

§ 634.8

32 CFR Ch. V (7–1–02 Edition)

(6) Drivers license or OF 346 valid for the particular vehicle and area of operation.

§ 634.8 Implied consent to blood, breath, or urine tests.

Persons accepting installation driving privileges shall be deemed to have given their consent to evidential tests for alcohol or other drug content of their blood, breath, and/or urine if lawfully stopped, apprehended, or cited for any offense allegedly committed while driving or in physical control of a motor vehicle on the installation while under the influence of intoxicants.

§ 634.9 Implied consent to impoundment.

Any person granted the privilege of operating a motor vehicle on an installation shall be deemed to have given his or her consent for the removal and temporary impoundment of the POV when it is parked illegally for unreasonable periods, interfering with operations, creating a safety hazard, disabled by accident, left unattended in a restricted or controlled area, or abandoned. Such persons further agree to reimburse the United States for the cost of towing and storage should their motor vehicle be removed or impounded. Existence of the conditions described above will be determined by the installation commander or designee.

§ 634.10 Suspension or revocation of driving privileges.

The installation commander (or designee not assigned primarily to law enforcement duties) may, for cause, administratively suspend or revoke driving privileges on the installation. The suspension or revocation of installation driving privileges or POV registrations, for lawful reasons unrelated to traffic violations or safe vehicle operation, is not limited or restricted by this regulation.

(a) *Suspension.* (1) Driving privileges are usually suspended when other measures have failed to improve a driver's performance. Measures should include counseling, remedial driving training, and rehabilitation programs. Driving privileges may also be suspended for up to 6 months if a driver

(2) The installation commander has discretionary power to withdraw the authorization of active duty military personnel, DOD civilian employees, and nonappropriated fund (NAF) employees to operate U.S. Government vehicles.

(3) Immediate suspension of installation or overseas command POV driving privileges pending resolution of an intoxicated driving incident is authorized for active duty military personnel, family members, retired members of the military services, DOD civilian personnel, and others with installation or overseas command driving privileges regardless of the geographic location of an intoxicated driving incident. Suspension is authorized for non-DOD affiliated civilians only with respect to incidents occurring on the installation or in areas subject to military traffic supervision. After a review of available evidence as specified in § 634.11, installation driving privileges will be immediately suspended pending resolution of the intoxicated driving incident in the following circumstances;

(i) Refusal to take or complete a lawfully requested chemical test to determine contents of blood for alcohol or other drugs.

(ii) Operating a motor vehicle with a blood alcohol content (BAC) of 0.10 percent by volume or higher or in violation of the law of the jurisdiction that is being assimilated on the military installation.

(iii) Operating a motor vehicle with a BAC of at least 0.05 percent by volume but less than 0.10 percent blood alcohol by volume in violation of the law of the jurisdiction in which the vehicle is being operated if the jurisdiction imposes a suspension solely on the basis of the BAC level.

(iv) On an arrest report or other official documentation of the circumstances of an apprehension for intoxicated driving.

(b) *Revocation.* (1) The revocation of installation or overseas command POV driving privileges is a severe administrative measure to be exercised for serious moving violations or when other
