sale contract or free use permit shall be subject to the existing use authorization.
