§ 1308.11

(b) Except as stated in paragraph (a) of this section, no applicant or registrant is required to use the Administration Controlled Substances Code Number for any purpose.

Schedules

§ 1308.11 Schedule I.

(a) Schedule I shall consist of the drugs and other substances, by whatever official name, common or usual name, chemical name, or brand name designated, listed in this section. Each drug or substance has been assigned the DEA Controlled Substances Code Number set forth opposite it.

(b) Opiates. Unless specifically excepted or unless listed in another schedule, any of the following opiates, including their isomers, esters, ethers, and salts, isomers, esters, ethers, and salts whenever the existence of such isomers, esters, ethers and salts is possible within the specific chemical designation (for purposes of paragraph (b)(34) only, the term isomer includes the optical and geometric isomers):

1. Acetyl-alpha-methylfentanyl (N-[1-(1-methyl-2-phenethyl)-4-piperidinyl]-N-phenylacetamide) .......................................................... 9815
2. Acetylmethadol .............................................................................. 9601
3. Alylopin ......................................................................................... 9602
4. Alphacetylmethadol (except levo- alphacetylmethadol also known as levo-alpha-acetylmethadol, levo methadyl acetate, or LAAM) ........................................ 9603
5. Alphaprodine ................................................................................. 9604
6. Alphamethadol .............................................................................. 9605
7. Alpha-methylfentanyl (N-[1-(alpha-methyl-beta-phenethyl)-4-piperidinyl]-N-propionanilide; 1-(1-methyl-2-phenyl)ethyl-4-piperidinyl N-propionanilide) ......................................................... 9814
8. Alpha-methylthylfentanyl (N-[1-(1-methyl-2-thienyl)-ethyl-4-piperidinyl]-N-phenylpropionanilide) .......................................................... 9832
9. Benzethidine.................................................................................. 9832
10. Betacetylmethadol ........................................................................ 9807
11. Beta-hydroxyfentanyl (N-[1-(2-hydroxy-2-phenyl)ethyl]-4-piperidinyl N-phenylpropionanilide) .......................................................... 9830
12. Beta-hydroxypropylfentanyl (other name: N-[1-(2-hydroxy-2-phenethyl)-3-methyl-4-piperidinyl] N-phenylpropionanilide) .......................................................... 9831
13. Betaprodine .................................................................................. 9611
14. Betamethadol ................................................................................ 9609
15. Betaprodine .................................................................................. 9611
16. Cionizatane .................................................................................. 9612
17. Dextromoramide .......................................................................... 9613
18. Diapromide .................................................................................. 9615
19. Diethylthiambutene ..................................................................... 9616
20. Dilendorf ..................................................................................... 9168
21. Dimenoxadol ............................................................................... 9617
22. Dimethylbenzylpiperazinedione .................................................... 9618
23. Dimethyllambutene ..................................................................... 9619
24. Dioxaphenylbutyrate ................................................................... 9621
25. Dipipanone .................................................................................. 9622
26. Ethylmethylthiambutene ................................................................ 9623
27. Etonitazene .................................................................................. 9624
28. Etoxeridine .................................................................................. 9625
29. Furethidine ................................................................................... 9626
30. Hydroxyperidine ........................................................................ 9627
31. Ketobemidone ............................................................................. 9628
32. Levomoramide ............................................................................. 9629
33. Levophenacylmorphan ............................................................... 9631
34. 3-Methylfentanyl (N-[3-methyl-1-(2-phenethyl)-4-piperidinyl]-N-phenylpropionanilide) .......................................................... 9813
35. 3-methylfentofentanyl (N-[3-methyl-1-(2-thienyl)-ethyl-4-piperidinyl]-N-phenylpropionanilide) .......................................................... 9833
36. Mopheridine ................................................................................ 9632
37. MPPP (1-methyl-4-phenyl-4-propionoxypiperidine) .......................................................... 9661
38. Noracymethadol ........................................................................ 9633
39. Norfentanyl .................................................................................. 9634
40. Normethadone ............................................................................. 9635
41. Norpinacol .................................................................................. 9636
42. Para-fluorofentanyl (N-[4-fluorophenyl]-1-(2-phenethyl) N- phenylpropionanilide) .......................................................... 9812
43. PEPAP (1-(2-phenethyl)-4-phenyl-4-acetoxy piperidine) ............ 9663
44. Phenadoxone ............................................................................... 9637
45. Phencampropoxide ...................................................................... 9638
46. Phencampropoxide ...................................................................... 9647
47. Phencampropoxide ...................................................................... 9641
48. Piritramide .................................................................................... 9643
49. Phentapeptamine ......................................................................... 9641
50. Properidine .................................................................................. 9644
51. Propiram ..................................................................................... 9649
52. Racemoramide ............................................................................. 9645
53. Thiofentanyl (N-[2-naphthyl]-1-(2-thienyl)-ethyl-4- piperidinyl)propionanilide .......................................................... 9835
54. Tilidine ......................................................................................... 9753
55. Trimetazolide ............................................................................... 9646

(c) Opium derivatives. Unless specifically excepted or unless listed in another schedule, any of the following opium derivatives, its salts, isomers, and salts of isomers whenever the existence of such salts, isomers, and salts of isomers is possible within the specific chemical designation:

1. Acetorphine .................................................................................. 9319
2. Acetyldilorcodeine ....................................................................... 9051
3. Benzylmorphine .......................................................................... 9052
4. Codeine methylbromide ................................................................. 9070
5. Codeine-N-Oxide ......................................................................... 9053
6. Cyporphine ................................................................................... 9054
7. Desomorphine ............................................................................. 9055
8. Dihydromorphone ........................................................................ 9145
9. Drotephane ................................................................................... 9335
10. Etorphine (except hydrochloride salt) ........................................... 9056
11. Herion ......................................................................................... 9200
12. Hydromorphone .......................................................................... 9301
13. Methyldesorphine ....................................................................... 9302
14. Methyldihydmorphone ................................................................ 9304
15. Morphine methylbromide ............................................................. 9305
16. Morphone methylsulphonate ........................................................ 9306
17. Morphone-N-Oxide ..................................................................... 9307
18. Morphone-N-Oxide ..................................................................... 9308
19. Nicocodone .................................................................................. 9309
20. Nicomorphine ............................................................................. 9312
21. Normorphine ............................................................................. 9313
22. Photholodone ............................................................................... 9314
23. Thebacon .................................................................................... 9315

(d) Hallucinogenic substances. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation, which contains any quantity of the following hallucinogenic substances, or which contains any of its salts, isomers, and...
salts of isomers whenever the existence of such salts, isomers, and salts of isomers is possible within the specific chemical designation (for purposes of this paragraph only, the term “isomer” includes the optical, position and geometric isomers):

(1) Alpha-ethyltryptamine ........................................ 7249
Some trade or other names: etryptamine; Monase; alpha-ethyl-1H-indole-3-ethanamine; 3-(2-aminoethyl) indole; a-ET; and AET.

(2) 4-bromo-2,5-dimethoxy-phenethylamine ............... 7391
Some trade or other names: 4-bromo-2,5-dimethoxy-N,N-dimethylphenethylamine; 4-bromo-2,5-DMA

(3) 4-Bromo-2,5-dimethoxyphenethylamine ............... 7392
Some trade or other names: 2-(4-bromo-2,5-dimethoxyphenyl)-1-aminoethane; alpha-desmethyl DOB; 2C-B; Nexus.

(4) 2,5-dimethoxyamphetamine ................................ 7396
Some trade or other names: 2,5-dimethoxy-N,N-dimethylphenethylamine; 2,5-DMA

(5) 2,5-dimethoxy-4-ethylamphetamine ......... 7399
Some trade or other names: DOET

(6) 2,5-dimethoxy-4-(n-propylphenethylamine (other name: 2C–T–7) ................ 7348

(7) 4-methoxyamphetamine ...................................... 7411
Some trade or other names: 4-methoxy-N,N-dimethylethylamphetamine; paramethoxyamphetamine, PMA

(8) 5-methoxy-3,4-methylenedioxyamphetamine .......... 7401
Some trade or other names: 5-methoxy-3,4-methylenedioxy-N,N-dimethylphenethylamine; "DOM"; and "STP"

(9) 4-methyl-2,5-dimethoxy-amphetamine ............... 7395
Some trade and other names: 4-methyl-2,5-dimethoxy-N,N-dimethylphenethylamine; "DOM"

(10) 3,4-methylenedioxy amphetamine .................. 7400

(11) 3,4-methylenedioxyamphetamine (MDMA) .... 7405
(12) 3,4-methylenedioxy-N-methylamphetamine (also known as 3,4-methylenedioxy-N,N-dimethylphenethylamine, M-DMPE, MDEA) .................. 7404

(13) N-hydroxy-3,4-methylenedioxyamphetamine (also known as N-hydroxy-alpha-methyl-3,4-methylenedioxy-N,N-dimethylphenethylamine, and N-hydroxy MDA) ....... 7402

(14) 3,4,5-trimethoxyamphetamine ....................... 7390

(15) Bufotene .......................................................... 7433
Some trade and other names: 3-(3-Dimethylaminooxy)-5-hydroxyindole; 3-(2-dimethylaminooxy)-5-indolol; N, N-dimethylhydantocton; 5-hydroxy-N-N-dimethyltryptamine; mappine

(16) Diethyltryptamine ............................................. 7434
Some trade and other names: N,N-Diethyltryptamine; DET

(17) Dimethyltryptamine ............................................. 7435
Some trade or other names: DMT

(18) Iboigaine .......................................................... 7260
Some trade and other names: 7-Ethyl-6,6,7,8,9,10,12,13-octahydro-2-methoxy-6,9,12-methano-9H-zyndol [1, 2',1,2] azepino [5,4-b] indole; Tabernanthe iboga

(19) Lysergic acid diethylamide ............................... 7315

(20) Marihuana ......................................................... 7360

(21) Mescaline .......................................................... 7381

(22) Peyote ............................................................... 7415

(23) Peyotl—7374; some trade or other names: 3-Hexyl-1-hydroxy-7,8,9,10-tetrahydro-6,3,9-trimethyl-6H-dibenz[3,4]pyran; Synthexyl

(24) N-ethyl-3-piperidyl benzilate ........................................ 7482

(25) N-methyl-3-piperidyl benzilate .............................. 7484

(26) Psilocin ............................................................... 7437

(27) Psilocyin ............................................................... 7438

(28) Tetrahydrocannabinols ....................................... 7370

Meaning tetrahydrocannabinols naturally contained in a plant of the genus Cannabis (cannabis plant), as well as synthetic equivalents of the substances contained in the cannabis plant, or in the resinous extracts of such plant, and their isomers with similar chemical structure and pharmacological activity to those substances contained in the plant, such as the following: 1 cis or trans tetrahydrocannabinol, and their optical isomers

6 cis or trans tetrahydrocannabinol, and their optical isomers

3, 4 cis or trans tetrahydrocannabinol, and their optical isomers

Since nomenclature of these substances is not internationally standardized, compounds of these structures, regardless of numerical designation of atomic positions covered.

(29) Ethylamine analog of phencyclidine ..................... 7455
Some trade or other names: N-ethyl-1-phenylcyclohexylamine, 1-phenylcyclohexyethylamine, N,1-phenylcyclohexyethylamine, cy clohexylamine, PCE

(30) Pyrrolidine analog of phencyclidine ..................... 7458
Some trade or other names: 1-(1-phenylcyclohexyl)-pyrrolidine, PCPy, PHP

(31) Thiophene analog of phencyclidine ..................... 7470
Some trade or other names: 1-(1-(2-thienyl)cyclohexyl)piperidine, 2-thienyl analog of phencyclidine, TCPD, TCP

(32) 1-(1-(2-thienyl)cyclohexyl)pyrrolidine .................. 7473
Some other names: TCPy

(e) Depressants. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances having a depressant effect on the central nervous system, including its salts, isomers, and salts of isomers whenever the existence of such salts, isomers, and salts of isomers is possible within the specific chemical designation:

(1) gamma-hydroxybutyric acid (some other names include GB; gamma-hydroxybutyrate; 4-hydroxybutyric acid; 4-hydroxybutanoic acid; sodium oxybate; sodium oxybuturate) .... 2010

(2) Meclonalone ....................................................... 2572

(3) Methaqualone ..................................................... 2565

(f) Stimulants. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains

§ 1308.11

Drug Enforcement Administration, Justice

Meaning all parts of the plant presently classified botanically as Lophophora williamsii Lemaire, whether growing or not, the seeds thereof, any extract from any part of such plant, and every compound, manufacture, salts, derivative, mixture, or preparation of such plant, its seeds or extracts (Interprets 21 USC 812(c), Schedule I(c) (12))

(24) N-ethyl-3-piperidyl benzilate ........................................ 7482

(25) N-methyl-3-piperidyl benzilate .............................. 7484

(26) Psilocin ............................................................... 7437

(27) Psilocyin ............................................................... 7438

(28) Tetrahydrocannabinols ....................................... 7370

Meaning tetrahydrocannabinols naturally contained in a plant of the genus Cannabis (cannabis plant), as well as synthetic equivalents of the substances contained in the cannabis plant, or in the resinous extracts of such plant, and their isomers with similar chemical structure and pharmacological activity to those substances contained in the plant, such as the following: 1 cis or trans tetrahydrocannabinol, and their optical isomers

6 cis or trans tetrahydrocannabinol, and their optical isomers

3, 4 cis or trans tetrahydrocannabinol, and their optical isomers

Since nomenclature of these substances is not internationally standardized, compounds of these structures, regardless of numerical designation of atomic positions covered.

(29) Ethylamine analog of phencyclidine ..................... 7455
Some trade or other names: N-ethyl-1-phenylcyclohexylamine, 1-phenylcyclohexyethylamine, N,1-phenylcyclohexyethylamine, cyclohexylamine, PCE

(30) Pyrrolidine analog of phencyclidine ..................... 7458
Some trade or other names: 1-(1-phenylcyclohexyl)-pyrrolidine, PCPy, PHP

(31) Thiophene analog of phencyclidine ..................... 7470
Some trade or other names: 1-(1-(2-thienyl)cyclohexyl)piperidine, 2-thienyl analog of phencyclidine, TCPD, TCP

(32) 1-(1-(2-thienyl)cyclohexyl)pyrrolidine .................. 7473
Some other names: TCPy

(e) Depressants. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances having a depressant effect on the central nervous system, including its salts, isomers, and salts of isomers whenever the existence of such salts, isomers, and salts of isomers is possible within the specific chemical designation:

(1) gamma-hydroxybutyric acid (some other names include GB; gamma-hydroxybutyrate; 4-hydroxybutyric acid; 4-hydroxybutanoic acid; sodium oxybate; sodium oxybuturate) .... 2010

(2) Meclonalone ....................................................... 2572

(3) Methaqualone ..................................................... 2565

(f) Stimulants. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains
§ 1308.12

any quantity of the following substances having a stimulant effect on the central nervous system, including its salts, isomers, and salts of isomers:

(1) Aminorex (Some other names: aminoephedrine; 2-amino-5-phenyl-2-oxazoline; or 4,5-dihydro-5-phenyl-2-oxazolamine) .............................................................. 1585

(2) N-Benzylpipеразине (some other names: BZP; 1-benzylpiperazine) .............................................................. 7493

(3) Cathinone

Some trade or other names: 2-amino-1-phenyl-1-propanone, alpha-amino propiophenone, 2-amino propiophenone, and norcathinone

(4) Fenetyl

(5) Methcathinone (Some other names: 2-(methylamino)-propiophenone; 2-amino-3,5-dihydro-4-methyl-5-phenyl-2-oxazolamine) .............................................................. 1503

(6) (1)-(2)-4-methylamino-tetrahydro-N,N-dimethylamphetamine (AL–464; AL–422; AL–463 and UR1432), its salts, optical isomers and salts of optical isomers ........ 1237

(7) N-methylamphetamine (2-amino-1-phenyl-1-propanone, alpha-amino propiophenone, 2-amino propiophenone, and norcathinone) .................................................. 1475

(8) t-(1,2,3,4)-5,N-dimethyl-3-[(N,N-dimethyl-amino)-methyl]-2N,N-dimethylaminopropan-2-amine, its optical isomers and salts of isomers .......................... 9818

(9) t-(1,2,3,4)-5,N-dimethyl-3-[(N,N-dimethyl-amino)-methyl]-2N,N-dimethylaminopropan-2-amine, its optical isomers and salts of isomers .......................... 9834

(10) Alpha-methyltryptamine (AMT), its optical isomers and salts of isomers .......................... 7432

(11) 5-methoxy-N,N-dimethyltriptamine (5-MeO-DIPT), its optical isomers and salts of isomers .......................... 7439

Any material, compound, mixture or preparation which contains any quantity of the following substances:

(1) Raw opium ........................................................................ 9600

(2) Powder extracts .................................................................. 9610

(3) Opium fluid ...................................................................... 9620

(4) Powdered opium .................................................................. 9639

(5) Granulated opium ............................................................... 9640

(6) Tincture of opium ............................................................... 9630

(7) Codeine ........................................................................... 9050

(8) Dihydrocodeine .................................................................. 9334

(9) Ethylmorphine .................................................................... 9190

(10) Etorphine hydrochloride ..................................................... 9059

(11) Hydrocodone .................................................................... 9193

(12) Hydromorphone ............................................................... 9150

(13) Metopon ........................................................................... 9260

(14) Morphine .......................................................................... 9300

(15) Oxycodeone .................................................................... 9143

(16) Oxymorphone ................................................................... 9652

(17) Thebaine ......................................................................... 9333

(2) Any salt, compound, derivative, or preparation thereof which is chemically equivalent or identical with any of the substances referred to in paragraph (b) (1) of this section, except that these substances shall not include the isoquinoline alkaloids of opium.

(3) Opium poppy and poppy straw.

(4) Coca leaves (9040) and any salt, compound, derivative or preparation of coca leaves (including cocaine (9041) and ecgonine (9042) and their salts, isomers, derivatives and salts of isomers and derivatives), and any salt, compound, derivative, or preparation thereof which is chemically equivalent or identical with any of these substances shall not include decocainized coca leaves or extraction of coca leaves, which extractions do not contain cocaine or ecgonine.

(5) Concentrate of poppy straw (the crude extract of poppy straw in either liquid, solid or powder form which contains the phenanthrene alkaloids of the opium poppy), 9670.

(c) Opiates. Unless specifically excepted or unless listed in another schedule, any of the following opiates, including its isomers, derivatives, salts, and salts of isomers, esters, and others
