Explanation

The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the Federal Government. The Code is divided into 50 titles which represent broad areas subject to Federal regulation. Each title is divided into chapters which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas.

Each volume of the Code is revised at least once each calendar year and issued on a quarterly basis approximately as follows:

Title 1 through Title 16.....as of January 1
Title 17 through Title 27.....as of April 1
Title 28 through Title 41.....as of July 1
Title 42 through Title 50.....as of October 1

The appropriate revision date is printed on the cover of each volume.

LEGAL STATUS

The contents of the Federal Register are required to be judicially noticed (44 U.S.C. 1507). The Code of Federal Regulations is prima facie evidence of the text of the original documents (44 U.S.C. 1510).

HOW TO USE THE CODE OF FEDERAL REGULATIONS

The Code of Federal Regulations is kept up to date by the individual issues of the Federal Register. These two publications must be used together to determine the latest version of any given rule.

To determine whether a Code volume has been amended since its revision date (in this case, July 1, 2007), consult the ''List of CFR Sections Affected (LSA),'' which is issued monthly, and the ''Cumulative List of Parts Affected,'' which appears in the Reader Aids section of the daily Federal Register. These two lists will identify the Federal Register page number of the latest amendment of any given rule.

EFFECTIVE AND EXPIRATION DATES

Each volume of the Code contains amendments published in the Federal Register since the last revision of that volume of the Code. Source citations for the regulations are referred to by volume number and page number of the Federal Register and date of publication. Publication dates and effective dates are usually not the same and care must be exercised by the user in determining the actual effective date. In instances where the effective date is beyond the cut-off date for the Code a note has been inserted to reflect the future effective date. In those instances where a regulation published in the Federal Register states a date certain for expiration, an appropriate note will be inserted following the text.

OMB CONTROL NUMBERS

The Paperwork Reduction Act of 1980 (Pub. L. 96–511) requires Federal agencies to display an OMB control number with their information collection request.

Many agencies have begun publishing numerous OMB control numbers as amendments to existing regulations in the CFR. These OMB numbers are placed as close as possible to the applicable recordkeeping or reporting requirements.

OBSOLETE PROVISIONS

Provisions that become obsolete before the revision date stated on the cover of each volume are not carried. Code users may find the text of provisions in effect on a given date in the past by using the appropriate numerical list of sections affected. For the period before January 1, 2001, consult either the List of CFR Sections Affected, 1949–1963, 1964–1972, 1973–1985, or 1986–2000, published in 11 separate volumes. For the period beginning January 1, 2001, a ''List of CFR Sections Affected'' is published at the end of each CFR volume.

INCORPORATION BY REFERENCE

What is incorporation by reference? Incorporation by reference was established by statute and allows Federal agencies to meet the requirement to publish regulations in the Federal Register by referring to materials already published elsewhere. For an incorporation to be valid, the Director of the Federal Register must approve it. The legal effect of incorporation by reference is that the material is treated as if it were published in full in the Federal Register (5 U.S.C. 552(a)). This material, like any other properly issued regulation, has the force of law.

What is a proper incorporation by reference? The Director of the Federal Register will approve an incorporation by reference only when the requirements of 1 CFR part 51 are met. Some of the elements on which approval is based are:

(a) The incorporation will substantially reduce the volume of material published in the Federal Register.

(b) The matter incorporated is in fact available to the extent necessary to afford fairness and uniformity in the administrative process.

(c) The incorporating document is drafted and submitted for publication in accordance with 1 CFR part 51.

Properly approved incorporations by reference in this volume are listed in the Finding Aids at the end of this volume.

What if the material incorporated by reference cannot be found? If you have any problem locating or obtaining a copy of material listed in the Finding Aids of this volume as an approved incorporation by reference, please contact the agency that issued the regulation containing that incorporation. If, after contacting the agency, you find the material is not available, please notify the Director of the Federal Register, National Archives and Records Administration, Washington DC 20408, or call 202-741-6010.

CFR INDEXES AND TABULAR GUIDES

A subject index to the Code of Federal Regulations is contained in a separate volume, revised annually as of January 1, entitled CFR INDEX AND FINDING AIDS. This volume contains the Parallel Table of Statutory Authorities and Agency Rules (Table I). A list of CFR titles, chapters, and parts and an alphabetical list of agencies publishing in the CFR are also included in this volume.

An index to the text of ''Title 3—The President'' is carried within that volume.

The Federal Register Index is issued monthly in cumulative form. This index is based on a consolidation of the ''Contents'' entries in the daily Federal Register.

A List of CFR Sections Affected (LSA) is published monthly, keyed to the revision dates of the 50 CFR titles.

REPUBLICATION OF MATERIAL

There are no restrictions on the republication of textual material appearing in the Code of Federal Regulations.

(3) Authority, pursuant to CERCLA section 106(a), to issue orders to protect the public health and welfare and the environment whenever that official determines that a release or threatened release of a hazardous substance from a facility may present an imminent and substantial endangerment to the public health or welfare or the environment.

(4) Authority, pursuant to CERCLA section 104(e), except section 104(e)(7)(C), to enter establishments or other places where hazardous substances are or have been generated, stored, treated, disposed of, or transported from to inspect and obtain records, reports, samples and information in support of the response functions delegated in paragraphs (d), (e)(1), (e)(2), and (e)(3) of this section.

(5) Authority, pursuant to CERCLA section 122, to enter into an agreement with any person (including the owner or operator of the vessel or facility from which a release or substantial threat of release emanates, or any other potential responsible person), to perform any response action, provided that such action will be done properly by such person.

(f) Except for the authority granted in paragraphs (d)(1) and (e)(1) of this section, each Coast Guard official to whom authority is granted in this section may redelegate and authorize successive redelegations of that authority. The authority granted in paragraph (e)(3) of this section may only be redelegated to commissioned officers.

(g) The response authority described in paragraph (e)(1) of this section does not include authority to—

(1) Summarily remove or destroy a vessel; or

(2) Take any other action that constitutes intervention under CERCLA, the Intervention on the High Seas Act (33 U.S.C. 1471 *et. seq.*), or other applicable laws. ''Intervention'' means any detrimental action taken against the interest of a vessel or its cargo without the consent of the vessel's owner or operator.

Subpart 1.05—Rulemaking

AUTHORITY: 5 U.S.C. 552, 553, App. 2; 14 U.S.C. 2, 631, 632, and 633; 33 U.S.C. 471, 499; 49 U.S.C. 101, 322; Department of Homeland Security Delegation No. 0170.

SOURCE: CGD 95–057, 60 FR 34148, June 30, 1995, unless otherwise noted.

§ 1.05–1 Delegation of rulemaking authority.

(a) The Secretary of Homeland Security is empowered by various statutes to issue regulations regarding the functions, powers and duties of the Coast Guard.

(b) The Secretary of Homeland Security has delegated much of this authority to the Commandant, U.S. Coast Guard, including authority to issue regulations regarding the functions of the Coast Guard and the authority to redelegate and authorize successive redelegations of that authority within the Coast Guard.

(c) The Commandant has reserved the authority to issue any rules and regulations determined to be significant under Executive Order 12866, Regulatory Planning and Review.

(d) The Commandant has redelegated to the various office chiefs at U.S. Coast Guard Headquarters, with the reservation that this authority shall not be further redelegated, the authority to develop and issue regulations necessary to implement laws, treaties, or Executive Orders associated with their assigned programs; issue amendments to existing regulations as necessary; and submit regulatory proposals for Marine Safety and Security Council consideration.

(e)(1) The Commandant has redelegated to Coast Guard District Commanders, with the reservation that this authority shall not be further redelegated, the authority to issue regulations pertaining to the following:

(i) Anchorage grounds and special anchorage areas.

(ii) The designation of lightering zones.

(iii) The operation of drawbridges.

(iv) The establishment of Regulated Navigation Areas.

(v) The establishment of safety and security zones.

(vi) The establishment of special local regulations.

(2) This delegation does not extend to those matters specified in paragraph (c) of this section or rules and regulations which have been shown to raise substantial issues or to generate controversy.

(f) Except for those matters specified in paragraph (c) of this section, the Commandant has redelegated to Coast Guard Captains of the Port, with the reservation that this authority shall not be further redelegated, the authority to establish safety and security zones.

(g) The Commandant has redelegated to Coast Guard District Commanders, Captains of the Port, the Assistant Commandant for Operations, and the

Assistant Commandant for Marine Safety, Security and Environmental Protection, the authority to make the certification required by section 605(b) of the Regulatory Flexibility Act (Sec. 605(b), Pub. L. 96–354, 94 Stat. 1168 (5 U.S.C. 605)) for rules that they issue.

[CGD 95–057, 60 FR 34148, June 30, 1995, as amended by CGD 96–026, 61 FR 33662, June 28, 1996; CGD 97–023, 62 FR 33361, June 19, 1997; USCG–2003–14505, 68 FR 9534, Feb. 28, 2003; USCG–2003–15404, 68 FR 37740, June 25, 2003]

§ 1.05–5 Marine Safety and Security Council.

The Marine Safety and Security Council, composed of senior Coast Guard officials, acts as policy advisor to the Commandant and is the focal point of the Coast Guard regulatory system. The Marine Safety and Security Council provides oversight, review, and guidance for all Coast Guard regulatory activity.

[CGD 95–057, 60 FR 34148, June 30, 1995, as amended by USCG–2003–15404, 68 FR 37740, June 25, 2003]

§ 1.05–10 Regulatory process overview.

(a) Most rules of local applicability are issued by District Commanders and Captains of the Port, while rules of wider applicability are issued by senior Coast Guard officials at Coast Guard Headquarters, For both significant rulemaking (defined by Executive Order 12866, Regulatory Planning and Review) and non-significant rulemaking, other than those areas delegated to District Commanders and Captains of the Port, the regulatory process begins when an office chief with program responsibilities identifies a possible need for a new regulation or for changes to an existing regulation. The need may arise due to statutory changes, or be based on internal review or public input. Early public involvement is strongly encouraged.

(b) After a tentative significant regulatory approach is developed, a significant regulatory project proposal is submitted to the Marine Safety and Security Council for approval. The proposal describes the scope of the proposed regulation, alternatives considered, and potential cost and benefits, including possible environmental impacts. All significant regulatory projects require Marine Safety and Security Council approval.

(c) Significant rulemaking projects must also be approved by the Commandant of the Coast Guard.

(d) If the project is approved, the necessary documents are drafted, including documents to be published in the FEDERAL REGISTER. These may include regulatory evaluations, environmental analyses, requests for comments, announcements of public meetings, notices of proposed rulemakings, and final rules.

[CGD 95–057, 60 FR 34148, June 30, 1995, as amended by USCG–2003–14505, 68 FR 9534, Feb. 28, 2003; USCG–2003–15404, 68 FR 37740, June 25, 2003]

§ 1.05–15 Public participation.

The Coast Guard considers public participation essential to effective rulemaking, and encourages the public to participate in its rulemaking process. Coast Guard policy is to provide opportunities for public participation early in potential rulemaking projects. Generally, the Coast Guard will solicit public input by publishing a notice of public meeting or request for comments in the FEDERAL REGISTER. Advance Notices of Proposed Rulemaking, Notices of Proposed Rulemaking, Supplemental Notices of Proposed Rulemaking, and Interim Rules will usually provide 90 days, or more if possible, after publication for submission of comments. This time period is intended to allow interested persons the opportunity to participate in the rulemaking process through the submission of written data and views. However, certain cases and circumstances may make it necessary to provide a shorter comment period. Public meetings may also be held to provide an opportunity for oral presentations. The Coast Guard will consider the comments received and, in subsequent rulemaking documents, will incorporate a concise general statement of the comments received and identify changes from a proposed rule based on the comments.

§ 1.05–20 Petitions for rulemaking.

(a) Any member of the public may petition the Coast Guard to undertake a

rulemaking action. There is no prescribed form for a petition for rulemaking, but the document should provide some supporting information as to why the petitioner believes the proposed rulemaking is necessary and the document should clearly indicate that it is a petition for rulemaking. Petitions should be addressed to the Executive Secretary, Marine Safety and Security Council (G-LRA), United States Coast Guard Headquarters, 2100 Second Street SW., Washington, DC 20593–0001.

(b) The petitioner will be notified of the Coast Guard's decision whether to initiate a rulemaking or not. If the Coast Guard decides not to pursue a rulemaking, the petitioner will be notified of the reasons why. If the Coast Guard decides to initiate rulemaking, it will follow the procedure outlined in this subpart. The Coast Guard may publish a notice acknowledging receipt of a petition for rulemaking in the FEDERAL REGISTER.

(c) Any petition for rulemaking and any reply to the petition will be kept in a public file open for inspection.

[CGD 95–057, 60 FR 34148, June 30, 1995, as amended by USCG–2003–15404, 68 FR 37740, June 25, 2003]

§ 1.05–25 Public docket.

(a) A public file is maintained for each petition for rulemaking and each Coast Guard regulation and notice published in the FEDERAL REGISTER. Each file contains copies of every rulemaking document published for the project, public comments received, summaries of public meetings or hearings, regulatory assessments, and other publicly-available information. Members of the public may inspect the public docket and copy any documents in the file. Each rulemaking document will identify where the public file for that rulemaking is maintained. Public dockets for rulemakings originating at Coast Guard Headquarters are kept at a Docket Management Facility (DMS) maintained by the Department of Transportation, at the Nassif Building, room PL–401, 400 Seventh Street SW., Washington, DC 20590–0001. These dockets are available electronically through the DMS Web site at *http://dms.dot.gov*.

(b) The public dockets for Coast Guard rulemaking activity initiated by Coast Guard District Commanders are available for public inspection at the appropriate Coast Guard District office.

(c) The public dockets for Coast Guard rulemaking activity initiated by Captains of the Port are available for inspection at the appropriate Captain of the Port office.

[CGD 95–057, 60 FR 34148, June 30, 1995, as amended by USCG–2003–14505, 68 FR 9534, Feb. 28, 2003]

§ 1.05–30 Advance notice of proposed rulemaking (ANPRM).

An advance notice of proposed rulemaking may be used to alert the affected public about a new regulatory project, or when the Coast Guard needs more information about what form proposed regulations should take, the actual need for a regulation, the cost of a proposal, or any other information. The ANPRM may solicit general information or ask the public to respond to specific questions.

§ 1.05–35 Notice of proposed rulemaking (NPRM).

Under the Administrative Procedure Act (APA), 5 U.S.C. 553, an NPRM is generally published in the FEDERAL REGISTER for Coast Guard rulemakings. The NPRM normally contains a preamble statement in sufficient detail to explain the proposal, its background, basis, and purpose, and the various issues involved. It also contains a discussion of any comments received in response to prior notices, a citation of legal authority for the rule, and the text of the proposed rule.

§ 1.05–40 Supplemental notice of proposed rulemaking (SNPRM).

An SNPRM may be issued if a proposed rule has been substantially changed from the original notice of proposed rulemaking. The supplemental notice advises the public of the revised proposal and provides an opportunity for additional comment. To give the public a reasonable opportunity to become reacquainted with a rulemaking, a supplemental notice may also be issued if considerable time has elapsed since publication of a notice of

proposed rulemaking. An SNPRM contains the same type of information generally included in an NPRM.

§ 1.05–45 Interim rule.

(a) An interim rule may be issued when it is in the public interest to promulgate an effective rule while keeping the rulemaking open for further refinement. For example, an interim rule may be issued in instances when normal procedures for notice and comment prior to issuing an effective rule are not required, minor changes to the final rule may be necessary after the interim rule has been in place for some time, or the interim rule only implements portions of a proposed rule, while other portions of the proposed rule are still under development.

(b) An interim rule will be published in the FEDERAL REGISTER with an effective date that will generally be at least 30 days after the date of publication. After the effective date, an interim rule is enforceable and is codified in the next annual revision of the appropriate title of the Code of Federal Regulations.

§ 1.05–50 Final rule.

In some instances, a final rule may be issued without prior notice and comment. When notice and comment procedures have been used, and after all comments received have been considered, a final rule is issued. A final rule document contains a preamble that discusses comments received, responses to comments and changes made from the proposed or interim rule, a citation of legal authority, and the text of the rule.

§ 1.05–55 Direct final rule.

(a) A direct final rule may be issued to allow noncontroversial rules that are unlikely to result in adverse public comment to become effective more quickly.

(b) A direct final rule will be published in the FEDERAL REGISTER with an effective date that is generally at least 90 days after the date of publication.

(c) The public will usually be given at least 60 days from the date of publication in which to submit comments or notice of intent to submit comments.

(d) If no adverse comment or notice of intent to submit an adverse comment is received within the specified period, the Coast Guard will publish a notice in the FEDERAL REGISTER to confirm that the rule will go into effect as scheduled.

(e) If the Coast Guard receives a written adverse comment or a written notice of intent to submit an adverse comment, the Coast Guard will publish a notice in the final rule section of the FEDERAL REGISTER to announce withdrawal of the direct final rule. If an adverse comment clearly applies to only part of a rule, and it is possible to remove that part without affecting the remaining portions, the Coast Guard may adopt as final those parts of the rule on which no adverse comment was received. Any part of a rule that is the subject of an adverse comment will be withdrawn. If the Coast Guard decides to proceed with a rulemaking following receipt of an adverse comment, a separate Notice of Proposed Rulemaking (NPRM) will be published unless an exception to the Administrative Procedure Act requirements for notice and comment applies.

(f) A comment is considered adverse if the comment explains why the rule would be inappropriate, including a challenge to the rule's underlying premise or approach, or would be ineffective or unacceptable without a change.

[CGD 94–105, 60 FR 49224, Sept. 22, 1995]

§ 1.05–60 Negotiated rulemaking.

(a) The Coast Guard may establish a negotiated rulemaking committee under the Negotiated Rulemaking Act of 1990 and the Federal Advisory Committee Act (FACA) (5 U.S.C. App. 2) when it is in the public interest.

(b) Generally, the Coast Guard will consider negotiated rulemaking when:

(1) There is a need for a rule;

(2) There are a limited number of representatives for identifiable parties affected by the rule;

(3) There is a reasonable chance that balanced representation can be reached in the negotiated rulemaking committee and that the committee members will negotiate in good faith;

(4) There is a likelihood of a committee consensus in a fixed time period;

(5) The negotiated rulemaking process will not unreasonably delay the rule;

(6) The Coast Guard has resources to do negotiated rulemaking; and

(7) The Coast Guard can use the consensus of the committee in formulating the NPRM and final rule.

Subpart 1.07—Enforcement; Civil and Criminal Penalty Proceedings

AUTHORITY: 14 U.S.C. 633; Sec. 6079(d), Pub. L. 100–690, 102 Stat. 4181; 49 CFR 1.46.

SOURCE: CGD 78–82, 43 FR 54186, Nov. 20, 1978, unless otherwise noted.

§ 1.07–1 Purpose.

This part describes procedures for enforcement and administration of all statutory penalty provisions that the Coast Guard is authorized to enforce.

§ 1.07–5 Definitions.

(a) The term *District Commander,* when used in this subpart, means the District Commander, or any person under the District Commander's command, delegated to carry out the provisions of § 1.07–10(b).

(b) The term *Hearing Officer* means a Coast Guard officer or employee who has been delegated the authority to assess civil penalties.

(c) The term *issuing officer* means any qualified Coast Guard commissioned, warrant, or petty officer.

(d) The term *Notice of Violation* means a notification of violation and preliminary assessment of penalty, given to a party, in accordance with § 1.07–11.

(e) The term *party* means the person alleged to have violated a statute or regulation to which a civil penalty applies and includes an individual or public or private corporation, partnership or other association, or a governmental entity.

[CGD 93–079, 59 FR 16560, Apr. 7, 1994]

§ 1.07–10 Reporting and investigation.

(a) Any person may report an apparent violation of any law, regulation, or order that is enforced by the Coast Guard to any Coast Guard facility. When a report of an apparent violation has been received, or when an apparent violation has been detected by any Coast Guard personnel, the matter is investigated or evaluated by Coast Guard personnel. Once an apparent violation has been investigated or evaluated, a report of the investigation may be sent to the District Commander or other designated official in accordance with paragraph (b) of this section or a Notice of Violation under § 1.07–11 may be given to the party by an issuing officer.

(b) Reports of any investigation conducted by the Coast Guard or received from any other agency which indicate that a violation may have occurred may be forwarded to a District Commander or other designated official for further action. This is normally the District Commander of the District in which the violation is believed to have occurred, or the District in which the reporting unit or agency is found. The report is reviewed to determine if there is sufficient evidence to establish a *prima facie* case. If there is insufficient evidence, the case is either returned for further investigation or closed if further action is unwarranted. The case is closed in situations in which the investigation has established that a violation did not occur, the violator is unknown, or there is little likelihood of discovering additional relevant facts. If it is determined that a *prima facie* case does exist, a case file is prepared and forwarded to the Hearing Officer, with a recommended action. A record of any prior violations by the same person or entity, is forwarded with the case file.

[CGD 78–82, 43 FR 54186, Nov. 20, 1978, as amended by CGD 87–008a, 52 FR 17554, May 11, 1987; CGD 93–079, 59 FR 16560, Apr. 7, 1994; USCG–2000–7223, 65 FR 40054, June 29, 2000]

§ 1.07–11 Notice of violation.

(a) After investigation and evaluation of an alleged violation has been completed, an issuing officer may issue a Notice of Violation to the party.

(b) The Notice of Violation will contain the following information:

(1) The alleged violation and the applicable law or regulations violated;

(2) The amount of the maximum penalty that may be assessed for each violation;

(3) The amount of proposed penalty that appears to be appropriate;

(4) A statement that payment of the proposed penalty within 45 days will settle the case;

(5) The place to which, and the manner in which, payment is to be made;

(6) A statement that the party may decline the Notice of Violation and that if the Notice of Violation is declined, the party has the right to a hearing prior to a final assessment of a penalty by a Hearing Officer.

(7) A statement that failure to either pay the proposed penalty on the Notice of Violation or decline the Notice of Violation and request a hearing within 45 days will result in a finding of default and the Coast Guard will proceed with the civil penalty in the amount recommended on the Notice of Violation without processing the violation under the procedures described in 33 CFR 1.07–10(b).

(c) The Notice of Violation may be hand delivered to the party or an employee of the party, or may be mailed to the business address of the party.

(d) If a party declines the Notice of Violation within 45 days, the case file will be sent to the District Commander for processing under the procedures described in 33 CFR 1.07–10(b).

(e) If a party pays the proposed penalty on the Notice of Violation within 45 days, a finding of proved will be entered into the case file.

(f) If within 45 days of receipt a party—

(1) Fails to pay the proposed penalty on the Notice of Violation; and

(2) Fails to decline the Notice of Violation—the Coast Guard will enter a finding of default in the case file and proceed with the civil penalty in the amount recommended on the Notice of Violation without processing the violation under the procedures described in 33 CFR 1.07–10(b).

§ 1.07–15 Hearing Officer.

(a) The Hearing Officer has no other responsibility, direct or supervisory, for the investigation of cases referred for the assessment of civil penalties. The hearing officer may take action on a case referred by any District Commander.

(b) The Hearing Officer decides each case on the basis of the evidence before him, and must have no prior connection with the case. The Hearing Officer is solely responsible for the decision in each case referred to him.

(c) The Hearing Officer is authorized to administer oaths and issue subpoenas necessary to the conduct of a hearing, to the extent provided by law.

§ 1.07–20 Initiation of action.

(a) When a case is received for action, the Hearing Officer makes a preliminary examination of the material submitted. If, on the basis of the preliminary examination, the Hearing Officer determines that there is insufficient evidence to proceed, or that there is any other reason which would make penalty action inappropriate, the Hearing Officer returns the case to the District Commander with a written statement of the reason. The District Commander may close the case or cause a further investigation of the alleged violation to be made with a view toward resubmittal of the case to the Hearing Officer.

(b) If on the basis of the preliminary examination of the case file, the Hearing Officer determines that a violation appears to have been committed, the Hearing Officer notifies the party in writing of:

(1) The alleged violation and the applicable law or regulations;

(2) The amount of the maximum penalty that may be assessed for each violation;

(3) The general nature of the procedure for assessing and collecting the penalty;

(4) The amount of penalty that appears to be appropriate, based on the material then available to the Hearing Officer;

(5) The right to examine all materials in the case file and have a copy of all written documents provided upon request; and,

(6) The fact that the party may demand a hearing prior to any actual assessment of a penalty.

(c) If at any time it appears that the addition of another party to the proceedings is necessary or desirable, the Hearing Officer provides the additional party with notice as described above.

§ 1.07–25 Preliminary matters.

(a) Within 30 days after receipt of notice of the initiation of the action, as described above, the party, or counsel for the party, may request a hearing, provide any written evidence and arguments in lieu of a hearing, or pay the amount specified in the notice as being appropriate. A hearing must be requested in writing; the request must specify the issues which are in dispute. Failure to specify a nonjurisdictional issue will preclude its consideration.

(b) The right to a hearing is waived if the party does not submit the request to the Hearing Officer within 30 days after receiving notice of the alleged violation. At the discretion of the Hearing Officer, a hearing may be granted if the party submits a late request.

(c) The Hearing Officer must promptly schedule all hearings which are requested. The Hearing Officer shall grant any delays or continuances which may be necessary or desirable in the interest of fairly resolving the case.

(d) A party who has requested a hearing may amend the specification of the issues in dispute at any time up to 10 days before the scheduled date of the hearing. Issues raised later than 10 days before the scheduled hearing may be presented only at the discretion of the Hearing Officer.

[CGD 78–82, 43 FR 54186, Nov. 20, 1978, as amended by CGD 85–001A, 51 FR 19329, May 29, 1986]

§ 1.07–30 Disclosure of evidence.

The alleged violator may, upon request, receive a free copy of all the written evidence in the case file, except material that would disclose or lead to the disclosure of the identity of a confidential informant. Other evidence or material, such as blueprints, sound or video tapes, oil samples, and photographs may be examined in the Hearing Officer's offices. The Hearing Officer may provide for examination or testing of evidence at other locations if there are adequate safeguards to prevent loss or tampering.

§ 1.07–35 Request for confidential treatment.

(a) In addition to information treated as confidential under § 1.07–30, a request for confidential treatment of a document or portion thereof may be made by the person supplying the information on the basis that the information is:

(1) Confidential financial information, trade secrets, or other material exempt from disclosure by the Freedom of Information Act (5 U.S.C. 552);

(2) Required to be held in confidence by 18 U.S.C. 1905; or

(3) Otherwise exempt by law from disclosure.

(b) The person desiring confidential treatment must submit the request to the Hearing Officer in writing and state the reasons justifying nondisclosure. Failure to make a timely request may result in a document being considered as nonconfidential and subject to release.

(c) Confidential material is not considered by the Hearing Officer in reaching a decision unless:

(1) It has been furnished by a party, or

(2) It has been furnished pursuant to a subpoena.

[CGD 78–82, 43 FR 54186, Nov. 20, 1978, as amended by USCG–2002–12471, 67 FR 41331, June 18, 2002]

§ 1.07–40 Counsel.

A party has the right to be represented at all stages of the proceeding by counsel. After receiving notification that a party is represented by counsel, the Hearing Officer directs all further communications to that counsel.

§ 1.07–45 Location of hearings and change of venue.

(a) The hearing is normally held at the office of the Hearing Officer.

(b) The Hearing Officer may transfer a case to another Hearing Officer on request or on the Hearing Officer's own motion.

(c) A request for change of location of a hearing or transfer to another Hearing Officer must be in writing and state the reasons why the requested action is necessary or desirable. Action on the request is at the discretion of the Hearing Officer.

[CGD 87–008a, 52 FR 17554, May 11, 1987]

§ 1.07–50 Witnesses.

A party may present the testimony of any witness either through a personal appearance or through a written statement. The party may request the assistance of the Hearing Officer in obtaining the personal appearance of a witness. The request must be in writing and state the reasons why a written statement would be inadequate, the issue or issues to which the testimony would be relevant, and the substance of the expected testimony. If the Hearing Officer determines that the personal appearance of the witness may materially aid in the decision on the case, the Hearing Officer seeks to obtain the witness' appearance. Because many statutes prescribing civil penalties do not provide subpoena power, there may be cases where a witness cannot be required to attend. In such a case, the Hearing Officer may move the hearing to the witness' location, accept a written statement, or accept a stipulation in lieu of testimony. If none of these procedures is practical, the Hearing Officer shall proceed on the basis of the evidence before him.

[CGD 78–82, 43 FR 54186, Nov. 20, 1978, as amended by USCG–2002–12471, 67 FR 41331, June 18, 2002]

§ 1.07–55 Hearing procedures.

(a) The Hearing Officer must conduct a fair and impartial proceeding in which the party is given a full opportunity to be heard. At the outset of the hearing, the Hearing Officer insures that the party is aware of the nature of the proceeding and of the alleged violation, and of the provisions of the law or regulation allegedly violated.

(b) The material in the case file pertinent to the issues to be determined by the Hearing Officer is presented. The party has the right to examine, and to respond to or rebut, this material. The party may offer any facts, statements, explanations, documents, sworn or unsworn testimony, or other exculpatory items which bear on appropriate issues, or which may be relevant to the size of an appropriate penalty. The Hearing Officer may require the authentication of any written exhibit or statement.

(c) At the close of the party's presentation of evidence, the Hearing Officer may allow the introduction of rebuttal evidence. The Hearing Officer may allow the party to respond to any such evidence submitted.

(d) In receiving evidence, the Hearing Officer is not bound by strict rules of evidence. In evaluating the evidence presented, the Hearing Officer must give due consideration to the reliability and relevance of each item of evidence.

(e) The Hearing Officer may take notice of matters which are subject to a high degree of indisputability and are commonly known in the community or are ascertainable from readily available sources of known accuracy. Prior to taking notice of a matter, the Hearing Officer gives the party an opportunity to show why notice should not be taken. In any case in which notice is taken, the Hearing Officer places a written statement of the matters as to which notice was taken in the record, with the basis for such notice, including a statement that the party consented to notice being taken or a summary of the party's objections.

(f) After the evidence in the case has been presented, the party may present argument on the issues in the case. The party may also request an opportunity to submit a written statement for consideration by the Hearing Officer and for further review. The Hearing Officer shall allow a reasonable time for submission of the statement and shall specify the date by which it must be received. If the statement is not received within the time prescribed, or within the limits of any extension of time granted by the Hearing Officer, the Hearing Officer renders his decision in the case.

§ 1.07–60 Records.

(a) A verbatim transcript will not normally be prepared. The Hearing Officer prepares notes on the material

and points raised by the party, in sufficient detail to permit a full and fair review and resolution of the case, should it be appealed.

(b) A party may, at its own expense, cause a verbatim transcript to be made. If a verbatim transcript is made, the party shall submit two copies to the Hearing Officer not later than the time of filing an administrative appeal. The Hearing Officer includes them in the record.

[CGD 78–82, 43 FR 54186, Nov. 20, 1978, as amended by USCG–2002–12471, 67 FR 41331, June 18, 2002]

§ 1.07–65 Hearing Officer's decisions.

(a) The Hearing Officer issues a written decision. Any decision to assess a penalty is based upon substantial evidence in the record. If the Hearing Officer finds that there is not substantial evidence in the record establishing the alleged violation or some other violation of which the party had full and fair notice, the Hearing Officer shall dismiss the case and remand it to the District Commander. A dismissal is without prejudice to the District Commander's right to refile the case and have it reheard if additional evidence is obtained. A dismissal following a rehearing is final and with prejudice.

(b) If the Hearing Officer assesses a penalty, the Hearing Officer's decision contains a statement advising the party of the right to an administrative appeal. The party is advised that failure to submit an appeal within the prescribed time will bar its consideration and that failure to appeal on the basis of a particular issue will constitute a waiver of that issue in any subsequent proceeding.

[CGD 78–82, 43 FR 54186, Nov. 20, 1978, as amended by CGD 85–001A, 51 FR 19329, May 29, 1986]

§ 1.07–70 Right to appeal.

(a) Any appeal from the decision of the Hearing Officer must be submitted by a party within 30 days from the date of receipt of the decision. The appeal and any supporting brief must be submitted to the Hearing Officer. The only issues which will be considered on appeal are those issues specified in the appeal which were properly raised before the Hearing Officer and jurisdictional questions.

(b) The failure to file an appeal within the prescribed time limit results in the action of the Hearing Officer becoming the final agency action in the case.

§ 1.07–75 Action on appeals.

(a) Upon receipt, the Hearing Officer provides a copy of the appeal and any supporting brief to the District Commander who referred the case. Any comments which the District Commander desires to submit must be received by the Hearing Officer within 30 days. The Hearing Officer includes the District Commander's comments, or not later than 30 days after receipt of the appeal if no comments are submitted by the District Commander, the Hearing Officer forwards all materials in the case to the Commandant.

(b) The Commandant issues a written decision in each case and furnishes copies to the party, the District Commander, and the Hearing Officer, The Commandant may affirm, reverse, or modify the decision, or remand the case for new or additional proceedings. In the absence of a remand, the decision of the Commandant on appeal shall be final. In addition to the actions which may be taken by the Commandant on appeal, the Commandant may also remit, mitigate or suspend the assessment in whole or in part. Upon the taking of remission, mitigation, or suspension action, the Commandant will inform the party of the action and any conditions placed on the action.

[CGD 78–82, 43 FR 54186, Nov. 20, 1978, as amended by CGD 87–008a, 52 FR 17555, May 11, 1987]

§ 1.07–80 Reopening of hearings.

(a) At any time prior to final agency action in a civil penalty case, a party may petition to reopen the hearing on the basis of newly discovered evidence.

(b) Petitions to reopen must be in writing describing the newly found evidence and must state why the evidence would probably produce a different result favorable to the petitioner, whether the evidence was known to the petitioner at the time of the hearing and, if not, why the newly found evidence

could not have been discovered in the exercise of due diligence. The party must submit the petition to the Hearing Officer.

(c) The District Commander may file comments in opposition to the petition. If comments are filed, a copy is provided the party.

(d) A petition to reopen is considered by the Hearing Officer unless an appeal has been filed, in which case the petition is considered by the Commandant.

(e) The decision on the petition is decided on the basis of the record, the petition, and the comments in opposition, if any. The petition is granted only when newly found evidence is described which has a direct and material bearing on the issues and when a valid explanation is provided as to why the evidence was not and could not have been, in the exercise of due diligence, produced at the hearing. The decision is rendered in writing.

(f) Following a denial of a petition to reopen, the party is given 30 days to file an appeal if one has not already been filed, or to amend an appeal which has already been filed.

[CGD 78–82, 43 FR 54186, Nov. 20, 1978, as amended by CGD 87–008a, 52 FR 17555, May 11, 1987]

§ 1.07–85 Collection of civil penalties.

(a) Payment of a civil penalty may be made by check or postal money order payable to the U.S. Coast Guard.

(b) Within 30 days after receipt of the Commandant's decision on appeal, or the Hearing Officer's decision in a case in which no appeal has been filed, the party must submit payment of any assessed penalty to the office specified in the assessment notice. Failure to make timely payment will result in the institution of appropriate action under the Federal Claims Collection Act and the regulations issued thereunder.

(c) When a penalty of not more than $200 has been assessed under Chapter 43 or 123 of Title 46 U.S.C., the matter may be referred for collection of the penalty directly to the Federal Magistrate of the jurisdiction wherein the person liable may be found, for the institution of collection procedures under supervision of the district court, if the court has issued an order delegating such authority under section 636(b) of Title 28, United States Code.

[CGD 87–008a, 52 FR 17555, May 11, 1987]

§ 1.07–90 Criminal penalties.

(a) Prosecution in the Federal courts for violations of those laws or regulations enforced by the Coast Guard which provide, upon conviction, for punishment by fine or imprisonment is a matter finally determined by the Department of Justice. This final determination consists of deciding whether and under what conditions to prosecute or to abandon prosecution.

(b) Except in those cases where the approval of the Commandant is required, the Area, Maintenance & Logistics Command (MLC), and District Commanders are authorized to refer the case to the U.S. attorney. The Commandant's approval is required in the following cases where evidence of a criminal offense is disclosed:

(1) Marine casualties or accidents resulting in death.

(2) Marine Boards (46 CFR part 4).

(3) Violations of port security regulations (33 CFR parts 6, 121 to 126 inclusive).

(c) The Area, MLC, or District Commander will identify the laws or regulations which were violated and make specific recommendations concerning the proceedings to be instituted by the U.S. attorney in every case.

[CGD 78–82, 43 FR 54186, Nov. 20, 1978, as amended by USCG–2001–9286, 66 FR 33639, June 25, 2001]

§ 1.07–95 Civil and criminal penalties.

(a) If a violation of law or regulation carries both a civil and a criminal penalty, the Area, MLC, and District Commanders are authorized to determine whether to institute civil penalty proceedings or to refer the case to the U.S. attorney for prosecution in accordance with § 1.07–90.

(b) When the U.S. Attorney declines to institute criminal proceedings, the Area, MLC, or District Commander decides whether to initiate civil penalty proceedings or to close the case.

[CGD 78–82, 43 FR 54186, Nov. 20, 1978, as amended by USCG–2001–9286, 66 FR 33639, June 25, 2001]

§ 1.07–100 Summons in lieu of seizure of commercial fishing industry vessels.

(a) As used in this section, the following terms have the meanings specified:

(1) *Commercial fishing industry vessel* means a fishing vessel, a fish processing vessel, or a fish tender vessel as defined in 46 U.S.C. 2101 (11a), (11b), or (11c), respectively.

(2) *Personal use quantity* means a quantity of a controlled substance as specified in 19 CFR 171.51.

(b) When a commercial fishing industry vessel is subject to seizure for a violation of 21 U.S.C. 881(a)(4), (6), or (7); of 19 U.S.C. 1595a(a); or of 49 U.S.C. App. 782 and the violation involves the possession of a personal use quantity of a controlled substance, the vessel shall be issued a summons to appear as prescribed in subpart F of 19 CFR part 171 in lieu of seizure, provided that the vessel is:

(1) Proceeding to or from a fishing area or intermediate port of call; or

(2) Actively engaged in fishing operations.

§ 1.26–1 Purpose.

(a) The regulations in this subpart establish charges which shall be imposed by the Coast Guard when the Coast Guard sells supplies, equipment, apparatus, temporary shelter, and services under certain specified conditions as authorized by law.

(b) These sales are intended to permit repayment of costs involved in those instances which are ordinarily outside the scope of those distress services with which the Coast Guard is primarily concerned (14 U.S.C. 88), or the equipment and apparatus are not readily procurable in the open market.

§ 1.26–5 Replacement of medals.

(a) A medal, or a bar, emblem, or insignia in lieu thereof, that is lost, destroyed, or rendered unfit for use without fault or neglect on the part of the

person to whom it was awarded by the Coast Guard is replaced without charge by the Coast Guard as authorized in 14 U.S.C. 501.

(b) A medal, a bar, emblem or insignia in lieu thereof, that is lost, destroyed, or rendered unfit for use due to the fault or neglect of the person to whom it was awarded, is replaced after the Coast Guard is reimbursed for its cost. § 1.26–10 Sales to Coast Guard Auxiliary.

(a) The provisions of Title 14, U.S. Code, section 891, authorizes the Coast Guard to furnish the Coast Guard Auxiliary such items as flags, pennants, uniforms, and insignia at actual cost.

(b) Sales of the following items (when available) are permitted to members of the Auxiliary:

(1) Auxiliary flags and pennants.

(2) Uniforms.

(3) Auxiliary insignia.

(Sec. 891, 63 Stat. 557 (14 U.S.C. 891)).

§ 1.26–15 Sales of nonexcess personal property and services.

(a) *Authority.* The provisions of Title 14, U.S. Code, section 641(b), authorizes the Coast Guard to sell apparatus or equipment manufactured by or in use in the Coast Guard, which is not readily procurable in the open market. The provisions of Title 14, U.S. Code, section 654 (Pub. L. 86–159 approved Aug. 14, 1959), authorize the Coast Guard to sell supplies and furnish services to public and commercial vessels, and other watercraft. 49 U.S.C. 44502(d) authorizes the Coast Guard to provide for assistance, the sale of fuel, oil, equipment, and supplies, to an aircraft when necessary to allow the aircraft to continue to the nearest private airport.

(b) *Charges established by District Commander.* The charges for supplies and services which may be normally expected to be furnished to persons, corporations, companies, vessels, and other watercraft, and non-Federal aircraft will vary between various geographical regions depending on local circumstances. The District Commander is hereby delegated authority to prescribe and he shall establish, in advance wherever practicable, the charges to be imposed and collected in various areas under his jurisdiction, which will be in accordance with the applicable general minimum terms and conditions in the laws and this section. In those cases where the charges have not been established in advance, the matter shall be priced on an individual basis, taking into consideration the facts and circumstances regarding the situation. The list(s) of charges established by the District Commander shall be available for reading and copying at the office of the issuing District Commander, which list(s) will be up-dated and reissued when necessary.

(c) *Sales to vessels and other watercraft.* (1) The charges imposed for services are intended to permit repayment of costs involved in those instances where supplies and services are furnished to meet the necessities of the circumstances, and such vessels or watercraft are not within the scope of those distress services performed by the Coast Guard.

(2) Charges for sales of supplies and/or furnishing of services are considered appropriate when the furnishing of food, fuel, general stores, or repairs to the vessel or its equipage are primarily for the convenience of the owner, master, or crew, and furnished at his or their request. It is not intended and the Coast Guard does not procure and stock equipment and supplies except as provided for in current instructions issued by competent authority.

(3) Supplies provided and services performed will be of a limited nature consistent with the situation and within the capabilities of the Coast Guard unit concerned; provided this will not be in competition with commercial enterprise when such facilities are available and deemed adequate. It is not intended to permit the operators of vessels or watercraft to take advantage of the Government by demanding free supplies or services. Determination as

to whether charges will be made is dependent upon the circumstances involved in each instance. The responsibility to make this determination rests with the District Commander who may delegate it to his subordinates.

(4) The minimum charge for any supplies or services furnished to a vessel or other watercraft shall be $10. The prices for fuels and materials which may be sold will be at Coast Guard cost plus 20 percent or, if readily determinable, at the commercial price in the immediate operating area, whichever is higher. The charges for services furnished a vessel or watercraft will be an average cost equal to the full price, plus taxes, that a boat owner would pay a local commercial concern for such services.

(5) The sales of supplies and services will be documented and will set forth the name, type, and identifying number of the vessel or watercraft receiving supplies or services; name and address of vessel's owner; and conditions under which it was determined to make a sale to the vessel or watercraft. Wherever possible, payment shall be obtained at the time supplies and services are furnished.

(d) *Sales of equipment not readily procurable on the open market.* Charges imposed for sales of apparatus and equipment manufactured by or in use in the Coast Guard which, in the opinion of the Commandant (FS), is not readily procurable in the open market, are subject to the following conditions:

(1) The apparatus or equipment has not been reported as excess to the General Services Administration (if so reported, requests to purchase will be submitted by the Commandant (FS) to the General Services Administration); and,

(2) The apparatus or equipment is not classified for security reasons or is not dangerous to the public health and safety; and,

(3) The authorized buyers of this apparatus or equipment are foreign, State, or municipal governments or governmental units thereof; parties required to maintain private aids to navigation; contractors engaged on public works; and in other cases in which, in the judgment of the Commandant (FS), the public interest may be served; and,

(4) The approved sales will be at prices determined by the Commandant (FS), which will include an overhead charge not to exceed 25 percent of acquisition cost.

(e) *Sales to and storage of non-Federal aircraft.* (1) Activities having the necessary supplies and facilities are authorized to furnish fuel, oil, equipment, supplies, mechanical services, temporary storage, or other assistance to any aircraft operated by State, municipal, or private enterprise in emergency cases. Complete engines, airplane wings, or other major items of equipment shall not be furnished without prior authority from the Commandant.

(2) Aircraft damaged to the extent that major repairs are required may be given emergency storage at the request of the pilot, provided the necessary facilities are available. No such aircraft will be given a major or minor overhaul. Damaged aircraft may be stored in its original damaged condition. If aircraft requires extensive repairs, such as would include the replacing of major parts and such major parts cannot be made available or supplied within a reasonable length of time by the operator of such aircraft, then the aircraft must be removed from the Coast Guard reservation by the operator without delay.

(3) The Government will not assume any responsibility for any loss or damage incurred by such aircraft while on a Coast Guard reservation and the owner shall be required to remove the aircraft from the reservation at the earliest practicable date.

(4) Storage charges for such aircraft on a Coast Guard reservation shall be as follows:

(i) For the first 6 working days, no charge;

(ii) For each calendar day thereafter, $3 for a single motor plane and $5 for a dual or multiengine plane.

(5) In the absence of any information to the contrary regarding a particular item or material, the price at which the item is carried in stock, or on the Plant Property Record (book price) will be regarded as the fair market value.

(6) When materials or services or both materials and services are furnished an aircraft, a deposit equal to the estimated value of such services and materials as will be required shall be obtained in advance of the rendition of the services and issuance of the materials.

(7) The charges for mechanical services rendered (other than in connection with the arrival, refueling, and departure of airplanes) shall be an hourly charge for labor, with a minimum of 1 hour, which shall be the equivalent to the schedule of wage rates for civilian personnel for the district (i.e., machinists, helpers, etc.), regardless of whether the services are performed by enlisted or civilian personnel.

(Sec. 1107, 72 Stat. 798, as amended; sec. 641, 63 Stat. 547, as amended; sec. 1, 73 Stat. 357; 49 U.S.C. 1507; 14 U.S.C. 641(b), 654)

§ 1.26–20 Sales to eligible foreign governments.

(a) *Policy of United States.* The Congressional policy is set forth in Title 22, U.S. Code, section 2351. The Executive Order No. 10973 dated November 3, 1961 (26 FR 10469), describes the administration of foreign assistance and related functions.

(b) *Diplomatic transactions.* Sales of Coast Guard material under reimbursable aid will be by direction of the Commandant (FS) and as approved by the Office of the Chief of Naval Operations. Reimbursable aid transactions are diplomatic transactions and are negotiated primarily between the respective foreign military attaché or other representatives of their embassy in Washington, DC, and the Office of the Chief of Naval Operations. Prices will be based on material cost only and estimates will not include packing, crating, and handling or transportation costs. Under reimbursable aid, transportation costs are borne by the purchasing country and shipments are usually accomplished on collect commercial bills of lading.

§ 1.26–25 Payment of charges.

(a) The payment of charges shall be by postal money order or check payable to ''U.S. Coast Guard,'' and given or sent to the office of the Coast Guard performing the service or furnishing the supplies, equipment, etc.

Subpart A—General

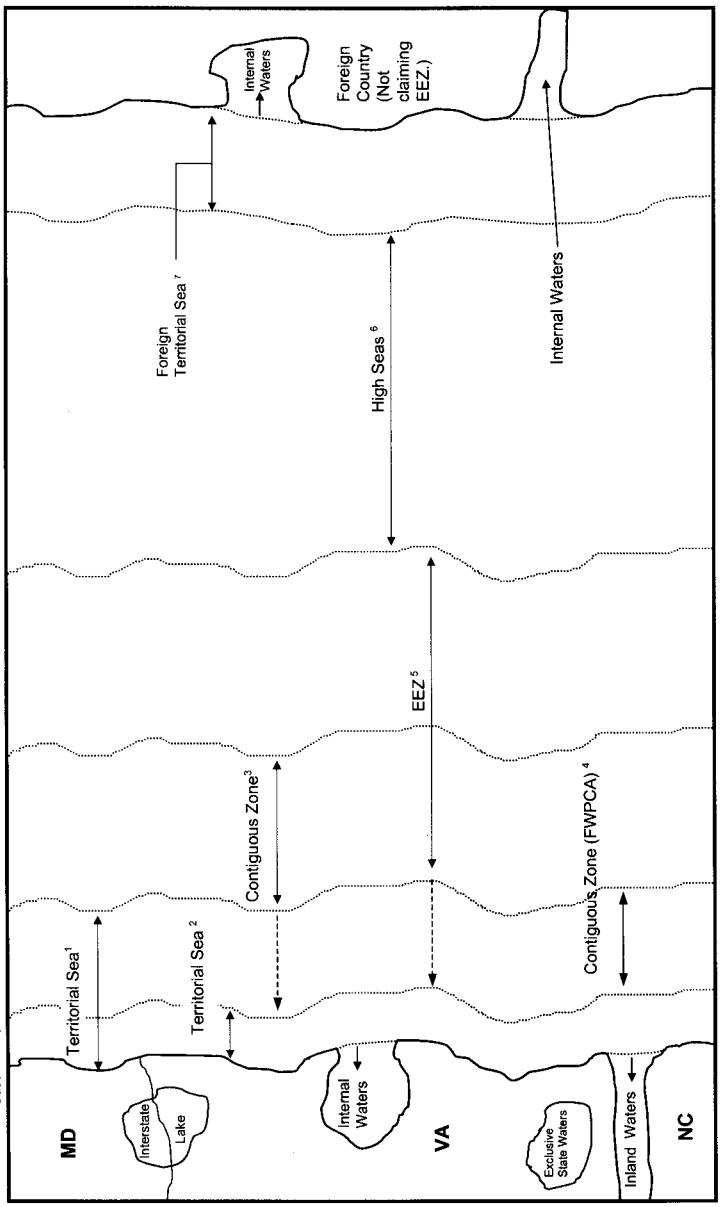
§ 2.1 Purpose.

(a) The purpose of this part is to define terms the Coast Guard uses in regulations, policies, and procedures, to determine whether it has jurisdiction on certain waters in cases where specific jurisdictional definitions are not otherwise provided.

(b) Figure 2.1 is a visual aid to assist you in understanding this part.

FIGURE 2.1. JURISDICTIONAL AREAS



[1] Territorial sea for purposes identified in §2.22(a)(1).
[2] Territorial sea for purposes identified in §2.22(a)(2).
[3] Contiguous zone as described in §2.28(b), varies with territorial sea width for particular purpose involved.
[4] Contiguous zone as described in §2.28(a), for Federal Water Pollution Control Act purposes.
[5] Exclusive Economic Zone (EEZ) is measured from the seaward limit of the territorial sea, as variously defined in §2.22(a), to a distance of 200 nautical miles from the baseline. The inner (shoreward) boundary of the EEZ will vary for particular purposes.
[6] High seas as defined in §2.32(d). When a nation has not proclaimed an EEZ, the high seas begin at the seaward edge of their territorial sea
[7] The U.S. recognizes territorial sea claims of other nations up to a maximum distance of 12 nautical miles from the baseline.

§2.5 Specific definitions control.

In cases where a particular statute, regulation, policy or procedure provides a specific jurisdictional definition that differs from the definitions contained in this part, the former definition controls.

NOTE TO §2.5: For example, the definition of ''inland waters'' in the Inland Navigational Rules Act of 1980 (33 U.S.C. 2003(o)) would control the interpretation of inland

navigation rules created under that Act and the ''inland waters'' definition in 46 CFR 10.103 would control regulations in 46 CFR part 10. Also, in various laws administered and enforced by the Coast Guard, the terms ''State'' and ''United States'' are defined to include some or all of the territories and possessions of the United States. The definitions in §§2.36 and 2.38 should be considered as supplementary to these statutory definitions and not as interpretive of them.

Subpart B—Jurisdictional Terms

§ 2.20 Territorial sea baseline.

Territorial sea baseline means the line defining the shoreward extent of the territorial sea of the United States drawn according to the principles, as recognized by the United States, of the Convention on the Territorial Sea and the Contiguous Zone, 15 U.S.T. 1606, and the 1982 United Nations Convention on the Law of the Sea (UNCLOS), 21 I.L.M. 1261. Normally, the territorial sea baseline is the mean low water line along the coast of the United States.

NOTE TO §2.20: Charts depicting the territorial sea baseline are available for examination in accordance with §1.10–5 of this chapter.

§ 2.22 Territorial sea.

(a) With respect to the United States, the following apply—

(1) *Territorial sea* means the waters, 12 nautical miles wide, adjacent to the coast of the United States and seaward of the territorial sea baseline, for—

(i) Statutes included within subtitle II and subtitle VI, title 46, U.S.C.; the Ports and Waterways Safety Act, as amended (33 U.S.C. 1221–1232); the Act of June 15, 1917, as amended (50 U.S.C. 191–195); and the Vessel Bridge-to-Bridge Radiotelephone Act (33 U.S.C. 1201–1208), and any regulations issued under the authority of these statutes.

(ii) Purposes of criminal jurisdiction pursuant to Title 18, United States Code.

(iii) The special maritime and territorial jurisdiction as defined in 18 U.S.C. 7.

(iv) Interpreting international law.

(v) Any other treaty, statute, or regulation, or amendment thereto, interpreted by the Coast Guard as incorporating the definition of territorial sea as being 12 nautical miles wide, adjacent to the coast of the United States and seaward of the territorial sea baseline.

(2) Unless otherwise specified in paragraph (a)(1) of this section, *territorial sea* means the waters, 3 nautical miles wide, adjacent to the coast of the United States and seaward of the territorial sea baseline.

(3) In cases where regulations are promulgated under the authority of statutes covered by both paragraphs (a)(1) and (a)(2) of this section, the Coast Guard may use the definition of territorial sea in paragraph (a)(1) of this section.

(b) With respect to any other nation, *territorial sea* means the waters adjacent to its coast that have a width and baseline recognized by the United States.

[USCG–2001–9044, 68 FR 42598, July 18, 2003, as amended by USCG–2003–14792, 68 FR 60470, Oct. 22, 2003]

§ 2.24 Internal waters.

(a) With respect to the United States, *internal waters* means the waters shoreward of the territorial sea baseline.

(b) With respect to any other nation, *internal waters* means the waters shoreward of its territorial sea baseline, as recognized by the United States.

§ 2.26 Inland waters.

Inland waters means the waters shoreward of the territorial sea baseline.

§ 2.28 Contiguous zone.

(a) For the purposes of the Federal Water Pollution Control Act (33 U.S.C. 1251 *et seq.*), *contiguous zone* means the zone, 9 nautical miles wide, adjacent to and seaward of the territorial sea, as defined in §2.22(a)(2), that was declared to exist in Department of State Public Notice 358 of June 1, 1972 and that extends from 3 nautical miles to 12 nautical miles as measured from the territorial sea baseline.

(b) For all other purposes, *contiguous zone* means all waters within the area adjacent to and seaward of the territorial sea, as defined in §2.22(a), and extending to 24 nautical miles from the territorial sea baseline, but in no case extending within the territorial sea of

another nation, as declared in Presidential Proclamation 7219 of September 2, 1999 (113 Stat. 2138).

§2.30 Exclusive Economic Zone.

(a) With respect to the United States, including the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, Guam, American Samoa, the United States Virgin Islands, and any other territory or possession over which the United States exercises sovereignty, *exclusive economic zone* means the zone seaward of and adjacent to the territorial sea, as defined in §2.22(a), including the contiguous zone, and extending 200 nautical miles from the territorial sea baseline (except where otherwise limited by treaty or other agreement recognized by the United States) in which the United States has the sovereign rights and jurisdiction and all nations have the high seas freedoms mentioned in Presidential Proclamation 5030 of March 10, 1983.

(b) Under customary international law as reflected in Article 56 of the 1982 United Nations Convention on the Law of the Sea, and with respect to other nations, *exclusive economic zone* means the waters seaward of and adjacent to the territorial sea, not extending beyond 200 nautical miles from the territorial sea baseline, as recognized by the United States.

§2.32 High seas.

(a) For purposes of special maritime and territorial jurisdiction of the United States as defined in 18 U.S.C. 7, *high seas* means all waters seaward of the territorial sea baseline.

(b) For the purposes of section 2 of the Act of February 19, 1895, as amended (33 U.S.C. 151) and the Inland Navigational Rules Act of 1980 (33 U.S.C. Chapter 34), *high seas* means the waters seaward of any lines established under these statutes, including the lines described in part 80 of this chapter and 46 CFR part 7.

(c) For the purposes of 14 U.S.C. 89(a), and 33 U.S.C. 1471 *et. seq., high seas* includes the exclusive economic zones of the United States and other nations, as well as those waters that are seaward of territorial seas of the United States and other nations.

(d) Under customary international law as reflected in the 1982 United Nations Convention on the Law of the Sea and without prejudice to high seas freedoms that may be exercised within exclusive economic zones pursuant to article 58 of the United Nations Convention on the Law of the Sea, and unless the context clearly requires otherwise (e.g., The International Convention Relating to Intervention on the High Seas in Cases of Oil Pollution Casualties, 1969, including annexes thereto), *high seas* means all waters that are not the exclusive economic zone (as defined in §2.30), territorial sea (as defined in §2.22), or internal waters of the United States or any other nation.

§2.34 Waters subject to tidal influence; waters subject to the ebb and flow of the tide; mean high water.

(a) *Waters subject to tidal influence and waters subject to the ebb and flow of the tide* are waters below mean high water. These terms do not include waters above mean high water caused by flood flows, storms, high winds, seismic waves, or other non-lunar phenomena.

(b) *Mean high water* is the average of the height of the diurnal high water at a particular location measured over a lunar cycle of 19 years.

§2.36 Navigable waters of the United States, navigable waters, and territorial waters.

(a) Except as provided in paragraph (b) of this section, *navigable waters of the United States, navigable waters,* and *territorial waters* mean, except where Congress has designated them not to be navigable waters of the United States:

(1) Territorial seas of the United States;

(2) Internal waters of the United States that are subject to tidal influence; and

(3) Internal waters of the United States not subject to tidal influence that:

(i) Are or have been used, or are or have been susceptible for use, by themselves or in connection with other waters, as highways for substantial interstate or foreign commerce, notwithstanding natural or man-made obstructions that require portage, or

(ii) A governmental or non-governmental body, having expertise in waterway improvement, determines to be capable of improvement at a reasonable cost (a favorable balance between cost and need) to provide, by themselves or in connection with other waters, as highways for substantial interstate or foreign commerce.

(b) *Navigable waters of the United States* and *navigable waters,* as used in sections 311 and 312 of the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1321 and 1322, mean:

(1) Navigable waters of the United States as defined in paragraph (a) of this section and all waters within the United States tributary thereto; and

(2) Other waters over which the Federal Government may exercise Constitutional authority.

§ 2.38 Waters subject to the jurisdiction of the United States; waters over which the United States has jurisdiction.

Waters subject to the jurisdiction of the United States and *waters over which the United States has jurisdiction* mean the following waters—

(a) Navigable waters of the United States, as defined in § 2.36(a).

(b) Waters, other than those under paragraph (a) of this section, that are located on lands for which the United States has acquired title or controls and—

(1) Has accepted jurisdiction according to 40 U.S.C. 255; or

(2) Has retained concurrent or exclusive jurisdiction from the date that the State in which the lands are located entered the Union.

(c) Waters made subject to the jurisdiction of the United States by operation of the international agreements and statutes relating to the former Trust Territory of the Pacific Islands, and waters within the territories and possessions of the United States.

Subpart C—Availability of Jurisdictional Decisions

§ 2.40 Maintenance of decisions.

(a) From time to time, the Coast Guard makes navigability determinations of specific waterways, or portions thereof, in order to determine its jurisdiction on those waterways. Copies of these determinations are maintained by the District Commander in whose district the waterway is located.

(b) If the district includes portions of the territorial sea, charts reflecting Coast Guard decisions as to the location of the territorial sea baseline for the purposes of Coast Guard jurisdiction are maintained by the District Commander in whose district the portion of the territorial sea is located.

§ 2.45 Decisions subject to change or modification and availability of lists and charts.

The determinations referred to in § 2.40 are subject to change or modification. The determinations are made for Coast Guard use at the request of Coast Guard officials. Determinations made or subsequently changed are available to the public under § 1.10–5(b) of this chapter. Inquiries concerning whether a determination has been made for specific waters, for the purposes of Coast Guard jurisdiction, should be directed to the District Commander of the district in which the waters are located.

§ 6.14–2 Condition of waterfront facility a danger to vessel.

Whenever the captain of the port finds that the mooring of any vessel to a wharf, dock, pier, or other waterfront structure would endanger such vessel, or any other vessel, or the harbor or any facility therein by reason of conditions existing on or about such wharf, dock, pier, or other waterfront structure, including, but not limited to, inadequate guard service, insufficient lighting, fire hazards, inadequate fire protection, unsafe machinery, internal disturbance, or unsatisfactory operation, the captain of the port may prevent the mooring of any vessel to such wharf, dock, pier, or other waterfront structure until the unsatisfactory condition or conditions so found are corrected, and he may, for the same reasons, after any vessel has been moored, compel the shifting of such vessel from any such wharf, dock, pier, or other waterfront structure.

Subpart 13.01—Gold and Silver Lifesaving Medals, Bars, and Miniatures

§ 13.01–1 General.

Lifesaving Medals of gold and silver, designated as the Gold Lifesaving Medal and the Silver Lifesaving Medal, respectively, may be awarded by the Commandant, U.S. Coast Guard, hereinafter called the Commandant, under 14 U.S.C. 500 and the regulations in this subpart to persons rescuing or endeavoring to rescue any other person from drowning, shipwreck or other peril of the water.

§ 13.01–5 Gold and Silver Lifesaving Medals.

Lifesaving Medals may be awarded to any person who rescues or endeavors to

rescue any other person from drowning, shipwreck or other peril of the water. In order for a person to be eligible for a Lifesaving Medal the rescue or attempted rescue must take place in waters within the United States or subject to the jurisdiction thereof, or if the rescue or attempted rescue takes place outside such waters, one or the other of the parties must be a citizen of the United States or from a vessel or aircraft owned or operated by citizens of the United States. If such rescue or attempted rescue is made at the risk of one's own life and evidences extreme and heroic daring, the medal shall be of gold. If such rescue or attempted rescue is not sufficiently distinguished to deserve the medal of gold but evidences the exercise of such signal exertion as to merit recognition, the medal shall be of silver. Lifesaving Medals may be awarded posthumously.

§ 13.01–10 Gold and silver bars.

No person shall receive more than one Gold Lifesaving Medal and one Silver Lifesaving Medal; but any person who has received or may hereafter receive a Gold or Silver Lifesaving Medal and who again performs an act which would entitle him to receive another medal of the same class, may be awarded, in lieu of a second medal of the same class, a gold or silver bar, as the case may be, to be worn with the medal already bestowed, and for every such additional act, an additional bar may be awarded. Gold and silver bars may be awarded posthumously.

§ 13.01–15 Applications and recommendations.

(a) All administrative details pertaining to the award of Lifesaving Medals are under the jurisdiction of the Commandant. Applications and recommendations for the award of a Lifesaving Medal may be filed by or in behalf of the person making or attempting a rescue under circumstances contemplated by the regulations in this subpart. Applications or recommendations for award of medals or requests for information pertaining thereto should be addressed to the Commander of the Coast Guard District, hereinafter called the District Commander, where the incident took place. (See part 3 of this subchapter for descriptions of Coast Guard Districts.) If the District is unknown, or if the incident took place outside any such district, applications and recommendations should be addressed to the Commandant, U.S. Coast Guard, Washington, D.C. 20593.

(b) Completed applications must include:

(1) Satisfactory evidence of the services performed, in the form of affidavits, made by eyewitnesses of good repute and standing testifying of their own knowledge. The opinion of witnesses that the person for whom an award is sought imperiled his or her own life or made signal exertions is not sufficient but the affidavits must set forth in detail all facts and occurrences tending to show clearly in what manner and to what extent life was risked or signal exertions made so that the Commandant may judge for himself as to the degree of merit involved.

(2) The precise locality of the rescue or attempted rescue, whether from waters within the United States or subject to the jurisdiction thereof, or if the rescue or attempted rescue is outside such waters, whether one or the other of the parties is a citizen of the United States, or from a vessel or aircraft owned or operated by citizens of the United States, shall be stated. The date, time of day, nature of the weather, condition of the water, the names of all persons present when practicable, the names of all persons rendering assistance, and all pertinent circumstances and data, showing the precise nature and degree of risk involved, should be stated.

(c) Recommendations must include:

(1) As much of the information indicated in paragraphs (b) (1) and (2) of this section which is available to the person making the recommendation. Upon receipt the Commandant or the cognizant District Commander shall cause such recommendation to be referred to an investigating officer who shall cause to be developed such additional information and evidence as is deemed necessary to either (i) terminate the investigation as containing insufficient justification to continue

further, or (ii) to complete the application for submission to the Commandant for his final determination.

(d) Either the Commandant or the District Commander may, without any application or recommendation, of his own motion, order an informal investigation into such an incident under Chapter II, of the Coast Guard Supplement to the Manual for Courts-Martial (CG–241).

(e) Affidavits required by this subpart shall be made before an officer duly authorized to administer oaths and if taken before an officer without an official seal, his official character must be certified by the proper officer of a court of record, under the seal thereof, unless the oath be taken before an officer of the Armed Forces authorized to administer oaths under the provisions of Article 136, UCMJ (10 U.S.C. 936).

(f) Cognizant District Commanders shall act upon all applications and recommendations submitted to them from whatever source and shall:

(1) Forward completed applications with his recommendations to the Commandant for his consideration and determination; or,

(2) Inform the applicant or the person submitting the recommendation that he considers such application or recommendation incomplete together with the reasons therefor and that a period of 90 days will be allowed for additional evidence to be provided upon the expiration of which he will file the application or recommendation without further action.

(g) Whenever the cognizant District Commander shall deem such action necessary, he may require that the aforementioned affidavits shall be accompanied by a certificate showing the affiants to be credible persons, certified by some U.S. Officer, such as a judge or clerk of a U.S. Court, district attorney, collector of customs, postmaster, or officer of the Armed Forces. If the affiant is a citizen or resident of a foreign country and if the affidavit is executed in such foreign country, the credibility certificate may be executed by an officer of such foreign country, who occupies an official position similar to the aforementioned U.S. officers.

(h) The decision of the Commandant on all applications, recommendations, and investigations for the Gold or Silver Lifesaving Medals shall be final.

§ 13.01–20 Definitions.

As used in the statutes cited and in the regulations in this subpart:

(a) ''Peril of the water'' includes all perils on water caused by, or which are such by reason of, the sea or bodies of water such as lakes, bays, sounds and rivers; whenever, wherever and in whatever way human life is directly imperiled by the sea or a body of water is a peril of the water.

PART 19—WAIVERS OF NAVIGATION AND VESSEL INSPECTION LAWS AND REGULATIONS [1]

Sec.

19.01 Procedures for effecting individual waivers of navigation and vessel inspection laws and regulations.
19.04 Vessels requisitioned by the United States for emergency evacuation.
19.06 Vessels operated by or chartered to Military Sealift Command.
19.07 Chronological record of seaman's previous employment.
19.15 Permits for commercial vessels handling explosives at military installations.

AUTHORITY: Sec. 1, 64 Stat. 1120, sec. 6(b)(1), 80 Stat. 937; 46 U.S.C. note prec. 1, 49 U.S.C. 108; Department of Homeland Security Delegation No. 0170.1.

§ 19.01 Procedures for effecting individual waivers of navigation and vessel inspection laws and regulations.

(a) It is hereby found necessary in the interest of national defense to waive compliance with the navigation and vessel inspection laws administered by the Coast Guard, as well as the regulations issued thereunder and contained in 46 CFR Chapter I or in this chapter, to the extent and in the manner and upon the terms and conditions as set forth in this section.

(b) An application requesting that a waiver be made effective with respect to a particular vessel may be made by any authorized representative of an agency of the United States Government or any other interested person (including the master, agent, or owner of the vessel involved). Except as provided in paragraph (d) of this section, the application shall be in writing. The application shall be delivered to the Coast Guard District Commander or to his designated representative at the port or place where the vessel is located. In the case of a vessel in any port or place of the Canal Zone or in any foreign port or place, the application shall be made to the designated representative of the Commandant at such port or place, or if the Coast Guard has not established facilities in such port or place, to the nearest designated representative of the Commandant at a port or place where such facilities have been established. Every application shall contain a statement of the particular provisions of law with respect to which waiver of compliance is requested, a certification that the waiver of compliance with such laws with respect to the vessel involved is necessary in the interest of national defense and, an outline of the facts upon which such certification is based. The Coast Guard District Commander (or his designated representative or the designated representative of the Commandant, as the case may be) shall promptly examine every application for the purpose of determining whether the necessity for prompt action is such as to require that the waiver be made effective by him without reference to the Commandant. In any case in which it appears to the Coast Guard officer concerned that reference of the application to the Commandant for action would not delay the sailing of the vessel or otherwise be contrary to the interest of national defense, the application shall be so referred. In all other cases such Coast Guard officer shall give immediate consideration to the application and if he reaches the conclusion that the urgency of the situation outweighs the marine hazard involved, then such waiver shall be made effective in regard to such vessel to the extent and under the circumstances specified by him.

(c) The Coast Guard officer making such a waiver effective pursuant to paragraph (b) of this section shall immediately prepare, in triplicate, an order setting forth the name of the vessel involved, the laws (also regulations, if any) with respect to which the waiver is effective, the extent to which compliance with such laws (also regulations, if any) is waived, and the period for which the waiver shall be effective. If practicable, one copy of this order shall be delivered to the master of the vessel involved before such vessel sails. In any case where the order is not delivered to the master, it shall be delivered to the owner, operator, or

[1] Also codified as 46 CFR part 6.

agent of the vessel without delay. One copy of the order shall be transmitted to the Commandant and the remaining copy kept on file.

(d) In any case of extreme urgency the application for a waiver may be made orally and if the Coast Guard District Commander (or his designated representative or the designated representative of the Commandant, as the case may be) reaches the conclusion referred to in paragraph (b) of this section, the waiver shall be made effective without further delay, subject to the condition that the application be reduced to writing and delivered within such period after the date of the oral request as the Coast Guard officer making the waiver effective shall specify in the order.

(e) No penalty shall be imposed because of failure to comply with any provision of law (or regulation, if any), the waiver of which has been made effective pursuant to the requirements in this section.

[CGFR 51–10, 16 FR 1959, Mar. 1, 1951]

§ 19.04 Vessels requisitioned by the United States for emergency evacuation.

Pursuant to the request of the Acting Secretary of Defense, dated November 21, 1951, made under the provisions of section 1 of Pub. L. 891, 81st Congress, approved December 27, 1950, compliance is hereby waived with the provisions of the navigation and vessel inspection laws administered by the United States Coast Guard, as well as the regulations issued thereunder and contained in this chapter, to the extent necessary to permit the operation of vessels which might be requisitioned by the United States for the purpose of emergency evacuation.

[CGFR 51–61, 16 FR 12792, Dec. 20, 1951]

§ 19.06 Vessels operated by or chartered to Military Sealift Command.

(a) Pursuant to the request of the Deputy Secretary of Defense, dated August 6, 1958, and to the request of the Assistant Secretary of Defense, Installations and Logistics, dated May 23, 1964, made under the provisions of section 1 of Pub. L. 891, 81st Congress, approved December 27, 1950 (64 Stat. 1120; 46 U.S.C., note preceding section 1), and their findings that a waiver is necessary in the interest of national defense, compliance with the provisions of the navigation and vessel inspection laws administered by the United States Coast Guard, as well as the regulations issued thereunder and contained in 33 CFR Chapter I, or in this chapter, is hereby waived to the extent and upon the terms and conditions as set forth in this section, in order to permit vessels operated by or chartered to the Military Sealift Command to carry out their assigned missions.

(b) An application requesting that this waiver be made effective with respect to a particular vessel may be made by the Commander, Military Sealift Command, or any one of his duly designated representatives. Except as provided in paragraph (e) of this section, the application shall be in writing. The application shall be delivered to the Coast Guard District Commander or to his designated representative at the port or place where the vessel is located. In the case of a vessel in any foreign port or place, the application shall be made to the designated representative of the Commandant at such port or place, or if the Coast Guard has not established facilities in such port or place, to the nearest designated representative of the Commandant at a port or place where such facilities have been established, or to the Commandant (G-MOC), U.S. Coast Guard, Washington, DC 20593–0001. Every application shall:

(1) Describe the laws and/or regulations by appropriate references and/or subjects with respect to which the waiver of compliance is desired;

(2) Contain a certification that the waiver of compliance with such laws and/or regulations with respect to the vessel involved is necessary in the interest of national defense and is necessary for the Military Sealift Command to carry out an assigned mission;

(3) The name and official number of the vessel involved (including the names of master, agent, and owner of the vessel involved); and

(4) For how long the waiver is needed.

(c) The Coast Guard officer making the waiver in paragraph (a) of this section effective for a particular vessel

shall immediately prepare, in quadruplicate, an order setting forth:

(1) The name and official number of the vessel involved;

(2) The laws and/or regulations with respect to which the waiver is effective;

(3) The extent to which compliance with such laws and/or regulations is waived; and

(4) The period for which the waiver shall be effective.

(d) If practicable, one copy of this waiver order shall be delivered to the master of the vessel involved before such vessel sails. In any case where the waiver order is not delivered to the master, it shall be delivered to the owner, operator, or agent of the vessel without delay. One copy of the waiver order shall be delivered to the Commander, Military Sealift Command, or his duly designated representative, who submitted the application. One copy of the waiver order shall be transmitted to the Commandant (G-MOC) and the remaining copy kept on file.

(e) In any case of extreme urgency, the application for a waiver order may be made orally and if the Coast Guard District Commander (or his designated representative, or the designated representative of the Commandant, or the Commandant, as the case may be), determines that the conditions in this section have been met, the waiver order shall be made effective without further delay, subject to the condition that the application be reduced to writing and delivered within such period after the date of the oral request as the Coast Guard officer making the waiver effective shall specify in the confirming written waiver order.

(f) No penalty shall be imposed because of failure to comply with any provision of law and/or regulation, the waiver of which has been made effective pursuant to the requirements of this section.

(g) This waiver order shall remain in effect until terminated by proper authority and notice of cancellation is published in the FEDERAL REGISTER.

§ 19.07 Chronological record of seaman's previous employment.

(a) Compliance is hereby waived with regard to the provisions of subsection (h) of R.S. 4551, as amended (46 U.S.C. 643), to the extent necessary to permit the Commandant of the United States Coast Guard to issue a chronological record of a seaman's previous employment on a single document, in lieu of making individual entry in a duplicate continuous discharge book or furnishing individual certificates of discharge.

(b) It is hereby found that the waiving of the provisions of R.S. 4551(h), as amended (46 U.S.C. 643), is necessary in the interest of national defense.

§ 19.15 Permits for commercial vessels handling explosives at military installations.

Pursuant to the request of the Secretary of Defense in a letter dated October 19, 1955, made under the provisions of section 1 of the act of December 27, 1950 (64 Stat. 1120; 46 U.S.C., note prec. 1), I hereby waive in the interest of national defense compliance with the provisions of R.S. 4472, as amended (46 U.S.C. 170), and the regulations promulgated thereunder in part 146 of this chapter to the extent that no quantitative restrictions, based on considerations of isolation and remoteness, shall be required by the Coast Guard for commercial vessels loading or unloading explosives at the Department of Defense waterfront installations. This waiver shall not relieve a commercial vessel loading or unloading explosives at the Department of Defense waterfront installations from the requirement of securing a permit from the Coast Guard for such operations with respect to quantitative or other restrictions imposed by the Coast Guard on the basis of each vessel's ability to meet prescribed stowage and handling requirements.

(a) Each filed document must clearly—

The signature constitutes a certification by the signer that she or he has read the document; that, to the best of her or his knowledge, information, and belief, the statements made in it are true; and that she or he does not intend it to cause delay.

§ 20.304 Service of documents.

(a) The ALJ shall serve upon each party to the proceeding a copy of each document issued by the ALJ in it. The ALJ shall serve upon each interested person, as determined under § 20.404, a copy of the notice of hearing. Unless this part provides otherwise, the ALJ shall upon request furnish to each such interested person a copy of each document filed with the Hearing Docket Clerk or issued by the ALJ.

(b) Unless the ALJ orders otherwise, each person filing a document with the Hearing Docket Clerk shall serve upon each party a copy of it.

(c) If a party filing a document must serve a copy of it upon each party, each copy must bear a certificate of service, signed by or on behalf of the filing party, stating that she or he has so served it. The certificate shall be in substantially the following form:

§ 20.307 Complaints.

(a) The complaint must set forth—

(1) The type of case;

(2) The statute or rule allegedly violated;

(3) The pertinent facts alleged; and

(4)(i) The amount of the class II civil penalty sought; or

(ii) The order of suspension or revocation proposed.

(b) The Coast Guard shall propose a place of hearing when filing the complaint.

(c) The complaint must conform to the requirements of this subpart for filing and service.

§ 20.308 Answers.

(a) The respondent shall file a written answer to the complaint 20 days or less after service of the complaint. The answer must conform to the requirements of this subpart for filing and service.

(b) The person filing the answer shall, in the answer, either agree to the place of hearing proposed in the complaint or propose an alternative.

(c) Each answer must state whether the respondent intends to contest any of the allegations set forth in the complaint. It must include any affirmative defenses that the respondent intends to assert at the hearing. The answer must admit or deny each numbered paragraph of the complaint. If it states that the respondent lacks sufficient knowledge or information to admit or deny a particular numbered paragraph, it denies that paragraph. If it does not specifically deny a particular numbered paragraph, it admits that paragraph.

(d) A respondent's failure without good cause to file an answer admits each allegation made in the complaint.

§ 20.309 Motions.

(a) A person may apply for an order or ruling not specifically provided for in this subpart, but shall apply for it by motion. Each written motion must comply with the requirements of this subpart for form, filing, and service. Each motion must state clearly and concisely—

(2) Any statutory or regulatory authority; and

(3) The facts constituting the grounds for the relief sought.

(c) Each motion must be in writing; except that one made at a hearing will be sufficient if stated orally upon the record, unless the ALJ directs that it be reduced to writing.

(d) Except as otherwise required by this part, a party shall file any response to a written motion 10 days or less after service of the motion. When a party makes a motion at a hearing, an oral response to the motion made at the hearing is timely.

(e) Unless the ALJ orders otherwise, the filing of a motion does not stay a proceeding.

(f) The ALJ will rule on the record either orally or in writing. She or he

may summarily deny any dilatory, repetitive, or frivolous motion.

§ 20.310 Default by respondent.

(a) The ALJ may find a respondent in default upon failure to file a timely answer to the complaint or, after motion, upon failure to appear at a conference or hearing without good cause shown.

(b) Each motion for default must conform to the rules of form, service, and filing of this subpart. Each motion must include a proposed decision and proof of service under section 20.304(d). The respondent alleged to be in default shall file a reply to the motion 20 days or less after service of the motion.

(c) Default by respondent constitutes, for purposes of the pending action only, an admission of all facts alleged in the complaint and a waiver of her or his right to a hearing on those facts.

(d) Upon finding a respondent in default, the ALJ shall issue a decision against her or him.

(e) For good cause shown, the ALJ may set aside a finding of default.

§ 20.311 Withdrawal or dismissal.

(a) An administrative proceeding may end in withdrawal without any act by an ALJ in any of the following ways:

(1) By the filing of a stipulation by all parties who have appeared in the proceeding.

(2) By the filing of a notice of withdrawal by the Coast Guard representative at any time before the respondent has served a responsive pleading.

(3) With respect to a complaint filed under section 311(b)(6) of the Federal Water Pollution Control Act (33 U.S.C. 1321(b)(6)) or section 109(d) of the Comprehensive Environmental Response, Compensation and Liability Act (42 U.S.C. 9609(b)), by the filing of—

(i) A notice of withdrawal by the Coast Guard representative at any time after the respondent has served a responsive pleading, but before the issuance of an order assessing or denying a class II civil penalty, together with

(ii) A certification by the representative that the filing of the notice is due to a request by the Attorney General—in accordance with subsection 10(d) of Executive Order 12777 (56 FR 54757; 3 CFR, 1991 Comp., p. 351)—that the Coast Guard refrain from conducting an administrative proceeding.

(b) Unless the stipulation or notice of withdrawal states otherwise, a withdrawal under paragraph (a) of this section is without prejudice.

(c) Except as provided in paragraph (a) of this section, no administrative proceeding may end in withdrawal unless approved by an ALJ upon such terms as she or he deems proper.

(d) Any respondent may move to dismiss a complaint, the government may move to dismiss a petition, or any party may lodge a request for relief, for failure of another party to—

(1) Comply with the requirements of this part or with any order of the ALJ;

(2) Show a right to relief based upon the facts or law; or

(3) Prosecute the proceeding.

(e) A dismissal resides within the discretion of the ALJ.

Subpart D—Proceedings

§ 20.401 Initiation of administrative proceedings.

An administrative proceeding commences when the Coast Guard representative files the complaint with the Hearing Docket Clerk and serves a copy of it on the respondent.

§ 20.402 Public notice.

Upon the filing of a complaint under 33 U.S.C. 1321(b) (6), the Coast Guard provides public notice of a class II civil penalty proceeding. The notice appears in the FEDERAL REGISTER.

§ 20.403 Consolidation and severance.

(a) A presiding ALJ may for good cause, with the approval of the Chief ALJ and with all parties given notice and opportunity to object, consolidate any matters at issue in two or more administrative proceedings docketed under this part. (Good cause includes the proceedings' possessing common parties, questions of fact, and issues of law and presenting the likelihood that consolidation would expedite the proceedings and serve the interests of justice.) The ALJ may not consolidate any matters if consolidation would prejudice any rights available under

this part or impair the right of any party to place any matters at issue.

(b) Unless directed otherwise by the Chief ALJ, a presiding ALJ may, either in response to a motion or on his or her own motion, for good cause, sever any administrative proceeding with respect to some or all parties, claims, and issues.

§ 20.404 Interested persons.

(a) Any person not a party to a class II civil penalty proceeding under 33 U.S.C. 1321(b)(6) who wishes to be an interested person in the proceeding shall, 30 days or less after publication in the FEDERAL REGISTER of the public notice required by § 20.402, file with the Hearing Docket Clerk either—

(1) Written comments on the proceeding; or

(2) Written notice of intent to present evidence at any hearing in the proceeding.

(b) The presiding ALJ may, for good cause, accept late comments or late notice of intent to present evidence.

(c) Each interested person shall receive notice of any hearing due in the proceeding and of the decision in the proceeding. He or she may have a reasonable opportunity to be heard and to present evidence in any hearing.

(d) The opportunity secured by paragraph (c) of this section does not extend to—

(1) The issuance of subpoenas for witnesses;

(2) The cross-examination of witnesses; or

(3) Appearance at any settlement conference.

Subpart E—Conferences and Settlements

§ 20.501 Conferences.

(a) Any party may by motion request a conference.

(b) The ALJ may direct the parties to attend one or more conferences before or during a hearing.

(c) The ALJ may invite interested persons to attend a conference, other than a settlement conference, as the ALJ deems appropriate.

(d) The ALJ shall give reasonable notice of the time and place of any conference to the parties, and to interested persons if invited. A conference may occur in person, by telephone, or by other appropriate means.

(e) Each party, and any interested person invited, shall be fully prepared for a useful discussion of all issues properly before the conference, both procedural and substantive, and be authorized to commit themselves or those they represent respecting those issues.

(f) Unless the ALJ excuses a party, the failure of a party to attend or participate in a conference, after being served with reasonable notice of its time and place, waives all objections to any agreements reached in it and to any consequent orders or rulings.

(g) The ALJ may direct that any of the following be addressed or furnished before, during, or after the conference:

(1) Methods of service and filing.

(2) Motions for consolidation or severance of parties or issues.

(3) Motions for discovery.

(4) Identification, simplification, and clarification of the issues.

(5) Requests for amendment of the pleadings.

(6) Stipulations and admissions of fact and of the content and authenticity of documents.

(7) The desirability of limiting and grouping witnesses, so as to avoid duplication.

(8) Requests for official notice and particular matters to be resolved by reliance upon the substantive standards, rules, and other policies of the Coast Guard.

(9) Offers of settlement.

(10) Proposed date, time, and place of the hearing.

(11) Other matters that may aid in the disposition of the proceeding.

(h) No one may stenographically report or otherwise record a conference unless the ALJ allows.

(i) During a conference, the ALJ may dispose of any procedural matters on which he or she is authorized to rule.

(j) Actions taken at a conference may be memorialized in—

(1) A stenographic report if authorized by the ALJ;

(2) A written transcript from a magnetic tape or the equivalent if authorized by the ALJ; or

(3) A statement by the ALJ on the record at the hearing summarizing them.

§ 20.502 Settlements.

(a) The parties may submit a proposed settlement to the ALJ.

(b) The proposed settlement must be in the form of a proposed decision, accompanied by a motion for its entry. The decision must recite the reasons that make it acceptable, and it must be signed by the parties or their representatives.

(c) The proposed decision must contain—

(1) An admission of all jurisdictional facts;

(2) An express waiver of—

(i) Any further procedural steps before the ALJ; and

(ii) All rights to seek judicial review, or otherwise challenge or contest the validity, of the decision;

(3) A statement that the decision will have the same force and effect as would a decision made after a hearing; and

(4) A statement that the decision resolves all matters needing to be adjudicated.

Subpart F—Discovery

§ 20.601 General.

(a) Unless the ALJ orders otherwise, each party—and each interested person who has filed written notice of intent to present evidence at any hearing in the proceeding under § 20.404—shall make available to the ALJ and to every other party and interested person—

(1) The name of each expert and other witness the party intends to call, together with a brief narrative summary of the expected testimony; and

(2) A copy, marked as an exhibit, of each document the party intends to introduce into evidence or use in the presentation of its case.

(b) During a pre-hearing conference ordered under § 20.501, the ALJ may direct that the parties exchange witness lists and exhibits either at once or by correspondence.

(c) The ALJ may establish a schedule for discovery and shall serve a copy of any such schedule on each party.

(1) The schedule may include dates by which the parties shall both exchange witness lists and exhibits and file any requests for discovery and objections to such requests.

(2) Unless the ALJ orders otherwise, the parties shall exchange witness lists and exhibits 15 days or more before hearing.

(d) Further discovery may occur only by order, and then only when the ALJ determines that—

(1) It will not unreasonably delay the proceeding;

(2) The information sought is not otherwise obtainable;

(3) The information sought has significant probative value;

(4) The information sought is neither cumulative nor repetitious; and

(5) The method or scope of the discovery is not unduly burdensome and is the least burdensome method available.

(e) A motion for discovery must set forth—

(1) The circumstances warranting the discovery;

(2) The nature of the information sought; and

(3) The proposed method and scope of discovery and the time and place where the discovery would occur.

(f) If the ALJ determines that he or she should grant the motion, he or she shall issue an order for the discovery, together with the terms on which it will occur.

§ 20.602 Amendatory or supplementary responses.

(a) Any party or interested person shall amend or supplement information previously provided upon learning that the information—

(1) Was incorrect or incomplete when provided; or,

(2) Though correct or complete when provided, no longer is.

(b) The party or interested person shall amend or supplement that information by following the procedures in § 20.305.

§ 20.603 Interrogatories.

(a) Any party requesting interrogatories shall so move to the ALJ. The motion must include—

(1) A statement of the purpose and scope of the interrogatories; and

(2) The proposed interrogatories.

(b) The ALJ shall review the proposed interrogatories, and may enter an order either—

(1) Approving the service of some or all of the proposed interrogatories; or

(2) Denying the motion.

(c) The party requesting interrogatories shall serve on the party named in the interrogatories the approved written interrogatories.

(d) Each interrogatory must be answered separately and fully in writing under oath or affirmation, unless it is objected to, in which event the party named shall state the reasons for the objection instead of a response. This party, the party's attorney, or the party's representative shall sign the party's responses to interrogatories.

(e) Responses or objections must be filed within 30 days after the service of the interrogatories.

(f) A response to an interrogatory is sufficient when—

(1) The responder lists the records from which such answers may be derived or ascertained; and

(2) The burden of ascertaining the information in a response to an interrogatory is substantially the same for all parties involved in the action; and

(3) The information may be obtained from an examination, audit, or inspection of records, or from a compilation, abstract, or summary based on such records.

(g) The party serving the interrogatory shall be afforded reasonable opportunity to examine, audit, or inspect the resource and to make copies, compilations, abstracts, or summaries. The specification must include sufficient detail to permit the interrogating party to locate and identify the individual records from which the answer may be ascertained.

§ 20.604 Requests for production of documents or things, for inspection or other purposes.

(a) Any party seeking production of documents or things for inspection or other purposes shall so move to the ALJ. The motion must state with particularity—

(1) The purpose and scope of the request; and

(2) The documents and materials sought.

(b) The ALJ shall review the motion and enter an order approving or denying it in whole or in part.

(c) A party shall serve on the party in possession, custody, or control of the documents the order to produce or to permit inspection and copying of documents.

(d) A party may, after approval of an appropriate motion by the ALJ, inspect and copy, test, or sample any tangible things that contain, or may lead to, relevant information, and that are in the possession, custody, or control of the party upon whom the request is served.

(e) A party may, after approval of an appropriate motion by the ALJ, serve on another party a request to permit entry upon designated property in the possession or control of the other party for the purpose of inspecting, measuring, surveying, photographing, testing, or sampling the property or any designated object or area. A request to permit entry upon property must set forth with reasonable particularity the feature to be inspected and must specify a reasonable time, place, and manner for making the inspection and performing the related acts.

(f) The party upon whom the request is served shall respond within 30 days after the service of the request. Inspection and related activities will be permitted as requested, unless there are objections, in which case the reason for each objection must be stated.

§ 20.605 Depositions.

(a) The ALJ may order a deposition only upon a showing of good cause and upon a finding that—

(1) The information sought is not obtainable more readily by alternative methods; or

(2) There is a substantial reason to believe that relevant and probative evidence may otherwise not be preserved for presentation at the hearing.

(b) Testimony may be taken by deposition upon approval of the ALJ of a motion made by any party.

(1) The motion must state—

(i) The purpose and scope of the deposition;

(ii) The time and place it is to be taken;

(iii) The name and address of the person before whom the deposition is to be taken;

(iv) The name and address of each witness from whom a deposition is to be taken;

(v) The documents and materials which the witness is to produce; and

(vi) Whether it is intended that the deposition be used at a hearing instead of live testimony.

(2) The motion must state if the deposition is to be by oral examination, by written interrogatories, or a combination of the two. The deposition may be taken before any disinterested person authorized to administer oaths in the place where the deposition is to be taken.

(c) Upon a showing of good cause the ALJ may enter, and serve upon the parties, an order to obtain the testimony of the witness.

(d) If the deposition of a public or private corporation, partnership, association, or governmental agency is ordered, the organization named must designate one or more officers, directors, or agents to testify on its behalf, and may set forth, for each person designated, the matters on which he or she will testify. Subject to the provisions of 49 CFR part 9 with respect to Coast Guard witnesses, the designated persons shall testify as to matters reasonably known to them.

(e) Each witness deposed shall be placed under oath or affirmation, and the other parties shall have the right to cross-examine.

(f) The witness being deposed may have counsel or another representative present during the deposition.

(g) Except as provided in paragraph (n) of this section, depositions shall be stenographically recorded and transcribed at the expense of the party requesting the deposition. Unless waived by the deponent, the transcription must be read by or read to the deponent, subscribed by the deponent, and certified by the person before whom the deposition was taken.

(h) Subject to objections to the questions and responses that were noted at the taking of the deposition and that would have been sustained if the witness had been personally present and testifying at a hearing, a deposition may be offered into evidence by the party taking it against any party who was present or represented at the taking of the deposition or who had notice of the deposition.

(i) The party requesting the deposition shall make appropriate arrangements for necessary facilities and personnel.

(j) During the taking of a deposition, a party or the witness may request suspension of the deposition on the grounds of bad faith in the conduct of the examination, oppression of the witness or party, or improper questioning or conduct. Upon request for suspension, the deposition will be adjourned. The objecting party or witness must immediately move the ALJ for a ruling on the objection(s). The ALJ may then limit the scope or manner of the taking of the deposition.

(k) When a deposition is taken in a foreign country, it may be taken before a person having power to administer oaths in that location, or before a secretary of an embassy or legation, consul general, consul, vice consul or consular agent of the United States, or before such other person or officer as may be agreed upon by the parties by written stipulation filed with the ALJ.

(l) Objection to taking a deposition because of the disqualification of the officer before whom it is to be taken is waived unless made before the taking of the deposition begins, or as soon as the disqualification becomes known or could have been discovered with reasonable diligence.

(m) A deposition may be taken by telephone conference call upon such terms, conditions, and arrangements as are prescribed in the order of the ALJ.

(n) The testimony at a deposition hearing may be recorded on videotape, upon such terms, conditions and arrangements as are prescribed in the order of the ALJ, at the expense of the party requesting the recording. The video recording may be in conjunction with an oral examination by telephone conference held pursuant to paragraph (m) of this section. After the deposition has been taken, and copies of the video

recording are provided to parties requesting them, the person recording the deposition shall immediately place the videotape in a sealed envelope or a sealed videotape container, attaching to it a statement identifying the proceeding and the deponent and certifying as to the authenticity of the video recording, and return the videotape by accountable means to the ALJ. The deposition becomes a part of the record of the proceedings in the same manner as a transcribed deposition. The videotape, if admitted into evidence, will be played during the hearing and transcribed into the record by the reporter.

§ 20.606 Protective orders.

(a) In considering a motion for an order of discovery—or a motion, by a party or other person from whom discovery is sought, to reconsider or amend an order of discovery—the ALJ may enter any order that justice requires, to protect a person from annoyance, embarrassment, oppression, or undue burden or expense. This order may—

(1) Confine discovery to specific terms and conditions, such as a particular time and place;

(2) Confine discovery to a method other than that selected by the party seeking it;

(3) Preclude inquiry into certain matters;

(4) Direct that discovery occur with no one present except persons designated by the ALJ;

(5) Preclude the disclosure of a trade secret or other proprietary information, or allow its disclosure only in a designated way or only to designated persons; or

(6) Require that the person from whom discovery is sought file specific documents or information under seal for opening at the direction of the ALJ.

(b) When a person from whom discovery is sought seeks a protective order, the ALJ may let him or her make all or part of the showing of good cause *in camera.* The ALJ shall record any proceedings *in camera.* If he or she enters a protective order, he or she shall seal any proceedings so recorded. These shall be releasable only as required by law.

(c) Upon motion by a person from whom discovery is sought, the ALJ may—

(1) Restrict or defer disclosure by a party either of the name of a witness or, if the witness comes from the Coast Guard, of any prior statement of the witness; and

(2) Prescribe other appropriate measures to protect a witness.

(d) The ALJ will give any party an adequate opportunity to prepare for cross-examination or other presentation concerning witnesses and statement subject to protective orders.

§ 20.607 Sanctions for failure to comply.

If a party fails to provide or permit discovery, the ALJ may take such action as is just. This may include the following:

(a) Infer that the testimony, document, or other evidence would have been adverse to the party.

(b) Order that, for the purposes of the proceeding, designated facts are established.

(c) Order that the party not introduce into evidence—or otherwise rely upon, in support of any claim or defense—the evidence that was withheld.

(d) Order that the party not introduce into evidence, or otherwise use in the hearing, information obtained in discovery.

(e) Allow the use of secondary evidence to show what the evidence withheld would have shown.

§ 20.608 Subpoenas.

(a) Any party may request the ALJ to issue a subpoena for the attendance of a person, the giving of testimony, or the production of books, papers, documents, or any other relevant evidence during discovery or for any hearing. Any party seeking a subpoena from the ALJ shall request its issuance by motion.

(b) An ALJ may, for good cause shown, apply to the United States District Court for the issuance of an order compelling the appearance and testimony of a witness or the production of evidence.

(c) A person serving a subpoena shall prepare a written statement setting forth either the date, time, and manner

of service or the reason for failure of service. He or she shall swear to or affirm the statement, attach it to a copy of the subpoena, and return it to the ALJ who issued the subpoena.

(d) Coast Guard investigating officers have separate subpoena power in S&R proceedings under 46 CFR 5.301.

§ 20.609 Motions to quash or modify.

(a) A person to whom a subpoena is directed may, by motion with notice to the party requesting the subpoena, ask the ALJ to quash or modify the subpoena.

(b) Except when made at a hearing, the motion must be filed:

(1) 10 days or less after service of a subpoena compelling the appearance and testimony of a witness or the production of evidence or

(2) At or before the time specified in the subpoena for compliance, whichever is earlier.

(c) If the subpoena is served at a hearing, the person to whom it is directed may, in person at the hearing or in writing within a reasonable time fixed by the ALJ, ask the ALJ to quash or modify it.

(d) The ALJ may quash or modify the subpoena if it is unreasonable or requires evidence not relevant to any matter in issue.

Subpart G—Hearings

§ 20.701 Standard of proof.

The party that bears the burden of proof shall prove his or her case or affirmative defense by a preponderance of the evidence.

§ 20.702 Burden of proof.

(a) Except for an affirmative defense, or as provided by paragraph (b) of this section, the Coast Guard bears the burden of proof.

(b) Except as otherwise provided by statute or rule, the proponent of a motion, request, or order bears the burden of proof.

§ 20.703 Presumptions.

In each administrative hearing, a presumption—

(a) Imposes on the party against whom it lies the burden of going forward with evidence to rebut or meet the presumption; but

(b) Does not shift the burden of proof in the sense of the risk of non-persuasion.

§ 20.704 Scheduling and notice of hearings.

(a) With due regard for the convenience of the parties, and of their representatives or witnesses, the ALJ shall, as early as possible, fix the date, time, and place for the hearing and notify all parties and interested persons.

(b) The ALJ may grant a request for a change in the date, time, or place of a hearing.

(c) At any time after commencement of a proceeding, any party may move to expedite the proceeding. A party moving to expedite shall—

(1) Explain in the motion the circumstances justifying the motion to expedite; and

(2) Incorporate in the motion affidavits supporting any representations of fact.

(d) After timely receipt of the motion and any responses, the ALJ may expedite pleadings, pre-hearing conferences, and the hearing, as appropriate.

§ 20.705 Failure to appear.

The ALJ may enter a default under § 20.310 against a respondent threatening to fail, or having failed, to appear at a hearing unless,—

(a) Before the time for the hearing, the respondent shows good cause why neither the respondent nor his or her representative can appear; or,

(b) 30 days or less after an order to show good cause, the respondent shows good cause for his or her failure to appear.

§ 20.706 Witnesses.

(a) Each witness shall testify under oath or affirmation.

(b) If a witness fails or refuses to answer any question the ALJ finds proper, the failure or refusal constitutes grounds for the ALJ to strike all or part of the testimony given by the witness or to take any other measure he or she deems appropriate.

§ 20.707 Telephonic testimony.

(a) The ALJ may order the taking of the testimony of a witness by telephonic conference call. A person presenting evidence may by motion ask for the taking of testimony by this means. The arrangement of the call must let each participant listen to and speak to each other within the hearing of the ALJ, who will ensure the full identification of each so the reporter can create a proper record.

(b) The ALJ may issue a subpoena directing a witness to testify by telephonic conference call. The subpoena in any such instance issues under the procedures in § 20.608.

§ 20.708 Witnesses' fees.

(a) Each witness summoned in an administrative proceeding shall receive the same fees and mileage as a witness in a District Court of the United States.

(b) The party or interested person who calls a witness is responsible for all fees and mileage due under paragraph (a) of this section.

§ 20.709 Closing of the record.

(a) When the ALJ closes the hearing, he or she shall also close the record of the proceeding, as described in § 20.903, unless he or she directs otherwise. Even after the ALJ closes it, he or she may reopen it.

(b) The ALJ may correct the transcript of the hearing by appropriate order.

§ 20.710 Proposed findings, closing arguments, and briefs.

(a) Before the ALJ closes the hearing, he or she may hear oral argument so far as he or she deems appropriate.

(b) Before the ALJ decides the case, and upon terms he or she finds reasonable, any party may file a brief, proposed findings of fact and conclusions of law, or both. Any party may waive this right. If all parties waive it, then the ALJ may issue an oral order at the close of the hearing.

(c) Any oral argument, brief, or proposed findings of fact and conclusions of law form part of the record of the proceeding, as described in § 20.903.

Subpart H—Evidence

§ 20.801 General.

Any party may present his or her case or defense by oral, documentary, or demonstrative evidence; submit rebuttal evidence; and conduct any cross-examination that may be necessary for a full and true disclosure of the facts.

§ 20.802 Admissibility of evidence.

(a) The ALJ may admit any relevant oral, documentary, or demonstrative evidence, unless privileged. Relevant evidence is evidence tending to make the existence of any material fact more probable or less probable than it would be without the evidence.

(b) The ALJ may exclude evidence if its probative value is substantially outweighed by the danger of prejudice, by confusion of the issues, or by reasonable concern for undue delay, waste of time, or needless presentation of cumulative evidence.

§ 20.803 Hearsay evidence.

Hearsay evidence is admissible in proceedings governed by this part. The ALJ may consider the fact that evidence is hearsay when determining its probative value.

§ 20.804 Objections and offers of proof.

(a) Any party objecting to the admission or exclusion of evidence shall concisely state the grounds. A ruling on every objection must appear in the record. No party may raise an objection to the admission or exclusion of evidence on appeal unless he or she raised it before the ALJ.

(b) Whenever evidence is objected to, the party offering it may make an offer of proof, which must appear in the record.

§ 20.805 Proprietary information.

(a) The ALJ may limit introduction of evidence or issue such protective or other orders as in his or her judgment are consistent with the object of preventing undue disclosure of proprietary matters, including, among others, ones of a commercial nature.

(b) When the ALJ determines that information in a document containing proprietary matters should be made

available to another party, the ALJ may direct the party possessing the document to prepare a non-proprietary summary or extract of it. The summary or extract may be admitted as evidence in the record.

(c) If the ALJ determines that a non-proprietary summary or extract is inadequate and that proprietary matters must form part of the record to avert prejudice to a party, the ALJ may so advise the parties and arrange access to the evidence for a party or representative.

§ 20.806 Official notice.

The ALJ may take official notice of such matters as could courts, or of other facts within the specialized knowledge of the Coast Guard as an expert body. When all or part of a decision rests on the official notice of a material fact not appearing in the evidence in the record, the decision must state as much; and any party, upon timely request, shall receive an opportunity to rebut the fact.

§ 20.807 Exhibits and documents.

(a) Each exhibit must be numbered and marked for identification by the party offering it. The original of each exhibit so marked, whether or not offered or admitted into evidence, must be filed and retained in the record of the proceeding, unless the ALJ permits the substitution of a copy. The party introducing each exhibit so marked shall supply a copy of the exhibit to the ALJ and to every party to the proceeding.

(b) Unless the ALJ directs otherwise, each party who would offer an exhibit upon direct examination shall make it available to every other party for inspection 15 days or more before the hearing. The ALJ will deem admitted the authenticity of each exhibit submitted before the hearing unless a party either files written objection and serves it on all parties or shows good cause for failure to do both.

(c) In class II civil penalty proceedings under 33 U.S.C. 1321(b)(6), each exhibit introduced by an interested person must be marked, and filed and retained in the record of the proceeding, unless the ALJ permits the substitution of a copy. The interested person shall supply a copy of the exhibit to the ALJ and to every party to the proceeding. The requirements of paragraph (b) of this section apply to any interested person who would offer an exhibit upon direct examination.

§ 20.808 Written testimony.

The ALJ may enter into the record the written testimony of a witness. The witness shall be, or have been, available for oral cross-examination. The statement must be sworn to, or affirmed, under penalty of perjury.

§ 20.809 Stipulations.

Any party or interested person may stipulate, in writing, at any stage of the proceeding, or orally at the hearing, to any pertinent fact or other matter fairly susceptible of stipulation. A stipulation binds all parties to it.

Subpart I—Decisions

§ 20.901 Summary decisions.

(a) Any party may move for a summary decision in all or any part of the proceeding on the grounds that there is no genuine issue of material fact and that the party is entitled to a decision as a matter of law. The party must file the motion no later than 15 days before the date fixed for the hearing and may include supporting affidavits with the motion. Any other party, 10 days or less after service of a motion for summary decision, may serve opposing affidavits or countermove for summary decision. The ALJ may set the matter for argument and call for the submission of briefs.

(b) The ALJ may grant the motion if the filed affidavits, the filed documents, the material obtained by discovery or otherwise, or matters officially noted show that there is no genuine issue of material fact and that a party is entitled to a summary decision as a matter of law.

(c) Each affidavit must set forth such matters as would be admissible in evidence and must show affirmatively that the affiant is competent to testify to the matters stated in the affidavit. Once a party has moved for summary decision and supported his or her motion as provided in this section, no party opposing the motion may rest

upon the mere allegations or denials of facts contained in his or her own pleadings. The response to the motion, by affidavit or as otherwise provided in this section, must provide a specific basis to show that there is a genuine issue of material fact for the hearing.

(d) If it appears from the affidavit of a party opposing the motion that this party cannot, for reasons stated, present by affidavit matters essential to justify his or her opposition, the ALJ may deny the motion for summary decision, may order a continuance to enable the obtaining of information, or may make such other order as is just.

(e) No denial of all or any part of a motion for summary decision is subject to interlocutory appeal.

§ 20.902 Decisions of the ALJ.

(a) After closing the record of the proceeding, the ALJ shall prepare a decision containing—

(1) A finding on each material issue of fact and conclusion of law, and the basis for each finding;

(2) The disposition of the case, including any appropriate order;

(3) The date upon which the decision will become effective;

(4) A statement of further right to appeal; and,

(5) If no hearing was held, a statement of the right of any interested person to petition the Commandant to set aside the decision.

(b) The decision of the ALJ must rest upon a consideration of the whole record of the proceedings.

(c) The ALJ may, upon motion of any party or in his or her own discretion, render the initial decision from the bench (orally) at the close of the hearing and prepare and serve a written order on the parties or their authorized representatives. In rendering his or her decision from the bench, the ALJ shall state the issues in the case and make clear, on the record, his or her findings of fact and conclusions of law.

(d) If the ALJ renders the initial decision orally, and if a party asks for a copy, the Hearing Docket Clerk shall furnish a copy excerpted from the transcript of the record. The date of the decision is the date of the oral rendering of the decision by the ALJ.

§ 20.903 Records of proceedings.

(a) The transcript of testimony at the hearing, all exhibits received into evidence, any items marked as exhibits and not received into evidence, all motions, all applications, all requests, and all rulings constitute the official record of a proceeding. This record also includes any motions or other matters regarding the disqualification of the ALJ.

(b) Any person may examine the record of a proceeding at the U. S. Coast Guard Administrative Law Judge Docketing Center; Room 412; 40 S. Gay Street; Baltimore, MD 21201–4022. Any person may obtain a copy of part or all of the record after payment of reasonable costs for duplicating it in accordance with 49 CFR part 7.

§ 20.904 Reopening.

(a) To the extent permitted by law, the ALJ may, for good cause shown in accordance with paragraph (c) of this section, reopen the record of a proceeding to take added evidence.

(b) Any party may move to reopen the record of a proceeding 30 days or less after the closing of the record.

(1) Each motion to reopen the record must clearly set forth the facts that the movant would try to prove and the grounds for reopening the record.

(2) Any party who does not respond to any motion to reopen the record waives any objection to the motion.

(c) The ALJ may reopen the record of a proceeding if he or she believes that any change in fact or law, or that the public interest, warrants reopening it.

(d) The filing of a motion to reopen the record of a proceeding does not affect any period for appeals specified in subpart J of this part, except that the filing of such a motion tolls the running of whatever time remains in the period for appeals until either the ALJ acts on the motion or the party filing it withdraws it.

(e)(1) At any time, a party may file a petition to reopen with the Docketing Center for the ALJ to rescind any order suspending or revoking a merchant mariner's license, certificate of registry, or document if—

(i) The order rests on a conviction—

(A) For violation of a dangerous-drug law;

(B) Of an offense that would prevent the issuance or renewal of the license, certificate, or document; or

(C) Of an offense described in subparagraph 205(a)(3)(A) or (B) of the National Driver Register Act of 1982 (23 U.S.C. 401, note); and

(ii) The respondent submits a specific order of court to the effect that the conviction has been unconditionally set aside for all purposes.

(2) The ALJ, however, may not rescind his or her order on account of any law that provides for a subsequent conditional setting-aside, modification, or expunging of the order of court, by way of granting clemency or other relief after the conviction has become final, without regard to whether punishment was imposed.

(f) Three years or less after an S&R proceeding has resulted in revocation of a license, certificate, or document, the respondent may file a motion for reopening of the proceeding to modify the order of revocation with the ALJ Docketing Center.

(1) Any motion to reopen the record must clearly state why the basis for the order of revocation is no longer valid and how the issuance of a new license, certificate, or document is compatible with the requirement of good discipline and safety at sea.

(2) Any party who does not respond to any petition to reopen the record waives any objection to the motion.

Subpart J—Appeals

§ 20.1001 General.

(a) Any party may appeal the ALJ' s decision by filing a notice of appeal. The party shall file the notice with the U. S. Coast Guard Administrative Law Judge Docketing Center; Attention: Hearing Docket Clerk; Room 412; 40 S. Gay Street; Baltimore, MD 21201–4022. The party shall file the notice 30 days or less after issuance of the decision, and shall serve a copy of it on the other party and each interested person.

(c) No interested person may appeal a summary decision except on the issue that no hearing was held or that in the issuance of the decision the ALJ did not consider evidence that that person would have presented.

(b) If the respondent requests a copy of the transcript of the hearing as part of the record of proceeding, then,—

(i) Basis for the appeal;

(ii) Reasons supporting the appeal; and

(iii) Relief requested in the appeal.

(2) When the appellant relies on material contained in the record, the appellate brief must specifically refer to the pertinent parts of the record.

(3) The appellate brief must reach the Docketing Center 60 days or less after service of the ALJ's decision. Unless filed within this time, or within another time period authorized in writing by the Docketing Center, the brief will be untimely.

(b) Any party may file a reply brief with the Docketing Center 35 days or less after service of the appellate brief. Each such party shall serve a copy on every other party. If the party filing the reply brief relies on evidence contained in the record for the appeal, that brief must specifically refer to the pertinent parts of the record.

(c) No party may file more than one appellate brief or reply brief, unless—

(2) The Commandant has granted leave to file an added brief, in which event the Commandant will allow a reasonable time for the party to file that brief.

(d) The Commandant may accept an *amicus curiae* brief from any person in an appeal of an ALJ's decision.

§ 20.1004 Decisions on appeal.

(a) The Commandant shall review the record on appeal to determine whether the ALJ committed error in the proceedings, and whether the Commandant should affirm, modify, or reverse the ALJ's decision or should remand the case for further proceedings.

(b) The Commandant shall issue a decision on every appeal in writing and shall serve a copy of the decision on each party and interested person.

Subpart K—Finality, Petitions for Hearing, and Availability of Orders

§ 20.1101 Finality.

(b) If the Commandant decides that evidence presented by an interested person in support of a petition under paragraph (a) of this section is material and that the ALJ did not consider the evidence in the issuance of the decision, the Commandant shall set aside the decision and direct that a hearing take place in accordance with the requirements of this part.

(c) If the Commandant denies a hearing sought under this section, he or she shall provide to the interested person, and publish in the FEDERAL REGISTER, notice of and the reasons for the denial.

(2) The respondent shall therefore enter his or her answer at the pre-hearing conference.

§ 20.1203 Commencement of expedited hearings.

Upon receipt of a complaint with a copy of the notice of temporary suspension and the affidavit supporting the complaint, the Chief ALJ will immediately assign an ALJ and designate the case for expedited hearing.

The motion must be in writing and explain why the agency lacked probable cause.

(e) *Procedures not to cause delay.* Neither any filing of pleadings or motions, nor any conduct of discovery, may interfere with—

(1) The holding of the hearing 30 days or less after the temporary suspension or

(2) The closing of the record early enough for the issuance of an initial decision 45 days or less after the temporary suspension.

(f) *Times.* The ALJ may shorten the time for any act required or permitted under this subpart to enable him or her to issue an initial decision 45 days or less after the temporary suspension.

This subpart contains evidentiary rules that apply only in certain circumstances in S&R proceedings. They supplement, not supplant, the evidentiary rules in subpart H.

§ 20.1303 Authentication and certification of extracts from shipping articles, logbooks, and the like.

(a) The investigating officer, the Coast Guard representative, any other commissioned officer of the Coast Guard, or any official custodian of extracts from shipping articles, logbooks, or records in the custody of the Coast Guard may authenticate and certify the extracts.

(b) Authentication and certification must include a statement that the person acting has seen the original, compared the copy with it, and found the copy to be a true one. This person shall sign his or her name and identify himself or herself by rank or title and by duty station.

§ 20.1305 Admissibility and weight of entries from logbooks.

(a) Any entry in any official logbook of a vessel concerning an offense enumerated in 46 U.S.C. 11501, made in substantial compliance with the procedural requirements of 46 U.S.C. 11502, is admissible in evidence and constitutes *prima facie* evidence of the facts recited.

(b) Any entry in any such logbook made in substantial compliance with the procedural requirements of 46 U.S.C. 11502 may receive added weight from the ALJ.

§ 20.1307 Use of judgments of conviction.

(a) A judgment of conviction by a Federal court is conclusive in any S&R proceeding under this part concerning any act or offense described in 46 U.S.C. 7703 or 7704 when the act or offense is the same as in the Federal conviction.

(b) Except as provided in paragraph (c) of this section, no judgment of conviction by a State court is conclusive

in any S&R proceeding under this part concerning any act or offense described in 46 U.S.C. 7703 or 7704, even when an act or offense forming the basis of the charge in the proceeding is the same as in the State conviction. But the judgment is admissible in evidence and constitutes substantial evidence adverse to the respondent.

(c) A judgment of conviction by a Federal or State court for a violation is conclusive in the proceeding if an S&R proceeding alleges conviction for—

(1) A violation of a dangerous-drug law;

(2) An offense that would prevent the issuance or renewal of a merchant mariner's license, certificate of registry, or document; or

(3) An offense described in subparagraph 205(a)(3)(A) or (B) of the National Driver Register Act of 1982 (23 U.S.C.S. 401, note).

(d) If the respondent participates in the scheme of a State for the expungement of convictions, and if he or she pleads *guilty* or *no contest* or, by order of the trial court, has to attend classes, contribute time or money, receive treatment, submit to any manner of probation or supervision, or forgo appeal of the finding of the trial court, the Coast Guard regards him or her, for the purposes of 46 U.S.C. 7703 or 7704, as having received a conviction. The Coast Guard does not consider the conviction expunged without proof that the expungement is due to the conviction's having been in error.

(e) No respondent may challenge the jurisdiction of a Federal or State court in any proceeding under 46 U.S.C. 7703 or 7704.

§ 20.1309 Admissibility of respondents' criminal records and records with the Coast Guard before entry of findings and conclusions.

(a) The prior disciplinary record of the respondent is admissible when offered by him or her.

(b) The prior disciplinary record of the respondent is admissible when offered by the Coast Guard representative to impeach the credibility of evidence offered by the respondent.

(c) The use of a judgment of conviction is permissible on the terms prescribed by § 20.1307.

§ 20.1311 Admissions by respondent.

No person may testify regarding admissions made by the respondent during an investigation under 46 CFR part 4, except to impeach the credibility of evidence offered by the respondent.

§ 20.1313 Medical examination of respondents.

In any proceeding in which the physical or mental condition of the respondent is relevant, the ALJ may order him or her to undergo a medical examination. Any examination ordered by the ALJ is conducted, at Federal expense, by a physician designated by the ALJ. If the respondent fails or refuses to undergo any such examination, the failure or refusal receives due weight and may be sufficient for the ALJ to infer that the results would have been adverse to the respondent.

§ 20.1315 Submission of prior records and evidence in aggravation or mitigation.

(a) The prior disciplinary record of the respondent comprises the following items less than 10 years old:

(1) Any written warning issued by the Coast Guard and not contested by the respondent.

§ 25.107 Who may present claims.

(a) General rules:

(1) A claim for property loss or damage may be presented by anyone having an interest in the property, including an insurer or other subrogee, unless the interest is barred under § 25.109(a).

(2) A claim for personal injury may be presented by the person injured.

(3) A claim based on death may be presented by the executor or administrator of the decedent's estate, or any other person legally entitled to assert such a claim under local law. The claimant's status must be stated in the claim.

(4) A claim for medical, hospital, or burial expenses may be presented by any person who by reason of family relationship has, in fact, incurred the expenses.

(b) A joint claim must be presented in the names of and signed by, the joint claimants, and the settlement must be made payable to the joint claimants.

(c) A claim may be presented by a duly authorized agent, legal representative or survivor, if it is presented in the name of the claimant. If the claim is not signed by the claimant, the agent, legal representative, or survivor shall indicate their title or legal capacity and provide evidence of their authority to present the claim.

(d) Where the same claimant has a claim for damage to or loss of property and a claim for personal injury or a claim based on death arising out of the same incident, they must be combined in one claim.

§ 25.109 Insurance and other subrogated claims.

(a) The claims of an insured (subrogor) and an insurer (subrogee) for damages arising out of the same incident constitute a single claim. The total award of combined claims may not exceed the monetary jurisdiction of the settlement authority. If the total award of the combined claims exceeds, or is expected to exceed, a settlement authority's limits, the settlement authority is not permitted to consider either, and the claim file will be forwarded to an appropriate settlement authority.

(b) An insured (subrogor) and an insurer (subrogee) may file a claim jointly or separately. If the insurer has fully reimbursed the insured, payment will only be made to the insurer. If separate claims are filed, the settlement will be made payable to each claimant to the extent of that claimant's undisputed interest. If joint claims are filed, the settlement will be sent to the insurer.

(c) Each claimant shall include with a claim, a written disclosure concerning insurance coverage including:

(1) The names and addresses of all insurers;

(2) The kind and amount of insurance;

(3) The policy number;

(4) Whether a claim has been or will be presented to an insurer, and, if so, the amount of that claim; and whether the insurer has paid the claim in whole or in part, or has indicated payment will be made.

(d) Each subrogee shall substantiate an interest or right to file a claim by appropriate documentary evidence and shall support the claim as to liability and measure of damages in the same manner as required of any other claimant. Documentary evidence of payment to a subrogor does not constitute evidence of liability of the United States or conclusive evidence of the amount of damages. The settlement authority makes an independent determination on the issues of fact and law based upon the evidence of record.

(e) An insurance or other subrogated claim is not payable under Subpart E, F, or G of this part.

§ 25.111 Action by claimant.

(a) *Form of claim.* The claim must meet the requirements of § 25.113. Authorized forms are available from the offices indicated in § 25.103.

(b) *Presentation.* Whenever possible the claim must be presented to the geographically appropriate Coast Guard Maintenance and Logistics Command. The Coast Guard Maintenance and Logistics Command Atlantic (lc) is located at 300 East Main Street, Suite 965, Norfolk, VA 23510–9113; Coast Guard Maintenance and Logistics Command Pacific (lc) is located at Coast Guard Island, Alameda, California, 94501. If that is not possible, the claim may also be presented to:

(1) The commanding officer of the Coast Guard unit involved;

(2) A Coast Guard unit convenient to the claimant; or

(3) Chief, Office of Claims and Litigation, Chief Counsel, United States Coast Guard, 2100 Second Street, SW., Washington, DC, 20593.

(c) *Time.* The time limits for presenting claims are contained in the following subparts addressing particular claim statutes.

[CGD 80–033, 46 FR 27109, May 18, 1981, as amended by CGD 87–008b, 52 FR 25217, July 6, 1987; CGD 97–023, 62 FR 33362, June 19, 1997; USCG–2001–9286, 66 FR 33639, June 25, 2001]

§ 25.115 Evidence supporting a claim.

The claimant shall present independent evidence to support a claim. This evidence may include, if available, statements of witnesses, accident or casualty reports, photographs and drawings.

§ 25.117 Proof of amount claimed for personal injury or death.

The following evidence must be presented when appropriate:

(5) Duration and extent of pain and suffering and of any disability or physical disfigurement,

(6) A current prognosis,

(7) Any anticipated medical expenses, and

(8) Any past medical history of the claimant relevant to the particular injury alleged.

NOTE: An examination by an independent medical facility or physician may be required to provide independent medical evidence against which to evaluate the written report of the claimant's physician. The settlement authority determines the need for this examination, makes mutually convenient arrangements for such an examination, and bears the costs thereof.

(c) All hospital records or other medical documents from either this injury or any relevant past injury.

(d) If the claimant is employed, a written statement by the claimant's employer certifying the claimant's:

(1) Age,

(2) Occupation,

(3) Hours of employment,

(4) Hourly rate of pay or weekly salary,

(e) If the claimant is self-employed, written statements, or other evidence showing:

(1) The amount of earnings actually lost, and

(2) The Federal tax return if filed for the three previous years.

(f) If the claim arises out of injuries to a person providing services to the claimant, statement of the cost necessarily incurred to replace the services to which claimant is entitled under law.

§ 25.119 Proof of amount claimed for loss of, or damage to, property.

The following evidence must be presented when appropriate:

(a) For each particular lost item, evidence of its value such as a bill of sale and a written appraisal, or two written appraisals, from separate disinterested dealers or brokers, market quotations, commercial catalogs, or other evidence of the price at which like property can be obtained in the community. The settlement authority may waive these requirements when circumstances warrant. The cost of any appraisal may be included as an element of damage if not deductible from any bill submitted to claimant.

(b) For each particular damaged item which can be economically repaired, evidence of cost of repairs such as a receipted bill and one estimate, or two estimates, from separate disinterested repairmen. The settlement authority may waive these requirements when circumstances warrant. The cost of any estimate may be included as an element of damage if not deductible from any repair bill submitted to claimant.

(c) For any claim which may result in payment in excess of $20,000.00, a survey or appraisal shall be performed as soon as practicable after the damage accrues, and, unless waived in writing, shall be performed jointly with a government representative.

(d) If the item is so severely damaged that it cannot be economically repaired or used, it shall be treated as a lost item.

(e) If a claim includes loss of earnings or use during repairs to the damaged property, the following must also be furnished and supported by competent evidence:

(1) The date the property was damaged;

(2) The name and location of the repair facility;

(3) The beginning and ending dates of repairs and an explanation of any delay between the date of damage and the beginning date;

(4) A complete description of all repairs performed, segregating any work performed for the owner's account and not attributable to the incident involved, and the costs thereof;

(5) The date and place the property was returned to service after completion of repairs, and an explanation, if applicable, of any delay;

(6) Whether or not a substitute for the damaged property was available. If a substitute was used by the claimant during the time of repair, an explanation of the necessity of using the substitute, how it was used, and for how long, and the costs involved. Any costs incurred that would have been similarly incurred by the claimant in using the damaged property must be identified;

(7) Whether or not during the course of undergoing repairs the property would have been used, and an explanation submitted showing the identity of the person who offered that use, the terms of the offer, time of prospective service, and rate of compensation; and

(8) If at the time of damage the property was under charter or hire, or was otherwise employed, or would have been employed, the claimant shall submit a statement of operating expenses that were, or would have been, incurred. This statement shall include wages and all bonuses which would have been paid, the value of fuel and the value of consumable stores, separately stated, which would have been consumed, and all other costs of operation which would have been incurred including, but not limited to, license and parking fees, personnel expenses,

harbor fees, wharfage, dockage, shedding, stevedoring, towage, pilotage, inspection, tolls, lockage, anchorage and moorage, grain elevation, storage, and customs fees.

(f) For each item which is lost, actual or constructive, proof of ownership.

§ 25.121 Effect of other payments to claimant.

The total amount to which the claimant may be entitled is normally computed as follows:

(a) The total amount of the loss, damage, or personal injury suffered for which the United States is liable, less any payment the claimant has received from the following sources:

(1) The military member or civilian employee who caused the incident;

(2) The military member's or civilian employee's insurer; and

(3) Any joint tort-feasor or insurer.

(b) No deduction is generally made for any payment the claimant has received by way of voluntary contributions, such as donations of charitable organizations.

§ 25.123 Settlement and notice to claimant.

(a) If the settlement authority determines that the full amount claimed should be paid, the settlement authority forwards the claim to the disbursing officer for payment. If the time involved in settling the claim has been extensive, the settlement authority notifies the claimant.

(b) If the settlement authority determines that less than the full amount claimed should be paid, the settlement authority:

(1) Notifies the claimant in writing of the proposed settlement.

(2) Obtains from the claimant written acceptance and release for payment of the claim in the reduced amount.

(3) Advises the claimant, in the event claimant does not desire to accept the offer, to reply within 45 days giving reasons for rejection.

(4) Except upon a showing of good cause for delay in accepting a proposed settlement within 45 days, treats the non-acceptance as a rejection. Rejection by a claimant of an offer of settlement renders the offer void.

(5) If a claimant rejects a proposed settlement or fails to reply within 45 days, the settlement authority may make further efforts to settle the claim. When the settlement authority determines that further efforts to settle the claim are not warranted, the settlement authority notifies the claimant in writing by registered or certified mail, return receipt requested, that the claim has been denied because the amount claimed is excessive.

(c) If the claim is denied, the settlement authority notifies the claimant in writing by registered or certified mail, return receipt requested.

§ 25.125 Appeal.

The final denial of a claim by a settlement authority or a partial approval by a settlement authority is not subject to appeal except under the procedures prescribed for Military Claims in Subpart D of this part.

§ 25.127 Reconsideration.

(a) The settlement authority may reconsider a claim upon the authority's own initiative or upon request of the claimant or someone acting on the claimant's behalf.

(b) A request for reconsideration must be in writing and include the legal or factual grounds for the relief requested.

(c) Following any investigation or other action deemed necessary for reconsideration of the original action, the settlement authority reconsiders the claim and if warranted attempts to settle it. When further settlement efforts appear unwarranted, the settlement authority notifies the claimant in writing by certified or registered mail, return receipt requested, that the relief requested is denied.

(d) For the effect of reconsideration under the Federal Tort Claims Act see 28 CFR Part 14.

§ 25.129 Acceptance of offer of settlement.

Claimant's acceptance of an offer of settlement is a complete release of any claim against the United States and against the military or civilian personnel of the Coast Guard whose act or omission gave rise to the claim.

§ 25.131 Delegation of authority.

(a) The Chief Counsel is delegated the following authority:

(1) To carry out the functions of the Secretary and to exercise the Commandant's authority as commanding officer for all Coast Guard personnel in regard to claims brought under Article 139, Uniform Code of Military Justice (10 U.S.C. 939);

(c) A list of countries assigned to a single-service is available from the military attache at any United States embassy or consulate.

SOURCE: CGD 71–114R, 37 FR 12720, June 28, 1972, unless otherwise noted.

§ 26.01 Purpose.

(a) The purpose of this part is to implement the provisions of the Vessel Bridge-to-Bridge Radiotelephone Act. This part:

(1) Requires the use of the vessel bridge-to-bridge radiotelephone;

(2) Provides the Coast Guard's interpretation of the meaning of important terms in the Act;

(3) Prescribes the procedures for applying for an exemption from the Act and the regulations issued under the Act and a listing of exemptions.

(b) Nothing in this part relieves any person from the obligation of complying with the rules of the road and the applicable pilot rules.

§ 26.02 Definitions.

For the purpose of this part and interpreting the Act:

Act means the ''Vessel Bridge-to-Bridge Radiotelephone Act'', 33 U.S.C. sections 1201–1208;

Length is measured from end to end over the deck excluding sheer;

Power-driven vessel means any vessel propelled by machinery; and

Secretary means the Secretary of the Department in which the Coast Guard is operating;

Territorial sea means all waters as defined in § 2.22(a)(1) of this chapter.

Towing vessel means any commercial vessel engaged in towing another vessel astern, alongside, or by pushing ahead.

Vessel Traffic Services (VTS) means a service implemented under Part 161 of this chapter by the United States Coast Guard designed to improve the safety and efficiency of vessel traffic and to protect the environment. The VTS has the capability to interact with marine traffic and respond to traffic situations developing in the VTS area.

Vessel Traffic Service Area or *VTS Area* means the geographical area encompassing a specific VTS area of service as described in Part 161 of this chapter. This area of service may be subdivided into sectors for the purpose of allocating responsibility to individual Vessel Traffic Centers or to identify different operating requirements.

NOTE: Although regulatory jurisdiction is limited to the navigable waters of the United States, certain vessels will be encouraged or may be required, as a condition of port entry, to report beyond this area to facilitate traffic management within the VTS area.

§ 26.03 Radiotelephone required.

(a) Unless an exemption is granted under § 26.09 and except as provided in paragraph (a)(4) of this section, this part applies to:

(1) Every power-driven vessel of 20 meters or over in length while navigating;

(2) Every vessel of 100 gross tons and upward carrying one or more passengers for hire while navigating;

(3) Every towing vessel of 26 feet or over in length while navigating; and

(4) Every dredge and floating plant engaged in or near a channel or fairway in operations likely to restrict or affect navigation of other vessels except for an unmanned or intermittently manned floating plant under the control of a dredge.

(b) Every vessel, dredge, or floating plant described in paragraph (a) of this section must have a radiotelephone on board capable of operation from its navigational bridge, or in the case of a dredge, from its main control station, and capable of transmitting and receiving on the frequency or frequencies within the 156–162 Mega-Hertz band using the classes of emissions designated by the Federal Communications Commission for the exchange of navigational information.

(c) The radiotelephone required by paragraph (b) of this section must be carried on board the described vessels, dredges, and floating plants upon the navigable waters of the United States.

(d) The radiotelephone required by paragraph (b) of this section must be capable of transmitting and receiving on VHF FM channel 22A (157.1 MHz).

(e) While transiting any of the following waters, each vessel described in paragraph (a) of this section also must have on board a radiotelephone capable of transmitting and receiving on VHF FM channel 67 (156.375 MHz):

(1) The lower Mississippi River from the territorial sea boundary, and within either the Southwest Pass safety fairway or the South Pass safety fairway specified in 33 CFR 166.200, to mile 242.4 AHP (Above Head of Passes) near Baton Rouge;

(2) The Mississippi River-Gulf Outlet from the territorial sea boundary, and within the Mississippi River-Gulf outlet Safety Fairway specified in 33 CFR 166.200, to that channel's junction with the Inner Harbor Navigation Canal; and

(3) The full length of the Inner Harbor Navigation Canal from its junction with the Mississippi River to that canal's entry to Lake Pontchartrain at the New Seabrook vehicular bridge.

(f) In addition to the radiotelephone required by paragraph (b) of this section, each vessel described in paragraph (a) of this section while transiting any waters within a Vessel Traffic Service Area, must have on board a radiotelephone capable of transmitting and receiving on the VTS designated frequency in Table 161.12(c) (VTS and VMRS Centers, Call Signs/MMSI, Designated Frequencies, and Monitoring Areas).

NOTE: A single VHF-FM radio capable of scanning or sequential monitoring (often referred to as ''dual watch'' capability) will not meet the requirements for two radios.

(a) No person may use the frequency designated by the Federal Communications Commission under section 8 of the Act, 33 U.S.C. 1207(a), to transmit any information other than information necessary for the safe navigation of vessels or necessary tests.

(b) Each person who is required to maintain a listening watch under section 5 of the Act shall, when necessary, transmit and confirm, on the designated frequency, the intentions of his vessel and any other information necessary for the safe navigation of vessels.

(c) Nothing in these regulations may be construed as prohibiting the use of the designated frequency to communicate with shore stations to obtain or furnish information necessary for the safe navigation of vessels.

(d) On the navigable waters of the United States, channel 13 (156.65 MHz) is the designated frequency required to be monitored in accordance with § 26.05(a) except that in the area prescribed in § 26.03(e), channel 67 (156.375 MHz) is the designated frequency.

(e) On those navigable waters of the United States within a VTS area, the designated VTS frequency is an additional designated frequency required to be monitored in accordance with § 26.05.

§ 26.05 Use of radiotelephone.

Section 5 of the Act states that the radiotelephone required by this Act is for the exclusive use of the master or person in charge of the vessel, or the person designated by the master or person in charge to pilot or direct the movement of the vessel, who shall maintain a listening watch on the designated frequency. Nothing herein shall be interpreted as precluding the use of portable radiotelephone equipment to satisfy the requirements of this act.

§ 26.06 Maintenance of radiotelephone; failure of radiotelephone.

Section 6 of the Act states:

(a) Whenever radiotelephone capability is required by this Act, a vessel's radiotelephone equipment shall be maintained in effective operating condition. If the radiotelephone equipment carried aboard a vessel ceases to operate, the master shall exercise due diligence to restore it or cause it to be restored to effective operating condition at the earliest practicable time. The failure of a vessel's radiotelephone equipment shall not, in itself, constitute a violation of this

Act, nor shall it obligate the master of any vessel to moor or anchor his vessel; however, the loss of radiotelephone capability shall be given consideration in the navigation of the vessel.

§ 26.07 Communications.

No person may use the services of, and no person may serve as, a person required to maintain a listening watch under section 5 of the Act, 33 U.S.C. 1204, unless the person can communicate in the English language.

§ 26.08 Exemption procedures.

(a) The Commandant has redelegated to the Assistant Commandant for Marine Safety, Security and Environmental Protection, U.S. Coast Guard Headquarters, with the reservation that this authority shall not be further redelegated, the authority to grant exemptions from provisions of the Vessel Bridge-to-Bridge Radiotelephone Act and this part.

(b) Any person may petition for an exemption from any provision of the Act or this part;

(c) Each petition must be submitted in writing to U.S. Coast Guard, Marine Safety, Security and Environmental Protection, 2100 Second Street SW., Washington, DC 20593–0001, and must state:

(1) The provisions of the Act or this part from which an exemption is requested; and

(2) The reasons why marine navigation will not be adversely affected if the exemption is granted and if the exemption relates to a local communication system how that system would fully comply with the intent of the concept of the Act but would not conform in detail if the exemption is granted.

§ 27.3 Penalty Table.

Table 1 lists sections of the United States Code that authorize civil monetary penalties for laws administered by the Coast Guard. These penalties are assessable in either civil judicial or administrative proceedings. Table 1 is periodically amended to reflect relevant changes in the United States Code and to show adjustments in penalty amounts that are mandated by the

Federal Civil Penalties Inflation Adjustment Act of 1990, as amended, but Table 1 will not reflect statutory changes that may take effect subsequent to the most recent amendment of Table 1. In any case of conflict between Table 1 and the current provisions of the United States Code or another Federal statute, the current Code or statutory provision is controlling.

Subpart 49.01—General Provisions

§ 49.01–1 Applicability.

The Commandant of the Coast Guard is hereby designated and is authorized to appoint, in his discretion, the person or persons who may receive active-duty pay and allowances, amounts due for accumulated or accrued leave, or any retired or retainer pay, otherwise payable to personnel on the active or retired list of the Coast Guard and Coast Guard Reserve, entitled to Federal pay either on the active or any retired list of said service, who, in the opinion of competent medical authority, have been determined to be mentally incapable of managing their own affairs, and for whom no legal committee, guardian, or other representative has been appointed by a court of competent jurisdiction.

§ 49.01–5 Requests for appointment of trustee.

Requests for the appointment of a person or persons to receive moneys due personnel believed to be mentally incapable of managing their own affairs shall be submitted to the Commandant of the Coast Guard:

(a) By any person or persons who believe, because of relationship, they should be appointed to receive payments on behalf of the alleged incompetent;

(b) By the Commanding Officer of the alleged incompetent if the latter is on active duty;

(c) By the Commanding Officer of any Armed Forces hospital in which the mentally incompetent is undergoing treatment;

(d) By the head of any veterans' hospital, or other public or private institution in which the alleged incompetent is undergoing treatment;

(e) By any other person or organization acting for and in the best interests of the alleged mentally incompetent.

§ 49.01–10 Determination of incompetency.

After examining the legitimacy, substance, and sufficiency of the application, the Commandant shall either (a) direct the Commanding Officer of the alleged mentally incompetent, (b) the Commanding Officer of the Coast Guard unit to which such incompetent may be conveniently referred, or (c) request the Surgeon General of the Public Health Service to convene or appoint, at the Public Health Hospital or facility, where the alleged incompetent is receiving treatment or to which his case may be conveniently referred, a board of not less than three qualified medical officers, one of whom shall be specially qualified in the treatment of mental disorders, to determine whether the alleged incompetent is capable of managing his own affairs. The record of proceedings, and the findings of the board shall, after action by the Convening or Appointive Authority thereon, be forwarded to the Commandant.

Subpart 49.05—Trustee

§ 49.05–1 Appointment of trustee.

Upon receipt of a finding by a board convened or appointed in accordance with §49.01–10, that the alleged incompetent is mentally incapable of managing his own affairs, the Commandant may appoint a suitable person or persons, not under legal disability so to

act, as trustee or trustees to receive in behalf of the incompetent all amounts due the incompetent from such sources set forth in §49.01–1, and to use said funds in the best interests of the incompetent.

§49.05–5 Bonding of trustee.

The trustee or trustees appointed to receive moneys in behalf of incompetent personnel shall furnish a bond in all cases when the amounts to be received may be expected to exceed $1,000, and in such other cases when deemed appropriate by the Commandant. The bond so required and furnished shall have as surety a company approved by the Federal Government, and shall be in such amount as is required by the Commandant. Such bonds shall be continued in effect for the life of trusteeship and expenses in connection with the furnishing and renewal of such bonds may be paid out of sums due the incompetent.

§49.05–10 Affidavits required.

The trustee or trustees appointed to receive moneys due incompetent personnel shall, prior to the payment of any such moneys, execute and file with the Commandant an affidavit or affidavits saying and deposing that any moneys henceforth received by virtue of such appointment shall be applied solely to the use and benefit of the incompetent and that no fee, commission, or charge shall be demanded, or in any manner accepted, for any service or services rendered in connection with such appointment as trustee or trustees.

Subpart 49.10—Reports and Moneys

§49.10–1 Reports required.

The trustee or trustees so appointed shall submit reports annually, or at such other times as the Commandant may designate. The report shall show a statement of the conditions of the trust account at the time of the submission of the report, including all funds received on behalf of the incompetent; all expenditures made in behalf of the incompetent, accompanied by receipts or vouchers covering such expenditures; and a receipt indicating that the surety bond required by §49.05–5 has been renewed. When the trustee is the spouse or adult dependent of the incompetent, receipts or vouchers need not be filed for expenditures made for living expenses. If the trustee or trustees fail to report promptly and properly at the end of any annual period or at such other times as the Commandant desires, the Commandant may, in his discretion, cause payment to such trustee or trustees to cease, and may, if deemed advisable, appoint another person or persons not under legal disability so to act, to receive future payments of moneys due the incompetent for the use and benefit of the incompetent.

§49.10–5 Payment of moneys due.

Upon the appointment of a trustee or trustees to receive moneys due an incompetent, the authorized certifying officer having custody of that person's pay record shall be advised. After such notification, payments of moneys due the incompetent may be made by the appropriate officer in accordance with procedure prescribed by the Commandant. All such payments so made, however, shall be made to the designated trustee or trustees.

§49.10–10 Cessation of payments.

(a) Payments of amounts due incompetent personnel shall cease to be paid to the trustee or trustees upon receipt of notification by the authorized certifying officer of the occurrence of any of the following:

(1) Death of the incompetent;

(2) Death or disability of the trustee or trustees appointed;

(3) Receipt of notice that a committee, guardian, or other legal representative has been appointed for the incompetent by a court of competent jurisdiction;

(4) Failure of the trustee or trustees to render the reports required by §49.10–1;

(5) That there is probable cause to believe that moneys received on behalf of the incompetent have been, or are being, improperly used;

(6) A finding by a board of medical officers that the heretofore incompetent is mentally capable of managing his own affairs;

(7) That the Commandant deems it to be in the best interest of the incompetent.

(b) In the event of termination of payments under paragraphs (a)(2), (4), (5), or (7) of this section, the Commandant may, if deemed appropriate, appoint a successor trustee or trustees. The successor trustee or trustees, so appointed, shall comply with the provisions of the regulations and instructions in this part issued thereunder, and do all acts in the manner required of the original trustee or trustees.

§ 49.10–15 Final accounting by trustee.

The trustee or trustees, when payments, hereunder are terminated, shall file a final account with the said Commandant. Thereupon, the trustee or trustees will be discharged and the surety released. In event of death or disability of the trustee, the final accounting will be filed by his legal representative.

Subpart 49.15—Additional Instructions

§ 49.15–1 Implementing instructions.

The Commandant is hereby authorized to issue such instructions not in conflict with the regulations in this part as may be necessary from time to time to give full force and effect thereto.

AUTHORITY: 10 U.S.C. 1553; Pub. L. 107–296, 116 Stat. 2135.

SOURCE: CGD 81–104, 50 FR 41495, Oct. 11, 1985, unless otherwise noted.

§ 51.1 Basis and purpose.

This part establishes the procedures for review of administrative discharges from the Coast Guard by a Discharge Review Board (DRB) or by the Secretary of the Department, and for the compilation of the record of the DRB determination, made available for public inspection, copying and distribution through the Armed Forces Discharge Review/Correction Board Reading Room.

§ 51.2 Authority.

(a) The Secretary of Homeland Security has the authority to establish a Discharge Review Board (DRB) to review the discharge of a former member of the United States Coast Guard under the provisions of 10 U.S.C. 1553. This part prescribes the establishment and outlines the procedures of the Coast Guard Discharge Review Board. The Secretary retains the authority to review and take final action on the DRB's findings in the following cases:

(1) Those cases in which a minority of the board requests that their written opinion be forwarded to the Secretary for consideration;

(2) Those cases selected by the Commandant to inform the Secretary of aspects of the board's functions which may be of interest to the Secretary;

(3) Any case in which the Secretary demonstrates an interest;

(4) Any case which the President of the board believes is of significant interest to the Secretary.

(b) The Commandant of the Coast Guard is delegated the authority to:

(1) Appoint members to serve on the Discharge Review Board;

(2) Appoint alternates to serve on the DRB in the event that a regularly appointed member is unavailable;

(3) Designate a member as the President of the DRB; and

(4) Review and take final action on all DRB decisions which are not reviewed by the Secretary.

[CGD 81–104, 50 FR 41495, Oct. 11, 1985, as amended by CGD 97–023, 62 FR 33362, June 19, 1997; USCG–2003–14505, 68 FR 9535, Feb. 28, 2003]

§51.3 Applicability and scope.

The provisions of this part apply to the United States Coast Guard including reserve-components and all former members who have been discharged within 15 years of the date upon which application for review is received by the DRB. A former member may apply to the DRB for a change in the character of, and/or the reason for, the discharge. The Coast Guard DRB review is generally applicable only to administrative discharges, however, the DRB may review the discharge of a former member by sentence of a court-martial for the purpose of clemency. A petition for clemency will not be considered by the DRB unless the applicant has exhausted all appellate remedies. Upon a petition for clemency, the DRB shall consider only the equity of the discharge awarded.

§51.4 Definitions.

Applicant. A former member of the Coast Guard who has been discharged from the service but excluding those discharged by sentence of a court-martial, except as provided in §51.3. If the former member is deceased or incompetent, the term ''applicant'' includes the surviving spouse, next-of-kin, or legal representative who is acting on behalf of the former member.

Counsel. An individual or agency designated by the applicant who agrees to represent the applicant in a case before the DRB. It includes, but is not limited to: A lawyer who is a member of the bar of a federal court or of the highest court of a state; an accredited representative designated by an organization recognized by the Administrator of Veterans Affairs; a representative from a state agency concerned with veterans affairs; or a representative from private organizations or local government agencies.

Discharge. Any formal separation of a member from the Coast Guard which is not termed ''honorable'', including dismissals and ''dropping from the rolls''. This term also includes the assignment of a separation program designator, separation authority, the stated reason for the discharge, and the characterization of service.

Discharge Review. The process by which the reason for separation, the procedures followed in accomplishing separation, and the characterization of service are evaluated. This includes determinations made under the provisions of 38 U.S.C. 3103(e)(2).

Discharge Review Board. A board consisting of five members of the U.S. Coast Guard, appointed by the Commandant of the Coast Guard and vested with the authority to review the discharge of a former member. The board is empowered to change a discharge or issue a new discharge to reflect its findings, subject to review by the Commandant or the Secretary.

Hearing. A proceeding which, upon request of the applicant, is utilized in the discharge review process enabling the applicant and/or the applicant's representative to appear before the DRB and present evidence.

President. An officer of the United States Coast Guard appointed by the Commandant as President to preside over the DRB. The President will convene the board and may also serve as a member. If the President does not serve as a member of the DRB, the President shall designate a presiding officer for the board to serve as President.

[CGD 81–104, 50 FR 41495, Oct. 11, 1985, as amended by CGD 96–026, 61 FR 33663, June 28, 1996]

§51.5 Objective of review.

The objective of the discharge review is to examine the propriety and equity of the applicant's discharge and to effect changes if necessary. The DRB will utilize its discretion to reach a fair and just resolution of the applicant's claim. The standards of review and the underlying factors which aid in determining whether the standards are met shall be historically consistent with criteria for determining honorable service. No factors shall be established which require automatic change, or denial of change, in a discharge.

§ 51.6 Propriety standard of review.

A discharge is deemed to be proper except that:

(a) A discharge may be improper if an error of fact, law, procedure, or discretion was associated with the discharge at the time of issuance which prejudiced the rights of the applicant.

(b) A discharge may be improper if there has been a change in policy by the Coast Guard made expressly retroactive to the type of discharge under consideration.

§ 51.7 Equity standard of review.

(a) A discharge is presumed to be equitable and will not be changed under this section unless the applicant submits evidence sufficient to establish, to the satisfaction of the DRB that:

(1) The policies and procedures under which the applicant was discharged differ in material respects from policies and procedures currently applicable on a service-wide basis to discharges of that type, provided that current policies or procedures represent a substantial enhancement of the rights afforded a party in such proceedings, and there is substantial doubt that the applicant would have received the same discharge if relevant current policies and procedures had been available to the applicant at the time of the discharge proceedings under consideration; or

(2) At the time of issuance, the discharge was inconsistent with standards of discipline in the Coast Guard; or

(3) The applicant's military record and other evidence presented to the DRB, viewed in conjunction with the factors listed in §51.8 and the regulations under which the applicant was discharged, do not fairly justify the type of discharge received.

(b) If the applicant was discharged with a characterized discharge before June 15, 1983, a change from the characterized discharge to an uncharacterized discharge will not be considered under the provisions of (a)(1) of this section unless specifically requested by the applicant. A determination that a discharge is inequitable according to the provisions of (a)(2) or (a)(3) of this section shall entitle the applicant to a discharge of a type to which the applicant was entitled at the time the original discharge was issued.

§ 51.8 Relevant considerations.

In determining the equity and propriety of a former member's discharge, the DRB shall consider all relevant evidence presented by the applicant. The DRB review will include, but is not limited to, consideration of the following factors:

(a) The quality of the applicant's service. In determining the quality of the applicant's service, the DRB may consider the applicant's dates and periods of service; rate or rank achieved; marks and evaluations received; awards, decorations and letters of commendation; acts of merit; combat service and wounds received; promotions and demotions; prior military service and type of discharge; records of unauthorized absence; records of non-judicial punishment; convictions by court-martial; records of conviction by civil authorities while a member of the Coast Guard; and any other relevant information respecting the applicant which is brought to the board's attention.

(b) The applicant's capability to serve. In determining the applicant's capability to serve, the DRB considers such factors as the applicant's age and education; qualification for reenlistment; capability to adjust to military service; and family or personal problems.

(c) Any evidence of arbitrary, capricious or discriminatory actions by individuals in authority over the applicant.

(d) Any other information respecting the applicant considered by the DRB to be relevant and material to the review of the applicant's discharge.

§ 51.9 Discharge review procedures.

(a) *Preliminary*. Prior to a review, applicants or their representatives may obtain copies of military records by submitting a Standard Form 180, Request Pertaining to Military Records, to the National Personnel Records Center (NPRC), 9799 Page Boulevard, St. Louis, MO. 72132. The request to the NPRC should be submitted prior to submitting the application for review, so that relevant information from the

record can be included with the application.

(b) *Initiation of review.* Review may be initiated by an applicant or by the DRB. The applicant may apply for DRB review of discharge by submitting DD Form 293, Application for Review of Discharge or Separation from the Armed Forces of the United States, along with any other statements, affidavits or documentation desired by the applicant. The application must be received by the DRB within fifteen (15) years of the date of the discharge. The application form can be obtained, along with explanatory matter, from Commandant, (G-WPM), U.S. Coast Guard Headquarters, 2100 2nd Street SW., Washington, DC 20593, any regional VA office, or by writing to the Armed Forces Review/Correction Board Reading Room, Pentagon Concourse, Washington, DC 20310.

(c) *Notice.* (1) The DRB will provide notification advising the former member of—

(i) Receipt of the applicant's request;

(ii) The right to appear before the board in person or by counsel; and

(iii) The date of review.

If the former member is deceased, written notice of DRB review will be sent to the surviving spouse, next of kin or legal representative of the former member. If the review is initiated by the DRB, notification will be sent to the last known address of the former member.

(2) Prior to the initiation of the decision process, the DRB will notify the former member of the date by which requests to examine the documents to be considered by the board must be received. This notice will also state the date by which a request for a hearing must be made and the deadline for filing responses to the board.

(3) An applicant who requests a hearing will be notified of the time and place of the hearing. All expenses incurred by the applicant in DRB proceedings and hearings are the sole responsibility of the applicant and are not obligations of the U.S. Coast Guard or the Department of Transportation. If the applicant fails to appear, except as provided in §51.9(f), the DRB will review the discharge and reach a decision based upon the evidence of record.

(d) *Withdrawal of application.* An applicant may withdraw an application without prejudice at any time before the scheduled review. An application which is withdrawn will not stay the running of the 15 year statutory limitation imposed on the authority of the DRB to review the discharge.

(e) The DRB will consider the records and other data submitted by the applicant. The DRB may consider other probative evidence provided that all materials relied on by the DRB, except classified documents, are made available to the applicant and applicant's representative prior to the hearing date (or review date if no hearing is requested). The DRB shall not consider a classified document in the review of a discharge unless a summary of, or extract from, the document (deleting all reference to sources of information and other matters, the disclosure of which would, in the opinion of the classifying authority, be detrimental to the security interests of the United States) is made available to the applicant.

(f) *Postponement of review or hearing.* At any time before the date of scheduled review or hearing, an applicant may be granted a continuance, provided the applicant or the applicant's counsel makes a written request for additional time to the DRB which shows good cause to justify the postponement.

(g) *Hearing procedures.* The following procedures apply to DRB hearings:

(1) DRB hearings are not public. Presence at hearings is limited to persons authorized by the Commandant or expressly requested by the applicant, subject to reasonable limitations based upon available space.

(2) The Federal Rules of Evidence are not applicable to DRB proceedings. The presiding officer rules on matters of procedure and ensures that reasonable bounds of relevancy and materiality are adhered to in the taking of evidence.

(3) An applicant is permitted to make a sworn or unsworn statement. Witness testimony will only be taken under oath or affirmation. An applicant or witness who makes a statement may be questioned by the DRB.

(4) An applicant may make oral or written argument personally or through his or her representative.

(h) *Reconsideration.* The decision of the DRB may not be reconsidered unless—

(1) The only previous consideration of the case was on the motion of the DRB;

(2) Changes in discharge policy occur; or

(3) New, substantial, relevant evidence, not available to the applicant at the time of the original review, is submitted to the DRB.

[CGD 81–104, 50 FR 41495, Oct. 11, 1985, as amended by CGD 96–026, 61 FR 33663, June 28, 1996]

§ 51.10 Decisions.

(a) The DRB will make written findings and conclusions with respect to all disputed facts and issues. The decision of the DRB is governed by the vote of a majority of the board.

(b) A decision document is prepared for each review conducted by the DRB. This document contains—

(1) The date, character of, and reason for the discharge including the specific authority under which the discharge was issued;

(2) The specific change(s) requested by the applicant;

(3) A list of the issues raised by the applicant;

(4) The circumstances and character of the applicant's service, as extracted from the service record, health record and other evidence presented to the DRB;

(5) References to documentary evidence, testimony or other material relied on by the DRB in support of its decision;

(6) A statement of the DRB's findings with respect to each issue raised by the applicant;

(7) A summary of the rationale and a statement of the DRB's conclusions as to whether any change, correction or modification should be made in the type or character of the discharge or the reason and authority for the discharge; and

(8) A statement of the particular changes, correction, or modification made by the DRB.

§ 51.11 Records.

(a) The record of the discharge review will include—

(1) The application for review;

(2) A summarized record of the testimony and a summary of evidence considered by the DRB other than information contained in the service records;

(3) Briefs or written arguments submitted by or on behalf of the applicant;

(4) The decision of the DRB;

(5) Advisory opinions relief upon for the final action; and

(6) The final action on the DRB decision by the Commandant or Secretary.

(b) The record of the discharge review is incorporated into the service record of the applicant.

(c) A copy of the decision of the DRB and the final action thereon is made available for public inspection and copying promptly after a notice of the final decision is sent to the applicant. However, to the extent required for the protection of privacy rights, identifying details of the applicant and other persons are deleted from the public record.

(1) DRB documents made available for public inspection and copying are located in the Armed Forces Discharge Review/Correction Board Reading Room. The documents are indexed so as to enable the public to determine why relief was granted or denied. The index includes the case number, the date, character of, reason for, and authority for the discharge and is maintained at Coast Guard Headquarters and the Armed Forces Reading Room. The Armed Forces Discharge Review/Correction Board Reading Room publishes indexes quarterly for all boards.

(2) Correspondence relating to matters under the cognizance of the Reading Room (including requests for purchase of indexes) should be addressed to: Armed Forces Discharge Review/Correction Board Reading Room, The Pentagon Concourse, Washington, DC 20310.

Subpart B—Establishment, Function, and Jurisdiction of Board

§ 52.11 Establishment and composition.

(a) Pursuant to 10 U.S.C. 1552, the Board for Correction of Military Records of the Coast Guard is established in the Office of the Secretary of Homeland Security.

(b) The Secretary appoints a panel of civilian officers or employees of the Department of Homeland Security to serve as members of the Board, and designates one such member to serve as Chair of the Board. The Chair designates members from this panel to serve as the Board for each case requiring consideration by a Board. The Board consists of three members, and two members present constitute a quorum of the Board.

(c) The Deputy Chair of the Board exercises the functions prescribed by these regulations and such other duties as may be assigned by the Chair.

[OST Doc. No. 2002–13439, 68 FR 9886, Mar. 3, 2003, as amended by USCG–2003–15404, 68 FR 37740, June 25, 2003]

§ 52.12 Function.

The function of the Board is to consider all applications properly before it, together with all pertinent military records and any submission received from the Coast Guard or other Government office under subpart E, to determine:

(a) Whether an error has been made in the applicant's Coast Guard military record, whether the applicant has suffered an error or injustice as the result of an omission or commission in his or her record, or whether the applicant has suffered some manifest injustice in the treatment accorded him or her; and

(b) Whether the Board finds it necessary to change a military record to correct an error or remove an injustice.

§ 52.13 Jurisdiction.

(a) The Board has jurisdiction to review and determine all matters properly brought before it, consistent with existing law and such directives as may be issued by the Secretary.

(b) No application shall be considered by the Board until the applicant has exhausted all effective administrative remedies afforded under existing law or regulations, and such legal remedies as the Board may determine are practical, appropriate, and available to the applicant.

Subpart C—General Provisions Regarding Applications

§ 52.21 General requirements.

(a) An application for correction of a Coast Guard record shall be submitted on DD Form 149 (Application for Correction of Military or Naval Record) or an exact copy thereof, and shall be addressed to: Chair, Board for Correction of Military Records of the Coast Guard (C–60), United States Department of Transportation, Washington, DC 20590. Forms and explanatory material may be obtained from the Chair of the Board.

(b) The application shall be signed by the person alleging error or injustice in his or her military record, except that an application may be signed by a family member or legal representative with respect to the record of a deceased, incapacitated, or missing person. The family member or legal representative must submit proof of his or her proper interest with the application.

(c) No application shall be docketed or processed until it is complete. An application for relief is complete when all of the following have been received by the Board:

(1) A signed DD Form 149, providing all necessary responses, including a specific allegation of error or injustice, accompanied by substantial evidence or information in support of such allegation;

(2) The military records of the applicant; and

(3) Any applicable military and Department of Veterans Affairs medical records.

(d) It is the applicant's responsibility to include his or her correct mailing address on the DD Form 149 and to inform the Chair in writing of any subsequent change of address until the Board or the Secretary takes final action on the application.

(e) Briefs in support of applications must be assembled in a manner that

permits easy reproduction and may not exceed twenty-five double-spaced typewritten pages in a type size with no more than twelve characters per inch. This limitation does not apply to supporting documentary evidence. In complex cases, the Chair may waive this limitation.

§ 52.22 Time limit for filing application.

An application for correction of a record must be filed within three years after the applicant discovered or reasonably should have discovered the alleged error or injustice. If an application is untimely, the applicant shall set forth reasons in the application why it is in the interest of justice for the Board to consider the application. An untimely application shall be denied unless the Board finds that sufficient evidence has been presented to warrant a finding that it would be in the interest of justice to excuse the failure to file timely.

§ 52.23 Counsel.

(a) Applicants may be represented by counsel at their own expense. Applicants whose cases are processed under the Whistleblower Protection Act and who are granted a hearing by the Board may be entitled to representation by a Coast Guard law specialist. 10 U.S.C. 1034(f)(3)(A).

(b) As used in this part, the term ''counsel'' includes attorneys who are members in good standing of any bar; accredited representatives of veterans' organizations recognized by the Secretary of Veterans Affairs pursuant to 38 U.S.C. 5902; and other persons who, in the opinion of the Chair, are competent to represent the applicant for correction. Whenever the term ''applicant'' is used in these rules, except in §52.21(c), the term shall mean an applicant or his or her counsel.

§ 52.24 Evidence and burden of proof.

(a) It is the responsibility of the applicant to procure and submit with his or her application such evidence, including official records, as the applicant desires to present in support of his or her case. All such evidence should be submitted with the applicant's DD Form 149 in accordance with §52.21(c)(1). Evidence submitted by an applicant after an application has been filed and docketed shall be considered late and its acceptance is subject to the provisions in §52.26(a)(4) and (c).

(b) The Board begins its consideration of each case presuming administrative regularity on the part of Coast Guard and other Government officials. The applicant has the burden of proving the existence of an error or injustice by the preponderance of the evidence.

§ 52.25 Access to official records.

The applicant shall have such access to official records or to any information pertaining to the applicant which is in the custody of the Coast Guard as is provided in 49 CFR parts 7 and 10.

§ 52.26 Right to timely decision; effect of requests for extensions, changes in requests for relief, and late submissions of evidence.

(a) Each applicant has a right to have final action taken on his or her application within 10 months after all the elements of a complete application, as defined in §52.21(c), have been received by the Board, unless the applicant:

(1) Submits a written request, which is granted by the Chair, for an extension of a specific duration to seek counsel or additional evidence;

(2) Submits a written request, which is granted by the Chair, for an extension of the time provided for responding to the views of the Coast Guard in accordance with §52.42(d);

(3) Submits a signed statement that is determined by the Chair to significantly amend the applicant's request for relief after the application has been docketed;

(4) Submits significant new evidence, as determined by the Chair, after the application has been docketed; or

(5) Is found by the Chair to have unreasonably delayed responding to a request for further information or evidence.

(b) If the applicant requests an extension in accordance with paragraphs (a)(1) or (a)(2) of this section or unreasonably delays responding to a request for further information or evidence in accordance with paragraph (a)(5) of this section, he or she shall have a

right to have final action taken on the application for correction within 10 months of the application's completion plus all periods of extension granted to the applicant by the Chair and all periods of unreasonable delay.

(c) If the applicant significantly amends his or her request for relief or submits significant new evidence after the application has been docketed, in accordance with paragraphs (a)(3) or (a)(4) of this section, the application shall be considered newly complete as of the date the amended request for relief or new evidence is received, in which case the applicant shall have a right to have final action taken on the application within 10 months of the date the Board receives the amended request for relief or significant new evidence.

§ 52.27 Withdrawal of application.

The Chair may, at his or her discretion, permit the applicant to withdraw his or her application at any time before final action is taken under § 52.64. Any further consideration by the Board of the issues raised in the withdrawn application shall occur only upon the filing of a new application.

§ 52.28 Stay of proceedings.

An application to the Board for correction of a military record does not operate as a stay of any proceeding or administrative action taken with respect to or affecting the applicant.

Subpart D—Consideration of Application and Administrative Closure

§ 52.31 Consideration of application.

Each application shall be reviewed by the Chair to determine whether it meets the requirements of § 52.21 before it is docketed. The Chair shall decide in appropriate cases whether to grant a hearing or to recommend disposition on the merits without a hearing.

§ 52.32 Administrative closure.

(a) The Chair may administratively close a case after it has been docketed and at any time prior to its consideration by the Board if the Chair determines that:

(1) The application was erroneously docketed because the application did not meet the criteria under § 52.21;

(2) Effective relief cannot be granted by the Board;

(3) The Board does not have jurisdiction to determine the issues presented or the applicant has not exhausted an available administrative remedy, as required under § 52.13(b); or

(4) The Coast Guard has granted effective relief satisfactory to the applicant.

(b) Administrative closure does not constitute a denial of relief. Applicants who believe their cases should not have been administratively closed by the Chair may resubmit their applications with a request for further consideration and a statement explaining why the applicant believes his or her case should be docketed and considered by the Board. A request for further consideration shall be regarded as a new application for the purposes of §§ 52.21 and 52.26.

(c) If the Chair administratively closes a case, the applicant shall be advised of the reason and of the right to resubmit his or her application.

Subpart E—Submissions by the Coast Guard and Other Offices

§ 52.41 Assistance.

The Board may request such advice, opinion, assistance, or use of the facilities of any other bureau, board, or office of the Department of Transportation as the Board deems necessary.

§ 52.42 Views of the Coast Guard.

(a) The Board shall transmit to the Commandant of the Coast Guard or his or her delegate a copy of each application for relief submitted and docketed under subpart C of this part, together with any briefs, memoranda, and documentary evidence submitted or obtained in the case.

(b) The Commandant of the Coast Guard or his or her delegate may forward to the Board a written advisory opinion presenting the views of the Coast Guard on any case before the Board.

(c) An advisory opinion furnished by the Coast Guard under this section shall not be binding upon the Board,

but shall be considered by the Board, along with all other information and material submitted in the particular case, if it is received by the Board within 135 days of the date the application is complete. The Chair may, in his or her discretion, grant the Coast Guard an extension of the time provided for submitting the advisory opinion.

(d) The Board shall promptly send a copy of each submission made by the Coast Guard under this section to the applicant involved, subject to the limitations in §§ 52.42(c) and 52.43(c). Each applicant has 30 days, from the date the Board sends the submission, to submit to the Board a written rebuttal or response to the Coast Guard's advisory opinion or a written request for an extension of the time to respond, subject to the provisions in § 52.26.

(e) Advisory opinions submitted by the Coast Guard and briefs submitted by applicants in response to the advisory opinions of the Coast Guard must be assembled in a manner that permits easy reproduction and may not exceed fifteen double-spaced typewritten pages in a type size with no more than twelve characters per inch. This limitation does not apply to supporting documentary evidence. In complex cases, the Chair may waive this limitation.

§ 52.43 Requests for further information; submissions of classified, privileged, and sensitive information.

(a) The Chair or the Board may ask the applicant to submit additional information not included in the application or response to the advisory opinion.

(b) The Chair or the Board may ask the Coast Guard or other Government office to submit any information, including reports of investigations, that the Chair or the Board deems relevant to an applicant's case.

(c) Whenever the Coast Guard or other Government office submits classified, privileged, or sensitive information to the Board in accordance with paragraph (b) of this section or § 52.42(b), it shall identify such information and also provide the Board with a copy of that part of the information that would be released to the applicant by the Coast Guard or other Government office if he or she requested it under 49 CFR parts 7 and 10. The Board shall forward only this redacted copy to the applicant.

Subpart F—Hearings

§ 52.51 General provision.

In each case in which the Chair determines that a hearing is warranted, the applicant will be entitled to be heard orally in person, by counsel, or in person with counsel.

§ 52.52 Notice of hearing.

(a) If the Chair determines that a hearing is warranted, the Chair shall notify the applicant that a hearing has been granted.

(b) The date of hearing shall be not less than 21 days from the date of this notification. Written notice stating the date, time, and place of the hearing shall be given to the applicant and the Coast Guard.

§ 52.53 Witnesses.

(a) In any case in which the Chair has granted a hearing, the applicant shall have the right to present witnesses.

(b) It is the responsibility of the applicant to notify his or her witnesses and to ensure their appearance at the date, time, and place set for the hearing.

§ 52.54 Expenses.

No expenses of any nature whatsoever incurred by an applicant, his or her counsel, witnesses, or others acting on behalf of the applicant shall be paid by the Government, except that an applicant may be entitled to representation by a Coast Guard law specialist if the case has been processed under the Whistleblower Protection Act. 10 U.S.C. 1034(f)(3)(A).

§ 52.55 Nonappearance.

An applicant who fails without good cause to appear in person or by counsel at the appointed date, time, and place for hearing, is deemed to have waived the right to a hearing. The application is then considered by the Board on the basis of all the material of record.

§ 52.56 Conduct of hearing.

(a) The Chair or the Chair's designee shall conduct a hearing so as to ensure a full and fair presentation of the evidence.

(b) The hearing is not limited by legal rules of evidence, but reasonable standards of competency, relevancy, and materiality are observed for the receipt and consideration of evidence.

(c) All testimony shall be given under oath or affirmation.

§ 52.57 Record of hearing.

A hearing pursuant to this subpart in open session shall be recorded verbatim and, at the discretion of the Board or direction of the Secretary, shall be transcribed.

Subpart G—Judgment and Disposition

§ 52.61 Deliberations and decision.

(a) The Board is convened at the call of the Chair and its meetings are recessed or adjourned by order of the Chair. Only members of the Board and its staff may be present during the deliberations of the Board. The Board's deliberations are conducted in executive session and are not reported.

(b) When the Board finds that the facts have not been fully and fairly disclosed by the records, testimony, and any other evidence before the Board, the Board may request the applicant and/or the Coast Guard to obtain and submit such further evidence as it considers essential to a complete and impartial understanding of the facts and issues.

(c) Following the receipt of all evidence, the Chair shall cause to be prepared and shall submit to the Board for its consideration a draft decision containing proposed findings and conclusions and a proposed order. A majority vote of the members of the Board present at a meeting on any matter relating to a draft decision before the Board shall constitute the action of the Board. If a draft decision is approved by the Board, it shall become a decision of the Board.

(d) The decision of the Board shall specify any change, correction, or modification of records to be made by the Coast Guard, and any other action deemed necessary to provide full and effective relief, which may include directing the Coast Guard to convene medical boards.

(e) If the Board deems it necessary to submit a comment or recommendation to the Secretary as to a matter arising from, but not directly related to, the issues in a case, it does so by separate communication.

§ 52.62 Minority report.

In case of disagreement among Board members, a minority report may be submitted dissenting from or concurring with the decision of the Board.

§ 52.63 Record of proceedings.

(a) The Board shall prepare a complete record of each proceeding. The record shall include the application for relief; the written views of the Coast Guard, if any; any transcript of testimony; affidavits and documents considered by the Board; briefs and written arguments filed in the case; the findings, decisions, and recommendations of the Board; minority reports, if any; and all other materials necessary to reflect a true and complete history of the proceedings.

(b) After final action has been taken on an application in accordance with § 52.64, any classified, privileged, or sensitive information in the record of proceedings that has been provided by the Coast Guard or another Government office in accordance with §§ 52.42 or 52.43 shall be returned by the Board to the office from which it was received. Only a copy of the information provided by the Coast Guard or other Government office for release to the applicant in accordance with § 52.43(c) shall be retained in the permanent record of proceedings after final action is taken.

§ 52.64 Final action.

(a) The Board, provided that it acts unanimously, may take final action on behalf of the Secretary, pursuant to 10 U.S.C. 1552, as follows:

(1) The Board may deny an application for the correction of military records.

(2) Unless the Coast Guard, in submitting its views pursuant to § 52.42(b), identifies and describes a significant

issue of Coast Guard policy challenged in the application, the Board may approve an application for the correction of military records in any of the following categories:

(i) An application to correct an enlistment or reenlistment contract or agreement to extend an enlistment for the purpose of effecting or increasing entitlement to a Selective Reenlistment Bonus;

(ii) An application to modify an election to participate in the Survivor Benefit Plan;

(iii) An application to change a reenlistment eligibility code;

(iv) An application to correct the character of, or reason for, a discharge or separation; or

(v) An application to receive a medal or award.

(3) The Board may approve any application for correction of military records not included in one of the categories in paragraph (a)(2) of this section, if the Coast Guard recommends the same or substantially same relief as that requested by the applicant.

(b) Except in cases where the Board takes final action under paragraph (a) of this section, the Board shall forward the record of its proceedings to the Secretary, who may approve, disapprove, or concur in the decision of the Board or the minority report, if any, either in whole or in part, and amend the order of the Board accordingly, or return the case to the Board for additional consideration. After taking final action, the Secretary shall send any such statement and the record of proceedings to the Board for disposition.

§ 52.65 Orders.

(a) The Board shall issue such orders or directives as may be necessary to carry out a final action.

(b) The Board may ask the Coast Guard to submit a written report to the Board specifying the action taken and the date thereof with respect to any final action.

(c) Unless doing so is likely to nullify the relief granted, copies of the final decision shall be placed in the military record of the applicant.

§ 52.66 Notification.

After final action is taken under § 52.64, the Board shall send a copy of the final decision to the applicant. The applicant may inspect the permanent record of proceedings at Board offices.

§ 52.67 Reconsideration.

(a) Reconsideration of an application for correction of a military record shall occur if an applicant requests it and the request meets the requirements set forth in paragraph (a)(1) or (a)(2) of this section.

(1) An applicant presents evidence or information that was not previously considered by the Board and that could result in a determination other than that originally made. Such new evidence or information may only be considered if it could not have been presented to the Board prior to its original determination if the applicant had exercised reasonable diligence; or

(2) An applicant presents evidence or information that the Board, or the Secretary as the case may be, committed legal or factual error in the original determination that could have resulted in a determination other than that originally made.

(b) The Chair shall docket a request for reconsideration of a final decision if it meets the requirements of paragraph (a)(1) or (a)(2) of this section. If neither of these requirements is met, the Chair shall not docket such request.

(c) The Board shall consider each application for reconsideration that has been docketed. None of the Board members who served on the Board that considered an applicant's original application for correction shall serve on the Board that decides the applicant's application upon reconsideration.

(d) Action by the Board on a docketed application for reconsideration is subject to §§ 52.26 and 52.64(b).

(e) An applicant's request for reconsideration must be filed within two years after the issuance of a final decision, except as otherwise required by law. If the Chair dockets an applicant's request for reconsideration, the two-year requirement may be waived if the Board finds that it would be in the interest of justice to consider the request despite its untimeliness.

Subpart H—Payment of Claims and Implementation of Orders

§ 52.71 Authority to pay.

(a) The Coast Guard is authorized to pay the claims of any person as the result of any action heretofore or hereafter taken under 10 U.S.C. 1552.

(b) The Coast Guard is not authorized to pay any claim heretofore compensated by Congress through enactment of private law, or to pay any amount as compensation for any benefit to which the claimant might subsequently become entitled under the laws and regulations administered by the Secretary of Veterans Affairs.

§ 52.72 Implementation of orders.

(a) In each case the Board shall transmit a copy of its decision or the Secretary's decision to the proper Coast Guard authority for determination of monetary benefits due, if any, as a result of the action of the Board and for corrections of the military record ordered by the Board.

(b) Upon request, the claimant is required to furnish to the Board or to the Coast Guard any information necessary to determine the proper parties to the claim for payment under applicable provisions of law.

(c) Appropriate records shall be examined in light of the Board's decision to determine all amounts which may be due. Amounts found due are subject to setoff in the amount of any existing indebtedness to the Government arising from Coast Guard service and to other setoffs required by law or regulation.

(d) At the time of payment, the claimant shall be advised as to the nature and amount of the various benefits represented by the total settlement, and of the fact that acceptance of the settlement constitutes a complete release by the claimant of any claim against the United States on account of the correction of record ordered by the Board.

§ 52.73 Interpretation.

If the intent or import of the final decision is not clear to the Coast Guard, if the Coast Guard believes that executing all or part of the order in the final decision is beyond the Coast Guard's authority, or if the Coast Guard believes that the order is incomplete because of an oversight, the final decision shall be returned to the Board for clarification or technical amendment.

§ 52.74 Report of settlement.

When payment is made pursuant to the order of the Board, the Board may request the Coast Guard to notify it of the name of any person to whom payment was made and of the amount of the payment.

Subpart I—Public Access to Decisions

§ 52.81 Reading room and index.

After deleting only so much personal information as is necessary to prevent an unwarranted invasion of privacy of the applicant or other persons mentioned in the final decision of the Board, a redacted copy of each final decision shall be indexed by subject and made available for review and copying at a public reading room. Final decisions created on or after November 1, 1996, shall be made available by electronic means. 5 U.S.C. 552.

(2) Initiate a separate investigation of the information the Coast Guard member believes evidences wrongdoing if such investigation has not already been initiated. The Inspector General is not required to make such an investigation if the information that the Coast Guard member believes evidences wrongdoing relates to actions that took place during combat.

(3) Complete the investigation of the allegation of reprisal and issue a report not later than 90 days after receipt of the allegation, which shall include a thorough review of the facts and circumstances relevant to the allegation, the relevant documents acquired during the investigation, and summaries of interviews conducted. The Inspector General may forward a recommendation as to the disposition of the complaint.

(4) Submit a copy of the investigation report to the Secretary of Homeland Security and to the Coast Guard member making the allegation not later than 30 days after the completion of the investigation. The copy of the report issued to the Coast Guard member may exclude any information not otherwise available to the Coast Guard member under the Freedom of Information Act (5 U.S.C. 552).

(5) If a determination is made that the report cannot be issued within 90 days of receipt of the allegation, notify the Secretary and the Coast Guard member making the allegation of the reasons why the report will not be submitted within that time, and state when the report will be submitted.

(6) At the request of the Board, submit a copy of the investigative report to the Board.

(7) After the final action with respect to an allegation filed under this part, whenever possible, interview the person who made the allegation to determine the views of that person concerning the disposition of the matter.

(b) The Board shall, in accordance with its regulations (33 CFR part 52):

(1) Consider under 10 U.S.C. 1552 and 33 CFR part 52 an application for the correction of records made by a Coast Guard member who has filed a timely complaint with the Inspector General, alleging that a personnel action was taken in reprisal for making or preparing to make a lawful communication to a Member of Congress or an Inspector General. This may include oral argument, examining and cross-examining witnesses, taking depositions, and conducting an evidentiary hearing at the Board's discretion.

(2) Review the report of any investigation by the Inspector General into the Coast Guard member's allegation of reprisal.

(3) As deemed necessary, request the Inspector General to gather further evidence and issue a further report to the Board.

(4) Issue a final decision concerning the application for the correction of military records under this part not later than 180 days after receipt of a complete application.

(c) If the Board elects to hold an administrative hearing, the Coast Guard member may be represented by a Coast Guard law specialist if:

(1) The Inspector General, in the report of the investigation, finds there is probable cause to believe that a personnel action was taken, withheld, or threatened in reprisal for the Coast Guard member making or preparing to make a lawful communication to a Member of Congress or an Inspector General;

(2) The Chief Counsel of the Coast Guard determines that the case is unusually complex or otherwise requires the assistance of a law specialist to ensure proper presentation of the legal issues in the case; and

(3) The Coast Guard member is not represented by outside counsel chosen by the member.

(d) If the Board elects to hold an administrative hearing, the Board must ensure that the Coast Guard member may examine witnesses through deposition, serve interrogatories, and request the production of evidence, including

evidence in the Inspector General investigatory record but not included in the report released to the member.

(e) If the Board determines that a personnel action was taken in reprisal for a Coast Guard member making or preparing to make a lawful communication to a Member of Congress or an Inspector General, the Board may forward its recommendation to the Secretary for the institution of appropriate administrative or disciplinary action against the individual or individuals found to have taken reprisal, and direct any appropriate correction of the member's records.

(f) The Board shall notify the Inspector General of the Board's decision concerning an application for the correction of military records of a Coast Guard member who alleged reprisal for making or preparing to make a lawful communication to a Member of Congress or an Inspector General, and of any recommendation to the Secretary for appropriate administrative or disciplinary action against the individual or individuals found to have taken reprisal.

(g) When reprisal is found, the Secretary shall ensure that appropriate corrective action is taken.

(a) Any member of the Coast Guard, who reasonably believes a personnel action (including the withholding of an action) was taken or threatened in reprisal for making or preparing to make a lawful communication to a Member of Congress or an Inspector General, may file a complaint with the DOT Inspector General Hotline under this part. Such a complaint may be filed by telephone, or by letter addressed to the Department of Transportation, Office of Inspector General, Hotline Center, P.O. Box 23178, Washington, D.C. 20026–0178. The complaint should also include a description of the communication to a Member of Congress or an Inspector General including a copy of any written communication and a brief summary of any oral communication showing date of communication, subject matter, and the name of the person or official to whom the communication was made.

(c) A member of the Coast Guard who is alleging reprisal for making or preparing to make a lawful communication to a Member of Congress or an Inspector General, may submit an application for the correction of military records to the Board, in accordance with regulations governing the Board. See 33 CFR part 52.

(d) An application submitted under paragraph (c) of this section shall be considered in accordance with regulations governing the Board. See 33 CFR part 52.

Subpart A—General

§ 55.1 Purpose.

This subpart implements 46 U.S.C. 515, which provides for Coast Guard Child Development Services.

§ 55.3 Who is covered by this subpart?

This subpart applies to all Coast Guard installations.

§ 55.5 Who is eligible for child development services?

Coast Guard members and civilian Coast Guard employees are eligible for

the child developmental services described in this subpart. As space is available, members of the other Armed Forces and other Federal civilian employees are also eligible.

§ 55.7 Definitions.

As used in this subpart—

Child development center means a facility located on a Coast Guard installation that offers, on a regularly scheduled basis, developmental services designed to foster social, emotional, physical, creative, and intellectual growth to groups of children.

Child development services means developmental services provided at a child development center or by a family child care provider at his or her Coast Guard-owned or -leased home.

Coast Guard family child care provider means a Coast Guard family member, 18 years of age or older, who provides child care for 10 hours or more per week per child to one but no more than six children, including the provider's own children under the age of eight, on a regular basis in his or her Coast Guard-owned or -leased housing.

Coast Guard family child care services means child care provided on a regularly scheduled basis for 10 hours or more a week by an individual certified by the Coast Guard and who resides in Coast Guard-controlled housing.

Command means the Commanding Officer of one or more units of personnel in a limited geographic area with responsibility for a child development center.

Family child care means child care provided in the home of a provider, either a Coast Guard family child care provider or a family home day care provider.

Family home day care provider means an individual 18 years of age or older who is licensed by the state agency that regulates child care. This person provides child care to one but to no more than six children, including the provider's own children under the age of eight, on a regular basis in his or her residence.

Geographic cost of living allowance means the adjustment in basic pay related to higher living costs in certain geographic areas.

Total family income means the earned income for adult members of the household including wages, salaries, tips, long-term disability benefits received by a family, incentive and special pay for service or anything else of value, even if not taxable, that was received for providing services. Also included is Basic Allowance for Housing and Basic Allowance for Subsistence authorized for the pay grade of military personnel, whether the allowance is received in cash or in-kind. Total Family Income does not include: the geographic cost of living allowance; alimony and child support; temporary duty allowances or reimbursements for educational expenses; veterans benefits; workers compensation benefits; and, unemployment compensation. These are to be excluded from total family income.

Uneconomical and inefficient means that the fees collected from parents can not be used in a manner that provides a quality program at an affordable cost to parents using the child care services.

§ 55.9 Child development centers.

(a) The Commandant may make child development services available at child development centers located at Coast Guard installations.

(b) Regular and unannounced inspections of each child development center shall be conducted annually by headquarters program personnel, the commanding officer of the sponsoring command, fire personnel, and health and safety personnel.

(c) Training programs shall be conducted monthly to ensure that all child development center employees complete a minimum of 20 hours of training annually with respect to early childhood development, activities and disciplinary techniques appropriate to children of different ages, child abuse prevention and detection, and appropriate emergency medical procedures.

§ 55.11 How are child development center fees established?

(a) Fees for the provision of services at child development centers shall be

set by each Command with responsibility for a center-based program, according to the following total family income chart:

TOTAL FAMILY INCOME
$0 to $23,000
$23,001 to $34,000
$34,001 to $44,000
$44,001 to $55,000
Over $55,000

(b) Fees for the provision of services at Coast Guard child development centers shall be used only for compensation for employees at those centers who are directly involved in providing child care, unless it is uneconomical and inefficient. If uneconomical and inefficient, then the fees may be used for:

(1) The purchase of consumable or disposable items for Coast Guard child development centers; and

(2) If the requirements of such centers for consumable or disposable items for a given fiscal year have been met, for other expenses of those centers.

§ 55.13 Family child care providers.

When appropriated funds are available, funds may be offered to provide assistance to Coast Guard Family Child Care Providers or to family home day care providers so that family child care services can be provided to military members and civilian employees of the Coast Guard, at a cost comparable to the cost of services at Coast Guard child development centers.

Subpart A—General

§ 62.1 Purpose.

(a) The Coast Guard administers the U.S. Aids to Navigation System. The system consists of Federal aids to navigation operated by the Coast Guard, aids to navigation operated by the other armed services, and private aids to navigation operated by other persons.

(b)(1) This part describes the general characteristics of the U.S. Aids to Navigation System, and the details, policies and procedures employed by the Coast Guard in establishing, maintaining, operating, changing or discontinuing Federal aids to navigation. Regulations concerning the marking of wrecks, structures, and other obstructions are found in 33 CFR part 64. Regulations concerning private aids are found in 33 CFR part 66. Regulations concerning the marking of artificial islands and structures which are erected on or over the seabed and subsoil of the Outer Continental Shelf of the United States or its possessions are found in 33 CFR part 67. Regulations concerning the marking of bridges are found in 33 CFR part 118. Regulations concerning aids to navigation at deepwater ports are found in subchapter NN of this chapter.

(2) The regulations found in 33 CFR subpart 66.10 expire on December 31, 2003, at which time the provisions of this part will apply.

(c) The Coast Guard maintains systems of marine aids to navigation consisting of visual, audible, and electronic signals which are designed to assist the prudent mariner in the process of navigation. The aids to navigation system is not intended to identify every shoal or obstruction to navigation which exists in the navigable waters of the United States, but rather provides for reasonable marking of marine features as resources permit. The primary objective of the aids to navigation system is to mark navigable channels and waterways, obstructions adjacent to these waterways, and obstructions in areas of general navigation which may not be anticipated. Other waters, even if navigable, are generally not marked.

[CGD 86–031, 52 FR 42640, Nov. 6, 1987, as amended by CGD 88–018, 54 FR 48608, Nov. 24, 1989; CGD 97–018, 63 FR 33573, June 19, 1998]

§62.3 Definition of terms.

Certain terms as used in this subchapter are defined as follows:

(a) *Aid to Navigation.* The term aid to navigation means any device external to a vessel or aircraft intended to assist a navigator to determine position or safe course, or to warn of dangers or obstructions to navigation.

(b) *Commerce.* The term commerce, in addition to general, national and international trade and commerce of the United States, includes trade and travel by seasonal passenger craft (marine and air), yachts, houseboats, fishing boats, motor boats, and other craft, whether or not operated for hire or profit.

(c) *Commandant.* The term Commandant means the Commandant of the Coast Guard.

(d) *District Commander.* The term District Commander means the commander of a Coast Guard District. Coast Guard Districts are listed in Part 3 of this chapter.

(e) *Corps of Engineers.* The term Corps of Engineers means the Corps of Engineers, Department of the Army.

(f) *Person.* The term person imparts both singular or plural, as the case demands, and includes any Federal Agency, State, Territory, possession, or public subdivision thereof, the District of Columbia, and any corporation, company, association, club, or other instrumentality.

(g) *Navigable waters of the United States.* The term navigable waters of the United States is defined in §2.36(a) of this chapter.

[CGD 86–031, 52 FR 42640, Nov. 6, 1987, as amended by USCG–2001–9044, 68 FR 42601, July 18, 2003]

§62.5 Marking of marine parades and regattas.

(a) The Coast Guard may establish aids to navigation to mark marine parades and regattas which are regulated by the Coast Guard for the purpose of protecting life and property, or to assist in the observance and enforcement of special regulations. For marine parade and regatta regulations, see Part 100 of this chapter.

(b) [Reserved]

Subpart B—The U.S. Aids to Navigation System

§62.21 General.

(a) The navigable waters of the United States and non-navigable State waters after December 31, 2003, are marked to assist navigation using the U.S. Aids to Navigation System, a system consistent with the International Association of Lighthouse Authorities (IALA) Maritime Buoyage System. The IALA Maritime Buoyage System is followed by most of the world's maritime nations and will improve maritime safety by encouraging conformity in buoyage systems worldwide. IALA buoyage is divided into two regions made up of Region A and Region B. All navigable waters of the United States follow IALA Region B, except U.S. possessions west of the International Date Line and south of 10 degrees north latitude, which follow IALA Region A. Lateral aids to navigation in Region A vary from those described throughout this Subpart. Non-lateral aids to navigation are the same as those used in Region B. See §62.25. Appropriate nautical charts and publications should be consulted to determine whether the Region A or Region B marking schemes are in effect for a given area.

(b) The U.S. Aids to Navigation System is designed for use with nautical charts. Nautical charts portray the physical features of the marine environment, including soundings and other submarine features, landmarks, and other aids necessary for the proper navigation of a vessel. This crucial information cannot be obtained from other sources, even ones such as topographic maps, aeronautical charts, or atlases. The exact meaning of an aid to navigation may not be clear to the mariner unless the appropriate chart is consulted, as the chart illustrates the relationship of the individual aid to navigation to channel limits, obstructions, hazards to navigation, and to the total aids to navigation system.

(c) The navigator should maintain and consult suitable publications and instruments for navigation depending on the vessel's requirements. This shipboard equipment is separate from the aids to navigation system, but is often

essential to its use. The following publications are available from the U.S. Government to assist the navigator:

(1) The Light List, published by the Coast Guard and available through the Government Printing Office or authorized sales agents, lists federal and private aids to navigation. It includes all major Federal aids to navigation and those private aids to navigation, which have been deemed to be important to general navigation, and includes a physical description of these aids and their locations.

(2) The United States Coast Pilot, published by the National Ocean Service and available through that agency or authorized nautical chart sales agents, supplements the information shown on nautical charts. Subjects such as local navigation regulations, channel and anchorage peculiarities, dangers, climatalogical data, routes, and port facilities are covered.

(3) Local Notices to Mariners are published by local Coast Guard District Commanders. Persons may be placed on the mailing list to receive local Notices by contacting the Aids to Navigation and Waterway Management Branch of the appropriate Coast Guard District. These notices pass information affecting navigation safety. Changes to aids to navigation, reported dangers, scheduled construction or other disruptions, chart corrections and similar useful marine information is made available through this publication.

(4) The Notice to Mariners is a national publication, similar to the Local Notice to Mariners, published by the National Imagery and Mapping Agency. The notice may be obtained free of charge from commercial maritime sources and, upon request, to Defense Logistics Agency, Defense Supply Center Richmond, ATTN: JNB, 8000 Jefferson Davis Highway, Richmond, VA 23297–5100 or FAX 804–279–6510, ATTN: Accounts Manager, RMF. A letter of justification should be included in the request. This publication provides ocean going vessels significant information on national and international navigation and safety.

(5) The mariner should also listen to Coast Guard Broadcast Notices to Mariners. These broadcasts update the Local Notice to Mariners with more timely information. Mariners should monitor VHF-FM channel 16 to locate Coast Guard Marine Information Broadcasts.

(d) The U.S. Aids to Navigation System is primarily a lateral system which employs a simple arrangement of colors, shapes, numbers, and light characteristics to mark the limits of navigable routes. This lateral system is supplemented by nonlateral aids to navigation where appropriate.

(e) Generally, lateral aids to navigation indicate on which side of a vessel an aid to navigation should be passed when the vessel is proceeding in the Conventional Direction of Buoyage. Normally, the Conventional Direction of Buoyage is the direction in which a vessel enters navigable channels from seaward and proceeds towards the head of navigation. In the absence of a route leading from seaward, the Conventional Direction of Buoyage generally follows a clockwise direction around land masses. For example, proceeding southerly along the Atlantic Coast, from Florida to Texas along the Gulf Coast, and northerly along the Pacific Coast are considered as proceeding in the Conventional Direction of Buoyage. In some instances, this direction must be arbitrarily assigned. Where doubt exists, the mariner should consult charts and other nautical publications.

(f) Although aids to navigation are maintained to a reasonable degree of reliability, the rigors of the marine environment and various equipment failures do cause discrepancies on occasion.

(g) The Coast Guard makes reasonable efforts to inform the navigator of known discrepancies, and to correct them within a reasonable period of time, depending upon resources available. Occasionally, a temporary aid to navigation, which provides different but similar service, is deployed until permanent repairs can be made to the original aid. Notification of such temporary changes is made through the notice to mariners system.

(h) Mariners should exercise caution when using private aids to navigation because private aids are often established to serve the needs of specific users rather than general navigation

and their purpose may not be obvious to casual users; and, discrepancies to private aids are often detected, reported, and corrected less promptly than discrepancies to Coast Guard aids to navigation.

[CGD 86–031, 52 FR 42640, Nov. 6, 1987, as amended by CGD 88–018, 54 FR 48608, Nov. 24, 1989; CGD 97–018, 63 FR 33573, June 19, 1998; USCG–2001–9286, 66 FR 33640, June 25, 2001]

§ 62.23 Beacons and buoys.

(a) Aids to navigation are placed on shore or on marine sites to assist a navigator to determine his position or safe course. They may mark limits of navigable channels, or warn of dangers or obstructions to navigation. The primary components of the U.S. Aids to Navigation System are beacons and buoys.

(b) Beacons are aids to navigation structures which are permanently fixed to the earth's surface. They range from large lighthouses to small, single-pile structures and may be located on land or in the water. Lighted beacons are called lights; unlighted beacons are called daybeacons.

(1) Beacons exhibit a daymark. For small structures these are colored geometric shapes which make an aid to navigation readily visible and easily identifiable against background conditions. Generally, the daymark conveys to the mariner, during daylight hours, the same significance as does the aid's light or reflector at night. The daymark of large lighthouses and towers, however, consists of the structure itself. As a result, these daymarks do not infer lateral significance.

(2) Vessels should not pass beacons close aboard due to the danger of collision with rip-rap or structure foundations, or the obstruction or danger that the aid marks.

(c) Buoys are floating aids to navigation used extensively throughout U.S. waters. They are moored to the seabed by sinkers with chain or other moorings of various lengths.

(1) The daymark of a buoy is the color and shape of the buoy and, if so equipped, of the topmark.

(i) Can buoys have a cylindrical shape.

(ii) Nun buoys have a tapered, conical shape.

(iii) Pillar buoys have a wide cylindrical base supporting a narrower superstructure. They may be surmounted by colored shapes called topmarks.

(iv) Spherical buoys have a round shape.

(2) Mariners attempting to pass a buoy close aboard risk collision with a yawing buoy, the buoy's mooring, or with the obstruction which the buoy marks.

(3) Mariners should not rely on buoys alone for determining their positions due to factors limiting their reliability. Prudent mariners will use bearings or angles from beacons or other landmarks, soundings, and various methods of electronic navigation. Buoys vary in reliability because:

(i) Buoy positions represented on nautical charts are approximate positions only, due to practical limitations in positioning and maintaining buoys and their sinkers in precise geographical locations.

(ii) Buoy moorings vary in length. The mooring lengths define a ''watch circle'', and buoys can be expected to move within this circle. Actual watch circles do not coincide with the dots or circles representing them on charts.

(iii) Buoy positions are normally verified during periodic maintenance visits. Between visits, environmental conditions, including atmospheric and sea conditions, and seabed slope and composition, may shift buoys off their charted positions. Also buoys may be dragged off station, sunk, or capsized by a collision with a vessel.

[CGD 86–031, 52 FR 42640, Nov. 6, 1987; CGD 86–031, 52 FR 46351, Dec. 5, 1987]

§ 62.25 Lateral marks.

(a) Lateral marks define the port and starboard sides of a route to be followed. They may be either beacons or buoys.

(b) Sidemarks are lateral marks which advise the mariner to stay to one side of the mark. Their most frequent use is to mark the sides of channels; however, they may be used individually to mark obstructions outside of clearly defined channels. Sidemarks are not always placed directly on a channel edge and may be positioned outside the channel as indicated on charts and nautical publications.

(1) Port hand marks indicate the left side of channels when proceeding in the Conventional Direction of Buoyage. Beacons have green square daymarks, while buoys are green can or pillar buoys.

(2) Starboard hand marks indicate the right side of channels when proceeding in the Conventional Direction of Buoyage. Beacons have red triangular daymarks, while buoys are red nun or pillar buoys.

(c) Preferred channel marks indicate channel junctions or bifurcations and may also mark wrecks or obstructions which the mariner, after consulting a chart to ascertain the location of the obstruction relative to the aid, may pass on either side. Preferred channel marks have red and green horizontal bands with the color of the topmost band indicating the preferred channel. If the topmost band is green, the mark serves as a port hand mark for vessels following the preferred channel proceeding in the Conventional Direction of Buoyage, and as a starboard hand mark for the other channel. Beacons would have square daymarks, while buoys would be can or pillar buoys. If the topmost band is red, the mark serves as a starboard hand mark for vessels following the preferred channel proceeding in the Conventional Direction of Buoyage, and a port hand mark for the other channel. Beacons would have triangular daymarks, while buoys would be nun or pillar buoys.

(d) The above color schemes apply to IALA Region B. Marks located in the IALA Region A exhibit reversed color significance: port hand marks will be red when following the Conventional Direction of Buoyage, and starboard hand marks will be green. The meaning of daymark and buoy shapes is identical in both regions.

(e) Certain marks on the Intracoastal Waterway may exhibit reversed lateral significance. See § 62.49.

[CGD 86–031, 52 FR 42640, Nov. 6, 1987, as amended by CGD 88–018, 54 FR 48608, Nov. 24, 1989]

§ 62.27 Safe water marks.

Safe water marks indicate that there is navigable water all around the mark. They are often used to indicate fairways or midchannels, or the seaward end of channels. Safe water marks are colored with red and white vertical stripes. Beacons have an octagonal daymark; red and white buoys are spherical or display a red spherical topmark.

[CGD 86–031, 52 FR 42640, Nov. 6, 1987, as amended by CGD 88–018, 54 FR 48608, Nov. 24, 1989]

§ 62.29 Isolated danger marks.

Isolated danger marks indicate an isolated danger which may be passed on all sides. As these marks are erected or moored on or near dangers, they should not be approached closely without special caution. These marks are colored black with one or more broad horizontal red bands and are equipped with a topmark of two black spheres, one above the other.

[CGD 86–031, 52 FR 42640, Nov. 6, 1987, as amended by CGD 88–018, 54 FR 48608, Nov. 24, 1989]

§ 62.31 Special marks.

Special marks are not primarily intended to assist safe navigation, but to indicate special areas or features referred to in charts or other nautical publications. They may be used, for example, to mark anchorages, cable or pipeline areas, traffic separation schemes, military exercise zones, ocean data acquisition systems, etc. Special marks are colored solid yellow.

§ 62.32 Inland waters obstruction mark.

(a) On inland waters designated by the Commandant as State waters in accordance with § 66.05–5 of this chapter and on non-navigable internal waters of a State which have no defined head of navigation, a buoy showing alternate vertical black and white stripes may be used to indicate to a vessel operator that an obstruction to navigation extends from the nearest shore to the buoy.

(b) The black and white buoy's meaning is ''do not pass between the buoy and the shore''. The number of white and black stripes is discretionary, provided that the white stripes are twice the width of the black stripes. Prior to December 31, 2003, this aid shall not be used on a waterway which has a red and white striped obstruction marker

defined in §66.10–15(e)(3) of this chapter, unless all obstruction markers are replaced.

[CGD 97–018, 63 FR 33573, June 19, 1998]

§ 62.33 Information and regulatory marks.

(a) Information and Regulatory Marks are used to alert the mariner to various warnings or regulatory matters. These marks have orange geometric shapes against a white background. The meanings associated with the orange shapes are as follows:

(1) A vertical open-faced diamond signifies danger.

(2) A vertical diamond shape having a cross centered within indicates that vessels are excluded from the marked area.

(3) A circular shape indicates that certain operating restrictions are in effect within the marked area.

(4) A square or rectangular shape will contain directions or instructions lettered within the shape.

(b) When a buoy is used as an information or regulatory mark it shall be white with two horizontal orange bands placed completely around the buoy circumference. One band shall be near the top of the buoy body, with a second band placed just above the waterline of the buoy so that both bands are clearly visible.

[CGD 86–031, 52 FR 42640, Nov. 6, 1987, as amended by CGD 97–018, 63 FR 33573, June 19, 1998]

§ 62.35 Mooring buoys.

Mooring Buoys are white with a blue horizontal band. This distinctive color scheme is recommended to facilitate identification and to avoid confusion with aids to navigation.

§ 62.37 Lighthouses.

Lighthouses are prominent beacons of varying size, color, and appearance employed to mark headlands, landfalls, harbor entrances, channel edges, hazards, and other features. While normally identified by their distinctive appearance, some lighthouses display diamond shaped, checkered daymarks to facilitate recognition.

§ 62.41 Ranges.

Ranges are aids to navigation systems employing dual beacons which, when the structures appear to be in line, assist the mariner in maintaining a safe course. The appropriate nautical chart must be consulted when using ranges to determine whether the range marks the centerline of the navigable channel and also to ascertain what section of the range may be safety traversed. Ranges are generally, but not always, lighted, and display rectangular daymarks of various colors.

[CGD 86–031, 52 FR 42640, Nov. 6, 1987; CGD 86–031, 52 FR 46351, Dec. 5, 1987]

§ 62.43 Numbers and letters.

(a) All solid red and solid green aids are numbered, with red aids bearing even numbers and green aids bearing odd numbers. The numbers for each increase in the Conventional Direction of Buoyage. Numbers are kept in approximately sequence on both sides of the channel by omitting numbers where necessary.

(b) Only sidemarks are numbered. However, aids other than those mentioned above may be lettered to assist in their identification, or to indicate their purpose. Sidemarks may carry letters in addition to numbers to identify the first aid to navigation in a waterway, or when new aids to navigation are added to channels with previously completed numerical sequences. Letters on sidemarks will follow alphabetical order from seaward and proceeding toward the Conventional Direction of Buoyage and will be added to numbers as suffixes.

(c) Aids to navigation may be fitted with light-reflecting material to increase their visibility in darkness. The colors of this material may convey the same significance as the aid except that letters and numbers may be white.

(d) Exceptions to the provisions of this section will be found on the Western Rivers System. See §62.51.

(e) The guidelines for the display of numbers and letters on aids to navigation are identical for both Region A and Region B; red aids to navigation

display even numbers, and green aids display odd numbers.

[CGD 86–031, 52 FR 42640, Nov. 6, 1987, as amended by CGD 88–018, 54 FR 48608, Nov. 24, 1989]

§ 62.45 Light characteristics.

(a) Lights on aids to navigation are differentiated by color and rhythm. Lighthouses and range lights may display distinctive light characteristics to facilitate recognition. No special significance should be attached to the color or rhythm of such lights. Other lighted aids to navigation employ light characteristics to convey additional information.

(b) When proceeding in the Conventional Direction of Buoyage, aids to navigation, if lighted, display light characteristics as follows:

(1) Green lights mark port (left) sides of channels and locations of wrecks or obstructions which are to be passed by keeping these lights on the port (left) hand of a vessel. Green lights are also used on Preferred Channel Marks where the topmost band is green.

(2) Red lights mark starboard (right) sides of channels and locations of wrecks or obstructions which are to be passed by keeping these lights on the starboard (right) hand of a vessel. Red lights are also used on Preferred Channel Marks where the topmost band is red.

(3) Certain lights marking the Intracoastal Waterway may display reversed lateral significance. See § 62.49.

(c) Yellow lights have no lateral significance. Except on the Western Rivers, see § 62.51, white lights have no lateral significance. The purpose of aids exhibiting white or yellow lights may be determined by their shape, color, letters or numbers, and the light rhythm employed.

(d) Light rhythms, except as noted in § 62.51 for the Western Rivers, are employed as follows:

(1) Aids with lateral significance display regularly flashing or regularly occulting light rhythms. Ordinarily, flashing lights (frequency not exceeding 30 flashes per minute) will be used.

(2) Preferred Channel Marks display a composite group flashing light rhythm (groups of two flashes followed by one flash).

(3) Safe Water Marks display a white Morse Code ''A'' rhythm (short-long flash).

(4) Isolated Danger Marks display a white group flashing two.

(5) Special Marks display yellow lights with fixed or slow flashing rhythm preferred.

(6) Mooring Buoys and Information and Regulatory Marks display white lights of various rhythms.

(7) For situations where lights require a distinct cautionary significance, as at sharp turns, sudden channel constrictions, wrecks, or obstructions, a quick flashing light rhythm (60 flashes per minute) may be used.

(e) Occasionally lights use sectors to mark shoals or warn mariners of other dangers. Lights so equipped show one color from most directions and a different color or colors over definite arcs of the horizon as indicated on the appropriate nautical chart. These sectors provide approximate bearing information since the observer should note a change of color as the boundary between the sectors is crossed. As sector bearings are not precise, they should be considered a warning only and not used to determine exact bearing to the light.

(f) Aids to navigation may be fitted with light-reflecting material to increase their visibility in darkness. Green or red reflective material is used only on marks which, if lighted, would exhibit a light of that color. Yellow reflective material is used on special marks and on Intracoastal Waterway marks. No significance is attached to white reflective material.

[CGD 86–031, 52 FR 42640, Nov. 6, 1987, as amended by CGD 88–018, 54 FR 48608, Nov. 24, 1989; CGD 97–018, 63 FR 33573, June 19, 1998]

§ 62.47 Sound signals.

(a) Often sound signals are located on or adjacent to aids to navigation. When visual signals are obscured, sound signals warn mariners of the proximity of danger.

(1) Sound signals are distinguished by their tone and phase characteristics.

(i) Tones are determined by the devices producing the sound (i.e., diaphones, diaphragm horns, reed horns, sirens, whistles, bells and gongs).

(ii) Phase characteristics are defined by the signal's sound pattern, i.e., the number of blasts and silent periods per minute and their durations. Sound signals emanating from fixed structures generally produce a specific number of blasts and silent periods each minute when operating. Buoy sound signals are generally actuated by the motion of the sea and therefore do not emit a regular signal characteristic.

(2) Where no live watch is maintained, sound signals are normally operated continuously. However, some are equipped with fog detectors which activate sound signals when visibility falls below a predetermined limit.

(b) Mariners should not rely solely on sound signals to determine their positions for the following reasons:

(1) Distance cannot be accurately determined by sound intensity.

(2) Occasionally sound signals may not be heard in areas close to their location.

(3) Signals may not sound in cases where fog exists close to, but not at, the location of the sound signal.

(4) As buoy signals are generally activated by sea motion, they may produce no signals when seas are calm.

(5) As previously noted, buoy positions are not always reliable. Therefore their sound signals cannot be assumed to be emanating from a fixed position.

§ 62.49 Intracoastal Waterway identification.

(a) In addition to the conventional signals, aids to navigation marking the Intracoastal Waterway exhibit unique yellow symbols to distinguish them from aids marking other waters.

(1) Yellow triangles indicate that aids to navigation so marked should be passed keeping them on the starboard (right) hand of a vessel, regardless of the aid's number, color, or light color.

(2) Yellow squares indicate that aids to navigation so marked should be passed keeping them on the port (left) hand of a vessel, regardless of the aid's number, color, or light color.

(3) A horizontal yellow band provides no lateral information, but simply identifies aids to navigation as marking the Intracoastal Waterway.

(b) The above guidelines apply for vessels traversing the Intracoastal Waterway in a southerly direction on the Atlantic Coast, in a westerly direction on the Okeechobee Waterway, or in a westerly direction along the Gulf Coast.

[CGD 86–031, 52 FR 42640, Nov. 6, 1987; CGD 86–031, 52 FR 46351, Dec. 5, 1987]

§ 62.51 Western Rivers Marking System.

(a) A variation of the standard U.S. aids to navigation system described above is employed on the Mississippi River and tributaries above Baton Rouge, LA and on certain other rivers which flow toward the Gulf of Mexico.

(b) The Western Rivers System varies from the standard U.S. system as follows:

(1) Buoys are not numbered.

(2) Numbers on beacons do not have odd/even lateral significance but, rather, indicate mileage from a fixed point (normally the river mouth).

(3) Diamond-shaped non-lateral dayboards, checkered red-and-white or green-and-white, similar to those used in the U.S. Aids to Navigation System, as appropriate, are used as crossing dayboards where the river channel crosses from one bank to the other.

(4) Lights on green buoys and on beacons with green daymarks show a single flash which may be green or white.

(5) Lights on red buoys and on beacons with red daymarks show a double flash [Group Flashing (2)] which may be red or white.

(6) Isolated danger marks are not used.

[CGD 86–031, 52 FR 42640, Nov. 6, 1987, as amended by CGD–94–091, 61 FR 27782, June 3, 1996; USCG–2001–9286, 66 FR 33640, June 25, 2001]

§ 62.53 Racons.

(a) Aids to navigation may be enhanced by the use of radar beacons (racons). Racons, when triggered by a radar signal, will transmit a coded reply to the interrogating radar. This reply serves to identify the aid station by exhibiting a series of dots and dashes which appear on the radar display in a line emanating radially from just beyond the echo of the aid station. Although racons may be used on both laterally significant and non-laterally significant aids alike, the racon signal

itself is for identification purposes only, and therefore carries no lateral significance.

(b) Racons are also used as bridge marks to mark the best point of passage.

§ 62.54 Ownership identification.

Ownership identification on private or state aids to navigation is permitted so long as it does not change or hinder an understanding of the meaning of the aid to navigation.

[CGD 97–018, 63 FR 33573, June 19, 1998]

Subpart C [Reserved]

Subpart D—Public Participation in the Aids to Navigation System

§ 62.63 Recommendations.

(a) The public may recommend changes to existing aids to navigation, request new aids or the discontinuation of existing aids, and report aids no longer necessary for maritime safety. These recommendations should be sent to the appropriate District Commander.

(b) Recommendations, requests and reports should be documented with as much information as possible to justify the proposed action. Desirable information includes:

(1) Nature of the vessels which transit the area(s) in the question, including type, displacement, draft, and number of passengers and crew.

(2) Where practicable, the kinds of navigating devices used aboard such vessels (e.g, magnetic or gyro compasses, radio direction finders, radar, loran, and searchlights).

(3) A chartlet or sketch describing the actual or proposed location of the aid(s), and a description of the action requested or recommended.

§ 62.65 Procedure for reporting defects and discrepancies.

(a) Mariners should notify the nearest Coast Guard facility immediately of any observed aids to navigation defects or discrepancies.

(b) The Coast Guard cannot monitor the many thousands of aids in the U.S. Aids to Navigation System simultaneously and continuously. As a result, it is not possible to maintain every aid operating properly and on its charted position at all times. Marine safety will be enhanced if persons finding aids missing, sunk, capsized, damaged, off station, or showing characteristics other than those advertised in the Light List, or other publication, promptly inform the Coast Guard. When making the report to the Coast Guard the mariner should consult the Light List to ensure the correct geographical information is used due to the similarity of names and geographical areas.

(c) Procedures for reporting defects and discrepancies:

(1) *Radio messages* should be prefixed ''Coast Guard'' and transmitted directly to a Government shore radio station listed in Chapter three of Radio Navigation Aids Publication, 117, for relay to the relevant District Commander.

(2) Telephone, e-mail, or facsimile messages may also be used to advise the nearest Coast Guard unit of defects or discrepancies in aids to navigation.

§ 64.01 Purpose.

This part prescribes rules relating to the marking of structures, sunken vessels and other obstructions for the protection of maritime navigation.

§ 64.03 Scope.

(a) Except as provided in paragraph (b) of this section these rules apply to:

(1) Structures located in or over waters subject to the jurisdiction of the United States and, on the high seas, structures owned or operated by persons subject to the jurisdiction of the United States;

(2) Sunken vessels in the navigable waters or waters above the continental shelf of the United States; and

(3) Other obstructions existing on or in the navigable waters or waters above the continental shelf of the United States.

(3) Vessels subject to the International Regulations for preventing Collisions at Sea, 1972 (1972 COLREGS) or the Inland Navigation Rules;

(4) Deepwater port facilities subject to subchapter NN of this chapter; and

(5) Artificial islands and structures subject to Part 67 of this subchapter.

§ 64.06 Definition of terms.

As used in this part:

Hazard to navigation means an obstruction, usually sunken, that presents sufficient danger to navigation so as to require expeditious, affirmative action such as marking, removal, or redefinition of a designated waterway to provide for navigational safety.

Markings means the lights and other signals placed on or near structures, sunken vessels, and other obstructions for the protection of navigation.

Navigable waters of the United States means those waters described in § 2.36(a) of this chapter, specifically including the waters described in § 2.22(a)(2) of this chapter.

Obstruction means anything that restricts, endangers, or interferes with navigation.

Structures means any fixed or floating obstruction, intentionally placed in the water, which may interfere with or restrict marine navigation.

[CGD 78–156, 48 FR 11267, Mar. 17, 1983. Redesignated and amended by CGD 91–031, 57 FR 43402, Sept. 21, 1992; USCG–2001–9044, 68 FR 42601, July 18, 2003]

§ 64.11 Marking and notification requirements.

(a) The owner of a vessel, raft, or other craft wrecked and sunk in a navigable channel shall mark it immediately with a buoy or daymark during the day and with a light at night. The owner of a sunken vessel, raft, or other obstruction that otherwise constitutes a hazard to navigation shall mark it in accordance with this subchapter.

(b) Owners of vessels sunk in waters subject to the jurisdiction of the United States or sunk on the high seas, if the owner is subject to the jurisdiction of the United States, shall promptly report to the District Commander, in whose jurisdiction the obstruction is located, the action they are taking to mark the sunken vessel, giving the following information (in addition to the information required by 46 CFR 4.05, Notice of Marine Casualty and Voyage Records):

(1) Name and description of the sunken vessel;

(2) Accurate description of the location of the vessel;

(3) Depth of water over the vessel; and

(4) Location and type of marking established, including color and shape of buoy or other daymark and characteristic of the light.

(c) Owners of other obstructions may report the existence of such obstructions and mark them in the same manner as prescribed for sunken vessels.

(d) Owners of marine pipelines that are determined to be hazards to navigation shall report and mark the hazardous portion of those pipelines in accordance with 49 CFR parts 192 or 195, as applicable.

[CGD 78–156, 48 FR 11267, Mar. 17, 1983. Redesignated and amended by CGD 91–031, 57 FR 43402, Sept. 21, 1992; USCG–1998–3799, 63 FR 35526, June 30, 1998; USCG–2006–25150, 71 FR 39208, July 12, 2006]

§ 64.13 Approval of markings.

(a) All markings of sunken vessels and other obstructions established in accordance with §64.11 must be reported to and approved by the appropriate District Commander.

(b) Should the District Commander determine that these markings are inconsistent with Part 62 of this subchapter, they must be replaced as soon as practicable with approved markings.

§ 64.16 Duration of marking on sunken vessels in navigable waters.

Markings shall be maintained until:

(a) The sunken vessel or other obstruction is removed; or

(b) The right of the owner to abandon is legally established and exercised.

NOTE: Notices of abandonment of sunken vessels or other obstructions will not be accepted by the Coast Guard. Any notice of intention to abandon should be addressed to the District Engineer, Corps of Engineers, U.S. Army, within whose district the sunken vessel or other obstruction is located.

§ 64.21 Marking and notification requirements.

Before establishing a structure, the owner or operator shall apply for Coast Guard authorization to mark the structure in accordance with §66.01–5 of this chapter. The appropriate District Commander will determine the marking requirements.

§ 64.23 Duration of marking on structures.

Markings determined to be required shall be established and maintained until:

(a) The structure is removed; or

(b) Otherwise directed by the District Commander.

Subpart D—Miscellaneous Provisions

SOURCE: CGD 78–156, 48 FR 11267, Mar. 17, 1983, unless otherwise noted. Redesignated by CGD 91–031, 57 FR 43402, Sept. 21, 1992.

§ 64.31 Determination of hazard to navigation.

In determining whether an obstruction is a hazard to navigation for the purposes of marking, the District Commander considers, but is not limited to, the following factors:

(a) Location of the obstruction in relation to the navigable channel and other navigational traffic patterns;

(b) Navigational difficulty in the vicinity of the obstruction;

(c) Depth of water over the obstruction, fluctuation of the water level, and other hydrologic characteristics in the area;

(d) Draft, type, and density of vessel traffic or other marine activity in the vicinity of the obstruction;

(e) Physical characteristics of the obstruction;

(f) Possible movement of the obstruction;

(g) Location of the obstruction in relation to other obstructions or aids to navigation;

(h) Prevailing and historical weather conditions;

(i) Length of time that the obstruction has been in existence;

(j) History of vessel incidents involving the obstruction; and

(k) Whether the obstruction is defined as a hazard to navigation under other statutes or regulations.

[CGD 91–031, 57 FR 43403, Sept. 21, 1992]

§ 64.33 Marking by the Coast Guard.

(a) The District Commander may mark for the protection of maritime navigation any structure, sunken vessel or other obstruction that is not suitably marked by the owner. Markings established by the Coast Guard do not relieve the owner's duty or responsibility to mark the sunken vessel or other obstruction, or to remove it as required by law.

(b) Costs for markings established by the Coast Guard will be determined in accordance with part 74 of this Chapter.

(c) Costs for marking of a sunken vessel or other obstruction shall be charged to the owner and shall continue until:

(1) The vessel or other obstruction is removed;

(2) The right of the owner to abandon is legally established and has been exercised; or

(3) The District Commander directs otherwise.

NOTE: When the needs of navigation permit, the owner may be given reasonable opportunity to establish and maintain the necessary markings.

§ 66.01–1 Basic provisions.

(a) No person, public body or instrumentality not under the control of the Commandant, exclusive of the Armed Forces, shall establish and maintain, discontinue, change or transfer ownership of any aid to maritime navigation, without first obtaining permission to do so from the Commandant.

(b) For the purposes of this subpart, the term private aids to navigation includes all marine aids to navigation operated in the navigable waters of the United States other than those operated by the Federal Government (part 62 of this subchapter) or those operated

in State waters for private aids to navigation (subpart 66.05).

(c) Coast Guard authorization of a private aid to navigation does not authorize any invasion of private rights, nor grant any exclusive privileges, nor does it obviate the necessity of complying with any other Federal, State or local laws or regulations.

(d) With the exception of radar beacons (racons) and shore based radar stations, operation of electronic aids to navigation as private aids will not be authorized.

§ 66.01–3 Delegation of authority to District Commanders.

(a) Under Section 888 of Pub. L. 107–296, 116 Stat. 2135, the Commandant delegates to the District Commanders within the confines of their respective districts (see Part 3 of this chapter for descriptions) the authority to grant permission to establish and maintain, discontinue, change or transfer ownership of private aids to maritime navigation, and otherwise administer the requirements of this subpart.

(b) The decisions of the District Commander may be appealed within 30 days from the date of decision. The decision of the Commandant in any case is final.

§ 66.01–5 Application procedure.

To establish and maintain, discontinue, change, or transfer ownership of a private aid to navigation, you must apply to the Commander of the Coast Guard District in which the aid is or will be located. You can find application form CG–2554 at *http://www.uscgboating.org/safety/aton/aids.htm* or you can request a paper copy by calling the Boating Safety Information line at (800) 368–5647. You must complete all parts of the form applicable to the aid concerned, and must forward the application to the District Commander. You must include the following information:

(a) The proposed position of the aid to navigation by two or more horizontal angles, bearings and distance from charted landmarks, or the latitude and longitude as determined by GPS or differential GPS. Attach a section of chart or sketch showing the proposed position.

(b) The name and address of the person at whose expense the aid will be maintained.

(c) The name and address of the person who will maintain the aid to navigation.

(d) The time and dates during which it is proposed to operate the aid.

(e) The necessity for the aid.

(f) For lights: The color, characteristic, range, effective intensity, height above water, and description of illuminating apparatus. Attach a copy of the manufacturer's data sheet to the application.

(g) For sound signals: Type (whistle, horn, bell, etc.) and characteristic.

(h) For buoys or daybeacons: Shape, color, number, or letter, depth of water in which located or height above water.

(i) For racons: Manufacturer and model number of racon, height above water of desired installation, and requested coding characteristic. Equipment must have FCC authorization.

§ 66.01–11 Lights.

(a) Except for range and sector lights, each light approved as a private aid to navigation must:

(1) Have at least the effective intensity required by this subpart omnidirectionally in the horizontal plane, except at the seams of its lens-mold.

(2) Have at least 50% of the effective intensity required by this subpart within ±2° of the horizontal plane.

(3) Have a minimum effective intensity of at least 1 candela for a range of 1 nautical mile, 3 candelas for one of 2 nautical miles, 10 candelas for one of 3 nautical miles, and 54 candelas for one of 5 nautical miles. The District Commander may change the requirements for minimum intensity to account for local environmental conditions. For a flashing light this intensity is determined by the following formula:

$Ie=G/(0.2+t_2-t_1)$

Where:

Ie = Effective intensity
G = The integral of the instantaneous intensity of the flashed light with respect to time
t_1 = Time in seconds at the beginning of the flash
t_2 = Time in seconds at the end of the flash
t_2-t_1 is greater than or equal to 0.2 seconds.

(4) Unless the light is a prefocused lantern, have a means of verifying that the source of the light is at the focal point of the lens.

(5) Emit a color within the angle of 50% effective intensity with color coordinates lying within the boundaries defined by the corner coordinates in Table 66.01–11(5) of this part when plotted on the Standard Observer Diagram of the International Commission on Illumination (CIE).

(6) Have a recommended interval for replacement of the source of light that ensures that the lantern meets the minimal required intensity stated in paragraph (a)(3) of this section in case of degradation of either the source of light or the lens.

(7) Have autonomy of at least 10 days if the light has a self-contained power system. Power production for the prospective position should exceed the load during the worst average month of insolation. The literature concerning the light must clearly state the operating limits and service intervals. Low-voltage disconnects used to protect the battery must operate so as to prevent sporadic operation at night.

(b) The manufacturer of each light approved as a private aid to navigation must certify compliance by means of an indelible plate or label affixed to the aid that meets the requirements of §66.01–14.

§ 66.01–15 Action by Coast Guard.

(a) The District Commander receiving the application will review it for completeness and will assign the aid one of the following classifications:

Class I: Aids to navigation on marine structures or other works which the owners are legally obligated to establish, maintain and operate as prescribed by the Coast Guard.

Class II: Aids to navigation exclusive of Class I located in waters used by general navigation.

§ 66.01–20 Inspection.

All classes of private aids to navigation shall be maintained in proper operating condition. They are subject to inspection by the Coast Guard at any time and without prior notice.

§ 66.01–25 Discontinuance and removal.

(a) No person, public body or instrumentality shall change, move or discontinue any authorized private aid to navigation required by statute or regulation (Class I, §66.01–15) without first obtaining permission to do so from the District Commander.

(b) Any authorized private aid to navigation not required by statute or regulation (Classes II and III, §66.01–15) may be discontinued and removed by the owner after 30 days' notice to the District Commander to whom the original request for authorization for establishment of the aid was submitted.

§ 66.01–40 Exemptions.

(a) Nothing in the preceding sections of this subpart shall be construed to interfere with or nullify the requirements of existing laws and regulations pertaining to the marking of structures, vessels and other obstructions sunken in waters subject to the jurisdiction of the United States (Part 64 of this subchapter), the marking of artificial islands and structures which are erected on or over the seabed and subsoil of the Outer Continental Shelf (Part 67 of this subchapter), or the lighting of bridges over navigable waters of the United States (Subchapter J of this subchapter).

(b) Persons marking bridges pursuant to Subchapter J of this title are exempted from the provisions of §66.01–5.

[CGD 78–156, 48 FR 11268, Mar. 17, 1983]

§ 66.01–45 Penalties.

Any person, public body or instrumentality, excluding the armed forces,

who shall establish, erect or maintain any aid to maritime navigation without first obtaining authority to do so from the Coast Guard, with the exception of those established in accordance with §64.10 of this chapter, or who shall violate the regulations relative thereto issued in this part, is subject to the provisions of 14 U.S.C. 83.

[CGD 78–156, 48 FR 11268, Mar. 17, 1983]

§ 66.01–50 Protection of private aids to navigation.

Private aids to navigation lawfully maintained under these regulations are entitled to the same protection against interference or obstruction as is afforded by law to Coast Guard aids to navigation (Part 70 of this subchapter). If interference or obstruction occurs, a prompt report containing all the evidence available should be made to the Commander of the Coast Guard District in which the aids are located.

§ 66.01–55 Transfer of ownership.

(a) When any private aid to navigation authorized by the District Commander, or the essential real estate or facility with which the aid is associated, is sold or transferred, both parties to the transaction shall submit application (§66.01–5) to the Commander of the Coast Guard District in which the aid is located requesting authority to transfer responsibility for maintenance of the aid.

(b) The party relinquishing responsibility for maintenance of the private aid to navigation shall indicate on the application form (CG–2554) both the discontinuance and the change of ownership of the aid sold or transferred.

(c) The party accepting responsibility for maintenance of the private aid to navigation shall indicate on the application form (CG–2554) both the establishment and the change of ownership of the aid sold or transferred.

(d) In the event the new owner of the essential real estate or facility with which the aid is associated refuses to accept responsibility for maintenance of the aid, the former owner shall be required to remove the aid without expense to the United States. This requirement shall not apply in the case of any authorized private aid to navigation required by statute or regulation (Class I, §66.01–15) which shall be maintained by the new owner until the conditions which made the aid necessary have been eliminated.

Subpart 66.05—State Aids to Navigation

SOURCE: CGFR 66–32, 31 FR 10320, July 30, 1966, unless otherwise noted.

§ 66.05–1 Purpose.

The purpose of the regulations in this subpart is to prescribe the conditions under which state governments may regulate aids to navigation owned by state or local governments, or private parties. With the exception on the provisions of subpart 66.10, which are valid until December 31, 2003, aids to navigation must be in accordance with the United States Aids to Navigation System in part 62 of this subchapter.

[CGD 97–018, 63 FR 33573, June 19, 1998]

§ 66.05–5 Definitions.

(a) The term *State waters for private aids to navigation* means those navigable waters of the United States which the Commandant, upon request of a State Administrator, has designated as waters within which a State government may regulate the establishment, operation, and maintenance of marine aids to navigation, including regulatory markers. The Commandant will entertain requests to make such designations with respect to navigable waters of the United States not marked by the Federal government. These designations when approved will be set forth in separate sections by States in this subpart and will briefly describe or identify waters so designated.

(b) The term Uniform State Waterway Marking System (USWMS) means the system of private aids to navigation which may be operated in State waters. Subpart 66.10, which describes the USWMS, expires on December 31, 2003.

(c) The term *State Administrator* means the official of a State having power under the law of the State to regulate, establish, operate or maintain maritime aids to navigation on

waters over which the State has jurisdiction.

(d) The term *State aids to navigation* means all private marine aids to navigation operated in State waters for private aids to navigation, whether owned by a State, political subdivisions thereof or by individuals, corporations, or organizations.

(e) The term *regulate State maritime aids to navigation* means to control the establishment, disestablishment, operation and maintenance of State aids to navigation.

[CGFR 66–32, 31 FR 10320, July 30, 1966, as amended by CGD 97–018, 63 FR 33573, June 19, 1998]

§ 66.05–10 State waters for private aids to navigation; designations; revisions, and revocations.

(a) A State Administrator who desires to regulate State maritime aids to navigation in the navigable waters of the United States not marked by the Federal Government, shall request the Commandant to designate the specific bodies of water involved as State waters for private aids to navigation.

(b) The request shall be forwarded to the District Commander in whose district the bodies of water are located. The request shall give the name and description of the waterway; the extent of use being made of the waterway for marine navigation, in general terms; an appropriate chart or sketch of the area; and a general outline of the nature and extent of the State aids to navigation which the Administrator plans to establish in the waterway.

(c) The District Commander shall review the request and consult with the State Administrator concerning the terms of an initial agreement to be entered into under provisions of § 66.05–20. When they have arrived at terms of an agreement satisfactory to both, the District Commander shall forward the request to the Commandant with recommendations and the terms of agreement mutually settled upon. If they cannot reach such agreement, the District Commander shall forward the request with recommendations and a statement of the points agreed upon and the points remaining at issue.

(d) Upon receipt of the request, the Commandant will determine whether or not approval of the request is in the public interest and will inform the State Administrator and the District Commander of the Coast Guard's decision. If the request is approved, the designation by the Commandant of the waters in question as State waters for private aids to navigation will be also defined and described in this subpart.

(e) The Commandant may, upon his or her own initiative or upon request, revoke or revise any designations of State waters for private aids to navigation previously made by him or her. Written notice shall be given the State Administrator of the action contemplated by the Commandant. The State Administrator will be afforded a period of not less than 30 days from the date of the notice in which to inform the Commandant of the State's views in the matter before final action is completed to revoke or revise such designation.

[CGFR 66–32, 31 FR 10320, July 30, 1966, as amended by USCG–2001–10714, 69 FR 24982, May 5, 2004]

§ 66.05–20 Coast Guard-State agreements.

(a) The District Commander in whose District a waterway is located may enter into agreements with State Administrators permitting a State to regulate aids to navigation, including regulatory markers, in State waters for private aids to navigation, as, in the opinion of the District Commander, the State is able to do in a manner to improve the safety of navigation. When a waterway is located within the area of jurisdiction of more than one Coast Guard District, the District Commander in whose District the State capital is located shall execute the agreement in behalf of the Coast Guard. All such agreements shall reserve to the District Commander the right to inspect the State aids to navigation without prior notice to the State. They shall stipulate that State aids to navigation will conform to the Uniform State Waterway marking System or to the U.S. Aids to Navigation System and that the State Administrator will modify or remove State aids to navigation without expense to the United States when so directed by the District Commander, subject to the

right of appeal on the part of the State Administrator to the Commandant.

(b) A Coast Guard-State agreement shall become effective when both parties have signed the agreements. In lieu of the procedure prescribed in § 66.01–5, the agreement shall constitute blanket approval by the Commandant, of the State aids to navigation, including regulatory markers, established or to be established in State waters for private aids to navigation designated or to be designated by the Commandant.

(c) In addition to the matters set forth in paragraph (a) of this section, Coast Guard-State agreements shall cover the following points, together with such other matters as the parties find it desirable to include:

(1) A description, in sufficient detail for publication in Notices to Mariners, of all aids to navigations under State jurisdiction in navigable waters of the United States in existence prior to the effective date of the agreement which have not been previously approved under procedures of § 66.01–5.

(2) Procedures for use by the State administrator to notify the District Commander of changes made in State aids to navigation, as required by § 66.05–25.

(3) If prior to December 21, 2003, specification of the marking system to be used, whether the U.S. Aids to Navigation System or the Uniform State Waterway Marking System.

(4) Specification of standards as to minimum size and shape of markers, the use of identifying letters, the use of reflectors or retroreflective materials, and any other similar standards so as to enable Coast Guard inspectors to determine compliance with Statewide standards.

[CGD 86–031, 52 FR 42645, Nov. 6, 1987, as amended by CGD 97–018, 63 FR 33573, June 19, 1998]

§ 66.05–25 Change and modification of State aids to navigation.

Wherever a State Administrator determines the need for change in State aids to navigation, he or she must inform the District Commander of the nature and extent of the changes, as soon as possible, but not less than 30 days in advance of making the changes.

[USCG–2001–10714, 69 FR 24982, May 5, 2004]

§ 66.05–30 Notice to Mariners.

(a) To improve public safety, the District Commander may publish information concerning State aids to navigation, including regulatory markers, in the Coast Guard Local Notices to Mariners.

(b) Notices to Mariners which concern the establishment, disestablishment, or change of State aids to navigation, including regulatory markers, may be published whenever the aids to navigation concerned are covered by navigational charts or maps issued by the National Ocean Service or the U.S. Army Corps of Engineers.

[CGFR 66–32, 31 FR 10320, July 30, 1966, as amended by USCG–2000–7223, 65 FR 40055, June 29, 2000; USCG–2001–9286, 66 FR 33640, June 25, 2001; USCG–2001–10714, 69 FR 24982, May 5, 2004]

§ 66.05–35 Private aids to navigation other than State owned.

(a) No person, public body or other instrumentality not under control of the Commandant or the State Administrator, exclusive of the Armed Forces of the United States, shall establish, erect or maintain in State waters for private aids to navigation any aid to navigation without first obtaining permission to do so from the State Administrator. Discontinuance of any State aids to navigation may be effected by order of the State Administrator.

§ 66.05–40 Corps of Engineers' approval.

(a) In each instance where a regulatory marker is to be established in navigable waters of the United States which have been designated by the Commandant as State waters for private aids to navigation, the State Administrator is responsible for obtaining prior permission from the District Engineer, U.S. Army Corps of Engineers concerned, authorizing the State to regulate the water area involved, or a statement that there is no objection to the proposed regulation of the water area. A copy of the Corps of Engineers permit or letter of authority shall be

provided by the Administrator to the District Commander upon request.

(b) Similarly, where an aid to navigation is to be placed on a fixed structure or a mooring buoy is to be established in State waters for private aids to navigation, the State Administrator shall assure that prior permission or a statement of no objection to the structures or mooring buoys proposed is obtained from the District Engineer concerned. A copy of the permit or letter is not required by the District Commander.

§ 66.05–100 Designation of navigable waters as State waters for private aids to navigation.

In accordance with the procedures contained in § 66.05–10(d), the following navigable waters listed by the State in which they are located, are designated as State waters for private aids to navigation:

(a) *Arizona.* The portion of Lake Havasu within the State, except that portion within Havasu Lake National Wildlife Refuge.

Subpart 66.10—Uniform State Waterway Marking System

§ 66.10–1 General.

(a) Until December 31, 2003, the Uniform State Waterway Marking System's (USWMS) aids to navigation provisions for marking channels and obstructions may be used in those navigable waters of the U.S. that have been designated as state waters for private aids to navigation and in those internal waters that are non-navigable waters of the U.S. All other provisions for the use of regulatory markers and other aids to navigation shall be in accordance with United States Aid to Navigation System, described in part 62 of this subchapter.

(b) The USATONS may be used in all U.S. waters under state jurisdiction, including non-navigable state waters.

[CGD 97–018, 63 FR 33574, June 19, 1998]

§ 66.10–5 [Reserved]

§ 66.10–10 [Reserved]

§ 66.10–15 Aids to navigation.

(a) USWMS aids to navigation may have lateral or cardinal meaning.

(b) On a well defined channel including a river or other relatively narrow natural or improved waterway, an aid to navigation shall normally be a solid colored buoy. A buoy which marks the left side of the channel viewed looking upstream or toward the head of navigation shall be colored all black. A buoy which marks the right side of the channel viewed looking upstream or toward

the head of navigation shall be colored all red. On a well defined channel, solid colored buoys shall be established in pairs, one on each side of the navigable channel which they mark, and opposite each other to inform the user that the channel lies between the buoys and that the user should pass between the buoys.

(c) On an irregularly defined channel, solid colored buoys may be used singly in staggered fashion on alternate sides of the channel provided they are spaced at sufficiently close intervals to inform the user that the channel lies between the buoys and that the user should pass between the buoys.

(d) Where there is no well-defined channel or when a body of water is obstructed by objects whose nature or location is such that the obstruction can be approached by a vessel from more than one direction, supplemental aids to navigation having cardinal meaning (i.e., pertaining to the cardinal points of the compass, north, east, south, and west) may be used. The use of an aid to navigation having cardinal meaning is discretionary provided that the use of such a marker is limited to wholly State owned waters and the State waters for private aids to navigation as defined and described in this part.

(e) Aids to navigation conforming to the cardinal system shall consist of three distinctly colored buoys.

(1) A white buoy with a red top may be used to indicate to a vessel operator that the operator must pass to the south or west of the buoy.

(2) A white buoy with a black top may be used to indicate to a vessel operator that the operator must pass to the north or east of the buoy.

(3) In addition, a buoy showing alternate vertical red and white stripes may be used to indicate to a vessel operator that an obstruction to navigation extends from the nearest shore to the buoy and that the operator must not pass between the buoy and shore. The number of white and red stripes is discretionary, provided that the white stripes are twice the width of the red stripes.

Subpart 67.01—General Requirements

§ 67.01–1 Scope.

(a) The regulations in this part prescribe the obstruction lights and sound signals to be operated as privately maintained maritime aids to navigation on the artificial islands and structures which are erected on or over the seabed and subsoil of the Outer Continental Shelf and in the waters under the jurisdiction of the United States, for the purpose of exploring for, developing, removing and transporting resources therefrom.

(b) Subpart 66.01 in Part 66 of this subchapter shall be applicable to all private aids to navigation erected on or over the Outer Continental Shelf in the same manner and to the same extent as they are applicable to private aids to navigation established, erected, or maintained in the waters under the jurisdiction of the United States.

§ 67.01–5 Definitions.

(a) *Structures.* The term ''structures'' as used in this part shall include all fixed structures, temporary or permanent, for which a Corps of Engineers' permit is issued. It shall include, but is not necessarily limited to, all drilling platforms, Mobile Offshore Drilling Units (MODUs) when attached to the bottom, production platforms, quarters platforms, pipe line riser platforms, manifold platforms, loading platforms, boat landings, caissons, well protective structures, tank battery barges submerged on station, drilling barges submerged on location, breakwater barges submerged on location, artificial islands and all other piles, pile clusters, pipes, or structures erected in the waters.

(b) *Class ''A'', ''B'', or ''C'' structures.* The term ''Class A, B, or C structures'' refers to the classification assigned to structures erected in areas in which corresponding requirements for marking are prescribed.

(c) *Line of demarcation.* The term ''line of demarcation'' means the dividing line used administratively to distinguish between the areas in which structures shall conform to Class ''A'' and Class ''B'' or ''C'' requirements.

(d) *Outer Continental Shelf.* The term ''Outer Continental Shelf'' means all submerged lands lying seaward and outside the area of lands beneath navigable waters as defined in the Submerged Lands Act (sec. 2, 67 Stat. 29, 43 U. S. C. 1301), and of which the subsoil and seabed appertain to the United States and are subject to its jurisdiction and control.

(e) *Reliable operation.* The term ''reliable'' as used in this part shall mean

that dependability which will insure to the highest degree reasonably possible the uninterrupted operation of lights and sound signals as private aids to navigation for safety of marine commerce.

(f) *Sound signal.* The term ''sound signal'' as used in this part shall mean the audible sound signal, authorized as a private aid to navigation, to mark a structure for the safety of marine commerce whenever the visibility has been reduced by fog, mist, rain, falling snow, smoke, dust, or other phenomena.

[CGFR 58–17, 23 FR 3377, May 20, 1958, as amended by CGFR 63–18, 28 FR 4026, Apr. 14, 1963; USCG–2001–10714, 69 FR 24983, May 5, 2004]

§67.01–10 Delegation of functions.

The Coast Guard District Commander may delegate the authority for performing inspections, enforcement, and administration of regulations to any civilian or military position in the Coast Guard.

[USCG–2001–10714, 69 FR 24983, May 5, 2004]

§67.01–15 Classification of structures.

(a) *When will structures be assigned to a Class?* The District Commander will assign structures to Class A, B, or C as part of processing an application for a permit to establish and operate lights and sound signals.

(b) *In general, where will the different classes of structures be located?* Specific criteria in paragraph (c) of this section may create exceptions, but, in general, structures the farthest from shore are likely to be assigned to Class A and required to have obstruction lights and sound signals that can be detected from the farthest distance. Structures closest to shore are likely to be assigned to Class C and, while subject to requirements to ensure that they are also detectable from a safe distance away, will be required to have the least powerful obstruction lights or sound signals. The location and standards for Class B structures will generally be in between Class A and C structures.

(c) *What criteria will be used to classify structures?* When assigning a structure to a class, the District Commander will take into consideration whether a line of demarcation has been prescribed, and matters concerning, but not necessarily limited to, the dimensions of the structure and the depth of water in which it is located, the proximity of the structure to vessel routes, the nature and amount of vessel traffic, and the effect of background lighting.

(1) If a line of demarcation has been prescribed, the District Commander will assign those structures seaward of the line of demarcation to Class A. He or she will assign all structures shoreward of the line of demarcation to either Class B or Class C, unless the District Commander determines under §67.05–25 that the structure should be assigned to Class A because of the structure's proximity to a navigable channel, fairway or line of demarcation.

(2) If a line of demarcation has not been prescribed, the District Commander will assign a structure to Class A, B, or C as he or she deems appropriate.

[USCG–2001–10714, 69 FR 24983, May 5, 2004]

§67.01–20 Prescribing lines of demarcation.

The District Commander sends recommendations for establishing or changing lines of demarcation to the Commandant. For the purposes of this part, when the Commandant approves of additions to or changes in prescribed lines of demarcation, such additions or changes will be published in the FEDERAL REGISTER and will become effective on the date specified in that publication.

[USCG–2001–10714, 69 FR 24983, May 5, 2004]

§67.01–30 Equivalents.

The use of alternate equipment, apparatus, or installation arrangements specified in this part may be permitted by the District Commander to such extent and under such conditions as will result in achieving a degree of safety or compliance with these regulations equivalent to or above the minimum requirements set forth in this part.

Subpart 67.05—General Requirements for Lights

§ 67.05–1 Arrangement of obstruction lights.

(a) Structures having a maximum horizontal dimension of 30 feet or less on any one side, or in diameter, shall be required to have one obstruction light visible for 360°.

(b) Structures having a maximum horizontal dimension of over 30 feet, but not in excess of 50 feet, on any one side, or in diameter, shall be required to have two obstruction lights installed on diagonally opposite corners, 180° apart, or as prescribed by the District Commander, each light to have a 360° lens.

(c) Structures having a horizontal dimension of over 50 feet on any one side, or in diameter, shall be required to have an obstruction light on each corner, or 90° apart in the case of circular structures, or as prescribed by the District Commander, each light to have a 360° lens.

(d) Where the overall dimensions of a structure require the installation of two or more obstruction lights, the lights shall all be mounted on the same horizontal plane within the limitations of height specified in § 67.20–5, § 67.25–5, or § 67.30–5, as applicable.

(e) Lesser structures and piles, pile clusters or flare templates, etc., will not normally be required to be marked by obstruction lights, when they are located within 100 yards of a Class ''A'', ''B'' or ''C'' structure marked by established obstruction lights, but they shall be marked with red or white retro-reflective material, installed as prescribed by the District Commander.

(f) All obstruction lights shall be installed in a manner which will permit at least one of them to be carried in sight of the mariner, regardless of the angle of approach, until the mariner is within 50 feet of the structure, visibility permitting.

[CGFR 58–17, 23 FR 3377, May 20, 1958, as amended by USCG–2001–10714, 69 FR 24983, May 5, 2004]

§ 67.05–5 Multiple obstruction lights.

When more than one obstruction light is required by this part to mark a structure, all such lights shall be operated to flash in unison.

§ 67.05–10 Characteristics of obstruction lights.

All obstruction lights required by this part shall be powered from a reliable power source, including auxiliary power sources as necessary. They shall display a quick-flash characteristic of approximately 60 flashes per minute, unless prescribed otherwise in the permit issued by the District Commander. Their color shall be white when marking Class ''A'' and ''B'' structures, and either white or red, as prescribed by the District Commander, when marking Class ''C'' structures. In determining whether white or red lights shall be authorized, the District Commander shall take into consideration matters concerning, but not necessarily limited to, the dimensions of the structure and the depth of water in which it is located; the proximity of the structure to vessel routes; the nature and amount of vessel traffic; and the effect of background lighting.

§ 67.05–15 Operating periods of obstruction lights.

Obstruction lights shall be displayed at all times between the hours of sunset and sunrise, local time, commencing at the time the construction of a structure is begun. During construction and until such time as a platform capable of supporting the obstruction lights is completed, the fixed lights on an attending vessel shall be used. In addition, when lights are in use for general illumination to facilitate the construction or operation of a structure, and can be seen from any angle of approach at a distance equal to that prescribed for the obstruction lights for the class of structure, the actual operation of obstruction lights also will not be required.

[CGFR 58–34, 23 FR 7701, Oct. 4, 1958]

§ 67.05–20 Minimum lighting requirements.

The obstruction lighting requirements prescribed in this part are the minimum requirements only and shall not preclude the maintainer from making application for authorization to establish more lights, or lights of greater

intensity than required to be visible at the distances prescribed: *Provided,* That the prescribed characteristics of color and flash duration are adhered to.

§ 67.05–25 Special lighting requirements.

Whenever a structure is erected in a position on or adjacent to the edges of navigable channels and fairways, or lines of demarcation, the District Commander is authorized to require the structure to be marked by the lights which in his judgment are necessary for the safety of marine commerce, and without regard to the fact that the structure may be located in an area in which either Class ''B'' or Class ''C'' requirements are otherwise applicable. The requirements for the lights in any of these cases, shall not exceed those established for structures in the Class ''A'' areas.

(ii) Exempt the structure from the requirements of this paragraph, under the provisions of paragraph (c) of this section;

(2) Operate the sound signal when the visibility in any direction is less than 3 miles, unless the District Commander establishes a greater or lesser distance of visibility, not to exceed 5 miles, under the provisions of paragraph (b) or (c) of this section.

(b) The owner of a Class ''B'' structure shall install a sound signal with a greater rated range or operate it at times of greater visibility than required in paragraph (a) of this section if:

(1) The structure is erected on or adjacent to the edge of a:

(i) Navigable channel;

(ii) Fairway; or

(iii) Line of demarcation; and

(2) The District Commander decides a greater range or operation of the sound signal at times of greater visibility is necessary for the safety of marine commerce.

(a) The obstruction lights shall be white or red lights as prescribed in Subpart 67.05 of this part and shall be of sufficient candlepower as to be visible at a distance of at least one nautical mile 90 percent of the nights of the year. The lights shall be displayed at such height, above mean high water, as shall be prescribed by the District Commander. When the District Commander shall authorize red lights to mark a Class ''C'' structure, the color thereof shall conform to the shade of red prescribed in Military Specification Mil-C-25050 (ASG), Type 1, Grade D. A copy of the specification may be obtained from the Commanding Officer, Document Automation and Production Service, 700 Robbins Avenue, Building 4, Section D, Philadelphia, PA 19111–5091.

(b) When Class ''C'' structures are erected in close proximity to each other, or are connected in such a manner as to prevent marine traffic from passing freely through the field, obstruction lights may be authorized to mark the perimeter structures only, when in the judgment of the District Commander the group of structures which are equipped with obstruction lights are so arranged that the particular structures are protected to the degree required by this part, and are not a hazard to navigation.

(c) Unless advised to the contrary by the District Commander, obstruction lights shall be required on Class ''C'' structures erected in depths of water greater than 3 feet at mean low water.

(d) In cases where, although not required, an applicant desires to establish and operate obstruction lights, a permit therefor shall be granted, at the discretion of the District Commander: *Provided,* That the lights meet the requirements set forth in this part.

§ 67.30–10 Sound signals.

(a) The owner of a Class ''C'' structure shall install a sound signal if:

(1) The structure is erected on or adjacent to the edge of a:

(i) Navigable channel;

(ii) Fairways; or

(iii) Line of demarcation; and

(2) The District Commander decides it is necessary for the safety of marine commerce.

(b) Sound signals required by paragraph (a) of this section must have rated range of at least one-half mile, unless the District Commander prescribes a greater rated range, not to exceed 2 miles.

(c) The owner of the structure shall operate the sound signal required by paragraph (a) of this section whenever the visibility in any direction is less than 3 miles, unless the District Commander establishes a greater or lesser distance of visibility, not to exceed 5 miles.

(d) Class ''C'' structures may have sound signals if:

(1) Authorized by the District Commander under the provisions of Subpart 66.01 of this subchapter; and

(2) The sound signal meets the requirements of § 67.10–1 (a) and (b).

Subpart 67.35—Applications

§ 67.35–1 Procedure.

(a) An application, on Coast Guard forms which will be provided by the District Commander upon request, shall be submitted for each private aid to navigation for which a permit is required to establish, operate, move, change or discontinue, except as modified in this subpart.

(b) An application on the prescribed form shall be submitted to the District Commander for each structure to be equipped with obstruction lights and/or sound signals if the structure is to remain in place six months or more. An

application may be made by letter for each structure to be so equipped if the structure is to remain in place less than six months.

(c) One application form only shall be submitted to the District Commander to cover a group of unlighted buoys or daybeacons.

§ 67.35–5 Contents of application.

(a) All applicable items of the prescribed forms shall be completed. A brief descriptive print of the structure or aid to navigation involved shall be furnished with the application, together with a location plat or chart section. When Lambert coordinates are used to plot the position of the aid, the plat or chart shall be annotated to show latitude and longitude of the proposed aid to navigation, except when the position has been described by reference to one or more horizontal angles, or by the bearing and distance from a charted landmark.

(b) Each application shall have appended to it a list showing the type, model, name and address of the manufacturer of the lighting apparatus and sound signal equipment to be used.

(c) Each application shall always specify the date the proposals contained therein are desired to be effective, and approval thereof must be obtained before the proposed action is undertaken.

§ 67.35–10 Private aids to navigation.

See § 67.15–10(b) for review of applications respecting private aids to navigation for spoil banks, artificial islands and dredged channels.

§ 67.35–15 To whom addressed.

The applications and correspondence dealing with private aids to navigation and obstruction lighting should be addressed to the District Commander having jurisdiction over the area.

Subpart 67.40—Notification

§ 67.40–1 Notification to District Commander.

(a) *Class ''A'' structures.* In the case of structures to be located in areas where Class ''A'' requirements must be met, notification shall be given to the District Commander of the approximate date work will commence, as soon as known after a permit is received from the Corps of Engineers, U.S. Army, or 30 days in advance, if possible. Persons constructing structures must notify the District Commander by either telegram or overnight mail on the day they begin construction. Within this notice, they must inform him or her of the lights and sound signals they will use during construction. When construction has been completed, the maintainer shall notify the District Commander to that effect by letter, stating whether or not the authorized obstruction lights and/or sound signals are in operation. Final notification by letter shall be given when the lights used for general illumination, to facilitate the construction or operation of the structure, have been discontinued and the authorized obstruction lights placed in operation.

(b) *Class ''B'' structures.* Notification shall be given to the District Commander in the case of structures to be located in areas where Class ''B'' requirements must be met, in the same manner as prescribed in the case of Class ''A'' structures, except that the telegram on the day construction of the structure is commenced shall not be required.

(c) *Class ''C'' structures.* Notification shall be given to the District Commander in the case of structures to be located in areas where Class ''C'' requirements must be met, upon completion of the structure.

[CGFR 58–17, 23 FR 3377, May 20, 1958, as amended by CGFR 62–32, 27 FR 10101, Oct. 13, 1962; USCG–2001–10714, 69 FR 24984, May 5, 2004]

§ 67.40–5 Waivers.

(a) The District Commander is authorized to modify or waive any requirement prescribed in this part whenever, in his or her judgment, the safety of marine commerce will not be impaired by so doing.

(b) When the District Commander shall determine that changed circumstances in the case of a structure, whose obstruction lights and/or sound signal have been modified or waived, constitutes a hazard to marine navigation, he or she is authorized to revoke or revise his or her previous action and

to require the structure to be appropriately marked by suitable obstruction lights and/or sound signals in accordance with this part.

[CGFR 58–17, 23 FR 3377, May 20, 1958, as amended by USCG–2001–10714, 69 FR 24984, May 5, 2004]

§67.40–10 Communication with owner.

Communication with the owners of private aids to navigation by the District Commander shall be addressed to their usual or last known place of business, or to their local representative, if any. Communication shall be by the method considered appropriate for the circumstances.

§67.40–15 Marking at owner's expense.

The District Commander may mark, for the protection of marine commerce, any structure whenever the owner thereof has failed suitably to mark the same in accordance with this part, and the owner shall reimburse the Coast Guard for all costs incurred.

§67.40–20 Charges invoiced to owner.

Charges to the owner for the cost of marking a structure by the Coast Guard shall be determined in accordance with Part 74 of this subchapter. All such charges shall be invoiced to the owner beginning with the date such marking is established and shall continue until notice is received by the District Commander that the structure has been removed, or until the owner has applied for and been issued a permit by the District Commander to establish and operate the required obstruction lights and/or sound signals or other markings required by this part.

§67.40–25 Penalty.

The penalty for violation is in section 1, 63 Stat. 501 (14 U.S.C. 85), or section 4(e)(2) of the Outer Continental Shelf Lands Act (43 U.S.C. 1333). Any person, firm, company, or corporation who shall fail or refuse to obey any of the lawful rules and regulations issued in this part or pursuant thereto shall be guilty of a misdemeanor and shall be fined not more than $100 for each offense. Each day during which such violation shall continue shall be considered a new offense.

Subpart 67.50—District Regulations

§67.50–1 Scope.

(a) The regulations in this subpart shall apply to the structures which are located within the boundaries of the Coast Guard districts hereinafter defined.

(b) Geographic coordinates expressed in terms of latitude or longitude, or both, are not intended for plotting on maps or charts whose referenced horizontal datum is the North American Datum of 1983 (NAD 83), unless such geographic coordinates are expressly labeled NAD 83. Geographic coordinates without the NAD 83 reference may be plotted on maps or charts referenced to NAD 83 only after application of the appropriate corrections that are published on the particular map or chart being used.

The secondary line of demarcation delimits the areas to the shoreward of which Class ''C'' requirements are imposed. In those areas where no secondary line of demarcation is prescribed, the structures shoreward of the primary line of demarcation are considered to be Class ''C'' structures. Class ''B'' requirements are imposed on the structures in the areas between the two lines of demarcation.

(c) *Seismographic and surveying operations.* (1) All stakes and casings (pipes), except bamboo poles and wooden stakes less than 2 inches in diameter, placed in the water during seismographic or surveying operations shall be marked with flags during the daylight hours. Those casings remaining in place during the hours of darkness shall be marked by a red light as prescribed in Subpart 67.30 of this part.

(2) All buoys used during seismographic operations shall be painted with international orange and white horizontal bands. The buoys shall be of light construction in order that they will not present a hazard to marine commerce.

(d) *Spoil marking.* (1) All submerged spoil resulting from the dredging of channels, laying of pipelines, or any other operation, which constitutes an obstruction to navigation, shall be properly marked. The spoil banks should be examined at frequent intervals in order that the changing conditions may be kept under control. As markers are no longer required due to settling of banks, the Coast Guard will authorize their removal upon application.

(2) All openings in such submerged spoil shall be marked by daybeacons on each side of the openings. When spoil is located on each side of a channel or pipe line, each bank will be considered separately. The daybeacons shall be equipped with arrows designating the safe water through the opening. These daybeacons may also be used as channel markers for the dredged channels providing they are also equipped with arrows designating the spoil bank openings.

(3) When spoil banks constituting an obstruction to navigation abut an established traveled waterway, the outboard spoil bank markers shall be equipped with quick flashing lights described in Subpart 67.30 of this part, except that the color shall be in accordance with the provisions of Subpart 62.25 of Part 62 of this subchapter.

(e) *Applications.* All applications for private aids to navigation and all correspondence dealing with private aids to navigation and obstruction lighting must be addressed to Commander (oan), Eighth Coast Guard District, Hale Boggs Federal Building, 501 Magazine Street, New Orleans, Louisiana 70130–3396.

(f) *Enclosures.* Applicants shall append on a separate sheet with each application, the description, including manufacturer, of obstruction lights and sound signals.

(g) *Corps of Engineers correspondence.* A copy of all correspondence directed to the District Engineer, Corps of Engineers, U.S. Army, in accordance with condition (i) of the Department of the Army permit, shall be forwarded to the District Commander for those operations conducted under permits authorizing the erection of structures in areas in which Class ''A'', Class ''B'', or Class ''C'' requirements must be met.

SUBCHAPTER D—INTERNATIONAL NAVIGATION RULES

Special Note—Application of the 72 COLREGS to territories and possessions.

a. Article III of the Convention on the International Regulations for Preventing Collisons at Sea, 1972 (72 COLREGS), done at London, October 20, 1972, as rectified by Proces-Verbal of December 1, 1973, provides that a party may notify the Secretary-General of the International Maritime Organization (IMO, formerly Inter-Governmental Maritime Consultative Organization or IMCO) that it extends the application of the Convention to territory for which it is responsible for international relations. Since it is the intention of the United States that the 72 COLREGS apply to all U.S. territories and possessions to the same extent that the International Regulations for Preventing Collisions at Sea, 1960 (60 COLREGS) (16 USC 794, TIAS 5813) previously applied, the United States has given notice to the Secretary-General that the provisions of the 1972 COLREGS are applicable on July 15, 1977, to the following territories and possessions for which the United States is responsible for international relations:

Puerto Rico
Guam
The Canal Zone
The Virgin Islands of the United States
American Samoa
Midway Island
Wake Island
Johnston Island
Palmyra Island
Kingman Reef
Howland Island
Baker Island
Jarvis Island
Navassa Island

b. In accordance with Article III, other parties to the Convention have notified the Secretary-General that application of 72 COLREGS is extended. These parties with their territorial extensions are listed in Table 1.

TABLE 1. TERRITORIAL EXTENSIONS OF OTHER PARTIES TO 72 COLREGS

Party to convention	Territories to which 72 COLREGS are extended
United Kingdom	Hong Kong.

Because earlier formulations of the COLREGS were not elaborated as treaties, they came into force by the almost simultaneous enactment of domestic legislation by the majority of maritime nations. The COLREGS were judicially considered as being customary international law, that is to say international law based upon the consensus of maritime nations rather than upon an express instrument. Because 72 COLREGS was elaborated as a treaty, and under usual treaty practice only parties are bound, there may be a period of time after the 72 COLREGS come into force during which the ships of a nation not party to 72 COLREGS might not be considered as being bound to comply with the convention. While it is most likely that the 72 COLREGS will rapidly achieve the status of customary international law, thereby obviating any concern on the part of the mariner as to whether a particular nation is a party, it does not necessarily follow that the courts in all nations will apply 72 COLREGS to the vessels of a non-party nation. In the absence of changes in their domestic law there may be certain nations that will feel compelled to continue 60 COLREGS in force, despite the coming into force of 72 COLREGS.

The following nations are Contracting Parties for which 72 COLREGS will apply upon the Convention's entry into force:

Algeria
Bahamas
Belgium
Brazil
Bulgaria
Canada
Denmark
Finland

§ 81.1 Definitions.

As used in this part:

72 COLREGS refers to the International Regulations for Preventing Collisions at Sea, 1972, done at London, October 20, 1972, as rectified by the Proces-Verbal of December 1, 1973, as amended.

A vessel of special construction or purpose means a vessel designed or modified to perform a special function and whose arrangement is thereby made relatively inflexible.

Interference with the special function of the vessel occurs when installation or use of lights, shapes, or sound-signaling appliances under 72 COLREGS prevents or significantly hinders the operation in which the vessel is usually engaged.

[CGD 77–136, 47 FR 13799, Apr. 1, 1982]

§ 81.3 General.

Vessels of special construction or purpose which cannot fully comply with the light, shape, and sound signal provisions of 72 COLREGS without interfering with their special function may instead meet alternative requirements. The Chief of the Marine Safety Division in each Coast Guard District Office makes this determination and requires that alternative compliance be as close as possible with the 72 COLREGS. These regulations set out the procedure by which a vessel may be certified for alternative compliance. The information collection and recordkeeping requirements in §§81.5 and 81.18 have been approved by the Office of Management and Budget under OMB control No. 1625–0019.

[CGD 77–136, 47 FR 13799, Apr. 1, 1982, as amended by USCG–2006–25150, 71 FR 39208, July 12, 2006]

(1) The name, address, and telephone number of the applicant.

(2) The identification of the vessel by its:

(i) Official number;

(iii) Hull identification number; or

(iv) State number, if the vessel does not have an official number or hull identification number.

(3) Vessel name and home port, if known.

(4) A description of the vessel's area of operation.

(5) A description of the provision for which the Certificate of Alternative Compliance is sought, including:

(i) The 72 COLREGS Rule or Annex section number for which the Certificate of Alternative Compliance is sought;

(ii) A description of the special function of the vessel that would be interfered with by full compliance with the provision of that Rule or Annex section; and

(iii) A statement of how full compliance would interfere with the special function of the vessel.

(6) A description of the alternative installation that is in closest possible compliance with the applicable 72 COLREGS Rule or Annex section.

(7) A copy of the vessel's plans or an accurate scale drawing that clearly shows:

(i) The required installation of the equipment under the 72 COLREGS,

(ii) The proposed installation of the equipment for which certification is being sought, and

(A) The required location; and

(a) Identification of the vessel as supplied in the application under §81.5(a)(2);

(b) The provision of the 72 COLREGS for which the Certificate authorizes alternative compliance;

(c) A certification that the vessel is unable to comply fully with the 72 COLREGS lights, shape, and sound signal requirements without interference with its special function;

(d) A statement of why full compliance would interfere with the special function of the vessel;

(e) The required alternative installation;

(f) A statement that the required alternative installation is in the closest possible compliance with the 72 COLREGS without interfering with the special function of the vessel;

(g) The date of issuance;

(h) A statement that the Certificate of Alternative Compliance terminates when the vessel ceases to be usually engaged in the operation for which the certificate is issued.

[CGD 77–136, 47 FR 13800, Apr. 1, 1982]

§ 81.17 Certificate of Alternative Compliance: Termination.

The Certificate of Alternative Compliance terminates if the information supplied under §81.5(a) or the Certificate issued under §81.9 is no longer applicable to the vessel.

[CGD 77–136, 47 FR 13800, Apr. 1, 1982]

§ 81.18 Notice and record of certification of vessels of special construction or purpose.

(a) In accordance with 33 U.S.C. 1605(c), a notice is published in the FEDERAL REGISTER of the following:

(1) Each Certificate of Alternative Compliance issued under §81.9; and

(2) Each Coast Guard vessel determined by the Commandant to be a vessel of special construction or purpose.

(b) Copies of Certificate of Alternative Compliance and documentation concerning Coast Guard vessels are available for inspection at Marine Safety, Security and Environmental Protection, U.S. Coast Guard Headquarters, 2100 Second Street SW., Washington, DC 20593–0001.

(c) The owner or operator of a vessel issued a Certificate shall ensure that the vessel does not operate unless the Certificate of Alternative Compliance or a certified copy of that Certificate is

on board the vessel and available for inspection by Coast Guard personnel.

EXEMPTIONS

§ 81.20 Lights and sound signal appliances.

Each vessel under the 72 COLREGS, except the vessels of the Navy, is exempt from the requirements of the 72 COLREGS to the limitation for the period of time stated in Rule 38 (a), (b), (c), (d), (e), (f), and (g) if:

(a) Her keel is laid or is at a corresponding stage of construction before July 15, 1977; and

(b) She meets the International Regulations for Preventing Collisions at Sea, 1960 (77 Stat. 194, 33 U.S.C. 1051–1094).

§ 82.1 Purpose.

This part contains the interpretative rules concerning the 72 COLREGS that are adopted by the Coast Guard for the guidance of the public.

[CGD 76–133, 42 FR 35792, July 11, 1977. Redesignated by CGD 81–017, 46 FR 28154, May 26, 1981]

§ 82.3 Pushing vessel and vessel being pushed: Composite unit.

Rule 24(b) of the 72 COLREGS states that when a pushing vessel and a vessel being pushed ahead are rigidly connected in a composite unit, they are regarded as a power-driven vessel and must exhibit the lights under Rule 23. A ''composite unit'' is interpreted to be a pushing vessel that is rigidly connected by mechanical means to a vessel being pushed so they react to sea and swell as one vessel. ''Mechanical means'' does not include the following:

(a) Lines.
(b) Hawsers.
(c) Wires.
(d) Chains.

§ 84.01 Definitions.

(a) The term *height above the hull* means height above the uppermost continuous deck. This height shall be measured from the position vertically beneath the location of the light.

(b) *High-speed craft* means a craft capable of maximum speed in meters per second (m/s) equal to or exceeding: $3.7\nabla^{0.1667}$; where ∇=displacement corresponding to the design waterline ($meters_3$).

NOTE TO PARAGRAPH (b): The same formula expressed in pounds and knots is maximum speed in knots (kts) equal to exceeding 1.98 (lbs) $\nabla^{0.1667}$; where ∇=displacement corresponding to design waterline in pounds.

(c) The term *practical cut-off* means, for vessels 20 meters or more in length, 12.5 percent of the minimum luminous intensity (Table 84.15(b)) corresponding to the greatest range of visibility for which the requirements of Annex I are met.

(d) The term *Rule* or *Rules* means the Inland Navigation Rules contained in sec. 2 of the Inland Navigational Rules Act of 1980 (Pub. L. 96–591, 94 Stat. 3415, 33 U.S.C. 2001, December 24, 1980) as amended.

[CGD 81–008, 46 FR 62447, Dec. 24, 1981, as amended by CGD 94–011, 63 FR 5731, Feb. 4, 1998]

§ 84.03 Vertical positioning and spacing of lights.

(a) On a power-driven vessel of 20 meters or more in length the masthead lights shall be placed as follows:

(1) The forward masthead light, or if only one masthead light is carried, then that light, at a height above the hull of not less than 5 meters, and, if the breadth of the vessel exceeds 5 meters, then at a height above the hull not less than such breadth, so however that the light need not be placed at a greater height above the hull than 8 meters;

(2) When two masthead lights are carried the after one shall be at least 2 meters vertically higher than the forward one.

(b) The vertical separation of the masthead lights of power-driven vessels shall be such that in all normal conditions of trim the after light will be seen over and separate from the forward light at a distance of 1000 meters from the stem when viewed from water level.

(c) The masthead light of a power-driven vessel of 12 meters but less than 20 meters in length shall be placed at a height above the gunwale of not less than 2.5 meters.

(d) The masthead light, or the all-round light described in Rule 23(c), of a power-driven vessel of less than 12 meters in length shall be carried at least one meter higher than the sidelights.

(e) One of the two or three masthead lights prescribed for a power-driven vessel when engaged in towing or pushing another vessel shall be placed in the same position as either the forward masthead light or the after masthead light, provided that the lowest after masthead light shall be at least 2 meters vertically higher than the highest forward masthead light.

(f)(1) The masthead light or lights prescribed in Rule 23(a) shall be so placed as to be above and clear of all

other lights and obstructions except as described in paragraph (f)(2) of this section.

(2) When it is impracticable to carry the all-round lights prescribed in Rule 27(b)(i) below the masthead lights, they may be carried above the after masthead light(s) or vertically in between the forward masthead light(s) and after masthead light(s), provided that in the latter case the requirement of §84.05(d) shall be complied with.

(g) The sidelights of a power-driven vessel shall be placed at least one meter lower than the forward masthead light. They shall not be so low as to be interfered with by deck lights.

(h) [Reserved]

(i) When the Rules prescribe two or three lights to be carried in a vertical line, they shall be spaced as follows:

(1) On a vessel of 20 meters in length or more such lights shall be spaced not less than 1 meter apart, and the lowest of these lights shall, except where a towing light is required, be placed at a height of not less than 4 meters above the hull;

(2) On a vessel of less than 20 meters in length such lights shall be spaced not less than 1 meter apart and the lowest of these lights shall, except where a towing light is required, be placed at a height of not less than 2 meters above the gunwale;

(3) When three lights are carried they shall be equally spaced.

(j) The lower of the two all-round lights prescribed for a vessel when engaged in fishing shall be a height above the sidelights not less than twice the distance between the two vertical lights.

(k) The forward anchor light prescribed in Rule 30(a)(i), when two are carried, shall not be less than 4.5 meters above the after one. On a vessel of 50 meters or more in length this forward anchor light shall be placed at a height or not less than 6 meters above the hull.

[CGD 81–008, 46 FR 62447, Dec. 24, 1981, as amended by CGD 89–024, 55 FR 3947, Feb. 6, 1990]

§84.05 Horizontal positioning and spacing of lights.

(a) Except as specified in paragraph (e) of this section, when two masthead lights are prescribed for a power-driven vessel, the horizontal distance between them must not be less than one quarter of the length of the vessel but need not be more than 50 meters. The forward light must be placed not more than one half of the length of the vessel from the stem.

(b) On a power-driven vessel of 20 meters or more in length the sidelights shall not be placed in front of the forward masthead lights. They shall be placed at or near the side of the vessel.

(c) When the lights prescribed in Rule 27(b)(i) are placed vertically between the forward masthead light(s) and the after masthead light(s) these all-round lights shall be placed at a horizontal distance of not less than 2 meters from the fore and aft centerline of the vessel in the athwartship direction.

(d) When only one masthead light is prescribed for a power-driven vessel, this light must be exhibited forward of amidships. For a vessel of less than 20 meters in length, the vessel shall exhibit one masthead light as far forward as is practicable.

(e) On power-driven vessels 50 meters but less than 60 meters in length operated on the Western Rivers, and those waters specified in §89.25, the horizontal distance between masthead lights shall not be less than 10 meters.

[CGD 81–008, 46 FR 62447, Dec. 24, 1981, as amended by CGD 88–07, 53 FR 10533, April 1, 1988; CGD 94–011, 63 FR 5731, Feb. 4, 1998]

§84.07 Details of location of direction-indicating lights for fishing vessels, dredgers and vessels engaged in underwater operations.

(a) The light indicating the direction of the outlying gear from a vessel engaged in fishing as prescribed in Rule 26(c)(ii) shall be placed at a horizontal distance of not less than 2 meters and not more than 6 meters away from the two all-round red and white lights. This light shall be placed not higher than the all-round white light prescribed in Rule 26(c)(i) and not lower than the sidelights.

(b) The lights and shapes on a vessel engaged in dredging or underwater operations to indicate the obstructed side and/or the side on which it is safe to pass, as prescribed in Rule 27(d)(i) and (ii), shall be placed at the maximum

practical horizontal distance, but in no case less than 2 meters, from the lights or shapes prescribed in Rule 27(b)(i) and (ii). In no case shall the upper of these lights or shapes be at a greater height than the lower of the three lights or shapes prescribed in Rule 27(b)(i) and (ii).

§ 84.09 Screens.

(a) The sidelights of vessels of 20 meters or more in length shall be fitted with mat black inboard screens and meet the requirements of § 84.17. On vessels of less than 20 meters in length, the sidelights, if necessary to meet the requirements of § 84.17, shall be fitted with mat black inboard screens. With a combined lantern, using a single vertical filament and a very narrow division between the green and red sections, external screens need not be fitted.

(b) On power-driven vessels less than 12 meters in length constructed after July 31, 1983, the masthead light, or the all-round light described in Rule 23(c) shall be screened to prevent direct illumination of the vessel forward of the operator's position.

§ 84.11 Shapes.

(a) Shapes shall be black and of the following sizes:

(1) A ball shall have a diameter of not less than 0.6 meter;

(2) A cone shall have a base diameter of not less than 0.6 meter and a height equal to its diameter;

(3) A diamond shape shall consist of two cones (as defined in paragraph (a)(2) of this section) having a common base.

(b) The vertical distance between shapes shall be at least 1.5 meter.

(c) In a vessel of less than 20 meters in length shapes of lesser dimensions but commensurate with the size of the vessel may be used and the distance apart may be correspondingly reduced.

§ 84.13 Color specification of lights.

(a) The chromaticity of all navigation lights shall conform to the following standards, which lie within the boundaries of the area of the diagram specified for each color by the International Commission on Illumination (CIE), in the ''Colors of Light Signals'', which is incorporated by reference. It is Publication CIE No. 2.2. (TC–1.6), 1975, and is available from the Illumination Engineering Society, 345 East 47th Street, New York, NY 10017 and is available for inspection at the Coast Guard, Ocean Engineering Division (G-SEC-2), 2100 Second Street SW, Washington, DC 20593–0001. It is also available for inspection at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, call 202–741–6030, or go to: *http://www.archives.gov/federal_register/code_of_federal_regulations/ibr_locations.html.* This incorporation by reference was approved by the Director of the Federal Register.

(b) The boundaries of the area for each color are given by indicating the corner co-ordinates, which are as follows:

§ 84.15 Intensity of lights.

(a) The minimum luminous intensity of lights shall be calculated by using the formula:

$$I = 3.43 \times 10^{6} \times T \times D^{2} \times K^{-D}$$

where I is luminous intensity in candelas under service conditions,

T is threshold factor 2×10^{-7} lux,

D is range of visibility (luminous range) of the light in nautical miles,

K is atmospheric transmissivity. For prescribed lights the value of K shall be 0.8, corresponding to a meteorological visibility of approximately 13 nautical miles.

(b) A selection of figures derived from the formula is given in Table 84.15(b):

TABLE 84.15(B)

§ 84.17 Horizontal sectors.

(a)(1) In the forward direction, sidelights as fitted on the vessel shall show the minimum required intensities. The intensities shall decrease to reach practical cut-off between 1 and 3 degrees outside the prescribed sectors.

(2) For sternlights and masthead lights and at 22.5 degrees abaft the beam for sidelights, the minimum required intensities shall be maintained over the arc of the horizon up to 5 degrees within the limits of the sectors prescribed in Rule 21. From 5 degrees within the prescribed sectors the intensity may decrease by 50 percent up to the prescribed limits; it shall decrease steadily to reach practical cut-off at not more than 5 degrees outside the prescribed sectors.

(b) All-round lights shall be so located as not to be obscured by masts, topmasts or structures within angular sectors of more than 6 degrees, except anchor lights prescribed in Rule 30, which need not be placed at an impracticable height above the hull, and the all-round white light described in Rule 23(d), which may not be obscured at all.

(c) If it is impracticable to comply with paragraph (b) of this section by exhibiting only one all-round light, two all-round lights shall be used suitably positioned or screened to appear, as far as practicable, as one light at a minimum distance of one nautical mile.

NOTE TO PARAGRAPH (c): Tow unscreened all-round lights that are 1.28 meters apart or less will appear as one light to the naked eye at a distance of one nautical mile.

§ 84.19 Vertical sectors.

(a) The vertical sectors of electric lights as fitted, with the exception of lights on sailing vessels underway and on unmanned barges, shall ensure that:

(1) At least the required minimum intensity is maintained at all angles from 5 degrees above to 5 degrees below the horizontal;

(2) At least 60 percent of the required minimum intensity is maintained from 7.5 degrees above to 7.5 degrees below the horizontal.

(b) In the case of sailing vessels underway the vertical sectors of electric lights as fitted shall ensure that:

(1) At least the required minimum intensity is maintained at all angles from 5 degrees above to 5 degrees below the horizontal;

(2) At least 50 percent of the required minimum intensity is maintained from 25 degrees above to 25 degrees below the horizontal.

(c) In the case of unmanned barges the minimum required intensity of electric lights as fitted shall be maintained on the horizontal.

(d) In the case of lights other than electric lights these specifications shall be met as closely as possible

§ 84.21 Intensity of non-electric lights.

Non-electric lights shall so far as practicable comply with the minimum intensities, as specified in the Table given in § 84.15.

§ 84.23 Maneuvering light.

Notwithstanding the provisions of § 84.03(f), the maneuvering light described in Rule 34(b) shall be placed approximately in the same fore and aft vertical plane as the masthead light or lights and, where practicable, at a minimum height of one-half meter vertically above the forward masthead light, provided that it shall be carried not less than one-half meter vertically above or below the after masthead light. On a vessel where only one masthead light is carried the maneuvering light, if fitted, shall be carried where it can best be seen, not less than one-half meter vertically apart from the masthead light.

§ 84.24 High-speed craft.

(a) The masthead light of high-speed craft with a length to breadth ratio of less than 3.0 may be placed at a height related to the breadth lower than that prescribed in §84.03(a)(1), provided that the base angle of the isosceles triangle formed by the side lights and masthead light when seen in end elevation is not less than 27 degrees as determined by the formula in paragraph (b) of this section.

(b) The minimum height of masthead light above sidelights is to be determined by the following formula: Tan $27°=X/Y$; where Y is the horizontal distance between the sidelights and X is the height of the forward masthead light.

PART 85—ANNEX II: ADDITIONAL SIGNALS FOR FISHING VESSELS FISHING IN CLOSE PROXIMITY

Sec.
85.1 General.
85.3 Signals for trawlers.
85.5 Signals for purse seiners.

AUTHORITY: Sec. 3, Pub. L. 96–591; 49 CFR 1.46(n)(14).

SOURCE: CGD 81–006, 46 FR 61845, Dec. 21, 1981, unless otherwise noted.

§ 85.1 General.

The lights mentioned herein shall, if exhibited in pursuance of Rule 26(d), be placed where they can best be seen. They shall be at least 0.9 meter apart but at a lower level than lights prescribed in Rule 26(b)(i) and (c)(i) contained in the Inland Navigational Rules Act of 1980, as amended (33 U.S.C. 2001 et seq.). The lights shall be visible all around the horizon at a distance of at least 1 mile but at a lesser distance from the lights prescribed by these Rules for fishing vessels.

§ 85.3 Signals for trawlers.

(a) Vessels when engaged in trawling, whether using demersal or pelagic gear, may exhibit:

(1) When shooting their nets: two white lights in a vertical line;

(2) When hauling their nets: one white light over one red light in a vertical line;

(3) When the net has come fast upon an obstruction: two red lights in a vertical line.

(b) Each vessel engaged in pair trawling may exhibit:

(1) By night, a searchlight directed forward and in the direction of the other vessel of the pair;

(2) When shooting or hauling their nets or when their nets have come fast upon an obstruction, the lights prescribed in paragraph (a) of this section.

§ 85.5 Signals for purse seiners.

Vessels engaged in fishing with purse seine gear may exhibit two yellow lights in a vertical line. These lights shall flash alternately every second and with equal light and occultation duration. These lights may be exhibited only when the vessel is hampered by its fishing gear.

SOURCE: CGD 81–009, 46 FR 61848, Dec. 21, 1981, unless otherwise noted.

Subpart A—Whistles

§ 86.01 Frequencies and range of audibility.

The fundamental frequency of the signal shall lie within the range 70–525 Hz. The range of audibility of the signal from a whistle shall be determined by those frequencies, which may include the fundamental and/or one or more higher frequencies, which lie within the frequency ranges and provide the sound pressure levels specified in § 86.05.

§ 86.03 Limits of fundamental frequencies.

To ensure a wide variety of whistle characteristics, the fundamental frequency of a whistle shall be between the following limits:

(a) 70–200 Hz, for a vessel 200 meters or more in length;

(b) 130–350 Hz, for a vessel 75 meters but less than 200 meters in length;

(c) 250–525 Hz, for a vessel less than 75 meters in length.

§ 86.05 Sound signal intensity and range of audibility.

A whistle on a vessel shall provide, in the direction of the forward axis of the whistle and at a distance of 1 meter from it, a sound pressure level in at least one 1/3-octave band of not less than the appropriate figure given in Table 86.05 within the following frequency ranges (±1 percent):

(a) 130–1200 Hz, for a vessel 75 meters or more in length;

(b) 250–1600 Hz, for a vessel 20 meters but less than 75 meters in length;

(c) 250–2100 Hz, for a vessel 12 meters but less than 20 meters in length.

TABLE 86.05

Length of vessel in meters	Fundamental frequency range (Hz)	For measured frequencies (Hz)	1/3-octave band level at 1 meter in dB referred to 2×10^{-5} N/m^2	Audibility range in nautical miles
	.....	130–180	145	.....
200 or more	70–200	180–250	143	2
	.....	250–1200	140	.....
	.....	130–180	140	.....
75 but less than 200	130–350	180–250	138	1.5
	.....	250–1200	134	.....
	.....	250–450	130	.....
20 but less than 75	250–525	450–800	125	1.0
	.....	800–1600	121	.....
	.....	250–450	120	.....
12 but less than 20	250–525	450–800	115	0.5
	.....	800–2100	111	.....

NOTE. The range of audibility in the table above is for information and is approximately the range at which a whistle may usually be heard on its forward axis in conditions of still air on board a vessel having average background noise level at the listening posts (taken to be 68 dB in the octave band centered on 250 Hz and 63 dB in the octave band centered on 500 Hz).

In practice the range at which a whistle may be heard is extremely variable and depends critically on weather conditions; the values given can be regarded as typical but under conditions of strong wind or high ambient noise level at the listening post the range may be much reduced.

§ 86.07 Directional properties.

The sound pressure level of a directional whistle shall be not more than 4 dB below the sound pressure level specified in § 86.05 in any direction in the horizontal plane within ±45 degrees of the forward axis. The sound pressure level of the whistle in any other direction in the horizontal plane shall not be more than 10 dB less than the sound pressure level specified for the forward axis, so that the range of audibility in any direction will be at least half the range required on the forward axis. The sound pressure level shall be measured in that one-third octave band which determines the audibility range.

§ 86.09 Positioning of whistles.

(a) When a directional whistle is to be used as the only whistle on the vessel and is permanently installed, it shall be installed with its forward axis directed forward.

(b) A whistle shall be placed as high as practicable on a vessel, in order to reduce interception of the emitted sound by obstructions and also to minimize hearing damage risk to personnel. The sound pressure level of the vessel's own signal at listening posts shall not exceed 110 dB(A) and so far as practicable should not exceed 100 dB(A).

§ 86.11 Fitting of more than one whistle.

If whistles are fitted at a distance apart of more than 100 meters, they shall not be sounded simultaneously.

§ 86.13 Combined whistle systems.

(a) A combined whistle system is a number of whistles (sound emitting sources) operated together. For the purposes of the Rules a combined whistle system is to be regarded as a single whistle.

(b) The whistles of a combined system shall:

(1) Be located at a distance apart of not more than 100 meters,

(2) Be sounded simultaneously,

(3) Each have a fundamental frequency different from those of the others by at least 10 Hz, and

(4) Have a tonal characteristic appropriate for the length of vessel which shall be evidenced by at least two-thirds of the whistles in the combined system having fundamental frequencies falling within the limits prescribed in § 86.03, or if there are only two whistles in the combined system, by the higher fundamental frequency falling within the limits prescribed in § 86.03.

NOTE: If due to the presence of obstructions the sound field of a single whistle or of one of the whistles referred to in § 86.11 is likely to have a zone of greatly reduced signal level, a combined whistle system should be fitted so as to overcome this reduction.

§ 86.15 Towing vessel whistles.

A power-driven vessel normally engaged in pushing ahead or towing alongside may, at all times, use a whistle whose characteristic falls within the limits prescribed by § 86.03 for the longest customary composite length of the vessel and its tow.

Subpart B—Bell or Gong

§ 86.21 Intensity of signal.

A bell or gong, or other device having similar sound characteristics shall produce a sound pressure level of not less than 110 dB at 1 meter.

§ 86.23 Construction.

Bells and gongs shall be made of corrosion-resistant material and designed to give a clear tone. The diameter of the mouth of the bell shall be not less than 300 mm for vessels of more than 20 meters in length, and shall be not less than 200 mm for vessels of 12 to 20 meters in length. The mass of the striker shall be not less than 3 percent of the mass of the bell. The striker shall be capable of manual operation. Note: When practicable, a power-driven bell striker is recommended to ensure constant force.

§ 88.01 Purpose and applicability.

This part applies to all vessels operating on United States inland waters and to United States vessels operating on the Canadian waters of the Great Lakes to the extent there is no conflict with Canadian law.

§ 88.03 Definitions.

The terms used in this part have the same meaning as defined in the Inland Navigational Rules Act of 1980.

§ 88.05 Copy of rules.

The operator of each self-propelled vessel 12 meters or more in length shall carry on board and maintain for ready reference a copy of the Inland Navigation Rules.

§ 88.09 Temporary exemption from light and shape requirements when operating under bridges.

A vessel's navigation lights and shapes may be lowered if necessary to pass under a bridge.

§ 88.11 Law enforcement vessels.

(a) Law enforcement vessels may display a flashing blue light when engaged in direct law enforcement or public safety activities. This light must be located so that it does not interfere with the visibility of the vessel's navigation lights.

Subpart A—Certificate of Alternative Compliance

§ 89.1 Definitions.

As used in this subpart:

Inland Rules refers to the Inland Navigation Rules contained in the Inland Navigational Rules Act of 1980 (Pub. L. 96–591) and the technical annexes established under that act.

A vessel of special construction or purpose means a vessel designed or modified to perform a special function and whose arrangement is thereby made relatively inflexible.

Interference with the special function of the vessel occurs when installation or use of lights, shapes, or sound-signaling appliances under the Inland Rules prevents or significantly hinders the operation in which the vessel is usually engaged.

[CGD 80–157, 47 FR 13801, Apr. 1, 1982, as amended by CGD 83–028, 49 FR 33876, Aug. 27, 1984]

§ 89.3 General.

Vessels of special construction or purpose which cannot fully comply

with the light, shape, and sound signal provisions of the Inland Rules without interfering with their special function may instead meet alternative requirements. The Chief of the Marine Safety Division in each Coast Guard District Office makes this determination and requires that alternative compliance be as close as possible with the Inland Rules. These regulations set out the procedure by which a vessel may be certified for alternative compliance. The information collection and recordkeeping requirements in §§89.5 and 89.18 have been approved by the Office of Management and Budget under OMB control No. 1625–0019.

[CGD 80–157, 47 FR 13801, Apr. 1, 1982, as amended by USCG–2006–25150, 71 FR 39208, July 12, 2006]

§ 89.5 Application for a Certificate of Alternative Compliance.

(a) The owner, builder, operator, or agent of a vessel of special construction or purpose who believes the vessel cannot fully comply with the Inland Rules light, shape, or sound signal provisions without interference with its special function may apply for a determination that alternative compliance is justified. The application must be in writing, submitted to the Chief of the Marine Safety Division of the Coast Guard District in which the vessel is being built or operated, and include the following information:

(1) The name, address, and telephone number of the applicant.

(2) The identification of the vessel by its:

(i) Official number;

(ii) Shipyard hull number;

(iii) Hull identification number; or

(iv) State number, if the vessel does not have an official number or hull identification number.

(3) Vessel name and home port, if known.

(4) A description of the vessel's area of operation.

(5) A description of the provision for which the Certificate of Alternative Compliance is sought, including:

(i) The Inland Rules Rule or Annex section number for which the Certificate of Alternative Compliance is sought;

(ii) A description of the special function of the vessel that would be interfered with by full compliance with the provision of that Rule or Annex section; and

(iii) A statement of how full compliance would interfere with the special function of the vessel.

(6) A description of the alternative installation that is in closest possible compliance with the applicable Inland Navigation Rules Rule or Annex section.

(7) A copy of the vessel's plans or an accurate scale drawing that clearly shows:

(i) The required installation of the equipment under the Inland Rules,

(ii) The proposed installation of the equipment for which certification is being sought, and

(iii) Any obstructions that may interfere with the equipment when installed in:

(A) The required location; and

(B) The proposed location.

(b) The Coast Guard may request from the applicant additional information concerning the application.

§ 89.9 Certificate of Alternative Compliance: Contents.

The Chief of the Marine Safety Division issues the Certificate of Alternative Compliance to the vessel based on a determination that it cannot comply fully with Inland Rules light, shape, and sound signal provisions without interference with its special function. This Certificate includes:

(a) Identification of the vessel as supplied in the application under §89.5(a)(2);

(b) The provision of the Inland Rules for which the Certificate authorizes alternative compliance;

(c) A certification that the vessel is unable to comply fully with the Inland Rules light, shape, and sound signal requirements without interference with its special function;

(d) A statement of why full compliance would interfere with the special function of the vessel;

(e) The required alternative installation;

(f) A statement that the required alternative installation is in the closest possible compliance with the Inland Rules without interfering with the special function of the vessel;

(g) The date of issuance;

(h) A statement that the Certificate of Alternative Compliance terminates when the vessel ceases to be usually engaged in the operation for which the certificate is issued.

§ 89.17 Certificate of Alternative Compliance: Termination.

The Certificate of Alternative Compliance terminates if the information supplied under § 89.5(a) or the Certificate issued under § 89.9 is no longer applicable to the vessel.

SOURCE: CGD 83–011, 48 FR 51622, Nov. 10, 1983, unless otherwise noted.

§ 90.1 Purpose.

This part contains the interpretative rules for the Inland Rules. These interpretative rules are intended as a guide to assist the public and promote compliance with the Inland Rules.

§ 90.3 Pushing vessel and vessel being pushed: Composite unit.

Rule 24(b) of the Inland Rules states that when a pushing vessel and a vessel being pushed ahead are rigidly connected in a composite unit, they are regarded as a power-driven vessel and must exhibit the lights prescribed in Rule 23. A ''composite unit'' is interpreted to be the combination of a pushing vessel and a vessel being push ahead that are rigidly connected by mechanical means so they react to sea and swell as one vessel. Mechanical means does not include lines, wires, hawsers, or chains.

§ 90.5 Lights for moored vessels.

A *vessel at anchor* includes a vessel made fast to one or more mooring buoys or other similar device attached to the ocean floor. Such vessels may be lighted as a vessel at anchor in accordance with Rule 30, or may be lighted on the corners in accordance with 33 CFR 88.13.

§ 90.7 Sidelights for unmanned barges.

An unmanned barge being towed may use the exception of COLREGS Rule 24(h). However, this exception only applies to the vertical sector requirements for sidelights.

Subpart C—How Will Safety Management Systems Be Certificated and Enforced?

§ 96.300 Purpose.

This subpart establishes the standards for the responsible person of a company and its vessel(s) to obtain the required and voluntary, national and international certification for the company's and vessel's safety management system.

§ 96.310 Who does this subpart apply to?

This subpart applies:

(a) If you are a responsible person who owns a vessel(s) registered in the U.S. and engaged on a foreign voyage(s), or holds certificates or endorsement of such voyages;

(b) If you are a responsible person who owns a vessel(s) registered in the U.S. and volunteer to meet the standards of this part and Chapter IX of SOLAS;

(c) To all foreign vessels engaged on a foreign voyage, bound for ports or places under the jurisdiction of the U.S., and subject to Chapter IX of SOLAS; or

(d) If you are a recognized organization authorized by the U.S. to complete safety management audits and certification required by this part.

§ 96.320 What is involved to complete a safety management audit and when is it required to be completed?

(a) A safety management audit is any of the following:

(1) An initial audit which is carried out before a Document of Compliance

certificate or a Safety Management Certificate is issued;

(2) A renewal audit which is carried out before the renewal of a Document of Compliance certificate or a Safety Management Certificate;

(3) Periodic audits including—

(i) An annual verification audit, as described in §96.330(f) of this part, and

(ii) An intermediate verification audit, as described in §96.340(e)(2) of this part.

(b) A satisfactory audit means that the auditor(s) agrees that the requirements of this part are met, based on review and verification of the procedures and documents that make up the safety management system.

(c) Actions required during safety management audits for a company and their U.S. vessel(s) are—

(1) Review and verify the procedures and documents that make up a safety management system, as defined in subpart B of this part.

(2) Make sure the audit complies with this subpart and is consistent with IMO Resolution A.788(19), Guidelines on Implementation of the International Safety Management (ISM) Code by Administrations.

(3) Make sure the audit is carried out by a team of Coast Guard auditors or auditors assigned by a recognized organization authorized to complete such actions by subpart D of this part.

(d) Safety management audits for a company and their U.S. vessel(s) are required—

(1) Before issuing or renewing a Document of Compliance certificate, and to keep a Document of Compliance certificate valid, as described in §§96.330 and 96.340 of this part.

(2) Before issuing or renewing a Safety Management Certificate, and to maintain the validity of a Safety Management Certificate, as described in §96.340 of this part.

However, any safety management audit for the purpose of verifying a vessel's safety management system will not be scheduled or conducted for a company's U.S. vessel unless the company first has undergone a safety management audit of the company's safety management system, and has received its Document of Compliance certificate.

(e) Requests for all safety management audits for a company and its U.S. vessel(s) must be communicated—

(1) By a responsible person directly to a recognized organization authorized by the U.S.

(2) By a responsible person within the time limits for an annual verification audit, described in §96.330(f) of this part, and for an intermediate verification audit, described in §96.340(e)(2) of this part. If he or she does not make a request for a safety management annual or verification audit for a valid Document of Compliance certificate issued to a company or a valid Safety Management Certificate issued to a vessel, this is cause for the Coast Guard to revoke the certificate as described in §§96.330 and 96.340 of this part.

(f) If a non-conformity with a safety management system is found during an audit, it must be reported in writing by the auditor:

(1) For a company's safety management system audit, to the company's owner; and

(2) For a vessel's safety management system audit, to the company's owner and vessel's Master.

§96.330 Document of Compliance certificate: what is it and when is it needed?

(a) You must hold a valid Document of Compliance certificate if you are the responsible person who, or company which, owns a U.S. vessel engaged on foreign voyages, carrying more than 12 passengers, or is a tanker, bulk freight vessel, freight vessel, or a self-propelled mobile offshore drilling unit of 500 gross tons or more.

(b) You may voluntarily hold a valid Document of Compliance certificate, if you are a responsible person who, or a company which, owns a U.S. vessel not included in paragraph (a) of this section.

(c) You will be issued a Document of Compliance certificate only after you complete a satisfactory safety management audit as described in §96.320 of this part.

(d) All U.S. and foreign vessels that carry more than 12 passengers or a tanker, bulk freight vessel, freight vessel, or a self-propelled mobile offshore

drilling unit of 500 gross tons or more, must carry a valid copy of the company's Document of Compliance certificate onboard when on a foreign voyage.

(e) A valid Document of Compliance certificate covers the type of vessel(s) on which a company's safety management system initial safety management audit was based. The validity of the Document of Compliance certificate may be extended to cover additional types of vessels after a satisfactory safety management audit is completed on the company's safety management system which includes those additional vessel types.

(f) A Document of Compliance certificate is valid for 60 months. The company's safety management system must be verified annually by the Coast Guard or by an authorized organization acting on behalf of the U.S. through a safety management verification audit, within three months before or after the certificate's anniversary date.

(g) Only the Coast Guard may revoke a Document of Compliance certificate from a company which owns a U.S. vessel. The Document of Compliance certificate may be revoked if—

(1) The annual safety management audit and system verification required by paragraph (f) of this section is not completed by the responsible person; or

(2) Major non-conformities are found in the company's safety management system during a safety management audit or other related survey or inspection being completed by the Coast Guard or the recognized organization chosen by the company or responsible person.

(3) The Coast Guard or an authorized organization acting on its behalf is denied, or restricted access to, any vessel, record or personnel of the company, at any time necessary to evaluate the safety management system.

(h) When a company's valid Document of Compliance certificate is revoked by the Coast Guard, a satisfactory safety management audit must be completed before a new Document of Compliance certificate for the company's safety management system can be reissued.

§ 96.340 Safety Management Certificate: what is it and when is it needed?

(a) Your U.S. vessel engaged on a foreign voyage must hold a valid Safety Management Certificate if it carries more than 12 passengers, or if it is a tanker, bulk freight vessel, freight vessel, or a self-propelled mobile offshore drilling unit of 500 gross tons or more.

(b) Your U.S. vessel may voluntarily hold a valid Safety Management Certificate even if your vessel is not required to by paragraph (a) of this section.

(c) Your U.S. vessel may only be issued a Safety Management Certificate or have it renewed when your company holds a valid Document of Compliance certificate issued under § 96.330 of this part and the vessel has completed a satisfactory safety management audit of the vessel's safety management system set out in § 96.320 of this part.

(d) A copy of your vessel's valid Safety Management Certificate must be on board all U.S. and foreign vessels which carry more than 12 passengers, and must be on board a tanker, bulk freight vessel, freight vessel, or a self-propelled mobile offshore drilling unit of 500 gross tons or more, when engaged on foreign voyages or within U.S. waters.

(e) A Safety Management Certificate is valid for 60 months. The validity of the Safety Management Certificate is based on—

(1) A satisfactory initial safety management audit;

(2) A satisfactory intermediate verification audit requested by the vessel's responsible person, completed between the 24th and 36th month of the certificate's period of validity; and

(3) A vessel's company holding a valid Document of Compliance certificate. When a company's Document of Compliance certificate expires or is revoked, the Safety Management Certificate for the company-owned vessel(s) is invalid.

(f) Renewal of a Safety Management Certificate requires the completion of a satisfactory safety management system audit which meets all of the requirements of subpart B in this part. A

renewal of a Safety Management Certificate cannot be started unless the company which owns the vessel holds a valid Document of Compliance certificate.

(g) Only the Coast Guard may revoke a Safety Management Certificate from a U.S. vessel. The Safety Management Certificate will be revoked if—

(1) The vessel's responsible person has not completed an intermediate safety management audit required by paragraph (e)(2) of this section; or

(2) Major non-conformities are found in the vessel's safety management system during a safety management audit or other related survey or inspection being completed by the Coast Guard or the recognized organization chosen by the vessel's responsible person.

[CGD 95–073, 62 FR 67506, Dec. 24, 1997, as amended by USCG–1999–5832, 64 FR 34712, June 29, 1999]

§ 96.350 Interim Document of Compliance certificate: what is it and when can it be used?

(a) An Interim Document of Compliance certificate may be issued to help set up a company's safety management system when—

(1) A company is newly set up or in transition from an existing company into a new company; or

(2) A new type of vessel is added to an existing safety management system and Document of Compliance certificate for a company.

(b) A responsible person for a company operating a U.S. vessel(s) that meets the requirements of paragraph (a) of this section, may send a request to a recognized organization authorized to act on behalf of the U.S. to receive an Interim Document of Compliance certificate that is valid for a period up to 12 months. To be issued the Interim Document of Compliance certificate the vessel's company must—

(1) Demonstrate to an auditor that the company has a safety management system that meets §96.230 of this part; and

(2) Provide a plan for full implementation of a safety management system within the period that the Interim Document of Compliance certificate is valid.

§ 96.360 Interim Safety Management Certificate: what is it and when can it be used?

(a) A responsible person may apply for an Interim Safety Management Certificate when—

(1) A responsible person takes delivery of a new U.S. vessel; or

(2) Takes responsibility for the management of a U.S. vessel which is new to the responsible person or their company.

(b) An Interim Safety Management Certificate is valid for 6 months. It may be issued to a U.S. vessel which meets the conditions of paragraph (a) of this section, when—

(1) The company's valid Document of Compliance certificate or Interim Document of Compliance certificate applies to that vessel type;

(2) The company's safety management system for the vessel includes the key elements of a safety management system, set out in §96.220, applicable to this new type of vessel;

(3) The company's safety management system has been assessed during the safety management audit to issue the Document of Compliance certificate or demonstrated for the issuance of the Interim Document of Compliance certificate;

(4) The Master and senior officers of the vessel are familiar with the safety management system and the planned set up arrangements;

(5) Written documented instructions have been extracted from the safety management system and given to the vessel prior to sailing;

(6) The company plans an internal audit of the vessel within three months; and

(7) The relevant information from the safety management system is written in English, and in any other language understood by the vessel's personnel.

§ 96.370 What are the requirements for vessels of countries not party to Chapter IX of SOLAS?

(a) Each foreign vessel which carries more than 12 passengers, or is a tanker, bulk freight vessel, freight vessel, or self-propelled mobile offshore drilling unit of 500 gross tons or more, operated in U.S. waters, under the authority of a

country not a party to Chapter IX of SOLAS must—

(1) Have on board valid documentation showing that the vessel's company has a safety management system which was audited and assessed, consistent with the International Safety Management Code of IMO Resolution A.741(18);

(2) Have on board valid documentation from a vessel's Flag Administration showing that the vessel's safety management system was audited and assessed to be consistent with the International Safety Management Code of IMO Resolution A.741(18); or

(3) Show that evidence of compliance was issued by either a government that is party to SOLAS or an organization recognized to act on behalf of the vessel's Flag Administration.

(b) Evidence of compliance must contain all of the information in, and have substantially the same format as a—

(1) Document of Compliance certificate; and

(2) Safety Management Certificate.

(c) Failure to comply with this section will subject the vessel to the compliance and enforcement procedures of § 96.380 of this part.

§ 96.380 How will the Coast Guard handle compliance and enforcement of these regulations?

(a) While operating in waters under the jurisdiction of the United States, the Coast Guard may board a vessel to determine that—

(1) Valid copies of the company's Document of Compliance certificate and Safety Management Certificate are on board, or evidence of the same for vessels from countries not party to Chapter IX of SOLAS; and

(2) The vessel's crew or shore-based personnel are following the procedures and policies of the safety management system while operating the vessel or transferring cargoes.

(b) A foreign vessel that does not comply with these regulations, or one on which the vessel's condition or use of its safety management system do not substantially agree with the particulars of the Document of Compliance certificate, Safety Management Certificate or other required evidence of compliance, may be detained by order of the COTP or OCMI. This may occur at the port or terminal where the violation is found until, in the opinion of the detaining authority, the vessel can go to sea without presenting an unreasonable threat of harm to the port, the marine environment, the vessel or its crew. The detention order may allow the vessel to go to another area of the port, if needed, rather than stay at the place where the violation was found.

(c) If any vessel that must comply with this part or with the ISM Code does not have a Safety Management Certificate and a copy of its company's Document of Compliance certificate on board, a vessel owner, charterer, managing operator, agent, Master, or any other individual in charge of the vessel that is subject to this part, may be liable for a civil penalty under 46 U.S.C. 3318. For foreign vessels, the Coast Guard may request the Secretary of the Treasury to withhold or revoke the clearance required by 46 U.S.C. App. 91. The Coast Guard may ask the Secretary to permit the vessel's departure after the bond or other surety is filed.

§ 96.390 When will the Coast Guard deny entry into a U.S. port?

(a) Except for a foreign vessel entering U.S. waters under force majeure, no vessel shall enter any port or terminal of the U.S. without a safety management system that has been properly certificated to this subpart or to the requirements of Chapter IX of SOLAS if—

(1) It is engaged on a foreign voyage; and

(2) It is carrying more than 12 passengers, or a tanker, bulk freight vessel, freight vessel, or self-propelled mobile offshore drilling unit of 500 gross tons or more.

(b) The cognizant COTP will deny entry of a vessel into a port or terminal under the authority of 46 U.S.C. 3204(c), to any vessel that does not meet the requirements of paragraph (a) of this section.

Subpart D—Authorization of Recognized Organizations To Act on Behalf of the U.S.

§ 96.400 Purpose.

(a) This subpart establishes criteria and procedures for organizations recognized under 46 CFR part 8, subparts A and B, to be authorized by the Coast Guard to act on behalf of the U.S. The authorization is necessary in order for a recognized organization to perform safety management audits and certification functions delegated by the Coast Guard as described in this part.

(b) To receive an up-to-date list of recognized organizations authorized to act under this subpart, send a self-addressed, stamped envelope and written request to the Commandant (G-MSE), 2100 Second Street SW., Washington, DC 20593–0001.

§ 96.410 Who does this regulation apply to?

This subpart applies to all organizations recognized by the U.S. under 46 CFR part 8, subpart A and B, who wish to seek authorization to conduct safety management audits and issue relevant international safety certificates under the provisions of the ISM Code and voluntary certificates on behalf of the U.S.

§ 96.420 What authority may an organization ask for under this regulation?

(a) An organization may request authorization to conduct safety management audits and to issue the following certificates:

(1) Safety Management Certificate;

(2) Document of Compliance certificate;

(3) Interim Safety Management Certificate; and

(4) Interim Document of Compliance certificate.

(b) [Reserved]

§ 96.430 How does an organization submit a request to be authorized?

(a) A recognized organization must send a written request for authorization to the Commandant (G-MSE), Office of Design and Engineering Standards, 2100 Second Street SW, Washington, DC 20593–0001. The request must include the following:

(1) A statement describing what type of authorization the organization seeks;

(2) Documents showing that—

(i) The organization has an internal quality system with written policies, procedures and processes that meet the requirements in § 96.440 of this part for safety management auditing and certification; or

(4) A written statement that the procedures and records of the recognized organization regarding its actions involving safety management system audits and certification are available for review annually and at any time deemed necessary by the Coast Guard.

(b) If the organization is a foreign classification society that has been recognized under 46 CFR part 8, subparts A and B, and wishes to apply for authorization under this part, it must demonstrate the reciprocity required by 46 U.S.C. 3316 for ISM Code certification. The organization must provide, with its request for authorization an affidavit from the government of the country in which the classification society is headquartered. This affidavit must provide a list of authorized delegations by the flag state of the administration of the foreign classification society's country to the American Bureau of Shipping, and indicate any conditions related to the delegated authority. If this affidavit is not received with a request for authorization from a foreign classification society, the request for authorization will be disapproved and returned by the Coast Guard.

(c) Upon the satisfactory completion of the Coast Guard's evaluation of a request for authorization, the organization will be visited for an evaluation as described in § 96.440(b) of this part.

§ 96.440 How will the Coast Guard decide whether to approve an organization's request to be authorized?

(a) First, the Coast Guard will evaluate the organization's request for authorization and supporting written materials, looking for evidence of the following—

(1) The organization's clear assignment of management duties;

(2) Ethical standards for managers and auditors;

(3) Procedures for auditor training, qualification, certification, and requalification that are consistent with recognized industry standards;

(4) Procedures for auditing safety management systems that are consistent with recognized industry standards and IMO Resolution A.788(19);

(5) Acceptable standards for internal auditing and management review;

(6) Record-keeping standards for safety management auditing and certification;

(7) Methods for reporting nonconformities and recording completion of remedial actions;

(8) Methods for certifying safety management systems;

(9) Methods for periodic and intermediate audits of safety management systems;

(10) Methods for renewal audits of safety management systems;

(11) Methods for handling appeals; and

(12) Overall procedures consistent with IMO Resolution A.739(18), ''Guidelines for the Authorization of Organizations Acting on Behalf of the Administration.''

(b) After a favorable evaluation of the organization's written request, the Coast Guard will arrange to visit the organization's corporate offices and port offices for an on-site evaluation of operations.

(c) When a request is approved, the recognized organization and the Coast Guard will enter into a written agreement. This agreement will define the scope, terms, conditions and requirements of the authorization. Conditions of this agreement are found in § 96.460 of this part.

§ 96.450 What happens if the Coast Guard disapproves an organization's request to be authorized?

(a) The Coast Guard will write to the organization explaining why it did not meet the criteria for authorization.

(b) The organization may then correct the deficiencies and reapply.

§ 96.460 How will I know what the Coast Guard requires of my organization if my organization receives authorization?

(a) Your organization will enter into a written agreement with the Coast Guard. This written agreement will specify—

(1) How long the authorization is valid;

(2) Which duties and responsibilities the organization may perform, and which certificates it may issue on behalf of the U.S.;

(3) Reports and information the organization must send to the Commandant (G-MOC);

(4) Actions the organization must take to renew the agreement when it expires; and

(b) [Reserved]

§ 96.470 How does the Coast Guard terminate an organization's authorization?

At least every 12 months, the Coast Guard evaluates organizations authorized under this subpart. If an organization fails to maintain acceptable standards, the Coast Guard may terminate that organization's authorization, remove the organization from the Commandant's list of recognized organizations, and further evaluate the organization's recognition under 46 CFR part 8.

§ 96.480 What is the status of a certificate if the issuing organization has its authority terminated?

Any certificate issued by an organization authorized by the Coast Guard

whose authorization is later terminated remains valid until—

(a) Its original expiration date,

(b) The date of the next periodic audit required to maintain the certificate's validity, or

(c) Whichever of paragraphs (a) or (b) occurs first.

§ 96.490 What further obligations exist for an organization if the Coast Guard terminates its authorization?

The written agreement by which an organization receives authorization from the Coast Guard places it under certain obligations if the Coast Guard revokes that authorization. The organization agrees to send written notice of its termination to all responsible persons, companies and vessels that have received certificates from the organization. In that notice, the organization must include—

(a) A written statement explaining why the organization's authorization was terminated by the Coast Guard;

(b) An explanation of the status of issued certificates;

(c) A current list of organizations authorized by the Coast Guard to conduct safety management audits; and

(d) A statement of what the companies and vessels must do to have their safety management systems transferred to another organization authorized to act on behalf of the U.S.

§ 96.495 How can I appeal a decision made by an authorized organization?

(a) A responsible person may appeal a decision made by an authorized organization by mailing or delivering to the organization a written request for reconsideration. Within 30 days of receiving your request, the authorized organization must rule on it and send you a written response. They must also send a copy of their response to the Commandant (G-MOC).

(b) If you are not satisfied with the organization's decision, you may appeal directly to the Commandant (G-MOC). You must make your appeal in writing, including any documentation and evidence you wish to be considered. You may ask the Commandant (G-MOC) to stay the effect of the appealed decision while it is under review.

(c) The Commandant (G-MOC) will make a decision on your appeal and send you a response in writing. That decision will be the final Coast Guard action on your request.

The Coast Guard patrol of this area is under the direction of the Coast Guard Patrol Commander (the ''Patrol Commander''). The Patrol Commander is empowered to control the movement of vessels on the racecourse and in the adjoining waters during the periods this regulation is in effect. The Patrol Commander may be assisted by other federal, state and local law enforcement agencies.

(l) Upon completion of the daily racing activities, all vessels leaving either Zone I or Zone II shall proceed at speeds of seven (07) miles per hour or less. The maximum speed may be reduced at the discretion of the Patrol Commander.

(m) A succession of sharp, short signals by whistle or horn from vessels patrolling the areas under the direction of the Patrol Commander shall serve as signal to stop. Vessels signaled shall stop and shall comply with the orders of the patrol vessel; failure to do so may result in expulsion from the area, citation for failure to comply, or both. The Coast Guard may be assisted by other federal, state and local law enforcement agencies, as well as official Seafair event craft.

The buoys have 4-foot poles attached to them. Two of the buoys are red, one is white, and the other is yellow. The course runs from the north side of the Hawthorne bridge south along the east bank to the east most pier of the Markham bridge and from the south side of the Markham bridge to the east pier of the center span. The center span is left open to allow commercial traffic through during the event. The course then continues from the west Pier of the center span and to the first pier

west on the south side of the piers and continues north and ends at River Place dock.

(c) *Enforcement period.* The event is a two-day event which will be enforced from 8 a.m. (PDT) to 5 p.m. (PDT) on the second Saturday and Sunday of June each year. In 2006, this section will be enforced from 8 a.m. until 5 p.m. on Saturday, June 10, and Sunday, June 11.

(d) *Special local regulation.* (1) Nonparticipant vessels are prohibited from entering the race area unless authorized by the Coast Guard Patrol Commander.

(2) All persons or vessels not registered with the sponsor as participants or not part of the regatta patrol are considered spectators. Spectator vessels must be moored to a waterfront facility in a way that will not interfere with the progress of the event or have permission to enter the area from the event sponsor or Coast Guard patrol commander. Spectators must proceed at a safe speed as not to cause a wake. This requirement will be strictly enforced to preserve the safety of both life and property.

(3) A succession of sharp, short signals by whistle or horn from vessels patrolling the area under the direction of the Patrol Commander shall serve as a signal to stop. Vessels signaled shall stop and shall comply with the orders of the patrol vessel. Failure to do so may result in expulsion from the area, citation for failure to comply, or both.

(4) The Coast Guard Patrol Commander may be assisted by other Federal, State and local law enforcement agencies in enforcing this regulation.

§ 100.1303 Annual Kennewick, Washington, Columbia Unlimited Hydroplane Races.

The patrol shall be under the direction of a Coast Guard officer or petty officer designated as Coast Guard Patrol Commander. The Patrol Commander is empowered to forbid and control the movement of vessels in the area described in paragraph (b) of this section.

(d) The Patrol Commander may authorize vessels to be underway in the area described in paragraph (b) of this section during the hours this regulations is in effect. All vessels permitted to be underway in the controlled area (other than racing or official vessels) shall do so only at speeds which will create minimum wake consistent with maintaining steerageway, and not to exceed seven (7) miles per hour. This speed limit may be adjusted at the discretion of the Patrol Commander to enhance the level of safety.

(e) A succession of sharp, short signals by whistle, siren, or horn from vessels patrolling the area under the direction of the U.S. Coast Guard Patrol Commander shall serve as a signal to stop. Vessels signalled shall stop and shall comply with the orders of the patrol vessel personnel; failure to do so may result in expulsion from the area, citation for failure to comply, or both.

(3) No spectators shall anchor, block, loiter in, or impede the through transit of participants or official patrol vessels in the regulated area during the effective dates and times unless cleared for such entry by the Patrol Commander.

(4) Due to the large number of craft confined within this small body of water, all vessels, both spectator and participants, will maintain a ''NO WAKE'' speed. This requirement will be strictly enforced to preserve the safety of both life and property.

(5) A succession of sharp, short signals by whistle or horn from vessels patrolling the area under the direction of the Patrol Commander shall serve as a signal to stop. Subpart A—General

§ 101.100 Purpose.

(a) The purpose of this subchapter is:

(1) To implement portions of the maritime security regime required by the Maritime Transportation Security Act of 2002, as codified in 46 U.S.C. Chapter 701;

(2) To align, where appropriate, the requirements of domestic maritime security regulations with the international maritime security standards in the International Convention for the Safety of Life at Sea, 1974 (SOLAS Chapter XI–2) and the International Code for the Security of Ships and of Port Facilities, parts A and B, adopted on 12 December 2002; and

(3) To ensure security arrangements are as compatible as possible for vessels trading internationally.

(b) For those maritime elements of the national transportation system where international standards do not directly apply, the requirements in this subchapter emphasize cooperation and coordination with local port community stakeholders, and are based on existing domestic standards, as well as established industry security practices.

(c) The assessments and plans required by this subchapter are intended for use in implementing security measures at various MARSEC Levels. The specific security measures and their implementation are planning criteria based on a set of assumptions made during the development of the security assessment and plan. These assumptions may not exist during an actual transportation security incident.

(c) The Commandant will set the MARSEC Level consistent with the equivalent Homeland Security Advisory System (HSAS) Threat Condition and that Threat Condition's scope of application. Notwithstanding the HSAS, the Commandant retains discretion to adjust the MARSEC Level when necessary to address any particular security concerns or circumstances related to the maritime elements of the national transportation system.

(d) The COTP may temporarily raise the MARSEC Level for the port, a specific marine operation within the port, or a specific industry within the port, when necessary to address an exigent circumstance immediately affecting the security of the maritime elements of the transportation system in his/her area of responsibility.

§ 101.205 Department of Homeland Security alignment.

The MARSEC Levels are aligned with the Department of Homeland Security's Homeland Security Advisory System (HSAS), established by Homeland Security Presidential Directive 3. Table 101.205, titled ''Relation between HSAS and MARSEC Levels'' in this section, shows this alignment.

TABLE 101.205—RELATION BETWEEN HSAS AND MARSEC LEVELS

Subpart E—Other Provisions

§ 101.500 Procedures for authorizing a Recognized Security Organization (RSO). [Reserved]

§ 101.505 Declaration of Security (DoS).

(a) The purpose of a DoS, as described in SOLAS Chapter XI–2, Regulation 10, and the ISPS Code (Incorporated by reference, see §101.115), is to state the agreement reached between a vessel and a facility, or between vessels in the case of a vessel-to-vessel activity, as to the respective security measures each must undertake during a specific vessel-to-facility interface, during a series of interfaces between the vessel and the facility, or during a vessel-to-vessel activity.

(b) Details as to who must complete a DoS, when a DoS must be completed, and how long a DoS must be retained are included in parts 104 through 106 of this subchapter. A DoS must, at a minimum, include the information found in the ISPS Code, part B, appendix 1 (Incorporated by reference, see §101.115).

(a) Each vessel owner or operator subject to this part must ensure, on or before July 1, 2004, that copies of the following documents are carried on board the vessel and are made available to the Coast Guard upon request:

(1) The approved Vessel Security Plan (VSP) and any approved revisions or amendments thereto, and a letter of approval from the Commanding Officer, Marine Safety Center (MSC);

(2) The VSP submitted for approval and a current acknowledgement letter from the Commanding Officer, MSC, stating that the Coast Guard is currently reviewing the VSP submitted for approval, and that the vessel may continue to operate so long as the vessel remains in compliance with the submitted plan;

As stated in Section 9.4 of the ISPS Code, part A requires that, in order for the ISSC to be issued, the provisions of part B of the ISPS Code need to be taken into account.

(b) Each owner or operator of an unmanned vessel subject to this part must maintain the documentation described in paragraphs (a)(1), (2), or (3) of this section. The letter required by each of those paragraphs must be carried on board the vessel. A request for a waiver must be submitted in writing with justification to the Commandant (G-MP) at 2100 Second St., SW., Washington, DC 20593. The Commandant (G-MP) may require the vessel owner or operator to provide additional data for determining the validity of the requested waiver. The Commandant (G-MP) may grant, in writing, a waiver with or without conditions only if the waiver will not reduce the overall security of the vessel, its passengers, its crew, or its cargo, or facilities or ports that the vessel may visit.

§ 104.135 Equivalents.

For any measure required by this part, the vessel owner or operator may propose an equivalent as provided in § 101.130 of this subchapter.

(6) Ensure that adequate coordination of security issues takes place between vessels and facilities; this includes the execution of a Declaration of Security (DoS);

(7) Ensure coordination of shore leave, transit, or crew change-out for vessel personnel, as well as access through the facility of visitors to the

vessel (including representatives of seafarers' welfare and labor organizations), with facility operators in advance of a vessel's arrival. Vessel owners or operators may refer to treaties of friendship, commerce, and navigation between the U.S. and other nations in coordinating such leave. (14) Ensure that protocols consistent with §104.265(c) of this part, for dealing with individuals requiring access who report a lost, damaged, or stolen TWIC, or who have applied for and not yet received a TWIC, are in place;

(15) Ensure that cargo and vessel stores and bunkers are handled in compliance with this part;

(16) Ensure restricted areas, deck areas, and areas surrounding the vessel are monitored;

(17) Provide the Master, or for vessels on domestic routes only, the CSO, with the following information:

(i) Parties responsible for appointing vessel personnel, such as vessel management companies, manning agents, contractors, concessionaires (for example, retail sales outlets, casinos, etc.);

(ii) Parties responsible for deciding the employment of the vessel, including time or bareboat charters or any other entity acting in such capacity; and

(iii) In cases when the vessel is employed under the terms of a charter party, the contract details of those documents, including time or voyage charters; and

(18) Give particular consideration to the convenience, comfort, and personal privacy of vessel personnel and their ability to maintain their effectiveness over long periods; and

(19) If applicable, ensure that protocols consistent with §104.267 of this part, for dealing with newly hired employees who have applied for and not yet received a TWIC, are in place.

§104.205 Master.

(a) Nothing in this part is intended to permit the Master to be constrained by the Company, the vessel owner or operator, or any other person, from taking or executing any decision which, in the professional judgment of the Master, is necessary to maintain the safety and security of the vessel. This includes denial of access to persons—except those identified as duly authorized by the cognizant government authority—or their effects, and refusal to load cargo, including containers or other closed cargo transport units.

(b) If, in the professional judgment of the Master, a conflict between any safety and security requirements applicable to the vessel arises during its operations, the Master may give precedence to measures intended to maintain the safety of the vessel, and take such temporary security measures as seem best under all circumstances. In such cases:

(1) The Master must, as soon as practicable, inform the nearest COTP. If the vessel is on a foreign voyage, the Master must promptly inform the Coast Guard via the NRC at 1–800–424–8802, direct telephone at 202–372–2428; Fax: 202–372–2920, TDD at 202–267–4477, or E-mail at *lst-nrcinfo@comdt.uscg.mil* and if subject to the jurisdiction of a foreign government, the relevant maritime authority of that foreign government;

(2) The temporary security measures must, to the highest possible degree, be commensurate with the prevailing Maritime Security (MARSEC) Level; and

(3) The owner or operator must ensure that such conflicts are resolved to the satisfaction of the cognizant COTP, or for vessels on international voyages, the Commandant (G-MP), and that the possibility of recurrence is minimized.

[USCG–2003–14749, 68 FR 39302, July 1, 2003, as amended at 68 FR 60513, Oct. 22, 2003; USCG–2006–25150, 71 FR 39209, July 12, 2006]

§ 104.230 Drill and exercise requirements.

(a) *General.* (1) Drills and exercises must test the proficiency of vessel personnel in assigned security duties at all Maritime Security (MARSEC) Levels and the effective implementation of the Vessel Security Plan (VSP). They must enable the Vessel Security Officer (VSO) to identify any related security deficiencies that need to be addressed.

(2) A drill or exercise required by this section may be satisfied with the implementation of security measures required by the Vessel Security Plan as the result of an increase in the

MARSEC Level, provided the vessel reports attainment to the cognizant COTP.

(b) *Drills.* (1) The VSO must ensure that at least one security drill is conducted at least every 3 months, except when a vessel is out of service due to repairs or seasonal suspension of operation provided that in such cases a drill must be conducted within one week of the vessel's reactivation. Security drills may be held in conjunction with non-security drills where appropriate.

(2) Drills must test individual elements of the VSP, including response to security threats and incidents. Drills should take into account the types of operations of the vessel, vessel personnel changes, and other relevant circumstances. Examples of drills include unauthorized entry to a restricted area, response to alarms, and notification of law enforcement authorities.

(3) If the vessel is moored at a facility on the date the facility has planned to conduct any drills, the vessel may, but is not required to, participate in the facility's scheduled drill.

(4) Drills must be conducted within one week from whenever the percentage of vessel personnel with no prior participation in a vessel security drill on that vessel exceeds 25 percent.

(5) Not withstanding paragraph (b)(4) of this section, vessels not subject to SOLAS may conduct drills within 1 week from whenever the percentage of vessel personnel with no prior participation in a vessel security drill on a vessel of similar design and owned or operated by the same company exceeds 25 percent.

(2) Exercises may be:

(i) Full scale or live;

(ii) Tabletop simulation or seminar;

(iii) Combined with other appropriate exercises; or

(iv) A combination of the elements in paragraphs (c)(2)(i) through (iii) of this section.

(3) Exercises may be vessel-specific or part of a cooperative exercise program to exercise applicable facility and vessel security plans or comprehensive port exercises.

(4) Each exercise must test communication and notification procedures, and elements of coordination, resource availability, and response.

(5) Exercises are a full test of the security program and must include the substantial and active participation of relevant company and vessel security personnel, and may include facility security personnel and government authorities depending on the scope and the nature of the exercises.

§ 104.240 Maritime Security (MARSEC) Level coordination and implementation.

(a) The vessel owner or operator must ensure that, prior to entering a port or visiting an Outer Continental Shelf (OCS) facility, all measures are taken that are specified in the Vessel Security Plan (VSP) for compliance with the MARSEC Level in effect for the port or the OCS facility.

(b) When notified of an increase in the MARSEC Level, the vessel owner or operator must ensure:

§ 104.245 Communications.

(a) The Vessel Security Officer must have a means to effectively notify vessel personnel of changes in security conditions on board the vessel.

(b) Communications systems and procedures must allow effective and continuous communication between the vessel security personnel, facilities interfacing with the vessel, vessels interfacing with the vessel, and national or local authorities with security responsibilities.

(c) Communication systems and procedures must enable vessel personnel to notify, in a timely manner, shore side authorities or other vessels of a security threat or incident on board.

§ 104.250 Procedures for interfacing with facilities and other vessels.

(a) The vessel owner or operator must ensure that there are measures for interfacing with facilities and other vessels at all MARSEC Levels.

(b) For each U.S. flag vessel that calls on foreign ports or facilities, the vessel owner or operator must ensure procedures for interfacing with those ports and facilities are established.

§ 104.255 Declaration of Security (DoS).

(a) Each vessel owner or operator must ensure procedures are established for requesting a DoS and for handling DoS requests from a facility or other vessel.

(b) At MARSEC Level 1, the Master or Vessel Security Officer (VSO), or their designated representative, of any cruise ship or manned vessel carrying Certain Dangerous Cargoes, in bulk, must complete and sign a DoS with the VSO or Facility Security Officer (FSO), or their designated representative, of any vessel or facility with which it interfaces.

(1) For a vessel-to-facility interface, prior to arrival of a vessel to a facility, the FSO and Master, VSO, or their designated representatives must coordinate security needs and procedures, and agree upon the contents of the DoS for the period of time the vessel is at the facility. Upon a vessel's arrival to a facility and prior to any passenger embarkation or disembarkation or cargo transfer operation, the FSO or Master, VSO, or designated representatives must sign the written DoS.

(2) For a vessel engaging in a vessel-to-vessel activity, prior to the activity, the respective Masters, VSOs, or their designated representatives must coordinate security needs and procedures, and agree upon the contents of the DoS for the period of the vessel-to-vessel activity. Upon the vessel-to-vessel activity and prior to any passenger embarkation or disembarkation or cargo transfer operation, the respective Masters, VSOs, or designated representatives must sign the written DoS.

(c) At MARSEC Levels 2 and 3, the Master, VSO, or designated representative of any manned vessel required to comply with this part must coordinate security needs and procedures, and agree upon the contents of the DoS for the period of the vessel-to-vessel activity. (d) At MARSEC Levels 2 and 3, the Master, VSO, or designated representative of any manned vessel required to comply with this part must coordinate security needs and procedures, and agree upon the contents of the DoS for the period the vessel is at the facility. Upon the vessel's arrival to a facility and prior to any passenger embarkation or disembarkation or cargo transfer operation, the respective FSO and Master, VSO, or designated representatives must sign the written DoS.

(e) At MARSEC Levels 1 and 2, VSOs of vessels that frequently interface with the same facility may implement a continuing DoS for multiple visits, provided that:

(1) The DoS is valid for the specific MARSEC Level;

(2) The effective period at MARSEC Level 1 does not exceed 90 days; and

(3) The effective period at MARSEC Level 2 does not exceed 30 days.

(f) When the MARSEC Level increases beyond the level contained in the DoS, the continuing DoS becomes void and a new DoS must be signed and implemented in accordance with this section.

(g) The COTP may require at any time, at any MARSEC Level, any manned vessel subject to this part to implement a DoS with the VSO or FSO prior to any vessel-to-vessel activity or vessel-to-facility interface when he or she deems it necessary.

(ii) Verification that the TWIC has not expired; and

(iii) A visual check of the various security features present on the card to determine whether the TWIC has been tampered with or forged.

(2) If an individual cannot present a TWIC because it has been lost, damaged or stolen, and he or she has previously been granted unescorted access to the vessel and is known to have had a valid TWIC, the individual may be given unescorted access to secure areas for a period of no longer than seven consecutive calendar days provided that:

(i) The individual has reported the TWIC as lost, damaged, or stolen to TSA as required in 49 CFR 1572.19(f);

(ii) The individual can present another identification credential that meets the requirements of §101.515 of this subchapter; and

(iii) There are no other suspicious circumstances associated with the individual's claim of loss or theft.

(3) If an individual cannot present his or her TWIC for any other reason than outlined in paragraph (2) of this section, he or she may not be granted unescorted access to the secure area. The individual must be under escort, as that term is defined in part 101 of this subchapter, at all times when inside a secure area.

(5) There must be disciplinary measures in place to prevent fraud and abuse.

(6) The vessel's TWIC program should be coordinated, when practicable, with identification and TWIC access control measures of facilities or other transportation conveyances that interface with the vessel.

(d) If the vessel owner or operator uses a separate identification system,

ensure that it complies and is coordinated with TWIC provisions in this part.

(e) The vessel owner or operator must establish in the approved VSP the frequency of application of any security measures for access control, particularly if these security measures are applied on a random or occasional basis.

§ 104.267 Security measures for newly hired employees.

(a) Newly-hired vessel employees may be granted entry to secure areas of the vessel for up to 30 consecutive calendar days prior to receiving their TWIC provided all of the requirements in paragraph (b) of this section are met, and provided that the new hire is accompanied by an individual with a TWIC while within the secure areas of the vessel. If TSA does not act upon a TWIC application within 30 days, the cognizant Coast Guard COTP may further extend access to secure areas for another 30 days. The Coast Guard will determine whether, in particular circumstances, certain practices meet the condition of a new hire being accompanied by another individual with a TWIC. The Coast Guard will issue guidance for use in making these determinations.

(b) Newly-hired vessel employees may be granted the access provided for in paragraph (a) of this section only if:

(1) The new hire has applied for a TWIC in accordance with 49 CFR part 1572 by completing the full enrollment process, paying the user fee, and is not currently engaged in a waiver or appeal process. The vessel owner or operator or Vessel Security Officer (VSO) must have the new hire sign a statement affirming this, and must retain the signed statement until the new hire receives a TWIC;

(2) The vessel owner or operator or the VSO enters the following information on the new hire into the Coast Guard's Homeport website (*http://homeport.uscg.mil*):

(i) Full legal name, including middle name if one exists;

(ii) Date of birth;

(iii) Social security number (optional);

(iv) Employer name and 24 hour contact information; and

(v) Date of TWIC enrollment;

(3) The new hire presents an identification credential that meets the requirements of § 101.515 of this subchapter;

(4) There are no other circumstances that would cause reasonable suspicion regarding the new hire's ability to obtain a TWIC, and the vessel owner or operator or VSO have not been informed by the cognizant COTP that the new hire poses a security threat; and

(5) There would be an adverse impact to vessel operations if the new hire is not allowed access.

(c) This section does not apply to any individual being hired as a Company Security Officer (CSO) or VSO, or any individual being hired to perform vessel security duties.

(d) The new hire may not begin working on board the vessel under the provisions of this section until the owner, operator, or VSO receives notification, via Homeport or some other means, the new hire has passed an initial name check.

(f) A plan that is approved by the MSC is valid for 5 years from the date of its approval.

[USCG–2003–14749, 68 FR 39302, July 1, 2003, as amended at 68 FR 60515, Oct. 22, 2003; USCG–2004–19963, 70 FR 74669, Dec. 16, 2005]

§ 104.415 Amendment and audit.

(a) *Amendments.* (1) Amendments to a Vessel Security Plan that are approved by the Marine Safety Center (MSC) may be initiated by:

(i) The vessel owner or operator; or

(ii) The Coast Guard upon a determination that an amendment is needed to maintain the vessel's security. The Coast Guard will give the vessel owner or operator written notice and request that the vessel owner or operator propose amendments addressing any matters specified in the notice. (a) The facility owner or operator must ensure the facility operates in compliance with the security requirements in this part for the MARSEC Level in effect for the port.

(b) When notified of an increase in the MARSEC Level, the facility owner and operator must ensure:

(1) Vessels moored to the facility and vessels scheduled to arrive at the facility within 96 hours of the MARSEC Level change are notified of the new MARSEC Level and the Declaration of Security is revised as necessary;

(2) The facility complies with the required additional security measures within 12 hours; and

(3) The facility reports compliance or noncompliance to the COTP.

(c) For MARSEC Levels 2 and 3, the Facility Security Officer must inform all facility personnel about identified threats, and emphasize reporting procedures and stress the need for increased vigilance.

(d) An owner or operator whose facility is not in compliance with the requirements of this section, must inform the COTP and obtain approval prior to interfacing with a vessel or continuing operations.

(e) At MARSEC Level 3, in addition to the requirements in this part, a facility owner or operator may be required to implement additional measures, pursuant to 33 CFR part 6, 160, or 165, as appropriate, which may include but are not limited to:

(2) Use of armed security personnel to control access to the facility and to deter, to the maximum extent practical, a transportation security incident; and

(3) Examination of piers, wharves, and similar structures at the facility for the presence of dangerous substances or devices underwater or other threats.

§ 105.235 Communications.

(a) The Facility Security Officer must have a means to effectively notify facility personnel of changes in security conditions at the facility.

(b) Communication systems and procedures must allow effective and continuous communications between the facility security personnel, vessels interfacing with the facility, the cognizant COTP, and national and local authorities with security responsibilities.

(c) At each active facility access point, provide a means of contacting police, security control, or an emergency operations center, by telephones, cellular phones, and/or portable radios, or other equivalent means.

(a) Each facility owner or operator must ensure procedures are established for requesting a DoS and for handling DoS requests from a vessel.

(b) At MARSEC Level 1, a facility receiving a cruise ship or a manned vessel carrying Certain Dangerous Cargo, in bulk, must comply with the following:

(1) Prior to the arrival of a vessel to the facility, the Facility Security Officer (FSO) and Master, Vessel Security Officer (VSO), or their designated representatives must coordinate security needs and procedures, and agree upon the contents of the DoS for the period of time the vessel is at the facility; and

(2) Upon the arrival of the vessel at the facility, the FSO and Master, VSO, or their designated representative, must sign the written DoS.

(c) Neither the facility nor the vessel may embark or disembark passengers, nor transfer cargo or vessel stores until the DoS has been signed and implemented.

(d) At MARSEC Levels 2 and 3, the FSOs, or their designated representatives, of facilities interfacing with manned vessels subject to part 104, of this subchapter must sign and implement DoSs as required in (b)(1) and (2) of this section.

(2) Secure dangerous substances and devices that are authorized by the owner or operator to be on the facility;

(3) Control access to the facility; and

(4) Prevent an unescorted individual from entering an area of the facility that is designated as a secure area unless the individual holds a duly issued TWIC and is authorized to be in the area.

(b) The facility owner or operator must ensure that the following are specified:

(1) The locations where restrictions or prohibitions that prevent unauthorized access are applied for each MARSEC Level, including those points where TWIC access control provisions will be applied. Each location allowing means of access to the facility must be addressed;

(i) Have knowledge of methods for conducting audits and inspections, and security, control, and monitoring techniques;

(ii) Not have regularly assigned security duties; and

(iii) Be independent of any security measures being audited.

(5) If the results of an audit require amendment of either the FSA or FSP, the FSO must submit, in accordance with §105.410 of this subpart, the amendments to the cognizant COTP for review and approval no later than 30 days after completion of the audit and a letter certifying that the amended FSP meets the applicable requirements of this part.

§ 106.110 Compliance dates.

(a) On or before December 31, 2003, OCS facility owners or operators must submit to the cognizant District Commander for each OCS facility—

(1) The Facility Security Plan described in subpart D of this part for review and approval; or

(2) If intending to operate under an approved Alternative Security Program, a letter signed by the OCS facility owner or operator stating which approved Alternative Security Program the owner or operator intends to use.

(b) On or before July 1, 2004, each OCS facility owner or operator must be operating in compliance with this part.

(c) OCS facilities built on or after July 1, 2004, must submit for approval an FSP 60 days prior to beginning operations.

(d) Persons required to obtain a TWIC under this part may enroll beginning after the date set by the Coast Guard in a Notice to be published in the FEDERAL REGISTER. This notice will be directed to all facilities and vessels within a specific COTP zone.

(e) Facility owners or operators must be operating in accordance with the TWIC provisions in this part by the date set by the Coast Guard in a Notice to be published in the FEDERAL REGISTER. This Notice will be published at least 90 days before compliance must begin, and will be directed to all facilities within a specific Captain of the Port zone, based on whether enrollment has been completed in that zone. Unless an earlier compliance date is specified in this manner, all facility owner or operators will need to implement their TWIC provisions no later than September 25, 2008.

In such cases, the owner or operator must notify the cognizant District Commander by the most rapid means practicable as to the nature of the additional measures, the circumstances that prompted these additional measures, and the period of time these additional measures are expected to be in place.

(4) If the owner or operator has changed, the Facility Security Officer (FSO) must amend the Facility Security Plan (FSP) to include the name and contact information of the new OCS facility owner(s) or operator(s) and submit the affected portion of the FSP for review and approval in accordance with §106.410 of this subpart.

(b) *Audits.* (1) The FSO must ensure an audit of the FSP is performed annually, beginning no later than one year from the initial date of approval and attach a letter to the FSP certifying that the FSP meets the applicable requirements of this part.

(2) If there is a change in ownership or operations of the OCS facility, or if there have been modifications to the OCS facility, the FSP must be audited including but not limited to physical structure, emergency response procedures, security measures, or operations.

(3) Auditing the FSP as a result of modifications to the OCS facility may be limited to those sections of the FSP affected by the OCS facility modifications.

(4) Unless impracticable due to the size and nature of the company or the OCS facility, personnel conducting internal audits of the security measures specified in the FSP or evaluating its implementation must:

(i) Have knowledge of methods of conducting audits and inspections, and control and monitoring techniques;

(ii) Not have regularly assigned security duties; and

(iii) Be independent of any security measures being audited.

(5) If the results of an audit require an amendment of either the Facility Security Assessment (FSA) or FSP, the FSO must submit, in accordance with §106.410 of this subpart, the amendments to the cognizant District Commander for review and approval no later than 30 days after completion of the audit and a letter certifying that the amended FSP meets the applicable requirements of this part.

Subpart B—Unauthorized Entry Into Cuban Territorial Waters

§ 107.200 Definitions.

Owner, agent, master, officer, or person in charge means the persons or entities that maintain operational control over any vessel subject to the requirements of this subpart.

U.S. territorial waters has the same meaning as provided in 50 U.S.C. 195.

Vessel includes every description of watercraft or other artificial contrivance used, or capable of being used, as a means of transportation on water, including auxiliary vessels.

Vessel of the United States means—

(1) A vessel documented under chapter 121 of title 46 or a vessel numbered as provided in chapter 123 of that title;

(2) A vessel owned in whole or part by—

(i) The United States or a territory, commonwealth, or possession of the United States;

(ii) A State or political subdivision thereof;

(iv) A corporation, partnership, association, trust, joint venture, limited liability company, limited liability partnership, or any other legal entity, created and authorized to own vessels under the laws of the United States or any State, the District of Columbia, or any territory, commonwealth, or possession of the United States; unless the vessel has been granted the nationality of a foreign nation in accordance with article 5 of the 1958 Convention on the High Seas and a claim of nationality or registry for the vessel is made by the master or individual in charge at the time of the enforcement action by an officer or employee of the United States authorized to enforce applicable provisions of United States law;

(3) A vessel that was once documented under the laws of the United States and, in violation of the laws of the United States, was either sold to a person not a citizen of the United States or placed under foreign registry or a foreign flag, whether or not the vessel has been granted the nationality of a foreign nation;

(4) A vessel without nationality as defined in 46 U.S.C. Appendix 1903(c)(2)–(3); or

(5) A vessel assimilated to a vessel without nationality, in accordance with paragraph (2) of article 6 of the 1958 Convention on the High Seas.

§ 107.205 Purpose and delegation.

The purpose of this subpart is to implement Presidential Proclamation 7757, and Secretary of Homeland Security Order 2004–001. All powers and authorities granted to officers of the Coast Guard by this subpart may be delegated to other officers and agents of the Coast Guard unless otherwise prohibited by law.

§ 107.210 Applicability.

(a) This subpart applies to:

(1) Vessels of the United States less than 100 meters (328 feet) in length (and all associated auxiliary vessels) and the owners, agents, masters, officers, persons in charge, and members of the crew of such vessels, that depart U.S. territorial waters and thereafter enter Cuban territorial waters, regardless of whether such entry is made after an intervening entry into, passage through, or departure from any other foreign territory or territorial waters;

(2) Vessels of the United States less than 100 meters (328 feet) in length (and all associated auxiliary vessels) and the owners, agents, masters, officers, persons in charge, and members of the crew of such vessels that are located at or get underway from a berth, pier, mooring, or anchorage in U.S. territorial waters, or depart U.S. territorial waters with the intent to enter Cuban territorial waters; and

(3) Any person who knowingly fails to comply with this subpart or order given under this subpart, or knowingly

obstructs or interferes with the exercise of any power conferred by this subpart.

(b) This subpart does not apply to: Foreign vessels, as defined by 46 U.S.C. 2101(12), public vessels, as defined by 46 U.S.C. 2101(24) operated for non-commercial purposes, or vessels of the United States entering Cuban territorial waters under force majeure.

§ 107.215 Regulations.

(a) Each person or vessel to which this subpart applies may not get underway or depart from U.S. territorial waters without a written permit from the Commander, Seventh Coast Guard District, or the District Commander's designee. Permits may be obtained pursuant to the process established in § 107.220. The owner, agent, master, or person in charge of the vessel must maintain the written permit for the vessel on board the vessel.

(b) Each person or vessel to which this subpart applies must obey any oral or written order issued by a Coast Guard Area or District Commander, or their designees, who may issue oral or written orders to control the anchorage or movement of such vessels and persons. Designees include Captains of the Port, and commissioned, warrant and petty officers of the Coast Guard.

(c) No person or vessel to which this subpart applies may obstruct or interfere with the exercise of any power conferred by this subpart.

(d) Coast Guard commissioned, warrant and petty officers may go or remain on board a vessel subject to this subpart, may place guards on the subject vessel, may remove all persons not specifically authorized by the Coast Guard to go or remain on board the subject vessel, and may take full or partial possession or control of any such vessel or part thereof, or person on board. Such actions to be taken are in the discretion of the Coast Guard Area or District Commander, or their designees, as deemed necessary to ensure compliance with this subpart and any order given pursuant thereto.

(e) Where there is a reasonable, articulable basis to believe a vessel to which this subpart applies intends to enter Cuban territorial waters, any Coast Guard commissioned, warrant, or petty officer may require the owners, agents, masters, officers, or persons in charge, or any member of the crew of any such vessel to provide verbal assurance that the vessel will not enter Cuban territorial waters as a condition for a vessel to get underway from a berth, pier, mooring, or anchorage in U.S. territorial waters, or to depart from U.S. territorial waters. A Coast Guard commissioned, warrant, or petty officer may require the owners, agents, masters, officers, or persons in charge of the vessel to identify all persons on board the vessel and provide verbal assurances that all persons on board have received actual notice of these regulations. The failure of an owner, agent, master, officer, or person in charge, or any member of the crew of any vessel (including all auxiliary vessels) to which this subpart applies to provide requested verbal assurances shall not be used as the sole basis for seizing the vessel for forfeiture under this subpart.

(f) The provisions of this subpart are in addition to any powers conferred by law upon Coast Guard commissioned, warrant, or petty officers, and not in limitation of any powers conferred by law or regulation upon such officers, or any other officers of the United States.

§ 107.220 Permits.

(a) Applications for a permit may be obtained by writing or calling the Chief of Operations at Commander, Seventh Coast Guard District (o), 909 SE First Avenue, Miami, FL 33131, telephone (305) 415–6920, or by such other means as the District Commander may make available to the public. The completed application may be returned via regular mail or facsimile to the Chief of Operations at Commander, Seventh Coast Guard District (o), 909 SE First Avenue, Miami, FL 33131, facsimile (305) 415–6925, or by other means prescribed by the District Commander for the convenience of the applicant.

(b) All applications must be written in English and legible.

(c) The information and documentation in this paragraph must be provided with the application in order for it to be complete and considered by the Coast Guard:

(1) The name, address, and telephone number of the applicant;

(2) A copy of the valid vessel registration;

(3) A copy of a valid and applicable license issued to the applicant by the U.S. Department of Commerce, Bureau of Industry and Security, pursuant to the Export Administration Regulations, 15 CFR chapter VII, subchapter C, parts 730–774 for the export of the vessel to Cuba; and

(4) A copy of a valid and applicable specific license issued by the U.S. Department of the Treasury, Office of Foreign Assets Control (OFAC), pursuant to the Cuban Assets Control Regulations, 31 CFR part 515, authorizing the applicant's travel-related transactions in Cuba. Applicants who do not require such an OFAC specific license shall make a written certification to that effect identifying which OFAC general license applies or explaining why no OFAC license is required.

(d) Such applications must provide the documentation required by § 107.220(c) for each person to which this subpart applies on board the particular vessel.

(e) Upon receiving an application for a permit, the Seventh Coast Guard District Commander (o) has ten (10) calendar days from the receipt of the application to decide whether the application is complete and, if so, whether a permit will be issued or denied. Applicants will be notified in writing of the decision to issue or deny a permit. Incomplete applications will be returned to the applicant, along with the reasons why such application was deemed incomplete.

§ 107.225 Appeals.

(a) Upon written notification by the Coast Guard that an application has been denied, the applicant may request the Seventh Coast Guard District Commander to reconsider. The request to reconsider must be in writing, must be made within five (5) business days from the date of receipt of the initial denial, and must contain complete supporting documentation and evidence which the applicant wishes to have considered. Requests for reconsideration must be mailed to Commander, Seventh Coast Guard District (d), 909 SE First Avenue, Miami, FL 33131.

(b) Upon receipt of the request to reconsider, the Seventh Coast Guard District Commander may direct a representative to gather and submit documentation or other evidence, which, in the judgment of the Seventh District Commander, would be necessary or helpful to a resolution of the request. If gathered and submitted, a copy of this documentation and evidence shall be made available to the applicant. The applicant shall be afforded five (5) business days from the date of receipt of documentation and evidence gathered by the Seventh Coast Guard District Commander's representative to submit rebuttal materials. On or before the fifteenth (15th) calendar day following submission of all materials, the Seventh Coast Guard District Commander shall issue a ruling, in writing, on the request to reconsider. The ruling may reverse the initial denial, or, if the denial is upheld, must contain the specific basis for denial of the application upon reconsideration.

(c) The Seventh Coast Guard District Commander's denial of a request for reconsideration taken under paragraph (b) of this section constitutes final agency action.

§ 107.230 Enforcement.

(a) *Unauthorized departure or entry, or both.* (1) Vessels and persons to whom this subpart applies, as described in § 107.210(a)(1), that do not comply with § 107.215(a), or any order issued pursuant to this subpart may be subject to a civil penalty of not more than $25,000 for each day of violation.

(2) Vessels and persons to whom § 107.230(a)(1) applies shall be held to a standard of strict liability for any entry into Cuban territorial waters without a permit or for failure to maintain the permit for the vessel on board the vessel as required under this subpart, except that strict liability will not be imposed if the failure to obtain or carry a permit results primarily from an act of war, force majeure, or the negligence of the United States.

(b) *Knowing failure to comply.* Any person to whom this subpart applies as described in §§ 107.210(a)(2) or (a)(3) who knowingly fails to comply with this

subpart or order given under this subpart, or knowingly obstructs or interferes with the exercise of any power conferred by this subpart may be subject to:

(1) Imprisonment for not more than 10 years;

(2) A monetary penalty of not more than $10,000;

(3) Seizure and forfeiture of the vessel; and

(4) A civil penalty of not more than $25,000 for each day of violation.

(c) *False Statements.* Violation of 18 U.S.C. 1001 may result in imprisonment for not more than five years or a fine, or both.

(d) *Other enforcement.* The civil penalties provided for in this subpart are separate from and in addition to any enforcement action that any other agency may seek for violations of the statutes and regulations administered by such agencies.

§ 107.240 Continuation.

This subpart will continue to be enforced so long as the national emergency with respect to Cuba, and the emergency authority relating to the regulation of the anchorage and movement of vessels declared in Proclamation 6867, and expanded in scope by Proclamation 7757, continues.

L. 107–296, 116 Stat. 2135; Department of Transportation Order 11001, March 31, 1967, 49 CFR 1.4(a)(3).

§ 109.01 Purpose.

The purpose of the rules and regulations in this subchapter is to implement certain laws and set forth the requirements for anchorage areas.

§ 109.05 Anchorage grounds.

(a) Section 7 of the River and Harbor Act of March 4, 1915 (33 U.S.C. 471), authorizes the establishment of anchorage grounds for vessels in navigable waters of the United States whenever it is apparent that these are required by the maritime or commercial interests of the United States for safe navigation. The statute also authorizes the adoption of suitable rules and regulations regarding the establishment of anchorage grounds, which are enforced by the Coast Guard. The authority conferred by this statute was transferred to and vested in the Secretary of Transportation by section 6(g)(1)(A) of the Department of Transportation Act (80 Stat. 931) and delegated to the Commandant of the U.S. Coast Guard in §1.46 of Title 49 CFR, and redelegated the authority to establish anchorage grounds to each Coast Guard District Commander in §1.05–1(e)(1)(i) of this title.

(b) District Commanders will, whenever matters relating to the anchorage of vessels are under consideration, ascertain the view of the District and Division Engineer, Corps of Engineers, U.S. Army, and the proper representatives of other departments likely to be interested, including the Commandant of the Naval District concerned and the medical officer in charge of the quarantine station at localities where quarantine anchorages are involved, in order that they may arrange for suitable representation at such hearings. The views of the medical officer in charge of the quarantine station relating to the proposed location and boundaries of the quarantine anchorage will be accepted insofar as practicable and consistent with the establishment of other anchorage areas. (An Act of Congress approved July 1, 1944, as amended (42 U.S.C. 267), authorizes the Surgeon General, with the approval of the Secretary of Health, Education, and Welfare, to designate the boundaries of the quarantine grounds and quarantine anchorages for vessels which are reserved for use at each United States quarantine station.) A notice of public hearing concerning changes to the Anchorage Regulations will be issued by the District Commander and will be mailed to all known interested parties. After providing an opportunity for public participation, the District Commander will, if circumstances so warrant, issue changes to the Anchorage Regulations, or in appropriate cases forward recommendations for such changes to the Commandant.

(c) As soon as publication has been noted in the FEDERAL REGISTER, the District Commander will publish changes to the Anchorage Regulations in the Local Notice to Mariners.

§ 109.07 Anchorages under Ports and Waterways Safety Act.

The provisions of section 4 (a) and (b) of the Ports and Waterways Safety Act as delegated to the Commandant of the U.S. Coast Guard in Pub. L. 107–296, 116 Stat. 2135, authorize the Commandant to specify times of movement within ports and harbors, restrict vessel operations in hazardous areas and under hazardous conditions, and direct the anchoring of vessels. The sections listed in §110.1a of this subchapter are regulated under the Ports and Waterways Safety Act.

(33 U.S.C. 1221 et seq.; 33 U.S.C. 471; 49 U.S.C. 1655(g)(1); 49 CFR 1.46(n); 49 CFR 1.46(c)(1))

§ 109.10 Special anchorage areas.

An Act of Congress of April 22, 1940, provides for the designation of special anchorage areas wherein vessels not more than sixty-five feet in length, when at anchor, will not be required to carry or exhibit anchorage lights. Such designation is to be made after investigation, by rule, regulation, or order, the procedure for which will be similar to that followed for anchorage grounds under section 7 of the River and Harbor Act of March 4, 1915, as referred to in §109.05. The areas so designated should be well removed from the fairways and located where general navigation will not endanger or be endangered by unlighted vessels. The authority to designate special anchorage areas was transferred to and vested in the Secretary of Transportation by section 6(g)(1)(D) of the Department of Transportation Act (80 Stat. 931) and delegated to the Commandant of the U.S. Coast Guard under §1.46 of Title 49 CFR, who has redelegated pursuant to the authority to establish special anchorage areas to each Coast Guard District Commander in §1.05–1(e)(1)(i).

§ 109.15 Enforcement proceedings.

Proceedings against a vessel violating the Anchorage Regulations are to be brought in the name of the officer of the Coast guard assigned for the time being as Captain of the Port. When the vessel is at a port where there is no Coast Guard officer, proceedings will be initiated in the name of the District Commander.

[CGFR 67–46, 32 FR 17727, Dec. 12, 1967]

§ 109.20 Publication; notice of proposed rule making.

(a) Section 4 of the Administrative Procedure Act (5 U.S.C. 553), requires publication of general notice of proposed rule making in the FEDERAL REGISTER (unless all persons subject thereto are named and either personally served or otherwise have actual notice thereof in accordance with law), except to the extent that there is involved (1) any military, naval, or foreign affairs function of the United States or (2) any matter relating to agency management or personnel or to public property, loans, grants, benefits, or contracts. Except where notice or hearing is required by statute, this requirement does not apply to interpretative rules, general statements of policy, rules of agency organization, procedure, or practice, or in any situation in which the agency for good cause finds (and incorporates the finding and a brief statement of the reasons therefor in the rules issued) that notice and public procedure thereon are impracticable, unnecessary, or contrary to the public interest.

(b) General notice of proposed rule making published in accordance with the above will include (1) a statement of the time, place, and nature of public rule making proceedings; (2) reference to the authority under which the rule is proposed; and (3) either the terms or substance of the proposed rule or a description of the subjects and issues involved.

Permit issued by the Captain of the Port is not necessary for plant engaged upon works of river and harbor improvement under the supervision of the District Engineer, but the District Engineer will notify the Captain of the Port in advance of all such proposed work.

(11) Whenever the maritime or commercial interests of the United States so require, the Captain of the Port is hereby empowered to shift the position of any vessel anchored within the anchorage areas, of any vessel anchored outside the anchorage areas, of any vessel which is so moored or anchored as to impede or obstruct vessel movements in any channel or obstruct or interfere with range lights and of any vessel which, lying at the exterior end of a pier or alongside an open bulkhead, obstructs or endangers the passage of vessels in transit by, or to or from, adjacent wharf property or impedes the movements of vessels entering or leaving adjacent slips.

(12) A vessel upon being notified to move into the anchorage limits or to shift its position on anchorage grounds, shall get under way at once or signal for a tug, and shall change position as directed, with reasonable promptness.

(13) Nothing in this section shall be construed as relieving any vessel or the owner or person in charge of any vessel from the penalties of law for obstructing navigation or for obstructing or interfering with range lights, or for not complying with the navigation laws in regard to lights, fog signals, or for otherwise violating law.

(14) Any vessel prohibited by these rules from anchoring in a specific anchorage because of the vessel's length or draft may anchor in the anchorage with permission from the Captain of the Port.

The Captain of the Port may, in his discretion, require every person having business on board vessels which are being loaded with explosives, other than members of the crew, to have a pass from the Captain of the Port in such form as he shall prescribe. Such permit or pass shall be shown whenever required by him or by his authorized agents.

(7) Every vessel loading, unloading, transporting, or containing explosives shall display by day a red flag at least 16 square feet in area at its masthead, or at least 10 feet above the upper deck if the vessel has no mast, and shall display by night a red light in the same position specified for the flag.

(8) When local regulations of any place require previous local authority for the transfer of explosives or fireworks between vessels or between a vessel and a wharf or other place ashore, the Captain of the Port will permit the removal from the anchorage of such vessel containing explosives to any place covered by such local regulations only when he is satisfied that the required local authority has been granted.

When an emergent condition exists due to congestion in the prescribed anchorage areas in the Delaware River, the Captain of the Port may authorize the anchorage of vessels in locations other than the prescribed areas. Vessels so anchored must not be anchored within the channel limits. Any vessel anchored outside of the prescribed anchorage limits must move to a prescribed anchorage area when space becomes available.

(2) No vessel shall occupy any prescribed anchorage for a longer period than 48 hours without a permit from the Captain of the Port. Vessels expecting to be at anchor for more than 48 hours shall obtain a permit from the Captain of the Port for that purpose. No vessel in such condition that it is likely to sink or otherwise become a menace or obstruction to navigation or anchorage of other vessels shall occupy an anchorage except in an emergency, and then only for such period as may be permitted by the Captain of the Port.

(3) Whenever, in the opinion of the Captain of the Port such action may be necessary, he may require any or all vessels in any designated anchorage area to moor with two or more anchors.

(4) [Reserved]

(5) Anchors shall be placed well within the anchorage areas, so that no portion of the hull or rigging will at any

time extend outside of the anchorage area.

(6) Light-draft barges using the anchorages shall be anchored away from the deeper portions of the anchorages, so as not to interfere with the anchoring of deep-draft vessels. Any barges towed in tandem to an anchorage area shall be bunched together when anchoring.

(7) Upon approval of the District Engineer, Corps of Engineers, the Captain of the Port may permit wrecking plant or other vessels legally engaged in recovering sunken property, or in laying or repairing pipe lines or cables, or plant engaged in dredging operations, to anchor in channels. Such permission is not necessary for plant engaged upon works of river and harbor improvement under the supervision of the District Engineer, but the District Engineer will notify the Captain of the Port in advance of all such proposed work.

(8) [Reserved]

(9) A vessel upon being notified to shift its position shall get under way at once or signal for a tug and shall change position as directed with reasonable promptness.

(10) Nothing in this section shall be construed as relieving any vessel or the owner or person in charge of any vessel from the penalties of law for obstructing navigation or for obstructing or interfering with range lights, or for not complying with the laws relating to lights and fog signals or other navigation laws and regulations.

(11) Annually from September 1 until December 31, additional requirements and restrictions in this paragraph for the use of anchorages defined in paragraphs (a)(7), (a)(8), and (a)(10) of this section apply.

(i) Before anchoring in Anchorage 7 off Marcus Hook, as described in paragraph (a)(8) of this section, a vessel must first obtain permission from the Captain of the Port, Philadelphia, at least 24 hours in advance of arrival. Permission to anchor will be granted on a ''first-come, first-served'' basis. The Captain of the Port, Philadelphia, will allow only one vessel at a time to be at anchor in Anchorage 7, and no vessel may remain within Anchorage 7 for more than 12 hours. Any vessel arriving from or departing to sea that requires an examination by the public health service, customs or immigration authorities will be directed to an anchorage for the required inspection by the Captain of the Port on a case-by-case basis.

(ii) For Anchorage 6 off Deepwater Point, as described in paragraph (a)(7) of this section, and Anchorage 9 as described in paragraph (a)(10) of this section.

(A) Any vessel 700 feet or greater in length requesting anchorage shall obtain permission from the Captain of the Port, Philadelphia, Pennsylvania, at least 24 hours in advance.

(B) Any vessel from 700 to 750 feet in length shall have one tug alongside at all times while the vessel is at anchor.

(C) Any vessel greater than 750 feet in length shall have two tugs alongside at all times while the vessel is at anchor.

(D) The Master, owner or operator of a vessel at anchor shall ensure that any tug required by this section is of sufficient horsepower to assist with necessary maneuvers to keep the vessel clear of the navigation channel.

(iii) As used in this section, Captain of the Port means the Commander of Sector Delaware Bay or any Coast Guard commissioned, warrant or petty officer who has been authorized by the Captain of the Port to act on his behalf. The Captain of the Port may be contacted by telephone at (215) 271–4807 or via VHF marine band radio, channel 16.

(c) *Regulations for vessels carrying and handling explosives.* (1) All vessels carrying explosives as defined in and subject to Title 49 Code of Federal Regulations, Parts 171 through 177, or on which such explosives are to be loaded, shall obtain a permit from the Captain of the Port, except as provided in paragraph (c)(5) of this section. The maximum amount of explosives for which a permit is required in 49 CFR Parts 171 through 177, which may be carried or loaded at any time by a vessel shall not exceed 800 tons, except in cases of great emergency or by special permit from the Captain of the Port. This written permit shall be obtained from the Captain of the Port before vessels carrying explosives or on which explosives are to be loaded within the weight limit

specified in paragraph (c)(1) of this section, may anchor in any anchorge. Permits will not be issued for Anchorage 2 under any circumstances. Such permit may be revoked at any time. All vessels used in connection with loading, or unloading explosives shall carry written permits from the Captain of the Port, and shall show such permit whenever required by him or his representative.

(2) Vessels handling explosives shall be anchored so as to be at least 2,200 feet from any other vessel, but the number of vessels which may anchor in an anchorage at any one time shall be at the discretion of the Captain of the Port. This provision is not intended to prohibit barges or lighters from tying up alongside the vessels for the transfer of cargo.

(3) Whenever a vessel or barge not mechanically self-propelled anchors while carrying explosives or while awaiting the loading of explosives, the Captain of the Port may require the attendance of a tug upon such vessel or barge when in his judgment such action is necessary.

(4) Fishing and navigation are prohibited within an anchorage whenever occupied by an anchored vessel displaying a red flag.

(5) The District Engineer, U.S. Army Corps of Engineers, may authorize, in writing, a vessel carrying explosives for use on river and harbor works or on other work under Department of the Army permit, to anchor in or near the vicinity of such work. The Captain of the Port will prescribe the conditions under which explosives shall be stored and handled in such cases.

(6) Vessels carrying explosives or on which explosives are to be loaded, within the weight limit specified in paragraph (c)(1) of this section, shall comply with the general regulations in paragraph (b) of this section when applicable.

(7) Nothing in this section shall be construed as relieving any vessel or the owner or person-in-charge of any vessel, and all others concerned, of the duties and responsibilities imposed upon them to comply with the regulations governing the handling, loading or discharging of explosives entitled ''Subchapter C—Hazardous Materials Regulations'' (49 CFR Parts 171 through 177).

§ 110.214 Los Angeles and Long Beach harbors, California.

(a) *General Regulations*—(1) *Anchorage Assignment.* (i) Unless otherwise directed by the Captain of the Port Los Angeles-Long Beach, the pilot stations for the Port of Long Beach and the Port of Los Angeles will assign the use of commercial anchorages within their jurisdictions (Long Beach and Los Angeles Harbors respectively). All anchorages outside (seaward) of the federal breakwater will be assigned by the Los Angeles-Long Beach Vessel Traffic Information Service (VTIS). The master, pilot, or person in charge of a vessel must notify the appropriate pilot station (for anchorages inside the federal breakwater) or the VTIS (for anchorages outside the federal breakwater) of their intention to anchor, upon anchoring, and at least fifteen minutes prior

to departing an anchorage. All anchorage assignments will be made as described in this part unless modified by the Captain of the Port.

(ii) Radio communications for port entities governing anchorages are as follows: Los Angeles-Long Beach Vessel Traffic Information Service, call sign ''LA-Long Beach Traffic,'' Channel 14 VHF-FM; Los Angeles Port Pilots, Channel 73 VHF-FM; Long Beach Port Pilots, Channel 74 VHF-FM.

(iii) The exact boundary separating the Port of Long Beach from the Port of Los Angeles is published in local Port Tariffs. For purposes of this rule, Long Beach waters are those east, and Los Angeles waters are those west, of the following locations:

(A) Inner Harbor: The Henry Ford (Badger Avenue) Bridge.

(B) Middle Harbor: The Pier 400 Transportation Corridor.

(C) Outer Harbor: The western boundary of Commercial Anchorage B.

(2) *Required approvals, permits and notifications.* (i) No vessel may anchor anywhere within Los Angeles or Long Beach harbors for more than 10 consecutive days unless an extended anchorage permit is obtained from the Captain of the Port. In determining whether an extended anchorage permit will be granted, consideration will be given, but not necessarily limited to: the current and anticipated demands for anchorage space within the harbor, the duration requested, the condition of the vessel, and the reason for the request.

(ii) No vessel while carrying, loading, or unloading division 1.1 or 1.2 materials as defined in 49 CFR 173.50, or Cargoes of Particular Hazard (COPH) as defined in 33 CFR 126.10, or Certain Dangerous Cargoes (CDC) as defined in 33 CFR 160.203, may anchor without first obtaining a permit issued by the Captain of the Port.

(iii) Vessels requiring use of an explosives anchorage should contact the Captain of the Port at least 24 hours prior to the anticipated need for the explosives anchorage to allow for proper activation of that anchorage.

(iv) Except with the prior approval of the Captain of the Port, or, in the case of an emergency, with approval of the Captain of the Port immediately subsequent to anchoring, no commercial vessel greater than 1600 gross tons may anchor in Los Angeles-Long Beach Harbor unless it maintains the capability to get underway within 30 minutes. Any vessel unable to meet this requirement must immediately notify the Captain of the Port and make arrangements for an adequate number of tugs to respond to the vessel within 30 minutes notice.

(v) In anchorages where lightering is authorized, the Captain of the Port must be notified at least 4 hours in advance of a vessel conducting lightering operations (see 33 CFR 156.118).

(3) *Other General Requirements.* (i) When at anchor, all commercial vessels greater than 1600 gross tons shall, at all times, have a licensed deck officer on watch and maintain a continuous radio listening watch unless subject to one of the exemptions in this paragraph. The radio watch must be on CH–13 VHF-FM when anchored inside the federal breakwater, and on CH–14 VHF-FM or on CH–16 VHF-FM when anchored outside the federal breakwater, except for unmanned barges; vessels which have less than 100 gallons of oil or fuel onboard regardless of how the fuel is carried; and other vessels receiving advance approval from the Captain of the Port.

(ii) When sustained wind speeds exceed 40 knots, all anchored commercial vessels greater than 1600 gross tons shall ensure their propulsion plant is placed in immediate standby and a second anchor is made ready to let go. Vessels unable to comply with this requirement must immediately notify the Captain of the Port. In such case, the Captain of the Port may require the vessel to have one or more tugs standing by to render immediate assistance.

(4) *Prohibitions.* Within Los Angeles Harbor, Long Beach Harbor, and the Los Angeles-Long Beach Precautionary Area, except for emergency reasons, or with the prior approval of the Captain of the Port, vessels are prohibited from anchoring outside of designated anchorage areas. In the event a vessel anchors outside a designated anchorage area for emergency reasons, the master, pilot, or person in charge of the vessel shall:

(i) Position the vessel so as to minimize the danger to other vessels and facilities;

(ii) Immediately notify the Captain of the Port by the most expeditious means of the vessel's location and the reason(s) for the emergency anchoring; and

(iii) Move the vessel as soon as the emergency condition prompting anchoring outside a designated area abates, or as soon as ordered to move by the Captain of the Port, whichever occurs sooner.

(5) *Exemption from rules.* The Captain of the Port may, upon request, or whenever he/she deems appropriate, authorize a deviation from any rule in this section.

Each vessel anchoring outside an established anchorage area shall immediately notify the Captain of the Port of her position and reason for anchoring.

(2) No vessel may permanently moor in areas adjacent to the San Joaquin River Deep Water Channel except with the written permission of the Captain of the Port.

(3) Each vessel anchoring for safety reasons in the San Joaquin River Deep Water Channel, the Sacramento River Deep Water Ship Channel, or the Stockton or West Sacramento Turning Basins shall be positioned as near to the edge of the channel or turning basin as possible so as not to interfere with navigation, or obstruct the approach to any pier, wharf, slip, or boat harbor and shall move as soon as the reason for anchoring no longer exists or when notified to move by the Captain of the Port.

(4) No vessel may anchor within a tunnel, cable, or pipeline area shown on a Government chart.

(11) Deep-draft vessels shall take precedence over vessels of lighter draft in the deeper portions of all anchorages. Light-draft barges and vessels shall anchor away from the deeper portions of the anchorage so as not to interfere with the anchoring of deep-draft vessels. Should circumstances warrant, the Captain of the Port may require lighter draft vessels to move to provide safe anchorage, particularly in Anchorages 7 and 9, for deep-draft vessels.

(12) Barges towed in tandem to any anchorage shall nest together when anchoring.

(13) Each vessel that is notified by the Captain of the Port or his authorized representative to shift her position shall promptly shift her position.

(17) The District Engineer, Corps of Engineers, may issue written permission for anchoring a single barge carrying explosives in quantities considered by the District Engineer as safe and necessary in the vicinity of work being done directly under the District Engineer supervision or under a Department of the Army permit. When issuing such a permit, the District Engineer shall prescribe the conditions under which the explosives must be stored and handled and shall furnish a copy of the permit and a copy of the rules and regulations for storing and handling to the Captain of the Port.

(18) No vessel may anchor in a ''dead ship'' status (propulsion or control unavailable for normal operations) at any anchorage other than in Anchorage 9 as specified in Table 110.224(D)(1) without prior approval of the Captain of the Port.

(b) *Naval anchorages.* In addition to the general regulations in paragraph (a) of this section, the following regulations apply to each naval anchorage described in this section.

(2) Other vessels using a naval anchorage shall promptly notify the Captain of the Port upon anchoring and upon departure and shall be prepared to move within one hour upon notice should the anchorage be required for public vessels.

(1) Explosives anchorages and, where established, surrounding forbidden anchorage zones, are temporarily activated as needed by the Captain of the Port. When not activated, explosives anchorages and surrounding forbidden anchorage zones become part of the general anchorage which encompasses them or, if not located within the boundaries of a general anchorage, become available for general navigation.

(2) Notice of activation and deactivation of explosives anchorages will be disseminated by Coast Guard Broadcast Notice to Mariners.

(3) Each vessel which anchors in an explosives anchorage or surrounding forbidden anchorage zone while such anchorage is not activated shall be prepared to move within one hour if the anchorage is activated.

(4) Unless otherwise authorized by the Captain of the Port:

(i) No vessel may anchor in an activated explosives anchorage except vessels loaded with, loading, or unloading explosives.

(ii) No vessel may enter or remain in an activated explosives anchorage except (A) vessels loaded with, loading or unloading explosives, (B) lighters or barges delivering cargo to or from such vessels, or (C) a tug authorized by paragraph (c)(7)(iii) of this section.

(iii) No vessel carrying explosives or on which explosives are to be loaded may enter or remain in an activated explosives anchorage without written permission from the Captain of the Port. Such a permit must be obtained before entering the anchorage and may be revoked at any time.

(iv) No vessel may anchor in the forbidden anchorage zone surrounding an activated explosives anchorage.

(5) Each vessel loaded with, loading, or unloading explosives, while within an explosives anchorage, shall display by day at her masthead, or at least 10 feet above the upper deck if the vessel has no mast, a red flag at least 16 square feet in area.

(6) Each passing vessel shall reduce speed as necessary so as to insure that its wake does not interfere with cargo transfer operations aboard any vessel displaying a red flag in an explosives anchorage.

(7) The Captain of the Port may:

(i) Issue permission to any vessel carrying flammable solids, oxidizing materials, corrosive liquids, flammable liquids, compressed gases, or poisonous substances to occupy a berth in an activated explosives anchorage. Such a

permit must be obtained before entering the anchorage and may be revoked at any time.

(ii) Require any person having business on board a vessel which is loaded with, loading, or unloading explosives to have a document that is acceptable to the Coast Guard for identification purposes and to show that document to the Captain of the Port.

(iii) Require a non-self-propelled vessel, or a self-propelled vessel that is unable to maneuver under its own power, that occupies an activated explosives anchorage to be attended by a tug.

(d) *Anchorage grounds.* (1) Table 110.224(d)(1) lists anchorage grounds, identifies the purpose of each anchorage, and contains specific regulations applicable to certain anchorages.

(2) The geographic boundaries of each anchorage are contained in paragraph (e) of this section.

(i) Except for the Anacortes General Anchorages, a berth in a general anchorage, if available, may be assigned to any vessel by the Captain of the Port or his authorized representative upon application and he may grant revocable permits for the continuous use of the same berth. For the Anacortes General Anchorages, the following hierarchy will be applied for assignment of a berth: tankers conducting lightering operations, then loaded tankers, and then all other vessels.

The tug must be manned, remain in attendance with the barge and maintain a communications guard with VTS on an appropriate VTS VHF radio working frequency, which is currently channel 5A.

(7) No vessel shall anchor in any general anchorage described in paragraph (a) of this section without prior permission from the Captain of the Port, or his authorized representative. No vessel shall occupy any general anchorage for a period longer than 30 days unless a permit is obtained from the Captain of the Port for that purpose. (13) Fishing and navigation by pleasure and commercial craft are prohibited within the area at all times when vessels which are anchored in the area for the purpose of loading or unloading explosives display a red flag by day and a red light by night, unless special permission is granted by the Captain of the Port.

(14) No explosives handling in any explosive anchorage will be undertaken by any vessel unless personnel from the Captain of the Port are on board to supervise the handling of explosives.

(b) *The regulations.* (1) The outer harbor anchorage shall be used by vessels undergoing examination by quarantine, customs, immigration, and Coast Guard officers. Upon completion of these examinations, vessels shall move promptly to anchorage. This anchorage shall also be used by vessels having drafts too great to permit them to use the inner harbor anchorage. No vessel shall remain more than 48 hours in this anchorage without a permit from the Harbor Master.

(2) The small-craft anchorage shall be used by small vessels undergoing examination and also by small vessels anchoring under permit from the Harbor Master.

(3) The requirements of the Navy shall predominate in the deep-draft anchorage. When occupied by naval vessels all other vessels and craft shall remain clear of the area. When the area is not required for naval vessels, the Harbor Master may upon application made in advance assign other vessels to the area. Vessels so assigned and occupying the area shall move promptly upon notification by the Harbor Master.

(4) The harbor regulations for the Port of St. Thomas, V.I. of the United States and approaches thereto, including all waters under its jurisdiction, as adopted by the Government of the Virgin Islands, will apply to the Long Bay Anchorage.

(5) In addition, the Long Bay Anchorage is reserved for all types of small vessels, including sailing and motor pleasure craft, and such craft shall anchor in no other area except Anchorage E, in the northern portion of the harbor of Charlotte Amalie.

(6) Floats for marking anchors in place will be allowed in the Long Bay anchorage; stakes or mooring piles are prohibited.

(7) Vessels not more than 65 feet in length are not required to exhibit or carry anchor lights within the Long Bay anchorage, but must display them if emergency requires anchoring in any other part of the harbor.

(8) No vessel may anchor in any of the St. Thomas Harbor Anchorages without a permit from the Harbor Master.

(9) The U.S. Coast Guard Captain of the Port of St. Thomas is hereby empowered, whenever the maritime or commercial interests of the United States so require, to shift the position of any vessel anchored within the Long Bay anchorage, and of any vessel which is so moored or anchored as to impede or obstruct vessel movement in the harbor, and to enforce all regulations of this section should the need arise.

§ 110.255 Ponce Harbor, P.R.

(a) *Small-craft anchorage.* On the northwest of Ponce Municipal Pier and northeast of Cayitos Reef, bounded as follows: Beginning at latitude 17°58′27″, longitude 66°37′29.5″, bearing approximately 325° true, 2,200 feet from the most southwest corner of Ponce Municipal Pier; thence 273°30′ true, 1,800 feet; thence 15° true, 900 feet; thence 93°30′ true, 1,800 feet; thence 195° true, 900 feet to the point of beginning.

(b) *The regulations.* (1) The Commonwealth Captain of the Port may authorize use of this anchorage whenever he finds such use required in safeguarding the maritime or commercial interests.

(2) No vessel shall anchor within the area until assigned a berth by the Commonwealth Captain of the Port. Application for permission to occupy the anchorage must be submitted in advance by the master or authorized representative of the vessel.

(3) Vessels occupying the anchorage will at all times keep within the limits of the area, and shall move or shift their position promptly upon notification by the Commonwealth Captain of the Port.

(4) The anchorage is reserved for all types of small craft, including schooners, fishing vessels, yachts and pleasure craft.

(5) Floats for marking anchors in place will be allowed; stakes or mooring piles are prohibited.

§ 114.01 Purpose.

(a) The purpose of the rules and regulations in this subchapter is to implement certain laws and set forth the requirements for:

(1) Locations and clearances of bridges and causeways over the navigable waters (33 U.S.C. 401, 491 to 507, and 525 to 534).

(2) Administration of the alteration of unreasonably obstructive bridges (33 U.S.C. 511 to 524).

(3) Regulation of drawbridge operation (33 U.S.C. 499).

(b) The rules and regulations in this subchapter also describe the procedures and practices, including forms and instructions, which are applicable to the public subject to certain laws governing bridges and causeways over the navigable waters of the United States.

(c) Subsection 6(g) of the Department of Transportation Act (Sec. 6(g), 80 Stat. 937, 49 U.S.C. 1655(g)) transferred and vested in the Secretary of Transportation all functions, powers and duties of the Secretary of the Army and other officers and offices of the Department of the Army under specified laws. The Secretary of Transportation by 49 CFR 1.45(b) and 1.46(c) (5), (6), (8), (9), and (10) delegated to the Commandant, U.S. Coast Guard, with the authority to redelegate within the Coast Guard, the authority to exercise the functions, powers, and duties of the Secretary with respect to the following provisions of law:

(1) Section 5 of the Act of August 18, 1894, as amended (28 Stat. 362; 33 U.S.C. 499), regarding drawbridge operation regulations.

(2) The Act of June 21, 1940, as amended (54 Stat. 497; 33 U.S.C. 511 et seq.), regarding unreasonably obstructive bridges.

(3) Section 9 of the Act of March 3, 1899, as amended (30 Stat. 1151; 33 U.S.C. 401), regarding construction of bridges, causeways, etc., to the extent that it relates generally to the location and clearances of bridges and causeways in the navigable waters of the United States.

(4) The Act of March 23, 1906, as amended (34 Stat. 84; 33 U.S.C. 491 et seq.), regarding general bridge authority to the extent that it relates generally to the location and clearances of bridges and causeways in the navigable waters of the United States.

(5) The General Bridge Act of 1946, as amended (60 Stat. 847; 33 U.S.C. 525 et seq.), to the extent that it relates generally to the location and clearances of bridges and causeways in the navigable waters of the United States.

(6) Section 5 of the International Bridge Act of 1972 (86 Stat. 732; 33 U.S.C. 535c).

(d) The Commandant has delegated within the Coast Guard authority for the issuance of drawbridge operation regulations and permits for the construction, reconstruction, or alteration of bridges across navigable waters of the United States. These delegations may be found in §§ 1.05–1 and 1.01–60 of this Chapter.

§ 114.10 General policies on issuance of permits and drawbridge operation regulations.

The several bridge laws referenced in § 114.01 Purpose, are intended to prevent any interference with navigable waters of the United States whether by bridges, dams, dikes or other obstructions to navigation except by express permission of the United States. The decision as to whether a bridge permit or a drawbridge operation regulation will be issued or promulgated must rest primarily upon the effect of the proposed action on navigation to assure that the action provides for the reasonable needs of navigation after full consideration of the effect of the proposed action on the human environment. The Coast Guard is not responsible for any other permits that the applicant may need from other federal, state, or local agencies and issuance of a bridge permit does not affect flood control projects or other governmental programs.

[CGD 82–006, 47 FR 36640, Aug. 23, 1982, as amended by USCG–2000–7223, 65 FR 40056, June 29, 2000]

§ 114.20 Departure from permit plans.

(a) If the final inspection shows a minor departure from the authorized plans which does not materially affect navigation, the permittee will be required to furnish a tracing showing the work as actually constructed but no further action will be taken by the Coast Guard.

(b) It is not the practice of the Coast Guard to issue letters certifying that completed work conforms to that which was authorized. That question is a matter of fact to be determined in

case of controversy by the usual rules of court procedure.

§ 114.25 Work constructed without prior authority.

The Commandant or District Commander will approve plans and issue permits authorizing bridges across navigable waters, in cases where the application therefor is submitted after the commencement or completion of the bridges subject to the following rules: Approval will be limited to those cases where the necessary primary authority, State or Federal as the case may be, validly existed, when the work was innocently constructed, and where the work will not unreasonably interfere with navigation. Upon issuance of the permit, applicant will be informed that the law contemplates prior approval and that in the future plans must be submitted in ample time for their consideration by the Commandant or District Commander before construction is begun.

(5 U.S.C. 559; 14 U.S.C. 633; 33 U.S.C. 401, 491, 499, and 525; 49 U.S.C. 1655(g), and 49 CFR 1.46(c) and (q))

[CGD 80–099, 46 FR 38354, July 27, 1981]

§ 114.30 Revocation.

Permits may be revoked by the issuing official for failure on the part of the permittee to comply with any of the conditions therein, or where the structures or other work constitute an unreasonable obstruction to navigation or to operations of the United States in the interest of navigation or flood control.

[CGD 82–006, 47 FR 36640, Aug. 23, 1982]

§ 114.40 Violations of law.

The Coast Guard has the authority and responsibility for enforcement of the applicable provisions of law for the protection and preservation of navigable waters. It is the policy of the Coast Guard to secure compliance with these provisions of law short of legal proceedings. As a general principle, no action is taken when the violation is minor, unintentional, or accidental and the party responsible corrects the violation. It is the policy of the Coast Guard to implement civil or criminal proceedings in all other circumstances. These proceedings are in subpart 1.07 of Part 1 of this chapter.

(Secs. 107, 108, Pub. L. 97–322, 96 Stat. 1582; (33 U.S.C. 495, 499, 502, 525, 533); 49 CFR 1.46(c))

§ 114.45 Applications, extensions of time.

Extensions of time to commence or complete construction of a bridge or remove a bridge that has been replaced as an element of a permitted bridge project must be submitted to, and received by the District Commander at least 30 days before the existing permit expires to allow the permit to remain in effect until the final agency action is taken.

§ 114.50 Right of appeal.

A District Commander's decision to deny a bridge permit application or an application for drawbridge operation regulations may be appealed to the Commandant, U.S. Coast Guard. The appeal must be submitted in writing to the Chief, Office of Bridge Administration, 2100 Second Street SW., Washington, DC 20593–0001, within 60 days of the District Commander's decision. The Commandant will take action on the appeal within 90 days of its receipt.

SOURCE: CGFR 67–46, 32 FR 17771, Dec. 12, 1967, unless otherwise noted.

§ 115.01 Purpose.

This part states the requirements for applying for a permit for construction of or modification to bridges crossing the navigable waters of the United States. It also sets forth the procedures by which the application is processed by the Coast Guard.

[CGD 82–006, 47 FR 36641, Aug. 23, 1982]

§ 115.05 Necessary primary authority.

For bridges constructed by State or municipal agencies, the primary authority will be presumed without proof. If the law of the State requires a license for or approval of the bridge from a constituted State agency, a copy of such license or approval will be required and may be accepted as evidence of the primary authority. If there be no State regulation of bridges in navigable waters, the necessary primary authority may be that granted in the charter of a corporation, or the authority inherent in the ownership of the land on which the structure is placed. The applicant will in such cases be required to furnish an extract from the charter, or a statement of ownership. Especial care will be taken that Federal approval is not granted when there is doubt of the right of the builder to construct and utilize the bridge.

§ 115.10 Limiting date in permits.

(a) Specific time limitations are inserted in all permits for the commencement of construction and completion thereof. Normally three years for start of construction and two additional years for completion may be allowed.

(b) Specific time limitations are inserted in all permits for the removal of bridges being replaced in whole or in part by the newly permitted bridges where removal thereof is required as a condition of the permit. Normally 90 days for removal after completion of the new bridge or opening to land transportation, whichever occurs first, may be allowed.

[CGD 75–046, 40 FR 24898, June 11, 1975, as amended by CGD 80–099, 46 FR 38354, July 27, 1981]

§ 115.15 Permit bonds.

When compensatory works or the removal of temporary structures should be required of the permittee, or in other unusual cases when there is reason to anticipate that the permittee may fail to carry out parts of the work that are against his interest, an additional condition will be included in the permit requiring the permittee to furnish a bond insuring compliance with the permit requirements.

§ 115.20 Transfer of permits.

Permits express merely the assent of the Federal Government so far as concerns the public rights of navigation. Although issued to a specific party, the assent is not limited to execution of the work by that party and may be availed of by the assignees or purchasers of the property affected, provided the terms of the instrument are strictly complied with.

§ 115.30 Sufficiency of State authority for bridges.

An opinion of the attorney general of the State as to the sufficiency of State authority for the construction of a bridge is acceptable to the Coast Guard in doubtful cases.

§ 115.40 Bridge repairs.

Repairs to a bridge which do not alter the clearances, type of structure, or any integral part of the substructure or superstructure or navigation conditions, but which consist only in the replacement of worn or obsolete parts, may, if the bridge is a legally approved structure, be made as routine maintenance without approval of the U.S. Coast Guard.

§ 115.50 Application for bridge permits.

(a) *Approval of plans.* An application for authorization to construct a bridge across navigable waters of the United States must show the name and address of the applicant; the waterway and location of the bridge; citation to the act of Congress or the State legislature authorizing the bridge; be accompanied by a map of the location and plans of the bridge showing the features which affect navigation; and papers to establish the identity of the applicant.

(b) *Prior authority necessary.* Except as provided under paragraph (c) of this section, a bridge cannot lawfully be constructed across any navigable waterway of the United States until the location and plans have been approved by the Coast Guard.

(c) *Prior authority not necessary.* Coast Guard approval of the location and plans for construction or modification of a bridge or causeway is not required for any bridge or causeway over waters which are not subject to the ebb and flow of the tide and which are not used and are not susceptible to use in their natural condition or by reasonable improvement as a means to transport interstate or foreign commerce, whether or not such waters were used or were susceptible to use, at some previous time, to transport commerce (historic use). This provision does not apply to bridges which connect the United States with any foreign country.

(d) *Form.* The application for the approval of plans consists of a letter accompanied with maps and plans of the proposed structure.

(e) *Signature.* In case of signature by an agent or by an official of a corporation, a duly authenticated copy of the authority for the action must accompany the application.

(f) *Identification.* If the applicant is a corporation, it must furnish certified copies of the following papers, all properly authenticated: The charter or articles of incorporation; the minutes of organization; extract from minutes showing the names of the present officers of the corporation.

(1) Where State laws vest in State or county officers, such as boards of supervisors and county courts, the power to authorize the construction of bridges, they must furnish with their application certified extracts from their proceedings showing their action authorizing the proposed structure.

(g) *Plans.* Four sets of plans must be submitted with the application, on which the location of the work and the essential features covered by the application will be outlined in red. Each drawing must have a simple title, date and number, preferably in the lower righthand corner.

(h) *Size of sheets.* The drawings will be on letter size sheets. As few sheets will be used as necessary to show clearly what is proposed.

(i) *Special instructions.* (1) The scale will be shown graphically. The north and south line will be indicated by a meridian arrow. Soundings and elevations will be shown in feet and referred to the established Government datum plane at the locality.

(2) The direction of currents will be indicated by an arrow, and the strength of currents, both ebb and flow, or low water and high water, will be shown close to the proposed location of the bridge, and at both ends of the waterway shown on the map of location.

(3) The plans will show in figures the least clear height of the lowest part of the superstructure over navigation openings, with reference to the planes of mean high water and mean low water if the bridge is to cross tidal water. If the waters are nontidal, the least clear height will be shown with reference to the planes of extreme high water and mean low water. If records of river heights are available, the plane above which flood waters have not remained more than 2 percent of the time will be indicated. Reference will also be made to other datum planes if appropriate for the waterway in question.

(4) If harbor lines have been established at the site of the bridge, their position will be shown on the plans.

(j) *Structural details.* Only those should be shown which are needed to illustrate the effect of the proposed structure on navigation. If the bridge is to be equipped with a draw, the latter will be shown in two positions: closed and open.

(k) *To whom application should be presented.* The application and the papers

and plans accompanying it should be submitted to the District Commander having jurisdiction over the area in which the bridge site is located.

[CGFR 67–46, 32 FR 17771, Dec. 12, 1967, as amended by CGD 75–046, 40 FR 24898, June 11, 1975; CGD 80–099, 46 FR 38354, July 27, 1981; CGD 82–102, 48 FR 54299, Dec. 2, 1982]

§ 115.60 Procedures for handling applications for bridge construction permits.

The following procedures will be observed in the handling of applications for permits to construct, modify, or replace bridges over navigable waters.

(a) *District Commander's review of application and plans.* When an application is received, the District Commander verifies the authority for construction of the bridge, reviews, the application and plans for sufficiency, ascertains the views of local authorities and other interested parties, and ensures that the application complies with relevant environmental laws, regulations, and orders. If the application contains any defects that would prevent issuance of a permit (as for example, if the proposed bridge provided insufficient clearance), the applicant is notified that the permit cannot be granted and given reasons for this determination. The applicant may then request that the application be considered by the Commandant. If the applicant makes such a request, or if the application is not found defective, the District Commander notifies the public that it has been received and continues its processing. A copy of this notification will be sent to the state, interstate agency or the Environmental Protection Agency (EPA) responsible for acting on requests for water quality certification for the project. If the state, interstate agency, or the EPA fails to issue or deny the water quality certification within 30 days after receiving the copy of this notification, the requirements for a water quality certification are waived. If the appropriate agency notifies the District Commander that the applicant has not filed a request for water quality certification, or requests additional time to review an application, additional time will be granted.

(b) *Public hearing.* (1) Public hearings will be held when there are substantial issues concerning the effect that the proposed bridge will have on the reasonable needs of navigation.

(2) Notice of the public hearing will be published in the FEDERAL REGISTER. Notice of the hearing is also mailed to State, county, and municipal authorities and all other known interested parties. It is also posted at the post office nearest the site and public places in the vicinity.

(3) Hearings are public and conducted in an informal manner. A designated Coast Guard official presides. The submission of written statements is invited and encouraged. Anyone desiring to do so may speak. Statements, written or oral, are not under oath, and cross-examination is not permitted. No fixed order has been established for the presentation of evidence or argument although proponents are generally heard first, followed by opponents with full opportunity afforded for rebuttals.

(c) *Report and recommendations.* After the close of the comment period and any public hearings, a detailed statement of findings, conclusions, and recommendations based on all available information (including Coast Guard records and experience) is prepared. The following factors may be discussed in this report:

(1) Comparison of proposed bridge with existing bridges over the waterway; attitude of local authorities; summary of objections raised by the public, and District Commander's comments or responses; probable effect on navigation, present and prospective.

(2) Description of the navigation on the waterway past the site of the proposed bridge, the number and type of vessels, the number of vessel trips, and the principal method of handling traffic, whether in single vessels or in tows.

(3) Whether the District Commander approves, or recommends approval of the plans. If they are found objectionable, the reasons for this finding will be stated. If there are objectionable features in the plans which may be corrected, the applicant is given an opportunity to revise them. If approval is given or recommended, all conditions

to which the permit should be subject will be stated.

(d) *Action on permit application.* (1) The District Commander may issue the permit if authorized under §1.01–60(b) of this chapter; otherwise, a report with the application shall be submitted to the Commandant for final action.

(2) When an application is approved, the issuing official signs the permit and transmits it to the applicant.

(3) When an application is not approved, the applicant is notified and provided with reasons for the disapproval, and suggestions for modifications that would justify reconsideration, if appropriate.

(4) If an application is disapproved by the District Commander, the applicant may appeal this decision to the Commandant under §114.50 of this chapter. The Commandant's determination shall constitute final agency action.

(e) *Permit amendments.* Applications for amendments to permits will be processed in the same manner as permit applications. The District Commander may approve amendments to any permits which that official is authorized to issue under §1.01–60(b) of this chapter. All other amendments must be approved by the Commandant.

§ 115.70 Advance approval of bridges.

(a) The General Bridge Act of 1946 requires the approval of the location and plans of bridges prior to start of construction (33 U.S.C. 525). The Commandant has given his advance approval to the location and plans of bridges to be constructed across reaches of waterways navigable in law, but not actually navigated other than by logs, log rafts, rowboats, canoes and small motorboats. In such cases the clearances provided for high water stages will be considered adequate to meet the reasonable needs of navigation.

(b) The term ''small motorboats'' shall be interpreted in the light of the things and conditions with which it is associated. The term means rowboats, canoes and other similar craft with outboard motors. It does not include sailing or cabin cruiser craft.

§ 116.01 General.

(a) All bridges are obstructions to navigation and are tolerated only as long as they serve the needs of land transportation while allowing for the reasonable needs of navigation.

(b) This part describes the general procedures by which the U.S. Coast Guard determines a bridge to be an unreasonable obstruction to navigation and issues an Order to Alter under the authority of the following statutes, as appropriate: Section 18 of the Rivers and Harbors Appropriations Act of 1899, 33 U.S.C. 502; Section 4 of the Bridge Act of 1906, 33 U.S.C. 494; or the Truman-Hobbs Act of 1940, as amended, 33 U.S.C. 511–524.

(c) A bridge constructed across a navigable water of the United States shall not unreasonably obstruct the free navigation of the water over which it

was constructed, either due to insufficient height or width of the navigation span, or because of difficulty in passing through the draw opening. If any bridge unreasonably obstructs navigation, the Commandant, U.S. Coast Guard, will order the alteration of that bridge. Alterations may include structural changes, replacement, or removal of the bridge.

(d) Whenever the Coast Guard has good reason to believe that a bridge across any of the navigable waters of the United States is an unreasonable obstruction to navigation, the Coast Guard will give notice to the owner of the bridge and other interested parties, and hold a public hearing at which the interested parties will have a full opportunity to be heard and to offer evidence on the question of whether alterations to the bridge are necessary and, if so, the extent of alterations needed.

(e) If the Coast Guard determines that alterations to a bridge are necessary, the Commandant, U.S. Coast Guard, will issue to the bridge owner an Order to Alter containing details of the alterations necessary to render navigation through or under the bridge reasonably free, easy, and unobstructed.

(1) In the case of a railroad or publicly owned highway bridge, an Order to Alter is issued to the bridge owner under the provisions of the Truman-Hobbs Act (33 U.S.C. 511 *et seq.*). In ordering these alterations, the Coast Guard will give due regard to the necessities of free and unobstructed navigation and of rail and highway traffic. For alterations to bridges governed by the Truman-Hobbs Act, the Coast Guard must approve general plans, specifications, and contracts for the alteration project, as well as approving the apportionment of the total cost of the alterations between the United States and the bridge owner.

(2) For all other bridges, the Order to Alter will contain the required alterations for the bridge and will prescribe a reasonable time in which to accomplish the required alterations. The bridge owner is responsible for the entire cost of the required alterations.

§ 116.05 Complaints.

Any person, company, or other entity may submit to the District Commander of the Coast Guard district in which a bridge over a navigable water of the United States is located, a complaint that a bridge unreasonably obstructs navigation. The complaint must be in writing and include specific details to support the allegation.

§ 116.10 Preliminary review.

(a) Upon receipt of a written complaint, the District Commander will review the complaint to determine if, in the District Commander's opinion, the complaint is justified and whether a Preliminary Investigation is warranted.

(1) The District Commander's opinion as to whether or not the complaint warrants a Preliminary Investigation will be formed through informal discussions with the complainant, users of the affected waterway, the owner of the bridge, and other interested parties.

(2) In forming an opinion, the District Commander may also review the district files, records of accidents, and details of any additional written complaints associated with the bridge in question.

(b) In the absence of any written complaint, the District Commander may decide, based on a bridge's accident history or other criteria, to conduct a Preliminary Investigation.

(c) The District Commander will inform the complainant and the Chief, Office of Bridge Administration of the determination of any Preliminary Review. If the District Commander decides that the bridge in question is not an unreasonable obstruction to navigation, the complainant will be provided with a brief summary of the information on which the District Commander based the decision and will be informed of the appeal process described in §116.55. There will be no further investigation, unless additional information warrants a continuance or reopening of the case.

[CGD 91–063, 60 FR 20902, Apr. 28, 1995, as amended by CGD 96–026, 61 FR 33663, June 28, 1996]

§ 116.15 Preliminary investigation.

(a) During the Preliminary Investigation, the District Commander will prepare a written report containing all pertinent information and submit the report, together with a recommendation for or against the necessity of a Detailed Investigation, to the Chief, Office of Bridge Administration.

(b) The Preliminary Investigation Report will include a description of the nature and extent of the obstruction, the alterations to the bridge believed necessary to meet the reasonable needs of existing and future navigation, the type and volume of waterway traffic, and a calculation of the benefits to navigation which would result from the proposed bridge alterations.

(c) The Chief, Office of Bridge Administration will review the Preliminary Investigation Report and make a Preliminary Decision whether or not to undertake a Detailed Investigation and a Public Hearing.

(d) If after reviewing the Preliminary Investigation Report, the Chief, Office of Bridge Administration decides that further investigation is not warranted, the complainant will be notified of the decision. This notification will include a brief summary of information on which the decision was based and details of the appeal process described in § 116.55.

[CGD 91–063, 60 FR 20902, Apr. 28, 1995, as amended by CGD 96–026, 61 FR 33663, June 28, 1996]

§ 116.20 Detailed investigation.

(a) When the Chief, Office of Bridge Administration determines that a Detailed Investigation should be conducted, the District Commander will initiate an investigation that addresses all of the pertinent data regarding the bridge, including information obtained at a public hearing held under § 116.25. As part of the investigation, the District Commander will develop a comprehensive report, termed the ''Detailed Investigation Report'', which will discuss: the obstructive character of the bridge in question; the impact of that bridge upon navigation; navigational benefits derived; whether an alteration is needed to meet the needs of navigation; and, if alteration is recommended, what type.

(b) The District Commander will forward the completed Detailed Investigation Report to the Chief, Office of Bridge Administration for review together with a recommendation of whether the bridge should be declared an unreasonable obstruction to navigation and, if so, whether an Order to Alter should be issued.

[CGD 91–063, 60 FR 20902, Apr. 28, 1995, as amended by CGD 96–026, 61 FR 33663, June 28, 1996]

§ 116.25 Public hearings.

(a) Any time the Chief, Office of Bridge Administration determines that a Detailed Investigation is warranted, or when Congress declares a bridge unreasonably obstructive, the District Commander will hold a public hearing near the location of the bridge to provide the bridge owner, waterway users, and other interested parties the opportunity to offer evidence and be heard, orally or in writing, as to whether any alterations are necessary to provide reasonably free, safe, and unobstructed passage for waterborne traffic. The District Commander will issue a public notice announcing the public hearing stating the time, date, and place of the hearing.

(b) When a bridge is statutorily determined to be an unreasonable obstruction, the scope of the hearing will be to determine what navigation clearances are needed.

(c) In all other cases, the scope of the hearing will be to address issues bearing on the question of whether the bridge is an unreasonable obstruction to navigation and, if so, what alterations are needed.

(d) The hearing will be recorded. Copies of the public hearing transcript will be available for purchase from the recording service.

[CGD 91–063, 60 FR 20902, Apr. 28, 1995, as amended by CGD 96–026, 61 FR 33664, June 28, 1996]

§ 116.30 Chief, Office of Bridge Administration Review and Evaluation.

(a) Upon receiving a Detailed Investigation Report from a District Commander, the Chief, Office of Bridge Administration will review all the information and make a final determination of whether or not the bridge is an unreasonable obstruction to navigation and, if so, whether to issue an Order to Alter. This determination will be accompanied by a supporting written Decision Analysis which will include a Benefit/Cost Analysis, including calculation of a Benefit/Cost Ratio.

(b) The Benefit/Cost ratio is calculated by dividing the annualized navigation benefit of the proposed bridge alteration by the annualized government share of the cost of the alteration.

(c) Except for a bridge which is statutorily determined to be an unreasonable obstruction, an Order to Alter will not be issued under the Truman-Hobbs Act unless the ratio is at least 1:1.

(d) If a bridge is statutorily determined to unreasonably obstruct navigation, the Chief, Office of Bridge Administration will prepare a Decision Analysis to document and provide details of the required vertical and horizontal clearances and the reasons alterations are necessary.

(e) If the Chief, Office of Bridge Administration decides to recommend that the Commandant issue an Order to Alter, or a bridge is statutorily determined to unreasonably obstruct navigation, the Chief, Office of Bridge Administration will issue a letter to the bridge owner (''The 60-Day Letter'') at least 60 days before the Commandant issues an Order to Alter. This letter will contain the reasons an alteration is necessary, the proposed alteration, and, in the case of a Truman-Hobbs bridge, an estimate of the total project cost and the bridge owner's share.

(f) If the bridge owner does not agree with the terms proposed in the 60-Day Letter, the owner may request a reevaluation of the terms. The request for a reevaluation must be in writing, and identify the terms for which reevaluation is requested. The request may provide additional information not previously presented.

(g) Upon receipt of the bridge owner's response, the Chief, Office of Bridge Administration will reevaluate the situation based on the additional information submitted by the bridge owner. If after the Chief, Office of Bridge Administration reviews the determination, there is no change, the Commandant may issue an Order to Alter as set out in §116.35. The Chief, Office of Bridge Administration determination based on the reevaluation will constitute final agency action.

[CGD 91–063, 60 FR 20902, Apr. 28, 1995, as amended by CGD 96–026, 61 FR 33664, June 28, 1996]

§ 116.35 Order to Alter.

(a) If the bridge owner agrees with the contents of the 60-Day Letter, if no reply is received by 60 days after the issuance of the letter, or if after reevaluation a bridge is determined to be an unreasonable obstruction to navigation, the Commandant will issue an Order to Alter.

(1) If a bridge is eligible for funding under the Truman-Hobbs Act, the Order to Alter will specify the navigational clearances to be accomplished in order to meet the reasonable needs of navigation.

(2) An Order to Alter for a bridge that is not eligible for Truman-Hobbs funding will specify the navigational clearances that are required to meet the reasonable needs of navigation and will prescribe a reasonable time in which to accomplish them.

(b) If appropriate, the Order to Alter will be accompanied by a letter of special conditions setting forth safeguards needed to protect the environment or to provide for any special needs of navigation.

(c) If a proposed alteration to a bridge has desirable, non-navigational benefits, the Chief, Office of Bridge Administration may require an equitable contribution from any interested person, firm, association, corporation, municipality, county, or state benefiting from the alteration as a prerequisite to the making of an Order to Alter for that alteration.

(d) Failure to comply with any Order to Alter issued under the provisions of this part will subject the owner or controller of the bridge to the penalties

prescribed in 33 U.S.C. 495, 502, 519, or any other applicable provision.

[CGD 91–063, 60 FR 20902, Apr. 28, 1995, as amended by CGD 96–026, 61 FR 33664, June 28, 1996]

§ 116.40 Plans and specifications under the Truman-Hobbs Act.

(a) After an Order to Alter has been issued to a bridge owner under the Truman-Hobbs Act, the Chief, Office of Bridge Administration will issue a letter to the bridge owner outlining the owner's responsibilities to submit plans and specifications to the Chief, Office of Bridge Administration for the alteration of the bridge. The plans and specifications, at a minimum, must provide for the clearances identified in the Order to Alter. The plans and specifications may also include any other additional alteration to the bridge that the owner considers desirable to meet the requirements of railroad or highway traffic. During the alteration process, balanced consideration shall be given to the needs of rail, highway, and marine traffic.

(b) The Chief, Office of Bridge Administration will approve or reject the plans and specifications submitted by the bridge owner, in whole or in part, and may require the submission of new or additional plans and specifications.

(c) When Chief, Office of Bridge Administration has approved the submitted plans and specifications, they are final and binding upon all parties, unless later changes are approved by the Chief, Office of Bridge Administration. Any changes to the approved plans will be coordinated with the District Commander.

[CGD 91–063, 60 FR 20902, Apr. 28, 1995, as amended by CGD 96–026, 61 FR 33664, June 28, 1996]

§ 116.45 Submission of bids, approval of award, guaranty of cost, and partial payments for bridges eligible for funding under the Truman-Hobbs Act.

(a) Once the plans and specifications for a bridge eligible for funding under the Truman-Hobbs Act have been approved, the bridge owner must take bids for the alteration of the bridge consistent with the approved plans and specifications. Those bids must then be submitted to the Chief, Office of Bridge Administration for approval.

(b) After the bridge owner submits the guaranty of cost required by 33 U.S.C. 515, the Chief, Office of Bridge Administration authorizes the owner to award the contract.

(c) Partial payments of the government's costs are authorized as the work progresses to the extent that funds have been appropriated.

[CGD 91–063, 60 FR 20902, Apr. 28, 1995, as amended by CGD 96–026, 61 FR 33664, June 28, 1996]

§ 116.50 Apportionment of costs under the Truman-Hobbs Act.

(a) In determining the apportionment of costs, the bridge owner must bear such part of the cost attributable to the direct and special benefits which will accrue to the bridge owner as a result of alteration to the bridge, including expected savings in repairs and maintenance, expected increased carrying capacity, costs attributable to the requirements of highway and railroad traffic, and actual capital costs of the used service life. The United States will bear the balance of the costs, including that part attributable to the necessities of navigation.

(b) ''Direct and special benefits'' ordinarily will include items desired by the owner but which have no counterpart or are of higher quality than similar items in the bridge prior to alteration. Examples include improved signal and fender systems, pro rata share of dismantling costs, and improvements included, but not required, in the interests of navigation.

(c) During the development of the Apportionment of Costs, the bridge owner will be provided with an opportunity to be heard. Proportionate shares of cost to be borne by the United States and the bridge owner are developed in substantially the following form:

Total cost of project _____ $_____
Less salvage _____ $_____
Less contribution by third party _____ $_____
Cost of alteration to be apportioned _____ $_____
Share to be borne by the bridge owner:
Direct and Special Benefits:
a. Removing old bridge _____ $_____
b. Fixed charges _____ $_____

c. Betterments _____ $_____
Expected savings in repair or maintenance costs:
a. Repair _____ $_____
b. Maintenance _____ $_____
Costs attributable to requirements of railroad and/or highway traffic _____ $_____
Expenditure for increased carrying capacity _____ $_____
Expired service life of old bridge _____ $_____
Subtotal _____ $_____
Share to be borne by the bridge owner _____ $_____
Contingencies _____ $_____
Total _____ $_____
Share to be borne by the United States _____ $_____
Contingencies _____ $_____
Total _____ $_____

(d) The Order of Apportionment of Costs will include the guaranty of costs.

§ 116.55 Appeals.

(a) Except for the decision to issue an Order to Alter, if a complainant disagrees with a recommendation regarding obstruction or eligibility made by a District Commander, or the Chief, Office of Bridge Administration, the complainant may appeal that decision to the Assistant Commandant for Operations.

(b) The appeal must be submitted in writing to the Assistant Commandant for Operations, U.S. Coast Guard, 2100 Second Street, SW., Washington, DC 20593–0001, within 60 days after the District Commander's or the Chief's, Office of Bridge Administration decision. The Assistant Commandant for Operations will make a decision on the appeal within 90 days after receipt of the appeal. The Assistant Commandant for Operations' decision of this appeal shall constitute final agency action.

(c) Any Order of Apportionment made or issued under section 6 of the Truman-Hobbs Act, 33 U.S.C. 516, may be reviewed by the Court of Appeals for any judicial circuit in which the bridge in question is wholly or partly located, if a petition for review is filed within 90 days after the date of issuance of the order. The review is described in section 10 of the Truman-Hobbs Act, 33 U.S.C. 520. The review proceedings do not operate as a stay of any order issued under the Truman-Hobbs Act, other than an order of apportionment, nor relieve any bridge owner of any liability or penalty under other provisions of that act.

Subpart A—General Requirements

§ 117.1 Purpose.

(a) This part prescribes the general and special drawbridge operating regulations that apply to the drawbridges across the navigable waters of the United States and its territories. The authority to regulate drawbridges across the navigable waters of the United States is vested in the Secretary of Homeland Security.

(b) Subpart A contains the general operation requirements that apply to all drawbridges.

(c) Subpart B contains specific requirements for operation of individual drawbridges. These requirements are in addition to or vary from the general requirements in Subpart A. Specific sections in subpart B that vary from a general requirement in Subpart A supersede the general requirement. All other general requirements in Subpart A, that are not at variance, apply to the drawbridges and removable span bridges listed in Subpart B.

[USCG–2001–10881, 71 FR 70307, Dec. 4, 2006]

§ 117.4 Definitions.

The following definitions apply to this part:

Appurtenance means an attachment or accessory extending beyond the hull or superstructure that is not an integral part of the vessel and is not needed for a vessel's piloting, propelling, controlling, or collision avoidance capabilities.

Automated drawbridge means a drawbridge that is operated by an automated mechanism, not a drawtender. An automated drawbridge is normally kept in the open to navigation position and closes when the mechanism is activated.

Deviation means a District Commander's action authorizing a drawbridge owner to temporarily not comply with the drawbridge opening requirements in this part.

Drawbridge means a bridge with an operational span that is intended to be opened for the passage of waterway traffic.

Drawspan means the operational span of a drawbridge.

Lowerable means a non-structural vessel appurtenance that is or can be made flexible, hinged, collapsible, or telescopic so that it can be mechanically or manually lowered.

Nonstructural means that the item is not rigidly fixed to the vessel and can be relocated or altered.

Not essential to navigation means that a nonstructural vessel appurtenance, when in the lowered position, would not adversely affect the vessel's piloting, propulsion, control, or collision-avoidance capabilities.

Public vessel means a vessel that is owned and operated by the United States Government and is not engaged in commercial service, as defined in 46 U.S.C. 2101.

Remotely operated drawbridge means a drawbridge that is operated by remote

control from a location away from the drawbridge.

Removable span bridge means a bridge that requires the complete removal of a span by means other than machinery installed on the bridge to open the bridge to navigation.

Untended means that there is no drawtender at the drawbridge.

[USCG–2001–10881, 71 FR 70307, Dec. 4, 2006]

§ 117.5 When the drawbridge must open.

Except as otherwise authorized or required by this part, drawbridges must open promptly and fully for the passage of vessels when a request or signal to open is given in accordance with this subpart.

[USCG–2001–10881, 71 FR 70308, Dec. 4, 2006]

§ 117.7 General requirements of drawbridge owners.

Except for drawbridges that have been authorized, before January 3, 2007, to remain closed to navigation or as otherwise specified in subpart B, drawbridge owners must:

(a) Provide the necessary drawtender(s) for the safe and prompt opening of the drawbridge.

(b) Maintain the working machinery of the drawbridge in good operating condition.

(c) Cycle the drawspan(s) periodically to ensure operation of the drawbridge.

(d) Ensure that the drawbridge operates in accordance with the requirements of this part.

(e) Any drawbridge allowed to remain closed to navigation prior to January 3, 2007, when necessary, must be returned to operable condition within the designated time set forth by the District Commander and will become subject to the requirements of this part.

[USCG–2001–10881, 71 FR 70308, Dec. 4, 2006]

§ 117.8 Permanent changes to drawbridge operation.

(a) Anyone may submit a written request to the District Commander for a permanent change to a drawbridge operating requirement. The request must include documentation supporting or justifying the requested change.

(b) If after evaluating the request, the District Commander determines that the requested change is not needed, he or she will respond to the request in writing and provide the reasons for denial of the requested change.

(c) If the District Commander decides that a change may be needed, he or she will begin a rulemaking to implement the change.

[USCG–2001–10881, 71 FR 70308, Dec. 4, 2006]

§ 117.9 Delaying opening of a draw.

No person shall unreasonably delay the opening of a draw after the signals required by § 117.15 have been given.

NOTE: Trains are usually controlled by the block method. That is, the track is divided into blocks or segments of a mile or more in length. When a train is in a block with a drawbridge, the draw may not be able to open until the train has passed out of the block and the yardmaster or other manager has ''unlocked'' the drawbridge controls. The maximum time permitted for delay is defined in Subpart B for each affected bridge. Land and water traffic should pass over or through the draw as soon as possible in order to prevent unnecessary delays in the opening and closure of the draw.

§ 117.11 Unnecessary opening of the draw.

No vessel owner or operator shall—

(a) Signal a drawbridge to open if the vertical clearance is sufficient to allow the vessel, after all lowerable nonstructural vessel appurtenances that are not essential to navigation have been lowered, to safely pass under the drawbridge in the closed position; or

(b) Signal a drawbridge to open for any purpose other than to pass through the drawbridge opening.

[CGD 91–059, 59 FR 16563, Apr. 7, 1994]

§ 117.15 Signals.

(a) *General.* (1) The operator of each vessel requesting a drawbridge to open shall signal the drawtender and the drawtender shall acknowledge that signal. The signal shall be repeated until acknowledged in some manner by the drawtender before proceeding.

(2) The signals used to request the opening of the draw and to acknowledge that request shall be sound signals, visual signals, or radiotelephone communications described in this subpart.

(3) Any of the means of signaling described in this subpart sufficient to alert the party being signaled may be used.

(b) *Sound signals.* (1) Sound signals shall be made by whistle, horn, megaphone, hailer, or other device capable of producing the described signals loud enough to be heard by the drawtender.

(2) As used in this section, ''prolonged blast'' means a blast of four to six seconds duration and ''short blast'' means a blast of approximately one second duration.

(3) The sound signal to request the opening of a draw is one prolonged blast followed by one short blast sounded not more than three seconds after the prolonged blast. For vessels required to be passed through a draw during a scheduled closure period, the sound signal to request the opening of the draw during that period is five short blasts sounded in rapid succession.

(4) When the draw can be opened immediately, the sound signal to acknowledge a request to open the draw is one prolonged blast followed by one short blast sounded not more than 30 seconds after the requesting signal.

(5) When the draw cannot be opened immediately, or is open and shall be closed promptly, the sound signal to acknowledge a request to open the draw is five short blasts sounded in rapid succession not more than 30 seconds after the vessel's opening signal. The signal shall be repeated until acknowledged in some manner by the requesting vessel.

(c) *Visual signals.* (1) The visual signal to request the opening of a draw is—

(i) A white flag raised and lowered vertically; or

(ii) A white, amber, or green light raised and lowered vertically.

(2) When the draw can be opened immediately, the visual signal to acknowledge a request to open the draw, given not more than 30 seconds after the vessel's opening signal, is—

(i) A white flag raised and lowered vertically;

(ii) A white, amber, or green light raised and lowered vertically; or

(iii) A fixed or flashing white, amber, or green light or lights.

(3) When the draw cannot be opened immediately, or is open and must be closed promptly, the visual signal to acknowledge a request to open the draw is—

(i) A red flag or red light swung back and forth horizontally in full sight of the vessel given not more than 30 seconds after the vessel's opening signal; or

(ii) A fixed or flashing red light or lights given not more than 30 seconds after the vessel's opening signal.

(4) The acknowledging signal when the draw cannot open immediately or is open and must be closed promptly shall be repeated until acknowledged in some manner by the requesting vessel.

(d) *Radio telephone communications.* (1) Radiotelephones may be used to communicate the same information provided by sound and visual signals.

(2) The vessel and the drawtender shall monitor the frequency used until the vessel has cleared the draw.

(3) When radiotelephone contact cannot be initiated or maintained, sound or visual signals under this section shall be used.

[CGD 82–025, 49 FR 17452, Apr. 24, 1984, as amended by CGD 82–025, 50 FR 11366, Mar. 21, 1985; CGD 84–022, 51 FR 16308, May 2, 1986; CGD 96–026, 61 FR 33664, June 28, 1996; USCG–2001–10881, 71 FR 70308, Dec. 4, 2006]

§ 117.17 Signalling for contiguous drawbridges.

When a vessel must past two or more drawbridges close together, the opening signal is given for the first bridge. After acknowledgment from the first bridge that it will promptly open, the opening signal is given for the second bridge, and so on until all bridges that the vessel must pass have been given the opening signal and have acknowledged that they will open promptly.

§ 117.19 Signalling when two or more vessels are approaching a drawbridge.

When two or more vessels are approaching the same drawbridge at the same time, or nearly the same, time, whether from the same or opposite directions, each vessel shall signal independently for the opening of the draw and the drawtender shall reply in turn

to the signal of each vessel. The drawtender need not reply to signals by vessels accumulated at the bridge for passage during a scheduled open period.

§ 117.21 Signalling for an opened drawbridge.

When a vessel approaches a drawbridge with the draw in the open position, the vessel shall give the opening signal. If no acknowledgment is received within 30 seconds, the vessel may proceed, with caution, through the open draw.

§ 117.23 Installation of radiotelephones.

(a) When the District Commander deems it necessary for reasons of safety of navigation, the District Commander may require the installation and operation or a radiotelephone on or near a drawbridge.

(b) The District Commander gives written notice of the proposed requirement to the bridge owner.

(c) All comments the owner wishes to submit shall be submitted to the District Commander within 30 days of receipt of the notice under paragraph (b) of this section.

(d) If, upon consideration of the comments received, the District Commander determines that a radiotelephone is necessary, the District Commander notifies the bridge owner that a radiotelephone shall be installed and gives a reasonable time, not to exceed six months, to install the radiotelephone and commence operation.

§ 117.24 Radiotelephone installation identification.

(a) The Coast Guard authorizes, and the District Commander may require the installation of a sign on drawbridges, on the upstream and downstream sides, indicating that the bridge is equipped with and operates a VHF radiotelephone in accordance with § 117.23.

(b) The sign shall give notice of the radiotelephone and its calling and working channels—

(1) In plain language; or

(2) By a sign consisting of the outline of a telephone handset with the long axis placed horizontally and a vertical three-legged lightning slash superimposed over the handset. The slash shall be as long vertically as the handset is wide horizontally and normally not less than 27 inches and no more than 36 inches long. The preferred calling channel should be shown in the lower left quadrant and the preferred working channel should be shown in the lower right quadrant.

NOTE: It is recommended that the radiotelephone sign be similar in design to the Service Signs established by the Federal Highway Administration (FHWA) in U.S. Road Symbol Signs using Reflective Blue and Reflective White colors. Color and design information is available from the District Commander of the Coast Guard District in which the bridge is located.

§ 117.31 Drawbridge operations for emergency vehicles and emergency vessels.

(a) Upon receiving notification that an emergency vehicle is responding to an emergency situation, a drawtender must make all reasonable efforts to have the drawspan closed at the time the emergency vehicle arrives.

(b) When a drawtender receives notice, or a proper signal as provided in § 117.15 of this part, the drawtender shall take all reasonable measures to have the draw opened, regardless of the operating schedule of the draw, for passage of the following, provided this opening does not conflict with local emergency management procedures which have been approved by the cognizant Coast Guard Captain of the Port:

(1) Federal, State, and local government vessels used for public safety;

(2) Vessels in distress where a delay would endanger life or property;

(3) Commercial vessels engaged in rescue or emergency salvage operations; and

(4) Vessels seeking shelter from severe weather.

§ 117.33 Closure of draw for natural disasters or civil disorders.

Drawbridges need not open for the passage of vessels during periods of natural disasters or civil disorders declared by the appropriate authorities

unless otherwise provided for in Subpart B or directed to do so by the District Commander.

§ 117.35 Temporary change to a drawbridge operating schedule.

(a) For any temporary change to the operating schedule of a drawbridge, lasting less than or equal to 180 days, the District Commander may issue a deviation approval letter to the bridge owner and publish a ''Notice of deviation from drawbridge regulation'' in the FEDERAL REGISTER.

(b) If the time period for a temporary change to the operating schedule of a drawbridge will be greater then 180 days, the District Commander will follow appropriate rulemaking procedures and publish a temporary rule in the FEDERAL REGISTER prior to the start of the action.

(c) *Request for change.* (1) To temporarily change the drawbridge-operating requirements the bridge owner must submit a written request to the District Commander for approval of the change.

(2) The request must describe the reason for the closure and the dates and times scheduled for the start and end of the change.

(3) Requests should be submitted as early as possible, preferably 90 days before the start of the action. District Commanders have discretion to accept requests submitted less than 90 days before a needed change if those requests can be processed before the date of the needed change.

(d) *Determination.* The District Commander's determination to allow the schedule change is normally forwarded to the bridge owner within ten working days after receipt of the request. If the request is denied, the reasons for the denial will be set out in the District Commander's decision letter.

(e) The drawbridge must return to its regular operating schedule immediately at the end of the designated time period.

(f) If the authorized closure period for an event is broken into separate time periods on the same day or on consecutive days, the drawbridge must provide openings for navigation between the authorized closures.

(g) The District Commander will also announce the change to the operating schedule in the Local Notice to Mariners and other appropriate local media.

§ 117.36 Closure of drawbridge for emergency repair.

(a) When a drawbridge unexpectedly becomes inoperable, or should be immediately rendered inoperable because of mechanical failure or structural defect, the drawbridge owner must notify the District Commander of the closure without delay and give the reason for the emergency closure of the drawbridge and an estimated time when the drawbridge will be returned to operating condition.

(b) The District Commander will notify mariners about the drawbridge status through Broadcast Notices to Mariners, Local Notice to Mariners and any other appropriate local media.

(c) Repair work under this section must be performed with all due speed in order to return the drawbridge to operation as soon as possible.

[USCG–2001–10881, 71 FR 70308, Dec. 4, 2006]

§ 117.39 Authorized closure of drawbridge due to infrequent requests for openings.

(a) When there have been no requests for drawbridge openings for at least two years, a bridge owner may request in writing that the District Commander authorize the drawbridge to remain closed to navigation and to be untended.

(b) The District Commander may:

(1) Authorize the closure of the drawbridge;

(2) Set out any conditions in addition to the requirement in paragraph (d): and

(3) Revoke an authorization and order the drawbridge returned to operation when necessary.

(c) All drawbridges authorized to remain closed to navigation, under this section, must be maintained in operable condition.

(d) Authorization under this section does not:

(1) Authorize physical changes to the drawbridge structure, or

(2) Authorize removal of the operating machinery.

(e) Drawbridges authorized under this section to remain closed to navigation and to be untended are identified in subpart B of this part.

§ 117.40 Advance notice for drawbridge opening.

(a) Upon written request by the owner of a drawbridge, the District Commander may authorize a drawbridge to operate under an advance notice for opening. The drawbridge tender, after receiving the advance notice, must open the drawbridge at the requested time and allow for a reasonable delay in arrival of the vessel giving the advance notice.

(b) If the request is approved, a description of the advanced notice for the drawbridge will be added to subpart B of this part.

§ 117.41 Maintaining drawbridges in the fully open position.

(a) Drawbridges permanently maintained in the fully open to navigation position may discontinue drawtender service as long as the drawbridge remains fully open to navigation. The drawbridge must remain in the fully open position until drawtender service is restored.

(b) If a drawbridge is normally maintained in the fully open to navigation position, but closes to navigation for the passage of pedestrian, vehicular, rail, or other traffic, the drawbridge must be tended unless:

(1) Special operating requirements are established in subpart B of this part for that drawbridge; or

(2) The drawbridge is remotely operated or automated.

[USCG–2001–10881, 71 FR 70309, Dec. 4, 2006]

§ 117.55 Posting of requirements.

(a) The owner of each drawbridge under this subpart, other than removable span bridges, must ensure that a sign summarizing the requirements in this subpart applicable to the drawbridge is posted both upstream and downstream of the drawbridge. The requirements to be posted need not include those in Subpart A or §§ 117.51 through 117.59 of this part.

(b) The signs shall be of sufficient size and so located as to be easily read at any time from an approaching vessel.

(c) If advance notice is required to open the draw, the signs shall also state the name, address, and telephone number of the person to be notified.

[CGD 82–025, 49 FR 17452, Apr. 24, 1984, as amended by USCG–2001–10881, 71 FR 70309, Dec. 4, 2006]

§ 117.121 Arkansas River

The draw of the Missouri Pacific Railroad bridge, mile 23.1 near Yancopin, shall open on signal if at least 96 hours notice is given.

§ 117.123 Arkansas Waterway.

(a) Across the Arkansas Waterway, the draw of the Rob Roy Drawbridge, mile 67.4 at Pine Bluff, Arkansas, is maintained in the closed position and is remotely operated. Any vessel requiring an opening of the draw shall establish contact by radiotelephone with the remote drawbridge operator on VHF–FM Channel 12 in Omaha, Nebraska. The remote drawbridge operator will advise the vessel whether the bridge can be immediately opened and maintain constant contact with the vessel until the span has opened and the vessel passage has been completed. The bridge is equipped with a Photoelectric Boat Detection System to prevent the span from lowering if there is an obstruction under the span. If the drawbridge cannot be opened immediately, the remote drawbridge operator shall notify the calling vessel and provide an estimated time for opening.

(b) Across the Arkansas Waterway, the draw of the Baring Cross Railroad Drawbridge, mile 119.6 at Little Rock, Arkansas, is maintained in the closed position and is remotely operated. Use the following procedures to request an opening of this bridge when necessary for transit:

(1) *Normal flow procedures.* Any vessel which requires an opening of the draw of this bridge shall establish contact by radiotelephone with the remote drawbridge operator on VHF–FM Channel 13 in North Little Rock, Arkansas. The remote drawbridge operator will advise the vessel whether the requested span can be immediately opened and maintain constant contact with the vessel until the requested span has opened and the vessel passage has been completed. If the drawbridge cannot be opened immediately, the remote drawbridge operator will notify the calling vessel and provide an estimated time for a drawbridge opening.

(2) *High velocity flow procedures.* The area from mile 118.2 to mile 125.4 is a regulated navigation area (RNA) as described in §165.817. During periods of high velocity flow, which is defined as a flow rate of 70,000 cubic feet per second or greater at the Murray Lock and Dam, mile 125.4, downbound vessels which require that the draw of this bridge be opened for unimpeded passage shall contact the remote drawbridge operator on VHF–FM Channel 13 either before departing Murray Lock and Dam, or before departing the mooring cells at Mile 121.5 to ensure that the Baring Cross Railroad Drawbridge is opened. The remote drawbridge operator shall immediately respond to the vessel's call, ensure that the drawbridge is open for passage, and ensure that it remains in the open position until the downbound vessel has passed through. If it cannot be opened immediately for unimpeded passage in accordance with §163.203, the remote drawbridge operator will immediately notify the downbound vessel and provide an estimated time for a drawbridge opening. Upbound vessels shall request openings in accordance with the normal flow procedures as set forth above. The remote drawbridge operator shall keep all approaching vessels informed of the position of the drawbridge span.

(c) Across the Arkansas Waterway, the draw of the Van Buren Railroad Drawbridge, mile 300.8 at Van Buren, Arkansas, is maintained in the open position except as follows:

(1) When a train approaches the bridge, amber lights attached to the bridge begin to flash and an audible signal on the bridge sounds. At the end of 10 minutes, the amber light continues to flash; however, the audible signal stops and the draw lowers and locks if the photoelectric boat detection system detects no obstruction under the span. If there is an obstruction, the draw opens to its full height until the obstruction is cleared.

(2) After the train clears the bridge, the draw opens to its full height, the amber flashing light stops, and the mid channel lights change from red to green, indicating the navigation channel is open for the passage of vessels.

§ 117.393 Illinois Waterway.

(a) The draw of the automated Burlington Northern Santa Fe railroad bridge, mile 88.8 at Beardstown, Illinois, operates as follows:

(1) The draw is normally maintained in the fully open position, displaying a green light to indicate that vessels may pass.

(2) When a vessel is approaching and the draw is in the open position, contact shall be established by radiotelephone with the remote operator to assure that the draw remains open until passage is complete.

(3) When a vessel is approaching and the draw is in the closed position, contact shall be established by radiotelephone with the remote operator. If the draw cannot be opened immediately, alternate flashing red lights are displayed. If the draw can be opened immediately, flashing amber lights are displayed.

(4) When a train approaches the bridge and the draw is in the open position, the operator shall activate alternate flashing red lights on top of the draw, sound four short blasts, and scan

the river on radar to determine whether any vessel is approaching the bridge. The remote operator shall also broadcast that the draw is closing. If a vessel or vessels are approaching the bridge within one mile, as determined by radar scanning, response to radio broadcast, or electronic detector, the flashing red lights shall be changed to flashing amber and the operator shall keep the draw in the fully open position until the vessel or vessels have cleared the bridge. If no vessel is approaching the bridge or is beneath the draw, the draw may be lowered and locked in place.

(5) After the train has cleared the bridge, the draw shall be raised to its full height and locked in place, the red flashing lights stopped, and the draw lights changed from red to green.

(b) The draw of the Chessie Railroad Bridge, mile 254.1, at Seneca, Illinois, operates as follows:

(1) The draw is normally maintained in the fully open position, displaying green mid-channel lights to indicate the span is fully open.

(2) When a train approaches the bridge and the draw is in the open position, the train will stop, train operator shall walk out on the bridge and scan the river for approaching vessels.

(3) If a vessel is approaching the bridge, the draw will remain open. The vessel shall contact the train operator on VHF–FM channel 16 and the train operator shall keep the draw in the fully open position until the vessel has cleared the bridge.

(4) If no vessels are observed, the train operator initiates a five minute warning period on VHF–FM radio channel 16 before closing the bridge. The train operator will broadcast the following message: ''The Chessie Railroad Bridge at Mile 254.1, Illinois River, will close to navigation in five minutes.'' The announcement is repeated every minute counting down the time remaining until closure.

(5) At the end of the five minute warning period, and if no vessels are approaching the bridge, the train operator shall sound the siren for 10 seconds, activate the alternate flashing red lights on top of the draw, then lower and lock the draw in place. Red lights shall continue to flash to indicate the draw is closed to navigation.

(6) After the train has cleared the bridge, the draw shall be raised to its full height and locked in place, the red flashing lights stopped, and the draw lights changed from red to green.

(c) The draws of the McDonough Street Bridge, mile 287.3; Jefferson Street bridge, mile 287.9; Cass Street bridge, mile 288.1; Jackson Street bridge, mile 288.4; and Ruby Street bridge, mile 288.7; all of Joliet, shall open on signal, except that they need not open from 7:30 a.m. to 8:30 a.m. and from 4:15 p.m. to 5:15 p.m. Monday through Saturday.

(d) The drawspan of the Elgin, Joliet and Eastern Railway bridge, mile 290.1 at Lockport, Illinois, is operated by remote operator located at the Elgin, Joliet & Eastern offices in East Joliet, Illinois as follows:

(1) The drawspan is normally maintained in the fully open to navigation position displaying green center span navigation lights to indicate that the drawspan is fully open.

(2) The bridge is equipped with the following:

(i) A radiotelephone link direct to the remote operator;

(ii) A radar antenna on top of the drawspan capable of scanning the river, one mile upstream and one mile downstream;

(iii) Infrared boat detectors under the drawspan, to allow the remote bridge operator to detect vessels under the drawspan;

(iv) Electronic motion detectors under the drawspan to allow the remote bridge operator to detect vessel movement under the drawspan;

(v) A siren for sound signals; and

(vi) Red and green center span navigation lights.

(3) The remote bridge operator shall maintain a 24 hour VHF marine radio watch for mariners to establish contact as they approach the bridge to ensure that the drawspan is open or that it remains open until passage of river traffic is complete.

(4) When rail traffic approaches the bridge, and the drawspan is in the open position, the remote bridge operator initiates a one minute warning period before closing the drawspan. During

this warning period, the remote operator shall broadcast at least twice, via marine radio, that: ''The drawspan of the EJ&E Railroad bridge will be lowered in one minute.'' A siren on the bridge sounds for 20 seconds, to warn anyone on or under the bridge that the drawspan will be lowered.

(5) If a vessel is approaching the bridge upbound or, departing the Lockport Lock and Dam at mile 291.1, downbound, with intentions of passing through the drawspan, they shall respond to the remote bridge operators' marine radio broadcast, or initiate radio contact, indicating their proximity to the bridge and requesting an opening of the drawspan or that the drawspan remain open until the vessel passes. If any approaching vessel is detected or if a radiotelephone response is received, the remote operator shall not close the drawspan until the vessel or vessels have cleared the bridge.

(6) At the end of the one minute warning period, if no river traffic is approaching or under the drawspan, the remote bridge operator may begin lowering the drawspan. Navigation lights located at the center of the drawspan change from green to red when the drawspan is not in the fully open to navigation position. The drawspan takes approximately 90 seconds to lower.

(7) If the presence of a vessel or other obstruction is discovered approaching or under the drawspan, during the lowering sequence, before the drawspan is fully lowered and locked, the drawspan shall be stopped and raised to the fully open position. When the vessel or obstruction has cleared the drawspan, the remote operator shall confirm that the channel is clear and reinitiate the one minute warning cycle before lowering the drawspan.

(8) If no marine traffic is present the drawspan may be lowered and seated. When the drawspan is lowered and locked in the closed to navigation position, the remote bridge operator periodically broadcasts, via marine radio, that: ''The drawspan of the EJ&E Railroad bridge is closed to navigation.''

(9) Failure of the radar system, radio telephone system, infrared boat detectors or electronic motion sensors shall prevent lowering the drawspan from the remote location.

(10) when rail traffic has cleared the bridge, the remote bridge operator shall raise the drawspan to the fully open to navigation position. When the drawspan is raised and in the fully open to navigation position, the remote bridge operator broadcasts, at least twice, via marine radio, that: ''The drawspan of the EJ&E Railroad bridge is open to navigation.'' The center drawspan navigation lights change from red to green when the drawspan is fully open to navigation.

§ 117.484 Pass Manchac.

The draw of the Canadian National/Illinois Central Railroad automated bridge, mile 6.7, at Manchac, operates as follows:

(a) The draw is not constantly manned and the bridge will normally be maintained in the open position, providing 56 feet vertical clearance above mean high tide to the raised tip of the bascule span for one-half the channel, and unlimited vertical clearance for the other half.

(b) Railroad track circuits will detect an approaching train and initiate bridge closing warning broadcasts over marine radio and over the Public Address (PA) system six (6) minutes in advance of the train's arrival. Navigation channel warning lights will be lit, and photoelectric (infrared) boat detectors will monitor the waterway beneath the bridge for the presence of vessels. The waterway approaches to the bridge will be monitored by closed circuit TV (CCTV) cameras.

(c) Activation of the warning broadcasts also activates a marine radio monitor in the Mays Yard (New Orleans switch yard). The yardmaster will continuously monitor marine radio broadcasts on the normal and emergency marine radio channels throughout the warning period and at all times the bridge is closed. The yardmaster will communicate with waterway users via the marine radio, if necessary.

(d) At the end of warning period, if no vessels have been detected by the boat detectors, and no interruptions have been performed by the yardmaster based on his monitoring of the marine radio and the CCTV, the bridge lowering sequence will automatically proceed.

(e) Upon passage of the train, the bridge will automatically open. Railroad track circuits will initiate the automatic bridge opening and closing sequences. (Estimated duration that the bridge will remain closed for passage of rail traffic is 10 to 12 minutes.) The bridge will also be manually operable from two locked trackside control locations (key releases) on the approach spans, one on each side of the movable span.

(f) The yardmaster will be provided with a remote EMERGENCY STOP button which, if pressed, will stop the bridge operation, interrupt the lowering sequence, and immediately return the bridge to the open position. The yardmaster will utilize this control feature in the event a vessel operator issues an urgent radio call to keep the waterway open for immediate passage of the vessel.

§ 117.903 Darby Creek.

(a) The draw of the CONRAIL Railroad Bridge, mile 0.3, at Essington, will operate as follows:

(1) The owner of this bridge on this waterway shall provide and keep in good legible condition two board gages painted white with black figures, nine inches high to indicate the vertical clearance under the closed draw at all stages of the tide. The gages shall be so placed on the bridge that they are plainly visible to operators of vessels approaching the bridge either up or downstream.

(2) Trains shall be controlled so that any delay in opening of the draw shall not exceed ten minutes except as provided in §117.31(b). However, if a train moving toward the bridge has crossed the home signal for the bridge before the signal requesting opening of the bridge is given, the train may continue across the bridge and must clear the bridge interlocks before stopping.

(3) From April 1 through October 31, the draw shall be left in the open position at all times and will only be lowered for the passage of trains and to perform periodic maintenance authorized in accordance with subpart A of this part.

(4) The bridge will be operated by the bridge/train controller at the Delair Railroad Bridge in Delair, New Jersey.

(5) Before the bridge closes for any reason, an on-site crewmember will observe the waterway for approaching craft, which will be allowed to pass. The on-site crewmember will then communicate with the off-site bridge/train controller at the Delair Railroad Bridge either by radio or telephone, requesting the off-site bridge/train controller to lower the bridge.

(6) The bridge shall only be lowered from the remote site if the on-site crewmember's visual inspection shows there are no vessels in the area and the infrared channel sensors are not obstructed.

(7) While the CONRAIL Railroad Bridge is moving from the full open to the full closed position, the off-site bridge/train controller will maintain constant surveillance of the navigational channel using infrared sensors to ensure no conflict with maritime traffic exists. In the event of failure or obstruction of the infrared channel sensors, the off-site bridge/train controller will stop the bridge and return the bridge to the open position. In the event of loss of radio or telephone communications with the on-site crewmember, the off-site bridge/train controller will stop the bridge and the bridge return to the open position.

(8) When the draw cannot be operated from the remote site, a bridge tender must be called to operate the bridge in the traditional on-site manner.

(9) The CONRAIL Railroad channel traffic lights will change from flashing green to flashing red anytime the bridge is not in the full open position.

(10) During downward span movement, the channel traffic lights will change from flashing green to flashing red, the horn will sound two times, followed by a pause, and then two repeat blasts until the bridge is seated and locked down.

(11) When the rail traffic has cleared, the off-site bridge/train controller at the Delair Railroad Bridge will sound the horn five times to signal the draw of the CONRAIL Railroad Bridge is about to return to its full open position.

(12) During upward span movement, the channel traffic lights will change from flashing green to flashing red, the horn will sound two times, followed by a pause, and then sound repeat blasts until the bridge is in the full open position. In the full open position, the channel traffic lights will then turn from flashing red to flashing green.

(13) From November 1 through March 31, the draw shall open on signal if at least 24 hours notice is given by telephone at (856) 231–7088 or (856) 662–8201. Operational information will be provided 24 hours a day by telephone at (856) 231–7088 or (856) 662–8201.

§ 117.1035 Columbia River.

(a) The term *drawtender,* as used in this section means the operator of the drawspan, whether that person may be a train crew member, maintenance person, or an officially designated drawtender.

(b) The draw of the semi-automated Union Pacific railroad bridge (Kalan Bridge), mile 323.4, near Kennewick, Washington, is normally maintained in the fully open position with no drawtender in attendance. A radar beacon (RACON) is located at the center of

the drawspan. The RACON operates only when the drawspan is fully open, by responding with the Morse letter ''K'' to X-band radar signals. When necessary to close the drawspan for the passage of a train or for maintenance, a drawtender shall be dispatched to operate the draw from either of the remote control stations located at the ends of the bridge. Operation of the bridge shall be as follows:

(1) The drawtender shall broadcast a radio message over Channel 16–VHF to all vessels in the vicinity that the Kalan Bridge will be closing in two minutes. If after two minutes no response is received, the drawtender shall broadcast a message over Channel 13–VHF that the Kalan Bridge is closing. Both messages shall be broadcast twice.

(2) Prior to activating the closing sequence the drawtender shall visually inspect the waterway for marine traffic approaching the bridge. The closing sequence shall not be activated until after marine traffic has cleared the bridge.

(3) When the closing sequence is activated, the following functions occur automatically: The RACON is deactivated, red strobe lights on the lift towers and on the channel piers start flashing, a downward pointing arrow consisting of amber colored lights is displayed from the center of the drawspan and a recorded message is broadcast over Channel 13–VHF advising that the Kalan Bridge is closed to river traffic. The radio message is repeated every five minutes, the red lights continue to flash and the downward pointing arrow is displayed, until the lift span returns to the up and locked position. At the end of the ten minutes, a horn sounds for 30 seconds, the span begins closing and the centerspan navigation lights turn from green to red. The horn sounds for 30 seconds at 10 minute intervals, until the lift span returns to the up and locked position.

(4) If for any reason during the closing sequence a danger is posed to marine traffic, the closing sequence shall be stopped and the bridge reopened until the threat of danger has passed.

§ 118.65 Lights on fixed bridges.

(a) Each fixed bridge span over a navigable channel shall be lighted so that the center of the navigable channel under each span will be marked by a range of two green lights, and each margin of each navigable channel will be marked by a red light: *Provided,* That when a margin of a channel is limited by a pier, only those lights prescribed in paragraph (b) of this section shall be required to mark such channel margin. The green lights shall each show through a horizontal arc of 360°; they shall be securely mounted just below the outermost edge of the bridge span structure so as to be visible from an approaching vessel. Each red light shall show through a horizontal arc of 180°, and shall be securely mounted just below the outermost edge of the bridge span structure to show 90° on either side of a line parallel to the axis of the channel so as to be visible from an approaching vessel.

NOTE: Until such time that major repairs to or replacements of existing fixed span navigation lights colored green are made, it is permitted that only one of these lights marking the centerline of the same channel under a span shall be visible to an approaching vessel. When major repairs to or replacement of such existing green lights are made they shall conform with this paragraph.

(b) *Pier lights.* When the navigable channel extends from pier to pier or

when piers are located within the navigable channel, each end of such piers shall be lighted with a red light. Each such light shall show through a horizontal arc of 180°, and shall be securely fastened at the end of the pier as low as practicable but not lower than 2 feet above navigable high water to show 90° on either side of a line parallel to the axis of the channel so as to be visible from an approaching vessel.

(c) *Main channel.* When necessary, the District Commander may prescribe that fixed bridges having two or more spans over a navigable channel shall have the main channel span marked with a set of three white lights arranged in a vertical line directly above each green light on the main channel span. Each white light shall show through a horizontal arc of 180°, and shall be mounted so that ½ of the horizontal arc will show on either side of a line parallel to the axis of the channel. These three white lights shall be securely mounted on the bridge structure and spaced as nearly 15 feet apart as the structure of the bridge will permit, with a minimum spacing of 7 feet. The lowest white light in the line of three lights shall be placed not less than 10 nor more than 15 feet above each green light on the main channel span.

NOTE: Until such time that major repairs to or replacements of existing main channel lights showing white are made, it is permitted that these lights show through a horizontal arc of not less than 60° nor more than 180° with ½ of such arc showing either side of a line parallel to the axis of the main channel. When major repairs or replacement of such existing white lights are made, they shall conform with this paragraph.

§ 118.70 Lights on swing bridges.

(a) *Swing span lights on through bridges.* Each swing span of every through swing bridge shall be lighted with three lanterns so that when viewed from an approaching vessel the swing span when closed will display three red lights on top of the span structure, one at each end of the span on the same level and one at the center of the span no less than 10 feet above the other two lights, and when open for navigation will display three green lights on top of the span structure in a line parallel to and directly above the long axis of the span, one at each end of the span on the same level, and one at the center of the span no less than 10 feet above the other two lights. Each lantern shall show through alternate red and green horizontal arcs of 60° each, the axis of adjacent arcs to be 90° from each other; each light shall be securely mounted with the axis of the green arcs parallel to the long axis of the swing span.

(b) *Swing span lights on deck and half-through bridges.* Each swing span of every deck, half-through, girder, or similar type swing bridge shall be lighted with four lanterns so that when viewed from an approaching vessel the swing span when closed will display one red light at each end, and when open to navigation will display two green lights from each end. Each lantern shall show through one red and two green horizontal arcs of 60° each, the axis of each green arc to be 90° from the axis of the red arc; each light shall be securely mounted at the floor level of the span as near to the side of the span as practicable with the axis of the red light normal to the long axis of the swing span and so that the red light will be visible from an approaching vessel when the span is closed.

(c) *Pier lights.* Every swing bridge shall be lighted so that each end of the piers adjacent to the navigable channel (draw piers) or each end of their protection piers (draw pier protection piers) and each end of the piers protecting the pivot pier (pivot protection pier) will be marked by a red light. Each of these lights shall show through a horizontal arc of 180° and shall be mounted as low as practicable below the floor level of the swing span to show 90° on either side of a line parallel to the axis of the channel so as to be visible from an approaching vessel.

(d) *Axis lights.* Every swing bridge shall be lighted so that the intersection of the bridge axis with each side of the pivot pier and the channel side of each draw pier which has a protection pier will be marked by a red light: *Provided,* That if the draw and draw protection piers are straight along their channel faces these lights shall not be required. Each such light shall show

through a horizontal arc of 180°, and shall be mounted on the navigable channel face of the pier as low as practicable below the floor level of the swing span to show 90° either side of a line normal to the axis of the navigable channel so as to be visible from an approaching vessel.

(e) *Omission of lights.* Where the permanent navigable channel passes on only one side of the pivot pier of any swing span, the District Commander may authorize the omission of lighting of the unused channel.

§ 118.75 Lights on single-opening drawbridges.

(a) *Bridges in this class.* Bridges of the folding, pontoon and similar type single opening drawbridges are included in this class.

(b) *Draw span lights.* Each draw span of every single opening drawbridge shall be lighted with two lanterns so that when viewed from an approaching vessel the draw span when closed will display two red lights, one at each end of the span and when open to navigation will display two green lights, one at each end of the span. Each lantern shall show alternate red and green horizontal arcs of 60° each, the axis of adjacent arcs to be located 90° from each other; each lantern shall be securely mounted 15 feet above the roadway with the axis of the green arcs parallel to the long axis of the swing span.

(c) *Pier or abutment lights.* Every swing bridge shall be lighted so that the end of each pier, abutment or fixed portion of the bridge adjacent to the navigable channel through the draw, or each end of the protection piers for such piers, abutments, or fixed portion of the bridge will be marked by a red light. Each red light shall show through an arc of 180°, and shall be securely mounted on the pier, abutment or fixed portion of the bridge as low as practicable to show 90° on either side of a line parallel to the axis of the channel so as to be visible from an approaching vessel.

§ 118.80 Lights on bascule bridges.

(a) *Lift span lights.* Each lift span of every bascule bridge shall be lighted so that the free end of the span will be marked on each side by a green light which shows only when the span is fully open for the passage of a vessel and by a red light which shows for all other positions of the lift span. Each red and each green light shall show through a horizontal arc of 180°. The lighting apparatus shall be securely mounted to the side of the span so that the light will show equally on either side of a line parallel to the axis of the channels, so that they will be visible from an approaching vessel.

NOTE: Until such time that major repairs to or replacement of lift span navigation lights are made, existing lights may show through a horizontal arc of less than 180°. When major repairs to or replacement of existing lights are made they shall conform with this paragraph.

(b) *Multiple parallel lift span lights.* The outermost side of each outer span of every bascule bridge with parallel multiple lifts shall be lighted as prescribed in paragraph (a) of this section; the lights shall be controlled so that the green lights will be displayed only when all spans are open for navigation. The inner sides of each outer lift span and both sides of each inner lift span of such bascule bridge shall be lighted by red lights for all positions of the lift span. These lights shall have the same arcs of illumination and shall be mounted as described in paragraph (a) of this section.

(c) *Pier lights.* Every bascule bridge shall be lighted so that each end of every pier, or protection pier where provided, in or adjacent to the navigable channels under the lift span or spans will be marked by a red light. Each such red light shall show through a horizontal arc of 180°, and shall be securely mounted as low as practicable on the end of the pier, or protection pier, to show 90° either side of a line parallel to the axis of the navigable channel so as to be visible from an approaching vessel.

(d) *Axis lights.* Every bascule bridge which has at least one pier provided with a protection pier shall be lighted so that the intersection of the long axis of the lift span with the channel side of each pier, or protection pier, will be marked by a red light: *Provided,* That if all such piers and protection piers are straight along their channel faces these lights shall not be required.

Each such red light shall show through a horizontal arc of 180° and shall be securely mounted on the navigable channel face of the pier as low as practicable to show 90° on either side of a line normal to the axis of the navigable channel so as to be visible from an approaching vessel.

§ 118.85 Lights on vertical lift bridges.

(a) *Lift span lights.* The vertical lift span of every vertical lift bridge shall be lighted so that the center of the navigable channel under the span will be marked by a range of two green lights when the vertical lift span is open for navigation, and by one red light on each side for all other positions of the lift span. The green lights shall each show through a horizontal arc of 360°; they shall be securely mounted just below the outermost edge of the bridge span structure so as to be visible from an approaching vessel. Each red light shall show through a horizontal arc of 180°, and shall be securely mounted just below the outermost edge of the lift span to show 90° on either side of the line parallel to the axis of the channel so that only one such light will be visible from an approaching vessel.

NOTE: Until such time that major repairs to or replacement of lift span navigation lights are made, it is permitted that these lights show through a horizontal arc of not more than 60°. When major repairs to or replacement of such existing lights are made they shall conform with this paragraph.

(b) *Pier lights.* Every vertical lift bridge shall be lighted so that each end of every pier in or adjacent to navigable channels under the lift span, or each end of every protection pier when provided, will be marked by a red light. Each such light shall show through a horizontal arc of 180°, and shall be securely mounted as low as practicable on the end of the pier, or the protection pier, to show 90° on either side of a line parallel to the axis of the navigable channel so as to be visible from an approaching vessel.

(c) *Axis lights.* Every lift bridge which has at least one pier provided with a protection pier shall be lighted so that the intersection of the lift span axis with the channel side of each pier adjacent to the navigable channel will be marked by a red light: *Provided,* That if every such pier, or protection pier, is straight along its channel face these lights shall not be required. Each such light shall show through a horizontal arc of 180°, and shall be securely mounted on the navigable channel face of the pier as low as practicable to show 90° on either side of a line normal to the axis of the navigable channel so as to be visible from an approaching vessel.

§ 118.100 Retroreflective panels on bridge piers.

The District Commander may require or authorize the display of high intensity red or green retroreflective panels when the District Commander finds it necessary:

(a) To better identify a hazardous pier.

(b) To provide a backup for red pier lights, red channel margin lights, and green mid channel lights, which are subject to vandalism or otherwise difficult to properly maintain. If the District Commander determines that the nominal nighttime visibility required is less than one-half mile, the panels must be at least six inches square. If the visibility required is more than one-half mile, the panels must be at least 12 inches square.

(c) To mark bridge piers or channel sides on bridges not required to have bridge lighting. Lateral significant red

triangles and green square retroreflective panels shall be used. The panels shall be at least 36 square inches in area to provide a nominal nighttime visibility distance of at least one-half mile.

§ 118.130 Fog signals.

On waterways where visibility is frequently reduced due to fog or other causes, the District Commander may require or authorize the installation of one or more fog signals to warn the navigator of the presence of the bridge. The fog signals must conform to the installation, range, and sound frequencies provisions in Subpart 67.10 of Part 67 of this chapter. If more than one fog signal is installed on a bridge or in the vicinity, their characteristics must be different to distinguish each signal. The fog signals must be directional to the fullest extent possible to minimize adverse impact on local residents.

[CGD 84–022, 51 FR 16313, May 2, 1986]

§ 118.140 Painting bridge piers.

The District Commander may require painting the sides of bridge channel piers below the superstructure facing traffic white or yellow when they are significantly darkened by weathering or other causes so as to be poorly visible against a dark background.

[CGD 84–022, 51 FR 16314, May 2, 1986]

§ 118.150 Traveller platforms.

The District Commander may require under deck traveller platforms which may significantly reduce the vertical clearance when operated over navigation channels at night to be lighted with quick flashing red lights on each of the four lower corners.

[CGD 84–022, 51 FR 16314, May 2, 1986]

§ 118.160 Vertical clearance gauges.

(a) When necessary for reasons of safety of navigation, the District Commander may require or authorize the installation of clearance gauges. Except as specified in § 117.47(b) of this chapter for certain drawbridges, clearance gauges must meet the requirements of this section.

(b) Clearance gauges must indicate the vertical distance between ''low steel'' of the bridge channel span and the level of the water, measured to the bottom of the foot marks, read from top to bottom. Each gauge must be installed on the end of the right channel pier or pier protection structure facing

approaching vessels and extend to a reasonable height above high water so as to be meaningful to the viewer. Other or additional locations may be prescribed by the District Commander if particular conditions or circumstances warrant.

(c) *Construction.* Each gauge must be permanently fixed to the bridge pier or pier protection structure and made of a durable material of sufficient strength to provide resistance to weather, tide, and current. Gauges may be painted directly on the bridge channel pier or pier protection structure if the surface is suitable and has sufficient width to accommodate the foot marks (graduations) and numerals.

(d) *Numerals.* (1) Each gauge must be marked by black numerals and foot marks on a white background. Paint, if used, must be of good exterior quality, resistant to excessive chalking or bleeding. Manufactured numerals and background material may be used.

(2) The size, type, and spacing of numerals must conform to the Standard Alphabets for Highway Signs and the following table. The nominal day visibility distance is the distance at which the clearance information needs to be ascertained by approaching vessel operators. The District Commander determines this distance for each bridge.

Nominal day visibility distance (feet)	Height of numeral (inches)	Type of numeral	Vertical spacing of numerals (feet)
Less than 500	12	Series C ...	2
500 to 750	18	Series C ...	2
750 to 1,000	24	Series D ...	5
1,000 to 2,000	30	Series E ...	5
More than 2,000	36	Series E ...	10

(3) The length of the foot marks must be no less than the width of a single numeral used (except numerals 1 and 4), be the same thickness as the width of stroke of the numeral, and extend to the nearest margin of the white background. Foot marks must be spaced every foot for nominal day visibility of less than 500 feet, every two feet for a nominal day visibility of more than 500 feet but less than 1,000 feet, and every five feet for nominal day visibility of more than 1,000 feet.

(4) Intermediate foot marks may be used when more precise determination of actual clearance is necessary. Such intermediate foot marks must have a width of stroke one-half the width of the stroke required for the numeral and shall be three-quarters as long as the primary foot marks.

(5) The horizontal distance between the numeral and nearest edge of the white background shall be no less than one-half the width of a single numeral (excepting numerals 1 and 4).

(6) The minimum width of the white background shall be no less than three times the width of a single numeral (excepting numerals 1 and 4) plus the widths of each additional numeral (when multiple numerals are used plus numeral spacing).

(e) *Maintenance.* The owner or operator of the bridge shall maintain each gauge in good repair and legible condition. The bridge owner or operator is responsible for the accuracy of the gauge and shall remeasure the vertical distance of the numerals and foot marks below ''low steel'' of the bridge whenever the gauge is repainted or the structure is repaired.

Subpart A—General

§ 120.100 Does this part apply to me?

This part applies to all passenger vessels over 100 gross tons, carrying more than 12 passengers for hire; making voyages lasting more than 24 hours, any part of which is on the high seas; and for which passengers are embarked or disembarked in the United States or its territories. It does not apply to ferries that hold Coast Guard Certificates of Inspection endorsed for ''Lakes, Bays, and Sounds'', and that transit international waters for only short periods of time, on frequent schedules.

§ 120.110 Definitions.

As used in this part:

Captain of the Port (COTP) means the Coast Guard officer designated by the Commandant to command a Captain of the Port Zone as described in Part 3 of this chapter, or an authorized representative.

Commandant means the Commandant of the U.S. Coast Guard, or an authorized representative.

High seas means the waters defined in §2.32(d) of this chapter.

Operator means the person, company, or governmental agency, or the representative of a company or governmental agency, that maintains operational control over a passenger vessel or passenger terminal.

Passenger terminal means any structure used for the assembling, processing, embarking, or disembarking of passengers or baggage for vessels subject to this part. It includes piers, wharves, and similar structures to which a vessel may be secured; land and water under or in immediate proximity to these structures; buildings on or contiguous to these structures; and equipment and materials on or in these structures.

Security Level I means the degree of security precautions to take when the threat of an unlawful act against a vessel or terminal is, though possible, not likely.

Security Level II means the degree of security precautions to take when the threat of an unlawful act against a vessel or terminal is possible and intelligence indicates that terrorists are likely to be active within a specific area, or against a type of vessel or terminal.

Security Level III means the degree of security precautions to take when the threat of an unlawful act against a vessel or terminal is probable or imminent and intelligence indicates that terrorists have chosen specific targets.

Unlawful act means an act that is a felony under U.S. federal law, under the laws of the States where the vessel is located, or under the laws of the country in which the vessel is registered.

Voyage means the passenger vessel's entire course of travel, from the first port at which the vessel embarks passengers until its return to that port or another port where the majority of the passengers are disembarked and terminate their voyage.

We means the United States Coast Guard.

You, unless otherwise specified, means the owner, operator, or charterer of a passenger vessel.

[CGD 91–012, 61 FR 37652, July 18, 1996, as amended at 69 FR 18803, Apr. 9, 2004]

§ 120.200 What must my Vessel Security Program cover?

(a) If this part applies to your passenger vessel, you must implement a program for that vessel that—

(1) Provides for the safety and security of persons and property traveling aboard the vessel, against unlawful acts;

(2) Prevents or deters the carriage aboard the vessel of any prohibited weapon, incendiary, or explosive, on or about any person or within his or her personal articles or baggage, and the carriage of any prohibited weapon, incendiary, or explosive, in stowed baggage, cargo, or stores;

(3) Prevents or deters unauthorized access to the vessel and to restricted areas aboard the vessel;

(4) Provides appropriate security measures for Security Levels I, II, and III that allow for increases in security when the Commandant or Captain of the Port (COTP) advises you that a threat of an unlawful act exists and may affect the vessel or any person aboard it;

(5) Designates, by name, a security officer for the vessel;

(6) Ensures that all members of the crew are adequately trained to perform their duties relative to security; and

(7) Provides for coordination with terminal security while in port.

(b) If this part applies to your passenger vessel, you must work with the operator of each terminal at which that vessel embarks or disembarks passengers, to provide security for the passengers and the vessel. You need not duplicate any provisions fulfilled by the terminal unless directed to by the Commandant. When a provision is fulfilled by the terminal, the applicable section of the Vessel Security Plan required by §120.300 must refer to that fact.

[CGD91–012, 63 FR 53590, Oct. 6, 1998]

§ 120.210 What are the responsibilities of my vessel security officer?

(a) If this part applies to your passenger vessel, you must designate a security officer for your vessel.

(b) This officer must ensure that—

(1) An initial comprehensive security survey is conducted and updated;

(2) The Vessel Security Plan required by §120.300 is implemented and maintained, and amendments to correct its deficiencies and satisfy the security requirements for the vessel are proposed;

(3) Adequate training for members of the crew responsible for security is provided;

(4) Regular security inspections of the vessel are conducted;

(5) Vigilance is encouraged, as well as is general awareness of security, aboard the vessel;

[CGD91–012, 63 FR 53590, Oct. 6, 1998]

§ 120.220 What must I do to report an unlawful act and related activity?

(a) Either you or the vessel security officer must report each breach of security, unlawful act, or threat of an unlawful act against any of your passenger vessels to which this part applies, or against any person aboard it, that occurs in a place subject to the jurisdiction of the United States. You must report the incident to both the COTP and to the local office of the Federal Bureau of Investigation (FBI). Also, if your vessel is a U.S.-flag vessel, you must report each such incident that occurs in a place outside the jurisdiction of the United States to the hotline of the Response Center of the Department of Homeland Security at 1–800–424–0201, or, from within metropolitan Washington, D.C., at 202–372–2428; Fax: 202–372–2920.

(b) Either you or the vessel security officer must file a written report of the incident, using the form ''Report on an Unlawful Act,'' contained in IMO MSC Circular 443, which you or the officer must forward as soon as possible to Commandant (G-MOR), U.S. Coast Guard Headquarters, 2100 Second Street SW., Washington, DC 20593–0001. You may initially file the report with Commandant (G-MOR) by fax at (202) 267–4085 or –4065.

Subpart C—Plans and Procedures for Vessel Security

§ 120.300 What is required to be in a Vessel Security Plan?

(a) If your passenger vessel is subject to this part, you must develop and maintain, in writing, for that vessel, an appropriate Vessel Security Plan that—

(1) Is unique to the vessel;

(2) Articulates the program required by § 120.200; and

(3) Includes an appendix, for each port where the vessel embarks or disembarks passengers, that contains port-specific security information.

(b) The Vessel Security Plan must be developed and maintained under the guidance in IMO MSC Circular 443, and must establish security measures to take for Security Levels I, II, and III, to—

(1) Deter unauthorized access to the vessel and its restricted areas;

(2) Deter the introduction of prohibited weapons, incendiaries, or explosives aboard the vessel;

(3) Encourage vigilance, as well as general awareness of security, aboard the vessel;

(4) Provide adequate training to members of the crew for security aboard the vessel;

(5) Coordinate responsibilities for security with the operator of each terminal where the vessel embarks or disembarks passengers; and

(6) Provide information to members of the crew and to law-enforcement personnel, in case of an incident affecting security.

(c) You must amend the Vessel Security Plan to address any known deficiencies.

(d) You must restrict the distribution, disclosure, and availability of information contained in the Vessel Security Plan to those persons with an operational need to know.

[CGD91–012, 63 FR 53590, Oct. 6, 1998]

§ 120.303 Who must submit a Terminal Security Plan?

(a) You must submit a Terminal Security Plan whenever—

(1) There is an agreement with the owner or operator of a terminal that you will submit the Plan;

(2) You have exclusive use of the pier and terminal building immediately adjacent to the pier and have complete control of that area;

(3) There is no terminal; or

(4) Passengers embark or disembark but no baggage or stores are loaded or offloaded.

(b) In the situations described in paragraphs (a)(3) and (4) of this section, you may, with the permission of the cognizant COTP, use an annex to the vessel's security plan instead of a Terminal Security Plan.

(c) The owner or operator of a terminal must submit a Terminal Security Plan whenever—

(1) There is an agreement with you that the owner or operator of the terminal will submit the Plan;

(2) No security agreement exists; or

(3) (i) At least one vessel other than a passenger vessel uses the terminal;

(ii) More than one passenger vessel line uses the terminal; or

(iii) The terminal loads or offloads baggage or stores.

[CGD91–012, 63 FR 53591, Oct. 6, 1998]

§ 120.305 What is the procedure for examination?

(a) You must submit two copies of each Vessel Security Plan required by § 120.300, or of any Terminal Security Plan or annex required or permitted under § 120.303 or § 128.305 of this chapter, to the Commanding Officer (MSC), USCG Marine Safety Center, 1900 Half Street, SW., Suite 1000, Room 525, Washington, DC 20024 for visitors. Send all mail to Commanding Officer (MSC), United States Coast Guard, JR10–0525, 2100 2nd Street, SW., Washington, DC 20593, for examination at least 60 days before embarking passengers on a voyage described in § 120.100.

(b) If the Commanding Officer, Marine Safety Center, finds that the Vessel Security Plan meets the requirements of § 120.300, he or she will return a copy to you marked ''Examined by the Coast Guard.''

(c) If the Commanding Officer, Marine Safety Center, finds that the Vessel Security Plan does not meet the requirements of § 120.300, he or she will return the Plan with an explanation of why it does not meet them.

(d) No vessel subject to this part may embark or disembark passengers in the United States, unless it holds either a Vessel Security Plan that we have examined or a letter from the Commanding Officer, Marine Safety Center, stating that we are currently reviewing the Plan and that normal operations may continue until we have determined whether the Plan meets the requirements of § 120.300.

[CGD91–012, 63 FR 53591, Oct. 6, 1998, as amended by USCG–2001–9286, 66 FR 33641, June 25, 2001; USCG–2007–26953, 72 FR 5931, Feb. 8, 2007]

§ 120.307 What do I do if I need to amend my Vessel Security Plan?

(a) If your passenger vessel is subject to this part, you must amend your Vessel Security Plan when directed by the Commanding Officer, Marine Safety Center, and may amend it on your own initiative.

(b) You must submit each proposed amendment to the Vessel Security Plan you initiate, including changes to any appendix required by § 120.300(a)(3), to the Commanding Officer, Marine Safety Center, for review, at least 30 days before the amendment is to take effect, unless he or she allows a shorter period. He or she will examine the amendment and respond according to § 120.305.

(c) The Commanding Officer, Marine Safety Center, may direct you to amend your Vessel Security Plan if he or she determines that implementation of the Plan is not providing effective security. Except in an emergency, he or she will issue you a written notice of matters to address and will allow you at least 60 days to submit proposed amendments.

(d) If there is an emergency or other circumstance where the COTP determines that implementation of the Plan is not providing effective security, and the procedures in paragraph (c) of this section are impracticable, the COTP may give you an order to implement increases in security immediately. The order will incorporate a statement of the reasons for it.

[CGD91–012, 63 FR 53591, Oct. 6, 1998, as amended by USCG–2001–9286, 66 FR 33641, June 25, 2001]

§ 120.309 What is my right of appeal?

Any person directly affected by a decision or action taken by the Commanding Officer, Marine Safety Center, under this part, may appeal that action or decision to the Assistant Commandant for Marine Safety, Security and Environmental Protection [Commandant (G-M)] according to the procedures in 46 CFR 1.03–15.
