§ 560.530 Commercial sales, exportation, and reexportation of agricultural commodities, medicine, and medical devices.

(a) *One-year license requirement.* The exportation or reexportation of agricultural commodities (including bulk agricultural commodities listed in appendix B to this part 560), medicine, or medical devices to the Government of Iran, any entity in Iran, individuals in Iran, or persons in third countries purchasing specifically for resale to any of the foregoing, shall only be made pursuant to a one-year license issued by the United States Department of the Treasury, Office of Foreign Assets Control, for contracts entered into during the one-year period of the license and shipped within the 12-month period beginning on the date of the signing of the contract. No license will be granted

for the exportation or reexportation of agricultural commodities, medicine, or medical equipment to any entity or individual in Iran promoting international terrorism. Executory contracts entered into pursuant to paragraph (b)(2) of this section prior to the issuance of the one-year license described in this paragraph shall be deemed to have been signed on the date of issuance of that one-year license (and, therefore, the exporter is authorized to make shipments under that contract within the 12-month period beginning on the date of issuance of the one-year license).

(b) *General license for arrangement of exportation and reexportation of covered products.* (1) The making of shipping arrangements, cargo inspections, obtaining of insurance, and arrangement of financing (consistent with § 560.532) for the exportation or reexportation of agricultural commodities, medicine, and medical devices to the Government of Iran, entities in Iran, individuals in Iran, or persons in third countries purchasing specifically for resale to any of the foregoing, is authorized.

(2) If desired, entry into executory contracts (including executory pro forma invoices, agreements in principle, or executory offers capable of acceptance such as bids in response to public tenders) for the exportation or reexportation of agricultural commodities, medicine, and medical devices to the Government of Iran, entities in Iran, individuals in Iran, or persons in third countries purchasing specifically for resale to any of the foregoing, is authorized, provided that performance of an executory contract is expressly made contingent upon the prior issuance of the one-year license described in paragraph (a) of this section.

(c) *Instructions for obtaining one-year licenses.* In order to obtain the one-year license described in paragraph (a), the exporter must provide to the Office of Foreign Assets Control:

(1) The applicant's full legal name (if the applicant is a business entity, the state or jurisdiction of incorporation and principal place of business).

(2) The applicant's mailing and street address (so that OFAC may reach a responsible point of contact, the applicant should also include the name of

the individual(s) responsible for the application and related commercial transactions along with their telephone and fax numbers and, if available, email addresses).

(3) The names, mailing addresses, and, if available, fax and telephone numbers of all parties with an interest in the transaction. If the goods are being exported or reexported to a purchasing agent in Iran, the exporter must identify the agent's principals at the wholesale level for whom the purchase is being made. If the goods are being exported or reexported to an individual, the exporter must identify any organizations or entities with which the individual is affiliated that have an interest in the transaction.

(4) A description of all items to be exported or reexported pursuant to the requested one-year license, including a statement that the item is classified as EAR 99, and, if necessary, documentation sufficient to verify that the items to be exported or reexported are classified as EAR 99 and do not fall within any of the limitations contained in paragraph (d) of this section.

(5) An Official Commodity Classification of EAR 99 issued by the Department of Commerce, Bureau of Export Administration ("BXA"), certifying that the product is EAR 99 is required to be submitted to OFAC with the request for a license authorizing the exportation or reexportation of all fertilizers, live horses, western red cedar, and medical devices other than basic medical supplies, such as syringes, bandages, gauze and similar items, that are specifically listed on BXA's website, www.bxa.doc.gov/Regulations/TradeSanctionsReformExportEnhancementAct.html. Medical supplies that are specifically listed on BXA's website do not require an Official Commodity Classification of EAR 99 from BXA. BXA will also provide a list on its website of medicines that are ineligible for a one-year license under these procedures. If an exporter is uncertain whether the medicine to be exported is eligible, they should seek an Official Commodity Classification of EAR 99 from BXA and submit a copy to OFAC. See, 15 CFR 745.3 for instructions for obtaining Official Commodity Classification of EAR 99 from BXA.

(d) *Limitations.* (1) Nothing in this section or in any license issued pursuant to paragraph (a) of this section relieves the exporter from compliance with the export license application requirements of another Federal agency.

(2) Nothing in this section or in any license issued pursuant to paragraph (a) of this section authorizes the exportation or reexportation of any agricultural commodity, medicine, or medical device controlled on the United States Munitions List established under section 38 of the Arms Export Control Act (22 U.S.C. 2778); controlled on any control list established under the Export Administration Act of 1979 or any successor statute (50 U.S.C. App. 2401 *et seq.*); or used to facilitate the development or production of a chemical or biological weapon or weapon of mass destruction.

(3) Nothing in this section or in any license issued pursuant to paragraph (a) of this section affects prohibitions on the sale or supply of U.S. technology or software used to manufacture agricultural commodities, medicine, or medical devices, such as technology to design or produce biotechnological items or medical devices.

(4) Nothing in this section or in any license issued pursuant to paragraph (a) of this section affects U.S. non-proliferation export controls, including end-user and end-use controls maintained under the Enhanced Proliferation Control Initiative.

However, after July 26, 2001, new contracts for the exportation of agricultural commodities, medicine, or medical devices may be entered into only pursuant to the terms of, and as authorized by, this new part.
