

OWCP uses the factors stated in 5 U.S.C. 8115 to select a position which represents his or her wage-earning capacity. However, OWCP will not secure employment for the employee in the position selected for establishing a wage-earning capacity.

(b) Compensation for partial disability is payable as a percentage of the difference between the employee's pay rate for compensation purposes and the employee's wage-earning capacity. The percentage is 66⅔ percent of this difference if the employee has no dependents, or 75 percent of this difference if the employee has at least one dependent.

(c) The formula which OWCP uses to compute the compensation payable for partial disability employs the following terms: Pay rate for compensation purposes, which is defined in §10.5(s) of this part; current pay rate, which means the salary or wages for the job held at the time of injury at the time of the determination; and earnings, which means the employee's actual earnings, or the salary or pay rate of the position selected by OWCP as representing the employee's wage-earning capacity.

(d) The employee's wage-earning capacity in terms of percentage is computed by dividing the employee's earnings by the current pay rate. The comparison of earnings and "current" pay rate for the job held at the time of injury need not be made as of the beginning of partial disability. OWCP may use any convenient date for making the comparison as long as both wage rates are in effect on the date used for comparison.

(e) The employee's wage-earning capacity in terms of dollars is computed by first multiplying the pay rate for compensation purposes by the percentage of wage-earning capacity. The resulting dollar amount is then subtracted from the pay rate for compensation purposes to obtain the employee's loss of wage-earning capacity.

§10.404 When and how is compensation for a schedule impairment paid?

Compensation is provided for specified periods of time for the permanent loss or loss of use of certain members,

organs and functions of the body. Such loss or loss of use is known as permanent impairment. Compensation for proportionate periods of time is payable for partial loss or loss of use of each member, organ or function. OWCP evaluates the degree of impairment to schedule members, organs and functions as defined in 5 U.S.C. 8107 according to the standards set forth in the specified (by OWCP) edition of the American Medical Association's *Guides to the Evaluation of Permanent Impairment*.

(a) 5 U.S.C. 8107(c) provides a list of schedule members. Pursuant to the authority provided by 5 U.S.C. 8107(c)(22), the Secretary has added the following organs to the compensation schedule for injuries that were sustained on or after September 7, 1974:

Member	Weeks
Breast (one)	52
Kidney (one)	156
Larynx	160
Lung (one)	156
Penis	205
Testicle (one)	52
Tongue	160
Ovary (one)	52
Uterus/cervix and vulva/vagina	205

(b) Compensation for schedule awards is payable at 66⅔ percent of the employee's pay, or 75 percent of the pay when the employee has at least one dependent.

(c) The period of compensation payable under 5 U.S.C. 8107(c) shall be reduced by the period of compensation paid or payable under the schedule for an earlier injury if:

(1) Compensation in both cases is for impairment of the same member or function or different parts of the same member or function, or for disfigurement; and

(2) OWCP finds that compensation payable for the later impairment in whole or in part would duplicate the compensation payable for the pre-existing impairment.

(d) Compensation not to exceed \$3,500 may be paid for serious disfigurement of the face, head or neck which is likely to handicap a person in securing or maintaining employment.
