(25) For a CDQ group, exceed a seasonal allowance of Pacific cod under § 679.20(a)(7)(i)(B).

(e) [Reserved]

(f) *IFQ fisheries*. (1) Fail to submit, or submit inaccurate information on, any report, application, or statement required under this part.

(2) Intentionally submit false information on any report, application, or statement required under this part.

(3)(i) *Halibut*. (A) Retain halibut caught with fixed gear without a valid IFQ permit, and if using a hired master, without an IFQ hired master permit in the name of an individual aboard.

(B) Retain halibut caught with fixed gear without a valid CDQ permit and without a CDQ hired master permit in the name of an individual aboard.

(ii) *Sablefish*. Retain sablefish caught with fixed gear without a valid IFQ permit, and if using a hired master, without an IFQ hired master permit in the name of an individual aboard, unless fishing on behalf of a CDQ group and authorized under § 679.32(c).

(4) Except as provided in § 679.40(d), retain IFQ or CDQ halibut or IFQ or CDQ sablefish on a vessel in excess of the total amount of unharvested IFQ or CDQ, applicable to the vessel category and IFQ or CDQ regulatory area(s) in which the vessel is deploying fixed gear, and that is currently held by all IFQ or CDQ permit holders aboard the vessel, unless the vessel has an observer aboard under subpart E of this part and maintains the applicable daily fishing log prescribed in the annual management measures published in the FEDERAL REGISTER pursuant to § 300.62 of this title and § 679.5.

(5) Possess, buy, sell, or transport IFQ or CDQ halibut or IFQ sablefish harvested or landed in violation of any provision of this part.

(6) *Landing*—(i) IFQ permit or IFQ hired master permit. Make an IFQ landing without an IFQ permit or IFQ hired master permit, as appropriate, in the name of the individual making the landing.

(ii) Hired master, CDQ. Make a CDQ halibut landing without a CDQ hired master permit listing the name of the hired master.

## Fishery Conservation and Management

## § 679.7

(iii) *Hired master, CDQ halibut.* Make a CDQ halibut landing without a CDQ hired master permit listing the name of the hired master.

(7) Possess on a vessel or land IFQ sablefish concurrently with non-IFQ sablefish, except that CDQ sablefish may be possessed on a vessel and landed concurrently with IFQ sablefish.

(8) Discard:

(i) In the GOA:

(A) Rockfish that are taken when IFQ halibut or IFQ sablefish are on board unless rockfish are required to be discarded under subpart B of this part.

(B) Pacific cod that are taken when IFQ halibut or IFQ sablefish are on board unless Pacific cod are required to be discarded under subpart B of this part, or Pacific cod are not authorized to be retained under subpart A of this part.

(ii) In the BSAI:

(A) Rockfish that are taken when IFQ halibut or IFQ sablefish are on board unless rockfish are required to be discarded under subpart B of this part.

(B) Pacific cod that are taken when IFQ halibut or IFQ sablefish are on board according to the following table:

| If the vessel operator . . .                                                                                             | Then . . .                                                                                                                                                                                                                                                    |
|--------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (1) has an LLP groundfish license with a Pacific cod endorsement that meets the requirements of § 679.4(k)(9).           | Pacific cod must not be discarded unless Pacific cod are required to be discarded under subpart B of this part, or Pacific cod are not authorized to be retained under subpart A of this part.                                                                |
| (2) does not have an LLP groundfish license with a Pacific cod endorsement that meets the requirements of § 679.4(k)(9). | Pacific cod must not be discarded up to the retainable amount specified in Table 11 of this part unless Pacific cod are required to be discarded under subpart B of this part, or Pacific cod are not authorized to be retained under subpart A of this part. |

(iii) In the waters within the State of Alaska:

(A) Rockfish that are taken when IFQ halibut or IFQ sablefish are on board unless rockfish are required to be discarded by the laws of the State of Alaska.

(B) Pacific cod that are taken when IFQ halibut or IFQ sablefish are on board unless Pacific cod are required to be discarded by the laws of the State of Alaska.

(9) Harvest on any vessel more IFQ halibut or IFQ sablefish than are authorized under § 679.42.

(10) Make an IFQ halibut, IFQ sablefish, or CDQ halibut landing other than directly to (or by) a registered buyer.

(11) Discard halibut or sablefish caught with fixed gear from any catcher vessel when any IFQ permit holder aboard holds unused halibut or sablefish IFQ for that vessel category and the IFQ regulatory area in which the vessel is operating, unless:

(i) Discard of halibut is required as prescribed in the annual management measures published in the FEDERAL REGISTER pursuant to § 300.62 of chapter III of this title;

(ii) Discard of sablefish is required under § 679.20 or, in waters within the State of Alaska, discard of sablefish is required under laws of the State of Alaska; or

(iii) Discard of halibut or sablefish is required under other provisions.

(12) Commence an IFQ landing without a Prior Notice of Landing (PNOL), before the date and time stated on the PNOL, or more than 2 hours after the date and time stated on the PNOL, except as provided in § 679.5(1)(1).

(13) [Reserved]

(14) Violate any other provision under this part.

(15) Hire a master to fish for IFQ halibut or IFQ sablefish that is derived from QS held by a CQE.

(16) Process IFQ halibut or IFQ sablefish onboard a vessel on which a person is using IFQ derived from QS held by a CQE.

(g) *Groundfish Observer Program.* (1) Forcibly assault, resist, oppose, impede, intimidate, sexually harass, bribe, or interfere with an observer.

(2) Interfere with or bias the sampling procedure employed by an observer, including physical, mechanical, or other sorting or discarding of catch before sampling.

(3) Tamper with, destroy, or discard an observer's collected samples, equipment, records, photographic film, papers, or personal effects without the express consent of the observer.

(4) Prohibit or bar by command, impediment, threat, coercion, or by refusal of reasonable assistance, an observer from collecting samples, conducting product recovery rate determinations, making observations, or otherwise performing the observer's duties.

(5) Harass an observer by conduct that has sexual connotations, has the purpose or effect of interfering with the observer's work performance, or otherwise creates an intimidating, hostile, or offensive environment. In determining whether conduct constitutes harassment, the totality of the circumstances, including the nature of the conduct and the context in which it occurred, will be considered. The determination of the legality of a particular action will be made from the facts on a case-by-case basis.

(6) Fish for or process fish without observer coverage required under subpart E of this part.

(7) Require, pressure, coerce, or threaten an observer to perform duties normally performed by crew members, including, but not limited to, cooking, washing dishes, standing watch, vessel maintenance, assisting with the setting or retrieval of gear, or any duties associated with the processing of fish, from sorting the catch to the storage of the finished product.

(h) *Salmon fisheries.* (1) Fish for, take, or retain any salmon in violation of this part.

(2) Engage in fishing for salmon in the Salmon Management Area defined at § 679.2 and Figure 23 to this part, except to the extent authorized by § 679.4(h) or applicable State of Alaska regulations.

(i) *License Limitation Program*—(1) *Number of licenses.* (i) Hold more than 10 groundfish licenses in the name of that person at any time, except as provided in paragraph (i)(1)(iii) of this section;

(ii) Hold more than five crab species licenses in the name of that person at any time, except as provided in paragraph (i)(1)(iii) of this section; or

(iii) Hold more licenses than allowed in paragraphs (i)(1)(i) and (i)(1)(ii) of this section unless those licenses were issued to that person in the initial distribution of licenses. Any person who receives in the initial distribution

more licenses than allowed in paragraphs (i)(1)(i) and (i)(1)(ii) of this section shall have no transfer applications for receipt of additional licenses approved until the number of licenses in the name of that person is less than the numbers specified in paragraphs (i)(1)(i) and (i)(1)(ii) of this section; furthermore, when a person becomes eligible to receive licenses by transfer through the provisions of this paragraph, that person is subject to the provisions in paragraphs (i)(1)(i) and (i)(1)(ii) of this section;

(iv) Hold more than two scallop licenses in the name of that person at any time.

(2) Conduct directed fishing for license limitation groundfish without an original valid groundfish license, except as provided in § 679.4(k)(2);

(3) Conduct directed fishing for crab species without an original valid crab license, except as provided in § 679.4(k)(2);

(4) Process license limitation groundfish on board a vessel without an original valid groundfish license with a Catcher/processor designation;

(5) Process crab species on board a vessel without an original valid crab species license with a Catcher/processor designation;

(6) Use a vessel to fish for LLP groundfish or crab species, or allow a vessel to be used to fish for LLP groundfish or crab species, that has an LOA that exceeds the MLOA specified on the license that authorizes fishing for LLP groundfish or crab species.

(7) Lease a groundfish, crab species, or scallop license; or

(8) Catch and retain scallops:

(i) Without an original valid scallop license on board;

(ii) Using a vessel with a MLOA greater than that specified on the scallop license; or

(iii) Using dredge gear contrary to a gear limitation specified on the scallop license.

(9) Use a vessel to fish for LLP groundfish or crab species, or allow a vessel to be used to fish for LLP groundfish or crab species, other than the vessel named on the license that authorizes fishing for LLP groundfish or crab species.

(j) *Prohibitions specific to the GOA* (applicable through December 31, 2002)—(1) *Southeast Outside trawl closure.* Use any gear other than non-trawl gear in the GOA east of 140° W long.

(2) *Catcher vessel trip limit for pollock.* Retain on board a catcher vessel at any time during a trip, more than 300,000 lb (136 mt) of unprocessed pollock.

(3) *Tender vessel restrictions for pollock.* (i) Operate as a tender vessel east of 157°00' W long. for pollock harvested in the GOA.

(ii) Operate as a tender vessel west of 157°00' W long. while retaining on board at any time more than 600,000 lb (272 mt) of unprocessed pollock.

(k) *Prohibitions specific to the AFA.* It is unlawful for any person to do any of the following:

(1) *Catcher/processors*—(i) *Permit requirement.* Use a catcher/processor to engage in directed fishing for non-CDQ BSAI pollock without a valid AFA catcher/processor permit on board the vessel.

(ii) *Fishing in the GOA.* Use a listed AFA catcher/processor to harvest any species of fish in the GOA.

(iii) *Processing BSAI crab.* Use a listed AFA catcher/processor to process any crab species harvested in the BSAI.

(iv) *Processing GOA groundfish.* Use a listed AFA catcher/processor to process any pollock harvested in a directed pollock fishery in the GOA and any groundfish harvested in Statistical Area 630 of the GOA.

(v) *Directed fishing after a sideboard closure.* Use a listed AFA catcher/processor to engage in directed fishing for a groundfish species or species group in the BSAI after the Regional Administrator has issued an AFA catcher/processor sideboard directed fishing closure for that groundfish species or species group under § 679.20(d)(1)(iv) or § 679.21(e)(3)(v).

(vi) *Catch weighing*—(A) *Listed AFA catcher/processors.* Process any groundfish that was not weighed on a NMFS-approved scale that complies with the requirements of § 679.28(b). Catch may not be sorted before it is weighed and each haul must be sampled by an observer for species composition.

(B) *Unlisted AFA catcher/processors.* Process groundfish harvested in the BSAI pollock fishery that was not

weighed on a NMFS-approved scale that complies with the requirements of § 679.28(b). Catch may not be sorted before it is weighed and each haul must be sampled by an observer for species composition.

(vii) *Observer sampling station*—(A) *Listed AFA catcher/processors.* Process any groundfish without an observer sampling station as described at § 679.28(d). A valid observer sampling station inspection report must be on board at all times when an observer sampling station is required.

(B) *Unlisted AFA catcher/processors.* Process groundfish harvested in the BSAI pollock fishery without an observer sampling station as described at § 679.28(d). A valid observer sampling station inspection report must be on board at all times when an observer sampling station is required.

(2) *Motherships*—(i) *Permit requirement.* Use a mothership to process pollock harvested in a non-CDQ directed fishery for pollock in the BSAI without a valid AFA permit on board the mothership.

(ii) [Reserved]

(iii) *Catch weighing.* Process any groundfish that was not weighed on a NMFS-approved scale that complies with the requirements of § 679.28(b). Catch may not be sorted before it is weighed and each delivery must be sampled by an observer for species composition.

(iv) *Observer sampling station.* Process any groundfish without an observer sampling station as described at § 679.28(d). A valid observer sampling station inspection report must be on board at all times when an observer sampling station is required.

(3) *AFA inshore processors*—(i) *Permit requirement.* Use a shoreside processor or stationary floating processor to process pollock harvested in a non-CDQ directed fishery for pollock in the BS without a valid AFA inshore processor permit at the facility or on board vessel.

(ii) *Cooperative processing endorsement.* Use a shoreside processor or stationary floating processor required to have an AFA inshore processor permit to process groundfish harvested by a fishery cooperative formed under § 679.62 unless

## § 679.7

## 50 CFR Ch. VI (10–1–08 Edition)

the AFA inshore processor permit contains a valid cooperative pollock processing endorsement.

(iii) [Reserved]

(iv) *Single geographic location requirement.* Use an AFA inshore processor to process pollock harvested in the BS directed pollock fishery at a location other than the single geographic location defined as follows:

(A) *Shoreside processors.* The physical location at which the land-based shoreside processor first processed BS pollock harvested in the BS directed pollock fishery during a fishing year.

(B) *Stationary floating processors.* A location within Alaska State waters that is within 5 nm of the position in which the stationary floating processor first processed BS pollock harvested in the BS directed pollock fishery during a fishing year.

(v) *Catch weighing.* Process any groundfish that was not weighed on a scale approved by the State of Alaska and meeting the requirements specified in § 679.28(c).

(vi) *Catch monitoring and control plan (CMCP).* Take deliveries or process groundfish delivered by a vessel engaged in directed fishing for BSAI pollock without following an approved CMCP as described at § 679.28(g). A copy of the CMCP must be maintained on the premises and made available to authorized officers or NMFS-authorized personnel upon request.

(4) *Catcher vessels—(i) Permit requirement.* Use a catcher vessel to engage in directed fishing for non-CDQ BS pollock for delivery to any AFA processing sector (catcher/processor, mothership, or inshore) unless the vessel has a valid AFA catcher vessel permit on board that includes an endorsement for the sector of the BS pollock fishery in which the vessel is participating.

(ii) [Reserved]

(iii) *Groundfish sideboard closures.* Use an AFA catcher vessel to engage in directed fishing for a groundfish species or species group in the BSAI or GOA after the Regional Administrator has issued an AFA catcher vessel sideboard directed fishing closure for that groundfish species or species group under § 679.20(d)(1)(iv), § 679.21(d)(8) or § 679.21(e)(3)(iv), if the vessel's AFA per-

mit does not contain a sideboard exemption for that groundfish species or species group.

(5) *AFA inshore fishery cooperatives—*

(i) *Overages by vessel.* Use an AFA catcher vessel listed on an AFA inshore cooperative fishing permit, or under contract to a fishery cooperative under § 679.62(c), to harvest non-CDQ BS pollock in excess of the fishery cooperative's annual allocation of pollock specified under § 679.62.

(ii) *Overages by fishery cooperative.* An inshore pollock fishery cooperative is prohibited from exceeding its annual allocation of BS pollock TAC.

(6) *Excessive harvesting shares.* It is unlawful for an AFA entity to harvest, through a fishery cooperative or otherwise, an amount of BS pollock that exceeds the 17.5 percent excessive share limit specified under § 679.20(a)(5)(i)(A)(6). The owners and operators of the individual vessels comprising the AFA entity that harvests BS pollock will be held jointly and severally liable for exceeding the excessive harvesting share limit.

(7) *Excessive processing shares.* It is unlawful for an AFA entity to process an amount of BS pollock that exceeds the 30-percent excessive share limit specified under § 679.20(a)(5)(i)(A)(7). The owners and operators of the individual processors comprising the AFA entity that processes BS pollock will be held jointly and severally liable for exceeding the excessive processing share limit.

(1) *Prohibitions specific to the AI directed pollock fishery—(1) Catcher/processors.* (i) Use a catcher/processor vessel to harvest pollock in the AI directed pollock fishery or process pollock harvested in the AI directed pollock fishery without a copy of NMFS' approval letter on board pursuant to § 679.4(m).

(ii) Process any pollock harvested in the AI directed pollock fishery without complying with catch weighing and observer sampling station requirements set forth at paragraphs (k)(1)(vi) and (k)(1)(vii) of this section, respectively.

(iii) Use a catcher/processor to harvest pollock in the AI directed pollock fishery or process pollock harvested in the AI directed pollock fishery without a valid AFA catcher/processor permit on board the vessel.

## Fishery Conservation and Management

## § 679.7

(2) *Motherships.* (i) Use a mothership to process pollock harvested in the AI directed pollock fishery without a copy of NMFS' approval letter on board pursuant to § 679.4(m).

(ii) Process any pollock harvested in the AI directed pollock fishery without complying with catch weighing and observer sampling station requirements set forth at paragraphs (k)(2)(iii) and (k)(2)(iv) of this section, respectively.

(iii) Use a mothership to process pollock harvested in the AI directed pollock fishery without a valid AFA mothership permit on board the vessel.

(3) *Shoreside and stationary floating processors.* (i) Use a shoreside processor or stationary floating processor to process pollock harvested in the AI directed pollock fishery without a copy of NMFS' approval letter on location pursuant to § 679.4(m).

(ii) Process any pollock harvested in the AI directed pollock fishery without complying with catch weighing requirements set forth at paragraph (k)(3)(v) of this section.

(iii) Take deliveries of pollock harvested in the AI directed pollock fishery or process pollock harvested in the AI pollock fishery without following an approved CMCP as described in § 679.28(g). A copy of the CMCP must be maintained on the premises and made available to authorized officers or NMFS-authorized personnel upon request.

(4) *Catcher vessels.* (i) Use a catcher vessel to harvest pollock in the AI directed pollock fishery without a copy of NMFS' approval letter on board pursuant to § 679.4(m).

(ii) Have on board at any one time pollock harvested in the AI directed pollock fishery and pollock harvested from either the Bering Sea subarea or the Gulf of Alaska.

(iii) Use a catcher vessel to deliver pollock harvested in the AI directed pollock fishery:

(A) To a shoreside or stationary floating processor that does not have an approved CMCP pursuant to § 679.28(g) and is not approved by NMFS to process pollock harvested in the AI directed pollock fishery, or

(B) To a catcher/processor or mothership that is not approved by

NMFS to process pollock harvested in the AI directed pollock fishery.

(iv) Use a catcher vessel greater than 60 ft (18.3 m) LOA to harvest pollock in the AI directed pollock fishery unless the vessel has a valid AFA catcher vessel permit on board.

(5) *AI directed pollock fishery overages.*

(i) Use a catcher vessel selected by the Aleut Corporation and approved by NMFS to participate in the AI directed pollock fishery under § 679.4(m) to harvest pollock in the AI directed pollock fishery in excess of the Aleut Corporation's annual or seasonal allocations of pollock or in excess of the vessel allocation specified under § 679.20(a)(5)(iii).

(ii) The Aleut Corporation is prohibited from exceeding its annual and seasonal allocations of AI pollock TAC or from exceeding the allocation to vessels, as specified in § 679.20(a)(5)(iii).

(m) *Prohibitions specific to GRS.* (Effective January 20, 2008). It is unlawful for either the owner or operator of a catcher/processor not listed in § 679.4(1)(2)(i) not assigned to an Amendment 80 cooperative and using trawl gear in the BSAI, or an Amendment 80 cooperative to:

(1) Retain an amount of groundfish during a fishing year that is less than the amount of groundfish required to be retained under the GRS described at § 679.27(j).

(2) Fail to submit, submit inaccurate information, or intentionally submit false information, on any report, application or statement required under this part.

(3) Process or discard any catch not weighed on a NMFS-approved scale that complies with the requirements of § 679.28(b). Catch must not be sorted before it is weighed and each haul must be available to be sampled by an observer for species composition.

(4) Process any groundfish without an observer sampling station that complies with § 679.28(d).

(5) Combine catch from two or more hauls.

(6) Receive deliveries of unsorted catch at any time during a fishing year without complying with § 679.27(j)(5), if the vessel is required to comply with § 679.27(j)(1) at any time during the same fishing year.

**§ 679.7**

**50 CFR Ch. VI (10–1–08 Edition)**

(n) *Rockfish Program*—(1) *General*. (i) Fail to retain any primary rockfish species caught by a vessel that is assigned to a rockfish cooperative when that vessel is fishing under a CQ permit.

(ii) Fail to retain any primary rockfish species in the Central GOA caught by a vessel assigned to a rockfish limited access fishery, or to a rockfish entry level fishery, when that fishery is open.

(iii) Fail to retain any secondary species caught by a vessel assigned to a rockfish cooperative when that vessel is fishing under a CQ permit.

(iv) Use an LLP license assigned to a Rockfish Program fishery in any other Rockfish Program fishery other than the Rockfish Program fishery to which that LLP license was initially assigned for that fishing year.

(v) Operate a vessel assigned to a Rockfish Program Fishery in any other Rockfish Program fishery other than the Rockfish Program fishery to which that vessel was initially assigned for that fishing year.

(vi) Receive any primary rockfish species harvested in the entry level rockfish fishery if that person is an eligible rockfish processor.

(vii) Harvest any primary rockfish species in the entry level rockfish fishery if that person is an eligible rockfish harvester.

(viii) Harvest primary rockfish species, secondary species, or use halibut PSC assigned to a rockfish cooperative without a valid CQ permit.

(2) *Vessels operators participating in the Rockfish Program*. (i) Operate a vessel that is assigned to a rockfish cooperative and fishing under a CQ permit and fail to follow the catch monitoring requirements detailed at § 679.84(c) through (e) from May 1:

(A) Until November 15; or

(B) Until that rockfish cooperative has submitted a rockfish cooperative termination of fishing declaration that has been approved by NMFS.

(ii) Operate a vessel that is assigned to a rockfish limited access fishery and fail to follow the catch monitoring requirements detailed at § 679.84(c) through (e) from July 1:

(A) Until November 15; or

(B) Until NMFS closes all directed fishing for all primary rockfish species for that rockfish limited access fishery for that sector.

(iii) Operate a vessel, other than a catcher/processor vessel assigned to the opt-out fishery, that is subject to a sideboard limit detailed at § 679.82(d) through (h), as applicable, and fail to follow the catch monitoring requirements detailed at § 679.84(c) through (e) from July 1 until July 31, if that vessel is harvesting fish in the West Yakutat District, Central GOA, or Western GOA management areas.

(iv) Operate a catcher/processor vessel assigned to the opt-out fishery, that is subject to a sideboard limit detailed at § 679.82(d) through (h), as applicable, and fail to follow the catch monitoring requirements detailed at § 679.84(d) from July 1 until July 31, if that vessel is harvesting fish in the West Yakutat District, Central GOA, or Western GOA management areas.

(3) *VMS*. (i) Operate a vessel that is assigned to a rockfish cooperative and fail to use functioning VMS equipment as described at § 679.28(f) at all times when operating in a reporting area off Alaska from May 1:

(A) Until November 15; or

(B) Until that rockfish cooperative has submitted a rockfish cooperative termination of fishing declaration that has been approved by NMFS.

(ii) Operate a vessel that is assigned to a rockfish limited access fishery and fail to use functioning VMS equipment as described at § 679.28(f) at all times when operating in a reporting area off Alaska from July 1:

(A) Until November 15; or

(B) Until NMFS closes all directed fishing for all primary rockfish species for that rockfish limited access fishery for that sector.

(iii) Operate a vessel that is subject to a sideboard limit detailed at § 679.82(d) through (h), as applicable, and fail to use functioning VMS equipment as described at § 679.28(f) at all times when operating in a reporting area off Alaska from July 1 until July 31.

(iv) Operate a vessel assigned to the rockfish entry level fishery for trawl gear and fail to use functioning VMS equipment as described at § 679.28(f) at

## Fishery Conservation and Management

## § 679.7

all times when operating in a reporting area off Alaska from July 1:

(A) Until November 15; or

(B) Until NMFS closes all directed fishing for all primary rockfish species for the rockfish entry level fishery for trawl gear.

(4) *Catcher/processor vessels participating in the opt-out fishery.* Operate a vessel that is assigned to the opt-out fishery to directed fish for northern rockfish, Pacific ocean perch, or pelagic shelf rockfish in the Central GOA.

(5) *Shoreside and stationary floating processors eligible for the Rockfish Program—(i) Catch weighing.* Process any groundfish delivered by a vessel assigned to a Rockfish Program fishery, or subject to a sideboard limit not weighed on a scale approved by the State of Alaska. The scale must meet the requirements specified in § 679.28(c).

(ii) *Catch monitoring and control plan (CMCP).* Take deliveries of, or process, groundfish caught by a vessel in a rockfish cooperative or the rockfish limited access fishery as detailed under this subpart without following an approved CMCP as described at § 679.28(g). A copy of the CMCP must be maintained at the facility and made available to authorized officers or NMFS-authorized personnel upon request.

(iii) *Delivery location limitations.* Receive or process outside of the geographic boundaries of the community that is designated on the permit issued by NMFS to the eligible rockfish processor any groundfish caught by a vessel while that vessel is harvesting groundfish under a CQ permit or in a rockfish limited access fishery.

(6) *Catcher vessels participating in the Rockfish Program.* Deliver groundfish harvested by a catcher vessel fishing under a CQ permit or in a rockfish limited access fishery to a shoreside or stationary floating processor that is not operating under an approved CMCP pursuant to § 679.28(g).

(7) *Rockfish cooperatives.* (i) Exceed the CQ permit amount assigned to that rockfish cooperative for any Rockfish Program species.

(ii) Exceed any sideboard limit assigned to a rockfish cooperative in the catcher/processor sector.

(iii) Operate a vessel assigned to a rockfish cooperative to fish under a CQ

permit unless the rockfish cooperative has notified NMFS that the vessel is fishing under a CQ permit as described under § 679.5(r)(10).

(iv) Operate a vessel fishing under the authority of a CQ permit in the catcher vessel sector and to have any Pacific ocean perch, pelagic shelf rockfish, northern rockfish, sablefish, thornyhead rockfish, aboard the vessel unless those fish were harvested under the authority of a CQ permit.

(v) Operate a vessel fishing under the authority of a CQ permit in the catcher vessel sector and to have any Pacific cod aboard the vessel unless those fish were harvested under the authority of a CQ permit.

(8) *Use caps.* Exceed the use caps that apply under § 679.82(a).

(o) *Amendment 80 Program—(1) Amendment 80 vessels.* (i) Use any vessel other than an Amendment 80 vessel to catch any amount of Amendment 80 species, crab PSC, or halibut PSC assigned to the Amendment 80 sector.

(ii) Use an Amendment 80 vessel to catch any amount of Amendment 80 species, crab PSC, or halibut PSC assigned to the BSAI trawl limited access sector.

(2) *Amendment 80 LLP license.* (i) Designate any vessel other than an Amendment 80 vessel on an Amendment 80 LLP license;

(ii) Fail to designate an Amendment 80 vessel on an Amendment 80 LLP license that is endorsed for groundfish in the Bering Sea subarea or Aleutian Islands subarea with a catcher/processor designation at all times during a calendar year unless that Amendment 80 vessel has suffered an actual total loss, constructive total loss, or is permanently ineligible to receive a fishery endorsement under 46 U.S.C. 12108.

(3) *Amendment 80 QS permit.* (i) Hold an Amendment 80 QS permit assigned to an Amendment 80 vessel if that person does not hold an Amendment 80 LLP license that designates that Amendment 80 vessel.

(ii) Hold an Amendment 80 QS permit that is assigned to an Amendment 80 vessel under § 679.4(o)(1) if that person is not designated as the owner of that Amendment 80 vessel by an abstract of title or USCG documentation.

## § 679.8

## 50 CFR Ch. VI (10–1–08 Edition)

(iii) Hold an Amendment 80 QS permit assigned to an Amendment 80 vessel if that Amendment 80 vessel has suffered an actual total loss, constructive total loss, or is permanently ineligible to receive a fishery endorsement under 46 U.S.C. 12108 after October 15 in the calendar year following the date of that actual total loss, constructive total loss, or permanent ineligibility to receive a fishery endorsement under 46 U.S.C. 12108.

(4) *Amendment 80 cooperatives.* (i) Use an Amendment 80 vessel, Amendment 80 LLP license, or Amendment 80 QS permit not assigned to an Amendment 80 cooperative for a calendar year to catch any Amendment 80 species, crab PSC, or halibut PSC assigned to that Amendment 80 cooperative during that calendar year;

(ii) Use an Amendment 80 vessel assigned to an Amendment 80 cooperative for a calendar year to receive or process catch from any Amendment 80 vessel not assigned to that Amendment 80 cooperative for that calendar year.

(iii) Catch, process, or receive Amendment 80 species assigned to an Amendment 80 cooperative in the BSAI or adjacent waters open by the State of Alaska for which it adopts a Federal fishing season without a copy of a valid Amendment 80 CQ permit onboard unless that Amendment 80 vessel is using dredge gear while directed fishing for scallops.

(iv) Retain an amount of groundfish during a fishing year that is less than the amount of groundfish required to be retained by an Amendment 80 cooperative under the GRS described at § 679.27(j).

(v) For an Amendment 80 cooperative to catch any Amendment 80 species, crab PSC, or halibut PSC in excess of the CQ permit amounts assigned to that Amendment 80 cooperative.

(5) *Amendment 80 limited access fishery.* (i) Use an Amendment 80 vessel, Amendment 80 LLP license, or Amendment 80 QS permit not assigned to the Amendment 80 limited access fishery for a calendar year to catch any Amendment 80 species, crab PSC, or halibut PSC assigned to the Amendment 80 limited access sector during that calendar year;

(ii) Use an Amendment 80 vessel assigned to the Amendment 80 limited access fishery for a calendar year to receive or process catch from any Amendment 80 vessel not assigned to the Amendment 80 limited access fishery for that calendar year;

(iii) Catch, process, or receive Amendment 80 species assigned to the Amendment 80 limited access fishery in the BSAI or adjacent waters open by the State of Alaska for which it adopts a Federal fishing season without a copy of a valid Amendment 80 limited access fishery permit onboard unless that Amendment 80 vessel is using dredge gear while directed fishing for scallops.

(6) *Catch monitoring.* (i) Operate an Amendment 80 vessel using any gear but dredge gear while directed fishing for scallops or a catcher/processor not listed in § 679.4(1)(2)(i) and using trawl gear, to catch, process, or receive fish in the BSAI or adjacent waters opened by the State of Alaska for which it adopts a Federal fishing season and fail to follow the catch monitoring requirements detailed at § 679.93(a), (b), and (c).

(ii) Operate an Amendment 80 vessel using any gear but dredge gear while directed fishing for scallops that is subject to a sideboard limit detailed at § 679.92(b) and (c), as applicable, in the GOA or adjacent waters open by the State of Alaska for which it adopts a Federal fishing season, and fail to follow the catch monitoring requirements detailed at § 679.93(a), (b), and (d).

(7) *Use caps.* Exceed the use caps that apply under § 679.92(a).

(8) *Economic data report (EDR):* Fail to submit a timely and complete EDR as described under § 679.94.

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 679.7, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and on GPO Access.

### § 679.8 Facilitation of enforcement.

See § 600.730 of this chapter.

### § 679.9 Penalties.

See § 600.735 of this chapter.

### Subpart B—Management Measures

#### § 679.20 General limitations.

This section applies to vessels engaged in directed fishing for groundfish in the GOA or the BSAI.

(a) *Harvest limits*—(1) *OY*. The OY for BSAI and GOA target species and the “other species” category is a range that can be harvested consistently with this part, plus the amounts of “nonspecified species” taken incidentally to the harvest of target species and the “other species” category. The species categories are defined in Table 1 of the specifications as provided in paragraph (c) of this section.

(i) *BSAI*. The OY for groundfish in the BSAI regulated by this section and by part 600 of this chapter is 1.4 to 2.0 million mt.

(ii) *GOA*. The OY for groundfish in the GOA regulated by this section and by part 600 of this chapter is 116,000 to 800,000 mt.

(2) *TAC*. NMFS, after consultation with the Council, will specify and apportion the annual TAC and reserves for each calendar year among the GOA and BSAI target species and the “other species” categories. TACs in the target species category may be split or combined for purposes of establishing new TACs with apportionments thereof under paragraph (c) of this section. The sum of the TACs so specified must be within the OY range specified in paragraph (a)(1) of this section.

(3) *Annual TAC determination*. The annual determinations of TAC for each target species and the “other species” category, and the reapportionment of reserves may be adjusted, based upon a review of the following:

(i) *Biological condition of groundfish stocks*. Resource assessment documents prepared annually for the Council that provide information on historical catch trend; updated estimates of the MSY of the groundfish complex and its component species groups; assessments of the stock condition of each target species and the “other species” category; assessments of the multispecies and ecosystem impacts of harvesting the groundfish complex at current levels, given the assessed condition of stocks, including consideration of rebuilding

depressed stocks; and alternative harvesting strategies and related effects on the component species group.

(ii) *Socioeconomic considerations*. Socioeconomic considerations that are consistent with the goals of the fishery management plans for the groundfish fisheries of the BSAI and the GOA, including the need to promote efficiency in the utilization of fishery resources, including minimizing costs; the need to manage for the optimum marketable size of a species; the impact of groundfish harvests on prohibited species and the domestic target fisheries that utilize these species; the desire to enhance depleted stocks; the seasonal access to the groundfish fishery by domestic fishing vessels; the commercial importance of a fishery to local communities; the importance of a fishery to subsistence users; and the need to promote utilization of certain species.

(4) *Sablefish TAC*—(i) *Eastern GOA regulatory area*. Vessels in the Eastern GOA regulatory area of the GOA using trawl gear will be allocated 5 percent of the sablefish TAC for bycatch in other trawl fisheries.

(ii) *Central and western GOA regulatory areas*—(A) *Hook-and-line gear*. Vessels in the Central and western GOA regulatory areas using hook-and-line gear will be allocated 80 percent of the sablefish TAC in each of the Central and Western GOA regulatory areas.

(B) *Trawl gear*. Vessels using trawl gear will be allocated 20 percent of the sablefish TAC in these areas.

(iii) *Bering Sea subarea*—(A) *Hook-and-line or pot gear*. Vessels in the Bering Sea subarea using hook-and-line or pot gear will be allocated 50 percent of each TAC for sablefish.

(B) *Trawl gear*. Vessels in the Bering Sea subarea using trawl gear will be allocated 50 percent of each TAC for sablefish.

(iv) *Aleutian Islands subarea*—(A) *Hook-and-line or pot gear*. Vessels in the Aleutian Islands subarea using hook-and-line or pot gear will be allocated 75 percent of each TAC for sablefish.

(B) *Trawl gear*. Vessels in the Aleutian Islands subarea using trawl gear will be allocated 25 percent of each TAC for sablefish.

(5) *Pollock TAC*—(i) *Bering Sea Subarea*—(A) *AFA allocations*. The pollock TAC apportioned to the Bering Sea Subarea, after subtraction of the 10 percent CDQ reserve under § 679.31(a), will be allocated as follows:

(1) *Incidental catch allowance*. The Regional Administrator will establish an incidental catch allowance to account for projected incidental catch of pollock by vessels engaged in directed fishing for groundfish other than pollock and by vessels harvesting non-pollock CDQ. If during a fishing year, the Regional Administrator determines that the incidental catch allowance has been set too high or too low, he/she may issue inseason notification in the FEDERAL REGISTER that reallocates incidental catch allowance to the directed fishing allowance, or vice versa, according to the proportions established under paragraph (a)(5)(i)(A) of this section.

(2) *Directed fishing allowance*. The remaining pollock TAC apportioned to the Bering Sea subarea is established as a directed fishing allowance.

(3) *Inshore sector allocation*. Fifty percent of the directed fishing allowance will be allocated to AFA catcher vessels harvesting pollock for processing by AFA inshore processors. The inshore allocation will be further divided into separate allocations for cooperative and open access fishing.

(i) *Inshore cooperatives*. The inshore cooperative allocation will be equal to the aggregate annual allocations of all AFA inshore catcher vessel cooperatives that receive pollock allocations under § 679.62(e).

(ii) *Inshore open access*. The inshore open access allocation will equal that portion of the inshore sector allocation that is not allocated to inshore cooperatives.

(4) *Catcher/processor sector allocation*. Forty percent of the directed fishing allowance will be allocated to AFA catcher/processors and AFA catcher vessels delivering to catcher processors.

(i) *Catcher/processor and catcher vessel cooperatives*. If by December 1 of the year prior to the year when fishing under the cooperative agreement will begin, NMFS receives filing of cooperative contracts and/or an inter-coopera-

tive agreement entered into by listed AFA catcher/processors and all AFA catcher vessels with catcher/processor sector endorsements, and the Regional Administrator determines that such contracts provide for the distribution of harvest between catcher/processors and catcher vessels in a manner agreed to by all members of the catcher/processor sector cooperative(s), then NMFS will not subdivide the catcher/processor sector allocation between catcher vessels and catcher/processors.

(ii) *Catcher vessel allocation*. If such contract is not filed with NMFS by December 1 of the preceding year, then NMFS will allocate 91.5 percent of the catcher/processor sector allocation to AFA catcher/processors engaged in directed fishing for pollock and 8.5 percent of the catcher/processor sector allocation to AFA catcher vessels delivering to catcher/processors.

(iii) *Unlisted AFA catcher processors*. Unlisted AFA catcher/processors will be limited to harvesting not more than 0.5 percent of catcher/processor sector allocation.

(5) *Mothership sector allocation*. Ten percent of the directed fishing allowance will be allocated to AFA catcher vessels harvesting pollock for processing by AFA motherships.

(6) *Excessive harvesting share*. NMFS will establish an excessive harvesting share limit equal to 17.5 percent of the sum of the directed fishing allowances established under paragraphs (a)(5)(i) and (a)(5)(ii) of this section. The excessive harvesting share limit will be published in the annual harvest specifications and is subject to revision on an inseason basis if NMFS reallocates unharvested amounts of the incidental catch allowance to the directed fishing allowance, or vice versa.

(7) *Excessive processing share*. NMFS will establish an excessive processing share limit equal to 30.0 percent of the sum of the directed fishing allowances established under paragraphs (a)(5)(i) and (a)(5)(ii) of this section. The excessive processing share limit will be published in the annual harvest specifications and is subject to revision on an inseason basis if NMFS reallocates unharvested amounts of the incidental catch allowance to the directed fishing allowance, or vice versa.

(B) *BSAI seasonal allowances for AFA and CDQ*—(1) *Inshore, catcher/processor, mothership, and CDQ components.* The portions of the BS subarea pollock directed fishing allowances allocated to each component under sections 206(a) and 206(b) of the AFA and the CDQ allowance in the BSAI will be divided into two seasonal allowances corresponding to the two fishing seasons set out at § 679.23(e)(2), as follows: A season, 40 percent; and B season, 60 percent.

(2) *Inseason adjustments.* Within any fishing year, the Regional Administrator may add or subtract any under harvest or over harvest of a seasonal allowance for a component to the subsequent seasonal allowance for the component through notification published in the FEDERAL REGISTER.

(C) *Steller sea lion conservation area (SCA) harvest limit.* For each component under Sections 206(a) and 206(b) of the AFA and for the open access fishery, no more than 28 percent of the annual pollock directed fishery allowance may be taken from the SCA before April 1. The SCA is defined at § 679.22(a)(7)(vii).

(D)–(E) [Reserved]

(F) *Steller sea lion conservation area harvest limit* (applicable through December 31, 2002).

(1) For each component under Sections 206(a) and 206(b) of the American Fisheries Act and for the open access fishery, no more than 28 percent of the annual pollock directed fishery allowance may be taken from the Steller sea lion conservation area (SCA) before April 1. The SCA is defined at § 679.22(a)(11)(vii).

(2) After April 1, the unharvested amount available in the SCA before April 1 is available for directed fishing either within or outside the SCA during the remainder of the A season.

(ii) *Bogoslof District.* If the Bogoslof District is open to directed fishing for pollock by regulation, then the pollock TAC for this district will be allocated according to the same procedure established for the Bering Sea subarea at paragraph (a)(5)(i) of this section. If the Bogoslof District is closed to directed fishing for pollock by regulation, then the entire TAC for this district will be allocated as an incidental catch allowance.

(iii) *AI.* (A) If a directed fishery for pollock in the AI is not specified under paragraph (c) of this section, then the entire TAC for this subarea will be allocated as an incidental catch allowance.

(B) If the AI is open to directed fishing for pollock under paragraph (c) of this section, then the pollock TAC for this subarea will be specified, allocated, seasonally apportioned, and reallocated as follows:

(1) *AI annual TAC limitations.* When the AI pollock ABC is less than 19,000 mt, the annual TAC will be no greater than the ABC. When the AI pollock ABC equals or exceeds 19,000 mt, the annual TAC will be equal to 19,000 mt.

(2) *Allocations*—(i) *CDQ Directed fishing allowance.* 10 percent of the annual TAC will be allocated to the CDQ pollock reserve established under § 679.31(a)(2).

(ii) *Incidental catch allowance.* The Regional Administrator will determine the amount of the pollock incidental catch necessary to support an incidental catch allowance in the AI during the fishing year for each season. This amount of pollock will be deducted from the annual TAC. If during a fishing year, the Regional Administrator determines that the incidental catch allowance is excessive or inadequate, the Regional Administrator may reallocate the excess of the incidental catch allowance to the directed pollock fishery, or may reallocate pollock from the directed pollock fishery to the incidental catch allowance as necessary to support incidental catch of pollock in AI groundfish fisheries, by publication in the FEDERAL REGISTER.

(iii) *Directed Pollock Fishery.* The amount of the TAC remaining after subtraction of the CDQ directed fishing allowance and the incidental catch allowance will be allocated to the Aleut Corporation as a directed pollock fishery allocation.

(3) *Seasonal apportionment.* The seasonal harvest of pollock in the AI directed pollock fishery shall be:

(i) *A season.* No greater than the lesser of the annual initial TAC plus any A season CDQ pollock directed fishery allowance or 40 percent of the AI pollock ABC. The total A season apportionment, including the AI directed pollock

fishery allocation, the CDQ pollock directed fishery seasonal allowance, and the incidental catch amount, shall not exceed 40 percent of the ABC.

(ii) *B season.* The B season apportionment of the AI directed pollock fishery shall equal the annual initial TAC minus the A season directed pollock fishery apportionment under paragraph (a)(5)(iii)(B)(3)(i) of this section and minus the incidental catch amount under paragraph (a)(5)(iii)(B)(2)(ii) of this section.

(iii) *Inseason adjustments for the directed pollock fishery.* During any fishing year, the Regional Administrator may add any under harvest of the A season directed pollock fishery apportionment to the B season directed pollock fishery apportionment by inseason notification published in the FEDERAL REGISTER if the Regional Administrator determines that the harvest capacity in the B season is sufficient to harvest the adjusted B season apportionment.

(iv) *Inseason adjustments for the incidental catch allowance.* During any fishing year, the Regional Administrator may add any under harvest of the A season incidental catch allowance apportionment to the B season incidental catch allowance apportionment by publication in the FEDERAL REGISTER if the Regional Administrator determines that the additional B season incidental catch allowance is necessary to support other groundfish fisheries.

(4) *Reallocation of the annual AI directed pollock fishery and AI CDQ allocations.* As soon as practicable, if the Regional Administrator determines that vessels participating in either the AI directed pollock fishery or the AI CDQ directed pollock fishery likely will not harvest the entire AI directed pollock fishery or CDQ pollock directed fishing allowance, the Regional Administrator may reallocate some or all of the projected unused directed pollock fishery allocation to the Bering Sea subarea directed pollock fishery or AI CDQ pollock directed fishing allowance to the Bering Sea subarea CDQ pollock directed fishing allowance by inseason notification published in the FEDERAL REGISTER.

(5) *Allocations to small vessels.* The annual allocation for vessels 60 feet (18.3

m) LOA or less participating in the AI directed pollock fishery will be:

(i) No more than 25 percent of the AI directed pollock fishery allocation through 2008;

(ii) No more than 50 percent of the AI directed pollock fishery allocation from 2009 through 2012; and

(iii) 50 percent of the AI directed pollock fishery allocation in 2013 and beyond.

(iv) *GOA—(A) Apportionment by area.* The TAC for pollock in the combined GOA Western and Central Regulatory Areas will be apportioned among statistical areas 610, 620, and 630 in proportion to the distribution of the pollock biomass as determined by the most recent NMFS surveys.

(B) *GOA Western and Central Regulatory Areas seasonal apportionments.* Each apportionment established under paragraph (a)(5)(iv)(A) of this section will be divided into four seasonal apportionments corresponding to the four fishing seasons specified in § 679.23(d)(2) as follows: A Season, 25 percent; B Season, 25 percent; C Season, 25 percent; and D Season, 25 percent. Within any fishing year, underharvest or overharvest of a seasonal apportionment may be added to or subtracted from remaining seasonal apportionments in a manner to be determined by the Regional Administrator, provided that any revised seasonal apportionment does not exceed 20 percent of the seasonal TAC apportionment for the statistical area. The reapportionment of underharvest will be applied to the subsequent season within the same statistical area up to the 20 percent limit specified in this paragraph. Any underharvest remaining beyond the 20 percent limit may be further apportioned to the subsequent season in the other statistical areas, in proportion to estimated biomass and in an amount no more than 20 percent of the seasonal TAC apportionment for the statistical area.

(C) *GOA seasonal apportionments* (applicable through December 31, 2002). Each apportionment established under paragraph (a)(5)(ii)(A) of this section will be divided into four seasonal apportionments corresponding to the four fishing seasons set out at § 679.23(d)(3) of this part as follows: A Season, 25

## Fishery Conservation and Management

§ 679.20

percent; B Season, 25 percent; C Season, 25 percent; D Season, 25 percent. Within any fishing year, under harvest or over harvest of a seasonal apportionment may be added to or subtracted from remaining seasonal apportionments in a manner to be determined by the Regional Administrator, provided that any revised seasonal apportionment does not exceed 30 percent of the annual TAC apportionment for the combined GOA Western and Central Regulatory Areas.

(6) *GOA inshore/offshore allocations*—(i) *GOA pollock*. The apportionment of pollock in all GOA regulatory areas for each seasonal allowance described in paragraph (a)(5)(iv) of this section will be allocated entirely to vessels harvesting pollock for processing by the inshore component in the GOA after subtraction of an amount that is projected by the Regional Administrator to be caught by, or delivered to, the offshore component in the GOA incidental to directed fishing for other groundfish species.

(ii) *GOA Pacific cod*. The apportionment of Pacific cod in all GOA regulatory areas will be allocated 90 percent to vessels harvesting Pacific cod for processing by the inshore component in the GOA and 10 percent to vessels harvesting Pacific cod for processing by the offshore component in the GOA.

(7) *Pacific cod TAC, BSAI*—(i) *CDQ reserve and seasonal allowances*. (A) A total of 10.7 percent of the annual Pacific cod TAC will be allocated to the CDQ Program in the annual harvest specifications required under paragraph (c) of this section. The Pacific cod CDQ allocation will be deducted from the annual Pacific cod TAC before allocations to the non-CDQ sectors are made under paragraph (a)(7)(ii) of this section.

(B) The BSAI Pacific cod CDQ gear allowances by season, as those seasons are specified under § 679.23(e)(5), are as follows:

| Gear Type                                                     | A season              | B season              | C season              |
|---------------------------------------------------------------|-----------------------|-----------------------|-----------------------|
| (1) Trawl                                                     | 60%                   | 20%                   | 20%                   |
| (i) Trawl CV                                                  | 70%                   | 10%                   | 20%                   |
| (ii) Trawl CP                                                 | 50%                   | 30%                   | 20%                   |
| (2) Hook-and-line CP and hook-and-line CV ≥60 ft (18.3 m) LOA | 60%                   | 40%                   | no C season           |
| (3) Jig                                                       | 40%                   | 20%                   | 40%                   |
| (4) All other non-trawl gear                                  | no seasonal allowance | no seasonal allowance | no seasonal allowance |

(ii) *Non-CDQ allocations*—(A) *Sector allocations*. The remainder of the BSAI Pacific cod TAC after subtraction of the CDQ reserve for Pacific cod will be allocated to non-CDQ sectors as follows:

| Sector                                       | % Allocation |
|----------------------------------------------|--------------|
| (1) Jig vessels                              | 1.4          |
| (2) Hook-and-line/pot CV <60 ft (18.3 m) LOA | 2            |
| (3) Hook-and-line CV ≥60 ft (18.3 m) LOA     | 0.2          |
| (4) Hook-and-line CP                         | 48.7         |
| (5) Pot CV ≥60 ft (18.3 m) LOA               | 8.4          |

| Sector                  | % Allocation |
|-------------------------|--------------|
| (6) Pot CP              | 1.5          |
| (7) AFA trawl CP        | 2.3          |
| (8) Amendment 80 sector | 13.4         |
| (9) Trawl CV            | 22.1         |

(B) *Incidental catch allowance*. During the annual harvest specifications process set forth at paragraph (c) of this section, the Regional Administrator will specify an amount of Pacific cod that NMFS estimates will be taken as incidental catch in directed fisheries for groundfish other than Pacific cod

by the hook-and-line and pot gear sectors. This amount will be the incidental catch allowance and will be deducted from the aggregate portion of Pacific cod TAC annually allocated to the hook-and-line and pot gear sectors before the allocations under paragraph (a)(7)(ii)(A) of this section are made to these sectors.

(iii) *Reallocation among non-CDQ sectors.* If, during a fishing year, the Regional Administrator determines that a non-CDQ sector will be unable to harvest the entire amount of Pacific cod allocated to that sector under paragraph (a)(7)(ii)(A) of this section, the Regional Administrator will reallocate the projected unused amount of Pacific cod to other sectors through notification in the FEDERAL REGISTER. Any reallocation decision by the Regional Administrator will take into account the capability of a sector to harvest the reallocated amount of Pacific cod, and the following reallocation hierarchy:

(A) *Catcher vessel sectors.* The Regional Administrator will reallocate projected unharvested amounts of Pacific cod TAC from a catcher vessel sector as follows: first to the jig sector, or to the less than 60 ft (18.3 m) LOA hook-and-line or pot catcher vessel sector, or to both of these sectors; second, to the greater than or equal to 60 ft (18.3 m) LOA hook-and-line or to the greater than or equal to 60 ft (18.3 m) LOA pot catcher vessel sectors; and third to the trawl catcher vessel sector. If the Regional Administrator determines that a projected unharvested amount from the jig sector allocation, the less than 60 ft (18.3 m) LOA hook-and-line or pot catcher vessel sector allocation, or the greater than or equal to 60 ft (18.3 m) LOA hook-and-line catcher vessel sector allocation is unlikely to be harvested through this hierarchy, the Regional Administrator will reallocate that amount to the hook-and-line catcher/processor sector. If the Regional Administrator determines that a projected unharvested

amount from a greater than or equal to 60 ft (18.3 m) LOA pot catcher vessel sector allocation is unlikely to be harvested through this hierarchy, the Regional Administrator will reallocate that amount to the pot catcher/processor sector in accordance with the hierarchy set forth in paragraph (a)(7)(iii)(C) of this section. If the Regional Administrator determines that a projected unharvested amount from a trawl catcher vessel sector allocation is unlikely to be harvested through this hierarchy, the Regional Administrator will reallocate that amount to the other trawl sectors in accordance with the hierarchy set forth in paragraph (a)(7)(iii)(B) of this section.

(B) *Trawl gear sectors.* The Regional Administrator will reallocate any projected unharvested amounts of Pacific cod TAC from the trawl catcher vessel or AFA trawl catcher/processor sectors to other trawl sectors before unharvested amounts are reallocated and apportioned to specified gear sectors as follows:

- (1) 83.1 percent to the hook-and-line catcher/processor sector,
- (2) 2.6 percent to the pot catcher/processor sector, and
- (3) 14.3 percent to the greater than or equal to 60 ft (18.3 m) LOA pot catcher vessel sector.

(C) *Pot gear sectors.* The Regional Administrator will reallocate any projected unharvested amounts of Pacific cod TAC from the pot catcher/processor sector to the greater than or equal to 60 ft (18.3 m) LOA pot catcher vessel sector, and from the greater than or equal to 60 ft (18.3 m) LOA pot catcher vessel sector to the pot catcher/processor sector before reallocating it to the hook-and-line catcher/processor sector.

(iv) *Non-CDQ seasonal allowances—(A) Seasonal allowances by sector.* The BSAI Pacific cod sector allowances are apportioned by season, as those seasons are specified at § 679.23(e)(5), as follows:

| Sector       | Seasonal Allowances |          |          |
|--------------|---------------------|----------|----------|
|              | A season            | B season | C season |
| (1) Trawl    |                     |          |          |
| (i) Trawl CV | 74 %                | 11 %     | 15 %     |

## Fishery Conservation and Management

| Sector                                                                                               | Seasonal Allowances   |                       |                       |
|------------------------------------------------------------------------------------------------------|-----------------------|-----------------------|-----------------------|
|                                                                                                      | A season              | B season              | C season              |
| (ii) Trawl CP                                                                                        | 75 %                  | 25 %                  | 0 %                   |
| (2) Hook-and-line CP, hook-and-line CV ≥60 ft (18.3 m) LOA, and pot gear vessels ≥60 ft (18.3 m) LOA | 51 %                  | 49 %                  | no C season           |
| (3) Jig vessels                                                                                      | 60 %                  | 20 %                  | 20 %                  |
| (4) All other nontrawl vessels                                                                       | no seasonal allowance | no seasonal allowance | no seasonal allowance |

(B) *Unused seasonal allowances.* Any unused portion of a seasonal allowance of Pacific cod from any sector except the jig sector will be reallocated to that sector's next season during the current fishing year unless the Regional Administrator makes a determination under paragraph (a)(7)(iii) of this section that the sector will be unable to harvest its allocation.

(C) *Jig sector.* The Regional Administrator will reallocate any projected unused portion of a seasonal allowance of Pacific cod for the jig sector under this section to the less than 60 ft (18.3 m) LOA hook-and-line or pot catcher vessel sector. The Regional Administrator will reallocate the projected unused portion of the jig sector's C season allowance on or about September 1 of each year.

(8) *BSAI Atka mackerel*—(i) *Jig gear.* Vessels using jig gear will be allocated up to 2 percent of the TAC of Atka mackerel specified for the Eastern Aleutian Islands District and Bering Sea subarea, after subtraction of reserves, based on the following criteria:

(A) The amount of Atka mackerel harvested by vessels using jig gear during recent fishing years;

(B) The anticipated harvest of Atka mackerel by vessels using jig gear during the upcoming fishing year; and

(C) The extent to which the jig-gear allocation will support the development of a jig-gear fishery for Atka mackerel while minimizing the amount of Atka mackerel TAC annually allocated to vessels using jig gear that remains unharvested at the end of the fishing year.

(ii) *ITAC allocation to Amendment 80 and BSAI trawl limited access sectors.* The remainder of the Atka mackerel TAC, after subtraction of the jig gear allocation, CDQ reserve, and incidental

catch allowance for the BSAI trawl limited access sector and vessels using non-trawl gear, will be allocated as ITAC to the Amendment 80 and BSAI trawl limited access sectors.

(iii) *Atka mackerel HLA directed fishing*—(A) *Registration.* All vessels using trawl gear to conduct directed fishing for Atka mackerel in the HLA, as defined in §679.2, are required to register with NMFS. To register, the vessel owner or operator must provide information required by §679.4(b)(5)(vi) for an endorsement to the vessel's Federal Fisheries Permit issued under §679.4.

(1) To participate in the A season HLA fishery, registration information must be received by NMFS, Restricted Access Management Program, by 4:30 p.m., A.l.t., of the first working day following January 1.

(2) To participate in the B season HLA fishery,

(i) The vessel must be registered for the A season HLA fishery and must maintain registration for the HLA fishery through the first working day following July 31, or

(ii) The vessel must be registered for the HLA fishery with NMFS, Restricted Access Management Program, by 4:30 p.m., A.l.t., of the first working day following July 31.

(B) *HLA assignment.* For each season, NMFS will manage the HLA directed fishery for the vessels registered to fish in areas 542 or 543 under paragraph (a)(8)(iii)(A) of this section as follows:

(1) *Lottery.* The Regional Administrator or his/her designee will randomly assign each vessel to one of two directed fisheries for each statistical area in which the vessel is registered under paragraph (a)(8)(iii)(A) of this section. Each HLA directed fishery

within a statistical area will be assigned an equal number of vessels unless there is an odd number of vessels under paragraph (a)(8)(iii)(A) of this section. In the case of an odd number of vessels, the Regional Administrator or his/her designee will assign one additional vessel to one HLA directed fishery. Vessels registering under paragraph (a)(8)(iii)(A) of this section to fish in both area 542 and area 543 will be randomly assigned to an HLA directed fishery in area 542 and will be placed in the area 543 HLA directed fishery occurring at an alternate time during the season.

(2) *Notification.* The Regional Administrator will provide the results of the lottery under (a)(8)(iii)(B)(1) of this section by notification published in the FEDERAL REGISTER and other means of practicable notification.

(C) *HLA directed fisheries.* 48 hours after a prohibited directed fishing for Atka mackerel in area 541, the Regional Administrator will allow directed fishing within the HLA in areas 542 and 543. The Regional Administrator will provide notification by publication in the FEDERAL REGISTER of the opening and closure dates of the HLA directed fisheries, as determined by paragraph (a)(8)(iii)(E) of this section. Closures specified in Table 6 to this part and in § 679.22(a)(8) will remain in effect.

(D) *HLA harvest limit.* The Regional Administrator will establish the harvest limit for each HLA directed fishery for each area based on the seasonal apportionment at paragraph (a)(8)(ii)(C) of this section and in proportion to the number of vessels in an HLA directed fishery compared to the total number of vessels fishing in the HLA of an area during a season.

(E) *HLA directed fishery closure.* The Regional Administrator will establish the closure date of the Atka mackerel HLA directed fishery for each statistical area based on the estimated fishing capacity of vessels registered to fish in the area and assigned to the HLA directed fishery under paragraph (a)(8)(iii)(B) of this section. Each HLA directed fishery will last no longer than 14 days.

(F) *Groundfish directed fishery prohibition.* Vessels registering under para-

graph (a)(8)(iii)(A) of this section are prohibited from participating in any groundfish directed fishery, other than Atka mackerel, during the opening of the first HLA directed fishery assigned to the vessel in a season, as specified in § 679.7(a)(19).

(iv) *Amendment 80 sector allocation.* The allocation of Atka mackerel ITAC to the Amendment 80 sector is established in Table 33 to this part. The allocation of Atka mackerel ITAC to the Amendment 80 sector will be further divided into seasonal apportionments under § 679.23(e)(3), and separate allocations for each Amendment 80 cooperative and the Amendment 80 limited access fishery as described under § 679.91.

(A) *Use of seasonal apportionments by Amendment 80 cooperatives.* (1) The amount of Atka mackerel listed on a CQ permit that is assigned for use in the A season may be used in the B season.

(2) The amount of Atka mackerel listed on a CQ permit that is assigned for use in the B season may not be used in the A season.

(B) *Harvest of seasonal apportionments in the Amendment 80 limited access fishery.* (1) Atka mackerel ITAC assigned for harvest by the Amendment 80 limited access fishery in the A season may be harvested in the B season.

(2) Atka mackerel ITAC assigned for harvest by the Amendment 80 limited access fishery in the B season may not be harvested in the A season.

(v) *BSAI trawl limited access sector allocation—(A) BSAI trawl limited access sector directed fishing allowance.* The amount of Atka mackerel ITAC assigned as a directed fishing allowance to the BSAI trawl limited access sector is established in Table 33 to this part.

(B) *BSAI trawl limited access sector incidental catch allowance and ITAC rollover.* If, during a fishing year, the Regional Administrator determines that a portion of the Atka mackerel incidental catch allowance or ITAC assigned to the BSAI trawl limited access sector is unlikely to be harvested, the Regional Administrator may issue inseason notification in the FEDERAL REGISTER that reallocates that remaining amount of Atka mackerel directed

fishing allowance to Amendment 80 cooperatives, according to the procedures established under § 679.91(f).

(9) *BSAI shortraker rockfish and rougheye rockfish.* After subtraction of reserves, the TAC of shortraker rockfish and rougheye rockfish specified for the Aleutian Islands subarea will be allocated 30 percent to vessels using non-trawl gear and 70 percent to vessels using trawl gear.

(10) *Amendment 80 species except Pacific cod and Atka mackerel—(i) ITAC allocation to the Amendment 80 and BSAI trawl limited access sectors.* The remainder of the TACs for each Amendment 80 species other than Atka mackerel and Pacific cod, after subtraction of the CDQ reserve and incidental catch allowance for the BSAI trawl limited access sector and vessels using non-trawl gear, will be allocated as ITAC to the Amendment 80 and BSAI trawl limited access sectors.

(ii) *Amendment 80 sector ITAC.* The allocation of ITAC for each Amendment 80 species other than Atka mackerel and Pacific cod to the Amendment 80 sector is established in Tables 33 and 34 to this part. The allocation of these species to the Amendment 80 sector will be further divided into separate allocations for each Amendment 80 cooperative and the Amendment 80 limited access fishery as described under § 679.91.

(iii) *BSAI trawl limited access sector allocation—(A) BSAI trawl limited access sector directed fishing allowance.* The amount of ITAC for each Amendment 80 species other than Atka mackerel and Pacific cod assigned as a directed fishing allowance to the BSAI trawl limited access sector is established in Tables 33 and 34 to this part.

(B) *BSAI trawl limited access sector ITAC rollover.* If, during a fishing year, the Regional Administrator determines that a portion of the incidental catch allowance or ITAC assigned to the BSAI trawl limited access sector for each Amendment 80 species other than Atka mackerel and Pacific cod is unlikely to be harvested, the Regional Administrator may issue inseason notification in the FEDERAL REGISTER that reallocates that remaining amount to Amendment 80 cooperatives, according

to the procedures established under § 679.91(f).

(11) *All other groundfish TAC.* The initial TAC for each target species and the “other species” category will be 85 percent of the TAC as provided under paragraph (b) of this section.

(12) *GOA Pacific cod TAC—(i) Seasonal apportionment.* The TAC established for Pacific cod in the Western and Central Regulatory Areas of the GOA will be divided 60 percent to the A season and 40 percent to the B season, as specified in § 679.23(d)(3).

(ii) The Regional Administrator may apply any underage or overage of Pacific cod harvest from one season to the subsequent season. In adding or subtracting any underages or overages to the subsequent season, the Regional Administrator shall consider bycatch needed to optimize catch by gear groups and sectors.

(iii) Pacific cod catch between the A and B seasons. Pacific cod harvested between the closure of the A season and opening of the B season shall be deducted from the B season TAC apportionment.

(b) *Reserves—(1) BSAI—*

(i) *Nonspecified reserve.* Fifteen percent of the BSAI TAC for each target species and the “other species” category, except pollock, the hook-and-line and pot gear allocation for sablefish, and the Amendment 80 species, which includes Pacific cod, is automatically placed in the nonspecified reserve before allocation to any sector. The remaining 85 percent of each TAC is apportioned to the initial TAC for each target species that contributed to the nonspecified reserve and the “other species” category. The nonspecified reserve is not designated by species or species group. Any amount of the nonspecified reserve may be apportioned to target species that contributed to the nonspecified reserve or the “other species” category, provided that such apportionments are consistent with paragraph (a)(3) of this section and do not result in overfishing of a target species or the “other species” category.

(ii) *CDQ reserves—(A) Pollock CDQ reserves—(1) Bering Sea.* In the annual harvest specifications required by paragraph (c) of this section, 10 percent of the Bering Sea subarea pollock TAC

will be allocated to a CDQ reserve as a directed fishing allowance.

(2) *Aleutian Islands subarea and Bogoslof District.* In the annual harvest specifications required by paragraph (c) of this section, 10 percent of the Aleutian Islands subarea and Bogoslof District pollock TACs will be allocated to a CDQ reserve as a directed fishing allowance unless the Aleutian Islands subarea or Bogoslof District is closed to directed fishing for pollock by regulation. If the Aleutian Islands subarea and/or Bogoslof District is closed to directed fishing for pollock by regulation, then no pollock CDQ reserve will be established for those areas and incidental harvest of pollock by CDQ groups will accrue against the incidental catch allowance for pollock established under paragraph (a)(5)(i)(A)(I) of this section.

(B) *Fixed gear sablefish CDQ reserves.* Twenty percent of the hook-and-line or pot gear allocation of sablefish established under paragraphs (a)(4)(iii)(A) and (a)(4)(iv)(A) of this section will be allocated to a CDQ reserve for each subarea.

(C) *CDQ reserves for Amendment 80 species.* An amount equal to 10.7 percent of the BSAI TACs for Atka mackerel, Aleutian Islands Pacific ocean perch, yellowfin sole, rock sole, flathead sole, and Pacific cod will be allocated to a CDQ reserve for each of these species by management area, subarea, or district.

(D) *CDQ reserves for other groundfish species.* An amount equal to 10.7 percent of the BSAI TACs for Bering Sea Greenland turbot and arrowtooth flounder, and 7.5 percent of the trawl gear allocation of sablefish in the BS and AI is apportioned from the non-specified reserve established under paragraph (b)(1)(i) of this section to a CDQ reserve for each of these species by management area, subarea, or district.

(E) If the groundfish harvest specifications required by paragraph (c) of this section change a TAC category allocated to a CDQ reserve under paragraphs (b)(1)(ii)(A) through (D) of this section by combining or splitting a species, species group, or management area, then the same percentage of the TAC apportioned to a CDQ reserve in

paragraphs (b)(1)(ii)(A) through (D) of this section will apply to the new TAC categories.

(2) *GOA.* Initial reserves are established for pollock, Pacific cod, flatfish, and “other species,” which are equal to 20 percent of the TACs for these species or species groups.

(i) *Pollock inshore-offshore reapportionment.* Any amounts of the GOA reserve that are reapportioned to pollock as provided by paragraph (b) of this section must be apportioned for processing by the inshore component in the GOA and the offshore component in the GOA in the same proportions specified in paragraph (a)(6)(i) of this section.

(ii) *Pacific Cod inshore-offshore re-apportionment.* Any amounts of the GOA reserve that are reapportioned to Pacific cod as provided by paragraph (b) of this section must be apportioned for processing by the inshore component in the GOA and the offshore component in the GOA in the same proportion specified in paragraph (a)(6)(ii) of this section.

(3) *Apportionment of reserves.* (i) *Notification.* (A) As soon as practicable after April 1, June 1, and August 1, and on such other dates as NMFS determines appropriate, NMFS will, by notification in the FEDERAL REGISTER, apportion all or part of the BSAI or GOA reserve in accordance with this paragraph (b).

(B) No apportionment, retention, or PSC limit adjustment may take effect until notification has been published in the FEDERAL REGISTER with a statement of the findings upon which the apportionment, retention, or adjustment is based.

(ii) *Apportionment—(A) General.* Except as provided in paragraph (b)(3)(ii)(B) of this section, NMFS will apportion the amount of BSAI or GOA reserve that will be harvested by U.S. vessels during the remainder of the year.

(B) *Exception.* Part or all of the BSAI or GOA reserve may be withheld if an apportionment would adversely affect the conservation of groundfish resources or prohibited species.

(iii) *Public comment—(A) Prior comment.* NMFS will provide all interested persons an opportunity to comment on

the proposed apportionments, retentions, or PSC limit adjustments under this paragraph (b) before such apportionments, retentions, or adjustments are made, unless NMFS finds that there is good cause for not providing a prior comment opportunity, and publishes the reasons therefor in the notification of apportionment, retention, or adjustment.

(B) *Submittal dates.* Comments provided for in this paragraph (b)(3)(iii) must be received by NMFS not later than 5 days before April 1, June 1, and August 1, or other dates that may be specified.

(C) *Subsequent comment.* If NMFS determines for good cause that notification of apportionment, retention or PSC limit adjustment must be issued without providing interested persons a prior opportunity for public comment, comments on the apportionment, retention or adjustment will be received for a period of 15 days after its effective date.

(D) *Response to comments.* NMFS will consider all timely comments in deciding whether to make a proposed apportionment, retention, or PSC limit adjustment or to modify an apportionment, retention, or adjustment that previously has been made, and shall publish responses to those comments in the FEDERAL REGISTER as soon as practicable.

(E) *Data available.* The Regional Administrator will make available to the public during business hours the aggregate data upon which any preliminary TAC or PSC limit figure is based or the data upon which any apportionment or retention of surplus or reserve, or PSC limit adjustment was or is proposed to be based. These data will be available for a sufficient period to facilitate informed comment by interested persons.

(c) *Annual specifications—(1) Proposed specifications—(i) Notification.* As soon as practicable after consultation with the Council, NMFS will publish proposed specifications for the groundfish fisheries in the BSAI and the GOA.

(ii) *Public comment.* NMFS will accept public comment on the proposed specifications established by this section and by § 679.21 for a period specified in the notice of proposed specifications published in the FEDERAL REGISTER.

(iii) *GOA.* The proposed specifications will specify for up to two fishing years the annual TAC for each target species and the “other species” category and apportionments thereof, halibut prohibited species catch amounts, and seasonal allowances of pollock and Pacific cod.

(iv) *BSAI.* The proposed specifications will specify for up to two fishing years the annual TAC for each target species and the “other species” category and apportionments thereof, PSQ reserves and prohibited species catch allowances, seasonal allowances of pollock, Pacific cod, and Atka mackerel TAC (including pollock, Pacific cod, and Atka mackerel CDQ), and CDQ reserve amounts.

(2) *Interim specifications.* (Applicable until April 1, 2005.) Interim harvest specifications will be in effect on January 1 and will remain in effect until superseded by the filing of the final specifications by the Office of the Federal Register. Interim specifications will be established as follows:

(i) *GOA.* One-fourth of each proposed TAC and apportionment thereof (not including the reserves or the first seasonal allowances of pollock or Pacific cod), one-fourth of the proposed halibut prohibited species catch amounts, and the proposed first seasonal allowances of pollock and Pacific cod.

(ii) *BSAI.* Except for pollock, Pacific cod, Atka mackerel, and the hook-and-line and pot gear allocation of sablefish, one quarter of each proposed initial TAC and apportionment thereof, one quarter of each CDQ reserve established by paragraph (b)(1)(iii) of this section, and one quarter of the proposed PSQ reserve and prohibited species catch allowances established by § 679.21.

(A) The interim specifications for pollock, Pacific cod, and Atka mackerel will be equal to the first seasonal allowances for pollock, Pacific cod, and Atka mackerel that are published in the proposed specifications under paragraph (c)(1) of this section.

(B) The interim specifications for CDQ pollock, CDQ Atka mackerel, and CDQ Pacific cod will be equal to the first seasonal allowances that are published in the proposed specifications under paragraph (c)(1) of this section.

(3) *Final specifications*—(i) *Procedure and notification.* NMFS will consider comments received on the proposed specifications and, after consultation with the Council, will publish a notice of final specifications in the FEDERAL REGISTER unless NMFS determines that the final specifications would not be a logical outgrowth of the notice of proposed specifications. In that event, NMFS will either:

(A) Publish a revised notice of proposed specifications in the FEDERAL REGISTER for public comment, and after considering comments received on the revised proposed specifications, publish a notice of final specifications in the FEDERAL REGISTER; or

(B) Publish a notice of final specifications in the FEDERAL REGISTER without an additional opportunity for public comment based on a finding that good cause pursuant to the Administrative Procedure Act justifies waiver of the requirement for a revised notice of proposed specifications and opportunity for public comment thereon.

(ii) *GOA.* The final specifications will specify for up to two fishing years the annual TAC for each target species and the “other species” category and apportionments thereof, halibut prohibited species catch amounts, and seasonal allowances of pollock and Pacific cod.

(iii) *BSAI.* The final specifications will specify for up to two fishing years the annual TAC for each target species and the “other species” category and apportionments thereof, PSQ reserves and prohibited species catch allowances, seasonal allowances of pollock, Pacific cod, and Atka mackerel TAC (including pollock, Pacific cod, and Atka mackerel CDQ), and CDQ reserve amounts.

(4) *AFA and inshore/offshore allocations*—(i) *BSAI pollock.* The annual harvest specifications will specify the allocation of pollock for processing by each AFA industry component in the BSAI, and any seasonal allowances thereof, as authorized under paragraph (a)(5) of this section.

(ii) *GOA pollock and Pacific cod.* The annual harvest specifications will specify the allocation of GOA pollock and GOA Pacific cod for processing by the inshore component in the GOA and

the offshore component in the GOA, and any seasonal allowances thereof, as authorized under paragraphs (a)(5) and (a)(6) of this section.

(5) *BSAI Pacific cod gear allocations.* (Effective April 1, 2005) The proposed and final specifications will specify the allocation of BSAI Pacific cod among gear types as authorized under paragraph (a)(7) of this section.

(6) *BSAI Atka mackerel allocations.* (Effective April 1, 2005) The proposed and final specifications will specify the allocation of BSAI Atka mackerel among gear types and HLA fisheries as authorized under paragraph (a)(8) of this section.

(d) *Fishery closures*—(1) *Directed fishing allowance*—(i) *General.* If the Regional Administrator determines that any allocation or apportionment of a target species or “other species” category specified under paragraph (c) of this section has been or will be reached, the Regional Administrator may establish a directed fishing allowance for that species or species group.

(ii) *Specified fishery amounts*—(A) *Inseason adjustments.* The category allocations or apportionments established under paragraph (c) of this section may be revised by inseason adjustments, as defined at § 679.25, for a given species or species group or pollock allowance, as identified by regulatory area, subarea, or district, and, if applicable, as further identified by gear type.

(B) *Incidental catch.* In establishing a directed fishing allowance, the Regional Administrator shall consider the amount of the allocation or apportionment established under paragraph (c) of this section that will be taken as incidental catch in directed fishing for other species in the same subarea, regulatory area, or district.

(iii) *Directed fishing closure*—(A) *Notification.* If the Regional Administrator establishes a directed fishing allowance for a fishery allocation or apportionment under this paragraph (d), and that allowance has been or will be reached before the end of the fishing season or year, NMFS will publish notification in the FEDERAL REGISTER prohibiting directed fishing in the specified subarea, regulatory area, or district.

## Fishery Conservation and Management

## § 679.20

(B) *Retention of incidental species.* Except as described in § 679.20(e)(3)(iii), if directed fishing for a target species, species group, or the “other species” category is prohibited, a vessel may not retain that incidental species in an amount that exceeds the maximum retainable amount, as calculated under paragraphs (e) and (f) of this section, at any time during a fishing trip.

(iv) *AFA sideboard limitations—*(A) If the Regional Administrator determines that any sideboard harvest limit for a group of AFA vessels established under § 679.64 has been or will be reached, the Regional Administrator may establish a sideboard directed fishing allowance for the species or species group applicable only to the identified group of AFA vessels.

(B) In establishing a directed fishing allowance under paragraph (d)(1)(iv)(A) of this section, the Regional Administrator will consider the amount of the sideboard limit established for a group of AFA vessels under § 679.64 that will be taken as incidental catch by those vessels in directed fishing for other species.

(C) If the Regional Administrator determines that a sideboard amount is insufficient to support a directed fishery for that species then the Regional Administrator may set the sideboard directed fishing allowance at zero for that species or species group.

(v) *Amendment 80 GOA sideboard limits—GOA groundfish.* (A) If the Regional Administrator determines that a GOA sideboard limit for a GOA groundfish species as described under Table 37 to this part is sufficient to support a directed fishing allowance for that species, the Regional Administrator may establish a directed fishing allowance for the species applicable only to Amendment 80 vessels subject to the GOA groundfish sideboard limit.

(B) If the Regional Administrator determines that a GOA groundfish sideboard limit as described under Table 37 to this part is insufficient to support a directed fishing allowance by Amendment 80 vessels for that species, then the Regional Administrator may set the directed fishing allowance to zero for that species for Amendment 80 vessels.

(C) Upon determining that a GOA sideboard limit as described under Table 37 to this part for a species is or will be reached, the Regional Administrator will publish notification in the FEDERAL REGISTER prohibiting directed fishing for that species by the Amendment 80 vessels to which the GOA sideboard limit applies.

(vi) *Amendment 80 GOA sideboard limits—halibut PSC.* (A) If the Regional Administrator determines that a GOA sideboard limit for halibut PSC is sufficient to support a directed fishery for a species or species group, management area, and season specified in Table 38 to this part, then the Regional Administrator may establish a halibut PSC sideboard limit for that species or species group, management area, and season applicable to the Amendment 80 vessels to which the halibut PSC limit applies.

(B) If the Regional Administrator determines that a halibut PSC sideboard limit is insufficient to support a directed fishery for a species or species group, management area, and season as specified in Table 38 to this part then the Regional Administrator may set the halibut PSC sideboard limit for that species or species group to zero for the Amendment 80 vessels to which the halibut PSC limit applies.

(C) Upon determining that a halibut PSC sideboard limit for a species or species group, management area, and season as specified in Table 38 to this part is or will be reached, the Regional Administrator will publish notification in the FEDERAL REGISTER prohibiting directed fishing for a specific species or species group by the Amendment 80 vessels to which the halibut PSC limit applies as follows:

(1) If the halibut PSC sideboard limit is reached for the deep-water species fishery as defined in § 679.21(d)(3)(iii)(B) for a season, then NMFS will close directed fishing in the GOA for all species in the deep-water species fishery except northern rockfish, Pacific ocean perch, and pelagic shelf rockfish in the Central GOA for that season.

(2) If the halibut PSC sideboard limit is reached for the shallow-water species fishery as defined in § 679.21(d)(3)(iii)(A)

for a season, then NMFS will close directed fishing in the GOA for all species in the shallow-water species fishery for that season.

(2) *Groundfish as prohibited species closure.* When the Regional Administrator determines that the TAC of any target species or the “other species” category specified under paragraph (c) of this section, or the share of any TAC assigned to any type of gear, has been or will be achieved prior to the end of a year, NMFS will publish notification in the FEDERAL REGISTER requiring that target species or the “other species” be treated in the same manner as a prohibited species, as described under § 679.21(b), for the remainder of the year.

(3) *Overfishing closure—(i) Notification.* If, in making a determination under paragraph (d)(2) of this section, the Regional Administrator also determines that fishing for other target species or species groups in the area, district or part thereof where the notification applies, may lead to the overfishing of the species or species group for which the allocation or apportionment has been or will be reached, NMFS will publish notification in the FEDERAL REGISTER specifying limitations or prohibitions designed to prevent overfishing of that species or species group.

(ii) *Limitations and prohibitions.* These limitations and prohibitions may prohibit directed fishing for other species or species groups in the area, district, or part thereof where the notification applies, or may limit time, area, or gear types that may be used in directed fishing for the other species or species groups.

(iii) *Factors to be considered.* When making the determinations specified under paragraphs (d)(1), (d)(2), and (d)(3) of this section, the Regional Administrator may consider allowing fishing to continue or resume with certain gear types or in certain areas and times based on findings of:

(A) The risk of biological harm to a groundfish species or species group for which the TAC or PSC limit is or will be reached.

(B) The risk of socioeconomic harm to authorized users of the groundfish for which the TAC or PSC limit will be or has been reached.

(C) The impact that the continued closure might have on the socioeconomic well-being of other domestic fisheries.

(4) *Harvest control for pollock, Atka mackerel, and Pacific cod.* If a biological assessment of stock condition for pollock, Pacific cod, or Atka mackerel within an area projects that the spawning biomass in that area will be equal to or below 20 percent of the projected unfished spawning biomass during a fishing year, the Regional Administrator will prohibit the directed fishery for the relevant species within the area. The Regional Administrator will prohibit the directed fishery under this paragraph by notification published in the FEDERAL REGISTER. The directed fishery will remain closed until a subsequent biological assessment projects that the spawning biomass for the species in the area will exceed 20 percent of the projected unfished spawning biomass during a fishing year.

(e) *Maximum retainable amounts—(1) Proportion of basis species.* The maximum retainable amount of an incidental catch species is calculated as a proportion of the basis species retained on board the vessel using:

(i) The retainable percentages in Table 10 to this part for the GOA species categories (except the Rockfish Program fisheries, which are described in Table 30 to this part for the Rockfish Program fisheries); and

(ii) Table 11 to this part for the BSAI species categories.

(2) *Calculation.* (i) To calculate the maximum retainable amount for a specific incidental catch species, an individual retainable amount must be calculated with respect to each basis species that is retained on board that vessel.

(ii) To obtain these individual retainable amounts, multiply the appropriate retainable percentage for the incidental catch species/basis species combination, set forth in Table 10 to this part for the GOA species categories (except the Rockfish Program fisheries, which are described in Table 30 to this part for the Rockfish Program fisheries), and Table 11 to this part for the BSAI species categories, by the amount of that basis species, in round-weight equivalents.

(iii) The maximum retainable amount for that specific incidental catch species is the sum of the individual retainable amount.

(3) *Application.* (i) For catcher vessels, the maximum retainable amount for vessels fishing during a fishing trip in areas closed to directed fishing is the lowest maximum retainable amount applicable in any area, and this maximum retainable amount must be applied at any time and to all areas for the duration of the fishing trip.

(ii) For catcher/processors fishing in an area closed to directed fishing for a species or species group, the maximum retainable amount for that species or species group applies at any time for the duration of the fishing trip.

(iii) For all vessels not listed in subpart F of this section, the maximum retainable amount for pollock harvested in the BSAI is calculated at the end of each offload and is based on the basis species harvested since the previous offload. For purposes of this paragraph, offload means the removal of any fish or fish product from the vessel that harvested the fish or fish product to any other vessel or to shore.

(f) *Directed fishing calculations and determinations—*(1) *Round-weight equivalents.* Any determination concerning directed fishing, the amount or percentage of any species, species group, or any fish or fish products must be calculated in round-weight equivalents.

(2) *Retainable amounts.* Except as provided in Table 10 to this part, arrowtooth flounder, or any groundfish species for which directed fishing is closed, may not be used to calculate retainable amounts of other groundfish species. Only fish harvested under the CDQ Program may be used to calculate retainable amounts of other CDQ species. Only primary rockfish species harvested under the Rockfish Program may be used to calculate retainable amounts of other species, as provided in Table 30 to this part.

(g) *Allowable retention of pollock roe—*(1) *Percentage of pollock roe.* (i) Pollock roe retained on board a vessel at any time during a fishing trip must not exceed the following percentages of the total round-weight equivalent of pollock, as calculated from the primary

pollock product on board the vessel during the same fishing trip:

(A) 7 percent in the Gulf of Alaska, and

(B) 9 percent in the Bering Sea and Aleutian Islands.

(ii) Determinations of allowable retention of pollock roe will be based on amounts of pollock harvested, received, or processed during a single fishing trip.

(iii) Pollock or pollock products from previous fishing trips that are retained on board a vessel may not be used to determine the allowable retention of pollock roe for that vessel.

(2) *Primary product.* (i) For purposes of this paragraph (g), only one primary pollock product per fish, other than roe, may be used to calculate the round-weight equivalent.

(ii) A primary pollock product that contains roe (such as headed and gutted pollock with roe) may not be used to calculate the round-weight equivalent of pollock.

(iii) The primary pollock product must be distinguished from ancillary pollock products in the DCPL required under § 679.5(a)(9).

(3) *Pollock product recovery rates (PRRs).* Use the product types and standard PRRs for pollock found in Table 3 to this part to calculate round-weight equivalents for pollock for purposes of this paragraph (g).

(4) *Calculation of retainable pollock roe—*(i) *Round-weight equivalent.* (A) To calculate the amount of pollock roe that can be retained on board during a fishing trip, first calculate the round-weight equivalent by dividing the total amount of primary product on board by the appropriate PRR.

(B) To determine the maximum amount of pollock roe that can be retained on board a vessel during the same fishing trip, multiply the round-weight equivalent by 0.07 in the Gulf of Alaska or 0.09 in the Bering Sea and Aleutian Islands.

(C) Pollock roe retained on board from previous fishing trips will not be counted.

(ii) *Two or more products from different fish.* (A) If two or more products, other than roe, are made from different fish, round-weight equivalents are calculated separately for each product.

(B) To determine the maximum amount of pollock roe that can be retained on board a vessel during a fishing trip, add the round-weight equivalents together; then, multiply the sum by 0.07 in the Gulf of Alaska or 0.09 in the Bering Sea and Aleutian Islands.

(iii) *Two or more products from same fish.* If two or more products, other than roe, are made from the same fish, the maximum amount of pollock roe that can be retained during a fishing trip is determined from the primary product.

(5) *Primary pollock product*—(i) *Process prior to transfer.* Any primary pollock product used to calculate retainable amounts of pollock roe must be frozen, canned, or reduced to meal by the vessel retaining the pollock roe prior to any transfer of the product to another vessel.

(ii) *No discard of processed product.* Any pollock product that has been processed may not be discarded at sea unless such discarding is necessary to meet other requirements of this part.

(h) *Standard product types and standard PRRs*—(1) *Calculating round-weight equivalents from standard PRRs.* Round-weight equivalents for groundfish products are calculated using the product codes and standard PRRs specified in Table 3 to this part.

(2) *Adjustments.* The Regional Administrator may adjust standard PRRs and product types specified in Table 3 to this part if he or she determines that existing standard PRRs are inaccurate or if new product types are developed.

(i) Adjustments to any standard PRR listed in Table 3 to this part that are within and including 15 percent of that standard PRR may be made without providing notification and opportunity for prior public comment.

(ii) Adjustments of any standard PRR during a calendar year, when aggregated with all other adjustments made during that year, will not exceed 15 percent of the standard PRR listed in Table 3 to this part at the beginning of that calendar year.

(iii) No new product type will be announced until NMFS publishes the proposed adjustment and/or new product type in the FEDERAL REGISTER and provides the public with at least 30 days opportunity for public comment.

(iv) Any adjustment of a PRR that acts to further restrict the fishery will not be effective until 30 days after the date of publication in the FEDERAL REGISTER.

(v) If NMFS makes any adjustment or announcement without providing a prior notification and opportunity for prior public comment, the Regional Administrator will receive public comments on the adjustment or announcement for a period of 15 days from the date of publication in the FEDERAL REGISTER.

(i) *Forage fish*—(1) *Definition.* See Table 2c to this part.

(2) *Applicability.* The provisions of § 679.20(i) apply to all vessels fishing for groundfish in the BSAI or GOA, and to all vessels processing groundfish harvested in the BSAI or GOA.

(3) *Closure to directed fishing.* Directed fishing for forage fish is prohibited at all times in the BSAI and GOA.

(4) *Limits on sale, barter, trade, and processing.* The sale, barter, trade, or processing of forage fish is prohibited, except as provided in paragraph (i)(5) of this section.

(5) *Allowable fishmeal production.* Retained catch of forage fish not exceeding the maximum retainable bycatch amount may be processed into fishmeal for sale, barter, or trade.

(j) *Full retention of Demersal Shelf Rockfish (DSR) in the Southeast Outside District of the GOA (SEO)*—(1) *Retention and landing requirements.* The operator of a catcher vessel that is required to have a Federal fisheries permit, or that harvests IFQ halibut with hook and line or jig gear, must retain and land all DSR that is caught while fishing for groundfish or IFQ halibut in the SEO.

(2) *Disposal of DSR when closed to directed fishing.* When DSR is closed to directed fishing in the SEO, the operator of a catcher vessel that is required to have a Federal fisheries permit under § 679.4 (b), or the manager of a shoreside processor that is required to have a Federal processor permit under § 679.4(f), must dispose of DSR retained and landed in accordance with paragraph (j)(1) of this section as follows:

(i) A person may sell, barter, or trade a round weight equivalent amount of DSR that is less than or equal to 10 percent of the aggregate round weight

equivalent of IFQ halibut and groundfish species, other than sablefish, that are landed during the same fishing trip.

(ii) A person may sell, barter, or trade a round weight equivalent amount of DSR that is less than or equal to 1 percent of the aggregate round weight equivalent of IFQ sablefish that are landed during the same fishing trip.

(iii) Amounts of DSR retained by catcher vessels under paragraph (j)(1) of this section that are in excess of the limits specified in paragraphs (j)(2)(i) and (ii) may be put to any use, including but not limited to personal consumption or donation, but must not enter commerce through sale, barter, or trade.

[61 FR 31230, June 19, 1996]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 679.20, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and on GPO Access.

#### § 679.21 Prohibited species bycatch management.

(a) *Applicability.* (1) This section applies to all vessels required to have a Federal fisheries permit under § 679.4.

(2) Except as otherwise provided, this section also applies to all motherships and shoreside processors that receive groundfish from vessels required to have a Federal fisheries permit under § 679.4.

(b) *General.* (1) See § 679.2 and Table 2b to this part for definition of prohibited species.

(2) *Prohibited species catch restrictions.* The operator of each vessel engaged in directed fishing for groundfish in the GOA or BSAI must:

(i) Minimize its catch of prohibited species.

(ii) After allowing for sampling by an observer, if an observer is aboard, sort its catch immediately after retrieval of the gear and, except as provided below, return all prohibited species or parts thereof to the sea immediately, with a minimum of injury, regardless of its condition. The following exceptions are made:

(A) Salmon prohibited species catch in the BSAI groundfish fisheries under paragraph (c) of this section and § 679.26; and

(B) Salmon PSQ caught by catcher vessels using trawl gear in the CDQ fisheries under subpart C of this part.

(3) *Rebuttable presumption.* Except as provided under paragraph (c) of this section, § 679.26, or for salmon PSQ retained by catcher vessels using trawl gear in the CDQ fisheries, there will be a rebuttable presumption that any prohibited species retained on board a fishing vessel regulated under this part was caught and retained in violation of this section.

(4) *Prohibited species taken seaward of the EEZ off Alaska.* No vessel fishing for groundfish in the GOA or BSAI may have on board any species listed in this paragraph (b) that was taken in waters seaward of these management areas, regardless of whether retention of such species was authorized by other applicable laws.

(5) *Sablefish as a prohibited species.* (See § 679.24(c)(2)(ii).)

(c) *Salmon taken in BSAI trawl fishery—*(1) *Salmon discard.* Except as provided in paragraph (c)(3) of this section, the operator of a vessel and the manager of a shoreside processor must not discard any salmon or transfer or process any salmon under the PSD Program at § 679.26, if the salmon were taken incidental to a directed fishery for BSAI groundfish by vessels using trawl gear until the number of salmon has been determined by an observer and the collection of any scientific data or biological samples from the salmon has been completed.

(2) *Salmon retention and storage.* (i) Operators of vessels carrying observers aboard and whose fishing operations allow for sorting of BSAI groundfish catch for salmon must retain all salmon bycatch from each haul in a separate bin or other location that allows an observer free and unobstructed physical access to the salmon to count each fish and collect any scientific data or biological samples. Salmon from different hauls must be retained separately in a manner that identifies the haul from which the salmon were taken.

(ii) Operators of vessels not carrying observers aboard or whose fishing operations do not allow for sorting of BSAI groundfish catch for salmon must ice,

freeze, or store in a refrigerated salt-water tank all salmon taken as bycatch in trawl operations for delivery to the processor receiving the vessel's BSAI groundfish catch.

(iii) Processors receiving BSAI groundfish harvested in a directed fishery for groundfish using trawl gear must retain all salmon delivered by each trawl vessel during a weekly reporting period in separate bins marked with the vessel's name and ADF&G fish ticket number(s) for each delivery until an observer has counted each salmon and collected any scientific data or biological samples from the salmon delivered to the processor by that vessel. Processors without an observer present must store whole salmon in an iced or frozen state until an observer is available to count each fish. Salmon must be stored at a location that allows an observer free and unobstructed physical access to each salmon.

(3) *Exemption.* Motherships and shore-side processors that are not required to obtain observer coverage during a month under § 679.50(c) and (d) are not required to retain salmon.

(4) *Assignment of crew to assist observer.* Operators of vessels and managers of shoreside processors that are required to retain salmon under paragraph (c)(1) of this section must designate and identify to the observer aboard the vessel or at the shoreside processor a crew person or employee to be responsible for sorting, retention, and storage of salmon. Upon request of the observer, the designated crew person or employee also is responsible for counting salmon and taking biological samples from retained salmon under the direction of the observer.

(5) *Release of salmon.* Salmon must be returned to Federal waters as soon as is practicable, with a minimum of injury, regardless of condition, following notification by an observer that the number of salmon has been determined and the collection of any scientific data or biological samples has been completed.

(d) *GOA halibut PSC limits.* This section is applicable for vessels engaged in directed fishing for groundfish in the GOA.

(1) *Notification*—(i) *Proposed and final limits and apportionments.* NMFS will publish in the FEDERAL REGISTER proposed and final halibut PSC limits, and apportionments thereof, in the notification required under § 679.20.

(ii) *Modification of limits.* NMFS, by notification in the FEDERAL REGISTER, may change the halibut PSC limits during the year for which they were specified, based on new information of the types set forth in this paragraph (d)(1).

(2) *Public comment.* NMFS will accept public comment on the proposed halibut PSC limits, and apportionments thereof, for a period specified in the notice of proposed halibut PSC limits published in the FEDERAL REGISTER. NMFS will consider comments received on proposed halibut PSC limits and, after consultation with the Council, will publish notification in the FEDERAL REGISTER specifying the final halibut PSC limits and apportionments thereof.

(3) *Trawl gear proposed halibut limit*—(i) *Notification.* After consultation with the Council, NMFS will publish notification in the FEDERAL REGISTER specifying the proposed halibut PSC limit for vessels using trawl gear.

(ii) *Bycatch allowance.* The halibut PSC limit specified for vessels using trawl gear may be further apportioned as bycatch allowances to the fishery categories listed in paragraph (d)(3)(iii) of this section, based on each category's proportional share of the anticipated halibut bycatch mortality during a fishing year and the need to optimize the amount of total groundfish harvest under the halibut PSC limit. The sum of all bycatch allowances will equal the halibut PSC limit established under this paragraph (d).

(iii) *Trawl fishery categories.* For purposes of apportioning the trawl halibut PSC limit among fisheries, the following fishery categories are specified and defined in terms of round-weight equivalents of these GOA groundfish species for which a TAC has been specified under § 679.20:

(A) *Shallow-water species fishery.* Fishing with trawl gear during any weekly

reporting period that results in a retained aggregate catch of pollock, Pacific cod, shallow-water flatfish, flathead sole, Atka mackerel, and “other species” that is greater than the retained aggregate amount of other GOA groundfish species or species group.

(B) *Deep-water species fishery.* Fishing with trawl gear during any weekly reporting period that results in a retained catch of groundfish and is not a shallow-water species fishery as defined under paragraph (d)(3)(iii)(A) of this section.

(4) *Hook-and-line and pot gear fisheries*—(i) *Notification.* After consultation with the Council, NMFS will publish notification in the FEDERAL REGISTER specifying the proposed and final halibut PSC limits for vessels using hook-and-line gear. The notification also may specify a halibut PSC limit for the pot gear fisheries.

(ii) *Halibut bycatch allowance.* The halibut PSC limit specified for vessels using hook-and-line gear may be further apportioned, as bycatch allowances, to the fishery categories listed in paragraph (d)(4)(iii) of this section, based on each category’s proportional share of the anticipated halibut bycatch mortality during a fishing year and the need to optimize the amount of total groundfish harvest under the halibut PSC limit. The sum of all bycatch allowances will equal the halibut PSC limit established under this paragraph (d).

(iii) *Hook-and-line fishery categories.* For purposes of apportioning the hook-and-line halibut PSC limit among fisheries, the following fishery categories are specified and defined in terms of round-weight equivalents of those GOA groundfish species for which a TAC has been specified under § 679.20.

(A) *Demersal shelf rockfish in the Southeast Outside District.* Fishing with hook-and-line gear in the Southeast Outside District of the Eastern GOA regulatory area (SEEO) during any weekly reporting period that results in a retained catch of demersal shelf rockfish that is greater than the retained amount of any other fishery category defined under this paragraph (d)(4)(iii).

(B) *Sablefish fishery.* Fishing with hook-and-line gear during any weekly

reporting period that results in a retained catch of sablefish that is greater than the retained amount of any other fishery category defined under this paragraph (d)(4)(iii).

(C) *Other hook-and-line fishery.* Fishing with hook-and-line gear during any weekly reporting period that results in a retained catch of groundfish and is not a demersal shelf rockfish fishery or a sablefish fishery defined under paragraphs (d)(4)(iii)(A) and (B) of this section.

(5) *Seasonal apportionments*—(i) *General.* NMFS, after consultation with the Council, may apportion each halibut PSC limit or bycatch allowance specified under this paragraph (d) on a seasonal basis.

(ii) *Factors to be considered.* NMFS will base any seasonal apportionment of a halibut PSC limit or bycatch allowance on the following types of information:

(A) Seasonal distribution of halibut.

(B) Seasonal distribution of target groundfish species relative to halibut distribution.

(C) Expected halibut bycatch needs, on a seasonal basis, relative to changes in halibut biomass and expected catches of target groundfish species.

(D) Expected variations in bycatch rates throughout the fishing year.

(E) Expected changes in directed groundfish fishing seasons.

(F) Expected start of fishing effort.

(G) Economic effects of establishing seasonal halibut allocations on segments of the target groundfish industry.

(iii) *Unused seasonal apportionments.*

(A) Unused seasonal apportionments of halibut PSC limits specified for trawl, hook-and-line, or pot gear will be added to the respective seasonal apportionment for the next season during a current fishing year; and

(B) Unused halibut PSC that had been allocated as CQ that has not been used by a rockfish cooperative will be added to the last seasonal apportionment for trawl gear during the current fishing year:

(1) After November 15; or

(2) After the effective date of a declaration to terminate fishing.

(iv) *Seasonal apportionment exceeded.* If a seasonal apportionment of a halibut PSC limit specified for trawl, hook-and-line, or pot gear is exceeded, the amount by which the seasonal apportionment is exceeded will be deducted from the respective apportionment for the next season during a current fishing year.

(6) *Apportionment among regulatory areas and districts.* Each halibut PSC limit specified under this paragraph (d) also may be apportioned among the GOA regulatory areas and districts.

(7) *Halibut PSC closures—(i) Trawl gear fisheries.* If, during the fishing year, the Regional Administrator determines that U.S. fishing vessels participating in either of the trawl fishery categories listed in paragraph (d)(3)(iii) (A) or (B) of this section will catch the halibut bycatch allowance, or apportionments thereof, specified for that fishery category under paragraph (d)(1) of this section, NMFS will publish notification in the FEDERAL REGISTER closing the entire GOA or the applicable regulatory area or district to directed fishing with trawl gear for each species and/or species group that comprises that fishing category; provided, however, that when the halibut bycatch allowance, or seasonal apportionment thereof, specified for the shallow-water species fishery is reached, fishing for pollock by vessels using pelagic trawl gear may continue, consistent with other provisions of this part.

(ii) *Hook-and-line fisheries.* If, during the fishing year, the Regional Administrator determines that U.S. fishing vessels participating in any of the three hook-and-line gear fishery categories listed under paragraph (d)(4)(iii) of this section will catch the halibut bycatch allowance, or apportionments thereof, specified for that fishery category under paragraph (d)(1) of this section, NMFS will publish notification in the FEDERAL REGISTER closing the entire GOA or the applicable regulatory area or district to directed fishing with hook-and-line gear for each species and/or species group that comprises that fishing category.

(iii) *Pot gear fisheries.* If, during the fishing year, the Regional Administrator determines that the catch of halibut by operators of vessels using

pot gear to participate in a directed fishery for groundfish will reach the halibut PSC limit, or seasonal apportionment thereof, NMFS will publish notification in the FEDERAL REGISTER prohibiting directed fishing for groundfish by vessels using pot gear for the remainder of the season to which the halibut PSC limit or seasonal apportionment applies.

(iv) *Nonpelagic trawl gear fisheries—(A) Continued fishing under specified conditions.* When the vessels to which a halibut PSC limit applies have caught an amount of halibut equal to that PSC, the Regional Administrator may, by notification in the FEDERAL REGISTER, allow some or all of those vessels to continue to fish for groundfish using nonpelagic trawl gear under specified conditions, subject to the other provisions of this part.

(B) *Factors to be considered.* In authorizing and conditioning such continued fishing with bottom-trawl gear, the Regional Administrator will take into account the following considerations, and issue relevant findings:

(1) The risk of biological harm to halibut stocks and of socio-economic harm to authorized halibut users posed by continued bottom trawling by these vessels.

(2) The extent to which these vessels have avoided incidental halibut catches up to that point in the year.

(3) The confidence of the Regional Administrator in the accuracy of the estimates of incidental halibut catches by these vessels up to that point in the year.

(4) Whether observer coverage of these vessels is sufficient to assure adherence to the prescribed conditions and to alert the Regional Administrator to increases in their incidental halibut catches.

(5) The enforcement record of owners and operators of these vessels, and the confidence of the Regional Administrator that adherence to the prescribed conditions can be assured in light of available enforcement resources.

(8) *AFA halibut bycatch limitations.* Halibut bycatch limits for AFA catcher vessels will be established according to the procedure and formula set out in § 679.64(b) and managed through directed fishing closures for AFA catcher

## Fishery Conservation and Management

§ 679.21

vessels in the groundfish fisheries to which the halibut bycatch limit applies.

(e) *BSAI PSC limits*—(1) *Trawl gear*—(i) *Red king crab in Zone 1*. The PSC limit of red king crab caught by trawl vessels while engaged in directed fishing for groundfish in Zone 1 during any fishing year will be specified for up to

two fishing years by NMFS, after consultation with the Council, based on abundance and spawning biomass of red king crab using the criteria set out under paragraphs (e)(1)(i)(A) through (C) of this section. The following table refers to the PSC limits for red king crab that you must follow in Zone 1:

| When the number of mature female red king crab is ...                                                                                              | The zone 1 PSC limit will be ... |
|----------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------|
| (A) At or below the threshold of 8.4 million mature crab or the effective spawning biomass is less than or equal to 14.5 million lb (6,577 mt)     | 32,000 red king crab.            |
| (B) Above the threshold of 8.4 million mature crab and the effective spawning biomass is greater than 14.5 but less than 55 million lb (24,948 mt) | 97,000 red king crab.            |
| (C) Above the threshold of 8.4 million mature crab and the effective spawning biomass is equal to or greater than 55 million lb                    | 197,000 red king crab.           |

(ii) *Tanner crab (*C. bairdi*)*. The PSC limit of *C. bairdi* crabs caught by trawl vessels while engaged in directed fishing for groundfish in Zones 1 and 2 during any fishing year will be specified for up to two fishing years by NMFS under paragraph (e)(6) of this section, based on total abundance of *C. bairdi* crabs as indicated by the NMFS annual bottom trawl survey, using the criteria set out under paragraphs (e)(1)(ii)(A) and (B) of this section.

(A) The following table refers to the PSC limits for *C. bairdi* that you must follow in Zone 1:

| When the total abundance of <i>C. bairdi</i> crabs is ... | The PSC limit will be ...                               |
|-----------------------------------------------------------|---------------------------------------------------------|
| (1) 150 million animals or less                           | 0.5 percent of the total abundance minus 20,000 animals |
| (2) Over 150 million to 270 million animals               | 730,000 animals                                         |
| (3) Over 270 million to 400 million animals               | 830,000 animals                                         |
| (4) Over 400 million animals                              | 980,000 animals                                         |

(B) This table refers to the PSC limits for *C. bairdi* that you must follow in Zone 2.

| When the total abundance of <i>C. bairdi</i> crabs is ... | The PSC limit will be ...                               |
|-----------------------------------------------------------|---------------------------------------------------------|
| (1) 175 million animals or less                           | 1.2 percent of the total abundance minus 30,000 animals |
| (2) Over 175 million to 290 million animals               | 2,070,000 animals                                       |
| (3) Over 290 million to 400 million animals               | 2,520,000 animals                                       |
| (4) Over 400 million animals                              | 2,970,000 animals                                       |

(iii) *C. opilio*. The PSC limit of *C. opilio* caught by trawl vessels while en-

gaged in directed fishing for groundfish in the COBLZ will be specified annually by NMFS under paragraph (e)(6) of this section, based on total abundance of *C. opilio* as indicated by the NMFS annual bottom trawl survey using the following criteria:

(A) *PSC Limit*. The PSC limit will be 0.1133 percent of the total abundance, minus 150,000 *C. opilio* crabs, unless;

(B) *Minimum PSC Limit*. If 0.1133 percent multiplied by the total abundance is less than 4.5 million, then the minimum PSC limit will be 4.350 million animals; or

(C) *Maximum PSC Limit*. If 0.1133 percent multiplied by the total abundance is greater than 13 million, then the maximum PSC limit will be 12.850 million animals.

(iv) *Halibut*. The PSC limit of halibut caught while conducting any trawl fishery for groundfish in the BSAI during any fishing year is an amount of halibut equivalent to 3,675 mt of halibut mortality.

(v) *Pacific herring*. The PSC limit of Pacific herring caught while conducting any domestic trawl fishery for groundfish in the BSAI is 1 percent of the annual eastern Bering Sea herring biomass. The PSC limit will be apportioned into annual herring PSC allowances, by target fishery, and will be published along with the annual herring PSC limit in the FEDERAL REGISTER with the proposed and final groundfish specifications defined in § 679.20.

(vi) *BS Chinook salmon*. The trawl closures identified in paragraph (e)(7)(viii)

of this section will take effect when the Regional Administrator determines that the PSC limit of 29,000 Chinook salmon caught while harvesting pollock in the BS between January 1 and December 31 is attained.

(vii) *Non-chinook salmon*. The PSC limit of non-chinook salmon caught by vessels using trawl gear during August 15 through October 14 in the CVOA is 42,000 fish.

(viii) *AI Chinook salmon*. The trawl closures identified in paragraph (e)(7)(viii) of this section will take effect when the Regional Administrator determines that the AI PSC limit of 700 Chinook salmon caught while harvesting pollock in the AI between January 1 and December 31 is attained.

(2) *Nontrawl gear, halibut*. The PSC limit of halibut caught while conducting any nontrawl fishery for groundfish in the BSAI during any fishing year is the amount of halibut equivalent to 900 mt of halibut mortality.

(3) *PSC apportionment to trawl fisheries*—(i) *General*—(A) *PSQ reserve*. The following allocations of the trawl gear PSC limits are made to the CDQ Program as PSQ reserves. The PSQ reserves are not apportioned by gear or fishery.

(1) *Crab PSQ*. 10.7 percent of each PSC limit set forth in paragraphs (e)(1)(i) through (iii) of this section.

(2) *Halibut PSQ*. (i) 276 mt of the total PSC limit set forth in paragraph (e)(1)(iv) of this section in each year for 2008 and 2009.

(ii) 326 mt of the total PSC limit set forth in paragraph (e)(1)(iv) of this section effective in 2010 and each year thereafter.

(3) *Salmon PSQ*—(i) *Chinook salmon*. 7.5 percent of the PSC limit set forth in paragraph (e)(1)(vi) of this section.

(ii) *Non-Chinook salmon*. 10.7 percent of the PSC limit set forth in paragraph (e)(1)(vii) of this section.

(B) *Fishery categories*. NMFS, after consultation with the Council and after subtraction of PSQ reserves and PSC CQ assigned to Amendment 80 cooperatives, will apportion each PSC limit set forth in paragraphs (e)(1)(i) through (vii) of this section into bycatch allowances for fishery categories defined in paragraph (e)(3)(iv) of this section,

based on each category's proportional share of the anticipated incidental catch during a fishing year of prohibited species for which a PSC limit is specified and the need to optimize the amount of total groundfish harvested under established PSC limits.

(ii) *Red king crab, C. bairdi, C. opilio, and halibut*—(A) *General*. For vessels engaged in directed fishing for groundfish in the BSAI, other than vessels fishing under a CQ permit assigned to an Amendment 80 cooperative, the PSC limits for red king crab, *C. bairdi*, *C. opilio*, and halibut will be apportioned to the trawl fishery categories defined in paragraphs (e)(3)(iv)(B) through (F) of this section.

(B) *Red King Crab Savings Subarea (RKCSS)*. (1) The RKCSS is the portion of the RKCSA between 56°00' and 56°10' N. lat. Notwithstanding other provisions of this part, vessels using non-pelagic trawl gear in the RKCSS may engage in directed fishing for groundfish in a given year, if the ADF&G had established a guideline harvest level the previous year for the red king crab fishery in the Bristol Bay area.

(2) When the RKCSS is open to vessels fishing for groundfish with non-pelagic trawl gear under paragraph (e)(3)(ii)(B)(1) of this section, NMFS, after consultation with the Council, will specify an amount of the red king crab bycatch limit annually established under paragraph (e)(1)(i) of this section for the RKCSS. The amount of the red king crab bycatch limit specified for the RKCSS will not exceed an amount equivalent to 25 percent of the red king crab PSC allowance and will be based on the need to optimize the groundfish harvest relative to red king crab bycatch.

(C) *Incidental catch in midwater pollock fishery*. Any amount of red king crab, *C. bairdi*, *C. opilio*, or halibut that is incidentally taken in the midwater pollock fishery as defined in paragraph (e)(3)(iv)(A) of this section will be counted against the bycatch allowances specified for the pollock/Atka mackerel/"other species" category defined in paragraph (e)(3)(iv)(F) of this section.

(iii) *Pacific herring*. The PSC limit for Pacific herring will be apportioned to

## Fishery Conservation and Management

## § 679.21

the BSAI trawl fishery categories defined in paragraphs (e)(3)(iv) (A) through (F) of this section.

(iv) *Trawl fishery categories.* For purposes of apportioning trawl PSC limits among fisheries, other than PSC CQ assigned to an Amendment 80 cooperative, the following fishery categories are specified and defined in terms of round-weight equivalents of those groundfish species or species groups for which a TAC has been specified under § 679.20.

(A) *Midwater pollock fishery.* Fishing with trawl gear during any weekly reporting period that results in a catch of pollock that is 95 percent or more of the total amount of groundfish caught during the week.

(B) *Flatfish fishery.* Fishing with trawl gear during any weekly reporting period that results in a retained aggregate amount of rock sole, “other flatfish,” and yellowfin sole that is greater than the retained amount of any other fishery category defined under this paragraph (e)(3)(iv).

(1) *Yellowfin sole fishery.* Fishing with trawl gear during any weekly reporting period that is defined as a flatfish fishery under this paragraph (e)(3)(iv)(B) and results in a retained amount of yellowfin sole that is 70 percent or more of the retained aggregate amount of rock sole, “other flatfish,” and yellowfin sole.

(2) *Rock sole/flathead sole/“other flatfish” fishery.* Fishing with trawl gear during any weekly reporting period that is defined as a flatfish fishery under this paragraph (e)(3)(iv)(B) and is not a yellowfin sole fishery as defined under paragraph (e)(3)(iv)(B)(1) of this section.

(C) *Greenland turbot/arrowtooth flounder/sablefish fishery.* Fishing with trawl gear during any weekly reporting period that results in a retained aggregate amount of Greenland turbot, arrowtooth flounder, and sablefish that is greater than the retained amount of any other fishery category defined under this paragraph (e)(3)(iv).

(D) *Rockfish fishery.* Fishing with trawl gear during any weekly reporting period that results in a retained aggregate amount of rockfish species that is greater than the retained amount of

any other fishery category defined under this paragraph (e)(3)(iv).

(E) *Pacific cod fishery.* Fishing with trawl gear during any weekly reporting period that results in a retained aggregate amount of Pacific cod that is greater than the retained amount of any other groundfish fishery category defined under this paragraph (e)(3)(iv).

(F) *Pollock/Atka mackerel/“other species.”* Fishing with trawl gear during any weekly reporting period that results in a retained aggregate amount of pollock other than pollock harvested in the midwater pollock fishery defined under paragraph (e)(3)(iv)(A) of this section, Atka mackerel, and “other species” that is greater than the retained amount of any other fishery category defined under this paragraph (e)(3)(iv).

(v) *AFA prohibited species catch limitations.* Halibut and crab PSC limits for the AFA trawl catcher/processor sector and the AFA trawl catcher vessel sector will be established according to the procedures and formulas set out in § 679.64(a) and (b) and managed through directed fishing closures for the AFA trawl catcher/processor sector and the AFA trawl catcher vessel sector in the groundfish fisheries for which the PSC limit applies.

(vi) *Amendment 80 sector bycatch limitations.* (A) Halibut and crab bycatch limits for the Amendment 80 sector in the BSAI will be established according to the procedure and formulae set out in § 679.91(d) through (f); and

(B) Halibut and crab PSC assigned to the Amendment 80 limited access fishery will be managed through directed fishing closures for Amendment 80 vessels to which the halibut and crab bycatch limits apply.

(4) *Halibut apportionment to nontrawl fishery categories—(i) General.* (A) An amount equivalent to 7.5 percent of the nontrawl gear halibut PSC limit set forth in paragraph (e)(2) of this section is allocated to the groundfish CDQ Program as PSQ reserve. The PSQ reserve is not apportioned by gear or fishery.

(B) NMFS, after consultation with the Council and after subtraction of the PSQ reserve, will apportion the halibut PSC limit for nontrawl gear set forth under paragraph (e)(2) of this section into bycatch allowances for the

nontrawl fishery categories defined under paragraph (e)(4)(ii) of this section.

(C) Apportionment of the nontrawl halibut PSC limit among the nontrawl fishery categories will be based on each category's proportional share of the anticipated bycatch mortality of halibut during a fishing year and the need to optimize the amount of total groundfish harvested under the nontrawl halibut PSC limit.

(D) The sum of all bycatch allowances of any prohibited species will equal its PSC limit.

(ii) *Nontrawl fishery categories.* For purposes of apportioning the nontrawl halibut PSC limit among fisheries, the following fishery categories are specified and defined in terms of round-weight equivalents of those BSAI groundfish species for which a TAC has been specified under § 679.20.

(A) *Pacific cod hook-and-line catcher vessel fishery.* Catcher vessels fishing with hook-and-line gear during any weekly reporting period that results in a retained catch of Pacific cod that is greater than the retained amount of any other groundfish species.

(B) *Pacific cod hook-and-line catcher/processor fishery.* Catcher/processors fishing with hook-and-line gear during any weekly reporting period that results in a retained catch of Pacific cod that is greater than the retained amount of any other groundfish species.

(C) *Sablefish hook-and-line fishery.* Fishing with hook-and-line gear during any weekly reporting period that results in a retained catch of sablefish that is greater than the retained amount of any other groundfish species.

(D) *Groundfish jig gear fishery.* Fishing with jig gear during any weekly reporting period that results in a retained catch of groundfish.

(E) *Groundfish pot gear fishery.* Fishing with pot gear under restrictions set forth in § 679.24(b) during any weekly reporting period that results in a retained catch of groundfish.

(F) *Other nontrawl fisheries.* Fishing for groundfish with nontrawl gear during any weekly reporting period that results in a retained catch of groundfish and does not qualify as a Pacific

cod hook-and-line catcher vessel fishery, a Pacific cod hook-and-line catcher/processor fishery, a sablefish hook-and-line fishery, a jig gear fishery, or a groundfish pot gear fishery as defined under this paragraph (e)(4)(ii).

(5) *Seasonal apportionments of bycatch allowances*—(i) *General.* NMFS, after consultation with the Council, may apportion fishery bycatch allowances on a seasonal basis.

(ii) *Factors to be considered.* NMFS will base any seasonal apportionment of a bycatch allowance on the following types of information:

(A) Seasonal distribution of prohibited species;

(B) Seasonal distribution of target groundfish species relative to prohibited species distribution;

(C) Expected prohibited species bycatch needs on a seasonal basis relevant to change in prohibited species biomass and expected catches of target groundfish species;

(D) Expected variations in bycatch rates throughout the fishing year;

(E) Expected changes in directed groundfish fishing seasons;

(F) Expected start of fishing effort; or

(G) Economic effects of establishing seasonal prohibited species apportionments on segments of the target groundfish industry.

(iii) *Seasonal trawl fishery bycatch allowances*—(A) *Unused seasonal apportionments.* Unused seasonal apportionments of trawl fishery bycatch allowances made under this paragraph (e)(5) will be added to its respective fishery bycatch allowance for the next season during a current fishing year.

(B) *Seasonal apportionment exceeded.* If a seasonal apportionment of a trawl fishery bycatch allowance made under paragraph (d)(5) of this section is exceeded, the amount by which the seasonal apportionment is exceeded will be deducted from its respective apportionment for the next season during a current fishing year.

(iv) *Seasonal nontrawl fishery bycatch allowances*—(A) *Unused seasonal apportionments.* Any unused portion of a seasonal nontrawl fishery bycatch allowance made under this paragraph (e)(5) will be reapportioned to the fishery's remaining seasonal bycatch allowances

during a current fishing year in a manner determined by NMFS, after consultation with the Council, based on the types of information listed under paragraph (e)(5)(ii) of this section.

(B) *Seasonal apportionment exceeded.* If a seasonal apportionment of a nontrawl fishery bycatch allowance made under this paragraph (e)(5) is exceeded, the amount by which the seasonal apportionment is exceeded will be deducted from the fishery's remaining seasonal bycatch allowances during a current fishing year in a manner determined by NMFS, after consultation with the Council, based on the types of information listed under paragraph (e)(5)(ii) of this section.

(6) *Notification*—(i) *General.* NMFS will publish in the FEDERAL REGISTER, for up to two fishing years, the annual red king crab PSC limit, and, if applicable, the amount of this PSC limit specified for the RKCSS, the annual *C. bairdi* PSC limit, the annual *C. opilio* PSC limit, the proposed and final PSQ reserve amounts, the proposed and final bycatch allowances, the seasonal apportionments thereof, and the manner in which seasonal apportionments of nontrawl fishery bycatch allowances will be managed, as required by paragraph (e) of this section.

(ii) *Public comment.* Public comment will be accepted by NMFS on the proposed annual red king crab PSC limit and, if applicable, the amount of this PSC limit specified for the RKCSS, the annual *C. bairdi* PSC limit, the annual *C. opilio* PSC limit, the proposed and final bycatch allowances, seasonal apportionments thereof, and the manner in which seasonal apportionments of nontrawl fishery bycatch allowances will be managed, for a period specified in the notice of proposed specifications published in the FEDERAL REGISTER.

(7) *Trawl PSC closures*—(i) *Exception.* When a bycatch allowance, or seasonal apportionment thereof, specified for the pollock/Atka mackerel/“other species” fishery category is reached, only directed fishing for pollock is closed to trawl vessels using nonpelagic trawl gear.

(ii) *Red king crab or C. bairdi Tanner crab, Zone 1, closure*—(A) *General.* Except as provided in paragraph (e)(7)(i) of this section, if, during the fishing

year, the Regional Administrator determines that U.S. fishing vessels participating in any of the fishery categories listed in paragraphs (e)(3)(iv) (B) through (F) of this section will catch the Zone 1 bycatch allowance, or seasonal apportionment thereof, of red king crab or *C. bairdi* Tanner crab specified for that fishery category under paragraph (e)(3) of this section, NMFS will publish in the FEDERAL REGISTER the closure of Zone 1, including the RKCSS, to directed fishing for each species and/or species group in that fishery category for the remainder of the year or for the remainder of the season.

(B) *RKCSS.* If, during the fishing year the Regional Administrator determines that the amount of the red king crab PSC limit that is specified for the RKCSS under § 679.21(e)(3)(ii)(B) of this section will be caught, NMFS will publish in the FEDERAL REGISTER the closure of the RKCSS to directed fishing for groundfish with nonpelagic trawl gear for the remainder of the year.

(iii) *C. bairdi Tanner crab, Zone 2, closure.* Except as provided in paragraph (e)(7)(i) of this section, if, during the fishing year, the Regional Administrator determines that U.S. fishing vessels participating in any of the fishery categories listed in paragraphs (e)(3)(iv) (B) through (F) of this section will catch the Zone 2 bycatch allowance, or seasonal apportionment thereof, of *C. bairdi* Tanner crab specified for that fishery category under paragraph (e)(3) of this section, NMFS will publish in the FEDERAL REGISTER the closure of Zone 2 to directed fishing for each species and/or species group in that fishery category for the remainder of the year or for the remainder of the season.

(iv) *COBLZ.* Except as provided in paragraph (e)(7)(i) of this section, if, during the fishing year, the Regional Administrator determines that U.S. fishing vessels participating in any of the trawl fishery categories listed in paragraphs (e)(3)(iv)(B) through (F) of this section will catch the COBLZ bycatch allowance, or seasonal apportionment thereof, of *C. opilio* specified for that fishery category under paragraph

(e)(3) of this section, NMFS will publish in the FEDERAL REGISTER the closure of the COBLZ, as defined in Figure 13 to this part, to directed fishing for each species and/or species group in that fishery category for the remainder of the year or for the remainder of the season.

(v) *Halibut closure*. Except as provided in paragraph (e)(7)(i) of this section, if, during the fishing year, the Regional Administrator determines that U.S. fishing vessels participating in any of the trawl fishery categories listed in paragraphs (e)(3)(iv)(B) through (F) of this section in the BSAI will catch the halibut bycatch allowance, or seasonal apportionment thereof, specified for that fishery category under paragraph (e)(3) of this section, NMFS will publish in the FEDERAL REGISTER the closure of the entire BSAI to directed fishing for each species and/or species group in that fishery category for the remainder of the year or for the remainder of the season.

(vi) *Pacific herring—(A) Closure*. Except as provided in paragraph (e)(7)(vi)(B) of this section, if, during the fishing year, the Regional Administrator determines that U.S. fishing vessels participating in any of the fishery categories listed in paragraphs (e)(3)(iv)(A) through (F) of this section in the BSAI will catch the herring bycatch allowance, or seasonal apportionment thereof, specified for that fishery category under paragraph (e)(3) of this section, NMFS will publish in the FEDERAL REGISTER the closure of the Herring Savings Area as defined in Figure 4 to this part to directed fishing for each species and/or species group in that fishery category.

(B) *Exceptions—(1) Midwater pollock*. When the midwater pollock fishery category reaches its specified bycatch allowance, or seasonal apportionment thereof, the Herring Savings Areas are closed to directed fishing for pollock with trawl gear.

(2) *Pollock/Atka mackerel/“other species”*. When the pollock/Atka mackerel/“other species” fishery category reaches its specified bycatch allowance, or seasonal apportionment thereof, the Herring Savings Areas are closed to directed fishing for pollock

by trawl vessels using nonpelagic trawl gear.

(vii) *Chum salmon*. If the Regional Administrator determines that 42,000 non-Chinook salmon have been caught by vessels using trawl gear during August 15 through October 14 in the CVOA, defined under § 679.22(a)(5) and in Figure 2 to this part, NMFS will prohibit directed fishing for pollock for the remainder of the period September 1 through October 14 in the Chum Salmon Savings Area as defined in Figure 9 to this part.

(viii) *Chinook salmon*. If, during the fishing year, the Regional Administrator determines that catch of Chinook salmon by vessels using trawl gear while directed fishing for pollock in the BSAI will reach the annual limits, as identified in paragraphs (e)(1)(vi) and (e)(1)(viii) of this section, NMFS, by notification in the FEDERAL REGISTER will close the Chinook Salmon Savings Areas, as defined in Figure 8 to this part, to directed fishing for pollock with trawl gear as follows:

(A) For the BS Chinook salmon PSC limit under paragraph (e)(1)(vi) of this section, area 1 and area 2 in Figure 8 to this part will be closed on the following dates:

(1) From the effective date of the closure until April 15, and from September 1 through December 31, if the Regional Administrator determines that the annual limit of BS Chinook salmon will be attained before April 15.

(2) From September 1 through December 31, if the Regional Administrator determines that the annual limit of BS Chinook salmon will be attained after April 15.

(B) For the AI Chinook salmon limit under paragraph (e)(1)(viii) of this section, area 1 in Figure 8 to this part will be closed on the following dates:

(1) From the effective date of the closure until April 15, and from September 1 through December 31, if the Regional Administrator determines that the annual limit of AI Chinook salmon will be attained before April 15.

(2) From September 1 through December 31, if the Regional Administrator determines that the annual limit of AI Chinook salmon will be attained after April 15.

(ix) *Exemptions.* (A) Trawl vessels participating in directed fishing for pollock and operating under a salmon bycatch reduction ICA approved by NMFS are exempt from closures in the Chum Salmon Savings Area described at paragraph (e)(7)(vii) of this section. See also § 679.22(a)(10).

(B) Trawl vessels participating in directed fishing for pollock and operating under a salmon bycatch reduction ICA approved by NMFS are exempt from closures in area 2 of the Chinook Salmon Savings Area described at paragraph (e)(7)(viii) of this section.

(8) *Nontrawl halibut closures.* If, during the fishing year, the Regional Administrator determines that U.S. fishing vessels participating in any of the nontrawl fishery categories listed under paragraph (e)(4) of this section will catch the halibut bycatch allowance, or seasonal apportionment thereof, specified for that fishery category under paragraph (e)(4)(ii) of this section, NMFS will publish in the FEDERAL REGISTER the closure of the entire BSAI to directed fishing with the relevant gear type for each species and/or species group in that fishery category.

(f)[Reserved]

(g) *Requirements for vessels participating in a salmon bycatch reduction ICA—(1) Who must file the salmon bycatch reduction ICA?* The representative for the salmon bycatch reduction ICA identified at paragraph (g)(5)(v) of this section must file a copy of the initial ICA and any amended salmon bycatch reduction ICA with NMFS.

(2) *With whom must the initial salmon bycatch reduction ICA and an amended salmon bycatch reduction ICA be filed?* The ICA representative must send a signed copy of the initial salmon bycatch reduction ICA and any amended salmon bycatch reduction ICA to the NMFS Alaska Region. The mailing address for the Administrator, NMFS Alaska Region is P.O. Box 21668, Juneau, AK 99802. The street address for courier delivery is 709 West 9th St., Suite 401, Juneau, AK 99801.

(3) *What is the deadline for filing?* In order for any ICA participant to be exempt from salmon savings area closures as described at paragraphs (e)(7)(ix)(A) and (B) of this section and at § 679.22(a)(10), the salmon bycatch re-

duction ICA must be filed in compliance with the requirements of this section, and approved by NMFS. The initial salmon bycatch reduction ICA must be received by NMFS by December 1, 2007, for the 2008 fishing year. Exemptions from salmon savings area closures will expire upon termination of the initial ICA, expiration of the initial ICA, or if superseded by a NMFS-approved amended salmon bycatch reduction ICA.

(4) *How is the initial and an amended salmon bycatch reduction ICA approved by NMFS?* NMFS will approve the initial or an amended salmon bycatch reduction ICA if it meets all the requirements specified in paragraph (g)(5) of this section. If NMFS disapproves a salmon bycatch reduction ICA, the representative identified at (g)(5)(v) of this section may resubmit a revised salmon bycatch reduction ICA or file an administrative appeal as set forth under the administrative appeals procedures described at § 679.43.

(5) *What are the minimum information requirements for the salmon bycatch reduction ICA?* The salmon bycatch ICA must include the following provisions:

(i) The names of the AFA cooperatives, CDQ groups, and third party groups that are parties to the ICA. The ICA must identify at least one third party group. Third party groups include any organizations representing western Alaskans who depend on Chinook and chum salmon and have an interest in salmon bycatch reduction but do not directly fish in a groundfish fishery. The ICA must identify one entity retained to facilitate vessel bycatch avoidance behavior and information sharing. Collectively, these groups are known as parties to the ICA. Parties to the ICA must agree to comply with all provisions of the ICA;

(ii) The names, Federal fisheries permit numbers, and USCG vessel identification numbers of vessels subject to the salmon bycatch reduction ICA;

(iii) Provisions that dictate salmon bycatch avoidance behaviors for vessel operators subject to the ICA, including:

(A) “A” season salmon bycatch management—(1) *Initial base rate calculation for Chinook salmon.* The initial “A” season Chinook base rate shall be calculated by dividing the total number of

Chinook taken incidentally in the “A” season in the prior year by the total number of metric tons of “A” season pollock catch during the prior year, except that if the initial “A” season Chinook base rate for any given year is less than or equal to 0.04 Chinook per metric ton of pollock, the initial base rate shall be 0.04 Chinook per metric ton, and if the initial base rate for any given year is equal to or greater than 0.06 Chinook per metric ton of pollock, the initial base rate shall be 0.06 Chinook per metric ton. Base rate calculations shall include Chinook salmon and pollock caught in both the CDQ and non-CDQ pollock directed fisheries.

(2) *Inseason adjustments to the Chinook salmon base rate calculation.* On February 14 of each year, the “A” season Chinook base rate shall be recalculated. The recalculated base rate shall be the Chinook bycatch rate for the current year, calculated by dividing the total number of Chinook salmon taken incidentally in the current “A” season by the total number of metric tons of “A” season pollock catch during the current season. The recalculated base rate shall be used to determine bycatch avoidance areas.

(3) *ICA salmon savings area notices.* On January 30 of each year and each Thursday and Monday thereafter for the duration of the pollock “A” season, the entity retained to facilitate vessel bycatch avoidance behavior and information sharing identified in paragraph (g)(5)(i) of this section must provide notice to the parties to the salmon bycatch reduction ICA and NMFS identifying one or more areas designated as “ICA Chinook Savings Areas” by a series of latitude and longitude coordinates. The Thursday notice of ICA Chinook savings area designations must be effective from 6 p.m. Alaska local time the following Friday through 6 p.m. Alaska local time the following Tuesday. The Monday notice must be effective from 6 p.m. Alaska local time the following Tuesday through 6 p.m. Alaska local time the following Friday. For any ICA salmon savings area notice, the maximum total area closed must be at least 1,000 square miles.

(4) *Fishing restrictions for vessels assigned to Tiers as described at paragraph (g)(5)(iii)(C) of this section.* ICA Chinook

savings area closures announced on Thursdays must be closed to directed fishing for pollock for seven days, including pollock CDQ, by vessels assigned to Tier 3. ICA Chinook savings area closures announced on Thursdays must be closed to vessels assigned to Tier 2 through 6 p.m. Alaska local time on the following Tuesday. Vessels assigned to Tier 1 may operate in any area designated as an ICA Chinook savings area.

(B) *“B” season salmon bycatch management—(1) “B” season Chinook salmon.* For the “B” season of the 2008 fishing year, the Chinook salmon base rate shall be 0.05 Chinook salmon per metric ton of pollock. For the “B” season of the 2009 fishing year and each “B” season thereafter, the base rate shall be based on the Chinook salmon bycatch during a representative period of the prior year’s “B” season. The recalculated base rate shall be used to determine bycatch avoidance areas. Base rate calculations shall include Chinook salmon and pollock caught in both the CDQ and non-CDQ pollock directed fisheries.

(2) *Non-Chinook salmon.* The initial “B” season non-Chinook salmon base rate shall be 0.19 non-Chinook salmon per metric ton of pollock.

(3) *Inseason adjustments to the non-Chinook base rate calculation.* Beginning July 1 of each fishing year, and on each Thursday during “B” season, the “B” season non-Chinook base rate shall be recalculated. The recalculated non-Chinook base rate shall be the three week rolling average of the “B” season non-Chinook bycatch rate for the current year. The recalculated base rate shall be used to determine bycatch avoidance areas.

(4) *ICA salmon savings area notices.* On each Thursday and Monday after June 10 of each year for the duration of the pollock “B” season, the entity retained to facilitate vessel bycatch avoidance behavior and information sharing identified in paragraph (g)(5)(i) of this section must provide notice to the parties to the salmon bycatch reduction ICA and NMFS identifying one or more areas designated as “ICA Chinook Savings Areas” and/or “ICA Chum Savings

Areas'' by a series of latitude and longitude coordinates. The Thursday notice of ICA Chinook savings area designations must be effective from 6 p.m. Alaska local time the following Friday through 6 p.m. Alaska local time the following Tuesday. The Monday notice must be effective from 6 p.m. Alaska local time the following Tuesday through 6 p.m. Alaska local time the following Friday. For any ICA salmon savings area notice, the maximum total area closed must be at least 3,000 square miles for ICA chum savings area closures, and 500 square miles for ICA Chinook savings area closures.

(5) *Fishing restrictions for vessels assigned to Tiers as described at paragraph (g)(5)(iii)(C) of this section.* ICA chum savings area closures announced on Thursdays must be closed to directed fishing for pollock for seven days, including pollock CDQ, by vessels assigned to Tier 3. ICA chum savings area closures announced on Thursdays must be closed to vessels assigned to Tier 2 through 6 p.m. Alaska local time on the following Tuesday. Vessels assigned to Tier 1 may operate in any area designated as an ICA chum savings area. ICA Chinook savings areas must be closed to fishing by all vessels identified at paragraph (g)(5)(iii)(C) of this section.

(C) *Cooperative tier assignments.* Initial and subsequent base rate calculations must be based on each cooperative's pollock catch for the prior two weeks and the associated bycatch of Chinook or non-Chinook salmon taken by its members. Base rate calculations shall include salmon bycatch and pollock caught in both the CDQ and non-CDQ pollock directed fisheries. Cooperatives with salmon bycatch rates of less than 75 percent of the base rate shall be assigned to Tier 1. Cooperatives with salmon bycatch rates of equal to or greater than 75 percent, but less than or equal to 125 percent of the base rate shall be assigned to Tier 2. Cooperatives with salmon bycatch rates of greater than 125 percent of the base rate shall be assigned to Tier 3. Bycatch rates for Chinook salmon must be calculated separately from non-Chinook salmon, and cooperatives must be assigned to tiers separately for

Chinook and non-Chinook salmon bycatch.

(iv) Internal monitoring and enforcement provisions to ensure compliance of fishing activities with the provisions of the ICA. The ICA must include provisions allowing any party of the ICA to bring civil suit or initiate a binding arbitration action against another for breach of the ICA. The ICA must include minimum annual uniform assessments for any violation of savings area closures of \$10,000 for the first offense, \$15,000 for the second offense, and \$20,000 for each offense thereafter;

(v) The name, phone number, and business address of the person who will annually file the ICA with NMFS;

(vi) Provisions requiring the parties to conduct an annual compliance audit, and to cooperate fully in such audit, including providing information required by the auditor. The compliance audit must be conducted by a non-party entity, and each party must have an opportunity to participate in selecting the non-party entity. If the non-party entity hired to conduct a compliance audit discovers a previously undiscovered failure to comply with the terms of the ICA, the non-party entity must notify all parties to the ICA of the failure to comply and must simultaneously distribute to all parties of the ICA information used to determine the failure to comply occurred and must include such notice(s) in the compliance report described in § 679.61(f)(2)(vii).

(vii) Provisions requiring data dissemination in certain circumstances. If the entity retained to facilitate vessel bycatch avoidance behavior and information sharing identified at paragraph (g)(5)(i) of this section determines that an apparent violation of an ICA savings area closure has occurred, that entity must promptly notify the Board of Directors of the cooperative to which the vessel involved belongs. If this Board of Directors fails to assess a minimum uniform assessment within 180 days of receiving the notice, the information used by the entity retained to facilitate vessel bycatch avoidance behavior to determine if an apparent violation was committed must be disseminated to all parties to the ICA.

[61 FR 31230, June 19, 1996]

## § 679.22

## 50 CFR Ch. VI (10–1–08 Edition)

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 679.22, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and on GPO Access.

### § 679.22 Closures.

(a) *BSAI—(1) Zone 1 (512) closure to trawl gear.* No fishing with trawl gear is allowed at any time in reporting Area 512 of Zone 1 in the Bering Sea subarea.

(2) *Zone 1 (516) closure to trawl gear.* No fishing with trawl gear is allowed at any time in reporting Area 516 of Zone 1 in the Bering Sea Subarea during the period March 15 through June 15.

(3) *Red King Crab Savings Area (RKCSA).* Directed fishing for groundfish by vessels using trawl gear other than pelagic trawl gear is prohibited at all times, except as provided at § 679.21(e)(3)(ii)(B), in that part of the Bering Sea subarea defined as RKCSA in Figure 11 to this part.

(4) *Walrus protection areas.* From April 1 through September 30 of any fishing year, vessels with a Federal fisheries permit under § 679.4 are prohibited in that part of the Bering Sea subarea between 3 and 12 nm seaward of the baseline used to measure the territorial sea around islands named Round Island and The Twins, as shown on National Ocean Survey Chart 16315, and around Cape Pierce (58°33' N. lat., 161°43' W. long.).

(5) *Catcher Vessel Operational Area (CVOA)—(i) Definition.* The CVOA is defined as that part of the BSAI that is south of 56°00' N lat. and between 163°00' W long. and 167°30' W long., and north of the Aleutian Islands (Figure 2 to part 679).

(ii) *Catcher/processor restrictions.* A catcher/processor vessel authorized to fish for BSAI pollock under § 679.4 is prohibited from conducting directed fishing for pollock in the CVOA during the B pollock season defined at § 679.23(e)(2)(ii), unless it is directed fishing for Pollock CDQ.

(6) *Pribilof Island Area Habitat Conservation Zone.* Trawling is prohibited at all times in the area defined in Figure 10 to this part as the Pribilof Island Area Habitat Conservation Zone.

(7) *Steller sea lion protection areas, Bering Sea subarea—(i) Bogoslof area—(A) Boundaries.* The Bogoslof area consists of all waters of area 518 as described in

Figure 1 of this part south of a straight line connecting 55°00' N lat./170°00' W long., and 55°00' N lat./168°11'4.75' W long.;

(B) *Fishing prohibition.* All waters within the Bogoslof area are closed to directed fishing for pollock, Pacific cod, and Atka mackerel by vessels named on a Federal Fisheries Permit under § 679.4(b), except as provided in paragraph (a)(7)(i)(C) of this section.

(C) *Bogoslof Pacific cod exemption area.* (I) All catcher vessels less than 60 ft (18.3 m) LOA using jig or hook-and-line gear for directed fishing for Pacific cod are exempt from the Pacific cod fishing prohibition as described in paragraph (a)(7)(i)(B) of this section in the portion of the Bogoslof area south of a line connecting a point 3 nm north of Bishop Point (54°01'25" N lat./166°57'00" W long.) to Cape Tanak (53°33'50" N lat./168°00'00" W long.), not including waters of the Bishop Point Pacific cod fishing closures as described in Table 5 of this part.

(2) If the Regional Administrator determines that 113 mt of Pacific cod have been caught by catcher vessels less than 60 ft (18.3 m) LOA using jig or hook-and-line gear in the exemption area described in paragraph (a)(7)(i)(C)(1) of this section, the Regional Administrator will prohibit directed fishing for Pacific cod by catcher vessels less than 60 ft (18.3 m) LOA using jig or hook-and-line gear in the exemption area by notification published in the FEDERAL REGISTER.

(ii) *Bering Sea Pollock Restriction Area.* (A) *Boundaries.* The Bering Sea Pollock Restriction Area consists of all waters of the Bering Sea subarea south of a line connecting the points 163°0'00" W long./55°46'30" N lat., 165°08'00" W long./54°42'9" N lat., 165°40'00" W long./54°26'30" N lat., 166°12'00" W long./54°18'40" N lat., and 167°0'00" W long./54°8'50" N lat.

(B) *Fishing prohibition.* All waters within the Bering Sea Pollock Restriction Area are closed during the A season, as defined at § 679.23(e)(2), to directed fishing for pollock by vessels named on a Federal Fisheries Permit under § 679.4(b).

(iii) *Groundfish closures.* Directed fishing for groundfish by vessels named on a Federal Fisheries Permit under § 679.4(b) is prohibited within 3 nm of

selected sites. These sites are listed in Table 12 of this part and are identified by “Bering Sea” in column 2.

(iv) *Pollock closures*. Directed fishing for pollock by vessels named on a Federal Fisheries Permit under § 679.4(b) is prohibited within pollock no-fishing zones around selected sites. These sites are listed in Table 4 of this part and are identified by “Bering Sea” in column 2.

(v) *Pacific cod closures*. Directed fishing for Pacific cod by vessels named on a Federal Fisheries Permit under § 679.4(b) and using trawl, hook-and-line, or pot gear is prohibited within the Pacific cod no-fishing zones around selected sites. These sites and gear types are listed in Table 5 of this part and are identified by “BS” in column 2.

(vi) *Atka mackerel closures*. Directed fishing for Atka mackerel by vessels named on a Federal Fisheries Permit under § 679.4(b) and using trawl gear is prohibited within Atka mackerel no-fishing zones around selected sites. These sites are listed in Table 6 to this part and are identified by “Bering Sea” in column 2.

(vii) *Steller sea lion conservation area (SCA)*—(A) *General*. Directed fishing for pollock by vessels catching pollock for processing by the inshore component, catcher/processors in the offshore component, motherships in the offshore component, or directed fishing for CDQ pollock, is prohibited within the SCA until April 1 when the Regional Administrator announces, by notification in the FEDERAL REGISTER, that the criteria set out in paragraph (a)(7)(vii)(C) of this section have been met by that industry component.

(B) *Boundaries*. The SCA consists of the area of the Bering Sea subarea between 170°00' W long. and 163°00' W long., south of straight lines connecting the following points in the order listed:

55°00' N lat. 170°00' W long.;  
55°00' N lat. 168°00' W long.;  
55°30' N lat. 168°00' W long.;  
55°30' N lat. 166°00' W long.;  
56°00' N lat. 166°00' W long.; and,  
56°00' N lat. 163°00' W long.

(C) *Criteria for closure*—(1) *General*. The directed fishing closures identified in paragraph (a)(7)(vii)(A) of this section will take effect when the Regional

Administrator determines that the harvest limit for pollock within the SCA, as specified in § 679.20(a)(5)(i)(C) is reached before April 1. The Regional Administrator shall prohibit directed fishing for pollock in the SCA by notification published in the FEDERAL REGISTER.

(2) *Inshore catcher vessels greater than 99 ft (30.2 m) LOA*. The Regional Administrator will prohibit directed fishing for pollock by vessels greater than 99 ft (30.2 m) LOA, catching pollock for processing by the inshore component before reaching the inshore SCA harvest limit before April 1 to accommodate fishing by vessels less than or equal to 99 ft (30.2 m) inside the SCA until April 1. The Regional Administrator will estimate how much of the inshore seasonal allowance is likely to be harvested by catcher vessels less than or equal to 99 ft (30.2 m) LOA and reserve a sufficient amount of the inshore SCA allowance to accommodate fishing by such vessels after the closure of the SCA to inshore vessels greater than 99 ft (30.2 m) LOA. The Regional Administrator will prohibit directed fishing for all inshore catcher vessels within the SCA when the harvest limit specified in § 679.20(a)(5)(i)(C) has been met before April 1.

(8) *Steller sea lion protection areas, Aleutian Islands subarea*—(i) *Seguam Foraging area*. (A) The Seguam foraging area is all waters within the area between 52° N lat. and 53° N lat. and between 173°30' W long. and 172°30' W long.

(B) Directed fishing for pollock, Pacific cod, and Atka mackerel by vessels named on a Federal Fisheries Permit under § 679.4(b) is prohibited in the Seguam Foraging area as described in paragraph (a)(8)(i)(A) of this section.

(ii) *Pollock Closure*. Directed fishing for pollock by vessels named on a Federal Fisheries Permit under § 679.4(b) is prohibited within the pollock no-fishing zones around selected sites. These sites are listed in Table 4 of this part and are identified by “Aleutian I.” in column 2.

(iii) *Groundfish closures*. Directed fishing for groundfish by vessels named on a Federal Fisheries Permit under § 679.4(b) is prohibited within 3 nm of selected sites. These sites are listed in

Table 12 of this part and are identified by “Aleutian Islands” in column 2.

(iv) *Pacific cod closures*—(A) *HLA Closure*. Directed fishing for Pacific cod by vessels named on a Federal Fisheries Permit under § 679.4(b) and using trawl gear is prohibited in the HLA in area 542 or area 543, as defined in § 679.2 when the Atka mackerel HLA directed fishery in area 542 or area 543 is open.

(B) *Gear specific closures*. Directed fishing for Pacific cod by vessels named on a Federal Fisheries Permit under § 679.4(b) and using trawl, hook-and-line, or pot gear is prohibited within the Pacific cod no-fishing zones around selected sites. These sites and gear types are listed in Table 5 of this part and are identified by “AI” in column 2.

(v) *Atka mackerel closures*. Directed fishing for Atka mackerel by vessels named on a Federal Fisheries Permit under § 679.4(b) and using trawl gear is prohibited within Atka mackerel no-fishing zones around selected sites. These sites are listed in Table 6 of this part and are identified by “Aleutian Islands” in column 2.

(9) *Nearshore Bristol Bay Trawl Closure*. Directed fishing for groundfish by vessels using trawl gear in Bristol Bay, as described in the current edition of NOAA chart 16006, is closed at all times in the area east of 162°00' W. long., except that the Nearshore Bristol Bay Trawl Area defined in Figure 12 to this part is open to trawling from 1200 hours A.l.t., April 1 to 1200 hours A.l.t., June 15 of each year.

(10) *Chum Salmon Savings Area*. Directed fishing for pollock by vessels using trawl gear is prohibited from August 1 through August 31 in the Chum Salmon Savings Area defined at Figure 9 to this part (see also § 679.21(e)(7)(vii)). Vessels using trawl gear participating in directed fishing for pollock, including pollock CDQ, and operating under a salmon bycatch reduction ICA are exempt from closures in the Chum Salmon Savings Area. See also § 679.21(e)(7)(vii).

(11) [Reserved]

(12) *Alaska Seamount Habitat Protection Areas*. No federally permitted vessel may fish with bottom contact gear in the Alaska Seamount Habitat Pro-

tection Areas, as described in Table 22 to this part.

(13) *Aleutian Islands Coral Habitat Protection Areas*. No federally permitted vessel may fish with bottom contact gear in the Aleutian Islands Coral Habitat Protection Areas, as described in Table 23 to this part.

(14) *Aleutian Islands Habitat Conservation Area*. Except within those areas identified as opened to nonpelagic trawl gear fishing in Table 24 to this part, no federally permitted vessel may fish with nonpelagic trawl gear in the Aleutian Islands Habitat Conservation Area, as described in Table 24 to this part.

(15) *Bowers Ridge Habitat Conservation Zone*. No federally permitted vessel may fish with mobile bottom contact gear in the Bowers Ridge Habitat Conservation Zone, as described in Table 25 to this part.

(16) *Bering Sea Habitat Conservation Area*. No federally permitted vessel may fish with nonpelagic trawl gear in the Bering Sea Habitat Conservation Area specified at Table 42 and Figure 16 to this part.

(17) *Northern Bering Sea Research Area*. No federally permitted vessel may fish with nonpelagic trawl gear in the Northern Bering Sea Research Area specified at Table 43 and Figure 17 to this part.

(18) *Nunivak Island, Etolin Strait, and Kuskokwim Bay Habitat Conservation Area*. No federally permitted vessel may fish with nonpelagic trawl gear in the Nunivak Island, Etolin Strait, and Kuskokwim Bay Habitat Conservation Area specified at Table 44 and Figure 21 to this part.

(19) *St. Lawrence Island Habitat Conservation Area*. No federally permitted vessel may fish with nonpelagic trawl gear in the St. Lawrence Island Habitat Conservation Area specified at Table 45 to this part.

(20) *St. Matthew Island Habitat Conservation Area*. No federally permitted vessel may fish with nonpelagic trawl gear in the St. Matthew Island Habitat Conservation Area specified at Table 46 to this part.

(b) *GOA*—(1) *Kodiak Island, trawls other than pelagic trawls*—(i) *Type I closures*. No person may trawl in waters of the EEZ within the vicinity of Kodiak

Island, as shown in Figure 5 to this part as Type I areas, from a vessel having any trawl other than a pelagic trawl either attached or on board.

(ii) *Type II closures.* From February 15 to June 15, no person may trawl in waters of the EEZ within the vicinity of Kodiak Island, as shown in Figure 5 to this part as Type II areas, from a vessel having any trawl other than a pelagic trawl either attached or on board.

(iii) *Type III closures.* Type III areas are open to any trawl other than a pelagic trawl gear year round.

(2) *Steller sea lion protection areas*—(i) *Groundfish closures.* Directed fishing for groundfish by vessels named on a Federal Fisheries Permit under § 679.4(b) is prohibited within 3 nm of selected sites. These sites are listed in Table 12 of this part and are identified by “Gulf of Alaska” in column 2.

(ii) *Pollock closures.* Directed fishing for pollock by vessels named on a Federal Fisheries Permit under § 679.4(b) is prohibited within pollock no-fishing zones around selected sites. These sites are listed in Table 4 of this part and are identified by “Gulf of Alaska” in column 2.

(iii) *Pacific cod closures.* Directed fishing for Pacific cod by vessels named on a Federal Fisheries Permit under § 679.4(b) and using trawl, hook-and-line, or pot gear in the federally managed Pacific cod or State of Alaska parallel groundfish fisheries, as defined in Alaska Administrative Code (5 AAC 28.087(c), January 3, 2002), is prohibited within Pacific cod no-fishing zones around selected sites. These sites and gear types are listed in Table 5 of this part and are identified by “GOA” in column 2.

(iv) *Atka mackerel closure.* Directed fishing for Atka mackerel by vessels named on a Federal Fisheries Permit under § 679.4(b) within the Gulf of Alaska subarea is prohibited at all times.

(3) [Reserved]

(4) *Southeast Outside District, gear other than nontrawl.* Use of any gear other than nontrawl gear is prohibited at all times in Southeast Outside District defined at Figure 3 to this part.

(5) *Sitka Pinnacles Marine Reserve.* (i) No vessel required to have a Federal fisheries permit under § 679.4(b) may fish for groundfish or anchor in the

Sitka Pinnacles Marine Reserve, as described in Figure 18 to this part.

(ii) No vessel required to have on board an IFQ halibut permit under § 679.4(d) may fish for halibut or anchor in the Sitka Pinnacles Marine Reserve, as described in Figure 18 to this part.

(6) *Chiniak Gully Research Area* (applicable through December 31, 2010).

(i) *Description of Chiniak Gully Research Area.* The Chiniak Gully Research Area, as shown in Figure 22 to this part, is defined as the waters bounded by straight lines connecting the coordinates in the order listed:

57°48.60 N lat., 152°22.20 W long.;

57°48.60 N lat., 151°51.00 W long.;

57°13.20 N lat., 150°38.40 W long.;

56°58.80 N lat., 151°16.20 W long.;

57°37.20 N lat., 152°09.60 W long.; and hence counterclockwise along the shoreline of Kodiak Island to 57°48.60 N lat., 152°22.20 W long.

(ii) *Closure.* (A) No vessel named on a Federal fisheries permit issued pursuant to § 679.4(b) shall deploy trawl gear for purposes of either fishing, or of testing gear under § 679.24(d)(2), within the Chiniak Gully Research Area at any time from August 1 through September 20.

(B) If the Regional Administrator makes a determination that the relevant research activities have been completed for a particular year or will not be conducted that year, the Regional Administrator shall publish notification in the FEDERAL REGISTER rescinding the Chiniak Gully Research Area trawl closure, described in paragraph (b)(6)(i) of this section, for that year.

(7) *Cook Inlet.* No person may use a non-pelagic trawl in waters of the EEZ of Cook Inlet north of a line from Cape Douglas (58°51.10' N. lat.) to Point Adam (59°15.27' N. lat.).

(8) *Alaska Seamount Habitat Protection Areas.* No federally permitted vessel may fish with bottom contact gear in the Alaska Seamount Habitat Protection Areas, as described in Table 22 to this part.

(9) *Gulf of Alaska Coral Habitat Protection Areas.* No federally permitted vessel may fish with bottom contact gear in the Gulf of Alaska Coral Habitat Protection Areas, as described in Table 26 to this part.

## § 679.23

## 50 CFR Ch. VI (10–1–08 Edition)

(10) *Gulf of Alaska Slope Habitat Conservation Areas.* No federally permitted vessel may fish with nonpelagic trawl gear in the Gulf of Alaska Slope Habitat Conservation Areas, as described in Table 27 to this part.

(c) *Directed fishing closures.* See § 679.20(d) and § 679.20(i).

(d) *Groundfish as prohibited species closures.* See § 679.20(d).

(e) *Overfishing closures.* See § 679.20(d).

(f) *Prohibited species closures.* See § 679.21.

(g) [Reserved]

(h) *CDQ fisheries closures.* See § 679.7(d)(6) through (10) for time and area closures that apply to the CDQ fisheries once salmon and crab PSQ amounts have been reached.

(i) *Forage fish closures.* See § 679.20(i)(3).

[61 FR 31230, June 19, 1996]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 679.22, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and on GPO Access.

EFFECTIVE DATE NOTE: At 71 FR 31107, June 1, 2006, § 679.22 was amended by revising paragraph (b)(6), effective July 3, 2006, through Dec. 31, 2010.

### § 679.23 Seasons.

(a) *Groundfish, general.* Fishing for groundfish in the GOA and BSAI is authorized from 0001 hours, A.l.t., January 1, through 2400 hours, A.l.t., December 31, subject to the other provisions of this part, except as provided in paragraph (c) of this section.

(b) *Time of groundfish openings and closures.* The time of all openings and closures of fishing seasons, other than the beginning and end of the calendar fishing year, is 1200 hours, A.l.t.

(c) *GOA and BSAI trawl groundfish.* Notwithstanding other provisions of this part, fishing for groundfish with trawl gear in the GOA and BSAI is prohibited from 0001 hours, A.l.t., January 1, through 1200 hours, A.l.t., January 20.

(d) *GOA groundfish seasons—(1) Directed fishing for trawl rockfish.* Directed fishing for rockfish with trawl gear is authorized from 1200 hours, A.l.t., on the first day of the third quarterly reporting period of a fishing year

through 2400 hours, A.l.t., December 31, subject to other provisions of this part.

(2) *Directed fishing for pollock.* Subject to other provisions of this part, directed fishing for pollock in the Western and Central Regulatory Areas is authorized only during the following four seasons:

(i) *A season.* From 1200 hours, A.l.t., January 20 through 1200 hours, A.l.t., March 10;

(ii) *B season.* From 1200 hours, A.l.t., March 10 through 1200 hours, A.l.t., May 31;

(iii) *C season.* From 1200 hours, A.l.t., August 25 through 1200 hours, A.l.t., October 1; and

(iv) *D season.* From 1200 hours, A.l.t., October 1 through 1200 hours, A.l.t., November 1.

(3) *Directed fishing for Pacific cod (i) Hook-and-line, pot, or jig gear.* Subject to other provisions of this part, directed fishing for Pacific cod with hook-and-line, pot, or jig gear in the Western and Central Regulatory Areas is authorized only during the following two seasons:

(A) *A season.* From 0001 hours, A.l.t., January 1 through 1200 hours, A.l.t., June 10; and

(B) *B season.* From 1200 hours, A.l.t., September 1 through 2400 hours, A.l.t., December 31.

(ii) *Trawl gear.* Subject to other provisions of this part, directed fishing for Pacific cod with trawl gear in the Western and Central Regulatory Areas is authorized only during the following two seasons:

(A) *A season.* From 1200 hours, A.l.t., January 20 through 1200 hours, A.l.t., June 10; and

(B) *B season.* From 1200 hours, A.l.t., September 1 through 1200 hours, A.l.t., November 1.

(4) *Directed fishing for Pacific cod (applicable through December 31, 2002)—(i) Hook-and-line, pot, or jig gear.* Subject to other provisions of this part, directed fishing for Pacific cod with hook-and-line, pot, or jig gear in the Western and Central Regulatory Areas is authorized only during the following two seasons:

(A) *A season.* From 0001 hours, A.l.t., January 1 through 1200 hours, A.l.t., June 10; and

## Fishery Conservation and Management

§ 679.23

(B) *B season*. From 1200 hours, A.l.t., September 1 through 2400 hours, A.l.t., December 31.

(ii) *Trawl gear*. Subject to other provisions of this part, directed fishing for Pacific cod with trawl gear in the Western and Central Regulatory Areas is authorized only during the following two seasons:

(A) *A season*. From 1200 hours, A.l.t., January 20 through 1200 hours, A.l.t., June 10; and

(B) *B season*. From 1200 hours, A.l.t., September 1 through 1200 hours, A.l.t., November 1.

(5) *Directed fishing for Pacific cod*. Directed fishing for Pacific cod in the Western and Central Regulatory Areas is prohibited.

(e) *BSAI groundfish seasons*—(1) *Directed fishing for arrowtooth flounder and Greenland turbot*. Directed fishing for arrowtooth flounder and Greenland turbot in the BSAI is authorized from 1200 hours, A.l.t., May 1, through 2400 hours, A.l.t., December 31, subject to the other provisions of this part.

(2) *Directed fishing for pollock in the Bering Sea subarea by inshore, offshore catcher/processor, and mothership components, in the AI directed pollock fishery, and pollock CDQ fisheries*. Subject to other provisions of this part, directed fishing for pollock by vessels catching pollock for processing by the inshore component, catcher/processors in the offshore component, and motherships in the offshore component in the Bering Sea subarea, directed fishing for pollock in the AI directed pollock fishery, or directed fishing for CDQ pollock in the BSAI is authorized only during the following two seasons:

(i) *A season*. From 1200 hours, A.l.t., January 20 through 1200 hours, A.l.t., June 10; and

(ii) *B season*. From 1200 hours, A.l.t., June 10 through 1200 hours, A.l.t., November 1.

(3) *Directed fishing for Atka mackerel with trawl gear*. Subject to other provisions of this part, non-CDQ directed fishing for Atka mackerel with trawl gear in the Aleutian Islands subarea is authorized only during the following two seasons:

(i) *A season*. From 1200 hours, A.l.t., January 20 through 1200 hours, A.l.t., April 15; and

(ii) *B season*. From 1200 hours, A.l.t., September 1 through 1200 hours, A.l.t., November 1.

(4) *CDQ fishing seasons*. (i) *Halibut CDQ*. Fishing for CDQ halibut with fixed gear under an approved CDQ allocation may begin on the effective date of the allocation, except that CDQ fishing may occur only during the fishing periods specified in the annual management measures published in the FEDERAL REGISTER pursuant to §300.62 of chapter III of this title.

(ii) *Sablefish CDQ*. Fishing for CDQ sablefish with fixed gear under an approved CDQ allocation may begin on the effective date of the allocation, except that it may occur only during the IFQ fishing season specified in paragraph (g)(1) of this section.

(iii) *Groundfish CDQ*. Fishing for groundfish CDQ species, other than CDQ pollock; hook-and-line, jig, or trawl CDQ Pacific cod; and fixed gear CDQ sablefish under subpart C of this part, is authorized from 0001 hours, A.l.t., January 1 through the end of each fishing year, except as provided under paragraph (c) of this section.

(iv) *Groundfish CDQ* (applicable through December 31, 2002). Fishing for groundfish CDQ species, other than pollock CDQ; hook-and-line, jig, or trawl Pacific cod CDQ; and fixed gear sablefish CDQ under subpart C of this part, is authorized from 0001 hours, A.l.t., January 1 through the end of each fishing year, except as provided under paragraph (c) of this section.

(v) *Pollock CDQ and Pacific cod CDQ harvested with hook-and-line, jig or trawl gear* (applicable through December 31, 2002). (A) Fishing for pollock CDQ is authorized under paragraph (e)(5) of this section.

(B) Fishing for Pacific cod CDQ with hook-and-line, jig or trawl gear is authorized under paragraph (e)(6) of this section.

(5) *Directed fishing for Pacific cod*—(i) *Hook-and-line gear*. Subject to other provisions of this part, directed fishing for CDQ and non-CDQ Pacific cod with vessels equal to or greater than 60 ft (18.3 m) LOA using hook-and-line gear is authorized only during the following two seasons:

§ 679.23

50 CFR Ch. VI (10–1–08 Edition)

(A) *A season*. From 0001 hours, A.l.t., January 1 through 1200 hours, A.l.t., June 10; and

(B) *B season*. From 1200 hours, A.l.t., June 10 through 2400 hours, A.l.t., December 31.

(ii) *Trawl gear*. Subject to other provisions of this part, directed fishing for CDQ and non-CDQ Pacific cod with trawl gear in the BSAI is authorized only during the following three seasons:

(A) *A season*. From 1200 hours, A.l.t., January 20 through 1200 hours, A.l.t., April 1;

(B) *B season*. From 1200 hours, A.l.t., April 1 through 1200 hours, A.l.t., June 10; and

(C) *C season*. From 1200 hours, A.l.t., June 10 through 1200 hours, A.l.t., November 1.

(iii) *Pot gear*. Subject to other provisions of this part, non-CDQ directed fishing for Pacific cod with vessels equal to or greater than 60 ft (18.3 m) LOA using pot gear in the BSAI is authorized only during the following two seasons:

(A) *A season*. From 0001 hours, A.l.t., January 1 through 1200 hours, A.l.t., June 10; and

(B) *B season*. From 1200 hours, A.l.t., September 1 through 2400 hours, A.l.t., December 31.

(iv) *Jig gear*. Subject to other provisions of this part, directed fishing for CDQ and non-CDQ Pacific cod with jig gear is authorized only during the following three seasons:

(A) *A season*. From 0001 hours, A.l.t., January 1 through 1200 hours, A.l.t., April 30;

(B) *B season*. From 1200 hours, A.l.t., April 30 through 1200 hours, A.l.t., August 31;

(C) *C season*. From 1200 hours, A.l.t., August 31 through 2400 hours, A.l.t., December 31.

(f) *IFQ halibut*. The fishing period(s) for IFQ halibut are established by the IPHC and are specified in the annual management measures published in the FEDERAL REGISTER pursuant to §300.62 of chapter III of this title. Catches of halibut by fixed gear at times other than during the specified fishing periods must be treated as prohibited species as prescribed at §679.21(b).

(g) *IFQ sablefish*. (1) Directed fishing for sablefish using fixed gear in any IFQ regulatory area may be conducted in any fishing year during the period specified by the Regional Administrator and announced by publication in the FEDERAL REGISTER. The Regional Administrator will take into account the opening date of the halibut season when determining the opening date for sablefish for the purposes of reducing bycatch and regulatory discards between the two fisheries.

(2) Catches of sablefish by fixed gear during other periods may be retained up to the amounts provided for by the directed fishing standards specified at §679.20 when made by an individual aboard the vessel who has a valid IFQ permit and unused IFQ in the account on which the permit was issued.

(3) Catches of sablefish in excess of the maximum retainable bycatch amounts and catches made without IFQ must be treated in the same manner as prohibited species as defined at §679.21(b).

(h) *Stand down requirements for trawl catcher vessels transiting between the BSAI and GOA*.

| If you own or operate a catcher vessel and fish for groundfish with trawl gear in the* * *                                           | You are prohibited from subsequently deploying trawl gear in the* * * | Until* * *                                                                                                                                                                                                                                            |
|--------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|     |                                                                                               | (ii) B season  | BSAI until the following B season                                                                                     |
|     |                                                                                               | (iii) C season | BSAI until the A season of the following year                                                                         |
|     |                                                                                               | (iv) D season  | BSAI until the A season of the following year                                                                         |

[61 FR 31230, June 19, 1996]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 679.23, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and on GPO Access.

### § 679.24 Gear limitations.

Regulations pertaining to vessel and gear markings are set forth in this section and as prescribed in the annual management measures published in the FEDERAL REGISTER pursuant to § 300.62 of chapter III of this title.

(a) *Marking of hook-and-line, longline pot, and pot-and-line gear.* (1) All hook-and-line, longline pot, and pot-and-line marker buoys carried on board or used

by any vessel regulated under this part shall be marked with the following:

- (i) The vessel's name; and
- (ii) The vessel's Federal fisheries permit number; or
- (iii) The vessel's ADF&G vessel registration number.

(2) Markings shall be in characters at least 4 inches (10.16 cm) in height and 0.5 inch (1.27 cm) in width in a contrasting color visible above the water

## § 679.24

## 50 CFR Ch. VI (10–1–08 Edition)

line and shall be maintained so the markings are clearly visible.

(b) *Gear restrictions*—(1) *Pots*—*Longline pot gear*. Any person using longline pot gear must treat any catch of groundfish as a prohibited species, except:

(i) In the Aleutian Islands subarea.

(ii) While directed fishing for sablefish in the Bering Sea subarea, except as provided in paragraph (c)(4)(ii) of this section.

(2) [Reserved]

(3) *Trawl footrope*. No person trawling in any GOA area limited to pelagic trawling under § 679.22 may allow the footrope of that trawl to be in contact with the seabed for more than 10 percent of the period of any tow.

(4) *BSAI pollock nonpelagic trawl prohibition*. No person may use nonpelagic trawl gear to engage in directed fishing for pollock in the BSAI.

(c) *Gear restrictions for sablefish*—(1) *Gear allocations*. Gear allocations of sablefish TAC are set out under § 679.20.

(2) *Eastern GOA regulatory area*—(i) *General*. (A) No person may use any gear other than hook-and-line and trawl gear when fishing for sablefish in the Eastern GOA regulatory Area.

(B) No person may use any gear other than hook-and-line gear to engage in directed fishing for sablefish.

(ii) *Sablefish as prohibited species*—(A) *Trawl gear*. When operators of vessels using trawl gear have harvested 5 percent of the TAC for sablefish in the Eastern GOA regulatory area during any year, further trawl catches of sablefish must be treated as prohibited species as provided by § 679.21(b).

(B) *Other gear*. Operators of vessels using gear types other than those specified in paragraph (c)(2)(i) of this section in the Eastern GOA regulatory area must treat any catch of sablefish as a prohibited species as provided by § 679.21(b).

(3) *Central and Western GOA regulatory areas; sablefish as prohibited species*. Operators of vessels using gear types other than hook-and-line and trawl gear in the Central and western GOA regulatory areas must treat any catch of sablefish in these areas as a prohibited species as provided by § 679.21(b).

(4) *BSAI*. Operators of vessels using gear types other than hook-and-line, longline pot, pot-and-line, or trawl gear in the BSAI must treat sablefish as a prohibited species as provided by § 679.21(b).

(d) *Trawl gear test areas*—(1) *General*. For purposes of allowing pelagic and nonpelagic trawl fishermen to test trawl fishing gear, NMFS may establish, after consulting with the Council, locations for the testing of trawl fishing gear in areas that would otherwise be closed to trawling.

(2) *Trawl gear testing*. For the purposes of this section, “trawl gear testing” means deploying trawl gear in areas designated in this paragraph (d) and in Figure 7 to this part under the following conditions.

(i) The codend shall be unzipped while trawl gear testing.

(ii) Groundfish shall not be possessed on board when trawl gear testing.

(iii) Observers aboard vessels during the time spent trawl gear testing shall not fulfill observer requirements at subpart E of this part.

(3) *Criteria*. The establishment of test areas must comply with the following criteria:

(i) Depth and bottom type must be suitable for testing the particular gear type.

(ii) The areas must be outside State waters.

(iii) The areas must be in locations not normally closed to fishing with that gear type.

(iv) The areas must be in locations that are not usually fished heavily by that gear type.

(v) The areas must not be within a designated Steller sea lion protection area at any time of the year.

(4) *Test areas*. Trawl gear testing is allowed in the following areas (Figure 7 to this part) bounded by straight lines connecting the coordinates in the order listed, at all times:

(i) *Kodiak Test Area*.

57°37' N. lat., 152°02' W. long.

57°37' N. lat., 151°25' W. long.

57°23' N. lat., 151°25' W. long.

57°23' N. lat., 152°02' W. long.

57°37' N. lat., 152°02' W. long.

(ii) *Sand Point Test Area*.

54°50' N. lat., 161°00' W. long.

54°50' N. lat., 160°30' W. long.

## Fishery Conservation and Management

§ 679.24

54°35' N. lat., 160°30' W. long.  
54°35' N. lat., 161°00' W. long.  
54°50' N. lat., 161°00' W. long.

### (iii) *Bering Sea Test Area.*

55°00' N. lat., 167°00' W. long.  
55°00' N. lat., 166°00' W. long.  
54°40' N. lat., 166°00' W. long.  
54°40' N. lat., 167°00' W. long.  
55°00' N. lat., 167°00' W. long.

(e) *Seabird avoidance program for vessels fishing with hook-and-line gear*—(1) *Applicability.* The operator of a vessel that is longer than 26 ft (7.9 m) LOA fishing with hook-and-line gear must comply with the seabird avoidance requirements as specified in paragraphs (e)(2) and (e)(3) of this section while fishing for any of the following species:

(i) IFQ halibut or CDQ halibut.

(ii) IFQ sablefish.

(iii) Groundfish in the EEZ off Alaska.

(2) *Seabird Avoidance Requirements.* The operator of a vessel described in paragraph (e)(1) of this section must:

(i) *Gear onboard.* Have onboard the vessel the seabird avoidance gear as specified in paragraph (e)(3) of this section;

(ii) *Gear inspection.* Upon request by an authorized officer or observer, make the seabird avoidance gear available for inspection;

(iii) *Gear use.* Use seabird avoidance gear as specified in paragraph (e)(3) of this section that meets standards as specified in paragraph (e)(4) of this section, while hook-and-line gear is being deployed.

(iv) *Sink baited hooks.* Use hooks that when baited, sink as soon as they are put in the water.

(v) *Offal discharge.* (A) If offal is discharged while gear is being set or hauled, discharge offal in a manner that distracts seabirds from baited hooks, to the extent practicable. The discharge site on board a vessel must be either aft of the hauling station or on the opposite side of the vessel from the hauling station.

(B) Remove hooks from any offal that is discharged.

(C) Eliminate directed discharge through chutes or pipes of residual bait or offal from the stern of the vessel while setting gear. This does not include baits falling off the hook or offal discharges from other locations that

parallel the gear and subsequently drift into the wake zone well aft of the vessel.

(D) For vessels not deploying gear from the stern, eliminate directed discharge of residual bait or offal over sinking hook-and-line gear while gear is being deployed.

(vi) *Safe release of seabirds.* Make every reasonable effort to ensure birds brought on board alive are released alive and that, wherever possible, hooks are removed without jeopardizing the life of the birds.

(3) *Seabird avoidance gear requirements.* (See also Table 20 to this part.) The operator of a vessel identified in paragraph (e)(1) of this section must comply with the following requirements while fishing with hook-and-line gear for groundfish, IFQ halibut, CDQ halibut, or IFQ sablefish in Federal waters (EEZ) and for IFQ halibut, CDQ halibut, or IFQ sablefish in the State of Alaska waters, excluding NMFS Reporting Area 649 (Prince William Sound), State waters of Cook Inlet, and NMFS Reporting Area 659 (Eastern GOA Regulatory Area, Southeast Inside District), but including waters in the areas south of a straight line at 56°17.25' N. lat. between Point Harris and Port Armstrong in Chatham Strait, State statistical areas 325431 and 325401, and west of a straight line at 136°21.17' E. long. from Point Wimbledon extending south through the Inian Islands to Point Lavinia:

(i) Using other than snap gear,

(A) A minimum of 1 buoy bag line as specified in paragraph (e)(4)(i) of this section must be used by vessels greater than 26 ft (7.9 m) LOA and less than or equal to 55 ft (16.8 m) LOA without masts, poles, or rigging.

(B) A minimum of a single streamer line as specified in paragraph (e)(4)(ii) of this section must be used by vessels greater than 26 ft (7.9 m) LOA and less than or equal to 55 ft (16.8 m) LOA with masts, poles, or rigging.

(C) A minimum of a paired streamer line of a standard as specified in paragraph (e)(4)(iii) of this section must be used by vessels greater than 55 ft (16.8 m) LOA.

(ii) Using snap gear,

(A) A minimum of 1 buoy bag line as specified in paragraph (e)(4)(i) of this

section must be used by vessels greater than 26 ft (7.9 m) LOA and less than or equal to 55 ft (16.8 m) LOA without masts, poles, or rigging.

(B) A minimum of a single streamer line as specified in paragraph (e)(4)(iv) of this section must be used by vessels greater than 26 ft (7.9 m) LOA and less than or equal to 55 ft (16.8 m) LOA with masts, poles, or rigging.

(C) A minimum of a single streamer line as specified in paragraph (e)(4)(iv) of this section must be used by vessels greater than 55 ft (16.8 m) LOA.

(4) *Seabird avoidance gear performance and material standards:*

(i) *Buoy bag line weather exception.* In winds exceeding 45 knots (storm or Beaufort 9 conditions), the use of a buoy bag line is discretionary.

(ii) *Single streamer standard.* (A) A single streamer line must:

(1) Be a minimum of 300 feet (91.4 m) in length;

(2) Have streamers spaced every 16.4 ft (5 m);

(3) Be deployed before the first hook is set in such a way that streamers are in the air for a minimum of 131.2 ft (40 m) aft of the stern and within 6.6 ft (2 m) horizontally of the point where the main groundline enters the water.

(4) Have individual streamers that hang attached to the mainline to 9.8 in (0.25 m) above the waterline in the absence of wind.

(5) Have streamers constructed of material that is brightly colored, UV-protected plastic tubing or 3/8 inch polyester line or material of an equivalent density.

(B) *Weather exception:* In winds exceeding 45 knots (storm or Beaufort 9 conditions), the use of a single streamer line is discretionary.

(iii) *Paired streamer standard:* (A) At least one streamer line must be deployed before the first hook is set and two streamer lines must be fully deployed within 90 seconds.

(B) *Weather exceptions:* In conditions of wind speeds exceeding 30 knots (near gale or Beaufort 7 conditions), but less than or equal to 45 knots, a single streamer must be deployed from the windward side of the vessel. In winds exceeding 45 knots (storm or Beaufort 9 conditions), the use of streamer lines is discretionary.

(C) Streamer lines must:

(1) Be deployed in such a way that streamers are in the air for a minimum of 131.2 ft (40 m) aft of the stern for vessels under 100 ft (30.5 m) and 196.9 ft (60 m) aft of the stern for vessels 100 ft (30.5 m) or over;

(2) Be a minimum of 300 feet (91.4 m) in length;

(3) Have streamers spaced every 16.4 ft (5 m);

(4) For vessels deploying hook-and-line gear from the stern, the streamer lines must be deployed from the stern, one on each side of the main groundline.

(5) For vessels deploying gear from the side, the streamer lines must be deployed from the stern, one over the main groundline and the other on one side of the main groundline.

(6) Have individual streamers that hang attached to the mainline to 9.8 in (0.25 m) above the waterline in the absence of wind.

(7) Have streamers constructed of material that is brightly colored, UV-protected plastic tubing or 3/8 inch polyester line or material of an equivalent density.

(iv) *Snap gear streamer standard:* (A) For vessels using snap gear, a single streamer line must:

(1) Be deployed before the first hook is set in such a way that streamers are in the air for 65.6 ft (20 m) aft of the stern and within 6.6 ft (2 m) horizontally of the point where the main groundline enters the water.

(2) Have a minimum length of 147.6 ft (45 m).

(B) *Weather exception:* In winds exceeding 45 knots (storm or Beaufort 9 conditions), the use of a single streamer line is discretionary.

(v) *Weather safety standard.* The use of seabird avoidance devices required by paragraph (e)(3) of this section is discretionary for vessels greater than 26 ft (7.9 m) LOA and less than or equal to 55 ft (16.8 m) LOA in conditions of wind speeds exceeding 30 knots (near gale or Beaufort 7 conditions).

(5) *Other methods.* Any of the following measures or methods must be accompanied by the applicable seabird avoidance gear requirements as specified in paragraph (e)(3) of this section:

(i) Night-setting.

## Fishery Conservation and Management

## § 679.25

- (ii) Line shooter.
- (iii) Lining tube.
- (6) *Seabird avoidance exemption.*

Notwithstanding any other paragraph in this part, operators of vessels 32 ft (9.8 m) LOA or less using hook-and-line gear in IPHC Area 4E in waters shoreward of the EEZ are exempt from seabird avoidance regulations.

[61 FR 31230, June 19, 1996, as amended at 61 FR 35579, July 5, 1996; 61 FR 49077, Sept. 18, 1996; 62 FR 23183, Apr. 29, 1997; 63 FR 11167, Mar. 6, 1998; 64 FR 61970, 61982, Nov. 15, 1999; 65 FR 31107, May 16, 2000; 67 FR 4133, 4148, Jan. 28, 2002; 69 FR 1948, Jan. 13, 2004; 71 FR 36703, June 28, 2006; 72 FR 71604, Dec. 18, 2007; 73 FR 28738, May 19, 2008]

### § 679.25 Inseason adjustments.

(a) *General*—(1) *Types of adjustments.* Inseason adjustments issued by NMFS under this section include:

- (i) Closure, extension, or opening of a season in all or part of a management area.
- (ii) Modification of the allowable gear to be used in all or part of a management area.
- (iii) Adjustment of TAC and PSC limits.

(iv) Interim closures of statistical areas, or portions thereof, to directed fishing for specified groundfish species.

(2) *Determinations.* (i) Any inseason adjustment taken under paragraphs (a)(1)(i), (ii), or (iii) of this section must be based on a determination that such adjustments are necessary to prevent:

(A) Overfishing of any species or stock of fish or shellfish;

(B) Harvest of a TAC for any groundfish species or the taking of a PSC limit for any prohibited species that, on the basis of the best available scientific information, is found by NMFS to be incorrectly specified; or

(C) Underharvest of a TAC or gear share of a TAC for any groundfish species when catch information indicates that the TAC or gear share has not been reached.

(ii) Any inseason closure of a statistical area, or portion thereof, under paragraph (a)(1)(iv) of this section, must be based upon a determination that such closures are necessary to prevent:

(A) A continuation of relatively high bycatch rates of prohibited species

specified under § 679.21(b) in a statistical area, or portion thereof;

(B) Take of an excessive share of PSC limits or bycatch allowances established under § 679.21(d) and (e) by vessels fishing in a statistical area, or portion thereof;

(C) Closure of one or more directed fisheries for groundfish due to excessive prohibited species bycatch rates occurring in a specified fishery operating within all or part of a statistical area; or

(D) Premature attainment of established PSC limits or bycatch allowances and associated loss of opportunity to harvest the groundfish OY.

(iii) The selection of the appropriate inseason management adjustments under paragraphs (a)(1)(i) and (ii) of this section must be from the following authorized management measures and must be based upon a determination by the Regional Administrator that the management adjustment selected is the least restrictive necessary to achieve the purpose of the adjustment:

(A) Any gear modification that would protect the species in need of conservation, but that would still allow other fisheries to continue;

(B) An inseason adjustment that would allow other fisheries to continue in noncritical areas and time periods;

(C) Closure of a management area and season to all groundfish fishing; or

(D) Reopening of a management area or season to achieve the TAC or gear share of a TAC for any of the target species or the “other species” category.

(iv) The adjustment of a TAC or PSC limit for any species under paragraph (a)(1)(iii) of this section must be based upon a determination by the Regional Administrator that the adjustment is based upon the best available scientific information concerning the biological stock status of the species in question and that the currently specified TAC or PSC limit is incorrect. Any adjustment to a TAC or PSC limit must be reasonably related to the change in biological stock status.

(v) The inseason closure of a statistical area, or a portion thereof, under paragraph (a)(1)(iv) of this section shall

not extend beyond a 60-day period unless information considered under paragraph (b) of this section warrants an extended closure period. Any closure of a statistical area, or portion thereof, to reduce prohibited species bycatch rates requires a determination by the Regional Administrator that the closure is based on the best available scientific information concerning the seasonal distribution and abundance of prohibited species and bycatch rates of prohibited species associated with various groundfish fisheries.

(b) *Data.* All information relevant to one or more of the following factors may be considered in making the determinations required under paragraphs (a)(2)(i) and (ii) of this section:

(1) The effect of overall fishing effort within a statistical area;

(2) Catch per unit of effort and rate of harvest;

(3) Relative distribution and abundance of stocks of groundfish species and prohibited species within all or part of a statistical area;

(4) Condition of a stock in all or part of a statistical area;

(5) Inseason prohibited species bycatch rates observed in groundfish fisheries in all or part of a statistical area;

(6) Historical prohibited species bycatch rates observed in groundfish fisheries in all or part of a statistical area;

(7) Economic impacts on fishing businesses affected; or

(8) Any other factor relevant to the conservation and management of groundfish species or any incidentally caught species that are designated as prohibited species or for which a PSC limit has been specified.

(c) *Procedure.* (1) No inseason adjustment issued under this section will take effect until—

(i) NMFS has filed the proposed adjustment for public inspection with the Office of the Federal Register; and

(ii) NMFS has published the proposed adjustment in the FEDERAL REGISTER for public comment for a period of 30 days before it is made final, unless NMFS finds for good cause that such notification and public procedure is impracticable, unnecessary, or contrary to the public interest.

(2) If NMFS decides, for good cause, that an adjustment is to be made with-

out affording a prior opportunity for public comment, public comments on the necessity for, and extent of, the adjustment will be received by the Regional Administrator for a period of 15 days after the effective date of notification.

(3) During any such 15-day period, the Regional Administrator will make available for public inspection, during business hours, the aggregate data upon which an adjustment was based.

(4) If written comments are received during any such 15-day period that oppose or protest an inseason adjustment issued under this section, NMFS will reconsider the necessity for the adjustment and, as soon as practicable after that reconsideration, will either—

(i) Publish in the FEDERAL REGISTER notification of continued effectiveness of the adjustment, responding to comments received; or

(ii) Modify or rescind the adjustment.

(5) Notifications of inseason adjustments issued by NMFS under paragraph (a) of this section will include the following information:

(i) A description of the management adjustment.

(ii) Reasons for the adjustment and the determinations required under paragraph (a)(2)(i) of this section.

(iii) The effective date and any termination date of such adjustment. If no termination date is specified, the adjustment will terminate on the last day of the fishing year.

#### § 679.26 Prohibited Species Donation Program.

(a) *Authorized species.* The PSD program applies only to the following species:

(1) Salmon.

(2) Halibut delivered by catcher vessels using trawl gear to shoreside processors.

(b) *Authorized distributors—(1) Application.* An applicant seeking to become an authorized distributor must provide the Regional Administrator with the following information:

(i) Proof of the applicant's tax-exempt status.

(ii) A description of the arrangements for processing, shipping, storing, and transporting donated fish and an estimate of the associated costs.

(iii) A statement describing the applicant's expertise in providing for the distribution of food product from remote Alaskan locations to hunger relief agencies, food bank networks, or food bank distributors, including arrangements for transportation, distribution costs, and product quality control.

(iv) Documentation of support from cold storage and transportation facilities.

(v) A proposed operating budget that is adequate to ensure that fish donated under this program will be distributed to hunger relief agencies, food bank networks, or food bank distributors and that the fish will be maintained in a manner fit for human consumption.

(vi) Proof of the applicant's ability to obtain and maintain adequate funding for the distribution of fish under the PSD program.

(vii) A copy of the applicant's articles of incorporation and bylaws showing that the purpose of the applicant includes providing food resources to hunger relief agencies, food bank networks, or food bank distributors.

(viii) Proof of the applicant's ability to take full responsibility for the documentation and disposition of fish received under the PSD program, including sufficient liability insurance to cover public interests relating to the quality of fish distributed for human consumption.

(ix) Quality control criteria to be followed by vessels, processors, hunger relief agencies, food bank networks, and food bank distributors.

(x) The number of vessels and processors that the applicant is capable of administering effectively.

(xi) A list of all vessels and processors, food bank networks and food bank distributors participating in the PSD program. The list of vessels and processors must include:

(A) The vessel's or processor's Federal fisheries permit number or Federal processor permit number.

(B) The name of the vessel owner or responsible operator or the name of the owner or plant manager of the processor.

(C) The vessel's or processor's telephone number and fax number.

(D) The signature of the vessel owner or responsible operator or the owner or plant manager of the processor.

(xii) A signed statement from the applicant and from all persons who are listed under paragraph (b)(1)(xi) of this section and who would conduct activities pursuant to the PSD permit waiving any and all claims against the United States and its agents and employees for any liability for personal injury, death, sickness, damage to property directly or indirectly due to activities conducted under the PSD program.

(xiii) A list of locations where fish must be delivered by participating vessels and processors.

(xiv) A separate application must be submitted for each species listed under paragraph (a) of this section that the applicant seeks to distribute.

(2) *Selection.* The Regional Administrator may select one or more tax-exempt organizations to be authorized distributors under the PSD program based on the information submitted by applicants under paragraph (b)(1) of this section. The number of authorized distributors selected by the Regional Administrator will be based on the following criteria:

(i) The number and qualifications of applicants for PSD permits.

(ii) The number of harvesters and the quantity of fish that applicants can effectively administer.

(iii) The anticipated level of bycatch of prohibited species listed under paragraph (a) of this section.

(iv) The potential number of vessels and processors participating in the groundfish trawl fisheries.

(3) *PSD Permit.* (i) After review of qualified applicants, the Regional Administrator will announce the selection of authorized distributor(s) in the FEDERAL REGISTER and will issue PSD permit(s).

(ii) The Regional Administrator may impose additional terms and conditions on a PSD permit consistent with the objectives of the PSD program.

(iii) A PSD permit may be suspended, modified, or revoked, under 15 CFR part 904 for noncompliance with terms and conditions specified in the permit or for a violation of this section or other regulations in this part.

(iv) *Effective period.* A PSD permit issued for salmon or halibut remains in effect for a 3-year period after the selection notice is published in the FEDERAL REGISTER unless suspended or revoked. A PSD permit issued to an authorized distributor may be renewed following the application procedures in this section.

(v) If the authorized distributor modifies any information on the PSD permit application submitted under paragraph (b)(1)(xi) or (b)(1)(xiii) of this section, the authorized distributor must submit a modified list of participants or a modified list of delivery locations to the Regional Administrator.

(c) *Reporting and recordkeeping requirements.* (1) A vessel or processor retaining prohibited species under the PSD program must comply with all applicable recordkeeping and reporting requirements. A vessel or processor participating in the PSD program must comply with applicable regulations at §§ 679.7(c)(1) and 679.21(c) that allow for the collection of data and biological sampling by a NMFS-certified observer prior to processing any fish under the PSD program.

(2) Prohibited species retained under the PSD program must be packaged, and all packages must be labeled with the date of processing, the name of the processing facility, the contents and the weight of the fish contained in the package, and the words, “NMFS PROHIBITED SPECIES DONATION PROGRAM - NOT FOR SALE - PERISHABLE PRODUCT - KEEP FROZEN”.

(3) A processor retaining or receiving fish under the PSD program and an authorized distributor must keep on file and make available for inspection by an authorized officer all documentation, including receipt and cargo manifests setting forth the origin, weight, and destination of all prohibited species bycatch. Such documentation must be retained until 3 years after the effective period of the PSD permit.

(d) *Processing, handling, and distribution.* (1) Processing and reprocessing of all fish retained under the PSD Program must be carried out under the direction of the authorized distributor. A processor retaining or receiving fish under the PSD Program, at a minimum, must head, gut, and freeze the

fish in a manner that makes it fit for human consumption.

(2) Fish that are determined to be unfit for human consumption prior to delivery to an authorized distributor must be discarded under § 679.21(b). Fish that are determined to be unfit for human consumption after delivery to the authorized distributor must be destroyed in accordance with applicable sanitation laws and regulations.

(3) Authorized distributors and persons conducting activities supervised by authorized distributors may retain prohibited species only for the purpose of processing and delivering the prohibited species to hunger relief agencies, food networks or food distributors as provided by this section. Such persons may not consume or retain prohibited species for personal use and may not sell, trade or barter, or attempt to sell, trade or barter any prohibited species that is retained under the PSD program, except that processors may convert offal from salmon or halibut that has been retained pursuant to the PSD program into fish meal, fish oil, or bone meal, and sell or trade these products.

(4) No prohibited species that has been sorted from a vessel's catch or landing may be retained by a vessel or processor, or delivered to a delivery location under this section, unless the vessel or processor and delivery location is included on the list provided to the Regional Administrator under paragraph (b)(1)(xi), (b)(1)(xiii) or (b)(3)(v) of this section.

[61 FR 38359, July 24, 1996, as amended at 63 FR 32145, 32146, June 12, 1998; 65 FR 78121, Dec. 14, 2000; 66 FR 53122, Oct. 19, 2001; 67 FR 4148, Jan. 28, 2002; 69 FR 52612, Aug. 27, 2004]

EFFECTIVE DATE NOTE: At 67 FR 4158, Jan. 28, 2002, § 679.26 was amended in paragraph (c)(3) by removing the words “until 1 year after” and inserting in its place “until 3 years after”. The amendment contains information collection and recordkeeping requirements and will not become effective until approval has been given by the Office of Management and Budget.

**§ 679.27 Improved Retention/Improved Utilization Program.**

(a) *Applicability.* The owner or operator of a vessel that is required to obtain a Federal fisheries or processor permit under § 679.4 must comply with

## Fishery Conservation and Management

§ 679.27

the IR/IU program set out in this section while fishing for groundfish in the GOA or BSAI, fishing for groundfish in waters of the State of Alaska that are shoreward of the GOA or BSAI, or when processing groundfish harvested in the GOA or BSAI.

(b) *IR/IU species*. The following species are defined as “IR/IU species” for the purposes of this section:

(1) Pollock.

(2) Pacific cod.

(3) Shallow-water flatfish species complex in the GOA as defined in the annual harvest specifications for the GOA (beginning January 1, 2003).

(4) All species listed in Table 2a to this part for purposes of the GRS program described in paragraph (j) of this section, except for groundfish in prohibited species status at the end of each reporting week.

(c) *Minimum retention requirements—*

(1) *Definition of retain on board*. Notwithstanding the definition at 50 CFR 600.10, for the purpose of this section, to retain on board means to be in possession of on board a vessel.

(2) The following table displays minimum retention requirements by vessel category and directed fishing status:

| If you own or operate a ...  | and ...                                                  | you must retain on board until lawful transfer ...                                                                                                                                         |
|------------------------------|----------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (i) Catcher vessel .....     | (A) Directed fishing for an IR/IU species is open .....  | all fish of that species brought on board the vessel.                                                                                                                                      |
|                              | (B) Directed fishing for an IR/IU species is prohibited. | all fish of that species brought on board the vessel up to the MRA for that species.                                                                                                       |
|                              | (C) Retention of an IR/ IU species is prohibited .....   | no fish of that species.                                                                                                                                                                   |
| (ii) Catcher/processor ..... | (A) Directed fishing for an IR/IU species is open .....  | a primary product from all fish of that species brought on board the vessel.                                                                                                               |
|                              | (B) Directed fishing for an IR/IU species is prohibited. | a primary product from all fish of that species brought on board the vessel up to the point that the round-weight equivalent of primary products on board equals the MRA for that species. |
|                              | (C) Retention of an IR/IU species is prohibited .....    | no fish or product of that species.                                                                                                                                                        |
| (iii) Mothership .....       | (A) Directed fishing for an IR/IU species is open .....  | a primary product from all fish of that species brought on board the vessel                                                                                                                |
|                              | (B) Directed fishing for an IR/IU species is prohibited. | a primary product from all fish of that species brought on board the vessel up to the point that the round-weight equivalent of primary products on board equals the MRA for that species. |
|                              | (C) Retention of an IR/IU species is prohibited .....    | no fish or product of that species.                                                                                                                                                        |

(d) *Bleeding codends and shaking longline gear*. Any action intended to discard or release an IR/IU species prior to being brought on board the vessel is prohibited. This includes, but is not limited to bleeding codends and shaking or otherwise removing fish from longline gear.

(e) *At-sea discard of product*. Any product from an IR/IU species may not be discarded at sea, unless such discarding is necessary to meet other requirements of this part.

(f) *Discard of fish or product transferred from other vessels*. The retention requirements of this section apply to all IR/IU species brought on board a vessel, whether harvested by that vessel or transferred from another vessel. At-sea discard of IR/IU species or prod-

ucts that were transferred from another vessel is prohibited.

(g) *IR/IU species as bait*. IR/IU species may be used as bait provided that the deployed bait is physically secured to authorized fishing gear. Dumping of unsecured IR/IU species as bait (chumming) is prohibited.

(h) *Previously caught fish*. The retention and utilization requirements of this section do not apply to incidental catch of dead or decomposing fish or fish parts that were previously caught and discarded at sea.

(i) *Minimum utilization requirements*. If you own or operate a catcher/processor or mothership, the minimum utilization requirement for an IR/IU species harvested in the BSAI is determined by the directed fishing status for that species according to the following table:

§ 679.27

50 CFR Ch. VI (10–1–08 Edition)

| If...                                                    | then your total weight of retained or lawfully transferred products produced from your catch or receipt of that IR/IU species during a fishing trip must...                          |
|----------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (1) directed fishing for an IR/IU species is open,       | equal or exceed 15 percent of the round-weight catch or round-weight delivery of that species during the fishing trip.                                                               |
| (2) directed fishing for an IR/IU species is prohibited, | equal or exceed 15 percent of the round-weight catch or round-weight delivery of that species during the fishing trip or 15 percent of the MRA for that species, whichever is lower. |
| (3) retention of an IR/IU species is prohibited,         | equal zero.                                                                                                                                                                          |

(j) *Groundfish retention standard.* (Effective January 20, 2008)—(1) *Applicability.* (i) The operator of a catcher/processor not listed in § 679.4(1)(2)(i), not assigned to an Amendment 80 cooperative, and using trawl gear in the BSAI must comply with the GRS set forth under paragraph (j)(4) of this section while fishing for or processing

groundfish caught from the BSAI from January 1 through December 31 of each year.

(ii) An Amendment 80 cooperative and the members of an Amendment 80 cooperative must comply with the GRS set forth under paragraph (j)(4) of this section while fishing for or processing groundfish caught from the BSAI from January 1 through December 31 of each year.

(iii) No part of the GRS supersedes minimum retention or utilization requirements for IR/IU species found in this section.

(2) *Percent of groundfish retained calculation for a catcher/processor not in an Amendment 80 cooperative.* For any fishing year, the percent of groundfish retained by each catcher/processor not listed in § 679.4(1)(2)(i), not assigned to an Amendment 80 cooperative, and using trawl gear in the BSAI will be calculated using the following equations:

$$\text{GFroundweight} = \sum_{i=1}^n (\text{PWspecies}_n / \text{PRRspecies}_n)$$

Substituting the value for GFroundweight into the following equation:

$$\text{GFR}\% = (\text{GFroundweight} / \text{TotalGF}) * 100$$

Where:

GFroundweight is the total annual round weight equivalent of all retained product weights for each IR/IU groundfish species.

PWspecies<sub>n</sub> is the total annual product weight for each groundfish species listed in Table 2a to this part by product type as reported in the vessel's weekly production report required at § 679.5(i).

PRRspecies<sub>n</sub> is the standard product recovery rate for each groundfish species and product combination listed in Table 3 to this part.

GFR% is the groundfish retention percentage for a vessel calculated as

GFroundweight divided by the total weight of groundfish catch.

TotalGF is the total groundfish round catch weight as measured by the flow scale measurement, less any non-groundfish, PSC species or groundfish species on prohibited species status under § 679.20.

(3) *Percent of groundfish retained calculation for an Amendment 80 cooperative.* For each Amendment 80 cooperative, for any fishing year, the percent of groundfish retained by that Amendment 80 cooperative is based on the aggregate groundfish retained by all Amendment 80 vessels assigned to that Amendment 80 cooperative and will be calculated using the following equations:

$$\text{GFroundweight} = \sum_{i=1}^n (\text{PWspecies}_n / \text{PRRspecies}_n)$$

## Fishery Conservation and Management

## § 679.27

Substituting the value for GFroundweight into the following equation:

$$\text{GFR}\% = (\text{GFroundweight} / \text{TotalGF}) * 100$$

Where:

GFroundweight is the total annual round weight equivalent of all retained product weights retained by all Amendment 80 vessels assigned to that Amendment 80 cooperative for each IR/IU groundfish species.

PWspecies<sub>n</sub> is the total annual product weight for each groundfish species listed in Table 2a to this part by product type as reported in the vessel's weekly production report for all Amendment 80 vessels assigned to that Amendment 80 cooperative required at § 679.5(i).

PRRspecies<sub>n</sub> is the standard product recovery rate for each groundfish species and product combination listed in Table 3 to this part.

GFR% is the groundfish retention percentage for an Amendment 80 cooperative calculated as GFroundweight divided by the total weight of groundfish catch.

TotalGF is the total groundfish round catch weight for all Amendment 80 vessels assigned to that Amendment 80 cooperative as measured by the flow scale measurement, less any non-groundfish, PSC species or groundfish species on prohibited species status under § 679.20.

(4) *Minimum groundfish retention standard.* An Amendment 80 cooperative or a catcher/processor not listed in § 679.4(1)(2)(i), not assigned to an Amendment 80 cooperative, and using trawl gear in the BSAI must comply with the annual minimum groundfish retention standard requirements displayed in the following table:

GROUNDFISH RETENTION STANDARD

| Year                           | Annual GRS (percent) |
|--------------------------------|----------------------|
| 2008 .....                     | 65                   |
| 2009 .....                     | 75                   |
| 2010 .....                     | 80                   |
| 2011 and each year after ..... | 85                   |

(5) *Monitoring requirements—(i) Observer coverage requirements.* In addition to complying with minimum observer coverage requirements at § 679.50(c), the owner of an Amendment 80 vessel or any other catcher/processor not listed in § 679.4(1)(2)(i) and using trawl gear in the BSAI, must comply with observer coverage requirements as described at §§ 679.50(c)(6), and 679.7(m)(3) at all

times the vessel is used to harvest groundfish in the BSAI with trawl gear.

(ii) *Catch weighing.* For each haul, all catch by an Amendment 80 vessel or any other catcher/processor not listed in § 679.4(1)(2)(i) and using trawl gear in the BSAI must be weighed on a NMFS-approved scale and made available for sampling by a NMFS certified observer at a single location. The owner or operator of an Amendment 80 vessel or a catcher/processor not listed in § 679.4(1)(2)(i) and using trawl gear in the BSAI must ensure that the vessel is in compliance with the scale requirements described at § 679.28(b), that each haul is weighed separately, and that no sorting of catch takes place prior to weighing. All weighed catch must be recorded as required at § 679.5(a)(7)(iv)(C).

(iii) *Observer sampling station.* The owner or operator of an Amendment 80 vessel or any other catcher/processor not listed in § 679.4(1)(2)(i) and using trawl gear in the BSAI must provide an observer sampling station as described at § 679.28(d) and the owner of the vessel must ensure that the vessel operator complies with the observer sampling station requirements described at § 679.28(d) at all times the vessel is used to harvest groundfish in the BSAI. In addition to the requirements at § 679.28(d)(7)(ii), observers must be able to sample all catch from a single point along the conveyer belt conveying unsorted catch, and when standing where unsorted catch is collected, the observer must be able to see that no catch has been removed between the bin and the location along the conveyer belt at which the observers collect their samples.

(6) *Requirements for vessels that also harvest groundfish outside of the BSAI.* The operator of an Amendment 80 vessel, or any other vessel required to comply with paragraph (j) of this section, must offload or transfer all fish or fish product prior to harvesting fish outside the BSAI, unless the operator of the vessel is in compliance with the recordkeeping and reporting and monitoring requirements described at § 679.5(a)(7)(iv)(C) and paragraph (j)(5) of this section at all times the vessel

## § 679.28

## 50 CFR Ch. VI (10–1–08 Edition)

harvests or processes groundfish outside the BSAI.

(7) *Requirements for vessels receiving deliveries of unsorted catch.* The owner or operator of an Amendment 80 vessel, or any other vessel required to comply with this paragraph (j) at any time during a fishing year and who also receives deliveries of unsorted catch at any time during a fishing year must comply with paragraph (j)(5) of this section while processing deliveries of unsorted catch.

[62 FR 63890, Dec. 3, 1997, as amended at 62 FR 65381, Dec. 12, 1997; 68 FR 52144, Sept. 2, 2003; 69 FR 32903, June 14, 2004; 71 FR 17381, Apr. 6, 2006; 72 FR 52722, Sept. 14, 2007]

### § 679.28 Equipment and operational requirements.

(a) *Applicability.* This section contains the requirements for scales, observer sampling stations, bins for volumetric estimates, and vessel monitoring system hardware. This section does not require any vessel or processor to provide this equipment. Such requirements appear elsewhere in this part.

(b) *Scales used to weigh catch at sea.* In order to be approved by NMFS a scale used to weigh catch at sea must meet the type evaluation requirements set forth in paragraph (b)(1) of this section and the initial inspection and annual reinspection requirements set forth in paragraph (b)(2) of this section. Once a scale is installed on a vessel and approved by NMFS for use to weigh catch at sea, it must be reinspected annually and must be tested daily and meet the maximum permissible error (MPE) requirements described in paragraph (b)(3) of this section.

(1) *List of scales eligible for approval.* The model of scale must be included on the Regional Administrator's list of scales eligible to be approved for weighing catch at sea before an inspector will schedule or conduct a scale inspection under paragraph (b)(2) of this section. A scale will be included on the list when the Regional Administrator receives the information specified in paragraphs (b)(1)(i) through (iv) of this section. This information identifies and describes the scale, sets forth contact information regarding the manufacturer, and sets forth the results of

required type evaluations and testing. Type evaluation and testing must be conducted by a laboratory accredited by the government of the country in which the tests are conducted.

(i) *Information about the scale.* (A) Name of scale manufacturer.

(B) Name of manufacturer's representative.

(C) Mailing address of scale manufacturer and manufacturer's representative.

(D) Telephone and fax number of manufacturer's representative.

(E) Model and serial number of the scale tested.

(F) A written description of the scale and diagrams explaining how the scale operates and how it compensates for motion.

(G) A list of the model numbers of all scales for which type evaluation results are applicable, identifying the differences between the model evaluated in the laboratory and other models listed. The scales may differ only in the elements of the scale that perform motion compensation, the size or capacity of the scale, and the software used by the scale.

(H) A list of types of scale adjustments that will be recorded on the audit trail, including the name of the adjustment as it will appear on the audit trail, and a written description of the adjustment.

(ii) *Information about the laboratory.* (A) Name of laboratory.

(B) Mailing address of laboratory.

(C) Telephone and fax number of laboratory's representative.

(D) Name and address of government agency accrediting the laboratory.

(E) Name and signature of person responsible for evaluation of the scale and the date of signature.

(iii) *Checklist.* A completed checklist indicating that all applicable technical and performance standards in appendix A to this part and the laboratory tests in the annex to appendix A to this part have been met.

(iv) *Verification of test results.* Verification that a scale meets the laboratory evaluation and testing requirements in appendix A of this part and each of the influence quantity and disturbance tests as specified in the annex to appendix A to this part:

(A) Test results and data on forms supplied by NMFS;

(B) National Type Evaluation Program (NTEP) Certificates of Conformance, test results and data for a component of a scale or for the entire device. NTEP Certificates of Conformance, test results, and data may be submitted only in lieu of the specific influence factor tests conducted to obtain the NTEP Certificates of Conformance. Additional information must be submitted to verify compliance with the laboratory tests that are not performed under the NTEP; and/or

(C) International Organization of Legal Metrology (OIML) Certificates of Conformance, test results and data.

(v) *Exceptions.* A scale manufacturer or their representative may request that NMFS approve a custom built automatic hopper scale under the following conditions:

(A) The scale electronics are the same as those used in other scales on the Regional Administrator's list of scales eligible for approval;

(B) Load cells have received Certificates of Conformance from NTEP or OIML;

(C) The scale compensates for motion in the same manner as other scales made by that manufacturer which have been listed on the Regional Administrator's list of scales eligible for approval;

(D) The scale, when installed, meets all of the requirements set forth in paragraph 3 of appendix A to this part, except those requirements set forth in paragraph 3.2.1.1.

(2) *Inspection of at-sea scales*—(i) *What is an inspection?* An inspection is a visual assessment and test of a scale after it is installed on the vessel and while the vessel is tied up at a dock and not under power at sea to determine if the scale meets all of the applicable performance and technical requirements in paragraph (b)(2) of this section and in appendix A to this part. A scale will be approved by the inspector if it meets all of the applicable performance and technical requirements in paragraph (b)(2) of this section and appendix A to this part.

(ii) *How often must a scale be inspected?* Each scale must be inspected and approved before the vessel may

participate in any fishery requiring the weighing of catch at sea with an approved scale. Each scale must be reinspected within 12 months of the date of the most recent inspection.

(iii) *Who may perform scale inspections?* Scales must be inspected by either a NMFS staff scale inspector or a scale inspector employed by a weights and measures agency designated by NMFS to perform scale inspections on its behalf. A list of authorized scale inspectors is available from the Regional Administrator upon request. Scale inspections are paid for by NMFS.

(A) *Inspectors from an agency designated by NMFS.* Inspectors employed by a weights and measures agency designated by NMFS to perform scale inspections on behalf of NMFS. Scale inspections by such inspectors are paid for by NMFS.

(B) *Inspectors from other agencies.* Inspectors employed by a U.S., state, or local weights and measures agency other than the weights and measures agency designated by NMFS and meeting the following requirements:

(1) The inspector successfully completes training conducted by a scale inspector from the weights and measures agency designated by NMFS to perform scale inspections on behalf of NMFS. The training consists of observing a scale inspection conducted by a scale inspector designated by NMFS and conducting an inspection under the supervision of a scale inspector designated by NMFS. The inspector must obtain this training for each type of scale inspected.

(2) The inspector notifies NMFS in writing that he/she meets the requirements of this paragraph (b)(2)(iii)(B) prior to conducting any inspections.

(3) Inspectors from agencies other than the weights and measures agency designated by NMFS to perform scale inspections on behalf of NMFS must notify the Regional Administrator of the date, time, and location of the scale inspection at least 3 working days before the inspection is conducted so that NMFS staff may have the opportunity to observe the inspection.

(iv) *How does a vessel owner arrange for a scale inspection?* The time and place of the inspection may be arranged by contacting the authorized

scale inspectors. Vessel owners must request a scale inspection at least 10 working days in advance of the requested inspection by contacting an authorized scale inspector at the address indicated on the list of authorized inspectors.

(v) Where will scale inspections be conducted? Scales inspections by inspectors paid by NMFS will be conducted on vessels tied up at docks in Kodiak, Alaska, Dutch Harbor, Alaska, and in the Puget Sound area of Washington State.

(vi) *Responsibilities of the vessel owner during a scale inspection.* After the vessel owner has installed a model of scale that is on the Regional Administrator's list of scales eligible to be approved for weighing catch at sea, the vessel owner must:

(A) Make the vessel and scale available for inspection by a scale inspector authorized by the Regional Administrator.

(B) Provide a copy of the scale manual supplied by the scale manufacturer to the inspector at the beginning of the inspection.

(C) Transport test weights, test material, and equipment required to perform the test to and from the inspector's vehicle and the location on the vessel where the scale is installed.

(D) Apply test weights to the scale or convey test materials across the scale, if requested by the scale inspector.

(E) Assist the scale inspector in performing the scale inspection and testing.

(vii) *Scale inspection report.* (A) A scale is approved for use when the scale inspector completes and signs a scale inspection report verifying that the scale meets all of the requirements specified in this paragraph (b)(2) and appendix A to this part.

(B) The scale inspector must provide the original inspection report to the vessel owner and a copy to NMFS.

(C) The vessel owner must either:

(1) Maintain a copy of the report on board when use of the scale is required and make the report available to the observer, NMFS personnel, or an authorized officer, upon request, or;

(2) Display a valid NMFS-sticker on each approved scale.

(D) When in use, an approved scale must also meet the requirements described in paragraphs (b)(3) through (b)(6) of this section.

(3) *At-sea scale tests.* To verify that the scale meets the MPEs specified in this paragraph (b)(3), the vessel operator must test each scale or scale system used to weigh total catch one time during each 24-hour period when use of the scale is required. The vessel owner must ensure that these tests are performed in an accurate and timely manner.

(i) *Belt scales and automatic hopper scales.* (A) The MPE in the daily at-sea scale tests is plus or minus 3 percent of the known weight of the test material.

(B) *Test procedure.* A material test must be conducted by weighing at least 400 kg of fish or an alternative material supplied by the scale manufacturer on the scale under test. The known weight of the test material must be determined by weighing it on a platform scale approved for use under paragraph (b)(7) of this section.

(ii) *Platform and hanging scales.* (A) The MPE for platform and hanging scales is plus or minus 0.5 percent of the known weight of the test material.

(B) *Test weights.* Each test weight must have its weight stamped on or otherwise permanently affixed to it. The weight of each test weight must be annually certified by a National Institute of Standards and Technology approved metrology laboratory or approved for continued use by the NMFS authorized inspector at the time of the annual scale inspection. The amount of test weights that must be provided by the vessel owner is specified in paragraphs (b)(3)(ii)(B)(1) and (b)(3)(ii)(B)(2) of this section.

(1) *Platform scales used as observer sampling scales or to determine the known weight of test materials.* Any combination of test weights that will allow the scale to be tested at 10 kg, 25 kg, and 50 kg.

(2) *Scales used to weigh total catch.* Test weights equal to the largest amount of fish that will be weighed on the scale in one weighing.

(iii) *Requirements for all scale tests.* (A) Notify the observer at least 15 minutes before the time that the test will be

conducted, and conduct the test while the observer is present.

(B) Conduct the scale test by placing the test material or test weights on or across the scale and recording the following information on the at-sea scale test report form:

- (1) Vessel name;
- (2) Month, day, and year of test;
- (3) Time test started to the nearest minute;
- (4) Known weight of test material or test weights;
- (5) Weight of test material or test weights recorded by scale;
- (6) Percent error as determined by subtracting the known weight of the test material or test weights from the weight recorded on the scale, dividing that amount by the known weight of the test material or test weights, and multiplying by 100; and
- (7) Sea conditions at the time of the scale test.

(C) Maintain the test report form on board the vessel until the end of the fishing year during which the tests were conducted, and make the report forms available to observers, NMFS personnel, or an authorized officer. In addition, the scale test report forms must be retained by the vessel owner for 3 years after the end of the fishing year during which the tests were performed. All scale test report forms must be signed by the vessel operator.

(4) *Scale maintenance.* The vessel owner must ensure that the vessel operator maintains the scale in proper operating condition throughout its use; that adjustments made to the scale are made so as to bring the performance errors as close as practicable to a zero value; and that no adjustment is made that will cause the scale to weigh fish inaccurately.

(5) *Printed reports from the scale* (not applicable to observer sampling scales). The vessel owner must ensure that the printed reports are provided as required by this paragraph. Printed reports from the scale must be maintained on board the vessel until the end of the year during which the reports were made and be made available to observers, NMFS personnel, or an authorized officer. In addition, printed reports must be retained by the vessel owner for 3 years after the end of the

year during which the printouts were made.

(i) *Reports of catch weight and cumulative weight.* Reports must be printed at least once every 24 hours when use of the scale is required. Reports must also be printed before any information stored in the scale computer memory is replaced. Scale weights must not be adjusted by the scale operator to account for the perceived weight of water, mud, debris, or other materials. Scale printouts must show:

- (A) The vessel name and Federal fisheries or processor permit number;
- (B) The haul or set number as recorded in the processor's DCPL (see § 679.5);
- (C) The total weight of the haul or set;
- (D) The total cumulative weight of all fish or other material weighed on the scale.

(ii) *Printed report from the audit trail.* The printed report must include the information specified in sections 2.3.1.8, 3.3.1.7, and 4.3.1.8 of appendix A to this part. The printed report must be provided to the authorized scale inspector at each scale inspection and must also be printed at any time upon request of the observer, the scale inspector, NMFS staff, or an authorized officer.

(6) *Scale installation requirements.* The scale display must be readable from where the observer collects unsorted catch.

(7) *Platform scales used as observer sampling scales or to determine the known weight of test materials.* Platform scales used only as observer sampling scales or to determine the known weight of fish for a material test of another scale are required to meet all of the requirements of paragraph (b) of this section and appendix A to this part except sections 4.3.1 and 4.3.1.5 of appendix A to this part (printer) or section 4.3.1.8 (audit trail) of appendix A to this part.

(c) *Scales approved by the State of Alaska.* Scale requirements in this paragraph are in addition to those requirements set forth by the State of Alaska, and nothing in this paragraph may be construed to reduce or supersede the authority of the State to regulate, test, or approve scales within the State of Alaska or its territorial sea. Scales used to weigh groundfish catch that

§ 679.28

50 CFR Ch. VI (10–1–08 Edition)

are also required to be approved by the State of Alaska under Alaska Statute 45.75 must meet the following requirements:

(1) *Verification of approval.* The scale must display a valid State of Alaska sticker indicating that the scale was inspected and approved within the previous 12 months.

(2) *Visibility.* The owner and manager of the processor must ensure that the scale and scale display are visible simultaneously to the observer. Observers, NMFS personnel, or an authorized officer must be allowed to observe the weighing of fish on the scale and be allowed to read the scale display at all times.

(3) *Printed scale weights.* (i) The owner and manager of the processor must ensure that printouts of the scale weight of each haul, set, or delivery are made available to observers, NMFS personnel, or an authorized officer at the time printouts are generated and thereafter upon request for the duration of the fishing year. The owner and manager must retain scale printouts as records as specified in § 679.5(a)(13).

(ii) A scale identified in a CMCP (see paragraph (g) of this section) must produce a printed record for each delivery, or portion of a delivery, weighed on that scale. If approved by NMFS as part of the CMCP, scales not designed for automatic bulk weighing may be exempted from part or all of the printed record requirements. The printed record must include:

- (A) The processor name;
- (B) The weight of each load in the weighing cycle;
- (C) The total weight of fish in each delivery, or portion of the delivery that was weighed on that scale;
- (D) The total cumulative weight of all fish or other material weighed on the scale since the last annual inspection;
- (E) The date and time the information is printed;
- (F) The name and ADF&G number of the vessel making the delivery. This information may be written on the scale printout in pen by the scale operator at the time of delivery.

(4) *Inseason scale testing.* Scales identified in an approved CMCP (see paragraph (g) of this section) must be test-

ed by plant personnel in accordance with the CMCP when testing is requested by NMFS-staff or NMFS-authorized personnel. Plant personnel must be given no less than 20 minutes notice that a scale is to be tested and no testing may be requested if a scale test has been requested and the scale has been found to be accurate within the last 24 hours.

(i) *How does a scale pass an inseason test?* To pass an inseason test, NMFS staff or NMFS-authorized personnel will verify that the scale display and printed information are clear and easily read under all conditions of normal operation, weight values are visible on the display until the value is printed, and the scale does not exceed the maximum permissible errors specified below:

| Test Load in Scale Divisions | Maximum Error in Scale Divisions |
|------------------------------|----------------------------------|
| (A) 0–500 .....              | 1                                |
| (B) 501–2,000 .....          | 2                                |
| (C) 2,001–4,000 .....        | 3                                |
| (D) >4,000 .....             | 5                                |

(ii) How much weight is required to do an inseason scale test? Scales must be tested with the amount and type of weight specified for each scale type in the following tables:

(A) Automatic hopper 0 to 150 kg (0 to 300 lb) capacity.

| Certified Test Weights                                    | Other test material |
|-----------------------------------------------------------|---------------------|
| (1) Minimum weight or 10 kg (20 lb), whichever is greater | Minimum             |
| (2) Maximum                                               | Maximum             |

(B) Automatic hopper > 150 kg (300 lb) capacity.

| Certified Test Weights                                              | Other test material |
|---------------------------------------------------------------------|---------------------|
| (1) Minimum weight or 10 kg (20 lb), whichever is greater           | Minimum             |
| (2) 25 percent of maximum or 150 kg (300 lb), whichever is greater. | Maximum             |

(C) Platform or flatbed 0 to 150 kg (0 to 300 lb) capacity.

| Certified Test Weights | Other test material |
|------------------------|---------------------|
| (1) 10 kg (20 lb)      | Not Acceptable      |
| (2) Midpoint           | Not Acceptable      |
| (3) Maximum            | Not Acceptable      |

## Fishery Conservation and Management

## § 679.28

(D) Platform or flathead > 150 kg (300 lb) capacity.

| <i>Certified Test Weights</i>                                       | <i>Other test material</i>                                     |
|---------------------------------------------------------------------|----------------------------------------------------------------|
| (1) 10 kg (20 lb)                                                   | Not Acceptable                                                 |
| (2) 12.5 percent of maximum or 75 kg (150 lb), whichever is greater | 50 percent of maximum or 75 kg (150 lb), whichever is greater  |
| (3) 25 percent of maximum or 150 kg (300 lb), whichever is greater  | 75 percent of maximum or 150 kg (300 lb), whichever is greater |

(E) Observer sampling scale > 50 kg capacity.

| <i>Certified Test Weights</i> | <i>Other test material</i> |
|-------------------------------|----------------------------|
| (1) 10 kg                     | Not Acceptable             |
| (2) 25 kg                     | Not Acceptable             |
| (3) 50 kg                     | Not Acceptable             |

(iii) *Certified test weights.* Each test weight used for inseason scale testing must have its weight stamped on or otherwise permanently affixed to it. The weight of each test weight must be certified by a National Institute of Standards and Technology approved metrology laboratory every 2 years. An observer platform scale must be provided with sufficient test weights to test the scale at 10 kg, 25 kg, and 50 kg. All other scales identified in an approved CMCP must be provided with sufficient test weights to test the scale as described in this paragraph (c)(4) of this section. Test weights for observer platform scales must be denominated in kilograms. Test weights for other scales may be denominated in pounds.

(iv) *Other test material.* When permitted in paragraph (c)(4)(ii) of this section, a scale may be tested with test material other than certified test weights. This material must be weighed on an accurate observer platform scale at the time of each use.

(v) *Observer sampling scales.* Platform scales used as observer sampling scales must:

(A) Have a capacity of no less than 50 kg;

(B) Have a division size of no less than 5 g;

(C) Indicate weight in kilograms and decimal subdivisions; and

(D) Be accurate within plus or minus 0.5 percent when tested at 10 kg, 25 kg, and 50 kg by NMFS staff or a NMFS-certified observer.

(d) *Observer sampling station—(1) Accessibility.* All of the equipment re-

quired for an observer sampling station must be available to the observer at all times while a sampling station is required and the observer is aboard the vessel, except that the observer sampling scale may be used by vessel personnel to conduct material tests of the scale used to weigh total catch under paragraph (b)(3) of this section, as long as the use of the observer's sampling scale by others does not interfere with the observer's sampling duties.

(2) *Location—(i) Motherships and catcher/processors or catcher vessels using trawl gear.* The observer sampling station must be located within 4 m of the location from which the observer collects unsorted catch. Clear, unobstructed passage must be provided between the observer sampling station and the location where the observer collects unsorted catch. When standing where unsorted catch is sampled, the observer must be able to see that no fish have been removed between the bin and the scale used to weigh total catch.

(ii) *Vessels using nontrawl gear.* The observer sampling station must be located within 5 m of the collection area, described at § 679.28(d)(7)(ii)(B), unless any location within this distance is unsafe for the observer. Clear, unobstructed passage must be provided between the observer sampling station and the collection area. Access must be provided to the tally station, described at § 679.28(d)(7)(ii)(A). NMFS may approve an alternative location if the vessel owner submits a written proposal describing the alternative location and the reasons why a location within 5 m of where fish are brought on board the vessel is unsafe, and the proposed observer sampling station meets all other applicable requirements of this section.

(iii) *What is clear, unobstructed passage?* Where clear and unobstructed passage is required, passageways must be at least 65 cm wide at their narrowest point, be free of tripping hazards, and be at least 1.8 m high. Doorways or companionways must be free of obstacles.

(3) *Minimum work space.* The observer must have a working area for sampling of at least 4.5 square meters. This working area includes the observer's sampling table. The observer must be

able to stand upright and have a work area at least 0.9 m deep in the area in front of the table and scale.

(4) *Table.* The observer sampling station must include a table at least 0.6 m deep, 1.2 m wide and 0.9 m high and no more than 1.1 m high. The entire surface area of the table must be available for use by the observer. Any area used for the observer sampling scale is in addition to the minimum space requirements for the table. The observer's sampling table must be secured to the floor or wall.

(5) *Observer sampling scale.* The observer sampling station must include a NMFS-approved platform scale with a capacity of at least 50 kg located within 1 m of the observer's sampling table. The scale must be mounted so that the weighing surface is no more than 0.7 m above the floor. The scale must be approved by NMFS under paragraph (b) of this section and must meet the maximum permissible error requirement specified in paragraph (b)(3)(ii)(A) of this section when tested by the observer.

(6) *Other requirements.* The sampling station must include flooring that prevents slipping and drains well (grating or other material where appropriate), adequate lighting, and a hose that supplies fresh or sea water to the observer.

(7) *Requirements for sampling catch—(i) Motherships and catcher/processors using trawl gear.* The conveyor belt conveying unsorted catch must have a removable board to allow fish to be diverted from the belt directly into the observer's sampling baskets. The diverter board must be located downstream of the scale used to weigh total catch so that the observer can use this scale to weigh large samples. At least 1 m of accessible belt space, located downstream of the scale used to weigh total catch, must be available for the observer's use when sampling a haul.

(ii) *Catcher/processors using non-trawl gear.* In addition to the sampling station, vessels using non-trawl gear must provide: (A) *Tally station.* A place where the observer can see the gear as it leaves the water and can count and identify fish. It must be within 5 m of where fish are brought aboard the vessel and in a location where the observer is not in danger of falling over-

board or being injured during gear retrieval. Where exposed to wind or seas, it must be equipped with a railing at least 1.0 m high, grating or other non-slip material, and adequate lighting.

(B) *Collection area.* A collection area is a place where the observer, or vessel crew under the observer's guidance, collects fish as they come off the line or are removed from pots. It must be located where the observer can see the gear when it leaves the water. Where exposed to wind or seas, it must be equipped with a railing at least 1.0 m high and grating or other non-slip material.

(8) *Inspection of the observer sampling station.* Each observer sampling station must be inspected and approved by NMFS prior to its use for the first time and then one time each year within 12 months of the date of the most recent inspection with the following exceptions: If the observer sampling station is moved or if the space or equipment available to the observer is reduced or removed when use of the observer sampling station is required, the observer sampling station inspection report issued under this section is no longer valid, and the observer sampling station must be reinspected and approved by NMFS. Inspection of the observer sampling station is in addition to inspection of the at-sea scales by an authorized scale inspector required at paragraph (b)(2) of this section.

(i) *How does a vessel owner arrange for an observer sampling station inspection?* The owner may arrange the inspection time and place by submitting to NMFS by fax (206-526-4066) or e-mailing ([station.inspections@noaa.gov](mailto:station.inspections@noaa.gov)) an Inspection Request for Observer Sampling Station available on the NMFS Alaska Region Web site at <http://www.fakr.noaa.gov>. Inspections will be scheduled no later than 10 working days after NMFS receives a complete application for an inspection. The owner must provide the following information:

(A) Name and signature of the person submitting the application, and the date of the application.

(B) Business mailing address, telephone number, and fax number of the person submitting the application.

(C) Whether the vessel or processor has received an observer sampling scale inspection before and, if so, the date of the most recent inspection report.

(D) Vessel name and name of contact person on vessel.

(E) Federal fishery permit number.

(F) Location of vessel where sampling station inspection is requested to occur, including street address and city.

(G) Requested inspection date.

(H) For catcher/processors using trawl gear and motherships, a diagram drawn to scale showing the location(s) where all catch will be weighed, the location where observers will sample unsorted catch, and the location of the observer sampling station including the observer sampling scale, and the name of the manufacturer and model of the observer sampling scale.

(I) For all other vessels, a diagram drawn to scale showing the location(s) where catch comes on board the vessel, the location where observers will sample unsorted catch, the location of the observer sampling station, including the observer sampling scale, and the name of the manufacturer and model of the observer sampling scale.

(J) For all vessels, a copy of the most recent scale inspection report issued under paragraph (b)(2) of this section.

(ii) Where will observer sample station inspections be conducted? Inspections will be conducted on vessels tied up at docks in Kodiak, Alaska, Dutch Harbor, Alaska, and in the Puget Sound area of Washington State.

(iii) *Observer sampling station inspection report.* An observer sampling station inspection report, valid for 12 months from the date it is signed by NMFS, will be issued to the vessel owner if the observer sampling station meets the requirements in this paragraph (d). The vessel owner must maintain a current observer sampling station inspection report on board the vessel at all times when the vessel is required to provide an observer sampling station approved for use under this paragraph (d). The observer sampling station inspection report must be made available to the observer, NMFS personnel, or to an authorized officer upon request.

(e) *Certified bins for volumetric estimates of catch weight*—(1) *Certification.* The information required in this paragraph (e) must be prepared, dated, and signed by a licensed engineer with no financial interest in fishing, fish processing, or fish tendering vessels. Complete bin certification documents must be submitted to the Regional Administrator prior to harvesting or receiving groundfish from a fishery in which certified bins are required and must be on board the vessel and available to the observer at all times.

(2) *Specifications*—(i) *Measurement and marking.* The volume of each bin must be determined by accurate measurement of the internal dimensions of the bin. The internal walls of the bin must be permanently marked and numbered in 10-cm increments indicating the level of fish in the bin in cm. All marked increments and numerals must be readable from the outside of the bin through a viewing port or hatch at all times. Marked increments are not required on the wall in which the viewing port is located, unless such increments are necessary to determine the level of fish in the bin from another viewing port. Bins must be lighted in a manner that allows marked increments to be read from the outside of the bin by an observer or authorized officer. For bin certification documents dated after July 6, 1998, the numerals at the 10-cm increment marks must be at least 4 cm high.

(ii) *Viewing ports.* Each bin must have a viewing port or ports from which the internal bin markings and numerals on all walls of the bin can be seen from the outside of the bin, except that bin markings and numerals are not required on the wall in which the viewing port is placed, if that wall cannot be seen from any other viewing port in the bin.

(3) *Information required.* For bin certification documents submitted after July 6, 1998, the person certifying the bins must provide:

(i) The vessel name;

(ii) The date the engineer measured the bins and witnessed the location of the marked increments and numerals;

(iii) A diagram, to scale, of each bin showing the location of the marked increments on each internal wall of the

bin, the location, and dimensions of each viewing port or hatch, and any additional information needed to estimate the volume of fish in the bin;

(iv) Tables indicating the volume of each certified bin in cubic meters for each 10-cm increment marked on the sides of the bins;

(v) Instructions for determining the volume of fish in each bin from the marked increments and table; and

(vi) The person's name and signature and the date on which the completed bin certification documents were signed.

(4) *Recertification.* The bin's volume and the marked and numbered increments must be recertified if the bin is modified in a way that changes its size or shape or if marking strips or marked increments are moved or added.

(5) *Operational requirements*—(i) *Placement of catch in certified bins.* All catch must be placed in a bin certified under this paragraph (e) to estimate total catch weight prior to sorting. Refrigerated seawater tanks may be used for volumetric estimates only if the tanks comply with all other requirements of this paragraph (e). No adjustments of volume will be made for the presence of water in the bin or tank.

(ii) *Prior notification.* Vessel operators must notify observers prior to any removal of fish from or addition of fish to each bin used for volumetric measurements of catch so that an observer may make bin volume estimates prior to fish being removed from or added to the bin. Once a volumetric estimate has been made, additional fish may not be added to the bin until at least half the original volume has been removed. Fish may not be removed from or added to a bin used for volumetric estimates of catch weight until an observer indicates that bin volume estimates have been completed and any samples of catch required by the observer have been taken.

(iii) Fish from separate hauls or deliveries from separate harvesting vessels may not be mixed in any bin used for volumetric measurements of catch.

(iv) The bins must not be filled in a manner that obstructs the viewing ports or prevents the observer from seeing the level of fish throughout the bin.

(f) *Vessel Monitoring System (VMS) Requirements*—(1) *What is a VMS?* A VMS consists of a NMFS-approved VMS transmitter that automatically determines the vessels position and transmits it to a NMFS-approved communications service provider. The communications service provider receives the transmission and relays it to NMFS.

(2) *How are VMS transmitters and communications service providers approved by NMFS?* (i) NMFS publishes type approval specifications for VMS components in the FEDERAL REGISTER.

(ii) Transmitter manufacturers or communication service providers may submit products or services to NMFS for evaluation based on the published specifications.

(iii) NMFS will publish a list of NMFS-approved transmitters and communication service providers in the FEDERAL REGISTER. As necessary, NMFS will publish amendments to the list of approved components in the FEDERAL REGISTER.

(3) *What are the vessel owner's responsibilities?* If you are a vessel owner that must participate in a VMS, you or your crew must:

(i) Obtain a NMFS-approved VMS transmitter and have it installed on-board your vessel in accordance with the instructions provided by NMFS. You may get a copy of the VMS installation and operation instructions from the Regional Administrator upon request.

(ii) Activate the VMS transmitter and receive confirmation from NMFS that the VMS transmissions are being received before engaging in operations when a VMS is required.

(iii) Continue the VMS transmissions until no longer engaged in operations requiring VMS.

(iv) Stop fishing immediately if:

(A) Informed by NMFS staff or an authorized officer that NMFS is not receiving position reports from the VMS transmitter, or

(B) The vessel operator determines that the VMS is not transmitting properly.

(v) Make the VMS transmitter available for inspection by NMFS personnel, observers or an authorized officer.

## Fishery Conservation and Management

## § 679.28

(vi) Ensure that the VMS transmitter is not tampered with, disabled, destroyed or operated improperly.

(vii) Pay all charges levied by the communication service provider.

(4) What must the vessel owner do before activating a VMS transmitter for the first time? If you are a vessel owner who must use a VMS and you are activating a VMS transmitter for the first time, you must:

(i) Contact the OLE by Facsimile (907-586-7703) and provide: the VMS transmitter ID, the vessel name, the Federal Fisheries Permit number or Federal crab vessel permit number.

(ii) Call NMFS enforcement at 907-586-7225, Monday through Friday, between the hours of 0800 hours, A.l.t., and 1630 hours, A.l.t., at least 72 hours before leaving port and receive confirmation that the transmissions are being received.

(5) *What must the vessel owner do when the vessel replaces a VMS transmitter?* If you are a vessel owner who must use a VMS and you wish to replace a transmitter, you must either:

(i) Have followed the reporting and confirmation procedure for the replacement transmitter, as described above in paragraph (f)(4) of this section, or

(ii) Contact the NMFS Enforcement Division by phone or FAX and provide: the replacement VMS transmitter ID, the vessel name and the vessel's Federal Fisheries Permit Number and receive confirmation that the transmissions are being received before beginning operations.

(6) *When must the VMS transmitter be transmitting?* Your vessel's transmitter must be transmitting if:

(i) You operate a vessel in any reporting area (see definitions at § 679.2) off Alaska while any fishery requiring VMS, for which the vessel has a species and gear endorsement on its Federal Fisheries Permit under § 679.4(b)(5)(vi), is open.

(ii) You operate a vessel required to be federally permitted in reporting areas located in the Aleutian Islands subarea or operate a federally permitted vessel in adjacent State waters;

(iii) You operate a vessel required to be federally permitted with mobile bottom contact gear onboard in reporting areas located in the GOA or operate a

federally permitted vessel with mobile bottom contact gear onboard in adjacent State waters; or

(iv) When that vessel is required to use functioning VMS equipment in the Rockfish Program as described in § 679.7(n)(3).

(g) *Catch monitoring and control plan requirements (CMCP)*—(1) *What is a CMCP?* A CMCP is a plan submitted by the owner and manager of a processing plant, and approved by NMFS, detailing how the processing plant will meet the catch monitoring and control standards detailed in paragraph (g)(7) of this section.

(2) *Who is required to prepare and submit a CMCP for approval?* The owner and manager of shoreside or stationary floating processors receiving fish harvested in the following fisheries must prepare, submit, and have approved a CMCP prior to the receipt of fish harvested in these fisheries:

(i) AFA pollock,

(ii) AI directed pollock,

(iii) Rockfish Program, unless those fish are harvested under the entry level rockfish fishery as described under § 679.83.

(3) *How is a CMCP approved by NMFS?* NMFS will approve a CMCP if it meets all the requirements specified in paragraph (g)(7) of this section. The processor must be inspected by NMFS prior to approval of the CMCP to ensure that the processor conforms to the elements addressed in the CMCP. NMFS will complete its review of the CMCP within 14 working days of receiving a complete CMCP and conducting a CMCP inspection. If NMFS disapproves a CMCP, the plant owner or manager may resubmit a revised CMCP or file an administrative appeal as set forth under the administrative appeals procedures described at § 679.43.

(4) *How is a CMCP inspection arranged?* The time and place of a CMCP inspection may be arranged by submitting a written request for an inspection to NMFS, Alaska Region. NMFS will schedule an inspection within 10 working days after NMFS receives a complete application for an inspection. The inspection request must include:

(i) Name and signature of the person submitting the application and the date of the application;

(ii) Address, telephone number, fax number, and email address (if available) of the person submitting the application;

(iii) A proposed CMCP detailing how the processor will meet each of the performance standards in paragraph (g)(7) of this section.

(5) *For how long is a CMCP approved?* NMFS will approve a CMCP for 1 year if it meets the performance standards specified in paragraph (e)(2) of this section. An owner or manager must notify NMFS in writing if changes are made in plant operations or layout that do not conform to the CMCP.

(6) *How do I make changes to my CMCP?* An owner and manager may change an approved CMCP by submitting a CMCP addendum to NMFS. NMFS will approve the modified CMCP if it continues to meet the performance standards specified in paragraph (e)(2) of this section. Depending on the nature and magnitude of the change requested, NMFS may require a CMCP inspection as described in paragraph (g)(3) of this section. A CMCP addendum must contain:

(i) Name and signature of the person submitting the addendum;

(ii) Address, telephone number, fax number and email address (if available) of the person submitting the addendum;

(iii) A complete description of the proposed CMCP change.

(7) *Catch monitoring and control standards*—(i) *Catch sorting and weighing requirements.* All groundfish delivered to the plant must be sorted and weighed by species. The CMCP must detail the amount and location of space for sorting catch, the number of staff assigned to catch sorting and the maximum rate that catch will flow through the sorting area.

(ii) *Scales used for weighing groundfish.* The CMCP must identify by serial number each scale used to weigh groundfish and describe the rationale for its use.

(iii) *Scale testing procedures.* Scales identified in the CMCP must be accurate within the limits specified in paragraph (c)(4)(i) of this section. For each scale identified in the CMCP a testing plan must be developed that:

(A) Describes the procedure the plant will use to test the scale;

(B) Lists the test weights and equipment required to test the scale;

(C) Lists where the test weights and equipment will be stored; and

(D) Lists the plant personnel responsible for conducting the scale testing.

(iv) *Printed record.* The owner and manager must ensure that the scale produces a complete and accurate printed record of the weight of each species in a delivery. All of the groundfish in a delivery must be weighed on a scale capable of producing a complete printed record as described in paragraph (c)(3) of this section. However, NMFS may exempt scales not designed for automatic bulk weighing from some or all of the printed record requirements if the CMCP identifies any scale that cannot produce a complete printed record, states how the processor will use the scale, and states how the plant intends to produce a complete record of the total weight of each delivery.

(v) *Delivery point.* Each CMCP must identify a single delivery point. The delivery point is the first location where fish removed from a delivering catcher vessel can be sorted or diverted to more than one location. If the catch is pumped from the hold of a catcher vessel or a codend, the delivery point normally will be the location where the pump first discharges the catch. If catch is removed from a vessel by brailing, the delivery point normally will be the bin or belt where the brailer discharges the catch.

(vi) *Observation area.* Each CMCP must designate an observation area. The observation area is a location designated on the CMCP where an individual may monitor the flow of fish during a delivery. The owner and manager must ensure that the observation area meets the following standards:

(A) *Access to the observation area.* The observation area must be freely accessible to NMFS staff or NMFS-authorized personnel at any time a valid CMCP is required.

(B) *Monitoring the flow of fish.* From the observation area, an individual must have an unobstructed view or otherwise be able to monitor the entire flow of fish between the delivery point

and a location where all sorting has taken place and each species has been weighed.

(vii) *Observer work station.* Each CMCP must identify and include an observer work station for the exclusive use of NMFS-certified observers. Unless otherwise approved by NMFS, the work station must meet the following criteria:

(A) *Location of observer work station.* The observer work station must be located in an area protected from the weather where the observer has access to unsorted catch.

(B) *Platform scale.* The observer work station must include a platform scale as described in paragraph (c)(4) of this section;

(C) *Proximity to observer work station.* The observer area must be located near the observer work station. The plant liaison must be able to walk between the work station and the observation area in less than 20 seconds without encountering safety hazards.

(D) *Workspace.* The observer work station must include: A working area of at least 4.5 square meters, a table as specified in paragraph (d)(4) of this section, and meet the other requirements as specified in paragraph (d)(6) of this section.

(E) *Lockable cabinet.* The observer work station must include a secure and lockable cabinet or locker of at least 0.5 cubic meters.

(viii) *Communication with observer.* The CMCP must describe what communication equipment such as radios, pagers or cellular phones, is used to facilitate communications within the plant. The plant owner must ensure that the plant manager provides the NMFS-certified observer with the same communications equipment used by plant staff.

(ix) *Plant liaison.* The CMCP must designate a plant liaison. The plant liaison is responsible for:

(A) Orienting new observers to the plant;

(B) Assisting in the resolution of observer concerns; and

(C) Informing NMFS if changes must be made to the CMCP.

(x) *Scale drawing of plant.* The CMCP must be accompanied by a scale drawing of the plant showing:

(A) The delivery point;

(B) The observation area;

(C) The observer work station;

(D) The location of each scale used to weigh catch; and

(E) Each location where catch is sorted.

(h) [Reserved]

(i) *Bin monitoring*—(1) *Bin monitoring standards.* The vessel owner or operator must comply with the requirements specified in paragraph (i)(1)(i) of this section unless the vessel owner or operator has requested, and NMFS has approved, one of the monitoring options described at paragraph (i)(1)(ii) or (i)(1)(iii) of this section.

(i) *Option 1—No crew in bin or tank.* No crew may enter any bin or tank preceding the point where the observer samples unsorted catch, unless:

(A) The flow of fish has been stopped between the tank and the location where the observer samples unsorted catch;

(B) All catch has been cleared from all locations between the tank and the location where the observer samples unsorted catch;

(C) The observer has been given notice that the vessel crew must enter the tank; and either

(D) The observer is given the opportunity to observe the activities of the person(s) in the tank; or

(E) The observer informs the vessel operator, or his designee, that all sampling has been completed for a given haul, in which case crew may enter a tank containing fish from that haul without stopping the flow of fish or clearing catch between the tank and the observer sampling station.

(iii) *Option 2—Line of sight option.* From the observer sampling station, the location where the observer sorts and weighs samples, and the location from which the observer collects unsorted catch, an observer of average height (between 64 and 74 inches (140 and 160 cm)) must be able to see all areas of the bin or tank where crew could be located preceding the point where the observer samples catch. If clear panels are used to comply with this requirement, those panels must be maintained sufficiently clear to allow an individual with normal vision to read text located two feet inside of the

bin or tank. The text must be written in 87 point type (corresponding to line four on a standard Snellen eye chart) and the text must be readable from the observer sampling station, the location where the observer sorts and weighs samples, and the location from which the observer collects unsorted catch. The observer must be able to view the activities of crew in the bin from these locations.

(iv) *Option 3—Video option.* A vessel must provide and maintain cameras, a monitor, and a digital video recording system for all areas of the bin or tank where crew could be located preceding the point where the observer collects catch. The vessel owner or operator must ensure that:

(A) The system has sufficient data storage capacity to store all video data from an entire trip. Each frame of stored video data must record a time/date stamp in Alaska local time (A.l.t.). At a minimum, all periods of time when fish are inside the bin must be recorded and stored;

(B) The system must include at least one external USB (1.1 or 2.0) port or other removable storage device approved by NMFS;

(C) The system uses commercially available software;

(D) Color cameras must have at a minimum 420 TV lines of resolution, a lux rating of 0.1, and auto-iris capabilities;

(E) The video data must be maintained and made available to NMFS staff, or any individual authorized by NMFS, upon request. These data must be retained onboard the vessel for no less than 120 days after the beginning of a trip, unless NMFS has notified the vessel operator that the video data may be retained for less than this 120-day period;

(F) The system provides sufficient resolution and field of view to see and read a text sample written in 130 point type (corresponding to line two of a standard Snellen eye chart) from any location within the tank where crew could be located;

(G) The system is recording at a speed of no less than 5 frames per second at all times when fish are inside the tank;

(H) A 16-bit or better color monitor, for viewing activities within the tank in real time, is provided within the observer sampling station (or location where the observer sorts and weighs samples, if applicable). The monitor must:

(1) Have the capacity to display all cameras simultaneously;

(2) Be operating at all times when fish are in the tank;

(3) Be securely mounted at or near eye level;

(4) Provide the same resolution as specified in paragraph (i)(1)(iii)(F) of this section.

(I) The observer is able to view any earlier footage from any point in the trip and is assisted by crew knowledgeable in the operation of the system in doing so;

(J) The vessel owner has, in writing, provided the Regional Administrator with the specifications of the system. At a minimum, this must include:

(1) The length and width (in pixels) of each image;

(2) The file type in which the data are recorded;

(3) The type and extent of compression;

(4) The frame rate at which the data will be recorded;

(5) The brand and model number of the cameras used;

(6) The brand, model, and specifications of the lenses used;

(7) A scale drawing of the location of each camera and its coverage area;

(8) The size and type of storage device;

(9) The type, speed, and operating system of any computer that is part of the system;

(10) The individual or company responsible for installing and maintaining the system;

(11) The individual onboard the vessel responsible for maintaining the system and working with the observer on its use; and

(12) Any additional information requested by the Regional Administrator.

(K) Any change to the video system that would affect the system's functionality must be submitted to,

## Fishery Conservation and Management

## § 679.30

and approved by, the Regional Administrator in writing before that change is made.

(v) *Failure of line of sight or video option.* If the observer determines that a monitoring option selected by a vessel owner or operator specified in paragraph (i)(1)(ii) or (i)(1)(iii) of this section fails to provide adequate monitoring of all areas of the bin where crew could be located, then the vessel must use the monitoring option specified in paragraph (i)(1)(i) of this section until the observer determines that adequate monitoring of all areas of the bin where crew could be located is provided by the monitoring option selected by the vessel owner or operator.

(2) *Who must have a bin monitoring option inspection?* A vessel owner or operator choosing to operate under the line of sight option (option 2) in paragraph (i)(1)(ii) of this section or the video option (option 3) in paragraph (i)(1)(iii) of this section must receive an annual bin monitoring option inspection.

(3) *How does a vessel owner arrange for a bin monitoring option inspection?* The owner may arrange the inspection time and place by submitting to NMFS by fax (206-526-4066) or e-mail ([station.inspections@noaa.gov](mailto:station.inspections@noaa.gov)) an Inspection Request for Bin Monitoring available on the NMFS Alaska Region Web site at (<http://www.fakr.noaa.gov>). Inspections will be scheduled no later than 10 working days after NMFS receives a complete application for an inspection. The owner must provide the following information:

- (i) Name and signature of the person submitting the application, and the date of the application;
- (ii) Business mailing address, telephone number, and fax number of the person submitting the application;
- (iii) Whether the vessel has received a bin monitoring option inspection before, and if so, the date of the most recent inspection report;
- (iv) Vessel name;
- (v) Federal fishery permit number;
- (vi) Location where the inspection is requested to occur, including street address and city; and
- (vii) A diagram drawn to scale showing the locations where all catch will be weighed and sorted by the observer, the location where unsorted catch will

be collected, and the location of any video equipment or viewing panels or ports.

(4) *Where will bin monitoring option inspections be conducted?* Inspections will be conducted on vessels tied to docks at Dutch Harbor, Alaska, Kodiak, Alaska, and in the Puget Sound area of Washington State.

(5) *Bin monitoring option inspection report.* A bin monitoring option inspection report, valid for 12 months from the date it is signed by NMFS, will be issued to the vessel owner if the bin monitoring option meets the requirements of paragraph (i)(1)(ii) or (i)(1)(iii) of this section. The vessel owner must maintain a current bin option inspection report onboard the vessel at all times the vessel is required to provide an approved bin monitoring option under this paragraph (i)(5). The bin monitoring option inspection report must be made available to the observer, NMFS personnel or to an authorized officer upon request.

### Subpart C—Western Alaska Community Development Quota Program

#### § 679.30 General CDQ regulations.

(a) *Application procedure.* The CDQ program is a voluntary program. Allocations of CDQ and PSQ are made to CDQ groups and not to vessels or processors fishing under contract with any CDQ group. Any vessel or processor harvesting or processing CDQ or PSQ on behalf of a CDQ group must comply with all other requirements of this part. Allocations of CDQ and PSQ are harvest privileges that expire upon the expiration of the CDP. When a CDP expires, further CDQ allocations are not implied or guaranteed, and a qualified applicant must re-apply for further allocations on a competitive basis with other qualified applicants. The CDQ allocations provide the means for CDQ

groups to complete their CDQ projects. A qualified applicant may apply for CDQ and PSQ allocations by submitting a proposed CDP to the State during the CDQ application period that is announced by the State. A proposed CDP must include the following information:

(1) *Community development information.* Community development information includes:

(i) *Project description.* A detailed description of all proposed CDQ projects, including the short-and long-term benefits to the qualified applicant from the proposed CDQ projects. CDQ projects should not be designed with the expectation of CDQ allocations beyond those requested in the proposed CDP.

(ii) *Project schedule.* A schedule for the completion of each CDQ project with measurable milestones for determining the progress of each CDQ project.

(iii) *Employment.* The number of individuals to be employed through the CDP projects, and a description of the nature of the work and the career advancement potential for each type of work.

(iv) *Community eligibility.* A list of the participating communities. Each participating community must be listed in Table 7 to this part or meet the criteria for an eligible community under § 679.2.

(v) *Community support.* A demonstration of each participating community's support for the qualified applicant and the managing organization through an official letter approved by the governing body of each such community.

(2) *Managing organization information.* A proposed CDP must include the following information about the managing organization:

(i) *Structure and personnel.* A description of the management structure and key personnel of the managing organization, such as resumes and references, including the name, address, fax number, and telephone number of the qualified applicant's CDQ representative.

(ii) *Management qualifications.* A description of how the managing organization is qualified to carry out the CDP projects in the proposed CDP, and a demonstration that the managing or-

ganization has the management, technical expertise, and ability to manage CDQ allocations and prevent exceeding a CDQ or PSQ.

(iii) *Legal relationship.* Documentation of the legal relationship between the qualified applicant and the managing organization (if the managing organization is different from the qualified applicant) clearly describing the responsibilities and obligations of each party as demonstrated through a contract or other legally binding agreement.

(iv) *Board of directors.* The name, address, and telephone number of each member of the board of directors of the qualified applicant. If a qualified applicant represents more than one community, the board of directors of the qualified applicant must include at least one member from each of the communities represented.

(3) *Business information.* A proposed CDP must include the following business information:

(i) *Business relationships.* A description of all business relationships between the qualified applicant and all individuals who have a financial interest in a CDQ project or subsidiary venture, including, but not limited to, any arrangements for management and audit control and any joint venture arrangements, loans, or other partnership arrangements, including the distribution of proceeds among the parties.

(ii) *Profit sharing.* A description of all profit sharing arrangements.

(iii) *Funding.* A description of all funding and financing plans.

(iv) *General budget for implementing the CDP.* A general account of estimated income and expenditures for each CDQ project for the total number of calendar years that the CDP is in effect.

(v) *Financial statement for the qualified applicant.* The most recent audited income statement, balance sheet, cash flow statement, management letter, and agreed upon procedures report.

(vi) *Organizational chart.* A visual representation of the qualified applicant's entire organizational structure, including all divisions, subsidiaries, joint ventures, and partnerships. This chart must include the type of legal entity

for all divisions, subsidiaries, joint ventures, and partnerships; state of registration of the legal entity; and percentage owned by the qualified applicant.

(4) *Request for CDQ and PSQ allocations.* A list of the percentage of each CDQ reserve and PSQ reserve, as described at §679.31 that is being requested. The request for allocations of CDQ and PSQ must identify percentage allocations requested for CDQ fisheries identified by the primary target species of the fishery as defined by the qualified applicant and the gear types of the vessels that will be used to harvest the catch.

(5) *Harvesting plans.* A narrative description of how the CDQ group intends to harvest and process its CDQ allocations, including a description of the target fisheries, the types of vessels and processors that will be used, the locations and methods of processing, and the CDQ group's proposed partners.

(6) *CDQ planning*—(i) *Transition plan.* A proposed CDP must include an overall plan and schedule for transition from reliance on CDQ allocations to self-sufficiency in fisheries. The plan for transition to self-sufficiency must be based on the qualified applicant's long-term revenue stream without CDQs.

(ii) *Post-allocation plan.* [Reserved]

(b) *Public hearings on CDQ application.* When the CDQ application period has ended, the State must hold a public hearing to obtain comments on the proposed CDPs from all interested persons. The hearing must cover the substance and content of proposed CDPs so that the general public, particularly the affected parties, have a reasonable opportunity to understand the impact of the proposed CDPs. The State must provide reasonable public notification of hearing date and location. At the time of public notification of the hearing, the State must make available for public review all State materials pertinent to the hearing.

(c) *Council consultation.* Before the State sends its recommendations for approval of proposed CDPs to NMFS, the State must consult with the Council and make available, upon request, the proposed CDPs that are not part of the State's recommendations.

(d) *Review and approval of proposed CDPs.* The State must transmit the proposed CDPs and its recommendations for approval of each of the proposed CDPs to NMFS, along with the findings and the rationale for the recommendations, by October 15 of the year prior to the first year of the proposed CDP, except in 1998, when CDPs for the 1998 through 2000 multispecies groundfish CDQs must be submitted by July 6, 1998. The State shall determine in its recommendations for approval of the proposed CDPs that each proposed CDP meets all applicable requirements of this part. Upon receipt by NMFS of the proposed CDPs and the State's recommendations for approval, NMFS will review the proposed CDPs and approve those that it determines meet all applicable requirements. NMFS shall approve or disapprove the State's recommendations within 45 days of their receipt. In the event of approval of the CDP, NMFS will notify the State in writing that the proposed CDP is approved by NMFS and is consistent with all requirements for CDPs. If NMFS finds that a proposed CDP does not comply with the requirements of this part, NMFS must so advise the State in writing, including the reasons thereof. The State may submit a revised proposed CDP along with revised recommendations for approval to NMFS.

(e) *Transfers*—(1) *Transfer of annual CDQ and PSQ.* CDQ groups may request that NMFS transfer CDQ or PSQ from one group to another group by each group submitting a completed transfer request as described in §679.5(n)(3). NMFS will approve the transfer request if the CDQ group transferring quota to another CDQ group has sufficient quota available for transfer. If NMFS approves the request, NMFS will make the requested transfer(s) by decreasing the account balance of the CDQ group from which the CDQ or PSQ species is transferred and by increasing the account balance of the CDQ group receiving the transferred CDQ or PSQ species. NMFS will not approve transfers to cover overages of CDQ or PSQ. The CDQ or PSQ will be transferred as of the date NMFS approves the transfer request and is effective only for the remainder of the calendar year in which the transfer occurs.

(2) *Transfer of CDQ and PSQ allocation.* CDQ groups may request that some or all of one group's CDQ or PSQ allocation, as defined at § 679.2, be transferred by NMFS to another group by each group filing an amendment to its respective CDP through the CDP substantial amendment process set forth at paragraph (g)(4) of this section. The CDQ or PSQ allocation will be transferred as of January 1 of the calendar year following the calendar year NMFS approves the amendments of both groups and is effective for the duration of the CDPs. Transfers of CDQ and PSQ allocations must be in whole integer percentages.

(f) *CDQ group responsibilities.* A CDQ group's responsibilities include, but are not limited to, the following:

(1) Direct and supervise all activities of the managing organization;

(2) Maintain the capability to communicate with all vessels harvesting its CDQ and PSQ at all times;

(3) Monitor the catch of each CDQ or PSQ;

(4) Submit the CDQ catch report described at § 679.5(n)(2);

(5) Ensure that no CDQ, halibut PSQ, or crab PSQ is exceeded;

(6) Comply with all requirements of this part.

(g) *Monitoring of CDPs—(1) Annual progress report.* (i) The State must submit to NMFS, by October 31 of each year, an annual progress report for the previous calendar year for each CDP.

(ii) Annual progress reports must be organized on a project-by-project basis and include information for each CDQ project in the CDP describing how each scheduled milestone in the CDP has been met, and an estimation by the State of whether each of the CDQ projects in the CDP is likely to be successful.

(iii) The annual report must include a description by the State of any problems or issues in the CDP that the State encountered during the annual report year.

(2) *Annual budget report.* (i) Each CDQ group must submit to NMFS an annual budget report by December 15 preceding the year for which the annual budget applies.

(ii) An annual budget report is a detailed estimate of the income from the

CDQ project and of the expenditures for each subsidiary, division, joint venture, partnership, investment activity, or CDQ project as described in paragraph (a)(1)(i) of this section for a calendar year. A CDQ group must identify the administrative costs for each CDQ project. The CDQ group's total administrative costs will be considered a separate CDQ project.

(iii) An annual budget report is approved upon receipt by NMFS, unless disapproved by NMFS in writing by December 31. If disapproved, the annual budget report will be returned to the CDQ group for revision and resubmittal to NMFS.

(3) *Annual budget reconciliation report.* A CDQ group must reconcile its annual budget by May 30 of the year following the year for which the annual budget applied. Reconciliation is an accounting of the annual budget's estimated income and expenditures with the actual income and expenditures, including the variance in dollars and variance in percentage for each CDQ project that is described in paragraph (a)(1)(i) of this section.

(4) *Substantial amendments.* A CDP is a working business plan and must be kept up to date.

(i) Substantial amendments to a CDP require a written request by the CDQ group to the State and NMFS for approval of the amendment. The State must forward the amendment to NMFS with a recommendation as to whether it should be approved.

(ii) NMFS will notify the State in writing of the approval or disapproval of the amendment within 30 days of receipt of both the amendment and the State's recommendation. Once a substantial amendment is approved by NMFS, the amendment will be effective for the duration of the CDP.

(iii) If NMFS determines that the CDP, if changed, would no longer meet the requirements of this subpart, NMFS will notify the State in writing of the reasons why the amendment cannot be approved.

(iv) For the purposes of this section, substantial amendments are defined as changes in a CDP, including, but not limited to:

(A) Any change in the list of communities comprising the CDQ group or replacement of the managing organization.

(B) A change in the CDP applicant's harvesting or processing partner.

(C) Funding a CDP project in excess of \$100,000 that is not part of an approved general budget.

(D) More than a 20-percent increase in the annual budget of an approved CDP project.

(E) More than a 20-percent increase in actual expenditures over the approved annual budget for administrative operations.

(F) A change in the contractual agreement(s) between the CDQ group and its harvesting or processing partner or a change in a CDP project, if such change is deemed by the State or NMFS to be a material change.

(G) Any transfer of a CDQ allocation or a PSQ allocation.

(v) The request for approval of a substantial amendment to a CDP shall include the following information:

(A) The background and justification for the amendment that explains why the proposed amendment is necessary and appropriate.

(B) An explanation of why the proposed change to the CDP is a substantial amendment.

(C) A description of the proposed amendment, explaining all changes to the CDP that result from the proposed amendment.

(D) A comparison of the original CDP text, with the text of the proposed changes to the CDP, and the revised pages of the CDP for replacement in the CDP binder. The revised pages must have the revision date noted, with the page number on all affected pages. The table of contents may also need to be revised to reflect any changes in pagination.

(E) Identification of any NMFS findings that would need to be modified if the amendment is approved, along with the proposed modified text.

(F) A description of how the proposed amendment meets the requirements of this subpart. Only those CDQ regulations that are affected by the proposed amendment need to be discussed.

(5) *Technical amendments.* Any change to a CDP that is not considered a sub-

stantial amendment under paragraph (g)(4)(iv) of this section is a technical amendment.

(i) The CDQ group must notify the State in writing of any technical amendment. Such notification must include a copy of the pages of the CDP that would be revised by the amendment, with the text highlighted to show the proposed deletions and additions, and a copy of the CDP pages as they would be revised by the proposed amendment for insertion into the CDP binder. All revised CDP pages must include the revision date, amendment identification number, and CDP page number. The table of contents may also need to be revised to reflect any changes in pagination.

(ii) The State must forward the technical amendment to NMFS with its recommendations for approval or disapproval of the amendment. A technical amendment is approved by NMFS and is effective when, after review, NMFS notifies the State in writing of the technical amendment's receipt and approval.

(h) *Suspension or termination of a CDP.* An annual progress report, required under paragraph (g)(1) of this section, will be used by the State to review each CDP to determine whether the CDP, CDQ, and PSQ allocations thereunder should be continued, decreased, partially suspended, suspended, or terminated under the following circumstances:

(1) If the State determines that the CDP will successfully meet its goals and objectives, the CDP may continue without any Secretarial action.

(2) If the State recommends to NMFS that an allocation be decreased, the State's recommendation for decrease will be deemed approved if NMFS does not notify the State in writing within 30 days of receipt of the State's recommendation.

(3) If the State determines that a CDP has not successfully met its goals and objectives or appears unlikely to become successful, the State may submit a recommendation to NMFS that the CDP be partially suspended, suspended, or terminated. The State must set out, in writing, the reasons for recommending suspension or termination of the CDP.

## § 679.31

## 50 CFR Ch. VI (10–1–08 Edition)

(4) After review of the State's recommendation and reasons thereof, NMFS will notify the Governor, in writing, of approval or disapproval of the recommendation within 30 days of its receipt. In the case of suspension or termination, NMFS will publish notification in the FEDERAL REGISTER, with reasons thereof.

[63 FR 30403, June 4, 1998, as amended at 64 FR 3882, Jan. 26, 1999; 64 FR 20214, Apr. 26, 1999; 65 FR 45318, July 21, 2000; 67 FR 4148, Jan. 28, 2002; 70 FR 15013, Mar. 24, 2005]

### § 679.31 CDQ and PSQ reserves.

Portions of the CDQ and PSQ reserves for each subarea or district may be allocated for the exclusive use of CDQ groups in accordance with CDPs approved by the Governor in consultation with the Council and approved by NMFS. NMFS will allocate no more than 33 percent of each CDQ reserve to any one group with an approved CDP.

(a) *CDQ and PSQ reserves*—(1) *Groundfish CDQ reserves*. See § 679.20(b)(1)(ii).

(2) *Halibut CDQ reserve*. (i) NMFS will annually withhold from IFQ allocation the proportions of the halibut catch limit that are specified in paragraph (b) of this section for use as a CDQ reserve.

(ii) Portions of the CDQ for each specified IPHC regulatory area may be allocated for the exclusive use of an eligible Western Alaska community or group of communities in accordance with a CDP approved by the Governor in consultation with the Council and approved by NMFS.

(iii) The proportions of the halibut catch limit annually withheld for the halibut CDQ program, exclusive of issued QS, and the eligible communities for which they shall be made available are as follows for each IPHC regulatory area (see Figure 15 to this part):

(A) *Area 4B*. In IPHC regulatory area 4B, 20 percent of the annual halibut quota shall be made available to eligible communities physically located in, or proximate to, this regulatory area.

(B) *Area 4C*. In IPHC regulatory area 4C, 50 percent of the halibut quota shall be made available to eligible communities physically located in IPHC regulatory area 4C.

(C) *Area 4D*. In IPHC regulatory area 4D, 30 percent of the annual halibut quota shall be made available to eligible communities located in, or proximate to, IPHC regulatory areas 4D and 4E.

(D) *Area 4E*. In IPHC regulatory area 4E, 100 percent of the halibut quota shall be made available to eligible communities located in, or proximate to, IPHC regulatory area 4E. A fishing trip limit of 10,000 lb (4.54 mt) applies to halibut CDQ harvested in IPHC regulatory area 4E through September 1.

(iv) For the purposes of this section, “proximate to” an IPHC regulatory area means within 10 nm from the point where the boundary of the IPHC regulatory area intersects land.

(3) *Crab CDQ reserves*. Crab CDQ reserves for crab species governed by the Crab Rationalization Program are specified at § 680.40 (a)(1). For Norton Sound red king crab, 7.5 percent of the guideline harvest level specified by the State of Alaska is allocated to the crab CDQ reserve.

(4) *PSQ reserve*. (See § 679.21(e)(3)(i)(A) and (e)(4)(i)(A)).

(b)—(f) [Reserved]

(g) *Non-specific CDQ reserve* (applicable through December 31, 2002). Annually, NMFS will apportion 50 percent of the arrowtooth flounder CDQ and 15 percent of the “other species” CDQ for each CDQ group to a non-specific CDQ reserve. A CDQ group's non-specific CDQ reserve must be for the exclusive use of that CDQ group. A release from the non-specific reserve to the CDQ group's arrowtooth flounder or “other species” CDQ is a technical amendment to a community development plan as described in § 679.30(g)(5). The technical amendment must be approved before harvests relying on CDQ transferred from the non-specific CDQ reserve may be conducted.

[63 FR 8361, Feb. 19, 1998, as amended at 63 FR 30407, June 4, 1998; 64 FR 3882, Jan. 26, 1999; 64 FR 20214, Apr. 26, 1999; 64 FR 61982, Nov. 15, 1999; 66 FR 13678, Mar. 7, 2001; 67 FR 13293, Mar. 22, 2002; 67 FR 79733, Dec. 30, 2002; 68 FR 9905, Mar. 3, 2003; 68 FR 69977, Dec. 16, 2003; 70 FR 10238, Mar. 2, 2005; 72 FR 52725, Sept. 14, 2007; 73 FR 27771, May 14, 2008]

**§ 679.32 Groundfish and halibut CDQ catch monitoring.**

(a) *Applicability.* This section contains requirements for CDQ groups, operators of vessels, and managers of processors that harvest and/or process groundfish CDQ, including vessels equal to or greater than 60 ft (18.3 m) LOA that are halibut CDQ fishing.

(b) *PSQ catch.* Time and area closures required once a CDQ group has reached its salmon PSQ or crab PSQ are listed in § 679.7(d)(7) through (10). The catch of salmon or crab by vessels using other than trawl gear does not accrue to the PSQ for these species. The discard of halibut by vessels using pot or jig gear will not accrue to the halibut PSQ if this bycatch has been exempted from the halibut PSC limit under § 679.21(e)(4) in the annual specifications published in the FEDERAL REGISTER.

(c) *Vessels eligible for groundfish and halibut CDQ fisheries.* The following information must be provided by the CDQ group for all vessels that are groundfish CDQ fishing and all vessels equal to or greater than 60 ft (18.3 m) LOA that are halibut CDQ fishing.

(1) *Request for approval of an eligible vessel.* Prior to a vessel participating in the CDQ fishery, a CDQ group must submit to NMFS a completed request for approval of an eligible vessel as described at § 679.5(n)(4). NMFS will approve all vessels for which a completed request is submitted. Once approved, a vessel will remain eligible until December 31 of the last year in the current CDQ allocation cycle under § 679.30(d), or until the CDQ group removes the vessel from eligibility under paragraph (c)(2) of this section. A list of eligible vessels for each CDQ group will be publicly available from the Alaska Regional Office or on the NMFS website at <http://www.fakr.noaa.gov>. The CDQ group must provide a copy of the NMFS-approved eligible vessel request to the operator of the approved vessel. The vessel operator must maintain a copy of the eligible vessel request approved by NMFS onboard the vessel at all times while harvesting, transporting, or offloading CDQ.

(2) *Removing a vessel from eligibility.* A CDQ group may remove a vessel from eligibility to harvest CDQ on its behalf

by advising NMFS by letter of the removal. Removal of a vessel from eligibility to harvest CDQ will be effective on the date that NMFS approves the request and notifies the CDQ group of NMFS's approval. Upon receipt of notification of NMFS's approval, the CDQ group must notify the operator of the vessel of the vessel's removal from eligibility to harvest CDQ on behalf of the CDQ group.

(d) *Requirements for vessels and processors.* In addition to complying with the minimum observer coverage requirements at § 679.50(c)(4), operators of vessels groundfish CDQ fishing and managers of shoreside processors or stationary floating processors taking deliveries from vessels groundfish CDQ fishing must comply with the following requirements:

(1) *Catcher vessels without an observer.*  
(i) Operators of catcher vessels less than 60 ft (18.3 m) LOA must retain all groundfish CDQ species, halibut CDQ, and salmon PSQ until they are delivered to a processor that meets the requirements of paragraph (d)(3) or (d)(4) of this section, unless retention of groundfish CDQ species is not authorized under § 679.4, discard of the groundfish CDQ species is required under subpart B of this part, or, in waters within the State of Alaska, discard is required by the State of Alaska.

(ii) *Catcher vessels delivering unsorted codends.* Operators of catcher vessels delivering unsorted codends to motherships must retain all CDQ and PSQ species and deliver them to a mothership that meets the requirements of paragraph (d)(4) of this section.

(2) *Catcher vessels with observers.* Operators of catcher vessels equal to or greater than 60 ft (18.29 m) LOA must comply with the following requirements:

(i) *If using trawl gear, the vessel operator must:*

(A) Retain all CDQ species and salmon PSQ until they are delivered to a processor that meets the requirements of paragraph (d)(3) or (d)(4) of this section unless retention of groundfish CDQ species is not authorized under § 679.4 of this part, discard of the groundfish CDQ species is required

under subpart B of this part, or, in waters within the State of Alaska, discard is required by laws of the State of Alaska;

(B) Retain all halibut and crab PSQ in a bin or other location until it is counted and sampled by a level 2 observer; and

(C) Provide space on the deck of the vessel for the level 2 observer to sort and store catch samples and a place from which to hang the observer sampling scale.

(ii) *If using nontrawl gear, the vessel operator must either:*

(A) *Option 1: Retain all CDQ species.* Retain all CDQ species until they are delivered to a processor that meets the requirements of paragraph (d)(3) or (d)(4) of this section unless retention of groundfish CDQ species is not authorized under § 679.4 of this part, discard of the groundfish CDQ or PSQ species is required under subpart B of this part, or, in waters within the State of Alaska, discard is required by laws of the State of Alaska. Have all of the halibut PSQ counted by the level 2 observer and sampled for length or average weight; or

(B) *Option 2: Discard some CDQ species at sea.* May discard some CDQ species at sea if the following requirements are met:

(1) *Observer sampling station.* The vessel owner provides an observer sampling station that complies with § 679.28(d) so that the level 2 observer can accurately determine the average weight of discarded CDQ species. A valid observer sampling station inspection report described at § 679.28(d)(8) must be on board the vessel at all times when a sampling station is required; and

(2) *Species composition.* Each CDQ set on vessels using hook-and-line gear is sampled for species composition by a level 2 observer.

(3) *Shoreside processors and stationary floating processors.* The manager of a shoreside processor or stationary floating processor must comply with all of the following requirements:

(i) *Prior notice to observer of offloading schedule.* Notify the level 2 observer of the offloading schedule of each CDQ delivery at least 1 hour prior to offloading to provide the level 2 observer

an opportunity to monitor the sorting and weighing of the entire delivery.

(ii) *CDQ and PSQ by weight.* Sort and weigh on a scale approved by the State of Alaska under § 679.28(c) all groundfish and halibut CDQ or PSQ by species or species group.

(iii) *PSQ by number.* Sort and count all salmon and crab PSQ.

(iv) *CDQ and PSQ sorting and weighing.* Sorting and weighing of CDQ and PSQ must be monitored by a level 2 observer.

(v) *CDQ delivery report.* Submit a CDQ delivery report described at § 679.5(n)(1) for each delivery of groundfish CDQ.

(vi) *AFA inshore processors.* Take deliveries from a vessel engaged in directed fishing for pollock CDQ without following an approved CMCP as described at § 679.28(g).

(4) *Catcher/processors and motherships.* The operator of a catcher/processor or a mothership taking deliveries of unsorted codends from catcher vessels must comply with the following requirements:

(i) *Prior notice to observer of CDQ catch.* Notify the level 2 observer(s) before CDQ catch is brought onboard the vessel and notify the level 2 observer(s) of the CDQ group and CDQ number associated with the CDQ catch.

(ii) *Observer sampling station.* Provide an observer sampling station as described at § 679.28(d). A valid observer sampling station inspection report described at § 679.28(d)(8) must be on board the vessel at all times when a sampling station is required.

(iii) Obtain the data entry software provided by the Regional Administrator (“ATLAS software”) for use by the observer and ensure that observer data can be transmitted from the vessel to NMFS at any time while the vessel is receiving, catching or processing CDQ species.

(iv) *Catcher/processors using trawl gear and motherships.* The operator of a catcher/processor using trawl gear or of a mothership taking deliveries of unsorted codends from catcher vessels must weigh all catch on a scale that complies with the requirements of § 679.28(b). A valid scale inspection report described at § 679.28(b)(2) must be on board the vessel at all times when a scale is required. Catch from each CDQ

haul must be weighed separately. Catch must not be sorted before it is weighed, unless a provision for doing so is approved by NMFS for the vessel. Each CDQ haul must be sampled by a level 2 observer for species composition and the vessel operator must allow level 2 observers to use any scale approved by NMFS to weigh partial CDQ haul samples.

(v) *Catcher/processors using nontrawl gear.* Each CDQ set on a vessel using hook-and-line gear must be sampled by a level 2 observer for species composition and average weight.

(e) *Recordkeeping and reporting—(1) Catch record.* The manager of a shore-side processor or stationary floating processor must submit to NMFS the CDQ delivery report required in § 679.5(n)(1). The CDQ representative must submit to NMFS the CDQ catch report required in § 679.5(n)(2). Additionally, all other applicable requirements in § 679.5 for groundfish fishing must be met.

(2) *Verification of CDQ and PSQ catch reports.* CDQ groups may specify the sources of data listed below as the sources they will use to determine CDQ and PSQ catch on the CDQ catch report by specifying “NMFS standard sources of data” on their request for approval of an eligible vessel. In the case of a catcher vessel using nontrawl gear, the CDQ group must specify on their request for approval of an eligible vessel whether the vessel will be retaining all groundfish CDQ (Option 1) or discarding some groundfish CDQ species at sea (Option 2). CDQ species may be discarded at sea by these vessels only if the requirements of paragraph (d)(2)(ii)(B) of this section are met. NMFS will use the following sources to verify the CDQ catch reports, unless an alternative catch estimation procedure is approved by NMFS under paragraph (e)(3) of this section.

(i) *Catcher vessels less than 60 ft (18.29 m) LOA.* The weight or numbers of all CDQ and PSQ species will be the same as the information on the CDQ delivery report if all CDQ species and salmon PSQ are retained on board the vessel until delivered to a processor, and sorted and weighed in compliance with paragraph (d)(3) of this section.

(ii) *Catcher vessels delivering unsorted codends.* The weight and numbers of CDQ and PSQ species will be determined by applying the species composition sampling data collected for each CDQ haul by the level 2 observer on the mothership to the total weight of each CDQ haul as determined by weighing all catch from each CDQ haul on a scale approved under § 679.28(b).

(iii) *Observed catcher vessels using trawl gear.* The weight of halibut and numbers of crab PSQ discarded at sea will be determined by using the level 2 observer's sample data. The weight or numbers of all groundfish CDQ and salmon PSQ will be the same as the information submitted on the CDQ delivery report if all CDQ species and salmon PSQ are retained on board the vessel until delivered to a processor, and sorted and weighed in compliance with paragraph (d)(3) of this section.

(iv) *Observed catcher vessels using nontrawl gear—(A) Option 1.* The weight of halibut PSQ discarded at sea will be determined by using the level 2 observer's sample data. The weight of all groundfish CDQ will be the same as the information submitted on the CDQ delivery report if all CDQ species are retained on board the vessel until delivered to a processor, and sorted and weighed in compliance with paragraph (d)(3) of this section (Option 1); or

(B) *Option 2.* The weight of halibut PSQ and all groundfish CDQ species will be determined by applying the level 2 observer's species composition sampling data to the estimate of total catch weight if any CDQ species are discarded at sea.

(v) *Catcher/processors using trawl gear.* The weight and numbers of CDQ and PSQ species will be determined by applying the level 2 observer's species composition sampling data for each CDQ haul to the total weight of the CDQ haul as determined by weighing all catch from each CDQ haul on a scale certified under § 679.28(b).

(vi) *Catcher/processors using nontrawl gear.* The weight of halibut PSQ and all groundfish CDQ species will be determined by applying the level 2 observer's species composition sampling data to the estimate of total catch weight, if any CDQ species are discarded at sea.

(3) *Alternative methods for verification of CDQ and PSQ catch.* The method to be used to determine CDQ and PSQ catch for each vessel must be listed by a CDQ group on the request for approval of an eligible vessel. A CDQ group may propose the use of an alternative method, such as using only one observer where normally two would be required, sorting and weighing of all catch by species on processor vessels, or using larger sample sizes than could be collected by one observer, by submitting an alternative fishing plan attached to its request for approval of an eligible vessel. NMFS will review the alternative fishing plan and approve it or notify the qualified applicant in writing if the proposed alternative does not meet the requirements listed under paragraphs (e)(3)(i) through (iv) of this section. The CDQ group must provide a copy of the approved alternative fishing plan to the operator of the approved vessel. A copy of the alternative fishing plan approved by NMFS must be maintained onboard the vessel at all times while it is operating under the alternative fishing plan. Alternative fishing plans are valid for the remainder of the calendar year in which they are approved. Alternatives to the requirement for a certified scale or an observer sampling station will not be approved. NMFS will review the alternative fishing plan to determine if it meets all of the following requirements:

- (i) The alternative proposed must provide equivalent or better estimates than use of the NMFS standard data source would provide and the estimates must be independently verifiable;
- (ii) Each haul or set on an observed vessel must be able to be sampled by an observer for species composition;
- (iii) Any proposal to sort catch before it is weighed must ensure that the sorting and weighing process will be monitored by an observer; and
- (iv) The time required for the level 2 observer to complete sampling, data recording, and data communication duties must not exceed 12 hours in each 24-hour period and the level 2 observer must not be required to sample more than 9 hours in each 24-hour period.

(f) *Halibut CDQ—(1) Applicability.* The CDQ group, the operator of the vessel,

the manager of a shoreside processor or stationary floating processor, and the Registered Buyer must comply with the catch monitoring requirements of this paragraph (f) and with the R&R requirements of § 679.4(e) for the catch of CDQ halibut or while CDQ halibut fishing.

(2) *Accounting for catch of groundfish CDQ while halibut CDQ fishing.* The manager of a shoreside processor or stationary floating processor must report on a CDQ delivery report described at § 679.5(n)(1), all groundfish CDQ delivered by vessels equal to or greater than 60 ft (18.3 m) LOA while halibut CDQ fishing and all sablefish CDQ delivered by vessels of any size while halibut CDQ fishing. The CDQ group must report on a CDQ catch report described at § 679.5(n)(2), all groundfish CDQ caught by vessels equal to or greater than 60 ft (18.3 m) LOA while halibut CDQ fishing and all sablefish CDQ retained by vessels of any size while halibut CDQ fishing. This groundfish CDQ will accrue to the CDQ group's groundfish CDQ allocations. The manager of a shoreside processor or stationary floating processor and the CDQ group are not required to report on the CDQ delivery report, groundfish, except sablefish CDQ, that is caught by vessels less than 60 ft (18.3 m) LOA while halibut CDQ fishing, and this catch (except sablefish CDQ) will not accrue against the CDQ group's groundfish CDQ allocations.

(3) *Groundfish CDQ retention requirements.* Operators of vessels less than 60 ft (18.3 m) LOA are not required to retain and deliver groundfish CDQ species while halibut CDQ fishing, unless required to do so elsewhere in this part. Operators of vessels equal to or greater than 60 ft (18.3 m) LOA are required to comply with all groundfish CDQ and PSQ catch accounting requirements in paragraphs (b) through (e) of this section including the retention of all groundfish CDQ, if Option 1 under § 679.32(d)(2)(ii) is selected. CDQ species must be discarded when required by other provisions in subpart B of this part or, in waters within the State of Alaska, when discard is required by laws of the State of Alaska.

(4) *Observer coverage requirements.* The owner or operator of a vessel equal to

## Fishery Conservation and Management

## § 679.40

or greater than 60 ft (18.3 m) LOA halibut CDQ fishing as defined at § 679.2 or shoreside processors taking deliveries from vessels equal to or greater than 60 ft (18.3 m) LOA that are halibut CDQ fishing must comply with observer coverage requirements at § 679.50(c)(4) and (d)(4).

(5) *Seabird avoidance requirements.* The CDQ group, and vessel owner or operator must comply with all of the seabird avoidance requirements at § 679.42(b)(2).

[63 FR 30407, June 4, 1998, as amended at 64 FR 3882, Jan. 26, 1999; 64 FR 20214, Apr. 26, 1999; 64 FR 61982, Nov. 15, 1999; 65 FR 33783, May 25, 2000; 66 FR 13678, Mar. 7, 2001; 67 FR 4133, 4148, Jan. 28, 2002; 67 FR 18140, Apr. 15, 2002; 67 FR 79733, Dec. 30, 2002; 68 FR 215, Jan. 2, 2003; 68 FR 44487, July 29, 2003; 68 FR 69977, Dec. 16, 2003; 69 FR 1949, Jan. 13, 2004; 70 FR 15014, 15015, Mar. 24, 2005; 72 FR 50818, Sept. 4, 2007]

EFFECTIVE DATE NOTE: At 63 FR 30407, June 4, 1998, § 679.32 was revised. Paragraph (c)(4)(i) contains information collection and record-keeping requirements and will not become effective until approval has been given by the Office of Management and Budget.

### Subpart D—Individual Fishing Quota Management Measures

#### § 679.40 Sablefish and halibut QS.

The Regional Administrator shall annually divide the TAC of halibut and sablefish that is apportioned to the fixed gear fishery pursuant to the annual management measures published in the FEDERAL REGISTER pursuant to § 300.62 of chapter III of this title and § 679.20, minus the CDQ reserve, among qualified halibut and sablefish quota share holders, respectively.

(a) *Initial allocation of QS*—(1) *General.* The Regional Administrator shall initially assign to qualified persons, on or after October 18, 1994, halibut and sablefish fixed gear fishery QS that are specific to IFQ regulatory areas and vessel categories. QS will be assigned as a block in the appropriate IFQ regulatory area and vessel category, if that QS would have resulted in an allocation of less than 20,000 lb (9 mt) of IFQ for halibut or sablefish based on the 1994 TAC for fixed gear in those fisheries for specific IFQ regulatory areas and the QS pools of those fisheries for

specific IFQ regulatory areas as of October 17, 1994.

(2) *Qualified person.* (i) As used in this section, a “qualified person” means a “person,” as defined in § 679.2:

(A) That owned a vessel that made legal landings of halibut or sablefish, harvested with fixed gear, from any IFQ regulatory area in any QS qualifying year; or

(B) That leased a vessel that made legal landings of halibut or sablefish, harvested with fixed gear, from any IFQ regulatory area in any QS qualifying year. A person who owns a vessel cannot be a qualified person based on the legal fixed gear landings of halibut or sablefish made by a person who leased the vessel for the duration of the lease.

(C) Who is a citizen of the United States at the time of application for QS.

(D) Who is a corporation, partnership, association, or other entity that would have qualified to document a fishing vessel as a vessel of the United States during the QS qualifying years of 1988, 1989, and 1990.

(ii) Qualified persons, or their successors-in-interest, must exist at the time of their application for QS.

(iii) A former partner of a dissolved partnership or a former shareholder of a dissolved corporation who would otherwise qualify as a person may apply for QS in proportion to his or her interest in the dissolved partnership or corporation.

(iv) Sablefish harvested within Prince William Sound, or under a State of Alaska limited entry program, will not be considered in determining whether a person is a qualified person.

(3) *Qualification for QS*—(i) *Year.* A QS qualifying year is 1988, 1989, or 1990.

(ii) *Vessel ownership.* Evidence of vessel ownership shall be limited to the following documents, in order of priority:

(A) For vessels required to be documented under the laws of the United States, the USCG abstract of title issued in respect of that vessel.

(B) A certificate of registration that is determinative as to vessel ownership.

(C) A bill of sale.

(iii) *Vessel lease*. Conclusive evidence of a vessel lease will include a written vessel lease agreement or a notarized statement from the vessel owner and lease holder attesting to the existence of a vessel lease agreement at any time during the QS qualifying years. Conclusive evidence of a vessel lease must identify the leased vessel and indicate the name of the lease holder and the period of time during which the lease was in effect. Other evidence, which may not be conclusive, but may tend to support a vessel lease, may also be submitted.

(iv) *Ownership interest*. Evidence of ownership interest in a dissolved partnership or corporation shall be limited to corporate documents (e.g., articles of incorporation) or notarized statements signed by each former partner, shareholder or director, and specifying their proportions of interest.

(v) *Legal landing of halibut or sablefish*—(A) *Definition*. As used in this section, a “legal landing of halibut or sablefish” means halibut or sablefish harvested with fixed gear and landed in compliance with state and Federal regulations in effect at the time of the landing.

(B) *Documentation*. Evidence of legal landings shall be limited to documentation of state or Federal catch reports that indicate the amount of halibut or sablefish harvested, the IPHC regulatory area or groundfish reporting area in which it was caught, the vessel and gear type used to catch it, and the date of harvesting, landing, or reporting. State catch reports are Alaska, Washington, Oregon, or California fish tickets. Federal catch reports are WPRs required under § 679.5. Sablefish harvested within Prince William Sound or under a State of Alaska limited entry program will not be considered in determining qualification to receive QS, nor in calculating initial QS.

(4) *Calculation of initial QS*—(i) *Halibut QS*. The Regional Administrator shall calculate the halibut QS for any qualified person in each IFQ regulatory area based on that person's highest total legal landings of halibut in each IPHC regulatory area for any 5 years of the 7-year halibut QS base period 1984 through 1990. The sum of all halibut QS

for an IFQ regulatory area will be the halibut QS pool for that area.

(ii) *Sablefish QS*. The Regional Administrator shall calculate the sablefish QS for any qualified person in each IFQ regulatory area based on that person's highest total legal landings of sablefish in each groundfish reporting area for any 5 years of the 6-year sablefish QS base period 1985 through 1990. The sum of all sablefish QS for an IFQ regulatory area will be the sablefish QS pool for that area.

(iii) *CDQ program*. Each initial QS calculation will be modified to accommodate the CDQ program prescribed at subpart C of this part.

(5) *Assignment of QS to vessel categories*—(i) *LOA*. Each qualified person's QS will be assigned to a vessel category based on the LOA of vessel(s) from which that person made fixed gear legal landings of groundfish or halibut in the most recent year of participation and the product type landed. As used in this paragraph (a)(5), “the most recent year of participation” means the most recent of 4 calendar years in which any groundfish or halibut were harvested using fixed gear, as follows: 1988, 1989, or 1990; or calendar year 1991 prior to September 26, 1991.

(ii) *Vessel categories*. QS and its associated IFQ assigned to vessel categories include:

(A) Category A QS and associated IFQ, which authorizes an IFQ permit holder to harvest and process IFQ species on a vessel of any length;

(B) Category B QS and associated IFQ, which authorizes an IFQ permit holder to harvest IFQ species on a vessel of any length;

(C) Category C QS and associated IFQ, which authorizes an IFQ permit holder to harvest IFQ species on a vessel less than or equal to 60 ft (18.3 m) LOA;

(D) Category D QS and associated IFQ, which authorizes an IFQ permit holder to harvest IFQ halibut on a vessel less than or equal to 35 ft (10.7 m) LOA, except as provided in § 679.42(a).

(iii) *QS assignment*. A qualified person's QS will be assigned:

(A) To vessel category A if, at any time during his/her most recent year of participation, that person's vessel

processed any groundfish or halibut caught with fixed gear.

(B) To vessel category B if, at any time during his/her most recent year of participation, that person's vessel was greater than 60 ft (18.3 m) LOA and did not process any groundfish or halibut caught with fixed gear.

(C) To each applicable vessel category in proportion to the landings of halibut or sablefish made by that person if, at any time during their most recent year of participation, that person used more than one vessel in different categories.

(iv) *Sablefish QS*. A qualified person's sablefish QS will be assigned:

(A) To vessel category C if, at any time during his/her most recent year of participation, that person's vessel was less than or equal to 60 ft (18.3 m) LOA and did not process any groundfish or halibut caught with fixed gear.

(B) To the vessel category in which halibut and groundfish were landed, or vessel categories in proportion to the total fixed gear landings of halibut and groundfish, if, at any time during the most recent year of participation, that person's vessel(s) makes no landing(s) of sablefish.

(v) *Halibut QS*. A qualified person's halibut QS will be assigned:

(A) To vessel category C if, at any time during his/her most recent year of participation, that person's vessel was less than or equal to 60 ft (18.3 m), but greater than 35 ft (10.7 m), LOA and did not process any groundfish or halibut caught with fixed gear.

(B) To vessel category D if, at any time during his/her most recent year of participation, that person's vessel was less than or equal to 35 ft (10.7 m) LOA and did not process any groundfish or halibut caught with fixed gear.

(C) To the vessel category in which groundfish were landed, or vessel categories in proportion to the total fixed gear landings of groundfish, if, at any time during the most recent year of participation, that person's vessel(s) makes no landing(s) of halibut.

(vi) *Both species QS*. A qualified person's QS for both species will be assigned to the vessel category in which groundfish were landed in the most recent year of participation if, at any time during that year, that person

landed halibut in one vessel category and sablefish in a different vessel category.

(6) *Application for initial QS*—(i) *Application form*. The Application period for QS ended on July 15, 1994. As of that date, the Request for QS Application form replaced the QS Application form as the means by which the Administrator, RAM, reviews and makes initial administrative determinations on requests for initial allocations of QS. A Request for QS Application must contain the following: information identifying the individual, representative of a deceased fisherman's estate, corporation or partnership, or dissolved corporation or partnership making the request; contact numbers; vessel identification, length overall, and purchase date; and information on any vessel leasing arrangement pertinent to the claim of eligibility.

(ii) *Application period*. An application period of no less than 180 days will be specified by notification in the FEDERAL REGISTER and other information sources that the Regional Administrator deems appropriate.

(iii) *Complete application*. Complete applications received by the Regional Administrator will be acknowledged. An incomplete application will be returned to the applicant with specific kinds of information identified that are necessary to make it complete.

(7) *Insufficient documentation*. Halibut and sablefish catch history, vessel ownership or lease data, and other information supplied by an applicant will be compared with data compiled by the Regional Administrator. If additional data presented in an application are not consistent with the data compiled by the Regional Administrator, the applicant will be notified of insufficient documentation. The applicant will have 90 days to submit corroborating documents (as specified in paragraph (a) of this section) in support of his/her application or to resubmit a revised application. All applicants will be limited to one opportunity to provide corroborating documentation or a revised application in response to notification of insufficient documentation.

(8) *Verified data*. Uncontested data in applications will be approved by the Regional Administrator. Based on

these data, the Regional Administrator will calculate each applicant's initial halibut and sablefish QS, as provided in paragraph (b) of this section, for each IFQ regulatory area, respectively, and will add each applicant's halibut and sablefish QS for an IFQ regulatory area to the respective QS pool for that area.

(9) *Unverified data.* Catch history, vessel ownership, or lease data that cannot be verified by the Regional Administrator, following the procedure described in paragraph (a)(7) of this section, will not qualify for QS. An initial determination denying QS on the grounds that claimed catch history, vessel ownership or lease data were not verified may be appealed following the procedure described in § 679.43. Quota share reflecting catch history, vessel ownership, or lease data that are contested between two or more applicants, at least one of which is likely to qualify for QS when the dispute is resolved, will be assigned to a reserve that will be considered part of the QS pool for the appropriate IFQ regulatory area. Any QS and IFQ that results from agency action resolving the dispute will be assigned to the prevailing applicant(s) pursuant to paragraphs (a)(4), (a)(5), (b), and (c) of this section. If the assigned IFQ for the 1995 fishing season becomes moot by passage of time needed to resolve the dispute, the assignment of QS and IFQ for subsequent fishing seasons will be unaffected.

(b) *Annual allocation of IFQ.* The Regional Administrator shall assign halibut or sablefish IFQs to each person holding unrestricted QS for halibut or sablefish, respectively, up to the limits prescribed in § 679.42 (e) and (f). Each assigned IFQ will be specific to an IFQ regulatory area and vessel category, and will represent the maximum amount of halibut or sablefish that may be harvested from the specified IFQ regulatory area and by the person to whom it is assigned during the specified fishing year, unless the IFQ assignment is changed by the Regional Administrator within the fishing year because of an approved transfer or because all or part of the IFQ is sanctioned for violating rules of this part.

(c) *Calculation of annual IFQ allocation—(1) General.* The annual allocation of IFQ to any person (person p) in any

IFQ regulatory area (area a) will be equal to the product of the TAC of halibut or sablefish by fixed gear for that area (after adjustment for purposes of the Western Alaska CDQ Program) and that person's QS divided by the QS pool for that area. Overages will be subtracted from a person's IFQ pursuant to paragraph (d) of this section. Expressed algebraically, the annual IFQ allocation formula is as follows:

$$\text{IFQ}_{pa} = [(\text{fixed gear TAC}_a - \text{CDQ reserve}_a) \times (\text{QS}_{pa}/\text{QS pool}_a)] - \text{overage of IFQ}_{pa}.$$

(2) *QS amounts.* For purposes of calculating IFQs for any fishing year, the amount of a person's QS and the amount of the QS pool for any IFQ regulatory area will be the amounts on record with the Alaska Region, NMFS, as of 1200 hours, A.l.t., on January 31 of that year.

(3) *IFQ permit.* The Regional Administrator shall issue to each QS holder, pursuant to § 679.4, an IFQ permit accompanied by a statement specifying the maximum amount of halibut and sablefish that may be harvested with fixed gear in a specified IFQ regulatory area and vessel category as of January 31 of that year. Such IFQ permits will be mailed to each QS holder at the address on record for that person after the beginning of each fishing year but prior to the start of the annual IFQ fishing season.

(d) *Ten-percent adjustment policy.* A person's annual IFQ account will be adjusted in the year following a determination that the person harvested or landed IFQ species in an amount is greater than the amount available in the person's annual IFQ account and if the amount greater than the amount available does not exceed 10 percent of the amount available in the person's annual IFQ account at the time of landing. The adjustment would be a deduction of the amount of IFQ species harvested or landed that was determined to exceed the amount available in the person's annual IFQ account and will apply to any person to whom the affected IFQ is allocated in the year following the determination.

(e) *Underages.* Underages of up to 10 percent of a person's total annual IFQ account for a current fishing year will

be added to that person's annual IFQ account in the year following determination of the underage. This underage adjustment to the annual IFQ allocation will be specific to IFQ species, IFQ regulatory area, and vessel category for which an IFQ is calculated, and will apply to any person to whom the affected IFQ is allocated in the year following determination of an underage.

(f) *Harvesting privilege.* Quota shares allocated or permits issued pursuant to this part do not represent either an absolute right to the resource or any interest that is subject to the "takings" provision of the Fifth Amendment of the U.S. Constitution. Rather, such quota shares or permits represent only a harvesting privilege that may be revoked or amended subject to the requirements of the Magnuson-Stevens Act and other applicable law.

(g) *External research tags for halibut and sablefish.* (1) Nothing contained in this part 679 shall prohibit any person at any time from retaining and landing a Pacific halibut or sablefish that bears at the time of capture an external research tag from any state, Federal, or international agency, provided that the halibut or sablefish is one of the following:

(i) A Pacific halibut landed pursuant to § 300.62 of this title and to this part 679; or

(ii) A sablefish landed in accordance with the Tagged Groundfish Research Program, and in compliance with all sablefish requirements of this part 679.

(2) Halibut and sablefish bearing an external research tag from any state, Federal, or international agency, landed pursuant to paragraph (g)(1)(i) or (g)(1)(ii) of this section, and in accordance with § 679.5(1), shall be excluded from IFQ or CDQ deduction as follows:

(i) The fish shall not be calculated as part of a person's IFQ harvest of halibut or sablefish and shall not be debited against a person's halibut IFQ or a person's sablefish IFQ; or

(ii) The fish shall not be calculated as part of the CDQ harvest of halibut or sablefish and shall not be debited

against a CDQ group's halibut CDQ or a CDQ group's sablefish CDQ.

[61 FR 31230, June 19, 1996, as amended at 61 FR 35579, July 5, 1996; 61 FR 41525, Aug. 9, 1996; 61 FR 43314, Aug. 22, 1996; 62 FR 59299, Nov. 3, 1997; 66 FR 27910, May 21, 2001; 67 FR 4133, Jan. 28, 2002; 71 FR 36492, June 27, 2006; 72 FR 44809, Aug. 9, 2007]

#### § 679.41 Transfer of quota shares and IFQ.

(a) *General.* (1) Except as provided in paragraph (a)(2) of this section, transfer of QS or IFQ means any transaction requiring QS, or the use thereof in the form of IFQ, to pass from one person to another, permanently or for a fixed period of time.

(2) Transactions requiring IFQ permits to be issued in the name of a hired master employed by an individual or a corporation are not transfers of QS or IFQ.

(b) *Transfer procedure—*(1) *Application for transfer.* An Application for Transfer of QS/IFQ (Application for Transfer) must be approved by the Regional Administrator before a person may use IFQ to harvest IFQ halibut or IFQ sablefish, whether the IFQ was the result of a direct transfer or the result of a QS transfer. An Application for Transfer will not be approved until the Regional Administrator has reviewed and approved the transfer agreement signed by the parties to the transaction. The Regional Administrator shall provide an Application for Transfer form to any person on request. Persons who submit an Application for Transfer to the Regional Administrator for approval will receive notification of the Regional Administrator's decision to approve or disapprove the Application for Transfer, and, if applicable, the reason(s) for disapproval, by mail posted on the date of that decision, unless another communication mode is requested on the Application for Transfer.

(2) *QS or IFQ accounts.* QS or IFQ accounts affected by an Application for Transfer approved by the Regional Administrator will change on the date of approval. Any necessary IFQ permits will be sent with the notification of the Regional Administrator's decision.

(c) *Application for Transfer approval criteria.* Except as provided in paragraph (f) of this section, an Application for Transfer will not be approved until the Regional Administrator has determined that:

(1) The person applying for transfer received the QS or IFQ to be transferred:

(i) By initial assignment by the Regional Administrator as provided in § 679.40(a); or

(ii) By approved transfer.

(2) The person applying to receive the QS or IFQ meets the requirements of eligibility in paragraph (d) of this section.

(3) The person applying for transfer and the person applying to receive the QS or IFQ have their notarized signatures on the Application for Transfer.

(4) There are no fines, civil penalties, or other payments due and owing, or outstanding permit sanctions, resulting from Federal fishery violations involving either person.

(5) The person applying to receive the QS or IFQ currently exists.

(6) The transfer would not cause the person applying to receive the QS or IFQ to exceed the use limits in § 679.42 (e) or (f).

(7) The transfer would not violate the provisions of paragraph (g) of this section.

(8)(i) The person applying to make or receive the IFQ or QS transfer has paid all IFQ fees that have become due as a result of an initial administrative determination.

(ii) The person applying to make or receive the IFQ or QS transfer who has not paid all IFQ fees that are due (as provided under § 679.45(a)) has timely appealed the administrative determination that IFQ fees have not been paid in full and has submitted to NMFS an amount sufficient to satisfy any disputed liability pending a final agency action.

(9) Other pertinent information requested on the Application for Transfer has been supplied to the satisfaction of the Regional Administrator.

(10) If the person applying to transfer or receive QS or IFQ is a CQE, the following determinations are required for each eligible community represented by that CQE:

(i) An individual applying to receive IFQ from QS held by a CQE is an eligible community resident of the eligible community in whose name the CQE is holding QS;

(ii) The CQE applying to receive or transfer QS, has submitted a complete annual report(s) required by § 679.5 (1)(8);

(iii) The CQE applying to transfer QS has provided information on the reasons for the transfer as described in paragraph (g)(7) of this section;

(iv) The CQE applying to receive QS is eligible to hold QS on behalf of the eligible community in the halibut or sablefish regulatory area designated for that eligible community in Table 21 to this part; and

(v) The CQE applying to receive QS has received notification of approval of eligibility to receive QS/IFQ for that community as described in paragraph (d)(1) of this section.

(d) *Eligibility to receive QS or IFQ by transfer—(1) Application for Eligibility.* All persons applying to receive QS or IFQ must submit an Application for Eligibility to Receive QS/IFQ (Application for Eligibility) containing accurate information to the Regional Administrator, except that an Application for Eligibility to Receive QS/IFQ (Application for Eligibility) is not required for a CQE if a complete application to become a CQE, as described in paragraph (1)(3) of this section, has been approved by the Regional Administrator on behalf of an eligible community. The Regional Administrator will not approve a transfer of IFQ or QS to a person until the Application for Eligibility for that person is approved by the Regional Administrator. The Regional Administrator shall provide an Application for Eligibility form to any person on request.

(2) *Type of eligibility.* A person must indicate on the Application for Eligibility whether the eligibility sought is as:

(i) An individual; or

(ii) A corporation, partnership, or other entity.

(3) *Application filing order.* A person may submit the Application for Eligibility with the Application for Transfer or file the Application for Eligibility prior to submitting the Application for

Transfer. If a person, as described in paragraph (d)(2)(ii) of this section, files the Application for Eligibility prior to submitting the Application for Transfer, and that person's status subsequently changes, as described in § 679.42(j), that person must resubmit an Application for Eligibility before submitting, or with, the Application for Transfer.

(4) *Notification of approval.* Applicants will be notified by mail of the Regional Administrator's approval of an application for eligibility.

(5) *Notification of disapproval.* The Regional Administrator will notify the applicant if an Application for Eligibility is disapproved. This notification of disapproval will include:

(i) The disapproved Application for Eligibility.

(ii) An explanation of why the Application for Eligibility was not approved.

(6) *Reasons for disapproval.* Reasons for disapproval of an Application for Eligibility may include, but are not limited to:

(i) Fewer than 150 days of experience working as an IFQ crewmember.

(ii) Lack of compliance with the U.S. citizenship or corporate ownership requirements specified by the definition of "person" at § 679.2.

(iii) An incomplete Application for Eligibility.

(iv) Fines, civil penalties, or other payments due and owing, or outstanding permit sanctions, resulting from Federal fishery violations.

(e) *Transfers of QS blocks*—(1) *General.* A QS block must be transferred as an undivided whole, unless the size of the QS block exceeds the use limits specified at § 679.42. If the QS block to be transferred exceeds the use limits specified at § 679.42, the Regional Administrator will divide the block into two blocks, one block containing the maximum amount of QS allowable under the QS use limits and the other block containing the residual QS.

(2) *Sablefish.* QS blocks for the same IFQ regulatory area and vessel category that represent less than 5,000 lb (2.3 mt) of sablefish IFQ, based on the 1996 TAC share for fixed gear sablefish in a specific IFQ regulatory area and the QS pool for that IFQ regulatory area on January 31, 1996, may be con-

solidated into larger QS blocks provided that the consolidated blocks do not represent greater than 5,000 lbs (2.3 mt) of sablefish IFQ based on the preceding criteria. A consolidated block cannot be divided and is considered a single block for purposes of use and transferability. The maximum number of QS units that may be consolidated into a single QS block in each IFQ regulatory area is as follows:

(i) Southeast Outside district: 33,270 QS.

(ii) West Yakutat district: 43,390 QS.

(iii) Central GOA regulatory area: 46,055 QS.

(iv) Western GOA regulatory area: 48,410 QS.

(v) Aleutian Islands subarea: 99,210 QS.

(vi) Bering Sea subarea: 91,275 QS.

(3) *Halibut.* QS blocks for the same IFQ regulatory area and vessel category that represent less than 3,000 lb (1.4 mt) of halibut IFQ, based on the 1996 catch limit for halibut in a specific IFQ regulatory area and the QS pool for that IFQ regulatory area on January 31, 1996, may be consolidated into larger QS blocks provided that the consolidated blocks do not represent greater than 3,000 lb (1.4 mt) of halibut IFQ based on the preceding criteria. In Areas 2C and 3A, QS blocks for the same IFQ regulatory area and vessel category that represent less than 5,000 lb (2.3 mt) of halibut IFQ, based on the 1996 catch limit for halibut in a specific IFQ regulatory area and the QS pool for that IFQ regulatory area on January 31, 1996, may be consolidated into larger QS blocks provided that the consolidated blocks do not represent greater than 5,000 lb (2.3 mt) of halibut IFQ based on the preceding criteria. A consolidated block cannot be divided and is considered a single block for purposes of use and transferability. The maximum number of QS units that may be consolidated into a single block in each IFQ regulatory area is as follows:

(i) Area 2C: 33,320 QS.

(ii) Area 3A: 46,520 QS.

(iii) Area 3B: 44,193 QS.

(iv) Subarea 4A: 22,947 QS.

(v) Subarea 4B: 15,087 QS.

(vi) Subarea 4C: 30,930 QS.

(vii) Subarea 4D: 26,082 QS.

(viii) Subarea 4E: 0 QS.

(4) A CQE may not purchase or use sablefish QS blocks less than or equal to the number of QS units specified in (e)(2)(i) through (e)(2)(iv) of this section.

(5) A CQE may not purchase or use halibut QS blocks less than or equal to the number of QS units specified in (e)(3)(i) and (e)(3)(ii) of this section.

(f) *Transfer of QS or IFQ with restrictions.* If QS or IFQ must be transferred as a result of a court order, operation of law, or as part of a security agreement, but the person receiving the QS or IFQ by transfer does not meet all of the eligibility requirements of this section, the Regional Administrator will approve the Application for Transfer with restrictions. The Regional Administrator will not assign IFQ resulting from the restricted QS to any person. IFQ with restrictions may not be used for harvesting halibut or sablefish with fixed gear. The QS or IFQ will remain restricted until:

(1) The person who received the QS or IFQ with restrictions meets the eligibility requirements of this section and the Regional Administrator approves an Application for Eligibility for that person; or

(2) The Regional Administrator approves the Application for Transfer from the person who received the QS or IFQ with restrictions to a person who meets the requirements of this section.

(g) *Transfer restrictions.* (1) Except as provided in paragraph (f), paragraph (g)(2), or paragraph (1) of this section, only persons who are IFQ crew members, or who were initially issued QS assigned to vessel categories B, C, or D, and meet the eligibility requirements in this section, may receive by transfer QS assigned to vessel categories B, C, or D, or the IFQ resulting from it.

(2) Except as provided in paragraph (g)(3) of this section, only persons who are IFQ crew members, and meet the other requirements in this section, may receive by transfer QS assigned to vessel categories B, C, or D, or the IFQ resulting from it, in IFQ regulatory area 2C for halibut or in the IFQ regulatory area east of 140° W. long. for sablefish.

(3) Individuals who were initially issued QS assigned to vessel categories

B, C, or D may transfer that QS to a corporation that is solely owned by the same individual. Such transfers of QS assigned to vessel categories B, C, or D in IFQ regulatory area 2C for halibut or in the IFQ regulatory area east of 140° W. long. for sablefish will be governed by the use provisions of § 679.42(i); the use provisions pertaining to corporations at § 679.42(j) shall not apply.

(4) The Regional Administrator will not approve an Application for Transfer of QS assigned to vessel categories B, C, or D subject to a lease or any other condition of repossession or resale by the person transferring QS, except as provided in paragraphs (h) and (m) of this section, or by court order, operation of law, or as part of a security agreement. The Regional Administrator may request a copy of the sales contract or other terms and conditions of transfer between two persons as supplementary information to the transfer application.

(5) A CQE may not hold QS in halibut IFQ regulatory areas 2C or 3A that is assigned to vessel category D.

(6) IFQ derived from QS held by a CQE on behalf of an eligible community may be used only by an eligible community resident of that eligible community.

(7) A CQE may transfer QS:

(i) To generate revenues to provide funds to meet administrative costs for managing the community QS holdings;

(ii) To generate revenue to improve the ability of residents within the community to participate in the halibut and sablefish IFQ fisheries;

(iii) To generate revenue to purchase QS to yield IFQ for use by community residents;

(iv) To dissolve the CQE; or

(v) As a result of a court order, operation of law, or as part of a security agreement.

(8) If the Regional Administrator determines that a CQE transferred QS for purposes other than those specified in paragraph (g)(7) of this section, then:

(i) The CQE must divest itself of any remaining QS holdings and will not be eligible to receive QS by transfer for a period of three years after the effective

## Fishery Conservation and Management

§ 679.41

date of final agency action on the Regional Administrator's determination; and

(ii) The Regional Administrator will not approve a CQE to represent the eligible community in whose name the CQE transferred quota for a period of three years after the effective date of final agency action on the Regional Administrator's determination.

(h) *Transfer of IFQ.* (1) Pursuant to paragraph (a) of this section, an Application for Transfer must be approved by the Regional Administrator before a person may use any IFQ that results from a direct transfer to harvest halibut or sablefish. After approving the Application for Transfer, the Regional Administrator will change any IFQ accounts affected by the approved transfer and issue all necessary IFQ permits.

(2) IFQ resulting from category B, C, or D QS may not be transferred separately from its originating QS, except as provided in paragraph (k) of this section.

(i) *Transfer across catcher vessel categories—(1) CDQ compensation.* Persons issued CDQ compensation QS in a catcher vessel category, pursuant to § 679.41(j), and in an IFQ regulatory area in which they do not hold QS other than CDQ compensation QS, may use that CDQ compensation QS on any catcher vessel. This exemption from catcher vessel categories ends upon the first transfer of the CDQ compensation QS. CDQ compensation QS being transferred will be permanently assigned to a specific catcher vessel category as designated by the person receiving the transfer.

(2) *CDQ compensation QS definition.* For purposes of this paragraph (i), CDQ compensation QS is QS issued as compensation for halibut and sablefish harvest privileges foregone due to the CDQ Program, as provided in paragraph (j) of this section.

(j) *Compensation for CDQ allocations.*

(1) The Regional Administrator will compensate persons that receive a reduced halibut QS in IPHC regulatory areas 4B, 4C, 4D, or 4E because of the halibut CDQ program by adding halibut QS from IPHC regulatory areas 2C, 3A, 3B, and 4A. This compensation of halibut QS from areas 2C, 3A, 3B, and 4A will be allocated in proportion to the

amount of halibut QS foregone due to the CDQ allocation authorized by this section.

(2) The Regional Administrator will compensate persons that receive a reduced sablefish QS in any BSAI IFQ regulatory area because of the sablefish CDQ program by taking sablefish QS from the IFQ regulatory areas of the GOA and allocating it in proportion to the loss suffered by persons in the BSAI area. Such additional compensation of sablefish QS will be allocated in proportion to the amount of sablefish QS foregone due to the CDQ allocation authorized by this section.

(3) Persons initially issued QS for IFQ regulatory areas in which a portion of the TAC is allocated to the CDQ Program will be compensated for halibut and sablefish harvest privileges foregone due to the CDQ Program. If a person does not hold QS in an IFQ regulatory area on the date the compensation is issued, that person's compensation will be issued as unblocked. If a person does hold QS in an IFQ regulatory area on the date compensation is issued, that person's compensation will be added to their existing QS in that IFQ regulatory area. The resulting QS amount will be blocked or unblocked according to the criteria found at § 679.40(a). Compensation will be calculated for each non-CDQ area using the following formula:

$$Q_N = (Q_C \times QSP_N \times RATE) / (SUM_{CDQ} - [RATE \times SUM_{TAC}]) \times ([1 - RATE] \times TAC_{AVE}) / (QSP_C \times [CDQ_{PCT} - RATE])$$

Where:

$Q_N$  = quota share in non-CDQ area

$Q_C$  = quota share in CDQ area

$QSP_N$  = quota share pool in non-CDQ area (as existing on January 31, 1995)

$RATE$  =  $SUM_{CDQ}$ /average of the TAC (1988–1994) for all CDQ and non-CDQ areas

$TAC_{AVE}$  = average of the TAC (1988–1994) for CDQ area

$QSP_C$  = quota share pool in CDQ area (as existing on January 31, 1995)

$CDQ_{PCT}$  = CDQ percentage for CDQ area

$SUM_{CDQ}$  = sum [ $TAC_{AVE} \times CDQ_{PCT}$ ]

$SUM_{TAC}$  = sum [ $TAC_{AVE}$ ]

(k) *Survivorship transfer privileges—(1)* On the death of an individual who holds QS or IFQ, the surviving spouse or, in the absence of a surviving spouse, a beneficiary designated pursuant to paragraph (k)(2) of this section,

receives all QS and IFQ held by the decedent by right of survivorship, unless a contrary intent was expressed by the decedent in a will. The Regional Administrator will approve an Application for Transfer to the surviving spouse or designated beneficiary when sufficient evidence has been provided to verify the death of the individual.

(2) QS holders may provide the Regional Administrator with the name of a designated beneficiary from the QS holder's immediate family to receive survivorship transfer privileges in the event of the QS holder's death and in the absence of a surviving spouse.

(3) The Regional Administrator will approve, for 3 calendar years following the date of death of an individual, an Application for Transfer of IFQ from the surviving spouse or, in the absence of a surviving spouse, from a beneficiary from the QS holder's immediate family designated pursuant to paragraph (k)(2) of this section to a person eligible to receive IFQ under the provisions of this section, notwithstanding the limitations on transfers of IFQ in paragraph (h)(2) of this section.

(1) *Transfer of QS to CQEs.* (1) Each eligible community must designate a CQE to transfer and hold QS on behalf of that community.

(2) Each eligible community may designate only one CQE to hold QS on behalf of that community at any one time.

(3) Prior to initially receiving QS by transfer on behalf of a specific eligible community, a non-profit entity that intends to represent that eligible community as a CQE must have approval from the Regional Administrator. To receive that approval, the non-profit entity seeking to become a CQE must submit a complete application to become a CQE to the Regional Administrator, NMFS, P.O. Box 21668, Juneau, AK 99802. The Regional Administrator will provide a copy of the complete application to the Alaska Department of Community and Economic Development, Commissioner, P.O. Box 110809, Juneau, AK 99811-0809. NMFS will consider comments received from the Alaska Department of Community and Economic Development when reviewing applications for a non-profit entity to become a CQE. The Alaska Depart-

ment of Community and Economic Development must submit comments on an application to the Regional Administrator, NMFS, P.O. Box 21668, Juneau, AK 99802, within 30 days of receipt of the application in order for those comments to be considered by the Regional Administrator during the approval process. If an application is disapproved, then that determination may be appealed under the provisions established at 50 CFR 679.43. A complete application to become a CQE consists of:

(i) The articles of incorporation under the laws of the State of Alaska for that non-profit entity, except that a non-profit entity that is representing the Metlakatla Indian Village may provide articles of incorporation under Federal Law;

(ii) A statement indicating the eligible community, or communities, represented by that non-profit entity for purposes of holding QS;

(iii) Management organization information, including:

(A) The bylaws of the non-profit entity;

(B) A list of key personnel of the managing organization including, but not limited to, the board of directors, officers, representatives, and any managers;

(C) A description of how the non-profit entity is qualified to manage QS on behalf of the eligible community, or communities, it is designated to represent, and a demonstration that the non-profit entity has the management, technical expertise, and ability to manage QS and IFQ; and

(D) The name of the non-profit organization, taxpayer ID number, NMFS person number, permanent business mailing addresses, name of contact persons and additional contact information of the managing personnel for the non-profit entity, resumes of management personnel, name of community or communities represented by the CQE, name of contact for the governing body of each community represented, date, name and notarized signature of applicant, Notary Public signature and date when commission expires.

(iv) A statement describing the procedures that will be used to determine

## Fishery Conservation and Management

§ 679.41

the distribution of IFQ to residents of the community represented by that CQE, including:

(A) Procedures used to solicit requests from residents to lease IFQ; and

(B) Criteria used to determine the distribution of IFQ leases among qualified community residents and the relative weighting of those criteria.

(v) A statement of support from the governing body of the eligible community as that governing body is identified in Table 21 to this part. That statement of support is:

(A) A resolution from the City Council or other official governing body for those eligible communities incorporated as first or second class cities in the State of Alaska;

(B) A resolution from the tribal government authority recognized by the Bureau of Indian Affairs for those eligible communities that are not incorporated as first or second class cities in the State of Alaska; but are represented by a tribal government authority recognized by the Secretary of the Interior; or

(C) A resolution from a non-profit community association, homeowner association, community council, or other non-profit entity for those eligible communities that are not incorporated as first or second class cities in the State of Alaska, and is not represented by a tribal government authority recognized by the Bureau of Indian Affairs. The non-profit entity that provides a statement of support must:

(1) Have articles of incorporation as a non-profit community association, homeowner association, community council, or other non-profit entity; and

(2) Have an established relationship with the State of Alaska Department of Community and Economic Development for purposes of representing that community for governmental functions.

(D) If an eligible community is not incorporated as a first or second class city in the State of Alaska, is not represented by a tribal government authority recognized by the Secretary of the Interior, and does not have a non-profit community association, homeowner association, community council, or other non-profit entity within that community with an established rela-

tionship with the Alaska Department of Community and Economic Development for purposes of representing that community for purposes of governmental functions, then the Regional Administrator, NMFS, will not consider any statement from a non-profit entity representing that community until that community:

(1) Is incorporated as a first or second class city in the State of Alaska;

(2) Establishes a tribal government authority recognized by the Secretary of the Interior; or

(3) Establishes a non-profit community association, homeowner association, community council, or other non-profit entity within that community that meets the requirements established in paragraph (E) of this section.

(E) If a community described under paragraph (1)(3)(v)(D) of this section establishes a non-profit community association, homeowner association, community council, or other non-profit entity within that community, then the Regional Administrator, NMFS, will consider any recommendations from this entity to support a particular applicant after reviewing:

(1) Petitions from residents affirming that the non-profit community association, homeowner association, community council, or other non-profit entity within that community represents the residents within that community; and

(2) Comments from the State of Alaska Department of Community and Economic Development on the articles of incorporation for that non-profit entity and the ability of that non-profit entity to adequately represent the interests of that community for purposes of governmental functions.

(3) If the Regional Administrator determines that this statement of support is not adequate, than that determination may be appealed under the provisions established at 50 CFR 679.43.

(4) The governing body of an eligible community as that governing body is identified in Table 21 to this part, must provide authorization for any transfer of QS by the CQE that holds QS on behalf of that eligible community prior to that transfer of QS being approved by NMFS. This authorization must be submitted as part of the Application

for Transfer. That authorization consists of a signature on the Application for Transfer by a representative of the governing body that has been designated by that governing body to provide such authorization to approve the transfer of QS.

(m) *Temporary military transfers.* In the event of a military mobilization or order to report for military service affecting a QS holder that prevents him or her from being able to participate in the halibut or sablefish IFQ fisheries, the Regional Administrator may approve a temporary military transfer for the IFQ derived from the QS held by a QS holder affected by the military mobilization.

(1) *General.* A temporary military transfer will be approved if the QS holder demonstrates that he or she is unable to participate in the IFQ fishery for which he or she holds QS because of a military mobilization, order to report for military service, or active duty military service.

(2) *Eligibility.* To be eligible to receive a temporary military transfer, a QS holder must meet all of the following requirements:

(i) Be a member of a branch of the National Guard or a member of a reserve component;

(ii) Possess one or more catcher vessel IFQ permits;

(iii) Not qualify for a hired master exception under § 679.42(i)(1);

(iv) Be in active duty military service as that term is defined at 10 U.S.C. 101(d)(1), be under a call to active service authorized by the President or the Secretary for a period of more than 30 consecutive days under 32 U.S.C. 502(f), or in the case of a member of a reserve component, have been ordered to report for military service beginning on the date of the member's receipt of the order and ending on the date on which the member reports for active duty military service.

(3) *Application.* A QS holder may apply for a temporary military transfer by submitting a temporary military transfer application to the Alaska Region, NMFS. NMFS will transfer, upon approval of the application, the applicable IFQ from the applicant (transferor) to the recipient (transferee). A temporary military transfer applica-

tion is available at <http://www.fakr.noaa.gov> or by calling 1-800-304-4846. A complete application must include all of the following:

(i) The transferor's identity including his or her full name, NMFS person ID, date of birth, permanent business mailing address, business telephone and fax numbers, and e-mail address (if any). A temporary mailing address may be provided, if appropriate.

(ii) The transferee's identity including his or her full name, NMFS person ID, date of birth, permanent business mailing address, business telephone and fax numbers, and e-mail address (if any). A temporary mailing address may be provided, if appropriate.

(iii) The identification characteristics of the IFQ including whether the transfer is for halibut or sablefish IFQ, IFQ regulatory area, number of units, range of QS serial numbers for IFQ to be transferred, actual number of IFQ pounds, transferor (seller) IFQ permit number, and fishing year.

(iv) Documentation of active military mobilization or deployment. This documentation must include the following:

(A) A copy of official documentation such as valid military orders or call that direct the transferor to report to active duty military service, to mobilize for a military deployment, or to report to active service.

(B) A concise description of the nature of the military deployment or active duty military service, including verification that the applicant is unable to participate in the IFQ fishery for which he or she holds IFQ permits during the IFQ season because of his/her active duty military service.

(v) The signatures and printed names of the transferor and transferee, and date.

(vi) The signature, seal, and commission expiration of a notary public.

(4) *Restrictions.* (i) A temporary military transfer shall be valid only during the calendar year for which the associated IFQ is issued.

(ii) A temporary military transfer will be issued only for the IFQ derived from the QS held by the applicant.

(5) *Temporary military transfer evaluations and appeals—(i) Initial evaluation.*

## Fishery Conservation and Management

## § 679.42

The Regional Administrator will evaluate an application for a temporary military transfer submitted in accordance with paragraphs (c)(1) through (c)(9) of this section. An applicant who fails to submit the information specified in the application for a temporary military transfer will be provided a reasonable opportunity to submit the specified information or submit a revised application.

(ii) *Initial administrative determination (IAD).* The Regional Administrator will prepare and send an IAD to the applicant if the Regional Administrator determines that the application provided by the applicant is deficient or if the applicant fails to submit the specified information or a revised application. The IAD will indicate the deficiencies in the application, including any deficiencies with the information on the revised application. An applicant who receives an IAD may appeal under the appeals procedures set out at § 679.43.

[61 FR 31230, June 19, 1996, as amended at 61 FR 33385, June 27, 1996; 61 FR 41526, Aug. 9, 1996; 61 FR 67964, Dec. 26, 1996; 63 FR 47368, Sept. 4, 1998; 65 FR 14942, Mar. 20, 2000; 66 FR 27910, May 21, 2001; 67 FR 4133, 4148, Jan. 28, 2002; 69 FR 23691, Apr. 30, 2004; 72 FR 44809, Aug. 9, 2007; 73 FR 28738, May 19, 2008]

### § 679.42 Limitations on use of QS and IFQ.

(a) *IFQ regulatory area and vessel category.* (1) The QS or IFQ specified for one IFQ regulatory area must not be used in a different IFQ regulatory area, except all or part of the QS and IFQ specified for regulatory area 4C may be harvested in either Area 4C or Area 4D.

(i) Notwithstanding § 679.4(d)(1), § 679.7(f)(4) and (f)(11), § 679.40(b)(1), (c)(3), and (e), from July 22, 2005 to November 15, 2005, all or part of the QS and IFQ specified for regulatory area 4C may be harvested in either Area 4C or Area 4D.

(ii) For the year 2006 and subsequent annual IFQ fishing seasons, all or part of the QS and IFQ specified for regulatory area 4C may be harvested in either Area 4C or Area 4D.

(2) The QS or IFQ assigned to one vessel category must not be used to harvest IFQ species on a vessel of a different vessel category, except:

(i) As provided in paragraph (k) of this section (processing fish other than IFQ halibut and IFQ sablefish);

(ii) As provided in § 679.41(i)(1) of this part (CDQ compensation QS exemption);

(iii) IFQ derived from QS held by a CQE may be used to harvest IFQ species from a vessel of any length.

(iv) In Areas 3B and 4C, category D QS and associated IFQ authorizes an IFQ permit holder to harvest IFQ halibut on a vessel less than or equal to 60 ft (18.3 m) LOA.

(b) *Gear—(1) IFQ Fisheries.* Halibut IFQ must be used only to harvest halibut with fishing gear authorized in § 679.2. Sablefish fixed gear IFQ must not be used to harvest sablefish with trawl gear in any IFQ regulatory area, or with pot gear in any IFQ regulatory area of the GOA.

(2) *Seabird avoidance gear and methods.* The operator of a vessel using gear authorized at § 679.2 while fishing for IFQ halibut, CDQ halibut, or hook-and-line gear while fishing for IFQ sablefish must comply with requirements for seabird avoidance gear and methods set forth at § 679.24(e).

(c) *Requirements and deductions.* (1) Any individual who harvests halibut or sablefish with fixed gear must:

(i) Have a valid IFQ permit or a valid IFQ hired master permit.

(ii) Be aboard the vessel at all times during the fishing trip and present during the landing.

(iii) Sign any required fish ticket.

(iv) Sign the IFQ Landing Report required by § 679.5(1)(2)(iii)(M) or § 679.5(1)(2)(iv)(D).

(2) NMFS shall use the following sources of information to debit a CDQ or IFQ account.

(i) Except as provided in § 679.5(1)(2)(iii)(J), if offload of unprocessed IFQ halibut, CDQ halibut or IFQ sablefish from a vessel, the scale weight of the halibut or sablefish product actually measured at the time of offload, as required by § 679.5(1)(2)(iii) to be included in the IFQ Landing Report.

(ii) If offload of processed IFQ & CDQ halibut or IFQ sablefish from a vessel, the scale weight of the halibut or sablefish processed product actually measured at or before the time of offload. If the product scale weights are

taken before the time of offload, then the species and actual product weight of each box or container must be visibly marked on the outside of each container to facilitate enforcement inspection.

(3) All IFQ catch onboard a vessel must be debited from the IFQ permit holder's account under which the catch was harvested.

(d) *Emergency waivers and medical transfers.* The person authorized to fish IFQ halibut or sablefish must be aboard the vessel during fishing operations and must sign the IFQ landing report except as provided in § 679.41 and under the following circumstances:

(1) *Emergency waiver.* In the event of extreme personal emergency during a fishing trip involving a person authorized to fish IFQ halibut or sablefish, the requirements or paragraph (c)(1) of this section may be waived. The waiving of these requirements under this provision shall apply to IFQ halibut or IFQ sablefish retained on the fishing trip during which the emergency occurred.

(2) *Medical transfers.* In the event of a medical condition affecting a QS holder or an immediate family member of a QS holder that prevents the QS holder from being able to participate in the halibut or sablefish IFQ fisheries, a medical transfer may be approved for the IFQ derived from the QS held by the person affected by the medical condition.

(i) *General.* A medical transfer will be approved if the QS holder demonstrates that:

(A) He or she is unable to participate in the IFQ fishery for which he or she holds QS because of a medical condition that precludes participation by the QS holder; or

(B) He or she is unable to participate in the IFQ fishery for which he or she holds QS because of a medical condition involving an immediate family member that requires the QS holder's full time attendance.

(ii) *Eligibility.* To be eligible to receive a medical transfer, a QS holder must:

(A) Possess one or more catcher vessel IFQ permits; and

(B) Not qualify for a hired master exception under paragraph (i)(1) of this section.

(iii) *Application.* A QS holder may apply for a medical transfer by submitting a medical transfer application to the Alaska Region, NMFS. A QS holder who has received an approved medical transfer from RAM may transfer the IFQ derived from his or her own QS to an individual eligible to receive IFQ. A medical transfer application is available at <http://www.fakr.noaa.gov> or by calling 1-800-304-4846. Completed applications must be mailed to: Restricted Access Management Program, NMFS, Alaska Region, P.O. Box 21668, Juneau, AK 99802-1668. A complete application must include:

(A) The applicant's (transferor's) identity including his or her full name, NMFS person ID, date of birth, Social Security Number or Tax ID, permanent business mailing address, business telephone and fax numbers, and e-mail address (if any). A temporary mailing address may be provided, if appropriate;

(B) The recipient's (transferee's) identity including his or her full name, NMFS person ID, date of birth, Social Security Number or Tax ID, permanent business mailing address, business telephone and fax numbers, and e-mail address (if any). A temporary mailing address may be provided, if appropriate;

(C) The identification characteristics of the IFQ including whether the transfer is for halibut or sablefish IFQ, IFQ regulatory area, number of units, range of serial numbers for IFQ to be transferred, actual number of IFQ pounds, transferor (seller) IFQ permit number, and fishing year;

(D) The price per pound (including leases) and total amount paid for the IFQ in the requested transaction, including all fees;

(E) The primary source of financing for the transfer, how the IFQ was located, and the transferee's (buyer's) relationship to the transferor (seller);

(F) A written declaration from a licensed medical doctor, advanced nurse practitioner, or primary community health aide as those persons are defined in § 679.2. The declaration must include:

(1) The identity of the licensed medical doctor, advanced nurse practitioner, or primary community health

## Fishery Conservation and Management

## § 679.42

aide including his or her full name, business telephone, permanent business mailing address (number and street, city and state, zip code), and whether the individual is a licensed medical doctor, advanced nurse practitioner, or primary community health aide;

(2) A concise description of the medical condition affecting the applicant or applicant's family member including verification that the applicant is unable to participate in the IFQ fishery for which he or she holds IFQ permits during the IFQ season because of the medical condition and, for an affected family member, a description of the care required; and

(3) The dated signature of the licensed medical doctor, advanced nurse practitioner, or primary community health aide who conducted the medical examination;

(G) The signatures and printed names of the transferor and transferee, and date; and

(H) The signature, seal, and commission expiration of a notary public.

(iv) *Restrictions.* (A) A medical transfer shall be valid only during the calendar year for which the permit is issued;

(B) A medical transfer will be issued only for the IFQ derived from the QS held by the applicant;

(C) NMFS will not approve a medical transfer if the applicant has received a medical transfer in any 2 of the previous 5 years for the same medical condition.

(v) *Medical transfer evaluations and appeals*—(A) *Initial evaluation.* The Regional Administrator will evaluate an application for a medical transfer submitted in accordance with paragraphs (d)(2)(iii) and (d)(2)(iv) of this section. An applicant who fails to submit the information specified in the application for a medical transfer will be provided a reasonable opportunity to submit the specified information or submit a revised application.

(B) *Initial administrative determinations (IAD).* The Regional Administrator will prepare and send an IAD to the applicant if the Regional Administrator determines that the application provided by the applicant is deficient or if the applicant fails to submit the specified information or a revised ap-

plication. The IAD will indicate the deficiencies in the application, including any deficiencies with the information on the revised application. An applicant who receives an IAD may appeal under the appeals procedures set out at § 679.43.

(e) *Sablefish QS Use.* (1) No person, individually or collectively, may use more than 3,229,721 units of sablefish QS, except if the amount of a person's initial allocation of sablefish QS is greater than 3,229,721 units, in which case that person may not use more than the amount of the initial allocation.

(2) In the IFQ regulatory area east of 140° W. long., no person, individually or collectively, may use more than 688,485 units of sablefish QS for this area, except if the amount of a person's initial allocation of sablefish QS is greater than 688,485 units, in which case that person may not use more than the amount of the initial allocation.

(3) No CQE may hold sablefish QS in the IFQ regulatory areas of the Bering Sea subarea and the Aleutian Islands subareas.

(4) No CQE may hold more than 3,229,721 units of sablefish QS on behalf of any single eligible community.

(5) In the IFQ regulatory area east of 140° W. long., no CQE may hold more than 688,485 units of sablefish QS for this area on behalf of any single eligible community.

(6) In the aggregate, all CQEs are limited to holding a maximum of 3 percent of the total QS in those IFQ regulatory areas specified in § 679.41(e)(2)(I) through (e)(2)(iv) of this part for sablefish in the first calendar year implementing the regulation in this section. In each subsequent calendar year, this aggregate limit on all CQEs shall increase by an additional 3 percent in each IFQ regulatory area specified in § 679.41(e)(2)(i) through (e)(2)(iv) of this part up to a maximum limit of 21 percent of the total QS in each regulatory area specified in §§ 679.41(e)(2)(i) through (e)(2)(iv) of this part for sablefish.

(7) No individual that receives IFQ derived from sablefish QS held by a CQE may hold, individually or collectively, more than 50,000 lb (22.7 mt) of

IFQ sablefish derived from any sablefish QS source.

(8) A CQE receiving category B, or C sablefish QS through transfer may lease the IFQ resulting from that QS only to an eligible community resident of the eligible community on whose behalf the QS is held.

(f) *Halibut QS use.* (1) Unless the amount in excess of the following limits was received in the initial allocation of halibut QS, no person, individually or collectively, may use more than:

(i) *IFQ regulatory area 2C.* 599,799 units of halibut QS.

(ii) *IFQ regulatory area 2C, 3A, and 3B.* 1,502,823 units of halibut QS.

(iii) *IFQ regulatory area 4A, 4B, 4C, 4D, and 4E.* 495,044 units of halibut QS.

(2) No CQE may receive an amount of halibut QS on behalf of any single eligible community which is more than:

(i) *IFQ regulatory area 2C.* 599,799 units of halibut QS.

(ii) *IFQ regulatory area 2C, 3A, and 3B.* 1,502,823 units of halibut QS.

(3) No CQE may hold halibut QS in the IFQ regulatory areas 4A, 4B, 4C, 4D, and 4E.

(4) A CQE representing an eligible community may receive by transfer or use QS only in the IFQ regulatory areas designated for that species and for that eligible community as described in Table 21 to this part.

(5) In the aggregate, all CQEs are limited to holding a maximum of 3 percent of the total QS in those IFQ regulatory areas specified in §§ 679.41(e)(3)(i) through (e)(3)(iii) for halibut in the first calendar year implementing the regulation in this section. In each subsequent calendar year, this aggregate limit on all community quota entities shall increase by an additional 3 percent in each IFQ regulatory area specified in §§ 679.41(e)(3)(i) through (e)(3)(iii). This limit shall increase up to a maximum limit of 21 percent of the total QS in each regulatory area specified in §§ 679.41(e)(3)(i) through (e)(3)(iii) for halibut.

(6) No individual that receives IFQ derived from halibut QS held by a CQE may hold, individually or collectively, more than 50,000 lb (22.7 mt) of IFQ halibut derived from any halibut QS source.

(7) A CQE receiving category B or C halibut QS through transfer may lease the IFQ resulting from that QS only to an eligible community resident of the eligible community represented by the CQE.

(g) *Limitations on QS blocks*—(1) *Number of blocks per species.* No person, individually or collectively, may hold more than two blocks of sablefish or three blocks of halibut in any IFQ regulatory area, except:

(i) A person, individually or collectively, who holds unblocked QS for a species in an IFQ regulatory area, may hold only one QS block for that species in that regulatory area; and

(ii) A CQE may hold no more than ten blocks of halibut QS in any IFQ regulatory area and no more than five blocks of sablefish QS in any IFQ regulatory area on behalf of any eligible community.

(2) *Action by the Regional Administrator in Areas 3B and 4A.* In Areas 3B and 4A, the Regional Administrator shall:

(i) Identify any halibut blocks that result in an allocation of more than 20,000 lb (9.1) mt of halibut IFQ, based on the 2004 TAC for fixed gear halibut in those areas and the QS pools for those areas as of January 31, 2004; and

(ii) Divide those halibut blocks into one block of 20,000 lb (9.1 mt) and the remainder unblocked, based on the 2004 TAC for fixed gear halibut in those areas and the QS pools for those areas as of January 31, 2004.

(3) *Transfer of QS blocks.* Notwithstanding paragraph (g)(1)(i) of this section, a person who holds more than one block of halibut QS and unblocked halibut QS as a result of the Regional Administrator's action under paragraph (g)(2) of this section may transfer unblocked QS until such time as that person transfers a halibut QS block to another person.

(4) *Holding or to hold blocks of QS.* For purposes of this section, “holding” or “to hold” blocks of QS means being registered by NMFS as the person who received QS by initial assignment or approved transfer.

(h) *Vessel limitations*—(1) *Halibut.* No vessel may be used, during any fishing year, to harvest more than one-half percent of the combined total catch

## Fishery Conservation and Management

§ 679.42

limits of halibut for IFQ regulatory areas 2C, 3A, 3B, 4A, 4B, 4C, 4D, and 4E, except that:

(i) In IFQ regulatory area 2C, no vessel may be used to harvest more than 1 percent of the halibut catch limit for this area.

(ii) No vessel may be used, during any fishing year, to harvest more than 50,000 lb (22.7 mt) of IFQ halibut from any halibut QS source if that vessel is used to harvest IFQ halibut derived from halibut QS held by a CQE.

(2) *Sablefish*. No vessel may be used, during any fishing year, to harvest more than one percent of the combined fixed gear TAC of sablefish for the GOA and BSAI IFQ regulatory areas, except that:

(i) In the IFQ regulatory area east of 140 degrees W. long., no vessel may be used to harvest more than 1 percent of the fixed gear TAC of sablefish for this area.

(ii) No vessel may be used, during any fishing year, to harvest more than 50,000 lb (22.7 mt) of IFQ sablefish from any sablefish QS source if that vessel is used to harvest IFQ sablefish derived from sablefish QS held by a CQE.

(3) A person who receives an approved IFQ allocation of halibut or sablefish in excess of these limitations may nevertheless catch and retain all of that IFQ with a single vessel, except that this provision does not apply if that IFQ allocation includes IFQ derived from QS held by a CQE. However, two or more persons may not catch and retain their IFQ in excess of these limitations.

(i) *Use of IFQ resulting from QS assigned to vessel category B, C, or D by individuals*. In addition to the requirements of paragraph (c) of this section, IFQ permits issued for IFQ resulting from QS assigned to vessel category B, C, or D must be used only by the individual who holds the QS from which the associated IFQ is derived, except as provided in paragraph (i)(1) of this section.

(1) An individual who received an initial allocation of QS assigned to category B, C, or D does not have to be aboard the vessel on which his or her IFQ is being fished or to sign IFQ landing reports if that individual:

(i) For a documented vessel, owns a minimum 20-percent interest in the vessel as shown by the U.S. Abstract of Title issued by the U.S. Coast Guard that lists the individual as an owner and, if necessary to prove the required percentage ownership, other written documentation;

(ii) For an undocumented vessel, owns a minimum 20-percent interest in the vessel as shown by a State of Alaska vessel license or registration that lists the individual as an owner and, if necessary to show the required percentage ownership interest, other written documentation; and

(iii) Is represented on the vessel by a hired master employed by that individual and permitted in accordance with § 679.4(d)(2).

(2) Paragraph (i)(1) of this section does not apply to any individual who received an initial allocation of QS assigned to category B, C, or D and who, prior to April 17, 1997, employed a master to fish any of the IFQ issued to that individual, provided the individual continues to own the vessel from which the IFQ is being fished at no lesser percentage of ownership interest than that held on April 17, 1997, and provided that this individual has not acquired additional QS through transfer after September 23, 1997.

(3) Paragraph (i)(1) of this section does not apply to individuals who received an initial allocation of QS assigned to vessel category B, C, or D for halibut in IFQ regulatory Area 2C or for sablefish QS in the IFQ regulatory area east of 140° W. long., and this exemption is not transferable.

(4) The exemption provided in paragraph (i)(1) of this section may be exercised by an individual on a vessel owned by a corporation, partnership, or other entity in which the individual is a shareholder, partner, or member, provided that the individual maintains a minimum 20-percent interest in the vessel owned by the corporation, partnership, or other entity. For purposes of this paragraph, interest in a vessel is determined as the percentage ownership of a corporation, partnership, or other entity by that individual multiplied by the percentage of ownership of the vessel by the corporation, partnership, or other entity.

(5) IFQ derived from QS held by a CQE must be used only by the individual whose IFQ permit account contains the resulting IFQ.

(j) *Use of IFQ resulting from QS assigned to vessel category B, C, or D by corporations and partnerships.* (1) Except as provided in paragraph (j)(7) of this section, a corporation, partnership or other entity that received an initial allocation of QS assigned to category B, C, or D may fish the IFQ resulting from that QS and any additional QS acquired within the limitations of this section from a vessel if that corporation, partnership or other entity:

(i) For a documented vessel, owns a minimum 20-percent interest in the vessel as shown by the U.S. Abstract of Title issued by the U.S. Coast Guard that lists the corporation, partnership or other entity as an owner and, if necessary to prove the required percentage ownership, other written documentation;

(ii) For an undocumented vessel, owns a minimum 20-percent interest in the vessel as shown by a State of Alaska vessel license or registration that lists the corporation, partnership or other entity as an owner and, if necessary to show the required percentage ownership interest, other written documentation; and

(iii) Is represented on the vessel by a hired master employed by that individual and permitted in accordance with § 679.4(d)(2).

(2) The provision of paragraph (j)(1) of this section is not transferable and does not apply to QS assigned to vessel category B, C, or D for halibut in IFQ regulatory Area 2C or for sablefish in the IFQ regulatory area east of 140° W. long. that is transferred to a corporation or partnership. Such transfers of additional QS within these areas must be to an individual pursuant to § 679.41(c) and be used pursuant to paragraphs (c) and (i) of this section.

(3) A corporation or partnership, except for a publicly held corporation, that receives an initial allocation of QS assigned to vessel category B, C, or D loses the exemption provided under this paragraph (j) on the effective date of a change in the corporation or partnership from that which existed at the time of initial allocation.

(4) For purposes of this paragraph (j), “a change” means:

(i) For corporations and partnerships, the addition of any new shareholder(s) or partner(s), except that a court appointed trustee to act on behalf of a shareholder or partner who becomes incapacitated is not a change in the corporation or partnership; or

(ii) For estates, the final or summary distribution of the estate.

(5) The Regional Administrator must be notified of a change in the corporation, partnership, or other entity as defined in this paragraph (j) within 15 days of the effective date of the change. The effective date of change, for purposes of this paragraph (j), is the date on which the new shareholder(s) or partner(s) may realize any corporate liabilities or benefits of the corporation or partnership or, for estates, the date of the determination of a legal heir to the estate, or the date of the order for distribution of the estate.

(6) QS assigned to vessel category B, C, or D and IFQ resulting from that QS held in the name of a corporation, partnership, or other entity that changes, as defined in this paragraph (j), must be transferred to an individual, as prescribed in § 679.41, before it may be used at any time after the effective date of the change.

(7) A corporation or a partnership that received an initial allocation of QS assigned to category B, C, or D and that, prior to April 17, 1997, employed a master to fish any of the IFQ issued to that corporation or partnership may continue to employ a master to fish its IFQ on a vessel owned by the corporation or partnership provided that the corporation or partnership continues to own the vessel at no lesser percentage of ownership interest than that held on April 17, 1997, and provided that corporation or partnership did not acquire additional QS through transfer after September 23, 1997.

(8) A corporation, partnership, or other entity, except for a publicly held corporation, that receives an initial allocation of QS assigned to category B, C, or D must provide annual updates to the Regional Administrator identifying all current shareholders or partners and affirming the entity’s continuing

existence as a corporation or partnership.

(9) The exemption provided in this paragraph (j) may be exercised by a corporation, partnership, or other entity on a vessel owned by a person who is a shareholder in the corporation, partnership, or other entity, provided that the corporation, partnership, or other entity maintains a minimum of 20-percent interest in the vessel. For purposes of this paragraph (j), interest in a vessel is determined as the percentage of ownership in the corporation, partnership, or other entity by that person who is a shareholder in the corporation, partnership, or other entity, multiplied by the percentage of ownership in the vessel by that person who is a shareholder in the corporation, partnership, or other entity.

(k) *Sablefish vessel clearance requirements*—(1) *General*. Any vessel operator who fishes for sablefish in the Bering Sea or Aleutian Islands IFQ regulatory areas must possess a transmitting VMS transmitter while fishing for sablefish.

(2) *VMS requirements*. (i) The operator of the vessel must comply with § 679.28(f)(3), (f)(4), and (f)(5); and

(ii) The operator of the vessel must contact NMFS at 800-304-4846 (option 1) between 0600 and 0000 A.l.t. and receive a VMS confirmation number at least 72 hours prior to fishing for sablefish in the Bering Sea or Aleutian Islands IFQ regulatory areas.

[61 FR 31230, June 19, 1996]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 679.42, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and on GPO Access.

#### § 679.43 Determinations and appeals.

(a) *General*. This section describes the procedure for appealing initial administrative determinations made in this title under parts 679, 680, and under subpart E of part 300. This section does not apply to initial administrative determinations made under § 679.30(d).

(b) *Who may appeal*. Any person whose interest is directly and adversely affected by an initial administrative determination may file a written appeal. For purposes of this section, such persons will be referred to as “applicant” or “appellant.”

(c) *Submission of appeals*. Appeals must be in writing and must be mailed to the: National Marine Fisheries Service, Office of Administrative Appeals (OAA), P. O. Box 21668, Juneau, AK 99802-1668, or delivered to National Marine Fisheries Service, Attention: Appeals (OAA), 709 W. 9th Street, Room 453, Juneau, AK 99801.

(d) *Timing of appeals*. (1) If an applicant appeals an initial administrative determination, the appeal must be filed not later than 60 days after the date the determination is issued.

(2) The time period within which an appeal may be filed begins to run on the date the initial administrative determination is issued. If the last day of the time period is a Saturday, Sunday, or Federal holiday, the time period will extend to the close of business on the next business day.

(e) *Address of record. General*—NMFS will establish as the address of record the address used by the applicant in initial correspondence to NMFS concerning the application. Notifications of all actions affecting the applicant after establishing an address of record will be mailed to that address, unless the applicant provides NMFS, in writing, with any changes to that address. NMFS bears no responsibility if a notification is sent to the address of record and is not received because the applicant’s actual address has changed without notification to NMFS.

(f) *Statement of reasons for appeals*. Applicants must timely submit a full written statement in support of the appeal, including a concise statement of the reasons the initial administrative determination has a direct and adverse effect on the applicant and should be reversed or modified. If the applicant requests a hearing on any issue presented in the appeal, such request for hearing must be accompanied by a concise written statement raising genuine and substantial issues of adjudicative fact for resolution and a list of available and specifically identified reliable evidence upon which the factual issues can be resolved. The appellate officer will limit his/her review to the issues stated in the appeal; all issues not set out in the appeal will be waived.

(g) *Hearings*. The appellate officer will review the applicant’s appeal and

request for hearing, and has discretion to proceed as follows:

- (1) Deny the appeal;
- (2) Issue a decision on the merits of the appeal, if the record contains sufficient information on which to reach final judgment; or
- (3) Order that a hearing be conducted. The appellate officer may so order only if the appeal demonstrates the following:
  - (i) There is a genuine and substantial issue of adjudicative fact for resolution at a hearing. A hearing will not be ordered on issues of policy or law.
  - (ii) The factual issue can be resolved by available and specifically identified reliable evidence. A hearing will not be ordered on the basis of mere allegations or denials or general descriptions of positions and contentions.
  - (iii) The evidence described in the request for hearing, if established at hearing, would be adequate to justify resolution of the factual issue in the way sought by the applicant. A hearing will not be ordered if the evidence described is insufficient to justify the factual determination sought, even if accurate.
  - (iv) Resolution of the factual issue in the way sought by the applicant is adequate to justify the action requested. A hearing will not be ordered on factual issues that are not determinative with respect to the action requested.
- (h) *Types of hearings.* If the appellate officer determines that a hearing should be held to resolve one or more genuine and substantial issues of adjudicative fact, he/she may order:
  - (1) A written hearing, as provided in paragraph (m) of this section; or
  - (2) An oral hearing, as provided in paragraph (n) of this section.
- (i) *Authority of the appellate officer.* The appellate officer is vested with general authority to conduct all hearings in an orderly manner, including the authority to:
  - (1) Administer oaths.
  - (2) Call and question witnesses.
  - (3) Issue a written decision based on the record.
- (j) *Evidence.* All evidence that is relevant, material, reliable, and probative may be included in the record. Formal rules of evidence do not apply to hearings conducted under this section.

(k) *Appellate officers' decisions.* The appellate officer will close the record and issue a decision after determining there is sufficient information to render a decision on the record of the proceedings and that all procedural requirements have been met. The decision must be based solely on the record of the proceedings. Except as provided in paragraph (o) of this section, an appellate officer's decision takes effect 30 days after it is issued and, upon taking effect, is the final agency action for purposes of judicial review.

(1) *Disqualification of an appellate officer.* (1) The appellate officer will withdraw from an appeal at any time he/she deems himself/herself disqualified.

(2) The appellate officer may withdraw from an appeal on an appellant's motion if:

- (i) The motion is entered prior to the appellate officer's issuance of a decision; and
- (ii) The appellant demonstrates that the appellate officer has a personal bias or any other basis for disqualification.

(3) If the appellate officer denies a motion to withdraw, he/she will so rule on the record.

(m) *Written hearing.* (1) An appellate officer may order a written hearing under paragraph (h)(1) of this section if he/she:

- (i) Orders a hearing as provided in paragraph (g)(3) of this section; and
- (ii) Determines that the issues to be resolved at hearing can be resolved by allowing the appellant to present written materials to support his/her position.

(2) After ordering a written hearing, the appellate officer will:

- (i) Provide the appellant with notification that a written hearing has been ordered.
- (ii) Provide the appellant with a statement of issues to be determined at hearing.
- (iii) Provide the appellant with 30 days to file a written response. The appellant may also provide documentary evidence to support his/her position. The period to file a written response may be extended at the sole discretion of the appellate officer, if the appellant shows good cause for the extension.

(3) The appellate officer may, after reviewing the appellant's written response and documentary evidence:

(i) Order that an oral hearing be held, as provided in paragraph (h)(2) of this section, to resolve issues that cannot be resolved through the written hearing process;

(ii) Request supplementary evidence from the appellant before closing the record; or

(iii) Close the record.

(4) The appellate officer will close the record and issue a decision after determining that the information on the record is sufficient to render a decision.

(n) *Oral hearing.* (1) The appellate officer may order an oral hearing under paragraphs (h)(2) and (m)(3)(i) of this section if he/she:

(i) Orders a hearing as provided in paragraph (g)(3) of this section; and

(ii) Determines that the issues to be resolved at hearing can best be resolved through the oral hearing process.

(2) After ordering an oral hearing, the appellate officer will:

(i) Provide the appellant with notification that an oral hearing has been ordered.

(ii) Provide the appellant with a statement of issues to be determined at hearing.

(iii) Provide the appellant with notification, at least 30 days in advance, of the place, date, and time of the oral hearing. Oral hearings will be held in Juneau, AK, at the prescribed date and time, unless the appellate officer determines, based upon good cause shown, that a different place, date, or time will better serve the interests of justice. A continuance of the oral hearing may be ordered at the sole discretion of the appellate officer if the appellant shows good cause for the continuance.

(3) The appellate officer may, either at his/her own discretion or on the motion of the appellant, order a pre-hearing conference, either in person or telephonically, to consider:

(i) The simplification of issues.

(ii) The possibility of obtaining stipulations, admissions of facts, and agreements to the introduction of documents.

(iii) The possibility of settlement or other means to facilitate resolution of the case.

(iv) Such other matters as may aid in the disposition of the proceedings.

(4) The appellate officer must provide the appellant with notification of a pre-hearing conference, if one is ordered, at least 30 days in advance of the conference. All action taken at the pre-hearing conference will be made part of the record.

(5) At the beginning of the oral hearing, the appellate officer may first seek to obtain stipulations as to material facts and the issues involved and may state any other issues on which he/she may wish to have evidence presented. Issues to be resolved at the hearing will be limited to those identified by the appellate officer as provided in paragraph (g)(3) of this section. The appellant will then be given an opportunity to present his/her case.

(6) During the oral hearing, the appellant has the right to present reliable and material oral or documentary evidence and to conduct such cross-examination as may be required in the interests of justice.

(7) After the conclusion of the oral hearing, the appellant may be given time by the appellate officer to submit any supplementary information that may assist in the resolution of the case.

(8) The appellate officer will close the record and issue a decision after determining that the information on the record is sufficient to render a decision.

(o) *Review by the Regional Administrator.* An appellate officer's decision is subject to review by the Regional Administrator, as provided in this paragraph (o).

(1) The Regional Administrator may affirm, reverse, modify, or remand the appellate officer's decision before the 30-day effective date of the decision provided in paragraph (k) of this section.

(2) The Regional Administrator may take any of these actions on or after the 30-day effective date by issuing a stay of the decision before the 30-day effective date. An action taken under paragraph (o)(1) of this section takes effect immediately.

## § 679.44

## 50 CFR Ch. VI (10–1–08 Edition)

(3) The Regional Administrator must provide a written explanation why an appellate officer's decision has been reversed, modified, or remanded.

(4) The Regional Administrator must promptly notify the appellant(s) of any action taken under this paragraph (o).

(5) The Regional Administrator's decision to affirm, reverse, or modify an appellate officer's decision is a final agency action for purposes of judicial review.

(p) *Issuance of a non-transferable license.* A non-transferable license will be issued to a person upon acceptance of his or her appeal of an initial administrative determination denying an application for a license for license limitation groundfish, crab species under § 679.4(k) or scallops under § 679.4(g). This non-transferable license authorizes a person to conduct directed fishing for groundfish, crab species, or catch and retain scallops and will have specific endorsements and designations based on the person's claims in his or her application for a license. This non-transferable license expires upon the resolution of the appeal.

[61 FR 31230, June 19, 1996, as amended at 62 FR 17753, Apr. 11, 1997; 63 FR 52657, Oct. 1, 1998; 63 FR 64879, Nov. 24, 1998; 65 FR 78118, Dec. 14, 2000; 66 FR 27911, May 21, 2001; 67 FR 4148, Jan. 28, 2002; 67 FR 64317, Oct. 18, 2002; 67 FR 72611, Dec. 6, 2002; 68 FR 44487, July 29, 2003; 70 FR 10238, Mar. 2, 2005; 70 FR 16754, Apr. 1, 2005]

### § 679.44 Penalties.

Any person committing, or a fishing vessel used in the commission of, a violation of the Magnuson-Stevens Act or Halibut Act, or any regulation issued under the Magnuson-Stevens Act or Halibut Act, is subject to the civil and criminal penalty provisions and civil forfeiture provisions of the Magnuson-Stevens Act or Halibut Act, to part 600 of this chapter, to 15 CFR part 904 (Civil Procedures), and to other applicable law. Penalties include but are not limited to permanent or temporary sanctions to QS and associated IFQ.

### § 679.45 IFQ cost recovery program.

(a) *Cost recovery fees—(1) Responsibility.* The person documented on the IFQ permit as the permit holder at the time of an IFQ landing must comply

with the requirements of this section. Subsequent transfer of QS or IFQ does not affect the permit holder's liability for noncompliance with this section.

(2) *IFQ Fee Liability Determination.* After each IFQ fishing year, the Regional Administrator will issue each IFQ permit holder a summary of his or her IFQ pounds landed during that IFQ fishing year for each permit as part of the IFQ Landing and Estimated Fee Liability page described at § 679.5(1)(7)(ii)(C)(2). The summary will include an estimated IFQ fee liability based on the standard ex-vessel values of the landings. The summary and estimated fee liability will include details of IFQ equivalent pounds landed by permit, port or port-group, species, date, and IFQ standard prices. The permit holder must either accept NMFS's estimate of IFQ liability or revise NMFS's estimate of IFQ fee liability using the Fee Submission Form described at § 679.5(1)(7)(ii). If the permit holder revises NMFS's estimate of his or her fee liability, NMFS may request in writing that the permit holder submit documentation establishing the factual basis for the revised calculation. If the permit holder fails to provide adequate documentation by the 30<sup>th</sup> day after the date of such request, NMFS will determine the IFQ permit holder's fee liability based on standard ex-vessel values.

(3) *Fee Collection.* An IFQ permit holder with an IFQ landing is responsible for self-collecting his or her own fee during the calendar year in which the IFQ fish is harvested.

(4) *Payment—(i) Payment due date.* An IFQ permit holder must submit his or her IFQ fee liability payment(s) to NMFS at the address provided in this section at paragraph (a)(4)(iii) of this section not later than January 31 of the year following the calendar year in which the IFQ landings were made.

(ii) *Payment recipient.* Make payment payable to NMFS.

(iii) *Payment address.* Mail payment and related documents to:

Administrator, Alaska Region, NMFS,  
Attn: RAM Program,  
P.O. Box 21668,  
Juneau, AK 99802 1668,  
FAX: (907) 586-7354.

or submit electronically to NMFS via forms available from RAM or on the RAM area of the Alaska Region Home Page at <http://www.fakr.noaa.gov/ram>.

(iv) *Payment method.* Payment must be made in U.S. dollars by personal check drawn on a U.S. bank account, money order, bank certified check, or credit card.

(b) *IFQ ex-vessel value determination and use—(1) General.* An IFQ permit holder must use either the IFQ standard ex-vessel value or the IFQ actual ex-vessel value when determining the IFQ fee liability based on ex-vessel value. An IFQ permit holder must base all fee liability calculations on the ex-vessel value that correlates to landed IFQ fish that is recorded in IFQ equivalent pounds.

(2) *IFQ actual ex-vessel value.* An IFQ permit holder that uses actual ex-vessel value, as defined in § 679.2, to determine IFQ fee liability must document actual ex-vessel value for each IFQ permit.

(c) *IFQ standard ex-vessel value determination and use—(1) Use of standard price.* An IFQ permit holder that uses standard ex-vessel value to determine the IFQ fee liability as part of a revised IFQ fee liability submission must use the corresponding standard price(s) as published in the FEDERAL REGISTER.

(2) *Duty to publish list—(i) General.* Each year the Regional Administrator will publish IFQ standard prices in the FEDERAL REGISTER during the last quarter of each calendar year. The standard prices will be described in U.S. dollars per IFQ equivalent pound, for IFQ halibut and sablefish landings made during the current calendar year.

(ii) *Effective duration.* The IFQ standard prices will remain in effect until revised by the Regional Administrator by notification in the FEDERAL REGISTER based upon new information of the type set forth in this section. IFQ standard prices published in the FEDERAL REGISTER by NMFS shall apply to all landings made in the same calendar year as the IFQ standard price publication and shall replace any IFQ standard prices previously provided by NMFS that may have been in effect for that same calendar year.

(iii) *Determination.* NMFS will calculate the IFQ standard prices to re-

flect, as closely as possible by month and port or port-group, the variations in the actual ex-vessel values of IFQ halibut and IFQ sablefish landings based on information provided in the IFQ Buyer Reports as described in § 679.5(1)(7)(i). The Regional Administrator will base IFQ standard prices on the following types of information:

(A) Landed pounds by IFQ species, port-group, and month;

(B) Total ex-vessel value by IFQ species, port-group, and month; and

(C) Price adjustments, including IFQ retro-payments.

(d) *IFQ fee percentage—(1) Established percentage.* The annual IFQ fee percentage is the amount as determined by the factors and methodology described in paragraph (d)(2) of this section. This amount will be announced by publication in the FEDERAL REGISTER in accordance with paragraph (d)(3) of this section. This amount must not exceed 3 percent pursuant to 16 U.S.C. 1854(d)(2)(B).

(2) *Calculating fee percentage value.* Each year NMFS shall calculate and publish the fee percentage according to the following factors and methodology:

(i) *Factors.* NMFS must use the following factors to determine the fee percentage:

(A) The catch to which the IFQ fee will apply;

(B) The ex-vessel value of that catch; and

(C) The costs directly related to the management and enforcement of the IFQ program.

(ii) *Methodology.* NMFS must use the following equation to determine the fee percentage:

$$100 \times (\text{DPC} / \text{V})$$

where:

“DPC” is the direct program costs for the IFQ fishery for the previous fiscal year, and

“V” is the ex-vessel value of the catch subject to the IFQ fee for the current year.

(3) *Publication—(i) General.* During or before the last quarter of each year, NMFS shall publish the IFQ fee percentage in the FEDERAL REGISTER. NMFS shall base any calculations on the factors and methodology in paragraph (d)(2) of this section.

(ii) *Effective period.* The calculated IFQ fee percentage shall remain in effect through the end of the calendar year in which it was determined.

(4) *Applicable percentage.* The IFQ permit holder must use the IFQ fee percentage in effect at the time an IFQ landing is made to calculate his or her fee liability for such landed IFQ pounds. The IFQ permit holder must use the IFQ percentage in effect at the time an IFQ retro-payment is received by the IFQ permit holder to calculate his or her IFQ fee liability for the IFQ retro-payment.

(e) *Non-payment of fee.* If an IFQ permit holder does not submit a complete Fee Submission Form and corresponding payment by the due date described in § 679.45(a)(2) and (3), the Regional Administrator may:

(1) At any time thereafter send an IAD to the IFQ permit holder stating that the IFQ permit holder's estimated fee liability, as calculated by the Regional Administrator and sent to the IFQ permit holder pursuant to § 679.45(a)(2) is the amount of IFQ fee due from the IFQ permit holder.

(2) Disapprove any transfer of IFQ or QS to or from the IFQ permit holder in accordance with § 679.41(c)(8)(i). Upon final agency action determining that an IFQ permit holder has not paid his or her IFQ fee liability, any IFQ fishing permit held by the IFQ permit holder is not valid until all IFQ fee liabilities are paid. If payment is not received by the 30<sup>th</sup> day after the final agency action, the matter will be referred to the appropriate authorities for purposes of collection.

(f) *Underpayment of IFQ fee.* (1) When an IFQ permit holder has incurred a fee liability and made a timely payment to NMFS of an amount less than the NMFS estimated IFQ fee liability, the Regional Administrator will review the Fee Submission Form and related documentation submitted by the IFQ permit holder. If the Regional Administrator determines that the IFQ permit holder has not paid a sufficient amount, the Regional Administrator may disapprove any transfer of IFQ or QS to or from the IFQ permit holder in accordance with § 679.41(c)(4). The Regional Administrator will notify the IFQ permit holder by letter that an in-

sufficient amount has been paid and that the IFQ permit holder has 30 days from the date of the letter to either pay the amount determined to be due or provide additional documentation to prove that the amount paid was the correct amount. The Regional Administrator will evaluate any additional documentation submitted by an IFQ permit holder in support of his or her payment. If the Regional Administrator determines that the additional documentation does not meet the IFQ permit holder's burden of proving his or her payment is correct, the Regional Administrator will send the permit holder an IAD indicating that the permit holder did not meet the burden of proof to change the IFQ fee liability as calculated by the Regional Administrator based upon the IFQ standard ex-vessel value.

(2) After expiration of the 30-day period, the Regional Administrator will issue an IAD and notify the IFQ permit holder. The IAD will set out the facts and indicate the deficiencies in the documentation submitted by the permit holder. An IFQ permit holder who receives an IAD may appeal pursuant to § 679.43. In an appeal of an IAD made under this section, the IAD permit holder has the burden of proving his or her claim.

(3) If the permit holder fails to file an appeal of the IAD pursuant to § 679.43, the IAD will become the final agency action. If the IAD is appealed and the final agency action is a determination that additional sums are due from the IFQ permit holder, the IFQ permit holder must pay any IFQ fee amount determined to be due not later than 30 days from the issuance of the final agency action. Once a fee liability determination becomes final, any IFQ fishing permit held by the IFQ permit holder will be deemed not valid until all IFQ fee liabilities have been paid. If payment is not received by the 30<sup>th</sup> day after the final agency action, the matter will be referred to the appropriate authorities for purposes of collection.

(g) *Over payment.* Upon issuance of final agency action, any amount submitted to NMFS in excess of the IFQ fee liability determined to be due by the final agency action will be returned to the IFQ permit holder unless the

## Fishery Conservation and Management

§ 679.50

permit holder requests the agency to credit the excess amount against the IFQ permit holder's future IFQ fee liability.

(h) *Appeals and requests for reconsideration.* An IFQ permit holder who receives an IAD may either appeal the IAD pursuant to §679.43 or request reconsideration. Within 60 days from the date of issuance of the IAD, the Regional Administrator may undertake a reconsideration of the IAD on his or her own initiative. If a request for reconsideration is submitted or the Regional Administrator initiates a reconsideration, the 60-day period for appeal under §679.43 will begin anew upon issuance of the Regional Administrator's reconsidered IAD. The Regional Administrator may undertake only one reconsideration of the IAD, if any. If an IFQ permit holder fails to file an appeal of the IAD pursuant to §679.43, the IAD will become the final agency action. In any appeal or reconsideration of an IAD made under this section, an IFQ permit holder has the burden of proving his or her claim.

(i) *Annual report.* NMFS will publish annually a report describing the status of the IFQ Cost Recovery Program.

[65 FR 14924, Mar. 20, 2000, as amended at 67 FR 4133, Jan. 28, 2002; 71 FR 44232, Aug. 4, 2006]

## Subpart E—Groundfish Observer Program

SOURCE: 61 FR 56431, Nov. 1, 1996, unless otherwise noted.

### § 679.50 Groundfish Observer Program.

(a) *General.* Operators of vessels possessing a Federal fisheries permit under §679.4(b)(1) and processors that possess a Federal processor permit under §679.4(f)(1), must comply with this section. The owner of a fishing vessel or a processor subject to this part must ensure that the operator or manager complies with this section and is jointly and severally liable for such compliance. The following table provides a reference to the paragraphs in this section that contain observer coverage requirements for vessels, shoreside processors, and stationary floating processors participating in certain fishery programs or fishing in certain areas. Observer coverage for the CDQ fisheries obtained in compliance with paragraphs (c)(4) and (d)(5) of this section may not be used to comply with observer coverage requirements for non-CDQ groundfish fisheries specified in this section.

| Program                                                                                          | Catcher/<br>processors              | Catcher<br>vessels       | Motherships              | Shoreside and<br>stationary floating<br>processors |

(b) *Purpose.* The purpose of the Groundfish Observer Program is to allow observers to collect Alaska fisheries data deemed by the Regional Administrator to be necessary and appropriate for management, compliance

monitoring, and research of groundfish fisheries and for the conservation of marine resources or their environment.

(c) *Observer requirements for vessels.* (1) Observer coverage is required as follows:

(i) A mothership of any length that processes 1,000 mt or more in round-weight equivalent of groundfish during a calendar month is required to have an observer aboard the vessel each day it receives or processes groundfish during that month.

(ii) A mothership of any length that processes from 500 mt to 1,000 mt in round-weight equivalent of groundfish during a calendar month is required to have an observer aboard the vessel at least 30 percent of the days it receives or processes groundfish during that month.

(iii) Each mothership that receives pollock harvested by catcher vessels in the catcher vessel operational area during the second pollock season that starts on September 1 under § 679.23(e)(2) is required to have a second observer aboard, in addition to the observer required under paragraphs (c)(1) (i) and (ii) of this section, for each day of the second pollock season until the chum salmon savings area is closed under § 679.21(e)(7)(vii), or October 15, whichever occurs first.

(iv) A catcher/processor or catcher vessel 125 ft (38.1 m) LOA or longer must carry an observer during 100 percent of its fishing days except for a vessel fishing for groundfish with pot gear as provided in paragraph (c)(1)(vii) of this section.

(v) A catcher/processor or catcher vessel equal to or greater than 60 ft (18.3 m) LOA, but less than 125 ft (38.1 m) LOA, that participates for more than 3 fishing days in a directed fishery for groundfish in a calendar quarter must carry an observer during at least 30 percent of its fishing days in that calendar quarter and at all times during at least one fishing trip in that calendar quarter for each of the groundfish fishery categories defined under paragraph (c)(2) of this section in which the vessel participates.

(vi) A catcher/processor or catcher vessel fishing with hook-and-line gear that is required to carry an observer under paragraph (c)(1)(v) of this section must carry an observer during at least one entire fishing trip using hook-and-line gear in the Eastern GOA regulatory area during each calendar quarter in which the vessel participates in a directed fishery for groundfish in the

Eastern Regulatory Area using hook-and-line gear.

(vii) *Vessels using pot gear.* (A) A catcher/processor or catcher vessel equal to or greater than 60 ft (18.3 m) LOA fishing with pot gear that participates for more than 3 fishing days in a directed fishery for groundfish in a calendar quarter must carry an observer:

(1) For at least 30 percent of the total number of pot retrievals for that calendar quarter, and

(2) For at least one entire fishing trip using pot gear in a calendar quarter, for each of the groundfish fishery categories defined under paragraph (c)(2) of this section in which the vessel participates.

(B) Groundfish are required to be retained each day that pot gear is retrieved in order for gear retrieved that day to count toward observer coverage requirements for all catcher vessels and catcher/processors using pot gear and required to carry observers.

(viii) *Red King Crab Savings Area.* (A) Any catcher/processor or catcher vessel used to fish for groundfish in the Red King Crab Savings area must carry an observer during 100 percent of its fishing days in which the vessel uses pelagic trawl gear, pot, jig, or longline gear.

(B) Any catcher/processor or catcher vessel used to fish for groundfish in the Red King Crab Savings Subarea and subject to this subarea being open to vessels fishing for groundfish with non-pelagic trawl gear under § 679.21(e)(3)(ii)(B), must carry an observer during 100 percent of its fishing days in which the vessel uses non-pelagic trawl gear.

(ix) *Nearshore Bristol Bay Trawl Closure.* Any catcher/processor or catcher vessel used to fish for groundfish in the Nearshore Bristol Bay Trawl Closure area must carry an observer during 100 percent of its fishing days in which the vessel uses trawl gear.

(x) A vessel directed fishing with trawl gear for Atka mackerel in the Aleutian Islands subarea must carry two NMFS-certified observers at all times while directed fishing for Atka mackerel in the HLA directed fishery, as specified in § 679.20(a)(8).

(2) *Groundfish fishery categories requiring separate coverage.* Directed fishing

## Fishery Conservation and Management

§ 679.50

for groundfish, during any fishing trip, that results:

(i) *Pollock fishery*. In a retained catch of pollock that is greater than the retained catch of any other groundfish species or species group that is specified as a separate groundfish fishery under this paragraph (c)(2) and in a retained catch of pollock harvested in the AI directed pollock fishery.

(ii) *Pacific cod fishery*. In a retained catch of Pacific cod that is greater than the retained catch of any other groundfish species or species group that is specified as a separate groundfish fishery under this paragraph (c)(2).

(iii) *Sablefish fishery*. In a retained catch of sablefish that is greater than the retained catch of any other groundfish species or species group that is specified as a separate groundfish fishery under this paragraph (c)(2).

(iv) *Rockfish fishery*. In a retained aggregate catch of rockfish that is greater than the retained catch of any other groundfish species or species group that is specified as a separate groundfish fishery under this paragraph (c)(2).

(v) *Flatfish fishery*. In a retained aggregate catch of all flatfish species, except Pacific halibut, that is greater than the retained catch of any other groundfish species or species group that is specified as a separate groundfish fishery under this paragraph (c)(2).

(vi) *Other species fishery*. In a retained catch of groundfish that does not qualify as a pollock, Pacific cod, sablefish, rockfish, or flatfish fishery as defined under paragraphs (c)(2) (i) through (v) of this section.

(vii) *Rockfish Program*. In retained catch from Rockfish Program fisheries.

(3) *Assignment of vessels to fisheries*. At the end of any fishing trip, a vessel's retained catch of groundfish species or species groups for which a TAC has been specified under § 679.20, in round-weight equivalent, will determine to which fishery category listed under paragraph (c)(2) of this section the vessel is assigned.

(i) *Catcher/processors*. A catcher/processor will be assigned to a fishery category based on the retained groundfish catch composition reported on the vessel's weekly production report submitted to the Regional Administrator under § 679.5(i).

(ii) *Catcher vessel delivery in Federal waters*. A catcher vessel that delivers to a mothership in Federal waters will be assigned to a fishery category based on the retained groundfish catch composition reported on the weekly production report submitted to the Regional Administrator for that week by the mothership under § 679.5(i).

(iii) *Catcher vessel delivery in Alaska State waters*. A catcher vessel that delivers groundfish to a shoreside processor or stationary floating processor will be assigned to a fishery category based on the retained groundfish catch composition reported on one or more ADF&G fish tickets as required under Alaska Statutes at A.S. 16.05.690.

(4) *Groundfish and halibut CDQ fisheries*. The owner or operator of a vessel groundfish CDQ fishing or halibut CDQ fishing as defined at § 679.2 must comply with the following minimum observer coverage requirements each day that the vessel is used to transport (catcher vessels only), harvest, process, deliver or take delivery of CDQ or PSQ species. The time required for the level 2 observer to complete sampling, data recording, and data communication duties shall not exceed 12 hours in each 24-hour period, and, the level 2 observer is required to sample no more than 9 hours in each 24-hour period.

(i) *Motherships or catcher/processors using trawl gear*—(A) *CDQ groundfish fisheries (effective January 20, 2008)*—(1) *Catcher/processors using trawl gear*. A catcher/processor not listed in § 679.4(1)(2)(i) using trawl gear and groundfish CDQ fishing, except catcher/processors directed fishing for pollock CDQ, must comply with the observer coverage requirements at paragraph (c)(6)(i) of this section and the catch monitoring requirements in § 679.93(c).

(2) *Motherships*. A mothership that receives groundfish from catcher vessels using trawl gear and groundfish CDQ fishing, except catcher vessels directed fishing for pollock CDQ, must have at least two level 2 observers as described at paragraphs (j)(1)(v)(D) and (E) of this section onboard the vessel, at least one of whom must be endorsed as a lead level 2 observer.

(B) *Pollock CDQ fishery*. A mothership or catcher/processor gear using trawl gear to participate in a directed fishery for

pollock CDQ must have at least two NMFS-certified observers aboard the vessel, at least one of whom must be certified as a lead level 2 observer.

(ii) *Catcher/processors using hook-and-line gear.* A catcher/processor using hook-and-line gear must have at least two level 2 observers as described at paragraphs (j)(1)(v)(D) and (E) of this section aboard the vessels, unless NMFS approves an alternative fishing plan under § 679.32(e)(3) authorizing the vessel to carry only one lead level 2 observer. At least one of the level 2 observers must be certified as a lead level 2 observer. NMFS may approve an alternative fishing plan authorizing the vessel to carry only one lead level 2 observer if the CDQ group supplies vessel logbook or observer data that demonstrates that one level 2 observer can sample each CDQ set for species composition in one 12-hour shift per fishing day. NMFS will not approve an alternative fishing plan that would require the observer to divide a 12-hour shift into shifts of less than 6 hours.

(iii) *Catcher/processors using pot gear.* A catcher/processor using pot gear must have at least one lead level 2 observer as described at paragraph (j)(1)(v)(E) of this section aboard the vessel.

(iv) *Catcher vessel using trawl gear.* A catcher vessel equal to or greater than 60 ft (18.3 m) LOA using trawl gear, except a catcher vessel that delivers only unsorted codends to a processor or another vessel, must have at least one level 2 observer as described at paragraph (j)(1)(v)(D) of this section aboard the vessel.

(v) *Catcher vessel using nontrawl gear.* A catcher vessel equal to or greater than 60 ft (18.3 m) LOA using nontrawl gear must meet the following observer coverage requirements:

(A) *Option 1.* If the vessel operator selected Option 1 (as described at § 679.32(d)(2)(ii)(A)) for CDQ catch accounting, then at least one level 2 observer as described at paragraph (j)(1)(v)(D) of this section must be aboard the vessel.

(B) *Option 2.* If the vessel operator selected Option 2 (as described at § 679.32(d)(2)(ii)(B)) for CDQ catch accounting, then at least one lead level 2 observer as described at paragraph

(j)(1)(v)(E) of this section must be aboard the vessel.

(5) [Reserved]

(6) *Amendment 80 vessels and non-AFA trawl catcher/processors (effective January 20, 2008)*—(i) *Amendment 80 vessels and catcher/processors not listed in § 679.4(1)(2)(i) and using trawl gear in the BSAI.* All Amendment 80 vessels using any gear but dredge gear while directed fishing for scallops and catcher/processors not listed in § 679.4(1)(2)(i) and using trawl gear in the BSAI must have onboard at least two NMFS-certified observers for each day that the vessel is used to harvest, receive, or process groundfish in the BSAI or adjacent waters open by the State of Alaska for which it adopts a Federal fishing season.

(A) *Observer lead level 2 requirements.* At least one of the observers required under this paragraph (c)(6)(i) must be endorsed as a lead level 2 observer. More than two observers are required if the observer workload restriction at paragraph (c)(6)(i)(B) of this section would otherwise preclude sampling as required.

(B) *Observer workload.* The time required for the observer to complete sampling, data recording, and data communication duties must not exceed 12 consecutive hours in each 24-hour period.

(ii) *Amendment 80 vessels in the GOA.* Except for the F/V GOLDEN FLEECE (USCG Documentation Number 609951), all Amendment 80 vessels, except when directed fishing for scallops using dredge gear, in the GOA must have onboard at least one NMFS-certified observer for each day that the vessel is used to harvest, receive, or process groundfish in the GOA management areas or adjacent waters open by the State of Alaska for which it adopts a Federal fishing season.

(7) *Rockfish Program*—(i) *Catcher/processor vessel*—(A) *Rockfish cooperative.* A catcher/processor vessel that is named on an LLP license that is assigned to a rockfish cooperative and is fishing under a CQ permit must have onboard at least two NMFS-certified observers for each day that the vessel is used to harvest or process in the Central GOA from May 1 through the earlier of:

(I) November 15; or

## Fishery Conservation and Management

§ 679.50

(2) The effective date and time of an approved rockfish cooperative termination of fishing declaration.

(B) *Rockfish limited access fishery.* A catcher/processor vessel harvesting fish allocated to the rockfish limited access fishery for the catcher/processor sector must have onboard at least two NMFS-certified observers for each day that the vessel is used to harvest or process in the Central GOA from July 1 through the earlier of:

(1) November 15; or

(2) The date and time NMFS closes all directed fishing for all primary rockfish species in the rockfish limited access fishery for the catcher/processor sector.

(C) *Sideboard fishery.* A catcher/processor vessel, other than a catcher/processor vessel assigned to the opt-out fishery, that is subject to a sideboard limit as described under §679.82(d) through (h), as applicable, must have onboard at least two NMFS-certified observers for each day that the vessel is used to harvest or process from July 1 through July 31 while harvesting fish in the West Yakutat District, Central GOA, or Western GOA management areas.

(D) *Observer lead level 2 requirements.* At least one of these observers must be endorsed as a lead level 2 observer. More than two observers are required if the observer workload restriction at paragraph (c)(7)(i)(E) of this section would otherwise preclude sampling as required.

(E) *Observer workload.* The time required for the observer to complete sampling, data recording, and data communication duties may not exceed 12 consecutive hours in each 24-hour period.

(F) *Sideboard fishery for catcher/processor vessels in the opt-out fishery.* (i) A catcher/processor vessel assigned to the opt-out fishery, that is subject to a sideboard limit as described under §679.82(d) through (h), as applicable, must have onboard at least one NMFS-certified observer for each day that the vessel is used to harvest or process from July 1 through July 31 while harvesting fish in the West Yakutat District, Central GOA, or Western GOA management areas.

(ii) *Catcher vessels—(A) Rockfish cooperative.* A catcher vessel that is named on an LLP license that is assigned to a rockfish cooperative and fishing under a CQ permit must have onboard a NMFS-certified observer at all times the vessel is used to harvest fish in the Central GOA from May 1 through the earlier of:

(1) November 15; or

(2) The effective date and time of an approved rockfish cooperative termination of fishing declaration.

(B) *Rockfish limited access fishery.* A catcher vessel harvesting fish allocated to the rockfish limited access fishery for the catcher vessel sector must have onboard a NMFS-certified observer onboard at all times the vessel is used to harvest in the Central GOA from July 1 through the earlier of:

(1) November 15; or

(2) The date and time NMFS closes all directed fishing for all primary rockfish species in the rockfish limited access fishery for the catcher vessel sector.

(C) *Sideboard fishery.* A catcher vessel that is subject to a sideboard limit as described under §679.82(d) through (h), as applicable, must have onboard a NMFS-certified observer at all times the vessel is used to harvest from July 1 through July 31 while harvesting fish in the West Yakutat District, Central GOA, or Western GOA management areas.

(d) *Observer requirements for shoreside processors and stationary floating processors.* Observer coverage is required as follows. A shoreside processor or stationary floating processor that:

(1) Processes 1,000 mt or more in round-weight equivalent of groundfish during a calendar month is required to have an observer present at the facility each day it receives or processes groundfish during that month.

(2) Processes 500 mt to 1,000 mt in round-weight equivalent of groundfish during a calendar month is required to have an observer present at the facility at least 30 percent of the days it receives or processes groundfish during that month.

(3) Is subject to observer requirements specified in paragraph (d)(1) of this section that receives pollock or

Pacific cod, may reduce observer coverage in the event that a directed fishery for such species closes, subject to the following conditions:

(i) The shoreside or stationary floating processor must maintain observer coverage for 30 percent of all days that groundfish are received or processed, beginning on the fourth calendar day following the day that the directed fishery for pollock or Pacific cod was closed and ending on the last day of the month, except as allowed in this paragraph (d)(3)(iv) of this section.

(ii) Observer coverage for the month following the month with reduced observer coverage will be based on monthly landings projections and thresholds as specified in paragraphs (d)(1) and (2) of this section, but may also be reduced for that subsequent month as specified in this paragraph (d)(3) of this section.

(iii) Total groundfish landings received by a shoreside or stationary floating processor under reduced observer coverage as authorized under this paragraph (d)(3) may not exceed 250 mt per calendar week.

(iv) If greater than 250 mt in round weight equivalent of groundfish are projected to be received in a given calendar week by a shoreside or stationary floating processor during a month with reduced observer coverage, as authorized under this paragraph (d)(3), the shoreside or stationary floating processor must return to observer coverage requirements as specified in paragraph (d)(1) of this section until all fish received during that week is processed. The shoreside or stationary floating processor may then return to reduced observer coverage as authorized under this paragraph (d)(3) for the remainder of the calendar month.

(4) Offloads pollock at more than one location on the same dock and has distinct and separate equipment at each location to process those pollock and that receives pollock harvested by catcher vessels in the catcher vessel operational area.

(5) *Groundfish and halibut CDQ fisheries*—(i) *CDQ deliveries requiring observer coverage*. Subject to paragraph (d)(5)(ii) of this section, each shoreside processor or stationary floating processor taking deliveries of groundfish or

halibut CDQ must have at least one level 2 observer as described at paragraph (j)(1)(v)(D) of this section present at all times while CDQ is being received or processed.

(ii) *CDQ deliveries not requiring level 2 observer coverage*. A shoreside processor is not required to provide a level 2 observer for CDQ deliveries from the following vessels:

(A) Vessels less than 60 ft (18.3 m) LOA that are halibut CDQ fishing;

(B) Vessels equal to or greater than 60 ft (18.3 m) LOA using nontrawl gear that have selected Option 1 (as described at § 679.32(d)(2)(ii)(A)) for CDQ catch accounting, so long as the level 2 observer on the catcher vessel monitors the entire delivery without exceeding the working hour limitations described in paragraph (d)(5)(iii) of this section; and

(C) Vessels equal to or greater than 60 ft (18.3 m) LOA using nontrawl gear that have selected Option 2 (as described at § 679.32(d)(2)(ii)(B)) for CDQ catch accounting.

(iii) *Observer working hours*. The time required for the level 2 observer to complete sampling, data recording, and data communication duties may not exceed 12 hours in each 24-hour period, and the level 2 observer is required to sample no more than 9 hours in each 24-hour period.

(6) *AFA inshore processors*—(i) *Coverage level*. An AFA inshore processor is required to provide a NMFS certified observer for each 12 consecutive hour period of each calendar day during which the processor takes delivery of, or processes, groundfish harvested by a vessel engaged in a directed pollock fishery in the BSAI. An AFA inshore processor that takes delivery of or processes pollock harvested in the BSAI directed pollock fishery for more than 12 consecutive hours in a calendar day is required to provide two NMFS-certified observers for each such day.

(ii) *Multiple processors*. An observer deployed to an AFA inshore processor may not be assigned to cover more than one processor during a calendar day in which the processor receives or processes pollock harvested in the BSAI directed pollock fishery.

(iii) *Observers transferring between vessels and processors.* An observer transferring from an AFA catcher vessel to an AFA inshore processor may not be assigned to cover the AFA inshore processor until at least 12 hours after offload and sampling of the catcher vessel's delivery is completed.

(7) *Rockfish Program*—(i) *Coverage level.* A shoreside or stationary floating processor must have a NMFS-certified observer for each 12 consecutive hour period in each calendar day during which it receives deliveries from a catcher vessel described at paragraph (c)(7)(ii) of this section. A shoreside or stationary floating processor that receives deliveries or processes catch from a catcher vessel described at paragraph (c)(7)(ii) of this section for more than 12 consecutive hours in a calendar day is required to have two NMFS-certified observers each of these days.

(ii) *Multiple processors.* An observer deployed to a shoreside or stationary floating processor that receives deliveries from a catcher vessel described at paragraph (c)(7)(ii) of this section that were harvested under the Rockfish Program fisheries may not be assigned to cover more than one processor during a calendar day.

(iii) *Observers transferring between vessels and processors.* An observer transferring from a catcher vessel delivering to a shoreside or stationary floating processor that receives deliveries from a catcher vessel described at paragraph (c)(7)(ii) of this section may not be assigned to cover the shoreside or stationary floating processor until at least 12 hours after offload and sampling of the catcher vessel's delivery is complete.

(iv) *Observer coverage limitations.* Observer coverage requirements at paragraph (d)(7) of this section are in addition to observer coverage requirements in other fisheries. Observer coverage of deliveries of groundfish harvested by catcher vessels described at paragraph (c)(7)(ii) of this section are not counted for purposes of meeting minimum delivery standards applicable to groundfish at a shoreside processor or stationary floating processor. Any observer coverage of deliveries by catcher vessels not described at paragraph

(c)(7)(ii) of this section that occur when the Program observer is present at that shoreside processor or stationary floating processor during that calendar day will be counted towards the coverage requirements for that month.

(e) *NMFS staff observers.* (1) Any vessel, shoreside processor, or stationary floating processor required to comply with observer coverage requirements under paragraphs (c) or (d) of this section or under §679.7(f)(4) or a catcher vessel less than 60 ft (18.3 m) LOA that is participating in the AI directed pollock fishery must use, upon written notification by the Regional Administrator, NMFS' staff or an individual authorized by NMFS to satisfy observer coverage requirements as specified in paragraphs (c) and (d) of this section or for other conservation and management purpose.

(2) Prior to deployment of NMFS staff or individuals authorized by NMFS, the agency will provide written notification to the owner or operator of a vessel, shoreside processor, or stationary floating processor whether observer coverage credit will be granted for that deployment.

(3) Vessel, shoreside processor, and stationary floating processor owners and operators, as well as observers and observer providers, may contact NMFS in writing to request assistance in improving observer data quality and resolving observer sampling issues. Requests may be submitted to: NMFS Observer Program Office, P.O. Box 15700, Seattle, Washington 98115-0070, or transmitted by facsimile to 206-526-4066.

(f) *Inseason adjustments in observer coverage requirements.* (1) The Regional Administrator may adjust the observer coverage requirements set out under paragraphs (c) and (d) of this section at any time to improve the accuracy, reliability, and availability of observer data, so long as the changes are based on one or more of the following:

(i) A finding that fishing methods, times, or areas, or catch or bycatch composition for a specific fishery or fleet component have changed significantly, or are likely to change significantly.

(ii) A finding that such modifications are necessary to improve data availability or quality in order to meet specific fishery management objectives.

(2) *Procedure.* Observer coverage requirements may be adjusted in accordance with § 679.25(c). NMFS must publish changes in observer coverage requirements in the FEDERAL REGISTER, with the reasons for the changes and any special instructions to vessels, shoreside processors or stationary floating processors required to carry observers, at least 10 calendar days prior to their effective date.

(g) *Responsibilities*—(1) *Vessel responsibilities.* An operator of a vessel required to carry one or more observers must:

(i) *Accommodations and food.* Provide, at no cost to observers or the United States, accommodations and food on the vessel for the observer or observers that are equivalent to those provided for officers, engineers, foremen, deckbosses or other management level personnel of the vessel.

(ii) *Safe conditions.* (A) Maintain safe conditions on the vessel for the protection of observers including adherence to all U.S. Coast Guard and other applicable rules, regulations, or statutes pertaining to safe operation of the vessel.

(B) Have on board:

(1) A valid Commercial Fishing Vessel Safety Decal issued within the past 2 years that certifies compliance with regulations found in 33 CFR Chapter I and 46 CFR Chapter I;

(2) A certificate of compliance issued pursuant to 46 CFR 28.710; or

(3) A valid certificate of inspection pursuant to 46 U.S.C. 3311.

(iii) *Transmission of data.* Facilitate transmission of observer data by:

(A) *Observer use of equipment.* Allowing NMFS-certified observers to use the vessel's communications equipment and personnel, on request, for the confidential entry, transmission, and receipt of work-related messages, at no cost to the NMFS-certified observers or the nation.

(B) *Communication equipment requirements.* In the case of an operator of a catcher/processor or mothership that is required to carry one or more observers, or a catcher vessel required to

carry an observer as specified in paragraph (c)(1)(iv) or (c)(7)(ii) of this section:

(1) *Observer access to computer.* Making a computer available for use by the observer. This computer must be connected to a communication device that provides a point-to-point connection to the NMFS host computer.

(2) *NMFS-supplied software.* Ensuring that the catcher/processor, mothership, or catcher vessel specified in this paragraph (g)(1) has installed the most recent release of NMFS data entry software provided by the Regional Administrator, or other approved software.

(3) *Functional and operational equipment.* Ensuring that the communication equipment required in this paragraph (g)(1)(iii)(B) and that is used by observers to enter and transmit data, is fully functional and operational. “Functional” means that all the tasks and components of the NMFS supplied, or other approved, software described at paragraph (g)(1)(iii)(B)(2) of this section and the data transmissions to NMFS can be executed effectively aboard the vessel by the communications equipment.

(iv) *Vessel position.* Allow observers access to, and the use of, the vessel's navigation equipment and personnel, on request, to determine the vessel's position.

(v) *Access.* Allow observers free and unobstructed access to the vessel's bridge, trawl or working decks, holding bins, processing areas, freezer spaces, weight scales, cargo holds, and any other space that may be used to hold, process, weigh, or store fish or fish products at any time.

(vi) *Prior notification.* Notify observers at least 15 minutes before fish are brought on board, or fish and fish products are transferred from the vessel, to allow sampling the catch or observing the transfer, unless the observers specifically request not to be notified.

(vii) *Records.* Allow observers to inspect and copy the vessel's DFL, DCPL, product transfer forms, any other logbook or document required by regulations, printouts or tallies of scale weights, scale calibration records, bin sensor readouts, and production records.

(viii) *Assistance*. Provide all other reasonable assistance to enable observers to carry out their duties, including, but not limited to:

(A) Measuring decks, codends, and holding bins.

(B) Providing the observers with a safe work area adjacent to the sample collection site.

(C) Collecting bycatch when requested by the observers.

(D) Collecting and carrying baskets of fish when requested by observers.

(E) Allowing observers to determine the sex of fish when this procedure will not decrease the value of a significant portion of the catch.

(F) Collecting all seabirds that are incidentally taken on the observer-sampled portions of hauls using hook-and-line gear or as requested by an observer during non-sampled portions of hauls.

(ix) *Transfer at sea*. (A) Ensure that transfers of observers at sea via small boat or raft are carried out during daylight hours, under safe conditions, and with the agreement of observers involved.

(B) Notify observers at least 3 hours before observers are transferred, such that the observers can collect personal belongings, equipment, and scientific samples.

(C) Provide a safe pilot ladder and conduct the transfer to ensure the safety of observers during transfers.

(D) Provide an experienced crew member to assist observers in the small boat or raft in which any transfer is made.

(2) *Shoreside processor and stationary floating processor responsibilities*. A manager of a shoreside processor or a stationary floating processor that is required to maintain observer coverage as specified under paragraph (d) of this section must:

(i) *Safe conditions*. Maintain safe conditions at the shoreside processing facility for the protection of observers by adhering to all applicable rules, regulations, or statutes pertaining to safe operation and maintenance of the processing facility.

(ii) *Operations information*. Notify the observers, as requested, of the planned facility operations and expected re-

ceipt of groundfish prior to receipt of those fish.

(iii) *Transmission of data*. Facilitate transmission of observer data by:

(A) *Observer use of equipment*. Allowing observers to use the shoreside processor's or stationary floating processor's communication equipment and personnel, on request, for the entry, transmission, and receipt of work-related messages, at no cost to the observers or the United States.

(B) *Communication equipment requirements*—(1) *Observer access to computer*. Making a computer available for use by the observer. This computer must be connected to a communication device that provides a point-to-point connection to the NMFS host computer.

(2) *NMFS-supplied software*. Ensuring that the shoreside or stationary floating processor specified in paragraph (g)(2) of this section has installed the most recent release of NMFS data entry software provided by the Regional Administrator, or other approved software.

(3) *Functional and operational equipment*. Ensuring that the communication equipment required in paragraph (g)(2)(iii)(B) of this section and that is used by observers to enter and transmit data, is fully functional and operational. "Functional" means that all the tasks and components of the NMFS supplied, or other approved, software described at paragraph (g)(2)(iii)(B)(2) of this section and the data transmissions to NMFS can be executed effectively aboard the vessel by the communications equipment.

(v) *Document access*. Allow observers to inspect and copy the shoreside processor's or stationary floating processor's DCPL, product transfer forms, any other logbook or document required by regulations; printouts or tallies of scale weights; scale calibration records; bin sensor readouts; and production records.

(vi) *Assistance*. Provide all other reasonable assistance to enable the observer to carry out his or her duties, including, but not limited to:

(A) Assisting the observer in moving and weighing totes of fish.

(B) Cooperating with product recovery tests.

(C) Providing a secure place to store baskets of sampling gear.

(3) The owner of a vessel, shoreside processor, stationary floating processor, or buying station is responsible for compliance and must ensure that the operator or manager of a vessel, shoreside processor, or stationary floating processor required to maintain observer coverage under paragraphs (c) or (d) of this section complies with the requirements given in paragraphs (g)(1) and (g)(2) of this section.

(h) *Procurement of observer services.* Owners of vessels, shoreside processors, or stationary floating processors required to use observers under paragraphs (c) and (d) of this section must arrange for observer services from a permitted observer provider, except that:

(1) Owners of vessels, shoreside processors, or stationary floating processors are required to procure observer services directly from NMFS when the agency has determined and notified them under paragraph (e) of this section that their vessel, shoreside processor, or stationary floating processor will use NMFS staff or an individual authorized by NMFS in lieu of an observer provided through a permitted observer provider to satisfy requirements under paragraphs (c) and (d) of this section or for other conservation and management purposes.

(2) Owners of vessels, shoreside processors, or stationary floating processors are required to procure observer services directly from NMFS and a permitted observer provider when NMFS has determined and notified them under paragraph (e) of this section, that their vessel, shoreside processor, or stationary floating processor will use NMFS staff or individuals authorized by NMFS, in addition to an observer provided through an observer provider to satisfy requirements under paragraphs (c) and (d) of this section or for other conservation and management purposes.

(i) *Observer provider permitting and responsibilities—(1) Observer provider permits—(i) General.* (A) Persons seeking to provide observer services under this section must obtain an observer provider permit from NMFS.

(B) *New observer providers.* An applicant seeking an observer provider permit must submit a completed application by fax or mail to the Observer Program Office at the address listed in paragraph (e)(3) of this section.

(C) *Existing observer providers as of 2002.* NMFS-certified providers who deployed observers under the North Pacific Groundfish Observer Program in 2002 are exempt from the requirement to apply for a permit and will be issued an observer provider permit, except that a change in ownership of an existing observer provider after January 1, 2003, requires a new permit application under paragraph (i)(1)(vi) of this section if the change involves a new person. Such observer providers must submit to the Observer Program Office within 30 days of receiving the observer provider permit issued under this paragraph any changes or corrections regarding information required under paragraphs (i)(1)(ii)(A) and (i)(1)(ii)(B) of this section.

(ii) *Contents of application.* An application for an observer provider permit shall consist of a narrative that contains the following:

(A) Identification of the management, organizational structure, and ownership structure of the applicant's business, including identification by name and general function of all controlling management interests in the company, including but not limited to owners, board members, officers, authorized agents, and staff. If the applicant is a corporation, the articles of incorporation must be provided. If the applicant is a partnership, the partnership agreement must be provided.

(B) *Contact information—(1) Owner(s) information.* The permanent mailing address, phone and fax numbers where the owner(s) can be contacted for official correspondence.

(2) *Business information.* Current physical location, business mailing address, business telephone and fax numbers, and business e-mail address for each office.

(3) *Authorized agent.* For observer providers with ownership based outside the United States, identify an authorized agent and provide contact information for that agent including mailing address and phone and fax numbers

where the agent can be contacted for official correspondence. An authorized agent means a person appointed and maintained within the United States who is authorized to receive and respond to any legal process issued in the United States to an owner or employee of an observer provider. Any diplomatic official accepting such an appointment as designated agent waives diplomatic or other immunity in connection with the process.

(C) A statement signed under penalty of perjury from each owner, or owners, board members, and officers if a corporation, that they are free from a conflict of interest as described under paragraph (i)(3) of this section.

(D) A statement signed under penalty of perjury from each owner, or owners, board members, and officers if a corporation, describing any criminal convictions, Federal contracts they have had and the performance rating they received on the contract, and previous decertification action while working as an observer or observer provider.

(E) A description of any prior experience the applicant may have in placing individuals in remote field and/or marine work environments. This includes, but is not limited to, recruiting, hiring, deployment, and personnel administration.

(F) A description of the applicant's ability to carry out the responsibilities and duties of an observer provider as set out under paragraph (i)(2) of this section, and the arrangements to be used.

(iii) *Application evaluation.* (A) The Regional Administrator will establish an observer provider permit application review board to review and evaluate an application submitted under paragraph (i)(1) of this section. The board will be comprised of NMFS staff. Issuance of a permit will be based on the completeness of the applicant's application, as well as the following evaluation criteria for each owner, or owners, board members, and officers if a corporation:

(1) Absence of conflict of interest as defined under paragraph (i)(3) of this section;

(2) Absence of criminal convictions related to:

(i) Embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements or receiving stolen property, or

(ii) The commission of any other crimes of dishonesty, as defined by Alaska State law or Federal law that would seriously and directly affect the fitness of an applicant in providing observer services under this section;

(3) Satisfactory performance ratings on any Federal contracts held by the applicant; and

(4) Absence of any history of decertification as either an observer or observer provider;

(B) The evaluation by the review board will provide a basis for the board's initial agency determination (IAD) on whether the application is complete and all evaluation criteria are met.

(iv) *Evidentiary period.* The observer provider permitting review board will specify, by letter via certified return-receipt mail, a 60-day evidentiary period during which a candidate may provide additional information or evidence to support the application, if the application is found to be deficient.

(v) *Agency determination on an application—(A) Approval of an application.* Upon determination by the review board that the application is complete and all evaluation criteria are met, an IAD is made to approve the application and the observer provider permit application review board will issue an observer provider permit to the applicant.

(B) *Denial of an application.* An application will be denied if the observer provider permit application review board determines that the information provided in the application was not complete or all the evaluation criteria were not met. The observer provider permit application review board will prepare and send a written IAD to the applicant upon evaluation of a completed application. The IAD will identify any deficiencies in the application or any information submitted in support of the application. An applicant who receives an IAD that denies his or her application may appeal under § 679.43. An applicant who appeals the

IAD will not be issued an interim observer provider permit and will not receive a permit unless the final resolution of that appeal is in favor of the applicant.

(vi) *Transferability.* An observer provider permit is not transferable. An observer provider that experiences a change in ownership that involves a new person must submit a new permit application and cannot continue to operate until a new permit is issued under this paragraph.

(vii) *Expiration of Permit.* (A) The observer provider permit will expire after a period of 12 continuous months during which no observers are deployed by the provider under this section to the North Pacific groundfish industry.

(B) The Regional Administrator will provide a written determination to an observer provider if NMFS deployment records indicate that the permit has expired. An observer provider who receives a written IAD of permit expiration may appeal under § 679.43. A permit holder who appeals the IAD will be issued an extension of the expiration date of the permit until after the final resolution of that appeal.

(viii) *Sanctions.* Procedures governing sanctions of permits are found at subpart D of 15 CFR part 904.

(2) *Responsibilities of observer providers.* Observer providers must:

(i) *Provide qualified candidates to serve as observers.* (A) To be qualified, a candidate must have:

(1) A Bachelor's degree or higher from an accredited college or university with a major in one of the natural sciences;

(2) Successfully completed a minimum of 30 semester hours or equivalent in applicable biological sciences with extensive use of dichotomous keys in at least one course;

(3) Successfully completed at least one undergraduate course each in math and statistics with a minimum of 5 semester hours total for both; and

(4) Computer skills that enable the candidate to work competently with standard database software and computer hardware.

(B) Prior to hiring an observer candidate, the observer provider must:

(1) Provide to the candidate copies of NMFS-provided pamphlets and other

literature describing observer duties; and

(2) Provide to the candidate a copy of the Observer Program's drug and alcohol policy. Observer job pamphlets and the drug and alcohol policy are available from the Observer Program Office at the address listed in paragraph (e)(3) of this section or at the Observer Program's web site at <http://www.afsc.noaa.gov/refm/observers/default.htm>.

(C) For each observer employed by an observer provider, either a written contract or a written contract addendum must exist that is signed by the observer and observer provider prior to the observer's deployment and that contains the following provisions for continued employment:

(1) That the observer comply with the Observer Program's drug and alcohol policy;

(2) That all the observer's in-season catch messages between the observer and NMFS are delivered to the Observer Program Office at least every 7 days, unless otherwise specified by the Observer Program;

(3) That the observer completes in-person mid-deployment data reviews, unless:

(i) The observer is specifically exempted by the Observer Program, or

(ii) The observer does not at any time during their deployment travel through a location where Observer Program staff are available for an in-person data review and the observer completes a phone or fax mid-deployment data review as described in the observer manual; and

(4) The observer inform the observer provider prior to the time of embarkation if he or she is experiencing any new mental illness or physical ailments or injury since submission of the physician's statement as required in paragraph (i)(2)(x)(C) of this section that would prevent him or her from performing their assigned duties;

(ii) *Ensure that observers complete duties in a timely manner.* An observer provider must ensure that observers employed by that observer provider do the following in a complete and timely manner:

(A) Once an observer is scheduled for a final deployment debriefing under

paragraph (i)(2)(x)(E) of this section, submit to NMFS all data, reports required by the Observer Manual, and biological samples from the observer's deployment by the completion of the electronic vessel and/or processor survey(s);

(B) Complete NMFS electronic vessel and/or processor surveys before performing other jobs or duties which are not part of NMFS groundfish observer requirements;

(C) Report for his or her scheduled debriefing and complete all debriefing responsibilities; and

(D) Return all sampling and safety gear to the Observer Program Office.

(iii) *Observer vessel and processor assignment.* An observer provider must assign to vessels or shoreside or floating processors only observers:

(A) With valid North Pacific groundfish observer certifications and endorsements to provide observer services;

(B) Who have not informed the provider prior to the time of embarkation that he or she is experiencing a mental illness or a physical ailment or injury developed since submission of the physician's statement, as required in paragraph (i)(2)(x)(C) of this section that would prevent him or her from performing his or her assigned duties; and

(C) Who have successfully completed all NMFS required training and briefing before deployment.

(iv) *Response to industry requests for observers.* An observer provider must provide an observer for deployment as requested by vessels and processors to fulfill vessel and processor requirements for observer coverage under sections (c) and (d) of this section. An alternate observer must be supplied in each case where injury or illness prevents the observer from performing his or her duties or where the observer resigns prior to completion of his or her duties.

(v) *Observer salaries and benefits.* An observer provider must provide to its observer employees salaries and any other benefits and personnel services in accordance with the terms of each observer's contract.

(vi) *Observer deployment logistics.* (A) An observer provider must provide to each of its observers under contract:

(1) All necessary transportation, including arrangements and logistics, of observers to the initial location of deployment, to all subsequent vessel and shoreside or stationary floating processor assignments during that deployment, and to the debriefing location when a deployment ends for any reason; and

(2) Lodging, per diem, and any other services necessary to observers assigned to fishing vessels or shoreside or stationary floating processing facilities.

(B) Except as provided in paragraphs (i)(2)(vi)(C) and (i)(2)(vi)(D) of this section, each observer deployed to a shoreside processing facility or stationary floating processor, and each observer between vessel, stationary floating processor or shoreside assignments while still under contract with a permitted observer provider, shall be provided with accommodations at a licensed hotel, motel, bed and breakfast, stationary floating processor, or other shoreside accommodations for the duration of each shoreside assignment or period between vessel or shoreside assignments. Such accommodations must include an assigned bed for each observer and no other person may be assigned that bed for the duration of that observer's stay. Additionally, no more than four beds may be in any room housing observers at accommodations meeting the requirements of this section.

(C) An observer under contract may be housed on a vessel to which he or she is assigned:

(1) Prior to their vessel's initial departure from port;

(2) For a period not to exceed twenty-four hours following the completion of an offload when the observer has duties and is scheduled to disembark; or

(3) For a period not to exceed twenty-four hours following the vessel's arrival in port when the observer is scheduled to disembark.

(D) During all periods an observer is housed on a vessel, the observer provider must ensure that the vessel operator or at least one crew member is aboard.

(E) Each observer deployed to shore-side processing facilities shall be provided with individually assigned communication equipment in working order, such as a cell phone or pager for notification of upcoming deliveries or other necessary communication. Each observer assigned to a shoreside processing facility located more than 1 mile from the observer's local accommodations shall be provided with motorized transportation that will ensure the observer's arrival at the processing facility in a timely manner such that the observer can complete his or her assigned duties.

(vii) *Observer deployment limitations.* Unless alternative arrangements are approved by the Observer Program Office, an observer provider must not:

(A) Deploy an observer on the same vessel or at the same shoreside or stationary floating processor for more than 90 days in a 12-month period;

(B) Deploy an observer for more than 90 days in a single deployment;

(C) Include in a single deployment of an observer assignments to more than four vessels, including groundfish and all other vessels, and/or shoreside processors; or

(D) Move an observer from a vessel or stationary floating or shoreside processor before that observer has completed his or her sampling or data transmission duties.

(viii) *Vessel safety decal verification.* An observer provider must verify that a vessel has a valid USCG safety decal as required under paragraph (g)(1)(ii)(B) of this section before an observer may get underway aboard the vessel. One of the following acceptable means of verification must be used to verify the decal validity:

(A) An employee of the observer provider, including the observer, visually inspects the decal aboard the vessel and confirms that the decal is valid according to the decal date of issuance; or

(B) The observer provider receives a hard copy of the USCG documentation of the decal issuance from the vessel owner or operator.

(ix) *Communications with observers.* An observer provider must have an employee responsible for observer activities on call 24 hours a day to handle

emergencies involving observers or problems concerning observer logistics, whenever observers are at sea, stationed at shoreside or stationary floating processors, in transit, or in port awaiting vessel or processor reassignment.

(x) *Communications with the Observer Program Office.* An observer provider must provide all of the following information to the Observer Program Office by electronic transmission (e-mail), fax, or other method specified by NMFS.

(A) *Observer training and briefing.* Observer training and briefing registration materials. This information must be submitted to the Observer Program Office at least 5 business days prior to the beginning of a scheduled observer certification training or briefing session. Registration materials consist of the following:

(1) Observer training registration, including:

(i) Date of requested training;

(ii) A list of observer candidates. The list must include each candidate's full name (i.e., first, middle and last names), date of birth, and sex;

(iii) A copy of each candidate's academic transcripts and resume; and

(iv) A statement signed by the candidate under penalty of perjury which discloses the candidate's criminal convictions.

(2) Observer briefing registration, including:

(i) Date and type of requested briefing session and briefing location; and

(ii) List of observers to attend the briefing session. Each observer's full name (first, middle, and last names) must be included.

(B) *Projected observer assignments.* Prior to the observer or observer candidate's completion of the training or briefing session, the observer provider must submit to the Observer Program Office a statement of projected observer assignments that include the observer's name; vessel, shoreside processor, or stationary floating processor assignment, gear type, and vessel/processor code; port of embarkation; target species; and area of fishing.

(C) *Physical examination.* A signed and dated statement from a licensed physician that he or she has physically examined an observer or observer candidate. The statement must confirm that, based on that physical examination, the observer or observer candidate does not have any health problems or conditions that would jeopardize that individual's safety or the safety of others while deployed, or prevent the observer or observer candidate from performing his or her duties satisfactorily. The statement must declare that, prior to the examination, the physician was made aware of the duties of the observer and the dangerous, remote, and rigorous nature of the work by reading the NMFS-prepared pamphlet, provided to the candidate by the observer provider as specified in paragraph (i)(2)(i)(B)(1) of this section. The physician's statement must be submitted to the Observer Program Office prior to certification of an observer. The physical exam must have occurred during the 12 months prior to the observer's or observer candidate's deployment. The physician's statement will expire 12 months after the physical exam occurred. A new physical exam must be performed, and accompanying statement submitted, prior to any deployment occurring after the expiration of the statement.

(D) *Observer deployment/logistics reports.* A deployment/logistics report must be submitted by Wednesday, 4:30 pm, Pacific local time, of each week with regard to each observer deployed by the observer provider during that week. The deployment/logistics report must include the observer's name, cruise number, current vessel, shore-side processor, or stationary floating processor assignment and vessel/processor code, embarkation date, and estimated or actual disembarkation dates. If the observer is currently not assigned to a vessel, shoreside processor, or stationary floating processor, the observer's location must be included in the report.

(E) *Observer debriefing registration.* The observer provider must contact the Observer Program within 5 business days after the completion of an observer's deployment to schedule a date, time and location for debriefing. Ob-

server debriefing registration information must be provided at the time of debriefing scheduling and must include the observer's name, cruise number, vessel, or shoreside or stationary floating processor assignment name(s) and code(s), and requested debriefing date.

(F) *Certificates of Insurance.* Copies of "certificates of insurance", that name the NMFS Observer Program leader as the "certificate holder", shall be submitted to the Observer Program Office by February 1 of each year. The certificates of insurance shall verify the following coverage provisions and state that the insurance company will notify the certificate holder if insurance coverage is changed or canceled.

(1) Maritime Liability to cover "seamen's" claims under the Merchant Marine Act (Jones Act) and General Maritime Law (\$1 million minimum).

(2) Coverage under the U.S. Longshore and Harbor Workers' Compensation Act (\$1 million minimum).

(3) States Worker's Compensation as required.

(4) Commercial General Liability.

(G) *Observer provider contracts.* Observer providers must submit to the Observer Program Office a completed and unaltered copy of each type of signed and valid contract (including all attachments, appendices, addendums, and exhibits incorporated into the contract) between the observer provider and those entities requiring observer services under paragraphs (c) and (d) of this section. Observer providers must also submit to the Observer Program Office upon request, a completed and unaltered copy of the current or most recent signed and valid contract (including all attachments, appendices, addendums, and exhibits incorporated into the contract and any agreements or policies with regard to observer compensation or salary levels) between the observer provider and the particular entity identified by the Observer Program or with specific observers. Said copies must be submitted to the Observer Program Office via fax or mail within 5 business days of the request for the contract at the address or fax number listed in paragraph (e)(3) of this section. Signed and valid contracts include the contracts an observer provider has with:

(1) Vessels required to have observer coverage as specified at paragraph (c) of this section;

(2) Shoreside or stationary floating processors required to have observer coverage as specified at paragraph (d) of this section; and

(3) Observers.

(H) *Change in observer provider management and contact information.* Except for changes in ownership addressed under paragraph (i)(1)(vi) of this section, an observer provider must submit notification of any other change to the information submitted on the provider's permit application under paragraphs (i)(1)(ii)(A) through (D) of this section. Within 30 days of the effective date of such change, this information must be submitted by fax or mail to the Observer Program Office at the address listed in paragraph (e)(3) of this section. Any information submitted under (i)(1)(ii)(C) or (i)(1)(ii)(D) of this section will be subject to NMFS review and determinations under (i)(1)(iii) through (viii) of this section.

(I) *Other reports.* Reports of the following must be submitted in writing to the Observer Program Office by the observer provider via fax or email address designated by the Observer Program Office within 24 hours after the observer provider becomes aware of the information:

(1) Any information regarding possible observer harassment;

(2) Any information regarding any action prohibited under § 679.7(g) or § 600.725(o), (t) and (u);

(3) Any concerns about vessel safety or marine casualty under 46 CFR 4.05–1 (a)(1) through (7), or processor safety;

(4) Any observer illness or injury that prevents the observer from completing any of his or her duties described in the observer manual; and

(5) Any information, allegations or reports regarding observer conflict of interest or breach of the standards of behavior described at (j)(2)(i) or (j)(2)(ii) of this section.

(xi) *Replacement of lost or damaged gear.* An observer provider must replace all lost or damaged gear and equipment issued by NMFS to an observer under contract to that provider. All replacements must be in accordance with requirements and procedures identified

in writing by the Observer Program Office.

(xii) *Maintain confidentiality of information.* An observer provider must ensure that all records on individual observer performance received from NMFS under the routine use provision of the Privacy Act remain confidential and are not further released to anyone outside the employ of the observer provider company to whom the observer was contracted except with written permission of the observer.

(3) *Limitations on conflict of interest.* Observer providers:

(i) Must not have a direct financial interest, other than the provision of observer services, in a North Pacific fishery managed under an FMP for the waters off the coast of Alaska, including, but not limited to,

(A) Any ownership, mortgage holder, or other secured interest in a vessel, shoreside or stationary floating processors facility involved in the catching, taking, harvesting or processing of fish,

(B) Any business involved with selling supplies or services to any vessel, shoreside or stationary floating processors participating in a fishery managed pursuant to an FMP in the waters off the coast of Alaska, or

(C) Any business involved with purchasing raw or processed products from any vessel, shoreside or stationary floating processors participating in a fishery managed pursuant to an FMP in the waters off the coast of Alaska.

(ii) Must assign observers without regard to any preference by representatives of vessels, shoreside processors, or stationary floating processors other than when an observer will be deployed.

(iii) Must not solicit or accept, directly or indirectly, any gratuity, gift, favor, entertainment, loan, or anything of monetary value from anyone who conducts fishing or fish processing activities that are regulated by NMFS, or who has interests that may be substantially affected by the performance or nonperformance of the official duties of observer providers.

(j) *Observer certification and responsibilities—(1) Observer Certification—(i) Applicability.* Observer certification authorizes an individual to fulfill duties

as specified in writing by the NMFS Observer Program Office while under the employ of a NMFS-permitted observer provider and according to certification endorsements as designated under paragraph (j)(1)(v) of this section.

(ii) *Observer certification official.* The Regional Administrator will designate a NMFS observer certification official who will make decisions for the Observer Program Office on whether to issue or deny observer certification.

(iii) *Certification requirements.* (A) Existing Observers. Observers who completed sampling activities between June 30, 2001, and December 31, 2002, and have not had their certification revoked during or after that time period, will be considered to have met certification requirements under this section. These observers will be issued a new certification prior to their first deployment after December 31, 2002, unless NMFS determines that the observer has not been deployed, or has not performed sampling duties, or has not been debriefed successfully in the preceding 18 months.

(B) *New Observers.* NMFS will certify individuals who:

(1) Are employed by a permitted observer provider company at the time of the issuance of the certification;

(2) Have provided, through their observer provider:

(i) Information identified by NMFS at paragraphs (i)(2)(x)(A)(I)(iii) and (iv) of this section and in writing from the Observer Program; and

(ii) Information identified by NMFS at paragraph (i)(2)(x)(C) of this section regarding the observer candidate's health and physical fitness for the job;

(3) Meet all education and health standards as specified in paragraphs (i)(2)(i)(A) and (i)(2)(x)(C) of this section, respectively;

(4) Have successfully completed a NMFS-approved training as prescribed by the Observer Program.

(i) Successful completion of training by an observer applicant consists of meeting all attendance and conduct standards issued in writing at the start of training; meeting all performance standards issued in writing at the start of training for assignments, tests, and other evaluation tools; and completing

all other training requirements established by the Observer Program.

(ii) If a candidate fails training, he or she will be verbally notified of the unsatisfactory status of his or her training on or before the last day of training. Within 10 business days of the verbal notification, the observer candidate will be notified in writing. The written notification will indicate why the candidate failed the training; whether the candidate can retake the training. If a determination is made that the candidate may not pursue further training, notification will be in the form of an IAD denying certification, as specified under paragraph (j)(1)(iv)(A) of this section.

(5) Have not been decertified under paragraph (j)(3) of this section.

(iv) *Agency determinations on observer certification*—(A) *Denial of a certification.* The NMFS observer certification official will issue a written IAD denying observer certification when the observer certification official determines that a candidate has unresolvable deficiencies in meeting the requirements for certification as specified in paragraph (j)(1)(iii) of this section. The IAD will identify the reasons certification was denied and what requirements were deficient.

(B) *Appeals.* A candidate who receives an IAD that denies his or her certification may appeal pursuant to §679.43 of this part. A candidate who appeals the IAD will not be issued an interim observer certification and will not receive a certification unless the final resolution of that appeal is in the candidate's favor.

(C) *Issuance of an observer certification.* An observer certification will be issued upon determination by the observer certification official that the candidate has successfully met all requirements for certification as specified in paragraph (j)(1)(iii) of this section.

(v) *Endorsements.* The following endorsements must be obtained, in addition to observer certification, in order for an observer to deploy as indicated.

(A) *Certification training endorsement.* A certification training endorsement signifies the successful completion of the training course required to obtain this endorsement. A certification

training endorsement is required for any deployment as an observer in the Bering Sea and Aleutian Islands groundfish fisheries and the Gulf of Alaska groundfish fisheries and will be granted with the initial issuance of an observer certification. This endorsement expires when the observer has not been deployed and performed sampling duties as required by the Observer Program Office for a period of time, specified by the Observer Program, after his or her most recent debriefing. Renewal can be obtained by the observer successfully completing certification training once more. Observers will be notified of any changes to the endorsement expiration period prior to that change taking place. Observers who have been issued certificates under paragraph (j)(1)(iii)(A) of this section will be issued a new certification training endorsement upon issuance of their observer certification prior to their first deployment after December 31, 2002.

(B) *Annual general endorsements.* Each observer must obtain an annual general endorsement to their certification prior to his or her first deployment within any calendar year subsequent to a year in which a certification training endorsement is obtained. To obtain an annual general endorsement, an observer must successfully complete the annual briefing, as specified by the Observer Program. All briefing attendance, performance, and conduct standards required by the Observer Program must be met.

(C) *Deployment endorsements.* Each observer who has completed an initial deployment after certification or annual briefing must receive a deployment endorsement to their certification prior to any subsequent deployments for the remainder of that year. An observer may obtain a deployment endorsement by successfully completing all pre-cruise briefing requirements. The type of briefing the observer must attend and successfully complete will be specified in writing by the Observer Program during the observer's most recent debriefing.

(D) *Level 2 endorsements.* A certified observer may obtain a Level 2 endorsement to their certification. A Level 2 endorsement is required for purposes of

performing observer duties aboard vessels or stationary floating processors or at shoreside processors participating in the CDQ or AFA fisheries as prescribed in paragraphs (c) and (d) of this section. A Level 2 endorsement to an observer's certification may be obtained by meeting the following requirements:

(1) Be a prior observer in the groundfish fisheries off Alaska who has completed at least 60 days of observer data collection;

(2) Receive an evaluation by NMFS for his or her most recent deployment that indicated that the observer's performance met Observer Program expectations for that deployment;

(3) Successfully complete a NMFS-approved Level 2 observer training as prescribed by the Observer Program; and

(4) Comply with all of the other requirements of this section.

(E) An observer who has achieved a Level 2 endorsement to their observer certification as specified in paragraph (j)(1)(v) (D) of this section may additionally receive a Level 2 "lead" observer endorsement by meeting the following requirements:

(1) A Level 2 "lead" observer on a catcher/processor using trawl gear or a mothership must have completed two observer cruises (contracts) and sampled at least 100 hauls on a catcher/processor using trawl gear or on a mothership.

(2) A Level 2 "lead" observer on a catcher vessel using trawl gear must have completed two observer cruises (contracts) and sampled at least 50 hauls on a catcher vessel using trawl gear.

(3) A Level 2 "lead" observer on a vessel using nontrawl gear must have completed two observer cruises (contracts) of at least 10 days each and sampled at least 60 sets on a vessel using nontrawl gear.

(2) *Standards of observer conduct—(i) Limitations on conflict of interest.* (A) Observers:

(1) Must not have a direct financial interest, other than the provision of observer services, in a North Pacific fishery managed pursuant to an FMP for the waters off the coast of Alaska, including, but not limited to,

(i) Any ownership, mortgage holder, or other secured interest in a vessel, shoreside or stationary floating processors facility involved in the catching, taking, harvesting or processing of fish,

(ii) Any business involved with selling supplies or services to any vessel, shoreside or stationary floating processors participating in a fishery managed pursuant to an FMP in the waters off the coast of Alaska, or

(iii) Any business involved with purchasing raw or processed products from any vessel, shoreside or stationary floating processors participating in a fishery managed pursuant to an FMP in the waters off the coast of Alaska.

(2) May not solicit or accept, directly or indirectly, any gratuity, gift, favor, entertainment, loan, or anything of monetary value from anyone who either conducts activities that are regulated by NMFS or has interests that may be substantially affected by the performance or nonperformance of the observers' official duties.

(3) May not serve as observers on any vessel or at any shoreside or floating stationary processing facility owned or operated by a person who previously employed the observers.

(4) May not solicit or accept employment as a crew member or an employee of a vessel, shoreside processor, or stationary floating processor in a North Pacific fishery while employed by an observer provider.

(B) Provisions for remuneration of observers under this section do not constitute a conflict of interest.

(ii) *Standards of Behavior.* Observers must avoid any behavior that could adversely affect the confidence of the public in the integrity of the Observer Program or of the government, including but not limited to the following:

(A) Observers must perform their assigned duties as described in the Observer Manual or other written instructions from the Observer Program Office.

(B) Observers must accurately record their sampling data, write complete reports, and report accurately any observations of suspected violations of regulations relevant to conservation of marine resources or their environment.

(C) Observers must not disclose collected data and observations made on board the vessel or in the processing facility to any person except the owner or operator of the observed vessel or processing facility, an authorized officer, or NMFS.

(D) Observers must refrain from engaging in any illegal actions or any other activities that would reflect negatively on their image as professional scientists, on other observers, or on the Observer Program as a whole. This includes, but is not limited to:

(1) Violating the drug and alcohol policy established by and available from the Observer Program;

(2) Engaging in the use, possession, or distribution of illegal drugs; or

(3) Engaging in physical sexual contact with personnel of the vessel or processing facility to which the observer is assigned, or with any vessel or processing plant personnel who may be substantially affected by the performance or non-performance of the observer's official duties.

(3) *Suspension and Decertification*—(i) *Suspension and decertification review official.* The Regional Administrator will establish an observer suspension and decertification review official(s), who will have the authority to review observer certifications and issue initial administrative determinations of observer certification suspension and/or decertification.

(ii) *Causes for suspension or decertification.* The suspension/decertification official may initiate suspension or decertification proceedings against an observer:

(A) When it is alleged that the observer has committed any acts or omissions of any of the following:

(1) Failed to satisfactorily perform the duties of observers as specified in writing by the NMFS Observer Program; or

(2) Failed to abide by the standards of conduct for observers as prescribed under paragraph (j)(2) of this section;

(B) Upon conviction of a crime or upon entry of a civil judgement for:

(1) Commission of fraud or other violation in connection with obtaining or attempting to obtain certification, or in performing the duties as specified in

writing by the NMFS Observer Program;

(2) Commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

(3) Commission of any other offense indicating a lack of integrity or honesty that seriously and directly affects the fitness of observers.

(iii) *Issuance of initial administrative determination.* Upon determination that suspension or decertification is warranted under paragraph (j)(3)(ii) of this section, the suspension/decertification official will issue a written IAD to the observer via certified mail at the observer's most current address provided to NMFS under § 679.43(e). The IAD will identify whether a certification is suspended or revoked and will identify the specific reasons for the action taken. If the IAD issues a suspension for an observer certification, the terms of the suspension will be specified. Suspension or decertification can be made effective upon issuance of the IAD in cases of willfulness or those cases in which public health, interest, or safety require such actions. In such cases, the suspension/decertification official will state in the IAD that suspension or decertification is effective at time of issuance and the reason for the action.

(iv) *Appeals.* A certified observer who receives an IAD that suspends or revokes his or her observer certification may appeal pursuant to § 679.43.

(k) *Release of observer data to the public—(1) Summary of weekly data.* The following information collected by observers for each catcher processor and catcher vessel during any weekly reporting period may be made available to the public:

(i) Vessel name and Federal permit number.

(ii) Number of chinook salmon and “other salmon” observed.

(iii) The ratio of total round weight of halibut or Pacific herring to the total round weight of groundfish in sampled catch.

(iv) The ratio of number of king crab or *C. bairdi* Tanner crab to the total round weight of groundfish in sampled hauls.

(v) The number of observed trawl hauls or fixed gear sets.

(vi) The number of trawl hauls that were basket sampled.

(vii) The total weight of basket samples taken from sampled trawl hauls.

(2) *Haul-specific data.* (i) The information listed in paragraphs (k)(2)(i) (A) through (M) of this section and collected by observers from observed hauls on board vessels using trawl gear to participate in a directed fishery for groundfish other than rockfish, Greenland turbot, or Atka mackerel may be made available to the public:

(A) Date.

(B) Time of day gear is deployed.

(C) Latitude and longitude at beginning of haul.

(D) Bottom depth.

(E) Fishing depth of trawl.

(F) The ratio of the number of chinook salmon to the total round weight of groundfish.

(G) The ratio of the number of other salmon to the total round weight of groundfish.

(H) The ratio of total round weight of halibut to the total round weight of groundfish.

(I) The ratio of total round weight of herring to the total round weight of groundfish.

(J) The ratio of the number of king crab to the total round weight of groundfish.

(K) The ratio of the number of *C. bairdi* Tanner crab to the total round weight of groundfish.

(L) Sea surface temperature (where available).

(M) Sea temperature at fishing depth of trawl (where available).

(ii) The identity of the vessels from which the data in paragraph (k)(2)(i) of this section are collected will not be released.

(3) *Competitive harm.* In exceptional circumstances, the owners and operators of vessels may provide to the Regional Administrator written justification at the time observer data are submitted, or within a reasonable time thereafter, that disclosure of the information listed in paragraphs (k) (1) and (2) of this section could reasonably be expected to cause substantial competitive harm. The determination whether

### Subpart F—American Fisheries Act and Aleutian Island Directed Pollock Fishery Management Measures

SOURCE: 67 FR 79734, Dec. 30, 2002, unless otherwise noted.

#### § 679.60 Authority and related regulations.

(a) Regulations under this subpart were developed by the National Marine Fisheries Service and the North Pacific Fishery Management Council to implement the American Fisheries Act (AFA) (Div. C, Title II, Subtitle II, Public Law 105-277, 112 Stat. 2681 (1998)) and the Consolidated Appropriations Act of 2004 (Public Law 108-199, Sec. 803). Additional regulations in this part that implement specific provisions of the AFA and Consolidated Appropriations Act of 2004 are set out at §§ 679.2 Definitions, 679.4 Permits, 679.5 Record-keeping and reporting (R &R), 679.7 Prohibitions, 679.20 General limitations, 679.21 Prohibited species bycatch management, 679.28 Equipment and operational requirements, 679.31 CDQ reserves, and 679.50 Groundfish Observer Program.

(b) Regulations developed by the Department of Transportation to implement provisions of the AFA are found at 46 CFR part 356.

[70 FR 9867, Mar. 1, 2005]

#### § 679.61 Formation and operation of fishery cooperatives.

(a) *Who is liable for violations by a fishery cooperative and cooperative members?* A fishery cooperative must comply with the provisions of this section. The owners and operators of vessels that are members of a fishery cooperative, including vessels under contract to a cooperative, are responsible for ensuring that the fishery cooperative complies with the directed fishing,

sideboard closures, PSC limits and other allocations and restrictions that are applicable to the fishery cooperative. The owners and operators of vessels that are members of a fishery cooperative, including vessels under contract to a cooperative, are responsible for ensuring that all fishery cooperative members comply with the directed fishing, sideboard closures, PSC limits and other allocations and restrictions that are applicable to the fishery cooperative.

(b) *Who must comply this section?* Any fishery cooperative formed under section 1 of the Fisherman's Collective Marketing Act 1934 (15 U.S.C. 521) for the purpose of cooperatively managing directed fishing for BS subarea pollock must comply with the provisions of this section. The owners and operators of all the member vessels that are signatories to a fishery cooperative are jointly and severally responsible for compliance with the requirements of this section.

(c) *Designated representative and agent for service of process.* Each cooperative must appoint a designated representative and agent for service of process and must ensure that the cooperative's designated representative and agent for service of process comply with the regulations in this part.

(1) *What is a designated representative?* Any cooperative formed under this section must appoint a designated representative to fulfill regulatory requirements on behalf of the cooperative including, but not limited to, filing of cooperative contracts, filing of annual reports, and in the case of inshore sector catcher vessel cooperatives, signing cooperative fishing permit applications and completing and submitting inshore catcher vessel pollock cooperative catch reports. The designated representative is the primary contact person for NMFS on issues relating to the operation of the cooperative.

(2) *What is an agent for service of process?* Any cooperative formed under this section must appoint an agent who is authorized to receive and respond to any legal process issued in the United States with respect to all owners and operators of vessels that are members of the cooperative. The cooperative

must provide the Regional Administrator with the name, address and telephone number of the appointed agent. Service on or notice to the cooperative's appointed agent constitutes service on or notice to all members of the cooperative.

(3) *What is the term of service and process for replacing the agent for service of process?* The agent for service of process must be capable of accepting service on behalf of the cooperative until December 31 of the year 5 years after the calendar year for which the fishery cooperative has filed its intent to operate. The owners and operators of all member vessels of a cooperative are responsible for ensuring that a substitute agent is designated and the Agency is notified of the name, address and telephone number of the substitute agent in the event the previously designated agent is no longer capable of accepting service on behalf of the cooperative or the cooperative members within that 5-year period.

(d) *Annual filing requirements.* You must file on an annual basis, with the Council and NMFS, a signed copy of your fishery cooperative contract, and any material modifications to any such contract, together with a copy of a letter from a party to the contract requesting a business review letter on the fishery cooperative from the Department of Justice and any response to such request. The Council and NMFS will make this information available to the public upon request.

(1) *Must multi-year contracts be re-filed annually?* If your cooperative contract was previously filed with NMFS and the Council under paragraph (c) of this section, then you may submit a renewal letter to NMFS and the Council by the filing deadline in lieu of the cooperative contract and business review letter. The renewal letter must provide notice that the previously filed cooperative contract will remain in effect for the subsequent fishing year. The renewal letter also must detail any material modifications to the cooperative contract that have been made since the last filing including, but not limited to, any changes in cooperative membership.

(2) *Where must contracts or renewal letters be filed?* You must send a signed

copy of your cooperative contract or renewal letter and the required supporting materials to the North Pacific Fishery Management Council, 605 West 4th Ave, Suite 306, Anchorage, AK 99501; and to the NMFS Alaska Region. The mailing address for the NMFS Alaska Region is P.O. Box 21668, Juneau, AK 99802. The street address for delivery by private courier is 709 West 9th St., Suite 401, Juneau, AK 99801.

(3) *What is the deadline for filing?* The contract or renewal letter and supporting materials must be received by NMFS and by the Council at least 30 days prior to the start of any fishing activity conducted under the terms of the contract. In addition, an inshore cooperative that is also applying for an allocation of BS subarea pollock under §679.62 must file its contract, any amendments hereto, and supporting materials no later than December 1 of the year prior to the year in which fishing under the contract will occur.

(e) *What are the required elements in a cooperative contract?*—(1) *Requirements for all fishery cooperatives.* Any cooperative contract filed under paragraph (c) of this section must:

- (i) List parties to the contract.
- (ii) List all vessels and processors that will harvest and process pollock harvested under the cooperative.
- (iii) Specify the amount or percentage of pollock allocated to each party to the contract.
- (iv) Specify a designated representative and agent for service of process.
- (v) Include a contract clause under which the parties to the contract agree to make payments to the State of Alaska for any pollock harvested in the directed pollock fishery that are not landed in the State of Alaska, in amounts which would otherwise accrue had the pollock been landed in the State of Alaska subject to any landing taxes established under Alaska law. Failure to include such a contract clause or for such amounts to be paid will result in a revocation of the authority to form fishery cooperatives under section 1 of the Act of June 25, 1934 (15 U.S.C. 521 *et seq.*).

(2) *Additional required elements in all fishery cooperatives that include AFA catcher vessels.* A cooperative contract

## Fishery Conservation and Management

## § 679.61

that includes catcher vessels must include adequate provisions to prevent each non-exempt member catcher vessel from exceeding an individual vessel sideboard limit for each BSAI or GOA sideboard species or species group that is issued to the vessel by the cooperative in accordance with the following formula:

(i) The aggregate individual vessel sideboard limits issued to all member vessels in a cooperative must not exceed the aggregate contributions of each member vessel towards the overall groundfish sideboard amount as calculated by NMFS under § 679.64(b) and as announced to the cooperative by the Regional Administrator, or

(ii) In the case of two or more cooperatives that have entered into an inter-cooperative agreement, the aggregate individual vessel sideboard limits issued to all member vessels subject to the inter-cooperative agreement must not exceed the aggregate contributions of each member vessel towards the overall groundfish sideboard amount as calculated by NMFS under § 679.64(b) and as announced by the Regional Administrator.

(f) *Annual reporting requirement.* Any fishery cooperative governed by this section must submit preliminary and final annual written reports on fishing activity to the North Pacific Fishery Management Council, 605 West 4th Ave, Suite 306, Anchorage, AK 99501. The Council will make copies of each report available to the public upon request.

(1) *What are the submission deadlines?* You must submit the preliminary report by December 1 of each year. You must submit the final report by February 1 of the following year. Annual reports must be postmarked by the submission deadline or received by a private courier service by the submission deadline.

(2) *What information must be included?* The preliminary and final written reports must contain, at a minimum:

(i) The cooperative's allocated catch of pollock and sideboard species, and any sub-allocations of pollock and sideboard species made by the cooperative to individual vessels on a vessel-by-vessel basis;

(ii) The cooperative's actual retained and discarded catch of pollock, sideboard species, and PSC on an area-by-area and vessel-by-vessel basis;

(iii) A description of the method used by the cooperative to monitor fisheries in which cooperative vessels participated;

(iv) A description of any actions taken by the cooperative in response to any vessels that exceed their allowed catch and bycatch in pollock and all sideboard fisheries; and

(v) The total weight of pollock landed outside the State of Alaska on a vessel-by-vessel basis.

(vi) The annual report must indicate the number of salmon taken by species and season, estimate the number of salmon avoided as demonstrated by the movement of fishing effort away from salmon savings areas, include the results of the compliance audit described at § 679.21(g)(6)(vi), and list each vessel's number of appearances on the weekly dirty 20 lists for both salmon species.

(3) *What is the required format?* You must submit at least one copy of each annual report ready for duplication on unbound single-sided 8.5- by 11-inch paper, or in an alternative format approved in advance by the Council.

(g) *Landing tax payment deadline.* You must pay any landing tax owed to the State of Alaska under section 210(f) of the AFA and paragraph (e)(1)(v) of this section before April 1 of the following year, or the last day of the month following the date of publication of statewide average prices by the Alaska State Department of Revenue, whichever is later. All members of the cooperative are prohibited from harvesting pollock in the BS subarea directed pollock fishery after the payment deadline if any member vessel has failed to pay all required landing taxes from any landings made outside the State of Alaska by the landing deadline. Members of the cooperative may resume directed fishing for pollock once all overdue landing taxes are paid.

[67 FR 79734, Dec. 30, 2002, as amended at 68 FR 6836, Feb. 11, 2003; 70 FR 9868, Mar. 1, 2005; 72 FR 61076, Oct. 29, 2007]

**§ 679.62 Inshore sector cooperative allocation program.**

(a) *How will inshore sector cooperative allocations be made?* An inshore catcher vessel cooperative that applies for and receives an AFA inshore cooperative fishing permit under § 679.4(1)(6) will receive a sub-allocation of the annual BS subarea inshore sector directed fishing allowance. Each inshore cooperative's annual allocation amount(s) will be determined using the following procedure:

(1) *Determination of individual vessel catch histories.* The Regional Administrator will calculate an official AFA inshore cooperative catch history for every inshore-sector endorsed AFA catcher vessel according to the following steps:

(i) *Determination of annual landings.* For each year from 1995 through 1997 the Regional Administrator will determine each vessel's total non-CDQ inshore pollock landings from the Bering Sea Subarea and Aleutian Islands Subarea separately, except for the F/V PROVIDIAN (USCG documentation number 1062183).

(ii) *Determination of annual landings for the F/V PROVIDIAN.* For the F/V PROVIDIAN, pursuant to Public Law 106-562, the Regional Administrator will substitute the 1992 through 1994 total Bering Sea subarea and Aleutian Islands subarea pollock non-CDQ inshore landings made by the F/V OCEAN SPRAY (USCG documentation number 517100 for the purpose of determining annual cooperative quota share percentage.

(iii) *Offshore compensation.* If a catcher vessel made a total of 500 or more mt of landings of non-CDQ Bering Sea Subarea pollock or Aleutian Islands Subarea pollock to catcher/processors or offshore motherships other than the EXCELLENCE (USCG documentation number 967502); GOLDEN ALASKA (USCG documentation number 651041); or OCEAN PHOENIX (USCG documentation number 296779) over the 3-year period from 1995 through 1997, then all non-CDQ offshore pollock landings made by that vessel during from 1995 through 1997 will be added to the vessel's inshore catch history by year and subarea.

(iv) *Best two out of three years.* After steps (a)(1)(i) and (ii) of this section are completed, the 2 years with the highest landings will be selected for each subarea and added together to generate the vessel's official AFA inshore cooperative catch history for each subarea. A vessel's best 2 years may be different for the Bering Sea subarea and the Aleutian Islands Subarea.

(2) *Conversion of individual vessel catch histories to annual cooperative quota share percentages.* Each inshore pollock cooperative that applies for and receives an AFA inshore pollock cooperative fishing permit will receive an annual quota share percentage of pollock for the BS subarea that is equal to the sum of each member vessel's official AFA inshore cooperative catch history for the BS subarea divided by the sum of the official AFA inshore cooperative catch histories of all inshore-sector endorsed AFA catcher vessels. The cooperative's quota share percentage will be listed on the cooperative's AFA pollock cooperative permit.

(3) *Conversion of quota share percentage to TAC allocations.* (Effective April 1, 2005) Each inshore pollock cooperative that receives a quota share percentage for a fishing year will receive an annual allocation of Bering Sea and/or Aleutian Islands pollock that is equal to the cooperative's quota share percentage for that subarea multiplied by the annual inshore pollock allocation for that subarea. Each cooperative's annual pollock TAC allocation may be published in the proposed and final BSAI harvest specifications notice.

(b) *What are the restrictions on fishing under a cooperative fishing permit?* A cooperative that receives a cooperative fishing permit under § 679.4(1)(6) must comply with all of the fishing restrictions set out in this subpart. The owners and operators of all the member vessels that are named on an inshore cooperative fishing permit and the owners and operators of any vessels under contract to the cooperative under paragraph (c) of this section are jointly and severally responsible for compliance with all of the requirements of a cooperative fishing permit pursuant to § 679.4(1)(6).

(1) *What vessels are eligible to fish under an inshore cooperative fishing permit?* Only catcher vessels listed on a cooperative's AFA inshore cooperative fishing permit or vessels under contract to the cooperative under paragraph (c) of this section are permitted to harvest any portion of an inshore cooperative's annual pollock allocation.

(2) *What harvests accrue against an inshore cooperative's annual pollock allocation?* The following catches will accrue against a cooperative's annual pollock allocation regardless of whether the pollock was retained or discarded:

(i) *Member vessels.* All pollock caught by a member vessel while engaged in directed fishing for pollock in the BS subarea unless the vessel is under contract to another cooperative and the pollock is assigned to another cooperative.

(ii) *Contract vessels.* All pollock contracted for harvest and caught by a vessel under contract to the cooperative under paragraph (c) of this section while the vessel was engaged in directed fishing for pollock in the BS subarea.

(3) *How must cooperative harvests be reported to NMFS?* Each inshore pollock cooperative must report its BS subarea pollock harvest to NMFS on a weekly basis according to the recordkeeping and reporting requirements set out at § 679.5(o).

(c) *Contract fishing by non-member vessels.* A cooperative that wishes to contract with a non-member vessel to harvest a portion of the cooperative's annual pollock allocation must comply with the following procedures.

(1) *How does a cooperative contract with a non-member vessel?* A cooperative that wishes to contract with a non-member vessel must submit a completed contract fishing application to the Alaska Region, NMFS, in accordance with the contract fishing application instructions.

(2) *What information must be included on a contract fishing application?* The following information must be included on a contract fishing application:

(i) *Co-op name(s).* The names of the cooperative or cooperatives that wish to contract with a non-member vessel.

(ii) *Designated representative(s).* The names and signatures of the designated representatives for the cooperatives that wish to contract with a non-member vessel and the vessel's home cooperative.

(iii) *Vessel name.* The name and AFA permit number of the contracted vessel.

(iv) *Vessel owner.* The name and signature of the owner of the contracted vessel.

(v) *Harvest schedule.* A completed harvest schedule showing how all catch and any overages by the contracted vessel will be allocated between the contracting cooperative (or cooperatives) and the contract vessel's home cooperative. In the event that multiple cooperatives are jointly contracting with a non-member vessel, the harvest schedule must clearly specify how all catch and any overages will be allocated among the various cooperatives.

(3) *What vessels are eligible to conduct contract fishing on behalf of an inshore cooperative?* Only AFA catcher vessels with an inshore fishing endorsement that are members of an inshore cooperative may conduct contract fishing on behalf of another inshore cooperative.

(4) *Who must be informed?* A cooperative that has contracted with a non-member vessel to harvest a portion of its inshore pollock allocation must inform any AFA inshore processors to whom the vessel will deliver pollock while under contract to the cooperative prior to the start of fishing under the contract.

(5) *How must contract fishing be reported to NMFS?* An AFA inshore processor that receives pollock harvested by a vessel under contract to a cooperative must report the delivery to NMFS on the electronic delivery report by using the co-op code for the contracting cooperative rather than the co-op code of the vessel's home cooperative.

[67 FR 79734, Dec. 30, 2002, as amended at 68 FR 6836, Feb. 11, 2003; 69 FR 64688, Nov. 8, 2004; 70 FR 9868, Mar. 1, 2005]

#### § 679.63 Catch weighing requirements for vessels and processors.

(a) *What are the requirements for listed AFA catcher/processors and AFA motherships?*—(1) *Catch weighing.* All

groundfish landed by listed AFA catcher/processors or received by AFA motherships must be weighed on a NMFS-certified scale and made available for sampling by a NMFS certified observer. The owner and operator of a listed AFA catcher/processor or an AFA mothership must ensure that the vessel is in compliance with the scale requirements described at § 679.28(b), that each groundfish haul is weighed separately, and that no sorting of catch takes place prior to weighing.

(2) *Observer sampling station.* The owner and operator of a listed AFA catcher/processor or AFA mothership must provide an observer sampling station as described at § 679.28(d) and must ensure that the vessel operator complies with the observer sampling station requirements described at § 679.28(d) at all times that the vessel harvests groundfish or receives deliveries of groundfish harvested in the BSAI or GOA.

(b) *What are the requirements for unlisted AFA catcher/processors?* The owner or operator of an unlisted AFA catcher/processor must comply with the catch weighing and observer sampling station requirements set out in paragraph (a) of this section at all times the vessel is engaged in directed fishing for pollock in the BSAI.

(c) *What are the requirements for AFA inshore processors?*—(1) *Catch weighing.* All groundfish landed by AFA catcher vessels engaged in directed fishing for pollock in the BSAI must be sorted and weighed on a scale approved by the State of Alaska as described in § 679.28(c), and be made available for sampling by a NMFS certified observer. The observer must be allowed to test any scale used to weigh groundfish in order to determine its accuracy.

(2) The plant manager or plant liaison must notify the observer of the offloading schedule for each delivery of BSAI pollock by an AFA catcher vessel at least 1 hour prior to offloading. An observer must monitor each delivery of BSAI pollock from an AFA catcher vessel and be on site the entire time the delivery is being weighed or sorted.

**§ 679.64 Harvesting sideboard limits in other fisheries.**

(a) *Harvesting sideboards for listed AFA catcher/processors.* The Regional Administrator will restrict the ability of listed AFA catcher/processors to engage in directed fishing for non-pollock groundfish species to protect participants in other groundfish fisheries from adverse effects resulting from the AFA and from fishery cooperatives in the BS subarea directed pollock fishery.

(1) *How will groundfish sideboard limits for AFA listed catcher/processors be calculated?* Except for Aleutian Islands pollock and BSAI Pacific cod, the Regional Administrator will establish annual AFA catcher/processor harvest limits for each groundfish species or species group in which a TAC is specified for an area or subarea of the BSAI as follows:

(i) *Aleutian Islands Pacific ocean perch.* (A) The Aleutian Islands Pacific ocean perch harvest limit will be equal to the 1996 through 1997 aggregate retained catch of Aleutian Islands Pacific ocean perch by catcher/processors listed in Sections 208(e)(1) through (20) and 209 of the AFA in non-pollock target fisheries divided by the sum of the Aleutian Islands Pacific ocean perch catch in 1996 and 1997 multiplied by the remainder of the Aleutian Islands Pacific ocean perch TAC after the subtraction of the CDQ reserve under § 679.20(b)(1)(ii)(C) in the year in which the harvest limit will be in effect.

(B) If the amount of Pacific ocean perch calculated under paragraph (a)(1)(i)(A) of this section is determined by the Regional Administrator to be insufficient to meet bycatch needs of AFA catcher/processors in other directed fisheries for groundfish, the Regional Administrator will prohibit directed fishing for Aleutian Islands Pacific ocean perch by AFA catcher/processors and establish the sideboard amount equal to the amount of Aleutian Islands Pacific ocean perch caught by AFA catcher/processors incidental to directed fishing for other groundfish species.

(ii) *Atka mackerel.* The Atka mackerel harvest limit for each area and season will be equal to:

(A) Bering Sea subarea and Eastern Aleutian Islands, zero;

(B) Central Aleutian Islands, 11.5 percent of the annual TAC specified for Atka mackerel; and

(C) Western Aleutian Islands, 20 percent of the annual TAC specified for Atka mackerel.

(iii) *Flathead sole, rock sole, and yellowfin sole.* The harvest limit for flathead sole, rock sole, and yellowfin sole will be equal to the 1995 through 1997 aggregate retained catch of that species by catcher/processors listed in Sections 208(e)(1) through (e)(20) and 209 of the AFA in non-pollock target fisheries divided by the sum of the catch of that species in 1995 through 1997 multiplied by the remainder of the TAC of that species after the subtraction of the CDQ reserve under § 679.20(b)(1)(ii)(C) in the year in which the harvest limit will be in effect.

(iv) *Remaining groundfish species.* (A) Except as provided for in paragraphs (a)(1)(i) through (a)(1)(iii) of this section, the harvest limit for each BSAI groundfish species or species group will be equal to the 1995 through 1997 aggregate retained catch of that species by catcher/processors listed in Sections 208 (e)(1) through (e)(20) and 209 of the AFA in non-pollock target fisheries divided by the sum of the catch of that species in 1995 through 1997 multiplied by the TAC of that species available for harvest by catcher/processors in the year in which the harvest limit will be in effect.

(B) If the amount of a species calculated under paragraph (a)(1)(iv)(A) of this section is determined by the Regional Administrator to be insufficient to meet bycatch needs for AFA catcher/processors in other directed fisheries for groundfish, the Regional Administrator will prohibit directed fishing for that species by AFA catcher/processors and establish the sideboard amount equal to the amount of that species caught by AFA catcher/processors incidental to directed fishing for other groundfish species.

(v) *Yellowfin sole sideboard limit exemption.* AFA catcher/processors will not be subject to a harvest limit for yellowfin sole in the BSAI during a calendar year if the aggregate ITAC of yellowfin sole assigned to the Amend-

ment 80 sector and BSAI trawl limited access sector is greater than or equal to 125,000 metric tons.

(2) *What are the halibut and crab PSC sideboard limits?* The halibut and crab PSC bycatch limits specified for catcher/processors in the BSAI are listed in Tables 40 and 41 to this part.

(3) *How will AFA catcher/processor sideboard limits be managed?* The Regional Administrator will manage groundfish harvest limits and PSC bycatch limits for AFA catcher/processors through directed fishing closures in fisheries established under paragraph (a)(1) of this section in accordance with the procedures set out in §§ 679.20(d)(1)(iv) and 679.21(e)(3)(v).

(b) *Harvesting sideboards for AFA catcher vessels.* The Regional Administrator will restrict the ability of AFA catcher vessels to engage in directed fishing for other groundfish species to protect participants in other groundfish fisheries from adverse effects resulting from the AFA and from fishery cooperatives in the BS subarea directed pollock fishery.

(1) *To whom do the catcher vessel sideboard limits apply?* Catcher vessel harvest limits and PSC bycatch limits apply to all AFA catcher vessels participating in all GOA groundfish fisheries and all non-pollock groundfish fisheries in the BSAI except vessels qualifying for sideboard exemptions in the specific fisheries identified in paragraph (b)(2) of this section.

(2) *Who is exempt from catcher vessel sideboards?* (i) BSAI Pacific cod sideboard exemptions—(A) AFA catcher vessels less than 125 ft (38.1 m) LOA that are determined by the Regional Administrator to have harvested a combined total of less than 5,100 mt of BSAI pollock, and to have made 30 or more legal landings of Pacific cod in the BSAI directed fishery for Pacific cod from 1995 through 1997 are exempt from sideboard closures for BSAI Pacific cod.

(B) AFA catcher vessels with mothership endorsements are exempt from BSAI Pacific cod catcher vessel sideboard directed fishing closures after March 1 of each fishing year.

(ii) *GOA groundfish sideboard exemptions.* AFA catcher vessels less than 125 ft (38.1 m) LOA that are determined by

the Regional Administrator to have harvested less than 5,100 mt of BSAI pollock and to have made 40 or more landings of GOA groundfish from 1995 through 1997 are exempt from GOA groundfish catcher vessel sideboard directed fishing closures.

(3) *How will groundfish sideboard limits be calculated?* Except for Aleutian Islands pollock, the Regional Administrator will establish annual AFA catcher vessel harvest limits for each groundfish species or species group in which a TAC is specified for an area or subarea of the GOA and BSAI as follows:

(i) *BSAI groundfish other than Amendment 80 species.* The AFA catcher vessel groundfish harvest limit for each BSAI groundfish species or species group other than BSAI Pacific cod will be equal to the aggregate retained catch of that groundfish species or species group from 1995 through 1997 by all AFA catcher vessels; divided by the sum of the TACs available to catcher vessels for that species or species group from 1995 through 1997; multiplied by the TAC available to catcher vessels in the year or season in which the harvest limit will be in effect.

(ii) *BSAI Pacific cod.* The AFA catcher vessel groundfish harvest limit for BSAI Pacific cod will be equal to the retained catch of BSAI Pacific cod in 1997 by AFA catcher vessels not exempted under paragraph (b)(2)(i)(A) of this section divided by the BSAI Pacific cod TAC available to catcher vessels in 1997; multiplied by the BSAI Pacific cod TAC available to catcher vessels in the year or season in which the harvest limit will be in effect.

(iii) *Amendment 80 species other than Pacific cod.* The AFA catcher vessel groundfish harvest limit for each Amendment 80 species other than BSAI Pacific cod will be equal to the aggregate retained catch of that Amendment 80 species from 1995 through 1997 by all AFA catcher vessels, divided by the sum of the TAC available to catcher vessels for that species or species group from 1995 through 1997, and multiplied by the remainder of the TAC after the subtraction of the CDQ reserve under § 679.20(b)(1)(ii)(C) in the year or season in which the harvest limit will be in effect.

(iv) *GOA groundfish.* The AFA catcher vessel groundfish harvest limit for each GOA groundfish species or species group will be equal to the aggregate retained catch of that groundfish species or species group from 1995 through 1997 by AFA catcher vessels not exempted under paragraph (b)(2)(ii) of this section; divided by the sum of the TACs of that species or species group available to catcher vessels from 1995 through 1997; multiplied by the TAC available to catcher vessels in the year or season in which the harvest limit will be in effect.

(4) *How will halibut and crab PSC limits be calculated?*—(i) *BSAI.* The halibut and crab PSC bycatch limits specified for catcher vessels in the BSAI are listed in Tables 40 and 41 to this part.

(ii) *GOA.* The AFA catcher vessel PSC bycatch limit for halibut in the GOA will be a portion of the PSC limit equal to the ratio of aggregate retained groundfish catch by AFA catcher vessels in each PSC target category from 1995 through 1997 relative to the retained catch of all vessels in that fishery from 1995 through 1997.

(5) *How will catcher vessel sideboard limits be managed?* The Regional Administrator will manage groundfish harvest limits and PSC bycatch limits for AFA catcher vessels using directed fishing closures according to the procedures set out at §§ 679.20(d)(1)(iv) and 679.21(d)(8) and (e)(3)(v).

(6) *Yellowfin sole sideboard limit exemption.* AFA catcher vessels will not be subject to a harvest limit for yellowfin sole in the BSAI during a calendar year if the aggregate ITAC of yellowfin sole assigned to the Amendment 80 sector and BSAI trawl limited access sector is greater than or equal to 125,000 metric tons.

[67 FR 79734, Dec. 30, 2002, as amended at 70 FR 9868, Mar. 1, 2005; 72 FR 52725, Sept. 14, 2007; 72 FR 50818, Sept. 4, 2007; 73 FR 27770, May 14, 2008]

**§ 679.65 [Reserved]**

**Subpart G—Rockfish Program**

SOURCE: 71 FR 67252, Nov. 20, 2006, unless otherwise noted.

## Fishery Conservation and Management

## § 679.80

### § 679.80 Initial allocation of rockfish QS.

Regulations under this subpart were developed by National Marine Fisheries Service to implement Section 802 of the Consolidated Appropriations Act of 2004 (Public Law 108–199). Additional regulations that implement specific portions of the Rockfish Program are set out at: § 679.2 Definitions, § 679.4 Permits, § 679.5 Recordkeeping and reporting, § 679.7 Prohibitions, § 679.20 General limitations, § 679.21 Prohibited species bycatch management, § 679.28 Equipment and operational requirements, and § 679.50 Groundfish Observer Program.

(a) *Applicable areas and duration*—(1) *Applicable areas*. The Rockfish Program applies to Rockfish Program fisheries in the Central GOA Regulatory Area and rockfish sideboard fisheries in the GOA and BSAI.

(2) *Duration*. The Rockfish Program authorized under this part expires on December 31, 2008.

(3) *Seasons*. The following fishing seasons apply to fishing under this subpart subject to other provisions of this part:

(i) *Rockfish entry level fishery—longline gear vessels*. Fishing by vessels participating in the longline gear portion of the rockfish entry level fishery is authorized from 0001 hours, A.l.t., January 1 through 1200 hours, A.l.t., November 15.

(ii) *Rockfish entry level fishery—trawl vessels*. Fishing by vessels participating in the trawl gear portion of the rockfish entry level fishery is authorized from 1200 hours, A.l.t., May 1 through 1200 hours, A.l.t., November 15.

(iii) *Rockfish cooperative*. Fishing by vessels participating in a rockfish cooperative is authorized from 1200 hours, A.l.t., May 1 through 1200 hours, A.l.t., November 15.

(iv) *Rockfish fishery—rockfish limited access fishery*. Fishing by vessels participating in the rockfish limited access fishery is authorized from 1200 hours, A.l.t., July 1 through 1200 hours, A.l.t., November 15.

(b) *Eligibility for harvesters to participate in the Rockfish Program*—(1) *Eligible rockfish harvester*. A person is eligible to participate in the Rockfish Program as an eligible rockfish harvester if that person:

(i) Holds a permanent fully transferrable LLP license at the time of application to participate in the Rockfish Program that:

(A) Is endorsed for Central GOA groundfish with a trawl gear designation; and

(B) Has a legal rockfish landing of any primary rockfish species in which the sum of the catch of all primary rockfish species for that legal rockfish landing exceeded the catch of all other groundfish; and

(ii) Submits a timely application to participate in the Rockfish Program that is approved by NMFS.

(2) *Rockfish entry level fishery harvester*. A person is eligible to participate in the Rockfish Program as a rockfish entry level fishery harvester if that person:

(i) Holds a valid LLP license endorsed for Central GOA groundfish at the time of application for the entry level fishery;

(ii) Submits a timely application for the entry level fishery that is approved by NMFS; and

(iii) That person does not hold a permanent fully transferrable LLP license that is endorsed for Central GOA groundfish with a trawl designation and has a legal rockfish landing of any primary rockfish species in which the sum of the catch of all primary rockfish species for that legal rockfish landing exceeded the catch of all other groundfish.

(3) *Assigning a legal rockfish landing to an LLP license*. A legal rockfish landing is assigned to an eligible LLP license endorsed for the Central GOA management area with a trawl gear designation if that legal rockfish landing was made onboard a vessel that gave rise to that LLP license prior to the issuance of that LLP license, or that legal rockfish landing was made on a vessel using trawl gear operating under the authority of that LLP license.

(4) *Legal rockfish landings assigned to the catcher/processor sector*. A legal rockfish landing for a primary rockfish species is assigned to the catcher/processor sector if:

(i) The legal rockfish landing of that primary rockfish species was harvested and processed onboard a vessel during

the season dates for that primary rockfish species as established in Table 28 to this part; and

(ii) The legal rockfish landings that were derived from that vessel resulted in, or were made under the authority of, an eligible LLP license that is endorsed for Central GOA groundfish fisheries with trawl gear with a catcher/processor designation.

(5) *Legal rockfish landings assigned to the catcher vessel sector.* A legal rockfish landing for a primary rockfish species is assigned to the catcher vessel sector if:

(i) The legal rockfish landing of that primary rockfish species was harvested and not processed onboard a vessel during the season dates for that primary rockfish species as established under Table 28 to this part; and

(ii) The legal rockfish landings that were derived from that vessel resulted in, or were made under the authority of, an eligible LLP license that is endorsed for Central GOA groundfish fisheries with trawl gear; and

(iii) Those legal rockfish landings do not meet the criteria for being a legal rockfish landing assigned to the catcher/processor sector as defined in paragraph (b)(4) of this section.

(c) *Eligibility for processors to participate in the Rockfish Program—(1) Eligible rockfish processor.* A person is eligible to participate in the Rockfish Program as an eligible rockfish processor if that person:

(i) Holds the processing history of a shoreside processor or stationary floating processor that received not less than 250 metric tons in round weight equivalents of aggregate legal rockfish landings of primary rockfish species each calendar year in any four of the five calendar years from 1996 through 2000 during the season dates for that primary rockfish species as established in Table 28 to this part;

(ii) Submits a timely application to participate in the Rockfish Program that is approved by NMFS; and

(iii) That person or successor-in-interest exists at the time of application to participate in the Rockfish Program.

(2) *Holder of processing history.* A person holds the processing history of a

shoreside processor or stationary floating processor if that person:

(i) Owns the shoreside processor or stationary floating processor at which the legal rockfish landings were received at the time of application to participate in the Rockfish Program, unless that processing history has been transferred to another person by the express terms of a written contract that clearly and unambiguously provides that such processing history has been transferred; or

(ii) (A) Holds the processing history of a shoreside processor or stationary floating processor at which the legal rockfish landings were received and obtained that processing history by the express terms of a written contract that clearly and unambiguously provides that such processing history is held by that person at the time of application to participate in the Rockfish Program; and

(B) The shoreside processor or stationary floating processor from which that processing history is derived did not have a valid Federal Processor Permit at the time that the processing history had been transferred by the express terms of a written contract.

(3) *Eligible entry level fishery processor.* A person is eligible to participate in the Rockfish Program as an eligible entry level fishery processor if that person is not an eligible rockfish processor.

(d) *Official Rockfish Program record—(1) Use of the official Rockfish Program record.* The official Rockfish Program record will contain information used by the Regional Administrator to determine:

(i) The amount of legal rockfish landings and resulting processing history assigned to a shoreside processor or stationary floating processor;

(ii) The amount of legal rockfish landings assigned to an LLP license;

(iii) The amount of rockfish QS resulting from legal rockfish landings assigned to an LLP license held by an eligible rockfish harvester;

(iv) Sideboard ratios assigned to eligible rockfish harvesters;

(v) The amount of legal rockfish landings assigned to an eligible rockfish processor for purposes of establishing a rockfish cooperative with eligible rockfish harvesters; and includes:

(vi) All other information used by NMFS that is necessary to determine eligibility to participate in the Rockfish Program and assign specific harvest or processing privileges to Rockfish Program participants.

(2) *Presumption of correctness.* The official Rockfish Program record is presumed to be correct. An applicant to participate in the Rockfish Program has the burden to prove otherwise. For the purposes of creating the official Rockfish Program record, the Regional Administrator will presume the following:

(i) An LLP license is presumed to have been used onboard the same vessel from which that LLP license was derived during the calendar years 2000 and 2001, unless written documentation is provided that establishes otherwise.

(ii) If more than one person is claiming the same legal rockfish landing, then each LLP license for which the legal rockfish landing is being claimed will receive an equal share of any resulting rockfish QS unless the applicants can provide written documentation that establishes an alternative means for distributing the catch history to the LLP licenses.

(3) *Documentation.* (i) Only legal rockfish landings, as defined in § 679.2, shall be used to establish an allocation of rockfish QS or a sideboard ratio.

(ii) Evidence of legal rockfish landings used to establish processing history for an eligible rockfish processor is limited to State of Alaska fish tickets.

(4) *Non-severability of legal rockfish landings.* Legal rockfish landings are non-severable:

(i) From the LLP license to which those legal rockfish landings are assigned according to the official Rockfish Program record; or

(ii) From the shoreside processor or stationary floating processor at which the legal rockfish landings were received unless the processing history assigned to that shoreside processor or stationary floating processor is transferred, in its entirety, to another per-

son under the provisions in paragraph (c)(2)(ii) of this section.

(e) *Application to participate in the Rockfish Program—(1) Submission of application to participate in the Rockfish Program.* A person who wishes to participate in the Rockfish Program as an eligible rockfish harvester or eligible rockfish processor must submit a timely and complete application to participate in the Rockfish Program. This application may only be submitted to NMFS using the following methods:

(i) Mail: Regional Administrator, c/o Restricted Access Management Program, NMFS, P.O. Box 21668, Juneau, AK 99802-1668;

(ii) Fax: 907-586-7354; or

(iii) Hand Delivery or Carrier: NMFS, Room 713, 709 West 9th Street, Juneau, AK 99801.

(2) *Forms.* Forms are available through the internet on the NMFS Alaska Region website at <http://www.fakr.noaa.gov>, or by contacting NMFS at 800-304-4846, Option 2.

(3) *Deadline.* A completed application to participate in the Rockfish Program must be received by NMFS no later than 1700 hours A.l.t. on January 2, 2007, or if sent by U.S. mail, postmarked by that time.

(4) *Contents of application.* A completed application must contain the following information:

(i) *Applicant identification.* (A) The applicant's name, NMFS person ID (if applicable), tax ID or social security number, permanent business mailing address, business telephone number, and business fax number, and e-mail (if available);

(B) Indicate (YES or NO) if the applicant is a U.S. citizen; if YES, enter his or her date of birth;

(C) Indicate (YES or NO) if the applicant is a U.S. corporation, partnership, association, or other business entity; if YES, enter the date of incorporation;

(D) Indicate (YES or NO) if the applicant is a successor-in-interest to a deceased individual or to a non-individual no longer in existence, if YES attach evidence of death or dissolution;

(E) For an applicant claiming legal rockfish landings associated with an LLP license, enter the following information for each LLP license: LLP license number, name of the original

qualifying vessel(s) (QOV(s)) that gave rise to the LLP license, ADF&G vessel registration number of the QOV, and names, ADF&G vessel registration numbers, and USCG documentation numbers of all other vessels used under the authority of this LLP license, including dates when landings were made under the authority of an LLP license for 2000 and 2001;

(F) For an applicant claiming legal rockfish landings in the catcher/processor sector, enter the following information: LLP license numbers, vessel names, ADF&G vessel registration numbers, and USCG documentation numbers of vessels on which legal rockfish landings were caught and processed.

(ii) *Processor eligibility.* (A) Indicate (YES or NO) if the applicant received at least 250 metric tons in round weight equivalent of aggregate legal rockfish landings of primary rockfish species each calendar year in any four of the five calendar years from 1996 through 2000 during the season dates for that primary rockfish species as established in Table 28 to this part;

(B) If the answer to paragraph (e)(4)(ii)(A) of this section is YES, enter the facility name and ADF&G processor code(s) for each processing facility where legal rockfish landings were received and the qualifying years or seasons for which applicant is claiming eligibility.

(C) Enter the name of the community in which the primary rockfish species were received. The community is either:

(1) The city, if the community is incorporated as a city within the State of Alaska;

(2) The borough, if the community is not a city incorporated within the State of Alaska, but the community is in a borough incorporated within the State of Alaska.

(D) Enter the four calendar years from 1996 through 2000 that NMFS will use to determine the percentage of legal rockfish landings received by that eligible rockfish processor for purposes of forming an association with a rockfish cooperative.

(E) Submit a copy of the contract that demonstrates that the legal processing history and rights to apply for

and receive processor eligibility based on that legal processing history have been transferred or retained (if applicable); and

(F) Any other information deemed necessary by the Regional Administrator.

(iii) *Applicant signature and certification.* The applicant must sign and date the application certifying that all information is true, correct, and complete to the best of his/her knowledge and belief. If the application is completed by a designated representative, then explicit authorization signed by the applicant must accompany the application.

(5) *Application evaluation.* The Regional Administrator will evaluate applications received as specified in paragraph (e)(3) of this section and compare all claims in an application with the information in the official Rockfish Program record. Application claims that are consistent with information in the official Rockfish Program record will be approved by the Regional Administrator. Application claims that are inconsistent with official Rockfish Program record, unless verified by documentation, will not be approved. An applicant who submits inconsistent claims, or an applicant who fails to submit the information specified in paragraph (e)(4) of this section, will be provided a single 30-day evidentiary period to submit the specified information, submit evidence to verify his or her inconsistent claims, or submit a revised application with claims consistent with information in the official Rockfish Program record. An applicant who submits claims that are inconsistent with information in the official Rockfish Program record has the burden of proving that the submitted claims are correct. Any claims that remain inconsistent or that are not accepted after the 30-day evidentiary period will be denied, and the applicant will be notified by an initial administrative determination (IAD) of his or her appeal rights under § 679.43.

(6) *Appeals.* If an applicant is notified by an IAD that claims made by the applicant have been denied, that applicant may appeal that IAD under the provisions at § 679.43.

(f) *Rockfish QS allocation*—(1) *General*. An eligible rockfish harvester who holds an LLP license at the time of application to participate in the Rockfish Pilot Program will receive rockfish QS assigned to that LLP license based on the legal rockfish landings assigned to that LLP license according to the official Rockfish Program record.

(2) *Non-severability of rockfish QS from an LLP license*. Rockfish QS assigned to an LLP license is non-severable from that LLP license.

(3) *Calculation of rockfish QS*. (i) Based on the official Rockfish Program record, the Regional Administrator shall determine the total amount of legal rockfish landings of each primary rockfish species in each year during the fishery seasons established in Table 28 to this part.

(ii) For each sector, Rockfish QS for each primary rockfish species shall be based on the percentage of the legal rockfish landings of each primary rockfish species in that sector associated with each fully transferrable LLP licenses held by eligible rockfish harvesters in that sector.

(iii) The Regional Administrator shall calculate rockfish QS for each sector for each primary rockfish species “s” based on each fully transferrable LLP license “l” held by all eligible rockfish harvesters by the following procedure:

(A) Sum the legal rockfish landings for each year during the fishery seasons established in Table 28 to this part.

(B) Select the five years that yield the highest tonnage of that primary rockfish species, including zero pounds if necessary.

(C) Sum the tonnage of the highest five years, for that species for that LLP license as selected under paragraph (f)(3)(iii)(B) of this section. This yields the Highest Five Years.

(D) Divide the Highest Five Years in paragraph (f)(3)(iii)(C) of this section for an LLP license and species by the sum of all Highest Five Years based on the official Rockfish Program record for that species as presented in the following equation:

$$\text{Highest Five Years}_{ls} / \Sigma \text{ All Highest Five Years}_s = \text{Percentage of the Total}_{ls}$$

The result (quotient) of this equation is the Percentage of the Total<sub>ls</sub>.

(E) Multiply the Percentage of the Total<sub>ls</sub> by the Initial Rockfish QS Pool for each relevant species as established in Table 29 to this part. This yields the number of rockfish QS units for that LLP license for that primary rockfish species in rockfish QS units.

(F) Determine the percentage of legal rockfish landings from the official Rockfish Program record in the qualifying years used to calculate the rockfish QS assigned to the catcher/processor sector and multiply the rockfish QS units calculated in paragraph (f)(3)(iii)(E) of this section by this percentage. This yields the rockfish QS units to be assigned to the catcher/processor sector for that LLP license and species. For each primary rockfish species, the total amount of rockfish QS units assigned to the catcher/processor sector is the sum of all catch history allocation units assigned to all eligible rockfish harvesters in the catcher/processor sector.

(G) Determine the percentage of legal rockfish landings from the official Rockfish Program record in the qualifying years used to calculate rockfish QS assigned to the catcher vessel sector and multiply the Rockfish QS units calculated in paragraph (f)(3)(iii)(E) of this section by this percentage. This yields the rockfish QS units to be assigned to the catcher vessel sector for that LLP license and species. For each primary rockfish species, the total amount of rockfish QS units assigned to the catcher vessel sector is equal to the sum of all rockfish QS units assigned to all eligible rockfish harvesters in the catcher vessel sector.

[71 FR 67252, Nov. 20, 2006, as amended at 72 FR 37681, July 11, 2007]

#### § 679.81 Rockfish Program annual harvester and processor privileges.

(a) *Sector and LLP license allocations of primary rockfish species*—(1) *General*. Each calendar year, the Regional Administrator will determine the tonnage of primary rockfish species that will be assigned to the Rockfish Program. For participants in a rockfish cooperative, rockfish limited access fishery, or opt-out fishery, amounts will be allocated to the appropriate sector, either the

catcher/processor sector or the catcher vessel sector. The tonnage of fish assigned to a sector will be further assigned to rockfish cooperative(s) or the rockfish limited access fishery within that sector.

(2) *Calculation.* The amount of primary rockfish species allocated to the Rockfish Program is calculated by deducting the incidental catch allowance (ICA) the Regional Administrator determines is required on an annual basis in other non-target fisheries from the TAC. Ninety-five (95) percent of the remaining TAC for that primary rockfish species ( $TAC_s$ ) is assigned for use by rockfish cooperatives and the rockfish limited access fishery in the catcher vessel and catcher/processor sectors. Five (5) percent of the remaining TAC is allocated for use in the rockfish entry level fishery. The formulae are as follows in paragraphs (g)(2)(i) and (ii) of this section:

(i)  $(TAC - ICA) \times 0.95 = TAC_s$ .

(ii)  $(TAC - ICA) \times 0.05 = TAC$  for the Rockfish Entry Level Fishery.

(3) *Primary rockfish species TACs assigned to the catcher/processor and catcher vessel sector.*  $TAC_s$  assigned for a primary rockfish species will be divided between the catcher/processor sector and the catcher vessel sector. Each sector will receive a percentage of  $TAC_s$  for each primary rockfish species equal to the sum of the rockfish QS units assigned to all LLP licenses that receive rockfish QS in that sector divided by the rockfish QS pool for that primary rockfish species. Expressed algebraically for each primary rockfish species “s” in paragraphs (g)(3)(i) and (ii) of this section:

(i) Catcher/Processor Sector  $TAC_s = [(TAC_s) \times (\text{Rockfish QS Units in the Catcher/Processor Sector} / \text{Rockfish QS Pool}_s)]$ .

(ii) Catcher Vessel Sector  $TAC_s = [(TAC_s) \times (\text{Rockfish QS Units in the Catcher Vessel Sector} / \text{Rockfish QS Pool}_s)]$ .

(4) *Use of primary rockfish species by an eligible rockfish harvester.* Once a  $TAC_s$  is assigned to a sector, the use of that  $TAC_s$  by eligible rockfish harvesters in that sector is governed by regulations applicable to the rockfish cooperative, limited access fishery, or opt-out fishery in which those eligible

rockfish harvesters are participating. The  $TAC_s$  is assigned as follows:

(i) Any  $TAC_s$  assigned to a rockfish cooperative is issued as CQ and may be harvested only by the members of the rockfish cooperative that has been assigned that CQ and only on vessels that are authorized to fish under that CQ permit. Once issued, CQ may be transferred between rockfish cooperatives according to the provisions in paragraph (f) of this section.

(ii) Any  $TAC_s$  assigned to the rockfish limited access fishery in the catcher vessel sector may be harvested by any eligible rockfish harvester who has assigned an LLP license with rockfish QS for use in the rockfish limited access fishery in the catcher vessel sector.

(iii) Any  $TAC_s$  assigned to the rockfish limited access fishery in the catcher/processor sector may be harvested by any eligible rockfish harvester who has assigned an LLP license with rockfish QS for use in the rockfish limited access fishery in the catcher/processor sector.

(iv)  $TAC_s$  is not assigned to an opt-out fishery. Any  $TAC_s$  that would have been derived from rockfish QS assigned to the opt-out fishery is reassigned to rockfish cooperatives and the rockfish limited access fishery in the catcher/processor sector as established in paragraph (a)(5)(ii) of this section.

(5) *Determining the TACs of primary rockfish species.*  $TAC_s$  is assigned to each rockfish cooperative or limited access fishery based on the rockfish QS assigned to that fishery in each sector according to the following procedures:

(i) *Catcher vessel sector.* The assignment of  $TAC_s$  to a rockfish cooperative or limited access fishery is governed by the Rockfish Program fishery to which an LLP license is assigned under this paragraph (a).

(A) *Rockfish cooperative.* The amount of  $TAC_s$  for each primary rockfish species assigned to a rockfish cooperative is equal to the amount of rockfish QS units assigned to that rockfish cooperative divided by the total rockfish QS pool in the catcher vessel sector multiplied by the catcher vessel  $TAC_s$ . Once  $TAC_s$  for a primary rockfish species is assigned to a rockfish cooperative, it is issued as CQ specific to that rockfish

cooperative. The amount of CQ for each primary rockfish species that is assigned to a rockfish cooperative is expressed algebraically as follows:

$$CQ = [(Catcher \text{ Vessel Sector } TAC_s) \times (Rockfish \text{ QS assigned to that Cooperative/Rockfish QS Units in the Catcher Vessel Sector}_s)].$$

(B) *Rockfish limited access fishery.* The amount of  $TAC_s$  for each primary rockfish species assigned to the rockfish limited access fishery is equal to the catcher vessel sector  $TAC_s$  subtracting all CQ issued to rockfish cooperatives in the catcher vessel sector for that primary rockfish species. Expressed algebraically in the following equation:

$$Catcher \text{ Vessel Sector Rockfish Limited Access Fishery } TAC_s = Catcher \text{ Vessel Sector } TAC_s - (\Sigma CQ \text{ issued to Rockfish Cooperatives in the Catcher Vessel Sector}).$$

(ii) *Catcher/processor sector.* The assignment of  $TAC_s$  to a rockfish cooperative or limited access fishery is determined by the Rockfish Program fishery to which an LLP license is assigned under this paragraph (a).

(A) *Rockfish cooperative.* The amount of  $TAC_s$  for each primary rockfish species assigned to a rockfish cooperative is equal to the amount of rockfish QS units assigned to that rockfish cooperative divided by the sum of the rockfish QS units assigned to rockfish cooperatives and the limited access fishery in the catcher/processor sector multiplied by the catcher/processor  $TAC_s$ . Once  $TAC_s$  for a primary rockfish species is assigned to a rockfish cooperative it is issued as CQ specific to that rockfish cooperative. The amount of CQ for each primary rockfish species that is assigned to a rockfish cooperative is expressed algebraically as follows:

$$CQ = [(Catcher/Processor \text{ Sector } TAC_s) \times (Rockfish \text{ QS Units assigned to that Cooperative} / \Sigma \text{ Rockfish QS Units assigned to all rockfish cooperatives and the Limited Access Fishery in the Catcher/Processor Sector})].$$

(B) *Rockfish limited access fishery.* The amount of  $TAC_s$  for each primary rockfish species assigned to the limited access fishery is equal to the catcher/processor  $TAC_s$  subtracting all CQ

issued to rockfish cooperatives in the catcher/processor sector for that primary rockfish species. Expressed algebraically in the following equation:

$$Catcher/Processor \text{ Sector Rockfish Limited Access Fishery } TAC_s = [(Catcher/Processor \text{ Sector } TAC_s) - (\Sigma CQ \text{ issued to rockfish cooperatives in the Catcher/Processor Sector})].$$

(b) *Sector and LLP license allocations of secondary species*—(1) *General.* Each calendar year, the Regional Administrator will determine the tonnage of secondary species that may be assigned to the Rockfish Program. This amount will be assigned to the catcher/processor sector and the catcher vessel sector. The tonnage of fish assigned to a sector will be assigned only to rockfish cooperatives within that sector. CQ of secondary species is subject to the use limitations established in paragraph (b)(4) of this section.

(2) *Maximum amount of secondary species tonnage that may be assigned to the catcher/processor sector.* (i) Sum the amount of each secondary species retained by all vessels that gave rise to an LLP license with a catcher/processor designation or that fished under an LLP license with a catcher/processor designation during the directed fishery for any primary rockfish species in which the sum of the catch of all primary rockfish species for that legal rockfish landing exceeded the catch of all other groundfish during all qualifying season dates established in Table 28 to this part. This is the rockfish catcher/processor sector harvest for that secondary species.

(ii) Sum the amount of each secondary species retained by all vessels in the Central GOA regulatory Area and adjacent waters open by the State of Alaska for which it adopted a Federal fishing season from January 1, 1996, until December 31, 2002. This is the total secondary species harvest.

(iii) For each secondary species, divide the rockfish catcher/processor sector harvest by the total secondary species harvest and multiply by 100. This is the percentage of secondary species that may be assigned to the catcher/processor sector in the Rockfish Program fishery.

(iv) Multiply the percentage of each secondary species assigned to the catcher/processor sector in the Rockfish Program fishery by the TAC for that secondary species. This is the maximum amount of that secondary species that may be allocated to the catcher/processor sector in the Rockfish Program.

(v) The maximum amount of rougheye rockfish that may be allocated to the catcher/processor sector is equal to 58.87 percent of the TAC for the Central GOA.

(vi) The maximum amount of shortraker rockfish that may be allocated to the catcher/processor sector is equal to 30.03 percent of the TAC for the Central GOA.

(3) *Maximum amount of secondary species tonnage that may be assigned to the catcher vessel sector.* (i) Sum the amount of each secondary species retained by all vessels that gave rise to an LLP license with a catcher vessel designation or that fished under an LLP license with a catcher vessel designation during the directed fishery for any primary rockfish species in which the sum of the catch of all primary rockfish species for that legal rockfish landing exceeded the catch of all other groundfish during all qualifying season dates established in Table 28 to this part. This is the rockfish catcher vessel sector harvest for that secondary species.

(ii) Sum the amount of each secondary species retained by all vessels in the Central GOA regulatory Area and adjacent waters open by the State of Alaska for which it adopted a Federal fishing season from January 1, 1996, until December 31, 2002. This is the total secondary species harvest.

(iii) For each secondary species, divide the rockfish catcher vessel sector harvest by the total secondary species harvest and multiply by 100. This is the percentage of each secondary species that may be assigned to the catcher vessel sector in the Rockfish Program fishery.

(iv) Multiply the percentage of each secondary species assigned to the catcher vessel sector in the Rockfish Program fishery by the TAC for that secondary species. This is the maximum amount of that secondary species that may be allocated to the

catcher vessel sector in the Rockfish Program.

(4) *Use of a secondary species by an eligible rockfish harvester.* Once the maximum amount of secondary species that may be assigned to a sector has been determined, the use of that specific amount that is assigned to that sector is governed by regulations applicable to the specific Rockfish Program fishery in which eligible rockfish harvesters are participating. The specific amount of each secondary species that may be used by eligible rockfish harvesters is determined by the following procedure:

(i) Secondary species may only be assigned to a rockfish cooperative. Once a secondary species is assigned to a rockfish cooperative it is issued as CQ, which may only be used by the rockfish cooperative to which it is assigned.

(ii) Secondary species are not assigned to a rockfish limited access fishery or the opt-out fishery and there is not a dedicated harvestable allocation for any specific participant in these rockfish fisheries.

(5) *Determining the amount of secondary species CQ assigned to a rockfish cooperative.* The amount of CQ for each secondary species that is assigned to each rockfish cooperative is determined according to the following procedures:

(i) *CQ assigned to rockfish cooperatives in the catcher/processor sector.* The CQ for a secondary species that is assigned to a rockfish cooperative is equal to the maximum amount of that secondary species that may be allocated to the catcher/processor sector in the Rockfish Program multiplied by the sum of the rockfish QS units for all primary rockfish species assigned to that rockfish cooperative divided by the sum of the rockfish QS units assigned to rockfish cooperatives and the limited access fishery for all primary rockfish species in the catcher/processor sector. Expressed algebraically in the following equation:

$$\text{CQ for that Secondary Species} = \text{maximum amount of that Secondary Species that may be allocated to the Catcher/Processor Sector in the Rockfish Program} \times (\Sigma \text{Rockfish QS})$$

Units assigned to that Rockfish cooperative /  $\Sigma$  Rockfish QS Units assigned to all rockfish cooperatives and the Limited Access Fishery in the Catcher/Processor Sector)

(ii) *CQ assigned to rockfish cooperatives in the catcher vessel sector.* The CQ for a secondary species that is assigned to a specific rockfish cooperative is equal to the maximum amount of that secondary species that may be allocated to the catcher vessel sector in the Rockfish Program multiplied by the sum of the rockfish QS units for all primary rockfish species assigned to that rockfish cooperative divided by the rockfish QS pool for all primary rockfish species in the catcher vessel sector. Expressed algebraically in the following equation:

CQ for that Secondary Species = maximum amount of that Secondary Species that may be allocated to the Catcher Vessel Sector in the Rockfish Program  $\times$  ( $\Sigma$  Rockfish QS Units assigned to that Rockfish Cooperative / Rockfish QS Pool in the Catcher Vessel Sector).

(c) *Sector and LLP license allocations of rockfish halibut PSC—(1) General.* Each calendar year, the Regional Administrator will determine the tonnage of rockfish halibut PSC that will be assigned to the Rockfish Program. This amount will be allocated to the appropriate sector, either the catcher/processor sector or the catcher vessel sector. The tonnage of rockfish halibut PSC assigned to a sector will be further assigned as CQ only to rockfish cooperative(s) within that sector.

(2) *Maximum amount of rockfish halibut PSC that may be assigned to the catcher/processor and catcher vessel sectors.* (i) Sum the amount of halibut PSC used by all vessels that gave rise to an LLP license or that fished under an LLP license used during the directed fishery for any primary rockfish species in which the sum of the catch of all primary rockfish species for that legal rockfish landing exceeded the catch of all other groundfish during all qualifying season dates established in Table 28 to this part. This is the rockfish halibut PSC amount.

(ii) Sum the amount of halibut PSC by all vessels in the GOA Regulatory

Area and adjacent waters open by the State of Alaska for which it adopted a Federal fishing season from January 1, 1996, until December 31, 2002. This is the Total Halibut PSC.

(iii) Divide the rockfish halibut PSC amount by the total halibut PSC and multiply by 100. This is the percentage of rockfish halibut PSC assigned to the Rockfish Program fishery.

(iv) Multiply the percentage of rockfish halibut PSC assigned to the Rockfish Program fishery by the GOA halibut PSC limit. This is the maximum amount of rockfish halibut PSC that may be allocated to the Rockfish Program fishery.

(v) Multiply the maximum amount of rockfish halibut PSC that may be allocated to the Rockfish Program fishery by the percentage of the aggregate Rockfish QS assigned to the catcher/processor sector. This is the maximum amount of rockfish halibut PSC that may be allocated to the catcher/processor sector.

(vi) Multiply the maximum amount of rockfish halibut PSC that may be allocated to the Rockfish Program fishery by the percentage of the aggregate Rockfish QS assigned to the catcher vessel sector. This is the maximum amount of rockfish halibut PSC that may be allocated to the catcher vessel sector.

(3) *Use of rockfish halibut PSC by an eligible rockfish harvester.* Once the maximum amount of rockfish halibut PSC that may be assigned to a sector has been determined, the use of that specific amount that is assigned to that sector is governed by the specific Rockfish Program fishery in which eligible rockfish harvesters are participating.

(i) *Rockfish halibut PSC is assigned only to a rockfish cooperative.* Once rockfish halibut PSC is assigned to a rockfish cooperative, it is issued as CQ, which may only be used by the members of the rockfish cooperative to which it is assigned.

(ii) Rockfish halibut PSC is not assigned to a rockfish limited access fishery or the opt-out fishery and there is not a dedicated allocation for any specific participant in these rockfish fisheries.

(4) *Determining the amount of rockfish halibut PSC CQ assigned to a rockfish cooperative.* The amount of CQ of rockfish halibut PSC that is assigned to each rockfish cooperative is determined according to the following procedures:

(i) *CQ assigned to rockfish cooperatives in the catcher/processor sector.* The CQ for rockfish halibut PSC that is assigned to a specific rockfish cooperative is equal to the maximum amount of rockfish halibut PSC that may be allocated to the catcher/processor sector multiplied by the sum of the rockfish QS units for all primary rockfish species assigned to that rockfish cooperative divided by the sum of the rockfish QS units assigned to rockfish cooperatives and the limited access fishery for all primary rockfish species in the catcher/processor sector. This is expressed algebraically in the following equation:

$$\text{CQ for Rockfish Halibut PSC to a specific rockfish cooperative} = \text{maximum amount of Rockfish Halibut PSC that may be allocated to the Catcher/Processor Sector} \times \left( \frac{\sum \text{Rockfish QS Units assigned to that Rockfish Cooperative}}{\sum \text{Rockfish QS Units assigned to all rockfish cooperatives and the Limited Access Fishery in the Catcher/Processor Sector}} \right).$$

(ii) *CQ assigned to rockfish cooperatives in the catcher vessel sector.* The CQ for rockfish halibut PSC that is assigned to a specific rockfish cooperative is equal to the maximum amount of rockfish halibut PSC that may be allocated to the catcher vessel sector multiplied by the sum of the rockfish QS units for all primary rockfish species assigned to that rockfish cooperative divided by the rockfish QS pool for all primary rockfish species in the catcher vessel sector. This is expressed algebraically in the following equation:

$$\text{CQ for Rockfish Halibut PSC to a specific rockfish cooperative} = \text{maximum amount of Rockfish Halibut PSC that may be allocated to the Catcher Vessel Sector} \times \left( \frac{\sum \text{Rockfish QS Units assigned to that Rockfish Cooperative}}{\sum \text{Rockfish QS Units assigned to that Rockfish Cooperative/Rockfish QS Pool in the Catcher Vessel Sector}} \right).$$

(d) *Assigning rockfish QS to a Rockfish Program fishery—(1) General.* Each calendar year, a person that is participating in the Rockfish Program must assign any LLP license and any rockfish QS assigned to that LLP license to a Rockfish Program fishery by the process specified in paragraph (e) of this section. A person may assign an LLP license and any rockfish QS assigned to that LLP license to only one Rockfish Program fishery in a fishing year. Any rockfish QS assigned to a person's LLP license after NMFS has issued CQ or the TAC for that calendar year will not result in any additional CQ or TAC being issued for that rockfish QS for that calendar year.

(2) *Rockfish cooperatives in the catcher vessel sector.* An eligible rockfish harvester may assign rockfish QS to a rockfish cooperative in the catcher vessel sector if:

(i) That eligible rockfish harvester assigns the rockfish QS associated with that LLP license to a rockfish cooperative on a complete application for CQ that is approved by the Regional Administrator and that meets the requirements of paragraph (i) of this section; and

(ii) That rockfish QS is derived from legal rockfish landings assigned to the catcher vessel sector.

(3) *Rockfish cooperative in the catcher/processor sector.* An eligible rockfish harvester may assign rockfish QS to a rockfish cooperative in the catcher/processor sector if:

(i) That eligible rockfish harvester assigns the rockfish QS associated with that LLP license to a rockfish cooperative on a complete application for CQ that is approved by the Regional Administrator and that meets the requirements of paragraph (i) of this section; and

(ii) That rockfish QS is derived from legal rockfish landings assigned to the catcher/processor sector.

(4) *Rockfish limited access fishery.* (i) An eligible rockfish harvester may assign rockfish QS to a rockfish limited access fishery if that eligible rockfish harvester:

(A) Assigns the rockfish QS associated with that LLP license to a limited access fishery on a complete application for the rockfish limited access

## Fishery Conservation and Management

§ 679.81

fishery that is approved by the Regional Administrator; or

(B) Does not submit a complete application for CQ, or an application for the opt-out fishery that is approved.

(ii) The rockfish QS is assigned to the rockfish limited access fishery in the catcher vessel sector if that rockfish QS is assigned to the catcher vessel sector.

(iii) The rockfish QS is assigned to the rockfish limited access fishery in the catcher/processor sector if that rockfish QS is assigned to the catcher/processor sector.

(5) *Opt-out fishery.* An eligible rockfish harvester may assign rockfish QS assigned to the catcher/processor sector to the opt-out fishery if that eligible rockfish harvester assigns the rockfish QS associated with that LLP license to the opt-out fishery on a complete application for the opt-out fishery that is approved by the Regional Administrator.

(6) *Rockfish entry level fishery.* (i) A rockfish entry level harvester may assign an LLP license to the rockfish entry level fishery if that rockfish entry level harvester assigns that LLP license to the rockfish entry level fishery on a complete application for the entry level fishery that is approved by the Regional Administrator.

(ii) A rockfish entry level processor may participate in the rockfish entry level fishery if that rockfish entry level processor submits a complete application for the entry level fishery that is approved by the Regional Administrator.

(e) *Applications for a Rockfish Program fishery—(1) General.* Applications to participate in a Rockfish Program fishery are required to be submitted each year. A person who wishes to participate in a particular Rockfish Program fishery must submit a timely and complete application that is appropriate to that Rockfish Program fishery. These applications may only be submitted to NMFS using the following methods:

(i) Mail: Regional Administrator, c/o Restricted Access Management Program, NMFS, P.O. Box 21668, Juneau, AK 99802-1668;

(ii) Fax: 907-586-7354; or

(iii) Hand Delivery or Carrier: NMFS, Room 713, 709 West 9th Street, Juneau, AK 99801.

(2) *Forms.* Forms are available through the internet on the NMFS Alaska Region website at <http://www.fakr.noaa.gov>, or by contacting NMFS at: 800-304-4846, Option 2.

(3) *Deadline.* A completed application must be received by NMFS no later than 1700 hours A.l.t. on March 1 of the year for which the applicant wishes to participate in a Rockfish Program fishery, or if sent by U.S. mail, the application must be postmarked by that time.

(4) *Application for CQ.* A rockfish cooperative that submits a complete application that is approved by NMFS will receive a CQ permit that establishes an annual amount of primary rockfish species, secondary species, and rockfish halibut PSC that is based on the collective rockfish QS of the LLP licenses assigned to the rockfish cooperative by its members. A CQ permit will list the amount of CQ, by fishery, held by the rockfish cooperative, the members of the rockfish cooperative and LLP licenses assigned to that rockfish cooperative, and the vessels which are authorized to harvest fish under that CQ permit.

(i) *Contents of an application for CQ.* A completed application must contain the following information:

(A) *Rockfish cooperative identification.* The rockfish cooperative's legal name; the type of business entity under which the rockfish cooperative is organized; the state in which the rockfish cooperative is legally registered as a business entity; Tax ID number, date of incorporation, the printed name of the rockfish cooperative's designated representative; the permanent business address, telephone number, fax number, and e-mail address (if available) of the rockfish cooperative or its designated representative; and the signature of the rockfish cooperative's designated representative and date signed.

(B) *Members of the rockfish cooperative—(1) Harvester identification.* Full name, NMFS Person ID, LLP license number(s), Tax ID or SSN, name of the vessel(s), ADF&G vessel registration number, and USCG documentation number of vessel(s) on which the CQ

issued to the rockfish cooperative will be used.

(2) *LLP holdership documentation.* Provide the names of all persons, to the individual level, holding an ownership interest in the LLP license(s) assigned to the rockfish cooperative and the percentage ownership each person and individual holds in the LLP license(s).

(C) *Processor associates of the rockfish cooperative—(1) Identification.* Full name, NMFS Person ID, Tax ID, facility name, ADF&G processor code, SFP vessel name, ADF&G vessel registration number, and USCG documentation number of vessel (if a vessel), and Federal Processor Permit for each processing facility or vessel.

(2) *Processor ownership documentation.* Provide the names of all persons, to the individual person level, holding an ownership interest in the processor and the percentage ownership each person and individual holds in the processor.

(D) *Additional documentation.* For the cooperative application to be considered complete, the following documents must be attached to the application:

(1) A copy of the business license issued by the state in which the rockfish cooperative is registered as a business entity;

(2) A copy of the articles of incorporation or partnership agreement of the rockfish cooperative;

(3) A copy of the rockfish cooperative agreement signed by the members of the rockfish cooperative (if different from the articles of incorporation or partnership agreement of the rockfish cooperative) that includes terms that specify that:

(i) Eligible rockfish processor affiliated harvesters cannot participate in price setting negotiations except as permitted by general antitrust law; and

(ii) The rockfish cooperative must establish a monitoring program sufficient to ensure compliance with the Rockfish Program; and

(E) *Applicant signature and certification.* The applicant must sign and date the application certifying that all information is true, correct, and complete to the best of his/her knowledge and belief. If the application is completed by an designated representative,

then explicit authorization signed by the applicant must accompany the application.

(ii) *Issuance of CQ.* Issuance by NMFS of a CQ permit is not a determination that the rockfish cooperative is formed or is operating in compliance with antitrust law.

(5) *Application for the rockfish limited access fishery.* An eligible rockfish harvester who wishes to participate in the rockfish limited access fishery for a calendar year must submit an application for the rockfish limited access fishery.

(i) *Contents of application for the rockfish limited access fishery.* A completed application must contain the following information:

(A) *Applicant identification.* The applicant's name, NMFS person ID (if applicable), tax ID or social security number, date of birth or date of incorporation, permanent business mailing address, business telephone number, fax number, and e-mail (if available);

(B) Indicate (YES or NO) whether the applicant is an eligible rockfish harvester;

(C) Indicate (YES or NO) whether the applicant is participating in the rockfish limited access fishery;

(D) *Vessel identification.* The name of the vessel, ADF&G vessel registration number, USCG documentation number, and LLP license number(s) held by the applicant and used on that vessel in this rockfish limited access fishery;

(E) *LLP holdership documentation.* Provide the names of all persons, to the individual person level, holding an ownership interest in the LLP license assigned to the rockfish limited access fishery and the percentage ownership each person and individual holds in the LLP license; and

(F) *Signature and certification.* The applicant must sign and date the application certifying that all information is true, correct, and complete to the best of his/her knowledge and belief. If the application is completed by an designated representative, then explicit authorization signed by the applicant must accompany the application.

(ii) [Reserved]

(6) *Application to opt-out.* An eligible rockfish harvester who wishes to opt-

out of the Rockfish Program for a calendar year with an LLP license assigned rockfish QS in the catcher/processor sector must submit an application to opt-out.

(i) *Contents of application to opt-out.* A completed application must contain the following information:

(A) *Applicant identification.* The applicant's name, NMFS person ID (if applicable), tax ID or social security number, date of birth or date of incorporation, permanent business mailing address, business telephone number, fax number, and e-mail (if available);

(B) Indicate (YES or NO) whether the applicant is an eligible rockfish harvester;

(C) Indicate (YES or NO) whether the applicant is opting-out of the Rockfish Program;

(D) Indicate (YES or NO) whether the applicant holds an LLP license with rockfish QS assigned to the catcher/processor sector;

(E) *Vessel identification.* The name of the vessel, ADF&G vessel registration number, USCG documentation number, and LLP license number(s) held by the applicant and used on that vessel;

(F) *LLP holdership documentation.* Provide the names of all persons, to the individual level, holding an ownership interest in the LLP license and the percentage ownership each person and individual holds in the LLP license; and

(G) *Signature and certification.* The applicant must sign and date the application certifying that all information is true, correct, and complete to the best of his/her knowledge and belief. If the application is completed by an designated representative, then explicit authorization signed by the applicant must accompany the application.

(ii) [Reserved]

(7) *Application for the rockfish entry level fishery.* A rockfish entry level harvester who wishes to participate in the rockfish entry level fishery must submit an application for the rockfish entry level fishery.

(i) *Contents of application for the entry level fishery.* A completed application must contain the following information:

(A) The applicant's name, NMFS person ID (if applicable), tax ID or social

security number (required), permanent business mailing address, and business telephone number, fax number, and e-mail address (if available);

(B) Indicate (YES or NO) whether applicant is a U.S. citizen, U.S. corporation, partnership, association, or other business entity; if YES, enter the date of birth or date of incorporation;

(C) For harvesters who are applying to participate in the entry level fishery, enter the name, ADF&G vessel registration number, and USCG documentation number of the vessel to be used in the entry level fishery, and LLP license number(s) held by the applicant and used on that vessel in the rockfish entry level fishery;

(D) Harvesters who are applying to participate in the entry level fishery must attach a statement from an eligible entry level processor that affirms that the harvester has a market for any rockfish delivered by that harvester in the entry level fishery; and

(E) The applicant must sign and date the application certifying that all information is true, correct, and complete to the best of his/her knowledge and belief. If the application is completed by an designated representative, then explicit authorization signed by the applicant must accompany the application.

(ii) [Reserved]

(f) *Transfer applications.* A rockfish cooperative may transfer all or part of its CQ to another rockfish cooperative. This transfer requires the submission of an application for inter-cooperative transfer to NMFS.

(1) *Application for inter-cooperative transfer.* NMFS will notify the transferor and transferee once the application has been received and approved. A transfer of CQ is not effective until approved by NMFS. A completed transfer of CQ issued to a rockfish cooperative requires that the following information be provided to NMFS in the application for inter-cooperative transfer:

(i) *Identification of transferor.* Enter the name of the rockfish cooperative; NMFS Person ID; name of the rockfish cooperative's designated representative; permanent business mailing address; and business telephone number, fax number, and e-mail address (if available) of the rockfish cooperative

## § 679.81

## 50 CFR Ch. VI (10–1–08 Edition)

designated representative. A temporary mailing address for each transaction may also be provided.

(ii) *Identification of transferee.* Enter the name of the rockfish cooperative; NMFS Person ID(s); name of rockfish cooperative's designated representative; permanent business mailing address; and business telephone number, fax number, and e-mail address (if available) of the rockfish cooperative designated representative. A temporary mailing address for each transaction may also be provided.

(iii) *Identification of rockfish cooperative member.* Enter the name and NMFS Person ID of the member(s) to whose use cap the rockfish cooperative CQ will be applied, and the amount of CQ applied to each member for purposes of applying use caps established under the Rockfish Program under § 679.82(a).

(iv) *CQ to be transferred.* Identify the type and amount of Primary species, secondary species, or rockfish halibut PSC CQ to be transferred.

(v) *Certification of transferor.* The rockfish cooperative transferor's designated representative and the eligible rockfish processor with whom that rockfish cooperative in the catcher vessel sector is associated must sign and date the application certifying that all information is true, correct, and complete to the best of his or her knowledge and belief. Also enter the printed name of the rockfish cooperative transferor's designated representative. Explicit authorization for the designated representative to act on behalf of the rockfish cooperatives must accompany the application.

(vi) *Certification of transferee.* The rockfish cooperative transferee's designated representative and the eligible rockfish processor with whom that rockfish cooperative in the catcher vessel sector is associated must sign and date the application certifying that all information is true, correct, and complete to the best of his or her knowledge and belief. Also enter the printed name of the rockfish cooperative transferee's designated representative. Explicit authorization for the designated representative to act on behalf of the rockfish cooperatives must accompany the application.

(2) [Reserved]

(g) *Transfer of processor eligibility.* A person may not transfer eligibility to receive and process under the Rockfish Program to another person except:

(1) As provided for under § 679.80(c)(2)(ii); or

(2) If an eligible rockfish processor transfers complete ownership of a stationary floating processor or shoreside processing facility and all processing history associated with that stationary floating processor or shoreside processing facility to another person.

(3) *Limitation on use of processor eligibility.* Any person becoming an eligible rockfish processor by transfer may not receive fish harvested under the Rockfish Program outside of the community listed by the original recipient of the processor eligibility in the application to participate in the Rockfish Program under § 679.80(e)(4)(ii)(C).

(4) *Non-severability of processor eligibility.* An eligible rockfish processor permit may not be divided or suballotted.

(h) *Maximum retainable amount (MRA) limits—(1) Rockfish cooperative.* A vessel assigned to a rockfish cooperative and fishing under a CQ permit may harvest groundfish species not allocated as CQ up to the amounts of the MRAs for those species as established in Table 30 to this part.

(2) *Catcher/processor sector rockfish limited access fishery.* An eligible rockfish harvester in the catcher/processor rockfish limited access fishery may harvest groundfish species other than primary rockfish species up to the amounts of the MRAs for those species as established in Table 30 to this part.

(3) *Catcher vessel sector rockfish limited access fishery.* An eligible rockfish harvester in the catcher vessel rockfish limited access fishery may harvest groundfish species other than primary rockfish species up to the amounts of the MRAs for those species as established in Table 30 to this part.

(4) *Opt-out fishery.* An eligible rockfish harvester in the opt-out fishery may harvest groundfish species other than primary rockfish species up to the amounts of the MRAs for those species as established in Table 10 to this part.

(5) *Rockfish entry level fishery.* An rockfish entry level harvester in the

rockfish entry level fishery may harvest groundfish species other than primary rockfish species up to amounts of the MRAs for those species as established in Table 10 to this part.

(6) *Maximum retainable amounts (MRA)*. (i) The MRA for an incidental catch species for vessels participating in a rockfish cooperative, or a rockfish limited access fishery, is calculated as a proportion of the total allocated primary rockfish species on board the vessel in round weight equivalents using the retainable percentage in Table 30 to this part; except that:

(ii) In the catcher vessel sector, shortraker and rougheye rockfish are incidental catch species and are limited to an aggregate MRA of 2.0 percent of the retained weight of all primary rockfish species during that fishing trip.

(iii) Once the amount of shortraker rockfish harvested in the catcher vessel sector is equal to 9.72 percent of the shortraker rockfish TAC in the Central GOA regulatory area, then shortraker rockfish may not be retained by any participant in the catcher vessel sector.

(iv) In the rockfish limited access fishery for the catcher/processor sector, shortraker and rougheye rockfish are incidental catch species and are limited to an aggregate MRA of 2.0 percent of the retained weight of all primary rockfish species during that fishing trip.

(v) Once the amount of shortraker rockfish harvested in the catcher/processor sector is equal to 30.03 percent of the shortraker rockfish TAC in the Central GOA regulatory area, then shortraker rockfish may not be retained in the rockfish limited access fishery in the catcher/processor sector.

(vi) Once the amount of rougheye rockfish harvested in the catcher/processor sector is equal to 58.87 percent of the rougheye rockfish TAC in the Central GOA regulatory area, then rougheye rockfish may not be retained in the rockfish limited access fishery in the catcher/processor sector.

(i) *Rockfish cooperative*—(1) *General*. This section governs the formation and operation of rockfish cooperatives. The regulations in this section apply only to rockfish cooperatives that have

formed for the purpose of applying for and fishing with CQ issued annually by NMFS. Members of rockfish cooperatives should consult legal counsel before commencing any activity if the members are uncertain about the legality under the antitrust laws of the rockfish cooperative's proposed conduct. Membership in a rockfish cooperative is voluntary. No person may be required to join a rockfish cooperative. Upon receipt of written notification that a person is eligible and wants to join a rockfish cooperative, that rockfish cooperative must allow that person to join subject to the terms and agreements that apply to the members of the cooperative as established in the contract governing the conduct of the rockfish cooperative. Members may leave a rockfish cooperative, but any CQ contributed by the rockfish QS held by that member remains assigned to that rockfish cooperative for the remainder of the calendar year. An LLP license or vessel that has been assigned to a rockfish cooperative in the catcher/processor sector that leaves a rockfish cooperative continues to be subject to the sideboard limits established for that rockfish cooperative under § 679.82(d) and (f), for that calendar year. If a person becomes the holder of an LLP license that has been assigned to a rockfish cooperative, then that person may join that rockfish cooperative upon receipt of that LLP license.

(2) *Legal and organizational requirements*. A rockfish cooperative must meet the following legal and organizational requirements before it is eligible to receive CQ:

(i) Each rockfish cooperative must be formed as a partnership, corporation, or other legal business entity that is registered under the laws of one of the 50 states or the District of Columbia;

(ii) Each rockfish cooperative must appoint an individual as designated representative to act on the rockfish cooperative's behalf and serve as contact point for NMFS for questions regarding the operation of the rockfish cooperative. The designated representative must be an individual, and may be a member of the rockfish cooperative, or some other individual designated by the rockfish cooperative;

**§ 679.81**

**50 CFR Ch. VI (10–1–08 Edition)**

(iii) Each rockfish cooperative must submit a complete and timely application for CQ;

(iv) Each rockfish cooperative must meet the mandatory requirements established in paragraphs (i)(3) and (4) of

this section applicable to that rockfish cooperative.

(3) *Mandatory requirements.* The following table describes the requirements to form a rockfish cooperative in the catcher vessel or catcher/processor sector.

| Requirement                                                                                                                                                                                | Catcher Vessel Sector                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Catcher/Processor Vessel Sector                                                                                         |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------|
| (i) Who may join a rockfish cooperative?                                                                                                                                                   | Only persons who are eligible rockfish harvesters may join a rockfish cooperative. Persons who are not eligible rockfish harvesters may be employed by, or serve as the designated representative of a rockfish cooperative, but are not members of the rockfish cooperative.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |                                                                                                                         |
| (ii) What is the minimum number of LLP licenses that must be assigned to form a rockfish cooperative?                                                                                      | No minimum requirement.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | 2 LLP licenses assigned rockfish QS in the catcher/processor sector. These licenses can be held by one or more persons. |
| (iii) Is an association with an eligible rockfish processor required?                                                                                                                      | Yes. An eligible rockfish harvester may only be a member of a rockfish cooperative formed in association with an eligible rockfish processor to which the harvester made the plurality of legal rockfish landings assigned to the LLP license(s) during the applicable processor qualifying period chosen by an eligible rockfish processor in the application to participate in the Rockfish Program.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | No                                                                                                                      |
| (iv) What if an eligible rockfish harvester did not deliver any legal rockfish landings assigned to an LLP license to an eligible rockfish processor during a processor qualifying period? | That eligible rockfish harvester can assign that LLP license to any rockfish cooperative.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | N/A                                                                                                                     |
| (v) What is the processor qualifying period?                                                                                                                                               | The processor qualifying period is the four of five years from 1996 through 2000 that are used to establish the legal rockfish landings that are considered for purposes of establishing an association with an eligible rockfish processor. Each eligible rockfish processor will select a processor qualifying period in the application to participate in the Rockfish Program. An eligible rockfish harvester that has acquired the processing history of a shoreside processor or stationary floating processor under the provisions of § 679.80(c)(2)(ii) must select only one processor qualifying period that is applicable to the aggregated processing history held by that eligible rockfish processor. The processor qualifying period may not be changed once selected for that eligible rockfish processor, including upon transfer of processor eligibility. The same processor qualifying period will be used for all LLP licenses to determine the legal rockfish landings that are considered for purposes of eligible rockfish harvesters establishing an association with an eligible rockfish processor. | N/A                                                                                                                     |
| (vi) Is there a minimum amount of rockfish QS that must be assigned to a rockfish cooperative for it to be allowed to form?                                                                | Yes. A rockfish cooperative must be assigned rockfish QS that represents at least 75 percent of all the legal rockfish landings that yields Rockfish QS of primary rockfish species delivered to that eligible rockfish processor during the four years selected by that processor.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | No                                                                                                                      |
| (vii) What is allocated to the rockfish cooperative?                                                                                                                                       | CQ for primary rockfish species, secondary species, and rockfish halibut PSC, based on the rockfish QS assigned to all of the LLP licenses that are assigned to the cooperative.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |                                                                                                                         |
| (viii) Is this CQ an exclusive harvest privilege?                                                                                                                                          | Yes, the members of the rockfish cooperative have an exclusive harvest privilege to collectively catch this CQ, or a cooperative can transfer all or a portion of this CQ to another rockfish cooperative.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                                                                                                         |

## Fishery Conservation and Management

§ 679.81

| Requirement                                                                                                                                   | Catcher Vessel Sector                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Catcher/Processor Vessel Sector                                                                                                                                                                             |

| (ix) Is there a season during which designated vessels must catch CQ?                                                                         | Yes, any vessel designated to catch CQ for a rockfish cooperative is limited to catching CQ during the season beginning on 1200 hours, A.I.t. on May 1 through 1200 hours A.I.t. on November 15.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                                                                                                                                                                                                             |
| (x) Can any vessel catch a rockfish cooperative's CQ?                                                                                         | No, only vessels that are named on the application for CQ for that rockfish cooperative can catch the CQ assigned to that rockfish cooperative. A vessel may be assigned to only one rockfish cooperative in a calendar year.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                             |
| (xi) Can the member of a rockfish cooperative transfer CQ individually without the approval of the other members of the rockfish cooperative? | No, only the rockfish cooperative's designated representative, and not individual members, may transfer its CQ to another rockfish cooperative, but only if that transfer is approved by NMFS as established under paragraph (i) of this section.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                             |
| (xii) Can a rockfish cooperative in the catcher/processor sector transfer its sideboard limit?                                                | N/A                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | No, sideboard limits assigned to a rockfish cooperative in the catcher/processor sector is a limit applicable to a specific rockfish cooperative, and may not be transferred between rockfish cooperatives. |
| (xiii) Is there a hired master requirement?                                                                                                   | No, there is no hired master requirement.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | N/A                                                                                                                                                                                                         |
| (xiv) Can an LLP license be assigned to more than one rockfish cooperative in a calendar year?                                                | No. An LLP license can only be assigned to one rockfish cooperative in a calendar year. An eligible rockfish harvester holding multiple LLP licenses may assign different LLP licenses to different rockfish cooperatives subject to any other restrictions that may apply.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                                                                                                                                                                                                             |
| (xv) Can an eligible rockfish processor be associated with more than one rockfish cooperative?                                                | An eligible rockfish processor can only associate with one rockfish cooperative per year at each shoreside processor or stationary floating processor owned by that eligible rockfish processor. An eligible rockfish processor who holds more than one processing history based on a transfer of processing history under the provisions of § 679.80(c)(2)(ii) would be issued a single eligible rockfish processor permit that aggregates the processing history held by that eligible rockfish processor. That eligible rockfish processor may form an association with a rockfish cooperative with the eligible rockfish harvesters eligible to form a rockfish cooperative based on the aggregated processing history of that eligible rockfish processor and may receive rockfish delivered by that rockfish cooperative at a shoreside processor or stationary floating processor owned by that eligible rockfish processor subject to any other restrictions that may apply. | N/A                                                                                                                                                                                                         |
| (xvi) Can an LLP license be assigned to a rockfish cooperative and the rockfish limited access fishery or opt-out fishery?                    | No. Once an LLP license is assigned to a rockfish cooperative, any rockfish QS assigned to that LLP license yields CQ for that rockfish cooperative for the calendar year. An LLP license may only be assigned to one Rockfish Program fishery in a calendar year.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                             |
| (xvii) Which members may harvest the rockfish cooperative's CQ?                                                                               | That is determined by the rockfish cooperative contract signed by its members. Any violations of this contract by one cooperative member may be subject to civil claims by other members of the rockfish cooperative.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                                                                                                                                                                                             |
| (xviii) Does a rockfish cooperative need a contract?                                                                                          | Yes, a rockfish cooperative must have a membership agreement or contract that specifies how the rockfish cooperative intends to harvest its CQ. A copy of this agreement or contract must be submitted with the application for CQ.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                             |
| (xix) What happens if the rockfish cooperative exceeds its CQ amount?                                                                         | A rockfish cooperative is not authorized to catch fish in excess of its CQ. Exceeding a CQ is a violation of the regulations. Each member of the rockfish cooperative is jointly and severally liable for any violations of the Rockfish Program regulations while fishing under authority of a CQ permit. This liability extends to any persons who are hired to catch or receive CQ assigned to a rockfish cooperative. Each member of a rockfish cooperative is responsible for ensuring that all members of the rockfish cooperative comply with all regulations applicable to fishing under the Rockfish Program.                                                                                                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                             |

| Requirement                                                                                                                                                                     | Catcher Vessel Sector                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | Catcher/Processor Vessel Sector                                                                                                                                                                                                                               |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (xx) Is there a limit on how much CQ a rockfish cooperative may hold or use?                                                                                                    | Yes, generally, a rockfish cooperative may not hold or use more than 30 percent of the aggregate primary rockfish species CQ assigned to the catcher vessel sector for that calendar year. See § 679.82(a) for the provisions that apply.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | No, but a catcher/processor vessel is still subject to any vessel use caps that may apply. See § 679.82(a) for the use cap provisions that apply.                                                                                                             |
| (xxi) Is there a limit on how much CQ a vessel may harvest?                                                                                                                     | No. However, a vessel may not catch more CQ than the CQ assigned to that rockfish cooperative for which it is authorized to fish.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | Yes, generally, no vessel may harvest more than 60 percent of the aggregate primary rockfish species TAC assigned to the catcher/processor sector for that calendar year, unless exempt from this restriction. See § 679.82(a) for the provisions that apply. |
| (xxii) If my vessel is fishing in a directed flatfish fishery in the Central GOA and I catch groundfish and halibut PSC, does that count against the rockfish cooperative's CQ? | (A) Any vessel authorized to harvest the CQ assigned to a rockfish cooperative must count any catch of primary rockfish species, secondary species, or rockfish halibut PSC against that rockfish cooperative's CQ from May 1 until November 15, or until the effective date of a rockfish cooperative termination of fishing declaration that has been approved by NMFS.<br>(B) Groundfish harvests would not be debited against the rockfish cooperative's CQ if the vessel is not authorized to harvest CQ. In this case, any catch of halibut would be attributed to the halibut PSC limit for that directed target fishery and gear type.                                                                                  |                                                                                                                                                                                                                                                               |
| (xxiii) Can my rockfish cooperative negotiate prices for me?                                                                                                                    | The rockfish cooperatives formed under the Rockfish Program are intended to conduct and coordinate harvest activities for their members. Rockfish cooperatives formed under the Rockfish Program are subject to existing antitrust laws. Collective price negotiation by a rockfish cooperative must be conducted in accordance with existing antitrust laws.                                                                                                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                               |
| (xxiv) Are there any special reporting requirements?                                                                                                                            | Yes, each year a rockfish cooperative must submit an annual rockfish cooperative report to NMFS by December 15 of each year. The annual rockfish cooperative report may be made available to NMFS by mailing a copy to NMFS: Regional Administrator, P.O. Box 21668, Juneau, AK, 99802.                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                                               |
| (xxv) What is required in the annual rockfish cooperative report?                                                                                                               | <p>The annual rockfish cooperative report must include at a minimum:</p> <p>(A) The rockfish cooperative's CQ, sideboard limit (if applicable), and any rockfish sideboard fishery harvests made by the vessels in the rockfish cooperative on a vessel-by-vessel basis;</p> <p>(B) The rockfish cooperative's actual retained and discarded catch of CQ, and sideboard limit on an area-by-area and vessel-by-vessel basis;</p> <p>(C) A description of the method used by the rockfish cooperative to monitor fisheries in which rockfish cooperative vessels participated;</p> <p>(D) A description of any civil actions taken by the rockfish cooperative in response to any members that exceeded their allowed catch.</p> |                                                                                                                                                                                                                                                               |

(4) *Additional mandatory requirements*—(i) *Calculation of minimum legal rockfish landings for forming a rockfish cooperative.* If an eligible rockfish harvester holds an LLP license with rockfish QS for the catcher vessel sector that does not have any legal rockfish landings associated with an eligible rockfish processor from January 1, 1996, through December 31, 2000, during the fishery seasons established in Table 28 to this part, that eligible rockfish harvester may join any rockfish cooperative with that LLP license. Any such eligible rockfish harvester that joins a rockfish cooperative may not be considered as contributing an amount of Rockfish QS necessary to meet a minimum of 75 percent of the legal rockfish landings that yielded Rockfish QS delivered to that eligible rockfish

processor during the four calendar years selected by that eligible rockfish processor for the purposes of establishing the rockfish cooperative.

(ii) *Restrictions on fishing CQ assigned to a rockfish cooperative.* A person fishing CQ assigned to a rockfish cooperative must maintain a copy of the CQ permit onboard any vessel that is being used to harvest any primary rockfish species, or secondary species, or that uses any rockfish halibut PSC.

(iii) *Transfer of CQ between rockfish cooperatives.* Rockfish cooperatives may transfer CQ during a calendar year with the following restrictions:

(A) A rockfish cooperative may only transfer CQ to another rockfish cooperative;

(B) A rockfish cooperative may only receive CQ from another rockfish cooperative;

(C) A rockfish cooperative in the catcher vessel sector may not transfer any CQ to a rockfish cooperative in the catcher/processor sector;

(D) A rockfish cooperative receiving primary rockfish species CQ by transfer must assign that primary rockfish species CQ to a member(s) of the rockfish cooperative for the purposes of applying the use caps established under § 679.82(a). Secondary species or halibut PSC CQ is not assigned to a specific member of a rockfish cooperative;

(E) A rockfish cooperative may not transfer any sideboard limit assigned to it; and

(F) A rockfish cooperative may not receive any CQ by transfer after NMFS has approved a rockfish cooperative termination of fishing declaration that was submitted by that rockfish cooperative.

(5) *Use of CQ.* (i) A rockfish cooperative in the catcher vessel sector may not use a primary rockfish species CQ in excess of the amounts specified in § 679.82(a).

(ii) Rockfish cooperative primary rockfish species CQ transferred to another rockfish cooperative will apply to the use caps of a named member(s) of the rockfish cooperative receiving the CQ, as specified in the transfer application.

(A) Each pound of CQ must be assigned to a member of the rockfish cooperative receiving the CQ for purposes of use cap calculations. No member of a rockfish cooperative may exceed the CQ use cap applicable to that member.

(B) For purposes of CQ use cap calculation, the total amount of CQ held or used by a person is equal to all tons of CQ derived from the Rockfish QS held by that person and assigned to the rockfish cooperative and all tons of CQ assigned to that person by the rockfish cooperative from approved transfers.

(C) The amount of rockfish QS held by a person, and CQ derived from that rockfish QS is calculated using the individual and collective use cap rule established in § 679.82(a).

(6) *Successors-in-interest.* If a member of a rockfish cooperative dies (in the case of an individual) or dissolves (in

the case of a business entity), the LLP license(s) and associated rockfish QS held by that person will be transferred to the legal successor-in-interest under the procedures described at § 679.4(k)(6)(iv)(A). However, the CQ derived from that rockfish QS and assigned to the rockfish cooperative for that year from that person remains under the control of the rockfish cooperative for the duration of that calendar year. Each rockfish cooperative is free to establish its own internal procedures for admitting a successor-in-interest during the fishing season to reflect the transfer of an LLP license and associated rockfish QS, or the transfer of the processor eligibility due to the death or dissolution of a rockfish cooperative member or associated eligible rockfish processor.

#### **§ 679.82 Rockfish Program use caps and sideboard limits.**

(a) *Use caps*—(1) *General.* Use caps limit the amount of rockfish QS and CQ of primary rockfish species that may be held or used by an eligible rockfish harvester, and the amount of primary rockfish species TAC that may be received, by an eligible rockfish processor. Use caps do not apply to secondary species or halibut PSC CQ. Use caps may not be exceeded unless the entity subject to the use cap is specifically allowed to exceed a cap according to the criteria established under this paragraph (a) or by an operation of law. There are three types of use caps: person use caps; vessel use caps; and processor use caps. Person use caps limit the maximum amount of aggregate rockfish QS a person may hold and the maximum amount of aggregate primary rockfish species CQ that a person may hold or use. Person use caps apply to eligible rockfish harvesters and rockfish cooperatives. Vessel use caps limit the maximum amount of aggregate primary rockfish species CQ that a vessel operating as a catcher/processor may harvest. Processor use caps limit the maximum amount of aggregate primary rockfish species CQ that may be received or processed by an eligible rockfish processor. All rockfish QS use caps are based on the aggregate primary rockfish species initial rockfish QS pool established by NMFS.

(2) *Eligible rockfish harvester use cap.* An eligible rockfish harvester may not individually or collectively hold or use more than:

(i) Five (5.0) percent of the aggregate rockfish QS initially assigned to the catcher vessel sector and resulting CQ unless that eligible rockfish harvester qualifies for an exemption to this use cap under paragraph (a)(6) of this section;

(ii) Twenty (20.0) percent of the aggregate rockfish QS initially assigned to the catcher/processor sector and resulting CQ unless that eligible rockfish harvester qualifies for an exemption to this use cap under paragraph (a)(6) of this section.

(3) *CQ use cap for rockfish cooperatives in the catcher vessel sector.* A rockfish cooperative may not hold or use an amount of CQ that is greater than the amount derived from 30.0 percent of the aggregate rockfish QS initially assigned to the catcher vessel sector unless the sum of the aggregate rockfish QS held by the eligible members of that rockfish cooperative prior to June 6, 2005 exceeds this use cap.

(4) *CQ use cap for a vessel in the catcher/processor sector.* (i) A vessel harvesting CQ in the catcher/processor sector may not harvest an amount of CQ that is greater than the amount derived from 60.0 percent of the aggregate rockfish QS initially assigned to the catcher/processor sector; unless:

(ii) the CQ harvested by a vessel is not greater than the amount of CQ derived from the rockfish QS assigned to the LLP licence(s) that was used on that vessel prior to June 6, 2005; and

(iii) This amount is greater than the CQ use cap for a vessel in the catcher/processor sector.

(5) *Primary rockfish species use cap for eligible rockfish processors.* (i) An eligible rockfish processor may not receive or process in excess of 30.0 percent of the aggregate primary rockfish species TAC, including CQ, assigned to the catcher vessel sector unless that eligible rockfish processor is receiving or processing an amount of aggregate primary rockfish species TAC that is not greater than the sum of the aggregate rockfish CQ derived from the amount of Rockfish QS initially assigned to those eligible rockfish harvesters eligi-

ble to form a rockfish cooperative in association with that eligible rockfish processor.

(ii) The amount of aggregate primary rockfish species TAC that is received by an eligible rockfish processor is calculated based on the sum of all aggregate primary rockfish species TAC, including CQ, received or processed by that eligible rockfish processor and the aggregate primary rockfish species TAC received or processed by any person in which that eligible rockfish processor has a “Ten percent or greater direct or indirect ownership interest for purposes of the Rockfish Program” as that term is defined in §679.2.

(6) *Use cap exemptions—*(i) *Rockfish QS.* An eligible rockfish harvester may receive an initial allocation of aggregate rockfish QS in excess of the use cap in that sector only if that rockfish QS is assigned to LLP license(s) held by that eligible rockfish harvester prior to June 6, 2005, and at the time of application to participate in the Rockfish Program.

(ii) *Transfer limitations.* (A) An eligible rockfish harvester that receives an initial allocation of aggregate rockfish QS that exceeds the use cap listed in paragraph (a)(2) of this section shall not receive any rockfish QS by transfer unless and until that person’s holdings of aggregate rockfish QS in that sector are reduced to an amount below the use cap specified in paragraph (a)(2) of this section.

(B) If an eligible rockfish harvester receives an initial allocation of aggregate rockfish QS that exceeds the use cap listed in paragraph (a)(2) of this section, and that eligible rockfish harvester transfers rockfish QS to another person, and the amount of aggregate rockfish QS held by that eligible rockfish harvester after the transfer is greater than the use cap established in paragraph (a)(2) of this section, that eligible rockfish harvester may not hold more than the amount of aggregate rockfish QS remaining after the transfer.

(C) An eligible rockfish harvester that receives an initial allocation of aggregate rockfish QS that exceeds the use cap listed in paragraph (a)(2) of this section may not receive any rockfish

QS by transfer or have any CQ attributed to that eligible rockfish harvester by a rockfish cooperative unless and until that person's holdings of aggregate rockfish QS in that sector are reduced to an amount below the use cap specified in paragraph (a)(2) of this section.

(iii) *CQ*. A rockfish cooperative may use CQ in excess of the use cap in that sector only if that CQ is derived from the rockfish QS assigned to an LLP license that was held by an eligible rockfish harvester prior to June 6, 2005 and that eligible rockfish harvester is eligible to join that cooperative.

(b) *Rockfish limited access fishery*—(1) *General*. (i) An eligible rockfish harvester may use an LLP license and assigned rockfish QS in the appropriate rockfish limited access fishery only if:

(A) That person submitted a complete and timely application for the rockfish limited access fishery that is approved by NMFS; or

(B) That LLP is not assigned to a rockfish cooperative for that calendar year, and that person has not submitted a complete and timely application to opt-out of the Rockfish Program that is approved by NMFS.

(ii) [Reserved]

(2) *Limited access fishery sectors*. (i) If an LLP license with rockfish QS in the catcher vessel sector is assigned to a limited access fishery, it is assigned to the catcher vessel rockfish limited access fishery.

(ii) If an LLP license with a rockfish QS in the catcher/processor sector is assigned a limited access fishery, it is assigned to the catcher/processor rockfish limited access fishery.

(3) *Primary rockfish species harvest limit*. All vessels that are participating in a rockfish limited access fishery may harvest an amount of primary rockfish species not greater than the TAC assigned to that primary rockfish species for the rockfish limited access fishery in that sector.

(4) *Secondary species allocations*. Secondary species shall be managed based on an MRA as established under Table 30 to this part.

(5) *Rockfish halibut PSC allocations*. Halibut caught by vessels in the rockfish limited access fishery shall be accounted against the halibut PSC allo-

cation to the deep water species fishery complex for trawl gear for that seasonal apportionment. If the halibut PSC limit in the deep water fishery complex has been reached or exceeded for that seasonal apportionment, the rockfish limited access fishery will be closed until deep water species fishery complex halibut PSC is available for that sector.

(6) *Opening of the rockfish limited access fishery*. The Regional Administrator maintains the authority to not open a rockfish limited access fishery if he deems it appropriate for conservation or other management measures. Factors such as the total allocation, anticipated harvest rates, and number of participants will be considered in making any such decision.

(c) *Opt-out fishery*. An eligible rockfish harvester who holds an LLP license and who submits an application to opt-out with that LLP license that is subsequently approved by NMFS may not fish for that fishing year in any directed fishery for any primary rockfish species in the Central GOA and adjacent waters open by the State of Alaska for which it adopts the applicable Federal fishing season for that species with any vessel named on that LLP license.

(d) *Sideboard limitations—General*. The regulations in this section restrict the holders of LLP licenses eligible to receive rockfish QS from using the increased flexibility provided by the Rockfish Program to expand their level of participation in other groundfish fisheries. These limitations are commonly known as “sideboards.”

(1) *Notification of affected vessel owners and LLP license holders*. After NMFS determines which vessels and LLP licenses meet the criteria described in paragraphs (d) through (h) of this section, NMFS will inform each vessel owner and LLP license holder in writing of the type of sideboard limitation and issue a revised Federal Fisheries Permit and/or LLP license that displays the limitation on the face of the permit or LLP license.

(2) *Appeals*. A vessel owner or LLP license holder who believes that NMFS has incorrectly identified his or her vessel or LLP license as meeting the criteria for a sideboard limitation may

make a contrary claim and provide evidence to NMFS. All claims must be submitted in writing to the RAM Program, Alaska Region, NMFS, P.O. Box 21668, Juneau, AK 99802–1668, together with any documentation or evidence supporting the request within 30 days of being notified by NMFS of the sideboard limitation. If NMFS finds the claim is unsupported, the claim will be denied in an Initial Administrative Determination (IAD). The affected persons may appeal this IAD using the procedures described at § 679.43.

(3) *Classes of sideboard restrictions.* There are several types of sideboard restrictions that apply under the Rockfish Program:

- (i) General sideboard restrictions as described under this paragraph (d);
- (ii) Catcher vessel sideboard restrictions as described under paragraph (e) of this section;
- (iii) Catcher/processor rockfish cooperative sideboard restrictions as described under paragraph (f) of this section;
- (iv) Catcher/processor limited access sideboard restrictions as described under paragraph (g) of this section; and
- (v) Catcher/processor opt-out sideboard restrictions as described under paragraph (h) of this section.

(4) *General sideboard restrictions.* General sideboard restrictions apply to fishing activities during July 1 through July 31 of each year in each fishery as follows:

- (i) Directed fishing for Pacific ocean perch, pelagic shelf rockfish, and northern rockfish in the regulatory area of the Western GOA and adjacent waters open by the State of Alaska for which it adopts a Federal fishing season;
- (ii) Directed fishing for Pacific ocean perch, pelagic shelf rockfish, and northern rockfish in the Western Yakutat District and adjacent waters open by the State of Alaska for which it adopts a Federal fishing season;
- (iii) Directed fishing for the following species in the West Yakutat District, Central GOA, and Western GOA and adjacent waters open by the State of Alaska for which it adopts the applicable Federal fishing season for that species based on the use of halibut PSC:

- (A) Rex sole;
- (B) Deep water flatfish;
- (C) Arrowtooth flounder;
- (D) Shallow water flatfish;
- (E) Flathead sole; and

(iv) Directed fishing by a vessel in the catcher vessel sector for Pacific cod in the BSAI and adjacent waters open by the State of Alaska for which it adopts a Federal fishing season.

(5) *Vessels and LLP licenses subject to general and halibut PSC sideboard limitations.* (i) The sideboard fishing limitations described in paragraph (d) of this section apply both to the fishing vessel itself and to any LLP license derived in whole or in part from the history of that vessel. The sideboard limitations apply to any vessel named on that LLP license. These sideboard restrictions apply even if an LLP license holder did not submit an application to participate in the Rockfish Program but that LLP license is otherwise eligible to receive rockfish QS under the Rockfish Program based on legal rockfish landings.

(ii) Except as described in paragraph (d)(5)(iii) of this section, the owner of any vessel that NMFS has determined meets one of the following criteria is subject to groundfish directed fishing sideboard limits and halibut PSC sideboard limits issued under this paragraph (d):

(A) Any vessel whose legal rockfish landings could generate rockfish QS;

(B) Any LLP license under whose authority legal rockfish landings were made;

(C) Any vessel named on an LLP license that was generated in whole or in part by the legal rockfish landings of a vessel meeting the criteria in paragraph (d)(5)(ii)(B) of this section.

(iii) Any AFA vessel that is not exempt from GOA groundfish sideboards under the AFA as specified under § 679.64(b)(2)(ii) is exempt from the sideboard limits in this paragraph (d).

(6) *Determination of general sideboard ratios.* (i) Separate sideboard ratios for each rockfish sideboard fishery are established for the catcher vessel and the catcher/processor sectors. The general sideboard ratio for each fishery is determined according to the following table:

## Fishery Conservation and Management

§ 679.82

| For the Management Area of the... | In the directed fishery for... | The Sideboard Limit for the Catcher/Processor Sector is... | The Sideboard Limit for the Catcher Vessel Sector is...                                                    |
|-----------------------------------|--------------------------------|------------------------------------------------------------|------------------------------------------------------------------------------------------------------------|
| West Yakutat District             | Pelagic Shelf Rockfish         | 72.4 percent of the TAC                                    | 1.7 percent of the TAC                                                                                     |
|                                   | Pacific ocean perch            | 76.0 percent of the TAC                                    | 2.9 percent of the TAC                                                                                     |
| Western GOA                       | Pelagic Shelf Rockfish         | 63.3 percent of the TAC                                    | 0.0 percent of the TAC                                                                                     |
|                                   | Pacific ocean perch            | 61.1 percent of the TAC                                    | (Not released due to confidentiality requirements on fish ticket data established by the State of Alaska). |
|                                   | Northern Rockfish              | 78.9 percent of the TAC                                    | 0.0 percent of the TAC                                                                                     |
| BSAI                              | Pacific cod                    | N/A                                                        | 0.0 percent of the TAC                                                                                     |

(ii) Each rockfish cooperative in the catcher/processor sector will be assigned a sideboard limit for that rockfish cooperative as a percentage of the general sideboard ratio for that fishery.

(iii) The sideboard ratios that are applicable for each general sideboarded fishery for a rockfish cooperative in the catcher/processor sector are calculated by dividing the aggregate retained catch of that fishery, from July 1 through July 31 in each year from 1996 through 2002, caught by LLP licenses assigned to that rockfish cooperative that are subject to directed fishing closures under this paragraph (d), by the total retained catch from July 1 through July 31 in each year from 1996 through 2002 caught by all groundfish vessels in that sector.

(7) *Management of annual sideboard limits*—(i) *Sideboard directed fishing allowance*. (A) If the Regional Administrator determines that an annual sideboard limit for a general rockfish sideboard fishery has been or will be reached, the Regional Administrator may establish a directed fishing allowance for the species or species group applicable only to the group of vessels to which the general sideboard limit applies. A directed fishing allowance that is established for a rockfish cooperative in the catcher/processor sector may be fished only by that rockfish cooperative to which it is assigned.

(B) If the Regional Administrator determines that a sideboard limit is insufficient to support a directed fishing allowance for that species or species group, then the Regional Administrator may set the directed fishing allowance to zero for that species or spe-

cies group for that sector or rockfish cooperative, as applicable.

(ii) *Directed fishing closures*. Upon attainment of a general directed fishing sideboard limit, the Regional Administrator will publish notification in the FEDERAL REGISTER prohibiting directed fishing for the species or species group in the specified sector, regulatory area, or district.

(8) *Determination of halibut PSC sideboard ratios*. (i) Sideboards for halibut PSC are established for the catcher vessel and the catcher/processor sectors separately. Sideboard limits for halibut PSC are calculated for each rockfish cooperative in the catcher/processor sector separately. The halibut PSC sideboard limit for each sector is established according to the following table:

| For the following Sector... | the annual Deep-water complex halibut PSC Sideboard Limit in the GOA is... | the annual Shallow-water complex halibut PSC Sideboard Limit in the GOA is... |
|-----------------------------|----------------------------------------------------------------------------|-------------------------------------------------------------------------------|
| Catcher/Processor Sector    | 3.99 percent of the GOA annual halibut mortality limit                     | 0.54 percent of the GOA annual halibut mortality limit                        |
| Catcher Vessel Sector       | 1.08 percent of the GOA annual halibut mortality limit                     | 6.32 percent of the GOA annual halibut mortality limit                        |

(ii) Each rockfish cooperative in the catcher/processor sector will be assigned a percentage of each halibut PSC sideboard limit established under paragraph (d)(8) of this section based on the following calculation:

(A) The aggregate halibut PSC used in the deep-water complex from July 1 through July 31 in each year from 1996

through 2002 by LLP licenses assigned to that rockfish cooperative that are subject to directed fishing closures under this paragraph (d), except primary rockfish fisheries in the Central GOA, divided by 3.99 percent of the GOA annual halibut mortality limit; and

(B) The aggregate halibut PSC used in the shallow-water complex from July 1 through July 31 in each year from 1996 through 2002 by LLP licenses assigned to that rockfish cooperative that are subject to directed fishing closures under this paragraph (d), divided by 0.54 percent of the GOA annual halibut mortality limit.

(C) Catcher/processor sector participants that are not in a rockfish cooperative will receive the aggregate portion of the deep water halibut PSC sideboard limit and shallow-water halibut PSC sideboard limit not assigned to rockfish cooperatives.

(9) *Management of halibut PSC sideboard limits*—(i) *Halibut PSC sideboard limits*. The resulting halibut PSC sideboard limits established under this paragraph (d) will be published in the annual GOA groundfish harvest specification notice and expressed in metric tons.

(A) If the Regional Administrator determines that a halibut PSC sideboard limit is sufficient to support a directed fishery for groundfish specified under paragraph (d)(4)(iii) of this section for a particular sector, then the Regional Administrator may establish a halibut PSC sideboard limit for the species complex applicable only to the group of vessels in that sector to which the halibut PSC sideboard limit applies. A halibut PSC sideboard limit that is established for a rockfish cooperative in the catcher/processor sector may be fished only by that rockfish cooperative in the catcher/processor sector to which it is assigned.

(B) If the Regional Administrator determines that a halibut PSC sideboard limit is insufficient to support a directed fishery for a groundfish fishery specified under paragraph (d)(4)(iii) of this section for a particular sector then the Regional Administrator may close directed fishing by that sector or rockfish cooperative in the catcher/processor sector.

(ii) *Directed fishing closures*. Upon determining that a halibut PSC sideboard limit is or will be reached, the Regional Administrator will publish notification in the FEDERAL REGISTER prohibiting directed fishing for the species or species complex in the specified sector, rockfish cooperative in the catcher/processor sector, regulatory area, or district. The following specific directed fishing closures will be implemented if a halibut PSC sideboard limit is reached:

(A) If the shallow-water halibut PSC sideboard limit for a sector or rockfish cooperative in the catcher/processor sector is reached, then NMFS will close directed fishing in that management area for:

- (1) Flathead sole; and
- (2) Shallow water flatfish.

(B) If the deep-water halibut PSC sideboard limit is reached for a sector or rockfish cooperative in the catcher/processor sector, then NMFS will close directed fishing in that management area for:

- (1) Rex sole;
- (2) Deep water flatfish; and
- (3) Arrowtooth flounder.

(iii) *Halibut PSC accounting*. Any halibut mortality occurring under a CQ permit or in a rockfish limited access fishery will not apply against the halibut PSC sideboard limits established paragraph (d)(8) of this section.

(e) *Sideboard provisions for catcher vessels*—(1) *General*. In addition to the sideboard provisions that apply under paragraph (d) of this section, except as described in paragraph (d)(5)(iii) of this section, the following additional sideboards apply to catcher vessels.

(2) *Catcher vessels subject to catcher vessel sideboard limits*. Any catcher vessel that NMFS has determined meets any of the following criteria is subject to the provisions under this paragraph (e):

(i) Any catcher vessel whose legal rockfish landings could be used to generate rockfish QS for the catcher vessel sector in the Rockfish Program;

(ii) Any catcher vessel named on an LLP license under which catch history could be used to qualify that LLP license for eligibility in the Rockfish Program; or

(iii) Any catcher vessel named on an LLP license that was generated in whole or in part by the legal rockfish landings of a catcher vessel.

(3) *Prohibition for directed fishing in BSAI groundfish fisheries during July.* Vessels subject to the provisions of this paragraph (e) may not participate in directed fishing in the BSAI and adjacent waters open by the State of Alaska for which it adopts the applicable Federal fishing season for that species from July 1 through July 31 in any of the following directed fisheries:

- (i) Alaska plaice;
- (ii) Arrowtooth flounder;
- (iii) Flathead sole;
- (iv) Other flatfish;
- (v) Pacific ocean perch;
- (vi) Rock sole; and
- (vii) Yellowfin sole.

(f) *Sideboard provision—catcher/processor rockfish cooperative provisions—(1) General.* In addition to the sideboard provisions that apply under paragraph (d) of this section, the following additional sideboard limits under this paragraph (f) apply to catcher/processor vessels and LLP licenses that are assigned to a rockfish cooperative in the catcher/processor sector during a calendar year.

(2) *Vessels subject to rockfish cooperative sideboard provisions.* Any vessel that NMFS has determined meets any of the following criteria is subject to groundfish sideboard directed fishing closures issued under this paragraph (f):

(i) Any catcher/processor vessel whose legal rockfish landings has been used to qualify for the Rockfish Program and the vessel named on that LLP license is assigned to a rockfish cooperative;

(ii) Any catcher/processor vessel named on an LLP license under which catch history has been used to qualify that LLP license for the Rockfish Program and that LLP license is used in a rockfish cooperative; or

(iii) Any catcher/processor vessel that has been designated in an application for CQ.

(3) *Prohibition from fishing in BSAI groundfish fisheries.* A vessel subject to a rockfish cooperative sideboard provision under this paragraph (f) may not participate in directed groundfish fish-

eries in the BSAI and adjacent waters open by the State of Alaska for which it adopts the applicable Federal fishing season for that species between July 1 and July 14 except for sablefish harvested under the IFQ Program and pollock.

(4) *Prohibitions for fishing in GOA groundfish fisheries.* A vessel subject to a rockfish cooperative sideboard provision under this paragraph (f) may not participate in any directed groundfish fishery the GOA and adjacent waters open by the State of Alaska for which it adopts the applicable Federal fishing season for that species except sablefish harvested under the IFQ Program and groundfish harvested under a CQ permit in the GOA, until the earlier of:

- (i) From July 1 through July 14 if:

(A) Any vessel in the rockfish cooperative does not meet monitoring standards established under paragraph (f)(4)(iii) of this section; and

(B) The rockfish cooperative has harvested any CQ prior to July 1; or

(ii) From July 1 until 90 percent of the rockfish cooperative's primary rockfish species CQ has been harvested if:

(A) Any vessel in the rockfish cooperative does not meet monitoring standards established under paragraph (f)(4)(iii) of this section; and

(B) The rockfish cooperative has not harvested any CQ prior to July 1.

(iii) The prohibition on fishing in any directed groundfish fishery in the GOA and adjacent waters open by the State of Alaska for which it adopts the applicable Federal fishing season for that species, except sablefish harvested under the IFQ Program, does not apply if all vessels in the rockfish cooperative maintain an adequate monitoring plan during all fishing for any CQ or any directed sideboard fishery as required under § 679.84(c) through (e).

(g) *Sideboard provisions—catcher/processor limited access provisions—(1) General.* In addition to the sideboard provisions that apply under paragraph (d) of this section, the following sideboard limits under this paragraph (g) apply to any catcher/processor vessels and LLP licenses that are used in the rockfish limited access fishery for the catcher/processor sector.

(2) *Vessels subject to rockfish limited access fishery sideboard provisions.* Any vessel that NMFS has determined meets any of the following criteria is subject to groundfish sideboard directed fishing closures issued under this paragraph (g):

(i) Any catcher/processor vessel named on an LLP license whose legal rockfish landings were used to qualify for the Rockfish Program and the vessel named on that LLP license is assigned to a catcher/processor rockfish limited access fishery;

(ii) Any catcher/processor vessel named on an LLP license under which catch history was used to qualify that LLP license for the Rockfish Program and that LLP license is used in the catcher/processor rockfish limited access fishery;

(iii) Any catcher/processor vessel designated in an application for the rockfish limited access fishery for the catcher/processor sector; or

(iv) Any vessel named on an LLP license with legal rockfish landings in the catcher/processor sector if that LLP license is not specified in an application for CQ or an application to opt-out.

(3) *Prohibition from directed fishing in GOA and BSAI groundfish fisheries.* If a vessel named on an LLP license used in the rockfish limited access fishery has been assigned rockfish QS greater than an amount equal to 5 percent of the Pacific ocean perch rockfish QS allocated to the catcher/processor sector, then that vessel may not participate in any:

(i) GOA groundfish fishery and adjacent waters open by the State of Alaska for which it adopts the applicable Federal fishing season for that species other than the rockfish limited access fishery and sablefish harvested under the IFQ Program; or

(ii) BSAI groundfish fishery and adjacent waters open by the State of Alaska for which it adopts the applicable Federal fishing season for that species other than sablefish harvested under the IFQ Program or pollock, from July 1 until 90 percent of the Central GOA Pacific ocean perch that is allocated to the rockfish limited access fishery for the catcher/processor sector has been harvested.

(h) *Sideboard provisions—catcher/processor opt-out provisions—(1) General.* In addition to the sideboard provisions that apply under paragraph (d) of this section, the following sideboards under this paragraph (h) apply to any catcher/processor vessels and LLP license designated in an application to opt-out that is subsequently approved by NMFS.

(2) *Vessels subject to opt-out sideboard provisions.* (i) Any catcher/processor vessel whose legal rockfish landings were used to qualify for the Rockfish Program and for which the vessel named on that LLP license is assigned to the opt-out fishery;

(ii) Any catcher/processor vessel named on an LLP license under which catch history was used to qualify that LLP license for the Rockfish Program and that LLP license is used in the opt-out fishery; or

(iii) Any catcher/processor vessel designated in an application to opt-out.

(3) *Prohibitions on Central GOA rockfish directed harvest by opt-out vessels.* Any vessel that is subject to the opt-out sideboard restriction under this paragraph (h) is prohibited from directed fishing for the following species in the following management areas:

(i) Central GOA northern rockfish and adjacent waters open by the State of Alaska for which it adopts a Federal fishing season;

(ii) Central GOA Pacific ocean perch and adjacent waters open by the State of Alaska for which it adopts a Federal fishing season; and

(iii) Central GOA pelagic shelf rockfish and adjacent waters open by the State of Alaska for which it adopts a Federal fishing season.

(4) *Prohibitions on directed fishing in GOA groundfish fisheries without previous participation.* (i) Any vessel that is subject to the opt-out sideboard restriction under paragraph (c) of this section is prohibited from directed fishing in any groundfish fishery in the GOA and adjacent waters open by the State of Alaska for which it adopts the applicable Federal fishing season for that species (except sablefish harvested under the IFQ Program) from July 1 through July 14 of each year if that vessel has not participated in that directed groundfish fishery in any two

## Fishery Conservation and Management

§ 679.84

years from 1996 through 2002 during the following time periods:

- (A) June 30, 1996 through July 6, 1996;
  - (B) June 29, 1997 through July 5, 1997;
  - (C) June 28, 1998 through July 4, 1998;
  - (D) July 4, 1999 through July 10, 1999;
  - (E) July 8, 2000 through July 15, 2000;
  - (F) July 1, 2001 through July 7, 2001;
- and

- (G) June 30, 2002 through July 6, 2002.
- (ii) For purposes of this paragraph (h), participation in a fishery in Statistical Area 650 during a time period specified in paragraph (h)(4)(i) of this section shall be considered as participation in that same fishery in Statistical Area 640 during that time period.

[71 FR 67252, Nov. 20, 2006, as amended at 72 FR 37681, July 11, 2007]

### § 679.83 Rockfish Program entry level fishery.

(a) *Rockfish entry level fishery*—(1) *General*. A rockfish entry level harvester and rockfish entry level processor may participate in the rockfish entry level fishery as follows:

(i) *Trawl catcher vessels*. Trawl catcher vessels participating in the rockfish entry level fishery may collectively harvest, prior to September 1, an amount not greater than 50 percent of the total allocation to the rockfish entry level fishery as calculated under § 679.81(a)(2). Allocations to trawl catcher vessels shall be made first from the allocation of Pacific ocean perch available to the rockfish entry level fishery. If the amount of Pacific ocean perch available for allocation is less than the total allocation allowable for trawl catcher vessels in the rockfish entry level fishery, then northern rockfish and pelagic shelf rockfish shall be allocated to trawl catcher vessels.

(ii) *Longline gear vessels*. Longline gear vessels participating in the rockfish entry level fishery may collectively harvest, prior to September 1, an amount not greater than 50 percent of the total allocation to the rockfish entry level fishery as calculated under § 679.81(a)(2). Allocations of Pacific ocean perch, northern rockfish, and pelagic shelf rockfish to longline gear vessels shall be made after the allocation to trawl catcher vessels.

(iii) *Secondary species allocations*. Secondary species shall not be allocated to

the rockfish entry level fishery. Secondary species shall be managed based on a MRA for the target species as described in Table 10 to this part.

(iv) *Halibut PSC allocations—trawl vessels*. Halibut PSC from trawl vessels in the rockfish entry level fishery shall be accounted against the allocation to the deep water species fishery complex for that seasonal apportionment. If the Halibut PSC allocation in the deep water fishery complex has been achieved or exceeded for that seasonal apportionment, the rockfish entry level fishery for trawl vessels will be closed until deep water species fishery complex halibut PSC is available.

(v) *Halibut PSC allocations—longline gear vessels*. Halibut PSC from longline gear vessels in the rockfish entry level fishery shall be accounted against the allocation to the other non-trawl fishery category for that seasonal apportionment. If the Halibut PSC allocation in the other non-trawl fishery category has been reached or exceeded for that seasonal apportionment, the rockfish entry level fishery for longline gear vessels will be closed until deep water species fishery complex halibut PSC is available.

(2) *Reallocation among trawl and longline gear vessels*. Any allocation of Pacific ocean perch, northern rockfish, or pelagic shelf rockfish that has not been harvested by 1200 hours, A.l.t. on September 1, may be harvested by either trawl or longline gear vessels in the rockfish entry level fishery.

(3) *Opening of the rockfish entry level fishery*. The Regional Administrator maintains the authority to not open the rockfish entry level fishery if he deems it appropriate for conservation or other management measures. Factors such as the total allocation, anticipated harvest rates, and number of participants will be considered in making any such decision.

(b) [Reserved]

[71 FR 67252, Nov. 20, 2006, as amended at 72 FR 37681, July 11, 2007]

### § 679.84 Rockfish Program record-keeping, permits, monitoring, and catch accounting.

(a) *Recordkeeping and reporting*. See § 679.5(r).

(b) *Permits*. See § 679.4(m).

(c) *Catch monitoring requirements for catcher/processors assigned to a rockfish cooperative or rockfish limited access fishery.* The requirements under paragraphs (c)(1) through (9) of this section apply to any catcher/processor vessel participating in a rockfish cooperative or the rockfish limited access fishery, and that is subject to a sideboard limit as described in this section. At all times when a vessel has groundfish onboard that were harvested under a CQ permit that were harvested during a rockfish limited access fishery, or that were harvested by a vessel subject to a sideboard limit as described under § 679.82(d) through (g), as applicable, the vessel owner or operator must ensure that:

(1) *Catch weighing.* All groundfish are weighed on a NMFS-approved scale in compliance with the scale requirements at § 679.28(b). Each haul must be weighed separately and all catch must be made available for sampling by a NMFS-certified observer.

(2) *Observer sampling station.* An observer sampling station meeting the requirements at § 679.28(d) is available at all times.

(3) *Observer coverage requirements.* The vessel is in compliance with the observer coverage requirements described at § 679.50(c)(7)(i).

(4) *Operational line.* The vessel has no more than one operational line or other conveyance for the mechanized movement of catch between the scale used to weigh total catch and the location where the observer collects species composition samples.

(5) *Fish on deck.* No fish are allowed to remain on deck unless an observer is present, except for fish inside the codend and fish accidentally spilled from the codend during hauling and dumping. Fish accidentally spilled from the codend must be moved to the fish bin.

(6) *Sample storage.* The vessel owner or operator provides sufficient space to accommodate a minimum of 10 observer sampling baskets. This space must be within or adjacent to the observer sample station.

(7) *Pre-cruise meeting.* The Observer Program Office is notified by phone at 1-907-271-1702 at least 24 hours prior to departure when the vessel will be car-

rying an observer who had not previously been deployed on that vessel within the last 12 months. Subsequent to the vessel's departure notification, but prior to departure, NMFS may contact the vessel to arrange for a pre-cruise meeting. The pre-cruise meeting must minimally include the vessel operator or manager, and any observers assigned to the vessel.

(8) *Belt and flow operations.* The vessel operator stops the flow of fish and clear all belts between the bin doors and the area where the observer collects samples of unsorted catch when requested to do so by the observer.

(9) *Vessel crew in tanks or bins.* The vessel owner or operator must comply with the bin monitoring standards specified in § 679.28(i).

(d) *Catch monitoring requirements for catcher/processors assigned to the opt-out fishery.* At all times any catcher/processor vessel assigned to the opt-out fishery has groundfish onboard that vessel that were harvested subject to a sideboard limit as described under § 679.82(d) through (h), as applicable, the vessel owner or operator must ensure catch from an individual haul is not mixed with catch from another haul prior to sampling by a NMFS-certified observer, that all catch be made available for sampling by a NMFS-certified observer, and that the requirements in paragraphs (c)(3), (4), (5), (8), and (9) of this section are met.

(e) *Catch monitoring requirements for catcher vessels.* The owner or operator of a catcher vessel must ensure the vessel complies with the observer coverage requirements described at § 679.50(c)(7)(ii) at all times the vessel is participating in a rockfish cooperative, rockfish limited access fishery, or rockfish sideboard fishery described in this section.

(f) *Catch monitoring requirements for shoreside and stationary floating processors—(1) Catch monitoring and control plan (CMCP).* The owner or operator of a shoreside or stationary floating processor receiving deliveries from a catcher vessel described at § 679.50(c)(7)(ii) must ensure the shoreside or stationary floating processor complies with the CMCP requirements described at § 679.28(g).

## Fishery Conservation and Management

## § 679.90

(2) *Catch weighing.* All groundfish landed by catcher vessels described at § 679.50(c)(7)(ii) must be sorted, weighed on a scale approved by the State of Alaska as described at § 679.28(c), and be made available for sampling by a NMFS-certified observer. The observer must be allowed to test any scale used to weigh groundfish to determine its accuracy.

(3) *Notification requirements.* The plant manager or plant liaison must notify the observer of the offloading schedule for each delivery of groundfish harvested in a Rockfish Program fishery at least 1 hour prior to offloading. An observer must be available to monitor each delivery of groundfish harvested in a Rockfish Program fishery. The observer must be available the entire time the delivery is being weighed or sorted.

(g) *Catch accounting—(1) Primary rockfish species and secondary species.* All primary rockfish species and secondary species harvested by a vessel, including harvests in adjacent waters open by the State of Alaska for which it adopts a Federal fishing season, that is named on an LLP license that is assigned to a rockfish cooperative and fishing under a CQ permit will be debited against the CQ for that rockfish cooperative from May 1:

(i) Until November 15; or

(ii) Until that rockfish cooperative has submitted a rockfish cooperative termination of fishing declaration that has been approved by NMFS.

(2) *Rockfish halibut PSC.* All rockfish halibut PSC used by a vessel, including halibut PSC used in the adjacent waters open by the State of Alaska for which it adopts a Federal fishing season, that is named on an LLP license that is assigned to a rockfish cooperative and fishing under a CQ permit will be debited against the CQ for that rockfish cooperative from May 1:

(i) Until November 15; or

(ii) Until the designated representative of that rockfish cooperative has submitted a rockfish cooperative termination of fishing declaration that has been approved by NMFS.

(3) *Groundfish sideboard limits.* All groundfish harvested by a vessel, except groundfish harvested by a vessel fishing under a CQ permit in the Cen-

tral GOA including groundfish harvested in the adjacent waters open by the State of Alaska for which it adopts a Federal fishing season, that is subject to a sideboard limit for that groundfish species as described under § 679.82(d) through (h), as applicable, from July 1 until July 31 will be debited against the sideboard limit established for that sector or rockfish cooperative, as applicable.

(4) *Halibut sideboard limits.* All halibut PSC used by a vessel, except halibut PSC used by a vessel fishing under a CQ permit, or in a rockfish limited access fishery including halibut PSC used in the adjacent waters open by the State of Alaska for which it adopts a Federal fishing season, that is subject to a sideboard limit as described under § 679.82(d) through (h), as applicable, from July 1 until July 31 will be debited against the sideboard limit established for that sector or rockfish cooperative, as applicable.

[71 FR 67252, Nov. 20, 2006, as amended at 72 FR 37681, July 11, 2007; 72 FR 52726, Sept. 14, 2007]

### Subpart H—Amendment 80 Program

SOURCE: 72 FR 52726, Sept. 14, 2007, unless otherwise noted.

#### § 679.90 Allocation, use, and transfer of Amendment 80 QS permits.

Regulations under this subpart were developed by NMFS to implement the Amendment 80 Program. Additional regulations that implement specific portions of the Amendment 80 Program are set out at § 679.2 Definitions, § 679.4 Permits, § 679.5 Recordkeeping and reporting (R&R), § 679.7 Prohibitions, § 679.20 General limitations, § 679.21 Prohibited species bycatch management, § 679.27 Improved Retention/Improved Utilization Program, § 679.28 Equipment and operational requirements, § 679.31 CDQ and PSQ reserves, § 679.50 Groundfish Observer Program applicable through December 31, 2007, and § 679.64 Harvesting sideboard limits in other fisheries.

(a) *Issuance of Amendment 80 QS permits—(1) General.* NMFS will issue an Amendment 80 QS permit to a person who is eligible to receive Amendment

80 QS units as described in paragraph (a)(2) of this section and based on:

(i) The information contained in an approved application for Amendment 80 QS as described in paragraph (b) of this section;

(ii) The information contained in the Amendment 80 official record as described in paragraph (c) of this section;

(iii) The Amendment 80 QS permit allocation procedures as described in paragraph (d) of this section; and

(iv) In consideration of any use caps as described in § 679.92(a).

(2) *Eligibility to receive an Amendment 80 QS permit*—(i) *Owner of an Amendment 80 vessel*. A person may receive an Amendment 80 QS permit based on the legal landings of an Amendment 80 vessel if:

(A) That person owns that Amendment 80 vessel at the time of application for Amendment 80 QS as demonstrated on an abstract of title or USCG documentation;

(B) That person holds an Amendment 80 LLP license at the time of application for Amendment 80 QS;

(C) That person is a U.S. citizen;

(D) That person submits a timely application for Amendment 80 QS that is approved by NMFS as described in paragraph (b) of this section; and

(E) A person is not eligible to receive an Amendment 80 QS permit based on the legal landings of that Amendment 80 vessel under the provisions of paragraph (a)(2)(ii) of this section.

(ii) *Holder of an Amendment 80 LLP license*. A person may receive an Amendment 80 QS permit based on the legal landings of an Amendment 80 vessel if:

(A) At the time of application for Amendment 80 QS that person holds the LLP license originally assigned to that Amendment 80 vessel and that Amendment 80 vessel has suffered an actual total loss, constructive total loss, or is permanently ineligible to receive a fishery endorsement under 46 U.S.C. 12108;

(B) The actual total loss, constructive total loss, or permanent ineligibility of that Amendment 80 vessel to receive a fishery endorsement under 46 U.S.C. 12108 has been clearly and unambiguously established and documented in written form in the application for

Amendment 80 QS and that documentation is accepted by NMFS;

(C) The express terms of a written contract clearly and unambiguously provide that the owner(s) of that Amendment 80 vessel transferred all rights and privileges to use the Amendment 80 legal landings from that Amendment 80 vessel to the person holding the LLP license originally assigned to that Amendment 80 vessel;

(D) That person is a U.S. citizen; and

(E) That person has submitted a timely application for Amendment 80 QS that is approved by NMFS as described in paragraph (b) of this section.

(b) *Application for Amendment 80 QS*—

(1) *Submission*. A person who wishes to receive an Amendment 80 QS permit must submit a timely and complete application for Amendment 80 QS. Once a person submits a timely and complete application for Amendment 80 QS that is approved by NMFS, an application for Amendment 80 QS is not required to be resubmitted. An application for Amendment 80 QS may only be submitted to NMFS using any one of the following methods:

(i) *Mail*: Regional Administrator, c/o Restricted Access Management Program, NMFS, P.O. Box 21668, Juneau, AK 99802-1668;

(ii) *Fax*: 907-586-7354; or

(iii) *Hand delivery or carrier*: NMFS, Room 713, 709 West 9th Street, Juneau, AK 99801.

(2) *Application forms*. Application forms are available through the internet on the NMFS Alaska Region Web site at <http://www.fakr.noaa.gov>, or by contacting NMFS at 800-304-4846, Option 2.

(3) *Deadline*. A completed application for Amendment 80 QS must be received by NMFS no later than 1700 hours A.l.t. on October 15 of the year prior to the fishing year for which the applicant is applying, or if sent by U.S. mail, postmarked by that time. Applications received or postmarked after the deadline will not be eligible to receive an Amendment 80 QS permit for the upcoming fishing year.

(4) *Contents of application*. A completed application must contain the following information:

## Fishery Conservation and Management

§ 679.90

(i) *Applicant identification.* (A) The applicant's name, NMFS person ID (if applicable), tax ID number, permanent business mailing address, business telephone number, business fax number, and e-mail (if available);

(B) Indicate (YES or NO) if the applicant is a U.S. citizen; if YES, enter his or her date of birth;

(C) Indicate (YES or NO) if the applicant is a U.S. corporation, partnership, association, or other business entity; if YES, enter the date of incorporation;

(D) Indicate (YES or NO) if the applicant is a successor-in-interest to a deceased individual or to a non-individual no longer in existence, if YES attach evidence of death or dissolution;

(E) Indicate whether the applicant is applying as the owner of an Amendment 80 vessel or the holder of an LLP license originally assigned to an Amendment 80 vessel;

(F) For an applicant claiming Amendment 80 legal landings associated with an Amendment 80 vessel, enter the following information for each Amendment 80 vessel: USCG documentation number of vessel on which Amendment 80 legal landings were caught and processed, vessel name, ADF&G vessel registration number, and LLP license held by that person at the time of application;

(G) If an Amendment 80 vessel has suffered an actual total loss, constructive total loss, or is permanently ineligible to receive a fishery endorsement under 46 U.S.C. 12108, provide clear and unambiguous documentation in written form that the Amendment 80 vessel has suffered an actual total loss, constructive total loss, or is permanently ineligible to receive a fishery endorsement under 46 U.S.C. 12108; and

(H) If applicable, a copy of the express terms of a written contract held by the applicant that clearly and unambiguously indicates that the owner of the Amendment 80 vessel that has suffered has an actual total loss, constructive total loss, or is permanently ineligible to receive a fishery endorsement under 46 U.S.C. 12108 has transferred all rights and privileges to use Amendment 80 legal landings and any resulting Amendment 80 QS or exclusive harvest privilege from that Amendment 80 vessel to the person

holding the LLP license originally assigned to that Amendment 80 vessel.

(ii) *Applicant signature and certification.* The applicant must sign and date the application certifying that all information is true, correct, and complete to the best of his or her knowledge and belief. If the application is completed by a designated representative, then explicit authorization for the designated representative signed by the applicant must accompany the application.

(5) *Application evaluation.* The Regional Administrator will evaluate applications received as specified in this paragraph (b)(5) of this section and compare all claims in an application with the information in the Amendment 80 official record. Application claims that are consistent with information in the Amendment 80 official record will be approved by the Regional Administrator. Application claims that are inconsistent with the Amendment 80 official record, unless verified by documentation, will not be approved. An applicant who submits inconsistent claims, or an applicant who fails to submit the information specified in paragraph (b)(4) of this section, will be provided a single 30-day evidentiary period in which to submit the specified information, submit evidence to verify his or her inconsistent claims, or submit a revised application with claims consistent with information in the Amendment 80 official record. An applicant who submits claims that are inconsistent with information in the Amendment 80 official record has the burden of proving that the submitted claims are correct. Any claims that remain inconsistent or that are not accepted after the 30-day evidentiary period will be denied, and the applicant will be notified by an IAD of his or her appeal rights under § 679.43.

(6) *Appeals.* If an applicant is notified by an IAD that inconsistent claims made by the applicant have been denied, that applicant may appeal that IAD under the provisions described at § 679.43.

(c) *Amendment 80 official record—(1) Use of the Amendment 80 official record.* The Amendment 80 official record will

contain all information used by the Regional Administrator to determine eligibility to participate in the Amendment 80 Program, assign QS, and any other privileges or limits for the Amendment 80 Program.

(2) *Amendment 80 official record presumed to be correct.* The Amendment 80 official record is presumed to be correct. An applicant to participate in the Amendment 80 Program has the burden to prove otherwise.

(3) *Documentation is used to establish the amount of Amendment 80 legal landings.* Only Amendment 80 legal landings as defined in § 679.2 will be used to assign Amendment 80 QS units to an Amendment 80 QS permit unless an Amendment 80 vessel has no Amendment 80 legal landings, in which case Amendment 80 QS units will be allocated to the Amendment 80 QS permit derived from that Amendment 80 vessel according to the procedures established under paragraphs (d)(1)(iii) and (iv) of this section.

(4) *Assignment of Amendment 80 legal landings.* An Amendment 80 legal landing is assigned only to the Amendment 80 vessel that was used to make that Amendment 80 legal landing.

(d) *Assigning an Amendment 80 QS permit to an Amendment 80 QS holder*—(1) Amendment 80 QS units derived from an Amendment 80 vessel and issued to an Amendment 80 QS holder. NMFS will assign a specific amount of Amendment 80 QS units to each Amendment 80 QS permit based on the Amendment 80 legal landings of each Amendment 80 vessel for each Amendment 80 species in each management area for that Amendment 80 species as listed in Table 32 to this part, using information from the Amendment 80 official record according to the following procedures:

(i) *All Amendment 80 species.* (A) For each Amendment 80 species, sum the Amendment 80 legal landings for each Amendment 80 vessel in all management areas for that Amendment 80 species listed in Table 32 to this part for each calendar year from 1998 through 2004.

(B) Select the five calendar years that yield the highest amount of Amendment 80 legal landings of that Amendment 80 species in all manage-

ment areas for that Amendment 80 species listed in Table 32 to this part, including zero metric tons if necessary.

(C) Sum the Amendment 80 legal landings of the highest five years for an Amendment 80 species. This yields the Highest Five Years for that Amendment 80 species.

(D) Divide the Highest Five Years for an Amendment 80 species in paragraph (d)(1)(i)(C) of this section for an Amendment 80 vessel by the sum of all Highest Five Years for all Amendment 80 vessels for that Amendment 80 species based on the Amendment 80 official record for that Amendment 80 species as presented in the following equation:

$$\text{Highest Five Years} / \Sigma \text{ All Highest Five Years} \times 100 = \text{Percentage of the Total.}$$

The result (quotient) of this equation is the Percentage of the Total for that Amendment 80 vessel for that Amendment 80 species.

(ii) *Aleutian Islands Pacific ocean perch and BSAI Pacific cod.* Multiply the Percentage of the Total for that Amendment 80 vessel for Aleutian Islands Pacific ocean perch and BSAI Pacific cod as calculated in paragraph (d)(1)(i)(D) of this section by the Amendment 80 initial QS pool for Aleutian Islands Pacific ocean perch and BSAI Pacific cod as set forth in Table 32 to this part. This yields the number of Amendment 80 QS units for that Amendment 80 vessel for Aleutian Islands Pacific ocean perch and BSAI Pacific cod Pacific cod.

(iii) *BSAI rock sole and BSAI yellowfin sole.* (A) If an Amendment 80 vessel did not have any Amendment 80 legal landings during 1998 through 2004, that Amendment 80 vessel will receive 0.5 percent of the Percentage of the Total for BSAI rock sole and BSAI yellowfin sole as calculated in paragraph (d)(1)(i)(D) of this section.

(B) All Amendment 80 vessels that did have Amendment 80 legal landings will have the Percentage of the Total assigned to that Amendment 80 vessel as calculated in paragraph (d)(1)(i)(D) of this section adjusted to account for the assignment of the Percentage of the Total to Amendment 80 vessels under paragraph (d)(1)(iii)(A) of this section for BSAI rock sole and BSAI

yellowfin sole as presented in the following equation:

Percentage of the Total for that Amendment 80 vessel  $\times$  (100- $\Sigma$  Percentage of the Total assigned to all Amendment 80 vessels under paragraph (d)(1)(iii)(A) of this section) = Adjusted Percentage of the Total for that Amendment 80 vessel.

(C) Multiply the Adjusted Percentage of the Total for that Amendment 80 vessel by the Amendment 80 initial QS pool for BSAI rock sole and BSAI yellowfin sole as set forth in Table 32 to this part. This yields the number of Amendment 80 QS units for that Amendment 80 vessel for BSAI rock sole or BSAI yellowfin sole.

(iv) *BSAI flathead sole*. (A) If an Amendment 80 vessel did not have any Amendment 80 legal landings during 1998 through 2004, that Amendment 80 vessel will receive 0.1 percent of the Percentage of the Total for BSAI flathead sole as calculated in paragraph (d)(1)(i)(D) of this section.

(B) All Amendment 80 vessels that did have Amendment 80 legal landings during 1998 through 2004 will have the Percentage of the Total assigned to that Amendment 80 vessel as calculated in paragraph (d)(1)(i)(D) of this section adjusted to account for the assignment of the Percentage of the Total to Amendment 80 vessels under paragraph (d)(1)(iv)(A) of this section for BSAI flathead sole as presented in the following equation:

Percentage of the Total for that Amendment 80 vessel  $\times$  (100- $\Sigma$  Percentage of the Total assigned to all Amendment 80 vessels under paragraph (d)(1)(iv)(A) of this section) = Adjusted Percentage of the Total for that Amendment 80 vessel.

(C) Multiply the Adjusted Percentage of the Total for that Amendment 80 vessel by the Amendment 80 initial QS pool for BSAI flathead sole as set forth in Table 32 to this part. This yields the number of Amendment 80 QS units for that Amendment 80 vessel for BSAI flathead sole.

(v) *BSAI Atka mackerel*. (A) Multiply the Percentage of the Total for that Amendment 80 vessel as calculated in paragraph (d)(1)(i)(D) of this section by

the Amendment 80 initial QS pool for BSAI Atka mackerel as set forth in Table 32 to this part. This yields the number of Amendment 80 QS units for that Amendment 80 vessel for BSAI Atka mackerel.

(B) If an Amendment 80 vessel is an Amendment 80 non-mackerel vessel, determine the percentage of the Amendment 80 QS pool that is assigned to each Atka mackerel management area listed in Table 32 to this part in each year from 1998 through 2004 for that Amendment 80 non-mackerel vessel based on the percentage of Amendment 80 legal landings in that Atka mackerel management area from 1998 through 2004 for that Amendment 80 non-mackerel vessel.

(C) The sum of the Amendment 80 QS units allocated to all Amendment 80 non-mackerel vessels is the Total Amendment 80 non-mackerel QS pool.

(D) The sum of the Amendment 80 QS units allocated to all Amendment 80 mackerel vessels is the Total Amendment 80 mackerel QS pool.

(2) *Assigning Amendment 80 QS units to an Amendment 80 permit*. Once the Regional Administrator determines the amount of Amendment 80 QS units to be issued for an Amendment 80 species derived from an Amendment 80 vessel based on the criteria described in paragraphs (b) through (d) of this section, NMFS will assign that amount of Amendment 80 QS units for each Amendment 80 species as an Amendment 80 QS permit to the Amendment 80 QS holder as follows:

(i) *Amendment 80 vessel owner*. NMFS will issue an Amendment 80 QS permit for each Amendment 80 vessel to the owner of that Amendment 80 vessel if that person submitted a timely and complete Application for Amendment 80 QS that was approved by NMFS under paragraph (a)(2)(i) of this section; or

(ii) *Amendment 80 LLP/QS license*. NMFS will issue an Amendment 80 QS permit as an endorsement on an Amendment 80 LLP license to the holder of an LLP license originally assigned to an Amendment 80 vessel if that person submitted a timely and complete Application for Amendment 80 QS that was approved by NMFS

under paragraph (a)(2)(ii) of this section.

(e) *Transfers of Amendment 80 QS permits*—(1) *Non-severability of Amendment 80 QS permits.* (i) An Amendment 80 QS holder may not transfer an Amendment 80 QS permit to another person unless all Amendment 80 QS units for all Amendment 80 species on that Amendment 80 QS permit are transferred in their entirety to the same person at the same time; and

(ii) Once an Amendment 80 QS permit is assigned to an Amendment 80 LLP license, that Amendment 80 LLP license is designated as an Amendment 80 LLP/QS license and a person may not separate the Amendment 80 QS permit from that Amendment 80 LLP/QS license.

(2) *Transfer of an Amendment 80 LLP/QS license.* A person holding an Amendment 80 LLP/QS license may transfer that Amendment 80 LLP/QS license to another person only under the provisions of § 679.4(k)(7).

(3) *Transfers of Amendment 80 QS permits.* A person holding an Amendment 80 QS permit assigned to an Amendment 80 vessel may transfer that Amendment 80 QS permit to another person only by submitting an application to transfer Amendment 80 QS permit that is approved by NMFS under the provisions of paragraph (f) of this section.

(4) *Assigning an Amendment 80 QS permit to an Amendment 80 LLP license.* An Amendment 80 vessel owner holding an Amendment 80 QS permit assigned to an Amendment 80 vessel may transfer that Amendment 80 QS permit to the LLP license originally assigned to that Amendment 80 vessel only by submitting an application to transfer an Amendment 80 QS permit that is approved by NMFS under the provisions of paragraph (f) of this section.

(f) *Application to transfer an Amendment 80 QS permit*—(1) *General.* An Amendment 80 QS holder who wishes to transfer an Amendment 80 QS permit must submit a complete application that is approved by NMFS. This application may only be submitted to NMFS using any one of the following methods:

(i) *Mail:* Regional Administrator, c/o Restricted Access Management Pro-

gram, NMFS, P.O. Box 21668, Juneau, AK 99802–1668;

(ii) *Fax:* 907–586–7354; or

(iii) *Hand delivery or carrier:* NMFS, Room 713, 709 West 9th Street, Juneau, AK 99801.

(2) *Application forms.* Application forms are available through the internet on the NMFS Alaska Region Web site at <http://www.fakr.noaa.gov>, or by contacting NMFS at 800–304–4846, Option 2.

(3) *Application*—(i) *Transferor information*—(A) *Transferor identification.* The transferor's name, NMFS person ID (if applicable), tax ID number, date of incorporation or date of birth, permanent business mailing address, business telephone number, fax number, and e-mail (if available).

(B) *Type of transfer.* (1) Indicate whether the transferor is applying to transfer an Amendment 80 QS permit to another person; or

(2) Indicate whether the transferor is applying to transfer an Amendment 80 QS permit to the LLP license originally assigned to that Amendment 80 vessel as listed in Table 31 to this part.

(C) *Amendment 80 QS permit.* Indicate the Amendment 80 QS permit to be transferred.

(D) *Information for transfers of Amendment 80 QS permit to another person.* If transferring an Amendment 80 QS permit assigned to an Amendment 80 vessel owner to another person, attach abstract of title or USCG documentation that clearly and unambiguously indicates that the Amendment 80 QS permit transferee is named on the abstract of title or USCG documentation as the owner of the Amendment 80 vessel to which that Amendment 80 QS permit would be assigned.

(E) *Information for transfers of Amendment 80 QS permits to an Amendment 80 LLP license.* If transferring Amendment 80 QS assigned to an Amendment 80 vessel owner to the LLP license originally assigned to that Amendment 80 vessel, provide clear and unambiguous written documentation that can be verified by NMFS that the Amendment 80 vessel for which that Amendment 80 LLP license was originally assigned is no longer able to be used in the Amendment 80 Program due to the actual total loss, constructive total loss, or

permanent ineligibility of that vessel to receive a fishery endorsement under 46 U.S.C. 12108.

(F) *Certification of transferor.* The transferor must sign and date the application certifying that all information is true, correct, and complete to the best of his or her knowledge and belief. If the application is completed by a designated representative, then explicit authorization signed by the applicant must accompany the application.

(ii) *Transferee information—(A) Transferee identification.* The transferee's name, NMFS person ID (if applicable), tax ID number, date of incorporation or date of birth, permanent business mailing address, business telephone number, fax number, and e-mail (if available).

(B) *Certification of transferee.* The transferee must sign and date the application certifying that all information is true, correct, and complete to the best of his or her knowledge and belief. If the application is completed by a designated representative, then explicit authorization signed by the applicant must accompany the application.

**§ 679.91 Amendment 80 Program annual harvester privileges.**

(a) *Assigning an Amendment 80 QS permit to an Amendment 80 cooperative or Amendment 80 limited access fishery—(1) General.* (i) Each calendar year, each Amendment 80 QS permit, associated Amendment 80 vessel, and Amendment 80 LLP license must be assigned to an Amendment 80 cooperative or the Amendment 80 limited access fishery in order to use that Amendment 80 QS permit, associated Amendment 80 vessel, and Amendment 80 LLP license to catch, process, or receive Amendment 80 species, crab PSC, or halibut PSC assigned to the Amendment 80 sector.

(ii) NMFS will assign an Amendment 80 QS permit(s), associated Amendment 80 vessel(s), and Amendment 80 LLP license(s) held by an Amendment 80 QS holder to an Amendment 80 cooperative if that Amendment 80 QS permit(s), associated Amendment 80 vessel(s), and Amendment 80 LLP license(s) is designated on an application for CQ that is approved by the Regional Adminis-

trator as described under paragraph (b) of this section.

(iii) NMFS will assign an Amendment 80 QS permit(s), associated Amendment 80 vessel(s), and Amendment 80 LLP license(s) held by an Amendment 80 QS holder to the Amendment 80 limited access fishery if that Amendment 80 QS permit(s), associated Amendment 80 vessel(s), and Amendment 80 LLP license(s) is assigned to the Amendment 80 limited access fishery.

(2) *Amendment 80 QS permits issued after issuance of CQ or ITAC.* Any Amendment 80 QS permits, or Amendment 80 QS units on an Amendment 80 QS permit, assigned to an Amendment 80 QS holder after NMFS has issued CQ or ITAC to the Amendment 80 sector for a calendar year will not result in any additional:

(i) CQ being issued to an Amendment 80 cooperative if that Amendment 80 QS holder has assigned his Amendment 80 QS permit(s) to an Amendment 80 cooperative for that calendar year; or

(ii) ITAC being issued to the Amendment 80 limited access fishery if that Amendment 80 QS holder has assigned his Amendment 80 QS permit(s) to the Amendment 80 limited access fishery for that calendar year.

(3) *Failure to submit an application for an Amendment 80 fishery.* (i) If an Amendment 80 QS permit is not designated on a timely and complete application for CQ that is approved by the Regional Administrator as described under paragraph (b) of this section, the Regional Administrator will not assign that Amendment 80 QS permit, associated Amendment 80 vessel, or Amendment 80 LLP license to an Amendment 80 cooperative for the applicable calendar year.

(ii) The Regional Administrator will assign an Amendment 80 QS permit, associated Amendment 80 vessel, or Amendment 80 LLP license to the Amendment 80 limited access fishery for the applicable calendar year if that Amendment 80 QS permit, associated Amendment 80 vessel, or Amendment 80 LLP license is designated on a timely and complete application for an Amendment 80 limited access fishery, or if that Amendment 80 QS permit, associated Amendment 80 vessel, or

Amendment 80 LLP license is not designated on a timely and complete application for CQ that is approved by the Regional Administrator as described under paragraph (b) of this section.

(b) *Application for CQ and Application for the Amendment 80 limited access fishery*—(1) *General*. An application for CQ or an application for the Amendment 80 limited access fishery may only be submitted to NMFS using any one of the following methods:

(i) *Mail*: Regional Administrator, c/o Restricted Access Management Program, NMFS, P.O. Box 21668, Juneau, AK 99802–1668;

(ii) *Fax*: 907–586–7354; or

(iii) *Hand delivery or carrier*: NMFS, Room 713, 709 West 9th Street, Juneau, AK 99801.

(2) *Application forms*. Application forms are available through the internet on the NMFS Alaska Region Web site at <http://www.fakr.noaa.gov>, or by contacting NMFS at 800–304–4846, Option 2.

(3) *Deadline*. A completed application must be received by NMFS no later than 1700 hours A.l.t. on November 1 of the year prior to the calendar year for which the applicant is applying, or if sent by U.S. mail, the application must be postmarked by that time.

(4) *Application for CQ*—(i) *Amendment 80 cooperative identification*. The Amendment 80 cooperative's legal name; tax ID number, the type of business entity under which the Amendment 80 cooperative is organized; the state in which the Amendment 80 cooperative is legally registered as a business entity; permanent business address; business telephone number; business fax number; e-mail address (if available); and printed name of the Amendment 80 cooperative's designated representative.

(ii) *Identification of Amendment 80 QS permit holders and ownership documentation*. Full name of each Amendment 80 cooperative member; NMFS person ID of each member; Amendment 80 QS permit number(s), the names of all persons, to the individual level, holding an ownership interest in the Amendment 80 QS permit(s) assigned to the Amendment 80 cooperative and the percentage ownership each person and individual

holds in the Amendment 80 QS permit(s).

(iii) *Identification of Amendment 80 cooperative member vessels and Amendment 80 LLP licenses*. Vessel name; ADF&G vessel registration number; USCG documentation number; and Amendment 80 LLP license number.

(iv) *Identification of vessels on which the CQ issued to the Amendment 80 cooperative will be used*. Vessel name, ADF&G vessel registration number, and USCG documentation number.

(v) *EDR submission*. For 2009 and thereafter, indicate (YES or NO) whether each member of the Amendment 80 cooperative has submitted a timely and complete EDR for each Amendment 80 QS permit held by that person as required under § 679.94.

(vi) *Certification of cooperative authorized representative*. The cooperative's authorized representative must sign and date the application certifying that all information is true, correct, and complete to the best of his or her knowledge and belief. Explicit authorization to complete the application on behalf of the members of the cooperative must accompany the application.

(vii) *Copy of membership agreement or contract*. Attach a copy of the membership agreement or contract that specifies how the Amendment 80 cooperative intends to catch its CQ.

(5) *Application for the Amendment 80 limited access fishery*—(i) *Applicant identification*. The applicant's name, NMFS Person ID (if applicable), tax ID number (required), permanent business mailing address, business telephone number, fax number, and e-mail (if available).

(ii) *Amendment 80 vessel identification*. The name, ADF&G vessel registration number(s), and USCG documentation number(s) of the Amendment 80 vessel(s) owned by the applicant.

(iii) *Amendment 80 LLP identification*. The Amendment 80 LLP license number(s) held by the applicant.

(iv) *Amendment 80 QS permit information*. The Amendment 80 QS permit number(s) held by the applicant.

(v) *Amendment 80 QS ownership documentation*. The names of all persons, to the individual person level, holding an ownership interest in the Amendment 80 QS permit(s) held by the applicant

and the percentage ownership each person and individual holds in the Amendment 80 QS permit(s).

(vi) *EDR submission.* For 2009 and thereafter, indicate (YES or NO) whether the applicant has submitted a timely and complete EDR for each Amendment 80 QS permit held by that person as required under § 679.94.

(vii) *Applicant signature and certification.* The applicant must sign and date the application certifying that all information is true, correct, and complete to the best of his or her knowledge and belief. If the application is completed by a designated representative, then explicit authorization signed by the applicant must accompany the application.

(c) *Allocations of Amendment 80 species*—(1) *General.* Each calendar year, the Regional Administrator will determine the tonnage of Amendment 80 species that will be assigned to the BSAI trawl limited access sector and the Amendment 80 sector. For participants in the Amendment 80 sector, the tonnage of fish will be further assigned between Amendment 80 cooperatives and the Amendment 80 limited access fishery.

(2) *Calculation*—(i) *Determination of TAC and ITAC.* NMFS will determine the TAC and ITAC for each Amendment 80 species in a calendar year in the annual harvest specification process in § 679.20.

(ii) *Annual apportionment of ITAC.* The annual apportionment of ITAC for each Amendment 80 species between the Amendment 80 sector and the BSAI trawl limited access sector in a given calendar year is established in Tables 33 and 34 to this part.

(3) *Allocation of CQ to Amendment 80 cooperatives*—(i) *General.* The amount of ITAC for each Amendment 80 species assigned to an Amendment 80 cooperative is equal to the amount of Amendment 80 QS units assigned to that Amendment 80 cooperative by Amendment 80 QS holders divided by the total Amendment 80 QS pool multiplied by the Amendment 80 sector ITAC for that Amendment 80 species in that management area. Once ITAC for an Amendment 80 species in a management area is assigned to an Amendment 80 coop-

erative, it is issued as CQ specific to that Amendment 80 cooperative.

(ii) *CQ allocation for Amendment 80 species except BSAI Atka mackerel.* The amount of CQ for each Amendment 80 species except BSAI Atka mackerel that is assigned to a Amendment 80 cooperative is expressed algebraically as follows:

$$\text{CQ in a management area} = [(\text{Amendment 80 sector ITAC in a management area}) \times (\text{Amendment 80 QS units assigned to that Amendment 80 cooperative/Amendment 80 QS pool})].$$

(iii) *CQ allocation for BSAI Atka mackerel.* The amount of CQ for BSAI Atka mackerel that is assigned to each Amendment 80 cooperative in each management area is determined by the following procedure:

(A) Determine the amount of non-mackerel ITAC in each management area using the following equation:

$$\text{Non-mackerel ITAC in a management area} = (\text{Amendment 80 non-mackerel QS units designated for that management area/Total Atka mackerel QS pool}) \times \text{Amendment 80 sector ITAC in all management areas.}$$

(B) Determine the amount of mackerel ITAC in each management area using the following equation:

$$\text{Mackerel ITAC in a management area} = \text{Amendment 80 sector ITAC in that management area} - \text{Non-mackerel ITAC in that management area.}$$

(C) Determine the amount of non-mackerel CQ assigned to the Amendment 80 cooperative using the following equation:

$$\text{Non-mackerel CQ assigned to that Amendment 80 cooperative} = (\text{Amendment 80 non-mackerel QS units designated for that management area assigned to that Amendment 80 cooperative/Amendment 80 non-mackerel QS pool in that management area}) \times \text{Non-mackerel ITAC for that management area.}$$

(D) Determine the amount of mackerel CQ assigned to the Amendment 80 cooperative using the following equation:

$$\text{Mackerel CQ in a management area} = (\text{Mackerel QS units assigned to that}$$

Amendment 80 cooperative/Mackerel QS pool) × Mackerel ITAC in that management area.

(E) The total amount of Atka mackerel CQ assigned to an Amendment 80 cooperative for a management area is equal to the sum of paragraphs (c)(3)(iii)(C) and (D) of this section.

(4) *Amendment 80 limited access fishery.* The amount of ITAC in a management area for each Amendment 80 species assigned to the Amendment 80 limited access fishery is equal to the Amendment 80 sector ITAC remaining after subtracting all CQ issued to all Amendment 80 cooperatives for that Amendment 80 species in that management area.

(d) *Allocations of halibut PSC*—(1) *Amount of Amendment 80 halibut PSC assigned to the Amendment 80 sector.* The amount of halibut PSC assigned to the Amendment 80 sector for each calendar year is specified in Table 35 to this part. That amount of halibut PSC is then assigned to Amendment 80 cooperatives and the Amendment 80 limited access fishery.

(2) *Amount of Amendment 80 halibut PSC assigned to an Amendment 80 cooperative.* For each calendar year, the amount of Amendment 80 halibut PSC assigned as CQ to an Amendment 80 cooperative is determined by the following procedure:

(i) Multiply the amount of halibut PSC established in Table 35 to this part by the percentage of the Amendment 80 halibut PSC apportioned to each Amendment 80 species as established in Table 36 to this part. This yields the halibut PSC apportionment for that Amendment 80 species.

(ii) For each Amendment 80 species, divide the amount of Amendment 80 QS units assigned to an Amendment 80 cooperative by the Amendment 80 QS pool. This yields the percentage of Amendment 80 QS units held by that Amendment 80 cooperative.

(iii) For each Amendment 80 species, multiply the halibut PSC apportionment for that Amendment 80 species established in paragraph (d)(2)(i) of this section by the percentage of the Amendment 80 QS pool assigned to an Amendment 80 cooperative for that Amendment 80 species established in paragraph (d)(2)(ii) of this section. This

yields the amount of halibut PSC apportioned to that cooperative for that Amendment 80 species.

(iv) For each Amendment 80 cooperative, sum the results of paragraph (d)(2)(iii) of this section for all Amendment 80 species. This yields the amount of Amendment 80 halibut PSC assigned to that Amendment 80 cooperative as CQ.

(3) *Amount of Amendment 80 halibut PSC assigned to the Amendment 80 limited access fishery.* The amount of Amendment 80 halibut PSC assigned to the Amendment 80 limited access fishery is equal to the amount of halibut PSC assigned to the Amendment 80 sector specified in Table 35 to this part subtracting the amount of Amendment 80 halibut PSC assigned as CQ to all Amendment 80 cooperatives as determined in paragraph (d)(2)(iv) of this section.

(4) *Use of Amendment 80 halibut PSC in the Amendment 80 sector*—(i) *Amendment 80 halibut PSC assigned to a Amendment 80 cooperative.* An amount of Amendment 80 halibut PSC is assigned to the CQ permit issued to an Amendment 80 cooperative for use while fishing for all groundfish species in the BSAI or adjacent waters open by the State of Alaska for which it adopts a Federal fishing season. Any halibut PSC used by an Amendment 80 cooperative must be deducted from the amount of halibut PSC CQ on its CQ permit. Amendment 80 halibut PSC on a CQ permit may only be used by the members of the Amendment 80 cooperative to which it is assigned. Halibut PSC assigned as CQ is not subject to seasonal apportionment under § 679.21.

(ii) *Amendment 80 halibut PSC assigned to the Amendment 80 limited access fishery.* An amount of Amendment 80 halibut PSC is assigned to the Amendment 80 limited access fishery for use by all Amendment 80 vessels in the Amendment 80 limited access fishery while fishing for all groundfish species in the BSAI or adjacent waters open by the State of Alaska for which it adopts a Federal fishing season. Any halibut PSC used by Amendment 80 vessels assigned to the Amendment 80 limited access fishery must be deducted from the amount of halibut PSC assigned to

the Amendment 80 limited access fishery. Amendment 80 halibut PSC assigned to the Amendment 80 limited access fishery is subject to seasonal apportionment under § 679.21.

(5) *Halibut PSC assigned to the BSAI trawl limited access sector.* Halibut PSC assigned to the BSAI trawl limited access sector for groundfish fishing in the BSAI may only be used by the members of the BSAI trawl limited access sector unless modified by reallocation to Amendment 80 cooperatives according to the procedures in paragraph (f) of this section. Halibut PSC assigned to the BSAI trawl limited access sector is subject to seasonal apportionment under § 679.21.

(e) *Allocations of crab PSC*—(1) *Amount of Amendment 80 crab PSC assigned to the Amendment 80 sector.* The amount of Amendment 80 crab PSC assigned to the Amendment 80 sector for each Amendment 80 crab PSC in a calendar year is specified in Table 35 to this part. That amount of Amendment 80 crab PSC is then assigned to Amendment 80 cooperatives and the Amendment 80 limited access fishery.

(2) *Amount of Amendment 80 crab PSC assigned to an Amendment 80 cooperative.* For each calendar year, for each Amendment 80 crab PSC, the amount assigned as CQ to an Amendment 80 cooperative is determined by the following procedure:

(i) Multiply the amount of an Amendment 80 crab PSC established in Table 35 to this part by the percentage of the Amendment 80 crab PSC apportioned to each Amendment 80 species as established in Table 36 to this part. This yields the Amendment 80 crab PSC apportionment for that Amendment 80 species.

(ii) For each Amendment 80 species, divide the amount of Amendment 80 QS units assigned to an Amendment 80 cooperative by the Amendment 80 QS pool. This yields the percentage of Amendment 80 QS units held by that Amendment 80 cooperative.

(iii) For each Amendment 80 species, multiply the Amendment 80 crab PSC apportionment to that Amendment 80 species established in paragraph (e)(2)(i) of this section by the percentage of the Amendment 80 QS pool held by an Amendment 80 cooperative as es-

tablished in paragraph (e)(2)(ii) of this section. This yields the amount of Amendment 80 crab PSC apportioned to that Amendment 80 cooperative for that Amendment 80 species.

(iv) For each Amendment 80 crab PSC, sum the results of paragraph (e)(2)(iii) for all Amendment 80 species. This yields the amount of that Amendment 80 crab PSC assigned to that Amendment 80 cooperative.

(3) *Amount of Amendment 80 crab PSC assigned to the Amendment 80 limited access fishery.* The amount of each Amendment 80 crab PSC assigned to the Amendment 80 limited access fishery is equal to the amount of that Amendment 80 crab PSC assigned to the Amendment 80 sector specified in Table 35 to this part subtracting the amount of that crab PSC that has been assigned as CQ to all Amendment 80 cooperatives as determined in paragraph (e)(2)(iv) of this section.

(4) *Use of Amendment 80 crab PSC in the Amendment 80 sector*—(i) *Amendment 80 crab PSC assigned to an Amendment 80 cooperative.* An amount of Amendment 80 crab PSC is assigned to the CQ permit issued to an Amendment 80 cooperative for use while fishing for all groundfish species in the BSAI or adjacent waters open by the State of Alaska for which it adopts a Federal fishing season. Any Amendment 80 crab PSC used by an Amendment 80 cooperative must be deducted from the amount of Amendment 80 crab PSC CQ on its CQ permit. Amendment 80 crab PSC on a CQ permit may only be used by the members of the Amendment 80 cooperative to which it is assigned. Amendment 80 crab PSC assigned as CQ is not subject to seasonal apportionment under § 679.21.

(ii) *Amendment 80 halibut PSC assigned to the Amendment 80 limited access fishery.* An amount of Amendment 80 crab PSC is assigned to the Amendment 80 limited access fishery for use by all Amendment 80 vessels in the Amendment 80 limited access fishery while fishing for all groundfish species in the BSAI or adjacent waters open by the State of Alaska for which it adopts a Federal fishing season. Any Amendment 80 crab PSC used by Amendment 80 vessels assigned to the Amendment

80 limited access fishery must be deducted from the amount of Amendment 80 crab PSC assigned to the Amendment 80 limited access fishery. Amendment 80 crab PSC assigned to the Amendment 80 limited access fishery is subject to seasonal apportionment under §679.21.

(5) *Amendment 80 crab PSC assigned to the BSAI trawl limited access sector.* Amendment 80 crab PSC assigned to the BSAI trawl limited access sector for groundfish fishing in the BSAI may only be used by the members of the BSAI trawl limited access sector unless modified by reallocation to Amendment 80 cooperatives according to the procedures in paragraph (f) of this section. Amendment 80 crab PSC assigned to the BSAI trawl limited access sector is subject to seasonal apportionment under §679.21.

(f) *Rollover—Annual reallocation of an Amendment 80 species ICA or ITAC, crab PSC, and halibut PSC from the BSAI trawl limited access sector to Amendment 80 cooperatives—*(1) *General.* The Regional Administrator may reallocate a portion of an ICA or ITAC of an Amendment 80 species, crab PSC, or halibut PSC amount assigned to the BSAI trawl limited access sector to Amendment 80 cooperatives if the amount assigned to the BSAI trawl limited access sector is projected not to be harvested or used. Any reallocation will result in an amended CQ permit for each Amendment 80 cooperative. The timing of a reallocation will be at the discretion of the Regional Administrator.

(2) *Factors considered.* The Regional Administrator may consider the following factors when reallocating an ICA, a directed fishing allowance of an Amendment 80 species, or crab PSC, or halibut PSC amounts from the BSAI trawl limited access sector to Amendment 80 cooperatives:

- (i) The risk of biological harm to a groundfish species or species group;
- (ii) The risk of socioeconomic harm to other domestic fishery participants;
- (iii) The impact that the allocation might have on the socioeconomic well-being of Amendment 80 cooperatives;
- (iv) Current catch and PSC use in the BSAI trawl limited access sector;

(v) Historic catch and PSC use in the BSAI trawl limited access sector;

(vi) Harvest capacity and any stated intent on the future harvesting patterns of vessels in the BSAI trawl limited access sector;

(vii) Administrative requirements to reissue CQ permits; and

(viii) Any other relevant biological, socioeconomic, or administrative factors.

(3) *Rollover of Amendment 80 species.* If, during a fishing year, the Regional Administrator determines that a reallocation of a portion of the ITAC or ICA of an Amendment 80 species assigned to the BSAI trawl limited access sector to Amendment 80 cooperatives is appropriate, the Regional Administrator will issue a revised CQ permit to reallocate that amount of Amendment 80 species to each Amendment 80 cooperative according to the following formula:

Amount of additional CQ issued to an Amendment 80 cooperative = Amount of Amendment 80 species available for reallocation to Amendment 80 cooperatives × (Amount of CQ for that Amendment 80 species initially assigned to that Amendment 80 cooperative /  $\Sigma$  CQ for that Amendment 80 species initially assigned to all Amendment 80 cooperatives).

(4) *Rollover of halibut PSC.* If, during a fishing year, the Regional Administrator determines that a reallocation of a portion of the halibut PSC assigned to the BSAI trawl limited access sector to Amendment 80 cooperatives is appropriate, the Regional Administrator will issue a revised CQ permit to reallocate that amount of halibut PSC to each Amendment 80 cooperative according to the following procedure:

(i) Multiply the amount of the halibut PSC limit to be reallocated by 95 percent (0.95). This yields the maximum amount of halibut PSC available for allocation to Amendment 80 cooperatives; and

(ii) Determine the halibut PSC CQ issued to each Amendment 80 cooperative according to the following formula:

Amount of additional CQ issued to an Amendment 80 cooperative = Maximum amount of halibut PSC available for reallocation to Amendment

80 cooperatives  $\times$  (Amount of halibut PSC CQ initially assigned to that Amendment 80 cooperative  $\div$   $\Sigma$  halibut PSC CQ initially assigned to all Amendment 80 cooperatives).

(5) *Rollover of crab PSC.* If, during a fishing year, the Regional Administrator determines that a reallocation of a portion of a crab PSC assigned to the BSAI trawl limited access sector to Amendment 80 cooperatives is appropriate, the Regional Administrator will issue a revised CQ permit to reallocate that amount of crab PSC to each Amendment 80 cooperative according to the following formula:

Amount of CQ issued to an Amendment 80 cooperative = Amount of that crab PSC available for allocation to Amendment 80 cooperatives  $\times$  (Amount of that crab PSC CQ initially assigned to that Amendment 80 cooperative  $\div$   $\Sigma$  that crab PSC CQ initially assigned to all Amendment 80 cooperatives).

(g) *CQ transfer applications*—(1) *General.* An Amendment 80 cooperative may transfer all or part of its CQ to another Amendment 80 cooperative. Amendment 80 cooperatives may transfer CQ during a calendar year with the following restrictions:

(i) An Amendment 80 cooperative may only transfer CQ to another Amendment 80 cooperative;

(ii) An Amendment 80 cooperative may only receive CQ from another Amendment 80 cooperative; and

(iii) An Amendment 80 cooperative receiving Amendment 80 species CQ by transfer must assign that Amendment 80 species CQ to a member(s) of the Amendment 80 cooperative for the purposes of use cap calculation as established under § 679.92(a).

(2) *Application for CQ transfer.* NMFS will notify the transferor and transferee once the application for CQ transfer has been received and approved. A transfer of CQ is not effective until approved by NMFS. An application for CQ transfer may only be submitted to NMFS using any one of the following methods:

(i) *Mail:* Regional Administrator, c/o Restricted Access Management Program, NMFS, P.O. Box 21668, Juneau, AK 99802-1668;

(ii) *Fax:* 907-586-7354; or

(iii) *Hand delivery or carrier:* NMFS, Room 713, 709 West 9th Street, Juneau, AK 99801.

(3) *Application forms.* Application forms are available through the internet on the NMFS Alaska Region Web site at <http://www.fakr.noaa.gov>, or by contacting NMFS at 800-304-4846, Option 2.

(4) *Contents of application.* A completed application for CQ transfer requires that the following information be provided:

(i) *Identification of transferor.* Enter the name, NMFS Person ID, name of Amendment 80 cooperative's designated representative; permanent business mailing address, business telephone number, business fax number, and e-mail address (if available) of the Amendment 80 cooperative transferor. A temporary mailing address for each transaction may also be provided.

(ii) *Identification of transferee.* Enter the name, NMFS Person ID, name of Amendment 80 cooperative's designated representative, permanent business mailing address, business telephone number, business fax number, and e-mail address (if available) of the Amendment 80 cooperative transferee. A temporary mailing address for each transaction may also be provided.

(iii) *CQ to be transferred.* Identify the type and amount of Amendment 80 species, or Amendment 80 PSC CQ to be transferred, and the number of QS units from which this CQ is derived.

(iv) *Identification of Amendment 80 cooperative member.* Enter the name and NMFS Person ID of the member(s) of the receiving Amendment 80 cooperative to whose use cap Amendment 80 species CQ will be assigned, and the amount of Amendment 80 species CQ applied to each member, for purposes of applying Amendment 80 species use caps established under the Amendment 80 Program under § 679.92(a).

(v) *Certification of transferor.* The Amendment 80 cooperative transferor's designated representative must sign and date the application certifying that all information is true, correct, and complete to the best of his or her knowledge and belief. The printed name of the Amendment 80 cooperative

transferor's designated representative must be entered.

(vi) *Certification of transferee.* The Amendment 80 cooperative transferee's designated representative must sign and date the application certifying that all information is true, correct, and complete to the best of his or her knowledge and belief. The printed name of the Amendment 80 cooperative transferee's designated representative must be entered.

(5) *CQ amounts applied to a member of an Amendment 80 cooperative.* (i) Amendment 80 species CQ must be assigned to a member of the Amendment 80 cooperative receiving the CQ for purposes of use cap calculations. No member of an Amendment 80 cooperative may exceed the CQ use cap applicable to that member.

(ii) For purposes of Amendment 80 species CQ use cap calculations, the total amount of Amendment 80 species CQ held or used by a person is equal to all metric tons of Amendment 80 species CQ derived from all Amendment 80 QS units on all Amendment 80 QS permits held by that person and assigned to the Amendment 80 cooperative and all metric tons of Amendment 80 species CQ assigned to that person by the Amendment 80 cooperative from approved transfers.

(iii) The amount of Amendment 80 QS units held by a person, and CQ derived from those Amendment 80 QS units, is calculated using the individual and collective use cap rule established in § 679.92(a).

(h) *Amendment 80 cooperative*—(1) *General.* This section governs the formation and operation of Amendment 80 cooperatives. The regulations in this section apply only to Amendment 80 cooperatives that have formed for the purpose of applying for and fishing with CQ issued annually by NMFS. Members of Amendment 80 cooperatives should consult legal counsel before commencing any activity if the members are uncertain about the legality under the antitrust laws of the Amendment 80 cooperative's proposed

conduct. Membership in an Amendment 80 cooperative is voluntary. No person may be required to join an Amendment 80 cooperative. If a person becomes the owner of an Amendment 80 vessel or a holder of an Amendment 80 LLP/QS license that has been assigned to an Amendment 80 cooperative, then that person may join that Amendment 80 cooperative as a member upon receipt of that Amendment 80 vessel or Amendment 80 LLP/QS license. Members may leave an Amendment 80 cooperative, but any CQ contributed by the Amendment 80 QS permit(s) held by that member will remain with that Amendment 80 cooperative for the duration of the calendar year.

(2) *Legal and organizational requirements.* An Amendment 80 cooperative must meet the following legal and organizational requirements before it is eligible to receive CQ:

(i) Each Amendment 80 cooperative must be formed as a partnership, corporation, or other legal business entity that is registered under the laws of one of the 50 states or the District of Columbia;

(ii) Each Amendment 80 cooperative must appoint an individual as the designated representative to act on the Amendment 80 cooperative's behalf and to serve as a contact point for NMFS for questions regarding the operation of the Amendment 80 cooperative. The designated representative may be a member of the Amendment 80 cooperative, or some other individual designated by the Amendment 80 cooperative to act on its behalf;

(iii) Each Amendment 80 cooperative must submit a timely and complete application for CQ; and

(iv) Each Amendment 80 cooperative must meet the mandatory requirements established in paragraphs (h)(3) and (4) of this section applicable to that Amendment 80 cooperative.

(3) *Mandatory requirements.* The following table describes the requirements to form an Amendment 80 cooperative:

## Fishery Conservation and Management

§ 679.91

|                                                                                                                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (i) Who may join an Amendment 80 cooperative? .....                                                                                                                           | Any Amendment 80 QS holder named on a timely and complete application for CQ for that calendar year that is approved by NMFS. Individuals who are not Amendment 80 QS holders may be employed by, or serve as the designated representative of an Amendment 80 cooperative, but are not members of the Amendment 80 cooperative.                                                                                                                                                                                                |
| (ii) What is the minimum number of Amendment 80 QS permits that must be assigned to an Amendment 80 cooperative to allow it to form?                                          | Any combination of at least nine Amendment 80 QS permits which would include Amendment 80 LLP/QS licenses.                                                                                                                                                                                                                                                                                                                                                                                                                      |
| (iii) How many Amendment 80 QS holders are required to form an Amendment 80 cooperative?                                                                                      | At least three Amendment 80 QS holders each of whom may not have a ten percent or greater direct or indirect ownership interest in any of the other Amendment 80 QS holders.                                                                                                                                                                                                                                                                                                                                                    |
| (iv) Is there a minimum amount of Amendment 80 QS units that must be assigned to an Amendment 80 cooperative for it to be allowed to form?                                    | No.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| (v) What is allocated to the Amendment 80 cooperative?                                                                                                                        | CQ for each Amendment 80 species, crab PSC, and halibut PSC, based on the amount of Amendment 80 QS units assigned to the cooperative.                                                                                                                                                                                                                                                                                                                                                                                          |
| (vi) Is this CQ an exclusive catch and use privilege?                                                                                                                         | Yes, the members of the Amendment 80 cooperative have an exclusive privilege to collectively catch and use this CQ, or an Amendment 80 cooperative can transfer all or a portion of this CQ to another Amendment 80 cooperative.                                                                                                                                                                                                                                                                                                |
| (vii) Is there a period in a calendar year during which designated vessels must catch CQ?                                                                                     | Yes, any Amendment 80 vessel designated to catch CQ for an Amendment 80 cooperative is prohibited from catching CQ during the season closure for trawl gear in the BSAI specified at § 679.23(c) unless regulations at § 679.23 applicable to an Amendment 80 species in the BSAI are more restrictive than those established in § 679.23(c), in which case the more restrictive regulations will apply.                                                                                                                        |
| (viii) Can any vessel catch an Amendment 80 cooperative's CQ?                                                                                                                 | No, only Amendment 80 vessels that are assigned to that Amendment 80 cooperative for that calendar year in the application for CQ may catch and process the CQ assigned to that Amendment 80 cooperative.                                                                                                                                                                                                                                                                                                                       |
| (ix) Can a member of an Amendment 80 cooperative transfer CQ individually without the approval of the other members of the Amendment 80 cooperative?                          | No, only the designated representative of the Amendment 80 cooperative, and not individual members, may transfer its CQ to another Amendment 80 cooperative; and only if that transfer is approved by NMFS as established under paragraph (g) of this section.                                                                                                                                                                                                                                                                  |
| (x) Are GOA sideboard limits assigned to specific persons or Amendment 80 cooperatives?                                                                                       | No, GOA sideboard limits are not assigned to specific persons or Amendment 80 cooperatives. GOA sideboard limits are assigned to the Amendment 80 sector.                                                                                                                                                                                                                                                                                                                                                                       |
| (xi) Can an Amendment 80 QS permit, Amendment 80 LLP license, or Amendment 80 vessel be assigned to more than one Amendment 80 cooperative in a calendar year?                | No, an Amendment 80 QS permit, Amendment 80 LLP license, or Amendment 80 vessel may be assigned to only one Amendment 80 cooperative in a calendar year. A person holding multiple Amendment 80 QS permits, Amendment 80 LLP licenses, or owning multiple Amendment 80 vessels is not required to assign all Amendment 80 QS permits, Amendment 80 LLP licenses, or Amendment 80 vessels to the same Amendment 80 cooperative or the Amendment 80 limited access fishery.                                                       |
| (xii) Can an Amendment 80 QS permit, Amendment 80 LLP license, or Amendment 80 vessel be assigned to an Amendment 80 cooperative and the Amendment 80 limited access fishery? | No, an Amendment 80 QS permit, Amendment 80 LLP license, or Amendment 80 vessel assigned to an Amendment 80 cooperative may not be assigned to the Amendment 80 limited access fishery for that calendar year. A person holding multiple Amendment 80 QS permits, Amendment 80 LLP licenses, or owning multiple Amendment 80 vessels is not required to assign all Amendment 80 QS permits, Amendment 80 LLP licenses, or Amendment 80 vessels to the same Amendment 80 cooperative or the Amendment 80 limited access fishery. |
| (xiii) Which members may catch the Amendment 80 cooperative's CQ?                                                                                                             | Use of a cooperative's CQ permit is determined by the Amendment 80 cooperative contract signed by its members. Any violations of this contract by a cooperative member may be subject to civil claims by other members of the Amendment 80 cooperative.                                                                                                                                                                                                                                                                         |
| (xiv) Does an Amendment 80 cooperative need a membership agreement or contract?                                                                                               | Yes, an Amendment 80 cooperative must have a membership agreement or contract that specifies how the Amendment 80 cooperative intends to catch its CQ. A copy of this agreement or contract must be submitted to NMFS with the application for CQ.                                                                                                                                                                                                                                                                              |
| (xv) What happens if the Amendment 80 cooperative membership agreement or contract is modified during the fishing year?                                                       | A copy of the amended Amendment 80 membership agreement or contract must be sent to NMFS in accordance with § 679.4(a)(4).                                                                                                                                                                                                                                                                                                                                                                                                      |

|                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|-------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (xvi) What happens if the Amendment 80 cooperative exceeds its CQ amount?           | An Amendment 80 cooperative is not authorized to catch Amendment 80 species or use crab PSC or halibut PSC in excess of the amount on its CQ permit. Exceeding a CQ permit is a violation of the regulations. Each member of the Amendment 80 cooperative is jointly and severally liable for any violations of the Amendment 80 Program regulations while fishing under the authority of a CQ permit. This liability extends to any persons who are hired to catch or receive CQ assigned to an Amendment 80 cooperative. Each member of an Amendment 80 cooperative is responsible for ensuring that all members of the cooperative comply with all regulations applicable to fishing under the Amendment 80 Program. |
| (xvii) Is there a limit on how much CQ an Amendment 80 cooperative may hold or use? | No, but each Amendment 80 QS holder is subject to use caps, and an Amendment 80 vessel may be subject to vessel use caps. See § 679.92(a).                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| (xviii) Is there a limit on how much CQ a vessel may catch? ....                    | Yes, an Amendment 80 vessel may not catch more than 20 percent of the aggregate Amendment 80 species ITAC assigned to the Amendment 80 sector for that calendar year. See § 679.92(a) for use cap provisions.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| (xix) Are there any special reporting requirements? .....                           | Yes, the designated representative of the Amendment 80 cooperative must submit an annual Amendment 80 cooperative report as described under § 679.5(s). In addition, each member of an Amendment 80 cooperative must submit a timely and complete EDR as described under § 679.94.                                                                                                                                                                                                                                                                                                                                                                                                                                      |

(4) *Successors-in-interest.* If a member of an Amendment 80 cooperative dies (in the case of an individual) or dissolves (in the case of a business entity), the CQ derived from the Amendment 80 QS permits assigned to the Amendment 80 cooperative for that year from that person remains under the control of the Amendment 80 cooperative for the duration of that calendar year as specified in the Amendment 80 cooperative contract. Each Amendment 80 cooperative is free to establish its own internal procedures for admitting a successor-in-interest during the fishing season due to the death or dissolution of an Amendment 80 cooperative member.

**§ 679.92 Amendment 80 Program use caps and sideboard limits.**

(a) *Use caps—(1) General.* Use caps limit the amount of Amendment 80 QS units and Amendment 80 species CQ that may be held or used by an Amendment 80 QS holder or Amendment 80 vessel. Use caps may not be exceeded unless the Amendment 80 QS holder or Amendment 80 vessel subject to the use cap is specifically allowed to exceed a cap according to the criteria established under this paragraph (a) or by an operation of law. There are two types of use caps: Person use caps and vessel use caps. All Amendment 80 QS unit use caps are based on the aggregate Amendment 80 species Amendment 80 initial QS pool set forth in Table 32 to

this part. The use caps apply as follows:

(2) *Amendment 80 QS holder use cap—*  
(i) *QS and CQ use cap.* A person may not individually or collectively hold or use more than thirty (30.0) percent of the aggregate Amendment 80 QS units initially assigned to the Amendment 80 sector and resulting CQ unless that person receives those Amendment 80 QS units on an Amendment 80 permit(s) based on Amendment 80 legal landings assigned to Amendment 80 vessel(s) or Amendment 80 LLP license(s) held by that Amendment 80 QS holder:

(A) Prior to June 9, 2006; and

(B) At the time of application for Amendment 80 QS.

(ii) *CQ use cap calculation.* For purposes of calculating and applying the CQ use cap, a person is assigned CQ based on:

(A) The amount of CQ derived from the Amendment 80 QS units held by that person; and

(B) Any CQ assigned to that person in an Application for CQ transfer.

(iii) *Transfer limitations.* (A) An Amendment 80 QS holder that receives an initial allocation of aggregate Amendment 80 QS units that exceeds the use cap listed in paragraph (a)(2)(i) of this section cannot receive any Amendment 80 QS permit by transfer unless and until that person's holdings of aggregate Amendment 80 QS units

are reduced to an amount below the use cap specified in paragraph (a)(2)(i) of this section.

(B) If an Amendment 80 QS holder that received an initial allocation of aggregate Amendment 80 QS units on his or her Amendment 80 QS permits that exceeds the use cap listed in paragraph (a)(2)(i) of this section transfers an Amendment 80 QS permit to another person, the transferor may not hold more than the greater of either the amount of Amendment 80 QS units held by the transferor after the transfer if the amount of aggregate Amendment 80 QS units continues to exceed the use cap, or the amount equal to the Amendment 80 QS unit use cap established in paragraph (a)(2)(i) of this section.

(C) An Amendment 80 QS holder that receives an initial allocation of aggregate Amendment 80 QS units on his or her Amendment 80 QS permits that exceeds the use cap listed in paragraph (a)(2)(i) of this section is prohibited from having any CQ assigned to that Amendment 80 QS holder in an application for CQ transfer unless and until that Amendment 80 QS holder's holdings of aggregate Amendment 80 QS units are reduced to an amount below the use cap specified in paragraph (a)(2)(i) of this section.

(3) *ITAC use cap for an Amendment 80 vessel.* An Amendment 80 vessel may not be used to catch an amount of Amendment 80 species greater than twenty (20.0) percent of the aggregate Amendment 80 species ITACs assigned to the Amendment 80 sector. This amount includes ITAC that is assigned as CQ or to the Amendment 80 limited access fishery.

(b) *GOA sideboard limits*—(1) *GOA groundfish sideboard limits.* Amendment 80 vessels may not be used to catch more than the amounts of groundfish in the management areas specified in Table 37 to this part from January 1 through December 31 of each year, except that GOA groundfish sideboard limits specified in Table 37 to this part do not apply when an Amendment 80 vessel is using dredge gear while directed fishing for scallops in the GOA.

(2) *GOA halibut PSC sideboard limits.* All Amendment 80 vessels, other than the fishing vessel GOLDEN FLEECE as

specified in paragraph (d) of this section, may not use halibut PSC in the fishery complexes, management areas, and seasons greater than the amounts specified in Table 38 to this part during January 1 through December 31 of each year; except that:

(i) An Amendment 80 vessel that uses halibut PSC CQ in the Central GOA subject to the regulations established in the Rockfish Program under subpart G to this part is not subject to the halibut PSC sideboard limits in Table 38 to this part while fishing under a Rockfish CQ permit; and

(ii) Halibut PSC sideboard limits in Table 38 to this part do not apply when an Amendment 80 vessel is using dredge gear while directed fishing for scallops in the GOA.

(c) *Sideboard restrictions applicable to Amendment 80 vessels directed fishing for flatfish in the GOA.* Only an Amendment 80 vessel listed in column A of Table 39 to this part may be used to fish in the directed arrowtooth flounder, deep-water flatfish, flathead sole, rex sole, and shallow-water flatfish fisheries in the GOA and in adjacent waters open by the State of Alaska for which it adopts a Federal fishing season.

(d) *Sideboard restrictions applicable to the fishing vessel GOLDEN FLEECE.* (1) The fishing vessel GOLDEN FLEECE (USCG documentation number 609951):

(i) May not be used for directed groundfish fishing for northern rockfish, pelagic shelf rockfish, pollock, Pacific cod, or Pacific ocean perch in the GOA and in adjacent waters open by the State of Alaska for which it adopts a Federal fishing season; and

(ii) Is not subject to halibut PSC sideboard limits as described in paragraph (b)(2) of this section in the GOA or adjacent waters open by the State of Alaska for which it adopts a Federal fishing season.

#### **§ 679.93 Amendment 80 Program recordkeeping, permits, monitoring, and catch accounting.**

(a) *Recordkeeping and reporting.* See § 679.5(s).

(b) *Permits.* See § 679.4(o).

(c) *Catch monitoring requirements for Amendment 80 vessels and catcher/processors not listed in § 679.4(l)(2)(i) using*

*trawl gear and fishing in the BSAI.* The requirements under paragraphs (c)(1) through (9) of this section apply to all Amendment 80 vessels except Amendment 80 vessels using dredge gear while directed fishing for scallops, and any other catcher/processor not listed in § 679.4(1)(2)(i) using trawl gear and fishing or receiving fish in the BSAI and in adjacent waters open by the State of Alaska for which it adopts a Federal fishing season. Except when using dredge gear while directed fishing for scallops, at all times when an Amendment 80 vessel or a catcher/processor not listed in § 679.4(1)(2)(i) using trawl gear has BSAI groundfish onboard the vessel, the vessel owner or operator must ensure that:

(1) *Catch weighing.* All groundfish are weighed on a NMFS-approved scale in compliance with the scale requirements at § 679.28(b). Each haul must be weighed separately and all catch must be made available for sampling by a NMFS-certified observer.

(2) *Observer sampling station.* An observer sampling station meeting the requirements at § 679.28(d) is available at all times.

(3) *Observer coverage requirements.* The vessel is in compliance with the observer coverage requirements described at § 679.50(c)(6).

(4) *Operational line.* The vessel has no more than one operational line or other conveyance for the mechanized movement of catch between the scale used to weigh total catch and the location where the observer collects species composition samples.

(5) *Fish on deck.* No fish are allowed to remain on deck unless an observer is present, except for fish inside the codend and fish accidentally spilled from the codend during hauling and dumping. Fish accidentally spilled from the codend must be moved to the fish bin.

(6) *Sample storage.* There is sufficient space to accommodate a minimum of 10 observer sampling baskets. This space must be within or adjacent to the observer sample station.

(7) *Pre-cruise meeting.* The Observer Program Office is notified by phone at 1-907-271-1702 at least 24 hours prior to departure when the vessel will be carrying an observer who has not previously

been deployed on that vessel within the last 12 months. Subsequent to the vessel's departure notification, but prior to departure, NMFS may contact the vessel to arrange for a pre-cruise meeting. The pre-cruise meeting must minimally include the vessel operator or manager, and any observers assigned to the vessel.

(8) *Belt and flow operations.* The vessel operator stops the flow of fish and clears all belts between the bin doors and the area where the observer collects samples of unsorted catch when requested to do so by the observer.

(9) *Vessel crew in tanks or bins.* The vessel owner or operator must comply with the bin monitoring standards specified in § 679.28(i).

(d) *Catch monitoring requirements for Amendment 80 vessels fishing in the GOA.* The requirements under this section apply to any Amendment 80 vessel fishing in the GOA and in adjacent waters open by the State of Alaska for which it adopts a Federal fishing season except Amendment 80 vessels using dredge gear while directed fishing for scallops. At all times when an Amendment 80 vessel is not using dredge gear while directed fishing for scallops and has GOA groundfish onboard the vessel owner or operator must ensure that:

(1) Catch from an individual haul is not mixed with catch from another haul prior to sampling by a NMFS-certified observer, and all catch is made available for sampling by a NMFS-certified observer;

(2) The vessel is in compliance with the observer coverage requirements described at § 679.50(c)(6)(ii);

(3) *Operational Line.* The vessel has no more than one operational line or other conveyance for the mechanized movement of catch at the location where the observer collects species composition samples; and

(4) The requirements in § 679.93(c)(5), (8), and (9) are met.

(e) *Catch accounting—(1) Amendment 80 species—(i) Amendment 80 cooperative.* All Amendment 80 species caught in the BSAI, including catch in adjacent waters open by the State of Alaska for which it adopts a Federal fishing season, by an Amendment 80 vessel assigned to an Amendment 80 cooperative will be debited from the CQ permit for

that Amendment 80 cooperative for that calendar year unless that Amendment 80 vessel is using dredge gear while directed fishing for scallops.

(ii) *Amendment 80 limited access fishery.* All Amendment 80 species caught in the BSAI, including catch in adjacent waters open by the State of Alaska for which it adopts a Federal fishing season, by an Amendment 80 vessel assigned to the Amendment 80 limited access fishery will be debited against the ITAC for that Amendment 80 species in the Amendment 80 limited access fishery for that calendar year unless that Amendment 80 vessel is using dredge gear while directed fishing for scallops.

(2) *Crab PSC and halibut PSC—(i) Amendment 80 cooperative.* All crab PSC or halibut PSC used by an Amendment 80 vessel assigned to an Amendment 80 cooperative in the BSAI, including crab PSC or halibut PSC used in the adjacent waters open by the State of Alaska for which it adopts a Federal fishing season, will be debited against the CQ permit for that Amendment 80 cooperative for that calendar year unless that Amendment 80 vessel is using dredge gear while directed fishing for scallops.

(ii) *Amendment 80 limited access fishery.* All crab PSC or halibut PSC used by an Amendment 80 vessel assigned to the Amendment 80 limited access fishery in the BSAI, including crab PSC or halibut PSC used in the adjacent waters open by the State of Alaska for which it adopts a Federal fishing season, will be debited against the crab PSC or halibut PSC limit assigned to the Amendment 80 limited access fishery for that calendar year, unless that Amendment 80 vessels is using dredge gear while directed fishing for scallops.

(3) *GOA groundfish sideboard limits.* All Amendment 80 sideboard species defined in Table 37 to this part caught in the GOA, including catch in adjacent waters open by the State of Alaska for which it adopts a Federal fishing season, by an Amendment 80 vessel will be debited against the Amendment 80 sideboard limit for that Amendment 80 sideboard species for that calendar year except Amendment 80 sideboard species caught by Amendment 80 vessel using dredge gear while directed fishing for scallops.

(4) *GOA halibut sideboard limits.* All halibut PSC used by all Amendment 80 vessels in the GOA, including halibut PSC used in the adjacent waters open by the State of Alaska for which it adopts a Federal fishing season, will be debited against the sideboard limit established for the Amendment 80 sector, except:

(i) Halibut PSC CQ used by the catcher/processor sector in the Rockfish Program in the Central GOA;

(ii) Halibut PSC used by the fishing vessel GOLDEN FLEECE (USCG Documentation number 609951); and

(iii) Halibut PSC used by an Amendment 80 vessel using dredge gear while directed fishing for scallops.

#### **§ 679.94 Economic data report (EDR) for the Amendment 80 sector.**

(a) *Amendment 80 EDR—(1) Requirement to submit an EDR.* Each year except 2008, a person who held an Amendment 80 QS permit during a calendar year must submit to NMFS an EDR for that calendar year for each Amendment 80 QS permit held by that person. An EDR must be timely and complete.

(2) *Submission of EDR.* An EDR may only be submitted to NMFS using any one of the following methods:

(i) *Mail:* NMFS, Alaska Fisheries Science Center, Economic Data Reports, 7600 Sand Point Way NE, F/ AKC2, Seattle, WA 98115; or

(ii) *Fax:* 206-526-6723

(3) *EDR forms.* EDR forms are available through the Internet on the NMFS Alaska Region Web site at <http://www.fakr.noaa.gov>, or by contacting NMFS at 206-526-6414.

(4) *Deadline.* For each calendar year except 2008, a completed EDR must be received by NMFS no later than 1700 hours A.l.t. on June 1 of the year following the calendar year during which the Amendment 80 QS permit was held, or if sent by U.S. mail, postmarked by that date.

(5) *Contents of EDR.* An EDR must contain completed submissions for each data field required under paragraphs (b) and (c) of this section, as applicable, and the following information:

(i) *Calendar year of EDR.* Calendar year for which the EDR is being submitted;

(ii) *Amendment 80 QS holder information.* Name of company, partnership, other business entity, business telephone number, business fax number, e-mail address (if available) and Amendment 80 QS permits held;

(iii) *Designated representative.* An Amendment 80 QS holder must appoint an individual to be his designated representative and must ensure that the designated representative complies with the regulations in this section. The designated representative is the primary contact person for NMFS on issues relating to data required in the EDR. If an individual Amendment 80 QS holder chooses to complete the EDR, then they are the designated representative;

(iv) *Person completing this report.* (A) Indicate whether the person completing this report is the Amendment 80 QS holder, or the designated representative for the Amendment 80 QS holder;

(B) Record the name of the person completing the report, title, business telephone number, fax number, signature of the person submitting the EDR, and e-mail address (if available). If a designated representative is not the Amendment 80 QS holder, written authorization to act on behalf of the Amendment 80 QS holder must accompany the EDR;

(v) *Amendment 80 QS holders who own Amendment 80 vessels.* An Amendment 80 QS holder who is an Amendment 80 vessel owner must submit, or have his designated representative submit, revenue and cost information for each Amendment 80 QS permit held and each Amendment 80 vessel owned by that Amendment 80 QS holder as described under paragraphs (b) and (c) of this section;

(vi) *Amendment 80 QS holders who do not own Amendment 80 vessels.* An Amendment 80 QS holder who is not an Amendment 80 vessel owner must submit, or have his designated representative submit, revenue and cost information for each Amendment 80 QS permit held by that Amendment 80 QS holder as described under paragraph (c) of this section; and

(vii) *Certification.* The Amendment 80 QS holder and his designated representative, if applicable, must certify that

all information provided under paragraphs (b) and (c) of this section is accurate and complete.

(b) *Amendment 80 vessel information—*  
(1) *Ownership of an Amendment 80 vessel.* If a person owned any part of an Amendment 80 vessel during a calendar year, that person must provide the following information for each Amendment 80 vessel owned:

(i) *Amendment 80 vessel owner information.* Vessel name, USCG Documentation number, ADF&G vessel registration number, ADF&G processor code, Amendment 80 LLP license number(s) which designated that vessel during that calendar year, Amendment 80 QS permit assigned to that vessel during that calendar year, Amendment 80 limited access fishery permit number assigned to that vessel during that calendar year, or name of Amendment 80 cooperative to which that Amendment 80 vessel was assigned during that calendar year (if applicable);

(ii) *Amendment 80 vessel operator information.* If a person other than the Amendment 80 QS holder operated an Amendment 80 vessel owned by that Amendment 80 QS holder during a calendar year, provide the following: Name of company, partnership, other business entity, and business telephone number, business fax number, and e-mail address (if available);

(2) *Vessel characteristics.* (i) Home port, U.S. gross registered tonnage, net tonnage, length overall, beam, shaft horsepower, fuel capacity, year built;

(ii) Vessel survey value: most recent survey value, date of last survey value, did survey reflect value of permits and processing equipment;

(iii) Freezing capacity: maximum freezing capacity of this vessel in pounds per hour and freezer space (measured in pounds of product);

(iv) Fuel consumption: total consumption for the calendar year and average fuel consumed per hour from fishing and processing, transiting, and in shipyard.

(v) Vessel activity during calendar year: number of days the vessel was engaged in fishing, processing, steaming empty, offloading, and inactive or in shipyard. Report separately for Amendment 80 fisheries and all other fisheries; and

## Fishery Conservation and Management

§ 679.94

(vi) Processing capacity: Record each type of product processed on the line in the Amendment 80 fishery, the number of processing lines of similar type (equipment and/or product mix), and the vessel's maximum average throughput in pounds (round weight) per hour under normal operating conditions (assuming quantity of raw fish and other inputs is not limiting), totaled over all processing lines of this type.

(3) *Calendar year revenues.*

(i) Total fishery product sales volume and FOB Alaska revenue; and

(ii) All other income derived from vessel operations: tendering, charters, cargo transport, etc.

(4) *Calendar year costs.* (i) Fishing labor expenses (including bonuses and payroll taxes, but excluding benefits and insurance);

(ii) Processing labor expenses (including bonuses and payroll taxes, but excluding benefits and insurance);

(iii) Labor expenses for all other employees aboard the vessel;

(iv) Food and provisions not paid by crew;

(v) Recruitment, travel, benefits, and other employee related costs;

(vi) Lease expense for this vessel and onboard equipment;

(vii) Purchases of fishing gear (nets, net electronics, doors, cables, etc.);

(viii) Expenditures on processing equipment;

(ix) Product storage equipment;

(x) Expenditures on vessel and onboard equipment (other than fishing, processing, or storage equipment);

(xi) Fishing gear leases;

(xii) Repair and maintenance expenses for vessel and processing equipment;

(xiii) Freight storage and other sales costs;

(xiv) Product packaging materials;

(xv) Fuel and lubrication;

(xvi) Observer fees and monitoring costs;

(xvii) General administrative costs;

(xviii) Insurance;

(xix) Fisheries landing taxes;

(xx) Total raw fish purchases; and

(xxi) All other costs related to vessel operations not included in the preceding list.

(5) *Calendar year labor.* Average number and total number of employees for fishing, processing, and other activities on this vessel.

(i) Average number of hours worked per day by processing line employee; and

(ii) Crew revenue share system used for some processing, all processing, some non-processing, and all non-processing crew.

(c) *Permit revenues or expenditures.* An Amendment 80 QS holder or his designated representative will record revenues and expenditures for any tradable fishing or processing privilege. Attribute those revenues or costs to a specific Amendment 80 vessel or Amendment 80 LLP as applicable.

(1) *Permit revenues.* (i) Income from sale or lease of fishery licenses, permits, harvesting or processing rights: record license or permit number and revenue for each asset sold; and

(ii) Royalties received from leasing allocations including metric tons and dollars for Amendment 80 yellowfin sole, rock sole, flathead sole, Atka mackerel, Pacific ocean perch, Pacific cod, Amendment 80 leased halibut PSC, leased crab PSC, and any other species leased.

(2) *Permit expenditures.* (i) Fishery licenses, permits, harvesting or processing rights: record license or permit number and cost for each asset purchased;

(ii) Royalties paid for leases of catcher/processing quota, including metric tons, and dollars for Amendment 80 yellowfin sole, rock sole, flathead sole, Atka mackerel, Pacific ocean perch, Pacific cod, Amendment 80 leased halibut PSC, leased king crab PSC, and any other species leased;

(iii) Cooperative costs including lawyer and accountant costs, association fees, and other fees charged by harvest cooperative; and

(iv) Any other costs incurred from the use of fishery licenses, permits, harvesting or processing rights not included in the preceding list.

(d) *EDR audit procedures.* (1) NMFS will conduct verification of information with the Amendment 80 QS holder or designated representative, if applicable.

(2) The Amendment 80 QS holder or designated representative, if applicable, must respond to inquiries by NMFS within 20 days of the date of issuance of the inquiry.

(3) The Amendment 80 QS holder or designated representative, if applicable, must provide copies of additional data to facilitate verification by NMFS. The NMFS auditor may review and request copies of additional data provided by the Amendment 80 QS holder or designated representative, including but not limited to, previously audited or reviewed financial statements, worksheets, tax returns, invoices, receipts, and other original documents substantiating the data submitted.

#### APPENDIX A TO PART 679—PERFORMANCE AND TECHNICAL REQUIREMENTS FOR SCALES USED TO WEIGH CATCH AT SEA IN THE GROUND FISH FISHERIES OFF ALASKA

##### TABLE OF CONTENTS

1. Introduction
  2. Belt Scales
    - 2.1 Applicability
    - 2.2 Performance Requirements
      - 2.2.1 Maximum Permissible Errors
        - 2.2.1.1 Laboratory Tests
        - 2.2.1.2 Zero Load Tests
        - 2.2.1.3 Material Tests
      - 2.2.2 Minimum Flow Rate ( $\Sigma$ min)
      - 2.2.3 Minimum Totalized Load ( $\Sigma$ min)
      - 2.2.4 Influence Quantities
        - 2.2.4.1 Temperature
        - 2.2.4.2 Power Supply
    - 2.3 Technical Requirements
      - 2.3.1 Indicators and Printers
        - 2.3.1.1 General
        - 2.3.1.2 Values Defined
        - 2.3.1.3 Units
        - 2.3.1.4 Value of the Scale Division
        - 2.3.1.5 Range of Indication
        - 2.3.1.6 Resettable and Non-resettable Values
        - 2.3.1.7 Rate of Flow Indicator
        - 2.3.1.8 Printed Information
        - 2.3.1.9 Permanence of Markings
        - 2.3.1.10 Power Loss
        - 2.3.1.11 Adjustable Components
        - 2.3.1.12 Audit Trail
        - 2.3.1.13 Adjustments to Scale Weights
      - 2.3.2 Weighing Elements
        - 2.3.2.1 Speed Measurement
        - 2.3.2.2 Conveyor Belt
        - 2.3.2.3 Overload Protection
        - 2.3.2.4 Speed Control
        - 2.3.2.5 Adjustable Components
        - 2.3.2.6 Motion Compensation
      - 2.3.3 Installation Conditions
  - 2.3.4 Marking
    - 2.3.4.1 Presentation
- 2.4 Tests
  - 2.4.1 Minimum Test Load
  - 2.4.2 Laboratory Tests
    - 2.4.2.1 Influence Quantity and Disturbance Tests
    - 2.4.2.2 Zero-Load Tests
    - 2.4.2.3 Material Tests
  - 2.4.3 Annual Scale Inspections
    - 2.4.3.1 Zero-Load Tests
    - 2.4.3.2 Material Tests
3. Automatic Hopper Scales
  - 3.1 Applicability
  - 3.2 Performance Requirements
    - 3.2.1 Maximum Permissible Errors
      - 3.2.1.1 Laboratory Tests
      - 3.2.1.2 Increasing and Decreasing Load Tests
    - 3.2.2 Minimum Weighment ( $\Sigma$ min)
    - 3.2.3 Minimum Totalized Load (Lot)
    - 3.2.4 Influence Quantities
      - 3.2.4.1 Temperature
        - 3.2.4.1.1 Operating Temperature
        - 3.2.4.1.2 Power Supply
  - 3.3 Technical Requirements
    - 3.3.1 Indicators and Printers
      - 3.3.1.1 General
      - 3.3.1.2 Values Defined
      - 3.3.1.3 Units
      - 3.3.1.4 Value of the Scale Division
      - 3.3.1.5 Weighing Sequence
      - 3.3.1.6 Printing Sequence
      - 3.3.1.7 Printed Information
      - 3.3.1.8 Permanence of Markings
      - 3.3.1.9 Range of Indication
      - 3.3.1.10 Non-resettable Values
      - 3.3.1.11 Power Loss

#### ANNEX A OF APPENDIX A TO PART 679— INFLUENCE QUANTITY AND DISTURBANCE TESTS

- A.1 General
- A.2 Test considerations
- A.3 Tests
  - A.3.1 Static Temperatures
  - A.3.2 Damp Heat, Steady State
  - A.3.3 Power Voltage Variation
  - A.3.4 Short Time Power Reduction
  - A.3.5 Bursts
  - A.3.6 Electrostatic Discharge
  - A.3.7 Electromagnetic Susceptibility
- A.4 Bibliography

##### 1. Introduction

(a) This appendix to part 679 contains the performance and technical requirements for scales to be approved by NMFS for use to weigh, at sea, catch from the groundfish fisheries off Alaska. The performance and technical requirements in this document have not been reviewed or endorsed by the National Conference on Weights and Measures. Regulations implementing the requirements of this appendix and additional requirements for and with respect to scales used to weigh catch at sea are found at 50 CFR 679.28(b).

(b) Revisions, amendments, or additions to this appendix may be made after notice and opportunity for public comments. Send re-

quests for revisions, amendments, or additions to the Sustainable Fisheries Division, Alaska Region, NMFS, P.O. Box 21668, Juneau, AK 99802.

(c) *Types of Scales Covered by Appendix*—This appendix contains performance and technical requirements for belt, automatic hopper, platform, and hanging scales.

(d) *Testing and Approval of Scales Used to Weigh Catch at Sea*—Scales used to weigh catch at sea are required to comply with four categories of performance and technical requirements: (1) Type evaluation; (2) initial inspection after installation while the vessel is tied up at a dock and is not under power at sea; (3) annual reinspection while the vessel is tied up at a dock and is not under power at sea; and (4) daily at-sea tests of the scale's accuracy. This appendix contains only the performance and technical requirements for type evaluation and initial and annual reinspections by an authorized scale inspector.

##### 2. Belt Scales

2.1 *Applicability*. The requirements in this section apply to a scale or scale system that employs a conveyor belt in contact with a weighing element to determine the weight of a bulk commodity being conveyed across the scale.

2.2 *Performance Requirements*—2.2.1 *Maximum Permissible Errors*. For laboratory tests of a scale and initial inspections and annual reinspections of an installed scale when the vessel is tied up at a dock and is not under power at sea, the following maximum permissible errors (MPEs) are specified:

2.2.1.1 *Laboratory Tests*. See annex A to this appendix A for procedures for disturbance tests and influence factors.

a. *Disturbances*.  $\pm 0.18$  percent of the weight of the load totalized.

b. *Influence Factors*.  $\pm 0.25$  percent of the weight of the load totalized.

c. *Temperature Effect at Zero Flow Rate*. The difference between the values obtained at zero flow rate taken at temperatures that differ by  $10\text{ }^{\circ}\text{C} \pm 0.2\text{ }^{\circ}\text{C}$  must not be greater than 0.035 percent of the weight of the load totalized at the maximum flow-rate for the time of the test.

2.2.1.2 *Zero Load Tests*. For zero load tests conducted in a laboratory or on a scale installed on a vessel and conducted when the vessel is tied up at a dock and not under power at sea,  $\pm 0.1$  percent of the value of the minimum totalized load or 1 scale division (d), whichever is greater.

2.2.1.3 *Material Tests*. For material tests conducted in a laboratory or on a scale installed on a vessel and conducted when the vessel is tied up at a dock and not under power at sea,  $\pm 1.0$  percent of the known weight of the test material.

2.2.2 *Minimum Flow Rate ( $Q_{min}$ )*. The minimum flow rate must be specified by the

manufacturer and must not be greater than 35 percent of the rated capacity of the scale in kilograms per hour (kg/hr) or metric tons per hour (mt/hr).

2.2.3 *Minimum Totalized Load* ( $\Sigma$ min). The minimum totalized load must not be less than the greater of—

- a. Two percent of the load totalized in 1 hour at the maximum flow rate;
- b. The load obtained at the maximum flow rate in 1 revolution of the belt; or
- c. A load equal to 800 scale divisions (d).

2.2.4 *Influence Quantities*. The following requirements apply to influence factor tests conducted in the laboratory.

2.2.4.1 *Temperature*. A belt scale must comply with the performance and technical requirements at a range of temperatures from  $-10^{\circ}\text{C}$  to  $+40^{\circ}\text{C}$ . However, for special applications the temperature range may be different, but the range must not be less than  $30^{\circ}\text{C}$  and must be so specified on the scale's descriptive markings.

2.2.4.2 *Power Supply*. A belt scale must comply with the performance and technical requirements when operated within a range of  $-15$  percent to  $+10$  percent of the power supply specified on the scale's descriptive markings.

2.3.1 *Technical Requirements*.

2.3.1 *Indicators and Printers*.

2.3.1.1 *General*. A belt scale must be equipped with an indicator capable of displaying both the weight of fish in each haul or set and the cumulative weight of all fish or other material weighed on the scale between annual inspections ("the cumulative weight"), a rate of flow indicator, and a printer. The indications and printed representations must be clear, definite, accurate, and easily read under all conditions of normal operation of the belt scale.

2.3.1.2 *Values Defined*. If indications or printed representations are intended to have specific values, these must be defined by a sufficient number of figures, words, or symbols, uniformly placed with reference to the indications or printed representations and as close as practicable to the indications or printed representations but not so positioned as to interfere with the accuracy of reading.

2.3.1.3 *Units*. The weight of each haul or set must be indicated in kilograms, and the cumulative weight must be indicated in either kilograms or metric tons and decimal subdivisions.

2.3.1.4 *Value of the Scale Division*. The value of the scale division (d) expressed in a unit of weight must be equal to 1, 2, or 5, or a decimal multiple or sub-multiple of 1, 2, or 5.

2.3.1.5 *Range of Indication*. The range of the weight indications and printed values for each haul or set must be from 0 kg to 999,999 kg and for the cumulative weight must be from 0 to 99,999 metric tons.

2.3.1.6 *Resettable and Non-resettable Values*. The means to indicate the weight of fish in each haul or set must be resettable to zero. The means to indicate the cumulative weight must not be resettable to zero without breaking a security means and must be reset only upon direction of NMFS or an authorized scale inspector.

2.3.1.7 *Rate of Flow Indicator*. Permanent means must be provided to produce an audio or visual signal when the rate of flow is less than the minimum flow rate or greater than 98 percent of the maximum flow rate.

2.3.1.8 *Printed Information*. The information printed must include—

- a. For catch weight:
  - i. The vessel name;
  - ii. The Federal fisheries or processor permit number of the vessel;
  - iii. The haul or set number;
  - iv. The total weight of catch in each haul or set;
  - v. The total cumulative weight of all fish or other material weighed on the scale; and
  - vi. The date and time the information is printed.
- b. For the audit trail:
  - i. The vessel name;
  - ii. The Federal fisheries or processor permit number of the vessel;
  - iii. The date and time (to the nearest minute) that the adjustment was made;
  - iv. The name or type of adjustment being made; and
  - v. The initial and final values of the parameter being changed.

2.3.1.9 *Permanence of Markings*. All required indications, markings, and instructions must be distinct and easily readable and must be of such character that they will not tend to become obliterated or illegible.

2.3.1.10 *Power Loss*. In the event of a power failure, means must be provided to retain in a memory the weight of fish in each haul or set for which a printed record has not yet been made, the cumulative weight, and the information on the audit trail.

2.3.1.11 *Adjustable Components*. An adjustable component that when adjusted affects the performance or accuracy of the scale must be held securely in position and must not be capable of adjustment without breaking a security means unless a record of the adjustment is made on the audit trail described in 2.3.1.12.

2.3.1.12 *Audit Trail*. An audit trail in the form of an event logger must be provided to document changes made using adjustable components. The following information must be provided in an electronic form that cannot be changed or erased by the scale operator, can be printed at any time, and can be cleared by the scale manufacturer's representative upon direction by NMFS or by an authorized scale inspector:

- a. The date and time (to the nearest minute) of the change;

b. The name or type of adjustment being made; and

c. The initial and final values of the parameter being changed.

2.3.1.13 *Adjustments to Scale Weights.* The indicators and printer must be designed so that the scale operator cannot change or adjust the indicated and printed weight values.

2.3.2 *Weighing Elements.*

2.3.2.1 *Speed Measurement.* A belt scale must be equipped with means to accurately sense the belt travel and/or speed whether the belt is loaded or empty.

2.3.2.2 *Conveyor Belt.* The weight per unit length of the conveyor belt must be practically constant. Belt joints must be such that there are no significant effects on the weighing results.

2.3.2.3 *Overload Protection.* The load receiver must be equipped with means so that an overload of 150 percent or more of the capacity does not affect the metrological characteristics of the scale.

2.3.2.4 *Speed Control.* The speed of the belt must not vary by more than 5 percent of the nominal speed.

2.3.2.5 *Adjustable Components.* An adjustable component that can affect the performance of the belt scale must be held securely in position and must not be capable of adjustment without breaking a security means.

2.3.2.6 *Motion Compensation.* A belt scale must be equipped with automatic means to compensate for the motion of a vessel at sea so that the weight values indicated are within the MPEs. Such means shall be a reference load cell and a reference mass weight or other equally effective means. When equivalent means are utilized, the manufacturer must provide NMFS with information demonstrating that the scale can weigh accurately at sea.

2.3.3 *Installation Conditions.* A belt scale must be rigidly installed in a level condition.

2.3.4 *Marking.* A belt scale must be marked with the—

a. Name, initials, or trademark of the manufacturer or distributor;

b. Model designation;

c. Non-repetitive serial number;

d. Maximum flow rate ( $Q_{max}$ );

e. Minimum flow rate ( $Q_{min}$ );

f. Minimum totalized load ( $\Sigma_{min}$ );

g. Value of a scale division ( $d$ );

h. Belt speed;

i. Weigh length;

j. Maximum capacity ( $Max$ );

k. Temperature range (if applicable); and

l. Mains voltage.

2.3.4.1 *Presentation.* The markings must be reasonably permanent and of such size, shape, and clarity to provide easy reading in normal conditions of use. They must be grouped together in a place visible to the operator.

2.4 *Tests.*

2.4.1 *Minimum Test Load.* The minimum test load must be the greater of—

a. 2 percent of the load totalized in 1 hour at the maximum flow rate;

b. The load obtained at maximum flow rate in one revolution of the belt; or

c. A load equal to 800 scale divisions.

2.4.2 *Laboratory Tests.*

2.4.2.1 *Influence Quantity and Disturbance Tests.* Tests must be conducted according to annex A and the results of these tests must be within the values specified in section 2.2.1.1.

2.4.2.2 *Zero-Load Tests.* A zero-load test must be conducted for a time equal to that required to deliver the minimum totalized load ( $\Sigma_{min}$ ). At least two zero-load tests must be conducted prior to a material test. The results of these tests must be within the values specified in section 2.2.1.2.

2.4.2.3 *Material Tests.* At least one material test must be conducted with the weight of the material or simulated material equal to or greater than the minimum test load. The results of these tests must be within the values specified in section 2.2.1.3.

2.4.3 *Annual Inspections.*

2.4.3.1 *Zero-Load Tests.* A zero-load test must be conducted for a time equal to that required to deliver the minimum totalized load ( $\Sigma_{min}$ ). At least one zero-load test must be conducted prior to each material test. The results of this test must be within the values specified in section 2.2.1.2.

2.4.3.2 *Material Tests.* At least one material or simulated material test must be conducted with the weight of the material or simulated material equal to or greater than the minimum test load. The results of these tests must be within the values specified in section 2.2.1.3.

3. *Automatic Hopper Scales*

3.1 *Applicability.* The requirements in this section apply to a scale or scale system that is designed for automatic weighing of a bulk commodity in predetermined amounts.

3.2 *Performance Requirements.*

3.2.1 *Maximum Permissible Errors.* For laboratory tests of a scale and initial inspection and annual reinspections of an installed scale when the vessel is tied up at a dock and is not under power at sea, the following MPEs are specified:

3.2.1.1 *Laboratory Tests.* See annex A to appendix A for procedures for disturbance test and influence factors.

a. *Disturbances.* Significant fault ( $sf$ ) ( $\pm$ scale division).

b. *Influence Factors.*  $\pm 1$  percent of test load.

3.2.1.2 *Increasing and Decreasing Load Tests.* For increasing and decreasing load tests conducted in a laboratory or on a scale installed on a vessel tied up at a dock and not under power at sea,  $\pm 1.0$  percent of the test load.

3.2.2 *Minimum Weighment* ( $\Sigma$ min). The minimum weighment must not be less than 20 percent of the weighing capacity, or a load equal to 100 scale intervals (d), except for the final weighment of a lot.

3.2.3 *Minimum Totalized Load* (Lot). The minimum totalized load must not be less than 4 weighments.

3.2.4 *Influence Quantities*. The following requirements apply to influence factor tests conducted in the laboratory:

3.2.4.1 *Temperature*. A hopper scale must comply with the metrological and technical requirements at temperatures from  $-10^{\circ}\text{C}$  to  $+40^{\circ}\text{C}$ . However, for special applications the temperature range may be different, but the range must not be less than  $30^{\circ}\text{C}$  and must be so specified on the scale's descriptive markings.

3.2.4.1.1 *Operating Temperature*. A hopper scale must not display or print any usable weight values until the operating temperature necessary for accurate weighing and a stable zero-balance condition have been attained.

3.2.4.2 *Power Supply*. A hopper scale must comply with the performance and technical requirements when operated within  $-15$  percent to  $+10$  percent of the power supply specified on the scale's descriptive markings.

### 3.3 *Technical Requirements*.

#### 3.3.1 *Indicators and Printers*.

3.3.1.1 *General*. a. A hopper scale must be equipped with an indicator and printer that indicates and prints the weight of each load and a no-load reference value; and a printer that prints the total weight of fish in each haul or set and the total cumulative weight of all fish and other material weighed on the scale between annual inspections ("the cumulative weight"). The indications and printed information must be clear, definite, accurate, and easily read under all conditions of normal operation of the hopper scale.

b. A no-load reference value may be a positive or negative value in terms of scale divisions or zero. When the no-load reference value is zero, the scale must return to a zero indication (within  $\pm 0.5$  scale division) when the load receptor (hopper) is empty following the discharge of all loads, without the intervention of either automatic or manual means.

3.3.1.2 *Values Defined*. If indications or printed representations are intended to have specific values, these must be defined by a sufficient number of figures, words, or symbols, uniformly placed with reference to the indications or printed representations and as close as practicable to the indications or printed representations but not so positioned as to interfere with the accuracy of reading.

3.3.1.3 *Units*. The weight of each haul or set must be indicated in kilograms, and the cumulative weight must be indicated in ei-

ther kilograms or metric tons and decimal subdivisions.

3.3.1.4 *Value of the Scale Division*. The value of the scale division (d) expressed in a unit of weight must be equal to 1, 2, or 5, or a decimal multiple or sub-multiple of 1, 2, or 5.

3.3.1.5 *Weighing Sequence*. For hopper scales used to receive (weigh in), the no-load reference value must be determined and printed only at the beginning of each weighing cycle. For hopper scales used to deliver (weigh out), the no-load reference value must be determined and printed only after the gross-load weight value for each weighing cycle has been indicated and printed.

3.3.1.6 *Printing Sequence*. Provision must be made so that all weight values are indicated until the completion of the printing of the indicated values.

3.3.1.7 *Printed Information*. The information printed must include—

- a. For catch weight:
  - i. The vessel name;
  - ii. The Federal fisheries or processor permit number of the vessel;
  - iii. The haul or set number;
  - iv. The total weight of catch in each haul or set;
  - v. The total cumulative weight of all fish or other material weighed on the scale; and
  - vi. The date and time the information is printed.
- b. For the audit trail:
  - i. The vessel name;
  - ii. The Federal fisheries or processor permit number of the vessel;
  - iii. The date and time (to the nearest minute) of the change;
  - iv. The name or type of adjustment being made; and
  - v. The initial and final values of the parameter being changed.

3.3.1.8 *Permanence of Markings*. All required indications, markings, and instructions must be distinct and easily readable and must be of such character that they will not tend to become obliterated or illegible.

3.3.1.9 *Range of Indication*. The range of the weight indications and printed values for each haul or set must be from 0 kg to 999,999 kg and for the cumulative weight must be from 0 to 99,999 metric tons.

3.3.1.10 *Non-Resettable Values*. The cumulative weight must not be resettable to zero without breaking a security means and must be reset only upon direction by NMFS or by an authorized scale inspector.

3.3.1.11 *Power Loss*. In the event of a power failure, means must be provided to retain in a memory the weight of fish in each haul or set for which a printed record has not yet been made, the cumulative weight, and the information on the audit trail described in 3.3.1.13.

3.3.1.12 *Adjustable Components*. An adjustable component that, when adjusted, affects

the performance or accuracy of the scale must not be capable of adjustment without breaking a security means, unless a record of the adjustment is made on the audit trail described in 3.3.1.13.

3.3.1.13 *Audit Trail.* An audit trail in the form of an event logger must be provided to document changes made using adjustable components. The following information must be provided in an electronic form that cannot be changed or erased by the scale operator, can be printed at any time, and can be cleared by the scale manufacturer's representative upon direction of NMFS or by an authorized scale inspector:

- a. The date and time (to the nearest minute) of the change;
- b. The name or type of adjustment being made; and
- c. The initial and final values of the parameter being changed.

3.3.1.14 *Zero-Load Adjustment.* A hopper scale must be equipped with a manual or semi-automatic means that can be used to adjust the zero-load balance or no-load reference value.

3.3.1.14.1 *Manual.* A manual means must be operable or accessible only by a tool outside of, or entirely separate from, this mechanism or enclosed in a cabinet.

3.3.1.14.2 *Semi-Automatic.* A semi-automatic means must be operable only when the indication is stable within  $\pm 1$  scale division and cannot be operated during a weighing cycle (operation).

3.3.1.15 *Damping Means.* A hopper scale must be equipped with effective automatic means to bring the indications quickly to a readable stable equilibrium. Effective automatic means must also be provided to permit the recording of weight values only when the indication is stable within plus or minus one scale division.

3.3.1.16 *Adjustments to Scale Weights.* The indicators and printer must be designed so that the scale operator cannot change or adjust the indicated and printed weight values.

3.3.2 *Interlocks and Gate Control.* A hopper scale must have operating interlocks so that—

- a. Product cannot be weighed if the printer is disconnected or subject to a power loss;
- b. The printer cannot print a weight if either of the gates leading to or from the weigh hopper is open;
- c. The low paper sensor of the printer is activated;
- d. The system will operate only in the sequence intended; and
- e. If the overfill sensor is activated, this condition is indicated to the operator and is printed.

3.3.3 *Overfill Sensor.* The weigh hopper must be equipped with an overfill sensor that will cause the feed gate to close, activate an alarm, and stop the weighing operation until the overfill condition has been corrected.

3.3.4 *Weighing Elements.*

3.3.4.1 *Overload Protection.* The weigh hopper must be equipped with means so that an overload of 150 percent or more of the capacity of the hopper does not affect the metrological characteristics of the scale.

3.3.4.2 *Adjustable Components.* An adjustable component that can affect the performance of the hopper scale must be held securely in position and must not be capable of adjustment without breaking a security means.

3.3.4.3 *Motion Compensation.* A hopper scale must be equipped with automatic means to compensate for the motion of a vessel at sea so that the weight values indicated are within the MPEs. Such means shall be a reference load cell and a reference mass weight or other equally effective means. When equivalent means are utilized, the manufacturer must provide NMFS with information demonstrating that the scale can weigh accurately at sea.

3.3.5 *Installation Conditions.* A hopper scale must be rigidly installed in a level condition.

3.3.6 *Marking.* A hopper scale must be marked with the following:

- a. Name, initials, or trademark of the manufacturer or distributor;
- b. Model designation;
- c. Non-repetitive serial number;
- d. Maximum capacity (Max);
- e. Minimum capacity (min);
- f. Minimum totalized load ( $\Sigma$ min);
- g. Minimum weighment;
- h. Value of the scale division (d);
- i. Temperature range (if applicable); and
- j. Mains voltage.

3.3.6.1 *Presentation.* Descriptive markings must be reasonably permanent and grouped together in a place visible to the operator.

3.4 *Tests.*

3.4.1 *Standards.* The error of the standards used must not exceed 25 percent of the MPE to be applied.

3.4.2 *Laboratory Tests.*

3.4.2.1 *Influence Quantity and Disturbance Tests.* Tests must be conducted according to annex A and the results of these tests must be within the values specified in section 3.2.1.1.

3.4.2.2 *Performance Tests.* Performance tests must be conducted as follows:

a. *Increasing load test.* At least five increasing load tests must be conducted with test loads at the minimum load, at a load near capacity, and at 2 or more critical points in between; and

b. *Decreasing load test.* A decreasing load test must be conducted with a test load approximately equal to one-half capacity when removing the test loads of an increasing load test.

3.4.3 *Annual Inspections.*

At least two increasing load tests and two decreasing load tests must be conducted as specified in 3.4.2.2. Additionally, tests must

be conducted with test loads approximately equal to the weight of loads at which the scale is normally used.

#### 4. Platform Scales and Hanging Scales

4.1 *Applicability.* The requirements in this section apply to platform and hanging scales used to weigh total catch. Platform scales used only as observer sampling scales or to determine the known weight of fish for a material test of another scale are not required to have a printer under sections 4.3.1 and 4.3.1.5 or an audit trail under section 4.3.1.8.

##### 4.2 Performance Requirements.

4.2.1 *Maximum Permissible Errors.* For laboratory tests of a scale and initial inspection and annual reinspections of an installed scale while the vessel is tied up at a dock and is not under power at sea, the following MPEs are specified:

4.2.1.1 *Laboratory Tests.* See annex A to this appendix A for procedures for disturbance tests and influence factors.

a. *Disturbances.* Significant fault ( $\pm 1$  scale division); and

b. *Influence Factors.* See Table 1 in section 4.2.1.2.

4.2.1.2 *Increasing and Decreasing Load and Shift Tests.* Increasing and decreasing load and shift tests conducted in a laboratory or on a scale installed on a vessel while the vessel is tied up at a dock and is not under power at sea, see Table 1 as follows:

TABLE 1—INFLUENCE FACTORS

| Test load in scale divisions (d) |                    | Maximum permissible error (d) |
|----------------------------------|--------------------|-------------------------------|
| Class III <sup>1</sup>           | Class IIII         |                               |
| 0 < m <sup>2</sup> ≤ 500 .....   | 0 < m ≤ 50 .....   | 0.5                           |
| 500 < m ≤ 2000 .....             | 50 < m ≤ 200 ..... | 1.0                           |
| 2000 < m .....                   | 200 < m .....      | 1.5                           |

<sup>1</sup> Scale accuracy classes are defined in section 4.2.2, table 2.

<sup>2</sup> Mass or weight of the test load in scale divisions.

4.2.2 *Accuracy Classes.* Scales are divided into two accuracy classes, class III and class IIII. The accuracy class of a scale is designated by the manufacturer. The design of each accuracy class with respect to number of scale divisions (n) and the value of the scale division (d) is specified according to table 2:

TABLE 2—ACCURACY CLASSES

| Accuracy class | Value of scale division (d) | Number of scale divisions (n) |         |
|----------------|-----------------------------|-------------------------------|---------|
|                |                             | Minimum                       | Maximum |
| III .....      | 5 g or greater              | 500                           | 10,000  |
| IIII .....     | 5 g or greater              | 100                           | 1,000   |

4.2.3 *Minimum Load.* For a Class III scale, 20d; for a Class IIII scale, 10d.

4.2.4 *Influence Quantities.* The following requirements apply to influence factor tests conducted in the laboratory.

4.2.4.1 *Temperature.* A scale must comply with the performance and technical requirements at temperatures from  $-10^{\circ}\text{C}$  to  $+40^{\circ}\text{C}$ . However, for special applications the temperature range may be different, but the range must not be less than  $30^{\circ}\text{C}$  and must be so specified on the descriptive markings.

4.2.4.1.1 *Operating Temperature.* A scale must not display or print any usable weight values until the operating temperature necessary for accurate weighing and a stable zero-balance condition have been attained.

4.2.4.2 *Power Supply.* A scale must comply with the performance and technical requirements when operated within  $-15$  percent to  $+10$  percent of the power supply specified on the scale's descriptive markings.

##### 4.3 Technical Requirements.

##### 4.3.1 Indicators and Printers.

4.3.1.1 *General.* A scale must be equipped with an indicator and a printer. The indications and printed information must be clear, definite, accurate, and easily read under all conditions of normal operation of the scale.

4.3.1.2 *Values Defined.* If indications or printed representations are intended to have specific values, these must be defined by a sufficient number of figures, words, or symbols, uniformly placed with reference to the indications or printed representations and as close as practicable to the indications or printed representations but not so positioned as to interfere with the accuracy of reading.

4.3.1.3 *Units.* The weight units indicated must be in terms of kilograms and decimal subdivisions.

4.3.1.4 *Value of the Scale Division.* The value of the scale division (d) expressed in a unit of weight must be equal to 1, 2, or 5, or a decimal multiple or sub-multiple of 1, 2, or 5.

4.3.1.5 *Printed Information.* The information printed must include—

a. For catch weight:

- The vessel name;
- The Federal fisheries or processor permit number of the vessel;
- The haul or set number;
- Net weight of the fish.

b. For the audit trail:

- The vessel name;
- The Federal fisheries or processor permit number of the vessel;
- The date and time (to the nearest minute) of the change;
- The name or type of adjustment being made; and
- The initial and final values of the parameter being changed.

4.3.1.6 *Permanence of Markings.* All required indications, markings, and instructions must be distinct and easily readable and must be of such character that they will not tend to become obliterated or illegible.

4.3.1.7 *Power Loss.* In the event of a power failure, means must be provided to retain in a memory the weight of the last weighment if it is a non-repeatable weighment.

4.3.1.8 *Adjustable Components.*

a. An adjustable component that, when adjusted, affects the performance or accuracy of the scale must be held securely in position and must not be capable of adjustment without breaking a security means.

b. An audit trail in the form of an event logger must be provided to document changes made using adjustable components. The following information must be provided in an electronic form that cannot be changed or erased by the scale operator, can be printed at any time, and can be cleared by the scale manufacturer's representative upon direction of NMFS or an authorized scale inspector:

- i. The date and time (to the nearest minute) of the change;
- ii. The name or type of adjustment being made; and
- iii. The initial and final values of the parameter being changed.

4.3.1.9 *Zero-Load Adjustment.* A scale must be equipped with a manual or semi-automatic means that can be used to adjust the zero-load balance or no-load reference value.

4.3.1.9.1 *Manual.* A manual means must be operable or accessible only by a tool outside of or entirely separate from this mechanism or enclosed in a cabinet.

4.3.1.9.2 *Semi-automatic.* A semi-automatic means must meet the provisions of 4.3.1.8 or must be operable only when the indication is stable within  $\pm 1$  scale division and cannot be operated during a weighing cycle (operation).

4.3.1.10 *Damping Means.* A scale must be equipped with effective automatic means to bring the indications quickly to a readable stable equilibrium. Effective automatic means must also be provided to permit the recording of weight values only when the indication is stable within plus or minus one scale division.

4.3.2 *Weighing Elements.*

4.3.2.1 *Overload Protection.* The scale must be so designed that an overload of 150 percent or more of the capacity does not affect the metrological characteristics of the scale.

4.3.2.2 *Adjustable Components.* An adjustable component that can affect the performance of the scale must be held securely in position and must not be capable of adjustment without breaking a security means.

4.3.2.3 *Motion Compensation.* A platform scale must be equipped with automatic means to compensate for the motion of a vessel at sea so that the weight values indicated are within the MPEs. Such means shall be a reference load cell and a reference mass weight or other equally effective means. When equivalent means are utilized, the manufacturer must provide NMFS with in-

formation demonstrating that the scale can weigh accurately at sea.

4.3.3 *Installation Conditions.* A platform scale must be rigidly installed in a level condition. When in use, a hanging scale must be freely suspended from a fixed support or a crane.

4.3.4 *Marking.* A scale must be marked with the following:

- a. Name, initials, or trademark of the manufacturer or distributor;
- b. Model designation;
- c. Non-repetitive serial number;
- d. Accuracy class (III or IIII);
- e. Maximum capacity (Max);
- f. Minimum capacity (min);
- g. Value of a scale division (d);
- h. Temperature range (if applicable); and
- i. Mains voltage.

4.3.4.1 *Presentation.* Descriptive markings must be reasonably permanent and grouped together in a place visible to the operator.

4.4 *Tests.*

4.4.1 *Standards.* The error of the standards used must not exceed 25 percent of the MPE applied.

4.4.2 *Laboratory Tests.*

4.4.2.1 *Influence Quantities and Disturbance Tests.* Tests must be conducted according to annex A to this appendix A, and the results of these tests must be within the values specified in section 4.2.1.1.

4.4.2.2 *Performance Tests.* Performance tests must be conducted as follows:

a. *Increasing load test.* At least five increasing load tests must be conducted with test loads at the minimum load, at a load near capacity, and at 2 or more critical points in between.

b. *Shift test (platform scales only).* A shift test must be conducted during the increasing load test at one-third capacity test load centered in each quadrant of the platform.

c. *Decreasing load test.* A decreasing load test must be conducted with a test load approximately equal to one-half capacity when removing the test loads of an increasing load test.

4.4.3 *Annual Scale Inspections.*

At least two increasing load tests, shift tests, and decreasing load tests must be conducted as specified in section 4.4.2.2. Additionally tests must be conducted with test loads approximately equal to the weight of loads at which the scale is normally used. The results of all tests must be as specified in Table 1 in section 4.2.1.2.

## 5. Definitions

*Adjustable component*—Any component that, when adjusted, affects the performance or accuracy of the scale, e.g., span adjustment or automatic zero-setting means. Manual or semi-automatic zero-setting means are not considered adjustable components.

*Audit trail*—An electronic count and/or information record of the changes to the values of the calibration or configuration parameters of a scale.

*Automatic hopper scale*—A hopper scale adapted to the automatic weighing of a bulk commodity (fish) in predetermined amounts. Capacities vary from 20 kg to 50 mt. It is generally equipped with a control panel, with functions to be set by an operator, including the start of an automatic operation. (See definition of hopper scale).

*Belt scale*—A scale that employs a conveyor belt in contact with a weighing element to determine the weight of a bulk commodity being conveyed. It is generally a part of a system consisting of an input conveyor, the flow scale, and an output conveyor. The conveyor belt may be constructed of various materials, including vulcanized rubber, canvas, and plastic. The capacity is generally specified in terms of the amount of weight that can be determined in a specified time, and can vary from, for example, 1 ton per hour to 100 or more tons per hour. An operator generally directs the flow of product onto the input conveyor.

*Calibration mode*—A means by which the span of a scale can be adjusted by placing a known “test weight” on the scale and manually operating a key on a key board.

*Disturbances*—An influence that may occur during the use of a scale but is not within the rated operating conditions of the scale.

*Event logger*—A form of audit trail containing a series of records where each record contains the identification of the parameter that was changed, the time and date when the parameter was changed, and the new value of the parameter.

*Final weighment*—The last partial load weighed on a hopper scale that is part of the weight of many loads.

*Hanging scale*—A scale that is designed to weigh a load that is freely suspended from an overhead crane or it may be permanently installed in an overhead position. The load receiver may be a part of the scale such as a pan suspended on chains, or simply a hook that is used to “pick-up” the container of the commodity to be weighed. The technology employed may be mechanical, electro-mechanical, or electronic. The loads can be applied either manually or by such means as a crane.

*Hopper scale*—A scale designed for weighing individual loads of a bulk commodity (fish). The load receiver is a cylindrical or rectangular container mounted on a weighing element. The weighing element may be mechanical levers, a combination of levers and a load cell, or all load cells. The capacity can vary from less than 20 kg to greater than 50 mt. The loads are applied from a bulk source by such means as a conveyor or storage hopper. Each step of the weighing process, that

is the loading and unloading of the weigh hopper, is controlled by an operator.

*Indicator*—That part of a scale that indicates the quantity that is being weighed.

*Influence factor*—A value of an influence quantity, e.g., 10°, that specifies the limits of the rated operating conditions of the scale.

*Influence quantity*—A quantity that is not the subject of the measurement but which influences the measurement obtained within the rated operating conditions of the scale.

*Influence quantity and disturbance tests*—Tests conducted in a laboratory to determine the capability of the scale under test to perform correctly in the environmental influences in which they are used and when subjected to certain disturbances that may occur during the use of the scale.

*Initial verification*—The first evaluation (inspection and test) of a production model of a weighing instrument that has been type evaluated to determine that the production model is consistent with the model that had been submitted for type evaluation.

*Known weight test*—A test in which the load applied is a test weight with a known value simulating the weight of the material that is usually weighed.

*Load receiver*—That part of the scale in which the quantity is placed when being weighed.

*Material test*—A test using a material that is the same or similar to the material that is usually weighed, the weight of which has been determined by a scale other than the scale under test.

*Maximum flow-rate*—The maximum flow-rate of material specified by the manufacturer at which a belt scale can perform correctly.

*Minimum flow-rate*—The minimum flow-rate specified by the manufacturer at which a belt scale can perform correctly.

*Minimum load*—The smallest weight load that can be determined by the scale that is considered to be metrologically acceptable.

*Minimum totalized load*—The smallest weight load that can be determined by a belt scale that is considered to be metrologically acceptable.

*Minimum weighment*—The smallest weight that can be determined by a hopper scale that is considered to be metrologically acceptable.

*Motion compensation*—The means used to compensate for the motion of the vessel at sea.

*No-load reference value*—A weight value obtained by a hopper scale when the load receiver (hopper) is empty of the product that was or is to be weighed.

*Non-repeatable weighment*—A process where the product after being weighed is disposed of in such a manner that it cannot be retrieved to be reweighed.

*Number of scale divisions (n)*—The number of scale divisions of a scale in normal operation. It is the quotient of the scale capacity divided by the value of the scale division.  $n = \text{Max}/d$

*Performance requirements*—A part of the regulations or standards that applies to the weighing performance of a scale, e.g., MPES.

*Performance test*—A test conducted to determine that the scale is performing within the MPE applicable.

*Periodic verification*—A verification of a weighing instrument at an interval that is specified by regulation or administrative ruling.

*Platform scale*—A scale by the nature of its physical size, arrangement of parts, and relatively small capacity (generally 220 kg or less) that is adapted for use on a bench or counter or on the floor. A platform scale can be self contained, that is, the indicator and load receiver and weighing elements are all comprised of a single unit, or the indicator can be connected by cable to a separate load receiver and weighing element. The technology used may be mechanical, electro-mechanical, or electronic. Loads are applied manually.

*Rated capacity*—The maximum flow-rate in terms of weight per unit time specified by the manufacturer at which a belt scale can perform correctly.

*Scale division (d)*—The smallest digital subdivision in units of mass that is indicated by the weighing instrument in normal operation.

*Sealing*—A method used to prevent the adjustment of certain operational characteristics or to indicate that adjustments have been made to those operational characteristics.

*Security seals or means*—A physical seal such as a lead and wire seal that must be broken in order to change the operating or performance characteristics of the scale, or a number generated by the scale whenever a change is made to an adjustable component. The number must be sequential and it must not be possible for the scale operator to alter it. The number must be displayed whenever the scale is turned on.

*Significant fault*—An error greater than the value specified for a particular scale. For a belt scale: A fault greater than 0.18 percent of the weight value equal to the minimum totalized load. For all other scales: 1 scale division (d). A significant fault does not include faults that result from simultaneous and mutually independent causes in the belt scale; faults that imply the impossibility of performing any measurement; transitory faults that are momentary variations in the indications that cannot be interpreted, memorized, or transmitted as a measurement result; faults so serious that they will inevitably be noticed by those interested in the measurement.

*Simulated material test*—A test in which the load applied is test material simulating the weight of the material that is usually weighed.

*Simulated test*—A test in which the weight indications are developed by means other than weight, e.g., a load cell simulator.

*Stationary installation*—An installation of a scale in a facility on land or a vessel that is tied-up to a dock or in dry dock.

*Subsequent verification*—Any evaluation of a weighing instrument following the initial verification.

*Suitability for use*—A judgement that must be made that certain scales by nature of their design are appropriate for given weighing applications.

*Technical requirements*—A part of the regulations or standards that applies to the operational functions and characteristics of a scale, e.g., capacity, scale division, tare.

*Testing laboratory*—A facility for conducting type evaluation examinations of a scale that can establish its competency and proficiency by such means as ISO Guide 25, ISO 9000, EN 45011, NVLAP, NTEP.

*Type evaluation*—A process for evaluating the compliance of a weighing instrument with the appropriate standard or regulation.

*User requirements*—A part of the regulations or standards that applies to the operator/owner of the scale.

*Weighment*—A single complete weighing operation.

#### ANNEX A OF APPENDIX A TO PART 679— INFLUENCE QUANTITY AND DISTURBANCE TESTS

*A.1 General*—Included in this annex are tests that are intended to ensure that electronic scales can perform and function as intended in the environment and under the conditions specified. Each test indicates, where appropriate, the reference condition under which the intrinsic error is determined.

##### A.2 Test Considerations

A.2.1 All electronic scales of the same category must be subjected to the same performance test program.

A.2.2 Tests must be carried out on fully operational equipment in its normal operational state. When equipment is connected in other than a normal configuration, the procedure must be mutually agreed to by NMFS and the applicant.

A.2.3 When the effect of one factor is being evaluated, all other factors must be held relatively constant, at a value close to normal. The temperature is deemed to be relatively constant when the difference between the extreme temperatures noted during the test does not exceed 5 °C and the variation over time does not exceed 5 °C per hour.

A.2.4 Before the start of a test, the equipment under test (EUT) must be energized for a period of time at least equal to the warm-

up time specified by the manufacturer. The EUT must remain energized throughout the duration of the test.

### A.3 Tests

| Test                                       | Characteristics under test | Conditions applied |
|--------------------------------------------|----------------------------|--------------------|
| A.3.1 Static temperatures .....            | Influence factor .....     | MPE                |
| A.3.2 Damp heat, steady state .....        | Influence factor .....     | MPE                |
| A.3.3 Power voltage variation .....        | Influence factor .....     | MPE                |
| A.3.4 Short time power reduction .....     | Disturbance .....          | sf                 |
| A.3.5 Bursts .....                         | Disturbance .....          | sf                 |
| A.3.6 Electrostatic discharge .....        | Disturbance .....          | sf                 |
| A.3.7 Electromagnetic susceptibility ..... | Disturbance .....          | sf                 |

### A.3 Tests

#### A.3.1 Static Temperatures

*Test method:* Dry heat (non condensing) and cold.

*Object of the test:* To verify compliance with the applicable MPE under conditions of high and low temperature.

*Reference to standard:* See Bibliography (1).

*Test procedure in brief:* The test consists of exposure of the EUT to the high and low temperatures specified in section 2.2.4.1 for belt scales, section 3.2.4.1 for automatic hopper scales, and section 4.2.3.1 for platform scales and hanging scales, under “free air” condition for a 2-hour period after the EUT has reached temperature stability. The EUT must be tested during a weighing operation consisting of:

*For belt scales*—the totalization of the  $\Sigma_{min}$ , 2 times each at approximately the minimum flow rate, an intermediate flow rate, and the maximum flow rate.

*For platform, hanging, and automatic hopper scales*—tested with at least five different test loads or simulated loads under the following conditions:

- At a reference temperature of 20 °C following conditioning.
- At the specified high temperature, 2 hours after achieving temperature stabilization.
- At the specified low temperature, 2 hours after achieving temperature stabilization.
- At a temperature of 5° C, 2 hours after achieving temperature stabilization.
- After recovery of the EUT at the reference temperature of 20 °C.

*Test severities:* Duration: 2 hours.

*Number of test cycles:* At least one cycle.

*Maximum allowable variations:*

- All functions must operate as designed.
- All indications must be within the applicable MPEs.

*Conduct of test:* Refer to the International Electrotechnical Commission (IEC) Publications mentioned in section A.4 Bibliography (a) for detailed test procedures.

*Supplementary information to the IEC test procedures.*

*Preconditioning:* 16 hours.

*Condition of EUT:* Normal power supplied and “on” for a time period equal to or greater than the warm-up time specified by the manufacturer. Power is to be “on” for the duration of the test. Adjust the EUT as close to a zero indication as practicable prior to the test.

#### Test Sequence:

a. Stabilize the EUT in the chamber at a reference temperature of 20° C. Conduct the tests as specified in the test procedure in brief and record the following data:

- Date and time,
- Temperature,
- Relative humidity,
- Test load,
- Indication,
- Errors, and
- Functions performance.

b. Increase the temperature in the chamber to the high temperature specified. Check by measurement that the EUT has reached temperature stability and maintain the temperature for 2 hours. Following the 2 hours, repeat the tests and record the test data indicated in this A.3.1 Test Sequence section.

c. Reduce the temperature in the chamber as per the IEC procedures to the specified low temperature. After temperature stabilization, allow the EUT to soak for 2 hours. Following the 2 hours, repeat the tests and record the test data as indicated in this A.3.1 Test Sequence section.

d. Raise the temperature in the chamber as per the IEC procedures to 5 °C. After temperature stabilization, allow the EUT to soak for 2 hours. Following the 2 hours, repeat the tests and record the test data as indicated in this A.3.1 Test Sequence section. NOTE: This test relates to a –10° C to +40 °C range. For special ranges, it may not be necessary.

e. Raise the temperature in the chamber as per the IEC procedures and to the 20 °C reference temperature. After recovery, repeat the tests and record the test data as indicated in this A.3.1 Test Sequence section.

#### A.3.2 Damp Heat, Steady State

*Test method:* Damp heat, steady state.

*Object of the test:* To verify compliance with the applicable MPE under conditions of high humidity and constant temperature.

*Reference to standard:* See section A.4 Bibliography (b)

*Test procedure in brief:* The test consists of exposure of the EUT to a constant temperature at the upper limit of the temperature range and of a constant relative humidity of 85 percent for a 2-day period. The EUT must be tested during a weighing operation consisting of the following:

*For belt scales*—the totalization of the  $\Sigma_{\min}$ , 2 times each at approximately the minimum flow rate, an intermediate flow rate, and the maximum flow rate.

*For platform, hanging, and automatic hopper scales*—tested with at least five different test loads or simulated loads at a reference temperature of 20 °C and a relative humidity of 50 percent following conditioning, and at the upper limit temperature and a relative humidity of 85 percent 2 days following temperature and humidity stabilization.

*Test severities:*

Temperature: upper limit.  
Humidity: 85 percent (non-condensing).  
Duration: 2 days.  
Number of test cycles: At least one test.

*Maximum Allowable Variations:*

- a. All functions must operate as designed.
- b. All indications must be within the applicable MPE.

*Conduct of the test:* Refer to the IEC Publications mentioned in section A.4 Bibliography (b) for detailed test procedures.

*Supplementary information to the IEC test procedures.*

*Preconditioning:* None required.

*Condition of EUT:*

- a. Normal power supplied and “on” for a time period equal to or greater than the warm-up time specified by the manufacturer. Power is to be “on” for the duration of the test.
- b. The handling of the EUT must be such that no condensation of water occurs on the EUT.
- c. Adjust the EUT as close to a zero indication as practicable prior to the test.

*Test Sequence:*

- a. Allow 3 hours for stabilization of the EUT at a reference temperature of 20 °C and a relative humidity of 50 percent. Following stabilization, conduct the tests as specified in the test procedures in brief and record the following data:
  - i. Date and time,
  - ii. Temperature,
  - iii. Relative humidity,
  - iv. Test load,
  - v. Indication,

vi. Errors, and

vii. Functions performance.

b. Increase the temperature in the chamber to the specified high temperature and a relative humidity of 85 percent. Maintain the EUT at no load for a period of 2 days. Following the 2 days, repeat the tests and record the test data as indicated in this A.3.2 Test Sequence section.

c. Allow full recovery of the EUT before any other tests are performed.

*A.3.3 Power Voltage Variation*

*A.3.3.1 AC Power Supply*

*Test method:* Variation in AC mains power supply (single phase).

*Object of the test:* To verify compliance with the applicable MPEs under conditions of varying AC mains power supply.

*Reference to standard:* See section A.4 Bibliography (c).

*Test procedure in brief:* The test consists of subjecting the EUT to AC mains power during a weighing operation consisting of the following:

*For belt scales*—while totalizing the  $\Sigma_{\min}$  at the maximum flow rate.

*For platform, hanging, and automatic hopper scales*—at no load and a test load between 50 percent and 100 percent of weighing capacity.

*Test severities:* Mains voltage:

Upper limit U (nom) +10 percent.

Lower limit U (nom) –15 percent.

Number of test cycles: At least one cycle.

*Maximum allowable variations:*

- a. All functions must operate correctly.
- b. All indications must be within MPEs specified in sections 2, 3, or 4 of this appendix to part 679.

*Conduct of the test:*

*Preconditioning:* None required.

*Test equipment:*

- a. Variable power source,
- b. Calibrated voltmeter, and
- c. Load cell simulator, if applicable.

*Condition of EUT:*

- a. Normal power supplied and “on” for a time period equal to or greater than the warm-up time specified by the manufacturer.
- b. Adjust the EUT as close to a zero indication as practicable prior to the test.

*Test sequence:*

- a. Stabilize the power supply at nominal voltage  $\pm 2$  percent.
- b. Conduct the tests specified in the test procedure in brief and record the following data:
  - i. Date and time,
  - ii. Temperature,
  - iii. Relative humidity,
  - iv. Power supply voltage,
  - v. Test load,
  - vi. Indications,

**Pt. 679, App. A**

- vii. Errors, and
- viii. Functions performance.
- c. Reduce the power supply to -15 percent nominal.
- d. Repeat the test and record the test data as indicated in this A.3.3 Test Sequence section.
- e. Increase the power supply to +10 percent nominal.
- f. Repeat the test and record the test data as indicated in this A.3.3 Test Sequence section.
- g. Unload the EUT and decrease the power supply to nominal power  $\pm 2$  percent.
- h. Repeat the test and record the test data as indicated in this A.3.3 Test Sequence section.

**NOTE:** In case of three-phase power supply, the voltage variation must apply for each phase successively. Frequency variation applies to all phases simultaneously.

**A.3.3.2 DC Power Supply**

Under consideration.

**A.3.4 Short Time Power Reduction**

**Test method:** Short time interruptions and reductions in mains voltage.

**Object of the test:** To verify compliance with the applicable significant fault under conditions of short time mains voltage interruptions and reductions.

**Reference to standard:** See section A.4 Bibliography (d) IEC Publication 1000-4-11 (1994).

**Test procedure in brief:** The test consists of subjecting the EUT to voltage interruptions from nominal voltage to zero voltage for a period equal to 8-10 ms, and from nominal voltage to 50 percent of nominal for a period equal to 16-20 ms. The mains voltage interruptions and reductions must be repeated ten times with a time interval of at least 10 seconds. This test is conducted during a weighing operation consisting of the following:

**For belt scales**—while totalizing at the maximum flow rate at least the  $\Sigma_{\min}$  (or a time sufficient to complete the test).

**For platform, hanging, and automatic hopper scales**—tested with one small test load or simulated load.

**Test severities:** One hundred percent voltage interruption for a period equal to 8-10 ms. Fifty percent voltage reduction for a period equal to 16-20 ms.

**Number of test cycles:** Ten tests with a minimum of 10 seconds between tests.

**Maximum allowable variations:** The difference between the weight indication due to the disturbance and the indication without the disturbance either must not exceed 1d or the EUT must detect and act upon a significant fault.

**Conduct of the Test:**

**Preconditioning:** None required.

**50 CFR Ch. VI (10-1-08 Edition)**

**Test equipment:**

- a. A test generator suitable to reduce the amplitude of the AC voltage from the mains. The test generator must be adjusted before connecting the EUT.
- b. Load cell simulator, if applicable.

**Condition of EUT:**

- a. Normal power supplied and "on" for a time period equal to or greater than the warm-up time specified by the manufacturer.
- b. Adjust the EUT as close to zero indication as practicable prior to the test.

**Test sequence:**

- a. Stabilize all factors at nominal reference conditions.
- b. Totalize as indicated in this A.3.4 Test Sequence section and record the—
  - i. Date and time,
  - ii. Temperature,
  - iii. Relative humidity,
  - iv. Power supply voltage,
  - v. Test load,
  - vi. Indications,
  - vii. Errors, and
  - viii. Functions performance.
- c. Interrupt the power supply to zero voltage for a period equal to 8-10 ms. During interruption observe the effect on the EUT and record, as appropriate.
- d. Repeat the steps four times in this A.3.4 Test Sequence section, making sure that there is a 10 second interval between repetitions. Observe the effect on the EUT.
- e. Reduce the power supply to 50 percent of nominal voltage for a period equal to 16-20 ms. During reduction observe the effect on the EUT and record, as appropriate.
- f. Repeat the steps four times in this A.3.4 Test Sequence section, making sure that there is a 10 second interval between repetitions. Observe the effect on the EUT.

**A.3.5 Bursts**

**Test method:** Electrical bursts.

**Object of the test:** To verify compliance with the provisions in this manual under conditions where electrical bursts are superimposed on the mains voltage.

**Reference to standard:** See section A.4 Bibliography (e)

**Test Procedure in brief:**

The test consists of subjecting the EUT to bursts of double exponential wave-form transient voltages. Each spike must have a rise in time of 5 ns and a half amplitude duration of 50 ns. The burst length must be 15 ms, the burst period (repetition time interval) must be 300 ms. This test is conducted during a weighing operation consisting of the following:

**For belt scales**—while totalizing at the maximum flow rate at least the  $\Sigma_{\min}$  (or a time sufficient to complete the test).

*For platform, hanging, and automatic hopper scales*—tested with one small test load or simulated load.

*Test severities:* Amplitude (peak value) 1000 V.

*Number of test cycles:* At least 10 positive and 10 negative randomly phased bursts must be applied at 1000 V.

*Maximum allowable variations:* The difference between the indication due to the disturbance and the indication without the disturbance either must not exceed the values given in sections 2.2.1.1b., 3.2.1.1b., and 4.2.1.1b. of this appendix, or the EUT must detect and act upon a significant fault.

*Conduct of the test:* Refer to the IEC Publication referenced in section A.4 Bibliography (e) for detailed test procedures.

*Supplementary information to the IEC test procedures:*

*Test equipment:*

A burst generator having an output impedance of 50 ohms.

*Test conditions:*

The burst generator must be adjusted before connecting the EUT. The bursts must be coupled to the EUT both on common mode and differential mode interference.

*Condition of EUT:*

- a. Normal power supplied and “on” for a time period equal to or greater than the warm-up time specified by the manufacturer.
- b. Adjust the EUT as close to a zero indication as practicable prior to the test.

*Test Sequence:*

- a. Stabilize all factors at nominal reference conditions.
- b. Conduct the test as indicated in this A.3.5 Test Sequence section and record the—
  - i. Date and time,
  - ii. Temperature,
  - iii. Relative humidity,
  - iv. Test load,
  - v. Indication,
  - vi. Errors, and
  - vii. Functions performance.
- c. Subject the EUT to at least 10 positive and 10 negative randomly phased bursts at the 1000 V mode. Observe the effect on the EUT and record, as appropriate.
- d. Stabilize all factors at nominal reference conditions.
- e. Repeat the test and record the test data as indicated in this A.3.5 Test Sequence section.

*A.3.6 Electrostatic Discharge*

*Test method:* Electrostatic discharge (ESD).

*Object of the test:* To verify compliance with the provisions of this manual under conditions of electrostatic discharges.

*Reference to standard:* See section A.4 Bibliography (f)

*Test procedure in brief:*

A capacitor of 150 pF is charged by a suitable DC voltage source. The capacitor is then discharged through the EUT by connecting one terminal to ground (chassis) and the other via 150 ohms to surfaces which are normally accessible to the operator. This test is conducted during a weighing operation consisting of the following:

*For belt scales*—while totalizing at the maximum flow rate at least the  $\Sigma_{\min}$  (or a time sufficient to complete the test).

*For platform, hanging, and automatic hopper scales*—test with one small test load or simulated load.

*Test severities*

Air Discharge: up to and including 8 kV.

Contact Discharge: up to and including 6 kV.

*Number of test cycles:* At least 10 discharges must be applied at intervals of at least 10 seconds between discharges.

*Maximum allowable variations:*

The difference between the indication due to the disturbance and the indication without the disturbance either must not exceed the values indicated in sections 2.2.1.1 b., 3.2.1.1 b., and 4.2.1.1 b. of this appendix, or the EUT must detect and act upon a significant fault.

*Conduct of the test:* Refer to the IEC Publication mentioned in section A.4 Bibliography (d) for detailed test procedures.

*Supplementary information to the IEC test procedures:*

*Preconditioning:* None required.

*Condition of EUT:*

- a. The EUT without a ground terminal must be placed on a grounded plate which projects beyond the EUT by at least 0.1 m on all sides. The ground connection to the capacitor must be as short as possible.
- b. Normal power supplied and “on” for a time period equal to or greater than the warm-up time specified by the manufacturer. Power is to be “on” for the duration of the test.
- c. The EUT must be operating under standard atmospheric conditions for testing.
- d. Adjust the EUT as close to a zero indication as practicable prior to the test.

*Test sequence:*

- a. Stabilize all factors at nominal reference conditions.
- b. Conduct test as indicated in this A.3.6 Test Sequence section and record the—
  - i. Date and time,
  - ii. Temperature,
  - iii. Relative humidity,
  - iv. Power supply voltage,
  - v. Test load,

- vi. Indication,
- vii. Errors, and
- viii. Functions performance.

c. Approach the EUT with the discharge electrode until discharge occurs and then remove it before the next discharge. Observe the effect of the discharge on the EUT and record, as appropriate.

d. Repeat the above step at least nine times, making sure to wait at least 10 seconds between successive discharges. Observe the effect on the EUT and record as appropriate.

e. Stabilize all factors at nominal reference conditions.

f. Repeat the test and record the test data as indicated in this A.3.6 Test Sequence section.

#### A.3.7 Electromagnetic Susceptibility

*Test method:* Electromagnetic fields (radiated).

##### *Object of the Test:*

To verify compliance with the provisions in this manual under conditions of electromagnetic fields.

*Reference to standard:* See section A.4 Bibliography (g).

##### *Test procedure in brief:*

a. The EUT is placed in an EMI chamber and tested under normal atmospheric conditions. This test is first conducted at one load in a static mode, and the frequencies at which susceptibility is evident are noted. Then tests are conducted at the problem frequencies, if any, during a weighing operation consisting of the following:

*For belt scales*—while totalizing at the maximum flow rate at least the  $\Sigma_{\min}$  (or a time sufficient to complete the test). It is then exposed to electromagnetic field strengths as specified in the Test severities in this section A.3.7 of this annex to appendix A of this part.

*For platform, hanging, and automatic hopper scales*—tested with one small test load.

b. The field strength can be generated in various ways:

i. The strip line is used at low frequencies (below 30 MHz or in some cases 150 MHz) for small EUT's;

ii. The long wire is used at low frequencies (below 30 MHz) for larger EUT's;

iii. Dipole antennas or antennas with circular polarization placed 1 m from the EUT are used at high frequencies.

c. Under exposure to electromagnetic fields the EUT is again tested as indicated above.

*Test severities:* Frequency range: 26–1000 MHz.

*Field strength:* 3 V/m.

*Modulation:* 80 percent AM, 1 kHz sine wave.

*Number of test cycles:* Conduct test by continuously scanning the specified frequency range while maintaining the field strength.

*Maximum allowable variations:* The difference between the indication due to the disturbance and the indication without the disturbance either must not exceed the values given in this manual, or the EUT must detect and act upon a significant fault.

*Conduct of the test:* Refer to the IEC Publication referenced in section A.4 Bibliography (g) for detailed information on test procedures.

*Supplementary information to the IEC test procedures.*

##### *Test conditions:*

a. The specified field strength must be established prior to the actual testing (without the EUT in the field). At least 1 m of all external cables must be included in the exposure by stretching them horizontally from the EUT.

b. The field strength must be generated in two orthogonal polarizations and the frequency range scanned slowly. If antennas with circular polarization, *i.e.*, log-spiral or helical antennas, are used to generate the electromagnetic field, a change in the position of the antennas is not required. When the test is carried out in a shielded enclosure to comply with international laws prohibiting interference to radio communications, care needs to be taken to handle reflections from the walls. Anechoic shielding might be necessary.

##### *Condition of EUT:*

a. Normal power supplied and “on” for a time period equal to or greater than the warm-up time specified by the manufacturer. Power is to be “on” for the duration of the test. The EUT must be operating under standard atmospheric conditions for testing.

b. Adjust the EUT as close to a zero indication as practicable prior to the test.

##### *Test sequence:*

a. Stabilize all factors at nominal reference conditions.

b. Conduct the test as indicated in this A.3.7 Test Sequence section and record the—

- i. Date and time,
- ii. Temperature,
- iii. Relative humidity,
- iv. Test load,
- v. Indication,
- vi. Errors, and
- vii. Functions performance.

c. Following the IEC test procedures, expose the EUT at zero load to the specified field strengths while slowly scanning the three indicated frequency ranges.

d. Observe and record the effect on the EUT.

e. Repeat the test and observe and record the effect.

f. Stabilize all factors at nominal reference conditions.

g. Repeat the test and record the test data.

#### A.4 Bibliography

Below are references to Publications of the International Electrotechnical Commission (IEC), where mention is made in the tests in annex A to appendix A of this part.

a. IEC Publication 68-2-1 (1974): Basic environmental testing procedures, Part 2: Tests, Test Ad: Cold, for heat dissipating equipment under test (EUT), with gradual change of temperature.

IEC Publication 68-2-2 (1974): Basic environmental testing procedures, Part 2: Tests, Test Bd: Dry heat, for heat dissipating equipment under test (EUT) with gradual change of temperature.

IEC Publication 68-3-1 (1974): Background information, Section 1: Cold and dry heat tests.

b. IEC Publication 68-2-56 (1988): Environmental testing, Part 2: Tests, Test Cb: Damp heat, steady state. Primarily for equipment.

IEC Publication 68-2-28 (1980): Guidance for damp heat tests.

c. IEC Publication 1000-4-11 (1994): Electromagnetic compatibility (EMC) Part 4: Testing and measurement techniques, Section 11. Voltage dips, short interruptions and voltage

variations immunity tests. Section 5.2 (Test levels—Voltage variation). Section 8.2.2 (Execution of the test-voltage variation).

b. Coordinates

---

The Chinook Salmon Savings Area as defined in the following two areas of the BSAI:

b. Coordinates

(1) The area defined by straight lines connecting the following coordinates in the order listed:

54° 00' N., 171° 00' W.;  
54° 00' N., 170° 00' W.;  
53° 00' N., 170° 00' W.;  
53° 00' N., 171° 00' W.; and  
54° 00' N., 171° 00' W.

(2) The area defined by straight lines connecting the following coordinates in the order listed:

56° 00' N., 165° 00' W.;  
56° 00' N., 164° 00' W.;  
55° 00' N., 164° 00' W.;  
55° 00' N., 165° 00' W.;  
54° 30' N., 165° 00' W.;  
54° 30' N., 167° 00' W.;  
55° 30' N., 167° 00' W.;  
55° 30' N., 165° 00' W.; and  
56° 00' N., 165° 00' W.

a. Map

**Pt. 679, Fig. 9**

**50 CFR Ch. VI (10–1–08 Edition)**

b. Coordinates

The CSSA is an area defined as that portion of the Bering Sea Subarea described by straight lines connecting the following coordinates in the order listed:

56°00' N. lat. 167°00' W. long.

56°00' N. lat. 165°00' W. long.

55°30' N. lat. 165°00' W. long.

55°30' N. lat. 164°00' W. long.

55°00' N. lat. 164°00' W. long.

55°00' N. lat. 167°00' W. long.

56°00' N. lat. 167°00' W. long.

a. Map

## Fishery Conservation and Management

Pt. 679, Fig. 13

### b. Coordinates

The COBLZ is an area defined as that portion of the Bering Sea Subarea north of 56°30' N. lat. that is west of a line connecting the following coordinates in the order listed:

56°30' N. lat., 165°00' W. long.

58°00' N. lat., 165°00' W. long.

59°30' N. lat., 170°00' W. long.

and north along 170°00' W. long. to its intersection with the U.S.-Russia Boundary.

FIGURE 15 TO PART 679—REGULATORY AREAS FOR THE PACIFIC HALIBUT FISHERY

b. Coordinates

Area 2A includes all waters off the states of California, Oregon, and Washington;

Area 2B includes all waters off British Columbia;

Area 2C includes all waters off Alaska that are east of a line running 340° true from Cape

**Pt. 679, Fig. 15**

Spencer Light (58°11'57" N. lat., 136°38'18" W. long.) and south and east of a line running 205° true from said light;

*Area 3A* includes all waters between Area 2C and a line extending from the most northerly point on Cape Aklek (57°41'15" N. lat., 155°35'00" W. long.) to Cape Ikolik (57°17'17" N. lat., 154°47'18" W. long.), then along the Kodiak Island coastline to Cape Trinity (56°44'50" N. lat., 154°08'44" W. long.), then 140° true;

*Area 3B* includes all waters between Area 3A and a line extending 150° true from Cape Lutke (54°29'00" N. lat., 164°20'00" W. long.) and south of 54°49'00" N. lat. in Isanotski Strait;

*Area 4A* includes all waters in the GOA west of Area 3B and in the Bering Sea west of the closed area defined below that are east of 172°00'00" W. long. and south of 56°20'00" N. lat.;

*Area 4B* includes all waters in the Bering Sea and the GOA west of Area 4A and south of 56°20'00" N. lat.;

*Area 4C* includes all waters in the Bering Sea north of Area 4A and north of the closed

**50 CFR Ch. VI (10–1–08 Edition)**

area defined below which are east of 171°00'00" W. long., south of 58°00'00" N. lat., and west of 168°00'00" W. long.;

*Area 4D* includes all waters in the Bering Sea north of Areas 4A and 4B, north and west of Area 4C, and west of 168°00'00" W. long.;

*Area 4E* includes all waters in the Bering Sea north and east of the closed area defined below, east of 168°00'00" W. long., and south of 65°34'00" N. lat.

*Closed areas*

All waters in the Bering Sea north of 54°49'00" N. lat. in Isanotski Strait that are enclosed by a line from Cape Sarichef Light (54°36'00" N. lat., 164°55'42" W. long.) to a point at 56°20'00" N. lat., 168°30'00" W. long.; thence to a point at 58°21'25" N. lat., 163°00'00" W. long.; thence to Stroganof Point (56°53'18" N. lat., 158°50'37" W. long.); and then along the northern coasts of the Alaska Peninsula and Unimak Island to the point of origin at Cape Sarichef Light.

In Area 2A, all waters north of Point Chelalis, WA (46°53'18" N. lat.).

(These codes describe the condition of the fish at the point it is weighed and recorded)

| Product Description                                                                                                                                                           | Code |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| <b>GENERAL USE CODES*</b>                                                                                                                                                     |      |
| <b>Belly flaps.</b> Flesh in region of pelvic and pectoral fins and behind head. (ancillary only)                                                                             | 19   |
| <b>Bled only.</b> Throat, or isthmus, slit to allow blood to drain.                                                                                                           | 03   |
| <b>Bled fish destined for fish meal</b> (includes offsite production) DO NOT RECORD ON PTR.                                                                                   | 42   |
| <b>Bones</b> (if meal, report as 32) (ancillary only).                                                                                                                        | 39   |
| <b>Butterfly, no backbone.</b> Head removed, belly slit, viscera and most of backbone removed; fillets attached.                                                              | 37   |
| <b>Cheeks.</b> Muscles on sides of head (ancillary only)                                                                                                                      | 17   |
| <b>Chins.</b> Lower jaw (mandible), muscles, and flesh (ancillary only)                                                                                                       | 18   |
| <b>Fillets, deep-skin.</b> Meat with skin, adjacent meat with silver lining, and ribs removed from sides of body behind head and in front of tail, resulting in thin fillets. | 24   |
| <b>Fillets, skinless/boneless.</b> Meat with both skin and ribs removed, from sides of body behind head and in front of tail.                                                 | 23   |
| <b>Fillets with ribs, no skin.</b> Meat with ribs with skin removed, from sides of body behind head and in front of tail.                                                     | 22   |
| <b>Fillets with skin and ribs.</b> Meat and skin with ribs attached, from sides of body behind head and in front of tail.                                                     | 20   |
| <b>Fillets with skin, no ribs.</b> Meat and skin with ribs removed, from sides of body behind head and in front of tail.                                                      | 21   |
| <b>Fish meal.</b> Meal from whole fish or fish parts; includes bone meal.                                                                                                     | 32   |
| <b>Fish oil.</b> Rendered oil from whole fish or fish parts. Record only oil destined for sale and not oil stored or burned for fuel onboard.                                 | 33   |
| <b>Gutted, head on.</b> Belly slit and viscera removed.                                                                                                                       | 04   |
| <b>Head and gutted, with roe.</b>                                                                                                                                             | 06   |
| <b>Headed and gutted, Western cut.</b> Head removed just in front of the collar bone, and viscera removed.                                                                    | 07   |
| <b>Headed and gutted, Eastern cut.</b> Head removed just behind the collar bone, and viscera removed.                                                                         | 08   |
| <b>Headed and gutted, tail removed.</b> Head removed usually in front of collar bone, and viscera and tail removed.                                                           | 10   |
| <b>Heads.</b> Heads only, regardless where severed from body (ancillary only).                                                                                                | 16   |

50 CFR Ch. VI (10–1–08 Edition)

(These codes describe the condition of the fish at the point it is weighed and recorded)

| Product Description                                                                                                                                                                         | Code            |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|
| <b>Kirimi (Steak)</b> Head removed either in front or behind the collar bone, viscera removed, and tail removed by cuts perpendicular to the spine, resulting in a steak.                   | 11              |
| <b>Mantles, octopus or squid.</b> Flesh after removal of viscera and arms.                                                                                                                  | 36              |
| <b>Milt.</b> (in sacs, or testes) (ancillary only).                                                                                                                                         | 34              |
| <b>Minced.</b> Ground flesh.                                                                                                                                                                | 31              |
| <b>Other retained product.</b> If product is not listed on this table, enter code 97 and write a description with product recovery rate next to it in parentheses.                          | 97              |
| <b>Pectoral girdle.</b> Collar bone and associated bones, cartilage and flesh.                                                                                                              | 15              |
| <b>Roe.</b> Eggs, either loose or in sacs, or skeins (ancillary only).                                                                                                                      | 14              |
| <b>Salted and split.</b> Head removed, belly slit, viscera removed, fillets cut from head to tail but remaining attached near tail. Product salted.                                         | 12              |
| <b>Stomachs.</b> Includes all internal organs (ancillary only)                                                                                                                              | 35              |
| <b>Surimi.</b> Paste from fish flesh and additives                                                                                                                                          | 30              |
| <b>Whole fish/meal.</b> Whole fish destined for meal (includes offsite production.) DO NOT RECORD ON PTR.                                                                                   | 41 <sup>1</sup> |
| <b>Whole fish/food fish.</b>                                                                                                                                                                | 01 <sup>1</sup> |
| <b>Whole fish/bait.</b> Processed for bait. Sold                                                                                                                                            | 02              |
| <b>Wings.</b> On skates, side fins are cut off next to body.                                                                                                                                | 13              |
| <b>DISCARD/DISPOSITION CODES</b>                                                                                                                                                            |                 |
| <b>Whole fish/donated prohibited species.</b> Number of Pacific salmon or Pacific halibut, otherwise required to be discarded, that is donated to charity under a NMFS-authorized program.  | 86              |
| <b>Whole fish/onboard bait.</b> Whole fish used as bait on board vessel. Not sold.                                                                                                          | 92 <sup>1</sup> |
| <b>Whole fish/damaged.</b> Whole fish damaged by observer's sampling procedures.                                                                                                            | 93 <sup>1</sup> |
| <b>Whole fish/personal use, consumption.</b> Fish or fish products eaten on board or taken off the vessel for personal use. Not sold or utilized as bait                                    | 95 <sup>1</sup> |
| <b>Whole fish, discard, at sea.</b> Whole groundfish and prohibited species discarded by catcher vessels, catcher/processors, motherships, or vessel buying stations. DO NOT RECORD ON PTR. | 98              |
| <b>Whole fish, discard, infested.</b> Flea-infested fish, parasite-infested fish.                                                                                                           | 88              |
| <b>Whole fish, discard, decomposed.</b> Decomposed or previously discarded fish                                                                                                             | 89              |

## Fishery Conservation and Management

## Pt. 679, Table 2a

(These codes describe the condition of the fish at the point it is weighed and recorded)

| Product Description                                                                                                                                                                                                                                                     | Code |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| <b>Whole fish, discard, onshore.</b> Discard after delivery and before processing by shoreside processors, stationary floating processors and buying stations and in-plant discard of whole ground-fish and prohibited species during processing. DO NOT RECORD ON PTR. | 99   |
| PRODUCT DESIGNATION CODES                                                                                                                                                                                                                                               |      |
| <b>Ancillary product.</b> A product, such as meal, heads, internal organs, pectoral girdles, or any other product that may be made from the same fish as the primary product.                                                                                           | A    |
| <b>Primary product.</b> A product, such as fillets, made from each fish, with the highest recovery rate.                                                                                                                                                                | P    |
| <b>Reprocessed or rehandled product.</b> A product, such as meal, that results from processing a previously reported product or from rehandling a previously reported product.                                                                                          | R    |
| PACIFIC HALIBUT IFQ & CDQ CODES The following codes are authorized for IFQ and CDQ reporting of Pacific halibut.                                                                                                                                                        |      |
| <b>Gutted, head off.</b> Belly slit and viscera removed. Pacific halibut only.                                                                                                                                                                                          | 05   |
| <b>Gutted, head on.</b> Belly slit and viscera removed. Pacific halibut.                                                                                                                                                                                                | 04   |
| The following codes are effective through December 31, 2001.                                                                                                                                                                                                            |      |
| <b>Whole fish/food fish with ice &amp; slime.</b> Sablefish only.                                                                                                                                                                                                       | 51   |
| <b>Gutted, head on.</b> Belly slit and viscera removed. Pacific halibut and sablefish.                                                                                                                                                                                  | 54   |
| <b>Gutted, head off, with ice &amp; slime.</b> Belly slit and viscera removed. Pacific halibut only.                                                                                                                                                                    | 55   |
| <b>Headed and gutted, Western cut, with ice &amp; slime.</b> Sablefish only.                                                                                                                                                                                            | 57   |
| <b>Headed and gutted, Eastern cut, with ice &amp; slime.</b> Sablefish only.                                                                                                                                                                                            | 58   |

<sup>1</sup> When using whole fish codes, record round weights not product weights, even if the whole fish is not used.

TABLE 2a TO PART 679—SPECIES CODES:  
FMP GROUND FISH

| Species Description                                               | Code |
|-------------------------------------------------------------------|------|
| Atka mackerel (greenling)                                         | 193  |
| Flatfish, miscellaneous (flatfish species without separate codes) | 120  |
| FLOUNDER                                                          |      |
| Alaska plaice                                                     | 133  |
| Arrowtooth and/or Kamchatka                                       | 121  |

| Species Description                          | Code |
|----------------------------------------------|------|
| Starry                                       | 129  |
| Octopus                                      | 870  |
| Pacific cod                                  | 110  |
| Pollock                                      | 270  |
| ROCKFISH                                     |      |
| Aurora ( <i>S. aurora</i> )                  | 185  |
| Black (BSAI) ( <i>S. melanops</i> )          | 142  |
| Blackgill ( <i>S. melanostomus</i> )         | 177  |
| Blue (BSAI) ( <i>S. mystinus</i> )           | 167  |
| Bocaccio ( <i>S. paucispinis</i> )           | 137  |
| Canary ( <i>S. pinniger</i> )                | 146  |
| Chilipepper ( <i>S. goodei</i> )             | 178  |
| China ( <i>S. nebulosus</i> )                | 149  |
| Copper ( <i>S. caurinus</i> )                | 138  |
| Darkblotched ( <i>S. crameri</i> )           | 159  |
| Dusky ( <i>S. ciliatus</i> )                 | 154  |
| Greenstriped ( <i>S. elongatus</i> )         | 135  |
| Harlequin ( <i>S. variegatus</i> )           | 176  |
| Northern ( <i>S. polyspinis</i> )            | 136  |
| Pacific ocean perch ( <i>S. alutus</i> )     | 141  |
| Pygmy ( <i>S. wilsoni</i> )                  | 179  |
| Quillback ( <i>S. maliger</i> )              | 147  |
| Redbanded ( <i>S. babcocki</i> )             | 153  |
| Redstripe ( <i>S. proriger</i> )             | 158  |
| Rosethorn ( <i>S. helvomaculatus</i> )       | 150  |
| Rougheye ( <i>S. aleutianus</i> )            | 151  |
| Sharpchin ( <i>S. zacentrus</i> )            | 166  |
| Shortbelly ( <i>S. jordani</i> )             | 181  |
| Shortraker ( <i>S. borealis</i> )            | 152  |
| Silvergray ( <i>S. brevispinis</i> )         | 157  |
| Splitnose ( <i>S. diploproa</i> )            | 182  |
| Stripetail ( <i>S. saxicola</i> )            | 183  |
| Thornyhead (all <i>Sebastolobus</i> species) | 143  |
| Tiger ( <i>S. nigrocinctus</i> )             | 148  |
| Vermilion ( <i>S. miniatus</i> )             | 184  |
| Widow ( <i>S. entomelas</i> )                | 156  |
| Yelloweye ( <i>S. ruberrimus</i> )           | 145  |
| Yellowmouth ( <i>S. reed</i> )               | 175  |

<sup>1</sup>Standard pollock surimi rate during January through June

<sup>2</sup>Standard pollock surimi rate during July through December

Notes: To obtain round weight of groundfish, divide the product weight of groundfish by the table pwr.  
To obtain IFQ net weight of Pacific halibut, multiply the product weight of halibut by the table conversion rate  
To obtain round weight from net weight of Pacific halibut, divide net weight by 0.75 or multiply by 1.33333.

<sup>1</sup>Where two sets of coordinates are given, the baseline extends in a clock-wise direction from the first set of geographic coordinates along the shoreline at mean lower-low water to the second set of coordinates. Where only one set of coordinates is listed, that location is the base point.

<sup>2</sup>Closures as stated in 50 CFR 679.22(a)(7)(iv), (a)(8)(ii) and (b)(2)(ii).

<sup>3</sup>This site lies within the Bogoslof area (BA). The BA consists of all waters of area 518 as described in Figure 1 of this part south of a straight line connecting 55°00' N/170°00' W, and 55°00' N/168°11'4.75" W. Closure to directed fishing for pollock around Uliaga and Kagamil is 20 nm for waters west of 170° W long. and 10 nm for waters east of 170° W long.

<sup>4</sup>The trawl closure between 0 nm to 10 nm is effective from January 20 through May 31. Trawl closure between 0 nm to 3 nm is effective from August 25 through November 1.

<sup>5</sup>Trawl closure between 0 nm to 15 nm is effective from January 20 through May 31. Trawl closure between 0 nm to 20 nm is effective from August 25 to November 1.

<sup>6</sup>Restriction area includes only waters of the Gulf of Alaska Area.

<sup>7</sup>Contact the Alaska Department of Fish and Game for fishery restrictions at these sites.

<sup>8</sup>No-fishing zones are the waters between 0 nm and the nm specified in column 7 around each site and within the BA.

<sup>9</sup>This site is located in the Bering Sea Pollock Restriction Area, closed to pollock trawling during the A season. This area consists of all waters of the Bering Sea subarea south of a line connecting the points 163°0'00" W long./55°46'30" N lat., 165°08'00" W long./54°42'9" N lat., 165°40'00" long./54°26'30" N lat., 166°12'00" W long./54°18'40" N lat., and 167°0'00" W long./54°8'50" N lat.

<sup>10</sup>The 20 nm closure around this site is effective in federal waters outside of State of Alaska waters of Prince William Sound.

<sup>11</sup>Some or all of the restricted area is located in the Segum Foraging area (SFA) which is closed to all gears types. The SFA is established as all waters within the area between 52° N lat. and 53° N lat. and between 173°30' W long. and 172°30' W long.

<sup>12</sup>The 3 nm trawl closure around Puale Bay and the 20 nm trawl closure around Cape Douglas/Shaw I. are effective January 20 through May 31. The 10 nm trawl closure around Puale Bay and the 10 nm trawl closure around Cape Douglas/Shaw I. are effective August 25 through November 1.

BS = Bering Sea, AI = Aleutian Islands, GOA = Gulf of Alaska

<sup>1</sup>Where two sets of coordinates are given, the baseline extends in a clock-wise direction from the first set of geographic coordinates along the shoreline at mean lower-low water to the second set of coordinates. Where only one set of coordinates is listed, that location is the base point.

<sup>2</sup> Closures as stated in 50 CFR 679.22(a)(7)(v), (a)(8)(iv) and (b)(2)(iii).

- <sup>3</sup> No-fishing zones are the waters between 0 nm and the nm specified in columns 7, 8, and 9 around each site and within the Bogoslof area (BA) and the Segum Foraging Area (SFA).
- <sup>4</sup> Some or all of the restricted area is located in the SFA which is closed to all gears types. The SFA is established as all waters within the area between 52° N lat. and 53° N lat. and between 173°30' W long. and 172°30' W long. Anlia I./East, and Tanadak I. (Anlia) haulouts 20 nm hook-and-line and pot closures apply only to waters located east of 173° W longitude.
- <sup>5</sup> This site lies within the BA which is closed to all gear types. The BA consists of all waters of area 518 as described in Figure 1 of this part south of a straight line connecting 55°00'N/170°00'W, and 55°00' N/168°11'4.75" W.
- <sup>6</sup> Hook-and-line no-fishing zones apply only to vessels greater than or equal to 60 feet LOA in waters east of 167° W long. For Bishop Point the 10 nm closure west of 167° W. long. applies to all hook and line and jig vessels.
- <sup>7</sup> The trawl closure between 0 nm to 10 nm is effective from January 20 through June 10. Trawl closure between 0 nm to 3 nm is effective from September 1 through November 1.
- <sup>8</sup> The trawl closure between 0 nm to 15 nm is effective from January 20 through June 10. Trawl closure between 0 nm to 20 nm is effective from September 1 through November 1.
- <sup>9</sup> Restriction area includes only waters of the Gulf of Alaska Area.
- <sup>10</sup> Contact the Alaska Department of Fish and Game for fishery restrictions at these sites.
- <sup>11</sup> Directed fishing for Pacific cod using trawl gear is prohibited in the harvest limit area (HLA) as defined at § 679.2 until the HLA Atka mackerel directed fishery in the A or B seasons is completed. The 20 nm closure around Gramp Rock and Tanaga I./Bumpy Pt. applies only to waters west of 178°W long. and only during the HLA directed fishery. After closure of the Atka mackerel HLA directed fishery, directed fishing for Pacific cod using trawl gear is prohibited in the HLA between 0 nm to 10 nm of rookeries and between 0 nm to 3 nm of haulouts. Directed fishing for Pacific cod using trawl gear is prohibited between 0-3 nm of Tanaga I./Bumpy Pt.
- <sup>12</sup> The 20 nm closure around this site is effective only in waters outside of the State of Alaska waters of Prince William Sound.
- <sup>13</sup> See 50 CFR 679.22(a)(7)(i)(C) for exemptions for catcher vessels less than 60 feet (18.3 m) LOA using jig or hook-and-line gear between Bishop Point and Emerald Island closure areas.
- <sup>14</sup> Trawl closure around this site is limited to waters east of 170°0'00" W long. Closure to hook-and-line fishing around Chuginadak is 20 nm for waters west of 170°W long. and 10 nm for waters east of 170°W long.

| Sea Lion Rock (Amak)                   | Bering Sea       | 55 27.82 N      | 163 12.10 W |                            |             | 20                                                     |
| Amak I. And rocks                      | Bering Sea       | 55 24.20 N      | 163 09.60 W | 55 26.15 N                 | 163 08.50 W | 20                                                     |

<sup>1</sup>Where two sets of coordinates are given, the baseline extends in a clock-wise direction from the first set of geographic coordinates along the shoreline at mean lower-low water to the second set of coordinates.

<sup>2</sup>Closures as stated in 50 CFR 679.22 (a) (7) (vi) and (a) (8) (v).

<sup>3</sup>No-fishing zones are the waters between 0 nm and the nm specified in column 7 around each site and within the Bogoslof area (BA).

<sup>4</sup>The 20 nm Atka mackerel fishery closure around the Tanaga I./Bumpy Pt. Rookery is established only for that portion of the area east of 178° W longitude. Waters located within 20 nm of Tanaga I./Bumpy Pt. and west of 178° W long. are including in the harvest limit area, as defined in §679.2.

<sup>5</sup>Some or all of the restricted area is located in the Segum Foraging Area (SFA) which is closed to all gears types. The SFA is established as all waters within the area between 52° N lat. and 53° N lat. and between 173°30' W long. and 172°30' W long.

<sup>6</sup>This site lies in the BA, closed to all gear types. The BA consists of all waters of Area 518 described in Figure 1 of this part south of a straight line connecting 55°00'N/170°00'W and 55°00'N/168°11'4.75" W.

<sup>7</sup>Directed fishing for Atka mackerel by vessels using trawl gear is prohibited in waters located a) 0-20 nm seaward of Gramp Rock and east of 178°W long., and b) 0-10 nm of Gramp Rock and west of 178°W long.

<sup>1</sup> Where two sets of coordinates are given, the baseline extends in a clock-wise direction from the first set of geographic coordinates along the shoreline at mean lower-low water to the second set of coordinates. Where only one set of coordinates is listed, that location is the base point.

<sup>2</sup> See 50 CFR 223.202(a)(2)(i) for regulations regarding 3 nm no transit zones.

Note: No groundfish fishing zones are the waters between 0 nm to 3 nm surrounding each site.

| Registered Crab Receiver . . . . .                                          | CR crab . . . . .                                                                          | Transfer of product.                                                  |                      | X                    |                                |                                         |       |         |
| A person holding a valid IFQ permit, IFQ card, and Registered Buyer permit. | IFQ sablefish, IFQ halibut or CDQ halibut.                                                 | Transfer of product.                                                  |                      |                      |                                |                                         | XXX   |         |
| Registered Buyer . . . . .                                                  | IFQ sablefish, IFQ halibut or CDQ halibut.                                                 | Transfer from landing site to Registered Buyer's processing facility. |                      |                      |                                |                                         |       | XX      |
| Registered Crab Receiver . . . . .                                          | CR crab . . . . .                                                                          | Transfer from landing site to RCR's processing facility.              |                      |                      |                                |                                         |       | XX      |
| Vessel operator . . . . .                                                   | Processed IFQ sablefish, IFQ halibut, CDQ halibut, or CR crab.                             | Transshipment between vessels.                                        |                      |                      | XXXX                           |                                         |       |         |

"X" indicates under what circumstances each report is submitted.

"XX" indicates that the document must accompany the transfer of IFQ species from landing site to processor.

"XXX" indicates receipt must be issued to each receiver in a dockside sale.

"XXXX" indicates authorization must be obtained 24 hours in advance.

TABLE 19 TO PART 679—SEABIRD AVOIDANCE GEAR CODES

| Vessel Logbook |                                                                                                                                                                                                                                                                                                                                                                                                                        |
|----------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Code           | Seabird Avoidance Gear or Method                                                                                                                                                                                                                                                                                                                                                                                       |
| 1              | <i>Paired Streamer Lines:</i> Used during deployment of hook-and-line gear to prevent birds from taking hooks. Two streamer lines used, one on each side of the main groundline. Each streamer line consists of three components: a length of line, streamers attached along a portion of the length and one or more float devices at the terminal end. See performance and material standards at § 679.24(e)(5)(iii). |

| Vessel Logbook |                                                                                                                                                                                                                                                                                                                                                                                                       |
|----------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Code           | Seabird Avoidance Gear or Method                                                                                                                                                                                                                                                                                                                                                                      |
| 2              | <i>Single Streamer Line</i> : Used during deployment of hook-and-line gear to prevent birds from taking hooks. The streamer line consists of three components: a length of line, streamers attached along a portion of the length and one or more float devices at the terminal end. See performance and material standards at § 679.24(e)(5)(ii).                                                    |
| 3              | <i>Single Streamer Line, used with Snap Gear</i> : Used during the deployment of snap gear to prevent birds from taking hooks. The streamer line consists of three components: a length of line, streamers attached along a portion of the length and one or more float devices at the terminal end. See performance and material standards at § 679.24(e)(5)(iv).                                    |
| 4              | <i>Buoy Bag Line</i> : Used during the deployment of hook-and-line gear to prevent birds from taking hooks. A buoy bag line consists of two components: a length of line (without streamers attached) and one or more float devices at the terminal end. See performance and material standards at § 679.24(e)(5)(i).<br>Other Device used in conjunction with Single Streamer Line or Buoy Bag Line. |
| 5              | <i>Add weights to groundline</i> : Applying weights to the groundline for the purpose of sinking the hook-and-line gear more quickly and preventing seabirds from accessing the baited hooks.                                                                                                                                                                                                         |
| 6              | <i>Additional Buoy Bag Line or Single Streamer Line</i> : Using a second buoy bag line or streamer line for the purpose of enhancing the effectiveness of these deterrent devices at preventing seabirds from accessing baited hooks.                                                                                                                                                                 |
| 7              | <i>Strategic Offal Discharge</i> : Discharging fish, fish parts (i.e. offal) or spent bait for the purpose of distracting seabirds away from the main groundline while setting gear.                                                                                                                                                                                                                  |
| 8              | Additional Device Used<br><i>Night Fishing</i> : Setting hook-and-line gear during dark hours.<br><i>Line Shooter</i> : A hydraulic device designed to deploy hook-and-line gear at a speed slightly faster than the vessel's speed during setting.<br><i>Lining Tube</i> : A device used to deploy hook-and-line gear through an underwater-setting device.<br><i>Other</i> (Describe)               |
| 9              | No Deterrent Used Due to Weather. [See weather exceptions at § 679.24(e)(5)(i)(B), (e)(5)(ii)(B), (e)(5)(iii)(B), (e)(5)(iv)(B).]                                                                                                                                                                                                                                                                     |
| 0              | No Deterrent Used.                                                                                                                                                                                                                                                                                                                                                                                    |

# Fishery Conservation and Management

Pt. 679, Table 23

| Area No. | Name | Latitude  | Longitude   |
|----------|------|-----------|-------------|
|          |      | 54 9.00 N | 174 42.00 E |
|          |      | 54 4.20 N | 174 42.00 E |
|          |      | 54 4.20 N | 174 52.20 E |

**Note:** Each area is delineated by connecting the coordinates in the order listed by straight lines. The last set of coordinates for each area is connected to the first set of coordinates for the area by a straight line. Projected coordinate system is North American Datum 1983, Albers.

**Note:** Unless otherwise footnoted, each area is delineated by connecting in order the coordinates listed by straight lines. Except for the Amlia North/Seguam donut and the Buldir donut, each area delineated in the table is open to nonpelagic trawl gear fishing. The remainder of the entire Aleutian Islands subarea and the areas delineated by the coordinates for the Amlia North/Seguam and Buldir donuts are closed to nonpelagic trawl gear fishing, as specified at § 679.22. Unless otherwise noted, the last set of coordinates for each area is connected to the first set of coordinates for the area by a straight line. The projected coordinate system is North American Datum 1983, Albers.

<sup>1</sup>The connection of these coordinates to the next set of coordinates is by a line extending in a clockwise direction from these coordinates along the shoreline at mean lower-low water to the next set of coordinates.

<sup>2</sup>The connection of these coordinates to the next set of coordinates is by a line extending in a counter clockwise direction from these coordinates along the shoreline at mean lower-low water to the next set of coordinates.

<sup>3</sup>The connection of these coordinates to the first set of coordinates for this area is by a line extending in a clockwise direction from these coordinates along the shoreline at mean lower-low water to the first set of coordinates.

<sup>4</sup>The connection of these coordinates to the first set of coordinates for this area is by a line extending in a counter clockwise direction from these coordinates along the shoreline at mean lower-low water to the first set of coordinates.

<sup>5</sup>The area specified by this set of coordinates is closed to fishing with non-pelagic trawl gear.

<sup>6</sup>This set of coordinates is connected to the first set of coordinates listed for the area by a straight line.

<sup>7</sup>The last coordinate for the donut is connected to the first set of coordinates for the donut by a straight line.

**Subpart A—General**

**§ 680.1 Purpose and scope.**

Regulations in this part implement policies developed by the North Pacific Fishery Management Council and approved by the Secretary of Commerce in accordance with the Magnuson-Stevens Fishery Conservation and Management Act. In addition to part 600 of this chapter, these regulations implement the following:

(a) *Fishery Management Plan (FMP) for Bering Sea and Aleutian Islands King and Tanner Crabs*. Regulations in this part govern commercial fishing for, and processing of, king and Tanner crabs in the Bering Sea and Aleutian Islands Area pursuant to section 313(j) of the Magnuson-Stevens Act, including regulations implementing the Crab Rationalization Program for crab fisheries in the Bering Sea and Aleutian Islands Area, and supersede State of Alaska regulations applicable to the commercial king and Tanner crab fisheries in the Exclusive Economic Zone (EEZ) of the Bering Sea and Aleutian Islands Area that are determined to be inconsistent with the FMP.

(b) *License Limitation Program.* Commercial fishing for crab species not included in the Crab Rationalization Program for crab fisheries of the Bering Sea and Aleutian Islands Area remains subject to the License Limitation Program for the commercial crab fisheries in the Bering Sea and Aleutian Islands Area under part 679 of this chapter.

#### § 680.2 Definitions.

In addition to the definitions in the Magnuson-Stevens Act, in 50 CFR part 600, and § 679.2 of this chapter, the terms used in this part have the following meanings:

*Adak community entity* means the non-profit entity incorporated under the laws of the state of Alaska that represents the community of Adak and has a board of directors elected by the residents of Adak.

*Affiliation* means a relationship between two or more entities in which one directly or indirectly owns or controls a 10 percent or greater interest in, or otherwise controls, another, or a third entity directly or indirectly owns or controls a 10 percent or greater interest in, or otherwise controls, both. For the purpose of this definition, the following terms are further defined:

(1) *Entity.* An entity may be an individual, corporation, association, partnership, joint-stock company, trust, or any other type of legal entity, any receiver, trustee in bankruptcy or similar official or liquidating agent, or any organized group of persons whether incorporated or not, that holds direct or indirect interest in:

(i) Quota share (QS), processor quota share (PQS), individual fishing quota (IFQ), or individual processing quota (IPQ); or,

(ii) For purposes of the economic data report (EDR), a vessel or processing plant operating in CR fisheries.

(2) *Indirect interest.* An indirect interest is one that passes through one or more intermediate entities. An entity's percentage of indirect interest in a second entity is equal to the entity's percentage of direct interest in an intermediate entity multiplied by the intermediate entity's direct or indirect interest in the second entity.

(3) *Controls a 10 percent or greater interest.* An entity controls a 10 percent

or greater interest in a second entity if the first entity:

(i) Controls a 10 percent ownership share of the second entity, or

(ii) Controls 10 percent or more of the voting stock of the second entity.

(4) *Otherwise controls.* (i) A PQS or IPQ holder otherwise controls QS or IFQ, or a QS or IPQ holder, if it has:

(A) The right to direct, or does direct, the business of the entity which holds the QS or IFQ;

(B) The right in the ordinary course of business to limit the actions of or replace, or does limit or replace, the chief executive officer, a majority of the board of directors, any general partner or any person serving in a management capacity of the entity which holds the QS or IFQ;

(C) The right to direct, or does direct, the transfer of QS or IFQ;

(D) The right to restrict, or does restrict, the day-to-day business activities and management policies of the entity holding the QS or IFQ through loan covenants;

(E) The right to derive, or does derive, either directly, or through a minority shareholder or partner, and in favor of a PQS or IPQ holder, a significantly disproportionate amount of the economic benefit from the holding of QS or IFQ;

(F) The right to control, or does control, the management of, or to be a controlling factor in, the entity holding QS or IFQ;

(G) The right to cause, or does cause, the sale of QS or IFQ;

(H) Absorbs all of the costs and normal business risks associated with ownership and operation of the entity holding QS or IFQ; and

(I) Has the ability through any other means whatsoever to control the entity that holds QS or IFQ.

(ii) Other factors that may be indicative of control include, but are not limited to the following:

(A) If a PQS or IPQ holder or employee takes the leading role in establishing an entity that will hold QS or IFQ;

(B) If a PQS or IPQ holder has the right to preclude the holder of QS or IFQ from engaging in other business activities;

(C) If a PQS or IPQ holder and QS or IFQ holder use the same law firm, accounting firm, etc.;

(D) If a PQS or IPQ holder and QS or IFQ holder share the same office space, phones, administrative support, etc.;

(E) If a PQS or IPQ holder absorbs considerable costs and normal business risks associated with ownership and operation of the QS or IFQ holdings;

(F) If a PQS or IPQ holder provides the start up capital for the QS or IFQ holder on less than an arm's-length basis;

(G) If a PQS or IPQ holder has the general right to inspect the books and records of the QS or IFQ holder; and

(H) If the PQS or IPQ holder and QS or IFQ holder use the same insurance agent, law firm, accounting firm, or broker of any PQS or IPQ holder with whom the QS or IFQ holder has entered into a mortgage, long-term or exclusive sales or marketing agreement, unsecured loan agreement, or management agreement.

*Arbitration IFQ* means:

(1) Class A catcher vessel owner (CVO) IFQ held by a person who is not a holder of PQS or IPQ and who is not affiliated with any holder of PQS or IPQ, and

(2) IFQ held by an FCMA cooperative.

*Arbitration QS* means CVO QS held by a person who is not a holder of PQS or IPQ and is not affiliated with any holder of PQS or IPQ.

*Arbitration System* means the system established by the contracts required by § 680.20, including the process by which the Market Report and Non-Binding Price Formula are produced, the negotiation approaches, the Binding Arbitration process, and fee collection.

*Assessed value* means the most recent value for a vessel and gear provided in a marine survey.

*Auditor* means an examiner employed by, or under contract to, the data collection agent to verify data submitted in an economic data report.

*Blind data* means any data collected from the economic data report by the data collection agent that are subsequently amended by removing personal identifiers, including, but not limited to social security numbers, crew permit numbers, names and addresses,

Federal fisheries permit numbers, Federal processor permit numbers, Federal tax identification numbers, State of Alaska vessel registration and permit numbers, and by adding in their place a nonspecific identifier.

*Box size* means the capacity of a crab-packing container in kilograms or pounds.

*BSAI crab* means those crab species governed under the Fishery Management Plan (FMP) for Bering Sea/Aleutian Islands King and Tanner Crabs.

*BSAI Crab Capacity Reduction Program* means the program authorized by Public Law 106–554, as Amended by Public Law 107–20 and Public Law 107–117.

*BSAI crab fisheries* means those crab fisheries governed under the Fishery Management Plan (FMP) for Bering Sea/Aleutian Islands King and Tanner Crabs.

*Captain* means, for the purposes of the EDR, a vessel operator.

*Catcher/processor (CP)* means a vessel that is used for catching crab and processing that crab.

*Catcher vessel* means a vessel that is used for catching crab and that does not process crab on board.

*CDQ community* means a community eligible to participate in the Western Alaska Community Development Program under subpart C of 50 CFR part 679.

*CDQ group* means a CDQ group as that term is defined at 50 CFR 679.2.

*Committed IFQ* means:

(1) Any Arbitration IFQ for which the holder of such IFQ has agreed or committed to delivery of crab harvested with the IFQ to the holder of previously uncommitted IPQ and for which the holder of the IPQ has agreed to accept delivery of that crab, regardless of whether such agreement specifies the price or other terms for delivery, or

(2) Any Arbitration IFQ for which, on or after the date which is 25 days prior to the opening of the first crab fishing season in the crab QS fishery for such IFQ, the holder of the IFQ has unilaterally committed to delivery of crab harvested with the IFQ to the holder of previously uncommitted IPQ, regardless of whether the IFQ and IPQ holders have reached an agreement that

## Fishery Conservation and Management

## § 680.2

specifies the price or other terms for delivery.

*Committed IPQ* means any IPQ for which the holder of such IPQ has received a commitment of delivery from a holder of Arbitration IFQ such that the Arbitration IFQ is committed IFQ, regardless of whether the Arbitration IFQ and IPQ holders have reached an agreement that specifies the price or other terms for delivery.

*Converted CPO QS* means CPO QS for the BBR and BSS crab QS fisheries that is issued to the entities defined in § 680.40(c)(5)(ii), (c)(5)(iii), or (c)(5)(iv) based on the procedures established in § 680.40(c)(5).

*CP standard price* means price, expressed in U.S. dollars per raw crab pound, for all CR crab landed by a CP as determined for each crab fishing year by the Regional Administrator and documented in a CP standard price list published by NMFS.

*Crab cost recovery fee liability* means that amount of money, in U.S. dollars, owed to NMFS by a CR allocation holder or RCR as determined by multiplying the appropriate ex-vessel value of the amount of CR crab debited from a CR allocation by the appropriate crab fee percentage.

*Crab fee percentage* means that positive number no greater than 3 percent determined for each crab fishing year by the Regional Administrator and used to calculate the crab cost recovery fee liability for a CR allocation holder or RCR under the Crab Ration-alization Program.

*Crab fishing year* means the period from July 1 of one calendar year through June 30 of the following calendar year.

*Crab grade* means a grading system to describe the quality of crab.

(1) Grade 1 means standard or premium quality crab, and

(2) Grade 2 means below standard quality crab.

*Crab harvesting cooperative*, for the purposes of this part 680, means a group of crab QS holders who have chosen to form a crab harvesting cooperative, under the requirements of § 680.21, in order to combine and collectively harvest their crab IFQ through a crab harvesting cooperative IFQ permit issued by NMFS.

*Crab harvesting cooperative IFQ* means the annual catch limit of IFQ crab that may be harvested by a crab harvesting cooperative that is lawfully allocated a harvest privilege for a specific portion of the TAC of a crab QS fishery.

*Crab individual fishing quota (crab IFQ)* means the annual catch limit of a crab QS fishery that may be harvested by a person who is lawfully allocated a harvest privilege for a specific portion of the TAC of a crab QS fishery with the following designations or with the designation as a crab IFQ hired master:

(1) *Catcher vessel crew (CVC) IFQ* means a permit to annually harvest, but not process, a CR crab on board a vessel.

(2) *Catcher vessel owner (CVO) IFQ* means a permit to annually harvest, but not process, a CR crab on board a vessel.

(i) *Class A IFQ* means IFQ that is required to be delivered to a processor holding unused IPQ.

(ii) *Class B IFQ* means IFQ that is not required to be delivered to a processor holding unused IPQ.

(3) *Catcher/processor owner (CPO) IFQ* means a permit to annually harvest and process a CR crab on a catcher/processor.

(4) *Catcher/processor crew (CPC) IFQ* means a permit to annually harvest and process a CR crab on a catcher/processor.

*Crab IFQ hired master* means a person who holds a crab IFQ hired master permit issued under § 680.4.

*Crab IFQ permit holder* means the person identified on an IFQ permit.

*Crab LLP license history* means, for any particular crab LLP license, the legal landings made on the vessel(s) that was used to qualify for that LLP license and any legal landings made under the authority of that LLP license.

*Crab quota share (crab QS)* means a permit the face amount of which is used as the basis for the annual calculation and allocation of a person's crab IFQ with the following designations:

(1) *Catcher vessel crew (CVC) QS* means a permit that yields CVC IFQ.

(2) *Catcher vessel owner (CVO) QS* means a permit that yields CVO IFQ.

(3) *Catcher/processor owner (CPO) QS* means a permit that yields CPO IFQ.

(4) *Catcher/processor crew (CPC) QS* means a permit that yields CPC IFQ.

*Crab QS fishery* means those CR fisheries under Table 1 to this part that require the use of QS and PQS, and their resulting IFQ and IPQ, to harvest and receive IFQ crab.

*Crab QS program* means the program that allocates QS and PQS, and their resulting IFQ and IPQ, for CR crab of the BSAI off Alaska and governed by regulations under this part.

*Crab QS regional designation* means the designation of QS or PQS and their resulting IFQ and IPQ subject to regional delivery requirements in this part.

*Crab Rationalization (CR) allocation* means any allocation of CR crab authorized under the CR Program.

*Crab Rationalization (CR) crab* means those crab species in the crab fisheries subject to management under the Crab Rationalization Program described in Table 1 to this part.

*Crab Rationalization (CR) fisheries* means those fisheries defined in Table 1 to part 680.

*Crab Rationalization (CR) Program* means the crab QS program plus the CDQ and the Adak community allocation programs, including all management, monitoring, and enforcement components, for BSAI king and Tanner crabs governed by the regulations of this part.

*Crew* means:

(1) Any individual, other than the fisheries observers, working on a vessel that is engaged in fishing.

(2) For the purposes of the EDR, each employee on a vessel, excluding the captain and fisheries observers, that participated in any CR fishery.

*Custom processing* means processing of crab by a person undertaken on behalf of another person.

*Data collection agent (DCA)* means the entity selected by the Regional Administrator to distribute an EDR to a person required to complete it, to receive the completed EDR, to review and verify the accuracy of the data in the EDR, and to provide those data to authorized recipients.

*Days at sea* means, for the purposes of the EDR, the number of days spent at

sea while fishing for crab, including travel time to and from fishing grounds.

*Economic data report (EDR)* means the report of cost, labor, earnings, and revenue data for catcher vessels, catcher/processors, shoreside crab processors, and stationary floating crab processors participating in CR fisheries.

*Eligible community resident* means, for purposes of the Crab QS program, any individual who:

(1) Is a citizen of the United States;

(2) Has maintained a domicile in the ECC, from which the individual requests to lease crab IFQ, for at least 12 consecutive months immediately preceding the time when the assertion of residence is made and who is not claiming residency in another community, state, territory, or country; and

(3) Is otherwise eligible to receive crab QS or IFQ by transfer.

*Eligible crab community (ECC)* means a community in which at least 3 percent of the initial allocation of processor quota share of any crab fishery is allocated. The specific communities are:

(1) CDQ Communities.

(i) Akutan;

(ii) False Pass;

(iii) St. George; and

(iv) St. Paul.

(2) Non-CDQ Communities.

(i) Unalaska/Dutch Harbor;

(ii) Kodiak;

(iii) King Cove;

(iv) Port Moller; and

(v) Adak.

*Eligible crab community (ECC) entity* means a non-profit organization specified under § 680.41(j)(2) that is designated by the governing body of an ECC, other than Adak, to represent it for the purposes of engaging in the right of first refusal of transfer of crab PQS or IPQ outside the ECC under contract provisions set forth under section 313(j) of the Magnuson-Stevens Act. For those ECCs that also are CDQ communities, the ECC entity is the CDQ group to which the ECC is a member.

*Eligible crab community organization (ECCO)* means a non-profit organization that represents at least one ECC, as defined in this part, and that has been approved by the Regional Administrator to obtain by transfer and hold

## Fishery Conservation and Management

## § 680.2

crab QS and to lease the resulting IFQ on behalf of an ECC.

*Ex-vessel value* means:

(1) *For the shoreside processing sector.* The total U.S. dollar amount of all compensation, monetary and non-monetary, including any retroactive payments, received by a CR allocation holder for the purchase of any CR crab debited from the CR allocation described in terms of raw crab pounds.

(2) *For the catcher/processor sector.* The total U.S. dollar amount of CR crab landings as calculated by multiplying the number of raw crab pounds debited from the CR allocation by the appropriate CP standard price determined by the Regional Administrator.

*FCMA cooperative*, for the purposes of this part 680, means a cooperative formed in accordance with the Fishermen's Collective Marketing Act of 1934 (15 U.S.C. 521).

*Finished pounds* means the total weight, in pounds, of processed product, not including the container.

*IFQ account* means the amount of crab IFQ in raw crab pounds that is held by a person at any particular time for a crab QS fishery, sector, region, and class.

*IFQ crab* means crab species listed in Table 1 to this part subject to management under the crab QS program.

*Individual processor quota (IPQ)* means the annual amount of crab, in pounds, representing a specific portion of the TAC for a crab QS fishery, that may be received for processing by a person who is lawfully allocated PQS or IPQ.

*Initial processor quota share (PQS) pool* means the total number of PQS units for each crab QS fishery which is the basis of initial PQS allocations.

*Initial quota share (QS) pool* means the total number of non-processor QS units for each crab QS fishery which is the basis of initial QS allocations.

*IPQ account* means the amount of crab IPQ in raw crab pounds that is held by a person at any particular time for a crab QS fishery and region.

*Landing* means the transfer of raw crab harvested by a vessel prior to that crab being reported on a CR crab landing report.

(1) For catcher/processors, the amount of crab retained during a reporting period constitutes a landing.

(2) For catcher vessels, the amount of crab removed from the boat at a single location/time constitutes a landing.

*Lease of QS/IFQ or PQS/IPQ* means a temporary, annual transfer of crab IFQ or IPQ without the underlying QS or PQS.

*Leaseholder* means, for purposes of the EDR, a person who:

(1) Is identified as the leaseholder in a written lease of a catcher vessel, catcher/processor, shoreside crab processor, or stationary floating crab processor, or

(2) Pays the expenses of a catcher vessel, catcher/processor, shoreside crab processor, or stationary floating crab processor, or

(3) Claims expenses for the catcher vessel, catcher/processor, shoreside crab processor, or stationary floating crab processor as a business expense on schedule C of his/her Federal income tax return or on a state income tax return.

*Magnuson-Stevens Act* means the Magnuson-Stevens Fishery Conservation and Management Act, as amended (16 U.S.C. 1801 *et seq.*).

*Mutual Agreement* means, for purposes of the Arbitration System, the consent and agreement of Arbitration Organizations that represent an amount of Arbitration QS equal to more than 50 percent of all the Arbitration QS in a fishery, and an amount of PQS equal to more than 50 percent of all the PQS in a fishery based upon the Annual Arbitration Organization Reports.

*Newly constructed vessel* means, for the purposes of initial QS issuance, a vessel on which the keel was laid by June 10, 2002.

*Official crab rationalization record* means the information prepared by the Regional Administrator about the legal landings and legal processing by vessels and persons in the BSAI crab fisheries during the qualifying periods specified at § 680.40.

*Processing, or to process* means the preparation of, or to prepare, crab to render it suitable for human consumption or storage. This includes, but is not limited to: Cooking, canning, butchering, sectioning, freezing or icing.

*Processor quota share (PQS)* means a permit the face amount of which is

### § 680.3

used as the basis for the annual calculation and allocation of IPQ.

*Raw crab pounds* means the weight of raw crab in pounds when landed.

*Registered crab receiver (RCR)* means a person holding an RCR Permit issued by the Regional Administrator.

*Retain* means to fail to return crab to the sea after a reasonable opportunity to sort the catch.

*Right of First Refusal (ROFR)* means the civil contract provisions set forth under section 313(j) of the Magnuson-Stevens Act between the holders of PQS and IPQ and ECC entities, other than Adak, for the opportunity of ECCs to exercise the right to purchase or lease PQS or IPQ proposed to be transferred by a holder of PQS or IPQ in an ECC.

*Seafood Marketing Association Assessment (SMAA)* means the seafood processing assessment collected by processing firms and buyers from fishery harvesters for the State of Alaska.

*Share payment* means an amount of monetary compensation (not salary or wages) based on gross or net earnings of a BSAI crab fishing vessel.

*Shoreside crab processor* means any person or vessel that receives, purchases, or arranges to purchase unprocessed crab, except a catcher/processor or a stationary floating crab processor.

*Stationary floating crab processor (SFCP)* means a vessel of the United States that remains anchored or otherwise remains stationary while receiving or processing crab in the waters of the State of Alaska.

*Uncommitted IFQ* means any Arbitration IFQ that is not Committed IFQ.

*Uncommitted IPQ* means any IPQ that is not Committed IPQ.

*U.S. Citizen* means:

(1) Any individual who is a citizen of the United States; or

(2) Any corporation, partnership, association, or other entity that is organized under Federal, state, or local laws of the United States or that may legally operate in the United States.

[70 FR 10241, Mar. 2, 2005, as amended at 73 FR 29982, May 23, 2008; 73 FR 35088, June 20, 2008]

### § 680.3 Relation to other laws.

(a) *King and Tanner crab.* (1) Additional laws and regulations governing

### 50 CFR Ch. VI (10–1–08 Edition)

the conservation and management of king crab and Tanner crab in the BSAI area are contained in 50 CFR part 679, Alaska Statutes at A.S. 16, and Alaska Administrative Code at 5 AAC Chapters 34, 35, and 39.

(2) The Alaska Administrative Code (at 5 AAC 39.130) governs reporting and permitting requirements using the ADF&G “Intent to Operate” registration form and “Fish Tickets.”

(b) *Sport, personal use, and subsistence.*

(1) For State of Alaska statutes and regulations governing sport and personal use crab fishing other than subsistence fishing, see Alaska Statutes, Title 16—Fish and Game; 5 AAC Chapters 47 through 77.

(2) For State of Alaska statutes and regulations governing subsistence fishing for crab, see Alaska Statutes, Title 16—Fish and Game; 5 AAC 02.001 through 02.625.

### § 680.4 Permits.

(a) *General information.* Persons participating in the CR fisheries are required to possess the permits described in this section.

(1) *Approval.* Approval of applications under this part may be conditioned on the payment of fees under § 680.44 or the submission of an EDR as described under § 680.6.

(2) *Issuance.* The Regional Administrator may issue or amend any permits under this section or under § 680.21 annually or at other times as needed under this part.

(3) *Transfer.* Crab QS and PQS permits issued under § 680.40 and Crab IFQ and IPQ permits issued under this section are transferable, as provided under § 680.41. Crab IFQ hired master permits, Federal crab vessel permits, and RCR permits issued under this section are not transferable.

(4) *Inspection.* The holder of a Federal crab vessel permit, crab IFQ permit, crab IPQ permit, or crab IFQ hired master permit, must present a legible copy of the permit on request of any authorized officer or RCR receiving a crab IFQ landing. A legible copy of the RCR permit must be present at the location of a crab IFQ landing and an individual representing the RCR must

## Fishery Conservation and Management

## § 680.4

make the RCR permit available for inspection on request of any authorized officer.

(b) *Crab QS permit.* (1) Crab QS is issued by the Regional Administrator to persons who qualify for an initial allocation under § 680.40 or receive QS by transfer under § 680.41. Once issued, a crab QS permit is valid until modified under paragraph (b)(2) or (b)(3) of this section, or by transfer under § 680.41; or until the permit is revoked, suspended, or modified pursuant to § 679.43 of this chapter or under 15 CFR part 904. To qualify for a crab QS permit, the applicant must be a U.S. citizen.

(2) Each unit of Crab QS initially issued under § 680.40 for the Bering Sea Tanner crab (*Chionoecetes bairdi*) CR fishery shall be reissued as one unit of Eastern Bering Sea Tanner crab (EBT) QS and one unit of Western Bering Sea Tanner crab (WBT) QS.

(3) A converted CPO QS permit is valid until the end of the crab fishing year for which the permit is issued.

(c) *Crab PQS permit.* (1) Crab PQS is issued by the Regional Administrator to persons who successfully apply for an initial allocation under § 680.40 or receive PQS by transfer under § 680.41. Once issued, a crab PQS permit is valid until modified under paragraph (c)(2) of this section, or by transfer under § 680.41; or until the permit is revoked, suspended, or modified pursuant to § 679.43 of this chapter or under 15 CFR part 904.

(2) Each unit of Crab PQS initially issued under § 680.40 for the Bering Sea Tanner crab (*Chionoecetes bairdi*) CR fishery shall be reissued as one unit of Eastern Bering Sea Tanner crab (EBT) PQS and one unit of Western Bering Sea Tanner crab (WBT) PQS.

(d) *Crab IFQ permit.* (1) A crab IFQ permit authorizes the person identified on the permit to harvest crab in the fishery identified on the permit at any time the fishery is open during the crab fishing year for which the permit is issued, subject to conditions of the permit. A crab IFQ permit is valid under the following circumstances:

- (i) Until the end of the crab fishing year for which the permit is issued;
- (ii) Until the amount harvested is equal to the amount specified on the permit;

(iii) Until the permit is modified by transfers under § 680.41; or

(iv) Until the permit is revoked, suspended, or modified pursuant to § 679.43 or under 15 CFR part 904.

(2) A legible copy of the crab IFQ permit must be carried on board the vessel used by the permitted person at all times that IFQ crab are retained on board.

(3) A crab IFQ permit is issued on an annual basis by the Regional Administrator to persons who hold crab QS, of the type specified on the crab QS permit, and who have submitted a complete annual application for crab IFQ/IPQ permit, described at paragraph (f) of this section, that is subsequently approved by the Regional Administrator.

(4) To qualify for a crab IFQ permit, the applicant must be a U.S. Citizen.

(e) *Crab IPQ permit.* (1) A crab IPQ permit authorizes the person identified on the permit to receive/process the IFQ crab identified on the permit during the crab fishing year for which the permit is issued, subject to conditions of the permit. A crab IPQ permit is valid under the following circumstances:

(i) Until the end of the crab fishing year for which the permit is issued;

(ii) Until the amount received/processed is equal to the amount specified on the permit;

(iii) Until the permit is modified by transfers under § 680.41; or

(iv) Until the permit is revoked, suspended, or modified pursuant to § 679.43 or under 15 CFR part 904.

(2) A legible copy of the crab IPQ permit authorizing receiving/processing of IFQ crab must be retained on the premises or vessel used by the permitted person to process the IFQ crab at all times that IFQ crab are retained on the premises or vessel.

(3) A crab IPQ permit is issued on an annual basis by the Regional Administrator to persons who hold crab PQS, and who have submitted a complete annual application for crab IFQ/IPQ permit, described at paragraph (f) of this section, that is subsequently approved by the Regional Administrator.

(f) *Contents of annual application for crab IFQ/IPQ permit.* (1) A complete application must be received by NMFS no later than August 1 of the crab fishing

#### § 680.4

#### 50 CFR Ch. VI (10–1–08 Edition)

year for which a person is applying to receive IFQ or IPQ. If a complete application is not received by NMFS by this date, that person will not receive IFQ or IPQ for that crab fishing year.

(2) For the application to be considered complete, all fees required by NMFS must be paid, and any EDR required under § 680.6 must be submitted to the DCA. In addition, the applicant must include the following information:

(i) *Applicant information.* Enter applicant's name and NMFS Person ID; applicant's date of birth or, if a non-individual, date of incorporation; applicant's social security number (optional) or tax identification number; applicant's permanent business mailing address and any temporary mailing address the applicant wishes to use; and applicant's business telephone number, facsimile number, and e-mail address.

(ii) *Crab IFQ or IPQ permit identification.* Indicate the type of crab IFQ or IPQ permit for which applicant is applying by QS fishery(ies) and indicate (YES or NO) whether applicant has joined a crab harvesting cooperative. If YES, indicate cooperative's name and ensure that this application is submitted by the applicant's cooperative with its completed application for an annual crab harvesting cooperative IFQ permit.

(iii) *Identification of ownership interests.* If the applicant is not an individual, provide the names of all persons, to the individual level, holding an ownership interest in the entity and the percentage ownership each person and individual holds in the applicant.

(iv) *Documentation of affiliation.* Complete a documentation of affiliation declaring any and all affiliations, as the term "affiliation" is defined at § 680.2. A documentation of affiliation includes affirmations by the applicant pertaining to relationships that may involve direct or indirect ownership or control of the delivery of IFQ crab and any supplemental documentation deemed necessary by NMFS to determine whether an affiliation exists. Indicate whether any entity that holds PQS or IPQ is affiliated with the applicant, as affiliation is defined in § 680.2. If the applicant is considered affiliated,

the applicant must provide a list of all PQS or IPQ holders with which he/she is affiliated, including full name, business mailing address, and business telephone number.

(v) *Certification of applicant.* The applicant must sign and date the application certifying that all information is true, correct, and complete to the best of his/her knowledge and belief. Print the name of the applicant. If the application is completed by an authorized representative, proof of authorization must accompany the application.

(g) *Crab IFQ hired master permit.* (1) A crab IFQ hired master permit is issued on an annual basis and authorizes the individual identified on the permit to harvest and land IFQ crab for debit against the specified crab IFQ permit until the crab IFQ hired master permit expires or is revoked, suspended, or modified pursuant to § 679.43 or under 15 CFR part 904, or on request of the crab IFQ permit holder.

(2) A legible copy of the crab IFQ hired master permit must be on board the vessel used by the hired master to harvest IFQ crab at all times IFQ crab are retained on board. Except as specified in § 680.42, an individual who is issued a crab IFQ hired master permit must remain aboard the vessel used to harvest IFQ crab, specified under that permit, during the crab fishing trip and at the landing site until all crab harvested under that permit are offloaded and the landing report for IFQ crab is completed.

(h) *Contents of application for crab IFQ hired master permit.* In order for the application to be considered complete, a copy of the USCG *Abstract Of Title* or *Certificate Of Documentation* must be included with this application to demonstrate percent of vessel ownership by the IFQ permit holder. A complete application for a crab IFQ hired master permit must include the following information:

(1) *Purpose of application.* Indicate whether the application is to add or to delete a hired master and identification of crab IFQ permit(s) for which this application is submitted.

(2) *IFQ permit holder information.* Enter permit holder's name, NMFS Person ID, and social security number

(optional) or tax identification number; permit holder's permanent or temporary business mailing address; and permit holder's business telephone number, facsimile number, and e-mail address (if available).

(3) *Identification of vessel upon which crab IFQ will be harvested.* Enter the vessel's name, ADF&G vessel registration number, and USCG documentation number. Indicate whether (YES or NO) the permit holder has at least a 10 percent ownership interest in the vessel the crab IFQ hired master will use to fish permit holder's IFQ crab. If YES, provide documentation of IFQ permit holder's 10 percent ownership interest.

(4) *IFQ hired master permit holder information.* Complete a separate section for each crab IFQ hired master. Enter the hired master's name, NMFS Person ID, social security number (optional) or tax identification number, and date of birth; hired master's permanent or temporary business mailing address; and hired master's business telephone number, facsimile number, and e-mail address (if available).

(5) *Applicant certification.* The applicant must sign and date the application certifying that all information is true, correct, and complete to the best of his/her knowledge and belief. If the application is completed by an authorized representative, then authorization must accompany the application.

(i) *RCR permit.* (1) An RCR permit is issued on an annual basis. An RCR permit is valid during the crab fishing year for which it is issued until the RCR permit expires or is revoked, suspended, or modified pursuant to § 679.43 or under 15 CFR part 904.

(2) An RCR permit is required for any person who receives unprocessed CR crab from the person(s) who harvested the crab, the owner or operator of a vessel that processes CR crab at sea, any person holding IPQ, and any person required to submit a Departure Report under 50 CFR 679.5(1)(4).

(j) *Contents of application for RCR permit.* For the application to be considered complete, all fees required by NMFS must be paid, and any EDR required under § 680.6 must be submitted to the DCA. In addition, the applicant must include the following information:

(1) *Purpose of application.* Indicate whether the application is a request for a new RCR permit, a renewal of an existing RCR permit, or an amendment to an existing RCR permit. If a renewal of or amendment to an existing RCR permit, include the applicant's RCR permit number.

(2) *Applicant identification.* Enter applicant's name and NMFS Person ID; applicant's social security number or tax ID number (required); name of contact person for the applicant, if applicant is not an individual; applicant's permanent business mailing address; and business telephone number, facsimile number, and e-mail address (if available).

(3) *Type of activity.* Select type of receiving or processing activity and whether catcher/processor or shoreside processor.

(4) *Individual responsible for submission of EDR.* Enter the name of the designated representative submitting the EDR on behalf of the RCR, if an EDR is required at § 680.6. If different from the RCR's contact information, also enter the designated representative's business mailing address, telephone number, facsimile number, and e-mail address (if available).

(5) *Application certification.* The applicant must sign and date the application certifying that all information is true, correct, and complete to the best of his/her knowledge and belief. If the application is completed by an authorized representative, then proof of authorization must accompany the application.

(k) *Federal crab vessel permit.* The owner of a vessel must have a Federal crab vessel permit on board that vessel when used to fish for CR crab.

(1) A Federal crab vessel permit is issued on an annual basis to the owner of the vessel and is in effect from the date of issuance through the end of the crab fishing year for which the permit was issued, unless it is revoked, suspended, or modified under § 600.735 or § 600.740.

(2) A Federal crab vessel permit may not be surrendered at any time during the crab fishing year for which it was issued.

(3) A Federal crab vessel permit issued under this paragraph is not

#### § 680.4

#### 50 CFR Ch. VI (10–1–08 Edition)

transferable or assignable and is valid only for the vessel for which it is issued.

(4) To qualify for a Federal crab vessel permit, the applicant must be a U.S. Citizen.

(5) The holder of a Federal crab vessel permit must submit an amended application for a Federal crab vessel permit within 10 days of the date of change in: the ownership of the vessel (a copy of the current USCG documentation for the vessel showing the change in ownership must accompany the amended application), or the individual responsible for submission of the EDR on behalf of the vessel's owner(s).

(1) *Contents of application for federal crab vessel permit.* For the application to be considered complete, all fees required by NMFS must be paid, and any EDR required under § 680.6 must be submitted to the DCA. Also, if ownership of the vessel has changed or if the permit application for a vessel to which a Federal crab vessel permit has never been issued, a copy of the USCG *Abstract Of Title* or *Certificate Of Documentation*. In addition the applicant must include the following information:

(1) *Purpose of application.* Indicate whether the application is a request for a new permit, a renewal of an existing permit, or an amendment to an existing permit. If a renewal of or amendment to an existing permit, include the current Federal crab vessel permit number.

(2) *Contact owner information.* The name(s), permanent business mailing address, social security number (voluntary) or tax ID number, business telephone number, business facsimile number, business e-mail address (if available) of all vessel owners, and the name of any person or company (other than the owner) that manages the operation of the vessel.

(3) *Vessel information.* Enter the vessel's name and home port (city and state); ADF&G processor code, if vessel is a catcher/processor or stationary floating crab processor; whether a vessel of the United States; USCG documentation number; ADF&G vessel registration number; and vessel's LOA (in feet), registered length (in feet), gross tonnage, net tonnage, and shaft horse-

power. Indicate all types of operations the vessel may conduct during a crab fishing year.

(4) *Designated representative for EDR.* Enter the name of the designated representative who is responsible for completion and submission of the EDR, and the representative's business mailing address, telephone number, facsimile number, and e-mail address (if available).

(5) *Applicant certification.* The applicant must sign and date the application certifying that all information is true, correct, and complete to the best of his/her knowledge and belief. Print the applicant name. If the application is completed by an authorized representative, then authorization must accompany the application.

(m) *Annual crab harvesting cooperative IFQ permit.* See § 680.21.

(n) *Contents of annual application for converted CPO QS/IFQ permit.* (1)(i) A complete application must be received by NMFS no later than August 1 of the crab fishing year for which a person or crab harvesting cooperative is applying to receive converted CPO QS and the IFQ derived from that converted CPO QS. If a complete application is not received by NMFS by this date, that person or crab harvesting cooperative will not receive converted CPO QS and the IFQ derived from that converted CPO QS for that crab fishing year.

(ii) To receive converted CPO QS/IFQ this application must be accompanied by a timely and complete application for crab IFQ/IPQ described at paragraph (f) of this section or a timely and complete application for a crab harvesting cooperative IFQ permit described at paragraph (m) of this section.

(2) For the application to be considered complete, all fees required by NMFS must be paid, and any EDR required under § 680.6 must be submitted to the DCA. In addition, the applicant must include the following information (see paragraphs (n)(2)(i) through (v) of this section):

(i) *Entity identification.* Indicate the entity (Entity A, B, or C) described in § 680.40(c)(5)(ii) through (c)(5)(iv) for which you are applying to receive converted CPO QS.

## Fishery Conservation and Management

## § 680.5

(ii) *Applicant information.* Enter applicant's name and NMFS Person ID; applicant's permanent business mailing address and any temporary mailing address the applicant wishes to use; and applicant's business telephone number, facsimile number, and e-mail address.

(A) For Entity A or B:

(1) Identify the amount of CVO QS in either the BBR or BSS crab QS fishery with a North Region designation for issuance as converted CPO QS; and

(2) Identify the amount of PQS in either the BBR or BSS crab QS fishery initially issued to you by NMFS with a North Region designation for issuance as converted CPO QS.

(B) For Entity C:

(1) Identify the amount of CVO QS in either the BBR or BSS crab QS fishery initially issued to you by NMFS with a North Region designation for issuance as converted CPO QS; and

(2) Identify the amount of PQS in either the BBR or BSS crab QS fishery with a North Region designation for issuance as converted CPO QS.

(iii) *Affiliate information for Entities A and B.* (A) For Entities A and B described in § 680.40(c)(5)(ii) and (c)(5)(iii), indicate the permanent business mailing address and any temporary mailing address, business telephone number, facsimile number, and e-mail address of any person who is affiliated with you based on information provided in an annual application for IFQ/IPQ that is approved by the Regional Administrator for that crab fishing year

(B) Indicate the amount of PQS in either the BBR or BSS crab QS fishery initially issued to that person with a North Region designation for issuance as converted CPO QS.

(C) Indicate the amount of CVO QS in either the BBR or BSS crab QS fishery with a North Region designation held

by the affiliate for issuance as converted CPO QS.

(iv) *Affiliate information for Entity C.*

(A) For Entity C described in § 680.40(c)(5)(iv), indicate the permanent business mailing address and any temporary mailing address, business telephone number, facsimile number, and e-mail address of any person who is affiliated with you based on information provided in an annual application for IFQ/IPQ that is approved by the Regional Administrator for that crab fishing year.

(B) Indicate the amount of PQS in either the BBR or BSS crab QS fishery with a North Region designation for issuance as converted CPO QS.

(C) Indicate the amount of CVO QS in either the BBR or BSS crab QS fishery initially issued to the affiliate with a North Region designation for issuance as converted CPO QS.

(v) *Certification of applicant and affiliates.* The applicant and any persons who are affiliated with the applicant and named on the application must sign and date the application certifying that all information is true, correct, and complete to the best of his/her knowledge and belief. If the application is completed by an authorized representative, proof of authorization must accompany the application.

[70 FR 10241, Mar. 2, 2005, as amended at 71 FR 32864, June 7, 2006; 73 FR 29982, May 23, 2008]

### § 680.5 Recordkeeping and reporting (R&R).

(a) *General requirements*—(1) *Recording and reporting crab.* Any CR crab harvested that is retained must be recorded and reported.

(2) *Responsibility.* (i) The participants in the CR fisheries are responsible for complying with the following R&R requirements:

| Recordkeeping and reporting report                                               | Person responsible                                                                              | Reference      |
|----------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------|----------------|
| (A) Longline and pot gear catcher vessel daily fishing logbook.                  | Owner and operator of vessel .....                                                              | § 679.5(c)(1). |
| (B) Longline and pot gear catcher/processor daily cumulative production logbook. | Owner and operator of vessel .....                                                              | § 679.5(c)(1). |
| (C) Product Transfer Report (PTR) .....                                          | Owner and operator of catcher/processor; Owner and manager of shoreside processor or SFCP; RCR. | § 679.5(g).    |
| (D) U.S. Vessel Activity Report (VAR) .....                                      | Owner and operator of vessel .....                                                              | § 679.5(k).    |
| (E) Transshipment Authorization .....                                            | Owner and operator of a catcher/processor; RCR ....                                             | § 679.5(l)(3). |
| (F) IFQ Departure Report .....                                                   | Owner and operator of vessel .....                                                              | § 679.5(l)(4). |
| (G) CR crab Landing Report .....                                                 | RCR .....                                                                                       | § 680.5(c).    |

| Recordkeeping and reporting report                                                                       | Person responsible                                                                           | Reference   |
|----------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------|-------------|
| (H) Catcher/processor offload report .....                                                               | Owner and operator of a catcher/processor .....                                              | § 680.5(e). |
| (I) Eligible Crab Community Organization (ECCO) Annual Report for an Eligible Crab Community (ECC) ..... | ECCO .....                                                                                   | § 680.5(f). |
| (J) RCR Fee Submission Form .....                                                                        | RCR .....                                                                                    | § 680.5(g). |
| (K) Crab Economic Data Report (EDR) .....                                                                | Owners or leaseholders of a catcher vessel, catcher/processor, shoreside processor, or SFCP. | § 680.6.    |

(3) *Representative*. Designation of a representative to complete R&R requirements does not relieve the person(s) responsible for compliance from ensuring compliance with this section.

(4) *Submittal of information*. A person must submit to NMFS all information, records, and reports required in this section in English and in a legible, timely, and accurate manner, based on A.I.T.; if handwritten or typed, in indelible ink.

(5) *Alteration of records*. A person may not alter or change any entry or record submitted to NMFS, except that an inaccurate, incomplete, or incorrect entry or record may be corrected after notifying the Regional Administrator at the address and facsimile number listed on each form, or as provided the opportunity on the Internet.

(6) *Inspection of records*. A person responsible for R&R under paragraph (a)(2) of this section must make available for inspection all reports, forms, scale receipts, and CR crab landing report receipts upon the request of an authorized officer for the time periods indicated in paragraph (a)(7) of this section.

(7) *Retention of records*. A person responsible for R&R under paragraph (a)(2) of this section must retain all reports and receipts as follows:

(i) *On site*. Until the end of the crab fishing year during which the records were made and for as long thereafter as crab or crab products recorded in the records are retained onboard the vessel or on site at the facility; and

(ii) *For 3 years*. For 3 years after the end of the crab fishing year during which the records were made.

(8) *Landing verification and inspection*. Each CR crab landing and all crab retained on board the vessel making a CR crab landing are subject to verification and inspection by authorized officers.

(9) *Sampling*. Each CR crab landing and all crab retained onboard a vessel

making a CR crab landing are subject to sampling by authorized officers and observers.

(b) *CR landing report procedure*—(1) *Properly debited landing*. All retained crab catch must be weighed, reported, and debited from the appropriate IFQ or IPQ account under which the catch was harvested, as appropriate.

(2) An RCR and his or her designee(s) must enter his or her authorized user ID and password to access the IERS.

(3) [Reserved]

(4) The RCR must enter the landing and/or processing data specified under paragraphs (d)(7), (d)(8) or (d)(9) of this section in the Internet submission form(s) or other NMFS-approved method.

(5) Deadloss and personal use crab must be debited from the appropriate CR allocation under which the catch was harvested.

(6) Deadloss and personal use crab that an IPQ holder did not purchase are not required to be debited from the IPQ holder's account.

(7) A properly debited, printed receipt from the IERS or other NMFS-approved reporting method constitutes confirmation that NMFS received the CR crab landing report and that the permit holder's account is properly debited.

(8) The RCR and the crab IFQ permit holder, crab IFQ hired master, IPQ permit holder, or person who harvested Adak or CDQ crab must each sign the printed receipt(s) to indicate that the landing reports are accurate and must enter date signed.

(9) The receipt must be retained as specified under paragraph (a)(7) of this section.

(10) A person who for any reason is unable to properly submit an electronic CR crab landing report or debit a landing as required under paragraph (d) of this section must telephone NMFS (800-304-4846).

(11) The address of the NMFS Alaska Region Internet site will be provided to all RCRs receiving crab.

(c) *Interagency electronic reporting system (IERS)*. Unless an alternative reporting method has been approved by NMFS, an RCR must obtain at his or her own expense: hardware, software, and Internet connectivity to support Internet submissions of the CR crab landing report on the IERS. The IERS will provide a web page where the applicant will enter information.

(1) *IERS processor registration*. (i) Before an RCR and his or her designee(s) can use the eLandings system to report landings, he/she must request authorization to use the system, reserve a particular user ID, and receive a password. Each RCR and his or her designee(s) must provide information needed to process account access into the IERS by completing an IERS Processor Registration at <http://www.fakr.noaa.gov/sustainablefisheries/crab/crfaq.htm>. Upon receiving the signed registration, the IERS will validate that all required information is submitted, that the information entered is in correct format, and that the requested user ID is not already in use. The IERS will generate a PDF document from the information entered by the applicant.

(ii) The user must print, sign, and submit the application to the address provided on the registration form. A user ID will be activated after a signed registration form is received. The signature of an applicant on the form means that the applicant agrees to use access privileges to the IERS for purposes of submitting legitimate fishery landing reports and to safeguard the user ID and password to prevent their use by unauthorized persons. In addition, signature of the RCR ensures that the applicant is authorized to submit landing reports for the processor permit number(s) listed.

(iii) Agency staff will review the form, confirm that the user should be authorized for the system, and will activate the user on the IERS. The IERS will then send the user an e-mail informing the user that his or her new user ID is ready for use.

(2) *Contents of the IERS processor registration*. The application for IERS

processor registration must contain the following information: Date of application, name of applicant (user), processor name and location (city and state) or vessel name, if applicable, business telephone number, business facsimile number, business e-mail address (if available), requested user ID, initial password, security question, security answer, ADF&G processor code(s), Federal processor permit number, if applicable, and RCR permit number(s).

(d) *CR crab landings—(1) Joint and several liability*. The RCR and the crab IFQ permit holder, crab IFQ hired master, IPQ permit holder, or person who harvested Adak or CDQ crab are required to provide accurate information to the RCR to complete the CR crab landing report.

(2) *Reporting*. All CR crab must be reported by the receiving RCR unless the crab has been previously reported.

(i) *Reporting by all except catcher/processors*. Crab must be reported using the IERS system described in paragraph (c) of this section.

(ii) *Reporting by catcher/processors*. Catcher/processors may submit CR crab landings by e-mail attachment in a format approved by NMFS.

(3) *Submittal requirement*. An RCR is required to submit a CR crab landing report to the Regional Administrator for each catcher vessel landing or catcher/processor landing.

(4) *Time limits*. (i) For CR crab harvested on a catcher/processor, the owner or operator is required to submit a CR crab landing report to NMFS by Tuesday noon after the end of each weekly reporting period in which CR crab was harvested.

(ii) For CR crab landed to an RCR that is not a catcher/processor, the owner or manager is required to submit a CR crab landing report to NMFS within 6 hours after all crab is offloaded from a specific vessel.

(5) *Remain at landing site*. Except for landings of CR crab processed at sea, once the landing has commenced, neither the harvesting vessel nor the crab IFQ permit holder, crab IFQ hired master, or person who harvested Adak or

CDQ crab may leave the landing facility until the CR crab account is properly debited (as described in paragraph (b)(7) of this section).

(6) *No movement of CR crab.* The landed crab may not be moved from the facility where it was landed until the CR crab landing report is received by the Regional Administrator, and the IFQ permit holder's or IPQ permit holder's account is properly debited (as described in paragraph (b)(7) of this section).

(7) *Contents of CR crab landing report.* The RCR must accurately enter the following information in a CR crab landing report:

- (i) RCR permit number, IFQ permit number, and IPQ permit number, as appropriate;
- (ii) ADF&G processor code of first purchaser;
- (iii) State of Alaska Interim Use Permit (IUP) number;
- (iv) Commercial Fisheries Entry Commission year sequence number;
- (v) Indicate (YES or NO) whether a portion of the harvested CR crab was or will be delivered to another RCR (partial delivery);
- (vi) Indicate (YES or NO) whether this is the last delivery for the trip;
- (vii) Management program: IFQ, CDQ, or Adak. (If CDQ or Adak, see paragraph (d)(9) of this section);
- (viii) ADF&G vessel registration number of the delivering vessel;
- (ix) Date fishing began;
- (x) Date of the CR crab landing;
- (xi) Number of pot lifts in each ADF&G statistical area;
- (xii) Number of crew, including operator and excluding observer(s);
- (xiii) Number of observers;
- (xiv) ADF&G fish ticket number (if not automatically supplied);
- (xv) If a shoreside processor, type of processing operation; enter port code from Tables 14a or 14b to part 679. If a catcher/processor, enter operation type from Table 14c to part 679;
- (xvi) ADF&G statistical area of harvest reported by the IFQ permit holder;
- (xvii) Species code of catch from Table 2 to this part;
- (xviii) Delivery-condition codes of catch from Table 3a to this part;
- (xix) Number of crab retained (optional);

- (xx) Price per pound;
- (xxi) Sold weight of live crab in pounds;
- (xxii) Scale weight of deadloss in pounds;
- (xxiii) Scale weight of crab retained for personal use in pounds; and
- (xxiv) Gear code to describe gear used to harvest CR crab (see Table 15 to 50 CFR part 679).

(8) *Custom processing.* In addition to the information required in paragraph (d)(7) of this section, if custom processing CR crab, enter the ADF&G processor code of the person for which the CR crab was custom processed;

(9) *CDQ and Adak landings.* Instead of the information described in paragraph (d)(7) of this section, an RCR who receives a landing of CR crab harvested under the CDQ or Adak community allocation programs must submit for each landing the following information for each CR fishery and species:

- (i) RCR permit number;
- (ii) Crab species code from Table 2 to this part;
- (iii) Type of crab, either CDQ or Adak community allocation;
- (iv) If CDQ, enter CDQ group number;
- (v) Crab species amount. Enter the scale weight(s) in raw crab pounds landed or processed at sea; and
- (vi) Price per pound.

(e) *Catcher/processor offload report.* The owner or operator of a catcher/processor that harvested and processed CR crab must complete a catcher/processor offload report at the time of offload of CR crab and attach a scale printout showing gross product offload weight.

(1) *Contents of catcher/processor offload report.* The catcher/processor offload report must include the following: Name, ADF&G processor code, and Federal crab vessel permit number of the catcher/processor; fishing start date and time; fishing stop date and time; product code from Table 3b to this part; total gross weight of product offload, including glaze and packaging (specify lb or kg); estimated glaze percentage; case count and average box weight (specify lb or kg); net weight of crab product (specify lb or kg); completion date and time of catcher/processor offload; location (port) of catcher/processor offload (see Tables 14a and 14b to

## Fishery Conservation and Management

## § 680.5

part 679); and ADF&G fish ticket numbers.

(2) *Submittal.* The RCR must submit electronically or by facsimile (907-586-7465) the catcher/processor offload report and a copy of the scale printout within 2 hours of completion of offload to the Regional Administrator.

(f) *ECCO Annual Report.* (1) Annually by June 30, each ECCO must submit a complete annual report on its crab QS activity for the prior crab fishing year for each ECC represented by the ECCO. The ECCO must submit a copy of the annual report to the governing body of each community represented by the ECCO and to the Regional Administrator, NMFS, Alaska Region; P.O. Box 21668; Juneau, AK 99802.

(2) *Contents of ECCO Annual Report.* A complete annual report must include the following information for the crab IFQ derived from the QS held by the ECCO:

(i) Name, ADF&G vessel registration number, USCG documentation number, and Federal crab vessel permit of each vessel from which the crab IFQ was harvested;

(ii) Name and business addresses of individuals employed as crew members when fishing the crab IFQ;

(iii) Criteria used by the ECCO to distribute crab IFQ leases among eligible community residents;

(iv) Description of efforts made to ensure that crab IFQ lessees employ crew members who are eligible community residents of the ECC aboard vessels on which crab IFQ derived from QS held by a ECCO is being fished;

(v) Description of the process used to solicit lease applications from eligible community residents of the ECC on whose behalf the ECCO is holding QS;

(vi) Names and business addresses and amount of crab IFQ requested by each individual applying to receive crab IFQ from the ECCO;

(vii) Any changes in the bylaws of the ECCO, board of directors, or other key management personnel;

(viii) Copies of minutes, bylaw changes, motions, and other relevant decision making documents from ECCO board meetings.

(g) *RCR fee submission form* (See § 680.44). (1) *Applicability.* An RCR who receives any CR crab pursuant to

§ 680.44 or the RCR's authorized representative, must submit a complete RCR fee submission form electronically, by mail, or by facsimile to the Regional Administrator. Mail to: Regional Administrator, NMFS, Alaska Region; Attn: OMI; P.O. Box 21668; Juneau, AK 99802-1668; Facsimile (907-586-7354). Fee submission forms are available from RAM or on the Alaska Region Home Page at <http://www.fakr.noaa.gov/>.

(2) *Due date and submittal.* The reporting period of the RCR fee submission form shall be the crab fishing year. An RCR must submit any crab cost recovery fee liability payment(s) and the RCR fee submission form to NMFS electronically or to the address provided at paragraph (g)(1) of this section not later than July 31 following the crab fishing year in which the CR crab landings were made.

(3) *Required information.* An RCR must accurately record on the RCR fee submission form the following information:

(i) *Identification of the RCR.* Enter the printed full name, NMFS person ID, RCR permit number, social security number or Federal tax identification number of the RCR. Enter the permanent or temporary business mailing address (indicate whether permanent or temporary), and the business telephone number, facsimile number, and e-mail address (if available).

(ii) *Signature of applicant.* Enter printed name and signature of applicant and date signed. If authorized representative, attach authorization to application.

(iii) *Method of Payment* (see § 680.44 (a)(4)). The RCR must select the method of payment for fees; whether by personal check, bank certified check (cashier's check), money order, or credit card. If by credit card, the RCR must select the type of credit card and enter the card number, expiration date, amount of payment, name as printed on the card, signature of the card holder, and date of signature.

(h) *Product transfer report.* (See § 679.5(g).)

(i) *U.S. Vessel activity report (VAR).* (See § 679.5(k).)

(j) *Transshipment authorization.* (See § 679.5(1)(3).)

§ 680.6

50 CFR Ch. VI (10–1–08 Edition)

(k) *IFQ departure report.* (See § 679.5(1)(4).)

(l) *Catcher vessel longline and pot daily fishing logbook (DFL) and catcher/processor daily cumulative production logbook (DCPL).* (See § 679.5 (c)).

[70 FR 10241, Mar. 2, 2005, as amended at 70 FR 33395, June 8, 2005; 70 FR 75421, Dec. 20, 2005]

**§ 680.6 Crab economic data report (EDR).**

Persons participating in the CR crab fisheries are required to submit the EDRs described in this section for various permit applications to be considered complete. Use these tables to complete the EDRs described in this section: Table 1, Crab Rationalization (CR) Fisheries; Table 2, Crab Species Codes; Table 3c, Crab Product Codes for the EDRs; Table 4, Crab Process Codes; Table 5, Crab Size Codes; and Table 6, Crab Grade Codes.

(a) *Catcher vessel historical EDR.* (1) NMFS will select catcher vessels from a list of known catcher vessels, as determined by NMFS, that made at least one landing from fisheries listed in Table 1 to this part between January 1,

1998, through December 31, 2004, and will publish a FEDERAL REGISTER notice identifying vessels whose existing or former owners and leaseholders are required to submit an EDR, as follows:

(i) Owners or leaseholders of catcher vessels that participated in the BSAI crab fisheries between January 1, 1998, through December 31, 2004, and have received an allocation of QS, PQS, IFQ, or IPQ.

(ii) Owners or leaseholders of catcher vessels that participated in the BSAI crab fisheries between January 1, 1998, through December 31, 2004, that did not qualify for and receive QS, PQS, IFQ, or IPQ, but were participants at any time since January 23, 2004, in the BSAI crab fisheries.

(2) *Time limit.* The owner or leaseholder of the identified vessels must submit the historical EDR to the DCA 90 days after the FEDERAL REGISTER notice notifying owners or leaseholders, to the address provided on the form.

(3) *Instructions.* Instructions for submitting a catcher vessel historical EDR and certification page are specified in the following table:

| If you were . . .                                                              | And . . .                                                                                                                                                                                                                            | You must complete and submit . . .                                                                                                                                                                     |
|--------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (i) The catcher vessel owner as described in paragraph (a)(1) of this section. | (A) You harvested BSAI crab in the vessel described at paragraph (a)(4)(ii)(B) of this section and were notified by NMFS to submit an EDR for selected years.                                                                        | Entire EDR for each year that BSAI crab was harvested.                                                                                                                                                 |
|                                                                                | (B) No one harvested BSAI crab in the vessel described at paragraph (a)(4)(ii)(B) of this section and you were notified by NMFS to submit an EDR for selected years.                                                                 | EDR certification pages.                                                                                                                                                                               |
|                                                                                | (C) You leased the vessel to another party, and harvested no BSAI crab in the vessel described at paragraph (a)(4)(ii)(B) of this section and were notified by NMFS to submit an EDR for selected years.                             | (1) EDR certification pages.                                                                                                                                                                           |
|                                                                                | (D) You leased the vessel for a portion of the year to another party, but harvested some BSAI crab in the vessel described at paragraph (a)(4)(ii)(B) of this section and were notified by NMFS to submit an EDR for selected years. | (2) Provide the name, business address, and telephone number of the person to whom you leased the vessel during the NMFS-selected years.<br>(1) Entire EDR for each year that BSAI crab was harvested. |
| (ii) The leaseholder as described in paragraph (a)(1) of this section.         | You harvested BSAI crab in the vessel described at paragraph (a)(4)(ii)(B) of this section vessel and were notified by NMFS to submit an EDR for selected years.                                                                     | (2) Provide the name, business address, and telephone number of the person to whom you leased the vessel during the NMFS-selected years.<br>Entire EDR for each year that BSAI crab was harvested.     |

## Fishery Conservation and Management

## § 680.6

(4) *EDR certification pages.* (i) The owner or leaseholder must submit the EDR certification pages either:

(A) *As part of the entire EDR.* The owner or leaseholder must submit the completed EDR certification pages as part of the entire EDR and must attest to the accuracy and completion of the EDR by signing and dating the certification pages; or

(B) *As a separate document.* The owner or leaseholder must submit the completed EDR certification pages only, and must attest that they meet the conditions exempting them from submitting the EDR, by signing and dating the certification pages (see paragraph (a)(3) of this section).

(ii) The owner, leaseholder, or designated representative must submit the following information on the certification pages:

(A) *Calendar year of EDR.* Calendar year for which the vessel must submit the EDR;

(B) *Catcher vessel information.* Vessel name, USCG documentation number, ADF&G vessel registration number, crab LLP license number(s), current estimated market value of vessel and equipment, and replacement value of vessel and equipment.

(C) *Owner information.* Name of company, partnership, or sole proprietorship and business telephone number, facsimile number, and e-mail address (if available).

(D) *Designated representative.* Any owner or leaseholder may appoint a designated representative who is an individual for responding to questions on the EDR and must ensure that the designated representative complies with the regulations in this part. The designated representative is the primary contact person for the DCA on issues relating to data required in the EDR.

(E) *Person completing this report.* (1) Indicate whether the person completing this report is the owner, leaseholder, or designated representative;

(2) If the owner is the person completing this report, check the correct box. If the name and address of the owner provided in paragraph (a)(4)(ii)(C) of this section is the same as the name and address of the person completing the EDR, the information does not need to be repeated here; and

(3) Name of person, title, and business telephone number, facsimile number, and e-mail address (if available).

(5) *EDR.* The owner or leaseholder must record the following information on an EDR:

(i) *BSAI Crab activity chart.* Complete a crab activity chart by entering the following information: CR fishery code, ADF&G Fish ticket number(s), number of days at sea, average crew size (including captain), and number of pots lost (if applicable).

(ii) *Crab sales gross revenue.* CR fishery code, pounds sold, and gross revenue.

(iii) *CDQ crab lease costs.* CR fishery code, pounds leased, and total cost of lease. If you did not participate in CDQ fisheries, indicate N/A.

(iv) *Crab harvesting labor costs.* CR fishery code, number of crew earning shares (excluding captain), total crew share payment, and captain's share payment.

(v) *BSAI crab crew residence.* For employees that participated in BSAI crab harvesting, record the locations where they reside and the number of employees that are from each residential location, as follows:

(A) If Alaska, enter primary city of residence.

(B) If state other than Alaska, enter primary state of residence.

(C) If country other than United States, enter primary country of residence.

(vi) *BSAI crab-specific vessel costs.* For the fishing year being reported, record insurance premiums (for hull, property and indemnity, and pollution), insurance deductible fees, quantity and cost of pots purchased, line, and other crab fishing gear purchases, pounds and cost of bait by species, gallons and cost of fuel, cost of lubrication and hydraulic fluids, cost of food and provisions for crew, other crew costs, freight costs of supplies shipped to you for the vessel, freight costs for landed crab, storage, observer costs, fish taxes, and other crab-specific costs.

(vii) *Vessel-specific costs.* Record the total annual costs for each category. If the reported total cost is not exclusively for BSAI crab operations, place an "X" in the COST RELATED TO MORE THAN JUST CRAB FISHING

column. The agency or contracted analyst will prorate this amount over all fishing activities. Indicate capitalized expenditures for vessel, gear and equipment; repair and maintenance (R&M) expenses for vessel, gear and equipment; and other vessel-specific costs (specify).

(viii) *Labor payment details.* (A) Indicate with an “X” in the appropriate column whether the following expenses were deducted, directly charged, or not deducted or directly charged from the total revenue before calculating the crew payments in BSAI fisheries: fuel and lubrication, food and provisions, bait, fish tax, observer costs, CDQ fish, freight, gear loss, and other (specify).

(B) Indicate percentage of the net share that was applied to boat share and crew share (including captain).

(ix) *Annual totals for all fisheries.* For the calendar year, record the total days at sea, gross revenue, round pounds caught (excluding discards), and labor costs for your fishing activities in all fisheries in which you participated (crab, groundfish, etc.).

(b) *Catcher vessel annual EDR*—(1) *Requirement.* On or before June 28 of each year, any owner or leaseholder of a catcher vessel that landed crab from a CR fishery must submit to the DCA, at the address provided on the form, an EDR for annual data for the previous calendar year. For the year 2005, the annual EDR is due on or before June 28, 2006.

(2) *Instructions.* Instructions for submitting a catcher vessel annual EDR and certification page are specified in the following table:

| If you are . . .              | And . . .                                                                                                                                                                                        | You must complete and submit . . .                                                                                                            |
|-------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| (i) The catcher vessel owner. | (A) You harvested BSAI crab in the vessel described at paragraph (b)(3)(ii)(B) of this section during this calendar year.                                                                        | Entire EDR.                                                                                                                                   |
|                               | (B) No one harvested BSAI crab in the vessel described at paragraph (b)(3)(ii)(B) of this section during this year.                                                                              | EDR certification pages.                                                                                                                      |
|                               | (C) You leased the vessel to another party, and harvested no BSAI crab in the vessel described at paragraph (b)(3)(ii)(B) of this section during this calendar year.                             | (1) EDR certification pages.                                                                                                                  |
|                               | (D) You leased the vessel for a portion of the year to another party, but harvested some BSAI crab in the vessel described at paragraph (b)(3)(ii)(B) of this section during this calendar year. | (2) Provide the name, address, and telephone number of the person to whom you leased the vessel during this calendar year.<br>(1) Entire EDR. |
| (ii) The leaseholder          | You harvested BSAI crab in the vessel described at paragraph (b)(3)(ii)(B) of this section vessel during this calendar year.                                                                     | (2) Provide the name, address, and telephone number of the person to whom you leased the vessel during this calendar year.<br>Entire EDR.     |

(3) *EDR certification pages.* (i) The owner or leaseholder must submit the EDR certification pages either:

(A) *As part of the entire EDR.* The owner or leaseholder must submit the completed EDR certification pages as part of the entire EDR and must attest to the accuracy and completion of the EDR by signing and dating the certification pages; or

(B) *As a separate document.* The owner or leaseholder must submit the completed EDR certification pages only, and must attest that they meet the conditions exempting them from sub-

mitting the EDR, by signing and dating the certification pages.

(ii) The owner or leaseholder must submit the following information on the certification pages:

(A) *Calendar year of EDR.* Calendar year of reporting year;

(B) *Catcher vessel information.* Catcher vessel name, USCG documentation number, ADF&G vessel registration number, Federal crab vessel permit number, crab LLP license number(s), current estimated market value of vessel and equipment, and replacement value of vessel and equipment;

(C) *Owner information.* Name of company, partnership, or sole proprietorship and business telephone number, facsimile number, and e-mail address (if available);

(D) *Designated representative.* Any owner or leaseholder may appoint a designated representative who is an individual for responding to questions on the EDR and must ensure that the designated representative complies with the regulations in this part. The designated representative is the primary contact person for the DCA on issues relating to data required in the EDR.

(E) *Person completing this report.* (1) Indicate whether the person completing this report is the owner, leaseholder, or designated representative;

(2) If the owner is the person completing this report, check the correct box. If the name and address of the owner provided in paragraph (b)(3)(ii)(C) of this section are the same as the name and address of the person completing the EDR, the information does not need to be repeated here; and

(3) Name of person, title, and business telephone number, facsimile number, and e-mail address (if available).

(4) *EDR.* The owner or leaseholder must record the following information on an EDR.

(i) *BSAI Crab activity chart.* Complete a crab activity chart by entering the following information: CR fishery code, ADF&G Fish ticket number(s), number of days at sea, average crew size (including captain), and number of pots lost (if applicable).

(ii) *Crab sales, gross revenue.* CR fishery code, species code, pounds sold, and gross revenue;

(iii) *CDQ and IFQ crab leases.* CR fishery code, species code, pounds leased, and total cost of leasing the quota. If you did not participate in CDQ or IFQ fisheries, indicate N/A.

(iv) *Crab harvesting labor costs—(A) Standard crew payment (shares) for non-IFQ crew and/or captains.* CR fishery code, number of crew earning shares, total crew share payment, and captain's share payment;

(B) *Payments to IFQ-holding crew and/or captains.* CR fishery code, number of crew contributing IFQ shares, pounds of IFQ contributed by crew, total payment to crew for IFQ and shares (for

all crab caught, and residual profit on their IFQ), pounds of IFQ contributed by captain, and payment to captain for IFQ and shares (for all fish caught, and residual profit on their IFQ);

(v) *BSAI crab crew residence—(A) Employees with crew license.* Record the Alaska Commercial Crew license number or the State of Alaska Commercial Fisheries Entry Commission (CFEC) gear operator permit number, and location of crew residence (city and state);

(B) *Employees without crew license.* Record the locations where they reside and the number of employees that are from each residential location as follows:

(1) If Alaska, enter primary city of residence;

(2) If state other than Alaska, enter primary state of residence; or

(3) If country other than United States, enter primary country of residence.

(vi) *BSAI crab-specific vessel costs.* Insurance premiums (hull, property and indemnity, and pollution), insurance deductible fees, pots purchased, line and other gear purchases, pounds and cost of bait by species, gallons and cost of fuel, lubrication and hydraulic fluids, food and provisions for crew, other crew costs, freight costs of supplies shipped to you for the vessel, freight costs for landed crab, storage, observer costs, fish taxes, other crab-specific costs (specify), and fishing cooperative costs.

(vii) *Vessel-specific costs.* Record the total annual costs for each category. If the reported total cost is not exclusively for BSAI crab operations, place an "X" in the COST RELATED TO MORE THAN JUST CRAB FISHING column. The agency or contracted analyst will prorate this amount over all fishing activities. Indicate capitalized expenditures for vessel, gear and equipment (city and state where purchased); R&M expenses for vessel, gear and equipment (city and state where repairs were made); and other vessel-specific costs (specify).

(viii) *Labor payment details.* (A) Indicate with an "X" in the appropriate column whether the following expenses were deducted, directly charged, or not deducted or directly charged from the total revenue before calculating the

crew payments in BSAI crab fisheries: fuel and lubrication, food and provisions, bait, fish tax, observer costs, CDQ fish, IFQ leases, freight, gear loss, and other (specify);

(B) Indicate percentage of the net share that is applied to boat share and crew share (including captain).

(ix) *Annual totals for all fisheries.* For the calendar year, record the total days at sea, gross revenue, round pounds caught (excluding discards), and labor costs for your fishing activities in all fisheries in which you participated (crab, groundfish, etc.).

(c) *Catcher/processor historical EDR—*  
(1) *Requirement.* Any owner or leaseholder of a catcher/processor that harvested or processed BSAI crab in the calendar years 1998, 2001, or 2004 must

submit to the DCA, at the address provided on the form, an EDR for historical data for each of the specified calendar years, if they:

(i) Received an allocation of QS, PQS, IFQ, or IPQ under this program;

(ii) Did not qualify for and receive QS, PQS, IFQ, or IPQ, but are participants at any time since January 23, 2004, in the BSAI crab fisheries.

(2) *Time limit.* Any owner or leaseholder of the catcher/processor described in paragraph (c)(4)(ii)(B) of this section must submit the historical EDR to the DCA by June 30, 2005, at the address provided on the form.

(3) *Instructions.* Instructions for submitting a catcher/processor historical EDR and certification page are specified in the following table:

| If you were . . .                                                       | And . . .                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | You must complete and submit . . .                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| (i) The catcher/processor owner described in paragraph of this section. | (A) You processed BSAI crab in the vessel described at paragraph (c)(4)(ii)(B) of this section during 1998, 2001, or 2004.<br><br>(B) No one processed BSAI crab in the vessel described at paragraph (c)(4)(ii)(B) of this section during 1998, 2001, or 2004.<br>(C) You leased your catcher/processor to another party, and processed no BSAI crab in the vessel described at paragraph (c)(4)(ii)(B) of this section during 1998, 2001, or 2004.<br><br>(D) You leased your catcher/processor for a portion of the year to another party, but processed some BSAI crab in the vessel described at paragraph (c)(4)(ii)(B) of this section during 1998, 2001, or 2004. | Entire EDR for each year that BSAI crab was processed.<br><br>EDR certification pages for each year that no one processed BSAI crab.<br><br>(1) EDR certification pages.<br><br>(2) Provide the name, business address, and telephone number of the person to whom you leased the catcher/processor during 1998, 2001, or 2004.<br>(1) Entire EDR for each year that BSAI crab was processed.<br><br>(2) Provide the name, business address, and telephone number of the person to whom you leased the catcher/processor during 1998, 2001, or 2004. |
| (ii) The leaseholder described in paragraph (c)(1) of this section.     | You processed BSAI crab in the vessel described at paragraph (c)(4)(ii)(B) of this section during 1998, 2001, or 2004.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Entire EDR for each year that BSAI crab was processed.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

(4) *EDR certification pages.* (i) The owner or leaseholder must submit the EDR certification page either:

(A) *As part of the entire EDR.* The owner or leaseholder must submit the completed EDR certification pages as part of the entire EDR and must attest to the accuracy and completion of the EDR by signing and dating the certification pages; or

(B) *As a separate document.* If the owner or leaseholder did not process

BSAI crab in 1998, 2001, or 2004, he or she must submit the completed EDR certification pages only, and must attest that he or she meets the conditions exempting him or her from submitting the EDR, by signing and dating the certification pages, for each year of 1998, 2001, or 2004 that this applies.

(ii) The owner or leaseholder must submit the following information on the certification pages;

## Fishery Conservation and Management

## § 680.6

(A) *Calendar year of EDR.* Calendar year corresponding to 1998, 2001, or 2004;

(B) *Catcher/processor information.* Catcher/processor name, USCG documentation number, ADF&G processor code, crab LLP license number(s), current estimated market value of vessel and equipment, and replacement value of vessel and equipment.

(C) *Owner information.* Name of company, partnership, or sole proprietorship and business telephone number, facsimile number, and e-mail address (if available).

(D) *Designated representative.* Any owner or leaseholder may appoint a designated representative who is an individual for responding to questions on the EDR and must ensure that the designated representative complies with the regulations in this part. The designated representative is the primary contact person for the DCA on issues relating to data required in the EDR.

(E) *Person completing this report.* (1) Indicate whether the person completing this report is the owner, leaseholder, or designated representative;

(2) If the owner is the person completing this report, check the correct box. If the name and address of the owner provided in paragraph (c)(4)(ii)(C) of this section are the same as the name and address of the person completing the EDR, the information does not need to be repeated here; and

(3) Name of person, title, and business telephone number, facsimile number, and e-mail address (if available).

(5) *EDR.* The owner or leaseholder must record the following information on an EDR.

(i) *BSAI crab activity chart.* Complete a crab activity chart by entering the following information: CR fishery code; dates covered (beginning and ending day, month and year); number of days at sea; number of crab processing days, and number of pots lost (if applicable).

(ii) *BSAI crab production.* CR fishery code, raw crab pounds, product code, process code, crab size, crab grade, box size, finished pounds, and whether custom processed (yes or no).

(iii) *Crab harvesting labor costs.* CR fishery code, number of crew earning shares, total crew share payment, and captain's share payment.

(iv) *Crab processing labor costs.* CR fishery code, number of crew with pay determined by processing work, average number of crab processing positions, and total processing labor payment.

(v) *BSAI crab crew residence.* For employees that participated in BSAI crab harvesting and processing, record the locations where they reside and the number of employees that are from each residential location, as follows:

(A) If Alaska, enter primary city of residence;

(B) If state other than Alaska, enter primary state of residence;

(C) If country other than United States, enter primary country of residence;

(vi) *BSAI crab custom processing done for you.* CR fishery code, raw crab pounds supplied to custom processors, raw crab pounds purchased from custom processors, product code, process code, crab size, crab grade, box size, finished pounds, and processing fee.

(vii) *Raw crab purchases from delivering vessels.* CR fishery code, crab size, crab grade, raw crab pounds purchased, and gross payment.

(viii) *CDQ Crab Costs (leases).* CR fishery code, pounds leased, and total cost. If you did not participate in CDQ or IFQ fisheries, indicate N/A.

(ix) *Annual BSAI crab sales.* Record the following information on crab sales to affiliated entities and to unaffiliated entities: species code, product code, process code, crab size, crab grade, box size, finished pounds, and FOB Alaska Revenues.

(x) *BSAI crab-specific vessel costs.* Insurance premiums (hull, property and indemnity, and pollution); insurance deductible fees; total of fisheries taxes which includes the Alaska fisheries business tax, Alaska fisheries resource landing tax, SMAA taxes, and other local sales tax on raw fish; pots purchased (quantity and cost); line and other crab fishing gear purchases; bait (by each CR fishery code, species, pounds and cost); fuel (by CR fishery code, gallons and cost); lubrication and hydraulic fluids; food and provisions for crew; other crew costs; processing and packaging materials, equipment and supplies; re-packing costs, broker fees and promotions for BSAI crab

§ 680.6

50 CFR Ch. VI (10–1–08 Edition)

sales (by CR fishery code); observer costs (by CR fishery code); freight costs for supplies to the vessel; freight and handling costs for processed crab products from the vessel; product storage; gear storage; and other crab-specific costs (specify).

(xi) *Vessel-specific costs.* Record the total annual costs for each category. If the reported total cost is not exclusively for BSAI crab operations, place an “X” in the COST RELATED TO MORE THAN JUST CRAB FISHING column. The agency or contracted analyst will prorate this amount over all fishing activities. Indicate capitalized expenditures for vessel, gear and equipment; R&M expenses for vessel, gear and equipment (city and state where repairs were made); number of employees and salaries for foremen, managers, and other employees not included in direct labor costs; and other vessel-specific costs (specify).

(xii) *BSAI crab custom processing performed for others.* CR Fishery code, product code, process code, and processing revenue.

(xiii) *Annual totals for all fisheries.* For the calendar year, record the total processing days, total days at sea, gross revenue, finished pounds processed, round pounds caught (excluding discards), and labor costs for your fishing and processing activities in all fish-

eries in which you participated (crab, groundfish, etc.).

(xiv) *Labor payment details.* (A) Indicate with an “X” in the appropriate column whether the following expenses were deducted, directly charged, or not deducted or directly charged from the total revenue before calculating the crew payments in BSAI fisheries: fuel and lubrication, food and provisions, bait, fish tax, observer costs, CDQ fish, freight, gear loss, and other (specify).

(B) Indicate percentage of the net share that was applied to boat share and harvesting crew share (including captain).

(C) If processing workers were paid on a share system, indicate percentage of the net share (if applicable) that was applied to processing workers based on product value or net share.

(d) *Catcher/processor annual EDR—(1) Requirement.* On or before June 28 of each year, any owner or leaseholder of a catcher/processor that landed or processed crab from a CR fishery must submit to the DCA, at the address provided on the form, an EDR for annual data for the previous calendar year. For the year 2005, the annual EDR is due on or before June 28, 2006.

(2) *Instructions.* Instructions for submitting a catcher/processor annual EDR and certification page are specified in the following table:

| If you are . . .                                                    | And . . .                                                                                                                                                                        | You must complete and submit . . .                                                                                                         |
|---------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| (i) The catcher/processor owner.                                    | (A) You processed BSAI crab in the vessel described at paragraph (d)(3)(ii)(B) of this section during this calendar year.                                                        | Entire EDR.                                                                                                                                |
|                                                                     | (B) No one processed BSAI crab in the vessel described at paragraph (d)(3)(ii)(B) of this section during this calendar year.                                                     | EDR certification pages.                                                                                                                   |
|                                                                     | (C) You leased all of your IPQ to another party, and processed no BSAI crab in the vessel described at paragraph (d)(3)(ii)(B) of this section during this calendar year.        | (1) EDR certification pages.                                                                                                               |
|                                                                     | (D) You leased portions of your IPQ to another party, but processed some BSAI crab in the vessel described at paragraph (d)(3)(ii)(B) of this section during this calendar year. | (2) Provide the name, address, and telephone number of the person to whom you leased the IPQ during this calendar year.<br>(1) Entire EDR. |
| (ii) The leaseholder described in paragraph (d)(1) of this section. | You processed BSAI crab in the described in vessel described at paragraph paragraph (d)(3)(ii)(B) of this section this section during this calendar year.                        | (2) Provide the name, address, and telephone number of the person to whom you leased the IPQ during this calendar year.<br>Entire EDR.     |

## Fishery Conservation and Management

## § 680.6

(3) *EDR certification pages.* (i) The owner or leaseholder must submit the EDR certification pages either:

(A) *As part of the entire EDR.* The owner or leaseholder must submit the completed EDR certification pages as part of the entire EDR and must attest to the accuracy and completion of the EDR by signing and dating the certification pages; or

(B) *As a separate document.* The owner or leaseholder must submit the completed EDR certification pages only, and must attest that they meet the conditions exempting them from submitting the EDR, by signing and dating the certification pages.

(ii) The owner or leaseholder must submit the following information on the certification pages:

(A) *Calendar year of EDR.* Calendar year for the reporting year;

(B) *Catcher/processor information.* Catcher/processor name, USCG documentation number, ADF&G processor code, RCR permit number, crab LLP license number(s), current estimated market value of vessel and equipment, and replacement value of vessel and equipment.

(C) *Owner information.* Name of company, partnership, or sole proprietorship and business telephone number, facsimile number, and e-mail address (if available).

(D) *Designated representative.* Any owner or leaseholder may appoint a designated representative who is an individual for responding to questions on the EDR and must ensure that the designated representative complies with the regulations in this part. The designated representative is the primary contact person for the DCA on issues relating to data required in the EDR.

(E) *Person completing this report.* (1) Indicate whether the person completing this report is the owner, leaseholder, or designated representative;

(2) If the owner is the person completing this report, check the correct box. If the name and address of the owner provided in paragraph (d)(3)(ii)(C) of this section are the same as the name and address of the person completing the EDR, the information does not need to be repeated here; and

(3) Name of person, title, and business telephone number, facsimile number, and e-mail address (if available).

(4) *EDR.* The owner or leaseholder must record the following information on an EDR.

(i) *BSAI Crab activity chart.* Complete a crab activity chart by entering the following information: CR fishery code, dates covered (beginning and ending day, month and year), number of days at sea, number of crab processing days, and number of pots lost (if applicable).

(ii) *BSAI crab production.* CR fishery code, species code, raw crab pounds, product code, process code, crab size, crab grade, box size, finished pounds, and whether custom processed (Yes or No).

(iii) *Harvesting labor costs.* Record the following information for crew if they harvest crab only, or harvest and process crab.

(A) *Standard crew payment (shares) for non-IFQ contributing crew and/or captains.* CR fishery code, number of crew earning shares, total crew share payment, and captain's share payment.

(B) *Payments to IFQ-holding crew and/or captains.* CR fishery code, number of crew contributing IFQ shares, pounds of IFQ contributed by crew, total payment to crew for IFQ and shares, pounds of IFQ contributed by captain, and payment to captain for IFQ and shares.

(iv) *Crab processing labor costs.* CR fishery code, number of crew with pay determined by processing work, average number of crab processing positions, and total processing labor payment.

(v) *BSAI crab crew residence—(A) Employees with crew license.* Record the Alaska Commercial Crew license number or the State of Alaska Commercial Fisheries Entry Commission (CFEC) gear operator permit number, and location of crew residence (city and state);

(B) *Employees without crew license.* Record the locations where they reside and the number of employees that are from each residential location as follows:

(1) If Alaska, enter primary city of residence;

(2) If state other than Alaska, enter primary state of residence; or

(3) If country other than United States, enter primary country of residence.

(vi) *BSAI crab custom processing done for you.* CR fishery code, species code, raw crab pounds supplied to custom processors, raw crab pounds purchased from custom processors, product code, process code, crab size, crab grade, box size, finished pounds, and processing fee.

(vii) *Raw crab purchases from delivering vessels.* CR fishery code, species code, crab size, crab grade, raw crab pounds purchased, and gross payment.

(viii) *CDQ and IFQ crab costs (leases).* For CDQ and IFQ leases enter CR fishery code, species code, pounds leased, and total cost. If you did not participate in CDQ or IFQ fisheries, indicate N/A.

(ix) *Annual BSAI crab sales.* For affiliated entities and unaffiliated entities enter species code, product code, process code, crab size, crab grade, box size, finished pounds, and FOB Alaska Revenues.

(x) *BSAI crab-specific vessel costs.* Insurance premiums (hull, property and indemnity, and pollution); insurance deductible fees; total of fisheries taxes which include the Alaska fisheries business tax, Alaska fisheries resource landing tax, SMAA taxes, and other local sales tax on raw fish; pots purchased by city and state (quantity and cost); line and other crab fishing gear purchases by city, state, and cost; bait (by each CR fishery code by city and state, species, pounds, and cost); fuel in gallons and cost by CR fishery code, city and state; lubrication and hydraulic fluids by city and state; food and provisions for crew; other crew costs; processing and packaging materials, equipment and supplies by city and state; re-packing costs; broker fees and promotions for BSAI crab sales (by CR fishery code); observer costs (by CR fishery code); freight costs for products to the vessel; freight and handling costs for processed crab products from the vessel; product storage; gear storage; other crab-specific costs (specify), and fishing cooperative costs.

(xi) *Vessel-specific costs.* Record the total annual costs for each category. If the reported total cost is not exclusively for BSAI crab operations, place

an “X” in the COST RELATED TO MORE THAN JUST CRAB FISHING column. The agency or contracted analyst will prorate this amount over all fishing activities. Indicate capitalized expenditures for vessel, gear and equipment (city and state where purchased); R&M expenses for vessel, gear and equipment (city and state where repairs were made); number of employees and salaries for foremen, managers and other employees not included in direct labor costs; and other vessel-specific costs (specify).

(xii) *BSAI crab custom processing performed for others.* CR fishery code, species code, product code, process code, and processing revenue.

(xiii) *Annual totals for all fisheries.* For the calendar year, record the total processing days, total days at sea, gross revenue, finished pounds processed, round pounds caught (excluding discards), and labor costs for your fishing and processing activities in all fisheries in which you participated (crab, groundfish, etc.).

(xiv) *Labor payment details.* (A) Indicate with an “X” in the appropriate column whether the following expenses were deducted, directly charged, or not deducted or directly charged from the total revenue before calculating the crew payments in BSAI fisheries: fuel and lubrication, food and provisions, bait, fish tax, observer costs, CDQ fish, IFQ leases, freight, gear loss, and other (specify).

(B) Indicate percentage of the net share that is applied to boat share and harvesting crew share (including captain).

(C) If processing workers are paid on a share system, indicate percentage of the net share (if applicable) that is applied to processing workers based on product value or net share.

(e) *Stationary floating crab processor (SFCP) historical EDR—(1) Requirement.* Any owner or leaseholder of an SFCP that processed CR crab in the calendar years 1998, 2001, or 2004 must submit to the DCA, at the address provided on the form, an EDR for historical data for each of the specified calendar years, if they:

(i) Received an allocation of QS, PQS, IFQ, or IPQ under this program;

## Fishery Conservation and Management

§ 680.6

(ii) Did not qualify for and receive QS, PQS, IFQ, or IPQ, but are participants at any time since January 23, 2004, in the BSAI crab fisheries.

(2) *Time limit.* Any owner or leaseholder of the SFCP described in paragraph (e)(4)(ii)(B) of this section must

submit the historical EDR to the DCA by June 30, 2005, at the address provided on the form.

(3) *Instructions.* Instructions for submitting an SFCP historical EDR and certification page are specified in the following table:

| If you were . . .                                                   | And . . .                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | You must complete and submit . . .                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|---------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (i) The SFCP owner described in paragraph (e)(1) of this section.   | <p>(A) You processed BSAI crab in the SFCP described at paragraph (e)(4)(ii)(B) of this section during 1998, 2001, or 2004.</p> <p>(B) No one processed BSAI crab in the SFCP described at paragraph (e)(4)(ii)(B) of this section during 1998, 2001, or 2004.</p> <p>(C) You leased your SFCP to another party, and processed no BSAI crab in the SFCP described at paragraph (e)(4)(ii)(B) of this section during 1998, 2001, or 2004.</p> <p>(D) You leased your SFCP a portion of the time to another party, but processed some BSAI crab in the SFCP described at paragraph (e)(4)(ii)(B) of this section during 1998, 2001, or 2004.</p> | <p>Entire EDR for each year that BSAI crab was processed.</p> <p>EDR certification pages for each year that no one processed BSAI crab.</p> <p>(1) EDR certification pages.</p> <p>(2) Provide the name, address, and telephone number of the person to whom you leased the SFCP during 1998, 2001, or 2004.</p> <p>(1) Entire EDR for each year that BSAI crab was processed.</p> <p>(2) Provide the name, address, and telephone number of the person to whom you leased the SFCP during 1998, 2001, or 2004.</p> |
| (ii) The leaseholder described in paragraph (e)(1) of this section. | You operated the SFCP described at paragraph (e)(4)(ii)(B) of this section and processed some BSAI crab during 1998, 2001, or 2004.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Entire EDR for each year that BSAI crab was processed.                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

(4) *EDR certification pages.* (i) The owner or leaseholder must submit the EDR certification pages either:

(A) *As part of the entire EDR.* The owner or leaseholder must submit the completed EDR certification pages as part of the entire EDR and must attest to the accuracy and completion of the EDR by signing and dating the certification pages; or

(B) *As a separate document.* If the owner or leaseholder did not process BSAI crab in 1998, 2001, or 2004, he or she must submit the completed EDR certification pages only, and must attest that he or she meets the conditions exempting him or her from submitting the EDR, by signing and dating the certification pages, for each year of 1998, 2001, or 2004 that this applies.

(ii) The owner or leaseholder must submit the following information on the certification pages:

(A) *Calendar year of EDR.* Calendar years corresponding to 1998, 2001, or 2004;

(B) *SFCP information.* SFCP name, USCG documentation number, ADF&G processor code, current estimated market value of vessel and equipment, and replacement value of vessel and equipment.

(C) *Owner information.* Name of company, partnership, or sole proprietorship and business telephone number, facsimile number, and e-mail address (if available).

(D) *Designated representative.* Any owner or leaseholder may appoint a designated representative, who is an individual for responding to questions on the EDR, and must ensure that the designated representative complies with the regulations in this part. The designated representative is the primary contact person for the DCA on issues relating to data required in the EDR.

(E) *Person completing this report.* (1) Indicate whether the person completing this report is the owner, leaseholder, or designated representative;

(2) If the owner is the person completing this report, check the correct box. If the name and address of the owner provided in paragraph (e)(4)(ii)(C) of this section are the same as the name and address of the person completing the EDR, the information does not need to be repeated here; and

(3) Name of person, title, business telephone number, facsimile number, and e-mail address (if available).

(5) *EDR*. The owner or leaseholder must record the following information on an EDR.

(i) *BSAI Crab activity chart*. Complete a crab activity chart by entering the following information: CR fishery code, number of crab processing days, dates covered (beginning and ending day, month and year), raw crab pounds purchased, product code, process code, crab size, crab grade, box size, finished pounds, and whether custom processed (Yes or No).

(ii) *Crab processing labor costs*. CR fishery code, average number of crab positions, total man-hours, and total labor payment.

(iii) *BSAI Crab crew residence*. For employees that participated in BSAI crab processing, record the locations where they reside and the number of employees that are from each residential location, as follows:

(A) If Alaska, enter primary city of residence.

(B) If state other than Alaska, enter primary state of residence.

(C) If country other than United States, enter primary country of residence.

(iv) *BSAI crab custom processing done for you*. CR fishery code, raw crab pounds supplied to custom processors, raw crab pounds purchased from custom processors, product code, process code, crab size, crab grade, box size, finished pounds, and processing fee.

(v) *Raw crab purchases from delivering vessels*. CR fishery code, crab size, crab grade, raw crab pounds purchased, and gross payment.

(vi) *Annual BSAI crab sales*. Record the following information on crab sales to affiliated entities and to unaffiliated entities: species code, product code, process code, crab size, crab grade, box size, finished pounds, and FOB Alaska Revenues.

(vii) *BSAI crab-specific vessel data*. Total of fisheries taxes which include the Alaska fisheries business tax, SMAA taxes, and other local sales tax on raw fish; processing and packaging materials, equipment, and supplies; food and provisions; other costs for direct crab labor; insurance deductible fees; re-packing costs; broker fees and promotions for BSAI crab sales (by CR fishery code); observer costs (by CR fishery code); freight costs for supplies to the vessel; freight and handling costs for processed crab products from the vessel; product storage; and other crab-specific costs (specify).

(viii) *Vessel-specific costs*. Record the total annual costs for each category. If the reported total cost is not exclusively for BSAI crab operations, place an “X” in the COST RELATED TO MORE THAN JUST CRAB FISHING column. The agency or contracted analyst will prorate this amount over all fishing activities. Indicate capitalized expenditures for vessel, gear and equipment; R&M expenses for vessel, gear and equipment (city and state where repairs were made); number of employees and salaries for foremen, managers and other employees not included in direct labor costs; and other vessel-specific costs (specify).

(ix) *BSAI crab custom processing performed for others*. CR fishery code, product code, process code, and processing revenue.

(x) *Annual totals for all fisheries*. For the calendar year, record the total processing days, gross revenue, finished pounds processed, and processing labor costs for your fishing activities in all fisheries in which you participated (crab, groundfish, etc.).

(f) *Stationary floating crab processor (SFCP) annual EDR—(1) Requirement*. On or before June 28 of each year, any owner or leaseholder of an SFCP that processed crab from a CR fishery must submit to the DCA, at the address provided on the form, an EDR for annual data for the previous calendar year. For the year 2005, the annual EDR is due on or before June 28, 2006.

(2) *Instructions*. Instructions for submitting an SFCP annual EDR and certification page are specified in the following table:

## Fishery Conservation and Management

§ 680.6

| If you are . . .                                                    | And . . .                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | You must complete and submit . . .                                                                                                                                                                                                                                                                                                                                          |

| (i) The SFCP owner.                                                 | <p>(A) You processed BSAI crab in the SFCP described at paragraph (f)(3)(ii)(B) of this section during this calendar year.</p> <p>(B) No one processed BSAI crab in the SFCP described at paragraph (f)(3)(ii)(B) of this section during this calendar year.</p> <p>(C) You leased all of your IPQ to another party and processed no BSAI crab in the SFCP described at paragraph (f)(3)(ii)(B) of this section during this calendar year.</p> <p>(D) You leased a portion of your IPQ to another party, but processed some BSAI crab in the SFCP described at paragraph (f)(3)(ii)(B) of this section during this calendar year.</p> | <p>Entire EDR.</p> <p>EDR certification pages.</p> <p>(1) EDR certification pages.</p> <p>(2) Provide the name, address, and telephone number of the person to whom you leased the IPQ during this calendar year.</p> <p>(1) Entire EDR.</p> <p>(2) Provide the name, address, and telephone number of the person to whom you leased the IPQ during this calendar year.</p> |
| (ii) The leaseholder described in paragraph (f)(1) of this section. | You operated the SFCP described at paragraph (f)(3)(ii)(B) of this section and processed some BSAI crab during this paragraph calendar year.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | Entire EDR.                                                                                                                                                                                                                                                                                                                                                                 |

(3) *EDR certification pages.* (i) The owner or leaseholder must submit the EDR certification pages either:

(A) *As part of the entire EDR.* The owner or leaseholder must submit the completed EDR certification pages as part of the entire EDR and must attest to the accuracy and completion of the EDR by signing and dating the certification pages; or

(B) *As a separate document.* The owner or leaseholder must submit the completed EDR certification pages only, and must attest that they meet the conditions exempting them from submitting the EDR, by signing and dating the certification pages (see paragraph (e)(2) of this section).

(ii) The owner or leaseholder must submit the following information on the certification pages:

(A) *Calendar year of EDR.* Calendar year of the reporting year;

(B) *SFCP information.* SFCP name, USCG documentation number, ADF&G processor code, RCR permit number, current estimated market value of vessel and equipment, and replacement value of vessel and equipment.

(C) *Owner information.* Name of company, partnership, or sole proprietorship and business telephone number, facsimile number, and e-mail address (if available).

(D) *Designated representative.* Any owner or leaseholder may appoint a

designated representative who is an individual for responding to questions on the EDR and must ensure that the designated representative complies with the regulations in this part. The designated representative is the primary contact person for the DCA on issues relating to data required in the EDR.

(E) *Person completing the report.* (1) Indicate whether the person completing this report is the owner, leaseholder, or designated representative;

(2) If the owner is the person completing this report, check the correct box. If the name and address of the owner provided in paragraph (f)(3)(ii)(C) of this section are the same as the name and address of the person completing the EDR, the information does not need to be repeated here; and

(3) Name of person, title, and business telephone number, facsimile number, and e-mail address (if available).

(4) *EDR.* The owner or leaseholder must record the following information on an EDR.

(i) *BSAI Crab activity chart.* Complete a crab activity chart by entering the following information: CR fishery code, number of crab processing days, dates covered (beginning and ending day, month and year), raw crab pounds purchased, product code, process code, crab size, crab grade, box size, finished pounds, and whether custom processed (Yes or No).

(ii) *Crab processing labor costs.* CR fishery code, average number of crab processing positions, total man-hours, and total processing labor payment.

(iii) *BSAI Crab employee residence.* For employees that participated in BSAI crab processing, record the locations where they reside and the number of employees that are from each residential location, as follows:

(A) If Alaska, enter primary city of residence.

(B) If state other than Alaska, enter primary state of residence.

(C) If country other than United States, enter primary country of residence.

(iv) *BSAI crab custom processing done for you.* CR fishery code, species code, raw crab pounds supplied to custom processors, raw crab pounds purchased from custom processors, product code, process code, crab size, crab grade, box size, finished pounds, and processing fee.

(v) *Raw crab purchases from delivering vessels.* CR fishery code, species code, crab size, crab grade, raw crab pounds purchased, and gross payment.

(vi) *Annual BSAI crab sales.* For affiliated entities and unaffiliated entities enter species code, product code, process code, crab size, crab grade, box size, finished pounds, and FOB Alaska Revenues.

(vii) *BSAI crab-specific vessel costs.* Total of fisheries taxes which includes the Alaska fisheries business tax, SMAA taxes, and other local sales tax on raw fish; processing and packaging materials, equipment and supplies by city and state; food and provisions; other costs for direct crab labor; insurance deductible fees; re-packing costs; broker fees and promotions for BSAI crab sales (by CR fishery code); observer costs (by CR fishery code); freight costs for supplies to the vessel; freight and handling costs for processed crab products from the vessel; product storage; and other crab-specific costs (specify).

(viii) *Vessel-specific costs.* Record the total annual costs for each category. If

the reported total cost is not exclusively for BSAI crab operations, place an “X” in the COST RELATED TO MORE THAN JUST CRAB FISHING column. The agency or contracted analyst will prorate this amount over all fishing activities. Indicate fuel, electricity, lubrication and hydraulic fluids; capitalized expenditures for vessel, gear and equipment (city and state where purchased); R&M for vessel, gear and equipment (city and state where repairs were made); number of employees and salaries for foremen, managers and other employees not included in direct labor costs; and other vessel-specific costs (specify).

(ix) *BSAI crab custom processing performed for others.* CR fishery code, species code, product code, process code, and processing revenue.

(x) *Annual totals for all fisheries.* For the calendar year, record the total processing days, gross revenue, finished pounds processed, and labor costs for your fishing activities in all fisheries in which you participated (crab, groundfish, etc.).

(g) *Shoreside processor historical EDR—*  
(1) *Requirement.* Any owner or leaseholder of a shoreside processor who processed CR crab in the calendar years 1998, 2001, or 2004 must submit to the DCA, at the address provided on the form, an EDR for historical data for each of the specified calendar years, if they:

(i) Received an allocation of QS, PQS, IFQ, or IPQ under this Program;

(ii) Did not qualify for and receive QS, PQS, IFQ, or IPQ, but are participants at any time since January 23, 2004, in the BSAI crab fisheries.

(2) *Time limit.* Any owner or leaseholder of the shoreside processor described in paragraph (g)(4)(ii)(B) of this section must submit the historical EDR to the DCA by June 30, 2005, at the address provided on the form.

(3) *Instructions.* Instructions for submitting a shoreside processor historical EDR and certification page are specified in the following table:

## Fishery Conservation and Management

§ 680.6

| If you are . . .                                                                 | And . . .                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | You must complete and submit . . .                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|----------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (i) The shoreside processor owner described in paragraph (g)(1) of this section. | <p>(A) You processed BSAI crab in the plant described at paragraph (g)(4)(ii)(B) of this section during 1998, 2001, or 2004.</p> <p>(B) No one processed BSAI crab in the plant described at paragraph (g)(4)(ii)(B) of this section during 1998, 2001, or 2004.</p> <p>(C) You leased your shoreside processor to another party, and processed no BSAI crab in the plant described at paragraph (g)(4)(ii)(B) of this section during 1998, 2001, or 2004.</p> <p>(D) You leased your shoreside processor for a portion of the time to another party, but processed some BSAI crab in the plant described at paragraph (g)(4)(ii)(B) of this section during 1998, 2001, or 2004.</p> | <p>Entire EDR for each year that BSAI crab was processed.</p> <p>EDR certification pages for each year that no one processed BSAI crab.</p> <p>(1) EDR certification pages.</p> <p>(2) Provide the name, address, and telephone number of the person to whom you leased the shoreside processor during 1998, 2001, or 2004.</p> <p>(1) Entire EDR for each year that BSAI crab was processed.</p> <p>(2) Provide the name, address, and telephone number of the person to whom you leased the shoreside processor during 1998, 2001, or 2004.</p> |
| (ii) The leaseholder described in paragraph (g)(1) of this section.              | You operated the plant described at (g)(4)(ii)(B) of this section and processed some BSAI crab during 1998, 2001, or 2004.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | Entire EDR for each year that BSAI crab was processed.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

(4) *EDR certification pages.* (i) The owner or leaseholder must submit the EDR certification pages either:

(A) *As part of the entire EDR.* The owner or leaseholder must submit the completed EDR certification pages as part of the entire EDR and must attest to the accuracy and completion of the EDR by signing and dating the certification pages; or

(B) *As a separate document.* If the owner or leaseholder did not process BSAI crab in 1998, 2001, or 2004, he or she must submit the completed EDR certification pages only, and must attest that he or she meets the conditions exempting him or her from submitting the EDR, by signing and dating the certification pages for each year of 1998, 2001, or 2004 that this applies;

(ii) *Required information.* The owner or leaseholder must submit the following information on the certification pages:

(A) *Calendar year of EDR.* Calendar years corresponding to 1998, 2001, or 2004;

(B) *Shoreside processor information.* Shoreside processor name, ADF&G processor code, physical location of land-based plant (street address, city, state, zip code), borough assessed value

of plant and equipment, year assessed, and current estimated market value of plant and equipment;

(C) *Owner information.* Name of company, partnership, or sole proprietorship and business telephone number, facsimile number, and e-mail address (if available);

(D) *Designated representative.* Any owner or leaseholder may appoint a designated representative who is an individual for responding to questions on the EDR and must ensure that the designated representative complies with the regulations in this part. The designated representative is the primary contact person for the DCA on issues relating to data required in the EDR.

(E) *Person completing the report.* (1) Indicate whether the person completing this report is the owner, leaseholder, or designated representative;

(2) If the owner is the person completing the report, check the correct box. If the name and address of the owner provided in paragraph (g)(4)(ii)(C) of this section are the same as the name and address of the person completing the EDR, the information does not need to be repeated here; and

(3) Name of person, title, and business telephone number, facsimile number, and e-mail address (if available).

(5) *EDR*. The owner or leaseholder must record the following information on an EDR.

(i) *BSAI crab activity chart*. Complete a crab activity chart by entering the following information: CR fishery code, number of crab processing days, dates covered (beginning and ending day, month and year), raw crab pounds purchased, product code, process code, crab size, crab grade, box size, finished pounds, and whether custom processed (Yes or No).

(ii) *Crab processing labor costs*. CR fishery code, average number of crab processing positions, total man-hours, and total processing labor payment.

(iii) *BSAI Crab crew residence*. For employees that participated in BSAI crab processing, record the locations where they reside and the number of employees that are from each residential location, as follows:

(A) If Alaska, enter primary city of residence.

(B) If state other than Alaska, enter primary state of residence.

(C) If country other than United States, enter primary country of residence.

(iv) *BSAI crab custom processing done for you*. CR fishery code, raw crab pounds supplied to custom processors, raw crab pounds purchased from custom processors, product code, process code, crab size, crab grade, box size, finished pounds, and processing fee.

(v) *Raw crab purchases from delivering vessels*. CR fishery code, crab size, crab grade, raw crab pounds purchased, and gross payment.

(vi) *Annual BSAI crab sales*. For affiliated entities and unaffiliated entities enter species code, product code, process code, crab size, crab grade, box size, finished pounds, and FOB Alaska Revenues.

(vii) *BSAI crab-specific plant costs*. Total fisheries taxes which include the Alaska fisheries business tax, SMAA taxes, and other local sales tax on raw fish; processing and packaging materials, equipment and supplies; food and

provisions; other costs for direct crab labor; insurance deductible fees; repacking costs, broker fees and promotions for BSAI crab sales by CR fishery code; observer costs by CR fishery code; freight costs for supplies to the plant; freight and handling costs for processed crab products from the plant; product storage; water, sewer, and waste disposal; and other crab specific costs (specify).

(viii) *Plant-specific costs*. Record the total annual costs for each category. If the reported total cost is not exclusively for BSAI crab operations, place an “X” in the COST RELATED TO MORE THAN JUST CRAB FISHING column. The agency or contracted analyst will prorate this amount over all vessel activities: fuel, electricity, lubrication, and hydraulic fluids; capitalized expenditures for plant, and equipment; R&M for existing plant and equipment; number of employees and salaries for foremen, managers and other employees not included in direct labor costs; and other plant-specific costs (specify).

(ix) *BSAI crab custom processing done for others*. CR fishery code, product code, process code, and processing revenue.

(x) *Annual totals for all fisheries*. For the calendar year, record the total processing days, gross revenue, finished pounds processed, and labor costs for your fishing activities in all fisheries in which you participated (crab, groundfish, etc.).

(h) *Shoreside processor annual EDR—*  
(1) *Requirement*. On or before June 28 of each year, any owner or leaseholder of a shoreside processor that processed crab from a CR fishery must submit to the DCA, at the address provided on the form, an EDR for annual data for the previous year. For the year 2005, the annual EDR is due on or before June 28, 2006.

(2) *Instructions*. Instructions for submitting a shoreside processor annual EDR and certification page are specified in the following table:

| If you are . . .                   | And . . .                                                                                                                | You must complete and submit . . . |
|------------------------------------|--------------------------------------------------------------------------------------------------------------------------|------------------------------------|
| (i) The shoreside processor owner. | (A) You processed BSAI crab in the plant described at paragraph (h)(3)(ii)(B) of this section during this calendar year. | Entire EDR.                        |

## Fishery Conservation and Management

§ 680.6

| If you are . . .                                                    | And . . .                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | You must complete and submit . . .                                                                                                                                                                                                                                                                                                                                          |
|---------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                     | <p>(B) No one processed BSAI crab in the plant described at paragraph (h)(3)(ii)(B) of this section during this calendar year.</p> <p>(C) You leased all of your IPQ to another party, and processed no BSAI crab in the plant described at paragraph (h)(3)(ii)(B) of this section during this calendar year.</p> <p>(D) You leased portions of your IPQ to another party, but processed some BSAI crab in the plant described at paragraph (h)(3)(ii)(B) of this section during this calendar year.</p> | <p>EDR certification pages.</p> <p>(1) EDR certification pages.</p> <p>(2) Provide the name, address, and telephone number of the person to whom you leased the IPQ during this calendar year.</p> <p>(1) Entire EDR.</p> <p>(2) Provide the name, address, and telephone number of the person to whom you leased the IPQ during this calendar year.</p> <p>Entire EDR.</p> |
| (ii) The leaseholder described in paragraph (h)(1) of this section. | You operated the plant described at paragraph (h)(3)(ii)(B) of this section and processed some BSAI crab during this calendar year.                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                             |

(3) *EDR certification pages.* (i) The owner or leaseholder must submit the EDR certification pages either:

(A) *As part of the entire EDR.* The owner or leaseholder must submit the completed EDR certification pages as part of the entire EDR and must attest to the accuracy and completion of the EDR by signing and dating the certification pages; or

(B) *As a separate document.* The owner or leaseholder must submit the completed EDR certification pages only, and must attest that they meet the conditions exempting them from submitting the EDR, by signing and dating the certification pages.

(ii) The owner or leaseholder must submit the following information on the certification pages:

(A) *Calendar year of EDR.* Calendar year for the reporting year;

(B) *Shoreside processor information.* Shoreside processor name, RCR permit number, ADF&G processor code, physical location of land-based plant (street address, city, state, zip code), borough assessed value of plant and equipment, current estimated market value of plant and equipment, and year assessed.

(C) *Owner information.* Name of company, partnership, or sole proprietorship and business telephone number, facsimile number, and e-mail address (if available);

(D) *Designated representative.* Any owner or leaseholder may appoint a designated representative who is an in-

dividual for responding to questions on the EDR and must ensure that the designated representative complies with the regulations in this part. The designated representative is the primary contact person for the DCA on issues relating to data required in the EDR.

(E) *Person completing the report.* (1) Indicate whether the person completing this report is the owner, leaseholder, or designated representative;

(2) If the owner is the person completing this report, check the correct box. If the name and address of the owner provided in paragraph (h)(3)(ii)(C) of this section are the same as the name and address of the person completing the EDR, the information does not need to be repeated here; and

(3) Name of person, title, and business telephone number, facsimile number, and e-mail address (if available).

(4) *EDR.* The owner or leaseholder must record the following information on an EDR.

(i) *BSAI Crab activity chart.* Complete a crab activity chart by entering the following information: CR fishery code, number of crab processing days, dates covered (beginning and ending day, month and year), raw crab pounds purchased, product code, process code, crab size, crab grade, box size, finished pounds, and whether custom processed (Yes or No).

(ii) *Crab processing labor costs.* CR fishery code, average number of crab processing positions, total man-hours, and total processing labor payment.

## § 680.7

## 50 CFR Ch. VI (10–1–08 Edition)

(iii) *BSAI Crab employee residence.* For employees that participated in BSAI crab processing, record the locations where they reside and the number of employees that are from each residential location, as follows:

(A) If Alaska, enter primary city of residence.

(B) If state other than Alaska, enter primary state of residence.

(C) If country other than United States, enter primary country of residence.

(iv) *BSAI crab custom processing done for you.* CR fishery code, species code, raw crab pounds supplied to custom processors, raw crab pounds purchased from custom processors, product code, process code, crab size, crab grade, box size, finished pounds, and processing fee.

(v) *Raw crab purchases from delivering vessels.* CR fishery code, species code, crab size, crab grade, raw crab pounds purchased, and gross payment.

(vi) *Annual BSAI crab sales.* For affiliated entities and unaffiliated entities enter species code, product code, process code, crab size, crab grade, box size, finished pounds, and FOB Alaska Revenues.

(vii) *BSAI crab-specific plant costs.* Total of fisheries taxes which include the Alaska fisheries business tax, SMAA taxes, and other local sales tax on raw fish; processing and packaging materials, equipment and supplies by city and state; food and provisions; other costs for direct crab labor; insurance deductible fees; re-packing costs; broker fees and promotions for BSAI crab sales by CR fishery code; observer costs by CR fishery code; freight costs for supplies to the plant; freight and handling costs for processed crab products from the plant; product storage; water, sewer, and waste disposal; and other crab specific costs (specify).

(viii) *Plant-specific costs.* Record the total annual costs for each category. If the reported total cost is not exclusively for BSAI crab operations, place an "X" in the COST RELATED TO MORE THAN JUST CRAB FISHING column. The agency or contracted analyst will prorate this amount over all plant activities: fuel, electricity, lubrication, and hydraulic fluids; capitalized expenditures for plant and equip-

ment by city and state; R&M for existing plant and equipment by city and state; number of employees and salaries for foremen, managers and other employees not included in direct labor costs; and other plant-specific costs (specify).

(ix) *BSAI crab custom processing performed for others.* CR fishery code, species code, product code, process code, and processing revenue.

(x) *Annual totals for all fisheries.* For the calendar year, record the total processing days, gross revenue, finished pounds processed, and labor costs for your fishing activities in all fisheries in which you participated (crab, groundfish, etc.).

(i) *Verification of data.* (1) The DCA shall conduct verification of information with the owner or leaseholder.

(2) The owner or leaseholder must respond to inquiries by the DCA within 20 days of the date of issuance of the inquiry.

(3) The owner or leaseholder must provide copies of additional data to facilitate verification by the DCA. The DCA auditor may review and request copies of additional data provided by the owner or leaseholder, including but not limited to: previously audited or reviewed financial statements, worksheets, tax returns, invoices, receipts, and other original documents substantiating the data.

(j) *DCA authorization.* The DCA is authorized to request voluntary submission of economic data specified in this section from persons who are not required to submit an EDR under this section.

[70 FR 10241, Mar. 2, 2005, as amended at 70 FR 33395, June 8, 2005; 71 FR 38114, July 5, 2006]

### § 680.7 Prohibitions.

In addition to the general prohibitions specified in § 600.725 of this chapter, it is unlawful for any person to do any of the following:

(a) *Receiving and processing CR crab.* (1) Process any CR crab that has not been weighed by an RCR on:

(i) A scale approved by the State in which the RCR is located and that meets the requirements described in § 680.23(f); or

(ii) Onboard a catcher/processor RCR on a scale approved by NMFS as described in §680.23(e).

(2) Receive CR crab harvested under an IFQ permit in any region other than the region for which the IFQ permit is designated.

(3) Use IPQ on board a vessel outside of the territorial sea or internal waters of the State of Alaska.

(4) Use IPQ in any region other than the region for which the IPQ is designated.

(5) Receive any crab harvested under a Class A IFQ permit in excess of the total amount of unused IPQ held by the RCR.

(6) Receive crab harvested under a Class B IFQ permit on a vessel if that vessel was used to harvest and process any crab in that crab QS fishery during the same crab fishing season.

(7) For an IPQ holder to use more IPQ crab than the maximum amount of IPQ that may be held by that person. Use of IPQ includes all IPQ held by that person and all IPQ crab that are received by any RCR at any shoreside crab processor or stationary floating crab processor in which that IPQ holder has a 10 percent or greater direct or indirect ownership interest.

(8) For a shoreside crab processor or stationary floating crab processor that does not have at least one owner with a 10 percent or greater direct or indirect ownership who also holds IPQ in that crab QS fishery, to be used to receive in excess of 30 percent of the IPQ issued for that crab fishery.

(b) *Landing CR crab.* (1) Remove retained and unprocessed CR crab from a vessel at any location other than to an RCR operating under an approved catch monitoring plan as described in §680.23(g) unless that crab is accompanied by a signed landing receipt showing the crab was properly landed.

(2) Remove any CR crab processed at sea from any vessel before completing a landing report, as defined at §680.5(c), for all such CR crab onboard.

(3) Resume fishing for CR crab or take CR crab on board a vessel once a landing has commenced and until all CR crab are landed.

(4) Fail to remove all processed crab harvested under a CPO or a CPC IFQ permit to an onshore location within

the United States, accessible by road or regularly scheduled air service, and to weigh that crab product on a scale approved by the State in which the crab is weighed.

(5) Make an IFQ crab landing except by an individual who holds either a crab IFQ permit or a crab IFQ hired master permit issued under §680.4 in his or her name.

(6) Make an IFQ crab landing without the following on board: a copy of the crab IFQ permit to be debited for the landing; and, if applicable, a copy of the crab IFQ hired master permit issued under §680.4 in the name of the person making the landing.

(7) For a Crab IFQ hired master to make an IFQ crab landing on any vessel other than the vessel named on the Crab IFQ hired master permit.

(c) *Harvest crab.* (1) Harvest any CR crab with any vessel not named on a valid Federal crab vessel permit.

(2) Harvest CR crab with any vessel that does not use functioning VMS equipment as required by §680.23.

(3) Harvest on any vessel more IFQ crab than are authorized under §680.42.

(4) Harvest crab under a CVC or a CPC IFQ permit unless the person named on the IFQ permit is on board that vessel.

(5) Harvest crab under a CPO or CPC permit unless all scales used to weigh crab, or used by an observer for sampling crab, have passed an inseason scale test according to §680.23(e)(1).

(6) For any person who is not an entity defined in §680.40(c)(5)(ii), (c)(5)(iii), or (c)(5)(iv) to:

(i) Hold converted CPO QS.

(ii) Use the CPO IFQ derived from that converted CPO QS outside of a crab harvesting cooperative.

(d) *Recordkeeping and reporting.* (1) Fail to submit information on any report, application, or statement required under this part.

(2) Submit false information on any report, application, or statement required under this part.

(e) *Permits.* (1) Retain IFQ crab without a valid crab IFQ permit for that fishery on board the vessel.

(2) Retain IFQ crab on a vessel in excess of the total amount of unharvested crab IFQ, for a crab QS fishery, that is currently held by all

## § 680.8

crab IFQ permit holders or Crab IFQ Hired Masters aboard that vessel.

(f) *IPQ*. Use IPQ as collateral or otherwise leverage IPQ to acquire an ownership interest in Class B IFQ.

(g) *General*. (1) Possess, buy, sell, or transport any crab harvested or landed in violation of any provision of this part.

(2) Violate any other provision under this part.

(h) *Inseason action*. Conduct any fishing contrary to notification of inseason action closure, or adjustment issued under § 680.22.

[70 FR 10241, Mar. 2, 2005, as amended at 70 FR 33395, June 8, 2005; 73 FR 29982, May 23, 2008]

## § 680.8 Facilitation of enforcement.

See § 600.730 of this chapter.

## § 680.9 Penalties.

(a) Any person committing, or a fishing vessel used in the commission of, a violation of the Magnuson-Stevens Act, or any regulation issued under the Magnuson-Stevens Act, is subject to the civil and criminal penalty provisions, permit sanctions, and civil forfeiture provisions of the Magnuson-Stevens Act, to part 600 of this chapter, to 15 CFR part 904 (Civil Procedures), and to other applicable law. Penalties include but are not limited to permanent or temporary sanctions to PQS, QS, IPQ, IFQ, Crab IFQ hired master, Federal crab vessel permit, or RCR permits.

(b) In the event a holder of any IPQ is found by a court of competent jurisdiction, either in an original action in that court or in a proceeding to enforce or review the findings or orders of any Government agency having jurisdiction under the antitrust laws, to have violated any of the provisions of antitrust laws in the conduct of the licensed activity, the Secretary of Commerce may revoke all or a portion of such IPQ. The antitrust laws of the United States include, but are not limited to, the following Acts:

- (1) The Sherman Act, 15 U.S.C. 1–7;
- (2) The Wilson Tariff Act, 15 U.S.C. 8–11;
- (3) The Clayton Act, 15 U.S.C. 12–27; and

## 50 CFR Ch. VI (10–1–08 Edition)

(4) The Federal Trade Commission Act, 15 U.S.C. 12 and 45(a).

## Subpart B—Management Measures

### § 680.20 Arbitration System.

(a) *Applicability*—(1) *Arbitration System*. All CVO QS, Arbitration IFQ, Class A IFQ holders, PQS and IPQ holders must enter the contracts as prescribed in this section that establish the Arbitration System. Certain parts of the Arbitration System are voluntary for some parties, as specified in this section. All contract provisions will be enforced by parties to those contracts.

(2) *Open negotiation*. Any holder of uncommitted IFQ may negotiate with any holder of uncommitted IPQ, the price and delivery terms for that season or for future seasons for any uncommitted IFQ and uncommitted IPQ. Uncommitted IFQ holders and uncommitted IPQ holders may freely contact each other and initiate open negotiations.

(b) *Eligibility for Arbitration System*—(1) *Arbitration Organization*. The following persons are the only persons eligible to join an Arbitration Organization:

- (i) Holders of CVO QS,
- (ii) Holders of PQS,
- (iii) Holders of Arbitration IFQ,
- (iv) Holders of Class A IFQ affiliated with a PQS or IPQ holder, and
- (v) Holders of IPQ.

(2) *Persons eligible to use negotiation and Binding Arbitration procedures*. The following persons are the only persons eligible to enter contracts with a Contract Arbitrator to use the negotiation and Binding Arbitration procedures described in paragraph (h) of this section to resolve price and delivery disputes or negotiate remaining contract terms not previously agreed to by IFQ and IPQ holders under other negotiation approaches:

- (i) Holders of Arbitration IFQ, and
- (ii) Holders of IPQ.
- (3) *Persons ineligible to use negotiation and Binding Arbitration procedures*. Holders of IFQ that are affiliated with holders of PQS or IPQ are ineligible to

enter contracts with a Contract Arbitrator to use the negotiation and Binding Arbitration procedures described in paragraph (h) of this section to resolve price and delivery disputes or negotiate remaining contract terms not previously agreed to by IFQ and IPQ holders under other negotiation approaches.

(c) *Preseason requirements for joining an Arbitration Organization.* All holders of CVO QS, PQS, Arbitration IFQ, Class A IFQ affiliated with a PQS or IPQ holder, and IPQ must join and maintain a membership in an Arbitration Organization as specified in paragraph (d) of this section. All holders of QS, PQS, IFQ, or IPQ identified in the preceding sentence must join an Arbitration Organization at the following times:

(1) For QS holders and PQS holders except as provided for in paragraph (c)(3) of this section, not later than May 1 of each year for the crab fishing year that begins on July 1 of that year.

(2) For IFQ holders and IPQ holders, not later than 15 days after the issuance of IFQ and IPQ for that crab QS fishery if that IFQ or IPQ holder does not also hold QS or PQS.

(3) During 2005, QS and PQS holders must join an Arbitration Organization as described in paragraph (d) of this section not later than August 15, 2005.

(4) Persons receiving QS, PQS, IFQ, or IPQ by transfer after these dates must join an Arbitration Organization at the time of receiving the QS, PQS, IFQ, or IPQ by transfer.

(d) *Formation process for an Arbitration Organization.* (1) Arbitration Organizations must be formed to select and contract a Market Analyst, Formula Arbitrator, Contract Arbitrator(s), and establish the Arbitration System, including the payment of costs of arbitration, described in this section for each crab QS fishery. All persons defined in paragraph (a)(1) of this section must join an Arbitration Organization.

(i) *Arbitration QS/IFQ Arbitration Organization.* Holders of Arbitration QS and Arbitration IFQ must join an Arbitration QS/IFQ Arbitration Organization. This Arbitration Organization may not have members who are not holders of Arbitration QS or Arbitration IFQ. Arbitration QS holders and

Arbitration IFQ holders may join separate Arbitration QS/IFQ Arbitration Organizations. The mechanism for forming an Arbitration Organization is determined by the members of the organization.

(ii) *PQS/IPQ Arbitration Organization.* Holders of PQS or IPQ must join a PQS/IPQ Arbitration Organization. This Arbitration Organization may not have members who are not holders of PQS or IPQ. PQS holders and IPQ holders may join separate PQS/IPQ Arbitration Organizations. The mechanism for forming an Arbitration Organization is determined by the members of the organization.

(iii) *Affiliated QS/IFQ Arbitration Organization.* Holders of CVO QS or Class A IFQ affiliated with a PQS or IPQ holder must join an Affiliated QS/IFQ Arbitration Organization. This Arbitration Organization may not have members who are not holders of QS or IFQ affiliated with a PQS or IPQ holder. CVO QS holders and Class A IFQ holders may join separate Affiliated QS/IFQ Arbitration Organizations. The mechanism for forming an Arbitration Organization is determined by the members of the organization.

(iv) *Limitation on joining an Arbitration Organization.* For a crab QS fishery during a crab fishing year, a person who holds:

(A) PQS/IPQ may join only one PQS/IPQ Arbitration Organization;

(B) Affiliated QS/IFQ may join only one Affiliated QS/IFQ Arbitration Organization; and

(C) Arbitration QS/IFQ may join only one Arbitration QS/IFQ Organization.

(2) Each Arbitration Organization must submit a complete Annual Arbitration Organization report to NMFS. A complete report must include:

(i) A copy of the business license of the Arbitration Organization;

(ii) A statement identifying the members of the organization and the amount of Arbitration QS and Arbitration IFQ, Non-Arbitration QS and Non-Arbitration IFQ, or PQS and IPQ held by each member and represented by that Arbitration Organization;

(iii) QS, PQS, IFQ, and IPQ ownership information on the members of the organization;

(iv) Management organization information, including:

(A) The bylaws of the Arbitration Organization;

(B) A list of key personnel of the management organization including, but not limited to, the board of directors, officers, representatives, and any managers;

(v) The name of the Arbitration Organization, permanent business mailing addresses, name of contact persons and additional contact information of the managing personnel for the Arbitration Organization, resumes of management personnel; and

(vi) A copy of all minutes of any meeting held by the Arbitration Organization or any members of the Arbitration Organization.

(3) An Arbitration Organization, with members who are QS or PQS holders, must submit a complete Annual Arbitration Organization Report to NMFS by electronic mail to the Regional Administrator, NMFS, or by mail addressed to the Regional Administrator, NMFS, Post Office Box 21668, Juneau, Alaska 99802 by:

(i) August 20, 2005 for the crab fishing year beginning on July 1, 2005.

(ii) May 1 of each subsequent year for the crab fishing year beginning on July 1 of that year.

(4) An Arbitration Organization, with members who are IFQ or IPQ holders, must submit a complete Annual Arbitration Organization Report to NMFS by electronic mail to the Regional Administrator, NMFS, or by mail addressed to the Regional Administrator, NMFS, Post Office Box 21668, Juneau, Alaska 99802 by not later than 15 days after the issuance of IFQ and IPQ for that crab QS fishery.

(e) *Role of Arbitration Organization(s) and annual requirements*—(1) *General*. The members of each Arbitration Organization must enter into a contract that specifies the terms and conditions of participation in the organization.

(i) The contract among members of an Arbitration QS/IFQ Arbitration Organization, or a PQS/IPQ Arbitration Organization shall include the terms, conditions, and provisions specified in paragraph (e)(2) of this section.

(ii) The contract among members of an Affiliated QS/IFQ Arbitration Orga-

nization shall include the terms, conditions, and provisions in paragraph (e)(3) of this section.

(2) *Provisions for Arbitration QS/IFQ Arbitration Organizations, and PQS/IPQ Arbitration Organizations*—(i) *Selection of Market Analyst, Formula Arbitrator, and Contract Arbitrator(s)*. A provision authorizing the Arbitration Organization to act on behalf of its members in the selection of and contracting with the Market Analyst, Formula Arbitrator, and Contract Arbitrator(s) under paragraph (e)(4) of this section.

(ii) *Confidentiality of information*. A provision that a member that is a party to a Binding Arbitration proceeding shall sign a confidentiality agreement with the party with whom it is arbitrating stating they will not disclose at any time to any person any information received from the Contract Arbitrator or any other party in the course of the arbitration. That confidentiality agreement shall specify the potential sanctions for violating the agreement.

(iii) *Provision of information to members*. A provision requiring the Arbitration Organization to provide to its members:

(A) A copy of the contracts for the Market Analyst, Formula Arbitrator, and Contract Arbitrator for each fishery in which the member participates; and

(B) A copy of the Market Report and the Non-Binding Price Formula for each fishery in which the member participates within 5 days of its release.

(iv) *Information release*. (A) A provision requiring that the Arbitration Organization deliver to NMFS any data, information, and documents generated pursuant to this section.

(B) In the case of a PQS/IPQ Arbitration Organization(s):

(1) A provision that requires the PQS/IPQ Arbitration Organization to provide for the delivery of the names of and contact information for its members who hold uncommitted IPQ, and to identify the regional designations and amounts of such uncommitted IPQ, to Arbitration QS/IFQ Arbitration Organizations either directly or through

a third-party data provider so the information may be provided to any persons that hold uncommitted Arbitration IFQ for purposes of Share Matching, Binding Arbitration, and Post Arbitration Opt-in;

(2) A provision that prohibits the disclosure of any information received under this provision to any person except those Arbitration QS/IFQ Arbitration Organizations, or their third-party data provider so that information may be provided to holders of uncommitted Arbitration IFQ. The provision will require that information concerning uncommitted IPQ be updated within 24 hours of a change of any such information, including any commitment of IPQ, and that information be provided to those persons that hold uncommitted Arbitration IFQ. This provision may include a mechanism to provide information to uncommitted Arbitration IFQ holders through a secure Web site, or through other electronic means;

(3) A provision that requires the PQS/IPQ Arbitration Organization to arrange for the delivery to all holders of uncommitted Arbitration IFQ through the Arbitration QS/IFQ Arbitration Organizations holders or their third-party data provider the terms of a decision of a Contract Arbitrator in a Binding Arbitration proceeding involving a member that holds uncommitted IPQ within 24 hours of notice of that decision. This provision may include a mechanism to provide information to uncommitted Arbitration IFQ holders through a secure Web site, or through other electronic means; and

(4) A provision that requires the holders of uncommitted IPQ to provide information concerning such uncommitted IPQ as necessary for the PQS/IPQ Arbitration Organization to comply with this paragraph and prohibits the disclosure of any such information by such holder to any person, except as directed in this paragraph.

(C) In the case of a Arbitration QS/IFQ Organization(s):

(1) A provision that requires Arbitration QS/IFQ Arbitration Organizations holders, or their third-party data provider to provide information concerning uncommitted IPQ from PQS/IPQ Arbitration Organization(s) as nec-

essary for the Arbitration IFQ holder to use that information in a timely manner.

(2) A provision that prohibits the disclosure of any such information concerning uncommitted IPQ from PQS/IPQ Arbitration Organization to any person, except as directed therein.

(D) Third-party Data Provider provision. Notwithstanding any provision in this section, an Arbitration Organization required to supply or receive information under this section must hire administrative personnel or may contract with a person who will arrange for the receipt and delivery of information as required. Any such third party that receives such information cannot be affiliated with or employed by or related to any QS, PQS, IFQ, or IPQ holder in any crab QS fishery and must enter a contract that:

(1) Prohibits such third person from releasing any information received to any person except as specifically provided by this section; and

(2) Prohibits such third person from entering taking any employment from or establishing any relationship, except under a contract meeting the requirements of this section for a period of 3 years after the termination of the contract.

(v) *Costs.* A provision that authorizes the Arbitration Organization to enter into a contract with all other Arbitration Organizations for the payment of the costs of arbitration as specified under this section.

(A) The Arbitration Organizations must establish a contract that requires the payment of all costs of the Market Analyst, Formula Arbitrator, and Contract Arbitrator(s), dissemination of information concerning uncommitted IPQ to holders of uncommitted Arbitration IFQ, and the costs of such persons associated with lengthy season approach, share matching approach, Binding Arbitration, quality and performance disputes, to be shared equally so that IPQ holders pay 50 percent of the costs and Arbitration IFQ holders and Class A IFQ holders pay 50 percent of the costs.

(B) Each person shall pay an amount of the cost based on the amount of IPQ or IFQ held by that person at the time

of application to an Arbitration Organization.

(C) PQS holders shall advance all costs and shall collect the contribution of IFQ holders at landing subject to terms mutually agreed to by the Arbitration Organizations.

(vi) *Negotiation methods.* A provision that prohibits the Arbitration Organization from engaging in any contract negotiations on behalf of its members, except for those necessary to hire the Market Analyst, Formula Arbitrator, and Contract Arbitrator(s).

(vii) *Enforcement of the contract.* Violations of the contract shall be enforced under civil law.

(3) *Provisions applying to Affiliated QS/IFQ Arbitration Organizations.* The provisions that allow for the provision of information to members, payment of costs, limits on the transfer of QS, PQS, IFQ, and IPQ, and enforcement of the contract as described under paragraphs (e)(2)(iv), (v), (vii), and (viii) will apply to the contract among members of an Affiliated QS/IFQ Arbitration Organization(s).

(4) *Process for selection of Market Analyst, Formula Arbitrator, and Contract Arbitrator(s).* (i) For each crab fishing year, QS holders who are members of Arbitration QS/IFQ Arbitration Organization(s) and PQS holders who are members of PQS/IPQ Arbitration Organization(s), by mutual agreement, will select one Market Analyst, one Formula Arbitrator, and Contract Arbitrator(s) for each crab QS fishery. The number of Contract Arbitrators selected for each fishery will be subject to the mutual agreement of those Arbitration Organizations. The selection of the Market Analyst and the Formula Arbitrator must occur in time to ensure the Market Report and non-binding price formula are produced within the time line established in paragraph (e)(4)(ii) of this section.

(ii) The Arbitration Organizations representing Arbitration QS holders and PQS holders in a crab fishery shall establish by mutual agreement the contractual obligations of the Market Analyst, Formula Arbitrator, and Contract Arbitrator(s) for each fishery, which shall provide that the Market Report and Non-Binding Price Formula are produced not later than 50 days

prior to the first crab fishing season for that crab QS fishery in that crab fishing year except as provided in paragraph (e)(6) of this section. The contractual obligations of the Market Analyst, the Formula Arbitrator and Contract Arbitrators will be enforced by the parties to the contract.

(iii) The same person may be chosen for the positions of Market Analyst and Formula Arbitrator for a fishery.

(iv) A person selected to be a Contract Arbitrator may not be the Market Analyst or Formula Arbitrator, and shall not be affiliated with, employed by, or otherwise associated with, the Market Analyst or Formula Arbitrator, for that fishery.

(5) *Notification to NMFS.* Not later than June 1 for that crab fishing year, except as provided in paragraph (e)(6) of this section, the Arbitration Organizations representing the holders of Arbitration QS and PQS in each fishery shall notify NMFS of the persons selected as the Market Analyst, Formula Arbitrator, and Contract Arbitrator(s) for the fishery by electronic mail addressed to the Regional Administrator, NMFS, or by mail addressed to the Regional Administrator, NMFS, Post Office Box 21668, Juneau, Alaska 99802. The Arbitration Organizations shall include a list of Arbitration Organizations that mutually agreed to the selection of the Market Analyst, Formula Arbitrator, and Contract Arbitrator(s) and signatures of representatives of those Arbitration Organizations and a copy of the contract with Market Analyst, the Formula Arbitrator, and each Contract Arbitrator. The notification must include a curriculum vitae and other relevant biographical material for each of these individuals.

(6) *First-year implementation.* During 2005, the selection of and establishment of the contractual obligations of the Market Analyst, Formula Arbitrator, and Contract Arbitrator(s) as required under this section shall occur not later than September 1, 2005.

(7) *IFQ and IPQ issuance and selection of the Market Analyst, Formula Arbitrator, and Contract Arbitrator(s).* NMFS will not issue CVO IFQ and IPQ for a

crab QS fishery until Arbitration Organizations establish by mutual agreement contracts with a Market Analyst, Formula Arbitrator, and Contract Arbitrator(s) for that fishery and notify NMFS.

(f) *Roles and standards for the Market Analyst and process for producing the Market Report.* (1) For each crab QS fishery, the Arbitration QS/IFQ Arbitration Organizations and the PQS/IPQ Arbitration Organizations shall establish a contract with the Market Analyst to produce a Market Report for the fishery. The terms of this contract must specify that the Market Analyst must produce a Market Report that shall provide an analysis of the market for products of that fishery.

(2) The contract with the Market Analyst must specify that:

(i) The Market Analyst shall base the Market Report on:

(A) A survey of the market for crab products produced by the fishery; and

(B) Information provided by the IPQ and IFQ holders regarding market conditions and expectations.

(ii) To the extent IPQ and IFQ holders provide information requested by the Market Analyst, they must provide such information directly to the Market Analyst and not to any other IPQ holder or IFQ holder, except that IFQ holders that are members of any single FCMA cooperative may share such information with other members of the same FCMA cooperative who are authorized to participate in the arbitration system.

(iii) The Market Analyst:

(A) May meet with IFQ holders who are members of any single FCMA cooperative collectively;

(B) Shall meet with IPQ holders individually;

(C) Shall meet with distinct crab FCMA cooperatives individually; and

(D) Shall meet with IFQ holders who are not members of the same FCMA cooperatives individually.

(iv) The information provided to the Market Analyst by IPQ and IFQ holders must be historical information based on activities occurring more than three months prior to the generation of the Market Report.

(v) The Market Analyst shall keep confidential the identity of the source

of any particular information contained in the report. The Market Analyst may note generally the sources from which it gathered information. The report shall:

(A) Include only data that is based on information regarding activities occurring more than three months prior to the generation of the Market Report;

(B) Include only statistics for which there are at least five providers reporting data upon which each statistic is based and for which no single provider's data represents more than 25 percent of a weighted basis of that statistic; and

(C) Sufficiently aggregate any information disseminated in the report such that it would not identify specific price information by an individual provider of information.

(vi) The Market Report shall consider the following factors:

(A) Current ex-vessel prices, including ex-vessel prices received for crab harvested under Class A IFQ, Class B IFQ, and CVC IFQ permits;

(B) Consumer and wholesale product prices for the processing sector and the participants in the arbitration (recognizing the impact of sales to affiliates on wholesale pricing);

(C) Innovations and developments of the harvesting and processing sectors and the participants in the arbitration (including new product forms);

(D) Efficiency and productivity of the harvesting and processing sectors (recognizing the limitations on efficiency and productivity arising out of the management program structure);

(E) Quality (including quality standards of markets served by the fishery and recognizing the influence of harvest strategies on the quality of landings);

(F) The interest of maintaining financially healthy and stable harvesting and processing sectors;

(G) Safety and expenditures for ensuring adequate safety;

(H) Timing and location of deliveries; and

(I) The cost of harvesting and processing less than the full IFQ or IPQ allocation (underages) to avoid penalties for overharvesting IFQ and a mechanism for reasonably accounting for deadloss.

**§ 680.20**

**50 CFR Ch. VI (10–1–08 Edition)**

(vii) There shall only be one annual Market Report for each fishery.

(viii) The Market Analyst shall not issue interim or supplemental reports for each fishery.

(3) The Market Analyst shall not disclose any information to any person not required under this section.

(4) In 2005, the Market Report shall be produced not later than September 30, 2005 or 25 days prior to the first crab fishing season for that crab QS fishery whichever is later in that crab fishing year as required under this section.

(i) In all subsequent years, the Market Report shall be produced not later than 50 days prior to the first crab fishing season for that crab QS fishery.

(ii) The contract with the Market Analyst must specify that the Market Analyst will provide in that crab fishing year to:

(A) Each Arbitration Organization in that fishery;

(B) NMFS by electronic mail to the Regional Administrator, NMFS, or addressed to the Regional Administrator, NMFS, Post Office Box 21668, Juneau, Alaska 99802; and

(C) The Formula Arbitrator and any Contract Arbitrator(s) for the fishery.

(g) *Roles and standards for the Formula Arbitrator.* (1) For each crab QS fishery, the Arbitration QS/IFQ Arbitration Organizations and the PQS/IPQ Arbitration Organizations shall establish a contract with the Formula Arbitrator to develop a Non-Binding Price Formula.

(2) The contract with the Formula Arbitrator must specify that:

(i) The Formula Arbitrator will conduct a single annual fleet-wide analysis of the markets for crab to establish a Non-Binding Price Formula under which a fraction of the weighted average first wholesale prices for crab products from the fishery may be used to set an ex-vessel price; and

(ii) The Non-Binding Price Formula shall:

(A) Be based on the historical distribution of first wholesale revenues between fishermen and processors in the aggregate based on arm's length first wholesale prices and ex-vessel prices, taking into consideration the size of the harvest in each year; and

(B) Establish a price that preserves the historical division of revenues in the fishery while considering the following:

(1) Current ex-vessel prices, including ex-vessel prices received for crab harvested under Class A, Class B, and CVC IFQ permits;

(2) Consumer and wholesale product prices for the processing sector and the participants in arbitrations (recognizing the impact of sales to affiliates on wholesale pricing);

(3) Innovations and developments of the harvesting and processing sectors and the participants in arbitrations (including new product forms);

(4) Efficiency and productivity of the harvesting and processing sectors (recognizing the limitations on efficiency and productivity arising out of the management program structure);

(5) Quality (including quality standards of markets served by the fishery and recognizing the influence of harvest strategies on the quality of landings);

(6) The interest of maintaining financially healthy and stable harvesting and processing sectors;

(7) Safety and expenditures for ensuring adequate safety;

(8) Timing and location of deliveries; and

(9) The cost of harvesting and processing less than the full IFQ or IPQ allocation (underages) to avoid penalties for overharvesting IFQ and a mechanism for reasonably accounting for deadloss.

(C) Include identification of various relevant factors such as product form, delivery time, and delivery location.

(D) Consider the "highest arbitrated price" for the fishery from the previous crab fishing season, where the "highest arbitrated price" means the highest arbitrated price for arbitrations of IPQ and Arbitration IFQ which represent a minimum of at least 7 percent of the IPQ resulting from the PQS in that fishery. For purposes of this process, the Formula Arbitrator may aggregate up to three arbitration findings to collectively equal a minimum of 7 percent of the IPQ. When arbitration findings are aggregated with 2 or more entities, the lesser of the arbitrated prices of

the arbitrated entities included to attain the 7 percent minimum be considered for the highest arbitrated price.

(iii) The Non-Binding Price Formula may rely on any relevant information available to the Formula Arbitrator, including, but not limited to,

(A) Information provided by the QS, PQS, IPQ and IFQ holders in the fishery, and

(B) The Market Report for the fishery.

(iv) The Formula Arbitrator:

(A) May meet with IFQ holders who are members of any single FCMA cooperative collectively;

(B) Shall meet with IPQ holders individually;

(C) Shall meet with distinct FCMA cooperatives individually; and

(D) Shall meet with IFQ holders who are not members of the same FCMA cooperative individually.

(v) The Formula Arbitrator may request any relevant information from QS, PQS, IPQ, and IFQ holders in the fishery, but the Formula Arbitrator shall not have subpoena power.

(vi) The Formula Arbitrator may obtain information from persons other than QS, PQS, IPQ, and IFQ holders in the fishery, if those persons agree to provide such data. Any information that is provided must be based on activities occurring more than three months prior to the date of submission to the Formula Arbitrator.

(vii) The Formula Arbitrator shall keep confidential the information that is not publicly available and not disclose the identity of the persons providing specific information.

(viii) (A) In 2005, the non-binding price formula shall be produced not later than September 30, 2005 or 25 days prior to the first crab fishing season for that crab QS fishery whichever is later in that crab fishing year as required under this section.

(B) In all subsequent years, the non-binding price formula shall be produced not later than 50 days prior to the first crab fishing season for that crab QS fishery.

(C) The contract with the Formula Arbitrator must specify that the Formula Arbitrator will provide the non-binding price formula in that crab fishing year to:

(1) Each Arbitration Organization in that fishery;

(2) NMFS by electronic mail to the Regional Administrator, NMFS, or addressed to the Regional Administrator, NMFS, Post Office Box 21668, Juneau, Alaska 99802; and

(3) The Market Analyst and all Contract Arbitrators in the fishery.

(ix) The Formula Arbitrator shall not disclose any information to any person not required under this section, except as permitted by paragraph (j) of this section.

(h) *Roles and standards for the Contract Arbitrator(s)*—(1) *General*. For each crab QS fishery, the Arbitration QS/IFQ Arbitration Organizations and PQS/IPQ Arbitration Organizations shall establish a contract with all Contract Arbitrators in that fishery that specifies that each Contract Arbitrator may be selected to resolve a dispute concerning the terms of delivery, price, or other factors in the fishery.

(2) *Selection of Contract Arbitrators*. The contract with the Contract Arbitrator shall specify the means by which the Contract Arbitrator will be selected to resolve specific disputes. This contract must specify that for any dispute for which the Contract Arbitrator is selected, the Contract Arbitrator will comply with the last best offer arbitration method as set forth in this section.

(3) *Negotiation and Binding Arbitration Procedure*. The contract with the Contract Arbitrator(s) shall specify the following approaches for negotiation and Binding Arbitration among members of the Arbitration Organizations:

(i) *Restrictions on collective negotiation*. An IFQ and an IPQ holder may negotiate individually. Groups of IFQ holders may negotiate collectively with an IPQ holder only under the following provisions:

(A) Members of an FCMA cooperatives may participate collectively with other members of the same FCMA cooperative in Binding Arbitration except as otherwise provided under this section.

(B) Members of different FCMA cooperatives shall not participate collectively in Binding Arbitration.

(C) IPQ holders shall not participate collectively. Only one IPQ holder shall

enter into Binding Arbitration with any IFQ holder or IFQ holder(s).

(D) An Arbitration Organization must not negotiate on behalf of a member. This shall not prohibit the members of an Arbitration IFQ Arbitration Organization from negotiation if the Arbitration Organization qualifies as an FCMA cooperative.

(ii) *Open negotiations.* At any time prior to the date of the first crab fishing season of a crab fishing year for that crab QS fishery, any holder of uncommitted Arbitration IFQ may negotiate with any holder of uncommitted IPQ, the price and delivery terms for that season for any uncommitted IFQ and uncommitted IPQ.

(A) Uncommitted Arbitration IFQ holders and Uncommitted IPQ holders may freely contact each other and initiate open negotiations.

(B) If Arbitration IFQ holders and IPQ holders do not reach an agreement on price, delivery terms, or other terms after committing shares, an Arbitration IFQ holder may initiate Binding Arbitration in accordance with the procedures specified in this section in order to resolve disputes in those price, delivery terms, or other terms.

(C) Once IFQ or IPQ has been committed, the IFQ holder and IPQ holder cannot engage in open negotiation using those shares.

(iii) *Lengthy season approach.* (A) Prior to the date of the first crab fishing season for that crab QS fishery in that crab fishing year a committed IPQ holder and one or more committed Arbitration IFQ holders may choose to adopt a Lengthy Season approach. The Lengthy Season approach is an alternative method to the Binding Arbitration proceedings.

(B) A Lengthy Season approach allows a committed IPQ holder and a committed Arbitration IFQ holder to agree to postpone negotiation of specific contract terms until a time during the crab fishing year as agreed upon by the Arbitration IFQ holder and IPQ holder participating in the negotiation. The Lengthy Season approach allows the Arbitration IFQ holders and IPQ holder involved in the negotiation to postpone Binding Arbitration, if necessary, until a time during the crab fishing year. If the parties reach a final

agreement on the contract terms, Binding Arbitration is not necessary.

(C) If a committed IPQ holder and one or more committed Arbitration IFQ holder(s) are unable to reach an agreement on whether to adopt a Lengthy Season approach, they may request mediation to assist the parties in determining whether to adopt a Lengthy Season approach. The parties may request a Contract Arbitrator to act as a mediator. If the mediation proves unsuccessful or is not selected, the Arbitration IFQ holder may initiate enter Binding Arbitration to determine whether to adopt a lengthy season approach.

(1) Binding Arbitration may begin immediately with the same Contract Arbitrator.

(2) If the Contract Arbitrator serves as a mediator in an unsuccessful mediation, either party may request another Contract Arbitrator for the Binding Arbitration.

(iv) *Share matching.* (A) At any time 120 hours (five days) after NMFS issues IFQ and IPQ for that crab QS fishery in that crab fishing year, holders of uncommitted Arbitration IFQ may choose to commit the delivery of harvests of crab to be made with that uncommitted Arbitration IFQ to an uncommitted IPQ holder. The issuance of IFQ and IPQ for a crab QS fishery occurs on the time and date that IFQ and IPQ amounts for that crab QS fishery are posted on the NMFS, Alaska Region website at <http://www.fakr.noaa.gov>.

(B) To commit Arbitration IFQ, the holder of uncommitted IFQ must offer an amount of Arbitration IFQ:

(1) Not less than 50 percent of the Arbitration IFQ holder's total uncommitted Arbitration IFQ, or an amount of uncommitted Arbitration IFQ equal to the total amount of uncommitted IPQ available, whichever is less, if the Arbitration IFQ holder is not an FCMA cooperative; and

(2) Not less than 25 percent of the Arbitration IFQ holder's total uncommitted Arbitration IFQ, or an amount of uncommitted Arbitration IFQ equal to the total amount of uncommitted IPQ available, whichever is less, if the Arbitration IFQ holder is an FCMA cooperative.

(C) Any holder of uncommitted IPQ must accept all proposed Arbitration IFQ commitments, up to the amount of its uncommitted IPQ. The commitment of IPQ will take place on receipt of notice from the holder of uncommitted Arbitration IFQ of the intention to commit that IFQ.

(D) After matching, an Arbitration IFQ holder and an IPQ holder may decide to enter mediation to reach agreement on contract terms. The Arbitration IFQ holder and IPQ holder may request a Contract Arbitrator to act as a mediator to facilitate an agreement.

(I) If the mediation proves unsuccessful, or if mediation is not selected, the Arbitration IFQ holder may initiate Binding Arbitration which may begin immediately with the same Contract Arbitrator.

(2) If the Contract Arbitrator serves as a mediator in an unsuccessful mediation, the Arbitration IFQ holder may request another Contract Arbitrator for the Binding Arbitration.

(v) *Initiation of Binding Arbitration.* If an Arbitration IFQ holder intends to initiate Binding Arbitration, the Arbitration IFQ holder must initiate the Binding Arbitration procedure not later than 360 hours (15 days) after NMFS issues IFQ and IPQ for that crab QS fishery in that crab fishing year. Binding Arbitration is initiated after the committed Arbitration IFQ holder notifies a committed IPQ holder and selects a Contract Arbitrator. Binding Arbitration may be initiated to resolve price, terms of delivery, and other disputes. There will be only one Binding Arbitration Proceeding for an IPQ holder but multiple Arbitration IFQ holders may participate in this proceeding. This limitation on the timing of Binding Arbitration proceedings does not include proceedings that arise due to:

- (A) The lengthy season approach;
- (B) Performance disputes; and
- (C) Quality disputes.

(vi) *Joining a Binding Arbitration proceeding.* Any uncommitted Arbitration IFQ holder may join a Binding Arbitration proceeding as a party by committing the shares to the arbitration and providing notice to the IPQ holder and the Contract Arbitrator(s). An Arbitration IFQ holder may join a Binding Ar-

bitration proceeding only if uncommitted IPQ is available. Once shares are committed to a Binding Arbitration Proceeding they cannot be uncommitted. The contract with the Contract Arbitrator may specify the terms and timing of joining the proceedings.

(vii) *Arbitration schedule meeting.* The Contract Arbitrator shall meet with all parties to a Binding Arbitration proceeding as soon as possible once a Binding Arbitration proceeding has been initiated for the sole purpose of establishing a schedule for the Binding Arbitration. This schedule shall include the date by which the IPQ holder and Arbitration IFQ holder(s) must submit their last best offer and any supporting materials, and any additional meetings or mediation if agreed to by all parties. This meeting will discuss the schedule of the Binding Arbitration proceedings and not address terms of last best offers.

(viii) *Terms of last best offers.* The Contract Arbitrator will meet with the parties to the Binding Arbitration proceeding to determine the matters that must be included in the last best offer, which may include a fixed price or a price over a time period specified by the parties, a method for adjusting prices over a crab fishing year, or an advance price paid at the time of delivery.

(ix) *Submission of last best offers.* The parties to a Binding Arbitration proceeding shall each submit to the Contract Arbitrator(s) a last best offer defining all the terms specified for inclusion in a last best offer by the Contract Arbitrator. An Arbitration IFQ holder that is an FCMA cooperative may submit a last best offer that defines terms for the delivery of crab harvested by members of that FCMA cooperative with IFQ held by the cooperative. An Arbitration IFQ holder that is not an FCMA cooperative may submit a last best offer that defines the term of delivery of crab harvested with IFQ held by that person. The IPQ holder that is a party to the proceeding shall submit a single offer that defines terms for delivery of crab harvested with all IFQ that are subject to the proceedings.

(x) *Arbitration decisions.* The Contract Arbitrator(s) shall decide among each offer received from an Arbitration IFQ

holder and the offer received from the IPQ holder. Each arbitration decision shall result in a binding contract between the IPQ holder and the Arbitration IFQ holder defined by the terms of the offer selected by Contract Arbitrator(s). An arbitration decision applies to all committed IFQ and committed IPQ in that arbitration.

(xi) *Announcement of decisions.* (A) If last best offers are submitted at least 15 days before the first crab fishing season for that crab fishing year for that crab QS fishery, arbitration decisions shall be issued no later than 10 days before the first crab fishing season for that crab fishing year for that crab QS fishery. Otherwise, the Contract Arbitrator will notify the parties of the arbitration decision within 5 days of the parties submitting their last best offers.

(B) The Contract Arbitrator will notify the parties by providing each Arbitration IFQ holder and IPQ holder that is a party to the Binding Arbitration proceeding, a copy of any decision. The decision is binding on the parties to the Binding Arbitration proceeding.

(4) *Basis for the Arbitration decision.* The contract with the Contract Arbitrator shall specify that the Contract Arbitrator will be subject to the following provisions when deciding which last best offer to select.

(i) The Contract Arbitrator's decision shall:

(A) Be based on the historical distribution of first wholesale revenues between fishermen and processors in the aggregate based on arm's length first wholesale prices and ex-vessel prices, taking into consideration the size of the harvest in each year; and

(B) Establish a price that preserves the historical division of revenues in the fishery while considering the following:

(1) Current ex-vessel prices, including ex-vessel prices received for crab harvested under Class A IFQ, Class B IFQ, and CVC IFQ permits;

(2) Consumer and wholesale product prices for the processing sector and the participants in the arbitration (recognizing the impact of sales to affiliates on wholesale pricing);

(3) Innovations and developments of the harvesting and processing sectors

and the participants in the arbitration (including new product forms);

(4) Efficiency and productivity of the harvesting and processing sectors (recognizing the limitations on efficiency and productivity arising out of the management program structure);

(5) Quality (including quality standards of markets served by the fishery and recognizing the influence of harvest strategies on the quality of landings);

(6) The interest of maintaining financially healthy and stable harvesting and processing sectors;

(7) Safety and expenditures for ensuring adequate safety;

(8) Timing and location of deliveries; and

(9) The cost of harvesting and processing less than the full IFQ or IPQ allocation (underages) to avoid penalties for overharvesting IFQ and a mechanism for reasonably accounting for deadloss.

(C) Consider the Non-Binding Price Formula established in the fishery by the Formula Arbitrator.

(ii) The Contract Arbitrator's decision may rely on any relevant information available to the Contract Arbitrator, including, but not limited to:

(A) Information provided by the QS, PQS, IPQ and IFQ holders in the fishery regarding the factors identified in paragraph (h)(4)(i) of this section; and

(B) The Market Report for the fishery.

(iii) Each of the Arbitration IFQ holders and the IPQ holders that is party to the proceeding may provide the Contract Arbitrator with additional information to support its last best offer. The Contract Arbitrator must receive and consider all data submitted by the parties.

(iv) The Contract Arbitrator may request specific information from the Arbitration IFQ holder(s) and IPQ holder that will be useful in reaching a final decision. The Contract Arbitrator will not have subpoena power and it is in the sole discretion of the person from whom information is requested as to whether to provide the requested information.

(5) *Limits on the release of data.* The parties to a Binding Arbitration proceeding shall be precluded from full access to the information provided to the Contract Arbitrator.

(i) Arbitration IFQ holders that are party to an arbitration proceeding shall have access only to information provided directly by the IPQ holder to the Contract Arbitrator for that Binding Arbitration proceeding.

(ii) IPQ holders that are party to an arbitration proceeding shall have access only to information provided directly by an Arbitration IFQ holder to the Contract Arbitrator for that Binding Arbitration proceeding.

(iii) The Contract Arbitrator shall keep confidential the information provided by any QS, PQS, IFQ, or IPQ holders in the fishery and not disclose the identity of the persons providing specific information except as provided in paragraph (h)(6) of this section.

(iv) The Arbitration IFQ holders and IPQ holders shall not release information received in a Binding Arbitration proceeding to persons who were not party to that Binding Arbitration proceeding other than the final result of that arbitration proceeding except as provided for in paragraph (h)(6) of this section.

(6) *Information provided to NMFS.* The Contract Arbitrator must provide any information, documents, or data required under this paragraph to NMFS via mail to the Administrator, Alaska Region, NMFS, P.O. Box 21668, Juneau, AK 99802-1668, or electronically not later than 30 days prior to the end of the crab fishing year for which the open negotiation or arbitration applied. The contract with the Contract Arbitrator must specify that the Contract Arbitrator provide NMFS with:

(i) A copy of any minutes from any meeting attended by that Contract Arbitrator between or among any PQS or IPQ holders concerning any negotiations under this section;

(ii) Any last-best offers made during the Binding Arbitration process, including all contract details, the names of other participants in the arbitration, and whether the bid was accepted by the Contract Arbitrator; and

(iii) A copy of any information, data, or documents given by the Contract

Arbitrator to any person who is not a party to the particular arbitration for which that information was provided. The Contract Arbitrator must identify the arbitration to which the information, data, or documents apply, and the person to whom those information, data, or documents were provided.

(7) *Enforcement of Binding Arbitration decisions.* The decision of the Contract Arbitrator for Binding Arbitration shall be enforced among the parties to that arbitration.

(8) *Failure of Contract Arbitrator(s).* Except as provided for in paragraph (h)(6) of this section, the failure of a Contract Arbitrator to perform shall be enforced by the Arbitration Organizations.

(9) *Post Binding Arbitration opt-in.* (i) An Arbitration IFQ holder with uncommitted IFQ, may opt-in to any contract that results from a completed a Binding Arbitration procedure with any IPQ holder that has uncommitted IPQ.

(A) All the terms from the arbitrated contract will apply. The Contract Arbitrator may determine fees and a time frame by which a Post Binding Arbitration opt-in may occur if those terms are not specified in the arbitrated contract.

(B) Once exercised, the opt-in results in a contract that is binding on both the Arbitration IFQ and IPQ holder.

(ii) To initiate the opt-in process, the holder of uncommitted Arbitration IFQ will notify the holder of uncommitted IPQ in writing of its intent to opt-in.

(iii) Holders of uncommitted Arbitration IFQ may opt-in to a contract resulting from a completed Binding Arbitration procedure with a person that holds uncommitted IPQ for that fishery.

(iv) If the IPQ holder and the Arbitration IFQ holder are unable to resolve a dispute regarding whether the opt-in offer is consistent with the original contract from the completed Binding Arbitration procedure, the dispute may be decided by the Contract Arbitrator to the original arbitration that resulted in the contract to which the Arbitration IFQ holder is seeking to opt-in. The Contract Arbitrator will decide only whether the proposed opt-in terms are consistent with the original contract.

(10) *Performance disputes.* If an IPQ holder and an Arbitration IFQ holder are unable to resolve disputes regarding the obligations to perform specific contract provisions after substantial negotiations or when time is of the essence, the issues of that dispute shall be submitted for Binding Arbitration before a Contract Arbitrator for that fishery.

(i) Binding Arbitration resulting from a performance dispute can occur at any point during or after the crab fishing year. The dispute must be raised by the IPQ holder or the Arbitration IFQ holder. Arbitration of that performance dispute must be initiated prior to the date of the first crab fishing season for the following crab fishing year in that crab QS fishery.

(ii) Performance dispute arbitration shall follow the applicable procedures described for a Binding Arbitration in paragraph (h)(3) of this section, except that the time frame for the procedure applicable to a performance dispute will be determined by the Contract Arbitrator once the dispute has been raised.

(iii) If a party fails to abide by the arbitration decision, a party may pursue available contract remedies.

(iv) The costs of arbitrating performance disputes shall be provided from the general fees collected by the Arbitration Organizations pursuant to paragraph (e) of this section.

(v) The Contract Arbitrator may assign fees to any party bringing frivolous complaints. Any such fees shall be paid by the party and not from the fees collected under paragraph (e)(2)(vi) of this section.

(11) *Quality disputes.* When disputes regarding the quality of the harvested crab arise within the context of an existing contract, the parties may settle the disputes within the context of the arbitration system according to the following:

(i) In cases where the IPQ holder and Arbitration IFQ holder(s) have agreed to a formula-based price for crab but where they cannot reach an agreement on the quality and price of the crab, the IPQ holder and Arbitration IFQ holder(s) will receive their share of the value of the amount of crab delivered based on the provisions of the contract.

(ii) In quality disputes where the Arbitration IFQ holders prefer to use actual ex-vessel price and not a formula-based price and a dispute arises regarding crab quality and price, the dispute should be referred to a mutually agreeable independent quality specialist firm. This independent quality specialist firm will determine the quality of the crab. This information will be used as the basis for subsequent price determinations. The IPQ holder and Arbitration IFQ holder(s) with this quality dispute shall share the cost of hiring the specialist firm and agree to abide by its findings according to the terms of their agreement.

[70 FR 10241, Mar. 2, 2005, as amended at 70 FR 33395, June 8, 2005; 70 FR 75421, Dec. 20, 2005; 71 FR 40033, July 14, 2006; 73 FR 35088, June 20, 2008]

#### § 680.21 Crab harvesting cooperatives.

This section governs the formation and operation of crab harvesting cooperatives. The regulations in this section apply only to crab harvesting cooperatives that have formed for the purpose of applying for and fishing under a crab harvesting cooperative IFQ permit issued by NMFS. Members of crab harvesting cooperatives that are not FCMA cooperatives should consult counsel before commencing any activity if the members are uncertain about the legality under the antitrust laws of the crab harvesting cooperative's proposed conduct.

(a) *Formation of crab harvesting cooperatives.* The following requirements apply to the formation of crab harvesting cooperatives.

(1) *Membership requirements.* A crab harvesting cooperative is limited to QS holders that hold any amount of CPO, CVO, CPC, or CVC QS, and that NMFS has determined are eligible to receive crab IFQ.

(i) *Minimum number of members.* Each crab harvesting cooperative must include at least four unique QS holding entities. A unique QS holding entity is a QS holder or group of affiliated QS holders that are not affiliated with any other QS holders or QS holding entities in the crab harvesting cooperative. For the purpose of this paragraph, the term "affiliation" is defined at § 680.2.

(ii) *Voluntary nature of membership.* Membership in a crab harvesting cooperative is voluntary. No person may be required to join a crab harvesting cooperative, and no crab harvesting cooperative may be required to accept a member who the crab harvesting cooperative chooses not to accept.

(iii) *Membership in more than one crab harvesting cooperative.* (A) A QS holder may join one crab harvesting cooperative per CR fishery.

(B) Upon joining a crab harvesting cooperative for a CR fishery, NMFS will convert all of a QS holder's QS holdings for that CR fishery to crab harvesting cooperative IFQ.

(2) *Legal and organizational requirements.* A crab harvesting cooperative must meet the following legal and organizational requirements before it is eligible to apply for a crab harvesting cooperative IFQ permit:

(i) *Registered business entity.* Each crab harvesting cooperative must be formed as a partnership, corporation, or other legal business entity that is registered under the laws of one of the 50 states or the District of Columbia.

(ii) *Appointment of a designated representative.* Each crab harvesting cooperative must appoint an individual as designated representative to act on the crab harvesting cooperative's behalf and serve as contact point for NMFS for questions regarding the operation of the crab harvesting cooperative. The designated representative may be a member of the crab harvesting cooperative or some other individual authorized by the crab harvesting cooperative to act on its behalf.

(b) *Application for annual crab harvesting cooperative IFQ permits.* A crab harvesting cooperative IFQ permit is an annual permit issued to a crab harvesting cooperative that establishes an annual catch limit of crab that is based on the collective QS holdings of the members of the crab harvesting cooperative that have been contributed by the members. A crab harvesting cooperative IFQ permit will list the IFQ amount, by fishery, held by the crab harvesting cooperative and identify the members of the crab harvesting cooperative. Each crab harvesting cooperative will be issued a separate IFQ permit for each type of QS held by a mem-

ber (or members) of the crab harvesting cooperative.

(1) *August 1 application deadline.* A completed application for an annual crab harvesting cooperative IFQ permit must be submitted annually by each crab harvesting cooperative and received by NMFS no later than August 1, together with the signed annual application for crab IFQ/IPQ permit forms of all the members of the crab harvesting cooperative.

(2) *Contents of application for annual crab harvesting cooperative IFQ permit.* A completed application also must contain the following information:

(i) *Cooperative identification.* Enter the crab harvesting cooperative's legal name; type of business entity under which the crab harvesting cooperative is organized; state in which the crab harvesting cooperative is legally registered as a business entity; printed name of the crab harvesting cooperative's designated representative; the permanent business address, telephone number, facsimile number, and e-mail address (if available) of the crab harvesting cooperative or its designated representative; and the signature of the crab harvesting cooperative's designated representative and date signed.

(ii) *Members of the cooperative.* Full name and NMFS Person ID of each member of the crab harvesting cooperative.

(iii) *Additional documentation.* For the application to be considered complete, the following documents must be attached to the application: the completed and signed annual application for crab IFQ/IPQ permit for all members of the crab harvesting cooperative, a copy of the business license issued by the state in which the crab harvesting cooperative is registered as a business entity, a copy of the articles of incorporation or partnership agreement of the crab harvesting cooperative, and a copy of the crab harvesting cooperative agreement signed by the members of the crab harvesting cooperative (if different from the articles of incorporation or partnership agreement of the crab harvesting cooperative).

(3) *Issuance of crab harvesting cooperative IFQ permits.* Upon receipt of a completed application for an annual crab harvesting cooperative IFQ permit that

is subsequently approved, NMFS will issue one-year crab harvesting cooperative IFQ permits to the crab harvesting cooperative. The crab harvesting cooperative IFQ permits will list the crab IFQ amounts that are generated by the aggregate QS holdings of all members of the crab harvesting cooperative for each fishery, region, sector, and Class A/B IFQ categories. Issuance by NMFS of a crab harvesting cooperative IFQ permit is not a determination that the crab harvesting cooperative is formed or is operating in compliance with antitrust law.

(4) *Appeals.* A crab harvesting cooperative or person that is adversely affected by an initial administrative determination (IAD) that is associated with the issuance of a crab harvesting cooperative IFQ permit may appeal the IAD using the appeals procedures described in § 680.43.

(c) *Restrictions on fishing under a crab harvesting cooperative IFQ permit.* The following restrictions govern fishing for IFQ crab under a crab harvesting cooperative IFQ permit:

(1) *Maintenance of permit on board.* A copy of a crab harvesting cooperative IFQ permit must be maintained on board any vessel that is being used to harvest crab under the permit.

(2) *Persons eligible to harvest crab under a crab harvesting cooperative IFQ permit.* The only person eligible to harvest crab under a crab harvesting cooperative IFQ permit is the crab IFQ hired master under § 680.4(g) who is operating a vessel in which at least a 10 percent ownership share is held by a member of the crab harvesting cooperative to whom the IFQ permit is issued.

(3) *Liability.* Each member of a crab harvesting cooperative is responsible for ensuring that members of the crab harvesting cooperative and crab IFQ hired masters of the crab harvesting cooperative comply with all regulations applicable to fishing for CR crab.

(d) *Transfers by members of a crab harvesting cooperative.* The following requirements address transfers of QS and IFQ by members of a crab harvesting cooperative.

(1) *Transfer of QS.* A member of a crab harvesting cooperative may acquire or divest QS at any time using the trans-

fer procedures described in § 680.41. However, transfers of QS that occur after the August 1 deadline for crab harvesting cooperative IFQ permit applications will not be reflected in the type or amount of IFQ permit issued to the crab harvesting cooperative for the current fishing season.

(2) *Transfer of individually held IFQ.* A member of a crab harvesting cooperative may acquire or divest individually held IFQ using the transfer procedures described in § 680.41. However, any vessel used to harvest IFQ not held by a crab harvesting cooperative loses the vessel use cap exemption.

(3) *Transfer of crab harvesting cooperative IFQ prohibited.* A member of a crab harvesting cooperative may not acquire or divest crab harvesting cooperative IFQ. Crab harvesting cooperative IFQ may only be transferred between two crab harvesting cooperatives.

(e) *Transfers by crab harvesting cooperatives.* The following requirements address transfers of QS, IFQ, PQS, and IPQ by crab harvesting cooperatives that have been issued crab harvesting cooperative IFQ permits.

(1) *Acquisition of QS, PQS, and IPQ prohibited.* A crab harvesting cooperative that has been issued a crab harvesting cooperative IFQ permit is prohibited from acquiring any amount of QS, PQS, or IPQ for the valid duration of the crab harvesting cooperative IFQ permit. A crab harvesting cooperative that acquires any amount of QS, PQS, or IPQ becomes ineligible to receive a crab harvesting cooperative IFQ permit.

(2) *Transfer of crab harvesting cooperative IFQ.* A crab harvesting cooperative may transfer its IFQ only to another crab harvesting cooperative. Crab harvesting cooperatives wishing to engage in an inter-cooperative transfer must complete an application for inter-cooperative transfer to transfer crab IFQ between crab harvesting cooperatives. A crab harvesting cooperative is prohibited from transferring any amount of crab harvesting cooperative IFQ to any entity that is not a crab harvesting cooperative operating under a crab harvesting cooperative IFQ permit.

(3) *Use caps.* Inter-cooperative transfers of IFQ will apply to the individual

use caps of crab harvesting cooperative members through the designation of the crab harvesting cooperative members conducting the transfer.

(f) *Application for inter-cooperative transfer.* An application for inter-cooperative transfer is to be used only to apply for a transfer of crab harvesting cooperative IFQ from one crab harvesting cooperative to another crab harvesting cooperative. A complete application must also contain the following information:

(1) *Identification of transferor.* Enter the name; NMFS Person ID; date of incorporation; Tax ID number; name of crab harvesting cooperative's designated representative; permanent business mailing address; and business telephone number, facsimile number, and e-mail address (if available) of the crab harvesting cooperative transferor. A temporary mailing address for each transaction may also be provided in addition to the permanent business mailing address.

(2) *Identification of crab harvesting cooperative member.* Enter the name and NMFS Person ID of the member to whose use cap the crab harvesting cooperative IFQ will be applied.

(3) *Identification of transferee.* Enter the name; NMFS Person ID; date of incorporation; Tax ID number; name of crab harvesting cooperative's designated representative; permanent business mailing address; and business telephone number, facsimile number, and e-mail address (if available) of the crab harvesting cooperative transferee. A temporary mailing address for each transaction may also be provided in addition to the permanent business mailing address.

(4) *Identification of crab harvesting cooperative member.* Enter the name and NMFS person ID of the member from whose use cap the crab harvesting cooperative IFQ will be removed.

(5) *Crab harvesting cooperative IFQ to be transferred.* Identify the crab harvesting cooperative IFQ being transferred, including the type of crab harvesting cooperative IFQ being transferred, crab harvesting cooperative permit number and year that permit was issued. Indicate (YES or NO) whether all remaining pounds for the current fishing year are to be transferred; if

NO, specify number of pounds to be transferred.

(6) *Transferor information.* Indicate (YES or NO) whether a broker is being used for this transaction. If YES, indicate the dollar amount to be paid in brokerage fees or percentage of total price. Enter the total amount being paid for the IFQ in this transaction, including all fees, and the price per pound of IFQ.

(7) *Certification of transferor.* The crab harvesting cooperative transferor's designated representative must sign and date the application certifying that all information is true, correct, and complete to the best of his or her knowledge and belief. Only an application with an original, notarized signature will be accepted. Also enter the printed name of the crab harvesting cooperative transferor's representative or authorized representative. If the application is completed by an authorized representative, proof of authorization to act on behalf of the transferor must accompany the application. A Notary Public must sign the application, enter the date commission expires, and affix notary stamp or seal.

(8) *Certification of transferee.* The crab harvesting cooperative transferee's representative must sign and date the application certifying that all information is true, correct, and complete to the best of his or her knowledge and belief. Only an application with an original, notarized signature will be accepted. Also enter the printed name of the crab harvesting cooperative transferee's representative or authorized representative. If the application is completed by an authorized representative, proof of authorization to act on behalf of the transferee must accompany the application. A Notary Public must sign the application, enter the date commission expires, and affix notary stamp or seal.

(g) *Inseason changes to crab harvesting cooperative membership.* The following requirements address inseason changes to crab harvesting cooperative membership.

(1) *Eligible membership changes.* A crab harvesting cooperative may add a new member if that person becomes eligible to join the crab harvesting cooperative through the acquisition of any amount

of the QS upon which the crab harvesting cooperative's annual IFQ permit was based, provided that the person acquiring the QS in question has been determined by NMFS to be eligible to hold IFQ. Likewise, a crab harvesting cooperative may remove a member if that person no longer holds any of the QS upon which the crab harvesting cooperative's annual IFQ permit was based.

(2) *Inseason membership changes are voluntary.* A crab harvesting cooperative is not required to add or remove members during the fishing season to reflect inseason transfers of QS. Each crab harvesting cooperative is free to establish its own process for deciding whether or not to admit new members or to remove existing members during the fishing season to reflect changes in the QS holdings. No crab harvesting cooperative is required to admit a new QS holder that the crab harvesting cooperative chooses not to admit, regardless of whether the person in question has acquired any amount of QS upon which the crab harvesting cooperative's annual IFQ is based. If a crab harvesting cooperative chooses to make inseason membership changes, then it must comply with paragraph (g)(3) of this section.

(3) *Application for an inseason change in cooperative membership.* To change crab harvesting cooperative membership, a crab harvesting cooperative must submit to NMFS a revised application for an annual crab harvesting cooperative IFQ permit together with any revised supporting documents that are required to be submitted with the application. The revised application for an annual crab harvesting cooperative IFQ permit must be accompanied by a cover letter that indicates the revisions that have been made. Upon approval of the membership change, NMFS will issue a revised crab harvesting cooperative IFQ permit that reflects the change. A new member may not fish on behalf of a cooperative except as a crab IFQ hired master until NMFS issues a revised crab harvesting cooperative IFQ permit that reflects the change in membership.

(4) *Successors-in-interest.* If a member of a crab harvesting cooperative dies (in the case of an individual) or dis-

solves (in the case of a business entity), the QS held by that person will be transferred to the legal successor-in-interest. However, the crab harvesting cooperative IFQs generated by that person's QS holdings remain under the control of the crab harvesting cooperative for the valid duration of the crab harvesting cooperative IFQ permit. Each crab harvesting cooperative is free to establish its own internal procedures for admitting a successor-in-interest during the fishing season to reflect the transfer of QS due to the death or dissolution of a QS holder. The regulations in this section do not require any crab harvesting cooperative to admit a successor-in-interest that the cooperative chooses not to admit. If a crab harvesting cooperative chooses to admit the successor-in-interest for membership, then the crab harvesting cooperative must comply with paragraph (g)(3) of this section.

[70 FR 10241, Mar. 2, 2005, as amended at 70 FR 33395, June 8, 2005; 73 FR 35088, June 20, 2008]

**§ 680.22 Sideboard protections for GOA groundfish fisheries.**

The regulations in this section restrict the owners of vessels with a history of participation in the Bering Sea snow crab fishery from using the increased flexibility provided by the CR Program to expand their level of participation in GOA groundfish fisheries. These restrictions are commonly known as "sideboards."

(a) *Vessels and LLP licenses subject to sideboard restrictions.* The sideboard fishing restrictions described in this section are based on a vessel's fishing history and apply both to the fishing vessel itself and to any LLP license generated by that vessel's fishing history. The criteria used to determine which vessels and LLP licenses are subject to GOA groundfish sideboard fishing restrictions are as follows:

(1) *Vessels subject to GOA groundfish sideboard directed fishing closures.* Any vessel that NMFS has determined meets one or both of the following criteria is subject to GOA groundfish sideboard directed fishing closures issued under paragraph (e) of this section.

(i) Any non-AFA vessel that made a legal landing of Bering Sea snow crab (*C. opilio*) between January 1, 1996, and December 31, 2000, that generated any amount of Bering Sea snow crab (*C. opilio*) fishery QS; and

(ii) Any vessel named on an LLP license that was generated in whole or in part by the fishing history of a vessel meeting the criteria in paragraph (a)(1)(i) of this section.

(2) *Vessels prohibited from directed fishing for Pacific cod in the GOA.* Any vessel that NMFS has determined meets either of the following two criteria is prohibited from directed fishing for Pacific cod in the GOA:

(i) Any vessel subject to GOA groundfish sideboard closures under paragraph (a)(1)(i) of this section that landed less than 50 mt (110,231 lb), in round weight equivalents, of groundfish harvested from the GOA between January 1, 1996, and December 31, 2000, or

(ii) Any vessel named on an LLP license that was generated in whole or in part by the fishing history of a vessel meeting the criteria in paragraph (a)(2)(i) of this section.

(3) *Vessels exempt from Pacific cod sideboard closures in the GOA.* Any vessel that NMFS has determined meets one or both of the following criteria is exempt from sideboard directed fishing closures for Pacific cod in the GOA:

(i) Any vessel subject to GOA groundfish closures under paragraph (a)(1)(i) of this section that landed less than 100,000 lb (45,359 kg), in raw weight equivalents, of Bering Sea snow crab and more than 500 mt (1,102,311 lb), in round weight equivalents, of Pacific cod from the GOA between January 1, 1996, and December 31, 2000; and

(ii) Any vessel named on an LLP license that was generated in whole or in part by the fishing history of a vessel meeting the criteria in paragraph (a)(3)(i) of this section.

(b) *Notification of affected vessel owners and LLP license holders.* After NMFS determines which vessels and LLP licenses meet the criteria described in paragraph (a) of this section, NMFS will inform each vessel owner and LLP license holder in writing of the type of sideboard restriction and issue a revised Federal Fisheries Permit and/or LLP license that displays the restric-

tion on the face of the permit or license.

(c) *Appeals.* A vessel owner or LLP license holder who believes that NMFS has incorrectly identified his or her vessel or LLP license as meeting the criteria for a GOA groundfish sideboard restriction may request reconsideration. All requests for reconsideration must be submitted in writing to the RAM Division, Alaska Region, NMFS, together with any documentation or evidence supporting the request. If the request for reconsideration is denied, affected persons may appeal using the procedures described at § 680.43.

(d) *Determination of GOA groundfish sideboard ratios.* Sideboard ratios for each GOA groundfish species other than fixed-gear sablefish, species group, season, and area for which annual specifications are made, are established according to the following formulas:

(1) *Pacific cod.* The sideboard ratios for Pacific cod are calculated by dividing the aggregate retained catch of Pacific cod by vessels that are subject to sideboard directed fishing closures under paragraph (a)(1) of this section and that do not meet the criteria in paragraphs (a)(2) or (a)(3) of this section by the total retained catch of Pacific cod by all groundfish vessels between 1996 and 2000.

(2) *Groundfish other than Pacific cod.* The sideboard ratios for groundfish species and species groups other than Pacific cod and fixed-gear sablefish are calculated by dividing the aggregate landed catch by vessels subject to sideboard directed fishing closures under paragraph (a)(1) of this section by the total landed catch of that species by all groundfish vessels between 1996 and 2000.

(e) *Conversion of sideboard ratios into annual harvest limits.* NMFS will convert sideboard ratios into annual harvest limits according to the following procedures.

(1) *Annual harvest limits.* Annual harvest limits for each groundfish species, except fixed-gear sablefish, will be established by multiplying the sideboard ratios calculated under paragraph (d) of this section by the interim and final TACs in each area for which a TAC is

specified. If a TAC is further apportioned by season, the sideboard harvest limit also will be apportioned by season in the same ratio as the overall TAC. The resulting harvest limits expressed in metric tons will be published in the annual GOA groundfish harvest specification notices.

(2) *Sideboard directed fishing allowance.* (i) If the Regional Administrator determines that a harvest limit for a species or species group has been or will be reached, the Regional Administrator may establish a sideboard directed fishing allowance for the species or species group applicable only to the group of crab vessels to which the sideboard limit applies.

(ii) If the Regional Administrator determines that a harvest limit is insufficient to support a directed fishery for that species or species group, then the Regional Administrator may set the sideboard directed fishing allowance at zero for that species or species group.

(3) *Directed fishing closures.* Upon attainment of a sideboard directed fishing allowance, the Regional Administrator will publish notification in the FEDERAL REGISTER prohibiting directed fishing for the species or species group in the specified subarea, regulatory area, or district. A directed fishing closure is effective for the duration of the fishing year or season.

(f) *Sideboard protections in the State of Alaska parallel groundfish fisheries.* Vessels subject to the sideboard restrictions under paragraph (a) of this section, with a Federal Fisheries Permit or LLP license, shall be subject to the regulations of this section while participating in any groundfish fishery in State waters adjacent to the GOA opened by the State of Alaska and for which the State of Alaska adopts a Federal fishing season.

[70 FR 10241, Mar. 2, 2005, as amended at 71 FR 38301, July 6, 2006]

**§ 680.23 Equipment and operational requirements.**

(a) *Catcher vessel requirements.* A catcher vessel used to harvest CR crab must:

- (1) Carry and use a VMS as described in paragraph (d) of this section;
- (2) Land all retained crab to an RCR operating under an approved catch

monitoring plan as described in paragraph (g) of this section;

(b) *Catcher/processor requirements.* A catcher/processor used to harvest CR crab must:

- (1) Carry and use a VMS as described in paragraph (d) of this section;
- (2) Weigh all retained crab to be processed on board, in its raw form, on a scale approved by NMFS as described in paragraph (e) of this section;
- (3) Land all retained crab not processed on board at an RCR;
- (4) Land all product processed on board at a shoreside location in the United States accessible by road or regularly scheduled air service and weigh that product on a scale approved by a state in which CR crab is landed; and
- (5) Provide an approved observer platform scale and test weights that meet the requirements in paragraph (e) of this section.

(c) *RCR requirements.* An RCR must:

- (1) Ensure that all CR crab landings are weighed on a scale approved by the State in which the landing takes place.
- (2) Ensure that all crab landing and weighing be conducted as specified in an approved crab monitoring plan as described in paragraph (g) of this section, and that a copy of the crab monitoring plan is made available to NMFS personnel or authorized officer upon demand.

(d) *Vessel Monitoring System (VMS) requirements—(1) General requirements.* General VMS requirements concerning the approval and installation of VMS components and the responsibilities of vessel owners and operators are detailed at § 679.28(f)(1) through (5).

(2) *VMS transmission requirements.* A vessel's transmitter must be transmitting if:

- (i) The vessel is operating in any reporting area (see definitions at § 679.2) off Alaska;
- (ii) The vessel has crab pots or crab pot hauling equipment, or a crab pot launcher onboard; and
- (iii) The vessel has or is required to have a Federal crab vessel permit for that crab fishing year.

(e) *Scales approved by NMFS.* To be approved by NMFS, a scale used to weigh crab at sea must meet the type

evaluation and initial inspection requirements set forth in § 679.28(b)(1) and (2). Once a scale is installed on a vessel and approved by NMFS for use, it must be reinspected annually as described in § 679.28(b) by requesting a scale inspection from NMFS. Each scale must be tested daily and meet the maximum permissible error (MPE) requirements described in paragraph (e)(1) of this section.

(1) *At-sea scale tests.* To verify that the scale meets the MPEs specified in this paragraph, the vessel operator must test each scale or scale system used to weigh CR crab one time during each 24-hour period when use of the scale is required. The vessel owner must ensure that these tests are performed in an accurate and timely manner.

(i) *Belt scales.* The MPE for the daily at-sea scale tests is plus or minus 3 percent of the known weight of the test material. The scale must be tested by weighing at least 400 kg (882 lb) of crab or an alternative material supplied by the scale manufacturer on the scale under test. The known weight of the test material must be determined by weighing it on a platform scale approved for use under § 679.28 (b)(7).

(ii) *Automatic hopper scales.* An automatic hopper scale must be tested at its minimum and maximum capacity with approved test weights. Test weights must be placed in the bottom of the hopper unless an alternative testing method is approved by NMFS. The MPE for the daily at-sea scale tests is plus or minus 2 percent of the weight of the approved test weights.

(iii) *Platform scales used for observer sampling.* A platform scale used for observer sampling must be tested at 10, 25, and 50 kg (or 20, 50, and 100 lb if the scale is denominated in pounds) using approved test weights. The MPE for the daily at-sea scale test is plus or minus 0.5 percent if the scale is used to determine the known weight of test material for the purpose of testing a belt scale. If the scale is not used for that purpose, the MPE for the daily at-sea scale test is plus or minus 1 percent.

(iv) *Approved test weights.* Each test weight must have its weight stamped on or otherwise permanently affixed to

it. The weight of each test weight must be annually certified by a National Institute of Standards and Technology approved metrology laboratory or approved for continued use by the NMFS authorized inspector at the time of the annual scale inspection.

(v) *Requirements for all scale tests.* (A) Notify the observer at least 15 minutes before the time that the test will be conducted, and conduct the test while the observer is present.

(B) Conduct the scale test and record the following information on the at-sea scale test report form:

- (1) Vessel name;
- (2) Month, day, and year of test;
- (3) Time test started to the nearest minute;
- (4) Known weight of test weights;
- (5) Weight of test weights recorded by scale;
- (6) Percent error as determined by subtracting the known weight of the test weights from the weight recorded on the scale, dividing that amount by the known weight of the test weights, and multiplying by 100; and
- (7) Sea conditions at the time of the scale test.

(C) Maintain the test report form on board the vessel until the end of the crab fishing year during which the tests were conducted, and make the report forms available to observers, NMFS personnel, or an authorized officer. In addition, the vessel owner must retain the scale test report forms for 3 years after the end of the crab fishing year during which the tests were performed. All scale test report forms must be signed by the vessel operator.

(2) *Scale maintenance.* The vessel owner must ensure that the vessel operator maintains the scale in proper operating condition throughout its use, that adjustments made to the scale are made so as to bring the performance errors as close as practicable to a zero value, and that no adjustment is made that will cause the scale to weigh inaccurately.

(3) *Printed reports from the scale.* The vessel owner must ensure that the printed reports are provided as required by this paragraph. Printed reports from the scale must be maintained on board the vessel until the end of the year during which the reports

were made and be made available to NMFS or NMFS authorized personnel. In addition, the vessel owner must retain printed reports for 3 years after the end of the year during which the printouts were made.

(i) *Reports of catch weight and cumulative weight.* Reports must be printed at least once every 24 hours prior to submitting a CR crab landing report as described in § 680.5. Reports must also be printed before any information stored in the scale computer memory is replaced. Scale weights must not be adjusted by the scale operator to account for the perceived weight of water, mud, debris, or other materials. Scale printouts must show:

(A) The vessel name and Federal crab vessel permit number;

(B) The weight of each load in the weighing cycle (hopper scales only);

(C) The date and time the information was printed;

(D) The total amount weighed since the last printout was made; and

(E) The total cumulative weight of all crab or other material weighed on the scale.

(ii) *Printed report from the audit trail.* The printed report must include the information specified in sections 2.3.1.8, 3.3.1.7, and 4.3.1.8 of appendix A to 50 CFR part 679. The printed report must be provided to the authorized scale inspector at each scale inspection and must also be printed at any time upon request of NMFS staff or other NMFS-authorized personnel.

(iii) *Platform scales used for observer sampling.* A platform scale used for observer sampling is not required to produce a printed record unless that scale is also used to obtain raw weight for a CR crab landing report.

(4) *Scale installation requirements.* Unless otherwise approved by NMFS, a scale used to obtain raw weight for a CR crab landing report must be installed such that:

(i) From the location where the observer samples unsorted crab, the observer can ensure that all crab are being weighed;

(ii) The scale may not be installed in a manner that facilitates bypassing. It must not be possible for the scale inspector and an assistant to bypass the

scale with 100 kg (220 lb) of test material in less than 20 seconds.

(f) *Scales approved by the state.* Scale requirements in this paragraph are in addition to those requirements set forth by the State in which the scale is approved, and nothing in this paragraph may be construed to reduce or supersede the authority of the State to regulate, test, or approve scales within the State. Scales used to weigh CR crab that are also required to be approved by the State must meet the following requirements:

(1) *Verification of approval.* The scale must display a valid State sticker indicating that the scale was inspected and approved within the previous 12 months.

(2) *Visibility.* An RCR must ensure that the scale and scale display are visible simultaneously. NMFS personnel or NMFS authorized personnel, including observers, must be allowed to observe the weighing of crab on the scale and be allowed to read the scale display at all times.

(3) *Printed scale weights.* (i) An RCR must ensure that printouts of the scale weight of each delivery or offload are made available to NMFS personnel or to NMFS authorized personnel, including observers, at the time printouts are generated. An RCR must maintain printouts on site until the end of the fishing year during which the printouts were made and make them available upon request by an authorized officer for 3 years after the end of the fishing year during which the printout was made.

(ii) A scale used to weigh any portion of a landing of CR crab or an offload of CR crab product must produce a printed record for each landing, or portion of each landing, weighed on that scale. The printed record must include:

(A) The RCR's name;

(B) The weight of each load in the weighing cycle;

(C) The total weight of crab in each landing, or portion of the landing that was weighed on that scale;

(D) The date and time the information is printed; and

(E) The name and ADF&G vessel registration number of the vessel making the delivery. The scale operator may

write this information on the scale printout in ink at the time of landing.

(4) *Inseason scale testing.* Scales used to weigh CR crab must be tested by RCR personnel when testing is requested by NMFS-staff or by NMFS-authorized personnel.

(i) *Inseason testing criteria.* To pass an inseason test, NMFS staff or NMFS-authorized personnel will verify that the scale display and printed information are clear and easily read under all conditions of normal operation, that weight values are visible on the display until the value is printed, and that the scale does not exceed the maximum permissible errors specified in the following table:

| Test load in scale divisions | Maximum error in scale divisions |
|------------------------------|----------------------------------|
| (A) 0–500 .....              | 1                                |
| (B) 501–2,000 .....          | 2                                |
| (C) 2,001–4,000 .....        | 3                                |
| (D) > 4,000 .....            | 4                                |

(ii) *Test weight requirements.* Scales must be tested with the amount and type of weight specified for each scale type in the following tables under paragraphs (f)(4)(ii)(A) through (f)(4)(ii)(D) of this section:

(A) Automatic hopper 0 to 150 kg (0 to 300 lb) capacity.

| Certified test weights                                     | Other test material |
|------------------------------------------------------------|---------------------|
| (1) Minimum weight or 10 kg (20 lb), whichever is greater. | Minimum.            |
| (2) Maximum .....                                          | Maximum.            |

(B) Automatic hopper > 150 kg (300 lb) capacity.

| Certified test weights                                              | Other test material |
|---------------------------------------------------------------------|---------------------|
| (1) Minimum weight or 10 kg (20 lb), whichever is greater.          | Minimum.            |
| (2) 25 percent of maximum of 150 kg (300 lb), whichever is greater. | Maximum.            |

(C) Platform, flatbed or hanging scales less than 150 kg (300 lb) capacity.

| Certified test weights  | Other test material |
|-------------------------|---------------------|
| (1) 10 kg (20 lb) ..... | Not Acceptable.     |
| (2) Midpoint .....      | Not Acceptable.     |
| (3) Maximum .....       | Not Acceptable.     |

(D) Platform, flatbed or hanging scales > 150 kg (300 lb) capacity.

| Certified test weights                                               | Other test material                                             |
|----------------------------------------------------------------------|-----------------------------------------------------------------|
| (1) 10 kg (20 lb) .....                                              | Not Acceptable.                                                 |
| (2) 12.5 percent of maximum or 75 kg (150 lb), whichever is greater. | 50 percent of maximum or 75 kg (150 lb), whichever is greater.  |
| (3) 25 percent of maximum or 150 kg (300 lb), whichever is greater.  | 75 percent of maximum or 150 kg (300 lb), whichever is greater. |

(iii) *Certified test weights.* An RCR must ensure that there are sufficient test weights on-site to test each scale used to weigh CR crab. Each test weight used for inseason scale testing must have its weight stamped on or otherwise permanently affixed to it. The weight of each test weight must be certified by a National Institute of Standards and Technology approved metrology laboratory every 2 years.

(iv) *Other test material.* When permitted in paragraph (f)(4)(ii) of this section, a scale may be tested with test material other than certified test weights.

(g) *Crab Monitoring Plans (CMP).* A CMP is a plan submitted by an RCR for each location or processing vessel where the RCR wishes to take deliveries of CR crab. The CMP must detail how the RCR will meet the catch monitoring standards detailed in paragraph (g)(5) of this section. An RCR that processes only CR crab harvested under a CPO or CPC IFQ permit is not required to prepare a CMP.

(1) *CMP Approval.* NMFS will approve a CMP if it meets all the performance standards specified in paragraph (g)(5) of this section. The location or vessel identified in the CMP may be inspected by NMFS prior to approval of the CMP to ensure that the location conforms to the elements addressed in the CMP. If NMFS disapproves a CMP, the plant owner or manager may resubmit a revised CMP or file an administrative appeal as set forth under the administrative appeals procedures described in § 679.43.

(2) *Inspection scheduling.* The time and place of a CMP inspection may be arranged by submitting a written request for an inspection to NMFS, Alaska Region. An inspection must be requested no less than 10 working days before the requested inspection date. NMFS staff will conduct CMP inspections in any port located in the United

States that can be reached by regularly scheduled commercial air service. The inspection request must include:

- (i) Name and signature of the person submitting the application and the date of the application;
- (ii) Address, telephone number, facsimile number, and e-mail address (if available) of the person submitting the application; and

- (iii) A proposed CMP detailing how the RCR will meet each of the standards in paragraph (g)(5) of this section.

(3) *Approval period.* NMFS will approve a CMP for 1 year if it meets the performance standards specified in paragraph (e)(2) of this section. An owner or manager must notify NMFS in writing if changes are made in plant operations or layout that do not conform to the CMP.

(4) *Changing an approved CMP.* An RCR may change an approved CMP by submitting a CMP addendum to NMFS. Depending on the nature and magnitude of the change requested, NMFS may require a CMP inspection as described in paragraph (g)(2) of this section. A CMP addendum must contain:

- (i) Name and signature of the person submitting the addendum;
- (ii) Address, telephone number, facsimile number and e-mail address (if available) of the person submitting the addendum; and
- (iii) A complete description of the proposed CMP change.

(5) *CMP standards—(i) Crab sorting and weighing requirements.* All crab, including crab parts and crab that are dead or otherwise unmarketable, delivered to the RCR must be sorted and weighed by species. The CMP must detail how and where crab are sorted and weighed.

- (ii) *Scales used for weighing crab.* The CMP must identify by serial number each scale used to weigh crab and describe the rationale for its use.

- (iii) *Scale testing procedures.* Scales identified in the CMP must be accurate within the limits specified in paragraph (f)(4)(i) of this section. For each scale identified in the CMP a testing plan must be developed that:

- (A) Describes the procedure the plant will use to test the scale;
- (B) Lists the test weights and equipment required to test the scale;

- (C) Lists where the test weights and equipment will be stored; and

- (D) Lists the names of the personnel responsible for conducting the scale testing.

- (iv) *Printed record.* An RCR must ensure that the scale produces a complete and accurate printed record of the weight of each species in a landing. All of the crab in a delivery must be weighed on a scale capable of producing a complete printed record as described in paragraph (e)(3) of this section. A printed record of each landing must be printed before the RCR submits a CR crab landing report.

- (v) *Observation area.* Each CMP must designate an observation area. The observation area is a location designated on the CMP where an individual may monitor the offloading and weighing of crab. The observation area must meet the following standards:

- (A) *Access to the observation area.* The observation area must be freely accessible to observer, NMFS staff or enforcement aides at any time during the effective period of the CMP.

- (B) *Monitoring the offloading and weighing of crab.* From the observation area, an individual must have an unobstructed view or otherwise be able to monitor the entire offload of crab between the first location where crab are removed from the boat and a location where all sorting has taken place and each species has been weighed.

- (C) *Other requirements.* The observation area must be sheltered from the weather and not exposed to unreasonable safety hazards.

- (vi) *Plant liaison.* The CMP must designate a plant liaison. The plant liaison is responsible for:

- (A) Orienting new observers, NMFS staff and enforcement aides to the plant;

- (B) Assisting in the resolution of observer concerns; and

- (C) Informing NMFS if changes must be made to the CMP.

- (vii) *Drawing to scale of delivery location.* The CMP must be accompanied by a drawing to scale of the delivery location or vessel showing:

- (A) Where and how crab are removed from the delivering vessel;
- (B) The observation area;

## Fishery Conservation and Management

## § 680.40

(C) The location of each scale used to weigh crab; and

(D) Each location where crab is sorted.

(viii) *Single geographic location.* All offload and weighing locations detailed in a CMP must be located on the same vessel or in the same geographic location. If a CMP describes facilities for the offloading of vessels at more than one location, it must be possible to see all locations simultaneously.

[70 FR 10241, Mar. 2, 2005, as amended at 70 FR 75421, Dec. 20, 2005]

### § 680.30 [Reserved]

### Subpart C—Quota Management Measures

#### § 680.40 Quota Share (QS), Processor QS (PQS), Individual Fishing Quota (IFQ), and Individual Processor Quota (IPQ) issuance.

(a) *Crab QS and Crab QS fisheries.* The Regional Administrator will issue crab QS for the crab QS fisheries defined in paragraph (a)(1) of this section. The Regional Administrator will annually issue IFQ based on the amount of QS a person holds. Crab harvested and retained in each crab QS fishery may be harvested and retained only by persons holding the appropriate crab IFQ for that crab QS fishery.

(1) *Allocations.* With the exception of the WAI golden king crab fishery, the Regional Administrator shall annually apportion 10 percent of the TAC specified by the State of Alaska for each of the fisheries described in Table 1 to this part to the Western Alaska CDQ program. Ten percent of the TAC in the Western Aleutian Islands golden king crab fishery will be allocated to the Adak community entity. The remaining TACs for the crab QS fisheries will be apportioned for use by QS holders in each fishery.

(2) *Official crab rationalization record.* The official crab rationalization record will be used to determine the amount of QS that is to be allocated for each crab QS fishery. The official crab rationalization record is presumed to be correct. An applicant for QS has the burden to prove otherwise. For the purposes of creating the official crab ra-

tionalization record the Regional Administrator will presume the following:

(i) An LLP license is presumed to have been used onboard the same vessel from which that LLP is derived, unless documentation is provided establishing otherwise.

(ii) If more than one person is claiming the same legal landings or legal processing activities, then each person eligible to receive QS or PQS based on those activities will receive an equal share of any resulting QS or PQS unless the applicants can provide written documentation establishing an alternative means for distributing the QS or PQS.

(iii) For the purposes of determining eligibility for CPO QS, a person is presumed to have processed BSAI crab in 1998 or 1999 if the vessel on which the applicant's LLP license is based processed such crab in those years.

(b) *QS sectors and regional designations—(1) General.* The Regional Administrator shall initially assign to qualified persons, crab QS that are specific to the crab QS fisheries defined in paragraph (a)(1) of this section. The crab QS amount issued will be based on legal landings made on vessels authorized to participate in those fisheries in four QS sectors:

(i) *Catcher Vessel Owner (CVO) QS* shall be initially issued to qualified persons defined in paragraph (b)(3) of this section based on legal landings of unprocessed crab.

(ii) *Catcher Vessel Crew (CVC) QS* shall be initially issued to qualified persons defined in paragraph (b)(3) of this section based on legal landings of unprocessed crab.

(iii) *Catcher/Processor Owner (CPO) QS* shall be initially issued to qualified persons defined in paragraph (b)(3) of this section based on legal landings of crab that were harvested and processed on the same vessel.

(iv) *Catcher/Processor Crew (CPC) QS* shall be initially issued to qualified persons defined in paragraph (b)(3) of this section based on legal landings of crab that were harvested and processed on the same vessel.

(2) *Regional designations.* (i) Regional designations apply to:

(A) *North QS* if the legal landings that gave rise to the QS for a crab QS

**§ 680.40**

**50 CFR Ch. VI (10–1–08 Edition)**

fishery were landed in the Bering Sea subarea north of 56°20' N. lat.; or

(B) *South QS* if the legal landings that gave rise to the QS for a crab QS fishery were not landed in the North Region, and all CVO QS allocated to the WAI crab QS fishery; or

(C) *West QS* for a portion of the QS allocated to the WAG crab QS fishery subject to the provisions under § 680.40(c)(4).

(ii) Regional designations do not apply (Undesignated QS) to:

(A) Crab QS for the EBT or WBT crab QS fishery;

(B) Crab QS for that portion of the WAG QS fishery not regionally designated for the West region;

(C) CVC QS;

(D) CPO QS unless that QS is transferred to the CVO QS sector, in which case the regional designation is made by the recipient of the resulting CVO QS at the time of transfer; and

(E) CPC QS.

(iii) The regional designations that apply to each of the crab QS fisheries are specified in the following table:

| Crab QS Fishery | North Region | South Region | West Region | Undesignated Region |
|-----------------|--------------|--------------|-------------|---------------------|
| (A) EAG         | X            | X            |             |                     |
| (B) WAG         |              |              | X           | X                   |
| (C) EBT         |              |              |             | X                   |
| (D) WBT         |              |              |             | X                   |
| (E) BSS         | X            | X            |             |                     |
| (F) BBR         | X            | X            |             |                     |
| (G) PIK         | X            | X            |             |                     |
| (H) SMB         | X            | X            |             |                     |
| (I) WAI         |              | X            |             |                     |

(iv) The regional designation ratios applied to QS and PQS for each crab QS fishery will be established based on the regional designations determined on August 1, 2005. QS or PQS issued after this date will be issued in the same ratio.

(3) *Qualified person* means, for the purposes of QS issuance, a person, as defined in § 679.2, who at the time of application for QS meets the following criteria for each of the QS sectors:

(i) *CVO QS*. Holds one or more permanent, fully transferable crab LLP licenses and is a citizen of the United States;

(ii) *CPO QS*. (A) Holds one or more permanent, fully transferable crab LLP licenses with a Catcher/Processor designation and is a citizen of the United States; and

(B) Harvested and processed at sea any crab species in any BSAI crab fishery during the years 1998 or 1999.

(iii) *CVC QS and CPC QS*. (A) Is an individual who is a citizen of the United

States, or his or her successor-in-interest if that individual is deceased;

(B) Has historical participation in the fishery demonstrated by being the individual named on a State of Alaska Interim Use Permit for a QS crab fishery and made at least one legal landing per year for any 3 eligibility years under that permit based on data from fish tickets maintained by the State of Alaska. The qualifying years are described in Column C of Table 7 to this part.

(C) Has recent participation in the fishery demonstrated by being the individual named on a State of Alaska Interim Use Permit for a QS crab fishery and made at least one legal landing under that permit in any 2 of 3 seasons based on data from fish tickets maintained by the State of Alaska. Those seasons are defined in Column D of Table 7 to this part; except that the requirement for recent participation does not apply if:

## Fishery Conservation and Management

§ 680.40

(1) The legal landings that qualify the individual for QS in the PIK crab QS fishery were made from a vessel that was less than 60 feet length overall; or

(2) If the individual who is otherwise eligible to receive an initial issuance of QS died while working as part of a harvesting crew in any U.S. commercial fishery.

(4) *Qualification for initial allocation of QS*—(i) *Qualifying year*. The qualifying years for each crab QS fishery are described in Column B of Table 7 to this part.

(ii) *Legal landing of crab* means, for the purpose of initial allocation of QS, crab harvested during the qualifying years specified in Column B of Table 7 to this part and landed in compliance with state and Federal permitting, landing, and reporting regulations in effect at the time of the landing.

(A) Legal landings exclude any deadloss, test fishing, fishing conducted under an experimental, exploratory, or scientific activity permit, or the fishery conducted under the Western Alaska CDQ Program.

(B) Landings made onboard a vessel that gave rise to a crab LLP license or made under the authority of an LLP license are non-severable from the crab LLP license until QS has been issued for those legal landings, except as provided for in paragraph (c)(2)(vii) of this section.

(C) Landings may only be used once for each QS sector for the purposes of allocating QS.

(D) Landings made from vessels which are used for purposes of receiving compensation through the BSAI Crab Capacity Reduction Program may not be used for the allocation of CVO QS or CPO QS.

(E) Legal landings for purposes of allocating QS for a crab QS fishery only include those landings that resulted in the issuance of an LLP license endorsed for that crab QS fishery, or landings that were made in that crab QS fishery under the authority of an LLP license endorsed for that crab QS fishery, except as provided for in paragraph (c)(2)(vii) of this section.

(iii) *Documentation*. Evidence of legal landings shall be limited to State of Alaska fish tickets.

(c) *Calculation of QS allocation*—(1) *General*. (i) For each permanent, fully transferable crab LLP license under which an applicant applies, CVO and CPO QS will be based on legal landings that resulted in the issuance of that license or from legal landings that were made under the authority of that license.

(ii) For each State of Alaska Interim Use Permit under which an applicant applies for CVC QS or CPC QS, the initial allocation of QS will be based on the legal landings that were made under the authority of that permit.

(2) *Computation for initial issuance of QS*. (i) Based on the official crab rationalization record the Regional Administrator shall derive the annual harvest denominator (AHD) that represents the amount of legally landed crab in each crab QS fishery in each qualifying year as established in Column B of Table 7 to this part.

(ii) The initial QS pool is described in Table 8 to this part.

(iii) A person's initial allocation of QS shall be based on a percentage of the legal landings for the applicable sector in each crab QS fishery:

(A) Associated with crab LLP licenses held by the applicant for CVO or CPO QS; or

(B) Authorized under a State of Alaska Interim Use Permit held by the applicant for CVC or CPC QS.

(iv) The Regional Administrator shall calculate the allocation of CVO and CPO QS for each crab QS fishery "f" based on each fully transferable LLP license "l" held by a qualified person by the following formulas:

(A) Sum legal landings for each qualifying year, as described in Column B of Table 7 to this part, and divide that amount by the AHD for that year as follows:

$$(\sigma \text{ legal landings}_{lf} / \text{AHD}_f) \times 100 = \text{Percentage of the AHD}_{lf}$$

(B) In those fisheries where only a subset of the qualifying years are applied, the Regional Administrator will use the years that yield the highest percentages of each AHD as calculated in paragraph (c)(2)(iv)(A) of this section.

(C) Sum the highest percentages of the AHD's for that license as calculated under paragraph (c)(2)(iv)(B) of this section and divide by the number in Column E of Table 7 to this part (Subset of Qualifying Years). This yields the Average Percentage as presented in the following equation:

$\sigma$  Percentages of the AHD<sub>if</sub>/Subset of Qualifying Years<sub>f</sub> = Average Percentage<sub>if</sub>

(D) Divide the Average percentage in paragraph (c)(2)(iv)(C) of this section for a license and fishery by the Sum of all Average Percentages for all licenses for that fishery as presented in the following equation:

Average Percentage<sub>if</sub>/σ Average Percentage<sub>sf</sub> = Percentage of the Total Percentages<sub>if</sub>

(E) Multiply the Percentage of the Total Percentages in paragraph (c)(2)(iv)(D) of this section by the Initial QS Pool as described in Table 8 to this part. This yields the unadjusted number of QS units derived from a license for a fishery.

(F) Multiply the unadjusted number of QS units in paragraph (c)(2)(iv)(E) of this section by 97 percent. This yields the number of QS units to be allocated.

(G) Determine the percentage of legal landings in the subset of qualifying years associated with a LLP license with a catcher/processor designation that were processed on that vessel and multiply the amount calculated in paragraph (c)(2)(iv)(F) of this section by this percentage. This yields the amount of CPO QS to be allocated.

(H) Determine the percentage of legal landings in the subset of qualifying years associated with a LLP license that were not processed on that vessel and multiply the amount calculated in paragraph (c)(2)(iv)(F) of this section by this percentage. This yields the amount of CVO QS to be allocated.

(I) Determine the percentage of legal landings associated with an LLP license in the subset of qualifying years that were delivered in each region as defined in paragraph (b)(2) of this section. The amount calculated in paragraph (c)(2)(iv)(H) of this section is multiplied by the percentage for each region.

(J) The percentage calculated in paragraph (c)(2)(iv)(I) of this section may be adjusted according to the provisions at paragraphs (c)(3) and (c)(4) of this section.

(v) As shown in the formulas under this paragraph (c)(2)(v), the allocation of CVC and CPC QS for each crab QS fishery “f” based on each State of Alaska Interim Use Permit “i” held by each qualified person shall be calculated by the Regional Administrator as follows:

(A) Sum legal landings for each qualifying year as described in Column B of Table 7 to this part and divide that amount by the AHD for that year using the following equation:

$(\sigma \text{ legal landings}_{if}/\text{AHD}_f) \times 100 = \text{Percentage of the AHD}_{if}$

(B) In those fisheries where only a subset of the qualifying years are applied, the Regional Administrator will use the years that yield the highest percentages of the AHD as calculated in paragraph (c)(2)(v)(A) of this section.

(C) Sum the highest percentages of the AHDs for that license calculated under paragraph (c)(2)(v)(B) of this section and divide by the number in Column E of Table 7 to this part (Subset of Qualifying Years). This yields the Average Percentage as presented in the following equation:

$\sigma$  Percentages of the AHD<sub>if</sub>/Subset of Qualifying Years<sub>f</sub> = Average Percentage<sub>if</sub>

(D) Divide the Average Percentage in paragraph (c)(2)(v)(C) of this section for a permit and fishery by the Sum of all Average Percentages for all permits for that fishery as presented in the following equation:

Average Percentage<sub>if</sub>/σ Average Percentage<sub>sf</sub> = Percentage of the Total Percentages<sub>if</sub>

(E) Multiply the Percentage of the Total Percentages in paragraph (c)(2)(v)(D) of this section by the Initial QS Pool as described in Table 8 to this part. This yields the unadjusted number of QS units derived from a permit for a fishery.

(F) Multiply the unadjusted number of QS units in paragraph (c)(2)(v)(E) of this section by 3 percent. This yields the number of QS units to be allocated.

(G) Determine the percentage of legal landings in the subset of qualifying years associated with a permit that were processed on that vessel and multiply the amount calculated in paragraph (c)(2)(v)(F) of this section by this percentage. This yields the amount of CPC QS to be allocated.

(H) Determine the percentage of legal landings in the subset of qualifying years associated with a permit that were not processed on that vessel and multiply the amount calculated in paragraph (c)(2)(v)(F) of this section by this percentage. This yields the amount of CVC QS to be allocated.

(I) Determine the percentage of legal landings associated with a permit in the subset of qualifying years that were delivered in each region as defined in paragraph (b)(2) of this section. The amount calculated in paragraph (c)(2)(v)(H) of this section is multiplied by the percentage for each region.

(J) The percentage calculated in paragraph (c)(2)(v)(I) of this section may be adjusted according to the provisions at paragraphs (c)(3) and (c)(4) of this section. The amount calculated in paragraph (c)(2)(v)(H) of this section is multiplied by the percentage for each region. These regional QS designations do not apply to CVC QS.

(vi) *Sunken vessel provisions.* (A) If a person applies for CVO QS or CPO QS based, in whole or in part, on the activities of a vessel that sank, the Regional Administrator shall presume landings for that vessel for the crab fishing years between the time of vessel loss and the replacement of the vessel under § 679.40(k)(5)(v). These presumed landings shall be equivalent to 50 percent of the average legal landings for the qualifying years established in Column B of Table 7 to this part unaffected by the sinking. If the vessel sank during a qualifying year, the legal landings for that year will not be used as the basis for presumed landings;

(B) If a person applies for CVO QS or CPO QS based, in whole or in part, on the activities of a vessel that sank and:

(1) The person who owned the vessel that sank would have been denied eligibility to replace a sunken vessel under the provisions of Public Law 106-554; and

(2) The vessel that sank was replaced with a newly constructed vessel, with that vessel under construction no later than June 10, 2002. For purposes of this section a vessel is considered under construction once the keel for that vessel has been laid; and

(3) The newly constructed vessel participated in any Bering Sea crab fishery no later than October 31, 2002;

(4) Then the Regional Administrator shall presume landings for that vessel for the crab fishing years between the time of vessel loss and the replacement of the vessel. These presumed landings shall be equivalent to 50 percent of the average legal landings for the qualifying years established in Column B of Table 7 to this part unaffected by the sinking. If the vessel sank during a qualifying year, the legal landings for that year will not be used as the basis for presumed landings.

(vii) *LLP license history exemption.* An applicant for CVO or CPO QS who:

(A) Deployed a vessel in a crab QS fishery under the authority of an interim or permanent fully transferable LLP license; and

(B) Prior to January 1, 2002, received by transfer, as authorized by NMFS, a permanent fully transferable LLP license for use in that crab QS fishery to insure that a vessel would remain authorized to participate in the fishery, may choose to use as the legal landings which are the basis for QS allocation on his or her application for crab QS or PQS either:

(1) The legal landings made on that vessel for that crab QS fishery prior to the transfer of the permanent fully transferable LLP license for use on that vessel; or

(2) The legal landings made on the vessel that gave rise to the permanent fully transferable LLP license and the legal landings made under the authority of that same LLP license in that crab QS fishery prior to January 1, 2002.

(C) If the history described in paragraph (c)(2)(vii)(B)(1) of this section is being used by another person for an allocation with an LLP license, then the allocation in paragraph (c)(2)(vii) will be based on the legal landings as described under paragraph (c)(2)(vii)(B)(2) of this section.

(3) *Adjustment of CVO and CVC QS allocation for North and South regional designation.* The Regional Administrator may adjust the regional designation of QS to ensure that it is initially allocated in the same proportion as the regional designation of PQS for that crab QS fishery. A person who would receive QS based on the legal landings in only one region, will receive QS with only that regional designation. A person who would receive QS with more than one regional designation for that crab QS fishery would have his or her QS holdings regionally adjusted on a pro rata basis as follows:

(i) Determine the ratio of the Initial PQS pool in the North and South regions.

(ii) Multiply the Initial QS pool by the ratio of North and South PQS. This will yield the target QS pool for each region.

(iii) Sum the QS for all persons who are eligible to receive North QS yielding the unadjusted North QS pool, and sum the QS for all persons who are eligible to receive South QS yielding the unadjusted South QS pool.

(iv) To calculate the amount of QS available for adjustment, subtract the amount of QS for persons receiving North only QS from the unadjusted North QS pool and subtract the amount of QS for persons receiving South only QS from the unadjusted South QS pool, as presented in the following equations:

(A) Unadj. North QS – North QS only = North QS for [North & South] QS holders.

(B) Unadj. South QS – South QS only = South QS for [North & South] QS holders.

(v) Determine which region becomes the gaining region if the target QS pool is greater than the unadjusted QS pool.

(vi) Subtract the gaining region unadjusted QS pool from the gaining region target QS pool to calculate the number of QS units that need to be applied to the gaining region. This amount is the Adjustment Amount as presented in the following equation:

Unadj. gaining region QS – Target gaining region QS pool = Adjustment Amount

(vii) Divide the Adjustment Amount by the unadjusted losing region QS pool for North and South QS holders. This yields the regional adjustment factor (RAF) for each person as presented in the following equation:

Adj. Amount/unadjusted losing region QS pool for [North & South] QS holders = RAF

(viii) For each person (p) who holds both North and South Region QS, the QS adjustment (QS Adj. (p)) to that person's Unadjusted losing region QS is expressed in the following equation as:

QS adj. p = Unadjusted losing region QS p × RAF

(ix) The QS adjustment for person (p) is made by subtracting the QS adjustment from that person's unadjusted losing region QS amount and added to that person's unadjusted gaining region QS. These adjustments will yield the regional adjustment QS amounts for that person.

(4) *Regional designation of Western Aleutian Islands golden king crab.* Fifty percent of the CVO QS that is issued in the WAG crab QS fishery will be initially issued with a West regional designation. The West regional designation applies to QS for delivery west of 174° W. longitude. The remaining 50 percent of the CVO QS initially issued for this fishery is not subject to regional designation (Undesignated QS). A person (p) who would receive QS based on the legal landings in only one region will receive QS with only that regional designation. A person who would receive QS with more than one regional designation for that crab QS fishery would have his or her QS holdings regionally adjusted on a pro rata basis as follows:

(i) The West QS pool is equal to 50 percent of the initial QS pool.

(ii) The Undesignated QS pool is equal to 50 percent of the initial QS pool.

(iii) Sum the QS for all persons who are eligible to receive West QS yielding the unadjusted West QS pool, and sum the QS for all persons who are eligible to receive undesignated QS yielding the unadjusted undesignated QS pool.

(iv) To calculate the amount of QS available for adjustment, subtract the

## Fishery Conservation and Management

§ 680.40

amount of QS for persons receiving West only QS from the unadjusted West QS pool and subtract the amount of QS for persons receiving undesignated only QS from the unadjusted undesignated QS pool, as presented in the following equation:

(A)  $\text{Unadj. West QS} - \text{West QS only} = \text{West QS for [West \& Undesignated] QS holders.}$

(B)  $\text{Unadj. Undesignated QS} - \text{Undesignated QS only} = \text{Undesignated QS for [West \& Undesignated] QS holders.}$

(v) Subtract the gaining region Unadjusted QS pool from the gaining region Target QS pool to calculate the number of QS units that will need to be applied to the gaining region. This amount is the Adjustment Amount as presented in the following equation:

$\text{Target gaining region QS pool} - \text{unadjusted region QS} = \text{Adjustment Amount}$

(vi) Divide the Adjustment Amount by the unadjusted losing region QS pool for West and Undesignated QS holders. This yields the regional adjustment factor (RAF) for each person as presented in the following equation:

$\text{Adj. Amount/unadjusted losing region QS pool for West \& Undesignated QS holders} = \text{RAF}$

(vii) For each person (p) who holds both unadjusted West and Undesignated Region QS, the QS adjustment (QS Adj. p) to that person's Unadjusted West QS is expressed in the following equation as:

$\text{QS adj. p} = \text{Unadjusted West QS p} \times \text{RAF}$

(viii) The QS adjustment for person (p) is made by subtracting the QS adjustment for that person's unadjusted losing region QS amount and subtracted from that person's unadjusted gaining region QS. These adjustments will yield the regional adjustment QS amounts for that person.

(5) *Issuance of converted CPO QS.* (i) For each crab fishing year, the Regional Administrator may issue converted CPO QS for the BBR or BSS crab QS fishery with a North Region designation to an entity described in paragraph (c)(5)(ii), (c)(5)(iii), or (c)(5)(iv) of this section if NMFS has

approved an application for converted CPO QS/IFQ for that crab fishing year.

(ii) Entity A is comprised only of Yardarm Knot, Inc. (NMFS ID # 675).

(iii) Entity B is comprised only of Blue Dutch, LLC (NMFS ID # 3163).

(iv) Entity C is comprised only of Trident Seafoods, Inc. (NMFS ID # 8184).

(v) NMFS will issue Entity A, B, or C, described in paragraphs (c)(5)(ii) through (c)(5)(iv) of this section, one unit of converted CPO for each unit of CVO QS and 0.9 units of PQS indicated in an approved application for converted CPO QS/IFQ.

(vi) For each crab fishing year, the Regional Administrator will not issue CPO QS for the BBR or BSS crab QS fishery:

(A) To Entity A described in paragraph (c)(5)(ii) of this section that is greater than the amount of converted CPO QS that may be derived from the amount of PQS units with a North Region designation initially issued by NMFS to Yardarm Knot, Inc. (NMFS ID # 675), and any affiliates of Yardarm Knot, Inc., as listed on an annual application for converted CPO QS/IFQ for that crab fishing year;

(B) To Entity B described in paragraph (c)(5)(iii) of this section that is greater than the amount of converted CPO QS that may be derived from the amount of PQS units with a North Region designation initially issued by NMFS to Blue Dutch, LLC, (NMFS ID # 3163) under paragraph (e)(3) of this section and any affiliates of Blue Dutch, LLC, as listed on an annual application for annual application for converted CPO QS/IFQ for that crab fishing year; and

(C) To Entity C described in paragraph (c)(5)(iv) of this section that is greater than the amount of converted CPO QS that may be derived from the amount of CVO QS units with a North Region designation initially issued by NMFS to Trident Seafoods, Inc. (NMFS ID # 8184), and any affiliates of Trident Seafoods, Inc., as listed on an annual application for converted CPO QS/IFQ for that crab fishing year;

(vii) CPO IFQ derived from converted CPO QS may be issued to a crab harvesting cooperative only if the entity described in paragraph (c)(5)(ii),

(c)(5)(iii), or (c)(5)(iv) of this section holding the converted CPO QS is a member of that crab harvesting cooperative.

(6) *Offloading requirements for CPO IFQ derived from converted CPO QS.* Any crab harvested under a CPO IFQ permit derived from converted CPO QS must be offloaded in the Bering Sea subarea north of 56°20' N. lat.

(d) *Crab PQS and Crab PQS Fisheries—*

(1) *General.* The Regional Administrator shall initially assign to qualified persons defined in paragraph (d)(3) of this section crab PQS specific to crab QS fisheries defined in paragraph (a)(1) of this section. The crab PQS amount issued will be based on total legal processing of crab made in those crab QS fisheries. PQS shall yield annual IPQ as defined under paragraph (j) of this section.

(2) *Regional designations.* For each crab QS fishery, PQS shall be initially regionally designated based on the legal processing that gave rise to the PQS as follows:

(i) *North PQS* if the processing that gave rise to the PQS for a crab QS fishery occurred in the Bering Sea subarea north of 56°20' N. lat.; or

(ii) *South PQS* if the processing that gave rise the PQS for a crab QS fishery did not occur in the North Region, and PQS allocated to the WAI crab QS fishery; or

(iii) *West PQS* for a portion of the PQS allocated to the WAG crab QS fishery subject to the provisions under paragraph (e)(2) of this section; or

(iv) *Undesignated.* Regional designations do not apply to:

(A) That portion of the WAG crab QS fishery that is not regionally designated as West Region PQS; and

(B) The EBT or WBT crab QS fishery.

(v) The specific regional designations that apply to PQS in each of the crab QS fisheries are described in paragraph (b)(2)(iii) of this section.

(3) *Qualified person,* for the purposes of PQS issuance, means a person, as defined at §679.2, who at the time of application for PQS is a U.S. citizen, or a U.S. corporation, partnership, association, or other entity, and who:

(i) Legally processed any crab QS species established in paragraph (a)(1) of this section during 1998 or 1999 as

demonstrated on the official crab rationalization record; or

(ii) Did not legally process any crab QS species during 1998 or 1999 according to the official crab rationalization record, but who:

(A) Processed BSS crab QS species in each crab season for that fishery during the period from 1988 through 1997; and

(B) From January 1, 1996, through June 10, 2002, invested in a processing facility, processing equipment, or a vessel for use in processing operations, including any improvements made to existing facilities with a total expenditure in excess of \$1,000,000; or

(C) Is the person to whom the history of legal processing of crab has been transferred by the express terms of a written contract that clearly and unambiguously provides that such legal processing of crab has been transferred. This provision would apply only if that applicant for PQS:

(1) Legally processed any crab QS species established in paragraph (a)(1) of this section during 1998 or 1999, as demonstrated on the official crab rationalization record; or

(2) Received history of crab processing that was legally processed during 1998 or 1999, as demonstrated on the official crab rationalization record.

(iii) Qualified persons, or their successors-in-interest, must exist at the time of application for PQS.

(iv) A former partner of a dissolved partnership or a former shareholder of a dissolved corporation who would otherwise be a qualified person may apply for PQS in proportion to his or her ownership interest in the dissolved partnership or corporation.

(v) A person who has acquired a processing corporation, partnership, or other entity that has a history of legal processing of crab is presumed to have received by transfer all of that history of legal processing of crab unless a clear and unambiguous written contract establishes otherwise.

(4) *Qualification for initial allocation of PQS—*(i) *Years.* The qualifying years for each crab QS fishery are designated in Table 9 to this part.

## Fishery Conservation and Management

§ 680.40

(ii) *Ownership interest.* Documentation of ownership interest in a dissolved partnership or corporation, association, or other entity shall be limited to corporate documents (*e.g.*, articles of incorporation) or notarized statements signed by each former partner, shareholder or director, and specifying their proportions of interest.

(iii) *Legal processing of crab* means, for the purpose of initial allocation of PQS, raw crab pounds processed in the crab QS fisheries designated under paragraph (a)(1) of this section in compliance with state and Federal permitting, landing, and reporting regulations in effect at the time of the landing. Legal processing excludes any deadloss, processing of crab harvested in a test fishery or under a scientific, education, exploratory, or experimental permit, or under the Western Alaska CDQ Program.

(iv) *Documentation.* Evidence of legal processing shall be limited to State of Alaska fish tickets, except that:

(A) NMFS may use information from a State of Alaska Commercial Operators Annual Report, State of Alaska fishery tax records, or evidence of direct payment from a receiver of crab to a harvester if that information indicates that the buyer of crab differs from the receiver indicated on State of Alaska fish ticket records; however:

(B) Information on State of Alaska fish tickets shall be presumed to be correct for the purpose of determining evidence of legal processing of crab. An applicant will have the burden of proving the validity of information submitted in an application that is inconsistent with the information on the State of Alaska fish ticket.

(e) *Calculation of PQS allocation—(1) Computation for initial issuance of PQS.*

(i) The Regional Administrator shall establish the Total Processing Denominator (TPD) which represents the amount of legally processed raw crab pounds in each crab QS fishery in all qualifying years.

(ii) For each crab QS fishery, the percentage of the initial PQS pool that will be distributed to each qualified person shall be based on their percentage of the TPD according to the following procedure:

(A) Sum the raw crab pounds purchased for each person for all qualifying years.

(B) Divide the sum calculated in paragraph (e)(1)(ii)(A) of this section by the TPD. Multiply by 100. This yields a person's percentage of the TPD.

(C) Sum the TPD percentages of all persons.

(D) Divide the percentage for a person calculated in paragraph (e)(1)(ii)(B) of this section by the sum calculated in paragraph (e)(1)(ii)(C) of this section for all persons. This yields a person's percentage of the TPD.

(E) Multiply the amount calculated in paragraph (e)(1)(ii)(D) of this section by the PQS pool for that crab QS fishery as that amount is defined in Table 8 to this part.

(F) Determine the percentages of legally processed crab that were processed in each region. The percentages calculated in paragraph (e)(1)(ii)(E) of this section are multiplied by the amount determined within each regional designation. Regional designations will apply to that PQS according to the provisions established in paragraphs (d)(2) and (e)(2) of this section.

(2) *Regional designation of Western Aleutian Islands golden king crab.* (i) Fifty percent of the PQS that is issued in the WAG crab QS fishery will be issued with a West regional designation. The West regional designation applies to PQS for processing west of 174° N. long. The remaining 50 percent of the PQS issued for this fishery is Undesignated region PQS.

(ii) A person will receive only West PQS if, at the time of application, that person owns a crab processing facility that is located in the West region. A person will receive West region and Undesignated Region PQS if, at the time of application, that person does not own a crab processing facility located in the West region. Expressed algebraically, for any person (p) allocated both West region PQS and undesignated region PQS the formula is as follows:

(A)  $PQS_{West} = PQS \times 0.50$

(B)  $PQS_{Und.} = PQS \times 0.50$

(C)  $PQS_{West} \text{ for } PQS_{West} \text{ \& Und. holders} = PQS_{West} - PQS_{West \text{ only}}$

(D)  $PQS_{West} \text{ for Person}_p \text{ West \& Und.} = PQS_p \times PQS_{West} \text{ for } PQS_{West \& Und.} \text{ holders} / (PQS_{West} \text{ for } PQS_{West \& Und.} \text{ holders} + PQS_{Und.})$

(E)  $PQS_{Und.} \text{ for Person}_p = PQS_p - PQS_{West} \text{ for Person}_p$

(iii) For purposes of the allocation of PQS in the WAG crab fishery:

(A) Ownership of a processing facility is defined as:

(1) A sole proprietor; or

(2) A relationship between two or more entities in which a person directly or indirectly owns a 10 percent or greater interest in another, or a third entity directly or indirectly owns a 10 percent or greater interest in both.

(B) A processing facility is a shore-side crab processor or a stationary floating crab processor.

(3) *PQS issued to Blue Dutch, LLC.* (i) Pursuant to Public Law 109–241, NMFS issued 3,015,229 units of PQS for the BBR crab QS fishery and 7,516,253 units of PQS for the BSS crab QS fishery.

(ii) PQS units issued to Blue Dutch, LLC, under paragraph (e)(3)(i) of this section were assigned a regional designation according to the procedures established in paragraph (b)(2)(iv) of this section.

(iii) PQS units issued to Blue Dutch, LLC, under paragraph (e)(3)(i) of this section may not be transferred to any other person.

(f) *Application for crab QS or PQS process—(1) General.* The Regional Administrator will issue QS and/or PQS to an applicant if a complete application for crab QS or PQS is submitted by or on behalf of the applicant during the specified application period, and if the applicant meets all criteria for eligibility as specified at paragraphs (b)(3) and (d)(3) of this section.

(i) The Regional Administrator will send application materials to the person identified by NMFS as an eligible applicant based on the official crab rationalization record. An application form may also be obtained from the Internet or requested from the Regional Administrator.

(ii) An application for crab QS or PQS may be submitted by mail to NMFS, Alaska Region, Restricted Access Management, P.O. Box 21668, Juneau, AK 99802, by facsimile (907–586–7354), or by hand delivery to the NMFS,

709 West 9th Street, room 713, Juneau, AK.

(iii) An application that is postmarked, faxed, or hand delivered after the ending date for the application period for the Crab QS Program specified in the FEDERAL REGISTER will be denied.

(2) *Contents of application.* A complete application for crab QS or PQS must be signed by the applicant, or the individual representing the applicant, and include the following, as applicable:

(i) *Type of QS or PQS for which the person is applying.* Select the type of QS or PQS for which the applicant is applying.

(A) If applying for CVO QS or CPO QS, submit information required in paragraphs (f)(2)(ii) through (f)(2)(iv) of this section;

(B) If applying for CVC QS or CPC QS, submit information required in paragraphs (f)(2)(ii), (f)(2)(iii) and (f)(2)(v) of this section;

(C) If applying for PQS, submit information required in paragraphs (f)(2)(ii), (f)(2)(iii) and (f)(2)(vi) of this section.

(ii) *Applicant information.* (A) Enter the applicant's name, NMFS person ID (if applicable), tax ID or social security number (required), permanent business mailing address, business telephone number, facsimile number, and e-mail (if available);

(B) Indicate (YES or NO) whether applicant is a U.S. citizen; if YES, enter his or her date of birth. You must be a U.S. citizen or U.S. corporation, partnership, or other business entity to obtain CVO, CPO, CVC, or CPC QS.

(C) Indicate (YES or NO) whether applicant is a U.S. corporation, partnership, association, or other business entity; if YES, enter the date of incorporation;

(D) Indicate (YES or NO) whether applicant is deceased; if YES, enter date of death. A copy of the death certificate must be attached to the application;

(E) Indicate (YES or NO) whether applicant described in paragraph (f)(2)(ii)(C) of this section is no longer in existence; if YES, enter date of dissolution and attach evidence of dissolution to the application;

## Fishery Conservation and Management

§ 680.40

(iii) *Fishery and QS/PQS type.* Indicate the crab QS fishery and type of QS/PQS for which applying.

(iv) *CVO or CPO QS.* (A) For vessels whose catch histories are being claimed for purposes of the crab QS program, enter the following information: name of the vessel, ADF&G vessel registration number, USCG documentation number, moratorium crab permit number(s), and crab LLP license number(s) held by the applicant and used on that vessel, qualifying years or seasons fished by fishery, and dates during which those permits were used on that vessel.

(B) Indicate (YES or NO) whether applicant is applying for QS for any crab QS fishery for which the applicant purchased an LLP license prior to January 1, 2002, in order to remain in that fishery. If YES, include LLP crab license number, and the vessel's name, ADF&G vessel registration number, and USCG documentation number.

(C) Indicate (YES or NO) whether QS is being claimed based on the fishing history of a vessel that was lost or destroyed. If YES, include the name, ADF&G registration number, and USCG documentation number of the lost or destroyed vessel, the date the vessel was lost or destroyed, and evidence of the loss or destruction.

(D) Indicate (YES or NO) whether the lost or destroyed vessel described in paragraph (f)(2)(iv)(C) of this section was replaced with a newly constructed vessel. If YES, include the name, ADF&G vessel registration number, and USCG documentation number of the replacement vessel, date of vessel construction, and date vessel entered fishery(ies). Indicate (YES or NO) if the replacement vessel participated in a Bering Sea crab fishery by October 31, 2002. If YES, provide documentation of the replacement vessel's participation by October 31, 2002, in a Bering Sea crab fishery.

(E) If the applicant is applying for CPO QS, indicate (YES or NO) whether the applicant processed crab from any of the crab QS fisheries listed on Table 1 to this part on board a vessel authorized by one of the LLP licenses listed in paragraph (f)(2)(iv)(A) of this section in 1998 or 1999. If YES, enter information for the processed crab, including

harvest area, date of landing, and crab species.

(v) *CVC or CPC QS.* (A) Indicate (YES or NO) whether applicant had at least one landing in three of the qualifying years for each crab species for which the applicant is applying for QS (see Table 7 to this part).

(B) Indicate (YES or NO) whether applicant has recent participation in a crab QS fishery as defined in Table 7 to this part.

(C) If the answer to paragraph (f)(2)(v)(A) or paragraph (f)(2)(v)(B) of this section is YES, enter State of Alaska Interim Use Permit number and the name, ADF&G vessel registration number, and USCG documentation number of vessel on which harvesting occurred. Select the qualifying years or seasons fished by QS fishery, and the dates during which those permits were used on that vessel;

(D) Indicate (YES or NO) whether a person is applying as the successor-in-interest to an eligible applicant. If YES, attach to the application documentation proving the person's status as a successor-in-interest and evidence of the death of the eligible applicant.

(vi) *Processor QS.* (A) Indicate (YES or NO) whether applicant processed any of the crab species included in the Crab QS program (see Table 1 to this part) in 1998 or 1999.

(B) If answer to paragraph (f)(2)(vi)(A) of this section is YES, enter the facility name and ADF&G processor code for each processing facility where crab, from any of the crab QS fisheries listed in Table 1 of this part, were processed and the qualifying years or seasons by fishery for which applicant is claiming eligibility for PQS.

(C) If answer to paragraph (f)(2)(vi)(A) of this section is NO, indicate (YES or NO) whether applicant is claiming eligibility under hardship provisions;

(D) If answer to paragraph (f)(2)(vi)(C) of this section is YES, both of the following provisions must apply to a processor to obtain hardship provisions. Attach documentation of the following circumstances:

(I) Applicant processed QS crab during 1998 or 1999, or processed BSS crab

## § 680.40

## 50 CFR Ch. VI (10–1–08 Edition)

in each season between 1988 and 1997; and

(2) Applicant invested a total expenditure in excess of \$1,000,000 for any processing facility, processing equipment, or a vessel for use in processing operations, including any improvements made to existing facilities from January 1, 1996, to June 10, 2002;

(E) Indicate (YES or NO) whether applicant has entered into a Community Right of First Refusal (ROFR) contract consistent with paragraph (f)(3) of this section pertaining to the transfer of any PQS and/or IPQ subject to ROFR and issued as a result of this application.

(F) Contract that the legal processing history and rights to apply for and receive PQS based on that legal processing history have been transferred or retained; and

(G) Any other information deemed necessary by the Regional Administrator.

(H) If applicant is applying to receive PQS for the WAG crab QS fishery, indicate (YES or NO) whether applicant owns a crab processing facility in the West region (*see* paragraph (b)(2) (iii) of this section).

(vii) *Applicant signature and certification.* The applicant must sign and date the application certifying that all information is true, correct, and complete to the best of his/her knowledge and belief. If the application is completed by an authorized representative, then authorization must accompany the application.

(3) *Notice and contract provisions for community right of first refusal (ROFR) for initial issuance of PQS.* (i) To be complete, an application for PQS from a person based on legal processing that occurred in an ECC, other than Adak, must also include an affidavit signed by the applicant stating that notice has been provided to the ECC of the applicant's intent to apply for PQS. If the ECC designates an entity to represent it in the exercise of ROFR under § 680.41(1), then the application also must include an affidavit of completion of a contract for ROFR that includes the terms enacted under section 313(j) of the Magnuson-Stevens Act. The affidavit must be signed by the applicant for initial allocation of PQS and the

ECC entity designated under § 680.41(1)(2). A list of contract terms is available from the NMFS Alaska Region Web site at <http://www.fakr.noaa.gov>. A copy of these contract terms also will be made available by mail or facsimile by contacting the Regional Administrator at 907-586-7221.

(ii) To be complete, an application for crab QS or PQS from a person based on legal processing that occurred in the GOA north of a line at 56°20' N. lat. must also include an affidavit signed by the applicant stating that notice has been provided to the City of Kodiak and Kodiak Island Borough of the applicant's intent to apply for PQS. If the City of Kodiak and Kodiak Island Borough designate an entity to represent it in the exercise of ROFR under § 680.41(1), then the application also must include an affidavit of completion of a contract for ROFR that includes the terms enacted under the Consolidated Appropriations Act of 2004 (Pub. L. 108-199) and that is signed by the applicant for initial allocation of PQS and the ECC entity designated by the City of Kodiak and Kodiak Island Borough under § 680.41(1)(2). A list of contract terms is available from the NMFS Alaska Region Web site at <http://www.fakr.noaa.gov>. A copy of these contract terms also will be made available by mail or facsimile by contacting the Regional Administrator at (907) 586-7221.

(4) *Application evaluation.* The Regional Administrator will evaluate Applications for Crab QS or PQS submitted during the specified application period and compare all claims in an application with the information in the official crab rationalization record. Claims in an application that are consistent with information in the official crab rationalization record will be accepted by the Regional Administrator. Inconsistent claims in the Applications for Crab QS or PQS, unless verified by documentation, will not be accepted. An applicant who submits inconsistent claims, or an applicant who fails to submit the information specified in paragraph (f)(2) of this section, will be provided a single 30-day evidentiary period as provided in paragraph (f)(5) of

this section to submit the specified information, submit evidence to verify his or her inconsistent claims, or submit a revised application with claims consistent with information in the official crab rationalization record. An applicant who submits claims that are inconsistent with information in the official crab rationalization record has the burden of proving that the submitted claims are correct.

(5) *Additional information or evidence.* The Regional Administrator will evaluate additional information or evidence to support an applicant's inconsistent claims submitted prior to or within the 30-day evidentiary period. If the Regional Administrator determines that the additional information or evidence meets the applicant's burden of proving that the inconsistent claims in his or her application are correct, the official crab rationalization record will be amended and the information will be used in determining whether the applicant is eligible for QS or PQS. However, if the Regional Administrator determines that the additional information or evidence does not meet the applicant's burden of proving that the inconsistent claims in his or her application are correct, the applicant will be notified by an IAD, that the applicant did not meet the burden of proof to change the information in the official crab rationalization record.

(6) *30-day evidentiary period.* The Regional Administrator will specify by letter a single 30-day evidentiary period during which an applicant may provide additional information or evidence to support the claims made in his or her application, or to submit a revised application with claims consistent with information in the official crab rationalization record, if the Regional Administrator determines that the applicant did not meet the burden of proving that the information on the application is correct through evidence provided with the application. Also, an applicant who fails to submit information as specified in paragraphs (b)(3)(iii) and (b)(3)(iv) of this section will have 30 days to provide that information. An applicant will be limited to one 30-day evidentiary period per application. Additional information or evidence, or a revised application, re-

ceived after the 30-day evidentiary period specified in the letter has expired will not be considered for purposes of the IAD.

(7) *Right of First Refusal (ROFR) contract provisions.* If an ECC designates an entity to represent it in the exercise of ROFR under §680.41(1), then the Regional Administrator will not prepare an IAD on unverified claims or issue PQS until an affidavit is received from the applicant confirming the completion of a civil contract for ROFR as required under section 313(j) of the Magnuson-Stevens Act.

(8) *Initial administrative determinations (IAD).* The Regional Administrator will prepare and send an IAD to the applicant following the expiration of the 30-day evidentiary period if the Regional Administrator determines that the information or evidence provided by the applicant fails to support the applicant's claims and is insufficient to rebut the presumption that the official crab rationalization record is correct, or if the additional information, evidence, or revised application is not provided within the time period specified in the letter that notifies the applicant of his or her 30-day evidentiary period. The IAD will indicate the deficiencies in the application, including any deficiencies with the information, the evidence submitted in support of the information, or the revised application. The IAD will also indicate which claims cannot be approved based on the available information or evidence. An applicant who receives an IAD may appeal pursuant to §679.43. An applicant who avails himself or herself of the opportunity to appeal an IAD will not receive crab QS or PQS until after the final resolution of that appeal in the applicant's favor.

(g) *Annual allocation of IFQ.* IFQ is assigned based on the underlying QS. The Regional Administrator shall assign crab IFQs to each person who holds QS and submits a complete annual application for crab IFQ/IPQ permit as described under §680.4. IFQ will be assigned to a crab QS fishery with the appropriate regional designation, QS sector, and IFQ class. This amount will represent the maximum amount of crab that may be harvested from the specified crab QS fishery by the person

to whom it is assigned during the specified crab fishing year, unless the IFQ assignment is changed by the Regional Administrator because of an approved transfer, revoked, suspended, or modified under 15 CFR part 904.

(h) *Calculation of annual IFQ allocation*—(1) *General*. The annual allocation of IFQ to any person (p) in any crab QS fishery (f) will be based on the TAC of crab for that crab QS fishery less the allocation to the Western Alaska CDQ Program (“CDQ Reserve”) and Western Aleutian Islands golden king crab fishery. Expressed algebraically, the annual IFQ allocation formula is as follows:

(i)  $IFQ_{TAC_f} = TAC_f - (CDQ\ reserve_f + Allocation\ for\ the\ Western\ Aleutian\ Island\ golden\ king\ crab\ fishery)$

(ii)  $IFQ_{pf} = IFQ_{TAC_f} \times (QS_{pf} / QS_{pool_f})$ .

(2) *Class A/B IFQ*. (i) QS shall yield Class A or Class B IFQ if:

(A) Initially assigned to the CVO QS sector; or

(B) Transferred to the CVO QS sector from the CPO QS sector.

(ii) The Class A/B IFQ TAC is the portion of the TAC assigned as Class A/B IFQ under paragraphs (h)(2)(i)(A) and (B) of this section.

(3) *Class A/B IFQ issuance ratio*. (i) Class A and Class B IFQ shall be assigned on an annual basis such that the total amount of Class A and B IFQ assigned in a crab fishing year in each crab QS fishery for each region will be in a ratio of 90 percent Class A IFQ and 10 percent Class B IFQ.

(ii) The Regional Administrator will determine the amount of Class A and Class B IFQ that is assigned to each QS holder. The Class A IFQ is calculated by allocating 90 percent of the Class A/B IFQ TAC (TAC a) to Class A IFQ. A portion of the IFQ TAC a is allocated to persons eligible to hold only Class A IFQ (TAC a only), the remaining IFQ TAC (TAC r) is allocated for harvest by a person (p) eligible to receive both Class A IFQ and Class B IFQ. Expressed algebraically, for an individual person (p) eligible to hold both Class A and Class B IFQ the annual allocation formula is as follows:

(A)  $TAC_a = Class\ A/B\ IFQ\ TAC \times 0.90$

(B)  $TAC_r = TAC_a - TAC_{a\ only}$

(C)  $IFQ_{ap} = TAC_r / (Class\ A/B\ IFQ\ TAC - TAC_{a\ only}) \times IFQ_p$

(D)  $IFQ_{bp} = IFQ_p - IFQ_{ap}$

(4) *Class A IFQ and Class B IFQ issuance to IPQ holders*. If a person holds IPQ and IFQ, then that person will be issued Class A IFQ only for the amount of IFQ equal to the amount of IPQ held by that person. Any remaining IFQ held by that person will be issued as Class A and Class B IFQ in a ratio so that the total Class A and Class B IFQ issued in that crab QS fishery is issued as 90 percent Class A IFQ and 10 percent Class B IFQ;

(5) *Class A IFQ and Class B IFQ issuance to persons affiliated with IPQ holders*. If an IPQ holder holds IPQ in excess of the amount of IFQ held by that person, all IFQ holders affiliated with that IPQ holder will receive only Class A IFQ in proportion to the amount of IFQ held by those affiliated persons relative to that amount of IPQ held by that IPQ holder. Any remaining IFQ held by persons affiliated with the IPQ holder will be issued as Class A and Class B IFQ in a ratio so that the total Class A and Class B IFQ issued in that fishery is issued as 90 percent Class A IFQ and 10 percent Class B IFQ.

(6) *CVC IFQ*. (i) QS that is initially allocated to the CVC QS sector shall yield CVC IFQ.

(ii) CVC IFQ is not subject to regional designation.

(7) *CPO IFQ*. (i) QS that is initially allocated to the CPO QS sector shall yield CPO IFQ.

(ii) CPO IFQ is not subject to regional designation.

(8) *CPC IFQ*. (i) QS that is initially allocated to the CPC QS sector shall yield CPC IFQ.

(ii) CPC IFQ is not subject to regional designation.

(9) *QS amounts for IFQ calculation*. For purposes of calculating IFQ for any crab fishing year, the amount of a person's QS and the amount of the QS pool for any crab QS fishery will be the amounts on record with the Alaska Region, NMFS, at the time of calculation.

(10) *Class A IFQ*. (i) The amount of Class A IFQ issued in excess of the IPQ issuance limits for the BSS or BBR crab QS fisheries, as described in paragraph (j)(3) of this section, will be issued to all Class A IFQ recipients on a pro rata basis in proportion to the

## Fishery Conservation and Management

§ 680.41

amount of Class A IFQ held by each person.

(ii) Any amount of Class A IFQ that is issued in excess of the IPQ issuance limits for the BSS or BBR crab QS fisheries, as described in paragraph (j)(3) of this section, is not required to be delivered to an RCR with unused IPQ.

(i) *Annual allocation of IPQ.* IPQ is assigned based on the underlying PQS. The Regional Administrator shall assign crab IPQs to each person who submits a complete annual application for crab IFQ/IPQ permit as described under § 680.4. Each assigned IPQ will be specific to a crab QS fishery with the appropriate regional designation. This amount will represent the maximum amount of crab that may be received from the specified crab QS fishery by the person to whom it is assigned during the specified crab fishing year, unless the IPQ assignment is changed by the Regional Administrator because of an approved transfer, revoked, suspended, or modified under 15 CFR part 904.

(j) *Calculation of annual IPQ allocation*—(1) *General.* The annual allocation of TAC to PQS and the resulting IPQ in any crab QS fishery (f) is the Class A IFQ TAC (TAC<sub>a</sub>). A person's annual IPQ is based on the amount of PQS held by a person (PQS<sub>p</sub>) divided by the PQS pool for that crab QS fishery for all PQS holders (PQS pool f). Expressed algebraically, the annual IPQ allocation formula is as follows:

$$\text{IPQ}_{\text{pf}} = \text{TAC}_{\text{ar}} \times \text{PQS}_{\text{pf}} / \text{PQS pool}_{\text{f}}$$

(2) *PQS amounts for IPQ calculation.* For purposes of calculating IPQs for any crab fishing year, the amount of a person's PQS and the amount of the PQS pool for any crab PQS fishery will be the amounts on record with the Alaska Region, NMFS, at the time of calculation.

(3) *IPQ issuance limits.* The amount of IPQ issued in any crab fishing year shall not exceed:

(i) 157,500,000 raw crab pounds (71,441.5 mt) in the BSS crab QS fishery; and

(ii) 18,000,000 raw crab pounds (8,164.7 mt) in the BBR crab QS fishery.

(4) *IPQ issued to Blue Dutch, LLC*—(i) *BBR IPQ.* For each crab fishing year that the total allowable catch for BBR CR crab is greater than 15,732,480 lb

(7,136.2 mt), NMFS will issue IPQ for the 3,015,229 units of PQS issued to Blue Dutch, LLC, pursuant to Public Law 109-241.

(ii) *BSS IPQ.* For each crab fishing year that the total allowable catch for BSS CR crab is greater than 21,350,640 lb (9,684.6 mt), NMFS will issue IPQ for the 7,516,253 units of PQS issued to Blue Dutch, LLC, pursuant to Public Law 109-241.

(k) *Timing for issuance of IFQ or IPQ.* IFQ and IPQ will be issued once the TAC for that crab QS fishery in that crab fishing year has been specified by the State of Alaska. All IFQ and IPQ for all persons will be issued once for a crab fishing year for a crab QS fishery. QS issued after NMFS has issued annual IFQ for a crab QS fishery for a crab fishing year will not result in IFQ for that crab QS fishery for that crab fishing year.

(l) *Harvesting and processing privilege.* QS and PQS allocated or permits issued pursuant to this part do not represent either an absolute right to the resource or any interest that is subject to the "takings" provision of the Fifth Amendment of the U.S. Constitution. Rather, such QS, PQS, or permits represent only a harvesting or processing privilege that may be revoked or amended pursuant to the Magnuson-Stevens Act and other applicable law. IPQs do not create a right, title, or interest in any crab until that crab is purchased from a fisherman.

[70 FR 10241, Mar. 2, 2005, as amended at 70 FR 33395, June 8, 2005; 70 FR 75421, Dec. 20, 2005; 71 FR 32864, June 7, 2006; 73 FR 29983, May 23, 2008; 73 FR 30320, May 27, 2008; 73 FR 35088, June 20, 2008]

### § 680.41 Transfer of QS, PQS, IFQ and IPQ.

(a) *General.* (1) Transfer of crab QS, PQS, IFQ, or IPQ means any transaction, approved by NMFS, requiring QS or PQS, or the use thereof in the form of IFQ or IPQ, to pass from one person to another, permanently or for a fixed period of time, except that:

(2) A crab IFQ hired master permit issued by NMFS, as described in § 680.4, is not a transfer of crab QS or IFQ; and

(3) The use of IFQ assigned to a crab harvesting cooperative and used within

## § 680.41

## 50 CFR Ch. VI (10–1–08 Edition)

that cooperative is not a transfer of IFQ.

(b) *Transfer applications.* An application is required to transfer any amount of QS, PQS, IFQ, or IPQ. The Regional Administrator shall provide applications to any person on request or on the Internet at <http://www.fakr.noaa.gov/>. Any transfer application will not be approved until the necessary eligibility application in paragraph (c) of this section has been submitted and approved by NMFS.

(1) *Application for transfer of crab QS/IFQ or PQS/IPQ.* This application, as described in paragraph (h) of this section, is required to transfer any amount of QS, PQS, IFQ, or IPQ from an entity that is not an ECCO or a crab harvesting cooperative.

(2) *Application for transfer of crab QS/IFQ to or from an ECCO.* This application, as described in paragraph (k) of this section, is required to transfer any amount of QS or IFQ to or from an entity that is an ECCO.

(3) *Application for inter-cooperative transfer.* This application, as described in § 680.21, is required to transfer any amount of IFQ from an entity that is a crab harvesting cooperative to another crab harvesting cooperative.

(4) *Application deadline.* The Regional Administrator will not approve any transfers of QS, PQS, IFQ, or IPQ in any crab QS fishery from August 1 until the date of the issuance of IFQ or IPQ for that crab QS fishery.

(5) *Notification of approval or disapproval of applications.* (i) Applicants submitting any application under this section will be notified by mail of the Regional Administrator's approval of an application. The Regional Administrator will notify applicants if an application submitted under this section is disapproved. This notification of disapproval will include an explanation why the application was not approved.

(ii) *Reasons for disapproval.* Reasons for disapproval of an application include, but are not limited to:

(A) Lack of U.S. citizenship, where U.S. citizenship is required;

(B) Failure to meet minimum requirements for sea time as a member of a harvesting crew;

(C) An incomplete application, including fees and an EDR, if required;

(D) An untimely application; or

(E) Fines, civil penalties, or other payments due and owing, or outstanding permit sanctions resulting from Federal fishery violations.

(6) *QS, PQS, IFQ, or IPQ accounts.* QS, PQS, IFQ, or IPQ accounts affected by a transfer approved by the Regional Administrator will change on the date of approval. Any necessary IFQ or IPQ permits will be sent with the notification of approval if the receiver of the IFQ or IPQ permit has completed an annual application for crab IFQ/IPQ permit for the current fishing year as required under § 680.4.

(c) *Eligibility to receive QS, PQS, IFQ, or IPQ by transfer.* Persons, other than persons initially issued QS or PQS, must establish eligibility to receive QS, PQS, IFQ, or IPQ by transfer.

(1) To be eligible to receive QS, PQS, IFQ, or IPQ by transfer, a person must first meet the requirements specified in the following table:

| Quota type                                  | Eligible person                                                                                                                                                         | Eligibility requirements                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|---------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (i) PQS not issued under § 680.40(e)(3)(i). | Any person .....                                                                                                                                                        | None.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| (ii) IPQ .....                              | Any person .....                                                                                                                                                        | None.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

| (v) CPO IFQ derived from Converted CPO QS.  | N/A .....                                                                                                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

## Fishery Conservation and Management

§ 680.41

| Quota type             | Eligible person                         | Eligibility requirements                                                                                                                                                                                                                                   |
|------------------------|-----------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (vi) CVO or CPO IFQ.   | All eligible persons for CVO or CPO QS. | according to the requirements in paragraph (c)(1)(iii) of this section.                                                                                                                                                                                    |
| (vii) CVC or CPC QS.   | An individual ..                        | who is a U.S. citizen with:<br>(A) at least 150 days of sea time as part of a harvesting crew in any U.S. commercial fishery; and<br>(B) recent participation in a CR crab fishery in the 365 days prior to submission of the application for eligibility. |
| (viii) CVC or CPC IFQ. | All eligible persons for CVC or CPC QS. | according to the requirements in paragraph (c)(1)(v) of this section.                                                                                                                                                                                      |

(2) *Application for eligibility to receive QS/IFQ and PQS/IPQ by transfer.* (i) This application is required to establish a person's eligibility to receive QS, PQS, IFQ, or IPQ by transfer, if the person is not an ECCO. See paragraph (j) of this section for eligibility to transfer of QS/IFQ to or from an ECCO. The Regional Administrator shall provide an application to any person on request or on the Internet at <http://www.fakr.noaa.gov/>.

(ii) *Contents.* A complete Application for Eligibility to Receive QS/IFQ or PQS/IPQ by Transfer must include the following:

(A) Type of QS, IFQ, PQS, or IPQ for which the applicant is seeking eligibility. Indicate type of QS, IFQ, PQS, IPQ for which applicant is seeking eligibility.

(1) If seeking CVO or CPO QS/IFQ, complete paragraphs (c)(2)(ii)(B), (c)(2)(ii)(D) if applicable, (c)(2)(ii)(E), and (c)(2)(ii)(F) of this section;

(2) If seeking CVC or CPC QS/IFQ, complete paragraphs (c)(2)(ii)(B), (c)(2)(ii)(C), (c)(2)(ii)(E), and (c)(2)(ii)(F) of this section;

(3) If seeking PQS/IPQ, complete paragraphs (c)(2)(ii)(B) and (c)(2)(ii)(F) of this section;

(B) *Applicant information.* (1) Enter applicant's name and NMFS Person ID, applicant's date of birth or, if not an individual, date of incorporation; applicant's social security number or tax ID number; applicant's permanent business mailing address and any temporary business mailing address the ap-

plicant wishes to use, and the applicant's business telephone number, business facsimile number, and e-mail address (if available).

(2) Indicate (YES or NO) whether the applicant is a U.S. citizen or U.S. corporation, partnership or other business entity. Applicants for CVO, CPO, CVC or CPC QS (and associated IFQ) must be U.S. Citizens or U.S. Corporations, Partnerships or Other Business Entity. Applicants for PQS (and associated IPQ) are not required to be U.S. Citizens.

(C) *Eligibility for CVC or CPC QS/IFQ.* Indicate (YES or NO) whether this application is intended for a person who wishes to buy CVC or CPC QS/IFQ. If YES, provide evidence of at least one delivery of a crab species in any CR crab fishery in the 365 days prior to submission of this application. Acceptable evidence of such delivery shall be limited to an ADF&G fish ticket imprinted with applicant's State of Alaska permit card and signed by the applicant, an affidavit from the vessel owner, or a signed receipt for an IFQ crab landing on which applicant was acting as the permit holder's crab IFQ hired master.

(D) *U.S. Corporations, partnerships, or business entities.* (1) Indicate (YES or NO) whether this application is submitted by a CDQ Group. If YES, complete paragraph (c)(2)(ii)(F) of this section;

(2) Indicate (YES or NO) whether this application is submitted on behalf of a corporation, partnership or other business entity (not including CDQ groups). If YES: At least one member of the corporation, partnership or other business entity must submit documentation showing at least 20 percent interest in the corporation, partnership, or other entity and must provide evidence of at least 150 days as part of a harvesting crew in any U.S. commercial fishery. Identify the individual member and provide this individual's commercial fishing experience, name, NMFS person ID, and social security number, and business mailing address, business telephone number, and business facsimile number.

(E) *Commercial fishing experience.* (1) Species; enter any targeted species in a U.S. commercial fishery;

**§ 680.41**

**50 CFR Ch. VI (10–1–08 Edition)**

(2) Gear Type; enter any gear type used to legally harvest in a U.S. commercial fishery;

(3) Location; enter actual regulatory, statistical, or geographic harvesting location;

(4) Starting date and ending date of claimed fishing period (MMYY);

(5) Number of actual days spent harvesting;

(6) Duties performed while directly involved in the harvesting of (be specific);

(7) Name and ADF&G vessel registration number or USCG documentation number of the vessel upon which above duties were performed;

(8) Name of vessel owner;

(9) Name of vessel operator;

(10) Reference name. Enter the name of a person (other than applicant) who is able to verify the above experience;

(11) Reference's relationship to applicant;

(12) Reference's business mailing address and telephone number.

(F) *Applicant certification.* (1) Printed name and signature of applicant and date signed;

(2) Notary Public signature, date commission expires, and notary stamp or seal.

(G) Verification that the applicant applying for eligibility to receive crab QS/IFQ or PQS/IPQ by transfer has submitted an EDR, if required to do so under § 680.6;

(H) A non-profit entity seeking approval to receive crab QS or IFQ by transfer on behalf of a ECC must first complete an Application to Become an ECCO under paragraph (j) of this section.

(d) *Transfer of CVO, CPO, CVC, CPC QS or PQS*—(1) *General.* PQS or QS may be transferred, with approval of the Regional Administrator, to persons qualified to receive PQS or QS by transfer. However, the Regional Administrator will not approve a transfer of any type of PQS or QS that would cause a person to exceed the maximum amount of PQS or QS allowable under the use limits provided for in § 680.42, except as provided for under paragraph (f) of this section.

(2) *CVO QS.* CVO QS may be transferred to any person eligible to receive

CVO or CPO QS as defined under paragraph (c) of this section.

(3) *CPO QS.* Persons holding CPO QS may transfer CPO QS as CVO QS and PQS to eligible recipients under the following provisions:

(i) Each unit of CPO QS shall yield 1 unit of CVO QS, and 0.9 units of PQS; and

(ii) The CVO QS and PQS derived from the transfer of CPO QS may be transferred separately, except that these shares must receive the same regional designation. The regional designation shall be determined at the time of transfer by the person receiving the CVO QS.

(4) *CVC or CPC QS.* CVC or CPC QS may be transferred to any person eligible to receive CVC or CPC QS as defined under paragraph (c) of this section. CVC and CPC QS may only be used in the sector for which it is originally designated.

(e) *Transfer of IFQ or IPQ by Lease*—

(1) *IFQ derived from CVO or CPO QS.* IFQ derived from CVO or CPO QS may be transferred by lease until June 30, 2010. IFQ derived from CVO or CPO QS must be leased:

(i) If the IFQ will be used on a vessel on which the QS holder has less than a 10 percent ownership interest; or

(ii) If the IFQ will be used on a vessel on which the QS holder or the holder of a crab IFQ hired master permit, under § 680.4, is not present.

(2) Ownership of a vessel, for the purposes of this section, means:

(i) A sole proprietor; or

(ii) A relationship between 2 or more entities in which one directly or indirectly owns a 10 percent or greater interest in a vessel.

(3) *IFQ derived from CVC QS or CPC QS.* (i) IFQ derived from CVC or CPC QS may be transferred by lease only until June 30, 2008, unless the IFQ permit holder demonstrates a hardship.

(ii) In the event of a hardship, as described at paragraph (e)(2)(iii) in this section, a holder of CVC or CPC QS may lease the IFQ derived from this QS for the term of the hardship. However, the holder of CVC or CPC QS may not lease the IFQ under this provision for more than 2 crab fishing years total in any 10 crab fishing year period. Such transfers are valid only during the crab

## Fishery Conservation and Management

## § 680.41

fishing year for which the IFQ permit is issued and the QS holder must re-apply for any subsequent transfers.

(iii) NMFS will not approve transfers of IFQ under this provision unless the QS holder can demonstrate a hardship by an inability to participate in the crab QS fisheries because:

(A) Of a medical condition of the QS holder. The QS holder is required to provide documentation of the medical condition from a licensed medical doctor who verifies that the QS holder cannot participate in the fishery because of the medical condition.

(B) Of a medical condition involving an individual who requires the QS holder's care. The QS holder is required to provide documentation of the individual's medical condition from a licensed medical doctor. The QS holder must verify that he or she provides care for that individual and that the QS holder cannot participate in the fishery because of the medical condition of that individual.

(C) Of the total or constructive physical loss of a vessel. The QS holder must provide evidence that the vessel was lost and could not be replaced in time to participate in the fishery for which the person is claiming a hardship.

(4) *IPQ derived from PQS.* IPQ derived from PQS may be leased.

(f) *Transfer of QS, PQS, IFQ or IPQ with restrictions.* If QS, PQS, IFQ or IPQ must be transferred as a result of a court order, operation of law, or as part of a security agreement, but the person receiving the QS, PQS, IFQ or IPQ by transfer does not meet the eligibility requirements of this section, the Regional Administrator will approve, with restrictions, an Application for transfer of crab QS/IFQ or PQS/IPQ. The Regional Administrator will not assign IFQ or IPQ resulting from the restricted QS or PQS to any person. IFQ or IPQ with restrictions may not be used for harvesting or processing species covered under the CR program. The QS, PQS, IFQ or IPQ will remain restricted until:

(1) The person who received the QS, PQS, IFQ or IPQ with restrictions meets the eligibility requirements of this section and the Regional Adminis-

trator approves an application for eligibility for that person; or

(2) The Regional Administrator approves the application for transfer from the person who received the QS, PQS, IFQ or IPQ with restrictions to a person who meets the eligibility requirements of this section.

(g) *Survivorship transfer privileges.* (1) On the death of an individual who holds QS or PQS, the surviving spouse or, in the absence of a surviving spouse, a beneficiary designated pursuant to paragraph (g)(3) of this section, receives all QS, PQS and IFQ or IPQ held by the decedent by right of survivorship, unless a contrary intent was expressed by the decedent in a will. The Regional Administrator will approve an application for transfer to the surviving spouse or designated beneficiary when sufficient evidence has been provided to verify the death of the individual.

(2) A QS or PQS holder may provide the Regional Administrator with the name of the designated beneficiary from the QS or PQS holder's immediate family to receive survivorship transfer privileges in the event of the QS or PQS holder's death and in the absence of a surviving spouse.

(3) The Regional Administrator will approve, for 3 calendar years following the date of the death of an individual, an Application for transfer of crab QS/IFQ or PQS/IPQ from the surviving spouse or, in the absence of a surviving spouse, a beneficiary from the QS or PQS holder's immediate family designated pursuant to this section, to a person eligible to receive IFQ or IPQ under the provisions of this section, notwithstanding the limitations on transfers of IFQ and IPQ in this section and the use limitations under § 680.42.

(h) *Application for transfer of crab QS/IFQ or PQS/IPQ—(1) General.* (i) An Application for transfer of crab QS/IFQ or PQS/IPQ must be approved by the Regional Administrator before the transferee may use the IFQ or IPQ to harvest or process crab QS species.

(ii) Persons who submit an Application for transfer of crab QS/IFQ or PQS/IPQ for approval will receive notification of the Regional Administrator's decision to approve or disapprove the application, and if applicable, the

reason(s) for disapproval, by mail, unless another communication mode is requested on the application.

(2) *Contents.* A complete Application for transfer of crab QS/IFQ or PQS/IPQ must include the following information:

(i) *Type of transfer.* (A) Indicate type of transfer requesting.

(B) Indicate (YES or NO) whether this is a transfer of IFQ or IPQ only due to a hardship (medical emergency, etc.). If YES, provide documentation supporting the need for such transfer (doctor's statement, etc.).

(C) If requesting transfer of PQS/IPQ for use outside an ECC that has designated an entity to represent it in exercise of ROFR under paragraph (1), the application must include an affidavit signed by the applicant stating that notice of the desired transfer has been provided to the ECC entity under civil contract terms referenced under § 680.40(f)(3) for the transfer of any PQS or IPQ subject to ROFR.

(ii) *Transferor information.* (A) The transferor is the person currently holding the QS, PQS, IFQ, or IPQ.

(B) Enter the transferor's name and NMFS Person ID, social security number or tax ID number, transferor's permanent business mailing address and any temporary mailing address the transferor wishes to use, business telephone, business facsimile, and business e-mail address (if available).

(iii) *Transferee information.* (A) The transferee is person receiving QS, PQS or IFQ, IPQ by transfer.

(B) Enter the transferee's name and NMFS Person ID, social security number or tax ID number, transferee's permanent business mailing address and any temporary mailing address the transferee wishes to use, business telephone, business facsimile, and business e-mail address (if available);

(iv) *Transfer of QS or PQS and IFQ or IPQ.* Complete the following information if QS or PQS and IFQ or IPQ are to be transferred together or if transferring only QS or PQS:

(A) QS species;

(B) QS type;

(C) Range of serial numbers to be transferred (shown on QS certificate) numbered to and from;

(D) Number of QS units to be transferred;

(E) Transferor (seller) IFQ or IPQ permit number;

(F) Indicate (YES or NO) whether remaining IFQ or IPQ pounds for the current fishing year should be transferred; if NO, specify the number of pounds to be transferred;

(G) If this is a transfer of CPO QS, indicate whether being transferred as CPO QS or CVO QS and PQS;

(H) If CPO QS is being transferred as both CVO QS and PQS, specify number of units of each; and

(I) If CPO QS is being transferred as CVO QS, select region for which the QS is designated.

(v) *Transfer of IFQ or IPQ only.* Complete the following information if transferring IFQ or IPQ only:

(A) QS species;

(B) IFQ/IPQ type;

(C) Range of serial numbers shown on QS certificate, numbered to and from;

(D) Number of IFQ or IPQ pounds to be transferred;

(E) Transferor (seller) IFQ or IPQ permit number; and

(F) Crab fishing year of the transfer.

(vi) *Price paid for the QS, PQS and/or IFQ, IPQ.* The transferor must provide the following information.

(A) Indicate whether (YES or NO) a broker was used for this transaction; If YES, provide dollar amount paid in brokerage fees or percentage of total price.

(B) Provide the total amount paid for the QS/IFQ or PQS/IPQ in this transaction, including all fees.

(C) Provide the price per unit of QS (price divided by QS units) and the price per pound (price divided by IFQ or IPQ pounds) of IFQ or IPQ.

(D) Indicate all reasons that apply for transferring the QS/IFQ or PQS/IPQ.

(vii) *Method of financing for the QS, PQS and/or IFQ, IPQ.* The transferee must provide the following information.

(A) Indicate (YES or NO) whether QS/IFQ or PQS/IPQ purchase will have a lien attached; if YES, provide the name of lien holder.

(B) Indicate one primary source of financing for this transfer.

## Fishery Conservation and Management

## § 680.41

(C) Indicate the sources used to locate the QS, PQS and/or IFQ, IPQ being transferred.

(D) Indicate the relationship, if any, between the transferor and the transferee.

(E) Indicate (YES or NO) whether an agreement exists to return the QS/IFQ or PQS/IPQ to the transferor or any other person, or with a condition placed on resale; If YES, provide written explanation.

(F) Attach a copy of the terms of agreement for the transfer, the bill of sale for QS or PQS, or lease agreement for IFQ or IPQ.

(G) Indicate whether an EDR was submitted, if required by § 680.6, and whether all fees have been paid, as required under § 680.44.

(viii) *Notary information*—(A) *Certification of transferor*. (1) Printed name and signature of transferor or authorized agent and date signed. If authorized agent, proof of authorization to act on behalf of the transferor must be provided with the application; and

(2) Notary Public signature, date commission expires, and notary stamp or seal

(B) *Certification of transferee*. (1) Printed name and signature of transferee or authorized agent and date signed. If authorized agent, proof of authorization to act on behalf of the transferee must be provided with the application; and

(2) Notary Public signature, date commission expires, and notary stamp or seal.

(ix) *Attachments to the application and other conditions to be met*. (A) Indicate whether the person applying to make or receive the QS, PQS, IFQ or IPQ transfer has submitted an EDR, if required to do so under § 680.6, and has paid all fees, as required by § 680.44; and

(B) All individuals applying to receive CVC QS or IFQ or CPC QS or IFQ by transfer must submit proof of at least one delivery of a crab species in any CR crab fishery in the 365 days prior to submission to NMFS of the Application for Transfer of QS/IFQ or PQS/IPQ. Proof of this landing is:

(1) Signature of the applicant on an ADF&G Fish Ticket; or

(2) An affidavit from the vessel owner attesting to that individual's participa-

tion as a member of a fish harvesting crew on board a vessel during a landing of a crab QS species within the 365 days prior to submission of an Application for transfer of crab QS/IFQ or PQS/IPQ.

(i) *Approval criteria for an Application for transfer of crab QS/IFQ or PQS/IPQ*. Except as provided in paragraph (f) of this section, an application for transfer of QS/IFQ or PQS/IPQ will not be approved until the Regional Administrator has determined that:

(1) The person applying to receive the QS, PQS, IFQ or IPQ meets the requirements of eligibility in paragraph (c) of this section;

(2) The person applying for transfer and the person applying to receive QS or IFQ/IPQ have their original notarized signatures on the application;

(3) No fines, civil penalties, or other payments due and owing, or outstanding permit sanctions, resulting from Federal fishery violations involving either party exist;

(4) The person applying to receive QS, PQS, IFQ or IPQ currently exists;

(5) The transfer would not cause the person applying to receive the QS, PQS, IFQ or IPQ to exceed the use limits in § 680.42;

(6) The person applying to make or receive the QS, PQS, IFQ or IPQ transfer has paid all IFQ or IPQ fees described under § 680.44; or has timely appealed the IAD of underpayment as described under § 680.44;

(7) The person applying to make or receive the QS, PQS, IFQ or IPQ transfer has submitted an EDR, if required to do so under § 680.6;

(8) In the case of an application for transfer of PQS or IPQ for use outside an ECC that has designated an entity to represent it in exercise of ROFR under paragraph (1), the Regional Administrator will not act upon the application for a period of 10 days. At the end of that time period, the application will be approved pending meeting the criteria set forth in this paragraph (i).

(9) In the case of an application for transfer of PQS for use within an ECC that has designated an entity to represent it in exercise of ROFR under paragraph (1), The Regional Administrator will not approve the application unless either the ECC entity provides

an affidavit to the Regional Administrator that the ECC wishes to permanently waive ROFR for the PQS or the proposed recipient of the PQS provides an affidavit affirming the completion of a contract for ROFR that includes the terms enacted under section 313(j) of the Magnuson-Stevens Act and referenced under § 680.40(f)(3).

(10) Other pertinent information requested on the application for transfer has been supplied to the satisfaction of the Regional Administrator.

(j) *Transfer of crab QS/IFQ to or from and ECCO*—(1) *Designation of an ECCO*.

(i) The appropriate governing body of each ECC may designate a non-profit organization to serve as the ECCO for that ECC. To transfer and hold QS on the behalf of that ECC, this designation must be submitted by the non-profit organization in its Application to Become an ECCO.

(ii) If the non-profit entity is approved by NMFS to serve as the ECCO, then the appropriate governing body of the ECC must authorize the transfer of any QS from the ECCO.

(iii) The appropriate governing body for purposes of designating a non-profit organization for the Application to Become an ECCO, or acknowledging the transfer of any QS from an ECCO in each ECC is as follows:

(A) If the ECC is also a community eligible to participate in the Western Alaska CDQ Program, then the CDQ group is the appropriate governing body;

(B) If the ECC is not a CDQ community and is incorporated as a municipality and is not within an incorporated borough, then the municipal government is the appropriate governing body;

(C) If the ECC is not a CDQ community and is incorporated as a municipality and also within an incorporated borough, then the municipality and borough jointly serve as the appropriate governing body and both must agree to designate the same non-profit organization to serve as the ECCO or acknowledge the transfer of QS from the ECCO; and

(D) If the ECC is not a CDQ community and is not incorporated as a municipality and is in a borough, then the

borough in which the ECC is located is the appropriate governing body.

(iv) The appropriate governing body in each ECC may designate only one non-profit organization to serve as the ECCO for that community at any one time.

(2) *Application to become an ECCO*. Prior to initially receiving QS or IFQ by transfer on behalf of a specific ECC, a non-profit organization that intends to represent that ECC as a ECCO must submit an application to become an ECCO and have that application approved by the Regional Administrator. The Regional Administrator shall provide an application to become an ECCO to any person on request or on the Internet at <http://www.fakr.noaa.gov/>.

(i) *Contents of application*—(A) *Applicant identification*. (1) Enter the name of the non-profit organization, taxpayer ID number, and NMFS Person ID, applicant's permanent business mailing address and any temporary business mailing address the applicant wishes to use, and the name of contact person, business telephone number, business facsimile number, and e-mail address (if available);

(2) Name of community or communities represented by the non-profit organization; and

(3) Name of contact person for the governing body of each community represented.

(B) Required attachments to the application. (1) The articles of incorporation under the laws of the State of Alaska for that non-profit organization;

(2) A statement indicating the ECC(s) represented by that non-profit organization for purposes of holding QS;

(3) The bylaws of the non-profit organization;

(4) A list of key personnel of the management organization including, but not limited to, the board of directors, officers, representatives, and any managers;

(5) Additional contact information of the managing personnel for the non-profit organization and resumes of management personnel;

(6) A description of how the non-profit organization is qualified to manage

QS on behalf of the ECC it is designated to represent, and a demonstration that the non-profit organization has the management skills and technical expertise to manage QS and IFQ; and

(7) A statement describing the procedures that will be used to determine the distribution of IFQ to residents of the ECC represented by that non-profit organization, including procedures used to solicit requests from residents to lease IFQ and criteria used to determine the distribution of IFQ leases among qualified community residents and the relative weighting of those criteria.

(C) *Applicant certification.* (1) Printed name of applicant or authorized agent, notarized signature, and date signed. If authorized agent, proof of authorization to act on behalf of the applicant must be provided with the application.

(2) Notary Public signature and date when commission expires, and notary seal or stamp.

(ii) [Reserved]

(k) *Application for transfer of crab QS/IFQ to or from an ECCO.* (1) An application for transfer of crab QS/IFQ to or from an ECCO must be approved by the Regional Administrator before the transferee may use the IFQ to harvest crab QS species.

(2) An application for transfer of crab QS/IFQ to or from an ECCO will not be approved until the Regional Administrator has reviewed and approved the transfer agreement signed by the parties to the transaction. Persons who submit an application for transfer of crab QS/IFQ to or from an ECCO for approval will receive notification of the Regional Administrator's decision to approve or disapprove the application, and if applicable, the reason(s) for disapproval, by mail, unless another communication mode is requested on the application.

(3) *Contents.* A complete application for transfer of crab QS/IFQ to or from an ECCO includes the following:

(i) *General requirements.* (A) This form may only be used if an ECCO is the proposed transferor or the proposed transferee of the QS or IFQ.

(B) The party to whom an ECCO is seeking to transfer the QS/IFQ must be eligible to receive QS/IFQ by transfer.

(C) If the ECCO is applying to permanently transfer QS, a representative of the community on whose behalf the QS is held must sign the application.

(D) If authorized representative represents either the transferor or transferee, proof of authorization to act on behalf of transferor or transferee must be attached to the application.

(ii) *Transferor information.* Enter the transferor's (person currently holding the QS or IFQ) name, NMFS Person ID, social security number or Tax ID, permanent business mailing address, business telephone, business facsimile, and business e-mail address. If transferor is an ECCO, enter the name of ECC represented by the ECCO. The transferor may also provide a temporary address for each transaction in addition to the permanent business mailing address.

(iii) *Transferee information.* Enter the transferee's (person receiving QS or IFQ by transfer) name, NMFS Person ID, social security number or Tax ID, permanent business mailing address, business telephone, business facsimile, and business e-mail. If transferee is an ECCO, name of the community (ECC) represented by the ECCO. The transferee may also provide a temporary address for each transaction in addition to the permanent business mailing address.

(iv) *Identification of QS/IFQ to be transferred.* Complete the following information if QS and IFQ are to be transferred together or if transferring only QS:

(A) QS species;

(B) QS type;

(C) Number of QS or IFQ units to be transferred;

(D) Total QS units;

(E) Number of IFQ pounds;

(F) Range of serial numbers to be transferred (shown on QS certificate) numbered to and from;

(G) Name of community to which QS are currently assigned; and

(H) Indicate (YES or NO) whether remaining IFQ pounds for the current fishing year should be transferred; if NO, specify the number of pounds to be transferred.

(v) *Transfer of IFQ only.* (A) IFQ permit number and year of permit, and

(B) Actual number of IFQ pounds to be transferred.

**§ 680.41**

**50 CFR Ch. VI (10–1–08 Edition)**

(vi) *Transferor Information, if an ECCO.* Reason(s) for transfer:

(A) ECCO management and administration;

(B) Fund additional QS purchase;

(C) Participation by community residents;

(D) Dissolution of ECCO; and

(E) Other (specify).

(vii) *Price paid for QS, PQS, and/or IFQ, IPQ (Transferor).* The transferor must provide the following information:

(A) Whether (YES or NO) a broker was used for this transaction; If YES, provide dollar amount paid in brokerage fees or percentage of total price;

(B) Provide the total amount paid for the QS/IFQ in this transaction, including all fees;

(C) Provide the price per unit of QS (price divided by QS units) and the price per pound (price divided by IFQ) of IFQ; and

(D) Indicate all reasons that apply for transferring the QS/IFQ.

(viii) *Price paid for QS, PQS, and/or IFQ, IPQ (Transferee).* The transferee must provide the following information:

(A) Indicate (YES or NO) whether QS/IFQ purchase will have a lien attached; if YES, provide the name of lien holder;

(B) Indicate one primary source of financing for this transfer;

(C) Indicate the sources used to locate the QS or IFQ being transferred;

(D) Indicate the relationship, if any, between the transferor and the transferee;

(E) Indicate (YES or NO) whether an agreement exists to return the QS or IFQ to the transferor or any other person, or with a condition placed on resale; If YES, explain; and

(F) Attach a copy of the terms of agreement for the transfer, the bill of sale for QS, or lease agreement for IFQ.

(ix) *Notary information—(A) Certification of transferor.* (1) Printed name and signature of transferor or authorized agent and date signed. If authorized agent, proof of authorization to act on behalf of the transferor must be provided with the application.

(2) Notary Public signature, date commission expires, and notary stamp or seal.

(B) *Certification of transferee.* (1) Printed name and signature of transferor or authorized agent and date signed. If authorized agent, proof of authorization to act on behalf of the transferee must be provided with the application.

(2) Notary Public signature, date commission expires, and notary stamp or seal.

(C) *Certification of authorized representative of community.* (1) Printed name, title and signature of authorized community representative, date signed, and printed name of community.

(2) Notary Public signature, date commission expires, and notary stamp or seal;

(4) *Attachments to the application and other conditions to be met.* (i) Indicate whether the person applying to make or receive the QS, PQS, IFQ or IPQ transfer has submitted an EDR, if required to do so under § 680.6, and paid all fees, as required by § 680.44.

(ii) A copy of the terms of agreement for the transfer, the bill of sale for QS or PQS, or lease agreement for IFQ or IPQ.

(iii) An affirmation that the individual receiving IFQ from an ECCO has been a permanent resident in the ECC for a period of 12 months prior to the submission of the Application for Transfer QS/IFQ to or from an ECCO on whose behalf the ECCO holds QS.

(5) *Approval criteria for an application for transfer of crab QS/IFQ to or from an ECCO.* In addition to the criteria required for approval under paragraph (i) of this section, the following criteria are also required:

(i) The ECCO applying to receive or transfer crab QS has submitted a complete annual report(s) required by § 680.5;

(ii) The ECCO applying to transfer crab QS has provided information on the reasons for the transfer as described in paragraph (e) of this section; and

(iii) An individual applying to receive IFQ from an ECCO is a permanent resident of the ECC in whose name the ECCO is holding QS.

(1) *Eligible crab community right of first refusal (ROFR)—(1) Applicability—(i) Exempt Fisheries.* PQS and IPQ issued for

## Fishery Conservation and Management

## § 680.42

the EBT, WBT, WAG, or WAI crab QS fisheries are exempt from ROFR provisions.

(ii) *Eligible Crab Communities (ECCs)*. The ROFR extends to the ECCs, other than Adak, and their associated governing bodies. The ROFR may be exercised by the ECC entity representing that ECC.

(2) *Community representation*—(i) *CDQ Communities*. ECC entity for purposes of exercise of ROFR for any ECC that is also a CDQ community shall be the CDQ group to which the ECC is a member.

(ii) *Non-CDQ communities*. (A) Any ECC, other than Adak, that is a non-CDQ community may designate an ECC entity that will represent the community in the exercise of ROFR at least 30 days prior to the ending date for the initial application period for the crab QS program specified in the FEDERAL REGISTER.

(B) The ECC entity eligible to exercise the right of first refusal on behalf of an ECC will be identified by the governing body(s) of the ECC. If the ECC is incorporated under the laws of the State of Alaska, and not within an incorporated borough, then the municipality is the governing body; if the ECC is incorporated and within an incorporated borough, then the municipality and borough are the governing bodies and must agree to designate the same ECC entity; if the ECC is not incorporated and in an incorporated borough, then the borough is the governing body.

(C) Each ECC may designate only one ECC entity to represent that community in the exercise of ROFR at any one time through a statement of support from the governing body of the ECC. That statement of support identifying the ECC entity must be submitted to the Regional Administrator, NMFS, Post Office Box 21668, Juneau, Alaska 99802, at least 30 days prior to the ending date of the initial application period for the crab QS program under § 680.40.

(D) The ECC ROFR is not assignable by the ECC entity.

(3) *Restrictions on transfer of PQS or IPQ out of North Gulf of Alaska communities*—(i) *Applicability*. Any community

in the Gulf of Alaska north of a line at 56°20' N. lat.

(ii) *Notification of PQS or IPQ transfer*. A PQS holder submitting an application to transfer PQS or IPQ for use in processing outside any community identified under paragraph (1)(3)(i) must notify the ECC entity designated by the City of Kodiak and Kodiak Island Borough under paragraph (1)(2) of this section 10 days prior to the intended transfer of PQS or IPQ for use outside the community. At the end of that time period, the application will be approved pending meeting the criteria set forth in paragraph (i) of this section.

[70 FR 10241, Mar. 2, 2005, as amended at 71 FR 32864, June 7, 2006; 73 FR 29983, May 23, 2008]

### § 680.42 Limitations on use of QS, PQS, IFQ, and IPQ.

(a) *QS and IFQ use caps*—(1) *General*. Separate and distinct QS and IFQ use caps apply to all QS and IFQ categories pertaining to a given crab QS fishery with the following provisions:

(i) A person who receives an initial allocation of QS that exceeds the use cap listed in paragraph (a)(2) of this section may not receive QS by transfer unless and until that person's holdings are reduced to an amount below the use cap.

(ii) A person will not be issued QS in excess of the use cap established in this section based on QS derived from landings attributed to an LLP license obtained via transfer after June 10, 2002 unless:

(A) The person applies to receive QS based on an LLP transferred after June 10, 2002 but prior to November 24, 2004, and

(B) The person will receive the amount of QS associated with that transferred LLP in excess of the use cap established in this section for a crab QS fishery solely because of the adjustment to legal landings available for QS allocation resulting from the BSAI Crab Capacity Reduction Program.

(iii) QS and IFQ use caps shall be based on the initial QS pools used to determine initial allocations of QS.

**§ 680.42**

(2) Except for non-individual persons who hold PQS, as provided for in paragraph (a)(1)(ii) of this section, or a CDQ group, as provided for in paragraph (a)(3) of this section, a person, individually or collectively, may not:

(i) Hold QS in amounts in excess of the amounts specified in the following table, unless that person's QS was received in the initial allocation:

| Fishery                                    | CVO/CPO Use Cap in QS Units | CVC/CPC Use Cap in QS Units |
|--------------------------------------------|-----------------------------|-----------------------------|
| (A) Percent of the initial QS pool for BBR | 1.0% = 3,880,000.           | 2.0% = 240,000              |
| (B) Percent of the initial QS pool for BSS | 1.0% = 9,700,000.           | 2.0% = 600,000              |
| (C) Percent of the initial QS pool for EBT | 1.0% = 1,940,000.           | 2.0% = 120,000              |
| (D) Percent of the initial QS pool for WBT | 1.0% = 1,940,000.           | 2.0% = 120,000              |
| (E) Percent of the initial QS pool for PIK | 2.0% = 582,000              | 4.0% = 36,000               |
| (F) Percent of the initial QS pool for SMB | 2.0% = 582,000              | 4.0% = 36,000               |
| (G) Percent of the initial QS pool for EAG | 10.0% = 970,000.            | 20.0% = 60,000              |
| (H) Percent of the initial QS pool for WAG | 10.0% = 3,880,000.          | 20.0% = 240,000             |
| (I) Percent of the initial QS pool for WAI | 10.0% = 5,820,000.          | 20.0% = 360,000             |

(ii) Use IFQ in excess of the amount of IFQ that results from the QS caps in paragraph (a)(2)(i) of this section, unless that IFQ results from QS that was received by that person in the initial allocation of QS for that crab QS fishery.

(3) A CDQ Group, individually or collectively, may not:

(i) Hold QS in excess of more than the amounts of QS specified in the following table:

| Fishery                                        | CDQ CVO/CPO Use Cap in QS Units |
|------------------------------------------------|---------------------------------|
| (A) 5.0 percent of the initial QS pool for BBR | 19,400,000                      |
| (B) 5.0 percent of the initial QS pool for BSS | 48,500,000                      |
| (C) 5.0 percent of the initial QS pool for EBT | 9,700,000                       |
| (D) 5.0 percent of the initial QS pool for WBT | 9,700,000                       |

**50 CFR Ch. VI (10–1–08 Edition)**

| Fishery                                         | CDQ CVO/CPO Use Cap in QS Units |
|-------------------------------------------------|---------------------------------|
| (E) 10.0 percent of the initial QS pool for PIK | 2,910,000                       |
| (F) 10.0 percent of the initial QS pool for SMB | 2,910,000                       |
| (G) 20.0 percent of the initial QS pool for EAG | 1,940,000                       |
| (H) 20.0 percent of the initial QS pool for WAG | 7,760,000                       |
| (I) 20.0 percent of the initial QS pool for WAI | 11,640,000                      |

(ii) Use IFQ in excess of the amount of IFQ that results from the QS caps in paragraph (a)(3)(i) of this section, unless that IFQ results from QS that was received by that person in the initial allocation of QS for that crab QS fishery.

(4) A person who is not an individual and who holds PQS may not:

(i) Hold QS in excess of the amounts specified in the following table:

| Fishery                                        | CVO/CPO Use Cap in QS Units |
|------------------------------------------------|-----------------------------|
| (A) 5.0 percent of the initial QS pool for BBR | 19,400,000                  |
| (B) 5.0 percent of the initial QS pool for BSS | 48,500,000                  |
| (C) 5.0 percent of the initial QS pool for EBT | 9,700,000                   |
| (D) 5.0 percent of the initial QS pool for WBT | 9,700,000                   |
| (E) 5.0 percent of the initial QS pool for PIK | 1,455,000                   |
| (F) 5.0 percent of the initial QS pool for SMB | 1,455,000                   |
| (G) 5.0 percent of the initial QS pool for EAG | 485,000                     |
| (H) 5.0 percent of the initial QS pool for WAG | 1,940,000                   |
| (I) 5.0 percent of the initial QS pool for WAI | 2,910,000                   |

(ii) Use IFQ in excess of the amount of IFQ that results from the QS caps in paragraph (a)(4)(i) of this section, unless that IFQ results from QS that was received by that person in the initial allocation of QS for that crab QS fishery.

(iii) A non-individual person that holds PQS, and all affiliates of that person, is limited to a QS and IFQ use

cap that is calculated based on the sum of all QS or IFQ held by that PQS holder and all QS or IFQ held by any affiliate of the PQS holder.

(5) IFQ that is used by a crab harvesting cooperative is not subject to the use caps in this paragraph (a) except as provided for in paragraph (a)(7) of this section.

(6) Non-individual persons holding QS will be required to provide, on an annual basis, a list of persons with an ownership interest in the non-individual QS holder. This list of owners shall be provided to the individual level and will include the percentage of ownership held by each individual. This annual submission of information must be submitted as part of the complete annual application for crab IFQ/IPQ permit.

(7) In a calendar year, an entity as described in §680.40(c)(5)(ii), (c)(5)(iii), or (c)(5)(iv), may not use more than 1,000,000 lb (453.6 mt) of IFQ derived from converted CPO QS in the BBR or BSS crab QS fisheries.

(b) *PQS and IPQ Use Caps.* (1) A person may not:

(i) Hold more than 30 percent of the initial PQS pool in any crab QS fishery unless that person received an initial allocation of PQS in excess of this limit. A person will not be issued PQS in excess of the use caps established in this section based on PQS derived from the transfer of legal processing history after June 10, 2002.

(ii) Use IPQ in excess of the amount of IPQ that results from the PQS caps in paragraph (b)(1)(i) of this section unless that IPQ is yielded from PQS that was received by that person in the initial allocation of PQS for that crab QS fishery.

(2) A person may not use more than 60 percent of the IPQ issued in the BSS crab QS fishery with a North region designation during a crab fishing year.

(3) Non-individual persons holding PQS will be required to provide, on an annual basis, a list of persons with an ownership interest in the non-individual PQS holder. This list of owners shall be provided to the individual level and will include the percentage of ownership held by each individual. This annual submission of information must be submitted as part of the complete

annual application for crab IFQ/IPQ permit. A person will be considered to be a holder of PQS for purposes of applying the PQS use caps in this paragraph if that person:

(i) Is the sole proprietor of an entity that holds PQS; or

(ii) Directly or indirectly owns a 10 percent or greater interest in an entity that holds PQS.

(iii) A person that holds PQS is limited to a PQS use cap that is calculated based on the sum of all PQS held by that PQS holder and all PQS held by any affiliate of the PQS holder.

(iv) A person that holds IPQ is limited to an IPQ use cap that is calculated based on the sum of all IPQ held by that IPQ holder and all IPQ held by any affiliate of the IPQ holder.

(4) Before July 1, 2007, IPQ for the BSS, BBR, PIK, SMB, and EAG crab QS fisheries may not be used to process crab derived from PQS based on activities in an ECC, except in the geographic boundaries established in paragraph (b)(4)(iv) of this section, except that, before July 1, 2007:

(i) Ten percent of the IPQs that are issued for a crab QS fishery or an amount of IPQ that yields up to 500,000 raw crab pounds (226.7 mt) on an annual basis, whichever is less, may be leased for use in processing crab outside that ECC. The amount of IPQ that is issued on an annual basis for use in that ECC and the amount that may be leased outside that ECC will be established annually and will be divided on a pro rata basis among all PQS permit holders issued IPQ for use in that ECC for that year.

(ii) IPQ in excess of the amounts specified in paragraph (c)(7)(i) of this section may be used outside the ECC for which that IPQ is designated if an unavoidable circumstance prevents crab processing within that ECC. For purposes of this section, an unavoidable circumstance exists if the specific intent to conduct processing for a crab QS species in that ECC was thwarted by a circumstance that was:

(A) Unavoidable;

(B) Unique to the IPQ permit holder, or to the processing facility used by the IPQ permit holder in that ECC;

(C) Unforeseen and reasonably unforeseeable to the IPQ permit holder;

(D) The circumstance that prevented the IPQ permit holder from processing crab in that ECC actually occurred; and

(E) The IPQ permit holder took all reasonable steps to overcome the circumstance that prevented the IPQ permit holder from conducting processing for that crab QS fishery in that ECC.

(iii) This provision does not exempt any IPQ permit holder from any regional designation that may apply to that IPQ.

(iv) Geographic boundaries for use of IPQ outside ECCs for purposes of paragraph (b)(4) of this section:

(A) Akutan, False Pass, King Cove, or Port Moller: IPQ may not be used outside of the boundaries of the Aleutians East Borough as those boundaries are established by the State of Alaska;

(B) Kodiak: IPQ may not be used outside of the boundaries of the Kodiak Island Borough as those boundaries are established by the State of Alaska;

(C) Adak: IPQ may not be used outside of the boundaries of the City of Adak as those boundaries are established by the State of Alaska;

(D) Unalaska/Dutch Harbor: IPQ may not be used outside of the boundaries of the City of Unalaska as those boundaries are established by the State of Alaska.

(E) St. George: IPQ may not be used outside of the boundaries of the City of St. George as those boundaries are established by the State of Alaska.

(F) St. Paul: IPQ may not be used outside of the boundaries of the City of St. Paul as those boundaries are established by the State of Alaska.

(5) Any person harvesting crab under a Class A CVO or Class A CVC IFQ Permit, except as provided under paragraph (b)(4) of this section, must deliver that crab:

(i) Only to RCRs with unused IPQ for the same crab QS fishery; and

(ii) Only to an RCR in the region for which the QS and IFQ is designated.

(6) Any person harvesting crab under a Class B IFQ, CPO IFQ, CVC IFQ, or CPC IFQ permit may deliver that crab to any RCR.

(c) *Vessel limitations.* (1) Except for vessels that participate solely in a crab harvesting cooperative as described under §680.21 and under the provisions

described in paragraph (c)(4) of this section, no vessel may be used to harvest CVO or CPO IFQ in excess of the following percentages of the TAC for that crab QS fishery for that crab fishing year:

(i) 2.0 percent for BSS;

(ii) 2.0 percent for BBR;

(iii) 2.0 percent for EBT;

(iv) 2.0 percent for WBT;

(v) 4.0 percent for PIK;

(vi) 4.0 percent for SMB;

(vii) 20.0 percent for EAG;

(viii) 20.0 percent for WAG; or

(ix) 20.0 percent for the WAI crab QS fishery west of 179° W. long.

(2) CVC or CPC IFQ used on a vessel will not be included in determining whether a vessel use cap is met.

(3) A single person who receives an initial allocation of QS that results in IFQ that is in excess of the vessel use caps, in paragraph (c)(1) of this section, that person may catch and retain crab harvested with the resulting IFQ with a single vessel. However, this provision does not apply to IFQ resulting from QS derived from transfer of an LLP crab license that occurred after June 10, 2002. Two or more persons may not catch and retain their IFQ with one vessel in excess of these limitations.

(4) A vessel use cap would not apply to a vessel if all of the CVO or CPO IFQ used on that vessel in a crab fishing year is held by a crab harvesting cooperative. This exemption is forfeited if that vessel is used to harvest any amount of CVO or CPO IFQ not held by a crab harvesting cooperative during the same crab fishing year.

(5) A person holding a CVC or CPC IFQ permit is required to be aboard the vessel upon which their IFQ is being harvested.

(6) A person holding CVO or CPO QS does not have to be aboard the vessel being used to harvest their IFQ if they hold at least a 10 percent ownership interest in the vessel upon which the IFQ is to be harvested and are represented on board the vessel by a crab IFQ hired master employed by that QS holder as authorized under §680.4.

(7) Ownership of a vessel means, for purposes of this section:

(i) A sole proprietor; or

(ii) A person that directly or indirectly owns a 10 percent or greater interest in an entity that owns a vessel.

[70 FR 10241, Mar. 2, 2005, as amended at 70 FR 33395, June 8, 2005; 70 FR 75421, 75422, Dec. 20, 2005; 71 FR 32865, June 7, 2006; 73 FR 29983, May 23, 2008; 73 FR 35088, June 20, 2008]

#### § 680.43 Determinations and appeals.

See § 679.43 of this chapter.

#### § 680.44 Cost recovery.

(a) *Cost recovery fees*—(1) *Responsibility*. The person documented on the IFQ, IPQ, CDQ, RCR, Commercial Fisheries Entry Commission (CFEC), or State of Alaska Commissioner's permit as the permit holder at the time of a CR crab landing must comply with the requirements of this section.

(i) Subsequent transfer of IFQ, IPQ, CDQ, or QS does not affect the permit holder's liability for noncompliance with this section.

(ii) Non-renewal of an RCR permit does not affect the permit holder's liability for noncompliance with this section.

(2) *Fee liability determination*. (i) All CR allocation holders and RCR permit holders will be subject to a fee liability for any CR crab debited from a CR allocation during a crab fishing year.

(ii) Fee liability must be calculated by multiplying the applicable fee percentage by the ex-vessel value of the CR crab received by the RCR at the time of receipt, except as provided by paragraph (b)(3) of this section.

(iii) NMFS will provide a summary to all RCR permit holders during the last quarter of the crab fishing year. The summary will explain the fee liability determination including the current fee percentage, details of raw crab pounds debited from CR allocations by permit, port or port-group, species, date, and prices.

(3) *Fee collection*. (i) All RCRs who receive CR crab are responsible for submitting the cost recovery payment for all CR crab received.

(ii) All RCRs who receive CR crab in a crab fishing year must maintain and submit records for any crab cost recovery fees collected under the corresponding RCR permit.

(4) *Payment*—(i) *Payment due date*. An RCR permit holder must submit any

crab cost recovery fee liability payment(s) to NMFS at the address provided in paragraph (a)(4)(iii) of this section no later than July 31 of the crab fishing year following the crab fishing year in which the payment for a CR crab landing was made.

(ii) *Payment recipient*. Make payment payable to NMFS.

(iii) *Payment address*. Mail payment and related documents to the Administrator, Alaska Region, NMFS, Attn: Operations, Management, & Information Division (OMI), P.O. Box 21668, Juneau, AK 99802-1668, Facsimile (907-586-7354). Payments may also be submitted electronically to NMFS via forms available from RAM or on the RAM area of the Alaska Region Home Page at <http://www.fakr.noaa.gov/ram>.

(iv) *Payment method*. Payment must be made in U.S. dollars by personal check drawn on a U.S. bank account, money order, bank certified check, or credit card.

(b) *Ex-vessel value determination and use*—(1) *General*. An RCR permit holder must use either the ex-vessel value determined for shoreside processors or the ex-vessel value determined for at-sea Catcher/Processors (CP), depending on their activity. Ex-vessel value includes all cash, services, or other goods-in-kind exchanged for CR crab.

(2) *Shoreside ex-vessel value*. Shoreside processing facilities must use the price paid at the time of purchase as ex-vessel value for the purposes of calculating fee liability. Shoreside processing facilities must include any subsequent retroactive payments as adjustments to the initial calculation of fee liability.

(3) *Catcher/processor ex-vessel value*—(i) *General*. Catcher/processors must use the corresponding CP standard price(s) for the purposes of calculating fee liability.

(ii) *CP standard prices*. As part of the summary described in paragraph (a)(2)(iii) of this section, the Regional Administrator will provide CP standard prices calculated for the current year during the last quarter of each crab fishing year. The CP standard prices will be described in U.S. dollars per raw crab pound, for CR crab debited from CR allocations during the current crab fishing year.

(iii) *Effective period.* CP standard prices established by NMFS shall apply to all landings made in the same crab fishing year as the CP standard price provided for that year and shall replace any CP standard prices previously provided by NMFS.

(iv) *Determination.* NMFS will calculate the CP standard prices to reflect, as closely as possible, the current crab fishing year's average shoreside processor price by fishery and by species, and any variations in reported shoreside ex-vessel values of CR crab. The Regional Administrator will base CP standard prices on the following types of information:

(A) Landed pounds by CR crab, port-group, and month;

(B) Total shoreside ex-vessel value by CR crab, port-group, and month; and

(C) Price adjustments, including retroactive payments.

(4) *Fee liability calculation.* All RCRs must base all fee liability calculations on the ex-vessel value that correlates to CR crab that is debited from a CR allocation and recorded in raw crab pounds.

(c) *Crab fee percentage*—(1) *Established percentage.* The crab fee percentage is the amount as determined by the factors and methodology described in paragraph (c)(2) of this section. This amount will be announced by publication in the FEDERAL REGISTER in accordance with paragraph (c)(3) of this section. This amount must not exceed 3 percent pursuant to 16 U.S.C. 1854(d)(2)(B).

(i) The calculated crab fee percentage will be divided equally between the harvesting and processing sectors.

(ii) Catcher/Processors must pay the full crab fee percentage determined by the fee percentage calculation for all CR crab debited from a CR allocation.

(2) *Calculating fee percentage value.* Each year NMFS shall calculate and publish the fee percentage according to the following factors and methodology:

(i) *Factors.* NMFS must use the following factors to determine the fee percentage:

(A) The catch to which the crab cost recovery fee will apply;

(B) The ex-vessel value of that catch; and

(C) The costs directly related to the management and enforcement of the Crab Rationalization Program.

(ii) *Methodology.* NMFS must use the following equations to determine the fee percentage:

Harvesting and Processing Sectors:  
[100 (DPC/ V)] 0.5

Catcher/Processors: 100 (DPC /V)

where:

“DPC” is the direct program costs for the Crab Rationalization Program for the previous fiscal year, and

“V” is the ex-vessel value of the catch subject to the crab cost recovery fee liability for the current year.

(3) *Publication*—(i) *General.* During the first quarter of each crab fishing year, NMFS shall calculate the crab fee percentage based on the calculations described in paragraph (c)(2) of this section.

(ii) *Effective period.* The calculated IFQ fee percentage remains in effect through the end of the crab fishing year in which it was determined.

(4) *Applicable percentage.* The RCR permit holder must use the crab fee percentage in effect at the time a CR crab is debited from a CR allocation to calculate the crab cost recovery fee liability for such CR crab. The RCR permit holder must use the crab fee percentage in effect at the time a CR crab is debited from a CR allocation to calculate the crab cost recovery fee liability for any retroactive payments for that CR crab.

(d) *Underpayment of fee liability.* (1) Under § 680.4, an applicant will not receive new IFQ, IPQ, or RCR permits until he or she submits a complete application. A complete application shall include full payment of an applicant's complete crab cost recovery fee liability as reported by the RCR.

(2) If an RCR fails to submit full payment for crab cost recovery fee liability by the date described in paragraph (a)(4) of this section, the Regional Administrator may:

(i) At any time thereafter send an IAD to the RCR permit holder stating that the RCR permit holder's estimated fee liability, as indicated by his or her own submitted information, is the crab cost recovery fee liability due from the RCR permit holder.

# Fishery Conservation and Management

# Pt. 680, Table 1

(ii) Disapprove any transfer of IFQ, IPQ, QS, or PQS to or from the RCR permit holder in accordance with §680.41.

(3) If an RCR fails to submit full payment by the application deadline described at §680.4, no IFQ or IPQ permit will be issued to that RCR for that crab fishing year.

(4) Upon final agency action determining that an RCR permit holder has not paid his or her crab cost recovery fee liability, the Regional Administrator may continue to withhold issuance of any new IFQ, IPQ, or RCR permit for any subsequent crab fishing years. If payment is not received by the 30th day after the final agency action, the matter will be referred to the appropriate authorities for purposes of collection.

(e) *Over payment.* Upon issuance of final agency action, any amount submitted to NMFS in excess of the crab cost recovery fee liability determined to be due by the final agency action will be returned to the RCR permit holder unless the permit holder requests the agency to credit the excess amount against the permit holder's future crab cost recovery fee liability.

(f) *Appeals and requests for reconsideration.* An RCR permit holder who receives an IAD may either appeal the IAD pursuant to 50 CFR 679.43 or request reconsideration. Within 60 days from the date of issuance of the IAD, the Regional Administrator may undertake reconsideration of the IAD on his or her own initiative. If a request for reconsideration is submitted or the Regional Administrator initiates reconsideration, the 60-day period for appeal under 50 CFR 679.43 will begin anew upon issuance of the Regional Administrator's reconsidered IAD. The Regional Administrator may undertake only one reconsideration of the IAD, if any. If an RCR permit holder fails to file an appeal of the IAD pursuant to 50 CFR 679.43 or request reconsideration within the time period provided, the IAD will become the final agency action. In any appeal or reconsideration of an IAD made under this section, an RCR permit holder has the burden of proving his or her claim.

(g) *Fee submission form.* An RCR must submit an RCR permit holder fee submission form according to §680.5(g).

[70 FR 10241, Mar. 2, 2005, as amended at 71 FR 44232, Aug. 4, 2006]

TABLE 1 TO PART 680—CRAB RATIONALIZATION (CR) FISHERIES

| Fishery Code | CR Fishery                                                                 | Geographic Area                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

# Fishery Conservation and Management

# Pt. 680, Table 6

TABLE 2 TO PART 680—CRAB SPECIES CODE

| Species code | Common name                    | Scientific name                     |
|--------------|--------------------------------|-------------------------------------|
| 900 .....    | Box .....                      | <i>Lopholithodes mandtii</i> .      |
| 910 .....    | Dungeness .....                | <i>Cancer magister</i> .            |
| 921 .....    | Red king crab .....            | <i>Paralithodes camtschaticus</i> . |
| 922 .....    | Blue king crab .....           | <i>Paralithodes platypus</i> .      |
| 923 .....    | Golden (brown) king crab ..... | <i>Lithodes aequispinus</i> .       |
| 924 .....    | Scarlet king crab .....        | <i>Lithodes couesi</i> .            |
| 931 .....    | Tanner crab .....              | <i>Chionoecetes bairdi</i> .        |
| 932 .....    | Snow crab .....                | <i>Chionoecetes opilio</i> .        |
| 933 .....    | Grooved Tanner crab .....      | <i>Chionoecetes tanneri</i> .       |
| 934 .....    | Triangle Tanner crab .....     | <i>Chionoecetes angulatus</i> .     |
| 940 .....    | Korean horsehair crab .....    | <i>Erimacrus isenbeckii</i> .       |
| 951 .....    | Multispinus crab .....         | <i>Paralomis multispinus</i> .      |
| 953 .....    | Verrilli crab .....            | <i>Paralomis verrilli</i> .         |

TABLE 3A TO PART 680—CRAB DELIVERY CONDITION CODES

[The condition of the fish or shellfish at the point it is weighed and recorded on the ADF&G fish ticket]

| Code     | Description       |
|----------|-------------------|
| 01 ..... | Whole crab, live. |
| 79 ..... | Deadloss.         |

TABLE 3B TO PART 680—CRAB DISPOSITION OR PRODUCT CODES

| Code     | Description                                 |
|----------|---------------------------------------------|
| 80 ..... | Sections.                                   |
| 95 ..... | Personal use—not sold.                      |
| 97 ..... | Other retained product (specify condition). |

TABLE 3C TO PART 680—CRAB PRODUCT CODES FOR ECONOMIC DATA REPORTS

| Code     | Description      |
|----------|------------------|
| 01 ..... | Whole crab.      |
| 80 ..... | Sections.        |
| 81 ..... | Meats.           |
| 97 ..... | Other (specify). |

TABLE 4 TO PART 680—CRAB PROCESS CODES

| Process code | Description          |
|--------------|----------------------|
| 0 .....      | Other (specify).     |
| 1 .....      | Fresh.               |
| 2 .....      | Frozen.              |
| 3 .....      | Salted/brined.       |
| 6 .....      | Cooked.              |
| 7 .....      | Live.                |
| 18 .....     | Fresh/vacuum pack.   |
| 21 .....     | Frozen/block.        |
| 22 .....     | Frozen/shatter pack. |
| 28 .....     | Frozen/vacuum pack.  |

TABLE 5 TO PART 680—CRAB SIZE CODES

| Size code | Description                                                             |
|-----------|-------------------------------------------------------------------------|
| 1 .....   | Standard or large sized crab or crab sections.                          |
| 2 .....   | Smaller size crab or crab sections, e.g., snow crab less than 4 inches. |

TABLE 6 TO PART 680—CRAB GRADE CODES

| Grade/code | Description                                        |
|------------|----------------------------------------------------|
| 1 .....    | Standard or premium quality crab or crab sections. |

## Pt. 680, Table 7

## 50 CFR Ch. VI (10–1–08 Edition)

| Grade/code | Description                                                                                                 |
|------------|-------------------------------------------------------------------------------------------------------------|
| 2 .....    | Lower quality product, <i>e.g.</i> , dirty shelled crab or a pack that is of lower quality than No. 1 crab. |

TABLE 7 TO PART 680—INITIAL ISSUANCE OF CRAB QS BY CRAB QS FISHERY

| Column A:<br>Crab QS<br>Fisheries                                                        | Column B:<br>Qualifying Years for QS                                                                                                                                                                                                                                                                                      | Column C:<br>Eligibility Years for CVC and<br>CPC QS                                                                                                                                                                                                                                                                      | Column D:<br>Recent Participation Seasons<br>for CVC and CPC QS                                                                                                                                                                                         | Column E:<br>Subset of<br>Qualifying<br>Years                                                   |

| WBT Western Bering Sea Tanner crab ( <i>C. bairdi</i> ) | 200,000,000     | 200,000,000      |

TABLE 9 TO PART 680—INITIAL ISSUANCE OF CRAB PQS BY CRAB QS FISHERY

| Column A:<br>For each crab QS fishery:         | Column B:<br>The Regional Administrator shall calculate PQS for any qualified person based on that person's total legal purchase of crab in each of the crab QS fisheries for any...                                                                                                                             |
|------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Bristol Bay red king crab (BBR)                | <i>3 years of the 3-year QS base period beginning on:</i><br>(1) November 1–5, 1997;<br>(2) November 1–6, 1998; and<br>(3) October 15–20, 1999.                                                                                                                                                                  |
| Bering Sea snow crab (BSS)                     | <i>3 years of the 3-year period beginning on:</i><br>(1) January 15, 1997 through March 21, 1997;<br>(2) January 15, 1998 through March 20, 1998; and<br>(3) January 15, 1999 through March 22, 1999.                                                                                                            |
| Eastern Aleutian Island golden king crab (EAG) | <i>4 years of the 4-year base period beginning on:</i><br>(1) September 1, 1996 through December 25, 1996;<br>(2) September 1, 1997 through November 24, 1997;<br>(3) September 1, 1998 through November 7, 1998; and<br>(4) September 1, 1999 through October 25, 1999.                                         |
| Eastern Bering Sea Tanner crab (EBT)           | Equivalent to 50 percent of the total legally processed crab in the Bering Sea snow crab fishery during the qualifying years established for that fishery, and 50 percent of the total legally processed crab in the Bristol Bay red king crab fishery during the qualifying years established for that fishery. |
| Pribilof Islands red and blue king crab (PIK)  | <i>3 years of the 3-year period beginning on:</i><br>(1) September 15–26, 1996;<br>(2) September 15–29, 1997; and<br>(3) September 15–28, 1998.                                                                                                                                                                  |
| St. Matthew blue king crab (SMB)               | <i>3 years of the 3-year period beginning on:</i><br>(1) September 15–23, 1996;<br>(2) September 15–22, 1997; and<br>(3) September 15–26, 1998.                                                                                                                                                                  |
| Western Aleutian Island golden king crab (WAG) | <i>4 years of the 4-year base period beginning on:</i><br>(1) September 1, 1996 through August 31, 1997;<br>(2) September 1, 1997 through August 31, 1998;<br>(3) September 1, 1998 through August 31, 1999; and<br>(4) September 1, 1999 through August 14, 2000.                                               |
| Western Aleutian Islands red king crab (WAI)   | Equivalent to the total legally processed crab in the Western Aleutian Islands golden (brown) king crab fishery during the qualifying years established for that fishery.                                                                                                                                        |
| Western Bering Sea Tanner crab (WBT)           | Equivalent to 50 percent of the total legally processed crab in the Bering Sea snow crab fishery during the qualifying years established for that fishery, and 50 percent of the total legally processed crab in the Bristol Bay red king crab fishery during the qualifying years established for that fishery. |

## PART 697—ATLANTIC COASTAL FISHERIES COOPERATIVE MANAGEMENT

### Subpart A—General Provisions

#### Sec.

- 697.1 Purpose and scope.
- 697.2 Definitions.
- 697.3 Relation to other Federal and state laws.
- 697.4 Vessel permits and trap tags.
- 697.5 Operator permits.
- 697.6 Dealer permits.
- 697.7 Prohibitions.
- 697.8 Vessel identification.
- 697.9 Facilitation of enforcement.
- 697.10 Penalties.
- 697.11 Civil procedures.
- 697.12 At-sea sea sampler/observer coverage.

### Subpart B—Management Measures

- 697.17 Non-trap harvest restrictions.
- 697.18 Lobster management areas.
- 697.19 Trap limits and trap tag requirements for vessels fishing with lobster traps.
- 697.20 Size, harvesting and landing requirements.
- 697.21 Gear identification and marking, escape vent, maximum trap size, and ghost panel requirements.
- 697.22 Exempted fishing.
- 697.23 Restricted gear areas.
- 697.24 Exempted waters for Maine State American lobster permits.
- 697.25 Adjustment to management measures.
- 697.26 EEZ Nearshore Management Area 5 Trap Waiver.

#### TABLE 1 TO PART 697—AREA 3 TRAP REDUCTION SCHEDULE

AUTHORITY: 16 U.S.C. 5101 *et seq.*

SOURCE: 64 FR 68248, Dec. 6, 1999, unless otherwise noted.

### Subpart A—General Provisions

#### § 697.1 Purpose and scope.

The regulations in this part are issued under the authority of section 804(b) of the Atlantic Coastal Fisheries Cooperative Management Act, 16 U.S.C. 5101 *et seq.*, and section 6 of the Atlantic Striped Bass Conservation Act Appropriations Authorization, 16 U.S.C. 1851 note, and govern fishing in the EEZ on the Atlantic Coast for species covered by those acts.

#### § 697.2 Definitions.

(a) In addition to the definitions in the Magnuson-Stevens Act and in §§ 600.10 and 648.2 of this chapter, for the purposes of this part, the following terms have the following meanings:

*American lobster* or lobster means *Homarus americanus*.

*Approved TED* means any approved TED as defined at § 217.12 of this title.

*Atlantic Coastal Act* means the Atlantic Coastal Fisheries Cooperative Management Act, as amended (16 U.S.C. 5101 *et seq.*).

*Atlantic striped bass* means members of stocks or populations of the species *Morone saxatilis* found in the waters of the Atlantic Ocean north of Key West, FL.

*Atlantic sturgeon* means members of stocks or populations of the species *Acipenser oxyrhynchus*.

*Berried female* means a female American lobster bearing eggs attached to the abdominal appendages.

*Block Island Southeast Light* means the aid to navigation light located at Southeast Point, Block Island, RI, and defined as follows: Located at 40°09.2' N. lat., 71°33.1' W. long; is 201 ft (61.3 m) above the water; and is shown from a brick octagonal tower 67 ft (20.4 m) high attached to a dwelling on the southeast point of Block Island, RI.

*BRD* means bycatch reduction device.

*Carapace length* is the straight line measurement from the rear of the eye socket parallel to the center line of the carapace to the posterior edge of the carapace. The carapace is the unsegmented body shell of the American lobster.

*Certified BRD* means any BRD, as defined in part 622, Appendix D of this chapter: Specifications for Certified BRDs.

*Charter or head boat* means any vessel carrying fishing persons or parties for a per capita fee, for a charter fee, or any other type of fee.

*Commercial dive vessel* means any vessel carrying divers for a per capita fee, a charter fee, or any other type of fee.

*Commercial purposes* means for the purpose of selling, trading, transferring, or bartering all or part of the fish harvested.

*Commission* means the Atlantic States Marine Fisheries Commission

established under the interstate compact consented to and approved by Congress in Pub. L. 77–539 and Pub. L. 81–721.

*Conservation equivalency* means a measure adopted by a state that differs from the specific requirements of an interstate fishery management plan, but achieves the same level of conservation for the resource under management.

*Continuous transit* means that a vessel does not have fishing gear in the water and remains continuously underway.

*CPH* means Confirmation of Permit History.

*Crab trawl* means any trawl net that is rigged for fishing and has a mesh size of 3.0 inches (7.62 cm), as measured between the centers of opposite knots when pulled taut.

*Cull American lobster* means a whole American lobster that is missing one or both claws.

*Dealer* means any person who receives, for a commercial purpose (other than solely for transport on land), any species of fish, the harvest of which is managed by this part, from the owner or operator of a vessel issued a valid permit under this part, or any person who receives, for a commercial purpose (other than solely for transport on land), any species of fish managed under this part.

*De minimis state* means any state where the landings are so low that the Commission's Fisheries Management Board has exempted that state from some of its regulatory responsibilities under an Interstate Fishery Management Plan.

*Director* means the Director of the Office of Sustainable Fisheries, 1315 East-West Highway, Silver Spring, MD 20910.

*Dredge* means a gear consisting of a mouth frame attached to a holding bag constructed of metal rings or mesh.

*Egg Production Rebuilding Schedule* means the schedule identified in section 2.5 of Amendment 3 to the Commission's ISFMP.

*Escape vent* means an opening in a lobster trap designed to allow lobster smaller than the legal minimum size to escape from the trap.

*Fishing trip or trip* means a period of time during which fishing is conducted,

beginning when the vessel leaves port and ending when the vessel returns to port.

*Fishing year* means, for the American lobster fishery, from May 1 through April 30 of the following year.

*Flynet* means any trawl net, except shrimp trawl nets containing certified BRDs and approved TEDs, when required under § 227.72(e)(2) of this title, and except trawl nets that comply with the gear restrictions specified at § 648.104 of this chapter for the summer flounder fishery and contain an approved TED, when required under § 227.72 (e)(2) of this title.

*Ghost panel* means a panel, or other mechanism, designed to allow for the escapement of lobster after a period of time if the trap has been abandoned or lost.

*Horseshoe crab* means members of stocks or populations of the species *Limulus polyphemus*.

*ISFMP* means the Commission's Interstate Fishery Management Plan for American Lobster, as amended.

*Land* means to begin offloading fish, to offload fish, or to enter port with fish.

*Lobster day-at-sea* with respect to the American lobster fishery means each 24-hour period of time during which a fishing vessel is absent from port in which the vessel intends to fish for, possess, or land, or fishes for, possesses, or lands American lobster.

*Lobster permit* means a Federal limited access American lobster permit.

*Lobster trap* means any structure or other device, other than a net, that is placed, or designed to be placed, on the ocean bottom and is designed for or is capable of, catching lobsters. Red crab fishing gear, fished deeper than 200 fathoms (365.8 m), and fishing gear fished by a vessel not issued a limited access lobster permit under § 697.4(a), are gear deemed not to be lobster traps for the purpose of this part, and are not subject to the provisions of this part.

*Lobster trap trawl* means 2 or more lobster traps, all attached to a single ground line.

*Management area* means each of the geographical areas identified in this part for management purposes under the lobster ISFMP.

*Montauk light* means the aid to navigation light located at Montauk Point, NY, and defined as follows: Located at 41°04.3' N. lat., 71°51.5' W. long.; is shown from an octagonal, pyramidal tower, 108 ft (32.9 m) high; and has a covered way to a dwelling.

*Natural Atlantic sturgeon* means any Atlantic sturgeon that is not the result of a commercial aquaculture operation, and includes any naturally occurring Atlantic sturgeon (those Atlantic sturgeon naturally spawned and grown in rivers and ocean waters of the Atlantic Coast).

*Parts thereof* means any part of an American lobster. A part of a lobster counts as one lobster.

*Point Judith Light* means the aid to navigation light located at Point Judith, RI, and defined as follows: Located at 41°21.7' N. lat., 71°28.9' W. long.; is 65 ft (19.8 m) above the water; and is shown from an octagonal tower 51 ft (15.5 m) high.

*Qualifying year* means any calendar year during the period from March 25, 1991, through September 1, 1999, excluding the time periods in calendar years 1991 and 1999 that are outside the qualification period (i.e., January 1, 1991 through March 24, 1991, and September 2, 1999, through December 31, 1999), and refers to the specific year selected by the applicant for the purposes of qualifying for access to the lobster trap fishery in Areas 3, 4 and/or 5 under the requirements set forth in 697.4(a)(7)(vi-x).

*Recreational fishing* means fishing that is not intended to, nor results in the barter, trade, or sale of fish.

*Recreational fishing vessel* means any vessel from which no fishing other than recreational fishing is conducted. Charter and head boats and commercial dive vessels are not considered recreational fishing vessels.

*Regional Administrator* means the Regional Administrator, Northeast Region, NMFS, or a designee.

*Retain* means to fail to return any species specified under § 697.7 of this chapter to the sea immediately after the hook has been removed or after the species has otherwise been released from the capture gear.

*Sea sampler/observer* means any person required or authorized to be carried on a vessel for conservation and manage-

ment purposes by regulations or permits.

*Shrimp trawl net* means any trawl net that is rigged for fishing and has a mesh size less than 2.50 inches (6.35 cm), as measured between the centers of opposite knots when pulled taut, and each try net, as defined in § 622.2 of this chapter, that is rigged for fishing and has a headrope length longer than 16 ft (4.9 m).

*Standard V-shaped notch* means a straight-sided triangular cut, without setal hairs, at least ¼ inch (0.64 cm) in depth and tapering to a point.

*Stocked Atlantic sturgeon* means any Atlantic sturgeon cultured in a hatchery that is placed in rivers and ocean waters of the Atlantic Coast to enhance the Atlantic sturgeon spawning stocks.

*TED* means Turtle Excluder Device, which is a device designed to be installed in a trawl net forward of the codend for the purpose of excluding sea turtles from the net.

*Trawl* means a cone or funnel-shaped net that is towed through the water, and can include a pair trawl that is towed simultaneously by two boats.

*V-notched American lobster* means any female American lobster bearing a V-shaped notch in the flipper next to and to the right of the center flipper as viewed from the rear of the lobster (underside of the lobster down and tail toward the viewer), or any female American lobster that is mutilated in a manner that could hide or obliterate such a mark.

*Weakfish* means members of the stock or population of the species *Cynoscion regalis*, found along the Atlantic Coast from southern Florida to Massachusetts Bay.

*Whole American lobster* means a lobster with an intact and measurable body (tail and carapace). An American lobster with an intact and measurable body that is missing one or both claws, i.e., a cull lobster, is considered to be a whole American lobster.

*Zero tolerance V-shaped notch* means a v-shaped notch of any size, with or without straight sides, with or without setal hairs.

### § 697.3

### 50 CFR Ch. VI (10–1–08 Edition)

(b) [Reserved]

[64 FR 68248, Dec. 6, 1999, as amended at 66 FR 8911, Feb. 5, 2001; 66 FR 14501, Mar. 13, 2001; 68 FR 14925, Mar. 27, 2003; 68 FR 56790, Oct. 2, 2003; 71 FR 13037, Mar. 14, 2006]

#### § 697.3 Relation to other Federal and state laws.

(a) The provisions of sections 307 through 311 of the Magnuson-Stevens Act, as amended, regarding prohibited acts, civil penalties, criminal offenses, civil forfeitures, and enforcement apply with respect to the regulations in this part, as if the regulations in this part were issued under the Magnuson-Stevens Act.

(b) The relation of this part to other laws is further set forth in § 600.705 of this chapter and would include all regulations and statutes administered by the National Oceanic and Atmospheric Administration (NOAA), including, but not limited to the regulations in this part issued pursuant to the ACFCMA, the regulations at 50 CFR part 229 issued pursuant to the Marine Mammal Protection Act (MMPA) and the Endangered Species Act (ESA), and the regulations at 50 CFR part 648 issued pursuant to the Magnuson-Stevens Act.

(c) The regulations in this part do not preempt more restrictive state laws, or state enforcement of more restrictive state laws, with respect to weakfish fishing and American lobster fishing. If a requirement of this part and a management measure required by state or local law differ, any vessel owner permitted to fish in the EEZ must comply with the more restrictive requirement or measure.

[64 FR 68248, Dec. 6, 1999, as amended at 71 FR 13037, Mar. 14, 2006]

#### § 697.4 Vessel permits and trap tags.

(a) *Limited access American lobster permit.* Any vessel of the United States that fishes for, possesses, or lands American lobster in or harvested from the EEZ must have been issued and carry on board a valid Federal limited access lobster permit. This requirement does not apply to: charter, head, and commercial dive vessels that possess six or fewer American lobsters per person aboard the vessel if such lobsters are not intended for, nor used, in

trade, barter or sale; recreational fishing vessels; and vessels that fish exclusively in state waters for American lobster.

(1) *Eligibility in 1999 and thereafter.* To be eligible for issuance or renewal of a Federal limited access lobster permit for fishing year 1999 and thereafter, a vessel must:

(i) Have been issued a Federal limited access lobster permit for the preceding fishing year by the last day of such fishing year unless a CPH has been issued as specified in paragraph (a)(5) of this section or unless otherwise authorized by the Regional Administrator;

(ii) Be replacing a vessel that was issued a Federal limited access lobster permit for the preceding year; or

(iii) Be replacing a vessel issued a CPH.

(2) *Qualification restriction.* Unless the Regional Administrator determines otherwise, no more than one vessel may qualify, at any one time, for a Federal limited access lobster permit based on that or another vessel's fishing and permit history. If more than one vessel owner claims eligibility for a limited access permit, based on one vessel's fishing and permit history, the Regional Administrator will determine who is eligible for the permit or a CPH under paragraph (a)(3) of this section.

(3) *Change in ownership.* The fishing and permit history, and management area designation, when required of a vessel, is presumed to transfer with the vessel whenever it is bought, sold or otherwise transferred, unless there is a written agreement, signed by the transferor/seller and transferee/buyer, or other credible written evidence, verifying that the transferor/seller is retaining the vessel's fishing and permit history, and management area designation, for the purposes of replacing the vessel.

(4) *Consolidation restriction.* Federal limited access American lobster permits, and any rights or privileges associated thereto, may not be combined or consolidated.

(5) *Confirmation of permit history.* Notwithstanding any other provisions of this part, a person who does not currently own a fishing vessel, but who has owned a qualifying vessel that has

sunk, been destroyed, or transferred to another person, must apply for and receive a CPH if the fishing and permit history of such vessel has been retained lawfully by the applicant. To be eligible to obtain a CPH, the applicant must show that the qualifying vessel meets the eligibility requirements, as applicable, in this part. Issuance of a valid CPH preserves the eligibility of the applicant to apply for a limited access permit for a replacement vessel based on the qualifying vessel's fishing and permit history at a subsequent time, subject to the replacement provisions specified in this section. If fishing privileges have been assigned or allocated previously under this part, based on the qualifying vessel's fishing and permit history, the CPH also preserves such fishing privileges. A CPH must be applied for in order for the applicant to preserve the fishing rights and limited access eligibility of the qualifying vessel. An application for a CPH must be received by the Regional Administrator no later than 30 days prior to the end of the first full fishing year in which a vessel permit cannot be issued. Failure to do so is considered abandonment of the permit as described in paragraph (o) of this section. A CPH issued under this part will remain valid until the fishing and permit history preserved by the CPH is used to qualify a replacement vessel for a limited access permit. Any decision regarding the issuance of a CPH for a qualifying vessel that has been applied for or been issued previously a limited access permit is a final agency action subject to judicial review under 5 U.S.C. 704. Information requirements for the CPH application are the same as those for a limited access permit. Any request for information about the vessel on the CPH application form means the qualifying vessel that has been sunk, destroyed, or transferred. Vessel permit applicants who have been issued a CPH and who wish to obtain a vessel permit for a replacement vessel based upon the previous vessel history may do so pursuant to paragraph (c) of this section.

(6) *Restriction on permit splitting.* A Federal limited access lobster permit will not be issued to a vessel or its replacement, or remain valid, if the vessels' permit or fishing history has been

used to qualify another vessel for another Federal fishery.

(7) *Management area designations for vessels fishing with traps.* (i) For fishing year 2000 and beyond, it is unlawful for vessels issued a limited access American lobster permit fishing with traps, to retain on board, land, or possess American lobster in or from the management areas specified in § 697.18, unless such fishing vessel has been issued a valid management area designation certificate or valid limited access American lobster permit specifying such management area(s).

(ii) Each owner of a fishing vessel that fishes with traps capable of catching American lobster must declare to NMFS in his/her annual application for permit renewal which management areas, as described in § 697.18, the vessel will fish in for lobster with trap gear during that fishing season. The ability to declare into Lobster Conservation Management Areas 3, 4 and/or 5, however, will be first contingent upon a one time initial qualification as set forth in paragraphs (a)(7)(vi) through (a)(7)(viii).

(iii) A lobster management area designation certificate or limited access American lobster permit shall specify in which lobster management area or areas the vessel may fish.

(iv) Once a vessel has been issued a lobster management area designation certificate or limited access American lobster permit specifying the lobster EEZ management areas in which the vessel may fish, no changes to the EEZ management areas specified may be made for such vessel for the remainder of the fishing year. There are two exceptions to this re-designation restriction:

(A) Vessels that have been bought, transferred, or become a replacement vessel for another qualified vessel may request re-designation of the EEZ management areas within 45 days of the effective date of the vessel's permit; and

(B) All vessels will have one opportunity to request a correction in permit category, if such request is made in writing to the Regional Administrator within 45 days of the effective date of the vessel's permit.

(v) A vessel issued a lobster management area designation certificate or

limited access American lobster permit specifying more than one EEZ management area must abide by the most restrictive management measures in effect for any one of the specified areas, regardless of the area being fished, for the entire fishing year.

(vi) *Participation requirements for EEZ Offshore Management Area 3 (Area 3).* To fish for lobster with traps in Area 3, a Federal lobster permit holder must initially qualify into the area. To qualify, the permit holder seeking initial qualification must satisfy the following requirements in an application to the Regional Administrator:

(A) *Qualification criteria.* To initially qualify into Area 3, the applicant must establish with documenting proof the following:

(1) That the applicant possesses a current Federal lobster permit;

(2) That at least 200 lobster traps were set, allowed to soak, hauled back, and re-set in Area 3 by the qualifying vessel during a period of two consecutive calendar months in any calendar year during the period from March 25, 1991, through September 1, 1999, excluding the time period in calendar years 1991 and 1999 that are outside the qualification period (i.e., January 1, 1991 through March 24, 1991 and September 2, 1999 through December 31, 1999);

(3) That at least 25,000 lb (11,340 kg) of lobster were landed by the qualifying vessel from any location during the qualifying year selected in paragraph (9)(7)(vi)(A)(2).

(B) *Trap allocation criteria.* A qualified applicant must also establish with documentary proof the number of lobster traps fished by the qualifying vessel in Area 3 during the qualifying year. To the extent that the documentation so establishes, the Regional Administrator will then allocate a maximum number of lobster traps with which to fish in Area 3 as it relates to the sliding scale set forth in § 697.19.

(C) *Documentary proof.* To satisfy the Area 3 Initial Qualification and Trap Allocation Criteria set forth in paragraphs (9)(7)(vi)(A) and (B) of this section, the applicants will be limited to the following documentary proof:

(1) As proof of a valid Federal lobster permit, the applicant must provide a copy of the vessel's current Federal

lobster permit. The potential qualifier may, in lieu of providing a copy, provide NMFS with such data that would allow NMFS to identify the current permit holder in its data base, which would at a minimum include: the applicant's name and address, vessel name and permit number;

(2) As proof of 200 trap/two consecutive month criterion, the applicant must provide - to the extent that the document(s) clearly and credibly establishes this criterion - one or more of the following types of documentation: copies of Federal Fishing Vessel Trip Reports (NOAA Form 88-30), Federal Port Agent Vessel Interview forms (NOAA Form 88-30), Federal Sea Sampling Observer Reports or a Federal Fishing Vessel and Gear Damage Compensation Fund Report (NOAA Form 88-176); personal vessel logbooks; state permit applications; and/or official state reporting documentation showing the number of lobster traps fished, including, but not limited to, state report cards, state vessel interview forms, license application forms, state sea sampling observer reports, and catch reports. These documents must have been created on or about the time of activity stated in the document. NMFS will not accept recent vessel log book entries or other recently created documents identified in this part as proof of fishing activity that occurred in prior years;

(3) As proof that 25,000 lb (11,340 kg) of lobster were landed the applicant must provide - to the extent that the document(s) clearly and credibly establishes this criterion - one or more of the following types of documentation: copies of Federal Fishing Vessel Trip Reports (NOAA Form 88-30), Federal Port Agent Vessel Interview forms (NOAA Form 88-30) or Federal Sea Sampling Observer Reports; personal vessel logbooks; official state reporting documentation showing the pounds of lobster landed, including, but not limited to, state report cards, state vessel interview forms, state sea sampling observer reports, and catch reports; and/or sales receipts or landing slips. These documents must have been created on or about the time of activity stated in the document. NMFS will not accept recent vessel log book entries or other

recently created documents identified in this part as proof of fishing activity that occurred in prior years;

(4) As proof of the number of traps fished during the qualifying year, NOAA Fisheries will accept to the extent that the document(s) clearly and credibly establishes this criterion one or more of the following types of documentation: copies of Federal Fishing Vessel Trip Reports (NOAA Form 88-30); Federal Port Agent Vessel Interview Forms (NOAA Form 88-30); Federal Sea Sampling Observer Reports; Federal Fishing Vessel and Gear Damage Compensation Fund Reports (NOAA Form 88-176); personal vessel logbooks; tax returns and sales receipts; state permit applications; and/or official state reporting documentation showing the number of traps fished, including, but not limited to, state report cards, state vessel interview forms, license application forms, state sea sampling observer reports, and catch reports. Documentation may represent the number of traps fished during any point in the qualifying year and does not necessarily need to represent the 2-consecutive month period used in paragraph (a)(7)(vi)(C)(2) of this section. These documents must have been created on or about the time of the activity stated in the document. NMFS will not accept recent vessel log book entries or other recently created documents identified in this part as proof of fishing activity that occurred in prior years;

(5) All applicants must further provide a signed cover letter that identifies the documents provided and which qualifying and trap allocation criteria the documents are being used to establish;

(6) All applicants must further provide an affidavit attesting under the penalties of perjury that each aspect of each of the qualification and trap allocation criteria has been met and the submitted supporting documentation is truthful, accurate and created contemporaneously with the dates identified on the documents. Specifically, each affidavit must attest in separate and specific paragraphs:

(i) The name, address, lobster permit number and vessel of the applicant;

(ii) That at least 200 lobster traps were set, allowed to soak, hauled back and re-set during the 2-month period in the qualifying year in the area being selected by the applicant, identifying those months and that year and further identifying which documents are being offered as proof of such;

(iii) That at least 25,000 lb (11,340 kg) of lobster were landed during the qualifying year by the vessel, identifying that year and further identifying which documents are being offered as proof of such;

(iv) The total number of traps set in the qualifying area during the qualifying year, identifying that area and year, and further identifying which documents are being offered as proof of such; and

(v) That the submitted documents in support of these claims are truthful, accurate and created during the qualifying year.

(7) All documents and submissions must be legible. Illegible documents or submissions will not be considered;

(8) The Regional Administrator may, at his or her discretion, waive documentary obligations for certain elements of the qualification criteria for an applicant if NMFS itself has clear and credible evidence that would satisfy that qualification criteria for the applicant;

(9) At the discretion of the Regional Administrator, all submitted documentation must be accompanied by a completed NMFS Lobster Historical Participation Application Form.

(10) Applicants must retain copies of all the application materials and documentation submitted to NMFS while the application is pending.

(D) *Application period.* The time period for submitting a historical qualification and trap allocation application begins on the date 30 days after publication of this final rule (application period start date) and ends December 31, 2003.

(I) *Earlier submissions.* Applicants who submit their applications to the Regional Administrator by July 31, 2003 (or in less than 60 days after the application period start date, whichever is later) will be eligible to receive a temporary interim permit that would allow the vessel to continue fishing

with traps in Area 3 at existing levels during the 2003 fishing season while NMFS processes the application. After processing and reaching a decision on this earlier submitted application, the Regional Administrator may then issue a revised permit that will indicate the vessel's Area 3 eligibility and trap allocation. This revised permit will supersede the temporary interim permit and be effective immediately.

(2) *Later submissions.* Applicants who submit their applications to the Regional Administrator after July 31, 2003 (or more than 60 days after the application period start date, whichever is later), will not be eligible to receive a temporary interim permit that would allow continued fishing in Area 3 while NMFS processes the application. Even though they may be deemed qualified, applicants submitting applications in this later time period will not be eligible to fish in Area 3 until the 2004 fishing season.

(vii) *Participation requirements for EEZ Nearshore Management Area 4 (Area 4).* To fish for lobster with traps in Area 4, a Federal lobster permit holder must initially qualify into the area. To qualify, the permit holder seeking initial qualification must satisfy the following requirements in an application to the Regional Administrator:

(A) *Qualification criteria.* To initially qualify into Area 4, the applicant must establish with documenting proof the following:

(1) That the applicant possesses a current Federal lobster permit;

(2) That at least 200 lobster traps were set, allowed to soak, hauled back, and re-set in Area 4 by the qualifying vessel during a period of two consecutive calendar months in any calendar year during the period from March 25, 1991, through September 1, 1999, excluding the time period in calendar years 1991 and 1999 that are outside the qualification period (i.e., January 1, 1991 through March 24, 1991 and September 2, 1999 through December 31, 1999).

(B) *Trap allocation criteria.* A qualified applicant must also establish with documentary proof the number of lobster traps fished by the qualifying vessel in Area 4 during the qualifying year. To the extent that the documentation so establishes, the Regional Adminis-

trator will then allocate a maximum number of lobster traps with which to fish in Area 4, not to exceed 1,440 traps.

(C) *Documentary proof.* To satisfy the Area 4 Initial Qualification and Trap Allocation Criteria set forth in paragraphs (A) and (B) of this section, the applicants will be limited to the following documentary proof:

(1) As proof of a valid Federal lobster permit, the applicant must provide a copy of the vessel's current Federal lobster permit. The potential qualifier may, in lieu of providing a copy, provide NMFS with such data that would allow NMFS to identify the current permit holder in its data base, which would at a minimum include: the applicant's name and address, vessel name and permit number;

(2) As proof of 200 trap/two consecutive month criterion, the applicant must provide - to the extent that the document(s) clearly and credibly establishes this criterion - one or more of the following types of documentation: Copies of Federal Fishing Vessel Trip Reports (NOAA Form 88-30), Federal Port Agent Vessel Interview forms (NOAA Form 88-30), Federal Sea Sampling Observer Reports or a Federal Fishing Vessel and Gear Damage Compensation Fund Report (NOAA Form 88-176); personal vessel logbooks; state permit applications; and/or official state reporting documentation showing the number of lobster traps fished, including, but not limited to, state report cards, state vessel interview forms, license application forms, state sea sampling observer reports, and catch reports. These documents must have been created on or about the time of activity stated in the document. NMFS will not accept recent vessel log book entries or other recently created documents identified in this part as proof of fishing activity that occurred in prior years;

(3) As proof of the number of traps fished during the qualifying year, NOAA Fisheries will accept to the extent that the document(s) clearly and credibly establishes this criterion - one or more of the following types of documentation: Copies of Federal Fishing Vessel Trip Reports (NOAA Form 88-

30); Federal Port Agent Vessel Interview Forms (NOAA Form 88-30); Federal Sea Sampling Observer Reports; Federal Fishing Vessel and Gear Damage Compensation Fund Reports (NOAA Form 88-176); personal vessel logbooks; tax returns and sales receipts; state permit applications; and/or official state reporting documentation showing the number of traps fished, including, but not limited to, state report cards, state vessel interview forms, license application forms, state sea sampling observer reports, and catch reports. Documentation may represent the number of traps fished during any point in the qualifying year and does not necessarily need to represent the 2-consecutive month period used in paragraph (a)(7)(vii)(C)(2) of this section. These documents must have been created on or about the time of the activity stated in the document. NMFS will not accept recent vessel log book entries or other recently created documents identified in this part as proof of fishing activity that occurred in prior years;

(4) All applicants must further provide a signed cover letter that identifies the documents provided and which qualifying and trap allocation criteria the documents are being used to establish;

(5) All applicants must further provide an affidavit attesting under the penalties of perjury that each aspect of each of the qualification and trap allocation criteria has been met and the submitted supporting documentation is truthful, accurate and created contemporaneously with the dates identified on the documents. Specifically, each affidavit must attest in separate and specific paragraphs:

(i) The name, address, lobster permit number and vessel of the applicant;

(ii) That at least 200 lobster traps were set, allowed to soak, hauled back and re-set during the two month period in the qualifying year in the area being selected by the applicant, identifying those months and that year and further identifying which documents are being offered as proof of such;

(iii) The total number of traps set in the qualifying area during the qualifying year, identifying that area and year, and further identifying which

documents are being offered as proof of such; and

(iv) That the submitted documents in support of these claims are truthful, accurate and created during the qualifying year.

(6) All documents and submissions must be legible. Illegible documents or submissions will not be considered;

(7) The Regional Administrator may, at his or her discretion, waive documentary obligations for certain elements of the qualification criteria for an applicant if NMFS itself has clear and credible evidence that would satisfy that qualification criteria for the applicant;

(8) At the discretion of the Regional Administrator, all submitted documentation must be accompanied by a completed NMFS Lobster Historical Participation Application Form.

(9) Applicants must retain copies of all the application materials and documentation submitted to NMFS while the application is pending.

(D) *Application period.* The time period for submitting a historical qualification and trap allocation application begins on the date 30 days after publication of this final rule (application period start date) and ends December 31, 2003.

(1) *Earlier submissions.* Applicants who submit their applications to the Regional Administrator by July 31, 2003 (or in less than 60 days after the application period start date, whichever is later) will be eligible to receive a temporary interim permit that would allow the vessel to continue fishing in Area 4 at existing levels during the 2003 fishing season while NMFS processes the application. After processing and reaching a decision on this earlier submitted application, the Regional Administrator may then issue a revised permit that will indicate the vessel's Area 4 eligibility and trap allocation. This revised permit will supercede the temporary interim permit and be effective immediately.

(2) *Later submissions.* Applicants who submit their applications to the Regional Administrator after July 31, 2003 (or more than 60 days after the application period start date, whichever is later), will not be eligible to receive a temporary interim permit that would

allow continued fishing in Area 4 while NMFS processes the application. Even though they may be deemed qualified, applicants submitting applications in this later time period will not be eligible to fish in Area 4 until the 2004 fishing season.

(viii) Participation requirements for EEZ Nearshore Management Area 5 (Area 5). To fish for lobster with traps in Area 5, a Federal lobster permit holder must initially qualify into the area. To qualify, the permit holder seeking initial qualification must satisfy the following requirements in an application to the Regional Administrator:

(A) *Qualification criteria.* To initially qualify into Area 5, the applicant must establish the following:

(1) That the applicant possesses a current Federal lobster permit;

(2) That at least 200 lobster traps were set, allowed to soak, hauled back, and re-set in Area 5 by the qualifying vessel during a two consecutive calendar month period in any calendar year during the period from March 25, 1991, through September 1, 1999, excluding the time period in calendar years 1991 and 1999 that are outside the qualification period (i.e., January 1, 1991 through March 24, 1991 and September 2, 1999 through December 31, 1999).

(B) *Trap allocation criteria.* A qualified applicant must also establish with documentary proof the number of lobster traps fished by the qualifying vessel in Area 5 during the qualifying year. To the extent that the documentation so establishes, the Regional Administrator will then allocate a maximum number of lobster traps with which to fish in Area 5, not to exceed 1,440 traps.

(C) *Documentary proof.* To satisfy the Area 5 Initial Qualification and Trap Allocation Criteria set forth in paragraphs (9)(7)(viii)(A) and (B) of this section, the applicants will be limited to the following documentary proof:

(1) As proof of a valid Federal lobster permit, the applicant must provide a copy of the vessel's current Federal lobster permit. The potential qualifier may, in lieu of providing a copy, provide NMFS with such data that would allow NMFS to identify the current permit holder in its data base, which would at a minimum include: the appli-

cant's name and address, vessel name and permit number.

(2) As proof of 200-trap/2-consecutive month criterion, the applicant must provide - to the extent that the document(s) clearly and credibly establishes this criterion - one or more of the following types of documentation: copies of Federal Fishing Vessel Trip Reports (NOAA Form 88-30), Federal Port Agent Vessel Interview forms (NOAA Form 88-30), Federal Sea Sampling Observer Reports or a Federal Fishing Vessel and Gear Damage Compensation Fund Report (NOAA Form 88-176); personal vessel logbooks; state permit applications; and/or official state reporting documentation showing the number of lobster traps fished, including, but not limited to, state report cards, state vessel interview forms, license application forms, state sea sampling observer reports, and catch reports. These documents must have been created on or about the time of activity stated in the document. NMFS will not accept recent vessel log book entries or other recently created documents identified in this part as proof of fishing activity that occurred in prior years.

(3) As proof of the number of traps fished during the qualifying year, NOAA Fisheries will accept to the extent that the document(s) clearly and credibly establishes this criterion - one or more of the following types of documentation: copies of Federal Fishing Vessel Trip Reports (NOAA Form 88-30); Federal Port Agent Vessel Interview Forms (NOAA Form 88-30); Federal Sea Sampling Observer Reports; Federal Fishing Vessel and Gear Damage Compensation Fund Reports (NOAA Form 88-176); personal vessel logbooks; tax returns and sales receipts; state permit applications; and/or official state reporting documentation showing the number of traps fished, including, but not limited to, state report cards, state vessel interview forms, license application forms, state sea sampling observer reports, and catch reports. Documentation may represent the number of traps fished during any point in the qualifying year and does not necessarily need to represent the 2-consecutive month period used in paragraph (a)(7)(viii)(C)(2) of

this section. These documents must have been created on or about the time of the activity stated in the document. NMFS will not accept recent vessel log book entries or other recently created documents identified in this part as proof of fishing activity that occurred in prior years;

(4) All applicants must further provide a signed cover letter that identifies the documents provided and which qualifying and trap allocation criteria the documents are being used to establish;

(5) All applicants must further provide an affidavit attesting under the penalties of perjury that each aspect of each of the qualification and trap allocation criteria has been met and the submitted supporting documentation is truthful, accurate and created contemporaneously with the dates identified on the documents. Specifically, each affidavit must attest in separate and specific paragraphs:

(i) The name, address, lobster permit number and vessel of the applicant;

(ii) That at least 200 lobster traps were set, allowed to soak, hauled back and re-set during the two month period in the qualifying year in the area being selected by the applicant, identifying those months and that year and further identifying which documents are being offered as proof of such;

(iii) The total number of traps set in the qualifying area during the qualifying year, identifying that area and year, and further identifying which documents are being offered as proof of such; and

(iv) That the submitted documents in support of these claims are truthful, accurate and created during the qualifying year.

(6) All documents and submissions must be legible. Illegible documents or submissions will not be considered;

(7) The Regional Administrator may, at his or her discretion, waive documentary obligations for certain elements of the qualification criteria for an applicant if NMFS itself has clear and credible evidence that would satisfy that qualification criteria for the applicant;

(8) At the discretion of the Regional Administrator, all submitted documentation must be accompanied by a

completed NMFS Lobster Historical Participation Application Form.

(9) Applicants must retain copies of all the application materials and documentation submitted to NMFS while the application is pending.

(D) *Application period.* The time period for submitting a historical qualification and trap allocation application begins on the date 30 days after publication of this Final Rule (application period start date) and ends December 31, 2003.

(1) *Earlier submissions.* Applicants who submit their applications to the Regional Administrator by July 31, 2003 (or in less than 60 days after the application period start date, whichever is later) will be eligible to receive a temporary interim permit that would allow the vessel to continue fishing in Area 5 at existing levels during the 2003 fishing season while NMFS processes the application. After processing and reaching a decision on this earlier submitted application, the Regional Administrator may then issue a revised permit that will indicate the vessel's Area 5 eligibility and trap allocation. This revised permit will supercede the temporary interim permit and be effective immediately.

(2) *Later submissions.* Applicants who submit their applications to the Regional Administrator after July 31, 2003 (or more than 60 days after the application period start date, whichever is later), will not be eligible to receive a temporary interim permit that would allow continued fishing in Area 5 while NMFS processes the application. Even though they may be deemed qualified, applicants submitting applications in this later time period will not be eligible to fish in Area 5 until the 2004 fishing season.

(ix) *Qualifying year for vessels seeking to fish for lobster with traps in more than one area of Areas 3, 4, and 5.* Any Federal lobster permit holder applying for a lobster trap allocation in more than one area amongst Areas 3, 4 and 5 must use the same qualifying year for all areas.

(x) *Appeal of denial of permit.* Any applicant having first applied for initial qualification pursuant to §6 paragraphs (a)(7)(vi), (a)(7)(vii) and/or (a)(7)(viii) of this section, but having been denied a

limited access American lobster permit for Areas 3, 4, and/or 5, may appeal to the Regional Administrator within 45 days of the date indicated on the notice of denial. Any such appeal must be in writing.

(A) *Grounds for appeal.* There shall be two grounds for appeal:

(1) *Clerical error.* It shall be grounds for appeal that the Regional Administrator erred clerically in concluding that the vessel did not meet the criteria in paragraphs (a)(7)(vi), (a)(7)(vii), and/or (a)(7)(viii) of this section. Errors arising from oversight or omission such as ministerial, mathematical or typographical mistakes would form the basis of such an appeal. Alleged errors in substance or judgment do not form a sufficient basis of appeal under this paragraph. The appeal must set forth the basis for the applicant's belief that the Regional Administrator's decision was made in error.

(2) *Documentary hardship.* It shall be grounds for appeal that an otherwise qualified applicant is unable to produce qualification evidence due to documentary hardship. The hardship must have been caused by factors beyond the applicant's control, such as documents lost in a flood or fire. Failure to create the documents in the first instance, or simple loss of the document, or the intentional destruction or discarding of the document in the past by the appellant, or lacking the appropriate qualification documents due to inadvertence, carelessness or excusable neglect, do not constitute grounds for hardship under this paragraph. Appeals based on documentary hardship must establish the following:

(i) *Nature of the hardship.* The appellant must identify the hardship and submit to the Regional Administrator a document corroborating the hardship, such as by insurance claims forms or police and fire reports; and

(ii) *Affidavits.* The appellant must submit affidavits from current Federal permit holders so that three affidavits corroborate each of the qualification criteria for Area 3 as indicated in paragraph (a)(7)(vi) of this section, Area 4 as indicated in paragraph (a)(7)(vii) of this section, and/or for Area 5 as indicated in paragraph (a)(7)(viii) of this section. Each affidavit must clearly

specify in separate and specific paragraphs: The name, address, Federal permit number and vessel name of the affiant; that the affiant can attest to by personal first-hand knowledge that the qualifying vessel set, allowed to soak, hauled back and re-set at least 200 lobster traps during the 2-month period in the qualifying year in the area being selected by the applicant, identifying those months and that year and further identifying the nature of that knowledge; for Area 3 only, that the affiant can attest to by personal first-hand knowledge that the qualifying vessel landed at least 25,000 lb (11,340 kg) of lobster during the qualifying year, identifying that year and further identifying the nature of that knowledge; that the affiant can attest to by personal first-hand knowledge to the total number of traps that the applicant claims his or her vessel fished in the area in question during the qualifying year and further identifying the nature of that knowledge; that the affiant also fished in the area being claimed by the applicant during the months in the qualifying year chosen by the applicant; and be signed under the penalties of perjury. The requirement that each qualification criteria must be independently affirmed by three Federal permit holders does not restrict the appellant to using the same three affiants for each qualification criterion, although the appellant is encouraged to do so. The term personal first-hand knowledge in this paragraph means information directly gained by the affiant and would not include information gained from word of mouth or hearsay.

(B) *Appellate timing and review.* All appeals must be in writing and must be submitted to the Regional Administrator postmarked no later than 45 days after the date on NMFS' Notice of Denial of Initial Qualification application. Failure to register an appeal within 45 days of the date of the Notice of Denial will preclude any further appeal. The appellant may notify the Regional Administrator of his or her intent to appeal within the 45 days and request a time extension to procure the necessary affidavits and documentation. Time extensions shall be limited

to 30 days and shall be calculated as extending 30 days beyond the initial 45-day period that begins on the original date on the Notice of Denial. Appeals submitted beyond the deadlines stated herein will not be accepted. Upon receipt of a complete written appeal with supporting documentation in the time frame allowable, the Regional Administrator will then appoint an appeals officer who will review the appellate documentation. After completing a review of the appeal, the appeals officer will make findings and a recommendation, which shall be advisory only, to the Regional Administrator, who shall make the final agency decision whether to qualify the applicant.

(C) *Status of vessels pending appeal.* The Regional Administrator may authorize a vessel to fish in Areas 3, 4 or 5 during an appeal. The Regional Administrator may do so by issuing a letter authorizing the appellant to fish up to 800 traps in Areas 4 or 5, or up to 1,800 traps in Area 3 during the pendency of the appeal. The Regional Administrator's letter must be present onboard the vessel while it is engaged in such fishing in order for the vessel to be authorized. If the appeal is ultimately denied, the Regional Administrator's letter authorizing fishing during the appeal will become invalid 5 days after receipt of the notice of appellate denial or 15 days after the date on the notice of appellate denial, whichever occurs first.

(b) *Condition.* Vessel owners who apply for a Federal limited access American lobster permit under this section must agree, as a condition of the permit, that the vessel and vessel's fishing, catch, and pertinent gear (without regard to whether such fishing occurs in the EEZ or landward of the EEZ, and without regard to where such fish or gear are possessed, taken, or landed), are subject to all requirements of this part, as well as gear, time, and area restrictions issued or set forth in other parts, including, but not limited to, 50 CFR parts 229 and 648. The vessel and all such fishing, catch, and gear shall remain subject to all applicable state or local requirements. If a requirement of this part and a management measure required by state or local law differ, any vessel

owner permitted to fish in the EEZ must comply with the more restrictive requirement.

(c) *Vessel permit application.* Applicants for a Federal limited access American lobster permit under this section must submit a completed application on an appropriate form obtained from the Regional Administrator. To be complete, an application for a Federal limited access American lobster permit must contain at least the following information, and any other information specified on the application form or otherwise required by the Regional Administrator: Vessel name; owner name, mailing address, and telephone number; U.S. Coast Guard documentation number and a copy of the vessel's U.S. Coast Guard documentation or, if undocumented, state registration number and a copy of the state registration; lobster management area designation the vessel will fish in, as specified in § 697.18, if fishing with traps capable of catching American lobster; home port and principal port of landing; overall length; gross tonnage; net tonnage; engine horsepower; year the vessel was built; type of construction; type of propulsion; approximate fish-hold capacity; type of fishing gear used by the vessel; number of crew; permit category; if the owner is a corporation, a copy of the Certificate of Incorporation; and the names and addresses of all shareholders owning 25 percent or more of the corporation's shares; if the owner is a partnership, a copy of the Partnership Agreement and the names and addresses of all partners; if there is more than one owner, names of all owners having more than a 25 percent interest; and name and signature of the owner or the owner's authorized representative. The application must be signed by the owner of the vessel, or the owner's authorized representative, and be submitted to the Regional Administrator at least 30 days prior to the date on which the permit is needed by the applicant. The Regional Administrator shall notify the applicant of any deficiency in the application.

(d) *Trap tag application, lost and replacement tags.* (1) Beginning fishing year 2000, any lobster trap fished in

#### § 697.4

#### 50 CFR Ch. VI (10–1–08 Edition)

Federal waters must have a valid Federal lobster trap tag permanently attached to the trap bridge or central cross-member, unless exempt under § 697.26.

(2) Trap tags shall be issued by the Regional Administrator, or, by state agencies, by agreement with the Regional Administrator, provided that such state tagging programs accurately identify the Federal limited access American lobster permit holder. NMFS will provide notice to American lobster permit holders as to the procedure for applying for trap tags and any required fees.

(3) Vessel owners or operators are required to report to the Regional Administrator lost, destroyed, and missing tags as soon as feasible within 7 days after the tags have been discovered lost, destroyed, or missing, by letter or fax to the Regional Administrator.

(4) Requests for replacement of lost tags in excess of the tag limit specified in § 697.19(c) must be submitted in writing to the Regional Administrator on an appropriate form obtained from the Regional Administrator and signed by the permit holder or authorized representative. The form and request for replacement tags will be reviewed by the Regional Administrator on a case-by-case basis and a decision will be reached on the number of replacement tags to be issued, if any. A check for the cost of the replacement tags must be received before tags will be re-issued.

(e) *Fees.* The Regional Administrator may charge a fee to recover the administrative expenses of issuing a permit or trap tags required under this section. Fee amounts shall be calculated in accordance with the procedures of the NOAA Finance Handbook, available from the Regional Administrator, for determining administrative costs of each special product or service. Fees may not exceed such costs and shall be specified with each application form. The applicable fee must accompany each application; if it does not, the application will be considered incomplete for purposes of paragraph (f) of this section. Any fee paid by an insufficiently funded commercial instrument

shall render any permit issued on the basis thereof null and void.

(f) *Issuance.* (1) Except as provided in subpart D of 15 CFR part 904, the Regional Administrator shall issue a permit or tags, as applicable, within 30 days of receipt of the application unless:

(i) The applicant has failed to submit a completed application. An application is complete when all requested forms, information, documentation, and fees, if applicable, have been received;

(ii) The application was not received by the Regional Administrator by any applicable deadline set forth in this section;

(iii) The applicant and applicant's vessel failed to meet all applicable eligibility requirements set forth in this section or the number of tags requested exceeds the applicable tag limit specified in § 697.19(c);

(iv) The applicant has failed to meet any other application or tag requirements stated in this part.

(v) The application is for initial qualification for access to Area 3, 4 or 5 pursuant to the historical participation process in paragraphs (a)(7)(vi)(D), (a)(vii)(D), and (a)(viii)(D) of this section.

(2) *Incomplete applications.* Upon receipt of an incomplete or improperly executed application for any permit under this part, the Regional Administrator shall notify the applicant of the deficiency in the application. If the applicant fails to correct the deficiency within 30 days following the date of notification, the application will be considered abandoned.

(g) *Expiration.* A permit expires annually upon the renewal date specified in the permit.

(h) *Duration.* A permit will continue in effect until the renewal date unless it is revoked, suspended, or modified under 15 CFR part 904, or otherwise expires, or ownership changes, or the applicant has failed to report any change in the information on the permit application to the Regional Administrator as specified in paragraph (k) of this section.

(i) *Reissuance.* A vessel permit may be reissued by the Regional Administrator when requested in writing by the owner

## Fishery Conservation and Management

## § 697.5

or authorized representative, stating the need for reissuance, the name of the vessel, and the number of the permit requested to be reissued. An application for a reissued permit is not considered a new application. The fee for a reissued permit shall be the same as for an initial permit.

(j) *Transfer.* A permit issued under this part is not transferable or assignable. A permit will be valid only for the fishing vessel, owner and/or person for which it is issued.

(k) *Change in application information.* Within 15 days after a change in the information contained in an application submitted under this section, a written notice of the change must be submitted to the Regional Administrator. If the written notice of the change in information is not received by the Regional Administrator within 15 days, the permit is void.

(l) *Alteration.* Any permit that has been altered, erased, or mutilated is invalid.

(m) *Display.* A vessel permit must be carried, at all times, on board the vessel for which it is issued and shall be subject to inspection upon request by any authorized officer. Any permit issued under this part must be maintained in legible condition.

(n) *Sanctions.* Permits issued or sought under this section may be suspended, revoked, or modified, by procedures governing enforcement-related permit sanctions and denials, found at subpart D of 15 CFR part 904.

(o) *Abandonment or voluntary relinquishment of limited access American lobster permits.* Failure to renew a limited access permit in any fishing year bars the renewal of the permit in subsequent years. If a vessel's Federal limited access American lobster permit or CPH is voluntarily relinquished to the Regional Administrator, or abandoned through failure to renew or otherwise, no Federal limited access American lobster permit or CPH may be reissued or renewed based on the qualifying vessel's history.

(p) *Permit category change.* A vessel permit category change (for individuals who possess a dual Federal limited access permit for American lobster and black sea bass and who restrict fishing operations to Area 5) may be issued by

the Regional Administrator when requested in writing by the owner or by an authorized representative of a vessel meeting the eligibility requirements under § 697.26(a).

[64 FR 68248, Dec. 6, 1999, as amended at 66 FR 14501, Mar. 13, 2001; 68 FR 14925, Mar. 27, 2003; 71 FR 13037, Mar. 14, 2006]

### § 697.5 Operator permits.

(a) *General.* Any operator of a vessel issued a Federal limited access American lobster permit under § 697.4(a), or any operator of a vessel of the United States that fishes for, possesses, or lands American lobsters, harvested in or from the EEZ must have been issued and carry on board a valid operator's permit issued under this section. This requirement does not apply to: Charter, head, and commercial dive vessels that possess six or fewer American lobsters per person aboard the vessel if said lobsters are not intended for nor used in trade, barter or sale; recreational fishing vessels; and vessels that fish exclusively in state waters for American lobster.

(b) *Operator application.* Applicants for a permit under this section must submit a completed permit application on an appropriate form obtained from the Regional Administrator. To be complete, an application must contain at least the following information, and any other information specified on the application form or otherwise required by the Regional Administrator: Name, mailing address, and telephone number; date of birth; hair color; eye color; height; weight; social security number (optional) and signature of the applicant. The applicant must also provide two recent (no more than 1 year old) color passport-size photographs. The application must be signed by the applicant and submitted to the Regional Administrator at least 30 days prior to the date on which the applicant desires to have the permit made effective. The Regional Administrator will notify the applicant of any deficiency in the application.

(c) *Condition.* Vessel operators who apply for an operator's permit under this section must agree, as a condition of this permit, that the operator and vessels fishing, catch, crew size, and pertinent gear (without regard to

whether such fishing occurs in the EEZ or landward of the EEZ, and without regard to where such fish or gear are possessed, taken, or landed), are subject to all requirements of this part while fishing in the EEZ or on board a vessel permitted under § 697.4. The vessel and all such fishing, catch, and gear will remain subject to all applicable state or local requirements. Further, such operators must agree, as a condition of this permit, that if the permit is suspended or revoked pursuant to 15 CFR part 904, the operator cannot be on board any fishing vessel issued a Federal fisheries permit or any vessel subject to Federal fishing regulations while the vessel is at sea or engaged in off loading. If a requirement of this part and a management measure required by state or local law differ, any operator issued a permit under this part must comply with the more restrictive requirement or measure.

(d) *Fees.* The Regional Administrator may charge a fee to recover the administrative expenses of issuing a permit required under this section. The amount of the fee shall be calculated in accordance with the procedures of the NOAA Finance Handbook, available from the Regional Administrator, for determining administrative costs of each special product or service. The fee may not exceed such costs and shall be specified with each application form. The applicable fee must accompany each application; if it does not, the application will be considered incomplete for purposes of paragraph (e) of this section. Any fee paid by an insufficiently funded commercial instrument shall render any permit issued on the basis thereof null and void.

(e) *Issuance.* Except as provided in subpart D of 15 CFR part 904, the Regional Administrator shall issue an operator's permit within 30 days of receipt of the application if the criteria specified herein are met. Upon receipt of an incomplete or improperly executed application, the Regional Administrator will notify the applicant of the deficiency in the application. If the application fails to correct the deficiency within 30 days following the date of notification, the application will be considered abandoned.

(f) *Expiration.* A permit expires upon the renewal date specified in the permit.

(g) *Duration.* An operator permit is valid until it is revoked, suspended, or modified under subpart D of 15 CFR part 904, or otherwise expires, or the applicant has failed to report a change in the information on the permit application to the Regional Administrator as specified in paragraph (j) of this section.

(h) *Reissuance.* An operator permit may be reissued by the Regional Administrator when requested in writing by the applicant, stating the need for reissuance and the number of the permit requested to be reissued. An applicant for a reissued operator permit must also provide two recent (no more than 1 year old) color passport-size photos of the applicant. An application for a reissued permit is not considered a new application. An appropriate fee may be charged.

(i) *Transfer.* Permits issued under this section are not transferable or assignable. A permit is valid only for the person to whom it is issued.

(j) *Change in application information.* Notice of a change in the permit holder's name, address, or telephone number must be submitted in writing to, and received by, the Regional Administrator within 15 days of the change in information. If written notice of the change in information is not received by the Regional Administrator within 15 days, the permit is void.

(k) *Alteration.* Any permit that has been altered, erased, or mutilated is invalid.

(l) *Display.* Any permit issued under this part must be maintained in legible condition and displayed for inspection upon request by any authorized officer.

(m) *Sanctions.* Vessel operators with suspended or revoked permits may not be on board a federally permitted fishing vessel in any capacity while the vessel is at sea or engaged in off-loading. Permits issued or sought under this section may be suspended, revoked, or modified, by procedures governing enforcement-related permit sanctions and denials, found at subpart D of 15 CFR part 904.

(n) *Vessel owner responsibility.* Vessel owners are responsible for ensuring

that their vessels are operated by an individual with a valid operator's permit issued under this section.

**§ 697.6 Dealer permits.**

(a) Any person who receives, for a commercial purpose (other than solely for transport on land), American lobster from the owner or operator of a vessel issued a valid permit under this part, or any person who receives, for a commercial purpose (other than solely for transport on land), American lobster, managed by this part, must have been issued, and have in his/her possession, a valid permit issued under this section.

(b) *Dealer application.* Applicants for a dealer permit under this section must submit a completed permit application on an appropriate form obtained from the Regional Administrator. To be complete, an application must contain at least the following information, and any other information specified on the application form or otherwise required by the Regional Administrator: Company name, place(s) of business, mailing address(es) and telephone number(s); owner's name; dealer permit number (if a renewal); and name and signature of the person responsible for the truth and accuracy of the report. If the dealer is a corporation, a copy of the Certificate of Incorporation; and the names and addresses of all shareholders owning 25 percent or more of the corporation's shares, must be included with the application. If the dealer is a partnership, a copy of the Partnership Agreement and the names and addresses of all partners; if there is more than one partner, names of all partners having more than a 25 percent interest; and name and signature of all partner or partners authorized must be included with the application. The application must be signed by the applicant and submitted to the Regional Administrator at least 30 days prior to the date on which the applicant needs the permit. The Regional Administrator will notify the applicant of any deficiency in the application.

(c) *Fees.* The Regional Administrator may charge a fee to recover the administrative expenses of issuing a permit required under this section. The amount of the fee shall be calculated in

accordance with the procedures of the NOAA Finance Handbook, available from the Regional Administrator, for determining administrative costs of each special product or service. The fee may not exceed such costs and shall be specified with each application form. The applicable fee must accompany each application; if it does not, the application will be considered incomplete for purposes of paragraph (e) of this section. Any fee paid by an insufficiently funded commercial instrument shall render any permit issued on the basis thereof null and void.

(d) *Issuance.* Except as provided in subpart D of 15 CFR part 904, the Regional Administrator will issue a permit at any time during the fishing year to an applicant, unless the applicant has failed to submit a completed application. An application is complete when all requested forms, information, and documentation have been received. Upon receipt of an incomplete or improperly executed application, the Regional Administrator will notify the applicant of the deficiency in the application. If the applicant fails to correct the deficiency within 30 days following the date of notification, the application will be considered abandoned.

(e) *Expiration.* A permit expires upon the renewal date specified in the permit.

(f) *Duration.* A permit is valid until it is revoked, suspended, or modified under 15 CFR part 904, or otherwise expires, or ownership changes, or the applicant has failed to report any change in the information on the permit application to the Regional Administrator as required by paragraph (i) of this section.

(g) *Reissuance.* A dealer permit may be reissued by the Regional Administrator when requested in writing by the applicant, stating the need for reissuance and the number of the permit requested to be reissued. An application for a reissued permit is not considered a new application. An appropriate fee may be charged.

(h) *Transfer.* Permits issued under this section are not transferable or assignable. A permit is valid only for the person, or other business entity, to which it is issued.

## § 697.7

## 50 CFR Ch. VI (10–1–08 Edition)

(i) *Change in application information.* Notice of a change in the dealer's name, address, or telephone number must be submitted in writing to, and received by, the Regional Administrator within 15 days of the change in information. If written notice of the change in information is not received by the Regional Administrator within 15 days, the permit is void.

(j) *Alteration.* Any permit that has been altered, erased, or mutilated is invalid.

(k) *Display.* Any permit issued under this part must be maintained in legible condition and displayed for inspection upon request by any authorized officer.

(l) *Federal versus state requirements.* If a requirement of this part differs from a fisheries management measure required by state law, any dealer issued a Federal dealer permit under this part must comply with the more restrictive requirement.

(m) *Sanctions.* Permits issued or sought under this section may be suspended, revoked, or modified, by procedures governing enforcement-related permit sanctions and denials, found at subpart D of 15 CFR part 904.

### § 697.7 Prohibitions.

(a) *Atlantic Coast weakfish fishery.* In addition to the prohibitions set forth in § 600.725 of this chapter, it is unlawful for any person to do any of the following:

(1) Fish for, harvest, or possess any weakfish less than 12 inches (30.5 cm) in total length (measured as a straight line along the bottom of the fish from the tip of the lower jaw with the mouth closed to the end of the lower tip of the tail) from the EEZ.

(2) Retain any weakfish less than 12 inches (30.5 cm) in total length taken in or from the EEZ.

(3) Fish for weakfish in the EEZ with a minimum mesh size less than 3¼-inch (8.3 cm) square stretch mesh (as measured between the centers of opposite knots when stretched taut) or 3¾-inch (9.5 cm) diamond stretch mesh for trawls and 2⅞-inch (7.3 cm) stretch mesh for gillnets.

(4) Possess more than 150 lb (67 kg) of weakfish during any one day or trip, whichever is longer, in the EEZ when using a mesh size less than 3 1/4-inch

(8.3 cm) square stretch mesh (as measured between the centers of opposite knots when stretched taut) or 3 3/4-inch (9.5cm) diamond stretch mesh for finfish trawls and 2 7/8-inch (7.3 cm) stretch mesh for gillnets.

(5) Fish using a flynet in the EEZ off North Carolina in the area bounded as follows:

(i) On the north by a straight line connecting points 35°10.8' N. lat., 75°29.2' W. long. (3 nm off Cape Hatteras) and 35°03.5' N. lat., 75°11.8' W. long. (20 nm off Cape Hatteras).

(ii) The east by a straight line connecting points 35°03.5' N. lat., 75°11.8' W. long. (20 nm off Cape Hatteras) and 33°21.1' N. lat., 77°57.5' W. long., (about 30 nm off Cape Fear on the extension of the North Carolina/South Carolina state line into the EEZ).

(iii) On the south by a straight line connecting points 33°21.1' N. lat., 77°57.5' W. long., and 33°48.8' N. lat., 78°29.7' W. long. (3 nm off Little River Inlet on the North Carolina/South Carolina state line).

(iv) On the west by state waters.

(6) Possess any weakfish in the closed area of the EEZ, as described in paragraph (a)(5) of this section, when fishing with shrimp trawls or crab trawls.

(7) Land weakfish for commercial purposes caught in the EEZ in any state other than Massachusetts, Rhode Island, New York, New Jersey, Delaware, Maryland, Virginia, or North Carolina.

(b) *Atlantic striped bass fishery.* In addition to the prohibitions set forth in § 600.725 of this chapter, it is unlawful for any person to do any of the following:

(1) Fish for Atlantic striped bass in the EEZ.

(2) Harvest any Atlantic striped bass from the EEZ.

(3) Possess any Atlantic striped bass in or from the EEZ, except in the following area: The EEZ within Block Island Sound, north of a line connecting Montauk Light, Montauk Point, NY, and Block Island Southeast Light, Block Island, RI; and west of a line connecting Point Judith Light, Point Judith, RI, and Block Island Southeast Light, Block Island, RI. Within this area, possession of Atlantic striped bass is permitted, provided no fishing

## Fishery Conservation and Management

## § 697.7

takes place from the vessel while in the EEZ and the vessel is in continuous transit.

(4) Retain any Atlantic striped bass taken in or from the EEZ.

(c) *American lobster.* (1) In addition to the prohibitions specified in § 600.725 of this chapter, it is unlawful for any person owning or operating a vessel issued a Federal limited access American lobster permit under § 697.4 or a vessel or person holding a valid State of Maine American lobster permit or license and fishing under the provisions of and under the areas designated in § 697.24 to do any of the following:

(i) Retain on board, land, or possess at or after landing, whole American lobsters that fail to meet the minimum carapace length standard specified in § 697.20(a). All American lobsters will be subject to inspection and enforcement action, up to and including the time when a dealer receives or possesses American lobsters for a commercial purpose.

(ii) Retain on board, land, or possess, up to the time when a dealer first receives or possesses American lobster for a commercial purpose, any American lobster or parts thereof in violation of the mutilation standards specified in § 697.20(c).

(iii) Retain on board, land, or possess any berried female American lobster specified in § 697.20(d).

(iv) Remove eggs from any berried female American lobster, land, or possess any such lobster from which eggs have been removed. No person owning or operating a vessel issued a Federal limited access American lobster permit under § 697.4 or a vessel or person holding a State of Maine American lobster permit or license and fishing under the provisions of and under the areas designated in § 697.24 may land or possess any lobster that has come in contact with any substance capable of removing lobster eggs.

(v) *V-notch.* (A) Retain on board, land, or possess any zero tolerance v-notched female American lobster when fishing in or electing to fish in EEZ Nearshore Lobster Management Area 1.

(B) Retain on board, land, or possess any standard v-notched female American lobster when fishing in or electing to fish in the EEZ Nearshore Manage-

ment Area 2, 4, 5, 6, and the Outer Cape Lobster Management Area or the EEZ Offshore Management Area 3.

(vi) Spear any American lobster, or land or possess any American lobster which has been speared.

(vii) Possess, deploy, fish with, haul, harvest lobster from, or carry aboard a vessel trap gear in excess of the trap limits specified in § 697.19 unless exempted pursuant to § 697.26

(viii) Possess, deploy, haul, harvest lobster from, or carry aboard a vessel any trap gear that does not satisfy the requirements on gear identification and marking, escape vents, ghost panel and maximum trap size specified in § 697.21, unless such gear has been rendered unfishable, or unless exempted pursuant to § 697.26.

(ix) Possess, deploy, haul, harvest lobster from, or carry aboard a vessel any trap gear not tagged in accordance with the requirements in § 697.19, unless such gear has been rendered unfishable, or unless exempted pursuant to § 697.26.

(x) Fail to produce, or cause to be produced, lobster trap tags when requested by an authorized officer, unless exempted pursuant to § 697.26.

(xi) Beginning May 1, 2000, reproduce, or cause to be reproduced, lobster trap tags without the written consent of the Regional Administrator.

(xii) Beginning May 1, 2000, possess a lobster trap tag, tag a lobster trap with, or use, a lobster trap tag that has been reported lost, missing, destroyed, or issued to another vessel.

(xiii) Beginning May 1, 2000, sell, transfer, or give away lobster trap tags that have been reported lost, missing, destroyed, or issued to another vessel.

(xiv) Fail to affix and maintain permanent markings, as required by § 697.8.

(xv) Fish for, retain on board, land, or possess American lobsters, unless the operator of the vessel has been issued an operator's permit under § 697.5, and the permit is on board the vessel and is valid.

(xvi) Fail to report to the Regional Administrator within 15 days any change in the information contained in the permit application as required under § 697.4(k) or § 697.5(j).

## § 697.7

## 50 CFR Ch. VI (10–1–08 Edition)

(xvii) Make any false statement in connection with an application under § 697.4, § 697.5, or § 697.6.

(xviii) Sell, transfer, or barter or attempt to sell, transfer, or barter to a dealer any American lobsters, unless the dealer has a valid Federal Dealer's Permit issued under § 697.6.

(xix) Refuse or fail to carry a sea sampler/observer if requested to do so by the Regional Administrator.

(xx) Fail to provide a sea sampler/observer with required food, accommodations, access, and assistance, as specified in § 697.12.

(xxi) Violate any terms of a letter authorizing exempted fishing pursuant to § 697.22 or to fail to keep such letter aboard the vessel during the time period of the exempted fishing.

(xxii) Possess, deploy, fish with, haul, harvest lobster from, or carry aboard a vessel any trap gear on a fishing trip in the EEZ from a vessel that fishes for, takes, catches, or harvests lobster by a method other than traps.

(xxiii) Fish for, take, catch, or harvest lobster on a fishing trip in or from the EEZ by a method other than traps, in excess of 100 lobsters (or parts thereof), for each lobster day-at-sea or part of a lobster day-at-sea, up to a maximum of 500 lobsters (or parts thereof) for any one trip unless otherwise restricted by § 648.80(a)(3)(i), (a)(4)(i)(A), (a)(8)(i), (a)(9)(i)(D), (a)(12)(i)(A), (a)(13)(i)(A), (b)(3)(ii) or § 697.7(c)(2)(i)(C) of this chapter.

(xxiv) Possess, retain on board, or land lobster by a vessel with any non-trap gear on board capable of catching lobsters, in excess of 100 lobsters (or parts thereof), for each lobster day-at-sea or part of a lobster day-at-sea, up to a maximum of 500 lobsters (or parts thereof) for any one trip unless otherwise restricted by § 648.80(a)(3)(i), (a)(4)(i)(A), (a)(8)(i), (a)(9)(i)(D), (a)(12)(i)(A), (a)(13)(i)(A), (b)(3)(ii) or § 697.7(c)(2)(i)(C) of this chapter.

(xxv) Transfer or attempt to transfer American lobster from one vessel to another vessel.

(xxvi) Beginning May 1, 2000, possess, deploy, fish with, haul, harvest lobster from, or carry aboard a vessel any trap gear in or from the management areas specified in § 697.18, unless such fishing vessel has been issued a valid manage-

ment area designation certificate or valid limited access American lobster permit specifying such management area(s) as required under § 697.4(a)(7).

(xxvii) Possess, deploy, fish with, haul, harvest lobster from, or carry aboard a vessel trap gear issued to another vessel.

(xxviii) Fail to comply with any gear, time, or area restriction in this part or, as is explained in § 697.3 and § 697.4(b), fail to comply with any gear, time, or area regulation set forth in any other regulatory part, including part 229 and part 648.

(xxix) Retain on board, land, or possess at or after landing, whole American lobsters that exceed the maximum carapace length standard specified in § 697.20(b). All American lobsters will be subject to inspection and enforcement action, up to and including the time when a dealer receives or possesses American lobsters for a commercial purpose.

(2) In addition to the prohibitions specified in § 600.725 of this chapter and the prohibitions specified in paragraph (c)(1) of this section, it is unlawful for any person to do any of the following:

(i) Retain on board, land, or possess American lobsters unless:

(A) The American lobsters were harvested by a vessel that has been issued and carries on board a valid Federal limited access American lobster permit under § 697.4; or

(B) The American lobsters were harvested by a vessel without a valid Federal limited access American lobster permit and that fishes for American lobsters exclusively in state waters; or

(C) The American lobsters were harvested by a charter boat, head boat, or commercial dive vessel that possesses six or fewer American lobsters per person on board the vessel and the lobsters are not intended to be, or are not, traded, bartered, or sold; or

(D) The American lobsters were harvested by a recreational fishing vessel; or

(E) The American lobsters were harvested by a vessel or person holding a valid State of Maine American lobster permit or license and is fishing under the provisions of and in the areas designated in § 697.24.

(ii) Sell, barter, or trade, or otherwise transfer, or attempt to sell, barter, or trade, or otherwise transfer, for a commercial purpose, any American lobsters from a vessel, unless the vessel has been issued a valid Federal limited access American lobster permit under § 697.4, or the American lobsters were harvested by a vessel without a valid Federal limited access American lobster permit that fishes for American lobsters exclusively in state waters or unless the vessel or person holds a valid State of Maine American lobster permit or license and that is fishing under the provisions of and in the areas designated in § 697.24.

(iii) To be, or act as, an operator of a vessel fishing for or possessing American lobsters in or from the EEZ, or issued a Federal limited access American lobster permit under § 697.4, without having been issued and possessing a valid operator's permit under § 697.5.

(iv) Purchase, possess, or receive for a commercial purpose, or attempt to purchase, possess, or receive for a commercial purpose, as, or in the capacity of, a dealer, American lobsters taken from or harvested by a fishing vessel issued a Federal limited access American lobster permit, unless in possession of a valid dealer's permit issued under § 697.6.

(v) Purchase, possess, or receive for commercial purposes, or attempt to purchase or receive for commercial purposes, as, or in the capacity of, a dealer, American lobsters caught by a vessel other than one issued a valid Federal limited access American lobster permit under § 697.4, or one holding or owned or operated by one holding a valid State of Maine American lobster permit or license and fishing under the provisions of and in the areas designated in § 697.24, unless the American lobsters were harvested by a vessel without a Federal limited access American lobster permit and that fishes for American lobsters exclusively in state waters.

(vi) Assault, resist, oppose, impede, harass, intimidate, or interfere with or bar by command, impediment, threat, or coercion any NMFS-approved sea sampler/observer aboard a vessel conducting his or her duties aboard a vessel, or any authorized officer con-

ducting any search, inspection, investigation, or seizure in connection with enforcement of this part, or any official designee of the Regional Administrator conducting his or her duties.

(vii) Refuse to carry a sea sampler/observer if requested to do so by the Regional Administrator.

(viii) Refuse reasonable assistance to either a NMFS-approved sea sampler/observer conducting his or her duties aboard a vessel.

(ix) Make any false statement, oral or written, to an authorized officer, concerning the taking, catching, harvesting, landing, purchase, sale, or transfer of any American lobster.

(x) Violate any provision of this part, the ACFCMA, the Magnuson-Stevens Act, or any regulation, permit, or notification issued under the ACFCMA, the Magnuson-Stevens Act, or these regulations.

(xi) Retain on board, land, or possess any American lobsters harvested in or from the EEZ in violation of § 697.20.

(xii) Ship, transport, offer for sale, sell, or purchase, in interstate or foreign commerce, any whole live American lobster in violation of § 697.20.

(xiii) Fish, or be in the areas described in § 697.23(b)(2), (c)(2), (d)(2), and (e)(2) on a fishing vessel with mobile gear during the time periods specified in § 697.23(b)(1), (c)(1), (d)(1), and (e)(1), except as provided in § 697.23(b)(1), (c)(1), (d)(1), and (e)(1).

(xiv) Fish, or be in the areas described in § 697.23(b)(2), (c)(2), and (d)(2) on a fishing vessel with lobster trap gear on board during the time periods specified in § 697.23(b)(1), (c)(1), and (d)(1).

(xv) Deploy or fail to remove lobster trap gear in the areas described in § 697.23(b)(2), (c)(2), and (d)(2) during the time periods specified in § 697.23(b)(1), (c)(1), and (d)(1).

(xvi) Violate any terms of a letter authorizing exempted fishing pursuant to § 697.22 or to fail to keep such letter aboard the vessel during the time period of the exempted fishing.

(xvii) Possess, deploy, fish with, haul, harvest lobster from, or carry aboard a vessel any trap gear on a fishing trip in the EEZ on a vessel that fishes for, takes, catches, or harvests lobster by a method other than traps.

(xviii) Fish for, take, catch, or harvest lobster on a fishing trip in the EEZ by a method other than traps, in excess of 100 lobsters (or parts thereof), for each lobster day-at-sea or part of a lobster day-at-sea, up to a maximum of 500 lobsters (or parts thereof) for any one trip unless otherwise restricted by § 648.80(a)(3)(i), (a)(4)(i)(A), (a)(8)(i), (a)(9)(i)(D), (a)(12)(i)(A), (a)(13)(i)(A), (b)(3)(ii) or § 697.7(c)(2)(i)(C) of this chapter.

(xix) Possess, retain on board, or land lobster by a vessel with any non-trap gear on board capable of catching lobsters, in excess of 100 lobsters (or parts thereof), for each lobster day-at-sea or part of a lobster day-at-sea, up to a maximum of 500 lobsters (or parts thereof) for any one trip unless otherwise restricted by § 648.80(a)(3)(i), (a)(4)(i)(A), (a)(8)(i), (a)(9)(i)(D), (a)(12)(i)(A), (a)(13)(i)(A), (b)(3)(ii) or § 697.7(c)(2)(i)(C) of this chapter.

(xx) Transfer or attempt to transfer American lobster from one vessel to another vessel.

(3) *Presumptions.* (i) Any person possessing, or landing American lobsters or parts thereof at or prior to the time when those American lobsters are landed, or are received or possessed by a dealer for the first time, is subject to all of the prohibitions specified in paragraph (c) of this section, unless the American lobsters were harvested by a vessel without a Federal limited access American lobster permit and that fishes for American lobsters exclusively in state waters; or are from a charter, head, or commercial dive vessel that possesses or possessed six or fewer American lobsters per person aboard the vessel and the lobsters are not intended for sale, trade, or barter; or are from a recreational fishing vessel.

(ii) American lobsters or parts thereof that are possessed, or landed at or prior to the time when the American lobsters are received by a dealer, or whole American lobsters that are possessed by a dealer, are presumed to have been harvested from the EEZ or by a vessel with a Federal limited access American lobster permit. A preponderance of all submitted evidence that such American lobsters were harvested by a vessel without a Federal

limited access American lobster permit and fishing exclusively for American lobsters in state or foreign waters will be sufficient to rebut this presumption.

(iii) The possession of egg-bearing female American lobsters, V-notched female American lobsters, American lobsters that are smaller than the minimum size set forth in § 697.20(b), or lobster parts, possessed at or prior to the time when the aforementioned lobsters or parts are received by a dealer, will be *prima facie* evidence that such American lobsters or parts were taken or imported in violation of these regulations. A preponderance of all submitted evidence that such American lobsters were harvested by a vessel not holding a permit under this part and fishing exclusively within state or foreign waters will be sufficient to rebut the presumption.

(d) *Atlantic sturgeon fishery.* In addition to the prohibitions set forth in § 600.725, it is unlawful for any person to do any of the following:

(1) Fish for Atlantic sturgeon in the EEZ.

(2) Harvest any Atlantic sturgeon from the EEZ.

(3) Possess any natural or stocked Atlantic sturgeon in or from the EEZ.

(4) Retain any Atlantic sturgeon taken in or from the EEZ.

(5) Possess any natural Atlantic sturgeon parts, including Atlantic sturgeon eggs, in the EEZ.

(e) *Atlantic Coast Horseshoe Crab fishery.* In addition to the prohibitions set forth in § 600.725 of this chapter, it is unlawful for any person to do any of the following:

(1) Fish for horseshoe crabs in the Carl N. Shuster Jr. Horseshoe Crab Reserve described in § 697.23(f)(1).

(2) Possess horseshoe crabs on a vessel with a trawl or dredge in the closed area described in § 697.23(f)(1).

(3) Fail to return to the water immediately without further harm, all horseshoe crabs caught in the closed area described in § 697.23(f)(1).

[64 FR 68248, Dec. 6, 1999, as amended at 66 FR 8911, Feb. 5, 2001; 66 FR 14502, Mar. 13, 2001; 68 FR 56790, Oct. 2, 2003; 71 FR 13037, Mar. 14, 2006; 73 FR 11563, Mar. 4, 2008]

**§ 697.8 Vessel identification.**

(a) *Vessel name and official number.* Each fishing vessel issued a limited access American lobster permit and over 25 ft (7.6 m) in registered length must:

(1) Have affixed permanently its name on the port and starboard sides of the bow and, if possible, on its stern.

(2) Have its official number displayed on the port and starboard sides of the deckhouse or hull, and on an appropriate weather deck so as to be clearly visible from enforcement vessels and aircraft. The official number is the USCG documentation number or the vessel's state registration number for vessels not required to be documented under title 46 U.S.C.

(b) *Numerals.* Except as provided in paragraph (d) of this section, each fishing vessel issued a limited access American lobster permit must display its official number in block arabic numerals in contrasting color at least 18 inches (45.7 cm) in height for fishing vessels over 65 ft (19.8 m) in registered length, and at least 10 inches (25.4 cm) in height for all other vessels over 25 ft (7.6 m) in registered length. The registered length of a vessel, for purposes of this section, is that registered length set forth in USCG or state records.

(c) *Duties of owner.* The owner of each vessel issued a limited access American lobster permit shall ensure that—

(1) The vessel's name and official number are kept clearly legible and in good repair.

(2) No part of the vessel, its rigging, its fishing gear, or any other object obstructs the view of the official number from any enforcement vessel or aircraft.

(d) *Non-permanent marking.* Vessels over 25 ft (7.6 m) in registered length, fishing in the EEZ and carrying recreational fishing parties on a per capita basis or by charter must use markings that meet the above requirements, except for the requirement that they be affixed permanently to the vessel. The non-permanent markings must be displayed in conformity with the aforementioned requirements.

**§ 697.9 Facilitation of enforcement.**

(a) *General.* See § 600.504 of this chapter.

(b) *Radio hails.* Permit holders, while underway, must be alert for communication conveying enforcement instructions and immediately answer via VHF-FM radio, channel 16, when hailed by an enforcement officer. Vessels not required to have VHF-FM radios by the Coast Guard are exempt from this requirement.

**§ 697.10 Penalties.**

See § 600.735 of this chapter.

**§ 697.11 Civil procedures.**

The civil procedure regulations at 15 CFR part 904 apply to civil penalties, permit sanctions, seizures, and forfeitures under the Atlantic Striped Bass Conservation Act and the ACFCMA, and to the regulations of this part.

**§ 697.12 At-sea sea sampler/observer coverage.**

(a) The Regional Administrator may request any vessel issued a Federal limited access American lobster permit to carry a NMFS-approved sea sampler/observer. If requested by the Regional Administrator to carry a sea sampler/observer, a vessel may not engage in any fishing operations in the respective fishery unless a sea sampler/observer is on board, or unless the requirement is waived, as specified in paragraph (c) of this section.

(b) If requested in writing by the Regional Administrator to carry a sea sampler/observer, it is the responsibility of the vessel owner to arrange for and facilitate sea sampler/observer placement. Owners of vessels selected for sea sampler/observer coverage must notify the appropriate Regional or Science and Research Administrator, as specified by the Regional Administrator, before commencing any fishing trip that may result in the harvest of resources of the respective fishery. Notification procedures will be specified in election letters to vessel owners.

(c) The Regional Administrator may waive in writing the requirement to carry a sea sampler/observer if the facilities on a vessel for housing the sea sampler/observer, or for carrying out sea sampler/observer functions, are so inadequate or unsafe that the health or safety of the sea sampler/observer, or

## § 697.17

the safe operation of the vessel, would be jeopardized.

(d) An owner or operator of a vessel on which a NMFS-approved sea sampler/observer is embarked must:

(1) Provide accommodations and food that are equivalent to those provided to the crew.

(2) Allow the sea sampler/observer access to and use of the vessel's communications equipment and personnel upon request for the transmission and receipt of messages related to the sea sampler's/observer's duties.

(3) Provide true vessel locations, by latitude and longitude or loran coordinates, as requested by the sea sampler/observer, and allow the sea sampler/observer access to and use of the vessel's navigation equipment and personnel upon request to determine the vessel's position.

(4) Notify the sea sampler/observer in a timely fashion of when fishing operations are to begin and end.

(5) Allow for the embarking and debarking of the sea sampler/observer, as specified by the Regional Administrator, ensuring that transfers of sea samplers/observers at sea are accomplished in a safe manner, via small boat or raft, during daylight hours as weather and sea conditions allow, and with the agreement of the sea samplers/observers involved.

(6) Allow the sea sampler/observer free and unobstructed access to the vessel's bridge, working decks, holding bins, weight scales, holds, and any other space used to hold, process, weigh, or store fish.

(7) Allow the sea sampler/observer to inspect and copy the vessel's log, communications log, and records associated with the catch and distribution of fish for that trip.

(e) The owner or operator of a vessel issued a Federal limited access American lobster permit, if requested by the sea sampler/observer also must:

(1) Notify the sea sampler/observer of any sea turtles, marine mammals, or other specimens taken by the vessel.

(2) Provide the sea sampler/observer with sea turtles, marine mammals, or other specimens taken by the vessel.

(f) NMFS may accept sea sampler/observer coverage funded by outside sources if:

## 50 CFR Ch. VI (10–1–08 Edition)

(1) All coverage conducted by such sea samplers/observers is determined by NMFS to be in compliance with NMFS' sea sampler/observer guidelines and procedures.

(2) The owner or operator of the vessel complies with all other provisions of this part.

(3) The sea sampler/observer is approved by the Regional Administrator.

### Subpart B—Management Measures

#### § 697.17 Non-trap harvest restrictions.

(a) *Non-trap landing limits.* In addition to the prohibitions set forth in § 600.725 of this chapter, it is unlawful for a vessel with any non-trap gear on board capable of catching lobsters, or, that fishes for, takes, catches, or harvests lobster on a fishing trip in or from the EEZ by a method other than traps, to possess, retain on board, or land, in excess of 100 lobsters (or parts thereof), for each lobster day-at-sea or part of a lobster day-at-sea, up to a maximum of 500 lobsters (or parts thereof) for any one trip, unless otherwise restricted by § 648.80(a)(3)(i), (a)(4)(i)(A), (a)(8)(i), (a)(9)(i)(D), (a)(12)(i)(A), (a)(13)(i)(A), (b)(3)(ii) or § 697.7(c)(2)(i)(C) of this chapter.

(b) All persons that fish for, take, catch, or harvest lobsters on a fishing trip in or from the EEZ are prohibited from transferring or attempting to transfer American lobster from one vessel to another vessel.

(c) Any vessel on a fishing trip in the EEZ that fishes for, takes, catches, or harvests lobster by a method other than traps may not possess on board, deploy, fish with, or haul back traps.

#### § 697.18 Lobster management areas.

The following lobster management areas are established for purposes of implementing the management measures specified in this part. (A copy of a chart showing the American lobster EEZ management areas is available upon request to the Office of the Regional Administrator, NMFS, 1 Blackburn Drive, Gloucester, MA 01930.)

(a) *EEZ Nearshore Management Area 1.* EEZ Nearshore Management Area 1 is defined by the area, including state and

## Fishery Conservation and Management

**\$ 697.18**

Federal waters that are nearshore in the Gulf of Maine, bounded by straight lines connecting the following points, in the order stated, and the coastline of Maine, New Hampshire, and Massachusetts to the northernmost point of Cape Cod:

| Point    | Latitude    | Longitude   |
|----------|-------------|-------------|
| A .....  | 43°58'N.    | 67°22'W.    |
| B .....  | 43°41'N.    | 68°00'N.    |
| C .....  | 43°12'N.    | 69°00'W.    |
| D .....  | 42°49'N.    | 69°40'W.    |
| E .....  | 42°15.5'N.  | 70°40'W.    |
| F .....  | 42°10'N.    | 69°56'W.    |
| G .....  | 42°05.5'N.  | 70°14'W.    |
| G1 ..... | 42°04.25'N. | 70°17.22'W. |
| G2 ..... | 42°02.84'N. | 70°16.1'W.  |
| G3 ..... | 42°03.35'N. | 70°14.2'W.  |

(1) From point "G3" along the coastline of Massachusetts, including the southwestern end of the Cape Cod Canal, continuing along the coastlines of Massachusetts, New Hampshire, Maine, and the seaward EEZ boundary back to Point A.

(2) [Reserved]

(b) *EEZ Nearshore Management Area 2.* EEZ Nearshore Management Area 2 is defined by the area, including state and Federal waters that are nearshore in Southern New England, bounded by straight lines connecting the following points, in the order stated:

| Point   | Latitude   | Longitude   |
|---------|------------|-------------|
| H ..... | 41°40'N.   | 70°05'W.    |
| I ..... | 41°15'N.   | 70°05'N.    |
| J ..... | 41°21.5'N. | 69°16.5'W.  |
| K ..... | 41°10'N.   | 69°06.5'W.  |
| L ..... | 40°55'N.   | 68°54'W.    |
| M ..... | 40°27.5'N. | 71°14'W.    |
| N ..... | 40°45.5'N. | 71°34'W.    |
| O ..... | 41°07'N.   | 71°43'W.    |
| P ..... | 41°06.5'N. | 71°47'W.    |
| Q ..... | 41°11.5'N. | 71°47.25'W. |
| R ..... | 41°18.5'N. | 71°54.5'W.  |

(1) From point "R" along the maritime boundary between Connecticut and Rhode Island to the coastal Connecticut/Rhode Island boundary and then back to point "H" along the Rhode Island and Massachusetts coast, including the northeastern end of the Cape Cod Canal.

(2) [Reserved]

(c) *Area 2/3 Overlap.* The Area 2/3 Overlap is defined by the area, comprised entirely of Federal waters, bounded by straight lines connecting the following points, in the order stated:

| Point   | Latitude    | Longitude   |
|---------|-------------|-------------|
| K ..... | 41°10' N.   | 69°06.5' W. |
| L ..... | 40°55' N.   | 68°54' W.   |
| M ..... | 40°27.5' N. | 72°14' W.   |
| N ..... | 40°45.5' N. | 71°34' W.   |

(d) *EEZ Offshore Management Area 3.* EEZ Offshore Management Area 3 is defined by the area, comprised entirely of Federal waters, bounded by straight lines connecting the following points, in the order stated:

| Point    | Latitude    | Longitude   |
|----------|-------------|-------------|
| A .....  | 43°58' N.   | 67°22' W.   |
| B .....  | 43°41' N.   | 68°00' W.   |
| C .....  | 43°12' N.   | 69°00' W.   |
| D .....  | 42°49' N.   | 69°40' W.   |
| E .....  | 42°15.5' N. | 69°40' W.   |
| F .....  | 42°10' N.   | 69°56' W.   |
| K .....  | 41°10' N.   | 69°06.5' W. |
| N .....  | 40°45.5' N. | 71°34' W.   |
| M .....  | 40°27.5' N. | 72°14' W.   |
| U .....  | 40°12.5' N. | 72°48.5' W. |
| V .....  | 39°50' N.   | 73°01' W.   |
| X .....  | 38°39.5' N. | 73°40' W.   |
| Y .....  | 38°12' N.   | 73°55' W.   |
| Z .....  | 37°12' N.   | 74°44' W.   |
| ZA ..... | 35°34' N.   | 74°51' W.   |
| ZB ..... | 35°14.5' N. | 75°31' W.   |
| ZC ..... | 35°14.5' N. | 71°24' W.   |

From point "ZC" along the seaward EEZ boundary to point "A".

(e) *EEZ Nearshore Management Area 4.* EEZ Nearshore Management Area 4 is defined by the area, including state and Federal waters that are near-shore in the northern Mid-Atlantic, bounded by straight lines connecting the following points, in the order stated:

| Point   | Latitude    | Longitude |
|---------|-------------|-----------|
| M ..... | 40°27.5'N.  | 72°14' W. |
| N ..... | 40°45.5' N. | 71°34' W. |
| O ..... | 41°07' N.   | 71°43' W. |
| P ..... | 41°06.5' N. | 71°47' W. |
| S ..... | 40°58' N.   | 72°00' W. |
| T ..... | 41°00.5' N. | 72°00' W. |

From Point "T", along the New York/New Jersey coast to Point "W"

|         |             |             |
|---------|-------------|-------------|
| W ..... | 39°50' N.   | 74°09' W.   |
| V ..... | 39°50' N.   | 73°01' W.   |
| U ..... | 40°12.5' N. | 72°48.5' W. |

From Point "U" back to Point "M".

(f) *EEZ Nearshore Management Area 5.* EEZ Nearshore Management Area 5 is defined by the area, including state and Federal waters that are near-shore in the southern Mid-Atlantic, bounded by straight lines connecting the following points, in the order stated:

| Point   | Latitude | Longitude |
|---------|----------|-----------|
| W ..... | 39°50'N. | 74°09'W.  |

§ 697.19

| Point | Latitude   | Longitude  |
|-------|------------|------------|
| V1    | 39°50'N.   | 72°55'W.   |
| X1    | 38°38.2'N. | 73°33.8'W. |
| Y1    | 38°10.4'N. | 73°49'W.   |
| Z1    | 37°10.6'N. | 74°38'W.   |
| ZA1   | 35°31.9'N. | 74°45.5'W. |
| ZB1   | 35°14.5'N. | 75°19.3'W. |
| ZB    | 35°14.5'N. | 75°31'W.   |

From Point "ZB", along the coasts of North Carolina, Virginia, Maryland, Delaware, New Jersey back to Point "W".

(g) *Nearshore Management Area 6.* The Nearshore Management Area 6 is defined by the area, including New York and Connecticut state waters, bounded by straight lines connecting the following points, in the order stated:

| Point   | Latitude    | Longitude |
|---------|-------------|-----------|
| T ..... | 41°00.5' N. | 72°00' W. |
| S ..... | 40°58' N.   | 72°00' W. |

From Point "S", boundary follows the 3 mile limit of New York as it curves around Montauk Point to Point "P"

|         |              |              |
|---------|--------------|--------------|
| P ..... | 41°06.5' N.  | 71°47' W.    |
| Q ..... | 41°11'30" N. | 71°47'15" W. |
| R ..... | 41°18'30" N. | 71°5'30"W.   |

From point "R", along the maritime boundary between Connecticut and Rhode Island to the coast; then west along the coast of Connecticut to the western entrance of Long Island Sound; then east along the New York coast of Long Island Sound and back to Point "T".

(h) *EEZ Nearshore Outer Cape Lobster Management Area.* EEZ Nearshore Outer Cape Lobster Management Area is defined by the area, including state and Federal waters off Cape Cod, bounded by straight lines connecting the following points, in the order stated:

| Point    | Latitude    | Longitude   |
|----------|-------------|-------------|
| F .....  | 42°10'N.    | 69°56'W.    |
| G .....  | 42°05.5'N.  | 70°14'W.    |
| G1 ..... | 42°04.25'N. | 70°17.22'W. |
| G2 ..... | 42°02.84'N. | 70°16.1'W.  |
| G4 ..... | 41°52'N.    | 70°07.49'W. |
| G5 ..... | 41°54.46'N. | 70°03.99'W. |

(1) From Point "G5" along the outer Cape Cod coast to Point "H":

| Point    | Latitude | Longitude |
|----------|----------|-----------|
| H .....  | 41°40'N. | 70°05'W.  |
| H1 ..... | 41°18'N. | 70°05'W.  |

(2) From Point "H1" along the eastern coast of Nantucket Island to Point "I":

| Point   | Latitude   | Longitude |
|---------|------------|-----------|
| I ..... | 41°15'N.   | 70°00'W.  |
| J ..... | 41°21.5'N. | 69°16'W.  |

50 CFR Ch. VI (10–1–08 Edition)

(3) From Point "J" back to Point "F".

(i) NMFS may, consistent with § 697.25, implement management measures necessary for each management area, in order to end overfishing and rebuild stocks of American lobster.

[64 FR 68248, Dec. 6, 1999, as amended at 68 FR 14930, Mar. 27, 2003; 71 FR 13037, Mar. 14, 2006]

§ 697.19 Trap limits and trap tag requirements for vessels fishing with lobster traps.

(a) *Trap limits for vessels fishing or authorized to fish in any Nearshore Management Area.* (1) Through August 31, 2003, vessels fishing in or issued a management area designation certificate or valid limited access American lobster permit specifying one or more EEZ Nearshore Management Area(s), whether or not in combination with the Area 2/3 Overlap, shall not fish with, deploy in, possess in, or haul back from such area more than 800 lobster traps.

(2) Beginning September 1, 2003, vessels fishing in or issued a valid limited access American lobster permit specifying one or more of EEZ Nearshore Management Areas 1, 2, or the Outer Cape Management Area, regardless of whether it is in combination with the Area 2/3 Overlap, shall not fish with, deploy in, possess in, or haul back from such area(s) more than 800 lobster traps, except as noted in paragraph (d) of this section.

(3) Beginning September 1, 2003, vessels fishing in or issued a management area designation certificate or valid limited access American lobster permit specifying EEZ Management Area 4 may not fish with, deploy in, possess in, or haul back from such areas more than the number of lobster traps allocated by the Regional Administrator pursuant to the qualification process set forth at § 697.4(a)(7)(vii), which will not exceed 1,440 lobster traps, except as noted in paragraphs (c) and (e) of this section.

(4) Beginning September 1, 2003, vessels fishing in or issued a management area designation certificate or valid limited access American lobster permit specifying EEZ Management Area 5 may not fish with, deploy in, possess in, or haul back from such areas more

than the number of lobster traps allocated by the Regional Administrator pursuant to the qualification process set forth at § 697.4(a)(7)(viii), which will not exceed 1,440 lobster traps, except as noted in paragraphs (c) and (e) of this section unless the vessel is operating under an Area 5 Trap Waiver permit issued under § 697.26.

(b) *Trap limits for vessels fishing or authorized to fish in the EEZ Offshore Management Area.* (1) Effective through November 3, 2007, vessels fishing only in or issued a management area designation certificate or valid limited access American lobster permit specifying only EEZ Offshore Management Area 3, or, specifying only EEZ Offshore Management Area 3 and the Area 2/3 Overlap, may not fish with, deploy in, possess in, or haul back from such areas more than the number of lobster traps allocated by the Regional Administrator pursuant to the qualification process set forth at § 697.4(a)(7)(vi) and the maximum trap limits identified in Table 1, Column 2 to this part, except as noted in paragraphs (c) and (e) of this section.

(2) Beginning November 4, 2007, vessels fishing only in or issued a management area designation certificate or valid limited access American lobster permit specifying only EEZ Offshore Management Area 3, or, specifying only EEZ Offshore Management Area 3 and the Area 2/3 Overlap, may not fish with, deploy in, possess in, or haul back from such areas more than the number of lobster traps allocated by the Regional Administrator pursuant to the qualification process set forth at § 697.4(a)(7)(vi) and the maximum trap limits identified in Table 1, Column 3, to this part, except as noted in paragraphs (c) and (e) of this section.

(3) Beginning July 1, 2008, vessels fishing only in or issued a management area designation certificate or valid limited access American lobster permit specifying only EEZ Offshore Management Area 3, or, specifying only EEZ Offshore Management Area 3 and the Area 2/3 Overlap, may not fish with, deploy in, possess in, or haul back from such areas more than the number of lobster traps allocated by the Regional Administrator pursuant to the qualification process set forth at

§ 697.4(a)(7)(vi) and the maximum trap limits identified in Table 1, Column 4, to this part, except as noted in paragraphs (c) and (e) of this section.

(4) Beginning July 1, 2009, vessels fishing only in or issued a management area designation certificate or valid limited access American lobster permit specifying only EEZ Offshore Management Area 3, or, specifying only EEZ Offshore Management Area 3 and the Area 2/3 Overlap, may not fish with, deploy in, possess in, or haul back from such areas more than the number of lobster traps allocated by the Regional Administrator pursuant to the qualification process set forth at § 697.4(a)(7)(vi) and the maximum trap limits identified in Table 1, Column 5, to this part, except as noted in paragraphs (c) and (e) of this section.

(5) Beginning July 1, 2010, and beyond, vessels fishing only in or issued a management area designation certificate or valid limited access American lobster permit specifying only EEZ Offshore Management Area 3, or, specifying only EEZ Offshore Management Area 3 and the Area 2/3 Overlap, may not fish with, deploy in, possess in, or haul back from such areas more than the number of lobster traps allocated by the Regional Administrator pursuant to the qualification process set forth at § 697.4(a)(7)(vi) and the maximum trap limits identified in Table 1, Column 6, to this part, except as noted in paragraphs (c) and (e) of this section.

(c) *Lobster trap limits for vessels fishing or authorized to fish in more than one EEZ Management Area.* A vessel owner who elects to fish in more than one EEZ Management Area may not fish with, deploy in, possess in, or haul back from any of those elected management areas more lobster traps than the lowest number of lobster traps allocated to that vessel for any one elected management area.

(d) *Conservation equivalent trap limits in New Hampshire state waters.* Notwithstanding any other provision, any vessel with a Federal lobster permit and a New Hampshire Full Commercial Lobster license may fish up to a maximum of 1,200 lobster traps in New Hampshire state waters, to the extent authorized

## § 697.20

by New Hampshire lobster fishery regulations. However, such vessel may not fish, possess, deploy, or haul back more than 800 lobster traps in the Federal waters of EEZ Nearshore Management Area 1, and may not fish more than a combined total of 1,200 lobster traps in the Federal and New Hampshire state waters portions of EEZ Nearshore Management Area 1.

(e) *Potential Modifications to Area 3, Area 4, and/or Area 5 Trap Limits in Fishing Year 2003.* The Regional Administrator may issue temporary interim Federal American lobster trap fishing permits pursuant to § 697.4 for Areas 3, 4 and/or 5 prior to completion of NMFS' review of the Area 3, Area 4 and/or Area 5 qualification applications, if the applicant has designated one or more of those areas on their 2003 Federal lobster permit. These temporary permits will become effective on September 1, 2003, for those applicants who have applied in the manner set forth in § 697.4(a)(7)(vi)(D)(I), (a)(7)(vii)(D)(I), and/or (a)(7)(viii)(D)(I). Any vessel issued a temporary trap fishing permit for Area 3 may fish up to 1,800 lobster traps, except as noted in paragraph (c) of this section. Any vessel issued a temporary trap fishing permit for Area 4 and/or 5 shall not fish more than 800 traps. The temporary interim permit will remain valid during fishing year 2003 until such time the Regional Administrator has reviewed and either approved or denied the temporary permittee's historical participation application. If approved, the Regional Administrator may issue a revised permit and/or management area designation certificate, depending on whether the applicant designated that area on his or her 2003 Federal permit at the beginning of the year. Any traps being fished, deployed, or possessed by the qualified Federal permit holder in excess of the number of traps as described in paragraphs (a)(3), (a)(4), and (b)(2) of this section must be removed from the water within 14 days after receipt of the revised permit, or 30 days after the date it is sent, whichever comes first. Revised Federal lobster permits must be retained aboard the fishing vessel at all times.

(f) *Trap tag requirements for vessels fishing with lobster traps.* Any lobster

## 50 CFR Ch. VI (10-1-08 Edition)

trap fished in Federal waters must have a valid Federal lobster trap tag permanently attached to the trap bridge or central cross-member. Any vessel with a Federal lobster permit may not possess, deploy, or haul back lobster traps in any portion of any management area that do not have a valid, federally recognized lobster trap tag permanently attached to the trap bridge or central cross-member.

(g) *Maximum lobster trap tags authorized for direct purchase.* In any fishing year, the maximum number of tags authorized for direct purchase by each permit holder is the applicable trap limit specified in paragraphs (a) and (b) of this section plus an additional 10 percent to cover trap loss.

(h) *EEZ Management area 5 trap waiver exemption.* Any vessel issued an Area 5 Trap Waiver permit under § 697.4(p) is exempt from the provisions of this section.

[68 FR 14930, Mar. 27, 2003, as amended at 72 FR 56942, Oct. 5, 2007]

## § 697.20 Size, harvesting and landing requirements.

(a) *Minimum carapace length.* (1) The minimum carapace length for all American lobsters harvested in or from the EEZ Nearshore Management Area 1 or the EEZ Nearshore Management Area 6 is 3 ¼ inches (8.26 cm).

(2) The minimum carapace length for all American lobsters landed, harvested, or possessed by vessels issued a Federal limited access American lobster permit fishing in or electing to fish in the Nearshore Management Area 1 or the EEZ Nearshore Management Area 6 is 3 ¼ inches (8.26 cm).

(3) The minimum carapace length for all American lobsters harvested in or from the EEZ Nearshore Management Area 2, 4, 5 and the Outer Cape Lobster Management Area is 3 3/8 inches (8.57 cm).

(4) The minimum carapace length for all American lobsters landed, harvested or possessed by vessels issued a Federal limited access American lobster permit fishing in or electing to fish in EEZ Nearshore Management Area 2, 4, 5 and the Outer Cape Lobster Management Area is 3 3/8 inches (8.57 cm).

(5) Through June 30, 2008, the minimum carapace length for all American

## Fishery Conservation and Management

## § 697.20

lobsters harvested in or from the Offshore Management Area 3 is 3 15/32 inches (8.81 cm).

(6) Through June 30, 2008, the minimum carapace length for all American lobsters landed, harvested or possessed by vessels issued a Federal limited access American lobster permit fishing in or electing to fish in EEZ Offshore Management Area 3 is 3 15/32 inches (8.81 cm).

(7) Effective July 1, 2008, the minimum carapace length for all American lobsters harvested in or from the Offshore Management Area 3 is 3 1/2 inches (8.89 cm).

(8) Effective July 1, 2008, the minimum carapace length for all American lobsters landed, harvested or possessed by vessels issued a Federal limited access American lobster permit fishing in or electing to fish in EEZ Offshore Management Area 3 is 3 1/2 inches (8.89 cm).

(9) No person may ship, transport, offer for sale, sell, or purchase, in interstate or foreign commerce, any whole live American lobster that is smaller than the minimum size specified in paragraph (a) of this section.

(b) *Maximum carapace length.* (1) The maximum carapace length for all American lobster harvested in or from the EEZ Nearshore Management Area 1 is 5 inches (12.7 cm).

(2) The maximum carapace length for all American lobster landed, harvested, or possessed by vessels issued a Federal limited access American lobster permit fishing in or electing to fish in the EEZ Nearshore Management Area 1 is 5 inches (12.7 cm).

(3) The maximum carapace length for all female American lobster harvested in or from the EEZ Nearshore Management Area 4 is 5 1/4 inches (13.34 cm), except as provided in paragraph (b)(7) of this section.

(4) The maximum carapace length for all female American lobster landed, harvested, or possessed by vessels issued a Federal limited access American lobster permit fishing in or electing to fish in the EEZ Nearshore Management Area 4 is 5 1/4 inches (13.34 cm), except as provided in paragraph (b)(7) of this section.

(5) The maximum carapace length for all female American lobster harvested

in or from the EEZ Nearshore Management Area 5 is 5 1/2 inches (13.97 cm), except as provided in paragraph (b)(7) of this section.

(6) The maximum carapace length for all female American lobster landed, harvested, or possessed by vessels issued a Federal limited access American lobster permit fishing in or electing to fish in the EEZ Nearshore Management Area 5 is 5 1/2 inches (13.97 cm), except as provided in paragraph (b)(7) of this section.

(7) In the EEZ Nearshore Management Area 4 and EEZ Nearshore Management Area 5, recreational fishing vessels and divers engaged in recreational fishing, regardless of the platform from which they dive, are allowed to possess one female American lobster per fishing trip in excess of the maximum carapace length specified in paragraphs (b)(3) through (b)(6) of this section.

(c) *Mutilation.* (1) Subject to the rebuttable presumption in § 697.7(c)(3), no person may remove meat or any body appendage from any American lobster harvested in or from the EEZ before, or at the time of landing, or have in possession any American lobster part other than whole lobsters, up to the time when a dealer first receives or possesses American lobster.

(2) Subject to the rebuttable presumption in § 697.7(c)(3), no owner, operator or person aboard a vessel issued a Federal American lobster permit may remove meat or any body appendage from any American lobster before or at the time of landing, or have in possession any American lobster part other than whole lobsters, up to the time when a dealer first receives or possesses American lobster.

(d) *Berried females.* (1) Any berried female harvested in or from the EEZ must be returned to the sea immediately. If any berried female is harvested in or from the EEZ Nearshore Management Area 1, or in or from the EEZ Offshore Management Area 3 above 42°30', it must be v-notched before being returned to the sea immediately.

(2) Any berried female harvested or possessed by a vessel issued a Federal limited access American lobster permit

must be returned to the sea immediately. If any berried female is harvested in or from the EEZ Nearshore Management Area 1, or in or from the EEZ Offshore Management Area 3 above 42°30', it must be v-notched before being returned to the sea immediately.

(3) No vessel, or owner, operator or person aboard a vessel issued a Federal limited access American lobster permit may possess any berried female.

(4) No person may possess, ship, transport, offer for sale, sell, or purchase, in interstate or foreign commerce, any berried female as specified in paragraph (d) of this section.

(e) *Removal of eggs.* (1) No person may remove, including, but not limited to, the forcible removal and removal by chemicals or other substances or liquids, extruded eggs attached to the abdominal appendages from any female American lobster.

(2) No owner, operator or person aboard a vessel issued a Federal limited access American lobster permit may remove, including but not limited to, the forcible removal, and removal by chemicals or other substances or liquids, extruded eggs attached to the abdominal appendages from any female American lobster.

(3) No person may possess, ship, transport, offer for sale, sell, or purchase, in interstate or foreign commerce, any whole live American lobster that bears evidence of the removal of extruded eggs from its abdominal appendages as specified in paragraph (e) of this section.

(f) *Spearing.* (1) No person may spear any American lobster in the EEZ.

(2) No person on a vessel issued a Federal lobster license may spear a lobster.

(3) No person may harvest or possess any American lobster which has been speared in the EEZ.

(4) No person on a vessel issued a Federal lobster license may harvest or possess any American lobster which has been speared.

(5) No person may possess, ship, transport, offer for sale, sell, or purchase, in interstate or foreign commerce, any American lobster which has been speared.

(g) *V-notched females.* (1) No person may possess any female lobster possessing a zero tolerance v-shaped notch harvested in or from the EEZ Nearshore Management Area 1.

(2) No vessel, owner, or operator issued a Federal limited access American lobster permit fishing in or electing to fish in EEZ Nearshore Management Area 1 may land, harvest, or possess any female lobster possessing a zero tolerance v-shaped notch.

(3) No person may possess any female lobster possessing a standard v-shaped notch harvested in or from the EEZ Nearshore Management Area 2, 4, 5, 6, and the Outer Cape Lobster Management Area or the EEZ Offshore Management Area 3 may possess.

(4) No vessel, owner, or operator issued a Federal limited access American lobster permit fishing in or electing to fish in EEZ Nearshore Management Area 2, 4, 5, 6, and the Outer Cape Lobster Management Area or the EEZ Offshore Management Area 3 may land, harvest, or possess any female lobster possessing a standard v-shaped notch.

[71 FR 13038, Mar. 14, 2006, as amended at 72 FR 56942, Oct. 5, 2007]

**§ 697.21 Gear identification and marking, escape vent, maximum trap size, and ghost panel requirements.**

(a) *Gear identification and marking.* All lobster gear deployed or possessed in the EEZ, or, deployed or possessed by a person on or from a vessel issued a Federal limited access American lobster permit, and not permanently attached to the vessel must be legibly and indelibly marked with the following:

(1) *Identification.* Effective through April 30, 2000, all lobster gear must be marked with the following code of identification:

(i) A number assigned by the Regional Administrator; or

(ii) Whatever positive identification marking is required by the vessel's home-port state.

(2) *Identification and trap tagging.* Beginning May 1, 2000, lobster gear must be marked with a trap tag (as specified in § 697.19) with the following code of identification:

(i) A number assigned by the Regional Administrator; or

(ii) Whatever positive identification marking is required by the vessel's home-port state.

(b) *Deployment and gear configuration.* In the areas of the EEZ described in paragraph (b)(4) of this section, lobster trap trawls are to be displayed and configured as follows:

(1) Lobster trap trawls of three or fewer traps deployed in the EEZ must be attached to and marked with a single buoy.

(2) Lobster trap trawls consisting of more than three traps must have a radar reflector and a single flag or pennant on the westernmost end (marking the half compass circle from magnetic south through west, to and including north), while the easternmost end (meaning the half compass circle from magnetic north through east, to and including south) of an American lobster trap trawl must be configured with a radar reflector only. Standard tetrahedral corner radar reflectors of at least 8 inches (20.32 cm) (both in height and width, and made from metal) must be employed. (A copy of a diagram showing a standard tetrahedral corner radar reflector is available upon request to the Office of the Regional Administrator.)

(3) No American lobster trap trawl shall exceed 1.5 nautical miles (2.78 km) in length, as measured from radar reflector to radar reflector.

(4) Gear deployment and configuration requirements specified in paragraphs (b)(1) through (b)(3) of this section apply in the following areas:

(i) *Gulf of Maine gear area.* Gulf of Maine gear area is defined as all waters of the EEZ north of 42°20' N. lat. seaward of a line drawn 12 nautical miles (22.2 km) from the baseline of the territorial sea;

(ii) *Georges Bank gear area.* Georges Bank gear area is defined as all waters of the EEZ south of 42°20' N. lat. and east of 70°00' W. long. or the outer boundary of the territorial sea, whichever lies farther east;

(iii) *Southern New England gear area.* Southern New England gear area is defined as all waters of the EEZ west of 70°00' W. long., east of 71°30' W. long. at a depth greater than 25 fathoms (45.72 m); and

(iv) *Mid-Atlantic gear area.* Mid-Atlantic gear area is defined as all waters of the EEZ, west of 71°30' W. long. and north of 36°33' N. lat. at a depth greater than 40 fathoms (73.15 m).

(c) *Escape vents.* (1) All American lobster traps deployed or possessed in the EEZ Nearshore Management Area 1 or the EEZ Nearshore Management Area 6 or, deployed or possessed by a person on or from a vessel issued a Federal limited access American lobster permit fishing in or electing to fish in the EEZ Nearshore Management Area 1 or the EEZ Nearshore Management Area 6, must include either of the following escape vents in the parlor section of the trap, located in such a manner that it will not be blocked or obstructed by any portion of the trap, associated gear, or the sea floor in normal use:

(i) A rectangular portal with an unobstructed opening not less than 1 15/16 inches (4.92 cm) by 5 3/4 inches (14.61 cm);

(ii) Two circular portals with unobstructed openings not less than 2 7/16 inches (6.19 cm) in diameter.

(2) All American lobster traps deployed or possessed in the EEZ Nearshore Management Area 2, 4, 5, and the Outer Cape Lobster Management Area, or, deployed or possessed by a person on or from a vessel issued a Federal limited access American lobster permit fishing in or electing to fish in the EEZ Nearshore Management Area 2, 4, 5, and the Outer Cape Lobster Management Area, must include either of the following escape vents in the parlor section of the trap, located in such a manner that it will not be blocked or obstructed by any portion of the trap, associated gear, or the sea floor in normal use:

(i) A rectangular portal with an unobstructed opening not less than 2 inches (5.08 cm) 5 3/4 inches (14.61 cm);

(ii) Two circular portals with unobstructed openings not less than 2 5/8 inches (6.67 cm) in diameter.

(3) Effective through June 30, 2010, all American lobster traps deployed or possessed in the EEZ Offshore Management Area 3, or deployed or possessed by a person on or from a vessel issued a Federal limited access American lobster permit fishing in or electing to fish the EEZ Offshore Management

**§ 697.21**

**50 CFR Ch. VI (10–1–08 Edition)**

Area 3, must include either of the following escape vents in the parlor section of the trap, located in such a manner that it will not be blocked or obstructed by any portion of the trap, associated gear, or the sea floor in normal use:

(i) A rectangular portal with an unobstructed opening not less than 2 inches (5.08 cm) 5 3/4 inches (14.61 cm);

(ii) Two circular portals with unobstructed openings not less than 2 5/8 inches (6.67 cm) in diameter.

(4) Effective July 1, 2010, all American lobster traps deployed or possessed in the EEZ Offshore Management Area 3, or deployed or possessed by a person on or from a vessel issued a Federal limited access American lobster permit fishing in or electing to fish in the EEZ Offshore Management Area 3, must include either of the following escape vents in the parlor section of the trap, located in such a manner that it will not be blocked or obstructed by any portion of the trap, associated gear, or the sea floor in normal use:

(i) A rectangular portal with an unobstructed opening not less than 2 1/16 inches (5.24 cm) X 5 3/4 inches (14.61 cm);

(ii) Two circular portals with unobstructed openings not less than 2 11/16 inches (6.82 cm) in diameter.

(5) The Regional Administrator may, at the request of, or after consultation with, the Commission, approve and specify, through a technical amendment of this final rule, any other type of acceptable escape vent that the Regional Administrator finds to be consistent with paragraph (c) of this section.

(d) *Ghost panel.* (1) Lobster traps not constructed entirely of wood (excluding heading or parlor twine and the escape vent) must contain a ghost panel located in the outer parlor(s) of the trap and not in the bottom of the trap constructed of, or fastened to the trap with, one of the following untreated materials: Wood lath, cotton, hemp, sisal or jute twine not greater than 3/16 inch (0.48 cm) in diameter, or non-stainless, uncoated ferrous metal not greater than 3/32 inch (0.24 cm) in diameter and covering a rectangular opening not less than 3 3/4 inches

(9.53 cm) by 3 3/4 inches (9.53 cm). The door of the trap may serve as the ghost panel, if fastened with one of these materials.

(2) The Regional Administrator may, at the request of, or after consultation with, the Commission, approve and specify, through a technical amendment of this rule, any other design, mechanism, material, or other parameter that serves to create an escape portal not less than 3 3/4 inches (9.53 cm) by 3 3/4 inches (9.53 cm).

(e) *Maximum trap size*—(1) *EEZ Nearshore Management Area maximum trap size.* (i) Beginning January 5, 2000, American lobster traps deployed or possessed in the EEZ, or, deployed or possessed by a person on or from a vessel issued a Federal limited access American lobster permit as specified under § 697.4, if deployed or possessed by a person or vessel permitted to fish in any EEZ Nearshore Management Area (Area 1, Outer Cape, Area 2, Area 4, Area 5, or Area 6) and the Area 2/3 Overlap, or only in the Area 2/3 Overlap shall not exceed 25,245 cubic inches (413,690 cubic centimeters) in volume, as measured on the outside portion of the trap, exclusive of the runners;

(ii) Beginning May 1, 2003, American lobster traps deployed or possessed in the EEZ, or, deployed or possessed by a person on or from a vessel issued a Federal limited access American lobster permit as specified under § 697.4, if deployed or possessed by a person or vessel permitted to fish in any EEZ Nearshore Management Area (Area 1, Outer Cape, Area 2, Area 4, Area 5, or Area 6) and the Area 2/3 Overlap, or only in the Area 2/3 Overlap, shall not exceed 22,950 cubic inches (376,081 cubic centimeters) in volume as measured on the outside portion of the trap, exclusive of the runners.

(2) *EEZ Offshore Management Area maximum trap size.* (i) Beginning January 5, 2000, American lobster traps deployed or possessed in the EEZ, or, deployed or possessed by a person on or from a vessel issued a Federal limited access American lobster permit as specified under § 697.4, if deployed or possessed by a person or vessel permitted to fish only in EEZ Offshore Management Area 3 or only in EEZ Offshore Management Area 3 and the Area

## Fishery Conservation and Management

## § 697.23

2/3 Overlap, shall not exceed 33,110 cubic inches (542,573 cubic centimeters) in volume as measured on the outside portion of the trap, exclusive of the runners;

(ii) Beginning May 1, 2003, American lobster traps deployed or possessed in the EEZ, or, deployed or possessed by a person on or from a vessel issued a Federal limited access American lobster permit as specified under § 697.4, if deployed or possessed by a person or vessel permitted to fish only in EEZ Offshore Management Area 3 or only in EEZ Offshore Management Area 3 and the Area 2/3 Overlap, shall not exceed 30,100 cubic inches (493,249 cubic centimeters) in volume as measured on the outside portion of the trap, exclusive of the runners.

(f) *Enforcement action.* Unidentified, unmarked, unvented, improperly vented American lobster traps, or, beginning May 1, 2000, any untagged American lobster traps, or any lobster traps subject to the requirements and specifications of § 697.21, which fail to meet such requirements and specifications may be seized and disposed of in accordance with the provisions of 15 CFR part 904.

(g) *Exemption.* Any vessel issued an Area 5 Trap Waiver permit under § 697.4(p) is exempt from the provisions of this section.

[64 FR 68248, Dec. 6, 1999, as amended at 66 FR 14502, Mar. 13, 2001; 71 FR 13039, Mar. 14, 2006; 72 FR 56942, Oct. 5, 2007]

### § 697.22 Exempted fishing.

The Regional Administrator or Director may exempt any person or vessel from the requirements of this part for the conduct of exempted fishing beneficial to the management of the American lobster, weakfish, Atlantic striped bass, Atlantic sturgeon, or horseshoe crab resource or fishery, pursuant to the provisions of ' 600.745 of this chapter.

(a) The Regional Administrator or Director may not grant such exemption unless it is determined that the purpose, design, and administration of the exemption is consistent with the objectives of any applicable stock rebuilding program, the provisions of the Atlantic Coastal Act, the Magnuson-Stevens Act, and other applicable law,

and that granting the exemption will not:

(1) Have a detrimental effect on the American lobster, Atlantic striped bass, weakfish, Atlantic sturgeon, or horseshoe crab resource or fishery; or

(2) Create significant enforcement problems.

(b) Each vessel participating in any exempted fishing activity is subject to all provisions of this part, except those explicitly relating to the purpose and nature of the exemption. The exemption will be specified in a letter issued by the Regional Administrator or Director to each vessel participating in the exempted activity. This letter must be carried aboard the vessel seeking the benefit of such exemption. Exempted fishing activity shall be authorized pursuant to and consistent with § 600.745 of this chapter.

(c) The Regional Administrator, or the Director, as appropriate, may authorize a substitute vessel to haul ashore the lobster trap gear of an inoperable or mechanically-impaired federally permitted lobster vessel without having to engage in the exempted fishing process as specified in this section.

[68 FR 56791, Oct. 2, 2003, as amended at 71 FR 13039, Mar. 14, 2006]

### § 697.23 Restricted gear areas.

(a) Resolution of lobster gear conflicts with fisheries managed under the Magnuson-Stevens Act shall be done under provisions of § 648.55 of this chapter.

(b) *Restricted Gear Area I*—(1) *Duration*—(i) *Mobile Gear.* From October 1 through June 15 of each fishing year, no fishing vessel with mobile gear or person on a fishing vessel with mobile gear may fish, or be, in Restricted Gear Area I, as defined in paragraph (b)(2) of this section, unless transiting only, provided that all mobile gear is on board the vessel while inside the area.

(ii) *Lobster trap gear.* From June 16 through September 30 of each fishing year, no fishing vessel with lobster trap gear or person on a fishing vessel with lobster trap gear may fish, and no lobster trap gear may be deployed or remain, in Restricted Gear Area I as defined in paragraph (b)(2) of this section.

§ 697.23

(2) *Definition of Restricted Gear Area I.* Restricted Gear Area I is defined by straight lines connecting the following points in the order stated:

| INSHORE BOUNDARY |              |              |
|------------------|--------------|--------------|
| Point to         | Latitude     | Longitude    |
| 120 .....        | 40°06.4' N.  | 68°35.8' W.  |
| 69 .....         | 40°07.9' N.  | 68°36.0' W.  |

(f) *Carl N. Shuster Jr. Horseshoe Crab Reserve*. (1) No vessel or person may fish for horseshoe crabs in the area known as the Carl N. Shuster Jr. Horseshoe Crab Reserve bounded as follows:

(i) On the north by a straight line connecting points 39°14.6'N. lat., 74°30.9'W. long. (3 nm off of Peck Beach, NJ) and 39°14.6'N lat., 74°22.5'W. long.

(ii) On the east by a straight line connecting points 39°14.6'N. lat., 74°22.5'W. long. and 38°22.0'N. lat., 74°22.5'W. long.

(iii) On the south by a straight line connecting points 38°22.0'N. lat., 74°22.5'W. long. and 38°22.0'N. lat., 75°00.4'W. long. (3 nm off of Ocean City, MD).

(iv) On the west by the outermost boundary of state waters.

(2) No vessel or person on a vessel with a trawl or dredge may possess

## § 697.25

horseshoe crabs in the area described in paragraph (f)(1) of this section.

(3) Horseshoe crabs caught in the area described in paragraph (f)(1) of this section must be returned immediately to the water without further harm.

[64 FR 68248, Dec. 6, 1999, as amended at 66 FR 8911, Feb. 5, 2001]

### § 697.24 Exempted waters for Maine State American lobster permits.

A person or vessel holding a valid permit or license issued by the State of Maine that lawfully permits that person to engage in commercial fishing for American lobster may, with the approval of the State of Maine, engage in commercial fishing for American lobsters in the following areas designated as EEZ, if such fishing is conducted in such waters in accordance with all other applicable Federal and State regulations:

(a) West of Monhegan Island in the area located north of the line 43.5 deg.42'08" N. lat., 69.5 deg.34'18" W. long., and 43.5 deg.42'15" N. lat., 69.5 deg.19'18" W. long.

(b) East of Monhegan Island in the area located west of the line 43.5 deg.44'00" N. lat., 69.5 deg.15'05" W. long., and 43.5 deg.48'10" N. lat., 69.5 deg.08'01" W. long.

(c) South of Vinalhaven in the area located west of the line 43.5 deg.521" N. lat., 68.5 deg.39'54" W. long., and 43.5 deg.48'10" N. lat., 67.5 deg.40'33" W. long.

(d) South of Boris Bubert Island in the area located north of the line 44.5 deg.19'15" N. lat., 67.5 deg.49'30" W. long., and 44.5 deg.23'45" N. lat., 67.5 deg.40'33" W. long.

### § 697.25 Adjustment to management measures.

(a) On or before February 15, 2001, and annually on or before February 15, thereafter, NMFS may, after consultation with the Commission, publish a proposed rule to implement additional or different management measures for Federal waters in any of the management areas specified in § 697.18 if it is determined such measures are necessary to achieve or be compatible with ISFMP objectives, or the ISFMP, to be consistent with the national standards of the Magnuson-Stevens Act, or to

meet overfishing and rebuilding requirements of the Magnuson-Stevens Act. These management measures may include, but are not limited to, continued reductions of fishing effort or numbers of traps, increases in minimum or decreases in maximum size, increases in the escape vent size, decreases in the lobster trap size, closed areas, closed seasons, landing limits, trip limits and other management area-specific measures as may be identified and recommended by the Commission prior to December 1 of the previous year. After considering public comment, NMFS may publish a final rule to implement any such measures.

(b) *Conservation equivalency measures.* The Regional Administrator may consider future recommendations for modifications to Federal regulations based on conservation equivalency for American lobster that are formally submitted to him/her in writing by the ASMFC. These recommendations must, for consideration by the Regional Administrator, contain the following supporting information:

(1) A description of how Federal regulations should be modified;

(2) An explanation of how the recommended measure(s) would achieve a level of conservation benefits for the resource equivalent to the applicable Federal regulations;

(3) An explanation of how Federal implementation of the conservation equivalent measure(s) would achieve ISFMP objectives, be consistent with the Magnuson-Stevens Act national standards, and be compatible with the effective implementation of the ISFMP; and

(4) A detailed analysis of the biological, economic, and social impacts of the recommended conservation equivalent measure(s). After considering the recommendation and the necessary supporting information, NMFS may issue a proposed rule to implement the conservation equivalent measures. After considering public comment, NMFS may issue a final rule to implement such measures.

(c) At any other time, NMFS may publish a proposed rule, after consultation with the Commission, to implement any additional or different management measures in order to achieve

**§ 697.26**

**50 CFR Ch. VI (10–1–08 Edition)**

ISFMP objectives or be compatible with Commission measures or recommendations or to be consistent with the national standards of the Magnuson-Stevens Act, or to meet overfishing and rebuilding requirements of the Magnuson-Stevens Act. After considering public comments, NMFS may publish a final rule to implement any such measures.

(d) Notwithstanding other provisions of this part, NMFS may publish any additional or different management measures as described herein without prior public comment, pursuant to and consistent with 5 U.S.C. 553.

[64 FR 68248, Dec. 6, 1999, as amended at 68 FR 14931, Mar. 27, 2003]

**§ 697.26 EEZ Nearshore Management Area 5 Trap Waiver.**

(a) *Eligibility.* Vessels eligible for limited access lobster permits under § 697.4(a)(1) and limited access black sea

bass permits under § 648.4(a)(7)(i) of this chapter may request an Area 5 Trap Waiver Permit, under the procedures described in § 697.4.

(b) *Restrictions.* A vessel issued an Area 5 Trap Waiver permit under this section may engage in trap fishing for black sea bass in EEZ Nearshore Management Area 5 and is exempt from the provisions of § 697.19 and § 697.21 if such fishing is conducted in accordance with all other provisions of this section and all other Federal and state laws and regulations applicable to lobster and black sea bass fishing.

(1) A vessel issued a permit under this section may retain, land and sell an incidental allowance of lobster equal to the non-trap harvest restrictions specified in § 697.17(a).

(2) A vessel issued a permit under this section may not possess on board or deploy bait or baited traps.

## List of CFR Sections Affected

All changes in this volume of the Code of Federal Regulations which were made by documents published in the FEDERAL REGISTER since January 1, 2001, are enumerated in the following list. Entries indicate the nature of the changes effected. Page numbers refer to FEDERAL REGISTER pages. The user should consult the entries for chapters and parts as well as sections for revisions.

For the period before January 1, 2001, see the “List of CFR Sections Affected, 1949–1963, 1964–1972, 1973–1985, and 1986–2000” published in 11 separate volumes.
