

Federal Housing Finance Board

§ 931.3

§ 931.1 Classes of capital stock.

The authorized capital stock of a Bank shall consist of the following instruments:

(a) Class A stock, which shall:

(1) Have a par value as determined by the board of directors of the Bank and stated in the Bank's capital plan;

(2) Be issued, redeemed, and repurchased only at its stated par value; and

(3) Be redeemable in cash only on six-months written notice to the Bank.

(b) Class B stock, which shall:

(1) Have a par value as determined by the board of directors of the Bank and stated in the Bank's capital plan;

(2) Be issued, redeemed, and repurchased only at its stated par value;

(3) Be redeemable in cash only on five-years written notice to the Bank; and

(4) Confer an ownership interest in the retained earnings, surplus, undivided profits, and equity reserves of the Bank; and

(c) Any one or more subclasses of Class A or Class B stock, each of which may have different rights, terms, conditions, or preferences as may be authorized in the Bank's capital plan, provided, however, that each subclass of stock shall have all of the characteristics of its respective class, as specified in paragraph (a) or (b) of this section.

§ 931.2 Issuance of capital stock.

(a) *In general.* A Bank may issue either one or both classes of its capital stock (including subclasses), as authorized by § 931.1, and shall not issue any other class of capital stock. A Bank shall issue its stock only to its members and only in book-entry form, and the Bank shall act as its own transfer agent. All capital stock shall be issued in accordance with the Bank's capital plan.

(b) *Initial issuance.* In connection with the initial issuance of its Class A and/or Class B stock (or any subclass of either), a Bank may issue such stock in exchange for its existing stock, through a conversion of its existing stock, or through any other fair and equitable transaction or method of distribution. As part of its initial stock issuance transaction, a Bank may distribute any portion of its then-existing

unrestricted retained earnings as shares of Class B stock.

§ 931.3 Minimum investment in capital stock.

(a) A Bank shall require each member to maintain a minimum investment in the capital stock of the Bank, both as a condition to becoming and remaining a member of the Bank and as a condition to transacting business with the Bank or obtaining advances and other services from the Bank. The amount of the required minimum investment shall be determined in accordance with the Bank's capital plan and shall be sufficient to ensure that the Bank remains in compliance with its minimum capital requirements. A Bank shall require each member to maintain its minimum investment for as long as the institution remains a member of the Bank and for as long as the member engages in any activity with the Bank against which the Bank is required to maintain capital.

(b) A Bank may establish the minimum investment required of each member as a percentage of the total assets of the member, as a percentage of the advances outstanding to the member, as a percentage of any other business activity conducted with the member, on any other basis that is approved by the Finance Board, or any combination thereof.

(c) A Bank may require each member to satisfy the minimum investment requirement through the purchase of either Class A or Class B stock, or through the purchase of one or more combinations of Class A and Class B stock that have been authorized by the board of directors of the Bank in its capital plan. A Bank, in its discretion, may establish a lower minimum investment for members that invest in Class B stock than is required for members that invest in Class A stock, provided that such reduced investment provides sufficient capital for the Bank to remain in compliance with its minimum capital requirements.

(d) Each member of a Bank shall at all times maintain an investment in the capital stock of the Bank in an amount that is sufficient to satisfy the minimum investment required for that
