§ 92.217 Income targeting: Homeownership.

Each participating jurisdiction must invest HOME funds made available during a fiscal year so that with respect to homeownership assistance, 100 percent of these funds are invested in dwelling units that are occupied by households that qualify as low-income families.

[67 FR 61756, Oct. 1, 2002]

MATCHING CONTRIBUTION REQUIREMENT

§ 92.218 Amount of matching contribution.

(a) General. Each participating jurisdiction must make contributions to housing that qualifies as affordable housing under the HOME program, throughout a fiscal year. The contributions must total not less than 25 percent of the funds drawn from the jurisdiction’s HOME Investment Trust Fund Treasury account in that fiscal year, excluding funds drawn for purposes identified in paragraph (c) of this section.

(b) Shortfall amount from State or local resources. Amounts made available under §92.102(b)(2) from the resources of a State (other than a transfer of the State’s formula allocation), the local participating jurisdiction, or both, to enable the local participating jurisdiction to meet the participation threshold amount are not required to be matched and do not constitute matching contributions.

(c) HOME funds not required to be matched. HOME funds used for administrative and planning costs (pursuant to §92.207); community housing development organization operating expenses (pursuant to §92.208); capacity building (pursuant to §92.300(b)) of community housing development organizations; and project specific assistance to community housing development organizations (pursuant to §92.301) when the participating jurisdiction waives repayment under the provisions of §92.301(a)(3) or §92.301(b)(3) are not required to be matched.

(d) Match contribution for other programs. Contributions that have been or will be counted as satisfying a matching requirement of another Federal grant or award may not count as satisfying the matching contribution requirement for the HOME program.

§ 92.219 Recognition of matching contribution.

(a) Match contribution to HOME-assisted housing. A contribution is recognized as a matching contribution if it is made with respect to:

(1) A tenant who is assisted with HOME funds;

(2) A HOME-assisted unit;

(3) The portion of a project that is not HOME-assisted provided that at least 50 percent of the housing units in the project are HOME-assisted. If the match contribution to the portion of the project that is not HOME-assisted meets the affordable housing requirements of §92.219(b)(2), the percentage requirement for HOME-assisted units does not apply; or

(4) The commercial space in a mixed-use project in which at least 51 percent of the floor space is residential provided that at least 50 percent of the dwelling units are HOME-assisted.

(b) Match contribution to affordable housing that is not HOME-assisted. The following requirements apply for recognition of matching contributions made to affordable housing that is not HOME-assisted:

(1) For tenant-based rental assistance that is not HOME-assisted:

(i) The contribution must be made with respect to a tenant who is assisted with tenant-based rental assistance that meets the requirements of §92.203 (Income determinations) and paragraphs (a), (c), (f), and (i) of §92.209 (Tenant-based rental assistance); and

(ii) The participating jurisdiction must demonstrate in writing that such assistance meets the provisions of §§92.203 and 92.209 (except §92.209(e)).

(2) For affordable housing that is not HOME-assisted:

(i) The contribution must be made with respect to housing that qualifies as affordable housing under §92.252 or §92.254.

(ii) The participating jurisdiction or its instrumentality must execute, with the owner of the housing (or, if the participating jurisdiction is the owner,
§ 92.220  Form of matching contribution.

(a) Eligible forms. Matching contributions must be made from nonfederal resources and may be in the form of one or more of the following:

(1) Cash contributions from nonfederal sources. To be recognized as a cash contribution, funds must be contributed permanently to the HOME program (or to affordable housing not assisted with HOME funds), regardless of the form of investment provided to the project. Therefore, to receive match credit for the full amount of a loan to a HOME project, all repayment, interest, or other return on investment of the contribution must be deposited in the local account of the participating jurisdiction’s HOME Investment Trust Fund to be used for eligible HOME activities in accordance with the requirements of this part. A cash contribution to affordable housing that is not assisted with HOME funds must be contributed permanently to the project. Repayments of matching contributions in affordable housing projects, as defined in § 92.218(b), that are not HOME-assisted, must be made to the local account of the participating jurisdiction’s HOME Investment Trust Fund to get match credit for the full loan amount.

(i) A cash contribution may be made by the participating jurisdiction, non-Federal public entities, private entities, or individuals, except as prohibited under paragraph (b)(4) of this section. A cash contribution made to a nonprofit organization for use in a HOME project may be counted as a matching contribution.

(ii) A cash contribution may be made from program income (as defined by 24 CFR 85.25(b)) from a Federal grant earned after the end of the award period if no Federal requirements govern the disposition of the program income. Included in this category are repayments from closed out grants under the Urban Development Action Grant Program (24 CFR part 570, subpart G) and the Housing Development Grant Program (24 CFR part 850), and from the Rental Rehabilitation Grant Program (24 CFR part 511) after all fiscal year Rental Rehabilitation grants have been closed out.

(iii) The grant equivalent of a below-market interest rate loan to the project that is not repayable to the participating jurisdiction’s HOME Investment Trust Fund may be counted as a cash contribution, as follows:

(A) If the loan is made from funds borrowed by a jurisdiction or public agency or corporation the contribution is the present discounted cash value of the difference between the payments to be made on the borrowed funds and payments to be received from the loan to the project based on a discount rate equal to the interest rate on the borrowed funds.

(B) If the loan is made from funds other than funds borrowed by a jurisdiction or public agency or corporation, the contribution is the present
discounted cash value of the yield foregone. In determining the yield foregone, the participating jurisdiction must use as a measure of a market rate yield one of the following, as appropriate:

(1) With respect to one- to four-unit housing financed with a fixed interest rate mortgage, a rate equal to the 10-year Treasury note rate plus 200 basis points;

(2) With respect to one- to four-unit housing financed with an adjustable interest rate mortgage, a rate equal to the one-year Treasury bill rate plus 250 basis points;

(3) With respect to a multifamily project, a rate equal to the 10-year Treasury note rate plus 300 basis points; or

(4) With respect to housing receiving financing for rehabilitation, a rate equal to the 10-year Treasury note rate plus 400 basis points.

(iv) Proceeds of bonds that are not repaid with revenue from an affordable housing project (e.g., general obligation bonds) and that are loaned to a HOME-assisted or other qualified affordable housing project constitute a cash contribution under this paragraph.

(v) A cash contribution may be counted as a matching contribution only if it is used for costs eligible under §§92.206 or 92.209, or for the following (which are not HOME eligible costs): the cost of removing and relocating an ECHO housing unit during the period of affordability in accordance with §92.258(d)(3)(ii), payments to a project reserve account beyond payments permitted by §92.206(d)(5), operating subsidies, or costs relating to the portion of a mixed-income or mixed-use HOME-assisted project not related to the affordable housing units.

(2) Forbearance of fees—(i) State and local taxes, charges or fees. The value (based on customary and reasonable means for establishing value) of State or local taxes, fees, or other charges that are normally and customarily imposed or charged by a State or local government on all transactions or projects in the conduct of its operations, which are waived, foregone, or deferred (including State low-income housing tax credits) in a manner that achieves affordability of HOME-assisted projects, may be counted as match. The amount of any real estate taxes may be based on post-improvement property value. For taxes, fees, or charges that are forgiven for future years, the value is the present discounted cash value, based on a rate equal to the rate for the Treasury security with a maturity closest to the number of years for which the taxes, fees, or charges are waived, foregone, or deferred.

(ii) Other charges or fees. The value of fees or charges associated with the transfer or development of real estate that are normally and customarily imposed or charged by public or private entities, which are waived or foregone, in whole or in part, in a manner that achieves affordability of HOME-assisted projects, may be counted as match. Fees and charges under this paragraph do not include fees or charges for legal or other professional services; professional services which are donated, in whole or in part, are an eligible matching contribution in accordance with paragraph (a)(7) of this section.

(iii) Fees or charges that are associated with the HOME Program only (rather than normally and customarily imposed or charged on all transactions or projects) are not eligible forms of matching contributions.

(3) Donated Real Property. The value, before the HOME assistance is provided and minus any debt burden, lien, or other encumbrance, of donated land or other real property may be counted as match. The donation may be made by the participating jurisdiction, non-Federal public entities, private entities, or individuals, except as prohibited under paragraph (b)(4) of this section.

(i) Donated property not acquired with Federal resources is a contribution in the amount of 100% of the value.

(ii) Donated property acquired with Federal assistance may provide a partial contribution as follows. The property must be acquired with the Federal assistance at
§ 92.220 24 CFR Subtitle A (4–1–03 Edition)

demonstrably below the appraised value and must be acknowledged by the seller as a donation to affordable housing at the time of the acquisition with the Federal assistance. The amount of the contribution is the difference between the acquisition price and the appraised value at the time of acquisition with the Federal assistance. If the property is acquired with the Federal assistance by someone other than the HOME project (or affordable housing) owner, to continue to qualify as a contribution, the property must be given to the HOME project (or affordable housing) owner at a price that does not exceed the amount of the Federal assistance used to acquire the property.

(iii) Property must be appraised in conformance with established and generally recognized appraisal practice and procedures in common use by professional appraisers. Opinions of value must be based on the best available data properly analyzed and interpreted. The appraisal of land and structures must be performed by an independent, certified appraiser.

(4) The cost, not paid with Federal resources, of on-site and off-site infrastructure that the participating jurisdiction documents are directly required for HOME-assisted projects. The infrastructure must have been completed no earlier than 12 months before HOME funds are committed to the project.

(5) Proceeds from multifamily and single family affordable housing project bond financing validly issued by a State or local government, or an agency or instrumentality of a State or local government or a political subdivision of a State and repayable with revenues from the affordable housing project financed as follows:

(i) Fifty percent of the loan amount made from bond proceeds to a multifamily affordable housing project owner may qualify as match.

(ii) Twenty-five percent of the loan amount from bond proceeds made to a single-family affordable housing project owner may qualify as match.

(iii) Loans made from bond proceeds may not constitute more than 25 percent of a participating jurisdiction’s total annual match contribution.

(6) The reasonable value of donated site-preparation and construction materials, not acquired with Federal resources. The value of site-preparation and construction materials is to be determined in accordance with the participating jurisdiction’s cost estimate procedures.

(7) The reasonable rental value of the donated use of site preparation or construction equipment.

(8) The value of donated or voluntary labor or professional services (see §92.354(b)) in connection with the provision of affordable housing. A single rate established by HUD shall be applicable for determining the value of unskilled labor. The value of skilled labor or professional services shall be determined by the rate that the individual or entity performing the labor or service normally charges.

(9) The value of sweat equity (see §92.354(c)) provided to a homeownership project, under an established component of a participating jurisdiction’s program, up until the time of project completion (i.e., submission of a project completion form). Such labor shall be valued at the rate established for unskilled labor at paragraph (a)(8) of this section.

(10) The direct cost of supportive services provided to families residing in HOME-assisted units during the period of affordability or receiving HOME tenant-based rental assistance during the term of the tenant-based rental assistance contract. The supportive services must be necessary to facilitate independent living or be required as part of a self-sufficiency program. Examples of supportive services include: case management, mental health services, assistance with the tasks of daily living, substance abuse treatment and counseling, day care, and job training and counseling.

(11) The direct cost of homebuyer counseling services provided to families that acquire properties with HOME funds under the provisions of §92.254(a), including ongoing counseling services provided during the period of affordability. These services may be provided as part of a homebuyer counseling program that is not specific to the HOME Program, but only the cost of services to families that complete purchases
with HOME assistance may be counted as match.

(b) Ineligible forms. The following are examples that do not meet the requirements of paragraph (a) of this section and do not count toward meeting a participating jurisdiction’s matching contribution requirement:

(1) Contributions made with or derived from Federal resources or funds, regardless of when the Federal resources or funds were received or expended. CDBG funds (defined in 24 CFR 570.3) are Federal funds for this purpose;

(2) The interest rate subsidy attributable to the Federal tax-exemption on financing or the value attributable to Federal tax credits;

(3) Owner equity or investment in a project; and

(4) Cash or other forms of contributions from applicants for or recipients of HOME assistance or contracts, or investors who own, are working on, or are proposing to apply for assistance for a HOME-assisted project. The prohibition in this paragraph (b)(4) does not apply to contractors (who do not own any HOME project) contributing professional services in accordance with paragraph (a)(8) of this section or to persons contributing sweat equity in accordance with paragraph (a)(9) of this section.

§ 92.221 Match credit.

(a) When credit is given. Contributions are credited on a fiscal year basis at the time the contribution is made, as follows:

(1) A cash contribution is credited when the funds are expended.

(2) The grant equivalent of a below-market interest rate loan is credited at the time of the loan closing.

(3) The value of state or local taxes, fees, or other charges that are normally and customarily imposed but are waived, foregone, or deferred is credited at the time the state or local government or other public or private entity officially waives, forgoes, or defers the taxes, fees, or other charges and notifies the project owner.

(4) The value of donated land or other real property is credited at the time ownership of the property is transferred to the HOME project (or affordable housing) owner.

(5) The cost of investment in infrastructure directly required for HOME-assisted projects is credited at the time funds are expended for the infrastructure or at the time the HOME funds are committed to the project if the infrastructure was completed before the commitment of HOME funds.

(6) The value of donated material is credited as match at the time the equipment is used for affordable housing.

(7) The value of the donate use of site preparation or construction equipment is credited as match at the time the equipment is used for affordable housing.

(8) The value of donated or voluntary labor or professional services is credited at the time the work is performed.

(9) A loan made from bond proceeds under §92.220(a)(5) is credited at the time of the loan closing.

(10) The direct cost of social services provided to residents of HOME-assisted units is credited at the time that the social services are provided during the period of affordability.

(11) The direct cost of homebuyer counseling services provided to families that purchase HOME-assisted units is credited at the time that the homebuyer purchases the unit or for post-purchase counseling services, at the time the counseling services are provided.

(b) Excess match. Contributions made in a fiscal year that exceed the participating jurisdiction’s match liability for the fiscal year in which they were made may be carried over and applied to future fiscal years’ match liability. Loans made from bond proceeds in excess of 25 percent of a participating jurisdiction’s total annual match contribution may be carried over to subsequent fiscal years as excess match, subject to the annual 25 percent limitation.

(c) Credit for match contributions shall be assigned as follows:
§ 92.222  Reduction of matching contribution requirement.

(a) Reduction for fiscal distress. HUD will determine match reductions annually.

1. Distress criteria for local government participating jurisdictions. If a local government participating jurisdiction satisfies both of the distress factors in paragraphs (a)(1)(i) and (ii) of this section, it is in severe fiscal distress and its match requirement will be reduced by 100% for the period specified in paragraph (a)(3) of this section. If a local government participating jurisdiction satisfies either distress factor in paragraphs (a)(1)(i) or (ii) of this section, it is in fiscal distress and its match requirement will be reduced by 50 percent, for the period specified in paragraph (a)(4) of this section.

i. Poverty rate. The average poverty rate in the participating jurisdiction was equal to or greater than 125 percent of the average national poverty rate during the calendar year for which the most recent data are available, as determined according to information from the Bureau of the Census.

ii. Per capita income. The average per capita income in the participating jurisdiction was less than 75 percent of the average national per capita income, during the calendar year for which the most recent data are available, as determined according to information from the Bureau of the Census.

2. Period of match reduction for severe fiscal distress. A 100% match reduction is effective for the fiscal year in which the severe fiscal distress determination is made and for the following fiscal year.

3. Period of match reduction for fiscal distress. A 50% match reduction is effective for the fiscal year in which the fiscal distress determination is made and for the following fiscal year, except that if a severe fiscal distress determination is published in that following fiscal year, the participating jurisdiction starts a new two-year match reduction period in accordance with the

(1) For HOME-assisted projects involving more than one participating jurisdiction, the participating jurisdiction that makes the match contribution may decide to retain the match credit or permit the other participating jurisdiction to claim the credit.

(2) For HOME match contributions to affordable housing that is not HOME-assisted (match pursuant to §92.219(b)) involving more than one participating jurisdiction, the participating jurisdiction that makes the match contribution receives the match credit.

(3) A State that provides non-Federal funds to a local participating jurisdiction to be used for a contribution to affordable housing, whether or not HOME-assisted, may take the match credit for itself or may permit the local participating jurisdiction to receive the match credit.
provisions of paragraph (a)(3) of this section.

(b) Reduction of match for participating jurisdictions in disaster areas. If a participating jurisdiction is located in an area in which a declaration of major disaster pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act is made, it may request a reduction of its matching requirement. For a local participating jurisdiction, the HUD Field office may reduce the matching requirement specified in §92.218 by up to 100 percent for the fiscal year in which the declaration of major disaster is made and the following fiscal year. For a State participating jurisdiction, the HUD Field office may reduce the matching requirement specified in §92.218, by up to 100 percent for the fiscal year in which the declaration of major disaster is made and the following fiscal year with respect to any HOME funds expended in an area to which the declaration of a major disaster applies. At its discretion and upon request of the participating jurisdiction, the HUD Field Office may extend the reduction for an additional year.

Subpart F—Project Requirements

§ 92.250 Maximum per-unit subsidy amount and subsidy layering.

(a) Maximum per-unit subsidy amount. The amount of HOME funds that a participating jurisdiction may invest on a per-unit basis in affordable housing may not exceed the per-unit dollar limits established under section 221(d)(3)(i) of the National Housing Act (12 U.S.C. 1715l(d)(3)(i)) for elevator-type projects that apply to the area in which the housing is located. These limits are available from the Multifamily Division in the HUD Field Office. If the participating jurisdiction’s per-unit subsidy amount has already been increased to 210% as permitted under section 221(d)(3)(ii) of the National Housing Act, upon request of the Field Office, HUD will allow the per-unit subsidy amount to be increased on a program-wide basis to an amount, up to 240% of the original per unit limits.

(b) Subsidy layering. Before committing funds to a project, the participating jurisdiction must evaluate the project in accordance with guidelines that it has adopted for this purpose and will not invest any more HOME funds, in combination with other governmental assistance, than is necessary to provide affordable housing.

§ 92.251 Property standards.

(a) (1) Housing that is constructed or rehabilitated with HOME funds must meet all applicable local codes, rehabilitation standards, ordinances, and zoning ordinances at the time of project completion, except as provided in paragraph (b) of this section. The participating jurisdiction must have written standards for rehabilitation that ensure that HOME-assisted housing is decent, safe, and sanitary. In the absence of a local code for new construction or rehabilitation, HOME-assisted new construction or rehabilitation must meet, as applicable, one of three model codes: Uniform Building Code (ICBO), National Building Code (BOCA), Standard (Southern) Building Code (SBCCI); or the Council of American Building Officials (CABO) one or two family code; or the Minimum Property Standards (MPS) in 24 CFR 200.925 or 200.926. To avoid duplicative inspections when FHA financing is involved in a HOME-assisted property, a participating jurisdiction may rely on a Minimum Property Standards (MPS) inspection performed by a qualified person. Newly constructed housing must meet the current edition of the Model Energy Code published by the Council of American Building Officials.

(2) All other HOME-assisted housing (e.g., acquisition) must meet all applicable State and local housing quality standards and code requirements and if there are no such standards or code requirements, the housing must meet the housing quality standards in 24 CFR 982.401.

(3) The housing must meet the accessibility requirements at 24 CFR part 8, which implements Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and covered multifamily dwellings, as defined at 24 CFR 100.201, must also meet the design and construction requirements at 24 CFR 100.205, which
