

States do not introduce SVC into the United States.

(4) For a holding facility to be approved by the Administrator:

(i) The holding facility must be sufficiently isolated to prevent direct or indirect contact of the live fish, fertilized eggs, or gametes it contains with any other SVC-susceptible species in the United States;

(ii) The holding facility must be constructed to provide adequate protection against environmental conditions and so that it can be adequately cleaned, washed and disinfected;

(iii) Provision must be made for disposal of fish carcasses, shipping water, waste and any associated shipping materials in a manner that will prevent dissemination of disease;

(iv) Provision must be made for adequate sources of feed and water and for attendants for the care and feeding of live fish, fertilized eggs, or gametes in the facility;

(v) The holding facility must comply with all applicable local, State and Federal requirements for environmental quality.

(vi) The holding facility must comply with any additional requirements that may be imposed by the Administrator for a particular shipment if necessary to prevent the dissemination of disease.
