

Nuclear Regulatory Commission

§ 75.7

§ 75.6 Facility and location reporting.

(a) Except where otherwise specified, all communications concerning the regulations in this Part shall be addressed to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, DC 20555-0001. Written communications may be delivered in person to the Nuclear Regulatory Commission at One White Flint North, 11555 Rockville Pike, Rockville, MD 20852-2738 between 7:30 a.m. and 4:15 p.m. eastern time. If a submittal dead-

line falls on a Saturday, Sunday, or a Federal holiday, the next Federal working day becomes the official due date.

(b) Each applicant, licensee, or certificate holder who has been given notice by the Commission in writing that its facility or location is required to report under the Safeguards Agreement shall make its initial and subsequent reports, including attachments, in an appropriate format defined in the instructions.

(c) *Facilities*—Specific information regarding facilities is to be reported as follows:

Item	Section	Manner of delivery
Initial Inventory Report	75.32	As specified by printed instructions for preparation of DOE/NRC Form-742.
Inventory Change Reports	75.34	As specified by printed instructions for preparation of DOE/NRC Form-741 and Form-740M.
Material Status Reports	75.35	As specified by printed instructions for preparation of DOE/NRC Form-742, Form-742C, and Form-740M.
Special Reports	75.36	To the NRC Headquarters Operations Center.
Facility information	75.10(d)	As specified by printed instructions for Form N-71 and associated forms.
Site information	75.10(e)	As specified by printed instructions for preparation of DOC/NRC Form AP-A and associated forms.

(d) *Locations*—Specific information regarding locations is to be reported as follows:

Item	Section	Manner of delivery
Fuel cycle-related research and development information.	75.11(c)(1)	As specified by printed instructions for preparation of DOC/NRC Form AP-1 and associated forms.
Fuel cycle-related manufacturing and construction information.	75.11(c)(2)	As specified by printed instructions for preparation of DOC/NRC Form AP-1 and associated forms.
Mines and concentration plant information ...	75.11(c)(3)	As specified by printed instructions for preparation of DOC/NRC Form AP-1 and associated forms.
Impure source material possession information.	75.11(c)(4)	As specified by printed instructions for preparation of DOC/NRC Form AP-1 and associated forms.
Imports and exports of source material for non-nuclear end uses.	75.11(c)(5)	As specified by printed instructions for preparation of DOC/NRC Form AP-1 and associated forms.
IAEA safeguards-exempted and terminated nuclear material information.	75.11(c)(6)	As specified by printed instructions for preparation of DOC/NRC Form AP-1 and associated forms.
Imports and exports of non-nuclear material and equipment.	75.11(c)(7)	As specified by printed instructions for preparation of DOC/NRC Form AP-1 and associated forms.

[73 FR 78609, Dec. 23, 2008]

§ 75.7 Notification of IAEA safeguards.

(a) The licensee must inform the NRC:

- (1) Before the licensee begins an activity that may be subject to the Safeguards Agreement; or
- (2) Within 30 days of beginning an activity subject to the Additional Protocol.

(b) The Commission, by written notice, will inform the applicant, licensee, or certificate holder of those facilities subject to the application of IAEA safeguards.

(c) Such notice is effective until the Commission informs the licensee or certificate holder, in writing, that its

§ 75.8

facility or location is no longer so designated. Whenever a previously designated facility or location is no longer subject to the application of IAEA safeguards, the Commission will give the licensee or certificate holder prompt notice to that effect.

[73 FR 78609, Dec. 23, 2008]

§ 75.8 IAEA inspections.

(a) As provided in the Safeguards Agreement and Additional Protocol, inspections may be ad hoc, routine, special, or a complementary access (or a combination of the foregoing). The objectives of the IAEA inspectors in the performance of inspections are as follows:

(1) Ad hoc inspections to verify information contained in the licensee's, applicant's, or certificate holder's facility information or initial inventory report, or to identify and verify changes in the situation which have occurred after the initial inventory reporting date at any location where the initial inventory report or any inspections carried out indicate that nuclear material subject to safeguards under the Safeguards Agreement may be present;

(2) Ad hoc inspections to identify and, if possible, verify the quantity and composition of the nuclear material referred to in notifications specified under § 75.43(b) (pertaining to exports) or § 75.43(c) (pertaining to imports) at any place where nuclear material may be located;

(3) Routine inspections are conducted as specified by the facility attachments referred to in § 75.15 to verify nuclear material and as-built facility design at the strategic points and the records maintained under this part;

(4) Special inspections may be conducted at any of the places specified above and any additional places where the Commission (in coordination with other Federal agencies), in response to an IAEA request, finds access to be necessary;

(5) Complementary access may be conducted at a location, using measures permitted under the Additional Protocol and as specified by managed access procedures, for the IAEA inspectors to verify the completeness and accuracy of the information provided on

10 CFR Ch. I (1–1–10 Edition)

DOC/NRC Form AP-1 or AP-A and associated forms; and

(6) Complementary access must be provided at any additional locations where the Commission (in coordination with other Federal agencies), in response to an IAEA request, finds access to be necessary.

(b) The NRC will notify the applicant, licensee, or certificate holder of each such inspection or complementary access in writing as soon as possible after receiving the IAEA's notice from the U.S. Department of State. The applicant, licensee, or certificate holder should consult with the Commission immediately if the inspection or complementary access would unduly interfere with its activities or if its key personnel cannot be available.

(c) Each applicant, licensee, or certificate holder subject to the provisions of this part shall recognize as a duly authorized representative of the IAEA any person bearing IAEA credentials for whom the NRC has provided written or electronic authorization that the IAEA representative is permitted to conduct inspection activities on specified dates. If the IAEA representative's credentials have not been confirmed by the NRC, the applicant, licensee, or certificate holder shall not admit the person until the NRC has confirmed the person's credentials. The applicant, licensee, or certificate holder shall notify the Commission promptly, by telephone, whenever an IAEA representative arrives at a facility or location without advance notification. The applicant, licensee, or certificate holder shall also contact the Commission, by telephone, within one hour with respect to the credentials of any person who claims to be an IAEA representative and shall accept written or electronic confirmation of the credentials from the NRC. Confirmation may be requested through the NRC Operations Center (commercial telephone number 301-816-5100).

(d) Each applicant, licensee, or certificate holder subject to the provisions of this part shall allow the IAEA opportunity to conduct an NRC-approved inspection or complementary access of the facility or location to verify the information submitted under §§ 75.10, 75.11, and 75.31 through 75.43. The NRC
