§ 1016.8 Approval for processing access permittees for security facility approval.

(a) An access permittee who has a need to use, process, store, reproduce, transmit, or handle Restricted Data at any location in connection with its permit shall promptly request a DOE security facility approval.

(b) The request shall include the following information: The name and address of the permittee; the extent and scope of the classified activity and the highest classification of Restricted Data to be received; a written statement in the form of a security plan which outlines the permittee’s proposed security procedures and controls for the protection of Restricted Data, including a floor plan of the areas(s) in which the classified matter is to be used, processed, stored, reproduced, transmitted, and handled.

(c) The DOE will promptly inform the permittee of the acceptability of the request for further processing and will notify the permittee of its decision in writing.

§ 1016.9 Processing security facility approval.

The following receipt of an acceptable request for security facility approval, the DOE will perform an initial security survey of the permittee’s facility to determine that granting a security facility approval would be consistent with the national security. If DOE makes such a determination, security facility approval will be granted. If not, security facility approval will be withheld pending compliance with the security survey recommendations or until a waiver is granted pursuant to §1016.6 of this part.

§ 1016.10 Grant, denial, or suspension of security facility approval.

Notification of the DOE’s grant, denial, or suspension of security facility approval will be furnished the permittee in writing, or orally with written confirmation. This information may also be furnished to representatives of the DOE, DOE contractors, or other Federal agencies having a need to transmit Restricted Data to the permittee.

§ 1016.11 Cancellation of requests for security facility approval.

When a request for security facility approval is to be withdrawn or cancelled, the DOE Operations Office will be notified by the requester immediately by telephone and confirmed in writing so that processing of this approval may be terminated.

§ 1016.12 Termination of security facility approval.

Security facility approval will be terminated when:

(a) There is no longer a need to use, process, store, reproduce, transmit, or handle Restricted Data at the facility; or

(b) The DOE makes a determination that continued security facility approval is not in the interest of national security.

In such cases the permittee will be notified in writing of the determination, and the procedures outlined in §1016.39 of this part will apply.

§ 1016.21 Protection of Restricted Data in storage.

(a) Persons who possess Restricted Data pursuant to an Access Permit shall store Secret and Confidential documents and material when not in use in accordance with one of the following methods:

(1) In a locked vault, safe, or safe-type steel file cabinet having a 3-position dial-type combination lock; or

(2) In a dual key, bank safety deposit box; or

(3) In a steel file cabinet secured by a steel lock bar and a 3-position dial-type changeable combination padlock; or

(4) In a locked steel file cabinet when located in a security area established under §1016.23 or when the cabinet or the place in which the cabinet is located is under DOE-approved intrusion alarm protection.

(b) Changes of combination: Each permittee shall change the combination on locks of his safekeeping equipment whenever such equipment is placed in use, whenever an individual...
§ 1016.22 Protection while in use.

While in use, documents and material containing Restricted Data shall be under the direct control of an appropriately cleared individual, and the Restricted Data shall be capable of being removed from sight immediately.

§ 1016.23 Establishment of security areas.

(a) When, because of their nature or size, it is impracticable to safeguard documents and material containing Restricted Data in accordance with the provisions of §§1016.21 and 1016.22, a security area to protect such documents and material shall be established.

(b) The following controls shall apply to security areas:

(1) Security areas shall be separated from adjacent areas by a physical barrier designed to prevent entrance into such areas, and access to the Restricted Data within the areas, by unauthorized individuals.

(2) During working hours, admittance shall be controlled by an appropriately cleared individual posted at each unlocked entrance.

(3) During nonworking hours, admittance shall be controlled by protective personnel on patrol, with protective personnel posted at unlocked entrances, or by such intrusion alarm system as DOE may approve.

(4) Each individual authorized to enter a security area shall be issued a distinctive badge or pass when the number of employees assigned to the area exceeds thirty.

§ 1016.24 Special handling of classified material.

When the Restricted Data contained in material is not ascertainable by observation or examination at the place where the material is located and when the material is not readily removable because of size, weight, radioactivity, or similar factors, DOE may authorize the permittee to provide such lesser protection than is otherwise required by §§1016.21 to 1016.23 inclusive, as DOE determines to be commensurate with the difficulty of removing the material.

§ 1016.25 Protective personnel.

Whenever protective personnel are required by §1016.23, such protective personnel shall:

(a) Possess a “Q” or “L” security clearance or access authorization or “Q(X)” or “L(X)” access authorization if the Restricted Data being protected is classified Confidential, or a “Q” security clearance or access authorization or “Q(X)” access authorization if the Restricted Data being protected is classified Secret.

(b) Be armed with sidearms of not less than .38 caliber.
