by the originating or lead lender, or any intermediary seller or broker; however, the purchasing Farm Credit System institution shall independently evaluate such information when exercising its independent credit judgment. No employee who performed a real estate appraisal on any collateral supporting a loan shall participate in the decision to purchase that loan. The independent credit judgment shall be documented by a credit analysis that considers factors set forth in the loan underwriting standards adopted pursuant to § 614.4150 of this part and is independent of the originating institution and any intermediary seller or broker. The credit analysis shall consider such credit and other borrower information as would be required by a prudent lender and shall include an evaluation of the capacity and reliability of the servicer. Boards of directors of jointly managed institutions shall adopt procedures to ensure that the interests of their respective shareholders are protected in participation between such institutions.

(f) *Limitations.* The aggregate principal amount of interests in loans purchased from a single lead lender and the aggregate principal amount of interests in loans purchased from other institutions shall not exceed the limits set in the institution's policy.

(g) *Sales with recourse.* When a loan or interest in a loan is sold with recourse, it shall be accorded the following treatment:

(1) The loan shall be considered, to the extent of the recourse, an extension of credit by the purchaser to the seller, as well as an extension of credit from the seller to the borrower(s), for the purpose of determining whether credit extensions to a borrower are within the lending limits established in subpart J of this part.

(2) The amount of the loan subject to the recourse agreement shall be considered a loan sold with recourse for the purpose of computing permanent capital ratios.

(h) *Transactions through agents.* Transactions pertaining to purchases of loans, including the judgement on creditworthiness, may be performed through an agent, provided that:

(1) The institution establishes the necessary criteria in a written agency agreement that outlines, at a minimum, the scope of the agency relationship and obligates the agent to comply with the institution's underwriting standards;

(2) The institution periodically reviews the agency relationship to determine if the agent's actions are in the best interest of the institution;

(3) The agent must be independent of the seller or intermediate broker in the transaction; and

(4) If an association's funding bank serves as its agent, the agency agreement must provide that:

(i) The association can terminate the agreement upon no more than 60 days notice to the bank;

(ii) The association may, in its discretion, require the bank to purchase from the association any interest in a loan that the association determines does not comply with the terms of the agency agreement or the association's loan underwriting standards.

(iv) If an institution repurchases a loan on which the stock has been retired, the borrower shall be required to repurchase stock in the amount of the minimum stock purchase requirement.

(2) *Loans sold into a secondary market.* An institution's bylaws may provide that all outstanding voting stock held by a borrower with respect to a loan shall be retired when the loan is sold into a secondary market.
