Small Business Administration

§ 107.230 Permitted sources of Private Capital for Licensees.

Private Capital means the contributed capital of a Licensee, plus unfunded binding commitments by Institutional Investors (including commitments evidenced by a promissory note) to contribute capital to a Licensee.

(a) Contributed capital. For purposes of this section, contributed capital means the paid-in capital and paid-in surplus of a Corporate Licensee, or the partners' contributed capital of a Partnership Licensee, in either case subject to the limitations in paragraph (b) of this section.

(b) Exclusions from Private Capital. Private Capital does not include:

(1) Funds borrowed by a Licensee from any source.

(2) Funds obtained through the issuance of Leverage.

(3) Funds obtained directly or indirectly from any Federal, State, or local government agency or instrumentality, except for:

(i) Funds invested by a public pension fund;

(ii) Funds obtained from the business revenues (excluding any governmental appropriation) of any federally chartered or government-sponsored corporation established before October 1, 1987, to the extent that such revenues are reflected in the retained earnings of the corporation; and

(iii) Has a reasonable timetable for achieving Regulatory Capital of at least $5,000,000.

(2) Participating Securities issuers. A Licensee that wishes to be eligible to apply for Participating Securities must have Regulatory Capital of at least $10,000,000, unless it demonstrates to SBA's satisfaction that it can be financially viable over the long term with a lower amount. Under no circumstances can the Licensee have Regulatory Capital of less than $5,000,000.

(b) Companies licensed before October 1, 1996. A company licensed before October 1, 1996 must meet the minimum capital requirements applicable to such company, as required by the regulations in effect on September 30, 1996. See §107.1120(c)(2) for Leverage eligibility requirements.
