§ 123.19 May I request an increase in the amount of an economic injury loan?

SBA will consider your request for an increase in the loan amount if you can show that the increase is essential for your business to continue and is based on events occurring after SBA approved your original loan which were beyond your control. For example, delays may have occurred beyond your control which prevent you from resuming your normal business activity in a reasonable time frame. Your request for an increase in the loan amount must be related to the disaster for which the SBA economic injury disaster loan was originally made.

[63 FR 15072, Mar. 30, 1998]

§ 123.20 How long do I have to request an increase in the amount of a physical disaster loan or an economic injury loan?

You should request a loan increase as soon as possible after you discover the need for the increase, but not later than two years after SBA approved your physical disaster or economic injury loan. After two years, the SBA Associate Administrator for Disaster Assistance (AA/DA) may waive this limitation after finding extraordinary and unforeseeable circumstances.

§ 123.21 What is a mitigation measure?

A mitigation measure is something done for the purpose of protecting real and personal property against disaster related damage. You may implement mitigation measures after a disaster occurs (post-disaster) to protect against recurring disaster related damage, or before a disaster occurs (pre-disaster) to protect against future disaster related damage. Examples of mitigation measures include building retaining walls, sea walls, grading and contouring land, elevating flood prone structures, relocating utilities, or retrofitting structures to protect against high winds, earthquakes, flood, wildfires, or other physical disasters. Section 123.107 specifically addresses post-disaster mitigation for home disaster loans, and §123.204 specifically addresses post-disaster mitigation for businesses. Sections 123.400 through 123.412 specifically address pre-disaster mitigation.
