

(e) The national stock number of the SF 708 is 7540-01-207-5538.

[52 FR 10190, Mar. 30, 1987]

§ 2003.30 CLASSIFIED Label SF 709.

(a) SF 709 is used to identify and protect automatic data processing (ADP) media and other media that contain classified information pending a determination by the classifier of the specific classification level of the information.

(b) SF 709 shall be used in all situations that require the use of a CLASSIFIED Label. Agency-wide use of SF 709 shall begin when supplies of existing forms are exhausted or January 31, 1988, whichever occurs earlier.

(c) SF 709 is affixed to the medium containing classified information in a manner that would not adversely affect operation of equipment in which the medium is used. Once the Label has been applied, it cannot be removed. When a classifier has made a determination of the specific level of classification of the information contained on the medium, either SF 706, SF 707, or SF 708 shall be affixed on top of SF 709 so that only the SF 706, SF 707, or SF 708 is visible.

(d) Only the Director of ISOO may grant a waiver from the use of SF 709. To apply for a waiver, an agency must submit its proposed alternative form to the Director of ISOO along with its justification for use. The Director of ISOO will review the request and notify the agency of the decision.

(e) The national stock number of the SF 709 is 7540-01-207-5540.

[52 FR 10190, Mar. 30, 1987]

§ 2003.31 UNCLASSIFIED Label SF 710.

(a) In a mixed environment in which classified and unclassified information are being processed or stored, SF 710 is used to identify automatic data processing (ADP) media and other media that contain unclassified information. Its function is to aid in distinguishing among those media that contain either classified or unclassified information in a mixed environment.

(b) SF 710 shall be used in all situations that require the use of an UNCLASSIFIED Label. Agency-wide use

of SF 710 shall begin when supplies of existing forms are exhausted or January 31, 1988, whichever occurs earlier.

(c) SF 710 is affixed to the medium containing unclassified information in a manner that would not adversely affect operation of equipment in which the medium is used. Once the Label has been applied, it cannot be removed. However, the label is small enough so that it can be wholly covered by a SF 706, SF 707, SF 708 or SF 709 if the medium subsequently contains classified information.

(d) Only the Director of ISOO may grant a waiver from the use of SF 710. To apply for a waiver, an agency must submit its proposed alternative form to the Director of ISOO along with its justification for use. The Director of ISOO will review the request and notify the agency of the decision.

(e) The national stock number of the SF 710 is 7540-01-207-5539.

[52 FR 10191, Mar. 30, 1987]

§ 2003.32 DATA DESCRIPTOR Label SF 711.

(a) SF 711 is used to identify additional safeguarding controls that pertain to classified information that is stored or contained on automatic data processing (ADP) or other media.

(b) SF 711 shall be used in all situations that require the use of a DATA DESCRIPTOR Label. Agency-wide use of SF 711 shall begin when supplies of existing forms are exhausted or January 31, 1988, whichever occurs earlier.

(c) SF 711 is affixed to the ADP medium containing classified information in a manner that would not adversely affect operation of equipment in which the medium is used. SF 711 is ordinarily used in conjunction with the SF 706, SF 707, SF 708 or SF 709, as appropriate. Once the Label has been applied, it cannot be removed. The SF 711 provides spaces for information that should be completed as required.

(d) Only the Director of ISOO may grant a waiver from the use of SF 711. To apply for a waiver, an agency must submit its proposed alternative form to the Director of ISOO along with its justification for use. The Director of ISOO will review the request and notify the agency of the decision.
